

R105. Attorney General, Administration.**R105-1. Attorney General's Selection of Outside Counsel, Expert Witnesses and Other Litigation Support Services.****R105-1-1. Authority and Purpose.**

A. This rule is adopted to allow the Attorney General to obtain the services of outside counsel, expert witnesses or providers of litigation support services for agencies of the State without having to go through the Division of Purchasing in recognition of the overlapping jurisdiction in this area under the Utah Constitution and applicable statutes and the unique needs of the Attorney General in obtaining these professional services.

B. This rule is adopted pursuant to authority granted by the Chief Procurement Officer of the Division of Purchasing of the Department of Administrative Services under Utah Code Ann. Sec. 63-56-10 (1986), and pursuant to Utah Code Ann. Sec. 67-5-5 (1986), and the Utah Procurement Code (Chapter 56 of Title 63, Utah Code Ann. (1986)) and the applicable subsections thereof, viz., Sec. 63-56-1, -2, -4, -5, -16, -17, -18, -19., -20.5, -21, -22, -23, -24, -25, -26, -27, -28., -29, -30, -32, -33, -34, -40, -41, -45, -46, -47, -48, -49, and -50 (1986 and Supp. 1987).

R105-1-2. Definitions.

A. "Agency" means any department, division, agency, commission, board, council, committee, authority, institution, or other entity within the State government of Utah (see Utah Code Ann. Sec. 67-5-3 (1986)).

B. "Attorney General" means the Attorney General of the State of Utah, or the Attorney General's designee.

C. "Emergency" means a determination by the Attorney General in writing that due to the need for timeliness or confidentiality or both, the health, safety or welfare of the State, any State agency, or any citizen of the State could be significantly affected, threatened or endangered were the Attorney General to proceed to retain outside counsel, expert witnesses or providers of litigation support services under section R105-1-6 of this rule.

D. "Expert witness" means a person whose knowledge, skill, experience, training or education in a scientific, technical or other specialized area would enable the person to give testimony under Rule 702 of the Utah Rules of Evidence (Utah Code Ann. (1986)).

E. "In writing" means handwriting, typing or printing upon paper, dated and signed by the Attorney General or the Attorney General's designee. Unless otherwise indicated, a determination "in writing" is to be placed in the file, and together with the other documents in the file is not open for public inspection under section R105-1-14 of this rule.

F. "Litigation Support Services" means services the Attorney General determines are needed for the performance of the responsibilities and duties imposed upon the office of the Attorney General by the Constitution and laws of this State.

G. "Outside counsel" means an attorney or attorneys who are not, or a law firm whose attorneys are not, employed by the Attorney General's office pursuant to Utah Code Ann. Sec. 67-5-7 et seq. (1986), which the Attorney General appoints, pursuant to Utah Code Ann. Sec. 67-5-5 (1986), to represent, or provide legal advice or counsel to, an agency of the State. "Outside counsel" may or may not be designated as "Special Assistant Attorney General", as the Attorney General determines.

H. "Person" means any business, individual, union, committee, club, other organization, or group of individuals, not including a state agency or a local public procurement unit.

I. "Small purchase" means a determination by the Attorney General in writing that the fee expected to be charged by outside counsel, expert witnesses or providers of litigation support services for a project will be \$10,000.00 or less.

J. "Sole source" means a determination by the Attorney General in writing, after a reasonable attempt to locate potential providers of the needed services, that there is only one person

qualified and available on a particular project to serve as outside counsel or an expert witness or to provide litigation support services.

K. "State" means the State of Utah.

R105-1-3. Scope.

A. This rule applies to the procurement and appointment by the Attorney General of outside legal counsel, expert witnesses and providers of litigation support services.

B. The rule takes into account the special nature of the purposes for which outside counsel, expert witnesses and providers of litigation support services will often be retained, i.e., litigation, enforcement proceedings or investigations. Legal strategy often requires that a potential plaintiff or defendant not be given any notice of anticipated litigation, or that a party is considering calling expert witnesses; and enforcement proceedings and actions leading to enforcement proceedings are often delicate, with agencies and defendants concerned that in order to prevent undue harm to reputations, the public should not be made aware of any proceedings until preliminary actions have been completed. To enable the Attorney General to have the flexibility needed to provide outside counsel, expert witnesses or providers of litigation support services in instances where obtaining those services through a publicized solicitation could interfere with legal strategies or could disclose information prematurely, the rule specifically authorizes the Attorney General to determine, pursuant to Utah Code Ann. Sec. 63-56-24 (1986), that an emergency exists that would pose a threat to the public health, welfare or safety were the Attorney General publicly to disclose, through a request for proposals, information which would otherwise be necessary for a person to submit a proposal or were the Attorney General to delay procuring those services because of the time constraints imposed by the usual procurement procedures for those services. The rule does provide that even in those "emergency" situations, however, the Attorney General will make the selection with as much competition as practicable under the circumstances.

C. The rule also provides that the Attorney General will select outside counsel, expert witnesses and providers of litigation support services pursuant to competitive sealed proposals, rather than competitive sealed bids, whenever the Attorney General does not make those selections through the small purchase, sole source, or emergency provisions of this rule.

R105-1-4. Determination of Small Purchase, Sole Source, Emergency, or Waiver of Request for Proposals.

A. If the Attorney General determines it is necessary to retain outside counsel, expert witnesses or providers of litigation support services, the Attorney General may first determine whether the retention of outside counsel, expert witnesses or providers of litigation support services can be made under provisions of this rule for:

1. Small purchases pursuant to section R105-1-7.
2. Sole source providers pursuant to section R105-1-10.
3. Emergencies pursuant to section R105-1-9.
4. Waiver for request for proposals pursuant to section R105-1-10.

B. After the determination under subsection R105-1-4A of this rule has been made, the Attorney General shall proceed to select outside counsel, expert witnesses or providers of litigation support services pursuant to the applicable provisions of this rule.

R105-1-5. Use of Competitive Sealed Proposals in Lieu of Competitive Sealed Bids.

Projects for which outside counsel, expert witnesses, or providers of litigation support services are obtained are usually unique, and the person submitting the lowest proposed fee

might not be the best person to provide the needed service for that particular project. As a result, it is not practicable or advantageous to the State or its agencies for the Attorney General to obtain the services of outside counsel, expert witnesses, or providers of litigation support services through competitive sealed bids. Thus, whenever the Attorney General selects outside counsel, expert witnesses, or providers of litigation support services under this rule, the Attorney General will request and receive competitive sealed proposals, rather than competitive sealed bids.

R105-1-6. Selection of Outside Counsel, Expert Witnesses and Providers of Litigation Support Services Other than through Small Purchase, Sole Source, or Emergency, or Waiver of Request for Proposals Provisions.

A. If the Attorney General determines the retention of outside counsel, expert witnesses or providers of litigation support services may not be made under sections R105-1-7, R105-1-8, R105-1-9, or Rule R105-1-10 of this rule, the Attorney General shall proceed under this section.

B. The Attorney General shall prepare a request for proposals ("RFP"), to serve as outside counsel, expert witnesses or providers of litigation support services. The RFP shall contain, at a minimum, the following information:

1. If the RFP is for outside counsel, the name of the agency, if any, for which outside counsel is sought.

2. The nature of the project.

3. The anticipated number of hours that will be required, the beginning date, and the date the project is expected to be completed. If unknown or irrelevant, the RFP shall so state.

4. The number of attorneys, law firms, expert witnesses or providers of litigation support services that will be retained.

5. Whether there is a preference or requirement as to how services are to be billed, e.g., payment will be made from a maximum amount against which fees can be billed on an hourly basis, or through a lump sum for the entire project, or through a contingent fee arrangement, or through a set hourly fee.

6. Whether proposals will be accepted from law firms, associations of attorneys or law firms, or associations of expert witnesses or providers of litigation support services.

7. The criteria under which the proposals will be evaluated. The RFP will state the criteria in the order of importance in which the proposals will be evaluated, and the RFP will explicitly state that the criteria are listed in the order in which the proposals will be evaluated.

8. Examples of criteria include, but are not limited to:

a. Experience of the applicant attorney, law firm, or expert witness or provider of litigation support services on the type of project for which the RFP is issued.

b. If the RFP is for outside counsel, and the applicant is a law firm, each attorney in the firm that will be assigned to the project, and the experience on the type of project for which the RFP is issued of each attorney in the firm that will be assigned to the project.

c. Whether the applicant attorney, law firm, or expert witness or provider of litigation support services may associate himself or herself with other attorneys, law firms, expert witnesses, providers of litigation support services, or whether the Attorney General will require association. If the Attorney General requires association, a specification of who the attorney, law firm, expert witness, or provider of litigation support services will be what experience each has in projects of the type for which the RFP was issued, what each will contribute to the project, and the percentage of the project that will be performed by each.

d. Any potential conflicts in providing the services on the project or projects for which the RFP is issued.

e. The fee to be charged, and how it will be determined, e.g., hourly rate, hourly rate with minimum fee, hourly rate with

maximum fee, lump sum payment. If the attorney, law firm, expert witness, or provider of litigation support services intends to associate with other attorneys, law firms, expert witnesses, or provider of litigation support services, the proposal should state whether the fees and costs quoted include those of the associated attorney, law firm, expert witness or provider of litigation support services, and, regardless of whether the proposal does or does not include their fees and costs, what their fees and costs would be expected to be for the project.

9. The date by which proposals must be received, and the date on which a decision can be expected to be announced.

10. The attorney, law firm, expert witness or provider of litigation support services whose proposal is determined to be most advantageous to the State, as determined by the Attorney General, and who accepts appointment by the Attorney General for the project, will be required to enter into a written agreement with the Attorney General's office within a reasonable time after the attorney, law firm, expert witness or provider of litigation support services has been notified that the Attorney General desires to retain their his or her services and the attorney, law firm, expert witness or provider of litigation support services has accepted.

11. The Attorney General reserves the right to reject late-filed or nonconforming proposals or any and all proposals.

12. The Attorney General shall notify all persons submitting proposals of the attorney, law firm, expert witness or provider of litigation support services selected, but after the date by which a decision can be expected, any person may call the Attorney General's office to learn who has been retained for the project.

13. All information in all proposals, including the winning proposal, is and will remain closed from public inspection under section R105-1-14 of this rule.

C. The RFP shall be printed in the "Legal Notices" section of a newspaper of general circulation in the State at least two weeks before the proposals are due.

1. In the alternative, the Attorney General may, in his or her discretion, have printed in the "Legal Notices" section of a newspaper of general circulation at least three weeks before proposals are due a summary of the RFP, containing sufficient information to convey the nature of the project to a reader, and stating that a copy of the RFP will be sent upon request made to the Attorney General's office, and shall list the Attorney General's office address and phone number.

2. The times in subsection R105-1-6C of this rule may be shortened if the Attorney General determines in writing that the interests of the State will best be served by shortening the times.

D. The Attorney General will maintain a record of all attorneys, law firms, expert witnesses and providers of litigation support services who wish to receive copies of RFPs for outside counsel, expert witnesses or providers of litigation support services. To be placed on the list, the attorney, law firm, expert witness or provider of litigation support services shall submit to the Attorney General's office a written request, stating the name of the attorney, law firm, expert witness or provider of litigation support services and the area or areas in which the attorney or law firm would be qualified to serve as outside counsel, the expert witness would be qualified to serve as an expert witness, and provider of litigation support services would be qualified to provide those services. The Attorney General shall place the names of the attorney, law firm, expert witness or provider of litigation support services on the appropriate list. Whenever the Attorney General determines to issue an RFP for services in an area for which an attorney, law firm, expert witness or provider of litigation support services has previously submitted requests that their names be included on the list retained by the Attorney General's office for service, the Attorney General shall send, via first class mail, postage prepaid, a copy of the RFP to those persons.

R105-1-7. Small Purchases.

A. If the Attorney General determines, using the best information available, that the total of the fees for outside counsel, expert witnesses or providers of litigation support services for a project will be \$10,000.00 or less, exclusive of costs, the Attorney General shall make a finding in writing to that effect.

B. Upon making the finding in writing required by subsection A of this rule, the Attorney General may appoint the attorney or law firm as outside counsel or the person as expert witness or provider of litigation support services without proceeding under section R105-1-6 of this rule.

C. The Attorney General shall appoint the attorney or law firm as outside counsel, or expert witness or provider of litigation support services, under this section, whose services, in the Attorney General's determination, would be most advantageous to the State and its agencies, and shall make a finding in writing to that effect.

D. Should the Attorney General, subsequent to appointing outside counsel, expert witnesses or providers of litigation support services under this section, determine or be informed that the actual fees that will be required for the project will exceed \$10,000.00, exclusive of costs, before the outside counsel, expert witnesses or providers of litigation support services have rendered any services on the project, the Attorney General shall terminate the appointment under this section and shall proceed to select outside counsel, expert witnesses or providers of litigation support services pursuant to sections R105-1-6, R105-1-8, R105-1-9, or R105-1-10 of this rule as the Attorney General may determine under section R105-1-4 of this rule.

E. A project shall not be artificially divided so as to constitute more than one small purchase.

F. In appointing outside counsel, expert witnesses or providers of litigation support services under this section, the Attorney General shall also abide by section R105-1-11 of this rule, except that in matters involving \$500.00 or less, the Attorney General may make purchases without complying with R105-1-6 or R105-1-11.

R105-1-8. Sole Source.

A. If the Attorney General determines after reasonable efforts to locate providers for a project, that there is only one attorney or law firm that could provide services as outside counsel, or only one person that could provide services as an expert witness or could provide other litigation support services, the Attorney General shall make a finding in writing to that effect.

B. Upon making the written finding required by subsection A of this rule, the Attorney General may appoint the attorney or law firm as outside counsel or the person as expert witness or provider of litigation support services without proceeding under section R105-1-6 of this rule.

C. In selecting and designating outside counsel, expert witnesses or providers of litigation support services under this section R105-1-8, the Attorney General shall negotiate the best terms possible for the State.

R105-1-9. Emergencies.

A. The Attorney General may appoint outside counsel, expert witnesses or providers of litigation support services without complying with section R105-1-6 of this rule if the Attorney General first determines, and makes a finding, in writing, based upon the best information available, that the health, safety or welfare of the State, any State agency, or any citizen of the State could be significantly affected, threatened or endangered, if:

1. The Attorney General were to proceed to retain outside counsel, expert witnesses or providers of litigation support

services under the time constraints set forth in section R105-1-6 of this rule; or

2. The Attorney General were to publicly disclose RFP information and by doing so would cause situations such as hindering or impairing legal strategies and tactics, or causing harm to parties or potential parties to proceedings or to third persons, or causing harm to the State or a State agency.

B. In appointing outside counsel, expert witnesses or providers of litigation support services under this section R105-1-9, the Attorney General shall also abide by section R105-1-11 of this rule.

R105-1-10. Waiver of Request for Proposals.

A. Pursuant to Utah Code Ann. Sec. 63-56-21(1) (Supp. 1986), the Attorney General may waive the requirement of requesting and receiving proposals if the Attorney General makes a finding in writing that it is not practicable or advantageous to the State to obtain outside counsel, expert witnesses or providers of legal services due to the following:

1. There exists an emergency or other need for immediate action by the Attorney General in obtaining those services; or

2. There is a need for confidentiality that could be compromised were the Attorney General to obtain these services through requests for proposals.

B. In appointing outside counsel, expert witnesses or providers of litigation support services under this section R105-1-10, the Attorney General shall also abide by section R105-1-11 of this rule.

R105-1-11. Competitive Proposals for Small Purchases or Emergencies.

In appointing outside counsel, expert witnesses or providers of litigation support services under sections R105-1-7 or R105-1-9, the Attorney General shall still make appointments on a competitive basis insofar as possible. If practicable, the Attorney General shall at least do the following:

A. Call at least two attorneys, law firms, expert witnesses or providers of litigation support services, as the case may be, who the Attorney General determines are qualified to be appointed as outside counsel, expert witnesses or providers of litigation support services for the project.

B. Disclose information the Attorney General determines necessary for the attorney, law firm, expert witness or provider of litigation support services contacted to ascertain the nature of the services required and whether the attorney, law firm, expert witness or provider of litigation support services might have a conflict, are not qualified or are not available to serve on the project.

C. After determining that the attorney, law firm, expert witness or provider of litigation support services does not have a conflict and is qualified and available to serve on the project, the Attorney General may disclose enough information to allow the attorney, law firm, expert witness or provider of litigation support services to make a good faith estimate as to whether he or she could undertake the project and what the fees and costs would be.

R105-1-12. Proposals May Not Be Dependent on Proposals Submitted by Others.

Proposals received by the Attorney General, whether submitted in response to an RFP under section R105-1-6 of this rule, or whether submitted to the Attorney General under sections R105-1-7, R105-1-8, R105-1-9, or R105-1-10 of this rule, must stand alone and may not be dependent on proposals submitted by others submitting proposals, e.g., a proposal to perform services "for five percent less than the lowest fee received in any other proposal submitted". A proposal reliant upon the proposal submitted by another submitting a proposal will not be considered for appointment by the Attorney General.

R105-1-13. Contracts.

All attorneys, law firms or other persons retained under sections R105-1-6, R105-1-7, R105-1-8, R105-1-9 or R105-1-10 of this rule shall be required to enter into a written contract with the Attorney General and any person or agency the Attorney General may require. The written contract shall contain all terms set forth in:

A. The RFP, except to the extent the Attorney General has explicitly agreed those terms may be modified;

B. The proposal submitted to and accepted by the Attorney General, except to the extent the Attorney General explicitly has agreed those terms may be modified; and

C. Any terms required by law, whether by the constitutions, statutes, or rules or regulations of the United States or the State of Utah.

R105-1-14. Retention and Non-availability of Files.

A. All proposals submitted to the Attorney General under this rule become the property of the State of Utah and the office of the Attorney General.

B. All information in all proposals shall be placed in a file relating to the project for which the proposal was submitted. Each file shall contain:

1. If applicable, a copy of the finding in writing by the Attorney General that outside counsel, expert witnesses or providers of litigation support services may be obtained for the project under sections R105-1-7, R105-1-8, R105-1-9, or R105-1-10 of this rule; otherwise, a copy of the request for proposals and a copy of the affidavit of publication in the newspaper of general circulation.

2. All proposals received, and modifications, in writing, to any proposals if those modifications have been negotiated by the Attorney General.

3. A determination in writing by the Attorney General as to why a proposal was selected as being most advantageous by the State.

C. Information in the file shall not be open for public inspection.

D. After a reasonable period of time, which the Attorney General shall determine a file may be transferred to the State Archives, but the records in the file shall continue to be closed to public inspection.

6.2.1.1. Forms Required for Closing. Principal brokers and associate brokers may fill out forms in addition to the standard state-approved forms if the additional forms are necessary to close a transaction. Examples include closing statements, and warranty or quit claim deeds.

6.2.1.2. Forms Prepared by an Attorney. Any licensee may fill out forms prepared by the attorney for the buyer or lessee or the attorney for the seller or lessor to be used in place of any form listed in R162-6.2.1 (a) through (g) if the buyer or lessee or the seller or lessor requests that other forms be used and the licensee verifies that the forms have in fact been drafted by the attorney for the buyer or lessee, or the attorney for the seller or lessor.

6.2.1.3. Additional Forms. If it is necessary for a licensee to use a form for which there is no state-approved form, for example a lease, the licensee may fill in the blanks on any form which has been prepared by an attorney, regardless of whether the attorney was employed for the purpose by the buyer, seller, lessor, lessee, brokerage, or an entity whose business enterprise is selling blank legal forms.

6.2.1.4. Standard Supplementary Clauses. There are Standard Supplementary Clauses approved by the Utah Real Estate Commission which may be added to Real Estate Purchase Contracts by all licensees. The use of the Standard Supplementary Clauses will not be considered the unauthorized practice of law.

6.2.2. Copies of Agreement. After a purchase agreement is properly signed by both the buyer and seller, it is the responsibility of each participating licensee to cause copies thereof, bearing all signatures, to be delivered or mailed to the buyer and seller with whom the licensee is dealing. The licensee preparing the document shall not have the parties sign for a final copy of the document prior to all parties signing the contract evidencing agreement to the terms thereof. After a lease is properly signed by both landlord and tenant, it is the responsibility of the principal broker to cause copies of the lease to be delivered or mailed to the landlord or tenant with whom the brokerage or property management company is dealing.

6.2.3. Residential Construction Agreement. The Real Estate Purchase Contract for Residential Construction must be used for all transactions for the construction of dwellings to be built or presently under construction for which a Certificate of Occupancy has not been issued.

6.2.4. Real Estate Auctions. A principal broker who contracts or in any manner affiliates with an auctioneer or auction company which is not licensed under the provisions of Section 61-2-1 et seq. for the purpose of enabling that auctioneer or auction company to auction real property in this state, shall be responsible to assure that all aspects of the auction comply with the requirements of this section and all other laws otherwise applicable to real estate licensees in real estate transactions. Auctioneers and auction companies who are not licensed under the provisions of Section 61-2-1 et seq. may conduct auctions of real property located within this state upon the following conditions:

6.2.4.1. Advertising. All advertising and promotional materials associated with an auction must conspicuously disclose that the auction is conducted under the supervision of a named principal broker licensed in this state; and

6.2.4.2. Supervision. The auction must be conducted under the supervision of a principal broker licensed in this state who must be present at the auction; and

6.2.4.3. Use of Approved Forms. Any purchase agreements used at the auction must meet the requirements of

Section 61-2-20 and must be filled out by a Utah real estate licensee; and

6.2.4.4. Placement of Deposits. All monies deposited at the auction must be placed either in the real estate trust account of the principal broker who is supervising the auction or in an escrow depository agreed to in writing by the parties to the transaction.

6.2.4.5. Closing Arrangements. The principal broker supervising the auction shall be responsible to assure that adequate arrangements are made for the closing of each real estate transaction arising out of the auction.

6.2.5. Guaranteed Sales. As used herein, the term "guaranteed sales plan" includes: (a) any plan in which a seller's real estate is guaranteed to be sold or; (b) any plan whereby a licensee or anyone affiliated with a licensee will purchase a seller's real estate if it is not purchased by a third party in the specified period of a listing or within some other specified period of time.

6.2.5.1. In any real estate transaction involving a guaranteed sales plan, the licensee shall provide full disclosure as provided herein regarding the guarantee:

(a) Written Advertising. Any written advertisement by a licensee of a "guaranteed sales plan" shall include a statement advising the seller that if the seller is eligible, costs and conditions may apply and advising the seller to inquire of the licensee as to the terms of the guaranteed sales agreement. This information shall be set forth in print at least one-fourth as large as the largest print in the advertisement.

(b) Radio/Television Advertising. Any radio or television advertisement by a licensee of a "guaranteed sales plan" shall include a conspicuous statement advising if any conditions and limitations apply.

(c) Guaranteed Sales Agreements. Every guaranteed sales agreement must be in writing and contain all of the conditions and other terms under which the property is guaranteed to be sold or purchased, including the charges or other costs for the service or plan, the price for which the property will be sold or purchased and the approximate net proceeds the seller may reasonably expect to receive.

6.2.6. Agency Disclosure. In every real estate transaction involving a licensee, as agent or principal, the licensee shall clearly disclose in writing to his respective client(s) or any unrepresented parties, his agency relationship(s). The disclosure shall be made prior to the parties entering into a binding agreement with each other. The disclosure shall become part of the permanent file.

6.2.6.1. When a binding agreement is signed in a sales transaction, the prior agency disclosure shall be confirmed in the currently approved Real Estate Purchase Contract or, with substantially similar language, in a separate provision incorporated in or attached to that binding agreement.

6.2.6.1.1. The blank in paragraph 5 of the approved Real Estate Purchase Contract for "Listing Broker" shall be filled in with either the principal broker's individual name or the principal broker's brokerage name. Notwithstanding the fact that either the principal broker's name or the brokerage name may be shown in paragraph 5, filling in the name of the brokerage does not change the agency relationship with the seller.

6.2.6.2. When a lease or rental agreement is signed, a separate provision shall be incorporated in or attached to it confirming the prior agency disclosure. The agency disclosure shall be in the form stated in R162-6.2.6.1, but shall substitute terms applicable for a rental transaction for the terms "buyer", "seller", "listing agent", and "selling agent".

6.2.6.3. Disclosure to other agents. An agent who has established an agency relationship with a principal shall disclose who he or she represents to another agent upon initial contact with the other agent.

6.2.7. Duty to Inform. Sales agents and associate brokers must keep their principal broker or branch broker informed on a timely basis of all real estate transactions in which the licensee is involved, as agent or principal, in which the licensee has received funds on behalf of the principal broker or in which an offer has been written.

6.2.8. Broker Supervision. Principal brokers and associate brokers who are branch brokers shall be responsible for exercising active supervision over the conduct of all licensees affiliated with them.

6.2.8.1. A broker will not be held responsible for inadequate supervision if:

(a) An affiliated licensee violates a provision of Section 61-2-1, et seq., or the rules promulgated thereunder, in contravention of the supervising broker's specific written policies or instructions; and

(b) Reasonable procedures were established by the broker to ensure that licensees receive adequate supervision and the broker has followed those procedures; and

(c) Upon learning of the violation, the broker attempted to prevent or mitigate the damage; and

(d) The broker did not participate in the violation; and

(e) The broker did not ratify the violation; and

(f) The broker did not attempt to avoid learning of the violation.

6.2.8.2. The existence of an independent contractor relationship or any other special compensation arrangement between the broker and affiliated licensees shall not release the broker and licensees of any duties, obligations, or responsibilities.

6.2.9. Disclosure of Fees. If a real estate licensee who is acting as an agent in a transaction will receive any type of fee in connection with a real estate transaction in addition to a real estate commission, that fee must be disclosed in writing to all parties to the transaction.

6.2.10. Fees from Builders. All fees paid to a licensee for referral of prospects to builders must be paid to the licensee by the principal broker with whom he is licensed and affiliated. All fees must be disclosed as required by R162-6.2.10.

6.2.11. Fees from Manufactured Housing Dealers. If a licensee refers a prospect to a manufactured home dealer or a mobile home dealer, under terms as defined in Section 58-56-1, et seq., any fee paid for the referral of a prospect must be paid to him by the principal broker with whom he is licensed.

6.2.12. Gifts and Inducements. A gift given by a principal broker to a buyer or seller, lessor or lessee, in a real estate transaction as an inducement to use the services of a real estate brokerage, or in appreciation for having used the services of a brokerage, is permissible and is not an illegal sharing of commission. If an inducement is to be offered to a buyer or seller, lessor or lessee, who will not be obligated to pay a real estate commission in a transaction, the principal broker must notify the party who will pay the commission that the inducement will be offered. This rule does not authorize a principal broker to give any type of inducement that would violate the underwriting guidelines that apply to the loan for which a borrower has applied.

6.2.13. "Due-On-Sale" Clauses. Real estate licensees have an affirmative duty to disclose in writing to buyers and sellers the existence or possible existence of a "due-on-sale" clause in an underlying encumbrance on real property, and the potential consequences of selling or purchasing a property without obtaining the authorization of the holder of the underlying encumbrance.

6.2.14. Personal Assistants. With the permission of the principal broker with whom the licensee is affiliated, the licensee may employ an unlicensed individual to provide services in connection with real estate transactions which do not require a real estate license, including the following examples:

(a) Clerical duties, including making appointments for prospects to meet with real estate licensees, but only if the contact has been initiated by the prospect and not by the unlicensed person;

(b) At an open house, distributing preprinted literature written by a licensee, so long as a licensee is present and the unlicensed person furnishes no additional information concerning the property or financing and does not become involved in negotiating, offering, selling or filling in contracts;

(c) Acting only as a courier service in delivering documents, picking up keys, or similar services, so long as the courier does not engage in any discussion of, or filling in of, the documents;

(d) Placing brokerage signs on listed properties;

(e) Having keys made for listed properties; and

(f) Securing public records from the County Recorders' Offices, zoning offices, sewer districts, water districts, or similar entities.

6.2.14.1. If personal assistants are compensated for their work, they shall be compensated at a predetermined rate which is not contingent upon the occurrence of real estate transactions. Licensees may not share commissions with unlicensed persons who have assisted in transactions by performing the services listed in this rule.

6.2.14.2. The licensee who hires the unlicensed person will be responsible for supervising the unlicensed person's activities, and shall ensure that the unlicensed person does not perform activity which requires a real estate license.

6.2.14.3. Unlicensed individuals may not engage in telephone solicitation or other activity calculated to result in securing prospects for real estate transactions, except as provided in R162-6.2.14.(a) above.

6.2.15. Fiduciary Duties. A principal broker and licensees acting on his behalf owe the following fiduciary duties to the principal:

6.2.15.1. Duties of a seller's or lessor's agent. A principal broker and licensees acting on his behalf who act solely on behalf of the seller or the lessor owe the seller or the lessor the following fiduciary duties:

(a) Loyalty, which obligates the agent to act in the best interest of the seller or the lessor instead of all other interests, including the agent's own;

(b) Obedience, which obligates the agent to obey all lawful instructions from the seller or lessor;

(c) Full disclosure, which obligates the agent to tell the seller or lessor all material information which the agent learns about the buyer or lessee or about the transaction;

(d) Confidentiality, which prohibits the agent from disclosing any information given to the agent by the seller or lessor which would likely weaken the seller's or lessor's bargaining position if it were known, unless the agent has permission from the seller or lessor to disclose the information. This duty does not require the agent to withhold any known material fact concerning a defect in the property or the seller's or lessor's ability to perform his obligations;

(e) Reasonable care and diligence;

(f) Holding safe and accounting for all money or property entrusted to the agent; and

(g) Any additional duties created by the agency agreement.

6.2.15.2. Duties of a buyer's or lessee's agent. A principal broker and licensees acting on his behalf who act solely on behalf of the buyer or lessee owe the buyer or lessee the following fiduciary duties:

(a) Loyalty, which obligates the agent to act in the best interest of the buyer or lessee instead of all other interests, including the agent's own;

(b) Obedience, which obligates the agent to obey all lawful instructions from the buyer or lessee;

(c) Full Disclosure, which obligates the agent to tell the

buyer or lessee all material information which the agent learns about the property or the seller's or lessor's ability to perform his obligations;

(d) Confidentiality, which prohibits the agent from disclosing any information given to the agent by the buyer or lessee which would likely weaken the buyer's or lessee's bargaining position if it were known, unless the agent has permission from the buyer or lessee to disclose the information. This duty does not permit the agent to misrepresent, either affirmatively or by omission, the buyer's or lessee's financial condition or ability to perform;

(e) Reasonable care and diligence;

(f) Holding safe and accounting for all money or property entrusted to the agent; and

(g) Any additional duties created by the agency agreement.

6.2.15.3. Duties of a limited agent. A principal broker and licensees acting on his behalf who act as agent for both seller and buyer, or lessor and lessee, commonly referred to as "dual agents," are limited agents since the fiduciary duties owed to seller and to buyer, or to lessor and lessee, are inherently contradictory. A principal broker and licensees acting on his behalf may act in this limited agency capacity only if the informed consent of both buyer and seller, or lessor and lessee, is obtained.

6.2.15.3.1. In order to obtain informed consent, the principal broker or a licensee acting on his behalf shall clearly explain to both buyer and seller, or lessor and lessee, that they are each entitled to be represented by their own agent if they so choose, and shall obtain written agreement from both parties that they will each be giving up performance by the agent of the following fiduciary duties:

(a) The principal broker or a licensee acting on his behalf shall explain to buyer and seller, or lessor and lessee, that they are giving up their right to demand undivided loyalty from the agent, although the agent, acting in this neutral capacity, shall advance the interest of each party so long as it does not conflict with the interest of the other party. In the event of conflicting interests, the agent will be held to the standard of neutrality; and

(b) The principal broker or a licensee acting on his behalf shall explain to buyer and seller, or lessor and lessee, that there will be a conflict as to a limited agent's duties of confidentiality and full disclosure, and shall explain what kinds of information will be held confidential if told to a limited agent by either buyer or seller, or lessor and lessee, and what kinds of information will be disclosed if told to the limited agent by either party. The limited agent may not disclose any information given to the agent by either principal which would likely weaken that party's bargaining position if it were known, unless the agent has permission from the principal to disclose the information; and

(c) The principal broker or a licensee acting on his behalf shall explain to the buyer and seller, or lessor and lessee, that the limited agent will be required to disclose information given to the agent in confidence by one of the parties if failure to disclose the information would be a material misrepresentation regarding the property or regarding the abilities of the parties to fulfill their obligations.

(d) The Division and the Commission shall consider use of consent language approved by the Division and the Commission to be informed consent.

6.2.15.3.2. In addition, a limited agent owes the following fiduciary duties to all parties:

(a) Obedience, which obligates the limited agent to obey all lawful instructions from either the buyer or the seller, lessor and lessee, consistent with the agent's duty of neutrality;

(b) Reasonable care and diligence;

(c) Holding safe all money or property entrusted to the limited agent; and

(d) Any additional duties created by the agency agreement.

6.2.15.4. Duties of a sub-agent. A principal broker and licensees acting on his behalf who act as sub-agents owe the same fiduciary duty to a principal as the brokerage retained by the principal.

Until January 1, 2005, the term of a renewed school certification shall be one calendar year. Beginning on January 1, 2005, the term of a renewed school certification shall be twenty-four months. Conditions of certification include the following:

8.4.1 A school shall teach the approved course of study as outlined in the State Approved Course Outline.

8.4.2 A school shall require each student to attend the required number of hours and pass a final examination. A school shall maintain a record of each student's attendance for a minimum of five years after enrollment.

8.4.3 A school shall not accept a student for a reduced number of hours without first having a written statement from the Division which defines the exact number of hours the student needs.

8.4.4 A school shall not make any misrepresentation in its advertising about any course of instruction, and shall be able to provide substantiation of any claims made. All advertising and public notices shall be free of statements or implications which do not enhance the dignity and integrity of the real estate profession. A school shall not make disparaging remarks about a competitor's services or methods of operation.

8.4.5 A school shall limit approved guest lecturers who are experts in related fields to a total of 20% of the instructional hours per approved course. A guest lecturer shall provide evidence of professional qualifications to the Division prior to being used as a guest lecturer.

8.4.6 Within 15 calendar days after the occurrence of any material change in the school which would affect its approval, the school shall give the Division written notice of that change.

8.4.7 A school shall not attempt by any means to obtain or use the questions on the preclicensing examinations unless the questions have been dropped from the current exam bank.

8.4.8 A school shall not give any valuable consideration to a real estate brokerage for having referred students to the school. A school shall not accept valuable consideration from a brokerage for having referred students to the brokerage.

8.4.8.1 If the school agrees, real estate brokerages may be

allowed to solicit for agents at the school. No solicitation may be made during the class time nor during the student break time. Solicitation may be made only after the regularly scheduled class so that no student will be obligated to stay for the solicitation.

8.4.9. A school shall use only certified instructors or guest lecturers who have been registered with the Division.

8.4.10 A school's owners and director shall be solely responsible for the quality of instruction in the school and for adherence to the state laws and regulations regarding school and instructor certification.

8.4.10.1 A school director shall provide the instructor with the approved content outline for each course and shall assure the content has been taught.

R162-8-5. Determining Fitness for Instructor Certification.

8.5. In order to be certified as a real estate instructor, the instructor applicant must have integrity and be honest, truthful, reputable and competent. The determination of whether an applicant possesses these qualifications will be made by the Division, with the concurrence of the Commission.

8.5.1. In determining fitness for certification, the Division and Commission will consider information which shall include the following:

(a) whether the applicant has had a license to practice in the real estate profession, or any other regulated profession or occupation, denied, restricted, suspended, or revoked or subjected to any other disciplinary action by this or another jurisdiction.

(b) whether the applicant has been permitted to resign or surrender a real estate license or any other professional license or has ever allowed a license to expire while the applicant was under investigation by, or while action was pending against the applicant by a real estate licensing or any other regulatory agency.

(c) whether any action is pending against the applicant by any real estate licensing or other regulatory agency.

(d) whether the applicant is currently under investigation for, or charged with, or has ever been convicted of or pled guilty or no contest to, or entered a plea in abeyance to, a misdemeanor or felony.

(e) whether the applicant has ever been placed on probation or ordered to pay a fine or restitution in connection with any criminal offense or a licensing action.

(f) whether a civil judgment has ever been entered against the applicant based on fraud, misrepresentation or deceit and whether the judgment has been fully satisfied.

(g) whether restitution ordered by a court in a criminal conviction has been fully satisfied;

(h) whether the probation in a criminal conviction or a licensing action has been complete and fully served; and

(i) whether there has been subsequent good conduct on the part of the applicant. If, because of lapse of time and subsequent good conduct and reputation or other reason deemed sufficient, it shall appear to the Commission and the Division that the interest of the public will not likely be in danger by the granting of a certification, the Commission and the Division may approve the applicant relating to honesty, integrity, truthfulness, reputation and competency.

R162-8-6. Instructor Application for Certification.

8.6 An instructor shall not teach a preclicensing course by himself without having been certified by the Division prior to teaching. Each instructor and each adjunct instructor requesting approval to be certified to teach the education requirements of real estate licensing must make application for approval on a form prescribed by the Division.

8.6.1 The instructor and the adjunct instructor applicant will demonstrate the initial ability to teach by either meeting the

minimum point requirement outlined on the application form or by receiving a conditional approval granted by the division. The application form shall be received by the Division before the instructor applicant can begin to teach in the classroom.

8.6.1.1 In the event an instructor candidate fails to meet the minimum point requirement outlined on the application form, and upon written recommendation from the certified school, the division may issue a conditional approval for the candidate to proceed into the instructor apprentice program.

8.6.1.2 The applicant receiving a conditional approval from the division will complete the apprentice teaching as outlined in 8.6.2.2 and 8.6.2.3 or as outlined in 8.6.4.1 and 8.6.4.2. and will be audited during the apprentice teaching by the education director of the division using the same evaluation form being used by the students.

8.6.1.3 The applicant receiving a conditional approval will need to receive the same satisfactory recommendation as outlined in 8.6.2.4 or 8.6.4.3 in addition to approval from the education director of the division before becoming certified.

8.6.2 The instructor applicant for the 90 hour salesagent prelicensing course will complete an instructor apprentice program, the requirements of which are the following:

8.6.2.1 The instructor applicant will either audit each course to be taught by him and prepare teaching notes on the course of study; or

8.6.2.2 The instructor applicant will co-teach the course with a fully certified instructor; and thereafter

8.6.2.3 The instructor applicant will teach the course under the direction of a fully certified instructor. The instructor will teach the curriculum as provided by the school.

8.6.2.4 The school will provide to the division evidence of a satisfactory recommendation made by the certified instructor and the school director. The supervising appraiser shall be responsible to determine the point at which a trainee is competent to participate in each of these activities.

105.3.2.1 A trainee may not solicit an assignment or accept an assignment on behalf of anyone other than the trainee's supervisor or the supervisor's appraisal firm. All engagement letters shall be addressed to the supervisor or the supervisor's appraisal firm, not to the trainee. In all appraisal assignments, the supervisor shall delegate only such duties as are appropriate to the trainee and shall directly supervise the trainee in the performance of those duties.

105.3.3 In order to become a trainee, the person must have successfully completed 75 classroom hours of State-approved education in subjects related to real estate appraisal, including the Uniform Standards of Professional Appraisal Practice (USPAP), must have passed the final examination in the USPAP course, and must file a notification with the Division as

provided in Subsection 105.3.3.1. The education required by this Subsection must have been completed within the 5 years preceding the filing of the notification required by Subsection 105.3.3.1.

105.3.3.1 Trainee Notification. Prior to performing any of the appraisal-related activities for which points will be claimed toward licensure, a trainee must file with the Division a notification in the form required by the Division. In addition to any identifying information about the trainee required by the Division, the notification shall contain the name and business address of the appraiser(s) who will supervise the trainee in the performance of the appraisal-related duties, and shall be signed by the supervisor. The notification shall also contain the course names, course provider names, and course completion dates for the 75 hours of education required by Subsection 105.3.3. The original course completion certificates shall be submitted to the Division with the notification.

105.3.3.2 Except as provided in Subsection 105.3.3.3, no experience points will be granted toward licensure for trainee experience that is claimed to have been earned prior to the date the notification was filed with the Division.

105.3.3.3 Until five years after the effective date of this rule, points that were earned prior to the effective date of this rule may be claimed and will be awarded to applicants who are able to document those points on the forms required by the Division, notwithstanding the fact that the points were earned prior to the date a trainee notification was filed with the Division.

105.3.4 Supervising Appraisers. A trainee may have more than one supervising appraiser. Effective January 1, 2008, a supervising appraiser may supervise a maximum of three trainees at one time.

105.3.5 Residential Property Inspections. A trainee, including a trainee who was previously a state-registered appraiser, must be accompanied by a supervising State-Licensed Appraiser, State-Certified Residential Appraiser, or State-Certified General Appraiser on all inspections of residential property until the trainee has performed 100 inspections of residential properties in which both the interior and the exterior of the properties are inspected. All reports in appraisals in which a trainee participated in the inspection of the subject property shall comply with the requirements of Section 106.9.

105.3.6 Non-Residential Property Inspections. A trainee, including a trainee who was previously a state-registered appraiser, must be accompanied by a supervising State-Certified General Appraiser on all inspections of non-residential property until the trainee has performed 20 inspections of non-residential properties in which both the interior and the exterior of the properties are inspected. All reports in appraisals in which a trainee participated in the inspection of the subject property shall comply with the requirements of Section 106.9.

105.3.7 Points for Licensure. A trainee may accumulate experience points for each duty listed below at the rate of 33.3% of the total points awarded from the Appraisal Experience Points Schedule under Section 104-18.1 or 104-18.2, not to exceed the maximum number of points awarded for each property. Trainee experience must be earned in at least three of the following categories. No more than one-third of the experience points submitted toward licensure may come from any one of the following categories:

(a) participation in selecting comparables for an appraisal assignment - 33.3% of total points

(b) participation in making adjustments to comparables - 33.3% of total points

(c) drafting appraisal reports - 33.3% of total points

(d) as provided in Sections 105.3.5 and 105.3.6, inspecting a property that is the subject of an appraisal or that may be used as a comparable in an appraisal, and measuring the property - 33.3% of total points as long as both an interior and

exterior inspection of the property is performed. No points will be granted for inspections that do not include both an interior and an exterior inspection.

105.3.8 Credit will be given for appraisal experience earned only within five years immediately preceding the licensure or certification application. Applicants who believe the Experience Points Schedules do not adequately reflect their experience may refer to Section 104-17.

105.3.9 All trainees are prohibited from signing an appraisal report or discussing an appraisal assignment with anyone other than the appraiser responsible for the assignment, state enforcement agencies and such third parties as may be authorized by due process of law, or a duly authorized professional peer review committee.

105.3.10 A state-licensed or state-certified appraiser who supervises a trainee shall be responsible for the training and direct supervision of the trainee.

105.3.10.1 Direct supervision shall consist of critical observation and direction of all aspects of the appraisal process and accepting full responsibility for the appraisal and the contents of the appraisal report. The supervising appraiser shall be responsible to personally inspect each residential property that is appraised with a trainee until the trainee has performed 100 residential inspections as provided in Subsection 105.3.5 and 20 non-residential inspections as provided in Subsection 105.3.6. The supervising appraiser must actively supervise those inspections and the resulting appraisals.

105.3.11 A supervising appraiser shall require the trainee to maintain a log in a form satisfactory to the Board which shall contain, at a minimum, the following information for each appraisal.

- (a) Type of property;
- (b) Address of appraised property;
- (c) Description of work performed;
- (d) Number of work hours;
- (e) Signature and state license/certification number of the supervising appraiser; and
- (f) Client name and address.

105.3.12 The trainee shall maintain a separate appraisal log for each supervising appraiser.

105.4. Trainee Status after Revocation, Surrender, Denial, or Suspension of License or Certification.

105.4.1 Trainee Status after Revocation, Surrender, or Denial of License or Certification. Unless otherwise ordered by the Board, an appraiser whose appraiser certification or license has been revoked by the Board, whose application for renewal of a certification or license has been denied by the Board, or who has surrendered a certification or license as a result of an investigation by the Division, may not serve as a trainee for a period of four years after the date of the revocation, denial, or surrender, nor may a licensed or certified appraiser employ or supervise the former appraiser in the performance of the activities permitted trainees for that same period of time.

105.4.2 Trainee Status while License or Certification is Suspended. Unless otherwise ordered by the Board, any appraiser whose appraiser license or certificate has been suspended by the Board as a result of an investigation by the Division may not serve as a trainee during the period of suspension. 208.1.2 Individuals with renewal dates after December 31, 2005 - fourteen credit hours.

R162-208-2. Proof of Continuing Education Hours.

208.2 Proof of continuing education hours must be in the form required by the Division.

R162-208-3. Credit Hours.

208.3 For the purpose of this rule, a credit hour is defined as 50 minutes of education within a 60 minute time period. A 10 minute break may be taken for every 50 minutes of education. Education credit will be limited to a maximum of 8 credit hours per day.

R162-208-4. Subject Matter.

208.4 The following subject matter is acceptable for continuing education credit:

208.4.2 The balance of the credit hours required for renewal may consist of any courses related to residential mortgage principles and practices that, in the opinion of the Commission, would enhance the competency and professionalism of licensees.

208.4.3 The Division will maintain and will make available to any person upon request a list of course topics that have been approved by the Division and the Commission as acceptable for continuing education purposes. The Division shall also post the list of course topics on its website.

R162-208-6. Education Committee.

208.6 The Commission will appoint an Education Committee, the purpose of which will be to assist the Division and the Commission in approving continuing education course topics. The Education Committee will make recommendations to the Division and the Commission about whether any particular course topic is sufficiently related to residential mortgage principles and practices, and whether the topic would tend to enhance the competency and professionalism of licensees, to justify placing the topic on the list of course topics that are acceptable for continuing education purposes. The

Division and the Commission may accept or reject the Committee's recommendation on any course topic.

208.6.1 Any licensee or any course provider may request that the Education Committee recommend to the Division and the Commission that a specific topic be approved as an acceptable topic for continuing education purposes. The request must be made in writing, addressed to the Education Committee in care of the Division, and must state specific reasons why the requester believes the topic qualifies for continuing education purposes.

208.6.2 If the Education Committee turns down a request to approve a certain topic for continuing education purposes, the party who requested that the topic be approved may petition the Division and the Commission on an individual basis for evaluation and approval of the topic as being acceptable for continuing education purposes. The Petition must be made in writing, addressed to the Division and the Commission in care of the Division, and must state specific reasons why the requester believes that the topic qualifies for continuing education purposes. 208.7.3 In addition to complying with the requirements of Subsection 208.7.1 and except as provided in Subsection 208.7.4, all course providers shall bank continuing education for all students who successfully completed a course within ten days after the course was taught.

208.7.4 A student must provide an accurate license number and the full name the student has registered with the Division to the course provider within 7 days after course attendance.

208.7.5 If a course provider is unable to bank a student's continuing education credit because the student has failed to properly and accurately comply with the requirements of Subsection 208.7.4, the course provider shall not be disciplined by the Division for failure to bank the student's continuing education credit.

208.9.4 Reinstatement of Expired Instructor Certification. If the instructor does not submit a properly completed renewal form, the renewal fee, and any required documentation prior to the expiration date of the instructor's current certification, the certification shall expire. When an instructor certification expires, the certification may be reinstated for a period of thirty days after the expiration date upon payment of a non-refundable late fee in addition to completing all of the requirements for a timely renewal. After the thirty day period, and until three months after the expiration date, an instructor certification may be reinstated upon payment of a non-refundable late fee and completion of 6 classroom hours of education related to residential mortgages or teaching techniques in addition to completing all of the requirements for a timely renewal. (2) "Core inmate incarceration costs (Core Rate)" means the county correctional facility's direct costs of incarcerating an inmate, including housing, feeding, clothing, programming, and may include capital infrastructure depreciation.

(a) Core Rate is also the "single-reimbursement-rate" as provided in Section 64-13c-302.

(b) Core Rate does not include costs of inmate transportation services or medical care; nor programming for felony probationers.

(3) "Credit for Time Served" means time served in jail prior to judgement, sentence, and commitment.

(4) "Current expenses" means the actual costs of jail salaries, benefits, food, clothing, maintenance, utilities, education, miscellaneous inmate expenses, and may include capital infrastructure depreciation expended during the most recent budget year.

(5) "Fund" means the monies allocated by the legislature for the Felony Probation Inmate costs (Inmate Costs Reimbursement Program) for the current fiscal year.

(6) "Felony Probation Inmate" means a person who may serve a period of time, not to exceed one year in a county jail designated by the department, after considering any recommendation by the court as to which jail the court finds most appropriate, as provided in 77-18-1-(8)(v) Felony Probationer.

R251-113-3. Reimbursement Rates - General.

Pursuant to Section 64-13c-302:

(1) the procedures for setting the rate will be followed as written in the statute and will take place prior to July 1 of each year after the information is gathered from each of the contracting counties.

(2) the Rate Setting Committee shall negotiate a single reimbursement rate, applicable to all counties, which shall consist of daily core inmate incarceration costs and shall be

called the "Core Rate";

(3) each county shall negotiate directly with the Department to establish appropriate rates for the transportation services and medical care for inmates housed, including Felony Probationers committed to a county jail, but shall not be reimbursed for said costs per SB50, Jail Funding Amendments, General Session 2006;

(4) the three parts of the setting reimbursement rate are:

- (a) the core rate;
- (b) county medical costs; and
- (c) county transportation costs.

R251-113-4. County Information Requirement.

(1) On or before April 15, each county shall provide the Department with the following budget expenditure information covering the most recent full County Fiscal Year ending on December 31st:

(a) the full costs and expenses required to operate the jail for the current year;

(b) the cost of medical care provided to all inmates housed in the jail for the current year;

R251-113-5. Computation of Reimbursement Rates.

(1) A single core rate shall be used as the basis for all counties as the rate for cost-recovery of housing state inmates.

(a) It will be computed by taking a list of the total information received from all counties, categorized as total inmate days and total current expenses; and then taking

(b) total current expenses, which shall then be divided by the total inmate days, resulting in a computed core rate.

(c) This computed core rate shall be used as the single reimbursement rate for all counties housing contract state prison inmates during the year whether the inmate is a Contract State Inmate or Felony Probation Inmate.

(2) In addition, a separate county rate shall be calculated to reflect medical and transportation expenses incurred by each county. This rate is required by Section 64-13c-101, but shall not be reimbursed pursuant to SB50, General Session 2006. This separate county rate will be computed by:

(a) taking the total medical costs for each county and dividing that total by the inmate days of each county, minus any contract prisoner; and

(b) taking the total transportation cost for each county and dividing that total by the inmate days for each county minus any contract prisoners.

R251-113-6. Payment for Condition of Probation Inmates.

(1) The fund may reimburse each county at seventy percent of the core reimbursement rate established by the Rate Setting Committee and approved by the Legislature.

(2) Fund reimbursement is limited by the following conditions:

(f) "Parole Violations" are not eligible for reimbursement because the felon is being incarcerated on a parole violation through the Board of Pardons.

(g) "Immigration and Customs Enforcement Holds" are not eligible for reimbursement beyond the number of days sentenced by the Courts, even if the probation is still in effect.

(h) "Juvenile court Orders to Show Cause" are not eligible for reimbursement even if the juvenile serves in a correctional institution on probation because juveniles are sentenced under Title 78, not Title 77.

(i) Counties shall not be eligible for reimbursement for housing felony probation inmates who have been ordered by the court to reimburse the county for the cost associated with their incarceration whether ordered to pay a portion or the full costs of incarceration.

(3) The fund may provide reimbursement for the following situations:

- (i) name,
- (ii) court case number,
- (iii) sentencing date,
- (iv) incarceration date,
- (v) release date, and
- (vi) total inmate days for the month.

R251-113-7. Notice of Fund Shortfall.

(1) Projections for the jail reimbursement fund shall be done monthly.

(2) Should it be projected that the appropriated fund will be spent prior to the end of the fiscal year, the Department shall notify the Legislative Fiscal Analyst Office in writing. The report will explain the factors used to determine the shortfall.

(3) The Department shall also notify each participating county jail that the fund will be short.

(4) At the point the Department realizes the fund shall fall short, the department shall collect all billings against the fund and hold them until the end of the current fiscal year. Alpha particles, multiple-charged particles, fission fragments and heavy particles of unknown charge	20	0.05
Neutrons of unknown energy	10	0.1
High energy protons	10	0.1

For the column in Table 1 labeled "Absorbed Dose Equal to a Unit Dose Equivalent", the absorbed dose in rad is equal to one rem or the absorbed dose in gray is equal to one Sv.

(4) If it is more convenient to measure the neutron fluence rate than to determine the neutron dose equivalent rate in sievert per hour or rem per hour, as provided in Subsection R313-12-20(3), 0.01 Sv of neutron radiation of unknown energies may, for purposes of these rules, be assumed to result from a total fluence of 25 million neutrons per square centimeter incident upon the body. If sufficient information exists to estimate the approximate energy distribution of the neutrons, the licensee or registrant may use the fluence rate per unit dose equivalent or

the appropriate Q value from Table 2 to convert a measured tissue dose in gray or rad to dose equivalent in sievert or rem.

R313. Environmental Quality, Radiation Control.**R313-14. Violations and Escalated Enforcement.****R313-14-1. Introduction, Purpose, and Authority.**

(1) The purpose of the radiation control inspection and compliance program is to assure the radiological safety of the public, radiation workers, and the environment by:

- (a) ensuring compliance with Utah Radiation Control rules or license conditions;
- (b) obtaining prompt correction of violations;
- (c) deterring future violations; and
- (d) encouraging improvement of licensee, permittee or registrant performance, including the prompt identification, reporting, and correction of potential safety problems.

(2) Consistent with the purpose of the radiation control inspection and compliance program, prompt and vigorous enforcement action shall be taken when dealing with licensees, permittees or registrants who fail to demonstrate adherence to these rules. Enforcement action is dependent on the circumstances of the case and may require that discretion be exercised after consideration of these standards. Sanctions have been designed to ensure that a licensee, permittee or registrant does not deliberately profit from violations of the Utah Radiation Control rules.

(3) The rules set forth herein are adopted pursuant to the provisions of Subsections 19-3-103.5(1)(d), 19-3-104(4) and 19-3-104(8), 19-3-108, 19-3-109, and 19-3-111.

R313-14-2. Responsibilities.

(1) The Board has authorized the Executive Secretary to:

- (a) enforce rules through the issuance of orders and assess penalties in accordance with Section 19-3-109; and
- (b) impound radioactive material in accordance with Section 19-3-111.

(2) The Executive Secretary is authorized to issue Notices of Violations.

R313-14-3. Definitions.

As used in R313-14, the following definitions apply:

(1) "Material False Statement" means a statement that is false by omission or commission and is relevant to the regulatory process.

(2) "Requirement" means a legally binding requirement such as a statute, rule, license condition, permit, registration, technical specification, or order.

(3) "Similar" means those violations which could have been reasonably expected to have been prevented by the licensee's, permittee's or registrant's corrective action for a previous violation.

(4) "Willfulness" means the deliberate intent to violate or falsify, and includes careless disregard for requirements. Acts which do not rise to the level of careless disregard are not included in this definition.

R313-14-10. Severity of Violations.

(1) Violations are placed in one of two major categories. These categories are:

- (a) electronically produced radiation operations; or
- (b) radioactive materials operations.

(2) Regulatory requirements vary in public health and environmental safety significance. Therefore, it is essential that the relative importance of violations be identified as the first step in the enforcement process. Based upon their relative hazard, violations are assigned to one of five levels of severity.

(3) Severity Level I is assigned to violations that are the most significant and Severity Level V violations are the least significant. In general, violations that are included in Severity Levels I and II involve actual or high potential impact on the public. Severity Level III violations are cause for significant concern. Severity Level IV violations are less serious but are of

more than minor concern, however, if left uncorrected, they could lead to a more serious concern. Severity Level V violations are of minor safety or environmental concern.

(4) The severity of a violation shall be characterized at the level best suited to the significance of the particular violation. A severity level may be increased if the circumstances surrounding the violation involve careless disregard of requirements, deception, or other indications of willfulness. In determining the specific severity level of a violation involving willfulness, consideration will be given to factors like the position of the person involved in the violation, the significance of an underlying violation, the intent of the violator and the economic advantage gained by the violation. The relative weight given to these factors in arriving at the appropriate severity level is dependent on the circumstances of the violation.

(5) The severity level assigned to material false statements may be Severity Level I, II or III, depending on the circumstances surrounding the statement. In determining the specific severity level of a violation involving material false statements or falsification of records, consideration is given to factors like the position of the person involved in the violation, for example, a first line supervisor as opposed to a senior manager, the significance of the information involved, and the intent of the violator. Negligence not amounting to careless disregard would be weighted differently than careless disregard or deliberateness. The relative weight given to these factors in arriving at the appropriate severity level is dependent on the circumstances of the violation.

R313-14-15. Enforcement Actions.

This Section describes the enforcement sanctions available to the Executive Secretary and specifies the conditions under which they are to be used.

(1) Notice of Violation

(a) A Notice of Violation is a written notice setting forth one or more violations of a legally binding requirement. The notice normally requires the licensee, permittee or registrant to provide a written statement describing:

(i) corrective steps which have been taken by the licensee, permittee or registrant and the results achieved;

(ii) corrective steps which shall be taken to prevent recurrence; and

(iii) the date when full compliance will be achieved.

(b) The Executive Secretary may require responses to Notices of Violation to be under oath. Normally, responses under oath may be required only in connection with civil penalties and orders.

(c) A Notice of Violation is used by the Executive Secretary as the method for formalizing the existence of a violation. The Notice may be the only enforcement action taken or it may be used as a basis for other enforcement actions. Licensee, permittee or registrant initiative for self-identification and correction of problems is encouraged. The Executive Secretary shall not generally issue Notices of Violation for a violation that meets the five following tests:

(i) it was identified by the licensee, permittee or registrant;

(ii) it fits in Severity Level IV or V;

(iii) it was reported, in writing, to the Executive Secretary;

(iv) it was or will be corrected, including measures to prevent recurrence, within a reasonable time; and

(v) it was not a violation that could reasonably be expected to have been prevented by the licensee's, permittee's or registrant's corrective action for a previous violation.

(d) Licensees, permittees or registrants are not ordinarily cited for violations resulting from matters outside of their control, like equipment failures that were not avoidable by reasonable quality assurance measures or management controls. Generally however, licensees, permittees and registrants are held responsible for the acts of their employees. Accordingly, the

rules should not be construed to excuse personal errors.

(2) Civil Penalty.

(a) A civil penalty is a monetary penalty that may be imposed for violation of Utah Radiation Control Rules or lawful orders issued by the Executive Secretary. Civil penalties are designed to emphasize the need for lasting remedial action and to deter future violations. Generally, civil penalties are imposed for Severity Level I violations, are imposed for Severity Level II violations, in the absence of mitigating circumstances, are considered for Severity Level III violations, and may be imposed for Severity Level IV and V violations that are similar to previous violations for which the licensee, permittee or registrant failed to take effective corrective action.

(b) The level of a civil penalty is established so that a penalty does not exceed \$5,000 per violation. Except as modified by provision of the next paragraphs, the base civil penalties are as follows:

TABLE

Severity Level I Violations	\$5,000
Severity Level II Violations	\$4,000
Severity Level III Violations	\$2,500
Severity Level IV Violations	\$ 750
Severity Level V Violations	\$ 250

(i) Comprehensive licensee, permittee or registrant programs for detection, correction and reporting of problems that may constitute, or lead to, violation of regulatory requirements are important and consideration may be given for effective internal audit programs. When licensees, permittees or registrants find, report, and correct a violation expeditiously and effectively, the Executive Secretary may apply adjustment factors to reduce or eliminate a civil penalty.

(ii) Ineffective licensee, permittee or registrant programs for problem identification or correction are unacceptable. In cases involving willfulness, flagrant violations, repeated poor performance in an area of concern, or serious breakdown in management controls, the Executive Secretary may apply the full enforcement authority.

(iii) The Executive Secretary may review the proposed civil penalty case on its own merits and adjust the civil penalty upward or downward appropriately. After considering the relevant circumstances, adjustments to these values may be made for the factors identified below:

(A) Reduction of the civil penalty may be given when a licensee, permittee or registrant identifies the violation and promptly reports, in writing, the violation to the Executive Secretary. No consideration will be given to this factor if the licensee, permittee or registrant does not take immediate action to correct the problem upon discovery.

(B) Recognizing that corrective action is always required to meet regulatory requirements, the promptness and extent to which the licensee, permittee or registrant takes corrective action, including actions to prevent recurrence, may be considered in modifying the civil penalty to be assessed.

(C) Reduction of the civil penalty may be given for prior good performance in the general area of concern.

(D) The civil penalty may be increased as much as 50% for cases where the licensee, permittee or registrant had prior knowledge of a problem as a result of an internal audit, or specific Executive Secretary or industry notification, and had failed to take effective preventive steps.

(E) The civil penalty may be increased as much as 50% where multiple examples of a particular violation are identified during the inspection period.

(c) A violation of a continuing nature shall, for the purposes of calculating the proposed civil penalty, be considered a separate violation for each day of its continuance. A continuing violation is not considered a repeat violation. In the event a violation is repeated within five years, the scheduled

amount of the civil penalty may be increased 25%; and for repeat violations of Severity Levels II and III, the penalty may not be avoided by compliance. Other rights and procedures are not affected by the repeat violation.

(d) Payment of civil penalties shall be made within 30 working days of receipt of a Notice of Violation and Notice of Proposed Imposition of a Civil Penalty. An extension may be given when extenuating circumstances are shown to exist. Payment shall be made by check, payable to the Division of Radiation Control and mailed to the Division at the address shown with the Notice of Violation.

(3) Orders.

(a) An Order is a written directive to modify, suspend, or revoke a license, permit or registration; to cease and desist from a given practice or activity; to issue a civil penalty; or to take other action that may be necessary.

(b) Modification Orders are issued when some change in licensee, permittee or registrant equipment, procedures or management control is necessary.

(c) Suspension Orders may be used:

(i) to remove a threat to the public health and safety or the environment;

(ii) when the licensee, permittee or registrant has not responded adequately to other enforcement action;

(iii) when the licensee, permittee or registrant interferes with the conduct of an inspection; or

(iv) for a reason not mentioned above for which license, permit or registration revocation is authorized.

(v) Suspensions may apply to all or part of the regulated activity. Ordinarily, an activity is not suspended, nor is a suspension prolonged for failure to comply with requirements when the failure is not willful or when adequate corrective actions have been taken.

(d) Revocation Orders may be used:

(i) when a licensee, permittee or registrant is unable or unwilling to comply with these rules;

(ii) when a licensee, permittee or registrant refuses to correct a violation;

(iii) when a licensee, permittee or registrant does not respond to a Notice of Violation;

(iv) when a licensee, permittee or registrant does not pay a fee required by the Department; or

(v) for any other reason for which revocation is authorized.

(e) Cease and Desist Orders are used to stop unauthorized activity that has continued despite notification by the Executive Secretary that the activity is unauthorized.

(f) Orders may be made effective immediately, without prior opportunity for hearing, whenever it is determined that the public health, interest, or safety so requires, or when the Order is responding to a violation involving willfulness. Otherwise, a prior opportunity for a hearing is afforded. For cases in which a basis could reasonably exist for not taking the action as proposed, the licensee, permittee or registrant shall be afforded an opportunity to show cause why the Order should not be issued in the proposed manner.

(4) Escalation of Enforcement Sanctions.

(a) In accordance with the provisions of Section 19-3-111 the radioactive material of a person may be impounded. Administrative procedures will be conducted as provided by R313-14-20, prior to disposal of impounded radioactive materials.

(b) Violations of Severity Levels I, II or III are considered to be very serious. If repetitive very serious violations occur, the Executive Secretary may issue Orders in conjunction with other enforcement actions to achieve immediate corrective actions and to deter their recurrence. In accordance with the criteria contained in this section, the Executive Secretary shall carefully consider the circumstances of cases when selecting and

applying the appropriate sanctions.

(c) The progression of enforcement actions for repetitive violations may be based on violations under a single license, permit or registration. The actual progression to be used in a particular case may depend on the circumstances. When more than one facility is covered by a single license, permit or registration, the normal progression may be based on repetitive violations under the same license, permit or registration. It should be noted that under some circumstances, for example, where there is common control over some facet of facility operations, repetitive violations may be charged even though the second violation occurred at a different facility or under a different license, permit or registration.

(5) Related Administrative Actions.

(a) In addition to the formal enforcement mechanisms of Notices of Violation and Orders, the Executive Secretary may use administrative mechanisms, like enforcement conferences, bulletins, circulars, information notices, generic letters, and confirmatory action letters as part of the enforcement and regulatory program. Licensees, permittees and registrants are expected to adhere to obligations and commitments resulting from these processes and the Executive Secretary shall, if necessary, issue appropriate orders to make sure that expectation is realized.

(b) Enforcement Conferences are meetings held by the Executive Secretary with licensee, permittee or registrant management to discuss safety, public health, or environmental problems, compliance with regulatory requirements, proposed corrective measures, including schedules for implementation, and enforcement options available to the Executive Secretary.

(c) Bulletins, Circulars, Information Notices, and Generic Letters are written notifications to groups of licensees, permittees or registrants identifying specific problems and calling for or recommending specific actions on their part. Responses to these notifications may be required.

(d) Confirmatory Action Letters are letters confirming a licensee's, permittee's or registrant's agreement to take certain actions to remove significant concerns about health and safety, or the environment.

R313-14-25. Public Disclosure of Enforcement Actions.

Enforcement actions and responses are publicly available for inspection. In addition, press releases are generally issued for Notices of Proposed Imposition of a Civil Penalty and Orders. In the case of orders and civil penalties related to violations at Severity Level I, II or III, press releases may be issued at the time of the Order or the Notice of Proposed Imposition of the Civil Penalty. Press releases are not normally issued for Notices of Violation.

R313-16-280. Out-of-State Radiation Machines.

(1) Whenever a radiation machine is to be brought into the state, for either temporary or extended use, the person proposing to bring the machine into the state shall give written notice to the Executive Secretary at least three working days before the machine is to be used in the state. The notice shall include the type of radiation machine; the manufacturer model and serial number of the master control; the nature, duration, and scope of use; and the exact location where the radiation machine is to be used. If, for a specific case, the three working-day period would impose an undue hardship, the person may, upon application to the Executive Secretary, obtain permission to proceed sooner.

- (2) In addition, the out-of-state person shall:
 - (a) comply with the applicable portions of these rules;
 - (b) supply the Executive Secretary other information as the Executive Secretary requests.

R313-16-290. Inspection of Radiation Machines and Facilities.

Radiation machines, facilities, and radiation safety programs are subject to inspection to assure compliance with these rules and to assist in lowering radiation exposure to as low as reasonably achievable levels, see Section R313-15-101. Inspections may be performed by representatives of the Executive Secretary or by independent qualified experts.

(2) Inspections may, at the Executive Secretary's discretion, be done after the installation of equipment, or after a change in the facility or equipment which might cause a significant change in radiation output or hazards. Inspections may be completed in accordance with the schedule as defined in Table I.

R313-19-20. Types of Licenses.

Licenses for radioactive materials are of two types: general and specific.

(1) General licenses provided in Rule R313-21 are effective without the filing of applications with the Executive Secretary or the issuance of licensing documents to the particular persons, although the filing of a registration certificate with the Executive Secretary may be required by the particular general license. The general licensee is subject to the other applicable portions of these rules and limitations of the general license.

(2) Specific licenses require the submission of an application to the Executive Secretary and the issuance of a licensing document by the Executive Secretary. The licensee is subject to applicable portions of these rules as well as limitations specified in the licensing document.

R313-19-25. Prelicensing Inspection.

The Executive Secretary may verify information contained in applications and secure additional information deemed necessary to make a reasonable determination as to whether to issue a license and whether special conditions should be attached thereto by visiting the facility or location where radioactive materials would be possessed or used, and by discussing details of the proposed possession or use of the radioactive materials with the applicant or representatives designated by the applicant. Such visits may be made by representatives of the Board or the Executive Secretary.

R313-19-30. Reciprocal Recognition of Licenses.

(1) Subject to these rules, a person who holds a specific license from the U.S. Nuclear Regulatory Commission, an Agreement State, or Licensing State, and issued by the agency having jurisdiction where the licensee maintains an office for directing the licensed activity and at which radiation safety records are normally maintained, is hereby granted a general license to conduct the activities authorized in the licensing document within this state, except in areas of exclusive federal jurisdiction, for a period not in excess of 180 days in a calendar year provided that:

(a) the licensing document does not limit the activity authorized by the document to specified installations or locations;

(b) the out-of-state licensee notifies the Executive Secretary in writing at least three days prior to engaging in such activity. Notifications shall indicate the location, period, and type of proposed possession and use within the state, and shall be accompanied by a copy of the pertinent licensing document. If, for a specific case, the three-day period would impose an undue hardship on the out-of-state licensee, the licensee may, upon application to the Executive Secretary, obtain permission to proceed sooner. The Executive Secretary may waive the requirement for filing additional written notifications during the remainder of the calendar year following the receipt of the initial notification from a person engaging in activities under the general license provided in Subsection R313-19-30(1);

(c) the out-of-state licensee complies with all applicable rules of the Board and with the terms and conditions of the licensing document, except those terms and conditions which may be inconsistent with applicable rules of the Board;

(d) the out-of-state licensee supplies other information as

the Executive Secretary may request; and

(e) the out-of-state licensee shall not transfer or dispose of radioactive material possessed or used under the general license provided in Subsection R313-19-30(1) except by transfer to a person:

(i) specifically licensed by the Executive Secretary or by the U.S. Nuclear Regulatory Commission, a Licensing State, or an Agreement State to receive the material, or

(ii) exempt from the requirements for a license for material under Subsection R313-19-13(2)(a).

(2) Notwithstanding the provisions of Subsection R313-19-30(1), a person who holds a specific license issued by the U.S. Nuclear Regulatory Commission, a Licensing State, or an Agreement State authorizing the holder to manufacture, transfer, install, or service a device described in Subsection R313-21-22(4) within the areas subject to the jurisdiction of the licensing body is hereby granted a general license to install, transfer, demonstrate, or service a device in this state provided that:

(a) the person shall file a report with the Executive Secretary within thirty days after the end of a calendar quarter in which a device is transferred to or installed in this state. Reports shall identify each general licensee to whom a device is transferred by name and address, the type of device transferred, and the quantity and type of radioactive material contained in the device;

(b) the device has been manufactured, labeled, installed, and serviced in accordance with applicable provisions of the specific license issued to the person by the Nuclear Regulatory Commission, a Licensing State, or an Agreement State;

(c) the person shall assure that any labels required to be affixed to the device under rules of the authority which licensed manufacture of the device bear a statement that "Removal of this label is prohibited"; and

(d) the holder of the specific license shall furnish to the general licensee to whom the device is transferred or on whose premises a device is installed a copy of the general license contained in Subsection R313-21-22(4) or in equivalent rules of the agency having jurisdiction over the manufacture and distribution of the device.

(3) The Executive Secretary may withdraw, limit, or qualify his acceptance of a specific license or equivalent licensing document issued by the U.S. Nuclear Regulatory Commission, a Licensing State or an Agreement State, or a product distributed pursuant to the licensing document, upon determining that the action is necessary in order to prevent undue hazard to public health and safety or the environment.

(1) In expressing the concentrations in Section R313-19-70, the activity stated is that of the parent radionuclide and takes into account the radioactive decay products, because many radionuclides disintegrate into radionuclides which are also radioactive.

(2) For purposes of Subsection R313-19-13(2)(a) where there is involved a combination of radionuclides, the limit for the combination should be derived as follows: Determine for each radionuclide in the product the ratio between the radioactivity concentration present in the product and the exempt radioactivity concentration established in Section R313-19-70 for the specific radionuclide when not in combination. The sum of the ratios may not exceed one or unity.

(3) To convert microcuries (uCi) to SI units of kilobecquerels (kBq), multiply the above values by 37.

(3) Transportation of licensed material.

(a) Each licensee who transports licensed material outside the site of usage, as specified in the license, or where transport is on public highways, or who delivers licensed material to a carrier for transport, shall comply with the applicable requirements of the U.S. Department of Transportation (DOT) regulations in 49 CFR 170 through 189 (2002) appropriate to the mode of transport.

(i) The licensee shall particularly note DOT regulations in the following areas:

(b) If DOT regulations are not applicable to a shipment of licensed material, the licensee shall conform to the standards and requirements of the DOT specified in paragraph (a) of this section to the same extent as if the shipment or transportation were subject to DOT regulations. A request for modification, waiver, or exemption from those requirements, and any notification referred to in those requirements, must be filed with, or made to, the Executive Secretary.

(c) No person shall transport radioactive material or deliver radioactive material to a carrier for transport except as authorized in a general or specific license issued by the Executive Secretary or as exempted in R313-19-100(4).

(4) Exemptions.

(a) Common and contract carriers, freight forwarders and warehouse workers which are subject to the requirements of the U.S. Department of Transportation in 49 CFR 170 through 189 or the U.S. Postal Service in the U.S. Postal Service Domestic Mail Manual (DMM), Section C-023.9.0, and the U.S. Postal Service, are exempt from the requirements of R313-19-100 to the extent that they transport or store radioactive material in the

regular course of their carriage for others or storage incident thereto. Common and contract carriers who are not subject to the requirements of the U.S. Department of Transportation or U.S. Postal Service are subject to the requirements of R313-19-100(3)(c) and other applicable requirements of these rules.

(b) Any licensee is exempt from the requirements of R313-19-100 to the extent that the licensee delivers to a carrier for transport a package containing radioactive material having a specific activity not greater than 70 becquerel per gram (0.002 microcurie per gram).

R313-22-4. Definitions.

"Alert" means events may occur, are in progress, or have occurred that could lead to a release of radioactive material but that the release is not expected to require a response by off-site response organizations to protect persons off-site.

"Principal activities" means activities authorized by the license which are essential to achieving the purpose(s) for which the license was issued or amended. Storage during which no licensed material is accessed for use or disposal and activities incidental to decontamination or decommissioning are not principal activities.

"Site Area Emergency" means events may occur, are in progress, or have occurred that could lead to a significant release of radioactive material and that could require a response by off-site response organizations to protect persons off-site.

R313-22-30. Specific License by Rule.

A license by rule is issued in the following circumstances, without the necessity of filing an application for a specific license as required by Subsection R313-22-32(1), and the licensee shall be subject to the applicable provisions of Sections R313-22-33, R313-22-34, R313-22-35, R313-22-36 and R313-22-37:

(1) When a site must be timely remediated of contamination by radioactive materials that are subject to licensing under these rules but are unlicensed;

(2) When radioactive materials existing as a result of improper handling, spillage, accidental contamination, or unregulated or illegal possession, transfer, or receipt, must be stored and those materials have not been licensed under these rules.

R313-22-32. Filing Application for Specific Licenses.

(1) Applications for specific licenses shall be filed on a form prescribed by the Executive Secretary.

(2) The Executive Secretary may, after the filing of the original application, and before the expiration of the license, require further statements in order to enable the Executive Secretary to determine whether the application should be granted or denied or whether a license should be modified or revoked.

(3) Applications shall be signed by the applicant or licensee or a person duly authorized to act for and on the applicant's behalf.

(4) An application for a license may include a request for a license authorizing one or more activities.

(5) In the application, the applicant may incorporate by reference information contained in previous applications, statements, or reports filed with the Executive Secretary, provided the references are clear and specific.

(6) An application for a specific license to use radioactive material in the form of a sealed source or in a device that contains the sealed source shall identify the source or device by manufacturer and model number as registered with the U.S. Nuclear Regulatory Commission under 10 CFR 32.210, 2006

ed. or the equivalent regulations of an Agreement State.

(7) As provided by Section R313-22-35, certain applications for specific licenses filed under these rules shall contain a proposed decommissioning funding plan or a certification of financial assurance for decommissioning. In the case of renewal applications submitted before January 1, 1995, this submittal may follow the renewal application but shall be submitted on or before January 1, 1995.

(8)(a) Applications to possess radioactive materials in unsealed form, on foils or plated sources, or sealed in glass in excess of the quantities in Section R313-22-90, "Quantities of Radioactive Materials Requiring Consideration of the Need for an Emergency Plan for Responding to a Release", shall contain either:

(i) An evaluation showing that the maximum dose to a individual off-site due to a release of radioactive materials would not exceed one rem effective dose equivalent or five rems to the thyroid; or

(ii) An emergency plan for responding to a release of radioactive material.

(b) One or more of the following factors may be used to support an evaluation submitted under Subsection R313-22-32(8)(a)(i):

(i) The radioactive material is physically separated so that only a portion could be involved in an accident;

(ii) All or part of the radioactive material is not subject to release during an accident because of the way it is stored or packaged;

(iii) The release fraction in the respirable size range would be lower than the release fraction shown in Section R313-22-90 due to the chemical or physical form of the material;

(iv) The solubility of the radioactive material would reduce the dose received;

(v) Facility design or engineered safety features in the facility would cause the release fraction to be lower than shown in Section R313-22-90;

(vi) Operating restrictions or procedures would prevent a release fraction as large as that shown in Section R313-22-90; or

(vii) Other factors appropriate for the specific facility.

(c) An emergency plan for responding to a release of radioactive material submitted under Subsection R313-22-32(8)(a)(ii) shall include the following information:

(i) Facility description. A brief description of the licensee's facility and area near the site.

(ii) Types of accidents. An identification of each type of radioactive materials accident for which protective actions may be needed.

(iii) Classification of accidents. A classification system for classifying accidents as alerts or site area emergencies.

(iv) Detection of accidents. Identification of the means of detecting each type of accident in a timely manner.

(v) Mitigation of consequences. A brief description of the means and equipment for mitigating the consequences of each type of accident, including those provided to protect workers on-site, and a description of the program for maintaining equipment.

(vi) Assessment of releases. A brief description of the methods and equipment to assess releases of radioactive materials.

(vii) Responsibilities. A brief description of the responsibilities of licensee personnel should an accident occur, including identification of personnel responsible for promptly notifying off-site response organizations and the Executive Secretary; also responsibilities for developing, maintaining, and updating the plan.

(viii) Notification and coordination. A commitment to and a brief description of the means to promptly notify off-site response organizations and request off-site assistance, including

medical assistance for the treatment of contaminated injured on-site workers when appropriate. A control point shall be established. The notification and coordination shall be planned so that unavailability of some personnel, parts of the facility, and some equipment will not prevent the notification and coordination. The licensee shall also commit to notify the Executive Secretary immediately after notification of the appropriate off-site response organizations and not later than one hour after the licensee declares an emergency.

NOTE: These reporting requirements do not supersede or release licensees of complying with the requirements under the Emergency Planning and Community Right-to-Know Act of 1986, Title III, Public Law 99-499 or other state or federal reporting requirements, including 40 CFR 302, 2005 ed.

(ix) Information to be communicated. A brief description of the types of information on facility status, radioactive releases, and recommended protective actions, if necessary, to be given to off-site response organizations and to the Executive Secretary.

(x) Training. A brief description of the frequency, performance objectives and plans for the training that the licensee will provide workers on how to respond to an emergency including special instructions and orientation tours the licensee would offer to fire, police, medical and other emergency personnel. The training shall familiarize personnel with site-specific emergency procedures. Also, the training shall thoroughly prepare site personnel for their responsibilities in the event of accident scenarios postulated as most probable for the specific site including the use of team training for the scenarios.

(xi) Safe shutdown. A brief description of the means of restoring the facility to a safe condition after an accident.

(xii) Exercises. Provisions for conducting quarterly communications checks with off-site response organizations and biennial on-site exercises to test response to simulated emergencies. Quarterly communications checks with off-site response organizations shall include the check and update of all necessary telephone numbers. The licensee shall invite off-site response organizations to participate in the biennial exercises. Participation of off-site response organizations in biennial exercises although recommended is not required. Exercises shall use accident scenarios postulated as most probable for the specific site and the scenarios shall not be known to most exercise participants. The licensee shall critique each exercise using individuals not having direct implementation responsibility for the plan. Critiques of exercises shall evaluate the appropriateness of the plan, emergency procedures, facilities, equipment, training of personnel, and overall effectiveness of the response. Deficiencies found by the critiques shall be corrected.

(xiii) Hazardous chemicals. A certification that the applicant has met its responsibilities under the Emergency Planning and Community Right-to-Know Act of 1986, Title III, Public Law 99-499, if applicable to the applicant's activities at the proposed place of use of the radioactive material.

(d) The licensee shall allow the off-site response organizations expected to respond in case of an accident 60 days to comment on the licensee's emergency plan before submitting it to the Executive Secretary. The licensee shall provide any comments received within the 60 days to the Executive Secretary with the emergency plan.

R313-22-33. General Requirements for the Issuance of Specific Licenses.

(1) A license application shall be approved if the Executive Secretary determines that:

(a) the applicant and all personnel who will be handling the radioactive material are qualified by reason of training and experience to use the material in question for the purpose requested in accordance with these rules in a manner as to

minimize danger to public health and safety or the environment;

(b) the applicant's proposed equipment, facilities, and procedures are adequate to minimize danger to public health and safety or the environment;

(c) the applicant's facilities are permanently located in Utah, otherwise the applicant shall seek reciprocal recognition as required by Section R313-19-30;

(d) the issuance of the license will not be inimical to the health and safety of the public;

(e) the applicant satisfies applicable special requirements in Sections R313-22-50 and R313-22-75, and Rules R313-24, R313-25, R313-32, R313-34, R313-36, or R313-38; and

(f) in the case of an application for a license to receive and possess radioactive material for commercial waste disposal by land burial, or for the conduct of other activities which the Executive Secretary determines will significantly affect the quality of the environment, the Executive Secretary, before commencement of construction of the plant or facility in which the activity will be conducted, has concluded, after weighing the environmental, economic, technical and other benefits against environmental costs and considering available alternatives, that the action called for is the issuance of the proposed license, with any appropriate conditions to protect environmental values. The Executive Secretary shall respond to the application within 60 days. Commencement of construction prior to a response and conclusion shall be grounds for denial of a license to receive and possess radioactive material in the plant or facility. As used in this paragraph the term "commencement of construction" means clearing of land, excavation, or other substantial action that would adversely affect the environment of a site. The term does not mean site exploration, necessary borings to determine foundation conditions, or other preconstruction monitoring or testing to establish background information related to the suitability of the site or the protection of environmental values.

R313-22-34. Issuance of Specific Licenses.

(1) Upon a determination that an application meets the requirements of the Act and the rules of the Board, the Executive Secretary will issue a specific license authorizing the proposed activity in a form and containing conditions and limitations as the Executive Secretary deems appropriate or necessary.

(2) The Executive Secretary may incorporate in licenses at the time of issuance, additional requirements and conditions with respect to the licensee's receipt, possession, use and transfer of radioactive material subject to Rule R313-22 as he deems appropriate or necessary in order to:

(a) minimize danger to public health and safety or the environment;

(b) require reports and the keeping of records, and to provide for inspections of activities under the license as may be appropriate or necessary; and

(c) prevent loss or theft of material subject to Rule R313-22.

R313-22-35. Financial Assurance and Recordkeeping for Decommissioning.

(1)(a) Applicants for a specific license authorizing the possession and use of unsealed radioactive material of half-life greater than 120 days and in quantities exceeding 10^5 times the applicable quantities set forth in Appendix B of 10 CFR 30.1 through 30.72, 2006 ed., which is incorporated by reference, shall submit a decommissioning funding plan as described in Subsection R313-22-35(5). The decommissioning funding plan shall also be submitted when a combination of radionuclides is involved if R divided by 10^5 is greater than one, where R is defined here as the sum of the ratios of the quantity of each radionuclide to the applicable value in Appendix B of 10 CFR 30.1 through 30.72, 2006 ed., which is incorporated by

reference.

(b) Holders of, or applicants for, a specific license authorizing the possession and use of sealed sources or plated foils of half-life greater than 120 days and in quantities exceeding 10^{12} times the applicable quantities set forth in Appendix B of 10 CFR 30.1 through 30.72, 2006 ed., which is incorporated by reference, or when a combination of isotopes is involved if R, as defined in Subsection R313-22-35(1)(a), divided by 10^{12} is greater than one, shall submit a decommissioning funding plan as described in Subsection R313-22-35(5).

(c) Applicants for a specific license authorizing the possession and use of more than 100 mCi of source material in a readily dispersible form shall submit a decommissioning funding plan as described in Subsection R313-22-35(5).

(2) Applicants for a specific license authorizing possession and use of radioactive material of half-life greater than 120 days and in quantities specified in Subsection R313-22-35(4), or authorizing the possession and use of source material greater than 10 mCi but less than or equal to 100 mCi in a readily dispersible form shall either:

(a) submit a decommissioning funding plan as described in Subsection R313-22-35(5); or

(b) submit a certification that financial assurance for decommissioning has been provided in the amount prescribed by Subsection R313-22-35(4) using one of the methods described in Subsection R313-22-35(6). Applicants for a specific license authorizing the possession and use of source material in a readily dispersible form shall submit a certification that financial assurance for decommissioning has been provided in the amount of \$225,000 by October 20, 2007. For an applicant subject to this subsection, this certification may state that the appropriate assurance will be obtained after the application has been approved and the license issued but before the receipt of licensed material. If the applicant defers execution of the financial instrument until after the license has been issued, a signed original of the financial instrument obtained to satisfy the requirements of Subsection R313-22-35(6) shall be submitted to the Executive Secretary before receipt of licensed material. If the applicant does not defer execution of the financial instrument, the applicant shall submit to the Executive Secretary, as part of the certification, a signed original of the financial instrument obtained to satisfy the requirements in Subsection R313-22-35(6).

(3)(a) Holders of a specific license issued on or after October 20, 2006, which is of a type described in Subsections R313-22-35(1) or (2), shall provide financial assurance for decommissioning in accordance with the criteria set forth in Section R313-22-35.

(b) Holders of a specific license issued before October 20, 2006, and of a type described in Subsection R313-22-35(1), shall submit by October 20, 2007, a decommissioning funding plan as described in Subsection R313-22-35(5) or a certification of financial assurance for decommissioning in an amount at least equal to \$1,125,000 in accordance with the criteria set forth in Section R313-22-35. If the licensee submits the certification of financial assurance rather than a decommissioning funding plan, the licensee shall include a decommissioning funding plan in any application for license renewal.

(c) Holders of a specific license issued before October 20, 2006, and of a type described in Subsection R313-22-35(2), shall submit by October 20, 2007, a decommissioning funding plan as described in Subsection R313-22-35(5) or a certification of financial assurance for decommissioning in accordance with the criteria set forth in Section R313-22-35.

(d) A licensee who has submitted an application before October 20, 2006, for renewal of license in accordance with Section R313-22-37, shall provide financial assurance for decommissioning in accordance with Subsections R313-22-

35(1) and (2).

(e) Waste collectors and waste processors, as defined in Appendix G of 10 CFR 20.1001 to 20.2402, 2006 ed., which is incorporated by reference, shall provide financial assurance in an amount based on a decommissioning funding plan as described in Subsection R313-22-35(5). The decommissioning funding plan shall include the cost of disposal of the maximum amount (curies) of radioactive material permitted by the license, and the cost of disposal of the maximum quantity, by volume, of radioactive material which could be present at the licensee's facility at any time, in addition to the cost to remediate the licensee's site to meet the license termination criteria of Rule R313-15.

(f) Holders of a specific license issued prior to October 20, 2006, which is of a type described in Subsections R313-22-35(1), (2), or (3)(g), shall submit a decommissioning funding plan to the Executive Secretary on or before October 20, 2007. Holders of a specific license issued on or after October 20, 2006, which is of a type described in Subsections R313-22-35(1), (2), or (3)(g), shall submit a decommissioning funding plan to the Executive Secretary as a part of the license application.

(g) Applicants for a specific license authorizing the possession and use of radioactive materials in sufficient quantities that require financial assurance and recordkeeping for decommissioning under Section R313-22-35 shall assure that all documents submitted to the Executive Secretary for the purpose of demonstrating compliance with financial assurance and recordkeeping requirements meet the applicable criteria contained in the Nuclear Regulatory Commission's document NUREG-1757, Volume 3, "Consolidated NMSS Decommissioning Guidance: Financial Assurance, Recordkeeping, and Timeliness" (9/2003).

(h) Documents provided to the Executive Secretary under Subsection R313-22-35(3)(g) shall provide that legal remedies be sought in a court of appropriate jurisdiction within Utah.

(4) Table of required amounts of financial assurance for decommissioning by quantity of material. Licensees required to submit an amount of financial assurance listed in this table must do so during a license application or as part of an amendment to an existing license. Licensees having possession limits exceeding the upper bounds of this table must base financial assurance on a decommissioning funding plan.

For combination of radionuclides, if R, as defined in R313-22-35(1)(a), divided by 10^{10} is greater than one, but	

R divided by 10¹² is less than or equal
to one: \$113,000

(5) A decommissioning funding plan shall contain a cost estimate for decommissioning and a description of the method of assuring funds for decommissioning from Subsection R313-22-35(6), including means for adjusting cost estimates and associated funding levels periodically over the life of the facility. Cost estimates shall be adjusted at intervals not to exceed 3 years. The decommissioning funding plan shall also contain a certification by the licensee that financial assurance for decommissioning has been provided in the amount of the cost estimate for decommissioning and a signed original of the financial instrument obtained to satisfy the requirements of Subsection R313-22-35(6).

(6) Financial assurance for decommissioning shall be provided by one or more of the following methods:

(a) Prepayment. Prepayment is the deposit prior to the start of operation into an account segregated from licensee assets and outside the licensee's administrative control of cash or liquid assets so that the amount of funds would be sufficient to pay decommissioning costs. Prepayment may be in the form of a trust, escrow account, government fund, certificate of deposit, or deposit of government securities;

(b) A surety method, insurance, or other guarantee method. These methods shall guarantee that decommissioning costs will be paid. A surety method may be in the form of a surety bond, letter of credit, or line of credit. A parent company guarantee of funds for decommissioning costs based on a financial test may be used if the guarantee and test are as contained in Subsection R313-22-35(8). A parent company guarantee may not be used in combination with other financial methods to satisfy the requirements of Section R313-22-35. A guarantee of funds by the applicant or licensee for decommissioning costs based on a financial test may be used if the guarantee and test are as contained in Subsection R313-22-35(9). A guarantee by the applicant or licensee may not be used in combination with any other financial methods to satisfy the requirements of Section R313-22-35 or in any situation where the applicant or licensee has a parent company holding majority control of the voting stock of the company. A surety method or insurance used to provide financial assurance for decommissioning shall contain the following conditions:

(i) the surety method or insurance shall be open-ended or, if written for a specified term, such as five years, shall be renewed automatically unless 90 days or more prior to the renewal date the issuer notifies the Executive Secretary, the beneficiary, and the licensee of its intention not to renew. The surety method or insurance shall also provide that the full face amount be paid to the beneficiary automatically prior to the expiration without proof of forfeiture if the licensee fails to provide a replacement acceptable to the Executive Secretary within 30 days after receipt of notification of cancellation,

(ii) the surety method or insurance shall be payable to a trust established for decommissioning costs. The trustee and trust shall be acceptable to the Executive Secretary. An acceptable trustee includes an appropriate state or federal government agency or an entity which has the authority to act as a trustee and whose trust operations are regulated and examined by a Federal or State agency, and

(iii) the surety method or insurance shall remain in effect until the Executive Secretary has terminated the license;

(c) An external sinking fund in which deposits are made at least annually, coupled with a surety method or insurance, the value of which may decrease by the amount being accumulated in the sinking fund. An external sinking fund is a fund established and maintained by setting aside funds periodically in an account segregated from licensee assets and outside the licensee's administrative control in which the total amount of funds would be sufficient to pay decommissioning costs at the

time termination of operation is expected. An external sinking fund may be in the form of a trust, escrow account, government fund, certificate of deposit, or deposit of government securities. The surety or insurance provisions shall be as stated in Subsection R313-22-35(6)(b);

(d) In the case of Federal, State or local government licensees, a statement of intent containing a cost estimate for decommissioning or an amount based on the Table in Subsection R313-22-35(4) and indicating that funds for decommissioning will be obtained when necessary; or

(e) When a governmental entity is assuming custody and ownership of a site, an arrangement that is deemed acceptable by such governmental entity.

(7) Persons licensed under Rule R313-22 shall keep records of information important to the decommissioning of a facility in an identified location until the site is released for unrestricted use. Before licensed activities are transferred or assigned in accordance with Subsection R313-19-34(2), licensees shall transfer all records described in Subsections R313-22-35(7)(a) through (d) to the new licensee. In this case, the new licensee will be responsible for maintaining these records until the license is terminated. If records important to the decommissioning of a facility are kept for other purposes, reference to these records and their locations may be used. Information the Executive Secretary considers important to decommissioning consists of the following:

(a) records of spills or other unusual occurrences involving the spread of contamination in and around the facility, equipment, or site. These records may be limited to instances when contamination remains after any cleanup procedures or when there is reasonable likelihood that contaminants may have spread to inaccessible areas as in the case of possible seepage into porous materials such as concrete. These records shall include any known information on identification of involved nuclides, quantities, forms, and concentrations;

(b) as-built drawings and modification of structures and equipment in restricted areas where radioactive materials are used or stored, and of locations of possible inaccessible contamination such as buried pipes which may be subject to contamination. If required drawings are referenced, each relevant document need not be indexed individually. If drawings are not available, the licensee shall substitute appropriate records of available information concerning these areas and locations;

(c) except for areas containing only sealed sources, provided the sources have not leaked or no contamination remains after a leak, or radioactive materials having only half-lives of less than 65 days, a list contained in a single document and updated every two years, including all of the following:

(i) all areas designated and formerly designated as restricted areas as defined under Section R313-12-3;

(ii) all areas outside of restricted areas that require documentation under Subsection R313-22-35(7)(a);

(iii) all areas outside of restricted areas where current and previous wastes have been buried as documented under Section R313-15-1109; and

(iv) all areas outside of restricted areas which contain material such that, if the license expired, the licensee would be required to either decontaminate the area to meet the criteria for decommissioning in Sections R313-15-401 through R313-15-406, or apply for approval for disposal under Section R313-15-1002; and

(d) records of the cost estimate performed for the decommissioning funding plan or of the amount certified for decommissioning, and records of the funding method used for assuring funds if either a funding plan or certification is used.

(8) Criteria relating to use of financial tests and parent company guarantees for providing reasonable assurance of funds for decommissioning.

(a) To pass the financial test referred to in Subsection R313-22-35(6)(b), the parent company shall meet one of the following criteria:

(i) The parent company shall have all of the following:

(A) Two of the following three ratios: a ratio of total liabilities to net worth less than 2.0; a ratio of the sum of net income plus depreciation, depletion, and amortization to total liabilities greater than 0.1; and a ratio of current assets to current liabilities greater than 1.5;

(B) Net working capital and tangible net worth each at least six times the current decommissioning cost estimates, or prescribed amount if a certification is used;

(C) Tangible net worth of at least \$10 million; and

(D) Assets located in the United States amounting to at least 90 percent of total assets or at least six times the current decommissioning cost estimates, or prescribed amount if a certification is used; or

(ii) The parent company shall have all of the following:

(A) A current rating for its most recent bond issuance of AAA, AA, A, or BBB as issued by Standard and Poor's or Aaa, Aa, A or Baa as issued by Moody's;

(B) Tangible net worth at least six times the current decommissioning cost estimate, or prescribed amount if a certification is used;

(C) Tangible net worth of at least \$10 million; and

(D) Assets located in the United States amounting to at least 90 percent of total assets or at least six times the current decommissioning cost estimates, or prescribed amount if certification is used.

(b) The parent company's independent certified public accountant shall have compared the data used by the parent company in the financial test, which is derived from the independently audited, year end financial statements for the latest fiscal year, with the amounts in such financial statement. In connection with that procedure the licensee shall inform the Executive Secretary within 90 days of any matters coming to the auditor's attention which cause the auditor to believe that the data specified in the financial test should be adjusted and that the company no longer passes the test.

(c)(i) After the initial financial test, the parent company shall repeat the passage of the test within 90 days after the close of each succeeding fiscal year.

(ii) If the parent company no longer meets the requirements of Subsection R313-22-35(8)(a) the licensee shall send notice to the Executive Secretary of intent to establish alternative financial assurance as specified in Section R313-22-35. The notice shall be sent by certified mail within 90 days after the end of the fiscal year for which the year end financial data show that the parent company no longer meets the financial test requirements. The licensee shall provide alternate financial assurance within 120 days after the end of such fiscal year.

(d) The terms of a parent company guarantee which an applicant or licensee obtains shall provide that:

(i) The parent company guarantee will remain in force unless the guarantor sends notice of cancellation by certified mail to the licensee and the Executive Secretary. Cancellation may not occur, however, during the 120 days beginning on the date of receipt of the notice of cancellation by both the licensee and the Executive Secretary, as evidenced by the return receipts.

(ii) If the licensee fails to provide alternate financial assurance as specified in Section R313-22-35 within 90 days after receipt by the licensee and Executive Secretary of a notice of cancellation of the parent company guarantee from the guarantor, the guarantor will provide such alternative financial assurance in the name of the licensee.

(iii) The parent company guarantee and financial test provisions shall remain in effect until the Executive Secretary has terminated the license.

(iv) If a trust is established for decommissioning costs, the

trustee and trust shall be acceptable to the Executive Secretary. An acceptable trustee includes an appropriate State or Federal Government agency or an entity which has the authority to act as a trustee and whose trust operations are regulated and examined by a Federal or State agency.

(9) Criteria relating to use of financial tests and self guarantees for providing reasonable assurance of funds for decommissioning.

(a) To pass the financial test referred to in Subsection R313-22-35(6)(b), a company shall meet all of the following criteria:

(i) Tangible net worth at least ten times the total current decommissioning cost estimate, or the current amount required if certification is used, for all decommissioning activities for which the company is responsible as self-guaranteeing licensee and as parent-guarantor;

(ii) Assets located in the United States amounting to at least 90 percent of total assets or at least ten times the total current decommissioning cost estimate, or the current amount required if certification is used, for all decommissioning activities for which the company is responsible as self-guaranteeing licensee and as parent-guarantor; and

(iii) A current rating for its most recent bond issuance of AAA, AA, or A as issued by Standard and Poor's, or Aaa, Aa, or A as issued by Moody's.

(b) To pass the financial test, a company shall meet all of the following additional requirements:

(i) The company shall have at least one class of equity securities registered under the Securities Exchange Act of 1934;

(ii) The company's independent certified public accountant shall have compared the data used by the company in the financial test which is derived from the independently audited, yearend financial statements for the latest fiscal year, with the amounts in such financial statement. In connection with that procedure, the licensee shall inform the Executive Secretary within 90 days of any matters coming to the attention of the auditor that cause the auditor to believe that the data specified in the financial test should be adjusted and that the company no longer passes the test; and

(iii) After the initial financial test, the company shall repeat passage of the test within 90 days after the close of each succeeding fiscal year.

(c) If the licensee no longer meets the requirements of Subsection R313-22-35(9)(a), the licensee shall send immediate notice to the Executive Secretary of its intent to establish alternate financial assurance as specified in Section R313-22-35 within 120 days of such notice.

(d) The terms of a self-guarantee which an applicant or licensee furnishes shall provide that:

(i) The guarantee will remain in force unless the licensee sends notice of cancellation by certified mail to the Executive Secretary. Cancellation may not occur, however, during the 120 days beginning on the date of receipt of the notice of cancellation by the Executive Secretary, as evidenced by the return receipt.

(ii) The licensee shall provide alternative financial assurance as specified in Section R313-22-35 within 90 days following receipt by the Executive Secretary of a notice of a cancellation of the guarantee.

(iii) The guarantee and financial test provisions shall remain in effect until the Executive Secretary has terminated the license or until another financial assurance method acceptable to the Executive Secretary has been put in effect by the licensee.

(iv) The licensee shall promptly forward to the Executive Secretary and the licensee's independent auditor all reports covering the latest fiscal year filed by the licensee with the Securities and Exchange Commission pursuant to the requirements of section 13 of the Securities and Exchange Act of 1934.

(v) If, at any time, the licensee's most recent bond issuance ceases to be rated in a category of "A" or above by either Standard and Poor's or Moody's, the licensee shall provide notice in writing of such fact to the Executive Secretary within 20 days after publication of the change by the rating service. If the licensee's most recent bond issuance ceases to be rated in any category of A or above by both Standard and Poor's and Moody's, the licensee no longer meets the requirements of Subsection R313-22-35(9)(a).

(vi) The applicant or licensee shall provide to the Executive Secretary a written guarantee, a written commitment by a corporate officer, which states that the licensee will fund and carry out the required decommissioning activities or, upon issuance of an order by the Board, the licensee shall set up and fund a trust in the amount of the current cost estimates for decommissioning.

R313-22-36. Expiration and Termination of Licenses and Decommissioning of Sites and Separate Buildings or Outdoor Areas.

(1) A specific license expires at the end of the day on the expiration date stated in the license unless the licensee has filed an application for renewal under Section R313-22-37 no less than 30 days before the expiration date stated in the existing license. If an application for renewal has been filed at least 30 days prior to the expiration date stated in the existing license, the existing license expires at the end of the day on which the Executive Secretary makes a final determination to deny the renewal application or, if the determination states an expiration date, the expiration date stated in the determination.

(2) A specific license revoked by the Executive Secretary expires at the end of the day on the date of the Executive Secretary's final determination to revoke the license, or on the expiration date stated in the determination, or as otherwise provided by an Order issued by the Executive Secretary.

(3) A specific license continues in effect, beyond the expiration date if necessary, with respect to possession of radioactive material until the Executive Secretary notifies the licensee in writing that the license is terminated. During this time, the licensee shall:

(a) limit actions involving radioactive material to those related to decommissioning; and

(b) continue to control entry to restricted areas until they are suitable for release so that there is not an undue hazard to public health and safety or the environment.

(4) Within 60 days of the occurrence of any of the following, a licensee shall provide notification to the Executive Secretary in writing of such occurrence, and either begin decommissioning its site, or any separate building or outdoor area that contains residual radioactivity so that the building or outdoor area is suitable for release so that there is not an undue hazard to public health and safety or the environment, or submit within 12 months of notification a decommissioning plan, if required by Subsection R313-22-36(7), and begin decommissioning upon approval of that plan if:

(a) the license has expired pursuant to Subsections R313-22-36(1) or (2); or

(b) the licensee has decided to permanently cease principal activities at the entire site or in any separate building or outdoor area that contains residual radioactivity such that the building or outdoor area is unsuitable for release because of an undue hazard to public health and safety or the environment; or

(c) no principal activities under the license have been conducted for a period of 24 months; or

(d) no principal activities have been conducted for a period of 24 months in any separate building or outdoor area that contains residual radioactivity such that the building or outdoor area is unsuitable for release because of an undue hazard to public health and safety or the environment.

(5) Coincident with the notification required by Subsection R313-22-36(4), the licensee shall maintain in effect all decommissioning financial assurances established by the licensee pursuant to Section R313-22-35 in conjunction with a license issuance or renewal or as required by Section R313-22-36. The amount of the financial assurance must be increased, or may be decreased, as appropriate, to cover the detailed cost estimate for decommissioning established pursuant to Subsection R313-22-36(7)(d)(v).

(a) A licensee who has not provided financial assurance to cover the detailed cost estimate submitted with the decommissioning plan shall do so on or before August 15, 1997.

(b) Following approval of the decommissioning plan, a licensee may reduce the amount of the financial assurance as decommissioning proceeds and radiological contamination is reduced at the site with the approval of the Executive Secretary.

(6) The Executive Secretary may grant a request to extend the time periods established in Subsection R313-22-36(4) if the Executive Secretary determines that this relief is not detrimental to the public health and safety and is otherwise in the public interest. The request must be submitted no later than 30 days before notification pursuant to Subsection R313-22-36(4). The schedule for decommissioning set forth in Subsection R313-22-36(4) may not commence until the Executive Secretary has made a determination on the request.

(7)(a) A decommissioning plan shall be submitted if required by license condition or if the procedures and activities necessary to carry out decommissioning of the site or separate building or outdoor area have not been previously approved by the Executive Secretary and these procedures could increase potential health and safety impacts to workers or to the public, such as in any of the following cases:

(i) procedures would involve techniques not applied routinely during cleanup or maintenance operations;

(ii) workers would be entering areas not normally occupied where surface contamination and radiation levels are significantly higher than routinely encountered during operation;

(iii) procedures could result in significantly greater airborne concentrations of radioactive materials than are present during operation; or

(iv) procedures could result in significantly greater releases of radioactive material to the environment than those associated with operation.

(b) The Executive Secretary may approve an alternate schedule for submittal of a decommissioning plan required pursuant to Subsection R313-22-36(4) if the Executive Secretary determines that the alternative schedule is necessary to the effective conduct of decommissioning operations and presents no undue risk from radiation to the public health and safety and is otherwise in the public interest.

(c) Procedures such as those listed in Subsection R313-22-36(7)(a) with potential health and safety impacts may not be carried out prior to approval of the decommissioning plan.

(d) The proposed decommissioning plan for the site or separate building or outdoor area must include:

(i) a description of the conditions of the site or separate building or outdoor area sufficient to evaluate the acceptability of the plan;

(ii) a description of planned decommissioning activities;

(iii) a description of methods used to ensure protection of workers and the environment against radiation hazards during decommissioning;

(iv) a description of the planned final radiation survey; and

(v) an updated detailed cost estimate for decommissioning, comparison of that estimate with present funds set aside for decommissioning, and a plan for assuring the availability of adequate funds for completion of decommissioning.

(vi) For decommissioning plans calling for completion of

decommissioning later than 24 months after plan approval, the plan shall include a justification for the delay based on the criteria in Subsection R313-22-36(8).

(e) The proposed decommissioning plan will be approved by the Executive Secretary if the information therein demonstrates that the decommissioning will be completed as soon as practical and that the health and safety of workers and the public will be adequately protected.

(8)(a) Except as provided in Subsection R313-22-36(9), licensees shall complete decommissioning of the site or separate building or outdoor area as soon as practical but no later than 24 months following the initiation of decommissioning.

(b) Except as provided in Subsection R313-22-36(9), when decommissioning involves the entire site, the licensee shall request license termination as soon as practical but no later than 24 months following the initiation of decommissioning.

(9) The Executive Secretary may approve a request for an alternative schedule for completion of decommissioning of the site or separate building or outdoor area, and license termination if appropriate, if the Executive Secretary determines that the alternative is warranted by consideration of the following:

(a) whether it is technically feasible to complete decommissioning within the allotted 24-month period;

(b) whether sufficient waste disposal capacity is available to allow completion of decommissioning within the allotted 24-month period;

(c) whether a significant volume reduction in wastes requiring disposal will be achieved by allowing short-lived radionuclides to decay;

(d) whether a significant reduction in radiation exposure to workers can be achieved by allowing short-lived radionuclides to decay; and

(e) other site-specific factors which the Executive Secretary may consider appropriate on a case-by-case basis, such as the regulatory requirements of other government agencies, lawsuits, ground-water treatment activities, monitored natural ground-water restoration, actions that could result in more environmental harm than deferred cleanup, and other factors beyond the control of the licensee.

(10) As the final step in decommissioning, the licensee shall:

(a) certify the disposition of all licensed material, including accumulated wastes, by submitting a completed Form DRC-14 or equivalent information; and

(b) conduct a radiation survey of the premises where the licensed activities were carried out and submit a report of the results of this survey, unless the licensee demonstrates in some other manner that the premises are suitable for release in accordance with the criteria for decommissioning in Sections R313-15-401 through R313-15-406. The licensee shall, as appropriate:

(i) report levels of gamma radiation in units of millisieverts (microroentgen) per hour at one meter from surfaces, and report levels of radioactivity, including alpha and beta, in units of megabecquerels (disintegrations per minute or microcuries) per 100 square centimeters--removable and fixed-- for surfaces, megabecquerels (microcuries) per milliliter for water, and becquerels (picocuries) per gram for solids such as soils or concrete; and

(ii) specify the survey instrument(s) used and certify that each instrument is properly calibrated and tested.

(11) Specific licenses, including expired licenses, will be terminated by written notice to the licensee when the Executive Secretary determines that:

(a) radioactive material has been properly disposed;

(b) reasonable effort has been made to eliminate residual radioactive contamination, if present; and

(c) documentation is provided to the Executive Secretary that:

(i) a radiation survey has been performed which demonstrates that the premises are suitable for release in accordance with the criteria for decommissioning in Sections R313-15-401 through R313-15-406; or

(ii) other information submitted by the licensee is sufficient to demonstrate that the premises are suitable for release in accordance with the criteria for decommissioning in Sections R313-15-401 through R313-15-406.

R313-22-37. Renewal of Licenses.

Application for renewal of a specific license shall be filed on a form prescribed by the Executive Secretary and in accordance with Section R313-22-32.

R313-22-38. Amendment of Licenses at Request of Licensee.

Applications for amendment of a license shall be filed in accordance with Section R313-22-32 and shall specify the respects in which the licensee desires the license to be amended and the grounds for the amendment.

R313-22-39. Executive Secretary Action on Applications to Renew or Amend.

In considering an application by a licensee to renew or amend the license, the Executive Secretary will use the criteria set forth in Sections R313-22-33, R313-22-50, and R313-22-75 and in Rules R313-24, R313-25, R313-32, R313-34, R313-36, or R313-38, as applicable.

R313-22-75. Special Requirements for a Specific License to Manufacture, Assemble, Repair, or Distribute Commodities, Products, or Devices Which Contain Radioactive Material.

(1) Licensing the introduction of radioactive material into products in exempt concentrations.

(a) In addition to the requirements set forth in Section R313-22-33, a specific license authorizing the introduction of radioactive material into a product or material owned by or in the possession of the licensee or another to be transferred to persons exempt under Subsection R313-19-13(2)(a) will be issued if:

(i) the applicant submits a description of the product or material into which the radioactive material will be introduced, intended use of the radioactive material and the product or material into which it is introduced, method of introduction, initial concentration of the radioactive material in the product or material, control methods to assure that no more than the specified concentration is introduced into the product or material, estimated time interval between introduction and transfer of the product or material, and estimated concentration of the radioactive material in the product or material at the time of transfer; and

(ii) the applicant provides reasonable assurance that the concentrations of radioactive material at the time of transfer will not exceed the concentrations in Section R313-19-70, that reconcentration of the radioactive material in concentrations exceeding those in Section R313-19-70 is not likely, that use of

lower concentrations is not feasible, and that the product or material is not likely to be incorporated in any food, beverage, cosmetic, drug or other commodity or product designed for ingestion or inhalation by, or application to a human being.

(b) Persons licensed under Subsection R313-22-75(1) shall file an annual report with the Executive Secretary which shall identify the type and quantity of products or materials into which radioactive material has been introduced during the reporting period; name and address of the person who owned or possessed the product and material, into which radioactive material has been introduced, at the time of introduction; the type and quantity of radionuclide introduced into the product or material; and the initial concentrations of the radionuclide in the product or material at time of transfer of the radioactive material by the licensee. If no transfers of radioactive material have been made pursuant to Subsection R313-22-75(1) during the reporting period, the report shall so indicate. The report shall cover the year ending June 30, and shall be filed within thirty days thereafter.

(2) Licensing the distribution of radioactive material in exempt quantities. Authority to transfer possession or control by the manufacturer, processor or producer of equipment, devices, commodities or other products containing byproduct material whose subsequent possession, use, transfer, and disposal by other persons who are exempted from regulatory requirements may be obtained only from the Nuclear Regulatory Commission, Washington, D.C. 20555.

(ii) the radioactive material is in the form of processed chemical elements, compounds, or mixtures, tissue samples, bioassay samples, counting standards, plated or encapsulated sources, or similar substances, identified as radioactive and to be used for its radioactive properties, but is not incorporated into a manufactured or assembled commodity, product, or device intended for commercial distribution; and

(iii) the applicant submits copies of prototype labels and brochures and the Executive Secretary approves the labels and brochures;

(b) The license issued under Subsection R313-22-75(2)(a) is subject to the following conditions:

(i) No more than ten exempt quantities shall be sold or transferred in a single transaction. However, an exempt quantity may be composed of fractional parts of one or more of the exempt quantities provided the sum of the fractions shall not exceed unity.

(ii) Exempt quantities shall be separated and individually packaged. No more than ten packaged exempt quantities shall be contained in any outer package for transfer to persons exempt pursuant to Subsection R313-19-13(2)(b). The outer package shall not allow the dose rate at the external surface of the package to exceed 5.0 microsievert (0.5 mrem) per hour.

(B) under ordinary conditions of handling, storage and use of the device, the radioactive material contained in the device will not be released or inadvertently removed from the device, and it is unlikely that a person will receive in one year, a dose in excess of ten percent of the annual limits specified in Subsection R313-15-201(1), and

(C) under accident conditions, such as fire and explosion, associated with handling, storage and use of the device, it is unlikely that a person would receive an external radiation dose or dose commitment in excess of the following organ doses:

TABLE

Whole body; head and trunk; active blood-forming organs; gonads; or lens of eye	150.0 mSv (15 rems)
Hands and forearms; feet and ankles; localized areas of skin averaged over areas no larger than one square centimeter	2.0 Sv (200 rems)
Other organs	500.0 mSv (50 rems); and

(iii) each device bears a durable, legible, clearly visible

label or labels approved by the Executive Secretary, which contain in a clearly identified and separate statement:

(A) instructions and precautions necessary to assure safe installation, operation and servicing of the device; documents such as operating and service manuals may be identified in the label and used to provide this information,

(B) the requirement, or lack of requirement, for leak testing, or for testing an "on-off" mechanism and indicator, including the maximum time interval for testing, and the identification of radioactive material by radionuclide, quantity of radioactivity, and date of determination of the quantity, and

(C) the information called for in one of the following statements, as appropriate, in the same or substantially similar form:

(I) "The receipt, possession, use and transfer of this device, Model No., Serial No., are subject to a general license or the equivalent, and the regulations of the Nuclear Regulatory Commission or a state with which the Nuclear Regulatory Commission has entered into an agreement for the exercise of regulatory authority. This label shall be maintained on the device in a legible condition. Removal of this label is prohibited." The label shall be printed with the words "CAUTION -RADIOACTIVE MATERIAL" and the name of the manufacturer or distributor shall appear on the label. The model, serial number, and name of the manufacturer or distributor may be omitted from this label provided the information is elsewhere specified in labeling affixed to the device.

(II) "The receipt, possession, use and transfer of this device, Model No., Serial No., are subject to a general license or the equivalent, and the regulations of a Licensing State. This label shall be maintained on the device in a legible condition. Removal of this label is prohibited." The label shall be printed with the words "CAUTION -RADIOACTIVE MATERIAL" and the name of the manufacturer or distributor shall appear on the label. The model, serial number, and name of the manufacturer or distributor may be omitted from this label provided the information is elsewhere specified in labeling affixed to the device.

(D) Each device having a separable source housing that provides the primary shielding for the source also bears, on the source housing, a durable label containing the device model number and serial number, the isotope and quantity, the words, "Caution-Radioactive Material," the radiation symbol described in Section R313-15-901, and the name of the manufacturer or initial distributor.

(E) Each device meeting the criteria of Subsection R313-21-22(4)(c)(xiii)(A), bears a permanent label, for example, embossed, etched, stamped, or engraved, affixed to the source housing if separable, or the device if the source housing is not separable, that includes the words, "Caution-Radioactive Material," and, if practicable, the radiation symbol described in Section R313-15-901.

(b) In the event the applicant desires that the device be required to be tested at intervals longer than six months, either for proper operation of the "on-off" mechanism and indicator, if any, or for leakage of radioactive material or for both, the applicant shall include in the application sufficient information to demonstrate that a longer interval is justified by performance characteristics of the device or similar devices and by design features which have a significant bearing on the probability or consequences of leakage of radioactive material from the device or failure of the "on-off" mechanism and indicator. In determining the acceptable interval for the test for leakage of radioactive material, the Executive Secretary will consider information which includes, but is not limited to:

- (i) primary containment, or source capsule;
- (ii) protection of primary containment;

- (iii) method of sealing containment;
- (iv) containment construction materials;
- (v) form of contained radioactive material;
- (vi) maximum temperature withstood during prototype tests;

- (x) operating experience with identical devices or similarly designed and constructed devices.

(c) In the event the applicant desires that the general licensee under Subsection R313-21-22(4), or under equivalent regulations of the Nuclear Regulatory Commission, an Agreement State or a Licensing State be authorized to install the device, collect the sample to be analyzed by a specific licensee for leakage of radioactive material, service the device, test the "on-off" mechanism and indicator, or remove the device from installation, the applicant shall include in the application written instructions to be followed by the general licensee, estimated calendar quarter doses associated with this activity or activities, and basis for these estimates. The submitted information shall demonstrate that performance of this activity or activities by an individual untrained in radiological protection, in addition to other handling, storage, and use of devices under the general license, is unlikely to cause that individual to receive a dose in excess of ten percent of the annual limits specified in Subsection R313-15-201(1).

(d)(i) If a device containing radioactive material is to be transferred for use under the general license contained in Subsection R313-21-22(4), each person that is licensed under Subsection R313-22-75(4) shall provide the information specified in Subsections R313-22-75(4)(d)(i)(A) through (E) to each person to whom a device is to be transferred. This information must be provided before the device may be transferred. In the case of a transfer through an intermediate person, the information must also be provided to the intended user prior to initial transfer to the intermediate person. The required information includes:

(A) a copy of the general license contained in Subsection R313-21-22(4); if Subsections R313-21-22(4)(c)(ii) through (iv) or R313-21-22(4)(c)(xiii) do not apply to the particular device, those paragraphs may be omitted;

(B) a copy of Sections R313-12-51, R313-15-1201, and R313-15-1202;

(C) a list of services that can only be performed by a specific licensee;

(D) Information on acceptable disposal options including estimated costs of disposal; and

(E) An indication that the Board's policy is to issue civil penalties for improper disposal.

R313. Environmental Quality, Radiation Control.**R313-25. License Requirements for Land Disposal of Radioactive Waste - General Provisions.****R313-25-1. Purpose and Scope.**

The rules in this chapter establish procedures, criteria, and terms and conditions upon which the Executive Secretary issues licenses for the land disposal of wastes received from other persons. The requirements of R313-25 are in addition to, and not in substitution for, other applicable requirements of these rules.

R313-25-2. Definitions.

As used in R313-25, the following definitions apply:

"Active maintenance" means significant activity needed during the period of institutional control to maintain a reasonable assurance that the performance objectives in R313-25-19 and R313-25-20 are met. Active maintenance may include the pumping and treatment of water from a disposal unit, the replacement of a disposal unit cover, or other episodic or continuous measures. Active maintenance does not include custodial activities like repair of fencing, repair or replacement of monitoring equipment, revegetation, minor additions to soil cover, minor repair of disposal unit covers, and general disposal site upkeep.

"Buffer zone" means a portion of the disposal site that is controlled by the licensee and that lies under the disposal units and between the disposal units and the boundary of the site.

"Commencement of construction" means clearing of land, excavation, or other substantial action that could adversely affect the environment of a land disposal facility. The term does not mean disposal site exploration, necessary roads for disposal site exploration, borings to determine foundation conditions, or other preconstruction monitoring or testing to establish background information related to the suitability of the disposal site or the protection of environmental values.

"Custodial agency" means an agency of the government designated to act on behalf of the government owner of the disposal site.

"Disposal" means the isolation of wastes from the biosphere by placing them in a land disposal facility.

"Disposal site" means that portion of a land disposal facility which is used for disposal of waste. It consists of disposal units and a buffer zone.

"Disposal unit" means a discrete portion of the disposal site into which waste is placed for disposal. For near-surface disposal, the disposal unit may be a trench.

"Engineered barrier" means a man-made structure or device intended to improve the land disposal facility's performance under R313-25.

"Hydrogeologic unit" means a soil or rock unit or zone that has a distinct influence on the storage or movement of ground water.

"Inadvertent intruder" means a person who may enter the disposal site after closure and engage in activities unrelated to post closure management, such as agriculture, dwelling construction, or other pursuits which could, by disturbing the site, expose individuals to radiation.

"Intruder barrier" means a sufficient depth of cover over the waste that inhibits contact with waste and helps to ensure that radiation exposures to an inadvertent intruder will meet the performance objectives set forth in R313-25, or engineered structures that provide equivalent protection to the inadvertent intruder.

"Land disposal facility" means the land, buildings and structures, and equipment which are intended to be used for the disposal of radioactive waste.

"Monitoring" means observing and making measurements to provide data to evaluate the performance and characteristics of the disposal site.

"Near-surface disposal facility" means a land disposal facility in which waste is disposed of within approximately the upper 30 meters of the earth's surface.

"Site closure and stabilization" means those actions that are taken upon completion of operations that prepare the disposal site for custodial care, and that assure that the disposal site will remain stable and will not need ongoing active maintenance.

"Stability" means structural stability.

"Surveillance" means monitoring and observation of the disposal site to detect needs for maintenance or custodial care, to observe evidence of intrusion, and to ascertain compliance with other license and regulatory requirements.

"Treatment" means the stabilization or the reduction in volume of waste by a chemical or a physical process.

"Waste" means those low-level radioactive wastes as defined in Section 19-3-102 that are acceptable for disposal in a land disposal facility. For the purposes of this definition, low-level waste has the same meaning as it does in the Low-Level Radioactive Waste Policy Act, Pub.L. 96-573, 94 Stat. 3347; thus, the term denotes radioactive waste not classified as high-level radioactive waste, transuranic waste, spent nuclear fuel, waste does not mean byproduct material as defined in 42 U.S.C. 2011(e)(2) of the Atomic Energy Act, uranium or thorium tailings and waste.

R313-25-3. Pre-licensing Plan Approval Criteria for Siting of Commercial Radioactive Waste Disposal Facilities.

(1) Persons proposing to construct or operate commercial radioactive waste disposal facilities, including waste incinerators, shall obtain a plan approval from the Executive Secretary before applying for a license. Plans shall meet the siting criteria and plan approval requirements of Section R313-25-3.

(2) The siting criteria and plan approval requirements in R313-25-3 apply to prelicensing plan approval applications.

(3) Treatment and disposal facilities, including commercial radioactive waste incinerators, shall not be located:

(8) The plan approval siting application shall provide evidence that if the proposed disposal site is on land not owned by state or federal government, that arrangements have been made for assumption of ownership in fee by a state or federal agency.

(9) Siting Authority. The Executive Secretary recognizes that Titles 10 and 17 of the Utah Code give cities and counties authority for local use planning and zoning. Nothing in R313-25-3 precludes cities and counties from establishing additional requirements as provided by applicable state and federal law.

R313-25-4. License Required.

(1) Persons shall not receive, possess, or dispose of waste at a land disposal facility unless authorized by a license issued by the Executive Secretary pursuant to R313-25 and R313-22.

(2) Persons shall file an application with the Executive Secretary pursuant to R313-22-32 and obtain a license as provided in R313-25 before commencement of construction of a land disposal facility. Failure to comply with this requirement may be grounds for denial of a license and other penalties established by law and rules.

(3) The license will be terminated only on the full implementation of the final closure plan, including post-closure observation and maintenance, as approved by the Executive Secretary.

(4) The licensee shall submit to the provisions of the Act now or hereafter in effect, and to all findings and orders of the Executive Secretary. The terms and conditions of the license are subject to amendment, revision, or modification, by reason of amendments to, or by reason of rules, and orders issued in accordance with the terms of the Act and these rules.

(5) Persons licensed by the Executive Secretary pursuant to R313-25 shall confine possession and use of the materials to the locations and purposes authorized in the license.

(6) The licensee shall not dispose of waste until the Executive Secretary has inspected the land disposal facility and has found it to conform with the description, design, and construction described in the application for a license.

(7) The Executive Secretary may incorporate, by rule or order, into licenses at the time of issuance or thereafter, additional requirements and conditions with respect to the licensee's receipt, possession, and disposal of waste as the Executive Secretary deems appropriate or necessary in order to:

(a) protect health or to minimize danger to life or property;

(b) require reports and the keeping of records, and to provide for inspections of licensed activities as the Executive Secretary deems necessary or appropriate to effectuate the purposes of the Radiation Control Act and Rules.

(8) The authority to dispose of wastes expires on the expiration date stated in the license. An expiration date on a license applies only to the above ground activities and to the authority to dispose of waste. Failure to renew the license shall not relieve the licensee of responsibility for implementing site closure, post-closure observation, and transfer of the license to the site owner.

R313-25-13. Application for Renewal or Closure.

(1) An application for renewal or an application for closure under R313-25-14 shall be filed at least 90 days prior to license expiration.

(2) Applications for renewal of a license shall be filed in accordance with R313-25-5 through 25-10. Applications for closure shall be filed in accordance with R313-25-14. Information contained in previous applications, statements, or reports filed with the Executive Secretary under the license may be incorporated by reference if the references are clear and

specific.

(3) If a licensee has filed an application in proper form for renewal of a license, the license shall not expire unless and until the Executive Secretary has taken final action to deny application for renewal.

(4) In evaluating an application for license renewal, the Executive Secretary will apply the criteria set forth in R313-25-11.

R313-25-14. Contents of Application for Site Closure and Stabilization.

(1) Prior to final closure of the disposal site, or as otherwise directed by the Executive Secretary, the licensee shall submit an application to amend the license for closure. This closure application shall include a final revision and specific details of the disposal site closure plan included in the original license application submitted and approved under R313-25-7(7). The plan shall include the following:

(a) additional geologic, hydrologic, or other data pertinent to the long-term containment of emplaced wastes obtained during the operational period;

(b) the results of tests, experiments, or other analyses relating to backfill of excavated areas, closure and sealing, waste migration and interaction with emplacement media, or other tests, experiments, or analyses pertinent to the long-term containment of emplaced waste within the disposal site;

(c) proposed revision of plans for:

(i) decontamination or dismantlement of surface facilities;

(ii) backfilling of excavated areas; or

(iii) stabilization of the disposal site for post-closure care.

(d) Significant new information regarding the environmental impact of closure activities and long-term performance of the disposal site.

(2) Upon review and consideration of an application to amend the license for closure submitted in accordance with R313-25-14(1), the Executive Secretary shall issue an amendment authorizing closure if there is reasonable assurance that the long-term performance objectives of R313-25 will be met.

R313-25-15. Post-Closure Observation and Maintenance.

The licensee shall observe, monitor, and carry out necessary maintenance and repairs at the disposal site until the site closure is complete and the license is transferred by the Executive Secretary in accordance with R313-25-16. The licensee shall remain responsible for the disposal site for an additional five years. The Executive Secretary may approve closure plans that provide for shorter or longer time periods of post-closure observation and maintenance, if sufficient rationale is developed for the variance.

R313-25-16. Transfer of License.

Following closure and the period of post-closure observation and maintenance, the licensee may apply for an amendment to transfer the license to the disposal site owner. The license shall be transferred when the Executive Secretary finds:

(1) that the disposal site was closed according to the licensee's approved disposal site closure plan;

(2) that the licensee has provided reasonable assurance that the performance objectives of R313-25 have been met;

(3) that funds for care and records required by R313-25-33(4) and (5) have been transferred to the disposal site owner;

(4) that the post-closure monitoring program is operational and can be implemented by the disposal site owner; and

(5) that the Federal or State agency which will assume responsibility for institutional control of the disposal site is prepared to assume responsibility and ensure that the institutional requirements found necessary under R313-25-11(8)

will be met.

R313-25-17. Termination of License.

(1) Following the period of institutional control needed to meet the requirements of R313-25-11, the licensee may apply for an amendment to terminate the license.

(2) This application will be reviewed in accordance with the provisions of R313-22-32.

(3) A license shall be terminated only when the Executive Secretary finds:

(a) that the institutional control requirements of R313-25-11(8) have been met;

(b) that additional requirements resulting from new information developed during the institutional control period have been met;

(c) that permanent monuments or markers warning against intrusion have been installed; and

(d) that records required by R313-25-33(4) and (5) have been sent to the party responsible for institutional control of the disposal site and a copy has been sent to the Executive Secretary immediately prior to license termination.

R313-25-18. General Requirement.

Land disposal facilities shall be sited, designed, operated, closed, and controlled after closure so that reasonable assurance exists that exposures to individuals do not exceed the limits stated in R313-25-19 and 25-22.

R313-25-19. Protection of the General Population from Releases of Radioactivity.

Concentrations of radioactive material which may be released to the general environment in ground water, surface water, air, soil, plants or animals shall not result in an annual dose exceeding an equivalent of 0.25 mSv (0.025 rem) to the whole body, 0.75 mSv (0.075 rem) to the thyroid, and 0.25 mSv (0.025 rem) to any other organ of any member of the public. No greater than 0.04 mSv (0.004 rem) committed effective dose equivalent or total effective dose equivalent to any member of the public shall come from groundwater. Reasonable efforts should be made to maintain releases of radioactivity in effluents to the general environment as low as is reasonably achievable.

R313-25-20. Protection of Individuals from Inadvertent Intrusion.

Design, operation, and closure of the land disposal facility shall ensure protection of any individuals inadvertently intruding into the disposal site and occupying the site or contacting the waste after active institutional controls over the disposal site are removed.

R313-25-21. Protection of Individuals During Operations.

Operations at the land disposal facility shall be conducted in compliance with the standards for radiation protection set out in R313-15 of these rules, except for release of radioactivity in effluents from the land disposal facility, which shall be governed by R313-25-19. Every reasonable effort should be made to maintain radiation exposures as low as is reasonably achievable, ALARA.

R313-25-22. Stability of the Disposal Site After Closure.

The disposal facility shall be sited, designed, used, operated, and closed to achieve long-term stability of the disposal site and to eliminate, to the extent practicable, the need for ongoing active maintenance of the disposal site following closure so that only surveillance, monitoring, or minor custodial care are required.

R313-25-23. Disposal Site Suitability Requirements for Land Disposal - Near-Surface Disposal.

(1) The primary emphasis in disposal site suitability is given to isolation of wastes and to disposal site features that ensure that the long-term performance objectives are met.

(2) The disposal site shall be capable of being characterized, modeled, analyzed and monitored.

(3) Within the region where the facility is to be located, a disposal site should be selected so that projected population growth and future developments are not likely to affect the ability of the disposal facility to meet the performance objectives of R313-25.

(4) Areas shall be avoided having known natural resources which, if exploited, would result in failure to meet the performance objectives of R313-25.

(5) The disposal site shall be generally well drained and free of areas of flooding or frequent ponding. Waste disposal shall not take place in a 100-year flood plain, coastal high-hazard area or wetland, as defined in Executive Order 11988, "Floodplain Management Guidelines."

(6) Upstream drainage areas shall be minimized to decrease the amount of runoff which could erode or inundate waste disposal units.

(7) The disposal site shall provide sufficient depth to the water table that ground water intrusion, perennial or otherwise, into the waste will not occur. The Executive Secretary will consider an exception to this requirement to allow disposal below the water table if it can be conclusively shown that disposal site characteristics will result in molecular diffusion being the predominant means of radionuclide movement and the rate of movement will result in the performance objectives being met. In no case will waste disposal be permitted in the zone of fluctuation of the water table.

(8) The hydrogeologic unit used for disposal shall not discharge ground water to the surface within the disposal site.

(9) Areas shall be avoided where tectonic processes such as faulting, folding, seismic activity, vulcanism, or similar phenomena may occur with such frequency and extent to significantly affect the ability of the disposal site to meet the performance objectives of R313-25 or may preclude defensible modeling and prediction of long-term impacts.

(10) Areas shall be avoided where surface geologic processes such as mass wasting, erosion, slumping, landsliding, or weathering occur with sufficient such frequency and extent to significantly affect the ability of the disposal site to meet the performance objectives of R313-25, or may preclude defensible modeling and prediction of long-term impacts.

(11) The disposal site shall not be located where nearby facilities or activities could adversely impact the ability of the site to meet the performance objectives of R313-25 or significantly mask the environmental monitoring program.

R313-25-24. Disposal Site Design for Near-Surface Land Disposal.

(1) Site design features shall be directed toward long-term isolation and avoidance of the need for continuing active maintenance after site closure.

(2) The disposal site design and operation shall be compatible with the disposal site closure and stabilization plan and lead to disposal site closure that provides reasonable assurance that the performance objectives will be met.

(3) The disposal site shall be designed to complement and improve, where appropriate, the ability of the disposal site's natural characteristics to assure that the performance objectives will be met.

(4) Covers shall be designed to minimize, to the extent practicable, water infiltration, to direct percolating or surface water away from the disposed waste, and to resist degradation by surface geologic processes and biotic activity.

(5) Surface features shall direct surface water drainage away from disposal units at velocities and gradients which will

not result in erosion that will require ongoing active maintenance in the future.

(6) The disposal site shall be designed to minimize to the extent practicable the contact of water with waste during storage, the contact of standing water with waste during disposal, and the contact of percolating or standing water with wastes after disposal.

R313-25-25. Near Surface Land Disposal Facility Operation and Disposal Site Closure.

(1) Wastes designated as Class A pursuant to R313-15-1008 of these rules shall be segregated from other wastes by placing them in disposal units which are sufficiently separated from disposal units for the other waste classes so that any interaction between Class A wastes and other wastes will not result in the failure to meet the performance objectives of R313-25. This segregation is not necessary for Class A wastes if they meet the stability requirements of R313-15-1008(2)(b).

(2) Wastes designated as Class C pursuant to R313-15-1008 shall be disposed of so that the top of the waste is a minimum of five meters below the top surface of the cover or shall be disposed of with intruder barriers that are designed to protect against an inadvertent intrusion for at least 500 years.

(3) Except as provided in R313-25-1(1), only waste classified as Class A, B, or C shall be acceptable for near-surface disposal. Wastes shall be disposed of in accordance with the requirements of R313-25-25(4) through 11.

(4) Wastes shall be emplaced in a manner that maintains the package integrity during emplacement, minimizes the void spaces between packages, and permits the void spaces to be filled.

(5) Void spaces between waste packages shall be filled with earth or other material to reduce future subsidence within the fill.

(6) Waste shall be placed and covered in a manner that limits the radiation dose rate at the surface of the cover to levels that at a minimum will permit the licensee to comply with all provisions of R313-15-105 at the time the license is transferred pursuant to R313-25-16.

(7) The boundaries and locations of disposal units shall be accurately located and mapped by means of a land survey. Near-surface disposal units shall be marked in such a way that the boundaries of the units can be easily defined. Three permanent survey marker control points, referenced to United States Geological Survey or National Geodetic Survey control stations, shall be established on the site to facilitate surveys. The United States Geological Survey or National Geodetic Survey control stations shall provide horizontal and vertical controls as checked against United States Geological Survey or National Geodetic Survey record files.

(8) A buffer zone of land shall be maintained between any buried waste and the disposal site boundary and beneath the disposed waste. The buffer zone shall be of adequate dimensions to carry out environmental monitoring activities specified in R313-25-26(4) and take mitigative measures if needed.

(9) Closure and stabilization measures as set forth in the approved site closure plan shall be carried out as the disposal units are filled and covered.

(10) Active waste disposal operations shall not have an adverse effect on completed closure and stabilization measures.

(11) Only wastes containing or contaminated with radioactive material shall be disposed of at the disposal site.

(12) Proposals for disposal of waste that are not generally acceptable for near-surface disposal because the wastes form and disposal methods shall be different and, in general, more stringent than those specified for Class C waste, may be submitted to the Executive Secretary for approval.

R313-25-26. Environmental Monitoring.

(1) At the time a license application is submitted, the applicant shall have conducted a preoperational monitoring program to provide basic environmental data on the disposal site characteristics. The applicant shall obtain information about the ecology, meteorology, climate, hydrology, geology, geochemistry, and seismology of the disposal site. For those characteristics that are subject to seasonal variation, data shall cover at least a 12-month period.

(2) During the land disposal facility site construction and operation, the licensee shall maintain an environmental monitoring program. Measurements and observations shall be made and recorded to provide data to evaluate the potential health and environmental impacts during both the construction and the operation of the facility and to enable the evaluation of long-term effects and need for mitigative measures. The monitoring system shall be capable of providing early warning of releases of waste from the disposal site before they leave the site boundary.

(3) After the disposal site is closed, the licensee responsible for post-operational surveillance of the disposal site shall maintain a monitoring system based on the operating history and the closure and stabilization of the disposal site. The monitoring system shall be capable of providing early warning of releases of waste from the disposal site before they leave the site boundary.

(4) The licensee shall have plans for taking corrective measures if the environmental monitoring program detects migration of waste which would indicate that the performance objectives may not be met.

R313-25-27. Alternative Requirements for Design and Operations.

The Executive Secretary may, upon request or on his own initiative, authorize provisions other than those set forth in R313-25-24 and 25-26 for the segregation and disposal of waste and for the design and operation of a land disposal facility on a specific basis, if it finds reasonable assurance of compliance with the performance objectives of R313-25.

R313-25-28. Institutional Requirements.

(1) Land Ownership. Disposal of waste received from other persons may be permitted only on land owned in fee by the Federal or a State government.

(2) Institutional Control. The land owner or custodial agency shall conduct an institutional control program to physically control access to the disposal site following transfer of control of the disposal site from the disposal site operator. The institutional control program shall also include, but not be limited to, conducting an environmental monitoring program at the disposal site, periodic surveillance, minor custodial care, and other equivalents as determined by the Executive Secretary, and administration of funds to cover the costs for these activities. The period of institutional controls will be determined by the Executive Secretary, but institutional controls may not be relied upon for more than 100 years following transfer of control of the disposal site to the owner.

R313-25-30. Applicant Qualifications and Assurances.

The applicant shall show that it either possesses the necessary funds, or has reasonable assurance of obtaining the necessary funds, or by a combination of the two, to cover the estimated costs of conducting all licensed activities over the planned operating life of the project, including costs of construction and disposal.

R313-25-31. Funding for Disposal Site Closure and Stabilization.

(1) The applicant shall provide assurances prior to the commencement of operations that sufficient funds will be

available to carry out disposal site closure and stabilization, including:

(a) decontamination or dismantlement of land disposal facility structures, and

(b) closure and stabilization of the disposal site so that following transfer of the disposal site to the site owner, the need for ongoing active maintenance is eliminated to the extent practicable and only minor custodial care, surveillance, and monitoring are required. These assurances shall be based on Executive Secretary approved cost estimates reflecting the Executive Secretary approved plan for disposal site closure and stabilization. The applicant's cost estimates shall take into account total costs that would be incurred if an independent contractor were hired to perform the closure and stabilization work.

(2) In order to avoid unnecessary duplication and expense, the Executive Secretary will accept financial sureties that have been consolidated with earmarked financial or surety arrangements established to meet requirements of Federal or other State agencies or local governmental bodies for decontamination, closure, and stabilization. The Executive Secretary will accept these arrangements only if they are considered adequate to satisfy the requirements of R313-25-31 and if they clearly identify that the portion of the surety which covers the closure of the disposal site is clearly identified and committed for use in accomplishing these activities.

(3) The licensee's financial or surety arrangement shall be submitted annually for review by the Executive Secretary to assure that sufficient funds will be available for completion of the closure plan.

(4) The amount of the licensee's financial or surety arrangement shall change in accordance with changes in the predicted costs of closure and stabilization. Factors affecting closure and stabilization cost estimates include inflation, increases in the amount of disturbed land, changes in engineering plans, closure and stabilization that have already been accomplished, and other conditions affecting costs. The financial or surety arrangement shall be sufficient at all times to cover the costs of closure and stabilization of the disposal units that are expected to be used before the next license renewal.

(5) The financial or surety arrangement shall be written for a specified period of time and shall be automatically renewed unless the person who issues the surety notifies the Executive Secretary; the beneficiary, the site owner; and the principal, the licensee, not less than 90 days prior to the renewal date of its intention not to renew. In such a situation, the licensee shall submit a replacement surety within 30 days after notification of cancellation. If the licensee fails to provide a replacement surety acceptable to the Executive Secretary, the beneficiary may collect on the original surety.

(6) Proof of forfeiture shall not be necessary to collect the surety so that, in the event that the licensee could not provide an acceptable replacement surety within the required time, the surety shall be automatically collected prior to its expiration. The conditions described above shall be clearly stated on surety instruments.

(7) Financial or surety arrangements generally acceptable to the Executive Secretary include surety bonds, cash deposits, certificates of deposit, deposits of government securities, escrow accounts, irrevocable letters or lines of credit, trust funds, and combinations of the above or other types of arrangements as may be approved by the Executive Secretary. Self-insurance, or an arrangement which essentially constitutes self-insurance, will not satisfy the surety requirement for private sector applicants.

(8) The licensee's financial or surety arrangement shall remain in effect until the closure and stabilization program has been completed and approved by the Executive Secretary, and the license has been transferred to the site owner.

R313-25-32. Financial Assurances for Institutional Controls.

(1) Prior to the issuance of the license, the applicant shall provide for Executive Secretary approval, a binding arrangement, between the applicant and the disposal site owner that ensures that sufficient funds will be available to cover the costs of monitoring and required maintenance during the institutional control period. The binding arrangement shall be reviewed annually by the Executive Secretary to ensure that changes in inflation, technology, and disposal facility operations are reflected in the arrangements.

(2) Subsequent changes to the binding arrangement specified in R313-25-32(1) relevant to institutional control shall be submitted to the Executive Secretary for prior approval.

R313-25-33. Maintenance of Records, Reports, and Transfers.

(1) Licensees shall maintain records and make reports in connection with the licensed activities as may be required by the conditions of the license or by the rules and orders of the Executive Secretary.

(2) Records which are required by these rules or by license conditions shall be maintained for a period specified by the appropriate rules or by license condition. If a retention period is not otherwise specified, these records shall be maintained and transferred to the officials specified in R313-25-33(4) as a condition of license termination unless the Executive Secretary otherwise authorizes their disposition.

(3) Records which shall be maintained pursuant to R313-25 may be the original or a reproduced copy or microfilm if this reproduced copy or microfilm is capable of producing copy that is clear and legible at the end of the required retention period.

(4) Notwithstanding R313-25-33(1) through (3), copies of records of the location and the quantity of wastes contained in the disposal site shall be transferred upon license termination to the chief executive of the nearest municipality, the chief executive of the county in which the facility is located, the county zoning board or land development and planning agency, the State Governor, and other state, local, and federal governmental agencies as designated by the Executive Secretary at the time of license termination.

(5) Following receipt and acceptance of a shipment of waste, the licensee shall record the date that the shipment is received at the disposal facility, the date of disposal of the waste, a traceable shipment manifest number, a description of any engineered barrier or structural overpack provided for disposal of the waste, the location of disposal at the disposal site, the condition of the waste packages as received, discrepancies between the materials listed on the manifest and those received, the volume of any pallets, bracing, or other shipping or onsite generated materials that are contaminated, and are disposed of as contaminated or suspect materials, and evidence of leakage or damaged packages or radiation or contamination levels in excess of limits specified in U.S. Department of Transportation and Executive Secretary regulations or rules. The licensee shall briefly describe repackaging operations of the waste packages included in the shipment, plus other information required by the Executive Secretary as a license condition.

(6) Licensees authorized to dispose of waste received from other persons shall file a copy of their financial report or a certified financial statement annually with the Executive Secretary in order to update the information base for determining financial qualifications.

(7)(a) Licensees authorized to dispose of waste received from other persons, pursuant to R313-25, shall submit annual reports to the Executive Secretary. Reports shall be submitted by the end of the first calendar quarter of each year for the preceding year.

(b) The reports shall include:

- (i) specification of the quantity of each of the principal contaminants released to unrestricted areas in liquid and in airborne effluents during the preceding year;
 - (ii) the results of the environmental monitoring program;
 - (iii) a summary of licensee disposal unit survey and maintenance activities;
 - (iv) a summary, by waste class, of activities and quantities of radionuclides disposed of;
 - (v) instances in which observed site characteristics were significantly different from those described in the application for a license; and
 - (vi) other information the Executive Secretary may require.
- (c) If the quantities of waste released during the reporting period, monitoring results, or maintenance performed are significantly different from those predicted, the report shall cover this specifically.
- (8) In addition to the other requirements in R313-25-33, the licensee shall store, or have stored, manifest and other information pertaining to receipt and disposal of radioactive waste in an electronic recordkeeping system.
- (a) The manifest information that must be electronically stored is:
- (i) that required in Appendix G of 10 CFR 20.1001 to 20.2402, 1997 ed., which is incorporated into these rules by reference, with the exception of shipper and carrier telephone numbers and shipper and consignee certifications; and
 - (ii) that information required in R313-25-33(5).
- (b) As specified in facility license conditions, the licensee shall report the stored information, or subsets of this information, on a computer-readable medium.

R313-25-34. Tests on Land Disposal Facilities.

Licensees shall perform, or permit the Executive Secretary to perform, any tests the Executive Secretary deems appropriate or necessary for the administration of the rules in R313-25, including, but not limited to, tests of:

- (1) wastes;
- (2) facilities used for the receipt, storage, treatment, handling or disposal of wastes;
- (3) radiation detection and monitoring instruments; or
- (4) other equipment and devices used in connection with the receipt, possession, handling, treatment, storage, or disposal of waste.

R313-25-35. Executive Secretary Inspections of Land Disposal Facilities.

(1) Licensees shall afford to the Executive Secretary, at reasonable times, opportunity to inspect waste not yet disposed of, and the premises, equipment, operations, and facilities in which wastes are received, possessed, handled, treated, stored, or disposed of.

(2) Licensees shall make available to the Executive Secretary for inspection, upon reasonable notice, records kept by it pursuant to these rules. Authorized representatives of the Executive Secretary may copy and take away copies of, for the Executive Secretary's use, any records required to be kept pursuant to R313-25.

R313-70-1. General.**

R313-70 applies to persons who receive, possess, or use sources of radiation provided, however, that nothing in these rules shall apply to the extent a person is subject to regulations by the U.S. Nuclear Regulatory Commission. The fees charged are authorized by subsection 19-3-104(4) of the Environmental Quality Code.

R313-70-3. Communications.

Communications concerning the rules in R313-70 should be addressed to the Executive Secretary, and may be sent to the Division of Radiation Control, Department of Environmental Quality. Communications may be delivered in person at the Division of Radiation Control offices.

R313-70-5. Payment of Fees.

(1) New Application Fee: Applications for machine registration or radioactive material licensing for which a fee is prescribed, shall be accompanied by a remittance in the full amount of the fee. Applications will not be accepted for filing or processing prior to payment of the full amount specified. Applications for which no remittance is received will be returned to the applicant. Application fees will be charged irrespective of the Executive Secretary's disposition of the application or a withdrawal of the application.

(2) Annual Fee: Persons and individuals who are subject to licensing or registration of radioactive material or radiation machine registration with the Department of Environmental Quality under provisions of the Utah Radiation Control Rules, are assessed an annual fee in accordance with categories of R313-70-7 and R313-70-8. The appropriate fee shall be filed annually with the Executive Secretary, by July 30 for registrants or by the anniversary date for licensees. Fees for radiation machine registration will be considered late if not received annually by the last day of August. Licensees may be assessed late fees if license fees are not received within 30 days after the license anniversary date. Late fees may also be assessed for successive 30 day periods during which the annual fee or registration fee remains unpaid.

(3) Inspection Fee: Persons and entities who, under provisions of the Utah Radiation Control Rules, are subject to radiation machine registration with the Department of Environmental Quality are assessed an inspection fee in accordance with R313-70-8. Fees for inspection of a radiation machine are due within 30 days of receipt of an invoice from the Agency. Registrants may be assessed late fees if inspection fees are not received in a timely manner.

(4) Failure to pay the prescribed fee: the Executive Secretary will not process applications and may suspend or revoke licenses or registrations or may issue an order with respect to the activities as the Executive Secretary determines to be appropriate or necessary in order to carry out the provisions of this part of R313-70, and of the Act.

(a) General license certificates of registration and specific licenses issued pursuant to the provisions in R313-21 or R313-22, will be valid for a period of five years unless failure to submit appropriate fee occurs. Machine registrations will be valid for one year during the interval outlined in R313-16-230. Failure to submit appropriate fees will render the license, certificate or registration invalid, at which time a new application with appropriate fees shall be submitted.

(b) Renewal applications shall be filed in a timely manner in accordance with R313-22-37 or R313-16-230. The radioactive material license will expire on the date specified on the license. Machine registration will expire as outlined in R313-16-230. An expired license cannot be renewed, rather the licensee will be required to submit an application for a new

license and submit the appropriate application and new license fee.

(4) Method of Payment: Fees shall be made payable to: Division of Radiation Control, Department of Environmental Quality.

R313-70-7. License Categories and Types of Fees for Radioactive Materials Licenses.

Fees shall be established in accordance with the Legislative Appropriations Act. Copies of established fee schedules may be obtained from the Executive Secretary.

R380. Health, Administration.**R380-200. Patient Safety Sentinel Event Reporting.****R380-200-1. Purpose and Authority.**

(1) This rule establishes a patient safety sentinel event reporting program. It requires certain health care facilities to report serious patient injuries and to allow an independent, external review of and response to the thoroughness and credibility of the processes of investigating and responding to these events. The reporting under this rule will also help the Department and health care providers to understand patterns of failures in the health care system and to recommend statewide resolutions. It limits access to identifiable health information that facilities report to the Department under this rule.

(2) This rule is authorized by Utah Code Subsections 26-1-30(2)(a), (b), (d), (e), and (g) and Section 26-3-8.

R380-200-2. Definitions.

"Facility" means a general acute hospital, critical access hospital, ambulatory surgical center, psychiatric hospital, orthopedic hospital, rehabilitation hospital, chemical dependency/substance abuse hospital or chronic disease hospital as those terms are defined in Title 26, Chapter 21.

"Incident facility" means a facility where the patient safety sentinel event occurred.

"Patient safety sentinel event" means an event that must be reported under section 3 of this rule.

"Root cause analysis" means a process for identifying the basic or causal factor(s) that underlie variation in performance, resulting in the occurrence or possible occurrence of a patient safety sentinel event.

R380-200-3. Reporting of Patient Safety Sentinel Events.

(1) Each facility shall report to the Department all patient safety sentinel events.

(2) Patient safety sentinel events include:

(a) all deaths that occur at the facility and that are directly related to any clinical service or process provided to a patient for which the patient at the time of death:

(i) was not subject to a "do not resuscitate" order;

(ii) was not in a critical care unit, except where the patient is transferred to a critical care unit as a consequence of a patient safety sentinel event that occurs elsewhere in the facility;

(iii) was not in the emergency room or operating room having presented in the last 24 hours with a Glasgow score of 9 or lower;

(b) events that occur in the facility and that are directly related to any clinical service or process provided to a patient and which result in:

(i) surgery on the wrong patient or wrong body part;

(ii) suicide of a patient; or

(iii) major loss of physical or mental function not related to the natural course of the patient's illness or underlying condition; and

(c) events that occur in the facility and that are not directly related to clinical services provided to a patient and which result in an alleged:

(i) patient abduction;

(ii) discharge of an infant to the wrong family;

(iii) rape of a patient;

(iv) intentional injury to a patient, whether by staff or others; or

(v) suicide of a patient.

(3) The incident facility shall report the patient safety sentinel event to the Department within seventy-two hours of the facility's determination, but in no event later than four hours prior to convening a formal root cause analysis.

(4) The report shall be submitted in a Department-approved paper or electronic format and shall include at a minimum:

(a) the specific unit within the facility where the patient safety sentinel event occurred;

(b) the patient's age and gender;

(c) the patient's admitting diagnosis;

(d) each of the patient's current or discharge diagnoses;

(e) a short narrative description of the patient safety sentinel event; and

(f) the name and phone number of the facility lead individual who will lead the facility's root cause analysis for the reported event.

R380-200-4. Root Cause Analysis.

(1) The incident facility shall establish a root cause analysis process and designate a responsible individual to be the facility lead for each patient safety sentinel event.

(2) The Department representative may participate in the facility's root cause analysis in a consultative role with the facility lead to enhance the credibility and thoroughness of the root cause analysis. The Department shall notify the facility lead within 72 hours of receiving the report of the patient safety sentinel event if it intends to participate in the facility's root cause analysis. The Department representative shall not be present at the facility's internal root cause analysis meetings unless invited by the facility lead.

(3) Participation in the facility's root cause analysis by the Department representative shall not be construed to imply Department endorsement of the facility's final findings or action plan.

(4) The incident facility and the Department shall each make reasonable accommodations when necessary to allow for the Department representative's participation in the root cause analysis.

(5) If, during the review process, the Department representative discovers problems with the facility's processes that limit either the thoroughness or credibility of the findings or recommendations, the representative shall report these to the designated responsible individual orally within 24 hours of discovery and in writing within 72 hours.

(6) The facility shall conduct a root cause analysis which is thorough and credible to determine whether a reasonable system change would likely prevent a patient safety sentinel event in similar circumstances.

(7) The root cause analysis shall:

(a) focus primarily on systems and processes, not individual performance;

(b) progress from specific, direct causes in clinical processes to contributing causes in organizational processes;

(c) seek to determine related and underlying causes for identified causes; and

(d) identify changes which could be made in systems and processes, either through redesign or development of new systems or processes, that would reduce the risk of such events occurring in the future.

(8) The Department shall determine the root cause analysis to be thorough if it:

(a) involves a complete review of the patient safety sentinel event including interviews with all readily identifiable witnesses and participants and a review of all related documentation;

(b) identifies the human and other factors in the chain of events leading to the final patient safety sentinel event, and the process and system limitations related to their occurrence;

(c) searches readily retrievable records to analyze the underlying systems and processes to determine where redesign might reduce risk;

(d) inquires into all areas appropriate to the specific type of event as described in the Joint Commission for the Accreditation of Healthcare Organizations' "Minimum Scope of Root Cause Analysis for Specific Types of Sentinel Events"

found at <http://www.jcaho.org/sentinel/rcamatrix.html>, last viewed on June 1, 2001, which is incorporated by reference.

(e) makes reasonable attempts to identify and analyze trends of similar events which have occurred at the facility in the past;

(f) identifying risk points and their potential contributions to this type of event; and

(g) determines potential improvement in processes or systems that would tend to decrease the likelihood of such events in the future, or determining, after analysis, that no such improvement opportunities exist.

(9) The Department shall determine the root cause analysis to be credible if it:

(a) is led by someone with training in root cause analysis processes and who was not involved in the patient safety sentinel event;

(b) involves, if necessary, consultation with either internal or external experts in the processes in question who were not involved in the patient safety sentinel event;

(c) includes participation by the leadership of the organization and by the individuals most closely involved in the processes and systems under review;

(d) is internally consistent, i.e., not contradicting itself or leaving obvious questions unanswered;

(e) provides an explanation for all findings of "not applicable" or "no problem;" and

(f) includes consideration of relevant, available literature.

R380-200-5. Reports and Action Plan.

(1) Within 45 days of determination of the patient safety sentinel event, the incident facility shall develop an action plan that:

(a) identifies changes that can be implemented to reduce risk, or formulates a rationale for not implementing changes; and

(b) where improvement actions are planned, identifies who is responsible for implementation, when the action will be implemented (including any pilot testing), and how the effectiveness of the actions will be evaluated.

(2) Within 14 days of the development of the action plan, the incident facility shall provide a final report to the facility's administration and the Department in a Department-approved paper or electronic format that includes:

(a) a one sentence description of the patient safety sentinel event;

(b) a brief summary of each of the findings of the root cause analysis; and

(c) a brief summary of each of the action plan steps.

(4) If the Department representative identifies problems with the processes that limit the thoroughness or credibility of the findings and recommendations and that have not been corrected after reporting them to the designated responsible individual, the representative may submit a separate written dissenting report to the administrator of the incident facility, and the Department.

(5) The incident facility may seek review of the dissenting report by filing a request for agency as allowed by the Utah Administrative Procedures Act and Department rule. If a dissenting report is not challenged or is upheld on review:

(a) the facility shall include it in the facility's records of the root cause analysis; and

(b) the Department may forward it, together with the facility's report, to the appropriate state agencies responsible for licensing the facility.

R380-200-6. Confidentiality.

(1) Information that the Department holds under this rule is confidential under the provisions of Title 26, Chapter 3. Because of the public interest needs to foster health care systems improvements, the Department exercises its discretion under

Section 26-3-8 and shall not release information collected under this rule to any person pursuant to the provisions of Subsections 26-3-7(1) or (8).

(2) Information produced or collected by a facility is confidential and privileged under the provisions of Title 26, Chapter 25.

R380-200-7. Extensions and Waivers.

(1) The Department may grant an extension of any time requirement of this rule if the facility demonstrates that the delay is due to factors beyond its control or that the delay will not adversely affect the required root cause analysis and the purposes of this rule. A facility requesting a waiver must submit the request to the department representative prior to the deadline for the required action.

(2) The Department may grant a waiver of any other provision of this rule if the facility demonstrates that the waiver will not adversely affect the required root cause analysis and the purposes of this rule.

R380-200-8. Penalties.

As required by Section 63-46a-3(5): An entity that violates any provision of this rule may be assessed a civil money penalty not to exceed the sum of \$5,000 or be punished for violation of a class B misdemeanor for the first violation and for any subsequent similar violation within two years for violation of a class A misdemeanor as provided in Section 26-23-6.

An individual who is eligible to enroll in the VA Health Care System, but who has not yet enrolled, may be eligible for the HIFA program while waiting for enrollment in the VA Health Care System to become effective. R414-320-11. Budgeting.

This section describes methods that the Department uses to determine the household's countable monthly or annual income.

- (1) The gross income of all household members is counted in determining the eligibility of the applicant or enrollee, unless the income is excluded under this rule. Only expenses that are required to make an income available to the individual are deducted from the gross income. No other deductions are allowed.
- (2) The Department determines monthly income by taking into account the months of pay where an individual receives a fifth paycheck when paid weekly, or a third paycheck when paid every other week. The Department multiplies the weekly amount by 4.3 to obtain a monthly amount. The Department multiplies income paid biweekly by 2.15 to obtain a monthly amount.
- (3) The Department shall determine an individual's eligibility prospectively for the upcoming certification period at the time of application and at each recertification for continuing eligibility. The Department determines prospective eligibility by using the best estimate of the household's average monthly income that is expected to be received or made available to the household during the upcoming certification period. The Department prorates income that is received less often than monthly over the certification period to determine an average monthly income. The Department may request prior years' tax returns as well as current income information to determine a household's income.
- (4) Methods of determining the best estimate are income averaging, income anticipating, and income annualizing. The Department may use a combination of methods to obtain the most accurate best estimate. The best estimate may be a monthly amount that is expected to be received each month of the certification period, or an annual amount that is prorated over the certification period. The Department may use different methods for different types of income received in the same household.
- (5) The Department determines farm and self-employment income by using the individual's most recent tax return forms. If tax returns are not available, or are not reflective of the individual's current farm or self-employment income, the Department may request income information from the most recent time period during which the individual had farm or self-employment income. The Department deducts 40% of the gross

income as a deduction for business expenses to determine the countable income of the individual. For individuals who have business expenses greater than 40%, the Department may exclude more than 40% if the individual can demonstrate that the actual expenses were greater than 40%. The Department deducts the same expenses from gross income that the Internal Revenue Service allows as self-employment expenses.

(6) The Department may annualize income for any household and specifically for households that have self-employment income, receive income sporadically under contract or commission agreements, or receive income at irregular intervals throughout the year.

(7) The Department may request additional information and verification about how a household is meeting expenses if the average household income appears to be insufficient to meet the household's living expenses.

R414-320-12. Assets.

There is no asset test for eligibility in the HIFA program.

R414-320-13. Application Procedure.

(1) The application is the initial request from an applicant for HIFA enrollment. The application process includes gathering information and verifications to determine the individual's eligibility for enrollment.

(2) The applicant must complete and sign a written application or complete an application on-line via the Internet to enroll in the HIFA program.

(a) The Department accepts any Department-approved application form for medical assistance programs offered by the state as an application for the HIFA program. The local office eligibility worker may require the applicant to provide additional information that was not asked for on the form the applicant completed, and may require the applicant to sign a signature page from a hardcopy medical application form.

(b) If an applicant cannot write, he must make his mark on the application form and have at least one witness to the signature. A legal guardian or a person with power of attorney may sign the application form for the applicant.

(c) An authorized representative may apply for the applicant if unusual circumstances prevent the individual from completing the application process himself. The applicant must sign the application form if possible.

(3) The date of application will be decided as follows:

(a) The date the Department receives a completed, signed application is the application date when the application is delivered to a local office.

(b) The date postmarked on the envelope is the application date when a completed, signed application is mailed to the agency.

(c) The date the Department receives a completed, signed application via facsimile transfer is the application day. The agency accepts the signed application sent via facsimile as a valid application and does not require it to be signed again.

(d) The transaction date is the application date when the application is submitted online.

(4) If an applicant has a legal guardian, a person with a power of attorney, or an authorized representative, the local office shall send decision notices, requests for information, and forms that must be completed to both the individual and the individual's representative, or to just the representative if requested or if determined appropriate.

(5) The Department shall reinstate a HIFA case without requiring a new application if the case was closed in error.

(6) The Department shall continue enrollment without requiring a new application if the case was closed for failure to complete a recertification or comply with a request for information or verification:

(a) If the enrollee complies before the effective date of the

case closure or by the end of the month immediately following the month the case was closed; and

(b) The individual continues to meet all eligibility requirements.

(7) An applicant may withdraw an application any time before the Department completes an eligibility decision on the application.

(8) If an eligible household requests enrollment for a new household member, the application date for the new household member is the date of the request. A new application form is not required. However, the household shall provide the information necessary to determine eligibility for the new member, including information about access to creditable health insurance.

(a) Benefits for the new household member will be allowed from the date of request or the date an application is received through the end of the current certification period.

(b) A new income test is not required to add the new household member for the months remaining in the current certification period.

(c) A new household member may be added only if the Department has not stopped enrollment under section R414-320-15.

(d) Income of the new member will be considered at the next scheduled recertification.

(9) A child who loses Medicaid coverage because he or she has reached the maximum age limit and does not qualify for any other Medicaid program without paying a spenddown, may enroll in HIFA without waiting for the next open enrollment period.

(10) A child who loses Medicaid coverage because he or she is no longer deprived of parental support and does not qualify for any other Medicaid program without paying a spenddown, may enroll in HIFA without waiting for the next open enrollment period.

(11) A new child born to or adopted by an enrollee may be enrolled in HIFA without waiting for the next open enrollment period.

R414-320-14. Eligibility Decisions and Recertification.

(1) The Department adopts 42 CFR 435.911 and 435.912, 2004 ed., which are incorporated by reference.

(2) When an individual applies for HIFA, the local office shall determine if the individual is eligible for Medicaid. An individual who qualifies for Medicaid without paying a spenddown or a premium cannot enroll in the HIFA program. If the individual appears to qualify for Medicaid, but additional information is required to determine eligibility for Medicaid, the applicant must provide additional information requested by the eligibility worker. Failure to provide the requested information shall result in the application being denied.

(a) If the individual must pay a spenddown or premium to qualify for Medicaid, the individual may choose to enroll in the HIFA program if it is an open enrollment period and the individual meets all the applicable criteria for eligibility. If the HIFA program is not in an enrollment period, the individual must wait for an open enrollment period.

(b) At recertification, the local office shall first review eligibility for Medicaid. If the individual qualifies for Medicaid without a spenddown or premium, the individual cannot be reenrolled in the HIFA program. If the individual appears to qualify for Medicaid, the applicant must provide additional information requested by the eligibility worker. Failure to provide the requested information shall result in the application being denied.

(3) To enroll, the individual must meet the eligibility criteria for enrollment and it must be a time when the Department has not stopped enrollment under section R414-320-15. An applicant must be able to enroll in his or her

employer-sponsored health insurance by the end of the month following the application month to be eligible. Otherwise, eligibility will be denied, and the individual may reapply during another open enrollment period.

(4) The local office shall complete a determination of eligibility or ineligibility for each application unless:

(a) The applicant voluntarily withdraws the application and the local office sends a notice to the applicant to confirm the withdrawal;

(b) The applicant died; or

(c) The applicant cannot be located; or

(d) The applicant has not responded to requests for information within the 30 day application period or by the date the eligibility worker asked the information or verifications to be returned, if that date is later.

(5) The enrollee must recertify eligibility at least every 12 months.

(6) The local office eligibility worker may require the applicant, the applicant's spouse, or the applicant's authorized representative to attend an interview as part of the application and recertification process. Interviews may be conducted in person or over the telephone, at the local office eligibility worker's discretion.

(7) The enrollee must complete the recertification process and provide the required verifications by the end of the recertification month.

(a) If the enrollee completes the recertification and continues to meet all eligibility criteria, coverage will be continued without interruption.

(b) The case will be closed at the end of the recertification month if the enrollee does not complete the recertification process and provide required verifications by the end of the recertification month.

(c) If an enrollee does not complete the recertification by the end of the recertification month, but completes the process and provides required verifications by the end of the month immediately following the recertification month, coverage will be reinstated as of the first of that month if the individual continues to be eligible.

(8) The eligibility worker may extend the recertification due date if the enrollee demonstrates that a medical emergency, death of an immediate family member, natural disaster or other similar cause prevented the enrollee from completing the recertification process on time.

R414-320-15. Effective Date of Enrollment and Enrollment Period.

(1) The effective date of enrollment is the day that a completed and signed application or an on-line application is received by the local office and the applicant meets all eligibility criteria. The Department shall not provide any benefits before the effective enrollment date.

(2) The effective date of enrollment cannot be before the month in which the applicant pays a premium for the employer-sponsored health insurance and is determined as follows:

(a) The effective date of enrollment is the date an application is received and the person is found eligible, if the applicant enrolls in and pays the first premium for the employer-sponsored health insurance in the application month.

(b) If the applicant will not pay a premium for the employer-sponsored health insurance in the application month, the effective date of enrollment is the first day of the month in which the applicant pays a premium for the employer-sponsored health insurance. The applicant must enroll in the employer-sponsored health insurance no later than the end of the month following the month the application is received.

(c) If the applicant cannot enroll in the employer-sponsored health insurance by the end of the month immediately following the application month, the application shall be denied

and the individual will have to reapply during another open enrollment period.

(3) The effective date of enrollment for a newborn or newly adopted child is the date the newborn or newly adopted child is enrolled in the employer-sponsored health insurance if the family requests the coverage within 30 days of the birth or adoption. If the request is more than 30 days after the birth or adoption, enrollment is effective the date of report.

(4) The effective date of re-enrollment for a recertification is the first day of the month after the recertification month, if the recertification is completed as described in R414-320-13.

(5) If the enrollee does not complete the recertification as described in R414-320-13, and the enrollee does not have good cause for missing the deadline, the case will remain closed and the individual may reapply during another open enrollment period.

(6) An individual found eligible shall be eligible from the effective date through the end of the first month of eligibility and for the following 12 months. If the enrollee completes the redetermination process in accordance with R414-320-13 and continues to be eligible, the recertification period will be for an additional 12 months beginning the month following the recertification month. Eligibility could end before the end of a 12-month certification period for any of the following reasons:

(a) The individual turns age 65;

(b) The individual becomes entitled to receive Medicare, or becomes covered by Veterans Administration Health Insurance;

(c) The individual dies;

(d) The individual moves out of state or cannot be located;

(e) The individual enters a public institution or an Institute for Mental Disease.

(7) If an adult enrollee discontinues enrollment in employer-sponsored insurance coverage, eligibility ends. If the enrollment in employer-sponsored insurance is discontinued involuntarily and the individual notifies the local office within 10 calendar days of when the insurance ends, the individual may switch to the PCN program for the remainder of the certification period.

(8) A child enrollee may discontinue employer-sponsored health insurance and move to direct coverage under the Children's Health Insurance Program at any time during the certification period without any waiting period.

(9) An individual enrolled in the Primary Care Network or the Children's Health Insurance Program who enrolls in an employer-sponsored plan may switch to the HIFA program if the individual reports to the local office within 10 calendar days of enrolling in an employer-sponsored plan.

(10) If a HIFA case closes for any reason, other than to become covered by another Medicaid program or the Children's Health Insurance Program, and remains closed for one or more calendar months, the individual must submit a new application to the local office during an enrollment period to reapply. The individual must meet all the requirements of a new applicant.

(11) If a HIFA case closes because the enrollee is eligible for another Medicaid program or the Children's Health Insurance Program, the individual may reenroll if there is no break in coverage between the programs, even if the State has stopped enrollment under R414-320-15.

(a) If the individual's 12-month certification period has not ended, the individual may reenroll for the remainder of that certification period. The individual is not required to complete a new application or have a new income eligibility determination.

(b) If the 12-month certification period from the prior enrollment has ended, the individual may still reenroll. However, the individual must complete a new application, meet eligibility and income guidelines, and pay a new enrollment fee for the new certification period.

(c) If there is a break in coverage of one or more calendar months between programs, the individual must reapply during an open enrollment period.

R414-320-16. Open Enrollment Period.

(1) The Department accepts applications for enrollment at times when sufficient funding is available to justify enrolling more individuals. The Department limits the number it enrolls according to the funds available for the program.

(2) The Department may stop enrollment of new individuals at any time based on availability of funds.

(3) The Department and local offices shall not accept applications nor maintain waiting lists during a time period that enrollment of new individuals is stopped.

R414-320-17. Notice and Termination.

(1) The Department shall notify an applicant or enrollee in writing of the eligibility decision made on the application or the recertification.

(2) The Department shall terminate an individual's enrollment upon enrollee request or upon discovery that the individual is no longer eligible.

(3) The Department shall terminate an individual's enrollment if the individual fails to complete the recertification process on time.

(4) The Department shall notify an enrollee in writing at least ten days before taking a proposed action adversely affecting the enrollee's eligibility. Notices shall provide the following information:

Decertification of an ombudsman or assistant ombudsman may occur through voluntary resignation or decertification by the State LTCO or AAA or sponsoring agency which employs him. A person who has been decertified may not be assigned to ombudsman duties.

A. Involuntary Decertification With Cause:

(1) No ombudsman or assistant ombudsman shall be recommended for involuntary decertification without cause. Cause may include:

(a) failure to follow policies and procedures that conform to the LTCO statute and rules;

(b) performing a function not recognized or sanctioned by the LTCO Program;

certification;

(2) The State LTCO and AAAs shall establish, for their respective programs, policies and procedures for recommending decertification. Those policies and procedures shall require that the State LTCO or AAA attempt to help the LTCO or Assistant LTCO attain satisfactory job performance through professional development, supervision, or other remedial actions prior to recommending decertification.

(3) AAAs recommending decertification shall state their reasons in writing and shall provide any relevant documentation to support the recommendation to the State LTCO. Notice of the recommendation for decertification and the basis for the recommendation shall be provided to the local ombudsman or assistant ombudsman at the same time that information is submitted to the State LTCO.

(4) The State LTCO shall review the recommendation and provide written notification of his decision to the AAA and the local ombudsman or assistant ombudsman within ten working days. B. Voluntary Decertification Without Cause:

When a local ombudsman or assistant ombudsman voluntarily resigns due to personal reasons which would not otherwise affect certification, they shall surrender their LTCO identification card to the AAA. The AAA shall notify the State LTCO of the voluntary decertification. The State LTCO shall record the date of voluntary decertification in the central registry.

C. Voluntary Decertification With Cause:

When a local ombudsman or assistant ombudsman voluntarily resigns for reasons which would otherwise warrant involuntary decertification, they shall surrender their LTCO identification card to the AAA within seven days. The State LTCO shall record the date of voluntary decertification in the central registry.

D. Recertification:

(1) A certified local ombudsman or assistant ombudsman who voluntarily requests decertification may apply to have his certification reinstated when he becomes reemployed or accepted as a LTCO staff or volunteer. Any person seeking recertification shall apply in writing, through the AAA, to the State LTCO. The application shall include the date of the most recent decertification action and a summary of any professional development in or experience with ombudsman skills, long-term care services, problem resolution skills or any related skills the applicant may have received since his decertification.

(2) The State LTCO shall review the application and may require the applicant to receive additional professional development, and take an appropriate examination based upon the length of time since the applicant's most recent certification,

and the experience or professional development the applicant has accumulated in the interim. The State LTCO shall make notify both the AAA and the applicant of the decision within ten working days.

R510-200-8. Operation of the Long-Term Care Ombudsman Program.

A. Intake: The local LTCO Program shall accept and screen referrals from residents, family, facility staff, agency staff and the general community. Ombudsmen and assistant ombudsmen may also serve as the complainant for situations they have personally observed.

(1) If the information indicates that the referral relates to abuse, neglect, or exploitation of a resident, the local LTCO shall refer the complaint to either the local Adult Protective Services (APS) office or local law enforcement. The local LTCO and the APS worker should collaborate on investigating and resolving the complaint whenever possible.

(2) If the information indicates that the referral relates to facilities or operations licensed or certified by the Department of Health Bureau of Medicare/Medicaid Program Certification and Resident Assessment, and the nature of the complaint is other than alleged abuse, neglect or exploitation of a resident, the LTCO shall refer the complaint to the Department of Health. The local LTCO and Department of Health staff should collaborate on investigating and resolving the complaint whenever possible.

(3) Referrals to other agencies shall be made immediately if the situation appears life threatening or, in other situations, within two working days. If a referral is made to another agency, the local LTCO shall complete the intake form, indicating the referral date and entity, and maintain the form as part of the record. The local LTCO shall follow up to see that action was taken by the referral agency.

(4) If the referral involves a resident who is under the age of 60, and the nature of the complaint is limited to impact only on that resident, the local LTCO shall refer the complaint as specified in paragraph (1) or (2) of this section and take no further action. If the referral involves a resident who is under the age of 60 who resides in a facility that has other residents over the age of 60 and the nature of the complaint is such that it impacts those residents, the local LTCO shall refer the complaint as specified in paragraph (1) or (2) of this section as applicable and initiate an investigation.

(5) If the complaint involves residents rights or other issues within the jurisdiction of the LTCO, an investigation shall be initiated to determine if the complaint is valid. Issues within the purview of the LTCO include issues of privacy, confidentiality of information, and other issues relating to the action, inaction, or decisions by providers or representatives of providers of long-term care services, public agencies, or health and human service agencies that may adversely affect the health, safety, welfare, or rights of residents.

B. Investigations:

(1) LTCO investigations shall be initiated within three working days. If the available information indicates serious threat to a resident's life, health or property, the response shall be immediate.

(2) The investigation may involve phone or in-person contacts with the resident and complainant, collateral agency or individual contacts or an on-site investigation. The local LTCO shall:

- (a) do a preliminary screening to gather facts and details of the complaint;
- (b) categorize the complaint, i.e. resident rights, education, abuse, neglect, technical assistance, etc.;
- (c) identify all parties to the complaint;
- (d) identify relevant agencies, as required by state and federal statutes;

- (e) identify steps already taken by the complainant;
- (f) identify information gaps that may require additional research;

(g) determine if an on-site investigation is needed. If it is determined that an on-site investigation is not necessary, the LTCO shall document the reasons in the case file;

- (h) determine if the situation is an emergency; and
- (i) make verbal or written follow-up with the complainant.

(3) The method and extent of the investigation depends on the circumstances reported. The local LTCO shall complete an intake form on each referral. A complaint consists of the initial referral or any additional contacts regarding the initial referral received during the period that the case is opened. A referral regarding a different matter made during the period the case is opened is considered a new complaint. A referral received after a case is closed is considered a new complaint.

(4) When an on-site investigation is determined to be necessary the local LTCO does not have to give prior notice to the agency or facility in question. The local LTCO may choose to give notice if deemed appropriate. In either case, the ombudsman shall:

(a) upon arrival at the facility or agency, present official identification to the administration or designated person in charge;

(b) identify any factors that may interfere with the investigation;

(c) start the investigatory process to establish as clearly as possible what has happened, why it has happened, who or what is responsible for resolving the complaint, and possible solutions to the problem;

(d) interview the resident, as well as other residents, staff, family, friends and physician as deemed necessary;

(e) make phone calls, on-site observation, review resident records, and make collateral contacts with other agencies and professionals; and

(f) take any other appropriate investigatory actions within the purview of the LTCO Program.

(g) During the course of the investigation, the local LTCO shall look for credible evidence which supports or refutes the complaint. Evidence may be directly observed by the LTCO or indirectly gathered from statements from reliable sources. The State LTCO shall provide consultation and technical assistance regarding the methods used in investigating complaints as requested by the local LTCO.

(h) Ombudsmen shall be provided privacy by the facility or agency during all aspects of the investigative process.

(5) Determining Validity of Complaint

(a) The local LTCO, having gathered evidence regarding the complaint, shall review the evidence to determine whether that evidence supports the allegations made in the complaint. If the local LTCO is uncertain as to whether the complaint is valid, he shall discuss the situation with his supervisor. If further consultation is necessary, contact should be made with the State LTCO, who may suggest additional activities or approaches to the problem. The local LTCO shall gather further evidence from interviews, collateral contacts, and records review, until the body of evidence enables the local LTCO to make a supportable decision regarding validity of the complaint.

(b) Upon determination of the validity of the complaint, the local LTCO shall document the determination and reasons for it in the case file.

(6) Resolution of Complaints

(a) Having determined that the complaint is valid, the local LTCO shall take appropriate steps to resolve the complaint, including:

(i) determining the scope of the problem. Does the problem affect just the residents mentioned in the complaint, or does it affect other residents?

(ii) determining what options exist to resolve the

complaint. For example, can the complaint be resolved immediately, will the resolution require negotiation with the facility management, or has the facility already moved to resolve the situation.

(iii) discussing with the resident which of the options are acceptable to resolve the complaint. Determining an acceptable resolution may require negotiation between the parties to achieve an acceptable resolution to the situation.

(iv) developing with the resident and facility a plan to achieve the agreed-upon resolution. The plan may be very simple or may have several steps and involve other agencies. Once the plan is agreed upon, the local LTCO, facility, resident, and other parties shall take action to implement the plan.

(v) making referrals to other agencies if a referrals are required by the plan.

(a) If during the investigation process the local LTCO determines that the incident or activities should be referred to APS, Health Facility Licensure, or Health Facility Review, the LTCO shall immediately make the referral and involve all appropriate agencies.

(b) The local LTCO who has referred the complaint to another agency shall follow up to obtain final results and record the outcome of the other agency's investigation. If the other agency does not respond or if the response is inadequate, the local LTCO may:

(1) contact the agency; or
(2) contact the State LTCO for technical assistance or help in resolving the problem with the other agency; or

(3) collaborate with another advocacy agency, such as the Legal Center for People with Disabilities, the Senior Citizens Law Center, or the local office of Utah Legal Services to resolve the issue and clarify substantive legal rights of elderly residents; or

(4) track on-going problems with an agency or facility to build a body of credible evidence on which to base further action; or

(5) take any other appropriate action within the LTCO scope of authority, including filing legal action against the other agency if the AAA has the legal resources to bring legal action.

(6) compiling documentation of the validity of the complaint, of the agreed-upon outcome, and the steps taken to carry out the plan. The documentation may be summary in nature, but should clearly indicate the situation and its resolution.

(7) determining at what point the case is appropriately closed.

(8) notifying the complainant, verbally or in writing, that the investigation has been completed and the case is closed.

(7) Records

(a) The local LTCO shall maintain a set of records by resident, containing all required forms and relevant documentation, including:

(i) a completed intake form;
(ii) case recording consisting of: the nature of the complaint; validity of complaint and reasons for the determination; plan for resolution; implementation and outcome of plan; and dates and names of any collateral contacts.

(iii) consent forms; and

(iv) copies of any correspondence or written documents pertaining to the complaint, the investigation, the resolution plan, or implementation of the resolution plan.

(b) The local LTCO shall also maintain information by facility relating to all referrals.

(c) All actions, findings, conclusions, recommendations and follow-up shall be documented on the required state forms.

(8) Consent Forms

(a) In order to access resident files maintained in a facility, the local LTCO must attempt to obtain a signed release from the resident or the resident's legal representative. Signed releases

shall be maintained in the case file and a copy shall be given to the facility or agency for inclusion in the residents record.

(b) If the local LTCO is unable to obtain written permission, he may get verbal approval from the resident or the resident's legal representative. The date and method of obtaining the verbal approval, e.g. phone contact with guardian, shall be documented in the case file. LTCO shall attempt to have a third-party witness the verbal consent and document it in the record.

(c) If a request for written or verbal consent is denied by the resident or their legal representative, the local LTCO shall not access the records.

(d) If the request for written or verbal consent is unsuccessful for any reason other than specific denial by the resident or legal representative, the local LTCO may proceed to access the records. The reasons for not obtaining consent shall be documented in the case file.

(9) Access to LTCO Records

(a) Records maintained by the local LTCO shall be available to the LTCO, their supervisor, the LTCO Program Director, the State LTCO, and any duly authorized agent of the AAA or the Division with program oversight responsibility. No other staff shall have access to these records.

(b) Residents have the right to read their LTCO records; however, the name of any complainants shall be withheld.

(c) LTCO records shall be released to other persons if the resident provides written consent. The consent form must be filed in the resident's file.

(d) State and federal auditors may have access to LTCO records as required for administration of the program.

(d) Statistical information and other data regarding the LTCO program which does not identify specific residents or complainants is available for public dissemination.

(10) Reporting Requirements to State LTCO

Local LTCO programs shall report to the State LTCO on the operation of the LTCO program. Reports shall include the data required to complete the State's report to the U.S. Department of Health and Human Services, Administration on Aging. Reports shall be submitted within time frames and in a format which shall be mutually agreed upon by the Division and AAAs.

(11) Legal Issues

(a) Legal representation: The Division is responsible for assuring that adequate legal representation is available for local LTCO Programs. AAAs and their governing authorities shall have the option to provide legal representation for their local LTCO Program. If an AAA, through their governing authority, opts not to provide this representation, the Division shall arrange for the representation through the attorney general or through contract. All AAA requests for legal consultation or representation shall be directed to the State LTCO for action. The Division is responsible to assure that no conflict of interest is present in the provision of legal representation to local LTCO Programs.

(b) Liability: The local LTCO must operate within the scope of the ombudsman job description and this policy. Actions such as transporting a client, acting as a guardian or payee, signing consent forms for survey, medication, restraints, etc., signing medical directives, receiving a client power of attorney, and similar actions are outside the scope of the LTCO responsibilities. In doubtful situations the ombudsman should consult with supervisors, legal counsel or the State LTCO.

(c) Guardianship: If a resident has a legal guardian, the local LTCO must work with the guardian. If the local LTCO identifies problems in the guardianship, they will discuss the situation with the local adult protective services staff to determine the advisability of investigating for abuse, neglect, or exploitation. They may also consult legal counsel or present issues to the court which oversees the guardianship.

(12) Volunteers

Local LTCO programs which use volunteers shall follow AAA policy with respect to applications, screening and approval, reference checks, personnel records, reimbursement, supervision, liability and all other relevant aspects of the volunteer program. In addition, volunteers must meet specific training and certification requirements contained in these rules if they are serving in the capacity of local ombudsman or assistant ombudsman.

(13) Public Education

In addition to receiving and investigating complaints, local LTCO Programs are mandated by federal and state statute to provide public education regarding long-term care issues. This may include activities such as frequent presence in facilities, community advocacy, attendance at family or resident councils, technical assistance and in service to long-term care facilities, community organizations, and public information presentations.

R930. Transportation, Preconstruction.**R930-3. Highway Noise Abatement.****R930-3-0. Purpose.**

The following is consistent with the Federal Highway Administration's Procedures for Abatement of Highway Traffic Noise, 23 CFR 772, which is hereby adopted and incorporated by reference, and in accordance with Utah Code Ann. Section 72-6-111 except that noise abatement in the form of noise barriers will only be considered for Interstate highways and Limited Access facilities. This rule is designed to allow UDOT to address highway noise impacts and to determine the conditions under which noise abatement may be approved.

R930-3-1. Definitions.

(1) "Existing Noise Level" means the noise level, Leq, resulting from the natural and mechanical sources and human activity, considered to be usually present in a particular area.

(2) "Design Noise Level" means the noise level, Leq, calculated for the worst traffic noise conditions likely to occur on a regular basis during the future design year, using a method approved by FHWA.

(3) "Type I Project" means a highway construction project that is related to an increase in traffic noise - construction of a highway on new location or the physical alteration of an existing highway which significantly changes the alignment or increases the number of through-traffic lanes.

(4) "Type II Project" means a proposed highway project strictly for noise abatement on an existing highway.

(5) "UDOT" means Utah Department of Transportation.

(6) "FHWA" means Federal Highway Administration.

(7) "dBA" means decibels of sound expressed or measured using the "A" weighting scale of a sound-pressure level meter.

(8) "AASHTO" means American Association of State Highway and Transportation Officials.

R930-3-2. Applicability.

(1) Type I Projects. Noise abatement shall be considered for Type I projects that are on Interstate or Limited Access Highways where noise impacts are identified. A new or proposed subdivision or other development must have obtained a formal building permit from the appropriate local government agency for final plans for development before the issuance of the final environmental decision document.

(2) Type II Projects. UDOT does not provide a noise retrofit (Type II) program to construct noise abatement measures along existing state transportation facilities.

R930-3-3. Noise Impact Determination.

A traffic noise impact occurs, for purposes of this policy, when either of the following conditions exists at a sensitive land use:

(1) The design noise level is greater than or equal to the UDOT Noise Abatement Criterion (NAC) in Table 1 for each corresponding land use category.

(2) The design noise level substantially exceeds (ten dBA or more) the existing noise level.

R930-3-4. Noise Abatement Objective.

When noise abatement measures are being considered, every reasonable effort shall be made to obtain substantial noise reductions consistent with Department procedures.

R930-3-5. Noise Abatement Conditions.

In order to be considered for noise abatement, all of the following conditions must be met, if applicable:

(1) A noise abatement device shall not be installed where it will create a hazard or violate design standards. Specifically, noise abatement walls shall not be added within the highway clear zone as defined in the AASHTO Roadside Design Guide,

unless a safety barrier already exists.

(2) At least five dBA of noise reduction must be achievable at typical impacted receivers nearest the highway.

(3) Residential Areas (Category B, Table 1):

(a) For residential areas, benefited receivers must be considered in determining a noise barrier's cost per receiver regardless of whether or not they were identified as impacted. A benefited receiver is any impacted or non-impacted receiver that gets a noise reduction of 5 dBA or more as a result of the noise barrier. The maximum cost used to determine reasonableness to provide noise abatement will be \$25,000 per benefited receiver. This cost may be periodically reviewed by the Department for reasonableness and updating, as needed.

(b) In the event that the noise barrier cost is greater than \$25,000 per receiver, the cost will be considered to be reasonable only if it can be demonstrated that a "severe" noise impact will occur. Severe traffic noise impacts are defined as traffic noise levels by 30 dBA or more, or results in absolute exterior noise levels of 80 dBA or greater. Based on severity, abatement will be considered on a case-by-case basis.

(c) For non-residential areas (Category A, B, or C, Table 1): The cost of noise abatement measures for schools, parks, churches and other non-residential developments including commercial and industrial areas will depend on height of noise wall required and corresponding length of frontage this type of development has exposed to the transportation facility. In any case, a reasonable cost for mitigation for noise abatement will not exceed \$200 per linear foot of wall (for a 10-foot high wall) installed. The cost may be periodically reviewed for reasonableness and updating, as needed.

R930-3-6. Other Considerations.

Noise abatement benefits shall be consistent with overall social, economic, and environmental conditions on both sides of the highway. Aesthetics shall be considered where appropriate' including graffiti deterrence and surrounding landscape. Other factors may be considered.

R930-3-7. Declaration of Intent.

Environmental documents shall indicate those areas where mitigation is "likely." "Likely" does not mean a firm commitment. A final decision on the installation of the abatement measures shall be made upon completion of the project design and the public involvement process and based upon what the department believes is reasonable and feasible.

R930-3-8. Public Involvement.

(1) Department representatives shall contact the local government agency and impacted residents. This shall be done prior to completion of the final environmental decision document. The concerns of the impacted residents and local government agency shall be a major consideration in reaching a decision on the abatement measures to be provided.

(2) Noise abatement may not be planned after local government agency and impacted residents' involvement if the majority of them are in opposition or indifferent to noise mitigation.

R930-3-9. Coordination with Local Officials.

The Department shall coordinate in the local government review process with regard to aesthetics, height, and other design features of the proposed noise abatement measure. Effective control of highway traffic noise requires land uses near highways to be controlled, but land use planning and control belong to local government jurisdiction. UDOT shall, upon request, assist local agencies by giving information that shall help them to be aware of incompatible land uses near state highways.

R930-3-10. Local Government Participation.

In instances where abatement costs would exceed a limit in paragraph R930-3-5(3), the local government agency may be offered the option to share in the cost of abatement. In order for the Department to participate in shared abatement costs, the following conditions must be met:

(1) The Department's share of the cost shall not exceed the limits in paragraph R930-3-5(3). The participating local government agency shall pay the Department an amount equal to the estimated cost of the abatement measure and appurtenances proposed that exceeds the limits in paragraph R930-3-5(3). The settlement agreement shall be signed before design begins. Payment shall be made to the Department before construction begins.

(2) The participating local government agency's final share shall be based on actual construction costs.

R930-3-11. Projects Funded From Other Sources.

The Utah Code authorizes the Department to construct and maintain noise abatement measures along state highways in cases where the cost for the noise abatement is provided by citizens, adjacent property owners, developers, or local governments, and meeting other established criteria. These cases may be treated as a special application of Paragraph R930-3-10, in which the Department may design, build, and maintain the abatement measure, and the local government agency shall pay the Department for all preliminary engineering and construction costs.

R930-3-12. Construction Off Right-of-Way.

Normally, noise barriers (walls or berms) built pursuant to this policy shall be constructed within Department right-of-way and owned and maintained by the Department. There are cases in which Department right-of-way is not the most prudent location for noise barriers, yet noise abatement can be very feasible and reasonable if built on adjacent property or adjacent public right-of-way. In these cases:

(1) The Department's cost is limited to normal cost for abatement on Department right-of-way.

(2) In no case shall the Department construct a noise barrier unless the adjacent property owners allow access and easements as necessary in order to construct and maintain the barrier.

(3) Maintenance of noise walls and associated landscaping on the side facing the highway shall normally be the Department's responsibility. The opposite side shall be maintained by the property owner.

(4) When landscaping is included off the Department right-of-way, the Department and landowner shall sign an irrigation agreement. The Department shall not pay for irrigation off the right-of-way.

To be eligible for food stamps, the substance abuse or mental health facility must be an approved facility. Approval is given by the Department. Approved facilities must notify the Department and give a "change report form" to a client when the client leaves the facility and tell the client to return it to the local office. The change report form serves to notify the Department that the client no longer lives in the approved facility.

(6) Residents of a group home may be eligible for food stamps provided the group home is an approved facility. The

state Department of Human Services provides approval for group homes.

R986-100-107. Client Rights.

(1) A client may apply or reapply at any time for any program listed in R986-100-102 by completing and signing an application and turning it in, in person or by mail, at the local office.

R986-100-109. Release of Information to the Client or the Client's Representative.

(1) Information obtained by the Department from any source, which would identify the individual, will not be released without the individual's consent or, if the individual is a minor, the consent of his or her parent or guardian.

(2) A client may request, review and/or be provided with copies of anything in the case record unless it is confidential. This includes any records kept on the computer, in the file, or somewhere else.

(3) Information that may be released to the client may be released to persons other than the client with written permission from the client. All such requests must include:

(a) the date the request is made;

(b) the name of the person who will receive the information;

(c) a description of the specific information requested including the time period covered by the request; and

(d) the signature of the client.

(4) The client is entitled to a copy of his or her file at no cost. Duplicate requests may result in an appropriate fee for the copies in accordance with Department policy which will not be more than the cost to the Department for making copies.

Request of the Client.

(1) Information obtained from or about a client will not be published or open to public inspection in any manner which would reveal the client's identity except:

(a) unless there has been a criminal conviction against the client for fraud in obtaining public assistance. In that instance, the Department will only provide information available in the public record on the criminal charge; or

(b) if an abstract has been docketed in the district court on an overpayment, the Department can provide information that is a matter of public record in the abstract.

(2) Any information obtained by the Department pursuant to an application for or payment of public assistance may not be used in any court or admitted into evidence in an action or proceeding, except:

(a) in an action or proceeding arising out of the client's receipt of public assistance, including fraudulently obtaining or retaining public assistance, or any attempt to fraudulently obtain public assistance; or

(b) where obtained pursuant to a court order.

(3) If the case file, or any information about a client in the possession of the Department, is subpoenaed by an outside source, legal counsel for the Department will ask the court to quash the subpoena or take such action as legal counsel deems appropriate.

(4) Information obtained by the Department from the client or any other source, except information obtained from an income match, may be disclosed to:

(a) an employee of the Department in the performance of the employee's duties unless prohibited by law;

(b) an employee of a governmental agency that is specifically identified and authorized by federal or state law to receive the information;

(c) an employee of a governmental agency to the extent the information will aid in the detection or avoidance of duplicate, inconsistent, or fraudulent claims against public assistance programs, or the recovery of overpayments of public assistance funds;

(d) an employee of a law enforcement agency to the extent the disclosure is necessary to avoid a significant risk to public safety or to aid a felony criminal investigation except no information regarding a client receiving food stamps can be provided under this paragraph;

(e) to a law enforcement officer when the client is fleeing to avoid prosecution, custody or confinement for a felony or is in violation of a condition of parole or probation or when the client has information which will assist a law enforcement officer in locating or apprehending an individual who is fleeing to avoid prosecution, custody or confinement for a felony or is in violation of a condition of parole or probation and the officer is acting in his official capacity. The only information under this paragraph which can be released on a client receiving food stamps is the client's address, SSN and photographic identification;

(f) to a law enforcement official, upon written request, for the purpose of investigating an alleged violation of the Food Stamp Act 7 USCA 2011 or any regulation promulgated pursuant to the act. The written request shall include the identity of the individual requesting the information and his/her authority to do so, the violation being investigated, and the identity of the person being investigated. Under this paragraph, the Department can release to the law enforcement official, more than just the client's address, SSN and photo identification;

(g) an educational institution, or other governmental entity engaged in programs providing financial assistance or federal needs-based assistance, job training, child welfare or protective services, foster care or adoption assistance programs, and to individuals or other agencies or organizations who, at the request of the Department, are coordinating services and

evaluating the effectiveness of those services;

(h) to certify receipt of assistance for an employer to get a tax credit; or

(i) information necessary to complete any audit or review of expenditures in connection with a Department public assistance program. Any information provided under this part will be safeguarded by the individual or agency receiving the information and will only be used for the purpose expressed in its release.

(5) Any information released under paragraph (4) above can only be released if the Department receives assurances that:

(a) the information being released will only be used for the purposes stated when authorizing the release; and

(b) the agency making the request has rules for safeguarding the information which are at least as restrictive as the rules followed by the Department and that those rules will be adhered to.

(6) Case records or files will not be removed from the local office except by court order, at the request of authorized Department employees, the Department's Information Disclosure Officer, the Department's Quality Control office or ORS.

(7) In an emergency, as determined to exist by the Department's Information Disclosure Officer, information may be released to persons other than the client before permission is obtained.

(8) For clients receiving CC, the Department may provide limited additional information to the child care provider identified by the client as the provider as provided in R986-700-703.

(9) Taxpayer requests to view public assistance payrolls will be denied.

R986-100-111. How to Apply For Assistance.

(1) To be eligible for assistance, a client must complete and sign an application for assistance.

(2) The application is not complete until the applicant has provided complete and correct information and verification as requested by the Department so eligibility can be determined or re-established at the time of review at the end of the certification period. The client must agree to provide correct and complete information to the Department at all times to remain eligible. This includes:

(a) property or other assets owned by all individuals included in the household unit;

(b) insurance owned by any member of the immediate family;

(c) income available to all individuals included in the household unit;

(d) a verified SSN for each household member receiving assistance. If any household member does not have a SSN, the client must provide proof that the number has been applied for. If a client fails to provide a SSN without good cause, or if the application for a SSN is denied for a reason that would be disqualifying, assistance will not be provided for that household member. Good cause in this paragraph means the client has made every effort to comply. Good cause does not mean illness, lack of transportation or temporary absence because the SSA makes provisions for mail-in applications in lieu of applying in person. Good cause must be established each month for continued benefits;

(e) the identity of all individuals who are living in the household regardless of whether they are considered to be in the household assistance unit or not;

(f) proof of relationship for all dependent children in the household. Proof of relationship is not needed for food stamps or child care; and

(g) a release of information, if requested, which would allow the Department to obtain information from otherwise

protected sources when the information requested is necessary to establish eligibility or compliance with program requirements.

(3) All clients, including those not required to participate in an employment plan, will be provided with information about applicable program opportunities and supportive services.

R986-100-112. Assistance Cannot Be Paid for Periods Prior to Date of Application.

(1) Assistance payments for any program listed in Section 102 above cannot be made for any time period prior to the day on which the application for assistance was received by the Department.

(2) If an application for assistance is received after the first day of the month, and the client is eligible to receive assistance, payment for the first month is prorated from the date of the application.

(3) If additional verifying information is needed to complete an application, it must be provided within 30 days of the date the application was received. If the client is at fault in not providing the information within 30 days, the first day the client can be eligible is the day on which the verification was received by the Department.

(4) If the verification is not received within 60 days of the date the application was received by the Department, a new application is required and assistance payments cannot be made for periods prior to the date the new application is received.

(5) If an application for assistance was denied and no appeal taken within 90 days, or a decision unfavorable to the client was issued on appeal, assistance cannot be claimed, requested, or paid for that time period.

R986-100-113. A Client Must Inform the Department of All Material Changes.

(1) A material change is any change which might affect eligibility.

(2) Households receiving assistance must report all material changes to the Department as follows:

(a) households receiving food stamps in which all household members are elderly or disabled as defined by food stamp regulations, and the household has no earned income, must report the following material changes to the local office within ten days of the day the change becomes known by a household member:

(i) change in income source, both unearned and earned;
(ii) change of more than \$50 in gross monthly unearned income;

(iii) change in employment status including a change from full time to part time or from part time to full time and/or a change in wage rate, salary or income from employment;

(iv) change in household size or marital status;
(v) change in residence and resulting change in shelter costs;

(vi) gain of a licensed vehicle;
(vii) change in available assets including an unlicensed vehicle. A household under this subsection need only report a change in cash on hand, stocks, bonds, and money in a bank account or savings institution which reach or exceed a total of \$3,000;

(viii) change in the legal obligation to pay child support; and

(b) households receiving food stamps that do not meet the requirements of paragraph (2)(a) of this section must report the following changes within ten days of the change occurring:

(i) if the household's gross income exceeds 130% of federal poverty level;

(ii) a change of address; and
(iii) if an ABAWD's work hours fall below 20 hours per week.

(c) households receiving GA, WTE, FEP, FEPTP, AA and

RRP that do not meet the requirements of paragraph (2)(a) must report the following changes within ten days of the change occurring:

(i) if the household's gross income exceeds 185% of the adjusted standard needs budget;

(ii) a change of address; and
(iii) if the only eligible child leaves the household and the household receives FEP, FEPTP or AA.

(3) Households that do not meet the requirements of paragraph (2)(a) of this section will be assigned a review month. In addition to the ten-day reporting requirements listed in paragraphs (2)(b) and (c) of this section, the household must report, by the last day of the review month, all material changes that have occurred since the last review, or the date of application if it is the first review. The household is also required to accurately complete all review forms and reports as requested by the Department.

(4) Most changes which result in an increase of assistance will become effective the month following the month in which the report of the change was made. If verification is necessary, verification and changes will be made in the month following the month in which verification was received. If the change is to add a person to the household, the person will be added effective on the date reported, provided necessary verification is received within 30 days of the change. If verification is received after 30 days, the increase will be made effective the date verification was received.

R986-100-114. A Client's Continuing Obligation to Provide Verification and Information.

(1) A client who is eligible for assistance must provide additional verification and information, which may affect household eligibility or ongoing eligibility, after the application is approved if requested by the Department.

(2) The client must provide information to determine if eligibility was appropriately established and if payments made under these rules were appropriate. This information may be requested by an employee of the Department or a person authorized to obtain the information under contract with the Department such as an employee of ORS.

R986-100-115. Underpayment Due to an Error on the Part of the Department.

(1) If it is determined that a client was entitled to assistance but, due to an error on the part of the Department, assistance was not paid, the Department will correct its error and make retroactive payment.

(2) If a client receives assistance payments and it is later discovered that due to Department error the assistance payment should have been made at a higher level than the client actually received, retroactive payment will be made to correct the Department's error.

(3) If the client's public assistance was terminated due to the error, the client will be notified and assistance, plus any retroactive payments, will commence immediately.

(4) An underpayment found to have been made within the last 12 calendar months will be corrected and issued to the client. Errors which resulted in an underpayment which were made more than 12 months prior to the date of the discovery of the error are not subject to a retroactive payment.

(5) Retroactive payment under this section cannot be made for any month prior to the date on which the application for assistance was completed.

(6) The client must not have been at fault in the creation of the error.

R986-100-116. Overpayments.

(1) A client is responsible for repaying any overpayment for any program listed in R986-100-102 regardless of who was

at fault in creating the overpayment.

(2) Underpayments may be used to offset an overpayment for the same program.

(3) If a change is not reported as required by R986-100-113 it may result in an overpayment.

(4) The Department will collect overpayments for all programs listed in R986-100-102 as provided by federal regulation for food stamps unless otherwise noted in this rule or inconsistent with federal regulations specific to those other programs.

(5) This rule will apply to overpayments determined under contract with the Department of Health.

(6) If an obligor has more than one overpayment account and does not tell the Department which account to credit, the Department will make that determination.

R986-100-117. Disqualification For Fraud (Intentional Program Violations or IPV's).

(1) Any person who is at fault in obtaining or attempting to obtain, an overpayment of assistance, as defined in Section 35A-3-602 from any of the programs listed in R986-100-102 or otherwise intentionally breaches any program rule either personally or through a representative is guilty of an intentional program violation (IPV). Acts which constitute an IPV include but are not limited to:

(a) knowingly making false or misleading statements;

(b) misrepresenting, concealing, or withholding facts or information;

(c) posing as someone else;

(d) not reporting the receipt of a public assistance payment the individual knew or should have known they were not eligible to receive;

(e) not reporting a material change as required by and in accordance with these rules; and

(f) committing an act intended to mislead, misrepresent, conceal or withhold facts or propound a falsity.

(2) An IPV occurs when a person commits any of the above acts in an attempt to obtain, maintain, increase or prevent the decrease or termination of any public assistance payment(s).

(3) When the Department determines or receives notice from a court that fraud or an IPV has occurred, the client is disqualified from receiving assistance of the same type for the time period as set forth in rule, statute or federal regulation.

(4) Disqualifications run concurrently.

(5) All income and assets of a person who has been disqualified from assistance for an IPV continue to be counted and affect the eligibility and assistance amount of the household assistance unit in which the person resides.

(6) If an individual has been disqualified in another state, the disqualification period for the IPV in that state will apply in Utah provided the act which resulted in the disqualification would have resulted in a disqualification had it occurred in Utah. If the individual has been disqualified in another state for an act which would have led to disqualification had it occurred in Utah and is found to have committed an IPV in Utah, the prior periods of disqualification in any other state count toward determining the length of disqualification in Utah.

(7) The client will be notified that a disqualification period has been determined. The disqualification period shall begin no later than the second month which follows the date the client receives written notice of the disqualification and continues in consecutive months until the disqualification period has expired.

(8) Nothing in these rules is intended to limit or prevent a criminal prosecution for fraud based on the same facts used to determine the IPV.

R986-100-118. Additional Penalty for a Client Who Intentionally Misrepresents Residence.

A person who has been convicted in federal or state court

of having made a fraudulent statement or representation with respect to the place of residence in order to receive assistance simultaneously from two or more states is disqualified from receiving assistance for any and all programs listed in R986-100-102 above, for a period of 10 years. This applies even if Utah was not one of the states involved in the original fraudulent misrepresentation.

R986-100-119. Reporting Possible Child Abuse or Neglect.

When a Department employee has reason to believe that a child has been subjected to abuse or neglect, it shall be reported under the provisions of Section 62A-4a-401 et seq.

R986-100-120. Discrimination Complaints.

(1) Complaints of discrimination can be made in person, by phone, or in writing to the local office, the Office of the Executive Director or the Director's designee, the Department's Equal Opportunity Officer, or the appropriate Federal agency.

(2) Complaints shall be resolved and responded to as quickly as possible.

(3) A record of complaints will be maintained by the local office including the response to the complaint.

(4) If a complaint is made to the local office, a copy of the complaint together with a copy of the written response will be sent to the Office of the Executive Director or the Director's designee.

(5) Discrimination complaints pertaining to the Food Stamp Program will also be sent to the Secretary of Agriculture or the Administrator of Food and Nutrition Service, Washington, D.C., 20250 in accordance with the provisions of 7 CFR 272.6 (1999).

R986-100-121. Agency Conferences.

(1) Agency conferences are used to resolve disputes between the client and Department staff.

(2) Clients or Department staff may request an agency conference at any time to resolve a dispute regarding a denial or reduction of assistance.

(3) Clients may have an authorized representative attend the agency conference.

(4) An agency conference will be attended by the client's employment counselor and the counselor's supervisor unless the client or the supervisor request that the employment counselor not attend the conference.

(5) If an agency conference has previously been held on the same dispute, the Department may decline to hold the requested conference if, in the judgment of the employment counselor's supervisor, it will not result in the resolution of the dispute.

(6) If the Department requests the agency conference and the client fails to respond, attend or otherwise cooperate in this process, documentation in the case file of attempts by the staff to follow these steps will be considered as compliance with the requirement to attempt to resolve the dispute.

(7) An agency conference may be held after a client has made a request for hearing in an effort to resolve the dispute. If so, the client must be notified that failure to participate or failure to resolve the dispute at the agency conference will not affect the client's right to proceed with the hearing.

R986-100-122. Advance Notice of Department Action.

(1) Except as provided in (2) below, clients will be notified in writing when a decision concerning eligibility, amount of assistance payment or action on the part of the Department which affects the client's eligibility or amount of assistance has been made. Notice will be sent prior to the effective date of any action to reduce or terminate assistance payments. The Department will send advance notice of its intent to collect overpayments or to disqualify a household

member.

(2) Except for overpayments, advance notice is not required when:

- (a) the client requests in writing that the case be closed;
- (b) the client has been admitted to an institution under governmental administrative supervision;
- (c) the client has been placed in skilled nursing care, intermediate care, or long-term hospitalization;
- (d) the client's whereabouts are unknown and mail sent to the client has been returned by the post office with no forwarding address;
- (e) it has been determined the client is receiving public assistance in another state;
- (f) a child in the household has been removed from the home by court order or by voluntary relinquishment;
- (g) a special allowance provided for a specific period is ended and the client was informed in writing at the time the allowance began that it would terminate at the end of the specified period;
- (h) a household member has been disqualified for an IPV in accordance with 7 CFR 273.16, or the benefits of the remaining household members are reduced or terminated to reflect the disqualification of that household member;
- (i) the Department has received factual information confirming the death of a client or payee if there is no other relative able to serve as a new payee;
- (j) the client's certification period has expired;
- (k) the action to terminate assistance is based on the expiration of the time limits imposed by the program;
- (l) the client has provided information to the Department, or the Department has information obtained from another reliable source, that the client is not eligible or that payment should be reduced or terminated;
- (m) the Department determines that the client willfully withheld information or;
- (n) when payment of financial assistance is made after performance under R986-200-215 and R986-400-454 no advance notice is needed when performance requirements are not met.

(3) For food stamp recipients and recipients of assistance under R986-300, no action will be taken until ten days after notice was sent unless one of the exceptions in (2)(a) through (k) above apply.

(4) Notice is complete if sent to the client's last known address. If notice is sent to the client's last known address and the notice is returned by the post office with no forwarding address, the notice will be considered to have been properly served.

R986-100-123. The Right To a Hearing and How to Request a Hearing.

(1) A client has the right to a review of an adverse Department action by requesting a hearing.

(2) In cases where the Department sends notice of its intent to take action to collect an alleged overpayment but there is no alleged overpayment of food stamps, the client must request a hearing in writing or orally within 30 days of the date of notice of agency action. In all other cases, the client must request a hearing in writing or orally within 90 days of the date of the notice of agency action with which the client disagrees.

(3) Only a clear expression by the client to the effect that the client wants an opportunity to present his or her case is required.

(4) The request for a hearing can be made at the local office or the Division of Adjudication.

(5) If the client disagrees with the level of food stamp benefits paid or payable, the client can request a hearing within the certification period, even if that is longer than 90 days.

(6) If a request for restoration of lost food stamp benefits

is made within one year of the loss of benefits a client may request a hearing within 90 days of the date of the denial of restoration.

(7) In the case of an overpayment and/or IPV the obligor may contact the presiding officer and attempt to resolve the dispute. If the dispute cannot be resolved, the obligor may still request a hearing provided it is filed within the time limit provided in the notice of agency action.

R986-100-124. How Hearings Are Conducted.

(1) Hearings are held at the state level and not at the local level.

(2) Where not inconsistent with federal law or regulation governing hearing procedure, the Department will follow the Utah Administrative Procedures Act.

(3) Hearings for all programs listed in R986-100-102 and overpayments and IPV's in Section 35A-3-601 et seq. are declared to be informal.

(4) Hearings are conducted by an ALJ or a Hearing Officer in the Division of Adjudication. A Hearing Officer has all of the same rights, duties, powers and responsibilities as an ALJ under these rules and the terms are interchangeable.

(5) Hearings are usually scheduled as telephone hearings.

(6) If the client prefers an in-person hearing the client must contact the ALJ assigned to hear the case in advance of the hearing and request that the hearing be converted to an in-person hearing. An in-person hearing is conducted in one of the following ways, at the option of the client:

(a) the client can request that the hearing be conducted in the office of the ALJ and appear personally before the ALJ, but the Department representative and Department witnesses will be allowed to participate by telephone; or

(b) the client can participate from the local Employment Center with the witnesses and Department employees who work in that particular Employment Center. The ALJ and any Department employees or witnesses who are in another location will participate from that location or locations by telephone.

(7) The Department is not responsible for any travel costs incurred by the client in attending an in-person hearing.

(8) the Division of Adjudication will permit collect calls from parties and their witnesses participating in telephone hearings.

R986-100-125. When a Client Needs an Interpreter at the Hearing.

(1) If a client notifies the Department that an interpreter is needed at the time the request for hearing is made, the Department will arrange for an interpreter at no cost to the client.

(2) If an interpreter is needed at the hearing by a client or the client's witness(es), the client may arrange for an interpreter to be present at the hearing who is an adult with fluent ability to understand and speak English and the language of the person testifying, or notify the Division of Adjudication at the time the appeal is filed that assistance is required in arranging for an interpreter.

R986-100-126. Procedure For Use of an Interpreter.

(1) The ALJ will be assured that the interpreter:

- (a) understands the English language; and
- (b) understands the language of the client or witness for whom the interpreter will interpret.

(2) The ALJ will instruct the interpreter to interpret, word for word, and not summarize, add, change, or delete any of the testimony or questions.

(3) The interpreter will be sworn to truthfully and accurately translate all statements made, all questions asked, and all answers given.

(4) The interpreter will be instructed to translate to the

client the explanation of the hearing procedures as provided by the ALJ.

R986-100-127. Notice of Hearing.

(1) All interested parties will be notified by mail at least 10 days prior to the hearing.

(2) Advance written notice of the hearing can be waived if the client and Department agree.

(3) The notice shall contain:

(a) the time, date, and place, or conditions of the hearing. If the hearing is to be by telephone, the notice will provide the number for the client to call and a notice that the client can call the number collect;

(b) the legal issues or reason for the hearing;

(c) the consequences of not appearing;

(d) the procedures and limitations for requesting rescheduling; and

(e) notification that the client can examine the case file prior to the hearing.

(4) If a client has designated a person or professional organization as the client's agent, notice of the hearing will be sent to that agent. It will be considered that the client has been given notice when notice is sent to the agent.

(5) When a new issue arises during the hearing or under other unusual circumstances, advance written notice may be waived, if the Department and the client agree, after a full verbal explanation of the issues and potential results.

(6) The client must notify any representatives, including counsel and witnesses, of the time and place of the hearing and make necessary arrangements for their participation.

(7) The notice of hearing will be translated, either in writing or verbally, for certain clients participating in the RRP program in accordance with RRP regulations.

R986-100-128. Hearing Procedure.

(1) Hearings are not open to the public.

(2) A client may be represented at the hearing. The client may also invite friends or relatives to attend as space permits.

(3) Representatives from the Department or other state agencies may be present.

(4) All hearings will be conducted informally and in such manner as to protect the rights of the parties. The hearing may be recorded.

(5) All issues relevant to the appeal will be considered and decided upon.

(6) The decision of the ALJ will be based solely on the testimony and evidence presented at the hearing.

(7) All parties may testify, present evidence or comment on the issues.

(8) All testimony of the parties and witnesses will be given under oath or affirmation.

(9) Any party to an appeal will be given an adequate opportunity to be heard and present any pertinent evidence of probative value and to know and rebut by cross-examination or otherwise any other evidence submitted.

(10) The ALJ will direct the order of testimony and rule on the admissibility of evidence.

(11) Oral or written evidence of any nature, whether or not conforming to the legal rules of evidence including hearsay, may be accepted and will be given its proper weight.

(12) Official records of the Department, including reports submitted in connection with any program administered by the Department or other State agency may be included in the record.

(13) The ALJ may request the presentation of and may take such additional evidence as the ALJ deems necessary.

(14) The parties, with consent of the ALJ, may stipulate to the facts involved. The ALJ may decide the issues on the basis of such facts or may set the matter for hearing and take such further evidence as deemed necessary to determine the issues.

(15) The ALJ may require portions of the evidence be transcribed as necessary for rendering a decision.

(16) Unless the client requests a continuance, the decision of the ALJ will be issued within 60 days of the date on which the client requests a hearing.

(17) A decision of the ALJ which results in a reversal of the Department decision shall be complied with within 10 days of the issuance of the decision.

R986-100-129. Rescheduling or Continuance of Hearing.

(1) The ALJ may adjourn, reschedule, continue or reopen a hearing on the ALJ's own motion or on the motion of the client or the Department.

(2) If a party knows in advance of the hearing that they will be unable to proceed with or participate in the hearing on the date or time scheduled, the party must request that the hearing be rescheduled or continued to another day or time.

(a) The request must be received prior to the hearing.

(b) The request must be made orally or in writing to the ALJ who is scheduled to hear the case. If the request is not received prior to the hearing, the party must show cause for failing to make a timely request.

(c) The party making the request must show cause for the request.

(d) Normally, a party will not be granted more than one request for a continuance.

(3) The rescheduled hearing must be held within 30 days of the original hearing date.

R986-100-130. Default Order for Failure to Participate.

(1) The Department will issue a default order if an obligor in an overpayment and/or IPV case fails to participate in the administrative process. Participation for an obligor means:

(a) signing and returning to the Department an approved stipulation for repayment and making all of the payments as agreed,

(b) requesting and participating in a hearing, or

(c) paying the overpayment in full.

(2) If a hearing has been scheduled at the request of a client or an obligor and the client or obligor fails to appear at or participate in the hearing, either in person or through a representative, the ALJ will, unless a continuance or rescheduling has been requested, issue a default order.

(3) A default order will be based on the record and best evidence available at the time of the order.

R986-100-131. Setting Aside A Default and/or Reopening the Hearing After the Hearing Has Been Concluded.

(1) Any party who fails to participate personally or by authorized representative as defined in R986-100-130 may request that the default order be set aside and a hearing or a new hearing be scheduled. If a party failed to participate in a hearing but no decision has yet been issued, the party may request that the hearing be reopened.

(2) The request must be in writing, must set forth the reason for the request and must be mailed, faxed or delivered to the ALJ or presiding officer who issued the default order within ten days of the issuance of the default. If the request is made after the expiration of the ten-day time limit, the party requesting reopening must show good cause for not making the request within ten days.

(3) The ALJ has the discretion to schedule a hearing to determine if a party requesting that a default order be set aside or a reopening satisfied the requirements of this rule or may grant or deny the request on the basis of the record in the case.

(4) If a presiding officer issued the default, the officer shall forward the request to the Division of Adjudication. The request will be assigned to an ALJ who will then determine if the party requesting that the default be set aside or that the

hearing be reopened has satisfied the requirements of this rule.

(5) The ALJ may, on his or her own motion, reschedule, continue or reopen a case if it appears necessary to take continuing jurisdiction based on a mistake as to facts or if the denial of a hearing would be an affront to fairness. A presiding officer may, on his or her own motion, set aside a default on the same grounds.

(6) If a request to set aside the default or a request for reopening is not granted, the ALJ will issue a decision denying the request to reopen. A copy of the decision will be given or mailed to each party, with a clear statement of the right of appeal or judicial review. A defaulted party may appeal a denial of a request to set aside a default by following the procedure in R986-100-135. The appeal can only contest the denial of the request to set aside the default and not the underlying merits of the case. If the default is set aside on appeal, the Executive Director or designee may rule on the merits or remand the case to an ALJ for a ruling on the merits on an additional hearing if necessary.

R986-100-132. What Constitutes Grounds to Set Aside a Default.

(1) A request to reopen or set aside for failure to participate:

(a) will be granted if the party was prevented from participating and/or appearing at the hearing due to circumstances beyond the party's control;

(b) may be granted upon such terms as are just for any of the following reasons: mistake, inadvertence, surprise, excusable neglect or any other reason justifying relief from the operation of the decision. The determination of what sorts of neglect will be considered excusable is an equitable one, taking into account all of the relevant circumstances including:

(i) the danger that the party not requesting reopening will be harmed by reopening,

(ii) the length of the delay caused by the party's failure to participate including the length of time to request reopening,

(iii) the reason for the request including whether it was within the reasonable control of the party requesting reopening,

(iv) whether the party requesting reopening acted in good faith, and

(v) whether the party was represented by another at the time of the hearing. Because they are required to know and understand Department rules, attorneys and professional representatives are held to a higher standard, and

(vi) whether based on the evidence of record and the parties arguments or statements, setting aside the default and taking additional evidence might effect the outcome of the case.

(2) Requests to reopen or set aside are remedial in nature and thus must be liberally construed in favor of providing parties with an opportunity to be heard and present their case. Any doubt must be resolved in favor of granting reopening.

R986-100-133. Canceling an Appeal and Hearing.

When a client notifies the Division of Adjudication or the ALJ that the client wants to cancel the hearing and not proceed with the appeal, a decision dismissing the appeal will be issued. This decision will have the effect of upholding the Department decision. The client will have 30 days in which to reinstate the appeal by filing a written request for reinstatement with the Division of Adjudication.

R986-100-134. Payments of Assistance Pending the Hearing.

(1) A client is entitled to receive continued assistance pending a hearing contesting a Department decision to reduce or terminate food stamps, RRP, FEPTP, or FEP financial assistance if the client's request for a hearing is received no later than 10 days after the date of the notice of the reduction, or termination. The assistance will continue unless the certification

period expires until a decision is issued by the ALJ. If the certification period expires while the hearing or decision is pending, assistance will be terminated. If a client becomes ineligible or the assistance amount is reduced for another reason pending a hearing, assistance will be terminated or reduced for the new reason unless a hearing is requested on the new action.

(2) If the client can show good cause for not requesting the hearing within 10 days of the notice, assistance may be continued if the client can show good cause for failing to file in a timely fashion. Good cause in this paragraph means that the delay in filing was due to circumstances beyond the client's control or for circumstances which were compelling and reasonable. Because the Department allows a client to request a hearing by telephone or mail, good cause does not mean illness, lack of transportation or temporary absence.

(3) A client can request that payment of assistance not be continued pending a hearing but the request must be in writing.

(4) If payments are continued pending a hearing, the client is responsible for any overpayment in the event of an adverse decision.

(5) If the decision of the ALJ is adverse to the client, the client is not eligible for continued assistance pending any appeal of that decision.

(6) If a decision favorable to the client is rendered after a hearing, and payments were not made pending the decision, retroactive payment will be paid back to the date of the adverse action if the client is otherwise eligible.

(7) Financial assistance payments under GA or WTE, and CC subsidies will not continue during the hearing process regardless of when the appeal is filed.

(8) Financial assistance under the RRP will not extend for longer than the eight-month time limit for that program under any circumstances.

(9) Clients receiving financial assistance under the FEPTP program must continue to participate to receive financial assistance during the hearing process.

(10) Financial assistance under the FEPTP program will not extend for longer than the seven-month time limit for that program under any circumstance.

(11) Assistance is not allowed pending a hearing from a denial of an application for assistance.

R986-100-135. Further Appeal From the Decision of the ALJ or Presiding Officer.

Either party has the option of appealing the decision of the ALJ or presiding officer to either the Executive Director or person designated by the Executive Director or to the District Court. The appeal must be filed, in writing, within 30 days of the issuance of the decision of the ALJ or presiding officer.

R986. Workforce Services, Employment Development.**R986-200. Family Employment Program.****R986-200-201. Authority for Family Employment Program (FEP) and Family Employment Program Two Parent (FEPTP) and Other Applicable Rules.**

(1) The Department provides services to eligible families under FEP and FEPTP under the authority granted in the Employment Support Act, UCA 35A-3-301 et seq. Funding is provided by the federal government through Temporary Aid to Needy Families (TANF) as authorized by PRWORA.

(2) Rule R986-100 applies to FEP and FEPTP unless expressly noted otherwise.

R986-200-202. Family Employment Program (FEP).

(1) The goal of FEP is to increase family income through employment, and where appropriate, child support and/or disability payments.

(2) FEP is for families with no more than one able bodied parent in the household. If the family has two able bodied parents in the household, the family is not eligible for FEP but may be eligible for FEPTP. Able bodied means capable of earning at least \$500 per month in the Utah labor market.

(3) If a household has at least one incapacitated parent, the parent claiming incapacity must verify that incapacity in one of the following ways:

- (a) receipt of disability benefits from SSA;
- (b) 100% disabled by VA; or
- (c) by submitting a written statement from:
 - (i) a licensed medical doctor;
 - (ii) a doctor of osteopathy;
 - (iii) a licensed Mental Health Therapist as defined in UCA 58-60-102;

(iv) a licensed Advanced Practice Registered Nurse; or
 (v) a licensed Physician's Assistant.
 (d) the written statement in paragraph (c) of this subsection must be based on a current physical examination of the parent, not just a review of parent's medical records.

(4) Incapacity means not capable of earning \$500 per month. The incapacity must be expected to last 30 days or longer.

(5) An applicant or parent must cooperate in the obtaining of a second opinion regarding incapacity if requested by the Department. Only the costs associated with a second opinion requested by the Department will be paid for by the Department. The Department will not pay the costs associated with obtaining a second opinion if the parent requests the second opinion.

(6) An incapacitated parent is included in the FEP household assistance unit and the parent's income and assets are counted toward establishing eligibility unless the parent is a SSI recipient. If the parent is a SSI recipient, that parent is not included in the household and none of the income or assets of the SSI recipient is counted.

(7) An incapacitated parent who is included in the household must still negotiate, sign and agree to participate in an employment plan. If the incapacity is such that employment is not feasible now or in the future, participation may be limited to cooperating with ORS and filing for any assistance or benefits to which the parent may be entitled. If it is believed the incapacity might not be permanent, the parent will also be required to seek assistance in overcoming the incapacity.

R986-200-203. Citizenship and Alienage Requirements.

(1) All persons in the household assistance unit who are included in the financial assistance payment, including children, must be a citizen of the United States or meet alienage criteria.

(2) An alien is not eligible for financial assistance unless the alien meets the definition of qualified alien. A qualified alien is an alien:

- (a) who is paroled into the United States under section

212(d)(5) of the INA for at least one year;

(b) who is admitted as a refugee under section 207 of the INA;

(c) who is granted asylum under section 208 of the INA;

(d) who is a Cuban or Haitian entrant in accordance with the requirements of 45 CFR Part 401;

(e) who is an Amerasian from Vietnam and was admitted to the United States as an immigrant pursuant to Public Law 100-202 and Public Law 100-461;

(f) whose deportation is being withheld under sections 243(h) or 241(b)(3) of the INA;

(g) who is lawfully admitted for permanent residence under the INA,

(h) who is granted conditional entry pursuant to section 203(a)(7) of the INA;

(i) who meets the definition of certain battered aliens under Section 8 U.S.C. 1641(c); or

(j) who is a certified victim of trafficking.

(3) All aliens granted lawful temporary or permanent resident status under Sections 210, 302, or 303 of the Immigration Reform and Control Act of 1986, are disqualified from receiving financial assistance for a period of five years from the date lawful temporary resident status is granted.

(4) Aliens are required to provide proof, in the form of documentation issued by the United States Citizenship and Immigration Services (USCIS), of immigration status. Victims of trafficking can provide proof from the Office of Refugee Resettlement.

R986-200-204. Eligibility Requirements.

(1) To be eligible for financial assistance under the FEP or FEPTP a household assistance unit must include:

(a) a pregnant woman when it has been medically verified that she is in the third calendar month prior to the expected month of delivery, or later, and who, if the child were born and living with her in the month of payment, would be eligible. The unborn child is not included in the financial assistance payment; or

(b) at least one minor dependent child who is a citizen or meets the alienage criteria. All minor children age 6 to 16 must attend school, or be exempt under 53A-11-102, to be included in the household assistance unit for a financial assistance payment for that child.

(i) A minor child is defined as being under the age of 18 years and not emancipated by marriage or by court order; or

(ii) an unemancipated child, at least 18 years old but under 19 years old, with no high school diploma or its equivalent, who is a full-time student in a secondary school, or in the equivalent level of vocational or technical training, and the school has verified a reasonable expectation the 18 year old will complete the program before reaching age 19.

(2) Households must meet other eligibility requirements of income, assets, and participation in addition to the eligibility requirements found in R986-100.

(3) Persons who are fleeing to avoid prosecution of a felony are ineligible for financial assistance.

(4) All clients who are required to complete a negotiated employment plan as provided in R986-200-206 must attend a FEP orientation meeting within 30 days of submitting his or her application for assistance. Attendance at the orientation meeting can only be excused for reasonable cause as defined in R986-200-212(8). The application for assistance will not be complete until the client has attended the meeting.

R986-200-205. How to Determine Who Is Included in the Household Assistance Unit.

The amount of financial assistance for an eligible household is based on the size of the household assistance unit and the income and assets of all people in the household

assistance unit.

(1) The income and assets of the following individuals living in the same household must be counted in determining eligibility of the household assistance unit:

(a) all natural parents, adoptive parents and stepparents, unless expressly excluded in this section, who are related to and residing in the same household as an eligible dependent child. Natural parentage is determined as follows:

(i) A woman is the natural parent if her name appears on the birth record of the child.

(ii) For a man to be determined to be the natural parent, that relationship must be established or acknowledged or his name must appear on the birth record. If the parents have a solemnized marriage at the time of birth, relationship is established and can only be rebutted by a DNA test;

(b) household members who would otherwise be included but who are absent solely by reason of employment, school or training, or who will return home to live within 30 days;

(c) all minor siblings, half-siblings, and adopted siblings living in the same household as an eligible dependent child; and

(d) all spouses living in the household.

(2) The following individuals in the household are not counted in determining the household size for determining payment amount nor are the assets or income of the individuals counted in determining household eligibility:

(a) a recipient of SSI benefits. If the SSI recipient is the parent and is receiving FEP assistance for the child(ren) residing in the household, the SSI parent must cooperate with establishing paternity and child support enforcement for the household to be eligible. If the only dependent child is a SSI recipient, the parent or specified relative may receive a FEP assistance payment which does not include that child, provided the parent or specified relative is not on SSI and can meet all other requirements;

(b) a child during any month in which a foster care maintenance payment is being provided to meet the child's needs. If the only dependent child in the household is receiving a foster care maintenance payment, the parent or specified relative may still receive a FEP assistance payment which does not include the child, provided all other eligibility, income and asset requirements are met;

(c) an absent household member who is expected to be gone from the household for 180 days or more unless the absence is due to employment, school or training. If the absence is due to employment, school or training the household member must be included.

(3) The household assistance unit can choose whether to include or exclude the following individuals living in the household. If included, all income and assets of that person are counted:

(a) all absent household members who are expected to be temporarily absent from the home for more than 30 but not more than 180 consecutive days unless the absence is due to employment, school or training. If the absence is due to employment, school or training the household member must be included;

(b) Native American children, or deaf or blind children, who are temporarily absent while in boarding school, even if the temporary absence is expected to last more than 180 days;

(c) an adopted child who receives a federal, state or local government special needs adoption payment. If the adopted child receiving this type of payment is the only dependent child in the household and excluded, the parent(s) or specified relative may still receive a FEP or FEPTP assistance payment which does not include the child, provided all other eligibility requirements are met. If the household chooses to include the adopted child in the household assistance unit under this paragraph, the special needs adoption payment is counted as income;

(d) former stepchildren who have no blood relationship to a dependent child in the household;

(e) a specified relative. If a household requests that a specified relative be included in the household assistance unit, only one specified relative can be included in the financial assistance payment regardless of how many specified relatives are living in the household. The income and assets of all household members are counted according to the provisions of R986-200-241.

(4) In situations where there are children in the home for which there is court order regarding custody of the children, the Department will determine if the children should be included in the household assistance unit based on the actual living arrangements of the children and not on the custody order. If the child lives in the home 50% or more of the time, the child must be included in the household assistance unit and duty of support completed. It is not an option to exclude the child. This is true even if the court awarded custody to the other parent or the court ordered joint custody. If the child lives in the household less than 50% of the time, the child cannot be included in the household. It is not an option to include the child. This is true even if the parent applying for financial assistance has been awarded custody by the court or the court ordered joint custody. If financial assistance is allowed, a joint custody order might be modified by the court under the provisions of 30-3-10.2(4) and 30-3-10.4.

(5) The income and assets of the following individuals are counted in determining eligibility even though the individual is not included in the assistance payment:

(a) a household member who has been disqualified from the receipt of assistance because of an IPV, (fraud determination);

(b) a household member who does not meet the citizenship and alienage requirements; or

(c) a minor child who is not in school full time or participating in self sufficiency activities.

R986-200-206. Participation Requirements.

(1) Payment of any and all financial assistance is contingent upon all parents in the household, including adoptive and stepparents, participating, to the maximum extent possible, in:

(a) assessment and evaluation;

(b) the completion of a negotiated employment plan; and

(c) assisting ORS in good faith to:

(i) establish the paternity of all minor children; and

(ii) establish and enforce child support obligations.

(d) obtaining any and all other sources of income. If any household member is or appears to be eligible for unemployment, SSA, Workers Compensation, VA, or any other benefits or forms of assistance, the Department will refer the individual to the appropriate agency and the individual must apply for and pursue obtaining those benefits. If an individual refuses to apply for and pursue these benefits or assistance, the individual is ineligible for financial assistance. Pursuing these benefits includes cooperating fully and providing all the necessary documentation to insure receipt of benefits. If the individual is already receiving assistance from the Department and it is found he or she is not cooperating fully to obtain benefits from another source, the individual will be considered to not be participating in his or her employment plan. If the individual is otherwise eligible for FEP or FEPTP, financial assistance will be provided until eligibility for other benefits or assistance has been determined. If an individual's application for SSA benefits is denied, the individual must fully cooperate in prosecuting an appeal of that SSA denial at least to the Social Security ALJ level.

(2) Parents who have been determined to be ineligible to be included in the financial assistance payment are still required

to participate.

(3) Children at least 16 years old but under 18 years old, unless they are in school full-time or in school part-time and working less than 100 hours per month are required to participate.

R986-200-207. Participation in Child Support Enforcement.

(1) Receipt of child support is an important element in increasing a family's income.

(2) Every natural, legal or adoptive parent has a duty to support his or her children and stepchildren even if the children do not live in the parental home.

(3) A parent's duty to support continues until the child:

(a) reaches age 18;

(b) is 18 years old and enrolled in high school during the normal and expected year of graduation;

(c) is emancipated by marriage or court order;

(d) is a member of the armed forces of the United States; or

(e) is self supporting.

(4) A client receiving financial assistance automatically assigns to the state any and all rights to child support for all children who are included in the household assistance unit while receiving financial assistance. The assignment of rights occurs even if the client claims or establishes "good cause or other exception" for refusal to cooperate. The assignment of rights to support, cooperation in establishing paternity, and establishing and enforcing child support is a condition of eligibility for the receipt of financial assistance.

(5) For each child included in the financial assistance payment, the client must also assign any and all rights to alimony or spousal support from the noncustodial parent while the client receives public assistance.

(6) The client must cooperate with the Department and ORS in establishing and enforcing the spousal and child support obligation from any and all natural, legal, or adoptive non-custodial parents.

(7) If a parent is absent from the home, the client must identify and help locate the non-custodial parent.

(8) If a child is conceived or born during a marriage, the husband is considered the legal father, even if the wife states he is not the natural father.

(9) If the child is born out of wedlock, the client must also cooperate in the establishment of paternity.

(10) ORS is solely responsible for determining if the client is cooperating in identifying the noncustodial parent and with child support establishment and enforcement efforts for the purposes of receipt of financial assistance. The Department cannot review, modify, or reject a decision made by ORS.

(11) Unless good cause is shown, financial assistance will terminate if a parent or specified relative does not cooperate with ORS in establishing paternity or enforcing child support obligations.

(12) Upon notification from ORS that the client is not cooperating, the Department will commence reconciliation procedures as outlined in R986-200-212. If the client continues to refuse to cooperate with ORS at the end of the reconciliation process, financial assistance will be terminated.

(13) Termination of financial assistance for non cooperation is immediate, without a reduction period outlined in R986-200-212, if:

(a) the client is a specified relative who is not included in the household assistance unit;

(b) the client is a parent receiving SSI benefits; or

(c) the client is participating in FEPTP.

(14) Once the financial assistance has been terminated due to the client's failure to cooperate with child support enforcement, the client must then reapply for financial assistance. This time, the client must cooperate with child

support collection prior to receiving any financial assistance.

(15) A specified relative, illegal alien, SSI recipient, or disqualified parent in a household receiving FEP assistance must assign rights to support of any kind and cooperate with all establishment and enforcement efforts even if the parent or relative is not included in the financial assistance payment.

R986-200-208. Good Cause for Not Cooperating With ORS.

(1) The Department is responsible for determining if the client has good cause or other exception for not cooperating with ORS.

(2) To establish good cause for not cooperating, the client must file a written request for a good cause determination and provide proof of good cause within 20 days of the request.

(3) A client has the right to request a good cause determination at any time, even if ORS or court proceedings have begun.

(4) Good cause for not cooperating with ORS can be shown if one of following circumstances exists:

(a) The child, for whom support is sought, was conceived as a result of incest or rape. To prove good cause under this paragraph, the client must provide:

(i) birth certificates;

(ii) medical records;

(iii) Department records;

(iv) records from another state or federal agency;

(v) court records; or

(vi) law enforcement records.

(b) Legal proceedings for the adoption of the child are pending before a court. Proof is established if the client provides copies of documents filed in a court of competent jurisdiction.

(c) A public or licensed private social agency is helping the client resolve the issue of whether to keep or relinquish the child for adoption and the discussions between the agency and client have not gone on for more than three months. The client is required to provide written notice from the agency concerned.

(d) The client's cooperation in establishing paternity or securing support is reasonably expected to result in physical or emotional harm to the child or to the parent or specified relative. If harm to the parent or specified relative is claimed, it must be significant enough to reduce that individual's capacity to adequately care for the child.

(i) Physical or emotional harm is considered to exist when it results in, or is likely to result in, an impairment that has a substantial effect on the individual's ability to perform daily life activities.

(ii) The source of physical or emotional harm may be from individuals other than the noncustodial parent.

(iii) The client must provide proof that the individual is likely to inflict such harm or has done so in the past. Proof must be from an independent source such as:

(A) medical records or written statements from a mental health professional evidencing a history of abuse or current health concern. The record or statement must contain a diagnosis and prognosis where appropriate;

(B) court records;

(C) records from the Department or other state or federal agency; or

(D) law enforcement records.

(5) If a claim of good cause is denied because the client is unable to provide proof as required under Subsection (4) (a) or (d) the client can request a hearing and present other evidence of good cause at the hearing. If the ALJ finds that evidence credible and convincing, the ALJ can make a finding of good cause under Subsections (4) (a) or (d) based on the evidence presented by the client at the hearing. A finding of good cause by the ALJ can be based solely on the sworn testimony of the client.

(6) When the claim of good cause for not cooperating is based in whole or in part on anticipated physical or emotional harm, the Department must consider:

- (a) the client's present emotional health and history;
- (b) the intensity and probable duration of the resulting impairment;
- (c) the degree of cooperation required; and
- (d) the extent of involvement of the child in the action to be taken by ORS.

(7) The Department recognizes no other exceptions, apart from those recognized by ORS, to the requirement that a client cooperate in good faith with ORS in the establishment of paternity and establishment and enforcement of child support.

(8) If the client has exercised his or her right to an agency review or adjudicative proceeding under Utah Administrative Procedures Act on the question of non-cooperation as determined by ORS, the Department will not review, modify, or reverse the decision of ORS on the question of non-cooperation. If the client did not have an opportunity for a review with ORS, the Department will refer the request for review to ORS for determination.

(9) Once a request for a good cause determination has been made, all collection efforts by ORS will be suspended until the Department has made a decision on good cause.

(10) A client has the right to appeal a Department decision on good cause to an ALJ by following the procedures for appeal found in R986-100.

(11) If a parent requests a hearing on the basis of good cause for not cooperating, the resulting decision cannot change or modify the determination made by ORS on the question of good faith.

(12) Even if the client establishes good cause not to cooperate with ORS, if the Department supervisor determines that support enforcement can safely proceed without the client's cooperation, ORS may elect to do so. Before proceeding without the client's cooperation, ORS will give the client advance notice that it intends to commence enforcement proceedings and give the client an opportunity to object. The client must file his or her objections with ORS within 10 days.

(13) A determination that a client has good cause for non-cooperation may be reviewed and reversed by the Department upon a finding of new, or newly discovered evidence, or a change in circumstances.

R986-200-209. Participation in Obtaining an Assessment.

(1) Within 20 business days of the date the application for financial assistance has been completed and approved, the client will be assigned to an employment counselor and must complete an assessment.

(2) The assessment evaluates a client's needs and is used to develop an employment plan.

(3) Completion of the assessment requires that the client provide information about:

- (a) family circumstances including health, needs of the children, support systems, and relationships;
- (b) personal needs or potential barriers to employment;
- (c) education;
- (d) work history;
- (e) skills;
- (f) financial resources and needs; and
- (g) any other information relevant to the client's ability to become self-sufficient.

(4) The client may be required to participate in testing or completion of other assessment tools and may be referred to another person within the Department, another agency, or to a company or individual under contract with the Department to complete testing, assessment, and evaluation.

R986-200-210. Requirements of an Employment Plan.

(1) Within 15 business days of completion of the assessment, the following individuals in the household assistance unit are required to sign and make a good faith effort to participate to the maximum extent possible in a negotiated employment plan:

(a) All parents, including parents whose income and assets are included in determining eligibility of the household but have been determined to be ineligible or disqualified from being included in the financial assistance payment.

(b) Dependent minor children who are at least 16 years old, who are not parents, unless they are full-time students or are employed an average of 30 hours a week or more.

(2) The goal of the employment plan is obtaining marketable employment and it must contain the soonest possible target date for entry into employment consistent with the employability of the individual.

(3) An employment plan consists of activities designed to help an individual become employed. For each activity there will be:

- (a) an expected outcome;
- (b) an anticipated completion date;
- (c) the number of participation hours agreed upon per week; and
- (d) a definition of what will constitute satisfactory progress for the activity.

(4) Each activity must be directed toward the goal of increasing the household's income.

(5) Activities may require that the client:

- (a) obtain immediate employment. If so, the parent client shall:
 - (i) promptly register for work and commence a search for employment for a specified number of hours each week; and
 - (ii) regularly submit a report to the Department on:
 - (A) how much time was spent in job search activities;
 - (B) the number of job applications completed;
 - (C) the interviews attended;
 - (D) the offers of employment extended; and
 - (E) other related information required by the Department.
- (b) participate in an educational program to obtain a high school diploma or its equivalent, if the parent client does not have a high school diploma;
- (c) obtain education or training necessary to obtain employment;
- (d) obtain medical, mental health, or substance abuse treatment;
- (e) resolve transportation and child care needs;
- (f) relocate from a rural area which would require a round trip commute in excess of two hours in order to find employment;
- (g) resolve any other barriers identified as preventing or limiting the ability of the client to obtain employment, and/or
- (h) participate in rehabilitative services as prescribed by the State Office of Rehabilitation.

(6) The client must meet the performance expectations of, and provide verification for, each eligible activity in the employment plan in order to stay eligible for financial assistance. A list of what will be considered acceptable documentation is available at each employment center.

(7) The client must cooperate with the Department's efforts to monitor and evaluate the client's activities and progress under the employment plan, which includes providing the Department with a release of information, if necessary to facilitate the Department's monitoring of compliance.

(8) Where available, supportive services will be provided as needed for each activity.

(9) The client agrees, as part of the employment plan, to cooperate with other agencies, or with individuals or companies under contract with the Department, as outlined in the employment plan.

(10) An employment plan may, at the discretion of the Department, be amended to reflect new information or changed circumstances.

(11) The number of hours of participation in subsection (3)(c) of this section will not be lower than 30 hours per week. All 30 hours must be in eligible activities. 20 of those 30 hours must be in priority activities. A list of approved priority and eligible activities is available at each employment center.

(12) In the event a client has barriers which prevent the client from 30 hours of participation per week, or 20 hours in priority activities, a lower number of hours of participation can be approved if:

(a) the Department identifies and documents the barriers which prevent the client from full participation; and

(b) the client agrees to participate to the maximum extent possible to resolve the barriers which prevent the client from participating.

R986-200-211. Education and Training As Part of an Employment Plan.

(1) A parent client's participation in education or training beyond that required to obtain a high school diploma or its equivalent is limited to the lesser of:

(a) 24 months which need not be continuous; or

(b) the completion of the education and training requirements of the employment plan.

(2) Post high school education or training will only be approved if all of the following are met:

(a) The client can demonstrate that the education or training would substantially increase the income level that the client would be able to achieve without the education and training, and would offset the loss of income the household incurs while the education or training is being completed.

(b) The client does not already have a degree or skills training certificate in a currently marketable occupation.

(c) An assessment specific to the client's education and training aptitude has been completed showing the client has the ability to be successful in the education or training.

(d) The mental and physical health of the client indicates the education or training could be completed successfully and the client could perform the job once the schooling is completed.

(e) The specific employment goal that requires the education or training is marketable in the area where the client resides or the client has agreed to relocate for the purpose of employment once the education/training is completed.

(f) The client, when determined appropriate, is willing to complete the education/training as quickly as possible, such as attending school full time which may include attending school during the summer.

(g) The client can realistically complete the requirements of the education or training program within the required time frames or time limits of the financial assistance program, including the 36-month lifetime limit for FEP and FEPTP, for which the client is eligible.

(3) A parent client may participate in education or training for up to six months beyond the 24-month limit if:

(a) the parent client is employed for 80 or more hours per month during each month of the extension;

(b) circumstances beyond the control of the client prevented completion within 24 months; and

(c) the Department director or designee determines that extending the 24-month limit is prudent because other employment, education, or training options do not enable the family to meet the objective of the program.

(4) A parent client with a high school diploma or equivalent who has received 24 months of education or training while receiving financial assistance must participate a minimum of 30 hours per week in eligible activities. Twenty of those 30

hours must be in priority activities. A list of approved priority and eligible activities is available at each employment center.

(5) Graduate work can never be approved or supported as part of an employment plan.

R986-200-212. Reconciling Disputes and Termination of Financial Assistance for Failure to Comply.

If a client who is required to participate in an employment plan consistently fails, without reasonable cause, to show good faith in complying with the employment plan, the Department will terminate all or part of the financial assistance. This will apply if the Department is notified that the client has failed to cooperate with ORS as provided in R986-200-207. A termination for the reasons mentioned in this paragraph will occur only after the Department attempts reconciliation through the following process:

(1) The employment counselor will attempt to discuss compliance with the client and explore solutions. If compliance is not resolved the counselor will move to the second phase.

(2) In the second phase, the employment counselor will request a meeting with the client, the employment counselor, the counselor's supervisor and any other Department or allied entity representatives, if appropriate, who might assist in encouraging participation. If the client does not attend the meeting, the meeting will be held in the client's absence. A formal meeting with the client is not required for a third or subsequent occurrence. If a resolution cannot be reached, one of the following will occur:

(a) for the first occurrence, the client's financial assistance payment will be reduced by \$100 for one month. The reduction will occur in the month following the month the determination was made. If the client does not participate during the \$100 reduction month, financial assistance will be terminated beginning the month following the \$100 reduction month.

(b) for the second occurrence, the client's financial assistance payment will be terminated and the client will be ineligible for financial assistance for one month. If the client re-applies during the one month termination period, the new application will be denied for non-participation. If the client re-applies after the one month termination period, the client must successfully complete a two week trial participation period before financial assistance will be approved.

(c) for the third and subsequent occurrences the client's financial assistance will be terminated beginning with the month following the determination by the employment counselor that the client is not participating. The client will be ineligible for financial assistance for two months and if the client re-applies during the two month period, the new application will be denied for non-participation. If the client re-applies after the two month termination period, the client must successfully complete a two week trial participation period before financial assistance will be approved.

(3) A client must demonstrate a genuine willingness to participate during the two week trial period.

(4) The occurrences are life-time occurrences and it does not matter how much time elapses between occurrences. If a client's assistance was reduced as provided in (2)(a) of this section three years ago, for example, the next occurrence will be treated as a second occurrence.

(5) The two week trial period may be waived only if the client has cured all previous participation issues prior to re-application.

(6) The provisions of this section apply to clients who are eligible for and receiving financial assistance during an extension period as provided in R986-200-218.

(7) A child age 16-18 who is not a parent and who is not participating will be removed from the financial assistance grant on the first and all subsequent occurrences. The financial assistance will continue for other household members provided

they are participating. If the child successfully completes a two week trial period, the child will be added back on to the financial assistance grant.

(8) Reasonable cause under this section means the client was prevented from participating through no fault of his or her own or failed to participate for reasons that are reasonable and compelling.

R986-200-213. Financial Assistance for a Minor Parent.

(1) Financial assistance may be provided to a single minor parent who resides in a place of residence maintained by a parent, legal guardian, or other adult relative of the single minor parent, unless the minor parent is exempt.

(2) The single minor parent may be exempt when:

(a) The minor parent has no living parent or legal guardian whose whereabouts is known;

(b) No living parent or legal guardian of the minor parent allows the minor parent to live in his or her home;

(c) The minor parent lived apart from his or her own parent or legal guardian for a period of at least one year before either the birth of the dependent child or the parent's having made application for FEP and the minor parent was self supporting during this same period of time; or

(d) The physical or emotional health or safety of the minor parent or dependent child would be jeopardized if they resided in the same residence with the minor parent's parent or legal guardian. A referral will be made to DCFS if allegations are made under this paragraph.

(3) Prior to authorizing financial assistance, the Department must approve the living arrangement of all single minor parents exempt under section (2) above. Approval of the living arrangement is not a certification or guarantee of the safety, quality, or condition of the living arrangements of the single minor parent.

(4) All minor parents regardless of the living arrangement must participate in education for parenting and life skills in infant and child wellness programs operated by the Department of Health and, for not less than 20 hours per week:

(a) attend high school or an alternative to high school, if the minor parent does not have a high school diploma;

(b) participate in education and training; and/or

(c) participate in employment.

(5) If a single minor parent resides with a parent, the Department shall include the income of the parent of the single minor parent in determining the single minor parent's eligibility for financial assistance.

(6) If a single minor parent resides with a parent who is receiving financial assistance, the single minor parent is included in the parent's household assistance unit.

(7) If a single minor parent receives financial assistance but does not reside with a parent, the Department shall seek an order requiring that the parent of the single minor parent financially support the single minor parent.

R986-200-214. Assistance for Specified Relatives.

(1) Specified relatives include:

(a) grandparents;

(b) brothers and sisters;

(c) stepbrothers and sisters;

(d) aunts and uncles;

(e) first cousins;

(f) first cousins once removed;

(g) nephews and nieces;

(h) people of prior generations as designated by the prefix grand, great, great-great, or great-great-great;

(i) brothers and sisters by legal adoption;

(j) the spouse of any person listed above;

(k) the former spouse of any person listed above; and

(l) individuals who can prove they met one of the above

mentioned relationships via a blood relationship even though the legal relationship has been terminated.

(2) The Department shall require compliance with Section 30-1-4.5

(3) A specified relative may apply for financial assistance for the child. If the child is otherwise eligible, the FEP rules apply with the following exceptions:

(a) The child must have a blood or a legal relationship to the specified relative even if the legal relationship has been terminated;

(b) Both parents must be absent from the home where the child lives. This is true even for a parent who has had his or her parental rights terminated;

(c) The child must be currently living with, and not just visiting, the specified relative;

(d) The parents' obligation to financially support their child will be enforced and the specified relative must cooperate with child support enforcement; and

(e) If the parent(s) state they are willing to support the child if the child would return to live with the parent(s), the child is ineligible unless there is a court order removing the child from the parent(s)' home.

(4) If the specified relative is currently receiving FEP or FEPTP, the child must be included in that household assistance unit.

(5) The income and resources of the specified relative are not counted unless the specified relative requests inclusion in the household assistance unit.

(6) If the specified relative is not currently receiving FEP or FEPTP, and the specified relative does not want to be included in the financial assistance payment, the specified relative shall be paid, on behalf of the child, the full standard financial assistance payment for one person. The size of the financial assistance payment shall be increased accordingly for each additional eligible child in the household assistance unit excluding the dependent child(ren) of the specified relative. Since the specified relative is not included in the household assistance unit, the income and assets of the specified relative, or the relative's spouse, are not counted.

(7) The specified relative may request to be included in the household assistance unit. If the specified relative is included in the household assistance unit, the household must meet all FEP eligibility requirements including participation requirements and asset limits.

(8) Income eligibility for a specified relative who wants to be included in the household assistance unit is calculated according to R986-200-241.

R986-200-215. Family Employment Program Two Parent Household (FEPTP).

(1) FEPTP is for households otherwise eligible for FEP but with two able-bodied parents in the household.

(2) Families may only participate in this program for seven months out of any 13-month period. Months of participation count toward the 36-month time limit in Sections 35A-3-306 and R986-200-217.

(3) Both parents must participate in eligible activities for a combined total of 60 hours per week, as defined in the employment plan. At least 50 of those hours must be in priority activities. A list of approved priority and eligible activities is available at each employment center.

(4) Both parents are required to participate every week as defined in the employment plan, unless the parent can establish reasonable cause for not participating. Reasonable cause is defined in rule R986-200-212(8).

(5) Payment is made twice per month and only after proof of participation. Payment is based on the number of hours of participation by both parents. The amount of assistance is equal to the FEP payment for the household size prorated based on the

number of hours which the parents participated up to a maximum of 60 hours of participation per week. In no event can the financial assistance payment per month for a FEPTP household be more than for the same size household participating in FEP.

(6) If it is determined by the employment counselor that either one of the parents has failed to participate to the maximum extent possible assistance for the entire household unit will terminate immediately.

(7) Because payment is made after performance, advance notice is not required to terminate or reduce assistance payments for households participating in FEPTP. However, if the client requests a hearing within ten days of the termination, payment of financial assistance based on participation of both parents in eligible activities can continue during the hearing process as provided in R986-100-134.

(8) The parents must meet all other requirements of FEP including but not limited to, income and asset limits, cooperation with ORS if there are legally responsible persons outside of the household assistance unit, signing a participation agreement and employment plan and applying for all other assistance or benefits to which they might be entitled.

R986-200-216. Diversion.

(1) Diversion is a one-time financial assistance payment provided to help a client avoid receiving extended cash assistance.

(2) In determining whether a client should receive diversion assistance, the Department will consider the following:

(a) the applicant's employment history;

(b) the likelihood that the applicant will obtain immediate full-time employment;

(c) the applicant's housing stability; and

(d) the applicant's child care needs, if applicable.

(3) To be eligible for diversion the applicant must:

(a) have a need for financial assistance to pay for housing or substantial and unforeseen expenses or work related expenses which cannot be met with current or anticipated resources;

(b) show that within the diversion period, the applicant will be employed or have other specific means of self support, and

(c) meet all eligibility criteria for a FEP financial assistance payment except the applicant does not need to cooperate with ORS in obtaining support. If the client is applying for other assistance such as medical or child care, the client will have to follow the eligibility rules for that type of assistance which may require cooperation with ORS.

(4) If the Department and the client agree diversion is appropriate, the client must sign a diversion agreement listing conditions, expectations and participation requirements.

(5) The diversion payment may not exceed three times the monthly financial assistance payment for the household size. All income expected to be received during the three-month period including wages and child support must be considered when negotiating the appropriate diversion payment amount.

(6) Child support will belong to the client during the three-month period, whether received by the client directly or collected by ORS. ORS will not use the child support to offset or reimburse the diversion payment.

(7) The client must agree to have the financial assistance portion of the application for assistance denied.

(8) If a diversion payment is made and the client later decides to reapply for financial assistance within three months of the date of the original application, the initial application date will be used and the amount of the diversion payment previously issued will be prorated over the three months and subtracted from the payment(s) to which the household unit is eligible.

(9) Diversion assistance is not available to clients participating in FEPTP. This is because FEPTP is based on

performance and payment can only be made after performance.

R986-200-217. Time Limits.

(1) Except as provided in R986-212-218 and in Section 35A-3-306, a family cannot receive financial assistance under the FEP or FEPTP for more than 36 months.

(2) The following months count toward the 36-month time limit regardless of whether the financial assistance payment was made in this or any other state:

(a) each month when a parent client received financial assistance beginning with the month of January, 1997;

(b) each month beginning with January, 1997, where a parent resided in the household, the parent's income and assets were counted in determining the household's eligibility, but the parent was disqualified from being included in the financial payment. Disqualification occurs when a parent has been determined to have committed fraud in the receipt of public assistance or when the parent is an ineligible alien; and

(c) each month when financial assistance was reduced or a partial financial assistance payment was received beginning with the month of January, 1997.

(3) Months which do not count toward the 36 month time limit are:

(a) months where both parents were absent from the home and dependent children were cared for by a specified relative who elected to be excluded from the household unit;

(b) months where the client received financial assistance as a minor child and was not the head of a household or married to the head of a household;

(c) months during which the parent lived in Indian country, as defined in Title 18, Section 1151, United States Code 1999, or an Alaskan Native village, if the most reliable data available with respect to the month, or a period including the month, indicate that at least 50% of the adults living in Indian country or in the village were not employed; or

(d) months when a parent resided in the home but were excluded from the household assistance unit. A parent is excluded when they receive SSI benefits.

(e) the first diversion period in any 12 month period of time is not counted toward the 36 month time limit. A second and all subsequent diversion periods within 12 months will count as one month toward the 36 month time limit. If a client has already used 36 months of financial assistance, the client is not eligible for diversion assistance unless the client meets one of the extension criteria in R986-200-218 in addition to all other eligibility criteria of diversion assistance.

R986-200-218. Exceptions to the Time Limit.

Exceptions to the time limit may be allowed for up to 20% of the average monthly number of families receiving financial assistance from FEP and FEPTP during the previous Federal fiscal year for the following reasons:

(1) A hardship under Section 35A-3-306 is determined to exist when a parent:

(a) is determined to be medically unable to work. The client must provide proof of inability to work in one of the following ways:

(i) receipt of disability benefits from SSA;

(ii) receipt of VA Disability benefits based on the parent being 100% disabled;

(iii) placement on the Division of Services to People with Disabilities' waiting list. Being on the waiting list indicates the person has met the criteria for a disability; or

(iv) is currently receiving Temporary Total or Permanent Total disability Workers' Compensation benefits;

(v) a medical statement completed by a medical doctor, a licensed Advanced Practice Registered Nurse, a licensed Physician's Assistant, or a doctor of osteopathy, stating the parent has a medical condition supported by medical evidence,

which prevents the parent from engaging in work activities capable of generating income of at least \$500 a month. The statement must be completed by a professional skilled in both the diagnosis and treatment of the condition; or

(vi) a statement completed by a licensed clinical social worker, licensed psychologist, licensed Mental Health Therapist as defined in UCA Section 58-60-102, or psychiatrist stating that the parent has been diagnosed with a mental health condition that prevents the parent from engaging in work activities capable of generating income of at least \$500 a month. Substance abuse is considered the same as mental health condition;

(b) is under age 19 through the month of their nineteenth birthday;

(c) is currently engaged in an approved full-time job preparation, educational or training activity which the parent was expected to complete within the 36 month time limit but completion within the 36 months was not possible through no fault of the parent. Additionally, if the parent has previously received, beginning with the month of January 1997, 24 months of financial assistance while attending educational or training activities, good cause for additional months must be shown and approved;

(d) was without fault and a delay in the delivery of services provided by the Department occurred. The delay must have had an adverse effect on the parent causing a hardship and preventing the parent from obtaining employment. An extension under this section cannot be granted for more than the length of the delay;

(e) moved to Utah after exhausting 36 months of assistance in another state or states and the parent did not receive supportive services in that state or states as required under the provisions of PRWORA. To be eligible for an extension under this section, the failure to receive supportive services must have occurred through no fault of the parent and must contribute to the parent's inability to work. An extension under this section can never be for longer than the delay in services;

(f) completed an educational or training program at the 36th month and needs additional time to obtain employment;

(g) is unable to work because the parent is required in the home to meet the medical needs of a dependent. Dependent for the purposes of this paragraph means a person who the parent claims as a dependent on his or her income tax filing. Proof, consisting of a medical statement from a health care professional listed in subparagraph (1)(a)(v) or (vi) of this section is required unless the dependent is on the Travis C medicaid waiver program. The medical statement must include all of the following:

- (i) the diagnosis of the dependent's condition,
- (ii) the recommended treatment needed or being received for the condition,
- (iii) the length of time the parent will be required in the home to care for the dependent, and
- (iv) whether the parent is required to be in the home full-time or part-time; or

(h) is currently receiving assistance under one of the exceptions in this section and needs additional time to obtain employment. A client can only receive assistance for one month under this subparagraph. If the Department determines that granting an exception under this subparagraph adversely impacts its federally mandated participation rate requirements or might otherwise jeopardize its funding, the one month exception will not be granted.

(2) Additional months of financial assistance may be provided if the family includes an individual who has been battered or subjected to extreme cruelty which is a barrier to employment and the implementation of the time limit would make it more difficult to escape the situation. Battered or subjected to extreme cruelty means:

(a) physical acts which resulted in, or threatened to result in, physical injury to the individual;

- (b) sexual abuse;
- (c) sexual activity involving a dependent child;
- (d) threats of, or attempts at, physical or sexual abuse;
- (e) mental abuse which includes stalking and harassment;

or (f) neglect or deprivation of medical care.

(3) An exception to the time limit can be granted for a maximum of an additional 24 months if:

(a) during the previous month, the parent client was employed for no less than 80 hours. The employment can consist of self-employment if the parent's net income from that self-employment is at or above minimum wage; and

(b) during at least six of the previous 24 months, the parent client was employed for no less than 80 hours a month.

(c) If, at the end of the 24-month extension, the parent client qualifies for an extension under Sections (1) or (2) of this rule, an additional extension can be granted under the provisions of those sections.

(4) All clients receiving an extension must continue to participate, to the maximum extent possible, in an employment plan. This includes cooperating with ORS in the collection, establishment, and enforcement of child support and the establishment of paternity, if necessary.

(5) If a household filing unit contains more than one parent, and one parent has received at least 36 months of assistance as a parent, then the entire filing unit is ineligible unless both parents meet one of the exceptions listed above. Both parents need not meet the same exception.

(6) A family in which the only parent or both parents are ineligible aliens cannot be granted an extension under Section (3) above or for any of the reasons in Subsections (1)(c), (d), (e) or (f). This is because ineligible aliens are not legally able to work and supportive services for work, education and training purposes are inappropriate.

(7) A client who is no longer eligible for financial assistance may be eligible for other kinds of public assistance including food stamps, Child Care Assistance and medical coverage. The client must follow the appropriate application process to determine eligibility for assistance from those other programs.

(8) Exceptions granted for reasons listed under paragraphs (1) or (2) of this subsection are subject to a review at least once every six months. Exceptions granted under paragraph (3) of this subsection can only be granted on a month by month basis and eligibility must be determined monthly.

R986-200-219. Emergency Assistance (EA) for Needy Families With Dependent Children.

(1) EA is provided in an effort to prevent homelessness. It is a payment which is limited to use for utilities and rent or mortgage.

(2) To be eligible for EA the family must meet all other FEP requirements except:

(a) the client need only meet the "gross income" test. Gross income which is available to the client must be equal to or less than 185% of the standard needs budget for the client's filing unit; and

(b) the client is not required to enter into an employment plan or cooperate with ORS in obtaining support.

(3) The client must be homeless, in danger of becoming homeless or having the utilities at the home cut off due to a crisis situation beyond the client's control. The client must show that:

(a) The family is facing eviction or foreclosure because of past due rent or mortgage payments or unpaid utility bills which result from the crisis;

(b) A one-time EA payment will enable the family to

obtain or maintain housing or prevent the utility shut off while they overcome the temporary crisis;

(c) Assistance with one month's rent or mortgage payment is enough to prevent the eviction, foreclosure or termination of utilities;

(d) The client has the ability to resolve past due payments and pay future months' rent or mortgage payments and utility bills after resolution of the crisis; and

(e) The client has exhausted all other resources.

(4) Emergency assistance is available for only 30 consecutive days during a year to any client or that client's household. If, for example, a client receives an EA payment of \$300 for rent on April 1 and requests an additional EA payment of \$200 for utilities on or before April 30 of that same year, the request for an EA payment for utilities will be considered. If the request for an additional payment for utilities is made after April 30, it cannot be considered for payment. The client will not be eligible for another EA payment until April 1 of the following year. A year is defined as 365 days following the initial date of payment of EA.

(5) Payments will not exceed \$300 per family for one month's rent payment or \$500 per family for one month's mortgage payment, and \$200 for one month's utilities payment.

R986-200-220. Mentors.

(1) The Department will recruit and train volunteers to serve as mentors for parent clients. The Department may elect to contract for the recruitment and training of the volunteers.

(2) A mentor may advocate on behalf of a parent client and help a parent client:

- (a) develop life skills;
- (b) implement an employment plan; or
- (c) obtain services and support from:
 - (i) the volunteer mentor;
 - (ii) the Department; or
 - (iii) civic organizations.

R986-200-230. Assets Counted in Determining Eligibility.

(1) All available assets, unless exempt, are counted in determining eligibility. An asset is available when the applicant or client owns it and has the ability and the legal right to sell it or dispose of it. An item is never counted as both income and an asset in the same month.

(2) The value of an asset is determined by its equity value. Equity value is the current market value less any debts still owing on the asset. Current market value is the asset's selling price on the open market as set by current standards of appraisal.

(3) Both real and personal property are considered assets. Real property is an item that is fixed, permanent, or immovable. This includes land, houses, buildings, mobile homes and trailer homes. Personal property is any item other than real property.

(4) If an asset is potentially available, but a legal impediment to making it available exists, it is exempt until it can be made available. The applicant or client must take appropriate steps to make the asset available unless:

- (a) Reasonable action would not be successful in making the asset available; or
- (b) The probable cost of making the asset available exceeds its value.

(5) The value of countable real and personal property cannot exceed \$2,000.

(6) If the household assets are below the limits on the first day of the month the household is eligible for the remainder of the month.

R986-200-231. Assets That Are Not Counted (Exempt) for Eligibility Purposes.

The following are not counted as an asset when determining eligibility for financial assistance:

(1) the home in which the family lives, and its contents, unless any single item of personal property has a value over \$1,000, then only that item is counted toward the \$2,000 limit. If the family owns more than one home, only the primary residence is exempt and the equity value of the other home is counted;

(2) the value of the lot on which the home stands is exempt if it does not exceed the average size of residential lots for the community in which it is located. The value of the property in excess of an average size lot is counted if marketable;

(3) water rights attached to the home property are exempt;

(4) a maximum of \$8,000 equity value of one vehicle. The entire equity value of one vehicle equipped to transport a disabled individual is exempt from the asset limit even if the vehicle has a value in excess of \$8,000;

(5) with the exception of real property, the value of income producing property necessary for employment;

(6) the value of any reasonable assistance received for post-secondary education;

(7) bona fide loans, including reverse equity loans;

(8) per capita payments or any asset purchased with per capita payments made to tribal members by the Secretary of the Interior or the tribe;

(9) maintenance items essential to day-to-day living;

(10) life estates;

(11) an irrevocable trust where neither the corpus nor income can be used for basic living expenses;

(12) for refugees, as defined under R986-300-303(1), assets that remain in the refugee's country of origin are not counted;

(13) one burial plot per member of the household. A burial plot is a burial space and any item related to repositories used for the remains of the deceased. This includes caskets, concrete vaults, urns, crypts, grave markers, etc. If the individual owns a grave site, the value of which includes opening and closing, the opening and closing is also exempt;

(14) a burial/funeral fund up to a maximum of \$1,500 per member of the household;

(a) The value of any irrevocable burial trust is subtracted from the \$1,500 burial/funeral fund exemption. If the irrevocable burial trust is valued at \$1,500 or more, it reduces the burial/funeral fund exemption to zero.

(b) After deducting any irrevocable burial trust, if there is still a balance in the burial/funeral fund exemption amount, the remaining exemption is reduced by the cash value of any burial contract, funeral plan, or funds set aside for burial up to a maximum of \$1,500. Any amount over \$1,500 is considered an asset;

(15) any interest which is accrued on an exempt burial contract, funeral plan, or funds set aside for burial is exempt as income or assets. If an individual removes the principal or interest and uses the money for a purpose other than the individual's burial expenses, the amount withdrawn is countable income; and

(16) any other property exempt under federal law.

R986-200-232. Considerations in Evaluating Real Property.

(1) Any nonexempt real property that an applicant or client is making a bona fide effort to sell is exempt for a nine-month period provided the applicant or client agrees to repay, from the proceeds of the sale, the amount of financial and/or child care assistance received. Bona fide effort to sell means placing the property up for sale at a price no greater than the current market value. Additionally, to qualify for this exemption, the applicant or client must assign, to the state of Utah, a lien against the real property under consideration. If the property is not sold during the period of time the client was receiving financial and/or child care assistance or if the client loses eligibility for any reason

during the nine-month period, the lien will not be released until repayment of all financial and/or child care assistance is made.

(2) Payments received on a sales contract for the sale of an exempt home are not counted if the entire proceeds are committed to replacement of the property sold within 30 days of receipt and the purchase is completed within 90 days. If more than 90 days is needed to complete the actual purchase, one 90-day extension may be granted. Proceeds are defined as all payments made on the principal of the contract. Proceeds do not include interest earned on the principal which is counted as income.

R986-200-233. Considerations in Evaluating Household Assets.

(1) The assets of a disqualified household member are counted.

(2) The assets of a ward that are controlled by a legal guardian are considered available to the ward.

(3) The assets of an ineligible child are exempt.

(4) When an ineligible alien is a parent, the assets of that alien parent are counted in determining eligibility for other family members.

(5) Certain aliens who have been legally admitted to the United States for permanent residence must have the income and assets of their sponsors considered in determining eligibility for financial assistance under applicable federal authority in accordance with R986-200-243.

R986-200-234. Income Counted in Determining Eligibility.

(1) The amount of financial assistance is based on the household's monthly income and size.

(2) Household income means the payment or receipt of countable income from any source to any member counted in the household assistance unit including:

(a) children; and

(b) people who are disqualified from being counted because of a prior determination of fraud (IPV) or because they are an ineligible alien.

(3) The income of SSI recipients is not counted.

(4) Countable income is gross income, whether earned or unearned, less allowable exclusions listed in section R986-200-239.

(5) Money is not counted as income and an asset in the same month.

(6) If an individual has elected to have a voluntary reduction or deduction taken from an entitlement to earned or unearned income, the voluntary reduction or deduction is counted as gross income. Voluntary reductions include insurance premiums, savings, and garnishments to pay an owed obligation.

R986-200-235. Unearned Income.

(1) Unearned income is income received by an individual for which the individual performs no service.

(2) Countable unearned income includes:

(a) pensions and annuities such as Railroad Retirement, Social Security, VA, Civil Service;

(b) disability benefits such as sick pay and workers' compensation payments unless considered as earned income;

(c) unemployment insurance;

(d) strike or union benefits;

(e) VA allotment;

(f) income from the GI Bill;

(g) assigned support retained in violation of statute is counted when a request to do so has been generated by ORS;

(h) payments received from trusts made for basic living expenses;

(i) payments of interest from stocks, bonds, savings, loans, insurance, a sales contract, or mortgage. This applies even if the

payments are from the sale of an exempt home. Payments made for the down payment or principal are counted as assets;

(j) inheritances;

(k) life insurance benefits;

(l) payments from an insurance company or other source for personal injury, interest, or destroyed, lost or stolen property unless the money is used to replace that property;

(m) cash contributions from any source including family, a church or other charitable organization;

(n) rental income if the rental property is managed by another individual or company for the owner. Income from rental property managed by someone in the household assistance unit is considered earned income;

(o) financial assistance payments received from another state or the Department from another type of financial assistance program including a diversion payment; and

(p) payments from Job Corps and Americorps living allowances.

(3) Unearned income which is not counted (exempt):

(a) cash gifts for special occasions which do not exceed \$30 per quarter for each person in the household assistance unit. The gift can be divided equally among all members of the household assistance unit;

(b) bona fide loans, including reverse equity loans on an exempt property. A bona fide loan means a loan which has been contracted in good faith without fraud or deceit and genuinely endorsed in writing for repayment;

(c) the value of food stamps, food donated from any source, and the value of vouchers issued under the Women Infants and Children program;

(d) any per capita payments made to individual tribal members by either the secretary of interior or the tribe are excluded. Income to tribal members derived from privately owned land is not exempt;

(e) any payments made to household members that are declared exempt under federal law;

(f) the value of governmental rent and housing subsidies, federal relocation assistance, or EA issued by the Department;

(g) money from a trust fund to provide for or reimburse the household for a specific item NOT related to basic living expenses. This includes medical expenses and educational expenses. Money from a trust fund to provide for or reimburse a household member for basic living expenses is counted;

(h) travel and training allowances and reimbursements if they are directly related to training, education, work, or volunteer activities;

(i) all unearned income in-kind. In-kind means something, such as goods or commodities, other than money;

(j) thirty dollars of the income received from rental income unless greater expenses can be proven. Expenses in excess of \$30 can be allowed for:

(i) taxes;

(ii) attorney fees expended to make the rental income available;

(iii) upkeep and repair costs necessary to maintain the current value of the property; and

(iv) interest paid on a loan or mortgage made for upkeep or repair. Payment on the principal of the loan or mortgage cannot be excluded;

(k) if meals are provided to a roomer/boarder, the value of a one-person food stamp allotment for each roomer/boarder;

(l) payments for energy assistance including H.E.A.T payments, assistance given by a supplier of home energy, and in-kind assistance given by a private non-profit agency;

(m) federal and state income tax refunds and earned income tax credit payments;

(n) payments made by the Department to reimburse the client for education or work expenses, or a CC subsidy;

(o) income of an SSI recipient. Neither the payment from

SSI nor any other income, including earned income, of an SSI recipient is included;

(p) payments from a person living in the household who is not included in the household assistance unit, as defined in R986-200-205, when the payment is intended and used for that person's share of the living expenses;

(q) educational assistance and college work study except Veterans Education Assistance intended for family members of the student, living stipends and money earned from an assistantship program is counted as income; and

(r) for a refugee, as defined in R986-300-303(1), any grant or assistance, whether cash or in-kind, received directly or indirectly under the Reception and Placement Programs of Department of State or Department of Justice.

R986-200-236. Earned Income.

(1) All earned income is counted when it is received even if it is an advance on wages, salaries or commissions.

(2) Countable earned income includes:

(a) wages, except Americorps*Vista living allowances are not counted;

(b) salaries;

(c) commissions;

(d) tips;

(e) sick pay which is paid by the employer;

(f) temporary disability insurance or temporary workers' compensation payments which are employer funded and made to an individual who remains employed during recuperation from a temporary illness or injury pending the employee's return to the job;

(g) rental income only if managerial duties are performed by the owner to receive the income. The number of hours spent performing those duties is not a factor. If the property is managed by someone other than the individual, the income is counted as unearned income;

(h) net income from self-employment less allowable expenses, including income over a period of time for which settlement is made at one given time. The periodic payment is annualized prospectively. Examples include the sale of farm crops, livestock, and poultry. A client may deduct actual, allowable expenses, or may opt to deduct 40% of the gross income from self-employment to determine net income;

(i) training incentive payments and work allowances; and

(j) earned income of dependent children.

(3) Income that is not counted as earned income:

(a) income for an SSI recipient;

(b) reimbursements from an employer for any bona fide work expense;

(c) allowances from an employer for travel and training if the allowance is directly related to the travel or training and identifiable and separate from other countable income; or

(d) Earned Income Tax Credit (EITC) payments.

R986-200-237. Lump Sum Payments.

(1) Lump sum payments are one-time windfalls or retroactive payments of earned or unearned income. Lump sums include but are not limited to, inheritances, insurance settlements, awards, winnings, gifts, and severance pay, including when a client cashes out vacation, holiday, and sick pay. They also include lump sum payments from Social Security, VA, UI, Worker's Compensation, and other one-time payments. Payments from SSA that are paid out in installments are not considered lump sum payments but as income, even if paid less often than monthly.

(2) The following lump sum payments are not counted as income or assets:

(a) any kind of lump sum payment of excluded earned or unearned income. If the income would have been excluded, the lump sum payment is also excluded. This includes SSI

payments and any EITC; and

(b) insurance settlements for destroyed exempt property when used to replace that property.

(3) The net lump sum payment is counted as income for the month it is received. Any amount remaining after the end of that month is considered an asset.

(4) The net lump sum is the portion of the lump sum that is remaining after deducting:

(a) legal fees expended in the effort to make the lump sum available;

(b) payments for past medical bills if the lump sum was intended to cover those expenses; and

(c) funeral or burial expenses, if the lump sum was intended to cover funeral or burial expenses.

(5) A lump sum paid to an SSI recipient is not counted as income or an asset except for those recipients receiving financial assistance from GA or WTE.

R986-200-238. How to Calculate Income.

(1) To determine if a client is eligible for, and the amount of, a financial assistance payment, the Department estimates the anticipated income, assets and household size for each month in the certification period.

(2) The methods used for estimating income are:

(a) income averaging or annualizing which means using a history of past income that is representative of future income and averaging it to determine anticipated future monthly income. It may be necessary to evaluate the history of past income for a full year or more; and

(b) income anticipating which means using current facts such as rate of pay and hourly wage to anticipate future monthly income when no reliable history is available.

(3) Monthly income is calculated by multiplying the average weekly income by 4.3 weeks. If a client is paid every two weeks, the income for those two weeks is multiplied by 2.15 weeks to determine monthly income.

(4) The Department's estimate of income, when based on the best available information at the time it was made, will be determined to be an accurate reflection of the client's income. If it is later determined the actual income was different than the estimate, no adjustment will be made. If the client notifies the Department of a change in circumstances affecting income, the estimated income can be adjusted prospectively but not retrospectively.

R986-200-239. How to Determine the Amount of the Financial Assistance Payment.

(1) Once the household's size and income have been determined, the gross countable income must be less than or equal to 185% of the Standard Needs Budget (SNB) for the size of the household. This is referred to as the "gross test".

(2) If the gross countable income is less than or equal to 185% of the SNB, the following deductions are allowed:

(a) a work expense allowance of \$100 for each person in the household unit who is employed;

(b) fifty percent of the remaining earned income after deducting the work expense allowance as provided in paragraph (a) of this subsection, if the individual has received a financial assistance payment from the Department for one or more of the immediately preceding four months; and

(c) after deducting the amounts in paragraphs (a) and (b) of this subsection, if appropriate, the following deductions can be made:

(i) a dependent care deduction as described in subsection (3) of this section; and

(ii) child support paid by a household member if legally owed to someone not included in the household.

(3) The amount of the dependant care deduction is set by the Department and based on the number of hours worked by

the parent and the age of the dependant needing care. It can only be deducted if the dependant care:

(a) is paid for the care of a child or adult member of the household assistance unit, or a child or adult who would be a member of the household assistance unit except that this person receives SSI. An adult's need for care must be verified by a doctor; and

(b) is not subsidized, in whole or in part, by a CC payment from the Department; and

(c) is not paid to an individual who is in the household assistance unit.

(4) After deducting the amounts allowed under paragraph (2) above, the resulting net income must be less than 100% of SNB for size of the household assistance unit. If the net income is equal to or greater than the SNB, the household is not eligible.

(5) If the net income is less than 100% of the SNB the following amounts are deducted:

(a) Fifty percent of earned countable income for all employed household assistance unit members if the household was not eligible for the 50% deduction under paragraph (2)(b) above; and/or

(b) All of the earned income of all children in the household assistance unit, if not previously deducted, who are:

(i) in school or training full-time, or

(ii) in part-time education or training if they are employed less than 100 hours per month. "Part-time education or training" means enrolled for at least one-half the number of hours or periods considered by the institution to be customary to complete the course of study within the minimum time period. If no schedule is set by the school, the course of study must be no less than an average of two class periods or two hours per day, whichever is less.

(6) The resulting net countable income is compared to the full financial assistance payment for the household size. If the net countable income is more than the financial assistance payment, the household is not eligible. If it is less, the net countable income is deducted from the financial assistance payment and the household is paid the difference.

(7) The amount of the standard financial assistance payment is set by the State Legislature and available at all Department offices.

R986-200-240. Additional Payments Available Under Certain Circumstances.

(1) Each parent eligible for financial assistance in the FEP or FEPTP programs who takes part in at least one enhanced participation activity may be eligible to receive \$40 each month in addition to the standard financial assistance payment. Enhanced participation activities are limited to:

(a) work experience sites of at least 20 hours a week and other eligible activities that together total 30 hours per week;

(b) full-time attendance in an education or employment training program; or

(c) employment of 20 hours or more a week and other eligible activities that together total 30 hours per week.

(2) An additional payment of \$15 per month for a pregnant woman in the third month prior to the expected month of delivery. Eligibility for the allowance begins in the month the woman provides medical proof that she is in the third month prior to the expected month of delivery. The pregnancy allowance ends at the end of the month the pregnancy ends.

(3) A limited number of funds are available to individuals for work and training expenses. The funds can only be used to alleviate circumstances which impede the individual's ability to begin or continue employment, job search, training, or education. The payment of these funds is completely discretionary by the Department. The individual does not need to meet any eligibility requirements to request or receive these

funds.

(4) Limited funds are available, up to a maximum of \$300, to pay for burial costs if the individual is not entitled to a burial paid for by the county.

(5) A Department Regional Director or designee may approve assistance, as funding allows, for the emergency needs of a non-resident who is transient, temporarily stranded in Utah, and who does not intend to stay in Utah.

R986-200-241. Income Eligibility Calculation for a Specified Relative Who Wants to be Included in the Assistance Payment.

(1) The income calculation for a specified relative who wants to be included in the financial assistance payment is as follows:

(a) All earned and unearned countable income is counted, as determined by FEP rules, for the specified relative and his or her spouse, less the following allowable deductions:

(i) one hundred dollars for each employed person in the household. This deduction is only allowed for the specified relative and/or spouse and not anyone else in the household even if working; and

(ii) the child care expenses paid by the specified relative and necessary for employment up to the maximum allowable deduction as set by the Department.

(2) The household size is determined by counting the specified relative, his or her spouse if living in the home, and their dependent children living in the home who are not in the household assistance unit.

(3) If the income less deductions exceeds 100% of the SNB for a household of that size, the specified relative cannot be included in the financial assistance payment. If the income is less than 100% of the SNB, the total household income is divided by the household size calculated under subsection (2) of this section. This amount is deemed available to the specified relative as countable unearned income. If that amount is less than the maximum financial assistance payment for the household assistance unit size, the specified relative may be included in the financial assistance payment.

R986-200-242. Income Calculation for a Minor Parent Living with His or Her Parent or Stepparent.

(1) All earned and unearned countable income of all parents, including stepparents living in the home, is counted when determining the eligibility of a minor parent residing in the home of the parent(s).

(2) From that income, the following deductions are allowed:

(a) one hundred dollars from income earned by each parent or stepparent living in the home, and

(b) an amount equal to 100% of the SNB for a group with the following members:

(i) the parents or stepparents living in the home;

(ii) any other person in the home who is not included in the financial assistance payment of the minor parent and who is a dependent of the parents or stepparents;

(c) amounts paid by the parents or stepparents living in the home to individuals not living at home but who could be claimed as dependents for Federal income tax purposes; and

(d) alimony and child support paid to someone outside the home by the parents or stepparents living in the home.

(3) The resulting amount is counted as unearned income to the minor parent.

(4) If a minor parent lives in a household already receiving financial assistance, the child of the minor parent is included in the larger household assistance unit.

R986-200-243. Counting the Income of Sponsors of Eligible Aliens.

(1) Certain aliens who have been legally admitted into the United States for permanent residence must have a portion of the earned and unearned countable income of their sponsors counted as unearned income in determining eligibility and financial assistance payment amounts for the alien.

(2) The following aliens are not subject to having the income of their sponsor counted:

- (a) paroled or admitted into the United States as a refugee or asylee;
- (b) granted political asylum;
- (c) admitted as a Cuban or Haitian entrant;
- (d) other conditional or paroled entrants;
- (e) not sponsored or who have sponsors that are organizations or institutions;
- (f) sponsored by persons who receive public assistance or SSI;
- (g) permanent resident aliens who were admitted as refugees and have been in the United States for eight months or less.

(3) Except as provided in subsection (7) of this section, the income of the sponsor of an alien who applies for financial assistance after April 1, 1983 and who has been legally admitted into the United States for permanent residence must be counted for five years after the entry date into the United States. The entry date is the date the alien was admitted for permanent residence. The time spent, if any, in the United States other than as a permanent resident is not considered as part of the five year period.

(4) The amount of income deemed available for the alien is calculated by:

- (a) deducting 20% from the total earned income of the sponsor and the sponsor's spouse up to a maximum of \$175 per month; then,
- (b) adding to that figure all of the monthly unearned countable income of the sponsor and the sponsor's spouse; then the following deductions are allowed:
 - (i) an amount equal to 100% of the SNB amount for the number of people living in the sponsor's household who are or could be claimed as dependents under federal income tax policy; then,
 - (ii) actual payments made to people not living in the sponsor's household whom the sponsor claims or could claim as dependents under federal income tax policy; then,
 - (iii) actual payments of alimony and/or child support the sponsor makes to individuals not living in the sponsor's household.
- (c) The remaining amount is counted as unearned income against the alien whether or not the income is actually made available to the alien.

(5) Actual payments by the sponsor to aliens will be counted as income only to the extent that the payment amount exceeds the amount of the sponsor's income already determined as countable.

(6) A sponsor can be held liable for an overpayment made to a sponsored alien if the sponsor was responsible for, or signed the documents which contained, the misinformation that resulted in the overpayment. The sponsor is not held liable for an overpayment if the alien fails to give accurate information to the Department or the sponsor is deceased, in prison, or can prove the request for information was incomplete or vague.

(7) In the case where the alien entered the United States after December 19, 1997, the sponsor's income does not count if:

- (a) the alien becomes a United States citizen through naturalization;
- (b) the alien has worked 40 qualifying quarters as determined by Social Security Administration; or
- (c) the alien or the sponsor dies.

R986-200-244. TANF Needy Family (TNF).

(1) TNF is not a program but describes a population that can be served using TANF Surplus Funds.

(2) Eligible families must have a dependent child under the age of 18 residing in the home, and the total household income must not exceed 200% of the Federal poverty level. Income is determined as gross income without allowance for disregards.

(3) Services available vary throughout the state. Information on what is available in each region is available at each Employment Center. The Department may elect to contract out services.

(4) If TANF funded payments are made for basic needs such as housing, food, clothing, shelter, or utilities, each month a payment is received under TNF, counts as one month of assistance toward the 36 month lifetime limit. Basic needs also include transportation and child care if all adults in the household are unemployed and will count toward the 36 month lifetime limit.

(5) If a member of the household has used all 36 months of FEP assistance the household is not eligible for basic needs assistance under TNF but may be eligible for other TANF funded services.

(6) Assets are not counted when determining eligibility for TNF services.

R986-200-245. TANF Non-FEP Training (TNT).

(1) TNT is to provide skills and training to parents to help them become suitably employed and self-sufficient.

(2) The client must be unable to achieve self-sufficiency without training.

(3) Eligible families must have a dependent child under the age of 18 residing in the home and the total household income must not exceed 200% of the Federal poverty level. If the only dependent child is 18 and expected to graduate from High School before their 19th birthday the family is eligible up through the month of graduation. Income is counted and calculated the same as for WIA as found in rule R986-600.

(4) Assets are not counted when determining eligibility for TNT services.

(5) The client must show need and appropriateness of training.

(6) The client must negotiate an employment plan with the Department and participate to the maximum extent possible.

(7) The Department will not pay for supportive services such as child care, transportation or living expenses under TNT. The Department can pay for books, tools, work clothes and other needs associated with training.

**R986. Workforce Services, Employment Development.
R986-400. General Assistance and Working Toward
Employment.**

**R986-400-401. Authority for General Assistance (GA) and
Applicable Rules.**

- (1) The Department provides GA financial assistance pursuant to Section 35A-3-401, et seq. as funding permits.
- (2) Rule R986-100 applies to GA.
- (3) Applicable provisions of R986-200 apply to GA except as noted in this rule.
- (4) The citizenship and alienage requirements of the Food Stamp Program apply to GA.

R986-400-402. General Provisions.

(1) GA provides temporary financial assistance to single persons and married couples who have no dependent children residing with them 50% or more of the time and who are unemployable due to a physical or mental health condition.

(2) Unemployable is defined to mean the individual is not capable of earning \$500 per month in the Utah labor market. The incapacity must be expected to last 30 days after the date of application or more.

(3) Drug addiction and/or alcoholism alone is insufficient to prove the unemployable requirement for GA as defined in Public Law 104-121.

(4) For a married couple living together only one must meet the unemployable criteria. The spouse who is employable will be required to meet the work requirements of WTE unless the spouse can provide medical proof that he or she is needed at home to care for the unemployable spouse. Medical proof, consisting of a medical statement from a medical doctor, a doctor of osteopathy, a licensed Advanced Practice Registered Nurse, a licensed Physician's Assistant, a licensed Mental Health Therapist as defined in UCA 58-60-102, or a licensed psychologist, is required. The medical statement must include all of the following:

- (a) the diagnosis of the spouse's condition;
- (b) the recommended treatment needed or being received for the condition;
- (c) the length of time the client will be required in the home to care for the spouse; and
- (d) whether the client is required to be in the home full time or part time.

(5) GA is only available to a client who is at least 18 years old or legally or factually emancipated. Factual emancipation means the client has lived independently from his or her parents or guardians and has been economically self-supporting for a period of at least twelve consecutive months, and the client's parents have refused financial support.

(6) A client claiming factual emancipation must cooperate with the Department in locating his or her parents. The parents, once located, will be contacted by the Department. If the parents continue to refuse to support the client, a referral will be made to ORS to enforce the parents' child support obligations.

(7) A person eligible for Bureau of Indian Affairs assistance is not eligible for GA financial assistance.

(8) In addition to the residency requirements in R986-100-106, residents in a group home that is administered under a contract with a governmental unit or administered by a governmental unit are not eligible for financial assistance.

(9) An individual receiving SSI is not eligible for GA. This ineligibility includes persons whose SSI is in suspense status, as defined by 20 CFR Part 416.1321 through 416.1330.

R986-400-403. Proof of Unemployability.

(1) An applicant must provide current medical evidence that he or she is not capable of working and earning \$500 per month due to a physical or mental health condition and that the condition is expected to last at least 30 days from the date of

application. Evidence consists of a statement from a medical doctor, a doctor of osteopathy, a licensed Advanced Practice Registered Nurse, a licensed Physician's Assistant, a licensed Mental Health Therapist as defined in UCA 58-60-102.

(2) An applicant must cooperate in the obtaining of a second opinion if requested by the Department. Only the costs associated with a second opinion requested by the Department will be paid for by the Department. The Department will not pay the costs associated with obtaining a second opinion if the client requests the second opinion.

(3) If the illness or incapacity is expected to last longer than 12 months, the client must apply for SSDI/SSI benefits.

(4) Full-time or part-time participation in post-high school education or training is considered evidence of employability rendering the client ineligible for GA financial assistance. If the Department believes work readiness or occupational skills enhancement opportunities will lead to employability, those services can be offered for a maximum of three months if the client is otherwise eligible.

R986-400-404. Participation Requirements.

(1) The client and spouse must participate, to the maximum extent possible, in an assessment and an employment plan as provided in R986-200. The only education or training supported by an employment plan for GA recipients is short term skills training as described in R986-400-403.

(2) The employment plan must include obtaining appropriate medical or mental health treatment, or both, to overcome the limitations preventing the client from becoming employable. The employment plan must provide that all adults age 19 and above who do not qualify for coverage under any other category of Medicaid and who are not covered by or do not have access to private health insurance, Medicare or the Veterans Administration Health Care System must enroll in the Primary Care Network (PCN) through the Department of Health. If a client cannot enroll in PCN because the Department of Health has placed a cap on PCN enrollment, the requirement will be excused during the period enrollment is impossible. The Department may, at its discretion, develop a program whereby eligible clients will be allowed to pay the enrollment fee in installments.

(3) A client must accept any and all offers of appropriate employment as determined by the Department. "Appropriate employment" means employment that pays a wage which meets or exceeds the applicable federal or state minimum wage law and has daily and weekly hours customary to the occupation. If the minimum wage laws do not apply, the wage must equal what is normally paid for similar work and in no case less than three-fourths of the minimum wage rate. The employment is not appropriate employment if the client is unable, due to physical or mental limitations, to perform the work.

(4) A client is exempt from the requirements of paragraphs (1) and (2) of this section if the client has been approved for SSI, is waiting for the first check, and has signed an "Agreement to Repay Interim Assistance" Form.

(5) A client must cooperate in obtaining any and all other sources of income to which the client may be entitled including, but not limited to UI, SSI/SSDI, VA Benefits, and Workers' Compensation.

R986-400-405. Interim Aid for SSI Applicants.

(1) A client who has applied for SSI or SSDI benefits may be provided with GA financial assistance pending a determination on the application for SSI or SSDI. If the client is applying for SSI, he or she must sign an "Agreement to Repay Interim Assistance" form and agree to reimburse, or allow SSA to reimburse, the Department for any and all GA financial assistance advanced pending a determination from SSA.

(2) Financial assistance will be immediately terminated

without advance notice when SSA issues a payment or if the client fails to cooperate to the maximum extent possible in pursuing the application which includes cooperating fully with SSA and providing all necessary documentation to insure receipt of SSI or SSDI benefits.

(3) A client must fully cooperate in prosecuting an appeal of an SSI or SSDI denial at least to the Social Security ALJ level. If the ALJ issues an unfavorable decision, the client is not eligible for financial assistance unless an unrelated physical or mental health condition develops and is verified.

R986-400-406. Failure to Comply with the Requirements of an Employment Plan.

(1) If a client fails to comply with the requirements of the employment plan without reasonable cause, financial assistance will be terminated immediately. Reasonable cause under this section means the client was prevented from participating through no fault of his or her own or failed to participate for reasons that are reasonable and compelling and may include reasons like verified illness or extraordinary transportation problems.

(2) If a client's financial assistance has been terminated under this section, the client is not eligible for further assistance as follows:

(a) the first time financial assistance is terminated, the client must reapply and participate to the maximum extent possible in all of the required activities of the employment plan;

(b) the second time financial assistance is terminated, the client will be ineligible for financial assistance for a minimum of one month and can only become eligible again upon completing a new application and participating to the maximum extent possible in the required employment activity; and

(c) the third time financial assistance is terminated, the client will be ineligible for a minimum of six months and can only become eligible again upon completing a new application and actively participating in the required employment activity.

R986-400-407. Income and Assets Limits and Amount of Assistance.

(1) The provisions of R986-200 are used for determining asset and income eligibility except;

(a) the income and assets of an SSI recipient living in the household are counted if that individual is legally responsible for the client;

(b) the total gross income of an alien's sponsor and the sponsor's spouse is counted as unearned income for the alien. If a person sponsors more than one alien, the total gross income of the sponsor and the sponsor's spouse is counted for each alien. Indigent aliens, as defined by 7 CFR 273.4(c)(3)(iv), are not exempt.

(2) The financial assistance payment level is set by the Department and available for review at all Department local offices.

R986-400-408. Time Limits.

(1) An individual cannot receive GA financial assistance for more than 24 months out of any 60-month period. Months which count toward the 24-month limit include any and all months during which any client who currently resides in the household received a full or partial financial assistance payment beginning with the month of March, 1998.

(2) There are no exceptions or extensions to the time limit.

(3) Advanced written notice for termination of GA financial assistance due to time limits is not required.

R986-400-451. Authority for Working Toward Employment (WTE) and Other Applicable Rules.

(1) The Department provides WTE financial assistance pursuant to Section 35A-3-401 et seq. as funding permits.

(2) Rule R986-100 applies to WTE.

(3) Applicable provisions of R986-200 apply to WTE except as noted in this rule.

(4) The citizenship and alienage requirements of the Food Stamp Program apply to WTE.

R986-400-452. General Provisions.

(1) Working Toward Employment (WTE) provides financial assistance on a short term basis to single persons and married couples who have no dependent children residing with them 50% or more of the time and who are unemployable because they lack employment skills.

(2) At least one household member must be at least 18 years old or legally or factually emancipated. Factual emancipation is defined in R986-400-402.

(3) As a condition of eligibility, a client claiming factual emancipation must cooperate with the Department in locating his or her parents. The parents, once located, will be contacted by the Department. If the parents continue to refuse to support the client, a referral will be made to ORS to enforce the parents' child support obligations.

(4) All clients must cooperate in obtaining any and all other benefits or sources of income to which the client may be entitled except that a client who has applied for SSI benefits is ineligible for WTE. If a client applies for SSI, WTE financial assistance is terminated.

(5) A person eligible for Bureau of Indian Affairs assistance is not eligible for WTE financial assistance.

(6) If an applicant appears to be eligible for the Refugee Resettlement Program (RRP) the applicant must comply with the requirements of RRP and will be paid out of funds for that program. If found eligible for RRP, the applicant is ineligible for WTE.

R986-400-453. Participation Requirements.

(1) All applicants and spouses must participate in an assessment and an employment plan as found in R986-200. In addition to the requirements of an employment plan as found in R986-200-210, a client must, as a condition of receipt of financial assistance, register for work and accept any and all offers of appropriate employment, as determined by the Department. Appropriate employment is defined in R986-400-404.

(2) The employment plan of each recipient of WTE financial assistance must contain the requirement that the client participate 40 hours per week in eligible activities. A list of approved eligible activities is available at each employment center. Married couples cannot share the performance requirements and each client must participate a minimum of 40 hours per week. The 40 hours must be spent in the following activities:

(a) 32 hours a week in paid employment and/or work experience and training. At least 16 hours of those 32 hours must be spent at a community work site or in paid employment. If the client is under age 25 and has not completed high school or an equivalent course of education, time spent in educational activities to obtain a high school degree or its equivalent can count toward the minimum 16-hour work requirement. Training is limited to short term skills training, job search training, or adult education; and

(b) eight hours a week participating in job search activities. The Department may reduce the number of hours spent in job search activities if it is determined the client has explored all local employment options. A reduction in the number of hours of job search will not reduce the total requirement of 40 hours of participation.

(3) Participation may be excused only if the client can show reasonable cause as defined in R986-400-406(1).

R986-400-454. Failure to Comply with the Requirements of an Employment Plan.

(1) If a client fails to comply with the requirements of the employment plan without reasonable cause as defined in R986-400-406(a), financial assistance will be terminated immediately.

(2) Advanced notice of termination is not required.

(3) If there are two clients in the household and only one client fails to comply, financial assistance for both will be terminated.

(4) Once a client or household's financial assistance has been terminated for failure to comply with the employment plan, the client is not eligible for further assistance as follows:

(a) the first time financial assistance is terminated, the client or couple must reapply and actively participate in all of the required activities of the employment plan;

(b) the second time financial assistance is terminated, the client or couple will be ineligible for financial assistance for a minimum of one month and can only become eligible again upon completing a new application and actively participating in the required employment activity;

(c) the third time financial assistance is terminated, the client will be ineligible for a minimum of six months and can only become eligible again upon completing a new application and actively participating in the required employment activity.

R986-400-455. Income and Assets Limits and Calculation of Assistance Payment.

(1) Income and asset determination and limits are the same as for FEP found in R986-200.

(2) The amount of financial assistance available for payment to a client is based on the number of hours of participation. Payment is made twice per month and only after proof of participation. The base amount of assistance is equal to the GA financial assistance payment for the household size. The base GA payment is then prorated based on the number of hours of participation for each household member, up to a maximum of 40 hours of participation per household member per week. In no event can the financial assistance payment per month for a WTE household be more than for the same size household receiving financial assistance under GA. Payment of financial assistance cannot be made for any period during which the client does not participate.

(3) The base GA financial assistance payment level is determined by the State Legislature and available upon request.

(4) Each WTE household member will receive the sum of \$45 per month regardless of number of hours the client participates. This sum is intended to be used for participation expenses.

R986-400-456. Time Limits.

(1) An individual cannot receive WTE financial assistance for more than seven months out of any 18-month period.

(2) In addition to the seven months out of any 18-month period time limit, there is a 24-month life time limit for WTE financial assistance.

(3) Months which count toward the seven month time limit and the 24-month limit include any and all months during which any client who currently resides in the household received a full or partial financial assistance payment.

(4) There are no exceptions or extensions to the time limit.

(5) If WTE financial assistance is terminated due to the time limit, advanced written notice is not required.
