INTRODUCTION

The Utah Office of Administrative Rules (Office) is pleased to present the twenty-sixth edition of the *Utah Administrative Rules Index of Changes* (*Index*). State law requires the Office to "publish at least annually an index of all changes to the administrative code and the effective date of each change" (Subsection 63G-3-402(1)(f)). The first edition of the *Index* was published in 1992.

Scope and Purpose

The *Index* provides citizens with a valuable tool for researching the regulatory process in Utah. All rule changes made effective between January 2, 2016, and January 1, 2017, appear in this *Index*. It also includes nonsubstantive changes and 120-day (emergency) rules.

The need for an index of changes is clear given the volume of rulemaking activity that occurs during the year. From January 2, 2016, through January 1, 2017, state agencies made 1,066 rulemaking actions effective. An easy-to-use index is necessary for agency personnel, administrators, elected officials, and the general public to keep abreast of the frequent changes in Utah's administrative rules.

Administrative Rulemaking

Statute requires state agencies to engage in activities that either affect the public or other governmental agencies. Yet, for many different reasons, the statute may not spell out the details necessary to implement these activities. In these circumstances, a state agency exercises a particular type of delegated lawmaking power called rulemaking. Within the scope of its statutory or constitutional functions, an agency may write administrative rules that describe and limit its own activities and the activities of classes of persons or entities the agency regulates (e.g., the Department of Public Safety, Division of Driver License makes rules regulating commercial driver licenses).

An Administrative Rule

The law defines an administrative rule as an agency's written statement that:
(i) is explicitly or implicitly required by state or federal statute or other applicable law; (ii) implements or interprets a state or federal legal mandate; and (iii) applies to a class of persons or another agency (Subsection 63G-3-102(17)(a)).

The law further provides that an agency must issue an administrative rule:
. . . when agency action: (a) authorizes, requires, or prohibits an action; (b) provides or prohibits a material benefit; (c) applies to a class of persons or another agency; and (d) is explicitly or implicitly authorized by statute. (Subsection 63G-3-201(2)).

An agency creates a rule by following the procedures outlined in the Utah Administrative Rulemaking Act (Act; Title 63G, Chapter 3). An administrative rule made in compliance with the Act has the effect of law (Subsection 63G-3-202(2)). Although properly promulgated administrative rules have the effect of law, rules are subordinate to, and may not conflict with, higher forms of law (e.g., state and federal constitutions and statutes).

The Rulemaking Process

Generally, the procedures outlined in the Act require that an agency file its rule, along with summary information (called a rule analysis), with the Office (Section 63G-3-301). For most types of rulemaking actions, the rule analysis information includes: a reason for the rule or change; a summary of the rule or change; the name of a person that an interested person may contact; the anticipated cost or savings impact of the rule; the compliance costs for persons affected by the rule; comments by the department head regarding the fiscal impact the rule may have on businesses; and the source of the agency's legal authority for rulemaking (Subsection 63G-3-301(8)).

By filing this information with the Office, an agency signals its intention to make a new rule, or to amend, or repeal an existing rule. The Office then publishes the rule analysis and rule text in the *Utah State Bulletin* (*Bulletin*) (on rare occasion, the text is omitted due to its length; in this case it is always available for public inspection at the Office, the agency, and on the Internet). The Office also publishes the *Utah State Digest* (*Digest*). The *Digest* is an e-mail publication that contains a portion of the rule analysis information provided by the agency. The *Bulletin* and *Digest* are published twice a month, on the 1st and 15th, enabling the public, elected leaders, the legal community, state agencies, and researchers to learn of proposed rule changes. After the publication date, the Act requires that an agency accept public comment on a Notice of Proposed Rule for a minimum of 30 days.

After considering public comment, the agency sets the effective date of the proposed rule. The date may be no fewer than seven calendar days after the close of the public comment period nor more than 120 days after the date the rule was published in the *Bulletin*. The agency notifies the Office of the effective date (Subsections 63G-3-301(11) and (12)). The rule is enforceable as of its effective date. The rule is then codified (included) in the *Utah Administrative Code* (*Code*).

The *Code* and *Bulletin* are available on the Internet at https://rules.utah.gov. Anyone with an e-mail address may subscribe to, or join, the *Digest* listserv by completing the subscription form available at https://rules.utah.gov.

Index Format

This *Index* contains two indexes and one table. Each index lists the administrative rulemaking actions made effective from January 2, 2016, through January 1, 2017. The first index is arranged by agency, and the second index is arranged by keyword (subject). The table lists the agency code numbers and names that were changed. To use the indexes, it is helpful to know something about the organization of administrative rules.

Organization of Rules

Each rulemaking agency in state government is assigned an agency code number (title number). Each of these title numbers begins with the letter "R" and may be referred to as an R-number. Each administrative rule in the *Code* is assigned a two part number, separated by a hyphen, in this order: title number-rule number. Each rule section in the *Code* is assigned a three-part number, separated by hyphens, in this order: title number-rule number-section number. For example, a complete citation to the Office of Administrative Rules' hearing procedures section is Section R15-1-5, with "R15" designating the title, "1" designating the rule number, and "5" designating the section number. This structure is established by Section 63G-3-702. This numbering scheme is similar to the titles, chapters, and sections found in the *Utah Code*.

Subsection or paragraph numbering has been left to the discretion of each agency. Several different subsection numbering systems appear in the *Code*, with most agencies using the outline format also used in the *Utah Code*, some agencies using a decimal system, and others using different outline variations.

Agency Index

The Agency Index (see Figure 1) includes six columns and is arranged sequentially first by department and agency, then by code citation and effective date. The column labeled "Code Reference" contains the administrative code citation. An entry containing two code citations with one in parentheses indicates that the agency has changed its code citation to the citation in the parentheses (e.g., (Changed to R52-7)). The column labeled "Title" contains the catchline (descriptive title). The next column provides the Office of Administrative Rules' file number for the rule (File Number).

The last three columns contain information about the rulemaking action. The "Action" column contains a three-letter code indicating the type of rulemaking action. These abbreviations are defined on page 8. The next column contains the effective date of the rulemaking action. The final column contains the issue and page number of the *Bulletin* where the rulemaking action was published. For example, 2012-16/188 means that the rulemaking action was published in issue 2012-16 of the *Bulletin* (August 15, 2012) on page 188. Nonsubstantive changes, changes that do not affect the application or results of agency actions, are not printed and are so annotated in the last column.

Keyword (Subject) Index

The Keyword Index (see Figure 2) is arranged alphabetically by subject. Up to four different descriptive terms or phrases associated with each rulemaking action are used as keywords to categorize it by subject. These keywords are assigned by the agency that filed the rulemaking action and are designed to aid topical research of the *Code*. Because a rulemaking action may have more than one keyword, the action may be listed more than once in this index.

Figure 2. Keyword Index example

The keyword appears underlined. Under each keyword the rulemaking actions are arranged in columns by department and agency name, code reference, and file number (e.g., Environmental Quality; Air Quality, R307-306, 36824). The remaining three columns provide the same information regarding type of action, effective date, and publication information, as the last three columns in the Agency Index (e.g., NSC, 12/28/2012, Not Printed).

Table of Changes to Assigned Title and Rule Numbers

The Table of Changes to Assigned Title and Rule Numbers (referred to as the Correlation Table in previous editions) is arranged sequentially by the department and agency name, and the old agency title number (R-number). The table is divided into two columns. The first column contains the old agency name and agency code number, and the second contains the new agency name and agency code number. This table is useful when researching previous rules enforced by an agency or the evolution of an agency's rules over time.

Abbreviations

The following abbreviations are used throughout the *Index*:

5YR (Five-Year Review): a five-year review must be filed by an agency for each of its administrative rules at least once every five years. If an agency intends to retain a rule on the books for more than five years, the agency must file a "Five-Year Notice of Review and Statement of Continuation," which includes a statement justifying the rule's continuation. A Five-Year Review may be submitted more frequently at the option of the agency (Section 63G-3-305).

AMD (Amendment): means a type of proposed rule the text of which proposes substantive changes to text that already exists in the *Code*. See Subsection 63G-3-301(4), and Sections R15-4-5a and R15-4-9.

CPR (Change in Proposed Rule): means a type of rulemaking action that substantively amends a proposed rule that has been published in the *Bulletin* but has not been made effective by the agency. See Section 63G-3-303, and Sections R15-4-5b and R15-4-7.

EMR (120-Day (Emergency) Rule): means a type of rulemaking action that creates a temporary rule, effective for a maximum of 120 days, which becomes effective when filed with the Office or on a later date designated by the agency. The procedure to create an emergency rule may only be used by the agency when regular rulemaking procedures would "cause imminent peril to public health, safety, or welfare; cause an imminent budget reduction because of budget restraints or federal requirements; or place the agency in violation of federal or state law." See Section 63G-3-304 and Section R15-4-8.

EXD (Expired Rule): means a type of rulemaking action filed by the Office on an administrative rule for which an agency has failed to file either a "Five-Year Notice of Review and Statement of Continuation" (5YR), or an Extension (EXT) on or before the date specified in a notice provided by the Office. Upon expiration of the rule, the Office is required to remove the rule from the *Code*. The agency may no longer enforce the rule, and it must follow regular rulemaking procedures to replace the rule if necessary. The expiration of an administrative rule for failure to comply with the five-year review is a penalty for noncompliance with the statute. See Subsection 63G-3-305(8).

EXP (Expedited Rule): means a special type of rulemaking action that may only be filed by the School and Institutional Trust Lands Administration under the authority of Subsection 53C-1-201(3)(c). An expedited rule may go into effect immediately upon filing, or on a future designated date. See Subsection 53C-1-201(3)(c) and Rule R850-10.

EXT (Five-Year Review Extension): means a type of rulemaking action filed by an agency claiming a 120-day extension in which to comply with the five-year review procedures. See Section 63G-3-305.

GEX (Governor's Extension): means a type of rulemaking action filed by the Office that documents a Declaration of the Governor extending an administrative rule, based on procedures specified in the Act, after the Legislature has taken action not to reauthorize it. See Section 63G-3-502.

LNR (Legislative Nonreauthorization): means a rulemaking action filed by the Office that documents the action of the Legislature (a bill) not to reauthorize a rule or a part of a rule (down to the complete paragraph level). If a rule that is not reauthorized by the Legislature is not extended by the Governor (see GEX -- Governor's Extension), the Office removes the rule from the *Code*. See Section 63G-3-502.

NEW (New Rule): means a type of proposed rule the text of which does not already exist in the *Code*. See Subsection 63G-3-301(4), and Sections R15-4-5a and R15-4-9.

NSC (Nonsubstantive Change): means a type of rulemaking action that makes changes to existing rule text that does not substantively affect the application or results of agency actions under that rule. Examples include corrections of spelling, grammar, or rule numbering. A nonsubstantive change filed by an agency is not printed in the *Bulletin*. See Subsections 63G-3-201(4)(d), and 63G-3-303(2); and Section R15-4-6.

REP (Repeal): means a type of proposed rule where the entire rule text is deleted from the *Code*. See Subsection 63G-3-301(4), and Sections R15-4-5a and R15-4-9.

R&R (Repeal and Reenact): means a type of proposed rule where the entire rule text is deleted from the *Code* and replaced with alternative text. See Subsection 63G-3-301(9)(a), and Sections R15-4-5a and R15-4-9.
