NOTICES OF RULE EFFECTIVE DATES51

NOTICES OF PROPOSED RULES

A state agency may file a **PROPOSED RULE** when it determines the need for a substantive change to an existing rule. With a **NOTICE OF PROPOSED RULE**, an agency may create a new rule, amend an existing rule, repeal an existing rule, or repeal an existing rule and reenact a new rule. Filings received between September 16, 2022, 12:00 a.m., and September 30, 2022, 11:59 p.m. are included in this, the October 15, 2022, issue of the *Utah State Digest*.

In this publication, each **PROPOSED RULE** is preceded by a **RULE ANALYSIS**. This analysis provides summary information about the **PROPOSED RULE** including the name of a contact person, anticipated cost impact of the rule, and legal cross-references.

The law requires that an agency accept public comment on **PROPOSED RULES** published in this issue of the *Utah State Digest* until at least November 14, 2022. The agency may accept comment beyond this date and will indicate the last day the agency will accept comment in the **RULE ANALYSIS**. The agency may also hold public hearings. Additionally, citizens or organizations may request the agency hold a hearing on a specific **PROPOSED RULE**. Section 63G-3-302 requires that a hearing request be received by the agency proposing the rule "in writing not more than 15 days after the publication date of the proposed rule."

From the end of the public comment period through February 12, 2023, the agency may notify the Office of Administrative Rules that it wants to make the **PROPOSED RULE** effective. The agency sets the effective date. The date may be no fewer than seven calendar days after the close of the public comment period nor more than 120 days after the publication date of this issue of the *Utah State Digest*. Alternatively, the agency may file a **CHANGE IN PROPOSED RULE** in response to comments received. If the Office of Administrative Rules does not receive a **NOTICE OF EFFECTIVE DATE** or a **CHANGE IN PROPOSED RULE**, the **PROPOSED RULE** lapses.

The public, interest groups, and governmental agencies are invited to review and comment on **PROPOSED RULES**. *Comment may be directed to the contact person identified on the **RULE ANALYSIS** for each rule.*

PROPOSED RULES are governed by Section 63G-3-301, Rule R15-2, and Sections R15-4-3, R15-4-4, R15-4-5a, R15-4-9, and R15-4-10.

General Information

2. Rule or section catchline:
R25-25. Digital User Asset Service Provider and Agency Standards
3. Purpose of the new rule or reason for the change (Why is the agency submitting this filing?):
This rule has been created in accordance with Subsection 63A-3-112(6) to establish requirements that agencies must meet to accept virtual currency for payments and establishes standards for service providers wishing to contract with the state to convert virtual currency collections into fiat currency to satisfy amounts owed to the state.
4. Summary of the new rule or change (What does this filing do? If this is a repeal and reenact, explain the substantive differences between the repealed rule and the reenacted rule):
This is a new rule that has been created in accordance with Subsection 63A-3-112(6) to establish requirements that agencies must meet to accept virtual currency for payments and establishes standards for service providers wishing to contract with the state to convert virtual currency collections into fiat currency to satisfy amounts owed to the state. It establishes requirements for service providers, such as insurance coverage; timing of pricing, conversion, and deposit of funds; regulatory compliance requirements; and service provider fees. It also establishes requirements that state agencies must meet to offer digital asset payments, such as: record retention, fees, refunds and internal controls.

Fiscal Information

5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:
A) State budget:
This rule is intended to be budget neutral to the state. Any costs associated with converting digital assets to legal tender will be passed through to the person wishing to use a digital asset as a means of making a payment. In addition, if there are costs that an agency will incur to implement, the statute allows the agency to charge a fee to recover those costs. Thus, those costs would also be passed through to the person wishing to use the digital asset. No funds were appropriated to implement this, so agencies wishing to accept digital assets as a form of payment would either charge a fee to cover any costs or would need to find funding in their existing budget.
B) Local governments:
This rule does not apply to local governments.
C) Small businesses ("small business" means a business employing 1-49 persons):
This rule should not affect small businesses as it is specific to requirements for state agencies to accept virtual currency payments and sets standards for service providers wishing to contract with the state to convert virtual currency payments into fiat currency to satisfy state obligations. However, if state agencies wish to accept virtual currency, it will potentially allow small businesses to pay obligations to the state in virtual currency if they choose. If the small business chooses to pay in virtual currency, the small business will pay fees associated with the conversion. It is not possible to estimate the amount of fees they may pay, as it is not clear which agencies will choose to accept virtual currency and it is not clear with businesses may choose to pay with virtual currency. Payment with virtual currency is optional and not required.
D) Non-small businesses ("non-small business" means a business employing 50 or more persons):
This rule should not affect non-small businesses as it is specific to requirements for state agencies to accept virtual currency payments and sets standards for service providers wishing to contract with the state to convert virtual currency payments into fiat currency to satisfy state obligations. However, if state agencies wish to accept virtual currency, it will potentially allow non-small businesses to pay obligations to the state in virtual currency if they choose. If the non-small business chooses to pay in virtual currency, the non-small business will pay fees associated with the conversion. It is not possible to estimate the amount of fees they may pay, as it is not clear which agencies will choose to accept virtual currency and it is not clear with businesses may choose to pay with virtual currency. Payment with virtual currency is optional and not required.

E) Persons other than small businesses, non-small businesses, state, or local government entities ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an **agency**):

This rule should not affect persons as it is specific to requirements for state agencies to accept virtual currency payments and sets standards for service providers wishing to contract with the state to convert virtual currency payments into fiat currency to satisfy state obligations. However, if state agencies wish to accept virtual currency, it will potentially allow persons to pay obligations to the state in virtual currency if they choose. If the person chooses to pay in virtual currency, the person will pay fees associated with the conversion. It is not possible to estimate the amount of fees they may pay, as it is not clear which agencies will choose to accept virtual currency and it is not clear with businesses may choose to pay with virtual currency. Payment with virtual currency is optional and not required.

F) Compliance costs for affected persons (How much will it cost an impacted entity to adhere to this rule or its changes?):

Payment with virtual currency is optional, thus, compliance costs are not applicable for this program.

G) Regulatory Impact Summary Table (This table only includes fiscal impacts that could be measured. If there are inestimable fiscal impacts, they will not be included in this table. Inestimable impacts will be included in narratives above.)

General Information

2. Rule or section catchline:
R68-33. Industrial Hemp Retailer Permit
3. Purpose of the new rule or reason for the change (Why is the agency submitting this filing?):
Changes are needed to address the sale of viable industrial hemp seed, which has been increasing in the state. Under statute, any handling of viable seed is prohibited without a proper license. Additionally, viable seed is considered cannabis so it is important that it is regulated properly.
4. Summary of the new rule or change (What does this filing do? If this is a repeal and reenact, explain the substantive differences between the repealed rule and the reenacted rule):
Text has been added to a new Section R68-33-6 that sets permitting and record keeping requirements for persons who sell viable industrial hemp seed which will require that it only be sold by persons with an industrial hemp retail permit, only be sold to licensed industrial hemp producers, and that records of each sale be provided to the Department of Agriculture and Food (Department).

Fiscal Information

5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:
A) State budget:
There would be minimal impact to the Department in terms of inspections because the Department has already performed inspections of industrial hemp retail locations. There would be a small cost associated with creating a system to submit seed sale records through the Department website, estimated at \$5,000 for FY 2023.

B) Local governments:																												
Local governments do not participate in this program and would not be impacted.																												
C) Small businesses ("small business" means a business employing 1-49 persons):																												
The changes add some additional recordkeeping requirements that could impact small businesses but fiscal impact would be negligible.																												
D) Non-small businesses ("non-small business" means a business employing 50 or more persons):																												
The changes add some additional recordkeeping requirements that could impact non-small businesses but fiscal impact would be negligible.																												
E) Persons other than small businesses, non-small businesses, state, or local government entities ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an <i>agency</i>):																												
The changes add some additional recordkeeping requirements that could impact other persons who are permitted or licensed under this program, but fiscal impact would be negligible.																												
F) Compliance costs for affected persons (How much will it cost an impacted entity to adhere to this rule or its changes?):																												
Compliance cost would not be impacted because the additional recordkeeping requirement would incur only negligible costs. Fees charged by the Department would not change.																												
G) Regulatory Impact Summary Table (This table only includes fiscal impacts that could be measured. If there are inestimable fiscal impacts, they will not be included in this table. Inestimable impacts will be included in narratives above.)

3. Purpose of the new rule or reason for the change (Why is the agency submitting this filing?):

Section R151-3-1 contains clerical changes to update language, separate one section into two, and to simplify the language used.
Sections R151-3-2 through R151-3-8 now establish the procedure for ADA complaints, their investigation, decision, appeal, record classification, and relationship to other laws.

Fiscal Information

5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:

A) State budget:

This rule does not deal in any fees or any revenue generation for the state and will not affect the state budget.

B) Local governments:

Local governments are not typically involved in ADA complaints before the Department of Commerce and are not impacted by this amendment.

C) Small businesses ("small business" means a business employing 1-49 persons):

This rule is procedural in nature and generally involves individuals and no discernable impact is apparent for small businesses.

D) Non-small businesses ("non-small business" means a business employing 50 or more persons):

This rule is procedural in nature and generally involves individuals and no discernable impact is apparent for non-small businesses.

E) Persons other than small businesses, non-small businesses, state, or local government entities ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an **agency**):

This rule is procedural in nature and has no discernable costs for a person to file an ADA complaint or to file an appeal of a Division decision on an ADA complaint.

F) Compliance costs for affected persons (How much will it cost an impacted entity to adhere to this rule or its changes?):

This rule is procedural in nature and has no discernable costs for a person to file an ADA complaint or to file an appeal of a Division decision on an ADA complaint.

H) Department head comments on fiscal impact and approval of regulatory impact analysis:

The Executive Director of the Department of Commerce, Margaret W. Busse, has reviewed and approved this regulatory impact analysis: The Department of Commerce proposes amendments to update the Department's ADA rule. Minimal amendments have been made to update the language of this rule to conform to rulewriting standards and make nonsubstantive formatting changes for clarity. Formatting changes were made throughout this rule to conform this rule to the Utah Rulewriting Manual in accordance with Executive Orders No. 2021-1 and 2021-12.

Small Businesses (less than 50 employees): The amendment to the Department's Americans with Disabilities Act Rule is minimal and will have no impact on the costs required for small businesses in Utah. The amendments as a whole should allow for greater efficiency and clarity for procedures with the Department and its constituents. Accordingly, no fiscal impact is expected as these costs are either inestimable or there is no fiscal impact.

General Information

2. Rule or section catchline:
 R746-349. Competitive Entry and Reporting Requirements

3. Purpose of the new rule or reason for the change (Why is the agency submitting this filing?):

A recent Public Service Commission (PSC) decision interpreted the relevant statutes to allow competitive telecommunications providers to obtain "carrier of last resort" certificates in overlapping service areas. This created a need to ensure that the Utah Universal Service Fund (UUSF) does not support multiple, redundant sets of infrastructure in the same area. Following the PSC decision allowing overlapping service areas, interested stakeholders met for over a year to negotiate rule language to prevent duplicative UUSF support. Section R746-349-10 is the consensus result of that process. This filing also corrects typographical errors and makes other nonsubstantive changes to bring Rule R746-349 into compliance with the Utah Rulewriting Manual and checklist.

4. Summary of the new rule or change (What does this filing do? If this is a repeal and reenact, explain the substantive differences between the repealed rule and the reenacted rule):

Section R746-349-10 establishes requirements if a certificated carrier of last resort seeks UUSF support for a service area for which another provider is also a certificated carrier of last -resort. Section R746-349-10 establishes the information and plans that the telecommunications provider must include with an application for UUSF support, the notice that must be provided to the competing certificated telecommunications provider, and the guidelines under which all interested parties may intervene and participate, and the criteria that the PSC will consider when determining UUSF support. This filing also corrects typographical errors and makes other nonsubstantive changes to bring Rule R746-349 into

compliance with the Utah Rulewriting Manual and checklist.

Fiscal Information

5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:

A) State budget:

Changes in Rule R746-349 will not directly impact the state budget. The state agencies involved will adjudicate the applications contemplated under this rule within the existing processes governing UUSF distributions. Implementation of this rule could increase distributions from the UUSF overall, but the total amount is impossible to predict in advance. UUSF distributions have no impact on any other state budget accounts, including the education and general funds. All other changes to the rule are nonsubstantive.

B) Local governments:

Changes in Rule R746-349 will not have any fiscal impact on local governments. While local governments have an interest in the availability of adequate telecommunications services for their residents, Section R746-349-10 does not impose any requirements or burdens on those governments. All other changes to this rule are nonsubstantive.

C) Small businesses ("small business" means a business employing 1-49 persons):

Changes in Rule R746-349 will not have any fiscal impact on small businesses. Nothing in Section R746-349-10 is mandatory unless a telecommunications provider (which in some instances might be a small business) chooses to seek to serve an area already served by another provider. Section R746-349-10 does not impact existing UUSF distributions, but only potential future distributions in the event a provider chooses to take advantage of the opportunity provided by Section R746-349-10. All other changes to this rule are nonsubstantive.

D) Non-small businesses ("non-small business" means a business employing 50 or more persons):

Changes in Rule R746-349 will not have any fiscal impact on non-small businesses. Nothing in Section R746-349-10 is mandatory unless a telecommunications provider (which in some instances might be a non-small business) chooses to seek to serve an area already served by another provider. Section R746-349-10 does not impact existing UUSF distributions, but only potential future distributions in the event a provider chooses to take advantage of the opportunity provided by Section R746-349-10. All other changes to this rule are nonsubstantive.

E) Persons other than small businesses, non-small businesses, state, or local government entities ("person" means any individual, partnership, corporation,

association, governmental entity, or public or private organization of any character other than an **agency**):

Changes in Rule R746-349 will not have any fiscal impact on any other persons. Nothing in Section R746-349-10 is mandatory unless a telecommunications provider chooses to seek to serve an area already served by another provider. Section R746-349-10 does not impact existing UUSF distributions, but only potential future distributions in the event a provider chooses to take advantage of the opportunity provided by Section R746-349-10. Customers of telecommunications providers that take advantage of changes in Rule R746-349 will not face any mandatory compliance costs, but may benefit from the availability of new telecommunications infrastructure supported by the UUSF, if they choose to purchase the services supported by that infrastructure. All other changes to this rule are nonsubstantive.

F) Compliance costs for affected persons (How much will it cost an impacted entity to adhere to this rule or its changes?):

Changes in Rule R746-349 will not have any compliance costs. Nothing in Section R746-349-10 is mandatory unless a telecommunications provider chooses to seek to serve an area already served by another provider. Section R746-349-10 does not impact existing UUSF distributions, but only potential future distributions in the event a provider chooses to take advantage of the opportunity provided by this rule. Customers of telecommunications providers that take advantage of changes in Rule R746-349 will not face any mandatory compliance costs, but may benefit from the availability of new telecommunications infrastructure supported by the UUSF, if they choose to purchase the services supported by that infrastructure. All other changes to this rule are nonsubstantive.

3. Purpose of the new rule or reason for the change (Why is the agency submitting this filing?):

Section 59-2-515 authorizes the State Tax Commission to make rules necessary to effectuate the Farmland Assessment Act. Section 59-2-514 creates the State Farmland Advisory Committee (Committee) and requires

a person appointed by the Tax Commission to serve as chair. This Committee reviews several classifications of land in agricultural use in the various areas of the state and recommends a range of values for each of the classifications based upon productive capabilities of the land when devoted to agricultural use. The recommendations are then submitted to the Tax Commission for approval and publication in rule. This proposed rule represents the committee's recommendations.

4. Summary of the new rule or change (What does this filing do? If this is a repeal and reenact, explain the substantive differences between the repealed rule and the reenacted rule):

This amendment provides 2023 updates for a range of values for classifications of agricultural land throughout the state based upon productive capabilities of the land when devoted to agricultural use.

Fiscal Information

5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:

A) State budget:

The aggregate anticipated cost or savings to the state budget is undetermined. However, based on available information, the overall aggregate anticipated cost or savings to the state budget is expected to be minimal as a result of this amendment. The Education Fund receives revenue based on increased or decreased real and personal property valuation, including property assessed under the FAA. Property valuation changes have been recommended by class and by county. No total cost or savings can be calculated without an exhaustive study of farmland acreage in each county by class and a listing of property newly qualifying or no longer qualifying for FAA assessment in the coming year.

B) Local governments:

The aggregate anticipated cost or savings to local governments is undetermined. However, based on available information, the overall aggregate anticipated cost or savings to local governments is expected to be minimal. Local governmental entities receive tax revenue based on increased or decreased property valuation, including property assessed under FAA. Property valuation changes have been recommended by class and by county. No total cost or savings can be calculated without an exhaustive study of farmland acreage in each county by class and a listing of property newly qualifying or no longer qualifying for FAA assessment in the coming year. Additionally, county assessors' offices statewide will be required to input the new value indicators into their systems to be applied against the acreage for individual properties. This input process is easily accomplished on an annual basis and represents no significant cost in time or money to the assessors' offices.

C) Small businesses ("small business" means a business employing 1-49 persons):

The aggregate anticipated costs or savings to small businesses is undetermined. However, based on available information, the aggregate costs or savings to small businesses as a cohort is expected to be minimal. Each individual small business with property eligible for assessment under the FAA may see a change in value which may result in costs or savings. The extent of these costs or savings are subject to the specific small businesses' unique mix of property class and situs county. No total cost or savings can be calculated without an exhaustive study of farmland acreage in each county by class and a listing of property newly qualifying or no longer qualifying for FAA assessment in the coming year. Additionally, any cost or savings estimate will be further altered by changes to local property tax rates.

D) Non-small businesses ("non-small business" means a business employing 50 or more persons):

The aggregate anticipated costs or savings to non-small businesses is undetermined. However, based on available information, the aggregate costs or savings to non-small businesses as a cohort is expected to be minimal. Each individual non-small business with property eligible for assessment under the FAA may see a change in value which may result in costs or savings. The extent of costs or savings are subject to the specific non-small businesses' unique mix of property class and situs county. No total cost or savings can be calculated without an exhaustive study of farmland acreage in each county by class and a listing of property newly qualifying or no longer qualifying for FAA assessment in the coming year. Additionally, any cost or savings estimate will be further altered by changes to local property tax rates.

E) Persons other than small businesses, non-small businesses, state, or local government entities ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an **agency**):

The aggregate anticipated costs or savings to persons other than small businesses, non-small businesses, state, or local government entities (persons) is undetermined. However, based on available information, the aggregate costs or savings to persons as a cohort is expected to be minimal. Each person with property eligible for assessment under the FAA may see a change in value which may result in costs or savings. The extent of costs or savings are subject to the specific person's unique mix of property class and situs county. No total cost or savings can be calculated without an exhaustive study of farmland acreage in each county by class and a listing of property newly qualifying or no longer qualifying for FAA assessment in the coming year. Additionally, any cost or savings estimate will be further altered by changes to local property tax rates.

F) Compliance costs for affected persons (How much will it cost an impacted entity to adhere to this rule or its changes?):

County assessors' offices statewide will be required to input the new value indicators into their systems to be applied against the acreage for individual properties. This input process is easily accomplished on an annual basis and represents no significant compliance cost in time or money to the assessors' offices.

G) Regulatory Impact Summary Table (This table only includes fiscal impacts that could be measured. If there are inestimable fiscal impacts, they will not be included in this table. Inestimable impacts will be included in narratives above.)

NOTICES OF 120-DAY (EMERGENCY) RULES

An agency may file a **120-DAY (EMERGENCY) RULE** when it finds that regular rulemaking procedures would:

- (a) cause an imminent peril to the public health, safety, or welfare;
- (b) cause an imminent budget reduction because of budget restraints or federal requirements; or
- (c) place the agency in violation of federal or state law (Subsection 63G-3-304(1)).

As with a **PROPOSED RULE**, a **120-DAY RULE** is preceded by a **RULE ANALYSIS**. This analysis provides summary information about the **120-DAY RULE** including the name of a contact person, justification for filing a **120-DAY RULE**, anticipated cost impact of the rule, and legal cross-references.

A **120-DAY RULE** is effective when filed with the Office of Administrative Rules, or on a later date designated by the agency. A **120-DAY RULE** is effective for 120 days or until it is superseded by a permanent rule. Because of its temporary nature, a **120-DAY RULE** is not codified as part of the *Utah Administrative Code*.

The law does not require a public comment period for **120-DAY RULES**. However, when an agency files a **120-DAY RULE**, it may file a **PROPOSED RULE** at the same time, to make the requirements permanent.

Emergency or **120-DAY RULES** are governed by Section 63G-3-304, and Section R15-4-8.

FIVE-YEAR NOTICES OF REVIEW AND STATEMENTS OF CONTINUATION

Within five years of an administrative rule's original enactment or last five-year review, the agency is required to review the rule. This review is intended to help the agency determine, and to notify the public, that the administrative rule in force is still authorized by statute and necessary. Upon reviewing a rule, an agency may: repeal the rule by filing a **PROPOSED RULE**; continue the rule as it is by filing a **FIVE-YEAR NOTICE OF REVIEW AND STATEMENT OF CONTINUATION (REVIEW)**; or amend the rule by filing a **PROPOSED RULE** and by filing a **REVIEW**. By filing a **REVIEW**, the agency indicates that the rule is still necessary.

A **REVIEW** is not followed by the rule text. The rule text that is being continued may be found in the online edition of the *Utah Administrative Code* available at adminrules.utah.gov. The rule text may also be inspected at the agency or the Office of Administrative Rules. **REVIEWS** are effective upon filing.

REVIEWS are governed by Section 63G-3-305.

General Information

2. Rule catchline:
R527-36. Collection of Child Support After a Termination of Parental Rights or Adoption
3. A concise explanation of the particular statutory provisions under which the rule is enacted and how these provisions authorize or require this rule:
This rule is authorized pursuant to Subsection 62A-11-107(8). Section 80-4-105 divests parents of their legal obligation to support a child when there is an order for the termination of parental rights. Section 78B-6-138 releases parents of their legal obligation to support a child in the event the child is adopted. This rule clarifies that Office of Recovery Services will not collect child support arrears in cases where a parent is released from the legal obligation to pay child support pursuant to an order terminating parental rights or a decree of adoption unless the support is preserved in the order terminating parental rights or the decree of adoption.
4. A summary of written comments received during and since the last five-year review of this rule from interested persons supporting or opposing this rule:
There have been no comments received since this rule became effective on 09/26/2017. This is the initial five-year review of this rule.
5. A reasoned justification for continuation of this rule, including reasons why the agency disagrees with comments in opposition to this rule, if any:
This rule is necessary because the statutes under which it is enacted are still in effect. This rule describes the release of parents from their legal obligation to pay child support and provide medical support if there exists a termination of parental rights order or an adoption order. Therefore, this rule should be continued.

This rule establishes a uniform order of benefit determination under which plans pay coordination of benefit claims, reduce duplication of benefits, and provide greater efficiency in the processing of claims when a person is covered under more than one plan.

4. A summary of written comments received during and since the last five-year review of this rule from interested persons supporting or opposing this rule:

The Department of Insurance has received no written comments regarding this rule during the past five years.
