EDITOR’S NOTES

CODIFYING ERROR ON FIVE-YEAR REVIEWS UNDER TITLE R510

Subsequent to the update of the Utah Administrative Code, but before the Five-Year Notices of Review and Statements of Continuation were published in the Utah State Bulletin, the Division of Administrative Rules (DAR) determined that the filings were incomplete. DAR notified the Division of Aging and Adult Services of the problem. The Division of Aging and Adult Services withdrew these filings with the intent to file these Five-Year Notices of Review and Statements of Continuation again at a later date.

DAR has corrected the history note appearing at the end of each rule in the Utah Administrative Code to indicate the proper Notice of Continuation date. DAR regrets any confusion this action may have caused.

If you have any questions regarding any of these corrections, please contact Michael G. Broschinsky, Administrative Code Editor, Division of Administrative Rules, PO Box 141007, Salt Lake City, UT 84114, phone: (801) 538-3003, FAX: (801) 538-1773, or Internet E-mail: mbroschi@utah.gov.

NOTICES OF PROPOSED RULES

A state agency may file a PROPOSED RULE when it determines the need for a new rule, a substantive change to an existing rule, or a repeal of an existing rule. Filings received between June 2, 2007, 12:00 a.m., and June 15, 2007, 11:59 p.m. are included in this, the July 1, 2007, issue of the Utah State Bulletin.

In this publication, each PROPOSED RULE is preceded by a RULE ANALYSIS. This analysis provides summary information about the PROPOSED RULE including the name of a contact person, anticipated cost impact of the rule, and legal cross-references.

Following the RULE ANALYSIS, the text of the PROPOSED RULE is usually printed. New rules or additions made to existing rules are underlined (e.g., example). Deletions made to existing rules are struck out with brackets surrounding them (e.g., [example]). Rules being repealed are completely struck out. A row of dots in the text between paragraphs (······) indicates that unaffected text from within a section was removed to conserve space. Unaffected sections are not printed. If a PROPOSED RULE is too long to print, the Division of Administrative Rules will include only the RULE ANALYSIS. A copy of each rule that is too long to print is available from the filing agency or from the Division of Administrative Rules.

The law requires that an agency accept public comment on PROPOSED RULES published in this issue of the Utah State Bulletin until at least July 31, 2007. The agency may accept comment beyond this date and will list the last day the agency will accept comment in the RULE ANALYSIS. The agency may also hold public hearings. Additionally, citizens or organizations may request the agency to hold a hearing on a specific PROPOSED RULE. Section 63-46a-5 requires that a hearing request be received "in writing not more than 15 days after the publication date of the PROPOSED RULE."

From the end of the public comment period through October 29, 2007, the agency may notify the Division of Administrative Rules that it wants to make the PROPOSED RULE effective. The agency sets the effective date. The date may be no fewer than seven calendar days after the close of the public comment period nor more than 120 days after the publication date of this issue of the Utah State Bulletin. Alternatively, the agency may file a CHANGE IN PROPOSED RULE in response to comments received. If the Division of Administrative Rules does not receive a NOTICE OF EFFECTIVE DATE or a CHANGE IN PROPOSED RULE, the PROPOSED RULE filing lapses and the agency must start the process over.

The public, interest groups, and governmental agencies are invited to review and comment on PROPOSED RULES. Comment may be directed to the contact person identified on the RULE ANALYSIS for each rule.

PROPOSED RULES are governed by Section 63-46a-4; and Rule R15-2, and Sections R15-4-3, R15-4-4, R15-4-5, R15-4-9, and R15-4-10.

NOTICE OF PROPOSED RULE

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: During the 2004 legislative session, H.B. 92 was passed that caused the Brucellosis Rule to be in conflict with new laws (Section 4-31-16.5). (DAR NOTE: H.B. 92 (2004) is found at Chapter 325, Laws of Utah 2004, and was effective 05/03/2004.)

SUMMARY OF THE RULE OR CHANGE: This action deletes the rule due to conflict with the existing law. The rule is repealed in its entirety.

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 4-31-16.5 and Subsection 4-2-2(1)(j)

ANTICIPATED COST OR SAVINGS TO:
✓ THE STATE BUDGET: The state does not own any cattle and livestock inspectors employed by the state are already on the premises for other reasons. There is neither a cost or savings.
✓ LOCAL GOVERNMENTS: Local government is not involved in the enforcement of this rule plus they do not own any cattle and therefore would not be impacted by this.
✓ OTHER PERSONS: Those cattlemen that choose not to vaccinate will save money.

COMPLIANCE COSTS FOR AFFECTED PERSONS: There is no cost. The reason there is no cost is because we are repealing the regulation eliminating the enforcement cost associated to this rule by both the Department of Agriculture and Food and livestockmen.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: The request to have this rule repealed will eliminate any fiscal impact that the affected industry may have experienced. Leonard M. Blackham, Commissioner

Raw Milk for Retail

NOTICE OF PROPOSED RULE
(Amendment)
DAR FILE NO.: 30100
FILED: 06/14/2007, 16:49

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The purpose of this amendment is to: 1) bring the wording and intent of the administrative rule in line with the language of the Utah Dairy Act that was modified by H.B. 311 in the 2007 legislative session; and 2) implement regulatory changes to address gaps identified by a large raw milk associated outbreak of Campylobacteriosis along the Wasatch Front in early 2007. (DAR NOTE: H.B. 311 (2007) is found at Chapter 165, Laws of Utah 2007, and was effective 04/30/2007.)
SUMMARY OF THE RULE OR CHANGE: The changes include: 1) prohibition of Cow Share Programs; 2) provisions for selling raw milk at self owned retail stores; 3) testing frequency for unpackaged raw milk sold on premises, packaged raw milk sold on premises, and packaged raw milk sold at self-owned retail stores; 4) specifying types of micro-bacteriological tests to be run on milk sold at self-owned retail stores; 5) requirements for a hazard analysis and critical control point plan for all raw for retail dairies; 6) details of provisions for Pathogen testing program for raw milk sold at self owned retail stores; and 7) modification of labeling guidelines for raw for retail milk.

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Title 4, Chapter 3; and H.B. 311 (2007)

ANTICIPATED COST OR SAVINGS TO:
- THE STATE BUDGET: The rule upgrades the standards for raw milk. This could increase the regulatory investment of the Utah Department of Agriculture and Food (UDAF). However, this will be offset by increasing the effectiveness of the regulatory actions. The rule also places most of the financial cost of the follow-up sampling and inspections onto the producer, as explained under "Cost for Affected Persons" below. The higher standards in this rule will keep down the costs to other state agencies involved with investigation of disease outbreaks.
- LOCAL GOVERNMENTS: The rule places no responsibilities on local government. There should be no costs or savings to them. The higher standards in this rule will keep down the costs of local agencies involved with investigation of disease outbreaks.
- OTHER PERSONS: The rule will reduce the potential costs of medical care for raw milk consumers as an aggregate and will reduce the costs to the economy due to missed productivity of workers who get sick from consuming raw milk.

COMPLIANCE COSTS FOR AFFECTED PERSONS: There will be extra inspections and sampling of dairies which failed the standards. There are fees for this extra work. The frequency will vary from producer to producer depending on herd health, facility sanitation, and other factors. Re-sampling performed by Compliance Officers at $36.75 per hour. Re-testing performed by State Dairy Testing Laboratory: Standard Plant Count - $10; Coliform Count - $25; Antibiotic Test - $ 5; Phosphatase Test - $15; DSCC Test - $5; DMSCC Confirmation $15; Coliform Confirmation $5; Pathogen Testing; Listeria monocytogenes - $30; Salmonella - $28; Campylobacter jejuni - $30; E. Coli 0157:H7 - $18. In the proposed regulations, existing raw milk dairies (there are four) will be required to retrofit their milk-holding tanks with temperature data recorders. The cost will vary depending on the age and make of the existing tank. The cost is estimated at around $1,000 each to meet this requirement. The costs associated with tests being conducted by a certified-independent third party laboratory could be higher than the cost estimates from the State Dairy Lab.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: This rule will impose additional testing and equipment purchase requirements on those affected by rule. These requirements are being implemented as per the legislative mandate of H.B. 311 and to minimize public health risks associated with consuming raw milk. The department's analysis of the fiscal impacts are covered in the accompanying comments for this rule and are reflective of our cost estimates associated with implementation. Leonard M. Blackham, Commissioner

THIS RULE MAY BECOME EFFECTIVE ON: 08/07/2007

AUTHORIZED BY: Leonard M. Blackham, Commissioner
normal lacteal secretion, practically free of colostrum, obtained by the complete milking of one or more healthy hoofed mammals.

A. "Raw milk" means milk as defined by law that has not been pasteurized, or heat treated. The word milk shall be interpreted to include the normal lacteal secretion, practically free of colostrum, obtained by the complete milking of one or more healthy hoofed mammals.

B. "Properly staffed" means a person or persons on premise available to sell milk, exchange money, and lock and secure the retail store.

C. "Quarterly pathogen testing verification" means a sample from the Raw for Retail batch is aseptically split by the Regulatory agency and tested for the prescribed pathogens at both the independent laboratory and the department laboratory and the results are evaluated and compared.

D. "Department" means the Utah Department of Agriculture and Food.

A permit shall be required to sell raw milk for retail. Such permit shall be suspended when these rules or applicable sections of the Utah Dairy Act, Utah Code Annotated (UCA), Vol. 1, Title 4, Chapter 3, are violated. Cow-share programs, as defined in the Utah Dairy Act, shall not be allowed, either in conjunction with a permitted raw for pasteurization dairy, a permitted raw milk for retail dairy, or in lieu of a permit to sell raw milk for retail.

The building and premises requirements at the time of the issuance of a new permit shall be the same as the current Grade A building guidelines. In addition to these guidelines, there shall be separate rooms provided for (1) packaging and sealing of raw milk, (2) the washing of returned multi-use containers when applicable, and (3) a sales room for the sale of raw milk in a properly protected area that is not located in any of the milk handling rooms. These rooms shall meet or exceed the construction standards of a Grade A milkhouse. If the Raw for Retail dairy also raises chickens, or other poultry, for meat and/or eggs, their housing and movement shall be restricted to areas that do not include the milkhouse, milk barn and their immediate surroundings, the corral and alleys where there is normally cows or goats, and other locations where there is normal cow or goat traffic. They shall also be restricted from areas normally considered traffic areas of the raw milk customers.

R70-330-5. Sanitation and Operating Requirements.

A. The Utah Department of Agriculture and Food, with the concurrence of the U.S. Food and Drug Administration (FDA) strongly advises against the consumption of raw milk. There are numerous documented outbreaks of milkborne disease involving Salmonella and Campylobacter infections directly linked to the consumption of unpasteurized milk. Cases of raw milk associated campylobacteriosis have been reported in the states of Arizona, California, Colorado, Georgia, Kansas, Maine, Montana, New Mexico, Oregon, Pennsylvania, and Utah. An outbreak of salmonellosis, involving 50 cases was confirmed in Ohio in 2002. Recent cases of E. coli O157:H7, Listeria monocytogenes, and Yersinia enterocolitica infections have also been attributed to raw milk consumption.

B. Sanitation and operating requirements of all raw milk facilities shall be the same as that required on a Grade A dairy farm producing milk for pasteurization. Milk packaging areas and container washing areas at the raw milk facilities shall meet the requirements for Grade A pasteurized milk processing plants.

C. All milk shall be cooled to 50 degrees F. or less within one hour of the commencement of milking and to 41 degrees F. or less within two hours after the completion of milking.[1] Provided that the blend temperature after the first milking and subsequent milkings does not exceed 50 degrees F. Milk not handled in this manner may be deemed adulterated and shall not be sold.

D. The blend temperature after the first milking and subsequent milkings shall not exceed 50 degrees F. Milk not handled in the manner required in this subsection and subsection "B" above shall be deemed adulterated and shall not be sold.

E. All products made from raw milk including cottage cheese, buttermilk, sour cream, yogurt, heavy whipping cream, half and half, butter and ice cream shall not be allowed for sale in Utah to individual consumers due to potential negative public health implications of such products. The sale and delivery of raw milk shall be made on the premise where the milk is produced and packaged. The sale shall be to consumers for household use and not for resale. The sale of block cheese, when held at 35 degrees F. for 60 days or longer, may be sold at retail or for wholesale distribution, at locations other than the premise where the milk was produced. The temperature of the milk at the time of bottling shall not exceed 41 degrees F.

F. Raw Milk block cheese, when held at 55 degrees F. for 60 days or longer, may be sold at retail stores or for wholesale distribution, at locations other than the premise where the milk was produced.

G. Except as provided in part (F) above, all products made from raw milk including, but not limited to, cottage cheese, buttermilk, sour cream, yogurt, heavy whipping cream, half and half, butter, and ice cream shall not be allowed for sale in Utah.
H. Milk that has been heat treated, shall not be labeled as "Raw Milk" for retail sale.

I. Inspections of the self owned retail store shall be performed no less than four times per year to ensure compliance with the sanitation, construction, and cooling requirements as set forth in the Wholesome Food Act, Title 4, Chapter 5.

A. Raw Milk for Retail Testing.

1. The requirements, standards, and enforcement procedures for testing raw milk for retail to include added water, antibiotics, pesticides, and/or other adulterants shall be the same as those used for raw milk for Grade A.

a. The Department shall collect a representative sample of milk from each Raw for Retail farm bulk tank once each month. All samples shall be delivered to the State Dairy Testing Laboratory. Tests shall include those prescribed for Raw Milk for Pasteurization as found in the PMO, and in addition shall include added water, and/or other adulterants. Whenever a sample result fails to meet a standard in any of the prescribed categories, the Raw for Retail permit shall be suspended until such time as a compliant sample can be obtained by the Department or a contracted approved independent laboratory, meeting PMO/Department standards, and until an inspection can be performed at the facility by the Department. All expenses for the re-sampling, re-testing, and re-inspecting shall be borne by the producer as per the Department's fee schedule. At such time as the above criteria are met, the Raw for Retail permit shall be fully reinstated.

b. The standards for testing Somatic Cell Count (SCC) in raw milk for retail shall be, the Somatic Cell Count shall not exceed 350,000 cells per milliliter (ml) for cows. All samples shall be delivered to the State Dairy Testing Laboratory. Tests shall include those prescribed for Grade "A" Pasteurized milk as found in the PMO. Whenever a sample result fails to meet a standard in any of the prescribed categories, the Raw for Retail permit shall be suspended until such time as a compliant sample can be obtained by the Department or a contracted approved independent laboratory, meeting PMO/Department standards, and until an inspection can be performed at the facility by the Department. All expenses for the re-sampling, re-testing, and re-inspecting shall be borne by the producer as per the Department's fee schedule. At such time as the above criteria are met, the Raw for Retail permit shall be fully reinstated.

law was passed. At this time, the amount of those costs cannot be defined. To date, four staff members have spent significant time writing this rule. More time will be required to develop the administrative process and training. The rule costs will be reported to the Legislature in the 2008 session. 

LOCAL GOVERNMENTS: The Division has discussed the rule with the 12 local Health Departments and the City/County Business Licensing offices in Utah. There will be an impact to them, but it remains unidentified.

OTHER PERSONS: The net impact on others should be in the area of savings, rather than costs. This allows businesses to operate that, heretofore, have not been allowed. The amount is undefined.

COMPLIANCE COSTS FOR AFFECTED PERSONS: The compliance costs will include a registration fee of $20 annually. In the case where an applicant submits an application for a complicated food, there may be testing costs to bear. These are indicated in the attached laboratory and process authority information sheets.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: The agency has described the impacts that businesses may experience as a result of the implementation of this rule. Associated costs incurred by other entities are not known at this time and are difficult to anticipate or estimate prior to implementation. Leonard M. Blackham, Commissioner

Classroom Supplies Appropriation

NOTICE OF PROPOSED RULE
(Proposal)
DAR FILE NO.: 30088
FILED: 06/14/2007, 15:24

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This rule is amended to provide criteria for the distribution of $2,500,000 in one-time funds appropriated by the 2007 Legislature in H.B. 160 for classroom supplies and materials with priority for funds to first year classroom teachers. (DAR NOTE: H.B. 160 (2007) is found at Chapter 372, Laws of Utah 2007, and is effective as of 07/01/2007.)

---
SUMMARY OF THE RULE OR CHANGE: The amendments provide new and revised definitions and a revised distribution formula for the one-time appropriation.

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Subsection 53A-1-402(1)(b) and H.B. 160 (2007)

ANTICIPATED COST OR SAVINGS TO:
- **THE STATE BUDGET:** There are no anticipated costs or savings to the state budget. One-time funds have been appropriated by the 2007 Legislature to provide for this program.
- **LOCAL GOVERNMENTS:** There may be some savings to school districts. The additional one-time appropriation will give teachers a greater amount of money to spend on classroom supplies and materials so schools and school districts may not need to provide as much funding in that area.
- **OTHER PERSONS:** There may be savings for eligible teachers because of this additional appropriation. The largest savings will be to first year classroom teachers because they will receive the most money. Most classroom teachers use their own money to purchase supplies and materials for their classrooms; due to these funds, teachers save out-of-pocket expenses.

COMPLIANCE COSTS FOR AFFECTED PERSONS: There are no compliance costs for affected persons. Funding was appropriated by the 2007 Legislature to provide for this program.

DAR FILE NO.: 30091

**RULE ANALYSIS**

**PURPOSE OF THE RULE OR REASON FOR THE CHANGE:** The 2007 Legislature passed H.B. 364 which prohibits a school district from purchasing certain instructional materials unless the materials have been evaluated by an independent party for alignment with the core curriculum, requires that the alignment evaluation be made available on a website at no charge, and exempts charter schools from the evaluation requirements. The amendments to this rule align the rule with state law. (DAR NOTE: H.B. 364 (2007) is found at Chapter 349, Laws of Utah 2007, and was effective 04/30/2007.)

**SUMMARY OF THE RULE OR CHANGE:** The amendments to the rule provide for new and revised definitions, revised criteria for use of state funds for instructional materials, revised criteria for recommendation of instructional materials following mid-party evaluation of core curriculum, revised criteria for agreements, and procedures for school districts, and revised criteria for agreements and procedures for publishing companies.

**STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE:** Subsection 53A-1-401(3) and Sections 53A-14-1-2 through 53A-14-106

**ANTICIPATED COST OR SAVINGS TO:**

- **THE STATE BUDGET:** There are no anticipated costs or savings to the state budget. All "mapping" will be completed by textbook publishers, not state government.
- **LOCAL GOVERNMENTS:** There are no immediate anticipated cost or savings to public schools/school districts. It is anticipated that textbook publishers will not raise textbook prices to pay for this requirement this year, but there could be increases in future years. Any increases in future years are too speculative to estimate at this time.
- **OTHER PERSONS:** Generally, there are no anticipated cost or savings to other persons. "Mapping" will be completed by publishers before materials are sold to schools. Occasionally, students/parents buy textbooks, per school policies. Costs for textbooks should not increase due to this service by publishers this year but may increase in future years. Any increases in future years are too speculative to estimate at this time.

**COMPLIANCE COSTS FOR AFFECTED PERSONS:** There may be some compliance costs for affected persons. Textbook providers may see increased costs due to evaluation expenses.

**COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES:** I have reviewed this rule and I see that there may be fiscal impact to textbook publishers due to evaluation expenses. Patti Harrington, State Superintendent of Public Instruction

A. This rule is authorized by Utah Constitution Article X, Section 3 which vests general control and supervision of the public education system in the Board, by Section 53A-21-104 which requires the Board to make rules regarding the school building revolving account that includes charter school building Subaccount; Section 53A-1-401(3) which allows the Board to adopt rules in accordance with its responsibilities; and, Section 53A-21-104 which creates the Charter School Building Subaccount.

B. The purpose of this rule is to provide procedures and standards for eligible charter schools to apply for and receive loans to pay for the costs of constructing, renovating, and purchasing charter school facilities.

A. Applicant Eligibility:

(1) Schools shall have received final and official approval of their charters by either a local board of education or the Board and, if chartered by the Board, signed a contract under Section 53A-1a-505(3)(b) prior to making application for a loan.

(2) Charter schools operating in facilities owned by a school district or other governmental entity (e.g., state, county, public institution of higher education) are not eligible for this program unless they are paying reasonable rent for the facility to the governmental owner.

B. Project Eligibility:

(1) Section 53A-21-102 authorizes a loan and application procedure to pay the costs of constructing, renovating, and purchasing charter school facilities.

(2) All applicants shall demonstrate that the construction, renovation, or purchase of facilities shall meet all applicable requirements of law, administrative rule, and building codes prior to submitting a loan application.

C. Compliance includes administrative approval of safety and health requirements and accommodations mandated by the Americans with Disabilities Act (ADA) and Individuals with Disabilities Education Act (IDEA).

A. Applications for loans shall be accepted on an ongoing basis, subject to eligibility criteria and availability of funding.

B. To apply for a loan, a charter school shall submit the information requested on the Board’s most current loan application form together with the requested supporting documentation. The information requested is necessary to evaluate the loan request based on the review criteria.

C. The evaluation/audit shall not begin until all information is provided to the satisfaction of the Loan Committee.

D. The application shall include a resolution from the governing board of the charter school that the governing board, at a minimum:

R277-487-5. Funding Criteria.

A. The maximum amount per loan is $300,000.
B. No charter school shall have more than one outstanding loan from the Charter School Revolving Loan Fund at a single time.
C. The loan may not exceed 75% of total project costs.
D. Priority shall be given to projects necessary to address student health and safety issues.
E. Interest shall be charged on the loan at the rate which the State Treasurer would receive for a five (5) year AAA rated general obligation bond at the date of loan recommendation by the Loan Committee.

A. The Loan Committee and Superintendent may consider the following and any additional criteria deemed relevant when recommending or approving a charter school’s loan application:
   (1) Soundness of the financial business plan of the applicant charter school;
   (2) Source of funding for the charter school;
   (3) Geographic distribution of loans made from the Charter School Revolving Loan Fund;
   (4) The impact that receipt of funds received pursuant to this section shall have on the charter school’s receipt of other private and public financing;
   (5) Plans for creative uses of the funds received pursuant to this section, such as loan guarantees or other types of credit enhancements; and
   (6) The overall facility needs of the charter school.
B. The Superintendent’s decision is final and is not subject to additional administrative appeals.
C. Because charter schools are frequently start-up programs and do not have any financial history, the loan approval process shall rely heavily on acceptable budgets and cash flow statements that demonstrate the school’s ability to repay the loan. The proposed budgets cannot show deficits.
D. The loan approval shall rely heavily on the relevant experience and expertise of the management and governing board of the school.
E. The loan approval process disfavors making fundraising too large a portion of the revenues of a charter school. The Loan Committee may question the school’s ability to repay the loan if the projected fundraising goal appears unrealistic or accounts for too high a percentage of the charter school’s annual operating budget (more than 15 percent). A school may be asked to back up an ambitious fundraising goal with a detailed plan and designated manpower toward this effort.

A. The Superintendent shall have the final authority to approve loans following recommendation by the Loan Committee.
B. The Superintendent’s decision is final and is not subject to additional administrative appeals.
C. If an application is refused, a school may reapply only with material changes to the original application and may be considered following other applicants.

A. If the school creates, incurs, or assumes any indebtedness in addition to a loan pursuant to this rule, the charter school shall ensure that the instrument documenting indebtedness attests that repayment rights of any and all creditors are subordinate to repayment rights of the Board.
B. Property purchased by the charter school remains the property of the charter school until such a time as its charter is revoked or the school closes.
C. In the event that a charter school closes, it is the responsibility of the charter school governing body to properly dispose of all school assets. Any assets remaining after satisfying all indebtedness associated with a loan from the Board and the claims of creditors have been satisfied shall revert to the Board and deposited in the revolving loan account.
D. The reversion of such equipment, property, and furnishings shall focus on recoverable assets, but not on intangible or irrecoverable costs such as rental or lease fees, normal maintenance, and limited renovations.
E. The reversion of all property secured with public funds is subject to the complete satisfaction of all lawful liens or encumbrances.
F. Property purchased or leased with state funds by a charter school may be used only for a purpose for which a school district may use school district property.
G. The charter school shall maintain the property and improvements to such a degree that market value is preserved.

A. Loans shall be repaid within five years, beginning one year from the date the loan is approved by the Superintendent.
B. Repayments, including interest payments, shall be made in equal monthly installments over the repayment period.
C. Each installment shall be deducted from the monthly funds transfer to the charter school.

D. The amount being repaid (both principal and interest) shall be deposited into the Charter School Building Subaccount in the State Treasury for subsequent loans to future borrowers.

Concurrent Enrollment of High School Students in College Courses

NOTICE OF PROPOSED RULE
(Amendment)
DAR FILE NO.: 30098
FILED: 06/14/2007, 15:28

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The 2007 Legislature passed H.B. 79 which separates concurrent enrollment from other accelerated learning programs. This rule is amended to provide for changes to the funding and use of concurrent enrollment funds and add requirements for annual reporting and annual contracts. (DAR NOTE: H.B. 79 (2007) is found at Chapter 368, Laws of Utah 2007, and is effective as of 07/01/2007.)

SUMMARY OF THE RULE OR CHANGE: The amendments provide for changes to courses and students' participation; changes to program delivery; changes to faculty requirements; changes to concurrent enrollment funding and use of funds; and changes in annual contracts and other student instruction issues.

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 53A-17a-120.5 and Subsections 53A-1-402(1)(c) and 53A-1-401(3)

ANTICIPATED COST OR SAVINGS TO:
✓ THE STATE BUDGET: There are no anticipated costs or savings to the state budget. Funds were appropriated by the 2007 Legislature in H.B. 79 and the distribution of those funds between higher education and public education were determined by the Legislature.
✓ LOCAL GOVERNMENTS: Some local education agencies may save money and others may spend money due to the legislative distribution of funds. Greater consistency and fairness of costs to school districts and higher education institutions participating in concurrent enrollment is anticipated by the Legislature's division of funds. What costs or savings may be is unknown until the end of the first year.
✓ OTHER PERSONS: Students and parents should have no additional concurrent enrollment costs from previous year. Increase consistency and accountability should result in savings to parents and students over time.

COMPLIANCE COSTS FOR AFFECTED PERSONS: There are no compliance costs for affected persons. Public schools and higher education institutions will implement the changes within existing budgets.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: I have reviewed this rule and I see no fiscal impact on businesses. Patti Harrington, State Superintendent of Public Instruction

R277. Education, Administration.
R277-713. Concurrent Enrollment of High School Students in College Courses.

R277-713-1. Definitions.
A. "Adjunct/Concurrent faculty" means instructors approved by the cooperating USHE institution and approved by school district or charter school receiving concurrent enrollment services from the instructor to teach concurrent enrollment classes on behalf of the USHE institution.
B. "Annual Concurrent Enrollment Contract" means a written plan, negotiated by a school district and a USHE institution, to provide college level courses to high school students.
C. "Board" means the Utah State Board of Education.
D. "Concurrent enrollment" for state funding and for the purposes of this rule means enrollment by public school students in one or more USHE institution course(s) under a contractual agreement between the USHE institution and a school district/public school. Students continue to be enrolled in public schools, counted in Average Daily Membership, and receive credit toward graduation. They also receive college credit for courses.
E. "Fees" for purposes of concurrent enrollment and this rule mean expenses to students directly related to enrollment and tuition. Fees do not include reasonable lab costs, expenses for textbooks and consumable curriculum materials that are required only for USHE credit or grades.
F. "USHE" means the Utah System of Higher Education.
G. "USOE" means the Utah State Office of Education.

R277-713-2. Authority and Purpose.
A. This rule is authorized by Utah Constitution Article X, Section 3 which provides for the State Board to have general supervision and control over public schools and by Section 53A-17a-120.5 which directs the Board to adopt rules providing that a school participating in the concurrent enrollment programs offered under Section 53A-15-101 shall receive an allocation from the moneys as provided in Section 53A-15-101, Section 53A-1-402(1)(c) which directs the Board to
adopt minimum standards for curriculum, and Section 53A-1-401(3)
which allows the Board to adopt rules in accordance with its
responsibilities.
B. The purpose of concurrent enrollment is to provide a
challenging college-level and productive secondary school
experience, particularly in the senior year, and to provide transition
courses that can be applied to post-secondary education.
C. The purpose of this rule is to specify the standards and
procedures for concurrent enrollment courses and criteria for
funding appropriate concurrent enrollment expenditures.

R277-713-3. Student Eligibility.
A. [Local] Schools and USHE institutions shall jointly
establish student eligibility requirements which shall be sufficiently
selective to predict a successful experience.
B. Local schools have the primary responsibility for
identifying students who are eligible to participate in concurrent
enrollment classes.
C. Each student participating in the concurrent enrollment
program shall have a current student education/occupation plan
(SEOP) on file at the participating school, as required under Section
53A-1a-106(2)(b).

R277-713-4. Courses and Student Participation.
A. Course registration and the awarding of USHE institution
credit for concurrent enrollment courses are the province of colleges
and universities governed by USHE policies.
B. Concurrent enrollment offerings shall be limited to courses
in English, mathematics, fine arts, humanities, science, social
science, world languages, and career technical programs to allow a
focus of energy and resources on quality instruction in these courses.
However, there may be a greater variety of courses in the career
education area. Concurrent Enrollment courses should
assist students toward post-secondary degrees.
C. All concurrent enrollment courses shall be approved or
orCHEstrated by the high school or the USOE and shall provide for
waiver of fees to eligible students.
D. Only courses taken from a master list maintained by the
Curriculum Section at the USOE shall be reimbursed from state
concurrent enrollment funds. [Courses may be added or deleted
from the master list with adequate notice to teachers at USHE
institutions and public schools.]
E. Beginning with the 2008-09 school year, the Board of
Regents, after consultation with school districts/charter schools,
shall provide the USOE with proposed new course offerings,
including syllabi and curriculum materials by November 30 of the
year preceding the school year in which courses shall be offered.

Concurrent enrollment funding shall be provided only for
1000 or 2000 level courses unless a student's SEOP identifies a
student's readiness and preparation for a higher level course. This
exception shall be individually approved by the student's counselor
and school district or charter school concurrent enrollment
administrator. Concurrent enrollment funding is not intended for
unilateral parent/student initiated college attendance or course-
taking.

Concurrent enrollment course offerings shall reflect the
strengths and resources of the respective schools and USHE
institutions and be based upon student needs. The number of
courses selected shall be kept small enough to ensure coordinated
statewide development and training activities for participating teachers.

G. [H] Course content, procedures, examinations, teaching
materials, and program monitoring shall be the responsibility of the
appropriate USHE institution, shall be consistent with Utah law, and
shall ensure quality and comparability with courses offered on the
college or university campus.

H. Participation in concurrent enrollment generates higher
education credit that becomes a part of a student's permanent college
transcript.

R277-713-5. Program Delivery.
A. Schools within the USHE that grant higher education/college credit may participate in the concurrent enrollment program, provided that such participation shall be consistent with the law and consistent with Board rules specific to the use of public education funds and rules for public education programs.
B. Concurrent enrollment courses shall be offered at the most
appropriate location using the most appropriate methods for the
course content, the faculty, and the students involved, consistent with Section 53A-17a-120(2)(a).
C. The delivery system and curriculum program shall be
designed and implemented to take full advantage of the most current
available educational technology.
D. Courses taken by students who have received a diploma,
whose class has graduated or who have participated in graduation exercises are not eligible for concurrent enrollment funding. Senior
students shall complete reimbursable concurrent enrollment courses prior to their graduation or participation in graduation exercises.
E. Concurrent enrollment is intended primarily for students in
their last two years of high school. Participation by [younger] students before their junior year shall be approved by both the
public school and the USHE institution, and be consistent with a
student's SEOP.
F. State reimbursement to school districts for concurrent
enrollment courses may not exceed 30 semester hours per student

11-digit course codes for concurrent enrollment courses.

R277-713-6. Student Tuition, Fees, and Credit for Concurrent
Enrollment Programs.

101(6)(b)(iii).
B. Students may be assessed a one-time enrollment charge per
institution.
C. Concurrent enrollment program costs attributable only to
USHE credit or enrollment are not fees and as such are not subject to
fee waiver under R277-407.
D. All students' costs related to concurrent enrollment classes,
which may include consumables, lab fees, copying, and material
costs, as well as textbooks required for the course, are subject to fee
waiver consistent with R277-407.

waivers. The agreement between the USHE institution and the
district may address the responsibility for fee waivers. [The district
may withhold concurrent enrollment funds to cover fee waiver costs.]

(1) A student shall receive high school credit for concurrent
enrollment classes that is consistent with the district policies for

R277-713-8. Concurrent Enrollment Funding and Use of Concurrent Enrollment Funds.
A. Each district shall receive a pro-rated amount of the funds appropriated for concurrent enrollment according to the number of semester hours successfully completed by students registered through the district in the prior year compared to the state total of completed concurrent enrollment hours. Successfully completed means that a student received USHE credit for the course. Concurrent enrollment funds may not reimburse districts for repeated concurrent enrollment courses. Appropriate reimbursement may be verified at any reasonable time by USOE audit.
B. Each high school shall receive its proportional share of district concurrent enrollment monies allocated to the district pursuant to Section 53A-17a-120 based upon the hours of concurrent enrollment course work successfully completed by students on the high school campus as compared to the state total of completed concurrent enrollment hours.

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: Changes to this rule are being made to keep up with inflation.

SUMMARY OF THE RULE OR CHANGE: Some of the dollar amounts that title producers are allowed to expend for advertising and entertainment have been increased to keep up with inflation in Subsections R590-153-6(D), (E), (F)(3), (G)(3) and (H).

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Sections 31A-2-201 and 31A-23a-402

ANTICIPATED COST OR SAVINGS TO:

- THE STATE BUDGET: This rule will create no change in the state or department revenues or budget, nor the department's workload. Insurers will not be required to file additional forms or rates and department fees will not be changed as a result.

- LOCAL GOVERNMENTS: This rule deals only with the relationship between the department and its licensees and as a result should have no impact on local governments.

- OTHER PERSONS: The increase in the advertising and entertainment amounts are optional. Producers can still spend less. These amounts have not been changed in at least seven years. Those agencies and producers who go with the higher dollar amounts will either need to take the additional expense from their earnings or increase rates to their consumers.

COMPLIANCE COSTS FOR Affected Persons: The increase in the advertising and entertainment amounts are optional. Producers can still spend less. These amounts have not been changed in at least seven years. Those agencies and producers who go with the higher dollar amounts will either need to take the additional expense from their earnings or increase rates to their consumers.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: The increase in advertising and entertainment expenses for title agencies and producers is not mandatory. The impact of these changes will depend on whether or not the licensee adopts the increases and to what extent. It is not a major change and is meant to keep up with inflation so licensees can maintain the same entertainment and advertising standards as in the past. D. Kent Michie, Commissioner

Exemption Requirements

NOTICE OF PROPOSED RULE
(Amendment)
FILED: 06/15/2007, 10:31

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This rule was recently put into effect. During the second comment period, additional suggested changes were proposed to clarify the exemption requirements of the rule. In order to not delay the rule further, the rule was put into effect and now these changes are proposed.

SUMMARY OF THE RULE OR CHANGE: The change to Subsection R590-240-5(1) clarifies that the student health program must have assets that are owned by a trust or trustees, in a fiduciary capacity. Subsection R590-240-5(3)(b) adds that the amount and type of assets to be used for claims must be approved by the insurance commissioner or as is required under Title 31A, Chapter 17.

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Sections 31A-1-103 and 31A-2-201

ANTICIPATED COST OR SAVINGS TO:

- THE STATE BUDGET: The changes to this rule will have no fiscal impact on the department or the state budget, nor will it affect the workload of the department. No additional filings will be required nor changes in the fees. It simply continues to allow the Commissioner to approve the amount and type of assets in the trust to be used in the payment of claims.
- LOCAL GOVERNMENTS: The changes will have no fiscal impact on local governments. They simply allow the
commissioner to continue to approve the amount and type of assets in the trust that are used in the payment of claims.

OTHER PERSONS: The changes will allow the Commissioner to continue to approve the amount and type of assets used in the payment of claims by Student Health Programs. This is the same authority he has with other traditional insurance companies.

COMPLIANCE COSTS FOR AFFECTED PERSONS: The changes will allow the Commissioner to continue to approve the amount and type of assets used in the payment of claims by Student Health Programs. This is the same authority he has with other traditional insurance companies.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: The changes to this rule will help student health programs remain fiscally sound but will have no impact on other Utah businesses. D. Kent Michie, Commissioner

Rule to Recognize the Preferred Mortality Tables for Use in Determining Minimum Reserve Liabilities

NOTICE OF PROPOSED RULE
(New Rule)
DAR File No.: 30082
Filed: 06/13/2007, 14:50

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The purpose of this rule is to recognize, permit, and prescribe the use of mortality tables that reflect differences in mortality between preferred and standard lives in determining minimum reserve liabilities in accordance with Section 31A-17-504 and R590-198-5.

SUMMARY OF THE RULE OR CHANGE: This rule recognizes, permits, and prescribes the use of mortality tables that reflect differences in mortality between preferred and standard lives in determining minimum reserve liabilities in accordance with Sections 31A-17-504 and R590-198-5.

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Sections 31A-2-201 and 31A-17-402

ANTICIPATED COST OR SAVINGS TO:

- THE STATE BUDGET: The changes to this rule will have no fiscal impact on the department or the state's budget since it will only result in informational filings from those life insurers that elect to use the new table.
- LOCAL GOVERNMENTS: Since the rule deals only with the relationship between the department and its licensees, in this case life insurers that sell ordinary life insurance policies, local governments will not be affected.
- OTHER PERSONS: Because this rule does not mandate the new tables it will only affect those life insurers that elect to use them. For those insurers that use the tables, there will be a cost associated with the reporting requirement in the rule. However, the insurer will be able to hold lower reserves resulting in lower cost to the insurer and ultimately to the consumer.

COMPLIANCE COSTS FOR AFFECTED PERSONS: Because this rule does not mandate the new tables, it will only affect those life insurers that elect to use them. For those insurers that use the tables, there will be a cost associated with the reporting requirement in the rule. However, the insurer will be able to hold lower reserves resulting in lower cost to the insurer and ultimately to the consumer.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: Currently, there are 365 life insurers that might be affected by this rule. The Division expects mainly the larger insurers to elect to use the new tables provided by this rule. It is unknown how many will. Each insurer will be affected differently based upon their size and whether or not they are already collecting some or all of the data required for the report. D. Kent Michie, Commissioner

The 2001 CSO Mortality Table is included in the Proceedings of the NAIC, 2nd Quarter 2002 and is supplemented by the 2001 CSO Preferred Class Structure Mortality Table defined below in Subsection (2). Unless the context indicates otherwise, the "2001 CSO Mortality Table" includes both the ultimate form of that table and the select and ultimate form of that table and includes both the smoker and nonsmoker mortality tables and the composite mortality tables. It also includes both the age-nearest-birthday and age-last-birthday bases of the mortality tables. Mortality tables in the 2001 CSO Mortality Table include the following:

(a) "2001 CSO Mortality Table (F)" means that mortality table consisting of the rates of mortality for female lives from the 2001 CSO Mortality Table.

Unless the context indicates otherwise, the "2001 CSO Preferred Class Structure Mortality Table" includes both the ultimate form of that table and the select and ultimate form of that table. It includes both the smoker and nonsmoker mortality tables. It includes both the male and female mortality tables and the gender composite mortality tables. It also includes both the age-nearest-birthday and age-last-birthday bases of the mortality table.

(4) "Statistical agent" means an entity with proven systems for protecting the confidentiality of individual insured and insurer information; demonstrated resources for and history of ongoing electronic communications and data transfer ensuring data integrity with insurers, which are its members or subscribers, and a history of and means for aggregation of data and accurate promulgation of the experience modifications in a timely manner.

R590-241-4. 2001 CSO Preferred Class Structure Table.

At the election of the company, for each calendar year of issue, for any one or more specified plans of insurance and subject to satisfying the conditions stated in this rule, the 2001 CSO Preferred Class Structure Mortality Table may be substituted in place of the 2001 CSO Smoker or Nonsmoker Mortality Table as the minimum valuation standard for policies issued on or after January 1, 2007. No such election shall be made until the company demonstrates that at least 20% of the business to be valued on this table is in one or more of the preferred classes. A table from the 2001 CSO Preferred Class Structure Mortality Table used in place of a 2001 CSO Mortality Table, will be treated as part of the 2001 CSO Mortality Table only for purposes of reserve valuation.

R590-241-5. Conditions.

(1) For each plan of insurance with separate rates for Preferred and Standard Nonsmoker lives, an insurer may use the Superior Preferred Nonsmoker, Preferred Nonsmoker, and Residual Standard Nonsmoker tables to substitute for the Nonsmoker mortality table found in the 2001 CSO Mortality Table to determine minimum reserves. At the time of election and annually thereafter, except for business valued under the Residual Standard Nonsmoker Table, the appointed actuary shall certify that:

R638-2
Renewable Energy Systems Tax Credits

NOTICE OF PROPOSED RULE
(New Rule)
DAR FILE NO.: 30103
FILED: 06/15/2007, 11:50

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The proposed rule lays out requirements and procedures for claiming renewable energy tax credits under Sections 59-7-614, 59-10-1014, and 59-10-1106.

SUMMARY OF THE RULE OR CHANGE: Renewable energy tax credits expired on 12/31/2006. However, S.B. 223 in the 2007 General Session the legislature reauthorized the old credits and expanded eligibility for credits to new technologies (biomass, geothermal, and ground source heat pumps) and created a new category of credits (production tax credits). A rule is therefore needed for these new provisions. Existing rules for the pre-2007 credits are due to expire in October 2007. This rule is being posted as a new rule because the existing rules are assigned to an office that no longer exists (the Office of Energy and Resource Planning at the Department of Natural Resources). Moreover, experience with the existing rule shows substantial shortcomings and a substantial rewriting has taken place. (DAR NOTE: S.B. 223 (2007) is found at Chapter 288, Laws of Utah 2007, and will be effective 01/01/2008.)

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Sections 59-7-614, 59-10-1014, and 59-10-1106

ANTICIPATED COST OR SAVINGS TO:
- THE STATE BUDGET: Because S.B. 223 expanded eligibility for tax credits, additional cost is expected to implement the new statutes. However, some savings are expected because of new requirements in the rule (in comparison to the prior rules) that should require less work by Utah Geological Survey (UGS) staff to document eligibility for the credits.
- LOCAL GOVERNMENTS: There may be a slight increase in cost to local governments due to requirements in some sections of the rule for inspection of renewable energy systems by qualified electricians, plumbers, engineers, or code inspectors. Local governments may choose to inspect systems if requested by tax credit applicants but are not required to inspect systems under this rule. Any costs incurred by local government are voluntary.
- OTHER PERSONS: The prior rules required that renewable energy systems for which credits were sought comply with applicable building, plumbing, and/or electrical codes. However, there was no requirement to demonstrate this compliance. The new rule requires inspections or certifications for safety and reliability of most systems. For the majority of applicants who have systems installed by contractors, this will involve no extra cost. However, a small number of applicants for credits have historically been “do-it-yourselfers”. For these applicants, there may be added cost in hiring a qualified professional to inspect and approve a system. This requirement is important to ensure that the state is not providing tax credits for systems that may be dangerous or unreliable.

COMPLIANCE COSTS FOR AFFECTED PERSONS: Compliance costs for the large majority of applicants will be minimal. Most applicants for the tax credits have systems installed by contractors who typically provide most of the information that is necessary for approval of the credits. A small additional new cost may be incurred in the requirement for photographs of systems. For those who self-install systems, there may also be an additional new cost for inspection of a system by a qualified professional.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: There is little or no fiscal impact from this rule on businesses. Michael R. Styler, Executive Director

THIS RULE MAY BECOME EFFECTIVE ON: 09/01/2007
AUTHORIZED BY: Rick Allis, Director

R638-2-1. Purpose.
(A) This rule implements the responsibilities assigned to the
Utah Geological Survey (UGS) for the renewable energy systems
tax credit programs established in Sections 59-7-614, 59-10-1014,
and 59-10-1106.
(B) This rule establishes requirements for eligibility for
renewable energy system tax credits and the criteria for determining
the amount of such tax credits by defining eligible systems, eligible
system components, eligible costs, and other requirements intended
to ensure the safety and reliability of systems supported by tax
credits, and to ensure the appropriate use of the state’s energy and
economic resources.
(C) This rule also establishes procedures for taxpayers to use
when applying for UGS certification of tax credit eligibility and tax
credit amounts, and for UGS to follow in reviewing such
applications.
(D) This rule applies to all renewable energy systems installed
or entering commercial service after January 1, 2007.

R638-2-2. Authority.
Pursuant to Sections 59-7-614, 59-10-1014, and 59-10-1106,
the UGS and the Utah Tax Commission may each make rules that
are necessary to implement renewable energy tax credits for
corporate and individual income tax filers. In addition, UGS is
required to certify that an energy system for which a tax credit has
been installed and is a viable system for saving or producing energy from renewable resources. For taxpayers
claiming a tax credit based upon a percentage of the costs of a renewable energy system, the UGS may also set standards for
residential and commercial systems that cover the safety, reliability,
efficiency, leasing, and technical feasibility of the systems to ensure
that they use the state’s renewable and non-renewable energy
resources in an appropriate and economic manner. For such percentage-of-cost credits, UGS may also establish rules defining
the reasonable costs of a system.

(A) The definitions below are in addition to or serve to clarify
the definitions found in Sections 59-7-614, 59-10-1014, and 59-10-
1106.
(B) "Active solar thermal system" means a system of apparatus
and equipment capable of intercepting and transferring incident solar
thermal radiation to air or liquid by a separate apparatus to the point
of storage or use. Transfer of energy to the point of storage or use
must be accomplished using a mechanically powered device.
1. Active solar thermal systems include systems that:
   a. Heat water for space heating, culinary water, recreational
use (including swimming pools), and other industrial or commercial
uses;
   b. Heat a liquid, contained within a closed loop system, whose
transferred heat may be used for space heating, culinary water,
recreational use (including swimming pools), and other industrial or
commercial uses; and
   c. Heat air that is transferred to a building’s conditioned space
using mechanical systems such as fans or blowers either for heat or
to induce air movement used for cooling.
2. Active solar thermal systems do not include systems that use
heat for evaporative cooling.
   (C) "Biomass system" means a system of apparatus and
equipment for use in converting biomass material into fuel or
electricity and transporting that energy by separate apparatus to the
point of use or storage.
1. Materials that may be used to produce fuel or electricity are
as follows:
   a. material from a plant or tree; or
   b. other organic matter that is available on a renewable basis,
      including:
      i. slash and brush from forests and woodlands;
      ii. animal waste;
      iii. methane produced at landfills or as a byproduct of the
treatment of wastewater residuals;
      iv. aquatic plants; and
      v. agricultural products.
2. A biomass system does not include:
   a. A system that uses, black liquor, treated woods, or biomass
      from municipal solid waste other than methane produced at landfills
      or sewage treatment plants
   b. A system that combusts biomass for the primary purpose of
      producing and using heat or mechanical energy;
3. In order to be considered a biomass system, a fuel or
electricity producing system must use biomass as its primary source
of energy.
   (D) "Commercial energy system" means any active solar,
passive solar, geothermal electricity, direct-use geothermal,
geothermal heat-pump system, wind, hydroenergy, or biomass
system used to supply energy to a commercial unit or as a
commercial enterprise. In the case of systems generating electricity
and involving multiple but interconnected energy generation
systems, a commercial energy system includes all interconnected
components that:
   1. Were assembled or constructed at approximately the same
time as part of a single project; and
   2. Supply electricity to a common grid interconnection point.
This includes wind farms connecting to a single substation and
biomass generating systems using multiple small generators. Such
combinations of intertied generators are considered to be single
energy systems for purposes of this rule.
   (E) "Commercial tax credit" means the credits defined in
Subsection 59-7-614(2)(b) and Section 59-10-1106 that provide tax
credits worth 10% of the reasonable cost, up to $50,000, of a
commercial energy system.
   (F) "Commercial unit" means any building or structure that a
business entity uses to transact its business. For purposes of the
commercial investment tax credit, an agricultural water pump and a
wind turbine are each considered to be single commercial units.

(G) "Direct use geothermal system" means a system of
apparatus and equipment enabling the direct use of thermal energy,
generally between 100 and 300 degree Fahrenheit, that is contained
in the earth to meet energy needs, including heating a building, an
industrial process, or aquaculture. Such systems generally make use
of hot water or steam derived from wells bored through the earth's
crust to reach areas of thermal energy. They may include systems
that make use of groundwater or those that inject water into the earth
for the purpose of deriving heat. They can also include systems that
pump a heat exchanging fluid through a sealed, close loop system
below the ground to extract heat for use above the earth's surface.

(H) "Eligible cost" means a cost that is reasonable as defined
in this rule, that is incurred for the purchase or installation of a
renewable energy system, and that may be used in computing the
amount of either a commercial or residential investment tax credit.

(I) "Geothermal electricity system" means a system that uses
thermal energy that flows outward from the earth as the sole source
of energy for producing electricity.

(J) "Geothermal heat pump system" means a system of
apparatus and equipment enabling use of the thermal properties
contained in the earth well below 100 degrees Fahrenheit to help
meet heating and cooling needs of a structure. For purposes of this
rule, geothermal heat pump system means a system that is thermally
coupled with the ground through a heat exchange medium or using
mechanical heat exchange equipment and that uses a "ground-source
heat pump" technology described in the American Society of
Heating, Refrigerating, and Air Conditioning Engineers' (ASHRAE)
Applications Handbook, Chapter 32. This can include ground
source heat pumps and water source heat pumps using ground water
or surface water.

(K) "Grid connected" describes a system that generates
electricity and is electrically connected to an electrical load that is
also connected to and served by the local utility's electrical grid. To
be considered grid connected, a system needs be able to serve an
electrical load that is also served by the local utility.

(L) "Heat transportation system" means all fans, vents, ducts,
pipes and heat exchangers designed to move heat from a collection
point to either the storage or heat use area.

(M) "Investment tax credit" means a tax credit authorized in
any of the Sections 59-7-614, 59-10-1014, and 59-10-1106 and that
is not a production tax credit.

(N) "Loaded structure" means a part of the building that
provides support to that building.

(O) "Placed in commercial service" means the earliest point in
time at which a commercial energy system:

1. Produces or is capable of producing at its maximum
   potential output; and

2. Sells all or some of its energy output or uses its energy
   output for commercial activities located at the same site.

(P) "Passive solar system" means a direct thermal system that
utilizes the structure of a building and its operable components to
provide for collection, storage, and distribution of heating or cooling
during the appropriate times of the year by utilizing the climate
resources available at the site and includes those portions and
components of a building that are expressly designed and required
for the collection, storage, and distribution of solar energy.

(Q) "Production tax credit" means the credits defined in
Subsection 59-7-614(2)(c) that provides 0.35 cents per kilowatt-hour
of electricity produced for wind, geothermal, or biomass systems
with production capacities of 660 kilowatts or greater.

(R) "Production tax credit window" means the period during
which a company is eligible to receive production tax credits for a
specific commercial energy system. The window begins on the day
that the system is placed in commercial service and ends 48 months
after that date.

(S) "Renewable energy system" means any of the following
types of systems defined in Section 57-7-614, 57-10-1014, and 57-
10-1106:

1. Active solar including solar thermal and photovoltaics;

2. Biomass except for systems combusting biomass for heat;

3. Direct-use geothermal;

4. Geothermal electricity

5. Geothermal heat pump;

6. Hydroenergy;

7. Passive solar for heating or cooling;

8. Wind.

(T) "Residential investment tax credit" means the credits
defined in Subsection 59-7-614(2)(a) and Section 59-10-1014 that
provide tax credits worth 25% of the reasonable cost up to $2,000 of
a residential energy system.

(U) "Residential unit" means any house, condominium,
apartment, or similar dwelling for a person or persons, but it does
not include any vehicles such as motor homes, recreational vehicles,
or house boats.

(V) "Solar PV energy system" means an active solar energy
system that converts light to direct current electricity through the use
of semiconducting materials and that is capable of producing
electricity for use in a building by the use of an inverter to produce
alternating current electricity.

(W) "Thermal storage mass" means a structure within the
conditioned space consisting of a material with high thermal
capacitance or mass to provide heat to the unit at times of low or no
heat collection.

(X) "Ton" means heating and/or air conditioning capacity
equivalent to 12,000 British thermal units (Btus).

(Y) "USEP" means that Utah State Energy Program, a
subdivision of the Utah Geological Survey, which is responsible for
certifying tax credits specified under this rule.

(Z) "Wind energy system" means a system of apparatus and
equipment capable of intercepting and converting wind energy into
mechanical or electrical energy and transferring these forms of
energy by a separate apparatus to the point of use, sale, or storage.

(AA) "Solar surface" is a building wall which faces no more
than 30 degrees away from true south measured in a horizontal
plane.

R638-2.4. Investment Tax Credit Certification Process.

(A) The Utah State Energy Program (USEP), a subdivision of
the UGS, is responsible for certifying renewable energy systems tax
credits.

(B) Applications for credits are to be made on forms developed
by USEP to gather information necessary to implement this rule.

(C) USEP will evaluate each application according to the
definitions and criteria established by statute and by this rule. If the
information contained within an application is inadequate to
determine eligibility according to this rule, USEP reserves the right
to request additional information from the applicant. If an applicant
is unable or unwilling to provide adequate information, USEP may
deny the application and no tax credit will be certified.
(D) If, after evaluating an application, USEP finds that a renewable energy system is eligible for a residential or commercial tax credit, USEP will complete a Utah State Tax Commission Form TC-40E that will serve as the taxpayer's documentation of eligibility for a tax credit. Only USEP may issue a completed TC-40E and a tax credit may not be claimed without such documentation.

(E) Upon the completion of USEP's evaluation of an application, USEP will provide to the applicant one of the following, as appropriate:

1. A completed TC-40E allowing the full amount of tax credit requested;
2. A completed TC-40E allowing a portion of the tax credit requested accompanied by a written explanation for the denial of the full requested amount; or
3. A letter informing the applicant that the request for a tax credit has been denied and providing an explanation for the denial.

(F) If USEP denies, in whole or in part, an application for a tax credit, the taxpayer applicant may, consistent with Section 63-46b-12 (Administrative Procedures Act), request that the decision be reviewed by the USEP manager. If after review by the manager, the taxpayer desires a further appeal, he or she may request reconsideration of the decision by the director of UGS, consistent with Section 63-46b-13.

(G) All applications for credits under this rule shall provide the following information:

1. The true legal name of the person or persons seeking a tax credit;
2. The tax identification number or numbers of persons seeking a tax credit;
3. The physical address, plat number, or global positioning satellite (GPS) coordinates of the property where the system is installed. Location information must be sufficient to permit USEP staff to locate the site for on-site verification of the information in the application.
4. A general description of the system, including technologies employed (e.g. wind, solar thermal), intended use, energy production capacity, cost, date of completed installation, and other information specified in this rule.

(H) Applications for a residential and commercial tax credits must provide, either within an application form or provided as supporting documentation, each of the following:

1. Detailed diagrams of the system installed such that SEP staff, evaluating each proposal, can distinguish all major system components, how the system operates, and which components are eligible costs for computing the tax credit.
2. Photographs or copies of photographs that show major system components, how and where the system is installed, electrical interconnections with the power grid or other components of the electrical system at the taxpayer's home or business, and any other components of the renewable energy system that demonstrate that individual components are eligible costs under this rule. Photographs or copies of photographs should also demonstrate that a system is constructed in a safe and reliable manner.
3. Clear documentation of costs incurred for all components of the renewable energy system. Original or reproduced copies of all receipts or invoices should be provided and all invoices from contractors or equipment dealers must show that the invoiced amounts were paid by the taxpayer; otherwise, copies of canceled checks should be provided. Documentation should also include an itemized listing of all components of an installed system, including manufacturer and model numbers for major equipment components, the costs of all major components, and costs for labor, installation, and/or design. The sum of documentation provided should be sufficient to allow UGS to identify all eligible and ineligible costs and to determine whether such costs are reasonable. Applications that do not include a clear itemization of system costs will not be considered.

R638-2.5. Investment Tax Credit, Eligible Costs for Commercial and Residential Systems, General.

(A) Taxpayers applying for commercial investment tax credits are entitled to credits equal to 10% of the eligible costs of a renewable energy system up to a maximum of $50,000 for a commercial unit. This limit applies to the lifetime of the commercial unit. Taxpayers may apply for multiple credits for additional renewable energy systems or for expansions to the capacity of existing systems for the same commercial unit, however, the total of all credits awarded may not exceed $50,000 for any single commercial unit.

(B) Taxpayers applying for residential investment tax credits are entitled to credits equal to 25% of the eligible costs of a renewable energy system up to a maximum of $2,000 for a residential unit. This limit applies to the lifetime of the residential unit. Taxpayers may apply for multiple credits for additional renewable energy systems or for expansions to the capacity of existing systems for the same commercial unit, however, the total of all credits awarded may not exceed $2,000.

(C) Eligible costs for equipment are generally limited to system components that are both:

1. Necessary for the renewable energy system to produce energy and to deliver that energy for end-use; and
2. Are not system components that would be used for a conventional energy system fulfilling a similar role in delivering energy for end-use.

(D) Eligible costs for equipment are limited to new components only. Any component of the renewable energy system that has previously been used for any purpose is ineligible.

(E) Costs for equipment and installation of components on existing renewable energy systems are eligible only to the extent that the additional equipment increases the energy production capacity of the existing system. Costs for repair or replacement of any component of an existing system are ineligible for a tax credit.

(F) All major energy-producing, energy conversion, and energy storage components of a renewable energy system shall be commercially available and purpose-built or manufactured for the intended application. Major components built from equipment not manufactured or built primarily for the purpose of generating renewable energy are not eligible unless it can be demonstrated that the component is necessary to the system and that no commercially available, purpose-built or manufactured equivalent is available.

(G) Energy storage devices, and equipment for regulating energy storage, for renewable energy systems that produce electricity are not considered to be eligible costs when used at a residential or commercial unit that is either:

1. Connected to the electrical grid; or
2. Within the service territory of a retail electricity provider and is less than one-quarter mile from an electrical distribution line.

(H) Costs for the installation of a renewable energy system are eligible. Labor costs for installation are eligible so long as the taxpayer has paid a qualified installer or other contractor for services. Costs that may be claimed for the estimated value of a taxpayer's own labor are not considered to be eligible.
(I) Equipment and installation costs for backup energy production devices and any other energy production equipment that does not make use of a renewable energy source are not considered to be eligible costs.

(J) Costs for the design of a renewable energy system are generally eligible. However, in instances where design costs of a renewable energy system are included within the costs of a larger project (e.g. the design of a complete building), only the component of design costs specifically attributable to the design of the renewable energy system are eligible. Claims for design costs that do not separate eligible from ineligible costs will be deemed ineligible.

(K) Any portion of the cost of an eligible renewable energy system that is offset by a cash rebate from a manufacturer, vendor, installer, utility, or any other type of rebate shall be netted from the amount of Utah tax credits.

(L) USEP may, at its discretion, conduct an on-site inspection of a system applying for a commercial or residential tax credit. Applications for renewable energy systems that are found not to be in compliance with this rule or that are a variance with information provided in a tax credit application may be denied or the amount of the tax credit altered.

(M) Some renewable energy technologies have additional requirements for eligible costs that may be found in technology-specific sections of this rule, below.

R638-2-6. Investment Tax Credit, Eligible Costs for Commercial and Residential Systems, Active Solar Thermal,

(A) All eligible costs for active solar thermal energy systems must conform with Section R638-2-5, above. Active solar thermal energy systems must also meet the requirements in this Section.

(B) For purposes of determining eligible costs, an active solar thermal system ends at the interface between it and the conventional heating system. Eligible costs for a solar thermal system are limited to components that would not normally be associated with a conventional hot water heating system. Eligible equipment costs include:

1. Solar collectors that transfer solar heat to water, a heat transfer fluid, or air;
2. Thermal storage devices such as tanks or heat sinks;
3. Ductwork, piping, fans, pumps and controls that move heat directly from solar collectors to storage or to the interface between the active solar thermal system and a buildings conventional heating and cooling systems.

(C) Hot water storage tanks that have dual heat exchange capabilities allowing for the heating of water by both the active solar thermal system and by a nonrenewable energy source such as natural gas or electricity are eligible for tax credits. However only one half of the costs of purchasing and installing such tanks are eligible costs for the purposes of calculating a commercial or residential tax credit.

(D) In order to be eligible for residential or commercial tax credits, a solar collector that heats water must be certified and rated by the Solar Rating Certification Corporation (SRCC) according to SRCC Standard 100, "Test Methods and Minimum Standards for Certifying Solar Collectors."

(E) In order to be eligible for residential or commercial tax credits, an active solar thermal system installed after December 31, 2008 and that heats water must be certified and rated by the Solar Rating Certification Corporation (SRCC) according to SRCC Document OG-300, "Operating Guidelines and Minimum Standards for Certifying Solar Water Heating Systems."

(F) In order to be eligible for a residential or commercial tax credit, the taxpayer applicant must demonstrate that a solar thermal energy system has been sited and installed appropriately in order to realize the maximum feasible energy efficiency for a given location. Specifically, the system should conform with the following:

(I) For purposes of computing eligible costs for residential and commercial tax credits, the reasonable cost of a flat panel active solar thermal system is considered to be no higher than $0.15 per Btu/day of heat output for all eligible costs listed above and in Section R638-2-5 and prior to any cash rebates or incentives that the taxpayer may receive from a third party (such as a utility). The determination of heat output shall be based upon the ratings of the Solar Rating Certification Corporation (SRCC)/"Summary of SRCC Certified Solar Collectors and Water Heating System Ratings" that is found at: http://www.solar-rating.org/ratings/ratings.htm.

1. For a residential tax credit application with total pre-rebate eligible costs exceeding $0.15 per Btu/day of capacity, the amount of the tax credit shall be calculated as follows:
   Tax credit granted = (($0.15 x rated output capacity in Btu/day) - rebates) x 0.25
2. For a commercial tax credit application with total eligible costs exceeding $0.15 per Btu/day, the amount of the tax credit shall be calculated as 10% of costs calculated as follows:
   Tax credit granted = (($0.15 x rated output capacity in Btu/day) - rebates) x 0.10
3. If the cost of a flat panel active solar thermal system exceeds $0.15 per Btu/day of capacity due to unusual and/or unavoidable circumstances (such as a multi-story retrofit or difficult

(K) For purposes of computing eligible costs for residential and commercial tax credits, the reasonable cost of a solar PV energy system that is grid connected or that provides electricity to a building or structure that is one quarter mile or less from a power distribution line operated by a retail electric utility provider is considered to be no higher than $10 per watt of rated output capacity for all eligible costs listed above and in Section R638-2-5 and prior to any cash rebates or incentives that the taxpayer may receive from any third party (such as a utility).

1. For a residential tax credit application with total pre-rebate eligible costs exceeding $10 per watt of capacity, the amount of the tax credit shall be calculated as follows:
   \[
   \text{Tax credit granted} = (($10 \times \text{rated output capacity in watts}) - \text{rebates}) \times 0.25
   \]

2. For a commercial tax credit application with total eligible costs exceeding $10 per watt, the amount of the tax credit shall be calculated as 10% of costs calculated as follows:

   \text{Tax credit granted} = (($10 \times \text{rated output capacity in watts}) - \text{rebates}) \times 0.10
   \]

(L) For purposes of computing eligible costs for residential and commercial tax credits, the reasonable cost of a solar PV energy system that is not grid connected and that provides electricity to a building or structure that is more than one quarter mile from a power distribution line operated by a retail electric utility provider is considered to be no higher than $13 per watt of rated output capacity for all eligible costs listed above and in Section R638-2-5 and prior to any cash rebates or incentives that the taxpayer may receive from any third party (such as a utility).

1. For a residential tax credit application with total pre-rebate eligible costs exceeding $13 per watt of capacity, the amount of the tax credit shall be calculated as follows:
   \[
   \text{Tax credit granted} = (($13 \times \text{rated output capacity in watts}) - \text{rebates}) \times 0.25
   \]

2. For a commercial tax credit application with total eligible costs exceeding $13 per watt, the amount of the tax credit shall be calculated as 10% of costs calculated as follows:
   \[
   \text{Tax credit granted} = (($13 \times \text{rated output capacity in watts}) - \text{rebates}) \times 0.10
   \]

(A) An eligible passive solar system must be purposefully designed to use the structure of a building to collect, store, and distribute heating or cooling to a building and to do so at the appropriate season and time of day. (For example providing heat in winter or at night but not during summer days.) All passive solar systems should contain the following in order to be eligible:

1. A means to allow the solar energy to enter the system;
2. A heat-absorbing surface;
3. A thermal storage mass located within the conditioned space;
4. A heat transferral system or mechanism and;
5. Protection from summer overheating and excessive winter heat-loss.

A passive system must receive an average of at least four hours of sunlight per day during the winter months of December through March and shall be primarily south facing.

(B) Eligible costs for a passive solar system include the costs of the following:

1. Trombe wall;
2. Water wall;
3. Thermostephyon;
4. Equipment or building shell components providing direct heat gain; and
5. Any item that can be demonstrated to be a component of a purpose-built system to collect, store and transport heat from the sun. The cost of ventilation, fans, movable insulation, louvers, overhangs and other shading devices shall be eligible provided that they are designed to be used as an integral part of the passive solar system and not part of the conventional building design.

(C) The cost of a solarium is also considered to be eligible if it provides heat to the living space of the house in conjunction with a thermal storage mass and a forced or natural convection heat transportation design. Solariums must also be designed to prevent heat loss at night by means of insulation devices. They must also be designed so as to prevent summer heating that would increase the load on the building's cooling system.

(D) The cost of windows and other glazing devices are eligible only when they are part of a passive solar system that uses thermal mass storage and a passive or active heat transportation system to provide heating throughout the building. In addition, windows and other glazing devices are eligible only when they are oriented within 30 degrees of true south and when they are installed with shading devices or overhangs that prevent direct sun from entering the building in the summer while allowing direct sun in the winter. Windows and other glazing devices must also carry solar heat gain coefficient (SHGC) ratings of 0.50 or higher in order to allow sufficient amounts of heat into the building, but must carry a U-factor rating of 0.35 or less in order to provide sufficient insulation to the building.

(E) The cost of heat transportation systems shall be eligible provided they are part of the passive solar design and will not be used as part of a conventional heating system.

(F) Costs for the thermal storage mass of a passive solar system are eligible subject to the following:

1. For a non-loaded structure, 100% of the cost may be eligible;
2. For a loaded structure, 50% of the cost may be eligible;
3. Notwithstanding (1) and (2) above, the cost of thermal storage mass may not exceed 30% of the total system cost against which a tax credit calculated.
4. Equipment or building shell components providing direct heat gain;
5. No tax credit shall be given if USEP concludes that the passive solar system does not supply heating when needed or allows more heat loss than gain in the winter months or overheating in the summer months.

(A) All eligible costs for wind energy systems must conform with Section R638-2-5, above. Wind energy systems must also meet the requirements in this Section.

(B) Wind systems of 50 kilowatts generating capacity or less must include a wind turbine that is either:
1. Listed as eligible under the California Emerging Renewables Program in order to be eligible for a Utah commercial or residential tax credit. This list may be found at the following site: http://www.consumerenergycenter.org/cgi-bin/eligible_smallwind.cgi; or
2. The applicant can demonstrate to USEP that the turbine meets standards that are equivalent to those of the California Emerging Renewables Program as of calendar year 2007.

(C) Inverters and charge controllers must be certified for safety by a Nationally Recognized Testing Laboratory as meeting Underwriters Laboratory Standard 1741.

(D) All wind energy systems must be designed and installed consistent with the National Electric Code. Grid connected systems also must meet all interconnection standards of the local electrical utility. Applications for residential or commercial tax credits for grid connected systems must include a copy of an interconnection or net metering agreement with the local electrical utility.

(E) In order to be eligible for a residential or commercial tax credit, the taxpayer applicant must demonstrate that a wind energy system has been sited and installed appropriately. Specifically, the system should be:
   1. Installed such that the central tower or pole upon which the turbine is mounted is located a distance at least equal to one and one-half times the height of the tower or pole from any:
      a. Buildings;
      b. Utility poles or overhead utility lines;
      c. Fences, roads, or other structures outside of the boundaries of the taxpayer's property.
   2. Installed such that wind flowing to the system is not obstructed or airflow diminished or turbulence created by nearby:
      a. Trees or other vegetation;
      b. Buildings and other structures;
      c. Hills, cliffs, or other topographical obstructions.

   The photographs included with a wind energy system should include views of the system from all angles such that SEP can verify appropriate siting. SEP also reserves the right to conduct a site visit to verify appropriate siting.

(F) Wind turbines mounted on buildings are not eligible unless it can be demonstrated by a professional engineer that the building's soundness and structural integrity are not compromised by the wind energy system and that the attachments of the system to the building are sufficient to withstand the most extreme local weather conditions.

(G) Wind energy systems must include lightning protection to be eligible for residential or commercial tax credits.

(H) Wind turbines must be covered by a manufacturer's warranty that guarantees against defects in design, material, and workmanship for at least five years after installation under normal use in a wind energy system.

(J) In order to be eligible for a residential or commercial tax credit, a wind energy system must be certified for electrical safety by either:
   1. A professional electrician licensed by the State of Utah;
   2. A county or municipal building inspector licensed by the State of Utah.

   Proof of this certification may be required with the tax credit application.

(K) For purposes of computing eligible costs for residential and commercial tax credits, the reasonable cost of a wind energy system is considered to be no higher than $5 per watt of rated output capacity for all eligible costs listed above and in Section R638-2-5 and prior to any cash rebates or incentives that the taxpayer may receive from a third party (such as a utility).

   1. For a residential tax credit application with total pre-rebate costs exceeding $5 per watt of capacity, the amount of the tax credit shall be calculated as follows:
      Tax credit granted = (($5 x rated output capacity in watts) - rebates) x 0.25
   2. For a commercial tax credit application with total eligible costs exceeding $5 per watt, the amount of the tax credit shall be calculated as 10% of costs calculated as follows:
      Tax credit granted = (($5 x rated output capacity in watts) - rebates) x 0.10

(B) In order to be eligible for residential or commercial tax credits, a geothermal heat pump system employed to heat and/or cool a building must derive at least 75% the heating and cooling from the ground. Systems that provide more than an insignificant amount of energy to the building using combustion, cooling towers, air-source heat pumps, or any other mechanism not involving thermal ground coupling are not eligible.

(C) In order to be eligible for residential or commercial tax credits, a geothermal heat pump system must have been designed by either:
   1. A professional engineer licensed in Utah;
   2. A person designated as a "Certified GeoExchange Designer" by the Association of Energy Engineers; or
   3. A person designated as a "Certified Energy Manager" by the Association of Energy Engineers.

   Proof of designer qualification may be required on the tax credit application.

(E) In order to be eligible for residential or commercial tax credits, a geothermal heat pump system must have been installed by a plumber licensed in the State of Utah or by an installer certified by the International Ground Source Heat Pump Association (IGSHPA). Proof of installer qualification may be required on the tax credit application.

(F) In the case of a system using a vertical bore (either ground source or water source), drilling must be performed by a water well driller licensed by the Utah Division of Water Rights. Wells drilled for a vertical bore must also obtain a provisional well approval from the Utah Division of Water Rights, Department of Natural Resources. Proof of driller qualifications and well approval may be required on the tax credit application.

(G) Costs incurred for the drilling of wells or excavating trenches are eligible if actually used within the final system for the exchange of heat with the ground. The cost of exploratory wells or trenches that are not used within the final system are not eligible.
(H) Design costs for a geothermal heat pump system are eligible but only for the components of the system that would not normally be associated with a conventional heating and air conditioning system. Tax credit applications should separate design costs for the geothermal and conventional components of the system.

(I) For purposes of computing eligible costs for residential and commercial tax credits, the reasonable cost of a geothermal heat pump system is considered to be no higher than $4,000 per ton of output capacity for all eligible costs listed above and in Section R638-2-5 and prior to any cash rebates or incentives that the taxpayer may receive from a third party (such as a utility).

1. For a residential tax credit application with total pre-rebate eligible costs exceeding $4,000 per ton of capacity, the amount of the tax credit shall be calculated as follows:
   Tax credit granted = (($4,000 x rated output capacity in tons) - rebates) x 0.25

2. For a commercial tax credit application with total eligible costs exceeding $4,000 per ton, the amount of the tax credit shall be calculated as 10% of costs calculated as follows:
   Tax credit granted = (($4,000 x rated output capacity in tons) - rebates) x 0.10

3. If the cost of a geothermal heat pump system exceeds $4,000 per ton of capacity due to unusual and/or unavoidable circumstances (such as poor soil or drilling conditions) the taxpayer applicant may request that the reasonable cost limitation above be waived by USEP. In order to do so, the applicant must provide written documentation and explanation from the designer or installer of the system as to why the final system cost exceeded this limit. Granting of such a waiver will be at the discretion of USEP and UGS after investigation as to the validity of the waiver claim.

(E) Costs incurred for the drilling of wells are eligible if such wells are actually used (whether for withdrawal or reinjection of water) within the final geothermal electrical system. The cost of exploratory wells that are not used within the final system are not eligible.

(F) In the case of a system that includes any well greater than 30 feet in depth, any drilling must be performed by a water well driller licensed by the Utah Division of Water Rights. All such wells, whether water is returned to the ground through a recharge well or discharged at the surface, require an approved water right certification issued by the Utah state engineer in the Division of Water Rights, Department of Natural Resources. Proof of driller qualifications and well right may be required on the tax credit application.

(G) In order to be eligible for residential or commercial tax credits, a geothermal heat pump system must have been designed by either:

Proof of this certification may be required with the tax credit application.

(A) All eligible costs for direct use geothermal systems must conform with Section R638-2-5, above. Direct use geothermal systems must also meet the requirements in this Section.

(B) Eligible costs for a direct use geothermal system are limited to components that would not normally be associated with a conventional hot water heating system. Eligible equipment costs include wells and well casings, wellhead pumps, and heat exchangers where well water is not directly used within a building or a manufacturer's heating system. Equipment and components beyond the wellhead or, where applicable, a heat exchanger, are not eligible. However, water treatment equipment that would permit the direct use of well water within a heating system, is considered eligible.

(C) Design costs for a direct use geothermal system are eligible but only for the components of the system that would not normally be associated with a conventional hot water heating system. Tax credit applications should separate design costs for the geothermal and conventional components of the system.

R638-2-15. Certification of Production Tax Credit Eligibility.

(A) Businesses seeking to claim production tax credits must first apply to USEP for certification that a commercial energy system has been installed, is a viable energy production system, and meets all other requirements of Section 59-7-614. Such certification shall be sought within the first six months of the system being placed into commercial service.

(B) Eligibility for production tax credits is limited to commercial energy systems that are also any of the following:

1. Biomass systems;
2. Wind energy systems; or
3. Geothermal electricity systems.

In addition, the name plate capacity of any system seeking production tax credits must be 660 kilowatts or greater. Electricity produced by the system must either be used by the business seeking a production tax credit or sold in order to be eligible for credits.
NOTICES OF PROPOSED RULES

(C) Businesses may request certification by providing the following to USEP:

1. A written request for certification of a commercial energy system for eligibility to receive a production tax credit;
2. Information about the company seeking certification, including legal name, type of legal entity, address, telephone number, and the name and telephone number of a contact person regarding the request;
3. A description of the commercial energy system including the type of facility, total nameplate capacity, the methods to be used to produce fuel or electricity, and a list of major fuel or electricity producing components. Systems generating electricity should also provide the number, manufacturer, and model number of generating turbines to be used;
4. Information on the location of the commercial energy system sufficient to permit site inspection by USEP staff. For wind farms this should include a map of the turbine layout. For geothermal systems this should include a map showing production and injection wells along with the location of the generating turbine or turbines;
5. Photographs of key and/or representative components of the commercial energy system;
6. Projected annual electricity production in kilowatt hours for the commercial energy system once it has entered commercial service;
7. The date on which the commercial energy system entered or is expected to enter commercial service.

(D) A business requesting certification for production tax credits must also include with its request information on ownership of the commercial energy system. If the business seeking tax credit certification leases the commercial energy system, it must provide with its request evidence that the lessor of the system has irrevocably elected not to claim production tax credits for the system.

(E) If a business plans to claim production tax credits for electricity that is used and not sold, it must install a separate metering system to measure the electricity production of the commercial energy system. Such metering should be unidirectional, tamperproof, and should measure only the electricity production attributable to the commercial energy system. The meter must also measure net electricity from the system (i.e., gross electricity from the generator minus any electricity used to operate the system itself).

(F) Upon receipt of a request for certification, USEP staff will assess whether the commercial energy system applying for production tax credit certification is a viable system and whether the system has been completely installed. USEP may request that a field inspection take place to verify information in the certification request and to ensure that the system conforms with the requirements of Section 59-7-614 and with this rule.

(G) USEP will respond to a request for certification of eligibility for production tax credits within sixty days of receipt. However, if incomplete information is received or permission for field inspection has not been granted after sixty days, USEP will have an additional 30 days after receipt of complete information and/or field inspection to respond positively or negatively to a certification request.

(H) Consistent with Title 63, Chapter 46b (Administrative Procedures Act), upon its decision to grant or deny a certification request, USEP will inform the requesting company in writing of its decision. A copy of the written decision will also be provided to the Utah State Commission in order to document the company’s eligibility to claim production tax credits on future tax returns.

R638-2-16. Granting of Production Tax Credits.

(A) In order for a company to claim production tax credits on its Utah corporate income tax return, USEP must first validate the amount of tax credits the company may claim for each commercial energy system. In order to claim to be validated, the company must submit to USEP information regarding the following:

1. The date that the commercial energy system first entered commercial service;
2. Projected annual electricity production in kilowatt hours for the system that were sold or used during the company's tax year that was also used or sold within the system's production tax credit window.
3. The number of kilowatt hours produced by the system that were sold or used during the company's tax year and within the system's production tax credit window.

All such information will be provided on a standard claim form created by USEP.

(B) For purposes of validating the number of kilowatt hours sold, the company should also submit to USEP invoices or other information that documents that number of kilowatt hours of electricity sold.

(C) For purposes of validating the number of kilowatt hours produced and used, the company should submit monthly readings from the meter used to measure the net output of the commercial energy system. USEP will retain the right to site inspect the system and meter to validate that the readings provided are true and accurate.

(D) Once it has received a production tax credit claim from a company, USEP will make a determination as to:

1. Whether the information provided conforms with this rule and is complete;
2. Whether the number of kilowatt hours claimed appears to be feasible and accurate;
3. The number of kilowatt hours deemed to be validate;
4. The amount of tax credit that the company may claim for its corporate income tax return. This amount will equal 0.35 cents per each validated kilowatt hour of electricity used or sold during the company's tax year and within the systems production tax credit window;

(E) Once USEP has received complete information necessary to validate a production tax credit claim, it will provide to the company a completed validation form (to be created by either USEP or the Utah State Tax Commission) within thirty days. The form will specify the validated number of kilowatt hours that are eligible for credit and the amount (in dollars) of production tax credits that the company may claim for the commercial energy system for that tax year.

(F) If USEP denies, in whole or in part, an application for a tax credit, the taxpayer applicant may, consistent with Section 63-46b-12 (Administrative Procedures Act), request that the decision be reviewed by the USEP manager. If, after review by the manager, the taxpayer desires a further appeal, he or she may request reconsideration of the decision by the director of UGS, consistent with Section 63-46b-13.

Definitions

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The purpose of this amendment is to add more definitions commonly used, but not defined throughout the boating community of recreators. Items such as "good and serviceable condition", "immediately available", or "readily accessible" are now defined for those who boat on the waters of Utah.

SUMMARY OF THE RULE OR CHANGE: By adding new and more defined definitions, it will assist the public to understand more fully what is expected and what is meant by some of the boating terms used in Utah.

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Title 73, Chapter 18

ANTICIPATED COST OR SAVINGS TO:
- THE STATE BUDGET: Since these are definitions only, there will be no aggregate anticipated cost or savings to the state budget.
- LOCAL GOVERNMENTS: There are no anticipated cost or savings to local government, as these are definitions only and carry no monetary value or requirement.
- OTHER PERSONS: Defines how required equipment should be maintained and what it means to maintain all the boating equipment properly. The only possible cost would be if a boater replaced or repaired a personal flotation device (PFD) as defined in this section. That cost would be nominal.

COMPLIANCE COSTS FOR AFFECTED PERSONS: Those replacing or updating their equipment would pay to have such equipment repaired or replaced.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: Any fiscal impact should be negligible. Michael Styler, Executive Director

Carrying Passengers for Hire

NOTICE OF PROPOSED RULE
(Amendment)
DAR FILE NO.: 30026
FILED: 06/04/2007, 07:40

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This amendment is established to move sections of other rules to be included in the proper area recognizing carrying passengers for hire, Rule R651-206. It also deletes certain text regarding operator permits; creates section identifying outfitting company responsibilities; reduces annual outfitting company to $150, all others remain at $200; adds reasons for revoking registration for outfitting companies that violate a resource protection regulation; and provides for limited reciprocity with out-of-state registered outfitting companies that operate on waters that cross over into Utah.

SUMMARY OF THE RULE OR CHANGE: The boating rules have experienced some major changes as far as where the sections are mentioned and this amendment puts them in better order for the recreating public to find. It clarifies the use of line in a throw bag, deletes the personal flotation device (PFD) requirements for carrying passengers for hire to include in Rule R651-206; and includes the river guide’s responsibility for passengers to wear PFDs from Rule R651-215 to Rule R651-206. (DAR NOTE: The proposed amendment to Rule R651-215 is under DAR No. 30027 in this issue, July 1, 2007, of the Bulletin.)

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Title 73, Chapter 18

ANTICIPATED COST OR SAVINGS TO:

• THE STATE BUDGET: This amendment deletes language and moves it into another rule to clarify the existing rule. There is no anticipated cost or savings to the state budget. The program should be self-funded with the inclusion of the lake/reservoir outfitting companies. It is under the State Boating Act and therefore will have no impact on other agencies, with perhaps the exception of several universities who provide boats and guides. If an agency does business as an outfitting company, it would also affect its way of doing business.

• LOCAL GOVERNMENTS: There is no anticipated cost or savings to local government as this rule is being amended for clarification and incorporation into another rule where it will be understood more fully.

• OTHER PERSONS: All companies that provide guides and boats that carry passengers for hire will have to register with Utah State Parks and Recreation’s Boating Program and pay a fee. The fee will be $150 for in-state companies and $200 for out-of-state companies. Most of these companies are doing an ongoing maintenance and inspection program, but those that are not, would have to comply and bring their boats up to the basic standards required by the State Boating Act.

COMPLIANCE COSTS FOR AFFECTED PERSONS: All companies that provide guides and boats that carry passengers for hire will have to register with Utah State Parks and Recreation’s Boating Program and pay a fee. The fee will be $150 for in-state companies and $200 for out-of-state companies. Most of these companies are doing an ongoing maintenance and inspection program, but those that are not, would have to comply and bring their boats up to the basic standards required by the State Boating Act.

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This amendment is to clarify the accessibility of approved fire extinguishers on all motorboats; and to add specific instructions regarding certifying, recharging, and servicing a fire extinguisher. The new Sections R651-217-6 R651-217-7 explain what are disposable fire extinguishers, and how to determine if they are disposable.

SUMMARY OF THE RULE OR CHANGE: Updating the processes for using fire extinguishers is a very important part of any boating recreator. This change is designed to help all boaters know processes and definitions regarding having, storing, disposing, recharging, certifying, and servicing their fire extinguishers.

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Title 73, Chapter 18

ANTICIPATED COST OR SAVINGS TO:

THE STATE BUDGET: The rule amendment will require all vessels (including state vessels) to carry extinguishers that comply with minimal recharging and replacing guidelines. The only charges would be for fire extinguishers to be recharged every 5 years or replacement every 12 years.

LOCAL GOVERNMENTS: The same goes for local government vessels. The only cost would be every 5 years for recharging and every 12 years for replacement.

OTHER PERSONS: Those having their fire extinguishers charged every 5 years or replaced every 12 years would bear the cost for those services or products. The average replacement cost and recharging cost would be approximately $20 for the vessel owners.

COMPLIANCE COSTS FOR AFFECTED PERSONS: The average replacement cost and recharging cost would be approximately $20 for the vessel owners.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: This amendment will help businesses who sell fire extinguishers. Michael Styler, Executive Director

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This amendment identifies more conditions when safety equipment is required and readily accessible, unless required to be "immediately" available.

SUMMARY OF THE RULE OR CHANGE: Additional safety equipment is required to be in good and serviceable condition, and this rule amendment goes one step further by requiring that the same equipment to be "readily available" unless there is a requirement for such equipment to be "immediately available".

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Title 73, Chapter 18

ANTICIPATED COST OR SAVINGS TO:
- THE STATE BUDGET: Since this is a safety requirement, there would be no anticipated cost or savings to the state budget.
- LOCAL GOVERNMENTS: This is a boating requirement and deals directly with state issues. There are no anticipated cost or savings to local government.
- OTHER PERSONS: There is no anticipated cost or savings to other persons, other than compliance to the accessibility of safety equipment.

COMPLIANCE COSTS FOR AFFECTED PERSONS: This rule amendment requires equipment to be readily accessible, but does not require any additional equipment, and therefore, there is no compliance cost estimated to vessel owners.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: This rule amendment will have no fiscal impact on businesses. Michael Styler, Executive Director

Boat Livery Agreements

NOTICE OF PROPOSED RULE
(Amendment)
DAR FILE NO.: 30030
FILED: 06/04/2007, 07:41

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The purpose of this amendment is to change the name "Livery Agreement" to make it "Liveries - Boat Rental Companies", and re-define what boat livery responsibilities are, for a clear understanding.

SUMMARY OF THE RULE OR CHANGE: This amendment reorganizes and clarifies the text of the current rule; adds requirement for boat livery with the Division annually and payment of a fee; establishes an implementation date for annual boat livery registration to begin 01/01/2008; requires that the name of the boat livery be displayed on the vessels in its fleet; and includes an "equipment timeshare" in the definition of a "boat livery".

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Title 73, Chapter 18

ANTICIPATED COST OR SAVINGS TO:
- THE STATE BUDGET: A database for boat livery registration will need to be developed. Other costs will be incurred with processing the registration fees. However, the registration fee is anticipated to cover the administrative and educational...
costs, so there will be no anticipated cost of savings to the state budget that can be measured at this time.

- LOCAL GOVERNMENTS: This program is administered through the State Boating Program and there will be no aggregate anticipated cost or savings to local government.
- OTHER PERSONS: This program will be under the State Boating Program and all boat liveries and rental companies will need to register and pay a fee ranging from $50 to $100 per year depending on number of vessels for rent. There would be some cost incurred for each rental company to display the company name on each rental vessel. This will also involve several universities and military installations that have equipment rentals that include boats.

COMPLIANCE COSTS FOR AFFECTED PERSONS: All boat liveries and rental companies will need to register and pay a fee ranging from $50 to $100 per year depending on number of vessels for rent. There would be some cost incurred for each rental company to display the company name on each rental vessel.

Taking Big Game  

NOTICE OF PROPOSED RULE  
(Amendment)  
DAR FILE NO.: 30063  
FILED: 06/12/2007, 21:05  

RULE ANALYSIS  
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This rule is being amended pursuant to Regional Advisory Council meetings and the Wildlife Board meeting conducted for taking public input and reviewing the big game rule.  
SUMMARY OF THE RULE OR CHANGE: The proposed revisions: 1) require the hunter to possess or obtain a valid Utah hunting or combination license prior to applying for or obtaining a big game permit, pursuant to S.B. 161 passed during the 2007 general session of the Utah State Legislature; 2) change the name of the small game license to a hunting license pursuant to S.B. 161; and 3) make technical corrections for consistency and accuracy. (DAR NOTE: S.B. 161 (2007) is found at Chapter 187, Laws of Utah 2007, and is effective 07/01/2007.)  

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Sections 23-14-18 and 23-14-19  
ANTICIPATED COST OR SAVINGS TO:  
THE STATE BUDGET: This amendment requires the sportsmen to purchase a hunting or combination license prior to applying for or obtaining big game permits it has the potential to expand the number of licenses sold each year. However, since there is already an electronic system in place for the issuing of licenses the Division of Wildlife Resources (DWR) determines that these amendments do not create a cost or savings impact to the state budget or DWR's budget since the changes will not increase workload and can be carried out with existing budget.  
LOCAL GOVERNMENTS: Since this amendment requires a sportsman to purchase a hunting or combination license prior to applying for or obtaining big game permits, it has the potential to expand the number of licenses purchased. However, this should have little to no effect on the local government. This filing does not create any direct cost or savings impact to local governments because they are not directly affected by the rule. Nor are local governments indirectly impacted because the rule does not create a situation requiring services from local governments.  
OTHER PERSONS: This amendment requires the sportsman to purchase a hunting or combination license prior to applying for or obtaining big game permits. Since this amendment requires the purchase of a license, it has the potential to increase the cost to each sportsman. Therefore, the amendments have the potential to generate a cost or savings impact to other persons.  
COMPLIANCE COSTS FOR AFFECTED PERSONS: DWR determines that these amendments will create additional costs for residents and nonresidents wishing to hunt big game in Utah. Participation is voluntary and the rule amendments do not create a cost or savings impact to individuals who do not participate in hunting big game.  

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: The amendments to this rule have a potential to create an impact on businesses. Michael R. Styler, Executive Director

**RULE ANALYSIS**

**PURPOSE OF THE RULE OR REASON FOR THE CHANGE:** This rule is being amended pursuant to Regional Advisory Council and Wildlife Board meetings conducted annually for taking public input and reviewing the division's cougar program.

**SUMMARY OF THE RULE OR CHANGE:** The proposed revisions: 1) require the hunter to possess or obtain a valid Utah hunting or combination license prior to applying for or obtaining a cougar permit, pursuant to S.B. 161 passed during the 2007 general session of the Utah State Legislature; 2) change the name of the small game license to a hunting license pursuant to S.B. 161; and 3) make technical corrections for consistency and accuracy. (DAR NOTE: S.B. 161 (2007) is found at Chapter 187, Laws of Utah 2007, and is effective 07/01/2007.)

**STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE:** Sections 23-14-18 and 23-14-19

**ANTICIPATED COST OR SAVINGS TO:**

- **THE STATE BUDGET:** This amendment requires the sportsmen to purchase a hunting or combination license prior to applying for or obtaining cougar permits it has the potential to expand the number of licenses sold each year. However, since there is already an electronic system in place for the issuing of licenses the Division of Wildlife Resources (DWR) determines that these amendments do not create a cost or savings impact to the state budget or DWR's budget since the changes will not increase workload and can be carried out with existing budget.

- **LOCAL GOVERNMENTS:** Since this amendment requires a sportsman to purchase a hunting or combination license prior to applying for or obtaining cougar permits, it has the potential to expand the number of licenses purchased. However, this should have little to no effect on the local government. This filing does not create any direct cost or savings impact to local governments because they are not directly affected by the rule. Nor are local governments indirectly impacted because the rule does not create a situation requiring services from local governments.

- **OTHER PERSONS:** This amendment requires the sportsmen to purchase a hunting or combination license prior to applying for or obtaining any cougar permits. Since this amendment requires the purchase of a license, it has the potential to increase the cost to each sportsman. Therefore, the amendments have the potential to generate a cost or savings impact to other persons.

**COMPLIANCE COSTS FOR AFFECTED PERSONS:** DWR determines that these amendments will create additional costs for residents and nonresidents wishing to hunt big game in Utah. Participation is voluntary and the rule amendments do not create a cost or savings impact to individuals who do not participate in hunting big game.

**COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES:** The amendments to this rule do not create an impact on businesses. Michael R. Styler, Executive Director

(b) Personal checks drawn on an out-of-state account are not accepted.

(c) Checks must be made payable to the Utah Division of Wildlife Resources.

(i) The weapon restrictions set forth in the subsection do not apply to a person licensed to carry a concealed weapon in accordance with Title 53, Chapter 5, Part 7 of the Utah Code, provided the person is not utilizing or attempting to utilize the concealed weapon to injure or kill cougar.

(3) If eligible, a person who has obtained a cougar pursuit permit may also obtain a limited entry cougar permit or harvest objective cougar permit.

(4) Cougar may be pursued only on limited entry units or harvest objective units during the dates provided in the proclamation of the Wildlife Board for taking cougar.

(i) future pre-printed applications;
(ii) notification by mail of late application and other draw opportunities; and
(iii) re-evaluation of Division or third-party errors.

(b) The handling fee will be used to process the late application. Any Utah hunting or combination license fee submitted with the application will not be refunded and the license will be issued. Any permit fees submitted with the application will be refunded.

(c) Late applications received after the date published in the proclamation of the Wildlife Board for taking and pursuing cougar will not be processed and will be returned.

(5) Any person who applies for a hunt that occurs on private land is responsible for obtaining written permission from the landowner to access the property. To avoid disappointment and wasting the permit and fee if access is not obtained, hunters should get written permission before applying. The division does not guarantee access and does not have the names of landowners where hunts occur.

(6) Only a resident may apply for or obtain a resident permit and only a nonresident may apply for or obtain a nonresident permit, except as provided in Section R657-10-30.

(b) the nonrefundable handling fee; and
(c) the Utah hunting or combination license fee, if the applicant does not possess one of the licenses.

(2) Permits are mailed to successful applicants.

(3)(a) Unsuccessful applicants, who applied in the drawing, will not be refunded.

(b) Unsuccessful applicants, who applied with a credit or debit card, will not be charged for a permit.

(c) The handling fees and Utah hunting or combination license fees are nonrefundable.

(1) If permits remain after all choices have been evaluated separately for residents and nonresidents, a second evaluation shall be done allowing cross-over usage of remaining resident and nonresident permit quotas.

(2) Applicants will be notified by mail or e-mail of drawing results on the date published in the proclamation of the Wildlife Board for taking cougar. The drawing results will be posted on the division's Internet address.

(3) Beginning on the date published in the proclamation of the Wildlife Board for taking cougar, residents or nonresidents may purchase any of the remaining permits.

(4) Any limited entry cougar permit purchased after the season opens is not valid until seven days after the date of purchase.

(5) Limited entry permits remaining after the drawing may be obtained on a first-come, first-served basis as provided in the proclamation of the Wildlife Board for taking cougar.

(6) Waiting periods do not apply to the purchase of remaining limited entry permits after the drawing. However, waiting periods are incurred as a result of purchasing remaining permits after the drawing. Therefore, if a remaining permit is purchased in the current year, waiting periods will be in effect when applying for limited entry permits in the drawing in following years.

(7)(a) An applicant may withdraw their application for the limited entry cougar permit drawing by requesting such in writing by the date published in the proclamation of the Wildlife Board for taking cougar.

(b) The applicant must send their notarized signature with a statement requesting that their application be withdrawn to Utah Wildlife Administrative Services, P.O. Box 30389, Salt Lake City, Utah 84130-0389.

(d) If the application is amended and that amendment results in an error, the division reserves the right to reject the entire application.

(1) A bonus point is awarded for:
(a) a valid unsuccessful application when applying for a limited entry permit in the cougar drawing; or
(b) a valid application when applying for a bonus point in the cougar drawing.

(2) Bonus points are awarded only to applicants eligible to receive a limited entry cougar permit and consistent with subsection (1).

(3) The purchase of a harvest objective permit will not affect bonus points.

(4)(a) A person may apply for one cougar bonus point each year, except a person may not apply in the drawing for both a limited entry cougar permit and a cougar bonus point in the same year.

(b) A person may not apply for a bonus point if that person is ineligible to apply for a permit.

(c) Group applications will not be accepted when applying for bonus points.

(5)(a) Each applicant receives a random drawing number for:
(i) the current valid limited entry cougar application; and
(ii) each bonus point accrued.

(b) The applicant will retain the lowest random number for the drawing.

(2) Failure to accurately report the correct harvest objective management unit where the cougar was killed is unlawful.

(3) Any conviction for failure to accurately report, or aiding or assisting in the failure to accurately report as required in Subsection (1) shall be considered prima facie evidence of a knowing[, and flagrant, intentional or reckless] violation for purposes of permit suspension.

(c) The person providing the most pertinent information shall qualify for the poaching-reported reward permit.

NOTICE OF PROPOSED RULE (Amendment)
DAR FILE NO.: 30067

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This rule is being amended pursuant to Regional Advisory Council and Wildlife Board meetings conducted annually for taking public input and reviewing the Division of Wildlife's fish and crayfish management program.

SUMMARY OF THE RULE OR CHANGE: The proposed revisions: 1) require a person 12 years of age or older to obtain a fishing license pursuant to S.B. 161 passed during the 2007 general session of the Utah State Legislature; and 2) make technical corrections for consistency and accuracy. (DAR NOTE: S.B. 161 (2007) is found at Chapter 187, Laws of Utah 2007, and is effective 07/01/2007.)

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Sections 23-14-18 and 23-14-19

ANTICIPATED COST OR SAVINGS TO: 
• THE STATE BUDGET: This amendment reduces the age requirement for purchasing a fishing license. Since this amendment requires a younger angler to purchase a license,
it has the potential to expand the number of licenses issued. However, the Division of Wildlife Resources (DWR) determines that these amendments do not create a cost or savings impact to the state budget or DWR’s budget since the changes will not increase workload and can be carried out with existing budget.

**LOCAL GOVERNMENTS:** Since this amendment reduces the age requirement for purchasing a fishing license, it has the potential to increase the number of anglers traveling to and purchasing products from local businesses. However, this should have little to no effect on the local government. This filing does not create any direct cost or savings impact to local governments because they are not directly affected by the rule. Nor are local governments indirectly impacted because the rule does not create a situation requiring services from local governments.

**OTHER PERSONS:** This amendment reduces the age requirement for purchasing a fishing license. Since this amendment requires a younger angler to purchase a license, it has the potential to expand the number of licenses. This may expand the number of people purchasing licenses/services and save services at license agents. Therefore, the amendments have the potential to generate a cost or savings impact to other persons.

**COMPLIANCE COSTS FOR AFFECTED PERSONS:** DWR determines that these amendments will create additional costs for young anglers who decide to participate in fishing in Utah. Participation is voluntary and the rule amendments do not create a cost or savings impact to individuals who do not participate in fishing.

**COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES:** The amendments to this rule do not create an impact on businesses. Michael R. Styler, Executive Director

**R657-13. Taking Fish and Crayfish.**

**R657-13-1. Purpose and Authority.**

(1) Under authority of Sections 23-14-18 and 23-14-19 of the Utah Code, the Wildlife Board has established this rule for taking fish and crayfish.

(2) Specific dates, areas, methods of take, requirements and other administrative details which may change annually and are pertinent are published in the proclamation of the Wildlife Board for taking fish and crayfish.

**R657-13-3. Fishing License Requirements and Free Fishing Day.**

(1) A license is not required on free fishing day, the second Saturday of June, annually. All other laws and rules apply.

(2) A person [14] 12 years of age or older shall purchase a fishing license before engaging in any regulated fishing activity pursuant to Section 23-19-18.

(3) A person under [14] 12 years of age may fish without a license and take a full bag and possession limit.

**R657-13-4. Fishing Contests.**

(i) with 50 or more contestants; or

(ii) any fishing contest offering $500 or more in prizes.

(b)(i) Application for certificates of registration are available from division offices and must be submitted at least 60 days prior to the date of the fishing contest.

(ii) The division may take public comment before issuing a certificate of registration if, in the opinion of the division, the proposed fishing contest has potential impacts to the public or substantially impacts a public fishery.

(c) A certificate of registration may cover more than one fishing contest.

(d) The division may deny issuing a certificate of registration or impose stipulations or conditions on the issuance of the certificate of registration in order to achieve a management objective, to adequately protect a fishery or to offset impacts on a fishery or heavy uses of other public resources.

(e) A report must be filed with the division within 30 days after the fishing contest is held. The information required shall be listed on the certificate of registration.

(f)(i) Only one fishing contest may be held on a given water at any time. Each fishing contest is restricted to being held on only one water at a time.

(ii) Fishing contests may not be held on a holiday weekend, state or federal holiday, or free fishing day, except as provided in Subsection (g).

(g) A fishing contest may be held on free fishing day and a certificate of registration is not required if:

(i) contestants are limited to persons [14] 11 years of age or younger; and

(ii) less than $500 are offered in prizes.

(2) Fishing contests conducted for cold water species of fish such as trout and salmon may not be conducted:

(a) if the fishing contest offers $500 or more in total prizes, except on Flaming Gorge Reservoir there is no limit to the amount that may be offered in prizes;
(b) those waters where the Wildlife Board has imposed special harvest rules as provided in the annual proclamation of the Wildlife Board for taking fish and crayfish.

(3) Contests for warm water species of fish shall be conducted as follows:

(a) all contests as provided in Subsection (1)(a) must be:
   (i) authorized by the division through the issuance of a certificate of registration; and
   (ii) carried out consistent with any requirements imposed by the division;

(b) Fish brought in to be weighed or measured may not be released within 1/2 mile of a marina, boat ramp, or other weigh-in site and must be released back into suitable habitat for that species; and

(c) If tournament rules allow larger or smaller fish to be entered in the contest than the size allowed for possession under the proclamation of the Wildlife Board for taking fish and crayfish, the fish must be weighed or measured immediately and released where they were caught.

(1) A person may use a second pole to take fish on all waters open to fishing provided they have an unexpired fishing or combination license and a valid second pole permit.

(2)(a) A second pole permit may be obtained through the division's web site, from license agents and division offices.

   (i) A second pole permit is a 365 day permit valid only when used in conjunction with an unexpired Utah one day, seven day or annual fishing or combination license.

   (ii) A second pole permit does not allow an angler to take more than one daily bag or possession limit in any one day.

(3) Anglers under 14 years of age must purchase a valid fishing or combination license and a second pole permit in order to use a second pole.

(4) A second pole permit shall only be used by the person to whom the second pole permit was issued.

(1) A person may use a setline to take fish only in the Bear River proper downstream from the Idaho state line, including Cutler Reservoir and outlet canals; Little Bear River below Valley View Highway (SR-30); Malad River; and Utah Lake.

(2)(a) Angling with one pole is permitted while setline fishing, except as provided in Subsection (b).

   (b) A person who obtains a second pole permit may fish with two poles while setline fishing.

(3) No more than one setline per angler may be used and it may not contain more than 15 hooks.

   (4)(a) A setline permit may be obtained through the division's web site, from license agents and division offices.

   (b) A setline permit is required in addition to a valid Utah one day, seven day or annual fishing or combination license.

   (c) A setline permit is a 365 day permit valid only when used in conjunction with an unexpired Utah one day, seven day or annual fishing or combination license.

(5) When fishing with a setline, the angler shall be within 100 yards of the surface or bank of the water being fished.

   (6) A setline shall have one end attached to a nonmoving object, not attached to a fishing pole, and shall have attached a legible tag with the name, address, and setline permit number of the angler.

   (7) Anglers under 14 years of age must purchase a valid Utah one day, seven day or annual fishing or combination license and setline permit in order to use a setline.

Lifetime Hunting and Fishing License

NOTICE OF PROPOSED RULE

(Amendment)

DAR FILE NO.: 30068
FILED: 06/12/2007, 21:30

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This rule is being amended pursuant to Wildlife Board meetings conducted for taking public input and reviewing the division's big game program, which directly affects the Lifetime Hunting and Fishing License program.

SUMMARY OF THE RULE OR CHANGE: The proposed revisions: 1) change the name of the small game license to a hunting license pursuant to S.B. 161 passed during the 2007 general session of the Utah State Legislature; 2) require a person 12 years of age or older to obtain a fishing license pursuant to S.B. 161; and 3) make technical corrections for consistency and accuracy. (DAR NOTE: S.B. 161 (2007) is found at Chapter 187, Laws of Utah 2007, and is effective 07/01/2007.)

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 23-19-17.5

ANTICIPATED COST OR SAVINGS TO:

♦ THE STATE BUDGET: The reason for this rule amendment was to maintain consistency between the rule and S.B. 161 so the amendment does not create a cost or savings impact to the state budget or the Division of Wildlife Resource's (DWR) budget. Although there may be some additional programming costs the amendments will not create any cost or savings impact to the state budget or DWR's budget. Any additional work will be carried out with existing budget.

♦ LOCAL GOVERNMENTS: Since this amendment simply addresses a change in the name of the small game license and age restrictions on fishing, this filing does not create any direct cost or savings impact to local governments because they are not directly affected by the rule. Nor are local governments indirectly impacted because the rule does not create a situation requiring services from local governments.
OTHER PERSONS: Since Lifetime Licenses are no longer available for purchase, DWR determines that this amendment does not create a cost or savings impact to other persons.

COMPLIANCE COSTS FOR AFFECTED PERSONS: The amendments simply address a name change and a lower age restriction on fishing. However, since Lifetime Licenses are no longer available for purchase and the current Lifetime License holders are older than the age requirements, DWR determines that there are no additional compliance costs for affected persons associated with this amendment.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: The amendments to this rule do not create an impact on businesses. Michael R. Styler, Executive Director

R657-17-6. Hunter Education Requirements -- Minimum Age for Hunting.

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This rule is being amended to align with the criteria set forth in H.B. 48 of the 2007 Utah State Legislative Session regarding how adjudicative procedures regarding suspension of privileges to harvest protected wildlife in the state of Utah are conducted.

SUMMARY OF THE RULE OR CHANGE: The proposed revisions: 1) define "Single Criminal Episode"; 2) change hearing officer to presiding officer; 3) alter the suspension sentences a presiding officer may issue; 4) provide an alternate hunting license for those suspended for small game to allow them to apply for or obtain big game, cougar, and bear permits; and 5) make technical corrections for consistency and accuracy.

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Subsection 23-19-9(15)

ANTICIPATED COST OR SAVINGS TO:

- THE STATE BUDGET: This rule is being amended to clarify "Single Criminal Episode" and to grant latitude to the presiding officer in addressing suspension sentences. The Division of Wildlife Resources (DWR) determines that this amendment will not create any cost or savings impact to the state budget or DWR's budget since they will not increase workload and can be done with existing budget.

- LOCAL GOVERNMENTS: None--This filing does not create any direct cost or savings impact to local governments because they are not directly affected by the rule. Nor are local governments indirectly impacted because the rule does not create a situation requiring services from local governments.

- OTHER PERSONS: No impact--These amendments do not impose any requirements on persons.

COMPLIANCE COSTS FOR AFFECTED PERSONS: These amendments simply address the suspension sentences a presiding officer may issue. It also aligns the rule with H.B. 48. Therefore, this rule does not impose any cost requirements for affected persons.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: The amendments to this rule do not create an impact on businesses. Michael R Styler, Executive Director

Use of Division Lands - Rights-of-Way, Leases, and Special Use Permits

NOTICE OF PROPOSED RULE
(Amendment)
DAR File No.: 30084
Filed: 06/14/2007, 08:02

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This rule is being amended pursuant to Regional Advisory Council meetings and the Wildlife Board meeting conducted for taking public input and reviewing the Use of Division Lands rule.

SUMMARY OF THE RULE OR CHANGE: The proposed revisions: 1) combine the text from Rule R657-18 with this rule; and 2) make technical corrections. (DAR NOTE: The proposed repeal of Rule R657-18 is under DAR No. 30083 in this issue, July 1, 2007, of the Bulletin.)

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 23-14-8

ANTICIPATED COST OR SAVINGS TO:
- THE STATE BUDGET: These amendments provide clarification, requirements, and restrictions on the use of Division of Wildlife Resources' lands. The combining of Rule R657-18 with Rule R657-28 is to aid in simplifying the rules that govern public lands. The compensation that division may receive on all right-of-way, leases, and special use permits will not amount to any additional costs or savings. Therefore, the Division of Wildlife Resources (DWR) determines that these amendments do not create a cost or savings impact to the state budget or DWR's budget.
- LOCAL GOVERNMENTS: None--This filing does not create any direct cost or savings impact to local governments because they are not directly affected by the rule. Nor are local governments indirectly impacted because the rule does not create a situation requiring services from local governments.
- OTHER PERSONS: These amendments provide procedures and restrictions for the use of Division of Wildlife Resources' lands. Therefore, these amendments do not impose any additional requirements on other persons, nor generate a cost or savings impact to other persons.

COMPLIANCE COSTS FOR AFFECTED PERSONS: These amendments are for clarification, simplification, and providing restrictions on the use of Division of Wildlife Resources' lands. DWR determines that there are no additional compliance costs associated with this amendment.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: The amendments to this rule do not create an impact on businesses. Michael R. Styler, Executive Director

division may at its option offer as emergency forage for a permittee
if the period of grazing set forth in the permit is suspended by the

   (j) use division lands for any purpose that otherwise violates applicable land use restrictions imposed in statute, rule, or by the division.

   (2) The provisions of this Section do not apply to division employees in the performance of their duties.

   (3) Except as otherwise provided by statute, the violation of any provision of this Section is prescribed in Section 23-12-11.[30] Bonding.

   (1) Prior to approval and issuance of a right-of-way lease, division land lease, or special use permit, the division may require the applicant to post a surety bond in an amount determined by the division.

   (2) Only bonds issued by insurers listed in U.S. Treasury Department Circular 570, or with a financial rating assigned by the A.M. Best Company Insurance Guide of A or higher with respect to property and casualty sureties, shall be accepted by the division.

   (3) The division may use the surety bond to pay for reclamation, compensatory mitigation, payment of any money owed the division, or any other unpaid obligation of right-of-way lessee, division land lessee, or special use permit holder according to the terms and conditions set therein. Should the amount of bond fail to cover the cost of reclamation, mitigation, or other contractual obligations, the party shall remain liable for any additional costs over and above the bonded amount.

   (4) The division may require a reasonable increase from time-to-time in the amount of the bond after providing right-of-way lessee, division land lessee, or special use permit holder 30 days written notice.

   (5) The bond shall be in effect even if the lessee or permittee has conveyed all or part of the leasehold interest to a sublessee, assignee, or subsequent operator until the lessee fully satisfies the lease obligations, or until the bond is replaced with a new bond posted by the sublessee or assignee.

   (6) Following termination of a right-of-way lease, division land lease or special use permit, and satisfaction of the contractual obligations of the holder, the division shall release any unused bonds back to the lessee or permit holder within six months.

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This rule is being amended pursuant to Regional Advisory Council and Wildlife Board meetings conducted annually for taking public input and reviewing the Division of Wildlife’s rule pursuant to taking bear.

SUMMARY OF THE RULE OR CHANGE: The proposed revisions: 1) require the hunter to possess or obtain a valid Utah hunting or combination license prior to applying for or obtaining a bear permit, pursuant to S.B. 161 passed during the 2007 general session of the Utah State Legislature; 2) change the name of the small game license to a hunting license pursuant to S.B. 161; and 3) make technical corrections for consistency and accuracy. (DAR NOTE: S.B. 161 (2007) is found at Chapter 187, Laws of Utah 2007, and is effective 07/01/2007.)

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Sections 23-14-18 and 23-14-19

ANTICIPATED COST OR SAVINGS TO:

- THE STATE BUDGET: This amendment requires the sportsmen to purchase a hunting or combination license prior to applying for or obtaining bear permits; it has the potential to expand the number of licenses sold each year. However, since there is already an electronic system in place for the issuance of licenses, the Division of Wildlife Resources (DWR) determines that these amendments do not create a cost or savings impact to the state budget or DWR’s budget since the changes will not increase workload and can be carried out with existing budget.

- LOCAL GOVERNMENTS: Since this amendment requires a sportsman to purchase a hunting or combination license prior to applying for or obtaining bear permits, it has the potential to expand the number of licenses purchased. However, this should have little to no effect on the local government. This filing does not create any direct cost or savings impact to local governments because they are not directly affected by the rule. Nor are local governments indirectly impacted because the rule does not create a situation requiring services from local governments.

- OTHER PERSONS: This amendment requires the sportsmen to purchase a hunting or combination license prior to applying for or obtaining bear permits. Since this amendment requires the purchase of a license, it has the potential to increase the cost to each sportsman. Therefore, the amendments have the potential to generate a cost or savings impact to other persons.

COMPLIANCE COSTS FOR AFFECTED PERSONS: DWR determines that these amendments will create additional costs for residents and nonresidents wishing to hunt bear in Utah. Participation is voluntary and the rule amendments do not create a cost or savings impact to individuals who do not participate in hunting bear.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: The amendments to this rule do not create an impact on businesses. Michael R. Styler, Executive Director

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Sections 23-14-18 and 23-14-19

ANTICIPATED COST OR SAVINGS TO:
- THE STATE BUDGET: This amendment reduces the age requirement for hunting big game, prohibits young hunters from applying for certain permits, and requires a hunting or combination license prior to applying for or obtaining big game, cougar, bear, or turkey permits. Since this amendment reduces the age requirement to hunt big game, it has the potential to expand the number of applicants applying for and obtaining big game permits. However, the Division of Wildlife Resources (DWR) determines that these amendments do not create a cost or savings impact to the state budget or DWR’s budget since the changes will not increase workload and can be carried out with existing budget.
- LOCAL GOVERNMENTS: Since this amendment reduces the age requirement to hunt big game, it has the potential to expand the number of applicants applying for and obtaining big game permits. This amendment has the potential to increase the amount of hunters traveling to and purchasing products from local businesses. However, this should have little to no effect on the local government. This filing does not create any direct cost or savings impact to local governments because they are not directly affected by the rule. Nor are local governments indirectly impacted because the rule does not create a situation requiring services from local governments.
- OTHER PERSONS: This amendment reduces the age requirement for hunting big game, prohibits young hunters from applying for certain permits, and requires a hunting or combination license prior to applying for or obtaining big game, cougar, bear, or turkey permits. Since this amendment reduces the age requirement to hunt big game, it has the potential to expand the number of applicants applying for and obtaining big game permits. This may expand the number of people purchasing licenses/goods and services at license agents. Therefore, the amendments have the potential to generate a cost or savings impact to other persons.

COMPLIANCE COSTS FOR AFFECTED PERSONS: DWR determines that these amendments will create additional costs for young hunters who decide to participate in hunting big game. Participation is voluntary and the rule amendments do not create a cost or savings impact to individuals who do not participate in hunting big game.

(a) conservation permits to conservation organizations for sale at an auction, or for use as an aid to wildlife related fund raising activities; and

(b) sportsman permits.

(2) The division and conservation organizations shall use all revenue derived from conservation permits under Subsections R657-41-9(4) and R657-41-9(5)(b) for the benefit of the species for which the permit is issued, unless the division and conservation organization mutually agree in writing that there is a higher priority use for other species of protected wildlife.

(1) The division and conservation organization receiving permits shall enter into a contract.

(a) The conservation organization receiving permits must insure that the permits are marketed and distributed by lawful means. Conservation permits may not be distributed in a raffle except where the following conditions are met:

(i) the conservation organization obtains and provides the division with a written opinion from a licensed attorney that the scheme is in compliance with state and local gambling laws;
(ii) the conservation organization does not repurchase, directly or indirectly, the right to any permit it distributes through the raffle;
(iii) the conservation organization prominently discloses in any advertisement for the raffle and at the location of the raffle that no purchase is necessary to participate; and
(iv) the conservation organization provides the division with a full accounting of any funds raised in the conservation permit raffle, and otherwise accounts for and handles the funds consistent with the requirement in Utah Admin. Code R657-41-9.

(3) The conservation organization must:

(i) obtain the name of the proposed permit recipient at the event where the permit recipient is selected; and
(ii) notify the division of the proposed permit recipient within 10 days of the recipient selection or the permit may be forfeited.

(4) If a person is selected by a qualified organization to receive a conservation permit and is also successful in obtaining a permit for the same species in the same year through the a division drawing, that person may designate another person to receive the conservation permit, provided the conservation permit has not been issued by the division to the first selected person.

(5) If a person is selected by a qualified organization to receive a conservation permit, but is unable to use the permit, the conservation organization may designate another person to receive the permit provided:

(a) the conservation organization selects the new recipient of the permit;
(b) the amount of money received by the division for the permit is not decreased;
(c) the conservation organization relinquishes to the division and otherwise uses all proceeds generated from the re-designated permit, pursuant to the requirements provided in Section R657-41-9;
(d) the conservation organization and the initial designated recipient of the permit, sign an affidavit indicating the initial designated recipient is not profiting from transferring the right to the permit; and
(e) the permit has not been issued by the division to the first designated person.

(6) Except as otherwise provided under Subsections (4) and (5), a person designated by a conservation organization as a recipient of a conservation permit, may not sell or transfer the rights to that designation to any other person. This does not preclude a person from bidding or otherwise lawfully acquiring a permit from a conservation organization on behalf of another person who will be identified as the original designated recipient.

(7) A person cannot obtain more than one conservation permit for a single conservation permit species per year, except for:

(a) elk, provided no more than two permits are obtained where one or both are antlerless permits; and
(b) turkey.

(8) the person designated on a conservation permit voucher must possess or obtain a current Utah hunting or combination license to redeem the voucher for the corresponding conservation permit.

(1) One sportsman permit is offered to residents through a drawing for each of the following species:

(e) Rocky Mountain bighorn (ram)
(f) Rocky Mountain goat (hunter's choice)
(g) bull moose;
(h) buck pronghorn;
(i) black bear;
(j) cougar; and
(k) wild turkey.

(2) The following information on sportsman permits is provided in the proclamations of the Wildlife Board for taking protected wildlife:

(a) hunt dates;
(b) open units or hunt areas;
(c) application procedures;
(d) fees; and
(e) deadlines.

(3) a person must possess or obtain a current Utah hunting or combination license to apply for or obtain a sportsman permit.

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This rule is being amended pursuant to Regional Advisory Council and Wildlife Board meetings conducted annually for taking public input and reviewing the Division of Wildlife’s rule pursuant to fees, exchanges, surrenders refunds and reallocation of permits and other documents.

SUMMARY OF THE RULE OR CHANGE: The proposed revisions: 1) add language to Section R657-42-9 to include mandatory harvest and swan reporting; and 2) set criteria for payment of late fee for mandatory harvest and swan reporting.

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Sections 23-19-1 and 23-19-38

ANTICIPATED COST OR SAVINGS TO:
- THE STATE BUDGET: The amendments allow for the assessment of a late fee and set criteria for payment. Therefore, the Division of Wildlife Resources (DWR) determines that these amendments will not create any cost or savings impact to the state budget or DWR’s budget since the changes will not increase workload and can be carried out with existing budget.
- LOCAL GOVERNMENTS: Since the amendments set late fee payment criteria, this filing does not create any direct cost or savings impact to local governments because they are not directly affected by the rule. Nor are local governments indirectly impacted because the rule does not create a situation requiring services from local governments.
- OTHER PERSONS: These amendments set criteria for assessing a late fee for hunters who fail to report. This may impose additional financial requirements on persons who fail to report their harvest information, and generate a cost or saving impact to other persons.

COMPLIANCE COSTS FOR AFFECTED PERSONS: DWR determines that these amendments will create additional costs for residents and nonresidents who failed to report their harvest information. Participation is voluntary and the rule amendments do not create a cost or savings impact to individuals who do not participate in hunting in Utah or who correctly report their harvest information.

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This rule is being amended pursuant to Regional Advisory Council and Wildlife Board meetings conducted annually for taking public input and reviewing the Division of Wildlife’s rule pursuant to landowner permits.

SUMMARY OF THE RULE OR CHANGE: The proposed revisions: 1) require the hunter to possess or obtain a valid Utah hunting or combination license prior to applying for or obtaining big game, cougar, turkey, or bear permit, pursuant to S.B. 161 passed during the 2007 general session of the Utah State Legislature; 2) change the name of the small game license to a hunting license pursuant to S.B. 161; and 3) make technical corrections for consistency and accuracy. (DAR NOTE: S.B. 161 (2007) is found at Chapter 187, Laws of Utah 2007, and is effective 07/01/2007.)

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Sections 23-14-18 and 23-14-19

ANTICIPATED COST OR SAVINGS TO:
❖ THE STATE BUDGET: This amendment requires the landowner to purchase a hunting or combination license prior to applying for or obtaining big game, cougar, turkey, or bear landowner permits, it has the potential to expand the number of licenses sold each year. However, since there is already an electronic system in place for the issuing of licenses, the Division of Wildlife Resources (DWR) determines that these amendments do not create a cost or savings impact to the state budget or DWR’s budget since the changes will not increase workload and can be carried out with existing budget. ❖ LOCAL GOVERNMENTS: Since this amendment requires a landowner to purchase a hunting or combination license prior to applying for or obtaining big game, cougar, turkey, or bear landowner permits, it has the potential to expand the number of licenses purchased. However, this should have little to no effect on the local government. This filing does not create any direct cost or savings impact to local governments because they are not directly affected by the rule. Nor are local governments indirectly impacted because the rule does not create a situation requiring services from local governments. ❖ OTHER PERSONS: This amendment requires the landowner to purchase a hunting or combination license prior to applying for or obtaining any big game, cougar, turkey, or bear landowner permits. Since this amendment requires the purchase of a license, it has the potential to increase the cost to each sportsman. Therefore, the amendments have the potential to generate a cost or savings impact to other persons.

COMPLIANCE COSTS FOR AFFECTED PERSONS: DWR determines that these amendments will create additional costs for landowners wishing to purchase a landowner permit in Utah. Participation is voluntary and the rule amendments do not create a cost or savings impact to individuals who do not participate in purchasing landowner permits.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: The amendments to this rule do not create an impact on businesses. Michael R. Styler, Executive Director

R657. Natural Resources, Wildlife Resources.
R657-43. Landowner Permits.
R657-43-1. Purpose and Authority.
(1) Under authority of Sections 23-14-18 and 23-14-19, this rule provides the standards and procedures for private landowners to obtain landowner permits for:
(a) taking buck deer within the general regional hunt boundary area where the landowner's property is located during the general deer hunt only; and
(b) taking bull elk, buck deer or buck pronghorn within a limited entry unit.
(2) In addition to this rule, any person who receives a landowner permit must abide by Rule R657-5 and the proclamation of the Wildlife Board for taking big game.
(3) The intent of the general landowner buck deer permit is to provide an opportunity for landowners, lessees, or their immediate family, whose property provides habitat for deer, to purchase a general deer permit for the general regional hunt boundary area where the landowner's property is located.
(4) The intent of the limited entry landowner permit is to provide an opportunity for landowners, whose property provides habitat for deer, elk, or pronghorn, to be allocated a restricted number of permits for a limited entry bull elk, buck deer, or buck pronghorn unit, where the landowner's property is located. Allowing landowners a restricted number of permits:
(a) encourages landowners to manage their land for wildlife;
(b) compensates the landowner for providing private land as habitat for wildlife; and
(c) allows the division to increase big game numbers on specific units.

(1) Applications for general landowner buck deer permits are available from division offices.
(2) Only one eligible landowner or lessee may submit an application for the same parcel of land within the respective general regional hunt boundary area.
(3) In cases where more than one application is received for the same parcel of land, all applications will be rejected.
(4) Applications must include:
(a) total acres owned within the respective general regional hunt boundary area;
(b) signature of the landowner; and
(c) location of the private lands, acres owned, county and region.
(5) In cases where the landowner's or lessee's land is in more than one general regional hunt boundary area, the landowner or lessee may select one of those regions from which to receive the permit.
(6) A $5 non-refundable handling fee must accompany each application.
(7) A landowner may not apply for or obtain a general landowner buck deer permit without possessing a Utah hunting or combination license.
(8) Applications will be available by January 7.
(9) Applications must be completed and returned to the regional division office.
(10) The signature on the application will serve as an affidavit certifying ownership.

(1) Applications for limited entry landowner permits are available from division offices and from division wildlife biologists.
(2) Applications to receive limited entry landowner permits must be submitted by a landowner association for lands within the limited entry hunt unit where the private lands are located.
(3) Applications must include:
(a) total acres owned by the association within the limited entry hunting unit and a map indicating the privately owned big game habitat;
(b) signature of each of the landowners within the association including acres owned, with said signature serving as an affidavit certifying ownership;
(c) a distribution plan for the allocation of limited entry permits by the association;
(d) a copy of the association by-laws; and
(e) a $5 non-refundable handling fee.
(4) The division shall, upon request of the applicant, provide assistance in preparing the application.
(5) Applications must be completed and returned to the appropriate division office by September 1 annually.
(6) The division shall forward the application and other documentation to the Regional Wildlife Advisory Councils for public review.
(7) Recommendations by the Councils will then be forwarded to the Wildlife Board for review and action.
(8) Upon approval by the Wildlife Board, a Certificate of Registration will be issued to the landowner association.

(1) The following number of general landowner buck deer permits may be available to a landowner or lessee:
(a) one general landowner buck deer permit may be issued for eligible property of 640 acres; and
(b) one additional general landowner buck deer permit may be issued for each additional 640 acres of eligible property.
(c) If an individual has both owned and leased eligible property, the acreage may be combined in determining the number of permits to be issued.
(2) Permittees may select only one general landowner buck deer permit (archery, rifle or muzzleloader) as provided in the proclamation of the Wildlife Board for taking big game.
(3) General landowner buck deer permits are for personal use only and may not be transferred to any other person.
(b) If the landowner or lessee is a corporation, the person eligible for the permit must be a shareholder, or immediate family member of a shareholder, designated by the corporation.
(4) Any person who is issued a general landowner buck deer permit under this rule is subject to all season dates, weapon restrictions and any other regulations as provided in the proclamation of the Wildlife Board for taking big game.
(5) The fee for a general landowner buck deer permit is the same as the fee for a general season, general archery or general muzzleloader buck deer permit.
(6) Nothing in this rule shall be construed to allow any person to obtain more than one general buck deer permit from any source or take more than one buck deer during any one year.
(7) Permits will be issued beginning in June, in the order that applications are received, and permits will continue to be issued until all permits for each region have been issued.
(8) to receive a general landowner buck deer permit, the eligible person must possess or obtain a Utah hunting or combination license.

(1) Only bull elk, buck deer or buck pronghorn limited entry permits may be applied for by the landowner association.

(2)(a) The division and landowner chairperson shall jointly recommend the number of permits to be issued to the landowner association.

(b) When consensus between the landowner chairperson and the division is not reached, applications shall include justification for permit numbers for review by the Wildlife Regional Advisory Councils and the Wildlife Board.

(3) Permit numbers shall fall within the herd unit management guidelines. Permit numbers will be based on:

(a) the percent of private land big game habitat within the unit that is used by wildlife; or

(b) the percentage of use by wildlife on the private lands.

(4) Landowners receiving vouchers may personally use the vouchers or reassign the vouchers to any legal hunter.

(5) All landowners who receive vouchers, and transfer the vouchers to other hunters must:

(a) allow those hunters receiving the vouchers access to their private lands for hunting; and

(b) allow the same number of public hunters with valid permits, equal to the number of vouchers transferred, to access the landowner association's private land for hunting during the appropriate limited entry bull elk, buck deer or buck pronghorn hunting season, except as provided in Subsection (6).

(6)(a) Landowners who transfer vouchers to other hunters may deny public hunters access to the landowner association's private land for hunting by requesting, through the landowner association, a variance to Subsection (5)(b) from the Wildlife Board.

(b) The requested variance must be provided by the landowner association in writing to the division 30 days prior to the appropriate Regional Advisory Council meeting scheduled to review Rule R657-5 and the Bucks, Bulls and Once-in-a-lifetime proclamation of the Wildlife Board for taking big game.

(c) The variance request must be presented by the landowner association to the appropriate local Regional Wildlife Advisory Council. The local Regional Wildlife Advisory Council shall forward a recommendation to the Wildlife Board for consideration and action.

(7)(a) Any person who is issued a limited entry landowner permit must follow the season dates, weapon restrictions and any other regulations governing the taking of big game as specified in Rule R657-5 and the proclamation of the Wildlife Board for taking big game.

(b) to receive a limited entry landowner permit, the person designated on the voucher must possess or obtain a Utah hunting or combination license.

(8) A limited entry landowner permit authorizes the permittee to hunt within the limited entry unit where the eligible property is located.

(9) Nothing in this rule shall be construed to allow any person, including a landowner, to take more than one buck deer, one bull elk or one buck pronghorn during any one year.

SUMMARY OF THE RULE OR CHANGE: The proposed revisions: 1) require the hunter to possess or obtain a valid Utah hunting or combination license prior to applying for or obtaining a big game, cougar, turkey, or bear permit, pursuant to S.B. 161 passed during the 2007 general session of the Utah State Legislature; 2) change the name of the small game license to a hunting license pursuant to S.B. 161; and 3) make technical corrections for consistency and accuracy. ANTICIPATED COST OR SAVINGS TO:

- THE STATE BUDGET: This amendment requires the hunter to purchase a hunting or combination license prior to applying for or obtaining big game, cougar, turkey, or bear mitigation permits, it has the potential to expand the number of licenses sold each year. However, since there is already an electronic system in place for the issuing of licenses, the Division of Wildlife Resources (DWR) determines that these amendments do not create a cost or savings impact to the state budget or DWR's budget since the changes will not increase workload and can be carried out with existing budget.

- LOCAL GOVERNMENTS: Since this amendment requires a hunter to purchase a hunting or combination license prior to applying for or obtaining big game, cougar, turkey, or bear mitigation permits, it has the potential to expand the number of licenses purchased. However, this should have little to no
effect on the local government. This filing does not create any direct cost or savings impact to local governments because they are not directly affected by the rule. **R657-44-1. Purpose and Authority.**

Under authority of Section 23-16-2, 23-16-3, 23-16-3.1, 23-16-3.2 and 23-16-4, this rule provides:

(1) the procedures, standards, requirements, and limits for assessing big game depredation; and

(2) mitigation procedures for big game depredation.

**R657-44-2. Definitions.**

(1) Terms used in this rule are defined in Sections 23-13-2 and 23-16-1.1.

(2) In addition:

(a) "Alternate drawing list" means a list of persons who have not already drawn a permit and would have been the next person in line to draw a permit.

(b) "Cleared and planted land" means private land or privately leased state or federal land used to produce a cultivated crop for commercial gain and the cultivated crop is routinely irrigated or routinely mechanically or manually harvested, or is crop residue that has forage value for livestock.

(c) "Commercial gain" means intent to profit from cultivated crops through an enterprise in support of the crop owner's livelihood.

(d) "Damage incident period" means 90 days, or some longer period as approved in writing by the division, during which the division shall take action to prevent further depredation and during which compensation for damage will be calculated.

(e) "Irrigated" means the controlled application of water for agricultural purposes through man-made systems to supply water not satisfied by rainfall.

(f) "Livestock Forage" means any forage, excluding cultivated crops and crop residues, meant for consumption by livestock, not routinely irrigated or routinely mechanically or manually harvested.

(g) "Mitigation permit" means a nontransferable hunting permit issued directly to a landowner or lessee, authorizing the landowner or lessee to take specified big game animals for personal use within a designated area.

(h) "Mitigation permit voucher" means a document issued to a landowner or lessee, allowing the landowner or lessee to designate who may obtain a big game mitigation permit.

(1) If big game animals are damaging cultivated crops on cleared and planted land, or fences or irrigation equipment on private land, the landowner or lessee shall immediately, upon discovery of big game damage, request that the division take action by notifying a division representative in the appropriate regional office pursuant to Section 23-16-3(1).

(2) Notification may be made:

(a) orally to expedite a field investigation; or

(b) in writing to a division representative in the appropriate division regional office.

(3)(a) The regional supervisor or division representative shall contact the landowner or lessee within 72 hours after receiving notification to determine the nature of the damage and take appropriate action for the extent of the damage experienced or expected during the damage incident period.

(b) The division shall consider the big game population management objectives as established in the wildlife unit management plan approved by the Wildlife Board.

(c) Division action shall include:

(i) removing the big game animals causing depredation; or

(ii) implementing a depredation mitigation plan pursuant to Sections 23-16-3(2)(b) through 23-16-3(2)(f) and approved in writing by the landowner or lessee.

(4)(a) The division mitigation plan may incorporate any of the following measures:
(i) sending a division representative onto the premises to control or remove the big game animals, including:
   (A) herding;
   (B) capture and relocation;
   (C) temporary or permanent fencing; or
   (D) removal, as authorized by the division director or the division director's designee;
   (ii) recommending to the Wildlife Board an antlerless big game hunt in the next big game season framework;
   (iii) scheduling a depredation hunter pool hunt in accordance with Sections R657-44-7, R657-44-8, or R657-44-9;
   (iv) issuing mitigation permits to the landowner or lessee for the harvest of big game animals causing depredation during a general or special season hunt authorized by the Wildlife Board, of which:
   (A) the hunting area for big game animals may include a buffer zone established by the division that surrounds, or is adjacent to, the lands where depredation is occurring;
   (B) the landowner or lessee may retain no more than five antlerless deer, five doe pronghorn, and two antlerless elk;[ae]
   (C) each qualified recipient of a mitigation permit will receive from the division a Mitigation Permit Hunting License that satisfies the hunting license requirements in R657-44-11(c) to obtain the mitigation permit.
   (D) the Mitigation Permit Hunting License does not authorize the holder to hunt small game; nor does it qualify the holder to apply for or obtain a cougar, bear, turkey, or other big game permit.
   (v) issuing big game mitigation permit vouchers for use on the landowner's or lessee's private land during a general or special hunt authorized by the Wildlife Board.

   (b) The mitigation plan may describe how the division will assess and compensate for damage pursuant to Section 23-16-4.

   (c) The landowner or lessee and the division may agree upon a combination of mitigation measures to be used pursuant to Subsections (4)(a)(i) through (4)(a)(v), and a payment of damage pursuant to Section 23-16-4.

   (d) The agreement pursuant to Subsection (4)(c) must be made before a claim for damage is filed and the mitigation measures are taken.

   (5) Vouchers may be issued in accordance with Subsection (4)(a)(v) to:
   (a) the landowner or lessee; or
   (b) a landowner association that:
      (i) applies in writing to the division;
      (ii) provides a map of the association lands;
      (iii) provides signatures of the landowners in the association; and
   (iv) designates an association representative to act as liaison with the division.

   (6) In determining appropriate mitigation, the division shall consider the landowner's or lessee's revenue pursuant to Subsections 23-16-3(2)(f) and 23-16-4(3)(b).

   (7) Mitigation permits or vouchers may be withheld from persons who have violated this rule, any other wildlife rule, [ae]the Wildlife Resources Code, or are otherwise ineligible to receive a permit.

   (8)(a) The options provided in Subsections (4)(a)(i) through (4)(a)(v) are for antlerless animals only.

   (b) Deer and pronghorn hunts may be August 1 through December 31, and elk hunts may be August 1 through January 31.

   (9)(a) The division director may approve mitigation permits or mitigation permit vouchers issued for antlered animals.

   (b) A [big game]mitigation permit may be issued to the landowner or lessee to take big game for personal use, provided the division and the landowner or lessee desire the animals to be permanently removed.

   (c) A mitigation permit voucher may be issued to the landowner or lessee, provided:
      (i) the division has determined that the big game animals in the geographic area significantly contribute to the wildlife management units;
      (ii) the landowner or lessee agrees to perpetuate the animals on their land; and
      (iii) the damage, or expected damage, to the cultivated crop is comparable with the expected value of the mitigation permit voucher on that private land within the wildlife unit.

   (10)(a) If the landowner or lessee and the division are unable to agree on the assessed damage, they shall designate a third party pursuant to Subsection 23-16-4(3)(d).

   (b) Additional compensation shall be paid above the value of any mitigation permits or vouchers granted to the landowner or lessee if the damage exceeds the value of the mitigation permits or vouchers.

   (11)(a) The landowner or lessee may revoke approval of the mitigation plan agreed to pursuant to Subsection (4)(c).

   (b) If the landowner or lessee revokes the mitigation plan, the landowner or lessee must request that the division take action pursuant to Section 23-16-3(1)(a).

   (c) Any subsequent request for action shall start a new 72-hour time limit as specified in Section 23-16-3(2)(a).

   (12) The expiration of the damage incident period does not preclude the landowner or lessee from making future claims.

   (13) The division may enter into a conservation lease with the landowner or lessee of private land pursuant to Section 23-16-3(5).

(1)(a) If big game animals are damaging livestock forage on private land, the landowner or lessee shall immediately, upon discovery of big game damage, request that the division take action to alleviate the depredation problem pursuant to Section 23-16-3, and as provided in Subsections R657-44-3(1) through R657-44-3(4)(a)(v), and R657-44-3(5) and R657-44-3(8)(a).

(b) In determining appropriate mitigation, the division shall consider the landowner's or lessee's revenue pursuant to Subsections 23-16-3(2)(f) and 23-16-4(3)(b).

(c) Damage to livestock forage is not eligible for monetary compensation from the division.

(2)(a) Antlerless deer and doe pronghorn hunts may occur August 1 through December 31, and antlerless elk hunts may occur August 1 through January 31.

(b) Antlerless permits shall not exceed ten percent of the animals on the private land, with a maximum of twenty permits per landowner or lessee, except where the estimated population for the management unit is significantly over objective.

(c) Mitigation permits or vouchers may be withheld from persons who have violated this rule, any other wildlife rule, [ae]the Wildlife Resources Code, or are otherwise ineligible to receive a permit.

(3) The division may enter into a conservation lease with the landowner or lessee of private land pursuant to Section 23-16-3(5).

(1)(a) Buck deer, bull elk, or buck pronghorn depredation hunts, that are not published in the proclamation of the Wildlife Board for taking big game, may be held.

Taking Wild Turkey

NOTICE OF PROPOSED RULE

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This rule is being amended pursuant to Regional Advisory Council meetings and the Wildlife Board meeting conducted for taking public input and reviewing the wild turkey program as approved by the Wildlife Board.

SUMMARY OF THE RULE OR CHANGE: The proposed revisions: 1) require the hunter to possess or obtain a valid Utah hunting or combination license prior to applying for or obtaining a turkey permit, pursuant to S.B. 161 passed during the 2007 general session of the Utah State Legislature; 2) change the name of the small game license to a hunting license pursuant to S.B. 161; and 3) make technical corrections for consistency and accuracy. (DAR NOTE: S.B. 161 (2007) is found at Chapter 187, Laws of Utah 2007, and is effective 07/01/2007.)

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Sections 23-14-18 and 23-14-19

ANTICIPATED COST OR SAVINGS TO:

THE STATE BUDGET: This amendment requires the sportsmen to purchase a hunting or combination license prior to applying for or obtaining turkey permits it has the potential to expand the number of licenses sold each year. However, since there is already an electronic system in place for the issuing of licenses, the Division of Wildlife Resources (DWR)
determines that these amendments do not create a cost or savings impact to the state budget or DWR's budget since the changes will not increase workload and can be carried out with existing budget.

- **LOCAL GOVERNMENTS:** Since this amendment requires a sportsman to purchase a hunting or combination license prior to applying for or obtaining turkey permits, it has the potential to expand the number of licenses purchased. However, this should have little to no effect on the local government. This filing does not create any direct cost or savings impact to local governments because they are not directly affected by the rule. Nor are local governments indirectly impacted because the rule does not create a situation requiring services from local governments.

- **OTHER PERSONS:** This amendment requires the sportsmen to purchase a hunting or combination license prior to applying for or obtaining any turkey permits. Since this amendment requires the purchase of a license, it has the potential to increase the cost to each sportsmen. Therefore, the amendments have the potential to generate a cost or savings impact to other persons.

**COMPLIANCE COSTS FOR AFFECTED PERSONS:** DWR determines that these amendments will create additional costs for residents and nonresidents wishing to hunt turkey in Utah. Participation is voluntary and the rule amendments do not create a cost or savings impact to individuals who do not participate in hunting turkey.

**COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES:** The amendments to this rule do not create an impact on businesses. Michael R. Styler, Executive Director

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The purpose of this amendment is to clarify provisions based on comments received after the last amendment.

SUMMARY OF THE RULE OR CHANGE: This rule relates to Professional Employment Organizations (PEO). The Department filed a proposed amendment on 04/20/2007. Based on the comments received, two new provisions are added which explain that a letter is not required if the PEO does not intend to continue employment and that if a claimant does not report back to the PEO for a new assignment after receipt of the letter it will be considered a quit. It was the Department's intent to treat cases this way but based on comments received it was not clear. This proposed amendment makes the rule more clear and hopefully satisfies the concerns from the comments. It is the Department's intent to make the amendment filed on 04/20/2007 effective on 08/07/2007, and this amendment effective 08/08/2007.

R994-405-3 Professional Employment Organizations (PEO).
(1) PEO is defined in R994-202-106 and must be registered pursuant to Sections 58-59-101 et seq. PEOs are also known as employee leasing companies. PEOs are treated differently from a THC because the assignments are usually not of a temporary nature.
(2) When a client company contracts with a PEO, the PEO becomes the employer of the client company's employees. Because the client company is no longer the employer, a job separation has occurred. The job separation is a reduction of force and the client company is not eligible for relief of charges.
(3) When the contract between a PEO and a client company ends, a separation occurs. Regardless of the circumstances or which entity is the moving party, the affected employees are considered separated due to a reduction of force, and the PEO is not eligible for relief of charges. Any offers of work extended to affected employees subsequent to the termination of the contract shall be considered offers of new work and shall be adjudicated in accordance with 35A-4-405(3) and R994-405-301 et seq.
(4) A reasonable time to contact the PEO is generally considered to be two working days after the assignment ends. The reasonable time to contact the PEO is generally considered to be two working days after the assignment ends. The written notice must be provided to the claimant when the assignment ends and must be provided even if the PEO has a contract with the claimant requiring the claimant to contact the PEO when an assignment ends.
(5) If the PEO or client company does not provide written notice as [required][referenced in paragraph (4) of this section, unemployment benefits will be determined based on the reason the assignment with the client company ended.
(6) If the PEO provides the notice [required][referenced in paragraph (4) of this section and the claimant contacts the PEO as instructed and:
(a) refuses a new work assignment that is similar to the claimant's previous assignments with the PEO, the job separation is a quit. The duties, wages, hours, and conditions of the new assignment will be considered in determining if the new assignment is similar to the previous assignments.

(b) refuses a new work assignment that is substantially different from the claimant's previous assignments, the job separation is a layoff and an offer of new work.

(c) the PEO has no new assignments, the job separation is a layoff.

(7) If the PEO does not intend to offer the claimant another assignment the PEO should not provide the written notice referenced in paragraph (4) of this section at the time of separation. If no notice is provided, the separation will be determined based on the reason for the separation from the client company.

(8) If the claimant does not contact the PEO after receiving notice given pursuant to paragraph (4) of this section, the job separation is a quit.

NOTICES OF
CHANGES IN PROPOSED RULES

After an agency has published a PROPOSED RULE in the Utah State Bulletin, it may receive public comment that requires the PROPOSED RULE to be altered before it goes into effect. A CHANGE IN PROPOSED RULE allows an agency to respond to comments it receives.

As with a PROPOSED RULE, a CHANGE IN PROPOSED RULE is preceded by a RULE ANALYSIS. This analysis provides summary information about the CHANGE IN PROPOSED RULE including the name of a contact person, anticipated cost impact of the rule, and legal cross-references.

Following the RULE ANALYSIS, the text of the CHANGE IN PROPOSED RULE is usually printed. The text shows only those changes made since the PROPOSED RULE was published in an earlier edition of the Utah State Bulletin. Additions made to the rule appear underlined (e.g., example). Deletions made to the rule appear struck out with brackets surrounding them (e.g., [example]). A row of dots in the text between paragraphs (· · · · · ·) indicates that unaffected text, either whole sections or subsections, was removed to conserve space. If a CHANGE IN PROPOSED RULE is too long to print, the Division of Administrative Rules will include only the RULE ANALYSIS. A copy of rules that are too long to print is available from the agency or from the Division of Administrative Rules.

While a CHANGE IN PROPOSED RULE does not have a formal comment period, there is a 30-day waiting period during which interested parties may submit comments. The 30-day waiting period for CHANGES IN PROPOSED RULES published in this issue of the Utah State Bulletin ends July 31, 2007. At its option, the agency may hold public hearings.

From the end of the waiting period through October 29, 2007, the agency may notify the Division of Administrative Rules that it wants to make the CHANGE IN PROPOSED RULE effective. When an agency submits a NOTICE OF EFFECTIVE DATE for a CHANGE IN PROPOSED RULE, the PROPOSED RULE as amended by the CHANGE IN PROPOSED RULE becomes the effective rule. The agency sets the effective date. The date may be no fewer than 30 days nor more than 120 days after the publication date of this issue of the Utah State Bulletin. Alternatively, the agency may file another CHANGE IN PROPOSED RULE in response to additional comments received. If the Division of Administrative Rules does not receive a NOTICE OF EFFECTIVE DATE or another CHANGE IN PROPOSED RULE, the CHANGE IN PROPOSED RULE filing, along with its associated PROPOSED RULE, lapses and the agency must start the process over.

CHANGES IN PROPOSED RULES are governed by Utah Code Section 63-46a-6 (2001); and Utah Administrative Code Rule R15-2, and Sections R15-4-3, R15-4-5, R15-4-7, and R15-4-9.

4.1.1. Location of Records. Unless otherwise authorized by the Division in writing, the business records of the principal broker shall be maintained at his principal business location or, where applicable, at the branch office. 4.1.2. Transaction Identification. All transactions, whether pending, closed or failed, must be numbered consecutively and identifiable in a manner that, in the opinion of the representative of the Division, the transaction can be readily followed in all pertinent documents. A sequential transaction number is to be assigned to every offer, and a separate transaction file is to be maintained for every offer, including rejected offers involving funds deposited to the brokerage.
trust account. A sequential transaction number need not be assigned to rejected offers which do not involve funds deposited to trust. The principal broker may, at his option, maintain a separate transaction file for each rejected offer which does not involve funds deposited to trust or keep such rejected offers in a single file.

4.1.3. Statement of Account. At the expiration of 30 days after an offer has been made by a buyer and accepted by a seller, either party may demand, and the principal broker must furnish, a detailed statement showing the current status of the transaction. On demand by either party, the principal broker must furnish an updated statement at 30-day intervals thereafter until the transaction is closed.

4.1.4. Settlement Statements. A principal broker charged with closing a sale shall cause to be prepared and delivered to the buyer and seller, upon completion of a transaction, a detailed settlement statement of all their respective accounts showing receipts and disbursement.

4.1.4.1. Settlement statements for all real estate transactions in which a real estate principal broker participates must show the following: the date of settlement; the total purchase price of the property; an itemization of all adjustments, money, or things of value received or paid, and to whom each item is credited or debited. The dates of the adjustments must be shown if they are not the same as the date of settlement. Also shown must be the balances due from the respective parties to the transaction, and the names of the payees, makers, and assignees of all notes paid, made, or assumed. The statements furnished to each party to the transaction must contain an itemization of credits and debits as pertain to each party.

4.1.4.2. Regardless of who closes the transaction, a principal broker is responsible for the content and accuracy of all settlement statements prepared for the signature of the party with whom the principal broker has an agency relationship in that transaction.

4.1.4.3. A principal broker who closes a transaction must show proof of delivery of the settlement statement(s) to the buyer and seller. Signatures of the buyer and seller on the file copy of the settlement statement or a copy of a transmittal letter sent by certified mail, return receipt requested, when signatures are not attainable, will satisfy this requirement.

4.1.5. Death or Disability of Principal Broker: Upon the death or inability of a principal broker to act as a principal broker the following procedures shall apply:

4.1.5.1. In the case of a corporation, partnership, Limited Liability Company, association, or other legal entity the provisions of R162-2-2.3.2. shall apply.

**REASONED JUSTIFICATION FOR CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY:** This rule provides client agencies (state, school districts, and higher education) with the specific requirements and expectations of the Division of Risk Management (Risk) with regard to coverage and other associated activities of the division. The rule spells out what the client may expect from Risk in the terms of services and what Risk requires of client agencies. The rule provides specific guidance to clients that is not found in the broad statutes that establish Risk Management or which outline how defense and indemnification can be obtained. The rule needs to be continued in order to assist both Risk Management in providing the services required by statute and to assist agencies to know what they can expect from Risk.

Reasoned Justification for Continuation of the Rule, Including Reasons Why the Agency Disagrees with Comments in Opposition to the Rule, If Any: This rule provides client agencies (state, school districts, and higher education) with the specific requirements and expectations of the Division of Risk Management (Risk) with regard to coverage and other associated activities of the division. The rule also spells out what the client may expect from Risk in the terms of services and what Risk requires of client agencies. The rule provides specific guidance to clients that is not found in the broad statutes that establish Risk Management or which outline how defense and indemnification can be obtained. The rule needs to be continued in order to assist both Risk Management in providing the services required by statute and to assist agencies to know what they can expect from Risk.

FIVE YEAR NOTICE OF REVIEW AND STATEMENT OF CONTINUATION
DAR FILE No.: 30051
FILED: 06/09/2007, 11:04
NOTICE OF REVIEW AND STATEMENT OF CONTINUATION

Concise explanation of the particular statutory provisions under which the rule is enacted and how these provisions authorize or require the rule: Subsection 67-19-6(1)(d) gives the Department of Human Resource Management (DHRM) broad powers within the Administrative Rulemaking Act to "...adopt rules for personnel management,..." DHRM has opted to use a format similar to the Utah Code in that definitions are treated in a separate section for quick reference rather than in the text of the rules unless it is clearer for the non-expert reader to have the definition within the text.

Summary of written comments received during and since the last five year review of the rule from interested persons supporting or opposing the rule: The definitions contained in this rule support all other DHRM rules. Amendments to these definitions are driven almost exclusively by amendments to other DHRM rules and therefore come mostly from within DHRM. Within the previous five years however, two written requests were received by human resource offices within agencies of the executive branch. One came from the human resource staff within the Department of Human Services (DHS) to amend the definition of "At Will Employee". It was suggested that the definition be simplified to include only employees who did not have career service status for whatever reason. This suggestion was accepted and incorporated into the rules. The second request came from the human resource staff within the Department of Health to amend the definition of "Excess Hours" to exclude sick leave and compensatory time for employees exempt from the Fair Labor Standards Act (FLSA) in the computation of excess hours.

Reasoned justification for continuation of the rule, including reasons why the agency disagrees with comments in opposition to the rule, if any: DHRM rules can be complex and involved, especially for the non-expert reader. Dedicating one of these rules to the definition of commonly used terms can be a great assist to understanding and terms are easier to look up. Therefore, this rule should be continued. The recommendation from DHS to exclude sick leave and compensatory time from the definition of "excess hours" was not accepted because it would restrict the flexibility of local managers to manage employees use of time and leave according to the employees situation and needs.

FIVE YEAR NOTICE OF REVIEW AND STATEMENT OF CONTINUATION

NOTICE OF REVIEW AND STATEMENT OF CONTINUATION

Concise explanation of the particular statutory provisions under which the rule is enacted and how these provisions authorize or require the rule: This rule of the Department of Human Resource Management (DHRM) governs applicability of rules, compliance, record keeping and information, fair employment practice, and the Quality Service Award. Statutory authority for this rule is found in several sections of the Utah Code. Subsection 63-2-204(2) gives government entities authority to write rules governing requests for information under the Government Records and Management Act, Title 63, Chapter 2. Section 67-19-6 gives DHRM broad rulemaking authority for the human resource management system. Subsection 67-19-18(3) gives DHRM authority to write rules governing the procedural and documentary requirements for disciplinary matters.

Summary of written comments received during and since the last five year review of the rule from interested persons supporting or opposing the rule: Two requests were received in the previous five years to amend this rule, both from human resource staff within agencies of the executive branch of state government. Staff from the Department of Human Services requested that the results of drug testing not be included in the employee medical file. After considerable research, DHRM deleted this and fitness for duty evaluations from the rule after concluding that this was not required by state or federal law. Staff from the Department of Transportation (DOT) requested DHRM to review all the items required to be placed in the employee's permanent personnel file because of the high administrative cost to maintain these files.

Reasoned justification for continuation of the rule, including reasons why the agency disagrees with comments in opposition to the rule, if any: This rule contains requirements for state compliance with: federal laws governing discrimination and equal employment opportunity and Section 67-19-4; record keeping for state employees under the Personnel Management Act in Subsections 67-19-18(5) and 67-19-18(3); and the Government Records Access and Management Act and the requirements of the Nepotism
Act, Section 52-3-1. Therefore, this rule should be continued. This rule also recognizes the joint role of DHRM, the Division of Finance, and the Governor’s Office of Planning and Budget to monitor and control personnel service expenditures for the state. The rule was written with input and consent from all three entities. DHRM staff reviewed each item included in the personnel file as requested by DOT and concluded that there is a valid legal reason to have each item identified in the rule in the file and no changes were made.

Notice of Review and Statement of Continuation
Concise explanation of the particular statutory provisions under which the rule is enacted and how these provisions authorize or require the rule: Subsection 67-19-12(3) charges the Department of Human Resource Management (DHRM) with responsibility for the maintenance of a state classification system. Section 67-19-31 provides for a classification grievance process. DHRM employees rules are written under the broad rulemaking power granted in Section 67-19-6 to bring administrative and legal consistency to these two processes.

Summary of written comments received during and since the last five year review of the rule from interested persons supporting or opposing the rule: Human resource staff from the Department of Human Services (DHS) requested several amendments to this rule concerning the conduct of classification studies and classification grievances. It was requested that agency human resource staff be allowed to conduct classification studies under the authority of the delegation agreements in place at the time of the request. DHRM agreed and amended the rule accordingly. DHS also requested that an agency be allowed to grieve a classification decision from DHRM. DHRM agreed and incorporated this into the rule. DHS requested that the three-month settling period after reorganization be eliminated.

Reasoned justification for continuation of the rule, including reasons why the agency disagrees with comments in opposition to the rule, if any: Section 67-19-8, Functions of department (DHRM) not to be delegated, makes the design and administration of the classification system the exclusive domain of DHRM. Therefore, this rule should be continued. The three-month time frame is designated in rule to allow employees time to assimilate new duties into their work regimen. DHRM did not make this change asserting that three months is a minimum time period to assess how important each new duty is to the overall purpose of the position so the position can be properly classified.

Five Year Notice of Review and Statement of Continuation
DAR File No.: 30061
Filed: 06/09/2007, 11:09

Notice of Review and Statement of Continuation
Concise explanation of the particular statutory provisions under which the rule is enacted and how these provisions authorize or require the rule: This rule is written under the broad grant of rulemaking authority given to the Department of Human Resource Management (DHRM) in Section 67-19-6.
Specifically, this rule addresses the requirements in Sections 67-19-16 and 67-19-15.7 for DHRM to manage the process by which employees are recruited, hired and promoted and to do this by rule.

**SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE:** Two written comments were received concerning this rule. One came from the human resource staff within the Department of Human Services (DHS) requesting DHRM to define the phrase "five working days" for recruiting purposes. Rules require a position to be announced for five working days but some agencies operate on a 24/7 basis and may see a working day different from most other agencies. The Utah Public Employees Association (UPEA) requested a change to the rule governing career mobility programs. They wanted the rule to specify that all employees in career mobility be required to return to their former position or an equivalent position without losing salary considerations.

**REASONED JUSTIFICATION FOR CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY:** This rule is the foundation for the recruitment and selection procedures that implement the requirements of Section 67-19-16, generally accepted principles of merit and competitive recruitment practices, and case law. Therefore, this rule should be continued. DHRM did not implement the request from DHS to define more precisely what is meant by "five working days". The current rule provides agencies with needed discretion to define a working day to suit their own needs for recruitments. DHRM had a concern with the UPEA proposal regarding career mobility programs. It would require all employees on career mobility to return to their previous positions making all career mobility assignments temporary. Career mobility programs are designed as important developmental opportunities for employees. This rule is written to allow the possibility for an assignment to become permanent. The UPEA proposal would eliminate an important career opportunity for many employees.

**CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE:** Subsection 67-19-16(5) requires agency heads to make hires from hiring lists for probationary periods established by rule and for the Director of the Department of Human Resource Management (DHRM) to make rules establishing probationary periods.

**SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE:** Human resource staff in the Department of Human Services requested that management be allowed to extend the probationary period for a new employee under certain circumstances when the employee is absent for a long period of time during probation. They reason that probation is a period for management to evaluate whether a new employee can perform the job duties. A long absence may severely restrict the ability of management to make a good judgment. DHRM agreed and added the rule to allow management to extend the probationary period when the employee is absent for reasons defined in the federal Family Medical Leave Act. Human resource staff from several agencies also requested that the rule on probationary periods be amended to clarify that a probationary termination is outside the normal termination process for career service employees and that the probationary employee has no due process rights as a result. DHRM agreed and made the appropriate amendments.

**REASONED JUSTIFICATION FOR CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY:** This rule implements the requirements of Section 67-19-16 regarding probationary periods. The probationary period is the final step in the selection process and the gateway to merit status. Therefore, this rule should be continued. DHRM agreed with all written proposals to amend this rule.

FIVE YEAR NOTICE OF REVIEW AND STATEMENT OF CONTINUATION
DAR File No.: 30060
Filed: 06/09/2007, 11:08

NOTICE OF REVIEW AND STATEMENT OF CONTINUATION
CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE: Section 67-19-12 requires the Department of Human Resource Management (DHRM) to work with the Governor to establish pay plans for each position in the classified service (Subsection 67-19-12(4)) and to issue rules for the administration of pay plans (Subsection 67-19-12(4)(c)(iii)). Section 67-19-12.5 defines the flexible benefit program authorized by the Internal Revenue Service and provides for DHRM to make rules for its administration.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: The Governor’s Office of Planning and Budget (GOPB) and the Department of Human Services (DHS) requested language for salary increases in two situations. One was to limit salary step increases to only when appropriated by the legislature. The second request was to make employees on longevity eligible for across the board merit raises contingent on legislative appropriation. The request from GOPB and DHS was not accepted because longevity status is well defined in the code which grants adjustments according to a fixed formula. The request from UPEA was not accepted because one of the primary purposes of administrative salary increases is to reward employees for good performance with a step increase. The suggestion from DNR was modified to allow a manager to adjust the salary of an employee who transfers to another position. All transfers do not include a salary increase. Some are lateral with no change in salary and others are downward and may require a salary decrease in defined situations.

REASONED JUSTIFICATION FOR CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: Section 67-19-12 provides the legal basis for the state compensation system and requires that DHRM design pay plans and write rules to implement the section. Due to the critical nature of employee compensation for the state budget and for the employee, this rule is monitored closely by all interested parties and is perhaps the most researched of the DHRM rules. Many provisions of this rule represent agreements made with interested parties over long periods of time. At the same time, DHRM is very sensitive to the budgetary and legal implications when considering proposed changes. Therefore, this rule should be continued. The request from GOPB and DHS to limit merit raises to those appropriated by the legislature was not accepted because language is already in rule limiting across the board merit raises contingent on legislative appropriation. This additional language would stop step increases when employees are promoted or rewarded for good performance. The second request from GOPB and DHS was not accepted because longevity status is well defined in the code which grants adjustments according to a fixed formula. The request from UPEA was not accepted because one of the primary purposes of administrative salary increases is to reward employees for good performance with a step increase. The suggestion from DNR was modified to allow a manager to adjust the salary of an employee who transfers to another position. All transfers do not include a salary increase. Filed: 06/09/2007, 11:08
NOTICE OF REVIEW AND STATEMENT OF CONTINUATION

CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE: This rule addresses state and federal laws that require implementation through rule for clarification or administrative purposes. The Fair Labor Standards Act (FLSA) and the regulations associated with it in 29 CFR parts 500-899 (1996) require conformance by employers and provide for certain degrees of flexibility that must be addressed in rule. Section 67-19-6.7 defines overtime benefits for state employees in addition to the FLSA and requires rulemaking by the Department of Human Resource Management (DHRM). Section 67-19-6 provides broad rulemaking authority for DHRM and is the legal provision for all other sections of this rule.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: The Department of Health (DOH) and the Department of Human Services (DHS) human resource staffs recommended language that allows excess hours earned to be used the same as compensatory hours instead of annual leave hours. The DHS human resource staff also requested that the approval process for completing and signing time sheets be placed in rule to show that management did not authorize overtime. DHS also requested that language be placed in rule defining an employee's right to be given time to vote in an election in certain circumstances consistent with Section 20A-3-103. This was adopted.

REASONED JUSTIFICATION FOR CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: The FLSA provisions in this rule are essential to the proper management of the state's human resource management system. Without them, the state faces serious and costly legal liability having experienced already two lawsuits on these matters in the past 20 years. These include the subsections dealing with work period, lunch and breaks, and overtime. Other subsections are common but important provisions covering employee obligations to the state as the principle employer. Therefore, this rule should be continued. The recommendation from DHS and DOH was not implemented because compensatory hours are not a property right for FLSA-exempt employees whereas annual leave hours are a property right. This recommendation confuses this distinction. The request from DHS concerning time sheets was not adopted because this is not consistent with the FLSA.

NOTICE OF REVIEW AND STATEMENT OF CONTINUATION

CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE: Title 67, Chapter 16, Utah Ethics Act, requires employees to notify management of potential conflicts in interest with employment with the State. Section 67-19-19 governs political activity of certain classes of state employees. The Department of Human Resource Management (DHRM) implements these requirements for the executive branch of state government via rulemaking authority granted by Section 67-19-6 which contains a general grant of rulemaking authority to DHRM to govern the human resource management system.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: In 2001, DHRM proposed to delete a section that prohibited employees from having weapons in their possession while at work. A rules hearing was scheduled to take public comment on this issue. A total of 185 written comments were received concerning this proposal with 174 in support and 11 opposed; 18 comments came from state employees. At the hearing, 21 comments were received. Fourteen supported removing the section of the rule while seven were opposed; five of these people identified themselves as state employees. At the hearing, 21 comments were received. Fourteen supported removing the section of the rule while seven were opposed; five of these people identified themselves as state employees. Most of the comments supporting removal of the section pointed out that DHRM did not have a clear enough legal mandate to have such a requirement. After consultation with the Governor's Office and the Attorney General, DHRM agreed and proceeded with the removal of the section.

REASONED JUSTIFICATION FOR CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: This rule contains important provisions governing general employee behavior on the job including conflicts of interest and the acceptable use of state resources. It also deals with provisions in the law governing...
employee behavior off the job such as political activity and second jobs. Therefore, this rule should be continued.

**NOTICE OF REVIEW AND STATEMENT OF CONTINUATION**

**CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE:**

Section 67-19-6 contains a general grant of rulemaking authority for human resource management and a specific charge concerning training programs and who has authority for certain types of training. Section 67-19-12 governs pay plans and gives authority to the Department of Human Resource Management (DHRM) to write rules governing how employees receive step advances on the salary range. Performance may be considered in writing these rules.

**SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE:**

The vast majority of written comments for this rule focused on the corrective action provisions and came primarily from two sources, the Utah Public Employees’ Association (UPEA) and human resource staff from the various departments. Many comments from UPEA requested a more tightly defined process for corrective action specifying that managers be required to include four components: closer supervision, period of constant review, opportunity for remediation, and a mid point evaluation. Currently, management is required to include only one or more of these and other components in the plan. UPEA also asked that the rule be amended to require management to give the employee the entire time period specified in the corrective action plan to remedy performance unless significant evidence shows that continuation of the corrective action will not result in improvement. DHRM agreed and made the appropriate amendment. A request from the Department of Human Services (DHS) staff asked for more specific language on the documentation of corrective action. Another request from DHS asked that management be required to have regular meetings with employees on corrective action. Human resource staff from the Tax Commission asked that all corrective action plans be written. Several comments were received asking that language be incorporated making it more clear that corrective action is an option available to management to correct job performance and not mandatory in all cases. DHRM generally agrees with these recommendations and has amended these provisions many times to clarify this policy. Human resource staff from the Tax Commission requested more explicit language on the repayment of educational assistance when an employee leaves within one year of receiving the assistance. In 2004, an employee from the Department of Transportation petitioned DHRM to remove the rule that required an employee to declare agreement or disagreement with the performance rating. Research was submitted to DHRM showing that this is not part of typical performance reviews. One important reason is that a general statement is not specific enough and can create significant legal questions in litigation. DHRM agreed and deleted the rule.

**REASONED JUSTIFICATION FOR CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY:**

This rule sets parameters for agencies in conducting important development activities for employees including evaluation of their performance, corrective actions to save employees whose performance is not up to standard, and training and educational assistance. Documentation of employee performance and agency attempts to help an employee improve performance are important records in disciplinary proceedings and justification of employee salary increases. Corrective action is an administrative device used early in the process of dealing with poor performance before applying more formal and legally defined procedures. Therefore, this rule should be continued. DHRM did not adopt the recommendation from UPEA for a more tightly defined process. When confronted with these requests, DHRM has always held that at this point in the process management needs maximum flexibility. Examples include situations where an employee works mostly in the field and management simply does not have the opportunity to communicate frequently enough to comply with the UPEA recommendations. In another example, a skill deficit may be responsible for the substandard performance and training is the only needed remedy. DHRM did not adopt the recommendation from DHS for more specific language for documentation feeling that the level of specificity is more appropriately set at the agency level since agencies may have very different needs. Law enforcement, for example, typically requires specific records in an employee’s files that are not used by other agencies. The recommendation from DHS to
require regular meetings was not adopted. There are many situations in state government where this is impossible given the amount of time many employees spend in the field. DHRM disagreed with the Tax Commission recommendation that all corrective actions be written pointing out that this may not be necessary in certain situations when a simple solution can solve the problem without all the work required in a formal written document. DHRM did not adopt the recommendation from the Tax Commission for more specific language in rule regarding the repayment of educational assistance when an employee terminates. This is seen as a policy more appropriately set by each agency.

Notice of Review and Statement of Continuation
Concise explanation of the particular statutory provisions under which the rule is enacted and how these provisions authorize or require the rule:
Section 67-19-18 requires that the Department of Human Resource Management (DHRM) write rules governing disciplinary processes.

Summary of written comments received during and since the last five year review of the rule from interested persons supporting or opposing the rule:
Human resource staff in the Department of Health (DOH) requested that employees covered by the Fair Labor Standards Act (FLSA) not be subject to suspensions shorter than one week. Human Resource staff in the Department of Human Services (DHS) requested that language in the discipline rules make it clear that these rules are not applicable to noncareer service employees regardless of the reason. DHRM agreed and made appropriate amendments. The Utah Public Employees Association (UPEA) requested that provision be placed in rule requiring progressive discipline where appropriate. UPEA also requested that management be required to consider certain factors in all cases before imposing discipline. This was not adopted. Human resource staff in the Department of Natural Resources (DNR) requested that language be added that allows discipline when an employee shows disrespect to management.

Reasoned justification for continuation of the rule, including reasons why the agency disagrees with comments in opposition to the rule, if any:
This rule fulfills DHRM's responsibility to write rules governing the disciplinary process, Subsection 67-19-18(2). This is an important and technical part of the due process protections afforded to employees by the career service system. Failure to set statewide standards leaves the state open to serious liability. Therefore, this rule should be continued. The DOH request for rules allowing suspensions shorter than one week was not adopted. This is inconsistent with how FLSA exempt employees are treated in other parts of the rules. DHRM did not adopt the UPEA recommendation for progressive discipline. The principles of discipline, including progressive discipline, are well established in case law and are based on the merits of each case. This is best left to the grievance and appeals system and not addressed in DHRM rule. The UPEA request that management consider certain factors in all disciplinary situations was not adopted. There are situations where the severity of an infraction is so severe that management is justified in moving directly to discipline. Neither code nor case law requires this step. The DNR recommendation for discipline of a disrespectful employee was not adopted for two reasons; first, there is no legal provision that requires that an employee show respect; and second, this requirement is almost impossible to define for legal purposes.

Filed: 06/09/2007, 11:05

NOTICE OF REVIEW AND STATEMENT OF CONTINUATION

CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE: This rule is written under the general rulemaking authority granted to the Department of Human Resource Management (DHRM) in Section 67-19-6. This rule establishes procedures by which an employee is separated from state employment and thus contains important legal protections for employees and the state.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: The Utah Public Employees' Association (UPEA) has repeatedly requested that the state adopt a bumping process when administering a reduction in force. This is similar to the process used in typical merit systems when a large number of employees have to be terminated due to budget problems or decrease in workload. A similar request was made in 2003.

REASONED JUSTIFICATION FOR CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: Separation from employment is a major event for an employee and one that is frequently contested if forced by the employer. As a result, a great deal of precedent has been established by the courts, especially for government merit systems. This rule addresses all the pertinent issues in order to protect both the employee's rights and the state's discretion to terminate. Therefore, this rule should be continued. DHRM has resisted the UPEA request for "bumping" because it is cumbersome, difficult to administer, and not required by Code. In response to previous discussions, DHRM did amend the rule to allow bumping at the discretion of agency management. This option is rarely used by management and DHRM feels it places unusual administrative burden on management and cost on the career service system to require it.

**SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE:** The Utah Public Employees' Association (UPEA) requested that the rule be amended to provide for the transfer of one of the parties in an investigation of unlawful harassment.

**REASONED JUSTIFICATION FOR CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY:** Originally this rule was written to address legal liability the state was facing concerning sexual harassment suits. When the Equal Employment Opportunity Commission (EEOC) broadened sexual harassment to unlawful harassment, the state did the same under advice of the Division of Risk Management and legal counsel. This is an important rule that protects employees from harassing behavior. It also protects the state from costly legal action. Therefore, this rule should be continued. DHRM did not amend this rule to accommodate UPEA's request to transfer one of the parties in a sexual harassment investigation. This is not necessary since these actions are already permitted by other rules under the definition for reassignment and the rule for administrative leave.

**CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE:** Section 62A-15-105 establishes the Division of Substance Abuse and Mental Health Board. The Board is given authority to establish necessary rules.

**SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE:** In January 2007, this rule was amended. Section R523-20-2 was moved into Section R523-1-5 to streamline the fee collection process in both the community mental health centers and the community substance abuse centers. During the review of Section R523-20-2, no public comment was received by the Division. On a broader scale, Rule R523-20 as a whole has not received public comment since its last review.

**REASONED JUSTIFICATION FOR CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY:** This rule provides administrative guidance for the State of Utah's substance abuse programs as determined by the Substance Abuse and Mental Health Board. Guidance includes: the allocation of funds for local substance abuse programs including a funding formula for a rural differential; training and research priorities to be met by the Division and reporting obligations on research information; definitions of prevention and treatment programs; funding of medication detoxification programs; contracting practices with local substance abuse authorities and subcontracting practices to be met by local authorities; the requirement for local authorities to meet a maintenance of efforts in yearly funding allotments; distribution criteria for DUI funds; the requirement of a 20% match to general funds from the local county tax revenues; and required use of the Addiction Severity Index to assess addiction by consumers and placement criteria determined through the standards set by the American Society of Addiction. The Substance Abuse and Mental Health Board continues to support the guidance criteria set forth in this rule. Administratively speaking, this rule sets all the financial and programming standards and...
expectations for the local substance abuse authorities, therefore, it should continue.

NOTICE OF REVIEW AND STATEMENT OF CONTINUATION

CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE: The Utah Fireworks Act is constituted in Sections 53-7-220 through 53-7-225. In Section 53-7-204, the Utah Fire Prevention Board is authorized to enact rules to regulate the placement and discharge of display fireworks, set minimum standards for the retail storage and sale of fireworks, and establish proof of competence for an individual to place and discharge display fireworks.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: Rule R710-2 has been amended five times since the last five-year review. There have been no written comments received during the last five-year review period from any of the five amendments that were completed. It has been the policy of the Fire Prevention Board for many years to notify everyone affected by the rule change and have those involved participate in the Board meetings to try to resolve any concerns before the formal filing of the rule with the Division of Administrative Rules.

REASONED JUSTIFICATION FOR CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: Fireworks that are improperly used or illegal can cause physical harm to the human user, as well as cause fires that can lead to tremendous property damage. The continuation of this rule is necessary to provide safety in the retail sale of state-approved fireworks, storage of fireworks, and proper display and discharge of Class B fireworks as a display or special effects technician.

NOTICE OF REVIEW AND STATEMENT OF CONTINUATION

CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE: Section 53-7-204 authorizes the Utah Fire Prevention Board to enact rules for the prevention of fire and for the protection of life and property in an assisted living facility.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: Rule R710-3 has been amended four times since the last five-year review in 2002. There have been no written comments received from these four amendments. It is the policy of the Utah Fire Prevention Board to notify everyone affected by the proposed amendments and invite them to the Board meetings to resolve any concerns before the proposed rule is filed with the Division of Administrative Rules. This usually eliminates the need for written comments to a Board administrative rule action.

REASONED JUSTIFICATION FOR CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY:
IN OPPOSITION TO THE RULE, IF ANY:  Rule R710-3 is the administrative rule that provides a minimum degree of fire and life safety for those people who reside in and are provided a protected living arrangement on a daily basis because of physical and/or mental incapacitation that prohibits a fully independent lifestyle. This rule needs to be continued due to the dependent needs these clients have on those that provide them care and assistance and the inability of the clients to provide full protective care for themselves.

authorizes the enactment of rules for adopting a nationally recognized fire code and the specific edition of that code, adopting and updating several standards that are incorporated by reference, amending the adopted fire code, deputizing special deputy state fire marshals, conducting board meetings, enforcing State Fire Marshal rules, and forming several Board subcommittees.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: Rule R710-9 has been amended 15 times since the last five-year review in 2002. There have been no written comments received during the last five-year period with regard to proposed rule amendments. It has been the policy of the Utah Fire Prevention Board to notify everyone affected by the proposed amendments to the rule and invite participation by those affected individuals or businesses. This policy has proven very successful in the fact that consensus is normally achieved before the enactment of the rule is completed and written comments are seldom received during the formal filing process.

REASONED JUSTIFICATION FOR CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: Rule R710-9 adopts the International Fire Code (IFC) which has been legislatively mandated for towns, cities, counties, fire protection districts, and the State of Utah to be the state fire code. It is also the rule that sets procedures to amend the IFC, local ordinance requirements, specific conduct of Board members at Board meetings, procedures to deputize special deputy state fire marshals, enforcement of rules of the Board, and the establishment of several Board subcommittees. This is a very necessary rule to provide a statewide fire standard for the citizens of our state. Therefore, this rule should be continued.

NOTICES OF FIVE-YEAR REVIEW EXTENSIONS

Rulewriting agencies are required by law to review each of their administrative rules within five years of the date of the rule's original enactment or the date of last review (Utah Code Section 63-46a-9 (1996)). If the agency finds that it will not meet the deadline for review of the rule (the five-year anniversary date), it may file an extension with the Division of Administrative Rules. The extension permits the agency to file the review up to 120 days beyond the anniversary date.

Agencies have filed extensions for the rules listed below. The "Extended Due Date" is 120 days after the anniversary date. The five-year review extension is governed by Utah Code Subsection 63-46a-9(4) and (5) (1996).

NOTICES OF RULE EFFECTIVE DATES

These are the effective dates of PROPOSED RULES or CHANGES IN PROPOSED RULES published in earlier editions of the *Utah State Bulletin*. Statute permits an agency to make a rule effective "on any date specified by the agency that is no fewer than seven calendar days after the close of the public comment period . . . , nor more than 120 days after the publication date." End of the Notices of Rule Effective Dates Section
The *Rules Index* is a cumulative index that reflects all effective changes to Utah's administrative rules. The current *Index* lists changes made effective from January 2, 2007, including notices of effective date received through June 15, 2007, the effective dates of which are no later than July 1, 2007. The *Rules Index* is published in the *Utah State Bulletin* and in the annual *Index of Changes*. Nonsubstantive changes, while not published in the *Bulletin*, do become part of the *Utah Administrative Code (Code)* and are included in this *Index*, as well as 120-Day (Emergency) rules that do not become part of the *Code*. The rules are indexed by Agency (Code Number) and Keyword (Subject).

DAR NOTE: The index may contain inaccurate page number references. Also the index is incomplete in the sense that index entries for Changes in Proposed Rules (CPRs) are not preceded by entries for their parent Proposed Rules. Bulletin issue information and effective date information presented in the index are, to the best of our knowledge, complete and accurate. If you have any questions regarding the index and the information it contains, please contact Nancy Lancaster (801 538-3218), Mike Broschinsky (801 538-3003), or Kenneth A. Hansen (801 538-3777).

A copy of the *Rules Index* is available for public inspection at the Division of Administrative Rules (4120 State Office Building, Salt Lake City, UT), or may be viewed online at the Division’s web site (http://www.rules.utah.gov/).
