R137-1-10. Eligibility to Grieve.

(1) Standing. Only executive branch career service employees and reporting employees alleging retaliatory action, as defined by Subsections 67-19a-101(7) and 67-19a-101(8), may use these grievance procedures.

(a) Pursuant to Subsection 67-19-16(6) and Section 67-19a-301, the CSRO has no jurisdiction over grievance petitions filed by probationary employees, public applicants, exempt employees, noncareer service employees, public employees of the state's political subdivisions, public employees covered by other grievance systems, or employees of state institutions of higher education.

(2) Questionable Standing. Where a question or dispute exists whether an employee qualifies to use these grievance procedures, such controversies must be resolved through application of R137-1-17 by the administrator. The administrator's determination shall be final and subject to review only in the Utah Court of Appeals for formal adjudications and in the district court for informal adjudications according to Subsections 67-19a-301(2) and 67-19a-403(2)(a)(i), and Sections 63G-4-402 and 63G-4-403 of the UAPA.

(3) Class Action. Pursuant to Subsection 67-19a-401(8), class action grievances will not be admissible for consideration by the CSRO under these grievance procedures.

(4) Group Grievance. A group grievance is admissible provided that each aggrieved employee signs the grievance, according to Subsections 67-19a-401(8)(a) and (b).

All grievances shall be reviewed to determine:

(1) Whether the matters or issues raised in a grievance fall within the CSRO's limited jurisdiction as set forth in Subsections 67-19a-202(1)(a) and 67-19a-202(1)(f), or

(2) Whether any issues or components of a grievance were satisfactorily resolved at an earlier step in the grievance procedures. Matters or issues resolved at an earlier step in the grievance procedures may not be advanced to the CSRO.

R137-1-12. Employees' Rights.

(1) Representation. The state does not provide legal counsel or representation to aggrieved employees nor pay the fees for an employee's representation. Also, Subsection 67-19a-406(4)(a) precludes the CSRO from awarding fees or costs to an employee's attorney or representative. Pursuant to Subsection 67-19a-402.5(6)(a), an appellate court may award costs and attorney fees, accrued at the appellate court level, to a prevailing employee in a retaliatory action grievance.

(2) Pro Se Status. A party or person to a grievance proceeding may appear pro se. When a party or person appears pro se, the party or person is entitled to request the issuance of subpoenas, directly examine and cross-examine witnesses, make opening and closing statements, submit documentary evidence, summarize testimony, and in all respects fully present one's own case.

(3) No Reprisal. Pursuant to Subsection 67-19a-303(3), no appointing authority, director, manager, or supervisor may take action to retaliate against a grievant, a representative, or a witness who participates in or is scheduled to participate in a grievance proceeding.

(1) Automatic Processing. An agency's failure to reply in writing to an aggrieved employee's grievance within the prescribed time period automatically grants the aggrieved employee the right to advance the grievance to the next step of these grievance procedures listed in Section 14 (below). Pursuant to Subsection 67-19a-401(2), the parties may mutually agree to waive or extend steps 1, 2, or 3 or extend the statutory time period for those steps. Waivers of the statutory time periods by agency management and the aggrieved employee must be in writing and submitted to the administrator.

(2) Waiver. When the administrator finds that a grievance is one that an agency cannot resolve because of the nature of the grievance, the matter may be waived in writing to a higher level. Steps 1, 2, or 3 may be waived, but not step 4. Any waiver agreed to between the parties must be in writing, dated and submitted to the administrator according to Subsection 67-19a-401(2) and (3).

(3) Excusable Neglect. The standard of excusable neglect may be offered as a defense to lack of timeliness in processing a grievance or for not appearing at a scheduled proceeding.

(a) The administrator or appointed CSRO hearing officer shall determine the applicability of the excusable neglect standard when offered as a defense to lack of timeliness or not appearing at a scheduled proceeding.

(b) All questions are to be resolved at the original level of occurrence.

(4) Abandonment of Grievance. In the event the administrator or CSRO hearing officer determines that a grievance claim has been withdrawn, abandoned, or otherwise neglected beyond either the established time lines or a reasonable period, the matter no longer qualifies for further processing through these grievance procedures. When withdrawal is intended, it should be accomplished in writing.

(5) Default. An employee who defaults in processing a grievance forfeits further rights granted by these rules and under Section 63G-4-209 of the UAPA, which is incorporated by reference.

(6) Transfer. The administrator may administratively transfer a grievance from the aggrieved employee's department to another, more appropriate department to respond as necessary to serve the ends of justice and fairness.

(7) Stay. Upon written request, the administrator or the CSRO hearing officer may grant a stay of a decision, order, ruling, remedy, or proceeding. However, stays may be granted only when agreed to by the parties and when the administrator or assigned hearing officer finds a stay necessary for judicial economy and the interest of justice.

Persons acting on grievances pursuant to Sections 67-19a-402 and 67-19a-402.5, and in accordance with these rules, shall conduct their filings through the following steps, or levels, of increasing accountability:

(1) Step 1; A written grievance shall be submitted to the employee's immediate supervisor. A standard grievance form is available from the CSRO. Once submitted, the written grievance then becomes a formal complaint necessitating a response. Steps 2 and 3 also necessitate responses within time periods outlined in Section 67-19a-402. Such responses are to be issued by only one supervisor, director, etc. at each step.

Step 2; If the grievance is not resolved at step 1, the employee may advance their grievance to step 2. Step 2 requires the grievance be reviewed by the agency or division director or designee;

Step 3; If the grievance is not resolved at step 2, the employee may advance their grievance to step 3. Step 3 requires the grievance be reviewed by the department head, executive director, commissioner or their designated representative.

Step 4; If the grievance is not resolved at step 3, the employee may advance their grievance to step 4. Step 4 is an evidentiary de novo hearing conducted before a CSRO hearing officer.

The purpose for the above steps, or levels, is to curtail employees from having to submit their grievances to persons in agency management not specified in the above steps or levels. Only the above-listed persons (or their designated representatives) in agency management are authorized to respond to state employees' grievances.

(1) An aggrieved employee who has been suspended without pay, demoted or dismissed by their respective department head (i.e., executive director or commissioner) may appeal the department head's action directly to the CSRO at the evidentiary step 4 level.

(a) An appeal from discipline imposed by the department head is distinguishable from a grievance.

(b) A grievance is filed at step 1 and proceeds through steps 2 and 3. Suspensions without pay that are not imposed by a department head shall proceed through the grievance procedures as a grievance.

(c) When an appeal from discipline imposed by a department head occurs at the step 3 level, it may be appealed directly to the CSRO at the evidentiary/step 4 level.

(2) When appealed to the CSRO, the appeal must be filed within 20 working days from the date an aggrieved employee receives written notification from the department head who imposed the disciplinary action.

R137-1-16. Procedure for Appealing Reduction in Force or Abandonment of Position.
An aggrieved employee may appeal a reduction in force or abandonment of position according to the following:

(1) Upon receiving the department head's final, written decision, the employee may appeal from a reduction in force by filing a written appeal within 20 working days of receipt of the decision with the CSRO.

(2) An employee separated from employment for abandonment of position may appeal the department head's final written decision by filing a written appeal with the CSRO within 20 working days of receipt of the decision.

R137-1-17. Initial Review by Administrator.

When an employee advances a grievance to the CSRO or directly appeals a department head's decision to the CSRO, the administrator shall make an initial determination of whether the CSRO has authority to review or decide the grievance or appeal. In order to make this determination, the administrator may hold an initial adjudicative hearing in accordance with Subsections 67-19a-403(2), 67-19a-402.5(2)(b)(i) and Section 63G-4-206 or conduct an informal adjudicative review of the file in accordance with Sections 67-19a-403(2), 67-19a-402.5(2)(b)(ii) and Section 63G-4-202 which are incorporated by reference.

(1) Procedural Issues. The administrator shall make an initial determination of the following: timeliness, direct harm, jurisdiction, standing, eligibility of the issues to be advanced, and any other procedural matters or jurisdictional controversies according to Sections 67-19a-402.5, 67-19a-403 and 67-19a-404.

(2) Determination. The administrator has authority to determine which types of grievances may be heard at the evidentiary/step 4 level. Those types of grievances found to have been resolved at a lower level or those that do not qualify for advancement to the evidentiary/step 4 level are precluded from further consideration in any grievance submitted for CSRO consideration.

(3) Preclusion. Those types of actions not listed in Subsections 67-19a-202(1)(a) or 67-19a-202(1)(b) and referenced in Subsection 67-19a-302(1) and 67-19a-302(3) are precluded from advancement to the evidentiary/step 4 level. When the grievance is precluded from the evidentiary/step 4 level, the matter under dispute shall be deemed as final at the level of the department head/step 3 according to Subsection 67-19a-302(2).

(4) Reconsideration. A written request for reconsideration may be filed with the administrator. It must be filed within 20 days of the date the administrator issues a decision regarding whether the CSRO has authority to review or decide a grievance or appeal. Section 63G-4-302 of the UAPA incorporated by reference. The written reconsideration request must contain specific reasons why a reconsideration is warranted with respect to the factual findings and legal conclusions of the hearing decision or administrative review of the file decision. New or additional evidence may not be considered.

(5) Judicial Review.

(a) The aggrieved employee or the responding agency may appeal the administrator's initial adjudicative hearing decision and final agency action to the Utah Court of Appeals within 30 calendar days from the date of issuance according to Subsection 63G-4-401(3)(a) and Section 63G-4-403 of the UAPA which are incorporated by reference.

(b) The aggrieved employee or the responding agency may appeal the administrator's informal adjudicative decision and final agency action of an administrative review of the file to the district court according to Sections 63G-4-402 and 63G-4-404 of the UAPA which are incorporated by reference.

(c) A decision reached by the CSRO in reviewing a retaliatory action grievance from a reporting employee, as defined by Subsections 67-19a-101(7) and 67-19a-101(8), may be appealed to the Utah Court of Appeals.

(6) Summary Judgment. The administrator or the Presiding Officer, Utah Code Ann. Section 63G-4-103(1)(b)(i)) hearing officer may, pursuant to an administrative review of the procedural facts and circumstances of a grievance case, summarily dispose of a case on the ground that:

(a) the matter is untimely;
(b) the grievant has failed to appear at the properly scheduled date, time, and place pursuant to written notice;
(c) the grievant lacks standing;
(d) the grievant has withdrawn or otherwise abandoned the grievance;
(e) the grievant has not been directly harmed;
(f) the issue grievable does not qualify to be advanced beyond step 3; or
(g) the requested remedy or relief exceeds the scope of these grievance procedures.

(7) Transcription and Transcript Fees. If a party appeals the administrator's initial adjudicative hearing decision to the Utah Court of Appeals or to the district court, the appealing party is responsible for paying all transcription costs and transcript fees. The CSRO does not participate in the payment of these fees when appeals are taken to the appellate or trial court. See Utah Rules of Appellate Procedure, Rule 11, and Section 63G-4-403(3), regarding transcript costs from formal adjudications under the UAPA.

The provisions under this section pertain to initial administrative and evidentiary/step 4 proceedings before the CSRO.

(1) Purpose. A formal adjudicative proceeding provides a fair and impartial opportunity for the parties to be heard and to present their evidence. The adjudicative process allows the CSRO administrator or the CSRO hearing officer to be completely informed about the case. After having considered the parties' evidence, the CSRO administrator or the CSRO hearing officer may then render a proper determination based upon all of the facts, circumstances, and applicable laws, rules and policies.

(2) Types of Adjudications. For purposes of Section 63G-4-202 of the UAPA:

(a) all initial administrative and evidentiary/step 4 adjudications at the CSRO are formal adjudicative proceedings. Sections 63G-4-205 through 63G-4-209, 63G-4-401 and 63G-4-405 of the UAPA are incorporated by reference within this rule and are applicable to these adjudicative proceedings.

(b) An administrative review of the file, pursuant to Subsections 67-19a-403(2) and 67-19a-402.5(2)(b)(ii), is an informal adjudicative proceeding with Sections 63G-4-203, 63G-4-402, and 63G-4-404 of the UAPA incorporated by reference.

(3) Rules of Evidence/Procedure Inapplicable. The technical rules of evidence and the formal rules of civil procedure as observed in the courts of law are inapplicable to these grievance procedure proceedings, except for the rules of privilege as recognized by law and those specific references to the rules of evidence and procedure as set forth in the UAPA.

(4) Expelling. The presiding CSRO hearing officer may clear the proceeding of witnesses not under examination and may exclude any unruly or disruptive person. The hearing officer may also expel any persons whose presence is antagonistic, oppressive, intimidating or appears to have a chilling effect on the witness under examination.

(5) Presentation of Case. Each party is given the opportunity to make an opening statement and to present evidence. After the evidence is closed, each party may offer a closing argument. The moving party may offer one rebuttal.
Continuous rebuttal is not permissible.

(6) Objections.
(a) When an objection is made as to the admissibility of evidence, the presiding CSRO hearing officer shall note the objection for the record and make a ruling or take the objection under advisement to be ruled upon later.
(b) The presiding CSRO hearing officer has discretion to exclude inadmissible evidence and to order that cumulative or repetitive evidence be discontinued.
(c) A party objecting to the introduction of evidence must state the precise grounds of the objection at the time such evidence is offered.

(7) Marking Exhibits. All exhibits shall be numerically marked and labeled in the order received into evidence, unless previously marked and labeled.

(8) Motion to Dismiss. The administrator or CSRO hearing officer may, upon a party's motion or upon their own motion, dismiss the grievance or appeal before the CSRO.

(9) Consolidation of Grievances. Grievances of the same or of a sufficiently similar context may be consolidated by the administrator for purposes of conducting a single or joint hearing.

(10) Standard of Proof. In all CSRO adjudicative proceedings, the standard of proof is the substantial evidence standard according to Subsections 67-19a-406(2) and 67-21-3.5.

(11) Hearsay Evidence. Hearsay evidence is admissible in CSRO formal adjudicative proceedings as qualified by Subsection 63G-4-208(3) of the UAPA which is incorporated by reference.

(12) Discovery. The following rule provisions satisfy Section 63G-4-205 of the UAPA on discovery.
(a) Discovery shall be limited to that which is relevant and nonprivileged, and for which each party has a substantial, demonstrable need for supporting their respective claims or defenses.
(b) At the discretion and approval of the administrator or appointed CSRO hearing officer, parties to a dispute may obtain discovery. The CSRO administrator or hearing officer has discretion to entertain discovery motions on a case-by-case basis regarding the following:
(i) production of documents, records and things under Utah Rule 34 of Civil Procedure; and
(ii) depositions only when a proposed witness is unavailable for giving testimony at a scheduled hearing.
(c) No other form of discovery is permitted.
(d) Witness lists and copies of exhibits shall be offered by each party to the opposing party and to the presiding CSRO hearing officer during a prehearing/scheduling conference, unless the exchange is scheduled for a later date.
(e) Each party's list of witnesses shall contain a brief statement describing the nature of the proposed testimony to be offered by each witness.
(f) A party may not surprise the opposing party with a witness or an exhibit at the hearing which was not made known at the prehearing/scheduling conference, or by a scheduled exchange date, unless the witness or exhibit is in direct rebuttal to admitted opposing evidence. Also refer to R137-1-7(1)(c).

(13) Page Limitation.
(a) Written motions, pleadings, briefs, and memoranda for all CSRO proceedings may not exceed 20 typed, double-spaced 8-1/2 x 11 inch pages, exclusive of any statement of facts. Reply briefs may not exceed ten pages.
(b) An application for an exception to the above-stated page limitation provisions must be timely filed in writing, and not more than ten double-spaced 8-1/2 x 11 inch pages in a 12-point font. The applicant party has the burden to offer sufficient justification for requests more than 20 and 10 pages respectively to the CSRO for the granting of any exceptions to the page limitation provision.

(c) The CSRO may weigh all requests to exceed the page limitation provision based upon the reasonableness and necessity of such requests in light of each case and its circumstances. The CSRO does not automatically grant exceptions simply on the basis of a request.

(1) Availability of State Employees to Testify. An agency shall be responsible for making available any of its employees who are subpoenaed to testify in a hearing.
(a) Off Duty Employees. Agencies are not responsible for making available an employee who is: off duty; on sick, annual or other approved leave; or who, for any other reason, is not at work during the time the hearing is in progress.
(b) Nondisruption. The parties and their representatives, the administrator and the CSRO hearing officer shall make every effort to avoid disruption to the operation of state government in the calling of state employees to testify in hearings under these grievance procedures.

(c) Witness Failure. If a requested witness does not appear at the scheduled hearing, the witness's failure to appear may not necessitate the postponement of any proceedings.
(d) Excessive Witnesses. If the number of witnesses requested by a party is excessive, the administrator or the CSRO hearing officer may require the party to justify the request or face denial of part or all of the request.

(e) Witness Fees and Mileage Fees. A witness fee and a mileage fee are available to nonstate employees and to state employees who use nonworking hours if their presence is required in a grievance proceeding as a witness according to Section 75B-1-119. The CSRO reserves the right to determine on an individual case basis whether it will authorize a travel fee, and to what extent, for an out-of-state witness called by a party.

(2) Hostile Witnesses. When the presiding CSRO hearing officer determines that a witness is uncooperative or even hostile, the witness may be examined by the party calling that witness as if under cross-examination. The party calling the witness may, upon showing that the witness was called in good faith but that the testimony is a surprise, proceed to impeach the witness by proof of prior inconsistent statements.

(3) Exclusion/Sequestering of Witnesses.
(a) The presiding CSRO hearing officer may sequester witnesses from the hearing until they are called to testify.
(b) Witnesses not presently testifying may be sequestered on motion by one or both parties or in the presiding hearing officer's discretion.
(c) The presiding CSRO hearing officer will counsel the witnesses not to discuss the case with those witnesses who have not yet testified.

(4) Management Representative. Prior to every hearing the agency may designate one person to serve as the agency's management representative. The agency's management representative is entitled to remain throughout the hearing to represent the agency at any proceeding even if called to testify, unless the hearing officer determines it is reasonable to expel the management representative for any or part of the hearing.

R137-1-20. Public Hearings.

A CSRO hearing is open to the public unless there are reasonable grounds to justify an executive session for either part or all of a hearing. This provision does not apply to witnesses who are being called to testify according to R137-1-19.

(1) Closing Hearings. All grievance procedure hearings shall be open to the public except as follows:
(a) The administrator or the CSRO hearing officer may close either a portion or an entire hearing based upon reasonable grounds.
(b) An evidentiary/step 4 hearing may be closed in part or in its entirety when the proceeding involves discussion about a
state employee's character, professional competence, or physical or mental health according to Subsection 52-4-205(1)(a) of the Open and Public Meetings statute.

(2) Sealing Evidence. The administrator or the CSRO hearing officer may seal the record when appropriate according to Subsection 67-19a-406(4)(c).

(3) Media Presence. All hearings at the jurisdictional and evidentiary/step 4 level are open to the media, unless closed pursuant to R137-1-2(10) above. However, television cameras are not permitted at the evidentiary/step 4 proceeding.

(4) Distribution of Decisions. Once the grievance process, including all administrative appeals, has been completed and if the agency's decision was sustained, the administrator may provide copies of legal decisions, orders, and rulings to the public upon request. Portions of or entire legal decisions and orders may be withheld if deemed to be legally privileged or protected under the state's Government Records Access and Management Act (GRAMA), or if the record is sealed according to the Open and Public Meetings statute.

(1) Authority of the CSRO Hearing Officer/Presiding Officer. The CSRO hearing officer/presiding officer is authorized to:

(a) serve as the presiding officer at evidentiary/step 4 hearings as set forth at Subsection 63G-4-103(1)(h) of the UAPA;

(b) maintain order, ensure the development of a clear and complete record, rule upon offers of proof, receive relevant evidence, and assign the burden of proof according to Subsection 67-19a-406(2);

(c) set reasonable limits on repetitive and cumulative testimony and sequester any witness whose later testimony might be colored by the testimony of another witness or any person whose presence might have a chilling effect on another testifying witness;

(d) rule on any motions, discovery requests, exhibit lists, witness lists and proposed findings;

(e) require the filing of memoranda of law and the presentation of oral argument with respect to any question of law;

(f) compel testimony and order the production of evidence and the appearance of witnesses;

(g) admit evidence that has reasonable and probative value; and

(h) reopen the evidentiary record.

(2) Conduct of Hearings. A hearing shall be confined to those issues related to the subject matter presented in the original grievance statement.

(a) An evidentiary proceeding may not be allowed to develop into a general inquiry into the policies and operations of an agency.

(b) An evidentiary proceeding is intended solely to receive evidence that either refutes or substantiates specific claims or charges. A proceeding may not be used as an occasion for irresponsible accusations, general attacks upon the character or conduct of the employing agency, agency management, or other employees. A hearing may not be used as a forum for making derogatory assertions having no bearing on the claims or specific matters under review.

(3) Evidentiary/Step 4 Hearing. An evidentiary/step 4 hearing shall be a hearing on the record according to Subsections 67-19a-406(1) and (2), held de novo, with both parties being granted full administrative process as follows:

(a) The CSRO hearing officer shall first make factual findings based solely on the evidence presented at the hearing without deference to any prior factual findings of the agency. The CSRO hearing officer shall then determine whether:

(i) the factual findings made from the evidentiary/step 4 hearing supported with substantial evidence the allegations made by the agency or the appointing authority, and

(ii) the agency has correctly applied relevant policies, rules, and statutes.

(b) When the CSRO hearing officer determines in accordance with the procedures set forth above that the evidentiary/step 4 factual findings support the allegations of the agency or the appointing authority, then the CSRO hearing officer must determine whether the agency's decision, including any disciplinary sanctions imposed, is excessive, disproportionate or otherwise constitutes an abuse of discretion. In making this latter determination, the CSRO hearing officer shall give deference to the decision of the agency or the appointing authority. If the CSRO hearing officer determines that the agency's penalty is excessive, disproportionate or constitutes an abuse of discretion, the CSRO hearing officer shall determine the appropriate remedy.

(4) Discretion. Upon commencement, the CSRO hearing officer shall announce that the hearing is convened and is being held upon the record. The CSRO hearing officer shall note appearances for the record and note the party having the burden of moving forward first.

(5) Closing the Record. After all testimony, documentary evidence, and arguments have been presented, the CSRO hearing officer shall close the record and terminate the proceeding, unless one or both parties agree to submit a posthearing brief or memoranda of law within a specified time.

(6) Posthearing Briefs. When posthearing briefs or memoranda of law are scheduled to be submitted, the record shall remain open until the briefs or memoranda are exchanged and received by the CSRO hearing officer and incorporated into the record, or until the time to receive these submissions has expired. After receipt of posthearing documents, or upon the expiration of the time to receive posthearing documents, the case is then taken under advisement, and the period commences for the issuance of the written decision.

(7) Findings of Fact, Conclusions of Law. Notwithstanding R137-1-2(1)(h) above, following the closing of the record, the CSRO hearing officer shall write a decision containing findings of fact and conclusions of law according to Section 67-19a-406 and Section 63G-4-208 of the UAPA, which is incorporated by reference. When the CSRO hearing officer's decision and order is filed with the administrator it then becomes the decision and order of the evidentiary/step 4 hearing.

(8) Distribution of Decisions. The administrator shall distribute copies of the evidentiary/step 4 decision and order to the persons, parties and representatives of record.

(9) Past Work Record. In those proceedings where a disciplinary penalty is at issue, the past employment record of the employee is relevant for purposes of either mitigating or sustaining the penalty when substantial evidence supports an agency's allegations.

(10) Compliance and Enforcement. State agencies, department heads, division directors and officials are expected to comply with decisions and orders issued by the CSRO hearing officer. Enforcement measures available to the CSRO include:

(a) petitioning the governor, who may remove his appointed state officers with or without cause, and with respect to those who can only be removed for cause, refusal to obey a lawful order may constitute sufficient cause for removal;

(b) a mandamus order to compel the official to obey the order;

(c) the charge of a Class A misdemeanor according to Section 67-19-29; and

(d) seeking enforcement of a legal decision, order or ruling through civil enforcement in the district court according to
Subsection 63G-4-501(1) of the UAPA which is incorporated by reference.

(11) Rehearings. Rehearings are not permitted.

(12) Reconsideration.

(a) Section 63G-4-302 of the UAPA is incorporated by reference within this rule, and requests for reconsideration of an evidentiary/step 4 decision will be conducted in accordance with that section, except for the time period which is stated below.

(b) The written reconsideration request must contain specific reasons why a reconsideration is warranted with respect to the factual findings and legal conclusions of the evidentiary/step 4 decision. The same CSRO hearing officer shall decide the propriety of a reconsideration. A request for reconsideration is filed with the administrator. To be timely the written request for reconsideration shall be filed within twenty days after the evidentiary/step 4 decision is issued as provided at Section 63G-4-302.

(13) Appeal to the Utah Court of Appeals. To appeal to the Utah Court of Appeals, a party must file with the court within 30 calendar days from the date of issuance of the evidentiary/step 4 decision and final agency action according to Sections 63G-4-401 and 63G-4-403 of the UAPA, which are incorporated by reference. The dates of mailing, postmarking and receipt are not applicable to filing with the court.

(14) Transcript Fee. The party petitioning the Utah Court of Appeals for a review must bear all costs of transcript production for the evidentiary/step 4 decision. The CSRO may not share any cost for a transcript or transcription of the evidentiary/step 4 hearing.

R137-1-22. Declaratory Orders.

This rule provides a procedure for the submission and review of requests for and disposition of declaratory rulings pertaining to the applicability of statutes, administrative rules, and orders either governing or issued by the administrator, the previous Career Service Review Board or a CSRO hearing officer. Section 63G-4-503 of the UAPA is incorporated by reference.

(1) Applicability. The applicability of a declaratory order refers to the determination of whether a statute, rule, or order should be applied, and if so, how the law should be applied to the facts.

(2) Petition Procedure. Any person or agency with proper standing may petition for a declaratory ruling.

(a) The petition must be addressed and delivered to the CSRO.

(b) The petition shall be date-stamped upon receipt in the CSRO.

(3) Petition Form. The petition shall:

(a) be clearly designated as a request for a declaratory order;

(b) identify the statute, rule, decision or order to be reviewed;

(c) describe the circumstances in which applicability is to be reviewed;

(d) describe the reason or need for the applicability review;

(e) include an address and telephone number where the petitioner can be reached during regular work days; and

(f) be signed by the petitioner.

(4) Petition Review and Disposition. As appropriate the administrator:

(a) shall review and consider the petition;

(b) shall prepare a declaratory ruling, stating:

(i) the applicability or nonapplicability of the statute, rule, or order at issue;

(ii) the reasons for the applicability or nonapplicability of the statute, rule, decision or order; and

(iii) any requirements imposed on a petitioning person or agency, or any other person according to the ruling; and
R151. Commerce, Administration.
R151-2-1. Purpose and Authority.
This rule is made pursuant to Section 63G-2-204, which allows agencies to specify where and to whom requests for access to records shall be directed; Subsection 63A-12-104 (2), which allows an agency to specify at which levels certain requirements shall be undertaken; and Section 63G-2-603, concerning requests to amend a record.

R151-2-2. Duties of Divisions within the Department.
Each division director shall comply with Section 63A-12-103 and shall appoint a records officer to perform, or to assist in performing, the following functions:

1. the duties set forth in Section 63A-12-103; and
2. responding to requests for access to division records.

1. Waiver of Written Requests: Notwithstanding Subsection 63G-2-204 (1) requiring written requests for records, a division may at its discretion waive the requirement for a written request if the records requested are public, the records are readily accessible, and the request is filled promptly by allowing access or copying at the time the request is made.

2. To whom directed: All requests for access to records shall be directed to the records officer of the particular division which the requester believes generated or possesses the records.

3. Fees: A fee shall be charged for copies of records provided. That fee shall be established pursuant to Title 63J, Chapter 1 and Subsection 63G-2-203 (1). Fees must be paid at the time of the request or before the records are provided to the requester.

R151-2-4. Forms.

1. The forms described as follows, or a written document containing substantially similar information to that requested in the forms, shall be completed by requesters in connection with records requests, unless a division waives written requests.

(b) if cheating is detected prior to commencement of the
examination, the examinee may be denied the privilege of taking the examination; or if permitted to take the examination, the examinee shall be notified of the evidence of cheating and shall be informed that the Division may consider the examination to have been failed by the applicant or licensee because of the cheating; or

(c) If cheating is detected during the examination, the examinee may be requested to leave the examination facility and in that case the examination results shall be the same as failure of the examination; however, if the person responsible for administration of the examination determines the cheating detected has not yet compromised the integrity of the examination, such steps as are necessary to prevent further cheating shall be taken and the examinee may be permitted to continue with the examination.

(d) If cheating is detected after the examination, the Division shall make appropriate inquiry to determine the facts concerning the cheating and shall thereafter take appropriate action.

(2)(a) An LEA shall have a process for identifying students whose academic achievement is accelerated based upon multiple assessment instruments.  
(b) These instruments shall not be solely dependent upon English vocabulary or comprehension skills and shall take into consideration abilities of culturally diverse students and students with disabilities.  
(3) The distribution formula includes an allocation of money for:  
(a) Advanced Placement courses:

(ii) The total funds designated for the advanced placement program are divided by the total number of Advanced Placement exams passed with a grade of 3 or higher by students.  
(B) This calculation results in a fixed amount per exam passed with each participating LEA receiving that amount for each exam successfully passed by one of its students.  
(b) Gifted and Talented programs:  
(i) The designated funds for the Gifted and Talented Program equal 0.62 multiplied by the difference between the funds appropriated for the Enhancement for Accelerated Students Program less the allotment under Subsection 53A-1-17a-165(3).

R671-315-1. Pardons.

1. A pardon is an act of grace that forgives a criminal conviction and restores the rights and privileges forfeited by or because of the criminal conviction. A pardon releases an offender from the entire punishment prescribed for a criminal offense and from disabilities that are a consequence of the criminal conviction. A pardon reinstates any civil rights lost as a consequence of conviction or punishment for a criminal offense.

2. (a) The Board may consider an application for a pardon from any individual who has been convicted of an offense in the state of Utah, after the applicant has exhausted all judicial remedies, including expungement, in an effort to ameliorate the effects of the conviction.

(b) The Board will accept and consider a pardon application only after at least five years has passed since the sentence for the conviction and any enhancement period has terminated or expired.

(c) The Board will not consider pardons for infractions.

3. (a) A person seeking a pardon from the Board must complete and file, to the Board's satisfaction, an application in a form approved by the Board.

(b) No pardon application will be accepted unless it has been signed by the person whose convictions are sought to be pardoned.

(c) Posthumous pardon applications will not be accepted or considered.

4. In addition to the completed application, Board staff shall obtain and provide relevant information including, but not limited to:

(a) all police reports concerning the conviction for which the applicant is seeking a pardon;

(b) all pre- or post- sentence reports prepared in connection with any sentence served in jail or prison, and for any conviction for which the applicant is seeking a pardon;

(c) the applicant's inmate files;

(d) a recent BCI report, NCIC report, and III report concerning the applicant;

(e) verification from the applicant that all imposed restitution, fines, fees, or surcharges have been paid in full; and

(f) verification from the applicant that the applicant completed therapy programs ordered by any court or by the Board.

5. (a) Board staff shall summarize all information collected or submitted regarding the application and provide the application and additional information to the Board.

(b) Board staff shall disclose to the applicant, prior to the hearing, all information obtained or received by the Board regarding the pardon application which is not from the applicant.

(c) The Board may request additional information from staff or from the applicant.

6. Once complete, and if otherwise compliant with all Board rules, the pardon application and all available relevant information will be considered by the Board, which shall vote to grant or deny a pardon hearing.

7. If a pardon hearing is granted:

(a) notice of the hearing shall be published on (i) the Board's web site; and (ii) the Utah Public Notice web site; and

(b) for each conviction which is the subject of the pardon hearing, notice of the hearing shall be mailed or otherwise sent to:

(i) any victim of record, if the victim can be located;

(ii) the arresting or investigative agency;

(iii) the sentencing court; and

(iv) the respective prosecutor's office.

8. In furtherance of the Board's obligation to conduct a full and fair hearing, the following pardon hearing procedures apply:

(a) The pardon applicant shall personally appear and shall be required to testify. The applicant may designate a few family members or other supporters to offer testimony at the hearing, if time allows.

(b) Any victim of a conviction for which a hearing has been scheduled may offer testimony, or may submit written material concerning the pardon request. Any victim may designate a representative to testify or speak on the victim's behalf at a pardon hearing.

(c) An authorized representative of the arresting or investigative agency, sentencing court or prosecutor's office for each conviction which is the subject of the hearing may offer testimony or may submit written material concerning the pardon request.

(d) The Board may subpoena any person to attend and testify at a pardon hearing if it determines that such testimony will aid the Board in making a decision regarding the pardon request.

(e) Any person not otherwise specified in this rule may submit letters in support of or in opposition to a pardon request.

(f) All testimony or written material regarding a pardon request must be relevant, and must comply with all other Board administrative rules.

(g) Statements or other material submitted regarding a pardon application or hearing:

(i) may not be submitted anonymously;

(ii) may not be based upon hearsay; and

(iii) shall only be based upon the personal knowledge or opinion of the person submitting the statement or material.

(h) The Board may refuse to accept, remove from an offender's file or pardon application, or refuse to consider any statement or material submitted which is irrelevant, defamatory, hearsay, or which does not otherwise conform to Board rules.

9. A pardon hearing may be conducted by the full board, or by a panel or a single board member assigned by the board chair. If conducted by a panel of the board, the board chair may appoint members to the panels in any combination.

10. The Board may grant a conditional pardon or an unconditional pardon. The petitioner will be notified in writing of the results as soon as practicable.

11. The Board may grant or deny a pardon by majority vote. Pardon decisions are final and are not subject to judicial review.

12. Upon granting a pardon, the Board shall issue an expungement order, directing any criminal justice agency to remove the recipient's identifying information relating to the expunged convictions from its records. An expungement order, issued by the Board, has the same legal effect and authority as an order of expungement issued by a court, pursuant to Title 77, Chapter 40, Utah Expungement Act.

(a) An expungement order, issued by the Board, has the same legal effect and authority as an order of expungement issued by a court, pursuant to Title 77, Chapter 40, Utah Expungement Act.

(b) The board shall provide clear written directions to the pardon recipient along with a list of agencies known to be affected by the expungement order.

63G-4-203(1)
77-42-108
77-42-102
77-40-102(10)
A. The Utah franchise tax is imposed upon corporations qualified or incorporated under the laws of Utah, whether or not they do business therein, and also upon corporations doing business in Utah, whether or not they are qualified or incorporated under the laws of Utah.
1. An unqualified foreign corporation doing business in this state is liable for Utah corporation franchise tax in the same amount as if it had duly applied for and received a certificate of authority to transact business in this state pursuant to Section 16-10a-1501.
2. An unqualified foreign corporation deriving income from this state, but not doing business in this state within the contemplation of the Utah corporation franchise tax law is subject to the Utah corporation income tax on income derived from this state under the provisions of Sections 59-7-201 to 59-7-207.
B. If a corporation received its corporate authority to do business in Utah prior to January 1, 1973, and is a member of an affiliated group filing a combined report under Section 59-7-402 or 59-7-403, and legally terminates its corporate authority, it must include its activity during the final year in the combined report of the group. The tax is imposed upon the income of the group rather than the income of the individual corporations.
C. A corporation that was incorporated, qualified, or that reinstated its corporate authority to do business in Utah after January 1, 1973 must file a corporation franchise tax return and pay the tax due with the return for the year in which it legally terminates its right to do business in this state. The Tax Commission shall not issue a tax clearance certificate until the final return has been filed and the amounts due for the final year are paid.
D. For Utah corporation franchise tax purposes, a foreign corporation terminates its corporate existence or the privileges for which the franchise tax is levied (unless it continues to do business) on the date on which:
1. a certificate of withdrawal is issued under the provisions of Section 16-10a-1520;
2. its corporate existence is legally terminated in its home state, provided authoritative evidence of that termination is filed;
3. a certificate of revocation of its authority to transact business in this state is issued under the provisions of Sections 16-10a-1530 and 16-10a-1531; or
4. the corporate powers, rights, and privileges are forfeited under the provisions of Section 59-7-534.
E. For Utah corporation franchise tax purposes, a corporation that is incorporated under the laws of this state terminates its corporate existence or the privilege of exercising its corporate franchise for which the franchise tax is levied on the date on which:
1. a certificate of dissolution is issued pursuant to a voluntary dissolution under the provisions of Section 16-10a-1401 or Sections 16-10a-1402 through 16-10a-1403;
2. a decree of dissolution is entered by the court pursuant to the provisions of Sections 16-10a-1430 through 16-10a-1433;
3. a certificate of merger or of consolidation (which effects the termination of the separate corporate existence of the Utah corporation) is issued pursuant to the provisions of Sections 16-10a-1101 through 16-10a-1107; or
4. the corporate rights and privileges are suspended under the provisions of Section 59-7-534.
F. If the corporation continues to do business in this state subsequent to any of the above dates, it is liable for franchise tax, even though doing business is not authorized, or may even be prohibited, by law. A corporation cannot avoid the franchise tax by doing business without authority which, if legally done, would subject the corporation to the tax.
R865-6F-2. Establishment of Taxable Year and Filing the First Return Pursuant to Utah Code Ann. Sections 59-7-501 and 59-7-505.
A. The period for which a corporation must file its returns for corporation franchise tax purposes is the same period under which its income is computed pursuant to Section 59-7-501.
B. The first return may cover a period of less than 12-calendar months, but may not exceed 12-calendar months. The period must end on the last day of a calendar month, except that the Tax Commission will accept returns being made using the 52-53 week method of reporting under Section 441(f), Internal Revenue Code.
C. If a corporation elects for federal purposes to end its filing period on a date that does not fall on the last day of a calendar month, the filing period for the purposes of effective dates of Utah laws ends on the last day of the month nearest to the federal year end. The Utah net income is computed based on the filing period for federal purposes, notwithstanding the Utah filing period ends on the last day of the month.
D. Except as provided in Section 59-7-505(8)(a), in the case of a domestic corporation, the first return period begins with the date of incorporation. Activity prior to date of incorporation must be reported on individual income or partnership returns or of such other entity as may be appropriate.
E. Except as provided in Section 59-7-505(8)(a), in the case of a foreign corporation, the first return period begins with the date the corporation is qualified to do business in Utah under Title 16, Chapter 10a, Part 15, or the date business within the state is commenced, whichever is the earlier.
(1) Definitions.
(a) "Ancillary activities" means those activities that serve no independent business function for the seller apart from their connection to the solicitation of orders.
(b) "De minimis activities" means those activities that, when taken together, establish only a trivial connection with the taxing state. An activity conducted within Utah on a regular or systematic basis or pursuant to a company policy, whether or not in writing, shall not normally be considered trivial.
(c) "In-home office" means an office or place of business located within the residence of the employee or representative of a company that satisfies the following conditions:
(i) The office may not be publicly attributed to the company, or to the employee or representative of the company in an employee or representative capacity.
(ii) The use of the office shall be limited to soliciting and receiving orders from customers; transmitting orders outside the state for acceptance or rejection by the company; or for other activities that are protected under Public Law 86-272, 15 U.S.C. 381-384 (hereafter P.L. 86-272) and this rule.
(iii) Neither the company nor the employee or representative shall maintain a telephone listing or other public listing for the company within the state, nor use advertising or business literature indicating that the company or its employee or representative can be contacted at a specific address within the state. However, the normal distribution and use of business cards and stationery identifying the employee's or representative's name, address, telephone, and fax numbers and affiliation with the company shall not, by itself, be considered

as advertising or otherwise publicly attributing an office to the company or its employee or representative.

(d) "Solicitation" means:
(i) speech or conduct that explicitly or implicitly invites an order; and
(ii) activities that neither explicitly nor implicitly invite an order, but are entirely ancillary to requests for an order.

(2) Every corporation doing business in Utah whether qualified or not, and every corporation incorporated or qualified in Utah whether or not doing business therein is subject to the Utah corporation franchise tax, unless exempted under the provisions of Section 59-7-102. If liability for the tax exists, the tax must be computed under the provisions of Section 59-7-104, at the rate provided by statute, but in no case shall the tax be less than the minimum tax prescribed.

(3) Foreign corporations not qualified in Utah which ship goods to customers in this state from points outside this state, pursuant to orders solicited but not accepted by agents or employees in this state, and which are not doing business in Utah are not taxable under the Utah Corporation Franchise Tax Act if:

(a) they maintain no office nor stocks of goods in Utah, and
(b) they engage in no other activities in Utah.

(4) Foreign corporations not qualified in Utah that make deliveries from stocks of goods located in this state are doing business in this state and are taxable under the Corporation Franchise Tax Act, even though they have no office or regular place of business in this state.

(5) Foreign corporations not qualified in Utah are subject to the franchise tax if performing the necessary duties to fulfill contracts or subcontracts in Utah, whether through their own employees or by furnishing of supervisory personnel.

(6) Corporations that own real property within this state and rent or lease such properties to others are subject to the franchise tax whether or not qualified under the laws of this state. This also applies to corporations deriving royalties, lease, or rental income from properties located within this state, whether or not such properties are owned by the corporation.

(7) Foreign corporations not qualified in Utah are subject to the franchise tax if they derive income from revenue-producing properties located in Utah or moving through Utah or from services performed by personnel in this state. This includes, but is not limited to, freight and transportation operations, sales of real property having a Utah situs, leasing or sales of franchises, sporting or entertaining events, etc.

(8) Corporations that participate in joint ventures or working and operating agreements which are performed in this state are subject to the franchise tax whether qualified or not.

(9) Foreign corporations qualified in Utah are subject to the franchise tax even though engaged solely in interstate commerce.

(10) P.L. 86-272 restricts a state from imposing a net income tax on income derived within its borders from interstate commerce if the only business activity of the company within the state consists of the solicitation of orders for sales of tangible personal property, which orders are sent outside the state for acceptance or rejection, and, if accepted, are filled by shipment or delivery from a point outside the state. The term "net income tax" includes a franchise tax measured by net income. If any sales of tangible personal property are made from Utah into a state which is precluded by P.L. 86-272 from taxing the income of the seller, such sales remain subject to throwback to Utah pursuant to Subsection 59-7-318(2). Similarly, a sale into Utah from another state would not subject a corporation to the Utah tax if the corporation's activities do not exceed those allowed under P.L. 86-272.

(a) Only the solicitation to sell personal property is afforded immunity under P.L. 86-272; therefore, the leasing, renting licensing or other disposition of tangible personal property, or transactions involving intangibles such as franchises, patents, copyrights, trade marks, service marks and the like, or any other type of property are not protected activities under P.L. 86-272. The sale or delivery and the solicitation for the sale or delivery of any type of service that is not either (1) ancillary to solicitation, or (2) otherwise set forth as a protected activity below is also not protected under P.L. 86-272 or this rule.

(b) For the in-state activity to be a protected activity under P.L. 86-272, it must be limited solely to solicitation, except for de minimis activities and activities conducted by independent contractors as described below.

(11) The following in-state activities, assuming they are not of a de minimis level, will constitute doing business in Utah under P.L. 86-272 and will subject the corporation to the Utah corporation franchise tax:

(a) making repairs or providing maintenance or service to the property sold or to be sold;
(b) collecting current or delinquent accounts, whether directly or by third parties, through assignment or otherwise;
(c) investigating credit worthiness;
(d) installation or supervision of installation at or after shipment or delivery;
(e) conducting training courses, seminars, or lectures for personnel other than personnel involved only in solicitation;
(f) providing any kind of technical assistance or service including engineering assistance or design service, when one of the purposes thereof is other than the facilitation of the solicitation of orders;
(g) investigating, handling, or otherwise assisting in resolving customer complaints, other than mediating direct customer complaints when the sole purpose of such mediation is to gratify the sales personnel with the customer;
(h) approving or accepting orders;
(i) repossessing property;
(j) securing deposits on sales;
(k) picking up or replacing damaged or returned property;
(l) hiring, training, or supervising personnel, other than personnel involved only in solicitation;
(m) using agency stock checks or any other instrument or process by which sales are made within this state by sales personnel;
(n) maintaining a sample or display room in excess of two weeks (14 days) at any one location within the state during the tax year;
(o) carrying samples for sale, exchange or distribution in any manner for consideration or other value;
(p) owning, leasing, using, or maintaining any of the following facilities or property in-state:
(i) repair shop;
(ii) parts department;
(iii) any kind of office other than an in-home office;
(iv) warehouse;
(v) meeting place for directors, officers, or employees;
(vi) stock of goods other than samples for sales personnel or that are used entirely ancillary to solicitation;
(vii) telephone answering service that is publicly attributed to the company or to employees or agents of the company in their representative status;
(viii) mobile stores, i.e., vehicles with drivers who are sales personnel making sales from the vehicles;
(ix) real property or fixtures to real property of any kind;
(q) consigning stocks of goods or other tangible personal property to any person, including an independent contractor, for sale;
(r) maintaining, by either an in-state or an out-of-state resident employee, an office or place of business (in-home or otherwise) of any kind other than an in-home office;
(i) the maintenance of any office or other place of business in this state that does not strictly qualify as an in-home office under this subsection shall, by itself cause the loss of protection under this rule;

(ii) for purposes of this subsection it is not relevant whether the company pays directly, indirectly, or not at all for the cost of maintaining the in-home office;

(s) entering into franchising of licensing agreements; selling or otherwise disposing of franchises and licenses; or selling or otherwise transferring tangible personal property pursuant to such franchise or license by the franchisor or licensor to its franchisee or licensee within the state;

(t) conducting any activity not listed as a protected activity below which is not entirely ancillary to requests for orders, even if such activity helps to increase purchases.

(12) The following in-state activities will not cause the loss of protection for otherwise protected sales;

(a) soliciting orders for sales by any type of advertising;

(b) soliciting of orders by an in-state resident employee or representative of the company, so long as such person does not maintain an office or other place of business in the state other than an in-home office;

(c) carrying samples and promotional materials only for display or distribution without charge or other consideration;

(d) furnishing and setting up display racks and advising customers on the display of the company's products without charge or other consideration;

(e) providing automobiles to sales personnel for their use in conducting protected activities;

(f) passing orders, inquiries and complaints on to the home office;

(g) missionary sales activities, i.e. the solicitation of indirect customers for the company's goods. For example, a manufacturer's solicitation of retailers to buy the manufacturer's goods from the manufacturer's wholesale customers would be protected if such solicitation activities are otherwise immune;

(h) coordinating shipment or delivery without payment or other consideration and providing information relating thereto either prior or subsequent to the placement of an order;

(i) checking of customer's inventories without a charge therefore if performed for reorder, but not for other purposes such as a quality control;

(j) maintaining a sample or display room for two weeks (14 days) or less at any one location within the state during the tax year;

(k) recruiting, training or evaluating sales personnel, including occasionally using homes, hotels or similar places for meetings with sales personnel;

(l) mediating direct customer complaints when the purpose thereof is solely for ingratiating the sales personnel with the customer and facilitating requests for orders;

(m) owning, leasing, using or maintaining personal property for use in the employee or representative's in-home office or automobile that is solely limited to the conducting of protected activities. Therefore, the use of personal property such as a cellular telephone, facsimile machine, duplicating equipment, personal computer and computer software that is limited to the carrying on of protected solicitation and activity entirely ancillary to such solicitation or permitted by the provisions of this rule shall not, by itself, remove the protection of P.L. 86-272.

(13) P.L. 86-272 provides protection to certain in-state activities if conducted by an independent contractor that would not be afforded if performed by the company or its employees or other representatives.

(a) Independent contractors may engage in the following limited activities in the state without the company's loss of immunity;

(i) soliciting sales;

(ii) making sales;

(iii) maintaining an office.

(b) Sales representatives who represent a single principal are not considered to be independent contractors and are subject to the same limitations as those provided under P.L. 86-272 and this rule.

(c) Maintenance of stock of goods in the state by the independent contractor under consignment or any other type of arrangement with the company, except for purposes of display and solicitation, shall remove the protection.

(14) The Tax Commission will apply the provisions of P.L. 86-272 and of this rule to business activities conducted in foreign commerce. Therefore, whether business activities are conducted by (i) a foreign or domestic company selling tangible personal property into a county outside of the United States from a point within this state or by (ii) either company selling such property into this state from a point outside of the United States, the principles under this rule apply equally to determine whether the sales transactions are protected and the company immune from taxation in either this state or in the foreign country, as the case might be, and whether, if applicable, the throwback provisions of Subsection 59-7-318(2) will apply.

(15) The protection afforded by P.L. 86-272 and the provisions of this rule do not apply to any corporation that is incorporated or domiciled in this state.

(16) A company that registers or otherwise formally qualifies to do business within this state does not, by that fact alone, lose its protection under P.L. 86-272. Where, separate from or ancillary to such registration or qualification, the company receives and seeks to use or protect any additional benefit or protection from this state through activity not otherwise protected under P.L. 86-272 or this rule, such protection shall be removed.

(17) The protection afforded under P.L. 86-272 and the provisions of this rule shall be determined on a year by year tax basis. Therefore, if at any time during a tax year the company conducts activities that are not protected under P.L. 86-272 or this rule, no sales in this state or income earned by the company attributed to this state during any part of said tax year shall be protected from taxation for purposes of the corporate franchise tax.

(1) Definitions.

(a) "Allocation" means the assignment of nonbusiness income to a particular state.

(b) "Apportionment" means the division of business income between states by the use of a formula containing apportionment factors.

(c) "Base of operations" means the place of more or less permanent nature from which the employee starts work and to which the employee customarily returns in order to receive instructions from the taxpayer or communications from customers or other persons, or to replenish stock or other materials, repair equipment, or perform any other function necessary to the exercise of his trade or profession at some other point or points.

(d) "Business activity" refers to the transactions and activities occurring in the regular course of a particular trade or business of a taxpayer, or to the acquisition, management, and disposition of property that constitute integral parts of the taxpayer's regular trade or business operations.

(e) "Business income" means income from any type or class, and from any activity, that meets the relationship described in Subsection (2)(b), the transactional test, or Subsection (2)(c), the functional test. The classification of income by the labels occasionally used, such as manufacturing income, compensation
for services, sales income, interest, dividends, rents, royalties, gains, operating income, and nonoperating income, and nonoperating income is of no aid in determining whether income is business or nonbusiness income.

(i) "Compensation" means wages, salaries, commissions, and any other form of remuneration paid to employees for personal services.

(g) "Employee" means an:
(i) officer of a corporation; or
(ii) individual who, under the usual common law rules applicable in determining the employer-employee relationship, has the status of an employee.

(h) "Gross receipts" are the gross amounts realized (the sum of money and the fair market value of other property or services received) on the sale or exchange of property, the performance of services, or the use of property or capital (including rents, royalties, interest and dividends) in a transaction that produces business income, in which the income or loss is recognized (or would be recognized if the transaction were in the United States) under the Internal Revenue Code. Amounts realized on the sale or exchange of property are not reduced for the cost of goods sold or the basis of property sold.

(i) Gross receipts, even if business income, do not include such items as, for example:
(A) repayment, maturity, or redemption of the principal of a loan, bond, or mutual fund or certificate of deposit or similar marketable instrument;
(B) the principal amount received under a repurchase agreement or other transaction properly characterized as a loan;
(C) proceeds from issuance of the taxpayer's own stock or from sale of treasury stock;
(D) damages and other amounts received as the result of litigation;
(E) property acquired by an agent on behalf of another;
(F) tax refunds and other tax benefit recoveries;
(G) pension reversions;
(H) contributions to capital (except for sales of securities by securities dealers);
(I) income from forgiveness of indebtedness; or
(J) amounts realized from exchanges of inventory that are not recognized by the Internal Revenue Code.

(ii) Exclusion of an item from the definition of "gross receipts" is not determinative of its character as business or nonbusiness income. Nothing in this definition shall be construed to modify, impair or supersede any provision of Subsection (1).

(k) "Nonbusiness income" means all income other than business income.

(j) "Place from which the service is directed or controlled" means the place from which the power to direct or control is exercised by the taxpayer.

(k) "Taxpayer" means a corporation as defined in Section 59-7-101.

(l) "To contribute materially" includes being used operationally in the taxpayer's trade or business. Whether property contributes materially is not determined by reference to the property's value or percentage of use. If an item of property contributes materially to the taxpayer's trade or business, the attributes, rights, or components of that property are also operationally used in that business. However, property that is held for mere financial betterment is not operationally used in the taxpayer's trade or business.

(m) "Trade or business" means the unitary business of the taxpayer, part of which is conducted within Utah.

(2) Business and Nonbusiness Income

(a) Apportionment and Allocation. Section 59-7-303 requires that every item of income be classified as either business income or nonbusiness income. Income for purposes of classification as business or nonbusiness income includes gains and

losses. Business income is apportioned among jurisdictions by use of a formula. Nonbusiness income is specifically assigned or allocated to one or more specific jurisdictions pursuant to express rules. An item of income is classified as business income if it falls within the definition of business income. An item of income is nonbusiness income only if it does not meet the definitional requirements for being classified as business income.

(b) Transactional Test. Business income includes income arising from transactions and activity in the regular course of the taxpayer's trade or business.

(i) If the transaction or activity is in the regular course of the taxpayer's trade or business, part of which trade or business is conducted within the state, the resulting income of the transaction or activity is business income for Utah purposes. Income may be business income even though the actual transaction or activity that gives rise to the income does not occur in this state.

(ii) For a transaction or activity to be in the regular course of the taxpayer's trade or business, the transaction or activity must be one that frequently occurs in the trade or business. Most, but not all, frequently occurring transactions or activities will be in the regular course of that trade or business and will, therefore, satisfy the transactional test. It is sufficient to classify a transaction or activity as being in the regular course of a trade or business if it is reasonable to conclude transactions of that type are customary in the kind of trade or business being conducted, or are within the scope of what that kind of trade or business does. However, even if a taxpayer frequently or customarily engages in investment activities, if those activities are for the taxpayer's mere financial betterment rather than for the operations of the trade or business, those activities do not satisfy the transactional test. The transactional test includes income from sales of inventory, property held for sale to customers, and services commonly sold by the trade or business. The transactional test also includes income from the sale of property used in the production of business income of a kind that is sold and replaced with some regularity, even if replaced less frequently than once a year.

(c) Functional Test. Business income also includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations.

(i) The following definitions apply to this Subsection 2(c).

(A) "Acquisition" means the act of obtaining an interest in property.

(B) "Disposition" means the act, or the power, of relinquishing or transferring an interest in or control over property to another, either in whole or in part.

(C) "Integral part" means property that constitutes a part of the composite whole of the trade or business, each part of which gives value to every other part, in a manner that materially contributes to the production of business income.

(D) "Management" means the oversight, direction, or control, whether directly or by delegation, of the property for the use or benefit of the trade or business.

(E) "Property" includes an interest in, control over, or use of property, whether the interest is held directly, beneficially, by contract, or otherwise, that materially contributes to the production of business income.

(ii) Under the functional test, business income need not be derived from transactions or activities that are in the regular course of the taxpayer's own particular trade or business. It is sufficient, if the property from which the income is derived is or was an integral, functional, or operative component used in the taxpayer's trade or business operations, or otherwise materially contributed to the production of business income of the trade or business, part of which trade or business is or was conducted
within the state. Property that has been converted to nonbusiness use through the passage of a sufficiently lengthy period of time, generally five years, or that has been removed as an operational asset and is instead held by the taxpayer's trade or business exclusively for investment purposes, has lost its character as a business asset and is not subject to this subsection. Property that was an integral part of the trade or business is not considered converted to investment purposes merely because it is placed for sale.

(iii) Income that is derived from isolated sales, leases, assignments, licenses, and other infrequently occurring dispositions, transfers, or transactions involving property, including transactions made in liquidation or the winding-up of business, is business income if the property is or was used in the taxpayer's trade or business operations.

(A) Property that has been converted to nonbusiness use has lost its character as a business asset and is not subject to Subsection (2)(c)(iii).

(B) Income from the licensing of an intangible asset, such as a patent, copyright, trademark, service mark, know-how, trade secret, or the like, that was developed or acquired for use by the taxpayer in its trade or business operations, constitutes business income whether or not the licensing itself constituted the operation of a trade or business, and whether or not the taxpayer remains in the same trade or business from or for which the intangible asset was developed or acquired.

(iv) Under the functional test, income from intangible property is business income when the intangible property serves an operational function as opposed to solely an investment function. The relevant inquiry focuses on whether the property is or was held in furtherance of the taxpayer's trade or business, that is, on the objective characteristics of the intangible property's use or acquisition and its relation to the taxpayer and the taxpayer's activities. The functional test is not satisfied where the holding of the property is limited to solely an investment function as is the case where the holding of the property is limited to mere financial betterment of the taxpayer in general.

(v) If the property is or was held in furtherance of the taxpayer's trade or business beyond mere financial betterment, income from that property may be business income even though the actual transaction or activity involving the property that gives rise to the income does not occur in this state.

(vi) If with respect to an item of property a taxpayer takes a deduction from business income that is apportioned to this state, or includes the original cost in the property factor, it is presumed that the item of property is or was integral to the taxpayer's trade or business operations. No presumption arises from the absence of any of these actions.

(vii) Application of the functional test is generally unaffected by the form of the property, whether tangible or intangible, real or personal. Income arising from an intangible interest, for example, corporate stock or other intangible interest in a business or a group of assets, is business income when the intangible itself or the property underlying or associated with the intangible is or was an integral, functional, or operative component of the taxpayer's trade or business operations.

(A) Property that has been converted to nonbusiness use has lost its character as a business asset and is not subject to this Subsection (2)(c)(vii).

(B) While apportionment of income derived from transactions involving intangible property as business income may be supported by a finding that the issuer of the intangible property and the taxpayer are engaged in the same trade or business, that is, the same unitary business, establishment of that relationship is not the exclusive basis for concluding that the income is subject to apportionment.

(C) It is sufficient to support the finding of apportionable income if the holding of the intangible interest served an operational rather than an investment function of mere financial betterment.

(d) Relationship of Transactional Test and Functional Tests to the United States Constitution.

(i) The due process clause and the commerce clause of the United States Constitution restrict states from apportioning income as business income that has no rational relationship with the taxing state. The protection against extra-territorial state taxation afforded by these clauses is often described as the unitary business principle. The unitary business principle requires apportionable income to be derived from the same unitary business that is being conducted as least in part in the state.

(ii) The unitary business conducted in this state includes both a unitary business that the taxpayer alone may be conducting and a unitary business the taxpayer may conduct with any other person. Satisfaction of either the transactional test or the functional test complies with the unitary business principle, because each test requires that the transaction or activity, in the case of the transactional test, or the property, in the case of the functional test, to be tied to the same trade or business that is conducted within the state. Determination of the scope of the unitary business conducted in the state is without regard to the extent to which this state requires or permits combined reporting.

(e) Business and Nonbusiness Income Application of Definitions.

(i) Rents From Real and Tangible Personal Property. Rental income from real and tangible property is business income if the property with respect to which the rental income was received is or was used in the taxpayer's trade or business and therefore is includable in the property factor under Subsection (8)(a)(i). Property that has been converted to nonbusiness use has lost its character as a business asset and is not subject to this subsection.

(ii) Gains or Losses From Sales of Assets. Gain or loss from the sale, exchange, or other disposition of real property or of tangible or intangible personal property constitutes business income if the property while owned by the taxpayer was used in, or was otherwise included in the property factor of the taxpayer's trade or business. However, if the property was utilized for the production of nonbusiness income or it was previously included in the property factor and later removed from the property factor before its sale, exchange, or other disposition, the gain or loss constitutes nonbusiness income. See Subsection (8)(a)(ii).

(iii) Interest. Interest income is business income where the intangible with respect to which the interest was received arises out of or was created in the regular course of the taxpayer's trade or business operations, or where the purpose for acquiring and holding the intangible is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations.

(iv) Dividends. Dividends are business income where the stock with respect to which the dividends were received arose out of or was acquired in the regular course of the taxpayer's trade or business operations or where the acquiring and holding of the stock is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations.

(v) Patent and Copyright Royalties. Patent and copyright royalties are business income where the patent or copyright with respect to which the royalties were received arose out of or was created in the regular course of the taxpayer's trade or business operations or where the acquiring and holding of the patent or copyright is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise
materially contributes to the production of business income of the trade or business operations.

(vi) Proration of Deductions. In most cases, an allowable deduction of a taxpayer will be applicable only to the business income arising from a particular trade or business or to a particular item of nonbusiness income. In some cases, an allowable deduction may be applicable to the business incomes of more than one trade or business or several items of nonbusiness income. In those cases, the deduction may be prorated among the respective unitary businesses whose income is being apportioned. The proration of deductions may also be required if that portion of the deduction is allocable to or dependent upon, or contributes to, the operation of another business or is dependent upon the activities of another business, as defined in Section 59-7-311. This sharing or exchange of value among the classes of income to which it is applicable.

(f)(i) A schedule must be submitted with the return showing the:

(A) Gross income from each class of income being allocated;
(B) Amount of each class of applicable expenses, together with explanation or computations showing how amounts were arrived at;
(C) Total amount of the applicable expenses for each income class;
(D) Net income of each income class.

(ii) The schedule shall indicate items of income and expenses allocated both to the state and outside the state.

(g) Year to Year Consistency. In filing returns with the state, if the taxpayer departs from or modifies the manner of prorating any deduction used in returns for prior years in a material way, the taxpayer shall disclose in the return for the current year the nature and extent of the modification.

(h) State to State Consistency. If the returns or reports filed by a taxpayer with all states to which the taxpayer reports under the Uniform Division of Income for Tax Purposes Act are not uniform in the application or proration of any deduction, the taxpayer shall disclose in its return to this state the nature and extent of any material variance.

(3) Unitary Business.

(a) Unitary Business Principle.

(i) The Concept of a Unitary Business. A unitary business is a single economic enterprise that is made up of either separate parts of a single business entity or a group of business entities related through common ownership that are sufficiently independent, integrated and interrelated through their activities so as to provide a synergy and mutual benefit that produces a sharing or exchange of value among them and a significant flow of value to the separate parts. This flow of value to a business entity located in this state that comes from being part of a vertically integrated business conducted both within and without the state is what provides the constitutional due process definite link and minimum connection necessary for the state to apportion business income of the unitary business, even if that income arises in part from activities conducted outside the state. The business income of the unitary business is then apportioned to the respective unitary businesses whose income is being apportioned. The proration of deductions may also be required if that portion of the deduction is allocable to or dependent upon, or contributes to, the operation of another business or is dependent upon the activities of another business, as defined in Section 59-7-311. This sharing or exchange of value may also be described as requiring that the operation of one part of the business be dependent upon, or contribute to, the operation of another part of the business. Phrased in the disjunctive, the foregoing means that if the activities of one business either contribute to the activities of another business or are dependent upon the activities of another business, those businesses are part of a unitary business.

(ii) Constitutional Requirement for a Unitary Business. The sharing or exchange of value described in Subsection (3)(a)(i) that defines the scope of a unitary business requires more than the mere flow of funds arising out of a passive investment or from the financial strength contributed by a distinct business undertaking that has no operational relationship to the unitary business. In this state, the unitary business principle shall be applied to the fullest extent allowed by the United States Constitution. The unitary business principle shall not be applied to result in the combination of business activities or entities under circumstances where, if it were adverse to the taxpayer, the combination of those activities or entities would not be allowed by the United States Constitution.

(iii) Separate Trades or Businesses Conducted Within a Single Entity. A single entity may have more than one unitary business. In those cases, it is necessary to determine the separate unitary business as well as its nonbusiness income, which is specifically allocated. The business income of each unitary business is then apportioned by a formula that takes into consideration the in-state and out-of-state factors that relate to the respective unitary business whose income is being apportioned.

(iv) Unitary Business Unaffected by Formal Business Organization. A unitary business may exist within a single business entity or among a group of business entities related through common ownership, as defined in Section 59-7-101.

(b) Determination of a Unitary Business.

(i) A unitary business is characterized by significant flows of value evidenced by factors such as those described in Mobil Oil Corp. v. Vermont, 445 US 425 (1980): functional integration, centralization of management, and economies of scale. These factors provide evidence of whether the business activities operate as an integrated whole and exhibit substantial mutual interdependence. Facts suggesting the presence of the factors mentioned above should be analyzed in combination for their cumulative effect and not in isolation. A particular characteristic of a business operation may be suggestive of one or more of the factors mentioned above.

(ii) Description and Illustration of Functional Integration, Centralization of Management, and Economies of Scale.

(A) Functional Integration. Functional integration refers to transfers between, or pooling among, business activities that significantly affect the operation of the business activities. Functional integration includes transfers or pooling with respect to the unitary business's products or services, technical information, marketing information, distribution systems, purchasing, and intangibles such as patents, trademarks, service marks, copyrights, trade secrets, know-how, formulas, and processes. There is no specific type of functional integration that must be present. The following is a list of examples of business operations that support the finding of functional integration. The order of the list does not establish a hierarchy of importance.

(I) Sales, Exchanges, or Transfers. Sales, exchanges, or transfers (collectively "sales") of products, services, and intangibles between business activities provide evidence of functional integration. The significance of the intercompany sales to the finding of functional integration will be affected by the character of what is sold and the percentage of total sales or purchases represented by the intercompany sales. For example, sales among business entities that are part of a vertically integrated unitary business are indicative of functional integration. Functional integration is not negated by the use of a readily determinable market price to affect the intercompany sales, because those sales can represent an assured market for the seller or an assured source of supply for the purchaser.

(II) Common Marketing. The sharing of common marketing features among business entities is an indication of functional integration when the marketing results in significant mutual advantage. Common marketing exists when a substantial portion of the business entities' products, services, or intangibles are distributed or sold to a common customer, when the business entities use a common trade name or other common identification, or when the business entities seek to identify themselves to their customers as a member of the same
enterprise. The use of a common advertising agency or a common owned or controlled in-house advertising office does not by itself establish common marketing that is suggestive of functional integration. That activity, however, is relevant to determining the existence of economies of scale and centralization of management.

(III) Transfer or Pooling of Technical Information or Intellectual Property. Transfers or pooling of technical information or intellectual property, such as patents, copyrights, trademarks and service marks, trade secrets, processes or formulas, know-how, research, or development provide evidence of functional integration when the matter transferred is significant to the businesses' operations.

(IV) Common Distribution System. Use of a common distribution system by the business entities, under which inventory control and accounting, storage, trafficking, or transportation are controlled through a common network provides evidence of functional integration.

(V) Common Purchasing. Common purchasing of substantial quantities of products, services, or intangibles from the same source by the business entities, particularly where the purchasing results in significant cost savings and is significant to each entity's operations or sales, provides evidence of functional integration.

(VI) Common or Intercompany Financing. Significant common or intercompany financing, including the guarantee by, or the pledging of the credit of, one or more business entities for the benefit of another business entity or entities provides evidence of functional integration, if the financing activity serves an operational purpose of both borrower and lender. Lending that serves an investment purpose of the lender does not necessarily provide evidence of functional integration.

(B) Centralization of Management. Centralization of management exists when directors, officers, and other management employees jointly participate in the management decisions that affect the respective business activities and that may also operate to the benefit of the entire economic enterprise. Centralization of management can exist even when the centralization is effected from a parent entity to a subsidiary entity, from a subsidiary entity to a parent entity, from one subsidiary entity to another, from one division within a single business entity to another division within a business entity, or from any combination of the foregoing. Centralization of management may exist even when day-to-day management responsibility and accountability has been decentralized, so long as the management has an ongoing operational role with respect to the business activities. An operational role may be effected through mandates, consensus building, or an overall operational strategy of the business, or any other mechanism that establishes joint management.

(I) Facts Providing Evidence of Centralization of Management. Evidence of centralization of management is provided when common officers participate in the decisions relating to the business operations of the different segments. Centralization of management may exist when management shares or applies knowledge and expertise among the parts of the business. Existence of common officers and directors, while relevant to a showing of centralization of management, does not alone provide evidence of centralization of management. Common officers are more likely to provide evidence of centralization of management than are common directors.

(II) Stewardship Distinguished. Centralized efforts to fulfill stewardship oversight are not evidence of centralization of management. Stewardship oversight consists of those activities that any owner would take to review the performance of or safeguard an investment. Stewardship oversight is distinguished from those activities that an owner may take to enhance value by integrating one or more significant operating aspects of one business activity with the other business activities of the owner. For example, implementing reporting requirements or mere approval of capital expenditures may evidence only stewardship oversight.

(C) Economies of Scale. Economies of scale refers to a relation among and between business activities resulting in a significant decrease in the average per unit cost of operational or administrative functions due to the increase in operational size. Economies of scale may exist from the inherent cost savings that arise from the presence of functional integration or centralization of management. The following are examples of business operations that support the finding of economies of scale. The order of the list does not establish a hierarchy of importance.

(i) Centralized Purchasing. Centralized purchasing designed to achieve savings due to the volume of purchases, the timing of purchases, or the interchangeability of purchased items among the parts of the business engaging in the purchasing provides evidence of economies of scale.

(ii) Centralized Administrative Functions. The performance of traditional corporate administrative functions, such as legal services, payroll services, pension and other employee benefit administration, in common among the parts of the business may result in some degree of economies of scale. A business entity that secures savings in the performance of corporate administrative services due to its affiliation with other business entities that it would not otherwise reasonably be able to secure on its own because of its size, financial resources, or available market provides evidence of economies of scale.

(c) Indicators of a Unitary Business.

(i) Business activities that are in the same general line of business generally constitute a single unitary business, as for example, a multistate grocery chain.

(ii) Business activities that are part of different steps in a vertically structured business almost always constitute a single unitary business. For example, a business engaged in the exploration, development, extraction, and processing of a natural resource and the subsequent sale of a product based upon the extracted natural resource, is engaged in a single unitary business, regardless of the fact that the various steps in the process are operated substantially independently of each other with only general supervision from the business's executive offices.

(iii) Business activities that might otherwise be considered as part of more than one unitary business may constitute one unitary business when the factors outlined in Subsection (3)(b) are present. For example, some businesses conducting diverse lines of business may properly be considered as engaged in only one unitary business when the central executive officers are actively involved in the operations of the various business activities and there are centralized offices that perform for the business the normal matters a truly independent business would perform for itself, such as personnel, purchasing, advertising, or financing.

(4) Apportionment and Allocation.

(a)(i) If the business activity with respect to the trade or business of a taxpayer occurs both within and without this state, and if by reason of that business activity the taxpayer is taxable in another state, the portion of the net income (or net loss) arising from the trade or business derived from sources within this state shall be determined by apportionment in accordance with Sections 59-7-311 to 59-7-319.

(ii) For purposes of determining the fraction by which business income shall be apportioned to this state under Section 59-7-311:

(A) If a taxpayer makes an election to calculate its apportionment fraction under Subsection 59-7-311(2)(c) and one or more of the factors listed in Subsection 59-7-311(2)(c)(i) is missing, the fraction by which business income shall be apportioned to the state shall be determined by adding the
factors present and dividing that sum by the number of factors present.

(B) If a taxpayer makes an election to double weight the sales factor under Subsection 59-7-311(2)(d) and one or more of the factors listed in Subsection 59-7-311(2)(d)(i) is missing, the fraction by which business income shall be apportioned to the state shall be determined by adding the factors as provided in subsection 59-7-311(2)(d)(i), and dividing that sum by the denominator indicated in Subsection 59-7-311(2)(d)(ii), reduced by the sum of one if the property factor is missing, one if the payroll factor is missing, and two if the sales factor is missing.

(C) For a taxable year that begins on or after January 1, 2011, but begins on or before December 31, 2011, in the case of a sales factor weighted taxpayer, if one or more of the factors listed in Subsection 59-7-311(3)(a)(i) is missing and if the sales factor is present, the fraction by which business income shall be apportioned to the state shall be determined by adding the factors as provided in Subsection 59-7-311(3)(a)(i), and dividing that sum by the denominator, indicated in Subsection 59-7-311(3)(a)(ii), reduced by the number of missing factors.

(D) For a taxable year that begins on or after January 1, 2012, but begins on or before December 31, 2012, in the case of a sales factor weighted taxpayer, if one or more of the factors listed in Subsection 59-7-311(3)(b)(i) is missing and if the sales factor is present, the fraction by which business income shall be apportioned to the state shall be determined by adding the factors as provided in Subsection 59-7-311(3)(b)(i), and dividing that sum by the denominator, indicated in Subsection 59-7-311(3)(b)(ii), reduced by the number of missing factors.

(b) Allocation. Any taxpayer subject to the taxing jurisdiction of this state shall allocate all of its nonbusiness income or loss within or without this state in accordance with Sections 59-7-306 to 59-7-310.

(5) Consistency and Uniformity in Reporting. In filing returns with this state, if the taxpayer departs from or modifies the manner in which income has been classified as business income or nonbusiness income in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification. If the returns or reports filed by a taxpayer for all states to which the taxpayer reports income or loss within or without this state in accordance with Sections 59-7-306 to 59-7-310, the state shall be determined by adding the factors as provided in the factor. The property factor shall reflect the average value of the property used both within and without this state. A taxpayer's income from business activity is taxable without this state if the taxpayer, by reason of business activity (i.e., the transactions and activity occurring in the regular course of the trade or business), is taxable in another state within the meaning of Section 59-7-305.

(6) Taxable in Another State.

(a) In General. Under Section 59-7-303 the taxpayer is subject to the allocation and apportionment provisions of UDITPA if it has income from business activity that is taxed both within and without this state. A taxpayer's income from business activity is taxable without this state if the taxpayer, by reason of business activity (i.e., the transactions and activity occurring in the regular course of the trade or business), is taxable in another state within the meaning of Section 59-7-305.

(i) if by reason of business activity in another state the taxpayer is subject to one of the taxes specified in Section 59-7-305(1), namely: a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax; or

(ii) if by reason of business activity another state has jurisdiction to subject the taxpayer to a net income tax, regardless of whether the state imposes that tax on the taxpayer. A taxpayer is not taxable in another state with respect to the trade or business merely because the taxpayer conducts activities in that state pertaining to the production of nonbusiness income or business activities relating to a separate trade or business.

(b) When a Taxpayer Is Subject to a Tax Under Section 59-7-305. A taxpayer is subject to one of the taxes specified in Section 59-7-305(1) if it carries on business activity in a state and that state imposes such a tax thereon. Any taxpayer that asserts that it is subject to one of the taxes specified in Section 59-7-305(1) in another state shall furnish to the Tax Commission, upon its request, evidence to support that assertion. The Tax Commission may request that the evidence include proof that the taxpayer has filed the requisite tax return in the other state and has paid any taxes imposed under the law of the other state. The taxpayer's failure to produce that proof may be taken into account in determining whether the taxpayer is subject to one of the taxes specified in Section 59-7-305(1) in the other state. If the taxpayer voluntarily files and pays one or more taxes when not required to do so by the laws of that state or pays a minimal fee for qualification, organization, or for the privilege of doing business in that state, but does not actually engage in business activity in that state, or

(ii) does actually engage in some business activity, not sufficient for nexus, and the minimum tax bears no relation to the taxpayer's business activity within that state, the taxpayer is not subject to one of the taxes specified within the meaning of Section 59-7-305(1).

(c) When a State Has Jurisdiction to Subject a Taxpayer to a Net Income Tax. The second test, that of Section 59-7-305(2), applies if the taxpayer's business activity is sufficient to give the state jurisdiction to impose a net income tax by reason of business activity under the Constitution and statutes of the United States. Jurisdiction to tax is not present where the state is prohibited from imposing the tax by reason of the provisions of Public Law 86-272, 15 U. S. C. A. Sec. 381-385 (P.L. 86-272). In the case of any state as defined in Section 59-7-302, other than a state of the United States or political subdivision of a state, the determination of whether a state has jurisdiction to subject the taxpayer to a net income tax shall be made as though the jurisdictional standards applicable to a state of the United States applied in that state. If jurisdiction is otherwise present, the state is not considered as without jurisdiction by reason of the provisions of a treaty between that state and the United States.

(7) Apportionment Formula. All business income of the taxpayer shall be apportioned to this state by use of the apportionment formula set forth in Section 59-7-311. The elements of the apportionment formula are the property factor, see Subsection (8), the payroll factor, see Subsection (9), and the sales factor, see Subsection (10) of the trade or business of the taxpayer. For exceptions see Subsection (11).
property held as a reserve source of materials shall be included in the factor. For example, a plant temporarily idle or raw material reserves not currently being processed are includable in the factor. Property or equipment under construction during the tax period, except inventoriable goods in process, shall be excluded from the factor until the property is actually used in the regular course of the trade or business of the taxpayer. If the property is partially used in the regular course of the trade or business of the taxpayer while under construction, the value of the property to the extent used shall be included in the property factor. Property used in the regular course of the trade or business of the taxpayer shall remain in the property factor until its permanent withdrawal is established by an identifiable event such as its conversion to the production of nonbusiness income, its sale, or the lapse of an extended period of time, normally five years, during which the property is no longer held for use in the trade or business.

(c) Consistency in Reporting. In filing returns with this state, if the taxpayer departs from or modifies the manner of valuing property, or of excluding or including property in the property factor, used in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification. If the returns or reports filed by the taxpayer with all states to which the taxpayer reports under UDITPA are not uniform in the valuation of property and in the exclusion or inclusion of property in the property factor, the taxpayer shall disclose in its return to this state the nature and extent of the variance.

(d) Property Factor Numerator. The numerator of the property factor shall include the average value of the real and tangible personal property owned or rented by the taxpayer and used in this state during the tax period in the regular course of the trade or business of the taxpayer. Property in transit between locations of the taxpayer to which it belongs shall be considered to be at the destination for purposes of the property factor. Property in transit between a buyer and seller that is included by a taxpayer in the denominator of its property factor in accordance with its regular accounting practices shall be included in the numerator according to the state of destination. The value of mobile or movable property such as construction equipment, trucks, or leased electronic equipment that are located within and without this state during the tax period shall be determined for purposes of the numerator of the factor on the basis of total time within the state during the tax period. An automobile assigned to a traveling employee shall be included in the numerator of the factor for the state to which the employee’s compensation is assigned under the payroll factor or in the numerator of the state in which the automobile is licensed.

(e) Valuation of Owned Property.

(i) Property owned by the taxpayer shall be valued at its original cost. As a general rule original cost is deemed to be the basis of the property for state franchise or income tax purposes (prior to any adjustments) at the time of acquisition by the taxpayer and adjusted by subsequent capital additions or improvements thereto and partial disposition thereof, by reasons including sale, exchange, and abandonment. However, capitalized intangible drilling and development costs shall be included in the property factor whether or not they have been expensed for either federal or state tax purposes.

(ii) Inventory of stock of goods shall be included in the factor in accordance with the valuation method used for state tax purposes.

(iii) Property acquired by gift or inheritance shall be included in the factor at its basis for determining depreciation.

(f) Valuation of Rented Property.

(i) Property rented by the taxpayer is valued at eight times its net annual rental rate. The net annual rental rate for any item of rented property is the annual rental rate paid by the taxpayer for the property, less the aggregate annual subrental rates paid by subtenants of the taxpayer. See Subsection (11)(b) for special rules where the use of the net annual rental rate produces a negative or clearly inaccurate value or where property is used by the taxpayer at no charge or rented at a nominal rental rate.

(ii) Subrents are not deducted when the subrents constitute business income because the property that produces the subrents is used in the regular course of the trade or business of the taxpayer when it is producing the income. Accordingly there is no reduction in its value.

(iii) Annual rental rate is the amount paid as rental for property for a 12-month period; i.e., the amount of the annual rent. Where property is rented for less than a 12-month period, the rent paid for the actual period of rental shall constitute the annual rental rate for the tax period. However, where a taxpayer has rented property for a term of 12 or more months and the current tax period covers a period of less than 12 months (due, for example, to a reorganization or change of accounting period), the rent paid for the short tax period shall be annualized. If the rental term is for less than 12 months, the rent shall not be annualized beyond its term. Rent shall not be annualized because of the uncertain duration when the rental term is on a month to month basis.

(iv) Annual rent is the actual sum of money or other consideration payable, directly or indirectly, by the taxpayer or for its benefit for the use of the property and includes:

(A) Any amount payable for the use of real or tangible personal property, or any part thereof, whether designated as a fixed sum of money or as a percentage of sales, profits or otherwise.

(B) Any amount payable as additional rent or in lieu of rents, such as interest, taxes, insurance, repairs or any other items that are required to be paid by the terms of the lease or other arrangement, not including amounts paid as service charges, such as utilities, and janitor services. If a payment includes rent and other charges unsegregated, the amount of rent shall be determined by consideration of the relative values of the rent and other items.

(v) Annual rent does not include:

(A) incidental day-to-day expenses such as hotel or motel accommodations, or daily rental of automobiles;

(B) royalties based on extraction of natural resources, whether represented by delivery or purchase. For this purpose, a royalty includes any consideration conveyed or credited to a holder of an interest in property that constitutes a sharing of current or future production of natural resources from that property, irrespective of the method of payment or how that consideration may be characterized, whether as a royalty, advance royalty, rental, or otherwise.

(vi) Leasehold improvements shall, for the purposes of the property factor, be treated as property owned by the taxpayer regardless of whether the taxpayer is entitled to remove the improvements or the improvements revert to the lessor upon expiration of the lease. Hence, the original cost of leasehold improvements shall be included in the factor.

(g) Averaging Property Values. As a general rule, the average value of property owned by the taxpayer shall be determined by averaging the values at the beginning and end of the tax period. However, the Tax Commission may require or allow averaging by monthly values if that method of averaging is required to properly reflect the average value of the taxpayer’s property for the tax period.

(i) Averaging by monthly values will generally be applied if substantial fluctuations in the values of the property exist during the tax period or where property is acquired after the beginning of the tax period or disposed of before the end of the tax period.

(ii) Example: The monthly value of the taxpayer’s property was as follows:
The average value of the taxpayer's property includable in the property factor for the income year is determined as follows:

\[
\frac{120,000}{12} = \$10,000
\]

(iii) Averaging with respect to rented property is achieved automatically by the method of determining the net annual rental rate of the property as set forth in Subsection (8)(g).

(9) Payroll Factor.

(a) The payroll factor of the apportionment formula shall include the total amount paid by the taxpayer in the regular course of its trade or business for compensation during the tax period.

(b) The total amount paid to employees is determined upon the basis of the taxpayer's accounting method. If the taxpayer has adopted the accrual method of accounting, all compensation properly accrued shall be deemed to have been paid. Notwithstanding the taxpayer's method of accounting, at the election of the taxpayer, compensation paid to employees may be included in the payroll factor by use of the cash method if the taxpayer is required to report compensation under that method for unemployment compensation purposes. The compensation of any employee on account of activities that are connected with the production of nonbusiness income shall be excluded from the factor.

(c) Payments made to an independent contractor or any other person not properly classifiable as an employee are excluded from the payroll factor. Only amounts paid directly to employees are included in the payroll factor. Amounts considered paid directly include the value of board, rent, housing, lodging, and other benefits or services furnished to employees by the taxpayer in return for personal services.

(d) Generally, a person will be considered to be an employee if he is included by the taxpayer as an employee for purposes of the payroll taxes imposed by the Federal Insurance Contributions Act. However, since certain individuals are included within the term employees in the Federal Insurance Contributions Act who would not be employees under the usual common law rules, it may be established that a person who is included as an employee for purposes of the Federal Insurance Contributions Act is not an employee for purposes of this rule.

(e)(A) In filing returns with this state, if the taxpayer departs from or modifies the treatment of compensation paid in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification.

(B) If the returns or reports filed by the taxpayer with all states to which the taxpayer reports under UDITPA are not uniform in the treatment of compensation paid, the taxpayer shall disclose in its return to this state the nature and extent of the variance.

(f) Denominator. The denominator of the payroll factor is the total compensation paid everywhere during the tax period. Accordingly, compensation paid to employees whose services are performed entirely in a state where the taxpayer is immune from taxation, for example, by P.L. 86-272, are included in the denominator of the payroll factor.

(g) Numerator. The numerator of the payroll factor is the total amount paid in this state during the tax period by the taxpayer for compensation. The tests in Section 59-7-316 to be applied in determining whether compensation is paid in this state are derived from the Model Unemployment Compensation Act. Accordingly, if compensation paid to employees is included in the payroll factor by use of the cash method of accounting or if the taxpayer is required to report compensation under that method for unemployment compensation purposes, it shall be presumed that the total wages reported by the taxpayer to this state for unemployment compensation purposes constitute compensation paid in this state except for compensation excluded under this Subsection (9). The presumption may be overcome by satisfactory evidence that an employee's compensation is not properly reportable to this state for unemployment compensation purposes.

(b) Compensation Paid in this State. Compensation is paid in this state if any one of the following tests applied consecutively are met:

(i) The employee's service is performed entirely within the state.

(ii) The employee's service is performed both within and without the state, but the service performed without the state is incidental to the employee's service within the state. The word incidental means any service that is temporary or transitory in nature, or that is rendered in connection with an isolated transaction.

(iii) If the employee's services are performed both within and without this state, the employee's compensation will be attributed to this state:

(A) if the employee's base of operations is in this state; or

(B) if there is no base of operations in any state in which some part of the service is performed, but the place from which the service is directed or controlled is in this state; or

(C) if the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed but the employee's residence is in this state.

(10) Sales Factor. In General.

(a) Section 59-7-302 defines the term "sales" to mean all gross receipts of the taxpayer not allocated under Section 59-7-306 through 59-7-310. Thus, for purposes of the sales factor of the apportionment formula for the trade or business of the taxpayer, the term sales means all gross receipts derived by the taxpayer from transactions and activity in the regular course of the trade or business. The following are rules determining sales in various situations.

(i) In the case of a taxpayer engaged in manufacturing and selling or purchasing and reselling goods or products, sales includes all gross receipts from the sales of goods or products (or other property of a kind that would properly be included in the inventory of the taxpayer if on hand at the close of the tax period) held by the taxpayer primarily for sale to customers in the ordinary course of its trade or business. Gross receipts for this purpose means gross sales, less returns and allowances and includes all interest income, service charges, carrying charges, or time-price differential charges incidental to sales. Federal and state excise taxes (including sales taxes) shall be included as part of receipts if taxes are passed on to the buyer or included as part of the selling price of the product.

(ii) In the case of cost plus fixed fee contracts, such as the operation of a government-owned plant for a fee, sales includes the entire reimbursed cost, plus the fee.

(iii) In the case of a taxpayer engaged in providing services, such as the operation of an advertising agency, or the performance of equipment service contracts, or research and development contracts, sales includes the gross receipts from the performance of services including fees, commissions, and similar items.

(iv) In the case of a taxpayer engaged in renting real or tangible property, sales includes the gross receipts from the

(v)  In the case of a taxpayer engaged in the sale, assignment, or licensing of intangible personal property such as patents and copyrights, sales includes the gross receipts therefrom.

(vi)  If a taxpayer derives receipts from the sale of equipment used in its business, those receipts constitute sales. For example, a truck express company owns a fleet of trucks and sells its trucks under a regular replacement program. The gross receipts from the sales of the trucks are included in the sales factor.

(vii)  In some cases certain gross receipts should be disregarded in determining the sales factor in order that the apportionment formula will operate fairly to apportion to this state the income of the taxpayer's trade or business. See Subsection (11)(c).

(viii)  In filing returns with this state, if the taxpayer departs from or modifies the basis for excluding or including gross receipts in the sales factor used in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification.

(ix)  If the returns or reports filed by the taxpayer with all states to which the taxpayer reports under UDITPA are not uniform in the inclusion or exclusion of gross receipts, the taxpayer shall disclose in its return to this state the nature and extent of the variance.

(b)  Denominator. The denominator of the sales factor shall include the total gross receipts derived by the taxpayer from transactions and activity in the regular course of its trade or business, except receipts excluded under Subsection (11)(d).

(c)  Numerator. The numerator of the sales factor shall include gross receipts attributable to this state and derived by the taxpayer from transactions and activity in the regular course of its trade or business. All interest income, service charges, carrying charges, or time-price differential charges incidental to gross receipts shall be included regardless of the place where the accounting records are maintained or the location of the contract or other evidence of indebtedness.

(d)  Sales of Tangible Personal Property in this State.

(i)  Gross receipts from the sales of tangible personal property (except sales to the United States government; see Subsection (10)(e) are in this state:

(A)  if the property is delivered or shipped to a purchaser within this state regardless of the f.o.b. point or other conditions of sale; or

(B)  if the property is shipped from an office, store, warehouse, factory, or other place of storage in this state and the taxpayer is not taxable in the state of the purchaser.

(ii)  Property shall be deemed to be delivered or shipped to a purchaser within this state if the recipient is located in this state, even though the property is ordered from outside this state.

(iii)  Property is delivered or shipped to a purchaser within this state if the shipment terminates in this state, even though the property is subsequently transferred by the purchaser to another state.

(iv)  The term "purchaser within this state" shall include the ultimate recipient of the property if the taxpayer in this state, at the designation of the purchaser, delivers to or has the property shipped to the ultimate recipient within this state.

(v)  When property being shipped by a seller from the state of origin to a consignee in another state is diverted while en route to a purchaser in this state, the sales are in this state.

(vi)  If the taxpayer is not taxable in the state of the purchaser, the sale is attributed to this state if the property is shipped from an office, store, warehouse, factory, or other place of storage in this state.

(vii)  If a taxpayer whose salesman operates from an office located in this state makes a sale to a purchaser in another state in which the taxpayer is not taxable and the property is shipped directly by a third party to the purchaser, the following rules apply:

(A)  If the taxpayer is taxable in the state from which the third party ships the property, then the sale is in that state.

(B)  If the taxpayer is not taxable in the state from which the property is shipped, the sale is in this state.

(e)(i)  Sales of Tangible Personal Property to United States Government in this state.

(ii)  Gross receipts from the sales of tangible personal property to the United States government are in this state if the property is shipped from an office, store, warehouse, factory, or other place of storage in this state. For purposes of this rule, only sales for which the United States government makes direct payment to the seller pursuant to the terms of a contract constitute sales to the United States government. Thus, as a general rule, sales by a subcontractor to the prime contractor, the party to the contract with the United States government, do not constitute sales to the United States government.

(ii)  Sales Other Than Sales of Tangible Personal Property in this State.

(i)  In general, Subsections 59-7-319(2) through (7) provide for the inclusion in the numerator of the sales factor of gross receipts from transactions other than sales of tangible personal property (including transactions with the United States government).

(g)  Receipts from the Performance of Services.

(i)  Under Subsection 59-7-319(2), gross receipts from the performance of a service are considered to be in this state if the purchaser of the service receives a greater benefit of the service in this state than in any other state. In general, the "benefit of the service" approach under the statute reflects a market based approach, and the greater benefit of the service is typically received in the state in which the market for the service exists and where the purchaser is located.

(ii)  For businesses engaged in certain industries, specific sourcing rules and guidelines that address the attribution of gross receipts from the performance of a service have been adopted. See Subsection (11)(b).

(iii)  The benefit from performance of a service is in this state if any of the following conditions are met:

(A)  The service relates to tangible personal property and is performed at a purchaser's location in this state.

(B)  The service relates to tangible personal property that the service provider delivers directly or indirectly to a purchaser in this state after the service is performed.

(C)  The service is provided to an individual who is physically present in this state at the time the service is received.

(D)  The service is provided to a purchaser exclusively engaged in a trade or business in this state and relates to that purchaser's business in this state.

(E)  The service is provided to a purchaser that is present in this state and the service relates to that purchaser's activities in this state.

(iv)  If the benefit of the service is received in more than one state, the gross receipts from the service are to be sourced using reasonable and consistent methods of analysis to determine in which state the greater benefit of the service is received. Such methods must be supported by the service provider's business records at the time the service was provided. If the benefit of a service is received in Utah and one or more other states and the state where the greater benefit of the service is received cannot otherwise be readily determined through the provisions of this rule, the following sourcing rules are applied in sequential order:

(A)  The receipt is sourced to this state if the office from which the purchaser placed the order for the service is in this state.

(B)  If the office from which the order was placed cannot be determined, the receipt is sourced to this state if the
The company has several locations in Utah. However, the headquarters of the company is in Colorado and the value of its properties located in Colorado exceed the value of its properties in Utah. The appraisal fee is not broken down by location of the assets or properties of the company. Use of the property values for each state to determine where the greater benefit of the appraisal services occurred is a reasonable method to determine where the appraisal service fees should be sourced and the service would be sourced to Colorado. However, if the appraisal fees are broken out separately for Colorado and Utah properties or the billing information by state is known, the appraisal fees pertaining to the Utah properties are sourced to Utah and the appraisal fees pertaining to the Colorado properties are sourced to Colorado.

(D) An Internet/cable television service provider provides services to purchasers in Utah as well as other surrounding states. As all of the benefit from the services provided to Utah purchasers is received at residences or business locations in Utah, the receipts from the services provided to Utah purchasers are sourced to Utah.

(E) Data processing services are performed for a company conducting interstate business. The services relate to computer systems that are mainly located in Utah although a few terminals are spread over several other states. Since the data processing services relate to the computer systems that are mainly located in Utah, the greater benefit of the service is considered to be received in Utah and the receipts from the services are sourced to Utah regardless of where the services are actually performed. The location of data processing equipment associated with the data processing services is a reasonable method of sourcing receipts from those services.

(F) Engineering services are performed in connection with a property being constructed in Utah. Since all of the benefit of the service is received in Utah where the construction takes place, the receipts from the engineering services are sourced to Utah regardless of where the actual engineering services are performed.

(G) A California law firm is retained to represent multiple plaintiffs in a class action lawsuit filed against a Utah corporation in a Utah court. Receipts received by the firm for the legal services are sourced to Utah notwithstanding the fact that some of the services were performed outside Utah. The greater benefit of the services is received in Utah since the lawsuit was filed against a Utah corporation in a Utah court.

(H) A moving company performs a moving service for an individual that has been transferred from New Jersey to Utah. The charges for services in connection with the move and unpacking services are sourced to Utah because the greater benefit of the moving services is received by the purchaser in the state to which the property is moved. However, any charges for specific services such as storage or packing that are performed outside of Utah, and that are separately stated, are not sourced to Utah.

(i) A car rental agency rents a vehicle that is picked up from and returned to one of its business locations in Utah. The receipts from the rental are sourced to Utah regardless of whether the vehicle leaves this state for the duration of the rental period.

(11) Special Rules:

(a) Section 59-7-320 provides that if the allocation and apportionment provisions of UDITPA do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for, or the tax administrator may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

(i) separate accounting;

(ii) the exclusion of any one or more of the factors;

(iii) the inclusion of one or more additional factors that will fairly represent the taxpayer's business activity in this state; or

(iv) the employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

(b) For businesses engaged in one or more of the following industries, specific statutes, rules, and guidelines have been adopted:

(i) airlines see Sections 59-7-312, 59-7-315, and 59-7-317;

(ii) financial institutions see rule R865-6F-32;

(iii) long term construction contractors see rule R865-6F-16;

(iv) publishing companies see rule R865-6F-31;

(v) railroads see rule R865-6F-29;

(vi) registered securities or commodities brokers and dealers see rule R865-6F-36;

(vii) telecommunications companies see rule R865-6F-33; and

(ix) businesses or affiliates of businesses providing services to a regulated investment company see Section 59-7-319.

(c) Property Factor.

The following special rules are established in respect to the property factor of the apportionment formula:

(i) If the subrents taken into account in determining the net annual rental rate under Subsection (8)(f)(i) produce a negative or clearly inaccurate value for any item of property, another method that will properly reflect the value of rented property may be required by the Tax Commission or requested by the taxpayer. In no case however, shall the value be less than an amount that bears the same ratio to the annual rental rate paid by the taxpayer for property as the fair market value of that portion of property used by the taxpayer bears to the total fair market
value of the rented property.

(i) If property owned by others is used by the taxpayer at
no charge or rented by the taxpayer for a nominal rate, the net
annual rental rate for the property shall be determined on the
basis of a reasonable market rental rate for that property.

(d) Sales Factors.

The following special rules are established in respect to the
sales factor of the apportionment formula:

(i) Where substantial amounts of gross receipts arise from
an incidental or occasional sale of a fixed asset used in the
regular course of the taxpayer's trade or business, those gross
receipts shall be excluded from the sales factor. For example,
gross receipts from the sale of a factory or plant will be
excluded.

(ii) Insustantial amounts of gross receipts arising from
incidental or occasional transactions or activities may be
excluded from the sales factor unless exclusion would materially
affect the amount of income apportioned to this state. For
example, the taxpayer ordinarily may include or exclude from
the sales factor gross receipts from such transactions as the sale
of office furniture, and business automobiles.

(iii) Where intangible property generates business income
and the state in which that intangible property is being used can
be determined, that income is included in the denominator of the
sales factor and, if and to the extent that property is used in this
state, in the numerator of the sales factor as well. For example,
usually the state in which the intangible property is being used
will be readily identified in respect to interest income received
on deferred payments on sales of tangible property, see
Subsection (10)(a)(i), and income from the sale, licensing or
other use of intangible personal property.

(A) Where intangible property generates business income
and the state in which that intangible property is being used cannot be
determined, the income cannot be assigned to the
numerator of the sales factor for any state and shall be excluded
from the denominator of the sales factor. For example, where
business income in the form of dividends received on stock,
royalties received on patents or copyrights, or interest received
on bonds, debentures or government securities results from the
mere holding of the intangible personal property by the
taxpayer, such dividends and interest shall be excluded from
the denominator of the sales factor.

(B) Exclude from the denominator of the sales factor,
receipts from the sales of securities unless the taxpayer is a
dealer therein.

(iv) Where gains and losses on the sale of liquid assets are
not excluded from the sales factor by other provisions under
Subsections (11)(d)(i) through (iii), such gains or losses shall be
treated as provided in this Subsection (11)(d)(iv). This
Subsection (11)(d)(iv) does not provide rules relating to the
treatment of other receipts produced from holding or managing
such assets.

(A) If a taxpayer holds liquid assets in connection with one
or more treasury functions of the taxpayer, and the liquid assets
produce business income when sold, exchanged or otherwise
disposed, the overall net gain from those transactions for each
treasury function for the tax period is included in the sales
factor. For purposes of this Subsection (11)(d)(iv), each
treasury function will be considered separately.

(B) For purposes of this Subsection (11)(d)(iv), a liquid
asset is an asset (other than functional currency or funds held
in bank accounts) held to provide a relatively immediate source of
funds to satisfy the liquidity needs of the trade or business.
Liquid assets include:

(f) foreign currency (and trading positions therein) other
than functional currency used in the regular course of the
taxpayer's trade or business;

(II) marketable instruments (including stocks, bonds,
debentures, options, warrants, futures contracts, etc.); and

(III) mutual funds which hold such liquid assets.

(C) An instrument is considered liquid if it is traded
in an established stock or securities market and is regularly
quoted by brokers or dealers in making a market. Stock in a
corporation which is unitary with the taxpayer, or which has a
substantial business relationship with the taxpayer, is not
considered marketable stock.

(D) For purposes of this Subsection (11)(d)(iv)(D), a
treasury function is the pooling and management of liquid assets
for the purpose of satisfying the cash flow needs of the trade or
business, such as providing liquidity for a taxpayer's business
cycle, providing a reserve for business contingencies, business
acquisitions, etc. A taxpayer principally engaged in the trade or
business of purchasing and selling instruments or other items
included in the definition of liquid assets set forth herein is not
performing a treasury function with respect to income so
produced.

(E) Overall net gain refers to the total net gain from all
transactions incurred at each treasury function for the entire tax
period, not the net gain from a specific transaction.

(i) Domestic International Sales Corporation (DISC).
In any case in which a corporation, subject to the income tax
jurisdiction of Utah, owns 50 percent or more of the voting
power of the stock of a corporation classified as a DISC under
the provisions of Sec. 992 Internal Revenue Code, a combined
filing with the DISC corporation is required.

(ii) Partnership or Joint Venture Income. Income or loss
from partnership or joint venture interests shall be included in
income and apportioned to Utah through application of the
tree-factor formula consisting of property, payroll and sales.
For apportionment purposes, the portion of partnership or joint
venture property, payroll and sales to be included in the
corporation's property, payroll and sales factors shall be
computed on the basis of the corporation's ownership interest in
the partnership or joint venture, and otherwise in accordance
with other applicable provisions of this rule.
of Termination Pursuant to Utah Code Ann. Section 59-7-112.

A. The Corporation Franchise Tax Act allows a corporation, under certain conditions and under rules prescribed by the Tax Commission, to report income arising from the sale or other disposition of property on a deferred or so-called installment basis. Thus, a gain technically realized at the time the sale is made may, at the election of the taxpayer, be reported on a deferred basis in accordance with the law and the following sections of this rule. The rule allowing deferment of reporting such income is only one of postponement of the tax, and not one of exemption from a tax otherwise lawfully due. Thus, the privilege of deferment is terminated if the taxpayer ceases to be subject to tax prior to the reporting of the entire amount of installment income. When a taxpayer elects to report income arising from the sale or other disposition of property as provided in Section 59-7-112, and the entire income therefrom has not been reported prior to the year that the taxpayer ceases to be subject to the tax imposed under the Utah Corporation Income and Franchise Tax Acts, the unreported income is included in the reported income in the last year in which the taxpayer is subject to tax. This rule applies to all corporations which elect to report on the installment basis. If a corporation on this basis desires to dissolve or to withdraw, it must comply with the provisions hereof prior to issuance of the tax clearance certificate.

B. Income reported under the provisions of Section 59-7-112 and this rule shall be subject to the same treatment in the allocation of income; i.e., specific allocation or apportionment, as would have been accorded the original income from the sale under the provisions of the Uniform Division of Income for Tax Purposes Act. In case such income is subject to apportionment, the apportionment fraction for the year in which the income is reported applies rather than the year in which the sale was made.

(1) When a taxpayer elects to use the percentage-of-completion method of accounting, or the completed contract method of accounting for long-term contracts, and has income from sources both within and without this state, the amount of business income derived from such long-term contracts from sources within this state is determined pursuant to this rule.

(a) Percentage-of-completion method. Under this method of accounting for long-term contracts, the amount included each year as business income from each contract is the amount by which the gross contract price (which corresponds to the percentage of the entire contract completed during the income year) exceeds all expenditures made during the income year in connection with the contract. Beginning and ending material and supplies inventories must be appropriately accounted for in reporting expenditures.

(b) Completed-contract method. Under this method of accounting, business income derived from long-term contracts is reported for the income year in which the contract is completed. A special computation is required to compute the amount of business income attributable to this state from each completed contract. All receipts and expenditures applicable to the contracts, whether complete or incomplete at the end of the income year, are excluded from other business income, which are apportioned by the regular three-factor formula of property, payroll, and sales.

(3) Property factor. In general, the numerator and denominator of the property factor is determined as set forth in Sections 59-7-312, 59-7-313, and 59-7-314 and the rules thereunder. However, the following special rules are also applicable:

(a) The average value of the taxpayer's cost (including materials and labor) of construction in progress, to the extent these costs exceed progress billings, are included in the denominator of the property factor. The value of those construction costs attributable to construction projects in this state are included in the numerator of the property factor. It may be necessary to use monthly averages if yearly averages do not properly reflect the average value of the taxpayer's equity.

(b) Rent paid for the use of equipment directly attributable to a particular construction project is included in the property factor at eight times the net annual rental rate, even though the rental expense may be capitalized into the cost of construction.

(c) The property factor is computed in the same manner for all long-term-contract methods of accounting and is computed for each income year, even though under the completed-contract method of accounting business income is computed separately.

(4) Payroll factor. In general, the numerator and denominator of the payroll factor are determined as set forth in Sections 59-7-315 and 59-7-316 and the rules thereunder. However, the following special rules are also applicable.

(a) Compensation paid to employees attributable to a particular construction project is included in the payroll factor even though capitalized into the cost of construction.

(b) Compensation paid to employees who, in the aggregate, perform most of their services in a state to which their employer does not report them for unemployment tax purposes, is attributed to the state where the services are performed. For example, a taxpayer engaged in a long-term contract in State X sends several key employees to that state to supervise the project. The taxpayer, for unemployment tax purposes reports these employees to State Y where the main office is maintained and where the employees reside. For payroll factor purposes and in accordance with Section 59-7-316 and the rule thereunder, the compensation is assigned to the numerator of State X.

(c) The payroll factor is computed in the same manner for all long-term-contract methods of accounting and is computed for each income year, even though under the completed-contract method of accounting, business income is computed separately.

(5) Sales Factor. In general, the numerator and denominator of the sales factor shall be determined as set forth in Sections 59-7-317, 59-7-318, and 59-7-319 and the rules thereunder. However, the following special rules are also applicable.

(a) Gross receipts derived from the performance of a contract are attributable to this state if the construction project is located in this state. If the construction project is located partly within and partly without this state, the gross receipts attributable to this state are based upon the ratio which construction costs for the project in this state incurred during the coming year bears to the total of such construction costs for the entire project during the income year. Progress billings are ordinarily used to reflect gross receipts and must be shown in both the numerator and denominator of the sales factor.

(b) If the percentage-of-completion method is used, the sales factor includes only that portion of the gross contract price which corresponds to the percentage of the entire contract which was completed during the income year. For example, a construction contractor which had elected the percentage-of-completion method of accounting entered into a $9,000,000...
long-term construction contract. At the end of its current income year (the second since starting the project) it estimated that the project was 30 percent completed. The amount of gross receipts included in the sales factor for the current income year is $2,700,000 (30 percent of $9,000,000), regardless of whether the taxpayer uses the accrual method or the cash method of accounting for receipts and disbursements.

(c) If the completed-contract method of accounting is used, the sales factor includes the portion of the gross receipts (progress billings) received under the cash basis or accrued, whichever is applicable, during the income year attributable to each contract. For example, a construction contractor which elected the completed-contract method of accounting entered into a long-term construction contract. At the end of its current income year (the second since starting the project) it had billed, and accrued on its books a total of $5,000,000 of which $2,000,000 had accrued in the first year the contract was undertaken, and $3,000,000 in the current (second) year. The amount of gross receipts included in the sales factor for the current income year is $3,000,000. If the taxpayer keeps its books on the cash basis, and as of the end of its current income year has received only $2,500,000 of the $3,000,000 billed during the current year, the amount of gross receipts to be included in the sales factor for the current year is $2,500,000.

(d) The sales factor, except as noted above in Subsections (5)(b) and (c), is computed in the same manner for all long-term contract methods of accounting and is computed for each income year—even though under the completed-contract method of accounting, business income is computed separately.

(6) The completed-contract method of accounting provides that the reporting of income (or loss) is deferred until the year the construction project is completed. In order to determine the amount of income which is attributable to sources within this state, a separate computation is made for each contract completed during the income year, regardless of whether the project is located within or without this state. The amount of income from each contract completed during the income year apportioned to this state is added to other business income apportioned to this state by the regular three-factor formula, and that total together with all nonbusiness income allocated to this state becomes the measure of tax for the income year. The amount of income (or loss) from each contract which is derived from sources within this state using the completed-contract method of accounting is computed as follows.

(a) In the income year the contract is completed, the income (or loss) therefrom is determined.

(b) The income (or loss) determined at Subsection (6)(a) is apportioned to this state by the following method:

(i) a fraction is determined for each year the contract was in progress (the numerator of which is the amount of construction costs paid or accrued each year the contract was in progress, and the denominator of which is the total of all construction costs for the project);

(ii) each fraction determined in Subsection (6)(b)(i) is multiplied by the apportionment formula percentage for that particular year;

(iii) these factors are totaled; and

(iv) the total income is multiplied by this combined percentage, and the resulting income (or loss) is the amount of contract business income assigned to this state.

(c) A corporation using the completed-contract method of accounting is required to include income derived from sources within this state from contracts within or without this state or income from incomplete contracts in progress outside this state in the year of withdrawal, dissolution, or cessation of business pursuant to Subsection (6)(d).

(d) The amount of income (or loss) from each such contract apportioned to this state is determined as if the percentage-of-completion method of accounting were used for all such contracts on the date of withdrawal, dissolution, or cessation of business. The amount of business income (or loss) for each such contract is the amount by which the gross contract price from each such contract from the commencement thereof to the date of withdrawal, dissolution, or cessation of business exceeds all expenditures made during such period in connection with each such contract. Beginning and ending material and supplies inventories must be appropriately accounted for in reporting expenditures in connection with each contract.

A. The following definitions apply to the exemption for corporate franchise and income tax for a farmer's cooperative.

1. "Member" means a person who shares in the profits of a cooperative association and is entitled to participate in the management of the association.

2. "Producer" means a person who, as owner or tenant, bears the risk of production and receives income based on farm production rather than fixed compensation.

B. In order to claim an exemption from corporate franchise and income tax provided for by Section 59-7-102, a corporation must submit to the Tax Commission form TC-161, Utah Registration for Exemption from Corporate Franchise or Income Tax, along with any information that form requires, for the Tax Commission's determination that the corporation satisfies the requirements of Section 59-7-102.

C. A corporation shall notify the Tax Commission of any change that affects its tax exempt status under Section 59-7-102.

D. For purposes of the Section 59-7-102 exemption for a farmers' cooperative, an association, corporation, or other organization similar to an association, corporation, or other organization of farmers or fruit growers includes establishments primarily engaged in growing crops, raising animals, harvesting timber, and harvesting fish and other animals from a farm, ranch, or their natural habitat.

(1) Definitions:

(a) "Average value" means the amount determined by averaging the values of real and personal property at the beginning and end of the income tax year. The Tax Commission may require the averaging of monthly values during the income year or other averaging as necessary to reflect properly the average value of the trucking company's property.

(b) "Business and nonbusiness income" are as defined in R865-6F-8(1).

(c) "Mobile property" means all motor vehicles, including trailers, engaged directly in the movement of tangible personal property.

(d) "Mobile property mile" means the movement of a unit of mobile property a distance of one mile, whether loaded or unloaded.

(e) "Original cost" means the basis of the property for federal income tax purposes (prior to any federal income tax adjustments, except for subsequent capital additions, improvements thereto, or partial dispositions); or if the property has no such basis, or if the valuation of the property is unascertainable under the foregoing valuation standards, the property is included in the property factor at its fair market value as of the date of acquisition by the taxpayer.

(f) "Property used during the course of the income year" means property that is available for use in the taxpayer's trade or business during the income year.

(g) "Trucking company" means a corporation engaged in or transacting the business of transporting freight, merchandise, or other property for hire.
(h) "Value of owned real and tangible personal property" means the original cost of owned real and tangible personal property.

(i) "Value of rented real and tangible personal property" means the product of eight times the net annual rental rate of rented real and tangible personal property.

(2) When a trucking company has income from sources both within and without this state, the amount of business income from sources within this state shall be determined pursuant to this rule. In those cases, the first step is to determine what portion of the trucking company's income constitutes business income and what portion constitutes nonbusiness income. Nonbusiness income is directly allocable to specific states and business income is apportioned among the states in which the business is conducted and pursuant to the property, payroll, and sales apportionment factors set forth in this rule. The sum of the items of nonbusiness income directly allocated to this state, plus the amount of business income apportioned to this state, constitutes the amount of the taxpayer's entire net income subject to tax in this state.

The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(4) and (7). Except as modified by this rule, the property factor shall be determined in accordance with R865-6F-8(8), the payroll factor in accordance with R865-6F-8(9), and the sales factor in accordance with R865-6F-8(10).

(4) The denominator of the property factor shall be the average value of the total of the taxpayer's real and tangible personal property owned or rented and used within and without this state during the income year. The numerator of the property factor shall be the average value of the taxpayer's real and tangible personal property owned or rented and used, or available for use, within this state during the income year.

(a) In the determination of the numerator of the property factor, all property, except mobile property, shall be included in the numerator of the property factor.

(b) Mobile property located within and without this state during the income year shall be included in the numerator of the property factor in the ratio that the mobile property's miles driven within this state bear to the total miles of mobile property driven within and without this state.

(5) The denominator of the payroll factor is the compensation paid within and without this state by the taxpayer during the income year for the production of business income. The numerator of the payroll factor is the compensation paid within this state during the income year by the taxpayer for the production of business income.

(a) With respect to all personnel, except those performing services within and without this state, compensation shall be included in the numerator as provided in R865-6F-8(9).

(b) With respect to personnel performing services within and without this state, compensation shall be included in the numerator of the payroll factor in the ratio that their services performed within this state bear to their services performed within and without this state.

(6) In general, all revenue derived from transactions and activities in the regular course of the taxpayer's trade or business that produce business income shall be included in the denominator of the revenue factor. The numerator of the revenue factor is the total revenue of the taxpayer in this state during the income year.

(a) The total state revenue of the taxpayer, other than revenue from hauling freight, mail, and express, shall be attributable to this state in accordance with R865-6F-8(10).

(b) The total revenue of the taxpayer attributable to this state during the income year from hauling freight, mail, and express shall be:

(i) Intrastate: all receipts from any shipment that both originates and terminates within this state; and

(ii) Interstate: that portion of the receipts from movements or shipments passing through, into, or out of this state as determined by the ratio that the mobile property miles traveled by the movements or shipments within this state bear to the total mobile property miles traveled by the movements or shipments within and without this state.

(7) The taxpayer shall maintain the records necessary to identify mobile property and to enumerate by state the mobile property miles traveled by mobile property. These records are subject to review by the commission or its agents.

(8) This rule requires apportionment of income to this state if during the course of the income tax year, the trucking company:

(a) owned or rented any real or personal property in this state;

(b) made any pickups or deliveries within this state;

(c) traveled more than 25,000 mobile property miles within this state, provided that the total mobile property miles traveled within this state during the income tax year exceeded three percent of the total mobile property miles traveled in all states by the trucking company during the period; or

(d) made more than 12 trips into this state.

A. For purposes of this rule, "worldwide year" means a year in which a corporation filed a worldwide combined report as set forth in Sections 59-7-101(34) and 59-7-403.

B. For purposes of this rule, "water's edge year" means a year in which a corporation filed a combined report as set forth in Sections 59-7-101(33) and 59-7-402.

C. A corporation that receives permission from the Tax Commission to change its filing method to the water's edge method after having elected the worldwide method will be required to forfeit any unused loss carryovers that were generated in any worldwide year as a condition precedent to making that change. Any losses generated in a subsequent water's edge year may not be carried back against income earned in any year prior to the change to the water's edge method, but must be carried to a post-change water's edge year.

D. A corporation that elects the worldwide filing method subsequent to adoption of this rule will be required to forfeit any unused loss carryovers that were generated in any water's edge year. Any losses generated in a subsequent worldwide year may not be carried back against income earned in any year prior to the change to the worldwide election method, but must be carried to a post-change worldwide year.

A. For purposes of 15 U.S.C. Section 381, the phrase "activities within such state by or on behalf of such person" means the activities of any member of a unitary business as that term is defined in Section 59-7-302.

B. If the activity in this state of any member of a unitary business exceeds the activity protected by 15 U.S.C. Section 381, sales of tangible property from a Utah location, into that state by any member of the unitary business shall be included in this state's sales factor numerator under Section 59-7-317.

C. If any member of a unitary business is taxable in another state under Section 59-7-305, sales of tangible property from a Utah location, into that state by any member of the unitary business shall not be thrown back to this state as ordinarily provided under Section 59-7-318.

D. This rule is effective for taxable years beginning after December 31, 1992.

A. Definitions:
1. "Qualified rehabilitation expenditures" includes architectural, engineering, and permit fees.
2. "Qualified rehabilitation expenditures" does not include movable furnishings.
3. "Residential" as used in Section 59-7-609 applies only to the use of the building after the project is completed.

B. Taxpayers shall file an application for approval of all proposed rehabilitation work with the Division of State History prior to the completion of restoration or rehabilitation work on the project. The application shall be on a form provided by the Division of State History.

C. Rehabilitation work must receive a unique certification number from the State Historic Preservation Office in order to be eligible for the tax credit.

D. In order to receive final certification and be issued a unique certification number for the project, the following conditions must be satisfied:
1. The project approved under B. must be completed.
2. Upon completion of the project, taxpayers shall notify the State Historic Preservation Office and provide that office an opportunity to review, examine, and audit the project. In order to be certified, a project shall be completed in accordance with the approved plan and the Secretary of the Interior's Standards for Rehabilitation.
3. Taxpayers restoring buildings not already listed on the National Register of Historic Places shall submit a complete National Register Nomination Form. If the nomination meets National Register criteria, the State Historic Preservation Office shall approve the nomination.
4. Projects must be completed, and the $10,000 expenditure threshold required by Section 59-7-609 must be met, within 36 months of the approval received pursuant to B.
5. During the course of the project and for three years thereafter, all work done on the building shall comply with the Secretary of the Interior's Standards for Rehabilitation.

E. Proof of State Historic Preservation Office certification shall be made by:
1. receiving an authorization form from the State Historic Preservation Office containing the certification number;
2. attaching that authorization form to the tax return for the year in which the credit is claimed.

F. Credit amounts shall be applied against Utah corporate franchise tax due in the tax year in which the project receives final certification under D.

G. Credit amounts greater than the amount of Utah corporate franchise tax due in a tax year shall be carried forward to the extent provided by Section 59-7-609.

H. Carryforward historic preservation tax credits shall be applied against Utah franchise tax due before the application of any historic preservation credits earned in the current year and on a first-earned, first-used basis.

I. Original records supporting the credit claimed must be maintained for three years following the date the return was filed claiming the credit.

Taxpayers shall deduct credits authorized by Section 59-6-102, Section 59-13-202, Section 59-13-301, Title 59, Chapter 7, and Title 63M, Chapter 1 against Utah corporate franchise tax due in the following order:
(1) nonrefundable credits;
(2) nonrefundable credits with a carryforward;
(3) refundable credits.

(1) Definitions.
(a) "Average value" of property means the amount determined by averaging the values of real and personal property at the beginning and ending of the income tax year. The commission may require the averaging of monthly values during the income year or other averaging as necessary to reflect properly the average value of the railroad's property.
(b) "Business and nonbusiness income" are as defined in R865-6F-8(1).
(c) "Car-mile" means a movement of a unit of car equipment a distance of one mile.

If the original cost of property is unascertainable under the foregoing valuation standards, the property is included in the property factor at its fair market value as of the date of acquisition by the taxpayer.
(h) "Property used during the income year" means property that is available for use in the taxpayer's trade or business during the income year.
(i) "Rent" does not include the per diem and mileage charges paid by the taxpayer for the temporary use of railroad cars owned or operated by another railroad.
(j) "Value of owned real and tangible personal property" means the original cost of owned real and tangible personal property.
(k) "Value of rented real and tangible personal property" means the product of eight times the net annual rental rate of rented real and tangible personal property.

(2) When a railroad has income from sources both within and without this state, the amount of business income from sources within this state shall be determined pursuant to this rule. In those cases, the first step is to determine what portion of the railroad's income constitutes business income and what portion constitutes nonbusiness income. Nonbusiness income is directly allocable to specific states and business income is apportioned among the states in which the business is conducted and pursuant to the property, payroll, and sales apportionment factors set forth in this rule. The sum of the items of nonbusiness income directly allocated to this state, plus the amount of business income apportioned to this state, constitutes the amount of the taxpayer's entire net income subject to tax in this state.

(3) The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(4) and (7). Except as modified by this rule, the property factor shall be determined in accordance with R865-6F-8(8), the payroll factor in accordance with R865-6F-8(9), and the sales factor in accordance with R865-6F-8(10).

(4) The denominator of the property factor shall be the average value of the total of the taxpayer's real and tangible personal property owned or rented and used within and without this state during the income year. The numerator of the property factor shall be the average value of the taxpayer's real and tangible personal property owned or rented and used within this state during the income year.

(a) In determining the denominator of the property factor, all property except mobile or movable property such as passenger cars, freight cars, locomotives and freight containers located
within and without this state during the income year shall be included in the numerator of the property factor.

(b) Mobile or movable property such as passenger cars, freight cars, locomotives and freight containers located within and without this state during the income year shall be included in the numerator of the property factor in the ratio that locomotive-miles and car-miles in the state bear to the total of locomotive-miles and car-miles both within and without this state.

(5) The denominator of the payroll factor is the total compensation paid within and without this state by the taxpayer during the income year for the production of business income. The numerator of the payroll factor is the amount of compensation paid within this state during the income year for the production of business income.

(a) With respect to all personnel except engine men and trainmen performing services on interstate trains, compensation shall be included in the numerator as provided in R865-6F-8(9).

(b) With respect to engine men and trainmen performing services on interstate trains, compensation shall be included in the numerator of the payroll factor in the ratio that their services performed in this state bear to their services performed within and without this state.

(c) Compensation for services performed in this state shall be deemed to be the compensation reported or required to be reported by employees for determination of their income tax liability to this state.

(6) In general, all revenue derived from transactions and activities in the regular course of the taxpayer's trade or business within and without this state that produce business income, except per diem and mileage charges that are calculated by the taxpayer, shall be included in the denominator of the revenue factor. The numerator of the revenue factor is the total revenue of the taxpayer attributable to this state during the income year.

(a) The total revenue of the taxpayer in this state during the income year, other than revenue from hauling freight, passengers, mail and express, shall be attributable to this state in accordance with R865-6F-8(10).

(b) The total revenue of the taxpayer attributable to this state during the income year for the numerator of the revenue factor from hauling freight, mail and express shall be attributable to this state as follows:

(i) Instrastate: all receipts from shipments that both originate and terminate within this state; and

(ii) Interstate: that portion of the receipts from each movement or shipment passing through, into, or out of this state is determined by the ratio that the miles traveled by the movement or shipment in this state bears to the total miles traveled by the movement or shipment from point of origin to destination.

(c) The total revenue of the taxpayer attributable to this state during the income year for the numerator of the revenue factor from hauling passengers shall be attributable to this state as follows:

(i) Instrastate: all receipts from the transportation of passengers, including mail and express handled in passenger service, that both originate and terminate within this state; and

(ii) Interstate: that portion of the receipts from the transportation of interstate passengers, including mail and express handled in passenger service, determined by the ratio that passenger miles in this state bear to the total of passenger miles within and without this state.

(7) The taxpayer shall maintain the records necessary to identify mobile property and to enumerate by state the mobile property miles traveled by mobile property. These records are subject to review by the commission or its agents.

(1) "Trust" means the Utah Educational Savings Plan Trust created pursuant to Section 53B-8a-103.

(1) Definitions.

(a) "Outer-jurisdictional property" means certain types of tangible personal property, such as orbiting satellites, undersea transmission cables and the like, that are owned or rented by the taxpayer and used in the business of publishing, licensing, selling or otherwise distributing printed material, but that are not physically located in any particular state.

(b) "Print" or "printed material" means the physical embodiment or printed version of any thought or expression, including a play, story, article, column or other literary, commercial, educational, artistic or other written or printed work. The determination of whether an item is or consists of print or printed material shall be made without regard to its content. Printed material may take the form of a book, newspaper, magazine, periodical, trade journal, or any other form of printed matter and may be contained on any medium or property.

(c) "Purchaser" and "subscriber" mean the individual, residence, business or other outlet that is the ultimate or final recipient of the print or printed material. Neither term shall mean or include a wholesaler or other distributor of print or printed material.

(d) "Terrestrial facility" shall include any telephone line, cable, fiber optic, microwave, earth station, satellite dish, antennae, or other relay system or device that is used to receive, transmit, relay or carry any data, voice, image or other information that is transmitted from or by any outer-jurisdictional property to the ultimate recipient thereof.

(2) When a taxpayer in the business of publishing, selling, licensing or distributing books, newspapers, magazines, periodicals, trade journals, or other printed material has income from sources both within and without this state, the amount of business income from sources within this state shall be determined pursuant to this rule. In those cases, the first step is to determine what portion of the taxpayer's income constitutes business income and what portion constitutes nonbusiness income. Nonbusiness income is directly allocable to specific states and business income is apportioned among the states in which the business is conducted and pursuant to the property, payroll, and sales apportionment factors set forth in this rule. The sum of the items of nonbusiness income directly allocated to this state, plus the amount of business income apportioned to this state, constitutes the amount of the taxpayer's entire net income subject to tax in this state.
(3) The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(4) and (7). Except as modified by this rule, the property factor shall be determined in accordance with R865-6F-8(8), the payroll factor in accordance with R865-6F-8(9), and the sales factor in accordance with R865-6F-8(10).

(4) All real and tangible personal property, including outer-jurisdictional property, whether owned or rented, that is used in the business shall be included in the denominator of the property factor.

(5)(a) All real and tangible personal property owned or rented by the taxpayer and used within this state during the tax period shall be included in the numerator of the property factor.

(b) Outer-jurisdictional property owned or rented by the taxpayer and used in this state during the tax period shall be included in the numerator of the property factor in the ratio that the value of the property attributable to its use by the taxpayer in business activities within this state bears to the value of the property attributable to its use in the taxpayer's business activities within and without this state.

(ii) If information regarding uplink and downlink or half-circuit usage is not available or if measurement of activity is not applicable to the type of outer-jurisdictional property used by the taxpayer, the value of that property attributed to the numerator of the property factor of this state shall be determined by the ratio that the number of uplinks and downlinks, or half-circuits, used during the tax period to transmit from this state and to receive in this state any data, voice, image or other information bears to the number of uplinks and downlinks or half-circuits used for transmissions within and without this state.

(iii) Outer-jurisdictional property shall be considered to have been used by the taxpayer in its business activities within this state when that property, wherever located, has been employed by the taxpayer in any manner in the publishing, sale, licensing or other distribution of books, newspapers, magazines or other printed material, and any data, voice, image or other information was used during the tax period to transmit from this state and to receive within this state any data, voice, image or other information bears to the total amount of time or other measurement of use that was used for transmissions within and without this state.

(6) The payroll factor shall be determined in accordance with Sections 59-7-315 and 59-7-316.

(7) The denominator of the sales factor shall include the total gross receipts derived by the taxpayer from transactions and activity in the regular course of its trade or business, except receipts that may be excluded under R865-6F-8(11)(c).

(8) The numerator of the sales factor shall include all gross receipts of the taxpayer from sources within this state, including the following:

(a) Gross receipts derived from the sale of tangible personal property, including printed materials, delivered or shipped to a purchaser or a subscriber in this state; and

(b) Except as provided in Subsection (8)(b)(ii), gross receipts derived from advertising and the sale, rental, or other use of the taxpayer's customer lists or any portion thereof shall be attributed to this state as determined by the taxpayer's circulation factor during the tax period. The circulation factor shall be determined for each publication of printed material containing advertising and shall be equal to the ratio that the taxpayer's in-state circulation to purchasers and subscribers of its printed material bears to its circulation to purchasers and subscribers within and without the state.

(i) The circulation factor for an individual publication shall be determined by reference to the rating statistics as reflected in such sources as Audit Bureau of Circulations or other comparable sources, provided that the source selected is consistently used from year to year for that purpose. If none of the foregoing sources are available, or, if available, not in form or content sufficient for these purposes, the circulation factor shall be determined from the taxpayer's books and records.

(ii) When specific items of advertisements can be shown, upon clear and convincing evidence, to have been distributed solely to a limited regional or local geographic area in which this state is located, the taxpayer may petition, or the commission may require, that a portion of those receipts be attributed to the sales factor numerator of this state on the basis of a regional or local geographic area circulation factor and not upon the basis of the circulation factor provided by Subsection (8)(b)(i). This attribution shall be based upon the ratio that the taxpayer's circulation to purchasers and subscribers located in this state of the printed material containing specific items of advertising bears to its total circulation of printed material to purchasers and subscribers located within the regional or local geographic area. This alternative attribution method shall be permitted only upon the condition that receipts are not double counted or otherwise included in the numerator of any other state.
(iii) If the purchaser or subscriber is the United States government or if the taxpayer is not taxable in a state, the gross receipts from all sources, including the receipts from the sale of printed material, from advertising, and from the sale, rental or other use of the taxpayer's customer lists, or any portion thereof that would have been attributed by the circulation factor to the numerator of the sales factor for that state, shall be included in the numerator of the sales factor of this state if the printed material or other property is shipped from an office, store, warehouse, factory, or other place of storage or business in this state.

   (k) Loan servicing fees.
      (i) The numerator of the receipts factor includes loan servicing fees derived from loans secured by real property multiplied by a fraction the numerator of which is the amount included in the numerator of the receipts factor pursuant to Subsection (3)(d), and the denominator of which is the total amount of interest in and fees or penalties in the nature of interest from loans secured by real property.

      (i) Interest, dividends, net gains, but not less than zero, and other income from investment assets and activities and from trading assets and activities shall be included in the receipts factor.
(ii) Investment assets and activities and trading assets and activities in commercial domicile of the financial institution as provided in Subsection (3)(o)(ii), the receipts of each financial institution shall be included in the receipts factor if the taxpayer's commercial domicile is in this state. Where the day-to-day decisions regarding an investment asset or activity or trading asset or activity occurred at a regular place of business outside this state, that asset or activity shall be deemed to be located at the regular place of business of the taxpayer where the investment or trading policies or guidelines with respect to the asset or activity are established. Unless the taxpayer demonstrates to the contrary, policies and guidelines shall be presumed to be established at the commercial domicile of the taxpayer.

(n) All other receipts. The numerator of the receipts factor includes all other receipts pursuant to the rules set forth in Rule R865-6F-8(10) and (11).

(o) Attribution of certain receipts to commercial domicile.

(i) Except as provided in Subsection (3)(o)(ii), all receipts that would be assigned under this section to a state in which the taxpayer is not taxable shall be included in the numerator of the receipts factor if the taxpayer's commercial domicile is in this state.

(ii) If a unitary group includes one or more financial institutions, and if any member of the unitary group is subject to the taxing jurisdiction of this state, the receipts of each financial institution in the unitary group shall be included in the numerator of this state's receipts factor as provided in Subsections (3)(a) through (n) rather than being attributed to the commercial domicile of the financial institution as provided in Subsection (3)(o)(i).

(B) If a unitary group includes one or more financial institutions whose commercial domicile is in this state, and if any member of the unitary group is taxable in another state under section 59-7-305, the receipts of each financial institution in the unitary group that would be included in the numerator of the other state's receipts factor under Subsections (3)(a) through (n) may not be included in the numerator of this state's receipts factor.
(4) Property Factor.
(a) In General.
(i) For taxpayers that do not elect to include the property described in Subsections (4)(g) through (i) within the property factor, the property factor is a fraction, the numerator of which is the average value of real property and tangible personal property owned by or rented to the taxpayer that is located or used within this state during the taxable year, and the denominator of which is the average value of all that property located or used within and without this state during the taxable year.

(ii) For taxpayers that elect to include the property described in Subsections (4)(g) through (i) within the property factor, the property factor is a fraction, the numerator of which is the average value of real property and tangible personal property owned by or rented to the taxpayer that is located or used within this state during the taxable year, and the average value of the taxpayer's loans and credit card receivables that are located within this state during the taxable year, and the denominator of which is the average value of all that property located or used within and without this state during the taxable year.

(b) Property included. The property factor shall include only property the income or expenses of which are included, or would have been included if not fully depreciated or expensed, or depreciated or expensed to a nominal amount, in the computation of the apportionable income base for the taxable year.

(c) Value of property owned by the taxpayer.

(i) For taxpayers that do not elect to include the property described in Subsections (4)(g) through (i) within the property factor, the value of real property and tangible personal property owned by the taxpayer is the original cost or other basis of that property for federal income tax purposes without regard to depletion, depreciation or amortization.

(ii) For taxpayers that elect to include the property described in Subsections (4)(g) through (i) within the property factor:

(A) The value of real property and tangible personal property owned by the taxpayer is the original cost or other basis of that property for federal income tax purposes without regard to depletion, depreciation or amortization.

(B) Loans are valued at their outstanding principal balance, without regard to any reserve for bad debts. If a loan is charged-off in whole or in part for federal income tax purposes, the portion of the loan charged-off is not outstanding. A specifically allocated reserve, established pursuant to regulatory or financial accounting guidelines that is treated as charged-off for federal income tax purposes shall be treated as charged-off for purposes of this rule.

(C) Credit card receivables are valued at their outstanding principal balance, without regard to any reserve for bad debts. If a credit card receivable is charged-off in whole or in part for federal income tax purposes, the portion of the receivable charged-off is not outstanding.

(d) Average value of property owned by the taxpayer. The average value of property owned by the taxpayer is computed on an annual basis by adding the value of the property on the first day of the taxable year and the value on the last day of the taxable year and dividing the sum by two.

(i) If averaging on this basis does not properly reflect average value, the commission may require averaging on a more frequent basis, or the taxpayer may elect to average on a more frequent basis.

(ii) When averaging on a more frequent basis is required by the commission or is elected by the taxpayer, the same method of valuation must be used consistently by the taxpayer with respect to property within and without this state and on all subsequent returns unless the taxpayer receives prior permission from the commission to use a different method, or the commission requires a different method of determining average value.

(ii) Average value of real property and tangible personal property rented to the taxpayer.

(i) The average value of real property and tangible personal property that the taxpayer has rented from another and are not treated as property owned by the taxpayer for federal income tax purposes, shall be determined annually by multiplying the gross rents payable during the taxable year by eight.

(ii) If the use of the general method described in this subsection results in inaccurate valuations of rented property, any other method that properly reflects the value may be adopted by the commission or by the taxpayer when approved in writing by the commission. Once approved, that other method of valuation must be used on all subsequent returns unless the taxpayer receives prior approval from the commission to use a different method, or the commission requires a different method of valuation.

(ii) Location of real property and tangible personal property owned or rented to the taxpayer.

(i) Except as described in Subsection (4)(f)(ii), real property and tangible personal property owned by or rented to the taxpayer are considered located within this state if they are physically located, situated, or used within this state.

(ii) Transportation property is included in the numerator of the property factor to the extent that the property is used in this state.

(A) The extent an aircraft will be deemed to be used in this state and the amount of value that shall be included in the numerator of this state's property factor is determined by multiplying the average value of the aircraft by a fraction, the numerator of which is the number of landings of the aircraft in this state and the denominator of which is the total number of landings of the aircraft everywhere.

(B) If the extent of the use of any transportation property within this state cannot be determined, the property will be deemed to be used wholly in the state in which the property has its principal base of operations.

(C) A motor vehicle will be deemed to be used wholly in the state in which it is registered.

(g) Location of Loans.

(i) A loan is considered located within this state if it is properly assigned to a regular place of business of the taxpayer within this state.

(ii) A loan is properly assigned to the regular place of business with which it has a preponderance of substantive contacts. A loan assigned by the taxpayer to a regular place of business without the state shall be presumed to have been properly assigned if:

(A) the taxpayer has assigned, in the regular course of its business, the loan on its records to a regular place of business consistent with federal or state regulatory requirements;

(B) the assignment on its records is based upon substantive contacts of the loan to the regular course of business; and

(C) the taxpayer uses the records reflecting assignment of loans for the filing of all state and local tax returns for which an assignment of loans to a regular place of business is required.

(iii) The presumption of proper assignment of a loan provided in Subsection (4)(g)(ii) may be rebutted upon a showing by the commission, supported by a preponderance of the evidence, that the preponderance of substantive contacts regarding the loan did not occur at the regular place of business to which it was assigned on the taxpayer's records. When the presumption has been rebutted, the loan shall then be located within this state if:

(A) the taxpayer had a regular place of business within this
state at the time the loan was made; and

(iv) The taxpayer fails to show, by a preponderance of the evidence, that the preponderance of substantive contacts regarding the loan did not occur within this state.

(iv) In the case of a loan assigned by the taxpayer to a place without this state that is not a regular place of business, it shall be presumed, subject to rebuttal by the taxpayer on a showing supported by the preponderance of the evidence, that the preponderance of substantive contacts regarding the loan occurred within this state if, at the time the loan was made the taxpayer's commercial domicile, as defined in this rule, was within this state.

(v) To determine the state in which the preponderance of substantive contacts relating to a loan have occurred, the facts and circumstances regarding the loan at issue shall be reviewed on a case-by-case basis, and consideration shall be given to activities such as the solicitation, investigation, negotiation, approval, and administration of the loan.

(A) Solicitation. Solicitation is either active or passive.

(I) Active solicitation occurs when an employee of the taxpayer initiates the contact with the customer. The activity is located at the regular place of business at which the taxpayer's employee is regularly connected or working out of, regardless of where the services of the employee were actually performed.

(II) Passive solicitation occurs when the customer initiates the contact with the taxpayer. If the customer's initial contact was not at a regular place of business of the taxpayer, the regular place of business, if any, where the passive solicitation occurred is determined by the facts in each case.

(B) Investigation. Investigation is the procedure whereby employees of the taxpayer determine the credit-worthiness of the customer as well as the degree of risk involved in making a particular agreement. The activity is located at the regular place of business at which the taxpayer's employees are regularly connected or working out of, regardless of where the services of those employees were actually performed.

(C) Negotiation. Negotiation is the procedure whereby employees of the taxpayer and its customer determine the terms of the agreement, such as amount, duration, interest rate, frequency of repayment, currency denomination, and security required. The activity is located at the regular place of business at which the taxpayer's employees are regularly connected or working out of, regardless of where the services of those employees were actually performed.

(D) Approval. Approval is the procedure whereby employees or the board of directors of the taxpayer make the final determination whether to enter into the agreement.

(I) The activity is located at the regular place of business at which the taxpayer's employees are regularly connected or working out of, regardless of where the services of those employees were actually performed.

(II) If the board of directors makes the final determination, the activity is located at the commercial domicile of the taxpayer.

(E) Administration. Administration is the process of managing the account.

(I) Administration includes bookkeeping, collecting the payments, corresponding with the customer, reporting to management regarding the status of the agreement and proceeding against the borrower or the security interest if the borrower is in default.

(II) The activity is located at the regular place of business that oversees this activity.

(h) Location of credit card receivables. For purposes of determining the location of credit card receivables, credit card receivables shall be treated as loans and shall be subject to the provisions of Subsection (4)(g).

(i) Period for which properly assigned loan remains assigned. A loan that has been properly assigned to a state shall, absent any change of material fact, remain assigned to that state for the length of the original term of the loan. Thereafter, the loan may be properly assigned to another state if the loan has a preponderance of substantive contact to a regular place of business in that state.

(j) Each taxpayer shall make an initial election on whether to include the property described in Subsections (4)(g) through (i) within the property factor. The initial election is the election made at the filing position taken on the first return filed after the effective date of this rule. This election is irrevocable for a period of three years from the time the initial election is made, except in the case where a substantial ownership change occurs and commission approval is obtained to change the election. After the initial three-year period, the election may be revocable only with the prior approval of the commission and shall require the showing of a significant change in circumstance.

(5) Payroll factor.

(a) In general. The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the taxable year by the taxpayer for compensation and the denominator of which is the total compensation paid by the taxpayer both within and without this state during the taxable year. The payroll factor shall include only that compensation included in the computation of the apportionable income tax base for the taxable year.

(b) Compensation relating to nonbusiness income and independent contractors. The compensation of any employee for services or activities connected with the production of nonbusiness income, and payments made to any independent contractor or any other person not properly classifiable as an employee, shall be excluded from both the numerator and denominator of this factor.

(c) When compensation paid in this state. Compensation is paid in this state if any one of the following tests, applied consecutively, is met:

(i) The employee's services are performed entirely within this state.

(ii) The employee's services are performed both within and without the state, but the service performed without the state is incidental to the employee's service within the state. The term "incidental" means any service that is temporary or transitory in nature, or that is rendered in connection with an isolated transaction.

(iii) If the employee's services are performed both within and without this state, the employee's compensation will be attributed to this state:

(A) if the employee's principal base of operations is within this state;

(B) if there is no principal base of operations in any state in which some part of the services are performed, but the place from which the services are directed or controlled is in this state; or

(C) if the principal base of operations and the place from which the services are directed or controlled are not in any state in which some part of the service is performed but the employee's residence is in this state.

(d) This rule is effective for taxable years beginning after December 31, 1997.

(b) "Channel termination point" means the point at which information can enter or leave the telecommunications network.

(c) "Communications channel" means a communications path, which can be one-way or two-way, depending on the channel, between two or more points. The path may be
designated for the transmission of signals representing human speech, digital or analog data, facsimile, or images.

d) "Outerjurisdictional property" means tangible personal property, such as orbiting satellites, undersea transmission cables and the like, that are owned or rented by the taxpayer and used in a telecommunications business, but that are not physically located in any particular state.

e) "Private telecommunications service" means a dedicated telephone service that entitles the subscriber to the exclusive or priority use of a communications channel or groups of communications channels from one or more channel termination points to another channel termination point.

f) "Telecommunications" means the electronic transmission of voice, data, image, and other information through the use of any medium such as wires, cables, electromagnetic waves, light waves, or any combination of those or similar media now in existence or that might be devised, but telecommunications does not include the information content of any such transmission.

g) "Telecommunications service" means providing telecommunications, including services provided by telecommunication service resellers, for a charge and includes telephone service, telegraph service, paging service, personal communication services and mobile or cellular telephone service, but does not include electronic information service or Internet access service.

(b) The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(4) and (7). Except as otherwise provided in this rule, the property factor shall be determined in accordance with R865-6F-8(8), the payroll factor in accordance with R865-6F-8(9) and the sales factor in accordance with R865-6F-8(10).

(a) The following sales and receipts from telecommunications service other than interstate or international private telecommunications service, shall be included in the Utah sales and receipts numerator:

(i) receipts derived from charges for providing telephone "access" from a location within Utah. "Access" means that a call can be made or received from a point within this state. An example of this type of receipt is a monthly subscriber fee billed with reference to equipment located in Utah;

(ii) receipts derived from charges for unlimited calling privileges, if the charges are billed by reference to equipment located in Utah;

(iii) receipts derived from charges for individual toll calls that originate and terminate in Utah;

(iv) receipts derived from charges for individual toll calls that either originate or terminate in Utah and are billed by reference to a customer or equipment located in Utah;

(v) receipts derived from any other charges if the charges are not includable in another state's sales factor numerator under that state's law, and the customer's billing address is in Utah.

(b) Gross receipts derived from providing interstate and international private telecommunications services shall be determined as follows:

(i) If the segment of the interstate or international channel between each termination point is separately billed, 100 percent of the charge imposed at each termination point in this state and for service in this state between those points is includable in the Utah sales factor. In addition, 50 percent of the charge imposed for service between a channel termination point outside this state and a point inside the state shall be included in the Utah sales factor. For purposes of this paragraph, termination points shall be measured by the nearest termination point inside the state to the first termination point outside the state.

(ii) If each segment of the interstate or international channel is not separately billed, the Utah sales shall be the same portion of the interstate or international channel charge that the number of channel termination points within this state bears to the total number of channel termination points within and without this state.

The denominator is the average value of the total of the taxpayer's real and tangible personal property owned or rented and used within and without this state during the taxable year, plus the average value of all securities or commodities used to
produce income during the taxable year.

(b) Securities or commodities used to produce income shall be valued at original cost.

(d) Other gross receipts such as margin interest on brokerage accounts and account maintenance fees shall be included in the denominator of the sales factor, and, if the customer that is paying the amounts or fees is located in Utah based on the customer address as it appears in the broker or dealer's records, in the numerator of the sales factor.

(b) The character of each class or type of partnership income passes through to the corporate partner. Accordingly, a corporate partner that is a foreign operating company may not make a subtraction from unadjusted income as a foreign operating company for partnership income generated from intangible property and assets held for investment and not from a regular business trading activity.

(2) Prior to determining the foreign operating company subtraction, a foreign operating company that is a member of a unitary group shall eliminate a transaction between the foreign operating company and a partnership held directly or indirectly by a member of the same unitary group to the extent of the interest the foreign operating company holds in the partnership.

R865-91. Tax Commission, Auditing.
R865-91-1. Income Tax.

(1) For purposes of determining whether an individual spends in the aggregate 183 or more days of the taxable year in this state, a "day" means a day in which the individual spends more time in this state than in any other state.

(2) Determination of resident individual status for military servicepersons.

(a) The status of a military serviceperson as a resident individual or a nonresident individual is determined as follows.

(i) A resident individual in active military service does not lose his status as a resident individual if the resident individual's absence from the state is a result of military orders.

(ii) A nonresident individual in active military service who is stationed in Utah does not become a resident individual for income tax purposes if the nonresident individual's presence in Utah is due solely to military orders.

(b) Subject to federal law, an individual in active military service may change from a resident individual to a nonresident individual or from a nonresident individual to a resident individual if he establishes that he satisfies the conditions of Section 59-10-136.

(c) A nonresident individual serviceperson is exempt from Utah income tax only on his active service pay. All other Utah source income received by the nonresident individual serviceperson is subject to Utah income tax as provided by Section 59-10-116.

(1) A Utah resident taxpayer is required to report his entire state taxable income pursuant to Section 59-10-1003 even though part of the income may be from sources outside this state.

(2) Except to the extent allowed in Subsection (4), a resident taxpayer may claim the credit provided in Section 59-10-1003 by:

(a) filing a resident Utah return showing the computation of tax based on total income before any credit for taxes in another state;

(b) completing form TC-40A, Credit For Income Tax Paid To Another State, for each state for which a credit is claimed; and

(c) attaching any schedule completed under Subsection (b)(ii) to the individual income tax return.

(3) A part-year resident taxpayer may claim credit on that portion of income subject to both Utah tax and tax in another state. The credit is claimed in the same manner as claimed by a full-year resident, but only for that portion of the year that the nonresident taxpayer was living in Utah. Form TC-40A, Credit For Income Tax Paid To Another State, must be completed and attached to the individual income tax return for each state for which a credit is claimed.

(4) For only those states in which a resident professional athlete has participated in his team's composite return or simplified withholding, a resident professional athlete may claim the credit provided in Section 59-10-1003 by:

(a) filing a resident Utah return showing the computation of tax based on total income before any credit for taxes in another state; and

(b) attaching a summary, prepared by the team or the team's authorized representative, indicating both the amount of the athlete's income allocated to all other states in which the athlete has participated in his team's composite return or simplified withholding, and the amount of income tax paid by the athlete to those states.

(5) The credit allowable on the Utah return for taxes paid to any other state shall be the smaller of the following:

(a) the amount of tax paid to the other state; or

(b) a percentage of the total Utah tax. This percentage is determined by dividing the total federal adjusted gross income into the amount of the federal adjusted gross income taxed in the other state.

(6) A taxpayer claiming a credit under Section 59-10-1003 shall retain records to support the credit claimed.

R865-91-4. Returns by Husband and Wife When One is a Resident and the Other is a Nonresident Pursuant to Utah Code Ann. Section 59-10-119.

(1) Except as provided in Subsection (2), a husband and wife, one being a nonresident and the other a resident, who file a joint federal income tax return, but separate state income tax returns shall determine their separate:

(i) state taxable income as follows:

(A) Determine the amount of the total federal adjusted gross income ("FAGI") pertaining to each spouse.

(B) Allocating the federal adjusted gross income to each spouse, each spouse shall claim his or her full state personal exemption.

(ii) For purposes of Subsection (1)(b)(i), each spouse shall claim his or her full state personal exemption.

(2) A husband and wife, one being a nonresident and the other a resident, may use an alternate method of calculating their separate state taxable incomes than the method provided in subsection (1) if they can demonstrate to the satisfaction of the commission that the alternate method more accurately reflects their separate state taxable incomes.

R865-91-5. Change of Status As Resident or Nonresident Pursuant to Utah Code Ann. Section 59-10-120.

(1) Definitions.

(A) "AGI" means adjusted gross income, as defined by Section 59-10-103.

(B) "Part-year resident" means an individual that changes status during the taxable year from resident to nonresident or from nonresident to resident.

(2) The state taxable income of a part-year resident shall be a percentage of the total Utah tax. This percentage is determined by dividing the total AGI by the total AGI, not to exceed 100 percent.

(3) The Utah portion of a part-year resident's AGI shall be determined as follows:

(a) Income from wages, salaries, tips and other compensation earned or received while in a resident status and included in the total AGI shall be included in the Utah portion of the AGI.

(b) Dividends actually or constructively received while in a resident status shall be included in the Utah portion of AGI using the percentage of excludable dividends received
while in resident status, compared to the total excludable dividends.
(c) All interest actually or constructively received while in resident status shall be included in the Utah portion of the AGI.
(d) All AGI derived from Utah sources while in a nonresident status, as determined under Section 59-10-117, shall be included in the Utah portion of AGI.
(4)(a) Income or loss from businesses, rents, royalties, partnerships, estates or trusts, small business corporations as defined by Internal Revenue Code Section 1371(b), and farming shall be included in the Utah portion of AGI:
(i) if the activities involved were concluded, or the taxpayer's connection with them terminated before or at the time of change from resident to nonresident status; or
(ii) if the activities were commenced or the taxpayer joined them at the time or after the change from nonresident to resident status.
(b) Income or loss that does not meet Subsection (4)(a) shall be included in the Utah portion of AGI only to the extent the income or loss is derived from Utah sources as determined under Section 59-10-117.
(5) Moving expenses deducted on the federal return may be deducted from the Utah portion of AGI only to the extent that they are for moving into Utah and within Utah.
(6) Employee business expenses may be deducted from the Utah portion of AGI only to the extent that they pertain to the production of income included in the Utah portion of AGI.
(7) Payments by a self-employed person to a retirement plan that reduce the total AGI may be deducted from the Utah portion of AGI in the same proportion that the related self-employment income is included in the Utah portion of FAGI.
(8) Other income, losses or adjustments applicable in determining total AGI may be allowed or included in the Utah portion of AGI only when the allowance or inclusion is fair, equitable, and would be consistent with other requirements of Title 59, Chapter 10, Individual Income Tax Act, or these rules as determined by the commission.
A. Two returns are not required when an individual changes status as resident or nonresident. Ordinarily, the total of the taxable income that would be reported on two returns will be included in one return.
B. Only in unusual circumstances as determined by the Tax Commission will the preparation of two returns be allowed or required. In this event, the returns shall be prepared in a fair and equitable manner as approved or prescribed by the Tax Commission consistent with Utah Code Ann. Section 59-10-121 and other pertinent provisions.
A. If a taxpayer's taxable year is changed to a taxable period of less than 12 months as required by Utah Code Ann. Section 59-10-122 and if he is required to convert his income for the period to an annual basis for federal income tax purposes, the taxpayer shall convert his income for the period of less than a year to an annual basis for computing his state income tax.
B. Unless the Tax Commission determines a different method consistent with requirements of the act is necessary or appropriate, the income tax of the taxpayer for the period of less than 12 months shall be computed as follows:
1. determine the state taxable income applicable to the fractional part of the year and multiply this amount by 12;
2. divide the product by the number of months in the period to arrive at the state taxable income on an annualized basis;
3. compute the tax applicable to the state taxable income as annualized;
4. divide the tax as computed on the annualized state taxable income by 12; and
5. multiply the result by the number of months in the period involved.
R865-9I-10. Adjustments Between Taxable Years After Change in Accounting Methods Pursuant to Utah Code Ann. Section 59-10-124.
A. If a taxpayer's state taxable income for any taxable year is computed under a method of accounting different from the method under which such income was computed for the previous year, the taxpayer shall attach a statement to his return setting forth all differences. This statement shall specify the amounts duplicated or omitted in full or in part as a result of such change. The Tax Commission shall make or allow any necessary adjustments to prevent double inclusion or exclusion of an item of gross income, or double allowance or disallowance of an item of deduction or credit.
(1) A pass-through entity must withhold and pay over to the state a tax on:
(a) the business income of the pass-through entity to the extent the business income is derived from Utah sources in accordance with Section 59-10-116; and
(b) the nonbusiness income of the pass-through entity derived from or connected with Utah sources.
(i) "Nonbusiness income of the pass-through entity derived from or connected with Utah sources" does not include portfolio income if the income would not be reportable to Utah on the pass-through entity taxpayer's Utah state tax return or the Utah state tax return of any downstream pass-through entity taxpayer.
(ii) "Downstream pass-through entity taxpayer" means a pass-through entity taxpayer that is a pass-through entity taxpayer of any entity that is itself a pass-through entity taxpayer.
(2) A schedule shall be included with the return listing all of the following information for each nonresident pass-through entity taxpayer:
(a) name;
(b) address;
(c) social security number;
(d) percentage of ownership in pass-through entity;
(e) Utah income attributable to that pass-through entity taxpayer; and
(f) amount of Utah tax withheld on behalf of that pass-through entity taxpayer.
(3) The income of a pass-through entity that is an S corporation shall be calculated by:
(a) adding back to the line on the federal Schedule K labeled "Income/loss reconciliation" the amount included on that schedule for:
(i) charitable contributions;
(ii) total foreign taxes paid or accrued; and
(iii) recapture of a benefit derived from a deduction under Section 179, Internal Revenue Code; or
(b) if the pass-through entity that is an S corporation was not required to complete the line labeled "Income/loss reconciliation" on the federal Schedule K, a pro forma calculation of the amounts for charitable contributions and foreign taxes paid or accrued, and of the amount that would have been entered on the Income/loss reconciliation line shall be used for purposes of this rule.
(4) A pass-through entity shall calculate the tax it is
required to withhold on behalf of pass-through entity taxpayers by:
(a) multiplying the income of the pass-through entity computed in Subsection (1) by the tax rate in effect under Section 59-10-104; and
(b) subtracting from the amount calculated in Subsection (4)(a) any amounts withheld from the pass-through entity under Section 59-6-102 that are attributable to pass-through entity taxpayers for whom the pass-through entity is required to withhold.

(5)(a) A pass-through entity is not required to withhold a tax on behalf of a pass-through entity taxpayer of that pass-through entity if the pass-through entity taxpayer is:
(i) exempt from taxation under Section 59-7-102 and the income from the pass-through entity is not unrelated business income to the pass-through entity taxpayer;
(ii) a real estate investment trust if all of the earnings of the real estate investment trust are distributed to the owners of the real estate investment trust; or
(iii) a person exempt from state income tax under Section 59-10-104.1.
(6) For purposes of Subsections 59-10-1403.2(5) and (6), a pass-through entity shall apply to the commission for a waiver of penalty or interest, on an amount the pass-through entity fails to pay or withhold and for which the pass-through entity taxpayer files and pays in a timely manner, by checking the box on the tax return requesting the waiver for required withholding.
(7) An entity that is disregarded for federal purposes is disregarded for purposes of pass-through entity withholding.

(8) The pass-through entity's federal identification number shall be used on the form TC-65 in place of a social security number.

(9) Examples.
(a) Partnership A has two partners, both of whom are nonresident individuals exempt from state income tax under Section 59-10-104.1. Partnership A is not required to withhold Utah tax for these partners.
(b) For tax year 2010, Partnership C has two partners, Partnerships D and E. Partnership D has two partners, both Utah resident individuals. Partnership E has three nonresident partners, all of whom are subject to Utah state tax. Partnership C's responsibility for withholding is based on Partnerships D and E, not the partners of Partnerships D and E. Accordingly, Partnership C must withhold tax on behalf of Partnerships D and E. If, however, both Partnership D and the partners of Partnership D file returns and pay any tax due by the filing due date for Partnership C, including extensions, Partnership C may elect to not withhold those amounts and may apply to the Tax Commission, by checking the box on the tax return requesting the waiver for required withholding, for a waiver of tax, penalty, and interest on amounts Partnership C should have collected and remitted for Partnership D, but did not.

A. Except as otherwise provided in statute or this rule, every employer shall withhold Utah income taxes from all wages paid:
1. to a nonresident employee for services performed within Utah,
2. to a resident employee for all services performed, even though such services may be performed partially or wholly without the state.
B. If the services performed by a resident employee are performed in another state of the United States, the District of Columbia, or a possession of the United States that requires withholding on wages earned, the withholding tax for Utah shall be the Utah tax required to be withheld less the tax required to be withheld under the laws, rules, and regulations of that other state. District of Columbia, or possession of the United States. C. If the duties of a nonresident employee involve work both within and without the state, tax is withheld from that portion of the total wages that is properly allocable to Utah. The method of allocation is subject to review by the Tax Commission and may be subject to change if it is determined to be improper.
D. Income tax treatment of rail carrier and motor carrier employees is governed by 49 U.S.C. Section 14503.
E. Withholding required under Section 59-10-402 is required for all wages that are:
1. subject to withholding for federal income tax purposes;
2. paid to individuals who are deemed employees as determined by the Tax Commission, using Internal Revenue Service guidelines.
F. The number of exemptions claimed for federal withholding shall be the number of exemptions claimed for state withholding purposes.
G. Employers should use Utah income tax withholding schedules or tables published by the Tax Commission in computing the amount of state income tax withheld from their employees.

A. With reference to Utah Code Ann. Section 59-10-403, an employer shall not be required to deduct and withhold Utah income taxes from wages paid to an employee who has filed a Federal Withholding Certificate, Form W-4E.

A. Legible copies of the federal Form W-2 must contain the following information:
1. the name and address of the employee and employer;
2. the employer's Utah withholding tax account number;
3. the amount of compensation;
4. the amounts of federal and Utah state income tax withheld;
5. the social security number of the employee;
6. the word "Utah" either printed or stamped thereon in such a way as to clearly indicate the tax withheld was for Utah in accordance with Utah law, as distinguished from any other state or jurisdiction; and
7. other information required by the commission.
B. Sufficient copies of the W-2 form must be furnished to each employee to enable attachment of a legible copy to the state income tax return.
C. If a tax required under Section 59-10-402 is not withheld by an employer, but is later paid by the employee:
1. the tax required to be withheld under Section 59-10-402 shall not be collected from the employer; and
2. the employer shall remain subject to penalties and interest on the total amount of taxes that the employer should have withheld under Section 59-10-402.

(1) This rule provides exceptions to the statutory requirement that an employer shall file withholding tax returns and pay withholding taxes quarterly.
(2) An employer may file withholding tax returns and pay withholding taxes on an annual basis for a calendar year in which the employer files:
(a) a federal Schedule H; or
(b) a Form 944, Employer's ANNUAL Federal Tax Return, with the Internal Revenue Service.
(3) The annual withholding return and payment under
Subsection (2) are due by January 31 of the year succeeding the year for which the payment and return apply.

(4) An employer withholding an average of $1,000 or more per month shall prepay withholding taxes on a monthly basis in the manner prescribed in Section 59-10-407.

(1) Every taxpayer shall keep adequate records for income tax purposes of a type which clearly reflect income and expense, gain or loss, and all transactions necessary in the conduct of business activities.

(2) Records of all transactions affecting income or expense, or gain or loss, and of all transactions for which deductions may be claimed, should be preserved by the taxpayer to enable preparation of returns correctly and to substantiate claims. All records shall be made available to an authorized agent of the commission when requested, for review or audit.

A. In the year a married person dies, the surviving spouse may file a joint Utah return if a joint federal return was filed except in cases where one spouse was a resident and the other a nonresident. In these cases, separate returns may be required (see Section 59-10-503(1)(b) and Rule R865-9I-6).

A. Returns by fiduciaries and receivers shall be made in accordance with forms and instructions provided by the Tax Commission. The fiduciary of any resident estate or trust or of any nonresident estate or trust having income derived from Utah sources and who is required to make a return for federal income tax purposes shall make and file a corresponding return for state income tax purposes.

1. Each return shall include a listing of the beneficiaries and their distributable shares of the state taxable income.

2. In the case of a nonresident estate or trust, the return shall include detailed information showing how the amount of income derived from or connected with Utah sources was determined.

B. The fiduciary is required to pay the taxes on the income taxable to the estate or trust. Liability for payment of the tax attaches to the executor or administrator up to his discharge. If the executor or administrator failed to file a return as required by law or failed to exercise due diligence in determining and satisfying the tax liability, the liability is not extinguished until the return is filed and paid.

C. Liability for the tax also follows the estate itself. If by reason of the distribution of the estate and the discharge of the executor or administrator, it appears that collection of tax cannot be made from the executor or administrator, each legatee or distributee must account for his proportionate share of the tax due and unpaid to the extent of the distributive share received by him.

(1) Every partnership having a nonresident partner and income derived from sources in this state shall file a return in accordance with forms and instructions provided by the Tax Commission.

(2) If the partnership has income derived from or connected with sources both inside and outside Utah and if any partner was not a resident of Utah, the portion derived from or connected with sources in this state must be determined and shown on the Utah forms TC-65 Schedule K and Schedule K-1.

(3) A partnership may satisfy the requirement to file a return with the commission by maintaining records that show each partner's share of income, losses, credits, and other distributive items, and making those records available for audit if:

(a) all of the partnership's partners are resident individuals; and

(b) the partnership is not a pass-through entity taxpayer.

A. Any return, statement, or other document shall be signed as required by specific provisions of the act or as prescribed by forms or instructions furnished by the Tax Commission.

B. All returns filed with the Tax Commission must be signed by the taxpayer or his duly authorized agent as provided by law. Unsigned returns are not valid returns for income tax purposes and if unsigned, the benefits of proper filing may be denied the taxpayer.

C. Returns may be filed on forms prescribed and furnished by the Tax Commission, or in lieu thereof, on reproduced or facsimile copies, provided that the same information required on the printed form for the same year is provided and the paper used for such substitute return is equal in durability and weight to 20 lb. bond. Paper more brittle or lighter in weight than that specified is not acceptable as a replacement for the regular reporting forms. The use of paper of lesser quality for supporting schedules is permitted, providing the schedules are clear and legible.

A. A completed form TC-546, Prepayment of Income Tax, must accompany the prepayment amount required by Section 59-10-516, if the prepayment is not in the form of withholding, payments applied from previous year refunds, or credit carryforwards.

B. Interest shall be charged on any additional tax due shown on the return in accordance with Section 59-1-402. Interest is calculated from the original due date of the return to the date the tax is paid and applies even when an extension of time to file the return exists.

C. Utah residents in military service, stationed outside the United States, shall be granted an extension of time to file to the 15th day of the fourth month after their return to the United States, or their discharge date, whichever is earlier.

A. With reference to Section 59-10-517(3)(b), the provisions of that statute that apply to registered mail shall also apply in ordinary circumstances to certified mail.

A. If a taxpayer elects to defer a determination as to applicability of the presumption that the activity is being engaged in for profit as set forth in I.R.C. Section 183(d), he shall notify the Tax Commission in writing of such election. He must also consent to assessment of tax pertaining to such activity at any time within the five- or seven-year period plus a reasonable additional period.

1. In addition, the taxpayer shall immediately furnish to the Tax Commission a copy of every waiver of the running of the statute of limitations that he may give to the Internal Revenue Service, and he shall at the same time give his consent in writing that the waiver shall also apply to the time allowed for assessment of tax by the Tax Commission.

2. The taxpayer must notify the Tax Commission of any
audit actions or determinations made by the Internal Revenue Service with respect to such activity.

A. Legible copies of the federal Form 1099 or other special forms for reporting rents, royalties, interest, remuneration, etc., from Utah sources not subject to federal withholding must be open to inspection and gathering of information by authorized representatives of the Tax Commission or submitted to the Tax Commission upon request. 4. payments or reimbursements to senior program volunteers under United States Code Title 42, Section 5058; and
5. gifts and bequests.
D. "Property taxes accrued" does not mean that taxes can be accumulated for two or more years and then claimed in one year.
E. A claimant who pays property taxes on a mobile home and pays rent on the land on which the mobile home is situated shall be eligible for a homeowner's credit for the property tax paid on the mobile home and a renter's credit for the rent paid on the land.
F. State welfare assistance is not considered as public funds for the payment of rent, and will not preclude a rebate. However, assistance payments must be included in income.
G. Where housing assistance payments are involved under the Housing and Community Development Act, Title II, Section 8:
1. only that portion of the rent paid by the tenant may be claimed under the terms of the Circuit Breaker Act; and
2. that portion of the rent paid by the federal government to the landlord will not be considered as part of the household income since it is not subject to a claim for rebate.
H. Persons claiming a property tax exemption under Title 59, Chapter 2, Part 11 are not precluded from claiming a homeowner's or renter's credit.

(1) The personalized plate is a non-public forum. Nothing in the issuance of a personalized plate creates a designated or limited public forum. The presence of a personalized plate on a vehicle does not make the plate a traditional public forum.

   (a) Combination of letters, words, or numbers with any connotation that is vulgar, derogatory, profane, or obscene.

The request must be directed to the Director of the Motor Vehicle Division and should include a detailed statement of the reasons why the applicant believes the requested license plate is not offensive or misleading.

(7) If, after issuance of a personalized license plate, the commission becomes aware through written complaints that the format may be prohibited under Subsection (2), the division shall again review the format.

(8) If the division determines pursuant to Subsection (2) that the issued format is prohibited, the holder of the plates shall be notified in writing and directed to surrender the plates. This determination is subject to the review and appeal procedures outlined in Subsections (3) through (7).

A. If a person who has been issued personalized license plates fails to renew the personalized license plates within six months of the plates' expiration, the license plates shall be deemed to be surrendered to the division and the division may reissue the personalized license plates to a new requestor.

(1) Every dealer desiring to issue temporary permits for the operation of motor vehicles shall make application to the Motor Vehicle Enforcement Division. If the privilege is extended, the dealer will receive a series of permits, consecutively numbered. The numbers shall be recorded by the division and charged to the dealers.

(2) If a vehicle purchaser requests a temporary permit, the dealer shall issue no more than one temporary registration permit, in numerical sequence, for each motor vehicle sold.

(3) The expiration date on the original permit shall be legible from a distance of 30 feet.

(4) The permit shall be displayed at the rear of the motor vehicle, in a place where the printed information on the permit and the expiration date may be easily seen.

(5) Temporary permits must not be placed in rear windows or permit holders with less than seventy percent light transparency.

(a) If a permit holder is used, it must not cover any of the printed information on the permit, including the expiration date.

(b) If a license plate frame is used in conjunction with a permit holder, it must not cover any printed information or expiration date on the permit.

(c) Temporary permits must be protected from exposure to the weather and conditions that would render them illegible.

(6) If a temporary permit is filled out incorrectly, the sale of the vehicle is rescinded, or for some other reason the permit is unusable, the dealer must return the permit to the Motor Vehicle Enforcement Division, together with the stub, and it will not be considered issued. If the permit is placed on a vehicle and the sale has not been rescinded, the permit will be considered issued and the dealer is liable for the registration fee for the vehicle together with any applicable penalties.

(7) A dealer's temporary permits may be audited at any time and the dealer required to pay for all outstanding permits. The registration fee charged will be for a passenger car unless the dealer is licensed to sell only motorcycles or small trailers.

(a) If the dealer's records indicate that the permit was issued for a vehicle other than that for which the dealer was billed, the dealer must submit the proper fee and penalty.

(b) If the records disclose that the permit was cleared properly, the dealer must furnish the license number of the vehicle for which the permit was issued and the date of issue.

(c) A dealer shall resolve any outstanding permit billings by payment of fees and penalties or by reconvening the permits before any additional permits will be issued to the dealer. This action will not be construed to be a cancellation of a dealer's privilege of issuing temporary permits, but merely a function of the division's routine audit and billing procedure.

(8) The dealer shall keep a written record in numerical sequence of every temporary registration permit issued. This record shall include all of the following information:

(a) the name and address of the person or firm to whom the permit is issued;

(b) a description of the motor vehicle for which it was issued, including year, make, model, and identification number;

(c) date of issue;

(d) license number;

(e) in the case of a commercial vehicle, the gross laden weight for which it was issued.

(9) In exceptional circumstances a dealer as agent for the division may issue an additional temporary permit for a vehicle by following the procedures outlined below:

(a) The dealer must contact the division and request an extension permit for a particular vehicle. If the request is denied, no extension permit will be issued.

(b) If the extension permit is approved, the division shall issue the dealer an approval number. This number must be recorded by the dealer in its temporary permit record and on the permit and stub in the space provided for the license number. The space provided on the permit and stub for the dealer name must be completed with the words "State Tax Commission" and the dealer's license number. The remainder of the permit and stub will be completed as usual.

(c) The dealer must return the permit stub to the division within 45 days from the date it is issued.

(d) A dealer may not issue an extension permit if it is determined that the dealer has been granted extensions for more than 2% of the permits issued to the dealership during the past three months. This percentage is calculated by dividing the number of extensions granted the dealer during the past three months by the permits issued by the dealer during the past three months.

(10) All extension permits issued by dealers under this rule are considered issued by the division.

(11) When a motor vehicle is sold for registration in another state, the stub portion of the temporary permit shall be filed with the division within ten days from the date of issue, accompanied by the required fee. The sale must be reported in the dealer's monthly report of sale required by Section 41-3-301(2)(b). If the permit stub and the required fee are not postmarked or received by the division within 45 days, a penalty equal to the required fee shall be collected pursuant to Section 41-3-302.

(12) The temporary registration card, attached to the temporary permit, must be detached and given to the customer at the time the temporary permit is issued. This temporary registration card must be kept in the vehicle while the temporary permit is displayed.

R877-23V-6. Issuance of In-Transit Permits Pursuant to Utah Code Ann. Section 41-3-305.

(b) Each piggy-backed vehicle must have a separate in-transit permit or be properly registered for operation in Utah.

(2) In-transit permits may not be issued for loaded motor vehicles over 12,000 pounds gross laden weight.

(3) A semitractor hauling unlicensed trailers must obtain an in-transit permit for any trailer in contact with the ground.

(4) Subject to Subsections (5) and (6), the following entities may issue in-transit permits:

(a) a licensed dealer that is primarily engaged in the business of auctioning consigned motor vehicles to other dealers or the public; and

(b) a state or local government agency that is engaged in the business of auctioning motor vehicles to dealers or the public.

(5) An entity issuing an in-transit permit under Subsection (4) shall maintain records of all in-transit permits obtained from the division. These records shall include:

(a) vehicle purchaser information;

(b) vehicle identification number; and

(c) evidence that the purchaser has met the requirements
for issuance of the in-transit permit.

(6) An entity described in Subsection (4) that fails to maintain the records required under Subsection (5) may be prohibited from issuing in-transit permits.

(1)(a) "Advertisement" means any oral, written, graphic, or pictorial statement made that concerns the offering of a motor vehicle for sale or lease.

(b) "Advertisement" includes any statement or representation:

(i) made in a newspaper, magazine, electronic medium, or other publication;
(ii) made on radio or television;
(iii) appearing in any notice, handbill, sign, billboard, banner, poster, display, circular, pamphlet, letter, or other printed material;
(iv) contained in any window sticker or price tag; and
(v) in any oral statement.

(c) "Advertisement" includes the terms "advertise" and "advertising".

(d) "Advertisement" does not include:

(i) a statement made solely for the purpose of obtaining motor vehicle financing or a motor vehicle title; or
(ii) hand written negotiation sheets between a dealer and a customer of the dealer.

(2) Violation of any of the following standards of practice for the advertising and selling of motor vehicles is a violation of Section 41-3-210.

(a) Accuracy. Any advertised statements and offers about a motor vehicle as to year, make, model, type, condition, equipment, price, trade-in-allowance, terms, and so forth, shall be clearly set forth and based upon facts.

(b) Bait. Bait advertising and selling practices may not be used. A motor vehicle advertised at a specific price shall be in the possession of the advertiser at the address given. It shall be willingly shown, demonstrated and sold. If sold, the advertiser shall, upon request of any prospective purchaser, peace officer, or employee of the division, show sales records of the advertised motor vehicle.

(c) (i)(A) Price. When the price or payment of a motor vehicle is quoted, the motor vehicle shall be clearly identified as to make, year, model and if new or used. Except as provided in Subsection (c)(i)(B), the advertised price must include charges that the customer must pay for the motor vehicle, including freight or destination charges, dealer preparation, and dealer handling.

(B) The following fees are not required to be included in the advertised price that the customer must pay for the motor vehicle:

(I) dealer document fees;
(II) if optional, undercoating or rustproofing fees; and
(III) taxes or fees required by the state or a county, including sales tax, titling and registration fees, safety and emission fees, and waste tire recycling fees.

(ii) In addition to other advertisements, this pertains to price statements such as "$..... Buys".

(iii) When "list", "sticker", or words of similar import are used in an advertisement, they may refer only to the manufacturer's suggested retail price. If a supplementary price sticker is used, the advertised price must include all items listed on the supplementary sticker.

(iv) If the customer requests and receives a temporary permit, the temporary permit fee need not be included in the advertised price.

(d) Savings and Discount Claims. Because the intrinsic value of a used motor vehicle is difficult to establish, specific claims of savings may not be used in an advertisement. This includes statements such as, "Was priced at $....., now priced at $....."

(i) The word "wholesale" may not be used in retail motor vehicle advertising.

(ii) When a motor vehicle advertisement contains an offer of a discount on a new motor vehicle, the amount of the discount must be stated by reference to the manufacturer's suggested retail price of the motor vehicle.

(c) Down Payments. The amount of the down payment may not be stated in a manner that suggests that it is the selling price of the motor vehicle. If an advertisement states "You can buy with no money down", or terms of similar import, the customer must be able to leave the dealership with the motor vehicle without making any outlay of money.

(f) Trade-in Allowance. Statements representing that no other dealer grants greater allowances for trade-ins may not be used. A specific trade-in amount or range of trade-in amounts may not be used in advertising.

(g)(i)(A) Finance. The phrases, "no finance charge", "no carrying charge", or similar expressions may not be used when there is a charge for placing the transaction on a time payment basis. Statements representing or implying that no prospective credit purchaser will be rejected because of inability to qualify for credit, such as "we accept all credit applications", may not be used.

(B) If the amount of the advertised payment changes during the term of the loan, both the payments and the terms of the loan must be disclosed together.

(ii) The phrase "we will pay off your trade no matter what you owe" may not be used.

(h) Unpaid Balance and Repossessions. The term "repossessed" may be used only to describe motor vehicles that have actually been repossessed from a purchaser. Advertisers offering repossessed motor vehicles for sale may be required to offer proof of those repossessions. The unpaid balance shall be the full selling price unless otherwise stated.

(i) Current Used. When a used motor vehicle, as defined by Section 41-3-102, of a current series is advertised, the first line of the advertisement must contain the word "used", "pre-owned", "certified used", "certified pre-owned", or other similar term used to designate a used motor vehicle, or the text must clearly indicate that the motor vehicle offered is used.

(j) Demonstrators, Executives' and Officials' Motor Vehicles.

(i) "Demonstrator" means a motor vehicle that has never been sold or leased to a member of the public.

(ii) Demonstrator motor vehicles include motor vehicles used by new motor vehicle dealers or their personnel for demonstrating performance ability but not motor vehicles purchased or leased by dealers or their personnel and used as their personal motor vehicles.

(iii) A demonstrator motor vehicle may be advertised for sale only by a dealer franchised for the sale of that make of new motor vehicle.

(iv) An executive's or official's motor vehicle shall have been used exclusively by an executive of the dealer's franchising manufacturer or distributor, or by an executive of the franchised dealership. These motor vehicles may not have been sold or leased to a member of the public prior to the appearance of the advertisement.

(v) Demonstrator's, executive's and official's motor vehicles shall be clearly and prominently advertised as such. Advertisements shall include the year, make, and model of the motor vehicle offered for sale.

(k) Taxi-cabs. Police, Sheriff, and Highway Patrol Motor Vehicles. Taxi-cabs, police, sheriff, and highway patrol motor vehicles shall be so identified. These motor vehicles may not be described by an ambiguous term such as "commercial".

(l) Mileage Statements. When an advertisement quotes the
number of miles or a range of miles a motor vehicle has been
driven, the dealer must have written evidence that the motor
vehicle has not been operated in excess of the advertised
mileage.

(i) The evidence required by this section shall be the
properly completed odometer statement required by Section 41-
1a-902.

(ii) If a dealer chooses to advertise specific mileage or a
range of miles a motor vehicle has been driven, the dealer shall
upon request of any prospective purchaser, peace officer, or
employee of the division produce all documents in its
possession pertaining to that motor vehicle so that the mileage
can be readily verified.

(m) Underselling Claims. Unsupported underselling
claims may not be used. Underselling claims include the
following: "our prices are guaranteed lower than elsewhere",
"money refunded if you can duplicate our values", "we
guarantee to sell for less", "we sell for less", "we purchase
motor vehicles for less so we can sell them for less", "highest trade-in
allowance", "we give $300 more in trade than any other
dealer", " Evidence of supported underselling claims must be
contained in the advertisement and shall be produced upon
request of a prospective purchaser, peace officer, or employee
of the division.

(n) Free. "Free" may be used in advertising only when the
advertiser is offering a gift that is not conditional on the
purchase of any property or service.

(o) Driving Trial. A free driving trial means that the
purchaser may drive the motor vehicle during the trial period
and return it to the dealer within the specified period and obtain
a refund of all moneys, signed agreements, or other
considerations deposited and a return of any motor vehicle
traded in. The exact terms and conditions of the free driving trial
shall be set forth in writing and a copy given to the purchaser at
the time of the sale.

(p) Guaranteed. When words such as "guarantee",
"warranty", or other terms implying protection are used in
advertising, an explanation of the time and coverage of the
promise or warranty shall be given in clear and concise
language. The purchaser shall be provided with a written
document stating the specific terms and coverage.

(q) Name Your Own Deal. Statements such as "write your
own deal", "name your own price", "name your own monthly
payments", "appraise your own motor vehicle", and phrases of
similar import may not be used.

(r) Disclosure of Material Facts. Disclosures of material
facts that are contained in advertisements and that involve types
of motor vehicles and transactions shall be made in a clear and
conspicuous manner.

(i) Fine print, and mouse print are not acceptable methods
of disclosing material facts.

(ii) The disclosure must be made in a typeface and point
size comparable to the smallest typeface and point size of the
text used throughout the body of the advertisement.

(iii) An asterisk may be used to give additional information
about a word or term, however, asterisks or other reference
symbols may not be used as a means of contradicting or
substantially changing the meaning of any advertising
statements.

(iv) The speed of the words spoken in any verbal
advertisement must be constant throughout the advertisement.

(s) Lease. When an advertisement relates to a lease, the
advertisement must make it readily apparent that the transaction
advertised is a lease.

(i) The word "lease" must appear in a prominent position
in the advertisement in a typeface and point size comparable to
the largest text used to directly advertise the motor vehicle.

(ii) Statements that do not use the term "lease" do not
constitute adequate disclosure of a lease.

(iii) Lease advertisements may not contain the phrase "no
down payment" or words of similar import if an outlay of money
is required to lease the motor vehicle.

(iv) Lease terms that are not available to the general public
may not be included in advertisements directed at the general
public.

(v) Limitations and qualifications applicable to the lease
terms advertised shall be clearly and conspicuously disclosed.

(x) Electronic Medium Disclosures. A disclosure
appearing in any electronic advertising medium must clearly and
conspicuously feature all necessary information in a manner that
is readable and understood if type is used, or that can be read
and understood if audio is used.

(u) Invoice or Cost. The terms "invoice" or "factory
invoice" may be used as long as the dealer is willing to show the
invoice invoice to the prospective buyer. The term "cost" may
not be used.

(v) Rebate Offers. "Rebate", "cash rebate", or similar
terms may be used only when it is clearly and conspicuously
stated who is offering the rebate.

(w) Buy-down Interest Rates. No buy-down interest rate
may be advertised unless the dealer discloses the amount of
dealer contribution and states that the contribution by the
dealership may increase the negotiated price of the motor
vehicle.

(x) Special Status of Dealership. A motor vehicle
advertisement may not falsely imply that the dealer has a special
sponsorship, approval status, affiliation, or connection with the
manufacturer that is greater or more direct than any other
like dealer.

(y) Price Equaling. An advertisement that expresses a
policy of matching or bettering competitor's prices shall fully
disclose any conditions that apply and specify the evidence a
consumer must present to take advantage of the offer. The
evidence requirement may not place an unreasonable burden on
the consumer; however, for example requiring the consumer to
bring a written offer made to that consumer by an authorized
representative of a dealership on a substantially similar motor
vehicle would be considered reasonable.

(A) in bold print and in type of a size that is capable of
being read without unreasonable extra effort;

(B) in terms that are understandable to the buying public;

(C) in close proximity to the qualified representation and
not separated or buried by asterisk in some other part of the
advertisement.

(bb) An advertisement must disclose that a vehicle is a
salvage vehicle with a branded title or salvage certificate. The
disclosure shall be made by inserting the terms "salvage
certificate" or "branded title," as appropriate: 
(i) immediately following the year, make, and model of the advertised salvage vehicle; and 
(ii) in the same typeface and point size as the typeface and font size used to advertise the year, make, and model of the salvage vehicle.

(1) Every dealer, dismantler, manufacturer, remanufacturer, transporter, crusher, body shop, and distributor must post a sign at its principal place of business.
(2) The sign required under Subsection (1) shall:
(a) plainly display in a permanent manner the name under which the business is licensed;
(b) be at least 24 square feet in size, unless required otherwise, in writing, by a government entity; and
(c) be painted on the building, attached to the building with nails or bolts, or affixed to posts that have been securely anchored in the ground.
(3) A similar sign must be conspicuously posted at each additional place of business and must show, in addition, the address of the principal place of business. All signs must remain posted at each place of business and on the office. If the office is not located at the site on which the motor vehicles are displayed or offered for sale or exchange, the bonded dealer number, dismantler number, or manufacturer number must also be conspicuously displayed either on the sign or on the building.
(4) If the additional place of business is an auto show or similar business that will conduct business for ten days or less, the sign need only show the licensee's name as licensed by the division and be of a size that reasonably identifies the licensee.
(5) No place of business may be operated under a name other than that by which the licensee is licensed by the division. No sign may be posted at a place of business that shows a business name other than the one licensed by the division or gives the impression that the business is other than the one licensed by the division. However, a sign containing a variation of the licensee's name, if a variation of the licensee's name is required by a manufacturer in writing, may be posted as long as the sign containing the licensed name is more prominent.
(6) Documents submitted by a licensee to a government entity shall be identified only by the name under which the licensee is licensed by the division. All documents used by the licensee to promote or transact a sale or lease of a vehicle shall identify that licensee only by the name under which the licensee is licensed with the division.

A. Except as provided in subsection (B), all manufacturers of motor vehicles licensed under Section 41-3-202 shall comply with the National Highway Traffic and Safety Administration's Standard No. 115, 49 C.F.R. Section 571.115 (1992), regarding 17-character vehicle identification number (VIN) requirements.
B. Manufacturers involved only in the second stage of a multi-stage vehicle are not required to comply with subsection (A) if the manufacturer of the first stage has complied with subsection (A).

A. Every person licensed under Section 41-3-202 shall notify the Motor Vehicle Enforcement Division (division) immediately of any change in ownership, address, or circumstance relating to its fitness to be licensed.
B. The division may request the licensee to review information contained in the division's files and notify the division of any corrections that must be made.

The following items must be properly completed and presented to the division before a license is issued:

(3) Manufacturer or remanufacturer license:
(a) application for license;
(b) evidence that the applicant has complied with the National Highway Traffic and Safety Administration's Motor Vehicle Safety Standard No. 115, regarding 17 character vehicle identification number (VIN) requirements;
(c) pictures of the principal place of business and required sign;
(d) the fee required by Section 41-3-601;

(1) Only fees required by Title 41, Chapter 1a, may be identified as state-mandated fees.

(2) A dealer that charges the purchaser or lessee of a motor vehicle a fee for preparing or processing any state-mandated documents or services ("dealer documentary service fees") must, in addition to the requirements set forth in Subsection (1), prominently display a sign on the dealer premises in a location that is readily discernable by all purchasers and lessees. The sign shall contain the language set forth in Subsection (2)(a).

(a) The (dealer documentary service fee) (         ) as set forth in your contract represents costs and profit to the dealer for preparing and processing documents and other services related to the sale or lease of your vehicle. These fees are not set or state mandated by state statute or rule.

(b) The blank in Subsection (2)(a) may be wording selected by the dealer to describe the fee charged for document preparation and processing and other services, but must be, in all cases, the actual wording used in the dealer's contract of sale or lease agreement.

R877-23V-16. Replacement or Renewal of Lost or Stolen Special Plates Pursuant to Utah Code Ann. Section 41-3-507.

A. A lost or stolen dealer, dismantler, manufacturer, remanufacturer, or transporter plate may be replaced only after it has expired.

R877-23V-20. Reasonable Cause to Deny, Suspend, or Revoke a License Under Title 41, Chapter 3 Pursuant to Utah Code Ann. Section 41-3-209.

(1) Subject to Subsection (2), there is a rebuttable presumption that reasonable cause to deny, suspend, or revoke a license under Title 41, Chapter 3 does not include a violation of a state or federal law that otherwise constitutes reasonable cause under Subsection 41-3-209(2) if the licensee or license applicant who has been charged with, found in violation of, or convicted of a state or federal law that constitutes reasonable cause to deny, suspend, or revoke a license under Subsection 41-3-209(2), has

(a)(i) completed any court-ordered probation or parole; or

(ii) met any conditions of a plea in abeyance; and

(b) paid any required criminal restitution and fines.

(2) The division may rebut the presumption under Subsection (1) by presenting evidence to the commission establishing that the license should be denied, suspended, or revoked.

R877-23V-22. Reasonable Cause to Waive, Reduce, or Compromise a Penalty Pursuant to Utah Code Ann. Section 41-3-704.

(1)(a) Reasonable cause to reduce or compromise a penalty imposed by the division under Title 41, Chapter 3 may include a penalty imposed under Section 41-3-702 for a second or subsequent offense that is issued for a violation that occurred before the division notifies the party of the penalty for the initial offense.

(b) A person seeking to reduce or compromise a penalty under Subsection (1)(a) shall:

(i) demonstrate that there is reasonable cause to reduce or compromise the penalty; and

(ii) recommend the amount by which the penalty should be reduced or compromised.

(2) A penalty that is reduced or compromised under Subsection (1) may not be reduced or compromised below the penalty imposed for a first offense for that violation.

(3) Reasonable cause to waive, reduce, or compromise a penalty imposed by the division under Title 41, Chapter 3 does not include:

(a) ignorance of the law; or
(b) inability to pay a penalty imposed.

(4) Nothing in this rule prevents a person from appealing the appropriateness of a penalty imposed by the division under Title 41, Chapter 3.

R884. Tax Commission, Property Tax.
R884-24P. Property Tax.
A. "Household income" includes net rents, interest, retirement income, welfare, social security, and all other sources of cash income.
B. Absence from the residence due to vacation, confinement to hospital, or other similar temporary situation shall not be deducted from the ten-month residency requirement of Section 59-2-1109(3)(a)(ii).
C. Written notification shall be given to any applicant whose application for abatement or deferral is denied.

A. Definitions.
1. "Allowable costs" means those costs reasonably and necessarily incurred to own and operate a productive mining property and bring the minerals or finished product to the customary or implied point of sale.
   a) Allowable costs include: salaries and wages, payroll taxes, employee benefits, workers compensation insurance, parts and supplies, maintenance and repairs, equipment rental, tools, power, fuels, utilities, water, freight, engineering, drilling, sampling and assaying, accounting and legal, management, insurance, taxes (including severance, property, sales/use, and federal and state income taxes), exempt royalties, waste disposal, actual or accrued environmental cleanup, reclamation and remediation, changes in working capital (other than those caused by increases or decreases in product inventory or other nontaxable items), and other miscellaneous costs.
   b) For purposes of the discounted cash flow method, allowable costs shall include expected future capital expenditures in addition to those items outlined in A.1.a).
   c) For purposes of the capitalized net revenue method, allowable costs shall include straight-line depreciation of capital expenditures in addition to those items outlined in A.1.a).
   d) Allowable costs does not include interest, depletion, depreciation other than allowed in A.1.c), amortization, corporate overhead other than allowed in A.1.a), or any expenses not related to the ownership or operation of the mining property being valued.
   e) To determine applicable federal and state income taxes, straight-line depreciation, cost depletion, and amortization shall be used.
2. "Asset value" means the value arrived at using generally accepted cost approaches to value.
3. "Capital expenditure" means the cost of acquiring property, plant, and equipment used in the productive mining property operation and includes:
   a) purchase price of an asset and its components;
   b) transportation costs;
   c) installation charges and construction costs; and
   d) sales tax.
4. "Constant or real dollar basis" means cash flows or net revenues used in the discounted cash flow or capitalized net revenue methods, respectively, prepared on a basis where inflation or deflation are adjusted back to the lien date. For this purpose, inflation or deflation shall be determined using the gross domestic product deflator produced by the Congressional Budget Office, or long-term inflation forecasts produced by reputable analysts, other similar sources, or any combination thereof.
5. "Discount rate" means the rate that reflects the current yield requirements of investors purchasing comparable properties in the mining industry, taking into account the industry's current and projected market, financial, and economic conditions.
6. "Economic production" means the ability of the mining property to profitably produce and sell product, even if that ability is not being utilized.
7. "Exempt royalties" means royalties paid to this state or its political subdivisions, an agency of the federal government, or an Indian tribe.
8. "Expected annual production" means the economic production from a mine for each future year as estimated by an analysis of the life-of-mine mining plan for the property.
9. "Fair market value" is as defined in Section 59-2-102.
10. "Federal and state income taxes" mean regular taxes based on income computed using the marginal federal and state income tax rates for each applicable year.
11. "Implied point of sale" means the point where the minerals or finished product change hands in the normal course of business.
12. "Net cash flow" for the discounted cash flow method means, for each future year, the expected product price multiplied by the expected annual production that is anticipated to be sold or self-consumed, plus related revenue cash flows, minus allowable costs.
13. "Net revenue" for the capitalized net revenue method means, for any of the immediately preceding five years, the actual receipts from the sale of minerals (or if self-consumed, the value of the self-consumed minerals), plus actual related revenue cash flows, minus allowable costs.
14. "Non-operating mining property" means a mine that has not produced in the previous calendar year and is not currently capable of economic production, or land held under a mineral lease not reasonably necessary in the actual mining and extraction process in the current mine plan.
15. "Productive mining property" means the property of a mine that is either actively producing or currently capable of having economic production. Productive mining property includes all taxable interests in real property, improvements and tangible personal property upon or appurtenant to a mine that are used for that mine in exploration, development, engineering, mining, crushing or concentrating, processing, smelting, refining, reducing, leaching, roasting, other processes used in the separation or extraction of the product from the ore or minerals and the processing thereof, loading for shipment, marketing and sales, environmental clean-up, reclamation and remediation, general and administrative operations, or transporting the finished product or minerals to the customary point of sale or to the implied point of sale in the case of self-consumed minerals.
16. "Product price" for each mineral means the price that is most representative of the price expected to be received for the mineral in future periods.
   a) Product price is determined using one or more of the following approaches:
      (1) an analysis of average actual sales prices per unit of production for the minerals sold by the taxpayer for up to five years preceding the lien date; or,
      (2) an analysis of the average posted prices for the minerals, if valid posted prices exist, for up to five calendar years preceding the lien date; or,
      (3) the average annual forecast prices for each of up to five years succeeding the lien date for the minerals sold by the taxpayer and one average forecast price for all years thereafter for those same minerals, obtained from reputable forecasters, mutually agreed upon between the Property Tax Division and the taxpayer.
   b) If self-consumed, the product price will be determined by one of the following two methods:
      (1) Representative unit sales price of like minerals. The representative unit sales price is determined from:
(a) actual sales of like mineral by the taxpayer;
(b) actual sales of like mineral by other taxpayers; or
(c) posted prices of like mineral;
(2) If a representative unit sales price of like minerals is unavailable, an imputed product price for the self-consumed minerals may be developed by dividing the total allowable costs by one minus the taxpayer's discount rate to adjust to a cost that includes profit, and dividing the resulting figure by the number of units mined.

17. "Related revenue cash flows" mean non-product related cash flows related to the ownership or operation of the mining property being valued. Examples of related revenue cash flows include royalties and proceeds from the sale of mining equipment.
18. "Self consumed minerals" means the minerals produced from the mining property that the mining entity consumes or utilizes for the manufacture or construction of other goods and services.
19. "Straight line depreciation" means depreciation computed using the straight line method applicable in calculating the regular federal tax. For this purpose, the applicable recovery period shall be seven years for depreciable tangible personal mining property and depreciable tangible personal property appurtenant to a mine, and 39 years for depreciable real mining property and depreciable real property appurtenant to a mine.

B. Valuation.
1. The discounted cash flow method is the preferred method of valuing productive mining properties. Under this method the taxable value of the mine shall be determined by:
   a) discounting the future net cash flows for the remaining life of the mine to their present value as of the lien date; and
   b) subtracting from that present value the fair market value, as of the lien date, of licensed vehicles and nontaxable items.
2. The mining company shall provide to the Property Tax Division an estimate of future cash flows for the remaining life of the mine. These future cash flows shall be prepared on a constant or real dollar basis and shall be based on factors including the life-of-mine mining plan for proven and probable reserves, existing plant in place, capital projects underway, capital projects approved by the mining company board of directors, and capital necessary for sustaining operations. All factors included in the future cash flows, or which should be included in the future cash flows, shall be subject to verification and review for reasonableness by the Property Tax Division.
3. If the taxpayer does not furnish the information necessary to determine a value using the discounted cash flow method, the Property Tax Division may use the capitalized net revenue method. This method is outlined as follows:
   a) Determine annual net revenue, both net losses and net gains, from the productive mining property for each of the immediate past five years, or years in operation, if less than five years. Each year's net revenue shall be adjusted to a constant or real dollar basis.
   b) Determine the average annual net revenue by summing the values obtained in B.3.a) and dividing by the number of operative years, five or less.
   c) Divide the average annual net revenue by the discount rate to determine the fair market value of the entire productive mining property.
   d) Subtract from the fair market value of the entire productive mining property the fair market value, as of the lien date, of licensed vehicles and nontaxable items, to determine the taxable value of the productive mining property.
4. The discount rate shall be determined by the Property Tax Division.
   a) The discount rate shall be determined using the weighted average cost of capital method, a survey of reputable mining industry analysts, any other accepted methodology, or any combination thereof.
   b) If using the weighted average cost of capital method, the Property Tax Division shall include an after-tax cost of debt and of equity. The cost of debt will consider market yields. The cost of equity shall be determined by the capital asset pricing model, arbitrage pricing model, risk premium model, discounted cash flow model, a survey of reputable mining industry analysts, any other accepted methodology, or a combination thereof.
5. Where the discount rate is derived through the use of publicly available information of other companies, the Property Tax Division shall select companies that are comparable to the productive mining property. In making this selection and in determining the discount rate, the Property Tax Division shall consider criteria that includes size, profitability, risk, diversification, or growth opportunities.
6. A non-operating mine will be valued at fair market value consistent with other taxable property.
7. If, in the opinion of the Property Tax Division, these methods are not reasonable to determine the fair market value, the Property Tax Division may use other valuation methods to estimate the fair market value of a mining property.
8. The fair market value of a productive mining property may not be less than the fair market value of the land, improvements, and tangible personal property upon or appurtenant to the mining property. The mine value shall include all equipment, improvements and real estate upon or appurtenant to the mine. All other tangible property not appurtenant to the mining property will be separately valued at fair market value.
9. Where the fair market value of assets upon or appurtenant to the mining property is determined under the cost method, the Property Tax Division shall use the replacement cost new less depreciation approach. This approach shall consider the cost to acquire or build an asset with like utility at current prices using modern design and materials, adjusted for loss in value due to physical deterioration or obsolescence for technical, functional and economic factors.
C. When the fair market value of a productive mining property in more than one tax area exceeds the asset value, the fair market value will be divided into two components and apportioned as follows:
1. Asset value that includes machinery and equipment, improvements, and land surface values will be apportioned to the tax areas where the assets are located.
2. The fair market value less the asset value will give an income increment of value. The income increment will be apportioned as follows:
   a) Divide the asset value by the fair market value to determine a quotient. Multiply the quotient by the income increment of value. This value will be apportioned to each tax area based on the percentage of the total asset value in that tax area.
   b) The remainder of the income increment will be apportioned to the tax areas based on the percentage of the known mineral reserves according to the mine plan.
D. The provisions of this rule shall be implemented and become binding on taxpayers beginning January 1, 1998.

(1) Definitions.
   a) "Person" is as defined in Section 68-3-12.
   b) "Working interest owner" means the owner of an interest in oil, gas, or other hydrocarbon substances burdened with a share of the expenses of developing and operating the property.
   c) "Unit operator" means a person who operates all producing wells in a unit.
(d) "Independent operator" means a person operating an oil or gas producing property not in a unit.
(e) One person can, at the same time, be a unit operator, a working interest owner, and an independent operator and must comply with all requirements of this rule based upon the person's status in the respective situations.
(f) "Expected annual production" means the future economic production of an oil and gas property as estimated by the Property Tax Division using decline curve analysis. Expected annual production does not include production used on the same well, lease, or unit for the purpose of repressuring or pressure maintenance.
(g) "Product price" means:
(i) Oil: The weighted average posted price for the calendar year preceding January 1, specific for the field in which the well is operating as designated by the Division of Oil, Gas, and Mining. The weighted average posted price is determined by weighing each individual posted price based on the number of days it was posted during the year, adjusting for gravity, transportation, escalation, or deescalation.
(ii) Gas: (A) If sold under contract, the price shall be the stated price as of January 1, adjusted for escalation and deescalation.
(B) If sold on the spot market or to a direct end-user, the price shall be the average price received for the 12-month period immediately preceding January 1, adjusted for escalation and deescalation.
(h) "Future net revenue" means annual revenues less costs of the working interests and royalty interest.
(i) "Revenue" means expected annual gross revenue, calculated by multiplying the product price by expected annual production for the remaining economic life of the property.
(j) "Costs" means expected annual allowable costs applied against revenue of cost-bearing interests:
(i) Examples of allowable costs include management salaries; labor; payroll taxes and benefits; workers' compensation insurance; general insurance; taxes (excluding income and property taxes); supplies and tools; power; maintenance and repairs; office; accounting; engineering; treatment; legal fees; transportation; miscellaneous; capital expenditures; and the imputed cost of self consumed product.
(ii) Interest, depreciation, or any expense not directly related to the unit may not be included as allowable costs.
(k) "Production asset" means any asset located at the well site that is used to bring oil or gas products to a point of sale or transfer of ownership.
(2) The discount rate shall be determined by the Property Tax Division using methods such as the weighted cost of capital method.
(a) The cost of debt shall consider market yields. The cost of equity shall be determined by the capital asset pricing model, risk premium model, discounted cash flow model, a combination thereof, or any other accepted methodology.
(b) The discount rate shall reflect the current yield requirements of investors purchasing similar properties, taking into consideration income, income taxes, risk, expenses, inflation, and physical and locational characteristics.
(c) The discount rate shall contain the same elements as the expected income stream.
(3) Assessment Procedures.
(a) Underground rights in lands containing deposits of oil or gas and the related tangible property shall be assessed by the Property Tax Division in the name of the unit operator, the independent operator, or other person as the facts may warrant.
(b) The taxable value of underground oil and gas rights shall be determined by discounting future net revenues to their present value as of the lien date of the assessment year and then subtracting the value of applicable exempt federal, state, and Indian royalty interests.

(e) The reasonable taxable value of productive underground oil and gas rights shall be determined by the methods described in Subsection (3)(b) or such other valuation method that the Tax Commission believes to be reasonably determinative of the property's fair market value.
(d) The value of the production assets shall be considered in the value of the oil and gas reserves as determined in Subsection (3)(b). Any other tangible property shall be separately valued at fair market value by the Property Tax Division.
(e) The minimum value of the property shall be the value of the production assets.
(4) Collection by Operator.
(a) The unit operator may request the Property Tax Division to separately list the value of the working interest, and the value of the royalty interest on the Assessment Record. When such a request is made, the unit operator is responsible to provide the Property Tax Division with the necessary information needed to compile this list. The unit operator may make a reasonable estimate of the ad valorem tax liability for a given period and may withhold funds from amounts due to royalty. Withheld funds shall be sufficient to ensure payment of the ad valorem tax on each fractional interest according to the estimate made.
(i) If a unit operating agreement exists between the unit operator and the fractional working interest owners, the unit operator may withhold or collect the tax according to the terms of that agreement.
(ii) In any case, the unit operator and the fractional interest owner may make agreements or arrangements for withholding or otherwise collecting this tax. This may be done whether or not that practice is consistent with the preceding paragraphs so long as all requirements of the law are met. When a fractional interest owner has had funds withheld to cover the estimated ad valorem tax liability and the operator fails to remit such taxes to the county when due, the fractional interest owner shall be indemnified from any further ad valorem tax liability to the extent of the withholding.
(iii) The unit operator shall compare the amount withheld to the taxes actually due, and return any excess amount to the fractional interest owner within 60 days after the delinquent date of the tax. At the request of the fractional interest owner the excess may be retained by the unit operator and applied toward the fractional interest owner's tax liability for the subsequent years.
(b) The penalty provided for in Section 59-2-210 is intended to ensure collection by the county of the entire tax due. Any unit operator who has paid this county imposed penalty, and thereafter collects from the fractional interest holders any part of their tax due, may retain those funds as reimbursement against the penalty paid.
(c) Interest on delinquent taxes shall be assessed as set forth in Section 59-2-1331.
(d) Each unit operator may be required to submit to the Property Tax Division a listing of all fractional interest owners and their interests upon specific request of the Property Tax Division. Working interest owners, upon request, shall be required to submit similar information to unit operators.

(1) The assessor shall take into consideration any preservation easements attached to historically significant real property and structures when determining the property's value.
(2) After the preservation easement has been recorded with the county recorder, the property owner of record shall submit to the county assessor a notice of the preservation easement containing the following information:
(a) the property owner's name;
(b) the address of the property and
(c) the serial number of the property.
(3) The county assessor shall review the property and incorporate any value change due to the preservation easement in the following year's assessment roll.

(1) Definitions:
(a) "Utah fair market value" means the fair market value of that portion of the property of a project entity located within Utah upon which the fee in lieu of ad valorem property tax may be calculated.
(b) "Fee" means the annual fee in lieu of ad valorem property tax payable by a project entity pursuant to Section 11-13-302.
(c) "Energy supplier" means an entity that purchases any capacity, service or other benefit of a project to provide electrical service.
(d) "Exempt energy supplier" means an energy supplier whose tangible property is exempted by Article XIII, Sec. 3 of the Constitution of Utah from the payment of ad valorem property tax.
(e) "Optimum operating capacity" means the capacity at which a project is capable of operating on a sustained basis taking into account its design, actual operating history, maintenance requirements, and similar information from comparable projects, if any. The determination of the projected and actual optimum operating capacities of a project shall recognize that projects are not normally operated on a sustained basis at 100 percent of their designed or actual capacities and that the optimum level for operating a project on a sustained basis may vary from project to project.
(f) "Property" means any electric generating facilities, transmission facilities, distribution facilities, fuel facilities, fuel transportation facilities, water facilities, land, water or other existing facilities or tangible property owned by a project entity and required for the project which, if owned by an entity required to pay ad valorem property taxes, would be subject to assessment for ad valorem tax purposes.
(g) "Sold," for the purpose of interpreting Subsection (4), means the first sale of the capacity, service, or other benefit produced by the project without regard to any subsequent sale, resale, or lay-off of that capacity, service, or other benefit.
(h) "Taxing jurisdiction" means a political subdivision of this state in which any portion of the project is located.
(i) All definitions contained in Section 11-13-103 apply to this rule.

(2) The Tax Commission shall determine the fair market value of the property of each project entity. Fair market value shall be based upon standard appraisal theory and shall be determined by correlating estimates derived from the income and cost approaches to value described below.
(a) The income approach to value requires the imputation of an income stream and a capitalization rate. The income stream may be based on recognized indicators such as average income, weighted income, trended income, present value of future income streams, performance ratios, and discounted cash flows. The imputation of income stream and capitalization rate shall be derived from the data of other similarly situated companies. Similarity shall be based on factors such as location, fuel mix, customer mix, size and bond ratings. Estimates may also be imputed from industry data generally. Income data from similarly situated companies will be adjusted to reflect differences in governmental regulatory and tax policies.
(b) The cost approach to value shall consist of the total of the property's net book value of the project's property. This total shall then be adjusted for obsolescence if any.
(c) In addition to, and not in lieu of, any adjustments for obsolescence made pursuant to Subsection (2)(b), a phase-in adjustment shall be made to the assessed valuation of any new project or expansion of an existing project on which construction commenced by a project entity after January 1, 1989 as follows:
(i) During the period the new project or expansion is valued as construction work in process, its assessed valuation shall be multiplied by the percentage calculated by dividing its projected production as of the projected date of completion of construction by its projected optimum operating capacity as of that date.
(ii) Once the new project or expansion ceases to be valued as construction work in progress, its assessed valuation shall be multiplied by the percentage calculated by dividing its actual production by its actual optimum operating capacity. After the new project or expansion has sustained actual production at its optimum operating capacity during any tax year, this percentage shall be deemed to be 100 percent for the remainder of its useful life.
(3) If portions of the property of the project entity are located in states in addition to Utah and those states do not apply a unit valuation approach to that property, the fair market value of the property allocable to Utah shall be determined by computing the cost approach to value on the basis of the net book value of the property located in Utah and imputing an estimated income stream based solely on the value of the Utah property as computed under the cost approach. The correlated value so determined shall be the Utah fair market value of the property.
(4) Before fixing and apportioning the Utah fair market value of the property to the respective taxing jurisdictions in which the property, or a portion thereof is located, the Utah fair market value of the property shall be reduced by the percentage of the capacity, service, or other benefit sold by the project entity to exempt energy suppliers.
(5) For purposes of calculating the amount of the fee payable under Section 11-13-302(3), the percentage of the property that is used to produce the capacity, service or other benefit sold shall be deemed to be 100 percent, subject to adjustments provided by this rule, from the date the project is determined to be commercially operational.
(6) In computing its tax rate pursuant to the formula specified in Section 59-2-924(2), each taxing jurisdiction in which the project property is located shall add to the amount of its budgeted property tax revenues the amount of any credit due to the project entity that year under Section 11-13-302(3), and shall divide the result by the sum of the taxable value of all property taxed, including the value of the project property apportioned to the jurisdiction, and further adjusted pursuant to the requirements of Section 59-2-924.
(7) Subsections (2)(a) and (2)(b) are retroactive to the lien date of January 1, 1984. Subsection (2)(c) is effective as of the lien date of January 1, 1989. The remainder of this rule is retroactive to the lien date of January 1, 1988.

(1) "State certified general appraiser," "state certified residential appraiser," "state licensed appraiser," and trainee are as defined in Section 61-2b-2.
(2) The ad valorem training and designation program consists of several courses and practices.
(a) Certain courses must be sanctioned by either the Appraiser Qualification Board of the Appraisal Foundation (AQB) or the Western States Association of Tax Administrators (WSATA).
(b) The courses comprising the basic designation program are:
(i) Course 101 - Basic Appraisal Principles;

(4) There are four recognized ad valorem designations: ad valorem residential appraiser, ad valorem general real property appraiser, ad valorem personal property auditor/appraiser, and ad valorem centrally assessed valuation analyst.

(a) These designations are granted only to individuals employed in a county assessor office or the Property Tax Division, working as appraisers, review appraisers, valuation auditors, or analysts/administrators providing oversight and direction to appraisers and auditors.

(b) Upon designation, the analyst may value centrally assessed property for ad valorem taxation purposes.

(9) If a candidate fails to receive a passing grade on a final examination, two re-examinations are allowed. If the re-examinations are not successful, the individual must retake the failed course. The cost to retake the failed course will not be borne by the Tax Commission.

(10) A practicum involves the appraisal or audit of selected properties. The candidate's supervisor must formally request that the Property Tax Division administer a practicum.

(a) Emphasis is placed on those types of properties the candidate will most likely encounter on the job.
(b) The practicum will be administered by a designated appraiser assigned from the Property Tax Division.

(11) An appraiser trainee referred to in Section 59-2-701 shall be designated an ad valorem associate if the appraiser trainee:

(a) has completed all education and practicum requirements for designation under Subsections (5), (6), (8), and
(b) has not completed the non-education requirements for licensure or certification under Title 61, Chapter 2b, Real Estate Appraiser Licensing and Certification.

(12) An individual holding a specified designation can qualify for other designations by meeting the additional requirements under Subsections (5), (6), (7), or (8).

(13)(a) Maintaining designated status for individuals designated under Subsection (7) requires completion of 14 hours of Tax Commission approved classroom work every two years.
(b) Maintaining designated status for individuals designated under Subsections (5), (6), and (8) requires maintaining their appraisal license or certification under Title 61, Chapter 2b, Real Estate Appraiser Licensing and Certification.

(14) Upon termination of employment from any Utah assessment jurisdiction, or if the individual no longer works primarily as an appraiser, review appraiser, valuation auditor, or analyst/administrator in appraisal matters, designation is automatically revoked.

(a) Ad valorem designation status may be reinstated if the individual secures employment in any Utah assessment jurisdiction within four years from the prior termination.
(b) If more than four years elapse between termination and rehire, and:
(i) the individual has been employed in a closely allied field, then the individual may challenge the course examinations. Upon successfully challenging all required course examinations, the prior designation status will be reinstated; or
(ii) if the individual has not been employed in real estate valuation or a closely allied field, the individual must retake all required courses and pass the final examinations with a score of 70 percent or more.

(15) All appraisal work performed by Tax Commission designated appraisers shall meet the standards set forth in section 61-2b-27.

(16) If appropriate Tax Commission designations are not held by assessor's office personnel, the appraisal work must be contracted out to qualified private appraisers. An assessor’s office may elect to contract out appraisal work to qualified private appraisers even if personnel with the appropriate designation are available in the office. If appraisal work is contracted out, the following requirements must be met:

(a) The private sector appraisers performing the contracted work must hold the state certified residential appraiser or state certified general appraiser license issued by the Division of Real Estate of the Utah Department of Commerce. Only state certified general appraisers may appraise nonresidential properties.
(b) All appraisal work shall meet the standards set forth in Section 61-2b-27.

(17) The completion and delivery of the assessment roll required under Section 59-2-311 is an administrative function of the elected assessor.

(a) There are no specific licensure, certification, or
educational requirements related to this function.

An elected assessor may complete and deliver the assessment roll as long as the valuations and appraisals included in the assessment roll were completed by persons having the required designations.

A. For purposes of this rule:
1. Construction work in progress means improvements as defined in Section 59-2-102, and personal property as defined in Section 59-2-102, not functionally complete as defined in A.6.
2. Project means any undertaking involving construction, expansion or modernization.
3. "Construction" means:
   a) creation of a new facility;
   b) acquisition of personal property; or
   c) any alteration to the real property of an existing facility other than normal repairs or maintenance.
4. Expansion means an increase in production or capacity as a result of the project.
5. Modernization means a change or contrast in character or quality resulting from the introduction of improved techniques, methods or products.
6. Functionally complete means capable of providing economic benefit to the owner through fulfillment of the purpose for which it was constructed. In the case of a cost-regulated utility, a project shall be deemed to be functionally complete when the operating property associated with the project has been capitalized on the books and is part of the rate base of that utility.
7. Allocable preconstruction costs means expenditures associated with the planning and preparation for the construction of a project. To be classified as an allocable preconstruction cost, an expenditure must be capitalized.
8. Cost regulated utility means a power company, oil and gas pipeline company, gas distribution company or telecommunication company whose earnings are determined by a rate of return applied to rate base. Rate of return and rate base is determined by the county assessor for locally assessed properties and by the Tax Commission for centrally-assessed properties.
10. Unit method of appraisal means valuation of the various physical components of an integrated enterprise as a single going concern. The unit method may employ one or more of the following approaches to value: the income approach, the cost approach, and the stock and debt approach.
B. All construction work in progress shall be valued at "full cash value" as described in this rule.
C. Discount Rates
For purposes of this rule, discount rates used in valuing all projects shall be determined by the Tax Commission, and shall be consistent with market, financial and economic conditions.
D. Appraisal of Allocable Preconstruction Costs.
1. If requested by the taxpayer, preconstruction costs associated with properties, other than residential properties, may be allocated to the value of the project in relation to the relative amount of total expenditures made on the project by the lien date. Allocation will be allowed only if the following conditions are satisfied by January 30 of the tax year for which the request is sought:
   a) a detailed list of preconstruction cost data is supplied to the responsible agency;
   b) the percent of completion of the project and the preconstruction cost data are certified by the taxpayer as to their accuracy.
2. The preconstruction costs allocated pursuant to D.1. of this rule shall be discounted using the appropriate rate determined in C. The discounted allocated value shall either be added to the values of properties other than residential properties determined under E.1. or shall be added to the values determined under the various approaches used in the unit method of valuation determined under F.
3. The preconstruction costs allocated under D. are subject to audit for four years. If adjustments are necessary after examination of the records, those adjustments will be classified as property escaping assessment.
E. Appraisal of Properties Not Valued under the Unit Method.
1. The full cash value, projected upon completion, of all properties valued under this section, with the exception of residential properties, shall be reduced by the value of the allocable preconstruction costs determined D. This reduced full cash value shall be referred to as the "adjusted full cash value."
2. On or before January 1 of each tax year, each county assessor and the Tax Commission shall determine, for projects not valued by the unit method and which fall under their respective areas of appraisal responsibility, the following:
   a) The full cash value of the project expected upon completion.
   b) The expected date of functional completion of the project currently under construction.
   (1) The expected date of functional completion shall be determined by the county assessor for locally assessed properties and by the Tax Commission for centrally-assessed properties.
   c) The percent of the project completed as of the lien date.
   (1) Determination of percent of completion for residential properties shall be based on the following percentage of completion:
      (a) 10 - Excavation-foundation
      (b) 30 - Rough lumber, rough labor
      (c) 50 - Roofing, rough plumbing, rough electrical, heating
      (d) 65 - Insulation, drywall, exterior finish
      (e) 75 - Finish lumber, finish labor, painting
      (f) 90 - Cabinets, cabinet tops, tile, finish plumbing, finish electrical
      (g) 100 - Floor covering, appliances, exterior concrete, misc.
   (2) In the case of all other projects under construction and valued under this section the percent of completion shall be determined by the county assessor for locally assessed properties and by the Tax Commission for centrally-assessed properties.
   3. Upon determination of the adjusted full cash value for nonresidential projects under construction or the full cash value expected upon completion of residential projects under construction, the expected date of completion, and the percent of the project completed, the assessor shall do the following:
      a) multiply the percent of the residential project completed by the total full cash value of the residential project expected upon completion; or in the case of nonresidential projects,
      b) multiply the percent of the nonresidential project completed by the adjusted full cash value of the nonresidential project;
      c) adjust the resulting product of E.3.a) or E.3.b) for the expected time of completion using the discount rate determined under C.
F. Appraisal of Properties Valued Under the Unit Method of Appraisal.
1. No adjustments under this rule shall be made to the income indicator of value for a project under construction that is owned by a cost-regulated utility when the project is allowed in rate base.
2. The full cash value of a project under construction as of
January 1 of the tax year, shall be determined by adjusting the cost and income approaches as follows:
(a) Adjustments to reflect the time value of money in appraising construction work in progress valued under the cost and income approaches shall be made for each approach as follows:
   (1) Each company shall report the expected completion dates and costs of the projects. A project expected to be completed during the tax year for which the valuation is being determined shall be considered completed on January 1 or July 1, whichever is closest to the expected completion date. The Tax Commission shall determine the expected completion date for any project whose completion is scheduled during a tax year subsequent to the tax year for which the valuation is being made.
   (2) If requested by the company, the value of allocable preconstruction costs determined in D. shall then be subtracted from the total cost of each project. The resulting sum shall be referred to as the adjusted cost value of the project.
(b) The status of the improvements on the property has changed.
(c) New growth is equal to zero for an entity with:
   (i) an actual new growth value greater than or equal to zero.
   (ii) plus or minus changes in value as a result of factoring; then
   (iii) plus or minus changes in value as a result of reappraisal; then
   (iv) plus or minus any change in value resulting from a legislative mandate or court order.
(d) If the county auditor determines that conditions other than those outlined in this section merit deletion, the auditor may enter the term "nonapplicable" in appropriate sections of the Notice of Property Valuation and Tax Changes only after receiving approval from the Property Tax Division in the manner described in Subsection (1).
(3) Real estate assessed under the Farmland Assessment Act of 1969 must be reported at full market value, with the value based upon Farmland Assessment Act rates shown parenthetically.
4(a) All completion dates specified for the disclosure of property tax information must be strictly observed.
(b) Requests for deviation from the statutory completion dates must be submitted in writing on or before June 1, and receive the approval of the Property Tax Division in the manner described in Subsection (1).
(5) If the cost of public notice required under Section 59-2-919 is greater than one percent of the property tax revenues to be received, an entity may combine its advertisement with other entities, or use direct mail notification.
(6) Calculation of the amount and percentage increase in property tax revenues required by Section 59-2-919 shall be computed by comparing property taxes levied for the current year with property taxes budgeted the prior year, without adjusting for revenues attributable to new growth.
(7) If a taxing district has not completed the tax rate setting process as prescribed in Sections 59-2-919 and 59-2-920 by August 17, the county auditor must seek approval from the Tax Commission to use the certified rate in calculating taxes levied.
(8) The value of property subject to the uniform fee under Sections 59-2-405 through 59-2-405.3 is excluded from taxable value for purposes of calculating new growth, the certified tax rate, and the proposed tax rate.
(9) The value and taxes of property subject to the uniform fee under Sections 59-2-405 through 59-2-405.3 are excluded when calculating the percentage of property taxes collected as provided in Section 59-2-924.
(10) The following formulas and definitions shall be used in determining new growth:
   (a) Actual new growth shall be computed as follows:
      (i) the taxable value of property assessed by the commission and locally assessed real property for the current year adjusted for redevelopment minus year-end taxable value of property assessed by the commission and locally assessed real property for the previous year adjusted for redevelopment; then
      (ii) plus or minus the difference between the taxable value of locally assessed personal property for the prior year adjusted for redevelopment and the year-end taxable value of locally assessed personal property for the year that is two years prior to the current year adjusted for redevelopment; then
      (iii) plus or minus changes in value as a result of factoring; then
      (iv) plus or minus changes in value as a result of reappraisal; then
      (v) plus or minus any change in value resulting from a legislative mandate or court order.
   (b) Net annexation value is the taxable value for the current year adjusted for redevelopment of all properties annexed into an entity during the previous calendar year minus the taxable value for the previous year adjusted for redevelopment for all properties annexed out of the entity during the previous calendar year.
   (c) New growth is equal to zero for an entity with:
      (i) an actual new growth value less than zero; and
      (ii) a net annexation value greater than or equal to zero.
   (d) New growth is equal to actual new growth for:
      (i) an entity with an actual new growth value greater than or equal to zero; or
      (ii) an entity with:
         (A) an actual new growth value less than zero; and
         (B) the actual new growth value is greater than or equal to the net annexation value.
   (e) New growth is equal to the net annexation value for an entity with:
      (i) a net annexation value less than zero; and
      (ii) the actual new growth value is less than the net
within the following limits.

and geographical area in each county, the measure of central
tendency shall meet one of the following measures.

(A) the percentage of property taxes collected for the five
calendar years immediately preceding the current calendar year; and

(B) the prior year approved tax rate.

(b) If a taxing entity levied the prior year approved tax
rate, the budgeted revenues determined under Subsection (11)(a)
are reflected in the budgeted revenue column of the prior year
Report 693.

(12) Entities required to set levies for more than one fund
must compute an aggregate certified rate. The aggregate
certified rate is the sum of the certified rates for individual funds for
which separate levies are required by law. The aggregate
certified rate computation applies where:

(a) the valuation bases for the funds are contained within
identical geographic boundaries; and

(b) the funds are under the levy and budget setting
authority of the same governmental entity.

(13) For purposes of determining the certified tax rate of
a municipality incorporated on or after July 1, 1996, the levy
imposed for municipal-type services or general county purposes
shall be the certified tax rate for municipal-type services or
general county purposes, as applicable.

(14) No new entity, including a new city, may have a
certified tax rate or levy a tax for any particular year unless that
entity existed on the first day of that calendar year.

R884-24P-27. Standards for Assessment Level and
Uniformity of Performance Pursuant to Utah Code Ann.
Sections 59-2-704 and 59-2-704.5.

(1) Definitions.

(a) "Coefficient of dispersion (COD)" means the average
deviation of a group of assessment ratios taken around the
median and expressed as a percent of that measure.

(b) "Coefficient of variation (COV)" means the standard
deviation expressed as a percentage of the mean.

(c) "Division" means the Property Tax Division of the
commission.

(d) "Nonparametric" means data samples that are not
normally distributed.

(e) "Parametric" means data samples that are normally
distributed.

(f) "Urban counties" means counties classified as first or
second class counties pursuant to Section 17-50-501.

(2) The commission adopts the following standards of
assessment performance.

(a) For assessment level in each property class, subclass,
and geographical area in each county, the measure of central
tendency shall meet one of the following measures.

(i) The measure of central tendency shall be within 10
percent of the legal level of assessment.

(ii) The 95 percent confidence interval of the measure of
central tendency shall contain the legal level of assessment.

(b) For uniformity of the property assessments in each
class of property for which a detailed review is conducted
during the current year, the measure of dispersion shall be
within the following limits.

(i) In urban counties:

(A) a COD of 15 percent or less for primary residential
property, and 20 percent or less for commercial property, vacant
land, and secondary residential property; and

(B) a COV of 19 percent or less for primary residential
property, and 25 percent or less for commercial property, vacant
land, and secondary residential property.

(ii) In rural counties:

(A) a COD of 20 percent or less for primary residential
property, and 25 percent or less for commercial property, vacant
land, and secondary residential property; and

(B) a COV of 25 percent or less for primary residential
property, and 31 percent or less for commercial property, vacant
land, and secondary residential property.

(iii) For a rural or small jurisdiction with limited
development, or for a jurisdiction with a depressed market, the
county assessor may petition the division for a five percentage
point increase in the COD or COV for one year only. After
sufficient examination, the division may determine that a one-
year expansion of the COD or COV is appropriate.

(c) Statistical measures.

(i) The measure of central tendency shall be the mean for
parametric samples and the median for nonparametric samples.

(ii) The measure of dispersion shall be the COV for
parametric samples and the COD for nonparametric samples.

(iii) To achieve statistical accuracy in determining
assessment level under Subsection (2)(a) and uniformity under
Subsection (2)(b) for any property class, subclass, or
geographical area, the minimum sample size shall consist of 10
or more ratios.

(3) Each year the division shall conduct and publish an
assessment-to-sale ratio study to determine if each county
complies with the standards in Subsection (2).

(a) To meet the minimum sample size, the study period
may be extended.

(b) A smaller sample size may be used if:

(i) that sample size is at least 10 percent of the class or
subclass population; or

(ii) both the division and the county agree that the sample
may produce statistics that imply corrective action appropriate
to the class or subclass of property.

(c) If the division, after consultation with the counties,
determines that the sample size does not produce reliable
statistical data, an alternate performance evaluation may be
conducted, which may result in corrective action. The alternate
performance evaluation shall include review and analysis of the following:

(i) the county's procedures for collection and use of market
data, including sales, income, rental, expense, vacancy rates,
and capitalization rates;

(ii) the county-wide land, residential, and commercial
valuation guidelines and their associated procedures for
maintaining current market values;

(iii) the accuracy and uniformity of the county's individual
property data through a field audit of randomly selected
properties; and

(iv) the county's level of personnel training, ratio of
appraisers to parcels, level of funding, and other workload and
resource considerations.

(d) All input to the sample used to measure performance
shall be completed by March 31 of each study year.

(e) The division shall conduct a preliminary annual
assessment-to-sale ratio study by April 30 of the study year,
allowing counties to apply adjustments to their tax roll prior to
the May 22 deadline.

(f) The division shall complete the final study immediately
following the closing of the tax roll on May 22.

(4) The division shall order corrective action if the results
of the final study do not meet the standards set forth in
Subsection (2).

(1) Assessment level adjustments, or factor orders, shall be calculated by dividing the legal level of assessment by one of the following:
   (i) the measure of central tendency, if the uniformity of the ratios meets the standards outlined in Subsection (2)(b); or
   (ii) the 95 percent confidence interval limit nearest the legal level of assessment, if the uniformity of the ratios does not meet the standards outlined in Subsection (2)(b).
(b) Uniformity adjustments or other corrective action shall be ordered if the property fails to meet the standards outlined in Subsection (2)(b). A corrective action order may contain language requiring a county to create, modify, or follow its five-year plan for a detailed review of property characteristics.
(d) All corrective action orders shall be issued by June 10 of the study year, or within five working days after the completion of the final study, whichever is later.
   (5) The commission adopts the following procedures to insure compliance and facilitate implementation of ordered corrective action:
   (a) Prior to the filing of an appeal, the division shall retain authority to correct errors and, with agreement of the affected county, issue amended orders or stipulate with the affected county to any appropriate alternative action without commission approval. Any stipulation by the division subsequent to an appeal is subject to commission approval.
   (b) A county receiving a corrective action order resulting from this rule may file and appeal with the commission pursuant to rule R861-1A-11.
   (c) A corrective action order will become the final commission order if the county does not appeal in a timely manner, or does not prevail in the appeals process.
   (d) The division may assist local jurisdictions to ensure implementation of any corrective action orders by the following deadlines:
      (i) Factor orders shall be implemented in the current study year prior to the mailing of valuation notices.
      (ii) Other corrective action shall be implemented prior to May 22 of the year following the study year.
   (e) The division shall complete audits to determine compliance with corrective action orders as soon after the deadlines set forth in Subsection (5) as practical. The division shall review the results of the compliance audit with the county and make any necessary adjustments to the compliance audit within 15 days of initiating the audit. These adjustments shall be limited to the analysis performed during the compliance audit and may not include review of the data used to arrive at the underlying factor order. After any adjustments, the compliance audit will then be given to the commission for any necessary action.
   (f) The county shall be informed of any adjustment required as a result of the compliance audit.
   (1) The procedure set forth herein is required in reporting heavy equipment leased or rented during the tax year.
   (2) The owner of leased or rented heavy equipment shall file annual reports with the commission, either on forms provided by the commission or electronically, for the periods January 1 through June 30, and July 1 through December 31 of each year. The reports shall contain the following information:
      (a) a description of the leased or rented equipment;
      (b) the year of manufacture and acquisition cost;
      (c) a listing, by month, of the counties where the equipment has situs; and
      (d) any other information required.
   (3) For purposes of this rule, situs is established when leased or rented equipment is kept in an area for thirty days. Once situs is established, any portion of thirty days during which that equipment stays in that area shall be counted as a full month of situs. In no case may situs exceed twelve months for any year.
   (4)(a) The completed report shall be submitted to the Property Tax Division of the commission within thirty days after each reporting period.
      (b) Noncompliance will require accelerated reporting.
   (1) Except as provided in Section 59-2-1115, household furnishings, furniture, and equipment are subject to property taxation if:
      (a) the owner of the dwelling unit commonly receives legal consideration for its use, whether in the form of rent, exchange, or lease payments; or
      (b) the dwelling unit is held out as available for the rent, lease, or use by others.
   (2) Household furnishings, furniture, and equipment that meet the definition of qualifying exempt primary residential personal property in Section 59-2-102:
      (a) qualify for the primary residential exemption under Section 59-2-103; and
      (b) are valued for tax under this chapter by:
         (i) calculating the value of the personal property using the tables in Tax Commission rule R884-24P-33; and
         (ii) multiplying the value calculated under Subsection (2)(b)(i) by 0.55.
   A. The value of leasehold improvements shall be included in the value of the underlying real property and assessed to the owner of the underlying real property. B. The combined valuation of leasehold improvements and underlying real property required in A. shall satisfy the requirements of Section 59-2-103(1).
   C. The provisions of this rule shall not apply if the underlying real property is owned by an entity exempt from tax under Section 59-2-1101.
D. The provisions of this rule shall be implemented and become binding on taxpayers beginning January 1, 2000.
   (1) Definitions.
      (a)(i) "Acquisition cost" does not include indirect costs such as debugging, licensing fees and permits, insurance, or security.
      (ii) Acquisition cost may correspond to the cost new for new property, or cost used for used property.
      (b)(i) "Actual cost" includes the value of components necessary to complete the vehicle, such as tanks, mixers, special containers, passenger compartments, special axles, installation, engineering, erection, or assembly costs.
      (ii) Actual cost does not include sales or excise taxes, maintenance contracts, registration and license fees, dealer charges, tire tax, freight, or shipping costs.
      (c) "Cost new" means the actual cost of the property when purchased new.
   (i) Except as otherwise provided in this rule, the Tax Commission and assessors shall rely on the following sources to determine cost new:
      (A) documented actual cost of the new or used vehicle; or
      (B) recognized publications that provide a method for approximating cost new for new or used vehicles.
   (ii) For the following property purchased used, the taxing
authority may determine cost new by dividing the property's actual cost by the percent good factor for that class:
(A) class 6 heavy and medium duty trucks;
(B) class 13 heavy equipment;
(C) class 14 motor homes;
(D) class 17 vessels equal to or greater than 31 feet in length; and
(E) class 21 commercial trailers.
(d) For purposes of Sections 59-2-108 and 59-2-1115, "item of taxable tangible personal property" means a piece of equipment, machinery, furniture, or other piece of tangible personal property that is functioning at its highest and best use for the purpose it was designed and constructed and is generally capable of performing that function without being combined with other items of personal property. An item of taxable tangible personal property is not an individual component part of a piece of machinery or equipment, but the piece of machinery or equipment. For example, a fully functioning computer is an item of taxable tangible personal property, but the motherboard, hard drive, tower, or sound card are not.
(f) "Percent good" means an estimate of value, expressed as a percentage, based on a property's acquisition cost or cost new, adjusted for depreciation and appreciation of all kinds.
(i) The percent good factor is applied against the acquisition cost or the cost new to derive taxable value for the property.
(ii) Percent good schedules are derived from an analysis of the Internal Revenue Service Class Life, the Marshall and Swift Cost index, other data sources or research, and vehicle valuation guides such as Penton Price Digests.
(2) Each year the Property Tax Division shall update and publish percent good schedules for use in computing personal property valuation.
(a) Proposed schedules shall be transmitted to county assessors and interested parties for comment before adoption.
(b) A public comment period will be scheduled each year and a public hearing will be scheduled if requested by ten or more interested parties or at the discretion of the Commission.
(c) County assessors may deviate from the schedules when warranted by specific conditions affecting an item of personal property. When a deviation will affect an entire class or type of personal property, a written report, substantiating the changes with verifiable data, must be presented to the Commission. Alternative schedules may not be used without prior written approval of the Commission.
(d) A party may request a deviation from the value established by the schedule for a specific item of property if the use of the schedule does not result in the fair market value for the property at the retail level of trade on the lien date, including any relevant installation and assemblage value.
(3) The provisions of this rule do not apply to:
(a) a vehicle subject to the age-based uniform fee under Section 59-2-405.1;
(b) the following personal property subject to the age-based uniform fee under Section 59-2-405.2:
(i) an all-terrain vehicle;
(ii) an enclosed recreational vehicle;
(iii) a camper;
(iv) an other trailer;
(v) a personal watercraft;
(vi) a small motor vehicle;
(vii) a snowmobile;
(viii) a street motorcycle;
(ix) a tent trailer;
(x) a travel trailer; and
(xi) a vessel, including an outboard motor of the vessel, that is less than 31 feet in length and
(c) an aircraft subject to the uniform statewide fee under Section 59-2-404.
(4) Other taxable personal property that is not included in the listed classes includes:
(a) Supplies on hand as of January 1 at 12:00 noon, including office supplies, shipping supplies, maintenance supplies, replacement parts, lubricating oils, fuel and consumable items not held for sale in the ordinary course of business. Supplies are assessed at total cost, including freight-in.
(b) Equipment leased or rented from inventory is subject to ad valorem tax. Refer to the appropriate property class schedule to determine taxable value.
(c) Property held for rent or lease is taxable, and is not exempt as inventory. For entities primarily engaged in rent-to-own, inventory on hand at January 1 is exempt and property out on rent-to-own contracts is taxable.
(5) Personal property valuation schedules may not be appealed to, or amended by, county boards of equalization.
(6) All taxable personal property, other than personal property subject to an age-based uniform fee under Section 59-2-405.1 or 59-2-405.2, or a uniform statewide fee under Section 59-2-404, is classified by expected economic life as follows:
(a) Class 1 - Short Life Property. Property in this class has a typical life of more than one year and less than four years. It is fungible in that it is difficult to determine the age of an item retired from service.
(i) Examples of property in the class include:
(A) barricades/warning signs;
(B) library materials;
(C) patterns, jigs and dies;
(D) pots, pans, and utensils;
(E) canned computer software;
(F) hotel linen;
(G) wood and pallets;
(H) video tapes, compact discs, and DVDs; and
(I) uniforms.
(ii) With the exception of video tapes, compact discs, and DVDs, taxable value is calculated by applying the percent good factor against the acquisition cost of the property.
(iii) A licensee of canned computer software shall use one of the following substitutes for acquisition cost of canned computer software if no acquisition cost for the canned computer software is stated:
(A) retail price of the canned computer software;
(B) if a retail price is unavailable, and the license is a nonrenewable single year license agreement, the total sum of expected payments during that 12-month period; or
(C) if the licensing agreement is a renewable agreement or is a multiple year agreement, the present value of all expected licensing fees paid pursuant to the agreement.
(iv) Video tapes, compact discs, and DVDs are valued at $15.00 per tape or disc for the first year and $3.00 per tape or disc thereafter.

(b) Class 2 - Computer Integrated Machinery.
(i) Machinery shall be classified as computer integrated machinery if all of the following conditions are met:
(A) The equipment is sold as a single unit. If the invoice breaks out the computer separately from the machine, the computer must be valued as Class 12 property and the machine as Class 8 property.
(B) The machine cannot operate without the computer and the computer cannot perform functions outside the machine.
(C) The machine can perform multiple functions and is controlled by a programmable central processing unit.

(D) The total cost of the machine and computer combined is depreciated as a unit for income tax purposes.

(E) The capabilities of the machine cannot be expanded by substituting a more complex computer for the original.

(ii) Examples of property in this class include:

(A) CNC mills;
(B) CNC lathes;
(C) high-tech medical and dental equipment such as MRI equipment, CAT scanners, and mammography units.

(iii) Taxable value is calculated by applying the percent good factor against the acquisition cost of the property.

(O) pollution control equipment.

(ii) Except as provided in Subsection (6)(g)(iii), taxable value is calculated by applying the percent good factor against the acquisition cost of the property.

(iii)(A) Notwithstanding Subsection (6)(g)(ii), the taxable value of the following oil refinery pollution control equipment required by the federal Clean Air Act shall be calculated pursuant to Subsection (6)(g)(iii)(B):
(I) VGO (Vacuum Gas Oil) reactor;
(II) HDS (Diesel Hydrotreater) reactor;
(III) VGO compressor;
(IV) VGO furnace;
(V) VGO and HDS high pressure exchangers;

(VII) VGO, amine, SWS, and HDS separators and drums;
(VIII) VGO and tank pumps;
(IX) TGU modules; and
(X) VGO tank and air coolers.

(B) The taxable value of the oil refinery pollution control equipment described in Subsection (6)(g)(iii)(B) shall be calculated by:
(I) applying the percent good factor in Table 8 against the acquisition cost of the property; and
(II) multiplying the product described in Subsection (6)(g)(iii)(B)(I) by 50%.

(h) Class 9 - Off-Highway Vehicles.

(i) Because Section 59-2-405.2 subjects off-highway vehicles to an age-based uniform fee, a percent good schedule is not necessary.

(i) Class 10 - Railroad Cars. The Class 10 schedule was developed to value the property of railroad car companies.
m) Class 14 - Motor Homes.
   (i) Taxable value is calculated by applying the percent good against the cost new.

(i) Class 21a - Other Trailers (Non-Commercial).

(ii) Because Section 59-2-405.2 subjects this class of trailers to an age-based uniform fee, a percent good schedule is not necessary.

(v) Class 22 - Passenger Cars, Light Trucks/Utility Vehicles, and Vans.

(i) Class 22 vehicles fall within four subcategories: domestic passenger cars, foreign passenger cars, light trucks, including utility vehicles, and vans.

(ii) Because Section 59-2-405.1 subjects Class 22 property to an age-based uniform fee, a percent good schedule is not necessary.

(w) Class 22a - Small Motor Vehicles.

(i) Because Section 59-2-405.2 subjects small motor vehicles to an age-based uniform fee, a percent good schedule is not necessary.

(x) Class 23 - Aircraft Required to be Registered With the State.

(i) Because Section 59-2-404 subjects aircraft required to be registered with the state to a statewide uniform fee, a percent good schedule is not necessary.

(y) Class 24 - Leasehold Improvements on Exempt Real Property.

(i) The Class 24 schedule is to be used only for those leasehold improvements where the underlying real property is owned by an entity exempt from property tax under Section 59-2-1101. See Tax Commission rule R884-24P-32. Leasehold improvements include:

(A) walls and partitions;
(B) plumbing and rough-in fixtures;
(C) floor coverings other than carpet;
(D) store fronts;
(E) decoration;
(F) wiring;
(G) suspended or acoustical ceilings;
(H) heating and cooling systems; and
(I) iron or millwork trim.

(ii) Taxable value is calculated by applying the percent good factor against the cost of acquisition, including installation.

(iii) The Class 3 schedule is used to value short life leasehold improvements.
(2) Class 25 - Aircraft Parts Manufacturing Tools and Dies. Property in this class is generally subject to rapid physical, functional, and economic obsolescence due to rapid technological and economic shifts in the airline parts manufacturing industry. Heavy wear and tear is also a factor in valuing this class of property.

(i) Examples of property in this class include:
(A) aircraft parts manufacturing jigs and dies;
(B) aircraft parts manufacturing molds;
(C) aircraft parts manufacturing patterns;
(D) aircraft parts manufacturing taps and gauges; and
(E) aircraft parts manufacturing test equipment.

(ii) Taxable value is calculated by applying the percent good factor against the acquisition cost of the property.

(aa) Class 26 - Personal Watercraft.

(i) Because Section 59-2-405.2 subjects personal watercraft to an age-based uniform fee, a percent good schedule is not necessary.

(i) Examples of property in this class include:
(A) electrical power generators; and

(cc) Class 28 - Noncapitalized Personal Property. Property shall be classified as noncapitalized personal property if the following conditions are met:

(i) the property is an item of taxable tangible personal property with an acquisition cost of $1,000 or less; and

(ii) the property is eligible as a deductible expense under Section 162 or Section 179, Internal Revenue Code, in the year of acquisition, regardless of whether the deduction is actually claimed.

The provisions of this rule shall be implemented and become binding on taxpayers beginning January 1, 2016.
A. In addition to the information required by Section 59-2-1317, the tax notice for real property shall specify the following:
1. the property identification number;
2. the appraised value of the property and, if applicable, any adjustment for residential exemptions expressed in terms of taxable value;
3. if applicable, tax relief for taxpayers eligible for blind, veteran, or poor abatement or the circuit breaker, which shall be shown as credits to totals levied; and
4. itemized tax rate information for each taxing entity and total tax rate.

A. The county assessor shall maintain an appraisal record of all real property subject to assessment by the county. The record shall include the following information:
1. owner of the property;
2. property identification number;
3. description and location of the property; and
4. full market value of the property.
B. Real property appraisal records shall show separately the value of the land and the value of any improvements.

1.(a) "Railroad right of way" (RR-ROW) means a strip of land upon which a railroad company constructs the road bed.
(b) RR-ROW within incorporated towns and cities shall consist of 50 feet on each side of the main line main track, branch line main track or main spur track. Variations to the 50-foot standard shall be approved on an individual basis.
(c) RR-ROW outside incorporated towns and cities shall consist of the actual right-of-way owned if not in excess of 100 feet on each side of the center line of the main line main track, branch line main track, or main spur track. In cases where unusual conditions exist, such as mountain cuts, fills, etc., and more than 100 feet on either side of the main track is required for ROW and where small parcels of land are otherwise required for ROW purposes, the necessary additional area shall be reported as RR-ROW.
2. Assessment of nonoperating railroad properties. Railroad property formerly assessed by the unitary method that has been determined to be nonoperating, and that is not necessary to the conduct of the business, shall be assessed separately by the local county assessor.
3. Assessment procedures.
(a) Properties charged to nonoperating accounts are reviewed by the Property Tax Division, and if taxable, are assessed and placed on the local county assessment rolls separately from the operating properties.
(b) RR-ROW is considered operating and necessary to the conduct and contributing to the income of the business. Any revenue derived from leasing of property within the RR-ROW is considered railroad operating revenues.
(c) Real property outside of the RR-ROW that is necessary to the conduct of the railroad operations is considered part of the unitary value. Some examples are:
(i) company homes occupied by superintendents and other employees on 24-hour call;
(ii) storage facilities for railroad operations;
(iii) communication facilities; and
(iv) spur tracks outside of RR-ROW.
(d) Abandoned RR-ROW is considered nonoperating and shall be reported as such by the railroad companies.
(e) Real property outside of the RR-ROW that is not necessary to the conduct of the railroad operations is classified as nonoperating and therefore assessed by the local county assessor. Some examples are:
(i) land leased to service station operations;
(ii) grocery stores;
(iii) apartments;
(iv) residences; and
(v) agricultural uses.
(f) RR-ROW obtained by government grant or act of Congress is deemed operating property.
3. Notice of Determination. It is the responsibility of the Property Tax Division to provide a notice of determination to the owner of the railroad property and the assessor of the county where the railroad property is located immediately after such determination of operating or nonoperating status has been made. If there is no appeal to the notice of determination, the Property Tax Division shall notify the assessor of the county where the property is located so that the property may be placed on the roll for local assessment.
4. Appeals. Any interested party who wishes to contest the determination of operating or nonoperating property may do so by filing a request for agency action within ten days of the notice of determination of operating or nonoperating properties. Request for agency action may be made pursuant to Title 63G, Chapter 4.

R884-24P-40. Exemption of Parsonages, Rectories, Monasteries, Homes and Residences Pursuant to Utah Code Annotated 59-2-1101(d) and Article XIII, Section 2 of the Utah Constitution.
A. Parsonages, rectories, monasteries, homes and residences if used exclusively for religious purposes, are exempt from property taxes if they meet all of the following requirements:
1. The land and building are owned by a religious organization which has qualified with the Internal Revenue Service as a Section 501(c)(3) organization and which organization continues to meet the requirements of that section.
2. The building is occupied only by persons whose full time efforts are devoted to the religious organization and the immediate families of such persons.
3. The religious organization, and not the individuals who occupy the premises, pay all payments, utilities, insurance, repairs, and all other costs and expenses related to the care and maintenance of the premises and facilities.
B. The exemption for one person and the family of such person is limited to the real estate that is reasonable for the residence of the family and which remains actively devoted exclusively to the religious purposes. The exemption for more than one person, such as a monastery, is limited to that amount of real estate actually devoted exclusively to religious purposes.
C. Vacant land which is not actively used by the religious organization, is not deemed to be devoted exclusively to religious purposes, and is therefore not exempt from property taxes.
1. Vacant land which is held for future development or utilization by the religious organization is not deemed to be devoted exclusively to religious purposes and therefore not tax exempt.
2. Vacant land is tax exempt after construction commences or a building permit is issued for construction of a structure or other improvements used exclusively for religious purposes.

1. Upon completion of commission audits of personal property accounts or land subject to the Farmland Assessment Act, the following procedures shall be implemented:
(a) If an audit reveals an incorrect assignment of property,
or an increase or decrease in value, the county assessor shall correct the assessment on the assessment roll and the tax roll.

(b) A revised Notice of Property Valuation and Tax Changes or tax notice or both shall be mailed to the taxpayer for the current year and any previous years affected.

(c) The appropriate tax rate for each year shall be applied when computing taxes due for previous years.

(2) Assessors shall not alter results of an audit without first submitting the changes to the commission for review and approval.

(3) The commission shall review assessor compliance with this rule. Noncompliance may result in an order for corrective action.

A. The use of the machinery and equipment, whether by the claimant or a lessee, shall determine the exemption.

1. For purposes of this rule, the term owner includes a purchaser under an installment purchase contract or capitalized lease where ownership passes to the purchaser at the end of the contract without the exercise of an option on behalf of the purchaser or seller.

B. Farm machinery and equipment is used primarily for agricultural purposes if it is used primarily for the production or harvesting of agricultural products.

C. The following machinery and equipment is used primarily for the production or harvesting of agricultural products:

1. Machinery and equipment used on the farm for storage, cooling, or freezing of fruits or vegetables;
2. Except as provided in C.3., machinery and equipment used in fruit or vegetable growing operations if the machinery and equipment does not physically alter the fruit or vegetables; and
3. Machinery and equipment that physically alters the form of fruits or vegetables if the operations performed by the machinery or equipment are reasonable and necessary in the preparation of the fruit or vegetables for wholesale marketing.

D. Machinery and equipment used for processing of agricultural products are not exempt.

A. Definitions.

1. "Average market value per rail car" means the fleet rail car market value divided by the number of rail cars in the fleet.
2. "Fleet rail car market value" means the sum of:
   a) the yearly acquisition costs of the fleet's rail cars;
   b) multiplied by the appropriate percent good factors contained in Class 10 of R884-24P-33; Personal Property Valuation Guides and Schedules; and
   c) the sum of betterments by year.

(1) Except as provided in A.2.b)(2), the sum of betterments by year shall be depreciated on a 14-year straight line method.

(2) Notwithstanding the provisions of A.2.b)(1), betterments shall have a residual value of two percent.

3. "In-service rail cars" means the number of rail cars in the fleet, adjusted for out-of-service rail cars.

4. a) "Out-of-service rail cars" means rail cars:
   (1) out-of-service for a period of more than ten consecutive hours; or
   (2) in storage.

   b) Rail cars cease to be out-of-service once repaired or removed from storage.

   c) Out-of-service rail cars do not include rail cars idled for less than ten consecutive hours due to light repairs or routine maintenance.

5. "System car miles" means both loaded and empty miles accumulated in the U.S., Canada, and Mexico during the prior calendar year by all rail cars in the fleet.

6. "Utah car miles" mean both loaded and empty miles accumulated within Utah during the prior calendar year by all rail cars in the fleet.

7. "Utah percent of system factor" means the Utah car miles divided by the system car miles.

B. The provisions of this rule apply only to private rail car companies.

C. To receive an adjustment for out-of-service rail cars, the rail car company must report the number of out-of-service days to the commission for each of the company's rail car fleets.

D. The out-of-service adjustment is calculated as follows.

1. Divide the out-of-service days by 365 to obtain the out-of-service rail car equivalent.
2. Subtract the out-of-service rail car equivalent calculated in D.1. from the number of rail cars in the fleet.
3. The taxable value for each rail car fleet apportioned to Utah, for which the Utah percent of system factor is more than 50 percent, shall be determined by multiplying the Utah percent of system factor by the fleet rail car market value.
4. The taxable value for each rail car company apportioned to Utah, for which the Utah percent of system factor is less than or equal to 50 percent, shall be determined in the following manner.

   1. Calculate the number of fleet rail cars allocated to Utah under the Utah percent of system factor. The steps for this calculation are as follows.
      a) Multiply the Utah percent of system factor by the in-service rail cars in the fleet.
      b) Multiply the product obtained in F.1.a) by 50 percent.
      2. Calculate the number of fleet rail cars allocated to Utah under the time speed factor. The steps for this calculation are as follows.
      a) Divide the fleet's Utah car miles by the average rail car miles traveled in Utah per year. The Commission has determined that the average rail car miles traveled in Utah per year shall equal 200,000 miles.
      b) Multiply the quotient obtained in F.2.a) by the percent of in-service rail cars in the fleet.
      c) Multiply the product obtained in F.2.b) by 50 percent.
      3. Add the number of fleet rail cars allocated to Utah under the Utah percent of system factor, calculated in F.1.b), and the number of fleet rail cars allocated to Utah under the time speed factor, calculated in F.2.c), and multiply that sum by the average market value per rail car.

A. Definitions.

1. "Commercial air carrier" means any air charter service, air contract service or airline as defined by Section 59-2-102.
2. "Ground time" means the time period beginning at the time an aircraft lands and ending at the time an aircraft takes off.
3. "Commercial aircraft valuation pursuant to Utah Code Ann. Section 59-2-201"

B. The commission shall apportion to a tax area the assessment of the mobile flight equipment owned by a commercial air carrier in the proportion that the ground time in the tax area bears to the total ground time in the state.

C. The provisions of this rule shall be implemented and become binding on taxpayers beginning with the 1999 calendar year.

(1) "Household" is as defined in Section 59-2-102.
(2) "Primary residence" means the location where domicile has been established.
(3) Except as provided in Subsections (4) and (6)(c) and (f), the residential exemption provided under Section 59-2-103 is limited to one primary residence per household.
(4) An owner of multiple properties may receive the residential exemption on all properties for which the property is the primary residence of the tenant.
(5) Factors or objective evidence determinative of domicile include:
(a) whether or not the individual voted in the place he claims to be domiciled;
(b) the length of any continuous residency in the location claimed as domicile;
(c) the nature and quality of the living accommodations that an individual has in the location claimed as domicile as opposed to any other location;
(d) the presence of family members in a given location;

(o) any failure to obtain permits and licenses normally required of a resident;
(p) the purchase of a burial plot in a particular location;
(q) the acquisition of a new residence in a different location.
(6) Administration of the Residential Exemption.
(a) Except as provided in Subsections (6)(b), (d), and (e), the first one acre of land per residential unit shall receive the residential exemption.
(b) If a parcel has high density multiple residential units, such as an apartment complex or a mobile home park, the amount of land, up to the first one acre per residential unit, eligible to receive the residential exemption shall be determined by the use of the land. Land actively used for residential purposes qualifies for the exemption.
(c) If the county assessor determines that a property under construction will qualify as a primary residence upon completion, the property shall qualify for the residential exemption while under construction.
(d) A property assessed under the Farmland Assessment Act shall receive the residential exemption only for the homesite.
(e) A property with multiple uses, such as residential and commercial, shall receive the residential exemption only for the percentage of the property that is used as a primary residence.
(f) If the county assessor determines that an unoccupied property will qualify as a primary residence when it is occupied, the property shall qualify for the residential exemption while unoccupied.
(g) An application for the residential exemption required by an ordinance enacted under Section 59-2-103.5 shall contain the following information for the specific property for which the exemption is requested:

(1) Each year the Property Tax Division shall update and publish schedules to determine the taxable value for land subject to the Farmland Assessment Act on a per acre basis.
   (a) The schedules shall be based on the productivity of the various types of agricultural land as determined through crop budgets and net rents.
   (b) Proposed schedules shall be transmitted by the Property Tax Division to county assessors for comment before adoption.
   (c) County assessors may not deviate from the schedules.
   (d) Not all types of agricultural land exist in every county. If no taxable value is shown for a particular county in one of the tables, that classification of agricultural land does not exist in that county.
(2) All property qualifying for agricultural use assessment pursuant to Section 59-2-503 shall be assessed on a per acre basis as follows:
   (i) Irrigated farmland shall be assessed under the following classifications.
      (A) Irrigated I. The following counties shall assess Irrigated I property based upon the per acre values listed below:

1. Divide the system value by the book value to determine the market to book ratio.
2. Multiply the market to book ratio by the book value of personal property registered in Utah and subject to Section 59-2-405 to determine the value of personal property that may be subtracted from the allocated unit value.
F. If a property's valuation is appealed to the county board of equalization under Section 59-2-1005, the property shall become subject to a total revaluation. All adjustments are made on the basis of their effect on the property's average retail value as of the January 1 lien date and according to Tax Commission rule R884-24P-33.
G. The county assessor may change the fair market value of any individual item of personal property in his jurisdiction for any of the following reasons:
1. The manufacturer's suggested retail price ("MSRP") or the cost new was not included on the state printout, computer tape, or registration card;
2. The MSRP or cost new listed on the state records was inaccurate; or
3. In the assessor's judgment, an MSRP or cost new adjustment made as a result of a property owner's informal request will continue year to year on a percentage basis.
H. If the personal property is of a type subject to annual registration, the Section 59-2-405 uniform fee is due at the time the registration is due. If the personal property is not registered during the year, the owner remains liable for payment of the Section 59-2-405 uniform fee to the county assessor.
1. No additional uniform fee may be levied upon personal property transferred during a calendar year if the Section 59-2-405 uniform fee has been paid for that calendar year.
2. If the personal property is of a type registered for periods in excess of one year, the Section 59-2-405 uniform fee shall be due annually.
3. The personal property of a nonresident member of the armed forces stationed in Utah may be registered in Utah without payment of the Section 59-2-405 uniform fee.
   a) Personal property belonging to a Utah resident member of the armed forces stationed in another state is not subject to the Section 59-2-405 uniform fee as long as the personal property is kept in another state.
   b) Noncommercial trailers weighing 750 pounds or less are not subject to the Section 59-2-405 uniform fee or ad valorem property tax but may be registered at the request of the owner.
   c) If the personal property is of a type subject to annual registration, registration of that personal property may not be completed unless the Section 59-2-405 uniform fee has been paid, even if the taxpayer is appealing the uniform fee valuation. Delinquent fees may be assessed in accordance with Sections 59-2-217 and 59-2-309 as a condition precedent to registration.
   d) The situs of personal property subject to the Section 59-2-405 uniform fee is determined in accordance with Section 59-2-104. Situs of purchased personal property shall be the tax area of the purchaser's domicile, unless the personal property will be kept in a tax area other than the tax area of the purchaser's domicile for more than six months of the year.
   e) If an assessor discovers personal property that is kept in the assessor's county but registered in another, the assessor may submit an affidavit along with evidence that the property is kept in that county to the assessor of the county in which the personal property is registered. Upon agreement, the assessor of the county in which registration shall forward the fee collected to the county of situs within 30 working days.
   f) If the owner of personal property registered in Utah is domiciled outside of Utah, the taxable situs of the property is presumed to be the county in which the uniform fee was paid, unless an assessor's affidavit establishes otherwise.
   g) The Tax Commission shall, on an annual basis, provide each county assessor information indicating all personal property subject to state registration and its corresponding taxable situs.
4. Section 59-2-405 uniform fees received by a county that require distribution to a purchaser's domicile outside of that county shall be deposited into an account established by the Commission, pursuant to procedures prescribed by the Commission.
5. Section 59-2-405 uniform fees received by the Commission pursuant to J.4 shall be distributed to the appropriate county at least monthly.
K. The blind exemption provided in Section 59-2-1106 is applicable to the Section 59-2-405 uniform fee.
L. The veteran's exemption provided in Section 59-2-1104 is applicable to the Section 59-2-405 uniform fee.
M. The provisions of this rule shall be implemented and become binding on taxpayers beginning January 1, 1999.

(1) Purpose. The purpose of this rule is to:
(a) specify consistent mass appraisal methodologies to be used by the Property Tax Division (Division) in the valuation of tangible property assessable by the Commission; and
(b) identify preferred valuation methodologies to be
considered by any party making an appraisal of an individual unitary property.

(2) Definitions:
   (a) "Cost regulated utility" means any public utility assessable by the Commission whose allowed revenues are determined by a rate of return applied to a rate base set by a state or federal regulatory commission.
   (b) "Fair market value" means the amount at which property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of the relevant facts. Fair market value reflects the value of property at its highest and best use, subject to regulatory constraints.
   (c) "Rate base" means the aggregate account balances reported as such by the cost regulated utility to the applicable state or federal regulatory commission.
   (d) "Unitary property" means operating property that is assessed at fair market value based on generally accepted appraisal methods as set forth in this rule.

(3) All tangible operating property owned, leased, or used by unitary companies is subject to assessment and taxation according to its fair market value as of January 1, and as provided in Utah Constitution Article XIII, Section 2.

(4) General Valuation Principles. Unitary properties shall be assessed at fair market value based on generally accepted appraisal theory as provided under this rule.
   (a) The assemblage or enhanced value attributable to the tangible property should be included in the assessed value. See Beaver County v. WITTel, Inc., 99 S.2d 602 (Utah 2000). The value attributable to intangible property must, when possible, be identified and removed from value when using any valuation method and before that value is used in the reconciliation process.
   (b) The preferred methods to determine fair market value are the cost approach and a yield capitalization income indicator as set forth in Subsection (5).
      (i) Other generally accepted appraisal methods may also be used when it can be demonstrated that such methods are necessary to more accurately estimate fair market value.
      (ii) Direct capitalization and the stock and debt method typically capture the value of intangible property at higher levels than other methods. To the extent intangible property cannot be identified and removed, relatively less weight shall be given to such methods in the reconciliation process, as set forth in Subsection (5)(d).

(5) Appraisal Methodologies.
   (a) Cost Approach. Cost is relevant to value under the principle of substitution, which states that no prudent investor would pay more for a property than the cost to construct a substitute property of equal desirability and utility without undue delay. A cost indicator may be developed under one or more of the following methods: replacement cost new less depreciation (RCNLD), reproduction cost less depreciation (reproduction cost), and historic cost less depreciation (HCLD).
      (i) "Depreciation" is the loss in value from any cause. Different professions recognize two distinct definitions or types of depreciation.
         (A) Accounting. Depreciation, often called "book" or "accumulated" depreciation, is calculated according to generally accepted accounting principles or regulatory guidelines. It is the amount of capital investment written off on a firm's accounting records in order to allocate the original or historic cost of an asset over its life. Book depreciation is typically applied to historic cost to derive HCLD.
         (B) Appraisal. Depreciation, sometimes referred to as "accrued" depreciation, is the difference between the market value of an improvement and its cost new. Depreciation is typically applied to replacement or reproduction cost, but should be applied to historic cost if market conditions so indicate. There are three types of depreciation:
            (I) Physical deterioration results from regular use and normal aging, which includes wear and tear, decay, and the impact of the elements.
            (II) Functional obsolescence is caused by internal property characteristics or flaws in the structure, design, or materials that diminish the utility of an improvement.
            (III) External, or economic, obsolescence is an impairment of an improvement due to negative influences from outside the boundaries of the property, and is generally incurable. These influences usually cannot be controlled by the property owner or user.
      (ii) Replacement cost is the estimated cost to construct, at current prices, a property with utility equivalent to that being appraised, using modern materials, current technology and current standards, design, and layout. The use of replacement cost instead of reproduction cost eliminates the need to estimate some forms of functional obsolescence.
      (iii) Reproduction cost is the estimated cost to construct, at current prices, an exact duplicate or replica of the property being assessed, using the same materials, construction standards, design, layout and quality of workmanship, and embodying any functional obsolescence.
      (iv) Historic cost is the original construction or acquisition cost as recorded on a firm's accounting records. Depending upon the industry, it may be appropriate to trend HCLD to current costs. Only trending indexes commonly recognized by the specific industry may be used to adjust HCLD.
      (v) RCNLD may be impractical to implement; therefore the preferred cost indicator of value in a mass appraisal environment for unitary property is HCLD. A party may challenge the use of HCLD by proposing a different cost indicator that establishes a more accurate cost estimate of value.
(b) Income Capitalization Approach. Under the principle of anticipation, benefits from income in the future may be capitalized into an estimate of present value.

(i) Yield Capitalization. The yield capitalization formula is \( CF/(k-g) \), where \( CF \) is a single year's normalized cash flow, \( k \) is the nominal, risk adjusted discount or yield rate, and \( g \) is the expected growth rate of the cash flow.

(A) Cash flow is restricted to the operating property in existence on the lien date, together with any replacements intended to maintain, but not expand or modify, existing capacity or function. Cash flow is calculated as net operating income (NOI) plus non-cash charges (e.g., depreciation and deferred income taxes), less capital expenditures and additions to working capital necessary to achieve the expected growth \( g \). Information necessary for the Division to calculate the cash flow shall be summarized and submitted to the Division by March 1 on a form provided by the Division.

(I) NOI is defined as net income plus interest.

(II) Capital expenditures should include only those necessary to replace or maintain existing plant and should not include any expenditure intended primarily for expansion or productivity capacity enhancements.

(III) Cash flow is to be projected for the year immediately following the lien date, and may be estimated by reviewing historic cash flows, forecasting future cash flows, or a combination of both.

(Aa) If cash flows for a subsidiary company are not available or are not allocated on the parent company's cash flow statements, a method of allocating total cash flows must be developed based on sales, fixed assets, or other reasonable criteria. The subsidiary's total is divided by the parent's total to derive the allocation percentage to estimate the subsidiary's cash flow.

(Bb) If the subject company does not provide the Commission with its most recent cash flow statements by March 1 of the assessment year, the Division may estimate cash flow using the best information available.

(B) The discount rate \( (k) \) shall be based upon a weighted average cost of capital (WACC) considering current market debt rates and equity yields. WACC should reflect a typical capital structure for comparable companies within the industry.

(I) The cost of debt should reflect the current market rate (yield to maturity) of debt with the same credit rating as the subject company.

(II) The cost of equity is estimated using standard methods such as the capital asset pricing model (CAPM), the Risk Premium and Dividend Growth models, or other recognized models.

(Aa) The CAPM is the preferred method to estimate the cost of equity. More than one method may be used to correlate a cost of equity, but only if the CAPM method is weighted at least 50% in the correlation.

(Bb) The CAPM formula is \( k(e) = R(f) + (Beta \times Risk \text{ Premium}) \), where \( k(e) \) is the cost of equity and \( R(f) \) is the risk free rate.

(Cc) The risk free rate shall be the current market rate on 20-year Treasury bonds.

(Dd) The beta should reflect an average or value-weighted average of comparable companies and should be drawn consistently from Value Line or an equivalent source. The beta of the specific assessed property should also be considered.

(Ee) The risk premium shall be the arithmetic average of the spread between the return on stocks and the income return on long term bonds for the entire historical period contained in the Ibbotson Yearbook published immediately following the lien date.

(C) The growth rate \( g \) is the expected future growth of the cash flow attributable to assets in place on the lien date, and any future replacement assets.

(I) If insufficient information is available to the Division, either from public sources or from the taxpayer, to determine a rate, \( g \) will be the expected inflationary rate in the Gross Domestic Product Price Deflator obtained in Value Line. The growth rate and the methodology used to produce it shall be disclosed in a capitalization rate study published by the Commission by February 15 of the assessment year.

(ii) A discounted cash flow (DCF) method may be impractical to implement in a mass appraisal environment, but may be used when reliable cash flow estimates can be established.

(A) A DCF model should incorporate for the terminal year, and to the extent possible for the holding period, growth and discount rate assumptions that would be used in the yield capitalization method defined under Subsection (5)(b)(i).

(B) Forecasted growth may be used where unusual income patterns are attributed to

(I) unused capacity;

(II) economic conditions; or

(III) similar circumstances.

(C) Growth may not be attributed to assets not in place as of the lien date.

(iii) Direct Capitalization is an income technique that converts an estimate of a single year's income expectancy into an indication of value in one direct step, either by dividing the normalized income estimate by a capitalization rate or by multiplying the normalized income estimate by an income factor.

(c) Market or Sales Comparison Approach. The market value of property is directly related to the prices of comparable, competitive properties. The market approach is estimated by comparing the subject property to similar properties that have recently sold.

(I) Sales of comparable property must, to the extent possible, be adjusted for elements of comparison, including market conditions, financing, location, physical characteristics, and economic characteristics. When considering the sales of stock, business enterprises, or other properties that include intangible assets, adjustments must be made for those intangibles.

(II) Because sales of unitary properties are infrequent, a stock and debt indicator may be viewed as a surrogate for the market approach. The stock and debt method is based on the accounting principle which holds that the market value of assets equal the market value of liabilities plus shareholder's equity.

(d) Reconciliation. When reconciling value indicators into a final estimate of value, the appraiser shall take into consideration the availability, quantity, and quality of data, as well as the strength and weaknesses of each value indicator. Weighting percentages used to correlate the value approaches will generally vary by industry, and may vary by company if evidence exists to support a different weighting. The Division must disclose in writing the weighting percentages used in the reconciliation for the final assessment. Any departure from the prior year's weighting must be explained in writing.

(6) Property Specific Considerations. Because of unique characteristics of properties and industries, modifications or alternatives to the general value indicators may be required for specific industries.

(a) Cost Regulated Utilities.

(i) HCLD is the preferred cost indicator of value for cost regulated utilities because it represents an approximation of the basis upon which the investor can earn a return. HCLD is calculated by taking the historic cost less depreciation as reflected in the utility's net plant accounts, and then:

(A) subtracting intangible property;

(B) subtracting any items not included in the utility's rate base (e.g., deferred income taxes and, if appropriate, acquisition adjustments); and
(C) adding any taxable items not included in the utility's net plant account or rate base.

(ii) Deferred Income Taxes, also referred to as DIFT, is an accounting entry that reflects the difference between the use of accelerated depreciation for income tax purposes and the use of straight-line depreciation for financial statements. For traditional rate base regulated companies, regulators generally exclude deferred income taxes from rate base, recognizing it as ratepayer contributed capital. Where rate base is reduced by deferred income taxes for rate base regulated companies, they shall be removed from HCLD.

(iii) Items excluded from rate base under Subsections (6)(a)(i)(A) or (B) should not be subtracted from HCLD to the extent it can be shown that regulators would likely permit the rate base of a potential purchaser to include a premium over existing rate base.

(b)(i) Railroads.

(ii) The cost indicator should generally be given little or no weight because there is no observable relationship between cost and fair market value.

(c) Airline, air charter services, and air contract services.

(i) For purposes of this Subsection (6)(c):

(A) "aircraft pricing guide" means a nationally recognized publication that assigns value estimates for individual commercial aircraft that are in average condition typical for their type and vintage, and identified by year, make and model;

(B) "airline" means an:

(I) airline under Section 59-2-102;

(II) air charter service under Section 59-2-102; and

(III) air contract service under Section 59-2-102;

(C) "airline market indicator" means an estimate of value based on an aircraft pricing guide; and

(D) "non-mobile flight equipment" means all operating property of an airline, air charter service, or air contract service that is not within the definition of mobile flight equipment under Section 59-2-102.

(ii) In situations where the use of preferred methods for determining fair market value under Subsection (5) does not produce a reasonable estimate of the fair market value of the property of an airline operating as a unit, an airline market indicator published in an aircraft pricing guide, and adjusted as provided in Subsections (6)(c)(ii)(A) and (6)(c)(ii)(B), may be used to estimate the fair market value of the airline property.

(A)(I) In order to reflect the value of a fleet of aircraft as part of an operating unit, an airline market indicator shall include a fleet adjustment or equivalent valuation for a fleet.

(II) If a fleet adjustment is provided in an aircraft pricing guide, the adjustment under Subsection (6)(c)(ii)(A)(I) shall follow the directions in that guide. If no fleet adjustment is provided in an aircraft pricing guide, the standard adjustment under Subsection (6)(c)(ii)(A)(I) shall be 20 percent from a wholesale value or equivalent level of value as published in the guide.

(B) Non-mobile flight equipment shall be valued using the cost approach under Subsection (5)(a) or the market or sales comparison approach under Subsection (5)(c), and added to the value of the fleet.

(iii) An income capitalization approach under Subsection (5)(b) shall incorporate the information available to make an estimate of future cash flows.

(iv)(A) When an aircraft market indicator under Subsection (6)(c)(ii) is used to estimate the fair market value of an airline, the Division shall:

(I) calculate the fair market value of the airline using the preferred methods under Subsection (5);

(II) retain the calculations under Subsection (6)(c)(ii)(A)(I) in the work files maintained by the Division; and

(III) include the amounts calculated under Subsection (6)(c)(ii)(A)(I) in any appraisal report that is produced in association with an assessment issued by the Division.

(B) When an aircraft market indicator under Subsection (6)(c)(ii) is used, the Division shall justify in any appraisal report issued with an assessment why the preferred methods under Subsection (5) were not used.

(v)(A) When the preferred methods under Subsection (5) are used to estimate the fair market value of an airline, the Division shall:

(I) calculate an aircraft market indicator under Subsection (6)(c)(ii); and

(II) retain the calculations under Subsection (6)(c)(v)(A)(I) in the work files maintained by the Division; and

(III) include the amounts calculated under Subsection (6)(c)(v)(A)(I) in any appraisal report that is produced in association with an assessment issued by the Division.

(C) Reasons for not including a value estimate required under Subsection (6)(c)(v)(B) include:

(I) failure to file a return; or

(II) failure to identify specific aircraft.

A. The party contracting to perform services shall develop a written customer service performance plan within 60 days after the contract for performance of services is signed.

1. The customer service performance plan shall address:

a) procedures the contracting party will follow to minimize the time a customer waits in line; and

b) the manner in which the contracting party will promote alternative methods of registration.

2. The party contracting to perform services shall provide a copy of its customer service performance plan to the party for whom it provides services.

3. The party for whom the services are provided may, no more often than semiannually, audit the contracting party's performance based on its customer service performance plan, and may report the results of the audit to the county commission or the state tax commissioners, as applicable.

B. Each county office contracting to perform services shall conduct initial training of its new employees.

C. The Tax Commission shall provide regularly scheduled training for all county offices contracting to perform motor vehicle functions.

R884-24P-64. Determination and Application of Taxable Value for Purposes of the Property Tax Exemptions for Veterans With a Disability and the Blind Pursuant to Utah Code Ann. Sections 59-2-1104 and 59-2-1106.

For purposes of Sections 59-2-1104 and 59-2-1106, the taxable value of tangible personal property subject to a uniform fee under Sections 59-2-405.1 or 59-2-405.2 shall be calculated by dividing the uniform fee the tangible personal property is subject to by .015.

A. "Transitory personal property" means tangible personal property that is used or operated primarily at a location other than a fixed place of business of the property owner or lessee.

B. Transitory personal property in the state on January 1 shall be assessed at 100 percent of fair market value.

C. Transitory personal property that is not in the state on January 1 is subject to a proportional assessment when it has been in the state for 90 consecutive days in a calendar year.
1. The determination of whether transitory personal property has been in the state for 90 consecutive days shall include the days the property is outside the state if, within 10 days of its removal from the state, the property is:
   a) brought back into the state; or
   b) substituted with transitory personal property that performs the same function.
D. Once transitory personal property satisfies the conditions under C., tax shall be proportionally assessed for the period:
   1. beginning on the first day of the month in which the property was brought into Utah; and
   2. for the number of months remaining in the calendar year.
E. An owner of taxable transitory personal property who removes the property from the state prior to December and who qualifies for a refund of taxes assessed and paid, shall receive a refund based on the number of months remaining in the calendar year at the time the property is removed from the state and for which the tax has been paid.

1. The refund provisions of this subsection apply to transitory personal property taxes assessed under B. and C.
2. For purposes of determining the refund under this subsection, any portion of a month remaining shall be counted as a full month.
F. If tax has been paid for transitory personal property and that property is subsequently moved to another county in Utah:
   1. No additional assessment may be imposed by any county to which the property is subsequently moved; and
   2. No portion of the assessed tax may be transferred to the subsequent county.

   (1)(a) "Factual error" means an error that is:
      (i) objectively verifiable without the exercise of discretion, opinion, or judgment;
      (ii) demonstrated by clear and convincing evidence; and
      (iii) agreed upon by the taxpayer and the assessor.

         (B) Title 59, Chapter 2, Part 11;
      (iv) an error in the classification of a property that is eligible for assessment under Title 59, Chapter 2, Part 5;

      (ii) a change in a factor or variable used in an approach to value;
      (iii) any other adjustment to a valuation methodology.
   (2) To achieve standing with the county board of equalization and have a decision rendered on the merits of the case, the taxpayer shall provide the following minimum information to the county board of equalization:
      (a) the name and address of the property owner;
      (b) the identification number, location, and description of the property;

      (d) the taxpayer's estimate of the fair market value of the property;
      (e) evidence or documentation that supports the taxpayer's claim for relief; and
      (f) the taxpayer's signature.
   (3) If the evidence or documentation required under Subsection (2)(e) is not attached, the county will notify the taxpayer in writing of the defect in the claim and permit at least ten calendar days to cure the defect before dismissing the matter for lack of sufficient evidence to support the claim for relief.
   (4) If the taxpayer appears before the county board of equalization and fails to produce the evidence or documentation described under Subsection (2)(e) and the county has notified the taxpayer under Subsection (3), the county may dismiss the matter for lack of evidence to support a claim for relief.
   (5) If the information required under Subsection (2) is supplied, the county board of equalization shall render a decision on the merits of the case.
   (6) The county board of equalization may dismiss an appeal for lack of jurisdiction when the claimant limits arguments to issues not under the jurisdiction of the county board of equalization.

            (iii) the date the notice was sent;
            (iv) a notice of appeal rights to the commission; and
            (v) a statement of the decision of the county board of equalization;
         (b) if (9) A county shall maintain a copy of a notice sent to a taxpayer under Subsection (8).
      (10) If a decision affects the exempt status of a property, the county board of equalization shall prepare its decision in writing, stating the reasons and statutory basis for the decision.
      (11) Decisions by the county board of equalization are final orders on the merits.
      (12) Except as provided in Subsection (14), a county board of equalization shall accept an application to appeal the valuation or equalization of a property owner's real property that is filed after the time period prescribed by Section 59-2-1004(2)(a) if any of the following conditions apply:
         (a) During the period prescribed by Section 59-2-1004(2)(a), the property owner was incapable of filing an appeal as a result of a medical emergency to the property owner or an immediate family member of the property owner, and no co-owner of the property was capable of filing an appeal.
         (b) During the period prescribed by Section 59-2-1004(2)(a), the property owner or an immediate family member of the property owner died, and no co-owner of the property was
capable of filing an appeal. The county did not comply with the notification requirements of Section 59-2-919.1.

(d) A factual error is discovered in the county records pertaining to the subject property.

(e) The property owner was unable to file an appeal within the time period prescribed by Section 59-2-1004(2)(a) because of extraordinary and unanticipated circumstances that occurred during the period prescribed by Section 59-2-1004(2)(a), and no co-owner of the property was capable of filing an appeal.

(13) Appeals accepted under Subsection (12)(d) shall be limited to correction of the factual error and any resulting changes to the property's valuation.

(14) The provisions of Subsection (12) apply only to appeals filed for a tax year for which the treasurer has not made a final annual settlement under Section 59-2-1365.

(15) The provisions of this rule apply only to appeals to the county board of equalization. For information regarding appeals of county board of equalization decisions to the Commission, please see Section 59-2-1006 and R861-1A-9.

Notice of Continuation July 7, 2016
R916-1. Authority and Purpose.
This rule establishes the procedures for the advertising and awarding of Utah Department of Transportation construction contracts. This rule is authorized under Sections 72-1-201, 72-6-107, 63G-6-505, and Subsection 63G-6-207(3).

R916-1-2. Definitions.
(1) Terms used in this rule are defined in Section 72-1-102.
(2) In addition, "Notice to Contractors" means the advertisement or public announcement inviting bids for work to be performed or materials to be furnished.

R916-1-3. Invitation for Bids.
(1) The department shall prepare a notice to contractors inviting bid proposals on each project. The notice to contractors shall specify the type of construction, the location, the principal items of work, and the bid opening time and date.
(2) The advertisement for bids shall be published pursuant to the requirements of Section 72-6-107(2)(c)(i).
(3) Contractors and suppliers may receive notice to contractors by requesting their name be placed on a distribution list which is maintained by the department.

(1) Bidding proposals, plans and specifications shall be available for inspection at all Region offices, Cedar City, Price, Richfield and Salt Lake City headquarters. Plans are available for download at the department's website, www.udot.utah.gov.
(2) Prior to submitting a bid, the bidder must become prequalified at least 10 working days prior to bid opening date, under Rule R916-2 concerning prequalification of contractors. Prequalification of bidders is not required on projects estimated under $1,500,000.
(3) Prequalified contractors may obtain bidding proposals, plans and specifications and non-prequalified contractors may obtain non-bidding plans and specifications from the department's website, www.udot.utah.gov.
(a) Projects shall not be awarded when the sum of the amount of uncompleted work, both in and outside of the state of Utah, shown on the contractor's "Status of Work Under Contract" form and the bid amount submitted exceeds the amount for which the contractor is prequalified. This calculation is performed at the close of bid opening for all apparent low bidders, on all projects with an advertised engineer's estimate over $1,500,000. This process does not apply to contractors who are prequalified as "unlimited."
(b) Two or more contractors who have prequalified separately and desire to enter a joint bid on a single project may do so upon submitting a letter of intent to the department prequalification secretary at least four working days prior to bid opening. The prequalification of each contractor can then be considered for consolidation to place a bid as prime.
(4) If it is necessary to issue an addendum to the plans and specifications during the advertising period, the contractors and suppliers listed on the planholders list will be faxed and e-mailed a copy of the addendum by the department.

R916-1-5. Bidding Requirements and Conditions.
(1) Each bidder shall submit their proposal upon the forms furnished by the department.
(2) Sealed proposals shall be submitted to the department prior to the time and at the place specified in the notice to contractors.
(3) Proposals shall be publicly opened and read at the time and place indicated in the notice to contractors.
(4) No proposal shall be considered unless accompanied by a guaranty in the form of certified check, cashier's check or guaranty bond for not less than five percent of the total amount of the bid.
(5) Each bidder must comply with the laws of Utah relative to the licensing of contractors. A contractor's license is required prior to the submission of a bid, except that a contractor may submit a bid on a Federal-aid highway project without having first obtained a license, provided the contractor, prior to undertaking any construction under that bid (at time of official award notification), shall be licensed in Utah.
(6) The department reserves the right to reject any or all bid proposals.

R916-1-6. Award of Contracts.
(1) The department shall award the contract to the lowest responsible and qualified bidder.
(2) When all bids received exceed the engineer's estimate by more than 10%, the department reserves the right to either accept the low bid or to reject all bids.
(3) The award, if made, shall be within 30 days after the opening of proposals. The department may, subject to approval of the successful bidder, withhold the award beyond the 30 day time frame. After 30 days, if no award has been made, the contractor may withdraw their proposal without liability.
(4) The successful bidder shall be notified, by mail using the address shown on their proposal, that they have been awarded the contract.
(5) The department reserves the right to cancel the award of any contract at any time before the execution of the contract by all parties with no liability against the department.

R916-1-7. Execution of Contracts.
(1) Unless the bonds are waived pursuant to Subparagraph (6), when the contract is executed, the successful bidder shall furnish a performance bond and a payment bond, each in a sum equal to the full amount of the contract. Each bond shall be on the form provided by the department and shall be executed by a surety company or companies licensed by the state of Utah. These companies must be listed on the current United States Department of the Treasury Circular 570 as acceptable sureties on Federal bonds. The United States Department of the Treasury Circular 570 is available on the internet at www.fms.treas.gov/c570/c570.html.
(2) The contract shall be signed by the successful bidder and returned together with the fully executed contract bonds and appropriate insurance documents within 15 days after the contract is awarded.
(3) Failure to execute a contract and file acceptable bonds and appropriate insurance documents within 15 days after the contract has been awarded shall be just cause for the cancellation of the award and the forfeiture of the proposal guaranty.
(4) If the contract is not executed by the Department within 30 days after receiving signed contracts, bonds, and insurance documentation, the bidder shall have the right to withdraw their bid without penalty.
(5) No contract shall be considered effective until it has been fully executed by all the parties thereto.
(6) In accordance with Section 63G-6-505, the Executive Director or designee may reduce or waive the amount of the payment and performance bonds below the 100% normally required, if he or she determines that the circumstances are such that the normal bonding requirement is unnecessary to protect the State.
