The Department of Health and the Division of Administrative Rules have discovered an error in the text of Rule R392-302, DAR No. 33873, published in the PDF version of the August 15, 2010, issue of the Utah State Bulletin.

At Subsection R392-302-22(6), Table 2, markup should have appeared showing additions and deletions in the table. EXECUTIVE DOCUMENTS

As part of his or her constitutional duties, the Governor periodically issues **EXECUTIVE DOCUMENTS** comprised of Executive Orders, Proclamations, and Declarations. "Executive Orders" set policy for the Executive Branch; create boards and commissions; provide for the transfer of authority; or otherwise interpret, implement, or give administrative effect to a provision of the Constitution, state law or executive policy. "Proclamations" call special or extraordinary legislative sessions; designate classes of cities; publish states-of-emergency; promulgate other official formal public announcements or functions; or publicly avow or cause certain matters of state government to be made generally known. "Declarations" designate special days, weeks or other time periods; call attention to or recognize people, groups, organizations, functions, or similar actions having a public purpose; or invoke specific legislative purposes (such as the declaration of an agricultural disaster).

The Governor's Office staff files **EXECUTIVE DOCUMENTS** that have legal effect with the Division of Administrative Rules for publication and distribution. All orders issued by the Governor not in conflict with existing laws have the full force and effect of law during a state of emergency when a copy of the order is filed with the Division of Administrative Rules. (See Section 63K-4-401).

NOTICES OF PROPOSED RULES

A state agency may file a **PROPOSED RULE** when it determines the need for a new rule, a substantive change to an existing rule, or a repeal of an existing rule. Filings received between September 02, 2010, 12:00 a.m., and September 15, 2010, 11:59 p.m. are included in this, the October 01, 2010 issue of the *Utah State Bulletin*.

In this publication, each **PROPOSED RULE** is preceded by a **RULE ANALYSIS**. This analysis provides summary information about the **PROPOSED RULE** including the name of a contact person, anticipated cost impact of the rule, and legal cross-references.

Following the **RULE ANALYSIS**, the text of the **PROPOSED RULE** is usually printed. New rules or additions made to existing rules are underlined (e.g., example). Deletions made to existing rules are struck out with brackets surrounding them (e.g., [~~example~~]). Rules being repealed are completely struck out. A row of dots in the text between paragraphs (.) indicates that unaffected text from within a section was removed to conserve space. Unaffected sections are not printed. If a **PROPOSED RULE** is too long to print, the Division of Administrative Rules will include only the **RULE ANALYSIS**. A copy of each rule that is too long to print is available from the filing agency or from the Division of Administrative Rules.

The law requires that an agency accept public comment on **PROPOSED RULES** published in this issue of the *Utah State Bulletin* until at least November 1, 2010. The agency may accept comment beyond this date and will indicate the last day the agency will accept comment in the **RULE ANALYSIS**. The agency may also hold public hearings. Additionally, citizens or organizations may request the agency hold a hearing on a specific **PROPOSED RULE**. Section 63G-3-302 requires that a hearing request be received by the agency proposing the rule "in writing not more than 15 days after the publication date of the proposed rule."

From the end of the public comment period through January 29, 2011, the agency may notify the Division of Administrative Rules that it wants to make the **PROPOSED RULE** effective. The agency sets the effective date. The date may be no fewer than seven calendar days after the close of the public comment period nor more than 120 days after the publication date of this issue of the *Utah State Bulletin*. Alternatively, the agency may file a **CHANGE IN PROPOSED RULE** in response to comments received. If the Division of Administrative Rules does not receive a **NOTICE OF EFFECTIVE DATE OF a CHANGE IN PROPOSED RULE**, the **PROPOSED RULE** lapses and the agency must start the process over.

The public, interest groups, and governmental agencies are invited to review and comment on **PROPOSED RULES**. *Comment may be directed to the contact person identified on the Rule Analysis for each rule.*

PROPOSED RULES are governed by Section 63G-3-301; Rule R15-2; and Sections R15-4-3, R15-4-4, R15-4-5, R15-4-9, and R15-4-10.

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This rule amendment is filed to implement the commission's desire to define "convention, civic or community enterprise" as referenced in the single event permit statute (Subsection 32A-7-101(1)).

SUMMARY OF THE RULE OR CHANGE: The current law allows the commission to issue single event permits to those who are conducting a convention, civic or community enterprise. To provide consistency, the rule amendment defines "convention, civic or community enterprise".

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 32A-1-107

ANTICIPATED COST OR SAVINGS TO:

♦ **THE STATE BUDGET:** None--This rule amendment defines "convention, civic or community enterprise" as referenced in the single event permit statute (Subsection 32A-7-101(1)). There are no costs or savings involved in this rule amendment.

♦ **LOCAL GOVERNMENTS:** None--Single event permits are issued by the Department of Alcoholic Beverage Control and not local governments.

♦ **SMALL BUSINESSES:** None--Many of the applicants operate small businesses. The single event permit fees remain unchanged and should not affect small businesses. This rule amendment merely defines "convention, civic or community enterprise" as referenced in the single event permit statute (Subsection 32A-7-101(1)).

♦ **PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES:** None--There are no costs or savings for other persons as a result of this amendment because they do not apply for single event permits.

COMPLIANCE COSTS FOR AFFECTED PERSONS: None--Since the application fee remains unchanged, businesses should experience no additional compliance costs.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: The current law allows the commission to issue single event permits to those who are conducting a convention, civic or community enterprise. This rule amendment defines "convention, civic or community enterprise" which will assist the commission as they evaluate the applications each month. There will not be a fiscal impact on businesses as the application fee remains unchanged.

R81. Alcoholic Beverage Control, Administration.

R81-7. Single Event Permits.

R81-7-1. Application Guidelines.

(1) A single event permit ~~[application for the purpose of]~~ is issued to those who are conducting a convention, civic or community enterprise~~[- shall be included in the agenda of the monthly commission meeting for consideration for issuance of a single event permit, when the requirements of Section 32A-7 have been met, and a completed application has been received by the department].~~

(a) "Conducting" ~~[as used herein]~~ means the conduct, management, control or direction of an event. The organization directly benefiting from the event, monetarily or otherwise, shall be deemed to be conducting the event.

(b) "Convention, civic or community enterprise" means a function that is in the nature of a temporary special event such as a social, business, religious, political, governmental, educational, recreational, cultural, charitable, athletic, theatrical, scholastic, artistic, or scientific event. A "civic or community enterprise" generally is a gathering that brings members of a community together for the common good.

(2) An application for a single event permit application shall be included on the agenda of the monthly commission meeting for consideration for issuance of a single event permit when the requirements of Section 32A-7 have been met, and a completed application has been received by the department.

~~[(2)](3)~~ Pursuant to Section 32A-7-101, the commission may grant single event permits to a bona fide partnership, corporation, limited liability company, church, political organization, or incorporated association, and to each bona fide and recognized subordinate lodge, chapter or local unit of any qualifying parent entity. To be a "bona fide" and "recognized" subordinate or local entity, the applicant must have been in existence for at least one year prior to the date of the application and must furnish proof thereof.

~~[(3)](4)~~ If the applicant is a bona fide incorporated association, corporation, or a separately incorporated subordinate lodge, chapter or local unit thereof, the applicant shall submit a copy of its certificate and articles of incorporation from the state, which reflect that the applicant has been in existence for at least one year prior to date of application.

~~[(4)](5)~~ If the applicant is a bona fide limited liability company, the applicant shall submit a copy of its limited liability company certificate of existence from the state, which reflects that the applicant has been in existence for at least one year prior to date of application.

~~[(6)](7)~~ Any subordinate or local entity of a parent entity must also establish that it is duly "recognized" by the parent entity by providing written verification of its "recognized" status such as a letter from, or bylaws of the parent entity. The subordinate or local unit shall also furnish proof that the parent entity qualifies under sections (1), (2), (3), (4), and (5) of this rule. These requirements shall not apply in situations where the subordinate or local unit is separately incorporated.

~~[(7)](8)~~ Single event permits are issued to state agencies, political subdivisions of the state, and organizations listed in Subsection (2) that are conducting a convention, civic or community enterprise. Single event permits may not be issued to or obtained by an entity or organization for the purpose of avoiding or attempting to avoid the requirement of state retail alcohol licensing.

To ensure compliance with this Subsection (7), the commission may consider factors such as:

- (a) the purpose of the entity or organization;
- (b) the nature and purpose of the event;
- (c) the type of entertainment, if any, at the event;
- (d) the location of the event;
- (e) the frequency of events held at the same location;
- (f) whether the location is government owned and operated; and
- (g) the extent to which the event:
 - (i) benefits the community;
 - (ii) is held for charitable purposes; or
 - (iii) is held for the profit of the entity or organization.

~~[(8)](9)~~ Calendar year is defined as January 1 through December 31.

~~[(9)](10)~~ The single event permit bond, as required by Section 32A-7-105, shall not be released back to the single event permittee until the permittee provides to the department the required data regarding liquor purchases, sales, prices charged, and net profit generated at the event for which the single event permit was issued.

~~[(10)](11)~~ If an organization or individual other than the one applying for the single event permit posts the \$1,000 bond required by Section 32A-7-105, an affidavit must be submitted attesting that the \$1,000 bond is for the permittee's compliance with the provisions of the Act and the commission rules, and that if a violation occurs at the single event, the bond may be forfeited.

~~[(11)](12)~~ The commission may authorize multiple sales outlets on different properties under one single event permit, provided that each site conforms to location requirements of Section 32A-7. The commission may authorize simultaneous sale and consumption hours at multiple sales outlets.

FILED: 09/14/2010

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: Rule R131-5 was enacted under the authority of Sections 63C-9-301 and 63C-9-401, which directs the Capitol Preservation Board to make rules to govern, administer, and regulate the executive director and staff. RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The Division determined a change needs to be made as the result of a related rule change being made to Rule R156-3a, the Architects Licensing Act Rule, with respect to architects being able to apply for inactive licensure status. (DAR NOTE: the proposed amendment to Rule R156-3a is under DAR No. 34072 in this issue, October 1, 2010, of the Bulletin.)

SUMMARY OF THE RULE OR CHANGE: The license classification of architect is being added to the listing of professions that can apply for inactive licensure.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 58-1-308 and Subsection 58-1-106(1) (a) and Subsection 58-1-501(4)

ANTICIPATED COST OR SAVINGS TO:

◆ THE STATE BUDGET: The Division will incur minimal costs of approximately \$50 to print and distribute the rule once the proposed amendments are made effective. Any costs incurred will be absorbed in the Division's current budget.

◆ LOCAL GOVERNMENTS: The proposed amendments only apply to licensed architects. As a result, the proposed amendments do not apply to local governments.

◆ SMALL BUSINESSES: The proposed amendments only apply to licensed architects. Licensees and applicants for licensure may work in a small business; however, the proposed amendments would not directly affect the business.

◆ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: The proposed amendment only applies to licensed architects. The Division does not anticipate any costs or savings as a result of the proposed amendment to this rule. However, refer to related rule filing to Rule R156-3a for costs and savings affecting licensed architects.

COMPLIANCE COSTS FOR AFFECTED PERSONS: The proposed amendment only applies to licensed architects. The Division does not anticipate any costs or savings as a result of the proposed amendment to this rule. However, refer to related rule filing to Rule R156-3a for costs and savings affecting licensed architects.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: This proposed rule filing adds architects to a list of professional licensees who may place their license on inactive status. It will result in a cost savings to licensees who are licensed in multiple states in that they won't be required to take continuing education courses except for the two years prior to reactivation. No other fiscal impact to businesses is anticipated.

DAR FILE NO.: 34072

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The Division and the Architects Licensing Board reviewed the rule and determined a few changes need to be made.

SUMMARY OF THE RULE OR CHANGE: In Subsections R156-3a-102(6)(d) and (f), updated the referenced International Building Code from the 2006 edition to the 2009 edition. In Section R156-3a-103, capitalized the term "division". Added Section R156-3a-306 which allows a licensed architect to place his license on an inactive status. Section R156-3a-501 is renumbered to Section R156-3a-503 and administrative penalties/fine schedule was changed to a table format.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 58-3a-101 and Section 58-3a-303.5 and Subsection 58-1-106(1)(a) and Subsection 58-1-202(1)(a)

ANTICIPATED COST OR SAVINGS TO:

◆ **THE STATE BUDGET:** The Division will incur minimal costs of approximately \$50 to print and distribute the rule once the proposed amendments are made effective. Any costs incurred will be absorbed in the Division's current budget. There may be an unknown increase in the number of licensed architects who place their license on an inactive status, but the numbers are expected to be unsubstantial. However, with a \$50 inactivation fee and a \$50 reinstatement fee, some additional state revenue should be generated.

◆ **LOCAL GOVERNMENTS:** The proposed amendments only apply to licensed architects and applicants for licensure in that classification. As a result, the proposed amendments do not apply to local governments.

◆ **SMALL BUSINESSES:** The proposed amendments only apply to licensed architects and applicants for licensure in that classification. Licensees and applicants for licensure may work in a small business; however, the proposed amendments would not directly affect the business.

◆ **PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES:** The proposed amendments only apply to licensed architects and applicants for licensure in that classification. If a licensed architect voluntarily desires to place their license on inactive status, there will be a \$50 inactivation fee and a \$50 reinstatement fee. However, the Division is unable to determine how many licensed architects will want to place their license on an inactive status. It should also be noted that licensed architects who place their license in an inactive status will not be required, except for the two years prior to reinstating their license, to complete continuing education requirements. This could result in an unknown financial benefit to those who are licensed as an architect in multiple states. The potential savings, for each two-year renewal period, could be up to approximately \$1,200 per licensee.

COMPLIANCE COSTS FOR AFFECTED PERSONS: The proposed amendments only apply to licensed architects and applicants for licensure in that classification. If a licensed architect voluntarily desires to place their license on inactive status, there will be a \$50 inactivation fee and a \$50 reinstatement fee. Licensed architects who place their license in an inactive status will not be required, except for the two years prior to reinstating their license, to complete

continuing education requirements. This could result in an unknown financial benefit to those who are licensed as an architect in multiple states. The potential savings, for each two-year renewal period, could be up to approximately \$1,200 per licensee.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: This proposed rule allows architects to place their license on inactive status. It will result in a cost savings to licensees who are licensed in multiple states in that they won't be required to take continuing education courses except for the two years prior to reactivation. The filing also updates a reference and renumbers and simplifies another section. No other fiscal impact to businesses is anticipated.

Elevator Mechanics Licensing Rule

NOTICE OF PROPOSED RULE

(New Rule)

DAR FILE NO.: 34071

FILED: 09/13/2010

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: During the 2010 Legislative Session, H.B. 11 was passed which created an elevator mechanic license classification in Title 58, Chapter 55. This new rule is being proposed to clarify requirements for the new license classification. (DAR NOTE: H.B. 11 (2010) is found at Chapter 227, Laws of Utah 2010, and was effective 05/11/2010.)

SUMMARY OF THE RULE OR CHANGE: The new rule provides the following: title, definitions, authority/purpose, organization/relationship to Rule R156-1, experience and education requirements, examination requirements, temporary license requirements, renewal cycle/procedure, continuing education/standards, unprofessional conduct, and administrative penalties.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 58-55-101 and Subsection 58-1-106(1)(a) and Subsection 58-1-202(1)(a) and Subsection 58-55-302(3)(m) and Subsection 58-55-308(1)(a)

ANTICIPATED COST OR SAVINGS TO:

♦ **THE STATE BUDGET:** The Division will incur minimal costs of approximately \$75 to print the rule and distribute it once the proposed rule is made effective. Any costs incurred will be absorbed in the Division's current budget. Any additional costs to be incurred as a result of the Division now licensing elevator mechanics were covered in the fiscal note which was completed for H.B. 11.

♦ **LOCAL GOVERNMENTS:** The proposed rule only applies to applicants for licensure as an elevator mechanic and elevator mechanics that become a qualifier on a contractor license. As a result, the proposed rule does not apply to local governments.

♦ **SMALL BUSINESSES:** The proposed rule only applies to applicants for licensure as an elevator mechanic. Any cost or saving impact to either small businesses or persons other than businesses brought about by this rule comes as a result of the changes to the statute under H.B. 11. The fiscal note prepared by the Division in response to H.B. 11 should be reviewed for information regarding the legislative bill's cost and saving impact and in turn any anticipated costs or savings with respect to this clarifying rule filing. The Division estimates there to be about 250 individuals in Utah who would qualify for licensure as an elevator mechanic that will be affected by the newly enacted statutory change and the provisions of this rule. There will be an examination cost to applicants for licensure that is estimated to be approximately \$72, as well as an application for licensure fee of \$110, which would result in an aggregate cost of approximately \$45,500.

♦ **PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES:** The proposed rule only applies to applicants for licensure as an elevator mechanic. Any cost or saving impact to either small businesses or persons other than businesses brought

about by this rule comes as a result of the changes to the statute under H.B. 11. The fiscal note prepared by the Division in response to H.B. 11 should be reviewed for information regarding the legislative bill's cost and saving impact and in turn any anticipated costs or savings with respect to this clarifying rule filing. There will be an examination cost to applicants for licensure that is estimated to be approximately \$72, as well as an application for licensure fee of \$110, which would result in an aggregate cost of approximately \$45,500.

COMPLIANCE COSTS FOR AFFECTED PERSONS: The proposed rule only applies to applicants for licensure as an elevator mechanic. Any cost or saving impact to either small businesses or persons other than businesses brought about by this rule change comes as a result of the changes to the statute under H.B. 11. There will be an examination cost to applicants for licensure that is estimated to be approximately \$72, as well as an application for licensure of \$110. It should be noted that apprenticeship training certification is not required for licensure. However, for those applicants who obtain licensure through the certification process, the approximate cost varies from \$2,000 for non-union training program to \$8,500 for an union training program. Those applicants without certification are required to take a state elevator mechanic trade examination.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: This rule filing implements H.B. 11 in the 2010 General Session which adopted a requirement for licensure of elevator mechanics. As indicated in the rule summary, no fiscal impact to businesses is anticipated from this rule filing beyond those already addressed in the passage of H.B. 11.

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: Subsection 26-18-3(2)(a) requires the Medicaid program to implement policy through administrative rules. The Department, in order to draw down federal funds, must have an approved State Plan with the Centers for Medicare and Medicaid Services. This change, therefore, incorporates the most current Medicaid State Plan by reference. It also implements by rule ongoing Medicaid policy for services described in the Utah Medicaid Provider Manual, Medical Supplies Manual and List, and policy described in the hospital services provider manual. It further incorporates these manuals by reference.

SUMMARY OF THE RULE OR CHANGE: Subsection R414-1-5(2) is changed to update the incorporation of the State Plan by reference effective 10/01/2010. It also incorporates State Plan Amendments (SPAs) that become effective no later than 10/01/2010. Two SPAs that became effective during the third quarter of Calendar Year 2010, and at the time of this proposed change, include SPA 10-013-UT Quality Improvement Incentives and SPA 10-016-UT Crossover Payments. SPA 10-013-UT continues the quality incentive programs for nursing facilities in State Fiscal Year 2011, and SPA 10-016-UT removes the Medicaid payment rate of 80% for Qualified Medicare Beneficiary (QMB) only providers to comply with state budget shortfalls and required budget cuts under the 2010 General Session of the Utah Legislature. This amendment also incorporates by reference the Medical Supplies Manual and List and the hospital services provider manual, effective 10/01/2010.

The use of the philosophical Person-Centered Planning approach shall be demonstrated and documented in the Person's file.

(d) Any interested party who believes that Person-Centered Planning is not being implemented as outlined or receives a request from the Person, should contact the Support Coordinator immediately to resolve the issue informally, and, if necessary, through the administrative hearing process outlined in R539-3-8 Notice of Agency Action and Administrative Hearings.

Exceptions to the statute requiring children under age 11 to live only in family-like environments, as per Section 62A-5-403, require Emergency Services Management Committee review and recommendation to the Division Director for final written approval.

 Utah Mini-COBRA Notification Rule

NOTICE OF PROPOSED RULE

(Repeal)

DAR FILE NO.: 34075

FILED: 09/14/2010

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This rule was adopted to provide information and forms necessary to help a person qualified for and applying for COBRA insurance receive a subsidy to help pay for the premium. This was a result of the American Recovery and Reinvestment Act (ARRA) of 2009, Section 3001(a)(7). This subsidy was no longer available as of 05/31/2010. As a result, this rule is no longer necessary.

SUMMARY OF THE RULE OR CHANGE: This rule was adopted to provide information and forms necessary to help a person qualified for and applying for COBRA insurance receive a subsidy to help pay for the premium. This was a result of the American Recovery and Reinvestment Act (ARRA) of 2009, Section 3001(a)(7). This subsidy was no longer available as of May 31, 2010. As a result, this rule is no longer necessary. Therefore, this rule is repealed in its entirety.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 31A-2-201

ANTICIPATED COST OR SAVINGS TO:

◆ **THE STATE BUDGET:** The repeal of this rule will not affect the workload or revenues of the department. Insurers were not required to file forms or fees with the department when the rule went into effect so no additional filings will be required with its repeal.

◆ **LOCAL GOVERNMENTS:** Local governments will not be affected by the repeal of this rule since it dealt solely with the relationship between the department and its health insurance licensees.

◆ **SMALL BUSINESSES:** Employers will be required to change their current mini-COBRA notification forms to eliminate any reference to the federal subsidy. These forms are not filed with the department. Businesses knew that this law was temporary so probably had a small supply of these forms on hand that they now will have to dispose of. There should be just a small cost in the time it takes to change the form back to the way it was before the subsidy was made available and to make any hard copies they may want to have on hand.

◆ **PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES:** Insurers will need to change their notification forms to eliminate the reference to the subsidy. They knew that this would be temporary and likely have very few on hand to dispose of and replace. This will be a minor cost to them. There will be some printing and paper costs to replace their current form.

COMPLIANCE COSTS FOR AFFECTED PERSONS: Insurers and employers will need to change their notification forms to eliminate the reference to the subsidy. They knew that this would be temporary and likely have very few on hand to dispose of and replace. This will be a minor cost to them. There will be some printing and paper costs to replace their

current form. The largest financial loss will be to the consumer who has been laid off from work and will now have to pay the full COBRA premium himself or herself now that the federal subsidies are not available.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: The cost to employers will be minor as they adjust their notification forms to eliminate the reference to a premium subsidy and eliminate current forms. Whatever costs they do have will be in printing and paper.

(Amendment)**

**DAR FILE NO.: 34070

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The rule amendment is proposed due to a change in technology used to test breath samples. The previous instruments were tested and left at a location in a police station or a jail and then they did not move from that location. Within the last year the entire state transitioned to the Intoxilyzer 8000. These instruments are mobile therefore it is not required to stay in one static location. The change in wording in the rule will reflect that the instruments can be placed into service and not required to be in a "specific location". It was also recognized that some numbers were out of sequence in the same area as the proposed change. That numbering sequence will be fixed as well.

SUMMARY OF THE RULE OR CHANGE: The amendment will change the numbering in one part of the rule. It will also strike the language of "specific Location" in four subsections of the rule.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 41-6a-515

ANTICIPATED COST OR SAVINGS TO:

- ◆ **THE STATE BUDGET:** The amendment to this rule is a change of language and will not affect the rule where state budgets would be affected.
- ◆ **LOCAL GOVERNMENTS:** The amendment to this rule is a change of language and will not affect the rule where local government budgets would be affected.
- ◆ **SMALL BUSINESSES:** The amendment to this rule is a change of language and will not affect the rule where small businesses would be affected.
- ◆ **PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES:** The amendment to this rule is a change of language and will not affect any other persons.

COMPLIANCE COSTS FOR AFFECTED PERSONS: There will be no affect on budgets so there will not be a compliance cost.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: After looking over this rule and its changes, I do not believe this change should have any fiscal impact on businesses.

AUTHORIZED BY: Lance Davenport, Commissioner

R714. Public Safety, Highway Patrol.

R714-500. Chemical Analysis Standards and Training.

R714-500-6. Instrument Certification.

A. Criteria: To be approved, each manufacturer's brand or model of instrument shall meet the following criteria:

1. The instrument shall provide accurate and consistent analysis of breath specimen for the determination of breath alcohol concentration for law enforcement purposes;
2. Breath alcohol concentration analysis of an instrument shall be based on the principle of infra-red energy absorption or any other similarly effective procedure as specified by the Department;
3. Breath specimen analyzed shall be essentially alveolar or end expiratory in composition according to the analysis method utilized;
4. Measurement of breath alcohol concentration shall be reported in grams of alcohol per 210 liters of breath;
5. The instrument shall analyze a reference sample during certification checks, following procedures outlined in R714-500-6-D;

6. Other criteria, deemed necessary by the Department, may be required to correctly and adequately evaluate the instrument as practical and reliable for law enforcement purposes.

B. Acceptance: The Department shall approve all breath alcohol concentration testing instruments employed for law enforcement evidentiary purposes.

1. The Department shall maintain an approved list of accepted instruments. Law enforcement entities shall select instruments from this list, which list shall be available for public inspection upon request from the Department, Utah Highway Patrol Training Section, 410 West 9800 South, Sandy, UT 84070.

2. A manufacturer may apply for approval of an instrument by brand or model not on the list. The Department shall

subsequently examine each instrument to determine if it meets criteria specified by R714-500 and applicable purchase requisitions.

3. Upon compliance with R714-500, an instrument may be approved by brand or model and placed on the list of accepted instruments.

4. Certification Reports verifying the certification of all instruments shall be kept on file by the program supervisor and made available upon request through the Department, Utah Highway Patrol Training Section, 410 West 9800 South, Sandy, UT 84070.

C. Initial Instrument Certification: All breath alcohol concentration testing instruments used for law enforcement evidentiary purposes shall be certified prior to being placed into service.~~[-at a specific location.]~~

1. The program supervisor shall determine that each individual instrument, by serial number, conforms to the brand or model that appears on the commissioner's accepted list.

2. Prior to an instrument being placed into service~~[-at a specific location]~~, a technician shall perform a certification check, following the standardized operating procedure and requirements outlined in R714-500-6-D.

3. Upon successful completion of these requirements, the instrument shall be deemed to be operating correctly and may be placed into service.

D. Regular Instrument Certification Checks

1. Once an instrument has been placed into service~~[-at a specific location]~~, it shall be certified by a technician on a routine basis, not to exceed 40 days between certification checks.

2. The program supervisor shall establish a standardized operating procedure for performing certification checks, following requirements set forth in R714-500 or by using such procedures as recommended by the manufacturer of the instrument to meet its performance specifications, as derived from:

- a. electrical power check;
- b. operating temperature check;
- c. internal purge check;
- d. invalid test procedures check;
- e. diagnostic measurements check;
- f. internal calibration check;
- g. known reference sample check; and
- h. measurements of breath alcohol concentration,

displayed in grams of alcohol per 210 liters of breath.

A copy of these standard operating procedures may be made available upon request through the Department, Utah Highway Patrol Training Section, 410 West 9800 South, Sandy, UT 84070.

3. For known reference sample checks set forth in R714-500-6-D-2-g, the instrument shall analyze a reference sample, such as headspace gas from a mixture of water and a known weight or volume of ethanol held at a constant temperature or a compressed inert gas and alcohol mixture from a pressurized cylinder.

a. The result of the analysis shall agree with the reference sample's predicted value, within parameters of calibration set at plus or minus 5% or 0.005, whichever is greater, or such limits as set by the Department.

i. For example, if a known reference sample has a value of 0.100, the parameters of calibration set at plus or minus 5% would equal 0.005 (0.100 x 5 % = 0.005). Acceptable parameters of

calibration using a known 0.100 reference sample would therefore range from 0.095 to 0.105.

b. Analytical results of the known reference sample check shall be reported to three decimal places.

1. Other checks, deemed necessary by the Department or program supervisor, may be required to correctly and adequately evaluate the instrument.

2. Technicians shall follow the standardized operating procedure as set forth by the program supervisor when performing certification checks.

~~3.~~~~4.~~ If an instrument successfully passes all the certification checks, it shall be deemed to be operating properly.

~~4.~~~~5.~~ A report of the certification results with the serial number of the certified instrument shall be recorded on the approved Certification Report form by the technician, sent to the program supervisor, and placed in the file for certified instruments.

~~5.~~~~6.~~ Results of certification checks shall be kept in a permanent record retained by the technician or program supervisor.

E. Instrument Repair and Recertification

1. The Department may at any time determine if a specific instrument is unreliable or unserviceable. Upon such a finding, the instrument shall be removed from service and certification withdrawn.

2. A report of the certification results showing the certification has been withdrawn shall be recorded on the approved Certification Report form by the technician, sent to the program supervisor, and placed in the file for certified instruments.

3. Upon proper repair, the instrument may be recertified and again placed into service, ~~[at a specific location.]~~

a. Minimum requirements for recertification are identical to those outlined in R714-500-6-D, sub-sections 2, 3, and 4.

4. A report of the certification results with the serial number of the recertified instrument shall be recorded on the approved Certification Report form by the technician, sent to the program supervisor, and placed in the file for certified instruments.

R865. Tax Commission, Auditing.

R865-6F. Franchise Tax.

R865-6F-8. Allocation and Apportionment of Net Income (Uniform Division of Income for Tax Purposes Act) Pursuant to Utah Code Ann. Sections 59-7-302 through 59-7-321.

(1) Definitions.

(a) "Allocation" means the assignment of nonbusiness income to a particular state.

(b) "Apportionment" means the division of business income between states by the use of a formula containing apportionment factors.

(c) "Base of operations" means the place of more or less permanent nature from which the employee starts work and to which the employee customarily returns in order to receive instructions from the taxpayer or communications from customers or other persons, or to replenish stock or other materials, repair equipment, or perform any other function necessary to the exercise of his trade or profession at some other point or points.

(d) "Business activity" refers to the transactions and activities occurring in the regular course of a particular trade or business of a taxpayer, or to the acquisition, management, and disposition of property that constitute integral parts of the taxpayer's regular trade or business operations.

(e) "Business income" means income of any type or class, and from any activity, that meets the relationship described in Subsection (2)(b), the transactional test, or Subsection (2)(c), the functional test. The classification of income by the labels occasionally used, such as manufacturing income, compensation for services, sales income, interest, dividends, rents, royalties, gains, operating income, and nonoperating income is of no aid in determining whether income is business or nonbusiness income.

(f) "Compensation" means wages, salaries, commissions, and any other form of remuneration paid to employees for personal services.

(g) "Employee" means an:

(i) officer of a corporation; or

(ii) individual who, under the usual common law rules applicable in determining the employer-employee relationship, has the status of an employee.

(h) "Gross receipts" are the gross amounts realized (the sum of money and the fair market value of other property or services received) on the sale or exchange of property, the performance of services, or the use of property or capital (including rents, royalties, interest and dividends) in a transaction that produces business income, in which the income or loss is recognized (or would be recognized if the transaction were in the United States) under the Internal Revenue Code. Amounts realized on the sale or exchange of property are not reduced for the cost of goods sold or the basis of property sold.

(i) Gross receipts, even if business income, do not include such items as, for example:

(A) repayment, maturity, or redemption of the principal of a loan, bond, or mutual fund or certificate of deposit or similar marketable instrument;

(B) the principal amount received under a repurchase agreement or other transaction properly characterized as a loan;

(C) proceeds from issuance of the taxpayer's own stock or from sale of treasury stock;

(D) damages and other amounts received as the result of litigation;

(E) property acquired by an agent on behalf of another;

(F) tax refunds and other tax benefit recoveries;

(G) pension reversions;

(H) contributions to capital (except for sales of securities by securities dealers);

(I) income from forgiveness of indebtedness; or

(J) amounts realized from exchanges of inventory that are not recognized by the Internal Revenue Code.

(ii) Exclusion of an item from the definition of "gross receipts" is not determinative of its character as business or nonbusiness income. Nothing in this definition shall be construed to modify, impair or supersede any provision of Subsection (11).

(i) "Nonbusiness income" means all income other than business income.

(j) "Place from which the service is directed or controlled" means the place from which the power to direct or control is exercised by the taxpayer.

(k) "Taxpayer" means a corporation as defined in Section 59-7-101.

(l) "To contribute materially" includes being used operationally in the taxpayer's trade or business. Whether property contributes materially is not determined by reference to the property's value or percentage of use. If an item of property contributes materially to the taxpayer's trade or business, the attributes, rights, or components of that property are also operationally used in that business. However, property that is held for mere financial betterment is not operationally used in the taxpayer's trade or business.

(m) "Trade or business" means the unitary business of the taxpayer, part of which is conducted within Utah.

(2) Business and Nonbusiness Income.

(a) Apportionment and Allocation. Section 59-7-303 requires that every item of income be classified as either business income or nonbusiness income. Income for purposes of classification as business or nonbusiness includes gains and losses. Business income is apportioned among jurisdictions by use of a formula. Nonbusiness income is specifically assigned or allocated to one or more specific jurisdictions pursuant to express rules. An item of income is classified as business income if it falls within the definition of business income. An item of income is nonbusiness income only if it does not meet the definitional requirements for being classified as business income.

(b) Transactional Test. Business income includes income arising from transactions and activity in the regular course of the taxpayer's trade or business.

(i) If the transaction or activity is in the regular course of the taxpayer's trade or business, part of which trade or business is conducted within the state, the resulting income of the transaction or activity is business income for Utah purposes. Income may be business income even though the actual transaction or activity that gives rise to the income does not occur in this state.

(ii) For a transaction or activity to be in the regular course of the taxpayer's trade or business, the transaction or activity need

not be one that frequently occurs in the trade or business. Most, but not all, frequently occurring transactions or activities will be in the regular course of that trade or business and will, therefore, satisfy the transactional test. It is sufficient to classify a transaction or activity as being in the regular course of a trade or business if it is reasonable to conclude transactions of that type are customary in the kind of trade or business being conducted, or are within the scope of what that kind of trade or business does. However, even if a taxpayer frequently or customarily engages in investment activities, if those activities are for the taxpayer's mere financial betterment rather than for the operations of the trade or business, those activities do not satisfy the transactional test. The transactional test includes income from sales of inventory, property held for sale to customers, and services commonly sold by the trade or business. The transactional test also includes income from the sale of property used in the production of business income of a kind that is sold and replaced with some regularity, even if replaced less frequently than once a year.

(c) **Functional Test.** Business income also includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations.

(i) The following definitions apply to this Subsection (2)(c).

(A) "Acquisition" means the act of obtaining an interest in property.

(B) "Disposition" means the act, or the power, of relinquishing or transferring an interest in or control over property to another, either in whole or in part.

(C) "Integral part" means property that constitutes a part of the composite whole of the trade or business, each part of which gives value to every other part, in a manner that materially contributes to the production of business income.

(D) "Management" means the oversight, direction, or control, whether directly or by delegation, of the property for the use or benefit of the trade or business.

(E) "Property" includes an interest in, control over, or use of property, whether the interest is held directly, beneficially, by contract, or otherwise, that materially contributes to the production of business income.

(ii) Under the functional test, business income need not be derived from transactions or activities that are in the regular course of the taxpayer's own particular trade or business. It is sufficient, if the property from which the income is derived is or was an integral, functional, or operative component used in the taxpayer's trade or business operations, or otherwise materially contributed to the production of business income of the trade or business, part of which trade or business is or was conducted within the state. Property that has been converted to nonbusiness use through the passage of a sufficiently lengthy period of time, generally five years, or that has been removed as an operational asset and is instead held by the taxpayer's trade or business exclusively for investment purposes, has lost its character as a business asset and is not subject to this subsection. Property that was an integral part of the trade or business is not considered converted to investment purposes merely because it is placed for sale.

(iii) Income that is derived from isolated sales, leases, assignments, licenses, and other infrequently occurring dispositions, transfers, or transactions involving property, including transactions made in liquidation or the winding-up of business, is business income if the property is or was used in the taxpayer's trade or business operations.

(A) Property that has been converted to nonbusiness use has lost its character as a business asset and is not subject to Subsection (2)(c)(iii).

(B) Income from the licensing of an intangible asset, such as a patent, copyright, trademark, service mark, know-how, trade secrets, or the like, that was developed or acquired for use by the taxpayer in its trade or business operations, constitutes business income whether or not the licensing itself constituted the operation of a trade or business, and whether or not the taxpayer remains in the same trade or business from or for which the intangible asset was developed or acquired.

(iv) Under the functional test, income from intangible property is business income when the intangible property serves an operational function as opposed to solely an investment function. The relevant inquiry focuses on whether the property is or was held in furtherance of the taxpayer's trade or business, that is, on the objective characteristics of the intangible property's use or acquisition and its relation to the taxpayer and the taxpayer's activities. The functional test is not satisfied where the holding of the property is limited to solely an investment function as is the case where the holding of the property is limited to mere financial betterment of the taxpayer in general.

(v) If the property is or was held in furtherance of the taxpayer's trade or business beyond mere financial betterment, income from that property may be business income even though the actual transaction or activity involving the property that gives rise to the income does not occur in this state.

(vi) If with respect to an item of property a taxpayer takes a deduction from business income that is apportioned to this state, or includes the original cost in the property factor, it is presumed that the item of property is or was integral to the taxpayer's trade or business operations. No presumption arises from the absence of any of these actions.

(vii) Application of the functional test is generally unaffected by the form of the property, whether tangible or intangible, real or personal. Income arising from an intangible interest, for example, corporate stock or other intangible interest in a business or a group of assets, is business income when the intangible itself or the property underlying or associated with the intangible is or was an integral, functional, or operative component of the taxpayer's trade or business operations.

(A) Property that has been converted to nonbusiness use has lost its character as a business asset and is not subject to this Subsection (2)(c)(vii).

(B) While apportionment of income derived from transactions involving intangible property as business income may be supported by a finding that the issuer of the intangible property and the taxpayer are engaged in the same trade or business, that is, the same unitary business, establishment of that relationship is not the exclusive basis for concluding that the income is subject to apportionment.

(C) It is sufficient to support the finding of apportionable income if the holding of the intangible interest served an operational rather than an investment function of mere financial betterment.

(d) Relationship of Transactional Test and Functional Tests to the United States Constitution.

(i) The due process clause and the commerce clause of the United States Constitution restrict states from apportioning income as business income that has no rational relationship with the taxing state. The protection against extra-territorial state taxation afforded by these clauses is often described as the unitary business principle. The unitary business principle requires apportionable income to be derived from the same unitary business that is being conducted as least in part in the state.

(ii) The unitary business conducted in this state includes both a unitary business that the taxpayer alone may be conducting and a unitary business the taxpayer may conduct with any other person. Satisfaction of either the transactional test or the functional test complies with the unitary business principle, because each test requires that the transaction or activity, in the case of the transactional test, or the property, in the case of the functional test, to be tied to the same trade or business that is conducted within the state. Determination of the scope of the unitary business conducted in the state is without regard to the extent to which this state requires or permits combined reporting.

(e) Business and Nonbusiness Income Application of Definitions.

(i) Rents From Real and Tangible Personal Property. Rental income from real and tangible property is business income if the property with respect to which the rental income was received is or was used in the taxpayer's trade or business and therefore is includable in the property factor under Subsection (8)(a)(i). Property that has been converted to nonbusiness use has lost its character as a business asset and is not subject to this subsection.

(ii) Gains or Losses From Sales of Assets. Gain or loss from the sale, exchange, or other disposition of real property or of tangible or intangible personal property constitutes business income if the property while owned by the taxpayer was used in, or was otherwise included in the property factor of the taxpayer's trade or business. However, if the property was utilized for the production of nonbusiness income or it was previously included in the property factor and later removed from the property factor before its sale, exchange, or other disposition, the gain or loss constitutes nonbusiness income. See Subsection (8)(a)(ii).

(iii) Interest. Interest income is business income where the intangible with respect to which the interest was received arises out of or was created in the regular course of the taxpayer's trade or business operations, or where the purpose for acquiring and holding the intangible is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations.

(iv) Dividends. Dividends are business income where the stock with respect to which the dividends were received arose out of or was acquired in the regular course of the taxpayer's trade or business operations or where the acquiring and holding of the stock is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations.

(v) Patent and Copyright Royalties. Patent and copyright royalties are business income where the patent or copyright with respect to which the royalties were received arose out of or was created in the regular course of the taxpayer's trade or business operations or where the acquiring and holding of the patent or copyright is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations.

(vi) Proration of Deductions. In most cases, an allowable deduction of a taxpayer will be applicable only to the business income arising from a particular trade or business or to a particular item of nonbusiness income. In some cases, an allowable deduction may be applicable to the business incomes of more than one trade or business or several items of nonbusiness income. In those cases, the deduction shall be prorated among those trades or businesses and those items of nonbusiness income in a manner that fairly distributes the deduction among the classes of income to which it is applicable.

(f)(i) A schedule must be submitted with the return showing the:

(A) gross income from each class of income being allocated;

(B) amount of each class of applicable expenses, together with explanation or computations showing how amounts were arrived at;

(C) total amount of the applicable expenses for each income class; and

(D) net income of each income class.

(ii) The schedule shall indicate items of income and expenses allocated both to the state and outside the state.

(g) Year to Year Consistency. In filing returns with the state, if the taxpayer departs from or modifies the manner of prorating any deduction used in returns for prior years in a material way, the taxpayer shall disclose in the return for the current year the nature and extent of the modification.

(h) State to State Consistency. If the returns or reports filed by a taxpayer with all states to which the taxpayer reports under the Uniform Division of Income for Tax Purposes Act are not uniform in the application or proration of any deduction, the taxpayer shall disclose in its return to this state the nature and extent of any material variance.

(3) Unitary Business.

(a) Unitary Business Principle.

(i) The Concept of a Unitary Business. A unitary business is a single economic enterprise that is made up of either separate parts of a single business entity or a group of business entities related through common ownership that are sufficiently interdependent, integrated and interrelated through their activities so as to provide a synergy and mutual benefit that produces a sharing or exchange of value among them and a significant flow of value to the separate parts. This flow of value to a business entity located in this state that comes from being part of a unitary business conducted both within and without the state is what provides the constitutional due process definite link and minimum connection necessary for the state to apportion business income of the unitary business, even if that income arises in part ~~from~~ from activities conducted outside the state. The business income of the unitary business is then apportioned to this state using an apportionment

percentage provided by Section 59-7-311. This sharing or exchange of value may also be described as requiring that the operation of one part of the business be dependent upon, or contribute to, the operation of another part of the business. Phrased in the disjunctive, the foregoing means that if the activities of one business either contribute to the activities of another business or are dependent upon the activities of another business, those businesses are part of a unitary business.

(ii) **Constitutional Requirement for a Unitary Business.** The sharing or exchange of value described in Subsection (3)(a)(i) that defines the scope of a unitary business requires more than the mere flow of funds arising out of a passive investment or from the financial strength contributed by a distinct business undertaking that has no operational relationship to the unitary business. In this state, the unitary business principle shall be applied to the fullest extent allowed by the United States Constitution. The unitary business principle shall not be applied to result in the combination of business activities or entities under circumstances where, if it were adverse to the taxpayer, the combination of those activities or entities would not be allowed by the United States Constitution.

(iii) **Separate Trades or Businesses Conducted Within a Single Entity.** A single entity may have more than one unitary business. In those cases, it is necessary to determine the business, or apportionable, income attributable to each separate unitary business as well as its nonbusiness income, which is specifically allocated. The business income of each unitary business is then apportioned by a formula that takes into consideration the in-state and out-of-state factors that relate to the respective unitary business whose income is being apportioned.

(iv) **Unitary Business Unaffected by Formal Business Organization.** A unitary business may exist within a single business entity or among a group of business entities related through common ownership, as defined in Section 59-7-101.

(b) **Determination of a Unitary Business.**

(i) A unitary business is characterized by significant flows of value evidenced by factors such as those described in *Mobil Oil Corp. v. Vermont*, 445 US 425 (1980): functional integration, centralization of management, and economies of scale. These factors provide evidence of whether the business activities operate as an integrated whole or exhibit substantial mutual interdependence. Facts suggesting the presence of the factors mentioned above should be analyzed in combination for their cumulative effect and not in isolation. A particular characteristic of a business operation may be suggestive of one or more of the factors mentioned above.

(ii) **Description and Illustration of Functional Integration, Centralization of Management, and Economies of Scale.**

(A) **Functional Integration.** Functional integration refers to transfers between, or pooling among, business activities that significantly affect the operation of the business activities. Functional integration includes transfers or pooling with respect to the unitary business's products or services, technical information, marketing information, distribution systems, purchasing, and intangibles such as patents, trademarks, service marks, copyrights, trade secrets, know-how, formulas, and processes. There is no specific type of functional integration that must be present. The following is a list of examples of business operations that support the finding of functional integration. The order of the list does not establish a hierarchy of importance.

(I) **Sales, Exchanges, or Transfers.** Sales, exchanges, or transfers (collectively "sales") of products, services, and intangibles between business activities provide evidence of functional integration. The significance of the intercompany sales to the finding of functional integration will be affected by the character of what is sold and the percentage of total sales or purchases represented by the intercompany sales. For example, sales among business entities that are part of a vertically integrated unitary business are indicative of functional integration. Functional integration is not negated by the use of a readily determinable market price to ~~effect~~ affect the intercompany sales, because those sales can represent an assured market for the seller or an assured source of supply for the purchaser.

(II) **Common Marketing.** The sharing of common marketing features among business entities is an indication of functional integration when the marketing results in significant mutual advantage. Common marketing exists when a substantial portion of the business entities' products, services, or intangibles are distributed or sold to a common customer, when the business entities use a common trade name or other common identification, or when the business entities seek to identify themselves to their customers as a member of the same enterprise. The use of a common advertising agency or a commonly owned or controlled in-house advertising office does not by itself establish common marketing that is suggestive of functional integration. That activity, however, is relevant to determining the existence of economies of scale and centralization of management.

(III) **Transfer or Pooling of Technical Information or Intellectual Property.** Transfers or pooling of technical information or intellectual property, such as patents, copyrights, trademarks and service marks, trade secrets, processes or formulas, know-how, research, or development provide evidence of functional integration when the matter transferred is significant to the businesses' operations.

(IV) **Common Distribution System.** Use of a common distribution system by the business entities, under which inventory control and accounting, storage, trafficking, or transportation are controlled through a common network provides evidence of functional integration.

(V) **Common Purchasing.** Common purchasing of substantial quantities of products, services, or intangibles from the same source by the business entities, particularly where the purchasing results in significant cost savings and is significant to each entity's operations or sales, provides evidence of functional integration.

(VI) **Common or Intercompany Financing.** Significant common or intercompany financing, including the guarantee by, or the pledging of the credit of, one or more business entities for the benefit of another business entity or entities provides evidence of functional integration, if the financing activity serves an operational purpose of both borrower and lender. Lending that serves an investment purpose of the lender does not necessarily provide evidence of functional integration.

(B) **Centralization of Management.** Centralization of management exists when directors, officers, and other management employees jointly participate in the management decisions that affect the respective business activities and that may also operate to the benefit of the entire economic enterprise. Centralization of management can exist whether the centralization is effected from a

parent entity to a subsidiary entity, from a subsidiary entity to a parent entity, from one subsidiary entity to another, from one division within a single business entity to another division within a business entity, or from any combination of the foregoing. Centralization of management may exist even when day-to-day management responsibility and accountability has been decentralized, so long as the management has an ongoing operational role with respect to the business activities. An operational role may be effected through mandates, consensus building, or an overall operational strategy of the business, or any other mechanism that establishes joint management.

(I) Facts Providing Evidence of Centralization of Management. Evidence of centralization of management is provided when common officers participate in the decisions relating to the business operations of the different segments. Centralization of management may exist when management shares or applies knowledge and expertise among the parts of the business. Existence of common officers and directors, while relevant to a showing of centralization of management, does not alone provide evidence of centralization of management. Common officers are more likely to provide evidence of centralization of management than are common directors.

(II) Stewardship Distinguished. Centralized efforts to fulfill stewardship oversight are not evidence of centralization of management. Stewardship oversight consists of those activities that any owner would take to review the performance of or safeguard an investment. Stewardship oversight is distinguished from those activities that an owner may take to enhance value by integrating one or more significant operating aspects of one business activity with the other business activities of the owner. For example, implementing reporting requirements or mere approval of capital expenditures may evidence only stewardship oversight.

(C) Economies of Scale. Economies of scale refers to a relation among and between business activities resulting in a significant decrease in the average per unit cost of operational or administrative functions due to the increase in operational size. Economies of scale may exist from the inherent cost savings that arise from the presence of functional integration or centralization of management. The following are examples of business operations that support the finding of economies of scale. The order of the list does not establish a hierarchy of importance.

(I) Centralized Purchasing. Centralized purchasing designed to achieve savings due to the volume of purchases, the timing of purchases, or the interchangeability of purchased items among the parts of the business engaging in the purchasing provides evidence of economies of scale.

(II) Centralized Administrative Functions. The performance of traditional corporate administrative functions, such as legal services, payroll services, pension and other employee benefit administration, in common among the parts of the business may result in some degree of economies of scale. A business entity that secures savings in the performance of corporate administrative services due to its affiliation with other business entities that it would not otherwise reasonably be able to secure on its own because of its size, financial resources, or available market provides evidence of economies of scale.

(c) Indicators of a Unitary Business.

(i) Business activities that are in the same general line of business generally constitute a single unitary business, as for example, a multistate grocery chain.

(ii) Business activities that are part of different steps in a vertically structured business almost always constitute a single unitary business. For example, a business engaged in the exploration, development, extraction, and processing of a natural resource and the subsequent sale of a product based upon the extracted natural resource, is engaged in a single unitary business, regardless of the fact that the various steps in the process are operated substantially independently of each other with only general supervision from the business's executive offices.

(iii) Business activities that might otherwise be considered as part of more than one unitary business may constitute one unitary business when the factors outlined in Subsection (3)(b) are present. For example, some businesses conducting diverse lines of business may properly be considered as engaged in only one unitary business when the central executive officers are actively involved in the operations of the various business activities and there are centralized offices that perform for the business the normal matters a truly independent business would perform for itself, such as personnel, purchasing, advertising, or financing.

(4) Apportionment and Allocation.

(a)(i) If the business activity with respect to the trade or business of a taxpayer occurs both within and without this state, and if by reason of that business activity the taxpayer is taxable in another state, the portion of the net income (or net loss) arising from the trade or business derived from sources within this state shall be determined by apportionment in accordance with Sections 59-7-311 to 59-7-319.

(ii) For purposes of determining the fraction by which business income shall be apportioned to this state under Section 59-7-311:

(A) Except as provided in Subsection (4)(a)(ii)(B), if a taxpayer does not make an election to double weight the sales factor under Subsection 59-7-311[(3)](2)(d) and one or more of the factors listed in Subsection 59-7-311(2)[(a)](c) is missing, the fraction by which business income shall be apportioned to the state shall be determined by adding the factors present and dividing that sum by the number of factors present.

(B) If a taxpayer has made an election to double weight the sales factor under Section 59-7-311[(3)](2)(c) and if the sales factor is present, the denominator of the fraction described in Subsection (4)(a)(ii)(A) shall be increased by one.

(C) For a taxable year that begins on or after January 1, 2011, but begins on or before December 31, 2011, in the case of a sales factor weighted taxpayer, if one or more of the factors listed in Subsection 59-7-311(3)(a)(i) is missing and if the sales factor is present, the fraction by which business income shall be apportioned to the state shall be determined by adding the factors as provided in Subsection 59-7-311(3)(a)(i), and dividing that sum by the denominator, indicated in Subsection 59-7-311(3)(a)(ii), reduced by the number of missing factors.

(D) For a taxable year that begins on or after January 1, 2012, but begins on or before December 31, 2012, in the case of a sales factor weighted taxpayer, if one or more of the factors listed in Subsection 59-7-311(3)(b)(i) is missing and if the sales factor is

present, the fraction by which business income shall be apportioned to the state shall be determined by adding the factors as provided in Subsection 59-7-311(3)(b)(i), and dividing that sum by the denominator, indicated in Subsection 59-7-311(3)(b)(ii), reduced by the number of missing factors.

(b) Allocation. Any taxpayer subject to the taxing jurisdiction of this state shall allocate all of its nonbusiness income or loss within or without this state in accordance with Sections 59-7-306 to 59-7-310.

(5) Consistency and Uniformity in Reporting. In filing returns with this state, if the taxpayer departs from or modifies the manner in which income has been classified as business income or nonbusiness income in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification. If the returns or reports filed by a taxpayer for all states to which the taxpayer reports under UDITPA are not uniform in the classification of income as business or nonbusiness income, the taxpayer shall disclose in its return to this state the nature and extent of the variance.

(6) Taxable in Another State.

(a) In General. Under Section 59-7-303 the taxpayer is subject to the allocation and apportionment provisions of UDITPA if it has income from business activity that is taxable both within and without this state. A taxpayer's income from business activity is taxable without this state if the taxpayer, by reason of business activity (i.e., the transactions and activity occurring in the regular course of the trade or business), is taxable in another state within the meaning of Section 59-7-305. A taxpayer is taxable within another state if it meets either one of two tests:

(i) if by reason of business activity in another state the taxpayer is subject to one of the types of taxes specified in Section 59-7-305(1), namely: a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax; or

(ii) if by reason of business activity another state has jurisdiction to subject the taxpayer to a net income tax, regardless of whether the state imposes that tax on the taxpayer. A taxpayer is not taxable in another state with respect to the trade or business merely because the taxpayer conducts activities in that state pertaining to the production of nonbusiness income or business activities relating to a separate trade or business.

(b) When a Taxpayer Is Subject to a Tax Under Section 59-7-305. A taxpayer is subject to one of the taxes specified in Section 59-7-305(1) if it carries on business activity in a state and that state imposes such a tax thereon. Any taxpayer that asserts that it is subject to one of the taxes specified in Section 59-7-305(1) in another state shall furnish to the Tax Commission, upon its request, evidence to support that assertion. The Tax Commission may request that the evidence include proof that the taxpayer has filed the requisite tax return in the other state and has paid any taxes imposed under the law of the other state. The taxpayer's failure to produce that proof may be taken into account in determining whether the taxpayer is subject to one of the taxes specified in Section 59-7-305(1) in the other state. If the taxpayer voluntarily files and pays one or more taxes when not required to do so by the laws of that state or pays a minimal fee for qualification, organization, or for the privilege of doing business in that state, but

(i) does not actually engage in business activity in that state, or

(ii) does actually engage in some business activity, not sufficient for nexus, and the minimum tax bears no relation to the taxpayer's business activity within that state, the taxpayer is not subject to one of the taxes specified within the meaning of Section 59-7-305(1).

(c) When a State Has Jurisdiction to Subject a Taxpayer to a Net Income Tax. The second test, that of Section 59-7-305(2), applies if the taxpayer's business activity is sufficient to give the state jurisdiction to impose a net income tax by reason of business activity under the Constitution and statutes of the United States. Jurisdiction to tax is not present where the state is prohibited from imposing the tax by reason of the provisions of Public Law 86-272, 15 U. S. C. A. Sec. 381-385 (P.L. 86-272). In the case of any state as defined in Section 59-7-302(6), other than a state of the United States or political subdivision of a state, the determination of whether a state has jurisdiction to subject the taxpayer to a net income tax shall be made as though the jurisdictional standards applicable to a state of the United States applied in that state. If jurisdiction is otherwise present, the state is not considered as without jurisdiction by reason of the provisions of a treaty between that state and the United States.

(7) Apportionment Formula. All business income of the taxpayer shall be apportioned to this state by use of the apportionment formula set forth in Section 59-7-311. The elements of the apportionment formula are the property factor, see Subsection (8), the payroll factor, see Subsection (9), and the sales factor, see Subsection (10) of the trade or business of the taxpayer. For exceptions see Subsection (11).

(8) Property Factor.

(a) In General.

(i) The property factor of the apportionment formula shall include all real and tangible personal property owned or rented by the taxpayer and used during the tax period in the regular course of its trade or business. Real and tangible personal property includes land, buildings, machinery, stocks of goods, equipment, and other real and tangible personal property but does not include coin or currency.

(ii) Property used in connection with the production of nonbusiness income shall be excluded from the property factor. Property used both in the regular course of the taxpayer's trade or business and in the production of nonbusiness income shall be included in the factor only to the extent the property is used in the regular course of the taxpayer's trade or business. The method of determining the portion of the value to be included in the factor will depend upon the facts of each case.

(iii) The property factor shall reflect the average value of property includable in the factor. Refer to Subsection (8)(g).

(b) Property Used for the Production of Business Income. Property shall be included in the property factor if it is actually used or is available for or capable of being used during the tax period in the regular course of the trade or business of the taxpayer. Property held as reserves or standby facilities or property held as a reserve source of materials shall be included in the factor. For example, a plant temporarily idle or raw material reserves not currently being processed are includable in the factor. Property or equipment under construction during the tax period, except inventoriable goods in process, shall be excluded from the factor until the property is actually used in the regular course of the trade or business of the taxpayer. If the property is partially used in the regular course of the

trade or business of the taxpayer while under construction, the value of the property to the extent used shall be included in the property factor. Property used in the regular course of the trade or business of the taxpayer shall remain in the property factor until its permanent withdrawal is established by an identifiable event such as its conversion to the production of nonbusiness income, its sale, or the lapse of an extended period of time, normally five years, during which the property is no longer held for use in the trade or business.

(c) Consistency in Reporting. In filing returns with this state, if the taxpayer departs from or modifies the manner of valuing property, or of excluding or including property in the property factor, used in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification. If the returns or reports filed by the taxpayer with all states to which the taxpayer reports under UDITPA are not uniform in the valuation of property and in the exclusion or inclusion of property in the property factor, the taxpayer shall disclose in its return to this state the nature and extent of the variance.

(d) Property Factor Numerator. The numerator of the property factor shall include the average value of the real and tangible personal property owned or rented by the taxpayer and used in this state during the tax period in the regular course of the trade or business of the taxpayer. Property in transit between locations of the taxpayer to which it belongs shall be considered to be at the destination for purposes of the property factor. Property in transit between a buyer and seller that is included by a taxpayer in the denominator of its property factor in accordance with its regular accounting practices shall be included in the numerator according to the state of destination. The value of mobile or movable property such as construction equipment, trucks, or leased electronic equipment that are located within and without this state during the tax period shall be determined for purposes of the numerator of the factor on the basis of total time within the state during the tax period. An automobile assigned to a traveling employee shall be included in the numerator of the factor of the state to which the employee's compensation is assigned under the payroll factor or in the numerator of the state in which the automobile is licensed.

(e) Valuation of Owned Property.

(i) Property owned by the taxpayer shall be valued at its original cost. As a general rule original cost is deemed to be the basis of the property for state franchise or income tax purposes (prior to any adjustments) at the time of acquisition by the taxpayer and adjusted by subsequent capital additions or improvements thereto and partial disposition thereof, by reasons including sale, exchange, and abandonment. However, capitalized intangible drilling and development costs shall be included in the property factor whether or not they have been expensed for either federal or state tax purposes.

(ii) Inventory of stock of goods shall be included in the factor in accordance with the valuation method used for state tax purposes.

(iii) Property acquired by gift or inheritance shall be included in the factor at its basis for determining depreciation.

(f) Valuation of Rented Property.

(i) Property rented by the taxpayer is valued at eight times its net annual rental rate. The net annual rental rate for any item of rented property is the annual rental rate paid by the taxpayer for the property, less the aggregate annual subrental rates paid by

subtenants of the taxpayer. See Subsection (11)(b) for special rules where the use of the net annual rental rate produces a negative or clearly inaccurate value or where property is used by the taxpayer at no charge or rented at a nominal rental rate.

(ii) Subrents are not deducted when the subrents constitute business income because the property that produces the subrents is used in the regular course of the trade or business of the taxpayer when it is producing the income. Accordingly there is no reduction in its value.

(iii) Annual rental rate is the amount paid as rental for property for a 12-month period; i.e., the amount of the annual rent. Where property is rented for less than a 12-month period, the rent paid for the actual period of rental shall constitute the annual rental rate for the tax period. However, where a taxpayer has rented property for a term of 12 or more months and the current tax period covers a period of less than 12 months (due, for example, to a reorganization or change of accounting period), the rent paid for the short tax period shall be annualized. If the rental term is for less than 12 months, the rent shall not be annualized beyond its term. Rent shall not be annualized because of the uncertain duration when the rental term is on a month to month basis.

(iv) Annual rent is the actual sum of money or other consideration payable, directly or indirectly, by the taxpayer or for its benefit for the use of the property and includes:

(A) Any amount payable for the use of real or tangible personal property, or any part thereof, whether designated as a fixed sum of money or as a percentage of sales, profits or otherwise.

(B) Any amount payable as additional rent or in lieu of rents, such as interest, taxes, insurance, repairs or any other items that are required to be paid by the terms of the lease or other arrangement, not including amounts paid as service charges, such as utilities, and janitor services. If a payment includes rent and other charges unsegregated, the amount of rent shall be determined by consideration of the relative values of the rent and other items.

(v) Annual rent does not include:

(A) incidental day-to-day expenses such as hotel or motel accommodations, or daily rental of automobiles;

(B) royalties based on extraction of natural resources, whether represented by delivery or purchase. For this purpose, a royalty includes any consideration conveyed or credited to a holder of an interest in property that constitutes a sharing of current or future production of natural resources from that property, irrespective of the method of payment or how that consideration may be characterized, whether as a royalty, advance royalty, rental, or otherwise.

(vi) Leasehold improvements shall, for the purposes of the property factor, be treated as property owned by the taxpayer regardless of whether the taxpayer is entitled to remove the improvements or the improvements revert to the lessor upon expiration of the lease. Hence, the original cost of leasehold improvements shall be included in the factor.

(g) Averaging Property Values. As a general rule, the average value of property owned by the taxpayer shall be determined by averaging the values at the beginning and end of the tax period. However, the Tax Commission may require or allow averaging by monthly values if that method of averaging is required to properly reflect the average value of the taxpayer's property for the tax period.

(i) Averaging by monthly values will generally be applied if substantial fluctuations in the values of the property exist during the tax period or where property is acquired after the beginning of the tax period or disposed of before the end of the tax period.

(ii) Example: The monthly value of the taxpayer's property was as follows:

TABLE

January	\$ 2,000
February	2,000
March	3,000
April	3,500
May	4,500
June	10,000
July	15,000
August	17,000
September	23,000
October	25,000
November	13,000
December	2,000
Total	\$120,000

The average value of the taxpayer's property includable in the property factor for the income year is determined as follows:

$$\$120,000 / 12 = \$10,000$$

(iii) Averaging with respect to rented property is achieved automatically by the method of determining the net annual rental rate of the property as set forth in Subsection_(8)(g).

(9) Payroll Factor.

(a) The payroll factor of the apportionment formula shall include the total amount paid by the taxpayer in the regular course of its trade or business for compensation during the tax period.

(b) The total amount paid to employees is determined upon the basis of the taxpayer's accounting method. If the taxpayer has adopted the accrual method of accounting, all compensation properly accrued shall be deemed to have been paid. Notwithstanding the taxpayer's method of accounting, at the election of the taxpayer, compensation paid to employees may be included in the payroll factor by use of the cash method if the taxpayer is required to report compensation under that method for unemployment compensation purposes. The compensation of any employee on account of activities that are connected with the production of nonbusiness income shall be excluded from the factor.

(c) Payments made to an independent contractor or any other person not properly classifiable as an employee are excluded from the payroll factor. Only amounts paid directly to employees are included in the payroll factor. Amounts considered paid directly include the value of board, rent, housing, lodging, and other benefits or services furnished to employees by the taxpayer in return for personal services.

(d) Generally, a person will be considered to be an employee if he is included by the taxpayer as an employee for purposes of the payroll taxes imposed by the Federal Insurance Contributions Act. However, since certain individuals are included within the term employees in the Federal Insurance Contributions Act who would not be employees under the usual common law rules, it may be established that a person who is included as an employee for purposes of the Federal Insurance Contributions Act is not an employee for purposes of this rule.

(e)(A) In filing returns with this state, if the taxpayer departs from or modifies the treatment of compensation paid used in

returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification.

(B) If the returns or reports filed by the taxpayer with all states to which the taxpayer reports under UDITPA are not uniform in the treatment of compensation paid, the taxpayer shall disclose in its return to this state the nature and extent of the variance.

(f) Denominator. The denominator of the payroll factor is the total compensation paid everywhere during the tax period. Accordingly, compensation paid to employees whose services are performed entirely in a state where the taxpayer is immune from taxation, for example, by P.L. 86-272, are included in the denominator of the payroll factor.

(g) Numerator. The numerator of the payroll factor is the total amount paid in this state during the tax period by the taxpayer for compensation. The tests in Section 59-7-316 to be applied in determining whether compensation is paid in this state are derived from the Model Unemployment Compensation Act. Accordingly, if compensation paid to employees is included in the payroll factor by use of the cash method of accounting or if the taxpayer is required to report compensation under that method for unemployment compensation purposes, it shall be presumed that the total wages reported by the taxpayer to this state for unemployment compensation purposes constitute compensation paid in this state except for compensation excluded under this Subsection (9) . The presumption may be overcome by satisfactory evidence that an employee's compensation is not properly reportable to this state for unemployment compensation purposes.

(h) Compensation Paid in this State. Compensation is paid in this state if any one of the following tests applied consecutively are met:

(i) The employee's service is performed entirely within the state.

(ii) The employee's service is performed both within and without the state, but the service performed without the state is incidental to the employee's service within the state. The word incidental means any service that is temporary or transitory in nature, or that is rendered in connection with an isolated transaction.

(iii) If the employee's services are performed both within and without this state, the employee's compensation will be attributed to this state:

(A) if the employee's base of operations is in this state; or

(B) if there is no base of operations in any state in which some part of the service is performed, but the place from which the service is directed or controlled is in this state; or

(C) if the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed but the employee's residence is in this state.

(10) Sales Factor. In General.

(a) Section 59-7-302(5) defines the term "sales" to mean all gross receipts of the taxpayer not allocated under Section 59-7-306 through 59-7-310. Thus, for purposes of the sales factor of the apportionment formula for the trade or business of the taxpayer, the term sales means all gross receipts derived by the taxpayer from transactions and activity in the regular course of the trade or business. The following are rules determining sales in various situations.

(i) In the case of a taxpayer engaged in manufacturing and selling or purchasing and reselling goods or products, sales

includes all gross receipts from the sales of goods or products (or other property of a kind that would properly be included in the inventory of the taxpayer if on hand at the close of the tax period) held by the taxpayer primarily for sale to customers in the ordinary course of its trade or business. Gross receipts for this purpose means gross sales, less returns and allowances and includes all interest income, service charges, carrying charges, or time-price differential charges incidental to sales. Federal and state excise taxes (including sales taxes) shall be included as part of receipts if taxes are passed on to the buyer or included as part of the selling price of the product.

(ii) In the case of cost plus fixed fee contracts, such as the operation of a government-owned plant for a fee, sales includes the entire reimbursed cost, plus the fee.

(iii) In the case of a taxpayer engaged in providing services, such as the operation of an advertising agency, or the performance of equipment service contracts, or research and development contracts, sales includes the gross receipts from the performance of services including fees, commissions, and similar items.

(iv) In the case of a taxpayer engaged in renting real or tangible property, sales includes the gross receipts from the rental, lease or licensing of the use of the property.

(v) In the case of a taxpayer engaged in the sale, assignment, or licensing of intangible personal property such as patents and copyrights, sales includes the gross receipts therefrom.

(vi) If a taxpayer derives receipts from the sale of equipment used in its business, those receipts constitute sales. For example, a truck express company owns a fleet of trucks and sells its trucks under a regular replacement program. The gross receipts from the sales of the trucks are included in the sales factor.

(vii) In some cases certain gross receipts should be disregarded in determining the sales factor in order that the apportionment formula will operate fairly to apportion to this state the income of the taxpayer's trade or business. See Subsection (11) (c).

(viii) In filing returns with this state, if the taxpayer departs from or modifies the basis for excluding or including gross receipts in the sales factor used in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification.

(ix) If the returns or reports filed by the taxpayer with all states to which the taxpayer reports under UDITPA are not uniform in the inclusion or exclusion of gross receipts, the taxpayer shall disclose in its return to this state the nature and extent of the variance.

(b) Denominator. The denominator of the sales factor shall include the total gross receipts derived by the taxpayer from transactions and activity in the regular course of its trade or business, except receipts excluded under Subsection (11)(c).

(c) Numerator. The numerator of the sales factor shall include gross receipts attributable to this state and derived by the taxpayer from transactions and activity in the regular course of its trade or business. All interest income, service charges, carrying charges, or time-price differential charges incidental to gross receipts shall be included regardless of the place where the accounting records are maintained or the location of the contract or other evidence of indebtedness.

(d) Sales of Tangible Personal Property in this State.

(i) Gross receipts from the sales of tangible personal property (except sales to the United States government; see Subsection (10)(e)) are in this state:

(A) if the property is delivered or shipped to a purchaser within this state regardless of the f.o.b. point or other conditions of sale; or

(B) if the property is shipped from an office, store, warehouse, factory, or other place of storage in this state and the taxpayer is not taxable in the state of the purchaser.

(ii) Property shall be deemed to be delivered or shipped to a purchaser within this state if the recipient is located in this state, even though the property is ordered from outside this state.

(iii) Property is delivered or shipped to a purchaser within this state if the shipment terminates in this state, even though the property is subsequently transferred by the purchaser to another state.

(iv) The term "purchaser within this state" shall include the ultimate recipient of the property if the taxpayer in this state, at the designation of the purchaser, delivers to or has the property shipped to the ultimate recipient within this state.

(v) When property being shipped by a seller from the state of origin to a consignee in another state is diverted while en route to a purchaser in this state, the sales are in this state.

(vi) If the taxpayer is not taxable in the state of the purchaser, the sale is attributed to this state if the property is shipped from an office, store, warehouse, factory, or other place of storage in this state.

(vii) If a taxpayer whose salesman operates from an office located in this state makes a sale to a purchaser in another state in which the taxpayer is not taxable and the property is shipped directly by a third party to the purchaser, the following rules apply:

(A) If the taxpayer is taxable in the state from which the third party ships the property, then the sale is in that state.

(B) If the taxpayer is not taxable in the state from which the property is shipped, the sale is in this state.

(e)(i) Sales of Tangible Personal Property to United States Government in this state.

(ii) Gross receipts from the sales of tangible personal property to the United States government are in this state if the property is shipped from an office, store, warehouse, factory, or other place of storage in this state. For purposes of this rule, only sales for which the United States government makes direct payment to the seller pursuant to the terms of a contract constitute sales to the United States government. Thus, as a general rule, sales by a subcontractor to the prime contractor, the party to the contract with the United States government, do not constitute sales to the United States government.

(f) Sales Other than Sales of Tangible Personal Property in this State.

(i) In general, Section 59-7-319(1) provides for the inclusion in the numerator of the sales factor of gross receipts from transactions other than sales of tangible personal property (including transactions with the United States government). Under Section 59-7-319(1), gross receipts are attributed to this state if the income producing activity that gave rise to the receipts is performed wholly within this state. Also, gross receipts are attributed to this state if, with respect to a particular item of income, the income

producing activity is performed within and without this state but the greater proportion of the income producing activity is performed in this state, based on costs of performance.

(ii) The term "income producing activity" applies to each separate item of income and means the transactions and activity directly engaged in by the taxpayer in the regular course of its trade or business for the ultimate purpose of obtaining gains or profit. Income producing activity does not include transactions and activities performed on behalf of a taxpayer, such as those conducted on its behalf by an independent contractor. Accordingly, the income producing activity includes the following:

(A) the rendering of personal services by employees or the utilization of tangible and intangible property by the taxpayer in performing a service;

(B) the sale, rental, leasing, or licensing or other use of real property;

(C) the rental, leasing, licensing or other use of intangible personal property; or

(D) the sale, licensing or other use of intangible personal property. The mere holding of intangible personal property is not, of itself, an income producing activity.

(iii) The term "costs of performance" means direct costs determined in a manner consistent with generally accepted accounting principles and in accordance with accepted conditions or practices in the trade or business of the taxpayer.

(iv) Receipts (other than from sales of tangible personal property) in respect to a particular income producing activity are in this state if:

(A) the income producing activity is performed wholly within this state; or

(B) the income producing activity is performed both in and outside this state and a greater proportion of the income producing activity is performed in this state than in any other state, based on costs of performance.

(v) The following are special rules for determining when receipts from the income producing activities described below are in this state:

(A) Gross receipts from the sale, lease, rental or licensing of real property are in this state if the real property is located in this state.

(B) Gross receipts from the rental, lease, or licensing of tangible personal property are in this state if the property is located in this state. The rental, lease, licensing or other use of tangible personal property in this state is a separate income producing activity from the rental, lease, licensing or other use of the same property while located in another state. Consequently, if the property is within and without this state during the rental, lease or licensing period, gross receipts attributable to this state shall be measured by the ratio that the time the property was physically present or was used in this state bears to the total time or use of the property everywhere during the period.

(C) Gross receipts for the performance of personal services are attributable to this state to the extent services are performed in this state. If services relating to a single item of income are performed partly within and partly without this state, the gross receipts for the performance of services shall be attributable to this state only if a greater portion of the services were performed in this state, based on costs of performance. Usually where services are performed partly within and partly without this state, the

services performed in each state will constitute a separate income producing activity. In that case, the gross receipts for the performance of services attributable to this state shall be measured by the ratio that the time spent in performing services in this state bears to the total time spent in performing services everywhere. Time spent in performing services includes the amount of time expended in the performance of a contract or other obligation that gives rise to gross receipts. Personal service not directly connected with the performance of the contract or other obligations, as for example, time expended in negotiating the contract, is excluded from the computations.

(11) Special Rules:

(a) Section 59-7-320 provides that if the allocation and apportionment provisions of UDITPA do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for, or the tax administrator may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

(i) separate accounting;

(ii) the exclusion of any one or more of the factors;

(iii) the inclusion of one or more additional factors that will fairly represent the taxpayer's business activity in this state; or

(iv) the employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

(b) Property Factor.

The following special rules are established in respect to the property factor of the apportionment formula:

(i) If the subrents taken into account in determining the net annual rental rate under Subsection (8)(f)(ii) produce a negative or clearly inaccurate value for any item of property, another method that will properly reflect the value of rented property may be required by the Tax Commission or requested by the taxpayer. In no case however, shall the value be less than an amount that bears the same ratio to the annual rental rate paid by the taxpayer for property as the fair market value of that portion of property used by the taxpayer bears to the total fair market value of the rented property.

(ii) If property owned by others is used by the taxpayer at no charge or rented by the taxpayer for a nominal rate, the net annual rental rate for the property shall be determined on the basis of a reasonable market rental rate for that property.

(c) Sales Factors.

The following special rules are established in respect to the sales factor of the apportionment formula:

(i) Where substantial amounts of gross receipts arise from an incidental or occasional sale of a fixed asset used in the regular course of the taxpayer's trade or business, those gross receipts shall be excluded from the sales factor. For example, gross receipts from the sale of a factory or plant will be excluded.

(ii) Insubstantial amounts of gross receipts arising from incidental or occasional transactions or activities may be excluded from the sales factor unless exclusion would materially affect the amount of income apportioned to this state. For example, the taxpayer ordinarily may include or exclude from the sales factor gross receipts from such transactions as the sale of office furniture, and business automobiles.

(iii) Where the income producing activity in respect to business income from intangible personal property can be readily identified, that income is included in the denominator of the sales factor and, if the income producing activity occurs in this state, in the numerator of the sales factor as well. For example, usually the

income producing activity can be readily identified in respect to interest income received on deferred payments on sales of tangible property, see Subsection (10)(a)(i), and income from the sale, licensing or other use of intangible personal property, see Subsection (10)(f)(ii)(D).

(A) Where business income from intangible property cannot readily be attributed to any particular income producing activity of the taxpayer, the income cannot be assigned to the numerator of the sales factor for any state and shall be excluded from the denominator of the sales factor. For example, where business income in the form of dividends received on stock, royalties received on patents or copyrights, or interest received on bonds, debentures or government securities results from the mere holding of the intangible personal property by the taxpayer, such dividends and interest shall be excluded from the denominator of the sales factor.

(B) Exclude from the denominator of the sales factor, receipts from the sales of securities unless the taxpayer is a dealer therein.

(iv) Where gains and losses on the sale of liquid assets are not excluded from the sales factor by other provisions under Subsections (11)(c)(i) through (iii), such gains or losses shall be treated as provided in this Subsection (11)(c)(iv). This Subsection (11)(c)(iv) does not provide rules relating to the treatment of other receipts produced from holding or managing such assets.

(A) If a taxpayer holds liquid assets in connection with one or more treasury functions of the taxpayer, and the liquid assets produce business income when sold, exchanged or otherwise disposed, the overall net gain from those transactions for each treasury function for the tax period is included in the sales factor. For purposes of this Subsection (11)(c)(iv), each treasury function will be considered separately.

(B) For purposes of this Subsection (11)(c)(iv), a liquid asset is an asset (other than functional currency or funds held in bank accounts) held to provide a relatively immediate source of funds to satisfy the liquidity needs of the trade or business. Liquid assets include:

(I) foreign currency (and trading positions therein) other than functional currency used in the regular course of the taxpayer's trade or business;

(II) marketable instruments (including stocks, bonds, debentures, options, warrants, futures contracts, etc.); and

(III) mutual funds which hold such liquid assets.

(C) An instrument is considered marketable if it is traded in an established stock or securities market and is regularly quoted by brokers or dealers in making a market. Stock in a corporation which is unitary with the taxpayer, or which has a substantial business relationship with the taxpayer, is not considered marketable stock.

(D) For purposes of this Subsection (11)(c)(iv)(D), a treasury function is the pooling and management of liquid assets for the purpose of satisfying the cash flow needs of the trade or business, such as providing liquidity for a taxpayer's business cycle, providing a reserve for business contingencies, business acquisitions, etc. A taxpayer principally engaged in the trade or business of purchasing and selling instruments or other items included in the definition of liquid assets set forth herein is not performing a treasury function with respect to income so produced.

(E) Overall net gain refers to the total net gain from all transactions incurred at each treasury function for the entire tax period, not the net gain from a specific transaction.

(d) Domestic International Sales Corporation (DISC). In any case in which a corporation, subject to the income tax jurisdiction of Utah, owns 50 percent or more of the voting power of the stock of a corporation classified as a DISC under the provisions of Sec. 992 Internal Revenue Code, a combined filing with the DISC corporation is required.

(e) Partnership or Joint Venture Income. Income or loss from partnership or joint venture interests shall be included in income and apportioned to Utah through application of the three-factor formula consisting of property, payroll and sales. For apportionment purposes, the portion of partnership or joint venture property, payroll and sales to be included in the corporation's property, payroll and sales factors shall be computed on the basis of the corporation's ownership interest in the partnership or joint venture, and otherwise in accordance with other applicable provisions of this rule.

R865. Tax Commission, Auditing.

R865-6F. Franchise Tax.

R865-6F-16. Apportionment of Income of Long-Term Construction Contractors Pursuant to Utah Code Ann. Sections 59-7-302 through 321.

(1) When a taxpayer elects to use the percentage-of-completion method of accounting, or the completed contract method of accounting for long-term contracts, and has income from

sources both within and without this state, the amount of business income derived from such long-term contracts from sources within this state is determined pursuant to this rule.

(2) Business income is apportioned to this state by a three-factor formula consisting of property, payroll, and sales--regardless of the method of accounting for long-term contracts elected by the taxpayer. The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8[(3)](4) and [(6)](7). Except as modified by this rule, the property factor shall be determined in accordance with R865-6F-8[(7)](8), the payroll factor in accordance with R865-6F-8[(8)](9), and the sales factor in accordance with R865-6F-8[(9)](10).

(a) Percentage-of-completion method. Under this method of accounting for long-term contracts, the amount included each year as business income from each contract is the amount by which the gross contract price (which corresponds to the percentage of the entire contract completed during the income years) exceeds all expenditures made during the income year in connection with the contract. Beginning and ending material and supplies inventories must be appropriately accounted for in reporting expenditures.

(b) Completed-contract method. Under this method of accounting, business income derived from long-term contracts is reported for the income year in which the contract is completed. A special computation is required to compute the amount of business income attributable to this state from each completed contract. All receipts and expenditures applicable to the contracts, whether complete or incomplete at the end of the income year, are excluded from other business income, which are apportioned by the regular three-factor formula of property, payroll, and sales.

(3) Property factor. In general, the numerator and denominator of the property factor is determined as set forth in Sections 59-7-312, 59-7-313, and 59-7-314 and the rules thereunder. However, the following special rules are also applicable:

(a) The average value of the taxpayer's cost (including materials and labor) of construction in progress, to the extent these costs exceed progress billings, are included in the denominator of the property factor. The value of those construction costs attributable to construction projects in this state are included in the numerator of the property factor. It may be necessary to use monthly averages if yearly averages do not properly reflect the average value of the taxpayer's equity.

(b) Rent paid for the use of equipment directly attributable to a particular construction project is included in the property factor at eight times the net annual rental rate, even though the rental expense may be capitalized into the cost of construction.

(c) The property factor is computed in the same manner for all long-term-contract methods of accounting and is computed for each income year, even though under the completed-contract method of accounting business income is computed separately.

(4) Payroll factor. In general, the numerator and denominator of the payroll factor are determined as set forth in Sections 59-7-315 and 59-7-316 and the rules thereunder. However, the following special rules are also applicable.

(a) Compensation paid to employees attributable to a particular construction project is included in the payroll factor even though capitalized into the cost of construction.

(b) Compensation paid to employees who, in the aggregate, perform most of their services in a state to which their employer does not report them for unemployment tax purposes, is attributed to the state where the services are performed. For example, a taxpayer engaged in a long-term contract in State X sends several key employees to that state to supervise the project. The taxpayer, for unemployment tax purposes reports these employees to State Y where the main office is maintained and where the employees reside. For payroll factor purposes and in accordance with Section 59-7-316 and the rule thereunder, the compensation is assigned to the numerator of State X.

(c) The payroll factor is computed in the same manner for all long-term-contract methods of accounting and is computed for each income year, even though under the completed contract method of accounting, business income is computed separately.

(5) Sales Factor. In general, the numerator and denominator of the sales factor shall be determined as set forth in Sections 59-7-317, 59-7-318, and 59-7-319 and the rules thereunder. However, the following special rules are also applicable.

(a) Gross receipts derived from the performance of a contract are attributable to this state if the construction project is located in this state. If the construction project is located partly within and partly without this state, the gross receipts attributable to this state are based upon the ratio which construction costs for the project in this state incurred during the coming year bears to the total of such construction costs for the entire project during the income year. Progress billings are ordinarily used to reflect gross receipts and must be shown in both the numerator and denominator of the sales factor.

(b) If the percentage-of-completion method is used, the sales factor includes only that portion of the gross contract price which corresponds to the percentage of the entire contract which was completed during the income year. For example, a construction contractor which had elected the percentage-of-completion method of accounting entered into a \$9,000,000 long-term construction contract. At the end of its current income year (the second since starting the project) it estimated that the project was 30 percent completed. The amount of gross receipts included in the sales factor for the current income year is \$2,700,000 (30 percent of \$9,000,000), regardless of whether the taxpayer uses the accrual method or the cash method of accounting for receipts and disbursements.

(c) If the completed-contract method of accounting is used, the sales factor includes the portion of the gross receipts (progress billings) received under the cash basis or accrued, whichever is applicable, during the income year attributable to each contract. For example, a construction contractor which elected the completed-contract method of accounting entered into a long-term construction contract. At the end of its current income year (the second since starting the project) it had billed, and accrued on its books a total of \$5,000,000 of which \$2,000,000 had accrued in the first year the contract was undertaken, and \$3,000,000 in the current (second) year. The amount of gross receipts included in the sales factor for the current income year is \$3,000,000. If the taxpayer keeps its books on the cash basis, and as of the end of its current income year has received only \$2,500,000 of the \$3,000,000 billed during the current year, the amount of gross receipts to be included in the sales factor for the current year is \$2,500,000.

(d) The sales factor, except as noted above in Subsections (5)(b) and (c), is computed in the same manner for all long-term contract methods of accounting and is computed for each income year--even though under the completed-contract method of accounting, business income is computed separately.

~~[(6) The total of the property, payroll, and sales percentages is divided by three to determine the apportionment percentage which is then applied to business income to establish the amount apportioned to this state.~~

~~_____ (7)(6)~~ The completed-contract method of accounting provides that the reporting of income (or loss) is deferred until the year the construction project is completed. In order to determine the amount of income which is attributable to sources within this state, a separate computation is made for each contract completed during the income year, regardless of whether the project is located within or without this state. The amount of income from each contract completed during the income year apportioned to this state is added to other business income apportioned to this state by the regular three-factor formula, and that total together with all nonbusiness income allocated to this state becomes the measure of tax for the income year. The amount of income (or loss) from each contract which is derived from sources within this state using the completed-contract method of accounting is computed as follows.

(a) In the income year the contract is completed, the income (or loss) therefrom is determined.

(b) The income (or loss) determined at Subsection ~~[(7)](6)~~ (a) is apportioned to this state by the following method:

(i) a fraction is determined for each year the contract was in progress (the numerator of which is the amount of construction costs paid or accrued each year the contract was in progress, and the denominator of which is the total of all construction costs for the project);

(ii) each fraction determined in Subsection ~~[(7)](6)(b)(i)~~ is multiplied by the apportionment formula percentage for that particular year;

(iii) these factors are totaled; and

(iv) the total income is multiplied by this combined percentage, and the resulting income (or loss) is the amount of contract business income assigned to this state.

(c) A corporation using the completed-contract method of accounting is required to include income derived from sources within this state from contracts within or without this state or income from incomplete contracts in progress outside this state in the year of withdrawal, dissolution, or cessation of business pursuant to Subsection ~~[(7)](6)(d)~~.

(d) The amount of income (or loss) from each such contract apportioned to this state is determined as if the percentage-of-completion method of accounting were used for all such contracts on the date of withdrawal, dissolution, or cessation of business. The amount of business income (or loss) for each such contract is the amount by which the gross contract price from each such contract from the commencement thereof to the date of withdrawal, dissolution, or cessation of business exceeds all expenditures made during such period in connection with each such contract. Beginning and ending material and supplies inventories must be appropriately accounted for in reporting expenditures in connection with each contract.

(1) Definitions.

(a) "Billing address" means the location indicated in the books and records of the taxpayer on the first day of the taxable year, or on the later date in the taxable year when the customer relationship began, where any notice, statement or bill relating to a customer's account is mailed.

(b) "Borrower or credit card holder located in this state" means:

(i) a borrower, other than a credit card holder, that is engaged in a trade or business that maintains its commercial domicile in this state; or

(ii) a borrower that is not engaged in a trade or business, or a credit card holder, whose billing address is in this state.

(c) "Commercial domicile" means:

(i) the place from which the trade or business is principally managed and directed; or

It shall be presumed, subject to rebuttal, that the location from which the taxpayer's trade or business is principally managed and directed is the state of the United States or the District of Columbia to which the greatest number of employees

are regularly connected or out of which they are working, irrespective of where the services of those employees are performed, as of the last day of the taxable year.

(d) "Compensation" means wages, salaries, commissions, and any other form of remuneration paid to employees for personal services that are included in the employee's gross income under the federal Internal Revenue Code. In the case of employees not subject to the federal Internal Revenue Code, the determination of whether payments constitute gross income under the federal Internal Revenue Code shall be made as though those employees were subject to the federal Internal Revenue Code.

(e) "Credit card" means a credit, travel, or entertainment card.

(h) "Financial institution" means:

Those corporations not meeting the definition of financial institution shall compute their apportionment data based on rule R865-6F-8 or such other industry apportionment rule adopted by the ~~[Tax Commission]~~ commission that may be applicable. The apportionment data of all members of the unitary group shall be included in calculating a single apportionment fraction for the unitary group. The numerators and denominators of the property, payroll, and receipts factors of the financial institutions shall be added to the numerators and denominators, respectively, of the property, payroll, and sales factors of the nonfinancial institutions to determine the property, payroll, and sales factors of the unitary group.

(3) Receipts Factor.

(a) In general. The receipts factor is a fraction, the numerator of which is the receipts of the taxpayer in this state

during the taxable year and the denominator of which is the receipts of the taxpayer within and without this state during the taxable year. The method of calculating receipts for purposes of the denominator is the same as the method used in determining receipts for purposes of the numerator. The receipts factor shall include only those receipts that constitute business income and are included in the computation of the apportionable income base for the taxable year.

(b) Receipts from the lease of real property. The numerator of the receipts factor includes receipts from the lease or rental of real property owned by the taxpayer and receipts from the sublease of real property, if the property is located within this state.

(A) The extent an aircraft will be deemed to be used in this state and the amount of receipts that shall be included in the numerator of this state's receipts factor are determined by multiplying all the receipts from the lease or rental of the aircraft by a fraction, the numerator of which is the number of landings of the aircraft in this state and the denominator of which is the total number of landings of the aircraft.

(B) If the extent of the use of any transportation property within this state cannot be determined, that property will be deemed to be used wholly in the state in which the property has its principal base of operations.

(C) A motor vehicle will be deemed to be used wholly in the state in which it is registered.

(d) Interest from loans secured by real property.

(i) The numerator of the receipts factor includes interest and fees or penalties in the nature of interest from loans secured by real property if the property is located within this state. If the property is located both within this state and one or more other states, the receipts described in this subsection are included in the numerator of the receipts factor if more than fifty percent of the fair market value of the real property is located within this state. If more than fifty percent of the fair market value of the real property is not located within any one state, the receipts described in this subsection shall be included in the numerator of the receipts factor if the borrower is located in this state.

(ii) The determination of whether the real property securing a loan is located within this state shall be made as of the time the original agreement was made, and any and all subsequent substitutions of collateral shall be disregarded.

(ii) The amount of net gains, but not less than zero, from the sale of loans not secured by real property included in the numerator is determined by multiplying the net gains by a fraction the numerator of which is the amount included in the numerator of the receipts factor pursuant to Subsection (3)(e), and the denominator of which is the total amount of interest and fees or penalties in the nature of interest from loans not secured by real property.

(g) Receipts from credit card receivables. The numerator of the receipts factor includes interest and fees or penalties in the nature of interest from credit card receivables and receipts from fees charged to card holders, such as annual fees, if the billing address of the card holder is in this state.

(j) Receipts from merchant discount. The numerator of the receipts factor includes receipts from merchant discount if the commercial domicile of the merchant is in this state. The receipts shall be computed net of any cardholder charge backs, but shall not be reduced by any interchange transaction fees or by any issuer's reimbursement fees paid to another for charges made by its card holders.

(k) Loan servicing fees.

(i) The numerator of the receipts factor includes loan servicing fees derived from loans secured by real property multiplied by a fraction the numerator of which is the amount included in the numerator of the receipts factor pursuant to Subsection (3)(d), and the denominator of which is the total amount of interest and fees or penalties in the nature of interest from loans secured by real property.

(ii) The numerator of the receipts factor includes loan servicing fees derived from loans not secured by real property multiplied by a fraction the numerator of which is the amount included in the numerator of the receipts factor pursuant to Subsection (3)(e), and the denominator of which is the total amount of interest and fees or penalties in the nature of interest from loans not secured by real property.

(A) The amount of interest, dividends, net gains, but not less than zero, and other income from investment assets and activities in the investment accounts attributed to this state and included in the numerator is determined by multiplying all such income from assets and activities by a fraction, the numerator of which is the average value of the assets properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the average value of all those assets.

(B) The amount of interest from federal funds sold and purchased and from securities purchased under resale agreements and securities sold under repurchase agreements attributable to this state and included in the numerator is determined by multiplying the amount of those funds and securities described in Subsection (3)(m)(iii)(A) by a fraction, the numerator of which is the average value of federal funds sold and securities purchased under agreements to resell that are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the average value of all those funds and securities.

(D) For purposes of this subsection, average value shall be determined using the rules for determining the average value of tangible personal property set forth in Subsections (4)(c) and (d).

(v) In lieu of using the method set forth in Subsection (3)(m)(iv), the taxpayer may elect, or the ~~[Tax Commission]~~commission may require in order to fairly represent the business activity of the taxpayer in this state, the use of the method set forth in this subsection.

(A) The amount of interest, dividends, net gains, but not less than zero, and other income from investment assets and activities in the investment account attributed to this state and included in the numerator is determined by multiplying all income from those assets and activities by a fraction, the numerator of which is the gross income from those assets and activities properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the gross income from all those assets and activities.

(B) The amount of interest from federal funds sold and purchased and from securities purchased under resale agreements and securities sold under repurchase agreements attributable to this state and included in the numerator is determined by multiplying the amount of those funds and securities described in Subsection (3)(m)(iii)(A) by a fraction, the numerator of which is the gross income from those funds and securities properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the gross income from all those funds and securities.

(vi) If the taxpayer elects or is required by the ~~[Tax Commission]~~commission to use the method set forth in Subsection (3)(m)(v), the taxpayer shall use this method on all subsequent returns unless the taxpayer receives prior permission from the ~~[Tax Commission]~~commission to use, or the ~~[Tax Commission]~~commission requires, a different method.

(vii) The taxpayer shall have the burden of proving that an investment asset or activity or trading asset or activity was properly assigned to a regular place of business outside of this state by demonstrating that the day-to-day decisions regarding the asset or activity occurred at a regular place of business outside this state.

Where the day-to-day decisions regarding an investment asset or activity or trading asset or activity occur at more than one regular place of business and one regular place of business is in this state and one regular place of business is outside this state, that asset or activity shall be considered to be located at the regular place of business of the taxpayer where the investment or trading policies or guidelines with respect to the asset or activity are established. Unless the taxpayer demonstrates to the contrary, policies and guidelines shall be presumed to be established at the commercial domicile of the taxpayer.

(B) If a unitary group includes one or more financial institutions whose commercial domicile is in this state, and if any member of the unitary group is taxable in another state under section 59-7-305, the receipts of each financial institution in the unitary group that would be included in the numerator of the other state's receipts factor under Subsections (3)(a) through (n) may not be included in the numerator of this state's receipts factor.

(ii) For taxpayers that elect to include the property described in Subsections (4)(g) through (i) within the property factor:

(A) The value of real property and tangible personal property owned by the taxpayer is the original cost or other basis of that property for federal income tax purposes without regard to depletion, depreciation or amortization.

(B) Loans are valued at their outstanding principal balance, without regard to any reserve for bad debts. If a loan is charged-off in whole or in part for federal income tax purposes, the portion of the loan charged off is not outstanding. A specifically allocated reserve established pursuant to regulatory or financial accounting guidelines that is treated as charged-off for federal income tax purposes shall be treated as charged-off for purposes of this rule.

(C) Credit card receivables are valued at their outstanding principal balance, without regard to any reserve for bad debts. If a credit card receivable is charged-off in whole or in part for federal income tax purposes, the portion of the receivable charged-off is not outstanding.

(d) Average value of property owned by the taxpayer. The average value of property owned by the taxpayer is computed on an annual basis by adding the value of the property on the first day of the taxable year and the value on the last day of the taxable year and dividing the sum by two.

(i) If averaging on this basis does not properly reflect average value, the ~~[Tax Commission]~~commission may require averaging on a more frequent basis, or the taxpayer may elect to average on a more frequent basis.

(ii) When averaging on a more frequent basis is required by the ~~[Tax Commission]~~commission or is elected by the taxpayer, the same method of valuation must be used consistently by the taxpayer with respect to property within and without this state and on all subsequent returns unless the taxpayer receives prior permission from the ~~[Tax Commission]~~commission to use a different method, or the ~~[Tax Commission]~~commission requires a different method of determining average value.

(e) Average value of real property and tangible personal property rented to the taxpayer.

(i) The average value of real property and tangible personal property that the taxpayer has rented from another and are not treated as property owned by the taxpayer for federal income tax purposes, shall be determined annually by multiplying the gross rents payable during the taxable year by eight.

(ii) If the use of the general method described in this subsection results in inaccurate valuations of rented property, any other method that properly reflects the value may be adopted by the ~~[Tax Commission]~~commission or by the taxpayer when approved in writing by the ~~[Tax Commission]~~commission. Once approved, that other method of valuation must be used on all subsequent returns unless the taxpayer receives prior approval from the ~~[Tax Commission]~~commission to use a different method, or the ~~[Tax Commission]~~commission requires a different method of valuation.

(f) Location of real property and tangible personal property owned or rented to the taxpayer.

(i) Except as described in Subsection (4)(f)(ii), real property and tangible personal property owned by or rented to the taxpayer are considered located within this state if they are physically located, situated, or used within this state.

(ii) Transportation property is included in the numerator of the property factor to the extent that the property is used in this state.

(A) The extent an aircraft will be deemed to be used in this state and the amount of value that shall be included in the numerator of this state's property factor is determined by multiplying the average value of the aircraft by a fraction, the numerator of which is the number of landings of the aircraft in this state and the denominator of which is the total number of landings of the aircraft everywhere.

(B) If the extent of the use of any transportation property within this state cannot be determined, the property will be deemed to be used wholly in the state in which the property has its principal base of operations.

(C) A motor vehicle will be deemed to be used wholly in the state in which it is registered.

(g) Location of Loans.

(i) A loan is considered located within this state if it is properly assigned to a regular place of business of the taxpayer within this state.

(ii) A loan is properly assigned to the regular place of business with which it has a preponderance of substantive contacts. A loan assigned by the taxpayer to a regular place of business without the state shall be presumed to have been properly assigned if:

(A) the taxpayer has assigned, in the regular course of its business, the loan on its records to a regular place of business consistent with federal or state regulatory requirements;

(B) the assignment on its records is based upon substantive contacts of the loan to the regular course of business; and

(C) the taxpayer uses the records reflecting assignment of loans for the filing of all state and local tax returns for which an assignment of loans to a regular place of business is required.

(iii) The presumption of proper assignment of a loan provided in Subsection (4)(g)(ii) may be rebutted upon a showing by the ~~[Tax Commission]~~ commission, supported by a preponderance of the evidence, that the preponderance of substantive contacts regarding the loan did not occur at the regular place of business to which it was assigned on the taxpayer's records. When the presumption has been rebutted, the loan shall then be located within this state if:

(A) the taxpayer had a regular place of business within this state at the time the loan was made; and

(B) the taxpayer fails to show, by a preponderance of the evidence, that the preponderance of substantive contacts regarding the loan did not occur within this state.

(iv) In the case of a loan assigned by the taxpayer to a place without this state that is not a regular place of business, it shall be presumed, subject to rebuttal by the taxpayer on a showing supported by the preponderance of the evidence, that the preponderance of substantive contacts regarding the loan occurred

within this state if, at the time the loan was made the taxpayer's commercial domicile, as defined in this rule, was within this state.

(v) To determine the state in which the preponderance of substantive contacts relating to a loan have occurred, the facts and circumstances regarding the loan at issue shall be reviewed on a case-by-case basis, and consideration shall be given to activities such as the solicitation, investigation, negotiation, approval, and administration of the loan.

(A) Solicitation. Solicitation is either active or passive.

(I) Active solicitation occurs when an employee of the taxpayer initiates the contact with the customer. The activity is located at the regular place of business at which the taxpayer's employee is regularly connected or working out of, regardless of where the services of the employee were actually performed.

(II) Passive solicitation occurs when the customer initiates the contact with the taxpayer. If the customer's initial contact was not at a regular place of business of the taxpayer, the regular place of business, if any, where the passive solicitation occurred is determined by the facts in each case.

(B) Investigation. Investigation is the procedure whereby employees of the taxpayer determine the credit-worthiness of the customer as well as the degree of risk involved in making a particular agreement. The activity is located at the regular place of business at which the taxpayer's employees are regularly connected or working out of, regardless of where the services of those employees were actually performed.

(C) Negotiation. Negotiation is the procedure whereby employees of the taxpayer and its customer determine the terms of the agreement, such as amount, duration, interest rate, frequency of repayment, currency denomination, and security required. The activity is located at the regular place of business at which the taxpayer's employees are regularly connected or working out of, regardless of where the services of those employees were actually performed.

(D) Approval. Approval is the procedure whereby employees or the board of directors of the taxpayer make the final determination whether to enter into the agreement.

(I) The activity is located at the regular place of business at which the taxpayer's employees are regularly connected or working out of, regardless of where the services of those employees were actually performed.

(II) If the board of directors makes the final determination, the activity is located at the commercial domicile of the taxpayer.

(E) Administration. Administration is the process of managing the account.

(I) Administration includes bookkeeping, collecting the payments, corresponding with the customer, reporting to management regarding the status of the agreement and proceeding against the borrower or the security interest if the borrower is in default.

(II) The activity is located at the regular place of business that oversees this activity.

(h) Location of credit card receivables. For purposes of determining the location of credit card receivables, credit card receivables shall be treated as loans and shall be subject to the provisions of Subsection (4)(g).

(i) Period for which properly assigned loan remains assigned. A loan that has been properly assigned to a state shall, absent any change of material fact, remain assigned to that state for the length of the original term of the loan. Thereafter, the loan may be properly assigned to another state if the loan has a preponderance of substantive contact to a regular place of business in that state.

(j) Each taxpayer shall make an initial election on whether to include the property described in Subsections (4)(g) through (i) within the property factor. The initial election is the election made or the filing position taken on the first return filed after the effective date of this rule. This election is irrevocable for a period of three years from the time the initial election is made, except in the case where a substantial ownership change occurs and commission approval is obtained to change the election. After the initial three-year period, the election may be revocable only with the prior approval of the commission and shall require the showing of a significant change in circumstance.

(5) Payroll factor.

(a) In general. The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the taxable year by the taxpayer for compensation and the denominator of which is the total compensation paid by the taxpayer both within and without this state during the taxable year. The payroll factor shall include only that compensation included in the computation of the apportionable income tax base for the taxable year.

(b) Compensation relating to nonbusiness income and independent contractors. The compensation of any employee for services or activities connected with the production of nonbusiness income, and payments made to any independent contractor or any other person not properly classifiable as an employee, shall be excluded from both the numerator and denominator of this factor.

(c) When compensation paid in this state. Compensation is paid in this state if any one of the following tests, applied consecutively, is met:

(i) The employee's services are performed entirely within this state.

(ii) The employee's services are performed both within and without the state, but the service performed without the state is incidental to the employee's service within the state. The term "incidental" means any service that is temporary or transitory in nature, or that is rendered in connection with an isolated transaction.

(iii) If the employee's services are performed both within and without this state, the employee's compensation will be attributed to this state:

(A) if the employee's principal base of operations is within this state;

(B) if there is no principal base of operations in any state in which some part of the services are performed, but the place from which the services are directed or controlled is in this state; or

(C) if the principal base of operations and the place from which the services are directed or controlled are not in any state in which some part of the service is performed but the employee's residence is in this state.

(6) This rule is effective for taxable years beginning after December 31, 1997.

R865. Tax Commission, Auditing.

R865-6F. Franchise Tax.

R865-6F-33. Taxation of Telecommunications Pursuant to Utah Code Ann. Sections 59-7-302 through 59-7-321.

(1) Definitions.

(a) "Call" means a specific telecommunications transmission as described in Subsection (1)(f).

(b) "Channel termination point" means the point at which information can enter or leave the telecommunications network.

(c) "Communications channel" means a communications path, which can be one-way or two-way, depending on the channel, between two or more points. The path may be designed for the transmission of signals representing human speech, digital or analog data, facsimile, or images.

(d) "Outerjurisdictional property" means tangible personal property, such as orbiting satellites, undersea transmission cables and the like, that are owned or rented by the taxpayer and used in a telecommunications business, but that are not physically located in any particular state.

(e) "Private telecommunications service" means a dedicated telephone service that entitles the subscriber to the exclusive or priority use of a communications channel or groups of communications channels from one or more channel termination points to another channel termination point.

(f) "Telecommunications" means the electronic transmission of voice, data, image, and other information through the use of any medium such as wires, cables, electromagnetic waves, light waves, or any combination of those or similar media now in existence or that might be devised, but telecommunications does not include the information content of any such transmission.

(g) "Telecommunications service" means providing telecommunications, including services provided by telecommunication service resellers, for a charge and includes telephone service, telegraph service, paging service, personal communication services and mobile or cellular telephone service, but does not include electronic information service or Internet access service.

(2) Apportionment and Allocation.

(a) A corporation engaged in the business of telecommunications that is taxable both within and without this state, shall allocate and apportion its net income as provided in this rule. All items of nonbusiness income shall be allocated pursuant to the provisions of Section 59-7-306.

~~[(b) All business income shall be apportioned to this state by multiplying that income by the apportionment percentage. The apportionment percentage is determined by adding the taxpayer's receipts factor, property factor and payroll factor and dividing that sum by three. If one of the factors is missing, the remaining factors are added and that sum is divided by two. If two of the factors are missing, the remaining factor is the apportionment percentage. A factor is missing if both its numerator and denominator are zero.~~

~~(e)](b)~~ The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8[(3)](4) and [(6)](7). Except as otherwise provided in this rule, the property factor shall be determined in accordance with R865-6F-8[(7)](8), the payroll factor in accordance with R865-6F-8[(8)](9) and the sales factor in accordance with R865-6F-8[(9)](10).

(3)(a) Property Factor.

(b) Outerjurisdictional property that is used by a taxpayer in providing a telecommunications service shall be attributed to this state based on the ratio of property within this state used in providing that service, to property everywhere used in providing the service, exclusive of property not located in any state. The term "property" as used herein refers to property includable in the property factor of the Utah apportionment fraction as defined in [Tax Commission]commission rule R865-6F-8[(7)](8).

(4) Sales Factor Numerator.

(a) The following sales and receipts from telecommunications service other than interstate or international private telecommunications service, shall be included in the Utah sales and receipts numerator:

(i) receipts derived from charges for providing telephone "access" from a location within Utah. "Access" means that a call can be made or received from a point within this state. An example of this type of receipt is a monthly subscriber fee billed with reference to equipment located in Utah;

(ii) receipts derived from charges for unlimited calling privileges, if the charges are billed by reference to equipment located in Utah;

(iii) receipts derived from charges for individual toll calls that originate and terminate in Utah;

(iv) receipts derived from charges for individual toll calls that either originate or terminate in Utah and are billed by reference to a customer or equipment located in Utah;

(v) receipts derived from any other charges if the charges are not includable in another state's sales factor numerator under that state's law, and the customer's billing address is in Utah.

(b) Gross receipts derived from providing interstate and international private telecommunications services shall be determined as follows:

(i) If the segment of the interstate or international channel between each termination point is separately billed, 100 percent of the charge imposed at each termination point in this state and for service in this state between those points is includable in the Utah sales factor. In addition, 50 percent of the charge imposed for service between a channel termination point outside this state and a point inside the state shall be included in the Utah sales factor. For purposes of this paragraph, termination points shall be measured by the nearest termination point inside the state to the first termination point outside the state.

(ii) If each segment of the interstate or international channel is not separately billed, the Utah sales shall be the same portion of the interstate or international channel charge that the number of channel termination points within this state bears to the total number of channel termination points within and without this state.

NOTICES OF CHANGES IN PROPOSED RULES

After an agency has published a **PROPOSED RULE** in the *Utah State Bulletin*, it may receive public comment that requires the **PROPOSED RULE** to be altered before it goes into effect. A **CHANGE IN PROPOSED RULE** allows an agency to respond to comments it receives.

As with a **PROPOSED RULE**, a **CHANGE IN PROPOSED RULE** is preceded by a **RULE ANALYSIS**. This analysis provides summary information about the **CHANGE IN PROPOSED RULE** including the name of a contact person, anticipated cost impact of the rule, and legal cross-references.

While the law does not designate a comment period for a **CHANGE IN PROPOSED RULE**, it does provide for a 30-day waiting period. An agency may accept additional comments during this period, and, at its option, may designate a comment period or may hold a public hearing. The 30-day waiting period for **CHANGES IN PROPOSED RULES** published in this issue of the *Utah State Bulletin* ends November 1, 2010.

Following the **RULE ANALYSIS**, the text of the **CHANGE IN PROPOSED RULE** is usually printed. The text shows only those changes made since the **PROPOSED RULE** was published in an earlier edition of the *Utah State Bulletin*. Additions made to the rule appear underlined (e.g., example). Deletions made to the rule appear struck out with brackets surrounding them (e.g., [~~example~~]). A row of dots in the text between paragraphs (.) indicates that unaffected text, either whole sections or subsections, was removed to conserve space. If a **CHANGE IN PROPOSED RULE** is too long to print, the Division of Administrative Rules will include only the **RULE ANALYSIS**. A copy of rules that are too long to print is available from the agency or from the Division of Administrative Rules.

From the end of the 30-day waiting period through January 29, 2011, an agency may notify the Division of Administrative Rules that it wants to make the **CHANGE IN PROPOSED RULE** effective. When an agency submits a **NOTICE OF EFFECTIVE DATE** for a **CHANGE IN PROPOSED RULE**, the **PROPOSED RULE** as amended by the **CHANGE IN PROPOSED RULE** becomes the effective rule. The agency sets the effective date. The date may be no fewer than 30 days nor more than 120 days after the publication date of the **CHANGE IN PROPOSED RULE**. If the agency designates a public comment period, the effective date may be no fewer than seven calendar days after the close of the public comment period nor more than 120 days after the publication date. Alternatively, the agency may file another **CHANGE IN PROPOSED RULE** in response to additional comments received. If the Division of Administrative Rules does not receive a **NOTICE OF EFFECTIVE DATE** or another **CHANGE IN PROPOSED RULE** by the end of the 120-day period after publication, the **CHANGE IN PROPOSED RULE** filing, along with its associated **PROPOSED RULE**, lapses and the agency must start the process over.

CHANGES IN PROPOSED RULES are governed by Section 63G-3-303; Rule R15-2; and Sections R15-4-3, R15-4-5, R15-4-7, and R15-4-9.

FIVE-YEAR NOTICES OF REVIEW AND STATEMENTS OF CONTINUATION

Within five years of an administrative rule's original enactment or last five-year review, the agency is required to review the rule. This review is intended to remove obsolete rules from the Utah Administrative Code. Upon reviewing a rule, an agency may: repeal the rule by filing a **PROPOSED RULE**; continue the rule as it is by filing a **NOTICE OF REVIEW AND STATEMENT OF CONTINUATION (NOTICE)**; or amend the rule by filing a **PROPOSED RULE** and by filing a **NOTICE**. By filing a Notice, the agency indicates that the rule is still necessary.

NOTICES are not followed by the rule text. The rule text that is being continued may be found in the most recent edition of the *Utah Administrative Code*. The rule text may also be inspected at the agency or the Division of Administrative Rules. **NOTICES** are effective upon filing.

CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE

OR REQUIRE THE RULE: Subsection 31A-2-201(3) allows the commissioner to make rules to implement the provisions of the insurance code. Section 31A-23a-402 authorizes the commissioner to define unfair or deceptive acts or practices in the business of insurance. The rule sets advertising guidelines to assure clear and truthful disclosure of the benefits, limitations, and exclusions of policies sold as insurance and sets procedures for enforcement by the department of this rule.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: The department has received no written comment regarding this rule in the past five years.

REASONED JUSTIFICATION FOR THE CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: This rule is necessary because licensees are still using misleading and deceptive information and advertising in the sale of insurance. Therefore, this rule should be continued.

CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE: Subsections 31A-2-404(2)(a)(ii) and (b) direct the Title and Escrow Commission to make rules pertaining to the licensing of a title licensee and require the concurrence of the Commission in the issuance and renewal of title licensee licenses.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: The department has not received any written comments regarding this rule in the past five years.

REASONED JUSTIFICATION FOR THE CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: The law requires that the Title and Escrow Commission concur with the commissioner in the issuance and renewal of title licenses. The rule sets the procedure to do this. This has been a useful process because it has opened a dialogue between the department and members of the title industry who know the players and if there are issues and concerns that should be addressed regarding licensure. Therefore, this rule should be continued.

NOTICE OF REVIEW AND STATEMENT OF CONTINUATION

CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE: Subsections 31A-2-404(2)(e) and (h) provide the process for conducting or delegating a title administrative hearing and imposing a penalty for a violation of statute or rule. The rule establishes procedures for the Title and Escrow Commission to delegate authority to the department's administrative law judge to conduct administrative hearings for title license applicants, licensees, or a title continuing education program, or to administer the hearing themselves. The rule also establishes procedures for the Commission and the department to concur with penalties imposed on a title licensee.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: The rule has been amended twice during the past five years. Changes were made in 2006. No hearing was held and no comments were received. In 2009, additional changes were made to the rule. No written comments were received.

REASONED JUSTIFICATION FOR THE CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: This rule clarifies the relationship between the Commission and the administrative law judge (ALJ). It sets forth the procedure for conducting a formal or informal hearing and imposing penalties, as well as how these matters are delegated by the Commission to the ALJ. The rule notes that the party not actually hearing the case has concurrence authority to accept or reject the recommended penalty imposed by the other party. Therefore, this rule should be continued.

CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE: Section 34A-1-104 gives the Labor Commission authority to establish rules to administer the Workers' Compensation Act. As part of the Workers' Compensation Act, Section 34A-2-205 establishes that every insurance carrier writing workers' compensation insurance coverage must notify the Commission of that coverage.

CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE: Section 35A-1-104 authorizes the Department of Workforce Services to adopt rules. Subsection 35A-1-104(4) authorizes the Department to establish eligibility standards for its programs. Section 35A-1-303 authorizes the Department to adopt rules governing adjudicative procedures. The Department has the authority to make rules to establish eligibility for Family Employment Program under Subsection 35A-3-302(5)(b). Subsection 35A-3-310(3) gives the Department the authority to determine eligibility for child care. This rule establishes eligibility and rights and responsibilities for clients and the Department in the administration of public assistance programs. The rules are necessary to establish how hearings will be conducted, when information can be released, residency and citizenship criteria, how to apply for assistance, how overpayments are established and collected, and a client's obligations while on public assistance.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: The Department has not received any comments during the last five-year period.

REASONED JUSTIFICATION FOR THE CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: The rule is essential to administer federal- and state-funded public assistance programs including food stamps, financial assistance, and child care assistance. Without these rules, neither the Department nor the client would know how to access assistance, how to appeal a

denial, when information can be released, what constitutes an overpayment and the sanctions for an overpayment and other eligibility criteria for public assistance programs. Therefore, this rule should be continued.

Subsection 35A-1-104(4) authorizes the Department to establish eligibility standards for its programs. Authority to make rules to establish eligibility for Family Employment Program (FEP) is found in Subsection 35A-3-302(5)(b). The FEP is authorized by the state legislature and funded primarily by the federal government. The Department is authorized to establish eligibility criteria and rules for the program.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: The Department has not received any written comments since the last five-year review.

REASONED JUSTIFICATION FOR THE CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: The rule is necessary to establish eligibility and rules for FEP and other Temporary Assistance for Needy Families (TANF)-funded programs. Without this rule, clients and the Department would not know when a client is eligible, how to determine the amount of the payment, and what a client must do to remain eligible. NOTICES OF RULE EFFECTIVE DATES

State law provides for agencies to make their rules effective and enforceable after publication in the Utah State Bulletin. In the case of Proposed Rules or Changes in Proposed Rules with a designated comment period, the law permits an agency to file a notice of effective date any time after the close of comment plus seven days. In the case of Changes in Proposed Rules with no designated comment period, the law permits an agency to file a notice of effective date on any date including or after the thirtieth day after the rule's publication date. If an agency fails to file a Notice of Effective Date within 120 days from the publication of a Proposed Rule or a related Change in Proposed Rule the rule lapses and the agency must start the rulemaking process over.

Notices of Effective Date are governed by Subsection 63G-3-301(12), 63G-3-303, and Sections R15-4-5a and 5b.

**RULES INDEX
BY AGENCY (CODE NUMBER)
AND
BY KEYWORD (SUBJECT)**

The Rules Index is a cumulative index that reflects all effective changes to Utah's administrative rules. The current Index lists changes made effective from January 2, 2010 through September 15, 2010. The Rules Index is published in the Utah State Bulletin and in the annual Utah Administrative Rules Index of Changes. Nonsubstantive changes, while not published in the Bulletin, do become part of the Utah Administrative Code (Code) and are included in this Index, as well as 120-Day (Emergency) rules that do not become part of the Code. The rules are indexed by Agency (Code Number) and Keyword (Subject).

Questions regarding the index and the information it contains should be addressed to Nancy Lancaster (801-538-3218), Mike Broschinsky (801-538-3003), or Kenneth A. Hansen (801-538-3777).

A copy of the Rules Index is available for public inspection at the Division of Administrative Rules (4120 State Office Building, Salt Lake City, UT), or may be viewed online at the Division's web site (<http://www.rules.utah.gov/>).
