NOTICES OF PROPOSED RULES

A state agency may file a **PROPOSED RULE** when it determines the need for a substantive change to an existing rule. With a **NOTICE OF PROPOSED RULE**, an agency may create a new rule, amend an existing rule, repeal an existing rule, or repeal an existing rule and reenact a new rule. Filings received between February 02, 2022, 12:00 a.m., and February 15, 2022, 11:59 p.m. are included in this, the March 01, 2022, issue of the *Utah State Digest*.

In this publication, each **PROPOSED RULE** is preceded by a **RULE ANALYSIS**. This analysis provides summary information about the **PROPOSED RULE** including the name of a contact person, anticipated cost impact of the rule, and legal cross-references.

The law requires that an agency accept public comment on **PROPOSED RULES** published in this issue of the *Utah State Digest* until at least March 31, 2022. The agency may accept comment beyond this date and will indicate the last day the agency will accept comment in the **RULE ANALYSIS**. The agency may also hold public hearings. Additionally, citizens or organizations may request the agency hold a hearing on a specific **PROPOSED RULE**. Section 63G-3-302 requires that a hearing request be received by the agency proposing the rule "in writing not more than 15 days after the publication date of the proposed rule."

From the end of the public comment period through June 29, 2022, the agency may notify the Office of Administrative Rules that it wants to make the **PROPOSED RULE** effective. The agency sets the effective date. The date may be no fewer than seven calendar days after the close of the public comment period nor more than 120 days after the publication date of this issue of the *Utah State Bulletin*. Alternatively, the agency may file a **CHANGE IN PROPOSED RULE** in response to comments received. If the Office of Administrative Rules does not receive a **NOTICE OF EFFECTIVE DATE** or a **CHANGE IN PROPOSED RULE**, the **PROPOSED RULE** lapses.

The public, interest groups, and governmental agencies are invited to review and comment on **PROPOSED RULES**. *Comment may be directed to the contact person identified on the **RULE ANALYSIS** for each rule.*

PROPOSED RULES are governed by Section 63G-3-301, Rule R15-2, and Sections R15-4-3, R15-4-4, R15-4-5a, R15-4-9, and R15-4-10.

General Information

2. Rule or section catchline:
R313-28-140. Qualifications of Mammography Imaging Medical Physicist
3. Purpose of the new rule or reason for the change (Why is the agency submitting this filing?):
Recently a member of the Waste Management and Radiation Control Board (Board) questioned why mammography imaging medical physicists must re-certify every year. The Division of Waste Management and Radiation Control, Radiation (Division) staff reviewed the current state rule in Section R313-28-140 and looked for supporting documentation regarding the creation of the current state rule. No supporting documentation was found. Based on the review, it was determined that the only basis for the annual recertification was that Subsection R313-28-140(2)(b) required each to perform at least two mammography surveys during the 12-month period from June 1 and May 31 to remain certified by the Board. Division staff then reviewed the federal regulations for mammography imaging medical physicists overseen by the Food and Drug Administration and determined that there was no requirement in the federal regulations for annual recertification. Division staff also noted some inconsistencies between the federal regulations and the state rules. Based on the reviews, it was determined that a three-year recertification period was a better fit for the recertification requirements and that there would not be any negative impact to human health by requiring each

mammography imaging medical physicist to recertify every three years instead of annually.

4. Summary of the new rule or change (What does this filing do? If this is a repeal and reenact, explain the substantive differences between the repealed rule and the reenacted rule):

The change updates the Initial Qualifications found in Subsection R313-28-140(1) so that they are consistent with the federal regulations. This change added the requirement to have 20 contact hours of documented specialized training in conducting surveys of mammography facilities to the state rules but because this is a requirement of the federal regulations it is believed that any person wanting to be certified as a mammography imaging medical physicist in Utah will already meet this requirement. The change also updated the language regarding the number of surveys that must be completed but did not change the number of surveys from the ten required.

The change updates the Continuing Qualifications to clearly state that mammography imaging medical physicists must recertify every three years. The change updates the number of surveys that must be done for continuing qualifications from two per year to three facilities and nine units in a three-year period. The Division does not believe that this increase will be an issue for any practicing mammography imaging medical physicist.

Based on the changes for continuing qualifications the language regarding mammography imaging medical physicists who fail to maintain the required continuing qualifications and need to re-establish their qualifications was amended to be consistent.

In addition to the changes discussed here, the Division has made corrections to formatting and other minor errors that exist in the current rule.

Fiscal Information

5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:
A) State budget:
Any impact to the state budget would be a savings due to only having to review and process recertifications every three years instead of annually. It costs the state approximately \$400 in wages paid to an employee who reviews the renewal applications each year. Changing the renewal period from annual to every three years will save the state approximately \$400 for each year that renewals are not reviewed and processed. If this amended rule becomes effective in fiscal year 2022, the savings would be \$400 for fiscal year 2022 and \$400 for fiscal year 2023. Renewal applications would be due in fiscal year 2024.

B) Local governments:
It is not anticipated that there will be any cost or savings to local governments because this rule change does not affect local governments.
C) Small businesses ("small business" means a business employing 1-49 persons):
It is anticipated that any fiscal impact to small businesses would be a potential savings because they will only have to submit recertification applications every three years instead of annually. However, because the Division does not charge a fee for processing applications and the Division does not have any information on any costs that a small business might incur for submitting an application, these savings are not measurable.
D) Non-small businesses ("non-small business" means a business employing 50 or more persons):
It is anticipated that any fiscal impact to non-small businesses would be a potential savings because they will only have to submit recertification applications every three years instead of annually. However, because the Division does not charge a fee for processing applications and the Division does not have any information on any costs that a non-small business might incur for submitting an application, these savings are not measurable.
E) Persons other than small businesses, non-small businesses, state, or local government entities ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an agency):
It is anticipated that any fiscal impact to persons other than small businesses, non-small businesses, state, or local government entities would be a potential savings because they will only have to submit recertification applications every three years instead of annually. However, because the Division does not charge a fee for processing applications and the Division does not have any information on any costs that persons other than small businesses, non-small businesses, state, or local government might incur for submitting an application, these savings are not measurable.
F) Compliance costs for affected persons (How much will it cost an impacted entity to adhere to this rule or its changes?):
Because the change did not create any new requirements for any persons who must comply with the current rule, it is not anticipated that there will be any change to compliance costs for persons who must comply with this rule.
G) Comments by the department head on the fiscal impact this rule may have on businesses (Include the name and title of the department head):

It is not anticipated that this rule change will have any additional fiscal impact on any businesses that are currently complying with the rule beyond the current costs of compliance. The changes being made will reduce the regulatory burden on mammography imaging medical physicists by increasing the amount of time between recertifications. The change also keeps the qualifications for mammography imaging medical physicists in the state of Utah consistent with the federal regulations overseen by the Food and Drug Administration. Kimberly D. Shelley, Executive Director

NOTICES OF CHANGES IN PROPOSED RULES

After an agency has published a **PROPOSED RULE** in the *Utah State Bulletin*, it may receive comment that requires the **PROPOSED RULE** to be altered before it goes into effect. A **CHANGE IN PROPOSED RULE** allows an agency to respond to comments it receives.

As with a **PROPOSED RULE**, a **CHANGE IN PROPOSED RULE** is preceded by a **RULE ANALYSIS**. This analysis provides summary information about the **CHANGE IN PROPOSED RULE** including the name of a contact person, anticipated cost impact of the rule, and legal cross-references.

While the law does not designate a comment period for a **CHANGE IN PROPOSED RULE**, it does provide for a 30-day waiting period. An agency may accept additional comments during this period and, at its option, may designate a comment period or may hold a public hearing. The 30-day waiting period for **CHANGES IN PROPOSED RULES** published in this issue of the *Utah State Digest* ends March 31, 2022.

From the end of the 30-day waiting period through June 29, 2022, an agency may notify the Office of Administrative Rules that it wants to make the **CHANGE IN PROPOSED RULE** effective. When an agency submits a **NOTICE OF EFFECTIVE DATE** for a **CHANGE IN PROPOSED RULE**, the **PROPOSED RULE** as amended by the **CHANGE IN PROPOSED RULE** becomes the effective rule. The agency sets the effective date. The date may be no fewer than 30 days nor more than 120 days after the publication date of the **CHANGE IN PROPOSED RULE**. If the agency designates a public comment period, the effective date may be no fewer than seven calendar days after the close of the public comment period nor more than 120 days after the publication date. Alternatively, the agency may file another **CHANGE IN PROPOSED RULE** in response to additional comments received. If the Office of Administrative Rules does not receive a **NOTICE OF EFFECTIVE DATE** or another **CHANGE IN PROPOSED RULE** by the end of the 120-day period after publication, the **CHANGE IN PROPOSED RULE** filing, along with its associated **PROPOSED RULE**, lapses.

CHANGES IN PROPOSED RULES are governed by Section 63G-3-303, Rule R15-2, and Sections R15-4-3, R15-4-4, R15-4-5b, R15-4-7, R15-4-9, and R15-4-10.

NOTICES OF 120-DAY (EMERGENCY) RULES

An agency may file a **120-DAY (EMERGENCY) RULE** when it finds that regular rulemaking procedures would:

- (a) cause an imminent peril to the public health, safety, or welfare;
- (b) cause an imminent budget reduction because of budget restraints or federal requirements; or
- (c) place the agency in violation of federal or state law (Subsection 63G-3-304(1)).

As with a **PROPOSED RULE**, a **120-DAY RULE** is preceded by a **RULE ANALYSIS**. This analysis provides summary information about the **120-DAY RULE** including the name of a contact person, justification for filing a **120-DAY RULE**, anticipated cost impact of the rule, and legal cross-references.

A **120-DAY RULE** is effective when filed with the Office of Administrative Rules, or on a later date designated by the agency. A **120-DAY RULE** is effective for 120 days or until it is superseded by a permanent rule. Because of its temporary nature, a **120-DAY RULE** is not codified as part of the *Utah Administrative Code*.

The law does not require a public comment period for **120-DAY RULES**. However, when an agency files a **120-DAY RULE**, it may file a **PROPOSED RULE** at the same time, to make the requirements permanent.

Emergency or **120-DAY RULES** are governed by Section 63G-3-304, and Section R15-4-8.

General Information

2. Rule or section catchline:
R432-35. Background Screening -- Health Facilities

3. Effective Date:
02/04/2022

4. Purpose of the new rule or reason for the change (Why is the agency submitting this filing?):

The reason for this emergency amendment is due to the on-going pandemic causing a shortage of staff at Skilled Nursing Facilities. The National Guard has been asked to assist facilities with the staff shortages. The Department of Health is required to run background checks for any individual in a setting that has direct patient access under Rule R435-35. This emergency rule amendment allows National Guard personnel to be background screened while accomplishing the goal of getting immediate assistance to Skilled Nursing Facilities with staff shortages.

5. Summary of the new rule or change (What does this filing do?):

This emergency amendment will modify this rule to allow a facility to immediately begin utilizing Activated National Guard personnel and grant them direct patient access for up to 90 days before the background clearance process has been completed.

6. A) The agency finds that regular rulemaking would:

X	cause an imminent peril to the public health, safety, or welfare;
	cause an imminent budget reduction because of budget restraints or federal requirements; or
	place the agency in violation of federal or state law.

B) Specific reasons and justifications for this finding:
 If the facilities are required to follow the current rule for the Activated National Guard personnel to have direct patient access, it would greatly slow down the process of getting assistance to the long-term care facilities which could cause imminent peril to the public health, safety, or welfare.

Fiscal Information

7. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:

A) State budget:
 The state health facility background screening process was thoroughly reviewed. This proposed rule amendment will have no cost or savings for the state budget since the amendment only changes the timeline for agencies to run background screening requirements on certain covered individuals.

B) Local governments:
 Local government city business licensing requirements were considered. This proposed rule amendment should not affect local governments' revenues or expenditures.

C) Small businesses ("small business" means a business employing 1-49 persons):
 After conducting a thorough analysis, it was determined that this rule amendment will not result in a fiscal impact for small businesses' revenues or expenditures as it only changes the timeline for background screening requirements on certain covered individuals.

D) Persons other than small businesses, non-small businesses, state, or local government entities ("person" means any individual, partnership, corporation,

association, governmental entity, or public or private organization of any character other than an **agency**):

After conducting a thorough analysis, it was determined that this rule amendment will not result in a fiscal impact for persons as it does not change their background screening requirements.

E) Compliance costs for affected persons (How much will it cost an impacted entity to adhere to this rule or its changes?):

After conducting a thorough analysis, it was determined that this rule amendment will not result in a fiscal impact for persons as it does not change their background screening requirements.

F) Comments by the department head on the fiscal impact this rule may have on businesses (Include the name and title of the department head):

After conducting a thorough analysis, it was determined that there is no fiscal impact on businesses. Nate Checketts, Executive Director

FIVE-YEAR NOTICES OF REVIEW AND STATEMENTS OF CONTINUATION

Within five years of an administrative rule's original enactment or last five-year review, the agency is required to review the rule. This review is intended to help the agency determine, and to notify the public, that the administrative rule in force is still authorized by statute and necessary. Upon reviewing a rule, an agency may: repeal the rule by filing a **PROPOSED RULE**; continue the rule as it is by filing a **FIVE-YEAR NOTICE OF REVIEW AND STATEMENT OF CONTINUATION (REVIEW)**; or amend the rule by filing a **PROPOSED RULE** and by filing a **REVIEW**. By filing a **REVIEW**, the agency indicates that the rule is still necessary.

A **REVIEW** is not followed by the rule text. The rule text that is being continued may be found in the online edition of the *Utah Administrative Code* available at adminrules.utah.gov. The rule text may also be inspected at the agency or the Office of Administrative Rules. **REVIEWS** are effective upon filing.

REVIEWS are governed by Section 63G-3-305.

The right for persons to enter upon trust lands to conduct non-disturbing, short-term activities is a profitable use of the lands, and is one of the activities covered by the "other disposition conveyance" authorized by statute.
4. A summary of written comments received during and since the last five-year review of this rule from interested persons supporting or opposing this rule:
No written comments have been received by the agency concerning this rule.
5. A reasoned justification for continuation of this rule, including reasons why the agency disagrees with comments in opposition to this rule, if any:
Without the authorization to issue rights-of-entry on trust lands, the respective trust beneficiaries would forego the opportunity to receive revenues which have been substantial over the years. This rule provides the mechanism for non-disturbing activities to be conducted on trust lands that will benefit the respective trust beneficiaries while allowing others the opportunity to conduct business on those trust lands throughout the state. Therefore, this rule should be continued.

NOTICES OF RULE EFFECTIVE DATES

State law provides for agencies to make their administrative rules effective and enforceable after publication in the *Utah State Bulletin*. In the case of **PROPOSED RULES** or **CHANGES IN PROPOSED RULES** with a designated comment period, the law permits an agency to make a rule effective no fewer than seven calendar days after the close of the public comment period, nor more than 120 days after the publication date. In the case of **CHANGES IN PROPOSED RULES** with no designated comment period, the law permits an agency to make a rule effective on any date including or after the thirtieth day after the rule's publication date, but not more than 120 days after the publication date. If an agency fails to file a **NOTICE OF EFFECTIVE DATE** within 120 days from the publication of a **PROPOSED RULE** or a related **CHANGE IN PROPOSED RULE** the rule lapses.
