NOTICES OF
PROPOSED RULES

A state agency may file a PROPOSED RULE when it determines the need for a substantive change to an existing rule. With a Notice of Proposed Rule, an agency may create a new rule, amend an existing rule, repeal an existing rule, or repeal an existing rule and reenact a new rule. Filings received between March 03, 2015, 12:00 a.m., and March 16, 2015, 11:59 p.m., are included in this, the April 01, 2015, issue of the Utah State Bulletin.

In this publication, each PROPOSED RULE is preceded by a Rule Analysis. This analysis provides summary information about the PROPOSED RULE including the name of a contact person, anticipated cost impact of the rule, and legal cross-references.

Following the Rule Analysis, the text of the PROPOSED RULE is usually printed. New rules or additions made to existing rules are underlined (example). Deletions made to existing rules are struck out with brackets surrounding them ([example]). Rules being repealed are completely struck out. A row of dots in the text between paragraphs (.........) indicates that unaffected text from within a section was removed to conserve space. Unaffected sections are not usually printed. If a PROPOSED RULE is too long to print, the Division of Administrative Rules may include only the Rule Analysis. A copy of each rule that is too long to print is available from the filing agency or from the Division of Administrative Rules.

The law requires that an agency accept public comment on PROPOSED RULES published in this issue of the Utah State Bulletin until at least May 1, 2015. The agency may accept comment beyond this date and will indicate the last day the agency will accept comment in the Rule Analysis. The agency may also hold public hearings. Additionally, citizens or organizations may request the agency hold a hearing on a specific PROPOSED RULE. Section 63G-3-302 requires that a hearing request be received by the agency proposing the rule "in writing not more than 15 days after the publication date of the proposed rule."

From the end of the public comment period through July 30, 2015, the agency may notify the Division of Administrative Rules that it wants to make the PROPOSED RULE effective. The agency sets the effective date. The date may be no fewer than seven calendar days after the close of the public comment period nor more than 120 days after the publication date of this issue of the Utah State Bulletin. Alternatively, the agency may file a Change in Proposed Rule in response to comments received. If the Division of Administrative Rules does not receive a Notice of Effective Date of a Change in Proposed Rule, the Proposed Rule lapses.

The public, interest groups, and governmental agencies are invited to review and comment on PROPOSED RULES. Comment may be directed to the contact person identified on the Rule Analysis for each rule.

PROPOSED RULES are governed by Section 63G-3-301, Rule R15-2, and Sections R15-4-3, R15-4-4, R15-4-5a, R15-4-9, and R15-4-10.

Standards for Out-of-State Programs Providing Certified Nurse Midwife Clinical Experiences in Utah

NOTICE OF PROPOSED RULE
(Amendment)
DAR FILE NO.: 39176
FILED: 03/10/2015

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The Division and Certified Nurse Midwife Board reviewed the rule and determined this new section needs to be added. With the proliferation of online and distance education programs for nurse midwifery, Utah residents may be completing a program of study via distance education. In most situations, distance education students are expected to complete their clinical practicum near where they reside. The Certified Nurse Midwife Board is seeking the addition of this rule based on its interpretation of Subsection 58-1-307(1)(b) and (c). The Board seeks to establish, through rule, the minimum standards which would be required for Division approval of the educational program.

SUMMARY OF THE RULE OR CHANGE: Section R156-44a-609 is being added to require out-of-state nurse midwifery programs, seeking clinical placements in Utah, to present satisfactory documentation to the Board that the educational program meets minimum expectations for program quality.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 58-44a-101 and Subsection 58-1-106(1)(a) and Subsection 58-1-202(1)(a)

ANTICIPATED COST OR SAVINGS TO:
♦ THE STATE BUDGET: The implementation of this rule may increase the frequency with which the Certified Nurse Midwifery Board meets. Although it is difficult to estimate the number of programs that will request Board review, it is possible that the Board may need to meet more frequently than it has in the past. An increased frequency of Board meetings would result in an increase in expenditures for Board member per diems and stipends. Historically, expenditures for this Board are approximately $300 per meeting. It is anticipated that even with the implementation of this rule, the Board would not need to meet more than quarterly. The Division anticipates any increased costs incurred will be absorbed in the Division's current budget.
♦ LOCAL GOVERNMENTS: The proposed amendment applies only to out-of-state programs providing certified nurse midwife clinical experiences in Utah. As a result, the proposed amendment does not apply to local governments.
♦ SMALL BUSINESSES: The proposed amendment applies only to out-of-state programs providing certified nurse midwife clinical experiences in Utah. As a result, the Division has determined that the proposed amendment does not apply to small businesses.
♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: The proposed amendment applies only to out-of-state programs providing certified nurse midwife clinical experiences in Utah. As a result, the Division has determined that the proposed amendment does not apply to other persons.

COMPLIANCE COSTS FOR AFFECTED PERSONS: The proposed amendment applies only to out-of-state programs providing certified nurse midwife clinical experiences in Utah. It is difficult for the Division to estimate the costs for affected persons; it could vary greatly by the organizational structure and business practices of the program. Out-of-state nurse midwifery programs will present written documentation to the Certified Nurse Midwife Board for review. This written documentation can be submitted electronically or through the U.S. Postal Service. Meetings with the Board will be completed via telephone. The affected programs will incur the expenses associated with compiling the report, sending the report, and the time associated with the telephonic meeting.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: This proposed rule requires a business that provides nurse midwifery training to obtain approval from the Utah Certified Nurse Midwife Board before placing students with Utah facilities for clinical practicum. To comply, such businesses must provide information to the Board and appear at a live or telephonic meeting with the Board. Compiling, copying and mailing the required paperwork might result in a small fiscal impact to some businesses. Any impact will vary and cannot be estimated.

(1) In order to qualify for the exemption set forth in Subsection 58-1-304(1)(b), approval of a nurse midwifery education program located in another state that uses Utah health care facilities for clinical experiences with certified nurse midwives for one or more students shall, prior to placing a student, submit a request for approval in writing to the Certified Nurse Midwife Board and demonstrate to the satisfaction of the Board that the program:

(a) has been approved, if required, by the regulatory body responsible for certified nurse midwives in the program's home state;

(b) holds current accreditation from the Accreditation Commission for Midwifery Education (ACME);

(c) has clinical faculty who are employed by the nurse midwifery education program;

(d) is affiliated with an institution of higher education; and

(e) has established criteria for selection and supervision of:

(i) onsite preceptors; and

(ii) the clinical activities.

R156-70a-302. Qualification for Licensure - Examination Requirements

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The Division and Physician Assistant Licensing Board reviewed the rule and determined the following change needs to be made to delete the examination requirement of the Utah Physician Assistant Law and Rules Examination. The Division is transitioning to an online application process resulting in the need for any type of examination to be administered by an outside testing agency. Instead of requiring physician assistant applicants to take another test, physician assistants will sign an affidavit attesting to reading all applicable laws and rules.

SUMMARY OF THE RULE OR CHANGE: The proposed amendments delete the Utah Physician Assistant Law and Rules examination as a qualification for licensure.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 58-70a-101 and Subsection 58-1-106(1)(a) and Subsection 58-1-202(1)(a)

ANTICIPATED COST OR SAVINGS TO:
♦ THE STATE BUDGET: The Division will incur minimal costs of approximately $50 to print and distribute the rule once the proposed amendments are made effective. Any costs incurred will be absorbed in the Division's current budget.
♦ LOCAL GOVERNMENTS: The proposed amendments apply only to applicants for licensure as a physician assistant. As a result, the proposed amendments do not apply to local governments.
♦ SMALL BUSINESSES: The proposed amendments apply only to applicants for licensure as a physician assistant. Applicants for licensure might work in a small business; however, the proposed amendments would not directly affect the business.
♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: The proposed amendments apply only to applicants for licensure as a physician assistant. The Division anticipates the proposed amendment will not result in additional encumbrances for any party beyond what is currently identified by statute and rule.

COMPLIANCE COSTS FOR AFFECTED PERSONS: The proposed amendments apply only to applicants for licensure as a physician assistant. The proposed amendment will not result in any increase of costs for those affected. Applicants will save approximately $75 by not having to pay for a law and rule examination from a third party test provider.
NOTICES OF PROPOSED RULES

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The purpose of this amendment is to protect the confidentiality of parties to a real estate transaction by limiting the sale or release of the final sale price and derivative works by a licensee.

SUMMARY OF THE RULE OR CHANGE: A licensee is required to obtain written permission from both buyer and seller before selling the final sale price or any derivative works unless such activity is included as part of a licensed activity. A licensee may not otherwise release the final sale price or derivative works unless allowed for by contract.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Subsection 61-2f-103(1)(a) and Subsection 61-2f-401(14)

ANTICIPATED COST OR SAVINGS TO:
♦ THE STATE BUDGET: The division has the staff and budget in place to administer this provision. It is not anticipated that the proposed amendment will affect those resources or result in any additional cost or savings to the state budget.
♦ LOCAL GOVERNMENTS: Local governments are not required to comply with or enforce the real estate licensing and practices rules. No fiscal impact to local government is expected from the proposed amendment.
♦ SMALL BUSINESSES: The proposed amendment would restrict licensees who operate businesses from selling sales data to small businesses. It is unlikely that licensees currently sell sales data except incidentally except as to activities that are a part of a licensed activity, such as for broker price opinions. The proposed rule amendment is not intended to restrict the selling of broker price opinions. However, to the extent a licensee would want to sell sales data other than for broker price opinions, selling this data would require written permission from both buyer and seller, potentially limiting such activity.
♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: The proposed amendment would restrict licensees from selling sales data to third parties. It is unlikely that licensees

However, to the extent a licensee would want to sell sales data other than for broker price opinions, selling this data would require written permission from both buyer and seller, potentially limiting such activity.

COMPLIANCE COSTS FOR AFFECTED PERSONS: There are no anticipated out-of-pocket costs to licensees to comply with the proposed amendment. The proposed amendment would restrict licensees from selling sales data without obtaining written permission from the parties to the transaction. It is unlikely that licensees currently sell sales data except incidentally as to activities that are a part of a licensed activity, such as for broker price opinions. The proposed rule amendment is not intended to restrict the selling of broker price opinions. COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: This filing restricts a real estate licensee from disseminating sales data from a real estate transaction must first obtain written permission from both buyer and seller, potentially limiting such activity.

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: On 10/01/2014, the Air Quality Board proposed adding new sections IX.H.21 and 22, Control Measures for Area and Point Sources, Emission Limits and Operating Practices, Regional Haze Requirements, to the state implementation plan (SIP). The amendments to the SIP were proposed because on 12/14/2012, the EPA approved the majority of Utah’s Regional Haze SIP (RH SIP), but disapproved Utah’s Best Available Retrofit Technology (BART) determinations for NOx and particulate matter (PM) for PacifiCorp’s Hunter Unit 1, Hunter Unit 2, Huntington Unit 1, and Huntington Unit 2 that were adopted by the Air Quality Board in 2008. Specifically, EPA determined that the approval orders and operating permits for PacifiCorp’s Hunter and Huntington plants were not practicably enforceable. A public comment period for the proposed SIP amendments was held from 11/01/2014 through 12/22/2014, and a number of public comments were received. After reviewing the comments and consulting with EPA, Division of Air Quality staff determined that an alternative to BART approach that considers the additional emission reductions due to the expected closure of the PacifiCorp Carbon plant and controls installed on PacifiCorp Hunter Unit 3 in 2008 would both be approvable by EPA and also provide greater reasonable progress towards improved visibility at Utah’s Class I areas. Because Section R307-110-17 is the section that incorporates by reference the latest version of SIP Section IX, Part H (the SIP section that establishes enforceable emission limits), the rule needs to be amended as well.
SUMMARY OF THE RULE OR CHANGE: Two new sections are added to Part H of the SIP to include enforceable conditions and emission limitations for the alternative to BART for PacifiCorp Hunter Unit 1, PacifiCorp Hunter Unit 2, PacifiCorp Huntington Unit 1, PacifiCorp Huntington Unit 2, and the PacifiCorp Carbon plants.

♦ Updates State Implementation Plan, Section IX, Control Measures for Area and Point Sources, Part H, Emissions Limits, published by State of Utah, Division of Air Quality, 06/03/2015

ANTICIPATED COST OR SAVINGS TO:
♦ THE STATE BUDGET: The emission limits in Part H are already enforceable under approval orders; therefore, there are no anticipated costs or savings to the state budget.
♦ LOCAL GOVERNMENTS: The new sections of Part H only apply to PacifiCorp plants; therefore, there are no anticipated costs or savings to local governments.
♦ SMALL BUSINESSES: The new sections of Part H only apply to PacifiCorp plants; therefore, there are no anticipated costs or savings to small businesses.
♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: The new sections of Part H only apply to PacifiCorp plants; therefore, there are no anticipated costs or savings to persons other than small businesses, businesses, or local government entities.

COMPLIANCE COSTS FOR AFFECTED PERSONS: The enforceable conditions and emission limitations for the alternative to BART for PacifiCorp Hunter Unit 1, PacifiCorp Hunter Unit 2, PacifiCorp Huntington Unit 1, and PacifiCorp Huntington Unit 2 should not result in any additional compliance costs as the limits are already established in PacifiCorp's approval orders and operating permits. Likewise, the requirement to close the PacifiCorp Carbon plant should not result in any additional compliance costs as PacifiCorp has already announced the closure of that plant.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: The enforceable conditions and emission limitations for the alternative to BART for PacifiCorp Hunter Unit 1, PacifiCorp Hunter Unit 2, PacifiCorp Huntington Unit 1, and PacifiCorp Huntington Unit 2 should not have a fiscal impact on businesses as the limits are already established in PacifiCorp's approval orders and operating permits. Likewise, the requirement to close the PacifiCorp Carbon plant should not have a fiscal impact on businesses as PacifiCorp has already announced the closure of that plant.

NOx and PM. The amendments to the SIP were proposed because on 12/14/2012, the EPA approved the majority of Utah's Regional Haze SIP (RH SIP), but disapproved Utah's Best Available Retrofit Technology (BART) determinations for NOx and particulate matter (PM) for PacifiCorp's Hunter Unit 1, Hunter Unit 2, Huntington Unit 1, and Huntington Unit 2 that were adopted by the Air Quality Board in 2008. Specifically, EPA determined that the SIP did not contain a five-factor analysis as required by the rule. Therefore, the proposed amendment to the SIP included a five-factor analysis. A public comment period for the proposed SIP amendments was held from 11/01/2014 through 12/22/2014, and a number of public comments were received. After reviewing the comments and consulting with EPA, Division of Air Quality staff determined that an alternative to BART approach that considers the additional emission reductions due to the expected closure of the PacifiCorp Carbon plant and controls installed on PacifiCorp Hunter Unit 3 in 2008 would both provide greater reasonable progress towards improved visibility at Utah's Class I areas and be approvable by EPA. This alternative to BART approach was proposed for public comment by the Air Quality Board and is available for public review at http://www.airquality.utah.gov/Public-Interest/Public-Commem-Hearings/Pubrule.htm. Because Section R307-110-28 incorporates by reference the latest version of Utah's regional haze SIP Section XX adopted by the Air Quality Board, the rule needs to be amended as well. The public review and comment period for proposed SIP amendments, the technical support documentation, and the proposed amendment to Section R307-110-28 will run simultaneously.

SUMMARY OF THE RULE OR CHANGE: The rule is changed to incorporate the version of the regional haze SIP as adopted by the Air Quality Board on 06/03/2015. The SIP is amended to explicitly identify an alternative to BART for NOx that keeps in place the current NOx emission limits for PacifiCorp Hunter 1 and 2 and PacifiCorp Huntington 1 and 2 that are more stringent than EPA's presumptive BART limits; takes credit for installation of low-NOx burners at PacifiCorp Hunter Unit 3 in 2008; and makes enforceable the expected closure of PacifiCorp Carbon 1 and 2.

ANTICIPATED COST OR SAVINGS TO:
♦ THE STATE BUDGET: There are no changes in the SIP or the rule that affect the state; therefore, there are no anticipated costs or savings to the state budget.

♦ LOCAL GOVERNMENTS: There are no changes to the SIP or the rule that affect local governments; therefore, there are no anticipated costs or savings.
♦ SMALL BUSINESSES: The changes made to the SIP address an alternative to BART for PacifiCorp. Because PacifiCorp employs more than 50 persons, there are no anticipated costs or savings to small businesses.
♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: Because the changes made to the SIP only affect PacifiCorp, there are no anticipated costs or savings to persons other than small businesses, businesses, or local government entities.

COMPLIANCE COSTS FOR AFFECTED PERSONS: The conditions and emission limitations for the alternative to BART for the PacifiCorp Hunter and Huntington plants should not result in additional compliance costs as the limits are already established in PacifiCorp's approval orders and operating permits. Likewise, the requirement to close the PacifiCorp Carbon plant should not result in additional compliance costs as PacifiCorp has already announced the closure of that plant.

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This rule incorporates the majority of 40 Code of Federal Regulations (CFR) Part 60 into the Utah Air Quality Rules. Since 07/01/2011, 40 CFR Part 60 has undergone many substantive changes that have not been incorporated into the state rules; therefore, Rule R307-210 needs to be amended to incorporate the changes published as of 07/01/2014. The federal rules already apply to the sources; incorporating them into the state rule allows the Division of Air Quality to enforce the standards.

SUMMARY OF THE RULE OR CHANGE: Amendments in the federal New Source Performance Standards have been made in 40 CFR Part 60 since Utah last incorporated the standards by reference into Rule R307-210. This rulemaking incorporates the revised federal standards through 07/01/2014. The following amendments to 40 CFR Part 60 are what is being incorporated into Rule R307-210. On 01/18/2012, the Environmental Protection Agency (EPA) amended 40 CFR Part 60, Appendix A to incorporate the most recent versions of ASTM International (ASTM) standards into EPA regulations that provide flexibility to use alternatives to mercury-containing industrial thermometers. This final rule allows the use of alternatives in field and laboratory applications previously impermissible as part of compliance with EPA regulations. The older embedded ASTM standards unnecessarily impede the use of effective, comparable, and available alternatives to mercury-containing industrial thermometers. On 02/16/2012, the EPA amended 40 CFR Part 60, Subpart A, B, D, Da, Db, and Dc to revise standards of performance in response to a voluntary remand of a final rule. Specifically, they amended new source performance standards (NSPS) after analysis of the public comments. The EPA also finalized several minor amendments, technical clarifications, and corrections to existing NSPS provisions for fossil fuel-fired EGU's and large and small industrial-commercial-institutional steam generating units. On 04/19/2012, EPA amended 40 CFR Part 60, Subpart Da to correct certain preambles and regulatory text. This action corrected typographical errors, such as cross-reference errors and certain preambles that were inconsistent with the final regulatory text, which published in the Federal Register on Thursday, 02/16/2012. On 07/30/2012, EPA amended 40 CFR Part 60, Appendix A to promulgate Method 16C for measuring total reduced sulfur (TRS) emissions from stationary sources. Method 16C offers the advantages of real-time data collection and uses procedures that are already in use for measuring other pollutants. Method 16C will be a testing option that is used at the discretion of the tester. On 07/14/2012, EPA amended 40 CFR Part 60, Subpart A, Ga, New source performance standards (NSPS) for nitric acid plants. Nitric acid plants include one or more nitric acid production units (NAPUs). These revisions include a change to the nitrogen oxides (NOX) emission limit, which applies to each NAPU commencing construction, modification, or reconstruction after 10/14/2011. These revisions also include additional testing and monitoring requirements. On 08/16/2012, the EPA amended 40 CFR Part 60, Subparts KKK, LLL, OOOO to finalize the review of new source performance standards for certain oil and natural gas source sources. In this action, the EPA revised the new source performance standards for volatile organic compounds from leaking components at onshore natural gas processing plants and new source performance standards for sulfur dioxide emissions from natural gas processing plants. The rule also establishes standards for certain oil and gas operations not covered by the existing standards. In addition to the operations covered by the existing standards, the newly established standards will regulate volatile organic compound emissions from gas wells, centrifugal compressors, reciprocating compressors, pneumatic controllers, and storage vessels. This action also finalizes the residual risk and technology review for the Oil and Natural Gas Production source category and the Natural Gas Transmission and Storage source category. This action also included revisions to the existing leak detection and repair requirements. This action finalized revisions to the regulatory provisions related to emissions during periods of startup, shutdown, and malfunction. This final rule became effective on 10/15/2012. On 09/12/2012, the EPA amended 40 CFR Part 60, Subpart A, J, Ja to finalize amendments to Standards of Performance for Petroleum Refineries and new standards of performance for petroleum refinery process units constructed, reconstructed or modified after 05/14/2007. On 01/30/2013, EPA amended Subpart A, IIII, JJJ to amend the national emission standards for hazardous air pollutants for stationary reciprocating internal combustion engines. The final amendments included alternative testing options for certain large spark ignition (generally natural gas-fueled) stationary reciprocating internal combustion engines,
management practices for a subset of existing spark ignition stationary reciprocating internal combustion engines in sparsely populated areas and alternative monitoring and compliance options for the same engines in populated areas. The EPA established management practices for existing compression ignition engines on offshore vessels. The EPA also finalized limits on the hours that stationary emergency engines may be used for emergency demand response and establishing fuel and reporting requirements for certain emergency engines used for emergency demand response. The final amendments also corrected minor technical or editing errors in the current regulations for stationary reciprocating internal combustion engines. On 02/07/2013, EPA amended Subpart CCCC and DDDD to implement the final decision on the issues for which EPA granted reconsideration in December 2011, which pertain to certain aspects of the 03/21/2011, final rule titled "Standards of Performance for New Stationary Sources and Emissions Guidelines for Existing Sources: Commercial and Industrial Solid Waste Incineration Units" (CISWI rule). This final action established effective dates for the standards and makes technical corrections to the final rule to clarify definitions, references, applicability and compliance issues. The purpose of these amendments was to clarify several provisions in order to implement the non-hazardous secondary materials rule as the agency originally intended. On 02/12/2013, EPA amended Subpart F, the new source performance standard for particulate matter for the Portland cement industry. These amendments promoted flexibility, reduced costs, eased compliance, and preserve health benefits. The EPA set the date for compliance with the existing source national emission standards for hazardous air pollutants to be 09/09/2015. On 03/03/2013, EPA amended Subpart A, III, and JJJJ by making changes to Table 2c of Subpart ZZZZ. On 04/24/2013, EPA amended Subpart Da by taking final action on its reconsideration of certain issues in the final MATS NESHAP issued pursuant to CAA section 112, and the New Source Performance Standards rule issued pursuant to CAA section 111 which is referred to as the Utility NSPS. The Administrator received petitions for reconsideration of certain aspects of the MATS NESHAP and the Utility NSPS. On 11/30/2012, the EPA granted reconsideration of, proposed, and requested comment on a limited set of issues. In this rulemaking, EPA took final action on the revised new source numerical standards in the MATS NESHAP and the definitional and monitoring provisions in the Utility NSPS that were addressed in the proposed reconsideration rule. As part of this action, the EPA made certain technical corrections to both the MATS NESHAP and the Utility NSPS. On 05/13/2013, EPA amended Subpart Ec by finalizing amendments to the federal plan and the new source performance standards for hospital/medical/infectious waste incinerators. These final actions implemented national standards promulgated in the 2009 amendments to the hospital/medical/infectious waste incinerator emissions guidelines that result in reductions in emissions of certain pollutants from all affected units. This rule became effective 06/12/2013. On 07/07/2013, EPA amended Subpart CCCC by setting forth the EPA's final decision on the issues for which it granted reconsideration in December 2011, which pertain to certain aspects of the 03/21/2011, final rule titled "Standards of Performance for New Stationary Sources and Emissions Guidelines for Existing Sources: Commercial and Industrial Solid Waste Incineration Units" (CISWI rule). This action also included the final decision to deny the requests for reconsideration with respect to all issues raised in the petitions for reconsideration of the final commercial and industrial solid waste incineration rule for which reconsideration was not granted. Among other things, this final action established effective dates for the standards and makes technical corrections to the final rule to clarify definitions, references, applicability and compliance issues. In addition, the EPA issued final amendments to the regulations that were codified by the Non-Hazardous Secondary Materials rule (NHSM rule). The purpose of these amendments was to clarify several provisions in order to implement the non-hazardous secondary materials rule as the agency originally intended. This subpart took effect on 08/07/2013. On 09/23/2013, the EPA amended Subpart OOOO to finalize the amendments to new source performance standards for the oil and natural gas sector. The administrator received petitions for reconsideration of certain aspects of the 08/12/2012, final standards. These amendments are a result of reconsideration of certain issues raised by petitioners related to implementation of storage vessel provisions. The final amendments provide clarity of notification and compliance dates, ensure control of all storage vessel affected facilities and update key definitions. This action also corrected technical errors that were inadvertently included in the final standards. This final rule was effective on 09/23/2013. On 12/19/2013, EPA amended Subpart Ja by taking direct final action to amend the Standards of Performance for Petroleum Refineries for Which Construction, Reconstruction, or Modification Commenced after 05/14/2007. This direct final rule amended the definition of "delayed coking unit" by removing process piping and associated equipment (pumps, valves, and connectors) from the definition. This final rule also removed a redundant definition of "delayed coking unit" from the rule text. On 02/27/2014, EPA amended Subparts and Appendices of Part 60 by promulgating technical and editorial corrections for source testing of emissions and operations. Some current testing provisions contained inaccuracies and outdated procedures, and new alternatives were added. The revisions improved the quality of data and gave testers additional flexibility to use the newly approved alternative procedures. This rule became effective on 02/27/2014. On 04/04/2014, EPA amended Subparts A, and BBa by finalizing revisions to the new source performance standards for kraft pulp mills. These revised standards included particulate matter emission limits for recovery furnaces; smelt dissolving tanks and lime kilns, and opacity limits for recovery furnaces and lime kilns equipped with electrostatic precipitators. These revised standards apply to emission units commencing construction, reconstruction or modification after 05/23/2013. This final rule removed the General Provisions exemption for periods of startup, shutdown, and malfunction resulting in a standard that applies at all times. This final rule also included
additional testing requirements and updated monitoring, recordkeeping, and reporting requirements for affected sources, including electronic reporting of performance test data. These revisions to the testing, monitoring, recordkeeping, and reporting requirements are expected to ensure that control systems are properly maintained over time, ensure continuous compliance with standards and improve data accessibility for the EPA, states, tribal governments and communities. This final action was effective on 04/04/2014. On 05/06/2014, EPA amended Subpart A, Ga by making a change to a calculation. On 05/16/2014, EPA amended Appendix F to promulgate quality assurance and quality control (QA/QC) procedures (referred to as Procedure 3) for continuous opacity monitoring systems (COMS) used to demonstrate continuous compliance with opacity standards specified in new source performance standards (NSPS) issued by the EPA pursuant to section 111(b).

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE:
Rule R307-214 must be updated periodically to reflect changes to the NESHAPs as published in Title 40 of the Code of Federal Regulations (40 CFR), Parts 61 and 63. This action incorporates by reference into Rule R307-214 the 07/01/2014 version of 40 CFR, Parts 61 and 63.

SUMMARY OF THE RULE OR CHANGE:
Section R307-214-1 is amended by changing the version of 40 CFR Part 61 that is incorporated by reference into the rule to the 07/01/2014 version. Rule R307-214-2 is amended by changing the version of 40 CFR Part 63 that is incorporated by reference into the rule to the 07/01/2014 version. From 07/01/2013 to 07/01/2014, EPA finalized relatively few actions that made changes in 40 CFR Parts 61 and 63 that affect Rule R307-214. Those actions include revising test methods and testing regulations; amending national emission standards for hazardous air pollutants from secondary lead smelting; and amending national emission standards for hazardous air pollutant emissions from group IV polymers and resins, pesticide active ingredient production, and polyether polyols production.

R386. Health, Disease Control and Prevention, Epidemiology.  
R386-703. Injury Reporting Rule.  
R386-703-1. Purpose Statement.  
(1) The Injury Reporting Rule is adopted under authority of Sections 26-1-30 and 26-6-3.  
(2) The Injury Reporting Rule establishes an injury surveillance and reporting system for major injuries occurring in Utah. Injuries constitute a leading cause of death and disability in Utah and, therefore, pose an important risk to public health.

Summary of the rule or change: The rule has been amended to include the reporting of all blood lead test results. Currently, only results \( \geq 10 \) micrograms/dL are reportable. The Centers for Disease Control and Prevention has lowered their level of concern, for blood lead levels in children, to include blood lead results from \( 5.0-9.9 \) micrograms/dL. Laboratories currently reporting to Utah, provide all blood lead test results from children and adults, except one laboratory, only reports \( \geq 10 \) micrograms/dL as per the Injury Reporting Rule. This amendment will assist to gather the additional data from this laboratory and others in the future and provide the continued support needed, to those laboratories currently reporting all blood lead test results. Acquiring these additional blood lead results from laboratories will further enhance the surveillance and epidemiological efforts in Utah.

Statutory or constitutional authorization for this rule: Section 26-1-30 and Section 26-6-3

Anticipated cost or savings to:  
† THE STATE BUDGET: There are no anticipated costs or savings at the state level. Any costs will come out of existing budgets. The Environmental Epidemiology Program (EEP) reviewed the work requirements associated with the reporting of blood lead levels and determined there would be no change in the work efforts for EEP, the Utah Department of Health, or any of our partner agencies. The reporting is automated.

† LOCAL GOVERNMENTS: There will be no anticipated costs or savings to local government adding this language to the rule. The EEP reviewed the work requirements associated with the reporting of blood lead levels and determined there would be no change in the work efforts for local health departments or other local governments.

† SMALL BUSINESSES: As stated above, all laboratories currently reporting to the Utah Department of Health, report all blood lead test results except for one, the Laboratory Corporation of America (LabCorp). LabCorp may have anticipated costs or savings by adding this language to the rule. The cost would be associated with any programming changes needed to their report generation system to include all the tests that are reportable under the proposed change.

♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: None—The EEP reviewed the list of stakeholders and partners and determined there would be no change in the work efforts for partners and stakeholders that are not laboratories.

Compliance costs for affected persons: There will be no anticipated costs or savings to affected persons as a result of adding this language to this rule. Although, laboratories, one (LabCorp) in specific, will need to change their reporting criteria, in their reporting system. This will require a variable value change in their automated report generating information system. The EEP reviewed the work effort resulting from laboratory reporting for all stakeholders and partners and determined no change in the work effort would result from the proposed language change.

ANTICIPATED COST OR SAVINGS TO:
♦ THE STATE BUDGET: The amendment makes necessary classification changes to allow for the controlled take of prairie dogs under a new rule. DWR determines that these amendments will not create any cost or savings impact to the state budget or DWR's budget, since the changes will not increase workload and can be carried out with existing budget.
♦ LOCAL GOVERNMENTS: None—This filing does not create any direct cost or savings impact to local governments because they are not directly affected by the rule. Nor are local governments indirectly impacted because the rule does not create a situation requiring services from local governments.
♦ SMALL BUSINESSES: These amendments make the necessary classification changes to allow for the controlled take of prairie dogs under a separate rule. Therefore, this rule does not impose any additional financial requirements on small businesses, nor generate a cost or saving impact to small businesses.
♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: These amendments make the necessary classification changes to allow for the controlled take of prairie dogs under a separate rule. Therefore, this rule does not impose any additional financial requirements on persons, nor generate a cost or saving impact to other persons.

COMPLIANCE COSTS FOR AFFECTED PERSONS: The amendments are for clarification and to establish a separate rule for the criteria for the controlled take of prairie dogs. DWR determines that there are no additional compliance costs associated with this amendment.

NOTICES OF PROPOSED RULES

(d) A certificate of registration is not transferrable and must be signed by the holder prior to use.

(4) Prairie dogs allowed by the landowner or lessee to be trapped on the property and relocated by the division between July 1 and October 1 - before lethal take - will not count against the range-wide prairie dog limit in R657-70-9 or the property's maximum take limit identified on the certificate of registration.

(5)(a) A landowner or lessee that obtains a certificate of registration to take prairie dogs on agriculture land and thereafter agrees with the division to allow trapping and relocation efforts on the property before lethally taking prairie dogs, may receive compensation for the damage caused by prairie dogs during the trapping period:

(i) Participation in the damage compensation program is voluntary on the part of the landowner or lessee and discretionary on the part of the division.

(ii) Only properties with a spring count of 50 or more prairie dogs are eligible for participation in the program.

(iii) Compensation will be based on the number of prairie dogs on the property and the associated damage estimate between juvenile emergence and September 30.

(b)(i) A landowner or lessee must apply to participate in the damage compensation program by submitting a written registration to the division that includes:

(A) the applicant's full name, mailing address; and phone number;

(B) the township, range, section, 1/4 section and parcel number of the agricultural land where the prairie dogs will be trapped;

(iii) Applications for damage compensation will be evaluated by the division and granted based on the:

(A) availability of compensation funding;

(B) number and density of prairie dogs that the division determines are present on the property;

(C) ease and efficiency by which prairie dogs can be trapped and relocated;

(D) availability of release sites;

(E) availability of division personnel and funding to trap and relocate; and

(F) degree of expected damage during the trapping period.

(iv) Nothing herein shall be construed as guaranteeing that an application to participate in the damage compensation program will be granted or that all persons desiring to participate in the program will have the opportunity to do so.

(c) Compensation for prairie dog damage will be based on the following criteria, regardless of the crop involved:

(i) the estimated number of prairie dogs on the property where trapping will occur;

(A) the division will estimate prairie dog numbers by counting visible prairie dogs on the property in the spring, doubling that number to account for adults below ground, and multiplying the result by 2.6 to account for juvenile production.

(ii) each adult prairie dog consuming 0.75 pounds of alfalfa a day and each juvenile 0.375 pounds a day;

(iii) adult prairie dogs causing damage five months per year and juveniles four months per year;

(iv) the market price of alfalfa at the time the contract referenced in Subsection (d) is executed; and

(v) an additional 10% for damage to farming equipment and fences.

(d) The division will enter into a written contract with successful applicants possessing eligible property and a certificate of registration to take prairie dogs on their agriculture land that:

(ii) identifies the monetary compensation the landowner or lessee will receive from the division for prairie dog damage incurred during the period of suspension.

(e) All prairie dogs trapped and relocated under a compensation agreement will count against the range-wide prairie dog limit in R657-70-9 and the property's maximum take limit identified on the certificate of registration.

(f) Once trapping is completed, the division will deduct the number of trapped prairie dogs from the certificate of registration's original take limit and notify the landowner or lessee:

(i) of the adjusted take limit; and

(ii) that removing prairie dogs from the property pursuant to the terms of the adjusted certificate of registration is permitted.

(6) The division may issue a certificate of registration authorizing a landowner or lessee to take prairie dogs dispersing from the property targeted for trapping under Subsections (4) or (5) to other areas of the property or adjacent properties that do not have a preexisting colony.

Date of Enactment or Last Substantive Amendment: [November 7, 2013 2015]
Authorizing, and Implemented or Interpreted Law: 53A-6-306(1)(a)
Anyone parking a vehicle on campus must purchase a parking permit from Commuter Services and register the vehicle(s) license plate(s) to the permit purchased, or park the vehicle in a metered area or pay for it and pay the appropriate fee. Payment for the use of campus meters or pay areas is required whether or not the vehicle is associated to a current valid University of Utah parking permit. If a physical permit is distributed, it must be displayed and clearly visible from the front windshield.

R810-1-3. Parking Areas.

Parking is permitted only in designated areas and only in accordance with all posted signs. Vehicles must be parked properly within marked stalls. Tickets are issued to vehicles parked contrary to posted signs.

Parking is prohibited 24 hours daily at red curbs, [areas] bus zones, crosswalks, driveways, sidewalks, on the wrong side of the street, and in front of fire hydrants and dumpsters, and designated areas such as disabled and reserved areas. Parking is also prohibited in and on unmarked roadways and other unmarked areas.

R810-1-5. Vehicle Operator Responsibilities.

Parking area designations are subject to change, and it is the motorist's responsibility to be cognizant of such changes. The responsibility for finding an authorized parking space rests with the motor vehicle operator.

A vehicle must be parked in a valid parking stall so that the vehicle's license plate is clearly visible from the roadway from which the vehicle pulled into the stall. It is the motorist's responsibility to assure that the vehicle's license plate is visible and clear of debris.

University owned vans, trucks, and SUVs involved in maintenance must be parked in maintenance stalls or on the street and in front of fire hydrants and dumpsters, and designated areas such as disabled and reserved areas. University owned vehicles may park in U or E permitted stalls but are prohibited from parking in No Parking, Tow Away, or Disabled areas, or metered loading zones. University owned vehicles parking at non-loading zone meters are limited to the maximum time listed on the meter. Pay by phone limitation is two hours; visitor pay lot limitation is one hour and "A" permit stall limitation is for loading and unloading only. Drivers of improperly parked University vehicles will be responsible for tickets received. [Any other university vehicle not defined as a van, truck, or SUV may not park in maintenance stalls. Parking meters and designated "A" areas are allowed only if payment is made, or proper permit is displayed. No university vehicle may park in designated "Load Zone" metered stalls.]

Drivers of motorcycles, motorbikes, scooters and mopeds must purchase a parking permit from Commuter Services and register the license plate(s) number(s) to the permit purchased.

The University is not responsible for the care and protection of or damage to any vehicle or its contents when operated or parked on University property. [Acceptance] The purchase of a parking permit shall constitute an acknowledgement and acceptance of this condition as the privilege to use the University's parking facilities.

The University may change the designated use of lots or roadways at any time to provide for special parking needs. During events, Commuter Services may charge additional fees for the use of University parking lots. [Vehicles with a current University permit will not be charged except for off-campus sponsored special events.]

[R810-1-17. Lost or Stolen Permits.

Responsibility for lost or stolen permits is the permit holder's, who must file a lost or stolen permit report with Commuter Services. Tickets received on the lost or stolen permit are the holder's responsibility if a report is not filed. Replacement permits may be obtained once a report is made and a replacement fee paid. Vehicles displaying a lost or stolen permit are subject to impoundment at the owner's expense.

NOTICES OF
120-DAY (EMERGENCY) RULES

An agency may file a 120-DAY (EMERGENCY) RULE when it finds that regular rulemaking procedures would:

(a) cause an imminent peril to the public health, safety, or welfare;
(b) cause an imminent budget reduction because of budget restraints or federal requirements; or
(c) place the agency in violation of federal or state law (Subsection 63G-3-304(1)).

As with a PROPOSED RULE, a 120-DAY RULE is preceded by a RULE ANALYSIS. This analysis provides summary information about the 120-DAY RULE including the name of a contact person, justification for filing a 120-DAY RULE, anticipated cost impact of the rule, and legal cross-references.

Following the RULE ANALYSIS, the text of the 120-DAY RULE is printed. New text is underlined (example) and text to be deleted is struck out with brackets surrounding the deleted text ([example]). An emergency rule that is new is entirely underlined. Likewise, an emergency rule that repeals an existing rule shows the text completely struck out. A row of dots in the text (..........) indicates that unaffected text was removed to conserve space.

A 120-DAY RULE is effective when filed with the Division of Administrative Rules, or on a later date designated by the agency. A 120-DAY RULE is effective for 120 days or until it is superseded by a permanent rule. Because of its temporary nature, a 120-DAY RULE is not codified as part of the Utah Administrative Code.

The law does not require a public comment period for 120-DAY RULES. However, when an agency files a 120-DAY RULE, it may file a PROPOSED RULE at the same time, to make the requirements permanent.

Emergency or 120-DAY RULES are governed by Section 63G-3-304, and Section R15-4-8.

Transportation, Motor Carrier
R909-1
Safety Regulations for Motor Carriers

NOTICE OF 120-DAY (EMERGENCY) RULE
DAR FILE NO.: 39172
FILED: 03/06/2015

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: A recent change to federal Motor Carrier Safety Administration regulations creates a conflict between Section R909-1-8 and the federal regulation. This change is needed to bring Rule R909-1 into harmony with the federal regulation.

SUMMARY OF THE RULE OR CHANGE: Remove Section R909-1-8 from the rule.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: 49 CFR Section 390.19 and Subsection 72-9-103(1)

EMERGENCY RULE REASON AND JUSTIFICATION: REGULAR RULEMAKING PROCEDURES WOULD place the agency in violation of federal or state law.

JUSTIFICATION: Section R909-1-8 now conflicts with federal regulation. The Utah Department of Transportation (UDOT) feels that it is necessary to remove Section 909-1-8 immediately to bring Rule R909-1 into compliance with federal law, and to give UDOT time to review Rule R909-1 closely to determine if other changes to this rule are needed.

ANTICIPATED COST OR SAVINGS TO:
♦ THE STATE BUDGET: This emergency rule change will not cause any change to the state budget because the state is not at risk of being penalized by the federal government. The only reason this change is being made is to end a conflict between state rule and federal regulations.
♦ LOCAL GOVERNMENTS: This emergency rule change will not result in any costs to local government because local governments are not affected by the conflicting state rule and federal regulation.
♦ SMALL BUSINESSES: This emergency rule change will not result in any costs to small businesses because small businesses are not affected by the conflicting state rule and federal regulation.
♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: This emergency rule change will not result in any costs to persons other than small businesses, businesses, or local government entities because persons other than small businesses, businesses, or local government entities are not affected by the conflicting state rule and federal regulation.
COMPLIANCE COSTS FOR AFFECTED PERSONS: This emergency rule change may result in a decrease in costs for affected persons because affected persons will not be required to comply with Section R909-1-8 for the 120 days this emergency rule is in effect.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: This emergency rule change may result in a decrease in costs for affected persons because they will not be required to comply with Section R909-1-8 while this emergency rule is in effect. The whole purpose of promulgating this emergency rule is to bring UDOT into compliance with federal regulations while it is determined how best to rewrite Rule R909-1 to account for new federal regulations.

Any motor carrier that fails or neglects to comply with State or Federal Motor Carrier Safety Regulations or any part of this rule is subject to a civil penalty as authorized by Sections 72-9-701 and 72-9-703.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: In December of 2014, the Office of the Legislative Auditor General submitted a report entitled "A Review of the Division of Drinking Water's Minimum Source Sizing Requirements" to the Utah State Legislature. The report commented directly upon the source size requirements included in Rule R309-510. The report recommended that the Division of Drinking Water reevaluate the minimum source sizing requirements and clarify the regulatory process for requesting a reduction in the minimum size of a source needed. It also confirmed the benefit of having a rule like Rule R309-510 to regulate the size of the source needed by public water systems. There have been no other comments received in support or opposition of this rule.

REASONED JUSTIFICATION FOR THE CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: The continuation of this rule will ensure that new water sources, storage facilities, and distribution systems for public water systems will be sized to reliably provide an adequate supply of drinking water to the people of the state of Utah.

CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE:  Title 73, Chapter 10c, authorizes the Department of Environmental Quality acting through the Drinking Water Board to award financial assistance to political subdivisions to finance all or part of drinking water project costs and to enter into "credit enhancement agreements", "interest buy-down agreements", and/or "hardship grants."

REASONED JUSTIFICATION FOR THE CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY:  Through this rule the Drinking Water Board is able to provide grants and low-interest loans to communities for construction of drinking water system infrastructure projects. Without this financial assistance many communities could not afford to construct the improvements necessary to protect public health and safety. This program also provides matching funds for the annual federal EPA Capitalization Grants which provide millions of dollars to the Drinking Water State Revolving Fund program and continued administration of the federal and Utah State Safe Drinking Water Acts.

NOTICE OF REVIEW AND STATEMENT OF CONTINUATION  
CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE:  The federal Safe Drinking Water Act, 42 USC 300j et seq., and Title 73, Chapter 10c, authorize the Department of Environmental Quality acting through the Drinking Water Board to provide financial assistance to public drinking water systems for drinking water projects from a federal capitalization grant.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE:  No comments have been received either in support of or opposition to this rule.
REASONED JUSTIFICATION FOR THE CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: Through this rule the Drinking Water Board is able to provide millions of dollars in low-interest loans and principal forgiveness (grants) to public drinking water systems for construction of drinking water system infrastructure projects. Without this financial assistance many water systems could not afford to construct the drinking water system improvements that are necessary to protect public health and safety and the Drinking Water Board would not be able to continue administering the federal and Utah State Safe Drinking Water Acts. Therefore, this rule should be continued.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: No comments were received either in opposition to or support of this rule.

REASONED JUSTIFICATION FOR THE CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: The 1996 SDWA amendments outlined the requirements of the Capacity Development Program. The program mandates that states ensure that all new community water systems and non-transient non-community water systems demonstrate adequate technical, managerial, and financial capacity (capability) to comply with SDWA and the National Primary Drinking Water Regulations. In addition, states must ensure that existing drinking water systems demonstrate these capabilities before they can be awarded federal drinking water financial assistance from the federal Drinking Water State Revolving Fund (DWSRF) loan program. Each year states receive a capitalization grant from Congress through the EPA to finance their individual DWSRF program. If a state does not demonstrate an acceptable capacity development program, 20% of those grant funds may be withheld (SDWA 1452(a)(G)(l)). The State of Utah receives annual capitalization grants of as much as $9,000,000 or more for the DWSRF program. Losing 20% (up to $1,800,000 or more) of this annual funding would seriously impair the Drinking Water Board’s ability to provide financial assistance to drinking water systems for system infrastructure projects and could leave the public vulnerable to health and safety risks. These funds are also vital to the state’s ability to administer the federal and Utah State Safe Drinking Water Acts. Therefore, this rule should be continued.

CONCISE EXPLANATION OF THE PARTICULAR
STATUTORY PROVISIONS UNDER WHICH THE RULE IS
ENACTED AND HOW THESE PROVISIONS AUTHORIZE
OR REQUIRE THE RULE: This rule is promulgated as
required by Subsection 26A-1-106(1)(c). The minimum
performance standards apply to all local health department
services, regardless of funding sources.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING
AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE
FROM INTERESTED PERSONS SUPPORTING OR
OPPOSING THE RULE: No written comment has been
received. In a meeting during 2014 of the State Health
Improvement Planning process (includes state and local
health departments and other public health stakeholders), a
recommendation was made to update and strengthen the
rule. There was strong support among local health
departments and the other attendees that the rule remained
important and that it was important to review and update the
rule to assure it remains a useful guide for local public health
services. After that recommendation, the Governance
Committee established under Section 26-1-4 established a
workgroup to review and recommend updates/revisions to
this rule. That workgroup is currently working on those
recommended changes.

REASONED JUSTIFICATION FOR THE CONTINUATION
OF THE RULE, INCLUDING REASONS WHY THE AGENCY
AGREES OR DISAGREES WITH COMMENTS IN OPPOSITION TO THE
RULE, IF ANY: The agency has received no comments
suggesting the rule be discontinued. The agency has
received comments suggesting the rule be updated and
strengthened. In addition to the statutory obligation to define
minimum performance standards in this rule, the agency
strongly believes that it is more important than ever to define
what capacity a local health department (LHD) must have and
what services it must provide to protect the health of people
in Utah. In the past year alone, Utah’s LHDs have needed to
respond to multiple outbreaks (including measles and the risk
of importation of Ebola virus from West Africa). It is essential
that LHD have adequate capacity to respond to these threats
to protect their citizens. Additionally, spread of disease is not
confined by political boundaries. It is essential for the
protection of health of all people in Utah and for Utah to meet
its obligations to the rest of the U.S. that each LHD has at
least the minimum capabilities defined by this rule. This rule
is essential to define for the political jurisdictions responsible
for creating and maintaining LHDs the minimum requirements
they must meet if they choose to create their own LHD.
Therefore, this rule should be continued.

CONCISE EXPLANATION OF THE PARTICULAR
STATUTORY PROVISIONS UNDER WHICH THE RULE IS

OR REQUIRE THE RULE: Subsection 31A-22-614.5
requires all insurers that offer health insurance to use a
uniform claim form and uniform billing and claim codes
adopted by the commissioner in accordance with the Utah
Administrative Rulemaking Act. In Section R590-164-4, the
rule sets the electronic claim forms to be used uniformly, and
Section R590-164-6 sets the standards for electronic data
interchange transaction between providers of health services
and health insurers.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING
AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE
FROM INTERESTED PERSONS SUPPORTING OR
OPPOSING THE RULE: The department has not received
any written comments regarding this rule in the past five
years.
REASONED JUSTIFICATION FOR THE CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: The rule is required by law, Section 31A-22-614.5. This rule eliminates the need for each insurer to create their own billing form that health providers are required to complete and file with the insurer before they can receive reimbursement for their services. Uniformity in health billing forms reduces confusion, processing time, and cost. It should be noted that the organization that sets the standards has representation from major insurance carriers and health care providers. Before adopting standards, they are exposed to the insurance industry and medical organizations for their input. As many as 700 responses have been received regarding a change in standards. Ninety percent of medical billings in Utah are sent electronically, exceeding the national average. Therefore, this rule should be continued.

NOTICE OF REVIEW AND STATEMENT OF CONTINUATION
CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE: This rule is enacted under Subsection 53-3-510(6) which states the Division shall establish rules to establish the standards and procedures under this required section of statutory provision.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: There have been no written comments received since the last five-year review.

REASONED JUSTIFICATION FOR THE CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: This rule allows the Division to establish minimum application procedures, training standards for licensed testers, and provisions for refusal or suspension of a testing certification. This rule benefits testers in that it gives greater details as to the processes that must be followed while providing driving skills tests. Therefore, this rule should be continued.

NOTICE OF REVIEW AND STATEMENT OF CONTINUATION
CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE: This rule is authorized under Subsection 53-3-505 (1)(d)(i)(ii) which requires the Department of Public Safety to make rules regarding fully interactive and non-fully interactive driving simulators for the purpose of completing behind the wheel driver training as required in Subsections 53-3-505.5(2)(b) and (c).

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: There have been no written comments received since the last five-year review.

REASONED JUSTIFICATION FOR THE CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: This rule allows to define the difference between a non-fully interactive driving simulator and a fully interactive driving simulator. Therefore, allowing driver education schools to decide if the use of a simulator to help facilitate training in their school would be a benefit to the students. Therefore, this rule should be continued.

Requirements for Acceptable Documentation, Storage and Maintenance

FIVE-YEAR NOTICE OF REVIEW AND STATEMENT OF CONTINUATION
DAR FILE NO.: 39182
FILED: 03/10/2015

NOTICE OF REVIEW AND STATEMENT OF CONTINUATION
CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE: The responsibilities and duties of the Driver License Division have been established in Title 53, Chapter 3. As part of the Division’s responsibilities, Subsection 53-3-104(1) requires the division to make rules for acceptable documentation, storage, and maintenance of applicant information.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: From 01/01/2010 through 01/01/2015 there have been 133 written complaints regarding the identify/lawful presence documents required in Rule R708-41.

REASONED JUSTIFICATION FOR THE CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: The division is required to make rules regarding the acceptable documentation, storage and maintenance of applicant information. As part of the Federal Real ID Act of 2005, acceptable documentation has been established which must be presented by the applicant in order to obtain a license or identification card. Deviation from this list could jeopardize the states compliance to the federal act and the Utah certificate (license or identification card) would no longer be acceptable for proof of identity for federal purposes. As of the end of December 2014, the majority of Utah certificate holders had complied with the federal act and this rule. Therefore, this rule should be continued.

NOTICES OF
FIVE-YEAR REVIEW EXTENSIONS

Rulewriting agencies are required by law to review each of their administrative rules within five years of the date of the rule's original enactment or the date of last review (Section 63G-3-305). If the agency finds that it will not meet the deadline for review of the rule (the five-year anniversary date), it may file a Notice of Five-Year Review Extension (Extension) with the Division of Administrative Rules. The Extension permits the agency to file the review up to 120 days beyond the anniversary date.

Agencies have filed Extensions for the rules listed below. The "Extended Due Date" is 120 days after the anniversary date.

Extensions are governed by Subsection 63G-3-305(6).

NOTICES OF RULE EFFECTIVE DATES

State law provides for agencies to make their administrative rules effective and enforceable after publication in the Utah State Bulletin. In the case of Proposed Rules or Changes in Proposed Rules with a designated comment period, the law permits an agency to make a rule effective no fewer than seven calendar days after the close of the public comment period, nor more than 120 days after the publication date. In the case of Changes in Proposed Rules with no designated comment period, the law permits an agency to make a rule effective on any date including or after the thirtieth day after the rule's publication date, but not more than 120 days after the publication date. If an agency fails to file a Notice of Effective Date within 120 days from the publication of a Proposed Rule or a related Change in Proposed Rule the rule lapses.

Agencies have notified the Division of Administrative Rules that the rules listed below have been made effective. Notices of Effective Date are governed by Subsection 63G-3-301(12), Section 63G-3-303, and Sections R15-4-5a and R15-4-5b.

End of the Notices of Rule Effective Dates Section
The Rules Index is a cumulative index that reflects all effective changes to Utah's administrative rules. The current Index lists changes made effective from January 2, 2015 through March 16, 2015. The Rules Index is published in the Utah State Bulletin and in the annual Utah Administrative Rules Index of Changes. Nonsubstantive changes, while not published in the Bulletin, do become part of the Utah Administrative Code (Code) and are included in this Index, as well as 120-Day (Emergency) rules that do not become part of the Code. The rules are indexed by Agency (Code Number) and Keyword (Subject).

Questions regarding the index and the information it contains should be addressed to the Division of Administrative Rules (801-538-3764).

A copy of the Rules Index is available for public inspection at the Division of Administrative Rules (5110 State Office Building, Salt Lake City, UT), or may be viewed online at the Division's web site (http://www.rules.utah.gov/).
