

R28. Administrative Services, Fleet Operations, Surplus Property.**R28-2. Surplus Firearms.****R28-2-1. Purpose and Authority.**

This rule sets forth policies and procedures for disposing of surplus firearms from state agencies and participating local agencies, as authorized in the Utah Code, Title 63A, Chapter 9, Part 8. This rule governs the destruction, sale, transfer, or donation of surplus firearms to any agency or to the general public.

R28-2-2. Definitions.

"Firearms" means all state owned firearms, including any confiscated or seized firearms over which the state has disposal authority, and any firearms declared surplus by local subdivisions.

"USASP" means Utah State Agency for Surplus Property.

"handgun" means pistols and revolvers.

"hunting and sporting rifles" means long barreled shotguns and rifles manufactured for hunting or sporting purposes.

"nonlicensee" means an individual or organization not licensed by the Federal Bureau of Alcohol, Tobacco and Firearms to buy or sell firearms.

R28-2-3. Procedures.

A. All state owned firearms shall be disposed of under the general provisions of Rule R28-1.

1. As an exception to the purchase priority listed in Section R28-1-5, the sale of firearms directly to the general public by the USASP is prohibited.

2. Hunting and sporting rifles meeting Federal Firearms regulations may be sold only to firearms dealers licensed by the Federal Bureau of Alcohol, Tobacco and Firearms. All sales will be accomplished by either auction or sealed bid.

3. Handguns may not be sold to firearms dealers. Handguns not purchased by legally constituted state law enforcement agencies and all firearms not meeting Federal Firearms regulations will either be transferred to the Utah State Public Safety Crime Lab for use or be destroyed.

B. A peace officer retiring from state service and desiring to retain his service firearm, may purchase his assigned firearm at one-half of its current replacement cost.

1. Proof of intent to retire shall be sent to the USASP along with a completed standard form SP-1 and shall be signed by an authorized agent of the owning agency.

2. The replacement cost shall be determined by the most recent state purchase order or other documentation for the specified firearm(s) and a copy shall accompany the completed standard form SP-1.

C. All firearms retained by the USASP shall be in accordance with Federal Firearms regulations pursuant to Sections 921(a)(19) and 922(s) of Title 18, United States Code.

1. Written certification that surplus firearms meet federal firearms regulations shall be provided by the owning agency or a qualified armorer.

D. All firearms retained by the USASP shall be in good working condition.

a. Written certification specifying the condition of surplus firearms shall be provided by the owning agency or a qualified armorer.

63A-9-801

Notice of Continuation February 7, 2006

R33. Administrative Services, Purchasing and General Services.**R33-1. Utah State Procurement Rules Definitions.****R33-1-1. Definitions.**

A. Terms used in the procurement rules are defined in Section 63-56-105.

B. In addition:

(1) Actual Costs means direct and indirect costs which have been incurred for services rendered, supplies delivered, or construction built, as distinguished from allowable costs.

(2) Adequate Price Competition means when competitive sealed proposals are solicited and at least two responsible offerors independently contend for a contract to be awarded to the responsible offeror submitting the lowest evaluated price by submitting priced best and final offers meeting the requirements of the request for proposals. If the foregoing conditions are met, price competition shall be presumed to be "adequate" unless the procurement officer determines that there is not adequate competition.

(3) Brand Name or Equal Specification means a specification which uses a brand name specification to describe the standard of quality, performance, and other characteristics being solicited, and which invites the submission of equivalent products.

(4) Brand Name Specification means a specification calling for one or more products by manufacturers' names or catalogue numbers.

(5) Chief Procurement Officer means the procurement officer for the State of Utah.

(6) Consultant Services means work, rendered by either individuals or firms who possess specialized knowledge, experience, and expertise to investigate assigned problems or projects and to provide counsel, review, design, development, analysis, or advise in formulating or implementing programs or services or improvements in programs or services, including but not limited to such areas as management, personnel, finance, accounting, planning, and data processing.

(7) Cost Analysis means the evaluation of cost data for the purpose of arriving at estimates of costs to be incurred, prices to be paid, cost to be reimbursed, or costs actually incurred.

(8) Cost Data means factual information concerning the cost of labor, material, overhead, and other cost elements which are expected to be incurred or which have been actually incurred by the contractor in performing the contract.

(9) Cost Objective means a function, organizational subdivision, contract, or any other work unit for which provision is made to accumulate and measure the cost of processes, products, jobs, capitalized projects, and similar items.

(10) Discussions as used in source selection means negotiation during which the seller or buyer may alter or otherwise change the terms, price or other provisions of the proposed contract. Discussion can be conducted under competitive sealed proposals, sole source, and emergency procurements; such discussion is not permissible under competitive sealed bidding except to the extent in the first phase of multi-step bidding.

(11) Electronic means, in reference to any solicitation process, only those specified electronic forms described in the Invitation for Bids, Request for Proposals or other solicitation document.

(12) Established Market Price means a current price, established in the usual and ordinary course of trade between buyers and sellers, which can be substantiated from sources independent of the manufacturer or supplier.

(13) Lease means a contract for the use of equipment or real property under which title does not pass to the purchasing agency.

(14) Prequalification for Inclusion on Bidders Lists means determining that a prospective bidder or offeror satisfies the

criteria established for receipt of solicitations when and as issued.

(15) Price Analysis means the evaluation of price data without analysis of the separate cost components and profit which may assist in arriving at prices to be paid or costs to be reimbursed.

(16) Price Data means factual information concerning prices for supplies, services, or construction substantially identical to those being procured. Prices in this definition refer to offered or proposed selling prices. The definition refers to data relevant to both prime and subcontract prices.

(17) Professional Services means work rendered by an independent contractor who has a professed knowledge of some department of learning or science used by its practical application to the affairs of others or in the practice of an art founded on it, including but not limited to accounting and auditing, court reporters, X-ray technicians, legal, medical, nursing, education, engineering, actuarial, architecture, veterinarians, and research. The knowledge is founded upon prolonged and specialized intellectual training which enables a particular service to be rendered. The word "professional" implies professed attainments in special knowledge as distinguished from mere skills.

(18) Property means all real property, personal property, or both, owned by a purchasing agency.

(19) Providers means suppliers of services, which might be termed "personal services", to benefit clients or citizens of the enacting jurisdiction which services otherwise might be performed by its own employees. For example, an enacting jurisdiction might contract with a school to conduct a training program for the handicapped. Similarly, the state might contract with persons to provide foster homes for children. It will be necessary to ascertain on a case-by-case basis whether the services to be rendered will involve extended analysis and significant features of judgment.

(20) Qualified Products List means a list of supplies, services, or construction items described by model or catalogue numbers, which, prior to solicitation, the purchasing agency has determined will meet the applicable specification requirements.

(21) Solicitation means an Invitation for Bids, a Request for Proposals, or any other document, such as a request for quotations, issued by the purchasing agency for the purpose of soliciting offers to perform a contract.

(22) Suppliers means prospective bidders or offerors, as used in section 63-56-414 of the Utah Procurement Code.

63-56

R33. Administrative Services, Purchasing and General Services.**R33-2. Procurement Organization.****R33-2-101. Delegation of Authority of the Chief Procurement Officer.**

The Chief Procurement Officer may delegate in writing any authority Pursuant to Section 63-56-205 as deemed appropriate to any employees of the office of the Chief Procurement Officer or of a purchasing agency, respectively. These delegations shall remain in effect unless modified or until revoked in writing.

R33-2-102. Authority to Make Small Purchases.

(1) General. The Chief Procurement Officer may delegate to the head of any using agency the authority to make a purchase expected to be less than \$50,000 for supplies and services. This delegation shall be in writing and may be limited as the Chief Procurement Officer directs.

(2) Purchasing Agencies Shall Make Small Purchases Pursuant to Rules. Purchasing agencies shall exercise authority as may be delegated, and such small purchases shall be made pursuant to subpart 3-3 of part 3 of these rules.

R33-2-103. Authority of Procurement Officers.

Procurement officers may take any action of a procurement nature to advance economic well-being and efficient operation of the state or agency so long as that action is not in conflict with the Utah Procurement Code or the Utah Procurement Rules.

Notice of Continuation November 27, 2002

63-56

R33. Administrative Services, Purchasing and General Services.

R33-3. Source Selection and Contract Formation.

R33-3-1. Competitive Sealed Bidding; Multi-Step Sealed Bidding.

3-101 Content of the Invitation For Bids.

(1) Use. The Invitation for Bids is used to initiate a competitive sealed bid procurement.

(2) Content. The Invitation for Bids include the following:

(a) Instructions and information to bidders concerning the bid submission requirements, including the time and closing date for submission of bids, the address of the office to which bids are to be delivered, and any other special information;

(b) The purchase description, evaluation factors, delivery or performance schedule, and inspection and acceptance requirements not included in the purchase description;

(c) The contract terms and conditions, including warranty and bonding or other security requirements, as applicable.

(3) Incorporation by Reference. The Invitation for Bids may incorporate documents by reference provided that the Invitation for Bids specifies where the documents can be obtained.

(4) Acknowledgement of Amendments. The Invitation for Bids shall require the acknowledgement of the receipt of all amendments issued.

3-102 Bidding Time. Bidding time is the period of time between the date of distribution of the Invitation for Bids and the date set for opening of bids. In each case bidding time will be set to provide bidders a reasonable time to prepare their bids. A minimum of 10 calendar days shall be provided unless a shorter time is deemed necessary for a particular procurement as determined in writing by the Chief Procurement Officer.

3-103 Bidder Submissions.

(1) Bid Form. The Invitation for Bids shall provide a form which shall include space in which the bid price shall be inserted and which the bidder shall sign and submit along with all other necessary submissions.

(2) Electronic Bids. The Invitation for Bids may state that electronic bids will be considered whenever they are received at the designated office by the time specified for bid opening.

(3) Bid Samples and Descriptive Literature.

(a) Descriptive literature means information available in the ordinary course of business which shows the characteristics, construction, or operation of an item and assists the purchasing agency in considering whether the item meets requirements or criteria set forth in the invitation.

(b) Bid sample means a sample to be furnished by a bidder to show the characteristics of the item offered in the bid.

(c) Bid samples or descriptive literature may be required when it is necessary to evaluate required characteristics of the items bid.

(d) Samples of items, when called for in the Invitation for Bids, must be furnished free of expense, and if not destroyed by testing, will upon request, be returned at the bidder's expense. Samples submitted by the successful bidder may be held for comparison with merchandise furnished and will not necessarily be returned. Samples must be labeled or otherwise identified as called for by the purchasing agency.

(4) Bid Security. Bid and performance bonds or other security may be required for supply contracts or service contracts as the procurement officer deems advisable to protect the interests of the purchasing agency. Any requirements must be set forth in the solicitation. Bid or performance bonds should not be used as a substitute for a determination of bidder or offeror responsibility.

(5) Bid Price. Bid prices submitted in response to an invitation for bids must stand alone and may not be dependent upon a bid submitted by any other bidder. A bid reliant upon the submission of another bidder will not be considered for

award.

3-104 Public Notice.

(1) Distribution. Invitation for Bids or notices of the availability of Invitation for Bids shall be mailed or otherwise furnished to a sufficient number of bidders for the purpose of securing reasonable competition. Notices of availability shall indicate where, when, and for how long Invitation for Bids may be obtained; generally describe the supply, service, or construction desired; and may contain other appropriate information. Where appropriate, the procurement officer may require payment of a fee or a deposit for the supplying of the Invitation for Bids.

(2) Publication. Every procurement in excess of \$50,000 shall be publicized in any or all of the following:

(a) in a newspaper of general circulation;

(b) in a newspaper of local circulation in the area pertinent to the procurement;

(c) in industry media; or

(d) in a government internet website or publication designed for giving public notice.

(3) Public Availability. A copy of the Invitation for Bids shall be made available for public inspection at the procurement officer's office.

3-105 Bidder List; Prequalification.

(1) Purpose. Lists of qualified prospective bidders may be compiled and maintained by purchasing agencies for the purpose of soliciting competition on various types of supplies, services, and construction. Qualifications for inclusion on the lists may include legal competence to contract and capabilities for production and distribution as considerations. However, solicitations shall not be restricted to prequalified suppliers, and unless otherwise provided inclusion or exclusion on the name of a business does not determine whether the business is responsible with respect to a particular procurement or otherwise capable of successfully performing a contract.

(2) Public Availability. Subject to procedures established by the procurement officer, names and addresses on bidder lists shall be available for public inspection.

3-106 Pre-Bid Conferences.

Pre-bid conferences may be conducted to explain the procurement requirements. They shall be announced to all prospective bidders known to have received an Invitation for Bids. The conference should be held long enough after the Invitation for Bids has been issued to allow bidders to become familiar with it, but sufficiently before bid opening to allow consideration of the conference results in preparing their bids. Nothing stated at the pre-bid conference shall change the Invitation for Bids unless a change is made by written amendment as provided in section 3-107 and the Invitation for Bids and the notice of the pre-bid conference shall so provide. If a written summary of the conference is deemed advisable by the procurement officer, a copy shall be supplied to all those prospective bidders known to have received an Invitation for Bids and shall be available as a public record.

3-107 Amendments to Invitation for Bids.

(1) Application. Amendments should be used to:

(a) make any changes in the Invitation for Bids including changes in quantity, purchase descriptions, delivery schedules, and opening dates;

(b) correct defects or ambiguities; or

(c) furnish to other bidders information given to one bidder if the information will assist the other bidders in submitting bids or if the lack of information would be inequitable to other bidders.

(2) Form. Amendments to Invitation for bids shall be identified as such and shall require that the bidder acknowledge receipt of all amendments issued.

(3) Distribution. Amendments shall be sent to all prospective bidders known to have received an Invitation for

Bids.

(4) **Timeliness.** Amendments shall be distributed within a reasonable time to allow prospective bidders to consider them in preparing their bids. If the time set for bid opening will not permit proper preparation, to the extent possible the time shall be increased in the amendment or, if necessary, by telegram or telephone and confirmed in the amendment.

3-108 Pre-Opening Modification of Withdrawal of Bids.

(1) **Procedure.** Bids may be modified or withdrawn by written or electronic notice received in the office designated in the Invitation for Bids prior to the time set for bid opening.

(2) **Disposition of Bid Security.** Bid security, if any, shall be returned to the bidder when withdrawal of the bid is permitted.

(3) **Records.** All documents relating to the modification or withdrawal of bids shall be made a part of the appropriate procurement file.

3-109 Late Bids, Late Withdrawals, and Late Modifications.

(1) **Definition.** Any bid, withdrawal, or modification received at the address designated in the Invitation for Bids after the time and date set for opening of bids at the place designated for opening is late.

(2) **Treatment.** No late bid, late modification, or late withdrawal will be considered unless received before contract award, and the bid, modification, or withdrawal would have been timely but for the action or inaction of personnel directly serving the procurement activity.

(3) **Records.** Records equivalent to those required in section 3-108 (3) shall be made and kept for each late bid, late modification, or late withdrawal.

3-110 Receipt, Opening, and Recording of Bids.

(1) **Receipt.** Upon receipt, all bids and modifications will be time stamped, but not opened. Bids submitted through electronic means shall be received in such a manner that the time and date of submittal, along with the contents of such bids shall be securely stored until the time and date set for bid opening. They shall be stored in a secure place until bid opening time.

(2) **Opening and Recording.** Bids and modifications shall be opened publicly, in the presence of one or more witnesses, at the time and place designated in the Invitation for Bids. The names of the bidders, the bid price, and other information as is deemed appropriate by the procurement officer, shall be read aloud or otherwise be made available. The opened bids shall be available for public inspection except to the extent the bidder designates trade secrets or other proprietary data to be confidential as set forth in subsection (3) of this section. Material so designated shall accompany the bid and shall be readily separable from the bid in order to facilitate public inspection of the nonconfidential portion of the bid. Make and model, and model or catalogue numbers of the items offered, deliveries, and terms of payment shall be publicly available at the time of bid opening regardless of any designation to the contrary. Bids submitted through electronic means shall be received in such a manner that the requirements of this section can be readily met.

(3) **Confidential Data.** The procurement officer shall examine the bids to determine the validity of any requests for nondisclosure of trade secrets and other proprietary data identified in writing. If the parties do not agree as to the disclosure of data, the procurement officer shall inform the bidders in writing what portions of the bids will be disclosed.

3-111 Mistakes in Bids.

(1) If a mistake is attributable to an error in judgment, the bid may not be corrected. Bid correction or withdrawal by reason of an inadvertent, nonjudgmental mistake is permissible, but at the discretion of the procurement officer and to the extent it is not contrary to the interest of the purchasing agency or the

fair treatment of other bidders.

(2) **Mistakes Discovered Before Opening.** A bidder may correct mistakes discovered before bid opening by withdrawing or correcting the bid as provided in section 3-108.

(3) **Confirmation of Bid.** When it appears from a review of the bid that a mistake has been made, the bidder should be requested to confirm the bid. Situations in which confirmation should be requested include obvious, apparent errors on the face of the bid or a bid unreasonably lower than the other bids submitted. If the bidder alleges mistake, the bid may be corrected or withdrawn if the conditions set forth in subsection (1), (4) and (6) of this section are met.

(4) **Mistakes Discovered After Opening But Before Award.** This subsection sets forth procedures to be applied in three situations described in paragraphs (a), (b) and (c) below in which mistakes in bids are discovered after opening but before award.

(a) **Minor Informalities.** Minor informalities are matters of form rather than substance evident from the bid document, or insignificant mistakes that can be waived or corrected without prejudice to other bidders; that is, the effect on price, quantity, quality, delivery, or contractual conditions is not significant. The procurement officer may waive these informalities. Examples include the failure of a bidder to:

(i) return the number of signed bids required by the Invitation for Bids;

(ii) sign the bid, but only if the unsigned bid is accompanied by other material indicating the bidder's intent to be bound;

(iii) acknowledge receipt of an amendment to the Invitation for Bids, but only if:

(A) it is clear from the bid that the bidder received the amendment and intended to be bound by its terms; or

(B) the amendment involved had a negligible effect on price, quantity, quality, or delivery.

(C) **Mistakes Where Intended Bid is Evident.** If the mistake and the intended bid are clearly evident on the face of the bid document, the bid shall be corrected to the intended bid and may not be withdrawn. Examples of mistakes that may be clearly evident on the face of the bid document are typographical errors, errors in extending unit prices, transpositional errors, and arithmetical errors.

(D) **Mistakes Where Intended Bid is Not Evident.** A bidder may be permitted to withdraw a low bid if:

(i) a mistake is clearly evident on the face of the bid document but the intended bid is not similarly evident; or

(ii) the bidder submits proof of evidentiary value which clearly and convincingly demonstrates that a mistake was made.

(5) **Mistakes Discovered After Award.** Mistakes shall not be corrected after award of the contract.

(6) **Written Approval or Denial Required.** The procurement officer shall approve or deny, in writing, a bidder's request to correct or withdraw a bid. Approval or denial may be so indicated on the bidder's written request for correction or withdrawal.

3-112 Bid Evaluation and Award.

(1) **General.** The contract is to be awarded to the lowest responsible and responsive bidder whose bid meets the requirements and criteria set forth in the Invitation for Bids. The Invitation for Bids shall set forth the requirements and criteria which will be used to determine the lowest responsive and responsible bidder. No bid shall be evaluated for any requirements or criteria that are not disclosed in the Invitation for Bids. An Invitation for Bids, a Request for Proposals, or other solicitation may be canceled, or any or all bids or proposals may be rejected, in whole or in part, when it is the best interests of the purchasing agency as determined by the purchasing agency. In the event of cancellation of the solicitation or rejection of all bids or proposals received in

response to a solicitation, the reasons for cancellation or rejection shall be made a part of the bid file and shall be available for public inspection and the purchasing agency shall (a) re-solicit new bids using the same or revised specifications; or (b) withdraw the requisition for supplies or services.

(2) Responsibility and Responsiveness. Responsibility of prospective contractors is covered by subpart 3-7 of these rules. Responsiveness of bids is covered by Subsection 63-56-105(24) and responsive bidder is defined in Subsection 63-56-105(25).

(3) Product Acceptability. The Invitation for Bids shall set forth the evaluation criteria to be used in determining product acceptability. It may require the submission of bid samples, descriptive literature, technical data, or other material. It may also provide for:

(a) inspection or testing of a product prior to award for such characteristics as quality or workmanship;

(b) examination of such elements as appearance, finish, taste, or feel; or

(c) other examinations to determine whether it conforms with any other purchase description requirements. The acceptability evaluation is not conducted for the purpose of determining whether one bidder's item is superior to another but only to determine that a bidder's offering is acceptable as set forth in the Invitation for Bids. Any bidder's offering which does not meet the acceptability requirements shall be rejected.

(4) Determination of Lowest Bidder. Bids will be evaluated to determine overall economy for the intended use, in accordance with the evaluation criteria set forth in the Invitation for Bids. Examples of criteria include transportation cost, energy cost, ownership and other identifiable costs or life-cycle cost formulae. Evaluation factors need not be precise predictors of actual future costs, but to the extent possible the evaluation factors shall:

(a) be reasonable estimates based upon information the purchasing agency has available concerning future use; and

(b) treat all bids equitably.

(5) Extension of Time for Bid or Proposal Acceptance. After opening bids or proposals, the procurement officer may request bidders or offerors to extend the time during which their bids or proposals may be accepted, provided that, with regard to bids, no other change is permitted. The reasons for requesting an extension shall be documented.

(6) Only One Bid or Proposal Received. If only one responsive bid is received in response to an Invitation for Bids, including multi-step bidding, an award may be made to the single bidder if the procurement officer finds that the price submitted is fair and reasonable, and that either other prospective bidders had reasonable opportunity to respond, or there is not adequate time for resolicitation. Otherwise, the bid may be rejected and:

(a) new bids or offers may be solicited;

(b) the proposed procurement may be canceled; or

(c) if the procurement officer determines in writing that the need for the supply of service continues but that the price of the one bid is not fair and reasonable and there is no time for resolicitation or resolicitation would likely be futile, the procurement may then be conducted under subpart 3-4 or subpart 3-5, as appropriate.

(7) Multiple or Alternate Bids or Proposals. Unless multiple or alternate bids or offers are specifically provided for, the solicitation shall state they will not be accepted. When prohibited, the multiple or alternate bids or offers shall be rejected although a clearly indicated base bid shall be considered for award as though it were the only bid or offer submitted by the bidder or offeror. The provisions of this subsection shall be set forth in the solicitation, and if multiple or alternate bids are allowed, it shall specify their treatment.

3-113 Tie Bids.

(1) Definition. Tie bids are low responsive bids from

responsible bidders that are identical in price.

(2) Award. Award shall not be made by drawing lots, except as set forth below, or by dividing business among identical bidders. In the discretion of the procurement officer, award shall be made in any permissible manner that will discourage tie bids. Procedures which may be used to discourage tie bids include:

(a) where identical low bids include the cost of delivery, award the contract to the bidder closest to the point of delivery;

(b) award the contract to the identical bidder who received the previous award and continue to award succeeding contracts to the same bidder so long as all low bids are identical;

(c) award to the identical bidder with the earliest delivery date;

(d) award to a Utah resident bidder or for a Utah produced product where other tie bids are from out of state;

(e) if price is considered excessive or for other reason the bids are unsatisfactory, reject all bids and negotiate a more favorable contract in the open market; or

(f) if no permissible method will be effective in discouraging tie bids and a written determination is made so stating, award may be made by drawing lots.

(3) Record. Records shall be made of all Invitations for Bids on which tie bids are received showing at least the following information:

(a) the Invitation for Bids;

(b) the supply, service, or construction item;

(c) all the bidders and the prices submitted; and

(d) procedure for resolving tie bids. A copy of each record shall be sent to the Attorney General if the tie bids are in excess of \$50,000.

3-114 Multi-Step Sealed Bidding.

(1) Definition. Multi-step sealed bidding is a two-phase process consisting of a technical first phase composed of one or more steps in which bidders submit unpriced technical offers to be evaluated by the purchasing agency, and a second phase in which those bidders whose technical offers are determined to be acceptable during the first phase have their price bids considered. It is designed to obtain the benefits of competitive sealed bidding by award of a contract to the lowest responsive, responsible bidder, and at the same time obtain the benefits of the competitive sealed proposals procedure through the solicitation of technical offers and the conduct of discussions to arrive at technical offers and terms acceptable to the purchasing agency and suitable for competitive pricing.

(2) Use. The multi-step sealed bidding method will be used when the procurement officer deems it to the advantage of the purchasing agency. Multi-step sealed bidding will thus be used when it is considered desirable:

(a) to invite and evaluate technical offers to determine their acceptability to fulfill the purchase description requirements;

(b) to conduct discussions for the purposes of facilitating understanding of the technical offer and purchase description requirements and, where appropriate, obtain supplemental information, permit amendments of technical offers, or amend the purchase description;

(c) to accomplish subsections (a) and (b) of this section prior to soliciting priced bids; and

(d) to award the contract to the lowest responsive and responsible bidder in accordance with the competitive sealed bidding procedures.

3-115 Pre-Bid Conferences in Multi-Step Sealed Bidding.

Prior to the submission of unpriced technical offers, a pre-bid conference as contemplated by section 3-106 may be conducted by the procurement officer. The procurement officer may also hold a conference of all bidders in accordance with section 3-106 at any time during the evaluation of the unpriced technical offers.

3-116 Procedure for Phase One of Multi-Step Sealed Bidding.

(1) Form. Multi-step sealed bidding shall be initiated by the issuance of an Invitation for Bids in the form required by section 3-101. In addition to the requirements set forth in section 3-101, the multi-step Invitation for Bids shall state:

- (a) that unpriced technical offers are requested;
- (b) whether price bids are to be submitted at the same time as unpriced technical offers; if they are, the price bids shall be submitted in a separate sealed envelope;
- (c) that it is a multi-step sealed bid procurement, and priced bids will be considered only in the second phase and only from those bidders whose unpriced technical offers are found acceptable in the first phase;
- (d) the criteria to be used in the evaluation of the unpriced technical offers;
- (e) that the purchasing agency, to the extent the procurement officer finds necessary, may conduct oral or written discussions of the unpriced technical offers;
- (f) that bidders may designate those portions of the unpriced technical offers which contain trade secrets or other proprietary data which are to remain confidential; and
- (g) that the item being procured shall be furnished generally in accordance with the bidder's technical offer as found to be finally acceptable and shall meet the requirements of the Invitation for Bids.

(2) Amendments to the Invitation for Bids. After receipt of unpriced technical offers, amendments to the Invitation for Bids shall be distributed only to bidders who submitted unpriced technical offers and they shall be allowed to submit new unpriced technical offers or to amend those submitted. If, in the opinion of the procurement officer, a contemplated amendment will significantly change the nature of the procurement, the Invitation for Bids shall be canceled in accordance with Subsection R33-3-112(1) of these rules and a new Invitation for Bids issued.

(3) Receipt and Handling of Unpriced Technical Offers. Unpriced technical offers shall be opened publicly, identifying only the names of the bidders. Technical offers and modifications shall be time stamped upon receipt and held in a secure place until the established due date. After the date established for receipt of bids, a register of bids shall be open to public inspection and shall include the name of each bidder, and a description sufficient to identify the supply, service, or construction item offered. Prior to the award of the selection of the lowest responsive and responsible bidder following phase two, technical offerors shall be shown only to purchasing agency personnel having a legitimate interest in them. Bidders may request nondisclosure of trade secrets and other proprietary data identified in writing.

(4) Evaluation of Unpriced Technical Offers. The unpriced technical offers submitted by bidders shall be evaluated solely in accordance with the criteria set forth in the Invitation for Bids. The unpriced technical offers shall be categorized as:

- (a) acceptable;
- (b) potentially acceptable, that is, reasonably susceptible of being made acceptable; or
- (c) unacceptable. The procurement officer shall record in writing the basis for finding an offer unacceptable and make it part of the procurement file.

The procurement officer may initiate phase two of the procedure if, in the procurement officer's opinion, there are sufficient acceptable unpriced technical offers to assure effective price competition in the second phase without modification or alteration of the offers. If the procurement officer finds that this is not the case, the procurement officer shall issue an amendment to the Invitation for Bids or engage in technical discussions as set forth in subsection (5) of this section.

(5) Discussion of Unpriced Technical Offers. Discussion of its technical offer may be conducted by the procurement officer with any bidder who submits an acceptable or potentially acceptable technical offer. During the course of these discussions the procurement officer shall not disclose any information derived from one unpriced technical offer to any other bidder. Once discussions are begun, any bidder who has not been notified that its offer has been finally found unacceptable may submit supplemental information modifying or otherwise amending its technical offer at any time until the closing date established by the procurement officer. This submission may be made at the request of the procurement officer or upon the bidder's own initiative.

(6) Notice of Unacceptable Unpriced Technical Offer. When the procurement officer determines a bidder's unpriced technical offer to be unacceptable, the officer shall notify the bidder. The bidders shall not be afforded an additional opportunity to supplement technical offers.

3-117 Mistakes During Multi-Step Sealed Bidding.

Mistakes may be corrected or bids may be withdrawn during phase one:

- (a) before unpriced technical offers are considered;
- (b) after any discussions have commenced under section 3-116(5) (procedure for Phase One of Multi-Step Sealed Bidding, Discussion of Unpriced Technical Offers); or
- (c) when responding to any amendment of the Invitation for Bids. Otherwise mistakes may be corrected or withdrawal permitted in accordance with section 3-111.

3-118 Carrying Out Phase Two.

(1) Initiation. Upon the completion of phase one, the procurement officer shall either:

- (a) open price bids submitted in phase one from bidders whose unpriced technical offers were found to be acceptable; provided, however, that the offers have remained unchanged, and the Invitation for Bids has not been amended; or
 - (b) invite each acceptable bidder to submit a price bid.
- (2) Conduct. Phase two is to be conducted as any other competitive sealed bid procurement except:
- (a) as specifically set forth in section 3-114 through section 3-120 of these rules; and
 - (b) no public notice need be given of this invitation to submit.

3-119 Procuring Governmental Produced Supplies or Services.

Purchasing agency requirements may be fulfilled by procuring supplies produced or services performed incident to programs such as industries of correctional or other governmental institutions. The procurement officer shall determine whether the supplies or services meet the purchasing agency's requirements and whether the price represents a fair market value for the supplies or services. If it is determined that the requirements cannot thus be met or the price is not fair and reasonable, the procurement may be made from the private sector in accordance with the Utah Procurement Code. When procurements are made from other governmental agencies, the private sector need not be solicited to compete against them.

3-120 Purchase of Items Separately from Construction Contract.

The procurement officer is authorized to determine whether a supply item or group of supply items shall be included as a part of, or procured separately from, any contract for construction.

3-121 Exceptions to Competitive Sealed Bid Process.

(1) The Chief Procurement Officer, head of a purchasing agency or designee may utilize alternative procurement methods to purchase items such as the following when determined to be more practicable or advantageous to the state.

- (a) Used vehicles
- (b) Livestock

(2) Alternative procurement methods including informal price quotations and direct negotiations may be used by the Chief Procurement Officer, head of the purchasing agency or designee for the following:

- (a) Hotel conference facilities and services
- (b) Speaker honorariums
- (3) Documentation of the alternative procurement method utilized shall be part of the contract file.

3-130 Reverse Auctions.

(1) Definition. In accordance with Utah Code Annotated Section 63-56-402 a "reverse auction" means a process where:

(a) contracts are awarded in an open and interactive environment, which may include the use of electronic media; and

(b) bids are opened and made public immediately, and bidders given opportunity to submit revised, lower bids, until the bidding process is complete.

(2) Reverse auction is a two-phase process consisting of a technical first phase composed of one or more steps in which bidders submit unpriced technical offers to be evaluated against the established criteria by the purchasing agency, and a second phase in which those bidders whose technical offers are determined to be acceptable during the first phase submit their price bids through a reverse auction.

(3) Use. The reverse auction method will be used when the procurement officer deems it to the advantage of the purchasing agency.

3-131 Pre-Bid Conferences in Reverse Auctions.

Prior to the submission of unpriced technical offers, a pre-bid conference as contemplated by section 3-106 may be conducted by the procurement officer. The procurement officer may also hold a conference of all bidders in accordance with section 3-106 at any time during the evaluation of the unpriced technical offers, or to explain the reverse auction process.

3-132 Procedure for Phase One of Reverse Auctions.

(1) Form. A reverse auction shall be initiated by the issuance of an Invitation for Bids in the form required by section 3-101. In addition to the requirements set forth in section 3-101, the reverse auction Invitation for Bids shall state:

- (a) that unpriced technical offers are requested;
- (b) that it is a reverse auction procurement, and priced bids will be considered only in the second phase and only from those bidders whose unpriced technical offers are found acceptable in the first phase;
- (c) the criteria to be used in the evaluation of the unpriced technical offers;
- (d) that the purchasing agency, to the extent the procurement officer finds necessary, may conduct oral or written discussions of the unpriced technical offers;
- (e) that bidders may designate those portions of the unpriced technical offers which contain trade secrets or other proprietary data which are to remain confidential; and
- (f) the manner which the second phase reverse auction will be conducted.

(2) Amendments to the Invitation for Bids. After receipt of unpriced technical offers, amendments to the Invitation for Bids shall be distributed only to bidders who submitted unpriced technical offers and they shall be allowed to submit new unpriced technical offers or to amend those submitted. If, in the opinion of the procurement officer, a contemplated amendment will significantly change the nature of the procurement, the Invitation for Bids shall be canceled in accordance with Subsection R33-3-112(1) of these rules and a new Invitation for Bids issued.

(3) Receipt and Handling of Unpriced Technical Offers. Unpriced technical offers shall be opened publicly identifying only the names of the bidders. Technical offers and modifications shall be time stamped upon receipt and held in a secure place until the established due date. After the date

established for receipt of bids, a register of bids shall be open to public inspection and shall include the name of each bidder, and a description sufficient to identify the supply, service, or construction offered. Prior to the selection of the lowest bid of a responsive and responsible bidder following phase two, technical offers shall remain confidential and shall be available only to purchasing agency personnel and those involved in the selection process having a legitimate interest in them.

(4) Non-Disclosure of Proprietary Data. Bidders may request nondisclosure of trade secrets and other proprietary data identified in writing. If a bidder has requested in writing the non-disclosure of trade secrets and other proprietary data so identified, the procurement officer shall examine the request in the proposal to determine its validity prior to the beginning of phase two. If the parties do not agree as to the disclosure of data, the procurement officer shall inform the bidder in writing what portion of the bid will be disclosed and that, unless the bidder withdraws the bid it will be disclosed.

(5) Evaluation of Unpriced Technical Offers. The unpriced technical offers submitted by bidders shall be evaluated solely in accordance with the criteria set forth in the Invitation for Bids. The unpriced technical offers shall be categorized as:

- (a) acceptable;
- (b) potentially acceptable, that is, reasonably susceptible of being made acceptable; or
- (c) unacceptable. The procurement officer shall record in writing the basis for finding an offer unacceptable and make it part of the procurement file.

The procurement officer may initiate phase two of the procedure if, in the procurement officer's opinion, there are sufficient acceptable unpriced technical offers to assure effective price competition in the second phase without modification or alteration of the offers. If the procurement officer finds that this is not the case, the procurement officer shall issue an amendment to the Invitation for Bids or engage in technical discussions as set forth in subsection (6) of this section.

(6) Discussion of Unpriced Technical Offers. Discussion of its technical offer may be conducted by the procurement officer with any bidder who submits an acceptable or potentially acceptable technical offer. During the course of these discussions the procurement officer shall not disclose any information derived from one unpriced technical offer to any other bidder. Once discussions are begun, any bidder who has not been notified that its offer has been finally found unacceptable may submit supplemental information modifying or otherwise amending its technical offer at any time until the closing date established by the procurement officer. This submission may be made at the request of the procurement officer or upon the bidder's own initiative.

(7) Notice of Unacceptable Unpriced Technical Offer. When the procurement officer determines a bidder's unpriced technical offer is unacceptable, the officer shall notify the bidder. After this notification the bidder shall not be afforded an additional opportunity to modify their technical offer.

3-133 Carrying Out Phase Two of Reverse Auctions.

(1) Upon the completion of phase one, the procurement officer shall invite those technically qualified bidders to participate in phase two of the reverse auction which is an open and interactive process where pricing is submitted, made public immediately, and bidders are given opportunity to submit revised, lower bids, until the bidding process is closed.

(2) The invitation for bids shall:

(a) establish a date and time for the beginning of phase two;

(b) establish a closing date and time. The closing date and time need not be a fixed point in time, but may remain dependent on a variable specified in the invitation for bids.

(3) Following receipt of the first bid after the beginning of

phase two, the lowest bid price shall be posted, either manually or electronically, and updated as other bidders submit their bids.

(a) At any time before the closing date and time a bidder may submit a lower bid, provided that the price is below the then lowest bid.

(b) Bid prices may not be increased after the beginning of phase two.

3-134 Mistakes During Reverse Auctions.

(1) Mistakes may be corrected or bids may be withdrawn during phase one:

(a) before unpriced technical offers are considered;

(b) after any discussions have commenced under section 3-132(5) (procedure for Phase One of Reverse Auctions, Discussion of Unpriced Technical Offers); or

(c) when responding to any amendment of the Invitation for Bids. Otherwise mistakes may be corrected or withdrawal permitted in accordance with section 3-111.

(2) A phase two bid may be withdrawn only in accordance with 3-111. If a bid is withdrawn, a later bid submitted by the same bidder may not be for a higher price. If the lowest responsive bid is withdrawn after the closing date and time, the procurement officer may cancel the solicitation or reopen phase two bidding to all bidders deemed technically qualified through phase one by giving notice to those bidders of the new date and time for the beginning of phase two and the new closing date and time.

R33-3-2. Competitive Sealed Proposals.

3-201 Use of Competitive Sealed Proposals.

(1) Appropriateness. Competitive sealed proposals may be a more appropriate method for a particular procurement or type of procurement than competitive sealed bidding, after consideration of factors such as:

(a) whether there may be a need for price and service negotiation;

(b) whether there may be a need for negotiation during performance of the contract;

(c) whether the relative skills or expertise of the offerors will have to be evaluated;

(d) whether cost is secondary to the characteristics of the product or service sought, as in a work of art; and

(e) whether the conditions of the service, product or delivery conditions are unable to be sufficiently described in the Invitation for Bids.

(2) Determinations.

(a) Except as provided in Section 63-56-408 of the Utah Procurement Code, before a solicitation may be issued for competitive sealed proposals, the procurement officer shall determine in writing that competitive sealed proposals is a more appropriate method for contracting than competitive sealed bidding.

(b) The procurement officer may make determinations by category of supply, service, or construction item rather than by individual procurement. Procurement of the types of supplies, services, or construction so designated may then be made by competitive sealed proposals without making the determination competitive sealed bidding is either not practicable or not advantageous. The officer who made the determination may modify or revoke it at any time and the determination should be reviewed for current applicability from time to time.

(3) Professional Services. For procurement of professional services, whenever practicable, the competitive sealed proposal process shall be used. Examples of professional services generally best procured through the RFP process are accounting and auditing, court reporters, x-ray technicians, legal, medical, nursing, education, actuarial, veterinarians, and research. The procurement officer will make the determination. Architecture and engineering professional services are to be procured in compliance with R33-5-510.

3-202 Content of the Request for Proposals.

The Request for Proposals shall be prepared in accordance with section 3-101 provided that it shall also include:

(a) a statement that discussions may be conducted with offerors who submit proposals determined to be reasonably susceptible of being selected for award, but that proposals may be accepted without discussions; and

(b) a statement of when and how price should be submitted.

3-203 Proposal Preparation Time.

Proposal preparation time shall be set to provide offerors a reasonable time to prepare their proposals. A minimum of 10 calendar days shall be provided unless a shorter time is deemed necessary for a particular procurement as determined in writing by the procurement officer.

3-204 Form of Proposal.

The manner in which proposals are to be submitted, including any forms for that purpose, may be designated as a part of the Request for Proposals.

3-204.1 Protected Records.

The following are protected records and will be redacted subject to the procedures described below. From any public disclosure of records as allowed by the Governmental Records Access and Management act (GRAMA) Title 63, Chapter 2 of the Utah Code. The protections below apply to the various procurement records including records submitted by offerors and their subcontractors or consultants at any tier.

(a) Trade Secrets. Trade Secrets, as defined in Section 13-24-2, will be protected and not be subject to public disclosure if the procedures of R33-3-204.2 are met.

(b) Certain commercial information or nonindividual financial information. Commercial information or nonindividual financial information subject to the provisions of Section 63-2-304(2) will be a protected record and not be subject to public disclosure if the procedures of R33-3-204.2 are met.

(c) Other Protected Records under GRAMA. There will be no public disclosure of other submitted records that are subject to non-disclosure or being a protected record under a GRAMA statute provided that the requirements of R33-3-204.2 are met unless GRAMA requires such nondisclosure without any preconditions.

3-204.2 Process For Requesting Non-Disclosure. Any person (firm) who believes that a record should be protected under R33-3-204.1 shall include with their proposal or submitted document:

(a) a written indication of which provisions of the submittal(s) are claimed to be considered for business confidentiality (including trade secret or other reason for non-disclosure under GRAMA); and

(b) a concise statement of reasons supporting each claimed provision of business confidentiality.

3-204.3 Notification. The person who complies with R33-3-204.2 shall be notified by the governmental entity prior to the public release of any information for which business confidentiality has been asserted.

3.204.4 Non-Disclosure and Dispute Process. Except as provided by court order, the governmental entity to whom the request for a record is made under GRAMA, may not disclose a record claimed to be protected under R33-3-204.1 but which the governmental entity or State Records Committee determines should be disclosed until the period in which to bring an appeal expires or the end of the appeals process, including judicial appeal. This R33-3-204-4 does not apply where the claimant, after notice, has waived the claim by not appealing or intervening before the records committee. To the extent provided by law, the parties to a dispute regarding the release of a record may agree in writing to an alternative dispute resolution process.

3-204.5 Timing of Public Disclosure. Any allowed public disclosure of records submitted in the competitive sealed proposal process will only be made after the selection of the successful offeror(s) has been made public.

3-205 Public Notice.

Public notice shall be given by distributing the Request for Proposals in the same manner provided for distributing an Invitation for Bids under section 3-104.

3-206 Pre-Proposal Conferences.

Pre-proposal conferences may be conducted in accordance with section 3-106. Any conference should be held prior to submission of initial proposals.

3-207 Amendments to Request for Proposals.

Amendments to the Request for Proposals may be made in accordance with section 3-107 prior to submission of proposals. After submission of proposals, amendments to the Request for Proposals shall be distributed only to offerors who submitted proposals and they shall be allowed to submit new proposals or to amend those submitted. An amendment to the Request for Proposals may be issued through a request for submission of Best and Final Offers. If, in the opinion of the procurement officer, a contemplated amendment will significantly change the nature of the procurement, the Request for Proposals shall be canceled and a new Request for Proposals issued.

3-208 Modification or Withdrawal of Proposals.

Proposals may be modified or withdrawn prior to the established due date in accordance with section 3-108. For the purposes of this section and section 3-209, the established due date is either the date and time announced for receipt of proposals or receipt of modifications to proposals, if any; or if discussions have begun, it is the date and time by which best and final offers must be submitted, provided that only offerors who submitted proposals by the time announced for receipt of proposals may submit best and final offers.

3-209 Late Proposals, Late Withdrawals, and Late Modifications.

(1) Definition. Except for modification allowed pursuant to negotiation, any proposal, withdrawal, or modification received after the established due date and time at the place designated for receipt of proposals is late.

(2) Treatment. No late proposal, late modification, or late withdrawal will be considered unless received before contract award, and the late proposal would have been timely but for the action or inaction of personnel directly serving the procurement activity.

(3) Records. All documents shall be kept relating to the acceptance of any late proposal, modification or withdrawal.

3-210 Receipt and Registration of Proposals.

(1) Proposals shall be opened publicly, identifying only the names of the offerors. Proposals submitted through electronic means shall be received in such a manner that the time and date of submittal, along with the contents of such proposals shall be securely stored until the time and date set for opening. Proposals and modifications shall be time stamped upon receipt and held in a secure place until the established due date. After the date established for receipt of proposals, a register of proposals shall be open to public inspection and shall include for all proposals the name of each offeror, the number of modifications received, if any, and a description sufficient to identify the supply, service, or construction item offered. Prior to award proposals and modifications shall be shown only to purchasing agency personnel having a legitimate interest in them.

3-211 Evaluation of Proposals.

(1) Evaluation Factors in the Request for Proposals. The Request for Proposals shall state all of the evaluation factors and their relative importance, including price.

(2) Evaluation. The evaluation shall be based on the evaluation factors set forth in the Request for Proposals.

Numerical rating systems may be used but are not required. Factors not specified in the Request for Proposals shall not be considered in determining award of contract.

(3) Classifying Proposals. For the purpose of conducting discussions under section 3-212, proposals shall be initially classified as:

(a) acceptable;

(b) potentially acceptable, that is, reasonably susceptible of being made acceptable; or

(c) unacceptable.

3-212 Proposal Discussion with Individual Offerors.

(1) "Offerors" Defined. For the purposes of this section, the term "offerors" includes only those businesses submitting proposals that are acceptable or potentially acceptable. The term shall not include businesses which submitted unacceptable proposals.

(2) Purposes of Discussions. Discussions are held to facilitate and encourage an adequate number of potential contractors to offer their best proposals, by amending their original offers, if needed.

(3) Conduct of Discussions. Offerors shall be accorded fair and equal treatment with respect to any opportunity for discussions and revisions of proposals. The procurement officer should establish procedures and schedules for conducting discussions. If before, or during discussions there is a need for clarification or change of the Request for Proposals, it shall be amended in compliance with R33-3-2(3-207) to incorporate this clarification or change. Auction techniques and disclosure of any information derived from competing proposals are prohibited. Any oral clarification or change of a proposal shall be reduced to writing by the offeror.

(4) Best and Final Offers. The procurement officer shall establish a common time and date for submission of best and final offers. Best and final offers shall be submitted only once unless the procurement officer makes a written determination before each subsequent round of best and final offers demonstrating another round is in the purchasing agency's interest, and additional discussions will be conducted or the purchasing agency's requirements will be changed. Otherwise, no discussion of, or changes in, the best and final offers shall be allowed prior to award. Offerors shall also be informed that if they do not submit a notice of withdrawal or another best and final offer, their immediate previous offer will be construed as their best and final offer.

3-213 Mistakes in Proposals.

(1) Mistakes Discovered Before the Established Due Date. An offeror may correct mistakes discovered before the time and date established for receipt of proposals by withdrawing or correcting the proposal as provided in section 3-208.

(2) Confirmation of Proposal. When it appears from a review of the proposal before award that a mistake has been made, the offeror should be asked to confirm the proposal. If the offeror alleges mistake, the proposal may be corrected or withdrawn during any discussions that are held or if the conditions set forth in subsection (3) of this section are met.

(3) Mistakes Discovered After Receipt But Before Award. This subsection sets forth procedures to be applied in four situations in which mistakes in proposals are discovered after receipt of proposals but before award.

(a) During Discussions; Prior to Best and Final Offers. Once discussions are commenced with any offeror or after best and final offers are requested, any offeror may freely correct any mistake by modifying or withdrawing the proposal until the time and date set for receipt of best and final offers.

(b) Minor Informalities. Minor informalities, unless otherwise corrected by an offeror as provided in this section, shall be treated as they are under competitive sealed bidding.

(c) Correction of Mistakes. If discussions are not held or if the best and final offers upon which award will be made have

been received, mistakes may be corrected and the correct offer considered only if:

(i) the mistake and the correct offer are clearly evident on the face of the proposal in which event the proposal may not be withdrawn; or

(ii) the mistake is not clearly evident on the face of the proposal, but the offeror submits proof of evidentiary value which clearly and convincingly demonstrates both the existence of a mistake and the correct offer and the correction would not be contrary to the fair and equal treatment of other offerors.

(d) Withdrawal of Proposals. If discussions are not held, or if the best and final offers upon which award will be made have been received, the offeror may be permitted to withdraw the proposal if:

(i) the mistake is clearly evident on the face of the proposal and the correct offer is not; or

(ii) the offeror submits proof of evidentiary value which clearly and convincingly demonstrates that a mistake was made but does not demonstrate the correct offer or, if the correct offer is also demonstrated, to allow correction on the basis that the proof would be contrary to the fair and equal treatment of other offerors.

(4) Mistakes Discovered After Award. Mistakes shall not be corrected after award of the contract.

3-214 Award.

(1) Award Documentation. A brief written justification statement shall be made showing the basis on which the award was found to be most advantageous to the state taking into consideration price and the other evaluation factors set forth in the Request for Proposals.

(2) One Proposal Received. If only one proposal is received in response to a Request for Proposals, the procurement officer may, as the officer deems appropriate, either make an award or, if time permits, resolicit for the purpose of obtaining additional competitive sealed proposals.

3-215 Publicizing Awards.

(1) After the selection of the successful offeror(s), notice of award shall be available in the purchasing agency's office and may be available on the internet.

(2) The following shall be disclosed to the public after notice of the selection of the successful offeror(s) and after receipt of a GRAMA request and payment of any lawfully enacted and applicable fees:

(a) the contract(s) entered into as a result of the selection and the successful proposal(s), except for those portions that are to be non-disclosed under R33-3-204;

(b) the unsuccessful proposals, except for those portions that are to be non-disclosed under R33-3-204;

(c) the rankings of the proposals;

(d) the names of the members of any selection committee (reviewing authority);

(e) the final scores used by the selection committee to make the selection, except that the names of the individual scorers shall not be associated with their individual scores or rankings.

(f) the written justification statement supporting the selection, except for those portions that are to be non-disclosed under R33-3-204.

(3) After due consideration and public input, the following has been determined by the Procurement Policy Board to impair governmental procurement proceedings or give an unfair advantage to any person proposing to enter into a contract or agreement with a governmental entity, and will not be disclosed by the governmental entity at any time to the public including under any GRAMA request:

(a) the names of individual scorers in relation to their individual scores or rankings;

(b) non-public financial statements; and

(c) past performance and reference information, which is

not provided by the offeror and which is obtained as a result of the efforts of the governmental entity. To the extent such past performance or reference information is included in the written justification statement, it is subject to public disclosure.

3-216 Exceptions to Competitive Sealed Proposal Process.

(1) As authorized by Section 63-56-408(1) the Chief Procurement Officer or designee may determine that for a given request it is either not practicable or not advantageous for the state to procure a commodity or service referenced in section 3-201 above by soliciting competitive sealed proposals. When making this determination, the Chief Procurement Officer may take into consideration whether the potential cost of preparing, soliciting and evaluating competitive sealed proposals is expected to exceed the benefits normally associated with such solicitations. In the event of that it is so determined, the Chief Procurement Officer, head of a purchasing agency or designee may elect to utilize an alternative, more cost effective procurement method, which may include direct negotiations with a qualified vendor or contractor.

(2) Documentation of the alternative procurement method selected shall state the reasons for selection and shall be made a part of the contract file.

3-217 Multiple Award Contracts for Human Service Provider Services.

The Chief Procurement Officer, head of a purchasing agency or designee may elect to award multiple contracts for Human Service Provider Services through a competitive sealed proposal process by first determining the appropriate fee to be paid to providers and then contracting with all providers meeting the criteria established in the RFP. However this specialized system of contracting for human service provider services may only be used when:

(1) The agency has performed an appropriate analysis to determine appropriate rates to be paid;

(2) The agency files contain adequate documentation of the reasons the contractor was awarded the contract and the reasons for selecting a particular contractor to provide the service to each client; and

(3) The agency has a formal written complaint and appeal process, notice of which is provided to the contractors, and an internal audit function to insure that selection of the contractor from the list of awarded contractors was fair, equitable and appropriate.

R33-3-3. Small Purchases.

3-301 Authority to Make Small Purchases.

(1) Amount. The Office of the Chief Procurement Officer or purchasing agency may use these procedures if the procurement is estimated to be less than \$50,000 for supplies, services or construction. If these procedures are not used, the other methods of source selection provided in Section 63-56-410 of the Utah Procurement Code and these rules shall apply.

(2) Existing Statewide Contracts. Supplies, services, or construction items available under statewide contracts or similar agreements shall be procured under these agreements in accordance with the provisions or requirements for use and not under this subpart unless otherwise authorized by the Chief Procurement Officer.

(3) Available from One Business Only. If the supply, service, or construction item is available only from one business, the sole source procurement method set forth in subpart 3-4 of these rules shall be used.

(4) Division of Requirements. Procurement requirements shall not be artificially divided to avoid using the other source selection methods set forth in Section 63-56-410 of the Utah Procurement Code.

3-302 Small Purchases of Supplies, Services or Construction Between \$5,000 and \$50,000.

(1) Procedure. Insofar as it is practical for small purchases

of supplies, services or construction between \$5,000 and \$50,000, no less than two businesses shall be solicited to submit electronic, telephone or written quotations. Award shall be made to the business offering the lowest acceptable quotation.

(2) Records. The names of the businesses offering quotations and the date and amount of each quotation shall be recorded and maintained as a public record.

3-303 Small Purchases of \$5,000 or Less.

The Chief Procurement Officer shall delegate to state agencies the ability to make purchases up to \$5,000 without involvement of the Division of Purchasing and General Services. For purchases up to \$1,000, the agency may select the best source without seeking competitive quotes. For purchases over \$1,000 and up to \$5,000, agencies shall obtain price competition, and shall purchase the item from the vendor offering the lowest quote. Unless otherwise delegated requests for all purchases over \$5,000, and sole source purchases exceeding \$1,000 shall be submitted to the Division of Purchasing and General Services.

3-304 Small Purchases of Services of Professionals, Providers, and Consultants.

If it is expected that the services of professionals, providers, and consultants can be procured for less than \$50,000, the procedures specified in this subpart may be used.

R33-3-4. Sole Source Procurement.

3-401 Conditions For Use of Sole Source Procurement.

Sole source procurement shall be used only if a requirement is reasonably available from a single supplier. A requirement for a particular proprietary item does not justify a sole source procurement if there is more than one potential bidder or offeror for that item.

Examples of circumstances which could necessitate sole source procurement are:

- (1) where the compatibility of equipment, accessories, replacement parts, or service is the paramount consideration;
- (2) where a sole supplier's item is needed for trial use or testing;
- (3) procurement of items for resale;
- (4) procurement of public utility services.

The determination as to whether a procurement shall be made as a sole source shall be made by the procurement officer. Each request shall be submitted in writing by the using agency. The officer may specify the application of the determination and its duration. In cases of reasonable doubt, competition should be solicited. Any request by a using agency that a procurement be restricted to one potential contractor shall be accompanied by an explanation as to why no other will be suitable or acceptable to meet the need.

3-402 Negotiation in Sole Source Procurement.

The procurement officer shall conduct negotiations, as appropriate, as to price, delivery, and terms.

3-403 Unsolicited Offers.

(1) Definition. An unsolicited offer is any offer other than one submitted in response to a solicitation.

(2) Processing of Unsolicited Offers. If a purchasing agency that receives an unsolicited offer is not authorized to enter into a contract for the supplies or services offered, the head of the agency shall forward the offer to the procurement officer who has authority with respect to evaluation, acceptance, and rejection of the unsolicited offers.

(3) Conditions for Consideration. To be considered for evaluation an unsolicited offer:

- (a) must be sufficiently detailed to allow a judgment to be made concerning the potential utility of the offer to the purchasing agency; and
- (b) may be subject to testing under terms and conditions specified by the agency.

R33-3-5. Emergency Procurements.

3-501 Definition of Emergency Conditions.

An emergency condition is a situation which creates a threat to public health, welfare, or safety as may arise by reason of floods, epidemics, riots, equipment failures, or other reason as may be determined by the Chief Procurement Officer or designee. The existence of this condition creates an immediate and serious need for supplies, services, or construction that cannot be met through normal procurement methods.

3-502 Scope of Emergency Procurements.

Emergency procurement shall be limited to only those supplies, services, or construction items necessary to meet the emergency.

3-503 Authority to Make Emergency Procurements.

The Chief Procurement Officer may delegate in writing to any purchasing agency authority to make emergency procurements of up to an amount set forth in the delegation.

3-504 Source Selection Methods.

(1) General. The source selection method used shall be selected with a view to the end of assuring that the required supplies, services, or construction items are procured in time to meet the emergency. Given this constraint, competition that is practicable shall be obtained.

(2) After Unsuccessful Competitive Sealed Bidding. Competitive sealed bidding is unsuccessful when bids received pursuant to an Invitation for Bids are unreasonable, noncompetitive, or the low bid exceeds available funds as certified by the appropriate fiscal officer, and time or other circumstances will not permit the delay required to resolicit competitive sealed bids. If emergency conditions exist after or are brought about by an unsuccessful attempt to use competitive sealed bidding, an emergency procurement may be made.

3-505 Determination of Emergency Procurement.

The procurement officer or the agency official responsible for procurement shall make a written determination stating the basis for an emergency procurement and for the selection of the particular supplier. The determination shall be sent promptly to the Chief Procurement Officer.

R33-3-6. Responsibility.

3-601 Standards of Responsibility.

(1) Standards. Among factors to be considered in determining whether the standard of responsibility has been met are whether a prospective contractor has:

- (a) available the appropriate financial, material, equipment, facility, and personnel resources and expertise, or the ability to obtain them, necessary to indicate capability to meet all contractual requirements;
- (b) a satisfactory record of integrity;
- (c) qualified legally to contract with the purchasing agency; and
- (d) unreasonably failed to supply any necessary information in connection with the inquiry concerning responsibility.

Nothing shall prevent the procurement officer from establishing additional responsibility standards for a particular procurement, provided that these additional standards are set forth in the solicitation.

(2) Information Pertaining To Responsibility. A prospective contractor shall supply information requested by the procurement officer concerning the responsibility of the contractor. If the contractor fails to supply the requested information, the procurement officer shall base the determination of responsibility upon any available information or may find the prospective contractor nonresponsible if the failure is unreasonable.

3-602 Ability to Meet Standards.

The prospective contractor may demonstrate the availability of necessary financing, equipment, facilities,

expertise, and personnel by submitting upon request:

- (1) evidence that the contractor possesses the necessary items;
 - (2) acceptable plans to subcontract for the necessary items;
- or
- (3) a documented commitment from, or explicit arrangement with, a satisfactory source to provide the necessary items.

3-603 Written Determination of Nonresponsibility Required.

If a bidder or offeror who otherwise would have been awarded a contract is found nonresponsible, a written determination of nonresponsibility setting forth the basis of the finding shall be prepared by the procurement officer. The determination shall be made part of the procurement file.

R33-3-7. Types of Contracts.

3-701 Policy Regarding Selection of Contract Types.

(1) General. The selection of an appropriate contract type depends on factors such as the nature of the supplies, services, or construction to be procured, the uncertainties which may be involved in contract performance, and the extent to which the purchasing agency or the contractor is to assume the risk of the cost of performance of the contract. Contract types differ in the degree of responsibility assumed by the contractor for the costs of performance and the amount and kind of profit incentive offered the contractor to achieve or exceed specified standards or goals.

Among the factors to be considered in selecting any type of contract are:

- (a) the type and complexity of the supply, service, or construction item being procured;
- (b) the difficulty of estimating performance costs such as the inability of the purchasing agency to develop definitive specifications, to identify the risks to the contractor inherent in the nature of the work to be performed, or otherwise to establish clearly the requirements of the contract;
- (c) the administrative costs to both parties;
- (d) the degree to which the purchasing agency must provide technical coordination during the performance of the contract;
- (e) the effect of the choice of the type of contract on the amount of competition to be expected;
- (f) the stability of material or commodity market prices or wage levels;
- (g) the urgency of the requirement;
- (h) the length of contract performance; and
- (i) federal requirements.

The purchasing agency should not contract in a manner that would place an unreasonable economic risk on the contractor, since this action would tend to jeopardize satisfactory performance on the contract.

(2) Use of Unlisted Contract Types. The provisions of this subpart list and define the principal contract types. In addition, any other type of contract, except cost-plus-a-percentage-of-cost, may be used provided the procurement officer determines in writing that this use is in the purchasing agency's best interest.

3-702 Fixed-Price Contracts.

(1) General. A fixed-price contract is the preferred and generally utilized type of contract. A fixed-price contract places responsibility on the contractor for the delivery of the product or the complete performance of the services or construction in accordance with the contract terms at a price that may be firm or subject to contractually specified adjustments. The fixed-price contract is appropriate for use when there is a reasonably definitive requirement, as in the case of construction or standard commercial products. The use of a fixed-price contract when risks are unknown or not readily measurable in terms of cost can result in inflated prices and inadequate competition; poor

performance, disputes, and claims when performance proves difficult; or excessive profits when anticipated contingencies do not occur.

(2) Firm Fixed-Price Contract. A firm fixed-price contract provides a price that is not subject to adjustment.

(3) Fixed-Price Contract with Price Adjustment.

(a) A fixed-price contract with price adjustment provides for variation in the contract price under special conditions defined in the contract, other than customary provisions authorizing price adjustments due to modifications to the work. The formula or other basis by which the adjustment in contract price can be made shall be specified in the solicitation and the resulting contract. However, clauses providing for most-favored-customer prices for the purchasing agency, that is, the price to the purchasing agency will be lowered to the lowest priced sales to any other customer made during the contract period, shall not be used. Examples of conditions under which adjustments may be provided in fixed-price contracts are:

- (i) changes in the contractor's labor contract rates;
- (ii) changes due to rapid and substantial price fluctuations, which can be related to an accepted index; and
- (iii) when a general price change alters the base price.

(b) If the contract permits unilateral action by the contractor to bring about the condition under which a price increase may occur, the contract shall reserve to the purchasing agency the right to reject the price increase and terminate the contract without cost or damages. Notice of the price increase shall be given by the contractor in the manner and within the time specified in the contract.

3-703 Cost-Reimbursement Contracts.

(1) General. The cost-reimbursement contract provides for payment to the contractor of allowable costs incurred in the performance of the contract as determined in accordance with part 7 of these rules and provided in the contract. This type of contract establishes at the outset an estimated cost for the performance of the contract and a dollar ceiling which the contractor may not exceed without prior approval of subsequent ratification by the procurement officer and, in addition, may provide for payment of a fee. The contractor agrees to perform as specified in the contract until the contract is completed or until the costs reach the specified ceiling, whichever occurs first.

This contract type is appropriate when the uncertainties involved in contract performance are of a magnitude that the cost of contract performance cannot be estimated with sufficient reasonableness to permit use of any type of fixed-price contract. In addition, a cost-reimbursement contract necessitates appropriate monitoring by purchasing agency personnel during performance so as to give reasonable assurance that the objectives of the contract are being met. It is particularly suitable for research, development, and study-type contracts.

(2) Determination Prior to Use. A cost-reimbursement contract may be used only when the procurement officer determines in writing that:

(a) a contract is likely to be less costly to the purchasing agency than any other type or that it is impracticable to obtain otherwise, the supplies, services, or construction;

(b) the proposed contractor's accounting system will permit timely development of all necessary cost data in the form required by the specific contract type contemplated; and

(c) the proposed contractor's accounting system is adequate to allocate costs in accordance with generally accepted accounting principles.

(3) Cost Contract. A cost contract provides that the contractor will be reimbursed for allowable costs incurred in performing the contract.

(4) Cost-Plus-Fixed-Fee Contract. This is a cost-reimbursement type contract which provides for payment to the contractor of an agreed fixed fee in addition to reimbursement of allowable, incurred costs. The fee is established at the time

of contract award and does not vary whether the actual cost of contract performance is greater or less than the initial estimated cost established for the work. Thus, the fee is fixed but not the contract amount because the final contract amount will depend on the allowable costs reimbursed. The fee is subject to adjustment only if the contract is modified to provide for an increase or decrease in the work specified in the contract.

3-704 Cost Incentive Contracts.

(1) General. Cost incentive contracts provide for the sharing of cost risks between the purchasing agency and the contractor. This type of contract provides for the reimbursement to the contractor of allowable costs incurred up to a ceiling amount and establishes a formula in which the contractor is rewarded for performing at less than target cost or is penalized if it exceeds target cost. Profit or fee is dependent on how effectively the contractor controls cost in the performance of the contract.

(2) Fixed-Price Cost Incentive Contract.

(a) Description. In a fixed-price cost incentive contract, the parties establish at the outset a target cost, a target profit, a cost-sharing formula which provides a percentage increase or decrease of the target profit depending on whether the cost of performance is less than or exceeds the target cost, and a ceiling price. After performance of the contract, the actual cost of performance is arrived at based on the total incurred allowable cost as determined in accordance with part 7 of these rules and as provided in the contract. The final contract price is then established in accordance with the cost-sharing formula using the actual cost of performance. The final contract price may not exceed the ceiling price. The contractor is obligated to complete performance of the contract, and, if actual cost exceeds the ceiling price, the contractor suffers a loss.

(b) Objective. The fixed-price cost incentive contract serves three objectives. It permits the establishment of a firm ceiling price for performance of the contract which takes into account uncertainties and contingencies in the cost of performance. It motivates the contractor to perform the contract economically since cost is in inverse relation to profit; the lower the cost, the higher the profit. It provides a flexible pricing mechanism for establishing a cost sharing responsibility between the purchasing agency and contractor depending on the nature of the supplies, services, or construction being procured, the length of the contract performance, and the performance risks involved.

(3) Cost-Plus Contract with Cost Incentive Fee. In a cost-plus contract with cost incentive fee, the parties establish at the outset a target cost; a target fee; a cost-sharing formula for increase or decrease of fee depending on whether actual cost of performance is less than or exceeds the target cost, with maximum and minimum fee limitations; and a cost ceiling which represents the maximum amount which the purchasing agency is obligated to reimburse the contractor. The contractor continues performance until the work is complete or costs reach the ceiling specified in the contract, whichever first occurs. After performance is complete or costs reach the ceiling, the total incurred, allowable costs reimbursed in accordance with part 7 of these rules and as provided in the contract are applied in the cost-sharing formula to establish the incentive fee payable to the contractor. This type of contract gives the contractor a stronger incentive to efficiently manage the contract than a cost-plus-fixed-fee contract provides.

(4) Determinations Required. Prior to entering into any cost incentive contract, the procurement officer shall make the written determination required by subsections 3-703(2)(b) and (c) of these rules. In addition, prior to entering any cost-plus contract with cost incentive fee, the procurement officer shall include in the written determination the determination required by subsection 3-703(2)(a) of these rules.

3-705 Performance Incentive Contracts.

In a performance incentive contract, the parties establish at the outset a pricing basis for the contract, performance goals, and a formula for increasing or decreasing the compensation if the specified performance goals are exceeded or not met. For example, early completion may entitle the contractor to a bonus while late completion may entitle the purchasing agency to a price decrease.

3-706 Time and Materials Contracts; Labor Hour Contracts.

(1) Time and Materials Contracts. Time and materials contracts provide for payment for materials at cost and labor performed at an hourly rate which includes overhead and profit. These contracts provide no incentives to minimize costs or effectively manage the contract work. Consequently, all such contracts shall contain a stated cost ceiling and shall be entered into only after the procurement officer determines in writing that:

(a) personnel have been assigned to closely monitor the performance of the work; and

(b) no other type of contract will suitably serve the purchasing agency's purpose.

(2) Labor Hour Contracts. A labor hour contract is the same as a time and materials contract except the contractor supplies no material. It is subject to the same considerations, and the procurement officer shall make the same determinations before it is used.

3-707 Definite Quantity and Indefinite Quantity Contracts.

(1) Definite Quantity. A definite quantity contract is a fixed-price contract that provides for delivery of a specified quantity of supplies or services either at specified times or when ordered.

(2) Indefinite Quantity. An indefinite quantity contract is a contract for an indefinite amount of supplies or services to be furnished as ordered that establishes unit prices of a fixed-price type. Generally an approximate quantity or the best information available is stated in the solicitation. The contract may provide a minimum quantity the purchasing agency is obligated to order and may also provide for a maximum quantity provision that limits the purchasing agency's obligation to order. The time of performance of an indefinite quantity contract may be extended upon agreement of the parties provided the extension is for 90 days or less and the procurement officer determines in writing that it is not practical to award another contract at the time of the extension.

(3) Requirements Contracts. A requirements contract is an indefinite quantity contract for supplies or services that obligates the purchasing agency to order all the actual, normal requirements of designated using agencies during a specified period of time; and for the protection of the purchasing agency and the contractor. Invitations for Bids and resulting requirements contracts shall include a provision. However, the purchasing agency may reserve in the solicitation and in the resulting contract the right to take bids separately if a particular quantity requirement arises which exceeds an amount specified in the contract. Requirements contracts shall contain an exemption from ordering under the contract when the procurement officer approves a finding that the supply or service available under the contract will not meet a nonrecurring, special need of the purchasing agency.

3-708 Progressive and Multiple Awards.

(1) Progressive Award. A progressive award is an award of portions of a definite quantity requirement to more than one contractor. Each portion is for a definite quantity and the sum of the portions is the total definite quantity procured. A progressive award may be in the purchasing agency's best interest when awards to more than one bidder or offeror for different amounts of the same item are needed to obtain the total quantity or the time or times of delivery required.

(2) Multiple Award. A multiple award is an award of an

indefinite quantity contract for one or more similar supplies or services to more than one bidder or offeror, and the purchasing agency is obligated to order all of its actual, normal requirements for the specified supplies or services from those contractors. A multiple award may be in the purchasing agency's best interest when award to two or more bidders or offerors for similar products is needed for adequate delivery, service, or availability, or for product compatibility. In making a multiple award, care shall be exercised to protect and promote the principles of competitive solicitation. All eligible users of the contract shall be named in the solicitation, and it shall be mandatory that the requirements of the users that can be met under the contract be obtained in accordance with the contract, provided, that:

(a) the purchasing agency shall reserve the right to take bids separately if a particular quantity requirement arises which exceeds an amount specified in the contract; or

(b) the purchasing agency shall reserve the right to take bids separately if the procurement officer approves a finding that the supply or service available under the contract will not meet a nonrecurring special need of the agency.

(3) Intent to Use. If a progressive or multiple award is anticipated prior to issuing a solicitation, the method of award shall be stated in the solicitation.

3-709 Leases.

(1) Use. A lease may be entered into provided:

(a) it is in the best interest of the purchasing agency;

(b) all conditions for renewal and costs of termination are set forth in the lease; and

(c) the lease is not used to avoid a competitive procurement.

(2) Competition. Lease and lease-purchase contracts are subject to the requirements of competition which govern the procurement of supplies.

(3) Lease with Purchase Option. A purchase option in a lease may be exercised only if the lease containing the purchase option was awarded under competitive bidding or competitive proposals, unless the requirement can be met only by the supply or facility being leased as determined in writing by the procurement officer. Before exercising this option, the procurement officer shall:

(a) investigate alternative means of procuring comparable supplies or facilities; and

(b) compare estimated costs and benefits associated with the alternative means and the exercise of the option, for example, the benefit of buying new state of the art data processing equipment compared to the estimated, initial savings associated with exercise of a purchase option.

3-710 Multi-Year Contracts; Installment Payments.

(1) Use. A contract may be entered into which extends beyond the current fiscal period provided any obligation for payment in a succeeding fiscal period is subject to the availability of funds.

(2) Termination. A multi-year contract may be terminated without cost to the purchasing agency by reason of unavailability of funds for the purpose or for lack of performance by the contractor. Termination for other reason shall be as provided by the contract.

(3) Installment Payments. Supply contracts may provide for installment purchase payments, including interest charges, over a period of time. Installment payments, however, should be used judiciously in order to achieve economy and not to avoid budgetary restraints, and shall be justified in writing by the head of the using agency. Heads of using agencies shall be responsible for ensuring that statutory or other prohibitions are not violated by use of installment provisions and that all budgetary or other required prior approvals are obtained. No agreement shall be used unless provision for installment payments is included in the solicitation document.

3-711 Contract Option.

(1) Provision. Any contract subject to an option for renewal, extension, or purchase, shall have had a provision included in the solicitation. When a contract is awarded by competitive sealed bidding, exercise of the option shall be at the purchasing agency's discretion only, and not subject to agreement or acceptance by the contractor.

(2) Exercise of Option. Before exercising any option for renewal, extension, or purchase, the procurement officer should attempt to ascertain whether a competitive procurement is practical, in terms of pertinent competitive and cost factors, and would be more advantageous to the purchasing agency than renewal or extension of the existing contract.

R33-3-8. Cost or Pricing Data and Analysis; Audits.

3-801 Scope.

This subpart sets forth the pricing policies which are applicable to contracts of any type and any included price adjustments when cost or pricing data are required to be submitted.

3-802 Requirements for Cost or Pricing Data.

(1) Submission of Cost or Pricing Data - Required. Cost or pricing data shall be required in support of a proposal leading to:

(a) the pricing of any contract expected to exceed \$100,000 to be awarded by competitive sealed proposals or sole source procurement; or

(b) the pricing of any adjustment to any contract, including a contract, awarded by competitive sealed bidding, whether or not cost pricing data was required in connection with the initial pricing of the contract, as requested by the procurement officer. However, this requirement shall not apply when unrelated and separately priced adjustments for which cost or pricing data would not be required are consolidated for administrative convenience.

(2) Submission of Cost or Pricing Data - Permissive. After making determination that circumstances warrant action, the procurement officer may require the offeror or contractor to submit cost or pricing data in any other situation except where the contract award is made pursuant to competitive sealed bidding. Generally, cost or pricing data should not be required where the contract or modification is less than \$2,000. Moreover, when less than complete cost analysis will provide a reasonable pricing result on awards or for change orders without the submission of complete cost or pricing data, the procurement officer shall request only that data considered adequate to support the limited extent of the cost analysis needed and need not require certification.

(3) Exceptions. Cost or pricing data need not be submitted and certified:

(a) where the contract price is based on:

(i) adequate price competition;

(ii) established catalog prices or market prices, if trade discounts are reflected in the prices; or

(iii) prices set by law or rule; or

(b) when the procurement officer determines in writing that the requirements for submitting cost or pricing data may be waived and the reasons for the waiver are stated in the determination. A copy of the determination shall be kept in the contract file and made available to the public upon request. If, after cost or pricing data were initially requested and received, it is determined that adequate price competition does exist, the data need not be certified.

If, despite the existence of an established catalog price or market price, the procurement officer considers that a price appears unreasonable, cost or pricing data may be requested. Where the reasonableness of the price can be assured by limited data pertaining to the differences in the item or services, requests should be so limited.

3-803 Submission of Cost or Pricing Data and Certification.

Cost or pricing data shall be submitted to the procurement officer at the time and in the manner prescribed in these rules or as otherwise from time to time prescribed by the procurement officer. When the procurement officer requires the offeror or contractor to submit cost or pricing data in support of any proposal, the data shall either be actually submitted or specifically identified in writing. When cost or pricing data is required, the data is to be submitted prior to beginning price negotiation and the offeror or contractor is required to keep the submission current throughout the negotiations. The offeror or contractor shall certify, as soon as practicable after agreement is reached on price, that the cost or pricing data submitted is accurate, complete, and current as of a mutually determined date prior to reaching agreement. Certification shall be made using the certificate set forth in section 3-804 of this subpart. A refusal by the offeror to supply the required data shall be referred to the procurement officer whose duty shall be to determine in writing whether to disqualify the noncomplying offeror, to defer award pending further investigation, or to enter into the contract. A refusal by a contractor to submit the required data to support a price adjustment shall be referred to the procurement officer who shall determine in writing whether to further investigate the price adjustment, not to allow any price adjustment, or to set the amount of the price adjustment.

3-804 Certificate of Current Cost or Pricing Data.

(1) Form of Certificate. When cost or pricing data must be certified, the certificate set forth below shall be included in the contract file along with any award documentation required under these rules. The offeror or contractor shall be required to submit the certificate as soon as practicable after agreement is reached on the contract price or adjustment.

"CERTIFICATE OF CURRENT COST OR PRICING DATA

This is to certify that, to the best of my knowledge and belief, cost or pricing data as defined in the Utah Procurement Rules submitted, either actually or by specific identification in writing, to the procurement officer in support of . . . , are accurate, complete, and current as of date, month and year. . . The effective date shall be the date when price negotiations were concluded and the contract price was agreed to. The responsibility of the offeror or contractor is not limited by the personal knowledge of the offeror's or contractor's negotiator if the offeror or contractor had information reasonably available at the time of agreement, showing that the negotiated price is not based on accurate, complete, and current data.

This certification includes the cost or pricing data supporting any advance agreement(s) between the offeror and the purchasing agency which are part of the proposal.

Firm
Name
Title

Date of Execution . . . (This date should be as close as practical to the date when the price negotiations were concluded and the contract price was agreed to.)"

(End of Certificate)

(2) Limitation of Representation. Because the certificate pertains to cost or pricing data, it is not to be construed as a representation as to the accuracy of the offeror's or contractor's judgment on the estimated portion of future costs or projections. It does, however, apply to the data upon which the offeror's or contractor's judgment is based. A certificate of current cost or pricing data is not a substitute for examination and analysis of the offeror's or contractor's proposal.

(3) Inclusion of Notice and Contract Clause. Whenever it is anticipated that a certificate of current cost or pricing data may be required, a clause giving notice of this requirement shall be included in the solicitation. If a certificate is required, the

contract shall include a clause giving the purchasing agency a contract right to a price adjustment, that is, to a reduction in the price to what it would have been if the contractor had submitted accurate, complete, and current data.

(4) Exercise of Option. The exercise of an option at the price established in the initial negotiation in which certified cost or pricing data were used does not require recertification or further submission of data.

3-805 Defective Cost or Pricing Data.

(1) Overstated Cost or Pricing Data. If certified cost or pricing data is subsequently found to have been inaccurate, incomplete, or noncurrent as of the date stated in the certificate, the purchasing agency shall be entitled to an adjustment of the contract price, including profit or fee, to exclude any significant sum by which the price, including profit or fee, was increased because of the defective data. It is assumed that overstated cost or pricing data increased the contract price in the amount of the defect plus related overhead and profit or fee. Unless there is a clear indication that the defective data were not used or relied upon, the price should be reduced in this amount. In establishing that the defective data caused an increase in the contract price, the procurement officer is not expected to reconstruct the negotiation by speculating as to what would have been the mental attitudes of the negotiating parties if the correct data had been submitted at the time of agreement on price.

(2) Understated Cost or Pricing Data. In determining the amount of an adjustment, the contractor shall be entitled to an adjustment for any understated cost or pricing data submitted in support of price negotiations for the same pricing action up to the amount of the purchasing agency's claim for over stated cost or pricing data arising out of the same pricing action.

(3) Dispute as to Amount. If the contractor and the procurement officer cannot agree as to the amount of adjustment due to defective cost or pricing data, the procurement officer shall set an amount in accordance with subsections 3-805(1) and 3-805(2) of this subpart.

3-806 Price Analysis Techniques.

Price analysis is used to determine if a price is reasonable and acceptable. It involves a comparison of the prices for the same or similar items or services. Examples of price analysis criteria include:

- (1) price submissions of other prospective bidders or offerors;
- (2) prior price quotations and contract prices charged by any bidder, offeror, or contractor;
- (3) prices published in catalogs or price lists; and
- (4) prices available on the open market.

In making an analysis, consideration must be given to any differing delivery factors and contractual provisions, terms and conditions.

3-807 Cost Analysis Techniques.

(1) General. Cost analysis includes the appropriate verification of cost or pricing data, and the use of this data to evaluate:

- (a) specific elements of costs;
- (b) the necessity for certain costs;
- (c) the reasonableness of amounts estimated for the necessary costs;
- (d) the reasonableness of allowances for contingencies;
- (e) the basis used for allocation of indirect costs;
- (f) the appropriateness of allocations of particular indirect costs to the proposed contract; and
- (g) the reasonableness of the total cost or price.

(2) Evaluations. Evaluations of cost or pricing data should include comparisons of costs and prices of an offeror's cost estimates with those of other offerors and any independent price and cost estimates. They shall also include consideration of whether the costs are reasonable and allocable under these rules.

3-808 Audit.

(1) The procurement officer may, at reasonable times and places, audit or cause to be audited, the books and records of a contractor, prospective contractor, subcontractor, or prospective subcontractor which are related to:

- (a) the cost or pricing data submitted;
- (b) a contract, including subcontracts, other than a firm fixed-price contract, awarded pursuant to these rules and the Utah Procurement Code.

(2) An audit performed by an auditor selected or approved by the procurement officer shall be submitted containing at least the following information:

(a) for cost and pricing data audits:

- (i) a description of the original proposal and all submissions of cost or pricing data;
- (ii) an explanation of the basis and the method used in preparing the proposal;
- (iii) a statement identifying any cost or pricing data not submitted but examined by the auditor which has a significant affect on the proposed cost or price;
- (iv) a description of any deficiency in the cost or pricing data submitted and an explanation of its affect on the proposal;
- (v) a statement summarizing those major points where there is a disagreement as to the cost or pricing data submitted; and
- (vi) a statement identifying any information obtained from other sources;
- (b) the number of invoices or reimbursement vouchers submitted by the contractor or subcontractor for payment;
- (c) the use of federal assistance funds; or
- (d) the fluctuation of market prices affecting the contract.

The scope of the audit may be limited by the procurement officer.

(3) For contract audits, the scope of the report will depend on the scope of the audit ordered. However, the report should contain specific reference to the terms of the contract to which the audited data relates and a statement of the degree to which the auditor believes the audited data evidence compliance with those terms.

3-809 Retention of Books and Records.

(1) Relating to Cost and Pricing Data. Any contractor who receives a contract, change order, or contract modification for which cost or pricing data is required shall maintain the books and records that relate to the cost or pricing data for three years from the date of final payment under the contract.

(2) Relating to Other than Firm Fixed-Price Contracts. Books and records that relate to a contract in excess of \$25,000, including subcontracts, other than a firm fixed-price contract, shall be maintained:

- (a) by a contractor, for three years from the date of final payment under the contract; and
- (b) by a subcontractor, for three years from the date of final payment under the subcontract.

R33-3-9. Plant or Site Inspection; Inspection of Supplies or Services.**3-901 Inspection of Plant or Site.**

Circumstances under which the purchasing agency may perform inspections include inspections of the contractor's plant or site in order to determine:

- (1) whether the standards set forth in section 3-601 have been met or are capable of being met; and
- (2) if the contract is being performed in accordance with its terms.

3-902 Access to Plant or Place of Business.

The purchasing agency may enter a contractor's or subcontractor's plant or place of business to:

- (1) inspect supplies or services for acceptance by the purchasing agency pursuant to the terms of a contract;

(2) audit cost or pricing data or audit the books and records of any contractor or subcontractor pursuant to Section 63-56-415 subsection (5) of the Utah Procurement Code; and

(3) investigate in connection with an action to debar or suspend a person from consideration for award of contracts pursuant to Section 63-56-804 of the Utah Procurement Code.

3-903 Inspection of Supplies and Services.

(1) Provisions for Inspection. Contracts may provide that the purchasing agency may inspect supplies and services at the contractor's or subcontractor's facility and perform tests to determine whether they conform to solicitation requirements or, after award, to contract requirements, and are acceptable. These inspections and tests shall be conducted in accordance with the terms of the solicitation and contract.

(2) Trial Use and Testing. The procurement officer is authorized to establish operational procedures governing the testing and trial use of various equipment, materials, and supplies by any using agency, and the relevance and use of resulting information to specifications and procurements.

3-904 Conduct of Inspections.

(1) Inspectors. Inspections or tests shall be performed so as not to unduly delay the work of the contractor or subcontractor. No inspector may change any provision of the specifications or the contract without written authorization of the procurement officer. The presence or absence of an inspector shall not relieve the contractor or subcontractor from any requirements of the contract.

(2) Location. When an inspection is made in the plant or place of business of a contractor or subcontractor, the contractor or subcontractor shall provide without charge all reasonable facilities and assistance for the safety and convenience of the person performing the inspection or testing.

(3) Time. Inspection or testing of supplies and services performed at the plant or place of business of any contractor or subcontractor shall be performed at reasonable times.

3-905 Inspection of Construction Projects.

On-site inspection of construction shall be performed in accordance with the terms of the contract.

Notice of Continuation November 27, 2002

63-56

R33. Administrative Services, Purchasing and General Services.**R33-4. Specifications.****R33-4-1. General Provisions.**

4-101 General Purpose and Policies.

(1) Purpose. Specifications shall be drafted with the objective of clearly describing the purchasing agency's requirements and of encouraging competition. The purpose of a specification is to serve as a basis for obtaining a supply, service, or construction item adequate and suitable for the purchasing agency's needs in a cost effective manner, taking into account, to the extent practicable, the costs of ownership and operation as well as initial acquisition costs.

(2) Use of Functional or Performance Descriptions. Specifications shall, to the extent practicable, emphasize functional or performance criteria while limiting design or other detailed physical descriptions to those necessary to meet the needs of the purchasing agency. To facilitate the use of the criteria, using agencies shall endeavor to include as a part of their purchase requisitions the principal functional or performance needs to be met. It is recognized, however, that the preference for use of functional or performance specifications is primarily applicable to the procurement of supplies and services. This preference is often not practicable in construction, apart from the procurement of supply-type items for a construction project.

(3) Preference for Commercially Available Products. It is the general policy that requirements be satisfied by standard commercial products whenever practicable.

4-102 Availability of Documents.

Except for testing and confidential data, specifications and any written determination or other document generated or used in the development of a specification shall be available for public inspection.

4-103 Emergency Authority.

In the event of an emergency, as determined by the procurement officer, the purchasing agency may procure by any reasonable means, with any available specifications, without regard to the provision of these rules.

4-104 Procedures for the Development of Specifications.

(1) Provisions of General Application.

(a) Application of Section. This section applies to all persons who may prepare a specification.

(b) Specification of Alternates May Be Included. A specification may provide alternate descriptions of supplies, services, or construction items where two or more design, functional, or performance criteria will satisfactorily meet the purchasing agency's requirements.

(c) Contractual Requirements Not to Be Included. To the extent feasible, a specification shall not include any solicitation or contract term or condition as a requirement for time or place of bid opening, time of delivery, payment, liquidated damages, or qualification of bidders.

(d) Use of Existing Specifications. If a specification for a common or general use item has been developed in accordance with subsection (2) (a) of this section or a qualified products list has been developed in accordance with subsection (2) (d) of this section for a particular supply, service, or construction item, or need, it shall be used unless the procurement officer makes a written determination that its use is not in the purchasing agency's best interest and that another specification shall be used.

(e) The procurement officer should provide for the periodic review of specifications to determine whether any existing specification needs revision, or a new specification is needed to reflect changes in:

(i) the state of the art;

(ii) the characteristics of the available supplies, services, or construction items; or

(iii) needs of the using agency.

(f) The procurement officer may allow others to prepare specifications for the purchasing agency's use in making procurements when there will be no substantial conflict of interest involved and it is otherwise in the best interests of the purchasing agency as determined by the procurement officer.

(2) Special Additional Procedures.

(a) Specifications for Common or General Use Items.

(i) Preparation and Utilization. A standard specification for common or general use shall, to the extent practicable, be prepared and utilized when a supply, service, or construction item is used in common by several using agencies or used repeatedly by one using agency, and the characteristics of the supply, service, or construction item as commercially produced or provided remain relatively stable while the frequency or volume of procurements is significant, or where the purchasing agency's recurring needs require uniquely designed or specially produced items.

(ii) Final Approval. Final approval of a proposed specification for a common or general use item shall be given only by the procurement officer.

(iii) Revisions and Cancellations. All revisions to or cancellations of specifications for common or general use items may be made upon approval of the procurement officer.

(b) Brand Name or Equal Specification.

(i) Brand name or equal specifications may be used when the procurement officer determines that a specification is in the purchasing agency's best interest.

(ii) Designation of Several Brands. Brand name or equal specification shall seek to designate as many different brands as are practicable as "or equal" references and shall state that products substantially equivalent to those designated will be considered for award.

(iii) Required Characteristics. Unless the procurement officer authorized to finally approve specifications determines that the essential characteristics of the brand names included in the specifications are commonly known in the industry or trade, brand name or equal specifications shall include a description of the particular design and functional or performance characteristics which are required.

(iv) Nonrestrictive Use of Brand Name or Equal Specifications. Where a brand name or equal specification is used in a solicitation, the solicitation shall contain explanatory language that the use of a brand name is for the purpose of designating the standard of quality, performance, and characteristics desired and is not intended to limit or restrict competition.

(c) Brand Name Specification.

(i) Use. Since use of a brand name specification is restrictive, a specification may be used when the procurement officer or designee makes a written determination. The determination may be in any form deemed acceptable to the chief procurement officer, as a purchase evaluation, or a statement of single source justification. The written statement must state specific reasons for use of the brand name specification.

(ii) Competition. The procurement officer shall seek to identify sources from which the designated brand name item or items can be obtained and shall solicit sources to achieve whatever degree of competition is practicable. If only one source can supply the requirement, the procurement shall be made under Section 63-56-410 of the Utah Procurement Code.

(d) Qualified Products List.

(i) Use. A qualified products list may be developed with the approval of the Chief Procurement Officer, or the head of a purchasing or using agency authorized to develop qualified products lists, when testing or examination of the supplies or construction items prior to issuance of the solicitation is desirable or necessary in order to satisfy purchasing agency

requirements.

(ii) Solicitation. When developing a qualified products list, a representative group of potential suppliers shall be solicited to submit products for testing and examination to determine acceptability for inclusion on a qualified products list. Any potential supplier, even though not solicited, may offer products for consideration in accordance with any schedule or procedure established for this purpose.

(iii) Testing and Confidential Data. Inclusion on a qualified products list shall be based on results of tests or examinations conducted in accordance with prior established requirements. Except as otherwise provided by law, trade secrets, test data, and similar information provided by the supplier will be kept confidential when requested in writing by the supplier. However, qualified products lists' test results shall be made public, but in a manner so as to protect the confidentiality of the identity of the competitors by, for example, using numerical designations.

63-56

Notice of Continuation November 27, 2002

R33. Administrative Services, Purchasing and General Services.**R33-5. Construction and Architect-Engineer Selection.****R33-5-101. Purpose and Authority.**

As required by Sections 63-56-501, 63-56-504 (2), 63-56-506 and 63-56-601 (1), this rule contains provisions applicable to:

- (1) selecting the appropriate method of management for construction contracts, that is, the contracting method and configuration that will most likely result in timely, economical, and otherwise successful completion of the construction project.
- (2) establishing appropriate bid, performance, and payment bond requirements including criteria allowing for waiver of these requirements.
- (3) governing appropriate contract provisions.

R33-5-102. Application.

The provisions of this chapter shall apply to all procurements of construction which are estimated to be greater than \$50,000. Procurement of construction expected to be less than \$50,000 shall be made in accordance with R33-3-3 (Small Purchases) except bid, performance and payment bonds shall be required unless waived in accordance with R33-5-355 (Waiver of Bonding Requirements on Small Projects).

R33-5-201. Methods of Construction Contract Management.

(1) Application. This section contains provisions applicable to the selection of the appropriate type of construction contract management.

(2) Flexibility. It is intended that the Procurement Officer have sufficient flexibility in formulating the construction contract management method for a particular project to fulfill the needs of the procuring agencies. In each instance consideration commensurate with the project's size and importance should be given to all the appropriate and effective means of obtaining both the design and construction of the project. The methods for achieving the purposes set forth in this rule are not to be construed as an exclusive list.

(3) Selecting the Method of Construction Contracting. In selecting the construction contracting method, the Procurement Officer should consider the results achieved on similar projects in the past and the methods used. Consideration should be given to all appropriate and effective methods and their comparative advantages and disadvantages and how they might be adapted or combined to fulfill the needs of the procuring agencies.

(4) Criteria for Selecting Construction Contracting Methods. Before choosing the construction contracting method to use, a careful assessment must be made by the Procurement Officer of requirements the project must satisfy and those other characteristics that would be desirable. Some of the factors to consider are:

- (a) when the project must be ready to be occupied;
- (b) the type of project, for example, housing, offices, labs, heavy or specialized construction;
- (c) the extent to which the requirements of the procuring agencies and the ways in which they are to be met are known;
- (d) the location of the project;
- (e) the size, scope, complexity, and economics of the project;
- (f) the amount and type of financing available for the project, including whether the budget is fixed or what the source of funding is, for example, general or special appropriation, federal assistance moneys, general obligation bonds or revenue bonds, lapsing/nonlapsing status and legislative intent language;
- (g) the availability, qualification, and experience of State personnel to be assigned to the project and how much time the State personnel can devote to the project;
- (h) the availability, experience and qualifications of

outside consultants and contractors to complete the project under the various methods being considered.

(5) General Descriptions.

(a) Use of Descriptions. The following descriptions are provided for the more common contracting methods. The methods described are not all mutually exclusive and may be combined on a project. These descriptions are not intended to be fixed in respect to all construction projects of the State. In each project, these descriptions may be adapted to fit the circumstances of that project. However, the Procurement Officer should endeavor to ensure that these terms are described adequately in the appropriate contracts, are not used in a misleading manner, and are understood by all relevant parties.

(b) Single Prime Contractor. The single prime contractor method is typified by one business, acting as a general contractor, contracting with the state to timely complete an entire construction project in accordance with drawings and specifications provided by the state. Generally the drawings and specifications are prepared by an architectural or engineering firm under contract with the state. Further, while the general contractor may take responsibility for successful completion of the project, much of the work may be performed by specialty contractors with whom the prime contractor has entered into subcontracts.

(c) Multiple Prime Contractors. Under the multiple prime contractor method, the State or the State's agent contracts directly with a number of specialty contractors to complete portions of the project in accordance with the State's drawings and specifications. The State or its agent may have primary responsibility for successful completion of the entire project, or the contracts may provide that one of the multiple prime contractors has this responsibility.

(d) Design-Build. In a design-build project, a business contracts directly with the State to meet the State's requirements as described in a set of performance specifications. Design responsibility and construction responsibility both rest with the design-build contractor. This method can include instances where the design-build contractor supplies the site as part of the package.

(e) Construction Manager. A construction manager is a person experienced in construction that has the ability to evaluate and to implement drawings and specifications as they affect time, cost, and quality of construction and the ability to coordinate the construction of the project, including the administration of change orders. The State may contract with the construction manager early in a project to assist in the development of a cost effective design. The construction manager may become the single prime contractor, or may guarantee that the project will be completed on time and will not exceed a specified maximum price. This method is frequently used on fast track projects with the construction manager obtaining subcontractors through the issuance of multiple bid packages as the design is developed. The procurement of a construction manager may be based, among other criteria, on proposals for a management fee which is either a lump sum or a percentage of construction costs with a guaranteed maximum cost. If the design is sufficiently developed prior to the selection of a construction manager, the procurement may be based on proposals for a lump sum or guaranteed maximum cost for the construction of the project. The contract with the construction manager may provide for a sharing of any savings which are achieved below the guaranteed maximum cost.

(f) Sequential Design and Construction. Sequential design and construction denotes a method in which design of substantially the entire structure is completed prior to beginning the construction process.

(g) Phased Design and Construction. Phased design and construction denotes a method in which construction is begun when appropriate portions have been designed but before design

of the entire structure has been completed. This method is also known as fast track construction.

R33-5-220. Selection Documentation.

The Procurement Officer shall include in the contract file a written statement, describing the construction contracting method chosen and the facts and conclusions which led to the selection of that method. The statement shall demonstrate that the State's requirements and resources, and the various groups of potential contractors were appropriately considered in making the selection.

R33-5-230. Single Prime Contractor: Use with Sequential Design and Construction.

When a single prime contractor is used with the sequential design and construction method, comprehensive plans and specifications that are precise enough shall be prepared to allow prospective prime (general) contractors to submit a competitive sealed bid. The prime contractor awarded the contract shall be responsible for the coordination of the specialty subcontractors and for the timely completion of the project at the price specified in the contract. The architect-engineer, the State project manager, and, if used, the construction manager shall monitor the progress of the project and otherwise represent the State's interest as required by contract.

R33-5-231. Single Prime Contractor: Use with Phased Design and Construction.

A single prime contractor may be used with the phased design and construction method. Under this approach, the State will let contracts for early construction phases to specialty contractors and when the plans and specifications are sufficiently complete to allow bids to be made will let the major project contract to a prime contractor. If the State finds it administratively and economically advantageous, the State may transfer or assign to the prime contractor the administration of the specialty contracts it let earlier.

R33-5-232. Single Prime Contractor: Contractual Provisions.

The rights, duties, and responsibilities of the State representatives, the architect-engineer, prime contractor(s), and, if applicable, the construction manager and any specialty contractors awarded projects with the State shall be carefully detailed in contracts. If phased design and construction is used, administration of ongoing specialty contracts let before the prime contract will have to be transferred or assigned to the prime contractor. The terms of this assignment or transfer (including the duties of the State to ensure that the specialty contractors are at a certain point of completion at the time of assignment), what liability to the specialty contractors remains with the State after assignment, if any, and what duties and responsibilities the prime contractor has with respect to the assigned specialty contractors shall all be set forth in the specialty contracts and the contract with the prime contractor.

R33-5-240. Multiple Prime Contractors: Use with Sequential Design and Construction, and with Phased Design and Construction.

(1) Multiple prime contractors may be used with sequential design and construction by splitting the plans and specifications into packages pertinent to recognized trade specialties. The State may undertake to manage and coordinate the project's work or contracts with a construction manager. The contracts may provide that responsibility for successful completion of the entire project rests with the State, the State's agent, or one of the multiple prime contractors. The contracts shall specify where this responsibility shall rest.

(2) Multiple prime contractors may be used with phased

design and construction only when the architect-engineer's work is closely coordinated with the specialty contractors' work. Under this method, the specialty contractors shall contract directly with the State or with its construction manager.

R33-5-241. Multiple Prime Contractors: Contractual Provisions.

Whenever multiple prime contractors are used, the contract between the State and each prime contractor shall:

- (1) state the scope of each contractor's responsibility.
- (2) identify when the portions of its work are to be complete.
- (3) provide for a system of timely reports on progress of the contractor's work and problems encountered.
- (4) specify that each contractor is liable for damages caused other contractors and the State whether because of delay or otherwise.
- (5) clearly delineate in all the parties' contracts the duties and authority of the State representative, the architect-engineer and, if one is employed, the construction manager with respect to the specialty contractors.

These contract clauses may not relieve the State of liability if it fails to properly coordinate and manage the project.

R33-5-250. Design-Build or Turnkey: Use.

The use of design-build or turnkey method is not authorized under R33-5.

R33-5-251. Design-Build or Turnkey: Contractual Provisions.

The contract documents shall:

- (1) delineate clearly the State's rights to inspect plans and specifications, and the construction work in progress.
- (2) indicate precisely what constitutes completion of the project by the contractor.

R33-5-260. Construction Manager: Use.

(1) The State may contract with the construction manager early in a project to assist in the development of a cost effective design. The construction manager may become the single prime contractor, or may guarantee that the project will be completed on time and will not exceed a specified maximum price. This method is frequently used on fast track projects with the construction manager obtaining subcontractors through the issuance of multiple bid packages as the design is developed. The procurement of a construction manager may be based, among other criteria, on proposals for a management fee which is either a lump sum or a percentage of construction costs with a guaranteed maximum cost. If the design is sufficiently developed prior to the selection of a construction manager, the procurement may be based on proposals for a lump sum or guaranteed maximum cost for the construction of the project. The contract with the construction manager may provide for a sharing of any savings which are achieved below the guaranteed maximum cost.

(2) When entering into any subcontract that was not specifically included in the construction manager's cost proposal submitted at the time the contract manager was selected, the construction manager shall procure that subcontractor by using one of the source selection methods authorized by these rules in the same manner as if the subcontract work was procured directly by the state.

R33-5-262. Construction Manager: Contractual Provisions.

The construction managers contract shall clearly set forth the duties and authority of the construction manager in respect to all the participants in the project. The contract shall also define the liability of the State and the construction manager for failure to properly coordinate specialty contractors' work.

R33-5-270. Sequential Design and Construction: Use.

When the state selects the sequential design and construction method, it shall gather a team to design the project and provide a complete set of drawings and specifications to use in awarding the construction contract or contracts. When this team uses a construction manager he may, in addition to reviewing the drawings and specifications, assist in separating them into packets when multiple prime contractors are used. Except for redesign necessitated by changes in State requirements or problems encountered during construction, design is complete at the time construction has begun.

R33-5-280. Phased Design and Construction: Use.

When the phased design and construction method is used the architect-engineer, and construction manager, (if one is used) shall resolve major design decisions, and shall prepare the detail design work in the sequence necessary to construct the project. Thus construction can begin before design is complete for the entire project. Construction shall only begin after the State's requirements are set, the overall (schematic) design is complete, and the complete drawings and specifications for the first construction phase are ready. The construction manager may also assist in packaging the various specialty contracts and to managing the work under those contracts.

R33-5-281. Phased Design and Construction: Contractual Provisions.

Contracts shall clearly establish:

- (1) architect-engineer's obligation to design the project in a manner that allows for phased construction to allow phasing of project design.
- (2) specialty contractors scope of work and duties to other contractors and the State.
- (3) the management rights of the State and its construction manager when used.

R33-5-311. Bid Security: General.

Invitations for Bids on State construction contracts estimated to exceed \$50,000 shall require the submission of bid security in an amount equal to at least 5% of the bid, at the time the bid is submitted. If a contractor fails to accompany its bid with the required bid security, the bid shall be deemed nonresponsive, in accordance with Section R33-3-112 (Bid Evaluation and Award, Responsibility and Responsiveness) except as provided by Section R33-5-313 (Nonsubstantial Failure to Comply).

R33-5-312. Bid Security: Acceptable Bid Security.

Acceptable bid security shall be limited to:

- (a) a bid bond in a form satisfactory to the State underwritten by a company licensed to issue bid bonds in this State;
- (b) a cashiers, certified, or official check drawn by a federally insured financial institution; or
- (c) cash.

R33-5-313. Bid Security: Nonsubstantial Failure to Comply.

If a bid does not comply with the security requirements of this Rule, the bid shall be rejected as nonresponsive, unless the failure to comply is determined by the Chief Procurement Officer, the head of a Purchasing Agency, or the designee of such officer to be nonsubstantial where:

- (a) only one bid is received, and there is not sufficient time to rebid the contract;
- (b) the amount of the bid security submitted, though less than the amount required by the Invitation for Bids, is equal to or greater than the difference in the price stated in the next higher acceptable bid; or
- (c) the bid guarantee becomes inadequate as a result of the

correction of a mistake in the bid or bid modification in accordance with Section R33-3-111 (Mistakes in Bids), if the bidder increases the amount of guarantee to required limits within 48 hours after the bid opening.

R33-5-321. Performance Bonds: General.

A performance bond is required for all construction contracts in excess of \$50,000, in the amount of 100% of the contract price. The performance bond shall be delivered by the contractor to the State at the same time the contract is executed. If a contractor fails to deliver the required performance bond, the contractor's bid shall be rejected, its bid security shall be enforced, and award of the contract shall be made to the next lowest bidder in accordance with Section R33-3-112 (Bid Evaluation and Award, Responsibility and Responsiveness).

R33-5-331. Payment Bonds: General.

A payment bond is required for all construction contracts in excess of \$50,000, in the amount of 100% of the contract price. The payment bond shall be delivered by the contractor to the State at the same time the contract is executed. If a contractor fails to deliver the required payment bond, the contractor's bid shall be rejected, its bid security shall be enforced, and award of the contract shall be made to the next lowest bidder in accordance with Section R33-3-112 (Bid Evaluation and Award, Responsibility and Responsiveness).

R33-5-341. Bond Forms.

(a) Bid Bonds, Payment Bonds and Performance Bonds must be from sureties meeting the requirements of Subsection R33-5-341(b) and must be on the exact bond forms most recently adopted by the Board and on file with the chief procurement officer, except bid bonds for projects under \$1,000,000 as provided by subparagraph (c).

(b) Surety firm requirements. All surety firms must be authorized to do business in the State of Utah and be listed in the U.S. Department of the Treasury Circular 570, Companies Holding Certificates of Authority as Acceptable Securities on Federal Bonds and as Acceptable Reinsuring Companies for an amount not less than the amount of the bond to be issued. A cosurety may be utilized to satisfy this requirement.

(c) For projects estimated to cost less than \$1,000,000 the State may accept bid bonds on forms provided by appropriately licensed sureties. For projects estimated to exceed \$1,000,000 the bid bond shall be on the exact bid bond forms adopted by the board as required by R33-5-341(a).

R33-5-350. Waiver of Bonding Requirements on Any Project.

The chief procurement officer, or head of the purchasing agency, may waive the bonding requirement if he finds, in writing, that bonds cannot reasonably be obtained for the work involved. Prior to waiver of the bonding requirement, the head of the requesting agency or designee shall agree in writing to the waiver. The agency will also be advised that the State cannot waive the liability associated with a judgment against the State, in the event of non-payment to a subcontractor or supplier. In the event of a judgment, the requesting agency would be required to make payment to the injured party.

R33-5-355. Waiver of Bonding Requirements on Small Projects.

The Chief Procurement Officer, or designated procurement official, may elect not to require a Performance or Payment Bond as required under Section 63-56-504 Utah Code Annotated, 1953 as amended, if the estimated total procurement does not exceed \$50,000. Prior to waiver of the bonding requirement, the head of the requesting agency or designee shall agree in writing to the waiver. The agency will also be advised

that the State cannot waive the liability associated with a judgment against the State, in the event of non-payment to a subcontractor or supplier. In the event of a judgment, the requesting agency would be required to make payment to the injured party.

R33-5-401. Construction Contract Clauses: Introduction.

The contract clauses presented in this rule are promulgated for use in construction contracts in accordance with Section 63-56-601 (Contract Clauses) of the Utah Procurement Code. Alternative clauses are provided in one instance to permit accommodation of differing contract situations.

R33-5-402. Mandatory Construction Contract Clauses.

The following construction contract clauses shall be included in all construction contracts: R33-5-420 Changes Clause; R33-5-440 Suspension of Work Clause; R33-5-460 Price Adjustment Clause; R33-5-470 Claims Based on a Procurement Officer's Actions or Omissions Clause; R33-5-480 Default Delay - Time Extension Clause; R33-5-495 Termination for Convenience Clause; R33-5-497 Remedies Clause.

R33-5-403. Optional Construction Contract Clauses.

The following construction contract clauses may optionally be used in appropriate contracting situations: R33-5-430 Variations in Estimated Quantities Clause; R33-5-450 Differing Site Conditions Clause; R33-5-490 Liquidated Damages Clause.

R33-5-410. Construction Contract Clauses: Revisions to Contract Clauses.

The clauses set forth in this rule may be varied for use in a particular contract when, pursuant to the provisions of Section 63-56-601 (Contract Clauses) of the Utah Procurement Code, the Chief Procurement Officer or the head of a Purchasing Agency makes a written determination describing the circumstances justifying the variation or variations.

Any material variation from these clauses shall be described in the solicitation documents in substantially the following form:

"Clause No., entitled, is not a part of the general terms and conditions of this contract, and has been replaced by Special Clause No., entitled, Your attention is specifically directed to this clause."

R33-5-420. Construction Contract Clauses: Changes Clause.

"CHANGES

(1) Change Order. The Procurement Officer, at any time, and without notice to the sureties, in a signed writing designated or indicated to be a change order, may order:

(a) changes in the work within the scope of the contract; and

(b) changes in the time for performance of the contract that do not alter the scope of the contract.

(2) Adjustment of Price or Time for Performance. If any such change order increases or decreases the contractor's cost of, or the time required for, performance of any part of the work under this contract, whether or not changed by the order, an adjustment shall be made and the contract modified in writing accordingly. Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this contract.

Failure of the parties to agree to an adjustment shall not excuse a contractor from proceeding with the contract as changed, provided that the State promptly and duly make such provisional adjustments in payments or time for performance as may be reasonable. By proceeding with the work, the contractor shall not be deemed to have prejudiced any claim for additional compensation, or an extension of time for completion.

(3) Written Certification. The contractor shall not perform any change order which increases the contract amount unless it bears, or the contractor has separately received, a written certification, signed by the fiscal officer of the entity responsible for funding the project or the contract or other official responsible for monitoring and reporting upon the status of the costs of the total project or contract budget that funds are available therefor; and, if acting in good faith, the contractor may rely upon the validity of such certification.

(4) Time Period for Claim. Within 30 days after receipt of a written change order under Paragraph (1) (Change Order) of this clause, unless such period is extended by the Procurement Officer in writing, the contractor shall file notice of intent to assert a claim for an adjustment.

(5) Claim Barred after Final Payment. No claim by the contractor for an adjustment hereunder shall be allowed if notice is not given prior to final payment under this contract.

(6) Claims Not Barred. In the absence of such a change order, nothing in this clause shall restrict the contractor's right to pursue a claim arising under the contract, if pursued in accordance with the clause entitled 'Claims Based on a Procurement Officer's Actions or Omissions Clause' or for breach of contract."

R33-5-430. Construction Contract Clauses: Variations in Estimated Quantities Clause.

The following clause shall be inserted only in those construction contracts which contain estimated quantity items: "VARIATIONS IN ESTIMATED QUANTITIES

(1) Variations Requiring Adjustments. Where the quantity of a pay item in this contract is an estimated quantity and where the actual quantity of such pay item varies more than 15% above or below the estimated quantity stated in this contract, an adjustment in the contract price shall be made upon demand of either party. The adjustment shall be based upon any increase or decrease in costs due solely to the variation above 15% or below 85% of the estimated quantity. If the quantity variation is such as to cause an increase in the time necessary for completion, the Procurement Officer shall, upon receipt of a timely written request for an extension of time, prior to the date of final settlement of the contract, ascertain the facts and make such adjustment for extending the completion date as in the judgment of the Procurement Officer the findings justify.

(2) Adjustments of Price. Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this contract."

R33-5-440. Construction Contract Clauses: Suspension of Work Clause.

"SUSPENSION OF WORK

(1) Suspension for Convenience. The Procurement Officer may order the contractor in writing to suspend, delay, or interrupt all or any part of the work for such period of time as the Procurement Officer may determine to be appropriate for the convenience of the State.

(2) Adjustment of Cost. If the performance of all or any part of the work is, for an unreasonable period of time, suspended, delayed, or interrupted by an act of the Procurement Officer in the administration of this contract, or by the failure of the Procurement Officer to act within the time specified in this contract (or if no time is specified, within reasonable time), an adjustment shall be made for any increase in the cost of performance of this contract necessarily caused by such unreasonable suspension, delay, or interruption and the contract modified in writing accordingly. However, no adjustment shall be made under this clause for any suspension, delay, or interruption to the extent:

(a) that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or

negligence of the contractor; or

(b) for which an adjustment is provided for or excluded under any other provision of this contract.

(3) Time Restriction on Claim. No claim under this clause shall be allowed:

(a) for any costs incurred more than 20 days before the contractor shall have notified the Procurement Officer in writing of the act or failure to act involved (but this requirement shall not apply as to a claim resulting from a suspension order); and

(b) unless the claim is asserted in writing as soon as practicable after the termination of such suspension, delay, or interruption, but not later than the date of final payment under the contract.

(4) Adjustments of Price. Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this contract."

R33-5-450. Construction Contract Clauses: Differing Site Conditions Clause.

Set forth below are alternative differing site conditions clauses to be used as appropriate.

(ALTERNATIVE A)

"DIFFERING SITE CONDITIONS: PRICE ADJUSTMENTS

(1) Notice. The contractor shall promptly, and before such conditions are disturbed, notify the Procurement Officer of:

(a) subsurface or latent physical conditions at the site differing materially from those indicated in this contract; or

(b) unknown physical conditions at the site, of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this contract.

(2) Adjustments of Price or Time for Performance. After receipt of such notice, the Procurement Officer shall promptly investigate the site, and if it is found that such conditions do materially so differ and cause an increase in the contractor's cost of, or the time required for, performance of any part of the work under this contract, whether or not changed as a result of such conditions, an adjustment shall be made and the contract modified in writing accordingly. Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this contract.

(3) Timeliness of Claim. No claim of the contractor under this clause shall be allowed unless the contractor has given the notice required in this clause; provided, however, that the time prescribed therefor may be extended by the Procurement Officer in writing.

(4) No Claim After Final Payment. No claim by the contractor for an adjustment thereunder shall be allowed if asserted after final payment under this contract.

(5) Knowledge. Nothing contained in this clause shall be grounds for an adjustment in compensation if the contractor had actual knowledge of the existence of such conditions prior to the submission of bids."

(END OF ALTERNATIVE A)

(ALTERNATIVE B)

"SITE CONDITIONS CONTRACTOR'S RESPONSIBILITY

The contractor accepts the conditions at the construction site as they eventually may be found to exist and warrants and represents that the contract can and will be performed under such conditions, and that all materials, equipment, labor, and other facilities required because of any unforeseen conditions (physical or otherwise) shall be wholly at the contractor's own cost and expense, anything in this contract to the contrary notwithstanding."

(END OF ALTERNATIVE B)

R33-5-460. Construction Contract Clauses: Price

Adjustment Clause.

"PRICE ADJUSTMENT

(1) Price Adjustment Methods. Any adjustment in contract price pursuant to clauses in this contract shall be made in one or more of the following ways:

(a) by agreement on a fixed price adjustment before commencement of the pertinent performance or as soon thereafter as practicable;

(b) by unit prices specified in the contract or subsequently agreed upon;

(c) by the costs attributable to the event or situation covered by the clause, plus appropriate profit or fee, all as specified in the contract or subsequently agreed upon;

(d) in such other manner as the parties may mutually agree; or

(e) in the absence of agreement between the parties, by a unilateral determination by the Procurement Officer of costs attributable to the event or situation covered by the clause, plus appropriate profit or fee, all as computed by the Procurement Officer in accordance with generally accepted accounting principles and applicable sections of the rules promulgated under Section 63-56-415 (Cost Principles) and subject to the provisions of Part H (Legal and Contractual Remedies) of the Utah Procurement Code.

(2) Submission of Cost or Pricing Data. The contractor shall submit cost or pricing data for any price adjustments subject to the provisions of Section 63-56-415 (Cost Principles) of the Utah Procurement Code."

R33-5-470. Construction Contract Clauses: Claims Based on a Procurement Officer's Actions or Omissions Clause.

"CLAIMS BASED ON A PROCUREMENT OFFICER'S ACTIONS OR OMISSIONS

(1) Notice of Claim. If any action or omission on the part of a Procurement Officer or designee of such officer, requiring performance changes within the scope of the contract constitutes the basis for a claim by the contractor for additional compensation, damages, or an extension of time for completion, the contractor shall continue with performance of the contract in compliance with the directions or orders of such officials, but by so doing, the contractor shall not be deemed to have prejudiced any claim for additional compensation, damages, or an extension of time for completion; provided:

(a) the contractor shall have given written notice to the Procurement Officer or designee of such officer:

(i) prior to the commencement of the work involved, if at that time the contractor knows of the occurrence of such action or omission;

(ii) within 30 days after the contractor knows of the occurrence of such action or omission, if the contractor did not have such knowledge prior to the commencement of the work; or

(iii) within such further time as may be allowed by the Procurement Officer in writing.

This notice shall state that the contractor regards the act or omission as a reason which may entitle the contractor to additional compensation, damages, or an extension of time. The Procurement Officer or designee of such officer, upon receipt of such notice, may rescind such action, remedy such omission, or take such other steps as may be deemed advisable in the discretion of the Procurement Officer or designee of such officer;

(b) the notice required by Subparagraph (a) of this Paragraph describes as clearly as practicable at the time the reasons why the contractor believes that additional compensation, damages, or an extension of time may be remedies to which the contractor is entitled; and

(c) the contractor maintains and, upon request, makes available to the Procurement Officer within a reasonable time,

detailed records to the extent practicable, of the claimed additional costs or basis for an extension of time in connection with such changes.

(2) Limitation of Clause. Nothing herein contained, however, shall excuse the contractor from compliance with any rules of law precluding any State officers and any contractors from acting in collusion or bad faith in issuing or performing change orders which are clearly not within the scope of the contract.

(3) Adjustments of Price. Any adjustment in the contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this contract."

R33-5-480. Construction Contract Clauses: Default-Delay-Time Extensions Clause.

"TERMINATION FOR DEFAULT FOR NONPERFORMANCE OR DELAY DAMAGES FOR DELAY-TIME EXTENSIONS

(1) Default. If the contractor refuses or fails to prosecute the work, or any separable part thereof, with such diligence as will assure its completion within the time specified in this contract, or any extension thereof, fails to complete said work within such time, or commits any other substantial breach of this contract, and further fails within (14) days after receipt of written notice from the Procurement Officer to commence and continue correction of such refusal or failure with diligence and promptness, the Procurement Officer may, by written notice to the contractor, declare the contractor in breach and terminate the contractor's right to proceed with the work or such part of the work as to which there has been delay. In such event the State may take over the work and prosecute the same to completion, by contract or otherwise, and may take possession of, and utilize in completing the work, such materials, appliances, and plant as may be on the site of the work and necessary therefor. Whether or not the contractor's right to proceed with the work is terminated, the contractor and the contractor's sureties shall be liable for any damage to the State resulting from the contractor's refusal or failure to complete the work within the specified time.

(2) Liquidated Damages Upon Termination. If fixed and agreed liquidated damages are provided in the contract, and if the State so terminates the contractor's right to proceed, the resulting damage will consist of such liquidated damages for such reasonable time as may be required for final completion of the work.

(3) Liquidated Damages in Absence of Termination. If fixed and agreed liquidated damages are provided in the contract, and if the State does not terminate the contractor's right to proceed, the resulting damage will consist of such liquidated damages until the work is completed or accepted.

(4) Time Extension. The contractor's right to proceed shall not be so terminated nor the contractor charged with resulting damage if:

(a) the delay in the completion of the work arises from causes such as: acts of God; acts of the public enemy; acts of the State and any other governmental entity in either a sovereign or contractual capacity; acts of another contractor in the performance of a contract with the State; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; unusually severe weather; delays of subcontractors due to causes similar to those set forth above; or shortage of materials; provided, however, that no extension of time will be granted for a delay caused by a shortage of materials, unless the contractor furnishes to the Procurement Officer proof that the contractor has diligently made every effort to obtain such materials from all known sources within reasonable reach of the work, and further proof that the inability to obtain such materials when originally planned did in fact cause a delay in final completion of the entire work which could not be compensated for by revising the sequence of the

contractor's operations; and

(b) the contractor, within ten days from the beginning of any such delay (unless the Procurement Officer grants a further period of time before the date of final payment under the contract), notifies the Procurement Officer in writing of the causes of delay. The Procurement Officer shall ascertain the facts and the extent of the delay and extend the time for completing the work when, in the judgment of the Procurement Officer, the findings of fact justify such an extension.

(5) Erroneous Termination for Default. If, after notice of termination of the contractor's right to proceed under the provisions of this clause, it is determined for any reason that the contractor was not in default under the provisions of this clause, or that the delay was excusable under the provisions of this clause, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of the State, be the same as if the notice of termination had been issued pursuant to such clause. If, in the foregoing circumstances, this contract does not contain a clause providing for termination for convenience of the State, the contract shall be adjusted to compensate for such termination and the contract modified accordingly.

(6) Additional Rights and Remedies. The rights and remedies of the (State) provided in this clause are in addition to any other rights and remedies provided by law or under this contract."

R33-5-490. Construction Contract Clauses: Liquidated Damages Clause.

The following clause may be used in construction contracts when it is difficult to determine with reasonable accuracy damage to the State due to delays caused by late contractor performance or nonperformance.

"LIQUIDATED DAMAGES

When the contractor fails to complete the work or any portion of the work within the time or times fixed in the contract or any extension thereof, the contractor shall pay to the State (\$) per calendar day of delay pursuant to the clause of this contract entitled, "Termination for Default for Nonperformance or Delay-Damages for Delay-Time Extensions."

R33-5-495. Construction Contract Clauses: Termination for Convenience Clause.

"TERMINATION FOR CONVENIENCE

(1) Termination. The Procurement Officer may, when the interests of this State so require, terminate this contract in whole or in part, for the convenience of the State. The Procurement Officer shall give written notice of the termination to the contractor specifying the part of the contract terminated and when termination becomes effective,

(2) Contractor's Obligations. The contractor shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination the contractor will stop work to the extent specified. The contractor shall also terminate outstanding orders and subcontracts as they relate to the terminated work. The contractor shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work. The Procurement Officer may direct the contractor to assign the contractor's right, title, and interest under terminated orders or subcontracts to the State. The contractor shall still complete the work not terminated by the notice of termination and may incur obligations as necessary to do so.

(3) Right to Construction and Supplies. The Procurement Officer may require the contractor to transfer title and deliver to the State in the manner and to the extent directed by the Procurement Officer:

(a) any completed construction; and

(b) such partially completed construction, supplies,

materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (hereinafter called "construction material") as the contractor has specifically produced or specially acquired for the performance of the terminated part of this contract.

The contractor shall protect and preserve property in the possession of the contractor in which the State has an interest. If the Procurement Officer does not exercise this right, the contractor shall use best efforts to sell such construction, supplies, and construction materials in accordance with the standards of Uniform Commercial Code Section 2-706. (U.C.C. SS2-706 is quoted in the Editorial Note at the end of this Section.) This in no way implies that the State has breached the contract by exercise of the Termination for Convenience Clause.

(4) Compensation.

(a) The contractor shall submit a termination claim specifying the amounts due because of the termination for convenience together with cost or pricing data, submitted to the extent required by Section 63-56-415 (Cost or Pricing Data) of the Utah Procurement Code, bearing on such claim. If the contractor fails to file a termination claim within one year from the effective date of termination, the Procurement officer may pay the contractor, if at all, an amount set in accordance with Subparagraph (c) of this Paragraph.

(b) The Procurement Officer and the contractor may agree to a settlement provided the contractor has filed a termination claim supported by cost or pricing data submitted as required by Section 63-56-601 (Cost or Pricing Data) of the Utah Procurement Code and that the settlement does not exceed the total contract price plus settlement costs reduced by payments previously made by the State, the proceeds of any sales of construction, supplies, and construction materials under Paragraph (3) of this clause, and the contract price of the work not terminated.

(c) Absent complete agreement under Subparagraph (b) of this paragraph, the Procurement Officer shall pay the contractor the following amounts, provided payments under Subparagraph (b) shall not duplicate payments under this paragraph:

(i) with respect to all contract work performed prior to the effective date of the notice of termination, the total (without duplication of any items) of:

(A) the cost of such work plus a fair and reasonable profit on such portion of the work (such profit shall not include anticipatory profit or consequential damages) less amounts paid or to be paid for completed portions of such work; provided, however, that if it appears that the contractor would have sustained a loss if the entire contract would have been completed, no profit shall be allowed or included and the amount of compensation shall be reduced to reflect the anticipated rate of loss;

(B) costs of settling and paying claims arising out of the termination of subcontracts or orders pursuant to paragraph (2) of this clause. These costs shall not include costs paid in accordance with subparagraph (c)(i)(A) of this paragraph;

(C) the reasonable settlement costs of the contractor including accounting, legal, clerical, and other expenses reasonably necessary for the preparation of settlement claims and supporting data with respect to the terminated portion of the contract and for the termination and settlement of subcontracts thereunder, together with reasonable storage, transportation, and other costs incurred in connection with the protection or disposition of property allocable to the terminated portion of this contract.

The total sum to be paid the contractor under this paragraph shall not exceed the total contract price plus the reasonable settlement costs of the contractor reduced by the amount of any sales of construction, supplies, and construction materials under paragraph (3) of this clause, and the contract price of work not terminated.

(d) Cost claimed, agreed to, or established under subparagraphs (b) and (c) of this paragraph shall be in accordance with R33-3-8."

R33-5-497. Construction Contract Clauses: Remedies Clause.

"REMEDIES

Any dispute arising under or out of this contract is subject to the provisions of Part H (Legal and Contractual Remedies) of the Utah Procurement Code."

R33-5-510. Application.

The provisions of this section apply to every procurement of services within the scope of the practice of architecture as defined by Section 58-3a-102, or professional engineering as defined in Section 58-22-102, except as authorized by Section R33-3-4 and Section R33-3-5.

R33-5-520. Policy.

It is the policy of this State to:

(a) give public notice of all requirements for architect-engineer services except as noted in Sections R33-5-510 and R33-5-530 and

(b) negotiate contracts for these services on the basis of demonstrated competence and qualification for the type of service required, and at fair and reasonable prices.

R33-5-525. Annual Statement of Qualifications and Performance Data.

The Chief Procurement Officer, the head of a Purchasing Agency, or a designee of either officer shall request firms engaged in providing architect-engineer services to annually submit a statement of qualifications and performance data which should include the following:

(a) the name of the firm and the location of all of its offices, specifically indicating the principal place of business,

(b) the age of the firm and its average number of employees over the past five years,

(c) the education, training, and qualifications of members of the firm and key employees,

(d) the experience of the firm reflecting technical capabilities and project experience,

(e) the names of five clients who may be contacted, including at least two for whom services were rendered in the last year,

(f) any other pertinent information regarding qualifications and performance data requested by the Procurement Officer.

A standard form or format may be developed for these statements of qualifications and performance data. Firms may amend statements of qualifications and performance data at any time by filing a new statement.

R33-5-527. Billing Rate Survey.

The Consulting Engineers Council of Utah and the local chapter of the American Institute of Architects will provide the results of an annual survey on billing rates within their respective disciplines to the chief procurement officer prior to April 1 each year. This information will then be made available to all public procurement units.

R33-5-530. Small Purchases of Architect-Engineer Services.

When the procurement of Architect-Engineer Services is estimated to be less than \$50,000, the procurement officer may select the provider directly from either the list of firms who have submitted annual statements of qualifications and performance data, or from other qualified firms if necessary. If the procurement is estimated to exceed \$50,000 then the selection method prescribed by the following sections apply.

R33-5-540. Architect-Engineer Selection Committee.

The Chief Procurement Officer, or designee, shall designate members of the Architect-Engineer Selection Committee. The selection committee must consist of at least three members, where possible at least one of which is well qualified in the professions of architecture or engineering, as appropriate.

The Chief Procurement Officer, or designee, shall designate one member of the committee as chair and to act as the Procurement Officer to coordinate the negotiations of a contract with the most qualified firm in accordance with Section 63-56-704 of the Utah Procurement Code.

R33-5-550. Public Notice.

Public notice for architect-engineer services shall be given by the Procurement Officer as provided in R33-3-104. The notice shall be published sufficiently in advance of when responses must be received in order that firms have an adequate opportunity to respond to the solicitation, but not less than the time required by R33-3-102. The notice shall contain a brief statement of the services required which adequately describes the project, the closing date for submissions and how specific information on the project may be obtained.

R33-5-560. Request for Statements of Interest.

A request for statements of interest (SOI) shall be prepared which describes the state's requirements and sets forth the evaluation criteria. It shall be distributed upon request and payment of a fee.

The request for statements of interest (SOI) shall include notice of any conference to be held and the criteria to be used in evaluating the statements of interest, qualifications and performance data and selecting firms, including:

- (a) competence to perform the services as reflected by technical training and education, general experience, experience in providing the required services and the qualifications and competence of persons who would be assigned to perform the services.
- (b) ability to perform the services as reflected by workload and the availability of adequate personnel, equipment, and facilities to perform the services expeditiously, and
- (c) past performance as reflected by the evaluations of private persons and officials of other governmental entities that have retained the services of the firm with respect to factors such as control of costs, quality of work, and an ability to meet deadlines.

R33-5-570. Definition of Scope of Work.

Prior to initiating a request for SOI for architect-engineer services the using agency shall define the scope of the services. The scope definition shall be sufficient to define the work expected, as detailed as possible and the scope definition shall be the basis for the negotiation process. However the scope may be modified if necessary during final negotiations.

R33-5-580. Evaluation of Statements of Interest, Qualifications and Performance Data.

The selection committee shall evaluate:

- (a) annual statement of qualifications and performance data submitted under Section R33-5-525;
- (b) statements that may be submitted in response to the request for SOI for architect-engineer services, including proposals for joint ventures; and
- (c) supplemental statements of qualifications and performance data, if their submission was required.

All statements and supplemental statements of qualifications and performance data shall be evaluated in light of the criteria set forth in the request for SOI for architect-engineering services.

R33-5-590. Selection of Firms for Discussions.

The selection committee shall select for discussions no fewer than three firms evaluated as being professionally and technically qualified unless fewer than three firms responded to the request for SOI. The Procurement Officer shall notify each firm in writing of the date, time, and place of discussions, and, if necessary, shall provide each firm with additional information on the project and the services required. This discussion phase may be waived if the evaluation of the statements of interest, qualifications and performance data indicate that one firm is clearly most qualified and if the scope and nature of the services are clearly defined.

R33-5-600. Discussions.

Following evaluation of the statements of interest, qualifications and performance data, the selection committee shall hold discussions with the firms selected pursuant to section R33-45-590 regarding the proposed contract. The purposes of these discussions shall be to:

- (a) determine each firm's general capabilities and qualifications for performing the contract; and
- (b) explore the scope and nature of the required services and the relative utility of alternative methods of approach.

R33-5-610. Selection of the Most Qualified Firms.

After discussions, the selection committee shall reevaluate and select, in order of preference, the firms which it deems to be the most highly qualified to provide the required services. The selection committee shall document the selection process indicating how the evaluation criteria were applied to determine the ranking of the most highly qualified firms.

R33-5-620. Negotiation and Award of Contract.

The Procurement Officer shall negotiate a contract with the most qualified firm for the required services at compensation determined to be fair and reasonable to the State. Contract negotiations shall be directed toward:

- (a) making certain that the firm has a clear understanding of the scope of the work, specifically, the essential requirements involved in providing the required services;
- (b) determining that the firm will make available the necessary personnel and facilities to perform the services within the required time, and
- (c) agreeing upon compensation which is fair and reasonable, taking into account the estimated value, scope, complexity, and nature of the required services.

R33-5-630. Failure to Negotiate Contract with the Most Qualified Firm.

- (a) If fair and reasonable compensation, contract requirements, and contract documents cannot be agreed upon with the most qualified firm, the Procurement Officer shall advise the firm in writing of the termination of negotiations.
- (b) Upon failure to negotiate a contract with the most qualified firm, the Procurement Officer shall enter into negotiations with the next most qualified firm. If fair and reasonable compensation, contract requirements, and contract documents can be agreed upon, then the contract shall be awarded to that firm. If negotiations again fail, negotiations shall be terminated as provided in R33-5-630(a) of this section and commenced with the next most qualified firm.

R33-5-640. Notice of Award.

Written notice of the award shall be sent to the firm with whom the contract is successfully negotiated. Each firm with whom discussions were held shall be notified of the award. Notice of the award shall be made available to the public.

R33-5-650. Failure to Negotiate Contract with Firms

Initially Selected as Most Qualified.

Should the Procurement Officer be unable to negotiate a contract with any of the firms initially selected as the most highly qualified firms, additional firms shall be selected in preferential order based on their respective qualifications, and negotiations shall continue in accordance with section R33-5-630 until an agreement is reached and the contract awarded.

KEY: government purchasing

May 27, 2003

63-56-1 et seq.

Notice of Continuation November 27, 2002

R33. Administrative Services, Purchasing and General Services.**R33-7. Cost Principles.****R33-7-101. Applicability of Cost Principles.**

(1) Application. This subpart contains cost principles and procedures to be used as guidance in:

(a) establishment of contract cost estimates and prices under contracts made by competitive sealed proposals where the award may not be based on adequate price competition, sole source procurement, contracts for certain services, or architect-engineer services;

(b) establishment of price adjustments for contract changes;

(c) pricing of termination for convenience settlements; and

(d) any other situation in which cost analysis is required.

(2) Limitation. Cost principles in this subpart are not applicable to:

(a) the establishment of prices under contracts made by competitive sealed bidding or otherwise based on adequate price competition rather than the analysis of individual, specific cost elements, except that this subpart does apply to the establishment of adjustments of price for changes made to contracts;

(b) prices which are fixed by law or rule;

(c) prices which are based on established catalog prices as defined in Section 63-56-105(10) of the Utah Procurement Code, or established market prices; and

(d) stipulated unit prices.

R33-7-102. Allowable Costs.

(1) General. Any contract cost proposed for estimating purposes or invoiced for cost-reimbursement purposes shall be allowable as provided in the contract. The contract shall provide that the total allowable cost of a contract is the sum of the allowable direct costs actually incurred or, in the case of forward pricing, the amount estimated to be incurred in the performance of the contract in accordance with its terms, plus the properly allocable portion of the allowable indirect costs, less any applicable credits such as discounts, rebates, refunds, and property disposal income.

(2) Accounting Consistency. All costs shall be accounted for in accordance with generally accepted accounting principles and in a manner that is consistent with the contractor's usual accounting practices in charging costs to other activities. In pricing a proposal, a contractor shall estimate costs consistently with cost accounting practices used in accumulating and reporting costs.

(3) When Allowable. The contract shall provide that costs shall be allowed to the extent they are:

(a) reasonable, as defined in Section 7-103;

(b) allocable, as defined in Section 7-104;

(c) not made unlawful under any applicable law;

(d) not unallowable under Section 7-105 or Section 7-106; and

(e) actually incurred or accrued and accounted for in accordance with generally accepted accounting principles in the case of costs invoiced for reimbursement.

R33-7-103. Reasonable Costs.

Any cost is reasonable if, in its nature or amount, it does not exceed that which would be incurred by an ordinarily prudent person in the conduct of competitive business. In determining the reasonableness of a given cost, consideration shall be given to:

(1) whether the cost is of a type generally recognized as ordinary and necessary for the conduct of the contractor's business or the performance of the contract;

(2) the restraints inherent in and the requirements imposed by the factors generally accepted sound business practices, arm's

length bargaining, federal and state laws and regulations, and contract terms and specifications;

(3) the action that a prudent businessman would take under the circumstances, considering responsibilities to the owners of the business, employees, customers, the purchasing agency, and the general public;

(4) significant deviations from the contractor's established practices which may unjustifiably increase the contract costs; and

(5) any other relevant circumstances.

R33-7-104. Allocable Costs.

(1) General. A cost is allocable if it is assignable or chargeable to one or more cost objectives in accordance with relative benefits received and if it:

(a) is incurred specifically for the contract;

(b) benefits both the contract and other work, and can be distributed to both in reasonable proportion to the benefits received; or

(c) is necessary to the overall operation of the business, although a direct relationship to any particular cost objective cannot be shown.

(2) Allocation Consistency. Costs are allocable as direct or indirect costs. Similar costs shall be treated consistently either as direct costs or indirect costs except as provided by these rules. When a cost is treated as a direct cost in respect to one cost objective, it and all similar costs shall be treated as a direct cost for all cost objectives. Further, all costs similar to those included in any indirect cost pool shall be treated as indirect costs. All distributions to cost objectives from a cost pool shall be on the same basis.

(3) Direct Cost. A direct cost is any cost which can be identified specifically with a particular cost objective. A direct cost shall be allocated only to its specific cost objective. To be allowable, a direct cost must be incurred in accordance with the terms of the contract.

(4) Indirect Costs.

(a) An indirect cost is one identified with more than one cost objective. Indirect costs are those remaining to be allocated to the several cost objectives after direct costs have been determined and charged directly to the contract or other work as appropriate. Any direct costs of minor dollar amount may be treated as indirect costs, provided that the treatment produces substantially the same results as treating the cost as a direct cost.

(b) Indirect costs shall be accumulated into logical cost groups with consideration of the reasons for incurring the costs. Each group should be distributed to cost objectives benefiting from the costs in the group. Each indirect cost group shall be distributed to the cost objectives substantially in proportion to the benefits received by the cost objectives. The number and composition of the groups and the method of distribution should not unduly complicate indirect cost allocation where substantially the same results could be achieved through less precise methods.

(c) The contractor's method of distribution may require examination when:

(i) any substantial difference exists between the cost patterns of the work performed under the contract and the contractor's other work;

(ii) any significant change occurs in the nature of the business, the extent of subcontracting, fixed asset improvement programs, inventories, the volume of sales and production, manufacturing processes, the contractor's products, or other relevant circumstances; or

(iii) indirect cost groups developed for a contractor's primary location are applied to off-site locations. Separate cost groups for costs allocable to off-site locations may be necessary to distribute the contractor's costs on the basis of the benefits accruing to the appropriate cost objectives.

(d) The base period for indirect cost allocation is the one in which the costs are incurred and accumulated for distribution to work performed in that period. Normally, the base period is the contractor's fiscal year. A different base period may be appropriate under unusual circumstances. In these cases, an appropriate period should be agreed to in advance.

R33-7-105. Treatment of Specific Costs.

(1) Advertising. The only allowable advertising costs are those for:

- (a) the recruitment of personnel;
- (b) the procurement of scarce items;
- (c) the disposal of scrap or surplus materials;
- (d) the listing of a business' name and location in a classified directory; and
- (e) other forms of advertising as approved by the purchasing agency when in the best interest of the agency.

(2) Bad Debts. Bad debts include losses arising from uncollectible accounts and other claims, such as dishonored checks, employee advances, and related collection and legal costs. All bad debt costs are unallowable.

(3) Contingencies.

(a) Contingency costs are contributions to a reserve account for unforeseen costs. Contingency costs are unallowable except as provided in subsection (3) (b) of this section.

(b) For the purpose of establishing a contract cost estimate or price in advance of performance of the contract, recognition of uncertainties within a reasonably anticipated range of costs may be required and is not prohibited by this subsection. However, where contract clauses are present which serve to remove risks from the contractor, there shall not be included in the contract price a contingency factor for these risks. Further, contributions to a reserve for self-insurance in lieu of, and not in excess of, commercially available liability insurance premiums, are allowable as an indirect charge.

(4) Depreciation and Use Allowances.

(a) Depreciation and use allowances are allowable to compensate contractors for the use of buildings, capital improvements, and equipment. Depreciation is a method of allocating the acquisition cost of an asset to periods of its useful life. Useful life refers to the asset's period of economic usefulness in the particular contractor's operation as distinguished from its physical life. Use allowances provide compensation in lieu of depreciation or other equivalent costs. Consequently, these two methods may not be combined to compensate contractors for the use of any one type of property.

(b) The computation of depreciation or use allowances shall be based on acquisition costs. When the acquisition costs are unknown, reasonable estimates may be used.

(c) Depreciation shall be computed using any generally accepted method, provided that the method is consistently applied and results in equitable charges considering the use of the property. The straight-line method of depreciation is preferred unless the circumstances warrant some other method. However, the purchasing agency will accept any method which is accepted by the Internal Revenue Service.

(d) In order to compensate the contractor for use of depreciated, contractor-owned property which has been fully depreciated on the contractor's books and records and is being used in the performance of a contract, use allowances may be allowed as a cost of that contract. Use allowances are allowable, provided that they are computed in accordance with an established industry or government schedule or other method mutually agreed upon by the parties. If a schedule is not used, factors to consider in establishing the allowance are the original cost, remaining estimated useful life, the reasonable fair market value, and the affect of any increased maintenance or decreased efficiency.

(5) Entertainment.

(a) Entertainment costs include costs of amusements, social activities, and incidental costs such as meals, beverages, lodging, transportation, and gratuities. Entertainment costs are unallowable.

(b) Nothing shall make unallowable a legitimate expense for employee morale, health, welfare, food service, or lodging cost; except that, where a net profit is generated by employer related services, it shall be treated as a credit as provided in Section 7-207. This section shall not make unallowable costs incurred for meetings or conferences, including costs of food, rental facilities, and transportation where the primary purpose of incurring cost is the dissemination of technical information or the stimulation of production.

(6) Fines and Penalties. Fines and penalties include all costs incurred as the result of violations of or failure to comply with federal, state, and local laws and rules. Fines and penalties are unallowable costs unless incurred as a direct result of compliance with specific provisions of the contract or written instructions of the procurement officer. To the extent that workman's compensation is considered by state law to constitute a fine or penalty, it shall not be an allowable cost under this subsection.

(7) Gifts, Contributions, and Donations. A gift is property transferred to another person without the other person providing return consideration of equivalent value. Reasonable costs for employee morale, health, welfare, food services, or lodging are not gifts and are allowable. Contributions and donations are property transferred to a nonprofit institution which are not transferred in exchange for supplies or services of equivalent fair market value rendered by a nonprofit institution. Gifts, contributions, and donations are unallowable.

(8) Interest Costs.

(a) Interest is a cost of borrowing. Interest is not allowable except as provided in subsection (8)(b) of this section.

(b) Interest costs on contractor claims for payments due under purchasing agency contracts shall be allowable as provided in Section 63-56-820 of the Utah Procurement Code.

(9) Losses Incurred Under Other Contracts. A loss is the excess of costs over income earned under a particular contract. Losses may include both direct and indirect costs. A loss incurred under one contract may not be charged to any other contract.

(10) Material Costs.

(a) Material costs are the costs of all supplies, including raw materials, parts, and components whether acquired by purchase from an outside source or acquired by transfer from any division, subsidiary, or affiliate under the common control of the contractor, which are acquired in order to perform the contract. Material costs are allowable, subject to subsection 10(b) and subsection 10(c) of this section. In determining material costs, consideration shall be given to reasonable spoilage, reasonable inventory losses and reasonable overages.

(b) Material costs shall include adjustments for all available discounts, refunds, rebates and allowances which the contractor reasonably should take under the circumstances, and for credits for proceeds the contractor received or reasonably should receive from salvage and material returned to suppliers.

(c) Allowance for all materials transferred from any division including the division performing the contract, subsidiary, or affiliate under the common control of the contractor shall be made on the basis of costs incurred by the transferor determined in accordance with these cost principles rules, except that double charging of indirect costs is unallowable, except the transfer may be made at the established price provided that the price of materials is not determined to be unreasonable by the procurement officer and the price is not higher than the transferor's current sales price to its most favored customer for a like quantity under similar payment and

delivery conditions and:

(i) the price is established either by the established catalog price, as defined in Section 63-56-105(10) of the Utah Procurement Code; or

(ii) by the lowest price offer obtained as a result of competitive sealed bidding or competitive sealed proposals conducted with other businesses that normally produce the item in similar quantities.

(11) Taxes.

(a) Except as limited in subsection 11(b) of this section, all taxes which the contractor is required to pay and which are paid and accrued in accordance with generally accepted accounting principles are allowable.

(b) The following costs are unallowable:

(i) federal income taxes and federal excess profit taxes;

(ii) all taxes from which the contractor could have obtained an exemption, but failed to do so, except where the administrative cost of obtaining the exemption would have exceeded the tax savings realized from the exemption;

(iii) any interest, fines, or penalties paid on delinquent taxes unless incurred at the written direction of the procurement officer; and

(iv) income tax accruals designed to account for the tax effects of differences between taxable income and pretax income as reflected by the contractor's books of account and financial statements.

(c) Any refund of taxes which were allowed as a direct cost under the contract shall be credited to the contract. Any refund of taxes which were allowed as an indirect cost under a contract shall be credited to the indirect cost group applicable to any contracts being priced or costs being reimbursed during the period in which the refund is made.

(d) Direct government charges for services such as water, or capital improvements such as sidewalks, are not considered taxes and are allowable costs.

R33-7-106. Costs Requiring Prior Approval to be Allowable.

(1) General. The costs described in subsections (2), (3), (4), and (5) of this section are allowable as direct costs to cost-reimbursement type contracts to the extent that they have been approved in advance by the procurement officer. In other situations those costs are negotiable in accordance with general standards.

(2) Pre-Contract Costs. Pre-contract costs are those incurred prior to the effective date of the contract directly pursuant to, and in anticipation of, the award of the contract. These costs are allowable to the extent that they would have been allowable if incurred after the date of the contract; provided that, in the case of a cost-reimbursement type contract, a special provision must be inserted in the contract setting forth the period of time and maximum amount of cost which will be covered as allowable pre-contract costs.

(3) Bid and Proposal Costs. Bid and proposal costs are the costs incurred in preparing, submitting, and supporting bids and proposals. Reasonable ordinary bid and proposal costs are allowable as indirect costs. Bid and proposal costs are allowable as direct costs only to the extent that they are specifically permitted by a provision of the contract or solicitation document. Where bid and proposal costs are allowable as direct costs, to avoid double accounting, the same bid and proposal costs shall not be charged as indirect costs.

(4) Insurance.

(a) Insurance costs are the costs of obtaining insurance in connection with performance of the contract or contributions to a reserve account for the purpose of self-insurance. Ordinary and necessary insurance costs are allowable in accordance with these cost principles. Self-insurance contributions are allowable only to the extent of the cost to the contractor to obtain similar insurance.

(b) Insurance costs may be approved as a direct cost only if the insurance is specifically required for the performance of the contract.

(c) Actual losses which should reasonably have been covered by permissible insurance or were expressly covered by self insurance are unallowable unless the parties expressly agree otherwise in the terms of the contract.

(5) Litigation Costs. Litigation costs include all filing fees, legal fees, expert witness fees, and all other costs involved in litigating claims in court or before an administrative board. Litigation costs are allowable as indirect costs in accordance with these rules, except that costs incurred in litigation against the purchasing agency are unallowable.

R33-7-107. Applicable Credits.

(1) Definitions and Examples. Applicable credits are receipts or price reductions which offset or reduce expenditures allocable to contracts as direct or indirect costs. Examples include purchase discounts, rebates, allowance, recoveries or indemnification for losses, sale of scrap and surplus equipment and materials, adjustments for overpayments or erroneous charges, and income from employee recreational or incidental services and food sales.

(2) Reducing Costs. Credits shall be applied to reduce related direct or indirect costs.

(3) Refund. The purchasing agency shall be entitled to a cash refund if the related expenditures have been paid to the contractor under a cost-reimbursement type contract.

R33-7-108. Advance Agreements.

(1) Purpose. Both the purchasing agency and the contractor should seek to avoid disputes and litigation arising from potential problems by providing in the terms of the contract the treatment to be accorded special or unusual costs.

(2) Procedure Required. Advance agreements may be negotiated either before or after contract award, but shall be negotiated before a significant portion of the cost covered by the agreement has been incurred. Advance agreements shall be in writing, executed by both contracting parties, and incorporated in the contract.

(3) Limitation on Costs Covered. An advance agreement shall not provide for any treatment of costs inconsistent with these rules unless a determination has been made pursuant to Section 7-210.

R33-7-109. Use of Federal Cost Principles.

(1) Cost Negotiations. In dealing with contractors operating according to federal cost principles, such as Defense Acquisition Regulation, 48 CFR 901 (1993), or Federal Procurement Regulations, 48 CFR 901 (1993), the procurement officer, after notifying the contractor, may use the federal cost principles as guidance in contract negotiations, subject to subsection (2) of this section.

(2) Incorporation of Federal Cost Principles; Conflicts Between Federal Principles and this Part.

(a) In contracts not awarded under a program which is funded by federal assistance funds, the procurement officer may explicitly incorporate federal cost principles into a solicitation and thus into any contract awarded pursuant to that solicitation. The procurement officer and the contractor by mutual agreement may incorporate federal cost principles into a contract during negotiation or after award. In either instance, the language incorporating the federal cost principles shall clearly state that to the extent federal cost principles conflict with the rules issued pursuant to Section 63-56-415(1), the state rules shall control.

(b) In contracts awarded under a program which is financed in whole or in part by federal assistance funds, all requirements set forth in the assistance document including specified federal cost principles, must be satisfied. To the

extent that the cost principles specified in the grant document conflict with the cost principles issued pursuant to Section 63-56-415(1) of the Utah Procurement Code, the cost principles specified in the grant shall control.

R33-7-110. Authority to Deviate from Cost Principles.

If a procurement officer desires to deviate from the cost principles set forth in these rules, a written determination shall be made by the officer specifying the reasons for the deviation.

Notice of Continuation October 3, 2003

R33. Administrative Services, Purchasing and General Services.**R33-8. Property Management.****R33-8-101. Quality Assurance, Inspection, and Testing.**

The procurement officer shall take steps to ascertain or verify that supplies, services, or construction items conform to specifications. In performing this duty, the procurement officer may establish inspection and testing facilities, employ inspection personnel, enter into arrangements for the joint or cooperative use of laboratories, and contract with others for inspection or testing work as needed. In accordance with section 63-56-205, the procurement officer may delegate responsibility for inspection and testing to using agencies.

R33-8-102. Warehousing and Storage.

Purchasing agencies are delegated the authority to exercise supervision of any receiving, storage, and distribution facilities and services within their purview.

R33-8-103. Inventory Management.

Purchasing agencies are delegated the authority to exercise supervision of all inventories of tangible personal property belonging to them. All property located in warehouses and similar storage areas shall be inventoried annually, and accountability for the property shall reside with the respective agencies.

R33-8-201. Surplus Property.

For the disposition of surplus property refer to R28.

Notice of Continuation November 27, 2002

R68. Agriculture and Food, Plant Industry.**R68-4. Standardization, Marketing, and Phytosanitary Inspection of Fresh Fruits, Vegetables, and Other Plant and Plant Products.****R68-4-1. Authority.**

Promulgated under authority of Section 4-2-2 and 4-2-2(1)(h).

R68-4-2. Standards and Grades.

The Commissioner of Agriculture and Food has adopted the standards and grades established by the Food Safety and Quality Service, United States Department of Agriculture, for fresh fruits and vegetables. In the case of apricots for processing, no federal standards have been established, therefore, Utah standards have been developed for that commodity. Phytosanitary inspection shall be in accordance with federal standards as well as those of the importing country or state. All other grading of fresh fruit and vegetables in Utah shall be according to official federal grade standards.

(A) Containers.

(1) The term "container" is defined as any commercial type of package, open or closed, such as barrel, box, basket, carton, crate, lug, sack, or any other receptacle.

(2) "Clean containers" are defined as those containers which are free from dirt, filth, or product residues and are found acceptable to the Utah Department of Agriculture and Food. Such containers shall be of good substantial construction and be in good condition.

(3) "Closed container" means any container which is covered by any material in the form of a lid, cover, or wrapping of any kind.

(B) Packaging and Labeling.

(1) All lots of fresh fruits and vegetables packed for sale, offered for sale, transported for sale or sold in Utah, shall be packaged in clean containers, either open or closed.

(2) All closed containers are to be of good substantial construction, good commercial type and marked to comply in every way with all marketing requirements of the State of Utah, and are in no way to conflict with requirements of the U.S. Food, Drug and Cosmetic Act.

(3) The name and address of the grower, packer, or shipper shall be plainly labeled on all closed containers of fresh fruits and vegetables offered for sale. It shall be unlawful to offer produce for sale in closed containers which are labeled with the brand of another grower, packer or shipper, without permission from such grower, packer, or shipper. Such closed containers shall also be plainly marked on the outside with the name of the product and with terms of either net weight, numerical count, or minimum diameter. Minimum height of numbers and letters for all labeling on packages of ten pounds or more shall be 3/8".

(4) The above labeling requirements shall not apply to fresh fruits and vegetables to be used for processing purposes or for repackaging.

(5) In addition to the above requirements, bags of certified seed potatoes must be officially sealed and tagged with the seal and tag of the certifying agency at point of origin.

(C) Deceptive Pack.

(1) It shall be unlawful to offer for sale in Utah a deceptive pack of fruits or vegetables or to mislabel any package of fruits or vegetables packed for sale or offered for sale.

(2) "Deceptive Pack" shall mean any container of fruits or vegetables which has in the outer layer or any exposed surface, fruits or vegetables which are so superior in quality, size or condition to those in the interior of the container, or the unexposed portion, as to noticeably misrepresent the entire contents; provided that facing which is not in violation of the foregoing is not regarded as deceptive. Such pack is deceptive if the outer or exposed surface is composed of products whose size is not an accurate representation of the variation of size of

the products in the entire container.

(D) Grade Designation.

All fresh fruits and vegetables offered for sale in Utah in closed or open containers of any kind, or on display tables, or shelves, where a federal or state grade is designated on the container or on a sign accompanying produce on display, must conform to the grade so designated. If a lot of fruit or vegetables does not meet the above requirements, sale of such lot shall be stopped until the lot is brought into compliance.

R68-4-3. Prohibited Sale.

It shall be unlawful to sell or offer for sale in Utah any fruits or vegetables in bulk or in containers which contain more than ten percent by count or weight of plant pest injury or serious defects of a progressive nature which has penetrated or damaged the edible portions, including not more than five percent of fruit with worm holes.

R68-4-4. Authority to Issue Certificates.

No person, firm, corporation, or association is permitted to issue, classify or sign certificates covering the grade of farm products when such farm products have been officially standardized, except as provided by law and only by a person properly qualified, licensed, and designated as a state agricultural inspector by the Utah Department of Agriculture and Food and approved and licensed by the federal supervisor.

R68-4-5. Duty of Inspector.

When an agricultural inspector finds any lot of fruits or vegetables being offered for sale which fails to meet the requirements of the regulations herein, it shall be his duty to serve notice on the owner or person who has possession thereof, that the provisions of these regulations have been violated and that the produce in question cannot be marketed or sold unless officially released by said inspector.

R68-4-6. Inspection Notes and Certificates.

(A) Only financially-interested persons are entitled to information from the inspectors' notes unless applicant directs the inspector to give this information to prospective buyers. This information can be obtained by others only by court order through subpoena.

(B) All certificates issued by authorized agents of the U.S. Department of Agriculture (Federal-State Inspection Service) shall be received in all federal courts as prima facie evidence of the truth contained therein.

(C) General quantitative terms.

(1) Averages cannot always be accurately obtained. In such cases the following general terms may be used with the meanings given.

(a) Few means 10 percent or less.

(b) Some means 11 to 25 percent.

(c) Many means 26 to 45 percent.

(d) Approx. half means 46 to 54 percent.

(e) Most-Mostly means 55 to 89 percent.

(f) Generally means 90 percent or more (see paragraph 447).

(g) Practically all means 95 percent or more.

(h) Occasionally means 5 percent or less (Used only in reference to container; see Paragraph 446).

R68-4-7. Utah Standards for Apricots for Canning or Freezing (There are no Federal Standards for processing apricots).

(A) Utah No. 1 shall consist of apricots which are well formed, firm ripe, (but not hard or overripe), well colored, free from decay, mold, worms and worm holes and from damage caused by dirt, growth crack, limb rubs, sun cracks, scald, hail, bird pecks, scale, disease, insects, mechanical factors, or by

other means (See minimum size).

(B) Utah No. 2 shall consist of apricots which are ripe (but not overripe and soft, or hard or shriveled), fairly well colored, not badly misshapen, free from decay, mold, worms, worm holes and from serious damage by any cause.

(C) Culls shall mean apricots which do not meet the requirements of Utah No. 2 or are affected by blight, scale, scale insects, larvae, or other worm damage, serious bruises and decay.

(D) Minimum size refers to the greatest diameter, measured through the center of the apricot at right angles to a line running from the stem to the blossom ends. Minimum sizes for Utah No. 1 and Utah No. 2 grades may be fixed by agreement between buyer and seller.

(E) Definitions of terms used in these grades:

(1) "Ripe" shall mean the state of maturity wherein the apricots are ready for immediate processing or consumption.

(2) "Firm" shall mean that the apricots are fairly solid and yield slightly to moderate pressure.

(3) "Well colored" shall mean that the apricots show at least 90 percent good over-all deep yellow or orange color characteristic of ripe fruit.

(4) "Fairly well colored" shall mean that the apricots show at least two-thirds of the over-all surface with a good shade of orange or deep yellow color characteristic of ripening apricots.

(5) "Well formed" shall mean the shape characteristic of the variety and shall not be extremely flat or otherwise misshapen.

(6) "Damage" shall mean any injuries or defects which materially affect the appearance or the processing quality of the apricots or cause waste of more than five percent (by weight) of the flesh in excess of that which occurs if the apricots were not defective, or cause waste to the extent that the fruit, after trimming, will not yield two reasonably well shaped halves.

(7) "Serious damage" shall mean any injuries or defects which seriously affect the appearance or processing quality or cause a waste of more than ten percent (by weight) of the flesh in excess of that which would occur if the apricots were not defective.

(F) Tolerances.

(1) It is contemplated, in the application of above given standards, that in most instances sellers will not sort their apricots into separate lots of Utah No. 1 and Utah No. 2 grades before delivery to the buyer, and that the buyer will pay on the basis of the percentage of each grade in the sellers' lot as described by inspection. In such cases, no tolerance is needed. Should the contract between buyer and seller call for delivery of lots containing only Utah No. 1 and Utah No. 2, then, unless otherwise specified, a ten percent tolerance shall be allowed for apricots which fail to meet requirements of the grade on which the contract is based, with an additional ten percent tolerance allowed for apricots which fail to meet the minimum size specified in the contract. Lots of apricots which contain in excess of five percent wormy fruit must be reconditioned by the grower to be acceptable for processing purposes.

R68-4-8. Certification and Grade Standards for Seed Potatoes.

(A) Requirements and standards for the certification and grading of seed potatoes are established and regulated by the Utah Crop Improvement Association, Utah Agricultural Experiment Station, Logan, Utah, 84322-4820.

(B) Copies of seed certification requirements and standards can be obtained from the Utah Crop Improvement Association, Logan, Utah.

R68-4-9. Controlled Atmosphere (CA) Apples.

(A) Licensing.

(1) Any person, corporation, partnership, association or

other organized group or person who owns or operates a controlled atmosphere room or storage building shall apply for a license with the Commissioner of Agriculture and Food on a form prescribed by the Commissioner. The licensing period shall commence on January 1 and end on December 31 of each year.

(2) The application for an annual registration to engage in the business of operating a controlled atmosphere storage warehouse or warehouses shall be accompanied by an annual license fee determined by the department pursuant to Subsection 4-2-2(2).

(3) The Commissioner shall assign each approved applicant a registration number preceded by the letters CA. This number shall be marked on all containers coming under the provisions of these regulations.

(B) Atmospheric Specifications.

(1) Apples shall not be identified as being from CA storage unless the following requirements have been met as evidenced by inspection and certification by the Commissioner of Agriculture and Food.

(a) The percent of oxygen within the storage atmosphere shall be reduced to five percent within 20 days after the date of sealing.

(b) The period of storage in a sealed room with not more than five percent oxygen shall be a minimum of 45 days for Gala and Jonagold varieties and a minimum period of 90 days for all other varieties. The maximum period of storage in a sealed room with not more than five percent oxygen shall be ten months, but in no case later than September 1 of the year following harvest.

(c) The fruit temperature in the CA storage room shall be maintained without significant deviation in a range of temperature normal for the variety.

(d) A representative of the Utah Department of Agriculture and Food shall be notified prior to opening of the CA facility following the storage period, and he shall inspect the general condition of the facility and contents within 48 hours following the opening.

(e) CA Certified Apples must enter commercial channels of trade within four weeks after storage is opened. Minimum condition and maturity standards shall be the U.S. Condition Standards for Export.

(C) Storage Records.

(1) Each owner or operator shall maintain a record for each room on an approved form or forms. The record shall include owner or operator's name and address, room number, date of sealing, date of opening, capacity in bushels, lot identification, number of bushels within each lot, and daily air constituents determination including date of test, time of test, percentage of oxygen, percentage of carbon dioxide, temperature and comments.

(2) Each owner or operator shall submit to the Utah Department of Agriculture and Food within 20 days after date of sealing, a report in writing, for each room showing room number, date of sealing and number of bushels contained therein.

(D) Marketing CA Apples.

(1) Any person selling, offering for sale or transporting for sale any apples coming under the provision of these regulations shall furnish an invoice covering the sale of such apples. Each invoice shall indicate the CA registration number assigned to the owner or owners of the controlled atmosphere room or storage building in which each lot or lots of apples included thereon were kept. Enforcement officials may investigate and examine records and invoices relating to any transactions in connection herewith in order to determine the identity of apples represented as meeting requirements for such identification.

(2) It shall be unlawful for any person to sell, hold for sale, or transport for sale any apples represented as having been

exposed to "controlled atmosphere storage" or to use any such term or form of words or symbols of similar import unless such apples have been stored in controlled atmosphere storage which meets the requirements of the regulations adopted herein.

R68-4-10. Standards for Utah Premium Grade for Apples.

(1) Utah Premium apples shall consist of Utah grown apples which meet or exceed all minimum standards as issued by the "United States Department of Agriculture (USDA) U.S. Extra Fancy Grade", including the requirements and tolerances as defined in the "United States Standards for Grades of Apples effective September 1, 1964, as amended and in effect July 25, 1972, as issued by USDA". Each apple of this grade shall have the amount of color specified in the USDA Standards for US Extra Fancy given for a specific variety except solid red apples shall have a minimum 85 percent good red color.

(2) The Utah Department of Agriculture and Food shall conduct condition and grade inspections to assure the grade and quality of all Utah Premium Apples. Fees for quality assurance inspections will be pursuant to Subsection 4-2-2(2).

R68-4-11. Phytosanitary Inspection.

A Phytosanitary Inspection must be performed by the Commissioner of Agriculture and Food or designated employees of the Department, on plants or plant products and may include: nursery plants or bulbs, seeds, grains, fruits, vegetables, and other plant materials for the purpose of export or sale within the state.

(A) Definitions.

(1) Phytosanitary shall mean sanitary plant health inspection.

(2) Standards shall mean the requirements of the federal government, and those of the importing counties of this state or of another state.

(3) Information shall mean the information contained on the phytosanitary certificate that represents the plant material listed.

(B) Shipping Information such as names and descriptions of plant materials, origin of plant material, intended destination, means of transportation, intended date for shipment and name and address of consignee must be provided by the exporting shipper to the Department when calling for an issuance of a certificate.

R68-4-12. Charges for Inspection Services.

(A) Inspection fees will be determined pursuant to Subsection 4-2-2(2). Such fees shall be paid by the person, firm, corporation or other organization who requested inspection, upon receipt of a statement for same from the Utah Department of Agriculture and Food. In all cases, payment of such charges shall be made to the Utah Department of Agriculture and Food within thirty days of the date of billing. If accounts become delinquent, the Department may discontinue inspection services until full payment is received.

(B) Mileage or extra expense incurred in cases where inspection is requested at isolated loading points may be added to the cost of the regular inspection fee. Such charges shall be the same as those set forth in the current State of Utah Travel Rules and Regulations.

(C) Charges in addition to regular inspection fees shall be made for inspection services performed during irregular working hours when such hours are not included in the inspectors' scheduled shift.

4-2-2

R68. Agriculture and Food, Plant Industry.**R68-18. Quarantine Pertaining to Karnal Bunt.****R68-18-1. Authority.**

(A) Promulgated under authority of Subsection 4-2-2(l)(ii).

(B) The fact has been determined by the Utah Commissioner of Agriculture and Food that a serious fungal disease of wheat, durum wheat, and Triticale known as Karnal bunt (*Tilletia indica* Mitra), not known to exist in the State of Utah, exists in the described infested areas, and the restricted articles and commodities described are hosts or possible carriers of the disease.

(C) The Commissioner, by virtue of the authority vested in him by Section 4-2-2, does establish a quarantine setting forth the name of the fungal disease against which the quarantine is established, the infested area, the articles and commodities regulated, and specifying conditions governing disposition of violations.

R68-18-2. Disease.

Karnal bunt (*Tilletia indica* Mitra) in any living state of development.

R68-18-3. Areas Under Quarantine.

(A) Entire state of Arizona; Counties in New Mexico: Dona Ana county, Hidalgo county, Luna county and Sierra county; Counties in Texas: El Paso county, Hudspeth county.

(B) Any areas not mentioned above and subsequently found to be infested.

R68-18-4. Articles and Commodities Under Quarantine.

(A) The disease Karnal bunt (*Tilletia indica* Mitra) in any living state of development.

(B) Plants of the genus *Triticum* or any plant part hereof.

(C) Any mechanized farming equipment from the areas under quarantine used in the planting or harvesting of small grains.

(D) Any other plant, plant part, article, or means of conveyance when it is determined by the Commissioner, Utah Department of Agriculture and Food or the commissioners duly authorized representative to present a hazard spreading of Karnal bunt organisms.

R68-18-5. Restrictions.

(A) All articles and commodities under quarantine are prohibited entry into the state of Utah from any area under quarantine with the following exception:

(1) From uninfested areas of the states listed in R68-18-3, when accompanied by a certificate of origin stating the origin of the material and that the plant material originated from an area not known to be infested with Karnal bunt.

R68-18-6. Disposition of Violations.

Any or all shipments or lots of quarantined articles or commodities listed in R68-18-4 arriving in the state of Utah in violation of this order shall immediately be sent out of the state, destroyed, or treated by a method and in a manner as directed by the Commissioner, Utah Department of Agriculture and Food or his agent. Treatment shall be performed at the expense of the owner, or owners, or their duly authorized agent.

4-2-2(l)(ii)

Notice of Continuation February 10, 2006

R156. Commerce, Occupational and Professional Licensing.**R156-37. Utah Controlled Substances Act Rules.****R156-37-101. Title.**

These rules are known as the "Utah Controlled Substances Act Rules."

R156-37-102. Definitions.

In addition to the definitions in Title 58, Chapters 1 and 37, as used in Title 58, Chapters 1 and 37, or these rules:

(1) "DEA" means the Drug Enforcement Administration of the United States Department of Justice.

(2) "NABP" means the National Association of Boards of Pharmacy.

(3) "Principle place of business or professional practice", as used in Subsection 58-37-6(2)(e), means any location where controlled substances are received or stored.

(4) "Schedule II controlled stimulant" means any material, compound, mixture or preparation listed in Subsection 58-37-4(2)(b)(iii).

(5) "Unprofessional conduct", as defined in Title 58 is further defined in accordance with Subsections 58-1-203(1)(e) and 58-37-6(1)(a), in Section R156-37-502.

R156-37-103. Purpose - Authority.

These rules are adopted by the division under the authority of Subsections 58-1-106(1)(a) and 58-37-6(1)(a) to enable the division to administer Title 58, Chapter 37.

R156-37-104. Organization - Relationship to Rule R156-1.

The organization of this rule and its relationship to Rule R156-1 is as described in Section R156-1-107.

R156-37-301. License Classifications - Restrictions.

(1) Consistent with the provisions of law, the division may issue a controlled substance license to manufacture, produce, distribute, dispense, prescribe, obtain, administer, analyze, or conduct research with controlled substances in Schedules I, II, III, IV, or V to qualified persons. Licenses shall be issued to qualified persons in the following categories:

- (a) pharmacist;
- (b) optometrist;
- (c) podiatric physician;
- (d) dentist;
- (e) osteopathic physician and surgeon;
- (f) physician and surgeon;
- (g) physician assistant;
- (h) veterinarian;
- (i) advanced practice registered nurse;
- (j) certified nurse midwife;
- (k) certified registered nurse anesthetist;
- (l) Class A pharmacy-retail operations located in Utah;
- (m) Class B pharmacy located in Utah providing services

to a target population unique to the needs of the healthcare services required by the patient, including:

- (i) closed door;
- (ii) hospital clinic pharmacy;
- (iii) methadone clinics;
- (iv) nuclear;
- (v) branch;
- (vi) hospice facility pharmacy;
- (vii) veterinarian pharmaceutical facility;
- (viii) pharmaceutical administration facility; and
- (ix) sterile product preparation facility.
- (n) Class C pharmacy located in Utah engaged in:
 - (i) manufacturing;
 - (ii) producing;
 - (iii) wholesaling; and
 - (iv) distributing.
- (o) Class D Out-of-state mail order pharmacies.

(p) Class E pharmacy including:

- (i) medical gases providers; and
- (ii) analytical laboratories.

(q) Utah Department of Corrections for the conduct of execution by the administration of lethal injection under its statutory authority and in accordance with its policies and procedures.

(2) A license may be restricted to the extent determined by the division, in collaboration with appropriate licensing boards, that a restriction is necessary to protect the public health, safety or welfare, or the welfare of the licensee. A person receiving a restricted license shall manufacture, produce, obtain, distribute, dispense, prescribe, administer, analyze, or conduct research with controlled substances only to the extent of the terms and conditions under which the restricted license is issued by the division.

R156-37-302. Qualifications for Licensure - Application Requirements.

(1) An applicant for a controlled substance license shall:

(a) submit an application in a form as prescribed by the division; and

(b) shall pay the required fee as established by the division under the provisions of Section 63-38-3.2.

(2) Any person seeking a controlled substance license shall:

(a) be currently licensed by the state in the appropriate professional license classification as listed in R156-37-301 and shall maintain that license classification as current at all times while holding a controlled substance license; or

(b) be engaged in the following activities which require the administration of a controlled substance but do not require licensure under Subsection (a):

(i) animal capture for transport or relocation as an employee or under contract with a state or federal government agency; or

(ii) other activity approved by the Division in collaboration with the appropriate board.

(3) The division and the reviewing board may request from the applicant information which is reasonable and necessary to permit an evaluation of the applicant's:

(a) qualifications to engage in practice with controlled substances; and

(b) the public interest in the issuance of a controlled substance license to the applicant.

(4) To determine if an applicant is qualified for licensure, the division may assign the application to a qualified and appropriate licensing board for review and recommendation to the division with respect to issuance of a license.

R156-37-303. Qualifications for Licensure - Site Inspections - Investigations.

The division shall have the right to conduct site inspections, review research protocol, conduct interviews with persons knowledgeable about the applicant, and conduct any other investigation which is reasonable and necessary to determine the applicant is of good moral character and qualified to receive a controlled substance license.

R156-37-304. Qualifications for Licensure - Examinations.

Each applicant for a controlled substance license shall be required to pass an examination administered at the direction of the division on the subject of controlled substance laws.

R156-37-305. Exemption from Licensure - Animal Euthanasia and Law Enforcement Personnel.

In accordance with Subsection 58-37-6(2)(d), the following persons are exempt from licensure under Title 58, Chapter 37:

(1) Individuals employed by an agency of the State or any of its political subdivisions, who are specifically authorized in writing by the state agency or the political subdivision to possess specified controlled substances in specified reasonable and necessary quantities for the purpose of euthanasia upon animals, shall be exempt from having a controlled substance license if the agency or jurisdiction employing that individual has obtained a controlled substance license, a DEA registration number, and uses the controlled substances according to a written protocol in performing animal euthanasia.

(2) Law enforcement agencies and their sworn personnel are exempt from the licensing requirements of the Controlled Substance Act to the extent their official duties require them to possess controlled substances; they act within the scope of their enforcement responsibilities; they maintain accurate records of controlled substances which come into their possession; and they maintain an effective audit trail. Nothing herein shall authorize law enforcement personnel to purchase or possess controlled substances for administration to animals unless the purchase or possession is in accordance with a duly issued controlled substance license.

R156-37-401. Grounds for Denial of License - Disciplinary Proceedings.

Grounds for refusing to issue a license to an applicant, for refusing to renew the license of a licensee, for revoking, suspending, restricting, or placing on probation the license of a licensee, for issuing a public or private reprimand to a licensee, and for issuing a cease and desist order shall be in accordance with Section 58-1-401.

R156-37-502. Unprofessional Conduct.

"Unprofessional conduct" includes:

(1) a licensee with authority to prescribe or administer controlled substances:

(a) prescribing or administering to himself any Schedule II or III controlled substance which is not lawfully prescribed by another licensed practitioner having authority to prescribe the drug;

(b) prescribing or administering a controlled substance for a condition he is not licensed or competent to treat;

(2) violating any federal or state law relating to controlled substances;

(3) failing to deliver to the division all controlled substance license certificates issued by the division to the division upon an action which revokes, suspends or limits the license;

(4) failing to maintain controls over controlled substances which would be considered by a prudent practitioner to be effective against diversion, theft, or shortage of controlled substances;

(5) being unable to account for shortages of controlled substances any controlled substance inventory for which the licensee has responsibility;

(6) knowingly prescribing, selling, giving away, or administering, directly or indirectly, or offering to prescribe, sell, furnish, give away, or administer any controlled substance to a drug dependent person, as defined in Subsection 58-37-2(q), except for legitimate medical purposes as permitted by law;

(7) refusing to make available for inspection controlled substance stock, inventory, and records as required under these rules or other law regulating controlled substances and controlled substance records;

(8) failing to submit controlled substance prescription information to the database manager after being notified in writing to do so.

R156-37-601. Access to Records, Facilities, and Inventory.

Applicants for licensure and all licensees shall make available for inspection to any person authorized to conduct an administrative inspection pursuant to Title 58, Chapter 37, these rules or federal law, to the extent they exist, during regular business hours and at other reasonable times in the event of an emergency, their controlled substance stock or inventory, records required under the Utah Controlled Substances Act and these rules or under the federal controlled substance laws, and facilities related to activities involving controlled substances.

R156-37-602. Records.

(1) Records of purchase, distribution, dispensing, prescribing, and administration of controlled substances shall be kept according to state and federal law. Prescribing practitioners shall keep accurate records reflecting the examination, evaluation and treatment of all patients. Patient medical records shall accurately reflect the prescription or administration of controlled substances in the treatment of the patient, the purpose for which the controlled substance is utilized and information upon which the diagnosis is based. Practitioners shall keep records apart from patient records of each controlled substance purchased, and with respect to each controlled substance, its disposition, whether by administration or any other means, date of disposition, to whom given and the quantity given.

(2) Any licensee who experiences any shortage or theft of controlled substances shall immediately file the appropriate forms with the Drug Enforcement Administration, with a copy to the division directed to the attention of the Investigation Bureau. He shall also report the incident to the local law enforcement agency.

(3) All records required by federal and state laws or rules must be maintained by the licensee for a period of five years. If a licensee should sell or transfer ownership of his files in any way, those files shall be maintained separately from other records of the new owner.

(4) Prescription records may be maintained electronically so long as:

(a) the original of each prescription, including telephone prescriptions, is maintained in a physical file and contains all of the information required by federal and state law; and

(b) an automated data processing system is used for the storage and immediate retrieval of refill information for prescription orders for controlled substances in Schedule III and IV, in accordance with federal guidelines.

(5) All records relating to Schedule II controlled substances received, purchased, administered or dispensed by the practitioner shall be maintained separately from all other records of the pharmacy or practice.

(6) All records relating to Schedules III, IV and V controlled substances received, purchased, administered or dispensed by the practitioner shall be maintained separately from all other records of the pharmacy or practice.

R156-37-603. Restrictions Upon the Prescription, Dispensing and Administration of Controlled Substances.

(1) A practitioner may prescribe or administer the Schedule II controlled substance cocaine hydrochloride only as a topical anesthetic for mucous membranes in surgical situations in which it is properly indicated and as local anesthetic for the repair of facial and pediatric lacerations when the controlled substance is mixed and dispensed by a registered pharmacist in the proper formulation and dosage.

(2) A practitioner shall not prescribe or administer a controlled substance without taking into account the drug's potential for abuse, the possibility the drug may lead to dependence, the possibility the patient will obtain the drug for a nontherapeutic use or to distribute to others, and the possibility of an illicit market for the drug.

(3) When writing a prescription for a controlled substance, each prescription shall contain only one controlled substance per prescription form and no other legend drug or prescription item shall be included on that form.

(4) In accordance with Subsection 58-37-6(7)(f)(v)(D), unless the prescriber determines there is a valid medical reason to allow an earlier dispensing date, the dispensing date of a second or third prescription shall be no less than 30 days from the dispensing date of the previous prescription, to allow for receipt of the subsequent prescription before the previous prescription runs out.

(5) If a practitioner fails to document his intentions relative to refills of controlled substances in Schedules III through V on a prescription form, it shall mean no refills are authorized. No refill is permitted on a prescription for a Schedule II controlled substance.

(6) Refills of controlled substance prescriptions shall be permitted for the period from the original date of the prescription as follows:

(a) Schedules III and IV for six months from the original date of the prescription; and

(b) Schedule V for one year from the original date of the prescription.

(7) No refill may be dispensed until such time has passed since the date of the last dispensing that 80% of the medication in the previous dispensing should have been consumed if taken according to the prescriber's instruction.

(8) No prescription for a controlled substance shall be issued or dispensed without specific instructions from the prescriber on how and when the drug is to be used.

(9) Refills after expiration of the original prescription term requires the issuance of a new prescription by the prescribing practitioner.

(10) Each prescription for a controlled substance and the number of refills authorized shall be documented in the patient records by the prescribing practitioner.

(11) A practitioner shall not prescribe or administer a Schedule II controlled stimulant for any purpose except:

(a) the treatment of narcolepsy as confirmed by neurological evaluation;

(b) the treatment of abnormal behavioral syndrome, attention deficit disorder, hyperkinetic syndrome, or related disorders;

(c) the treatment of drug-induced brain dysfunction;

(d) the differential diagnostic psychiatric evaluation of depression;

(e) the treatment of depression shown to be refractory to other therapeutic modalities, including pharmacologic approaches, such as tricyclic antidepressants or MAO inhibitors;

(f) in the terminal stages of disease, as adjunctive therapy in the treatment of chronic severe pain or chronic severe pain accompanied by depression;

(g) the clinical investigation of the effects of the drugs, in which case the practitioner shall submit to the division a written investigative protocol for its review and approval before the investigation has begun. The investigation shall be conducted in strict compliance with the investigative protocol, and the practitioner shall, within 60 days following the conclusion of the investigation, submit to the division a written report detailing the findings and conclusions of the investigation; or

(h) in treatment of depression associated with medical illness after due consideration of other therapeutic modalities.

(12) A practitioner may prescribe, dispense or administer a Schedule II controlled stimulant when properly indicated for any purpose listed in Subsection (11), provided that all of the following conditions are met:

(a) before initiating treatment utilizing a Schedule II controlled stimulant, the practitioner obtains an appropriate history and physical examination, and rules out the existence of

any recognized contraindications to the use of the controlled substance to be utilized;

(b) the practitioner shall not prescribe, dispense or administer any Schedule II controlled stimulant when he knows or has reason to believe that a recognized contraindication to its use exists;

(c) the practitioner shall not prescribe, dispense or administer any Schedule II controlled stimulant in the treatment of a patient who he knows or should know is pregnant; and

(d) the practitioner shall not initiate or shall discontinue prescribing, dispensing or administering all Schedule II controlled stimulants immediately upon ascertaining or having reason to believe that the patient has consumed or disposed of any controlled stimulant other than in compliance with the treating practitioner's directions.

R156-37-604. Prescribing of Controlled Substances for Weight Reduction or Control.

(1) A practitioner shall not prescribe, dispense or administer a Schedule II or Schedule III controlled substance for purposes of weight reduction or control.

(2) A prescribing practitioner may prescribe or administer a Schedule IV controlled substance in treating excessive weight leading to increased health risks only when all the following conditions are met:

(a) medication is used only as an adjunct to a comprehensive weight loss program based on supplemental weight loss activities including, but not limited to, changing lifestyle counseling, nutritional education, and a regular, individualized exercise regimen;

(b) prior to initiating treatment the prescribing practitioner shall:

(i) determine through thorough review of past medical records that the patient has made a substantial good-faith effort to lose weight in a comprehensive weight loss program without the use of controlled substances, and the previous regimen has not been effective;

(ii) obtain a complete history, perform a complete physical examination of the patient, and rule out the existence of any recognized contraindications to the use of the medication(s);

(iii) determine and document this assessment in the patient's medical record, that the health benefit to the patient greatly outweighs the possible risks of the medications prescribed; and

(iv) discuss with the patient the possible risks associated with the medication and have on record an informed consent which clearly documents that the long term effects of using controlled substances for weight loss or weight control are not known;

(c) throughout the prescribing period, the prescribing practitioner shall:

(i) supervise, oversee, and regularly monitor the patient, including his participation in supplemental weight loss activities, efficacy of the medication, and advisability of continuing to prescribe the weight loss or weight control medication; and

(ii) maintain a central medical record, containing at least, the goal of treatment or target weight, the ongoing progress toward that goal or maintenance of the weight loss, the patient's supplemental weight loss activities with documentation of compliance with the comprehensive weight loss program; and

(d) the prescribing practitioner shall immediately discontinue the weight loss medication in any of the following situations:

(i) the practitioner knows or should know that the patient is pregnant;

(ii) the patient has consumed or disposed of any controlled substance other than in compliance with the prescribing practitioner's directions;

(iii) the patient is abusing the controlled substance being prescribed for weight loss;

(iv) the patient develops a contraindication during the course of therapy; or

(v) the medication is not effective or that the patient is not abiding with and following through with the agreed upon comprehensive weight loss program.

R156-37-605. Emergency Verbal Prescription of Schedule II Controlled Substances.

(1) Prescribing practitioners may give a verbal prescription for a Schedule II controlled substance if:

(a) the quantity dispensed is only sufficient to cover the patient for the emergency period, not to exceed 72 hours;

(b) the prescribing practitioner has examined the patient within the past 30 days, the patient is under the continuing care of the prescribing practitioner for a chronic disease or ailment, or the prescribing practitioner is covering for another practitioner and has knowledge of the patient's condition; and

(c) a written prescription is delivered to the pharmacist within seven working days of the verbal order.

(2) A pharmacist may fill an emergency verbal or telephonic prescription from a prescribing practitioner for a Schedule II controlled substance if:

(a) the amount does not exceed a 72 hour supply; and

(b) the filling pharmacist reasonably believes that the prescribing practitioner is licensed to prescribe the controlled substances or makes a reasonable effort to determine that he is licensed.

R156-37-606. Disposal of Controlled Substances.

(1) Any disposal of controlled substances by licensees shall:

(a) be consistent with the provisions of 1307.21 of the Code of Federal Regulations; or

(b) require the authorization of the division after submission to the division to the attention of Chief Investigator of a detailed listing of the controlled substances and the quantity of each. Disposal shall be conducted in the presence of one of its investigators or a division authorized agent as is specifically instructed by the division in its written authorization.

(2) Records of disposal of controlled substances shall be maintained and made available on request to the division or its agents for inspection for a period of five years.

R156-37-607. Surrender of Suspended or Revoked License.

(1) Licenses which have been restricted, suspended or revoked shall be surrendered to the division within 30 days of the effective date of the order of restriction, suspension or revocation. Compliance with this section will be a consideration in evaluating applications for relicensing.

R156-37-608. Herbal Products.

The division shall not apply the provisions of the Controlled Substance Act or these rules in restricting citizens or practitioners, regardless of their license status, from the sale or use of food or herbal products that are not scheduled as controlled substances by State or Federal law.

R156-37-609. Controlled Substance Database - Procedure and Format for Submission to the Database.

(1) In accordance with Subsections 58-37-7.5(6)(a), the format in which the information required under Section 58-37-7.5 shall be submitted to the administrator of the database is:

(a) electronic data via telephone modem;

(b) electronic data stored on floppy disk; or

(c) electronic data sent via electronic mail (e-mail) if encrypted and approved by the database manager.

(2) The required information may be submitted on paper,

if the pharmacy or pharmacy group submits a written request to the division and receives prior approval.

(3) The division will consider the following in granting the request:

(a) the pharmacy or pharmacy group has no computerized record keeping system upon which the data can be electronically recorded; or

(b) the pharmacy or pharmacy group is unable to conform its submissions to the format required by the database administrator without incurring undue financial hardship.

(4) Each pharmacy or pharmacy group may submit the data either weekly, bi-weekly, or monthly. Any pharmacy which does not declare its intention for timely submission of data will be presumed to have chosen monthly submission.

(5) The format for submission to the database shall be in accordance with uniform formatting developed by the American Society for Automation in Pharmacy system (ASAP). The division may approve alternative formats or adjustments to be consistent with database collection instruments and contain all necessary data elements.

(6) The pharmacist-in-charge of each reporting pharmacy shall submit a report on a form approved by the division including:

(a) the pharmacy name;

(b) NABP number;

(c) the period of time covered by each submission of data;

(d) the number of prescriptions in the submission;

(e) the submitting pharmacist's signature attesting to the accuracy of the report; and

(f) the date the submission was prepared.

R156-37-610. Controlled Substance Database - Limitations on Access to Database Information - Standards and Procedures for Identifying Individuals Requesting Information.

(1) In accordance with Subsections 58-37-7.5(8)(a) and (b), the division director shall designate in writing those individuals within the division who shall have access to the information in the database.

(2) Personnel from federal, state or local law enforcement agencies may obtain information from the database if the information relates to a current investigation being conducted by such agency. The manager of the database may also provide information from the database to such agencies on his own volition when the information may reasonably constitute a basis for investigation relative to violation of state or federal law.

(3) In accordance with Subsection 58-37-7.5(7)(b), persons may request information from the database either orally or in writing.

(4) The manager of the database may release information upon oral request only if the identity of the person is verified. Identity of a practitioner may be made by use of a DEA number or other verifiable, confidential numbers provided by the division or other government agencies to practitioners.

(5) Any individual may request information in the database relating to that individual's receipt of controlled substances. Upon request for database information on an individual who is the recipient of a controlled substance prescription entered in the database, the manager of the database shall make available database information exclusively relating to that particular individual under the following limitations and conditions:

(a) The requestor seeking database information personally appears before the manager of the database, or a designee, with picture identification confirming his identity as the same person on whom database information is sought.

(b) The requestor seeking database information submits a signed and notarized request executed under the penalty of perjury verifying his identity as the same person on whom

database information is sought, and providing their full name, home and business address, date of birth, and social security number.

(c) The requestor seeking database information presents a power of attorney over the person on whom database information is sought and further complies with the following:

(i) submits a signed and notarized request executed by the requestor under the penalty of perjury verifying that the grantor of the power of attorney is the same person on whom database information is sought, including the grantor's full name, address, date of birth, and social security number; and

(ii) personally appears before the manager of the database with picture identification to verify personal identity, or otherwise submits a signed and notarized statement executed by the requestor under the penalty of perjury verifying his identity as that of the person holding the power of attorney.

(d) The requestor seeking database information presents verification that he is the legal guardian of an incapacitated person on whom database information is sought and further complies with the following:

(i) submits a signed and notarized request executed by the requestor under the penalty of perjury verifying that the incapacitated ward of the guardian is the same person on whom database information is sought, including the ward's full name, address, date of birth, and social security number; and

(ii) personally appears before the manager of the database with picture identification to verify personal identity, or otherwise submits a signed and notarized statement executed by the requestor under the penalty of perjury verifying his identity as that of the legal guardian of the incapacitated person.

(e) The requestor seeking database information shall present a release-of-records statement from the person on whom database information is sought and further complies with the following:

(i) submits a verification from the person on whom database information is sought consistent with the requirements set forth in paragraph (5)(b);

(ii) submits a signed and notarized release of records statement executed by the person on whom database information is sought authorizing the manager of the database to release the relevant database information to the requestor; and

(iii) personally appears before the manager of the database with picture identification to verify personal identity, or otherwise submits a signed and notarized statement executed by the requestor under the penalty of perjury verifying his identity as that of the requestor identified in the release of records;

(6) Before data is released upon oral request, a written request may be required and received.

(7) Database information may be disseminated either orally, by facsimile or by U.S. mail.

(8) The Utah Department of Health may access Database information for purposes of scientific study regarding public health. To access information, the scientific investigator must:

(a) show the research is an approved project of the Utah Department of Health;

(b) provide a description of the research to be conducted, protocols for the project and a description of the data needs from the Database;

(c) provide assurances and a plan that demonstrates all Database information will be maintained securely, with access only permitted by the scientific investigator;

(d) provide for electronic data to be stored on a stand alone database computer system with access only allowed by the scientific investigator; and

(e) pay all relevant expenses for data transfer and manipulation.

Notice of Continuation May 9, 2002

58-37-6(1)(a)
58-37-7.5(7)

R156. Commerce, Occupational and Professional Licensing.
R156-56. Utah Uniform Building Standard Act Rules.
R156-56-101. Title.

These rules are known as the "Utah Uniform Building Standard Act Rules".

R156-56-102. Definitions.

In addition to the definitions in Title 58, Chapters 1, 55 and 56, as used in Title 58, Chapter 56 or these rules:

(1) "Building permit" means, for the purpose of determining the building permit surcharge under Subsection 58-56-9(4), a warrant, license or authorization to build or construct a building or structure or any part thereof.

(2) "Building permit fee" means, for the purpose of determining the building permit surcharge under Subsection 58-56-9(4), fees assessed by an agency of the state or political subdivision of the state for the issuance of permits for construction, alteration, remodeling, and repair and installation including building, electrical, mechanical and plumbing components.

(3) "Employed by a local regulator, state regulator or compliance agency" means, with respect to Subsection 58-56-9(1), the hiring of services of a qualified inspector whether by an employer/employee relationship, an independent contractor relationship, a fee-for-service relationship or any other lawful arrangement under which the regulating agency purchases the services of a qualified inspector.

(4) "Inspector" means a person employed by a local regulator, state regulator or compliance agency for the purpose of inspecting building, electrical, plumbing or mechanical construction, alteration, remodeling, repair or installation in accordance with the codes adopted under these rules and taking appropriate action based upon the findings made during inspection.

(5) "Refuses to establish a method of appeal" means with respect to Subsection 58-56-8(3), that a compliance agency does not in fact adopt a formal written method of appealing uniform building standard matters in accordance with generally recognized standards of due process; or, that the compliance agency does not convene an appeals board and render a decision in the matter within ninety days from the date on which the appeal is properly filed with the compliance agency.

(6) "Uniform Building Standards" means the codes identified in Section R156-56-701 and as amended under these rules.

(7) "Unprofessional conduct" as defined in Title 58, Chapter 1 is further defined, in accordance with Subsection 58-1-203(5), in Section R156-56-502.

R156-56-103. Authority.

These rules are adopted by the division under the authority of Subsection 58-1-106(1) to enable the division to administer Title 58, Chapter 56.

R156-56-104. Organization - Relationship to Rule R156-1.

The organization of this rule and its relationship to Rule R156-1 is as described in Section R156-1-107.

R156-56-105. Board of Appeals.

If the commission is required to act as an appeals board in accordance with the provisions of Subsection 58-56-8(3), the following shall regulate the convening and conduct of the special appeals board:

(1) If a compliance agency refuses to establish a method of appeal regarding a uniform building standard issue, the appealing party may petition the commission to act as the board of appeals.

(2) The person making the appeal shall file the request to convene the commission as an appeals board in accordance with

the requirements for a request for agency action, as set forth in Subsection 63-46b-3(3)(a) and Section R151-46b-7. A request by other means shall not be considered. Any request received by the commission or division by any other means shall be returned to the appellant with appropriate instructions.

(3) A copy of the final written decision of the compliance agency interpreting or applying a code which is the subject of the dispute shall be submitted as an attachment to the request. If the person making the appeal requests, but does not timely receive a final written decision, the person shall submit an affidavit to this effect in lieu of the final written decision.

(4) The request shall be filed with the division no later than 30 days following the issuance of the disputed written decision by the compliance agency.

(5) The compliance agency shall file a written response to the request not later than 20 days after the filing of the request. The request and response shall be provided to the commission in advance of any hearing in order to properly frame the disputed issues.

(6) Except with regard to the time period specified in Subsection (7), the time periods specified in this section may, upon a showing of good cause, be modified by the presiding officer conducting the proceeding.

(7) The commission shall convene as an appeals board within 45 days after a request is properly filed.

(8) Upon the convening of the commission as an appeals board, the board members shall review the issue to be considered to determine if a member of the board has a conflict of interest which would preclude the member from fairly hearing and deciding the issue. If it is determined that a conflict does exist, the member shall be excused from participating in the proceedings.

(9) The hearing shall be a formal hearing held in accordance with the Utah Administrative Procedures Act, Title 63, Chapter 46b.

(10) Decisions relating to the application and interpretation of the code made by a compliance agency board of appeals shall be binding for the specific individual case and shall not require commission approval.

R156-56-106. Fees.

In accordance with Subsection 58-56-9(4), on April 30, July 31, October 31 and January 31 of each year, each agency of the state and each political subdivision of the state which assesses a building permit fee shall file with the division a report of building fees and surcharge for the immediately preceding calendar quarter; and, shall remit 80% of the amount of the surcharge to have been assessed to the division.

R156-56-201. Building Inspector Licensing Board.

In accordance with Section 58-56-8.5, the board shall be as follows:

- (1) one member licensed as a Combination Inspector;
- (2) one member licensed as an Inspector who is qualified in the electrical code;
- (3) one member licensed as an Inspector who is qualified in the plumbing code;
- (4) one member licensed as an Inspector who is qualified in the mechanical code; and
- (5) one member shall be from the general public.

R156-56-202. Advisory Peer Committees Created - Membership - Duties.

(1) There is created in accordance with Subsection 58-1-203(6) and 58-56-5(10)(e), the following committees as advisory peer committees to the Uniform Building Codes Commission:

(a) the Education Advisory Committee consisting of seven members;

(b) the Plumbing and Health Advisory Committee consisting of seven members;

(c) the Structural Advisory Committee consisting of seven members;

(d) the Architectural Advisory Committee consisting of seven members;

(e) the Fire Protection Advisory Committee consisting of five members;

(i) This committee shall join together with the Fire Advisory and Code Analysis Committee of the Utah Fire Prevention Board to form the Unified Code Analysis Council.

(ii) The Unified Code Analysis Council shall meet as directed by the Utah Fire Prevention Board or as directed by the Uniform Building Code Commission or as needed to review fire prevention and building code issues that require definitive and specific analysis.

(iii) The Unified Code Analysis Council shall select one of its members to act in the position of chair and another to act as vice chair. The chair and vice chair shall serve for one year terms on a calendar year basis. Elections for chair and vice chair shall occur at the meeting conducted in the last quarter of the calendar year.

(iv) The chair or vice chair shall report to the Utah Fire Prevention Board or Uniform Building Code Commission recommendations of the council with regard to the review of fire and building codes; and

(f) the Mechanical Advisory Committee consisting of seven members.

(2) The committees shall be appointed and serve in accordance with Section R156-1-205. The membership of each committee shall be made up of individuals who have direct knowledge or involvement in the area of code involved in the title of that committee.

(3) The duties and responsibilities of the committees shall include:

(a) review of requests for amendments to the adopted codes as assigned to each committee by the division with the collaboration of the commission;

(b) submission of recommendations concerning the requests for amendment; and

(c) the Education Advisory Committee shall review and make recommendations regarding funding requests which are submitted, and review and make recommendations regarding budget, revenue and expenses of the education fund established pursuant to Subsection 58-56-9(4).

R156-56-301. Reserved.

Reserved.

R156-56-302. Licensure of Inspectors.

In accordance with Subsection 58-56-9(1), the licensee classifications, scope of work, qualifications for licensure, and application for license are established as follows:

(1) License Classifications. Each inspector required to be licensed under Subsection 58-56-9(1) shall qualify for licensure and be licensed by the division in one of the following classifications:

(a) Combination Inspector; or

(b) Limited Inspector.

(2) Scope of Work. The scope of work permitted under each inspector classification is as follows:

(a) Combination Inspector.

(i) Inspect the components of any building, structure or work for which a standard is provided in the specific edition of the codes adopted under these rules or amendments to these codes as included in these rules.

(ii) Determine whether the construction, alteration, remodeling, repair or installation of all components of any building, structure or work is in compliance with the adopted

codes.

(iii) After determination of compliance or noncompliance with the adopted codes take appropriate action as is provided in the aforesaid codes.

(b) Limited Inspector.

(i) A Limited Inspector may only conduct activities under Subsections (ii), (iii) or (iv) for which the Limited Inspector has maintained current certificates under the adopted codes as provided under Subsections R156-56-302(3)(b) and R156-56-302(2)(c)(ii).

(ii) Subject to the limitations of Subsection (i), inspect the components of any building, structure or work for which a standard is provided in the specific edition of the codes adopted under these rules or amendments to these codes as included in these rules.

(iii) Subject to the limitations under Subsection (i), determine whether the construction, alteration, remodeling, repair or installation of components of any building, structure or work is in compliance with the adopted codes.

(iv) Subject to the limitations under Subsection (i), after determination of compliance or noncompliance with the adopted codes, take appropriate action as is provided in the adopted codes.

(3) Qualifications for Licensure. The qualifications for licensure for each inspector classification are as follows:

(a) Combination Inspector.

Has passed the examination for and maintained as current the following national certifications for codes adopted under these rules:

(i) the "Combination Inspector Certification" issued by the International Code Council; or

(ii) all of the following certifications:

(A) the "Building Inspector Certification" issued by the International Code Council or both the "Commercial Building Inspector Certification" and the "Residential Building Inspector Certification" issued by the International Code Council;

(B) the "Electrical Inspector Certification" issued by the International Code Council or the "General Electrical Certification" issued by the International Association of Electrical Inspectors, or both the "Commercial Electrical Inspector Certification" and the "Residential Electrical Inspector Certification" issued by the International Code Council;

(C) the "Plumbing Inspector Certification" issued by the International Code Council, or both the "Commercial Plumbing Inspector Certification" and the "Residential Plumbing Inspector Certification" issued by the International Code Council; and

(D) the "Mechanical Inspector Certification" issued by the International Code Council or both the "Commercial Mechanical Inspector Certification" and the "Residential Mechanical Inspector Certification" issued by the International Code Council.

(b) Limited Inspector.

Has passed the examination for and maintained as current one or more of the following national certifications for codes adopted under these rules:

(i) the "Building Inspector Certification" issued by the International Code Council;

(ii) the "Electrical Inspector Certification" issued by the International Code Council or the "General Electrical Certification" issued by the International Association of Electrical Inspectors;

(iii) the "Plumbing Inspector Certification" issued by the International Code Council;

(iv) the "Mechanical Inspector Certification" issued by the International Code Council;

(v) the "Residential Combination Inspector Certification" issued by the International Code Council;

(vi) the "Commercial Combination Certification" issued by the International Code Council;

(vii) the "Commercial Building Inspector Certification" issued by the International Code Council;

(viii) the "Commercial Electrical Inspector Certification" issued by the International Code Council;

(ix) the "Commercial Plumbing Inspector Certification" issued by the International Code Council;

(x) the "Commercial Mechanical Inspector Certification" issued by the International Code Council;

(xi) the "Residential Building Inspector Certification" issued by the International Code Council;

(xii) the "Residential Electrical Inspector Certification" issued by the International Code Council;

(xiii) the "Residential Plumbing Inspector Certification" issued by the International Code Council;

(xiv) the "Residential Mechanical Inspector Certification" issued by the International Code Council;

(xv) any other special or otherwise limited inspector certifications used by the International Code Council which certifications cover a part of the codes adopted under these rules including but not limited to each of the following: Reinforced Concrete Special Inspector, Prestressed Concrete Special Inspector, Residential Energy Inspector, Commercial Energy Inspector; or

(xvi) any combination certification which is based upon a combination of one or more of the above listed certifications.

(4) Application for License.

(a) An applicant for licensure shall:

(i) submit an application in a form prescribed by the division; and

(ii) pay a fee determined by the department pursuant to Section 63-38-3.2.

(5) Code transition provisions.

(a) If an inspector or applicant obtains a new, renewal or recertification or replacement national certificate after a new code or code edition is adopted, the inspector or applicant is required to obtain that certification under the currently adopted code or code edition.

(b) After a new code or new code edition is adopted under these rules, the inspector is required to re-certify their national certification to the new code or code edition at the next available renewal cycle of the national certification.

(c) If a licensed inspector fails to obtain the national certification as required in Subsection (a) or (b), their authority to inspect for the area covered by the national certification automatically expires at the expiration date of the national certification that was not obtained as required.

(d) If an inspector recertifies a national certificate on a newer edition of the codes adopted before that newer edition is adopted under these rules, such recertification shall be considered as a current national certification as required by these rules.

(e) If an inspector complies with these transition provisions, the inspector shall be considered to have a current national certification as required by these rules.

R156-56-303. Renewal Cycle - Procedures.

(1) In accordance with Subsection 58-1-308(1), the renewal date for the two-year cycle applicable to licenses under Title 58, Chapter 56 is established by rule in Section R156-1-308.

(2) Renewal procedures shall be in accordance with Section R156-1-308.

R156-56-501. Reserved.

Reserved.

R156-56-502. Unprofessional Conduct - Building Inspectors.

"Unprofessional conduct" includes:

(1) knowingly failing to inspect or issue correction notices

for code violations which when left uncorrected would constitute a hazard to the public health and safety and knowingly failing to require that correction notices are complied with;

(2) the use of alcohol or the illegal use of drugs while performing duties as a building inspector or at any time to the extent that the inspector is physically or mentally impaired and unable to effectively perform the duties of an inspector;

(3) gross negligence in the performance of official duties as an inspector;

(4) the personal use of information or knowingly revealing information to unauthorized persons when that information has been obtained by the inspector as a result of their employment, work, or position as an inspector;

(5) unlawful acts or acts which are clearly unethical under generally recognized standards of conduct of an inspector;

(6) engaging in fraud or knowingly misrepresenting a fact relating to the performance of duties and responsibilities as an inspector;

(7) knowingly failing to require that all plans, specifications, drawings, documents and reports be stamped by architects, professional engineers or both as established by law;

(8) knowingly failing to report to the Division any act or omission of a licensee under Title 58, Chapter 55, which when left uncorrected constitutes a hazard to the public health and safety;

(9) knowingly failing to report to the Division unlicensed practice by persons performing services who are required by law to be licensed under Title 58, Chapter 55;

(10) approval of work which materially varies from approved documents that have been stamped by an architect, professional engineer or both unless authorized by the licensed architect, professional engineer or both; and

(11) failing to produce verification of current licensure and current certifications for the codes adopted under these rules upon the request of the Division, any compliance agency, or any contractor or property owner whose work is being inspected.

R156-56-601. Modular Unit Construction and Set-up.

Modular construction and set-up shall be as set forth in accordance with the following:

(1) Construction shall be in accordance with the building standards accepted by the state pursuant to Section 58-56-4.

(2) The inspection of the construction, modification of or set-up of a modular unit shall be the responsibility of the local regulator; however, nothing in these rules shall preclude the local regulator from entering into an agreement with another qualified person for the inspection of the unit(s) in the manufacturing facility.

R156-56-602. Factory Built Housing Dealer Bonds.

(1) Pursuant to the provisions of Subsection 58-56-16(2)(c), a factory built housing dealer shall provide a registration bond issued by a surety acceptable to the Division in the amount of \$50,000. An acceptable surety is one that is listed in the Department of Treasury, Fiscal Service, Circular 570, current revision, entitled "Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies".

(2) The coverage of the registration bond shall include losses which may occur as the result of the factory built housing dealer's violation of the unprofessional or unlawful provisions contained in Title 58, Chapters 1 and 56.

R156-56-603. Factory Built Housing Dispute Resolution Program.

(1) Pursuant to Subsection 58-56-15(1)(f)(i), the dispute resolution program is defined and clarified as follows:

(a) Persons having disputes regarding manufactured

housing issues may file a complaint with the Division.

(b) The Division shall investigate such complaints and as part of the investigation may take any of the following actions:

(i) The Division may negotiate with the parties involved for informal resolution of such complaints.

(ii) The Division may take any informal or formal action allowed by any applicable statute including, but not limited to:

(A) pursuing disciplinary proceedings under Section 58-1-401;

(B) pursuing civil sanctions under Subsection 58-56-15(2); and

(C) referring matters to appropriate criminal prosecuting agencies and cooperating or assisting with the investigation and prosecution of cases by such agencies.

(c) In addition, persons having disputes regarding manufactured housing issues may also institute civil action.

R156-56-604. Factory Built Housing Continuing Education Requirements.

(1) Pursuant to Subsection 58-56-15(1)(f)(ii), continuing education required for manufactured housing installation contractors is defined and clarified as follows:

(a) the continuing education required by Subsection 58-55-501(21), which is effective July 1, 2005.

R156-56-701. Specific Editions of Uniform Building Standards.

(1) In accordance with Subsection 58-56-4(3), and subject to the limitations contained in Subsection (6), (7), and (8), the following codes are hereby incorporated by reference and adopted as the construction standards to be applied to building construction, alteration, remodeling and repair and in the regulation of building construction, alteration, remodeling and repair in the state:

(a) the 2003 edition of the International Building Code (IBC), including Appendix J promulgated by the International Code Council, and amendments adopted under these rules together with standards incorporated into the IBC by reference, including but not limited to, the 2003 edition of the International Energy Conservation Code (IECC) promulgated by the International Code Council and the 2003 edition of the International Residential Code (IRC) promulgated by the International Code Council shall become effective on January 1, 2004;

(b) the 2005 edition of the National Electrical Code (NEC) promulgated by the National Fire Protection Association, to become effective January 1, 2006;

(c) the 2003 edition of the International Plumbing Code (IPC) promulgated by the International Code Council and amendments adopted under these rules in Section R156-56-707 shall become effective on January 1, 2004;

(d) the 2003 edition of the International Mechanical Code (IMC) together with all applicable standards set forth in the 2003 International Fuel Gas Code (IFGC) (formerly included as part of the IMC) and amendments adopted under these rules in Section R156-56-708 shall become effective on January 1, 2004;

(e) subject to the provisions of Subsection (4), the Federal Manufactured Housing Construction and Safety Standards Act (HUD Code) as promulgated by the Department of Housing and Urban Development and published in the Federal Register as set forth in 24 CFR parts 3280 and 3282 as revised April 1, 1990; and

(f) subject to the provisions of Subsection (4), the 1994 edition of NCSBCS A225.1 Manufactured Home Installations promulgated by the National Conference of States on Building Codes and Standards (NCSBCS).

(2) In accordance with Subsection 58-56-4(4), and subject to the limitations contained in Subsection 58-56-4(5), the

following codes or standards are hereby incorporated by reference and approved for use and adoption by a compliance agency as the construction standards which may be applied to existing buildings in the regulation of building alteration, remodeling, repair, removal and rehabilitation in the state:

(a) the 1997 edition of the Uniform Code for the Abatement of Dangerous Buildings (UCADB) promulgated by the International Code Council;

(b) the 1997 edition of the Uniform Code for Building Conservation (UCBC) promulgated by the International Code Council;

(c) Guidelines for the Seismic Retrofit of Existing Buildings (GSREB) promulgated by the International Code Council;

(d) Guidelines for the Rehabilitation of Existing Buildings (GREB) promulgated by the International Code Council;

(e) Pre-standard and Commentary for the Seismic Rehabilitation of Buildings (FEMA 356) published by the Federal Emergency Management Agency (November 2000).

(3) Amendments adopted by rule to prior editions of the Uniform Building Standards shall remain in effect until specifically amended or repealed.

(4) In accordance with Subsection 58-56-4(2), the following is hereby adopted as the installation standard for manufactured housing:

(a) The manufacturer's installation instruction for the model being installed;

(b) The NCSBCS/ANSI 225.1-1994, Manufactured Home Installations, promulgated by the National Conference of States on Building Codes and Standards;

(c) The manufacturer, dealer or homeowner shall be permitted to design for unusual installation of a manufactured home not provided for in the manufacturer's standard installation instruction or NCSBCS/ANSI 225.1, Manufactured Home Installations, provided the design is approved in writing by a professional engineer or architect licensed in Utah; and

(d) Guidelines for Manufactured Housing Installation as promulgated by the International Code Council may be used as a reference guide.

(5) Pursuant to the Federal Manufactured Home Construction and Safety Standards Section 604(d), a manufactured home may be installed in the state of Utah which does not meet the local snow load requirements as specified in Subsection R156-56-704; however all such homes which fail to meet the standards of Subsection R156-56-704 shall have a protective structure built over the home which meets the International Building Code and the snow load requirements under Subsection R156-56-704.

(6) To the extent that the building codes adopted under Subsection (1) establish local administrative functions or establish a method of appeal which pursuant to Section 58-56-8 are designated to be established by the compliance agency, such provisions are not included in the codes adopted hereunder but authority over such provisions are reserved to the compliance agency to establish such provisions.

(7) To the extent that the building codes adopted under Subsection (1) establish provisions, standards or references to other codes which by state statutes are designated to be established or administered by other state agencies or local city, town or county jurisdictions, such provisions are not included in the codes adopted herein but authority over such provisions are reserved to the agency or local government having authority over such provisions. Provisions excluded under this Subsection include but are not limited to:

(a) the International Property Maintenance Code;

(b) the International Private Sewage Disposal Code, authority over which would be reserved to the Department of Health and the Department of Environmental Quality;

(c) the International Fire Code which pursuant to Section

58-3-7 authority is reserved to the Utah Fire Prevention Board; and

(d) day care provisions which are in conflict with the Child Care Licensing Act, authority over which is designated to the Utah Department of Health.

(8) To the extent that the codes adopted under Subsection (1) establish provisions that exceed the authority granted to the Division, under the Utah Uniform Building Standards Act, to adopt codes or amendments to such codes by rulemaking procedures, such provisions, to the extent such authority is exceeded, are not included in the codes adopted.

R156-56-702. Commission Override of the Division.

(1) In the event that the director of the division rules contrary to the recommendation of the commission with respect to the provisions of Subsection 58-56-7(8), the director shall present his action and the basis for that action at the commission's next meeting or at a special meeting called by either the division or the commission.

(2) The commission may override the division's action by a two-thirds vote which equals eight votes.

(3) In the event of a vacancy on the commission, a vote of a minimum of two-thirds of the existing commissioners must be obtained to override the division.

R156-56-703. Code Amendments.

In accordance with Subsection 58-56-7(1), the procedure and manner under which requests for amendments to codes shall be filed with the division and recommended or declined for adoption are as follows:

(1) All requests for amendments to any of the uniform building standards shall be submitted to the division on forms specifically prepared by the division for that purpose.

(2) The processing of requests for code amendments shall be in accordance with division policies and procedures.

R156-56-704. Statewide Amendments to the IBC.

The following are adopted as amendments to the IBC to be applicable statewide:

(1) All references to the International Electrical Code are deleted and replaced with the National Electrical Code adopted under Subsection R156-56-701(1)(b).

(2) All references to the International Existing Building Code are deleted and replaced with the codes approved under Subsection R156-56-701(2).

(3) Section 101.4.1 is deleted and replaced with the following:

101.4.1 Electrical. The provisions of the National Electrical Code (NEC) shall apply to the installation of electrical systems, including alterations, repairs, replacement, equipment, appliances, fixtures, fittings and appurtenances thereto.

(4) In Section 109, a new section is added as follows:

109.3.5 Weather-resistive barrier and flashing. An inspection shall be made of the weather-resistive barrier as required by Section 1403.2 and flashing as required by Section 1405.3 to prevent water from entering the weather-resistant exterior wall envelope.

The remaining sections will be renumbered as follows:

109.3.6 Lath or gypsum board inspection

109.3.7 Fire-resistant penetrations

109.3.8 Energy efficiency inspections

109.3.9 Other inspections

109.3.10 Special inspections

109.3.11 Final inspection.

(5) Section 114.1 is deleted and replaced with the following:

114.1 Authority. Whenever the building official finds any work regulated by this code being performed in a manner either contrary to the provisions of this code or other pertinent laws or

ordinances or dangerous or unsafe, the building official is authorized to stop work.

(6) In Section 202, the following definition is added:

ASSISTED LIVING FACILITY. See Section 308.1.1.

(7) Section 305.2 is deleted and replaced with the following:

305.2 Day care. The building or structure, or portion thereof, for educational, supervision, child day care centers, or personal care services of more than four children shall be classified as a Group E occupancy. See Section 419 for special requirements for Group E child day care centers.

Exception: Areas used for child day care purposes with a Residential Certificate, Family License or Family Group License may be located in a Group R-2 or R-3 occupancy as provided in Section 310.1 or shall comply with the International Residential Code in accordance with Section 101.2.

Child day care centers providing care for more than 100 children 2 1/2 years or less of age shall be classified as Group I-4.

(8) In Section 308 the following definitions are added:

308.1.1 Definitions. The following words and terms shall, for the purposes of this section and as used elsewhere in this code, have the meanings shown herein.

TYPE 1 ASSISTED LIVING FACILITY. A residential facility that provides a protected living arrangement for ambulatory, non-restrained persons who are capable of achieving mobility sufficient to exit the facility without the assistance of another person.

TYPE 2 ASSISTED LIVING FACILITY. A residential facility that provides an array of coordinated supportive personal and health care services to residents who meet the definition of semi-independent.

SEMI-INDEPENDENT. A person who is:

A. Physically disabled but able to direct his or her own care; or

B. Cognitively impaired or physically disabled but able to evacuate from the facility with the physical assistance of one person.

(9) Section 308.2 is deleted and replaced with the following:

308.2 Group I-1. This occupancy shall include buildings, structures, or parts thereof housing more than 16 persons, on a 24-hour basis, who because of age, mental disability or other reasons, live in a supervised residential environment that provides personal care services. The occupants are capable of responding to an emergency situation without physical assistance from staff. This group shall include, but not be limited to, the following: residential board and care facilities, type 1 assisted living facilities, half-way houses, group homes, congregate care facilities, social rehabilitation facilities, alcohol and drug centers and convalescent facilities. A facility such as the above with five or fewer persons shall be classified as a Group R-3 or shall comply with the International Residential Code in accordance with Section 101.2. A facility such as above, housing at least six and not more than 16 persons, shall be classified as a Group R-4.

(10) Section 308.3 is deleted and replaced with the following:

308.3 Group I-2. This occupancy shall include buildings and structures used for medical, surgical, psychiatric, nursing or custodial care on a 24-hour basis of more than three persons who are not capable of self-preservation. This group shall include, but not be limited to the following: hospitals, nursing homes (both intermediate care facilities and skilled nursing facilities), mental hospitals, detoxification facilities, ambulatory surgical centers with two or more operating rooms where care is less than 24 hours, outpatient medical care facilities for ambulatory patients (accommodating more than five such patients in each tenant space) which may render the patient

incapable of unassisted self-preservation, and type 2 assisted living facilities. Type 2 assisted living facilities with five or fewer persons shall be classified as a Group R-4. Type 2 assisted living facilities as defined in 308.1.1 with at least six and not more than sixteen residents shall be classified as a Group I-1 facility.

(11) Section 308.3.1 is deleted and replaced with the following:

308.3.1 Child care facility. A child care facility that provides care on a 24 hour basis to more than four children 2 1/2 years of age or less shall be classified as Group I-2.

(12) Section 308.5 is deleted and replaced with the following:

308.5 Group I-4, day care facilities. This group shall include buildings and structures occupied by persons of any age who receive custodial care less than 24 hours by individuals other than parents or guardians, relatives by blood, marriage, or adoption, and in a place other than the home of the person cared for. A facility such as the above with four or fewer persons shall be classified as an R-3 or shall comply with the International Residential Code in accordance with Section 101.2. Places of worship during religious functions and Group E child day care centers are not included.

(13) Section 308.5.2 is deleted and replaced with the following:

308.5.2 Child care facility. A facility that provides supervision and personal care on less than a 24 hour basis for more than 100 children 2 1/2 years of age or less shall be classified as Group I-4.

(14) Section 310.1 is deleted and replaced with the following:

310.1 Residential Group "R". Residential Group R includes, among others, the use of a building or structure, or a portion thereof, for sleeping purposes when not classed as an Institutional Group I. Residential occupancies shall include the following:

R-1: Residential occupancies where the occupants are primarily transient in nature (less than 30 days) including: Boarding Houses (transient), Hotels (transient), and Motels (transient).

Exception: Boarding houses accommodating 10 persons or less shall be classified as a Residential Group R-3 or shall comply with the International Residential Code in accordance with Section 101.2.

R-2: Residential occupancies containing sleeping units or more than two dwelling units where the occupants are primarily permanent in nature, including: Apartment Houses, Boarding houses (not transient), Convents, Dormitories, Fraternities and Sororities, Monasteries, Vacation timeshare properties, Hotels (non transient), and Motels (non transient).

Exception: Boarding houses accommodating 10 persons or less shall be classified as a Residential Group R-3 or shall comply with the International Residential Code in accordance with Section 101.2.

R-3: Residential occupancies where the occupants are primarily permanent in nature and not classified as R-1, R-2, R-4 or I and where buildings do not contain more than two dwelling units, as applicable in Section 101.2, or adult and child care facilities that provide accommodations for five or fewer persons of any age for less than 24 hours. Adult and child care facilities that are within a single family home are permitted to comply with the International Residential Code in accordance with Section 101.2. Areas used for day care purposes may be located in a residential dwelling unit under all of the following conditions:

1. Compliance with the Utah Administrative Code, R710-8, Day Care Rules, as enacted under the authority of the Utah Fire Prevention Board.

2. Use is approved by the State Department of Health, as

enacted under the authority of the Utah Child Care Licensing Act, UCA, Sections 26-39-101 through 26-39-110, and in any of the following categories:

a. Utah Administrative Code, R430-50, Residential Certificate Child Care Standards.

b. Utah Administrative Code, R430-90, Licensed Family Child Care.

3. Compliance with all zoning regulations of the local regulator.

R-4: Residential occupancies shall include buildings arranged for occupancy as Residential Care/Assisted Living Facilities including more than five but not more than 16 occupants, excluding staff.

Group R-4 occupancies shall meet the requirements for construction as defined for Group R-3 except as otherwise provided for in this code or shall comply with the International Residential Code in accordance with Section 101.2.

(15) A new Section 403.9.1 is added as follows:

403.9.1 Elevator lobby. Elevators on all floors shall open into elevator lobbies that are separated from the remainder of the building, including corridors and other means of egress by smoke partitions complying with Section 710. Elevator lobbies shall have at least one means of egress complying with Chapter 10 and other provisions within the code. Elevator lobbies shall be separated from a fire resistance rated corridor with fire partitions complying with Section 708 and shall have walls of not less than one-hour fire resistance rating and openings shall conform to Section 715.

Exceptions:

1. Separations are not required from a street floor elevator lobby.

2. In atria complying with the provisions of Section 404 elevator lobbies are not required.

(16) A new section 419 is added as follows:

Section 419 Group E Child Day Care Centers. Group E child day care centers shall comply with Section 419.

419.1 Location at grade. Group E child day care centers shall be located at the level of exit discharge.

Exception: Child day care spaces for children over the age of 24 months may be located on the second floor of buildings equipped with automatic fire protection throughout and an automatic fire alarm system.

419.2 Egress. All Group E child day care spaces with an occupant load of 10 or more shall have a second means of egress. If the second means of egress is not an exit door leading directly to the exterior, the room shall have an emergency escape and rescue window complying with Section 1025.

(17) In Section 707.14.1 Exception 4 is deleted and replaced with the following:

4. See Section 403.9.1 for high rise buildings.

(18) In Section (F)902, the definition for record drawings is deleted and replaced with the following:

(F)RECORD DRAWINGS. Drawings ("as built") that document all aspects of a fire protection system as installed.

(19) Section (F)903.2.7 is deleted and replaced with the following:

(F)903.2.7 Group R. An automatic sprinkler system installed in accordance with Section 903.3 shall be provided throughout all buildings with a Group R fire area.

Exception:

1. Detached one- and two-family dwellings and multiple single-family dwellings (townhouses) constructed in accordance with the International Residential Code For One- and Two-Family Dwellings.

2. Group R-4 fire areas not more than 4,500 gross square feet and not containing more than 16 residents, provided the building is equipped throughout with an approved fire alarm system that is interconnected and receives its primary power from the building wiring and a commercial power system.

(20) Section (F)903.3.7 is deleted and replaced with the following:

(F)903.3.7 Fire department connections. The location of fire department connections shall be approved by the code official.

(21) Section 905.5.3 is deleted and replaced with the following:

905.5.3 Class II system 1-inch hose. A minimum 1-inch (25.4 mm) hose shall be permitted to be used for hose stations in light-hazard occupancies where investigated and listed for this service and where approved by the code official.

(22) Section (F)907.2.10 is deleted and replaced with the following:

(F)907.2.10 Single- and multiple-station alarms. Listed single- and multiple-station smoke alarms shall be installed in accordance with the provision of this code and the household fire-warning equipment provision of NFPA 72. Listed single- and multiple-station carbon monoxide detectors shall comply with U.L. 2034 and shall be installed in accordance with the provisions of this code and NFPA 720.

(F)907.2.10.1 Smoke alarms. Single- or multiple-station smoke alarms shall be installed in the locations described in Sections (F)907.2.10.1.1 through (F)907.2.10.1.4.

(F)907.2.10.1.1 Group R-1. Single- or multiple-station smoke alarms shall be installed in all of the following locations in Group R-1:

1. In sleeping areas.
2. In every room in the path of the means of egress from the sleeping area to the door leading from the sleeping unit.
3. In each story within the sleeping unit, including basements. For sleeping units with split levels and without an intervening door between the adjacent levels, a smoke alarm installed on the upper level shall suffice for the adjacent lower level provided that the lower level is less than one full story below the upper level.

(F)907.2.10.1.2 Groups R-2, R-3, R-4 and I-1. Single- or multiple-station smoke alarms shall be installed and maintained in Groups R-2, R-3, R-4 and I-1, regardless of occupant load at all of the following locations:

1. On the ceiling or wall outside of each separate sleeping area in the immediate vicinity of bedrooms.
2. In each room used for sleeping purposes.
3. In each story within a dwelling unit, including basements and cellars but not including crawl spaces and uninhabitable attics. In dwellings or dwelling units with split levels and without an intervening door between the adjacent levels, a smoke alarm installed on the upper level shall suffice for the adjacent lower level provided that the lower level is less than one full story below the upper level.

(F)907.2.10.1.3 Group I-1. Single- or multiple-station smoke alarms shall be installed and maintained in sleeping areas in occupancies in Group I-1. Single- or multiple-station smoke alarms shall not be required where the building is equipped throughout with an automatic fire detection system in accordance with Section (F)907.2.6.

(F)907.2.10.2 Carbon monoxide alarms. Carbon monoxide alarms shall be installed on each habitable level of a dwelling unit or sleeping unit in Groups R-2, R-3, R-4 and I-1 equipped with fuel burning appliances.

(F)907.2.10.3. Power source. In new construction, required alarms shall receive their primary power from the building wiring where such wiring is served from a commercial source and shall be equipped with a battery backup. Alarms shall emit a signal when the batteries are low. Wiring shall be permanent and without a disconnecting switch other than as required for overcurrent protection.

Exception: Alarms are not required to be equipped with battery backup in Group R-1 where they are connected to an emergency electrical system.

(F)907.2.10.4 Interconnection. Where more than one alarm is required to be installed with an individual dwelling unit in Group R-2, R-3, or R-4, or within an individual sleeping unit in Group R-1, the alarms shall be interconnected in such a manner that the activation of one alarm will activate all of the alarms in the individual unit. The alarm shall be clearly audible in all bedrooms over background noise levels with all intervening doors closed. Approved combination smoke and carbon-monoxide detectors shall be permitted.

(F)907.2.10.5 Acceptance testing. When the installation of the alarm devices is complete, each detector and interconnecting wiring for multiple-station alarm devices shall be tested in accordance with the household fire warning equipment provisions of NFPA 72 and NFPA 720, as applicable.

(23) In Section 1008.1.8.3, a new subparagraph (5) is added as follows:

(5) Doors in Group I-1 and I-2 occupancies, where the clinical needs of the patients require specialized security measures for their safety, approved access controlled egress may be installed when all the following are met:

5.1 The controlled egress doors shall unlock upon activation of the automatic fire sprinkler system or automatic fire detection system.

5.2 The facility staff can unlock the controlled egress doors by either sensor or keypad.

5.3 The controlled egress doors shall unlock upon loss of power.

(24) Section 1009.3, Exception #5 is deleted and replaced with the following:

5. In occupancies in Group R-3, as applicable in Section 101.2, within dwelling units in occupancies in Group R-2, as applicable in Section 101.2, and in occupancies in Group U, which are accessory to an occupancy in Group R-3, as applicable in Section 101.2, the maximum riser height shall be 8 inches (203 mm) and the minimum tread depth shall be 9 inches (229 mm). The minimum winder tread depth at the walk line shall be 10 inches (254 mm), and the minimum winder tread depth shall be 6 inches (152 mm). A nosing not less than 0.75 inch (19.1 mm) but not more than 1.25 inches (32 mm) shall be provided on stairways with solid risers where the tread depth is less than 10 inches (254 mm).

(25) Section 1009.11 Exception #4 is deleted and replaced with the following:

4. In occupancies in Group R-3, as applicable in Section 101.2 and in occupancies in Group U, which are accessory to an occupancy in Group R-3, as applicable in Section 101.2, handrails shall be provided on at least one side of stairways consisting of four or more risers.

(26) Section 1009.11.3 is amended to include the following exception at the end of the section:

Exception. Non-circular handrails serving an individual unit in a Group R-1, Group R-2 or Group R-3 occupancy shall be permitted to have a maximum cross sectional dimension of 3.25 inches (83 mm) measured 2 inches (51 mm) down from the top of the crown. Such handrail is required to have an indentation on both sides between 0.625 inch (16 mm) and 1.5 inches (38 mm) down from the top or crown of the cross section. The indentation shall be a minimum of 0.25 inch (6 mm) deep on each side and shall be at least 0.5 (13 mm) high. Edges within the handgrip shall have a minimum radius of 0.0625 inch (2 mm). The handrail surface shall be smooth with no cusps so as to avoid catching clothing or skin.

(27) In Section 1012.2 Exception 3 is added as follows:

3. For occupancies in Group R-3 and within individual dwelling units in occupancies in Group R-2, as applicable in Section 101.2, guards shall form a protective barrier not less than 36 inches (914 mm) in height.

(28) New sections 1109.7.1 and 1109.7.2 are added as follows:

1109.7.1 All platform (wheelchair) lifts shall be capable of independent operation without a key.

1109.7.2 Standby power shall be provided for platform lifts permitted to serve as part of the accessible means of egress.

(29) Section 1208.4 subparagraph 1 is deleted and replaced with the following:

1. The unit shall have a living room of not less than 165 square feet (15.3 m²) of floor area. An additional 100 square feet (9.3 m²) of floor area shall be provided for each occupant of such unit in excess of two.

(30) Section 1405.3 is deleted and replaced with the following:

1405.3 Flashing. Flashing shall be installed in such a manner so as to prevent moisture from entering the wall or to redirect it to the exterior. Flashings shall be installed at the perimeters of exterior door and window assemblies, penetrations and terminations of exterior wall assemblies, exterior wall intersections with roofs, chimneys, porches, decks, balconies and similar projections and at built-in gutters and similar locations where moisture could enter the wall. Flashing with projected flanges shall be installed on both sides and the ends of copings, under sills and continuously above projected trim. A flashing shall be installed at the intersection of the foundation to stucco, masonry, siding or brick veneer. The flashing shall be on an approved corrosion-resistant flashing with a 1/2" drip leg extending past exterior side of the foundation.

(31) Section 1604.5, footnote "c" is added to Table 1604.5 Classification of Buildings and Other Structures for Importance Factors:

c. For determining "W" per sections 1616.4.1, 1617, 1617.5.1, or 1618.1, the Snow Factor I_s, may be taken as 1.0.

(32) In Section 1605.2.1, the formula shown as "f₂ = 0.2 for other roof configurations" is deleted and replaced with the following:

f₂ = 0.20 + .025(A-5) for other configurations where roof snow load exceeds 30 psf

f₂ = 0 for roof snow loads of 30 psf (1.44kN/m²) or less.

Where A = Elevation above sea level at the location of the structure (ft/1000).

(33) In Section 1605.3.1 and section 1605.3.2, Exception number 2 in each section is deleted and replaced with the following:

Flat roof snow loads of 30 pounds per square foot (1.44 kNm²) or less need not be combined with seismic loads. Where flat roofs exceed 30 pounds per square foot (1.44 kNm²), the snow loads may be reduced in accordance with the following in load combinations including both snow and seismic loads.

$$W_s = (0.20 + 0.025(A-5))P_f$$

Where

W_s = Weight of snow to be included, psf

A = Elevation above sea level at the location of the structure (ft/1000)

P_f = Design roof snow load, psf

(34) In Table 1607.1 number 6 is deleted and replaced with the following:

Occupancy or Use	Uniform (psf)	Concentrated (lbs)
6. Decks, except residential	Same as occupancy served ^h	
6.1 Residential decks	60 psf	

(35) In Table 1607.1 number 27 is deleted and replaced with the following:

Occupancy or Use	Uniform (psf)	Concentrated (lbs)
27. Residential Group R-3 as applicable in Section 101.2		-
Uninhabitable attics without storage	10 ¹	

Uninhabitable attics with storage	20
Habitable attics and sleeping areas	30
All other areas except balconies and decks	40
Hotels and multifamily dwellings	
Private rooms	40
Public rooms and corridors serving them	100

(36) In Notes to Table 1607.1, Note i is added as follows:
i. This live load need not be considered as acting simultaneously with other live loads imposed upon the ceiling framing or its supporting structure.

(37) Section 1608.1 is deleted and replaced with the following:

Except as modified in section 1608.1.1, design snow loads shall be determined in accordance with Section 7 of ASCE 7, but the design roof load shall not be less than that determined by Section 1607.

(38) Section 7.4.5 of Section 7 of ASCE 7 referred to in Section 1608.1 of the IBC is deleted and replaced with the following:

Section 7.4.5 Ice Dams and Icicles Along Eaves. Where ground snow loads exceed 75 psf, eaves shall be capable of sustaining a uniformly distributed load of 2P_f on all overhanging portions. No other loads except dead loads shall be present on the roof when this uniformly distributed load is applied. All building exits under down-slope eaves shall be protected from sliding snow and ice.

(39) Section 1608.1.1 is added as follows:

1608.1.1 Utah Snow Loads. The ground snow load, P_g, to be used in the determination of design snow loads for buildings and other structures shall be determined by using the following formula: P_g = (P_o² + S²(A-A_o)²)^{0.5} for A greater than A_o, and P_g = P_o for A less than or equal to A_o.

WHERE

P_g = Ground snow load at a given elevation (psf)

P_o = Base ground snow load (psf) from Table No. 1608.1.1(a)

S = Change in ground snow load with elevation (psf/100 ft.) From Table No. 1608.1.1(a)

A = Elevation above sea level at the site (ft./1000)

A_o = Base ground snow elevation from Table 1608.1.1(a) (ft./1000)

The building official may round the roof snow load to the nearest 5 psf. The ground snow load, P_g, may be adjusted by the building official when a licensed engineer or architect submits data substantiating the adjustments. A record of such action together with the substantiating data shall be provided to the division for a permanent record.

The building official may also directly adopt roof snow loads in accordance with Table 1608.1.1(b), provided the site is no more than 100 ft. higher than the listed elevation.

Where the minimum roof live load in accordance with section 1607.11 is greater than the design roof snow load, such roof live load shall be used for design, however, it shall not be reduced to a load lower than the design roof snow load. Drifting need not be considered for roof snow loads less than 20 psf.

(40) Table 1608.1.1(a) and Table 1608.1.1(b) are added as follows:

TABLE NO. 1608.1.1(a)

NOTES

(1) The IBC requires a minimum live load - See 1607.11.2.

(2) This table is informational only in that actual site elevations may vary. Table is only valid if site elevation is within 100 feet of the listed elevation.

(41) Section 1608.2 is deleted and replaced with the following:

1608.2 Ground Snow Loads. The ground snow loads to be used in determining the design snow loads for roofs in states other than Utah are given in Figure 1608.2 for the contiguous United States and Table 1608.2 for Alaska. Site-specific case studies shall be made in areas designated CS in figure 1608.2. Ground snow loads for sites at elevations above the limits indicated in Figure 1608.2 and for all sites within the CS areas shall be approved. Ground snow load determination for such sites shall be based on an extreme value statistical analysis of data available in the vicinity of the site using a value with a 2-percent annual probability of being exceeded (50-year mean recurrence interval). Snow loads are zero for Hawaii, except in mountainous regions as approved by the building official.

(42) Section 1608.3.2 is deleted and replaced with the following:

1608.3.2 Thermal Factor. The value for the thermal factor, C_{ts} , used in calculation of p_f shall be determined from Table 1608.3.2.

Exception: Except for unheated structures, the value of C_{ts} need not exceed 1.0 when ground snow load, P_g , is calculated using Section 1608.1.1 as amended.

(43) Section 1614.2 is deleted and replaced with the following:

1614.2 Change in Occupancy. When a change of occupancy results in a structure being reclassified to a higher Seismic Use Group, or when such change of occupancy results in a design occupant load increase of 100% or more, the structure shall conform to the seismic requirements for a new structure.

Exceptions:

1. This is not required if the design occupant load increase is less than 25 persons and the Seismic Use Group does not change.

2. Specific detailing provisions required for a new structure are not required to be met where it can be shown an equivalent level of performance and seismic safety contemplated for a new structure is obtained. Such analysis shall consider the

regularity, overstrength, redundancy and ductility of the structure within the context of the specific detailing provided. Alternatively, the building official may allow the structure to be upgraded in accordance with the latest edition of the "Guidelines for Seismic Rehabilitation of Existing Buildings" or another nationally recognized standard for retrofit of existing buildings.

(44) In Section 1616.4.1, Definition of W, Item 4 is deleted and replaced with the following:

4. Roof snow loads of 30 psf or less need not be included.

Where the roof snow load exceeds 30 psf, the snow load shall be included, but may be adjusted in accordance with the following formula: $W_s = (0.20 + 0.025(A-5))P_f$

WHERE:

W_s = Weight of snow to be included in seismic calculation;

A = Elevation above sea level at the location of the structure (ft/1000)

P_f = Design roof snow load, psf

For the purposes of this section, snow load shall be assumed uniform on the roof footprint without including the effects of drift or sliding.

(45) Section 1617.4 is deleted and replaced with the following:

1617.4 Equivalent lateral force procedure for seismic design of buildings. The provisions given in Section 9.5.5 of ASCE 7 shall be used. Roof snow loads to be included in the seismic dead load (W) may be adjusted as outlined in Section 1616.4.1, Item 4, as amended.

(46) In Section 1617.5.1, Definition of W, Item 4 is deleted and replaced with the following:

4. Roof snow loads to be included shall be as outlined in section 1616.4.1, Definition of W, Item 4, as amended.

(47) Section 1618.1 is deleted and replaced with the following:

1618.1 Dynamic analysis procedures. The following dynamic analysis procedures are permitted to be used in lieu of the equivalent lateral force procedure of Section 1617.4:

1. Modal Response Spectral Analysis.
2. Linear Time-history Analysis.
3. Nonlinear Time-history Analysis.

The dynamic analysis procedures listed above shall be performed in accordance with the requirements of Section 9.5.6, 9.5.7, and 9.5.8 respectively, of ASCE 7. Roof snow loads to be included in the seismic dead load (W) may be adjusted as outlined in Section 1616.4.1, Item 4, as amended.

(48) Section 1621.1 is deleted and replaced with the following:

1621.1 Component design. Architectural, mechanical, electrical and nonstructural systems, components and elements permanently attached to structures, including supporting structures and attachments (hereinafter referred to as "components"), and nonbuilding structures that are supported by other structures, shall meet with requirements of Section 9.6 of ASCE 7 except as modified in Sections 1621.1.1, 1621.1.2, 1621.1.3, and 1621.1.4, excluding Section 9.6.3.11.2, of ASCE 7, as amended in this section.

(49) A new Section 1621.1.4 is added as follows:

1621.1.4 ASCE 7, Section 9.6.2.6.2.2 paragraph (e) is modified to read as follows:

(e) Penetrations shall have a sleeve or adapter through the ceiling tile to allow for free movement of at least 1 inch (25 mm) in all horizontal directions.

Exceptions:

1. Where rigid braces are used to limit lateral deflections.
2. At fire sprinkler heads in frangible surfaces per NFPA 13.

(50) Section 1805.2.1 is deleted and replaced with the following:

1805.2.1 Frost protection. Except where otherwise protected from frost, foundation walls, piers and other

permanent supports of buildings and structures shall be protected from frost by one or more of the following methods:

- (1) Extending below the frost line of the locality;
- (2) Constructed in accordance with ASCE-32; or
- (3) Erected on solid rock.

Exception: Freestanding buildings meeting all of the following conditions shall not be required to be protected:

1. Classified in Importance Category I (see Table 1604.5), or Occupancy Group U (see Section 312);
2. Area of 1,000 square feet (93m²) or less;
3. Eave height of 10 feet (3048 mm) or less; and
4. Constructed of light-wood-framed construction.

Footings shall not bear on frozen soil unless such frozen condition is of a permanent character.

(51) Section 1805.5 is deleted and replaced with the following:

1805.5 Foundation walls. Concrete and masonry foundation walls shall be designed in accordance with Chapter 19 or 21. Foundation walls that are laterally supported at the top and bottom and within the parameters of Tables 1805.5(1) through 1805.5(4) are permitted to be designed and constructed in accordance with Sections 1805.5.1 through 1805.5.5. Concrete foundation walls may also be constructed in accordance with Section 1805.5.8.

(52) A new section 1805.5.8 is added as follows:

1805.5.8 Empirical foundation design. Group R, Division 3 Occupancies three stories or less in height, and Group U Occupancies, which are constructed in accordance with Section 2308, or with other methods employing repetitive wood-frame construction or repetitive cold-formed steel structural member construction, shall be permitted to have concrete foundations constructed in accordance with Table 1805.5(5).

(53) Table 1805.5(5) is added as follows:

Table 1805.5(5), entitled "Empirical Foundation Walls, dated September 1, 2002, published by the Department of Commerce, Division of Occupational and Professional Licensing is hereby adopted and incorporated by reference. Table 1805.5(5) identifies foundation requirements for empirical walls.

(54) A new section 2306.1.4 is added as follows:

2306.1.4 Load duration factors. The allowable stress increase of 1.15 for snow load, shown in Table 2.3.2, Frequently Used Load Duration Factors, C_d , of the National Design Specifications, shall not be utilized at elevations above 5,000 feet (1524 M).

(55) Section 2308.6 is deleted and replaced with the following:

2308.6 Foundation plates or sills. Foundations and footings shall be as specified in Chapter 18. Foundation plates or sills resting on concrete or masonry foundations shall comply with Section 2304.3.1 and shall be bolted or anchored by one of the following:

1. Foundation plates or sill shall be bolted or anchored to the foundation with not less than 1/2 inch (12.7 mm) diameter steel bolts or approved anchors. Bolts shall be embedded at least 7 inches (178 mm) into concrete or masonry, and spaced not more than 6 feet (1829 mm) apart. There shall be a minimum of two bolts or anchor straps per piece with one bolt or anchor strap located not more than 12 inches (305 mm) or less than 4 inches (102 mm) from each end of each piece.

2. Foundation plates or sills shall be bolted or anchored to the foundation with not less than 1/2 inch (12.7 mm) diameter steel bolts or approved anchors. Bolts shall be embedded at least 7 inches (178 mm) into concrete or masonry, and spaced not more than 32 inches (816 mm) apart. There shall be a minimum of two bolts or anchor straps per piece located not less than 4 inches (102 mm) from each end of each piece.

A properly sized nut and washer shall be tightened on each bolt to the plate.

(56) Section 2506.2.1 is deleted and replaced with the following:

2506.2.1 Other materials. Metal suspension systems for acoustical and lay-in panel ceilings shall conform with ASTM C635 listed in Chapter 35 and Section 9.6.2.6 of ASCE 7, as amended in Section 1621.1.4, for installation in high seismic areas.

(57) In Section 2902.1, the title for Table 2902.1 is deleted and replaced with the following and footnote f is added as follows: Table 2902.1, Minimum Number of Plumbing Facilities^{a, f}.

FOOTNOTE: f. When provided, in public toilet facilities there shall be an equal number of diaper changing facilities in male toilet rooms and female toilet rooms.

(58) A new section 2902.1.1 is added as follows:

2902.1.1 Unisex toilets and bath fixtures. Fixtures located within unisex toilet and bathing rooms complying with section 2902 are permitted to be included in determining the minimum number of fixtures for assembly and mercantile occupancies.

(59) Section 3006.5 Shunt Trip, the following exception is added:

Exception: Hydraulic elevators and roped hydraulic elevators with a rise of 50 feet or less.

(60) A new section 3403.5 is added as follows:

3403.5 Parapets and other appendages. Building constructed prior to 1975 with parapet walls, cornices, spires, towers, tanks, signs, statuary and other appendages shall have such appendages evaluated by a licensed engineer to determine resistance to design loads specified in this code when said building is undergoing reroofing, or alteration of or repair to said feature.

EXCEPTION: Group R-3 and U occupancies.

Original Plans and/or structural calculations may be utilized to demonstrate that the parapet or appendages are structurally adequate. When found to be deficient because of design or deteriorated condition, the engineer shall prepare specific recommendations to anchor, brace, reinforce or remove the deficient feature.

The maximum height of an unreinforced masonry parapet above the level of the diaphragm tension anchors or above the parapet braces shall not exceed one and one-half times the thickness of the parapet wall. The parapet height may be a maximum of two and one-half times its thickness in other than Seismic Design Categories D, E, or F. If the required parapet height exceeds this maximum height, a bracing system designed using the coefficients specified in ASCE 7-02 Table 9.6.2.2 shall support the top of the parapet. When positive diaphragm connections are absent, tension roof anchors shall be added. Approved alternative methods of equivalent strength will be considered when accompanied by engineer sealed drawings, details and calculations.

(61) The exception in 3409.1 is deleted and replaced with the following:

Exception: Type B dwelling or sleeping units required by section 1107 are not required to be provided in existing buildings and facilities, except when an existing occupancy is changed to R-2.

(62) In Section 3409.3, number 7 is added as follows:

7. When a change of occupancy in a building or portion of a building results in multiple dwelling or sleeping units as determined in section 1107.6.2, not less than 20 percent of the dwelling or sleeping units shall be Type B dwelling or sleeping units. These dwelling or sleeping units may be located on any floor of the building provided with an accessible route. Two percent, but not less than one, of the dwelling or sleeping units shall be Type A dwelling units.

(63) The following referenced standard is added under NFPA in chapter 35:

Number	Title	Referenced in code Section number
720-99	Recommended Practice for the	907.2.10.1,
907.2.10.5	Installation of Household Carbon Monoxide (CO) Warning Equipment	

(64) In Chapter 35, Referenced Standards, the following NFPA referenced standards are deleted and replaced with the current versions as follows:

DELETED	REPLACED BY	TABLE
13 - 99	13 - 02	Installation of Sprinkler Systems
13D - 99	13D - 02	Installation of Sprinkler Systems in One- and Two-family Dwellings and Manufactured Homes
13R - 99	13R - 02	Installation of Sprinkler Systems in Residential Occupancies Up to and Including Four Stories in Height
72 - 99	72 - 02	National Fire Alarm Code
101 - 00	101 - 03	Life Safety Code

R156-56-705. Local Amendments to the IBC.

The following are adopted as amendments to the IBC to be applicable to the following jurisdictions:

(1) City of Farmington:

Section (F)903.2.14 is adopted as follows:

(F)903.2.14 Group R, Division 3 Occupancies. An automatic sprinkler system shall be installed throughout every dwelling in accordance with NFPA 13-D, when any of the following conditions are present:

1. The structure is over two stories high, as defined by the building code;
2. The nearest point of structure is more than 150 feet from the public way;
3. The total floor area of all stories is over 5,000 square feet (excluding from the calculation the area of the basement and/or garage); or
4. The structure is located on a street constructed after March 1, 2000 that has a gradient over 12% and, during fire department response, access to the structure will be gained by using such street. (If the access is intended to be from a direction where the steep gradient is not used, as determined by the Chief, this criteria shall not apply).

Such sprinkler system shall be installed in basements, but need not be installed in garages, under eaves or in enclosed attic spaces, unless required by the Chief.

(2) City of North Salt Lake

Section (F)903.2.14 is adopted as follows:

(F)903.2.14 Group R, Division 3 Occupancies. An automatic sprinkler system shall be installed throughout every dwelling in accordance with NFPA 13-D, when the following condition is present:

1. The structure is over 6,200 square feet.

Such sprinkler system shall be installed in basements, but need not be installed in garages, under eaves, or in enclosed attic spaces, unless required by the fire chief.

(3) Park City Corporation and Park City Fire District:

Section (F)903.2 is deleted and replaced with the following:

(F)903.2 Where required. Approved automatic sprinkler systems in new buildings and structures shall be provided in the location described in this section.

All new construction having more than 6,000 square feet on any one floor, except R-3 occupancy.

All new construction having more than two (2) stories, except R-3 occupancy.

All new construction having three (3) or more dwelling units, including units rented or leased, and including condominiums or other separate ownership.

All new construction in the Historic Commercial Business zone district, regardless of occupancy.

All new construction and buildings in the General Commercial zone district where there are side yard setbacks or where one or more side yard setbacks is less than two and one half (2.5) feet per story of height.

All existing building within the Historic District Commercial Business zone.

In Table 1505.1, the following is added as footnotes d and e:

d. Wood roof covering assemblies are prohibited in R-3 occupancies in areas with a combined rating of more than 11 using Tables 1505.1.1 and 1505.1.2 with a score of 9 for weather factors.

e. Wood roof covering assemblies shall have a Class A rating in occupancies other than R-3 in areas with a combined rating of more than 11 using Tables 1505.1.1 and 1505.1.2 with a score of 9 for weather factors. The owner of the building shall enter into a written and recorded agreement that the Class A rating of the roof covering assembly will not be altered through any type of maintenance process.

TABLE 1505.1.1
WILDFIRE HAZARD SEVERITY SCALE

RATING	SLOPE	VEGETATION
1	less than or equal to 10%	Pinion-juniper
2	10.1 - 20%	Grass-sagebrush
3	greater than 20%	Mountain brush or softwoods

TABLE 1505.1.2
PROHIBITION/ALLOWANCE OF WOOD ROOFING

Rating	R-3 Occupancy	All Other Occupancies
less than or equal to 11	wood roof covering assemblies per Table 1505.1 are allowed	wood roof covering assemblies per Table 1505.1 are allowed
greater than or equal to 12	wood roof covering is prohibited	wood roof covering assemblies with a Class A rating are allowed

Appendix C is adopted.

(4) Sandy City

Section (F)903.2.14 is added as follows:

(F)903.2.14 An automatic sprinkler system shall be installed in accordance with NFPA 13 throughout buildings containing all occupancies where fire flow exceeds 2,000 gallons per minute, based on Table B105.1 of the 2003 International Fire Code. Exempt locations as indicated in Section 903.3.1.1.1 are allowed.

Exception: Automatic fire sprinklers are not required in buildings used solely for worship, Group R Division 3, Group U occupancies and buildings complying with the International Residential Code unless otherwise required by the International Fire Code.

R156-56-706. Statewide Amendments to the NEC.

The following are adopted as amendments to the NEC to be applicable statewide:

R156-56-707. Statewide Amendments to the IPC.

The following are adopted as amendments to the IPC to be applicable statewide:

(1) In Section 202, the definition for "Backflow Backpressure, Low Head" is deleted in its entirety.

(2) In Section 202, the definition for "Backsiphonage" is deleted and replaced with the following:

Backsiphonage. The backflow of potentially contaminated, polluted or used water into the potable water system as a result of the pressure in the potable water system falling below

atmospheric pressure of the plumbing fixtures, pools, tanks or vats connected to the potable water distribution piping.

(3) In Section 202, the following definition is added:

Certified Backflow Preventer Assembly Tester. A person who has shown competence to test Backflow prevention assemblies to the satisfaction of the authority having jurisdiction under Subsection 19-4-104(4), Utah Code Ann. (1953), as amended.

(4) In Section 202, the definition for "Cross Connection" is deleted and replaced with the following:

Cross Connection. Any physical connection or potential connection or arrangement between two otherwise separate piping systems, one of which contains potable water and the other either water of unknown or questionable safety or steam, gas or chemical, whereby there exists the possibility for flow from one system to the other, with the direction of flow depending on the pressure differential between the two systems (see "Backflow").

(5) In Section 202, the following definition is added:

Heat Exchanger (Potable Water). A device to transfer heat between two physically separated fluids (liquid or steam), one of which is potable water.

(6) In Section 202, the definition for "Potable Water" is deleted and replaced with the following:

Potable Water. Water free from impurities present in amounts sufficient to cause disease or harmful physiological effects and conforming to the Titles 19-4 and 19-5, Utah Code Ann. (1953), as amended and the regulations of the public health authority having jurisdiction.

(7) In Section 202, the following definition is added:

S-Trap. A trap having its weir installed above the inlet of the vent connection.

(8) In Section 202, the following definition is added:

Trap Arm. That portion of a fixture drain between a trap weir and the vent fitting.

(9) In Section 202, the definition for "Water Heater" is deleted and replaced with the following:

Water Heater. A closed vessel in which water is heated by the combustion of fuels or electricity and is withdrawn for use external to the system at pressures not exceeding 160 psig (1100 kPa (gage)), including the apparatus by which heat is generated, and all controls and devices necessary to prevent water temperatures from exceeding 210 degrees Fahrenheit (99 degrees Celsius).

(10) Section 304.3 Meter Boxes is deleted.

(11) Section 304.4 is deleted and replaced with the following:

304.4 Opening of Pipes. In or on the exterior habitable envelop of structures where openings have been made in walls, floors, or ceilings for the passage of pipes, the annular space between the opening and the pipe shall not exceed 1/2 inch (12.7 mm). Openings exceeding 1/2 inch (12.7 mm) shall be closed and protected by the installation of approved metal collars that are securely fastened to the adjoining structure.

(12) Section 305.5 is deleted and replaced with the following:

305.5 Pipes through or under footings or foundation walls. Any pipe that passes under or through a footing or through a foundation wall shall be protected against structural settlement.

(13) Section 305.8 is deleted and replaced with the following:

305.8 Protection against physical damage. In concealed locations where piping, other than cast-iron or galvanized steel, is installed through holes or notches in studs, joists, rafters or similar members less than 1 1/2 inches (38 mm) from the nearest edge of the member, the pipe shall be protected by shield plates. Protective shield plates shall be minimum of 1/16 inch-thick (1.6 mm) steel, shall cover the area of the pipe where the member is notched or bored, and shall be at least the thickness

of the framing member penetrated.

(14) Section 305.10 is added as follows:

Section 305.10 Improper Connections. No drain, waste, or vent piping shall be drilled and tapped for the purpose of making connections.

(15) Sections 308.7 and 308.7.1 are deleted and replaced with the following:

308.7 Anchorage. All drainage piping except ABS, PVC, CPVC, PP or any other approved piping material having solvent weld or heat fused joints shall be anchored and restrained to prevent axial movement.

308.7.1 Location. Restraints specified by an engineer and approved by the code official shall be provided for pipe sizes greater than 4 inches (102 mm), having changes in direction greater than 45 degrees and at all changes in diameter greater than two pipe sizes.

(16) Section 311.1 is deleted.

(17) Section 312.9 is deleted in its entirety and replaced with the following:

312.9 Backflow assembly testing. The premise owner or his designee shall have backflow prevention assemblies operation tested at the time of installation, repair and relocation and at least on an annual basis thereafter, or more frequently as required by the authority having jurisdiction. Testing shall be performed by a Certified Backflow Preventer Assembly Tester. The assemblies that are subject to this paragraph are the Spill Resistant Vacuum Breaker, the Pressure Vacuum Breaker Assembly, the Double Check Backflow Prevention Assembly, the Double Check Detector Assembly Backflow Preventer, the Reduced Pressure Principle Backflow Preventer, and Reduced Pressure Detector Assembly.

(18) In Section 403.1, the title for Table 403.1 is deleted and replaced with the following title and footnote f is added as follows: Table 403.1, Minimum Number of Plumbing Facilities^f, (see Sections 403.2 and 403.3).

FOOTNOTE: f. When provided, in public toilet facilities there shall be an equal number of diaper changing facilities in male toilet rooms and female toilet rooms.

(19) In Section 406.3, an exception is added as follows:

Exception: Gravity discharge clothes washers, when properly trapped and vented, shall be allowed to be directly connected to the drainage system or indirectly discharge into a properly sized catch basin, trench drain, or other approved indirect waste receptor installed for the purpose of receiving such waste.

(20) A new section 406.4 is added as follows:

406.4 Automatic clothes washer metal safe pans. Metal safe pans, when installed under automatic clothes washers, shall only be allowed to receive the unintended discharge from a leaking appliance, valve, supply hose, or overflowing waste water from the clothes washer standpipe. Clothes washer metal safe pans shall not be used as indirect waste receptors to receive the discharge of waste water from any other equipment, appliance, appurtenance, drain pipe, etc. Each safe pan shall be provided with an approved trap seal primer, conforming to ASSE 1018 or 1044 or a deep seal trap. The sides of the safe pan shall be no less than 1 1/2" high and shall be soldered at the joints to provide a water tight seal.

406.4.1 Safe pan outlet. The safe pan outlet shall be no less than 1 1/2" in diameter and shall be located in a visible and accessible location to facilitate cleaning and maintenance. The outlet shall be flush with the surface of the pan so as not to allow water retention within the pan.

(21) Section 412.1 is deleted and replaced with the following:

412.1 Approval. Floor drains shall be made of ABS, PVC, cast-iron, stainless steel, brass, or other approved materials that are listed for the use.

(22) Section 412.5 is added as follows:

412.5 Public toilet rooms. All public toilet rooms shall be equipped with at least one floor drain.

(23) Section 417.5.2 is deleted and replaced with the following:

(Subsections 417.5.2.1 to 417.5.2.4 are not changed)

417.5.2 Shower lining. Floors under shower compartments, except where prefabricated receptors have been provided, shall be lined and made water tight utilizing material complying with Sections 417.5.2.1 through 417.5.2.4. Such liners shall turn up on all sides at least three inches (76.2 mm) above the finished threshold level. Liners shall be recessed and fastened to an approved backing so as not to occupy the space required for wall covering, and shall not be nailed or perforated at any point less than two inches (50.8 mm) above finished threshold. Liners shall be pitched one-fourth unit vertical in 12 units horizontal (2-percent slope) and shall be sloped towards the fixture drains and be securely fastened to the waste outlet at the seepage entrance, making a watertight joint between the liner and the outlet.

Exception: Floor surfaces under shower heads provided for rinsing laid directly on the ground are not required to comply with this section. (24) Section 418.1 is deleted and replaced with the following:

418.1 Approval. Sinks shall conform to ANSI Z124.6, ASME A112.19.1M, ASME A112.19.2M, ASME A112.19.3M, ASME A112.19.4M, ASME A112.19.9M, CSA B45.1, CSA B45.2, CSA B45.3, CSA B45.4 or NSF 2.

(25) Section 424.3 is deleted and replaced with the following:

424.5 Shower Valves. Shower and tub-shower combination valves shall be balanced pressure, thermostatic or combination balanced-pressure/thermostatic valves that conform to the requirements of ASSE 1016 or CSA B125. Multiple (gang) showers supplied with a single tempered water supply pipe shall have the water supply for such showers controlled by an approved master thermostatic mixing valve complying with ASSE 1017. Shower and tub-shower combination valves and master thermostatic mixing valves required by this section shall be equipped with a means to limit the maximum setting of the valve to 120 degrees F (49 degrees C), which shall be field adjusted in accordance with the manufacturer's instructions. The water heater thermostat shall not be used as a water tempering device to meet this requirement.

(26) Section 502.4 is deleted and replaced with the following:

502.4 Water Heater Seismic Bracing. Water heaters shall be anchored or strapped in the upper third of the appliance to resist a horizontal force equal to one third the operating weight of the water heater, acting in any horizontal direction, or in accordance with the appliance manufacturers recommendations.

(27) Section 504.6.2 is deleted and replaced with the following:

504.6.2 Material. Relief valve discharge piping shall be of those materials listed in Table 605.5 and meet the requirements for Section 605.5 or shall be tested, rated and approved for such use in accordance with ASME A112.4.1. Piping from safety pan drains shall meet the requirements of Section 804.1 and be constructed of those materials listed in Section 702.

(28) Section 504.7.1 is amended as follows:

The measurement of "3/4 inch" in the last sentence of the paragraph is replaced with the measurement "1 1/2 inch".

(29) Section 504.7.2 is deleted and replaced with the following:

504.7.2 Pan drain termination. The pan drain shall extend full-size and terminate over a suitably located indirect waste receptor, floor drain or extend to the exterior of the building and terminate not less than 6 inches (152 mm) and not more than 24 inches (610 mm) above the adjacent ground surface. When permitted by the administrative authority, the pan drain may be

directly connected to a soil stack, waste stack, or branch drain. The pan drain shall be individually trapped and vented as required in Section 907.1. The pan drain shall not be directly or indirectly connected to any vent. The trap shall be provided with a trap primer conforming to ASSE 1018 or ASSE 1044.

(30) A new section 504.7.3 is added as follows:

504.7.3 Pan Designation. A water heater pan shall be considered an emergency receptor designated to receive the discharge of water from the water heater only and shall not receive the discharge from any other fixtures, devices or equipment.

(31) Section 602.3 is deleted and replaced with the following:

602.3 Individual water supply. Where a potable public water supply is not available, individual sources of potable water supply shall be utilized provided that the source has been developed in accordance with Sections 73-3-1, 73-3-3, and 73-3-25, Utah Code Ann. (1953), as amended, as administered by the Department of Natural Resources, Division of Water Rights. In addition, the quality of the water shall be approved by the local health department having jurisdiction. The source shall supply sufficient quantity of water to comply with the requirements of this chapter.

(32) Sections 602.3.1, 602.3.2, 602.3.3, 602.3.4, 602.3.5 and 602.3.5.1 are deleted in their entirety.

(33) Section 604.4.1 is added as follows:

604.4.1 Metering faucets. Self closing or metering faucets shall provide a flow of water for at least 15 seconds without the need to reactivate the faucet.

(34) Section 606.5 is deleted and replaced with the following:

606.5 Water pressure booster systems. Water pressure booster systems shall be provided as required by Section 606.5.1 through 606.5.11.

(35) Section 606.5.11 is added as follows:

606.5.11 Prohibited installation. In no case shall a booster pump be allowed that will lower the pressure in the public main to less than 20 psi.

(36) In Section 608.1, the following sentence is added at the end of the paragraph:

Connection without an air gap between potable water piping and sewer-connected waste shall not exist under any condition.

(37) Table 608.1 is deleted and replaced with the following:

TABLE 608.1
General Methods of Protection

Assembly (applicable standard)	Degree of Hazard	Application	Installation Criteria
Air Gap (ASME A112.1.2)	High or Low	Backsiphonage	See Table 608.15.1
Reduced Pressure Principle Backflow Preventer (AWWA C511, USC-FCCCHR, ASSE 1013 CSA CNA/CSA-B64.4) and Reduced Pressure Detector Assembly (ASSE 1047, USC-FCCCHR)	High or Low	Backpressure or Backsiphonage	a. The bottom of each RP assembly shall be a minimum of 12 inches above the ground or floor. b. RP assemblies shall NOT be installed in a pit. c. The relief valve on each RP assembly shall not be directly connected to any waste disposal line, including sanitary sewer, storm drains, or vents. d. The assembly shall be installed in a horizontal position only unless listed

Double Check Backflow Prevention Assembly (AWWA C510, USC-FCCCHR, ASSE 1015)	Low	Backsiphonage	a. If installed in a pit, the DC assembly shall be installed with a minimum of 12 inches of clearance between all sides of the vault including the floor and roof or ceiling with adequate room for testing and maintenance. b. Shall be installed in a horizontal position unless listed or approved for vertical installation.
Double Check Detector Assembly Backflow Preventer (ASSE 1048, USC-FCCCHR)	Low	Backsiphonage	a. Shall not be installed in an area that could be subjected to backpressure or back drainage conditions. b. Shall be installed a minimum of 12 inches above all downstream piping and the highest point of use. c. Shall not be installed below ground or in a vault or pit. d. Shall be installed in a vertical position only.
Pressure Vacuum Breaker Assembly (ASSE 1020, USC-FCCCHR)	High or Low	Backsiphonage	a. Shall not be installed in an area that could be subjected to backpressure or back drainage conditions. b. Shall be installed a minimum of 12 inches above all downstream piping and the highest point of use. c. Shall not be installed below ground or in a vault or pit. d. Shall be installed in a vertical position only.
Spill Resistant Vacuum Breaker (ASSE 1056, USC-FCCCHR)	High or Low	Backsiphonage	a. Shall not be installed in an area that could be subjected to backpressure or back drainage conditions. b. Shall be installed a minimum of 12 inches above all downstream piping and the highest point of use. c. Shall not be installed below ground or in a vault or pit. d. Shall be installed in a vertical position only.
Atmospheric Vacuum Breaker (ASSE 1001, USC-FCCCHR, CSA CAN/CSA-B64.1.1)	High or Low	Backsiphonage	a. Shall not be installed in an area that could be subjected to backpressure or back drainage conditions. b. Shall not be installed where it may be subjected to continuous pressure for more than 12 consecutive hours at any time. c. Shall be installed a minimum of six inches above all downstream piping and the highest point of use. d. Shall be installed on the discharge (downstream) side of any valves.

General Installation Criteria

- e. The AVB shall be installed in a vertical position only.
- The assembly owner, when necessary, shall provide devices or structures to facilitate testing, repair, and/or maintenance and to insure the safety of the backflow technician. Assemblies shall not be installed more than five feet off the floor unless a permanent platform is installed.
- The body of the assembly shall not be closer than 12 inches to any wall, ceiling or incumbrance, and shall be accessible for testing, repair and/or maintenance.
- In cold climates, assemblies shall be protected from freezing by a means acceptable to the code official.
- Assemblies shall be maintained as an intact assembly.

instructions and the specific provisions of this chapter.

(39) In Section 608.3.1, the following sentence is added at the end of the paragraph:

All piping and hoses shall be installed below the atmospheric vacuum breaker.

(40) Section 608.7 is deleted in its entirety.

(41) In Section 608.8, the following sentence is added at the end of the paragraph:

In addition each nonpotable water outlet shall be labeled with the words "CAUTION: UNSAFE WATER, DO NOT DRINK".

(42) In Section 608.11, the following sentence is added at the end of the paragraph:

The coating shall conform to NSF Standard 61 and application of the coating shall comply with the manufacturers instructions.

(43) Section 608.13.3 is deleted and replaced with the following:

608.13.3 Backflow preventer with intermediate atmospheric vent. Backflow preventers with intermediate atmospheric vents shall conform to ASSE 1012 or CAS CAN/CAS-B64.3. These devices shall be permitted to be installed on residential boilers only where subject to continuous pressure conditions. The relief opening shall discharge by air gap and shall be prevented from being submerged.

(44) Section 608.13.4 is deleted in its entirety.

(45) Section 608.15.3 is deleted and replaced with the following:

608.15.3 Protection by a backflow preventer with intermediate atmospheric vent. Opening and outlets to residential boilers only shall be protected by a backflow preventer with an intermediate atmospheric vent.

(46) Section 608.15.4 is deleted and replaced with the following:

608.15.4 Protection by a vacuum breaker. Openings and outlets shall be protected by atmospheric-type or pressure-type vacuum breakers. The critical level of the atmospheric vacuum breaker shall be set a minimum of 6 inches (152 mm) above the flood level rim of the fixture or device. The critical level of the pressure vacuum breaker shall be set a minimum of 12 inches (304 mm) above the flood level rim of the fixture or device. Ball cocks shall be set in accordance with Section 425.3.1. Vacuum breakers shall not be installed under exhaust hoods or similar locations that will contain toxic fumes or vapors. Pipe-applied vacuum breakers shall be installed not less than 6 inches (152 mm) above the flood level rim of the fixture, receptor or device served. No valves shall be installed downstream of the atmospheric vacuum breaker.

(47) Section 608.15.4.2 is deleted and replaced with the following:

608.15.4.2 Hose connections. Sillcocks, hose bibbs, wall hydrants and other openings with a hose connection shall be protected by an atmospheric-type or pressure-type vacuum breaker or a permanently attached hose connection vacuum breaker. Add-on-type backflow prevention devices shall be non-removable. In climates where freezing temperatures occur, a listed self-draining frost proof hose bibb with an integral backflow preventer shall be used.

(48) In Section 608.16.2, the first sentence of the paragraph is deleted and replaced as follows:

608.16.2 The potable water supply to the residential boiler shall be equipped with a backflow preventer with an intermediate atmospheric vent complying with ASSE 1012 or CSA CAN/CSA B64.3.

(49) Section 608.16.3 is deleted and replaced with the following:

608.16.3 Heat exchangers. Heat exchangers shall be separated from potable water by double-wall construction. An air gap open to the atmosphere shall be provided between the

(38) Table 608.1.1 is added as follows:

TABLE 608.1.1
Specialty Backflow Devices for low hazard use only

Device	Degree of Hazard	Application	Applicable Standard
Antisiphon-type Water Closet Flush Tank Ball Cock	Low	Backsiphonage	ASSE 1002 CSA CAN/ CSA-B125
Dual check valve Backflow Preventer	Low	Backsiphonage or Backpressure 1/4" - 1"	ASSE 1024
Backflow Preventer with Intermediate Atmospheric Vent	Low Residential Boiler	Backsiphonage or Backpressure 1/4" - 3/4"	ASSE 1012 CSA CAN/ CSA-B64.3
Dual check valve type Backflow Preventer for Carbonated Beverage Dispensers/Post Mix Type	Low	Backsiphonage or Backpressure 1/4" - 3/8"	ASSE 1022
Hose-connection Vacuum Breaker	Low	Backsiphonage 1/2", 3/4", 1"	ASSE 1011 CSA CAN/ CSA-B64.2
Vacuum Breaker Wall Hydrants, Frost-resistant, Automatic Draining Type	Low	Backsiphonage 3/4", 1"	ASSE 1019 CSA CAN/ CSA-B64.2.2
Laboratory Faucet Backflow Preventer	Low	Backsiphonage	ASSE 1035 CSA CAN/ CSA-B64.7
Hose Connection Backflow Preventer	Low	Backsiphonage 1/2" - 1"	ASSE 1052

Installation Guidelines: The above specialty devices shall be installed in accordance with their listing and the manufacturer's

two walls.

Exceptions:

1. Single wall heat exchangers shall be permitted when all of the following conditions are met:

a. It utilizes a heat transfer medium of potable water or contains only substances which are recognized as safe by the United States Food and Drug Administration (FDA);

b. The pressure of the heat transfer medium is maintained less than the normal minimum operating pressure of the potable water system; and

c. The equipment is permanently labeled to indicate only additives recognized as safe by the FDA shall be used.

2. Steam systems that comply with paragraph 1 above.

3. Approved listed electrical drinking water coolers.

(50) In Section 608.16.4.1, add the following exception:

Exception: All class 1 and 2 systems containing chemical additives consisting of strictly glycerine (C.P. or U.S.P. 96.5 percent grade) or propylene glycol shall be protected against backflow with a double check valve assembly. Such systems shall include written certification of the chemical additives at the time of original installation and service or maintenance.

(51) Section 608.16.5 is deleted and replaced with the following:

608.16.5 Connections to lawn irrigation systems. The potable water supply to lawn irrigation systems shall be protected against backflow by an atmospheric-type vacuum breaker, a pressure-type vacuum breaker, or a reduced pressure principle backflow preventer. A valve shall not be installed downstream from an atmospheric vacuum breaker. Where chemicals are introduced into the system, the potable water supply shall be protected against backflow by a reduced pressure principle backflow preventer.

(52) Section 608.16.7 is deleted and replaced with the following:

608.16.7 Chemical dispensers. Where chemical dispensers connect to the water distribution system, the water supply system shall be protected against backflow in accordance with Section 608.13.1, Section 608.13.2, Section 608.13.5, Section 608.13.6 or Section 608.13.8.

(53) Section 608.16.8 is deleted and replaced with the following:

608.16.8 Portable cleaning equipment. Where the portable cleaning equipment connects to the water distribution system, the water supply system shall be protected against backflow in accordance with Section 608.13.1, Section 608.13.2 or Section 608.13.8.

(54) Section 608.16.9 is deleted and replaced with the following:

608.16.9 Dental pump equipment or water syringe. Where dental pumping equipment or water syringes connects to the water distribution system, the water supply system shall be protected against backflow in accordance with Section 608.13.1, Section 608.13.2, Section 608.13.5, Section 608.13.6 or Section 608.13.8.

(55) Section 608.16.10 is added as follows:

608.16.10 Automatic and coin operated car washes. The water supply to an automatic or coin operated car wash shall be protected in accordance with Section 608.13.1 or Section 608.13.2.

(56) Section 608.17 is deleted in its entirety.

(57) Section 701.2 is deleted and replaced with the following:

701.2 Sewer required. Every building in which plumbing fixtures are installed and all premises having drainage piping shall be connected to a public sewer where the sewer is within 300 feet of the property line in accordance with Section 10-8-38, Utah Code Ann., (1953), as amended; or an approved private sewage disposal system in accordance with Rule R317-501 through R317-513 and Rule R317-5, Utah Administrative Code,

as administered by the Department of Environmental Quality, Division of Water Quality.

(58) Section 802.3.2 is deleted in its entirety and replaced with the following:

802.3.2 Open hub waste receptors. Waste receptors for clear water waste shall be permitted in the form of a hub or pipe extending not more than 1/2 inch above a water impervious floor and are not required to have a strainer.

(59) Section 904.1 is deleted and replaced with the following:

904.1 Roof extensions. All open vent pipes that extend through a roof shall be terminated at least 12 inches (304.8 mm) above the roof, except that where a roof is to be used for any purpose other than weather protection, the vent extension shall be run at least 7 feet (2134 mm) above the roof.

(60) In Section 904.6, the following sentence is added at the end of the paragraph:

Vents extending through the wall shall terminate not less than 12 inches from the wall with an elbow pointing downward.

(61) In Section 905.4, the following sentence is added at the end of the paragraph:

Horizontal dry vents below the flood level rim shall be permitted for floor drain and floor sink installations when installed in accordance with Sections 702.2, 905.2 and 905.3 and provided with a wall clean out.

(62) Section 1002.2 is deleted and replaced with the following:

1002.2 Design of traps. Fixture traps shall be self-scouring. Fixture traps shall not have interior partitions, except where such traps are integral with the fixture or where such traps are constructed of an approved material that is resistant to corrosion and degradation. Slip joints shall be made with an approved elastomeric gasket and shall only be installed on the trap inlet, trap outlet and within the trap seal. One slip joint fitting shall be allowed to be installed downstream of the trap.

(63) Section 1002.8 is deleted and replaced with the following:

1002.8 Recess for trap connection. A recess provided for connection of the underground trap, such as one serving a bathtub in slab-type construction, shall have sides and a bottom of corrosion-resistant, insect- and vermin-proof construction. The annular space between the pipe and the penetration shall not exceed 1/2 inch (12.7 mm).

(64) Section 1003.3.5 is added as follows:

1003.3.5 Grease trap restriction. Unless specifically required or permitted by the code official, no food waste grinder or dishwasher shall be connected to or discharge into any grease trap.

(65) Section 1104.2 is deleted and replaced with the following:

1104.2 Combining storm and sanitary drainage prohibited. The combining of sanitary and storm drainage systems is prohibited.

(66) Section 1108 is deleted in its entirety.

(67) Chapter 13, Referenced Standards, is amended as follows:

NSF - Standard Reference Number 61-99 - The following referenced in code section number is added: 608.11

The following reference standard is added:

(68) Appendix C of the IPC, Gray Water Recycling

Systems as amended herein shall not be adopted by any local jurisdiction until such jurisdiction has requested Appendix C as amended to be adopted as a local amendment and such local amendment has been approved as a local amendment under these rules.

(69) In jurisdictions which have adopted Appendix C as amended as a local amendment as provided herein, Section 301.3 of the IPC is deleted and replaced with the following:

301.3 Connection to the drainage system. All plumbing fixtures, drains, appurtenances and appliances used to receive or discharge liquid wastes or sewage shall be directly connected to the drainage system of the building or premises, in accordance with the requirements of this Code. This section shall not be construed to prevent indirect waste systems provided for in Chapter 8.

Exception: Bathtubs, showers, lavatories, clothes washers and laundry sinks shall not be required to discharge to the sanitary drainage system where such fixtures discharge to a gray water recycling system meeting all the requirements as specified in Appendix C as amended by these rules.

(70) Appendix C is deleted and replaced with the following, to be effective only in jurisdictions which have adopted Appendix C as amended as a local amendment under these rules:

Appendix C, Gray Water Recycling Systems, C101 Gray Water Recycling Systems

C101.1 General, recycling gray water within a building. In R1, R2 and R4 occupancies and one- and two-family dwellings, gray water recycling systems are prohibited.

In commercial occupancies, recycled gray water shall only be utilized for the flushing of water closets and urinals that are located in the same building as the gray water recycling system, provided the following conditions are met:

1. Such systems comply with Sections C101.1 through C101.14 as amended by these rules.

2. The commercial establishment demonstrates that it has and will have qualified staff to oversee the gray water recycling systems. Qualified staff is defined as level 3 waste water treatment plan operator as specified by the Department of Environmental Quality.

3. Gray water recycling systems shall only receive non hazardous waste discharge of bathtubs, showers, lavatories, clothes washers and laundry sinks such as chemicals having a pH of 6.0 to 9.0, or non flammable or non combustible liquids, liquids without objectionable odors, non-highly pigmented liquids, or other liquids that will not interfere with the operation of the sewer treatment facilities.

C101.2 Permit required. A permit for any gray water recycling system shall not be issued until complete plans prepared by a licensed engineer, with appropriate data satisfactory to the Code Official, have been submitted and approved. No changes or connections shall be made to either the gray water recycling system or the potable water system within any site containing a gray water recycling system, without prior approved by the Code Official. A permit may also be required by the local health department to monitor compliance with this appendix for system operator standards and record keeping.

C101.3 Definition. The following term shall have the meaning shown herein.

GRAY WATER. Waste water discharged from lavatories, bathtubs, showers, clothes washers and laundry sinks.

C101.4 Installation. All drain, waste and vent piping associated with gray water recycling systems shall be installed in full compliance with this code.

C101.5 Gray Water Reservoir. Gray water shall be collected in an approved reservoir construction of durable, nonabsorbent and corrosion-resistant materials. The reservoir shall be a closed and gas-tight vessel. Gas tight access openings

shall be provided to allow inspection and cleaning of the reservoir interior. The holding capacity of the reservoir shall be a minimum of twice the volume of water required to meet the daily flushing requirements of the fixtures supplied by the gray water, but not less than 50 gallons (189 L). The reservoir shall be sized to limit the retention time of gray water to 72 hours maximum.

C101.6 Filtration. Gray water entering the reservoir shall pass through an approved cartridge filter or other method approved by the Code Official.

C101.7 Disinfection. Gray water shall be disinfected by an approved method that employs one or more disinfectants such as chlorine, iodine or ozone. A minimum of 1 ppm free residual chlorine shall be maintained in the gray water recycling system reservoir. Such disinfectant shall be automatically dispensed. An alarm shall be provided to shut down the gray water recycling system if disinfectant levels are not maintained at the required levels.

C101.8 Makeup water. Potable water shall be supplied as a source of makeup water for the gray water recycling system. The potable water supply to any building with a gray water recycling system shall be protected against backflow by an RP backflow assembly installed in accordance with this code. There shall be full-open valve on the makeup water supply to the reservoir. The potable water supply to the gray water reservoir shall be protected by an air gap installed in accordance with this code.

C101.9 Overflow. The reservoir shall be equipped with an overflow pipe of the same diameter as the influent pipe for the gray water. The overflow shall be directly connected to the sanitary drainage system.

C101.10 Drain. A drain shall be located at the lowest point of the reservoir and shall be directly connected to the sanitary drainage system. The drain shall be the same diameter as the overflow pipe required by Section C101.9 and shall be provided with a full-open valve.

C101.11 Vent required. The reservoir shall be provided with a vent sized in accordance with Chapter 9 based on the size of the reservoir influent pipe.

C101.12 Coloring. The gray water shall be automatically dyed blue or green with a food grade vegetable dye before such water is supplied to the fixtures.

C101.13 Identification. All gray water distribution piping and reservoirs shall be identified as containing non-potable water. Gray water recycling system piping shall be permanently colored purple or continuously wrapped with purple-colored Mylar tape. The tape or permanently colored piping shall be imprinted in black, upper case letters with the words "CAUTION: GRAY WATER, DO NOT DRINK."

All equipment areas and rooms for gray water recycling system equipment shall have a sign posted in a conspicuous place with the following text: TO CONSERVE WATER, THIS BUILDING USES GRAY WATER TO FLUSH TOILETS AND URINALS, DO NOT CONNECT TO THE POTABLE WATER SYSTEM. The location of the signage shall be determined by the Code Official.

C101.14 Removal from service. All gray water recycling systems that are removed from service shall have all connections to the reservoir capped and routed back to the building sewer. All gray water distribution lines shall be replaced with new materials.

C201.1 Outside the building. Gray water reused outside the building shall comply with the requirements of the Department of Environmental Quality Rule R317.

R156-56-708. Statewide Amendments to the IMC.

The following are adopted as amendments to the IMC to be applicable statewide:

R156-56-709. Statewide Amendments to the IFGC.

The following are adopted as amendments to the IFGC to be applicable statewide:

(1) The following paragraph is added at the end of Section 305.1

305.1 General. After natural gas, space and water heating appliances have been adjusted for altitude and the Btu content of the natural gas, the installer shall apply a sticker in a visible location indicating that the proper adjustments to such appliances have been made. The adjustments for altitude and the Btu content of the natural gas shall be done in accordance with the manufacturer's installation instructions and the gas utility's approved practices.

(2) Chapter 4, Section 401 General, a new section 401.9 is added as follows:

401.9 Meter protection. Gas meters shall be protected from physical damage, including falling ice and snow.

R156-56-710. Statewide Amendments to the IECC.

The following are adopted as amendments to the IECC to be applicable statewide:

(1) In Section 504.7, the following exception is added:

Exception: Heat traps, other than the arrangement of piping and fittings, shall be prohibited unless a means of controlling thermal expansion can be ensured as required in the IPC Section 607.3.

R156-56-711. Statewide Amendments to the IRC.

The following are adopted as amendments to the IRC to be applicable statewide:

(1) All amendments to the IBC under Section R156-56-704, local amendments under Section R156-56-705, the NEC under Section R156-56-706, the IPC under Section R156-56-707, the IMC under Section R156-56-708, the IFGC under Section R156-56-709 and the IECC under Section R156-56-710 which may be applied to detached one and two family dwellings and multiple single family dwellings shall be applicable to the corresponding provisions of the IRC. All references to the International Electrical Code are deleted and replaced with the National Electrical Code adopted under Section R156-56-701(1)(b). Should there be any conflicts between the NEC and the IRC, the NEC shall prevail.

(2) In Section 109, a new section is added as follows:

R109.1.5 Weather-resistive barrier and flashing inspections. An inspection shall be made of the weather-resistive barrier as required by Section R703.1 and flashings as required by Section R703.8 to prevent water from entering the weather-resistant exterior wall envelope.

The remaining sections are renumbered as follows:

R109.1.6 Other inspections

R109.1.6.1 Fire-resistance-rated construction inspection

R109.1.7 Final inspection.

(3) Section R114.1 is deleted and replaced with the following:

R114.1 Notice to owner. Upon notice from the building official that work on any building or structured is being prosecuted contrary to the provisions of this code or other pertinent laws or ordinances or in an unsafe and dangerous manner, such work shall be immediately stopped. The stop work order shall be in writing and shall be given to the owner of the property involved, or to the owner's agent or to the person doing the work; and shall state the conditions under which work will be permitted to resume.

(4) In Section R202, the definition of "Backsiphonage" is deleted and replaced with the following:

BACKSIPHONAGE: The backflow of potentially contaminated, polluted or used water into the potable water system as a result of the pressure in the potable water system falling below atmospheric pressure of the plumbing fixtures,

pools, tanks or vats connected to the potable water distribution piping.

(5) In Section R202 the following definition is added:

CERTIFIED BACKFLOW PREVENTER ASSEMBLY TESTER: A person who has shown competence to test Backflow prevention assemblies to the satisfaction of the authority having jurisdiction under Subsection 19-4-104(4), Utah Code Ann. (1953), as amended.

(6) In Section R202 the definition of "Cross Connection" is deleted and replaced with the following:

CROSS CONNECTION. Any physical connection or potential connection or arrangement between two otherwise separate piping systems, one of which contains potable water and the other either water of unknown or questionable safety or steam, gas or chemical, whereby there exists the possibility for flow from one system to the other, with the direction of flow depending on the pressure differential between the two systems(see "Backflow, Water Distribution").

(7) In Section R202 the following definition is added:

HEAT exchanger (Potable Water). A device to transfer heat between two physically separated fluids (liquid or steam), one of which is potable water.

(8) In Section R202 the definition of "Potable Water" is deleted and replaced with the following:

POTABLE WATER. Water free from impurities present in amounts sufficient to cause disease or harmful physiological effects and conforming to the Titles 19-4 and 19-5, Utah Code Ann. (1953), as amended and the regulations of the public health authority having jurisdiction.

(9) In Section R202, the following definition is added:

S-Trap. A trap having it's weir installed above the inlet of the vent connection.

(10) In Section R202 the definition of "Water Heater" is deleted and replaced with the following:

WATER HEATER. A closed vessel in which water is heated by the combustion of fuels or electricity and is withdrawn for use externally to the system at pressures not exceeding 160 psig (1100 kPa (gage)), including the apparatus by which heat is generated, and all controls and devices necessary to prevent water temperatures from exceeding 210 degrees Fahrenheit (99 degrees Celsius).

(11) Section R301.5 is deleted and replaced with the following:

R301.5 Live Load. The minimum uniformly distributed live load shall be as provided in Table R301.5.

TABLE R301.5
MINIMUM UNIFORMLY DISTRIBUTED LIVE LOADS
(in pounds per square foot)

USE	LIVE LOAD
Attics with storage (b), (e)	20
Attics without storage (b), (e), (g)	10
Decks (f)	60
Exterior balconies	60
Fire escapes	40
Guardrails and handrails (d)	200
Guardrails in-fill components (f)	50
Passenger vehicle garages (a)	50(a)
Rooms other than sleeping rooms	40
Sleeping rooms	30
Stairs	40(c)

For SI: 1 pound per square foot = 0.0479kN/m², 1 square inch = 645 mm² 1 pound = 4.45N.

(a) Elevated garage floors shall be capable of supporting a 2,000-pound load applied over a 20-square-inch area.

(b) No storage with roof slope not over 3 units in 12 units.

(c) Individual stair treads shall be designed for the uniformly distributed live load or a 300-pound concentrated load acting over an area of 4 square inches, whichever produces the greater stresses.

(d) A single concentrated load applied in any direction at

any point along the top.

(e) Attics constructed with wood trusses shall be designated in accordance with Section R802.10.1.

(f) See Section R502.2.1 for decks attached to exterior walls.

(g) This live load need not be considered as acting simultaneously with other live loads imposed upon the ceiling framing or its supporting structure.

(12) Section R304.3 is deleted and replaced with the following:

R304.3 Minimum dimensions. Habitable rooms shall not be less than 7 feet (2134 mm) in any horizontal dimension.

Exception: Kitchens shall have a clear passageway of not less than 3 feet (914 mm) between counter fronts and appliances or counter fronts and walls.

(13) Section R311.5.3 is deleted and replaced with the following:

R311.5.3 Stair treads and risers.

R311.5.3.1 Riser height. The maximum riser height shall be 8 inches (203 mm). The riser shall be measured vertically between leading edges of the adjacent treads. The greatest riser height within any flight of stairs shall not exceed the smallest by more than 3/8 inch (9.5 mm).

R311.5.3.2 Tread depth. The minimum tread depth shall be 9 inches (228 mm). The tread depth shall be measured horizontally between the vertical planes of the foremost projection of adjacent treads and at a right angle to the tread's leading edge. The greatest tread depth within any flight of stairs shall not exceed the smallest by more than 3/8 inch (9.5 mm). Winder treads shall have a minimum tread depth of 10 inches (254 mm) measured as above at a point 12 inches (305 mm) from the side where the treads are narrower. Winder treads shall have a minimum tread depth of 6 inches (152 mm) at any point. Within any flight of stairs, the greatest winder tread depth at the 12 inch (305 mm) walk line shall not exceed the smallest by more than 3/8 inch (9.5 mm).

R311.5.3.3 Profile. The radius of curvature at the leading edge of the tread shall be no greater than 9/16 inch (14.3 mm). A nosing not less than 3/4 inch (19 mm) but not more than 1 1/4 inches (32 mm) shall be provided on stairways with solid risers. The greatest nosing projection shall not exceed the smallest nosing projection by more than 3/8 inches (9.5 mm) between two stories, including the nosing at the level of floors and landings. Beveling of nosing shall not exceed 1/2 inch (12.7 mm). Risers shall be vertical or sloped from the underside of the leading edge of the tread above at an angle not more than 30 degrees (0.51 rad) from the vertical. Open risers are permitted, provided that the opening between treads does not permit the passage of a 4-inch diameter (102 mm) sphere.

Exceptions.

1. A nosing is not required where the tread depth is a minimum of 10 inches (254 mm).

2. The opening between adjacent treads is not limited on stairs with a total rise of 30 inches (762 mm) or less.

(14) Section R311.5.6 is deleted and replaced with the following:

R311.5.6 Handrails. Handrails shall be provided on at least one side of stairways consisting of four or more risers. Handrails shall have a minimum height of 34 inches (864 mm) and a maximum height of 38 inches (965 mm) measured vertically from the nosing of the treads. All required handrails shall be continuous the full length of the stairs from a point directly above the top riser to a point directly above the lowest riser of the stairway. The ends of the handrail shall be returned into a wall or shall terminate in newel post or safety terminals. A minimum clear space of 1 1/2 inches (38 mm) shall be provided between the wall and the handrail.

Exceptions:

1. Handrails shall be permitted to be interrupted by a

newel post at a turn.

2. The use of a volute, turnout or starting easing shall be allowed over the lowest tread.

(15) Section R311.5.6.3 is deleted and replaced with the following:

R311.5.6.3 Handrail grip size. The handgrip portion of handrails shall have a circular cross section of 1 1/4 inches (32mm) minimum to 2 5/8 inches (67mm) maximum. Edges shall have a minimum radius of 1/8 inch (3.2mm).

Exception: Non-circular handrails shall be permitted to have a maximum cross sectional dimension of 3.25 inches (83mm) measured 2 inches (51 mm) down from the top of the crown. Such handrail is required to have an indentation on both sides between 0.625 inch (16mm) and 1.5 inches (38mm) down from the top or crown of the cross section. The indentation shall be a minimum of 0.25 inch (6mm) deep on each side and shall be at least 0.5 inch (13 mm) high. Edges within the handgrip shall have a minimum radius of 0.0625 inch (2 mm). The handrail surface shall be smooth with no cusps so as to avoid catching clothing or skin.

(16) Section R313 is deleted and replaced with the following:

R313.1 Single- and multiple-station smoke alarms. Single- and multiple-station smoke alarms shall be installed in the following locations:

1. In each sleeping room.

2. Outside of each separate sleeping area in the immediate vicinity of the bedrooms.

3. On each additional story of the dwelling, including basements and cellars but not including crawl spaces and uninhabitable attics. In dwellings or dwelling units with split levels and without an intervening door between the adjacent levels, a smoke alarm installed on the upper level shall suffice for the adjacent lower level provided that the lower level is less than one full story below the upper level.

All smoke alarms shall be listed and installed in accordance with the provisions of this code and the household fire warning equipment provision of NFPA 72.

R313.2 Carbon monoxide alarms. In new residential structures regulated by this code that are equipped with fuel burning appliances, carbon monoxide alarms shall be installed on each habitable level. All carbon monoxide detectors shall be listed and comply with U.L. 2034 and shall be installed in accordance with provisions of this code and NFPA 720.

R313.3 Interconnection of alarms. When multiple alarms are required to be installed within an individual dwelling unit, the alarm devices shall be interconnected in such a manner that the activation of one alarm will activate all of the alarms in the individual unit. The alarm shall be clearly audible in all bedrooms over background noise levels with all intervening doors closed. Approved combination smoke- and carbon-monoxide detectors shall be permitted.

R313.4 Power source. In new construction, the required alarms shall receive their primary power from the building wiring when such wiring is served from a commercial source, and when primary power is interrupted, shall receive power from a battery. Wiring shall be permanent and without a disconnecting switch other than those required for overcurrent protection. Alarms shall be permitted to be battery operated when installed in buildings without commercial power or in buildings that undergo alterations, repairs, or additions regulated by Section R313.5

R313.5 Alterations, repairs and additions. When interior alterations, repairs or additions requiring a permit occur, or when one or more sleeping rooms are added or created in existing dwellings, the individual dwelling unit shall be provided with alarms located as required for new dwellings; the alarms shall be interconnected and hard wired.

Exceptions:

1. Alarms in existing areas shall not be required to be interconnected and hard wired where the alterations or repairs do not result in the removal of interior wall or ceiling finishes exposing the structure, unless there is an attic, crawl space, or basement available which could provide access for hard wiring and interconnection without the removal of interior finishes.

2. Repairs to the exterior surfaces of dwellings are exempt from the requirements of this section.

(17) In Section 317.3.2 Exception 1.1 is deleted and replaced with the following:

1.1 By a horizontal distance of not less than the width of a stud space regardless of stud spacing, or

(18) In Section R403.1.4.1 exception 1 is deleted and replaced with the following:

1. Freestanding accessory structures, not intended for human occupancy, with an area of 1,000 square feet (93m²) or less, of wood framed construction, with an eave height of 10 feet (3048 mm) or less shall not be required to be protected.

(19) In Section R403.1.6 the exception is deleted and replaced with the following exceptions:

Exceptions:

1. Foundation anchor straps, spaced as required to provide equivalent anchorage to 1/2 inch diameter (12.7 mm) anchor bolts.

2. When anchor bolt spacing does not exceed 32 inches (813 mm) apart, anchor bolts may be placed with a minimum of two bolts per plate section located not less than 4 inches (102 mm) from each end of each plate section at interior bearing walls, interior braced wall lines and at all exterior walls.

(20) In Section R403.1.6.1 the following exception is added at the end of Item 2 and Item 3:

Exception: When anchor bolt spacing does not exceed 32 inches (816 mm) apart, anchor bolts may be placed with a minimum of two bolts per plate section located not less than 4 inches (102 mm) from each end of each plate section at interior bearing walls, interior braced wall lines and at all exterior walls.

(21) Section R703.6 is deleted and replaced with the following:

R703.6 Exterior plaster.

R703.6.1 Lath. All lath and lath attachments shall be of corrosion-resistant materials. Expanded metal or woven wire lath shall be attached with 1 1/2 inch-long (38 mm), 11 gage nails having 7/16 inch (11.1 mm) head, or 7/8-inch-long (22.2 mm), 16 gage staples, spaced at no more than 6 inches (152 mm), or as otherwise approved.

R703.6.2 Weather-resistant barriers. Weather-resistant barriers shall be installed as required in Section R703.2 and, where applied over wood-based sheathing, shall include a weather-resistive vapor permeable barrier with a performance at least equivalent to two layers of Grade D paper.

R703.6.3 Plaster. Plastering with portland cement plaster shall be not less than three coats when applied over metal lath or wire lath and shall be not less than two coats when applied over masonry, concrete or gypsum backing. If the plaster surface is completely covered by veneer or other facing material or is completed concealed, plaster application need be only two coats, provided the total thickness is as set forth in Table R702.1(1). On wood-frame construction with an on-grade floor slab system, exterior plaster shall be applied in such a manner as to cover, but not extend below, lath, paper and screed.

The proportion of aggregate to cementitious materials shall be as set forth in Table R702.1(3).

(22) In Section R703.8, number 8 is added as follows:

8. At the intersection of foundation to stucco, masonry, siding, or brick veneer with an approved corrosive-resistance flashing with a 1/2" drip leg extending past exterior side of the foundation.

(23) A new Section G2401.2 is added as follows:

G2401.2 Meter Protection. Gas meters shall be protected

from physical damage, including falling ice and snow.

(24) Section P2602.3 is added as follows:

P2602.3 Individual water supply. Where a potable public water supply is not available, individual sources of potable water supply shall be utilized provided that the source has been developed in accordance with Sections 73-3-1 and 73-3-25, Utah Code Ann. (1953), as amended, as administered by the Department of Natural Resources, Division of Water Rights. In addition, the quality of the water shall be approved by the local health department having jurisdiction.

(25) Section P2602.4 is added as follows:

P2602.4 Sewer required. Every building in which plumbing fixtures are installed and all premises having drainage piping shall be connected to a public sewer where the sewer is within 300 feet of the property line in accordance with Section 10-8-38, Utah Code Ann, (1953), as amended; or an approved private sewage disposal system in accordance with Rule R317-501 through R317-513 and Rule R317-5, Utah Administrative Code, as administered by the Department of Environmental Quality, Division of Water Quality.

(26) Section P2603.2.1 is deleted and replaced with the following:

P2603.2.1 Protection against physical damage. In concealed locations where piping, other than cast-iron or galvanized steel, is installed through holes or notches in studs, joists, rafters, or similar members less than 1 1/2 inch (38 mm) from the nearest edge of the member, the pipe shall be protected by shield plates. Protective shield plates shall be a minimum of 1/16 inch-thick (1.6 mm) steel, shall cover the area of the pipe where the member is notched or bored, and shall be at least the thickness of the framing member penetrated.

(27) Section P2801.2.1 is added as follows:

P2801.2.1 Water heater seismic bracing. In Seismic Design Categories C, D₁ and D₂, water heaters shall be anchored or strapped in the upper third of the appliance to resist a horizontal force equal to one third the operating weight of the water heater, acting in any horizontal direction, or in accordance with the appliance manufacturers recommendations.

(28) Section P2902.1.1 is added as follows:

P2902.1.1 Backflow assembly testing. The premise owner or his designee shall have backflow prevention assemblies operation tested at the time of installation, repair and relocation and at least on an annual basis thereafter, or more frequently as required by the authority having jurisdiction. Testing shall be performed by a Certified Backflow Preventer Assembly Tester. The assemblies that are subject to this paragraph are the Spill Resistant Vacuum Breaker, the Pressure Vacuum Breaker Assembly, the Double Check Backflow Prevention Assembly, the Double Check Detector Assembly Backflow Preventer, the Reduced Pressure Principle Backflow Preventer, and Reduced Pressure Detector Assembly.

(29) Section P3003.2.1 is added as follows:

Section P3003.2.1 Improper Connections. No drain, waste, or vent piping shall be drilled and tapped for the purpose of making connections.

(30) In Section P3103.6, the following sentence is added at the end of the paragraph:

Vents extending through the wall shall terminate not less than 12 inches from the wall with an elbow pointing downward.

(31) In Section P3104.4, the following sentence is added at the end of the paragraph:

Horizontal dry vents below the flood level rim shall be permitted for floor drain and floor sink installations when installed below grade in accordance with Chapter 30, and Sections P3104.2 and P3104.3. A wall cleanout shall be provided in the vertical vent.

(32) Chapter 43, Referenced Standards, is amended as follows:

The following reference standard is added:

TABLE

USC- FCCCHR 9th Edition Manual of Cross Connection Control	Foundation for Cross-Connection Control and Hydraulic Research University of Southern California Kaprielian Hall 300 Los Angeles CA 90089-2531	Section P2902
---	--	---------------

(33) In Chapter 43, the following standard is added under NFPA as follows:

TABLE

720-98	Recommended Practice for the Installation of Household Carbon Monoxide (CO) Warning Equipment	R313.2
--------	---	--------

R156-56-712. Local Amendments to the IRC.

The following are adopted as amendments to the IRC to be applicable to the following jurisdictions:

(1) City of Farmington:

Sections R324.1 and R324.2 are added as follows:

R324.1 When required. An automatic sprinkler system shall be installed throughout every dwelling in accordance with NFPA 13-D, when any of the following conditions are present:

1. the structure is over two stories high, as defined by the building code;
2. the nearest point of structure is more than 150 feet from the public way;
3. the total floor area of all stories is over 5,000 square feet (excluding from the calculation the area of the basement and/or garage); or
4. the structure is located on a street constructed after March 1, 2000 that has a gradient over 12% and, during fire department response, access to the structure will be gained by using such street. (If the access is intended to be from a direction where the steep gradient is not used, as determined by the Chief, this criteria shall not apply).

R324.2 Installation requirements and standards. Such sprinkler system shall be installed in basements, but need not be installed in garages, under eaves or in enclosed attic spaces, unless required by the Chief. Such system shall be installed in accordance with NFPA 13-D.

(2) Morgan City Corp:

Section R105.2 Work Exempt From Permit, the following is added:

10. Structures intended to house farm animals, or for the storage of feed associated with said farm animals when all the following criteria is met:

- a. The parcel of property involved is zoned for the keeping of farm animals or has grand fathered animal rights.
- b. The structure is setback not less than 50 feet from the rear or side of dwellings, and not less than 10 feet from property lines and other structures.

c. The structure does not exceed 1000 square feet of floor area, and is limited to 20 feet in height. Height is measured from the average grade to the highest point of the structure.

d. Before construction, a site plan is submitted to, and approved by the building official.

Electrical, plumbing, and mechanical permits shall be required when that work is included in the structure.

(3) Morgan County:

Section R105.2 Work Exempt From Permit, the following is added:

10. Structures intended to house farm animals, or for the storage of feed associated with said farm animals when all the following criteria is met:

- a. The parcel of property involved is zoned for the keeping of farm animals or has grand fathered animal rights.
- b. The structure is set back not less than required by the

Morgan County Zoning Ordinance for such structures, but not less than 10 feet from property lines and other structures.

c. The structure does not exceed 1000 square feet of floor area, and is limited to 20 feet in height. Height is measured from the average grade to the highest point of the structure.

d. Before construction, a Land Use Permit must be applied for, and approved, by the Morgan County Planning and Zoning Department.

Electrical, plumbing, and mechanical permits shall be required when that work is included in the structure.

(4) City of North Salt Lake:

Sections R324.1 and R324.2 are added as follows:

R324.1 When Required. An automatic sprinkler system shall be installed throughout every dwelling when the following condition is present:

1. The structure is over 6,200 square feet.

R324.2 Installation requirements and standards. Such sprinkler system shall be installed in basements, but need not be installed in garages, under eaves, or in enclosed attic spaces, unless required by the fire chief. Such system shall be installed in accordance with NFPA 13-D.

(5) Park City Corporation and Park City Fire District:

Section R905.7 is deleted and replaced with the following:

R905.7 Wood shingles. The installation of wood shingles shall comply with the provisions of this section.

Wood roof covering is prohibited in areas with a combined rating of more than 11 using the following tables with a score of 9 for weather factors.

TABLE
WILDFIRE HAZARD SEVERITY SCALE

RATING	SLOPE	VEGETATION
1	less than or equal to 10%	Pinion-juniper
2	10.1 - 20%	Grass-sagebrush
3	greater than 20%	Mountain brush or softwoods

PROHIBITION/EXEMPTION TABLE

RATING	WOOD ROOF PROHIBITION
less than or equal to 11	wood roofs are allowed
greater than or equal to 12	wood roofs are prohibited

Section R905.8 is deleted and replaced with the following:

R905.8 Wood Shakes. The installation of wood shakes shall comply with the provisions of this section. Wood roof covering is prohibited in areas with a combined rating of more than 11 using the following tables with a score of 9 for weather factors.

TABLE
WILDFIRE HAZARD SEVERITY SCALE

RATING	SLOPE	VEGETATION
1	less than or equal to 10%	Pinion-juniper
2	10.1 - 20%	Grass-sagebrush
3	greater than 20%	Mountain brush or softwoods

PROHIBITION/EXEMPTION TABLE

RATING	WOOD ROOF PROHIBITION
less than or equal to 11	wood roofs are allowed
greater than or equal to 12	wood roofs are prohibited

Appendix K is adopted.

Reserved.

R156-74-103. Authority.

These rules are adopted by the division under the authority of Subsection 58-1-106(1)(a) to enable the division to administer Title 58, Chapter 74.

R156-74-104. Organization - Relationship to Rule R156-1.

The organization of this rule and its relationship to Rule R156-1 is as described in Section R156-1-307.

R156-74-303. Renewal Cycle - Procedure.

(1) In accordance with Subsection 58-1-308(1), the renewal date for the two-year renewal cycle applicable to licensees under Title 58, Chapter 74 is established by rule in Section 58-1-308.

(2) Renewal procedures shall be in accordance with Section R156-1-308.

R156-74-304. Continuing Education.

(1) In accordance with Subsection 58-74-303(2), the standards for the continuing education requirement for renewal of a certified court reporter shorthand reporter license shall be the standards established by the National Court Reporters Association, Council of the Academy of Professional Reporters Continuing Education Program, revised October 1, 1998, which is hereby adopted and incorporated by reference.

(2) In accordance with Subsection 58-74-303(2), the requirements and standards for the continuing education requirement for renewal of a certified court reporter voice reporter license shall be the standards established by the National Verbatim Reporters Association, Council of the Academy of Professional Reporters Continuing Education Program, effective January 1, 2006, which is hereby adopted and incorporated by reference.

R235. Community and Culture, Olene Walker Housing Loan Fund.**R235-1. Olene Walker Housing Loan Fund (OWHLF).****R235-1-1. Authority.**

(1) Pursuant to Section 9-4-701 et seq., Utah Code, the Olene Walker Housing Loan Fund Board (OWHLF) determines how federal and state monies deposited to the fund shall be allocated and distributed.

(2) An Allocation Plan governs the allocation and distribution of funds. The Allocation Plan may be amended from time to time as new guidelines and regulations are issued or as the Board deems necessary to carry out the goals of the OWHLF.

R235-1-2. Purpose.

(1) Pursuant to Subsection 9-4-702(1)(a), the Division of Housing and Community Development (HCD) shall administer the OWHLF as the designee of the executive director of the Department of Community and Culture (DCC).

(2) The objective of the OWHLF is to develop housing that is affordable to very low, low and moderate-income persons through a fair and competitive process.

(3) In administering this fund, this rule incorporates by reference 24 CFR 84-85 as authorized under Utah Code Annotated Section 9-4-703 through 708.

R235-1-3. Definitions.

In addition to terms defined in Section 9-4-701:

(1) "Application" means the form provided and required by HCD to be submitted to request funds from the OWHLF.

(2) "Board" means the Olene Walker Housing Loan Fund Board.

(3) "BRC" means a Board Review Committee(s), consisting of members selected by the Board.

(4) "Consolidated Plan" means a plan of up to five years in length that describes community needs, resources, priorities and proposed activities to be undertaken under certain HUD programs, including Community Development Block Grant (CDBG), HOME, Emergency Shelter Grant and Housing Opportunities for Persons with AIDS (HOPWA).

(5) "Subsidy-layering" means an evaluation of the project conducted by HCD staff to ensure that the lowest amount of HOME funds necessary to provide affordable housing are invested in the project.

(6) "HOME, CDBG, or HOPWA" means HUD programs that provide funds for housing and community needs.

(7) "Affordable Housing" means assisting persons at or below 80% of area median income (as defined by HUD) to find decent, and safe housing at a reasonable cost.

(8) "Loan" means funds provided with the requirement of repayment of principal and interest over a fixed period of time.

(9) "Grant" means funds provided with no requirement or expectation of repayment.

(10) "Local Agency" means public housing authorities, counties, cities, towns, and association of governments.

(11) "Funding Cycle" means period of time in which OWHLF funds are allocated.

(12) "Allocation Plan" means an annual plan that describes housing needs, priorities, funding sources, and the process and policies to request funds from the OWHLF.

R235-1-4. Applicant and Project Eligibility.

(1) The Board shall consider for funding, only those applications submitted by an eligible applicant as defined in Section 9-4-706, Utah Code.

(2) The Board shall consider for funding only those eligible projects as defined in Section 9-4-705, Utah Code and meet one or more of the following priorities established by the Board:

(a) Efficiently utilize funds, through cost containment and resource leveraging,

(b) Provide that largest numbers of units shall charge the lowest monthly rental amount at levels that are attainable over the longest periods of time,

(c) Provide the most equitable geographic distribution of resources,

(d) Provide housing for special-needs populations including: (i) transitional housing, (ii) elderly and frail elderly housing, and (iii) housing for physically and mentally disabled persons,

(e) Strengthen and expand the abilities of local governments, non-profits organizations and for-profit organizations to provide affordable housing,

(f) Assist various Community Housing Development Organizations (CHDO) in designing and implementing strategies to create affordable housing, and

(g) Promote partnerships among local government, non-profit and for-profit organizations, and CHDO.

(h) Meet the goals of the Utah Consolidated Plan and any local area plans regarding affordable housing.

R235-1-5. Application Requirements.

(1) OWHLF funds shall be distributed in accordance with an application process defined in this rule. Funds shall be issued during a scheduled funding cycle. The Board conducts four cycles during a calendar year.

(2) An applicant seeking to obtain funds shall submit a completed application form furnished by the Division of HCD prior to the cycle's deadline.

(3) All completed applications will be reviewed by staff, which will present the application to the Board Review Committee (BRC) during the cycle in which the application is received. Applications will be ranked and scored according to how completely each application meets the criteria established by the Board.

(4) Applicants submitting incomplete applications will be notified of deficiencies. Each incomplete request(s) will be held in a file, pending submission of all required information by the applicant.

(5) A decision on each application will generally be made no later than the award notification date for each cycle. The Board may delay final decisions in order to accommodate scheduling and processing problems peculiar to each cycle.

(6) The Board may modify a given cycle and change submission deadlines to dates other than those previously scheduled. In doing so, the Board will make reasonable efforts to inform interested parties of such modifications.

(7) For Single-Family Program applicants, the Board may delegate responsibilities to local agencies for application intake, processing, approval, project development, construction oversight, and management. Local agencies will be governed by policies and procedures approved by the Board.

R235-1-6. Project Selection Process.

(1) The BRC shall select applications for funding according to the following process and requirements as outlined in the Allocation Plan:

- (a) Project underwriting and threshold review,
- (b) Scoring and documentation review,
- (c) Market study and project reasonableness review,
- (d) Calculation of OWHLF subsidy amount.

R235-1-7. Funding Approval.

(1) After each application has been processed and the funding amount has been determined for a given cycle, staff will present projects to the BRC at its next regularly scheduled meeting. The BRC shall hear comments from applicants at the committee meeting and obtain sufficient information to inform

the full board about the project, its financial structure, and related general information.

(2) A copy of the BRC recommendation, including all conditional requirements imposed by the BRC and staff, shall become a part of the permanent record and placed in the applicant's file. Recommendations will be presented at the next regularly scheduled quarterly Board meetings. The board will approve, deny, or delay the application.

(3) An applicant may request a change in the terms as outlined in the original motion of the board by reapplying to HCD, with all updated, applicable financial information included, in subsequent funding rounds.

R235-1-8. Project Reporting.

(1) All projects receiving funding approval will be required to provide status reports at a scheduled frequency, in a format prescribed by the staff, and approved by the Board.

(2) Projects that have not begun construction within one year from the date of approval for funding must submit to staff a summary of significant progress made to date and an explanation of why the project is behind schedule. Staff will present this information to the BRC.

(3) The BRC may choose to extend the period of the project, to rescind the approval, or require the project to re-apply in accordance with current parameters.

R235-1-9. Compliance Monitoring.

(1) Monitoring of the project by HCD staff will be completed to ensure program compliance. Program non-compliance or lack of response to inquiries from staff will be reported to the HCD administration, the Board, HUD, and the Attorney General's Office as deemed necessary.

R235-1-10. Administration Fees.

(1) The local agencies listed below may use previously designated funds for project administration costs as approved by the Board. Such projects are still subject to on-site administrative supervision, staff oversight, or monitoring by HDC. The agencies include:

- (a) Public Housing Authorities.
- (b) Counties, cities and towns.
- (c) Associations of Governments.

(2) The agencies shall be expected to demonstrate a significant level of business management and administrative experience and ability in order to receive administrative funds. They shall also demonstrate an acceptable level of background and experience to perform housing rehabilitation/reconstruction and implementation functions.

R235-1-11. Financial Subsidy Review.

(1) HCD staff shall conduct "subsidy layering" reviews on projects that directly or indirectly receive financial assistance from the U.S. Department of Agriculture Rural Development Service ("RD or RDS"), or the U.S. Department of Housing and Urban Development ("HUD") exclusive of HOME, CDBG, or HOPWA assistance, (i.e., the "Subsidy Layering Review").

(2) Subsidy Layering Reviews shall be conducted in accordance with guidelines established by RD and HUD with respect to the review of any financial assistance provided by or through these agencies to the project and shall include a review of:

- (a) The amount of equity capital contributed to a project by investors,
- (b) The project costs including developer fees, and
- (c) The contractor's profit, syndication costs and rates.

(3) In the course of conducting the review, the staff may disclose or provide a copy of the application to RD or HUD for their review and comments and shall take any other action deemed necessary to satisfy its obligations under the respective

review requirements. HCD staff will accept a review completed by Utah Housing Corporation (UHC).

R235-1-12. Sharing of Information.

(1) Application information may be shared with participating lenders, IRS and UHC.

(2) In administering this program, the HCD staff shall conduct all functions in accordance with the provisions of the state GRAMA statute and the federal Freedom of Information Act.

R235-1-13. Portfolio Management.

(1) HCD staff will track the status of the OWHLF portfolio to assess any problem loans needing special loan servicing. Staff will make recommendations to the BRC regarding loan review, changes, and approvals.

(2) HCD staff will work with the board and the Attorney General's office to develop policies and procedures to govern special portfolio management issues such as loan restructuring, bankruptcies, and asset disposal.

9-4-704(5)(a)

R270. Crime Victim Reparations, Administration.**R270-1. Award and Reparation Standards.****R270-1-1. Authorization and Purpose.**

As provided in Section 63-25a-406 the purpose of this rule is to provide interpretation and standards for the administration of crime victim reparations.

R270-1-2. Funeral and Burial Award.

A. Pursuant to Subsection 63-25a-411(4)(f), total award for funeral and burial expenses is \$7,000 for any reasonable and necessary charges incurred directly relating to the funeral and burial of a victim. This amount includes transportation of the deceased. Allowable expenses in this category may include the emergency acquisition of a burial plot for victims who did not previously possess or have available to them a plot for burial.

B. Transportation of secondary victims to attend a funeral and burial service shall be considered as an allowable expense in addition to the \$7,000.

C. Loss of earnings for secondary victims to attend a funeral and burial service shall be allowed as follows:

1. Three days in-state
2. Five days out-of-state

D. When a victim dies leaving no identifying information, claims made by a provider cannot be considered.

R270-1-3. Negligent Homicide and Hit and Run Claims.

A. Negligent homicide claims shall be considered criminally injurious conduct as defined in Subsection 63-25a-402(9).

B. Pursuant to Subsection 63-25a-402(9)(a), criminally injurious conduct shall not include victims of hit and run crimes.

R270-1-4. Counseling Awards.

A. Pursuant to Subsections 63-25a-402(20) and 63-25a-411(4)(c), out-patient mental health counseling awards are subject to limitations as follows:

1. The reparation officer shall approve a standardized treatment plan.

2. The cost of initial evaluation and testing may not exceed \$300 and shall be part of the maximum allowed for counseling. For purposes herein, an evaluation shall be defined as diagnostic interview examination including history, mental status, or disposition, in order to determine a plan of mental health treatment.

3. Primary victims of a crime shall be eligible for a \$3500 maximum mental health counseling award.

(a) Parents, children and siblings of homicide victims shall be considered at the same rate as primary victims for inpatient and outpatient counseling.

4. Secondary victims of a crime shall be eligible for a \$2000 maximum mental health counseling award.

5. Extenuating circumstances warranting consideration of counseling beyond the maximum may be submitted by the mental health provider after the maximum award has been reached.

6. Counseling costs will not be paid in advance but will be paid on an ongoing basis as victim is being billed.

7. Inpatient hospitalization, residential and day treatment shall be reviewed by the CVR Board or contracting agency who will make recommendations to the Reparation Officers regarding treatment. The CVR Board or contracting agency will review all levels of care and assign a reimbursement percentage based on the crime. All cases having less than a \$1000 balance may be determined by the Reparation Officer. Outpatient cases shall be reviewed at the same rate as inpatient reviews.

8. In-patient hospitalization shall only be considered when the treatment has been recommended by a licensed therapist in life-threatening situations. A direct relationship to the crime needs to be established. Acute in-patient hospitalization shall

not exceed \$600 per day, which includes all ancillary expenses, and will be considered payment in full to the provider. Inpatient psychiatric visits will be limited to one visit per day with payment for the visit made to the institution at the highest rate of the individuals providing therapy as set by rule. Reimbursement for testing costs may also be allowed. Parents, children and siblings of homicide victims shall be considered at the same rate as primary victims for inpatient hospitalization. All other secondary victims of other crime types are excluded.

9. Residential and day treatment shall only be considered when the treatment has been recommended by a licensed therapist to stabilize the victim's behavior and symptoms. Only facilities with 24 hour nursing care or 24 hour on call nursing care will be compensated for residential and day treatment. Residential and day treatment shall not be used for extended care of dysfunctional families and containment placements. A direct relationship to the crime needs to be established. Residential treatment shall not exceed \$300 per day and will be considered payment in full to the provider. Residential treatment shall be limited to 30 days, unless there are extenuating circumstances requiring extended care. All residential clients shall receive routine assessments from a psychiatrist and/or APRN at least once a week for medication management. Day treatment shall not exceed \$200 per day and will be capped at \$10,000. These charges will be considered payment in full to the provider. Parents, children and siblings of homicide victims shall be considered at the same rate as primary victims for residential and day treatment. All other secondary victims of other crime types are excluded.

10. Wilderness programs shall not be covered as an appropriate treatment modality when considering inpatient hospitalization, residential or day treatment.

11. Child sexual abuse victims under the age of 13 who become perpetrators shall only be considered for mental health treatment awards directly related to the victimization. Perpetrators age 13 and over who have been child sexual abuse victims shall not be eligible for compensation. The CVR Board or contracting agency for managed mental health care shall help establish a reasonable percentage regarding victimization treatment for inpatient, residential and day treatment. Out-patient claims shall be determined by the Reparation Officer on a case by case basis upon review of the mental health treatment plan.

12. Payment for mental health counseling shall only be made to licensed therapists; or to individuals working towards a license that provide certified verification of satisfactory completion of an education and earned degree as required by the State of Utah Department of Commerce, Division of Professional and Occupational Licensing, working under the supervision of a supervisor approved by the Division. Student interns otherwise eligible under 58-1-307(1)(b) Exceptions from licensure, and/or the institution/facility/agency responsible for the supervision of the student, shall not be eligible for payment under this rule for counseling services provided by the student.

13. Payment of hypnotherapy shall only be considered when treatment is performed by a licensed mental health therapist based upon an approved Treatment Plan.

14. The following maximum amounts shall be payable for mental health counseling:

(a) up to \$130 per hour for individual and family therapy performed by licensed psychiatrists, and up to \$65 per hour for group therapy;

(b) up to \$90 per hour for individual and family therapy performed by licensed psychologists and up to \$45 per hour for group therapy;

(c) up to \$70 per hour for individual and family therapy performed by a licensed master's level therapist or an Advanced Practice Registered Nurse, and up to \$35 per hour for group therapy. These rates shall also apply to therapists working

towards a license and supervised by a licensed therapist;

(d) The above-mentioned rates shall apply to individuals performing treatment, and not those supervising treatment.

15. Chemical dependency specific treatment will not be compensated unless the Reparation Officer determines that it is directly related to the crime. The CVR Board may review extenuating circumstance cases.

R270-1-5. Attorney Fees.

Pursuant to Subsection 63-25a-424(2) attorney fees shall be made within the reparation award and not in addition to the award. If an award is paid in a lump sum, the attorney's fee shall not exceed 15% of the total award; if payments are awarded on an on going basis, attorney fees will be paid when warrants are generated but not to exceed 15%. When appeal hearing denials are overturned, attorney fees shall be calculated only on the appealed reparation issue.

R270-1-6. Reparation Awards.

Pursuant to Section 63-25a-403, reparation awards can be made to victims of violent crime where restitution has been ordered by the court but appears unlikely the restitution can be paid within a reasonable time period. However, notification of the award will be sent to the courts, prosecuting attorneys, Board of Pardons or probation and parole counselors indicating any restitution monies collected up to the amount of the award will be forwarded to the Crime Victim Reparations Trust Fund.

R270-1-7. Abortion.

Expenses for an abortion that is permitted pursuant to Sections 76-7-301 through 76-7-325 shall be eligible for a reparation award as long as all the requirements of Section 63-25a-411 have been met.

R270-1-8. Emergency Awards.

Pursuant to Section 63-25a-422, emergency awards up to \$1000 can be granted. No time limit is required for filing an emergency claim. Processing of emergency claims is three to five days.

R270-1-9. Loss of Earnings.

A. Pursuant to Subsection 63-25a-411(4)(d), the 66-2/3% of the person's weekly salary or wages is calculated on gross earnings.

B. Loss of earnings for primary and secondary victims may be reimbursed for up to a maximum of twelve (12) weeks work loss, at an amount not to exceed the maximum allowed per week by Worker's Compensation guidelines in effect at the time of work loss. Reference should be made to Section R270-1-11 for guidelines on sick leave, annual leave or bereavement leave as a collateral source. The Crime Victim Reparations Board may review extenuating circumstances on loss of earnings claims.

R270-1-10. Moving, Transportation Expenses.

A. Pursuant to Subsection 63-25a-411(4)(a), victims of violent crime who suffer a traumatic experience or threat of bodily harm are allowed moving expenses up to \$2000. Board approval is needed where extenuating circumstances exist.

B. Transportation expenses up to \$500 are allowed for court, medical or mental health visits for primary and secondary victims. Board approval is needed where extenuating circumstances exist.

R270-1-11. Collateral Source.

A. Pursuant to Section 63-25a-413, sick leave and annual leave shall be considered as a collateral source. If there are extenuating circumstances, the director may make an exception to this requirement.

B. Crime Victim Reparations Trust Fund monies shall be

used before State Social Services contract monies when considering out-of-pocket expenses in child sexual abuse cases, if the individuals qualify as victims. If the victim qualifies for Medicaid, the contract monies should be used first.

C. Crime Victim Reparations Trust Fund monies shall be used before the Utah Medical Assistance Program funds when considering allowable benefits for victims of violent crime.

R270-1-12. Record Retention.

A. Pursuant to Section 63-25a-401, retention of Crime Victim Reparations annual report and crime victim case files shall be as follows:

1. Annual reports and other statistical information shall be retained in office for a period of three years and then transferred to State Archives.

2. Crime victim case files shall be retained in office as needed for administrative use. After closure or denial of a case file, case file shall be retained in office for one year and then transferred to State Archives. Case files will be retained in the State Records Center for eleven years and then destroyed.

R270-1-13. Awards.

A. Pursuant to Section 63-25a-421, when billing from the providers exceeds the maximum allowed, the Reparation Officer shall pay the bills by the date of service. The Reparation Officer shall solicit input from the victim when making this determination. When the services and the billings have occurred at the same time, the Reparation Officer shall determine payment on a percentage basis.

R270-1-14. Essential Personal Property.

Pursuant to Subsection 63-25a-411(4)(h), essential personal property covers all personal articles necessary and essential for the health and safety of the victim. The Reparation Officer may allow up to \$1500 for replacement of such items as eyeglasses, hearing aids, burglar alarms, door locks, crime scene cleanup, repair of walls and broken windows, etc. The board shall review any exceptions over \$1500.

R270-1-15. Subrogation.

Pursuant to Section 63-25a-419, subrogation monies collected from the perpetrator, insurance, etc., will be placed in the Crime Victim Reparations Trust Fund and will not be credited toward a particular victim or claimant award amount.

R270-1-16. Unjust Enrichment.

A. Pursuant to Subsection 63-25a-410(1)(d), the following criteria shall be used when considering claims involving possible unjust enrichment of an offender:

1. Unjust enrichment determination shall not be based solely on the presence of the offender in the household at the time of the award.

2. Awards shall not be denied on the basis that the offender would be unjustly enriched, if the victim cooperates with investigation and prosecution of the crime and does what is possible to prevent access by the offender to substantial compensation.

3. Payment to third party providers shall be made to prevent monies intended for victim expenses be used by or on behalf of the offender.

4. Collateral resources such as court-ordered restitution and medical insurance that are available to the victim from the offender shall be examined. However, the victim shall not be penalized for failure of an offender to meet legal obligations to pay for the cost of the victim's recovery.

5. Factors to be considered in determining whether enrichment is substantial or inconsequential include the amount of the award and whether a substantial portion of the compensation award will be used directly by or on behalf of the

offender. If the offender has direct access to a cash award and/or if a substantial portion of it will be used to pay for his living expenses, that portion of the award that will substantially benefit the offender may be reduced or denied. When enrichment is inconsequential or minimal, the award shall not be reduced or denied.

R270-1-17. Prescription or Over-the-Counter Medications.

A. Reimbursement of prescription or over-the-counter medications used in conjunction with mental health therapy shall be considered only for the duration of an approved Treatment Plan.

B. Reimbursement of prescription or over-the-counter medications used in conjunction with medical treatment shall be considered only during the course of treatment by the physician.

C. Medication management rates shall be limited to a maximum of \$62.50 per thirty minute session.

R270-1-18. Peer Review Committee.

A. A volunteer Peer Review Committee may be established to review issues and/or provide input to Crime Victim Reparations staff on out-patient mental health counseling claims. The composition, duties, and responsibilities of this Committee shall be defined by the Crime Victim Reparations Board by written internal policy and procedure.

R270-1-19. Medical Awards.

A. Pursuant to Subsection 63-25a-411(4)(b), medical awards are subject to limitations as follows:

1. All medical costs must be related directly to the victimization and all treatment must be considered usual and customary.

2. The reparation officer reserves the right to audit any and all billings associated with medical care.

3. The reparation officer will not pay any interest, finance, or collection fees as part of the award.

4. After the effective date of this rule, in-patient hospital medical bills shall be reimbursed at a rate established between the CVR office and individual hospitals and shall be considered payment in full. A Memorandum of Agreement shall be signed and kept on file.

5. Child endangerment examinations for children that have been exposed to drugs shall be paid for when the health and safety of the child is at risk and no other collateral source is available. The cost of the exam needs to be an expense incurred by the victim. The writing of evidentiary reports and any form of lab testing shall not be covered as part of the examination.

R270-1-20. Misconduct.

Pursuant to Subsections 63-25a-402(21) and 63-25a-412(1)(b) misconduct shall be considered conduct which contributed to the victim's injury or death or engaged in conduct in which the victim could have reasonably foreseen could lead to injury or death. In determining whether the victim engaged in misconduct, the CVR staff shall consider any behavior of the victim that may have directly or indirectly contributed to the victim's injury or death including consent, provocation, verbal utterance, gesture, incitement, prior conduct of the victim or the ability of the victim to have reasonably avoided the incident upon which the claim is based.

R270-1-21. Three Year Limitation.

Pursuant to Subsections 63-25a-406(1)(c) and 63-25a-428(2) a claim for benefits expires and no further payments will be made with regard to the claim after three years have elapsed from the date of application with the CVR office. All claimants who have filed a claim for benefits with the CVR office prior to the effective date of this rule shall be notified in writing of the three year limitation for payment of benefits. Any claimant who

filed a claim for benefits more than two and one-half years prior to the effective date of this rule, other than a claim for benefits for permanent disability or loss of support, shall be notified in writing that they have six months in which to submit any remaining expenses before the three year limitation is imposed and the claim is closed. Claims for benefits for permanent disability or loss of support filed prior to the effective date of this rule shall not be subject to the three year limitation. The Crime Victim Reparations Officers may review extenuating circumstances on claims that have been closed because of the Three Year Limitation rule.

R270-1-22. Sexual Assault Forensic Examinations.

A. Pursuant to Subsections 63-25a-402(19) and 63-25a-411(4)(i), the cost of sexual assault forensic examinations for gathering evidence and providing treatment may be paid by the CVR office in the amount of \$300.00 without photo documentation and up to \$600.00 with a photo examination. The CVR office may also pay for the cost of medication and up to 85% of the hospital expenses. The following agency guidelines need to be adhered to when making payments for sexual assault forensic examinations:

1. A sexual assault forensic examination shall be reported to law enforcement.

2. Victims shall not be charged for sexual assault forensic examinations.

3. The agency may reimburse any licensed health care facility that provides services for sexual assault forensic examinations.

4. The agency may reimburse licensed medical personnel trained to gather evidence of sexual assaults who perform sexual assault forensic examinations.

5. CVR may pay for the collection of evidence and not attempt to prove or disprove the allegation of sexual assault.

6. A request for reimbursement shall include the law enforcement case number or be signed by a law enforcement officer, victim/witness coordinator or medical provider.

7. The application or billing for the sexual assault forensic examination must be submitted to CVR within one year of the examination.

8. The billing for the sexual assault forensic examination shall:

a. identify the victim by name, address, date of birth, Social Security number, telephone number, patient number;

b. indicate the claim is for a sexual assault forensic examination; and

c. itemize services and fees for services.

9. All collateral sources that are available for payment of the sexual assault forensic examination shall be considered before CVR Trust Fund monies are used. Pursuant to Subsection 63-25a-411(i), the Director may determine that reimbursement for a sexual assault forensic examination will not be reduced even though a claim could be recouped from a collateral source.

10. Evidence will be collected only with the permission of the victim or the legal guardian of the victim. Permission shall not be required in instances where the victim is unconscious, mentally incapable of consent or intoxicated.

11. Restitution for the cost of the sexual assault forensic examination may be pursued by the CVR office.

12. Payment for sexual assault forensic examinations shall be considered for the following:

a. Fees for the collection of evidence, for forensic documentation only, to include:

i. history;

ii. physical;

iii. collection of specimens and wet mount for sperm; and

iv. treatment for the prevention of sexually transmitted disease up to four weeks.

- b. Emergency department services to include:
 - i. emergency room, clinic room or office room fee;
 - ii. cultures for gonorrhea, chlamydia, trichomonas, and tests for other sexually transmitted disease;
 - iii. serum blood test for pregnancy; and
 - iv. morning after pill or high dose oral contraceptives for the prevention of pregnancy.

13. The victim of a sexual assault that is requesting payment by CVR for services needed or rendered beyond the sexual assault forensic examination needs to submit an application for compensation to the CVR office.

R270-1-23. Loss of Support Awards.

A. Pursuant to Subsection 63-25a-411(4)(g), loss of support awards shall be covered on death claims only.

R270-1-24. Rent Awards.

A. Pursuant to Subsection 63-25a-411(4)(a), victims of domestic violence or child abuse may be awarded a one time only rental award for actual rent expenses of \$1800 for a maximum of three months if the following conditions apply:

1. The perpetrator was living with the victim at the time of the crime or the rent assistance appears directly related to the victim's ability to distance herself/himself from the perpetrator.
2. It appears reasonable that the perpetrator was assisting or was solely responsible for rent.
3. The victim agrees that the perpetrator is not allowed on the premises.

R270-1-25. Secondary Victim.

Secondary victims who are not primary victims pursuant to Subsections 63-25a-402(37) and who are traumatically affected by criminally injurious conduct shall be eligible for compensation as prescribed by the CVR Board. Secondary victims include only immediate family members (spouse, father, mother, stepparents, child, brother, sister, stepchild, stepbrother, stepsister, or legal guardian) and anyone residing in the household at the time of the crime who was traumatically affected by the crime. The CVR Board may review requests by other individuals who are not immediate family members or do not reside in the household.

R270-1-26. Victim Services.

Pursuant to Subsection 63-25a-406(1)(j), the CVR Board may approve victim service requests following receipt of an application or request for proposal. Applications or requests for proposals shall be submitted on a form approved by the CVR Board. Application requests for one time funding will be submitted to the CVR Board for their review and decision. Requests for ongoing funding may be approved by the CVR Board and then forwarded to the CVR grants program for administration and monitoring purposes. All requests for ongoing funding shall be reviewed annually to determine if additional funding is warranted. This process may be implemented in conjunction with the annual Victims of Crime Act (VOCA) request for proposal program. Each request shall comply with all CVR grant program guidelines, certifications and assurances as determined by the director. There is no commitment by the CVR office that once a grant has been funded that there will be any subsequent funding. Continuation of funding for new and existing projects is contingent on the availability of funds and a determination that a sufficient reserve has been established for reparation claims. Awards may be denied or limited as determined appropriate by the Board. Decisions by the CVR Board are final and may not be appealed. The CVR office shall review expenditures by award recipients to insure compliance with the provisions of the request. Recipients shall be required to provide the CVR office with all documentation and receipts requested.

R270-1-27. Nontraditional Cultural Services.

Cultural services rendered in accordance with recognized spiritual or religious methods of healing, legally available in the state of Utah, may be considered for payment. Since a reasonable and customary schedule of charges has not been established, the reparation officer may require the following: a written itemized description of each procedure, function and/or activity performed and an explanation of its benefit to the victim; the location and time involved to perform such services; and a summary of qualifications and experience which allows the service provider to perform the services. Services shall be requested in lieu of traditional treatment methods. Awards shall be deducted from the claimant's outpatient mental health award and shall remain within the allowed limits set upon that benefit. The fund will not pay for intoxicating or psychotropic substances unless prescribed by a medical practitioner licensed to do so. Claim will be denied if no healing benefit can be identified.

**KEY: victim compensation, victims of crimes
January 4, 2006 63-25a-401 et seq.
Notice of Continuation December 10, 2001**

R277. Education, Administration.**R277-602. Special Needs Scholarships - Funding and Procedures.****R277-602-1. Definitions.**

A. "Annual assessment" for purposes of this rule means a formal testing procedure carried out under prescribed and uniform conditions that measures students' academic progress, consistent with Section 53A-1a-705(1)(f).

B. "Appeal" for purposes of the rule means an opportunity to discuss/contest a final administrative decision consistent with and expressly limited to the procedures of this rule.

C. "Assessment team" means the individuals designated under Section 53A-1a-703(1).

D. "Audit of a private school" for purposes of this rule means a financial audit provided by an independent certified public accountant, as provided under Section 53A-1a-705(1)(b).

E. "Board" means the Utah State Board of Education.

F. "Days" means school days unless specifically designated otherwise in this rule.

G. "Disclosure to parents" for purposes of this rule means the express acknowledgments and acceptance required under Section 53A-1a-704(5) as part of parent application available through schools districts.

H. "Eligible student" for purposes of this rule means:

(1) the student's parent resides in Utah;

(2) the student has a disability as designated in 53A-1a-704(2)(b); and

(3) the student is school age.

(4) Eligible student also means that the student was enrolled in a public school in the school year prior to the school year in which the student will be enrolled in a private school, has an IEP and has obtained acceptance for admission to an eligible private school; and

(5) The requirement to be enrolled in a public school in the year prior and have an IEP does not apply if:

(a) the student is enrolled or has obtained acceptance for admission to an eligible private school that specializes in serving students with disabilities; and

(b) an assessment team is able to readily determine with reasonable certainty that the student has a disability and would qualify for special education services if enrolled in a public school and the appropriate level of special education services which would be provided were the student enrolled in a public school.

I. "Enrollment" for purposes of this rule means that the student has completed the school enrollment process, the school maintains required student enrollment information and documentation of age eligibility, the student is scheduled to receive services at the school, the student attends regularly, and has been accepted consistent with R277-419 and the student's IEP.

J. "Final administrative action" for purposes of this rule means the concluding action under Section 53A-1a-701 through 53A-1a-710 and this rule.

K. "Fiscal soundness of a private school" for purposes of this rule means that the school has provided to the USOE the information required under Section 53A-1a-705(1)(b) that includes:

(1) a copy of the audit completed in the school's initial year that the school accepts scholarship audit and opinion letter consistent with Section 53A-1a-705(1)(b) as defined by AICPA standards;

(2) a letter from a certified public accountant stating that the private school:

(a) is insured consistent with R277-602-1M; and

(b) has sufficient funds to maintain operations for the full school year.

L. "Individual education program (IEP)" means a written statement for a student with a disability that is developed,

reviewed, and revised in accordance with Board Special Education Rules and Part B of the Individuals with Disabilities Education Act (IDEA).

M. "Insured" for purposes of this rule means that the school has provided a certificate of insurance for accident and liability insurance in the amount of \$1 million, \$2 million aggregate, and proof of property and auto coverage. Property coverage should include coverage for employees working with funds of the school. The insurance company providing coverage to the school should have a Best rating of at least an A-, and be at least a Category VI company in size.

N. "Northwest accredited special purpose school" means a school accredited by the Northwest Association of Accredited Schools that is public, nonpublic, proprietary or nonprofit. The school has been designated by Northwest as a school that meets the special educational needs of students under unique circumstances. Generally, such schools offer a limited array of educational services and may not adhere to the state's common school compulsory attendance laws or graduation requirements.

O. "Private school that specializes in serving students with disabilities" means the school:

(1) has a student population of at least 80 percent students with identified disabilities under Section 53A-1a-704(2); or

(2) is a Northwest accredited special purpose school that serves students with disabilities; or

(3)(a) employs or contracts with special education teachers who have a Utah educator license with special education area of concentration. The teachers are responsible for the evaluation, programming, instruction, and assessment of students with disabilities; and

(b) employs or contracts with licensed related service providers who are responsible for evaluation, programming, instruction, and assessment of students with disabilities; and

(c) the special education teachers and related service providers deliver services within the caseload guidelines in the Utah State Board of Education approved Special Education Rules.

P. "Special Needs Scholarship Appeals Committee (Appeals Committee)" means a committee comprised of:

(1) the special needs scholarship coordinator;

(2) the USOE Special Education Director; and

(3) a Board-designated special education advocate.

Q. "USOE" means the Utah State Office of Education.

R. "Warrant" means payment by check to a private school.

R277-602-2. Authority and Purpose.

A. This rule is authorized by Utah Constitution Article X, Section 3 which vests general control and supervision of the public school system under the Board, Section 53A-1a-706(5)(b) which provides for Board rules to establish timelines for payments to private schools, Section 53A-3-410(6)(b)(i)(c) which provides for criminal background checks for employees and volunteers, Section 53A-1a-707 which provides for Board rules about eligibility of students for scholarships and the application process for students to participate in the scholarship program, and by Section 53A-1-401(3) which allows the Board to adopt rules in accordance with its responsibilities.

B. The purpose of this rule is to outline responsibilities for parents/students, public schools, school districts or charter schools, and eligible private schools that accept scholarships from special needs students and the State Board of Education in providing choice for parents of special needs students who choose to have their children served in private schools and in providing accountability for the citizenry in the administration and distribution of the scholarship funds.

R277-602-3. Parent/Guardian Responsibilities.

A. If the student is enrolled in a public school or was enrolled in a public school in the year previous to the year in

which the scholarship is sought, the parent/guardian shall submit an application, available from the USOE or online at www.usoe.org, to the school district or charter school within which the parent/guardian resides.

(1) The parent shall complete all required information on the application.

(2) Any intentional falsification, misinformation, or incomplete information provided on the application may result in the cancellation of the scholarship to the student and non-payment to the private school.

B. If the student was not enrolled in a public school in the year previous to the year in which the scholarship is sought, but was enrolled in a private school that specializes in serving students with disabilities, the parent/guardian shall submit an application to the school district in which the private school is geographical located (school district responsible for child find under IDEA, Sec. 612(a)(3)). The parent/guardian shall provide:

(1) documentation of student's enrollment in an eligible private school as defined under Section 53A-1a-705;

(2) documentation following an assessment team's evaluation that a student would qualify for special education services and the level of services for which the student would be eligible if enrolled in a public school.

C. Upon completion of the application, parents of students eligible under R277-602-3A or B above shall provide by July 1, or later as allowed by the Board, prior to the year in which admission is sought, the application form together with the following documentation to the student's enrollment district that received the scholarship application:

(1) documentation that the parent/guardian is a resident of the state of Utah;

(2) documentation that the student is at least five years of age, consistent with Section 53A-3-402(6);

(3) documentation that the student is not more than 21 years of age and has not graduated from high school consistent with Section 53A-15-301(1)(a);

(4) documentation that the student has satisfied R277-602-3A or B above;

(5) documentation that the student has official acceptance at an eligible private school, as defined under Section 53A-1a-705;

(6) parent signature on acknowledgments and refusal to consent to services on the application form consistent with Section 53A-1a-704;

(7) notification in writing in the second and third year to indicate continued enrollment.

D. A special needs scholarship shall be effective for three years subject to renewal under Section 53A-1a-704(6).

E. The parent shall, consistent with Section 53A-1a-706(8), endorse the warrant received by the private school from the USOE no more than 15 school days after the private school's receipt of the warrant.

F. The parent shall notify the Board in writing within five days if:

(1) the student does not continue in enrollment in an eligible private school for any reason including parent/student choice, suspension or expulsion of the student; or

(2) the student misses more than 10 consecutive days at which point the Board may modify the payment to the private school consistent with R277-419-1J.

G. The parent shall cooperate and respond within 10 days to an enrollment cross-checking request from the Board.

R277-602-4. School District or Charter School Responsibilities.

A. The school district or charter school that receives the student's scholarship application consistent with Section 53A-1a-704(4) shall forward applications to the Board no more than

10 days following receipt of the application.

B. The school district or charter school that received the student's scholarship application shall:

(1) receive applications from students/parents;

(2) verify enrollment of the student seeking a scholarship in previous school year within a reasonable time following contact by the Board;

(3) verify the existence of the student's IEP and level of service to the USOE within a reasonable time;

(4) provide personnel to participate on an assessment team to determine:

(a) if a student who was previously enrolled in a private school that specializes in serving students with disabilities would qualify for special education services if enrolled in a public school and the appropriate level of special education services which would be provided were the child enrolled in a public school for purposes of determining the scholarship amount consistent with Section 53A-1a-706(2);

(b) if a student previously receiving a special needs scholarship is entitled to receive the scholarship during the subsequent eligibility period.

C. Special needs scholarship students shall not be enrolled in public or charter schools for dual enrollment or extracurricular activities, consistent with the parents'/guardians' assumption of full responsibility for students' services under Section 53A-1a-704(5).

D. School districts or charter schools shall cooperate with the Board in cross-checking special needs scholarship student enrollment information, as requested by the Board.

R277-602-5. State Board of Education Responsibilities.

A. The Board shall provide applications annually, containing acknowledgments required under Section 53A-1a-704(5), for parents seeking a special needs scholarship online, at the Board offices, at school district or charter school offices, and at charter schools no later than April 1 prior to the school year in which admission is sought (applications for the 2005-06 school year shall be available no later than June 15).

B. The Board shall provide a determination that a private school meets the eligibility requirements of Section 53A-1a-705 as soon as possible but no more than 30 days after the private school submits an application and completed documentation of eligibility. The Board may:

(1) provide reasonable timelines within the application for satisfaction of private school requirements;

(2) issue letters of warning, require the school to take corrective action within a time frame set by the Board, suspend the school from the program consistent with Section 53A-1a-708, or impose such other penalties as the Board determines appropriate under the circumstances.

(3) establish appropriate consequences or penalties for private schools that:

(a) fail to provide affidavits under Section 53A-1a-708;

(b) fail to administer assessments, fail to report assessments to parents or fail to report assessments to assessment team under Section 53a-1a-705(1)(f);

(c) fail to employ teachers with credentials required under Section 53A-1a-705(g);

(d) fail to provide to parents relevant credentials of teachers under Section 53A-1a-705(h);

(e) fail to require completed criminal background checks under Section 53A-3-410(2) and take appropriate action consistent with information received.

(4) initiate complaints and hold administrative hearings, as appropriate, and consistent with R277-602.

C. The Board shall make a list of eligible private schools updated annually and available no later than May 30 (June 25 for 2005-2006 school year).

D. Information about approved scholarships and

availability and level of funding shall be provided to scholarship applicant parents/guardians no later than July 30 of each year.

E. The Board shall mail scholarships directly to private schools as soon as reasonably possible consistent with Section 53A-1a-706(8).

F. For the 2005-06 school year, payments shall begin September 1 to private schools.

G. Beginning with the 2006-07 school year, the Board may begin scholarship payments to eligible private schools no earlier than July 1 but before payment dates established by Section 53A-1a-706(5)(a) if the parent/guardian negotiates a payment date with the USOE, provides reasonable advance notice to the USOE and assumes responsibility for transmission of the payment from the USOE to the private school.

H. If an annual legislative appropriation is inadequate to cover all scholarship applicants and documented levels of service, the Board shall establish by rule a lottery system for determining the scholarship recipients, with preference provided for under Section 53A-1a-706(1)(c)(i).

I. The Board shall verify and cross-check with school districts or charter school special needs scholarship student enrollment information consistent with Section 53A-1a-706(7).

R277-602-6. Responsibilities of Private Schools that Receive Special Needs Scholarships.

A. Private schools shall submit applications and by May 1 (June 15 by 2005-06 school year) and satisfy eligibility requirements within 10 days preceding the school year of eligibility to receive special needs scholarships consistent with Section 53A-1a-705.

B. Applications and appropriate documentation from private schools for eligibility to receive special needs scholarship students shall be provided to the USOE consistent with Section 53A-1a-705(3).

C. Private schools shall satisfy criminal background check requirements for employees and volunteers consistent with Section 53A-3-410.

D. Private schools that seek to enroll special needs scholarship students shall, in concert with the parent seeking a special needs scholarship for a student, initiate the assessment team meetings required under Sections 53A-1a-704(3) and 53A-1a-704(6).

(1) Meetings shall be scheduled at times and locations mutually acceptable to private schools, applicant parents and participating public school personnel.

(2) Designated private school and public school personnel shall maintain documentation of the meetings and the decisions made for the students.

(3) Documentation regarding required assessment team meetings, including documentation of meetings for students denied scholarships or services and students admitted into private schools and their levels of service, shall be maintained confidentially by the private and public schools, except the information shall be provided for purposes of audit or verification of services upon request by the USOE.

E. Private schools receiving scholarship payments under this rule shall provide complete student records in a timely manner to other private schools or public schools requesting student records if parents have transferred students under Section 53A-1a-704(7).

F. Private schools shall notify the Board within five days if:

(1) the student does not continue in enrollment in an eligible private school for any reason including parent/student choice, suspension or expulsion of the student; or

(2) the student misses more than 10 consecutive days of school.

G. Private schools shall satisfy health and safety laws and codes under Section 53A-1a-705(1)(d) including:

(1) the adoption of emergency preparedness response plans that include training for school personnel and parent notification for fire drills, natural disasters, and school safety emergencies and

(2) compliance with R392-200, Design, Construction, Operation, Sanitation, and Safety of Schools.

R277-602-7. Retroactive Scholarship Payments.

A. Retroactive scholarship payments shall be made to parents consistent with eligibility criteria for private schools, private schools specializing in serving students with disabilities, eligible students as outlined in R277-602 for the 2004-2005 school year as provided under Section 53A-1a-706(9)(a).

B. Retroactive scholarship payments shall be made to parents submitting required documentation no later than September 1, 2005.

R277-602-8. Special Needs Scholarship Appeals.

A. A parent or legal guardian of an eligible student or a parent or legal guardian of a prospective eligible student may appeal any final administrative decision under this rule.

B. The Appeals Committee may not grant an appeal contrary to the statutory provisions of Section 53A-1a-701 through 53A-1a-710.

C. An appeal shall be submitted in writing to the USOE Special Needs Scholarship Coordinator at: Utah State Office of Education, 250 East 500 South, P.O. Box 144200, Salt Lake City, UT 84114-4200.

(1) The appeal opportunity is expressly limited to a written appeal.

(2) Appellants have no right to additional elements of due process beyond the specific provisions of this rule.

(3) Nothing in the appeals process established under R277-602-8 shall be construed to limit, replace or adversely affect parental appeal rights available under IDEA.

D. Appeals shall be made within 15 days of written notification of the final administrative decision.

E. Appeals shall be considered by the Appeals Committee within 15 days of receipt of the written appeal.

F. The decision of the Appeals Committee shall be transmitted to parents no more than ten days following consideration by the Appeals Committee.

G. Appeals shall be finalized as expeditiously as possible in the joint interest of schools and students involved.

H. The Appeals Committee's decision is the final administrative action.

53A-1-401(3)**

R307. Environmental Quality, Air Quality.**R307-801. Asbestos.****R307-801-1. Purpose and Authority.**

Rule R307-801 establishes procedures and requirements for asbestos projects and training programs, procedures and requirements for the certification of persons engaged in asbestos activities, and work practice standards for performing such activities. This rule is promulgated under the authority of 19-2-104(1)(d), (3)(r), (3)(s), (3)(t). Penalties are authorized by 19-2-115.

R307-801-2. Applicability and General Provisions.**(1) Applicability.**

(a) The following persons are operators and are subject to the requirements of R307-801:

(i) Persons who contract for hire to conduct renovation of structures or facilities, or to conduct demolition of structures or facilities, except for residential outbuilding structures of less than 100 square feet;

(ii) Persons who conduct renovation or demolition in areas to which the general public has unrestrained access; or

(iii) Persons who conduct renovation or demolition in school buildings subject to AHERA or who conduct asbestos inspections in structures subject to TSCA Title II.

(b) The following persons are subject to certification requirements:

(i) Persons required by TSCA Title II to be accredited as inspectors, management planners, project designers, supervisors, or workers;

(ii) Persons who work on an asbestos project as workers, supervisors, inspectors, project designers, or management planners; and

(iii) Companies that conduct asbestos projects or inspections, create project designs, or prepare management plans in structures or facilities.

(2) All persons who are required by R307-801 to obtain an approval, certification, determination or notification from the executive secretary must obtain it in writing.

(3) Persons wishing to deviate from the certification, notification, work practice, or other requirements of R307-801 may do so only after requesting and obtaining the written approval of the executive secretary.

R307-801-3. Definitions.

The following definitions apply to R307-801:

"Adequately Wet" means sufficiently mix or penetrate with liquid to prevent the release of particulates. If visible emissions are observed coming from asbestos-containing material, then that material has not been adequately wetted. However, the absence of visible emissions is not sufficient evidence of being adequately wet.

"Amended Water" means a mixture of water and a chemical wetting agent that provides control of asbestos fiber release.

"AHERA" means the federal Asbestos Hazard Emergency Response Act of 1986 and the Environmental Protection Agency implementing regulations, 40 CFR Part 763, Subpart E - Asbestos-Containing Materials in Schools.

"Asbestos" means the asbestiform varieties of serpentine (chrysotile), riebeckite (crocidolite), cummingtonite-grunerite (amosite), anthophyllite, and actinolite-tremolite.

"Asbestos Containing Material (ACM)" means any material containing more than one percent (1%) asbestos by the method specified in Appendix A, Subpart F, 40 CFR Part 763 Section 1, Polarized Light Microscopy (PLM), or, if the asbestos content is less than 10%, the asbestos concentration must be determined by point counting using PLM procedure.

"Asbestos Inspection" means any activity undertaken to determine the presence or location, or to assess the condition, of asbestos-containing material or suspected asbestos-containing

material, whether by visual or physical examination, or by taking samples of the material. This term includes re-inspections of the type described in AHERA, 40 CFR 763.85(b), of known or assumed asbestos-containing material which has been previously identified. The term does not include the following:

(a) Periodic surveillance of the type described in AHERA, 40 CFR 763.92(b), solely for the purpose of recording or reporting a change in the condition of known or assumed asbestos-containing material;

(b) Inspections performed by employees or agents of federal, state, or local government solely for the purpose of determining compliance with applicable statutes or regulations; or

(c) Visual inspections of the type described in AHERA, 40 CFR 763.90(i), solely for the purpose of determining completion of response actions.

"Asbestos Project" means any activity involving the removal, renovation, repair, demolition, salvage, disposal, cleanup, or other disturbance of regulated asbestos-containing material greater than small scale short duration.

"Asbestos Removal" means the stripping of friable asbestos-containing material from surfaces or components of a structure or taking out structural components that contain or are covered with friable ACM from a structure.

"Asbestos Survey Report" means a written report as specified in R307-801-10(6) describing an asbestos inspection performed by a certified asbestos inspector.

"Asbestos Waste" means any waste that contains asbestos. This term includes filters from control devices, friable asbestos-containing waste material, and bags or other similar packaging contaminated with asbestos. As applied to demolition and renovations, this term includes materials contaminated with asbestos including disposable equipment and clothing.

"Containerized" means sealed in a leak-tight and durable container.

"Debris" means asbestos-containing material that has been dislodged and has fallen from its original substrate and position or which has fallen while remaining attached to substrate sections or fragments, and is friable or regulated in its current condition.

"Demolition" means the wrecking, salvage, or removal of any load-supporting structural member of a structure together with any related handling operations, or the intentional burning of any structure. This includes the moving of an entire building.

"Disturb" means to disrupt the matrix of ACM or regulated asbestos-containing material, crumble or pulverize ACM or regulated asbestos-containing material, or generate visible debris from ACM or regulated asbestos-containing material.

"Division" means the Division of Air Quality.

"Emergency Renovation Operation" means any asbestos project which was not planned and results from a sudden, unexpected event that, if not immediately attended to, presents a safety or public health hazard, is necessary to protect equipment from damage, or is necessary to avoid imposing an unreasonable financial burden as determined by the Division. This term includes operations necessitated by non-routine failure of equipment and does not include situations caused by the lack of planning.

"Encapsulant" means a permanent coating applied to the surface of friable ACM for the purpose of preventing the release of asbestos fibers. The encapsulant creates a membrane over the surface (bridging encapsulant) or penetrates the material and binds its components together (penetrating encapsulant).

"Facility" means any institutional, commercial, public, industrial, or residential structure, installation, or building, including any structure, installation, or building containing condominiums or individual dwelling units operated as a residential co-operative; any ship; and any active or inactive

waste disposal site. For purposes of this definition, any building, structure, or installation that contains a loft used as a dwelling is not considered a residential structure, installation, or building. Any structure, installation or building that was previously subject to the NESHAP is not excluded, regardless of its current use or function. Public building and commercial building have the same meanings as they do in TSCA Title II.

"Friable Asbestos Containing Material (Friable ACM)" means any asbestos-containing material that, when dry, can be crumbled, pulverized, or reduced to powder by hand pressure.

"Glovebag" means an impervious plastic bag-like enclosure, not more than a 60 x 60 inches, affixed around an asbestos-containing material, with glove-like appendages through which material and tools may be handled.

"HEPA Filtration" means the high efficiency particulate air filtration found in respirators and vacuum systems capable of filtering particles greater than 0.3 micron in diameter with 99.97% efficiency, designed for use in asbestos-contaminated environments.

"Inaccessible" means in a physically restricted or obstructed area or covered in such a way that detection or removal is prevented or severely hampered.

"Management Plan" means a document that meets the requirements of AHERA for management plans for asbestos in schools.

"Management Planner" means a person who prepares a management plan for a school building subject to AHERA.

"Model Accreditation Plan (MAP)" means 40 CFR Part 763, Subpart E, Appendix C, Asbestos Model Accreditation Plan.

"NESHAP" means the National Emission Standards for Hazardous Air Pollutants, 40 CFR Part 61, Subpart M, the National Emission Standard for Asbestos.

"NESHAP Amount" means combined amounts in a project that total:

(a) 260 linear feet (80 meters) of pipe covered with RACM;

(b) 160 square feet (15 square meters) of RACM used to cover or coat any duct, boiler, tank, reactor, turbine, equipment, structure, structural member, or structural component; or

(c) 35 cubic feet (one cubic meter) of RACM removed from structural members or components where the length and area could not be measured previously.

"NESHAP-Sized Asbestos Project" means any asbestos project that involves at least a NESHAP amount of ACM.

"Regulated Asbestos-Containing Material (RACM)" means friable ACM, Category I nonfriable ACM that has become friable, Category I nonfriable ACM that will be or has been subjected to sanding, grinding, cutting, or abrading, or Category II nonfriable ACM that has a high probability of becoming or has become crumbled, pulverized, or reduced to powder by the forces expected to act on the material in the course of demolition or renovation operations.

"Renovation" means the alteration in any way of one or more structural components, excluding demolition.

"Small-Scale, Short-Duration (SSSD) Asbestos Project" means an asbestos project that removes or disturbs less than 3 square feet or 3 linear feet of RACM in a facility or structure.

"Strip" means to take off ACM from any part of a structure or structural component.

"Structural Component" means any pipe, duct, boiler, tank, reactor, turbine, or furnace at or in a structure, or any structural member of the structure.

"Structural Member" means any load-supporting member of a structure, such as beams and load-supporting walls or any non-load-supporting member, such as ceilings and non-load-supporting walls.

"Structure" means, for the purposes of R307-801, any institutional, commercial, residential, or industrial building,

equipment, building component, installation, or other construction.

"TSCA Accreditation" means successful completion of training as an inspector, management planner, project designer, contractor-supervisor, or worker, as specified in the TSCA Title II.

"TSCA Title II" means 15 U.S.C. 2601 et seq., Toxic Substances Control Act, Subchapter II - Asbestos Hazard Emergency Response, and 40 CFR Part 763, Subpart E - Asbestos-Containing Materials in Schools, including appendices, as in effect on July 1, 1999.

"Unrestrained Access" means without fences, closed doors, personnel, or any other method intended to restrict public entry.

"Waste Generator" means any owner or operator of an asbestos project covered by R307-801 whose act or process produces asbestos waste.

"Working Day" means Monday through Friday and includes holidays that fall on any of the days Monday through Friday.

R307-801-4. Adoption and Implementation of TSCA Title II.

(1) The provisions of TSCA Title II are adopted and incorporated herein by reference.

(2) Implementation of the provisions of 40 CFR Part 763, Subpart E, except for the Model Accreditation Plan, shall be limited to those provisions for which the EPA has waived its requirements in accordance with 40 CFR Subpart 763.98, Waiver; delegation to State, as published at 52 FR 41826, (October 30, 1987).

R307-801-5. Company Certifications.

(1) All persons must have an Asbestos Company Certification before contracting for hire to conduct asbestos inspections, create management plans, create project designs, monitor asbestos projects, or to remove or otherwise disturb more than the SSSD amount of asbestos.

(2) To obtain Utah Asbestos Company Certification, all persons shall submit a completed application for certification on a form provided by the executive secretary.

(3) Unless revoked or suspended, a company certification shall remain in effect until the end of the calendar year in which it was issued.

R307-801-6. Individual Certification.

(1) To obtain certification as a worker, supervisor, inspector, project designer, or management planner, each person shall first:

- (a) Provide personal identifying information;
- (b) Pay the appropriate fee;
- (c) Fill out the appropriate form provided by the executive secretary;

(d) Provide certificates of initial and current training that demonstrate accreditation in the corresponding discipline. Any of the following TSCA accreditation courses is acceptable unless the executive secretary has determined that the course does not meet the requirements of TSCA accreditation training required by R307-801: courses approved by the executive secretary, approved in a state that has a Contractor Accreditation Program that meets the TSCA Title II Appendix C Model Plan, or approved by EPA under TSCA Title II.

(2) Duration and Renewal of Certification.

(a) Unless revoked or suspended, a certification shall remain in effect until the expiration date of the current certificate of TSCA accreditation for the specific discipline.

(b) To renew certification, the individual shall first:

(i) Submit a completed application for renewal on a form provided by the executive secretary; and

(ii) Submit a current certificate of TSCA accreditation for

initial or refresher training in the appropriate discipline.

R307-801-7. Denial and Cause for Suspension and Revocation of Company and Individual Certifications.

(1) An application for certification may be denied if the individual, applicant company, or any principle officer of the applicant company has a documented history of noncompliance with the requirements, procedures, or standards established by R307-801, R307-214, which incorporates 40 CFR Part 61, Subpart M, the National Emission Standard for Asbestos, AHERA, or with the requirements of any other entity regulating asbestos activities and training programs.

(2) The executive secretary may revoke or suspend any certification based upon documented violations of any requirement of R307-801, AHERA, or 40 CFR Part 61, Subpart M, including but not limited to:

- (a) Falsification of or knowing omission in any written submittal required by those regulations;
- (b) Permitting the duplication or use of a certificate or TSCA accreditation for the purpose of preparing a falsified written submittal; or
- (c) Repeated work practice violations.

R307-801-8. Approval of Training Courses.

(1) To obtain approval of a training course, the course provider shall first provide a written application to the executive secretary that includes:

- (a) Name, address, phone number, and institutional affiliation of person sponsoring the course;
- (b) The course curriculum;
- (c) A letter that clearly indicates how the course meets the Model Accreditation Plan and R307-801 requirements for length of training in hours or days, amount and type of hands-on training, examinations, including length, format, example of examination or questions, and passing scores, and topics covered in the course;
- (d) A copy of all course materials, including student manuals, instructor notebooks, handouts, etc.;
- (e) Names and qualifications of all course instructors, including all academic credentials and field experience in asbestos abatement; and
- (f) Description and an example of numbered certificates issued to students who attend the course and pass the examination. The certificate shall include a unique certificate number, the name of the student and the course completed, the dates of the course and the examination, an expiration date one year from the date the student completed the course and examination, the name, address, and telephone number of the training provider that issued the certificate, and a statement that the person receiving the certificate has completed the requisite training for TSCA accreditation.

(2) To maintain approval of a training course, the course provider shall:

- (a) Provide training that meets the requirements of R307-801 and the MAP;
- (b) Provide the executive secretary with the names, social security numbers or government-issued picture identification card number, and certificate numbers of all persons successfully completing the course within 30 days of successful completion;
- (c) Keep the records specified for training providers in the MAP for three years;
- (d) Permit the executive secretary or authorized representative to attend, evaluate and monitor any training course without receiving advance notice from the executive secretary and without charge to the executive secretary; and
- (e) Notify the executive secretary of any new course instructor 10 working days prior to the day the new instructor presents or teaches any course for TSCA Accreditation purposes. The notification shall include:

- (i) Name and qualifications of each course instructors, including all academic credentials and field experience in asbestos abatement; and

- (ii) A list of the courses or specific topics that will be taught by the instructor.

(3) All course providers that provide an AHERA training course or refresher course in the state of Utah shall:

- (a) Notify the executive secretary of the location, date, and time of the course at least ten days before the first day of the course;

- (b) Update the notification as soon as possible, and no later than the original course date, if the course is rescheduled or cancelled before the course is held; and

- (c) Allow the executive secretary to conduct an audit of any course provided to determine whether the course provider meets the requirements of the MAP and of R307-801.

R307-801-9. Renovation and Demolition: Requirement to Inspect.

(1) Except as described in (2) below, the operator shall ensure that the structure or facility to be demolished or renovated is inspected for ACM by an inspector certified under the provisions of R307-801-6. An asbestos survey report shall be generated according to the provisions of R307-801-10. The operator shall make the asbestos survey report available on site to all persons who have access to the site for the duration of the renovation or demolition activities, and to the executive secretary upon request.

(2) If the structure has been ordered to be demolished because it is found by a local jurisdiction to be structurally unsound and in danger of imminent collapse, the operator may demolish the structure without having the structure or facility inspected for asbestos. If no asbestos inspection is conducted, the operator shall ensure that all resulting demolition debris is disposed of as asbestos waste, according to R307-801-15. If the demolition debris cannot be containerized, the operator shall obtain approval for an alternative procedure from the executive secretary.

R307-801-10. Renovation and Demolition: Asbestos Inspection Procedures.

Asbestos inspectors shall use the following procedures when conducting an asbestos inspection of facilities to be demolished or renovated.

(1) Determine the scope of demolition or renovation activities.

(2) Inspect the affected facility or part of the facility where the demolition or renovation operation will occur.

(3) Identify all accessible suspect ACM building materials in the affected facility or part of the facility where the demolition or renovation operation will occur.

(4) Follow a sampling method approved by the executive secretary, to demonstrate that suspect ACM does not contain asbestos.

(5) Assume that unsampled suspect ACM contains asbestos and is ACM; and

(6) Complete an asbestos survey report containing all of the following information in a format approved by the executive secretary:

- (a) A brief description of the affected area;
- (b) A list of all suspect materials identified in the affected area. For each suspect material provide the following information:

- (i) The amount of material in linear feet, square feet, or cubic yards;

- (ii) A clear description of the distribution of the material in the affected area;

- (iii) A statement of whether the material was assumed to contain asbestos, sampled and shown to contain asbestos, or

sampled and demonstrated to not contain asbestos; and

(iv) A determination of whether the material is RACM or may become RACM when subjected to the proposed renovation or demolition activities.

(c) A list of samples collected from suspect materials in the affected area. For each sample provide the following information:

(i) Which suspect material, in the above list, the sample represents;

(ii) A clear description of the original location of the sample;

(iii) The types of analyses performed on the sample;

(iv) The amounts of each type of asbestos in the sample as indicated by the analytical results.

(d) A list of potential locations of suspect materials that were not accessible to inspection that may be part of the affected area.

(7) Floor plans or architectural drawings and similar representations may be used to aid in conveying the location of suspect materials or samples, but if so, they must be appended to the asbestos survey report.

R307-801-11. Renovation and Demolition: Notification and Asbestos Removal Requirements.

(1) Demolitions.

(a) If the amount of RACM in the structure is less than the SSSD amount, the operator shall submit a notification of demolition at least 10 working days before the start of demolition, and remove the RACM before commencing demolition.

(b) If the amount of RACM in the structure is greater than or equal to the SSSD amount but less than the NESHAP amount, the operator shall submit an asbestos notification at least 10 working days before the start of demolition and at least one working day before commencing removal, and shall remove the RACM according to the work practice provisions of R307-801 before demolition proceeds.

(c) If the amount of RACM in the structure is greater than or equal to the NESHAP amount, the operator shall submit an asbestos notification at least 10 working days before the asbestos removal begins. Demolition shall not proceed until after all RACM has been removed from the structure.

(d) If any structure is to be demolished by intentional burning, the operator, in addition to the notification specified in (a), (b) or (c), shall ensure that all ACM, including non friable ACM and RACM, is removed from the structure before burning.

(e) If the structure has been ordered to be demolished because it is found by a local jurisdiction to be structurally unsound and in danger of imminent collapse, the operator shall submit a notification of demolition as soon as possible, but no later than the next working day after demolition begins.

(2) Renovations.

(a) If the amount of RACM that would be disturbed or rendered inaccessible by renovation activities is less than the SSSD amount, the operator shall remove the RACM before commencing the renovation.

(b) If the amount of RACM that would be disturbed or rendered inaccessible by renovation activities is greater than the SSSD amount but smaller than NESHAP amount, the operator shall submit an asbestos notification at least one working day before asbestos removal begins, unless the removal was properly included in an annual asbestos notification submitted pursuant to (d) below, and shall remove RACM according to general work practices of R307-801 before performing renovation activities.

(c) If the amount of RACM that would be disturbed or rendered inaccessible by renovation activities is greater than or equal to the NESHAP amount, then the operator shall submit an asbestos notification as described below, and shall ensure that

RACM that would be disturbed by renovation activities and non-friable ACM that may be rendered friable or regulated by renovation activities is removed according to the work practice and disposal requirements of R307-801. The operator shall not commence renovation activities until the asbestos removal process is completed.

(i) If the renovation is an emergency renovation operation, then the notification shall be submitted as soon as possible before and no later than the next business day after asbestos removal begins.

(ii) If the renovation is not an emergency renovation operation, then the notification shall be submitted at least ten working days before asbestos removal begins.

(d) The operator shall submit an annual notification according to the requirements of 40 CFR 61.145(a)(4)(iii) no later than 10 working days before the first day of January of the year during which the work is to be performed in the following circumstances:

(i) The asbestos projects are unplanned operation and maintenance activities;

(ii) The asbestos projects are less than NESHAP-sized; and

(iii) The total amount of asbestos to be disturbed in a single facility during these asbestos projects is expected to exceed the NESHAP amount in a calendar year.

R307-801-12. Renovation and Demolition: Notification Procedures and Contents.

(1) All notifications required by R307-801 shall be in writing on the appropriate form provided by the executive secretary and shall be postmarked or received by the Division by the date specified. The type of notification and whether the notification is original or revised shall be indicated.

(2) If the notification is an original notification of demolition, an original asbestos notification for a NESHAP-sized asbestos project, or an original annual notification, the written notice shall be sent with an original signature by U.S. Postal Service, commercial delivery service, or hand delivery. If U.S. Postal Service is used, the submission date is the postmark date. If other service or hand delivery is used, the submission date is the date that the document is received at the Division.

(3) An original asbestos notification for a less than NESHAP-sized asbestos project or any revised notification may be submitted by any of the methods in (2), or by facsimile, by the date specified in R307-801-11. The sender shall ensure that the fax is legible.

(4) All original notifications shall contain the following information:

(a) The name, address, and telephone number of the owner of the structure, and of any contractor working on the project;

(b) Whether the operation is a demolition or a renovation project;

(c) A description of the structure that includes the size in square feet or square meters, the number of floors, the age, and the present and prior uses of the structure;

(d) The procedures, including analytical methods, used to inspect for the presence of ACM;

(e) The location and address, including building number or name and floor or room number, street address, city, county, state, and zip code of the structure being demolished or renovated;

(f) A description of procedures for handling the discovery of unexpected ACM or of nonfriable ACM that has become friable or regulated;

(g) A description of planned demolition or renovation work, including the demolition and renovation techniques to be used and a description of the affected structural components.

(5) In addition to the information in (4) above, an original

demolition notification shall contain the following information:

(a) An estimate of the amount of non-friable and non-regulated ACM that will not become regulated as a result of demolition activities and that will remain in the building during demolition;

(b) The starting and ending dates of demolition activities; and

(c) If the structure will be demolished under an order of a state or local government agency, the name, title, and authority of the government representative ordering the demolition, the date the order was issued, and the date the demolition was ordered to commence. A copy of the order shall be attached to the notification.

(6) In addition to the information in (4) and (5) above, an original asbestos notification or an annual notification shall contain the following information:

(a) An estimate of the approximate amount of ACM to be stripped, including which units of measure were used;

(b) The scheduled starting and completion dates of asbestos removal work in a renovation or demolition;

(c) The beginning and ending dates for preparation and asbestos removal, and of renovation activities if applicable;

(d) If an emergency renovation operation will be performed, the date and hour the emergency occurred, a description of the event and an explanation of how the event has caused unsafe conditions or would cause equipment damage or unreasonable financial burden;

(e) A description of work practices and engineering controls to be used to prevent emissions of asbestos at the demolition or renovation work site;

(f) The name and location of the waste disposal site where the asbestos waste will be deposited, including the name and telephone number of the waste disposal site contact;

(g) The name, address, contact person, and phone number of the waste transporters; and

(h) The name, contact person, and phone number of the person receiving the waste shipment record as required by 40 CFR 61.150(d)(1).

(7) A revised notification shall contain the following information:

(a) The name, address, and telephone number of the owner of the structure, and any demolition or asbestos abatement contractor working on the project;

(b) Whether the operation is a demolition or a renovation project;

(c) The date that the original notification was submitted;

(d) The applicable original start and stop dates for asbestos removal, renovation, or demolition;

(e) Revised start and stop dates, if applicable, for asbestos removal or demolition activities;

(f) Changes in amount of asbestos to be removed, if applicable; and

(g) All other changes.

(8) If a NESHAP-sized asbestos project that requires a notification under (4) above or a demolition project that requires a notification under (4) above will commence on a date other than the date submitted in the original written notification, the executive secretary shall be notified of the new starting date by the following deadlines.

(a) If the new starting date is later than the original starting date, notice by telephone shall be given as soon as possible before the original starting date and a revised notice shall be submitted in accordance with R307-801-12(7) as soon as possible before, but no later than, the original starting date.

(b) If the new starting date is earlier than the original starting date, submit a written notice in accordance with R307-801-12(7) at least ten working days before beginning the project.

(c) In no event shall an asbestos project covered by this

subsection begin on a date other than the new starting date submitted in the revised written notice.

R307-801-13. Renovation and Demolition: Requirements for Certified Workers.

(1) A supervisor who has been certified under R307-801 shall be on site during asbestos project setup, asbestos removal, stripping, cleaning and dismantling of the project, and other handling of uncontainerized RACM.

(2) All persons handling greater than the SSSD amount of uncontainerized RACM shall be workers or supervisors certified under R307-801.

R307-801-14. Renovation and Demolition: Asbestos Work Practices.

(1) Persons performing any asbestos project shall follow the work practices in this subsection. Where the work practices in R307-801-14(1) and (2) are required, wrap and cut, open top catch bags, glove bags, and mini-enclosures may be used in combination with those work practices.

(a) Adequately wet RACM with amended water before exposing or disturbing it.

(b) Install barriers and post warning signs to prevent access to the work area. Warning signs shall conform to the specifications of 29 CFR 1926.1101(k)(7).

(c) Keep RACM adequately wet until it is containerized and disposed of in accordance with R307-801-15.

(d) Ensure that RACM that is stripped or removed is promptly containerized.

(e) Prevent visible particulate matter and uncontainerized asbestos-containing debris and waste originating in the asbestos work area from being released outside of the negative pressure enclosure or designated work area.

(f) Filter all waste water to 5 microns before discharging it to a sanitary sewer.

(g) Decontaminate the outside of all persons, equipment and waste bags before they leave the work area.

(h) Apply encapsulant to RACM that is exposed but not removed during stripping.

(i) Clean the work area, drop cloths, and other interior surfaces of the enclosure using HEPA vacuum and wet cleaning techniques until there is no visible residue before dismantling barriers.

(j) After cleaning and before dismantling enclosure barriers, mist the space and surfaces inside of the enclosure with a penetrating encapsulant designed for that purpose.

(k) Handle and dispose of friable ACM or RACM according to the disposal provisions of R307-801.

(2) All operators of NESHAP-sized asbestos projects shall install a negative pressure enclosure using the following work practices.

(a) All openings to the work area shall be covered with at least one layer of 6 mil or thicker polyethylene sheeting sealed with duct tape or an equivalent barrier to air flow.

(b) If RACM debris is present, the site shall be prepared by removing the debris using the work practice and disposal requirements of R307-801. If the total amount of loose visible RACM debris throughout the entire work area is less than the SSSD amount, then site preparation may begin after notification and before the end of the ten-day waiting period.

(c) All persons shall enter and leave the negative pressure enclosure or work area only through the decontamination unit.

(d) All persons subject to R307-801 shall shower before entering the clean-room of the decontamination unit when exiting the enclosure.

(e) No materials may be removed from the enclosure or brought into the enclosure through any opening other than a waste load-out or a decontamination unit.

(f) The negative pressure enclosure of the work area shall

be constructed with the following specifications:

(i) Apply at least two layers of 6 mil or thicker polyethylene sheeting or its equivalent to the floor extending at least one foot up every wall and seal in place with duct tape or its equivalent;

(ii) Apply at least 2 layers of 4 mil or thicker polyethylene sheeting or its equivalent to the walls without locating seams in wall or floor corners;

(iii) Seal all seams with duct tape or its equivalent; and

(iv) Maintain the integrity of all enclosure barriers.

(v) Where a wall or floor will be removed as part of the asbestos project, polyethylene sheeting need not be applied to that component.

(g) View ports shall be installed in the enclosure or barriers where feasible. View ports shall be:

(i) At least one foot tall and one foot wide;

(ii) Made of clear material that is impermeable to the passage of air, such as an acrylic sheet;

(iii) Positioned so as to maximize the view of the inside of the enclosure from a position outside the enclosure; and

(iv) Accessible to a person outside of the enclosure.

(h) A decontamination unit shall be constructed according to the following specifications:

(i) The unit shall be attached to the enclosure or work area;

(ii) The decontamination unit shall consist of at least 3 chambers as specified by 29 CFR 1926.1101(j)(1);

(iii) The clean room, which is the chamber that opens to the outside, shall be no less than 3 feet wide by 3 feet long;

(iv) The dirty room, which is the chamber that opens to the negative pressure enclosure or the designated work area, shall be no less than 3 feet wide by 3 feet long;

(v) The dirty room shall be provided with an accessible waste bag at any time that asbestos work is being done.

(i) A separate waste load-out following the specifications below may be attached to the enclosure for removal of decontaminated waste containers and decontaminated or wrapped tools from the enclosure.

(i) The waste load-out shall consist of at least one chamber constructed of 6 mil or thicker polyethylene walls and 6 mil or thicker polyethylene flaps or the equivalent on the outside and inside entrances;

(ii) The waste load-out chamber shall be at least 3 feet long, 3 feet high, and 3 feet wide; and

(iii) The waste load-out supplies shall be sufficient to decontaminate bags, and may include a water supply with filtered drain, clean rags and clean bags.

(j) Negative air pressure and flow shall be established and maintained within the enclosure by:

(i) Maintaining four air changes per hour in the enclosure;

(ii) Routing the exhaust from HEPA filtered ventilation units to the outside of the structure whenever possible;

(iii) Maintaining a minimum of 0.02 column inches of water pressure differential relative to outside pressure; and

(iv) Maintaining a monitoring device to measure the negative pressure in the enclosure.

(3) In lieu of two layers of polyethylene on the walls and the floors as required by R307-801-(2)(f)(i) and (ii), the following work practices and controls may be used only under the circumstances described below:

(a) If an asbestos project is conducted in a crawl space or pipe chase and the available space is less than 6 feet high or is less than 3 feet wide, then the following may be used:

(i) Drop cloths extending at least 6 feet around all RACM to be removed, or extended to a wall and attached with duct tape or equivalent; and

(ii) Either glovebags, wrap and cut, or the open top catch bag method must be used. The open top catch bag method may be used only if the material to be removed is pre-formed RACM pipe insulation.

(b) Scattered ACM. If the RACM is scattered in small patches, such as isolated pipe fittings, the following procedures may be used.

(i) Glovebags, mini-enclosures as described in R307-801-14(5), or wrap and cut methods with drop cloths large enough to capture all RACM fragments that fall from the work area may be used.

(ii) If all asbestos disturbance is limited to the inside of negative pressure glovebags or mini-enclosure, then openings need not be sealed and negative pressure need not be maintained outside of the glovebags or mini-enclosure during the asbestos removal operation.

(iii) A remote decontamination unit may be used as described in R307-801-14(5)(d) only if an attached decontamination unit is not feasible.

(4) During outdoor asbestos projects, the work practices of R307-801-8 shall be followed, with the following modifications:

(a) Negative pressure need not be maintained if there is not an enclosure;

(b) Six mil polyethylene or equivalent drop cloth large enough to capture all RACM fragments that fall from the work area shall be used; and

(c) A remote decontamination unit as described in R307-801-14(5)(d) may be used.

(5) Special work practices.

(a) If the wrap and cut method is used:

(i) The component shall be cut at least 6 inches from any RACM on that component;

(ii) If asbestos will be removed from the component to accommodate cutting, the asbestos removal shall be done using a single glove bag for each cut, and no RACM shall be disturbed outside of a glove bag;

(iii) The wrapping shall be leak tight and shall consist of two layers of 6 mil polyethylene, each individually sealed with duct tape, and all RACM between the cuts shall be sealed inside wrap; and

(iv) The wrapping shall remain intact and leak-tight throughout the removal and disposal process.

(b) If the open top catch bag method is used:

(i) Asbestos waste bags that are leak tight and strong enough to hold contents securely shall be used;

(ii) The bag shall be placed underneath the stripping operation to minimize ACM falling onto the drop cloth;

(iii) All material stripped from the component shall be placed in the bag;

(iv) One worker shall hold the bag and another worker shall strip the ACM into the bag; and

(v) A drop cloth large enough to capture all RACM originating in the work area shall be used.

(c) If glove bags are used, they shall be negative pressure, and the procedures required by 29 CFR 1926.1101(g)(5) shall be followed.

(d) A remote decontamination unit may be used under the conditions set forth in R307-801-14(3)(b) or (4), or when approved by the executive secretary. The remote decontamination unit and procedures shall include:

(i) Outerwear shall be HEPA vacuumed or removed, and additional clean protective outerwear shall be put on;

(ii) Either polyethylene sheeting shall be placed on the path to the decontamination unit and the path shall be blocked or taped off to prevent public access, or workers shall be conveyed to the remote decontamination unit in a vehicle that has been lined with two layers of 6 mil or thicker polyethylene sheeting or its equivalent; and

(iii) The polyethylene path or vehicle liner shall be removed at the end of the project, and disposed of as asbestos waste.

(e) Mini-enclosures, when used under approved

conditions, shall conform to the requirements of 29 CFR 1926.1101(g)(5)(vi).

R307-801-15. Disposal and Handling of Asbestos Waste.

- (1) Containerize ACWM while adequately wet.
- (2) Asbestos waste containers shall be leak-tight and strong enough to hold contents securely.
- (3) Containers shall be labeled with the waste generator's name, address, and phone number, and the contractor's name and address, before they are removed from the work area.
- (4) Containerized RACM shall be disposed of at a landfill which complies with 40 CFR 61.150.
- (5) The waste shipment record shall include a list of items and the amount of asbestos waste being shipped. The waste generator originates and signs this document.

R307-801-16. Records.

- (1) Certified asbestos companies shall maintain records of all asbestos projects that they perform and shall make these records available to the executive secretary upon request. The records shall be retained for at least five years. Maintained records shall include the following:
 - (a) Names and state certification numbers of the asbestos workers and supervisors who performed the asbestos project;
 - (b) Location and description of the asbestos project and amount of Friable ACM removed;
 - (c) Starting and completion dates of the asbestos project;
 - (d) Summary of the procedures used to comply with applicable requirements including copies of all notifications; and
 - (e) Waste shipment records maintained in accordance with 40 CFR Part 61, Subpart M, NESHAP.
 - (f) Asbestos surveys associated with the asbestos project.
- (2) All other persons subject to the inspection requirements of R307-801-9 shall maintain copies of asbestos survey reports for at least one year after renovation or demolition activities have ceased, and shall make these reports available to the executive secretary upon request.

R430. Health, Health Systems Improvement, Child Care Licensing.**R430-2. General Licensing Provisions, Child Care Facilities.****R430-2-1. Authority and Purpose.**

This rule is adopted pursuant to Title 26, Chapter 39. It defines the standards that a person(s) must follow to obtain a license for a child care facility.

R430-2-2. Informal Discussions.

Independent of any administrative proceeding, an applicant may request, within 30 days, to discuss a Department decision with Department staff.

R430-2-3. Initial Application.

(1) An applicant for a license shall submit to the Utah Department of Health a completed license application on a form furnished by the Department.

(2) Each applicant shall comply with all regulations, ordinances, and codes, zoning, fire, safety, sanitation, building and licensing laws of the city and county in which the facility is located. The applicant shall obtain the following clearances and submit them to the Department as part of the application:

(a) a certificate of fire clearance from the State Fire Marshal or designated local fire authority certifying compliance with local and state fire codes;

(b) a satisfactory report by a local health department for facilities providing food service; and

(c) a current local business license if required.

(3) The applicant shall:

(a) list all officers, members of the boards of directors, trustees, stockholders, partners, or other persons who have a greater than 25 percent interest in the facility;

(b) provide the name, address, percentage of stock, shares, partnership, or other equity interest of each person; and

(c) list, for all owners, all child care facilities in the state or other states in which they are officers, directors, trustees, stockholders, partners, or in which they hold any interest.

(4) The applicant shall provide the following written assurances on all individuals listed in R430-2-3(3):

(a) none of the persons has been convicted of a felony;

(b) none of the persons has been found in violation of any local, state, or federal law which arises from or is otherwise related to the individual's relationship to a child care facility;

(c) none of the persons within the five years prior to the date of application had an interest in a licensed child care facility that has been closed as a result of a settlement agreement resulting from a license revocation; and

(d) none of the persons has been convicted of child abuse, neglect, or exploitation.

(5) The applicant shall submit background clearance documents as required in R430-6.

(6) The applicant shall submit with the completed application a non-refundable license fee as established in accordance with Subsection 26-39-104(1)(c).

R430-2-4. Initial License Issuance or Denial.

(1) The Department shall render a decision on an initial license application within 60 days of receipt of a complete application.

(2) The applicant must pay fees and reapply for a license if the applicant does not complete the application including all necessary submissions within six months of first submitting any portion of an application.

(3) Upon verification of compliance with licensing rules, the Department shall issue a license.

(4) The licensed capacity shall be limited by the square footage of usable space throughout the center. There shall be at least 35 square feet per child.

(a) Bathrooms, closets, lockers, staff desks, stationary

storage units, hallways, corridors, alcoves, vestibules, kitchens, offices, and napping rooms shall not be included in calculating indoor play space. However furniture, fixtures, or equipment used by children, for the care of children, and to store classroom materials shall be included in calculating indoor play space.

(b) Licensed capacities shall not exceed those set forth by local ordinances.

(c) The number of children in care at any given time shall not exceed the capacity identified on the license.

(5) The Department shall issue a written decision denying a license if the applicant and the facility are not in compliance with the rules.

(6) Pursuant to R501-12-4(8)(h), a provider may not be licensed to provide foster care and child care at the same time.

R430-2-5. License Extension.

A licensee that fails to renew its license by the license expiration date may have an additional 30 days to complete the renewal if the licensee pays a late fee.

R430-2-6. Expiration and Renewal.

(1) Each license expires at midnight on the day designated on the license as the expiration date, unless previously revoked by the Department.

(2) The licensee shall submit a completed license application, applicable fees and a satisfactory report by a local health department for facilities providing food service to the Department 30 days before the current license expires.

(3) The Department shall not renew a license for a child care facility that discontinues child care services.

R430-2-8. Change of Ownership.

(1) A licensee whose ownership or controlling interest has changed must submit a completed license application, applicable clearances, and fees to the Department 30 days prior to the proposed change. The licensee shall obtain the following clearances and submit them to the Department as part of the application:

(a) a certificate of fire clearance from the State Fire Marshal or designated local fire authority certifying compliance with local and state fire codes;

(b) a satisfactory report by a local health department for facilities providing food service; and

(c) a current local business license if required.

(2) A change in ownership that requires action under subsection (1) includes any change that:

(a) transfers the business enterprise to another person or firm;

(b) is a merger with another business entity if the directors or principals in the merged entity differs by 49 percent or more from the directors or principals of the original licensee; or

(d) creates a separate corporation, including a wholly owned subsidiary, if the board of directors of the separate corporation differs by 49 percent or more from the board of the original licensee.

(3) A transfer between departments of government agencies for management of a government-owned childcare facility is not a change of ownership.

(4) Before the Department may issue a new license for a change of ownership, the prospective licensee shall document that:

(a) all documents required by rules applicable to the prior licensee remain in the facility and have been transferred to the custody of the new licensee; and

(b) the prospective licensee has adopted the existing policies and procedures manual or a new manual has been approved by the Department and adopted by the facility governing body before the change of ownership occurs;

(5) The Department shall not issue a new license until the

prospective licensee corrects all previously cited and not yet corrected violations. The prospective licensee may request a new correction date before the change of ownership becomes effective.

(6) When the Department verifies that the facility is in compliance with all licensing rules, the Department shall issue a new license effective the date that the Department determines compliance.

R430-2-9. Change in License.

(1) The licensee shall submit a completed license application to amend or modify an existing license at least 30 days before any of the following proposed or anticipated changes:

- (a) increase or decrease of licensed capacity;
- (b) change in name of facility;
- (c) change in license category;
- (d) change of license classification;
- (e) change in center director;
- (f) change in name of licensee; and
- (g) change in area where child care is provided or a change in interior usable play space.

(2) An increase of licensed capacity may require payment of an additional license fee. This fee is the difference in the license fee for the existing and proposed capacities.

(3) The Department may issue an amended license when the Department verifies that the licensee and facility are in compliance with all licensing rules. The expiration date of the amended license remains the same as the prior license.

R430-2-10. License Transferability, Posting.

- (1) A license is not assignable or transferable.
- (2) The licensee shall post the license on the facility premises in a place readily visible and accessible to the public.

R430-2-11. Voluntary Closure.

A licensee that voluntarily ceases operation shall:

- (1) notify the Department and the children's families at least 30 days before the effective date of closure; and
- (2) make provision for the safe keeping of records.

KEY: child care facilities

February 6, 2006

Notice of Continuation December 19, 2002

26-39

26-21-12

26-21-13

R430. Health, Health Systems Improvement, Child Care Licensing.**R430-3. General Child Care Facility Rules Inspection and Enforcement.****R430-3-1. Legal Authority and Purpose.**

This rule is adopted pursuant to Title 26, Chapter 39. It delineates the role and responsibility of the Department in the enforcement of rules pertaining to health and safety in all child care facilities regulated by Title 26, Chapter 39. It provides criteria to ensure that sanctions are applied consistently and appropriately.

R430-3-2. Informal Discussions.

Independent of any administrative proceeding, a licensee may request, within 30 days, to discuss a Department decision with Department staff.

R430-3-3. Definitions.

- (1) "Deficiency" means a violation of any rule provision.
- (2) "Department" means the Department of Health.
- (3) "Facility" means the building and adjacent property, equipment, and supplies devoted to the child care operation.
- (4) "High Risk for Harm" means there is the potential for serious injury to a child.
- (5) "Inspection" means observation, measurement, review of documentation, and interview to determine compliance with rules.
- (6) "Investigation" means an in-depth inspection of specific alleged rule violations.
- (7) "Licensee" means the legally responsible person, people, program, or agency that hold a valid Department of Health issued child care license.
- (8) "Statement of Findings" means a statement of one or more specific rule violations which, if not corrected, will prompt the Department to take disciplinary action.
- (9) "Technical Assistance" means the noting of a rule violation and providing information on how to come into compliance.

R430-3-4. Compliance Assurance.

- (1) The Department shall conduct an announced and unannounced inspection of each licensed facility to:
 - (a) determine compliance with rules;
 - (b) verify compliance with conditions placed on a license in a conditional status; and
 - (c) verify compliance with variance conditions.
- (2) If allegations of rule violations are reported to the Department, the Department shall conduct a complaint investigation.
 - (a) The Department shall not investigate complaints from an anonymous source.
 - (b) The Department shall inform complainants that they are guilty of a class B misdemeanor if they are giving false information to the Department with the purpose of inducing a change in a licensing status.

R430-3-5. Technical Assistance.

If the Department finds a deficiency that does not pose a high risk for harm:

- (1) the Department shall offer technical assistance; and
- (2) the licensee shall provide a date by which correction must be made.
 - (a) The correction date shall not exceed 30 days from the date of the inspection.
 - (b) The licensee may request a correction date of more than 30 days if circumstances outside the licensee's control prevent compliance within 30 days.

R430-3-6. Statement of Findings.

(1) If a licensee does not correct a deficiency by the correction date provided in R430-3-5(2), the Department shall issue a statement of findings that includes:

- (a) a citation to the violated rule;
 - (b) a description of the violation with the facts which constitute the violation; and
 - (c) the date by which correction must be made.
- (i) The correction date shall not exceed 30 days from the date of the subsequent inspection.

(ii) The licensee may request a correction date of more than 30 days if circumstances outside the licensee's control prevent compliance within 30 days.

(2) If a licensee violates a rule for which the licensee previously received technical assistance, the Department shall issue a statement of findings that includes:

- (a) a citation to the violated rule;
 - (b) a description of the violation with the facts which constitute the violation; and
 - (c) the date by which the correction must be made.
- (i) The correction date shall not exceed 30 days from the date of the inspection.

(ii) The licensee may request a correction date of more than 30 days if circumstances outside the licensee's control prevent compliance within 30 days.

(3) If a licensee violates a rule that creates a high risk for harm, the Department shall issue a statement of findings that includes:

- (a) a citation to the violated rule;
- (b) a description of the violation with the facts which constitute the violation; and
- (c) the date by which the correction must be made which shall not exceed 30 days from the date of the inspection.

R430-3-7. Directed Plan of Correction.

The Department may issue a directed plan of correction that specifies how and when cited findings will be corrected if a licensee:

- (1) fails to comply by the correction date specified in R430-3-6; or
- (2) violates the same rule provision more than three times within any 12-month period.

R430-3-8. Conditional Status.

- (1) The Department may place a license on a conditional status to assist the licensee to comply with rules if the licensee:
 - (a) fails to comply with rules by correction date specified in R430-3-6;
 - (b) violates the same rule provision more than three times within any 12-month period; or
 - (c) violates multiple rule provisions.
- (2) The Department shall establish the length of the conditional status.
- (3) The Department shall set the conditions that the licensee must satisfy to remove the conditional status.
- (4) The Department shall return the license to a standard status when the licensee meets the conditions of the conditional status.

R430-3-9. Revocation.

- (1) The Department may revoke a license if the licensee:
 - (a) fails to meet the conditions of a conditional status;
 - (b) violates the Child Care Licensing Act;
 - (c) provides false or misleading information to the Department;
 - (d) refuses to submit or make available to the Department any written documentation required to do an inspection or investigation;
 - (e) refuses to allow authorized representatives of the Department access to a facility to ascertain compliance to rules;

(f) fails to provide, maintain, equip, and keep the facility in a safe and sanitary condition; or

(g) has committed acts that would exclude a person from being licensed or certified under R430-6.

(2) The Department may set the effective date of the revocation such that parents are given 10 business days to find other care for children.

R430-3-10. Immediate Closure.

The Department may order the immediate closure of a facility if conditions create a clear and present danger to children in care and which require immediate action to protect their health or safety.

R430-3-11. Death or Serious Injury of a Child in Care.

The Department may order a provider to restrict or prohibit new enrollments if the Department learns of the death or serious injury of a child in care, pending the review of the Child Fatality Review Committee or receipt of a medical report determining the probable cause of death or injury.

R430-3-12. Operating without a License.

If a person is providing care in lieu of care ordinarily provided by parents for more than four unrelated children without the appropriate license or certificate, the Department may:

- (1) issue a cease and desist order; or
- (2) allow the person to continue operation if:

(a) the person was unaware of the need for a license or certificate;

(b) conditions do not create a clear and present danger to children in care; and

(c) the person agrees to apply for the appropriate license or certificate within 30 calendar days of notification by the Department.

R430-3-13. Deemed Status.

The Department may grant deemed status to facilities accredited by the National Academy of Early Childhood Programs or National Accreditation Commission for Early Care and Education Programs, National Association for Family Child Care or National Early Childhood Program Accreditation or the National After School Association in lieu of the licensing inspection by the Department upon completion of the following:

(1) As part of the license renewal process, the licensee must indicate on the license application its desire to initiate or continue deemed status.

(2) This request constitutes written authorization for the Department to attend the provider's exit conference with the accrediting agency.

(3) Upon receipt from the accrediting agency, the licensee shall submit copies of the following:

- (a) accreditation certificate;
- (b) survey reports and recommendations; and
- (c) progress reports of all corrective actions underway or completed in response to the accrediting body's action or Department recommendations.

(4) The Department may exercise its regulatory responsibility and authority regardless of the facility's deemed status.

(5) The Department may exercise its regulatory responsibility and authority regardless of the facility's deemed status.

R430-3-14. Variances.

(1) If a licensee or applicant cannot comply with a rule but can meet the intent of the rule in another way, he may apply for a variance to that rule. The Department cannot issue a variance to the background screening requirements of Section 26-39-107 and R430-6.

(2) A licensee or applicant requesting a variance shall submit a completed variance request form to the Department.

The requests must include:

- (a) the name and address of the facility;
- (b) the rule from which the variance is being sought;
- (c) the time period for which the variance is being sought;
- (d) a detailed explanation of why the rule cannot be met;
- (e) the alternative means for meeting the intent of the rule;
- (f) how the health and safety of the children will be ensured; and

(g) other justification that the licensee or applicant desires to submit.

(3) The Department may require additional information before acting on the request.

(4) The Department shall act upon each request for a variance within 60 days of the receipt of the completed request and all additional information required by the Department.

(5) If the Department approves the request, the licensee shall keep a copy of the approved variance on file in the facility and make it publicly available.

(6) The Department may grant variances for up to 12 months.

(7) The Department may impose health and safety conditions upon granting a variance.

(8) The Department may revoke a variance if:

(a) the provider is not meeting the intent of the varied rule by the documented alternative means;

(b) the facility fails to comply with the conditions of the variance; or

(c) a change in statute, rule, or case law affects the justification for the variance.

R430-3-15. Statutory Penalties.

(1) A violation of any rule is punishable by administrative civil money penalty of up to \$5,000 per day as provided in Utah Code Section 26-39-108 or other civil penalty of up to \$5,000 per day or a class B misdemeanor on the first offense and a class A misdemeanor on the second offense as provided in Utah Code, Title 26, Chapter 23.

(2) The Department may impose an administrative civil money penalty of up to \$100 per day to a maximum of \$10,000 for unlicensed or uncertified child care.

(3) The Department may impose an administrative civil money penalty of up to \$100 per day to a maximum of \$10,000 for each violation of the Child Care Licensing Act or the rules promulgated pursuant to that act.

(4) Any person intentionally making false statements or reports to the Department may be fined \$100 for each violation to a maximum of \$10,000.

(5) Assessment of any civil money penalty does not preclude the Department from also taking action to deny, revoke, condition, or refuse to renew a license or certificate.

(6) Assessment of any administrative civil money penalty under this section does not preclude injunctive or other equitable remedies.

(7) Within 10 working days after receipt of a negative licensing action or imposition of a fine, each child care program must provide the Department with the names and mailing addresses of parents or legal guardians of each child cared for at the facility so the Department can notify the parents and guardians of the negative licensing action.

KEY: child care facilities

February 6, 2006

Notice of Continuation December 19, 2002

26-39

R430. Health, Health Systems Improvement, Child Care Licensing.**R430-4. General Certificate Provisions.****R430-4-1. Legal Authority and Purpose.**

This rule is promulgated pursuant to Title 26, Chapter 39. It defines the standards that a person must follow to obtain a residential certificate for child care. This rule further delineates the role and responsibility of the Department in the enforcement of rules pertaining to a Residential Certificate provider and provides criteria for applying sanctions.

R430-4-2. Informal Discussions.

Independent of any administrative proceeding, an applicant or certificate holder may request, within 30 days, to discuss a Department decision with Department staff.

R430-4-3. Definitions.

(1) "Certificate Holder" means the legally responsible person who holds a valid Residential Certificate issued by the Department of Health.

(2) "Deficiency" means a violation of any rule provision.

(3) "Department" means the Department of Health.

(4) "Facility" means the building and adjacent property, equipment, and supplies devoted to the child care operation.

(5) "High Risk for Harm" means there is the potential for serious injury to a child.

(6) "Inspection" means observation, measurement, review of documentation, and interview to determine compliance with rules.

(7) "Investigation" means an in-depth inspection of specific alleged rule violations.

(8) "Statement of Findings" means a statement of one or more specific rule violations which, if not corrected, will prompt the Department to take disciplinary action.

(9) "Technical Assistance" means the noting of a rule violation and providing information on how to come into compliance.

R430-4-4. Initial Application.

(1) An applicant for a certificate shall submit to the Utah Department of Health a completed residential certificate application on a form furnished by the Department.

(2) Each applicant shall comply with all regulations, ordinances, and codes, zoning, fire, sanitation, building and licensing laws, of the city, county, municipality in which the home is located.

(3) The applicant shall submit the following documentation as part of the application:

(a) five hours of Department-approved training in child care;

(b) current CPR and First Aid certificates from a Department-approved source; and

(c) background clearance documents as required in R430-6.

(4) The applicant shall submit with the application packet a non-refundable fee as established in accordance with 26-39-104(1)(c).

R430-4-5. Initial Certificate Issuance or Denial.

(1) The Department shall render a decision on an initial residential certificate application within 60 days of receipt of a completed application.

(2) The applicant must reapply for a residential certificate if the applicant does not complete the application including all necessary submissions within six months of first submitting any portion of an application.

(3) Upon verification of compliance with rules, the Department shall issue a residential certificate for a period not to exceed one year.

(4) The Department shall issue a written decision denying a residential certificate application if the applicant and the facility are not in compliance with rules.

(5) The capacity for a residential certificate shall not exceed those set forth by local ordinances.

(6) The number of children in care at any given time shall not exceed the capacity identified on the certificate.

(7) Pursuant to R501-12-4(8)(h), a provider may not have a residential certificate to do child care and a license to do foster care at the same time.

R430-4-6. Expiration and Renewal of Certificate.

(1) Each residential certificate expires at midnight on the day designated on the certificate, unless previously revoked by the Department.

(2) The certificate holder shall submit a completed residential certificate application and applicable fees to the Department 30 days prior to the current certificate expiration.

(3) A certificate holder that fails to renew its certificate by the certificate expiration date may have an additional 30 days to complete the renewal if the certificate holder pays a late fee.

(4) The Department shall not renew a residential certificate for a facility that is no longer providing child care.

R430-4-7. Change in Residential Certificate.

The certificate holder shall submit a completed residential certificate application to amend or modify an existing certificate at least 30 days before any of the following proposed or anticipated changes:

(1) increase or decrease of the certificate capacity;

(2) change in the name of the facility;

(3) change in the name of the certificate holder;

(4) change in the address; and

(5) change in area where child care is provided or a change in interior usable space.

R430-4-8. Residential Certificate Transferability, Posting.

(1) The certificate is not transferable.

(2) The certificate holder shall post the certificate on the premises in a place that is readily visibly and accessible to the public.

R430-4-9. Notice of Intent to Inspect.

When the Department issues or renews a residential certificate, it will schedule a compliance inspection within 90 days.

R430-4-10. Compliance Assurance.

(1) The Department shall conduct an announced and unannounced inspection of each certified facility to:

(a) determine compliance with rules;

(b) verify compliance with conditions placed on a certificate in a conditional status; and

(c) verify compliance with variance conditions.

(2) If allegations of child abuse, child neglect or serious health hazards in or around the provider's home (see UCA 26-39-105.5(1)(d)) are reported to the Department, the Department shall conduct a complaint investigation.

(a) The Department shall not investigate complaints from an anonymous source.

(b) The Department shall inform complainants that they are guilty of a class B misdemeanor if they are giving false information to the Department with the purpose of inducing a change in a certification status.

R430-4-11. Technical Assistance.

If the Department finds a deficiency that does not pose a high risk for harm:

(1) the Department shall offer technical assistance; and

(2) the certificate holder shall provide a date by which correction must be made.

(a) The correction date shall not exceed 30 days from the date of the inspection.

(b) The certificate holder may request a correction date of more than 30 days if circumstances outside the certificate holder's control prevent compliance within 30 days.

R430-4-12. Statement of Findings.

(1) If a certificate holder does not correct a deficiency by the correction date provided in R430-4-11(2), the Department shall issue a statement of findings that includes:

(a) a citation to violated rule;

(b) a description of the violation with the facts which constitute the violation; and

(c) a date by which the correction must be made.

(i) The correction date shall not exceed 30 days from the date of the inspection.

(ii) The certificate holder may request a correction date of more than 30 days if circumstances outside the certificate holder's control prevent compliance within 30 days.

(2) If a certificate holder violates a rule for which the certificate holder previously received technical assistance, the Department shall issue a statement of findings that includes:

(a) a citation to the violated rule;

(b) a description of the violation with the facts which constitute the violation; and

(c) a date by which the correction must be made.

(i) The correction date shall not exceed 30 days from the date of the inspection.

(ii) The certificate holder may request a correction date of more than 30 days if circumstances outside the certificate holder's control prevent compliance within 30 days.

(3) If a certificate holder violates a rule that creates a high risk for harm, the Department shall issue a statement of findings that includes:

(a) a citation to the violated rule;

(b) a description of the violation with the facts which constitute the violation; and

(c) a date by which the correction must be made which shall not exceed 30 days from the date of the inspection.

(5) If the provider elects not to correct any deficiency, letters outlining the deficiency are sent to the parents or guardians of all enrolled children and to all outside supporting agencies.

(6) If the Department discovers deficiencies as the result of a complaint investigation, the provider cannot elect not to correct.

R430-4-13. Directed Plan of Correction.

The Department may issue a directed plan of correction that specifies how and when cited findings will be corrected if a certificate holder:

(1) fails to be in compliance after a correction date specified in R430-4-12; or

(2) violates the same rule provision more than three times within any 12-month period.

R430-4-14. Conditional Status.

(1) The Department may place a certificate on a conditional status to assist the certificate holder to comply with rules if the certificate holder:

(a) fails to comply with rules by a correction date specific in R430-4-12;

(b) violates the same rule provision more than three times within any 12-month period; or

(c) violates multiple rule provisions.

(2) The Department shall establish the length of the conditional status.

(3) The Department shall set the conditions that the certificate holder must satisfy to remove the conditional status.

(4) The Department shall return the certificate to a standard status when the certificate holder meets the conditions of the conditional status.

R430-4-15. Revocation.

(1) The Department may revoke a certificate if the certificate holder:

(a) fails to meet the conditions of a conditional status;

(b) violates the Child Care Licensing Act;

(c) provides false or misleading information to the Department;

(d) refuses to submit or make available to the Department any written documentation required to do an inspection or investigation;

(e) refuses to allow authorized representatives of the Department access to a facility to ascertain compliance to rules;

(f) fails to provide, maintain, equip, and keep the facility in a safe and sanitary condition; or

(g) has committed acts that would exclude a person from being licensed or certified under R430-6,

(2) The Department may set the effective date of the revocation such that parents are given 10 business days to find other care for children.

R430-4-16. Immediate Closure.

The Department may order the immediate closure of a facility if conditions create a clear and present danger to children in care and which require immediate action to protect their health or safety.

R430-4-17. Death or Serious Injury of a Child in Care.

The Department may order a provider to restrict or prohibit new enrollments if the Department learns of the death or serious injury of a child in care, pending the review of the Child Fatality Review Committee or receipt of a medical report determining the probable cause of death or injury.

R430-4-18. Operating without a Residential Certificate.

If a person is providing care in lieu of care ordinarily provided by parents for more than four unrelated children without the appropriate license or certificate, the Department may:

(1) issue a cease and desist order; or

(2) allow the person to continue operation if:

(a) the person was unaware of the need for a license or certificate;

(b) conditions do not create a clear and present danger to children in care; and

(c) the person agrees to apply for the appropriate license or certificate within 30 calendar days of notification by the Department.

R430-4-19. Variances.

(1) If a certificate holder or applicant cannot comply with a rule but can meet the intent of the rule in another way, he may apply for a variance to that rule. The Department cannot issue a variance to the background screening requirements of Section 26-39-107 and R430-6.

(2) A certificate holder or applicant requesting a variance shall submit a completed variance request form to the Department. The requests must include:

(a) the name and address of the facility;

(b) the rule from which the variance is being sought;

(c) the time period for which the variance is being sought;

(d) a detailed explanation of why the rule cannot be met;

(e) the alternative means for meeting the intent of the rule;

(f) how the health and safety of the children will be

ensured; and

(g) other justification that the certificate holder or applicant desires to submit.

(3) The Department may require additional information before acting on the request.

(4) The Department shall act upon each request for a variance within 60 days of the receipt of the completed request and all additional information required by the Department.

(5) If the Department approves the request, the certificate holder shall keep a copy of the approved variance on file in the facility and make it publicly available.

(6) The Department may grant variances for up to 12 months.

(7) The Department may impose health and safety conditions upon granting a variance.

(8) The Department may revoke a variance if:

(a) the provider is not meeting the intent of the varied rule by the documented alternative means;

(b) the facility fails to comply with the conditions of the variance; or

(c) a change in statute, rule, or case law affects the justification for the variance.

R430-4-20. Statutory Penalties.

(1) A violation of any rule is punishable by administrative civil money penalty of up to \$5,000 per day as provided in Utah Code Section 26-39-108 or other civil penalty of up to \$5,000 per day or a class B misdemeanor on the first offense and a class A misdemeanor on the second offense as provided in Utah Code, Title 26, Chapter 23.

(2) The Department may impose an administrative civil money penalty of up to \$100 per day to a maximum of \$10,000 for unlicensed or uncertified child care.

(3) The Department may impose an administrative civil money penalty of up to \$100 per day to a maximum of \$10,000 for each violation of the Child Care Licensing Act or the rules promulgated pursuant to that act.

(4) Any person intentionally making false statements or reports to the Department may be fined \$100 for each violation to a maximum of \$10,000.

(5) Assessment of any civil money penalty does not preclude the Department from also taking action to deny, revoke, condition, or refuse to renew a license or certificate.

(6) Assessment of any administrative civil money penalty under this section does not preclude injunctive or other equitable remedies.

(7) Within 10 working days after receipt of a negative licensing action or imposition of a fine, each child care program must provide the Department with the names and mailing addresses of parents or legal guardians of each child cared for at the facility so the Department can notify the parents and guardians of the negative licensing action.

KEY: child care facilities

February 6, 2006

Notice of Continuation July 7, 2003

26-39

R430. Health, Health Systems Improvement, Child Care Licensing.**R430-6. Background Screening.****R430-6-1. Authority.**

(1) The Utah Code, Section 26-39-107, requires that a Bureau of Criminal Identification (BCI) screening be conducted on each person requesting a license or residential certificate or to renew a license or certificate for existing, new, and proposed owners, directors, members of the governing body, employees, providers of care and volunteers, except parents of children enrolled in the child care program.

(2) Utah Code, Section 26-39-104, requires the Department to make and enforce rules to protect children's common needs for a safe and healthy environment and provide for competent care givers. The Department shall review the licensing information system for licensing and certification purposes pursuant to Section 62A-4a-116.2 to screen for individuals who may have a supported finding of severe abuse and neglect by the Department of Human Services or substantiated finding by a Juvenile court under Subsection 78-3a-320.

R430-6-2. Purpose.

The purpose of the screening process using the BCI criminal background and child and adult licensing information system is to protect children receiving services in a child care program. The criminal background screening process determines whether a covered individual has been convicted of any crime. In addition, the Department screens all individuals using the licensing information system and court records under Subsection 78-3a-320(4) which is limited to:

- (1) supported findings of severe abuse or neglect;
- (2) an adjudication of severe child abuse or neglect by a court of competent jurisdiction; and
- (3) any criminal conviction or guilty plea related to neglect, physical abuse, or sexual abuse of any person.

R430-6-3. Definitions.

Terms used in this rule are defined in Title 26, Chapter 39. In addition:

(1) "Convicted" includes a conviction by a jury or court, a deferred judgment and sentence agreement, a deferred prosecution agreement, a deferred adjudication agreement, a plea in abeyance, and a plea of guilty or nolo contendere.

- (2) "Covered Individual" means:
- (a) owners;
 - (b) directors;
 - (c) members of the governing body;
 - (d) employees;
 - (e) providers of care, including children residing in a home where child care is provided;
 - (f) volunteers, excluding parents of children enrolled in the program; and
 - (g) all adults residing in a residence where child care is provided.

(3) "Department" means the Utah Department of Health.

(4) "Direct supervision" means that the care giver can see and hear the children under age six, and is near enough to intervene when needed. Care givers must be able to hear school-age children and be near enough to intervene.

(5) "Supported" means a finding by the Utah Department of Human Services (DHS), at the completion of an investigation by DHS, that there is a reasonable basis to conclude that one or more of the following severe types of abuse or neglect has occurred:

- (a) if committed by a person 18 years of age or older;
 - (i) severe or chronic physical abuse;
 - (ii) sexual abuse;
 - (iii) sexual exploitation;

- (iv) abandonment;
- (v) medical neglect resulting in death, disability, or serious illness;

- (vi) chronic or severe neglect; or
 - (vii) chronic or severe emotional abuse
- (b) if committed by a person under the age of 18:
- (i) serious physical injury, as defined in Subsection 76-5-109(1)(d) to another child which indicates a significant risk to other children, or

- (ii) sexual behavior with or upon another child which indicates a significant risk to other children.

(6) "Unsupervised Contact" means contact with children that provides the unsupervised person opportunity and probability for personal communication or touch when not under the direct supervision of a child care provider or employee.

(7) "Volunteer" means an individual who is not directly compensated for providing care whose duties assigned by a child care provider or employee include unsupervised contact in a child care facility with children or food consumed by children on a regularly scheduled basis of one or more times per month.

R430-6-4. Exclusions from Criminal Background Screening, Emergency Care Providers.

In an emergency, not anticipated in the provider's emergency plan, a provider may assign a person who has not had a criminal background screening to care for and have unsupervised contact with children.

(1) That person shall make a signed, written declaration to the provider that the person has not been convicted of a felony or misdemeanor and has not been investigated with a supported finding from the Department of Human Services.

(2) During the term of the emergency, that person may be counted as a provider of care for purposes of maintaining the required care provider to child ratios.

(3) The provider shall make reasonable efforts to minimize the time that this person has unsupervised contact with children.

R430-6-5. Criminal Background Screening through the Utah Division of Criminal Investigation and National Criminal History Records.

(1) Each child care provider requesting a residential certificate or license or to renew a license or residential certificate to provide child care shall submit to the Department the name and other identifying information on all covered individuals involved with the child care facility at the time the application is filed. A fingerprint card, waiver and fee, prepared either by the local law enforcement agency or an agency approved by local law enforcement, shall also be submitted unless an exception is granted under (4) below.

(2) The request for a certificate or a license submitted by the provider shall require the provider to state in writing, based upon the provider's best information and belief, that no covered person, including the provider's own children, has ever been convicted of a felony, misdemeanor or had a consent to a supported finding from DHS or a substantiated finding from a juvenile court of severe abuse or neglect of a child. If the provider is aware of any such conviction or supported or substantiated finding, the Department shall obtain information from the provider to assess the threat to children consistent with R430-6-6.

(3) After a license or certificate is issued or renewed, within five days of a new covered individual becoming involved with a child care facility, the child care facility licensee or certificate holder must submit the identifying information. A fingerprint card, waiver and fee, prepared either by the local law enforcement agency or an agency approved by local law enforcement, shall also be submitted unless an exception is granted under (4) below.

(4) Fingerprint cards are not required if the Department is reasonably satisfied that:

(a) the covered individual has resided in Utah for the last five years;

(b) the covered individual has previously submitted fingerprints under this section for a national criminal history record check and has resided in Utah continuously since that time; or

(c) as of May 3, 1999, the covered individual was involved with a child care facility in a covered individual capacity and has resided in Utah continuously since that time.

(5) If a covered individual has resided in Utah for the last five years, except for religious or military service out-of-state, the covered individual shall submit to the Department a letter from their clergy or commanding officer documenting that the covered individual was not convicted of any felony or misdemeanor during the time period of the religious or military service. The covered individual shall then be deemed to have resided in Utah for the last five years and not be required to submit fingerprint cards.

(6) The Department shall perform a criminal background screening, which includes a review of the BCI database maintained by the Department of Public Safety pursuant to Part 2 of Chapter 10, Title 53; and if a fingerprint card, waiver and fee were submitted; the Department shall forward the fingerprint card, waiver and fee to the Utah Department of Public Safety for submission to the FBI for a national criminal history record check.

(7) If the BCI portion of the criminal background screening indicates that the covered individual has a conviction for a felony or misdemeanor, regardless of any exception under (4) above, the covered individual shall submit a fingerprint card, waiver and fee upon request by the Department.

(8) The Department shall review any criminal convictions, consistent with R430-6-6, to determine if action should be taken to protect the health and safety of children receiving child care in the facility.

(9) If the Department takes an action adverse to any covered individual, based upon the criminal background screening, the Department shall send a written decision to the child care provider and the covered individual explaining the action and the right of appeal.

R430-6-6. Exclusion from Child Care Due to Criminal Convictions or Pending Charges.

(1) As required by Utah Code Ann. Subsection 26-39-107(2), if the criminal conviction was a felony, or is a misdemeanor that is not excluded under paragraphs (2) or (3) below, the covered individual may not provide child care, volunteer, or own or operate a child care program with a license or certificate issued by the Department. If such a covered individual resides in a home where child care is provided, the Department shall revoke an existing license or certificate and refuse to permit child care in the home.

(2) As allowed by Utah Code Ann. Subsection 26-39-107(3)(a), the Department hereby excludes the following misdemeanors and determines that a misdemeanor conviction listed below does not disqualify a covered individual from providing child care:

(a) any class B or C conviction under Chapter 6, Title 76, Offenses Against Property, Utah Criminal Code;

(b) any class B or C conviction under Chapter 6a, Title 76, Pyramid Schemes, Utah Criminal Code;

(c) any class B or C conviction under Chapter 8, Title 76, Offenses Against the Administration of Government, Utah Criminal Code;

(d) any class B or C conviction under Chapter 9, Title 76, Offenses Against Public Order and Decency, Utah Criminal Code, except for 76-9-301.8, Bestiality; 76-9-702, Lewdness;

and 76-9-702.5, Lewdness Involving Child; and

(e) any class B or C conviction under Chapter 10, Title 76, Offenses Against Public Health, Welfare, Safety and Morals, Utah Criminal Code, except for 76-10-1201 to 1229.5, Pornographic and Harmful Materials and Performances; 76-10-1301 to 1314, Prostitution; and 76-10-2301, Contributing to the Delinquency of a Minor.

(3) Only the Executive Director may consider and approve individual cases where a covered individual with a misdemeanor conviction will be allowed to provide child care, that would otherwise be excluded by this rule. This authority may not be delegated.

(4) The covered individual shall supply at a minimum the following in support of the request for action by the Executive Director.

(a) three sworn and notarized witness letters of personal reference attesting to the rehabilitation; and

(b) a copy of the police report and the court report.

(5) The Department shall rely on the criminal background screening as conclusive evidence of the conviction and the Department may revoke or deny a license, certificate and employment based on that evidence.

(6) If the covered individual is denied a license, certificate or employment based upon the criminal background screening and the covered individual disagrees with the information provided by the Criminal Investigations and Technical Services Division, the covered individual may challenge the information as provided in Utah Code Ann. Sections 77-18-10 through 77-18-15.

(7) All child care providers must report all felony and misdemeanor arrests, charges or convictions of covered individuals to the Department within 48 hours.

R430-6-7. Licensing Information System.

(1) Pursuant to Utah Code Subsection 26-39-104(1)(a)(ii) the Department shall screen all covered individuals, including children residing in a home where child care is provided, for a history of supported finding of severe abuse, neglect, or exploitation from the licensing information system maintained by the Utah Department of Human Services (DHS) and the juvenile court records.

(2) If a covered individual appears on the licensing information system, the Department shall assess the threat to the safety and health of children. The Department may revoke any existing license or certificate and refuse to permit child care in the home until the Department is reasonably convinced that the covered individual no longer resides in the home.

(a) Upon request, the Department may permit the covered individual to be employed under supervision until a decision is reached, and if the applicant can demonstrate that the work arrangement does not pose a threat to the safety and health of children being served in the licensed or residential certificate child care setting.

(b) The Department may hold the license, certificate or employment denial in abeyance until DHS or the Juvenile court renders a decision, while the covered individual appeals the supported finding.

(3) If the Department denies or revokes a license, certificate or employment based upon the licensing information system, the Department shall send a written decision to the licensee and the covered individual.

(4) If the covered individual disagrees with the supported finding of severe abuse or neglect, any appeal must be directed to and follow the process established by Subsection 62A-4a-116.1. If the covered individual consents to the supported finding of severe abuse or neglect that was the basis of the Department's denial or revocation, but disagrees with the action taken by the Department, the covered individual may request a hearing with the Department.

(5) If the DHS determines a covered individual has a supported finding of severe abuse, neglect or exploitation after the Department issues a license, certificate or grants employment; the licensee and covered individual has five working days to notify the Department. Failure to notify the Department may result in revocation of the license or certificate.

R430-6-8. Covered Individuals with Arrests or Pending Criminal Charges.

(1) If the Department determines there exists credible evidence that a covered individual has been arrested or charged with a felony or a misdemeanor that would not be excluded under R430-6-6(2), the Department shall act to protect the health and safety of children in child care that the covered individual may have contact with. The Department may revoke or suspend any license or certificate of a provider if necessary to protect the health and safety of children in care.

(2) If the Department denies or revokes a license, certificate or restricts employment based upon the arrest or felony or misdemeanor charge, the Department shall send a written decision to the licensee and the covered individual notifying them that a hearing with the Department may be requested.

(3) The Department may hold the license, certificate or employment denial in abeyance until the arrest or felony or misdemeanor charge is resolved.

R430-6-9. Statutory Penalties.

(1) A violation of any rule is punishable by administrative civil money penalty of up to \$5,000 per day as provided in Utah Code Section 26-39-108 or other civil penalty of up to \$5,000 per day or a class B misdemeanor on the first offense and a class A misdemeanor on the second offense as provided in Utah Code, Title 26, Chapter 23.

(2) The Department may impose an administrative civil money penalty of up to \$100 per day to a maximum of \$10,000 for each violation of the Child Care Licensing Act or the rules promulgated pursuant to that act.

(3) Any person intentionally making false statements or reports to the Department may be fined \$100 for each violation to a maximum of \$10,000.

(4) Assessment of any civil money penalty does not preclude the Department from also taking action to deny, revoke, condition, or refuse to renew a license or certificate.

(5) Assessment of any administrative civil money penalty under this section does not preclude injunctive or other equitable remedies.

R510. Human Services, Aging and Adult Services.**R510-401. Utah Caregiver Support Program (UCSP).****R510-401-1. Utah Caregiver Support Program Purpose.**

The Utah Caregiver Support Program is created under authority of the Older Americans Act of 1965 as amended in 2000 (PL 89-73) Part E - National Family Caregiver Support Program (NFCSP).

The purpose of the program is to provide support services including information and assistance, counseling, support groups, respite and other home and community-based services to family caregivers of frail older individuals. The program also recognizes the needs of grandparents who are caregivers of grandchildren and other older individuals who are relative caregivers of children who are 18 years of age and under.

Operation of the program is a joint responsibility of the State Division of Aging and Adult Services and local Area Agencies on Aging (AAA). Funds are distributed by formula (R510-100-1) to local AAAs.

R510-401-2. Definitions.

(1) "Adult" means an individual who is 18 years of age or older.

(2) "Agency or Area Agency on Aging (AAA)" means the agency designated by the Division of Aging and Adult Services (DAAS) to coordinate and provide services for a defined geographical area.

(3) "Agency Director" means the director of the Agency.

(4) "Caregiver or Family Caregiver" means an adult family member, or another adult individual, who is an informal provider of in-home and community care to an older individual who is:

(a) 60 years of age or older; or is a

(b) caregiver 60 years of age or older who is caring for persons with mental retardation or related developmental disabilities; or is a

(c) grandparent or older individual who is a relative caregiver of a child not more than 18 years of age.

This definition excludes agency and privately-paid supportive service providers.

(5) "Care Receiver" means an adult 60 years of age or older who receives assistance from, or is dependent upon, another for care and is:

(a) unable to perform at least two activities of daily living without substantial human assistance, including verbal reminding, physical cueing, or supervision; or

(b) due to a cognitive or other mental impairment, requires substantial supervision.

(6) "Companion Services" means non-medical, basic supervisory services which are provided to the eligible care receiver in his home on a short-term, intermittent basis. Companion Services provide respite to a caregiver who is caring for eligible care receivers who do not require any personal care assistance, medical assistance, or housekeeping services during the time when companion services are provided.

(7) "Child" means an individual who is not more than 18 years of age.

(8) "Counseling, Support Groups, or Caregiver Training" means provision of advice, guidance, and education about options and methods of caregiving to provide support to caregivers in an individual or group setting.

(9) "Director" means the director of the Division of Aging and Adult Services (DAAS), Utah Department of Human Services).

(10) "Division" means the Division of Aging and Adult Services (DAAS), Utah Department of Human Services.

(11) "Formal Resources" means an entity or individual that provides services for a fee or reimbursement.

(12) "Grandparent or Older Individual who is a Relative Caregiver" means a grandparent or step-grandparent of a child,

or a relative of a child by blood or marriage, who is 60 years of age or older and:

(a) lives with the child;

(b) is the primary caregiver of the child because the biological or adoptive parents are unable or unwilling to serve as the primary caregiver of the child; and,

(c) has a legal relationship to the child, such as legal custody or guardianship, or is raising the child informally.

(13) "Informal Resources" means family, friends, neighbors, community organizations or others who offer resources and support and are not assigned by formal agencies or organizations, irrespective of any payment received.

(14) "Multifaceted Systems" means a variety of systems of support for the caregiver including but not limited to those described in the required five service categories of the (NFCSP), Title III of the Older Americans Act, as amended in 2000.

(15) "National Family Caregiver Support Program or NFCSP" is the federal program enacted as P. L. 106-501, Title III of the Older Americans Act, P. L. 89-73, 42 USC Section 3001 et seq., as amended in 2000.

(16) "Relief" means ease from or lessening of discomfort, anxiety, fear, stress, or burden.

(17) "Respite or Respite Care" is temporary, substitute supports or living arrangements to provide a brief period of relief or rest for caregivers as outlined in the service plan developed by a case manager following a formal assessment. It can be in the form of in-home respite, adult day care respite, or institutional respite for an overnight stay on an intermittent, occasional, or emergency basis. Respite can be provided for a caregiver for no more than 12 consecutive months from the date of enrollment and shall not exceed the annual service expenditure limit per client, as established by the Division in consultation the Area Agencies on Aging annually. If either condition is met, the caregiver must come off of the program and then may reapply on the anniversary of the start of services. Temporary respite may not be provided by the twenty percent (20%) maximum supplemental services funds.

(18) "Service Plan" means a written plan which contains a description of the needs of the caregiver, the care recipient, and the services and goals necessary to meet those needs.

(19) "Supplemental Services" means other services to complement the care of caregivers, on a limited basis as determined by a case manager through the assessment process and included in a service plan. Supplemental services shall serve to maximize the support of caregivers and shall be flexible, adaptable, and responsive to the needs of the individual caregiver or care receiver wherever they reside in the State of Utah. Services provided under supplemental services shall not fall into other categories defined in the UCSP or the NFCSP.

Expenditures for Supplemental Services are not included in the annual established service expenditure limit for Respite.

Necessity for Supplemental Services shall be specified in the service plan goals. Reimbursement shall include the purchase and/or rental, installation, removal, replacement, or repair of approved items or services for the twelve months that the caregiver is on the program. The case manager will document in the caregiver file all funding resources explored and reasons alternative funding cannot be accessed. Items or services exceeding \$250 per purchase must be prior approved by the Agency Director based on a formal written request by the case manager or designee documenting the determination of need and estimated cost. The original approved waiver request will be placed and maintained by the Agency in the caregiver file.

(a) "Supplies or Equipment" means durable and non-durable goods purchased and/or rented under supplemental services to provide support and assistance to caregivers in their caregiving responsibilities. Reimbursement shall include the purchase of supplies, and the purchase, and/or rental,

installation, removal, replacement or repair of approved equipment.

(b) "Modifications or durable adaptive aids and devices" purchased as supplemental services shall be one-time purchases to provide support and assistance to caregivers in their caregiving responsibilities. Minor modifications of homes shall facilitate the ability of older individuals to remain at home or provide for the safety of the care receiver. Adaptive aids and devices shall assist the caregivers helping care receivers to perform normal living activities, and shall include the cost of any necessary installation fitting, adjustment, repair, and training. Adaptive aids and devices may be fabricated by a professional if the care receiver needs specialized aids and devices.

(c) "Legal, Financial, or Placement Services" purchased as supplemental services shall provide support and assistance to caregivers in their caregiving responsibilities. Services will provide the caregiver with legal, financial, and placement advice, counseling, and representation by an attorney, certified financial advisor, or other person acting under the supervision of an attorney, certified financial advisor, or placement professional.

(d) "Miscellaneous" services shall provide support and assistance to caregivers in their caregiving responsibilities. Miscellaneous services will facilitate the ability to provide services to caregivers that arise from unusual circumstances and shall assist the caregiver in performing their caregiving responsibilities.

(20) "Waiver" means an intentional release in writing by the Agency Director or designee, as authorized in the rules, from a program limitation included in these rules.

R510-401-3. Eligibility for Services.

(1) Services listed in Section R510-401-5 are available to caregivers, grandparents and older individuals who are relative caregivers.

(2) Respite care and Supplemental Services are available to caregivers who are:

- (a) caregivers of adults 60 years of age or older
- (b) caregivers 60 years of age or older caring for persons with mental retardation or related developmental disabilities; or are

(c) grandparents or older individuals who are a relative caregiver of a child not more than 18 years of age.

(3) To provide respite and Supplemental Services to caregivers of adults 60 years of age or older, the care receiver must be:

(a) Functionally impaired because the individual is unable to perform at least two activities of daily living without substantial human assistance, including verbal reminding, physical cueing or supervision; or

(b) Due to a cognitive or other mental impairment, requires substantial supervision because the individual behaves in a manner that poses a serious health or safety hazard to the individual or to another individual.

(c) The caregiver must demonstrate a medium-to-high risk score according to the DAAS Approved Demographic Intake and Screening tool and complete the DAAS-approved Assessment and DAAS-approved Burden score.

(4) In the event that there is insufficient funds to bring an individual on the program the Agency shall maintain a list of potential applicants. All potential applicants will be served in turn by using the DAAS-approved Demographic Intake and Risk Screening tool, and a Caregiver Burden score to determine eligibility for services.

R510-401-4. Responsibilities of the Division.

- (1) Pursuant to UCA 62A-3-104, the Division shall:
 - (a) establish a funding formula for the distribution of the

funds as approved by the Board;

(b) monitor, and at the request of the Area Agency on Aging, consult and assist in UCSP;

(c) provide training opportunities;

(d) define minimal documentation and client assessment standards; and

(e) approve or disapprove waivers and exceptions.

R510-401-5. Program Content.

(1) Each Area Agency on Aging shall provide a multifaceted system of caregiver support services for caregivers and, if funded, for grandparents or older individuals who are relative caregivers to include:

(a) information to caregivers about available services;

(b) individual, one-on-one assistance to caregivers in gaining access to services in the form of information and assistance or case management. Assistance may include but is not limited to such activities as phone contact and home visits;

(c) individual counseling, support groups, and caregiver training to assist the caregivers in making decisions and solving problems relating to their caregiving roles;

(d) respite care to enable caregivers to be temporarily relieved from their caregiving responsibilities; and

(e) Supplemental Services, on a limited basis, to complement the care provided by caregivers.

(2) The Area Agency on Aging shall use the DAAS-approved Demographic Intake and Risk Screening form and assessment tool to determine eligibility for respite and supplemental services and said tools shall be kept in the client file.

(3) Prior to receiving respite or supplemental services the Area Agency on Aging shall develop a written service plan including goals and objectives for the caregiver, which shall be kept in the client file.

(4) The Area Agency on Aging shall ensure the provision of the full range of caregiver support services in the community by coordinating its activities with the activities of other community agencies and voluntary organizations providing supportive services to family caregivers and, if funded, grandparents or older individuals who are relative caregivers of children.

(5) Older Americans Act information and services shall be provided to family caregivers in a direct and helpful manner. In cases where caregiver support programs already exist within the community, coordination of these programs and the UCSP is essential to maximize the dollars available for family caregivers and avoid duplication of services.

(6) To assure coordination of caregiver services in the planning and service area, the Area Agency on Aging shall convene a minimum of one joint planning meeting annually with other local providers who currently provide support services to family caregivers. As practical, the Area Agency on Aging shall coordinate the activities under this program with other community agencies and voluntary organizations providing services to caregivers.

(7) Funds allocated on an annual basis under the UCSP for services provided by an Area Agency on Aging shall be expended as follows:

(a) Information to caregivers about available services: the Area Agency on Aging may not use less than three percent of the funds allocated under the UCSP to provide these services.

(b) Assistance to caregivers in gaining access to the services: the Area Agency on Aging may not use less than five percent of the funds allocated under the UCSP to provide these services.

(c) Individual counseling, organization of support groups, and caregiver training to caregivers to assist the caregivers in making decisions and solving problems relating to their caregiving roles: The Area Agency on Aging may not use less

than five percent of the funds allocated under the UCSP to provide these services.

(d) Respite care to enable caregivers to be temporarily relieved from their caregiving responsibilities: The Area Agency on Aging may not use less than five percent of the funds allocated under the UCSP to provide these services.

(e) Supplemental Services, on a limited basis, to complement the care provided by caregivers: The Area Agency on Aging may not use more than twenty percent of the funds allocated under the UCSP to provide these services.

(f) The Area Agency on Aging shall spend no more than ten percent of funds on services provided to grandparents and other individuals who are relative caregivers of children.

(8) If a customer discontinues Respite and/or Supplemental Services before the end of the twelve-month period and before the annual established service expenditure limit per client is reached, the case shall be closed.

(a) If funds are available, the caregiver may be readmitted to the program subsequent to the case closing but shall do so within twelve months from the original date of enrollment.

(b) If no funds are available, the person will be placed at the top of the list to be the first person to be admitted to the program if the person still has time left on the program.

(c) If funds become available, but there is no time remaining based on the original admission, then the caregiver needs to reapply and be considered for admission to the program with all other applicants.

R510-401-6. Caregiver Advisory Council.

(1) The Area Agency on Aging shall develop and maintain a Caregiver Advisory Council.

(2) The Caregiver Advisory Council may be a subgroup of the Area Agency on Aging Advisory Council providing they meet the requirements set forth in the rule.

(a) The Caregiver Advisory Council may be comprised of no less than five members, some of whom shall be caregivers.

(3) The Caregiver Advisory Council shall meet no less than semiannually, and meetings shall be scheduled by each Area Agency on Aging.

(4) The primary duty of the Caregiver Advisory Council shall include but not be limited to conducting an annual caregiver satisfaction survey for the caregiver program.

(5) The Caregiver Advisory Council shall advise the Area Agency on Aging in determining service needs and developing action plans. When there is a concern over the use of limited resources for Respite Care and Supplemental Services, the Area Agencies on Aging, in consultation with their Caregiver Advisory Council, may further limit the amount of services provided to an individual caregiver. This local policy decision shall be in writing and shall be uniform for all caregivers for the current fiscal year.

(6) The Area Agency on Aging shall be responsible for developing orientations for Caregiver Advisory Councils on caregiver issues and responding to community needs.

R510-401-7. Voluntary Contributions.

(1) Individuals receiving services from this program may be encouraged to participate in voluntary contributions for services, provided that the method of solicitation is non-coercive.

(2) Voluntary contributions shall in no way be based on a means test of an individual client's income.

(3) Each Area Agency on Aging shall implement procedures for voluntary contributions in the UCSP, and shall comply, at a minimum, with the following:

(a) provide each recipient with an opportunity to voluntarily contribute to the cost of the services;

(b) clearly inform each recipient that there is no obligation to contribute and that the contribution is purely voluntary;

(c) protect the privacy and confidentiality of each recipient with respect to the recipient's contribution or lack of contribution; and

(d) establish appropriate procedures to safeguard and account for voluntary contributions.

(4) Use all collected voluntary contributions to expand the service for which such contributions were given.

(5) In no instance shall services be denied if individuals do not participate in voluntary contributions.

(6) Area Agencies on Aging will consult with relevant service providers and older individuals in their planning and service area to determine the best method for accepting voluntary contributions.

R510-401-8. Reporting.

(1) The Area Agency on Aging shall collect data and maintain records relating to the UCSP in the format specified by the Division.

(2) The Area Agency on Aging shall furnish the records to the DAAS as specified.

(3) The Area Agency on Aging shall report to DAAS, as specified, the activities and determinations of the Caregiver Advisory Council.

R510-401-10. Waiver Requests for Respite and Supplemental Services.

An Area Agency on Aging may request in writing a waiver for Respite and Supplemental Services in order to enable the caregiver to carry out their duties in assisting the care receiver. In requesting a waiver, the Area Agency on Aging must demonstrate that effort has been made to access other sources of services or funds. The Agency Director may grant a waiver for Supplemental Services or Respite on a case-by-case basis provided that such waiver is consistent with the law. A copy of the approved waiver request must be placed in the client file and a copy sent in writing to the Division.

R527. Human Services, Recovery Services.**R527-35. Non-IV-A Fee Schedule.****R527-35-1. Non-IV-A Fee Schedule.**

Pursuant to 45 CFR 302.33 (2001) the Office of Recovery Services may charge an applicant or recipient of child support services who is not receiving IV-A financial assistance or Medicaid, one or more fees for specific services. These fees are itemized below:

The following fee, which has been established by the federal government:

1. the full IRS enforcement fee of \$122.50 is charged if a case qualifies for full IRS collection services, the obligee requests those services, and the amount of the child support obligation is certified for those services by the United States Secretary of the Treasury.

The following fees, which have been established by the Office:

1. a Parent Locator Service fee of \$20.00. This fee is waived if the case was closed within the last 12 months for the reason CTF (cannot find the non-custodial parent) or AFC (non-custodial parent lives in a foreign jurisdiction);
2. the cost of genetic testing if the alleged father is excluded as the biological father;
3. an administrative fee of \$5.00 per payment processed, not to exceed \$10.00 per month;
4. a fee of \$25.00, to be paid at the time the obligor's federal tax refund is intercepted to offset a Non-IV-A support arrearage if the refund is \$50.00 or more. If the refund is more than \$25.00 but less than \$50.00, the fee is the refund amount minus \$25.00;
5. the Child Support Lien Network (CSLN) fee of \$52.00, to be paid at the time the levy is processed.

R590. Insurance, Administration.**R590-131. Accident and Health Coordination of Benefits Rule.****R590-131-1. Authority.**

This rule is adopted and promulgated pursuant to Subsection 31A-2-201(3)(a) and Section 31A-22-619.

R590-131-2. Purpose.

The purpose of this rule is to:

- A. permit, but not require, plans to include a coordination of benefits, or COB, provision;
- B. establish an order of priority in which plans pay their COB claims;
- C. provide the authority for the orderly transfer of information needed to pay COB claims promptly;
- D. reduce duplication of benefits by permitting a reduction of the benefits paid by a plan when the plan, pursuant to this rule, does not have to pay its benefits first;
- E. reduce COB claims payment delays; and
- F. make all contracts that contain a COB provision consistent with this rule.

R590-131-3. Definitions.

A. "Allowable Expense" means:

1. The amount on which a plan would base its benefit payment for covered services in the absence of any other coverage.

2. When a plan provides benefits in the form of services, the reasonable cash value of each service will be considered as both an allowable expense and a benefit paid.

3. The difference between the cost of a private hospital room and the cost of a semi-private hospital room is not considered an allowable expense under the above definition unless the patient's stay in a private hospital room is medically necessary in terms of generally accepted medical practice.

4. When COB is restricted in its use to a specific coverage in a contract, for example, major medical or dental, the definition of allowable expense must include the corresponding expenses or services to which COB applies.

B. "Birthday" refers only to month and day in a calendar year, not the year in which the person was born.

C. "Claim" means a request that benefits of a plan be provided or paid. The benefits claimed may be in the form of:

1. services (including supplies);
2. payment for all or a portion of the expenses incurred;
3. a combination of (1) and (2) above; or
4. an indemnification.

D. "Continuation Coverage" means coverage provided under right of continuation pursuant to the federal (COBRA) law or the state extension law. For the purposes of this rule, a person's eligibility status will maintain the same classification under continuation coverage.

E. "Coordination of Benefits" or "COB" means the process of determining which of two or more accident and health insurance policies, or other policies specifically included in this rule, covering a loss or claim, will have the primary responsibility to pay the loss or claim, and also the manner and extent to which the other policies shall pay or contribute.

F. "Custodial Parent" means the parent awarded custody of a child by a court decree. In the absence of a court decree, the parent with whom the child resides more than one half of the calendar year without regard to any temporary visitation is the custodial parent.

G. "Hospital Indemnity Benefits" means benefits not related to expenses incurred. The term does not include reimbursement-type benefits even if they are designed or administered to give the insured the right to elect indemnity-type benefits at the time of claim.

H. "Noncomplying Plan" means a plan that is not subject

to this Rule.

I. "Plan" means a form of coverage with which coordination is allowed. The definition of plan in the contract must state the types of coverage, which will be considered in applying the COB provision of that contract.

1. This rule uses the term plan. However, a contract may, instead, use "Program" or some other term.

2. Plan shall include:

a. individual, group, or HMO health insurance contracts providing hospital expense or medical surgical expense benefits, except those explicitly excluded under Subsection R590-131-3.1.3.;

b. group, group-type, and individual automobile "no-fault" medical payment contracts, after statutory PIP limit 31A-22-306 through 309; and

c. Medicare or other governmental benefits, except as provided in Subsection R590-131-3.1.3.f. below. That part of the definition of plan may be limited to the hospital, medical, and surgical benefits of the governmental program.

3. Plan shall not include:

a. hospital indemnity coverage;

b. disability income protection coverage;

c. accident only coverage;

d. specified disease or specified accident coverage;

e. nursing home and long-term care coverage;

f. a state plan under Medicaid, and shall not include a law or plan when, by state or federal law, its benefits are in excess of those of any private insurance plan or other non-governmental plan; and

g. Medicare supplement policies.

J. "Primary Plan" means a plan whose benefits for a person's health care coverage must be determined first according to R590-131-4 B. A plan is a primary plan if either of the following conditions is true:

1. the plan has no order of benefit determination;

2. all plans which cover the person use the order of benefit determination provisions of this rule and under those requirements the plan determines its benefits first.

K. "Secondary Plan" means a plan, which is not a primary plan. If a person is covered by more than one secondary plan, the order of benefit determination rules of this rule decides the order in which their benefits are determined in relation to each other. The benefits of each secondary plan may take into consideration the benefits of the primary plan or plans and the benefits of any other plan, which, under the provisions of this rule, has its benefits determined before those of that secondary plan.

R590-131-4. Rules for Coordination of Benefits.

A. General Rules:

1. The primary plan must pay or provide its benefits as if the secondary plans or plan did not exist. A primary plan may not deny payment or a benefit on the grounds that a claim was not timely submitted if the claim was timely submitted to one or more secondary plans and was submitted to the primary plan within 36 months of the date of service. A plan that does not include a coordination of benefits provision may not take the benefits of another plan into account when it determines its benefits.

2. A secondary plan may take the benefits of another plan into account only when, under these rules, it is secondary to that other plan.

B. Determining Order of Benefits. Each plan determines its order of benefits using the first of the following rules that apply:

1. The benefits of the plan, which covers the person as an employee, member or subscriber, that is, other than as a dependent, are determined before those of the plan which cover the person as a dependent.

2. Dependent Child/Parents Married or Living Together. The rules for the order of benefits for a dependent child when the parents are married or living together are as follows.

a. The benefits of the plan of the parent whose birthday falls earlier in the calendar year are determined before those of the plan of the parent whose birthday falls later in the year.

b. If both parents have the same birthday, the benefits of the plan, which covered the parent longer, are determined before those of the plan which covered the other parent for a shorter period of time.

c. If the other plan, R590-131-3.I.2b, does not have the rule described in R590-131-4.B.1, .2 and .3, but instead has a rule based upon another order, and if, as a result, the coordinating plans do not agree on the order of benefits, the rule of the other plan will determine the order of benefits.

3. Dependent Child/Parents Separated, Divorced or Not Living Together. If two or more plans cover a person as a dependent child of parents divorced, separated or not living together, benefits for the child are determined in the following order:

a. first, the plan of the custodial parent of the child;

b. then, the plan of the spouse of the custodial parent of the child;

c. the plan of the non-custodial parent; and

d. finally, the plan of spouse of the non-custodial parent.

i. If the specific terms of a court decree state that one of the parents is responsible for the child's health care expenses or health insurance coverage, and the plan of that parent has actual knowledge of those terms, that plan is primary. If the parent with responsibility has no coverage for the child's health care services or expenses, but that parent's spouse does, the spouse's plan is primary. This subparagraph shall not apply with respect to any claim determination period or plan year during which benefits are paid or provided before the entity has actual knowledge.

ii. If the specific terms of a court decree state that the parents have joint custody, without stating that one of the parents is responsible for the health care expenses or health insurance coverage of the child and the child's residency is split between the parents, the order of benefit determination rules outlined in Subsection R590-131-4 B.2. Dependent Child/Parents Married or Living Together shall apply. This subparagraph shall not apply with respect to any claim determination period or plan year during which benefits are paid or provided before the entity has actual knowledge.

iii. If there is no court decree allocating responsibility for the child's health care services or expenses, the order of benefit determination among the plans of the parents and the parents' spouses, if any, is:

- A. the plan of the custodial parent;
- B. the plan of the spouse of the custodial parent;
- C. the plan of the non-custodial parent; and then
- D. the plan of the spouse of the non-custodial parent.

4. Active/Inactive Employee, Member or Subscriber. The benefits of a plan, which covers a person as an active employee, member, and subscriber, are determined before those of a plan, which cover that person as an inactive employee, member, or subscriber. If the other plan does not have this rule, and if, as a result, the plans do not agree on the order of benefits, this provision is ignored.

5. Longer/Shorter Length of Coverage. If none of the above rules determine the order of benefits, the benefits of the plan which covered an employee, member, or subscriber longer are determined before those of the plan which covered that person for the shorter term.

a. To determine the length of time a person has been covered under a plan, two plans shall be treated as one if the claimant was eligible under the second within 24 hours after the first ended.

b. The start of a new plan does not include:

i. a change in the amount or scope of a plan's benefits;

ii. a change in the entity which pays, provides or administers the plan's benefits; or

iii. a change from one type of plan to another, such as, from a single employer plan to that of a multiple employer plan.

c. The claimant's length of time covered under a plan is measured from the claimant's first date of coverage under that plan. If that date is not readily available, the date the claimant first became a member of the group shall be used as the date from which to determine the length of time the claimant's coverage under the present plan has been in force.

R590-131-5. Procedure to be Followed by Secondary Plan.

A. When it is determined, pursuant to Section R590-131-4 that the plan is a secondary plan, benefits may be reduced as follows:

1. when one of the plans has contracted for discounted provider fees, the secondary plan may limit payment to any copayments and deductibles owed by the insured after payment by the primary plan; or

2. if none of the plans have contracted for discounted provider fees, the secondary plan may reduce its benefits so that total benefits paid or provided by all plans for a covered service are not more than the highest allowable expense of any of the plans for that service.

B. The secondary plan must calculate the amount of benefits it would normally pay in the absence of coordination, including the application of credits to any policy maximums, and apply the payable amount to unpaid covered charges owed by the insured member after benefits have been paid by the primary plan. This amount must include deductibles, coinsurance and copays left owing by the insured member. The secondary plan can use its own deductibles, coinsurance and copays to figure the amount it would have paid in the absence of coordination, and a secondary plan is not required to pay a higher amount than what they would have paid in the absence of coordination. A secondary plan shall only apply its own deductibles, coinsurance and copays to the total allowable expenses, not to the amount left owing after payment by any primary plans.

Insurers must coordinate with plans listed under Subsection R590-131.3.I.2.b. with the same provisions under Subsection R590-131.5.B.

C. Nothing in this rule is intended to require a secondary plan to make payment for any service that is not covered as a benefit by the secondary plan.

R590-131-6. Miscellaneous Provisions.

A. Reasonable Cash Value of Services. A secondary plan which provides benefits in the form of services may recover the reasonable cash value of providing the services from the primary plan, to the extent that benefits for the services are covered by the primary plan and have not already been paid or provided by the primary plan. Nothing in this provision may be interpreted to require a plan to reimburse a covered person in cash for the value of services provided by a plan, which provides benefits in the form of services.

B. Excess and Other Nonconforming Provisions.

1. No policy, or plan as defined by this rule, may contain a provision that its benefits are "excess" or "always secondary" to any other plan or policy.

2. A plan with order of benefit determination rules which comply with this rule, which is called a complying plan, may coordinate its benefits with a plan which is "excess" or "always secondary" or which uses order of benefit determination rules which are inconsistent with those contained in this rule, which is called a noncomplying plan, on the following basis:

a. if the complying plan is the primary plan, it shall pay or

provide its benefits on a primary basis;

b. if the complying plan is the secondary plan, it shall pay or provide its benefits first, but the amount of the benefits payable shall be determined as if the complying plan were the secondary plan. In such a situation, such payment shall be the limit of the complying plan's liability; and

c. if the noncomplying plan does not provide the information needed by the complying plan to determine its benefits within a reasonable time after it is requested to do so, the complying plan shall assume that the benefits of the noncomplying plan are identical to its own, and shall pay its benefits accordingly. However, the complying plan shall adjust any payments it makes based on such assumption whenever information becomes available as to the actual benefits of the noncomplying plan.

3. If the noncomplying plan reduces its benefits so that the employee, subscriber, or member receives less in benefits than he or she would have received had the complying plan paid or provided its benefits as the secondary plan and the noncomplying plan paid or provided its benefits as the primary plan and governing state law allows the right of subrogation set forth below, then the complying plan shall advance to or on behalf of the employee, subscriber, or member an amount equal to such difference.

a. In no event may the complying plan advance more than the complying plan would have paid had it been the primary plan, less any amount it previously paid.

b. In consideration of such advance, the complying plan shall be subrogated to all rights of the employee, subscriber, or member against the noncomplying plan.

C. Allowable Expense. A term such as "usual and customary," "usual and prevailing," or "reasonable and customary," may be substituted for the term "necessary, reasonable and customary." Terms such as "medical care" or "dental care" may be substituted for "health care" to describe the coverages to which the COB provisions apply.

D. Subrogation. The COB concept clearly differs from that of subrogation. Provisions for one may be included in health care benefits contracts without compelling the inclusion or exclusion of the other.

E. Right To Receive and Release Needed Information. Certain facts are needed to apply these COB rules. An insurer has the right to decide which facts it needs. It may get needed facts from or give them to any other organization or person. An insurer need not tell, or get the consent of, any person to do this. To facilitate cooperation with insurers; guidelines for medical privacy issues are provided under U.A.R R590-206, and Title V of Gramm-Leach-Bliley Act of 1999. Each person claiming benefits under a plan shall give the insurer any facts it needs to pay the claim.

F. Facility of Payment. A payment made under another plan may include an amount, which should have been paid under the plan. If it does, the insurer may pay that amount to the organization, which made that payment. That amount will then be treated as though it were a benefit paid under the plan. The insurer will not have to pay that amount again. The term "payment made" includes providing benefits in the form of services, in which case "payment made" means reasonable cash value of the benefits provided in the form of services.

G. Right of Recovery. If the amount of the payments made by an insurer is more than it should have paid under the provisions of this rule, it may recover the excess from one or more of the following:

1. The insurer may recover from:

a. The insured it has paid. However, reversals of payments made due to issues related to coordination of benefits are limited to a time period of 18 months from the date a payment is made unless the reversal is due to fraudulent acts, fraudulent statements, or material misrepresentation by the insured. It is

the insurers responsibility to see that the proper adjustments between insurers and providers are made.

b. The non-contracted provider it has paid. It is the insurers responsibility to see that the proper adjustments between insurers and providers are made. However, reversals of payments made due to issues related to coordination of benefits are limited to a time period of 36 months from the date a payment is made unless the reversal is due to fraudulent acts, fraudulent statements, or material misrepresentation by the insured.

c. The contracted providers it has paid. Subject to 31A-26-301.6(15)(a)(ii), it is the insurers responsibility to see that the proper adjustments between insurers and providers are made.

2. The insurer may recover from insurance companies. or

3. The insurer may recover from other organizations.

H. The "amount of the payments made" includes the reasonable cash value of any benefits provided in the form of services.

I. A plan, whether primary or secondary, may not be required to pay a greater total benefit than would have been required had there been no other plan.

J. Exception to claim payment guidelines and timetables expressed under 31A-26-301.5(2)(b) and R590-192-7, for coordination of benefit claims are allowed by the secondary plan:

1. if the secondary plan has proof that they are the secondary plan; and

2. for only as long as a submitted claim is without an explanation of benefits from the primary plan.

R590-131-7. Penalties.

Any insurer, which fails to comply with the provisions of this rule, shall be subject to the forfeiture and penalty provisions of Section 31A-2-308.

R590-131-8. Separability.

If any provision of this rule or the application of it to any person is for any reason held to be invalid, the remainder of the rule and the application of any provision to other persons or circumstances shall not be affected.

R590-131-9. Existing Contracts.

The commissioner will begin enforcing the revised provisions of this rule 45 days from the rule's effective date.

R595. Judicial Conduct Commission, Administration.**R595-4. Sanctions.****R595-4-1. Dismissals with Warning or on Conditions.**

A. The Commission may dismiss a complaint or formal complaint with a warning or on conditions of no further misbehavior if:

1. the judge stipulates that the conduct complained of has occurred;
2. the Commission finds that the stipulated conduct constitutes misconduct; and
3. the Commission finds that the misconduct is troubling but relatively minor misbehavior and that no public sanction is warranted.

B. The Commission will not dismiss a complaint or formal complaint with a warning or on conditions of no further misbehavior if:

1. the Commission finds that a public sanction is warranted;
2. the Commission has previously dismissed a complaint or formal complaint against the judge on conditions of no further misbehavior and the current misconduct violates such conditions; or
3. the Commission finds that the current misconduct is the same or similar to misconduct established from a previous complaint or formal complaint that was dismissed with a warning or on conditions of no further misbehavior.

R595-4-2. Sanctions Guidelines.

In determining an appropriate sanction for misconduct, the Commission shall consider the following non-exclusive factors:

- A. the nature of the misconduct;
- B. the gravity of the misconduct;
- C. the extent to which the misconduct has been reported or is known among court employees, participants in the judicial system or the public, and the source of the dissemination of information;
- D. the extent to which the judge has accepted responsibility for the misconduct;
- E. the extent to which the judge has made efforts to avoid repeating the same or similar misconduct;
- F. the length of the judge's service on the bench;
- G. the effect the misconduct has had upon the confidence of court employees, participants in the judicial system or the public in the integrity or impartiality of the judiciary;
- H. the extent to which the judge profited or satisfied his or her personal desires as a result of the misconduct; and
- I. the number and type of previous sanctions imposed against the judge.

**Art. VIII, Sec. 13
78-8-101 through 78-8-108**

R614. Labor Commission, Occupational Safety and Health.**R614-1. General Provisions.****R614-1-1. Authority.**

A. These rules and all subsequent revisions as approved and promulgated by the Labor Commission, Division of Occupational Safety and Health, are authorized pursuant to Title 34A, Chapter 6, Utah Occupational Safety and Health Act.

B. The intent and purpose of this chapter is stated in Section 34A-6-202 of the Act.

C. In accordance with legislative intent these rules provide for the safety and health of workers and for the administration of this chapter by the Division of Occupational Safety and Health of the Labor Commission.

R614-1-2. Scope.

These rules consist of the administrative procedures of UOSH, incorporating by reference applicable federal standards from 29 CFR 1910 and 29 CFR 1926, and the Utah initiated occupational safety and health standards found in R614-1 through R614-7. Notice has been given and rules filed as required by Subsection 34A-6-104(1)(c) and 34A-6-202(2) of the Utah Occupational Safety and Health Act and by Title 63, Chapter 46a, Utah Administrative Rulemaking Act.

R614-1-3. Definitions.

A. "Access" means the right and opportunity to examine and copy.

B. "Act" means the Utah Occupational Safety and Health Act of 1973.

C. "Administration" means the Division of Occupational Safety and Health of the Labor Commission, also known as UOSH (Utah Occupational Safety and Health).

D. "Administrator" means the director of the Division of Occupational Safety and Health.

E. "Amendment" means such modification or change in a code, standard, rule, or order intended for universal or general application.

F. "Analysis using exposure or medical records" means any compilation of data, or any research, statistical or other study based at least in part on information collected from individual employee exposure or medical records or information collected from health insurance claims records, provided that either the analysis has been reported to the employer or no further work is currently being done by the person responsible for preparing the analysis.

G. "Commission" means the Labor Commission.

H. "Council" means the Utah Occupational Safety and Health Advisory Council.

I. "Days" means calendar days, including Saturdays, Sundays, and holidays. The day of receipt of any notice shall not be included, and the last day of the 30 days shall be included.

J. "Designated representative" means any individual or organization to whom an employee gives written authorization to exercise a right of access. For the purpose of access to employee exposure records and analyses using exposure or medical records, a recognized or certified collective bargaining agent shall be treated automatically as a designated representative without regard to written employee authorization.

K. "Division" means the Division of Occupational Safety and Health, known by the acronym of UOSH (Utah Occupational Safety and Health).

L. "Employee" includes any person suffered or permitted to work by an employer.

1. For Medical Records: "Employee" means a current employee, a former employee, or an employee being assigned or transferred to work where there will be exposure to toxic substances or harmful physical agents. In the case of deceased or legally incapacitated employee, the employee's legal

representative may directly exercise all the employee's rights under this section.

M. "Employee exposure record" means a record containing any of the following kinds of information concerning employee exposure to toxic substances or harmful physical agents:

1. Environmental (workplace) monitoring or measuring, including personal, area, grab, wipe, or other form of sampling, as well as related collection and analytical methodologies, calculations, and other background data relevant to interpretations of the results obtained;

2. Biological monitoring results which directly assess the absorption of a substance or agent by body systems (e.g., the level of a chemical in the blood, urine, breath, hair, fingernails, etc.) but not including results which assess the biological effect of a substance or agent;

3. Material safety data sheets; or

4. In the absence of the above, any other record which reveals the identity (e.g., chemical, common, or trade name) of a toxic substance or harmful physical agent.

N. Employee medical record

1. "Employee medical record" means a record concerning the health status of an employee which is made or maintained by a physician, nurse, or other health care personnel, or technician including:

a. Medical and employment questionnaires or histories (including job description and occupational exposures);

b. The results of medical examinations (pre-employment, pre-assignment, periodic, or episodic) and laboratory tests (including X-ray examinations and all biological monitoring);

c. Medical opinions, diagnoses, progress notes, and recommendations;

d. Descriptions of treatments and prescriptions; and

e. Employee medical complaints.

2. "Employee medical record" does not include the following:

a. Physical specimens (e.g., blood or urine samples) which are routinely discarded as a part of normal medical practice, and not required to be maintained by other legal requirements;

b. Records concerning health insurance claims if maintained separately from the employer's medical program and its records, and not accessible to the employer by employee name or other direct personal identifier (e.g., social security number, payroll number, etc.); or

c. Records concerning voluntary employee assistance programs (alcohol, drug abuse, or personal counseling programs) if maintained separately from the employer's medical program and its records.

O. "Employer" means:

1. The state;

2. Each county, city, town, and school district in the state; and

3. Every person, firm, and private corporation, including public utilities, having one or more workers or operatives regularly employed in the same business, or in or about the same establishment, under any contract of hire.

4. For medical records: "Employer" means a current employer, a former employer, or a successor employer.

P. "Establishment" means a single physical location where business is conducted or where services or industrial operations are performed. (For example: A factory, mill, store, hotel, restaurant, movie theater, farm, ranch, bank, sales office, warehouse, or central administrative office.) Where distinctly separate activities are performed at a single physical location (such as contract construction activities from the same physical location as a lumber yard), each activity shall be treated as a separate physical establishment, and separate notices shall be posted in each establishment to the extent that such notices have been furnished by the Administrator.

1. Establishments whose primary activity constitutes retail trade; finance, insurance, real estate and services are classified in SIC's 52-89.

2. Retail trades are classified as SIC's 52-59 and for the most part include establishments engaged in selling merchandise to the general public for personal or household consumption. Some of the retail trades are: automotive dealers, apparel and accessory stores, furniture and home furnishing stores, and eating and drinking places.

3. Finance, insurance and real estate are classified as SIC's 60-67 and include establishments which are engaged in banking, credit other than banking, security dealings, insurance and real estate.

4. Services are classified as SIC's 70-89 and include establishments which provide a variety of services for individuals, businesses, government agencies, and other organizations. Some of the service industries are: personal and business services, in addition to legal, educational, social, and cultural; and membership organizations.

5. The primary activity of an establishment is determined as follows: For finance, insurance, real estate, and services establishments, the value of receipts or revenue for services rendered by an establishment determines its primary activity. In establishments with diversified activities, the activities determined to account for the largest share of production, sales or revenue will identify the primary activity. In some instances these criteria will not adequately represent the relative economic importance of each of the varied activities. In such cases, employment or payroll should be used in place of normal basis for determining the primary activity.

Q. "Exposure" or "exposed" means that an employee is subjected to a toxic substance or harmful physical agent in the course of employment through any route of entry (inhalation, ingestion, skin contact or absorption, etc.) and includes past exposure and potential (e.g., accidental or possible) exposure, but does not include situations where the employer can demonstrate that the toxic substance or harmful physical agent is not used, handled, stored, generated, or present in the workplace in any manner different from typical non-occupational situations.

R. "Hearing" means a proceeding conducted by the commission.

S. "Imminent danger" means a danger exists which reasonably could be expected to cause an occupational disease, death, or serious physical harm immediately, or before the danger could be eliminated through enforcement procedures under this chapter.

T. "Inspection" means any inspection of an employer's factory, plant, establishment, construction site, or other area, workplace or environment where work is performed by an employee of an employer, and includes any inspection conducted pursuant to a complaint filed under R614-1-6.K.1. and 3., any re-inspection, follow-up inspection, accident investigation or other inspection conducted under Section 34A-6-301 of the Act.

U. "National consensus standard" means any occupational safety and health standard or modification:

1. Adopted by a nationally recognized standards-producing organization under procedures where it can be determined by the administrator and division that persons interested and affected by the standard have reached substantial agreement on its adoption;

2. Formulated in a manner which affords an opportunity for diverse views to be considered; and

3. Designated as such a standard by the Secretary of the United States Department of Labor.

V. "Person" means the general public, one or more individuals, partnerships, associations, corporations, legal representatives, trustees, receivers, and the state and its political

subdivisions.

W. "Publish" means publication in accordance with Title 63, Chapter 46a, Utah Administrative Rulemaking Act.

X. "Record" means any item, collection, or grouping of information regardless of the form or process by which it is maintained (e.g., paper document, microfiche, microfilm, X-ray film, or automated data processing.)

Y. "Safety and Health Officer" means a person authorized by the Utah Occupational Safety and Health Administration to conduct inspections.

Z. "Secretary" means the Secretary of the United States Department of Labor.

AA. "Specific written consent" means written authorization containing the following:

1. The name and signature of the employee authorizing the release of medical information;

2. The date of the written authorization;

3. The name of the individual or organization that is authorized to release the medical information;

4. The name of the designated representative (individual or organization) that is authorized to receive the released information;

5. A general description of the medical information that is authorized to be released;

6. A general description of the purpose for the release of medical information; and

7. A date or condition upon which the written authorization will expire (if less than one year).

8. A written authorization does not operate to authorize the release of medical information not in existence on the date of written authorization, unless this is expressly authorized, and does not operate for more than one year from the date of written authorization.

9. A written authorization may be revoked in writing prospectively at any time.

BB. "Standard" means an occupational health and safety standard or group of standards which requires conditions, or the adoption or use of one or more practices, means, methods, operations, or processes, reasonably necessary to provide safety and healthful employment and places of employment.

CC. "Toxic substance" or "harmful physical agent" means any chemical substance, biological agent (bacteria, virus, fungus, etc.) or physical stress (noise, heat, cold, vibration, repetitive motion, ionizing and non-ionizing radiation, hypo and hyperbaric pressure, etc) which:

1. Is regulated by any Federal law or rule due to a hazard to health;

2. Is listed in the latest printed edition of the National Institute for Occupational Safety and Health (NIOSH) Registry of Toxic Effects of Chemical Substances (RTECS) (See R614-103-20B Appendix B);

3. Has yielded positive evidence of an acute or chronic health hazard in human, animal, or other biological testing conducted by, or known to the employer; or

4. Has a material safety data sheet available to the employer indicating that the material may pose a hazard to human health.

DD. "Variance" means a special, limited modification or change in the code or standard applicable to the particular establishment of the employer or person petitioning for the modification or change.

EE. "Workplace" means any place of employment.

R614-1-4. Incorporation of Federal Standards.

A. General Industry Standards.

1. Sections 29 CFR 1910.21 to 1910.999 and 1910.1000 through the end of part 1910 of the July 1, 2005, edition are incorporated by reference.

2. 29 CFR 1908, July 1, 2005, is incorporated by

reference.

3. 29 CFR 1904, July 1, 2005, is incorporated by reference.

B. Construction Standards.

Section 29 CFR 1926.20 through the end of part 1926, of the July 1, 2005, edition is incorporated by reference.

R614-1-5. Adoption and Extension of Established Federal Safety Standards and State of Utah General Safety Orders.

A. Scope and Purpose.

1. The provisions of this rule adopt and extend the applicability of: (1) established Federal Safety Standards, (2) R614, and (3) Workers' Compensation Coverage, as in effect July 1, 1973 and subsequent revisions, with respect to every employer, employee and employment within the boundaries of the State of Utah, covered by the Utah Occupational Safety and Health Act of 1973.

2. All standards and rules including emergency and/or temporary, promulgated under the Federal Occupational Safety and Health Act of 1970 shall be accepted as part of the Standards, Rules and Regulations under the Utah Occupational Safety and Health Act of 1973, unless specifically revoked or deleted.

3. All employers will provide workers' compensation benefits as required in Section 34A-2-201.

4. Any person, firm, company, corporation or association employing minors must comply fully with all orders and standards of the Labor Division of the Commission. UOSH standards shall prevail in cases of conflict.

B. Construction Work.

Federal Standards, 29 CFR 1926 and selected applicable sections of R614 are accepted covering every employer and place of employment of every employee engaged in construction work of:

1. New construction and building;
2. Remodeling, alteration and repair;
3. Decorating and painting;
4. Demolition; and
5. Transmission and distribution lines and equipment erection, alteration, conversion or improvement.

C. Reporting Requirements.

1. Each employer shall within 8 hours of occurrence, notify the Division of Utah Occupational Safety and Health of the Commission of any work-related fatalities, of any disabling, serious, or significant injury and of any occupational disease incident. Call (801) 530-6901.

2. Tools, equipment, materials or other evidence that might pertain to the cause of such accident shall not be removed or destroyed until so authorized by the Labor commission or one of its Compliance Officers.

3. Each employer shall investigate or cause to be investigated all work-related injuries and occupational diseases and any sudden or unusual occurrence or change of conditions that pose an unsafe or unhealthful exposure to employees.

4. Each employer shall file a report with the Commission within seven days after the occurrence of an injury or occupational disease, after the employers' first knowledge of the occurrence, or after the employee's notification of the same, on forms prescribed by the Commission, of any work-related fatality or any work-related injury or occupational disease resulting in medical treatment, loss of consciousness or loss of work, restriction of work, or transfer to another job. Each employer shall file a subsequent report with the Commission of any previously reported injury or occupational disease that later resulted in death. The subsequent report shall be filed with the Commission within seven days following the death or the employer's first knowledge or notification of the death. No report is required for minor injuries, such as cuts or scratches that require first-aid treatment only, unless the treating physician

files, or is required to file the physician's initial report of work injury or occupational disease with the Commission. Also, no report is required for occupational disease which manifest after the employee is no longer employed by the employer with which the exposure occurred, or where the employer is not aware of an exposure occasioned by the employment which results in an occupational disease as defined by Section 34A-3-103.

5. Each employer shall provide the employee with a copy of the report submitted to the Commission. The employer shall also provide the employee with a statement, as prepared by the Commission, of his rights and responsibilities related to the industrial injury or occupational disease.

6. Each employer shall maintain a record in a manner prescribed by the Commission of all work-related injuries and all occupational disease resulting in medical treatment, loss of consciousness, loss of work, restriction or work, or transfer to another job.

7. No person shall remove, displace, destroy, or carry away any safety devices or safeguards provided for use in any place of employment, or interfere in any way with the use thereof by other persons, or interfere in any method or process adopted for the protection of employees. No employee shall refuse or neglect to follow and obey reasonable orders that are issued for the protection of health, life, safety, and welfare of employees.

D. Employer, Employee Responsibility.

1. It shall be the duty and responsibility of any employee upon entering his or her place of employment, to examine carefully such working place and ascertain if the place is safe, if the tools and equipment can be used with safety, and if the work can be performed safely. After such examination, it shall be the duty of the employee to make the place, tools, or equipment safe. If this cannot be done, then it becomes his or her duty to immediately report the unsafe place, tools, equipment, or conditions to the foreman or supervisor.

2. Employees must comply with all safety rules of their employer and with all the Rules and Regulations promulgated by UOSH which are applicable to their type of employment.

3. Management shall inspect or designate a competent person or persons to inspect frequently for unsafe conditions and practices, defective equipment and materials, and where such conditions are found to take appropriate action to correct such conditions immediately.

4. Supervisory personnel shall enforce safety regulations and issue such rules as may be necessary to safeguard the health and lives of employees. They shall warn all employees of any dangerous condition and permit no one to work in an unsafe place, except for the purpose of making it safe.

E. General Safety Requirements.

1. Where there is a risk of injury from hair entanglement in moving parts of machinery, employees shall confine their hair to eliminate the hazard.

2. Body protection: Clothing which is appropriate for the work being done should be worn. Loose sleeves, tails, ties, lapels, cuffs, or similar garments which can become entangled in moving machinery shall not be worn where an entanglement hazard exists. Clothing saturated or impregnated with flammable liquids, corrosive substances, irritant, oxidizing agents or other toxic materials shall be removed and shall not be worn until properly cleaned.

3. General. Wrist watches, rings, or other jewelry shall not be worn on the job where they constitute a safety hazard.

4. Safety Committees. It is recommended that a safety committee comprised of management and employee representatives be established. The committee or the individual member of the committee shall not assume the responsibility of management to maintain and conduct a safe operation. The duties of the committee should be outlined by management, and

may include such items as reviewing the use of safety apparel, recommending action to correct unsafe conditions, etc.

5. No intoxicated person shall be allowed to go into or loiter around any operation where workers are employed.

6. No employee shall carry intoxicating liquor into a place of employment, except that the place of employment shall be engaged in liquor business and this is a part of his assigned duties.

7. Employees who do not understand or speak the English language shall not be assigned to any duty or place where the lack or partial lack of understanding or speaking English might adversely affect their safety or that of other employees.

8. Good housekeeping is the first law of accident prevention and shall be a primary concern of all supervisors and workers. An excessively littered or dirty work area will not be tolerated as it constitutes an unsafe, hazardous condition of employment.

9. Emergency Posting Required.

a. Good communications are necessary if a fire or disaster situation is to be adequately coped with. A system for alerting and directing employees to safety is an essential step in a safety program.

b. A list of telephone numbers or addresses as may be applicable shall be posted in a conspicuous place so the necessary help can be obtained in case of emergency. This list shall include:

- (1) Responsible supervision (superintendent or equivalent)
- (2) Doctor
- (3) Hospital
- (4) Ambulance
- (5) Fire Department
- (6) Sheriff or Police
10. Lockouts and Tagging.

a. Where there is any possibility of machinery being started or electrical circuits being energized while repairs or maintenance work is being done, the electrical circuits shall be locked open and/or tagged and the employee in charge (the one who places the lock) shall keep the key until the job is completed or he is relieved from the job, such as by shift change or other assignment. If it is expected that the job may be assigned to other workers, he may remove his lock provided the supervisor or other workers apply their lock and tag immediately. Where there is danger of machinery being started or of steam or air creating a hazard to workers while repairs on maintenance work is being done, the employee in charge shall disconnect the lines or lock and tag the main valve closed or blank the line on all steam driven machinery, pressurized lines or lines connected to such equipment if they could create a hazard to workers.

b. After tagging and lockout procedures have been applied, machinery, lines, and equipment shall be checked to insure that they cannot be operated.

c. If locks and tags cannot be applied, conspicuous tags made of nonconducting material and plainly lettered, "EMPLOYEES WORKING" followed by the other appropriate wording, such as "Do not close this switch" shall be used.

d. When in doubt as to procedure, the worker shall consult his supervisor concerning safe procedure.

11. Safety-Type hooks shall be used wherever possible.

12. Emergency Showers, Bubblers, and Eye Washers.

a. Readily accessible, well marked, rapid action safety showers and eye wash facilities must be available in areas where strong acid, caustic or highly oxidizing or irritating chemicals are being handled. (This is not applicable where first aid practices specifically preclude flushing with running water.)

b. Showers should have deluge type heads, easily accessible, plainly marked and controlled by quick opening valves of the type that stay open. The valve handle should be equipped with a pull chain, rope, etc., so the blinded employee

will be able to more easily locate the valve control. In addition, it is recommended that the floor platform be so constructed to actuate the quick opening valve. The shower should be capable of supplying large quantities of water under moderately high pressure. Blankets should be located so as to be reasonably accessible to the shower area.

c. All safety equipment should be inspected and tested at regular intervals, preferably daily and especially during freezing weather, to make sure it is in good working condition at all times.

13. Grizzlies Over Chutes, Bins and Tank Openings.

a. Employees shall be furnished with and be required to use approved type safety harnesses and shall be tied off securely so as to suspend him above the level of the product before entering any bin, chute or storage place containing material that might cave or run. Cleaning and barring down in such places shall be started from the top using only bars blunt on one end or having a ring type or D handhold.

b. Employees shall not work on top of material stored or piled above chutes, drawholes or conveyor systems while material is being withdrawn unless protected.

c. Chutes, bins, drawholes and similar openings shall be equipped with grizzlies or other safety devices that will prevent employees from falling into the openings.

d. Bars for grizzly grids shall be so fitted that they will not loosen and slip out of place, and the operator shall not remove a bar temporarily to let large rocks through rather than to break them.

F. All requirements of PSM Standard 29 CFR 1910.119 are hereby extended to include the blister agents, HT, HD, H, Lewisite, and the nerve agents, GA, VX.

R614-1-6. Personal Protective Equipment.

A. When no other method or combination of methods can be provided to prevent employees from becoming exposed to toxic dusts, fumes, gases, flying particles or other objects, dangerous rays or burns from heat, acid, caustic, or any other hazard of a similar nature, the employer must provide each worker with the necessary personal protection equipment, such as respirators, goggles, gas masks, certain types of protective clothing, etc. Provision must also be made to keep all such equipment in good, sanitary working condition at all times.

B. Where there is a risk of injury from hair entanglement in moving parts of machinery, employees shall confine their hair to eliminate the hazard.

C. Except when, in the opinion of the Administrator, their use creates a greater hazard, life lines and safety harnesses shall be provided for and used by workers engaged in window washing, in securing or shifting thrustouts, inspecting or working on overhead machines supporting scaffolds or other high rigging, and on steeply pitched roofs. Similarly, they shall be provided for and used by all exposed to the hazard of falling, and by workmen on poles workers or steel frame construction more than ten (10) feet above solid ground or above a temporary or permanent floor or platform.

D. Every life line and safety harness shall be inspected by the superintendent or his authorized representative and the worker before it is used and at least once a week while continued in use.

E. Wristwatches, rings, or other jewelry shall not be worn on the job where they constitute a safety hazard.

R614-1-7. Inspections, Citations, and Proposed Penalties.

A. The Utah Occupational Safety and Health Act (Title 34A, Chapter 6) requires, that every employer covered under the Act furnish to his employees employment and a place of employment which are free from recognized hazards that are likely to cause death or serious physical harm to his employees. The Act also requires that employers comply with occupational

safety and health standards promulgated under the Act, and that employees comply with standards, rules, regulations and orders issued under the Act applicable to employees actions and conduct. The Act authorizes the Utah Occupational Safety and Health Division to conduct inspections, and to issue citations and proposed penalties for alleged violations. The Act, under Section 34A-6-301, also authorizes the Administrator to conduct inspections and to question employers and employees in connection with research and other related activities. The Act contains provisions for adjudication of violations, periods prescribed for the abatement of violations, and proposed penalties by the Labor Commission, if contested by an employer or by an employee or authorized representative of employees, and for a judicial review. The purpose of R614-1-7 is to prescribe rules and general policies for enforcement of the inspection, citations, and proposed penalty provisions of the Act. Where R614-1-7 sets forth general enforcement policies rather than substantive or procedural rules, such policies may be modified in specific circumstances where the Administrator or his designee determines that an alternative course of action would better serve the objectives of the Act.

B. Posting of notices; availability of Act, regulations and applicable standards.

1. Each employer shall post and keep posted notices, to be furnished by the Administrator, informing employees of the protections and obligations provided for in the Act, and that for assistance and information, including copies of the Act and of specific safety and health standards, employees should contact their employer or the office of the Administrator. Such notices shall be posted by the employer in each establishment in a conspicuous place where notices to employees are customarily posted. Each employer shall take steps to insure that such notices are not altered, defaced, or covered by other material.

2. Where employers are engaged in activities which are physically dispersed, such as agriculture, construction, transportation communications, and electric, gas and sanitary services, the notices required shall be posted at the location where employees report each day. In the case of employees who do not usually work at, or report to, a single establishment, such as traveling salesman, technicians, engineers, etc., such notices shall be posted in accordance with the requirements of R614-1-7.Q.

3. Copies of the Act, all regulations published under authority of Section 34A-6-202 and all applicable standards will be available at the office of the Administrator. If an employer has obtained copies of these materials, he shall make them available upon request to any employee or his authorized representative.

4. Any employer failing to comply with the provisions of this Part shall be subject to citation and penalty in accordance with the provisions of Sections 34A-6-302 and 34A-6-307 of the Act.

C. Authority for Inspection.

1. Safety and Health Officers of the Division are authorized to enter without delay and at reasonable times any factory, plant, establishment, construction site, or other area, workplace or environment where work is performed by an employee of an employer; to inspect and investigate during regular working hours and at other reasonable times, and within reasonable limits and in a reasonable manner, any such place of employment, and all pertinent conditions, structures, machines, apparatus, devices, equipment and materials therein; to question privately any employer, owner, operator, agent or employee; and to review records required by the Act and regulations published in R614-1-7 and 8, and other records which are directly related to the purpose of the inspection.

2. Prior to inspecting areas containing information which has been classified as restricted by an agency of the United States Government in the interest of national security, Safety

and Health Officers shall obtain the appropriate security clearance.

D. Objection to Inspection.

1. Upon a refusal to permit the Safety and Health Officer, in exercise of his official duties, to enter without delay and at reasonable times any place of employment or any place therein, to inspect, to review records, or to question any employer, owner, operator, agent, or employee, in accordance with R614-1-7.B. and C. or to permit a representative of employees to accompany the Safety and Health Officer during the physical inspection of any workplace in accordance with R614-1-7.G. the Safety and Health Officer shall terminate the inspection or confine the inspection to other areas, conditions, structures, machines, apparatus, devices, equipment, materials, records or interview concerning which no objection is raised.

2. The Safety and Health Officer shall endeavor to ascertain the reason for such refusal, and shall immediately report the refusal and the reason therefor to the Administrator. The Administrator shall take appropriate action, including compulsory process, if necessary.

3. Compulsory process shall be sought in advance of an attempted inspection or investigation if, in the judgment of the Administrator circumstances exist which make such preinspection process desirable or necessary. Some examples of circumstances in which it may be desirable or necessary to seek compulsory process in advance of an attempt to inspect or investigate include (but are not limited to):

a. When the employers past practice either implicitly or explicitly puts the Administrator on notice that a warrantless inspection will not be allowed:

b. When an inspection is scheduled far from the local office and procuring a warrant prior to leaving to conduct the inspection would avoid, in case of refusal of entry, the expenditure of significant time and resources to return to the office, obtain a warrant and return to the work-site;

c. When an inspection includes the use of special equipment or when the presence of an expert or experts is needed in order to properly conduct the inspection, and procuring a warrant prior to an attempt to inspect would alleviate the difficulties or costs encountered in coordinating the availability of such equipment or expert.

4. For purposes of this section, the term compulsory process shall mean the institution of any appropriate action, including ex parte application for an inspection warrant or its equivalent. Ex parte inspection warrants shall be the preferred form of compulsory process in all circumstances where compulsory process is relied upon to seek entry to a workplace under this section.

E. Entry not a Waiver.

Any permission to enter, inspect, review records, or question any person, shall not imply a waiver of any cause of action, citation, or penalty under the Act. Safety and Health Officers are not authorized to grant such waivers.

F. Advance notice of Inspections.

1. Advance notice of inspections may not be given, except in the following instances:

a. In cases of apparent imminent danger, to enable the employer to abate the danger as quickly as possible.

b. In circumstances where the inspection can most effectively be conducted after regular business hours or where special preparations are necessary for an inspection.

c. Where necessary to assure the presence of the employer or representative of the employer and employees or the appropriate personnel needed to aid the inspection; and

d. In other circumstances where the Administrator determines that the giving of advance notice would enhance the probability of an effective and thorough inspection.

2. In the instances described in R614-1-7.F.1., advance notice of inspections may be given only if authorized by the

Administrator, except that in cases of imminent danger, advance notice may be given by the Safety and Health Officer without such authorization if the Administrator is not immediately available. Where advance notice is given, it shall be the employer's responsibility to notify the authorized representative of the employees of the inspection, if the identity of such representatives is known to the employer. (See R614-1-7.H.2. as to instances where there is no authorized representative of employees.) Upon the request of the employer, the Safety and Health Officer will inform the authorized representative of employees of the inspection, provided that the employer furnishes the Safety and Health Officer with the identity of such representatives and with such other information as is necessary to enable him promptly to inform such representatives of the inspection. A person who fails to comply with his responsibilities under this paragraph, may be subject to citation and penalty under Sections 34A-6-302 and 34A-6-307 of the Act. Advance notice in any of the instances described in R614-1-7.F. shall not be given more than 24 hours before the inspection is scheduled to be conducted, except in cases of imminent danger and other unusual circumstances.

3. The Act provides in Subsection 34A-6-307(5)(b) conditions for which advanced notice can be given and the penalties for not complying.

G. Conduct of Inspections.

1. Subject to the provisions of R614-1-7.C., inspections shall take place at such times and in such places of employment as the Administrator or the Safety and Health Officer may direct. At the beginning of an inspection, Safety and Health Officers shall present their credentials to the owner, operator, or agent in charge at the establishment; explain the nature and purpose of the inspection; and indicate generally the scope of the inspection and the records specified in R614-1-7.C. which they wish to review. However, such designations of records shall not preclude access to additional records specified in R614-1-7.C.

2. Safety and Health Officers shall have authority to take environmental samples and to take photographs or video recordings related to the purpose of the inspection, employ other reasonable investigative techniques, and question privately any employer, owner, operator, agent or employee of an establishment. (See R614-1-7.I. on trade secrets.) As used herein, the term "employ other reasonable investigative techniques" includes, but is not limited to, the use of devices to measure employee exposures and the attachment of personal sampling equipment such as dosimeters, pumps, badges, and other similar devices to employees in order to monitor their exposures.

3. In taking photographs and samples, Safety and Health Officers shall take reasonable precautions to insure that such actions with flash, spark-producing, or other equipment would not be hazardous. Safety and Health Officers shall comply with all employer safety and health rules and practices at the establishment being inspected, and shall wear and use appropriate protective clothing and equipment.

4. The conduct of inspections shall preclude unreasonable disruption of the operations of the employer's establishment.

5. At the conclusion of an inspection, the Safety and Health Officer shall confer with the employer or his representative and informally advise him of any apparent safety or health violations disclosed by the inspection. During such conference, the employer shall be afforded an opportunity to bring to the attention of the Safety and Health Officer any pertinent information regarding conditions in the workplace.

H. Representative of employers and employees.

1. Safety and Health Officer shall be in charge of inspections and questioning of persons. A representative of the employer and a representative authorized by his employees shall be given an opportunity to accompany the Safety and Health Officer during the physical inspection of any workplace for the

purpose of aiding such inspection. A Safety and Health Officer may permit additional employer representative and additional representatives authorized by employees to accompany him where he determines that such additional representatives will further aid the inspection. A different employer and employee representative may accompany the Safety and Health Officer during each phase of an inspection if this will not interfere with the conduct of the inspection.

2. Safety and Health Officers shall have authority to resolve all disputes as to who is the representative authorized by the employer and the employees for purpose of this Part. If there is no authorized representative of employees, or if the Safety and Health Officer is unable to determine with reasonable certainty who is such representative, he shall consult with a reasonable number of employees concerning matters of safety and health in the workplace.

3. The representative(s) authorized by employees shall be an employee(s) of the employer. However, if in the judgment of the Safety and Health Officer, good cause has been shown why accompaniment by a third party who is not an employee of the employer (such as an industrial hygienist or safety engineer) is reasonably necessary to the conduct of an effective and thorough physical inspection of the workplace, such third party may accompany the Safety and Health Officer during the inspection.

4. Safety and Health Officers are authorized to deny the right of accompaniment under this Part to any person whose conduct interferes with a fair and orderly inspection. The right of accompaniment in areas containing trade secrets shall be subject to the provisions of R614-1-7.I.3. With regard to information classified by an agency of the U.S. Government in the interest of national security, only persons authorized to have access to such information may accompany a Safety and Health Officer in areas containing such information.

I. Trade secrets.

1. Section 34A-6-306 of the Act provides provisions for trade secrets.

2. At the commencement of an inspection, the employer may identify areas in the establishment which contain or which might reveal a trade secret. If the Safety and Health Officer has no clear reason to question such identification, information obtained in such areas, including all negatives and prints of photographs, and environmental samples, shall be labeled "confidential-trade secret" and shall not be disclosed except in accordance with the provisions of Section 34A-6-306 of the Act.

3. Upon the request of an employer, any authorized representative of employees under R614-1-7.H. in an area containing trade secrets shall be an employee in that area or an employee authorized by the employer to enter that area. Where there is not such representative or employee, the Safety and Health Officer shall consult with a reasonable number of employees who work in that area concerning matters of safety and health.

J. Consultation with employees.

Safety and Health Officers may consult with employees concerning matters of occupational safety and health to the extent they deem necessary for the conduct of an effective and thorough inspection. During the course of an inspection, any employee shall be afforded an opportunity to bring any violation of the Act which he has reason to believe exists in the workplace to the attention of the Safety and Health Officer.

K. Complaints by employees.

1. Any employee or representative of employees who believe that a violation of the Act exists in any workplace where such employee is employed may request an inspection of such workplace by giving notice of the alleged violation to the Administrator or to a Safety and Health Officer. Any such notice shall be reduced to writing, shall set forth with reasonable

particularity the grounds for the notice, and shall be signed by the employee or representative of employees. A copy of the notice shall be provided the employer or his agent by the Administrator or Safety and Health Officer no later than at the time of inspection, except that, upon the request of the person giving such notice, his name and the names of individual employees referred to therein shall not appear in such copy or on any record published, released, or made available by the Administrator.

2. If upon receipt of such notification the Administrator determines that the complaint meets the requirements set forth in R614-1-7.K.1., and that there are reasonable grounds to believe that the alleged violation exists, he shall cause an inspection to be made as soon as practicable. Inspections under this Part shall not be limited to matters referred to in the complaint.

3. Prior to or during any inspection of a workplace, any employee or representative of employees employed in such workplace may notify the Safety and Health Officer, in writing, of any violation of the Act which they have reason to believe exists in such workplace. Any such notice shall comply with requirements of R614-1-7.K.1.

4. Section 34A-6-203 of the Act provides protection for employees while engaged in protected activities.

L. Inspection not warranted; informal review.

1. If the Administrator determines that an inspection is not warranted because there are no reasonable grounds to believe that a violation or danger exists with respect to a complaint under K, he shall notify the complaining party in writing of such determination. The complaining party may obtain review of such determination by submitting a written statement of position with the Administrator. The Administrator, at his discretion, may hold an informal conference in which the complaining party and the employer may orally present their views. After considering all written and oral view presented, the Administrator shall affirm, modify, or reverse the determination of the previous decision and again furnish the complaining party and the employer written notification of his decision and the reasons therefor.

2. If the Administrator determines that an inspection is not warranted because the requirements of R614-1-7.K.1. have not been met, he shall notify the complaining party in writing of such determination. Such determination shall be without prejudice to the filing of a new complaint meeting the requirements of R614-1-7.K.1.

M. Imminent danger.

Whenever a Safety and Health Officer concludes, on the basis of an inspection, that conditions or practices exist in any place of employment which could reasonably be expected to cause death or serious physical harm before the imminence of such danger can be eliminated through the enforcement procedures of the Act, he shall inform the affected employees and employers of the danger, that he is recommending a civil action to restrain such conditions or practices and for other appropriate citations of proposed penalties which may be issued with respect to an imminent danger even though, after being informed of such danger by the Compliance Officer, the employer immediately eliminates the imminence of the danger and initiates steps to abate such danger.

N. Citations.

1. The Administrator shall review the inspection report of the Safety and Health Officer. If, on the basis of the report the Administrator believes that the employer has violated a requirement of Section 34A-6-201 of the Act, of any standard, rule, or order promulgated pursuant to Section 34A-6-202 of the Act, or of any substantive rule published in this chapter, shall issue to the employer a citation. A citation shall be issued even though, after being informed of an alleged violation by the Safety and Health Officer, the employer immediately abates, or

initiates steps to abate, such alleged violations. Any citation shall be issued with reasonable promptness after termination of the inspection. No citation may be issued after the expiration of 6 months following the occurrence of any violation.

2. Any citation shall describe with particularity the nature of the alleged violation, including a reference to the provision of the Act, standard, rule, regulations, or order alleged to have been violated. Any citation shall also fix a reasonable time or times for the abatement of the alleged violations.

3. If a citation is issued for an alleged violation in a request for inspection under R614-1-7.K.1. or a notification of violation under R614-1-7.K.3., a copy of the citation shall also be sent to the employee or representative of employees who made such request or notification.

4. Following an inspection, if the Administrator determines that a citation is not warranted with respect to a danger or violation alleged to exist in a request for inspection under R614-1-7.K.1. or a notification of violation under R614-1-7.K.3., the informal review procedures prescribed in R614-1-7.L.1. shall be applicable. After considering all views presented, the Administrator shall either affirm, order a re-inspection, or issue a citation if he believes that the inspection disclosed a violation. The Administrator shall furnish the complaining party and the employer with written notification of his determination and the reasons therefor.

5. Every citation shall state that the issuance of a citation does not constitute a finding that a violation of the Act has occurred unless there is a failure to contest as provided for in the Act or, if contested, unless the citation is affirmed by the Commission.

O. Petitions for modification of abatement date.

1. An employer may file a petition for modification of abatement date when he has made a good faith effort to comply with the abatement requirements of the citation, but such abatement has not been completed because of factors beyond his reasonable control.

2. A petition for modification of abatement date shall be in writing and shall include the following information.

a. All steps taken by the employer, and the dates of such action, in an effort to achieve compliance during the prescribed abatement period.

b. The specific additional abatement time necessary in order to achieve compliance.

c. The reasons such additional time is necessary, including the unavailability, of professional or technical personnel or of materials and equipment, or because necessary construction or alteration of facilities cannot be completed by the original abatement date.

d. All available interim steps being taken to safeguard the employees against the cited hazard during the abatement period.

e. A certification that a copy of the petition has been posted and, if appropriate, served on the authorized representative of affected employees, in accordance with paragraph R614-1-7.O.3.a. and a certification of the date upon which such posting and service was made.

3. A petition for modification of abatement date shall be filed with the Administrator who issued the citation no later than the close of the next working day following the date on which abatement was originally required. A later-filed petition shall be accompanied by the employer's statement of exceptional circumstances explaining the delay.

a. A copy of such petition shall be posted in a conspicuous place where all affected employees will have notice thereof or near such location where the violation occurred. The petition shall remain posted for a period of ten (10) days. Where affected employees are represented by an authorized representative, said representative shall be served with a copy of such petition.

b. Affected employees or their representatives may file an

objection in writing to such petition with the aforesaid Administrator. Failure to file such objection within ten (10) working days of the date of posting of such petition or of service upon an authorized representative shall constitute a waiver of any further right to object to said petition.

c. The Administrator or his duly authorized agent shall have authority to approve any petition for modification of abatement date filed pursuant to paragraphs R614-1-7.O.2. and 3. Such uncontested petitions shall become final orders pursuant to Subsection 34A-6-303(1) of the Act.

d. The Administrator or his authorized representative shall not exercise his approval power until the expiration of ten (10) days from the date of the petition was posted or served pursuant to paragraphs R614-1-7.O.3.a. and b. by the employer.

4. Where any petition is objected to by the affected employees, the petition, citation, and any objections shall be forwarded to the Administrator per R614-1-7.O.3.b. Upon receipt the Administrator shall schedule and notify all interested parties of a formal hearing before the Administrator or his authorized representative(s). Minutes of this hearing shall be taken and become public records of the Commission. Within ten (10) days after conclusion of the hearing, a written opinion by the Administrator will be made, with copies to the affected employees or their representatives, the affected employer and to the Commission.

P. Proposed penalties.

1. After, or concurrent with, the issuance of a citation and within a reasonable time after the termination of the inspection, the Administrator shall notify the employer by certified mail or by personal service by the Safety and Health Officer of the proposed penalty under Section 34A-6-307 of the Act, or that no penalty is being proposed. Any notice of proposed penalty shall state that the proposed penalty shall be deemed to be the final order of the Commission and not subject to review by any court or agency unless, within 30 days from the date of receipt of such notice, the employer notifies the Adjudication Division in writing that he intends to contest the citation or the notification of proposed penalty before the Commission.

2. The Administrator shall determine the amount of any proposed penalty, giving due consideration to the appropriateness of the penalty with respect to the size of the business, of the employer being charged, the gravity of the violation, the good faith of the employer, and the history of previous violations, in accordance with the provisions of Section 34A-6-307 of the Act.

3. Appropriate penalties may be proposed with respect to an alleged violation even though after being informed of such alleged violation by the Safety and Health Officer, the employer immediately abates, or initiates steps to abate, such alleged violation. Penalties shall not be proposed for violations which have no direct or immediate relationship to safety or health.

Q. Posting of citations.

1. Upon receipt of any citation under the Act, the employer shall immediately post such citation, or copy thereof, unedited, at or near each place of alleged violation referred to in the citation occurred, except as hereinafter provided. Where, because of the nature of the employer's operations, it is not practicable to post the citation at or near each place of alleged violation, such citation shall be posted, unedited, in a prominent place where it will be readily observable by all affected employees. For example, where employees are engaged in activities which are physically dispersed (see R614-1-7.B.), the citation may be posted at the location to which employees report each day. Where employees do not primarily work at or report to a single location (see R614-1-7.B.2.), the citation must be posted at the location from which the employees commence their activities. The employer shall take steps to ensure that the citation is not altered, defaced, or covered by other material.

2. Each citation or a copy thereof, shall remain posted until

the violation has been abated, or for 3 working days which ever is later. The filing by the employer of a notice of intention to contest under R614-1-7.R. shall not affect his posting responsibility unless and until the Commission issues a final order vacating the citation.

3. An employer, to whom a citation has been issued, may post a notice in the same location where such citation is posted indicating that the citation is being contested before the Commission, such notice may explain the reasons for such contest. The employer may also indicate that specified steps have been taken to abate the violation.

4. Any employer failing to comply with the provisions of R614-1-7.Q.1. and 2. shall be subject to citation and penalty in accordance with the provisions of Section 34A-6-307 of the Act.

R. Employer and employee hearings before the Commission.

1. Any employer to whom a citation or notice of proposed penalty has been issued, may under Section 34A-6-303 of the Act, notify the Adjudication Division in writing that the employer intends to contest such citation or proposed penalty before the Commission. Such notice of intention to contest must be received by the Adjudication Division within 30 days of the receipt by the employer of the notice of proposed penalty. Every notice of intention to contest shall specify whether it is directed to the citation or to the proposed penalty, or both. The Adjudication Division shall handle such notice in accordance with the rules of procedures prescribed by the Commission.

2. An employee or representative of employee of an employer to whom a citation has been issued may, under Section 34A-6-303(3) of the Act, file a written notice with the Adjudication Division alleging that the period of time fixed in the citation for the abatement of the violation is unreasonable. Such notice must be received by the Adjudication Division within 30 days of the receipt by the employer of the notice of proposed penalty or notice that no penalty is being proposed. The Adjudication Division shall handle such notice in accordance with the rules of procedure prescribed by the Commission.

S. Failure to correct a violation for which a citation has been issued.

1. If an inspection discloses that an employer has failed to correct an alleged violation for which a citation has been issued within the period permitted for its correction, the Administrator shall notify the employer by certified mail or by personal service by the Safety and Health Officer of such failure and of the additional penalty proposed under Section 34A-6-307 of the Act by reason of such failure. The period for the correction of a violation for which a citation has been issued shall not begin to run until the entry of a final order of the Commission in the case of any review proceedings initiated by the employer in good faith and not solely for delay or avoidance of penalties.

2. Any employer receiving a notification of failure to correct a violation and of proposed additional penalty may, under Section 34A-6-303(3) of the Act, notify the Adjudication Division in writing that he intends to contest such notification or proposed additional penalty before the Commission. Such notice of intention to contest shall be postmarked within 30 days of receipt by the employer of the notification of failure to correct a violation and of proposed additional penalty. The Adjudication Division shall handle such notice in accordance with the rules of procedures prescribed by the Commission.

3. Each notification of failure to correct a violation and of proposed additional penalty shall state that it shall be deemed to be the final order of the Commission and not subject to review by any court or agency unless, within 30 days from the date of receipt of such notification, the employer notifies the Adjudication Division in writing that he intends to contest the notification or the proposed additional penalty before the

Commission.

T. Informal conferences.

At the request of an affected employer, employee, or representative of employees, the Administrator may hold an informal conference for the purpose of discussing any issues raised by an inspection, citation, notice of proposed penalty, or notice of intention to contest. The Administrator shall provide in writing the reasons for any settlement of issues at such conferences. If the conference is requested by the employer, an affected employee or his representative shall be afforded an opportunity to participate, at the discretion of the Administrator. If the conference is requested by an employee or representative of employees, the employer shall be afforded an opportunity to participate, at the discretion of the Administrator. Any party may be represented by counsel at such conference. No such conference or request for such conference shall operate as a stay of any 30 day period for filing a notice of intention to contest as prescribed in R614-1-7.R.

R614-1-8. Recording and Reporting Occupational Injuries and Illnesses.

A. The rules in this section implement Sections 34A-6-108 and 34A-6-301(3) of the Act. These sections provide for record-keeping and reporting by employers covered under the Act, for developing information regarding the causes and prevention of occupational accidents and illnesses, and for maintaining a program of collection, compilation, and analysis of occupational safety and health statistics. Regardless of size or type of operation, accidents and fatalities must be reported to UOSH in accordance with the requirements of R614-1-5.C.

NOTE: Utah has adopted and will enforce the Federal Recordkeeping Standard 29CFR1904.

R614-1-4. Incorporation of Federal Standards.

A. General Industry Standards.

4. FR Vol. 66, No. 13, Friday, January 19, 2001, Pages 5916 to and including 6135. "Occupational Injury and reporting Requirements; Final Rule" is incorporated by reference.

Utah Specific Recordkeeping requirements follow:

B. Supplementary record.

Each employer shall have available for inspection at each establishment within 6 working days after receiving information that a recordable case has occurred, a supplementary record for that establishment. The record shall be completed in the detail prescribed in the instructions accompanying federal OSHA Form No. 301, Utah Industrial Accidents Form 122. Workers' compensation, insurance, or other reports are acceptable alternative records if they contain the information required by the federal OSHA Form No. 301, Utah Industrial Accidents Form 122. If no acceptable alternative record is maintained for other purposes, Federal OSHA Form No. 301, Utah Industrial Accidents Form 122 shall be used or the necessary information shall be otherwise maintained.

C. Retention of records.

Preservation of records.

a. This section applies to each employer who makes, maintains or has access to employee exposure records or employee medical records.

b. "Employee exposure record" means a record of monitoring or measuring which contains qualitative or quantitative information indicative of employee exposures to toxic materials or harmful physical agents. This includes both individual exposure records and general research or statistical studies based on information collected from exposure records.

c. "Employee medical record" means a record which contains information concerning the health status of an employee or employees exposed or potentially exposed to toxic materials or harmful physical agents. These records may include, but are not limited to:

(1) The results of medical examinations and tests;

(2) Any opinions or recommendations of a physician or other health professional concerning the health of an employee or employees; and

(3) Any employee medical complaints relating to workplace exposure. Employee medical records include both individual medical records and general research or statistical studies based on information collected from medical records.

d. Preservation of records. Each employer who makes, maintains, or has access to employee exposure records or employee medical records shall preserve these records.

e. Availability of records. The employer shall make available, upon request to the Administrator, or a designee, and to the Director of the Division of Health, or a designee, all employee exposure records and employee medical records for examination and copying.

D. Access to records.

1. Records provided for in R614-1-8.A., E., and F. shall be available for inspection and copying by Compliance Officers during any occupational safety and health inspection provided for under R614-1-7 and Section 34A-6-301 of the Act.

2. The log and summary of all recordable occupational injuries and illnesses (OSHA No. 200) (the log) provided for in R614-1-8.A. shall, upon request, be made available by the employer to any employee, former employee, and to their representatives for examination and copying in a reasonable manner and at reasonable times. The employee, former employee, and their representatives shall have access to the log for any establishment in which the employee is or has been employed.

3. Nothing in this section shall be deemed to preclude employees and employee representatives from collectively bargaining to obtain access to information relating to occupational injuries and illnesses in addition to the information made available under this section.

4. Access to the log provided under this section shall pertain to all logs retained under requirements of R614-1-8.G.

E. Reporting of fatality or accidents. (Refer to Utah Occupational Safety and Health Rule, R614-1-5.C.)

F. Falsification or failure to keep records or reports.

1. Section 34A-6-307 of the Act provides penalties for false information and recordkeeping.

2. Failure to maintain records or file reports required by this part, or in the details required by forms and instructions issued under this part, may result in the issuance of citations and assessment of penalties as provided for in Sections 34A-6-302 and 34A-6-307 of the Act.

G. Description of statistical program.

1. Section 34A-6-108 of the Act directs the Administrator to develop and maintain a program of collection, compilation, and analysis of occupational safety and health statistics. The program shall consist of periodic surveys of occupational injuries and illnesses.

2. The sample design encompasses probability procedures, detailed stratification by industry and size, and a systematic selection within Stratification. Stratification and sampling will be carried out in order to provide the most efficient sample for eventual state estimates. Some industries will be sampled more heavily than others depending on the injury rate level based on previous experience. The survey should produce adequate estimates for most four-digit Standard Industrial Classification (SIC) industries in manufacturing and for three-digit classification (SIC) in non-manufacturing. Full cooperation with the U. S. Department of Labor in statistical programs is intended.

R614-1-9. Rules of Practice for Temporary or Permanent Variance from the Utah Occupational Safety and Health Standards. (Also Adopted and Published as Chapter XXIII of the Utah Occupational Safety and Health Field

Operations Manual.)**A. Scope.**

1. This rule contains Rules of Practice for Administrative procedures to grant variances and other relief under Section 34A-6-202 of the Act. General information pertaining to employer-employee rights, obligations and procedures are included.

B. Application for, or petition against Variances and other relief.

1. The applicable parts of Section 34A-6-202 of the Act shall govern application and petition procedure.

2. Any employer or class of employers desiring a variance from a standard must make a formal written request including the following information:

a. The name and address of applicant;

b. The address of the place or places of employment involved;

c. A specification of the standard or portion thereof from which the applicant seeks a variance;

d. A statement by the applicant, supported by opinions from qualified persons having first-hand knowledge of the facts of the case, that he is unable to comply with the standard or portion thereof and a detailed statement of the reasons therefore;

e. A statement of the steps the applicant has taken and will take, with specific dates where appropriate, to protect employees against the hazard covered by the existing standard;

f. A statement of when the applicant expects to be able to comply with the standard and of what steps he has taken and will take, with specific dates where appropriate, to come into compliance with the standards (applies to temporary variances);

g. A statement of the facts the applicant would show to establish that (applies to newly promulgated standards);

(1) The applicant is unable to comply with a standard by its effective date because of unavailability of professional or technical personnel or of materials and equipment needed to come into compliance with the standard or because necessary construction or alteration of facilities cannot be completed by the effective date;

(2) He is taking all available steps to safeguard his employees against the hazards covered by the standards; and

(3) He has an effective program for coming into compliance with the standard as quickly as practicable;

h. Any request for a hearing, as provided in this rule;

i. A statement that the applicant has informed his affected employees of the application for variance by giving a copy thereof to their authorized representative, posting a summary statement of the application at the place or places where notices to employees are normally posted specifying where a copy may be examined; and

j. A description of how affected employees have been informed of their rights to petition the Administrator for a hearing.

3. The applicant shall designate the method he will use to safeguard his employees until a variance is granted or denied.

4. Whenever a proceeding on a citation or a related issue concerning a proposed penalty or period of abatement has been contested and is pending before an Administrative Law Judge or any subsequent review under the Administrative Procedures Act, until the completion of such proceeding, the Administrator may deny a variance application on a subject or an issue concerning a citation which has been issued to the employer.

C. Hearings.

1. The Administrator may conduct hearings upon application or petition in accordance with Section 34A-6-202(4) of the Act if:

a. Employee(s), the public, or other interested groups petition for a hearing; or

b. The Administrator deems it in the public or employee interest.

2. When a hearing is considered appropriate, the Administrator shall set the date, time, and place for such hearing. He shall provide timely notification to the applicant for variance and the petitioners. In the notice of hearing to the applicant, the applicant will be directed to notify his employees of the hearing.

3. Notice of hearings shall be published in the Administrative Rulemaking Bulletin. This shall include a statement that the application request may be inspected at the UOSH Division Office.

4. A copy of the Notification of Hearing along with other pertinent information shall be sent to the U.S. Department of Labor, Regional Administrator for OSHA.

D. Inspection for Variance Application.

1. A variance inspection will be required by the Administrator or his designee prior to final determination of either acceptance or denial.

2. A variance inspection is a single purpose, pre-announced, non-compliance inspection and shall include employee or employer representative participation or interview where necessary.

E. Interim order.

1. The purpose of an interim order is to permit an employer to proceed in a non-standard operation while administrative procedures are being completed. Use of this interim procedure is dependent upon need and employee safety.

2. Following a variance inspection, and after determination and assurance that employees are to be adequately protected, the Administrator may immediately grant, in writing, an interim order. To expedite the effect of the interim order, it may be issued at the work-site by the Administrator. The interim order will remain in force pending completion of the administrative promulgation action and the formal granting or denying of a temporary/permanent variance as requested.

F. Decision of the Administrator.

1. The Administrator may deny the application if:

a. It does not meet the requirements of paragraph R614-1-8.B.;

b. It does not provide adequate safety in the workplace for affected employees; or

c. Testimony or information provided by the hearing or inspection does not support the applicant's request for variance as submitted.

2. Letters of notification denying variance applications shall be sent to the applicant, and will include posting requirements to inform employees, affected associations, and employer groups.

a. A copy of correspondence related to the denial request shall be sent to the U.S. Department of Labor, Regional Administrator for OSHA.

b. The letter of denial shall be explicit in detail as to the reason(s) for such action.

3. The Administrator may grant the request for variances provided that:

a. Data supplied by the applicant, the UOSHA inspection and information and testimony affords adequate protection for the affected employee(s);

b. Notification of approval shall follow the pattern described in R614-1-9.C.2. and 3.;

c. Limitations, restrictions, or requirements which become part of the variance shall be documented in the letter granting the variance.

4. The Administrator's decision shall be deemed final subject to Section 34A-6-202(6).

G. Recommended Time Table for Variance Action.

1. Publication of agency intent to grant a variance. This includes public comment and hearing notification in the Utah Administrative Rulemaking Bulletin: within 30 days after receipt.

2. Public comment period: within 20 days after publication.

3. Public hearing: within 30 days after publication

4. Notification of U.S. Department of Labor Regional Administrator for OSHA: 10 days after agency publication of intent.

5. Final Order: 120 days after receipt of variance application if publication of agency intent is made.

6. Rejection of variance application without publication of agency intent: 20 days after receipt of application.

a. Notification of U.S. Department of Labor Regional Administrator for OSHA: 20 days after receipt of application.

H. Public Notice of Granted Variances, Tolerances, Exemptions, and Limitations.

1. Every final action granting variance, exemption, or limitation under this rule shall be published as required under Title 63, Chapter 46a, Utah Administrative Rulemaking Act, and the time table set forth in R614-1-9.G.

I. Acceptance of federally Granted Variances.

1. Where a variance has been granted by the U.S. Department of Labor, Occupational Safety and Health Administration, following Federal Promulgation procedures, the Administrator shall take the following action:

a. Compare the federal OSHA standard for which the variance was granted with the equivalent UOSH standard.

b. Identify possible application in Utah.

c. If the UOSH standard under consideration for application of the variance has exactly or essentially the same intent as the federal standard and there is the probability of a multi-state employer doing business in Utah, then the Administrator shall accept the variance (as federally accepted) and promulgate it for Utah under the provisions of Title 63, Chapter 46a, Utah Administrative Rulemaking Act.

d. If the variance has no apparent application to Utah industry, or to a multi-state employer in Utah, or if it conflicts with Utah Legislative intent, or established policy or procedure, the federal variance shall not be accepted. In such case, the Regional Administrator will be so notified.

J. Revocation of a Variance.

1. Any variance (temporary or permanent) whether approved by the state or one accepted by State based on Federal approval, may be revoked by the Administrator if it is determined through on-site inspection that:

a. The employer is not complying with provisions of the variance as granted;

b. Adequate employee safety is not afforded by the original provisions of the variance; or

c. A more stringent standard has been promulgated, is in force, and conflicts with prior considerations given for employee safety.

2. A federally approved national variance may be revoked by the state for a specific work-site or place of employment within the state for reasons cited in R614-1-9.J.1. Such revocations must be in writing and give full particulars and reasons prompting the action. Full rights provided under the law, such as hearings, etc., must be afforded the employer.

3. Normally, permanent variances may be revoked or changed only after being in effect for at least six months.

K. Coordination.

1. All variances issued by the Administrator will be coordinated with the U.S. Department of Labor, OSHA to insure consistency and avoid improper unilateral action.

R614-1-10. Discrimination.

A. General.

1. The Act provides, among other things, for the adoption of occupational safety and health standards, research and development activities, inspections and investigations of work places, and record keeping requirements. Enforcement

procedures initiated by the Commission; review proceedings as required by Title 63, Chapter 46b, Administrative Procedures Act; and judicial review are provided by the Act.

2. This rule deals essentially with the rights of employees afforded under section 34A-6-203 of the Act. Section 34A-6-203 of the Act prohibits reprisals, in any form, against employees who exercise rights under the Act.

3. The purpose is to make available in one place interpretations of the various provisions of Section 34A-6-203 of the Act which will guide the Administrator in the performance of his duties thereunder unless and until otherwise directed by authoritative decisions of the courts, or concluding, upon reexamination of an interpretation, that it is incorrect.

B. Persons prohibited from discriminating.

Section 34A-6-203 defines employee protections under the Act, because the employee has exercised rights under the Act. Section 34A-6-103(11) of the Act defines "person". Consequently, the prohibitions of Section 34A-6-203 are not limited to actions taken by employers against their own employees. A person may be chargeable with discriminatory action against an employee of another person. Section 34A-6-203 would extend to such entities as organizations representing employees for collective bargaining purposes, employment agencies, or any other person in a position to discriminate against an employee. (See, *Meek v. United States*, F. 2d 679 (6th Cir., 1943); *Bowe v. Judson C. Burnes*, 137 F 2d 37 (3rd Cir., 1943).)

C. Persons protected by section 34A-6-203.

1. All employees are afforded the full protection of Section 34A-6-203. For purposes of the Act, an employee is defined in Section 34A-6-103(6). The Act does not define the term "employ". However, the broad remedial nature of this legislation demonstrates a clear legislative intent that the existence of an employment relationship, for purposes of Section 34A-6-203, is to be based upon economic realities rather than upon common law doctrines and concepts. For a similar interpretation of federal law on this issue, see, *U.S. v. Silk*, 331 U.S. 704 (1947); *Rutherford Food Corporation v. McComb*, 331 U.S. 722 (1947).

2. For purposes of Section 34A-6-203, even an applicant for employment could be considered an employee. (See, *NLRB v. Lamar Creamery*, 246 F. 2d 8 (5th Cir., 1957).) Further, because Section 34A-6-203 speaks in terms of any employee, it is also clear that the employee need not be an employee of the discriminator. The principal consideration would be whether the person alleging discrimination was an "employee" at the time of engaging in protected activity.

3. In view of the definitions of "employer" and "employee" contained in the Act, employees of a State or political subdivision thereof would be within the coverage of Section 34A-6-203.

D. Unprotected activities distinguished.

1. Actions taken by an employer, or others, which adversely affect an employee may be predicated upon nondiscriminatory grounds. The proscriptions of Section 34A-6-203 apply when the adverse action occurs because the employee has engaged in protected activities. An employee's engagement in activities protected by the Act does not automatically render him immune from discharge or discipline for legitimate reasons, or from adverse action dictated by non-prohibited considerations. (See, *NLRB v. Dixie Motor Coach Corp.*, 128 F. 2d 201 (5th Cir., 1942).)

2. To establish a violation of Section 34A-6-203, the employee's engagement in protected activity need not be the sole consideration behind discharge or other adverse action. If protected activity was a substantial reason for the action, or if the discharge or other adverse action would not have taken place "but for" engagement in protected activity, Section 34A-6-203 has been violated. (See, *Mitchell v. Goodyear Tire and Rubber*

Co., 278 F. 2d 562 (8th Cir., 1960); *Goldberg v. Bama Manufacturing*, 302 F. 2d 152 (5th Cir., 1962).) Ultimately, the issue as to whether a discharge was because of protected activity will have to be determined on the basis of the facts in the particular case.

E. Specific protections - complaints under or related to the Act.

1. Discharge of, or discrimination against an employee because the employee has filed "any complaint under or related to this Act" is prohibited by Section 34A-6-203. An example of a complaint made "under" the Act would be an employee request for inspection pursuant to Section 34A-6-301(6). However, this would not be the only type of complaint protected by Section 34A-6-203. The range of complaints "related to" the Act is commensurate with the broad remedial purposes of this legislation and the sweeping scope of its application, which entails the full extent of the commerce power. ((See Cong. Rec., vol. 116 P. 42206 December 17, 1970).)

2. Complaints registered with Federal agencies which have the authority to regulate or investigate occupational safety and health conditions are complaints "related to" this Act. Likewise, complaints made to State or local agencies regarding occupational safety and health conditions would be "related to" the Act. Such complaints, however, must relate to conditions at the workplace, as distinguished from complaints touching only upon general public safety and health.

3. Further, the salutary principles of the Act would be seriously undermined if employees were discouraged from lodging complaints about occupational safety and health matters with their employers. Such complaints to employers, if made in good faith, therefore would be related to the Act, and an employee would be protected against discharge or discrimination caused by a complaint to the employer.

F. Proceedings under or related to the act.

1. Discharge of, or discrimination against, any employee because the employee has exercised the employee's rights under or related to this Act is also prohibited by Section 34A-6-203. Examples of proceedings which would arise specifically under the Act would be inspections of work-sites under Section 34A-6-301 of the Act, employee contest of abatement date under Section 34A-6-303 of the Act, employee initiation of proceedings for promulgation of an occupational safety and health standard under Section 34A-6-202 of the Act and Title 63, Chapter 46a, employee application for modification of revocation of a variance under Section 34A-6-202(4)(c) of the Act and R614-1-9., employee judicial challenge to a standard under Section 34A-6-202(6) of the Act, and employee appeal of an order issued by an Administrative Law Judge, Commissioner, or Appeals Board under Section 34A-6-304. In determining whether a "proceeding" is "related to" the Act, the considerations discussed in R614-1-10.G. would also be applicable.

2. An employee need not himself directly institute the proceedings. It is sufficient if he sets into motion activities of others which result in proceedings under or related to the Act.

G. Testimony.

Discharge of, or discrimination against, any employee because the employee "has testified or is about to testify" in proceedings under or related to the Act is also prohibited by Section 34A-6-203. This protection would of course not be limited to testimony in proceedings instituted or caused to be instituted by the employee, but would extend to any statements given in the course of judicial, quasi-judicial, and administrative proceedings, including inspections, investigations, and administrative rulemaking or adjudicative functions. If the employee is giving or is about to give testimony in any proceeding under or related to the Act, he would be protected against discrimination resulting from such testimony.

H. Exercise of any right afforded by the Act.

1. In addition to protecting employees who file complaints, institute proceedings under or related to the Act it also prohibited by Section 34A-6-203 discrimination occurring because of the exercise "of any right afforded by this Act." Certain rights are explicitly provided in the Act; for example, there is a right to participate as a party in enforcement proceedings (34A-6-303). Certain other rights exist by necessary implications. For example, employees may request information from the Utah Occupational Safety and Health Administration; such requests would constitute the exercise of a right afforded by the Act. Likewise, employees interviewed by agents of the Administrator in the course of inspections or investigations could not subsequently be discriminated against because of their cooperation.

2. Review of the Act and examination of the legislative history discloses that, as a general matter, there is no right afforded by the Act which would entitle employees to walk off the job because of potential unsafe conditions at the workplace. Hazardous conditions which may be violative of the Act will ordinarily be corrected by the employer, once brought to his attention. If corrections are not accomplished, or if there is dispute about the existence of a hazard, the employee will normally have opportunity to request inspection of the workplace pursuant to Section 34A-6-301 of the Act, or to seek the assistance of other public agencies which have responsibility in the field of safety and health. Under such circumstances, therefore, an employer would not ordinarily be in violation of Section 34A-6-203 by taking action to discipline an employee for refusing to perform normal job activities because of alleged safety or health hazards.

a. Occasions might arise when an employee is confronted with a choice between not performing assigned tasks or subjecting himself to serious injury or death arising from a hazardous condition at the workplace. If the employee, with no reasonable alternative, refuses in good faith to expose himself to the dangerous condition, he would be protected against subsequent discrimination. The condition causing the employee's apprehension of death or injury must be of such a nature that a reasonable person, under the circumstances then confronting the employee, would conclude that there is a real danger of death or serious injury and that there is insufficient time, due to the urgency of the situation, to eliminate the danger through resort to regular statutory enforcement channels. In addition, in such circumstances, the employee, where possible, must also have sought from his employer, and been unable to obtain, a correction of the dangerous condition.

I. Procedures - Filing of complaint for discrimination.

1. Who may file. A complaint of Section 34A-6-203 discrimination may be filed by the employee himself, or by a representative authorized to do so on his behalf.

2. Nature of filing. No particular form of complaint is required.

3. Place of filing. Complaint should be filed with the Administrator, Division of Occupational Safety and Health, Labor Commission, 160 East 300 South, Salt Lake City, Utah 84114-6650, Telephone 530-6901.

4. Time for filing.

a. Section 34A-6-203(2)(b) provides protection for an employee who believes that he has been discriminated against.

b. A major purpose of the 30-day period in this provision is to allow the Administrator to decline to entertain complaints which have become stale. Accordingly, complaints not filed within 30 days of an alleged violation will ordinarily be presumed to be untimely.

c. However, there may be circumstances which would justify tolling of the 30-day period on recognized equitable principles or because of strongly extenuating circumstances, e.g., where the employer has concealed, or misled the employee regarding the grounds for discharge or other adverse action;

where the employee has, within the 30-day period, resorted in good faith to grievance-arbitration proceedings under a collective bargaining agreement or filed a complaint regarding the same general subject with another agency; where the discrimination is in the nature of a continuing violation. In the absence of circumstances justifying a tolling of the 30-day period, untimely complaints will not be processed.

J. Notification of administrator's determination.

The Administrator is to notify a complainant within 90 days of the complaint of his determination whether prohibited discrimination has occurred. This 90-day provision is considered directory in nature. While every effort will be made to notify complainants of the Administrator's determination within 90 days, there may be instances when it is not possible to meet the directory period set forth in this section.

K. Withdrawal of complaint.

Enforcement of the provisions of Section 34A-6-203 is not only a matter of protecting rights of individual employees, but also of public interest. Attempts by an employee to withdraw a previously filed complaint will not necessarily result in termination of the Administrator's investigation. The Administrator's jurisdiction cannot be foreclosed as a matter of law by unilateral action of the employee. However, a voluntary and uncoerced request from a complainant to withdraw his complaint will be given careful consideration and substantial weight as a matter of policy and sound enforcement procedure.

L. Arbitration or other agency proceedings.

1. An employee who files a complaint under Section 34A-6-203(2) of the Act may also pursue remedies under grievance arbitration proceedings in collective bargaining agreements. In addition, the complainant may concurrently resort to other agencies for relief, such as the National Labor Relations Board. The Administrator's jurisdiction to entertain Section 34A-6-203 complaints, to investigate, and to determine whether discrimination has occurred, is independent of the jurisdiction of other agencies or bodies. The Administrator may file action in district court regardless of the pendency of other proceedings.

2. However, the Administrator also recognizes the policy favoring voluntary resolution of disputes under procedures in collective bargaining agreements. (See, e.g., *Boy's Market, Inc. v. Retail Clerks*, 398 U.S. 235 (1970); *Republic Steel Corp. v. Maddox*, 379 U.S. 650 (1965); *Carey v. Westinghouse Electric Co.*, 375 U.S. 261 (1964); *Collier Insulated Wire*, 192 NLRB No. 150 (1971).) By the same token, due deference should be paid to the jurisdiction of other forums established to resolve disputes which may also be related to Section 34A-6-203 complaints.

3. Where a complainant is in fact pursuing remedies other than those provided by Section 34A-6-203, postponement of the Administrator's determination and deferral to the results of such proceedings may be in order. (See, *Burlington Truck Lines, Inc. v. U.S.*, 371 U.S. 156 (1962).)

4. Postponement of determination. Postponement of determination would be justified where the rights asserted in other proceedings are substantially the same as rights under Section 34A-6-203 and those proceedings are not likely to violate the rights guaranteed by Section 34A-6-203. The factual issues in such proceedings must be substantially the same as those raised by Section 34A-6-203 complaint, and the forum hearing the matter must have the power to determine the ultimate issue of discrimination. (See, *Rios v. Reynolds Metals Co.*, F. 2d (5th Cir., 1972), 41 U.S.L.W. 1049 (October 10, 1972); *Newman v. Avco Corp.*, 451 F. 2d 743 (6th Cir., 1971).)

5. Deferral to outcome of other proceedings. A determination to defer to the outcome of other proceedings initiated by a complainant must necessarily be made on a case-to-case basis, after careful scrutiny of all available information. Before deferring to the results of other proceedings, it must be clear that those proceedings dealt adequately with all factual

issues, that the proceedings were fair, regular, and free of procedural infirmities, and that the outcome of the proceedings was not repugnant to the purpose and policy of the Act. In this regard, if such other actions initiated by a complainant are dismissed without adjudicative hearing thereof, such dismissal will not ordinarily be regarded as determinative of the Section 34A-6-203 complaint.

M. Employee refusal to comply with safety rules.

Employees who refuse to comply with occupational safety and health standards or valid safety rules implemented by the employer in furtherance of the Act are not exercising any rights afforded by the Act. Disciplinary measures taken by employers solely in response to employee refusal to comply with appropriate safety rules and regulations, will not ordinarily be regarded as discriminatory action prohibited by Section 34A-6-203. This situation should be distinguished from refusals to work, as discussed in R614-1-10.H.

R614-1-11. Rules of Agency Practice and Procedure Concerning UOSH Access to Employee Medical Records.

A. Policy.

UOSH access to employee medical records will in certain circumstances be important to the agency's performance of its statutory functions. Medical records, however, contain personal details concerning the lives of employees. Due to the substantial personal privacy interests involved, UOSH authority to gain access to personally identifiable employee medical information will be exercised only after the agency has made a careful determination of its need for this information, and only with appropriate safeguards to protect individual privacy. Once this information is obtained, UOSH examination and use of it will be limited to only that information needed to accomplish the purpose for access. Personally identifiable employee medical information will be retained by UOSH only for so long as needed to accomplish the purpose for access, will be kept secure while being used, and will not be disclosed to other agencies or members of the public except in narrowly defined circumstances. This section establishes procedures to implement these policies.

B. Scope.

1. Except as provided in paragraphs R614-1-11.B.3. through 6. below, this rule applies to all requests by UOSH personnel to obtain access to records in order to examine or copy personally identifiable employee medical information, whether or not pursuant to the access provision of R614-1-12.D.

2. For the purposes of this rule, "personally identifiable employee medical information" means employee medical information accompanied by either direct identifiers (name, address, social security number, payroll number, etc.) or by information which could reasonably be used in the particular circumstances indirectly to identify specific employees (e.g., exact age, height, weight, race, sex, date of initial employment, job title, etc.).

3. This rule does not apply to UOSH access to, or the use of, aggregate employee medical information or medical records on individual employees which is not a personally identifiable form. This section does not apply to records required by R614-1-8 to death certificates, or to employee exposure records, including biological monitoring records defined by R614-1-3.M. or by specific occupational safety and health standards as exposure records.

4. This rule does not apply where UOSH compliance personnel conduct an examination of employee medical records solely to verify employer compliance with the medical surveillance record keeping requirements of an occupational safety and health standard, or with R614-1-12. An examination of this nature shall be conducted on-site and, if requested, shall be conducted under the observation of the record holder. The UOSH compliance personnel shall not record and take off-site

any information from medical records other than documentation of the fact of compliance or non-compliance.

5. This rule does not apply to agency access to, or the use of, personally identifiable employee medical information obtained in the course of litigation.

6. This rule does not apply where a written directive by the Administrator authorizes appropriately qualified personnel to conduct limited reviews of specific medical information mandated by an occupational safety and health standard, or of specific biological monitoring test results.

7. Even if not covered by the terms of this rule, all medically related information reported in a personally identifiable form shall be handled with appropriate discretion and care befitting all information concerning specific employees. There may, for example, be personal privacy interests involved which militate against disclosure of this kind of information to the public.

C. Responsible persons.

1. UOSH Administrator. The Administrator of the Division of Occupational Safety and Health of the Labor Commission shall be responsible for the overall administration and implementation of the procedures contained in this rule, including making final UOSH determinations concerning:

a. Access to personally identifiable employee medical information, and

b. Inter-agency transfer or public disclosure of personally identifiable employee medical information.

2. UOSH Medical Records Officer. The Administrator shall designate a UOSH official with experience or training in the evaluation, use, and privacy protection of medical records to be the UOSH Medical Records Officer. The UOSH Medical Records Officer shall report directly to the Administrator on matters concerning this section and shall be responsible for:

a. Making recommendations to the Administrator as to the approval or denial of written access orders.

b. Assuring that written access orders meet the requirements of paragraphs R614-1-11.D.2. and 3. of this rule.

c. Responding to employee, collective bargaining agent, and employer objections concerning written access orders.

d. Regulating the use of direct personal identifiers.

e. Regulating internal agency use and security of personally identifiable employee medical information.

f. Assuring that the results of agency analyses of personally identifiable medical information are, where appropriate, communicated to employees.

g. Preparing an annual report of UOSH's experience under this rule.

h. Assuring that advance notice is given of intended inter-agency transfers or public disclosures.

3. Principal UOSH Investigator. The Principal UOSH Investigator shall be the UOSH employee in each instance of access to personally identifiable employee medical information who is made primarily responsible for assuring that the examination and use of this information is performed in the manner prescribed by a written access order and the requirements of this section. When access is pursuant to a written access order, the Principal UOSH Investigator shall be professionally trained in medicine, public health, or allied fields (epidemiology, toxicology, industrial hygiene, bio-statistics, environmental health, etc.)

D. Written access orders.

1. Requirement for written access order. Except as provided in paragraph R614-1-11.D.4. below, each request by a UOSH representative to examine or copy personally identifiable employee medical information contained in a record held by an employer or other record holder shall be made pursuant to a written access order which has been approved by the Administrator upon the recommendation of the UOSH Medical Records Officer. If deemed appropriate, a written

access order may constitute, or be accompanied by an administrative subpoena.

2. Approval criteria for written access order. Before approving a written access order, the Administrator and the UOSH Medical Records Officer shall determine that:

a. The medical information to be examined or copied is relevant to a statutory purpose and there is a need to gain access to this personally identifiable information.

b. The personally identifiable medical information to be examined or copied is limited to only that information needed to accomplish the purpose for access, and

c. The personnel authorized to review and analyze the personally identifiable medical information are limited to those who have a need for access and have appropriate professional qualifications.

3. Content of written access order. Each written access order shall state with reasonable particularity:

a. The statutory purposes for which access is sought.

b. The general description of the kind of employee medical information that will be examined and why there is a need to examine personally identifiable information.

c. Whether medical information will be examined on-site, and what type of information will be copied and removed off-site.

d. The name, address, and phone number of the Principal UOSH Investigator and the names of any other authorized persons who are expected to review and analyze the medical information.

e. The name, address, and phone number of the UOSH Medical Records Officer, and

f. The anticipated period of time during which UOSH expects to retain the employee medical information in a personally identifiable form.

4. Special situations. Written access orders need not be obtained to examine or copy personally identifiable employee medical information under the following circumstances:

a. Specific written consent. If the specific written consent of an employee is obtained pursuant to R614-1-12.D., and the agency or an agency employee is listed on the authorization as the designated representative to receive the medical information, then a written access order need not be obtained. Whenever personally identifiable employee medical information is obtained through specific written consent and taken off-site, a Principal UOSH Investigator shall be promptly named to assure protection of the information, and the UOSH Medical Records Officer shall be notified of this person's identity. The personally identifiable medical information obtained shall thereafter be subject to the use and security requirements of paragraphs R614-1-11.H.

b. Physician consultations. A written access order need not be obtained where a UOSH staff or contract physician consults with an employer's physician concerning an occupational safety or health issue. In a situation of this nature, the UOSH physician may conduct on-site evaluation of employee medical records in consultation with the employer's physician, and may make necessary personal notes of his or her findings. No employee medical records however, shall be taken off-site in the absence of a written access order or the specific written consent of an employee, and no notes of personally identifiable employee medical information made by the UOSH physician shall leave his or her control without the permission of the UOSH Medical Records Officer.

E. Presentation of written access order and notice to employees.

1. The Principal UOSH Investigator, or someone under his or her supervision, shall present at least two (2) copies each of the written access order and an accompanying cover letter to the employer prior to examining or obtaining medical information subject to a written access order. At least one copy of the

written access order shall not identify specific employees by direct personal identifier. The accompanying cover letter shall summarize the requirements of this section and indicate that questions or objections concerning the written access order may be directed to the Principal UOSH Investigator or to the UOSH Medical Records Officer.

2. The Principal UOSH Investigator shall promptly present a copy of the written access order (which does not identify specific employees by direct personal identifier) and its accompanying cover letter to each collective bargaining agent representing employees whose medical records are subject to the written access order.

3. The Principal UOSH Investigator shall indicate that the employer must promptly post a copy of the written access order which does not identify specific employees by direct personal identifier, as well as post its accompanying cover letter.

4. The Principal UOSH Investigator shall discuss with any collective bargaining agent and with the employer the appropriateness of individual notice to employees affected by the written access order. Where it is agreed that individual notice is appropriate, the Principal UOSH Investigator shall promptly provide to the employer an adequate number of copies of the written access order (which does not identify specific employees by direct personal identifier) and its accompanying cover letter to enable the employer either to individually notify each employee or to place a copy in each employee's medical file.

F. Objections concerning a written access order. All employees, collective bargaining agents, and employer written objections concerning access to records pursuant to a written access order shall be transmitted to the UOSH Medical Records Officer. Unless the agency decides otherwise, access to the record shall proceed without delay notwithstanding the lodging of an objection. The UOSH Medical Records Officer shall respond in writing to each employee's and collective bargaining agent's written objection to UOSH access. Where appropriate, the UOSH Medical Records Officer may revoke a written access order and direct that any medical information obtained by it be returned to the original record holder or destroyed. The principal UOSH Investigator shall assure that such instructions by the UOSH Medical Records Officer are promptly implemented.

G. Removal of direct personal identifiers. Whenever employees medical information obtained pursuant to a written access order is taken off-site with direct personal identifiers included, the Principal UOSH Investigator shall, unless otherwise authorized by the UOSH Medical Records Officer, promptly separate all direct personal identifiers from the medical information, and code the medical information and the list of direct identifiers with a unique identifying number of each employee. The medical information with its numerical code shall thereafter be used and kept secured as though still in a directly identifiable form. The Principal UOSH Investigator shall also hand deliver or mail the list of direct personal identifiers with their corresponding numerical codes to the UOSH Medical Records Officer. The UOSH Medical Records Officer shall thereafter limit the use and distribution of the list of coded identifiers to those with a need to know its contents.

H. Internal agency use of personally identifiable employee medical information.

1. The Principal UOSH Investigator shall in each instance of access be primarily responsible for assuring that personally identifiable employee medical information is used and kept secured in accordance with this section.

2. The Principal UOSH Investigator, the UOSH Medical Records Officer, the Administrator, and any other authorized person listed on a written access order may permit the examination or use of personally identifiable employee medical information by agency employees and contractors who have a

need for access, and appropriate qualifications for the purpose for which they are using the information. No UOSH employee or contractor is authorized to examine or otherwise use personally identifiable employee medical information unless so permitted.

3. Where a need exists, access to personally identifiable employee medical information may be provided to attorneys in the office of the State Attorney General, and to agency contractors who are physicians or who have contractually agreed to abide by the requirements of this section and implementing agency directives and instructions.

4. UOSH employees and contractors are only authorized to use personally identifiable employee medical information for the purposes for which it was obtained, unless the specific written consent of the employee is obtained as to a secondary purpose, or the procedures of R614-1-11.D. through G. are repeated with respect to the secondary purpose.

5. Whenever practicable, the examination of personally identifiable employee medical information shall be performed on-site with a minimum of medical information taken off-site in a personally identifiable form.

I. Security procedures.

1. Agency files containing personally identifiable employee medical information shall be segregated from other agency files. When not in active use, files containing this information shall be kept secured in a locked cabinet or vault.

2. The UOSH Medical Records Officer and the Principal UOSH Investigator shall each maintain a log of uses and transfers of personally identifiable employee medical information and lists of coded direct personal identifiers, except as to necessary uses by staff under their direct personal supervision.

3. The photocopying or other duplication of personally identifiable employee medical information shall be kept to the minimum necessary to accomplish the purposes for which the information was obtained.

4. The protective measures established by this rule apply to all worksheets, duplicate copies, or other agency documents containing personally identifiable employee medical information.

5. Intra-agency transfers of personally identifiable employee medical information shall be by hand delivery, United States mail, or equally protective means. Inter-office mailing channels shall not be used.

J. Retention and destruction of records.

1. Consistent with UOSH records disposition programs, personally identifiable employee medical information and lists of coded direct personal identifiers shall be destroyed or returned to the original record holder when no longer needed for the purposes for which they were obtained.

2. Personally identifiable employee medical information which is currently not being used actively but may be needed for future use shall be transferred to the UOSH Medical Records Officer. The UOSH Medical Records Officer shall conduct an annual review of all centrally-held information to determine which information is no longer needed for the purposes for which it was obtained.

K. Results of an agency analysis using personally identifiable employee medical information.

1. The UOSH Medical Records Officer shall, as appropriate, assure that the results of an agency analysis using personally identifiable employee medical information are communicated to the employees whose personal medical information was used as a part of the analysis.

2. Annual report. The UOSH Medical Records Officer shall on an annual basis review UOSH's experience under this section during the previous year, and prepare a report to the UOSH Administrator which shall be made available to the public. This report shall discuss:

a. The number of written access orders approved and a summary of the purposes for access;

b. The nature and disposition of employee; collective bargaining agent, and employer written objections concerning UOSH access to personally identifiable employee medical information; and

c. The nature and disposition of requests for inter-agency transfer or public disclosure of personally identifiable employee medical information.

L. Inter-agency transfer and public disclosure.

1. Personally identifiable employee medical information shall not be transferred to another agency or office outside of UOSH (other than to The Attorney General's Office) or disclosed to the public (other than to the affected employee or the original record holder) except when required by law or when approved by the Administrator.

2. Except as provided in paragraph R614-1-11.L.3. below, the Administrator shall not approve a request for an inter-agency transfer of personally identifiable employee medical information, which has not been consented to by the affected employees, unless the request is by a public health agency which:

a. Needs the requested information in a personally identifiable form for a substantial public health purpose;

b. Will not use the requested information to make individual determinations concerning affected employees which could be to their detriment;

c. Has regulations or established written procedures providing protection for personally identifiable medical information substantially equivalent to that of this section; and

d. Satisfies an exemption to the Privacy Act to the extent that the Privacy Act applies to the requested information (See 5 U.S.C. 552a(b); 29 CFR 70a.3).

3. Upon the approval of the Administrator, personally identifiable employee medical information may be transferred to:

a. The National Institute for Occupational Safety and Health (NIOSH).

b. The Department of Justice when necessary with respect to a specific action under the federal Occupational Safety and Health Act of 1970 and Utah Occupational Safety and Health Act of 1973.

4. The Administrator shall not approve a request for public disclosure of employee medical information containing direct personal identifiers unless there are compelling circumstances affecting the health or safety of an individual.

5. The Administrator shall not approve a request for public disclosure of employee medical information which contains information which could reasonably be used indirectly to identify specific employees when the disclosure would constitute a clearly unwarranted invasion of personal privacy.

6. Except as to inter-agency transfers to NIOSH or the State Attorney General's Office, the UOSH Medical Records Officer shall assure that advance notice is provided to any collective bargaining agent representing affected employees and to the employer on each occasion that UOSH intends to either transfer personally identifiable employee medical information to another agency or disclose it to a member of the public other than to an affected employee. When feasible, the UOSH Medical Records Officer shall take reasonable steps to assure that advance notice is provided to affected employees when the employee medical information to be released or disclosed contains direct personal identifiers.

M. Effective date.

This rule shall become effective on January 15, 1981.

R614-1-12. Access to Employee Exposure and Medical Records.

A. Purpose.

To provide employees and their designated representatives a right of access to relevant exposure and medical records, and to provide representatives of the Administrator a right of access to these records in order to fulfill responsibilities under the Utah Occupational Safety and Health Act. Access by employees, their representatives, and the Administrator is necessary to yield both direct and indirect improvements in the detection, treatment, and prevention of occupational disease. Each employer is responsible for assuring compliance with this Rule, but the activities involved in complying with the access to medical records provisions can be carried out, on behalf of the employer, by the physician or other health care personnel in charge of employee medical records. Except as expressly provided, nothing in this Rule is intended to affect existing legal and ethical obligations concerning the maintenance and confidentiality of employee medical information, the duty to disclose information to a patient/employee or any other aspect of the medical-care relationship, or affect existing legal obligations concerning the protection of trade secret information.

B. Scope.

1. This rule applies to each general industry, maritime, and construction employer who makes, maintains, contracts for, or has access to employee exposure or medical records, or analyses thereof, pertaining to employees exposed to toxic substances or harmful physical agents.

2. This rule applies to all employee exposure and medical records, and analyses thereof, of employees exposed to toxic substances or harmful physical agents, whether or not the records are related to specific occupational safety and health standards.

3. This rule applies to all employee exposure and medical records, and analyses thereof, made or maintained in any manner, including on an in-house or contractual (e.g., fee-for-service) basis. Each employer shall assure that the preservation and access requirements of this rule are complied with regardless of the manner in which records are made or maintained.

C. Preservation of records.

1. Unless a specific occupational safety and health standard provides a different period of time, each employer shall assure the preservation and retention of records as follows:

a. Employee medical records. Each employee medical record shall be preserved and maintained for at least the duration of employment plus thirty (30) years, except that health insurance claims records maintained separately from the employer's medical program and its records need not be retained for any specified period.

b. Employee exposure records. Each employee exposure record shall be preserved and maintained for at least thirty (30) years, except that:

(1) Background data to environmental (workplace) monitoring or measuring, such as laboratory reports and worksheets, need only be retained for one (1) year so long as the sampling results, the collection methodology (sampling plan), a description of the analytical and mathematical methods used, and a summary of other background data relevant to interpretation of the results obtained, are retained for at least thirty (30) years; and

(2) Material safety data sheets and paragraph R614-1-3.M.4. records concerning the identity of a substance or agent need not be retained for any specified period as long as some record of the identity (chemical name if known) of the substance or agent, where it was used, and when it was used is retained for at least thirty (30) years; and

c. Analyses using exposure or medical records. Each analysis using exposure or medical records shall be preserved and maintained for at least thirty (30) years.

2. Nothing in this rule is intended to mandate the form,

manner, or process by which an employer preserves a record so long as the information contained in the record is preserved and retrievable, except that X-ray films shall be preserved in their original state.

D. Access to records.

1. Whenever an employee or designated representative requests access to a record, the employer shall assure that access is provided in a reasonable time, place, and manner, but in no event later than fifteen (15) days after the request for access is made.

2. Whenever an employee or designated representative requests a copy of a record, the employer shall, within the period of time previously specified, assure that either:

a. A copy of the record is provided without cost to the employee or representative;

b. The necessary mechanical copying facilities (e.g., photocopying) are made available without cost to the employee or representative for copying the record; or

c. The record is loaned to the employee or representative for a reasonable time to enable a copy to be made.

3. Whenever a record has been previously provided without cost to an employee or designated representative, the employer may charge reasonable, non-discriminatory administrative costs (i.e., search and copy expenses but not including overhead expenses) for a request by the employee or designated representative for additional copies of the record, except that:

a. An employer shall not charge for an initial request for a copy of new information that has been added to a record which was previously provided; and

b. An employer shall not charge for an initial request by a recognized or certified collective bargaining agent for a copy of an employee exposure record or an analysis using exposure or medical records.

4. Nothing in this rule is intended to preclude employees and collective bargaining agents from collectively bargaining to obtain access to information in addition to that available under this rule.

5. Employee and designated representative access.

a. Employee exposure records. Each employer shall, upon request, assure the access of each employee and designated representative to employee exposure records relevant to the employee. For the purpose of this rule exposure records relevant to the employee consist of:

(1) Records of the employee's past or present exposure to toxic substances or harmful physical agents,

(2) Exposure records of other employees with past or present job duties or working conditions related to or similar to those of the employee,

(3) Records containing exposure information concerning the employee's workplace or working conditions, and

(4) Exposure records pertaining to workplaces or working conditions to which the employee is being assigned or transferred.

b. Employee medical records.

(1) Each employer shall, upon request, assure the access of each employee to employee medical records of which the employee is the subject, except as provided in R614-1-12.D.4.

(2) Each employer shall, upon request, assure the access of each designated representative to the employee medical records of any employee who has given the designated representative specific written consent. R614-1-12A., Appendix A to R614-1-12., contains a sample form which may be used to establish specific written consent for access to employee medical records.

(3) Whenever access to employee medical records is requested, a physician representing the employer may recommend that the employee or designated representative:

(a) Consult with the physician for the purposes of reviewing and discussing the records requested;

(b) Accept a summary of material facts and opinions in lieu of the records requested; or

(c) Accept release of the requested records only to a physician or other designated representative.

(4) Whenever an employee requests access to his or her employee medical records, and a physician representing the employer believes that direct employee access to information contained in the records regarding a specific diagnosis of a terminal illness or a psychiatric condition could be detrimental to the employee's health, the employer may inform the employee that access will only be provided to a designated representative of the employee having specific written consent, and deny the employee's request for direct access to this information only. Where a designated representative with specific written consent requests access to information so withheld, the employer shall assure the access of the designated representative to this information, even when it is known that the designated representative will give the information to the employee.

(5) Nothing in this rule precludes physician, nurse, or other responsible health care personnel maintaining employee medical records from deleting from requested medical records the identity of a family member, personal friend, or fellow employee who has provided confidential information concerning an employee's health status.

c. Analysis using exposure or medical records.

(1) Each employer shall, upon request, assure the access of each employee and designated representative to each analysis using exposure or medical records concerning the employee's working conditions or workplace.

(2) Whenever access is requested to an analysis which reports the contents of employee medical records by either direct identifier (name, address, social security number, payroll number, etc.) or by information which could reasonably be used under the circumstances indirectly to identify specific employees (exact age, height, weight, race, sex, date of initial employment, job title, etc.) the employer shall assure that personal identifiers are removed before access is provided. If the employer can demonstrate that removal of personal identifiers from an analysis is not feasible, access to the personally identifiable portions of analysis need not be provided.

(3) UOSH access.

(a) Each employer shall, upon request, assure the immediate access of representatives of the Administrator to employee exposure and medical records and to analysis using exposure or medical records. Rules of agency practice and procedure governing UOSH access to employee medical records are contained in R614-1-8.

(b) Whenever UOSH seeks access to personally identifiable employee medical information by presenting to the employer a written access order pursuant to R614-1-8, the employer shall prominently post a copy of the written access order and its accompanying cover letter for at least fifteen (15) working days.

E. Trade Secrets.

1. Except as provided in paragraph R614-1-12.E.2., nothing in this rule precludes an employer from deleting from records requested by an employee or designated representative any trade secret data which discloses manufacturing processes, or discloses the percentage of a chemical substance in a mixture, as long as the employee or designated representative is notified that information has been deleted. Whenever deletion of trade secret information substantially impairs evaluation of the place where or the time when exposure to a toxic substance or harmful physical agent occurred, the employer shall provide alternative information which is sufficient to permit the employee to identify where and when exposure occurred.

2. Notwithstanding any trade secret claims, whenever access to records is requested, the employer shall provide access

to chemical or physical agent identities including chemical names, levels of exposure, and employee health status data contained in the requested records.

3. Whenever trade secret information is provided to an employee or designated representative, the employer may require, as a condition of access, that the employee or designated representative agree in writing not to use the trade secret information for the purpose of commercial gain and not to permit misuse of the trade secret information by a competitor or potential competitor of the employer.

F. Employee information.

1. Upon an employee's first entering into employment, and at least annually thereafter, each employer shall inform employees exposed to toxic substances or harmful physical agents of the following;

- a. The existence, location, and availability of any records covered by this rule;
- b. The person responsible for maintaining and providing access to records; and
- c. Each employee's right of access to these records.

2. Each employer shall make readily available to employees a copy of this rule and its appendices, and shall distribute to employees any informational materials concerning this rule which are made available to the employer by the Administrator.

G. Transfer of Records

1. Whenever an employer is ceasing to do business, the employer shall transfer all records subject to this Rule to the successor employer. The successor employer shall receive and maintain these records.

2. Whenever an employer is ceasing to do business and there is no successor employer to receive and maintain the records subject to this standard, the employer shall notify affected employees of their rights of access to records at least three (3) months prior to the cessation of the employer's business.

3. Whenever an employer either is ceasing to do business and there is no successor employer to receive and maintain the records, or intends to dispose of any records required to be preserved for at least thirty (30) years, the employer shall:

a. Transfer the records to the Director of the National Institute for Occupational Safety and Health (NIOSH) if so required by a specific occupational safety and health standard; or

b. Notify the Director of NIOSH in writing of the impending disposal of records at least three (3) months prior to the disposal of the records.

4. Where an employer regularly disposes of records required to be preserved for at least thirty (30) years, the employer may, with at least (3) months notice, notify the Director of NIOSH on an annual basis of the records intended to be disposed of in the coming year.

a. Appendices. The information contained in the appendices to this rule is not intended, by itself, to create any additional obligations not otherwise imposed by this rule nor detract from any existing obligation.

H. Effective date. This rule shall become effective on December 5, 1980. All obligations of this rule commence on the effective date except that the employer shall provide the information required under R614-1-12.F.1. to all current employees within sixty (60) days after the effective date.

R614-1-12A. Appendix A to R614-1-12 SAMPLE.

Authorization letter for the Release of Employee Medical Record Information to Designated Representative.

I, (full name of worker/patient), hereby authorize (individual or organization holding the medical records), to release to (individual or organization authorized to receive the medical information), the following medical information from

my personal medical records: (Describe generally the information desired to be released).

I give my permission for this medical information to be used for the following purpose:, but I do not give permission for any other use or re-disclosure of this information.

(Note---Several extra lines are provided below so that you can place additional restrictions on this authorization letter if you want to. You may, however, leave these lines blank. On the other hand, you may want to (1) specify a particular expiration date for this letter (if less than one year); (2) describe medical information to be created in the future that you intend to be covered by this authorization letter, or (3) describe portions of the medical information in your records which you do not intend to be released as a result of this letter.)

Full name of Employee or Legal Representative

Signature of Employee or Legal Representative

Date of Signature

R614-1-12B. Appendix B to R614-1-12 Availability of NIOSH Registry of Toxic Effects of Chemical Substances (RTECS).

R614-1-12 applies to all employee exposure and medical records, and analysis thereof, of employees exposed to toxic substances or harmful physical agents (see R614-1-12.B.2.). The term "toxic substance" or "harmful physical agent" is defined by paragraph R614-1-3.FF. to encompass chemical substances, biological agents, and physical stresses for which there is evidence of harmful health effects. The standard uses the latest printed edition of the National Institute for Occupational Safety and Health (NIOSH) Registry of Toxic Effects of Chemical Substances (RTECS) as one of the chief sources of information as to whether evidence of harmful health effects exists. If a substance is listed in the latest printed RTECS, the standard applies to exposure and medical records (and analysis of these records) relevant to employees exposed to the substances.

It is appropriate to note that the final standard does not require that employers purchase a copy of RTECS and many employers need not consult RTECS to ascertain whether their employee exposure or medical records are subject to the standard. Employers who do not currently have the latest printed edition of the NIOSH RTECS, however, may desire to obtain a copy. The RTECS is issued in an annual printed edition as mandated by Rule 20(a)(6) of the Occupational Safety and Health Act (29 U.S.C. 669 (a)(6)). The 1978 edition is the most recent printed edition as of May 1, 1980. Its Forward and Introduction describes the RTECS as follows:

"The annual publication of a list of known toxic substances is a NIOSH mandate under the Occupational Safety and Health Act of 1970. It is intended to provide basic information on the known toxic and biological effects of chemical substances for the use of employers, employees, physicians, industrial hygienists, toxicologists, researchers, and, in general, anyone concerned with the proper and safe handling of chemicals. In turn, this information may contribute to a better understanding of potential occupational hazards by everyone involved and ultimately may help to bring about a more healthful workplace environment.

"This registry contains 142,247 listings of chemical substances: 33,929 are names of different chemicals with their associated toxicity data and 90,318 are synonyms. This edition includes approximately 7,500 new chemical compounds that did not appear in the 1977 Registry.

"The Registry's purposes are many, and it serves a variety of users. It is a single source document for basic toxicity information and for other data, such as chemical identifiers and information necessary for the preparation of safety directives and hazard evaluations for chemical substances. The various types of toxic effects linked to literature citations provide

researchers and occupational health scientists with an introduction to the toxicological literature, making their own review of the toxic hazards of a given substance easier. By presenting data on the lowest reported doses that produce effects by several routes of entry in various species, the Registry furnishes valuable information to those responsible for preparing safety data sheets for chemical substances in the workplace. Chemical and production engineers can use the Registry to identify the hazards which may be associated with chemical intermediates in the development of final products, and thus can more readily select substitutes or alternate processes which may be less hazardous.

"In this edition of the Registry, the editors intend to identify "all known toxic substances" which may exist in the environment and to provide pertinent data on the toxic effects from known doses entering an organism by any route described. Data may be used for the evaluation of chemical hazards in the environment, whether they be in the workplace, recreation area, or living quarters.

"It must be reemphasized that the entry of a substance in the Registry does not automatically mean that it must be avoided. A listing does mean, however, that the substance has the documented potential of being harmful if misused, and care must be exercised to prevent tragic consequences."

The RTECS 1978 printed edition may be purchased for \$13.00 from the Superintendent of Documents, U.S. Government Printing Office (GPO), Washington, D.C. 20402 (202-783-3238) (GPO Stock No. 017-033-00346-7). The 1979 printed edition is anticipated to be issued in the summer of 1980. Some employers may also desire to subscribe to the quarterly update to the RTECS which is published in a microfiche edition. An annual subscription to the quarterly microfiche may be purchased from the GPO for \$14.00 (Order the "Microfiche Edition, Registry of Toxic Effects of Chemical Substances"). Both the printed edition and the microfiche edition of RTECS are available for review at many university and public libraries throughout the country. The latest RTECS editions may also be examined at OSHA Technical Data Center, Room N2439-Rear, United States Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210 (202-523-9700), or any OSHA Regional or Area Office (See major city telephone directories under United States Government-Labor Department).

KEY: safety

August 2, 2005

Notice of Continuation November 25, 2002

34A-6

R616. Labor Commission, Safety.**R616-2. Boiler and Pressure Vessel Rules.****R616-2-1. Authority.**

This rule is established pursuant to Title 34A, Chapter 7 for the purpose of establishing reasonable safety standards for boilers and pressure vessels to prevent exposure to risks by the public and employees.

R616-2-2. Definitions.

A. "ASME" means the American Society of Mechanical Engineers.

B. "Boiler inspector" means a person who is an employee of:

1. The Division who is authorized to inspect boilers and pressure vessels by having met nationally recognized standards of competency and having received the Commission's certificate of competency; or

2. An insurance company writing boiler and pressure vessel insurance in Utah who is deputized to inspect boilers and pressure vessels by having met nationally recognized standards of competency, receiving the Commission's certificate of competency, and having paid a certification fee.

C. "Commission" means the Labor Commission created in Section 34A-1-103.

D. "Division" means the Division of Safety of the Labor Commission.

E. "National Board" means the National Board of Boiler and Pressure Vessel Inspectors.

F. "Nonstandard" means a boiler or pressure vessel that does not bear ASME and National Board stamping and registration.

G. "Owner/user agency" means any business organization operating pressure vessels in this state that has a valid owner/user certificate from the Commission authorizing self-inspection of unfired pressure vessels by its owner/user agents, as regulated by the Commission, and for which a fee has been paid.

H. "Owner/user agent" means an employee of an owner/user agency who is authorized to inspect unfired pressure vessels by having met nationally recognized standards of competency, receiving the Commission's certificate of competency, and having paid a certification fee.

R616-2-3. Safety Codes and Rules for Boilers and Pressure Vessels.

The following safety codes and rules shall apply to all boilers and pressure vessels in Utah, except those exempted pursuant to Section 34A-7-101, and are incorporated herein by this reference in this rule.

A. ASME Boiler and Pressure Vessel Code (2004).

1. Section I Rules for Construction of Power Boilers published July 1, 2004, and the 2005 Addenda published July 1, 2005.

2. Section IV Rules for Construction of Heating Boilers published July 1, 2004, and the 2005 Addenda published July 1, 2005.

3. Section VIII Rules for Construction of Pressure Vessels published July 1, 2004, and the 2005 Addenda published July 1, 2005.

B. Power Piping ASME B31.1 (2004), issued August 16, 2004.

C. Controls and Safety Devices for Automatically Fired Boilers ASME CSD-1-1998; the ASME CSD-1a-1999 addenda, issued March 10, 2000; and the ASME CSD-1b (2001) addenda, issued November 30, 2001.

D. National Board Inspection Code ANSI/NB-23 (2004) issued December 31, 2004.

E. NFPA 85 Boiler and Combustion Systems Hazard Code 2004 Edition.

F. Recommended Administrative Boiler and Pressure Vessel Safety Rules and Regulations NB-132 Rev. 4.

G. Pressure Vessel Inspection Code: Maintenance Inspection, Rating, Repair and Alteration API 510 (1997); the 1998 Addenda, published December 1998, and Addendum 2, published December 2000.

R616-2-4. Quality Assurance for Boilers, Pressure Vessels and Power Piping.

A. Consistent with the requirements of the Commission and its predecessor agency since May 1, 1978, all boilers and pressure vessels installed on or after May 1, 1978 shall be registered with the National Board and the data plate must include the National Board number.

B. Pursuant to Section 34A-7-102(2), any boiler or pressure vessel of special design must be approved by the Division to ensure it provides a level of safety equivalent to that contemplated by the Boiler and Pressure Vessel Code of the ASME. Any such boiler or pressure vessel must thereafter be identified by a Utah identification number provided by the Division.

C. All steam piping, installed after May 1, 1978, which is external (from the boiler to the first stop valve for a single boiler and the second stop valve in a battery of two or more boilers having manhole openings) shall comply with Section 1 of the ASME Boiler and Pressure Vessel Code or ASME B31.1 Power Piping as applicable.

D. Nonstandard boilers or pressure vessels installed in Utah before July 1, 1999 may be allowed to continue in operation provided the owner can prove the equivalence of its design to the requirements of the ASME Boiler and Pressure Vessel Code. Nonstandard boilers or pressure vessels may not be relocated or moved.

E. Effective July 1, 1999, all boiler and pressure vessel repairs or alterations must be performed by an organization holding a valid Certificate of Authorization to use the "R" stamp from the National Board. Repairs to pressure relief valves shall be performed by an organization holding a valid Certificate of Authorization to use the "VR" stamp from the National Board.

R616-2-5. Code Applicability.

A. The safety codes which are applicable to a given boiler or pressure vessel installation are the latest versions of the codes in effect at the time the installation commenced.

B. If a boiler or pressure vessel is replaced, this is considered a new installation.

C. If a boiler or pressure vessel is relocated to another location or moved in its existing location, this is considered a new installation.

R616-2-6. Variances to Code Requirements.

A. In a case where the Division finds that the enforcement of any code would not materially increase the safety of employees or general public, and would work undue hardships on the owner or user, the Division may allow the owner or user a variance pursuant to Section 34A-7-102. Variances must be in writing to be effective, and can be revoked after reasonable notice is given in writing.

B. Persons who apply for a variance to a safety code requirement must present the Division with the rationale as to how their boiler or pressure vessel installation provides safety equivalent to the safety code.

C. No errors or omissions in these codes shall be construed as permitting any unsafe or unsanitary condition to exist.

R616-2-7. Boiler and Pressure Vessel Compliance Manual.

A. The Division shall develop and issue a safety code compliance manual for organizations and personnel involved in

the design, installation, operation and maintenance of boilers and pressure vessels in Utah.

B. This compliance manual shall be reviewed annually for accuracy and shall be re-issued on a frequency not to exceed two years.

C. If a conflict exists between the Boiler and Pressure Vessel compliance manual and a safety code adopted in R616-2-3, the code requirements will take precedence.

R616-2-8. Inspection of Boilers and Pressure Vessels.

A. It shall be the responsibility of the Division to make inspections of all boilers or pressure vessels operated within its jurisdiction, when deemed necessary or appropriate.

B. Boiler inspectors shall examine conditions in regards to the safety of the employees, public, machinery, ventilation, drainage, and into all other matters connected with the safety of persons using each boiler or pressure vessel, and when necessary give directions providing for the safety of persons in or about the same. The owner or user is required to freely permit entry, inspection, examination and inquiry, and to furnish a guide when necessary. In the event an internal inspection of a boiler or pressure vessel is required the owner or user shall, at a minimum, prepare the boiler or pressure vessel by meeting the requirements of 29 CFR Part 1910.146 "Permit Required Confined Spaces" and 29 CFR Part 1910.147 "Control of Hazardous Energy (Lockout/Tagout)".

C. If the Division finds a boiler or pressure vessel complies with the safety codes and rules, the owner or user shall be issued a Certificate of Inspection and Permit to Operate.

D. If the Division finds a boiler or pressure vessel is not being operated in accordance with safety codes and rules, the owner or user shall be notified in writing of all deficiencies and shall be directed to make specific improvements or changes as are necessary to bring the boiler or pressure vessel into compliance.

E. Pursuant to Sections 34A-1-104, 34A-2-301 and 34A-7-102, if the improvements or changes to the boiler or pressure vessel are not made within a reasonable time, the boiler or pressure vessel is being operated unlawfully.

F. If the owner or user refuses to allow an inspection to be made, the boiler or pressure vessels is being operated unlawfully.

G. If the owner or user refuses to pay the required fee, the boiler or pressure vessel is being operated unlawfully.

H. If the owner or user operates a boiler or pressure vessel unlawfully, the Commission may order the boiler or pressure vessel operation to cease pursuant to Sections 34A-1-104 and 34A-7-103.

I. If, in the judgment of a boiler inspector, the lives or safety of employees or public are or may be endangered should they remain in the danger area, the boiler inspector shall direct that they be immediately withdrawn from the danger area, and the boiler or pressure vessel be removed from service until repairs have been made and the boiler or pressure vessel has been brought into compliance.

J. An owner/user agency may conduct self inspection of its own unfired pressure vessels with its own employees who are owner/user agents under procedures and frequencies established by the Division.

R616-2-9. Fees.

Fees to be charged as required by Section 34A-7-104 shall be adopted by the Labor Commission and approved by the Legislature pursuant to Section 63-38-3(2).

R616-2-10. Notification of Installation, Revision, or Repair.

A. Before any boiler covered by this rule is installed or before major revision or repair, particularly welding, begins on a boiler or pressure vessel, the Division must be advised at least

one week in advance of such installation, revision, or repair unless emergency dictates otherwise.

B. It is recommended that a business organization review its plans for purchase and installation, or of revision or repair, of a boiler or pressure vessel well in advance with the Division to ensure meeting code requirements upon finalization.

R616-2-11. Initial Agency Action.

Issuance or denial of a Certificate of Inspection and Permit to Operate by the Division, and orders or directives to make changes or improvements by the boiler inspector are informal adjudicative actions commenced by the agency per Section 63-46b-3.

R616-2-12. Presiding Officer.

The boiler inspector is the presiding officer referred to in Section 63-46b-3. If an informal hearing is requested pursuant to R616-2-13, the Commission shall appoint the presiding officer for that hearing.

R616-2-13. Request for Informal Hearing.

Within 30 days of issuance, any aggrieved person may request an informal hearing regarding the reasonableness of a permit issuance or denial or an order to make changes or improvements. The request for hearing shall contain all information required by Sections 63-46b-3(a) and 63-46b-3(3).

R616-2-14. Classification of Proceeding for Purpose of Utah Administrative Procedures Act.

Any hearing held pursuant to R616-2-13 shall be informal and pursuant to the procedural requirements of Section 63-46b-5 and any agency review of the order issued after the hearing shall be per Section 63-46b-13. An informal hearing may be converted to a formal hearing pursuant to Section 63-46b-4(3).

KEY: boilers, certification, safety

January 1, 2006

34A-7-101 et seq.

Notice of Continuation January 10, 2002

R616. Labor Commission, Safety.**R616-3. Elevator Rules.****R616-3-1. Authority.**

This rule is established pursuant to Section 34A-7-201 for the purpose of the Labor Commission ascertaining, fixing, and enforcing reasonable standards regarding elevators for the protection of life, health, and safety of the general public and employees.

R616-3-2. Definitions.

A. "ANSI" means the American National Standards Institute, Inc.

B. "ASME" means the American Society of Mechanical Engineers.

C. "Commission" means the Labor Commission created in Section 34A-1-103.

D. "Division" means the Division of Safety of the Labor Commission.

E. "Elevator" means a hoisting and lowering mechanism equipped with a car or platform and that moves in guides in a substantially vertical direction.

F. "Escalator" means a stairway, moving walkway, or runway that is power driven, continuous and used to transport one or more individuals.

R616-3-3. Safety Codes for Elevators.

The following safety codes are adopted and incorporated by reference within this rule:

A. ASME A17.1, Safety Code for Elevators and Escalators, 2004 ed. issued April 30, 2004, ASME A17.1a-2005 issued April 29, 2005, and ASME A17.1S-2005 issued August 12, 2005, and amended as follows:

1. Delete 2.2.2.5;

2. Amend 8.6.5.8 as follows: Existing hydraulic cylinders installed below ground when found to be leaking shall be replaced with cylinders conforming to 3.18.3.4 or the car shall be provided with safeties conforming to 3.17.1 and guide rails, guide rail supports and fastenings conforming to 3.23.1. This code is issued every three years with annual addenda. New issues and addenda become mandatory only when a formal change is made to these rules. Elevators are required to comply with the A17.1 code in effect at the time of installation.

B. ASME A17.3 - 2002 Safety Code for Existing Elevators and Escalators. This code is adopted for regulatory guidance only for elevators classified as remodeled elevators by the Division of Safety.

C. ASME A90.1-1992, Safety Standard for Belt Manlifts.

D. ANSI A10.4-1990, Safety Requirements for Personnel Hoists and Employee Elevators for Construction and Demolition Operations.

E. 2003 International Building Code.

F. ICC/ANSI A117.1-1998 Accessible and Usable Buildings and Facilities, sections 407 and 408, approved February 13, 1998.

G. ASME A18.1-2003 Safety Standard For Platform Lifts And Stairway Chairlifts, issued July 29, 2003.

R616-3-4. Inspector Qualification.

A. Any person who performs elevator safety inspections must have a current certification as a Qualified Elevator Inspector as outlined in ASME QEI-1, Qualifications for Elevator Inspectors.

R616-3-5. Modifications and Variances to Codes.

A. In a case where the Division finds that the enforcement of any code would not materially increase the safety of employees or general public, and would work undue hardships on the owner/user, the Division may allow the owner/user a variance. Variances must be in writing to be effective and can

be revoked after reasonable notice is given in writing.

B. Persons who apply for a variance to a safety code requirement must present the Division with the rationale as to how their elevator installation provides safety equivalent to the applicable safety code.

C. No errors or omissions in these codes shall be construed as permitting any unsafe or unsanitary condition to exist.

D. The Commission may, by rule, add or delete from the applicable safety codes for any good and sufficient safety reason.

E. In the event that adopted safety codes are in conflict with one another, the ASME A17.1, Safety Code for Elevators and Escalators will take precedence. The exception to this is for compliance with the accessibility guidelines of Pub. L. No. 101-336 "The Americans with Disability Act of 1990". In this instance, the International Building Code standards adopted in R616-3-3 for accessibility as applied to elevators take precedence over ASME A17.1.

R616-3-6. Exemptions.

A. These rules apply to all elevators in Utah with the following exemptions:

1. Private residence elevators installed inside a single family dwelling. Common elevators which serve multiple residences are not exempt from these rules.

2. Elevators in buildings owned by the Federal government.

B. Owners of elevators exempted in R616-3-5.A. may request a safety inspection by Division of Safety inspectors. Code non-compliance items will be treated as recommendations by the inspector with the owner having the option as to which, if any, are corrected. Owners requesting these inspections will be invoiced at the special inspection rate. If the owner requests a State of Utah Certificate to Operate for the elevator, all of the recommendations must be completed to the satisfaction of the inspector and the owner will be invoiced the appropriate certificate fee.

R616-3-7. Inspection of Elevators, Permit to Operate, Unlawful Operations.

A. It shall be the responsibility of the Division to make inspections of all elevators when deemed necessary or appropriate.

B. Elevator inspectors shall examine conditions in regards to the safety of the employees, public, machinery, drainage, methods of lighting, and into all other matters connected with the safety of persons using or in close proximity to each elevator, and when necessary give directions providing for the better health and safety of persons in or about the same. The owner/user is required to freely permit entry, inspection, examination and inquiry, and to furnish a guide when necessary.

C. If the Division finds that an elevator complies with the applicable safety codes and rules, the owner/user shall be issued a Certificate of Inspection and Permit to Operate.

1. The Certificate of Inspection and Permit to Operate is valid for 24 months.

2. The Certificate of Inspection and Permit to Operate shall be displayed in a conspicuous location for the entire validation period. If the certificate is displayed where accessible to the general public, as opposed to being in the elevator machine room, it must be protected under a transparent cover.

D. If the Division finds an elevator is not being operated in accordance with the safety codes and rules, the owner/user shall be notified in writing of all deficiencies and shall be directed to make specific improvements or changes as are necessary to bring the elevator into compliance.

E. Pursuant to Section 34A-7-204, if the improvements or changes are not made within a reasonable time, by agreement of

the division and the owner, the elevator is being operated unlawfully.

F. If the owner/user refuses to allow an inspection to be made, the elevator is being operated unlawfully.

G. If the owner/user refuses to pay the required fee, the elevator is being operated unlawfully.

H. If the owner/user operates an elevator unlawfully, the Commission may order the elevator operation to cease pursuant to Section 34A-1-104.

I. If, in the judgment of an elevator inspector, the lives or safety of employees or public are, or may be, endangered should they remain in the danger area, the elevator inspector shall direct that they be immediately withdrawn from the danger area, and the elevator removed from service until repairs have been made and the elevator has been brought into compliance.

R616-3-8. Inclined Wheelchair Lift Headroom Clearance.

A. Headroom clearance for inclined wheelchair lifts throughout the range of travel shall be not less than 80 inches (2032 mm) as measured vertically from the leading edge of the platform floor.

B. For existing facilities only, in the event that it is not technically or economically feasible to provide other means of access for disabled persons, inclined wheelchair lifts may be installed if all of the following conditions are met:

1. The appropriate building inspection jurisdiction approves the use of an inclined wheelchair lift for the specific application.

2. Headroom clearance throughout the range of travel shall be not less than 60 inches as measured vertically from the leading edge of the platform floor.

3. The passenger restriction sign as required by ASME A18.1 3.1.2.3 shall be amended as follows: "PHYSICALLY DISABLED PERSONS ONLY. NO FREIGHT. HEADROOM CLEARANCE IS LIMITED. USE ONLY IN THE SITTING POSITION".

R616-3-9. Valves in Hydraulic Elevator Operating Fluid Systems.

A. Due to the potential loss of pressure retaining capability when over torqued, bronze-bodied valves shall not be installed in the hydraulic systems of a hydraulic elevator.

B. This requirement is in effect for all new installations and remodel installations involving the hydraulic system.

C. If a bronze-bodied valve installed on an existing elevator begins to leak, that valve shall be replaced by a steel-bodied valve.

R616-3-10. Hydraulic Elevator Piping.

A. This rule establishes minimum standards for hydraulic fluid piping in hydraulic elevators. The piping specifications referred to in this rule are governed by ASME or ASTM piping specifications (e.g. ASME Specification SA-53 Table X2.4).

B. Hydraulic elevators not incorporating a safety valve may use schedule 40 piping.

C. For newly installed hydraulic elevators that do incorporate a safety valve:

1. Where piping is protected by the safety valve, schedule 40 piping may be used;

2. Where grooved or threaded connections are used in piping that is unprotected by the safety valve, i.e. between the safety valve and the hydraulic jack(s), nominal pipe size (NPS)3 or schedule 80 piping may be used;

3. Where piping is unprotected by the safety valve, but welded or bolted flange connections are used, schedule 40 piping may be used.

R616-3-11. Shunt Trips in Elevator Systems.

A. The means (shunt trip) to automatically disconnect the

main line power supply to the elevator discussed in 2.8.2.3.2 of A17.1 is not required for hydraulic elevators with a rise of 50 feet or less.

R616-3-12. Hoistway Vents.

Hoistway ventilation as outlined in the International Building Code is under the jurisdiction of the local building official.

R616-3-13. Hand Line Control Elevators.

A. Operation of a hand line control elevator is not permitted.

B. Owners of hand line control elevators are required to render the elevator electrically and mechanically incapable of operation.

R616-3-14. Remodeled Elevators.

A. When an elevator is classified as a remodeled (modernized) elevator by the Division, the components of the elevator involved in the modernization must comply with the standards of the latest version of A17.1 and A17.3 in effect at the time the remodeling of the elevator commences.

B. When a hydraulic elevator has been remodeled it is considered a new installation.

R616-3-15. Fees.

A. Fees to be charged as provided by Section 34A-1-106 and 63-38-3.2 shall be adopted by the Labor Commission and approved by the Legislature pursuant to Section 63-38-3(2).

B. The fee for the initial certification permit shall be invoiced to and paid by the company or firm installing the elevator.

C. The renewal certification permit shall be invoiced to and paid by the owner/user.

D. Any request for a special inspection shall be invoiced to and paid by the person/company requesting the inspection, at the hourly rate plus mileage and expenses.

R616-3-16. Notification of Installation, Revision or Remodeling.

A. Before any elevator covered by this rule is installed or a major revision or remodeling begins on the elevator, the Division must be advised at least one week in advance of such installation, revision, or remodeling unless emergency dictates otherwise.

R616-3-17. Initial Agency Action.

Issuance or denial of a Certificate of Inspection and Permit to Operate by the Division, and orders or directives to make changes or improvements by the elevator inspector are informal adjudicative actions commenced by the agency per Section 63-46b-3.

R616-3-18. Presiding Officer.

The elevator inspector is the presiding officer referred to in Section 63-46b-3. If an informal hearing is requested pursuant to R616-3-18, the Commission shall appoint the presiding officer for that hearing.

R616-3-19. Request for Informal Hearing.

Within 30 days of issuance, any aggrieved person may request an informal hearing regarding the reasonableness of a permit issuance or denial or an order to make changes or improvements. The request for hearing shall contain all information required by Sections 63-46b-3(a) and 63-46b-3(b).

R616-3-20. Classification of Proceeding for Purpose of Utah Administrative Procedures Act.

Any hearing held pursuant to R616-3-18 shall be informal

and pursuant to the procedural requirements of Section 63-46b-5 and any agency review of the order issued after the hearing shall be per Section 63-46b-13. An informal hearing may be converted to a formal hearing pursuant to Subsection 63-46b-4(3).

KEY: elevators, certification, safety
February 8, 2006 **34A-1-101 et seq.**
Notice of Continuation January 10, 2002

**R647. Natural Resources; Oil, Gas and Mining; Non-Coal.
R647-1. Minerals Regulatory Program.
R647-1-101. Preamble.**

These Rules and all subsequent revisions as approved and promulgated by the Board of Oil, Gas, and Mining (Board) of the State of Utah, are developed pursuant to the requirements of the Utah Mined Land Reclamation Act of 1975, Title 40, Chapter 8 of the Utah Code Annotated as amended (the Act). Section 40-8-2 of the Act states the findings of the Legislature.

In accordance with this legislative direction, these Rules recognize the necessity to balance the reclamation objectives of the Act with the physical, biological and economical constraints which may exist on successful reclamation. The Act and its revisions are hereby expressly incorporated herein by reference and made a part of these Rules.

There is intentional duplication in these rules. For example, the rule on hole plugging requirements is repeated in the section on Exploration, Small Mining Operations, and Large Mining Operations. This repetition is intended to benefit the Operator by putting all the rules relevant to a type of operation in the introductory section and in the section on that type of operation.

R647-1-102. Introduction.

1. Effective Dates, Applicability, Type of Operations Affected:

1.11. Effective November 1, 1988, the following rules apply to all previously exempted mining operations and to mining operations planning to commence, or resume operations within the state of Utah. These rules will not apply to existing mining operations approved prior to the effective date of these rules, or to notices of intention or amendments filed prior to these rules. However, these rules will apply to any revisions to an approved notice of intention filed subsequent to the effective date of these rules.

1.12. Operators should refer to the section of these rules which applies to the type of mining operation (e.g., exploration, small mining operation, or large mining operation) being conducted or proposed.

1.13. These rules apply to all lands within the state of Utah lawfully subject to its police power, regardless of surface or mineral ownership, and regardless of the type of mining operation conducted.

2. Cooperative Agreements/Memoranda of Understanding:

The Division of Oil, Gas and Mining (Division) will cooperate with other state agencies, local governmental bodies, agencies of the federal government, and private interests in the furtherance of the purposes of the Utah Mined Land Reclamation Act. The Division is authorized to enter into cooperative agreements and develop memoranda of understanding with agencies in furtherance of the purposes of the Act. The objective is to minimize the need for operators to undertake duplicative, overlapping, excessive, or conflicting procedures.

3. Operator Responsibilities, Compliance with other Local, State and Federal Laws:

The approval or acceptance of a complete notice of intention shall not relieve an operator from his responsibility to comply with the applicable statutes, rules, regulations, and ordinances of all local, state and federal agencies with jurisdiction over any aspect of the operator's mining operations, including, but not limited to: Utah State Division of Water Rights, the Utah Department of Business Regulation, the Utah State Industrial Commission, the Utah Department of Environmental Quality, the Utah Division of State History, the Division of Forestry, Fire and State Lands, The School and Institutional Trust Lands Administration, the Utah Division of Wildlife Resources, the U. S. Fish and Wildlife Service, the United States Bureau of Land Management, the United States

Forest Service, the United States Environmental Protection Agency, and local county or municipal governments.

4. Division Guidelines, Operator Assistance in Application Preparation:

Each operator who conducts mining operations on any lands within the state of Utah is responsible for compliance with the following rules. The Division shall provide guidelines to aid the operator in complying with the rules.

R647-1-103. General Rules.

The following are general rules for statewide application.

R647-1-104. Violations and Enforcement.

If after notice and hearing, the Board finds that a violation of the Act, these rules, a notice of intention, or a Board or Division order has occurred, the Board may take any enforcement action authorized by law including requiring: compliance, abatement, mitigation, cessation of operations, a civil suit, forfeiture of surety, reclamation, or any other lawful action.

R647-1-105. Forms.

The attached forms are intended for the convenience of the operator and the Division, and may be changed from time to time. The forms are not part of these rules and use of a particular form, though encouraged, is not required, as long as all of the necessary information is provided in a reasonable manner.

R647-1-106. Definitions.

"Act" means the Utah Mined Land Reclamation Act, enacted in 1975, as amended. (Section 40-8-1, et seq., UCA).

"Adjudicative proceeding" means an agency action or proceeding that determines the legal rights, duties, privileges, immunities, or other legal interests of one or more identifiable persons, including all agency actions to grant, deny, revoke, suspend, modify, annul, withdraw, or amend an authority, right, or license; and judicial review of all of such actions. Those matters not governed by Title 63, Chapter 46b, Administrative Procedures Act, of the Utah Code annotated (1953, as amended) shall not be included within this definition.

"Agency" means a board, commission, department, division, officer, council, office, committee, commission, bureau, or other administrative unit of this state, including the agency head, agency employees, or other persons acting on behalf of or under the authority of the agency head, but does not mean the Legislature, the courts, the governor, any political subdivision of the state, or any administrative unit of a political subdivision of the state.

"Agency head" means an individual or body of individuals in whom the ultimate legal authority of the agency is vested by statute.

"Amendment" is an insignificant change in the approved notice of intention.

"Approved Notice of Intention" means a formally filed notice of intention to commence mining operations, including any amendments or revisions thereto that is determined to be complete and contains a mining and reclamation plan, which has been approved by the Division. A notice of intention for exploration having a disturbed area of five acres or less, or a small mining operation must be determined complete in writing by the Division, but does not require a mining and reclamation plan.

"Board" means the Utah Board of Oil, Gas and Mining. The Board shall hear all appeals of adjudicative proceedings which commenced before the Division as well as all adjudicative proceedings and other proceedings which commence before the Board. The Board may appoint a Hearing Examiner for its hearings in accordance with the Rules of

Practice and Procedure before the Board of Oil, Gas and Mining.

"Deleterious Materials" means earth, waste or introduced materials exposed by mining operations to air, water, weather or microbiological processes, which would likely produce chemical or physical conditions in the soils or water that are detrimental to the biota or hydrologic systems.

"Deposit" or "mineral deposit" means an accumulation of mineral matter in the form of consolidated rock, unconsolidated materials, solutions, or otherwise occurring on the surface, beneath the surface, or in the waters of the land from which any useful product may be produced, extracted or obtained, or which is extracted by underground mining methods for underground storage. "Deposit" or "mineral deposit" excludes sand, gravel, rock aggregate, water, geothermal steam, and oil and gas, but includes oil shale and bituminous sands extracted by mining operations.

"Development" means the work performed in relation to a deposit following its discovery, but prior to and in contemplation of production mining operations. Development includes, but is not limited to, preparing the site for mining operations; further defining the ore deposit by drilling or other means; conducting pilot plant operations; and constructing roads or ancillary facilities.

"Disturbed Area" means the surface land disturbed by mining operations. The disturbed area for small mining operations shall not exceed five acres. The disturbed area for large mining operations shall not exceed the acreage described in the approved notice of intention.

"Division" means the Utah Division of Oil, Gas and Mining. The Division Director or designee is the Presiding Officer for all informal adjudicative proceedings which commence before the Division in accordance with Rule R647-5.

"Exempt Mining Operations" means those mining operations which were previously exempt from the Act because less than 500 tons of material was mined in a period of twelve consecutive months or less than two acres of land was excavated or used as a disposal site in a period of twelve consecutive months. These exemptions were eliminated by statutory amendments in 1986 and are no longer available.

"Exploration" means surface disturbing activities conducted for the purpose of discovering a deposit or mineral deposit, delineating the boundaries of a deposit or mineral deposit, and identifying regions or specific areas in which deposits or mineral deposits are most likely to exist. "Exploration" includes, but is not limited to: sinking shafts; tunneling; drilling holes; digging pits or cuts; building roads and other access ways.

"Gravel" means a naturally occurring unconsolidated to moderately consolidated accumulation of rock and mineral particles, the dominant size range being between 2mm and 10mm, which has been deposited by sedimentary processes.

"Land affected" means the surface and subsurface of an area within the state where mining operations are being or will be conducted, including, but not limited to: (a) on-site private ways, roads, and railroads; (b) land excavations; (c) exploration sites; (d) drill sites or workings; (e) refuse banks or spoil piles; (f) evaporation or settling ponds; (g) stockpiles; (h) leaching dumps; (i) placer areas; (j) tailings ponds or dumps; (k) work, parking, storage, or waste discharge areas, structures, and facilities. Land affected does not include: (x) lands which have been reclaimed in accordance with an approved plan or as otherwise approved by the Board, (y) lands on which mining operations ceased prior to July 1, 1977, or (z) lands on which previously exempt mining operations ceased prior to April 29, 1989.

"Large Mining Operations" means mining operations which have a disturbed area of more than five surface acres at any time.

"License" means a franchise, permit, certification, approval,

registration, charter, or similar form of authorization required by statute.

"Mining operations" means those activities conducted on the surface of the land for the exploration for, development of, or extraction of a mineral deposit, including, but not limited to, surface mining and the surface effects of underground and in situ mining; on-site transportation, concentrating, milling, evaporation, and other primary processing. "Mining operation" does not include: the extraction of sand, gravel, and rock aggregate; the extraction of oil and gas; the extraction of geothermal steam; smelting or refining operations; off-site operations and transportation; reconnaissance activities; or activities which will not cause significant surface resource disturbance and do not involve the use of mechanized earth-moving equipment, such as bulldozers or backhoes.

"Notice of Intention" means a notice of intention to commence mining operations, that provide the complete information required for authorization to conduct mining operations, and includes any amendments or revisions thereto.

"Off-site" means the land areas that are outside of or beyond the on-site land.

"On-site" means the surface lands on or under which surface or underground mining operations are conducted. A series of related properties under the control of a single operator but separated by small parcels of land controlled by others will be considered a single site unless excepted by the Division.

"Operator" means any natural person, corporation, association, partnership, receiver, trustee, executor, administrator, guardian, fiduciary, agent, or other organization or representative of any kind, either public or private, owning, controlling, conducting, or managing a mining operation or proposed mining operation.

"Owner" means any natural person, corporation, association, partnership, receiver, trustee, executor, administrator, guardian, fiduciary, agent, or other organization or representative of any kind, either public or private, owning, controlling, conducting, or managing a mineral deposit or the surface of lands employed in mining operations.

"Party" means the Board, Division or other person commencing an adjudicative proceeding, all respondents, all persons permitted by the Board to intervene in the proceeding, and all persons authorized by statute or agency rule to participate as parties in an adjudicative proceeding.

"Permit" means a notice to conduct mining operations issued by the Division. A notice to conduct mining operations is issued by the Division when either a notice of intention for a small mining operation or exploration is determined to be complete and includes a surety approved by the Division, or a notice of intention for a large mining operation or exploration with a plan of operations and surety approved by the Division.

"Person" means an individual, group of individuals, partnership, corporation, association, political subdivision or its units, governmental subdivision or its units, public or private organization or entity of any character, or another agency.

"Presiding Officer" means an agency head, or an individual or body of individuals designated by the agency head, by the agency's rules, or by statute to conduct an adjudicative proceeding. For the purpose of these rules, the Board, or its appointed Hearing Examiner, shall be considered the Presiding Officer of all appeals of informal adjudicative proceedings which commenced before the Division as well as all adjudicative proceedings which commence before the Board. The Division Director or his/her designee shall be considered a Presiding Officer for all informal adjudicative proceedings which commence before the Division in accordance with this Rule R647-5. If fairness to the parties is not compromised, an agency may substitute one Presiding Officer for another during any proceeding.

"Reclamation" means actions performed during or after

mining operations to shape, stabilize, revegetate, or otherwise treat the land affected in order to achieve a safe and ecologically stable condition and use which will be consistent with local environmental conditions and land management practices.

"Regrade or Grade" means to physically alter the topography of any land surface.

"Respondent" means any person against whom an adjudicative proceeding is initiated, whether by an agency or any other person.

"Revision" means a change to an approved Notice of Intention to Conduct Mining Operations, which will increase or decrease the amount of land affected, or alter the location and type of on-site surface facilities, such that the nature of the reclamation plan will differ substantially from that in the approved Notice of Intention.

"Rock Aggregate" means those consolidated rock materials associated with a sand deposit, a gravel deposit, or a sand and gravel deposit, that were created by alluvial sedimentary processes. The definition of rock aggregate specifically excludes any solid rock in the form of bedrock which is exposed at the surface of the earth or overlain by unconsolidated material.

"Sand" means a naturally occurring unconsolidated to moderately consolidated accumulation of rock and mineral particles, the dominant size range being between 1/16mm to 2mm, which has been deposited by sedimentary processes.

"Small Mining Operations" means mining operations which have a disturbed area of five or less surface acres at any time.

"Surface Mining" means mining conducted on the surface of the land including open pit, strip, or auger mining; dredging; quarrying; leaching; surface evaporation operations; reworking abandoned dumps and tailings and activities related thereto.

"Underground Mining" means mining carried out beneath the surface by means of shafts, tunnels or other underground mine openings.

**KEY: minerals reclamation
February 23, 2006
Notice of Continuation July 8, 2003**

40-8-1 et seq.

**R647. Natural Resources; Oil, Gas and Mining; Non-Coal.
R647-2. Exploration.**

R647-2-101. Filing Requirements and Review Procedures.

1. Prior to the commencement of exploration, a Notice of Intention to Conduct Exploration (FORM MR-EXP) containing all the required information must be filed with and determined complete by the Division and the Division shall have approved the form and amount of reclamation surety. It is recommended that the notice of intention be filed with the Division at least 30 days prior to the planned commencement of exploration.

2. Within 15 days after receipt of a Notice of Intention to Conduct Exploration (FORM MR-EXP), the Division will review the proposal and notify the operator in writing that the notice of intention is:

2.11. Complete and all required information has been submitted; or

2.12. Incomplete, and additional information as identified by the Division will be required.

The Division will review and respond to any subsequent filings of information within 10 working days of receipt.

3. If more than five acres of disturbance are planned, a detailed exploration development and reclamation plan must be included in the notice of intention and approved by the Division.

4. The Division will review and approve or disapprove:

4.11. The form and amount of reclamation surety, and;

4.12. Any variances requested under R647-2-107, 108, or 109, regardless of the number of surface acres of disturbance planned.

5. Developmental drilling conducted within an already approved disturbed area with approved surety does not require submittal of a Notice of Intention to Conduct Exploration (FORM MR-EXP).

6. A permittee's retention of a notice of intention shall require the paying of permit fees as authorized by the Utah Legislature. The procedures for paying the permit fees are as follows:

6.11. The Division shall notify the operators of record annually of the amount of permit fees authorized by the Utah Legislature for Exploration.

6.12. Fees are due beginning July 31, 1998 and thereafter annually, by the last Friday of July as authorized by the Utah Legislature.

6.13. A permittee may avoid payment of the fee by complying with the following requirements:

6.13.11. A permittee will notify the Division of a desire to close out a notice of intention by checking the appropriate box of the permit fees billing form.

6.13.12. The permittee will then arrange with the Division for an onsite inspection of the site to assure that all required reclamation has been performed. If an inspection reveals that an area is not yet suitably reclaimed, then a new billing notice will be issued and the permittee will be given 30 days from the date of the onsite inspection to pay the fee.

R647-2-102. Duration of the Notice of Intention.

1. A Notice of Intention to Conduct Exploration that has been determined complete or, for operations of more than 5 acres has been approved, shall be valid until November 30th of the year following the year of submittal. All exploration and reclamation activities should be completed within this time frame. An operator desiring to extend the duration of a notice of intention, must notify the Division in writing, prior to expiration of the notice of intention, specifying the reasons an extension is required, and the anticipated length of time required to complete exploration and reclamation.

2. The Division will review and approve the extension and adjust if necessary, the amount of reclamation surety.

3. Authorization to operate under a Notice of Intention to Conduct Exploration may be withdrawn in the event of failure

by the operator to pay permit fees required by R647-2-101.6, or to maintain and update reclamation surety as required, after notice and opportunity for Board hearing.

R647-2-103. Notice of Intention to Conduct Exploration.

The notice of intention shall address the requirements of the following rules:

TABLE

RULE #	SUBJECT
R647-2-104	Operator(s), Surface and Mineral Owner(s)
R647-2-105	Maps and Drawings
R647-2-106	Project Description
R647-2-107	Operation Practices
R647-2-108	Hole Plugging Requirements
R647-2-109	Reclamation Practices
R647-2-110	Variance

R647-2-104. Operator(s), Surface and Mineral Owner(s).

The notice of intention shall include the following general information:

1. The name, permanent mailing address, and telephone number of the operator responsible for exploration.

2. The name and permanent mailing address of the surface land owner(s) and mineral owner(s) of all land to be affected by the operations.

3. The federal mining claim number(s), lease number(s), or permit number(s) of any mining claims, federal or state leases or permits included in the land affected.

4. A statement that the operator will conduct reclamation as required by these rules.

R647-2-105. Maps and Drawings.

The notice of intention shall include a location map and an operations map. Each map shall be plotted at a scale to accurately identify locational landmarks and operation details.

1. The general location map shall be the scale of a USGS 7.5-minute series map or equivalent (1"=2000') and identify new or existing access roads.

2. The operations map (1"=200' or other scale as determined necessary by the Division) shall identify:

2.11 The area to be disturbed;

2.12 The location of any existing or proposed operations including access roads, drill holes, trenches, pits, shafts, cuts, or other planned exploration activities; and

2.13 Any adjacent previous disturbance for which the operator is not responsible.

R647-2-106. Project Description.

The notice of intention should include the following information:

1. A statement giving general details of the type or method of exploration proposed, including the proposed dates during which exploration will be conducted;

2. The type of minerals to be explored for;

3. The general dimensions of all drill holes, including total depth and diameter;

4. The general dimensions of all trenches, pits, shafts, cuts, or other types of disturbances;

5. The width and length of any new roads constructed;

6. An estimate of the total number of surface acres to be disturbed.

7. The amount of material (including mineral deposit, topsoil, subsoil, overburden, waste rock, or core hole material) extracted, moved, or proposed to be moved during the exploration operation.

R647-2-107. Operation Practices.

The operator shall conform to the following practices while conducting exploration unless the Division grants a variance in

writing:

1. Public Safety and Welfare - The operator shall minimize hazards to the public safety and welfare during operations. Methods to minimize hazards shall include but not be limited to:

1.11. The closing or guarding of shafts and tunnels to prevent unauthorized or accidental entry in accordance with MSHA regulations;

1.12. The disposal of trash, scrap metal and wood, and extraneous debris;

1.13. The plugging or capping of drill, core, or other exploratory holes as set forth in Rule R647-2-108;

1.14. The posting of appropriate warning signs in locations where public access to operations is readily available;

1.15. The construction of berms, fences and/or barriers above highwalls or other excavations when required by the Division.

2. Drainages - If natural channels are to be affected by exploration, then the operator shall take appropriate measures to avoid or minimize environmental damage.

3. Erosion Control - Operations shall be conducted in a manner such that sediment from disturbed areas is adequately controlled. The degree of erosion control shall be appropriate for the site-specific and regional conditions of topography, soil, drainage, water quality or other characteristics.

4. Deleterious Materials - All deleterious or potentially deleterious material, shall be safely removed from the site or kept in an isolated condition such that adverse environmental effects are eliminated or controlled.

5. Soils - Suitable soil material shall be removed and stored in a stable condition where practical so as to be available for reclamation.

6. Concurrent Reclamation - During operations, disturbed areas shall be reclaimed when no longer needed, except to the extent necessary to preserve evidence of mineralization for proof of discovery. Areas which have been disturbed but are not routinely or currently utilized shall be kept in a safe, environmentally stable condition.

R647-2-108. Hole Plugging Requirements.

Drill holes shall be properly plugged as soon as practical and not be left unplugged for more than 30 days without approval of the Division. The procedures outlined below are required for the surface and subsurface plugging of drill holes. The Division may approve an alternate plan, if the operator can prove to the satisfaction of the Division that another method will provide adequate protection to the groundwater resources and long term stability of the land. Dry holes and nonartesian holes which do not produce significant amounts of water may be temporarily plugged with a surface cap to permit the operator to re-enter the hole for the duration of operations.

1. Surface plugging of drill holes shall be accomplished by:

1.11. Setting a nonmetallic permaplug at a minimum of five (5) feet below the surface, or returning the cuttings to the hole and tamping the returned cuttings to within five (5) feet of ground level. The hole above the permaplug or tamped cuttings will be filled with a cement plug. If cemented casing is to be left in place, a concrete surface plug is not required provided that a permanent cap is secured on top of the casing.

1.12. If the area is tilled farmland, a five (5) foot cement plug must be placed above a permaplug or tamped cuttings so that the top of the cement plug is a minimum of three (3) feet below the ground surface. The hole above the cement plug is to be filled with soil. If cemented casing is to be left in place, a concrete surface plug is not required provided that a permanent cap is secured on top of the casing. The top of the casing and cap must be a minimum of three (3) feet below the ground surface.

2. Drill holes that encounter water, oil, gas or other

potential migratory substances and are 2-1/2 inches or greater in surface diameter shall be plugged in the subsurface to prevent the migration of fluid from one strata to another. If water is encountered, plugging shall be accomplished as outlined below:

2.11. If artesian flow (i.e., water flowing to the surface from the hole) is encountered during or upon cessation of drilling, a cement plug shall be placed to prevent water from flowing between geologic formations and at the surface. The cement mix should consist of API Class A or H cement with additives as needed. It should weigh at least 13.5 lbs./gal., and be placed under the supervision of a person qualified in proper drill hole cementing of artesian flow. Artesian bore holes must be plugged in the described manner, prior to removal of the drilling equipment from the well site. If the surface owner of the land affected desires to convert an artesian drill hole to a water well, the owner must notify the Division in writing accepting responsibility for the ultimate plugging of the drill hole.

2.12. Holes that encounter significant amounts of nonartesian water shall be plugged by:

2.12.111 Placing a 50 foot cement plug immediately above and below the aquifer(s); or

2.12.112 Filling from the bottom up (through the drill stem) with a high grade bentonite/water slurry mixture. The slurry shall have a Marsh funnel viscosity of at least 50 seconds per quart prior to the adding of any cuttings.

R647-2-109. Reclamation Practices.

The operator shall conform to the following practices while conducting reclamation unless the Division grants a variance in writing:

1. Public Safety and Welfare - The operator shall minimize hazards to the public safety and welfare following completion of operations. Methods to minimize hazards shall include but not be limited to:

1.11. The permanent sealing of shafts and tunnels;

1.12. Appropriate disposal of trash, scrap metal and wood, buildings, extraneous debris, and other materials incident to mining;

1.13. The plugging of drill, core, or other exploratory holes as set forth in Rule R647-2-108;

1.14. The posting of appropriate warning signs in locations where public access to operations is readily available;

1.15. The construction of berms, fences and/or barriers above highwalls or other excavations when required by the Division.

2. Drainages - If natural channels have been affected by exploration, then reclamation must be performed such that the channels will be left in a stable condition with respect to actual and reasonably expected water flow so as to avoid or minimize future damage to the hydrologic system.

3. Erosion Control - Reclamation shall be conducted in a manner such that sediment from disturbed areas is adequately controlled. The degree of erosion control shall be appropriate for the site-specific and regional conditions of topography, soil, drainage, water quality or other characteristics.

4. Deleterious Materials - All deleterious or potentially deleterious material shall be safely removed from the site or left in an isolated or neutralized condition such that adverse environmental effects are eliminated or controlled.

5. Land Use - The operator shall leave the on-site area in a condition which is capable of supporting the postmining land use.

6. Slopes - Waste piles, spoil piles and fills shall be regraded to a stable configuration and shall be sloped to minimize safety hazards and erosion while providing for successful revegetation.

7. Highwalls - In surface mining and in open cuts for pads or roadways, highwalls shall be reclaimed and stabilized by

backfilling against them or by cutting the wall back to achieve a slope angle of 45 degrees or less.

8. Roads and Pads - On-site roads and pads shall be reclaimed when they are no longer needed for operations. When a road or pad is to be turned over to the property owner or managing agency for continuing use, the operator shall turn over the property with adequate surface drainage structures and in a condition suitable for continued use.

9. Dams and Impoundments - Water impounding structures shall be reclaimed so as to be self-draining and mechanically stable unless shown to have sound hydrologic design and to be beneficial to the postmining land use.

10. Trenches and Pits - Trenches and small pits shall be reclaimed.

11. Structures and Equipment - Structures, rail lines, utility connections, equipment, and debris shall be buried or removed.

12. Topsoil Redistribution - After final grading, soil materials shall be redistributed on a stable surface so as to minimize erosion, prevent undue compaction and promote revegetation.

13. Revegetation - The species seeded shall include adaptable perennial species that will grow on the site, provide basic soil and watershed protection, and support the postmining land use.

Revegetation shall be considered accomplished when:

13.11. The revegetation has achieved 70 percent of the premining vegetative ground cover. If the premining vegetative ground cover is unknown, the ground cover of an adjacent undisturbed area that is representative of the premining ground cover will be used as a standard. Also, the vegetation has survived three growing seasons following the last seeding, fertilization or irrigation, unless such practices are to continue as part of the postmining land use; or

13.12. The Division determines that the revegetation work has been satisfactorily completed within practical limits; where reseeding has occurred and the vegetation has survived one growing season, the reseeded area shall not be included for purposes of determining whether future exploration or mining operations involve a disturbed area of five acres or less.

R647-2-110. Variance.

1. The operator may request a variance from Rule R647-2-107, 108, or 109, by submitting the following information, which shall be considered by the Division on a site-specific basis:

- 1.11. The rule(s) as to which a variance is requested;
 - 1.12. The variance requested and description of the area that would be affected by the variance;
 - 1.13. Justification for the variance;
 - 1.14. Alternate methods or measures to be utilized.
2. A variance shall be granted if the alternative method or measure proposed will be consistent with the Act.
3. Any variance must be specifically approved by the Division in writing.

R647-2-111. Surety.

1. After receiving notification that the notice of intention is approved or complete, but prior to commencement of operations, the operator must post a reclamation surety with the Division.

1.11. Failure to furnish and maintain reclamation surety may, after notice and opportunity for a Board hearing, result in a withdrawal of the notice of intention as provided for in Section 40-8-16.

2. The Division will not require a separate surety where a reclamation surety in a form and amount acceptable to the Division is held by other governmental entities, provided that the cost estimate is accurate and the Division is named as co-beneficiary. Cooperative Agreements may be developed and

entered into according to Section 40-8-22.

3. As part of the review of the notice of intention, the Division shall determine the required surety amount based on:

3.11. Site-specific calculations or estimates by the Division reflecting the cost the Division or a third party would incur to reclaim the site;

3.12. Site-specific calculations or estimates by the operator reflecting the cost the Division or a third party would incur to reclaim the site, if accurate and verifiable by the Division; or

3.13. The average dollars per acre costs for reclamation for similar operations, as determined by the Division, based upon approved surety amounts for current large mining operations.

3.14. In determining or verifying the amount of surety under Sections 3.11 or 3.12, the Division shall use cost data from current sureties for large mining operations, adjusted as necessary to reflect the nature and scope of operations and reclamation under the notice of intention.

4. The operator shall submit a completed Reclamation Contract (FORM MR-RC) with the required surety. The form and amount of the reclamation surety must be approved by the Division. Acceptable forms may include:

4.11. A corporate surety bond from a surety company that is licensed to do business in Utah, that is listed in "A.M. Best's Key Rating Guide" at a rating of A- or better or a Financial Performance Rating (FPR) of 8 or better, according to the "A.M. Best's Guide". All surety companies also will be continuously listed in the current issue of the U.S. Department of the Treasury Circular 570. Operators who do not have a surety bond with a company that meets the standards of subsection 4.11 will have 120 days from the date of Division notification after enactment of the changes to subsection 4.11 to achieve compliance or face enforcement action. When the Division in the course of examining surety bonds, notifies an operator that a surety company guaranteeing its performance does not meet the standards of subsection 4.11., the operator has 120 days after notice from the Division by mail to correct the deficiency, or face enforcement action;

4.12. Federally-insured certificate of deposit payable to the State of Utah, Division of Oil, Gas and Mining;

4.13. Cash;

4.14. An irrevocable letter of credit issued by a bank organized to do business in the United States;

4.15. Escrow accounts; and

4.16. The Board may accept a written self-bonding agreement in the case of operators showing sufficient financial strength.

5. Surety shall be required until such time as reclamation is deemed complete by the Division. The Division shall promptly conduct an inspection when notified by the operator that reclamation is complete. The full release of surety shall be evidence that the operator has reclaimed as required by the Act.

5.11. A partial release of surety can be made by the Division if it determines that a substantial phase or segment of reclamation such as demolition, backfilling or regrading has been successfully performed and the residual amount of retained surety is determined to be adequate to insure completion of reclamation.

R647-2-112. Failure to Reclaim.

If the operator fails or refuses to conduct reclamation as outlined in the complete notice of intention, and comply with the requirements of R647-2-107, R647-2-108, or R647-2-109 the Board may, after notice and hearing, order that:

1. Reclamation be conducted by the Division,
2. The costs and expenses of reclamation, together with costs of collection including attorney's fees, be recovered in a civil action brought by the attorney general against the operator in any appropriate court; and
3. Any surety filed for this purpose be forfeited. With

respect to the surety filed with the Division, the Board shall request the Attorney General to take the necessary legal action to enforce and collect the amount of liability. Where a reclamation surety has been filed with other governmental agencies, the Board shall notify such agency of the hearing findings and seek forfeiture concurrence as necessary.

3.11. The forfeited surety shall be used only for the reclamation of land to which it relates, and any residual amount returned.

R647-2-113. Confidential Information.

Information provided in the notice of intention and in the Mineral Exploration Progress Report (FORM MR-EPR) that relates to the location, size, and nature of the mineral deposit, shall be protected as confidential information by the Board and the Division. The information will not be a matter of public record until a written release is received from the operator.

R647-2-114. Revised Notice.

1. Minor additions or changes in the location of exploration operations do not require the submittal of a revised notice of intention. A new or revised Notice of Intention to Conduct Exploration (FORM MR-EXP) letter must be submitted when:

1.1. The proposed additions or changes will occur outside the originally designated legal subdivision; or

1.2. For exploration operations under 5 acres the proposed additions will cause the total unreclaimed surface disturbance to increase by more than 1 acre or exceed 5 acres; or

1.3. For exploration operations over 5 acres, the proposed additions or changes will cause an increase in the area of disturbance previously approved.

2. In the event the Division or the operator determine at the time a revision is submitted that the amount of the current surety does not accurately reflect the potential cost to complete reclamation at any particular point in time during the revised exploration operations, the Division may undertake a recalculation of the surety amount as provided in R647-2-111.3. If the recalculated amount is greater than the amount of the existing surety, the revised operations may not be implemented until a revised surety is filed with the Division.

R647-2-115. Reports.

On or before December 31st of the year of filing of a Notice of Intention to Conduct Exploration (FORM MR-EXP) the operator must submit a Mineral Exploration Progress Report (FORM MR-EPR), which describes any unusual drilling conditions, water encountered, hole plugging measures, and reclamation activities conducted.

R647-2-116. Practices and Procedures; Appeals.

The Administrative Procedures, as outlined in R647-5, shall be applicable to minerals regulatory proceedings.

KEY: minerals reclamation

R647-3-101. Filing Requirements and Review Procedures.

1. Prior to commencement of operations, a Notice of Intention to Commence Small Mining Operations (FORM MR-SMO) containing all the required information must be filed with and determined complete by the Division and the Division shall have approved the form and amount of reclamation surety. It is recommended that the notice of intention be filed with the Division at least thirty (30) days prior to the planned commencement of operations.

2. Within 15 days after receipt of a Notice of Intention, the Division will review the proposal and notify the operator in writing;

2.11. That the notice of intention is complete and all required information has been submitted; or,

2.12. That the notice of intention is incomplete, and additional information as identified by the Division will be required.

2.12.111. The Division will review and respond to any subsequent filings of information within 10 working days of receipt.

3. The Division will review and approve or disapprove:

3.11. The form and amount of reclamation surety (R647-3-111), and

3.12. All variances requested from Rules R647-3-107, 108, and 109, regardless of the number of surface acres of disturbance planned.

4. The operator must notify the Division no later than 30 days after beginning small mining operations.

5. A permittee's authorization under a notice of intention to conduct small mining operations shall require the paying of permit fees as authorized by the Utah Legislature. The procedures for paying the permit fees are as follows:

5.11. The Division shall notify the operators of record annually of the amount of permit fees authorized by the Utah Legislature for

5.11.11. Small Mining Operations (less than 5 disturbed acres)

5.12. Fees are due beginning July 31, 1998 and thereafter annually, by the last Friday of July as authorized by the Utah Legislature.

6. A permittee may avoid payment of the fee by complying with the following requirements:

6.11. A permittee will notify the Division of a desire to close out a notice of intention by checking the appropriate box of the permit fees billing form.

6.12. The permittee will then arrange with the Division for an onsite inspection of the site to assure that all required reclamation has been performed. If an inspection reveals that an area is not yet suitably reclaimed, then a new billing notice will be issued and the permittee will be given 30 days from the date of the onsite inspection to pay the fee.

R647-3-102. Duration of the Notice of Intention.

The notice of intention, including any subsequent amendments or revisions, shall remain in effect for the life of the small mining operation. However, the notice of intention may be withdrawn, after notice and opportunity for Board hearing, in the event of failure by the operator to pay permit fees required by R647-3-101 or to maintain and update adequate reclamation surety as required in R647-3-111.

R647-3-103. Notice of Intention to Commence Small Mining Operations.

The notice of intention shall address the requirements of the following rules:

RULE #	SUBJECT
R647-3-104	Operator(s), Surface and Mineral Owner(s)
R647-3-105	Map
R647-3-106	Operation Plan
R647-3-107	Operation Practices
R647-3-109	Reclamation Practices
R647-3-110	Variance

R647-3-104. Operator(s), Surface and Mineral Owner(s).

The notice of intention shall include the following general information:

1. The name, permanent mailing address, and telephone number of the operator responsible for the small mining operation and reclamation of the site.

2. The name, and permanent mailing address of the surface landowner(s) and mineral owner(s) of all land to be affected by the mining operation.

3. The federal mining claim number(s), lease number(s) or permit number(s) of all mining claims, federal or state leases or permits included in the land affected.

4. A statement that the operator will conduct reclamation as required by these rules.

R647-3-105. Project Location and Map.

The notice of intention shall include a location map and an operations map. Each map shall be plotted at a scale to accurately identify locational landmarks and operations details.

1. The general location map shall be the scale of a USGS 7.5 minute series map or equivalent (1"=2000') and identify new or existing access roads.

2. The operations map (1"=200' or other scale as determined necessary by the Division) shall identify:

2.11. The area to be disturbed;

2.12. The location of any existing or proposed operations including access roads, drill holes, trenches, pits, shafts, cuts, or other planned exploration activities; and

2.13. Any adjacent previous disturbance for which the operator is not responsible.

R647-3-106. Operation Plan.

The operator shall provide a brief narrative description of the proposed mining operation as part of the notice of intention. The description should include the following information:

1. A statement giving general details of the type or method of mining operations proposed, and the type of minerals to be mined;

2. Estimated width and length of any new roads to be constructed;

3. An estimate of the total number of surface acres to be disturbed by the mining operation.

4. The amount of material (including mineral deposit, topsoil, subsoil, overburden, waste rock, or core hole material) to be extracted, moved, or proposed to be moved, relating to the mining operation.

R647-3-107. Operation Practices.

During operations, the operator shall conform to the following practices unless the Division grants a variance in writing:

1. Public Safety and Welfare - The operator shall minimize hazards to the public safety and welfare during operations. Methods to minimize hazards shall include but not be limited to:

1.11. The closing or guarding of shafts and tunnels to prevent unauthorized or accidental entry in accordance with MSHA regulations;

1.12. The disposal of trash, scrap metal and wood, and extraneous debris;

1.13. The plugging or capping of drill, core, or other exploratory holes as set forth in Rule R647-3-108.;

1.14. The posting of appropriate warning signs in

locations where public access to operations is readily available;

1.15. The construction of berms, fences and/or barriers above highwalls or other excavations when required by the Division.

2. Drainages - If natural channels are to be affected by the mining operation, then the operator shall take appropriate measures to avoid or minimize environmental damage.

3. Erosion Control - Operations shall be conducted in a manner such that sediment from disturbed areas is adequately controlled. The degree of erosion control shall be appropriate for the site-specific and regional conditions of topography, soil, drainage, water quality or other characteristics.

4. Deleterious Materials - All deleterious or potentially deleterious material shall be safely removed from the site or left in an isolated or neutralized condition such that adverse environmental effects are eliminated or controlled.

5. Soils - Suitable soil material shall be removed and stored in a stable condition where practical so as to be available for reclamation.

6. Concurrent Reclamation - During operations, disturbed areas shall be reclaimed when no longer needed, except to the extent necessary to preserve evidence of mineralization for proof of discovery. Areas which have been disturbed but are not routinely or currently utilized shall be kept in a safe, environmentally stable condition.

R647-3-108. Hole Plugging Requirements.

Drill holes shall be properly plugged as soon as practical and shall not be left unplugged for more than 30 days without approval of the Division. The procedures outlined below are required for the surface and subsurface plugging of drill holes. The Division may approve an alternate plan, if the operator can prove to the satisfaction of the Division that another method will provide adequate protection to the groundwater resources and long term stability of the land. Dry holes and nonartesian holes which do not produce significant amounts of water may be temporarily plugged with a surface cap to permit the operator to re-enter the hole for the duration of the operations.

1. Surface plugging of drill holes shall be accomplished by:

1.11. Setting a nonmetallic permaplug at a minimum of five (5) feet below the surface, or returning the cuttings to the hole and tamping the returned cuttings to within five (5) feet of ground level. The hole above the permaplug or tamped cuttings will be filled with a cement plug. If cemented casing is to be left in place, a concrete surface plug is not required provided that a permanent cap is secured on top of the casing.

1.12. If the area is tilled farmland, a five (5) foot cement plug must be placed above a permaplug or tamped cuttings so that the top of the cement plug is a minimum of three (3) feet below the ground surface. The hole above the cement plug is to be filled with soil. If cemented casing is to be left in place, a concrete surface plug is not required provided that a permanent cap is secured on top of the casing. The top of the casing and cap must be a minimum of three (3) feet below the ground surface.

2. Drill holes that encounter water, oil, gas or other potential migratory substances and are 2-1/2 inches or greater in surface diameter shall be plugged in the subsurface to prevent the migration of fluid from one strata to another. If water is encountered, plugging shall be accomplished as outlined below:

2.11. If artesian flow (i.e., water flowing to the surface from the hole) is encountered during or upon cessation of drilling, a cement plug shall be placed to prevent water from flowing between geologic formations and at the surface. The cement mix should consist of API Class A or H cement with additives as needed. It should weigh at least 13.5 lbs./gal., and be placed under the supervision of a person qualified in proper drill hole cementing of artesian flow. Artesian bore holes must

be plugged in the described manner, prior to removal of the drilling equipment from the well site. If the surface owner of the land affected desires to convert an artesian drill hole to a water well, he must notify the Division in writing that he accepts responsibility for the ultimate plugging of the drill hole.

2.12. Holes that encounter significant amounts of nonartesian water shall be plugged by:

2.12.111. Placing a 50 foot cement plug immediately above and below the aquifer(s); or

2.12.112. Filling from the bottom up (through the drill stem) with a high grade bentonite/water slurry mixture. The slurry shall have a Marsh funnel viscosity of at least 50 seconds per quart prior to the adding of any cuttings.

R647-3-109. Reclamation Practices.

During reclamation, the operator shall conform to the following practices unless the Division grants a variance in writing:

1. Public Safety and Welfare - The operator shall minimize hazards to the public safety and welfare following completion of operations. Methods to minimize hazards shall include but not be limited to:

1.11. The permanent sealing of shafts and tunnels;

1.12. The disposal of trash, scrap metal and wood, buildings, extraneous debris, and other materials incident to mining;

1.13. The plugging of drill, core, or other exploratory holes as set forth in Rule R647-3-108;

1.14. The posting of appropriate warning signs in locations where public access to operations is readily available;

1.15. The construction of berms, fences and/or barriers above highwalls or other excavations when required by the Division.

2. Drainages - If natural channels have been affected by mining operations, then reclamation must be performed such that the channels will be left in a stable condition with respect to actual and reasonably expected water flow so as to avoid or minimize future damage to the hydrologic system.

3. Erosion Control - Reclamation shall be conducted in a manner such that sediment from disturbed areas is adequately controlled. The degree of erosion control shall be appropriate for the site-specific and regional conditions of topography, soil, drainage, water quality or other characteristics.

4. Deleterious Materials - All deleterious or potentially deleterious material shall be safely removed from the site or left in an isolated or neutralized condition such that adverse environmental effects are eliminated or controlled.

5. Land Use - The operator shall leave the on-site area in a condition which is capable of supporting the postmining land use.

6. Slopes - Waste piles, spoil piles and fills shall be regraded to a stable configuration and shall be sloped to minimize safety hazards and erosion while providing for successful revegetation.

7. Highwalls - In surface mining and in open cuts for pads or roadways, highwalls shall be reclaimed and stabilized by backfilling against them or by cutting the wall back to achieve a slope angle of 45 degrees or less.

8. Roads and Pads - On-site roads and pads shall be reclaimed when they are no longer needed for operations. When a road or pad is to be turned over to the property owner or managing agency for continuing use, the operator shall turn over the property with adequate surface drainage structures and in a condition suitable for continued use.

9. Dams and Impoundments - Water impounding structures shall be reclaimed so as to be self-draining and mechanically stable unless shown to have sound hydrologic design and to be beneficial to the postmining land use.

10. Trenches and Pits - Trenches and small pits shall be

reclaimed.

11. Structures and Equipment - Structures, rail lines, utility connections, equipment, and debris shall be buried or removed.

12. Topsoil Redistribution - After final grading, soil materials shall be redistributed on a stable surface, so as to minimize erosion, prevent undue compaction and promote revegetation.

13. Revegetation - The species seeded shall include adaptable perennial species that will grow on the site, provide basic soil and watershed protection, and support the postmining land use.

Revegetation shall be considered accomplished when:

13.11. The revegetation has achieved 70 percent of the premining vegetative ground cover. If the premining vegetative ground cover of the disturbed area is unknown, then the ground cover of an adjacent undisturbed area that is representative of the premining conditions will be used as a standard. Also, the vegetation has survived three growing seasons following the last seeding, fertilization or irrigation, unless such practices are to continue as part of the postmining land use; or

13.12. The Division determines that the revegetation work has been satisfactorily completed within practical limits.

14. Where reseeding has occurred and the vegetation has survived one growing season, the reseeded area shall not be included for purposes of determining whether a mining operation is a small mining operation.

R647-3-110. Variance.

1. The operator may request a variance from Rule R647-3-107, 108, or 109 by submitting the following information which shall be considered by the Division on a site-specific basis:

1.11. The rule(s) as to where a variance is requested;

1.12. The variance requested and a description of the area that would be affected by the variance;

1.13. Justification for the variance;

1.14. Alternate methods or measures to be utilized.

2. A variance shall be granted if the alternative method or measure proposed will be consistent with the Act.

3. Any variance must be specifically approved by the Division in writing.

R647-3-111. Surety.

1. After receiving notification that the notice of intention is complete, but prior to commencement of operations, the operator must post a reclamation surety with the Division.

1.11. Failure to furnish and maintain reclamation surety may, after notice and opportunity for Board hearing, result in a withdrawal of the notice of intention as provided for in Section 40-8-16.

2. The Division will not require a separate surety where a reclamation surety in a form and amount acceptable to the Division is held by other governmental entities, provided that the cost estimate is accurate and the Division is named as co-beneficiary. Cooperative Agreements may be developed and entered into according to Section 40-8-22.

3. As part of the review of the notice of intention, the Division shall determine the required surety amount based on:

3.11. Site-specific calculations or estimates by the Division reflecting the cost the Division or a third party would incur to reclaim the site;

3.12. Site-specific calculations or estimates by the operator reflecting the cost the Division or a third party would incur to reclaim the site, if accurate and verifiable by the Division; or

3.13. The average dollars per acre costs for reclamation of similar operations, as determined by the Division, based upon approved surety amounts for current large mining operations.

3.14. In determining or verifying the amount of surety under Section 3.11 or 3.12, the Division shall use cost data from current sureties for large mining operations, adjusted as

necessary to reflect the nature and scope of operations and reclamation under the notice of intention.

4. The operator shall submit a completed Reclamation Contract (FORM MR-RC) with the required surety. The form and amount of the surety must be approved by the Division, except as provided in subpart 4.16. Acceptable forms may include:

4.11. A corporate surety bond from a surety company that is licensed to do business in Utah, that is listed in "A.M. Best's Key Rating Guide" at a rating of A- or better or a Financial Performance Rating (FPR) of 8 or better, according to the "A.M. Best's Guide". All surety companies also will be continuously listed in the current issue of the U.S. Department of the Treasury Circular 570. Operators who do not have a surety bond with a company that meets the standards of subsection 4.11 will have 120 days from the date of Division notification after enactment of the changes to subsection 4.11 to achieve compliance or face enforcement action. When the Division in the course of examining surety bonds, notifies an operator that a surety company guaranteeing its performance does not meet the standards of subsection 4.11, the operator has 120 days after notice from the Division by mail to correct the deficiency, or face enforcement action;

4.12. Federally-insured certificate of deposit payable to the State of Utah, Division of Oil, Gas and Mining;

4.13. Cash;

4.14. An irrevocable letter of credit issued by a bank organized to do business in the United States;

4.15. Escrow accounts; and

4.16. The Board may approve a written self-bonding agreement in the case of operators showing sufficient financial strength.

5. Surety shall be required until such time as the Division deems reclamation complete. The Division will promptly conduct an inspection when notified by the operator that reclamation is complete. The full release of surety shall be evidence that the operator has reclaimed as required by the Act.

5.11. A partial release of surety can be made by the Division if it determines that a substantial phase or segment of reclamation such as demolition, backfilling, regrading, or vegetation establishment has been successfully performed and the residual amount of retained surety is determined adequate to insure completion.

6. The amount of reclamation surety may be adjusted:

6.11. As required by a revision in the Notice of Intention under R647-3-115;

6.12. As a result of a periodic review by the Division conducted no more frequently than at 3 year intervals unless agreed to by the operator, which shall take into account inflation/deflation based upon an acceptable Costs Index; or

6.13. At the request of the operator.

7. Notwithstanding any other provision of these rules, for operations where the surety is in the form of a Board-approved agreement under Section 40-8-14(3), the Board shall retain the sole authority over the release, partial release, revision or adjustment of the surety amount, if any, which shall be in accordance with the agreement and the Act.

R647-3-112. Failure to Reclaim.

If the operator of a small mining operation fails or refuses to conduct reclamation as required by the complete notice of intention, and fails or refuses to comply with R647-3-107, R647-3-108, or R647-3-109, the Board may, after notice and hearing, order that:

1. Reclamation be conducted by the Division; and

2. The costs and expenses of reclamation, together with costs of collection including attorney's fees, be recovered in a civil action brought by the attorney general against the operator in any appropriate court; and

3. Any surety filed for this purpose be forfeited. With respect to the surety filed with the Division, the Board shall request the Attorney General to take the necessary legal action to enforce and collect the amount of liability. Where reclamation surety has been filed with another governmental agency, the Board shall notify such agency of the hearing findings, and seek forfeiture concurrence as necessary.

3.11. The forfeited surety shall be used only for the reclamation of the land to which it relates, and any residual amount returned.

R647-3-113. Suspension or Termination of Operations.

1. All mine operations are required to be maintained in a safe, clean, and environmentally stable condition. Active and inactive operations must continue to submit annual reports unless waived in writing by the Division.

2. The operator need not notify the Division of the temporary suspension of small mining operations.

3. In the case of a termination or a suspension of mining operations that has exceeded, or is expected to exceed two (2) years, the operator shall, upon request, furnish the Division with such data as it may require to evaluate the status of the small mining operation, the status of compliance with these rules, and the probable future status of the land affected. Upon review of such data, the Division will take such action as may be appropriate. The Division may grant an extended suspension period if warranted.

4. The operator shall give the Division prompt written notice of a termination or suspension of small mining operations expected to exceed five (5) years. Upon receipt of notification the Division shall, within 30 days, make an inspection of the property.

5. Small mining operations that have been approved for an extended suspension period will be reevaluated on a regular basis. Additional interim reclamation or stabilization measures may be required in order for a small mining operation to remain in a continued state of suspension. Reclamation of a small mining operation may be required after five (5) years of continued suspension. The Division will require complete reclamation of the mine site when the suspension period exceeds 10 years, unless the operator appeals to the Board prior to the expiration of the 10-year period and shows good cause for a longer suspension period.

R647-3-114. Mine Enlargement.

Before enlarging a small mining operation beyond five (5) acres of surface disturbance, the operator must file a Notice of Intention to Commence Large Mining Operations (FORM MR-LMO) and receive Division approval.

R647-3-115. Revisions.

1. Small mining operators are required to submit a revision to the complete notice of intention when a significant change(s) in the small mining operation occurs. A revision can be made by submitting a revised FORM MR-SMO (or similar form) and indicating the portion(s) of the operation which is being revised.

2. Division approval of a revision of small mining operations is not required but the operational change may not be implemented until the Division determines that the revised NOI is complete.

3. In the event the Division or the operator determine at the time a revision is submitted that the amount of the current surety does not accurately reflect the potential cost to complete reclamation at any point in time during the revised small mining operations, the Division may undertake a recalculation of the surety amount as provided in R647-3-111.3. If the recalculated amount is greater than the amount of the existing surety, the revised operations may not be implemented until a revised surety is approved by the Division.

R647-3-116. Transfer of a Notice of Intention.

If an operator wishes to transfer a small mining operation to another party, an application form entitled, Transfer of Notice of Intention - Small Mining Operations (FORM MR-TRS) must be completed and filed with the Division. The new mine operator must post adequate reclamation surety and assume full responsibility for all disturbances of the permitted operation. The form and amount of surety must be approved by the Division for the transfer to be complete.

R647-3-117. Reports.

1. On or before January 31 of each year, unless waived in writing by the Division, each operator conducting small mining operations must file an operations and progress report (FORM MR-AR) describing its operations during the preceding calendar year, including:

1.11. The location of the operation and the number and date of the applicable Notice of Intention;

1.12. The gross amounts of ore and waste materials moved during the year, as well as the disposition of such materials;

1.13. New surface disturbances created during the year;

1.14. The reclamation work performed during the year.

2. The operator shall keep and maintain timely records relating to his performance under the Act and still make these records available to the Division upon request.

R647-3-118. Practices and Procedures; Appeals.

The Administrative Procedures, as outlined in the R647-5 Rules, shall be applicable to minerals regulatory proceedings.

R647-3-119. Confidential Information.

Information provided in the notice of intention relating to the location, size, and nature of the mineral deposit, and marked confidential by the operator, shall be protected as confidential information by the Board and the Division. The information will not be a matter of public record until a written release is received from the operator, or until the notice of intention is terminated.

KEY: minerals reclamation

February 23, 2006

Notice of Continuation July 8, 2003

40-8-1 et seq.

**R647. Natural Resources; Oil, Gas and Mining; Non-Coal.
R647-4. Large Mining Operations.**

R647-4-101. Filing Requirements and Review Procedures.

Prior to commencement of operations, a Notice of Intention to Commence Large Mining Operations (FORM MR-LMO) containing all the required information must be filed with and approved by the Division and the Division shall have approved the form and amount of reclamation surety.

1. Within 30 days after receipt of a Notice of Intention, or within 30 days after receipt of any subsequent submittal, the Division will complete its review and notify the operator in writing:

1.11. That the notice of intention is complete; or

1.12. That the notice of intention is incomplete, and that additional information as identified by the Division will be required.

2. Within 30 days after receipt of the notice of intention or within 30 days following the last action of the operator or Division on the notice of intention, the Division shall reach a tentative decision with respect to the approval or denial of the notice of intention.

Notice of the tentative decision will then be published in accordance with Rule R647-4-116.

3. Division approval of the notice of intention and execution of the Reclamation Contract (FORM MR-RC) by the operator shall bind the Division and the operator in accordance with the Act and implementing regulations; and, shall enable the operator to conduct mining and reclamation activities in accordance therewith.

4. The operator must notify the Division within 30 days of beginning mining operations.

5. A permittee's retention of an approved notice of intention shall require the paying of permit fees as authorized by the Utah Legislature. The procedures for paying the permit fees are as follows:

5.11. The Division shall notify the operators of record annually of the amount of permit fees authorized by the Utah Legislature for the following notices of intention.

5.11.11. Large Mining Operations (less than 50 acres) (fees calculated on the disturbed acreage permitted/bonded).

5.11.12. Large Mining Operations (greater than 50 acres) (fees calculated on the disturbed acreage permitted/bonded).

5.12. Fees are due beginning July 31, 1998 and thereafter annually, by the last Friday of July as authorized by the Utah Legislature.

5.13. A permittee may avoid payment of the fee by complying with the following requirements:

5.13.11. A permittee will notify the Division of a desire to close out a notice of intention by checking the appropriate box of the permit fees billing form.

5.13.12. The permittee will then arrange with the Division for an onsite inspection of the site to assure that all required reclamation has been performed. If an inspection reveals that an area is not yet suitably reclaimed, then a new billing notice will be issued and the permittee will be given 30 days from the date of the onsite inspection to pay the fee.

R647-4-102. Duration of the Notice of Intention.

The approved notice of intention, including any subsequently approved amendments or revisions, shall remain in effect for the life of the mine. However, the Division may review the permit and require updated information and modifications when warranted. Additionally, failure by the operator to pay permit fees required by R647-4-101(5) or maintain and update reclamation surety as required may, after notice and opportunity for Board hearing result in a withdrawal of the approved notice of intention.

R647-4-103. Notice of Intention to Commence Large Mining

Operations.

The notice of intention shall address the requirements of the following rules:

TABLE

RULE #	SUBJECT
R647-4-104	Operator(s), Surface and Mineral Owner(s)
R647-4-105	Maps, Drawings and Photographs
R647-4-106	Operation Plan
R647-4-108	Hole Plugging Requirements
R647-4-109	Impact Assessment
R647-4-110	Reclamation Plan
R647-4-112	Variance

R647-4-104. Operator(s), Surface and Mineral Owner(s).

1. The name, permanent mailing address, and telephone number of the operator responsible for the mining operations and reclamation of the site.

2. The name, permanent mailing address, and telephone number of the surface landowner(s) and mineral owner(s) of all land to be affected by the operations.

3. The federal mining claim number(s), lease number(s), or permit number(s) of any mining claims, or federal or state leases or permits included in the lands affected.

R647-4-105. Maps, Drawings and Photographs.

1. A topographic base map must be submitted with the notice of intention. The scale should be approximately 1 inch = 2,000 feet, preferably a USGS 7.5 minute series or equivalent topographic map where available. The following information shall be included on the map:

1.11. Property boundaries of surface ownership of all lands which are to be affected by the mining operations;

1.12. Perennial streams, springs and other bodies of water, roads, buildings, landing strips, electrical transmission lines, water wells, oil and gas pipelines, existing wells, boreholes, or other existing surface or subsurface facilities within 500 feet of the proposed mining operations;

1.13. Proposed route of access to the mining operations from nearest publicly maintained highway. The map scale will be appropriate to show access.

1.14. Known areas which have been previously impacted by mining or exploration activities within the proposed disturbed area.

2. A surface facilities map shall be provided at a scale of approximately 1" = 200' or other scale as determined necessary by the Division. The following information shall be included on the surface facilities map:

2.11. Proposed surface facilities, including but not limited to buildings, stationary mining/processing equipment, roads, utilities, power lines, proposed drainage control structures, and, the location of topsoil storage areas, tailings or processed waste facilities, disposal areas for overburden, solid and liquid wastes and wastewater discharge treatment and containment facilities;

2.12. A border clearly outlining the acreage proposed to be disturbed by mining operations.

3. The following maps, drawings or cross sections may be required by the Division:

3.11. Regraded Slopes to be left at steeper than 2h:1v;

3.12. Plans, profiles and cross sections of roads, pads or other earthen structures to be left as part of the postmining land use;

3.13. Water impounding structures with embankments greater than 20 feet in height from the upstream toe of the embankment or greater than 20 acre feet in storage capacity;

3.14. Maps identifying surface areas which will be disturbed by the operator but will not be reclaimed, such as solid rock slopes, cuts, roads, or sites of buildings or surface facilities to be left as part of the postmining land use;

3.15. Sediment ponds, diversion channels, culvert size and

locations, and other hydrologic designs and features to be incorporated into the mining and reclamation plan;

3.16. Baseline information maps and drawings including soils, vegetation, watershed(s), geologic formations and structure, contour and other such maps which may be required for determination of existing conditions, operations, reclamation and postmining land use;

3.17. A reclamation activities and treatment map to identify the location and the extent of the reclamation work to be accomplished by the operator upon cessation of mining operations. This drawing shall be utilized to determine adequate bonding and reclamation practices for the site;

3.18. Other maps, plans, or cross sections as may reasonably be required by the Division.

4. The operator may submit photographs (prints) of the site sufficient to show existing vegetation and surface conditions. These photographs should show the general appearance and condition of the land to be affected and should be clearly marked as to the location, orientation and the date that the pictures were taken.

5. Copies of the underground and surface mine development maps.

R647-4-106. Operation Plan.

The operator shall provide a narrative description referencing maps or drawings as necessary, of the proposed operations including:

1. Type of mineral(s) to be mined;
2. Type of operations to be conducted, including the mining/processing methods to be used on-site, and the identification of any deleterious or acid forming materials present or to be left on the site as a result of mining or mineral processing;
3. Estimated acreages proposed to be disturbed and/or reclaimed annually or sequentially;
4. A description of the nature of the materials to be mined or processed including waste/overburden materials and the estimated annual tonnages of ore and waste materials to be mined;
5. A description of existing soil types, including the location and extent of topsoil or suitable plant growth material. If no suitable soil material exists, an explanation of the conditions shall be given;
6. A description of the plan for protecting and redepositing existing soils;
7. A description of existing vegetative communities and cover levels, sufficient to establish revegetation success standards in accordance with Rule R647-4-111;
8. Depth to groundwater, extent of overburden material and geologic setting;
9. Proposed location and size of ore and waste stockpiles, tailings facilities and water storage/treatment ponds.
10. Information regarding the amount of material (including mineral deposit, topsoil, subsoil, overburden, waste rock, or core hole material) extracted, moved or proposed to be moved.

R647-4-107. Operation Practices.

During operations, the operator shall conform to the following practices unless the Division grants a variance in writing:

1. Public Safety and Welfare - The operator shall minimize hazards to the public safety and welfare during operations. Methods to minimize hazards shall include but not be limited to:
 - 1.11. The closing or guarding of shafts and tunnels to prevent unauthorized or accidental entry in accordance with MSHA regulations;
 - 1.12. The disposal of trash, scrap metal and wood, and extraneous debris;

1.13. The plugging or capping of drill, core, or other exploratory holes as set forth in Rule R647-4-108;

1.14. The posting of appropriate warning signs in locations where public access to operations is readily available;

1.15. The construction of berms, fences and/or barriers above highwalls or other excavations when required by the Division.

2. Drainages - If natural channels are to be affected by the mining operation, then the operator shall take appropriate measures to avoid or minimize environmental damage.

3. Erosion Control - Operations shall be conducted in a manner such that sediment from disturbed areas is adequately controlled. The degree of erosion control shall be appropriate for the site-specific and regional conditions of topography, soil, drainage, water quality or other characteristics.

4. Deleterious Materials - All deleterious or potentially deleterious material shall be safely removed from the site or kept in an isolated condition such that adverse environmental effects are eliminated or controlled.

5. Soils - Suitable soil material shall be removed and stored in a stable condition where practical so as to be available for reclamation.

6. Concurrent Reclamation - During operations, disturbed areas shall be reclaimed when no longer needed, except to the extent necessary to preserve evidence of mineralization for proof of discovery. Areas which have been disturbed but are not routinely or currently utilized shall be kept in a safe, environmentally stable condition.

R647-4-108. Hole Plugging Requirements.

Drill holes shall be properly plugged as soon as practical and shall not be left unplugged for more than 30 days without approval of the Division. The procedures outlined below are required for the surface and subsurface plugging of drill holes. The Division may approve an alternate plan, if the operator can prove to the satisfaction of the Division that another method will provide adequate protection to the groundwater resources and long term stability of the land. Dry holes and nonartesian holes which do not produce significant amounts of water may be temporarily plugged with a surface cap to permit the operator to re-enter the hole for the duration of operations.

1. Surface plugging of drill holes shall be accomplished by:

1.11. Setting a nonmetallic permaplug at a minimum of five (5) feet below the surface, or returning the cuttings to the hole and tamping the returned cuttings to within five (5) feet of ground level. The hole above the permaplug or tamped cuttings will be filled with a cement plug. If cemented casing is to be left in place, a concrete surface plug is not required provided that a permanent cap is secured on top of the casing.

1.12. If the area is tilled farmland, a five (5) foot cement plug must be placed above a permaplug or tamped cuttings so that the top of the cement plug is a minimum of three (3) feet below the ground surface. The hole above the cement plug is to be filled with soil. If cemented casing is to be left in place, a concrete surface plug is not required provided that a permanent cap is secured on top of the casing. The top of the casing and cap must be a minimum of three (3) feet below the ground surface.

2. Drill holes that encounter water, oil, gas or other potential migratory substances and are 2-1/2 inches or greater in surface diameter shall be plugged in the subsurface to prevent the migration of fluid from one strata to another. If water is encountered, plugging shall be accomplished as outlined below:

2.11. If artesian flow (i.e., water flowing to the surface from the hole) is encountered during or upon cessation of drilling, a cement plug shall be placed to prevent water from flowing between geologic formations and at the surface. The cement mix should consist of API Class A or H cement with

additives as needed. It should weigh at least 13.5 lbs./gal., and be placed under the supervision of a person qualified in proper drill hole cementing of artesian flow. Artesian bore holes must be plugged in the described manner, prior to removal of the drilling equipment from the well site. If the surface owner of the land affected desires to convert an artesian drill hole to a water well, he must notify the Division in writing that he accepts responsibility for the ultimate plugging of the drill hole.

2.12. Holes that encounter significant amounts of nonartesian water shall be plugged by:

2.12.111 Placing a 50 foot cement plug immediately above and below the aquifer(s); or

2.12.112 Filling from the bottom up (through the drill stem) with a high grade bentonite/water slurry mixture. The slurry shall have a Marsh funnel viscosity of at least 50 seconds per quart prior to the adding of any cuttings.

R647-4-109. Impact Assessment.

The operator shall provide a general narrative description identifying potential surface and/or subsurface impacts. This description will include, at a minimum:

1. Projected impacts to surface and groundwater systems;
2. Potential impacts to state and federal threatened and endangered species or their critical habitats;
3. Projected impacts of the mining operation on existing soil resources;
4. Projected impacts of mining operations on slope stability, erosion control, air quality, and public health and safety;
5. Actions which are proposed to mitigate any of the above referenced impacts.

R647-4-110. Reclamation Plan.

Each notice of intention shall include a reclamation plan, including maps or drawings as necessary, consisting of a narrative description of the proposed reclamation including, but not limited to:

1. A statement of the current land use and the proposed postmining land use for the disturbed area;
2. A description of the manner and the extent to which roads, highwalls, slopes, impoundments, drainages, pits and ponds, piles, shafts and adits, drill holes, and similar structures will be reclaimed;
3. A detailed description of any surface facilities to be left as part of the postmining land use, including but not limited to buildings, utilities, roads, pads, ponds, pits and surface equipment;
4. A description of the treatment, location and disposition of any deleterious or acid-forming materials generated and left on-site, including a map showing the location of such materials upon the completion of reclamation;
5. A planting program as best calculated to revegetate the disturbed area.
 - 5.11. Plans shall include, at a minimum, grading and/or stabilization procedures, topsoil replacement, seed bed preparation, seed mixture(s) and rate(s), and timing of seeding (fall seeding is preferred timing);
 - 5.12. Where there is no original protective cover, an alternate practical procedure must be proposed to minimize or control erosion or siltation.
6. A statement that the operator will conduct reclamation as required by these rules.

R647-4-111. Reclamation Practices.

During reclamation, the operator shall conform to the following practices unless the Division grants a variance in writing:

1. Public Safety and Welfare - The operator shall minimize hazards to the public safety and welfare following completion of

operations. Methods to minimize hazards shall include but not be limited to:

- 1.11. The permanent sealing of shafts and tunnels;
- 1.12. The disposal of trash, scrap metal and wood, buildings, extraneous debris, and other materials incident to mining;
- 1.13. The plugging of drill, core, or other exploratory holes as set forth in Rule R647-4-108;
- 1.14. The posting of appropriate warning signs in locations where public access to operations is readily available;
- 1.15. The construction of berms, fences and/or barriers above highwalls or other excavations when required by the Division.
 2. Drainages - If natural channels have been affected by mining operations, then reclamation must be performed such that the channels will be left in a stable condition with respect to actual and reasonably expected water flow so as to avoid or minimize future damage to the hydrologic system.
 3. Erosion Control - Reclamation shall be conducted in a manner such that sediment from disturbed areas is adequately controlled. The degree of erosion control shall be appropriate for the site-specific and regional conditions of topography, soil, drainage, water quality or other characteristics.
 4. Deleterious Materials - All deleterious or potentially deleterious material shall be safely removed from the site or left in an isolated or neutralized condition such that adverse environmental effects are eliminated or controlled.
 5. Land Use - The operator shall leave the on-site area in a condition which is capable of supporting the postmining land use.
 6. Slopes - Waste piles, spoil piles and fills shall be regraded to a stable configuration and shall be sloped to minimize safety hazards and erosion while providing for successful revegetation.
 7. Highwalls - In surface mining and in open cuts for pads or roadways, highwalls shall be reclaimed and stabilized by backfilling against them or by cutting the wall back to achieve a slope angle of 45 degrees or less.
 8. Roads and Pads - On-site roads and pads shall be reclaimed when they are no longer needed for operations. When a road or pad is to be turned over to the property owner or managing agency for continuing use, the operator shall turn over the property with adequate surface drainage structures and in a condition suitable for continued use.
 9. Dams and Impoundments - Water impounding structures shall be reclaimed so as to be self-draining and mechanically stable unless shown to have sound hydrologic design and to be beneficial to the postmining land use.
 10. Trenches and Pits - Trenches and small pits shall be reclaimed.
 11. Structures and Equipment - Structures, rail lines, utility connections, equipment, and debris shall be buried or removed.
 12. Topsoil Redistribution - After final grading, soil materials shall be redistributed on a stable surface, so as to minimize erosion, prevent undue compaction and promote revegetation.
 13. Revegetation - The species seeded shall include adaptable perennial species that will grow on the site, provide basic soil and watershed protection, and support the postmining land use.
 - Vegetation shall be considered accomplished when:
 - 13.11. The revegetation has achieved 70 percent of the premining vegetative ground cover. If the premining vegetative ground cover is unknown, the ground cover of an adjacent undisturbed area that is representative of the premining ground cover will be used as a standard. Also, the vegetation has survived three growing seasons following the last seeding, fertilization or irrigation, unless such practices are to continue

as part of the postmining land use; or

13.12. The Division determines that the revegetation work has been satisfactorily completed within practical limits.

R647-4-112. Variance.

1. The operator may request a variance from Rule R647-4-107, 108, or 111, by submitting the following information which will be considered by the Division on a site-specific basis:

1.11. The rule(s) as to which a variance is requested;

1.12. The variance requested and a description of the area that would be affected by the variance;

1.13. Justification for the variance;

1.14. Alternate methods or measures to be utilized.

2. A variance shall be granted if the alternative method or measure proposed will be consistent with the Act.

3. Any variance must be specifically approved by the Division in writing.

R647-4-113. Surety.

1. After receiving notification that the notice of intention has been approved, but prior to commencement of operations, the operator shall provide the reclamation surety to the Division. Failure to furnish and maintain reclamation surety may, after notice and opportunity for Board hearing, result in a withdrawal of the approved notice of intention as provided for in Section 40-8-16.

2. The Division will not require a separate surety when a reclamation surety in a form and amount acceptable to the Division is held by other governmental entities, provided that the cost estimate is accurate and the Division is named as co-beneficiary. Cooperative Agreements will be developed and entered into according to Section 40-8-22.

3. As part of the review of the notice of intention, the Division shall determine the final amount of surety required to reclaim the mine site. The surety amount will be based upon (a) the technical details of the approved mining and reclamation plan, (b) the proposed post mining land use, and (c) projected third party engineering and administrative costs to cover Division expenses incurred under a bond forfeiture circumstance. An operator's surety estimate will be accepted if it is accurate and verifiable. The Division may accept surety estimates based upon the Minerals Reclamation Program's average dollars per acre reclamation costs, if comparable to site specific cost estimates for similar operations.

4. The operator shall submit a completed Reclamation Contract (FORM MR-RC) with the required surety. The form and amount of the surety must be approved by the Division, except as provided in subpart 4.16. Acceptable forms may include:

4.11. A corporate surety bond from a surety company that is licensed to do business in Utah, that is listed in "A.M. Best's Key Rating Guide" at a rating of A- or better or a Financial Performance Rating (FPR) of 8 or better, according to the "A.M. Best's Guide". All surety companies also will be continuously listed in the current issue of the U.S. Department of the Treasury Circular 570. Operators who do not have a surety bond with a company that meets the standards of subsection 4.11 will have 120 days from the date of Division notification after enactment of the changes to subsection 4.11 to achieve compliance or face enforcement action. When the Division in the course of examining surety bonds, notifies an operator that a surety company guaranteeing its performance does not meet the standards of subsection 4.11., the operator has 120 days after notice from the Division by mail to correct the deficiency, or face enforcement action;

4.12. Federally-insured certificate of deposit payable to the State of Utah, Division of Oil, Gas and Mining;

4.13. Cash;

4.14. An irrevocable letter of credit issued by a bank

organized to do business in the United States;

4.15. Escrow accounts.

4.16. The Board may approve a written self-bonding agreement in the case of operators showing sufficient financial strength.

5. Surety shall be required until such time as reclamation is deemed complete by the Division. The Division shall promptly conduct an inspection when notified by the operator that reclamation is complete. The full release of surety shall be evidence that the operator has reclaimed as required by the Act.

5.11. A partial release of surety can be made by the Division if it determines that a substantial phase or segment of reclamation such as demolition, backfilling, regrading or vegetation establishment has been successfully performed and the residual amount of retained surety is determined adequate to insure completion of reclamation.

6. The amount of reclamation surety may be adjusted:

6.11. If required to address changes in the reclamation plan due to an amendment or revision to the Notice of Intention under R647-4-118 and R647-4-119;

6.12. As the result of a periodic review by the Division conducted no more frequently than at 5 year intervals unless agreed to by the operator; which shall take into account inflation/deflation based upon an acceptable Costs Index; or

6.13. At the request of the operator.

7. Notwithstanding any other provision of these rules, for operations where the surety is in the form of a Board-approved agreement under Section 40-8-14(3), the Board shall retain the sole authority over the release, partial release, revision or adjustment of the surety amount, if any, which shall be in accordance with the agreement and the Act.

R647-4-114. Failure to Reclaim.

If the operator fails or refuses to conduct reclamation as outlined in the approved notice of intention, the Board may, after notice and hearing, order that reclamation be conducted by the Division and that:

1. The costs and expenses of reclamation, together with costs of collection including attorney's fees, be recovered in a civil action brought by the attorney general against the operator in any appropriate court; or

2. Any surety filed for this purpose be forfeited. With respect to the surety filed with the Division, the Board shall request the Attorney General to take the necessary legal action to enforce and collect the amount of liability. Where surety or a bond has been filed with other governmental agencies, the Board shall notify such agency of the hearing findings, and seek forfeiture concurrence as necessary.

R647-4-115. Confidential Information.

Information provided in the notice of intention relating to the location, size, and nature of the mineral deposit, and marked confidential by the operator, shall be protected as confidential information by the Board and the Division. The information will not be a matter of public record until a written release is received from the operator, or until the notice of intention is terminated.

R647-4-116. Public Notice and Appeals.

1. Public notice will be deemed complete when the following actions have been taken:

(1.) A description of the disturbed area and the tentative decision to approve or disapprove the notice of intention shall be published by the Division in abbreviated form, one time only, in all newspapers of general circulation published in the county or counties where the land affected is situated, and in a daily newspaper of general circulation in Salt Lake City, Utah.

(2.) A copy of the abbreviated information and tentative decision shall also be mailed by the Division to the zoning

authority of the county or counties in which the land affected is situated and to the owner or owners of record of the land affected, as described in the notice of intention.

2. Any person or agency aggrieved by the tentative decision may file a written protest with the Division, during the public comment period identified in the notice, setting forth factual reasons for the complaint.

3. If no responsive written protests are received by the Division within 30 days after the last date of publication, the tentative decision of the Division on the notice of intention shall be final and the operator will be so notified.

4. If written objections of substance are received by the Division during the public comment period, a hearing shall be held before the Division in accordance with UCA 40-8-13, following which hearing the Division shall issue its decision.

R647-4-117. Notification of Suspension or Termination of Operations.

1. The operator need not notify the Division of the temporary suspension of mining operations.

2. In the case of a termination or a suspension of mining operations that has exceeded, or is expected to exceed two (2) years, the operator shall, upon request, furnish the Division with such data as it may require to evaluate the status of the mining operation, the status of compliance with these rules, and the probable future status of the land affected. Upon review of such data, the Division will take such action as may be appropriate. The Division may grant an extended suspension period if warranted by a showing of good cause by the operator.

3. The operator shall give the Division prompt written notice of a termination or suspension of large mining operations expected to exceed five (5) years. Upon receipt of notification, the Division shall, within 30 days, make an inspection of the property.

4. Large mining operations that have been approved for an extended suspension period will be reevaluated on a regular basis. Additional interim reclamation or stabilization measures may be required in order for a large mining operation to remain in a continued state of suspension. Reclamation of a large mining operation may be required after five (5) years of continued suspension. The Division will require complete reclamation of the mine site when the suspension period exceeds 10 years, unless the operator appeals to the Board prior to the expiration of the 10-year period and shows good cause for a longer suspension period.

R647-4-118. Revisions.

1. In order to revise a notice of intention, an operator shall file a Notice of Intention to Revise Large Mining Operations (FORM MR-REV). This notice of intention will include all information concerning the revision that would have been required in the original notice of intention.

2. A Notice of Intention to Revise Large Mining Operations (FORM MR-REV) will be processed and considered for approval by the Division in the same manner as an original notice of intention. The operator will be authorized and bound by the requirements of the existing approved notice until the revision is acted upon and any revised surety requirements are satisfied. Those portions of the approved notice of intention not subject to the revision will not be subject to review under this provision.

3. Large mining operations which have a disturbed area of five (5) acres or less may refile as a small mining operation. Reclaimed areas must meet full bond release requirements before they can be excluded from the disturbed acreage.

R647-4-119. Amendments.

1. An amendment is an insignificant change to the approved notice of intention. The Division will review the

change and make the determination of significance on a case-by-case basis.

2. A request for an amendment should be filed on the Notice of Intention to Revise Large Mining Operations (FORM MR-REV). An amendment of a large mining operation requires Division approval but does not require public notice.

R647-4-120. Transfer of Notice of Intention.

If an operator wishes to transfer a mining operation to another party, an application for Transfer of Notice of Intention - Large Mining Operations (FORM MR-TRL), must be completed and filed with the Division. The new mine operator will be required to post a new reclamation surety and must assume full responsibility for continued mining operations and reclamation.

R647-4-121. Reports.

1. On or before January 31 of each year, unless waived in writing by the Division, each operator conducting large mining operations must file an Annual Report of Mining Operations (FORM MR-AR) describing its operations during the preceding calendar year. Form MR-AR, includes:

1.11. The location of the operation and file number of the approved notice of intention;

1.12. The gross amounts of ore and waste materials moved during the year, as well as the disposition of such materials;

1.13. The reclamation work performed during the year and new surface disturbances created during the year.

2. The operator shall include an updated map depicting surface disturbance and reclamation performed during the year, prepared in accordance with Rule R647-4-105.

3. The operator shall keep and maintain timely records relating to his performance under the Act, and shall make these records available to the Division upon request.

R647-4-122. Practices and Procedures; Appeals.

The Administrative Procedures, as outlined in the R647-5 Rules, shall be applicable to minerals regulatory proceedings.

KEY: minerals reclamation

February 23, 2006

Notice of Continuation July 8, 2003

40-8-1 et seq.

**R647. Natural Resources; Oil, Gas and Mining; Non-Coal.
R647-5. Administrative Procedures.**

R647-5-101. Formal and Informal Proceeding.

1. Adjudicative proceedings which shall commence formally before the Board in accordance with the "Rules of Practice and Procedure Before the Board of Oil, Gas and Mining", the R641 rules, include the following: R647-2-112, Failure to Reclaim, Forfeiture of Surety; R647-3-112, Failure to Reclaim, Forfeiture of Surety; R647-3-113.5, Over 10-Year Suspension; R647-4-114, Failure to Reclaim, Forfeiture of Surety; R647-4-117.4, Over 10-Year Suspension.

2. Adjudicative proceedings which shall commence informally before the Division in accordance with this Rule R647-5 include the following: R647-2-101, Notice of Intent to Commence Mining Operations; R647-2-102, Extension; R647-2-107, Operation Practices; R647-2-108, Unplugged Over 30 Days/Alternative Plan; R647-2-109, Reclamation Practices Variance; R647-2-109.13, Revegetation Approval; R647-2-110, Variance, Revocation or Adjustment of Variance; R647-2-111, Release of Surety; R647-2-114, New or Revised Notice of Intention; R647-3-101, Notice of Intention to Commence Small Mining Operations; R647-3-107, Operation Practices; R647-3-108, Unplugged over 30 Days/Alternate Plan; R647-3-109, Reclamation Practices Variance; R647-3-109.13, Revegetation Approval; R647-3-110, Variance, Revocation, or Adjustment of Variance; R647-3-111, Release of Surety; R647-3-113.1, Waiver, Annual Report; R647-3-113.3 and R647-3-113.4, Termination or Suspension; R647-3-113.5, Reevaluations, Reclamation; R647-3-114, Mine Enlargement; R647-3-115, Revisions; R647-3-117, Report Waiver; R647-4-101, Notice of Intention to Commence Large Mining Operation; R647-4-102, Updated Information or Modifications; R647-4-107, Operation Practices; R647-4-108, Unplugged over 30 Days/Alternate Plan; R647-4-111, Reclamation Practice, Variance; R647-4-111.13, Revegetation Approval; R647-4-112, Variances, Revocation or Adjustment; R647-4-113, Release of Surety; R647-4-117.3 and R647-4-117.4, Termination or Suspension; R647-4-118, Revisions; R647-4-119, Amendments; R647-4-121, Annual Report, Waiver.

3. Adjudicative proceedings which shall commence before the Board but follow the procedures for the informal process in this Rule R647-5 include the following:

R647-2-111, Surety, Form and Amount; R647-3-111, Surety, Form and Amount; and R647-4-113, Surety, Form and Amount.

R647-5-102. Informal Process.

Adjudicative proceedings declared by these rules hereinabove to commence in the informal phase shall be processed according to Rule R647-5 et seq. below. All other requirements of the Mineral Rules shall apply when they supplement these rules governing the informal phase and when not in conflict with any of the rules of R647-5. Notwithstanding this, any longer time periods provided for in the Mineral Rules shall apply.

R647-5-103. Definitions.

Definitions as used in these rules may be found under R647-1-106.

R647-5-104. Commencement of Adjudicative Proceedings.

1. Except for emergency orders described further in these rules, all adjudicative proceedings that commence in the informal phase shall be commenced by either:

1.11. A Notice of Agency Action, if proceedings are commenced by the Board or Division; or

1.12. A Request for Agency Action, if proceedings are commenced by persons other than the Board or Division.

2. A Notice of Agency Action shall be filed and served

according to the following requirements:

2.11. The Notice of Agency Action shall be in writing and shall be signed on behalf of the Board if the proceedings are commenced by the Board, or by or on behalf of the Division Director if the proceedings are commenced by the Division. A Notice shall include:

2.11.111 The names and mailing addresses of all persons to whom notice is being given by the Board or Division, and the name, title, and mailing address of any attorney or employee who has been designated to appear for the Board or Division;

2.11.112 The Division's file number or other reference number;

2.11.113 The name of the adjudicative proceeding;

2.11.114 The date that the Notice of Agency Action was mailed;

2.11.115 A statement that the adjudicative proceeding is to be conducted informally according to the provisions of these Rules and Sections 63-46b-4 and 63-46b-5 of the Utah Code Annotated (1953, as amended), if applicable;

2.11.116 A statement that the parties may request an informal hearing before the Division within ten (10) days of the date of mailing or publication and that failure to make such a request for hearing may preclude that party from any further participation, appeal or judicial review in regard to the subject adjudicative proceeding;

2.11.117 A statement of the legal authority and jurisdiction under which the adjudicative proceeding is to be maintained;

2.11.118 The name, title, mailing address, and telephone number of the Division Director; and

2.11.119 A statement of the purpose of the adjudicative proceeding and, to the extent known by the Division Director, the questions to be decided.

2.12. Unless waived, the Division shall:

2.12.111 Mail the Notice of Agency Action to each party and any other person who has a right to notice under statute or rule; and

2.12.112 Publish the Notice of Agency Action if required by statute or by the Mineral Rules.

2.13. All the listed adjudicative processes that commence informally may be petitioned for by a person other than the Division or Board. That person's Request for Agency Action shall be in writing and signed by the person invoking the jurisdiction of the Division or by his or her attorney, and shall include:

2.13.111 The names and addresses of all persons to whom a copy of the Request for Agency Action is being sent;

2.13.112 A space for the Division's file number or other reference number;

2.13.113 Certificate of mailing of the Request for Agency Action;

2.13.114 A statement of the legal authority and jurisdiction under which Division action is requested;

2.13.115 A statement of the relief or action sought from the Division; and

2.13.116 A statement of the facts and reasons forming the basis for relief or action.

2.14. The person requesting the Division action shall use the forms of the Division with the additional information required by Rule R647-5-104.2.13 above. The Division is hereby authorized to codify said forms in conformance with this rule. Said forms shall be deemed a Request for Agency Action. The person requesting agency action shall file the request with the Division and shall, unless waived, send a copy by mail to each person known to have a direct interest in the requested agency action.

2.15. In the case of a Request for Agency Action, the Division shall, unless waived, ensure that notice by mail has been promptly given to all parties, or by publication when

required by statute or the Mineral Rules. The written notice shall:

2.15.111 Give the Division's file number or other reference number;

2.15.112 Give the name of the proceeding;

2.15.113 Designate that the proceeding is to be conducted informally according to the provisions of these Rules and Section 63-46b-4 and 63-46b-5 of Utah Code Annotated (1953, as amended), if applicable;

2.15.114 A statement that the parties may request an informal hearing before the Division within ten (10) days of the date of mailing or publication and that failure to make such a request may preclude that party from any further participation, appeal or judicial review in regard to the subject adjudicative proceeding;

2.15.115 Give the name, title, mailing address, and telephone number of the Division Director; and

2.15.116 If the purpose of the adjudicative proceeding is to award a license or other privilege as to which there are multiple competing applicants, the Division may, by rule or order, conduct a single adjudicative proceeding to determine the award of that license or privilege.

R647-5-105. Conversion of Informal to Formal Phase.

1. Any time before a final order is issued in any adjudicative proceeding before the Division, the Division Director may convert an informal adjudicative proceeding to a formal adjudicative proceeding if:

1.11. Conversion of the proceeding is in the public interest; and

1.12. Conversion of the proceeding does not unfairly prejudice the rights of any party.

2. An adjudicative proceeding which commences informally shall also be processed formally if an appeal to the Board is filed under the rules hereinbelow. Such an appeal changes the character of the adjudicative process to a contested case which requires a formal hearing process before the Board or its designated Hearing Examiner to best protect the interests of the public as well as the parties involved.

R647-5-106. Procedures for Informal Phase.

1. A Request for Agency Action or Notice of Agency Action shall be the method of commencement of an adjudicative process as previously discussed in these rules.

2. The mailing requirements of Rule R647-5-104.2.12.111 and R647-5-104.2.14, whichever is applicable, shall be met.

3. The Notice of Agency Action shall be published in a newspaper of general circulation likely to give notice to interested persons when required by statute or by these Mineral Rules.

4. All notices required herein shall indicate the date of publication or mailing and specify that any affected person may file with the Division within ten (10) days of said date, a written objection and request for informal hearing before the Division and that failure to make such a request may preclude that person from further participation, appeal or judicial review in regard to the subject adjudicative proceeding. Said ten (10) day period shall be waived if the Division receives a waiver signed by those entitled to notice under these rules.

5. In any hearing, the parties named in the Notice of Agency Action or in the Request for Agency action shall be permitted to testify, present evidence, and comment on the issues.

6. Hearings will be held only after timely notice to all parties.

7. Discovery is prohibited, but the Division Director may issue subpoenas or other orders to compel production of necessary evidence.

8. All parties shall have access to information contained in

the Division's files and to all materials and information gathered in by investigation, or to the extent permitted by law.

9. Intervention is prohibited, except where required by federal statute or rule.

10. All hearings shall be open to all parties.

11. Within a reasonable time after the close of the hearing, or after the parties' failure to request a hearing within said ten (10) day period, the Division Director shall issue a written, signed order that states the following:

11.11 The decision;

11.12 The reasons for the decision;

11.13 A notice of the right to appeal to the Board;

11.14 The time limits for filing an appeal.

12. The Division Director's order shall be based on the facts appearing in the Division's files and on the facts presented in evidence at any hearings.

13. Unless waived by the intended recipient of the order, a copy of the Division Director's order shall be promptly mailed to each of the parties.

14. The Division may record any hearing. Any party, at his or her own expense, may have a reporter approved by the Division prepare a transcript from the Division's record of the hearing.

15. Nothing in this section restricts or precludes any investigative right or power given to the Division by another statute.

16. Default. The Division Director may enter an order of default against a party if the party fails to participate in the adjudicative proceeding. The order of default shall include a statement of the grounds for default and shall be mailed to all parties. A defaulted party may seek to have the Division Director set aside the default order and any order in the adjudicative proceeding issued subsequent to the default order, by following the procedures outlined in the Utah Rules of Civil Procedure. After issuing the order of default, the Division shall conduct any further proceedings necessary to complete the adjudicative proceeding without the participation of the party in default and shall determine all issues in the adjudicative proceeding, including those affecting the defaulting party. Notwithstanding this, in an adjudicative proceeding that has no parties other than the Division and the party in default, the Division Director shall, after issuing the order of default, dismiss the proceeding.

17. Appeal of Division Order. Any aggrieved party that participated at a hearing before the Division or an applicant who is aggrieved by a denial or approval with conditions, may file a written appeal to the Board within ten (10) days of the issuance of the order. The written appeal shall be in the form of a Request for Agency Action for a formal hearing before the Board or its designated Hearing Examiner in conformance with the Rules of Practice and Procedure before the Board of Oil, Gas and Mining, and shall also state the grounds for the appeal and the relief requested.

18. Emergency Orders. Notwithstanding the other provisions of these rules, the Division Director or any member of the Board is authorized to issue an emergency order without notice and hearing in accordance with Section 40-8-6. The emergency order shall remain in effect no longer than until the next regular meeting of the Board, or such shorter period of time as shall be prescribed by statute.

18.11. Prerequisites for Emergency Order. The following must exist to allow an emergency order:

18.11.111 The facts known to the Division Director or Board member or presented to the Division Director or Board member show that an immediate and significant danger of waste or other danger to the public health, safety, or welfare exists; and

18.11.112 The threat requires immediate action by the Division Director or Board member.

18.12. Limitations. In issuing its Emergency Order, the Division Director or Board member shall:

18.12.111 Limit its order to require only the action necessary to prevent or avoid the danger to the public health, safety, or welfare;

18.12.112 Issue promptly a written order, effective immediately, that includes a brief statement of findings of fact, conclusions of law, and reasons for the Division Director's or Board member's utilization of emergency adjudicative proceedings;

18.12.113 Give immediate notice to the persons who are required to comply with the order;

18.12.114 If the emergency order issued under this section will result in the continued infringement or impairment of any legal right or interest of any party, the Division shall commence a formal adjudicative proceeding before the Board of Oil, Gas and Mining.

R647-5-107. Exhaustion of Administrative Remedies.

1. Persons must exhaust their administrative remedies in accordance with Section 63-46b-14, Utah Code Annotated (1953, as amended), prior to seeking judicial review.

2. In any informal proceeding before the Division, there is an opportunity given to request an informal hearing before the Division. If a timely request is made, the Division will conduct an informal hearing and issue a decision thereafter. Only those aggrieved parties that participated in any hearing or an applicant who is aggrieved by a denial or an approval with conditions will then be entitled to appeal such Division decision to the Board within ten (10) days of issuance of the Division order. Such appeal shall be treated as a contested case which is processed as a formal proceeding under the Rules of Practice and Procedure before the Board of Oil, Gas and Mining. Such rights to request an informal hearing before the Division or to appeal the Division order and have the matter be contested and processed formally are available and adequate administrative remedies and should be exercised prior to seeking judicial review.

R647-5-108. Waivers.

Notwithstanding any other provision of these rules, any procedural matter, including any right to notice or hearing, may be waived by the affected person(s) by a signed, written waiver in a form acceptable to the Division.

R647-5-109. Severability.

In the event that any provision, section, subsection or phrase of these rules is determined by a court or body of competent jurisdiction to be invalid, unconstitutional, or unenforceable, other remaining provisions, sections, subsections or phrases shall remain in full force and effect.

R647-5-110. Construction.

The Utah Administrative Procedures Act described in Title 63, Chapter 46b of the Utah Code Annotated (1953, as amended) shall supersede any conflicting provision of these rules. These rules should be construed to be in compliance with said Act.

R647-5-111. Time Periods.

Nothing in these rules may be interpreted to restrict the Division Director, for good cause shown, from lengthening or shortening any time period prescribed herein.

KEY: minerals reclamation

February 23, 2006

Notice of Continuation July 8, 2003

40-8-1 et seq.

R651. Natural Resources, Parks and Recreation.**R651-206. Carrying Passengers for Hire.****R651-206-1. Vessel Operator Permit.**

(1) As used in this rule: "Operator Permit" means a valid Utah Vessel Operator Permit issued by the division or a valid Coast Guard Motorboat Operator License. The operator permit must be accompanied by a current and original First Aid Card or certificate and a current and original CPR card or certificate.

(a) The first aid card or certificate must be issued for an American Red Cross "Standard" or "Basic" first aid course or an equivalent course from a reputable provider.

(b) The CPR card or certificate must be issued for an American Red Cross, American Heart Association, American Safety and Health Institute, National Safety Council CPR course, or an equivalent course from a reputable provider who teaches in accordance with the Guidelines 2000 for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care.

(c) First aid and CPR cards or certificates must include the following information: name or title of the course; course provider and contact information; length of certification; name and signature of person certified; and signature of the course instructor.

(2) No person shall operate a vessel engaged in carrying passengers for hire on any lake or reservoir of this state unless the individual has in his possession an Operator Permit or is operating under Section R651-206-2.

(3) To obtain a Utah Vessel Operator Permit, the applicant must be at least 18 years old, complete the prescribed form, possess the required first aid and CPR certification, successfully complete a written examination, pay a \$60 fee, and have 80 hours of experience in vessel operation, 20 hours of which was obtained operating an equivalent type and size of vessel which will be used for carriage of passengers. If the applicant fails to pass the written examination, there is a 7-day waiting period and a \$15 retest fee per attempt.

(4) A Utah Vessel Operator Permit is valid for three years from date of issue, unless suspended or revoked.

(5) A Utah Vessel Operator Permit may be renewed up to six months prior to expiration, upon completion of the prescribed form, presentation of required first aid and CPR certification, and payment of a \$45 fee. The renewed permit shall have the same month and day expiration date as the original permit.

(6) A Utah Vessel Operator Permit which has expired shall not be renewed but is required to obtain a new permit as outlined above.

(7) In the event a Utah Vessel Operator Permit is lost or stolen, a duplicate permit may be issued with the same expiration date as the original permit upon completion of the prescribed form, payment of a \$25 fee. An application for a duplicate permit must have original signatures and be accompanied by original documentation of required first aid and CPR certification.

(8) Current Utah Vessel Operator Permit holders shall notify the Division, within 30 days, of any change of address.

(9) A Utah Vessel Operator Permit may be suspended or revoked for a length of time determined by the division director, or individual designated by the division director, if one of the following occurs:

(a) the permit holder is convicted of boating under the influence of alcohol or any drug, or refuses to submit to any chemical test which determines blood or breath alcohol content;

(b) the permit holder's negligence causes personal injury or death as determined by due process of the law;

(c) the permit holder is convicted of three violations of Title 73 Chapter 18 or rules promulgated thereunder during a three-year period; or

(d) the division determines that the permit holder

intentionally provided false or fictitious statements or qualifications to obtain the permit.

(10) A person shall not operate an unfamiliar vessel carrying passengers for hire or operate on unfamiliar water unless there is an operator permit holder aboard who is familiar with the vessel and the water area.

(11) A valid Coast Guard Motorboat Operator License must be possessed if engaging in carrying passengers for hire on Bear Lake, Flaming Gorge, or Lake Powell, or a Vessel Operator Permit if leading persons for hire.

R651-206-2. River Guide Permit.

(1) As used in this rule: "Guide Permit" means a valid Guide 1, 2, 3 or 4 permit issued by the division for carrying or leading passengers for hire. The Guide Permit must be accompanied by a current and appropriate level first aid card or certificate and a current CPR card or certificate. A photocopy of both sides of the first aid and CPR cards or certificates is allowed for river guides when boating on rivers.

(a) "Agent" means a person(s) designated by an outfitting company to act in behalf of that company in certifying a river guide's experience.

(b) "Certifying experience" means river running experience obtained within ten years of the date of application for the guide permit.

(c) "Guide 1" means a nonrestrictive river guide permit.

(d) "Guide 2" means a restricted river guide permit, which is valid only on other rivers.

(e) "Guide 3" means an apprentice river guide permit, which is valid only when the holder is accompanied on the whitewater river by a qualified Guide 1 permit holder. A Guide 3 permit is also valid on other rivers, but must be accompanied by either a Guide 1 or 2 permit holder.

(f) "Guide 4" means a restricted apprentice river guide permit, which is valid only on other rivers when the holder is accompanied on the trip by a qualified Guide 1 or 2 permit holder.

(g) First Aid and CPR Course Requirements for Guide Permits:

(i) For Guide 1 and 2 Permits, the first aid card or certificate must be issued for an American Red Cross "Emergency Response" course or an equivalent course from a reputable provider who teaches in accordance with the USDOT First Responder Guidelines or the Wilderness Medical Society Guidelines for Wilderness First Responder.

(ii) For Guide 3 and 4 Permits, the first aid card or certificate must be issued for an American Red Cross "Standard" or "Basic" first aid course, or an equivalent course from a reputable provider.

(iii) The CPR card or certificate must be issued for an American Red Cross, American Heart Association, American Safety and Health Institute, National Safety Council CPR course, or an equivalent course from a reputable provider who teaches in accordance with the Guidelines 2000 for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care.

(iv) First aid and CPR cards or certificates must include the following information: name or title of the course; course provider and contact information; length of certification; name and signature of the person certified; and signature of the course instructor.

(h) "Low capacity vessel" means a vessel with a carrying capacity of three or fewer occupants (e.g. canoe, kayak, inflatable kayak or similar vessel).

(i) "Other rivers" means all rivers, river sections, or both in Utah not defined in Subsection R651-202-2(1) as a whitewater river.

(j) "Whitewater river" means the following river sections: the Green and Yampa rivers within Dinosaur National

Monument, the Green River in Desolation-Gray Canyon (Mile 96 to Mile 20), the Colorado River in Westwater Canyon, the Colorado River in Cataract Canyon, or other division recognized whitewater rivers in other states.

(2) No person shall operate a vessel engaged in carrying passengers for hire on any river of this state unless that person has in his possession the appropriate valid river guide permit. For low capacity vessels not operated by but led by a guide permit holder, there shall be at least one qualified guide permit holder for every four low capacity vessels being led in the group.

(3) To qualify for a Guide 1 permit, the applicant must be at least 18 years of age, complete the prescribed form, be current in the required first aid and CPR certification, successfully complete a written examination, pay a \$30 fee and have operated a vessel on at least nine whitewater river sections. If the applicant fails to pass the written examination, there is a 7-day waiting period and a \$15 retest fee per attempt.

(4) To qualify for a Guide 2 permit, the applicant must be at least 18 years of age, complete the prescribed form, be current in the required first aid and CPR certification, successfully complete a written examination, pay a \$30 fee and have operated a vessel on at least six river sections. If the applicant fails to pass the written examination, there is a 7-day waiting period and a \$15 retest fee per attempt.

(5) To qualify for a Guide 3 permit, the applicant must be at least 18 years of age, complete the prescribed form, be current in the required first aid and CPR certification, pay a \$20 fee and have operated a vessel on at least three whitewater river sections.

(6) To qualify for a Guide 4 permit, the applicant must be at least 18 years of age, complete the prescribed form, be current in the required first aid and CPR certification, pay a \$20 fee and have operated a vessel on at least three river sections.

(7) Any person applying for a duplicate, renewal, or a new guide permit shall be employed by or be a prospective employee of an outfitting company currently registered with the division. The applicant shall be sponsored by that outfitting company, or be currently employed and sponsored by a federal, state or county agency. Permit applications must have original signatures and be accompanied by original documentation of required first aid and CPR certification.

(8) Guide 3 and 4 permits shall expire annually on December 31. Guide 1 and 2 permits shall expire three years from date of issuance.

(9) Guide 1 or 2 permits may be renewed up to six months prior to expiration upon completion of the prescribed form, presentation of current guide permit, required first aid and CPR certification, and payment of a \$30 fee. The renewed permit shall have the same month and day expiration date as the original permit. Any Guide 1 or 2 permit holder whose permit has expired shall be required to obtain a new Guide 1 or 2 permit as outlined above.

(10) In the event a guide permit is lost or stolen a duplicate guide permit may be issued with the same expiration date as the original permit upon completion of the prescribed form, furnishing the required information as described in (7) above and payment of the required fee. The fee shall be \$15 for a Guide 1 or 2 permit, and \$15 for a Guide 3 or 4 permit.

(11) All boatman permits issued by the division are expired.

(12) Current Guide Permit holders shall notify the Division, within 30 days, of any change of address.

(13) A guide permit holder shall not carry passengers for hire on his first trip on an unfamiliar river unless there is a qualified Guide 1 or 2 permit holder aboard who has operated a similar vessel on that river segment.

(14) A guide permit may be suspended or revoked for a length of time determined by the division director, or individual

designated by the division director, if one of the following occurs:

(a) the guide permit holder is convicted of boating under the influence of alcohol or any drug, or refuses to submit to any chemical test which determines blood or breath alcohol content;

(b) the guide permit holder's negligence causes personal injury or death as determined by due process of the law;

(c) the guide permit holder is convicted of three violations of Title 73 Chapter 18 or rules promulgated thereunder during a three-year period;

(d) the division determines that the guide permit holder intentionally provided false or fictitious statements or qualifications to obtain the guide permit; or

(e) a guide permit holder has utilized a private river trip permit for carrying passengers for hire and has been prosecuted by the issuing agency and found guilty of the violation.

(15) Every outfitting company carrying passengers for hire on any river of this state shall register with the division annually prior to commencement of operation. The registration requires the completion of the prescribed form and providing the following: evidence of registration with the Department of Commerce, evidence of river trip authorization from the appropriate controlling state or federal agency, and payment of a \$200 fee.

(16) The agent shall certify and guarantee that each river guide sponsored by the outfitting company that he represents has obtained the necessary experience, as required above, depending on the type of guide permit applied for.

(17) An outfitting company's division registration may be suspended or revoked for a length of time determined by the division director, or individual designated by the division director, if one of the following occurs:

(a) the outfitting company's or agent's negligence caused personal injury or death as determined by due process of the law;

(b) the outfitting company or agent is convicted of three violations of Title 73 Chapter 18 or rules promulgated thereunder during a calendar year period;

(c) false or fictitious statements were certified or false qualifications were used to qualify a person to obtain a guide permit for an employee or others;

(d) the division determines that the outfitting company intentionally provided false or fictitious statements or qualifications when registering with the division;

(e) an outfitting company has utilized a private river trip permit for carrying passengers for hire and have been prosecuted by the issuing agency and found guilty of the violation; or

(f) the outfitting company used a guide without a valid guide permit or without the appropriate guide permit while engaging in carrying passengers for hire.

Notice of Continuation February 13, 2006

73-18-4(4)

R651. Natural Resources, Parks and Recreation.**R651-215. Personal Flotation Devices.****R651-215-1. Definitions.**

- (1) "PFD" means personal flotation device.
- (2) "Vessel length" is the measurement of the permanent part of the hull, from bow to stern, across the deck down the centerline, excluding sheer.
- (3) "Wear" means to have the PFD properly worn with all fasteners connected.
- (4) "Whitewater canoe" means a one or two person capacity hard hulled canoe designed for white water activities and is equipped with: floatation (e.g., factory end chambers or float bags) and thigh straps or retention devices to hold the operator(s) in the vessel if it rolls.

R651-215-2. PFD Requirements for Vessels Less than 16 Feet in Length.

No person shall operate or give permission for the operation of a vessel less than 16 feet in length unless there is at least one Type I, II, or III PFD for each person on board.

R651-215-3. PFD Requirements for Vessels 16 Feet or More in Length.

No person shall operate or give permission for the operation of a vessel 16 feet or more in length unless there is at least one Type I, II, or III PFD for each person on board. In addition to the total number of PFD's, there shall also be one Type IV PFD on board.

R651-215-4. Types of Personal Flotation Devices.

Type I - Off-shore Life Jacket - provides the most buoyancy of any type of PFD. Designed to turn the most unconscious wearers to a face-up position in the water. Effective for all waters, especially open, rough or remote waters where rescue may be delayed. Acceptable for use on all vessels.

Type II - Near Shore Buoyancy Vest - is designed to turn some unconscious wearers to a face-up position in the water. Intended for calm, inland waters where there is a good chance of quick rescue.

Type III - Flotation Aid - Good for conscious users in calm, inland waters where there is good chance of quick rescue. Designed so conscious wearers can place themselves in a face up position in the water. The wearer may have to tilt their head back to avoid turning face-down in the water.

Type IV - Throwable Device - Designed to be thrown to a person in the water and grasped and held by the user until rescued. Not designed to be worn.

Type V - Special Use Device - Intended for specific activities and may be carried instead of another PFD if used according to the approval conditions on its label.

R651-215-5. Immediately Available and Readily Accessible.

Type IV PFDs shall be immediately available; all other types of PFD shall be readily accessible, unless wearing is required.

R651-215-6. Type V PFD Carried in Lieu.

A Type V PFD may be carried or worn in lieu of another required PFD, but only if it is used according to the approval conditions on its label.

R651-215-7. Whitewater River PFD Requirements.

On whitewater rivers, as defined in Subsection R651-206-2 (1), Type I or Type III PFDs, are required and shall be used according to the approval conditions on their labels.

R651-215-8. Carrying Passengers for Hire PFD Requirements on Rivers.

- (1) On rivers, if carrying passengers for hire, Type I PFDs

are required. Type I PFDs or Type V PFDs used in lieu of the Type I PFD must be listed for commercial use on the label.

- (2) The required Type IV PFD shall be a ring life buoy on vessels 26 feet or more in length.

- (3) Hard hulled kayak or white water canoe operators or a working river guide may wear a Type III PFD in lieu of the Type I PFD.

R651-215-9. River Throw Bag in Lieu of Type IV PFD.

On rivers, in lieu of the Type IV PFD requirement, a throw bag with a minimum of 40 feet of line may be carried.

R651-215-10. Carrying Passengers for Hire PFD Requirements on Lakes and Reservoirs.

- (1) When carrying passengers for hire, Type I PFDs are required. Type I PFDs, or Type V PFDs used in lieu of the Type I PFD, must be listed for commercial use on the label.

- (2) The required Type IV PFD shall be a ring life buoy on vessels 26 feet or more in length.

- (3) For all hard-hulled kayak or sea-kayak operators, a Type III PFD may be carried or worn in lieu of the required Type I PFD.

R651-215-11. Required Wearing of PFDs.

- (1) An inflatable PFD may not be used to meet the requirements of this Section.

- (2) All persons on board a personal watercraft or a sailboard shall wear a PFD.

- (3) The operator of a vessel under 19 feet in length shall require each passenger 12 years of age or younger to wear a PFD. This rule is also applicable to vessels 19 feet or more in length, except when the child is inside the cabin area.

- (4) On rivers, every person on board a vessel shall wear a PFD, except PFDs may be loosened or removed by persons 13 years of age or older on designated flat water areas as listed in Section R651-215-12. When carrying passengers for hire, the river guide is responsible for the passengers on his vessel to be in compliance with this Subsection.

R651-215-12. River Flat Water Areas.

- (1) On the Green River:
 - (a) from Red Creek Camp below Red Creek Rapids to the Indian Crossing Boat Ramp;
 - (b) from 100 yards below Taylor Flats Bridge to the Utah/Colorado state line in Browns Park;
 - (c) within Dinosaur National Monument, from the mouth of Whirlpool Canyon to the head of Split Mountain Gorge;
 - (d) from the mouth of Split Mountain to Jack Creek in Desolation Canyon; and
 - (e) from the Green River Diversion Dam below Gray Canyon to the confluence with the Colorado River.
- (2) On the Colorado River:
 - (a) from the Colorado/Utah state line to the Westwater Ranger Station;
 - (b) from Big Hole Canyon in Westwater Canyon to Onion Creek;
 - (c) from Drinks Canyon, mile 70, to the confluence with the Green River; and
 - (d) after the last active rapid in Cataract Canyon.
- (3) On the San Juan River, after the last active rapid prior to Lake Powell.

R651-215-13. PFDs.

All Personal Flotation Devices (PFDs) must be used according to the conditions or restrictions listed on the U.S. Coast Guard Approval Label.

KEY: boating
January 15, 2005

73-18-8

Notice of Continuation February 13, 2006

R651. Natural Resources, Parks and Recreation.**R651-222. Muffling Requirements.****R651-222-1. Mufflers Required.**

Every motorboat operated upon the waters of this State shall at all time be equipped with a muffler or a muffler system in good working order and in constant operation and effectively installed to prevent any excessive or unusual noise.

R651-222-2. Muffler Defined.

"Muffler" means a sound suppression device or system designed and installed to abate the sound of exhaust gases emitted from an internal combustion engine and prevents excessive or unusual noise.

R651-222-3. Maximum Sound Level SAE J2005.

No person shall operate or give permission for the operation of any motorboat upon the waters of this state in such a manner as to exceed the following noise levels:

(1) For engines manufactured before January 1, 1993, a noise level of 90dB(A) when subjected to a stationary sound level test as prescribed by test SAE J2005; or

(2) for engines manufactured on or after January 1, 1993, a noise level of 88dB(A) when subjected to a stationary sound level test as prescribed by test SAE J2005.

R651-222-4. Maximum Sound Level SAE J1970.

After January 1, 1992, no person shall operate a motorboat on the waters of this state in such a manner as to exceed a noise level of 75dB(A) measured as specified in test SAE J1970. Provided, that such measurement shall not preclude a stationary sound level test as prescribed by SAE J2005.

R651-222-5. Muffler Bypass or Alteration Prohibited.

(1) No person shall operate or give permission for the operation of any motorboat upon the waters of this state that is equipped with an altered muffler, muffler cutout, muffler bypass, or other device designed or installed so that it can be used to continually or intermittently bypass; or reduce or eliminate the effectiveness of any muffler or muffler system installed on a motorboat.

(2) Rule R651-222-5 (1) shall not apply to a motorboat equipped with a muffler cutout, muffler bypass, or other device designed or installed so that it can be used to continually or intermittently bypass; or reduce or eliminate the effectiveness of any muffler or muffler system installed on a motorboat, (a) if the mechanism has been permanently disconnected or made inoperable, where it cannot be operated in the manner described in Rule R651-222-5 (1), or (b) the muffling systems operated by the bypass meet the requirements in R651-222-3.

R651-222-6. Muffler Removal Prohibited.

No person shall remove, alter, or otherwise modify in any way a muffler or muffler system on a motorboat, in a manner that will prevent the motorboat from complying with rule R651-222-3.

R651-222-7. Mufflers Required on Motorboats Sold.

(1) No person shall manufacture, sell, or offer for sale any motorboat:

(a) that is not equipped with a muffler or muffler system;

or

(b) that does not comply with rule R651-222-3.

(2) This rule shall not apply to motorboats designed, manufactured and sold for the sole purpose of competing in racing events only and for no other purpose. Any motorboat exempted under this rule shall be documented as such in the sales agreement and shall be formally acknowledged by signature of the buyer and seller and copies of the agreement shall be maintained by both parties. A copy of the agreement

shall be kept on board whenever the motorboat is operated. Any motorboat sold under this exemption may only be operated on the waters of this State in accordance with rule R651-222-8.

R651-222-8. Muffler Exemptions.

Except as outlined in rule R651-222-7, the operational provisions of this rule shall not apply to:

(1) motorboats registered in and actually participating in a racing event authorized by the Division or scheduled tuneup periods prior to the racing event; or

(2) to a motorboat being operated by a boat or engine manufacturer for the purpose of testing and/or development and the testing has been authorized by the Division.

R651-222-9. Enforcement.

A peace officer who has reason to believe that a motorboat is being operated in excess of the noise levels established in rule R651-222-3, may direct the operator of the motorboat to submit the motorboat to an on-site test to measure the noise level. If the motorboat exceeds the established decibel level, in addition to issuing a summons, the officer may direct the operator to return to the point of embarkation and prohibit operation of the motorboat until the motorboat meets the established decibel level.

KEY: boating, motorboat noise

Notice of Continuation February 13, 2006

73-18-11

R651. Natural Resources, Parks and Recreation.**R651-224. Towed Devices.****R651-224-1. Observer Required.**

The operator of a vessel which is towing a person on water skis or other devices shall be responsible for maintaining a safe course with proper lookout. The progress of the person under tow shall be reported to the vessel operator by the observer.

R651-224-3. Flag Required.

The operator of a vessel shall be responsible for a flag to be displayed by the observer in a visible manner to other boaters in the area while the person to be towed is in the water, either preparing to be towed or finishing a tow. The flag shall be international orange at least 12 inches square and mounted on a handle.

R651-224-4. PFD to be Worn.

The operator of a vessel which is towing a person(s) on water skis or other devices shall require each person who is water skiing or using other devices to wear a United States Coast Guard approved personal flotation device (PFD), except an inflatable PFD may not be used.

R651-224-5. Capacity of Towing Vessel.

The operator of a vessel which is towing a person(s) on water skis or other devices shall use a vessel with sufficient carrying capacity, as defined by the manufacturer, for the occupant(s) onboard and the person(s) being towed.

KEY: boating, water skiing

73-18-15

Notice of Continuation February 13, 2006

R651. Natural Resources, Parks and Recreation.

R651-611. Fee Schedule.

R651-611-1. Use Fees.

All fees required under this fee schedule are to be paid in advance of occupancy or use of facilities.

A. Fees for services covering one or more months, for docks and dry storage, must be paid in advance for the season as determined by the Division.

B. Fee permits and passes are not refundable or transferable. Duplicate annual permits and special fun tags will be issued only upon completion of an affidavit and payment of the required fee. Inappropriate use of fee permits and passes may result in confiscation by park authorities.

C. Fees shall not be waived, reduced or refunded unless authorized by Division guideline; however, park or unit managers may determine and impose equitable fees for unique events or situations not covered in the current fee schedule. The director has the prerogative to waive or reduce fees.

D. The Multiple Park Permit, Senior Multiple Park Permit, Special Fun Tag, Camping Permit and Daily Private Vehicle Permit are good for one (1) private vehicle with up to eight (8) occupants, with the exception of any special charges. Multiple Park Permits, Senior Multiple Park Permits, and Special Fun Tags, are not honored at This Is The Place State Park.

E. No charge for persons five years old and younger.

F. With the exception of the Multiple Park Permit, Senior Multiple Park Permit, and Special Fun Tag, fees are applicable only to the specific park or facility where paid and will not be honored at other parks or facilities, unless otherwise stated in division guideline.

G. The contract operator, with the approval of the Division Director, will set fees for This Is The Place State Park.

H. A "senior" is defined as any resident of the State of Utah 62 years of age or older. Residency and proof of age are verified by presentation of a valid driver's license or a valid Utah identification card.

I. Charges for services unique to a park may be established by the park manager with approval from the region manager. All approved charges must be submitted to the Division director or designee.

R651-611-2. Day Use Entrance Fees.

Permits the use of all day activity areas in a state park. These fees do not include overnight camping facilities or special use fees.

A. Annual Permits

1. \$70.00 Multiple Park Permit (good for all parks)
2. \$35.00 Senior Multiple Park Permit (good for all parks)
3. \$200.00 Commercial Dealer Demonstration Pass

4. Duplicate Annual Permits may be purchased if originals are lost, destroyed, or stolen, upon payment of a \$10.00 fee and the submittal of a signed affidavit to the Division office. Only one duplicate is allowed.

B. Special Fun Tag - Available free to Utah residents, who are disabled, as defined by the Special Fun Tag permit affidavit.

C. Daily Permit - Allows access to a specific state park on the date of purchase.

1. \$9.00 (\$5.00 for seniors) per private motor vehicle or \$5.00 per person (\$3.00 for seniors), for pedestrians or bicycles at the following parks:

TABLE 1

Deer Creek	Jordanelle - Hailstone
Utah Lake	Willard Bay

2. \$7.00 (\$4.00 for seniors) per private motor vehicle or \$4.00 per person (\$2.00 for seniors) for pedestrians or bicycles at the following parks:

TABLE 2

Bear Lake - Marina	Bear Lake - Rendezvous
Dead Horse Point	East Canyon
Jordanelle - Rockcliff	Quail Creek
Rockport	Sand Hollow
Yuba	

3. \$6.00 (\$3.00 for seniors) per private motor vehicle or \$3.00 per person (\$2.00 for seniors), for pedestrians or bicycles at the following parks:

TABLE 3

Antelope Island	Goblin Valley
Hyrum	Kodachrome
Palisade	

4. \$2.00 (\$1.00 for seniors) per private vehicle at the following park:

TABLE 4

Great Salt Lake

5. \$6.00 per adult, \$3.00 per child (a child is defined as any person between the ages of six (6) and twelve (12) years old inclusively), and \$3.00 for seniors at Utah Field House State Park.

6. \$2.00 per person (\$1.00 for seniors), or \$6.00 per family (up to eight (8) individuals (\$3.00 for seniors), at the following parks:

TABLE 5

Camp Floyd
Territorial

7. \$3.00 per person (\$1.50 for seniors), or \$6.00 per family (up to eight (8) individuals (\$3.00 for seniors), at the following parks:

TABLE 6

Anasazi	Edge of the Cedars
Fremont	Iron Mission

8. \$5.00 (\$3.00 for seniors) per private motor vehicle or \$3.00 per person (\$2.00 for seniors), for pedestrians or bicycles at the parks not identified above, including the east side of Bear Lake.

9. \$10.00 per OHV rider at the Jordan River OHV Center.
10. \$2.00 per person for commercial groups or vehicles with nine (9) or more occupants (\$15.00 per group at Great Salt Lake).

D. Group Site Day Use Fee - Advance reservation only. \$2.00 per person, age six (6) and over, for sites with basic facilities. Minimum \$50.00 fee established for each facility.

E. Antelope Island Wildlife Management Program: A \$1.00 fee will be added to the entrance fee at Antelope Island. This additional fee will be used by the Division to fund the Wildlife Management Program on the Island.

R651-611-3. Camping Fees.

Permits overnight camping and day use for the day of arrival until 2:00 p.m. of the following day or each successive day. Camp sites must be vacated by 12:00 noon following the last camping night at Dead Horse Point. Camping is limited to 14 consecutive days at all campgrounds with the exception of Snow Canyon State Park, with a five (5) consecutive day limit.

A. Individual Sites -- One (1) vehicle with up to eight (8) occupants and any attached recreational equipment as one (1) independent camp unit. Fees for individual sites are based on the following schedule:

1. \$9.00 with pit or vault toilets; \$12.00 with flush toilets;

\$15.00 with flush toilets and showers or electrical hookups; \$18.00 with flush toilets, showers and electrical hookups; \$21.00 with full hookups.

2. Primitive camping fees may be decreased at the park manager's discretion dependent upon the developed state of the facilities to be used by park visitors. Notification of the change must be made to the Division's financial manager and reservations manager before the reduced fee can be made effective.

3. Special Fun Tag holders may receive a \$2.00 discount for individual camping sites Monday through Thursday nights, excluding holidays.

4. One-half the campsite fee rounded up to the nearest dollar will be charged per vehicle at all parks and individual camping sites for all additional transportation vehicles that are separate and not attached to the primary vehicle, but are dependent upon that unit. No more than one additional vehicle is allowed at any individual campsite. This fee is not applicable at primitive campsites.

B. Group Sites - (by advance reservation for groups)

1. \$2.00 per person, age six (6) and over at sites with vault toilets. Minimum \$50.00 fee for each facility.

2. \$3.00 per person, age six (6) and over at sites with flush toilets and/or pavilions. Minimum \$75.00 fee for each facility.

R651-611-4. Special Fees.

A. Golf Course Fees

1. Palisade rental and green fees.

a. Nine holes general public - weekends and holidays - \$12.00

b. Nine holes weekdays (except holidays) - \$10.00

c. Nine holes Jr/Sr weekdays (except holidays) - \$8.00

d. 20 round card pass - \$160.00

e. 20 round card pass (Jr only) - \$100.00

f. Promotional pass - single person (any day) - \$450.00
g. Promotional pass - single person (weekdays only) - \$300.00

h. Promotional pass - couples (any day) - \$650.00

i. Promotional pass - family (any day) - \$850.00

j. Companion fee - walking, non-player - \$4.00

k. Motorized cart (18 holes) - \$10.00

l. Motorized cart (9 holes) - \$5.00

m. Pull carts (9 holes) - \$2.00

n. Club rental (9 holes) - \$5.00

o. School teams - No fee for practice rounds with coach and team roster. Tournaments are \$3.00 per player.

p. Driving range - small bucket - \$2.50

q. Driving range - large bucket - \$3.50

2. Wasatch Mountain and Soldier Hollow rental and green fees.

a. Nine holes general public - \$12.50

b. Nine holes general public (weekends and holidays) - \$13.50

c. Nine holes Jr/Sr weekdays (except holidays) - \$11.00

d. 20 round card pass - \$220.00 - no holidays or weekends

e. Annual Promotional Pass (except holidays) - \$1,000.00

f. Companion fee - walking, non-player - \$4.00

g. Motorized cart (9 holes - mandatory on Mt. course) - \$13.00

h. Motorized cart (9 holes single rider) - \$6.00

i. Pull carts (9 holes) - \$2.25

j. Club rental (9 holes) - \$6.00

k. School teams - No fee for practice rounds with coach and team roster (Wasatch County only). Tournaments are \$3.00 per player.

l. Tournament fee (per player) - \$5.00

m. Driving range - small bucket - \$2.50

n. Driving range - large bucket - \$5.00

o. Advance tee time booking surcharge - \$15.00

3. Green River rental and green fees.

a. Nine holes general public - \$10.00

b. Nine holes Jr/Sr weekdays (except holidays) - \$8.00

c. Eighteen holes general public - \$16.00

d. 20 round card pass - \$140.00

e. Promotional pass - single person (any day) - \$350.00

f. Promotional pass - personal golf cart - \$350.00

g. Promotional pass - single person (Jr/Sr weekdays) - \$275.00

h. Promotional pass - couple (any day) - \$600.00

i. Promotional pass - family (any day) - \$750.00

j. Companion fee - walking, non-player - \$4.00

k. Motorized cart (9 holes) - \$10.00

l. Motorized cart (9 holes single rider) - \$5.00

m. Pull carts (9 holes) - \$2.25

n. Club rental (9 holes) - \$5.00

o. School teams - No fee for practice rounds with coach and team roster. Tournaments are \$3.00 per player.

4. Golf course hours are daylight to dark

5. No private, motorized golf carts are allowed, except where authorized by existing contractual agreement.

6. Jr golfers are 17 years and under. Sr golfers are 62 and older.

B. Boat Mooring and Dry Storage

1. Mooring Fees:

a. Day Use - \$5.00

b. Overnight Boat Parking - \$7.00 (until 8:00 a.m.)

c. Overnight Boat Camping - \$15.00 (until 2:00 p.m.)

d. Monthly - \$4.00/ft.

e. Monthly with Utilities - (Bear Lake) \$6.00/ft.

f. Monthly with Utilities - (Other Parks) \$5.00/ft.

g. Monthly Off Season - \$2.00/ft

h. Monthly (Off Season with utilities) - \$3.00/ft

2. Dry Storage Fees:

a. Overnight (until 2:00 p.m.) - \$5.00

b. Monthly During Season - \$75.00

c. Monthly Off Season - \$50.00

d. Monthly (unsecured) - \$25.00

C. Application Fees - Non-refundable PLUS Negotiated

Costs.

1. Grazing Permit - \$20.00

2. Easement - \$250.00

3. Construction/Maintenance - \$50.00

4. Special Use Permit - \$50.00

5. Commercial Filming - \$50.00

6. Waiting List - \$10.00

D. Assessment and Assignment Fees.

1. Duplicate Document - \$10.00

2. Contract Assignment - \$20.00

3. Returned checks - \$20.00

4. Staff time - \$40.00/hour

5. Equipment - \$30.00/hour

6. Vehicle - \$20.00/hour

7. Researcher - \$5.00/hour

8. Photo copy - \$.10/each

9. Fee collection - \$10.00

R651-611-5. Reservations.

A. Camping Reservation Fees.

1. Individual Campsite \$8.00

2. Group site or building rental \$10.25

3. Fees identified in #1 and #2 above are to be charged for both initial reservations and for changes to existing reservations.

B. All park facilities will be allocated on a first-come, first-serve basis.

C. Selected camp and group sites are reservable in advance by calling 322-3770, 1-800-322-3770 or on the Internet at: www.stateparks.utah.gov.

D. Applications for reservation of skating rinks, meeting

rooms, buildings, mooring docks, dry storage spaces and other sites not covered above, will be accepted by the respective park personnel beginning on the first business day of February for the next 12 months. Application forms and instructions are available at the park.

E. All unreserved mooring docks, dry storage spaces and camp picnic sites are available on a first-come, first-serve basis.

F. The park manager for any group reservation or special use permit may require a cleanup deposit.

G. Golf course reservations for groups of 20 or more and tournaments will be accepted for the calendar year beginning the first Monday of March. Reservations for up to two starting times (8 persons) may be made for Saturday, Sunday and Monday, the preceding Monday; and for Tuesday through Friday, the preceding Saturday. Reservations will be taken by phone and in person during golf course hours.

H. One party will reserve park facilities for more than fourteen (14) consecutive days in any 30-day period.

January 1, 2006

63-11-17(8)

Notice of Continuation February 13, 2006

R746. Public Service Commission, Administration.**R746-345. Pole Attachments.****R746-345-1. Authorization.**

A. Authorization of Rules -- Consistent with the Pole Attachment Act, 47 U.S.C. 224(c), and 54-3-1, 54-4-1, and 54-4-13, the Public Service Commission shall have the power to regulate the rates, terms and conditions by which a public utility, as defined in 54-2-1(15)(a) including telephone corporations as defined in 54-2-23(a), can permit attachments to its poles by an attaching entity.

B. Application of Rules -- These rules shall apply to each public utility that permits pole attachments to utility's poles by an attaching entity.

1. Although specifically excluded from regulation by the Commission in 54-2-1(23)(b), solely for the purpose of any pole attachment, these rules apply to any wireless provider.

2. Pursuant to these rules, a public utility must allow any attaching entity nondiscriminatory access to utility poles at rates, terms and conditions that are just and reasonable.

C. Application of Rate Methodology -- The rate methodology described in Section R746-345-5 shall be used to determine rates that a public utility may charge an attaching entity to attach to its poles for compensation.

R746-345-2. General Definitions.

A. "Attaching Entity" -- A public utility, wireless provider, cable television company, communications company, or other entity that provides information or telecommunications services that attaches to a pole owned or controlled by a public utility.

B. "Distribution Pole" -- A utility pole, excluding towers, used by a pole owner to support mainly overhead distribution wires or cables.

C. "Pole Attachment" -- All equipment, and the devices used to attach the equipment, of an attaching entity within that attaching entity's allocated attachment space. A new or existing service wire drop pole attachment that is attached to the same pole as an existing attachment of the attaching entity is considered a component of the existing attachment for purposes of this rule. Additional equipment that is placed within an attaching entity's existing attachment space, and equipment placed in the unuseable space which is used in conjunction with the attachments, is not an additional pole attachment for rental rate purposes. All equipment and devices shall meet applicable code and contractual requirements. Pole attachments do not include items used for decorations, signage, barriers, lighting, sports equipment, or cameras.

D. "Attachment Space" -- The amount of usable space on a pole occupied by a pole attachment as provided for in Subsection R746-345-5(B)(3)(d).

E. "Pole Owner" -- A public utility having ownership or control of poles used, in whole or in part, for any electric or telecommunications services.

F. "Secondary Pole" -- A pole used solely to provide service wire drops, the aerial wires or cables connecting to a customer premise.

G. "Secondary Pole Attachment" -- A pole attachment to a secondary pole.

H. "Wireless Provider" -- A corporation, partnership, or firm that provides cellular, Personal Communications Systems (PCS), or other commercial mobile radio service as defined in 47 U.S.C. 332 that has been issued a covering license by the Federal Communications Commission.

R746-345-3. Tariffs and Contracts.

A. Tariff Filings and Standard Contracts -- A pole owner shall submit a tariff and standard contract, or a Statement of Generally Available Terms (SGAT), specifying the rates, terms and conditions for any pole attachment, to the Commission for approval.

1. A pole owner must petition the Commission for any changes or modifications to the rates, terms, or conditions of its tariff, standard contract or SGAT. A petition for change or modification must include a showing why the rate, term or condition is no longer just and reasonable. A change in rates, terms or conditions of an approved tariff, standard contract or SGAT will not become effective unless and until it has been approved by the Commission.

2. The tariff, standard contract or SGAT shall identify all rates, fees, and charges applicable to any pole attachment. The tariff, standard contract, and SGAT shall also include:

a. a description of the permitting process, the inspection process, the joint audit process, including shared scheduling and costs, and any non-recurring fee or charge applicable thereto;

b. emergency access provisions; and

c. any back rent recovery or unauthorized pole attachment fee and any applicable procedures for determining the liability of an attaching entity to pay back rent or any non-recurring fee or charge applicable thereto.

B. Establishing the Pole Attachment Relationship -- The pole attachment relationship shall be established when the pole owner and the attaching entity have executed the approved standard contract, or SGAT, or other Commission-approved contract.

1. Exception -- The pole owner and attaching entity may voluntarily negotiate an alternative contract incorporating some, all, or none of the terms of the standard contract or SGAT. The parties shall submit the negotiated contract to the Commission for approval. In situations in which the pole owner and attaching entity are unable to agree following good faith negotiations, the pole owner or attaching entity may petition the Commission for resolution as provided in Section R746-345-6. Pending resolution by the Commission, the parties shall use the standard contract or SGAT.

C. Make-Ready Work, Timeline and Cost Methodology -- As a part of the application process, the pole owner shall provide the applicant with an estimate of the cost of the make-ready work required and the expected time to complete the make-ready work as provided for in this sub-section. All applications by a potential attacher within a given calendar month shall be counted as a single application for the purposes of calculating the response time to complete the make-ready estimate for the pole owner. The due date for a response to all applications within the calendar month shall be calculated from the date of the last application during that month. As an alternative to all of the time periods allowed for construction below, a pole owner may provide the applicant with an estimated time by which the work could be completed that is different than the standard time periods contained in this rule with an explanation for the anticipated delay. Pole owners must provide this alternative estimate within the estimate timelines provided below.

1. For applications up to 20 poles, the pole owner shall respond with either an approval or a rejection within 45 days. At the same time as an approval is given, a completed make-ready estimate must be provided to the applicant explaining what make-ready work must be done, the cost of that work, and the time by which the work would be finished, that is no later than 120 days from receiving an initial deposit payment for the make-ready work.

2. For applications that represent greater than 20 poles, but equal to or less than .5% of the pole owner's poles in Utah, or 300 poles, whichever is lower, the time for the pole owner's approval and make-ready estimate shall be extended to 60 days, and the time for construction will remain at a maximum of 120 days.

3. For applications that represent greater than the number of poles calculated in section 3(2)(C)(2) above, but equal to or less than 5% of the pole owner's poles in Utah, or 3,000 poles,

whichever is lower, the time for the approval and make-ready estimate shall be extended to 90 days, and the time for construction will be extended to 180 days.

4. For applications that represent greater than 5% of the pole owner's poles in Utah, or 3,000 poles, whichever is lower, the times for the above activities will be negotiated in good faith. The pole owner shall, within 20 days of the application, inform the applicant of the date by which the pole owner will have the make-ready estimate and make-ready construction time lines prepared for the applicant. If the applicant believes the pole owner is not acting in good faith, it may appeal to the Commission to either resolve the issue of when the make-ready estimate and construction period information should be delivered or to arbitrate the negotiations.

5. If the pole owner rejects any application, the pole owner must state the specific reasons for doing so. Applicants may appeal to the Commission if they do not agree that the pole owner's stated reasons are sufficient grounds for rejection.

6. For all approved applications, the applicant will either accept or reject the make-ready estimate. If it accepts the make-ready estimate and make-ready construction time line, the work must be done by the pole owner on schedule and for the estimated make-ready amount, or less, and the applicant will be billed for actual charges up to the bid amount.

7. Applicants must pay 50% of the make-ready estimate in advance of construction, and pay the remainder in two subsequent installment payments: an additional 25 percent payment when half of the work is done and the balance after the work is completed. Applicants may elect to pay the entire amount up front.

8. If the applicant rejects the make-ready estimate for an approved application for whatever reason, the applicant may, at its own expense, use approved contractors to self-build the required make-ready work subject to the pole owner's inspection.

D. Pole Attachment Placement -- All new copper cable attachments shall be placed at the lowest level permitted by applicable safety codes. In cases where an existing copper attachment has been placed in a location higher than the minimum height the safety codes require, the pole owner shall determine if the proposed attachment may be safely attached either above or below the existing copper attachment taking account of midspan clearances and potential crossovers. If these attachment locations, above or below the copper cable, comply with the applicable safety code, the attacher may attach to the pole without paying to move the copper cable. The owner of the copper cable may elect to pay the costs of having the cable moved to the lowest position as part of the attachment process, or it may elect to move the cable themselves prior to the attaching entity's attachment. If the copper cable must be moved in order for the attacher to be able to safely make its attachment, the attacher shall pay the costs associated with moving the existing copper cable.

R746-345-4. Pole Labeling.

A. Pole Labeling -- A pole owner must label poles to indicate ownership. A pole owner shall label any new pole installed, after the effective date of this rule, immediately upon installation. Poles installed prior to the effective date of this rule, shall be labeled at the time of routine maintenance, normal replacement, change-out, or relocation, and whenever practicable. Labels shall be based on a good faith assertion of ownership.

B. Pole Attachment Labeling -- An attaching entity must label its pole attachments to indicate ownership. Pole attachment labels may not be placed in a manner that could be interpreted to indicate an ownership of the utility pole. An attaching entity shall label any new pole attachment installed, after the effective date of this rule, immediately upon

installation. Pole Attachments installed prior to the effective date of this rule shall be labeled at the time of routine maintenance, normal replacement, rearrangement, rebuilding, or reconstruction, and whenever practicable.

C. Exception -- Electrical power pole attachments do not need to be labeled.

R746-345-5. Rental Rate Formula and Method.

A. Rate Formula -- Any rate based on the rate formula in this Subsection shall be considered just and reasonable unless determined otherwise by the Commission. A pole attachment rental rate shall be based on publicly filed data and must conform to the Federal Communications Commission's rules and regulations governing pole attachments, except as modified by this Section. A pole attachment rental rate shall be calculated and charged as an annual per attachment rental rate for each attachment space used by an attaching entity. The following formula and presumptions shall be used to establish pole attachment rates:

1. Formula:

Rate per attachment space = (Space Used x (1/Usable Space) x Cost of Bare Pole x Carrying Charge Rate)

2. Definitions:

a. "Carrying Charge Rate" means the percentage of a pole owner's depreciation expense, administrative and general expenses, maintenance expenses, taxes, rate of return, pro-rated annualized costs for pole audits or other expenses that are attributable to the pole owner's investment and management of poles.

b. "Cost of Bare Pole" can be defined as either "net cost" or "gross cost." "Gross cost" means the original investment, purchase price, of poles and fixtures, excluding crossarms and appurtenances, divided by the number of poles represented in the investment amount. "Net cost" means the original investment, purchase price, of poles and fixtures, excluding crossarms and appurtenances, less depreciation reserve and deferred federal income taxes associated with the pole investment, divided by the number of poles represented in the investment amount. A pole owner may use gross cost only when its net cost is a negative balance. If using the net or gross cost results in an unfair or unreasonable outcome, a pole owner or attaching entity can seek relief from the Commission under R746-345-5 C.

c. "Unusable Space" means the space on a utility pole below the usable space including the amount required to set the depth of the pole.

d. "Usable Space" means the space on a utility pole above the minimum grade level to the top of the pole, which includes the space occupied by the pole owner.

3. Rebuttable presumptions:

a. Average pole height equals 37.5 feet.

b. Usable space per pole equals 13.5 feet.

c. Unusable space per pole equals 24 feet.

d. Space used by an attaching entity:

(i) An electric pole attachment equals 7.5 feet;

(ii) A telecommunications pole attachment equals 1.0 foot;

(iii) A cable television pole attachment equals 1.0 foot;

and

(iv) An electric, cable, or telecommunications secondary pole attachment equals 1.0 foot.

(v) A wireless provider's pole attachment equals not less than 1.0 foot and shall be determined by the amount of space on the pole that is rendered unusable for other uses, as a result of the attachment or the associated equipment. The space used by a wireless provider may be established as an average and included in the pole owner's tariff and standard contract, or SGAT, pursuant to Section R746-345-3 of this Rule.

e. The space used by a wireless provider:

(i) may not include any of the length of a vertically placed

cable, wire, conduit, antenna, or other facility unless the vertically placed cable, wire, conduit, antenna, or other facility prevents another attaching entity from placing a pole attachment in the usable space of the pole;

(ii) may not exceed the average pole height established in Subsection R746-345-5(A)(3)(a).

(iii) In situations in which the pole owner and wireless provider are unable to agree, following good faith negotiations, on the space used by the wireless provider as determined in Subsection R746-345-5(A)(3)(d)(v), the pole owner or wireless provider may petition the Commission to determine the footage of space used by the wireless provider as provided in Subsection R746-345-3(C).

f. The Commission shall recalculate the rental rate only when it deems necessary. Pole owners or attaching entities may petition the Commission to reexamine the rental rate.

4. A pole owner may not assess a fee or charge in addition to an annual pole attachment rental rate, including any non-recurring fee or charge described in Subsection R746-345-3(A)(2), for any cost included in the calculation of its annual pole attachment rental rate.

B. Commission Relief -- A pole owner or attaching entity may petition the Commission to review a pole attachment rental rate, rate formula, or rebuttable presumption as provided for in this rule. The petition must include a factual showing that a rental rate, rate formula or rebuttable presumption is unjust, unreasonable or otherwise inconsistent with the public interest.

R746-345-6. Dispute Resolution.

A. Mediation -- Except as otherwise precluded by law, a resolution of any dispute concerning any pole attachment agreement, negotiation, permit, audit, or billing may be pursued through mediation while reserving to the parties all rights to an adjudicative process before the Commission.

1. The parties may file their action with the Commission and request leave to pursue mediation any time before a hearing.

2. The choice of mediator and the apportionment of costs shall be determined by agreement of the parties. However, the parties may jointly request a mediator from the Commission or the Division of Public Utilities.

3. A party need not pay the portion of a bill that is disputed if it has started a dispute proceeding within 60 days of the due date of the disputed amount. The party shall notify the Commission if the dispute process is not before the Commission.

B. Settlement -- If the parties reach a mediated agreement or settlement, they will prepare and sign a written agreement and submit it to the Commission. Unless the agreement or settlement is contrary to law and this rule, R746-345, the Commission will approve the agreement or settlement and dismiss or cancel proceedings concerning the matters settled.

1. If the agreement or settlement does not resolve all of the issues, the parties shall prepare a stipulation that identifies the issues resolved and the issues that remain in dispute.

2. If any issues remain unresolved, the matter will be scheduled for a hearing before the Commission.

Notice of Continuation August 8, 2003

R912. Transportation, Motor Carrier, Ports of Entry.**R912-11. Overweight and/or Oversize Permitted Vehicle Restrictions on Certain Highways Throughout the State of Utah.****R912-11-1. Purpose.**

The purpose of this rule is to ensure safety for the commercial/specialized carrier industry and the general motoring public by clearly defining oversize and/or overweight permitted vehicle restrictions, including certified pilot/escort vehicle requirements, for certain highways throughout the State of Utah. These highways present hazards above and beyond the typical highway due to sight distance, curvatures, significant grades and other geometric conditions.

R912-11-2. Exceptions.

(1) The Department may grant written authorization for vehicles engaged in public works projects with an origin or destination within the restricted portion of the highways listed below.

(2) Longer Combination Vehicles (LCVs) are exempt from additional pilot/escort vehicle requirements.

(3) The Department may grant temporary waivers to highway prohibitions provided additional police and/or certified pilot/escort vehicles are required. Other safety measures (i.e., road closure, utility vehicle escorts, time of day limitations, etc.) may be required before a waiver is granted.

R912-11-3. State Route 6 from the Nevada/Utah State Line to Delta.

Vehicles or loads exceeding 14 feet 6 inches in width must have authorization from the UDOT, Motor Carrier Division. This authorization can be obtained by calling (801) 965-4508.

R912-11-4. State Route 9 from Hurricane (Reference Post 10) to La Verkin (Reference Post 13).

Vehicles or loads exceeding 12 feet in width require two certified pilot/escort vehicles.

R912-11-5. State Route 9 from the Junction of State Route 17 Eastbound to Zion National Park and from State Route 89 West to Zion National Park.

(1) Vehicles/loads exceeding 8 feet 6 inches in width requires one certified pilot/escort vehicle.

(2) Vehicles/loads exceeding 10 feet in width require two certified pilot/escort vehicles.

(3) Vehicles/loads exceeding 14 feet in width require, in addition to certified pilot/escort vehicles, two police escorts.

(4) Commercial vehicles, regardless of dimensions, are prohibited through Zion National Park.

R912-11-6. State Route 12 Between the Junctions of State Route 89 and State Route 24 (near Torrey, Utah).

(1) Vehicles/loads exceeding 10 feet in width require one certified pilot/escort vehicle.

(2) Vehicles/loads exceeding 12 feet in width require two certified pilot/escort vehicles.

(3) Vehicles/loads exceeding 14 feet in width require, in addition to certified pilot/escort vehicles, two police escorts.

R912-11-7. State Route 14 Between Reference Post 2 and Reference Post 19.

(1) Vehicles/loads exceeding 8 feet 6 inches in width require one certified pilot/escort vehicle.

(2) Vehicles/loads exceeding 10 feet in width require two certified pilot/escort vehicles.

(3) Vehicles/loads exceeding 12 feet in width are prohibited.

R912-11-8. State Route 17 Between Interstate 15 (RP 0) and**La Verkin (RP 6.07).**

(1) Vehicles or loads exceeding 10 feet in width require one certified pilot/escort vehicle.

(2) Vehicles or loads exceeding 12 feet in width require two certified pilot/escorts vehicles.

R912-11-9. State Route 20 Between Interstate 15 (RP 0) and State Route 89 (RP 21).

Vehicles or loads exceeding 10 feet in width and 75 feet in length require one certified pilot/escort vehicle.

R912-11-10. State Route 24 Between State Route 12 (Torrey) and State Routes 24 and 95 (Hanksville).

(1) Vehicles or loads exceeding 10 feet in width require one certified pilot/escort vehicle.

(2) Vehicles or loads exceeding 12 feet in width require two certified pilot/escort vehicles.

R912-11-11. State Route 29 Between Orangeville and Joe's Valley Reservoir.

Vehicles or loads exceeding 95 feet in length or 10 feet in width require two certified pilot/escort vehicles.

R912-11-12. State Route 31 West of Electric Lake Between RP 22 and RP 0.

(1) Vehicles or loads exceeding 10 feet in width and/or 80 feet in length require one certified pilot/escort Vehicle.

(2) Vehicles or loads exceeding 12 feet in width are prohibited.

R912-11-13. State Route 39 Between State Route 203 (Harrison Blvd at RP 9) and Pineview Reservoir.

Vehicles or loads exceeding 10 feet in width are prohibited.

R912-11-14. State Route 39 Between Pineview Reservoir and State Route 16 (Woodruff at RP 67).

Vehicles or loads exceeding 10 feet in width and/or 80 feet in length require two certified pilot/escort vehicles.

R912-11-15. State Route 43 and 44 Between Wyoming (RP 0) and State Route 191 (RP 28).

Vehicles or loads exceeding 95 feet in length require two certified pilot/escort vehicles.

R912-11-16. State Route 46 Between the Colorado State line and RP 18.

(1) Vehicles or loads exceeding 10 feet in width and/or 80 feet in length require one certified pilot/escort vehicle.

(2) Vehicles or loads exceeding 12 feet in width and/or 110 feet in length are prohibited.

R912-11-17. State Route 56 Between Cedar City (RP 61) and the Nevada State Line (RP 0).

(1) Vehicles or loads exceeding 12 feet in width require one certified pilot/escort vehicle.

(2) Vehicles or loads exceeding 14 feet in width require two certified pilot/escort vehicles.

R912-11-18. State Route 59 Between RP 19 and RP 23 (Hurricane Hill).

(1) Vehicles or loads exceeding 12 feet in width and/or 85 feet in length require one certified pilot/escort vehicle.

(2) Vehicles or loads exceeding 14 feet in width and/or 95 feet in length require two certified pilot/escort vehicles.

(3) Vehicles or loads exceeding 14 feet 6 inches in width must have authorization from the UDOT, Motor Carrier Division. This authorization can be obtained by calling (801) 965-4508.

R912-11-19. State Route 65 Between Interstate 80 and Interstate 84.

Vehicles or loads exceeding 80,000 pounds GVW are prohibited.

R912-11-20. State Route 66 Between State 65 and Interstate 84.

Vehicles or loads exceeding 80,000 pounds GVW are prohibited.

R912-11-21. Logan Canyon Between RP 373 and RP 415.

(1) Vehicles or loads exceeding 10 feet in width and/or 80 feet in length require one certified pilot/escort vehicle.

(2) Vehicles or loads exceeding 12 feet in width are prohibited.

R912-11-22. State Route 89 Between Kanab and Interstate 70.

Vehicles or loads exceeding 10 feet in width and 75 feet in length require one certified pilot/escort vehicle.

R912-11-23. State Route 92 Between Highway 189 (Provo Canyon) and the Sundance Ski Resort.

All oversize loads require two certified pilot/escort vehicles and two police escort vehicles.

R912-11-24. State Route 128 Between Interstate 70 and State Route 191 (RP 0 - RP 42).

All oversize and vehicles or loads exceeding 55,000 pounds GVW are prohibited.

R912-11-25. State Route 143 Between RP 3 and RP 20 (Brian Head).

(1) Vehicles or loads exceeding 8 feet 6 inches in width require one certified pilot/escort vehicle.

(2) Vehicles or loads exceeding 10 feet in width require two certified pilot/escort vehicles.

(3) Vehicles or loads exceeding 12 feet in width and 65 feet in length are prohibited.

R912-11-26. State Route 150 Between Utah/Wyoming Border and State Route 32 in Kamas, Utah.

Vehicles or loads exceeding 80,000 pounds GVW are prohibited.

R912-11-27. State Route 153 Between RP 9 to RP 20 (Elk Meadows).

(1) Vehicles or loads exceeding 8 feet 6 inches in width require one certified pilot/escort vehicle.

(2) Vehicles or loads exceeding 10 feet in width and 65 feet in length are prohibited.

R912-11-28. State Route 189 (Provo Canyon) Between RP 7 (SR-52) and RP 21 (Wallsburg Junction).

All oversize vehicles, including trailers exceeding 48 feet in length, are prohibited.

R912-11-29. State Route 190 (Big Cottonwood Canyon) Between Interstate 215 at Knudsen's Corner and the Salt Lake/Wasatch County Line.

(1) Vehicles or loads exceeding 9 feet in width and/or 65 feet in length require one certified pilot/escort vehicle.

(2) Vehicle or loads exceeding 10 feet in width and/or 80 feet in length require two certified pilot/escort vehicles.

(3) Vehicles or loads exceeding 12 feet in width are prohibited unless otherwise authorized in accordance with R912-11-1 (a).

R912-11-30. State Route 191 (Indian Canyon) Between State**Routes 6 and 40.**

(1) Vehicles or loads exceeding 95 feet in length require two certified pilot/escort vehicles.

(2) Vehicles or loads exceeding 15 feet in width require two police escorts in addition to certified pilot/escort vehicles.

R912-11-31. State Route 191 Between Vernal, Utah and the Wyoming State Line.

Vehicles or loads exceeding 95 feet in length require two certified pilot/escort vehicles.

R912-11-32. State Route 191 Between La Sal Junction and the Grand/San Juan County Line.

Vehicles or loads exceeding 15 feet in width require two police escorts.

R912-11-33. State Route 196 Between Interstate 80 and Dugway, Utah.

Vehicles or loads exceeding 80,000 pounds GVW are prohibited.

R912-11-34. State Route 210 (Little Cottonwood Canyon) Between State Route 190 and Alta, Utah.

(1) Vehicles or loads exceeding 9 feet in width and/or 65 feet in length require one certified pilot/escort vehicle.

(2) Vehicles or loads exceeding 10 feet in width and/or 80 feet in length require two certified pilot/escort vehicles.

(3) Vehicles or loads exceeding 12 feet in width are prohibited unless otherwise authorized in accordance with R912-11-1(a).

R912-11-35. State Route 211 Between State Route 191 and Canyon Lands.

(1) Vehicles or loads exceeding 10 feet in width and/or 80 feet in length require one certified pilot/escort vehicle.

(2) Vehicles or loads exceeding 12 feet in width are prohibited unless otherwise authorized in accordance with R912-11-1(a).

R912-11-36. State Route 226 Between State Route 39 and Snow Basin (RP 8).

All oversize loads require two certified pilot/escort vehicles.

R912-11-37. State Route 261 Between RP 7 and 10 (Moki Dugway).

Vehicles or loads exceeding 55,000 pounds GVW are prohibited unless otherwise authorized in accordance with R912-11-1(a).

R912-11-38. State Route 262.

(1) Between Montezuma Creek and Aneth, vehicles or loads exceeding 95 feet in length require two certified pilot/escort vehicles.

(2) Between Reference Posts 15 and 17, north of Montezuma Creek, vehicles or loads exceeding 55,000 pounds GVW are prohibited unless otherwise authorized in accordance with R912-11-1(a).

R912-11-39. State Route 264 Between State Routes 31 and 96.

(1) Vehicles or loads exceeding 10 feet in width and/or 80 feet in length require one certified pilot/escort vehicle.

(2) Vehicles or loads exceeding 12 feet in width and/or 110 feet in length are prohibited unless otherwise authorized in accordance with R912-11-1(a).

R912-11-40. Emigration Canyon Between the Wasatch Drive/Sunnyside Ave. Junction and State Route 65.

(1) Vehicles or loads exceeding 9 feet in width and/or 65 feet in length require one certified pilot/escort vehicle.

(2) Vehicles exceeding 10 feet in width and/or 80 feet in length require two certified pilot/escort vehicles.

(3) Vehicles or loads exceeding 12 feet in width are prohibited unless otherwise authorized in accordance with R912-11-1(a).

R912-11-41. 6200 South, Salt Lake City, Between Redwood Road and Bangerter Highway.

All commercial vehicles are prohibited.

R986. Workforce Services, Employment Development.**R986-300. Refugee Resettlement Program.****R986-300-301. Authority for the Refugee Resettlement Program (RRP) and Other Applicable Rules.**

(1) The Department provides services to eligible refugees pursuant to 45 CFR 400 and 45 CFR 401 et seq., (2000) which are incorporated herein by reference.

(2) The Department has opted to operate a Publicly-Administered Refugee Cash Assistance Program as provided in 45 CFR 400.65 through 400.68.

(3) Rule R986-100 applies to RRP.

(4) Applicable provisions of R986-200 apply to RRP except as noted in this rule.

R986-300-302. Refugee Resettlement Program (RRP).

(1) RRP provides resettlement assistance to refugees to help them achieve economic self-sufficiency within the shortest possible time after entry into the State.

(2) Financial and medical assistance may be provided to eligible refugees who meet the time limit requirements of R986-300-306 as funding permits.

(3) Assistance in finding employment, citizenship and naturalization services, and referral and interpreter services may be provided regardless of the length of time the refugee has been in the United States.

(4) Refugee Social Services as identified in 45 CFR 400.154, and 400.155 may be provided to eligible refugees who meet the eligibility requirements of 45 CFR 400.152.

(5) Refugee child welfare services will be provided to refugee unaccompanied minor children in accordance with 45 CFR 400 Subpart H.

(6) The following definitions apply to RRP:

(a) "Appropriate employment" means employment that pays a wage which meets or exceeds the applicable federal or state minimum wage law and has daily and weekly hours customary to the occupation. If the minimum wage laws do not apply, the wage must equal what is normally paid for similar work and in no case less than three-fourths of the minimum wage rate.

(b) "Good cause" for quitting or refusing work can be established if the client shows:

(i) the job is vacant due to a strike, lockout, or other genuine labor dispute; or

(ii) the client is required to work contrary to his membership in the union governing that occupation; or

(iii) the employment was deemed a risk to the health or safety of the worker; or

(iv) the employment lacked Worker's Compensation Insurance; or

(v) the individual is unable to engage in employment for physical reasons or lack of child care or transportation.

R986-300-303. Eligibility, Income Standards, and Amount of Assistance.

(1) An applicant for RRP must provide proof, in the form of documentation issued by the INS, of being or having been:

(a) paroled as a refugee or asylee under Section 212(d)(5) of the INA;

(b) admitted as a refugee under Section 207 of the INA;

(c) granted asylum under Section 208 of the INA;

(d) a Cuban or Haitian entrant, in accordance with the requirements of 45 CFR Part 401;

(e) certain Amerasians from Vietnam who are admitted to the United States as immigrants pursuant to Public Law 100-202 and Public Law 100-461; or

(f) admitted for permanent residence, provided the individual previously held one of the statuses listed in (a) through (e) of this section.

(2) The following aliens are not eligible for assistance:

(a) an applicant for asylum unless otherwise provided by federal law;

(b) humanitarian parolees;

(c) public interest parolees; and

(d) conditional entrants admitted under Section 203(a)(7) of the INA.

(3) Refugees who are parents or specified relatives with dependent children must meet the eligibility and participation requirements, including cooperating with ORS to establish paternity and establish and enforce child support, of FEP or FEPTP and will be paid financial assistance under one of those programs.

(4) An applicant for RRP who voluntarily quit or refused appropriate employment without good cause within 30 calendar days prior to the date of application is ineligible for financial assistance for 30 days from the date of the voluntarily quit or refusal of employment. If the applicant is living with a spouse who is otherwise eligible, the income and assets of the ineligible refugee will be counted in determining eligibility and the amount of financial assistance but payment will be made for a household of one and not a household of two.

(5) Refugees who are 65 years of age or older will be referred to SSA to apply for assistance under the SSI program.

(6) Income eligibility for RRP is determined under FEP income rules found in R986-200-234 through R986-200-237 and R986-200-243.

(7) Assets are determined under FEP asset rules at R986-200-230 through 233.

(8) Payment, need, and calculating amount of assistance is determined under FEP rules R986-200-238 through R986-200-240.

(9) If an otherwise eligible client demonstrates an urgent and immediate need for financial assistance, payment will be made on an expedited basis.

R986-300-304. Participation Requirements.

(1) All refugee applicants must comply with the assessment and employment plan requirements in R986-200-207 and R986-200-209. If the assessment cannot be completed or an employment plan negotiated and signed within the time proscribed because of a lack of staff with language skills, the application shall be approved, the assessment completed, and employment plan negotiated and signed as soon as possible.

(2) The goal of participation is to promote family economic self-sufficiency and social adjustment within the shortest possible time after entrance to the State to enable the family to become self-supporting through the employment of one or more members of the family.

(3) If a refugee claims an inability to participate due to incapacity, medical proof is required. Acceptable proof is the same as for FEP found in R986-200-202(3).

(4) Refugees 65 years of age or older, blind, or disabled, are exempt from the work participation requirements of FEP or RRP.

(5) In addition to the requirements of an employment plan as found in R986-200-210, a refugee must, as a condition of receipt of financial assistance:

(a) unless already employed full time, register for work with the Department within 30 days of receipt of refugee financial assistance and participate in employment activities as required by the Department and other appropriate agency providing employment services; and

(b) accept any and all offers of appropriate employment as determined by the Department or the local resettlement agency which was responsible for the initial resettlement of the refugee; and

(c) participate in any available social adjustment service or targeted assistance activities determined to be appropriate by the Department or the local resettlement agency which was

responsible for the initial resettlement of the refugee.

(6) Education and training cannot be approved for any program which cannot be completed within one year.

(7) English language instruction funded under RRP must be provided concurrently with, and not sequentially to, employment or employment related services.

R986-300-305. Failure to Comply with an Employment Plan.

(1) If a client who is required to participate in an employment plan consistently fails to show good faith in complying with the employment plan, the client is required to participate in the conciliation process in R986-200-212 with the following exceptions:

(a) the client will be disqualified for a period of three months for the first occurrence and six months for the second occurrence instead of the two month reduction as provided in R986-200-212(2),

(b) since there is no reduction of benefits, subsections R986-200-212(3) and (4) do not apply to RRP clients,

(c) because the disqualification period for RRP is a time certain, there is no trial period as provided in R986-200-212(5).

(2) If there are other household members included in the financial assistance payment, the other household members will continue to receive assistance provided those household members are eligible and complying with all of the requirements of RRP.

(3) If eligible, food stamps and medical assistance may be continued for the person who is disqualified for failure to comply with the requirements of an employment plan.

R986-300-306. Time Limits.

(1) Except as provided in paragraph (2) below, a refugee is eligible for financial assistance only during the first eight months after entry into the United States, regardless of when the refugee applies for financial assistance. Financial assistance cannot be paid for any months prior to the date of application.

(2) An asylee's entry date is determined to be the date that the individual was granted asylum in the United States.

R994. Workforce Services, Unemployment Insurance.**R994-406. Fraud, Fault and Nonfault Overpayments.****R994-406-101. Claimant Responsible for Providing Complete, Correct Information.**

(1) The claimant is responsible for providing all of the information requested in written documents as well as any verbal request from a Department representative. The claimant is also responsible for following all Department instructions.

(2) The claimant can not shift responsibility for providing correct information to another person such as a spouse, parent, or friend. The claimant is responsible for all information required on his or her claim.

R994-406-201. Nonfault Overpayments.

(1) If the claimant followed all instructions and provided complete and correct information as required in R994-406-101(1) and then received benefits to which he or she was not entitled due to an error made by the Department or an employer, the claimant is not at fault in the creation of the overpayment.

(2) The claimant is not liable to repay overpayments created through no fault of the claimant except that the sum will be deducted from any future benefits.

R994-406-202. Method of Repayment of Nonfault Overpayments.

Even though the claimant is without fault in the creation of the overpayment, 50% of the claimant's weekly benefit amount will be deducted from any future benefits payable to him or her until the overpayment is repaid. No billings will be made and no collection procedures will be initiated.

R994-406-203. Waiver of Recovery of Nonfault Overpayments.

(1) The Department may waive recovery of a nonfault overpayment if the claimant:

(a) requests a waiver within 10 days of notification of the opportunity to request a waiver, within 10 days of the first offset of benefits following a reopening, or upon a showing of a significant change in the claimant's financial circumstances. Good cause will be considered if the claimant can show the failure to request a waiver within these time limitations was due to circumstances which were beyond the claimant's control or were compelling and reasonable; and

(b) can show that recovery of the 50% offset as provided in R994-406-202 would render the claimant unable to pay for the basic needs of survival for his or her immediate family, dependents and other household members.

(i) The claimant must provide verification of financial resources and the social security numbers of family members, dependents and household members.

(ii) Before granting the waiver, the Department must consider all potential financial resources of the claimant, the claimant's family, dependents and other household members.

(iii) "Unable to pay for the basic needs of survival" means "economically disadvantaged" and is defined as 70% of the Lower Living Standard Income Level (LLSIL). Therefore, if the claimant's total family resources in relation to family size are not in excess of 70% of the LLSIL, the waiver will be granted provided the economic circumstances are not expected to change within the next 90 days. Individual expenses will not be considered. Available financial resources, current income, and anticipated income will be included and averaged for the three months.

(2) Any nonfault overpayment outstanding at the time the request is granted is forgiven and the claimant has no further repayment obligation.

(3) A waiver cannot be granted retroactively for any payments made against an overpayment or any of the overpayment which has already been offset except if the offset

was made pending a decision on a timely waiver request which is ultimately granted.

R994-406-301. Claimant Fault.

(1) Elements of Fault.

Fault is established if all three of the following elements are present, or as provided in subsection (4) of this section. If one or more elements cannot be established, the overpayment does not fall under the provisions of Subsection 35A-4-405(5).

(a) Materiality.

Benefits were paid to which the claimant was not entitled.

(b) Control.

Benefits were paid based on incorrect information or an absence of information which the claimant reasonably could have provided.

(c) Knowledge.

The claimant had sufficient notice that the information might be reportable.

(2) Claimant Responsibility.

The claimant is responsible for providing all of the information requested by the Department regarding his or her Unemployment Insurance claim. If the claimant has any questions about his or her eligibility for unemployment benefits, or the Department's instructions, the claimant must ask the Department for clarification before certifying to eligibility. If the claimant fails to obtain clarification, he or she will be at fault in any resulting overpayment.

(3) Receipt of Settlement or Back-Pay.

(a) A claimant is "at fault" for the resulting overpayment if he or she fails to advise the Department that grievance procedures are being pursued which may result in payment of wages for weeks during which he or she claims benefits.

(b) If the claimant advises the Department prior to receiving a settlement that he or she has filed a grievance with the employer and makes an assignment directing the employer to pay to the Department that portion of the settlement equivalent to the amount of unemployment compensation received, the claimant will not be "at fault" if an overpayment is created due to payment of wages attributable to weeks for which the claimant received benefits. If the grievance is resolved in favor of the claimant and the employer was properly notified of the wage assignment, the employer is liable to immediately reimburse the Department upon settlement of the grievance. If reimbursement is not made to the Department consistent with the provisions of the assignment, collection procedures will be initiated against the employer.

(c) If the claimant refuses to make an assignment of the wages claimed in a grievance proceeding, benefits will be withheld on the basis that the claimant is not unemployed because of anticipated receipt of wages. In this case, the claimant should file weekly claims and if back wages are not received when the grievance is resolved, benefits will be paid for weeks properly claimed provided the claimant is otherwise eligible.

(4) Receipt of Retirement Income.

Notwithstanding any other provision of this section, a claimant who could be eligible for retirement income but does not apply until after unemployment benefits have been paid, is "at fault" for any overpayment resulting from a retroactive payment of retirement benefits. See R994-401-203(1)(d) and (2)

R994-406-302. Repayment and Collection of Fault Overpayments.

(1) When the claimant has been determined to be "at fault" in the creation of an overpayment, the overpayment must be repaid. If the claimant is otherwise eligible and files for additional benefits during the same or any subsequent benefit year, 100% of the benefit payment to which the claimant is

entitled will be used to reduce the overpayment.

(2) Discretion for Repayment.

(a) Full restitution is required for all fault overpayments. However, legal collection proceedings may be held in abeyance at the Department's discretion and the overpayment will be deducted from future benefits payable during the current or subsequent benefit years. Discretion will only be exercised if the Department or the employer share fault in the creation of the overpayment but it is determined the claimant was more at fault under the provisions of rule R994-403-119e.

(3) Collection Procedures.

(a) The Department will send an initial overpayment notice on all outstanding fault or fraud overpayments. If, after 15 days, the claimant does not either make payment in full or enter into an installment payment agreement as provided in subsection (4) below the account is considered delinquent and the claimant is notified that a warrant will be filed unless a payment is received or an installment agreement entered into within 15 days. However, there may be other circumstances under which a warrant may be filed on any outstanding overpayment. A warrant attaches a lien to any personal or real property and establishes a judgment that is collectible under Utah Rules of Civil Procedure.

(b) All outstanding overpayments on which a lien has been filed are reported to the State Division of Finance for collection whereby any refunds due to the claimant from State income tax or any such rebates, refunds, or other amounts owed by the state and subject to legal attachment may be applied against the overpayment.

(c) No warrant will be issued on fault overpayments provided the claimant entered into an installment agreement within 30 days of the issuance of the initial overpayment notice and all payments are made in a timely manner in accordance with the installment agreement.

(4) Installment Payments.

(a) If repayment in full has not been made within 30 days of the initial overpayment notice or the claimant has not voluntarily entered into an installment agreement, the Department will allow the claimant to pay in installments by notifying the claimant in writing of the minimum installment payment which the claimant is required to make. If the claimant is unable to make the minimum installment payments, the claimant may request a review within ten days of the date written notice is mailed.

(b) Whether voluntarily or involuntary, installment payments will be established as follows:

If the entire overpayment is:

(i) \$3,000 or less, the monthly installment payment is equal to 50% of claimant's weekly benefit entitlement

(ii) \$3,001 to 5,000, the monthly installment payment is equal to 100% of claimant's weekly benefit entitlement

(iii) \$5,001 to 10,000 the monthly installment payment is equal to 125% of claimant's weekly benefit entitlement

(iv) \$10,001 or more the monthly installment payment is equal to 150% of claimant's weekly benefit entitlement

(c) Installment agreements will not be approved in amounts less than those established above except in cases where the claimant meets the requirements of economically disadvantaged as defined in R994-406-204(1)(b)(iii). On a periodic basis the Department may send notice to the claimant requesting verification of his or her disadvantaged status. If the claimant fails to provide the verification as requested, or no longer qualifies for a lesser installment payment, the Department will send the claimant a new monthly payment amount. The new installment payment amount may be in accordance with the percentages in subparagraph (b) or a lesser amount depending on the information received from the claimant.

(d) Minimum monthly installment agreement payments must be received by the Department by the last day of each

month. Payments not made timely are considered delinquent.

(5) Offsetting overpayments with subsequent eligible weeks.

If an overpayment is set up under Section R994-406-201 or R994-406-301 for weeks paid on a claim, the claimant may repay the overpayment by filing for open weeks in the same benefit year after the claim has been exhausted, provided the claimant is otherwise eligible. 100% of the compensation amount for each eligible week claimed will be credited to the established overpayment(s) up to the total amount of the outstanding overpayment balance owed to the Department.

R994-406-401. Claimant Fraud.

(1) All three elements of fraud must be proved to establish an intentional misrepresentation sufficient to constitute fraud. See section 35A-4-405(5). The three elements are:

(a) Materiality.

(i) Materiality is established when a claimant makes false statements or fails to provide accurate information for the purpose of obtaining;

(A) any benefit payment to which the claimant is not entitled, or

(B) waiting week credit which results in a benefit payment to which the claimant is not entitled.

(ii) A benefit payment received by fraud may include an amount as small as one dollar over the amount a claimant was entitled to receive.

(b) Knowledge.

A claimant must have known or should have known the information submitted to the Department was incorrect or that he or she failed to provide information required by the Department. The claimant does NOT have to know that the information will result in a denial of benefits or a reduction of the benefit amount. Knowledge can also be established when a claimant recklessly makes representations knowing he or she has insufficient information upon which to base such representations. A claimant has an obligation to read material provided by the Department or to ask a Department representative when he or she has a question about what information to report.

(c) Willfulness.

Willfulness is established when a claimant files claims or other documents containing false statements, responses or deliberate omissions. If a claimant delegates the responsibility to personally provide information or allows access to his or her Personal Identification Number (PIN) so that someone else may file a claim, the claimant is responsible for the information provided or omitted by the other person, even if the claimant had no advance knowledge that the information provided was false or important information was omitted.

(2) The Department relies primarily on information provided by the claimant when paying unemployment insurance benefits. Fraud penalties do not apply if the overpayment was the result of an inadvertent error. Fraud requires a willful misrepresentation or concealment of information for the purpose of obtaining unemployment benefits.

(3) The absence of an admission or direct proof of intent to defraud does not prevent a finding of fraud.

R994-406-402. Burden and Standard of Proof in Fraud Cases.

(1) The Department has the burden of proving each element of fraud.

(2) The elements of fraud must be established by clear and convincing evidence. There does not have to be an admission or direct proof of intent.

R994-406-403. Fraud Disqualification and Penalty.

(1) Penalty Cannot be Modified.

The Department has no authority to reduce or otherwise modify the period of disqualification or the monetary penalties imposed by statute. The Department cannot exercise repayment discretion for fraud overpayments and these amounts are subject to all collection procedures.

(2) Week of Fraud.

(a) A "week of fraud" shall include each week any benefits were received due to fraud. The only exception to this is if the fraud occurred during the waiting week causing the next eligible week to become the new waiting week. In that case, the new waiting week will not be considered as a week of fraud for disqualification purposes. However, because the new waiting week is a non-payable week, any benefits received during that week will be assessed as an overpayment and because the overpayment was as a result of fraud, a fraud penalty will also be assessed.

(b) If a claimant commits a fraudulent act during one week, and benefits are paid in later weeks which would not have been paid but for the original fraud, each week wherein benefits were paid is a week of fraud subject to an overpayment determination, a penalty and a disqualification period.

(c) If the only week of fraud was the waiting week and no benefit payments were made, there will be no disqualification period.

(3) Disqualification Period.

(a) The claimant is ineligible for benefits for a period of 13 weeks for the first week of fraud. For each additional week of fraud, the claimant will be ineligible for benefits for an additional six weeks. The total number of weeks of disqualification will not exceed 49 weeks for each fraud determination. The Department will issue a fraud determination on all weeks of fraud the Department knows about at the time of the determination.

(b) The disqualification period begins the Sunday following the date the Department fraud determination is made.

(4) Overpayment and Penalty.

(a) For any fraud decision where the initial fraud determination was issued on or before June 30, 2004, the claimant shall repay to the division an overpayment which is equal to the amount of the benefits actually received. In addition, a claimant shall be required to repay, as a civil penalty, the amount of benefits received as a direct result of fraud. "Benefits actually received" means the benefits paid or constructively paid by the Department. Constructively paid refers to benefits used to reduce or off-set an overpayment, deducted at the request of the claimant to pay income taxes, or used as a payment to the Office of Recovery Services for child support obligations or other payments as required by law. For example: The claimant has a weekly benefit amount of \$100 and reports no earnings during a week when he or she actually had \$50 in reportable earnings. Because a claimant may earn up to 30% of his or her weekly benefit amount with no deduction, the claimant was entitled to receive \$80 for that week and was thus overpaid the amount of \$20. If the elements of fraud are established, the claimant is disqualified during that week of fraud and all benefits paid for that week are considered an overpayment. The claimant would also be liable to repay, as a civil penalty, the \$20 received by direct reason of fraud. Therefore, in this example, the claimant would be liable for a total overpayment and penalty of \$120, an amount that would have to be repaid in its entirety before the claimant would be eligible for any further waiting week credit or unemployment benefits. The claimant would also be subject to a 13-week penalty period.

(b) For all fraud decisions where the initial department determination is issued on or after July 1, 2004, the claimant shall repay to the division the overpayment and, as a civil penalty, an amount equal to the overpayment. The overpayment in this subparagraph is the amount of benefits the claimant

received by direct reason of fraud. In the example in subsection (3)(a) of this section, the overpayment would be \$20 and the penalty would be \$20 for a total due of \$40. The overpayment and penalty would have to be repaid in its entirety before the claimant would be eligible for any further waiting week credit or unemployment benefits. The claimant would also be subject to a 13-week penalty period.

(5) Additional Penalties. Criminal prosecution of fraud may be pursued as provided by Subsection 35A-4-104(1) in addition to the administrative penalties.

R994-406-404. Repayment and Collection of Fraud Overpayments and Penalties.

Fraud overpayments and penalties will be collected in accordance with rule R994-406-302 except that a warrant will always issue in fraud overpayments even if the claimant enters into an installment agreement and is current in the monthly payments. Fraud overpayments and penalties may also be collected by civil action or warrant as provided by Subsections 35A-4-305(3) and 35A-4-305(5), respectively. The Department may use unemployment insurance benefits payable for weeks prior to the penalty period to reduce overpayments and penalties.

R994-406-405. Future Eligibility in Fraud Cases.

A claimant is ineligible for unemployment benefits or waiting week credit after a disqualification for fraud until any overpayment and penalty established in conjunction with the disqualification has been satisfied in full. Wage credits earned by the claimant cannot be used to pay benefits or transferred to another state until the overpayment and penalty are satisfied. An outstanding overpayment or penalty may NOT be satisfied by deductions from benefit payments for weeks claimed after the disqualification period ends, as a claimant is precluded from receiving any future benefits or waiting week credit as long as there is an outstanding fraud overpayment. However, a claimant may be permitted to file a new claim to preserve a particular benefit year. An overpayment is considered satisfied as of the beginning of the week during which payment is received by the Department. Benefits will be allowed as of the effective date of the new claim if a claimant repays the overpayment and penalty within seven days of the date the notice of the outstanding overpayment and penalty is mailed.

R994-406-406. Agency Error in Determining Disqualification Periods.

If the division has sufficient evidence to assess a disqualification prior to paying benefits, but fails to take action, a fraud disqualification will not be assessed even if the claimant provided false or information or deliberate omissions. The resulting overpayment will be assessed under the provisions of Subsections 35A-4-406(4)(b) or 35A-4-406(5)(a).
