# EXECUTIVE DOCUMENTS

---

Under authority granted by the Utah Constitution and various federal and state statutes, the Governor periodically issues **EXECUTIVE DOCUMENTS**, which can be categorized as either Executive Orders, Proclamations, and Declarations. Executive Orders set policy for the executive branch; create boards and commissions; provide for the transfer of authority; or otherwise interpret, implement, or give administrative effect to a provision of the Constitution, state law or executive policy. Proclamations call special or extraordinary legislative sessions; designate classes of cities; publish states-of-emergency; promulgate other official formal public announcements or functions; or publicly avow or cause certain matters of state government to be made generally known. Declarations designate special days, weeks or other time periods; call attention to or recognize people, groups, organizations, functions, or similar actions having a public purpose; or invoke specific legislative purposes (such as the declaration of an agricultural disaster).

The Governor's Office staff files **EXECUTIVE DOCUMENTS** that have legal effect with the Office of Administrative Rules for publication and distribution.

## NOTICES OF PROPOSED RULES

---

A state agency may file a **PROPOSED RULE** when it determines the need for a substantive change to an existing rule. With a **NOTICE OF PROPOSED RULE**, an agency may create a new rule, amend an existing rule, repeal an existing rule, or repeal an existing rule and reenact a new rule. Filings received between November 02, 2023, 12:00 a.m., and November 15, 2023, 11:59 p.m. are included in this, the December 01, 2023, issue of the *Utah State Digest*.

In this publication, each **PROPOSED RULE** is preceded by a **RULE ANALYSIS**. This analysis provides summary information about the **PROPOSED RULE** including the name of a contact person, anticipated cost impact of the rule, and legal cross-references.

The law requires that an agency accept public comment on **PROPOSED RULES** published in this issue of the *Utah State Digest* until at least January 03, 2024. The agency may accept comment beyond this date and will indicate the last day the agency will accept comment in the **RULE ANALYSIS**. The agency may also hold public hearings. Additionally, citizens or organizations may request the agency hold a hearing on a specific **PROPOSED RULE**. Section 63G-3-302 requires that a hearing request be received by the agency proposing the rule "in writing not more than 15 days after the publication date of the proposed rule."

From the end of the public comment period through April 01, 2024, the agency may notify the Office of Administrative Rules that it wants to make the **PROPOSED RULE** effective. The agency sets the effective date. The date may be no fewer than seven calendar days after the close of the public comment period nor more than 120 days after the publication date of this issue of the *Utah State Digest*. Alternatively, the agency may file a **CHANGE IN PROPOSED RULE** in response to comments received. If the Office of Administrative Rules does not receive a **NOTICE OF EFFECTIVE DATE** or a **CHANGE IN PROPOSED RULE**, the **PROPOSED RULE** lapses.

The public, interest groups, and governmental agencies are invited to review and comment on **PROPOSED RULES**. *Comment may be directed to the contact person identified on the **RULE ANALYSIS** for each rule.*

**PROPOSED RULES** are governed by Section 63G-3-301, Rule R15-2, and Sections R15-4-3, R15-4-4, R15-4-5a, R15-4-9, and R15-4-10.

**General Information**

<b>2. Rule or section catchline:</b>
R64-5. Temporary Water Shortage Emergency Loan Program
<b>3. Purpose of the new rule or reason for the change:</b>
This proposed rule provides the implementation process for H.B. 150, Emergency Water Shortages Amendments, which the legislature passed in the 2023 General Session.
<b>4. Summary of the new rule or change:</b>
This proposed rule defines terms, provides eligibility requirements, outlines application procedures, and provides information regarding the Department of Agriculture and Food (Department) loan administration and repayment to interrupted water users during temporary water shortages emergency that are declared by the governor under Section 73-3d-201.

**Fiscal Information**

<b>5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:</b>
--

<b>A) State budget:</b>
At this time there is no anticipated cost or benefit to the state's budget because this rule would only be implemented during a temporary water shortage declared by the Governor.
The Department does not foresee that such an emergency will be declared in the next three years. H.B. 150 appropriated and earmarked \$5,000,000 in the Agriculture Resource Development Loan (ARDL) account to fund loans if needed.
Since the Department cannot forecast a disaster, the Department anticipates no impact on the budget and are planning for the funding to remain in the ARDL account until it is needed.
<b>B) Local governments:</b>
This rule would impact local governments if the local government was involved in a temporary water shortage emergency and either provided or needed water during the shortage.
Currently, the Department is unable to estimate the impact because a declared disaster has many variables and unforeseen circumstances. This rule provides the procedures for a local government to understand eligibility and loan requirements.
<b>C) Small businesses</b> ("small business" means a business employing 1-49 persons):
This rule would not have a fiscal impact on small businesses because the Department does not anticipate that a temporary water shortage emergency will be declared in the next three years.
If one was declared, the Department does not have any way to anticipate the cost to small businesses who may preferentially use water or have their water use interrupted.
<b>D) Non-small businesses</b> ("non-small business" means a business employing 50 or more persons):
This rule would not have a fiscal impact on non-small businesses because the Department does not anticipate that a temporary water shortage emergency will be declared in the next three years.
If one was declared, the Department does not have any way to anticipate the cost to non-small businesses who may preferentially use water or have their water use interrupted.
<b>E) Persons other than small businesses, non-small businesses, state, or local government entities</b> ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an <b>agency</b> ):

This rule would not have a fiscal impact on other persons because the Department does not anticipate that a temporary water shortage emergency will be declared in the next three years.

If one was declared, the Department does not have any way to anticipate the cost to other persons who may preferentially use water or have their water use interrupted.

**F) Compliance costs for affected persons** (How much will it cost an impacted entity to adhere to this rule or its changes?):

There are no compliance costs associated with this rule.

**G) Regulatory Impact Summary Table** (This table only includes fiscal impacts that could be measured. If there are inestimable fiscal impacts, they will not be included in this table. Inestimable impacts will be included in narratives above.)

**General Information**

<b>2. Rule or section catchline:</b>
R68-29. Quality Assurance Testing on Cannabis
<b>3. Purpose of the new rule or reason for the change:</b>
Changes are required based on changes made during the 2023 General Session under S.B. 91 to clarify requirements related to cannabinoid product testing and the presence of seeds.
<b>4. Summary of the new rule or change:</b>
In Section R68-29-2, artificially derived cannabinoid is added to the definition of adulterant and a definition is added for "unknown cannabinoid", consistent with changes under S.B. 91 (2023).
A limit related to the presence of seeds has been added to Section R68-29-3.
Also consistent with changes in S.B. 91 (2023), clarifications are made in Section R68-29-7 related to cannabinoid testing and lab results that would fail testing due to the presence of unknown or artificially derived cannabinoids.
Action limits for cannabinoids have been set in a new Table 2 and Table 3 which have been added to the rule.

**Fiscal Information**

<b>5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:</b>
<b>A) State budget:</b>
There is no anticipated cost or savings to the Department of Agriculture and Food (Department). The Department was already doing the cannabinoid testing required and charging licensees for that testing.
<b>B) Local governments:</b>
Local governments do not manufacture cannabis products and will not be impacted by these rule changes.

<b>C) Small businesses</b> ("small business" means a business employing 1-49 persons):
There should be no impact on small businesses because testing costs will not change overall.
<b>D) Non-small businesses</b> ("non-small business" means a business employing 50 or more persons):
There should be no impact on non-small businesses because testing costs will not change overall.
<b>E) Persons other than small businesses, non-small businesses, state, or local government entities</b> ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an <b>agency</b> ):
Other persons do not manufacture cannabis products and will not be impacted by this rule change.
<b>F) Compliance costs for affected persons</b> (How much will it cost an impacted entity to adhere to this rule or its changes?):
Compliance costs will not be impacted. Testing costs and fees are not changing with these rule changes.

**General Information**

<b>2. Rule or section catchline:</b>
R151-4. Department of Commerce Administrative Procedures Act Rule

<b>3. Purpose of the new rule or reason for the change:</b>
The purpose of this amendment is to clarify proceedings, including that interlocutory appeals are not permitted and the process for obtaining a hearing extension.

This rule is also updated to meet the Rulewriting Manual for Utah requirements consistent with Executive Order No. 2021-12.

<b>4. Summary of the new rule or change:</b>
This amendment clarifies that interlocutory appeals are not permitted under the Utah Administrative Procedures Act.

The other change is to eliminate the requirement for the Executive Director to approve every hearing timeline extension beyond 240 days. This approval is unnecessary and may create a process holdup. Discretion is appropriately placed on the presiding officer of the hearing for this function.

Several nonsubstantive changes were made to correct the statutory reference in Subsection R151-4-901(2)(d)(ii) and to ensure this rule complies with the Rulewriting Manual for Utah requirements.

**Fiscal Information**

<b>5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:</b>
<b>A) State budget:</b>
This rule change is not expected to have fiscal impact on state government revenues or expenditures. The changes give clarity to Utah Professional Practices Advisory Commission (UPPAC) but do not add quantifiable costs for staff or UPPAC member time.

<b>B) Local governments:</b>
This rule change is not expected to have fiscal impact on local governments' revenues or expenditures. Local Education Agencies (LEAs) will not see any additional costs with the additional clarity for UPPAC.
<b>C) Small businesses</b> ("small business" means a business employing 1-49 persons):
This rule change is not expected to have fiscal impacts on small businesses' revenues or expenditures. This only affects UPPAC and educators.

**D) Non-small businesses** ("non-small business" means a business employing 50 or more persons):

There are no non-small businesses in the industry in question, Elementary and Secondary Schools (North American Industry Classification System (NAICS) 611110). Because there are no non-small businesses, they do not account for any service delivery for Elementary and Secondary Schools. Therefore, non-small businesses are not expected to receive increased or decreased revenues per year. This proposed rule change is not expected to have any fiscal impact on non-small businesses' revenues or expenditures because there are no applicable non-small businesses, and it does not require any expenditures of, or generate revenue for non-small businesses.

**E) Persons other than small businesses, non-small businesses, state, or local government entities** ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an **agency**):

<b>2. Rule or section catchline:</b>
R277-217. Educator Standards and LEA Reporting
<b>3. Purpose of the new rule or reason for the change:</b>
This rule is being amended to add new provisions to the educator standards and change Local Education Agency (LEA) reporting requirements to the Utah Professional Practices Advisory Commission (UPPAC) when there are alleged violations.

<b>4. Summary of the new rule or change:</b>
The amendments specifically clarify educator conduct that is prohibited, as well as conduct that is required.
The amendments also update requirements for an LEA that reports educator misconduct to UPPAC.

**Fiscal Information**

<b>5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:</b>
<b>A) State budget:</b>
This rule change is not expected to have fiscal impact on state government revenues or expenditures.
The changes apply to LEAs and educators.
<b>B) Local governments:</b>
This rule change is not expected to have fiscal impact on local governments' revenues or expenditures.
LEAs are now required to report educator conduct they become aware of through a parent. The requirement to notify UPPAC already existed for internal investigations, so this does not create a new process for LEAs.
The Utah State Board of Education (USBE) does not estimate that this will cause a quantifiable increase in LEA staff time. LEAs may wish to provide additional training to their educators to clarify educator conduct, but there are no requirements to do so.
<b>C) Small businesses ("small business" means a business employing 1-49 persons):</b>
This rule change is not expected to have fiscal impact on small businesses' revenues or expenditures.

**F) Compliance costs for affected persons** (How much will it cost an impacted entity to adhere to this rule or its changes?):

There are no compliance costs for affected persons. There are no quantifiable costs for LEAs or educators to comply with the rule changes.

**D) Non-small businesses** ("non-small business" means a business employing 50 or more persons):

There are no non-small businesses in the industry in question, Elementary and Secondary Schools (North American Industry Classification System (NAICS) 611110). Because there are no non-small businesses, they do not account for any service delivery for Elementary and Secondary Schools. Therefore, non-small businesses are not expected to receive increased or decreased revenues per year. This proposed rule change is not expected to have any fiscal impact on non-small businesses' revenues or expenditures because there are no applicable non-small businesses, and it does not require any expenditures of, or generate revenue for non-small businesses.

**E) Persons other than small businesses, non-small businesses, state, or local government entities** ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an **agency**):

This rule change is not expected to have fiscal impact on revenues or expenditures for persons other than small businesses, businesses, or local government entities. This only affects LEAs, USBE, and the State Charter School Board.

**F) Compliance costs for affected persons** (How much will it cost an impacted entity to adhere to this rule or its changes?):

There are no compliance costs for affected persons.

**General Information**

<b>2. Rule or section catchline:</b>
R277-752. Special Education Intensive Services Fund
<b>3. Purpose of the new rule or reason for the change:</b>
Because the Intensive Services Fund is being eliminated, the amendments update requirements on spending carry forward amount and create a sunset date for this rule.
<b>4. Summary of the new rule or change:</b>
The amendments establish a specific sunset date on 06/30/2024, reduce the maximum permitted carry forward amount, and require that Local Education Agencies (LEAs) spend down their carry forward prior to Fiscal Year 2025.

**Fiscal Information**

<b>5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:</b>
<b>A) State budget:</b>
This rule change is not expected to have fiscal impact on state government revenues or expenditures.
This largely affects LEAs with larger special education carryforward from prior fiscal years. The Utah State Board of Education (USBE) does not expect to see revenue returned to the Uniform School Fund and does not estimate a fiscal impact for the agency.
<b>B) Local governments:</b>
This rule change is not expected to have fiscal impact on local governments' revenues or expenditures.
This rule change changes special education carryover from 20% to 10%. LEAs carrying over more than the 10% will need to expend the additional funds or they will be returned to the Uniform School Fund.
This may impact LEAs with larger carryover balances, though it will not impact their unrestricted net position. USBE is unable to quantify an expected amount to be returned to the Uniform School Fund as LEAs with more than 10% of special education carryover funds represent a very small percentage statewide. USBE expects most or all of the excess to be spent down appropriately.
<b>C) Small businesses</b> ("small business" means a business employing 1-49 persons):
This rule change is not expected to have fiscal impacts on small businesses' revenues or expenditures. This only affects USBE and LEAs.
<b>D) Non-small businesses</b> ("non-small business" means a business employing 50 or more persons):
There are no non-small businesses in the industry in question, Elementary and Secondary Schools (North

American Industry Classification System (NAICS) 611110). Because there are no non-small businesses, they do not account for any service delivery for Elementary and Secondary Schools. Therefore, non-small businesses are not expected to receive increased or decreased revenues per year. This proposed rule change is not expected to have any fiscal impact on non-small businesses' revenues or expenditures because there are no applicable non-small businesses, and it does not require any expenditures of, or generate revenue for non-small businesses.

**E) Persons other than small businesses, non-small businesses, state, or local government entities** ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an **agency**):

This rule change is not expected to have fiscal impact on revenues or expenditures for persons other than small businesses, businesses, or local government entities. This only affects USBE and LEAs.

**F) Compliance costs for affected persons** (How much will it cost an impacted entity to adhere to this rule or its changes?):

There are no compliance costs for affected persons.

USBE may need to require LEAs with larger than a 10% special education carryforward balance to return funds to the Uniform School Fund. USBE believes all LEAs will spend down the amounts in excess of 10% by the June 2026 due date.

R313-19-13. Exemptions

**3. Purpose of the new rule or reason for the change:**

The purpose of this amendment is to incorporate changes requested by the Nuclear Regulatory Commission (NRC) to ensure compatibility of Utah rules with the federal regulations.

Additionally, the Division of Waste Management and Radiation Control, Radiation (Division) is correcting formatting and typographical errors that have been discovered in this rule.

**4. Summary of the new rule or change:**

Subsection R313-19-13(1)(c)(vii) addresses thorium or uranium contained in or on finished optical lenses and mirrors.

The NRC commented that the word "mirror" had been left out of the text in Subsection R313-19-13(1)(c)(vii)(A) and needed to be added for consistency. The words "or mirror" have been added to this subsection after the word "lens" wherever it appears.

The NRC commented that the word "uranium" had been left out of the text in Subsection R313-19-13(1)(c)(vii)(B) and needed to be added for consistency. The words "uranium or" have been added to this subsection before the word "thorium".

The NRC commented that citations to 10 CFR 40.32 (b) and 10 CFR 40.32(c) were missing from Subsection R313-19-13(1)(c)(ix)(B). These citations have been added.

R315-124. Procedures for Decisionmaking
<b>3. Purpose of the new rule or reason for the change:</b>
This rule is being amended to require the Division of Waste Management and Radiation Control, Waste Management (Division) to follow the requirements of Rule R315-124 in addition to the requirements found in Rule R315-311 for permit actions taken by the Director for nonhazardous, solid waste facilities.  The amendments also place clarifying language in the rule and provide the Director with the option to submit a request to modify, revoke, and reissue, or terminate a permit to public notice and public comment.
<b>4. Summary of the new rule or change:</b>
Rules R315-301 through R315-320 are being added to the list of rules in Section R315-124-1 indicating that Rule R315-124 applies to actions taken by the Director under the solid waste rules. Language is also being added to clarify that the Director's decision to deny a request constitutes a permit order under Rule R305-7.  Subsection R315-124-5(c)(1) is amended to clarify that a decision to revoke and reissue a permit only applies to hazardous waste facility permits.  Subsection R315-124-5(c)(3) is being amended to include minor modifications defined in Subsection R315-311-2(1).  Subsection R315-124-5(d) is being amended to include Subsection R315-311-2(3) as one of the rules that allow the Director to terminate a permit. Subsection R315-124-10(a)(2) is being amended to clarify that unless the Director decides to submit a request to public notice, comment or hearing as allowed under the amended Subsection R315-124-5(b), no public notice is required if a request is denied.  Subsection R315-124-10(c)(2)(ii) is being amended so that newspaper notices are required for both hazardous waste facilities and non-hazardous solid waste facilities,

but radio notice is only required for hazardous waste facilities.

Subsection R315-124-19(a)(1) is being amended to direct the reader to the proper rules for filing an appeal from a decision to terminate a permit.

Subsection R315-124-20(e) is being added to the rule to clarify that computations of time specified in Section R315-124-20 do not supersede the computations of time found in Rule R305-7.

Subsection R315-124-31(a) and Subsection R315-124-32(a) are being amended to make it clear that Sections R315-124-31 and R315-124-32 are applicable to hazardous waste management units but not to nonhazardous solid waste management facilities.

<b>2. Rule or section catchline:</b>
R315-302. Solid Waste Facility Location Standards, General Facility Requirements, and Closure Requirements
<b>3. Purpose of the new rule or reason for the change:</b>
The Division of Waste Management and Radiation Control, Waste Management (Division) is amending this rule to clarify rule references, providing clarifying language, and amending rule language in accordance with legislation.

The Division is also correcting typographical and rule formatting errors.

<b>4. Summary of the new rule or change:</b>
Language is being added to Section R315-302-1 as required by H.B. 357 that was passed during the 2013 General Session of the Utah Legislature. This language requires new facilities to conduct and pay for a traffic impact study.
A citation to Subsections R315-302-2(4)(c) and (d) is being added to Subsection R315-302-2(4)(iii) to clarify that these requirements must also be addressed when submitting an annual report.
Language is being added to Subsection R315-302-2(4) as required by H.B. 115 that was passed during the 2017 General Session of the Utah Legislature. This language requires facilities that treat, transfer, incinerate, or dispose of solid waste to submit quarterly reports and to pay fees.

**Fiscal Information**

<b>5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:</b>
<b>A) State budget:</b>
It is not anticipated that there will be any cost or savings to the state budget based on this amendment. It is not anticipated that the state will be seeking a permit for a facility that would require a traffic impact study or road improvements resulting from a study.
The cost of reviewing any traffic impact studies and quarterly reports is covered by the current agency budget.
<b>B) Local governments:</b>
There are no cost or savings for existing local government facilities due to this rule amendment.
The cost to local governments that may develop new solid waste disposal facilities in the future will be determined by the number of access roads to the facility, the services enlisted to evaluate traffic impacts, and the cost of any road improvements. Due to the number of variables involved it is not possible to estimate these costs.
The agency does not have any current applications from local governments that would be affected by this amendment and does not know when or if any applications for new facilities will be submitted.
<b>C) Small businesses ("small business" means a business employing 1-49 persons):</b>
There are no costs or savings for existing small businesses due to this amendment.
The cost to small businesses that may develop new solid waste disposal facilities in the future will be determined by

the number of access roads to the facility, the services enlisted to evaluate traffic impacts, and the cost of any road improvements. Due to the number of variables involved it is not possible to estimate these costs.

The agency is currently reviewing an application from a small business. However, it is unknown whether the business will continue to seek a permit because there are outstanding requests for additional information from the small business with no response in more than two years. Therefore, the agency is unable to estimate the costs of the traffic impact study on this business.

The agency does not have any other applications from small businesses that would be affected by this amendment and does not know when or if any applications for new facilities will be submitted.

**D) Non-small businesses** ("non-small business" means a business employing 50 or more persons):

There are no costs or savings for existing non-small business facilities due to this rule amendment.

The cost to non-small businesses that may decide to develop new solid waste disposal facilities in the future will be determined by the number of access roads to the facility, the services enlisted to evaluate traffic impacts, and the cost of any road improvements. Due to the number of variables involved it is not possible to estimate these costs.

The agency does not have any current applications from non-small businesses that would be affected by this amendment and does not know when or if any applications for new facilities will be submitted.

**E) Persons other than small businesses, non-small businesses, state, or local government entities** ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an **agency**):

There are no costs or savings for existing facilities operated by persons other than small businesses, non-small businesses, state, or local government entities due to this rule amendment.

The cost to persons other than small businesses, non-small businesses, state, or local government entities that may decide to develop new solid waste disposal facilities in the future will be determined by the number of access roads to the facility, the services enlisted to evaluate traffic impacts, and the cost of any road improvements. Due to the number of variables involved it is not possible to estimate these costs.

The agency does not have any current applications from persons other than small businesses, non-small businesses, state, or local government entities that would be affected by this amendment and does not know when or if any applications for new facilities will be submitted.

**F) Compliance costs for affected persons** (How much will it cost an impacted entity to adhere to this rule or its changes?):

There will be no changes in costs for existing facilities.

For a new facility, costs will be determined by the number of access roads to the facility, the services enlisted to evaluate traffic impacts, and the cost of any road improvements. These costs will vary on a case-by-case basis.

**G) Regulatory Impact Summary Table** (This table only includes fiscal impacts that could be measured. If there are inestimable fiscal impacts, they will not be included in this table. Inestimable impacts will be included in narratives above.)

Language was added to Section R315-310-1 to clarify that facility types not addressed specifically in sections of Rule R315-310 also require permits as found in other applicable parts of the rules. The amendment prevents disagreement between Section R315-310-1 and other parts of the rules, including the definition of "permit" in Subsection R315-301-2(55). The change will require compost facilities, transfer stations, recycling facilities, and waste pile facilities to apply for renewal of their permit every 10 years.
The citations to Subsection R315-310-1(a) found in Subsection R315-310-1(5) are being changed to the correct citation to Subsection R315-310-1(1).
Language is being added to Section R315-310-3 as required by H.B. 357 that was passed during the 2013 General Session of the Utah Legislature. The language details the financial information that local governments must submit with a permit application for a new facility.
Language has been deleted from Subsection R315-310-2(2) which required two copies of a permit application to be submitted to the director. Permit applications are now being received electronically and duplicate copies are not needed.
Language has been added to Subsection R315-310-3(1)(b) that extends the exemption for engineer signatures on designs and drawings to facility types not listed in Subsection R315-310-1(1)(b).
The citation to Subsection R315-310-3(3)(a)(i) found in Subsection R315-310-3(2)(a)(ii) and Subsection R315-310-3(2)(b) is being changed to the correct citation to Subsection R315-310-3(2)(a)(i).
Language has been added to Subsection R315-310-3(3)(a) to clarify that information to demonstrate that the requirements of Subsection 19-6-108(11) have been satisfied must be included with the permit application for a Commercial Solid Waste Disposal facility.
The citation to Subsections R315-310-3(2)(a), (b), and (c) found in Subsection R315-310-3(3)(d) is being changed to the correct citation to Subsections R315-310-3(3)(a), (b), and(c).
Language is being added to Subsection R315-310-3(3)(e) as required by S.B. 68 that was passed during the 2011 General Session of the Utah Legislature. The language clarifies that the governor's and legislature's approvals may be automatically revoked in accordance with Utah Code.
Language has been added to Subsection R315-310-10(1) that consolidates the information requirements for a post-closure care permit into one location to make it easier for applicants to locate the requirements. The language contains citations to the various sections of the solid waste rules where each of the requirements can be found.

A new requirement for operators of waste piles was added at Subsection R315-310-10(1)(e) that requires these operators to submit the information required by Subsection R315-314-2(2)(f).

**Fiscal Information**

**5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:**

**A) State budget:**

It is not anticipated that there will be any cost or savings to the state budget based on these amendments. The majority of the changes are clarifications and corrections.

New requirements that may have a cost impact include a permit renewal requirement for compost facilities, transfer stations, recycling facilities, and waste pile facilities.

The state does not currently operate any of these and it is not anticipated that it will in the future so there are no costs to the state budget due to these requirements.

Additionally, the amendments include a requirement for certain types of waste pile facilities to provide information and any costs that may be associated with gathering the information would be minimal and not measurable. The state does not operate an affected waste pile facility.

**B) Local governments:**

The majority of the changes are clarifications and corrections. However, there are 23 facilities operated by local governments that will now be required to apply for a permit renewal every 10 years. The facilities affected include compost facilities, transfer stations, recycling facilities, and waste pile facilities. It is typical for these facilities to make corrections or updates to their permits as needed. These facility types currently make changes to their plans of operation on an as-needed basis depending on changes to business practices, and occasional changes that improve compliance and implement best management practices. The efforts to make such changes are currently absorbed in the budgets of these facilities. It cannot be estimated whether the renewal of these plans of operation on a 10-year basis will increase costs.

Additionally, the amendments include a requirement for certain types of waste pile facilities to provide information and any costs that may be associated with gathering the information would be minimal and not measurable. No local governments currently operate an affected waste pile facility.

**C) Small businesses ("small business" means a business employing 1-49 persons):**

The majority of the changes are clarifications and corrections. However, there are 13 facilities operated by small businesses that will now be required to apply for a permit renewal every 10 years. The facilities affected include compost facilities, transfer stations, recycling

facilities, and waste pile facilities. These facility types currently make changes to their plans of operation on an as-needed basis depending on changes to business practices, and occasional changes that improve compliance and implement best management practices. The efforts to make such changes are currently absorbed in the budgets of these facilities. It cannot be estimated whether the renewal of these plans of operations on a 10-year basis will increase costs.

Additionally, the amendments include a requirement for certain types of waste pile facilities to provide information and any costs that may be associated with gathering the information would be minimal and not measurable.

**D) Non-small businesses ("non-small business" means a business employing 50 or more persons):**

The majority of the changes are clarifications and corrections. However, there are 10 facilities operated by non-small businesses that will now be required to apply for a permit renewal every 10 years. The facilities affected include compost facilities, transfer stations, recycling facilities, and waste pile facilities. These facility types currently make changes to their plans of operation on an as-needed basis depending on changes to business practices, and occasional changes that improve compliance and implement best management practices. The efforts to make such changes are currently absorbed in the budgets of these facilities. It cannot be estimated whether the renewal of these plans of operations on a 10-year basis will increase costs.

Additionally, the amendments include a requirement for certain types of waste pile facilities to provide information and any costs that may be associated with gathering the information would be minimal and not measurable.

**E) Persons other than small businesses, non-small businesses, state, or local government entities ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an *agency*):**

The majority of the changes are clarifications and corrections. However, there is 1 waste pile facility operated by a person other than a small business, non-small business, state, or local government that will now be required to apply for a permit renewal every 10 years. These facility types currently make changes to their plans of operation on an as-needed basis depending on changes to business practices, and occasional changes that improve compliance and implement best management practices. The efforts to make such changes are currently absorbed in the budgets of these facilities. It cannot be estimated whether the renewal of these plans of operations on a 10-year basis will increase costs.

Additionally, the amendments include a requirement for certain types of waste pile facilities to provide information and any costs that may be associated with gathering the information would be minimal and not measurable.

**F) Compliance costs for affected persons** (How much will it cost an impacted entity to adhere to this rule or its changes?):

The amendments include new requirements for compost facilities, transfer stations, recycling facilities, and waste pile facilities to apply for a permit renewal every 10 years. These facility types currently make changes to their plans of operation on an as-needed basis depending on changes to business practices, and occasional changes that improve compliance and implement best management practices. The efforts to make such changes are currently absorbed in the budgets of these facilities. It cannot be estimated whether the renewal of these plans of operations on a 10-year basis will increase costs.

**General Information**

**2. Rule or section catchline:**  
 R315-311. Permit Approval For Solid Waste Disposal, Waste Tire Storage, Energy Recovery, And Incinerator Facilities

**3. Purpose of the new rule or reason for the change:**  
 This rule is being amended to require the Division of Waste Management and Radiation Control, Waste Management (Division) to follow the requirements of Rule R315-124 in addition to the requirements found in Rule R315-311 for permit actions taken by the Director.

**4. Summary of the new rule or change:**  
 Citations to Rule R315-124 have been added at Subsection R315-311-1(1).

Subsection R315-311-1(1)(c) is being deleted because it is no longer needed with the amended Subsection R315-311-1(1), that provides that the application will be reviewed according to Section R315-124-3 and includes a similar requirement.

Subsection R315-311-1(2) is being reserved to maintain the numbering sequence of the existing rule. The former text has been removed because a permit application for which a draft permit is prepared must include all applicable requirements as found in Rules R315-301 through R315-320, as stated in the amended Subsection R315-124-6(d)(4).

Subsection R315-311-2(1) is being amended to require the Division to follow the requirements of Rule R315-124 for permit modification and termination requests.

The number of days for public comment is being changed from 30 to 45 in Subsection R315-311-2(1)(a). This subsection is also being amended to clarify that a public comment period for minor modifications may be required by Subsection R315-311-2(1)(b). The subsection is further amended to clarify that Subsection R315-311-2(1)(a)(vi) and Subsection R315-311-2(1)(a)(viii) are not minor modifications for coal combustion residual units.

Subsection R315-311-2(1)(a)(xi) and Subsection R315-311-2(1)(a)(xvi) are being amended to clarify that changes to sampling and analysis methods, procedures, and schedules are minor modifications if the changes conform to Rule R315-308.

The number of days for public comment is being changed from 30 to 45 in Subsection R315-311-2(1)(b).

Subsection R315-311-2(2) is being amended to require the Division to follow the requirements of Rule R315-124 for permit renewal in addition to the requirements of Section R315-311-3.

Subsection R315-311-2(3) is being amended to require the Division to follow the requirements of Rule R315-124 for permit termination requests.

Section R315-311-3 is being amended to change the number of days for public comment from 30 to 45 and to require the Division to follow the requirements of Rule R315-124.

Additionally, the Division is correcting typographical and formatting errors in the rule.

**Fiscal Information**

**5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:**

**A) State budget:**

Any costs for increased public participation activities will either be handled within the current budget of the Division or will be passed along to permittees, see below, and therefore, there will be no cost or savings to the state budget.

**B) Local governments:**

The cost of this amended rule to local governments will be the cost of publishing notice of the action being taken in local newspapers for compost facilities, transfer stations, recycling facilities, and waste pile facilities. This cost is billed by the Division to the permittee.

The cost of publishing a notice in a newspaper range from a low of \$48 to as high as \$311 depending on the size of the notice and the newspaper where it is being published. There are 23 permitted local government facilities that could be affected by this amended rule. Multiplying the number of permitted facilities by the estimated costs results in a cost range of \$1,104 to \$7,153.

**C) Small businesses ("small business" means a business employing 1-49 persons):**

The cost of this amended rule to small businesses will be the cost of publishing notice of the action being taken in local newspapers for compost facilities, transfer stations, recycling facilities, and waste pile facilities. This cost is billed by the Division to the permittee.

The cost of publishing a notice in a newspaper range from a low of \$48 to as high as \$311 depending on the size of the notice and the newspaper where it is being published. There are 13 permitted facilities operated by small businesses that could be affected by this amended rule.

Multiplying the number of permitted facilities by the estimated costs results in a cost range of \$624 to \$4,037.

**D) Non-small businesses** ("non-small business" means a business employing 50 or more persons):

The cost of this amended rule to non-small businesses will be the cost of publishing notice of the action being taken in local newspapers for compost facilities, transfer stations, recycling facilities, and waste pile facilities. This cost is billed by the Division to the permittee.

The cost of publishing a notice in a newspaper range from a low of \$48 to as high as \$311 depending on the size of the notice and the newspaper where it is being published. There are 10 permitted facilities operated by non-small businesses that could be affected by this amended rule. Multiplying the number of permitted facilities by the estimated costs results in a cost range of \$480 to \$3,110.

**E) Persons other than small businesses, non-small businesses, state, or local government entities** ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an **agency**):

The cost of this amended rule to persons other than small businesses, non-small businesses, state or local government entities will be the cost of publishing notice of the action being taken in local newspapers for compost facilities, transfer stations, recycling facilities, and waste pile facilities. This cost is billed by the Division to the permittee.

The cost of publishing a notice in a newspaper range from a low of \$48 to as high as \$311 depending on the size of the notice and the newspaper where it is being published. There is 1 permitted facility operated by a person other than small businesses, non-small businesses, state or local government entities that could be affected by this amended rule. Multiplying the number of permitted facilities by the estimated costs results in a cost range of \$48 to \$311.

**F) Compliance costs for affected persons** (How much will it cost an impacted entity to adhere to this rule or its changes?):

As stated above, the only cost for affected persons is the cost of publishing a notice in the newspaper of the action being taken by the Director for compost facilities, transfer stations, recycling facilities, and waste pile facilities.

There are no other compliance costs associated with this rule amendment.

**G) Regulatory Impact Summary Table** (This table only includes fiscal impacts that could be measured. If there are inestimable fiscal impacts, they will not be included in this table. Inestimable impacts will be included in narratives above.)

R315-314. Facility Standards for Piles Used for Storage and Treatment
<b>3. Purpose of the new rule or reason for the change:</b>
The Division of Waste Management and Radiation Control, Waste Management (Division) is amending this rule to correct a rule reference and add post-closure requirements.
The Division is also correcting typographical and rule formatting errors.

<b>4. Summary of the new rule or change:</b>
Requirements for post-closure of a waste pile are being added at Subsection R315-314-2(2)(f).
The citation to Subsection R315-314-3(3)(1) found at Subsection R315-314-3(5)(b) is being corrected to Subsection R315-314-3(3)(k).

**Fiscal Information**

<b>5. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:</b>
<b>A) State budget:</b>
There is no anticipated cost or savings to the state budget. There are currently no permitted waste piles operated by the state.
If the state has a future need for a permitted waste pile that has the potential to produce leachate, the amended language may result in costs if the pile remains in place for more than 1 year without the director's approval. The cost would be variable but can be estimated at an average of less than \$500.
<b>B) Local governments:</b>
There is no anticipated cost or savings to any local governments due to the amendments because there are no permitted waste piles currently being operated by local governments.
If a local government has a future need for a permitted waste pile that has the potential to produce leachate, the amended language may result in costs if the pile remains in place for more than 1 year without the director's approval. The cost would be variable but can be estimated at an average of less than \$500.
<b>C) Small businesses</b> ("small business" means a business employing 1-49 persons):
There is currently 1 small business operating a permitted waste pile in the state that has the potential to produce leachate. The added language provides clarification of the existing requirements found in Section R315-301-6, and the additional requirement to record the information on the property's title if the pile remains in place for more than 1 year without the director's approval.
The existing small business with a permitted waste pile is expected to convert to a landfill within the required timeframe, so no additional costs are expected for this facility. If another small business has a future need for a permitted waste pile that has the potential to produce leachate, the amended language may result in costs if the pile remains in place for more than 1 year without the director's approval. The cost would be variable but can be estimated at an average of less than \$500.

**D) Non-small businesses** ("non-small business" means a business employing 50 or more persons):

There is no anticipated cost or savings to any non-small businesses due to the amendments because there are no permitted waste piles currently being operated by any non-small businesses.

If a non-small business has a future need for a permitted waste pile that has the potential to produce leachate, the amended language may result in costs if the pile remains in place for more than 1 year without the director's approval. The cost would be variable but can be estimated at an average of less than \$500.

**E) Persons other than small businesses, non-small businesses, state, or local government entities** ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an **agency**):

There is currently 1 person other than small businesses, non-small businesses, state, or local government entities operating a permitted waste pile in the state that has the potential to produce leachate. The added language provides clarification of the existing requirements found in Section R315-301-6, and the additional requirement to record the information on the property's title if the pile remains in place for more than 1 year without the director's approval. The existing facility is not compliant with the conditions of their existing approval to store waste in piles for more than 1 year and may be required to record the operation on the property's title.

Additionally, if a person other than small businesses, non-small businesses, state, or local government entities has a future need for a permitted waste pile that has the potential to produce leachate, the amended language may result in costs if the pile remains in place for more than 1 year without the director's approval. The cost would be variable but can be estimated at an average of less than \$500.

**F) Compliance costs for affected persons** (How much will it cost an impacted entity to adhere to this rule or its changes?):

The added language provides clarification of the existing requirements found in Section R315-301-6, and the additional requirement to record the information on the property's title when a facility expected to produce leachate has remained in place for more than 1 year without the director's approval. The cost would be variable but can be estimated at an average of less than \$500.

**G) Regulatory Impact Summary Table** (This table only includes fiscal impacts that could be measured. If there are inestimable fiscal impacts, they will not be included in this table. Inestimable impacts will be included in narratives above.)

# NOTICES OF 120-DAY (EMERGENCY) RULES

An agency may file a **120-DAY (EMERGENCY) RULE** when it finds that regular rulemaking procedures would:

- (a) cause an imminent peril to the public health, safety, or welfare;
- (b) cause an imminent budget reduction because of budget restraints or federal requirements; or
- (c) place the agency in violation of federal or state law (Subsection 63G-3-304(1)).

As with a **PROPOSED RULE**, a **120-DAY RULE** is preceded by a **RULE ANALYSIS**. This analysis provides summary information about the **120-DAY RULE** including the name of a contact person, justification for filing a **120-DAY RULE**, anticipated cost impact of the rule, and legal cross-references.

A **120-DAY RULE** is effective when filed with the Office of Administrative Rules, or on a later date designated by the agency. A **120-DAY RULE** is effective for 120 days or until it is superseded by a permanent rule. Because of its temporary nature, a **120-DAY RULE** is not codified as part of the *Utah Administrative Code*.

The law does not require a public comment period for **120-DAY RULES**. However, when an agency files a **120-DAY RULE**, it may file a **PROPOSED RULE** at the same time, to make the requirements permanent.

Emergency or **120-DAY RULES** are governed by Section 63G-3-304, and Section R15-4-8.

### General Information

<b>2. Rule or section catchline:</b>
--------------------------------------

R380-67. Code Blue Alert Protocols
<b>3. Purpose of the new rule or reason for the change:</b>
Subsection 35A-16-702(4) requires the Department of Health and Human Services (DHHS) to make rules to implement Section 35A-16-7, Code Blue Alert.
This rule is the result of H.B. 499, Homeless Services Amendments, that passed in the 2023 General Session.
<b>4. Summary of the new rule or change:</b>
Following the passing of H.B. 499 (2023), this rule establishes the requirements for DHHS to monitor for qualifying weather criteria and issue public and stakeholder notices that describe required actions by affected counties and relay other resources as provided by the Office of Homeless Services (OHS).
(EDITOR'S NOTES: A corresponding proposed new Rule R380-67 is under ID 55994 in this issue, December 1, 2023, of the Bulletin. This filing supersedes the previous emergency rule filing for Rule R380-67, ID 55803, effective 10/01/2023, published in the October 15, 2023, Bulletin.)
<b>5A) The agency finds that regular rulemaking would:</b>
<input checked="" type="checkbox"/> cause an imminent peril to the public health, safety, or welfare;
<input type="checkbox"/> cause an imminent budget reduction because of budget restraints or federal requirements; or
<input type="checkbox"/> place the agency in violation of federal or state law.

**B) Specific reasons and justifications for this finding:**

An emergency rule filing for Rule R380-67, ID 55803, was filed on 09/26/2023, effective 10/01/2023 for the following reason: Per Section 35A-16-501 and the passing of H.B. 499 (2023), DHHS is proposing an emergency rule to enact the provisions of this rule in time for the winter response period, as defined in Section 35A-16-501 to mean the period beginning October 15 and ending April 30 of the following year.

Having this rule in place ensures that DHHS maintains public health through the monitoring of qualifying weather criteria and issuing public and stakeholder notices that describe the required actions by affected counties and relay other resources as provided by the OHS.

While the justification above still applies, since implementation, the OHS has determined that the original criteria implemented was too broad and was creating an undue burden on local homeless shelters and local government agencies.

This rule modification was drafted in collaboration between DHHS, OHS, and local partners and adjusts criteria to better serve the objective of H.B. 499 (2023).

**Fiscal Information**

**6. Provide an estimate and written explanation of the aggregate anticipated cost or savings to:**

**A) State budget:**

Implementation of Section 35A-16-7 is anticipated to cost \$24,276 to develop the administrative structure, reporting process with the National Weather Service (NWS), and configure messaging platforms.

Ongoing operations by DHHS in order to comply with Section 35A-16-7 is anticipated to cost \$28,834 to maintain the messaging platforms and daily monitoring and dissemination of code blue alerts during the winter months.

**B) Local governments:**

The implementation of this rule is the result of H.B. 499 (2023), costs or savings to local governments associated with this process were absolved in the fiscal note for H.B. 499 (2023).

**C) Small businesses** ("small business" means a business employing 1-49 persons):

The implementation of this rule is the result of H.B. 499 (2023), there are no costs or savings to small businesses associated with this process.

**D) Persons other than small businesses, state, or local government entities** ("person" means any individual, partnership, corporation, association, governmental entity, or public or private organization of any character other than an **agency**):

The implementation of this rule is the result of H.B. 499 (2023), there are no costs or savings to persons other than small businesses, state, or local government entities associated with this process.

**E) Compliance costs for affected persons** (How much will it cost an impacted entity to adhere to this rule or its changes?):

The implementation of this rule is the result of H.B. 499 (2023), there are no compliance costs as a result of this filing.

**F) Comments by the department head on the fiscal impact this rule may have on businesses** (Include the name and title of the department head):

# FIVE-YEAR NOTICES OF REVIEW AND STATEMENTS OF CONTINUATION

Within five years of an administrative rule's original enactment or last five-year review, the agency is required to review the rule. This review is intended to help the agency determine, and to notify the public, that the administrative rule in force is still authorized by statute and necessary. Upon reviewing a rule, an agency may: repeal the rule by filing a **PROPOSED RULE**; continue the rule as it is by filing a **FIVE-YEAR NOTICE OF REVIEW AND STATEMENT OF CONTINUATION (REVIEW)**; or amend the rule by filing a **PROPOSED RULE** and by filing a **REVIEW**. By filing a **REVIEW**, the agency indicates that the rule is still necessary.

A **REVIEW** is not followed by the rule text. R746-365. Intercarrier Service Quality

**3. A concise explanation of the particular statutory provisions under which the rule is enacted and how these provisions authorize or require this rule:**

The Utah Legislature has declared that Title 54, Chapter 8b, (Public Utilities Public Telecommunications Law) reflects the policy of, among other things, encouraging access to competitive, high quality, affordable telecommunications services to all Utah residents.

Section 54-8b-2.2 requires the Public Service Commission (PSC) to establish rules to facilitate the competitive provision of telecommunications services, including requiring any telecommunications corporation to interconnect its essential facilities with another telecommunications corporation that provides public telecommunications services in the same, adjacent, or overlapping service territory.

This rule specifies network performance and service quality guidelines applicable to telecommunications corporations' interconnections upon which the PSC may rely in determining whether service is just, adequate, and reasonable.

**4. A summary of written comments received during and since the last five-year review of this rule from interested persons supporting or opposing this rule:**

The PSC has received no written comments from any interested person supporting or opposing this rule since the last five-year review.

**5. A reasoned justification for continuation of this rule, including reasons why the agency disagrees with comments in opposition to this rule, if any:**

This rule is necessary because it provides guidelines to ensure that telecommunications corporations will engineer, design, equip, and provision an efficient public telecommunications network. This rule also defines guidelines relating to interconnection and the exchange of telecommunications traffic that applies to all telecommunications carriers in furtherance of the legislative goals. Therefore, this rule should be continued.

## NOTICES OF FIVE-YEAR REVIEW EXTENSIONS

Rulewriting agencies are required by law to review each of their administrative rules within five years of the date of the rule's original enactment or the date of last review (Section 63G-3-305). If the agency finds that it will not meet the deadline for review of the rule (the five-year anniversary date), it may file a **NOTICE OF FIVE-YEAR REVIEW EXTENSION (EXTENSION)** with the Office of Administrative Rules. ## NOTICES OF RULE EFFECTIVE DATES

---

State law provides for agencies to make their administrative rules effective and enforceable after publication in the *Utah State Bulletin*. In the case of **PROPOSED RULES** or **CHANGES IN PROPOSED RULES** with a designated comment period, the law permits an agency to make a rule effective no fewer than seven calendar days after the close of the public comment period, nor more than 120 days after the publication date. In the case of **CHANGES IN PROPOSED RULES** with no designated comment period, the law permits an agency to make a rule effective on any date including or after the thirtieth day after the rule's publication date, but not more than 120 days after the publication date. If an agency fails to file a **NOTICE OF EFFECTIVE DATE** within 120 days from the publication of a **PROPOSED RULE** or a related **CHANGE IN PROPOSED RULE** the rule lapses.

Agencies have notified the Office of Administrative Rules that the rules listed below have been made effective.

**NOTICES OF EFFECTIVE DATE** are governed by Subsection 63G-3-301(12), Section 63G-3-303, and Sections R15-4-5a and R15-4-5b.
