NOTICES OF PROPOSED RULES

A state agency may file a PROPOSED RULE when it determines the need for a substantive change to an existing rule. With a NOTICE OF PROPOSED RULE, an agency may create a new rule, amend an existing rule, repeal an existing rule, or repeal an existing rule and reenact a new rule. Filings received between April 15, 2017, 12:00 a.m., and May 01, 2017, 11:59 p.m. are included in this, the May 15, 2017, issue of the Utah State Bulletin.

In this publication, each PROPOSED RULE is preceded by a RULE ANALYSIS. This analysis provides summary information about the PROPOSED RULE including the name of a contact person, anticipated cost impact of the rule, and legal cross-references.

Following the RULE ANALYSIS, the text of the PROPOSED RULE is usually printed. New rules or additions made to existing rules are underlined (example). Deletions made to existing rules are struck out with brackets surrounding them ([example]). Rules being repealed are completely struck out. A row of dots in the text between paragraphs (........) indicates that unaffected text from within a section was removed to conserve space. Unaffected sections are not usually printed. If a PROPOSED RULE is too long to print, the Office of Administrative Rules may include only the RULE ANALYSIS. A copy of each rule that is too long to print is available from the filing agency or from the Office of Administrative Rules.

The law requires that an agency accept public comment on PROPOSED RULES published in this issue of the Utah State Bulletin until at least June 14, 2017. The agency may accept comment beyond this date and will indicate the last day the agency will accept comment in the RULE ANALYSIS. The agency may also hold public hearings. Additionally, citizens or organizations may request the agency hold a hearing on a specific PROPOSED RULE. Section 63G-3-302 requires that a hearing request be received by the agency proposing the rule "in writing not more than 15 days after the publication date of the proposed rule."

From the end of the public comment period through September 12, 2017, the agency may notify the Office of Administrative Rules that it wants to make the PROPOSED RULE effective. The agency sets the effective date. The date may be no fewer than seven calendar days after the close of the public comment period nor more than 120 days after the publication date of this issue of the Utah State Bulletin. Alternatively, the agency may file a CHANGE IN PROPOSED RULE in response to comments received. If the Office of Administrative Rules does not receive a NOTICE OF EFFECTIVE DATE or a CHANGE IN PROPOSED RULE, the PROPOSED RULE lapses.

The public, interest groups, and governmental agencies are invited to review and comment on PROPOSED RULES. Comment may be directed to the contact person identified on the RULE ANALYSIS for each rule.

PROPOSED RULES are governed by Section 63G-3-301, Rule R15-2, and Sections R15-4-3, R15-4-4, R15-4-5a, R15-4-9, and R15-4-10.

R33-4. Supplemental Procurement Procedures.
    Reserved.

R33-4-101a. Rejection of a Late Solicitation Response -- Delivery and Time Requirements.
    (1) Except as provided in Subsection (4), an issuing procurement unit may not accept a response to a request for statement of qualifications after the [time] deadline for receipt[submission] of responses to a request for statement of qualifications has [expired] passed.

    (2) When submitting a response to a request for statement of qualifications electronically, vendors must allow sufficient time to complete the online forms and upload documents. The solicitation will end at the closing time posted in the electronic system. If a vendor is in the middle of uploading a response when the closing time arrives, the procurement unit will stop the process and the response will not be accepted.

    (3) When submitting a response to a request for statement of qualification by physical delivery (U.S. Mail, courier service, hand-delivery, or other physical means) vendors are solely responsible for meeting the deadline. Delays caused by a delivery service or other physical means will not be considered as an acceptable reason for a response being late.

        (a) All responses received by physical delivery will be date and time stamped by the procurement unit.

        (b) To the extent that an error on the part of the procurement unit or an employee of a procurement unit results in a response not being received by the established due date and time, the response shall be accepted as being on time.

R33-4-101b. Vendors with Exclusive Authorization to Bid.
    (1) The requirements of this rule shall only apply when a procurement unit issues a [prequalification for potential] request for statements of qualification under Utah Code 63G-6a-410 to [vendors as set forth in Utah Code 62G-6a-410 for all qualified, responsive and] responsible vendors with an exclusive dealership, franchise, distributorship, or other arrangement, from a manufacturer identifying the vendor as the only one authorized to submit bids or quotes for the specified procurement item within the State of Utah or a region within the State of Utah.

        (a) Under the provisions of this rule, no vendor described in (1) may be excluded from the list of prequalified vendors, unless a determination is made by the procurement unit that a vendor is not qualified, responsive or responsible.

        (b) The request for statements of qualifications shall indicate that all vendors on the prequalified vendor list will be invited to submit bids or quotes.

    (2) After the prequalified list has been compiled, a procurement unit may award a contract by obtaining bids or quotes from all vendors on the prequalified list taking into consideration a best value analysis that includes, as applicable:

        (a) cost;

        (b) compatibility with existing equipment, technology, software, accessories, replacement parts, or service;

        (c) training, knowledge and experience of employees of the procurement unit and of the vendors;

        (d) past performance of vendors and pertaining to the procurement item being purchased;

        (e) the costs associated with transitioning from an existing procurement item to a new procurement item; or

        (f) other factors determined in writing by the chief procurement officer or head of a procurement unit with independent procurement authority.

    (3) Procurement units must follow the requirements in R33-4-110 when obtaining quotes and the requirements in Part 6 of the Utah Procurement Code when obtaining bids.

(4) An exception to the requirements of this rule may be authorized by the chief procurement officer or head of a procurement unit with independent procurement authority.

R33-4-103. Specifications.

(1) Public entities shall include in solicitation documents specifications for the procurement item(s).  
(2) Specifications shall be drafted with the objective of clearly describing the procurement unit's requirements and encouraging competition.  
(a) Specifications shall emphasize the functional or performance criteria necessary to meet the needs of the procurement unit.  
(3) Persons with a conflict of interest, or who anticipate responding to the proposal for which the specifications are written, may not participate in writing specifications.  
Procurement units may retain the services of a person to assist in writing specifications, scopes of work, requirements, qualifications, or other components of a solicitation.  However the person assisting in writing specifications shall not, at any time during the procurement process, be employed in any capacity by, nor have an ownership interest in, an individual, public or private corporation, governmental entity, partnership, or unincorporated association bidding on or submitting a proposal in response to the solicitation.  
(a) Subsection R33-4-104(3) does not apply to the following:  
(i) a design build construction project; and  
(ii) other procurements determined in writing by the chief procurement officer, or as applicable, the head of a procurement unit with independent procurement authority.  
(b) Violations of this Subsection R33-4-104(3) may result in:  
(i) the bidder or offeror being declared ineligible for award of the contract;  
(ii) the solicitation being canceled;  
(iii) termination of an awarded contract; or  
(iv) any other action determined to be appropriate by the chief procurement officer, or as applicable, the head of a procurement unit with independent procurement authority.

(ii) as many other brand names as practicable are also included in the specification.  
(b) Brand name or equal specifications shall include a description of the particular design and functional or performance characteristics which are required.  Specifications unique to the brands shall be described in sufficient detail that another person can respond with an equivalent brand.  
(c) When a manufacturer's specification is used in a solicitation, the solicitation shall state the minimum acceptable requirements of an equivalent.  When practicable, the procurement unit shall name at least three manufacturer's specifications.  
(5) Brand Name Requirements.  
(a) If only one brand can meet the requirements set forth in the specifications, the procurement unit shall solicit from as many providers of the brand as practicable; and  
(b) If there is only one provider that can meet the requirements set forth in the specifications, the procurement unit shall conduct the procurement in accordance with Section 63G-6a-802 and Section R33-8-101b.  
R33-4-109. Procedures When Two Bids, Quotes, or Statement of Qualifications Cannot Be Obtained.

(1) The requirement that a procurement unit obtain a minimum of two bids, quotes, or statements of qualifications is waived when only one vendor submits a bid, provides a quote, or submits a statement of qualifications under the following circumstances:  
(a) A solicitation meeting the public notice requirements of Utah Code 63G-6a-112 results in only one vendor willing to bid, provide quotes, or submit a statement of qualifications;  
(b) Vendors on a multiple award contract, prequalification, or approved vendor list fail to bid, provide quotes, or submit statements of qualifications; or  
(c) A procurement unit makes a reasonable effort to invite all known vendors to bid, provide quotes, or submit statements of qualifications and all but one of the invited vendors contacted fail to bid, provide quotes, or submit statements of qualifications.

(2) Before accepting a bid or quote from only one vendor, the chief procurement officer, or as applicable, the head of a procurement unit with independent procurement authority, shall consider:  
(a) whether pricing is fair and reasonable as set forth in R33-6-109(1);  
(b) canceling the procurement as set forth in R33-9-103; and  
(c) bid security requirement as set forth in R33-11-202.  
(3) The chief procurement officer, or as applicable, the head of a procurement unit with independent procurement authority, shall maintain records documenting the circumstances and reasons why fewer than two bids, quotes, or statements of qualifications were obtained.

(2) Quotation means a statement of price, terms of sale, and description of goods or services offered by a vendor to a procurement unit; and

(3) Electronic quote means a price quotation provided by a vendor through electronic means such as the internet, online sources, email, an interactive web-based market center, or other technology.
(4) A procurement unit may use electronic, telephone, or written quotes to obtain pricing and other information for a procurement item within the small purchase or approved vendor threshold limits established by rule provided:

(1) Errors discovered after the award of a contract may only be corrected if, after consultation with the chief procurement officer or head of a procurement unit with independent procurement authority and the attorney general’s office or other applicable legal counsel, it is determined that the correction of the mistake does not violate the requirements of the Utah Procurement Code or these administrative rules.

(1) If only one responsive [and responsible] bid is received from a responsible bidder in response to an Invitation for Bids, including multiple stage bidding, an award may be made to the single bidder if the chief procurement officer or head of a procurement unit with independent procurement authority determines that the price submitted is fair and reasonable as set forth in R33-12-603 and R33-12-604, and that other prospective bidders had a reasonable opportunity to respond, or there is not adequate time for re-solicitation. Otherwise, the bid may be rejected and:

(a) a new invitation for bids solicited; or

(b) the procurement canceled.

R33-6-110. Multiple or Alternate Bids.

(1) Multiple or alternate bids will not be accepted, unless otherwise specifically required or allowed in the invitation for bids.

R33-7-103. Multiple Stage RFP Process.

(1) In addition to the requirements set forth under Section 63G-6a-710, the multiple stage request for proposals solicitation shall include:

(a) a description of the stages and the criteria and scoring that will be used to evaluate proposals at each stage; and

(b) the methodology used to determine which proposals shall be disqualified from additional stages.

R33-7-103a. Multiple Stage Cost Qualification RFP Process.

In accordance with Section 63G-6a-710, a conducting procurement unit may use a multiple stage RFP process to assist the procurement unit in selecting the proposal that provides the best value or is the most advantageous to the procurement unit. This Rule sets forth the process for issuing a multiple stage RFP process where cost is evaluated prior to the technical requirements. The concept behind this "multiple stage cost qualification RFP process" is that for certain types of procurements, a procurement unit may not want to spend time evaluating the technical responses of proposals with cost estimates that exceed the stated budget or significantly exceed the lowest cost proposal. Statute does not restrict the number of stages that may occur in a multiple stage RFP, the number or type of criteria that may be used to evaluate proposals or the sequencing of when evaluation criteria must be evaluated. However, statute does place restrictions on procedures such as separating cost, when the evaluation committee can and cannot change scores, issuing a justification statement and, if applicable, conducting a cost-benefit analysis, and so on. The instructions contained in this multiple stage cost qualification RFP process comply with all provisions set forth in Utah Code Title 63G-6a, Part 7 and associated Rule R33-7.

(1) Definitions:

(a) "Multiple stage cost qualification RFP process" means a multiple stage RFP process in which cost proposals are evaluated prior to the evaluation of technical criteria and are used to reject offerors based on established cost criteria.

(b) "Maximum cost differential percentage threshold" is a cost ceiling that is established by the conducting procurement unit that an offeror's cost proposal must not exceed or the offeror's proposal will be rejected and the offeror will not be allowed to proceed to a subsequent stage. The maximum cost differential percentage threshold may be based on the following:

(i) The lowest cost proposal submitted;

(ii) The conducting procurement unit's stated budget; or

(iii) A combination of (i) and (ii).

(2) The chief procurement officer or head of procurement unit with independent procurement authority may issue a multiple stage RFP where cost is used to qualify offerors for subsequent stages or to narrow the number of offerors that will move on to subsequent stages in accordance with the requirements set forth in Utah Code 63G-6a, Part 7 and Rule R33-7.

(3) When using the multiple stage cost qualification RFP process the conducting procurement unit shall establish and include in the RFP:

(a) The minimum mandatory pass or fail requirements that proposals must meet in stage one in order to move on to stage two;

(b) The maximum cost differential percentage threshold that proposals must not exceed in stage two in order to move on to stage three;

(c) The technical criteria and a score threshold that proposals must meet in stage three in order to be eligible to move on to stage four; and

(d) If applicable, the total combined score threshold in stage four that proposals must meet to determine best value and be eligible for contract award.

(4) Except as provided in Section 63G-6a-707(8), the following process shall be used to evaluate proposals and award a contract under this multiple stage process:

(a) During stage one, an individual assigned by the conducting procurement unit shall evaluate each offeror's proposal in response to the minimum mandatory pass or fail requirements set forth in the RFP:

(i) Offerors with proposals that do not meet the mandatory minimum pass or fail requirements shall be rejected and are not allowed to move on to subsequent stages and are not eligible to receive a contract award;

(ii) Offerors with proposals that meet the mandatory minimum pass or fail requirements shall be deemed qualified to move on to stage two;

(b) During stage two, the issuing procurement unit shall assign an individual, who is not a member of the evaluation committee, to evaluate the cost proposals of offerors qualified in stage one in response to the cost criteria and maximum cost differential percentage threshold set forth in the RFP.

(i) The individual assigned by the issuing procurement unit to evaluate cost proposals shall do so outside the presence of the evaluation committee and shall not share the cost proposals or the results of the cost proposal evaluations with the evaluation committee until all technical scoring is completed in stage three;

(ii) Offerors with cost proposals that exceed the maximum cost differential percentage threshold shall be rejected, not allowed to move on to subsequent stages, and not eligible to receive a contract award;

(iii) Offerors with cost proposals that do not exceed the maximum cost differential percentage threshold shall be deemed qualified to move on to stage three;

(iv) Cost shall be evaluated in accordance with Section 63G-6a-707(5)(b)(ii); and

(v) A cost score shall be calculated based on the cost formula set forth in the RFP for each proposal identified in Subsection (3)(b)(iii) of this Rule;

(c) During stage three, the evaluation committee shall score the proposal of each offeror qualified in stage two, in response to the technical evaluation criteria set forth in the RFP, without having access to any information relating to the cost or the scoring of the cost. Technical criteria shall be scored in accordance with Section R33-7-704 or rules established by the applicable rulemaking authority;

(d) During stage four, the individual assigned by the issuing procurement unit, who is not a member of the evaluation committee, shall add the cost scores to the evaluation committee's final recommended technical scores to derive the total combined score for each proposal in accordance with the process set forth in Section 63G-6a-707(5)(a) through (e);
R33-7-104. Exceptions to Terms and Conditions Published in the RFP.

(1) Offerors requesting exceptions and/or additions to the Standard Terms and Conditions published in the RFP must include the exceptions and/or additions with the proposal response.

(2) Exceptions and/or additions submitted after the date and time for receipt of proposals will not be considered unless there is only one offeror that responds to the RFP, the exceptions and/or additions have been approved by the Attorney General's Office or other applicable legal counsel, and it is determined by the head of the issuing procurement unit that it is not beneficial to the procurement unit to republish the solicitation.

(3) Offerors may not submit requests for exceptions and/or additions by reference to a vendor's website or URL.

(4) A procurement unit may refuse to negotiate exceptions and/or additions:
   (a) that are determined to be excessive;
   (b) that are inconsistent with similar contracts of the procurement unit;
   (c) to warranties, insurance, indemnification provisions that are necessary to protect the procurement unit after consultation with the Attorney General's Office or other applicable legal counsel;
   (d) where the solicitation specifically prohibits exceptions and/or additions; or
   (e) that are not in the best interest of the procurement unit.

R33-7-105. Protected Records.

(1)(a) The following are protected records and may be redacted by the vendor subject to the procedures described below in accordance with the Governmental Records Access and Management Act (GRAMA) Title 63G, Chapter 2 of the Utah Code.
   (a) Trade Secrets, as defined in Section 13-24-2 of the Utah Code.
   (b) Commercial information or non-individual financial information subject to the provisions of Section 63G-2-305(2).
   (c) Other Protected Records under GRAMA.

(2) Process For Requesting Non-Disclosure. Any person requesting that a record be protected shall include with the proposal or submitted document:
   (a) a written indication of which provisions of the proposal or submitted document are claimed to be considered for business confidentiality or protected (including trade secrets or other reasons for non-disclosure under GRAMA); and
   (b) a concise statement of the reasons supporting each claimed provision of business confidentiality or protected.

R33-7-106. Notification.

(1) A person who complies with Section R33-7-105 shall be notified by the procurement unit prior to the public release of any information for which a claim of confidentiality has been asserted.

(2) Except as provided by court order, the procurement unit to whom the request for a record is made under GRAMA, may not disclose a record claimed to be protected under Section R33-7-105 but which the procurement unit or State Records Committee determines should be disclosed until the period in which to bring an appeal expires or the end of the appeals process, including judicial appeal, is reached. Section R33-7-106 does not apply where the claimant, after notice, has waived the claim by not appealing or intervening before the State Records Committee. To the extent allowed by law, the parties to a dispute regarding the release of a record may agree in writing to an alternative dispute resolution process.
R33-7-107. Process for Submitting Proposals with Protected Business Confidential Information. 

(1) If an offeror submits a proposal that contains information claimed to be business confidential or protected information, the offeror must submit two separate proposals:
   (a) One redacted version for public release, with all protected business confidential information either blacked-out or removed, clearly marked as "Redacted Version"; and
   (b) One non-redacted version for evaluation purposes clearly marked as "Protected Business Confidential."

(2) (a) If a pre-proposal conference or site visit is held, the conducting procurement unit shall maintain:

   (i) An attendance log including the name of each attendee, the entity the attendee is representing, and the attendee's contact information;
   (ii) Minutes of the pre-proposal conference or site visit; and
   (iii) Copies of any documents distributed by the conducting procurement unit to the attendees at the pre-proposal conference or site visit.

   (b) The issuing procurement unit shall publish as an addendum to the solicitation:

   (i) The attendance log;
   (ii) Minutes of the pre-proposal conference or site visit;
   (iii) Copies of any documents distributed to attendees at the pre-proposal conference or site visit; and
   (iv) Any verbal modifications made to any of the solicitation documents. All verbal modifications to the solicitation documents shall be reduced to writing.

R33-7-201. Pre-Proposal Conferences and Site Visits. 

(1) Mandatory pre-proposal conferences and site visits may be held to explain the procurement requirements in accordance with the following:

   (a) Except as authorized in writing by the chief procurement officer or the head of a procurement unit with independent procurement authority, pre-proposal conferences and site visits must require mandatory attendance by all offerors.
   (b) Except as authorized in writing by the chief procurement officer or the head of a procurement unit with independent procurement authority, pre-proposal conferences and site visits allowing optional attendance by offerors are not permitted.
   (c) A pre-proposal conference may be attended via the following:

      (i) Attendance in person;
      (ii) Teleconference participation;
      (iii) Webinar participation;

   (e) All pre-proposal conferences and site visits must be attended by an authorized representative of the person or vendor submitting a proposal and as may be further specified in the procurement documents.

(2) The solicitation must state that failure to attend a mandatory pre-proposal conference shall result in the disqualification of any offeror that does not have an authorized representative attend the entire duration of the mandatory pre-proposal conference.

R33-7-301. Addenda to Request for Proposals. 

(1) Addenda to the Request for Proposals may be made for the purpose of:

   (a) Making changes to:

      (i) The scope of work;
      (ii) The schedule;
      (iii) The qualification requirements;
      (iv) The criteria;
      (v) The weighting; or
      (vi) Other requirements of the Request for Proposal.

   (b) Addenda shall be published within a reasonable time prior to the deadline that proposals are due, to allow prospective offerors to consider the addenda in preparing proposals. Publication at least 5 calendar days prior to the deadline that proposals are due shall be deemed a reasonable time. Minor addenda and urgent circumstances may require a shorter period of time.

(2) After the due date and time for submitting a response to Request for Proposals, at the discretion of the chief procurement officer or head of a procurement unit with independent procurement authority, addenda to the Request for Proposals may be limited to offerors that have submitted proposals, provided the addenda does not make a substantial change to the Request for Proposals that, in the opinion of the chief procurement officer or head of a procurement unit with independent procurement authority likely would have impacted the number of Offerors responding to the original publication of the Request for Proposals.
R33-7-402. Rejection of Late Proposals -- Delivery and Time Requirements.

(1) Except as provided in Subsection (4), an issuing procurement unit may not accept a proposal after the [time] deadline for [submission of a] receipt of solicitation responses to a request for proposals has [expired] passed as set forth in Section 63G-6a-704(2).

(2) When submitting a proposal electronically, offerors must allow sufficient time to complete the online forms and upload documents. The solicitation will end at the closing time posted in the electronic system. If an offeror is in the middle of uploading a proposal when the closing time arrives, the procurement unit will stop the process and the proposal will not be accepted.

(3) When submitting a proposal by physical delivery (U.S. Mail, courier service, hand-delivery, or other physical means) offerors are solely responsible for meeting the deadline. Delays caused by a delivery service or other physical means will not be considered as an acceptable reason for a proposal being late.

(a) All proposals received by physical delivery will be date and time stamped by the procurement unit.

(b) Unless an exception is authorized in writing by the chief procurement officer or head of a procurement unit with independent procurement authority, cost should not be divided or evaluated on any other basis than the entire term of the contract, excluding renewal periods.

(c) Whenever practicable, the evaluation of cost should include maintenance and service agreements, system upgrades, apparatuses, and other components associated with the procurement item.

R33-7-501. Evaluation of Proposals.

(1) The evaluation of proposals shall be conducted in accordance with Part 7 of the Utah Procurement Code.

(2) An evaluation committee may ask questions of offerors to clarify proposals provided the questions are submitted and answered in writing. The record of questions and answers shall be maintained in the file.

(3)(a) The evaluation of cost in an RFP shall be based on the entire term of the contract, excluding renewal periods.

(b) Unless an exception is authorized in writing by the chief procurement officer or head of a procurement unit with independent procurement authority, cost should not be divided or evaluated on any other basis than the entire term of the contract, excluding renewal periods.

(c) Whenever practicable, the evaluation of cost should include maintenance and service agreements, system upgrades, apparatuses, and other components associated with the procurement item.

R33-7-501.5. Minimum Score Thresholds.

(1) An executive branch conducting a procurement unit may establish minimum score thresholds to advance proposals from one stage in the RFP process to the next, including contract award.

(2) If used, minimum score thresholds must be set forth in the RFP and clearly describe the minimum score threshold that proposals must achieve in order to advance to the next stage in the RFP process or to be awarded a contract.

(3)(a) Thresholds may be based on:

(i) Minimum scores for each evaluation category;

(ii) The total of each minimum score in each evaluation category based on the total points available; or

(iii) A combination of (i) and (ii).

(b) Thresholds may not be based on:

(i) A natural break in scores that was not defined and set forth in the RFP; or

(ii) A predetermined number of offerors.

An offeror may voluntarily withdraw a proposal at any time before a contract is awarded with respect to the RFP for which the proposal was submitted provided the offeror is not engaged in any type of bid rigging, collusion or other anticompetitive practice made unlawful under other applicable law.

R33-7-601. Best and Final Offers.

Best and Final Offers shall be conducted in accordance with the requirements set forth in Section 63G-6a-707.5, or of the Utah Procurement Code. Rule R33-7 provides additional requirements and procedures and must be used in conjunction with the Procurement Code.

(1) The best and final offers (BAFO) process is an optional step in the evaluation phase of the request for proposals process in which offerors are requested to modify their proposals.

(a) An evaluation committee may request best and final offers when:

(i) no single proposal addresses all the specifications;

(ii) all or a significant number of the proposals received are unclear and the evaluation committee requires further clarification;

(iii) additional information is needed in order for the evaluation committee to make a decision;

(iv) the differences between proposals in one or more categories are too slight to distinguish;

(v) all cost proposals are too high or over the budget;

(vi) multiple contract awards are necessary to achieve regional or statewide coverage for a procurement item under an RFP and there are insufficient cost proposals within the budget to award the number of contracts needed to provide regional or statewide coverage.

(2) Only offerors meeting the minimum qualifications or scores described in the RFP are eligible to respond to best and final offers.

(3) Proposal modifications submitted in response to a request for best and final offers may only address the specific issues and/or sections of the RFP described in the request for best and final offers.

(a) Offerors may not use the best and final offers process to correct deficiencies in their proposals not addressed in the request for best and final offers issued by the procurement unit.

(4) When a request for best and final offers is issued to reduce cost proposals, offerors shall submit itemized cost proposals clearly indicating the tasks or scope reductions that can be accomplished to bring costs within the available budget.

(a) The cost information of one offeror may not be disclosed to competing offerors during the best and final offers process and further, such cost information shall not be shared with other offerors until the contract is awarded.

(b) A procurement unit shall ensure that auction tactics are not used in the discussion process, including discussing and comparing the costs and features of other proposals.
(5) The best and final offers process may not be conducted as part of the contract negotiation process. It may only be conducted during the evaluation phase of the RFP process.

(6) A procurement unit may not use the best and final offers process to allow offerors a second opportunity to respond to the entire request for proposals.

(7) If a proposal modification is made orally during the interview or presentation process, the modification must be confirmed in writing.

(8) A request for best and final offers issued by a procurement unit shall:

(a) comply with all public notice requirements provided in Section 63G-6a-112;

(b) include a deadline for submission that allows offerors a reasonable opportunity for the preparation and submission of their responses;

(c) indicate how proposal modifications in response to a request for best and final offers will be evaluated;

(9) If an offeror does not submit a best and final offer, its immediately previous proposal will be considered its best and final offer;

(10) Unsolicited best and final offers will not be accepted from offerors.

R33-7-701. Cost-benefit Analysis Exception: CM/GC.

(1) A cost-benefit analysis is not required if the contract is awarded solely on the qualifications of the construction manager/general contractor and the management fee described in Section 63G-6a-708 provided:

(a) a competitive process is maintained by the issuance of a request for proposals that requires the offeror to provide, at a minimum:

(i) a management plan;

(ii) references;

(iii) statements of qualifications; and

(iv) a management fee.

(b) the management fee contains only the following:

(i) preconstruction phase services;

(ii) monthly supervision fees for the construction phase;

and

(iii) overhead and profit for the construction phase.

(c) the evaluation committee may, as described in the solicitation, weight and score the management fee as a fixed rate or a fixed percentage of the estimated contract value.

(d) the contract awarded must be in the best interest of the procurement unit.

(ii) pricing and terms are reasonable as set forth in R33-12-603 and R33-12-604; and

(iii) the proposal is in the best interest of the procurement unit.

(b) if the evaluation committee determines the proposal meets the minimum requirements, pricing and terms are reasonable, and the proposal is in the best interest of the procurement unit, the procurement unit shall issue a justification statement as set forth in 63G-6a-708 and may make an award.

(c) If an award is not made, the procurement unit may either cancel the procurement or resolicit for the purpose of obtaining additional proposals.

R33-7-703. Evaluation Committee Procedures for Scoring Non-Priced Technical Criteria.

Evaluation committee members, employees of procurement units, and any other person involved in an RFP evaluation process are required to review Utah Code Title 63G-6a, Parts 7 and 24; and Section R33-7-703 prior to participating in the evaluation process.

(1)(a) In accordance with Section 63G-6a-704, the conducting procurement unit may conduct a review of proposals to determine if:

(i) the person submitting the proposal is responsible;

(ii) the proposal is responsive; and

(iii) the proposal meets the mandatory minimum requirements set forth in the RFP.

(b) An evaluation committee may not evaluate proposals deemed non-responsive or not meeting the mandatory minimum requirements of the RFP or vendors determined to be not responsible.

(2)(a) Prior to the evaluation and scoring of proposals, an employee from the issuing procurement unit will meet with the evaluation committee, staff members of the conducting procurement unit, and any other person involved in the procurement process that may have access to the proposals to:

(i) Explain the evaluation and scoring process;

(ii) Discuss requirements and prohibitions pertaining to:

(A) socialization with vendors as set forth in Section R33-24-104;

(B) financial conflicts of interest as set forth in Section R33-24-105;

(C) personal relationships, favoritism, or bias as set forth in Section R33-24-106;

(E) ethical standards for an employee of a procurement unit involved in the procurement process as set forth in Section R33-24-108.

(iii) review the scoring sheet and evaluation criteria set forth in the RFP, and

(iv) provide a copy of Section R33-7-703 to the evaluation committee, employees of the procurement unit involved in the procurement, and any other person that will have access to the proposals.

(b) Prior to participating in any phase of the RFP process, all members of the evaluation committee must sign a written
statement certifying that they do not have a conflict of interest as set forth in Section 63G-6a-707 and Section R33-24-107.

(i) At each stage of the procurement process, the conducting procurement unit is required to ensure that evaluation committee members, employees of the procurement unit and any other person participating in the procurement process:

(A) do not have a conflict of interest with any of the offerors;

(B) do not contact or communicate with an offeror concerning the procurement outside the official procurement process; and

(C) conduct or participate in the procurement process in a manner that ensures a fair and competitive process and avoids the appearance of impropriety.

(3) Unless an exception is authorized by the head of the issuing procurement unit, the evaluation committee is prohibited from knowing, or having access to, any information relating to the cost, or the scoring of the cost, of a proposal until after the evaluation committee has finalized its scoring of non-price technical criteria for each proposal and submitted those scores to the issuing procurement unit as set forth in Section 63G-6a-707.

(4)(a) In accordance with Section 63G-6a-707, the conducting procurement unit shall appoint an evaluation committee to evaluate each responsive proposal submitted by an offeror that has not been rejected from consideration under the provisions of the Utah Procurement Code, using the criteria described in the RFP.

(b) Using the provisions set forth in Section R33-7-705, the evaluation committee shall exercise independent judgement in the evaluation and scoring of the non-priced technical criteria in each proposal.

(c) Proposals must be evaluated solely on the criteria listed in the RFP. The evaluation committee shall assess each proposal's completeness, accuracy, and capability of meeting the technical criteria listed in the RFP.

(d) The evaluation committee may receive assistance from an expert or consultant authorized by the conducting procurement unit in accordance with the provisions set forth in Section 63G-6a-707(4).

(e) The evaluation committee may enter into discussions, conduct interviews with, or attend presentations by responsible offerors with responsive proposals that meet the mandatory minimum requirements of the RFP for the purpose of clarifying information contained in proposals in accordance with the provisions set forth in Section 63G-6a-707(5).

(5) After each proposal has been independently evaluated by each member of the evaluation committee, each committee member independently shall assign a preliminary draft score for each proposal for each of the non-priced technical criteria listed in the RFP.

(a) After completing the preliminary draft scoring of the non-priced technical criteria for each proposal, the evaluation committee shall enter into deliberations to:

(i) review each evaluation committee member's preliminary draft scores;

(ii) resolve any factual disagreements;

(iii) modify their preliminary draft scores based on their updated understanding of the facts; and

(iv) derive the committee's final recommended consensus score for the non-priced technical criteria of each proposal.

(b) During the evaluation process, the evaluation committee may make a recommendation to the conducting procurement unit that:

(i) a proposal be rejected for;

(A) being non-responsive, not responsible, or

(B) not meeting the mandatory minimum requirements, or

(C) not meeting any applicable minimum score threshold;

(ii) an offeror be rejected for not being responsible.

(c) If an evaluation committee member does not attend an evaluation committee meeting, the meeting may be canceled and rescheduled.

(d) In order to score proposals fairly, an evaluation committee member must be present at all evaluation committee meetings and must review all proposals, including if applicable oral presentations. If an evaluation committee member fails to attend an evaluation committee meeting or leaves a meeting early or fails for any reason to fulfill the duties and obligations of a committee member, that committee member shall be removed from the committee. The remainder of the evaluation committee members may proceed with the evaluation, provided there are at least three evaluation committee members remaining.

(i) Attendance or participation on an evaluation committee via electronic means such as a conference call, a webcam, an online business application, or other electronic means is permissible.

(ii) (a) The evaluation committee shall derive its final recommended consensus score for the non-priced technical criteria of each proposal using the following methods:

(i) the total of each individual evaluation committee member's scores for each proposal shall be the consensus score for the evaluation committee; or

(ii) an average of each individual evaluation committee member's scores for each proposal shall be the consensus score for the evaluation committee.

(b) The evaluation committee shall submit its final score sheet, signed and dated by each committee member, to the issuing procurement unit for review.

(7) The evaluation committee may not change its consensus final recommended scores of the non-priced technical criteria for each proposal after the scores have been submitted to the issuing procurement unit, unless the issuing procurement unit authorizes that a best and final offer process to be conducted under the provisions set forth in Section 63G-6a-707.5 and Section R33-7-601.

(8) In accordance with Section 63G-6a-707, the issuing procurement unit shall:

(a) review the evaluation committee's final recommended scores for each proposal's non-priced technical criteria and correct any errors, scoring inconsistencies, and reported noncompliance with this chapter or cancel the solicitation in accordance with Sections 63G-6a-106(4) or 63G-6a-303(3).

(b) score the cost of each proposal based on the applicable scoring formula; and

(c) calculate the total combined score for each proposal.
(9) The evaluation committee may, with approval from the issuing procurement unit, request best and final offers from responsible offerors who have submitted responsive proposals that meet the minimum qualifications, evaluation criteria, or applicable score thresholds identified in the RFP, under the circumstances set forth in Section 63G-6a-707.5 and Section R33-7-601.

(10) The evaluation committee and the conducting procurement unit shall prepare a justification statement and any applicable cost-benefit analysis in accordance with Section 63G-6a-708.

(11) The issuing procurement unit's role as a non-scoring member of the evaluation committee will be to facilitate the evaluation process within the guidelines of the Utah Procurement Code and applicable Rules.

(12)(a) The head of the issuing procurement unit may remove a member of an evaluation committee for:

(i) having a conflict of interest or the appearance of a conflict of interest with a person responding to a solicitation;

(ii) having an unlawful bias or the appearance of unlawful bias for or against a person responding to a solicitation;

(iii) having a pattern of arbitrary, capricious, or clearly erroneous scores that are unexplainable or unjustifiable;

(iv) having inappropriate contact or communication with a person responding to a solicitation;

(v) socializing inappropriately with a person responding to a solicitation;

(vi) engaging in any other action or having any other association that causes the head of the issuing procurement unit to conclude that the individual cannot fairly evaluate a solicitation response; or

(vii) any other violation of a law, rule, or policy.

(b) The head of the issuing procurement unit may reconstitute an evaluation committee in any way deemed appropriate to correct an impropriety described in Subsection (12)(a). If an impropriety cannot be cured by replacing a member, the head of the issuing procurement unit may appoint a new evaluation committee, cancel the procurement or cancel and reissue the procurement.

R33-7-704. Scoring of Evaluation Criteria, Other Than Cost, for Proposals Meeting Mandatory Minimum Requirements in the RFP Process.

(1) The scoring of evaluation criteria, other than cost, for proposals meeting the mandatory minimum requirements in an RFP shall be based on a one through five point scoring system. The scoring of evaluation criteria, other than cost, for proposals in the RFP process shall be:

(a) based on a one through five point scoring system;

(b) used to determine which proposals meet mandatory minimum requirements or score thresholds set forth in the RFP for proposals to move on to a subsequent stage in the RFP process; and

(c) used to assist the procurement unit in selecting which proposals or the scoring of proposals with other persons not on the evaluation committee.

(2) Points shall be awarded to each applicable evaluation criteria as set forth in the RFP, including but not limited to:

(a) Technical specifications;

(b) Qualifications and experience;

R33-7-705. Evaluation Committee Members Required to Exercise Independent Judgment.

(1)(a) Evaluators are required to exercise independent judgment in a manner that is not dependent on anyone else's opinions or wishes.

(b) Evaluators must not allow their scoring to be inappropriately influenced by another person's wishes that additional or fewer points be awarded to a particular offeror.

(c) Evaluators may seek to increase their knowledge before scoring by asking questions and seeking appropriate information from the conducting procurement unit or issuing procurement unit. Otherwise, evaluators should not discuss proposals or the scoring of proposals with other persons not on the evaluation committee.

(2)(a) The exercise of independent judgment applies not only to possible inappropriate influences from outside the evaluation committee, but also to inappropriate influences from within the committee. It is acceptable for there to be discussion and debate within the committee regarding how well a proposal meets the evaluation criteria. However, open discussion and debate may not lead to coercion or intimidation on the part of one committee member to influence the scoring of another committee member.

(b) Evaluators may not act on their own or in concert with another evaluation committee member to inappropriately steer an award to a favored vendor or to disfavor a particular vendor.
(c) Evaluators are required to report any attempts by others to improperly influence their scoring to favor or disfavor a particular offeror.

(d) If an evaluator feels that the evaluator's independence has been compromised, the evaluator must recuse himself or herself from the evaluation process.

(1) The underlying purposes and policies of the Utah Procurement Code are to ensure the fair and equitable treatment of all persons who deal with the procurement system and to foster effective broad-based competition within the free enterprise system. The most effective way to achieve this is by conducting a standard procurement process whenever public funds are expended for a procurement item. Sole source contract awards do not involve a standard procurement process and should only be used when justified after reasonable research has been conducted to determine if there are other available sources and an analysis has been conducted to determine if a sole source award is cost justified.

(2) Circumstances for which a sole source contract award may be justified include procurements for:

(a) A procurement item for which there is no comparable product or service, such as a one-of-a-kind item available from only one vendor;

(b) A component or replacement part for which there is no commercially available substitute, and which can be obtained only directly from the manufacturer; or

(c) An exclusive maintenance, service, or warranty agreement.

(3) Prior to awarding a sole source contract, the chief procurement officer or head of a procurement unit with independent procurement authority shall, whenever practicable, conduct a price analysis in accordance with Section R33-12-603.

(4) An urgent or unexpected circumstance or requirement for a procurement item does not justify the award of a contract without engaging in a standard procurement process.

(1) For the purpose of this section, the following definitions shall apply:

(a) "Competing type of procurement item" means a type of procurement item that is the same, equivalent, or superior to the existing type of procurement item currently under contract in all material aspects including:

(i) performance;

(ii) specifications;

(iii) scope of work; and

(iv) provider qualifications, certifications, and licensing.

(b) "Competing provider" means another provider other than the existing provider under contract that provides a competing type of procurement item.

(c) "Significant", "unreasonable or cost-prohibitive" transitional costs are defined as costs associated with changing from an existing provider of a procurement item to another provider of that procurement item or from an existing type of procurement item to another type that:

(i) constitute a measurably large amount that would likely have an influence or effect on the award of a contract if a competitive procurement were to be conducted for the procurement item being considered; and

(ii) provides a compelling justification for not conducting a competitive standard procurement process.

(2) Transitional costs that must be considered in a cost-benefit analysis include:
(a) Costs that are directly associated with changing from an existing provider of a procurement item to a competing provider of that procurement item or from an existing type of procurement item to a competing type of procurement item; and
(b) A full lifecycle cost analysis of the existing type of procurement item and competing type of procurement items in order to determine which procurement item is more cost-effective.
(3) Transitional costs that may be considered in a cost-benefit analysis include:
(a) Costs identified in Subsection 63G-6a-103(95)(b);
(b) Costs offered by a competing provider(s) for a competing type of procurement item in a competitive bid or RFP process conducted within the last 12 months;
(c) Costs offered by a competing provider(s) for a competing type of procurement item in a competitive bid or RFP process conducted prior to the most recent 12 months;
(d) Written cost estimates obtained by the conducting procurement unit from a competing provider(s) for a competing type of procurement item; and
(e) Other transitional costs determined to be applicable by the chief procurement officer or head of a procurement unit with independent procurement authority.
(4) Transitional costs or other information that may not be considered in a cost-benefit analysis include:
(a) Costs prohibited in Subsection 63G-6a-103(95)(c);
(b) Data provided by the existing provider for the purpose of establishing:
(i) the market value of the existing type of procurement item; or
(ii) a competing provider's price for a competing type of procurement item;
(c) Costs associated with any other procurement item other than the existing type of procurement item or a competing type of procurement item;
(d) Non-monetary factors, such as the provider's performance, agency preference, and other data or information not specific to the transitional costs associated with the existing type of procurement item or a competing type of procurement item;
(e) Factors other than the monetary transitional costs directly associated with changing from an existing provider of a procurement item to a competing provider of that procurement item or from an existing type of procurement item to a competing type of procurement item; and
(f) Other transitional costs or other information deemed inappropriate by the chief procurement officer or head of a procurement unit with independent procurement authority.
(5) The conducting procurement unit shall complete a written cost-benefit analysis and submit it to the issuing procurement unit for approval.
(6) The cost-benefit analysis should not be overly time-consuming to complete or involve hiring costly consultants or financial analysts.

(1) In accordance with Section 63G-6a-802(1)(c), the chief procurement officer or head of a procurement unit with independent procurement authority may consider, as applicable, the following circumstances when making a determination as to whether awarding a contract through a standard procurement process is impractical and not in the best interest of the procurement unit:
(a) a contract award to a specific supplier, service provider, or contractor is a condition of a donation or grant that will fund the full cost of the supply, service, or construction item;
(b) public utility services, when only one public utility service is available in an area;
(c) an item where compatibility is the overriding consideration; or
(d) a used procurement item that presents a unique, specialized, or time-limited buying opportunity.

(1)(a) The division shall make available a Form titled: "Notice of intent to award a contract without engaging in a standard procurement process" that requires the conducting procurement unit to provide, at a minimum, the following information:
(i) a description of the procurement item, including, when applicable, the proposed scope of work;
(ii) the total dollar value of the procurement item, including, when applicable, the actual or estimated full lifecycle cost of maintenance and service agreements;
(iii) the duration of the proposed contract;
(iv) the signature of an authorized official of the conducting procurement unit; and
(v) research completed by the conducting procurement unit documenting that:
(A) There are no other competing vendors or sources for the procurement item in accordance with the provisions set forth in Section R33-8-101a;
(B) Transitional costs are a significant consideration in selecting a procurement item and the results of the cost benefit analysis documenting that transitional costs are unreasonable or cost-prohibitive and awarding a contract without engaging in a standard procurement process is in the best interest of the procurement unit in accordance with the provisions set forth in Section R33-8-101b; or
(C) Other circumstances that make awarding a contract through a standard procurement process impractical and not in the best interest of the procurement unit in accordance with the provisions set forth in Section R33-8-101c.
(b) A procurement unit with independent procurement authority may use the division's Form or develop its own Form to provide notice of intent to award a contract without engaging in a standard procurement process that contains, at a minimum, the same basic information in Subsection (1)(a).
(c) The conducting procurement unit shall submit in writing a completed "Notice of intent to award a contract without engaging in a standard procurement process" to the chief procurement officer, or head of a procurement unit with independent procurement authority for approval.

(1) Except as provided in Subsection (2), publication of a "Notice of intent to award a contract without engaging in a standard
procurement process” shall be published in accordance with Section 63G-6a-112 if the cost of the procurement being considered under this rule exceeds $50,000.

(2)(a) When making a determination under Sections R33-8-101a, 101b, or 101c, the chief procurement officer or head of a procurement unit with independent procurement authority may waive the requirement to publish the "Notice of intent to award a contract without engaging in a standard procurement process" for the following procurements:

(i) procurements of $50,000 or less;
(ii) public utility services;
(iii) conference and convention facilities with unique or specialized amenities, abilities, location, or services;
(iv) conference fees, including materials;
(v) membership dues;
(vi) speakers or trainers with unique or proprietary presentations or training materials;
(vii) hosting of in-state, out-of-state, and international dignitaries; or
(viii) international, national, or local promotion of the state or a public entity.

(b) An award when the Legislature identifies the intended recipient of a contract;

(ii) An award to a specific supplier, service provider, or contractor if the award is a condition of a donation or grant that will fund the full cost of the supply, service, or construction item;

(iii) Catering services at government functions where the event requires a caterer with unique and specialized qualifications, skills, and abilities; or

(iv) Other circumstances as determined in writing by the chief procurement officer or the head of a procurement unit with independent procurement authority.

(2) Upon receipt of a challenge contesting an award of a contract without engaging in a standard procurement process, the chief procurement officer or the head of a procurement unit with independent procurement authority shall conduct an investigation to determine the validity of the challenge and make a written determination either supporting or denying the challenge.

(a) If a challenge is upheld, the conducting procurement unit shall conduct a standard procurement process for the procurement item being considered or cancel the procurement;

(b) If a challenge is not upheld, the conducting procurement unit may proceed with awarding a contract without engaging in a standard procurement process.

(3) A vendor's right to file a protest under Title 63G, Chapter 6a; Part 16, is not waived by a vendor's actions to contest or challenge a procurement unit's notice of intent to award a contract without engaging in a standard procurement process under Section R33-8-101f.

R33-8-102. Reserved.
Reserved.

(1) One of the underlying purposes and policies of the Utah Procurement Code is to ensure the fair and equitable treatment of all persons who deal with the procurement system and to foster effective broad-based competition within the free enterprise system. The most effective way to achieve this is by conducting a standard procurement process whenever public funds are expended for a procurement item. A contract extension does not involve a standard procurement process and should only be used after thorough analysis and proper justification.

(2) Pursuant to Section 63G-6a-103, "contract administration" is a duty of the conducting procurement unit and includes all functions, duties, and responsibilities associated with closing out a contract. In fulfillment of these duties, the conducting procurement unit shall maintain a process or system for tracking contract expiration dates in order to determine well in advance of a contract expiration date if there is a continuing need for the procurement item. If the conducting procurement unit determines there is a continuing need for the procurement item, the conducting procurement unit shall whenever practicable:

(a)(i) Initiate a standard procurement process no later than 90 days prior to the contract expiration date of an existing contract; and

(ii) No later than 45 days prior to the contract expiration date, publish, if applicable, a solicitation for the procurement item; or

(b)(i) If the conducting procurement unit determines that a procurement will be complex or involve a change in industry standards or new specifications requiring negotiations, no later than 180 days prior to the contract expiration date, initiate a standard procurement process; and

(ii) No later than 45 days prior to the contract expiration date, publish, if applicable, a solicitation for the procurement item.

(3) The following do not justify an extension of a contract under Section 63G-6a-802.7:
(a) A procurement unit's intentional delay in conducting a standard procurement process to award a contract to replace an expiring contract; and
(b) A procurement unit or vendor's intentional delay in executing a contract to replace an expiring contract.
(4) Improperly avoiding engaging in a standard procurement process in order to extend the duration of a vendor's existing contract through means of a contract extension, may be classified as "steering a contract to a favored vendor" which is reportable as unlawful conduct under Section 63G-6a-2407.

R33-8-201. Trial Use or Testing of a Procurement Item, Including New Technology.
The trial use or testing of a procurement item, including new technology, shall be conducted as set forth in Section 63G-6a-802.3, Utah Procurement Code.

R33-8-301. Reserved.
Reserved.

R33-8-401. Emergency Procurement.
(1) Emergency procurements shall be conducted in accordance with the requirements set forth in Section 63G-6a-803, and this rule.
(2) An emergency procurement is a procurement procedure where the procurement unit is authorized to obtain a procurement item without using a standard competitive procurement process.
(3) An emergency procurement may only be used when circumstances create harm or risk of harm to public health, welfare, safety, or property.
(a) Circumstances that may create harm or risk to health, welfare, safety, or property include:
(i) damage to a facility or infrastructure resulting from flood, fire, earthquake, storm, or explosion;
(ii) failure or eminent failure of a public building, equipment, road, bridge or utility;
(iii) terrorist activity;
(iv) epidemics;
(v) civil unrest;
(vi) events that impair the ability of a public entity to function or perform required services;
(vii) situations that may cause harm or injury to life or property; or
(viii) other conditions as determined in writing by the chief procurement officer, or as applicable, the head of a procurement unit with independent procurement authority.
(4) Emergency procurements are limited to those procurement items necessary to mitigate the emergency.
(5) While a standard procurement process is not required under an emergency procurement, when practicable, procurement units should seek to obtain as much competition as possible through use of phone quotes, internet quotes, limited invitations to bid, or other selection methods while avoiding harm, or risk of harm, to the public health, safety, welfare, property, or impairing the ability of a public entity to function or perform required services.
(6) The procurement unit shall make a written determination documenting the basis for the emergency and the selection of the procurement item. A record of the determination and selection shall be kept in the contract file. The documentation may be made after the emergency condition has been alleviated.

R33-8-501. Declaration of "Official State of Emergency".
Upon a declaration of an "Official State of Emergency" by the authorized state official, the chief procurement officer shall implement the division's Continuity of Operations Plan, or COOP. When activated, the division shall follow the procedures outlined in the plan and take appropriate actions as directed by the procurement unit responsible for authorizing emergency acquisitions of procurement items.

AUTHORIZED BY: Kent Beers, Director

R33. Administrative Services, Purchasing and General Services.
(1) [An Invitation for Bids, a Request for Proposals, or other solicitation:] A solicitation under a standard procurement process may be canceled prior to the deadline for receipt of [bids, proposals, or other submissions] a solicitation response when it is in the best interests of the procurement unit as determined by the issuing procurement unit. In the event a solicitation is cancelled, the reasons for cancellation shall be made part of the procurement file and shall be available for public inspection and the procurement unit shall:
(a) re-solicit new [bids or proposals:] responses to a solicitation using a standard procurement process using the same or revised specifications; or,
(b) withdraw the requisition for the procurement item(s).

(1) In the event there is no [initial:] response to an initial solicitation, the chief procurement officer or head of a procurement unit with independent procurement authority may:
(a) contact the known supplier community to determine why there were no responses to the solicitation;
(b) research the potential vendor community; and,
(c) based upon the information in (a) and (b) require the conducting procurement unit to modify the solicitation documents.
(2) If the conducting procurement unit has modified the solicitation documents and after the re-issuance of a solicitation, there is still no competition or there is insufficient competition, the chief procurement officer or head of a procurement unit with independent procurement authority, shall:
(a) require the conducting procurement unit to further modify the procurement documents; or,
(b) cancel the requisition for the procurement item(s).
(3) An executive branch procurement unit may not reissue a canceled solicitation unless:
(a) The chief procurement officer determines that all of the issues identified in the written justification for canceling the solicitation set forth in R33-9-103 have been resolved.

R33-9-103. Cancellation Before Award But After Opening.
(1) When it is determined before award but after opening that the specifications, scope of work or other requirements contained in the solicitation documents were not met by any bidder or offerer, the solicitation shall be cancelled.
(2) A solicitation under a standard procurement process may be cancelled before award but after the opening [all bids or offers:] of solicitation responses when the issuing procurement unit determines in writing that [an infraction of code, rule, or policy has occurred or that there is other good cause including:]
(a) the scope of work or other requirements contained in the solicitation documents were not met by any person and all solicitation responses have been determined to be either nonresponsive or not responsible;
(b) an infraction of code, rule, or policy has occurred;
(c) inadequate, erroneous, or ambiguous specifications or requirements were cited in the solicitation;

(d) the specifications in the solicitation have been or must be revised;

(e) the procurement item(s) being solicited are no longer required;

(f) the solicitation did not provide for consideration of all factors of cost to the procurement unit, such as cost of transportation, warranties, service and maintenance;

(g) [bids or offers] solicitation responses received indicate that the needs of the procurement unit can be satisfied by a less expensive procurement item differing from that in the solicitation;

(h) except as provided in Section 63G-6a-607, all otherwise acceptable [bids or offers] solicitation responses received are at unreasonable prices, or only one [bid or offer] solicitation response is received and the chief procurement officer or head of a procurement unit with independent procurement authority cannot determine the reasonableness of the bid price or cost proposal;

(i) the responses to the solicitation were not independently arrived at in open competition, were collusive, or were submitted in bad faith or;

(j) no responsive bid or offer has been received from a responsible bidder or offer;

(k) other reasons specified in 63G-6a or Administrative Rule; or

(l) other circumstances deemed to constitute reasonable cause by the chief procurement officer or head of a procurement unit with independent procurement authority.

3. Notwithstanding the above, a procurement unit may not cancel and reissue a solicitation:

(a) To steer a contract to a favored vendor; or

(b) Except as permitted under the protest and appeal provisions set forth in Utah Code 63G-6a, Parts 16 and 17, to make a vendor who was previously disqualified or rejected in a solicitation for the procurement item eligible for a contract award for the same procurement item.

R33-9-104. Alternative to Cancellation.

In the event administrative difficulties are encountered before award but after the deadline for [submissions] receipt of solicitation responses that may delay award beyond the bidders', or person's, acceptance periods, the bidders, or persons, should be requested, before expiration of their [bids or offers] solicitation responses, to extend in writing the acceptance period (with consent of sureties, if any) in order to avoid the need for cancellation.

R33-9-105. Award of a Contract After Cancellation for Cause or by Mutual Agreement.

1. If a contract awarded through a standard procurement process is cancelled for cause or by mutual agreement within the first twelve months of the contract term and the procurement item is still needed by the procurement unit, the chief procurement officer or head of a procurement unit with independent procurement authority shall make a determination as to whether it is in the best interest of the procurement unit to award a contract for the balance of the scope of work, as set forth in the solicitation, to:

(a) the responsible vendor with a responsive solicitation response, meeting all minimum score thresholds set forth in the solicitation;

(b) the next lowest bid in an invitation for bids procurement process and in accordance with the provisions set forth in Utah Code 63G-6a, Part 6 and Administrative Rule R33; or

(c) the highest total score or other authorized method to award a contract in accordance with the provisions of:

(A) the request for proposals procurement process set forth in Utah Code 63G-6a, Part 7 and Administrative Rule R33; or

(B) the approved vendor list procurement process set forth in Utah Code 63G-6a-307 and R33; or

(C) the design professional procurement process set forth in Utah Code 63G-6a, Part 15 and Administrative Rule R33; or

(d) issue a new solicitation for the procurement item.

2. The chief procurement officer or head of a procurement unit with independent procurement authority shall consider the following when making a determination under Subsection (1):

(a) the fair and equitable treatment of all persons currently involved or that may be involved in the procurement process pertaining to the procurement item;

(b) the length of time that has passed between the initial procurement and cancellation of the awarded contract;

(c) the applicability and competitiveness of prices submitted in response to the initial procurement;

(d) the willingness of the vendor to maintain prices submitted in the vendor's initial response to the solicitation for the full scope of work or, as applicable, remaining proportionate scope of work;

(e) the vendor's availability and ability to perform the work;

(f) the existence of additional or new vendors who may be available and willing to submit responses to a new solicitation for the procurement item;

(g) costs and time delays to the procurement unit associated with conducting a new procurement; and

(h) other applicable issues unique to the solicitation or procurement item.

3. This rule may not be used:

(a) If a contract is cancelled by a procurement unit for convenience;

(b) To extend the contract beyond the contract period identified in the solicitation; or

(c) If a contract is cancelled after the first twelve months of the contract period.

An issuing procurement unit may reject any or all [bids or offers or other submissions] solicitation responses, in whole or in part, as may be specified in the solicitation, when it is in the best interest of the procurement unit. In the event of a rejection of any or all bids, offers or other submissions, in whole or in part, the reasons for rejection shall be made part of the procurement file and shall be available for public inspection.
(1)(a) Any solicitation response that fails to conform to the essential requirements of the solicitation shall be rejected.

(b) Any solicitation response that does not conform to the applicable specifications shall be rejected unless the solicitation authorized the submission of alternate solicitation responses and the procurement item(s) offered as alternatives meet the requirements specified in the solicitation.

(c) Any solicitation response that fails to conform to the delivery schedule or permissible alternates stated in the solicitation shall be rejected.

(2) A solicitation response shall be rejected when the bidder or offeror imposes conditions or takes exceptions that would modify requirements or terms and conditions of the solicitation or limit the bidder or offeror's liability for the procurement, since to allow the bidder or offeror to impose such conditions or take exceptions would be prejudicial to other bidders or offerors.

For example, [bid or offer] solicitation responses shall be rejected in which the [bidder or offeror]:

(a) for commodities, protects against future changes in prices, such as increased costs, if total possible costs to the procurement unit cannot be determined;

(b) fails to state a price and indicates that price shall be the price in effect at time of delivery or states a price but qualifies it as being subject to price in effect at time of delivery;

(c) when not authorized by the solicitation, conditions or qualifications a bid by stipulating that it is to be considered only if, before date of award, the bidder or offeror receives (or does not receive) an award under a separate solicitation;

(d) requires that the procurement unit is to determine that the bidder or offeror's product meets applicable specifications; or

(e) limits rights of the State under any contract clause.

[ ]

(2) A bidder or offeror may be requested to delete objectionable conditions from a bid or offer provided doing so is not prejudicial to other bidders or offerors, or the conditions do not go to the substance, as distinguished from the form, of the bid. A condition goes to the substance of a bid or offer where it affects price, quantity, quality, or delivery of the procurement item(s) offered.

R33-9-203. Unreasonable or Unbalanced Pricing.

(1)(a) Any bid or offer may be rejected if the chief procurement officer or head of a procurement unit with independent procurement authority determines in writing that it is unreasonable as to price. Unreasonableness of price includes not only the total price of the bid or offer, but the prices for individual line items as well.

(b) Any bid or offer may be rejected if the prices for any line items or subline items are materially unbalanced. Unbalanced pricing may increase performance risk and could result in payment of unreasonably high prices. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more line items is significantly over or understated as indicated by the application of cost or price analysis techniques. The greatest risks associated with unbalanced pricing occur when:

(i) startup work, mobilization, procurement item sample production or testing are separate line items;

(ii) base quantities and option quantities are separate line items; or

(iii) the evaluated price is the aggregate of estimated quantities to be ordered under separate line items of an indefinite-delivery contract.

(c) All bids or offers with separately priced line items or subline items shall be analyzed to determine if the prices are unbalanced. If cost or price analysis techniques indicate that an offer is unbalanced, the procurement unit shall:

(i) consider the risks to the procurement unit associated with the unbalanced pricing in determining the competitive range and in making the source selection decision; and

(ii) consider whether award of the contract will result in paying unreasonably high prices for contract performance.

(d) A bid or offer may be rejected if the procurement unit and the chief procurement officer or head of a procurement unit with independent procurement authority determine that the lack of balance poses an unacceptable risk to the State.

R33-9-204. Rejection for Nonresponsibility or Nonresponsiveness.

(1) Subject to Section 63G-6a-903, the chief procurement officer or head of a procurement unit with independent procurement authority shall reject a bid or offer from a bidder or offeror determined to be nonresponsive. A responsible bidder or offeror is defined in Section 63G-6a-103(42). The chief procurement officer or head of a procurement unit with independent procurement authority:

(a) Shall, subject to Section 63G-6a-903 and, as applicable, Section 63G-6a-604, reject a bid if the bid is determined not responsive or the bid is submitted by a bidder determined to be not responsible;

(b) May reject a solicitation response to any other type of standard procurement process if the solicitation response is determined to be not responsive or the solicitation response is submitted by a person determined to be not responsible; and

(c) Subsections (a) and (b) shall be conducted in accordance with the definitions of Responsible and Responsive set forth in Section 63G-6a-103.

(2) In accordance with Section 63G-6a-604(3) the chief procurement officer or head of a procurement unit with independent procurement authority may not accept a bid that is not responsive. Responsiveness is defined in Section 63G-6a-103(43).

(3) When a bid security is required and a bidder fails to furnish the security in accordance with the requirements of the invitation for bids, the bid shall be rejected.

R33-9-301. Rejection for Suspension/Debarment.

Bids, offers, or other submissions solicitation responses received from any person that is suspended, debarred, or otherwise ineligible as of the [date] deadline for receipt of bids, proposals, or other submissions shall be rejected.

R33-11. Form of Bonds.
(1)(a) Whenever used in this Rule, the terms "bid", "bidder" and "bid security" apply to all procurements, including non-construction procurements, when the procurement documents, regardless of the procurement type, require securities and/or bonds.
(b) All definitions in the Utah Procurement Code shall apply to this Rule unless otherwise specified in this Rule. This administrative rule provides additional requirements and procedures and must be used in conjunction with the Procurement Code.

R33-11-201. Bid Security Requirements for Projects.
(1) Invitations for Bids and Requests for Proposals for construction contracts estimated to exceed $50,000 shall require the submission of bid bond in an amount equal to at least 5% of the bid, at the time the bid is submitted.
(2) Invitations for Bids and Requests for Proposals for other procurements may require the submission of a bid security, including specifications for the form and type of bid security, when the chief procurement officer or the head of a procurement unit with independent procurement authority determines it is in the best interest of the procurement unit.
(3) If a person fails to include the required bid security, the bid shall be deemed nonresponsive and ineligible for consideration of award except as provided by Rule R33-6-108, Rule R33-6-109 or Rule R33-11-202(b).
(4) The chief procurement officer or head of a procurement unit with independent procurement authority may require an acceptable bid security on projects that are for amounts less than the standard amount set forth in Rule R33-11-201(1).

(1) If acceptable bid security is not furnished, the bid shall be rejected as nonresponsive, unless the failure to comply is determined by the chief procurement officer or head of a procurement unit with independent procurement authority to be nonsubstantial. Failure to submit an acceptable bid security may be deemed nonsubstantial if:
(a) the bid security is submitted on a form other than the required bid bond form and the bid security meets all other requirements including being issued by a surety meeting the requirements of Rule R33-11-30[4][3](1)(b) and the contractor provides acceptable bid security by the close of business of the next succeeding business day after the procurement notified the contractor of the defective bid security; or
(b) only one bid is received, and there is not sufficient time to re-solicit; or
(c) the amount of the bid security submitted, though less than the amount required by the Invitation for Bids, is equal to or greater than the difference in the price stated in the next higher acceptable bid; or
(d) the bid security becomes inadequate as a result of the correction of a mistake in the bid or bid modification[ in accordance with Rule R33-6-108 (Mistakes in Bids) or Rule R33-7-401 (Mistakes in Proposals) Rule R33-7-402 (Correction of Mistakes)], if the bidder increases the amount of guarantee to required limits within 48 hours after the bid opening.
(2) If the successful bidder fails or refuses to enter into the contract or furnish the additional bonds required under Rule R33-11-2, then the bidder's bid security may be forfeited.

A performance bond is required for all construction contracts in excess of $50,000, in the amount of 100% of the contract price. The performance bond shall be delivered by the contractor to the procurement unit within fourteen days of the contractor receiving notice of the award of the construction contract. If a contractor fails to deliver the required performance bond, the contractor's bid/offer shall be rejected, its bid security may be enforced, and award of the contract may be made to the next lowest responsive and responsible bidder or highest ranked offeror responsible bidder or offeror with the next lowest responsive bid or highest ranked offer.

R33-11-302. Surety or Performance Bonds for Non-construction Procurement Items.
(1) A surety or performance bond may be required on any non-construction contract if the chief procurement officer or head of a procurement unit with independent procurement authority deems it necessary to guarantee the satisfactory completion of a contract, provided:
(a) The [Invitation for Bids or Request for Proposals] solicitation contains a statement that a surety or performance bond is required in an amount:
(i) equal to the amount of the bid; or offer, or other response;
(ii) equal to the project budget or estimated project cost, if the budget or estimated project cost is published in the solicitation documents;
(iii) equal to the previous contract cost, if the previous contract cost is published in the solicitation documents; or
(iv) The Invitation for Bids or Request for Proposals contains a statement that a surety or performance bond, in an amount less than the amounts contained in (a), is required; and
(b) The [Invitation for Bids or Request for Proposals] solicitation contains a detailed description of the work to be performed for which the surety or performance bond is required.
(2) Surety or Performance Bonds should not be used to unreasonably eliminate competition or be of such unreasonable value as to eliminate competition.

R33-11-303. Payment Bonds.
(1) A payment bond is required for all construction contracts in excess of $50,000, in the amount of 100% of the contract price. If a contractor fails to deliver the required payment bond, the contractor's bid or offer shall be rejected, its bid security may be enforced, and award of the contract shall be made to the next lowest responsive and responsible bidder or highest ranked offeror responsible bidder or offeror with the next lowest responsive bid or highest ranked offer.
For executive branch procurement units:
(a) Bid Bonds, Payment Bonds and Performance Bonds submitted by vendors to executive branch procurement units must be from sureties meeting the requirements of Rule R33-11-30[4][3](1)(b) and must be on the required bond forms;
(b) Surety firm requirements. All surety firms must be authorized to do business in the State of Utah and be listed in the U.S. Department of the Treasury Circular 570, Companies Holding Certificates of Authority as Acceptable Securities on Federal Bonds and as Acceptable Reinsuring Companies for an amount not less than the amount of the bond to be issued.
(14) The chief procurement officer, or head of a procurement unit with independent procurement authority, may waive any bonding requirement if it is determined in writing by the
chief procurement officer or head of a procurement unit with independent procurement authority that:

(a) bonds cannot reasonably be obtained for the work involved;
(b) the cost of the bond exceeds the risk to the procurement unit; or
(c) bonds are not necessary to protect the interests of the procurement unit.

(1) Executive branch procurement units without independent procurement authority shall be required to use the Standard Terms and Conditions adopted by the division for each particular procurement, unless exceptions or additions are granted by the Chief Procurement Officer after consultation with the Attorney General's Office. Public entities, other than executive branch procurement units, may enact similar requirements. Terms and conditions may be established for:

(a) a category of procurement items;
(b) a specific procurement item;
(c) general use in all procurements;
(d) the special needs of a conducting procurement unit; or
(e) the requirements of federal funding.

(2) In addition to the required standard terms and conditions, executive branch procurement units without independent procurement authority may submit their own additional special terms and conditions subject to the following:

(a) the chief procurement officer may reject terms and conditions submitted by a conducting procurement unit if:
   (i) the terms and conditions are unduly restrictive;
   (ii) will unreasonably increase the cost of the procurement item; or
   (iii) places the state at increased risk.

(b) the chief procurement officer may require the conducting procurement unit's Assistant Attorney General to approve any additional special terms and conditions.

R33-1201. Awarding Multiple Award Contracts.

(1) A multiple award contract is a procurement process where two or more bidders or offerors are awarded a contract under a single solicitation. Purchases are made through an order placed with a vendor on multiple award contract pursuant to the procedures established in R33-12-3011, ordering from a multiple award contract.

(2) As authorized under Section 63G-6a-1204.5, the division or a procurement unit with independent procurement authority may enter into multiple award contracts.

(3) A multiple award contract may be awarded under a single solicitation when two or more bidders or offerors for similar procurement items are needed for:

(a) Coverage on a statewide, regional, combined statewide and regional basis, agency specific requirement, or other criteria specified in the solicitation such as:
   (i) delivery;
   (ii) service;
   (iii) product availability; or
   (iv) Compatibility with existing equipment or infrastructure.

(4) In addition to the requirements set forth in Section 63G-6a-603 and Section 63G-6a-703, when it is anticipated that a procurement will result in multiple contract awards, the solicitation shall include a statement that:

(a) Indicates that contracts may be awarded to more than one bidder or offeror;

(b) Specifies whether contracts will be awarded on a statewide, regional, combined statewide and regional basis, or agency specific requirement; and

(c) Describes specific methodology or a formula that will be used to determine the number of contract awards.

(5) Multiple award contracts in an invitation for bids shall be conducted and awarded in accordance with Utah Code 63G-6a, Part 6 to the lowest responsive and responsible bidder(s) who meet the objective criteria described in the invitation for bids and may be awarded to provide adequate regional, statewide, or combined regional and statewide coverage, agency specific requirement, or delivery, or product availability using the following methods:

(a) lowest bids for all procurement items solicited provided the solicitation indicates that multiple contracts will be awarded to the lowest bidders for all procurement items being solicited as determined by the following methods:
   (i) all bids within a specified percentage, not to exceed five percent, of the lowest responsive and responsible bid, unless otherwise approved in writing by the chief procurement officer or head of a procurement unit with independent procurement authority;
   (ii) all responsive and responsible bidders will be awarded a contract, provided the contract specifically directs that orders must be placed first with low bidder unless the lowest bidder cannot provide the needed procurement item, then with the second lowest bidder unless the second lowest bidder cannot provide the needed procurement item, then with the third lowest bidder unless the third lowest bidder cannot provide the needed procurement item, and so on in order from the lowest responsive and responsible bidder to the highest responsive and responsible bidder; or
   (iii) other methodology described in the solicitation to award contracts;

(b) lowest bid by Category provided:
   (i) the solicitation indicates that a contract will be awarded based on the lowest bid per category;
   (ii) only one bidder may be awarded a contract per category;

(c) lowest bid by line item provided:
(i) the solicitation indicates that a contract will be awarded based on the lowest bid per line item, task or service;
(ii) only one bidder may be awarded a contract per line item, task or service; or
(d) Other specific objective methodology described in the solicitation, such as R33-12-302 for primary and secondary contracts, approved by the chief procurement officer or head of a procurement unit with independent procurement authority.

(6) Multiple award contracts in a request for proposals shall be conducted and awarded in accordance with Utah Code 63G-6a, Part 7 and may be awarded on a statewide, regional, combination statewide and regional basis, agency specific requirement, or other criteria set forth in the solicitation and in accordance with point thresholds and other methodology set forth in the RFP describing how multiple award contracts will be awarded with enough specificity as to avoid the appearance of any favoritism affecting the decision of whether to award a multiple contract and who should receive a multiple award contract.

R33-12-301a. Multiple Award Contracts for Unidentified Procurement Items.
(1) An unidentified procurement item is defined as a procurement item that at the time the solicitation is issued:
   (a) Has not been specifically identified but will be identified at some time in the future, such as an approved vendor list or approved consultant list;
   (b) Does not have a clearly defined project or procurement specific scope of work; and
   (c) Does not have a clearly defined project or procurement specific budget.
(2) Unidentified procurement items may be procured under the approved vendor list thresholds established by the applicable rule making authority or Section R33-4-102.
(3) An RFP, request for statements of qualifications, or multi stage solicitation issued for a multiple award contract for unidentified procurement item(s) must specify the methodology that the procurement unit will use to determine which vendor under the multiple award contract will be selected.
   (a) The methodology must include a procedure to document that the procurement unit is obtaining best value, including an analysis of cost and other evaluation criteria outlined in the solicitation.
   (b) The methodology must also ensure the fair and equitable treatment of each multiple award contract vendor, including using methods to select a vendor such as:
      (i) a rotation system, organized alphabetically, numerically, or randomly;
      (ii) assigning a potential vendor or contractor to a specified geographical area;
      (iii) classifying each potential vendor or contractor based on the potential vendor's or contractor's field or area of expertise; or
      (iv) obtaining quotes or bids from two or more vendors or contractors.

R33-12-301b. Ordering From A Multiple Award Contract.
(1)(a) When buying a procurement item from a multiple award contract solicited through an invitation for bids, a procurement unit shall:
   (i) obtain a minimum of two quotes for the procurement item if the contract was awarded based on the method described in R33-12-301(5)(a)(i) and place the order for the procurement item with the vendor or contractor with the lowest quoted price;
   (ii) place the order for the procurement item with the lowest bidder on contract unless the lowest bidder cannot provide the needed procurement item, then the order may be placed with the second lowest bidder unless the second lowest bidder cannot provide the needed procurement item and on, in order, from lowest bidder to highest bidder as described in R33-12-301(5)(a)(ii);
   (iii) place the order in accordance with instructions contained in the contract for the procurement item if the contract was awarded based on the method described in R33-12-301(5)(a) (iii);
   (iv) place the order for the procurement item if the contract was awarded based on the method described in R33-12-301(5)(b); or
   (v) place the order for the procurement item if the contract was awarded based on the method described in R33-12-301(5)(c);
(b) The requirement to obtain two or more quotes in section (1)(a)(i) is waived when there is only one bidder award for the particular procurement item or only one bidder is awarded per geographical area.
(2) When buying a procurement item from a multiple award contract solicited through an RFP, a procurement unit may place orders with any vendor or contractor under contract based on which procurement item best meets the needs of the procurement unit. Contracts awarded through the RFP process are awarded based on best value as determined by cost and non-price criteria specified in the RFP. As a result, all vendors, contractors and procurement items under contract issued through an RFP have been determined to provide best value to procurement units buying from these contracts.
(3) A procurement unit may not use a multiple award contract to steer purchases to a favored vendor or use any other means or methods that do not result in fair consideration being given to all vendors that have been awarded a contract under a multiple award.

R33-12-302. Primary and Secondary Contracts.
(1) Designations of multiple award contracts as primary and secondary may be made provided a statement to that effect is contained in the solicitation documents.
(2) When the chief procurement officer or head of a procurement unit with independent procurement authority determines that the need for procurement items will exceed the capacity of any single primary contractor, secondary contracts may be awarded to additional contractors.
(3) Purchases under primary and secondary contracts shall be made, initially to the primary contractor offering the lowest contract price until the primary contractor's capacity has been reached or the items are not available from the primary contractor, then to secondary contractors in progressive order from lowest price or availability to the next lowest price or availability, and so on.

(1) Procurement units may issue multi-year contracts in accordance with Section 63G-6a-1204.
(2) The standard contract term for executive branch procurement units is five years, unless the chief procurement officer or head of a procurement unit with independent procurement authority determines that a shorter or longer term contract is in the best interest of the procurement unit after considering:

(2) If a settlement cannot be negotiated, either party may seek relief through the courts.

R33-12-603. Price Analysis.
(1) Price analysis may be used to determine if a price is reasonable and competitive, such as when:

R33. Administrative Services, Purchasing and General Services.

The purpose of this rule is to comply with the provisions of Sections 63G-6a-1302 and 1303 of the Utah Procurement Code. All definitions in the Utah Procurement Code shall apply to this Rule unless otherwise specified in this Rule. This administrative rule provides additional requirements and procedures and must be used in conjunction with the Utah Procurement Code.

As required by Section 63G-6a-1302, this rule contains provisions applicable to:

1. selecting the appropriate method of management for construction contracts;
2. documenting the selection of a particular method of construction contract management; and
3. the selection of a construction manager/general contractor.

The provisions of Rules R33-13-201 through R33-13-205 shall apply to all procurements of construction. Rule R33-13-204 establishes the requirements and thresholds for small construction projects. Construction procurement bid security and bonding requirements are contained in Part 11 of the Utah Procurement Code and Rule R33-11.

1. This section contains provisions applicable to the selection of the appropriate type of construction contract management.

2. It is intended that the chief procurement officer or head of a procurement unit with independent procurement authority have sufficient flexibility in formulating the construction contract management method for a particular project to fulfill the needs of the procurement unit. The methods for achieving the purposes set forth in this rule are not to be construed as an exclusive list.

3. Before choosing the construction contracting method to use, a careful assessment must be made by the chief procurement officer or head of a procurement unit with independent procurement authority of requirements the project shall consider, at a minimum, the following factors:

   a. when the project must be ready to be occupied;
   b. the type of project, for example, housing, offices, labs, heavy or specialized construction;
   c. the extent to which the requirements of the procurement unit and the way in which they are to be met are known;
   d. the location of the project;
   e. the size, scope, complexity, and economics of the project;
   f. the amount and type of financing available for the project, including whether the budget is fixed or what the source of funding is, for example, general or special appropriation, federal assistance moneys, general obligation bonds or revenue bonds, lapsing/nonlapsing status and legislative intent language;
   g. the availability, qualification, and experience of the procurement unit's personnel to be assigned to the project and how much time the procurement unit's personnel can devote to the project;
   h. the availability, qualifications and experience of outside consultants and contractors to complete the project under the various methods being considered;
   i. the results achieved on similar projects in the past and the methods used; and
   j. the comparative advantages and disadvantages of the construction contracting method and how they might be adapted or combined to fulfill the needs of the procuring agencies.

5. The following descriptions are provided for the more common construction contracting management methods which may be used by the procurement unit. The methods described are not all mutually exclusive and may be combined on a project. These descriptions are not intended to be fixed in respect to all construction projects. In each project, these descriptions may be adapted to fit the circumstances of that project.

   a. Single Prime (General) Contractor. The single prime contractor method is typified by one business, acting as a general contractor, contracting with the procurement unit to timely complete an entire construction project in accordance with drawings and specifications provided by the procurement unit. Generally the drawings and specifications are prepared by an architectural or engineering firm under contract with the procurement unit. Further, while the general contractor may take responsibility for successful completion of the project, much of the work may be performed by specialty contractors with whom the prime contractor has entered into subcontracts.

   b. Multiple Prime Contractors. Under the multiple prime contractor method, the procurement unit contracts directly with a number of general contractors or specialty contractors to complete portions of the project in accordance with the procurement unit's drawings and specifications. The procurement unit may have primary responsibility for successful completion of the entire project, or the contracts may provide that one or more of the multiple prime contractors has this responsibility.

   c. Design-Build. In a design-build project, an entity, often a team of a general contractor and a designer, contract directly with a procurement unit to meet the procurement unit's requirements as described in a set of performance specifications.
and/or a program. Design responsibility and construction responsibility both rest with the design-build contractor. This method can include instances where the design-build contractor supplies the site as part of the package.

(d) Construction Manager Not at Risk. A construction manager is a person experienced in construction that has the ability to evaluate and to implement drawings and specifications as they affect time, cost, and quality of construction and the ability to coordinate the construction of the project, including the administration of change orders as well as other responsibilities as described in the contract.

(e) Construction Manager/General Contractor (Construction Manager at Risk). The procurement unit may contract with the construction manager early in a project to assist in the development of a cost effective design. In a Construction Manager/General Contractor (CM/GC) method, the CM/GC becomes the general contractor and is at risk for all the responsibilities of a general contractor for the project, including meeting the specifications, complying with applicable laws, rules and regulations, that the project will be completed on time and will not exceed a specified maximum price.

R33-13-204. Selection of Construction Method Documentation.
The chief procurement officer or head of a procurement unit with independent procurement authority shall include in the contract file a written statement describing the facts that led to the selection of a particular method of construction contract management for each project.

R33-13-205. Special Provisions Regarding Construction Manager/General Contractor.
(1) In the selection of a construction manager/general contractor, a standard procurement process as defined in Section 63G-6a-103 may be used or an exception allowed under Part 8 of the Utah Procurement Code.

(2) When the CM/GC enters into any subcontract that was not specifically included in the construction manager/general contractor's cost proposal, the CM/GC shall procure the subcontractor(s) by using a standard procurement process as defined in Section 63G-6a-103 of the Utah Procurement Code or an exception to the requirement to use a standard procurement process, described in Part 8 of the Utah Procurement Code.

(3)(a) As used in this Rule, "management fee" includes only the following fees of the CM/GC:

(i) preconstruction phase services;
(ii) monthly supervision fees for the construction phase;

and

(iii) overhead and profit for the construction phase.

(b) When selecting a CM/GC for a construction project, the evaluation committee:

(i) may score a CM/GC based upon criteria contained in the solicitation, including qualifications, performance ratings, references, management plan, certifications, and other project specific criteria described in the solicitation;

(ii) may, as described in the solicitation, weight and score the management fee as a fixed rate or as a fixed percentage of the estimated contract value;

(iii) may, at any time after the opening of the responses to the request for proposals, have access to, and consider, the management fee proposed by the offerors;

(iv) except as provided in Section 63G-6a-707, may not know or have access to any other information relating to the cost of construction submitted by the offerors, until after the evaluation committee submits its final recommended scores on all other criteria to the issuing procurement unit.

These changes are necessary because of the amendments to the Utah Procurement Code.

(a) The notice of appeal;

(b) The protest appeal record pertaining to a protest officer's decision;

(c) If an optional informal hearing was held, responses to questions asked by a procurement appeals panel to assist the panel in understanding the basis of the appeal and information contained in the protest appeal record, but otherwise without taking any additional evidence or any additional ground for the appeal.

3. "Protestor" as used in this rule means: a person who files a protest under Utah Code 63G-6a, Part 16, including any intervening party authorized under Utah Code 63G-6a-1603 and Rule R33-16-301.

R33-17-101.5. Procedures for Filing a Notice of Appeal.

(1) If, after reviewing the notice of appeal, the protest appeal record and, if applicable, responses received during an informal hearing, the protest appeals panel determines that:

(a) There is a reasonable basis for the decision made by the protest officer and, given the same facts, evidence, and laws as those reviewed by the protest officer, a reasonable person could have reached the same decision as the protest officer, then the protest appeals panel shall conclude that the protest officer's decision was not clearly erroneous and shall uphold the decision of the protest officer; or

(b) There is no reasonable basis for the decision made by the protest officer and, given the same facts, evidence, and laws as those reviewed by the protest officer, a reasonable person could not have reached the same decision as the protest officer, then the protest appeals panel shall conclude that the protest officer's decision was clearly erroneous and shall remand the matter to the protest officer to cure the problem or render a new decision.

(2) Minor errors and omissions committed by a protest officer during the protest decision process that are irrelevant, immaterial, or inconsequential to the overall protest decision may not be considered sufficient grounds for making a determination that the protest officer's decision was clearly erroneous.

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The rule has been amended to provide clarification in defining what non-confirmation and composite sampling is and how the results shall be calculated. The amended rule further explains how non-confirmation and confirmation sampling should be performed for a preliminary assessment, adds equipment that can be used for wipe sampling, and provides additional analytical methods for detecting methamphetamine. The name of the agency that issues standards for certification for a decontamination specialist has changed.

SUMMARY OF THE RULE OR CHANGE: The proposed amendment adds the definitions for non-confirmation and confirmation sampling and how the results shall be calculated; and describes what needs to occur during a preliminary assessment in regards to non-confirmatory and confirmation sampling. In addition, it provides information on equipment that can be used for wipe sampling and other analytical methods for methamphetamine detection, which are based on updated procedures. In addition, the name of the agency that issues standards for certification for a decontamination specialist has changed, and therefore, this amendment includes this change.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 19-6-906

ANTICIPATED COST OR SAVINGS TO:
♦ THE STATE BUDGET: There are no anticipated costs or savings at the state level. Any costs will come out of existing budgets.
♦ LOCAL GOVERNMENTS: There may be some revenue lost because fewer homes may be unnecessarily determined to be contaminated because of how composite sampling was calculated prior to this amendment. The loss is estimated to be $400 (with a wide range among the local health departments) per home in clean up review and permit fees.

Approximately 5% of homes previously requiring mitigation are thought to be erroneously determined to be contaminated.

♦ SMALL BUSINESSES: There may be a cost savings to small businesses that would have been required to mitigate homes that were unnecessarily determined to be contaminated by local health departments because of how composite sampling was calculated prior to this amendment. The savings are estimated by industry to be about $10,000 (with a wide range) per home. Approximately 5% of homes previously requiring mitigation are thought to be erroneously determined to be contaminated.

♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: There may be a cost savings to those in this category who would have been required to mitigate homes that were unnecessarily determined to be contaminated by local health departments because of how composite sampling was calculated prior to this amendment. The savings are estimated by industry to be about $10,000 (with a wide range) per home. Approximately 5% of homes previously requiring mitigation are thought to be erroneously determined to be contaminated.

COMPLIANCE COSTS FOR AFFECTED PERSONS: There may be a cost to local health departments due to fewer homes being unnecessarily labeled as contaminated. The loss is estimated to be $400 (with a wide range among the local health departments) per home in clean up review and permit fees. Approximately 5% of homes previously requiring mitigation are thought to be erroneously determined to be contaminated.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: The amendment reduces the risk of erroneous determinations of contamination resulting in a cost savings to business responsible for mitigation.

**R414-1-28**
Cost Sharing

**NOTICE OF PROPOSED RULE**
(Amendment)
DAR FILE NO.: 41498
FILED: 04/26/2017

**RULE ANALYSIS**

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The purpose of this change is to implement new cost-sharing policy, effective 07/01/2017, in accordance with the Affordable Care Act.

SUMMARY OF THE RULE OR CHANGE: This amendment removes the cost sharing section of the rule to defer implementation of the cost sharing policy to the Medicaid State Plan. The Department of Health will adopt the new cost sharing policy in Section R414-1-5 when it incorporates the Medicaid State Plan by reference to 07/01/2017.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: 42 CFR 447.50 through 447.57 and Section 26-1-5 and Section 26-18-3

ANTICIPATED COST OR SAVINGS TO:
♦ THE STATE BUDGET: The Department estimates annual savings of about $410,000 to the state budget based on the new cost sharing policy that becomes effective 07/01/2017.
♦ LOCAL GOVERNMENTS: There is no impact to local governments because they neither fund Medicaid services nor receive cost sharing amounts from Medicaid members.
♦ SMALL BUSINESSES: There is no impact to small businesses because the cost sharing increase projected for 07/01/2017 is offset by a decrease in reimbursement and does not affect total annual revenue.
♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: There is no impact to Medicaid providers because the cost sharing increase projected for 07/01/2017 is offset by a decrease in reimbursement and does not affect total annual revenue. Medicaid members, however, may see an annual increase of about $410,000 in out-of-pocket expenses with the policy's implementation.

COMPLIANCE COSTS FOR AFFECTED PERSONS: A single Medicaid member may share a portion of the cost of $410,000 with the policy's implementation.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: There is no fiscal impact to business because the cost sharing increase will be offset by the decrease in reimbursement to Medicaid providers.

(1) "Family planning" means diagnosis, treatment, medications, supplies, devices, and related counseling in family planning methods to prevent or delay pregnancy.

(2) "Global surgical procedures" means preoperative office visits and preparation, the operation itself, local infiltration, topical or regional anesthesia when used, and normal follow-up care.

(a) Services are performed within the scope of the physician's license as defined in Title 58, Occupations and Professions;

(b) Services are performed by a doctor of medicine or osteopathy, a doctor of dental surgery or of dental medicine, a doctor of podiatric medicine, a doctor of optometry, a chiropractor, or;

(c) Services include medical care, or any other type of remedial care furnished by licensed practitioners;

(4) "Practice as a physician assistant" means:

(a) acting as an agent of the supervising physician, and when under the authority of a substitute supervising physician, acting in accordance with a delegation of services agreement; and

(b) performing professional duties within the conduct of a physician assistant in diagnosing, treating, advising, or prescribing for any human disease, ailment, injury, infirmity, deformity, pain, or other condition.

(5) "Services" means the types of medical assistance specified in Subsection 1905(a) of the Social Security Act and interpreted in 42 CFR 440.

Physician services are available to categorically and medically needy eligible individuals.

(1) An eligible Medicaid member may obtain physician services from any Utah Medicaid provider.

(2) An individual who does not meet United States residency requirements may only receive emergency services, including emergency labor and delivery, to treat an emergency medical condition, as stated in Section R414-1-7.

(a) Medicaid does not cover prenatal and post-partum services for undocumented immigrants.

(b) Physician services are available only from a physician who: (1) meets all requirements necessary to participate in the Utah Medicaid Program and who has signed a provider agreement with the Department; (2) renders medically necessary physician services in accordance with his specific provider agreement and with Department rules.

(c) An eligible Medicaid client may seek physician services from: (1) a physician in private practice who is an enrolled Medicaid provider; (2) a Health Maintenance Organization (HMO) that has a contract with the Department; (3) a federally qualified community health center; or (4) any other organized practice setting recognized by the Department for providing physician services.

R414-10-5. Service Coverage and Limitations.

(1) General Information.

(a) Physician services may be provided only within the parameters of accepted medical practice and are subject to limitations and exclusions established by the Department on the basis of medical necessity, appropriateness, and utilization control considerations.

(b) Cosmetic or reconstructive procedures, see Section R414-1-30.

(c) Experimental or medically unproven physician services, see Rule R414-1A.

(d) Program limitations and non-covered services are maintained in the Coverage and Reimbursement Code Lookup and updated by notification through the Medicaid Information Bulletin. Medicaid does not cover the following types of services:

(i) Services rendered during a period in which an individual is ineligible for Medicaid;

(ii) Medically unnecessary or unreasonable services;

(iii) Services that fail to meet existing standards of professional practice;

(iv) Services rendered without required prior authorization;

(v) Services, elective in nature, based on patient request or individual preference rather than medical necessity;

(vi) Services claimed fraudulently;

(vii) Services that represent abuse or overdose;

(viii) Services rejected or disallowed by Medicare when the rejection is based on any of the reasons listed in Section R414-10-5;

(ix) Services for which third-party payers are primarily responsible for coverage, such as Medicare, private health insurance, and liability insurance pursuant to Rule R527-936. Medicaid may make a partial payment up to the Medicaid maximum if a third party does not reach the payment limit;

(x) Related services, supplies, or institutional costs during a post-operative recovery period, if the service or procedure is not covered for any of the reasons specified in Section R414-10-5, or due to policy exclusion; and

(xi) Paternity tests.

(e) Alcoholism or drug dependency in an inpatient setting, see Subsection R414-2A-7(2).

(f) A physician assistant who works under the supervision of a physician, or as a staff member of a facility, is not an independent practitioner and cannot bill independently.

(i) Service limitations or exclusions that apply to a physician shall also apply to the physician assistant.

(ii) Only a licensed physician may perform the specialty medical services of an assistant surgeon that include complex surgical procedures, while a physician assistant may neither perform specialty medical services nor assist in a surgical procedure.

(iii) Medicaid, as it considers necessary, may apply exceptions to the duties of a supervised-physician assistant in rural areas or in federally-designated health professional shortage areas.

(2) Family Planning Services.

(a) Medicaid does not cover the following family planning services:

(i) Surgical procedures for the reversal of previous elective sterilization on both males and females.
(ii) Infertility studies;
(iii) In vitro fertilization;
(iv) Artificial Insemination; and
(v) Surrogate motherhood, including all services, tests, and related charges.

(3) Anesthesia.
(a) Medicaid may only cover anesthesia services performed by a licensed, qualified provider.
(b) Medicaid does not cover anesthesia standby services.

(4) Surgical Services.
(a) Surgical procedures.
(i) Surgical services are global services. Global services include:
(b) Preoperative examination, initiation of the hospital record, and development of a treatment program either in the physician’s office on the day before admission, or in the hospital or the physician’s office on the same day as hospital admission;
(c) The operation;
(d) Any topical, local, or regional anesthesia; and
(e) The normal, uncomplicated follow-up care covering the period of hospitalization and office follow-up for progress checks or any service directly related to the surgical procedure.

(f) Interpretation of "global" services:
(i) A physician may not bill for an office visit the day before surgery, for preadmission or admission workup, or for subsequent hospital care while the patient is being prepared, hospitalized, or under care for a "global" surgical service;
(ii) Only the consulting physician may bill for consultation services when consultation and no other services is provided. When a consulting physician admits and follows a patient independently or concurrently with the primary physician, the consulting physician may only use admission codes and subsequent care codes;
(iii) Office visits after hospitalization that relate to the same diagnosis are part of the global service. The only exception to either inpatient or office service is for service related to complications, exacerbations, or recurrence of other diseases or problems requiring additional or separate service.
(iv) Complications, exacerbations, recurrence, or the presence of other diseases or injuries, which require services concurrent with the initial surgical procedure during the listed period of normal follow-up care, may warrant additional charges only when the record shows extensive documentation and justification of additional services.
(v) When an additional surgical procedure is carried out within the listed period of follow-up care for a previous surgery, the follow-up periods continue concurrently to their normal terminations.
(vi) Preoperative examination and planning are covered as separate services only under the following circumstances:
(I) When the preoperative visit is the initial visit for the physician and prolonged detention or evaluation is required to establish a diagnosis to determine the need for a specific surgical procedure, or to prepare the patient;
(II) When the preoperative visit is a consultation and the consulting physician does not assume care of the patient; or
(III) When diagnostic procedures are not part of the basic surgical procedure.

(5) Maternity Care and Delivery.
(i) Medicaid does not cover early elective delivery, whether vaginal or caesarean, before 39 weeks.
(ii) For information on abortion policy, see Rule R414-1B.
(iii) Sterilization and hystectomy procedures must meet the requirements of 42 CFR 441, Subpart F.

(6) Abortion, Sterilization and Hysterectomy.
(i) Organ transplant services must meet the requirements of Rule R414-10A.

(7) Transplant Services.
(a) Psychiatric Services. The following services may be covered as a medical benefit:
(i) Physician-ordered psychiatric services for a patient hospitalized in a non-psychiatric unit of a hospital;
(ii) Mental health services that target the diagnosis or treatment of developmental disability or organic disorder, and
(iii) Psychosocial evaluations requested before organ transplantations, psychiatric evaluations before other medical services or surgical procedures, and evaluations for individuals with conditions that require chronic pain management services.

(b) Pain Management Services.
(i) Medicaid covers pain management for delivery and acute postoperative pain.
(ii) Medicaid covers treatment for chronic pain.
(c) Medications.
(i) Medicaid may cover prescription medications subject to the requirements of Rule R414-60.

(1) Physician services involve direct patient care and securing and supervising appropriate diagnostic ancillary tests or services in order to diagnose the existence, nature, or extent of illness, injury, or disability. In addition, physician services involve establishing a course of medically necessary treatment designed to prevent or minimize the adverse effects of human disease, pain, illness, injury, infirmity, deformity, or other impairments to a client’s physical or mental health.

(2) Physician services may be provided only within the parameters of accepted medical practice and are subject to limitations and exclusions established by the Department on the basis of medical necessity, appropriateness, and utilization control considerations.

(3) Program limitations and noncovered services are established by specific program policy maintained in the Physician Provider Manual and updated by notification through Medicaid Information Bulletins. Following is a general list of medical and health care services excluded from coverage.

(a) Services rendered during a period the recipient was ineligible for Medicaid;
(b) Services medically unnecessary or unreasonable;
(c) Services which fail to meet existing standards of professional practice, or which are currently professionally unacceptable;
(d) Services requiring prior authorization, but for which such authorization was not received;
(e) Services elective in nature, based on patient request or individual preference rather than medical necessity;
(f) Services fraudulently claimed;
(g) Services which represent abuse or overuse;
(b) Services rejected or disallowed by Medicare when the rejection was based upon any of the reasons listed above.

(i) Services for which third-party payors are primarily responsible, e.g., Medicare, private health insurance, liability insurance. Medicaid may make a partial payment up to the Medicaid maximum if the limit has not been reached by a third-party.

(ii) If a procedure or service is not covered for any of the above reasons or because of specific policy exclusion, all related services and supplies, including institutional costs, are excluded for the standard post operative recovery period.

(iii) Experimental or medically unproven physician services or procedures are excluded from coverage. Criteria established and approved by the Department staff and physician consultants are used to identify noncovered services and procedures. Policy statements developed by the Department of Health and Human Services, Health Care Financing Administration, Coverage Issues Bureau, are also used to determine Department policy for noncovered services.

(iv) Certain services are excluded from coverage because medical necessity, appropriate utilization, and cost effectiveness of the services cannot be assured. A variety of lifestyle factors contribute to the "syndromes" associated with such services, and there is no specific therapy or treatment identified except for those that border on behavior modification, experimental, or unproven practices. Services include:

(a) Sleep apnea or sleep studies, or both;
(b) Pain clinics; and
(c) Eating disorders clinics.

(v) When a service or procedure does not qualify for coverage under the Medicaid program because it is an elective cosmetic, reconstructive, or plastic surgery, all related services, supplies, and institutional costs are excluded from coverage.

(vi) Medications for appetite suppression, surgical procedures, unapproved or experimental treatments, or educational, nutritional support programs for the treatment of obesity or weight control, are excluded from coverage.

(vii) Cognitive or Office Services:

(a) Cognitive services by a provider are limited to one service per client per day. These services are defined as office visits, hospital visits except for those following a package surgical procedure, therapy visits, and other types of nonsurgical services. When a second office visit for the same problem or a hospital admission occurs on the same date as another service, the physician shall combine the services as one service and select a procedure code that indicates the overall care given.

(b) Routine physical examinations, not part of another medically necessary service, are excluded from coverage except in the following circumstances:

(i) Preschool and school-age children, including those who are EPSDT (CHEC) eligible, participating in the ongoing CHEC program of scheduled services and follow-up care.

(ii) New patients seeing a physician for the first time with an initial complaint where a comprehensive physical examination, including a medical and social history, is necessary.

(iii) Medically necessary examinations associated with birth control medication, devices, and instructions.

(c) Family planning services may be provided only by or under the supervision of a physician and only to individuals of childbearing age, including sexually active minors. The following services are excluded from coverage as family planning services:

(i) Experimental or unproven medical procedures, practices, or medication.

(ii) Surgical procedures for the reversal of previous elective sterilization, both male and female.

(iii) Infertility studies.

(iv) In vitro fertilization.

(v) Artificial insemination.

(vi) Surrogate motherhood, including all services, tests, and related charges.

(vii) Abortion, except where the life of the mother would be endangered if the fetus were carried to term, or where pregnancy is the result of rape or incest.

(viii) After hours service codes may be used only by a private physician, primary care provider, who responds to treat a patient in the physician’s private office for a medical emergency, accident, or injury after regular office hours. Only one of the after hours CPT codes may be used per visit.

(d) Laboratory services provided by a physician in his office are limited to the waived tests or those types of laboratory tests identified by the federal Health Care Financing Administration for which each individual physician is CLIA certified to provide, bill, and receive Medicaid payment.

(e) A specimen collection fee is covered for service in a physician’s office only when a specimen is to be sent to an outside laboratory, and the physician or one of his office staff under his personal supervision actually extracts the specimen from a patient, and only by one of the following tasks:

(i) Drawing a blood sample through venipuncture, i.e., inserting into a vein a needle with syringe or vacutainer to draw the specimen; or

(ii) Collecting a urine sample by catheterization.

(iii) A drawing fee for finger, heel, or ear sticks is limited to only infants under the age of two years.

(g) Eye examinations are covered, but only once each calendar year.

(h) Contact lenses are covered only for aphakia, nystagmus, keratoconus, severe corneal distortion, cataract surgery, and in those cases where visual acuity cannot be corrected to at least 20/70 in the better eye.

(i) Psychiatric Services:

(a) Psychiatric services or psychosocial diagnosis and counseling are specialty medical services. Psychiatric services, whether in a private office, a group practice, or clinic setting, may only be provided directly and documented and billed to the Department by the private physician. Charting and documentation must clearly reflect the private physician’s direct provision of care.

(b) Nonphysician psychosocial counseling services are excluded from coverage as a Medicaid benefit. The personal supervision policy, R414-45, may not be applied to psychiatric services.

(c) Admission to a general hospital for psychiatric care by a patient requires prior authorization and is limited to those cases determined by established criteria and utilization review standards to be of a severity that appropriate intensity of service cannot be provided in any alternate setting.
(d) Coverage for treatment of organic brain disease is limited to that provided by the primary care provider.

(10) Laboratory and Radiology Services:

(a) Physicians prepared in a highly specialized field of practice, e.g., neurology or neurosurgery, who provide consultation and diagnostic radiology services in an independent setting at the request of a private physician may bill for both the technical and professional component of the radiology service.

(b) Dermatologists with specialized preparation in pathology services specifically for the skin may provide and bill for those services.

(11) Hospital Services:

(a) A patient hospitalized for nonsurgical services may require more than one visit per day because of the patient’s condition and treatment needs. Since physician visits are limited to one per day, the physician shall select one procedure code to define the overall care given. If intensive care services are provided, critical care service codes are used to define service provided. The Department requires additional documentation from the physician. The medical record must show documentation of medical necessity and result of the additional service.

(b) If, for the convenience of the physician and not for medical necessity, a patient is transferred between physicians within the same hospital or from one hospital to another hospital, both physicians may only use subsequent hospital care service codes to define and bill for services provided. Under this policy limitation, services associated with the following codes are excluded from coverage as a Medicaid benefit:

(i) Consultation; and

(ii) Initial hospital care services.

(c) Treatment of alcoholism or drug dependency in an inpatient setting is limited to acute care for detoxification only.

(d) Services for pregnant women who do not meet United States residency requirements (undocumented aliens) are limited to only hospital admission for labor and delivery. Medicaid does not cover prenatal services.

(12) Abortion, Sterilization and Hysterectomy:

(a) Abortion procedures are limited to:

(i) those where the pregnancy is the result of rape or incest; or

(ii) a case with medical certification of necessity where a woman suffers from a physical disorder, physical injury, or physical illness, including a life endangering physical condition caused by or arising from the pregnancy itself that would, as certified by a physician, place the woman in danger of death unless an abortion is performed.

(b) Sterilization and hysterectomy procedures are limited to those which meet the requirements of 42 CFR 441, Subpart F, October 1996 edition, which is adopted and incorporated by reference.

(13) Cosmetic, Plastic, or Reconstructive Services:

(a) Cosmetic, plastic, or reconstructive surgery procedures may only be covered when medically necessary to:

(i) correct a congenital anomaly;

(ii) restore body form or function following an accidental injury; or

(iii) revise severe disfiguring and extensive scarring resulting from neoplastic surgery.

(S) Surgical Services:

(a) Surgical procedures defined and coded in the CPT Manual are limited by Utah Medicaid policy to prior authorization, or are excluded from coverage. Limitations are documented on the Medical and Surgical Procedures Prior Authorization List, reviewed and revised yearly and maintained in the Physician Provider Manual through notification by Provider Bulletins.

(b) Surgical procedures are "package" services. The package service includes:

(i) the preoperative examination, initiation of the hospital record, and development of a treatment program either in the physician’s office on the day before admission, or in the hospital or the physician’s office on the same day as admission to the hospital;

(ii) the operation;

(iii) any topical, local, or regional anesthesia; and

(iv) the normal, uncomplicated follow-up care covering the period of hospitalization and office follow-up for progress checks or any service directly related to the surgical procedure for up to six weeks post surgery.

(c) Interpretation of "package" services:

(i) A physician may not bill for an office visit the day prior to surgery, for preadmission or admission workup, or for subsequent hospital care while the patient is being prepared, hospitalized, or under care for a "package" surgical service.

(ii) Consultation services may be billed by the consulting physician only when consultation and no other service is provided. When a consulting physician admits and follows a patient, independently or concurrently with the primary physician, only admission codes and subsequent care codes may be used.

(iii) Office visits for up to six weeks following the hospitalization which relate to the same diagnosis are part of the "package" service. The only exception to either inpatient or office service is for service related to complications, exacerbations, or recurrence of other diseases or problems requiring additional or separate service.

(d) Procedures exempt from the "package" definition are identified in the CPT Manual by an asterisk. The CPT Manual outlines the surgical guidelines which apply to documentation and billing of procedures marked by an asterisk.

(e) Complications, exacerbations, recurrence, or the presence of other diseases or injuries requiring services concurrent with the initial surgical procedure during the listed period of normal follow-up care, may warrant additional charges only when the record shows extensive documentation and justification of additional services.

(f) When an additional surgical procedure is carried out within the listed period of normal follow-up care for a previous surgery, the follow-up period continues concurrently to their normal terminations.

(g) Preoperative examination and planning are covered as separate services only in the following circumstances:

(i) When the preoperative visit is the initial visit for the physician and prolonged detention or evaluation is required to establish a diagnosis, determine the need for a specific surgical procedure, or prepare the patient;

(ii) When the preoperative visit is a consultation and the consulting physician does not assume care of the patient; or

(iii) When diagnostic procedures, not part of the basic surgical procedure, e.g., bronchoscopy prior to chest surgery, are provided during the immediate preoperative period.
(b) Exploratory laparotomy procedures confirm a diagnosis and determine the extent of necessary treatment. A physician may request payment only if the exploratory procedure is the only procedure done during an operative session.

(i) The services of an assistant surgeon are specialty services to be provided only by a licensed physician, and are covered only on very complex surgical procedures. Procedures not authorized for assistant surgeon coverage are listed in the Physician Provider Manual and updated by Medicaid Provider Bulletins as necessary. Medicare guidelines for limitation of assistant surgeon coverage are used, since those decisions are made at the national level with physician consultation.

(j) Medicaid does not cover surgical procedures, experimental therapies, or educational, nutritional, support programs for treatment of obesity or weight control.

(15) Diagnostic and Therapeutic Procedures:
(a) Diagnostic needle procedures, e.g., lumbar puncture, thoracentesis, and jugular, femoral, or subclavian taps, when performed as part of a necessary workup for a serious medical illness or injury, are covered in addition to other medical care on the same day.

(b) Diagnostic "oscopy" procedures, e.g., endoscopy, bronchoscopy, and laparoscopy, are covered separately from any major surgical procedure. However, when an "oscopy" procedure is done the same day or at the same operative session as another procedure, the "oscopy" procedure may only be covered as a multiple procedure.

(c) Magnetic resonance imaging (MRI) is covered only for service to the brain, spinal cord, hip, thigh and abdomen.

(d) Therapeutic needle procedures, e.g., scalp vein insertion, injections into cavities, nerve blocks, are covered in addition to other medical care on the same day.

(e) Puncture of a cavity or joint for aspiration followed by injection of a medication is covered as one procedure and identified by specific CPT code.

(16) Anesthesia Services:
Anesthesia services are covered only when administered by a licensed anesthesiologist or nurse anesthetist who remains in attendance for the sole purpose of rendering general anesthesia services. Standby or monitoring by the anesthesiologist or anesthetist during local anesthesia is not a covered Medicaid anesthesia service.

(17) Transplant Services:
Except for kidney and cornea transplants, Medicaid limits organ transplant services to those procedures for which selection criteria have been approved and documented in R114-10A.

(18) Modifiers:
Modifiers may be used only, as defined in the CPT Manual, to show that a service or procedure has been altered to some degree but not changed in definition or code. The following limitations apply:

(a) The professional component, modifier 26, may be used only with laboratory and radiology service codes and only when direct analysis, interpretation, and written report of findings are provided by a physician on a laboratory or radiology procedure.

(b) Unusual services are identified by use of modifier 22, along with the appropriate CPT code. A prepayment review of unusual services shall be completed by Medicaid professional staff or physician consultants. A report of the service and any important supporting documentation must be submitted with the claim for review.

(c) Anesthesia by surgeon is identified by use of modifier 47. The operating surgeon may not use modifier 47 in addition to the basic procedure code. Anesthesia provided by the surgeon is part of the basic procedure being provided.

(d) Mandated services as defined by CPT and identified by modifier 32 are noncovered services.

(e) Reference laboratory services identified by modifier 90 are noncovered services.

(19) Medications:
(a) Drugs and biologicals are limited to those approved by the Food and Drug Administration (FDA), or those approved by the Drug Utilization Review Board (DUR) for off label use, which is use for a condition different from that initially intended for the drug or biological. Medicaid coverage of drugs and biologicals is based on individual need and orders written by a physician when the drug is given in accordance with accepted standards of medical practice and within the protocol of accepted use for the drug.

(b) Generic drugs shall be used whenever a generic product approved by the FDA is available. If the physician determines that a brand name drug is medically necessary, the physician may override the generic requirement by writing on the prescription in his own hand writing "name brand medically necessary." Preprinted messages, abbreviations, or notations by a second party, do not meet the override requirement. The pharmacist shall fill the prescription with the generic equivalent product if the override procedure is not followed.

(ii) Injectable medications approved in HCPCS are identified by the "J" code list published by the Health Care Financing Administration or the Department, or both. The list is reviewed and revised yearly and maintained in the Physician Provider Manual by notification and update through Medicaid Provider Bulletins.

(iii) The "J" code covers only the cost of an approved product.

(iv) Office visits only for administration of medication are excluded from coverage. However, an injection code which covers the cost of the syringe, needle and administration of the medication may be used with the "J" code when medication administration is the only reason for an office call.

(v) When an office service is provided for other purposes, in addition to medication administration, only the office visit and a "J" code may be used to bill for the service provided.

(vi) The office visit code and injection code may never be used together. Only one of the codes may be used to define the service provided.

(vii) Vitamin B-12 is limited to use only in treating conditions where physiological mechanisms produce pernicious anemia. Use of Vitamin B-12 in treating any unrelated condition is excluded from coverage.

(b) Vitamins may be provided only for:
(i) Pregnant women. Prenatal vitamins with 1 mg folic acid.
(ii) Children through age five. Children's vitamins with fluoride.
(iii) Children through age one: multiple vitamin (A, C, and D) without fluoride.
(iv) Children through age fifteen. Fluoride supplement.
NOTICES OF PROPOSED RULES

(c) Human growth stimulating hormones are limited to CHEC eligible children under the age of 15 who meet the established internal criteria for coverage that has been published and is available in the Provider Manual.

(d) Methylphenidates, amphetamines, and other central nervous system stimulants require prior authorization and may be provided only for treatment of Attention Deficit Disorder (ADD).

(e) Medications for appetite suppression are not a covered service.

(f) Non-prescription, over-the-counter items are limited, and notification of changes consistent with this rule is made by Provider Bulletin and Provider Manual updates.

(g) Nutrients may be provided only as established in R414-71-6.

R414-10-6. Copayment Policy.

Each Medicaid client is responsible to pay a copayment amount that complies with the requirements of the Utah Medicaid State Plan and Rule R414-1.

♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: There is no impact to Medicaid providers and to Medicaid members because this change only implements by rule ongoing policy for home health services.

COMPLIANCE COSTS FOR AFFECTED PERSONS: There is no impact to a single Medicaid provider or to a Medicaid member because this change only implements by rule ongoing policy for home health services.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: There is no fiscal impact on business because the amendment does not change current Medicaid policy or practice.

R414-14-1. Introduction and Authority.

[The Home Health Services program provides a scope of home health services for Medicaid recipients in accordance with the Home Health Agencies Utah Medicaid Provider Manual and Attachment 4.19-B of the Medicaid State Plan, as incorporated into Section R414-1-5.]

(1) Home health services are part-time intermittent health care services that are based on medical necessity and provided to
eligibility persons in their places of residence when the home is the most appropriate and cost effective setting that is consistent with the client's medical need. The goals of home health care are to minimize the effects of disability or pain; promote, maintain, or protect health; and prevent premature or inappropriate institutionalization.

(2) This rule is authorized under Section 26-18-3 and governs the services allowed under 42 CFR 440.70 and 42 CFR, Part 484. 42 U.S.C. Secs. 1395u, 1395x, and 1395y also authorize home health services.

The following definition applies to home health services. In addition, the Department adopts the definitions in the Home Health Agencies Utah Medicaid Provider Manual and incorporates them by reference in Section R414-1-5.

(1) "Plan of Care" means a written plan developed cooperatively by home health agency staff and the attending physician. The plan is designed to meet specific needs of an individual, is based on orders written by the attending physician, and is approved and periodically reviewed and updated by the attending physician.

(2) "Home health services" as defined in 42 CFR 440.70(b).

R414-14-3. Client Eligibility Requirements.
Home health services are available to categorically eligible and medically needy individuals.

(1) Home health service shall be provided only to an individual who is under the care of a physician. The attending physician shall write the orders on which a plan of care is established and certify the necessity for home health services.

(2) The home health agency may accept a recipient for home health services only if there is a reasonable expectation that a recipient's needs can be met.

(3) The attending physician and home health agency personnel must review and sign a total plan of care as often as the severity of the patient's condition requires, but at least once every 60 days in accordance with 42 CFR 440.70.

(4) The home health agency must provide quality, cost-effective care and a safe environment in the home through application of nursing theory, practice and techniques by a registered, professional nurse to meet the needs of patients in their places of residence through professional judgments, through independently solving patient care problems, and through application of standardized procedures and medically delegated techniques.

(5) Home health aide service encompasses assistance with, or direct provision of, routine care not requiring specialized nursing skill. The home health aide is closely supervised by a registered, professional nurse to assure competent care. The aide works under written instructions and provides necessary care for the patient.

(6) Supportive maintenance home health care serves those patients who have a medical condition which has stabilized, but who demonstrate continuing health problems requiring minimal assistance, observation, teaching, or follow-up. This assistance can be provided by a certified home health agency through the knowledge and skill of a licensed practical nurse (LPN) or a home health aide with periodic supervision by a registered nurse. A physician continues to provide direction.

(7) Physical therapy and speech-language pathology services are occasionally indicated and approved for the patient needing home health services. Any therapy services offered by the home health agency directly or under arrangement must be ordered by a physician and provided by a qualified licensed therapist in accordance with the plan of care. Occupational therapy and speech-language pathology services in the home are available only to clients who are pregnant women or who are eligible under the Early and Periodic Screening, Diagnosis and Treatment Program.

(8) Medical supplies provided by the home health agency do not require prior approval, but are limited to:
   (a) supplies used during the initial visit to establish the plan of care;
   (b) supplies that are consistent with the plan of care; and
   (c) non-durable medical equipment.

(9) Supportive maintenance home health services is limited in time equal to one visit per day determined by care needs and care giver participation.

(10) A registered nurse employed by an approved, certified home health agency must supervise all home health services. Nursing service and all approved therapy services must be provided by the appropriate licensed professional.

(11) Only one home health provider (agency) may provide service to a patient during any period of time. However, a
subcontractor of a home health provider may provide service if the
original agency is the only provider that bills for services. A second
provider or agency requesting approval of service will be denied.

(12) Home health care provided to a patient capable of
self-care is not a covered Medicaid benefit.

(13) Personal care services, except as determined
necessary in providing skilled care, is not a covered home health
benefit.

(14) Housekeeping or homemaking services are not
covered home health benefits.

(15) Occupational therapy is not a covered Medicaid
benefit except for children covered under CHEC for medically
necessary service.

(16) Home health nursing service beyond the initial
evaluation visit requires prior authorization.

(17) All home health service beyond the initial visit,
including supplies and therapies, shall be in the plan of care that the
home health agency submits for prior authorization. After initial
authorization, if level of service needs change and additional
services are required, the home health agency must submit a new
prior authorization request.

(18) A home health agency may provide therapy services
in accordance with medical necessity and after receiving prior
authorization.

Reimbursement for home health services shall be
provided as documented in Attachment 4.19-B of the Medicaid
State Plan.

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE
CHANGE: The purpose of this change is to implement
provisions of both S.B. 39 passed during the 2016 General
Session, and S.B. 274 passed during the 2017 General
Session, which direct the Department of Health to seek a
federal waiver to provide dental services to blind or disabled
Medicaid members who are 18 years of age or older.

SUMMARY OF THE RULE OR CHANGE: This amendment
implements the scope of dental services available to blind or
disabled Medicaid members who are 18 years of age or older.
It also specifies program access requirements and where to
reference covered services and limitations.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR
THIS RULE: Section 26-1-5 and Section 26-18-3

ANTICIPATED COST OR SAVINGS TO:
♦ THE STATE BUDGET: There is an expected annual cost of
about $5,456,300 to implement these provisions. This figure
is based on a total of about 34,500 Medicaid members who
may become eligible for dental services.
♦ LOCAL GOVERNMENTS: There is no impact to local
governments because they do not fund dental services under
the Medicaid program.
♦ SMALL BUSINESSES: Small businesses may see revenue
up to $5,456,300 as a result of this change. The exact
amount, however, cannot be determined since it will depend
on services needed by Medicaid members.
♦ PERSONS OTHER THAN SMALL BUSINESSES,
BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES:
Medicaid providers may see revenue up to $5,456,300 as a
result of this change. The exact amount, however, cannot be
determined since it will depend on services needed by
Medicaid members. Medicaid members who qualify for these
services will see out-of-pocket savings based on this amount,
but the exact savings cannot be determined as it will depend
on what services they receive.

COMPLIANCE COSTS FOR AFFECTED PERSONS: There
are no compliance costs because this change can only result
in increased revenue to a single Medicaid provider and
savings to a Medicaid member.

COMMENTS BY THE DEPARTMENT HEAD ON THE
FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES:
Businesses that are Medicaid providers will be fiscally
impacted through an increase in revenue for certain dental
services covered by Medicaid.

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The purpose of this change is to implement by rule a provision of federal law, which updated parameters for the use of durable medical equipment (DME) to the home, and to implement face-to-face requirements for home health services.

SUMMARY OF THE RULE OR CHANGE: This amendment implements by rule a provision of federal law that updated parameters for the use of DME to the home, and implements face-to-face requirements for home health services. It also updates the title of the applicable provider manual to include "durable medical equipment".

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 26-1-5 and Section 26-18-3 and Section 26-18-3

ANTICIPATED COST OR SAVINGS TO:
◆ THE STATE BUDGET: The Department of Health expects this change to result in an annual cost of about $42,100 in total funds.
◆ LOCAL GOVERNMENTS: There is no impact to local governments because they do not fund the use of DME for Medicaid members.
◆ SMALL BUSINESSES: Small businesses may see a portion of $42,100 in annual revenue as a result of this change. The exact amount, however, cannot be determined since it will depend on the services needed by Medicaid members.
◆ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: Medicaid providers may see a portion of $42,100 in annual revenue as a result of this change, while Medicaid members may see a portion of $42,100 in out-of-pocket savings. The exact savings, however, cannot be determined as it will depend on what Medicaid members qualify for and which providers they use.

COMPLIANCE COSTS FOR AFFECTED PERSONS: There are no compliance costs because this amendment can only result in increased revenue to a single Medicaid provider and out-of-pocket savings to a Medicaid member.

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The purpose of this change is to implement provisions of H.B. 172 passed during the 2017 General Session, which specify how to treat resources held in a Utah Educational Savings Plan when determining eligibility for certain Medicaid programs.

SUMMARY OF THE RULE OR CHANGE: This amendment implements provisions of H.B. 172 (2017), which instruct the Department of Health to disregard resources held in a Utah Educational Savings Plan when making eligibility determinations for certain Medicaid programs. It also makes other technical changes.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Pub. L. No. 111-148 and Section 26-1-5 and Section 26-18-3

ANTICIPATED COST OR SAVINGS TO:

♦ THE STATE BUDGET: There is an estimated cost of about $2,200 to the state budget based on the projection that an additional 3.5 individuals will become eligible for certain programs.

♦ LOCAL GOVERNMENTS: There is no impact to local governments because they neither fund Medicaid services nor make eligibility determinations.

♦ SMALL BUSINESSES: There is no impact to small businesses because this amendment neither imposes new cost requirements nor creates measurable revenue.

♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: There is no impact to Medicaid providers because this amendment neither imposes new cost requirements nor creates measurable revenue. Medicaid members who qualify for certain programs may see a modest increase in out-of-pocket savings.

COMPLIANCE COSTS FOR AFFECTED PERSONS: There are no compliance costs because this amendment does not impose new cost requirements on a single business or provider.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: There is no fiscal impact on business because it does not impose any additional costs or requirements for Medicaid providers nor does it create any additional measurable revenue for providers.

R414-305. Resources.

(1) The Department determines [to determine] resource eligibility for an individual [for the Parents and Caretaker Relatives, Pregnant Woman, and Child non-MAGI-based Medicaid programs, as described in the Department adopts and incorporates by reference] 45 CFR 233.20(a)(3)(i)(B)(1), (2), (3), (4), and (6), [and] 233.20(a)(3)(v)(A), 42 U.S.C. 604(h), 1382b(a)(13), and 1396p(d), (e), (f) and (g). [October 1, 2012 ed. The Department adopts and incorporates by reference Section 1917(d), (e), (f), and (g), Section 1917(h) and 1613(a)(3) of the Compilation of the Social Security Laws in effect January 1, 2013.] The eligibility agency may not count as an available resource retained funds from sources that federal laws specifically prohibit from being counted as a resource to determine eligibility for federally-funded medical assistance programs. In addition, the eligibility agency shall apply the following rules.

(2) A resource is available when the individual owns it or has the legal right to sell or dispose of the resource for the individual’s own benefit.

(3) The medically needy resource limit is $2,000 for a one-person household, $3,000 for a two-person household and $25 for each additional household member.

(4) To determine countable resources for Medicaid eligibility, the eligibility agency shall consider all available resources owned by the individual. The agency may not consider a resource unavailable based on the individual’s intent or action of disposing of non-liquid resources.

(5) The eligibility agency shall count resources of a household member who has been disqualified from Medicaid for failure to cooperate with third party liability or duty of support requirements.

(6) If a legal guardian, conservator, authorized representative, or other responsible person controls any resources of an individual, the eligibility agency shall count the resources as the individual’s. The arrangement may be formal or informal.

(7) If a resource is available, but a legal impediment exists, the agency may not count the resource until it becomes available. The individual must take appropriate steps to make the resource available unless one of the following conditions exist:

(a) Reasonable action does not allow the resource to become available; and
(b) The cost of making the resource available exceeds its value.

(8) The eligibility agency shall exclude a maximum of $1,500 in equity value of one vehicle.

(9) The eligibility agency may not count as resources the value of household goods and personal belongings that are essential for day-to-day living. The agency shall count any single household good or personal belonging with a value that exceeds $1,000 toward the resource limit. The agency may not count as a resource the value of any item that a household member needs because of the household member’s medical or physical condition.

(10) The eligibility agency may not count the value of one wedding ring and one engagement ring as a resource.

(11) For a non-institutionalized individual, the eligibility agency may not count the value of a life estate as an available resource if the life estate is the individual’s principal residence. If the life estate is not the principal residence, the provision in Subsection R414-305-3(28) shall apply.

(12) The eligibility agency may not count the resources of a child who is not counted in the household size to determine eligibility of other household members.

(13) For a non-institutionalized individual, the eligibility agency may not count as a resource, the value of the lot on which the excluded home stands if the lot does not exceed the average size of residential lots for the community in which it is located. The agency shall count as a resource the value of the property in excess of an average size lot. If the individual is institutionalized, the provisions of Subsections R414-305-3(12), (13) and (28) shall apply to the individual’s home or life estate.

(14) The agency may not count as a resource the value of water rights attached to an excluded home and lot.

(15) The eligibility agency may not count any resource or interest from a resource held within the rules of the Uniform Transfers to Minors Act. The agency shall count as a resource any money that a child receives as unearned income, which the child retains beyond the month of receipt.

(16) The eligibility agency may not count lump sum payments that an individual receives on a sales contract for the sale of an exempt home if the entire proceeds are used to purchase a new exempt home within three calendar months of when the property is sold. The eligibility agency shall grant the individual one three-month extension, if more than three months is needed to complete the actual purchase. Proceeds are defined as all payments made on the principal of the contract. Proceeds do not include interest earned on the principal.

(17) The eligibility agency shall exclude as a resource retroactive benefits received from the Social Security Administration and the Railroad Retirement Board for the first nine months after receipt.

(18) The eligibility agency shall exclude from resources a burial and funeral fund or funeral arrangement up to $1,500 for each household member who is counted in the household size. Burial and funeral agreements include burial trusts, funeral plans, and funds set aside expressly for the purposes of burial. The client shall separate and clearly designate the burial funds from the non-burial funds. The agency may not count as a resource interest earned on exempt burial funds that is left to accumulate. If an individual uses
exempt burial funds for some other purpose, the agency shall count
the remaining funds as an available resource beginning on the date
that the funds are withdrawn.

(19) Assets of an alien’s sponsor, and the sponsor's
spouse, if any, when the sponsor has signed an Affidavit of Support
pursuant to Section 213A of the Immigration and Nationality Act
after December 18, 1997, are considered available to the alien. The
eligibility agency shall stop counting a sponsor's assets when the
alien becomes a naturalized U.S. citizen, or has worked 40
qualifying quarters as defined under Title II of the Social Security
Act or can be credited with 40 qualifying work quarters. After
December 31, 1996, a creditable working quarter is one
during which the alien did not receive any federal means-tested
public benefit.

(20) The eligibility agency may not consider a sponsor's
assets as being available to applicants who are eligible for Medicaid
for emergency services only.

(21) The eligibility agency may not count business
resources that are required for employment or self-employment.
The agency shall treat non-business, income-producing property in
the same manner as the SSI program as defined in 42 CFR
416.1222.

(22) The eligibility agency may not count as a resource
retirement funds held in an employer or union pension plan, a
retirement plan or account including 401(k) plans, and Individual
Retirement Accounts of a disabled parent or disabled spouse who is
not included in the coverage.

(23) The eligibility agency may not count as a resource
any federal tax refund and refundable credit that an individual
receives for 12 months after the month of receipt.

(24) The eligibility agency may not count as income, for
one year after the date of receipt, any payments that an individual
receives under the Individual Indian Money Account Litigation
111 291, 124 Stat. 3064.

(25) The eligibility agency may not count as resources
certain property and rights of federally-recognized American
Indians including:
  (a) certain tribal lands held in trust which are located on or
      near a reservation, or allotted lands located on a previous
      reservation;
  (b) ownership interests in rents, leases, royalties or usage
      rights related to natural resources (including extraction of natural
      resources); and
  (c) ownership interests and usage rights in personal
      property which has unique religious, spiritual, traditional or cultural
      significance, and rights that support subsistence or traditional
      lifestyles, as defined in Section 5006(b)(1) of the American
      Stat. 115.

(26) The eligibility agency shall treat Utah Educational
Savings Plans in accordance with Section 26-18-3.

(26)(2) The eligibility agency may only count
only] the portion of an asset such as a retirement plan that is legally
available to an individual when that asset has been divided between
two divorced spouses pursuant to a qualified domestic relations
order.
the decrease in the assessment rate. Inasmuch as patient days are variable, it is not possible to determine the decreased cost that will be realized by these facilities.

♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: Medicaid nursing facility providers will realize an increase in cost to non-Medicaid certified facilities as those facilities would be assessed the higher amount and would not realize any payments from Medicaid. Inasmuch as patient days are variable, it is not possible to determine the increased cost that will be realized by these facilities. ICFs/ID will realize a decreased cost based upon the decrease in the assessment rate. Inasmuch as patient days are variable, it is not possible to determine the decreased cost that will be realized by these facilities.

COMPLIANCE COSTS FOR AFFECTED PERSONS: Compliance costs include an increased collection of $2.24 per non-Medicare patient day from each nursing facility and decrease of $0.09 per qualifying patient day for the ICF/ID providers. The assessment monies are used to draw down federal matching funds that result in higher reimbursement rates than would be possible without the assessment monies. All Medicaid-certified nursing and swing bed facilities have benefited from this process. The amount of overall gain or loss depends on the number of Medicaid patients in the facility. In addition, there would be an increase in cost to non-Medicaid-certified facilities as those facilities would be assessed the higher amount and would not realize any payments from Medicaid.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: There is a fiscal impact on business through the increase in the assessment rate payable by Medicaid-certified nursing facilities to Medicaid.

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The purpose of this rule is to implement provisions of H.B. 113 passed during the 2017 General Session, which set forth moratorium exception requirements for Medicaid-certified nursing facility programs.

SUMMARY OF THE RULE OR CHANGE: Under the Moratorium Exception, this new rule implements requirements that a Medicaid-certified nursing facility program must meet for certification of additional nursing care facility programs, or for certification of additional beds within an existing nursing care facility program.
NOTICES OF PROPOSED RULES

DAR File No. 41561

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 26-18-3 and Section 26-18-503

ANTICIPATED COST OR SAVINGS TO:
♦ THE STATE BUDGET: There is an expected annual cost of about $1,800 to cover the licensing fees of a new nursing facility. Nevertheless, there is no way to estimate the total cost to the state budget without knowing the number of facilities that will become licensed under the new legislation.
♦ LOCAL GOVERNMENTS: There is no impact to local governments because they neither fund nor certify nursing facility programs under the Medicaid program.
♦ SMALL BUSINESSES: Each new small business may see an annual increase in cost of about $1,800 to operate a skilled nursing facility. Nevertheless, there is no way to estimate the total cost to small businesses without knowing the number of facilities that will become licensed under the new legislation.
♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: Each new nursing care facility provider may see an annual increase in cost of about $1,800 to operate a skilled nursing facility under the new legislation. Medicaid members will not see any out-of-pocket expenses associated with this rulemaking.

COMPLIANCE COSTS FOR AFFECTED PERSONS: A single nursing care facility provider may see an annual increase in cost of about $1,800 to operate a skilled nursing facility under the new legislation.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: This amendment fiscally impacts business by increasing licensing fees for new Medicaid nursing care facilities.

R477-5. Employee Status and Probation.
(1) Only an employee who is hired through a pre-approved process shall be eligible for appointment to a career service position.
(2) An employee shall complete a probationary period prior to receiving career service status.
(3) Management may convert a career service exempt employee to career service status, in a position with an equal or lower salary range to the previous career service position held, when:

   (b) the employee was hired from a hiring list to a [schedule A, T, or IN]career service exempt position, in the same job title to which they would convert, as prescribed by Subsection R477-4-8; or
   (c) the employee was hired through the Alternative State Application Program (ASAP) or Veterans Employment Opportunity Program (VEOP) and successfully completed a six month on the job examination period.

The probationary period allows agency management to evaluate an employee's ability to perform the duties, responsibilities, skills, and other related requirements of the assigned career service position. The probationary period shall be considered part of the selection process.
(1) An employee shall receive an opportunity to demonstrate competence in a career service position. A performance plan shall be established and the employee shall receive feedback on performance in relation to that plan.
   (a) During the probationary period, an employee may be separated from state employment in accordance with Subsection R477-11-2(1).

(4) An employee serving probation in a career service position may be transferred, reassigned or promoted to another career service position. Each new appointment shall include a new probationary period unless the agency determines that the required duties or knowledge, skills, and abilities of the old and new position are similar enough not to warrant a new probationary period. The probationary period shall be the full probationary period defined in the job description of the new position.

The following items shall be addressed in the WFAP:
   (a) the categories of work to be eliminated, including positions impacted through bumping;
   (b) a decision by agency management allowing or disallowing bumping;

(b) Seniority shall be determined by the length of most recent continuous career service, which commenced in a career service position for which the probationary period was successfully completed.
(i) Exempt service time subsequent to attaining career service tenure with no break in service shall be counted for purposes of seniority.
(c) In each WFAP, agency management shall develop the criteria they will use for determining retention points.
(i) Agency Management shall consult with Executive Director, DHRM or designee.
(ii) Agency plans shall comply with current DHRM business practices.

(b) A RIF’d individual may be rehired under Section R477-4-6.

(c) At agency discretion, an individual rehired to a career service position may buy back part or all accumulated annual and converted sick leave that was cashed out when RIF’d.

(9) A career service employee accepting an exempt position without a break in service, who is later not retained by the appointing officer[unless discharged for cause under these rules,] shall be given preferential consideration as outlined in Subsection R477-12-3(8).

land managing agencies. Due to the unpredictable nature of wildfires and the many factors such as weather conditions, terrain, fuel load, and proximity to structures which influence their size and scope, it is challenging to quantify an estimate of these potential cost savings to the state. However, it may be helpful to note that in 2012, the Dump Fire, which was caused by target shooters in close proximity to this proposed closure area and ultimately consumed 5,507 acres, resulted in total fire suppression costs of $2,100,000 to federal, state, and local government entities. It is anticipated that implementation of this rule will assist in minimizing risk of future catastrophic fires in the area and thereby present potential savings to the state.

♦ LOCAL GOVERNMENTS: It is anticipated that all costs for enforcement of the target shooting closure through the local sheriff’s office will be covered with existing personnel and budgets. Therefore, this proposed rule will have no impact on local government budgets.

♦ SMALL BUSINESSES: Due to the relatively small size of this proposed closure, the large amount of both public and trust land in the immediate area which remains open to public target shooting, and the anticipated development of a public shooting range in the area by Utah County, School and Institutional Trust Lands Administration (SITLA) asserts that this proposed rule will have no impact on the sale of merchandise such as firearms, targets, or ammunition by small businesses.

♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: Given the ample public shooting opportunities which remain available in the immediate area on public lands, trust lands, and at the public shooting range to be developed by Utah County, SITLA sees no financial impact, positive or negative, to any other persons or entities. Those who desire to pursue target shooting in the immediate area may still do so in a responsible manner with no additional burden of travel or other expense. It is anticipated that the public target shooting range which is being developed by Utah County, independent of this proposed rule, will be free to the public.

COMPLIANCE COSTS FOR AFFECTED PERSONS: The closure of these trust lands from public target shooting under the proposed rule should not create any compliance costs for affected persons. There are other public lands in the area that will still be available for public target shooting, as well as the future public shooting range to be developed by Utah County.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: As Director of SITLA, I take my responsibility to generate revenue for the trust beneficiaries very seriously. Part of that responsibility includes protecting the assets of the trust from abuse or degradation. Another part of that responsibility includes fostering a business-friendly environment. I believe that with the implementation of this rule, we have struck the right balance of protecting our valuable assets without harming the opportunity for business to flourish. Although we are withdrawing a relatively small amount of trust acreage from public target shooting, it will nevertheless remain open for other forms of responsible public recreation such as ATV riding, hunting, hiking, mountain biking, and sightseeing. The vast majority of trust lands and other public lands in the immediate area of this specific closure will remain open to public target shooting as well. Given these ample opportunities, I do not foresee any financial impact to the recreation industry or other business by the implementation of this rule. Furthermore, promulgation of this rule will help enhance public safety in the area, lower the risk of catastrophic fires, protect vulnerable archeological sites, and provide for a cohesive management and law enforcement strategy with other adjoining landowners.

USTAR Definition of High-Quality Job

NOTICE OF PROPOSED RULE
(New Rule)
DAR FILE NO.:  41481
FILED:  04/17/2017

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: In order to measure the economic impact of Utah Science Technology and Research (USTAR) programs in terms of jobs created, a definition of a "high-quality job" is required in order to measure impacts against a known benchmark. This definition provides that benchmark. Additionally, Subsection 63M-2-302(1)(c) requires the USTAR governing authority to define high-quality jobs.

SUMMARY OF THE RULE OR CHANGE: "High-quality job" means a job that provides compensation of more than 125% of a county average wage as reported by the Department of Workforce Services.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Subsection 63M-2-302(1)(c)

ANTICIPATED COST OR SAVINGS TO:
♦ THE STATE BUDGET: By implementation of a standard for high-paying jobs, USTAR will be better able to articulate and measure the effectiveness of current programs or identify additional programs which may be required. This rule provides a definition. Therefore, there is no additional cost or savings associated with this administrative rule and no cost impact to the state budget.
♦ LOCAL GOVERNMENTS: By implementation of a standard for high-paying jobs, USTAR will be better able to articulate and measure the effectiveness of current programs and benchmark them against county average wages, therefore offering the ability to capture metrics at the county-level. This rule provides a definition. Therefore, there is no additional cost or savings associated with this administrative rule and no cost impact to local government.
♦ SMALL BUSINESSES: This rule provides a USTAR definition of high-paying jobs. Therefore, there is no cost or saving impact associated with this administrative rule to small businesses.
PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES:
This rule provides a USTAR definition of high-paying jobs. Therefore, there is no cost or saving impact associated with this administrative rule to persons other than small businesses, businesses, or local government entities.

COMPLIANCE COSTS FOR AFFECTED PERSONS:
This rule provides a USTAR definition of high-paying jobs. Therefore, there are no compliance costs.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES:
This administrative rule allows the USTAR to better capture the economic impact of jobs created by USTAR programs and is required per Subsection 63M-2-302(1)(c).

COMPLIANCE COSTS FOR AFFECTED PERSONS: Companies selected to participate are required to provide the reporting, as applicable, specified in Section 63M-2-703 for at least five years following initial participation in the LLP. Companies must maintain eligibility status for the LLP until the cohort is complete and first-year reporting has been completed or repayment of the grant may be required. Compliance costs are approximately an hour/year of effort. USTAR is unable to estimate the exact cost, since it will vary given the pay of the individual conducting the reporting.

   (e) if it approves the transfer, make the required changes to the state highway system by resolution; and
   (f) report to the Transportation Interim Committee of the Legislature as detailed in Subsection 296-2-4(3)(4).

4. The Commission may continue to process proposed transfers that are currently under consideration by using the same notification and evaluation criteria as presented in this rule.

5. As provided in 72-4-102, the State Legislature must approve additions to or deletions from the state highway system. The State Legislature will review the addition to or deletions from the state highway system and shall approve or disapprove the changes.

Detection and Elimination of Unauthorized Discharges into Drainage Systems, Enforcement of Water Laws, Sanctions for Violation, and Permitting

NOTICE OF PROPOSED RULE

(New Rule)

DAR FILE NO.: 41485
FILED: 04/19/2017

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The Department of Transportation has the authority to detect, investigate, eliminate, and enforce against any non-storm water discharges (including illegal dumping) that it identifies in its storm drainage system or within its right-of-way. The Department also has the authority to create an effective regulatory mechanism for the Department to implement actions that meet the requirements of the Department's Utah Pollutant Discharge Elimination System (UPDES) Municipal Separate Storm Sewer System (MS4) Permit. The purpose of this rule is to create that regulatory mechanism.

SUMMARY OF THE RULE OR CHANGE: This rule recognizes the Department's authority to create a regulatory mechanism for the Department to implement actions that meet the requirements of the Department's UPDES MS4 Permit; identifies steps the Department may take to enforce the rule; and identifies fees the Department may charge for tie-ins to the Departments storm water systems, for unlawful discharges through the systems, for illicit connections to the systems, and for other unauthorized uses of the systems.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 72-1-201 and Section 72-7-102 and Section 72-7-104 and Subsection 63G-3-201(2)(a)

ANTICIPATED COST OR SAVINGS TO:
♦ THE STATE BUDGET: This rule provides a mechanism through which it may charge fees to third parties for using the Departments storm water systems, and to penalize third parties that direct unlawful discharges through the systems or make unauthorized tie-ins to the systems. Enforcement costs will likely offset savings to the state budget.
♦ LOCAL GOVERNMENTS: The Department does not anticipate that this rule will lead to significant costs or savings to local governments unless a local government seeks a tie-in to a Department storm water system, or makes an illicit tie-in to a system, or makes an illicit discharge through a system. In such cases, there will be a cost to the local government which will be offset by the benefits provided.
♦ SMALL BUSINESSES: The Department does not anticipate that this rule will lead to significant costs or savings to small business, generally. However, should an individual small business seek a tie-in to a Department storm water system, or make an illicit tie-in to a system, or make an illicit discharge through a system, there will be a cost to that small business which will be offset by the benefits provided.
♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: The Department does not anticipate that this rule will lead to significant costs or savings to persons other than small

The Department has the authority to detect, investigate, eliminate, and enforce against any non-stormwater discharge (including illegal dumping) to its drainage systems and within its right-of-way. The Department also has the authority to create an effective regulatory mechanism to implement actions that meet the requirements of the Department's Utah Pollutant Discharge Elimination System ("UPDES") Municipal Separate Storm Sewer System ("MS4") Permit.

The Department will act to enforce the requirements of its UPDES MS4 permit.

(1) The Department has the authority to require compensation from a local government or property owner to connect to drainage systems located within Department right-of-way.

(2) The Department may recover the costs of managing a local government or property owners' connection to drainage systems located within Department right-of-way.

(3) The Department may issue and require the local government or property owner to obtain a permit to connect to a drainage system located within Department right-of-way. The primary purpose of the drainage system is for the management of stormwater runoff from the Department's right-of-way. Drainage flows from offsite areas must not exceed the capacity of the drainage system or interfere with the Department's ability to use its drainage system. The Department has the discretion to deny requested connections to its drainage systems. If the application is complete and a connection is permitted, the Department will either enter into an agreement with the local government or the property owner shall sign the Department's drainage agreement.

(4)(a) The local government or property owner will be responsible for all costs associated with clean-up necessary or any imposed fines or penalties due to non-stormwater discharges into the Department's drainage system regardless if a connection has been permitted.

(b) If the local government or property owner fails to take measures to prevent non-stormwater discharges, the Department will require the connection to be removed from the Department's drainage system.

(5) The Department may require the local government or property owner seeking to connect to a Department drainage system to provide a surety bond sufficient to protect the Department from harm to its drainage system caused in whole or part by work performed on or substances discharging from a local government's system.

(6) The Department may adopt a fee schedule that indicates required dollar amounts for surety bonds required of various types of utility services or for property owners seeking permits to connect to a Department drainage system.

(7) The Department may adopt a fee schedule covering connection, permit, and management fees it charges local governments and property owners and will make it publicly available.

businesses, businesses, or local government entities, generally. However, should a person other than small businesses, businesses, or local government entities seek a tie-in to a Department storm water system, or make an illicit tie-in to a system, or make an illicit discharge through a system, there will be a cost to that person which will be offset by the benefits provided.

COMPLIANCE COSTS FOR AFFECTED PERSONS: There will be compliance costs to affected persons that will be offset by the benefits provided for legitimate tie-ins.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: This rule will not cause a fiscal impact on businesses, generally. However, should an individual business seek a tie-in to a Department storm water system, or make an illicit tie-in to a system, or make an illicit discharge through a system, there will be a fiscal impact to that business. Fiscal impacts on businesses with legal tie-ins will likely be offset by benefits provided to those users.

**R930-9-5. Enforcement.**

(1) When the Department learns that a local government or property owner has installed, placed, constructed, altered, repaired, or maintained a drainage pipe, inlet or manhole, ditch, culvert or any other structure or object of any kind within Department right-of-way without the Department's without complying with the requirements of Utah Code Title 72, the Department may:

(a) Remove the installation from the right-of-way immediately as circumstances dictate; or

(b) Give written notice to the local government or property owner to remove the installation from the Department's right-of-way.

(2) Notice under Subsection (1)(b) may be served by:

(a) Personal service; or

(b) (i) Mailing the notice to the person, firm, corporation by certified mail the last known address; and

(ii) Posting a copy on the installation for 10 days.

(3) If the installation is not removed within 10 days after the notice is served, the Department may remove the installation at the expense of the local government or property owner.

(4) The Department may recover the costs and expenses incurred in removing the installation, serving notice, and the costs of a lawsuit.

(5) (a) If the local government or property owner disputes or denies the existence, placement, construction, or maintenance of the installation, or refuses to remove or permit its removal, the Department may bring an action to remove the installation.

(b) If the Department is granted a judgment by a court the highway authority may recover the costs of removing the installation as provided in Subsection (4).

R994. Workforce Services, Unemployment Insurance.

(1) One of the purposes of the Employment Security Act, Utah Code Section 35A-4-101 et seq., the Act, is to lighten the burdens of persons unemployed through no fault of their own by maintaining their purchasing power in the economy. The legislature, in establishing this program, recognized the substantial social ills associated with unemployment and sought to ameliorate these problems with a program to pay workers for a limited time while they seek other employment.

(2) The Department of Workforce Services (Department) is responsible for protecting the investment of employers who contributed to the unemployment insurance fund, the interests of the unemployed workers who may be eligible for the dollars provided by the fund, and the community which benefits from a stable workforce through the maintenance of purchasing power.

(3) The legal authority for these rules and for the Department to carry out its responsibilities is found in Utah Code Sections 34A-1-104 and 35A-4-101 et seq.

(4) These rules are to be liberally construed and administered and doubts should be resolved in favor of finding coverage of the employee and assisting those who are attached to the work force.

RULE ANALYSIS
PURPOSE OF THE RULE OR REASON FOR THE CHANGE: This rule inadvertently expired and is necessary so it is being filed anew. This rule helps explain how combined wage claims are filed and is therefore necessary to understand how our interstate compact and federal law applies to claims where a claimant worked in more than one state in his or her base period.

SUMMARY OF THE RULE OR CHANGE: There are no changes to this rule. It is being filed anew because the Department of Workforce Services inadvertently allowed it to expire.

STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 35A-1-104 and Subsection 35A-1-104(4) and Subsection 35A-4-106(1) and Subsection 35A-4-502(1)(b)

ANTICIPATED COST OR SAVINGS TO:
♦ THE STATE BUDGET: This is a federally-funded program so there are no costs or savings to the state budget.
♦ LOCAL GOVERNMENTS: This is a federally funded program so there are no costs or savings to local government.
♦ SMALL BUSINESSES: There are no costs or savings to any small businesses as there are no fees associated with this program and it is federally funded.
♦ PERSONS OTHER THAN SMALL BUSINESSES, BUSINESSES, OR LOCAL GOVERNMENTAL ENTITIES: There are no costs or savings to any persons other than small businesses, businesses, or local government entities as there are no fees associated with this program, and it is federally funded.

COMPLIANCE COSTS FOR AFFECTED PERSONS: There are no costs or savings to any affected persons as there are no fees associated with this program, and it is federally funded. These changes will not impact the contribution rate of any employer.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: There are no compliance costs associated with this change. There are no fees associated with this change. There will be no cost to anyone to comply with these changes. There will be no fiscal impact on any business. These changes will have no impact on any employer's contribution tax rate.

THIS RULE MAY BECOME EFFECTIVE ON: 06/21/2017
R994. Workforce Services, Unemployment Insurance.  

R994-106. Combined Wage Claims.  

(1) An unemployed individual who has covered employment and wages in more than one state has the right to combine such wages and employment in the base period of one state if the combination will provide benefits for which he could not otherwise qualify or will increase the benefits for which he qualifies in a single state. He must file a combined wage claim if he is eligible to do so rather than claim extended benefits. If he wishes, he has the right to reject a combined-wage claim and file against a state in which he is separable eligible or to cancel the combined wage claim and file no claim.  

(2) Section 35A-4-106 provides for the wages earned in other states to be used to qualify for unemployment insurance benefits. Many of the restrictions and guidelines contained in this Rule are required by federal regulations which govern the establishment and payment of unemployment benefits when a claimant uses wages earned outside the state or his residence at the time the claim is filed. If there is a conflict between this Rule and federal regulations, the federal regulations will be followed.  

R994-106-102. Definition of Terms.  

(1) Agent State.  
Agent state means any state in which an individual files a claim for benefits from another state or states.  

(2) Combined-Wage Claim.  
A combined-wage claim is a claim using wage credits from more than one state.  

(3) Combined-Wage Claimant.  
A claimant who uses wages from more than one state to establish monetary entitlement to benefits.  

(4) Commuter.  
Commuter applies to each individual who, immediately before becoming unemployed, customarily commuted from his residence in the agent state to his work in the liable state.  

(5) Employment and Wages.  
"Employment" refers to all services which are covered under the unemployment compensation law of a state, whether expressed in terms of weeks of work or otherwise. "Wages" refers to all remuneration for such employment.  

(6) Interstate Benefit Payment Plan.  
This is the plan approved by the Interstate Conference of Employment Security Agencies under which benefits are payable to unemployed individuals absent from the state (or states) in which benefit credits have been accumulated.  

(7) Liable State.  
The liable state is the same as the paying state.  

(8) Paying State.  
The paying state is the state against which the claimant is filing that actually issues the benefit checks.  

(9) State.  
State includes the states of the United States of America, the District of Columbia, the Commonwealth of Puerto Rico and the Virgin Islands.  

(10) State Agency.  
The agency which administers the unemployment compensation law of a state.  

(11) Transferring State.  
A transferring state is one in which the claimant had covered employment and wages within the base period of the paying state that can be transferred to establish a claim. Wages from more than one transferring state can be used to establish a combined wage claim.  

(1) Any unemployed individual who has had covered employment in two or more states may file a combined wage claim unless:  

(a) he has established a claim under any other state;  
(b) the benefit year has not ended;  
(c) and there are still unused benefit rights.  
(2) Unused Benefit Rights.  
A claimant will not be considered to have unused benefit rights on a prior claim if:  

(a) all benefits have been exhausted, or  
(b) benefits have been denied by a seasonal restriction, or  
(c) benefits have been postponed for an indefinite period or for the remainder of the benefit year. A disqualification imposed because a claimant is not able to work or available for work is not considered a denial of a claimant's benefit rights.  
(3) Use of Wages in Paying State.  
If an individual files a combined wage claim, all wages and employment in all states during the base period of the paying state must be included. He may not select a paying state but must accept that state which is determined under Subsection 35A-4-106(1)(b) and R994-106-103.  
(4) Base Period for a Combined Wage Claim.  
The base period for a combined wage claim means the "base period" as established in the paying state.  
(5) Benefit Year for a Combined Wage Claim.  
The benefit year for a combined wage claim is the "benefit year" of the paying state.  

(1) The paying state is the state in which the claimant elects to file a CWC, provided the claimant has employment and wages in that state's base period and the claimant qualifies for unemployment under the law of that state using combined employment and wages. The claimant is responsible for deciding the state against which to file a CWC.  
(2) If a claimant files a CWC in Utah but is not monetarily eligible for benefits against Utah, Utah will advise the claimant of Utah's qualifying requirements and his or her potential eligibility for benefits, if any, under Utah law. The claimant will also be told that he or she has the option to file in any other state/s where he or she has employment and wages. Utah will advise the claimant that state laws vary and there are differences in weekly benefits amounts and other qualifying requirements in different states. If the claimant wishes to explore options with any other state/s, Utah will provide the claimant with contact information for that/those state/s.
(3) If a claimant is found to be monetarily ineligible in Utah, the claimant can file in another state where he or she has employment and wages in that state's base period. If a claimant was found monetarily ineligible in another state and then files in Utah, Utah can use the effective date of the original claim, provided the claimant filed within the appeal period from the original state's monetary denial.

   (1) Transfer of Employment and Wages.
       Wages earned in Utah in covered employment during the base period of the combined wage claim filed by a claimant will be promptly transferred to the paying state. Such wages will be transferred without restriction as to their use for determination and benefit payments under the provisions of the Paying state's law.
   (2) Employment and Wages Not Transferrable.
       Wages earned in Utah will not be transferred if the employment and wages have been:
       (a) transferred to any other paying state and have not been returned unused, or which have been previously used as the basis of a monetary determination which establishes a benefit year; or
       (b) canceled or are otherwise unavailable to the claimant as a result of a monetary determination made prior to its receipt of the request for transfer, if such determination has become final or is subject to a pending appeal. If the appeal is finally decided in favor of the combined wage claimant, any employment and wages determined eligible for use as wages in establishing monetary eligibility will be transferred to the paying state and any necessary redetermination will be made by the paying state.

   When a combined wage claim is filed, the law and eligibility requirements of the paying state apply, except the paying state may not determine an issue that has previously been adjudicated by the transferring state. Such exception will not apply, however, if the transferring state's determination of the issue resulted in making the combined-wage claim possible as provided in 20 CFR 616.8 of the Code of Federal Regulations.

   (1) Because of the complexities of combining wages, disadvantages to the claimant may not be apparent until after the monetary determination has been received. Therefore, the claimant has the right to withdraw from a combined wage claim anytime before the monetary determination of the paying state becomes final. The claimant's right to withdraw is inherent and need not be supported by reasons, provided that he either:
       (a) repays in full any benefits paid to him, or
       (b) authorizes the state against which he will claim benefits to withhold and forward to the former paying state a full repayment of benefits.

   (1) Notification.
       A combined wage claimant will receive a monetary determination notice from the paying state once the wage information from all states is received. If a transferring state refuses to transfer wages because the wage credits were canceled under a disqualification or because the work was not covered, the claimant will be sent an appealable determination by the transferring state.
   (2) Protests and Appeals.
       A protest of a monetary determination from a transferring state or from a paying state other than Utah may be made. If the paying state or any transferring state makes any decision, monetary or nonmonetary, adverse to a combined-wage claimant's interest, the claimant is entitled to a written determination and the right to request reconsideration or an appeal in accordance with the law of the state making the determination.

AUTHORIZED BY: Jon Pierpont, Executive Director

1. There are two types of contribution rates, “new” employer rates and “experience” rates.
2. The new employer rate is assigned to employers with less than one fiscal year of reporting experience. New employers are assigned a rate based on the two-year average benefit ratio, which is calculated by dividing benefit costs by taxable wages of all employers in the respective industry. The overall new employer rate is the benefit ratio of the respective industry multiplied by the reserve factor plus the Social Cost. New out-of-state contractors are assigned the maximum tax rate allowable under state law unless they purchase an existing business.
3. Experience rates are assigned to employers with one or more fiscal years of reporting experience. The overall contribution rate is calculated annually for each employer using the following three components:

(a) The “Benefit Ratio” is determined by dividing the total of all chargeable benefits paid to the employer’s former employees in the last four fiscal years, by the employer’s taxable wages for the same time period.
(b) The “Reserve Factor” adjustment to the benefit ratio, which may be an increase, decrease, or 1.0, is used to maintain an adequate balance in the benefit reserve fund.
(c) The “Social Cost” is applied to all employers to recover benefit costs that cannot be attributed to a specific employer.

The overall tax rate is calculated using the following formula:
Benefit Ratio X Reserve Factor + Social Cost

4. Contribution rates may be affected by delinquent contributions, delinquent reports, and acquiring a business of another employer, as these terms are used in Sections 35A-4-301, 35A-4-303, 35A-4-304, 35A-4-306, and 35A-4-307.

5. The objective of the benefit ratio method of taxation is to employ an experience rating system that provides for equitable allocation of costs, increases incentives for employer participation, and makes building and maintaining a solvent reserve fund the responsibility of those employers who use the system.

R994-303-102. Computation Date.
“Computation date” means July 1st of any year. The computation date is not the date contribution rates are computed but merely serves as a reference point to identify the period of time used to compute rates.

The Department will notify the employer of its contribution rate prior to the beginning of the calendar year to which the rate applies. If the employer protests this rate, the protest must be filed within 30 days after the date the “Contribution Rate Notice” is issued by filing a written appeal stating the grounds upon which the appeal is based. This right to appeal the contribution rate does not, however, give new rights of appeal to protest the benefit costs used in computing the rate. The appeal rights for protesting the payment of benefits to former employees, charges to the employer, or the correctness of benefit charges are established in Section 35A-4-306 of the Act.

R994-303-104. Qualified Employer.
A “qualified employer” is an employer who was an employer during all four quarters of the fiscal year immediately preceding the computation date.

If an employer reopens its UI account after the account has been closed, the Department will determine if the employer qualifies for an experience rate or new employer industry rate. A qualified employer will be assigned an overall contribution rate for their account using the employer’s unemployment experience during the past four fiscal years immediately preceding the computation date. If the reopening employer had no payroll for two or more consecutive calendar years immediately prior to the reopen date, the employer will be considered a new employer and will receive a new account number and the new employer industry rate, pursuant to Section 35A-4-203 of the Act.
R994-303-105. Rates Assigned to Qualified Employers.
(1) On or after January 1, 1988, a qualified employer who fails to pay all contributions due for the "applicable fiscal year" which is the four consecutive calendar quarters in the fiscal year immediately preceding the computation date, will be assigned a contribution rate equal to the overall contribution rate or the assigned contribution rate, plus an additional one percent surcharge. Unpaid contributions for fiscal years prior to the applicable fiscal year will have no effect on the employer's rate, as provided in Subsection 35A-4-303(9)(b).
(2) Contributions assessed for the applicable fiscal year after the rates are computed will not cause the one percent surcharge to be added to the rate for the following year.
(3) A qualified employer who has been assigned the 1 percent surcharge in addition to his overall contribution rate because of delinquent contributions for the applicable fiscal year shall be reassigned a rate based upon his own experience, as provided under the experience rating provisions of the Act, effective the first day of the quarter in which full payment of contributions due is made. The Department will reassign a rate effective January 1st of the year if the Department determines that the party liable for the delinquent contributions was not properly notified of the liability.
(4) Delinquent Reports - Effect on Rate.
A delinquent report is one that is not properly filed when due. Failure to file the delinquent report by the time the contribution rates are computed will be treated as if a report had been filed showing no payroll for that quarter. This will usually result in a higher contribution rate. A delinquent report that still has not been filed by the end of the calendar year will not result in adding the one percent surcharge to an employer's overall contribution rate as a penalty. Other penalties and interest assessed due to delinquent reports are discussed in Section 35A-4-305 of the Act.

(1) Definitions.
(a) "Successor" is the employing unit which acquires the business or acquires substantially all of the assets of a business.
(b) "Predecessor" is the employing unit which last operated the business.
(c) "Acquired" means to come into possession of, obtain control of, or obtain the right to use the assets of a business by any legal means including a gift, lease, repossession or purchase. For purposes of succession, a purchase through bankruptcy court proceedings where assets are being liquidated is not considered an acquisition, if the court places restrictions on the transfer of liabilities to the purchaser. It is not necessary to purchase the assets in order to have acquired the right to their use, nor is it necessary for the predecessor to have actually owned the assets for the successor to have acquired them. The right to the use of the asset is the determining factor.
(d) "Assets" are commonly defined to include any property, tangible or intangible, which has value. Therefore, acquiring use of assets is defined to mean that the successor obtains the physical assets such as cash, inventories, equipment, or buildings. Use of assets may also include the acquisition of the name of the business, customers, accounts receivable, patent rights, goodwill, employees, or an agreement by the predecessor not to compete.
(e) "Business" is an employing unit which pursues an activity or enterprise for gain, benefit, advantage or livelihood.
(f) "Substantially all" means acquisition of 90 percent or more of all of the predecessor's assets.
(g) "Discontinued operations" means that immediately at the point of acquisition, the preceding employer has no continuing business activity in this state. Liquidation of accounts receivable or "wind-down payroll" is not considered to be a continued business activity. In determining whether an employer is a successor, the phrases "substantially all" and "discontinued operations" are applied conjunctively. If less than 90 percent of all the assets are acquired, then there is no successorship and the "discontinued operations" test need not be applied.
(h) "Like part or character" will be defined by using the most current North American Industry Classification System (NAICS) manual. There is no succession unless it is determined that a like part or character of the business acquired is retained. An example of such a situation occurs when a new owner acquires a business or substantially all of its assets. The business formerly operated as an automotive service station and the predecessor employer has ceased to operate. If the new owner opens as an automotive repair shop and not a service station, there is no successorship.
(ii) If the acquired business was closed for 30 or more consecutive calendar days during its normal operating period immediately prior to the acquisition, there is no successorship.
(2) If the acquired business was closed for 30 or more consecutive calendar days during its normal operating period immediately prior to the acquisition, there is no successorship.
(3) Succession.
In the case of succession, effective on the first day of the year following the year in which the business is acquired, a successor will pay a contribution rate newly computed on the basis of the combined experience of the predecessor and the successor unless the date of acquisition is January 1, in which case the new rate takes effect immediately. The successor's rate during the year of acquisition will be as follows:
(a) Successor Was a Qualified Employer.
If the successor was a "qualified employer" immediately prior to the time of the acquisition, it shall continue to pay the rate assigned prior to the acquisition.
(b) Successor Was Not a Qualified Employer.
If the successor was an employer but not a "qualified employer" immediately prior to the time of the acquisition and acquires one or more businesses simultaneously, it shall pay a new rate computed based on the combined experience of the predecessor(s) and the successor. This rate shall be effective on the first day of the next calendar quarter. The successor pays its previously assigned rate for the balance of the quarter in which the acquisition occurs unless the acquisition occurs on the first day of that quarter, in which case the newly computed rate takes effect on that day.
(i) Simultaneously as used in this section means the same day.
(ii) If the predecessor(s) and successor are not qualified employers and have different NAICS codes, and the successor continues to operate the acquired business(s), the successor will retain their original NAICS code.
(c) Successor Was Not an Employer.
If the successor was not an employer immediately prior to the time of the acquisition it shall pay the predecessor's rate for the current calendar year. If the successor simultaneously acquires two or more businesses it shall pay a rate newly computed based on the combined experience of the predecessors. This new computed rate shall be effective on the day of acquisition.

(4) Effect of Contributions Owed by the Predecessor on the Successor's Rate.

A successor will be assigned a 1 percent surcharge in addition to its overall contribution rate if unpaid contributions are owed by the predecessor in the prior fiscal year. The one percent surcharge applies in the years that the successor's rate is affected by the predecessor's payroll and benefit costs.

(5) Successorship Determination and Burden of Proof.

The Department will determine whether the predecessor's payroll and benefit costs will be transferred to the successor. Either the predecessor or successor may appeal the determination within 10 days of the date the determination is issued. Once the determination has been made, the burden of proof is on the predecessor or the successor to show that the determination was made in error.

R994-303-107. Fiscal Year.

Fiscal year is defined in Subsection 35A-4-301(6), and means the year beginning with the 1st day of July of one year and ending the 30th day of June of the next year.

(1) Net benefit costs are defined as those benefits actually paid during the fiscal year without regard to the week ending date for which the payment is made. The benefit is considered paid on the date the unemployment payment is issued.

(a) Net benefit costs do not include those benefits established as an overpayment during the same fiscal year in which the benefits were paid.

(b) Benefit costs from a prior fiscal year subsequently established as an overpayment will be deducted from cumulative benefit costs beginning with the fiscal year in which the overpayment is established. Such benefit costs will not be deducted from benefit costs attributable to prior fiscal years except in cases where failure to make the deduction would result in a gross inequity and provided the employer has made a written request within 30 days of when it knew or should have known of the establishment of the overpayment.

(c) Once the fiscal year ends, any benefit costs from a prior fiscal year which are subsequently identified as an overpayment will be deducted from the cumulative benefit costs beginning with the year in which the overpayment is established and subsequent years.

(2) If the benefit costs used to compute the basic tax rate are less than zero, they will be treated as if they were zero. In this case, the minimum overall tax rate an employer can be assigned will be the social tax rate.

The "actual reserve fund balance" used in the calculation of the reserve factor is this state’s Trust Fund balance on deposit with the United States Department of the Treasury as of June 30 preceding the computation date.

R994. Workforce Services, Unemployment Insurance.
R994-401. Payment of Benefits.

Eligibility is established and benefits are paid on a weekly basis. The week starts on Sunday and ends on Saturday. Benefits do not become due until the end of the week for which benefits are claimed.

R994-401-201. Weekly Benefit Amount (WBA), Maximum Benefit Amount (MBA), and Monetary Determination.

(1) The formulas for determining the WBA and the MBA are found in Section 35A-4-401.

(2) The wages used to determine the WBA and the MBA are limited to wages reported to the Department by base period employers and verifiable wages paid by additional base period employers reported by the claimant in the initial claim. If an employer does not report wages and the claimant can verify wages from that employer, those wages may be included.

(3) The Department will send the claimant a "Notice of Monetary Determination." The notice will inform the claimant of the WBA, MBA, and the wages used to determine the claimant's monetary eligibility. The notice will also inform the claimant of his or her right to appeal the monetary determination. The claimant must notify the Department of any errors in the monetary determination. The time limit for notifying the Department of any errors or for appealing a monetary determination is the same as filing an appeal from an initial Department determination and is governed by rules R994-508-102 through R994-508-104.

(4) The monetary determination is based on the wages actually paid during the base period regardless of when the work was performed.

(5) To be monetarily eligible, a claimant must have earned base period wages of 1 and 1/2 times the high quarter wages and also meet a minimum dollar amount as established by the monetary base period wage requirement as defined in Section 35A-4-201.

(6) For any claimant whose benefit year is effective on or before January 1, 2011, if the claimant is not monetarily eligible under the 1 and 1/2 times requirement in paragraph (5) of this section, but meets the monetary base period wage requirement, the claimant can still be eligible under this section if the claimant has earnings of at least five percent of the "monetary base period requirement for insured work," as defined in Subsection 35A-4-201(7), in each of at least 20 weeks during the base period. The earnings must be for work performed during each of the 20 weeks, all of which must fall within the base period, regardless of when the claimant received payment for the work. The requirement that the claimant show work and earnings in 20 weeks is only met if the claimant was paid wages as defined by the definition of "wages paid" in R994-401-202.

(7) The dollar amount for each of the 20 weeks required to establish eligibility under subsection (6) of this section will be determined by the monetary base period requirement for insured work in effect for the calendar year in which the initial claim is filed even if some or all of the 20 weeks are in a different calendar year.

(8) If the claimant is determined monetarily ineligible under the 1 and 1/2 times standard, and the claimant's benefit year is effective on or before January 1, 2011, it is the claimant's responsibility to show 20 weeks of covered employment which meet the minimum dollar amount. Acceptable proof of covered employment includes:

(a) appropriately dated check stubs issued by the employer;
(b) a written statement from the employer showing dates of employment and the amount of earnings for each week;
(c) time cards;
(d) canceled payroll checks; or
(e) personal or business records kept in the normal course of employment that would substantiate work and earnings.

(9) An employer's potential liability is based on its proportion of the claimant's base period wages. Employers will be informed of the wages used in determining a claimant's monetary entitlement, the employer's potential liability for benefits costs, and the right to and time limitation for requesting relief of charges or a correction to wages. A contributory employer is given a notice of all benefit costs each quarter and has the opportunity to report any errors or omissions to the Department at that time as well. The quarterly notices give the employer 30 days to advise the Department of any corrections, as provided in Subsection 35A-4-306(3).

(10) A party failing to file a timely appeal or protest may lose its right to have the monetary determination corrected. An untimely appeal or protest may be considered if the party had good cause, as defined in R994-508-104.
(11) The Department may revise the monetary determination after the expiration of the appeal time if there has been a mistake as to the facts or the revision would be substantial and required by fairness for a party who did not have access to the information and therefore could not have reasonably filed a timely appeal. The decision to revise a monetary determination after the appeal time has expired is discretionary with the Department.

R994-401-202. Wages Used to Determine Monetary Eligibility.

(1) "Wages paid" include those wages actually received by the worker and wages constructively paid, provided the employer's liability for payment has become unconditionally established. Wages are considered constructively paid, for the purposes of this section, on the earliest of: the next regular pay day in accordance with the employer's customary payment practices, the day required by contractual agreement, or as required by state law.

(2) Quarterly wages are all wages paid or constructively paid during a quarter regardless of when those wages are earned. Bonus or lump sum payments which do not meet the definition of vacation and severance pay in R994-405-701 et seq., made within the quarter which were not due on any specific day shall be treated as wages paid during the quarter in which the payment is made; unless a request is made by the claimant for apportionment to the calendar quarters in which the remuneration was earned. Any such request must be received by the Department within ten days of the issuance of the monetary determination as provided by Subsection 35A-4-401(7).

R994-401-203. Retirement or Disability Retirement Income.

(1) A claimant's WBA is reduced by 100% of any retirement benefits, social security, pension, or disability retirement pay (referred to collectively in this section as "retirement benefits" or "retirement pay") received by the claimant. Except, for claims with an effective date on or after July 4, 2004, and on or before December 11, 2010 the reduction for social security retirement benefits will only be 50%. For claims with an effective date on or after December 12, 2010, there is no reduction for social security retirement benefits. The payments must be:

(a) from a plan contributed to by a base-period employer.
Social security payments are counted if a base period employer contributed to social security even if the social security payment is not based on employment during the base period;

(b) based on prior employment and the claimant qualifies because of age, length of service, disability, or any combination of these criteria. Disability payments must be based, at least in part, by length of service. Savings plans such as a 401(k) or IRA should not be used to reduce the WBA. Payments from workers' compensation for temporary disability, black lung disability income, and benefits from the Department of Veterans Affairs are not counted because the amount of the payment is based on disability and not on length of service. Payments received as a spouse or beneficiary are not counted. That portion of retirement benefits payable to a claimant's former spouse is not counted if the paying entity pays the former spouse directly and it is pursuant to court order or a signed, stipulated agreement in accordance with the law;

(c) periodic and not made in a lump sum. Lump sum payments, even if drawn from the employer's contributions to a fund established for the purpose of retirement, are not treated as severance pay under Subsection 35A-4-405(7); and

(d) payable during the benefit year. A claimant's WBA is not reduced if the claimant is eligible for, but not receiving, retirement income. However, if the claimant subsequently receives a retroactive payment of retirement benefits which, if received during the time unemployment insurance claims were filed, would have resulted in a reduced payment, an overpayment will be established. The period of time the payment represents, not the time of the receipt, is the determining factor. An assumption that a claimant is entitled to receive a pension, even if correct, is not sufficient basis to recompute the WBA. However, if a claimant has applied for a pension and expects to be determined eligible for a specific amount attributable to weeks when Unemployment Insurance benefits are payable, and the claimant is only awaiting receipt of those payments, a reduction of the claimant's WBA will be made.

(2) A claimant who could be eligible for a retirement income, but does not apply until after the Unemployment Insurance benefits have been paid, will be at fault for any overpayment resulting from a retroactive payment of retirement benefits.

(3) The formula for recomputation of the WBA in the event a claimant begins receiving retirement income after the beginning of the benefit year is found in Subsection 35A-4-401(2)(d). The recomputation is effective with the first full calendar week in which the claimant is eligible to receive applicable retirement benefits or adjustments to those benefits.

R994-401-301. Partial Payments - General Definition.

(1) A claimant's earnings that are equal to or less than 30 percent of the WBA will not result in a reduction of the WBA. The claimant's gross weekly earnings over 30 percent of the WBA will be deducted dollar for dollar from the WBA in the week in which it was earned. A claimant who earns less than the WBA and files a claim may be credited with a waiting week, or paid a partial payment. A claimant who earns equal to or more than the WBA will not be credited with a waiting week nor be eligible for any partial payment for that week.

(2) All work and earnings must be reported on a weekly basis. For example, when an otherwise eligible claimant is required to report income from a farm, and is paid one day of holiday pay and then accepts a one-day temporary job, the work and earnings from all three sources must be reported.

(3) Earnings are reportable in the week the work is performed which may be different from the week payment is received. If a claimant receives payment for commission sales, or other periodic earnings, the income must be attributed to, and reported in, the week when the work was performed.

(4) Reportable earnings which a claimant must report on the weekly claim include any and all wages, remuneration, or compensation for services even if the employer is not required to pay contributions on these wages.

(1) If the claimant worked for two or more employers during the base period and is separated from one or more of these employers, but continues in the regular part-time work with a reimbursable employer, the nonseparating part-time employer will not be liable for benefit costs provided;
(a) the claimant earned wages from a nonseparating employer within seven days prior to the date when the claim was filed;
(b) the claimant is not working on an "on call" basis;
(c) the number of hours of work have not been reduced, and
(d) the nonseparating employer makes a request that it not be held liable for benefit costs within ten days of the first notification of the employer's potential liability.

(2) The claimant's WBA will be determined on the basis of the total base period employment and earnings, however, earnings from the part-time reimbursable employer will be excluded from the calculation of the MBA.

(3) If the claimant is later separated from this employer within the benefit year or the claimant's hours of work are reduced below the customary number of hours worked during the base period, the reimbursable employer will be liable to pay the proportionate amount of benefit payments paid thereafter. A new monetary determination can also be made at the request of the claimant and would include all base period wages. The effective date of the revised monetary determination will be the first day of the week in which the request is made. See R994-307-101 for contributory employers.

(1) All payments whether an hourly wage, salary, or commission paid for the performance of any service shall be reportable unless specifically identified as an exception in R994-401-304 or R994-401-305.

(2) Gratuities or tips paid directly to an employee by a customer or the employer for a service provided are reportable.

R994-401-304. Income Which May Be Reportable Under Certain Circumstances.

(1) A bonus paid as a direct result of past performance of service for a specific period prior to the separation is not reportable with respect to any week after the separation. A bonus is a payment given to an employee in addition to usual wages. If the payment is made contingent upon termination it will be considered a severance payment. Payments given at the time of separation that are based on years of service will also be considered severance payments. Severance payments are reportable in accordance with Subsection 35A-4-405(7).

(2) If a claimant is hired to start working on a certain day and the work is not available as of that date but the employer puts the claimant on the payroll as of that date, the claimant is considered employed and those wages are reportable.

(3) Any payment made in consideration of training that is required by the employer is considered to be reportable income unless shown to be:
   (a) expenses necessary for school, for example, tuition, fees, and books;
   (b) travel expenses;
   (c) actual costs for room and board where costs are created as a necessary expense for the schooling; and
   (d) the payments are exempt from income tax liability.

(4) If a claimant is being paid under a contract for the express purpose of being available to an employer, and there are limits placed upon the individual either as to how much earnings, if any, may be earned while receiving these payments, or on the time the individual must hold himself or herself available to the employer, the payment is considered reportable income.

(5) Any payments in kind are reportable, including the cash value for meals, lodging, or other payment unless the meals and lodging are excluded from the definition of wages by the Internal Revenue Service, as follows:
   (a) Meals that are furnished:
      (i) on the business premises of the employer;
      (ii) for the convenience of the employer;
      (iii) without charge for substantial non-compensatory business reasons, not for the purpose of additional compensation.
   (b) Lodging that is furnished:
      (i) on the business premises of the employer;
      (ii) as a condition of employment;
      (iii) for the convenience of the employer, for example, to have an employee available for call at any time.
   (c) Pensions that do not meet the criteria in R994-401-203 are not reportable income.

Payments which are received for reasons other than the performance of a service are not reportable income. Some examples are:

(1) Payments from corporate stocks and bonds;
(2) Public service in lieu of payment of fines;
(3) Fees paid for jury duty or as witness fees will be considered reimbursement for expenses;
(4) Amounts paid specifically, either as an advance or reimbursement, for bona fide, ordinary, and necessary expenses incurred or reasonably expected to be incurred in the business of the employer. If an accounting by the employee is not required by the employer for actual expenses, the Department shall not require itemization;
(5) Payments specifically identifiable as not being provided for the rendering of service will not be considered wages including grants, public or private assistance or other support payments;
(6) Money or other considerations which are normally provided as a matter of course to immediate family members;
(7) Income from investments;
(8) Disability or permanent impairment awards under the Workers' Compensation Act; and
(9) Payment attributable to the value of any equipment owned by the claimant and necessary for the performance of the job. If there is no contract of hire or the contract does not delineate what portion is payable for the equipment, the Department will
determine the claimant's wages based on the prevailing wage for similar work under comparable conditions.

R994. Workforce Services, Unemployment Insurance.

R994-402. Extended Benefits (EB).

R994-402-201. General Definition.

When a claimant has been unable to find work for an extended period of time and has exhausted all of his or her regular benefits, EB may be paid providing the state is in an extended benefit period as defined by Subsection 35A-4-402(7). A claimant does not have to have additional wage credits to qualify for EB as the original claim is extended with the same weekly benefit amount. The maximum benefit amount for a claimant is one-half of the amount of his or her original regular claim up to a maximum of 13 times the weekly benefit amount. All EB stop when the unemployment rate drops below a certain level, even if the claimant has not used all of his or her EB. If the claimant has sufficient additional wage credits and can qualify for a new regular claim, EB are not allowed. There is no waiting week on an EB claim. Availability requirements for EB are different from those for regular claimants. Unless the claimant has good prospects as defined in R994-402-205, the EB claimant must have no occupational restrictions, must reduce wage expectations and increase his or her work search efforts beyond those expected of regular benefit claimants. The only exception to this requirement is for claimants who have Department approval while attending school.

R994-402-202. General Requirements for EB.

(1) Notwithstanding the provisions of the Act concerning regular benefits, a claimant is ineligible for EB during any week of
unemployment in the claimant's eligibility period if the Department finds that during such period:

(a) the claimant failed to accept any offer of suitable work as defined in R994-402-204 or failed to apply for any suitable work to which he or she was referred by the Department; or

(b) he or she failed to make an active, good faith effort to secure employment as provided in Section R994-402-207.

(2) Any claimant who has been found ineligible for EB under Subsection R994-402-202(1) will be denied benefits until he or she has performed services in bona fide covered employment for at least four subsequent weeks, whether or not consecutive, and earned wages for such services equal to at least six times the claimant's weekly benefit amount.

(3) Notwithstanding R994-402-204, no claimant will be denied EB for failure to accept an offer of, or apply for, any job which meets the definition of suitability as described in that subsection if:

(a) the position was not offered to the claimant in writing as defined in R994-402-206 or was not listed with the Department of Workforce Services;

(b) such failure would not result in a denial of benefits under the definition of suitable work for regular benefit claimants in Subsection 35A-4-405(3) to the extent that the criteria of suitability in that section are not inconsistent with the provisions of R994-402-204 or

(c) the claimant meets the requirements of "good prospects" as defined in R994-402-205.

(4) No work is considered to be suitable work unless it complies with the labor standard provisions required by Section 3304(a)(5) of the Internal Revenue Code as provided in Subsection 35A-4-405(3).

(5) The Department shall refer any claimant entitled to EB to any suitable work which meets the criteria prescribed in R994-402-204.

R994-402-203. Eligibility for EB.

To be eligible for EB the claimant must:

(1) exhaust regular benefits as defined by Subsection 35A-4-402(7)(h) and his or her benefit year must have ended after the beginning of the EB period;

(2) be ineligible for a regular claim in Utah or any other state or under any federal unemployment program;

(3) file for EB in accordance with instructions;

(4) meet EB requirements for availability and work search; and

(5) accept suitable work.

R994-402-204. Suitable Work.

(1) Suitable work for EB claimants includes work:

(a) in any occupation within the claimant's capabilities unless he or she can show that his or her prospects for obtaining work in his or her regular occupation are good, as defined in Subsection R994-402-705 and

(b) paying the greater of the federal or state minimum wage provided the gross average pay exceeds the claimant's weekly benefit amount plus any supplemental unemployment benefit.

(2) Suitable work for EB claimants does not include work:

(a) available as the result of a strike or labor dispute;

(b) having wages, hours or other conditions of the work which are substantially less favorable to the claimant than those prevailing for similar work in the locality (for example, a skilled claimant, such as a carpenter, may be required to take a job paying the minimum wage in another occupation, but he or she does not have to take a carpenter job paying minimum wage if that wage is substantially less than the prevailing wage for carpenter work in his or her locality);

(c) which requires the claimant as a condition of being employed to join a union or to resign from or refrain from joining any labor organization;

(d) which would not be considered suitable for a regular claimant, such as unsafe working conditions or work requiring a move or travel beyond normal commuting distance. Except with regard to the type of occupation and the wages, standards for determining the suitability of work are the same for EB claimants as for regular claimants.

R994-402-205. Good Prospects.

When a claimant has a definite assurance of full-time employment in his or her customary occupation to begin within four weeks the claimant is considered to have good prospects. He or she must continue to seek work, but suitability will be determined under the definition of suitable work for regular benefit claimants in Subsection 35A-4-405(3) without regard to the definition in R994-402-204.

R994-402-206. Position Offered in Writing.

A position is considered "offered in writing" if it is listed with the Department and the claimant is referred or offered a referral by the Department even if the claimant is given the referral verbally. If an employer makes a verbal offer of work and the job is not listed with the Department, the provisions of Section 35A-4-405(3) may apply.

R994-402-207. Systematic and Sustained Work Search.

(1) A systematic and sustained work search means that the claimant must register for work with the Department and contact at least 4 employers each week, unless advised otherwise by an authorized Department representative. The claimant should have a realistic plan for finding employment. All of the employer contacts cannot be made on the same day except in circumstances where a work search on several days of the week is impractical. Work search contacts must be with employers not contacted within the last 90 days.

(2) Except for claimants who have received Department approval under section R944-403-201, there is no good cause exception for failure to make a systematic and sustained work search after the claimant has received instructions with regard to the required work search. If the claimant is ill or otherwise unable to seek work, but files a claim for benefits after being instructed with regard to work search requirements, benefits must be denied under Section 35A-4-402 and not under Section 35A-4-403(1)(c) unless the claimant was hospitalized for treatment of an emergency or life-threatening condition. Benefits may be allowed if the claimant failed to make the required work search because he or she was on jury duty and regular unemployment benefits would have been allowed under similar circumstances. If the claimant made the required work search but was unable to work or unavailable for
work for more than half the normal workweek, he or she might be found ineligible under Sections R994-403-111c and R994-403-112c.

(3) If the claimant has obtained part-time work, he or she is still required to make a work search on those days when he or she is not working. The number of contacts may be reduced if the claimant is working a substantial amount of time in the part-time job.

(4) Work search requirements may be suspended if the Department determines that severe weather conditions or other calamity has forced a suspension of such activities by most members of the community.

R994-402-208. Claimant Responsibilities.

(1) EB claimants must report all information as requested by the Department.

(2) An EB claimant is required to keep a detailed record of the employers contacted including:

(a) the name and address of the employer,
(b) the date of contact with the employer,
(c) the person contacted if personal contact is made,
(d) the result of the contact,
(e) the type of work sought.

(3) Failure to keep records or provide such information will result in a conclusion that a work search was not made unless other convincing evidence is provided.

R994-402-209. Period of Disqualification.

A claimant who fails to accept an offer of suitable work or fails to actively seek work will be denied benefits for the week in which such failure occurs and for the following weeks until he or she has had employment during at least four subsequent weeks and has earned at least six times his or her weekly benefit amount. The earnings do not have to be in consecutive weeks, but must be bona fide, covered, employment.

All disqualifications for regular unemployment benefits continue to be in effect on EB claims. In addition, a claimant who has been denied benefits under Subsection 35A-4-405(2)(b) is not eligible to receive EB until he or she has returned to bona fide covered employment and earned at least six times his or her weekly benefit amount in employment subsequent to the disqualifying separation, even if the disqualification period has ended.

R994-402-211. Out of State Claimants.

A claimant who resides in another state but is filing against Utah under the interstate benefit payment plan is only entitled to two weeks of EB while residing in another state if the state of residence is not in an extended benefit period. The amount of the payment, whether it is a full or partial payment, is immaterial. When a payment of any amount has been made for each of two weeks, whether or not consecutive, no further payments can be made.

R994-402-212. Overpayments.

Overpayments established on extended benefit payments are collectible in accordance with the provisions of Subsections 35A-4-406(4) and 35A-4-406(5).

(1) Immediately after it has been determined that an extended benefit period will become effective or will end in the state, the Department will make a public announcement and give personal notice calculated to reach the largest practicable number of potentially eligible persons within the state.

(2) The notice given at the beginning of an extended benefit period will state:

(a) the first date on which potential claimants may file a claim for, and become eligible for, extended benefit payments,
(b) eligibility criteria for EB, and
(c) what action individuals must take to protect their benefit rights.

(3) Whenever there has been a determination that an EB period will end, the Department will provide notice to all claimants currently filing claims for EB of the forthcoming end of the EB period and its effect on the claimant's right to EB.

R994-402-602. Effective Date of EB Claim.

The effective date of claims for EB will be the Sunday of the first week during which EB are payable in accordance with Subsection 35A-4-402(7) provided the claimant has filed as instructed. The effective date of the EB claim may be backdated upon a showing of good cause under Subsections 35A-4-403(1) and 35A-4-401(1)(b).

Within five years of an administrative rule's original enactment or last five-year review, the agency is required to review the rule. This review is intended to help the agency determine, and to notify the public, that the administrative rule in force is still authorized by statute and necessary. Upon reviewing a rule, an agency may: repeal the rule by filing a PROPOSED RULE; continue the rule as it is by filing a FIVE-YEAR NOTICE OF REVIEW AND STATEMENT OF CONTINUATION (REVIEW); or amend the rule by filing a PROPOSED RULE and by filing a REVIEW. By filing a REVIEW, the agency indicates that the rule is still necessary.

A REVIEW is not followed by the rule text. The rule text that is being continued may be found in the online edition of the Utah Administrative Code available at http://www.rules.utah.gov/publicat/code.htm. The rule text may also be inspected at the agency or the Office of Administrative Rules. REVIEWS are effective upon filing. REVIEWS are governed by Section 63G-3-305.

Medicaid Policy for Pharmacy Program

FIVE-YEAR NOTICE OF REVIEW AND STATEMENT OF CONTINUATION
DAR FILE NO.: 41556
FILED: 04/28/2017

NOTICE OF REVIEW AND STATEMENT OF CONTINUATION
CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE: Section 26-18-3 requires the Department of Health to implement Medicaid policy through administrative rules, and Section 26-1-5 authorizes the Department to adopt rules that provide services to Medicaid members and reimbursement to Medicaid providers. Additionally, 42 CFR 447.502 through 447.520 sets forth criteria for the payment of drugs.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: The Department received written comments from Gold Standard after the Department filed an amendment to implement Medicaid policy by rule in 2016. The comment stated that by listing only one nationally recognized database (Medi-Span) to define a "covered outpatient drug", the Department was favoring one particular vendor instead of using broader language to avoid the need for passing a new law whenever a new business enters the marketplace. Gold Standard then suggested either changing the Definitions section of the rule (Section R414-60-2) to include Gold Standard, or using broader language to include any nationally recognized database. The Department also received written requests after filing an amendment to the rule in 2017 to implement the federal Covered Outpatient Drug Rule. These requests came from Convenience, Value and Service (CVS) Health and the Utah Food Industry Association (UFIA). These entities wanted to confirm their understanding of fee-for-service rates in regard to Wholesale Acquisition Cost (WAC), Federal Upper Limit (FUL), and the Utah Maximum Allowable Cost (UMAC), and to verify their understanding of urban, rural, and out-of-state professional dispensing fees. UFIA also wanted to confirm whether UMAC would factor in the National Average Drug Acquisition Cost (NADAC), and wanted to know whether pharmacies would be required to submit their Average Acquisition Cost (AAC) on every claim submitted in regard to the Department's evaluation of Submitted Ingredient Cost.

REASONED JUSTIFICATION FOR THE CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: In its initial response to the comments from Gold Standard, the Department maintained that it does not reference other databases because it uses only the Medi-Span drug file. The Department further stated that if a drug is not in the Medi-Span drug file, the Department cannot
adjudicate the drug because it is not in the system. Additionally, listing a generic reference could mean the drug is listed in the First DataBank file and not the Medi-Span file, and may render the Department unable to adjudicate the claim. When the Department switches its compendia from Medi-Span to another compendia, it will update the rule accordingly. In the meantime, the Department needs to specify and clearly state what it will cover and not cover. Based on the aforementioned response, the Department made the proposed rule effective in 2016. Nevertheless, after further discussion with Gold Standard and after more internal review, the Department decided to amend the rule further to use broader language. The new proposed change has been published for comment in the April 15, 2017, Utah State Bulletin under Filing No. 41379, and is pending approval to be made effective. In its response to CVS Health and UFIA, the Department confirmed their understanding of the proposed rule in terms of WAC, FUL, and UMAC, and verified their understanding of urban, rural, and out-of-state professional dispensing fees. The Department further confirmed that UMAC will be the NADAC for drugs that the Centers for Medicare and Medicaid Services (CMS) has established at a NADAC price. For drugs that do not have a NADAC, the Department may set a UMAC price. In regard to the Department’s evaluation of Submitted Ingredient Cost, pharmacies that use medications purchased through the 340B program, Federal Supply Schedule, or Nominal Price, must submit the actual acquisition cost on the claim. Pharmacies that have purchased medications outside of these programs may continue to bill Utah Medicaid using their Usual and Customary pricing structure. The Department will continue this rule because it implements pharmacy services and prescription drug coverage, clarifies coverage for over-the-counter drugs, specifies reimbursement and pharmacy dispensing fees, and implements federal policy for covered outpatient drugs. There is no opposition to the rule itself, and the Department addressed previous concerns as noted above. Therefore, this rule should be continued.

NOTICE OF REVIEW AND STATEMENT OF CONTINUATION
CONCISE EXPLANATION OF THE PARTICULAR STATUTORY PROVISIONS UNDER WHICH THE RULE IS ENACTED AND HOW THESE PROVISIONS AUTHORIZE OR REQUIRE THE RULE: Section 54-3-1 requires the Public Service Commission (Commission) to establish requirements for each electric corporation and distribution electrical cooperative that is also a public utility to have a program to ensure reliable electric service is provided to each electric service customer.

SUMMARY OF WRITTEN COMMENTS RECEIVED DURING AND SINCE THE LAST FIVE YEAR REVIEW OF THE RULE FROM INTERESTED PERSONS SUPPORTING OR OPPOSING THE RULE: This rule was proposed by the Commission on 04/15/2012. On 08/01/2012, a change of proposed rule was filed. Changes were based upon the consideration of comments received on the initial version of the rule and the desire to incorporate the 05/21/2012 version of Standard IEEE 1366-2012 Guide for Electric Power Distribution Reliability Indices (which was published after the initial 05/15/2012 filing deadline for the proposed rule) as the foundation for the rule. The changes provided more flexibility for an electric corporation to develop, manage, and revise its electric service reliability program while requiring the electric corporation to meet Commission-approved levels of reliability. When the rule was amended on 12/20/2012, Rocky Mountain Power recommended to replace the requirement for an electric corporation to report Momentary Average Interruption Frequency Index (MAIFI) data with the requirement to report Momentary Average Interruption Frequency Index Event (MAIFIe) data, to clarify reporting requirements for MAIFIe data and to make other minor changes. As proposed by Rocky Mountain Power, the impact of momentary electric service interruption experienced by a customer is related to the entire momentary event (as represented by MAIFIe) rather than the electric system's attempts to automatically restore power after a fault event (as represented by MAIFI). Therefore, the electric service reliability rules addressing momentary outages should reference MAIFIe not MAIFI.

REASONED JUSTIFICATION FOR THE CONTINUATION OF THE RULE, INCLUDING REASONS WHY THE AGENCY DISAGREES WITH COMMENTS IN OPPOSITION TO THE RULE, IF ANY: The rule should remain in effect to allow the Public Service Commission to require utilities to have a program to ensure reliable electric service is provided to each electric service customer. Therefore, this rule should be continued.

Section 54-3-2 requires every public utility to file with the Commission its schedules, rules, regulations, contracts, privileges, and facilities affecting or relating to rates, tolls, rentals, charges, classifications, or services. NOTICES OF
FIVE-YEAR EXPIRATIONS

Rulewriting agencies are required by law to review each of their administrative rules within five years of the date of the rule's original enactment or the date of last review (Section 63G-3-305). The Office of Administrative Rules (Office) is required to notify agencies of rules due for review at least 180 days prior to the anniversary date. If the agency finds that it will not meet the deadline for review of the rule (the five-year anniversary date), it may file a Notice of Five-Year Extension (Extension) with the Office. However, if the agency fails to file either the Five-Year Notice of Review and Statement of Continuation or the Extension by the date provide by the Office, the rule expires.

Upon expiration of the rule, the Office files a Notice of Five-Year Expiration (Expiration) to document the action. The Office is required to remove the rule from the Utah Administrative Code. The agency may no longer enforce the rule and it must follow regular rulemaking procedures to replace the rule if it is still needed.

The Office has filed Expirations for each of the rules listed below which were not reviewed in accordance with Section 63G-3-305. These rules have expired and have been removed from the Utah Administrative Code.

The expiration of administrative rules for failure to comply with the five-year review requirement is governed by Subsection 63G-3-305(8).

RULE EFFECTIVE DATES

State law provides for agencies to make their administrative rules effective and enforceable after publication in the Utah State Bulletin. In the case of Proposed Rules or Changes in Proposed Rules with a designated comment period, the law permits an agency to make a rule effective no fewer than seven calendar days after the close of the public comment period, nor more than 120 days after the publication date. In the case of Changes in Proposed Rules with no designated comment period, the law permits an agency to make a rule effective on any date including or after the thirtieth day after the rule’s publication date, but not more than 120 days after the publication date. If an agency fails to file a Notice of Effective Date within 120 days from the publication of a Proposed Rule or a related Change in Proposed Rule the rule lapses.

Agencies have notified the Office of Administrative Rules that the rules listed below have been made effective.

Notices of Effective Date are governed by Subsection 63G-3-301(12), Section 63G-3-303, and Sections R15-4-5a and R15-4-5b.

The Rules Index is a cumulative index that reflects all effective changes to Utah’s administrative rules. The current Index lists changes made effective from January 2, 2017 through May 01, 2017. The Rules Index is published in the Utah State Bulletin and in the annual Utah Administrative Rules Index of Changes. Nonsubstantive changes, while not published in the Bulletin, do become part of the Utah Administrative Code (Code) and are included in this Index, as well as 120-Day (Emergency) rules that do not become part of the Code. The rules are indexed by Agency (Code Number) and Keyword (Subject).

Questions regarding the index and the information it contains should be addressed to the Office of Administrative Rules (801-538-3003).

A copy of the Rules Index is available for public inspection at the Office of Administrative Rules (5110 State Office Building, Salt Lake City, UT), or may be viewed online at the Office’s web site (http://www.rules.utah.gov/).
