

**R58. Agriculture and Food, Animal Industry.**

**R58-19. Compliance Procedures.**

**R58-19-1. Authority.**

This rule is promulgated by the Division of Animal Industry (Division), within the Department of Agriculture and Food (Department) under authority of Section 4-2-2(1)(j).

**R58-19-2. Definition of Terms.**

(A) An Emergency Order means a written action by the Division, which is issued to a person, as a result of information that is known by the Division, which identifies an immediate and significant danger to the public's health, animal health, safety or welfare, and warrants prompt action pursuant to Section 63-46b-20.

Emergency orders include: "quarantine", "seized", "Utah Inspection and Condemned", "sealed", "reject", "retain", "denatured", "detained", and "suspect", and may be issued when division action is warranted to stop the sale of a product, or halt an immediate condition or service from occurring, pursuant to Sections 4-32-7, 4-32-16, 4-32-17, 4-31-17, 4-39-107, and 9 CFR-III 303.1 through 381.207.

(B) A Citation means a lawful notice, issued by the division, which is intended to immediately remedy a violation of agricultural statutes or rules by a person, business, operator, etc. Pursuant to Section 4-2-15, a citation may include a penalty assessment, or provide for a fine to take effect within a stated time period.

**R58-19-3. Emergency Order.**

The Division may issue an emergency order when it determines that there is an immediate and significant danger to public health, animal health, safety or welfare may be issued to secure the well-being, safety, or removal of danger to state citizens. Orders are intended to protect the public from unlawful agricultural and food products and services.

When an emergency order is justified, and conditions warrant immediate action by the Division, it shall: Promptly issue a written order, that includes the following information:

- (1) name, street address, city, state, zip-code, phone-number, and title or position of the person being given the order, or name, street-address, city, state, zip-code, phone-number of the business, organization, corporation, firm, limited liability company, etc., and the name and title or position of the person in the business or organization to whom the order is given.
- (2) a brief statement of findings of fact as determined by the division,
- (3) references to statutes or administrative rules violated,
- (4) the reasons for issuance of the emergency order,
- (5) the signature of the agency representative, and
- (6) a space/line for the signature of the person (a signature is not required if the person refuses).

This order shall be written and no product, condition, or service subject to the order shall be released, except upon the subsequent written release by the department.

**R58-19-4. Citation.**

The Commissioner or persons designated by the Commissioner, may enforce this rule by the issuance of a citation for violation, in order to secure subsequent payments of fines or the imposition of penalties:

The citation will include the following information:

- (1) name, street address, city, state, zip-code, phone-number, and title or position of the person being given the order, or name, street-address, city, state, zip-code, phone-number of the business, organization, corporation, firm, limited liability company, etc., and the name and title or position of the person in the business or organization to whom the order is given.
- (2) references to the statutes or rules violated,
- (3) a brief statement to the findings of fact as determined

by the division,

- (4) a penalty or fine amount,
- (5) the signature of the agency representative,
- (6) a space or line for the signature of the person (a signature is not required if the person refuses),
- (7) a statement to the effect that a person is allowed to request an administrative hearing if the person feels that a citation was not warranted.

Fine or penalty amounts will be set by the department or the division, under the direction of the commissioner, for amounts up to \$5,000 per violation, or if the citation involves a criminal proceeding, the person may be found guilty of a class B misdemeanor. In accordance with Section 4-2-15, fine or penalty amounts shall be determined according to the following:

TABLE  
Penalty Amounts

1	Citation per violation	\$100
2	Citation per head	\$ 2
	(If not paid within 15 days, 2 times citation amount)	
	(If not paid within 30 days, 4 times citation amount)	

**R58-19-5. Request for Hearing.**

When any order or citation, as defined above, is issued, the person being charged with the violation may elect to file, within allowable time limits, a request for the department to schedule an informal Administrative Hearing in accordance with the provisions of Section 4-1-3.5.

**4-2-2(1)(j)**

**R65. Agriculture and Food, Marketing and Development.**  
**R65-8. Management of the Junior Livestock Show Appropriation.**

**R65-8-1. Authority.**

A. Promulgated under authority of Subsection 4-2-2(1)(i) for the management of the Junior Livestock Show Appropriation.

B. It is the intent of these rules to regulate the following elements:

1. Establishment of a forum to carry out the intent of these rules
2. Participation in the appropriation
3. Establishment of official show dates and entry deadlines
4. Equitable distribution of the appropriation
5. Maintenance of administrative control of the fund

**R65-8-2. Establishment of a Forum.**

A. There is established a Utah Junior Livestock Show Association to be composed of the President, or the President's representative, of each of the Junior Livestock Shows that are currently participating in the appropriation. The President of each show, or the President's representative, may vote on issues at the annual meeting.

B. The Association will hold an annual meeting to conduct the business associated with carrying out the intent of these rules. The meeting will be held at a time decided upon by the officers.

C. The Association will conduct an election during even numbered years to elect a Vice-President and Secretary. The Vice-President will succeed the President on even numbered years. The Treasurer function will be carried out by the Commissioner's designated liaison to the Association as contained in R65-8-6.

D. The President of each participating show, or the President's representative, will attend the annual meeting or submit a written explanation for non-attendance to the President of the Association.

E. Representatives from at least one-third of the member shows will constitute a quorum for conducting business at the annual meeting.

F. Membership dues will be set by the officers of the Association, but may not exceed \$25.00 per year, payable at the annual meeting. Allocations from the show fund may not be used to pay dues.

**R65-8-3. Participation in the Appropriation.**

A. Junior Livestock Shows which are not currently participating in the appropriation but who would like to participate must submit a request in writing to the President of the Association. This request will be acted on at the next annual meeting.

B. Any resident of the state who is a 4-H or FFA member and who meets the age requirements of the specific show must be allowed to participate in any show receiving funds under the terms of these rules.

**R65-8-4. Establishment of Official Show Dates and Entry Deadlines.**

A. By November 15 of each year, each show will submit, on an official form provided, all entrance requirements, including show dates, entry deadlines, and livestock ownership requirements. These documents will be filed with the Secretary for compilation into an official notice of show dates, entry deadlines and ownership requirements for distribution to the members.

**R65-8-5. Equitable Distribution of Appropriation.**

A. The association will be responsible for developing and maintaining an official formula for distribution of the

appropriation. This formula will be filed with the Treasurer for general review, and will be used to develop the allotment for each show.

**R65-8-6. Maintenance of Administrative Control of the Fund.**

A. The Commissioner will designate a department employee as liaison to the Association. This designee will act as Association Treasurer and will insure, on behalf of the Commissioner, that the fund is being managed according to Legislative intent.

**R68. Agriculture and Food, Plant Industry.****R68-15. Quarantine Pertaining to Japanese Beetle, (*Popillia Japonica*).****R68-15-1. Authority.**

A. Promulgated under authority of Subsection 4-2-2-(1)(j) and 4-2-2(1)(l)(ii).

B. Refer to the Notice of Quarantine, Japanese Beetle, (*Popillia Japonica*), Effective January 4, 1993, issued by Utah Department of Agriculture and Food.

**R68-15-2. Pest.**

Japanese beetle, *Popillia japonica*, a beetle, family Scarabaeidae, which in the larval state attacks the roots of many plants and as an adult attacks the leaves and fruits of many plants.

**R68-15-3. Areas Under Quarantine.**

A. The following states have been placed under a general quarantine to prohibit the entry of Japanese Beetle into Utah through the sale of plants and plant products: the entire states of Alabama, Colorado, Connecticut, Delaware, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia.

B. The same general quarantine shall apply to the following states in provinces of Canada:

1. In the Province of Ontario: Lincoln, Welland, and Wentworth.

2. In the Province of Quebec: Missiquoi and St. Jean.

C. Any areas not mentioned above where Japanese Beetle has been found or known to occur, shall also be placed under this same general quarantine.

**R68-15-4. Articles and Commodities Under Quarantine.**

A. The following are hereby declared to be hosts and possible carriers of all stages of the Japanese beetle:

1. Soil, humus, compost and manure (except when commercially packaged and treated);

2. All plants with roots (except bareroot plants free from soil).

3. Grass Sod;

4. Plant crowns or roots for propagation (except when free from soil);

5. Bulbs, corms, tubers, and rhizomes of ornamental plants (except when free from soil);

6. Any other plant, plant part, article, or means of conveyance when it is determined by a Utah State Plant Quarantine Officer to present a hazard of spreading live Japanese beetle due to infestation or exposure to infestation by Japanese beetle.

B. Packing material added to bareroot plants after harvesting would not normally pose a pest risk. Packing material would be covered under (6) above, at the inspector's discretion.

C. Free From Soil - For the purposes of this quarantine, free from soil is defined as soil in amounts that could not contain concealed Japanese beetle larvae or pupae.

**R68-15-5. Restrictions.**

All commodities covered are prohibited entry into Utah from the area under quarantine unless they have the required certification. Plants may be shipped from the area under quarantine into Utah provided such shipments conform to one of the options below and are accompanied by a certificate issued by an authorized state agricultural official at origin. Note that not all protocols approved in the U.S. Domestic Japanese Beetle

Harmonization Plan are acceptable for Utah. Advance notification of regulated commodity shipment is required. The certificate shall bear the name and address of the shipper and receiver as well as the inspection/certificate date and the signature of state agricultural officer. The certifying official shall mail, FAX or e-mail a copy of the certificate to Director, Plant Industry Division, Utah Department of Agriculture and Food, 350 North Redwood Road, P.O. Box 146500, Salt Lake City, Utah 84114-6500, FAX: (801) 538-7189, e-mail: UDAF-Nursery@utah.gov. The shipper shall notify the receiver to hold such commodities for inspection by the Utah Department of Agriculture and Food. The receiver must notify the Utah Department of Agriculture and Food of the arrival of commodities imported under the provisions of this quarantine and must hold such commodities for inspection. Such certificates shall be issued only if the shipment conforms fully with (a), (b), (c), (d) or (e) below:

(a) Production in an Approved Japanese Beetle Free Greenhouse/Screenhouse. All the following criteria apply: All media must be sterilized and free of soil; All stock must be free of soil (bareroot) before planting into the approved medium; The potted plants must be maintained within the greenhouse/screenhouse during the entire adult flight period; During the adult flight period the greenhouse/screenhouse must be made secure so that adult Japanese beetles cannot gain entry. Security will be documented by the appropriate phytosanitary officials of the origin state department of agriculture and must be specifically approved as a secure area. They shall be inspected by the same officials for the presence of all life stages of the Japanese beetle; The plants and their growing medium must be appropriately protected from subsequent infestation while being stored, packed and shipped; Certified greenhouse/screenhouse nursery stock may not be transported into or through any infested areas unless identity is preserved and adequate safeguards are applied to prevent possible infestation; Each greenhouse/screenhouse operation must be approved by the phytosanitary officials as having met and maintained the above criteria, and issued an appropriate certificate bearing the following declaration: "The rooted plants (or crowns) were produced in an approved Japanese beetle free greenhouse or screenhouse." The certificate accompanying the shipment must have the same statement as an additional declaration.

(b) Production During a Pest Free Window. The entire rooted plant production cycle will be completed within a pest free window, in clean containers with sterilized and soilless growing medium, i.e., planting, growth, harvest, and shipment will occur outside the adult Japanese beetle flight period, June through October. The accompanying phytosanitary certificate shall bear the following additional declaration: "These plants were produced outside the Japanese beetle flight season."

(c) Applications of Approved Regulatory Treatments. All treatments will be performed under direct supervision of a phytosanitary official of the origin state department of agriculture or under a compliance agreement thereof. Treatments and procedures under a compliance agreement will be monitored closely throughout the season. State phytosanitary certificates listing and verifying the treatment used must be forwarded to the receiving state via fax or electronic mail, as well as accompanying the shipment. Note that not all treatments approved in the U.S. Domestic Japanese Beetle Harmonization Plan are acceptable for Utah. The phytosanitary certificate shall bear the following additional declaration: "The rooted plants were treated to control "*Popillia japonica*" according to the criteria for shipment to category 1 states as provided in the U.S. Domestic Japanese Beetle Harmonization Plan and Utah Japanese Beetle Quarantine."

(A) Dip Treatment - B and B and Container Plants. Not approved.

(B) Drench Treatments - Container Plants Only. Not approved for ornamental grasses or sedges. Potting media used must be sterile and soilless, containers must be clean. Field potted plants are not eligible for certification using this protocol. This is a prophylactic treatment protocol targeting eggs and early first instar larvae. If the containers are exposed to a second flight season they must be retreated.

(1) Imidacloprid (Marathon 60WP). Apply one-half (0.5) gram of active ingredient per gallon as a prophylactic treatment just prior to Japanese beetle adult flight season (June 1, or as otherwise determined by the phytosanitary official). Apply tank mix as a drench to wet the entire surface of the potting media. A twenty-four (24) gallon tank mix should be enough to treat 120-140 one-gallon containers. Avoid over drenching so as not to waste active ingredient through leaching. During the adult flight season, plants must be retreated after sixteen (16) weeks if not shipped to assure adequate protection.

(2) Bifenthrin (Talstar Nursery Flowable 7.9%). Mix at the rate of twenty (20) ounces per 100 gallons of water. Apply, as a drench, approximately eight (8) ounces of tank mix per six (6) inches of container diameter.

(C) Media (Granule) Incorporation - Container Plants Only. All pesticides used for media incorporation must be mixed prior to potting and plants potted a minimum of thirty (30) days prior to shipment. Potting media used must be sterile and soilless; containers must be clean. The granules must be incorporated into the media prior to potting. Field potted plants are not eligible for treatment. This treatment protocol targets eggs and early first instar larvae and allows for certification of plants that have been exposed to only one flight season after application. If the containers are to be exposed to a second flight season they must be repotted with a granule incorporated mix or retreated using one of the approved drench treatments. Pesticides approved for media incorporation are:

(1) Imidacloprid (Marathon 1G). Mix at the rate of five (5) pounds per cubic yard.

(2) Bifenthrin (Talstar Nursery Granular or Talstar T and O Granular (0.2)). Mix at the rate of 25 ppm or one-third (0.33) of a pound per cubic yard based on a potting media bulk density of 200.

(3) Tefluthrin (Fireban 1.5 G). Mix at the rate of 25 ppm based on a potting media bulk density of 400.

(D) Methyl Bromide Fumigation. Nursery stock: methyl bromide fumigation at NAP, chamber or tarpaulin. See the California Commodity Treatment Manual for authorized schedules.

(E) Other treatment or protocol not described herein may be submitted for review and approval to the Commissioner of Utah Department of Agriculture and Food.

(d) Detection Survey for Origin Certification. Japanese Beetle Harmonization Plan protocol not approved. Alternative approved protocol: States listed in the area under quarantine may have counties that are not infested with Japanese beetle. Shipments of commodities covered may be accepted from these noninfested counties if annual surveys are made in such counties and adjacent counties and the results of such surveys are negative for Japanese beetle. In addition, the plants must be greenhouse grown or contained in media that is sterilized and free of soil and the shipping nursery must grow all their own stock from seed, unrooted cuttings or bareroot material. A list of counties so approved will be maintained by the Utah Department of Agriculture and Food. Agricultural officials from a quarantined state or province may recommend a noninfested county be placed on the approved county list by writing for such approval and stating how surveys were conducted giving the following information:

- (A) Areas surveyed
- (B) How survey was carried out
- (C) Number of traps

(D) Results of survey

(E) History of survey

If a county was previously infested, give date of last infestation. If infestations occur in neighboring counties, approval may be denied. To be maintained on the approved list, each county must be reappraised every twelve (12) months. Shipments of commodities covered from noninfested counties will only be allowed entry into Utah if the uninfested county has been placed on the approved list prior to the arrival of the shipment in Utah. The certificate must have the following additional declaration: " The plants in this consignment were produced in (name of county), state of (name of state of origin) that is known to be free of Japanese beetle.

(e) Privately owned house plants obviously grown, or certified at the place of origin as having been grown indoors without exposure to Japanese beetle may be allowed entry into this state without meeting the requirements of section (4). Contact the Utah Department of Agriculture and Food for requirements: Director, Plant Industry Division, Utah Department of Agriculture and Food, 350 North Redwood Road, P.O. Box 146500, Salt Lake City, Utah 84114-6500, FAX: (801) 538-7189, e-mail: agmain.dwilson @state.ut.us.

#### **R68-15-6. Disposition of Violations.**

Any or all shipments or lots of quarantined articles or commodities listed in R68-15-4 above arriving in Utah in violation of this quarantine shall immediately be sent out of the state, destroyed, or treated by a method and in a manner as directed by the Commissioner of the Utah Department of Agriculture and Food or his agent. Treatment shall be performed at the expense of the owner, or owners, or their duly authorized agent.

4. New York: Erie and Niagara counties.
5. Ohio: Ashland, Ashtabula, cuyahoga, Geauga, Huron, Lake, Lorain, Mahoning, Medina, Portage, Richland, Summit, Trumbull, and Wayne counties.
6. Pennsylvania: Crawford, Erie, and Lawrence counties.

B. Any areas not mentioned above and subsequently found to be infested.

**R68-16-4. Articles and Commodities Under Quarantine.**

The following are hereby declared to be regulated articles, hosts, and possible carriers of the Pine Shoot Beetle:

- A. The Pine Shoot Beetle, *Tomicus piniperda* (Linnaeus), in any living stage of development.
- B. Plants of the genus *Pinus* spp. whether balled and burlapped or cut live for use as Christmas trees.
- C. Timber or whole log forms of the genus *Pinus* spp., *Abies* spp., *Larix* spp., and *Picea* spp. with bark intact.
- D. Ornamental foliage from the genus *Pinus* spp.
- E. Any other plant, plant part, article, or means of conveyance when it is determined by the Commissioner of the Department of Agriculture and Food or the Commissioner's duly authorized agent to present a hazard of spreading live Pine Shoot Beetle due to infestation or exposure to infestation by Pine Shoot Beetle.

**R68-16-5. Restrictions.**

A. All articles and commodities under quarantine are prohibited entry into Utah from an area under quarantine with the following exceptions:

1. From uninfested areas of the states listed in R68-16-3 when accompanied by a certificate of origin stating the origin of the material and that the plant material originated from an area not known to be infested with the Pine Shoot Beetle.
2. Regulated logs and lumber may be permitted entry only when such articles are certified by an authorized state or federal inspector to have been fumigated in accordance with the following schedule: Logs and lumber may be treated with methyl bromide at normal atmospheric pressure with 48 g/m<sup>3</sup> (3 lbs/1000 ft.<sup>3</sup>) for 16 hours at 21 C (70 F), or above, or 80 g/m<sup>3</sup> (5 lb./1000 ft. 3) for 16 hours at 4.5 -22.5 C (40 -69 F). Additionally, such treated articles shall be protected from reinfestation prior to shipping and an official fumigation

certificate signed by or bearing a facsimile signature of the authorized agricultural inspection official of the state of origin shall accompany each load or lot of regulated articles so fumigated. Such certificate shall include, but not be limited to the following information: Verification that the articles were fumigated, the date, the exact location or place of fumigation and the dosage of the fumigant used.

**R68-16-6. Disposition of Violations.**

Any or all shipments or lots of quarantined articles or commodities listed in R68-16-4, arriving in Utah in violation of this quarantine shall immediately be sent out of the state, destroyed, or treated by a method and in a manner as directed by the Commissioner of the Utah Department of Agriculture and Food or his agent. **R68. Agriculture and Food, Plant Industry.****R68-19. Compliance Procedures.****R68-19-1. Authority.**

This rule is promulgated by the Division of Plant Industry (Division), within the Department of Agriculture and Food (Department) under authority of Section 4-2-2(1)(j).

**R68-19-2. Definition of Terms.**

(A) An Emergency Order means a written action by the division, which is issued to a person, as a result of information that is known by the division, which identifies an immediate and significant danger to the public's health, safety or welfare, and warrants prompt action pursuant to Section 63-46b-20.

Emergency orders include: "stop sale", "stop use", "removal-order", "quarantine ", "regulate-control order", and may be issued when division action is warranted to stop the sale of a product, or halt an immediate condition or service from occurring, pursuant to Sections 4-11-12, 4-12-7(2), 4-13-8(1), 4-14-8(2), 4-15-11(1), 4-16-8(1), and 4-17-3(8).

(B) A Citation means a lawful notice, issued by the division, which is intended to immediately remedy a violation of agricultural statutes or rules by a person, business, operator, etc. Pursuant to Section 4-2-15, a citation may include a penalty assessment, or provide for a fine to take effect within a stated time period.

**R68-19-3. Emergency Order.**

The division may issue an emergency order when it determines that there is an immediate and significant danger to public health, safety or welfare, and may be issued to secure the well-being, safety, or removal of danger to state citizens. Orders are intended to protect the public from unlawful agricultural and food products and services.

When an emergency order is justified, and conditions warrant immediate action by the division, it shall: Promptly issue a written order, that includes the following information:

(1) name, street address, city, state, zip-code, phone-number, and title or position of the person being given the order, or name, street-address, city, state, zip-code, phone-number of the business, organization, corporation, firm, limited liability company, etc., and the name and title or position of the person in the business or organization to whom the order is given.

(2) a brief statement of findings of fact as determined by the division,

(3) references to statutes or administrative rules violated,

(4) the reasons for issuance of the emergency order,

(5) the signature of the agency representative, and

(6) a space/line for the signature of the person (a signature is not required if the person refuses)

The order shall be written and no product, condition, or service subject to the order shall be released, except upon the subsequent written release by the department.

Pursuant to 4-11-11(3), 4-12-7(2), 4-13-8(2), 4-14-8(2), 4-15-8(2) and 4-17-8(2) the person subject to the written order may be required to pay the expense incurred by the department in connection with the withdrawal of the product, condition or service from the market.

**R68-19-4. Citation.**

The commissioner or persons designated by the commissioner, may enforce this rule by the issuance of a citation for violation, in order to secure subsequent payments of fines or the imposition of penalties:

The citation will include the following information:

(1) name, street address, city, state, zip-code, phone-number, and title or position of the person being given the order, or name, street-address, city, state, zip-code, phone-number of the business, organization, corporation, firm, limited liability company, etc., and the name and title or position of the person

in the business or organization to whom the order is given.

(2) references to the statutes or rules violated,

(3) a brief statement of findings of fact as determined by the division,

(6) a space/line for the signature of the person (a signature is not required if the person refuses).

This order shall be written and no product, condition, or service subject to the order shall be released, except upon the subsequent written release by the department.

**R70-201-4. Citation.**

The Commissioner or persons designated by the Commissioner, may enforce this rule by the issuance of a citation for violation, in order to secure subsequent payments of fines or the imposition of penalties:

The citation will include the following information:

(1) name, street address, city, state, zip-code, phone-number, and title or position of the person being given the order, or name, street-address, city, state, zip-code, phone-number of the business, organization, corporation, firm, limited liability company, etc., and the name and title or position of the person in the business or organization to whom the order is given.

(2) references to the statutes or rules violated,

(3) a brief statement to the findings of fact as determined

by the division,

(4) a penalty or fine amount,

(5) the signature of the agency representative,

(6) a space or line for the signature of the person (a signature is not required if the person refuses),

(7) a statement to the effect that a person is allowed to request an administrative hearing if the person feels that a citation was not warranted.

Fine or penalty amounts will be set by the department or the division, under the direction of the commissioner, for amounts up to \$5,000 per violation, or if the citation involves a criminal proceeding, the person may be found guilty of a class B misdemeanor. In accordance with Section 4-2-15, fine or penalty amounts shall be determined according to the following: PENALTY AMOUNTS: Citation per violation up to, but not to exceed \$500; if not paid within 15 days, 2 times citation amount; if not paid within 30 days, 4 times citation amount.

**R70-201-5. Request for Hearing.**

When any order or citation, as defined above, is issued, the person being charged with the violation may elect to file, within allowable time limits, a request for the department to schedule an informal Administrative Hearing in accordance with the provisions of Section 4-1-3.5.

**R81-1-3. General Policies.**

(1) Official State Label.

Pursuant to Section 32A-1-109(6)(m), the department shall affix an official state label to every container of liquor that is at least 187 ml sold in the state, and to every box containing containers of liquor under 187 ml in size. Removal of the label is prohibited.

(2) Labeling.

No licensee or permittee shall sell or deliver any alcoholic beverage in containers not marked, branded or labeled in conformity with regulations enacted by the agencies of the United States government pertaining to labeling and advertising.

(3) Manner of Paying Fees.

Payment of all fees for licenses or permits, or renewals thereof, shall be made in legal tender of the United States of America, certified check, bank draft, cashier's check, United States post office money order, or personal check.

(4) Copy of Commission Rules.

Copies of the commission rules shall be available at the department's office, 1625 South 900 West, P. O. Box 30408, Salt Lake City, Utah 84130-0408 for an administrative cost of \$20 per copy, or on the department's website at <http://www.abc.utah.gov>.

(5) Interest Assessment on Delinquent Accounts.

The department may assess the legal rate of interest provided in Sections 15-1-1 through -4 for any debt or obligation owed to the department by a licensee, permittee, package agent, or any other person.

(6) Returned Checks.

The department will assess a \$20 charge for any check payable to the department returned for the following reasons:

- Insufficient Funds;
- Refer to Maker; and
- Account Closed.

Receipt of a check payable to the department which is returned by the bank for any of these reasons may result in the immediate suspension of the license, permit, or operation of the package agency of the person tendering the check until legal tender of the United States of America, certified check, bank draft, cashier's check, or United States post office money order is received at the department offices, 1625 South 900 West, Salt Lake City, Utah, plus the \$20 returned check charge. Failure to make good the returned check and pay the \$20 returned check charge within thirty days after the license, permit, or operation of the package agency is suspended, is grounds for revocation of the license or permit, or termination of the package agency

contract, and the forfeiture of the licensee's, permittee's, or package agent's bond.

(7) Disposition of unsaleable merchandise.

The department, after determining that certain alcoholic products are distressed or unsaleable, but consumable, may make those alcoholic products available to the Utah Department of Public Safety for education or training purposes.

All merchandise made available to the Utah Department of Public Safety must be accounted for as directed by the Department of Alcoholic Beverage Control.

**R81-1-4. Employees.**

The department is an Equal Opportunity Employer.

**R81-1-5. Notice of Public Hearings and Meetings.**

Notice of all department meetings and public hearings, other than disciplinary hearings, shall be done in the following manner:

(1) The public notice shall specify the date, time, agenda, and location of each hearing or meeting.

(2) In the case of public meetings, notice shall be made as provided in Section 52-4-6.

(3) In the case of hearings, other than disciplinary hearings, public notice shall be made not less than ten days prior to the hearing.

(4) The procedure for posting public notice and the definition of public meeting for purposes of these rules, shall be the same as provided in Section 52-4-6.

**R81-1-6. Violation Schedule.**

(1) Authority. This rule is pursuant to Sections 32A-1-107(1)(c)(i), 32A-1-107(1)(e), 32A-1-107(4)(b), 32A-1-119(5), (6) and (7). These provisions authorize the commission to establish criteria and procedures for imposing sanctions against licensees and permittees and their officers, employees and agents who violate statutes and commission rules relating to alcoholic beverages. For purposes of this rule, holders of certificates of approval are also considered licensees. The commission may revoke or suspend the licenses or permits, and may impose a fine against a licensee or permittee in addition to or in lieu of a suspension. The commission also may impose a fine against an officer, employee or agent of a licensee or permittee. Violations are adjudicated under procedures contained in Section 32A-1-119 and disciplinary hearing Section R81-1-7.

(2) General Purpose. This rule establishes a schedule setting forth a range of penalties which may be imposed by the commission for violations of the alcoholic beverage laws. It shall be used by department decision officers in processing violations, and by presiding officers in charging violations, in assisting parties in settlement negotiations, and in recommending penalties for violations. The schedule shall be used by the commission in rendering its final decisions as to appropriate penalties for violations.

(3) Application of Rule.

(a) This rule governs violations committed by all commission licensees and permittees and their officers, employees and agents except single event permittees. Violations by single event permittees and their employees and agents are processed under Section 32A-7-106.

(b) This rule does not apply to situations where a licensee or permittee fails to maintain the minimum qualifications provided by law for holding a license or permit. These might include failure to maintain a bond or insurance, or a conviction for a criminal offense that disqualifies the licensee or permittee from holding the license or permit. These are fundamental licensing and permitting requirements and failure to maintain them may result in immediate suspension or forfeiture of the license or permit. Thus, they are not processed in accordance

with the Administrative Procedures Act, Title 63, Chapter 46b or Section R81-1-7. They are administered by issuance of an order to show cause requiring the licensee or permittee to provide the commission with proof of qualification to maintain their license or permit.

(c) If a licensee or permittee has not received a letter of admonishment, as defined in Sections R81-1-2 and R81-1-7(2)(b), or been found by the commission to be in violation of Utah statutes or commission rules for a period of 36 consecutive months, its violation record shall be expunged for purposes of determining future penalties sought. The expungement period shall run from the date the last offense was finally adjudicated by the commission.

(d) In addition to the penalty classifications contained in this rule, the commission may:

(i) upon revocation of a license or permit, take action to forfeit the bond of any licensee or permittee;

(ii) prohibit an officer, employee or agent of a licensee or permittee from serving, selling, distributing, manufacturing, wholesaling, warehousing, or handling alcoholic beverages in the course of employment with any commission licensee or permittee for a period determined by the commission;

(iii) order the removal of a manufacturer's, supplier's or importer's products from the department's sales list and a suspension of the department's purchase of those products for a period determined by the commission if the manufacturer, supplier, or importer directly committed the violation, or solicited, requested, commanded encouraged, or intentionally aided another to engage in the violation.

(iv) require a licensee to have a written responsible alcohol service plan as provided in R81-1-24.

(e) When the commission imposes a fine or administrative costs, it shall establish a date on which the payment is due. Failure of a licensee or permittee or its officer, employee or agent to make payment on or before that date shall result in the immediate suspension of the license or permit or the suspension of the employment of the officer, employee or agent to serve, sell, distribute, manufacture, wholesale, warehouse or handle alcoholic beverages with any licensee or permittee until payment is made. Failure of a licensee or permittee to pay a fine or administrative costs within 30 days of the initial date established by the commission shall result in the issuance of an order to show cause why the license or permit should not be revoked and the licensee's or permittee's compliance bond forfeited. The commission shall consider the order to show cause at its next regularly scheduled meeting.

(f) Violations of any local ordinance are handled by each individual local jurisdiction.

(4) Penalty Schedule. The department and commission shall follow these penalty range guidelines:

(a) Minor Violations. Violations of this category are lesser in nature and relate to basic compliance with the laws and rules. If not corrected, they are sufficient cause for action. Penalty range: Verbal warning from law enforcement or department compliance officer(s) to revocation of the license or permit and/or up to a \$25,000 fine. A record of any letter of admonishment shall be included in the licensee's or permittee's and the officer's, employee's or agent's violation file at the department to establish a violation history.

(i) First occurrence involving a minor violation: the penalty shall range from a verbal warning from law enforcement or department compliance officer(s), which is documented to a letter of admonishment to the licensee or permittee and the officer, employee or agent involved. Law enforcement or department compliance officer(s) shall notify management of the licensee or permittee when verbal warnings are given.

(ii) Second occurrence of the same type of minor violation: a written investigation report from law enforcement or department compliance officer(s) shall be forwarded to the

department. The penalty shall range from a \$100 to \$500 fine for the licensee or permittee, and a letter of admonishment to a \$25 fine for the officer, employee or agent.

(iii) Third occurrence of the same type of minor violation: a one to five day suspension of the license or permit and employment of the officer, employee or agent, and/or a \$200 to \$500 fine for the licensee or permittee and up to a \$50 fine for the officer, employee or agent.

(iv) More than three minor violations regardless of type: a six day suspension to revocation of the license or permit and a six to ten day suspension of the employment of the officer, employee or agent, and/or a \$500 to \$25,000 fine for the licensee or permittee and up to a \$75 fine for the officer, employee or agent.

(v) If more than one violation is charged during the same investigation, the penalty shall be the sum of the days of suspension and/or the monetary penalties for each of the charges in their respective categories. If other minor violations are discovered during the same investigation, a verbal warning shall be given for each violation on a first occurrence. If the same type of violation is reported more than once during the same investigation, the violations shall be charged as a single occurrence.

(b) Moderate Violations. Violations of this category demonstrate a general disregard for the laws or rules. Although the gravity of the acts are not viewed in the same light as in the serious and grave categories, they are still sufficient cause for action. Penalty range: Written investigation report from law enforcement or department compliance officer(s) shall be forwarded to the department on the first occurrence. The penalty shall range from a letter of admonishment to revocation of the license or permit and/or up to a \$25,000 fine.

(i) First occurrence involving a moderate violation: a written investigation report from law enforcement or department compliance officer(s) shall be forwarded to the department. The penalty shall range from a letter of admonishment to a \$1000 fine for the licensee or permittee, and a letter of admonishment to a \$50 fine for the officer, employee or agent.

(ii) Second occurrence of the same type of moderate violation: a three to ten day suspension of the license or permit and a three to ten day suspension of the employment of the officer, employee or agent, and/or a \$500 to \$1000 fine for the licensee or permittee and up to a \$75 fine for the officer, employee or agent.

(iii) Third occurrence of the same type of moderate violation: a ten to 20 day suspension of the license or permit and a ten to 20 day suspension of the employment of the officer, employee or agent, and/or a \$1000 to \$2000 fine for the licensee or permittee and up to a \$100 fine for the officer, employee or agent.

(iv) More than three moderate violations regardless of type: a 15 day suspension to revocation of the license or permit and a 15 to 30 day suspension of the employment of the officer, employee or agent, and/or a \$2000 to \$25,000 fine for the licensee or permittee and up to a \$150 fine for the officer, employee or agent.

(v) If more than one violation is charged during the same investigation, the penalty shall be the sum of the days of suspension and/or the sum of the monetary penalties for each of the charges in their respective categories.

(vi) If the same type of violation is reported more than once during the same investigation, the violations shall be charged as a single occurrence.

(c) Serious Violations. Violations of this category directly or indirectly affect or potentially affect the public safety, health and welfare, and involve minors. Penalty range: Written investigation report from law enforcement or department compliance officer(s) shall be forwarded to the department on the first occurrence. The penalty shall range from a five day

suspension to revocation of the license or permit and/or up to a \$25,000 fine.

(i) First occurrence involving a serious violation: written investigation report from law enforcement or department compliance officer(s) shall be forwarded to the department. The penalty shall range from a five to 30 day suspension of the license or permit and a five to 30 day suspension of the employment of the officer, employee or agent, and/or a \$500 to \$3000 fine for the licensee or permittee and up to a \$100 fine for the officer, employee or agent.

(ii) Second occurrence of the same type of serious violation: a ten to 90 day suspension of the license or permit and a ten to 90 day suspension of the employment of the officer, employee or agent, and/or a \$1000 to \$9000 fine for the licensee or permittee and up to a \$150 fine for the officer, employee or agent.

(iii) More than two occurrences of any type of serious violation: a 15 day suspension to revocation of the license or permit and a 15 to 120 day suspension of the employment of the officer, employee or agent, and/or a \$9000 to \$25,000 fine for the licensee or permittee and up to a \$500 fine for the officer, employee or agent.

(iv) If more than one violation is charged during the same investigation, the penalty shall be the sum of the days of suspension and/or the sum of the monetary penalties for each of the charges in their respective categories.

(v) If the same type of violation is reported more than once during the same investigation, the violations shall be charged as a single occurrence.

(d) Grave Violations. Violations of this category pose or potentially pose, a grave risk to public safety, health and welfare, or may involve lewd acts prohibited by title 32A, fraud, deceit, willful concealment or misrepresentation of the facts, exclusion of competitors' products, unlawful tied house trade practices, commercial bribery, interfering or refusing to cooperate with authorized officials in the discharge of their duties, unlawful importations, or industry supplying liquor to persons other than the department and military installations. Penalty range: Written investigation report from law enforcement or department compliance officer(s) shall be forwarded to the department on the first occurrence. The penalty shall range from a ten day suspension to revocation of the license or permit and/or up to a \$25,000 fine.

(i) First occurrence involving a grave violation: written investigation report from law enforcement or department compliance officer(s) shall be forwarded to the department. The penalty shall range from a ten day suspension to revocation of the license or permit and a 10 to 120 day suspension of the employment of the officer, employee or agent, and/or a \$1000 to \$25,000 fine for the licensee or permittee and up to a \$300 fine for the officer, employee or agent.

(ii) More than one occurrence of any type of grave violation: a fifteen day suspension to revocation of the license or permit, and a 15 to 180 day suspension of the employment of the officer, employee or agent and/or a \$3000 to \$25,000 fine for the licensee or permittee and up to a \$500 fine for the officer, employee or agent.

(iii) If more than one violation is charged during the same investigation, the penalty shall be the sum of the days of suspension and/or the sum of the monetary penalties for each of the charges in their respective categories.

(iv) If the same type of violation is reported more than once during the same investigation, the violations shall be charged as a single occurrence.

A violation grid describing each violation of the alcoholic beverage control laws, the statutory and rule reference, and the degree of seriousness of each violation is available for public inspection in the department's administrative office. A copy will be provided upon request at reproduction cost. It is entitled "Alcoholic Beverage Control Commission Violation Grid" and is incorporated by reference as part of this rule.

**R81-1-7. Disciplinary Hearings.**

(1) General Provisions.

(a) This rule is promulgated pursuant to Section 32A-1-107(1)(c)(i) and shall govern the procedure for disciplinary actions under the jurisdiction of the commission. Package agencies are expressly excluded from the provisions of this rule, and are governed by the terms of the package agency contract.

(b) Liberal Construction. Provisions of this rule shall be liberally construed to secure just, speedy and economical determination of all issues presented in any disciplinary action.

(c) Emergency Adjudication Proceedings. The department or commission may issue an order on an emergency basis without complying with the Utah Administrative Procedures Act in accordance with the procedures outlined in Section 63-46b-20.

(d) Utah Administrative Procedures Act. Proceedings under this rule shall be in accordance with Title 63, Chapter 46b, Utah Administrative Procedures Act (UAPA), and Sections 32A-1-119 and -120.

(e) Penalties.

(i) This rule shall govern the imposition of any penalty against a commission licensee, permittee, or certificate of approval holder, an officer, employee or agent of a licensee, permittee, or certificate of approval holder, and a manufacturer, supplier or importer whose products are listed in this state.

(ii) Penalties may include a letter of admonishment, imposition of a fine, the suspension or revocation of a commission license, permit, or certificate of approval, the requirement that a licensee have a written responsible alcohol service plan as provided in R81-1-24, the assessment of costs of action, an order prohibiting an officer, employee or agent of a licensee, permittee, or certificate of approval holder, from serving, selling, distributing, manufacturing, wholesaling, warehousing, or handling alcoholic beverages in the course of employment with any commission licensee, permittee, or certificate of approval holder for a period determined by the commission, the forfeiture of bonds, an order removing a manufacturer's, supplier's or importer's products from the department's sales list and a suspension of the department's purchase of those products for a period determined by the commission, and an order removing the products of a certificate of approval holder from the state approved sales list, and a suspension of the purchase of the products in the state.

(iii) Department administrative costs are the hourly pay rate plus benefits of each department employee involved in processing and conducting the adjudicative proceedings on the violation, an hourly charge for department overhead costs, the amount billed the department by an independent contractor for services rendered in conjunction with an adjudicative proceeding, and any additional extraordinary or incidental costs incurred by the department. The commission may also assess additional costs if a respondent fails to appear before the commission at the final stage of the adjudicative process. Department overhead costs are calculated by taking the previous year's total department expenditures less staff payroll charges expended on violations, dividing it by the previous year's total staff hours spent on violations, and multiplying this by a rate derived by taking the previous year's total staff payroll spent on violations to the previous year's total payroll of all office employees. The overhead cost figure shall be recalculated at the beginning of each fiscal year.

(f) Perjured Statements. Any person who makes any false or perjured statement in the course of a disciplinary action is subject to criminal prosecution under Section 32A-12-304.

(g) Service. Service of any document shall be satisfied by service personally or by certified mail upon any respondent, or upon any officer or manager of a corporate or limited liability company respondent, or upon an attorney for a respondent, or by service personally or by certified mail to the last known

address of the respondent or any of the following:

(i) Service personally or by certified mail upon any employee working in the respondent's premises; or

(ii) Posting of the document or a notice of certified mail upon a respondent's premises; or

(iii) Actual notice. Proof of service shall be satisfied by a receipt of service signed by the person served or by a certificate of service signed by the person served, or by certificate of service signed by the server, or by verification of posting on the respondent's premises.

(h) Filing of Pleadings or Documents. Filing by a respondent of any pleading or document shall be satisfied by timely delivery to the department office, 1625 South 900 West, Salt Lake City, or by timely delivery to P. O. Box 30408, Salt Lake City, Utah 84130-0408.

(i) Representation. A respondent who is not a corporation or limited liability company may represent himself in any disciplinary action, or may be represented by an agent duly authorized by the respondent in writing, or by an attorney. A corporate or limited liability company respondent may be represented by a member of the governing board of the corporation or manager of the limited liability company, or by a person duly authorized and appointed by the respondent in writing to represent the governing board of the corporation or manager of the limited liability company, or by an attorney.

(j) Presiding Officers.

(i) The commission or the director may appoint presiding officers to receive evidence in disciplinary proceedings, and to submit to the commission orders containing written findings of fact, conclusions of law, and recommendations for commission action.

(ii) If fairness to the respondent is not compromised, the commission or director may substitute one presiding officer for another during any proceeding.

(iii) A person who acts as a presiding officer at one phase of a proceeding need not continue as presiding officer through all phases of a proceeding.

(iv) Nothing precludes the commission from acting as presiding officer over all or any portion of an adjudication proceeding.

(v) At any time during an adjudicative proceeding the presiding officer may hold a conference with the department and the respondent to:

- (A) encourage settlement;
- (B) clarify issues;
- (C) simplify the evidence;
- (D) expedite the proceedings; or
- (E) facilitate discovery, if a formal proceeding.

(k) Definitions. The definitions found in Sections 32A-1-105 and Title 63, Chapter 46b apply to this rule.

(l) Computation of Time. The time within which any act shall be done shall be computed by excluding the first day and including the last day, unless the last day is a Saturday, Sunday, or state or federal holiday, in which case the next business day shall count as the last day.

(m) Default.

(i) The presiding officer may enter an order of default against a respondent if the respondent in an adjudicative proceeding fails to attend or participate in the proceeding.

(ii) The order shall include a statement of the grounds for default, and shall be mailed to the respondent and the department.

(iii) A defaulted respondent may seek to have the default order set aside according to procedures outlined in the Utah Rules of Civil Procedure.

(iv) After issuing the order of default, the commission or presiding officer shall conduct any further proceedings necessary to complete the adjudicative proceeding without the participation of the respondent in default and shall determine all

issues in the adjudicative proceeding, including those affecting the defaulting respondent.

(2) Pre-adjudication Proceedings.

(a) Staff Screening. Upon receipt of a violation report, a decision officer of the department shall review the report, and the alleged violator's violation history, and in accordance with R81-1-6, determine the range of penalties which may be assessed should the alleged violator be found guilty of the alleged violation.

(b) Letters of Admonishment. Because letters of admonishment are not "state agency actions" under Section 63-46b-1(1)(a), no adjudicative proceedings are required in processing them, and they shall be handled in accordance with the following procedures:

(i) If the decision officer of the department determines that the alleged violation does not warrant an administrative fine, or suspension or revocation of the license, permit, or certificate of approval, or action against an officer, employee or agent of a licensee, permittee, or certificate of approval holder, or against a manufacturer, supplier or importer of products listed in this state, a letter of admonishment may be sent to the respondent.

(ii) A letter of admonishment shall set forth in clear and concise terms:

(A) The case number assigned to the action;

(B) The name of the respondent;

(C) The alleged violation, together with sufficient facts to put a respondent on notice of the alleged violations and the name of the agency or staff member making the report;

(D) Notice that a letter of admonishment may be considered as a part of the respondent's violation history in assessing appropriate penalties in future disciplinary actions against the respondent; and

(E) Notice that a rebuttal is permitted under these rules within ten days of service of the letter of admonishment.

(F) Notice that the letter of admonishment is subject to the approval of the commission.

(iii) A copy of the law enforcement agency or department staff report shall accompany the letter of admonishment. The decision officer shall delete from the report any information that might compromise the identity of a confidential informant or undercover agent.

(iv) A respondent may file a written rebuttal with the department within ten days of service of the letter of admonishment. The rebuttal shall be signed by the respondent, or by the respondent's authorized agent or attorney, and shall set forth in clear and concise terms:

(A) The case number assigned to the action;

(B) The name of the respondent;

(C) Any facts in defense or mitigation of the alleged violation, and a brief summary of any attached evidence. The rebuttal may be accompanied by supporting documents, exhibits, or signed statements.

(v) If the decision officer is satisfied, upon receipt of a rebuttal, that the letter of admonishment was not well taken, it may be withdrawn and the letter and rebuttal shall be expunged from the respondent's file. Letters of admonishment so withdrawn shall not be considered as a part of the respondent's violation history. If no rebuttal is received, or if the decision officer determines after receiving a rebuttal that the letter of admonishment is justified, the matter shall be submitted to the commission for final approval. Upon commission approval, the letter of admonishment, together with any written rebuttal, shall be placed in the respondent's department file and may be considered as part of the respondent's violation history in assessing appropriate penalties in future disciplinary actions against the respondent. If the commission rejects the letter of admonishment, it may either direct the decision officer to dismiss the matter, or may direct that an adjudicative proceeding be commenced seeking a more severe penalty.

(vi) At any time prior to the commission's final approval of a letter of admonishment, a respondent may request that the matter be processed under the adjudicative proceeding process.

(c) Commencement of Adjudicative Proceedings.

(i) Alleged violations shall be referred to a presiding officer for commencement of adjudicative proceedings under the following circumstances:

(A) the decision officer determines during screening that the case does not fit the criteria for issuance of a letter of admonishment under section (2)(b)(i);

(B) a respondent has requested that a letter of admonishment be processed under the adjudicative proceeding process; or

(C) the commission has rejected a letter of admonishment and directed that an adjudicative proceeding be commenced seeking a more severe penalty.

(ii) All adjudicative proceedings shall commence as informal proceedings.

(iii) At any time after commencement of informal adjudicative proceedings, but before the commencement of a hearing, if the department determines that it will seek administrative fines exceeding \$3000, a suspension of the license, permit or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval for the alleged violation(s), the presiding officer shall convert the matter to a formal adjudicative proceeding.

(iv) At any time before a final order is issued, a presiding officer may convert an informal proceeding to a formal proceeding if conversion is in the public interest and does not unfairly prejudice the rights of any party.

(3) The Informal Process.

(a) Notice of agency action.

(i) Upon referral of a violation report from the decision officer for commencement of informal adjudicative proceedings, the presiding officer shall issue and sign a written "notice of agency action" which shall set forth in clear and concise terms:

(A) The names and mailing addresses of all persons to whom notice is being given by the presiding officer, and the name, title, and mailing address of any attorney or employee who has been designated to appear for the department;

(B) The department's case number;

(C) The name of the adjudicative proceeding, "DABC vs. \_\_\_\_\_";

(D) The date that the notice of agency action was mailed;

(E) A statement that the adjudicative proceeding is to be conducted informally according to the provisions of this rule and Sections 63-46b-4 and -5 unless a presiding officer converts the matter to a formal proceeding pursuant to Sections (2)(c)(iii) or (iv) of this rule, in which event the proceeding will be conducted formally according to the provisions of this rule and Sections 63-46b-6 to -11;

(F) The date, time and place of any prehearing conference with the presiding officer;

(G) A statement that a respondent may request a hearing for the purpose of determining whether the violation(s) alleged in the notice of agency action occurred, and if so, the penalties that should be imposed;

(H) A statement that a respondent who fails to attend or participate in any hearing may be held in default;

(I) A statement of the legal authority and jurisdiction under which the adjudicative proceeding is to be maintained;

(J) A statement of the purpose of the adjudicative proceeding and questions to be decided including:

(I) the alleged violation, together with sufficient facts to put the respondent on notice of the alleged violation and the name of the agency or department staff member making the violation report;

(II) the penalty sought, which may include assessment of costs under Section 32A-1-119(5)(c) and (d) if the respondent

is found guilty of the alleged violation, and forfeiture of any compliance bond on final revocation under Section 32A-1-119(5)(f) if revocation is sought by the department;

(K) Any violation history of the respondent which may be considered in assessing an appropriate penalty should the respondent be found guilty of the alleged violation; and

(L) The name, title, mailing address, and telephone number of the presiding officer.

(ii) A copy of the law enforcement agency or staff report shall accompany the notice of agency action. The presiding officer shall delete from the report any information that might compromise the identity of a confidential informant or undercover agent.

(iii) The notice of agency action and any subsequent pleading in the case shall be retained in the respondent's department file.

(iv) The notice of agency action shall be mailed to each respondent, any attorney representing the department, and, if applicable, any law enforcement agency that referred the alleged violation to the department.

(v) The presiding officer may permit or require pleadings in addition to the notice of agency action. All additional pleadings shall be filed with the presiding officer, with copies sent by mail to each respondent and to the department.

(vi) Amendment to Pleading. The presiding officer may, upon motion of the respondent or department made at or before the hearing, allow any pleading to be amended or corrected. Defects which do not substantially prejudice a respondent or the department shall be disregarded.

(vii) Signing of Pleading. Pleadings shall be signed by the department or respondent, or their authorized attorney or representative, and shall show the signer's address and telephone number. The signature shall be deemed to be a certification by the signer that he has read the pleading and that he has taken reasonable measures to assure its truth.

(b) The Prehearing Conference.

(i) The presiding officer may hold a prehearing conference with the respondent and the department to encourage settlement, clarify issues, simplify the evidence, or expedite the proceedings.

(ii) All or part of any adjudicative proceeding may be stayed at any time by a written settlement agreement signed by the department and respondent or their authorized attorney or representative, and by the presiding officer. The stay shall take effect immediately upon the signing of the settlement agreement, and shall remain in effect until the settlement agreement is approved or rejected by the commission. No further action shall be required with respect to any action or issue so stayed until the commission has acted on the settlement agreement.

(iii) A settlement agreement approved by the commission shall constitute a final resolution of all issues agreed upon in the settlement. No further proceedings shall be required for any issue settled. The approved settlement shall take effect by its own terms and shall be binding upon the respondent and the department. Any breach of a settlement agreement by a respondent may be treated as a separate violation and shall be grounds for further disciplinary action. Additional sanctions stipulated in the settlement agreement may also be imposed.

(iv) If the settlement agreement is rejected by the commission, the action shall proceed in the same posture as if the settlement agreement had not been reached, except that all time limits shall have been stayed for the period between the signing of the agreement and the commission rejection of the settlement agreement.

(v) If the matter cannot be resolved by settlement agreement, the department shall notify the respondent and the presiding officer whether it will seek administrative fines exceeding \$3000, a suspension of the license, permit or

certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval for the alleged violation(s).

(vi) If the department does not seek administrative fines exceeding \$3000, a suspension of the license, permit, or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval for the alleged violation(s), any hearing on the matter shall be adjudicated informally.

(vii) If the department does seek administrative fines exceeding \$3000, a suspension of the license, permit, or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval for the alleged violation(s), the presiding officer shall convert the matter to a formal adjudicative proceeding, and any hearing on the matter shall be adjudicated formally. The department may waive the formal adjudicative proceeding requirement that the respondent file a written response to the notice of agency action.

(c) The Informal Hearing.

(i) The presiding officer shall notify the respondent and department in writing of the date, time and place of the hearing at least ten days in advance of the hearing. Continuances of scheduled hearings are not favored, but may be granted by the presiding officer for good cause shown. Failure by a respondent to appear at the hearing after notice has been given shall be grounds for default and shall waive both the right to contest the allegations, and the right to the hearing. The presiding officer shall proceed to prepare and serve on respondent an order pursuant to R81-1-7(3)(d).

(ii) All hearings shall be presided over by the presiding officer.

(iii) The respondent named in the notice of agency action and the department shall be permitted to testify, present evidence, and comment on the issues. Formal rules of evidence shall not apply, however, the presiding officer:

(A) may exclude evidence that is irrelevant, immaterial or unduly repetitious;

(B) shall exclude evidence privileged in the courts of Utah;

(C) shall recognize presumptions and inferences recognized by law;

(D) may receive documentary evidence in the form of a copy or excerpt if the copy or excerpt contains all the pertinent portions of the original document;

(E) may take official notice of any facts that could be judicially noticed under the Utah Rules of Evidence, of the record of other proceedings before the commission, and of technical or scientific facts within the commission's specialized knowledge;

(F) may not exclude evidence solely because it is hearsay; and

(G) may use his experience, technical competence, and specialized knowledge to evaluate the evidence.

(iv) All testimony shall be under oath.

(v) Discovery is prohibited.

(vi) Subpoenas and orders to secure the attendance of witnesses or the production of evidence shall be issued by the presiding officer when requested by a respondent or the department, or may be issued by the presiding officer on his own motion.

(vii) A respondent shall have access to information contained in the department's files and to material gathered in the investigation of respondent to the extent permitted by law.

(viii) Intervention is prohibited.

(ix) The hearing shall be open to the public, provided that the presiding officer may order the hearing closed upon a written finding that the public interest in an open meeting is clearly outweighed by factors enumerated in the closure order. The presiding officer may take appropriate measures necessary to preserve the integrity of the hearing.

(x) Record of Hearing. The presiding officer shall cause an official record of the hearing to be made, at the department's expense, as follows:

(A) The record of the proceedings may be made by means of an audio or video recorder or other recording device at the department's expense.

(B) The record may also be made by means of a certified shorthand reporter employed by the department or by a party desiring to employ a certified shorthand reporter at its own cost in the event that the department chooses not to employ a reporter. If a party employs a certified shorthand reporter, the original transcript of the hearing shall be filed with the department. Those desiring a copy of the certified shorthand reporter's transcript may purchase it from the reporter.

(C) Any respondent, at his own expense, may have a person approved by the department, prepare a transcript of the hearing, subject to any restrictions that the department is permitted by statute to impose to protect confidential information disclosed at the hearing. Whenever a transcript or audio or video recording of a hearing is made, it will be available at the department for use by the parties, but the original transcript or recording may not be withdrawn.

(D) The department shall retain the record of the evidentiary hearing for a minimum of one year from the date of the hearing, or until the completion of any court proceeding on the matter.

(xi) The presiding officer may grant continuances or recesses as necessary.

(xii) Order of presentation. Unless otherwise directed by the presiding officer at the hearing, the order of procedure and presentation of evidence will be as follows: (1) department; (2) respondent; (3) rebuttal by department.

(xiii) Time limits. The presiding officer may set reasonable time limits for the presentations described above.

(xiv) Continuances of the hearing. Any hearing may be continued to a time and date certain announced at the hearing, which shall not require any new notification. The continuance of the hearing may be made upon motion of a respondent or the department indicating good cause why a continuance is necessary. The continuance of the hearing may also be made upon the motion of the presiding officer when in the public interest.

(xv) Oral Argument and Briefs. Upon the conclusion of the taking of evidence, the presiding officer may, in his discretion, permit a respondent and the department to make oral arguments or submit additional briefs or memoranda upon a schedule to be designated by the presiding officer.

(d) Disposition.

(i) Presiding Officer's Order; Objections.

(A) Within a reasonable time after the close of the hearing, the presiding officer shall issue a signed order in writing that includes the following:

(I) the decision;

(II) the reasons for the decision;

(III) findings of facts;

(IV) conclusions of law;

(V) recommendations for final commission action;

(VI) notice that a respondent or the department having objections to the presiding officer's order may file written objections with the presiding officer within ten days of service of the order, setting forth the particulars in which the report is alleged to be unfair, inaccurate, incomplete, unreasonable, unlawful or not supported by the evidence.

(B) The order shall be based on the facts appearing in the department's files and on the facts presented in evidence at the informal hearing. Any finding of fact that was contested may not be based solely on hearsay evidence. The findings of fact shall be based upon a preponderance of the evidence. The order shall not recommend a penalty more severe than that sought in

the notice of agency action, and in no event may it recommend administrative fines exceeding \$3000, a suspension of the license, permit, or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval.

(C) A copy of the presiding officer's order shall be promptly mailed to the respondent and the department.

(D) The presiding officer shall wait ten days from service of his order for written objections, if any. The presiding officer may then amend or supplement his findings of fact, conclusions of law, and recommendations to reflect those objections which have merit or which are not disputed.

(E) Upon expiration of the time for filing written objections, the order of the presiding officer and any written objections timely filed, shall be submitted to the commission for final consideration.

(ii) Commission Action.

(A) Upon expiration of the time for filing objections, the order shall be placed on the next available agenda of a regular commission meeting for consideration by the commission. Copies of the order, together with any objections filed shall be forwarded to the commission, and the commission shall finally decide the matter on the basis of the order and any objections submitted.

(B) The commission shall be deemed a substitute presiding officer for this final stage of the informal adjudicative proceeding pursuant to Sections 63-46b-2(1)(h)(ii) and (iii). This stage is not considered a "review of an order by an agency or a superior agency" under Sections 63-46b-12 and -13.

(C) No additional evidence shall be presented to the commission. The commission may, in its discretion, permit the respondent and department to present oral presentations.

(D) After the commission has reached a final decision, it shall issue or cause to be issued a signed, written order pursuant to Section 32A-1-119(3)(c) and (6) and 63-46b-5(1)(i), containing:

(I) the decision;

(II) the reasons for the decision;

(III) findings of fact;

(IV) conclusions of law;

(V) action ordered by the commission and effective date of the action taken;

(VI) notice of the right to seek judicial review of the order within 30 days from the date of its issuance in the district court in accordance with Sections 63-46b-14, -15, -17, and -18, and 32A-1-119 and -120.

(E) The commission may adopt in whole or in part, any portion(s) of the initial presiding officer's order.

(F) The order shall be based on the facts appearing in the department's files and on the facts presented in evidence at the informal hearing.

(G) The order shall not impose a penalty more severe than that sought in the notice of agency action, and in no event may it impose administrative fines exceeding \$3000, a suspension of the license, permit, or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval.

(H) The commission, after it has rendered its final decision and order, may direct the department director to prepare, issue, and cause to be served on the parties the final written order on behalf of the commission.

(I) A copy of the commission's order shall be promptly mailed to the parties.

(e) Judicial Review.

(i) Any petition for judicial review of the commission's final order must be filed within 30 days from the date the order is issued.

(ii) Appeals from informal adjudicative proceedings shall be to the district court in accordance with Sections 63-46b-15, -17, and -18, and 32A-1-119 and -120.

(4) The Formal Process.

(a) Conversion Procedures. If a presiding officer converts an informal adjudicative proceeding to a formal adjudicative proceeding pursuant to sections (2)(c)(iii) or (iv):

(i) the presiding officer shall notify the parties that the adjudicative proceeding is to be conducted formally according to the provisions of this rule and Sections 63-46b-6 to -11;

(ii) the case shall proceed without requiring the issuance of a new or amended notice of agency action;

(iii) the respondent shall be required to file a written response to the original notice of agency action within 30 days of the notice of the conversion of the adjudicative proceeding to a formal proceeding, unless this requirement is waived by the department. Extensions of time to file a response are not favored, but may be granted by the presiding officer for good cause shown. Failure to file a timely response shall waive the respondent's right to contest the matters stated in the notice of agency action, and the presiding officer may enter an order of default and proceed to prepare and serve his final order pursuant to R81-1-7(4)(e). The response shall be signed by the respondent, or by an authorized agent or attorney of the respondent, and shall set forth in clear and concise terms:

(A) the case number assigned to the action;

(B) the name of the adjudicative proceeding, "DABC vs.

";

(C) the name of the respondent;

(D) whether the respondent admits, denies, or lacks sufficient knowledge to admit or deny each allegation stated in the notice of agency action, in which event the allegation shall be deemed denied;

(E) any facts in defense or mitigation of the alleged violation or possible penalty;

(F) a brief summary of any attached evidence. Any supporting documents, exhibits, signed statements, transcripts, etc., to be considered as evidence shall accompany the response;

(G) a statement of the relief the respondent seeks;

(H) a statement summarizing the reasons that the relief requested should be granted.

(iv) the presiding officer may permit or require pleadings in addition to the notice of agency action and the response. All additional pleadings shall be filed with the presiding officer, with copies sent by mail to each party.

(v) the presiding officer may, upon motion of the responsible party made at or before the hearing, allow any pleading to be amended or corrected. Defects which do not substantially prejudice any of the parties shall be disregarded;

(vi) Pleadings shall be signed by the party or the party's attorney and shall show the signer's address and telephone number. The signature shall be deemed to be a certification by the signer that he has read the pleading and that he has taken reasonable measures to assure its truth;

(b) Intervention.

(i) Any person not a party may file a signed, written petition to intervene in a formal adjudicative proceeding with the presiding officer. The person who wishes to intervene shall mail a copy of the petition to each party. The petition shall include:

(A) the agency's case number;

(B) a statement of facts demonstrating that the petitioner's legal rights or interests are substantially affected by the formal adjudicative proceedings or that the petitioner qualifies as an intervenor under any provision of law; and

(C) a statement of the relief that the petitioner seeks from the agency;

(ii) Response to Petition. Any party to a proceeding into which intervention is sought may make an oral or written response to the petition for intervention. The response shall state the basis for opposition to intervention and may suggest limitations to be placed upon the intervenor if intervention is

granted. The response must be presented or filed at or before the hearing.

(iii) Granting of Petition. The presiding officer shall grant a petition for intervention if the presiding officer determines that:

(A) the petitioner's legal interests may be substantially affected by the formal adjudicative proceeding; and

(B) the interests of justice and the orderly and prompt conduct of the adjudicative proceedings will not be materially impaired by allowing the intervention.

(iv) Order Requirements.

(A) Any order granting or denying a petition to intervene shall be in writing and sent by mail to the petitioner and each party.

(B) An order permitting intervention may impose conditions on the intervenor's participation in the adjudicative proceeding that are necessary for a just, orderly, and prompt conduct of the adjudicative proceeding.

(C) The presiding officer may impose conditions at any time after the intervention.

(D) If it appears during the course of the proceeding that an intervenor has no direct or substantial interest in the proceeding and that the public interest does not require the intervenor's participation, the presiding officer may dismiss the intervenor from the proceeding.

(E) In the interest of expediting a hearing, the presiding officer may limit the extent of participation of an intervenor. Where two or more intervenors have substantially like interests and positions, the presiding officer may at any time during the hearing limit the number of intervenors who will be permitted to testify, cross-examine witnesses or make and argue motions and objections.

(c) Discovery and Subpoenas.

(i) Discovery. Upon the motion of a party and for good cause shown that it is to obtain relevant information necessary to support a claim or defense, the presiding officer may authorize the manner of discovery against another party or person, including the staff, as may be allowed by the Utah Rules of Civil Procedure.

(ii) Subpoenas. Subpoenas and orders to secure the attendance of witnesses or the production of evidence in formal adjudicative proceedings shall be issued by the presiding officer when requested by any party, or may be issued by the presiding officer on his own motion.

(d) The Formal Hearing.

(i) Notice. The presiding officer shall notify the parties in writing of the date, time, and place of the hearing at least ten days in advance of the hearing. The presiding officer's name, title, mailing address, and telephone number shall be provided to the parties. Continuances of scheduled hearings are not favored, but may be granted by the presiding officer for good cause shown. Failure to appear at the hearing after notice has been given shall be grounds for default and shall waive both the respondent's right to contest the allegations, and the respondent's right to the hearing. The presiding officer shall proceed to prepare and serve on respondent his order pursuant to R81-1-7(4)(e).

(ii) Public Hearing. The hearing shall be open to all parties. It shall also be open to the public, provided that the presiding officer may order the hearing closed upon a written finding that the public interest in an open hearing is clearly outweighed by factors enumerated in the closure order. The presiding officer may take appropriate measures necessary to preserve the integrity of the hearing.

(iii) Rights of Parties. The presiding officer shall regulate the course of the hearings to obtain full disclosure of relevant facts and to afford all the parties reasonable opportunity to present their positions, present evidence, argue, respond, conduct cross-examinations, and submit rebuttal evidence.

(iv) Public Participation. The presiding officer may give persons not a party to the adjudicative proceeding the opportunity to present oral or written statements at the hearing.

(v) Rules of Evidence. Technical rules of evidence shall not apply. Any reliable evidence may be admitted subject to the following guidelines. The presiding officer:

(A) may exclude evidence that is irrelevant, immaterial or unduly repetitious;

(B) shall exclude evidence privileged in the courts of Utah;

(C) shall recognize presumptions and inferences recognized by law;

(D) may receive documentary evidence in the form of a copy or excerpt if the copy or excerpt contains all the pertinent portions of the original document.

(E) may take official notice of any facts that could be judicially noticed under the Utah Rules of Evidence, of the record of other proceedings before the agency, and of technical or scientific facts within the agency's specialized knowledge;

(F) may not exclude evidence solely because it is hearsay; and

(G) may use his experience, technical competence, and specialized knowledge to evaluate the evidence.

(vi) Oath. All testimony presented at the hearing, if offered as evidence to be considered in reaching a decision on the merits, shall be given under oath.

(vii) Order of presentation. Unless otherwise directed by the presiding officer at the hearing, the order of procedure and presentation of evidence will be as follows: (1) agency; (2) respondent; (3) intervenors (if any); (4) rebuttal by agency.

(viii) Time limits. The presiding officer may set reasonable time limits for the presentations described above.

(ix) Continuances of the hearing. Any hearing may be continued to a time and date certain announced at the hearing, which shall not require any new notification. The continuance of the hearing may be made upon motion of a party indicating good cause why a continuance is necessary. The continuance of the hearing may also be made upon the motion of the presiding officer when in the public interest.

(x) Oral Argument and Briefs. Upon the conclusion of the taking of evidence, the presiding officer may, in his discretion, permit the parties to make oral arguments or submit additional briefs or memoranda upon a schedule to be designated by the presiding officer.

(xi) Record of Hearing. The presiding officer shall cause an official record of the hearing to be made, at the agency's expense, as follows:

(A) The record may be made by means of an audio or video recorder or other recording device at the department's expense.

(B) The record may also be made by means of a certified shorthand reporter employed by the department or by a party desiring to employ a certified shorthand reporter at its own cost in the event that the department chooses not to employ a reporter. If a party employs a certified shorthand reporter, the original transcript of the hearing shall be filed with the department. Those desiring a copy of the certified shorthand reporter's transcript may purchase it from the reporter.

(C) Any respondent, at his own expense, may have a person approved by the department prepare a transcript of the hearing, subject to any restrictions that the agency is permitted by statute to impose to protect confidential information disclosed at the hearing. Whenever a transcript or audio or video recording of a hearing is made, it will be available at the department for use by the parties, but the original transcript or recording may not be withdrawn.

(D) The department shall retain the record of the evidentiary hearing for a minimum of one year from the date of the hearing, or until the completion of any court proceeding on

the matter.

(xii) Failure to appear. Inexcusable failure of the respondent to appear at a scheduled evidentiary hearing after receiving proper notice constitutes an admission of the charged violation. The validity of any hearing is not affected by the failure of any person to attend or remain in attendance pursuant to Section 32A-1-119(5)(c).

(e) Disposition.

(i) Presiding Officer's Order; Objections.

(A) Within a reasonable time of the close of the hearing, or after the filing of any post-hearing papers permitted by the presiding officer, the presiding officer shall sign and issue a written order that includes the following:

(I) the findings of fact based exclusively on evidence found in the record of the adjudicative proceedings, or facts officially noted. No finding of fact that was contested may be based solely on hearsay evidence. The findings of fact shall be based upon a preponderance of the evidence, except if the respondent fails to respond as per R81-1-7(4)(a)(iii), then the findings of fact shall adopt the allegations in the notice of agency action;

(II) conclusions of law;

(III) the decision;

(IV) the reasons for the decision;

(V) recommendations for final commission action. The order shall not recommend a penalty more severe than that sought in the notice of agency action;

(VI) notice that a respondent or the department having objections to the presiding officer's order may file written objections with the presiding officer within ten days of service of the order setting forth the particulars in which the report is alleged to be unfair, inaccurate, incomplete, unreasonable, unlawful, or not supported by the evidence.

(B) A copy of the presiding officer's order shall be promptly mailed to the parties.

(C) The presiding officer shall wait ten days from service of his order for written objections, if any. The presiding officer may then amend or supplement his findings of fact, conclusions of law, and recommendations to reflect those objections which have merit and which are not disputed.

(D) Upon expiration of the time for filing written objections, the order of the presiding officer and any written objections timely filed, shall be submitted to the commission for final consideration.

(ii) Commission Action.

(A) Upon expiration of the time for filing objections, the order shall be placed on the next available agenda of a regular commission meeting for consideration by the commission. Copies of the order, together with any objections filed by the respondent, shall be forwarded to the commission, and the commission shall finally decide the matter on the basis of the order and any objections submitted.

(B) The commission shall be deemed a substitute presiding officer for this final stage of the formal adjudicative proceeding pursuant to Sections 63-46b-2(h)(ii) and (iii). This stage is not considered a "review of an order by an agency or a superior agency" under Sections 63-46b-12 and -13.

(C) No additional evidence shall be presented to the commission. The commission may, in its discretion, permit the parties to present oral presentations.

(D) After the commission has reached a final decision, it shall issue or cause to be issued a signed, written order pursuant to Section 32A-1-119(3)(c) and (6) and 63-46b-10(1) that includes:

(I) findings of fact based exclusively on evidence found in the record of the adjudicative proceedings, or facts officially noted. No finding of fact that was contested may be based solely on hearsay evidence. The findings of fact shall be based upon a preponderance of the evidence, except if the respondent

fails to respond as per R81-1-7(4)(a)(iii), then the findings of fact shall adopt the allegations in the notice of agency action and the respondent is considered in default;

(II) conclusions of law;

(III) the decision;

(IV) the reasons for the decision;

(V) action ordered by the commission and effective date of the action taken. The order shall not impose a penalty more severe than that sought in the notice of agency action;

(VI) notice of the right to file a written request for reconsideration within ten days of the service of the order;

(VII) notice of the right to seek judicial review of the order within thirty days of the date of its issuance in the court of appeals in accordance with Sections 32A-1-120 and 63-46b-16, -17, and -18.

(E) The commission may adopt in whole or in part, any portion(s) of the initial presiding officer's order.

(F) The commission may use its experience, technical competence and specialized knowledge to evaluate the evidence.

(G) The commission, after it has rendered its final decision and order, may direct the department director to prepare, issue, and cause to be served on the parties the final written order on behalf of the commission.

(H) A copy of the commission's order shall be promptly mailed to the parties.

(I) A respondent having objections to the order of the commission may file, within ten days of service of the order, a request for reconsideration with the commission, setting forth the particulars in which the order is unfair, unreasonable, unlawful, or not supported by the evidence. If the request is based upon newly discovered evidence, the petition shall be accompanied by a summary of the new evidence, with a statement of reasons why the respondent could not with reasonable diligence have discovered the evidence prior to the formal hearing, and why the evidence would affect the commission's order.

(J) The filing of a request for reconsideration is not a prerequisite for seeking judicial review of the commission's order.

(K) Within twenty days of the filing of a request for reconsideration, the commission may issue or cause to be issued a written order granting the request or denying the request in whole or in part. If the request is granted, it shall be limited to the matter specified in the order. Upon reconsideration, the commission may confirm its former order or vacate, change or modify the same in any particular, or may remand for further action. The final order shall have the same force and effect as the original order.

(L) If the commission does not issue an order within twenty days after the filing of the request, the request for reconsideration shall be considered denied.

(f) Judicial Review.

(i) Respondent may file a petition for judicial review of the commission's final order within 30 days from the date the order is issued.

(ii) Appeals from formal adjudicative proceedings shall be to the Utah Court of Appeals in accordance with Sections 63-46b-16, -17, and -18, and Section 32A-1-120.

#### **R81-1-8. Consent Calendar Procedures.**

(1) Authority. This rule is pursuant to the commission's authority to establish procedures for suspending or revoking permits, licenses, and package agencies under 32A-1-107(1)(b) and (e), and the commission's authority to adjudicate violations of Title 32A.

(2) Purpose. This rule establishes a consent calendar procedure for handling letters of admonishment issued and settlement agreements proposed pursuant to R81-1-7 that meet the following criteria:

(a) Uncontested letters of admonishment where no written objections have been received from the respondent; and

(b) Settlement agreements except those where the respondent is allowed to present further argument to the commission under the terms of the settlement agreement.

(3) Application of the Rule.

(a) A consent calendar may be utilized by the commission at their meetings to expedite the handling of letters of admonishment and settlement agreements that meet the criteria of Section (2).

(b) Consent calendar items shall be briefly summarized by department staff or the assistant attorney general assigned to the department. The summary shall describe the nature of the violations and the penalties sought.

(c)(i) The commission shall be furnished in advance of the meeting a copy of each letter of admonishment and settlement agreement on the consent calendar and any documents essential for the commission to make an informed decision on the matter.

(ii) If the case involves anything unusual or out of the ordinary, it shall be highlighted on the letter of admonishment or settlement agreement and shall be noted by the department staff person or assistant attorney general during the summary of the case.

(iii) Settlement agreements on the consent calendar shall include specific proposed dates for the suspension of any license or permit, and for payment of any fines or administrative costs.

(d) If the case involves a serious or grave violation as defined in R81-1-6, the licensee or permittee, absent good cause, shall be in attendance at the commission meeting. The licensee or permittee shall be present not to make a presentation, but to respond to any questions from the commission. Individual employees of a licensee or permittee are not required to be in attendance at the commission meeting.

(e) Any commissioner may have an item removed from the consent calendar if the commissioner feels that further inquiry is necessary before reaching a final decision. In the event a commissioner elects to remove an item from the consent calendar, and the licensee or permittee is not in attendance, the matter may be rescheduled for the next regular commission meeting. Otherwise, the action recommended by department staff or the assistant attorney general presenting the matter shall be approved by unanimous consent of the commission.

(f) All consent calendar items shall be approved in a single motion at the conclusion of the presentation of the summary.

(g) All fines and administrative costs shall be paid on or before the day of the commission meeting unless otherwise provided by order of the commission.

#### **R81-1-9. Liquor Dispensing Systems.**

A licensee may not install or use any system for the automated mixing or dispensing of spirituous liquor unless the dispensing system has been approved by the department.

(1) Minimum requirements. The department will only approve a dispensing system which:

(a) dispenses spirituous liquor in calibrated quantities not to exceed one ounce; and

(b) has a meter which counts the number of pours dispensed.

The margin of error of the system for a one ounce pour size cannot exceed 1/16 of an ounce or two milliliters.

(2) Types of systems. Dispensing systems may be of various types including: gun, stationary head, tower, insertable spout, ring activator or similar method.

(3) Method of approval.

(a) Suppliers. Companies which manufacture, distribute, sell, or supply dispensing systems must first have their product approved by the department prior to use by any liquor licensee in the state. They shall complete the "Supplier Application for Dispensing System Approval" form provided by the department,

which includes: the name, model number, manufacturer and supplier of the product; the type and method of dispensing, calibrating, and metering; the degree or tolerance of error, and a verification of compliance with federal and state laws, rules, and regulations.

(b) Licensees. Before any dispensing system is put into use by a licensee, the licensee shall complete the "Licensee Application for Dispensing System Approval" form provided by the department. The department shall maintain a list of approved products and shall only authorize installation of a product previously approved by the department as provided in subsection (a). The licensee is thereafter responsible for verifying that the system, when initially installed, meets the specifications which have been supplied to the department by the manufacturer. Once installed, the licensee shall maintain the dispensing system to ensure that it continues to meet the manufacturer's specifications. Failure to maintain the system may be grounds for suspension or revocation of the licensee's liquor license.

(c) Removal from approved list. In the event the system does not meet the specifications as represented by the manufacturer, the licensee shall immediately notify the department. The department shall investigate the situation to determine whether the product should be deleted from the approved list.

(4) Operational restrictions.

(a) The system must be calibrated to pour a quantity of spirituous liquor not to exceed one ounce.

(b) Voluntary consent is given that representatives of the department, State Bureau of Investigation, or any law enforcement officer shall have access to any system for inspection or testing purposes. A licensee shall furnish to the representatives, upon request, samples of the alcoholic products dispensed through any system for verification and analysis.

(c) Spirituous liquor bottles in use with a dispensing system at the dispensing location must be affixed to the dispensing system by the licensee. Spirituous liquor bottles in use with a remote dispensing system must be in a locked storage area. Any other primary spirituous liquor not in service must remain unopened. There shall be no opened primary spirituous liquor bottles at a dispensing location that are not affixed to an approved dispensing device. This rule does not prohibit the presence of opened containers of wine for use as provided by law.

(d) The dispensing system and spirituous liquor bottles attached to the system must be locked or secured in such a place and manner as to preclude the dispensing of spirituous liquor at times when liquor sales are not authorized by law.

(e) All dispensing systems and devices must

(i) avoid an in-series hookup which would permit the contents of liquor bottles to flow from bottle to bottle before reaching the dispensing spigot or nozzle;

(ii) not dispense from or utilize containers other than original liquor bottles; and

(iii) prohibit the intermixing of different kinds of products or brands in the liquor bottles from which they are being dispensed.

(f) Pursuant to federal law, all liquor dispensed through a dispensing system shall be from its original container, and there shall be no re-use or refilling of liquor bottles with any substance whatsoever. The commission adopts federal regulations 27 CFR 194 and 26 USCA Section 5301 and incorporates them by reference.

(g) Each licensee shall keep daily records for each dispensing outlet as follows:

(i) brands of liquor dispensed through the dispensing system;

(ii) beginning and ending meter readings by brand or sales price level and the number of portions dispensed through the

dispensing system;

(iii) number of portions sold by brand or sales price level; and

(iv) a comparison of the number of portions dispensed to the number of portions sold including an explanation of any variances by brand or sales price level.

(v) These records must be made available for inspection and audit by the department or law enforcement.

(h) This rule does not prohibit the sale of pitchers of mixed drinks as long as the pitcher contains no more than one ounce of primary spirituous liquor per person to which the pitcher is served.

(i) Licensees shall display in a prominent place on the premises a list of the types and brand names of spirituous liquor being served through its dispensing system. This requirement may be satisfied either by printing the list on an alcoholic beverage menu or by wall posting or both.

(j) A licensee or his employee shall not:

(i) sell or serve any brand of spirituous liquor not identical to that ordered by the patron; or

(ii) misrepresent the brand of any spirituous liquor contained in any drink sold or offered for sale.

(k) All dispensing systems and devices must conform to federal, state, and local health and sanitation requirements. Where considered necessary, the department may:

(i) require the alteration or removal of any system,

(ii) require the licensee to clean, disinfect, or otherwise improve the sanitary conditions of any system.

#### **R81-1-10. Wine Dispensing.**

(1) Each licensee shall keep daily records that compare the number of portions of wine by the glass dispensed to the number of portions sold. These records shall indicate:

(a) the brands of each wine dispensed by the glass;

(b) the portion size, not to exceed five ounces per portion, and the number of portions dispensed by the glass of each wine by brand and sales price level;

(c) the portion size and number of portions sold by the glass of each wine by brand and sales price level; and

(d) a comparison of the number of portions dispensed to the number of portions sold including an explanation of any variances.

These records must be made available for inspection and audit by the department or law enforcement.

#### **R81-1-11. Multiple-Licensed Facility Storage and Service.**

(1) For the purposes of this rule:

(a) "premises" as defined in Section 32A-1-105(37) shall include the location of any licensed restaurant, limited restaurant, club, or on-premise beer retailer facility or facilities operated or managed by the same person or entity that are located within the same building or complex. Multiple licensed facilities shall be termed "qualified premises" as used in this rule.

(b) the terms "sell", "sale", "to sell" as defined in Section 32A-1-105(48) shall not apply to a cost allocation of alcoholic beverages as used in this rule.

(c) "cost allocation" means an apportionment of the as purchased cost of the alcoholic beverage product based on the amount dispensed in each outlet as reconciled by the record keeping requirements of this rule.

(d) "remote storage alcoholic beverage dispensing system" means a dispensing system where the alcoholic product is stored in a single centralized location, and may have separate dispensing heads at different locations, and is capable of accounting for the amount of alcoholic product dispensed to each location.

(2) Where qualified premises have consumption areas in reasonable proximity to each other, the dispensing of alcoholic

beverages may be made from the alcoholic beverage inventory of an outlet in one licensed location to patrons in either consumption area of the qualified premises subject to the following requirements:

(a) for liquor and wine dispensing, daily dispensing records as required in R81-1-9 and R81-1-10 must also show the amount of alcoholic beverage products dispensed to each licensed location;

(b) for beer dispensing, daily records must be kept in a form acceptable to the department that show the amount of beer dispensed to each outlet;

(c) point of sale control systems must be implemented that will record the amounts of each alcoholic beverage product sold in each location. Sales records and dispensing records must be balanced daily;

(d) cost allocation of the alcoholic beverage product cost must be made for each location on at least a monthly basis. Allocations must be able to be supported by the record keeping requirements of Section 32A-4-106, 32A-4-307, 32A-5-107, or 32A-10-206;

(e) dispensing of alcoholic beverages to a licensed location may not be made on prohibited days or at prohibited hours pertinent to that license type;

(f) if separate inventories of liquor are maintained in one dispensing location, the storage area of each licensee's liquor must remain locked during the prohibited hours and days of sale for each license type;

(g) dispensing of alcoholic beverages to a licensed location may not be made in any manner prohibited by the statutory or regulatory operational restrictions of that license type;

(h) a licensee must obtain department approval before dispensing alcoholic beverages as described in this section. Applications for approval shall be in a form prescribed by the department and shall include a floor plan of all storage, dispensing, sales, service, and consumption areas involved.

(i) alcoholic beverages dispensed under this section may be delivered by servers from one outlet to the various approved consumption areas, or dispensed to each outlet through the use of a remote storage alcoholic beverage dispensing system.

(3) On qualified premises where each licensee maintains an inventory of alcoholic beverage products, the alcoholic beverages owned by each licensee may be stored in a common location in the building subject to the following guidelines:

(a) each licensee shall identify the common storage location when applying for or renewing their license, and shall receive department approval of the location;

(b) each licensee must be able to account for its ownership of the alcoholic beverages stored in the common storage location by keeping records, balanced monthly, of expenditures for alcoholic beverages supported by items such as delivery tickets, invoices, receipted bills, canceled checks, petty cash vouchers; and

(c) the common storage area may be located on the premises of one of the licensed liquor establishments.

#### **R81-1-12. Alcohol Training and Education Seminar.**

(1) The alcohol training and education seminar, as described in Section 62A-15-401, shall be completed by every individual of every new and renewing licensee under title 32A who:

(a) is employed to sell or furnish alcoholic beverages to the public within the scope of his employment for consumption on the premises;

(b) is employed to manage or supervise the service of alcoholic beverages; or

(c) holds an ownership interest in an on-premise licensed establishment and performs the duties of a manager, supervisor, or server of alcoholic beverages.

(2) Persons described in subsection 1(a) and (b) must complete the training within 30 days of commencing employment. Persons described in subsection 1(c) must complete the training within 30 days of engaging in the duties described in subsection 1(a) and (b).

(3) Each licensee shall maintain current records on each individual indicating:

- (a) date of hire, and
- (b) date of completion of training.

(4) The seminar shall include the following subjects in the curriculum and training:

(a) alcohol as a drug and its effect on the body and behavior;

- (b) recognizing the problem drinker;
- (c) an overview of state alcohol laws;
- (d) dealing with problem customers; and
- (e) alternate means of transportation to get a customer safely home.

(5) Persons required to complete the seminar shall pay a fee to the seminar provider.

(6) The seminar is administered by the Division of Substance Abuse of the Utah Department of Human Services.

(7) Persons who are not in compliance with subsection (2) may not:

- (a) serve or supervise the serving of alcoholic beverages to a customer for consumption on the premises of a licensee; or
- (b) engage in any activity that would constitute managing operations at the premises of a licensee.

#### **R81-1-13. Utah Government Records Access and Management Act.**

(1) Purpose. To provide procedures for access to government records of the commission and the department.

(2) Authority. The authority for this rule is Sections 63-2-204, and 63-2-904 of the Government Records Access and Management Act (GRAMA).

(3) Requests for Access. Requests for access to government records of the commission or the department should be written and made to the executive secretary of the commission or the records officer of the department, as the case may be, at the following address: Department of Alcoholic Beverage Control, 1625 South 900 West, P.O. Box 30408, Salt Lake City, Utah 84130-0408.

(4) Fees. A fee schedule for the direct and indirect costs of duplicating or compiling a record may be obtained from the commission and the department by contacting the appropriate official specified in paragraph (3) above. The department may require payment of past fees and future estimated fees before beginning to process a request if fees are expected to exceed \$50 or if the requester has not paid fees from previous requests. Fees for duplication and compilation of a record may be waived under certain circumstances described in Section 63-2-203(4). Requests for this waiver of fees must be made to the appropriate official specified in paragraph (3) above.

(5) Requests for Access for Research Purposes. Access to private or controlled records for research purposes is allowed by Section 63-2-202(8). Requests for access to these records for research purposes may be made to the appropriate official specified in paragraph (3) above.

(6) Intellectual Property Rights. Whenever the commission or department determines that it owns an intellectual property right to a portion of its records, it may elect to duplicate and distribute, or control any materials, in accordance with the provisions of Section 63-2-201(10). Decisions affecting records covered by these rights will be made by the appropriate official specified in paragraph (3) above. Any questions regarding the duplication and distribution of materials should be addressed to that individual.

(7) Requests to Amend a Record. An individual may

contest the accuracy or completeness of a document pertaining to him pursuant to Section 63-2-603. The request should be made to the appropriate official specified in paragraph (3) above.

(8) Time Periods Under GRAMA. The provisions of Rule 6 of the Utah Rules of Civil Procedure shall apply to calculate time periods specified in GRAMA.

#### **R81-1-14. Americans With Disabilities Act Complaint Procedure.**

(1) Authority and Purpose. This rule is promulgated pursuant to Section 63-46a-3(3). The commission, pursuant to 28 CFR 35.107, July 1, 1992 Ed., adopts, defines, and publishes within this rule complaint procedures providing for prompt and equitable resolution of complaints filed in accordance with Title II of the Americans With Disabilities Act, with the commission or the department.

(2) No qualified individual with a disability, by reason of disability, shall be excluded from participation in or be denied the benefits of the services, programs, or activities of the commission, or department, or be subjected to discrimination by the commission or department.

(3) Definitions.

"ADA coordinator" means the commission's and department's coordinator or designee who has responsibility for investigating and providing prompt and equitable resolution of complaints filed by qualified individuals with disabilities.

"ADA State Coordinating Committee" means that committee with representatives designated by the directors of the following agencies: Office of Planning and Budget; Department of Human Resource Management; Division of Risk Management; Division of Facilities Construction Management; and Office of the Attorney General.

"Disability" means with respect to an individual with a disability, a physical or mental impairment that substantially limits one or more of the major life activities of an individual; a record of an impairment; or being regarded as having an impairment.

"Individual with a disability" means a person who has a disability which limits one of his major life activities and who meets the essential eligibility requirement for the receipt of services or the participation in programs or activities provided by the commission or department, or who would otherwise be an eligible applicant for vacant positions with the commission or department, as well as those who are employees of the commission or department.

"Major life activities" means functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

(4) Filing of Complaints.

(a) The complaint shall be filed in a timely manner to assure prompt, effective assessment and consideration of the facts, but no later than 60 days from the date of the alleged act of discrimination.

(b) The complaint shall be filed with the commission's and department's ADA coordinator in writing or in another accessible format suitable to the individual.

(c) Each complaint shall:

- (i) include the individual's name and address;
- (ii) include the nature and extent of the individual's disability;

(iii) describe the commission's or department's alleged discriminatory action in sufficient detail to inform the commission or department of the nature and date of the alleged violation;

- (iv) describe the action and accommodation desire; and
- (v) be signed by the individual or by his legal representative.

(d) Complaints filed on behalf of classes or third parties

shall describe or identify by name, if possible, the alleged victims of discrimination.

(5) Investigation of Complaint.

(a) The ADA coordinator shall conduct an investigation of each complaint received. The investigation shall be conducted to the extent necessary to assure all relevant facts are determined and documented. This may include gathering all information listed in paragraph (4)(c) of this rule if it is not made available by the individual.

(b) When conducting the investigation, the ADA coordinator may seek assistance from the commission's or department's legal, human resource, and budget staff in determining what action, if any, shall be taken on the complaint. Before making any decision that would involve an expenditure of funds which is not absorbable within the commission's or department's budget and would require appropriation authority; facility modifications; or reclassification or reallocation in grade, the ADA coordinator shall consult with the ADA State Coordinating Committee.

(6) Issuance of Decision.

(a) Within 15 working days after receiving the complaint, the ADA coordinator shall issue a decision outlining in writing or in another acceptable suitable format stating what action, if any, shall be taken on the complaint.

(b) If the coordinator is unable to reach a decision within the 15 working day period, he shall notify the individual with a disability in writing or by another acceptable, suitable format why the decision is being delayed and what additional time is needed to reach a decision.

(7) Appeals.

(a) The individual may appeal the decision of the ADA coordinator by filing an appeal within five working days from the receipt of the decision.

(b) Appeals involving the commission shall be filed in writing with the commission. Appeals involving the department shall be filed in writing with the department's executive director or a designee other than the ADA coordinator.

(c) The filing of an appeal shall be considered as authorization by the individual to allow review of all information, including information classified as private or controlled, by the commission, executive director, or designee.

(d) The appeal shall describe in sufficient detail why the ADA coordinator's decision is in error, is incomplete or ambiguous, is not supported by the evidence, or is otherwise improper.

(e) The commission, executive director, or designee, shall review the factual findings of the investigation and the individual's statement regarding the inappropriateness of the ADA coordinator's decision and arrive at an independent conclusion and recommendation. Additional investigations may be conducted if necessary to clarify questions of fact before arriving at an independent conclusion. Before making any decision that would involve an expenditure of funds which is not absorbable within the commission's or department's budget and would require appropriation authority; facility modifications; or reclassification or reallocation in grade, the commission, executive director, or designee shall also consult with the State ADA Coordinating Committee.

(f) The decision shall be issued within ten working days after receiving the appeal and shall be in writing or in another accessible suitable format to the individual.

(g) If the commission, executive director, or designee is unable to reach a decision within the ten working day period, the individual shall be notified in writing or by another acceptable, suitable format why the decision is being delayed and the additional time needed to reach a decision.

(8) Classification of records. The record of each complaint and appeal, and all written records produced or received as part of the action, shall be classified as protected as defined under

Section 63-2-304 until the ADA coordinator, executive director, or their designees issue the decision, at which time any portions of the record which may pertain to the individual's medical condition shall remain classified as private as defined under Section 63-2-302, or controlled as defined in Section 63-2-303. All other information gathered as part of the complaint record shall be classified as private information. Only the written decision of the ADA coordinator, executive director, or designees shall be classified as public information.

(9) Relationship to other laws. This rule does not prohibit or limit the use of remedies available to individuals under the state Anti-Discrimination Complaint Procedures Section 67-19-32; the Federal ADA Complaint Procedures, 28 CFR 35.170, et seq.; or any other Utah or federal law that provides equal or greater protection for the rights of individuals with disabilities.

**R81-1-15. Commission Declaratory Orders.**

(1) Authority. As required by Section 63-46b-21, and as authorized by Section 32A-1-107, this rule provides the procedures for the submission, review, and disposition of petitions for commission declaratory orders on the applicability of statutes administered by the commission and department, rules promulgated by the commission, and orders issued by the commission.

(2) Petition Procedure.

(a) Any person or government agency directly affected by a statute administered by the commission, a rule promulgated by the commission, or an order issued by the commission may petition for a declaratory order.

(b) The petitioner shall file the petition with the commission's executive secretary.

(3) Petition Form. The petition shall:

(a) be clearly designated as a request for a declaratory order;

(b) identify the statute, rule, or order to be reviewed;

(c) describe the situation or circumstances giving rise to the need for the declaratory order, or in which applicability of the statute, rule, or order is to be reviewed;

(d) describe the reason or need for the applicability review;

(e) identify the person or agency directly affected by the statute, rule, or order;

(f) include an address and telephone number where the petitioner can be reached during regular work days; and

(g) be signed by the petitioner.

(4) Petition Review and Disposition.

(a) The commission shall:

(i) review and consider the petition;

(ii) prepare a declaratory order stating:

(A) the applicability or non-applicability of the statute, rule, or order at issue;

(B) the reasons for the applicability or non-applicability of the statute, rule, or order; and

(C) any requirements imposed on the department, the petitioner, or any person as a result of the declaratory order;

(iii) serve the petitioner with a copy of the order.

(b) The commission may:

(i) interview the petitioner;

(ii) hold an informal adjudicative hearing to gather information prior to making its determination;

(iii) hold a public information-gathering hearing on the petition;

(iv) consult with department staff, the Attorney General's Office, other government agencies, or the public; and

(v) take any other action necessary to provide the petition adequate review and due consideration.

**R81-1-16. Disqualification Based Upon Conviction of Crime.**

(1) The Alcoholic Beverage Control Act generally

disqualifies persons from being employees of the department, operating a package agency, holding a license or permit, or being employed in a managerial or supervisory capacity with a package agency, licensee or permittee if they have been convicted of:

- (a) a felony under any federal or state law;
- (b) any violation of any federal or state law or local ordinance concerning the sale, manufacture, distribution, warehousing, adulteration, or transportation of alcoholic beverages;
- (c) any crime involving moral turpitude; or
- (d) driving under the influence of alcohol or drugs on two or more occasions within the last five years.

(2) In the case of a partnership, corporation, or limited liability company the proscription under Subsection (1) applies if any of the following has been convicted of any offense described in Subsection (1):

- (a) a partner;
- (b) a managing agent;
- (c) a manager;
- (d) an officer;
- (e) a director;
- (f) a stockholder who holds at least 20% of the total issued and outstanding stock of the corporation; or
- (g) a member who owns at least 20% of the limited liability company.

(3) As used in the Act and these rules:

(a) "convicted" or "conviction" means a determination of guilt by a judge or a jury, upon either a trial or entry of a plea, in any court, including a court not of record, that has not been reversed on appeal;

(b) "felony" means any crime punishable by a term of imprisonment in excess of one year; and

(c) a "crime involving moral turpitude" means a crime that involves actions done knowingly contrary to justice, honesty, or good morals. It is also described as a crime that is "malum in se" as opposed to "malum prohibitum" - actions that are immoral in themselves regardless of being punishable by law as opposed to actions that are wrong only since they are prohibited by statute. A crime of moral turpitude ordinarily involves an element of falsification or fraud or of harm or injury directed to another person or another's property. For purposes of this rule, crimes of moral turpitude may include crimes involving controlled substances, illegal drugs, and narcotics.

#### **R81-1-17. Advertising.**

(1) Authority and General Purpose. This rule is pursuant to Section 32A-12-401(4) which authorizes the commission to establish guidelines for the advertising of alcoholic beverages in this state except to the extent prohibited by Title 32A.

(2) Definitions.

(a) For purposes of this rule, "advertisement" or "advertising" includes any written or verbal statement, illustration, or depiction which is calculated to induce alcoholic beverage sales, whether it appears in a newspaper, magazine, trade booklet, menu, wine card, leaflet, circular, mailer, book insert, catalog, promotional material, sales pamphlet, or any written, printed, graphic, or other matter accompanying the container, representations made on cases, billboard, sign, or other public display, public transit card, other periodical literature, publication or in a radio or television broadcast, or in any other media; except that such term shall not include:

- (i) labels on products; or
- (ii) any editorial or other reading material (i.e., news release) in any periodical or publication or newspaper for the publication of which no money or valuable consideration is paid or promised, directly or indirectly, by any alcoholic beverage industry member or retailer, and which is not written by or at the direction of the industry member or retailer.

(b) For purposes of this rule, "minor" or "minors" shall mean persons under the age of 21 years.

(3) Application.

(a) This rule shall govern the regulation of advertising of alcoholic beverages sold within the state, except where the regulation of interstate electronic media advertising is preempted by federal law. This rule incorporates by reference the Federal Alcohol Administration Act, 27 U.S.C. 205(f), and Subchapter A, Parts 4, 5, 6 and 7 of the regulations of the Bureau of Alcohol, Tobacco and Firearms, United States Department of the Treasury in 27 CFR 4, 5, 6 and 7 (1993 Edition). These provisions shall regulate the labeling and advertising of alcoholic beverages sold within this state, except where federal statutes and regulations are found to be contrary to or inconsistent with the provisions of the statutes and rules of this state.

(b) 27 CFR Section 7.50 provides that federal laws apply only to the extent that the laws of a state impose similar requirements with respect to advertisements of malt beverages manufactured and sold or otherwise disposed of in the state. This rule, therefore, adopts and incorporates by reference federal laws, previously referenced in subparagraph (a), relating to the advertising of malt beverage products.

(4) Current statutes and rules restricting the advertising, display, or display of price lists of liquor products, as defined in 32A-1-105(25), by the department, state stores, or type 1, 2 or 3 package agencies as defined in R81-3-1, are applicable.

(5) All advertising of liquor and beer by manufacturers, suppliers, importers, local industry representatives, wholesalers, permittees, and licensed retailers of such products, and type 4 and 5 package agencies as defined in R81-3-1 shall comply with the advertising requirements listed in Section (6) of this rule.

(6) Advertising Requirements. Any advertising or advertisement authorized by this rule:

(a) May not violate any federal laws referenced in Subparagraph (3);

(b) May not contain any statement, design, device, or representation that is false or misleading;

(c) May not contain any statement, design, device, or representation that is obscene or indecent;

(d) May not refer to, portray or imply illegal conduct, illegal activity, abusive or violent relationships or situations, or anti-social behavior, except in the context of public service advertisements or announcements to educate and inform people of the dangers, hazards and risks associated with irresponsible drinking or drinking by persons under the age of 21 years;

(e) May not encourage over-consumption or intoxication, promote the intoxicating effects of alcohol consumption, or overtly promote increased consumption of alcoholic products;

(f) May not advertise any unlawful discounting practice such as "happy hour", "two drinks for the price of one", "free alcohol", or "all you can drink for \$...".

(g) May not encourage or condone drunk driving;

(h) May not depict the act of drinking;

(i) May not promote or encourage the sale to or use of alcohol by minors;

(j) May not be directed or appeal primarily to minors by:

(i) using any symbol, language, music, gesture, cartoon character, or childhood figure such as Santa Claus that primarily appeals to minors;

(ii) employing any entertainment figure or group that appeals primarily to minors;

(iii) placing advertising in magazines, newspapers, television programs, radio programs, or other media where most of the audience is reasonably expected to be minors, or placing advertising on the comic pages of magazines, newspapers, or other publications;

(iv) placing advertising in any school, college or university magazine, newspaper, program, television program, radio

program, or other media, or sponsoring any school, college or university activity;

(v) using models or actors in the advertising that are or reasonably appear to be minors;

(vi) advertising at an event where most of the audience is reasonably expected to be minors; or

(vii) using alcoholic beverage identification, including logos, trademarks, or names on clothing, toys, games or game equipment, or other materials intended for use primarily by minors.

(k) May not portray use of alcohol by a person while that person is engaged in, or is immediately about to engage in, any activity that requires a high degree of alertness or physical coordination;

(l) May not contain claims or representations that individuals can obtain social, professional, educational, athletic, or financial success or status as a result of alcoholic beverage consumption, or claim or represent that individuals can solve social, personal, or physical problems as a result of such consumption;

(m) May not offer alcoholic beverages without charge;

(n) May not require the purchase, sale, or consumption of an alcoholic beverage in order to participate in any promotion, program, or other activity; and

(o) May provide information regarding product availability and price, and factual information regarding product qualities, but may not imply by use of appealing characters or life-enhancing images that consumption of the product will benefit the consumer's health, physical prowess, sexual prowess, athletic ability, social welfare, or capacity to enjoy life's activities.

(7) Violations. Any violation of this rule may result in the imposition of any administrative penalties authorized by 32A-1-119(5), (6) and (7), and may result in the imposition of the criminal penalty of a class B misdemeanor pursuant to 32A-12-104 and -401.

#### **R81-1-19. Emergency Meetings.**

(1) Purpose. The commission recognizes that there may be times when, due to the necessity of considering matters of an emergency or urgent nature, the public notice provisions of Utah Code Sections 52-4-6(1), (2) and (3) cannot be met. Pursuant to Utah Code Section 52-4-6(5), under such circumstances those notice requirements need not be followed but rather the "best notice practicable" shall be given.

(2) Authority. This rule is enacted under the authority of Sections 63-46a-3 and 32A-1-107.

(3) Procedure. The following procedure shall govern any emergency meeting:

(a) No emergency meeting shall be held unless an attempt has been made to notify all of the members of the commission of the proposed meeting and a majority of the convened commission votes in the affirmative to hold such an emergency meeting.

(b) Public notice of the emergency meeting shall be provided as soon as practicable and shall include at a minimum the following:

(i) Written posting of the agenda and notice at the offices of the department;

(ii) If members of the commission may appear electronically or telephonically, all such notices shall specify the anchor location for the meeting at which interested persons and members of the public may attend, monitor, and participate in the open portions of the meeting;

(iii) Notice to the commissioners shall advise how they may participate telephonically or electronically and be counted as present for all purposes, including the determination of a quorum.

(iv) Written, electronic or telephonic notice shall be provided to at least one newspaper of general circulation within

the state and at least one local media correspondent.

(c) If one or more members of the commission appear electronically or telephonically, the procedures governing electronic meetings shall be followed, except for the notice requirements which shall be governed by these provisions.

(d) In convening the meeting and voting in the affirmative to hold such an emergency meeting, the commission shall affirmatively state and find what unforeseen circumstances have rendered it necessary for the commission to hold an emergency meeting to consider matters of an emergency or urgent nature such that the ordinary public notice of meetings provisions of Utah Code Section 52-4-6 could not be followed.

#### **R81-1-20. Electronic Meetings.**

(1) Purpose. Utah Code Section 52-4-7.8 requires any public body that convenes or conducts an electronic meeting to establish written procedures for such meetings. This rule establishes procedures for conducting commission meetings by electronic means.

(2) Authority. This rule is enacted under the authority of Sections 52-4-7.8, 63-46a-3 and 32A-1-107.

(3) Procedure. The following provisions govern any meeting at which one or more commissioners appear telephonically or electronically pursuant to Utah Code Section 52-4-7.8:

(a) If one or more members of the commission may participate electronically or telephonically, public notices of the meeting shall so indicate. In addition, the notice shall specify the anchor location where the members of the commission not participating electronically or telephonically will be meeting and where interested persons and the public may attend, monitor, and participate in the open portions of the meeting.

(b) Notice of the meeting and the agenda shall be posted at the anchor location. Written or electronic notice shall also be provided to at least one newspaper of general circulation within the state and to a local media correspondent. These notices shall be provided at least 24 hours before the meetings.

(c) Notice of the possibility of an electronic meeting shall be given to the commissioners at least 24 hours before the meeting. In addition, the notice shall describe how a commissioner may participate in the meeting electronically or telephonically.

(d) When notice is given of the possibility of a commissioner appearing electronically or telephonically, any commissioner may do so and shall be counted as present for purposes of a quorum and may fully participate and vote on any matter coming before the commission. At the commencement of the meeting, or at such time as any commissioner initially appears electronically or telephonically, the chair shall identify for the record all those who are appearing telephonically or electronically. Votes by members of the commission who are not at the physical location of the meeting shall be confirmed by the chair.

(e) The anchor location, unless otherwise designated in the notice, shall be at the offices of the Department of Alcoholic Beverage Control, 1625 South 900 West, Salt Lake City, Utah. The anchor location is the physical location from which the electronic meeting originates or from which the participants are connected. In addition, the anchor location shall have space and facilities so that interested persons and the public may attend, monitor, and participate in the open portions of the meeting.

#### **R81-1-21. Beer Advertising in Event Venues.**

(1) Authority. This rule is pursuant to the commission's powers and duties as the plenary policymaking body on the subject of alcoholic beverage control under 32A-1-107, and its authority to establish guidelines for the advertising of alcoholic beverages under 32A-12-401(4).

(2) Purpose.

(a) This rule establishes a "safe harbor" from administrative action being taken against beer manufacturers and retailers under the circumstances and conditions below. This rule is necessary to allow certain advertising relations to occur even though they have the appearance of violating the "tied-house" provisions of 32A-12-603, but where the reasons and purposes for the "tied-house" provisions do not apply.

(b) "Tied-house" provisions have been enacted at both the federal and state level in response to historical forces and concerns. The thrust of the laws is to prevent two particular dangers: the ability and potential ability of large firms to dominate local markets through vertical and horizontal integration, and excessive sales of alcoholic beverages produced by overly aggressive marketing techniques. The principle method used to avoid these developments was the establishment of a triple-tiered distribution system and licensing scheme where separate and distinct business enterprises engaged in the production, handling, and final sale of alcoholic beverages. The laws also prohibited certain economic arrangements and agreements between each of the three tiers of the distribution system.

(c) Utah's "tied-house" and trade practice laws prohibit a beer industry member, directly or indirectly or through an affiliate, from inducing any beer retailer to purchase alcoholic beverages from the industry member to the exclusion in whole or in part of any of those products sold or offered for sale by other persons by furnishing the retailer signs, money or other things of value except to the extent allowed under 32A-12-603. The laws prohibit a beer industry member, directly or indirectly or through an affiliate, from paying or crediting a beer retailer for any advertising, display, or distribution service. 32A-12-603(5). This includes the purchase, by an industry member, of advertising on signs, scoreboards, programs, scorecards, and the like at ballparks, racetracks or stadiums, from the retail concessionaire. See 27 C.F.R. Sec. 6.53 as referenced in 32A-12-603(5)(a). The laws also prohibit an industry member from making payments for advertising to a retailer association or a display company where the resulting benefits flow to the individual retailers. 32A-12-603(3)(b)(i)(A).

(d) Throughout the state, there are a number of large facilities which put on or allow events to occur on their premises. This includes sports arenas, ballparks, raceways, fairgrounds, equestrian facilities and the like. These facilities have a recognized area of advertising for sale in connection with the events and which is standard for their events, e.g., fence signage at ballparks. Many of these facilities are or have associated with their on-premise beer retailer, either on an annual basis, or as a temporary event permit holder. The issue is thus raised as to the legality of the advertising of beer products as part of the general advertising where other items are advertised and the facility is or has within it an on-premise beer retailer.

(3) Application of the Rule. If the conditions listed below are met, the reasons and purposes behind the "tied-house" provisions restricting relations between manufacturers and retailers do not apply or are not significantly impacted. In addition, an event facility may be unduly restricted in its ability to sell advertising and be competitive. This is based upon the facility's primary purpose being other than the sale of food and beverages, that advertising is a normal and accepted part of the business of the facility and the events that occur at the facility, that beer advertisers would be on equal footing with other advertisers, and that there is little, if any, likelihood of the purchasing of advertising space or time either having an impact on the beer retailing decisions of the retailer or of allowing the manufacturer to obtain or assert control over the retailer. Therefore, if the following conditions are met, the sale of advertising space or time to a beer manufacturer for display at the facility does not constitute the payment to a retailer for

advertising, display or distribution service, and does not otherwise constitute the furnishing of any signs, money, or other things of value to a retailer in violation of the "tied-house" provisions of 32A-12-603:

(a) The primary purpose of the facility is the hosting or putting on events, and not the sale or service of food and beverages, including alcoholic beverages;

(b) The retail licensee operates with a fixed seating capacity of more than 2,000 persons;

(c) The advertising space or time is purchased only in connection with events to be held on the premises, and not as point-of-sale advertising. The advertising space or time is not located near the beer concession area and does not reference the on-premise retailer or the availability of beer;

(d) Sales of event advertising space or time and retail beer sales are handled by different entities or divisions, that are separate and do not influence each other, and no preference in terms of beer sales or facilities are extended to a beer advertiser;

(e) The retail licensee serves other brands of malt beverages or beer than the brand manufactured or sold by the manufacturer purchasing advertising space or time. Unless demonstrated for sound business reasons unrelated to "tied-house" laws, the percentage of taps in a facility may not exceed by 10% the actual percentage of sales, by brand, in that facility or the community in the previous year;

(f) The advertising space or time is available to all types of advertisers, is not limited to any type of product, such as beer, is pursuant to an established rate card that sets forth the advertising rates equally available to any other industry member or (and at rates substantially similar for any) non-industry advertiser, and the advertising agreement does not provide for an exclusive right to an advertiser or a right to exclude other advertisers;

(g) The industry member may not share in the costs or contribute to the costs of the advertising or promotion of the beer retailer or the facility, or obtain or have any interest in the retailer or the facility; and

(h) The purchase of advertising space or time is by written agreement, a copy of which shall be provided to the department as a confidential business document, non-public, and only to be used for enforcement purposes, and the term of the agreement may not be for a period in excess of three years, including any right of renewal.

(4) This "safe harbor" is limited to its express terms, does not undermine or infringe upon general "tied-house" prohibitions, and shall be strictly construed against its applicability. This "safe harbor" also does not limit or abrogate any exception to "tied-house" prohibitions.

#### **R81-1-22. Diplomatic Embassy Shipments and Purchases.**

(1) Purpose. The Vienna Conventions on Diplomatic and Consular Relations grant foreign diplomatic missions certain exemptions from federal, state and local taxes. The United States, by treaty, is a party to the Vienna Conventions, and is obligated under international law to grant these exemptions under these agreements to accredited diplomatic missions of those countries that grant the United States reciprocal privileges. These privileges include the purchase of alcoholic beverages duty and tax free subject to certain exceptions such as indirect taxes normally incorporated in the price of goods or services, and charges levied for specific services rendered to benefit the mission.

This rule establishes department guidelines for shipments and purchases of alcohol by a foreign diplomatic mission with an accredited embassy having full diplomatic privileges under the Vienna Conventions that establishes an embassy presence in the state of Utah (hereafter "accredited foreign diplomatic mission").

(2) Application of Rule.

(a) Shipments. An accredited foreign diplomatic mission that establishes an embassy presence in Utah may have or possess, for official diplomatic use, and not for sale or resale, alcoholic beverages that have not been purchased in the state of Utah. Such products may be shipped or transported into the state of Utah under the following conditions:

(i) The embassy must first obtain the approval of this department prior to shipping or transporting its alcoholic beverages into the state.

(ii) Alcoholic beverages shipped or transported into the state must clear U.S. Customs duty free.

(iii) The department shall affix the official state label to the alcoholic beverages.

(iv) The embassy shall pay the department an administrative handling fee of \$1.00 per smallest unit (bottle, can, or keg). Payment of handling fees shall be made by the embassy using an official embassy check or embassy credit card.

(v) The alcoholic beverages may be used by the embassy only for official diplomatic functions, and may not be sold or resold.

(b) Purchases.

(i) Special Orders. An accredited foreign diplomatic mission that establishes an embassy presence in Utah may special order from the department alcoholic beverage products not presently sold in the state of Utah under the following procedures:

(A) The company or importer supplying the product must submit a price quotation to the department indicating the case price (in US dollars) for which it will sell the product to the state.

(B) The quoted case price must be reasonable (a minimum of \$10.00 per case).

(C) The product will be marked up using the department's standard pricing formula (less the state sales tax).

(D) Special orders must be placed by the embassy at least two months in advance to allow the department sufficient time to purchase and receive the product for the embassy.

(E) The product must be paid for by the embassy using an official embassy check or embassy credit card.

(F) The product may be used by the embassy only for official diplomatic functions, and may not be sold or resold.

(ii) Presently Available Merchandise. An accredited foreign diplomatic mission that establishes an embassy presence in Utah may purchase alcoholic beverages that are presently sold in the state of Utah under the following procedures:

(A) Alcoholic beverage product purchases, other than large quantity purchases, may be made by the embassy at any state store. The store shall deduct state sales tax from the purchase price.

(B) Large quantity purchase orders must be placed by the embassy at the department's licensee warehouse. The warehouse shall deduct state sales tax from the purchase price.

(C) The products must be paid for by the embassy using an official embassy check or embassy credit card.

(D) The product may be used by the embassy only for official diplomatic functions, and may not be sold or resold.

#### **R81-1-23. Sales Restrictions on Products of Limited Availability.**

(1) Purpose. Some alcoholic beverage products, especially wines, are of very limited availability from their manufacturers and suppliers to retailers including the department. When the department perceives that customer demand for these limited products may exceed the department's current and future stock levels, the department, as a public agency, may place restrictions on their sales to ensure their fair distribution to all consumers. This also encourages manufacturers and suppliers to continue to provide their products to the department. This rule establishes the procedure for allocating products of limited availability.

(2) Application of Rule.

(a) The purchasing and wine divisions of the department shall identify those products that are of limited availability and designate them as "Limited /Allocated Status" ("L Status") items. The products shall be given a special "L Status" product code designation.

(b) "L Status" products on the department's price list, in stock, or on order, do not have to be sold on demand. Their sales to the general public and to licensees and permittees may be restricted. The purchasing and wine divisions of the department may issue system-wide restrictions directing the allocation of such products which may include placing limits on the number of bottles sold per customer.

(c) Signs noting this rule shall be posted in state stores and package agencies that carry "L Status" products.

#### **R81-1-24. Responsible Alcohol Service Plan.**

(1) Authority. This rule is pursuant to the commission's powers and duties under 32A-1-107 to act as a general policymaking body on the subject of alcoholic beverage control; set policy by written rules that establish criteria and procedures for suspending or revoking licenses; and prescribe the conduct and management of any premises upon which alcoholic beverages may be sold, consumed, served, or stored.

(2) Purpose. This rule allows the commission to require a business licensed by the commission to sell, serve or store alcoholic beverages for consumption on the licensed premises that has been found by the commission to have violated any provision of the Alcoholic Beverage Control Act relating to the sale, service, or furnishing of alcoholic beverages to an intoxicated person, or to a person under the age of 21, to have a written Responsible Alcohol Service Plan.

(3) Definitions.

(a) "Commission" means the Alcoholic Beverage Control Commission.

(b) "Department" means the Department of Alcoholic Beverage Control.

(c) "Intoxication" and "intoxicated" means a person who is actually, apparently, or obviously under the influence of an alcoholic beverage, a controlled substance, a substance having the property of releasing toxic vapors, or a combination of alcoholic beverages or said substances, to a degree that the person may endanger himself or another.

(d) "Licensed Business" is a person or business entity licensed by the commission to sell, serve, and store alcoholic beverages for consumption on the premises of the business.

(e) "Manager" means a person chosen or appointed to manage, direct, or administer the operations at a licensed business. A manager may also be a supervisor.

(f) "Responsible Alcohol Service Plan" or "Plan" means a written set of policies and procedures of a licensed business that outline measures that will be taken by the business to prevent employees of the licensed business from:

(i) over-serving alcoholic beverages to customers;

(ii) serving alcoholic beverages to customers who are actually, apparently, or obviously intoxicated; and

(iii) serving alcoholic beverages to persons under the age of 21.

(h) "Server" means an employee who actually makes available, serves to, or provides an alcoholic beverage to a customer for consumption on the business premises.

(i) "Supervisor" means an employee who, under the direction of a manager or owner, directs or has the responsibility to direct, transfer, or assign duties to employees who actually provide alcoholic beverages to customers on the premises of the business.

(4) Application of Rule.

(a)(i) The commission may direct that a licensed business that has been found by the commission to have violated any

provision of the Alcoholic Beverage Control Act relating to the sale, service, or furnishing of alcoholic beverages to an intoxicated person, or to a person under the age of 21, submit to the department a Responsible Alcohol Service Plan.

(ii) The licensee thereafter shall maintain a Plan as a condition of continued licensing and relicensing by the commission.

(b) Any Plan at a minimum shall:

(i) outline the policies and procedures of the licensed business to:

(A) prevent over-service of alcohol;

(B) prevent service of alcohol to persons who are intoxicated;

(C) prevent service of alcohol to persons under the age of 21;

(D) provide alternate transportation options for problem customers; and

(E) deal with hostile customers;

(ii) require that all managers, supervisors, servers, security personnel, and others who are involved in the sale, service or furnishing of alcohol, agree to follow the policies and procedures of the Plan;

(iii) require adherence to the Plan as a condition of employment;

(iv) require a commitment by management to monitor employee compliance with the Plan;

(v) require periodic training sessions on the house policies and procedures in the Plan, and on the techniques of responsible service of alcohol taught in the Alcohol Training and Education Seminar required by 62A-15-401, such as:

(A) identifying legal forms of ID, checking ID, and recognizing fake ID;

(B) identifying persons under the age of 21;

(C) discussing the legal definition of intoxication;

(D) identifying behavioral signs of intoxication;

(E) discussing techniques for monitoring and controlling consumption such as:

(1) drink counting;

(2) slowing down alcohol service;

(3) offering food or nonalcoholic beverages; and

(4) cutting off alcohol service;

(F) discussing third party or "dram shop" liability for the unlawful service of alcohol to intoxicated persons and persons under the age of 21 as outlined in 32A-14a-101 through -105; and

(G) discussing the potential criminal, civil and administrative penalties for over-serving alcohol, selling, serving, or otherwise furnishing alcohol to persons who are intoxicated, or to persons who are under the age of 21.

(c) The licensed business may choose to include in the Plan incentives for those employees who deserve special recognition for their responsible service of alcohol.

(d) The Plan shall be available on the premises of the licensed business so as to be accessible to all employees of the licensed business who are involved in the sale, service or furnishing of alcohol.

(e) The Plan shall be available on the premises of the licensed business for inspection by representatives of the commission, department and by law enforcement officers.

(f) Any licensed business that fails to submit to the department a Plan as directed by the commission pursuant to Subsection (4)(a), or to have a Plan available for inspection as required by Subsection (4)(e), shall be subject to the immediate suspension or revocation of its current license, and shall not be granted a renewal of its license by the commission.

(g) The department, at the request of a licensed business, may provide assistance in the preparation of a Plan.

**R81-1-25. Sexually-Oriented Entertainers and Stage Approvals.**

(1) Authority. This rule is pursuant to:

(a) the police powers of the state under 32A-1-103 to regulate the sale, service and consumption of alcoholic beverages in a manner that protects the public health, peace, safety, welfare, and morals;

(b) the commission's powers and duties under 32A-1-107 to prescribe the conduct and management of any premises upon which alcoholic beverages may be sold, consumed, served, or stored; and

(c) 32A-4-106(22), 32A-4-307(22), 32A-5-107(40), 32A-7-106(5), 32A-10-206(14), and 32A-10-306(5) that prescribe the attire and conduct of sexually-oriented entertainers in premises regulated by the commission and require them to perform only upon a stage or in a designated area approved by the commission.

(2) Purpose. This rule:

(a) establishes reasonable and uniform guidelines governing the time, place and manner of operation of premises regulated by the commission that have sexually-oriented entertainers so as to reduce the adverse secondary effects that such premises have upon communities, and to protect the health, peace, safety, welfare, and morals of the residents of those communities;

(b) establishes guidelines used by the commission to approve stages or designated performance areas where sexually-oriented entertainers may perform;

(c) establishes guidelines for licensees and permittees to control the attire and conduct of sexually-oriented entertainers when the entertainers mingle with patrons or other persons in premises regulated by the commission; and

(d) shall be construed to protect the governmental interests identified by this rule in a manner consistent with protections provided by the constitutions of the United States and the state of Utah.

(3) Definitions.

(a) "Licensee" or "permittee" means a retailer authorized by the commission to sell, serve, and allow consumption of alcoholic beverages on its premises regardless of whether the retailer also holds a locally-issued sexually-oriented business license.

(b) "Semi-nude" means a state of dress in which opaque attire, costume, or clothing covers no more than the nipple and areola of the female breast and the male or female genitals, pubic area, and anus, which covering of the genitals, pubic area, and anus is no narrower than four inches (4") wide in the front, five inches (5") wide in the back, and does not taper to less than one inch (1") wide at the narrowest point.

(c) "Sexually-oriented entertainer" means any person who appears at or performs on behalf of or at the request of a licensee or permittee on a premises regulated by the commission on a contractual or voluntary basis, whether or not the person is designated an employee, independent contractor, agent, or otherwise of the licensee or permittee, for the entertainment of patrons, and who appears semi-nude.

(d) "Straddle dancing" means the use by any sexually-oriented entertainer of any part of his or her body to touch the genitals, pubic area, buttocks, anus or female breast of any other person. Conduct shall be "straddle dancing" regardless of whether the "touch" is direct or through attire, costume, or clothing. "Straddle dancing", shall include but not be limited to conduct commonly referred to by the terms "lap dancing", "table dancing", and "face dancing".

(4) Application of Rule.

(a) A licensee or permittee shall not allow:

(i) a sexually-oriented entertainer to appear or perform except on a stage or in a performance area that complies with this rule, and has been approved by the commission;

(ii) a sexually-oriented entertainer, while in the portion of the premises used by patrons, to be dressed in other than opaque

clothing which covers and conceals the entertainer's performance attire or costume from the top of the breast to the knee;

(iii) a sexually-oriented entertainer to engage in straddle dancing with another person on the premises;

(iv) a sexually-oriented entertainer to touch a patron during the entertainer's performance, or while the entertainer is dressed in performance attire or costume;

(v) a patron to be on the stage or in the performance area while a sexually-oriented entertainer is appearing or performing on the stage or in the performance area;

(vi) a patron to touch a sexually-oriented entertainer during the entertainer's performance, or while the entertainer is dressed in performance attire or costume; or

(vii) a patron to place money or any other object on or within the costume or the person of any sexually-oriented entertainer.

(b) Nothing herein precludes a local authority from being more restrictive with respect to attire and conduct of sexually-oriented entertainers in premises regulated by the commission.

(c) Stage requirements.

(i) The following shall submit for commission approval a floor-plan containing the location of any stage or performance area where sexually-oriented entertainers perform:

(A) an applicant for a license or permit from the commission who intends to have sexually-oriented entertainment on the premises;

(B) a current licensee or permittee of the commission that did not have sexually-oriented entertainment on the premises when application was made for the license or permit, but now intends to have such entertainment on the premises; or

(C) a current licensee or permittee of the commission that has sexually-oriented entertainment on the premises, but has not previously had the stage or performance area approved by the commission.

(ii) The commission may approve a stage or performance area where sexually-oriented entertainers may perform only if the stage or performance area:

(A) is horizontally separated from the portion of the premises on which patrons are allowed by a minimum of three (3) feet, which separation shall be delineated by a physical barrier or railing that is at least three (3) feet high from the floor;

(B) is configured so as to preclude a patron from:

(I) touching the sexually-oriented entertainer;

(II) placing any money or object on or within the costume or the person of any sexually-oriented entertainer;

(III) is configured so as to preclude a sexually-oriented entertainer from touching a patron; and

(IV) conforms to the requirements of any local ordinance of the jurisdiction where the premise is located relating to distance separation requirements between sexually-oriented entertainers and patrons that may be more restrictive than the requirements of Sections (4)(c)(i) and (ii) of this rule.

(iii) The person applying for approval of a stage or performance area shall submit with their application:

(A) a diagram, drawn to scale, of the premises of the business including the location of any stage or performance area where sexually-oriented entertainers or performers will perform;

(B) a copy of any applicable local ordinance relating to distance separation requirements between sexually-oriented entertainers and patrons; and

(C) evidence of compliance with any such applicable local ordinance.

**R81. Alcoholic Beverage Control, Administration.****R81-2. State Stores.****R81-2-1. Special Orders of Liquor by Public.**

(1) Purpose. A special order product is any product not listed on the department's product/price list. This rule outlines the procedures for accepting, processing, ordering and disbursing special orders.

(2) Application of Rule.

(a) Any state store may process special order requests.

(b) Any individual may place a special order at any state liquor store. Special orders may be placed by groups of individuals, organizations, or retail licensees either at a state liquor store or with the purchasing division of the department. A special order shall be processed as follows:

(i) A special order form must be filled out and signed by the customer for each special order product purchased. The state liquor store shall forward the form to the department's purchasing division.

(ii) Special orders may be ordered only by the case, not by the bottle. There is no handling fee on special orders.

(iii) Customers should be advised to allow at least two months between processing and delivery of a special order.

(iv) Special orders for beer will be subject to availability and according to the distributor's shipping criteria.

(v) If a group, organization, or retail licensee places a special order, they may designate a particular package agency or state store to which they want the special order items to be sent. They shall include the name and telephone number of the individual who will pick up and pay for the special order product at that location.

(vi) A special order must include the product name and distributor or shipper.

(vii) The department's special order buyer shall obtain a retail bottle price and call the customer and/or state liquor store for clearance to proceed with the order.

(viii) When the special order arrives, the package agency or state store to which the special order has been sent shall immediately notify the customer, and the customer shall pick up the order as soon as possible after notification. The customer shall pay for and pick up the entire special order. The package agency or state store is not allowed to warehouse special ordered products. All merchandise must be cleared from the system before a reorder on that special order item is allowed.

(ix) Special orders may only be placed by customers. State stores may not place a special order unrelated to a particular customer as a means to sell unlisted products to the general public.

(x) Special orders of beer, wine or spirits with lower prices than quoted to the department on products handled by or similar to products handled by the department will be allowed only on two conditions:

(A) the department has the opportunity to purchase the same product at the same price; or

(B) the individual, group of individuals, organization, or retail licensee name is part of the design of the front label found on the product.

**R81-2-2. Liquor Returns, Refunds and Exchanges.**

(1) Purpose. This rule establishes guidelines for accepting liquor returns, refunds and exchanges.

(2) Application of Rule.

(a) Unsaleable Product. Unsaleable product includes product that is spoiled, leaking, contains foreign matter, or is otherwise defective. The department will accept for refund or exchange liquor merchandise that is unsaleable subject to the following conditions and restrictions:

(i) Returns of unsaleable merchandise are subject to approval by the store manager to verify that the product is indeed defective.

(ii) The product must be returned within a reasonable time of the date of purchase. Discontinued products may not be returned. Vintages of wine that are not currently being retailed by the department may not be returned.

(iii) All returned product must have the state stamp attached to each bottle.

(iv) No refunds shall be given for wines returned due to spoilage such as corkiness, oxidation, and secondary fermentation, or due to the customer's unfamiliarity with the characteristics of the product. Such wines may only be exchanged for another bottle of the same product. Wine will not be accepted for refund or exchange if the return is a result of improper extraction of the cork.

(b) Saleable Product. Store managers are authorized to accept saleable returned merchandise from licensees, single event permit holders, convention groups, and individual customers, subject to the following conditions and restrictions:

(i) Returns of saleable merchandise are subject to approval by the store manager. The customer may receive a refund or exchange of product for the return. Large returns will be accepted from licensees, single event permittees, convention groups and other organizations only if prior arrangements have been made with the store manager.

(ii) Returns should be made within a reasonable amount of time from the date of purchase, and all returned merchandise must be in good condition with a state stamp attached to every bottle. Returns of \$50.00 or more shall not be accepted without a receipt. Therefore, it is necessary for cashiers to print a receipt for all purchases of \$50.00 or more. Signs should be posted at each cash register informing customers of this requirement. Merchandise shall be refunded at the price paid by the customer, or the current price, whichever is lower.

(iii) Wine and beer, due to their perishable nature and susceptibility to temperature changes, should be accepted back with caution. These products can only be returned if the store manager has personal knowledge of how they have been handled and stored.

(iv) If the total amount of the return is more than \$500 the store manager shall fill out a Returned Merchandise Acknowledgment Receipt@ (LQ-45), and submit a copy to the office. A refund check will be processed at the office and mailed to the customer. Customers need to be informed that it generally takes three to six weeks to process payment.

(v) If the total value of the returned merchandise is more than \$1,000, a 10% restocking fee shall be charged on the total amount.

(c) Unreturnable Products. The following items may not be returned:

(i) All limited item wines - wines that are available in very limited quantities.

(ii) Any products that have been chilled, over-heated, or label-damaged.

(iii) Outdated (not listed on the department's product/price list) and discontinued products.

(iv) Merchandise purchased by catering services.

(d) A cash register return receipt shall be completed for each product return. The following information must be on the receipt: the customer's name, address, telephone number, driver's license number, and signature. The cashier must attach the receipt to the cash register closing report.

**R81-2-3. Warning Sign.**

All state stores shall display in a prominent place a "warning sign" as defined in R81-1-2.

**R81-2-4. Identification Guidelines to Purchase Liquor.**

The department accepts only four forms of identification to establish proof of age for the purchase of liquor by customers:

(1) A current valid driver's license that includes date of

birth and has a picture affixed and is issued in this state under Title 53, Chapter 3, Uniform Driver License Act, or in accordance with the laws of another state;

(2) A current valid identification card that includes date of birth and has a picture affixed issued by this state under Title 53, Chapter 3, Part 8, Identification Card Act, or issued by another state that is substantially similar to this state's identification card;

(3) A current valid military identification card that includes date of birth and has a picture affixed; or

(4) A current valid passport.

If a person's age is still in question after presenting proof of age, the department may require the person to also sign a "statement of age" form as provided in 32A-1-303. The form shall be filed alphabetically by the close of the business day, and shall be maintained on file for a period of three years.

#### **R81-2-5. Advertising.**

The advertising or promotion of liquor products within state stores is prohibited. An employee may inform the customer as to the characteristics of a particular brand or type of liquor, provided the information is linked to a comparison with other brands or types.

#### **R81-2-6. Refusal of Service.**

An employee of the store may refuse to sell liquor to any person whom the employee has reason to believe is purchasing or attempting to purchase liquor in violation of Utah Alcoholic Beverage Control laws. The employee may also detain the person and hold the person's form of identification in a reasonable manner and for a reasonable length of time for the purpose of informing a peace officer of a suspected violation.

#### **R81-2-7. Minors on Premises.**

No person under the age of 21 years may enter a state liquor store unless accompanied by a parent, legal guardian, or spouse that is 21 years of age or older. Signs notifying the public of this rule shall be posted in a prominent place on the doors or windows of the state liquor store.

#### **R81-2-8. Accepting Checks as Payment for Liquor.**

(1) A state liquor store may accept a check as payment for liquor from an individual customer only under the following conditions:

(a) The check may be drawn only on a United States, Canadian, Puerto Rican, or U.S. Virgin Islands financial institution.

(b) The following must appear on the check:

(i) name (must be imprinted);

(ii) address (if post office box, the full address must be written in); and

(iii) telephone number (may be hand-written).

(c) The check must be made out to the Department of Alcoholic Beverage Control, or D.A.B.C. (no two-party checks).

(d) The check must be made out for the exact amount of the purchase.

(e) An acceptable form of identification is required for any check written over \$50.00, and may be required at the discretion of the cashier or store manager for any check written under \$50.00. Acceptable forms of identification include those listed in R81-2-4.

(2) A state liquor store may accept a check as payment for liquor from a licensee only under the following conditions:

(a) The check must be imprinted with the name of the licensee's business, its business address, and its telephone number.

(b) The check must be made out to the Department of Alcoholic Beverage Control, or D.A.B.C. (no two-party checks).

(c) The check must be made out for the exact amount of

the purchase.

(3) A state liquor store may accept a business or company check as payment for liquor only under the following conditions:

(a) The check may be drawn only on a United States, Canadian, Puerto Rican, or U.S. Virgin Islands financial institution.

(b) The check must be imprinted with the name of the business or company, its business address, and its telephone number.

(c) The check must be made out to the Department of Alcoholic Beverage Control, or D.A.B.C. (no two-party checks).

(d) The check must be made out for the exact amount of the purchase.

(e) Further identification is not required.

(f) The department may place a maximum limit on the total dollar amount in checks a business or company may tender to the department in a 24 hour period.

(4) A state liquor store may accept a traveler's check as payment for liquor under the following conditions:

(a) Traveler's checks shall be in "US Dollars".

(b) Each traveler's check shall have been previously signed by the holder of the check at the issuing bank or company. The check shall then be signed a second time in front of the DABC store employee that is handling the sale. The store employee shall compare the two signatures to verify that the signatures match, and shall otherwise examine the check to verify its validity.

(c) Traveler's checks shall be made out to the Department of Alcoholic Beverage Control or "D.A.B.C."

(d) When accepting a traveler's check for \$50.00 or more, the store employee shall:

(i) call the issuing bank or company and receive an authorization, and authorization number; and

(ii) check the identification of the customer. Acceptable forms of identification include those listed in R81-2-4.

(e) On the upper, left hand corner of a traveler's check for \$50.00 or more, the employee shall write:

(i) the authorization number from the issuing bank or company;

(ii) the type of identification used including expiration date and individual's identification number; and

(iii) the store employee's initials.

#### **R81-2-9. Accepting Credit Cards as Payment for Liquor.**

(1) Purpose. This rule explains the procedures to be followed by state liquor store employees in accepting credit cards for the purchase of alcoholic beverages.

(2) Application of Rule.

(a) The owner of the credit card must furnish the cashier with their actual credit card. No sale may be based on the customer merely furnishing a credit card number, or another person's credit card, including that of their spouse.

(b) The cashier shall examine the security features on the card such as signature, account number, expiration date, and hologram before accepting the card.

(c) The card must be signed by the card holder.

(d) If for any reason the credit card cannot be scanned, the cashier shall hand-key the credit card number into the cash register keyboard. If the transaction is approved, the cashier shall imprint a copy of the credit card, and have the card holder sign it.

(e) After the cashier scans or hand-keys a credit card, the credit card company may approve or reject the transaction. A rejection may indicate that the card has been stolen, the customer's account is over-drawn, the card has expired, or some other problem. The cashier may receive several messages from the credit card company.

(i) If the message is "decline" or "card not accepted", the

cashier should return the card to the customer, suggest another form of payment, and suggest that the customer contact the issuer of the card.

(ii) If the message is "call" or "call hold", the store employee should hold the card and either phone the credit card company's voice authorization center for more information, or enter a "code 10" request. The voice authorization center may instruct that the card be confiscated. The card should then be obtained only if it can be done by peaceful means, and if the card holder voluntarily agrees to surrender the card. The "code 10" request will result in the credit card company researching the status of the card and approving the transaction with a "yes" or rejecting the transaction with a "no" prompt. At no time should store employees put themselves at risk by confiscating a credit card against the desires of the cardholder. If the card can be willingly surrendered and confiscated, the store employee should destroy the card by cutting it in half lengthwise shortly after leaving the customer's presence. The card pieces should then be sent to the card owner's bank with a completed ABC Department LQ-55 form having been filled out by a store employee.

(f) Credit card receipts contain confidential information that must be safeguarded. Cashiers should not throw the receipts in the trash. State store managers and their employees should consult their regional manager concerning proper storage and disposal of receipts.

(g) Refunds, or exchanges of products of unequal value that were purchased with a credit card, shall be handled by crediting the customer's credit card account. The cash register must be balanced by doing a return at the register.

(h) Licensee purchases may not be paid by credit card. Licensee purchases may be only in cash or by check.

#### **R81-2-10. State Store Hours.**

(1) Sale or delivery of liquor may not be made on the premises of any state store, nor may any state store be kept open for the sale of liquor:

- (a) on any day prohibited by 32A-2-103(6);
- (b) on any other day before 10 a.m. or later than 10 p.m.

(2) Subject to the restrictions of subsection (1), the department may adjust the sales hours for each state store based on such factors as the locality of the store, tourist traffic, demographics, population to be served, and customer demand in the area.

#### **R81-2-11. Industry Members in State Stores.**

An industry member, as defined in 32A-12-601, shall be limited to the customer areas of a state store except as follows:

(1) An industry member may be allowed in the storage area of a state store with the approval of the store manager for the limited purpose of stocking the industry member's own products; and

(2) An industry member may be allowed in the office or other suitable area of a state store with the approval of the store manager for the purpose of discussing the industry member's products.

**Notice of Continuation September 6, 2006 301 to 32A-1-305**

**R81. Alcoholic Beverage Control, Administration.****R81-3. Package Agencies.****R81-3-1. Definition.**

Package agencies are retail liquor outlets operated by private persons under contract with the department for the purpose of selling packaged liquor from facilities other than state liquor stores for off premise consumption. Package agencies are classified into five types:

Type 1 - A package agency under contract with the department which is operated in conjunction with a resort environment (e.g., hotel, ski lodge, summer recreation area).

Type 2 - A package agency under contract with the department which is in conjunction with another business where the primary source of income to the operator is not from the sale of liquor.

Type 3 - A package agency under contract with the department which is not in conjunction with another business, but is in existence for the sole purpose of selling liquor.

Type 4 - A package agency under contract with the department which is located within a facility approved by the commission for the purpose of selling and delivering liquor to tenants or occupants of specific rooms which have been leased, rented, or licensed within the same facility. A type 4 package agency shall not be open to the general public.

Type 5 - A package agency under contract with the department which is located within a winery that has been granted a winery license by the commission.

The commission may grant type 4 package agency privileges to a type 1 package agency.

**R81-3-2. Change of Location.**

Any change of package agency location must be requested in writing and approved in advance by the commission.

**R81-3-3. Bonds.**

No part of any surety bond required in Section 32A-3-105, may be withdrawn during the time the package agency contract is in effect. If the package agent fails to maintain a valid surety bond, the package agency contract shall be immediately suspended until a valid bond is obtained. Failure to obtain a bond within 30 days of notification by the department of the delinquency shall result in an automatic rescission of the package agency contract.

**R81-3-4. Change of Package Agent.**

Pursuant to Section 32A-3-106(17), any change of the package agent designated in the department's package agency agreement is a violation of these rules and shall result in the immediate termination of the package agency contract.

**R81-3-5. Special Orders of Liquor by Public.**

(1) Purpose. A special order product is any product not listed on the department's product/price list. This rule outlines the procedures for accepting, processing, ordering and disbursing special orders.

(2) Application of Rule.

(a) Only type 2 and 3 package agencies may process special order requests.

(b) Any individual may place a special order at any type 2 or 3 package agency. Special orders may be placed by groups of individuals, organizations, or retail licensees either at a type 2 or 3 package agency or with the purchasing division of the department. A special order shall be processed as follows:

(i) A special order form must be filled out and signed by the customer for each special order product purchased. The package agency shall forward the form to the department's purchasing division.

(ii) Special orders may be ordered only by the case, not by the bottle. There is no handling fee on special orders.

(iii) Customers should be advised to allow at least two months between processing and delivery of a special order.

(iv) Special orders for beer will be subject to availability and according to the distributor's shipping criteria.

(v) If a group, organization, or retail licensee places a special order, they may designate a particular package agency or state store to which they want the special order items to be sent. They shall include the name and telephone number of the individual who will pick up and pay for the special order product at that location.

(vi) A special order must include the product name and distributor or shipper.

(vii) The department's special order buyer shall obtain a retail bottle price and call the customer and/or package agent for clearance to proceed with the order.

(viii) When the special order arrives, the package agency or state store to which the special order has been sent shall immediately notify the customer, and the customer shall pick up the order as soon as possible after notification. The customer shall pay for and pick up the entire special order. The package agency or state store is not allowed to warehouse special ordered products. All merchandise must be cleared from the system before a reorder on that special order item is allowed.

(ix) Special orders may only be placed by customers. Package agencies may not place a special order unrelated to a particular customer as a means to sell unlisted products to the general public.

(x) Special orders of beer, wine or spirits with lower prices than quoted to the department on products handled by or similar to products handled by the department will be allowed only on two conditions:

(A) the department has the opportunity to purchase the same product at the same price; or

(B) the individual, group of individuals, organization, or retail licensee name is part of the design of the front label found on the product.

**R81-3-6. Liquor Returns, Refunds and Exchanges.**

(1) Purpose. This rule establishes guidelines for accepting liquor returns, refunds and exchanges.

(2) Application of Rule.

(a) Unsaleable Product. Unsaleable product includes product that is spoiled, leaking, contains foreign matter, or is otherwise defective. The department will accept for refund or exchange, liquor merchandise that is unsaleable subject to the following conditions and restrictions:

(i) Returns of unsaleable merchandise are subject to approval by the package agent to verify that the product is indeed defective.

(ii) The product must be returned within a reasonable time of the date of purchase. Discontinued products may not be returned. Vintages of wine that are not currently being retailed by the department may not be returned.

(iii) All returned product must have the state stamp attached to each bottle.

(iv) No refunds shall be given for wines returned due to spoilage such as corkiness, oxidation, and secondary fermentation, or due to the customer's unfamiliarity with the characteristics of the product. Such wines may only be exchanged for another bottle of the same product. Wine will not be accepted for refund or exchange if the return is a result of improper extraction of the cork.

(v) Unsaleable product shall be held at the package agency and accounted for in the same manner as breakage.

(b) Saleable Product. Package agents are authorized to accept saleable returned merchandise from licensees, single event permit holders, convention groups, and individual customers, subject to the following conditions and restrictions:

(i) Returns of saleable merchandise are subject to approval

by the package agent. The customer may receive a refund or exchange of product for the return. Large returns will be accepted from licensees, single event permittees, convention groups and other organizations only if prior arrangements have been made with the package agent.

(ii) Returns should be made within a reasonable amount of time from the date of purchase, and all returned merchandise must be in good condition with a state stamp attached to every bottle. Returns of \$50.00 or more shall not be accepted without a receipt. Therefore, it is necessary for cashiers to print a receipt for all purchases of \$50.00 or more. Signs should be posted at each cash register informing customers of this requirement. Merchandise shall be refunded at the price paid by the customer, or the current price, whichever is lower.

(iii) Wine and beer, due to their perishable nature and susceptibility to temperature changes, should be accepted back with caution. These products can only be returned if the package agent has personal knowledge of how they have been handled and stored.

(iv) If the total amount of the return is more than \$500 the package agent shall fill out a "Returned Merchandise Acknowledgment Receipt" (LQ-45), and submit a copy to the office. A refund check will be processed at the office and mailed to the customer. Customers need to be informed that it generally takes three to six weeks to process payment.

(v) If the total value of the returned merchandise is more than \$1,000, a 10% restocking fee shall be charged on the total amount.

(c) Unreturnable Products. The following items may not be returned:

(i) All limited item wines - wines that are available in very limited quantities.

(ii) Any products that have been chilled, over-heated, or label-damaged.

(iii) Outdated (not listed on the department's product/price list) and discontinued products.

(iv) Merchandise purchased by catering services.

(v) Unsaleable product shall be held at the package agency and accounted for in the same manner as breakage.

(d) A cash register return receipt shall be completed for each product return. The following information must be on the receipt: the customer's name, address, telephone number, driver's license number, and signature. The cashier must attach the receipt to the cash register closing report.

#### **R81-3-7. Warning Sign.**

All package agencies shall display in a prominent place a "warning sign" as defined in R81-1-2.

#### **R81-3-8. Identification Guidelines to Purchase Liquor.**

All package agencies shall accept only four forms of identification to establish proof of age for the purchase of liquor by customers:

(1) A current valid driver's license that includes date of birth and has a picture affixed and is issued in this state under Title 53, Chapter 3, Uniform Driver License Act or in accordance with the laws of another state;

(2) A current valid identification card that includes date of birth and has a picture affixed issued by this state under Title 53, Chapter 3, Part 8, Identification Card Act, or issued by another state that is substantially similar to this state's identification card;

(3) A current valid military identification card that includes date of birth and has a picture affixed; or

(4) A current valid passport.

If a person's age is still in question after presenting proof of age, the package agency may require the person to also sign a "statement of age" form as provided in 32A-1-303. The form shall be filed alphabetically by the close of business day, and

shall be maintained on file for a period of three years.

#### **R81-3-9. Promotion and Listing of Products.**

(1) An operator or employee of a Type 1, 2, or 3 package agency, as defined in R81-3-1, may not promote a particular brand or type of liquor product while on duty at the package agency. An operator or employee may inform a customer as to the characteristics of a particular brand or type of liquor, provided the information is linked to a comparison with other brands or types.

(2) A package agency may not advertise alcoholic beverages on billboards except:

(a) a Type 1 package agency, as defined in R81-3-1, may provide informational signs on the premises of the hotel or resort directing persons to the location of the hotel=s or resort=s Type 1 package agency;

(b) a Type 2 package agency, as defined in R81-3-1, may provide informational signs on the premises of its business directing persons to the location of the Type 2 package agency within the business; and

(c) a Type 5 package agency, as defined in R81-3-1, may advertise the location of the winery and the Type 5 package agency, and may advertise the alcoholic beverage products produced by the winery and sold at the Type 5 package agency under the guidelines of R81-1-17 for advertising alcoholic beverages.

(3) A package agency may not display price lists in windows or showcases visible to passersby except:

(a) a Type 1 package agency, as defined in R81-3-1, may provide a price list in each guest room of the hotel or resort containing the code, number, brand, size and price of each item it carries for sale at the Type 1 package agency;

(b) a Type 4 package agency, as defined in R81-3-1, may provide a price list of the code number, brand, size, and price of each item it carries for sale to the tenants or occupants of the specific leased, rented, or licensed rooms within the facility; and

(c) a Type 5 package agency, as defined in R81-3-1, may provide a price list on the premises of the winery, winery tasting room, and at the entrance of the Type 5 package agency of the code, number, brand, size, and price of each item it carries for sale at the Type 5 package agency.

#### **R81-3-10. Non-Consignment Inventory.**

Type 1, 4 and 5 package agencies shall be on a non-consignment inventory status where the agency owns the inventory.

#### **R81-3-11. Application.**

An application for a package agency shall be included in the agenda of the monthly commission meeting for consideration for issuance of a package agency contract when the requirements of Sections 32A-3-102, -103, and -105 have been met, a completed application has been received by the department, and when the package agency premises have been inspected by the department. No application fee is required for type 2 and 3 package agency applicants.

#### **R81-3-12. Evaluation Guidelines of Package Agencies.**

Type 2 and 3 package agencies shall:

(1) serve a population of at least 6,000 people comprised of both permanent residents and tourists;

(2) not be established or maintained within a one mile radius of another type 2 or 3 package agency unless it can be clearly demonstrated that it is in the best interest of the state to establish and maintain the outlet at that location; and

(3) maintain a gross profit to the state of \$12,000 annually to assure adequate service to the public.

#### **R81-3-13. Operational Restrictions.**

## (1) Hours of Operation.

(a) Type 1, 2, and 5 package agencies may operate from 10:00 a.m. until 12:00 midnight, Monday through Saturday. However, the actual operating hours may be less in the discretion of the package agent with the approval of the department. Type 2 agencies shall be open for business at least seven hours a day, five days a week, except where closure is otherwise required by law.

(b) Type 3 package agencies may operate from 10:00 a.m. until 10:00 p.m., Monday through Saturday, but may remain closed on Mondays in the discretion of the package agent. However, the actual operating hours may be less in the discretion of the package agent with the approval of the department, provided the agency operates at least seven hours a day.

(c) Type 4 package agencies may operate from 10:00 a.m. until 1:00 a.m., Monday through Friday, and 10:00 a.m. until 12:00 midnight on Saturday. However, the actual operating hours may be less in the discretion of the package agent with the approval of the department.

(d) Any change in the hours of operation of any package agency requires prior department approval, and shall be submitted in writing by the package agent to the department.

(e) A package agency, regardless of type, shall not operate on Sundays, legal holidays, and election days where the sale of alcoholic beverages is prohibited by law until the polls have closed. If a legal holiday falls on a Sunday, the following Monday will be observed as the holiday.

(2) Size of Outlet. The retail selling space devoted to liquor sales in a type 2 or 3 package agency must be at least one hundred square feet.

(3) Inventory Size. Type 2 and 3 package agencies must maintain at least fifty code numbers of inventory at a retail value of at least five thousand dollars and must maintain a representative inventory by brand, code, and size.

(4) Access to General Public. Type 1, 2, and 3 package agencies must be easily accessible to the general consuming public.

(5) Purchase of Inventory. All new package agencies, at the discretion of the department, will purchase and maintain their inventory of liquor.

**R81-3-14. Type 5 Package Agencies.**

(1) Purpose. A type 5 package agency is for the limited purpose of allowing a winery to sell at its winery location the packaged wine product it actually produces to the general public for off-premise consumption. This rule establishes guidelines and procedures for type 5 package agencies.

## (2) Application of Rule.

(a) The package agency must be located on the winery premises at a location approved by the commission.

(b) The package agency may only sell products produced at the winery, and may not carry the products of other alcoholic beverage manufacturers.

(c) The product produced by the winery and sold in the type 5 package agency need not be shipped from the winery to the department warehouse and then back to the package agency. The bottles for sale may be moved directly from the winery storage area to the package agency provided that proper record-keeping is maintained on forms provided by the department. Records required by the department shall be kept current and available to the department for auditing purposes. Records must be maintained for at least three years. The package agency shall submit to the department a completed monthly sales report form which specifies the variety and number of bottles sold from the package agency. This report must be submitted to the department within the first five working days of the month. A club or restaurant purchases form must be filled out for every licensee purchase.

(d) Direct deliveries to licensees are prohibited. Wines must be purchased and picked up by the licensees or their designated agents at the Type 5 package agency.

(e) The type 5 package agency shall follow the same laws, rules, policies, and procedures applicable to other package agencies as to the retail price of products.

(f) The days and hours of sale of the type 5 package agency shall be in accordance with 32A-3-106(10).

**R81-3-15. Refusal of Service.**

An employee of the package agency may refuse to sell liquor to any person whom the employee has reason to believe is purchasing or attempting to purchase liquor in violation of the Utah Alcoholic Beverage Control laws. The employee may also detain the person and hold the person's form of identification in a reasonable manner and for a reasonable length of time for the purpose of informing a peace officer of a suspected violation.

**R81-3-16. Minors on Premises.**

No person under the age of 21 years may enter a package agency unless accompanied by a parent, legal guardian, or spouse that is 21 years of age or older. Signs notifying the public of this rule shall be posted in a prominent place on the doors or windows of the package agency.

**R81-3-17. Consignment Inventory Package Agencies.**

(1) Purpose. At the discretion of the department, liquor may be provided by the department to a Type 2 and Type 3 package agency for sale on consignment pursuant to 32A-3-106(2)(b). This rule provides the procedures for such consignment sales.

## (2) Application of the Rule.

## (a) Consignment Inventory.

(i) The initial amount of consignment inventory furnished to the package agency shall be established by the department's regional manager assigned to the package agency.

(ii) The consignment inventory amount shall be posted to the department's accounting system as "Consignment Inventory Account."

(iii) The consignment inventory amount shall be stated in the department's contract with the package agency.

(iv) Any adjustment to the consignment inventory amount shall be done through the use of a transfer, authorization, or payment of money. A copy of the transfer, adjusting authorization, or evidence of payment shall be included in the package agency's file.

(v) The consignment inventory amount may be adjusted from time to time based on the package agency's monthly average sales. Any adjustment shall be made by a properly executed amendment to the department's contract with the package agency.

## (b) Payments.

(i) After receipt of a shipment of merchandise, the package agent shall submit a check to the department within 30 days of the authorization/transfer date.

(ii) The check shall be annotated with the authorization, transfer and credit memo numbers to which it applies as follows: Authorization(s) + or - transfers - credit memos = check.

(iii) All delivery discrepancies shall be resolved immediately by contacting the department's warehouse shipping manager. Payment shall be made on all authorizations/transfers by their due date whether or not any discrepancies have been resolved.

(iv) Any returned checks to the department from a package agent is grounds to require the package agent to provide a certified check to pay for future shipments.

(v) If a check for an authorization is not received by the department within 30 days of its due date, the department may assess the legal rate of interest on the amount owed, or may

terminate the contract with the package agent and close the package agency.

(c) Transfers.

(i) Transfers (+ or -) shall be adjusted to the package agency's next payment due the department.

(ii) Transfer in will add to the amount owed to the department on the next check due to the department.

(iii) Transfer out will subtract from the amount owed to the department on the next check due to the department.

(d) Audits.

(i) Any package agency that is on a consignment contract shall keep a daily log of sales.

(ii) The regional manager shall audit the package agency at least once every six months.

(iii) The package agency is subject to a department audit at any time.

**R81-3-18. Type 4 Package Agency Room Service - Mini-Bottle/187 ml Wine Sales.**

(1) Purpose. Pursuant to 32A-1-116, the department may not purchase or stock alcoholic beverages in containers smaller than 200 milliliters, except as otherwise allowed by the commission. The commission hereby allows the limited use of 50 milliliter "mini-bottles" of distilled spirits and 187 milliliter bottles of wine for room service sales by Type 4 package agencies located in hotels and resorts. The following conditions are imposed to ensure that these smaller bottle sales are limited to patrons of sleeping rooms, and are not offered to the general public.

(2) Application of Rule.

(a) The department will not maintain a regular inventory of distilled spirits and wine in the smaller bottle sizes, but will accept special orders for these products from a Type 4 package agency. Special orders may be placed with the department's purchasing division, any state store, or any Type 2 or 3 package agency.

(b) The Type 4 package agency must order in full case lots, and all sales are final.

(c) If the hotel/resort has a Type 1 package agency with Type 4 privileges, the smaller bottle sized products must be stored in a secure area separate from the Type 1 agency inventory.

(d) Sale and use of alcohol in the smaller bottle sizes is restricted to providing room service to guests in sleeping rooms in the hotel/resort, and may not be used for other purposes, or be sold to the general public.

(e) Failure of the Type 4 package agency to strictly adhere to the provisions of this rule is grounds for the department to terminate its contract with the Type 4 package agency.

**R81-3-19. Credit Cards.**

(1) Purpose. This rule explains the procedures to be followed by consignment package agents in accepting credit cards for the purchase of alcoholic beverages.

(2) Application of Rule.

(a) Licensee purchases may not be paid by credit card. The department will accept only checks and cash from licensees.

(b) Refunds, or exchanges of products of unequal value, will be handled by crediting the customer's credit card account. The cash register must be balanced by doing a return at the register.

(c) The cashier shall examine the security features of the card such as signatures, account numbers, expiration date, hologram, etc., before accepting any card.

(d) No sale may be made without the credit card. Merely having the credit card number available is not acceptable.

(e) All credit cards must be signed by the card holder.

(f) Customers may not use another person's credit card, including their spouse's card.

(g) Credit card receipts contain confidential information that needs to be safeguarded. Cashiers should not throw them in the trash. Consignment package agents and their employees should consult their regional manager concerning proper storage and disposal of such receipts.

(h) If for any reason the credit card cannot be scanned, the credit card number should be hand keyed into the credit card machine keyboard. An imprinted copy of the credit card must then be made. The imprinted copy must be signed by the card holder.

**32A-1-107**

**R81. Alcoholic Beverage Control, Administration.****R81-4A. Restaurant Liquor Licenses.****R81-4A-1. Licensing.**

(1) Restaurant liquor licenses are issued to persons as defined in Section 32A-1-105(36). Any contemplated action or transaction that may alter the organizational structure or ownership interest of the person to whom the license is issued must be submitted to the department for approval prior to consummation of any such action to ensure there is no violation of Sections 32A-4-102(3), 32A-4-103, and 32A-4-106(28).

(2) A restaurant liquor licensee that wishes to operate the same licensed premises under the operational restrictions of an on-premise beer retailer during certain designated periods of the day or night, must apply for and be issued a separate on-premise beer retailer license subject to the following:

(a) The same restaurant licensee must separately apply for a state on-premise beer retailer license pursuant to the requirements of Sections 32A-10-202, -203, and -205.

(b) Licensees applying for dually licensed premises must notify the department of the time periods under which each license will be operational at the time application is made. Changes must be requested in writing and approved in advance by the department. Licensees may operate sequentially under either license, but not concurrently.

(c) Restaurant liquor licensees holding a separate on-premise beer retailer license must operate in accordance with 32A-10-206 and R81-10 during the hours the on-premise beer retailer license is active.

(d) Liquor storage areas on the restaurant premises shall be deemed to remain on the floor plan of the restaurant premises and shall be kept locked during the hours the on-premise beer retailer license is active.

**R81-4A-2. Application.**

A license application shall be included in the agenda of the monthly commission meeting for consideration for issuance of a restaurant license when the requirements of Sections 32A-4-102, -103, and -105 have been met, a completed application has been received by the department, and the restaurant premises have been inspected by the department.

**R81-4A-3. Bonds.**

No part of any corporate or cash bond required by Section 32A-4-105, may be withdrawn during the time the license is in effect. If the licensee fails to maintain a valid corporate or cash bond, the license shall be immediately suspended until a valid bond is obtained. Failure to obtain a bond within 30 days of notification by the department of the delinquency shall result in the automatic revocation of the license.

**R81-4A-4. Insurance.**

Public liability and dram shop insurance coverage required in Section 32A-4-102(1)(h) and (i) must remain in force during the time the license is in effect. Failure of the licensee to maintain the required insurance coverage may result in a suspension or revocation of the license by the commission.

**R81-4A-5. Restaurant Liquor Licensee Liquor Order and Return Procedures.**

The following procedures shall be followed when a restaurant liquor licensee orders liquor from or returns liquor to any state liquor store, package agency, or department satellite warehouse:

(1) The licensee must place the order in advance to allow department personnel sufficient time to assemble the order. The licensee or employees of the licensee may not pick merchandise directly off the shelves of a state store or package agency to fill the licensee's order. The order shall include the business name of the licensee, department licensee number, and list the

products ordered specifying each product by code number and quantity.

(2) The licensee shall allow at least four hours for department personnel to assemble the order for pick-up. When the order is complete, the licensee will be notified by phone and given the total cost of the order. The licensee may pay for the product in cash, company check or cashier's check.

(3) The licensee or the licensee's designee shall examine and sign for the order before it leaves the store, agency or satellite warehouse to verify that the product has been received.

(4) Merchandise shall be supplied to the licensee on request when it is available on a first come first serve basis. Discounted items and limited items may, at the discretion of the department, be provided to a licensee on an allocated basis.

(5)(a) Spirituous liquor may be returned by the licensee for the original purchase price only under the following conditions:

(i) the bottle has not been opened;

(ii) the seal remains intact;

(iii) the label remains intact; and

(iv) upon a showing of the original cash register receipt.

(b) A restocking fee of 10% shall be assessed on the entire amount on any returned spirituous liquor order that exceeds \$1,000. All spirituous liquor returned that is based on a single purchase on a single cash register receipt must be returned at the same time at a single store, package agency, or satellite warehouse location.

(b) Wine and beer may not be returned by the licensee for the original purchase price except upon a showing that the product was spoiled or non-consumable.

**R81-4A-6. Restaurant Liquor Licensee Operating Hours.**

Allowable hours of liquor sales shall be in accordance with Section 32A-4-106(9). However, the licensee may open the liquor storage area during hours otherwise prohibited for the limited purpose of inventory, restocking, repair, and cleaning.

**R81-4A-7. Sale and Purchase of Alcoholic Beverages.**

(1) Alcoholic beverages (including light beer) must be sold in connection with an order for food placed and paid for by a patron. An order for food may not include food items gratuitously provided by the restaurant to patrons. A patron may pay for an alcoholic beverage at the time of purchase, or, at the discretion of both the licensee and the patron, the price charged may be added to the patron's tab, provided that a written beverage tab, as provided in Section 32A-4-106(29), shall be commenced upon the patron's first purchase and shall be maintained by the restaurant during the course of the patron's stay at the restaurant regardless of where the patron orders and consumes an alcoholic beverage.

(2) The restaurant shall maintain at least 70% of its total business from the sale of food pursuant to Section 32A-4-106(26).

(a) The restaurant shall maintain records separately showing quarterly expenditures and sales for beer, heavy beer, liquor, wine, set-ups, and food. These shall be available for inspection and audit by representatives of the department, and maintained for a period of three years.

(b) If any inspection or audit discloses that the sales of food are less than 70% for any quarterly period, an order to show cause shall be issued by the department to determine why the license should not be immediately suspended by the commission. Any suspension shall remain in effect until the licensee is able to prove to the satisfaction of the commission that in the future, the sales of food will meet or exceed 70%. Failure of the licensee to provide satisfactory proof of the required food percentage within three months of the date the license was suspended, shall result in the revocation of the license.

(3) Liquor dispensing shall be in accordance with Section

32A-4-106; and Sections R81-1-9 (Liquor Dispensing Systems), R81-1-10 (Wine Dispensing), and R81-1-11 (Multiple Licensed Facility Storage and Service) of these rules.

**R81-4A-8. Liquor Storage.**

Liquor bottles kept for sale in use with a dispensing system, liquor flavorings in properly labeled unsealed containers, and unsealed containers of wines poured by the glass may be stored in the same storage area of the restaurant as approved by the department.

**R81-4A-9. Alcoholic Product Flavoring.**

Restaurant liquor licensees may use alcoholic products as flavoring subject to the following guidelines:

(1) Alcoholic product flavoring may be utilized in beverages only during the authorized selling hours under the restaurant liquor license. Alcoholic product flavoring may be used in the preparation of food items and desserts at any time if plainly and conspicuously labeled "cooking flavoring".

(2) No restaurant employee under the age of 21 years may handle alcoholic product flavorings.

**R81-4A-10. Table Service.**

A wine service may be performed by the server at the patron's table for wine either purchased at the restaurant or carried in by a patron, provided the wine has an official state label affixed. The wine may be opened and poured by the server.

**R81-4A-11. Consumption at Patron's Table.**

(1) A patron's table may be located in waiting, patio, garden and dining areas previously approved by the department, but may not be located at the site where alcoholic beverages are dispensed to the server or stored.

(2) Consumption of any alcoholic beverage must be within a reasonable proximity of a patron's table so as to ensure that the server can maintain a written beverage tab on the amount of alcoholic beverages consumed.

(3) All liquor consumed in a licensed restaurant must come from a container or package having an official state label affixed.

**R81-4A-12. Menus; Price Lists.**

(1) Contents of Alcoholic Beverage Menu.

(a) Each licensee shall have readily available for its patrons a printed alcoholic beverage price list, or menu containing current prices of all mixed drinks, wine, beer, and heavy beer. This list shall include any charges for the service of packaged wines or heavy beer.

(b) Any printed menu, master beverage price list or other printed list is sufficient as long as the prices are current and it meets the requirements of this rule.

(c) Customers shall be notified of the price charged for any packaged wine or heavy beer and any service charges for the supply of glasses, chilling, or wine service.

(d) A licensee or his employee may not misrepresent the price of any alcoholic beverage that is sold or offered for sale on the licensed premises.

**R81-4A-13. Identification Badge.**

Each employee of the licensee who sells, dispenses or provides alcoholic beverages shall wear a unique identification badge visible above the waist, bearing the employee's first name, initials, or a unique number in letters or numbers not less than 3/8 inch high. The identification badge must be worn on the front portion of the employee's body. The licensee shall maintain a record of all employee badges assigned, which shall be available for inspection by any peace officer, or representative of the department. The record shall include the

employee's full name and address and a driver's license or similar identification number.

**R81-4A-14. Brownbagging.**

When private social functions or privately hosted events, as defined in 32A-1-105(39), are held on the premises of a licensed restaurant, the proprietor may, in his or her discretion, allow members of the private group to bring onto the restaurant premises, their own alcoholic beverages under the following circumstances:

(1) When the entire restaurant is closed to the general public for the private function or event, or

(2) When an entire room or area within the restaurant such as a private banquet room is closed to the general public for the private function or event, and members of the private group are restricted to that area, and are not allowed to co-mingle with public patrons of the restaurant.

**KEY: alcoholic beverages****August 1, 2003****Notice of Continuation September 6, 2006****32A-1-107**

**R81. Alcoholic Beverage Control, Administration.****R81-5. Private Clubs.****R81-5-1. Licensing.**

(1) Private club liquor licenses are issued to persons as defined in Section 32A-1-105(36). Any contemplated action or transaction that may alter the organizational structure or ownership interest of the person to whom the license is issued must be submitted to the department for approval prior to consummation of any such action to ensure there is no violation of Sections 32A-5-103 and 32A-5-107(44).

(2)(a) At the time the commission grants a private club license the commission must designate whether the private club qualifies to operate as a class A, B, C, or D private club based on criteria in 32A-5-101.

(b) After the license is granted, a private club may request that the commission approve a change in the club's classification in writing supported by evidence to establish that the club qualifies to operate under the new class designation based on the criteria in 32A-5-101.

(c) The department shall conduct an investigation for the purpose of gathering information and making a recommendation to the commission as to whether or not the request should be granted. The information shall be forwarded to the commission to aid in its determination.

(d) If the commission determines that the private club has provided credible evidence to establish that it meets the statutory criteria to operate under the new class designation, the commission shall approve the request.

(3)(a) A class C private club must operate as a dining club as defined in 32A-5-101(3)(c), and must maintain at least 50% of its total private club business from the sale of food, not including mix for alcoholic beverages, service charges, and membership fees.

(b) A class C private club shall maintain records separately showing quarterly expenditures and sales for beer, heavy beer, liquor, wine, set-ups and food. These shall be available for inspection and audit by representatives of the department, and maintained for a period of three years.

(c) If any inspection or audit discloses that the sales of food are less than 50% for any quarterly period, an order to show cause shall be issued by the department to determine why the license should not be immediately reclassified by the commission as a class D private club. If the commission grants the order to show cause, the reclassification shall remain in effect until the licensee files a request for and receives approval from the commission to be classified as a class C private club. The request shall provide credible evidence to prove to the satisfaction of the commission that in the future, the sales of food will meet or exceed 50%.

**R81-5-2. Application.**

A license application shall be included in the agenda of the monthly commission meeting for consideration for issuance of a private club license when the requirements of Sections 32A-5-102, -103, and -106 have been met, a completed application has been received by the department, and the private club premises have been inspected by the department.

**R81-5-3. Bonds.**

No part of any corporate or cash bond required by Section 32A-5-106 may be withdrawn during the time the license is in effect. If the licensee fails to maintain a valid corporate or cash bond, the license shall be immediately suspended until a valid bond is obtained. Failure to obtain a bond within 30 days of notification by the department of the delinquency shall result in the automatic revocation of the license.

**R81-5-4. Insurance.**

Public liability and dram shop insurance coverage required

in Subsections 32A-5-102(1)(i) and (j) must remain in force during the time the license is in effect. Failure of the licensee to maintain the required insurance coverage may result in a suspension or revocation of the license by the commission.

**R81-5-5. Advertising.**

(1) Authority. This rule is pursuant to the commission's powers and duties under 32A-1-107 to act as a general policymaking body on the subject of alcoholic beverage control and to set policy by written rules that prescribe the conduct and management of any premises upon which alcoholic beverages may be sold, consumed, served, or stored.

(2) Purpose. This rule furthers the intent of 32A-5-107(18) that private clubs advertise in a manner that preserves the concept that private clubs are private and not open to the general public.

(3) Application of Rule.

(a) Any public advertising by a private club, its employees, agents, or members, or by any person under contract or agreement with the club shall clearly identify the club as being "a private club for members". In print media, this club identification information must be no smaller than 10 point bold type.

(b) A private club, its employees, agents, or members, or any person under a contract or agreement with the club may not directly or indirectly engage in or participate in any public advertising or promotional scheme that runs counter to the concept that clubs are private and not open to the general public such as:

(i) offering or providing complimentary club memberships or visitor cards to the general public;

(ii) offering or providing full or partial payment of membership fees or dues, or visitor card fees to members of the general public;

(iii) offering or implying an entitlement to a club membership or visitor card to members of the general public; or

(iv) offering to host members of the general public into the club.

**R81-5-6. Private Club Licensee Liquor Order and Return Procedures.**

The following procedures shall be followed when a private club licensee orders liquor from or returns liquor to any state liquor store, package agency, or department satellite warehouse:

(1) The licensee must place the order in advance to allow department personnel sufficient time to assemble the order. The licensee or employees of the licensee may not pick merchandise directly off the shelves of a state store or package agency to fill the licensee's order. The order shall include the business name of the licensee, department licensee number, and list the products ordered specifying each product by code number and quantity.

(2) The licensee shall allow at least four hours for department personnel to assemble the order for pick-up. When the order is complete, the licensee will be notified by phone and given the total cost of the order. The licensee may pay for the product in cash, company check or cashier's check.

(3) The licensee or the licensee's designee shall examine and sign for the order before it leaves the store, agency or satellite warehouse to verify that the product has been received.

(4) Merchandise shall be supplied to the licensee on request when it is available on a first come first serve basis. Discounted items and limited items may, at the discretion of the department, be provided to a licensee on an allocated basis.

(5)(a) Spirituous liquor may be returned by the licensee for the original purchase price only under the following conditions:

(i) the bottle has not been opened;

(ii) the seal remains intact;

(iii) the label remains intact; and

(iv) upon a showing of the original cash register receipt.

(b) A restocking fee of 10% shall be assessed on the entire amount on any returned spirituous liquor order that exceeds \$1,000. All spirituous liquor returned that is based on a single purchase on a single cash register receipt must be returned at the same time at a single store, package agency, or satellite warehouse location.

(b) Wine and beer may not be returned by the licensee for the original purchase price except upon a showing that the product was spoiled or non-consumable.

#### **R81-5-7. Private Club Licensee Operating Hours.**

Allowable hours of liquor sales shall be in accordance with Section 32A-5-107(28). However, the licensee may open the liquor storage area during hours otherwise prohibited for the limited purpose of inventory, restocking, repair, and cleaning.

#### **R81-5-8. Sale and Purchase of Alcoholic Beverages.**

(1) A patron may pay for an alcoholic beverage at the time of purchase, or, at the discretion of both the licensee and the patron, the price charged may be added to the patron's tab.

(2) Liquor dispensing shall be in accordance with Section 32A-5-107; and Sections R81-1-9 (Liquor Dispensing Systems), R81-1-10 (Wine Dispensing), and R81-1-11 (Multiple Licensed Facility Storage and Service) of these rules.

#### **R81-5-9. Liquor Storage.**

Liquor bottles kept for sale in use with a dispensing system, liquor flavorings in properly labeled unsealed containers, and unsealed containers of wines poured by the glass may be stored in the same storage area of the private club as approved by the department.

#### **R81-5-10. Alcoholic Product Flavoring.**

(1) Alcoholic product flavoring may be utilized in beverages only during the authorized selling hours under the private club liquor license. Alcoholic product flavoring may be used in the preparation of food items and desserts at any time if plainly and conspicuously labeled "cooking flavoring".

(2) No club employee under the age of 21 years may handle alcoholic product flavorings.

#### **R81-5-11. Price Lists.**

(1) Each licensee shall have available for its patrons a printed price list containing current prices of all mixed drinks, wine, beer, and heavy beer. This list shall include any amounts charged by the licensee for the service of packaged liquor, wine or heavy beer and shall be made a part of the house rules of the club, a copy of which shall be kept on the club premises and available at all times for examination by the members, guests, and visitors to the club.

(2) Any printed menu, master beverage price list or other printed list is sufficient as long as the prices are current and the list is readily available to the patron.

(3) Customers shall be notified of the price charged for any packaged liquor, wine or heavy beer and any service charges for the supply of glasses, chilling, or wine service.

(4) A licensee or his employee may not misrepresent the price of any alcoholic beverage that is sold or offered for sale on the licensed premises.

#### **R81-5-12. Identification Badge.**

Each employee of the licensee who sells, dispenses or provides alcoholic beverages shall wear a unique identification badge visible above the waist, bearing the employee's first name, initials, or a unique number in letters or numbers not less than 3/8 inch high. The identification badge must be worn on the front portion of the employee's body. The licensee shall

maintain a record of all employee badges assigned, which shall be available for inspection by any peace officer, or representative of the department. The record shall include the employee's full name and address and a driver's license or similar identification number.

#### **R81-5-13. Brownbagging.**

When private social functions or privately hosted events, as defined in 32A-1-105(39), are held on the premises of a licensed private club, the proprietor may, in his or her discretion, allow members of the private group to bring onto the club premises, their own alcoholic beverages under the following circumstances:

(1) When the entire club is closed to regular patrons for the private function or event, or

(2) When an entire room or area within the club such as a private banquet room is closed to regular patrons for the private function or event, and members of the private group are restricted to that area, and are not allowed to co-mingle with regular patrons of the club.

#### **R81-5-14. Membership Fees and Monthly Dues.**

(1) Authority. This rule is pursuant to the commission's powers and duties under 32A-1-107 to act as a general policymaking body on the subject of alcoholic beverage control and to set policy by written rules that prescribe the conduct and management of any premises upon which alcoholic beverages may be sold, consumed, served, or stored.

(2) Purpose. This rule furthers the intent of 32A-5-107(1) through (7) that private clubs operate in a manner that preserves the concept that private clubs are private and not open to the general public.

(3) Application of Rule.

(a) Each private club shall establish in its by-laws membership application fees and monthly membership dues in amounts determined by the club. However, the application fees shall not be less than \$4, and the monthly dues may not be less than one dollar per month.

(b) A private club, its employees, agents, or members, or any person under a contract or agreement with the club, may not, as part of an advertising or promotional scheme, offer to pay or pay for membership application fees or membership dues in full or in part for a member of the general public.

(c) Notwithstanding section (3)(b), if a private club is located within a hotel, the hotel may assist the club in the issuance of a club membership to a guest of the hotel under the following conditions:

(i) the guest has booked a room and is staying at the hotel;

(ii) the costs of the membership application fee and membership dues are paid for by the guest either as a separate charge, or as part of the hotel room rate;

(iii) the private club receives payment of the fees and dues for all memberships issued to guests of the hotel;

(iv) the hotel and the club shall maintain a current record of each membership issued to a guest of the hotel as required by the commission;

(v) the records required by subsection (iv) shall be available for inspection by the department; and

(vi) the issuance of the membership is done in accordance with the procedures outlined in 32A-5-107(1) through (4).

#### **R81-5-15. Minors in Lounge or Bar Areas.**

(1) Pursuant to 32A-5-107(8)(a)(iv), a minor may not be admitted into, use, or be on the premises of any lounge or bar area of any class A, B, C, or D of private club except when the minor is employed by the club to perform maintenance and cleaning services during hours when the club is not open for business.

(2) "Lounge or bar area" includes:

- (a) the bar structure as defined in 32A-1-105(4);
  - (b) any area in the immediate vicinity of the bar structure where the sale, service, display, and advertising of alcoholic beverages is emphasized; or
  - (c) any area that is in the nature of or has the ambience or atmosphere of a bar, parlor, lounge, cabaret or night club.
- (3) A minor who is otherwise permitted to be on the premises of a class A, B or C private club may momentarily pass through the club's lounge or bar area en route to those areas of the club where the minor is permitted to be. However, no minor shall remain or be seated in the club's bar or lounge area.

**R81-5-16. Sexually Oriented Adult Entertainment or Businesses.**

(1) Pursuant to 32A-5-107(8)(a)(v), a minor may not be admitted into, use, or be on the premises of any private club that provides sexually oriented adult entertainment or operates as a sexually oriented business. This includes any club:

- (a) that is licensed by local authority as a sexually oriented business;
- (b) that allows any person on the premises to dance, model, or be or perform in a state of nudity or semi-nudity; or
- (c) that shows films, motion pictures, video cassettes, slides, or other photographic reproductions which are characterized by their emphasis upon the exhibition or description of specified anatomical areas or specified sexual activities.

(2) "Nudity" or "state of nudity" means the showing of the human male or female genitals, pubic area, vulva, anus, or anal cleft with less than a fully opaque covering or the showing of the female breast with less than a fully opaque covering of any part of the nipple.

(3) "Semi-nudity" means a state of dress in which any opaque clothing covers the genitals, anus, anal cleft or cleavage, pubic area, and vulva narrower than four inches wide in the front and five inches wide in the back, and less than one inch wide at the narrowest point, and which covers the nipple and areola of the female breast narrower than a two inch radius.

(4) "Specified anatomical areas" means:

- (a) human male genitals in a state of sexual arousal; or
- (b) less than completely and opaquely covered buttocks, anus, anal cleft or cleavage, male or female genitals, or a female breast.

(5) "Specified sexual activities" means acts of, or simulating:

- (a) masturbation;
- (b) sexual intercourse;
- (c) sexual copulation with a person or a beast;
- (d) fellatio;
- (e) cunnilingus;
- (f) bestiality;
- (g) pederasty;
- (h) buggery;
- (i) sodomy;
- (j) excretory functions as part of or in connection with any of the activities set forth in (a) through (i).

**R81-5-17. Visitor Cards.**

(1) Authority. This rule is pursuant to the commission's powers and duties under 32A-1-107 to act as a general policymaking body on the subject of alcoholic beverage control and to set policy by written rules that prescribe the conduct and management of any premises upon which alcoholic beverages may be sold, consumed, served, or stored.

(2) Purpose. This rule furthers the intent of 32A-5-107(1) through (7) that private clubs operate in a manner that preserves the concept that private clubs are private and not open to the general public.

(3) Application of Rule.

(a) A private club, its employees, agents, or members, or any person under a contract or agreement with the club, may not, as part of an advertising or promotional scheme, offer to purchase or purchase in full or in part a visitor card for a member of the general public.

(b) Notwithstanding section (3)(a), if a private club is located within a hotel, the hotel may assist the club in the issuance of a visitor card to a guest of the hotel under the following conditions:

- (i) the guest has booked a room and is staying at the hotel;
- (ii) the cost of the visitor card is paid for by the guest either as a separate charge, or as part of the hotel room rate;
- (iii) the private club receives payment of the fees for all visitor cards issued to guests of the hotel;
- (iv) the hotel and the club shall maintain a current record of each visitor card issued to a guest of the hotel as required by the commission;
- (v) the records required by subsection (iv) shall be kept for a period of three years and shall be available for inspection by the department; and
- (vi) the issuance of the visitor card is done in accordance with the procedures outlined in 32A-5-107(6).

**R105. Attorney General, Administration.****R105-1. Attorney General's Selection of Outside Counsel, Expert Witnesses and Other Litigation Support Services.****R105-1-1. Authority and Purpose.**

A. This rule is adopted to allow the Attorney General to obtain the services of outside counsel, expert witnesses or providers of litigation support services for agencies of the State without having to go through the Division of Purchasing in recognition of the overlapping jurisdiction in this area under the Utah Constitution and applicable statutes and the unique needs of the Attorney General in obtaining these professional services.

B. This rule is adopted pursuant to authority granted by the Chief Procurement Officer of the Division of Purchasing of the Department of Administrative Services under Utah Code Ann. Sec. 63-56-10 (1986), and pursuant to Utah Code Ann. Sec. 67-5-5 (1986), and the Utah Procurement Code (Chapter 56 of Title 63, Utah Code Ann. (1986)) and the applicable subsections thereof, viz., Sec. 63-56-1, -2, -4, -5, -16, -17, -18, -19., -20.5, -21, -22, -23, -24, -25, -26, -27, -28., -29, -30, -32, -33, -34, -40, -41, -45, -46, -47, -48, -49, and -50 (1986 and Supp. 1987).

**R105-1-2. Definitions.**

A. "Agency" means any department, division, agency, commission, board, council, committee, authority, institution, or other entity within the State government of Utah (see Utah Code Ann. Sec. 67-5-3 (1986)).

B. "Attorney General" means the Attorney General of the State of Utah, or the Attorney General's designee.

C. "Emergency" means a determination by the Attorney General in writing that due to the need for timeliness or confidentiality or both, the health, safety or welfare of the State, any State agency, or any citizen of the State could be significantly affected, threatened or endangered were the Attorney General to proceed to retain outside counsel, expert witnesses or providers of litigation support services under section R105-1-6 of this rule.

D. "Expert witness" means a person whose knowledge, skill, experience, training or education in a scientific, technical or other specialized area would enable the person to give testimony under Rule 702 of the Utah Rules of Evidence (Utah Code Ann. (1986)).

E. "In writing" means handwriting, typing or printing upon paper, dated and signed by the Attorney General or the Attorney General's designee. Unless otherwise indicated, a determination "in writing" is to be placed in the file, and together with the other documents in the file is not open for public inspection under section R105-1-14 of this rule.

F. "Litigation Support Services" means services the Attorney General determines are needed for the performance of the responsibilities and duties imposed upon the office of the Attorney General by the Constitution and laws of this State.

G. "Outside counsel" means an attorney or attorneys who are not, or a law firm whose attorneys are not, employed by the Attorney General's office pursuant to Utah Code Ann. Sec. 67-5-7 et seq. (1986), which the Attorney General appoints, pursuant to Utah Code Ann. Sec. 67-5-5 (1986), to represent, or provide legal advice or counsel to, an agency of the State. "Outside counsel" may or may not be designated as "Special Assistant Attorney General", as the Attorney General determines.

H. "Person" means any business, individual, union, committee, club, other organization, or group of individuals, not including a state agency or a local public procurement unit.

I. "Small purchase" means a determination by the Attorney General in writing that the fee expected to be charged by outside counsel, expert witnesses or providers of litigation support services for a project will be \$10,000.00 or less.

J. "Sole source" means a determination by the Attorney General in writing, after a reasonable attempt to locate potential providers of the needed services, that there is only one person

qualified and available on a particular project to serve as outside counsel or an expert witness or to provide litigation support services.

K. "State" means the State of Utah.

**R105-1-3. Scope.**

A. This rule applies to the procurement and appointment by the Attorney General of outside legal counsel, expert witnesses and providers of litigation support services.

B. The rule takes into account the special nature of the purposes for which outside counsel, expert witnesses and providers of litigation support services will often be retained, i.e., litigation, enforcement proceedings or investigations. Legal strategy often requires that a potential plaintiff or defendant not be given any notice of anticipated litigation, or that a party is considering calling expert witnesses; and enforcement proceedings and actions leading to enforcement proceedings are often delicate, with agencies and defendants concerned that in order to prevent undue harm to reputations, the public should not be made aware of any proceedings until preliminary actions have been completed. To enable the Attorney General to have the flexibility needed to provide outside counsel, expert witnesses or providers of litigation support services in instances where obtaining those services through a publicized solicitation could interfere with legal strategies or could disclose information prematurely, the rule specifically authorizes the Attorney General to determine, pursuant to Utah Code Ann. Sec. 63-56-24 (1986), that an emergency exists that would pose a threat to the public health, welfare or safety were the Attorney General publicly to disclose, through a request for proposals, information which would otherwise be necessary for a person to submit a proposal or were the Attorney General to delay procuring those services because of the time constraints imposed by the usual procurement procedures for those services. The rule does provide that even in those "emergency" situations, however, the Attorney General will make the selection with as much competition as practicable under the circumstances.

C. The rule also provides that the Attorney General will select outside counsel, expert witnesses and providers of litigation support services pursuant to competitive sealed proposals, rather than competitive sealed bids, whenever the Attorney General does not make those selections through the small purchase, sole source, or emergency provisions of this rule.

**R105-1-4. Determination of Small Purchase, Sole Source, Emergency, or Waiver of Request for Proposals.**

A. If the Attorney General determines it is necessary to retain outside counsel, expert witnesses or providers of litigation support services, the Attorney General may first determine whether the retention of outside counsel, expert witnesses or providers of litigation support services can be made under provisions of this rule for:

1. Small purchases pursuant to section R105-1-7.
2. Sole source providers pursuant to section R105-1-10.
3. Emergencies pursuant to section R105-1-9.
4. Waiver for request for proposals pursuant to section R105-1-10.

B. After the determination under subsection R105-1-4A of this rule has been made, the Attorney General shall proceed to select outside counsel, expert witnesses or providers of litigation support services pursuant to the applicable provisions of this rule.

**R105-1-5. Use of Competitive Sealed Proposals in Lieu of Competitive Sealed Bids.**

Projects for which outside counsel, expert witnesses, or providers of litigation support services are obtained are usually unique, and the person submitting the lowest proposed fee

might not be the best person to provide the needed service for that particular project. As a result, it is not practicable or advantageous to the State or its agencies for the Attorney General to obtain the services of outside counsel, expert witnesses, or providers of litigation support services through competitive sealed bids. Thus, whenever the Attorney General selects outside counsel, expert witnesses, or providers of litigation support services under this rule, the Attorney General will request and receive competitive sealed proposals, rather than competitive sealed bids.

**R105-1-6. Selection of Outside Counsel, Expert Witnesses and Providers of Litigation Support Services Other than through Small Purchase, Sole Source, or Emergency, or Waiver of Request for Proposals Provisions.**

A. If the Attorney General determines the retention of outside counsel, expert witnesses or providers of litigation support services may not be made under sections R105-1-7, R105-1-8, R105-1-9, or Rule R105-1-10 of this rule, the Attorney General shall proceed under this section.

B. The Attorney General shall prepare a request for proposals ("RFP"), to serve as outside counsel, expert witnesses or providers of litigation support services. The RFP shall contain, at a minimum, the following information:

1. If the RFP is for outside counsel, the name of the agency, if any, for which outside counsel is sought.

2. The nature of the project.

3. The anticipated number of hours that will be required, the beginning date, and the date the project is expected to be completed. If unknown or irrelevant, the RFP shall so state.

4. The number of attorneys, law firms, expert witnesses or providers of litigation support services that will be retained.

5. Whether there is a preference or requirement as to how services are to be billed, e.g., payment will be made from a maximum amount against which fees can be billed on an hourly basis, or through a lump sum for the entire project, or through a contingent fee arrangement, or through a set hourly fee.

6. Whether proposals will be accepted from law firms, associations of attorneys or law firms, or associations of expert witnesses or providers of litigation support services.

7. The criteria under which the proposals will be evaluated. The RFP will state the criteria in the order of importance in which the proposals will be evaluated, and the RFP will explicitly state that the criteria are listed in the order in which the proposals will be evaluated.

8. Examples of criteria include, but are not limited to:

a. Experience of the applicant attorney, law firm, or expert witness or provider of litigation support services on the type of project for which the RFP is issued.

b. If the RFP is for outside counsel, and the applicant is a law firm, each attorney in the firm that will be assigned to the project, and the experience on the type of project for which the RFP is issued of each attorney in the firm that will be assigned to the project.

c. Whether the applicant attorney, law firm, or expert witness or provider of litigation support services may associate himself or herself with other attorneys, law firms, expert witnesses, providers of litigation support services, or whether the Attorney General will require association. If the Attorney General requires association, a specification of who the attorney, law firm, expert witness, or provider of litigation support services will be what experience each has in projects of the type for which the RFP was issued, what each will contribute to the project, and the percentage of the project that will be performed by each.

d. Any potential conflicts in providing the services on the project or projects for which the RFP is issued.

e. The fee to be charged, and how it will be determined, e.g., hourly rate, hourly rate with minimum fee, hourly rate with

maximum fee, lump sum payment. If the attorney, law firm, expert witness, or provider of litigation support services intends to associate with other attorneys, law firms, expert witnesses, or provider of litigation support services, the proposal should state whether the fees and costs quoted include those of the associated attorney, law firm, expert witness or provider of litigation support services, and, regardless of whether the proposal does or does not include their fees and costs, what their fees and costs would be expected to be for the project.

9. The date by which proposals must be received, and the date on which a decision can be expected to be announced.

10. The attorney, law firm, expert witness or provider of litigation support services whose proposal is determined to be most advantageous to the State, as determined by the Attorney General, and who accepts appointment by the Attorney General for the project, will be required to enter into a written agreement with the Attorney General's office within a reasonable time after the attorney, law firm, expert witness or provider of litigation support services has been notified that the Attorney General desires to retain their his or her services and the attorney, law firm, expert witness or provider of litigation support services has accepted.

11. The Attorney General reserves the right to reject late-filed or nonconforming proposals or any and all proposals.

12. The Attorney General shall notify all persons submitting proposals of the attorney, law firm, expert witness or provider of litigation support services selected, but after the date by which a decision can be expected, any person may call the Attorney General's office to learn who has been retained for the project.

13. All information in all proposals, including the winning proposal, is and will remain closed from public inspection under section R105-1-14 of this rule.

C. The RFP shall be printed in the "Legal Notices" section of a newspaper of general circulation in the State at least two weeks before the proposals are due.

1. In the alternative, the Attorney General may, in his or her discretion, have printed in the "Legal Notices" section of a newspaper of general circulation at least three weeks before proposals are due a summary of the RFP, containing sufficient information to convey the nature of the project to a reader, and stating that a copy of the RFP will be sent upon request made to the Attorney General's office, and shall list the Attorney General's office address and phone number.

2. The times in subsection R105-1-6C of this rule may be shortened if the Attorney General determines in writing that the interests of the State will best be served by shortening the times.

D. The Attorney General will maintain a record of all attorneys, law firms, expert witnesses and providers of litigation support services who wish to receive copies of RFPs for outside counsel, expert witnesses or providers of litigation support services. To be placed on the list, the attorney, law firm, expert witness or provider of litigation support services shall submit to the Attorney General's office a written request, stating the name of the attorney, law firm, expert witness or provider of litigation support services and the area or areas in which the attorney or law firm would be qualified to serve as outside counsel, the expert witness would be qualified to serve as an expert witness, and provider of litigation support services would be qualified to provide those services. The Attorney General shall place the names of the attorney, law firm, expert witness or provider of litigation support services on the appropriate list. Whenever the Attorney General determines to issue an RFP for services in an area for which an attorney, law firm, expert witness or provider of litigation support services has previously submitted requests that their names be included on the list retained by the Attorney General's office for service, the Attorney General shall send, via first class mail, postage prepaid, a copy of the RFP to those persons.

**R105-1-7. Small Purchases.**

A. If the Attorney General determines, using the best information available, that the total of the fees for outside counsel, expert witnesses or providers of litigation support services for a project will be \$10,000.00 or less, exclusive of costs, the Attorney General shall make a finding in writing to that effect.

B. Upon making the finding in writing required by subsection A of this rule, the Attorney General may appoint the attorney or law firm as outside counsel or the person as expert witness or provider of litigation support services without proceeding under section R105-1-6 of this rule.

C. The Attorney General shall appoint the attorney or law firm as outside counsel, or expert witness or provider of litigation support services, under this section, whose services, in the Attorney General's determination, would be most advantageous to the State and its agencies, and shall make a finding in writing to that effect.

D. Should the Attorney General, subsequent to appointing outside counsel, expert witnesses or providers of litigation support services under this section, determine or be informed that the actual fees that will be required for the project will exceed \$10,000.00, exclusive of costs, before the outside counsel, expert witnesses or providers of litigation support services have rendered any services on the project, the Attorney General shall terminate the appointment under this section and shall proceed to select outside counsel, expert witnesses or providers of litigation support services pursuant to sections R105-1-6, R105-1-8, R105-1-9, or R105-1-10 of this rule as the Attorney General may determine under section R105-1-4 of this rule.

E. A project shall not be artificially divided so as to constitute more than one small purchase.

F. In appointing outside counsel, expert witnesses or providers of litigation support services under this section, the Attorney General shall also abide by section R105-1-11 of this rule, except that in matters involving \$500.00 or less, the Attorney General may make purchases without complying with R105-1-6 or R105-1-11.

**R105-1-8. Sole Source.**

A. If the Attorney General determines after reasonable efforts to locate providers for a project, that there is only one attorney or law firm that could provide services as outside counsel, or only one person that could provide services as an expert witness or could provide other litigation support services, the Attorney General shall make a finding in writing to that effect.

B. Upon making the written finding required by subsection A of this rule, the Attorney General may appoint the attorney or law firm as outside counsel or the person as expert witness or provider of litigation support services without proceeding under section R105-1-6 of this rule.

C. In selecting and designating outside counsel, expert witnesses or providers of litigation support services under this section R105-1-8, the Attorney General shall negotiate the best terms possible for the State.

**R105-1-9. Emergencies.**

A. The Attorney General may appoint outside counsel, expert witnesses or providers of litigation support services without complying with section R105-1-6 of this rule if the Attorney General first determines, and makes a finding, in writing, based upon the best information available, that the health, safety or welfare of the State, any State agency, or any citizen of the State could be significantly affected, threatened or endangered, if:

1. The Attorney General were to proceed to retain outside counsel, expert witnesses or providers of litigation support

services under the time constraints set forth in section R105-1-6 of this rule; or

2. The Attorney General were to publicly disclose RFP information and by doing so would cause situations such as hindering or impairing legal strategies and tactics, or causing harm to parties or potential parties to proceedings or to third persons, or causing harm to the State or a State agency.

B. In appointing outside counsel, expert witnesses or providers of litigation support services under this section R105-1-9, the Attorney General shall also abide by section R105-1-11 of this rule.

**R105-1-10. Waiver of Request for Proposals.**

A. Pursuant to Utah Code Ann. Sec. 63-56-21(1) (Supp. 1986), the Attorney General may waive the requirement of requesting and receiving proposals if the Attorney General makes a finding in writing that it is not practicable or advantageous to the State to obtain outside counsel, expert witnesses or providers of legal services due to the following:

1. There exists an emergency or other need for immediate action by the Attorney General in obtaining those services; or

2. There is a need for confidentiality that could be compromised were the Attorney General to obtain these services through requests for proposals.

B. In appointing outside counsel, expert witnesses or providers of litigation support services under this section R105-1-10, the Attorney General shall also abide by section R105-1-11 of this rule.

**R105-1-11. Competitive Proposals for Small Purchases or Emergencies.**

In appointing outside counsel, expert witnesses or providers of litigation support services under sections R105-1-7 or R105-1-9, the Attorney General shall still make appointments on a competitive basis insofar as possible. If practicable, the Attorney General shall at least do the following:

A. Call at least two attorneys, law firms, expert witnesses or providers of litigation support services, as the case may be, who the Attorney General determines are qualified to be appointed as outside counsel, expert witnesses or providers of litigation support services for the project.

B. Disclose information the Attorney General determines necessary for the attorney, law firm, expert witness or provider of litigation support services contacted to ascertain the nature of the services required and whether the attorney, law firm, expert witness or provider of litigation support services might have a conflict, are not qualified or are not available to serve on the project.

C. After determining that the attorney, law firm, expert witness or provider of litigation support services does not have a conflict and is qualified and available to serve on the project, the Attorney General may disclose enough information to allow the attorney, law firm, expert witness or provider of litigation support services to make a good faith estimate as to whether he or she could undertake the project and what the fees and costs would be.

**R105-1-12. Proposals May Not Be Dependent on Proposals Submitted by Others.**

Proposals received by the Attorney General, whether submitted in response to an RFP under section R105-1-6 of this rule, or whether submitted to the Attorney General under sections R105-1-7, R105-1-8, R105-1-9, or R105-1-10 of this rule, must stand alone and may not be dependent on proposals submitted by others submitting proposals, e.g., a proposal to perform services "for five percent less than the lowest fee received in any other proposal submitted". A proposal reliant upon the proposal submitted by another submitting a proposal will not be considered for appointment by the Attorney General.

**R105-1-13. Contracts.**

All attorneys, law firms or other persons retained under sections R105-1-6, R105-1-7, R105-1-8, R105-1-9 or R105-1-10 of this rule shall be required to enter into a written contract with the Attorney General and any person or agency the Attorney General may require. The written contract shall contain all terms set forth in:

A. The RFP, except to the extent the Attorney General has explicitly agreed those terms may be modified;

B. The proposal submitted to and accepted by the Attorney General, except to the extent the Attorney General explicitly has agreed those terms may be modified; and

C. Any terms required by law, whether by the constitutions, statutes, or rules or regulations of the United States or the State of Utah.

**R105-1-14. Retention and Non-availability of Files.**

A. All proposals submitted to the Attorney General under this rule become the property of the State of Utah and the office of the Attorney General.

B. All information in all proposals shall be placed in a file relating to the project for which the proposal was submitted. Each file shall contain:

1. If applicable, a copy of the finding in writing by the Attorney General that outside counsel, expert witnesses or providers of litigation support services may be obtained for the project under sections R105-1-7, R105-1-8, R105-1-9, or R105-1-10 of this rule; otherwise, a copy of the request for proposals and a copy of the affidavit of publication in the newspaper of general circulation.

2. All proposals received, and modifications, in writing, to any proposals if those modifications have been negotiated by the Attorney General.

3. A determination in writing by the Attorney General as to why a proposal was selected as being most advantageous by the State.

C. Information in the file shall not be open for public inspection.

D. After a reasonable period of time, which the Attorney General shall determine a file may be transferred to the State Archives, but the records in the file shall continue to be closed to public inspection.

**R151. Commerce, Administration.****R151-33. Pete Suazo Utah Athletic Commission Act Rule.****R151-33-101. Title.**

This Rule is known as the "Pete Suazo Utah Athletic Commission Act Rule."

**R151-33-102. Definitions.**

In addition to the definitions in Title 13, Chapter 33, the following definitions are adopted for the purpose of this Rule:

(1) "Boxing" means the sport of attack and defense using the fist, covered by an approved boxing glove.

(2) "Designated Commission member" means a member of the Commission designated as supervisor for a contest and responsible for the conduct of a contest, as assisted by other Commission members, Commission personnel, and others, as necessary and requested by the designated Commission member.

(3) "Drug" means a controlled substance, as defined in Title 58, Chapter 37, Utah Controlled Substances Act, or alcohol.

(4) "Elimination Tournament" means a contest involving unarmed combat in which contestants compete in a series of matches until not more than one contestant remains in any weight category.

(5) "Mandatory count of eight" means a required count of eight that is given by the referee of a boxing contest to a contestant who has been knocked down.

(6) "Unprofessional conduct" is as defined in Subsection 13-33-102(21), and is defined further to include the following:

(a) as a promoter, failing to promptly inform the Commission of all matters relating to the contest;

(b) as a promoter, substituting a contestant in the 24 hours immediately preceding the scheduled contest without approval of the Commission;

(c) violating the rules for conduct of contests;

(d) testing positive for drugs or alcohol in a random body fluid screen before or after participation in any contest;

(e) testing positive for HIV;

(f) failing or refusing to comply with a valid order of the Commission or a representative of the Commission; and

(g) for a promoter and a contestant, entering into a secret contract that contradicts the terms of the contract(s) filed with the Commission.

**R151-33-201. Authority - Purpose.**

The Commission adopts this Rule under the authority of Subsection 13-33-202(2), to enable the Commission to administer Title 13, Chapter 33, of the Utah Code.

**R151-33-202. Scope and Organization.**

Pursuant to Title 13, Chapter 33, general provisions codified in Sections R151-33-101 through R151-33-512 apply to all contests or exhibitions of "unarmed combat," as that term is defined in Subsection 13-33-102(19). The provisions of Sections R151-33-601 through R151-33-623 shall apply only to contests of boxing, as defined in Subsection R151-33-102(1). The provisions of Sections R151-33-701 through R151-33-702 shall apply only to elimination tournaments, as defined in R151-33-102(4). The provisions of Section R151-33-801 shall apply only to martial arts contest and exhibitions. The provisions of Sections R151-33-901 through R151-33-904 shall apply only to grants for amateur boxing.

**R151-33-301. Qualifications for Licensure.**

(1) In accordance with Section 13-33-301, a license is required for a person to act as or to represent that the person is a promoter, manager, contestant, second, referee, or judge.

(2) A licensed manager shall not hold a license as a referee or judge.

(3) A promoter shall not hold a license as a referee, judge,

or contestant.

**R151-33-302. Renewal Cycle - Procedure.**

(1) In accordance with the authority granted in Section 13-33-302, the renewal date for licenses issued by the Commission shall be December 31st of even-numbered years.

(2) Expiration of licensure due to failure to renew in accordance with this Section is not an adjudicative proceeding under Title 63, Chapter 46b, Administrative Procedures Act.

(3)(a) The Commission shall notify each licensee that the licensee's license is due for renewal and that unless an application for renewal is received by the Commission by the expiration date shown on the license, together with the appropriate renewal fee and documentation showing completion of or compliance with renewal qualifications, the license will not be renewed.

(b) The application procedures and requirements specified in Section 13-33-301 apply to renewals.

(4)(a) A renewed license shall be issued to applicants who submit a complete application, unless it is apparent to the Commission that the applicant no longer meets the qualifications for continued licensure.

(b) The Commission may evaluate or verify documentation showing completion of or compliance with renewal requirements. If necessary, the Commission may complete its evaluation or verification subsequent to renewal and, if appropriate, pursue action to suspend or revoke the license of a licensee who no longer meets the qualifications for continued licensure.

(5) Any license that is not renewed may be reinstated at any time within two years after nonrenewal upon submission of an application for reinstatement, payment of the renewal fee together with the reinstatement fee determined by the Department under Section 63-38-3.2, and upon submission of documentation showing completion of or compliance with renewal qualifications.

(6) If not reinstated within two years, the holder may obtain a license only if he meets the requirements for a new license.

**R151-33-401. Designation of Adjudicative Proceedings.**

(1) Formal Adjudicative Proceedings. The following proceedings before the Commission are designated as formal adjudicative proceedings:

(a) any action to revoke, suspend, restrict, place on probation or enter a reprimand as to a license;

(b) approval or denial of applications for renewal of a license;

(c) any proceedings conducted subsequent to the issuance of a cease and desist order; and

(d) the withholding of a purse by the Commission pursuant to Subsection 13-33-504(3).

(2) Informal Adjudicative Proceedings. The following proceedings before the Commission are designated as informal adjudicative proceedings:

(a) approval or denial of applications for initial licensure;

(b) approval or denial of applications for reinstatement of a license; and

(c) protests against the results of a match.

(3) Any other adjudicative proceeding before the Commission not specifically listed in Subsections (1) and (2) above, is designated as an informal adjudicative proceeding.

**R151-33-402. Adjudicative Proceedings in General.**

(1) The procedures for formal adjudicative proceedings are set forth in Sections 63-46b-6 through 63-46b-10; the Department of Commerce Administrative Procedures Act Rule, R151-46b; and this Rule.

(2) The procedures for informal adjudicative proceedings

are set forth in Section 63-46b-5; Rule R151-46b; and this Rule.

(3) No evidentiary hearings shall be held in informal adjudicative proceedings before the Commission with the exception of protests against the results of a match in which an evidentiary hearing is permissible if timely requested. Any request for a hearing with respect to a protest of match results shall comply with the requirements of Section R151-33-404.

(4) Unless otherwise specified by the Commission, an administrative law judge shall be designated as the presiding officer to conduct any hearings in adjudicative proceedings before the Commission and thus rule on evidentiary issues and matters of law or procedure.

(5) The Commission shall be designated as the sole presiding officer in any adjudicative proceeding where no evidentiary hearing is conducted. The Commission shall be designated as the presiding officer to serve as the fact finder at evidentiary hearings.

(6) A majority vote of the Commission shall constitute its decision. Orders of the Commission shall be issued in accordance with Section 63-46b-10 for formal adjudicative proceedings, Subsection 63-46b-5(1)(i) for informal adjudicative proceedings, and shall be signed by the Director or, in his or her absence, by the Chair of the Commission.

**R151-33-403. Additional Procedures for Immediate License Suspension.**

(1) In accordance with Subsection 13-33-303(7), the designated Commission member may issue an order immediately suspending the license of a licensee upon a finding that the licensee presents an immediate and significant danger to the licensee, other licensees, or the public.

(2) The suspension shall be at such time and for such period as the Commission believes is necessary to protect the health, safety, and welfare of the licensee, other licensees, or the public.

(3) A licensee whose license has been immediately suspended may, within 30 days after the decision of the designated Commission member, challenge the suspension by submitting a written request for a hearing. The Commission shall convene the hearing as soon as is reasonably practical but not later than 20 days from the receipt of the written request, unless the Commission and the party requesting the hearing agree to conduct the hearing at a later date.

**R151-33-404. Evidentiary Hearings in Informal Adjudicative Proceedings.**

(1) A request for an evidentiary hearing in an informal adjudicative proceeding shall be submitted in writing no later than 20 days following the issuance of the Commission's notice of agency action if the proceeding was initiated by the Commission, or together with the request for agency action, if the proceeding was not initiated by the Commission, in accordance with the requirements set forth in the Utah Administrative Procedures Act, Title 63, Chapter 46b.

(2) Unless otherwise agreed upon by the parties, no evidentiary hearing shall be held in an informal adjudicative proceeding unless timely notice of the hearing has been served upon the parties as required by Subsection 63-46b-5(1)(d). Timely notice means service of a Notice of Hearing upon all parties no later than ten days prior to any scheduled evidentiary hearing.

(3) Parties shall be permitted to testify, present evidence, and comment on the issues at an evidentiary hearing in an informal adjudicative proceeding.

**R151-33-405. Reconsideration and Judicial Review.**

Agency review is not available as to any order or decision entered by the Commission. However, any person aggrieved by an adverse determination by the Commission may either seek

reconsideration of the order pursuant to Section 63-46b-13 of the Utah Administrative Procedures Act or seek judicial review of the order pursuant to Sections 63-46b-14 through 63-46b-17.

**R151-33-501. Promoter's Responsibility in Arranging Contests-Permit Fee, Bond, Restrictions.**

(1) Before a licensed promoter may hold a contest or single contest as part of a single promotion, the promoter shall file with the Commission an application for a permit to hold the contest not less than 15 days before the date of the proposed contest, or not less than seven days for televised contests.

(2) The application shall include the date, time, and place of the contest as well as information concerning the on-site emergency facilities, personnel, and transportation.

(3) The permit application must be accompanied by a contest registration fee determined by the Department under Section 63-38-32.

(4) Before a permit to hold a contest is granted, the promoter shall post a surety bond with the Commission in the amount of \$10,000.

(5) Prior to the scheduled time of the contest, the promoter shall have available for inspection the completed physical facilities which will be used directly or indirectly for the contest. The designated Commission member shall inspect the facilities in the presence of the promoter or the promoter's authorized representative, and all deficiencies cited upon inspection shall be corrected before the contest.

(6) A promoter shall be responsible for verifying the identity, ring record, and suspensions of each contestant. A promoter shall be held responsible for the accuracy of the names and records of each of the participating contestants in all publicity or promotional material.

(7) A promoter shall be held responsible for a contest in which one of the contestants is disproportionately outclassed.

(8) Before a contest begins, the promoter shall give the designated Commission member the money for payment of contestants, referees, judges, and the attending physician. The designated Commission member shall pay each contestant, referee, judge, and physician in the presence of one witness.

(9) At the time of a boxing contest weigh-in, the promoter of a contest shall provide evidence of health insurance pursuant to Public Law 104272, "The Professional Boxing Safety Act of 1996."

**R151-33-502. Ringside Equipment.**

- (1) Each promoter shall provide all of the following:
- (a) a sufficient number of buckets for use by the contestants;
  - (b) stools for use by the seconds;
  - (c) rubber gloves for use by the referees, seconds, ringside physicians, and Commission representatives;
  - (d) a stretcher, which shall be available near the ring and near the ringside physician;
  - (e) a portable resuscitator with oxygen;
  - (f) an ambulance with attendants on site at all times when contestants are competing. Arrangements shall be made for a replacement ambulance if the first ambulance is required to transport a contestant for medical treatment. The location of the ambulance and the arrangements for the substitute ambulance service shall be communicated to the physician;
  - (g) seats at ringside for the assigned officials;
  - (h) seats at ringside for the designated Commission member;
  - (i) scales for weigh-ins, which the Commission shall require to be certified;
  - (j) a gong;
  - (k) a public address system;
  - (l) a separate dressing room for each sex, if contestants of both sexes are participating;

- (m) a separate room for physical examinations;
  - (n) a separate dressing room shall be provided for officials, unless the physical arrangements of the contest site make an additional dressing room impossible;
  - (o) adequate security personnel; and
  - (p) sufficient bout sheets for ring officials and the designated Commission member.
- (2) A promoter shall only hold contests in facilities that conform to the laws, ordinances, and regulations regulating the city, town, or village where the bouts are situated.
- (3) Restrooms shall not be used as dressing rooms and for physical examinations and weigh-ins.

**R151-33-503. Contracts.**

- (1) Pursuant to Section 13-33-503, a copy of the contract between a promoter and a contestant shall be filed with the Commission before a contest begins. The contract that is filed with the Commission shall embody all agreements between the parties.
- (2) A contestant's manager may sign a contract on behalf of the contestant. If a contestant does not have a licensed manager, the contestant shall sign the contract.
- (3) A contestant shall use his own legal name to sign a contract. However, a contestant who is licensed under another name may sign the contract using his licensed name if the contestant's legal name appears in the body of the contract as the name under which the contestant is legally known.
- (4) The contract between a promoter and a contestant shall be for the use of the contestant's skills in a contest and shall not require the contestant to sell tickets in order to be paid for his services.

**R151-33-504. Complimentary Tickets.**

- (1) Limitation on issuance, calculation of price, and service charge for payment to contestant working on percentage basis.
- (a) A promoter may not issue complimentary tickets for more than 4 percent of the seats in the house without the Commission's written authorization. The Commission shall not consider complimentary tickets which it authorizes under this Section to constitute part of the total gross receipts from admission fees for the purposes of calculating the license fee prescribed in Subsection 13-33-304(1).
- (b) If complimentary tickets are issued for more than 4 percent of the seats in the house, each contestant who is working on a percentage basis shall be paid a percentage of the normal price of all complimentary tickets in excess of 4 percent of the seats in the house, unless the contract between the contestant and the promoter provides otherwise and stipulates the number of complimentary tickets which will be issued. In addition, if a service fee is charged for complimentary tickets, the contestant is entitled to be paid a percentage of that service fee, less any deduction for federal taxes and fees.
- (c) Pursuant to Subsection 13-33-304(3)(a) a promoter shall file, within 10 days after the contest, a report indicating how many complimentary tickets the promoter issued and the value of those tickets.
- (2) Complimentary ticket and tickets at reduced rate, persons entitled or allowed to receive such tickets, duties of promoter, disciplinary action, fees and taxes.
- (a) Each promoter shall provide tickets without charge to the following persons who shall not be liable for the payment of any fees for those tickets:
- (i) the Commission members, Director and representatives;
  - (ii) principals and seconds who are engaged in a contest or exhibition which is part of the program of unarmed combat; and
  - (iii) holders of lifetime passes issued by the Commission.
- (b) Each promoter may provide tickets without charge or at a reduced rate to the following persons who shall be liable for

payment of applicable fees on the reduced amount paid, unless the person is a journalist, police officer or fireman as provided in this Subsection:

- (i) Any of the promoter's employees, and if the promoter is a corporation, to a director or officer who is regularly employed or engaged in promoting programs of unarmed combat, regardless of whether the director or officer's duties require admission to the particular program and regardless of whether the director or officer is on duty at the time of that program;
- (ii) Employees of the Commission;
- (iii) A journalist who is performing a journalist's duties; and

(iv) A fireman or police officer that is performing the duties of a fireman or police officer.

(c) Each promoter shall perform the following duties in relation to the issuance of complimentary tickets or those issued at a reduced price:

- (i) Each ticket issued to a journalist shall be clearly marked "PRESS." No more tickets may be issued to journalists than will permit comfortable seating in the press area;
- (ii) Seating at the press tables or in the press area must be limited to journalists who are actually covering the contest or exhibition and to other persons designated by the Commission;
- (iii) A list of passes issued to journalists shall be submitted to the Commission prior to the contest or exhibition;
- (iv) Only one ticket may be sold at a reduced price to any manager, second, contestant or other person licensed by the Commission;

(v) Any credential issued by the promoter which allows an admission to the program without a ticket, shall be approved in advance by a member of the Commission or the Director. Request for the issuance of such credentials shall be made at least 5 hours before the first contest or exhibition of the program.

(d) Admission of any person who does not hold a ticket or who is not specifically exempted pursuant to this Section is grounds for suspension or revocation of the promoter's license or for the assessment of a penalty.

(e) The Commission shall collect all fees and taxes due on any ticket that is not specifically exempt pursuant to this Section, and for any person who is admitted without a ticket in violation of this Section.

(3) Reservation of area for use by Commission. For every program of unarmed combat, the promoter of the program shall reserve seats at ringside for use by the designated Commission member and Commission representatives.

**R151-33-505. Physical Examination - Physician.**

(1) Not less than one hour before a contest, each contestant shall be given a medical examination by a physician who is appointed by the designated Commission member. The examination shall include a detailed medical history and a physical examination of all of the following:

- (a) eyes;
- (b) teeth;
- (c) jaw;
- (d) neck;
- (e) chest;
- (f) ears;
- (g) nose;
- (h) throat;
- (i) skin;
- (j) scalp;
- (k) head;
- (l) abdomen;
- (m) cardiopulmonary status;
- (n) neurological, musculature, and skeletal systems;
- (o) pelvis; and

(p) the presence of controlled substances in the body.

(2) If after the examination the physician determines that a contestant is unfit for competition, the physician shall notify the Commission of this determination, and the Commission shall prohibit the contestant from competing.

(3) The physician shall provide a written certification of those contestants who are in good physical condition to compete.

(4) Before a bout, a female contestant shall provide the ringside physician with the results of a pregnancy test performed on the contestant within the previous 14 days. If the results of the pregnancy test are positive, the physician shall notify the Commission, and the Commission shall prohibit the contestant from competing.

(5) A female contestant with breast implants shall be denied a license.

(6) A contestant who has had cardiac surgery shall not be issued a license unless he is certified as fit to compete by a cardiovascular surgeon.

(7) A contest shall not begin until a physician and an attended ambulance are present. The physician shall not leave until the decision in the final contest has been announced and all injured contestants have been attended to.

(8) The contest shall not begin until the physician is seated at ringside. The physician shall remain at that location for the entire fight, unless it is necessary for the physician to attend to a contestant.

#### **R151-33-506. Drug Tests.**

In accordance with Section 13-33-405, the following shall apply to drug testing:

(1) At the request of the Commission, the designated Commission member, or the ringside physician, a contestant or assigned official shall submit to a test of body fluids to determine the presence of drugs. The promoter shall be responsible for any costs of testing.

(2) If the test results in a finding of the presence of a drug or if the contestant or assigned official is unable or unwilling to provide a sample of body fluids for such a test, the Commission may take one or more of the following actions:

(a) immediately suspend the contestant's or assigned official's license in accordance with Section R151-33-403;

(b) stop the contest in accordance with Subsection 13-33-404(2);

(c) initiate other appropriate licensure action in accordance with Section 13-33-303; or

(d) withhold the contestant's purse in accordance with Subsection 13-33-405(2).

(3) A contestant who is disciplined pursuant to the provisions of this Rule and who was the winner of a contest shall be disqualified and the decision of the contest shall be changed to "no contest."

#### **R151-33-507. HIV Testing.**

In accordance with Section 13-33-405, contestants shall produce evidence of a clear test for HIV as a condition to participation in a contest as follows:

(1) All contestants shall provide evidence in the form of a competent laboratory examination certificate verifying that the contestant is HIV negative at the time of the weigh-in.

(2) The examination certificate shall certify that the HIV test was completed within 180 days prior to the contest.

(3) Any contestant whose HIV test is positive shall be prohibited from participating in a contest.

#### **R151-33-508. Contestant Use or Administration of Any Substance.**

(1) The use or administration of drugs, stimulants, or non-prescription preparations by or to a contestant during a contest

is prohibited, except as provided by this Rule.

(2) The giving of substances other than water to a contestant during the course of the contest is prohibited.

(3) The discretionary use of petroleum jelly may be allowed, as determined by the referee.

(4) The discretionary use of coagulants, adrenalin 1/1000, avetine, and thrombin, as approved by the Commission, may be allowed between rounds to stop the bleeding of minor cuts and lacerations sustained by a contestant. The use of monsel solution, silver nitrate, "new skin," flex collodion, or substances having an iron base is prohibited, and the use of any such substance by a contestant is cause for immediate disqualification.

(5) The ringside physician shall monitor the use and application of any foreign substances administered to a contestant before or during a contest and shall confiscate any suspicious foreign substance for possible laboratory analysis, the results of which shall be forwarded to the Commission.

#### **R151-33-509. Weighing-In.**

(1) Unless otherwise approved by the Commission for a specific contest, the weigh-in shall occur not less than six nor more than 24 hours before the start of a contest. The designated Commission member or authorized Commission representative(s), shall weigh-in each contestant in the presence of other contestants.

(2) Contestants shall be licensed at the time they are weighed-in.

(3) Only those contestants who have been previously approved for the contest shall be permitted to weigh-in.

#### **R151-33-510. Announcer.**

(1) At the beginning of a contest, the announcer shall announce that the contest is under the auspices of the Commission.

(2) The announcer shall announce the names of the referee, judges, and timekeeper when the competitions are about to begin, and shall also announce the changes made in officials as the contest progresses.

(3) The announcer shall announce the names of all contestants, their weight, professional record, their city and state of residence, and country of origin if not a citizen.

#### **R151-33-511. Timekeepers.**

(1) A timekeeper shall indicate the beginning and end of each round by the gong.

(2) A timekeeper shall possess a whistle and a stopwatch.

(3) Ten seconds before the beginning of each round, the timekeeper shall warn the contestants of the time by blowing a whistle.

(4) If a contest terminates before the scheduled limit of rounds, the timekeeper shall inform the announcer of the exact duration of the contest.

(5) The timekeeper shall keep track of and record the exact amount of time that any contestant remains on the canvas.

#### **R151-33-512. Stopping a Contest.**

In accordance with Subsections 13-33-404(2) and 13-33-102(14)(b), authority for stopping a contest is defined, clarified or established as follows.

(1) The referee may stop a contest to ensure the integrity of a contest or to protect the health, safety, or welfare of a contestant or the public for any one or more of the following reasons:

(a) injuries, cuts, or other physical or mental conditions that would endanger the health, safety, or welfare of a contestant if the contestant were to continue with the competition.

(b) one-sided nature of the contest;

(c) refusal or inability of a contestant to reasonably

compete; and

(d) refusal or inability of a contestant to comply with the rules of the contest.

(2) If a referee stops a contest, the referee shall disqualify the contestant, where appropriate, and recommend to the designated Commission member that the purse of that professional contestant be withheld pending an impoundment decision in accordance with Section 13-33-504.

(3) The designated Commission member may stop a contest at any stage in the contest when there is a significant question with respect to the contest, the contestant, or any other licensee associated with the contest, and determine whether the purse should be withheld pursuant to Section 13-33-504.

**R151-33-601. Boxing - Contest Weights and Classes.**

(1) Boxing weights and classes are established as follows:

- (a) Strawweight: up to 105 lbs. (47.627 kgs.)
- (b) Light-Flyweight: over 105 to 108 lbs. (47.627 to 48.988 kgs.)
- (c) Flyweight: over 108 to 112 lbs. (48.988 to 50.802 kgs.)
- (d) Super Flyweight: over 112 to 115 lbs. (50.802 to 52.163 kgs.)
- (e) Bantamweight: over 115 to 118 lbs. (52.163 to 53.524 kgs.)
- (f) Super Bantamweight: over 118 to 122 lbs. (53.524 to 55.338 kgs.)
- (g) Featherweight: over 122 to 126 lbs. (55.338 to 57.153 kgs.)
- (h) Super Featherweight: over 126 to 130 lbs. (57.153 to 58.967 kgs.)
- (i) Lightweight: over 130 to 135 lbs. (58.967 to 61.235 kgs.)
- (j) Super Lightweight: over 135 to 140 lbs. (61.235 to 63.503 kgs.)
- (k) Welterweight: over 140 to 147 lbs. (63.503 to 66.678 kgs.)
- (l) Super Welterweight: over 147 to 154 lbs. (66.678 to 69.853 kgs.)
- (m) Middleweight: over 154 to 160 lbs. (69.853 to 72.574 kgs.)
- (n) Super Middleweight: over 160 to 168 lbs. (72.574 to 76.204 kgs.)
- (o) Light-heavyweight: over 168 to 175 lbs. (76.204 to 79.378 kgs.)
- (p) Cruiserweight: over 175 to 200 lbs. (79.378 to 90.80 kgs.)
- (q) Heavyweight: all over 200 lbs. (90.80 kgs.)

(2) A contestant shall not fight another contestant who is outside of the contestant's weight classification unless prior approval is given by the Commission.

(3) A contestant who has contracted to box in a given weight class shall not be permitted to compete if he or she exceeds that weight class at the weigh-in, unless the contract provides for the opposing contestant to agree to the weight differential. If the weigh-in is held the day before the contest and if the opposing contestant does not agree or the contract does not provide for a weight exception, the contestant may have two hours to attempt to lose not more than three pounds in order to be reweighed.

(4) The Commission shall not allow a contest in which the contestants are not fairly matched. In determining if contestants are fairly matched, the Commission shall consider all of the following factors with respect to the contestant:

- (a) the win-loss record of the contestants;
- (b) the weight differential;
- (c) the caliber of opponents;
- (d) each contestant's number of fights; and
- (e) previous suspensions or disciplinary actions.

**R151-33-602. Boxing - Number of Rounds in a Bout.**

(1) A contest bout shall consist of not less than four and not more than twelve scheduled rounds. Three minutes of boxing shall constitute a round for men's boxing, and two minutes shall constitute a round for women's boxing. There shall be a rest period of one minute between the rounds.

(2) A promoter shall contract with a sufficient number of contestants to provide a program consisting of at least 30 and not more than 56 scheduled rounds of boxing, unless otherwise approved by the Commission.

**R151-33-603. Boxing - Ring Dimensions and Construction.**

(1) The ring shall be square, and the sides shall not be less than 16 feet nor more than 22 feet. The ring floor shall extend not less than 18 inches beyond the ropes. The ring floor shall be padded with a base not less than 5/8 of an inch of ensolite or another similar closed-cell foam. The padding shall extend beyond the ring ropes and over the edge of the platform, and shall be covered with canvas, duck, or a similar material that is tightly stretched and laced securely in place.

(2) The ring floor platform shall not be more than four feet above the floor of the building, and shall have two sets of suitable stairs for the use of contestants, with an extra set of suitable stairs to be used for any other activities that may occur between rounds. Ring posts shall be made of metal and shall be not less than three nor more than four inches in diameter, extending a minimum of 58 inches above the ring floor. Ring posts shall be at least 18 inches away from the ropes.

(3) The ring shall not have less than four ring ropes which can be tightened and which are not less than one inch in diameter. The ring ropes shall be wrapped in a soft material. The turnbuckles shall be covered with a protective padding. The ring ropes shall have two spacer ties on each side of the ring to secure the ring ropes. The lower ring rope shall be 18 inches above the ring floor. The ring shall have corner pads in each corner.

**R151-33-604. Boxing - Gloves.**

(1) A boxing contestant's gloves shall be examined before a contest by the referee and the designated Commission member. If gloves are found to be broken or unclean or if the padding is found to be misplaced or lumpy, they shall be changed before the contest begins.

(2) A promoter shall be required to have on hand an extra set of gloves that are to be used if a contestant's gloves are broken or damaged during the course of a contest.

(3) Gloves for a main event may be put on in the ring after the referee has inspected the bandaged hands of both contestants.

(4) During a contest, male contestants shall wear gloves weighing not less than eight ounces each if the contestant weighs 154 lbs. (69.853 kgs.) or less. Contestants who weigh more than 154 lbs. (69.853 kgs.) shall wear gloves weighing ten ounces each. Female contestants' gloves shall be ten-ounce gloves. The designated Commission member shall have complete discretion to approve or deny the model and style of the gloves before the contest.

(5) The laces shall be tied on the outside of the back of the wrist of the gloves and shall be secured. The tips of the laces shall be removed.

**R151-33-605. Boxing - Bandage Specification.**

(1) Except as agreed to by the managers of the contestants opposing each other in a contest, a contestant's bandage for each hand shall consist of soft gauze not more than 20 yards long and not more than two inches wide. The gauze shall be held in place by not more than eight feet of adhesive tape not more than one and one-half inches wide. The adhesive tape must be white or a light color.

(2) Bandages shall be adjusted in the dressing room under the supervision of the designated Commission member.

(3) The use of water or any other substance other than medical tape on the bandages is prohibited.

(4) The bandages and adhesive tape may not extend to the knuckles, and must remain at least three-fourths of an inch away from the knuckles when the hand is clenched to make a fist.

**R151-33-606. Boxing - Mouthpieces.**

A round shall not begin until the contestant's form-fitted protective mouthpiece is in place. If, during a round, the mouthpiece falls out of the contestant's mouth, the referee shall, as soon as practicable, stop the bout and escort the contestant to his corner. The mouthpiece shall be rinsed out and replaced in the contestant's mouth and the contest shall continue. If the referee determines that the contestant intentionally spit the mouthpiece out, the referee may direct the judges to deduct points from the contestant's score for the round.

**R151-33-607. Boxing - Contest Officials.**

(1) The officials for each boxing contest shall consist of not less than the following:

- (a) one referee;
- (b) three judges;
- (c) one timekeeper; and
- (d) one physician licensed in good standing in Utah.

(2) A licensed referee, judge, or timekeeper shall not officiate at a contest that is not conducted under the authority or supervision of the designated Commission member.

(3) A referee or judge shall not participate or accept an assignment to officiate when that assignment may tend to impair the referee's or judge's independence of judgment or action in the performance of the referee's or judge's duties.

(4) A judge shall be seated midway between the ring posts of the ring, but not on the same side as another judge, and shall have an unimpaired view of the ring.

(5) A referee shall not be assigned to officiate more than 32 scheduled rounds in one day, except when substituting for another referee who is incapacitated.

(6) A referee shall not wear jewelry that might cause injury to the contestants. Glasses, if worn, shall be protective athletic glasses or goggles with plastic lenses and a secure elastic band around the back of the head.

(7) Referees, seconds working in the corners, the designated Commission member, and physicians may wear rubber gloves in the performance of their duties.

(8) No official shall be under the influence of alcohol or controlled substances while performing the official's duties.

**R151-33-608. Boxing - Contact During Contests.**

(1) Beginning one minute before the first round begins, only the referee, boxing contestants, and the chief second may be in the ring. The referee shall clear the ring of all other individuals.

(2) Once a contest has begun, only the referee, contestants, seconds, judges, Commission representatives, physician, the announcer and the announcer's assistants shall be allowed in the ring.

(3) At any time before, during or after a contest, the referee may order that the ring and technical area be cleared of any individual not authorized to be present in those areas.

(4) The referee, on his own initiative, or at the request of the designated Commission member, may stop a bout at any time if individuals refuse to clear the ring and technical area, dispute a decision by an official, or seek to encourage spectators to object to a decision either verbally, physically, or by engaging in disruptive conduct. If the individual involved in disruptive conduct or encouraging disruptive conduct is the manager or second of a contestant, the referee may disqualify the contestant

or order the deduction of points from that contestant's score. If the conduct occurred after the decision was announced, the Commission may change the decision, declare no contest, or pursue disciplinary action against any licensed individual involved in the disruptive conduct.

**R151-33-609. Boxing - Referees.**

(1) The chief official of a boxing contest shall be the referee. The referee shall decide all questions arising in the ring during a contest that are not specifically addressed in this Rule.

(2) The referee shall, before each contest begins, determine the name and location of the physician assigned to officiate at the contest and each contestant's chief second.

(3) At the beginning of each contest, the referee shall summon the contestants and their chief seconds together for final instructions. After receiving the instructions, the contestants shall shake hands and retire to their respective corners.

(4) Where difficulties arise concerning language, the referee shall make sure that the contestant understands the final instructions through an interpreter and shall use suitable gestures and signs during the contest.

(5) No individual other than the contestants, the referee, and the physician when summoned by the referee, may enter the ring or the apron of the ring during the progress of a round.

(6) If a contestant's manager or second steps into the ring or onto the apron of the ring during a round, the fight shall be halted and the referee may eject the manager or second from the ringside working area. If the manager or second steps into the ring or onto the apron a second time during the contest, the fight may be stopped and the decision may be awarded to the contestant's opponent due to disqualification.

(7) A referee shall inspect a contestant's body to determine whether a foreign substance has been applied.

**R151-33-610. Boxing - Stalling or Faking.**

(1) A referee shall warn a contestant if the referee believes the contestant is stalling or faking. If after proper warning, the referee determines the contestant is continuing to stall or pull his punches, the referee shall stop the bout at the end of the round.

(2) A referee may consult the judges as to whether or not the contestant is stalling or faking and shall abide by a majority decision of the judges.

(3) If the referee determines that either or both contestants are stalling or faking, or if a contestant refuses to fight, the referee shall terminate the contest and announce a no contest.

(4) A contestant who, in the opinion of the referee, intentionally falls down without being struck shall be immediately examined by a physician. After conferring with the physician, the referee may disqualify the contestant.

**R151-33-611. Boxing - Injuries and Cuts.**

(1) When an injury or cut is produced by a fair blow and because of the severity of the blow the contest cannot continue, the injured boxing contestant shall be declared the loser by technical knockout.

(2) If a contestant intentionally fouls his opponent and an injury or cut is produced, and due to the severity of the injury the contestant cannot continue, the contestant who commits the foul shall be declared the loser by disqualification.

(3) If a contestant receives an intentional butt or foul and the contest can continue, the referee shall penalize the contestant who commits the foul by deducting two points. The referee shall notify the judges that the injury or cut has been produced by an intentional unfair blow so that if in the subsequent rounds the same injury or cut becomes so severe that the contest has to be suspended, the decision will be awarded as follows:

(a) a technical draw if the injured contestant is behind on points or even on a majority of scorecards; and

(b) a technical decision to the injured contestant if the injured contestant is ahead on points on a majority of the scorecards.

(4) If a contestant injures himself trying to foul his opponent, the referee shall not take any action in his favor, and the injury shall be considered as produced by a fair blow from his opponent.

(5) If a contestant is fouled accidentally during a contest and can continue, the referee shall stop the action to inform the judges and acknowledge the accidental foul. If in subsequent rounds, as a result of legal blows, the accidental foul injury worsens and the contestant cannot continue, the referee shall stop the contest and declare a technical decision with the winner being the contestant who is ahead on points on a majority of the scorecards. The judges shall score partial rounds. If a contestant is accidentally fouled in a contest and due to the severity of the injury the contestant cannot continue, the referee shall rule as follows:

(a) if the injury occurs before the completion of four rounds, declare the contest a technical draw; or

(b) if the injury occurs after the completion of four rounds, declare that the winner is the contestant who has a lead in points on a majority of the scorecards before the round of injury. The judges shall score partial rounds.

(6) If in the opinion of the referee, a contestant has suffered a dangerous cut or injury, or other physical or mental condition, the referee may stop the bout temporarily to summon the physician. If the physician recommends that the contest should not continue, the referee shall order the contest to be terminated.

(7) A fight shall not be terminated because of a low blow. The referee may give a contestant not more than five minutes if the referee believes a foul has been committed. Each contestant shall be instructed to return to his or her respective corner by the referee. The contestants may sit in their respective corners with their mouthpiece removed. After removing their contestant's mouthpiece, the seconds must return to their seats. The seconds may not coach, administer water, or in any other way attend to their contestant, except to replace the mouthpiece when the round is ready to resume.

(8) If a contestant is knocked down or given a standing mandatory count of eight or a combination of either occurs three times in one round, the contest shall be stopped and a technical knockout shall be awarded to the opponent. The physician shall immediately enter the ring and examine the losing contestant.

(9) A physician shall immediately examine and administer aid to a contestant who is knocked out or injured.

(10) When a contestant is knocked out or rendered incapacitated, the referee or second shall not handle the contestant, except for the removal of a mouthpiece, unless directed by the physician to do so.

(11) A contestant shall not refuse to be examined by a physician.

(12) A contestant who has been knocked out shall not leave the site of the contest until one hour has elapsed from the time of the examination or until released by the physician.

(13) A physician shall file a written report with the Commission on each contestant who has been knocked out or injured.

#### **R151-33-612. Boxing - Knockouts.**

(1) A boxing contestant who is knocked down shall take a minimum mandatory count of eight.

(2) If a boxing contestant is dazed by a blow and, in the referee's opinion, is unable to defend himself, the referee shall give a standing mandatory count of eight or stop the contest. If on the count of eight the boxing contestant, in the referee's

opinion, is unable to continue, the referee may count him out on his feet or stop the contest on the count of eight.

(3) In the event of a knockdown, the timekeeper shall immediately start the count loud enough to be heard by the referee, who, after waving the opponent to the farthest neutral corner, shall pick up the count from the timekeeper and proceed from there. The referee shall stop the count if the opponent fails to remain in the corner. The count shall be resumed when the opponent has returned to the corner.

(4) The timekeeper shall signal the count to the referee.

(5) If the boxing contestant taking the count is still down when the referee calls the count of ten, the referee shall wave both arms to indicate that the boxing contestant has been knocked out. The referee shall summon the physician and shall then raise the opponent's hand as the winner. The referee's count is the official count.

(6) If at the end of a round a boxing contestant is down and the referee is in the process of counting, the gong indicating the end of the round shall not be sounded. The gong shall only be sounded when the referee gives the command to box indicating the continuation of the bout.

(7) In the final round, the timekeeper's gong shall terminate the fight.

(8) A technical knockout decision shall be awarded to the opponent if a boxing contestant is unable or refuses to continue when the gong sounds to begin the next round. The decision shall be awarded in the round started by the gong.

(9) The referee and timekeeper shall resume their count at the point it was suspended if a boxing contestant arises before the count of ten is reached and falls down again immediately without being struck.

(10) If both boxing contestants go down at the same time, counting will be continued as long as one of them is still down or until the referee or the ringside physician determines that one or both of the boxing contestants needs immediate medical attention. If both boxing contestants remain down until the count of ten, the bout will be stopped and the decision will be scored as a double knockout.

#### **R151-33-613. Boxing - Procedure After Knockout or Contestant Sustaining Damaging Head Blows.**

(1) A boxing contestant who has lost by a technical knockout shall not fight again for a period of 30 calendar days or until the contestant has submitted to a medical examination. The Commission may require such physical exams as necessary.

(2) A ringside physician shall examine a boxing contestant who has been knocked out in a contest or a contestant whose fight has been stopped by the referee because the contestant received hard blows to the head that made him defenseless or incapable of continuing immediately after the knockout or stoppage. The ringside physician may order post-fight neurological examinations, which may include computerized axial tomography (CAT) scans or magnetic resonance imaging (MRI) to be performed on the contestant immediately after the contestant leaves the location of the contest. Post-fight neurological examination results shall be forwarded to the Commission by the ringside physician as soon as possible.

(3) A report that records the amount of punishment a fighter absorbed shall be submitted to the Commission by the ringside physician within 24 hours of the end of the fight.

(4) A ringside physician may require any boxing contestant who has sustained a severe injury or knockout in a bout to be thoroughly examined by a physician within 24 hours of the bout. The physician shall submit his findings to the Commission. Upon the physician's recommendation, the Commission may prohibit the contestant from boxing until the contestant is fully recovered and may extend any such suspension imposed.

(5) All medical reports that are submitted to the

Commission relative to a physical examination or the condition of a boxing contestant shall be confidential and shall be open for examination only by the Commission and the licensed contestant upon the contestant's request to examine the records or upon the order of a court of competent jurisdiction.

(6) A boxing contestant who has been knocked out or who received excessive hard blows to the head that made him defenseless or incapable of continuing shall not be permitted to take part in competitive or noncompetitive boxing for a period of not less than 60 days. Noncompetitive boxing shall include any contact training in the gymnasium. It shall be the responsibility of the boxing contestant's manager and seconds to assure that the contestant complies with the provisions of this Rule. Violation of this Rule could result in the indefinite suspension of the contestant and the contestant's manager or second.

(7) A contestant may not resume boxing after any period of rest prescribed in Subsections R151-33-613(1) and (6), unless following a neurological examination, a physician certifies the contestant as fit to take part in competitive boxing. A boxing contestant who fails to secure an examination prior to resuming boxing shall be automatically suspended until the results of the examination have been received by the Commission and the contestant is certified by a physician as fit to compete.

(8) A boxing contestant who has lost six consecutive fights shall be prohibited from boxing again until the Commission has reviewed the results of the six fights or the contestant has submitted to a medical examination by a physician.

(9) A boxing contestant who has suffered a detached retina shall be automatically suspended and shall not be reinstated until the contestant has submitted to a medical examination by an ophthalmologist and the Commission has reviewed the results of the examination.

(10) A boxing contestant who is prohibited from boxing in other states or jurisdictions due to medical reasons shall be prohibited from boxing in accordance with this Rule. The Commission shall consider the boxing contestant's entire professional record regardless of the state or country in which the contestant's fights occurred.

(11) A boxing contestant or the contestant's manager shall report any change in the contestant's medical condition which may affect the contestant's ability to fight safely. The Commission may, at any time, require current medical information on any contestant.

**R151-33-614. Boxing - Waiting Periods.**

(1) The number of days that shall elapse before a boxing contestant who has competed anywhere in a bout may participate in another bout shall be as follows:

TABLE	
Length of Bout (In scheduled Rounds)	Required Interval (In Days)
4	3
5-9	5
10-12	7

**R151-33-615. Boxing - Fouls.**

(1) A referee may disqualify or penalize a boxing contestant by deducting one or more points from a round for the following fouls:

- (a) holding an opponent or deliberately maintaining a clinch;
- (b) hitting with the head, shoulder, elbow, wrist, inside or butt of the hand, or the knee.
- (c) hitting or gouging with an open glove;
- (d) wrestling, spinning or roughing at the ropes;
- (e) causing an opponent to fall through the ropes by means other than a legal blow;
- (f) gripping at the ropes when avoiding or throwing

punches;

- (g) intentionally striking at a part of the body that is over the kidneys;
- (h) using a rabbit punch or hitting an opponent at the base of the opponent's skull;
- (i) hitting on the break or after the gong has sounded;
- (j) hitting an opponent who is down or rising after being down;
- (k) hitting below the belt line;
- (l) holding an opponent with one hand and hitting with the other;
- (m) purposely going down without being hit or to avoid a blow;
- (n) using abusive language in the ring;
- (o) un-sportsmanlike conduct on the part of the boxing contestant or a second whether before, during, or after a round;
- (p) intentionally spitting out a mouthpiece;
- (q) any backhand blow; or
- (r) biting.

**R151-33-616. Boxing - Penalties for Fouling.**

(1) A referee who penalizes a boxing contestant pursuant to this Rule shall notify the judges at the time of the infraction to deduct one or more points from their scorecards.

(2) A boxing contestant committing a deliberate foul, in addition to the deduction of one or more points, may be subject to disciplinary action by the Commission.

(3) A judge shall not deduct points unless instructed to do so by the referee.

(4) The designated Commission member shall file a complaint with the Commission against a boxing contestant disqualified on a foul. The Commission shall withhold the purse until the complaint is resolved.

**R151-33-617. Boxing - Contestant Outside the Ring Ropes.**

(1) A boxing contestant who has been knocked, wrestled, pushed, or has fallen through the ropes during a contest shall not be helped back into the ring, nor shall the contestant be hindered in any way by anyone when trying to reenter the ring.

(2) When one boxing contestant has fallen through the ropes, the other contestant shall retire to the farthest neutral corner and stay there until ordered to continue the contest by the referee.

(3) The referee shall determine if the boxing contestant has fallen through the ropes as a result of a legal blow or otherwise. If the referee determines that the boxing contestant fell through the ropes as a result of a legal blow, he shall warn the contestant that the contestant must immediately return to the ring. If the contestant fails to immediately return to the ring following the warning by the referee, the referee shall begin the count that shall be loud enough to be heard by the contestant.

(4) If the boxing contestant enters the ring before the count of ten, the contest shall be resumed.

(5) If the boxing contestant fails to enter the ring before the count of ten, the contestant shall be considered knocked out.

(6) When a contestant has accidentally slipped or fallen through the ropes, the contestant shall have 20 seconds to return to the ring.

**R151-33-618. Boxing - Scoring.**

(1) Officials who score a boxing contest shall use the 10-point must system.

(2) For the purpose of this Rule, the "10-point must system" means the winner of each round received ten points as determined by clean hitting, effective aggressiveness, defense, and ring generalship. The loser of the round shall receive less than ten points. If the round is even, each boxing contestant shall receive not less than ten points. No fraction of points may be given.

(3) Officials who score the contest shall mark their cards in ink or in indelible pencil at the end of each round.

(4) Officials who score the contest shall sign their scorecards.

(5) When a contest is scored on the individual score sheets for each round, the referee shall, at the end of each round, collect the score sheet for the round from each judge and shall give the score sheets to the designated Commission member for computation.

(6) Referees and judges shall be discreet at all times and shall not discuss their decisions with anyone during a contest.

(7) A decision that is rendered at the termination of a boxing contest shall not be changed without a hearing, unless it is determined that the computation of the scorecards of the referee and judges shows a clerical or mathematical error giving the decision to the wrong contestant. If such an error is found, the Commission may change the decision.

(8) After a contest, the scorecards collected by the designated Commission member shall be maintained by the Commission.

(9) If a referee becomes incapacitated, a time-out shall be called and the other referee who is assigned to the contest shall assume the duties of the referee.

(10) If a judge becomes incapacitated and is unable to complete the scoring of a contest, a time-out shall be called and an alternate licensed judge shall immediately be assigned to score the contest from the point at which he assumed the duties of a judge. If the incapacity of a judge is not noticed during a round, the referee shall score that round and the substitute judge shall score all subsequent rounds.

#### **R151-33-619. Boxing - Seconds.**

(1) A boxing contestant shall not have more than four seconds, one of whom shall be designated as the chief second. The chief second shall be responsible for the conduct in the corner during the course of a contest. During the rest period, one second shall be allowed inside the ring, two seconds shall be allowed on the apron and one second shall be allowed on the floor.

(2) All seconds shall remain seated during the round.

(3) A second shall not spray or throw water on a boxing contestant during a round.

(4) A boxing contestant's corner shall not heckle or in any manner annoy the contestant's opponent or the referee, or throw any object into the ring.

(5) A second shall not enter the ring until the timekeeper has indicated the end of a round.

(6) A second shall leave the ring at the timekeeper's whistle and shall clear the ring platform of all obstructions at the sound of the gong indicating the beginning of a round. Articles shall not be placed on the ring floor until the round has ended or the contest has terminated.

(7) A referee may eject a second from a ring corner for violations of the provisions of Subsections R151-33-609(6) and R151-33-608(4) of this Rule (stepping into the ring and disruptive behavior) and may have the judges deduct points from a contestant's corner.

(8) A second may indicate to the referee that the second's boxing contestant cannot continue and that the contest should be stopped. Only verbal notification or hand signals may be used; the throwing of a towel into the ring does not indicate the defeat of the second's boxing contestant.

(9) A second shall not administer alcoholic beverages, narcotics, or stimulants to a contestant, pour excessive water on the body of a contestant, or place ice in the trunks or protective cup of a contestant during the progress of a contest.

#### **R151-33-620. Boxing - Managers.**

A manager shall not sign a contract for the appearance of

a boxing contestant if the manager does not have the boxing contestant under contract.

#### **R151-33-621. Boxing. Identification - Photo Identification Cards.**

(1) Each boxing contestant shall provide two pieces of identification to the designated Commission member before participation in a fight. One of the pieces of identification shall be a recent photo identification card issued or accepted by the Commission at the time the boxing contestant receives his original license.

(2) The photo identification card shall contain the following information:

(a) the contestant's name and address;

(b) the contestant's social security number;

(c) the personal identification number assigned to the contestant by a boxing registry;

(d) a photograph of the boxing contestant; and

(e) the contestant's height and weight.

(3) The Commission shall honor similar photo identification cards from other jurisdictions.

(4) Unless otherwise approved by the Commission, a boxing contestant will not be allowed to compete if his or her photo identification card is incomplete or if the boxing contestant fails to present the photo identification card to the designated Commission member prior to the bout.

#### **R151-33-622. Boxing - Dress for Contestants.**

(1) Boxing contestants shall be required to wear the following:

(a) trunks that are belted at the contestant's waistline. For the purposes of this Subsection, the waistline shall be defined as an imaginary horizontal line drawn through the navel to the top of the hips. Trunks shall not have any buckles or other ornaments on them that might injure a boxing contestant or referee;

(b) a foul-proof protector for male boxing contestants and a pelvic area protector and breast protector for female boxing contestants;

(c) shoes that are made of soft material without spikes, cleats, or heels;

(d) a fitted mouthpiece; and

(e) gloves meeting the requirements specified in Section R151-33-604.

(2) In addition to the clothing required pursuant to Subsections R151-33-622(1)(a) through (e), a female boxing contestant shall wear a body shirt or blouse without buttons, buckles, or ornaments.

(3) A boxing contestant's hair shall be cut or secured so as not to interfere with the contestant's vision.

(4) A boxing contestant shall not wear corrective lenses other than soft contact lenses into the ring. A bout shall not be interrupted for the purposes of replacing or searching for a soft contact lens.

#### **R151-33-623. Boxing - Failure to Compete.**

A boxing contestant's manager shall immediately notify the Commission if the contestant is unable to compete in a contest due to illness or injury. A physician may be selected as approved by the Commission to examine the contestant.

#### **R151-33-701. Elimination Tournaments.**

(1) In general. The provisions of Title 13, Chapter 33, and Rule R151-33 apply to elimination tournaments, including provisions pertaining to licenses, fees, stopping contests, impounding purses, testing requirements for contestants, and adjudicative proceedings. For purposes of identification, an elimination tournament contestant shall provide any form of identification that contains a photograph of the contestant, such

as a state driver's license, passport, or student identification card.

(2) Official rules of the sport. Upon requesting the Commission's approval of an elimination tournament in this State, the sponsoring organization or promoter of an elimination tournament may submit the official rules for the particular sport to the Commission and request the Commission to apply the official rules in the contest.

(3) The Commission shall not approve the official rules of the particular sport and shall not allow the contest to be held if the official rules are inconsistent, in any way, with the purpose of the Pete Suazo Utah Athletic Commission Act, Title 13, Chapter 33, or with the Rule adopted by the Commission for the administration of that Act, Rule R151-33.

#### **R151-33-702. Restrictions on Elimination Tournaments.**

Elimination tournaments shall comply with the following restrictions:

(1) An elimination tournament must begin and end within a period of 48 hours.

(2) All matches shall be scheduled for no more than three rounds. A round must be one minute in duration.

(3) A contestant shall wear 16 oz. boxing gloves, training headgear, a mouthpiece and a large abdominal groin protector during each match.

(4) A contestant may participate in more than one match, but a contestant shall not compete more than a total of 12 rounds.

(5) The promoter of the elimination tournament shall be required to supply at the time of the weigh-in of contestants, a physical examination on each contestant, conducted by a physician not more than 60 days prior to the elimination tournament in a form provided by the Commission, certifying that the contestant is free from any physical or mental condition that indicates the contestant should not engage in activity as a contestant.

(6) The promoter of the elimination tournament shall be required to supply at the time of the weigh-in of the contestants HIV test results for each contestant pursuant to Subsection R151-33-507 of this Rule and Subsection 13-33-405(1).

(7) The Commission may impose additional restrictions in advance of an elimination tournament.

#### **R151-33-801. Martial Arts Contests and Exhibitions.**

(1) In general. All full-contact martial arts are forms of unarmed combat. Therefore, the provisions of Title 13, Chapter 33, and Rule R151-33 apply to contests or exhibitions of such martial arts, including provisions pertaining to licenses, fees, stopping contests, impounding purses, testing requirements for contestants, and adjudicative proceedings. For purposes of identification, a contestant in a martial arts contest or exhibition shall provide any form of identification that contains a photograph of the contestant, such as a state driver's license, passport, or student identification card.

(2) Official rules of the art. Upon requesting the Commission's approval of a contest or exhibition of a martial art in this State, the sponsoring organization or promoter may submit the official rules for the particular art to the Commission and request the Commission to apply the official rules in the contest or exhibition.

(3) The Commission shall not approve the official rules of the particular art and shall not allow the contest or exhibition to be held if the official rules are inconsistent, in any way, with the purpose of the Pete Suazo Utah Athletic Commission Act, Title 13, Chapter 33, or with the Rule adopted by the Commission for the administration of that Act, Rule R151-33.

#### **R151-33-901. Authority - Purpose.**

These rules are adopted to enable the Commission to

implement the provisions of Section 13-33-304 to facilitate the distribution of General Fund monies to Organizations Which Promote Amateur Boxing in the State.

#### **R151-33-902. Definitions.**

Pursuant to Section 13-33-304, the Commission adopts the following definitions:

(1) For purposes of Subsection 13-33-304(3), "amateur boxing" means a live boxing contest conducted in accordance with the standards and regulations of USA Boxing, Inc., and in which the contestants participate for a non-cash purse.

(2) "Applicant" means an Organization Which Promotes Amateur Boxing in the State as defined in this section.

(3) "Grant" means the Commission's distribution of monies as authorized under Section 13-33-304(3).

(4) "Organization Which Promotes Amateur Boxing in the State" means an amateur boxing club located within the state, registered with USA Boxing Incorporated.

(5) "State Fiscal Year" means the annual financial reporting period of the State of Utah, beginning July 1 and ending June 30.

#### **R151-33-903. Qualifications for Applications for Grants for Amateur Boxing.**

(1) In accordance with Section 13-33-304, each applicant for a grant shall:

(a) submit an application in a form prescribed by the Commission;

(b) provide documentation that the applicant is an "organization which promotes amateur boxing in the State";

(c) Upon request from the Commission, document the following:

(i) the financial need for the grant;

(ii) how the funds requested will be used to promote amateur boxing; and

(iii) receipts for expenditures for which the applicant requests reimbursement.

(2) Reimbursable Expenditures - The applicant may request reimbursement for the following types of eligible expenditures:

(a) costs of travel, including meals, lodging and transportation associated with participation in an amateur boxing contest for coaches and contestants;

(b) Maintenance costs; and

(c) Equipment costs.

(3) Eligible Expenditures - In order for an expenditure to be eligible for reimbursement, an applicant must:

(a) submit documentation supporting such expenditure to the Commission showing that the expense was incurred during the State Fiscal Year at issue; and

(b) submit such documentation no later than June 30 of the current State Fiscal Year at issue.

(4) the Commission will review applicants and make a determination as to which one(s) will best promote amateur boxing in the State of Utah.

#### **R151-33-904. Criteria for Awarding Grants.**

The Commission may consider any of the following criteria in determining whether to award a grant:

(1) whether any funds have been collected for purposes of amateur boxing grants under Section 13-33-304;

(2) the applicant's past participation in amateur boxing contests;

(3) the scope of the applicant's current involvement in amateur boxing;

(4) demonstrated need for the funding; or

(5) the involvement of adolescents including rural and minority groups in the applicant's amateur boxing program.

**R152. Commerce, Consumer Protection.****R152-34. Postsecondary Proprietary School Act Rules.****R152-34-1. Purpose.**

These rules are promulgated under the authority of Section 13-2-5(1) to administer and enforce the Postsecondary Proprietary School Act. These rules provide standards by which institutions and their agents who are subject to the Postsecondary Proprietary School Act are required to operate consistent with public policy.

**R152-34-2. References.**

The statutory references that are made in these rules are to Title 13, Chapter 34, Utah Code Annotated 1953.

**R152-34-3. Definitions in Addition to Those Found in Section 13-34-103.**

(1) "Branch" and "extension" mean a freestanding location that is apart from the main campus, where resident instruction is provided on a regular, continuing basis.

(2) "Correspondence institution" means an institution that is conducted predominantly through the means of home study.

(3) "Course" means a unit subject within a program of education that must be successfully mastered before an educational credential can be awarded.

(4) "Division" means the Division of Consumer Protection.

(5) "Probation" means a negative action of the division that specifies a stated period for an institution to correct stipulated deficiencies; but does not imply any impairment of operational authority.

(6) "Program of education" consists of a series of courses that lead to an educational credential when completed.

(7) "Resident institution" means an institution where the courses and programs offered are predominantly conducted in a classroom or a class laboratory, with an instructor.

(8) "Revocation" means a negative action of the division that orders an institution to surrender its certificate and cease operations, including advertising, enrolling students and teaching classes, for whatever reason.

(9) "Suspension" means a negative action of the division that impairs an institution's operational authority for a stated period of time during which the deficiencies must be corrected or the certificate may be revoked.

**R152-34-4. Rules Relating to the Responsibilities of Proprietary Schools as Outlined in Section 13-34-104.**

(1) In order to be able to award a degree or certificate, a proprietary school must meet the following general criteria:

(a) Its program must meet the following generally accepted minimum number of semester/quarter credit hours required to complete a standard college degree: associate, 60/90; bachelor's, 120/180; master's, 150/225; and doctorate, approximately 200/300.

(b) The areas of study, the methods of instruction, and the level of effort required of the student for a degree or certificate must be commensurate with reasonable standards established by recognized accrediting agencies and associations.

(c) In order for the proprietary school to award a degree or certificate, the faculty must be academically prepared in the area of emphasis at the appropriate level, or as to vocational-technical programs, must have equivalent job expertise based on reasonable standards established by recognized accrediting agencies and associations. This notwithstanding, credit may be awarded toward degree completion based on (1) transfer of credit from other accredited and recognized institutions, (2) recognized proficiency exams (CLEP, AP, etc.), and (3) in-service competencies as evaluated and recommended by recognized national associations such as the American Council on Education. Such credit for personal experiences shall be limited to not more than one year's worth of work (30 semester

credit hours/45 quarter credit hours).

(d) In order to offer a program of study, either degree or non-degree, it must be of such a nature and quality as to make reasonable the student's expectation of some advantage in enhancing or pursuing employment, as opposed to a general education or non-vocational program which is excluded from registration under 13-34-105(g).

(i) If the purpose of an offered program of study is to prepare students for entry into fields of employment which require licensure by any licensing agency or to prepare students for entry into fields of employment for which it would be impracticable to have reasonable expectations of employment without accreditation and/or certification by any trade and/or industry association and/or accrediting and/or certifying body, the entity offering, or desiring to offer, the program of study must provide the Division:

(A) information regarding the type of license, accreditation and/or certification that students completing the program of study must obtain in order to have a reasonable expectation of employment;

(B) the name and contact information of the agency, trade and/or industry association and/or accrediting and/or certifying body;

(C) evidence that the curriculum for the offered program of study has been reviewed by the appropriate entity from subsection(B) above; and,

(D) evidence that the instructors teaching students enrolled in the program of study are licensed by the appropriate agency from subsection (B) above, or have earned the accreditation and/or certification from the appropriate entity from subsection (B) above to teach and/or practice in the field for which the students are being prepared.

(2) The faculty member shall assign work, set standards of accomplishment, measure the student's ability to perform the assigned tasks, provide information back to the student as to his or her strengths and deficiencies, and as appropriate, provide counseling, advice, and further assignments to enhance the student's learning experience. This requirement does not preclude the use of computer assisted instruction or programmed learning techniques when appropriately supervised by a qualified faculty member.

(3) As appropriate to the program or course of study to be pursued, the proprietary school shall evaluate the prospective student's experience, background, and ability to succeed in that program through review of educational records and transcripts, tests or examinations, interviews, and counseling. This evaluation shall include a finding that the prospective student (1) is beyond the age of compulsory high school attendance, as prescribed by Utah law; and (2) has received either a high school diploma or a General Education Development certificate, or has satisfactorily completed a national or industry developed competency-based test or an entrance examination that establishes the individual's ability to benefit. Based on this evaluation, before admitting the prospective student to the program, the institution must have a reasonable expectation that the student can successfully complete the program, and that if he or she does so complete, that there is a reasonable expectation that he or she will be qualified and be able to find appropriate employment based on the skills acquired through the program.

(4) Each proprietary school shall prepare for the use of prospective students and other interested persons a catalog or general information bulletin that contains the following information:

(a) The legal name, address, and telephone number of the institution, also any branches and/or extension locations;

(b) The date of issue;

(c) The names, titles, and qualifications of administrators and faculty;

(d) The calendar, including scheduled state and federal holidays, recess periods, and dates for enrollment, registration, start of classes, withdrawal and completion;

(e) The admission and enrollment prerequisites, both institutional and programmatic, as provided in R152-34-8(1);

(f) The policies regarding student conduct, discipline, and probation for deficiencies in academics and behavior;

(g) The policies regarding attendance and absence, and any provision for make-up of assignments;

(h) The policies regarding dismissal and/or interruption of training and of reentry;

(i) The policies explaining or describing the records that are to be maintained by the institution, including transcripts;

(j) The policies explaining any credit granted for previous education and experience;

(k) The policies explaining the grading system, including standards of progress required;

(l) The policies explaining the provision to students of interim grade or performance reports;

(m) The graduation requirements and the credential awarded upon satisfactory completion of a program;

(n) The schedule of tuition, any other fees, books, supplies and tools;

(o) The policies regarding refunds of any unused charges collected as provided in R152-34-8(3);

(p) The student assistance available, including scholarships and loans.

(q) The name, description, and length of each program offered, including a subject outline with course titles and approximate number of credit or clock hours devoted to each course;

(r) The placement services available and any variation by program;

(s) The facilities and equipment available;

(t) An explanation of whether and to what extent that the credit hours earned by the student are transferable to other institutions; and

(u) Such other information as the division may reasonably require from time to time.

#### **R152-34-5. Rules Relating to Institutions Exempt Under Section 13-34-105.**

(1) Institutions that provide nonprofessional review courses, such as law enforcement and civil service, are not exempt, unless they are considered as workshops or seminars within the meaning of Section 13-34-105(h).

(2) In order for the church or religious denomination to be "bona fide" such that the institution is exempt from registration, the institution may not be the church or religious denomination's primary purpose, function or asset.

(3) Any institution which claims an accreditation exemption must furnish acceptable documentation to the division upon request.

(4) To be exempt under Section 13-34-105(f), the training or instruction shall not be the primary activity of the organization, association, society, labor union, or franchise system.

(5) The division shall determine an institution's status in accordance with the categories contained in this section.

(6) An exempt institution shall notify the division within thirty (30) days of a material change in circumstances which may affect its exempt status as provided in this section and shall follow the procedure outlined in Section 13-34-107.

(7) An exempted institution which voluntarily applies for a certificate by filing a registration statement shall comply with all rules as though such institution were nonexempt.

(8) To apply for a certificate of registration, an accredited institution shall submit a completed registration statement application and a copy of such portions of its current

accreditation self-evaluation report as are specified by the division.

#### **R152-34-6. Rules Relating to the Registration Statement Required under Section 13-34-106.**

(1) The registration statement application shall provide the following information and statements made under oath:

(a) The institution's name, address, and telephone number;

(b) The names of all persons involved in the operation of the institution and a stipulation that the resumes are on file at the institution and available to the students.

(c) The name of the agent authorized to respond to students inquiries if the registrant is a branch institution whose parent is located outside of the state of Utah;

(d) A statement that its articles of incorporation have been registered and accepted by the Utah Department of Commerce, Division of Corporations and Commercial Code and that it has a local business license, if required;

(e) A statement that its facilities, equipment, and materials meet minimum standards for the training and assistance necessary to prepare students for employment;

(f) A statement that it maintains accurate attendance records, progress and grade reports, and information on tuition and fee payments appropriately accessible to students;

(g) A statement that its maintenance and operation is in compliance with all ordinances, laws, and codes relative to the safety and health of all persons upon the premises;

(h) A statement that there is sufficient student interest in Utah for the courses that it provides and that there is reasonable employment potential in those areas of study in which credentials will be awarded;

(i) If the registration statement is filed pursuant to Section 13-34-107(3)(b), a detailed description of any material modifications to be made in the institution's operations, identification of those programs that are offered in whole or in part in Utah and a statement of whether the student can complete his or her program without having to take residence at the parent campus; and

(j) A statement that it maintains adequate insurance continuously in force to protect its assets.

(k) A disclosure as required by R152-34-7(1).

(l) If the registrant is a correspondence institution, whether located within or without the state of Utah, a demonstration that the institution's educational objectives can be achieved through home study; that its programs, instructional material, and methods are sufficiently comprehensive, accurate, and up-to-date to meet the announced institutional course and program objectives; that it provides adequate interaction between the student and instructor, through the submission and correction of lessons, assignments, examinations, and such other methods as are recognized as characteristic of this particular learning technique; and that any degrees and certificates earned through correspondence study meet the requirements and criteria of R152-34-4(1).

(2) The institution shall provide with its registration statement application copies of the following documents:

(a) A sample of the credential(s) awarded upon completion of a program;

(b) A sample of current advertising including radio, television, newspaper and magazine advertisements, and listings in telephone directories;

(c) A copy of the student enrollment agreement; and

(d) A financial statement, as described in R152-34-7(5) and Section 13-34-107(6).

(3) If any information contained in the registration statement application becomes incorrect or incomplete, the registrant shall, within thirty (30) days after the information becomes incorrect or incomplete, correct the application or file the complete information as required by the division.

(4) An institution ceasing its operations shall immediately inform the division and provide the division with student records in accordance with Section 13-34-109.

**R152-34-7. Rules Relating to the Operation of Proprietary Schools under Section 13-34-107.**

(1) An authorized officer of the institution to be registered under this chapter shall sign a disclosure as to whether the institution or an owner, administrator, faculty, staff, or agent of the institution has violated laws, federal regulations or state rules as determined in a criminal, civil or administrative proceeding.

(2) The division shall refuse to register an institution when the division:

(a) determines that the institution or an owner, administrator, faculty, staff, or agent of the institution has violated laws, federal regulations or state rules, as determined in a criminal, civil or administrative proceeding;

(b) determines the violation(s) to be relevant to the appropriate operation of the school; and

(c) has a reasonable doubt that the institution will function in accordance with these laws and rules or provide students with an appropriate learning experience.

(3) A change in the ownership of an institution, as defined in Section 13-34-103(8), occurs when there is a merger or change in the controlling interest of the entity or if there is a transfer of more than 50 percent of the its assets within a three-year period. When this occurs the following information is submitted to the division for its review:

(a) a copy of any new articles of incorporation;

(b) a current financial statement, as outlined in section (8) below;

(c) a listing of all institutional personnel that have changed as a result of the ownership transaction, together with complete resumes and qualifications;

(d) a detailed description of any material modifications to be made in the operation of the institution; and

(e) payment of the appropriate fee.

(i) The division collects the following fees in accordance with U.C.A. Subsection 13-34-107(5):

(A) Initial registration application fees will be based on the expected gross income of the registered program during the first year of operation. The initial application fee shall be computed as one-half of one percent of the gross tuition income of the registered program(s) expected during the first year, but not less than \$100 or more than \$2,000. The institution shall provide documentation to substantiate the amount of the fee, in a form specified by the division.

(B) The division also collects annual registration fees computed as one-half of one percent of the gross tuition income of the registered program(s) during the previous year, but not less than \$100 or more than \$2,000. The institution shall provide documentation to substantiate the amount of the fee, in a form specified by the division. The annual registration fee is due on the anniversary date of the institution's certificate of registration.

(C) All registration fees collected by the division will be used to enhance the administration of the Act and Rules.

(4) The institution shall submit to the division its renewal registration statement application, along with the appropriate fee, no later than thirty (30) days prior to the expiration date of the current certificate of registration.

(5) In addition to the annual registration fee, an institution failing to file a renewal registration application by the due date or filing an incomplete registration application or renewal shall pay an additional fee of \$25 for each month or part of a month after the date on which the registration statement application or renewal were due to be filed.

(6) Within thirty (30) days after receipt of an initial or

renewal registration statement application and its attachments, the division shall do one of the following:

(a) issue a certificate of registration;

(b) request further information and, if needed, conduct a site visit to the institution as detailed in R152-34-11(1); or

(c) refuse to accept the registration statement based on Sections 13-34-107 and 113.

(7) Although a certificate of registration is valid for two (2) years, the division may periodically request updates of financial statements, surety requirements and the following statistical information:

(a) The number of students enrolled from September 1 through August 31;

(b) The number of students who completed and received a credential;

(c) The number of students who terminated or withdrew;

(d) The number of administrators, faculty, supporting staff, and agents; and

(e) The new catalog, information bulletin, or supplements.

(8) The institution must have, in addition to other criteria contained in this rule, sufficient financial resources to fulfill its commitments to students and staff members, and to meet its other obligations as evidenced by the following financial statements:

(a)(i) A current financial statement prepared in accordance with generally accepted accounting principles including a balance sheet, a profit and loss statement, and a statement of cash flows for the most recent fiscal year with all applicable footnotes; or

(ii) Pro forma financial statements until actual information is available when an institution has not operated long enough to complete a fiscal year; and

(b)(i) A certified fiscal audit of the institution's financial statement performed by a certified or licensed public accountant; or

(ii) A review of the institution's financial statement performed by a certified or licensed public accountant, which shall include at least a statement by the accountant that there are not material modifications that should be made to the financial statement for it to be in conformity with generally accepted accounting principles;

(9)(a) A satisfactory surety in the form of a bond, certificate of deposit, or irrevocable letter of credit must be provided by the institution before a certificate of registration will be issued by the division.

(b) The obligation of the surety will be that the institution, its officers, agents, and employees will:

(i) faithfully perform the terms and conditions of contracts for tuition and other instructional fees entered into between the institution and persons enrolling as students; and

(ii) conform to the provisions of the Utah Postsecondary Proprietary School Act and Rules.

(c) The bond, certificate of deposit, or letter of credit must be in a form approved by the division and issued by a company authorized to do such business in Utah.

(d)(i) The bond, certificate of deposit, or letter of credit must be payable to the division to be used for creating teach-out opportunities or for refunding tuition, book fees, supply fees, equipment fees, and other instructional fees paid by a student or potential student, enrollee, or his or her parent or guardian.

(ii) In each instance the division may determine:

(A) which of the uses listed in Subsection (9)(d)(i) are appropriate; and

(B) if the division creates teach-out opportunities, the appropriate institution to provide the instruction.

(e) An institution that closes or otherwise discontinues operation shall maintain the institution's surety until:

(i) at least one year has passed since the institution has notified the division in writing that the institution has closed or

discontinued operation; and

(ii) the institution has satisfied the requirements of R152-34-9.

(10)(a) The surety company may not be relieved of liability on the surety unless it gives the institution and the division ninety calendar days notice by certified mail of the company's intent to cancel the surety.

(b) The cancellation or discontinuance of surety coverage after such notice does not discharge or otherwise affect any claim filed by a student, enrollee or his/her parent or guardian for damage resulting from any act of the institution alleged to have occurred while the surety was in effect, or for an institution's ceasing operations during the term for which tuition had been paid while the surety was in force.

(c) If at any time the company that issued the surety cancels or discontinues the coverage, the institution's registration is revoked as a matter of law on the effective date of the cancellation or discontinuance of surety coverage unless a replacement surety is obtained and provided to the division.

(11)(a) Before an original registration is issued, and except as otherwise provided in this rule, the institution shall secure and submit to the division a surety in the form of a bond, certificate of deposit or letter of credit in an amount of one hundred and eighty-seven thousand, five-hundred dollars (\$187,500) for schools expecting to enroll more than 100 separate individual students (non-duplicated enrollments) during the first year of operation, one hundred and twenty-five thousand dollars (\$125,000) for schools expecting to enroll between 50 and 99 separate individual students during the first year, and sixty-two thousand, five-hundred dollars (\$62,500) for institutions expecting to enroll less than 50 separate individual students during the first year.

(b) Institutions that submit evidence acceptable to the division that the school's gross tuition income from any source during the first year will be less than twenty-five thousand dollars (\$25,000) may provide a surety of twelve thousand, five hundred dollars (\$12,500) for the first year of operation.

(12)(a) Except as otherwise provided in this rule, the minimum amount of the required surety to be submitted annually after the first year of operation will be based on twenty-five percent of the annual gross tuition income from registered program(s) for the previous year (rounded to the nearest \$1,000), with a minimum surety amount of twelve thousand, five hundred dollars (\$12,500) and a maximum surety amount of one hundred and eighty-seven thousand, five-hundred dollars (\$187,500).

(b) The surety must be renewed each year by the anniversary date of the school's certificate of registration, and also included as a part of each two-year application for registration renewal.

(c) No additional programs may be offered without appropriate adjustment to the surety amount.

(13)(a) The institution shall provide a statement by a school official regarding the calculation of gross tuition income and written evidence confirming that the amount of the surety meets the requirements of this rule.

(b) The division may require that such statement be verified by an independent certified public accountant if the division determines that the written evidence confirming the amount of the surety is questionable.

(14) An institution with a total cost per program of five hundred dollars or less or a length of each such program of less than one month shall not be required to have a surety.

(15) The division will not register a program at a proprietary school if it determines that the educational credential associated with the program may be interpreted by employers and the public to represent the undertaking or completion of educational achievement that has not been undertaken and earned.

(16) Acceptance of registration statements and the issuing of certificates of registration to operate a school signifies that the legal requirements prescribed by statute and regulations have been satisfied. It does not mean that the division supervises, recommends, nor accredits institutions whose statements are on file and who have been issued certificates of registration to operate.

**R152-34-8. Rules Relating to Fair and Ethical Practices Set Forth in Section 13-34-108.**

(1) An institution, as part of its assessment for enrollment, shall consider the applicant's basic skills, aptitude, and physical qualifications, as these relate to the choice of program and to anticipated employment and shall not admit a student to a program unless there is a reasonable expectation that the student will succeed, as prescribed by R152-34-4(3).

(2) Financial dealings with students shall reflect standards of ethical practice.

(3) The institution shall adopt a fair and equitable refund policy including:

(a) A three-business-day cooling-off period, commencing with the day an enrollment agreement with the applicant is signed or an initial deposit or payment toward tuition and fees of the institution is made, until midnight of the third business day following such date or from the date that the student first visits the institution, whichever is later, shall be applicable and during this time the contract may be rescinded by the student and all money paid refunded.

(b) A student enrolled in a correspondence institution may withdraw from enrollment following the cooling off period, prior to submission by the student of any lesson materials or prior to receipt of course materials, whichever comes first, and effective upon deposit of a written statement of withdrawal for delivery by mail or other means, and the institution shall be entitled to retain no more than \$200 in tuition or fees as registration charges or an alternative amount that the institution can demonstrate to have been expended in preparation for that particular student's enrollment.

(c) A clear and unambiguous written statement of the institution's refund policy for students who desire a refund after the three-business-day cooling-off period or after a student enrolled in a correspondence institution has submitted lesson materials or been in receipt of course materials.

(d) There shall be a written enrollment agreement, to be signed by the student and a representative of the institution, that clearly describes the cooling-off period, nonrefundable registration fee, and refund policy and schedule, including the rights of both the student and the institution, with copies provided to each.

(e) There shall be complete written information on repayment obligations to all applicants for financial assistance before an applicant student assumes such responsibilities.

(f) A pay-as-you-learn payment schedule that limits a student's prospective contractual obligation(s), at any one time, to the institution for tuition and fees to four months of training, plus registration or start-up costs not to exceed \$200 or an alternative amount that the institution can demonstrate to have spent in undertaking a student's instruction. This restriction applies regardless of whether a contractual obligation is paid to the institution by:

(i) the student directly; or

(ii) a lender or any other entity on behalf of the student.

(g) The payment of a refund within 30 calendar days of a request for a refund if the person requesting the refund is entitled to the refund:

(i) under any provision of:

(A) the Utah Postsecondary Proprietary School Act, Utah Code Title 13, Chapter 34;

(B) the Postsecondary Proprietary School Act Rules,

R152-34; or

(C) a contract or other agreement between the institution and the person requesting the refund; or

(ii) because of the institution's failure to fulfill its obligations to the person requesting the refund.

(4) Following the satisfactory completion of his or her training and education, a student is provided with appropriate educational credentials that show the program in which he or she was enrolled, together with a transcript of courses completed and grades or other performance evaluations received.

(5) No institution shall use the designation of 'college' nor 'university' in its title nor in conjunction with its operation unless it actually confers a standard college degree as one of its credentials, unless the use of such designation had previously been approved by the Board of Regents prior to July 1, 2002.

(6) The name of the institution shall not contain any reference that could mislead potential students or the general public as to the type or nature of its educational services, affiliations or structure.

(7) Advertising standards consist of the following:

(a) The institution's chief administrative officer assumes all responsibility for the content of public statements made on behalf of the institution and shall instruct all personnel, including agents, as to this rule and other appropriate laws regarding the ethics of advertisement and recruitment;

(b) Advertising shall be clear, factual, supportable, and shall not include any false or misleading statements with respect to the institution, its personnel, its courses and programs, its services, nor the occupational opportunities for its graduates;

(c) The institution shall not advertise in conjunction with any other business or establishment, nor advertise in "help wanted" nor in "employment opportunity" columns of newspapers, magazines or similar publications in such a way as to lead readers to believe that they are applying for employment rather than education and training. It must disclose that it is primarily operated for educational purposes, if this is not apparent from its legal name;

(d) An institution, its employees and agents, shall refrain from other forms of ambiguous or deceptive advertising, such as:

(i) claims as to endorsement by manufacturers or businesses or organizations until and unless written evidence supporting this fact is on file; and

(ii) representations that students completing a course or program may transfer either credits or credentials for acceptance by another institution, state agency, or business, unless written evidence supporting this fact is on file;

(e) An institution shall maintain a file of all promotional information and related materials for a period of three (3) years;

(f) The division may require an institution to submit its advertising prior to its use; and

(g) An institution cannot advertise that its organization or program is endorsed by the state of Utah other than to state that the school is 'Registered under the Utah Postsecondary Proprietary School Act'.

(i) An institution shall include the following registration and disclaimer statements in its catalog, student information bulletin, and enrollment agreements:

(A) REGISTERED UNDER THE UTAH POSTSECONDARY PROPRIETARY SCHOOL ACT (Title 13, Chapter 34, Utah Code).

(B) Registration under the Utah Postsecondary Proprietary School Act does not mean that the State of Utah supervises, recommends, nor accredits the institution. It is the student's responsibility to determine whether credits, degrees, or certificates from the institution will transfer to other institutions or meet employers' training requirements. This may be done by calling the prospective school or employer.

(C) The institution is not accredited by a regional or

national accrediting agency recognized by the United States Department of Education.

(8) Recruitment standards include the following:

(a) Recruiting efforts shall be conducted in a professional and ethical manner and free from 'high pressure' techniques; and

(b) An institution shall not use loans, scholarships, discounts, or other such enrollment inducements, where such result in unfair or discriminatory practices.

(9) An agent or sales representative may not be directly or indirectly be portrayed as 'counselor,' 'advisor,' or any other similar title to disguise his or her sales function.

(10) An agent or representative is responsible to have a clear understanding and knowledge of the programs and courses, tuition, enrollment requirements, enrollment agreement, support services, and the general operational procedures thereof.

(11) An institution shall indemnify any student from loss or other injury as a result of any fraud or other form of misrepresentation used by an agent in the recruitment process.

(12) An institution operating in Utah but domiciled outside the state shall designate a Utah resident as its registered agent for purposes of service of legal process.

(13) An institution shall provide a student with all of the student's school records, as described in R152-34-9(2), within five business days after a written or verbal request by a student for the student's school records. The institution may not charge a student more than the actual copying costs for the student's school records.

#### **R152-34-9. Rules Relating to Discontinuance of Operations Pursuant to Section 13-34-109.**

(1) Institutional closure procedures consist of the following:

(a) The chief administrative officer of each institution subject to the Postsecondary Proprietary Schools Act shall prepare a written plan for access to and the preservation of permanent records in the event the institution closes for whatever reason; and

(b) In the event an institution closes with students enrolled who have not completed their programs, a list of such, including the amount of tuition paid and the proportion of their program completed, shall be submitted to the division, with all particulars.

(2) School records consist of the following permanent scholastic records for all students who are admitted, even though withdrawn or terminated:

(a) appropriate entrance and admission acceptance information;

(b) attendance and performance information, including transcripts which consist of no less than the program for which he enrolled, each course attempted and the final grade earned;

(c) graduation or termination dates of students;

(d) enrollment agreements, tuition payments, refunds, and any other financial transactions.

(3) The division shall not release a surety required under R152-34-7(11) and/or R152-34-7(12) until one year after the date that the institution has complied with the requirements of (1) and (2) above, or until such time as the institution provides documentation acceptable to the division to show that the institution has complied with (1) and (2) above and has satisfied all possible claims for refunds that may be made against the institution by students of the institution at the time the institution discontinued operations and by persons who were students of the institution within one year prior to the date that the institution discontinued operations, whichever is shorter.

#### **R152-34-10. Rules Relating to Suspension, Termination or Refusal to Register under Section 13-34-111.**

(1) The division may perform on-site evaluations to verify information submitted by an institution or an agent, or to

investigate complaints filed with the Division.

(2) The division may, in accordance with Title 63, Chapter 46b, Administrative Procedures Act, issue an order to deny, suspend, or revoke a registration, upon a finding that:

(a) the award of credentials by a nonexempt institution without having first duly registered with the division and having obtained the requisite surety;

(b) a registration statement application that contains material representations which are incomplete, improper, or incorrect;

(c) failure to maintain facilities and equipment in a safe and healthful manner;

(d) failure to perform the services or provide materials as represented by the institution, failure to perform any commitment made in the registration statement or permit application, offering programs or services not contained in the registration statement currently on file, or violations of the conditions of the certificate of registration;

(e) failure to maintain sufficient financial capability, as set forth in section R152-34-7;

(f) to confer, or attempt to confer, a fraudulent credential, as set forth in 13-34-201;

(g) employment of students for commercial gain, if such fact is not contained in the current registration statement;

(h) promulgation to the public of fraudulent or misleading statements relating to a program or service offered;

(g) noncompliance of the Postsecondary Proprietary Schools Act or these rules;

(h) withdrawal of the authority to operate in the home state of an institution whose parent campus or headquarters is not domiciled in this state;

(i) failure to comply with applicable laws in this state or another state where the institution is doing business; and

(j) failure to provide reasonable information to the division as requested from time to time.

**R152-34-11. Rules Relating to Fraudulent Educational Credentials under Section 13-34-201.**

(1) A person may not represent him or herself in a deceptive or misleading way, such as by using the title "Dr." or "Ph.D." if he or she has not satisfied accepted academic or scholastic requirements.

**R156. Commerce, Occupational and Professional Licensing.**  
**R156-15. Health Facility Administrator Act Rules.**  
**R156-15-101. Title.**

These rules are known as the "Health Facility Administrator Act Rules".

**R156-15-102. Definitions.**

In addition to the definitions in Title 58, Chapters 1 and 15, as used in Title 58, Chapters 1 and 15 or these rules:

(1) "Administrator in training (AIT)" means an individual who is participating in a preceptorship with a licensed health facility administrator.

(2) "Board" means the Health Care Administrators Board.

(3) "General administration" as used in the definition of "administrator", Subsection 58-15-2(1), means that the administrator is responsible for operation of the health facility in accordance with all applicable laws regardless of whether the administrator is present full or part time in the facility or whether the administrator maintains an office inside or outside of the facility.

(4) "General supervision" means that the supervising health facility administrator is usually and regularly present within the health care facility and when not present is available for consultation by direct voice communication with the person being supervised.

(5) "Nursing home administrator" means a health facility administrator.

(6) "Preceptor" means a licensed health facility administrator who is responsible for the supervision and training of an AIT.

(7) "Preceptorship" means a formal training program approved by the division in collaboration with the board for an administrator in training (AIT), under the supervision of an approved licensed health facility administrator. The program is conducted in a licensed health facility.

(8) "Qualifying experience" includes 8,000 hours of employment in a health facility of which at least 4,000 hours are in a supervisory role, which includes being designated in writing to have administrative responsibility when the administrator is away.

**R156-15-103. Authority - Purpose.**

These rules are adopted by the division under the authority of Subsection 58-1-106(1) to enable the division to administer Title 58, Chapter 15.

**R156-15-104. Organization - Relationship to Rule R156-1.**

The organization of this rule and its relationship to Rule R156-1 is as described in Section R156-1-107.

**R156-15-302a. Qualifications for Licensure - Application Requirements.**

In accordance with Subsections 58-1-203(2) and 58-1-301(3), the application requirements for licensure in Section 58-15-4 are defined, clarified, or established as follows:

(1) Complete an approved AIT preceptorship consisting of a minimum of 1,000 hours.

(5) A licensee shall be responsible for maintaining competent records of completed qualified professional education for a period of four years after close of the two year period to which the records pertain. It is the responsibility of the licensee to maintain such information with respect to qualified professional education to demonstrate it meets the requirements under this section.

(6) A licensee who documents they are engaged in full time activities or is subjected to circumstances which prevent that licensee from meeting the continuing professional education requirements established under this section may be excused from the requirement for a period of up to three years.

**R156. Commerce, Occupational and Professional Licensing.  
R156-26a. Certified Public Accountant Licensing Act Rules.  
R156-26a-101. Title.**

These rules are known as the "Certified Public Accountant Licensing Act Rules".

**R156-26a-102. Definitions.**

In addition to the definitions in Title 58, Chapters 1 and 26a, as defined or used in these rules:

(1) "Administering organization" means an organization approved by the Division of Occupational and Professional Licensing and the Utah Board of Accountancy which will administer peer reviews in the Peer Review Program.

(2) "AICPA" means American Institute of Certified Public Accountants.

(3) "Incidental to regular practice" as defined in Subsection 58-26a-305(1)(a) is further defined to mean:

(a) An individual or a firm licensed as a certified public accountant or equivalent designation in any other state, district, or territory of the United States or any foreign country may perform services in this state for a client whose principal office or residence is located outside of this state as long as the services are incidental to primary services being performed outside of this state for that client.

(b) An individual or firm licensed in another jurisdiction, as incidental to their practice in such other jurisdiction, may advertise in this state that their services are available by any means including, but not limited to television, radio, newspaper, magazine or Internet advertising provided such representations are not false, misleading or deceptive; and provided that such individual or firm does not establish a CPA/Client relationship to perform services requiring a CPA license or CPA firm registration with any individual, business or other legal entity having its principal office or residence in this state without first obtaining a CPA license and CPA firm registration in this state.

(c) Incidental to regular practice in another jurisdiction includes a licensed CPA or equivalent designation continuing a CPA/Client relationship with an individual which originated while the client's residence was located outside of this state but thereafter the client moved their residence to this state.

(4) "Qualified continuing professional education (CPE)" as used in these rules means continuing education that meets the standards set forth in Section R156-26a-303b.

(5) "Standard setting bodies" means the Financial Accounting Standards Board, the Government Accounting Standards Board, the American Institute of Certified Public Accountants, the Securities and Exchange Commission, and the Federal Accounting Standards Advisory Board and other generally recognized standard setting bodies.

(6) "Unprofessional conduct" as defined in Title 58, Chapters 1 and 26a, is further defined, in accordance with Subsection 58-1-203(5), in Section R156-26a-501.

(7) "Year of review" means the calendar year during which a peer review is to be conducted.

**R156-26a-103. Authority.**

These rules are adopted by the division under the authority of Subsection 58-1-106(1) to enable the division to administer Title 58, Chapter 26a.

**R156-26a-104. Organization - Relationship to Rule R156-1.**

The organization of this rule and its relationship to Rule R156-1 is as described in Section R156-1-107.

**R156-26a-201. Advisory Peer Committees Created - Membership - Duties.**

(1) There is created in accordance with Subsection 58-1-203(6), the Education Advisory Committee to the Utah Board of Accountancy consisting of one full-time faculty from each

college or university in Utah which has an accredited program as set forth in Section R156-26a-302a, a majority of which committee are to be licensed CPAs.

(a) The Education Advisory Committee shall be appointed and serve in accordance with Section R156-1-204.

(b) The duties and responsibilities of the Education Advisory Committee shall include assisting the division in collaboration with the board in their duties, functions, and responsibilities defined in Section 58-1-202 as follows:

(i) reviewing an applicant's transcript of credits to determine satisfactory completion of the education requirements prior to approving the applicant to take the qualifying examination and advising the board as to the acceptability of an educational institution.

(c) The committee shall consider the following when advising the board of the acceptability of the educational institution:

(i) the institution's accreditation, the acceptability by other state licensing boards, faculty qualifications and other educational resources.

(2) There is created in accordance with Subsection 58-1-203(6), the Peer Review Committee to the Utah Board of Accountancy consisting of not more than ten licensed CPAs.

(a) The committee shall be appointed and serve in accordance with Section R156-1-204.

(b) The duties and responsibilities of the Peer Review Committee shall include advising the Utah Board of Accountancy on peer reviews matters and shall include:

(i) reviewing the results of peer reviews administered by approved organizations and requiring corrective action of firms with significant deficiencies noted in the review process when considered necessary in addition to those required by the administering organization;

(ii) evaluating compliance of CPE programs;

(iii) performing random audits to determine compliance with the CPE requirements and the standards for CPE programs;

(iv) reviewing complaints and recommending whether certain acts, practices or omissions violate the ethical standards of the profession;

(v) providing technical assistance to the division; and

(vi) serving as expert witnesses at administrative hearings.

(B) 12 semester hours (18 quarter hours) in graduate accounting or graduate business courses; and

(C) 10 semester hours (15 quarter hours) of additional business related hours shall be taken in upper division undergraduate or graduate level courses.

(2) The division in collaboration with the board or the education subcommittee of the board may make a written finding for cause that a particular accredited institution or program is not acceptable.

(3) The Division in collaboration with the board or the education subcommittee of the board may accept education of a person who holds a license as a certified public accountant or equivalent designation in a foreign country, if the applicant has obtained from the National Association of State Boards of Accountancy (NASBA) verification of compliance with the terms of an agreement for reciprocal licensure between the

foreign country and the International Qualifications Appraisal Board of NASBA, which agreement provides the applicant's examinations, education and experience is determined to be substantially equivalent to the 1994 Uniform Accountancy Act licensure requirements or a version of the Uniform Accountancy Act having substantially equivalent requirements.

(4) In accordance with Section 58-26a-306, the qualifications to sit for the AICPA examination is clarified or supplemented as follows:

(a) In accordance with Subsection 58-26a-306(1)(a), the form of application approved by the Division shall be the application that CPA Examination Services (CPAES) requires in order to sit for the examination.

(b) In accordance with Subsection 58-26a-306(1)(b), the fee shall be the fee charged by CPAES. No additional fee shall be due to the Division.

(c) In accordance with Subsections 58-26a-306(1)(c) and (d), the Board has approved CPAES to make the determination of whether the applicant has met the education requirements, provided however that, if an applicant disputes the finding of CPAES, the Board shall make a final determination of whether the applicant is qualified to sit for the AICPA examination.

#### **R156-26a-302b. Qualifications for Licensure - Experience Requirements.**

In accordance with Subsections 58-1-203(7) and 58-1-301(3), the experience requirements for licensure in Section 58-26a-302 are clarified, or supplemented as follows:

(1) The Division in collaboration with the board may accept experience of a person who holds a license as a certified public accountant or equivalent designation in a foreign country, if the applicant has obtained from the National Association of State Boards of Accountancy (NASBA) verification of compliance with the terms of an agreement for reciprocal licensure between the foreign country and the International Qualifications Appraisal Board of NASBA, which agreement provides the applicant's examinations, education and experience is determined to be substantially equivalent to the 1994 Uniform Accountancy Act licensure requirements or a version of the Uniform Accountancy Act having substantially equivalent requirements.

#### **R156-26a-302d. Qualifications for Licensure - Examinations.**

(1) The Division in collaboration with the board may accept testing of a person who holds a license as a certified public accountant or equivalent designation in a foreign country, if the applicant has obtained from the National Association of State Boards of Accountancy (NASBA) verification of compliance with the terms of an agreement for reciprocal licensure between the foreign country and the International Qualifications Appraisal Board of NASBA, which agreement provides the applicant's examinations, education and experience is determined to be substantially equivalent to the 1994 Uniform Accountancy Act licensure requirements or a version of the Uniform Accountancy Act having substantially equivalent requirements.

#### **R156-26a-303a. Renewal Requirements - Peer Review.**

(1) General.

In accordance with Subsections 58-1-308(3)(b) and 58-26a-303(2)(b), there is created a peer review requirement as a condition for renewal of licenses issued under the Certified Public Accountant Licensing Act, providing for review of the work products of licensees and firms.

(a) The purpose of the program is to monitor compliance with applicable accounting and auditing standards adopted by generally recognized standard setting bodies. The program shall emphasize education and may include other remedial actions

determined appropriate where a firm's work product and services do not comply with established professional standards. In the event a firm is unwilling or unable to comply with established standards, or intentionally disregards professional standards so as to warrant disciplinary action, the administering organization shall refer the matter to the division and shall consult with the division regarding appropriate action to protect the public interest.

(2) Scheduling of the Peer Review.

(a) A firm's initial peer review shall be assigned a due date to require that the initial review be started no later than 18 months after the date of the issuance of its initial report as defined in Subsection 58-26a-102(16).

(b) Not less than once in each three years a firm engaged in the practice of public accounting shall undergo, at its own expense, a peer review commensurate in scope with its practice.

(c) The administering organization will assign the year of review.

(d) A portion of the peer review may be performed by a regulatory body if the Utah Board of Accountancy approves the regulatory body as an administering organization. This does not by itself satisfy the peer review requirement unless the other standards as specified in these rules are fulfilled by the regulatory body.

(3) Selection of a Peer Reviewer or inspector in the case of inspections mandated by law or regulatory bodies.

A firm scheduled for peer review shall engage a reviewer qualified to conduct the peer review. Regulatory bodies will assign inspectors.

(4) Qualifications of a Peer Reviewer and inspectors.

(a) Peer reviewers must provide evidence of one of the two following minimum qualifications to the administering organization:

(i) acceptance as a peer reviewer by the AICPA; or

(ii) compliance with the qualifications required by the AICPA to qualify as a peer reviewer.

(b) Peer reviewers must be licensed or hold a permit to practice as a CPA in the state of Utah or another state or jurisdiction of the United States.

(c) The administering organization will approve reviewers for those reviews not administered by the AICPA.

(d) Regulatory bodies will determine the qualifications of inspectors.

(5) Conduct of the Peer Review or inspection. Peer reviews shall be conducted as follows:

(a) Standards for review: Peer reviews shall be conducted according to the "Standards for Performing and Reporting on Peer Reviews" promulgated by the AICPA, effective October 5, 1998 as amended, are hereby incorporated by reference and adopted as the minimum standards for peer reviews of all firms. This section shall not require any firm or licensee to become a member of the AICPA or any administering organization.

(b) The Utah Board of Accountancy may review the standards used by the regulatory body to determine if those standards are sufficient to satisfy all or part of the peer review requirements, or what additional review may be required to meet the peer review requirements under these rules.

(6) Procedures in Case of Substandard Review, a Modified or Adverse Report or repeat findings.

(a) If an administering organization finds that a peer review was not performed in accordance with these rules or the peer review results in a modified or adverse report or in repeat findings, the Peer Review Committee may require remedial action to assure that the review or performance of the CPA or CPA firm being reviewed meets the objectives of the peer review program.

(7) Review of Multi-State Firms.

(a) With respect to a multi-state firm, the Division may accept a peer review based solely upon work conducted outside

of this state as satisfying the requirement to undergo peer review under these rules, if:

(i) the peer review is conducted during the year scheduled or rescheduled under R156-26a-303a(2);

(ii) the peer review is performed in accordance with requirements equivalent to those of this state;

(iii) the peer review:

(A) studies, evaluates and reports on the quality control system of the firm as a whole in the case of on-site reviews, or;

(B) results in an evaluation and report on selected engagements in the case of off-site reviews;

(iv) the firm's internal inspection procedures require that the firm's personnel from another office outside the state perform the inspection of the office located in this state not less than once in each three year period; and

(v) at the conclusion of the peer review, the peer reviewer issues a report equivalent to that required by R156-26a-303a(5) or in the case of an approved regulatory body, a report is issued under their standards.

(b) A multi-state firm not granted approval under R156-26a-303a(8)(a) shall undergo a peer review pursuant to these rules which shall comply with R156-26a-303a(8)(a) of the multi-state firm within this state.

(c) A multi-state firm seeking approval under R156-26a-303a(8)(a) shall submit an application to the administering organization by February 1 of the year of review establishing that the peer review it proposes to undergo meets all of the requirements of R156-26a-303a(5).

(8) Exemption.

(a) A firm which does not perform services encompassed in the scope of minimum standards as set out in R156-26a-303a(5)(a) or (b) is exempt from peer review and shall notify the Division of Occupational and Professional Licensing of the exemption at the time of renewal of its registration. A firm which begins providing these services must commence a peer review within 18 months of the date of the issuance of its initial report as defined in Subsection 58-26a-102(16).

(9) Mergers, Combinations, Dissolutions or Separations.

(a) Mergers or combinations: In the event that two or more firms are merged or sold and combined, the surviving firm shall retain the year of review of the largest firm.

(b) Dissolutions or separations: In the event that a firm is divided, the new firms shall retain the year of review of the former firm. In the event that this period is less than 12 months, a new year shall be assigned so that the review occurs after 12 months of operation.

(c) Upon application to the administering organization and a showing of hardship caused solely by compliance with R156-26a-303a(10)(a) or (b), the Division may authorize a change in a firm's year of review.

(10) Extension.

(a) If the firm can demonstrate that the time established for the conduct of a peer review will create an unreasonable hardship upon the firm, the Division may approve an extension not to exceed 180 days from the date the peer review was originally scheduled. A request for extension shall be addressed in writing by the firm to the Division with a copy to the administering organization responsible for administration of that firm's peer review. The written request for extension must be received by the Division and the administering organization not less than 30 days prior to the date of scheduled review or the request will not be considered. The Division shall inform the administering organization of the approval of any extension.

(11) Retention of Documents Relating to Peer Reviews.

(a) All documentation necessary to establish that each peer review was performed in conformity with peer review standards adopted by the board, including the peer review working papers, the peer review report, comment letters and related correspondence indicating the firm's concurrence or

nonconcurrence, and any proposed remedial actions and related implementation shall be maintained.

(b) The documents described in R156-26a-303a(11)(a) shall be retained for a period of time corresponding to the designated retention period of the relevant administering organization. In no event shall the retention period be less than 90 days.

(12) Costs and Fees for Peer Review.

(a) All costs associated with firm-on-firm reviews will be negotiated between the firm and the reviewer and paid directly to the reviewer. All costs associated with committee assigned review team (CART) reviews will be set by the administering organization. The administering organization will collect the fees associated with CART reviews and pay the reviewer.

(b) All costs associated with the administration of the review process will be paid from fees charged to the firms. The fees will be collected by the administering organization. The schedule of fees will be included in the administering organization's proposal. The fee schedule will specify how much is to be paid each year and will be based on the firm size.

(13) All financial statements, working papers, or other documents reviewed are confidential. Access to those documents shall be limited to being made available, upon request, to the Peer Review Committee or the technical reviewer for purposes of assuring that peer reviews are performed according to professional standards.

**R156-26a-303b. Renewal and Reinstatement Requirements-Continuing Professional Education (CPE).**

(1) All CPAs are required to maintain current knowledge, skills, and abilities in all areas in which they provide services in order to provide services in a competent manner. To maintain or to obtain the knowledge, skills and abilities to competently provide services, a CPA may be required to obtain CPE above and beyond the 80 minimum CPE credits specified in Section 58-26a-304.

(a) The following standards have been broadly stated in recognition of the diversity of practice and experience among CPAs. They establish a framework for the development, presentation, measurement, and reporting of CPE programs and thereby help to ensure that CPAs maintain the required knowledge, skills and abilities necessary to competently provide services and to enable to the CPA to provide evidence of meeting the minimum CPE requirements specified under these rules.

(2) General Standards for CPAs.

(a) Standard No. 1. All CPAs must participate in CPE learning activities that maintain and/or improve their professional competence. This CPE must include a minimum of 80 hours of CPE in each two-year period ending on December 31 of each odd numbered year.

(i) The term "must", as used in these standards, means departure from those specific standards is not permitted. The term "should", as used in these standards, means that CPAs and CPE program sponsors are expected to follow such standards as written and are required to justify any departures from such standards when unusual circumstances warrant such departures.

(ii) Selection of CPE learning activities should be a thoughtful, reflective process addressing the individual CPA's current and future professional plans, current knowledge and skills level, and desired or needed additional competence to meet future opportunities and/or professional responsibilities.

(iii) A CPA's field of employment does not limit the need for CPE. CPAs performing professional services need to have a broad range of knowledge, skills, and abilities. Thus, the concept of professional competence should be interpreted broadly. Accordingly, acceptable continuing education encompasses programs contributing to the development and maintenance of both technical and non-technical professional

skills.

(iv) Acceptable CPE subjects include accounting, assurance/auditing, consulting services, specialized knowledge and applications, management, taxation, and ethics. Other subjects, including personal development, may also be acceptable if they maintain and/or improve the CPA's professional competence. Such subjects may include, but are not limited to: accounting and auditing, taxation, management advisory services, information technology, communication arts, mathematics, statistics, probability and quantitative analysis, economics, business law and litigation support, functional fields of business such as finance, production, marketing, personnel relations, development and management, business management and organizations, social environment of business, and specialized areas of industry such as film industry, real estate, or farming.

(v) To help guide their professional development, CPAs may find it useful to develop a learning plan. The learning plan can be used to evaluate learning and professional competence development.

(A) A learning plan means a structured process that helps guide CPAs in their professional development. A learning plan is used to evaluate and document learning and professional competence development. A learning plan should be reviewed regularly and modified as a CPA's professional competence needs change. A learning plan should include:

(I) a self-assessment of the gap between current and needed knowledge, skills, and abilities;

(II) a set of learning objectives arising from this assessment; and

(III) learning activities to be undertaken to fulfill the learning plan.

(b) Standard No. 2. CPAs should comply with all applicable CPE requirements and should claim CPE credit only for CPE programs when the CPE program sponsors have complied with the Standards for CPE Program Presentation (Nos. 8 - 11) and Standard for CPE Program Reporting No. 17.

(i) In addition to minimum CPE requirements specified in these rules, CPAs are responsible for compliance with all applicable CPE requirements, rules, and regulations of other state licensing bodies, other governmental entities and other professional organizations or bodies who have standard setting authority. CPAs should contact each appropriate entity to which they report to determine its specific requirements or any exceptions it may have to the standards presented herein.

(ii) Periodically, CPAs may participate in learning activities which do not comply with all applicable CPE requirements, for example specialized industry programs offered through industry sponsors. If CPAs propose to claim credit for such learning activities, they should retain all relevant information regarding the program to provide documentation to the Division, other state licensing bodies, and/or all other professional organizations or bodies showing that the learning activity is equivalent to one which meets all these or other applicable Standards.

(c) Standard No. 3. CPAs are responsible for accurate reporting of CPE credits earned and should retain appropriate documentation of their participation in learning activities, including: name and contact information of CPE program sponsor, title and description of content, date of program, location and number of CPE credits, all of which should be included in documentation provided by the CPE program sponsor.

(i) Although CPAs are required to document a minimum level of CPE hours, through periodic reporting of CPE, the objective of CPE must always be maintenance/enhancement of professional competence, not just attainment of minimum credits.

(ii) Compliance with regulatory and other requirements

mandates that CPAs keep documentation of their participation in activities designed to maintain and/or improve professional competence. In the absence of legal or other requirements for longer retention, a CPA must retain documentation for a minimum of five years from the end of the year in which the learning activities were completed.

(iii) Participants must document their claims of CPE credit. Examples of acceptable evidence of completion include:

(A) For group and independent study programs, a certificate or other verification supplied by the CPE program sponsor.

(B) For self-study programs, a certificate supplied by the CPE program sponsor after satisfactory completion of an examination.

(C) For instruction credit, a certificate or other verification supplied by the CPE program sponsor.

(D) For a university or college course that is successfully completed for credit, a record or transcript of the grade the participant received.

(E) For university or college non-credit courses, a certificate of attendance issued by a representative of the university or college.

(F) For published articles, books, or CPE programs, (1) a copy of the publication (or in the case of a CPE program, course development documentation) that names the writer as author or contributor, (2) a statement from the writer supporting the number of CPE hours claimed, and (3) the name and contact information of the independent reviewer or publisher.

(d) Standard No. 4. CPAs who complete sponsored learning activities that maintain or improve their professional competence should claim the CPE credits recommended by CPE program sponsors.

(i) CPAs may participate in a variety of sponsored learning activities, such as workshops, seminars and conferences, self-study courses, Internet-based programs, and independent study. While CPE program sponsors determine credits, CPAs should claim credit only for activities through which they maintained or improved their professional competence. CPAs who participate in only part of a program should claim CPE credit only for the portion they attended or completed.

(ii) In order to qualify as CPE, an Internet-based program must qualify as a group program as provided in Subsection R156-26a-303b(3)(b)(i) or as a self-study program as provided in Subsection R156-26a-303b(3)(g).

(e) Standard No. 5. CPAs may engage in independent study under the direction of a CPE program sponsor who has met the applicable standards for CPE program sponsors when the subject matter and level of study maintain or improve their professional competence.

(i) Independent study is an educational process designed to permit a participant to learn a given subject under the guidance of a CPE program sponsor one-on-one. Participants in an independent study program should:

(A) Enter into a written learning contract with a CPE program sponsor who must comply with the applicable standards for CPE program sponsors.

(B) Accept the written recommendation of the CPE program sponsor as to the number of credits to be earned upon successful completion of the proposed learning activities. CPE credits will be awarded only if:

(I) all the requirements of the independent study as outlined in the learning contract are met;

(II) the CPE program sponsor reviews and signs the participant's report;

(III) the CPE program sponsor reports to the participant the actual credits earned; and

(IV) the CPE program sponsor provides the participant with contact information.

(ii) The credits to be recommended by an independent

study CPE program sponsor should be agreed upon in advance and should be equated to the effort expended to improve professional competence. The credits cannot exceed the time devoted to the learning activities and may be less than the actual time involved.

(iii) Retain the necessary documentation to satisfy regulatory requirements as to the content, inputs, and outcomes of the independent study.

(iv) Complete the program of independent study in 15 weeks or less.

(3) Standards for CPE Program Sponsors (Standard 1), Standards for CPE Program Development (Standards 2-7), Standards for CPE Program Presentation (Standards 8-11), Standards for Program Measurement (Standards 12-16), and Standards for CPE Program Reporting (Standards 17-18). "CPE sponsor", as used herein, means the individual or organization responsible for setting learning objectives, developing the program materials to achieve such objectives, offering a program to participants, and maintaining the documentation required by these standards. The term "CPE program sponsor" may include associations of CPAs, whether formal or informal, as well as employers who offer in-house programs.

(a) Standard No. 1. CPE program sponsors are responsible for compliance with all applicable standards and other CPE requirements.

(i) In addition to the minimum requirements under these rules, CPE program sponsors may have to meet specific CPE requirements of other state licensing bodies, other governmental entities, and/or other professional organizations or bodies. CPE program sponsors should contact the appropriate entity to determine requirements.

(b) Standard No. 2. Sponsored learning activities must be based on relevant learning objectives and outcomes that clearly articulate the knowledge, skills, and abilities that can be achieved by participants in the learning activities.

(i) Learning activities, meaning an educational endeavor that improves or maintains professional competence, provided by CPE program sponsors for the benefit of CPAs, should specify the level, content, and learning objectives so that potential participants can determine if the learning activities are appropriate to their professional competence development needs. Learning activity levels include, for example, basic, intermediate, advanced, update, and overview as defined as follows:

(A) Advanced. Learning activity level most useful for individuals with mastery of the particular topic. This level focuses on the development of in-depth knowledge, a variety of skills, or a broader range of applications. Advanced level programs are often appropriate for seasoned professionals within organizations; however, they may also be beneficial for other professionals with specialized knowledge in a subject area.

(B) Basic. Learning activity level most beneficial to CPAs new to a skill or an attribute. These individuals are often at the staff or entry level in organizations, although such programs may also benefit a seasoned professional with limited exposure to the area.

(C) Intermediate. Learning activity level that builds on a basic program, most appropriate for CPAs with detailed knowledge in an area. Such persons are often at a mid-level within the organization, with operational and/or supervisory responsibilities.

(D) Overview. Learning activity level that provides a general review of a subject area from a broad perspective. These programs may be appropriate for professionals at all organizational levels.

(E) Update. Learning activity level that provides a general review of new developments. This level is for participants with a background in the subject area who desire to keep current.

(c) Standard No. 3. CPE program sponsors should develop and execute learning activities in a manner consistent with the prerequisite education, experience, and/or advance preparation of participants.

(i) To the extent it is possible to do so, CPE program sponsors should make every attempt to equate program content and level with the backgrounds of intended participants. All programs must clearly identify prerequisite education, experience, and/or advance preparation, if any, in precise language so that potential participants can readily ascertain whether they qualify for the program.

(d) Standard No. 4. CPE program sponsors must use activities, materials, and delivery systems that are current, technically accurate, and effectively designed, and include discussions of ethical issues that may apply to the subject matter. CPE program sponsors must be qualified in the subject matter.

(i) To best facilitate the learning process, sponsored programs and materials must be prepared, presented and updated in a timely manner. Learning activities must be developed by individuals or teams having expertise in the subject matter. Expertise may be demonstrated through practical experience or education.

(ii) CPE program sponsors must review the course materials periodically to ensure that they are accurate and consistent with currently accepted standards relating to the program's subject matter.

(e) Standard No. 5. CPE program sponsors of group and self-study programs must ensure learning activities are reviewed by qualified persons other than those who developed them to ensure that the program is technically accurate and current and addresses the stated learning objectives. These reviews must occur before the first presentation of these materials and again after each significant revision of the CPE programs.

(i) Individuals or teams qualified in the subject matter must review programs. When it is impractical to review certain programs in advance, such as lectures given only once, greater reliance should be placed on the recognized professional competence of the instructors or presenters. Using independent reviewing organizations familiar with these standards may enhance quality assurance.

(f) Standard No. 6. CPE program sponsors of independent study learning activities must be qualified in the subject matter.

(i) A CPE program sponsor of independent study learning activities must have expertise in the specific subject area related to the independent study. The CPE program sponsor must also:

(A) Review, evaluate, approve and sign the proposed independent study learning contract, including agreeing in advance on the number of credits to be recommended upon successful completion.

(B) Review and sign the written report developed by the participant in independent study.

(C) Retain the necessary documentation to satisfy regulatory requirements as to the content, inputs, and outcomes of the independent study.

(g) Standard No. 7. Self-study programs must employ learning methodologies that clearly define learning objectives, guide the participant through the learning process, and provide evidence of a participant's satisfactory completion of the program.

(i) To guide participants through a learning process, CPE program sponsors of self-study programs must elicit participant responses to test for understanding of the material, offer evaluative feedback to incorrect responses, and provide reinforcement feedback to correct responses. To provide evidence of satisfactory completion of the course, CPE program sponsors of self-study programs must require participants to successfully complete a final examination with a minimum-passing grade of at least 70 percent before issuing CPE credit

for the course.

(A) Evaluative feedback, as used in this subsection, means: specific response to incorrect answers to questions in self-study programs. Unique feedback must be provided for each incorrect response, as each one is likely to be wrong for differing reasons.

(B) Reinforcement feedback, as used in this subsection, means: specific responses to correct answers to questions in self-study programs. Such feedback restates why the answer selected was correct.

(ii) Examinations may contain questions of varying format (for example, multiple-choice, essay and simulations.) If objective type questions are used, at least five questions per CPE credit must be included on the final examination. For example, the final examination for a five-credit course must include at least 25 questions.

(iii) Self-study programs must be based on materials specifically developed for instructional use. Self-study programs requiring only the reading of general professional literature, IRS publications, or reference manuals followed by a test will not be acceptable. However, the use of the publications and reference materials in self-study programs as supplements to the instructional materials could qualify if the self-study program complies with each of the CPE standards.

(h) Standard No. 8. CPE program sponsors must provide descriptive materials that enable CPAs to assess the appropriateness of learning activities. To accomplish this, CPE program sponsors must inform participants in advance of: learning objectives, prerequisites, program level, program content, advance preparation, instructional delivery methods, recommended CPE credit, and course registration requirements. Instructional delivery methods, as used in this subsection, means: delivery strategies such as case studies, computer-assisted learning, lectures, group participation, programmed instruction, teleconferencing, use of audiovisual aids, or work groups employed in group, self-study, or independent study programs.

(i) For potential participants to effectively plan their CPE, the program sponsor should disclose the significant features of the program in advance (e.g., through the use of brochures, Internet notices, invitations, direct mail, or other announcements). When CPE programs are offered in conjunction with non-educational activities, or when several CPE programs are offered concurrently, participants should receive an appropriate schedule of events indicating those components that are recommended for CPE credit. The CPE program sponsor's registration policies and procedures should be formalized, published, and made available to participants.

(ii) CPE program sponsors should distribute program materials in a timely manner and encourage participants to complete any advance preparation requirements. All programs should clearly identify prerequisite education, experience, and/or advance preparation requirements, if any, in the descriptive materials. Prerequisites should be written in precise language so that potential participants can readily ascertain whether they qualify for the program.

(i) Standard No. 9. CPE program sponsors must ensure instructors are qualified with respect to both program content and instructional methods used.

(i) Instructors are key ingredients in the learning process for any group program. Therefore, it is imperative that CPE program sponsors exercise great care in selecting qualified instructors for all group programs. Qualified instructors are those who are capable, through training, education, or experience of communicating effectively and providing an environment conducive to learning. They should be competent and current in the subject matter, skilled in the use of the appropriate instructional methods and technology, and prepared in advance. As used in this subsection, Group Program means:

An educational process designed to permit a participant to learn a given subject through interaction with an instructor and other participants either in a classroom or conference setting or by using the Internet.

(ii) CPE program sponsors should evaluate the instructor's performance at the conclusion of each program to determine the instructor's suitability to serve in the future.

(j) Standard No. 10. CPE program sponsors must employ an effective means for evaluating learning activity quality with respect to content and presentation, as well as provide a mechanism for participants to assess whether learning objectives were met.

(i) The objectives of evaluation are to assess participant satisfaction with specific programs and to increase subsequent program effectiveness. Evaluations, whether written or electronic, should be solicited from participants and instructors for each program session, including self-study, to determine, among other things, whether:

(A) Stated learning objectives were met.

(B) If applicable, prerequisite requirements were appropriate.

(C) Program materials were accurate.

(D) Program materials were relevant and contributed to the achievement of the learning objectives.

(E) Time allotted to the learning activity was appropriate.

(F) If applicable, individual instructors were effective.

(G) Facilities and/or technological equipment was appropriate.

(H) Handout or advance preparation materials were satisfactory.

(I) Audio and video materials were effective.

(ii) CPE program sponsors should periodically review evaluation results to assess program effectiveness and should inform developers and instructors of evaluation results.

(k) Standard No. 11. CPE program sponsors must ensure instructional methods employed are appropriate for the learning activities. Instructional methods means: delivery strategies such as case studies, computer-assisted learning, lectures, group participation, programmed instruction, teleconferencing, use of audiovisual aids, or work groups employed in group, self-study, or independent study programs. Learning activities should be presented in a manner consistent with the descriptive and technical materials provided.

(i) CPE program sponsors should evaluate the instructional methods employed for the learning activities to determine if the delivery is appropriate and effective. Integral aspects in the learning environment that should be carefully monitored include the number of participants and the facilities and technologies employed in the delivery of the learning activity.

(ii) CPE program sponsors are expected to present learning activities that comply with course descriptions and objectives. Appropriate supplemental materials may also be used.

(l) Standard No. 12. Sponsored learning activities are measured by program length, with one 50-minute period equal to one CPE credit. One-half CPE credit increments (equal to 25 minutes) are permitted after the first credit has been earned in a given learning activity.

(i) For learning activities in which individual segments are less than 50 minutes, the sum of the segments should be considered one total program. For example, five 30-minute presentations would equal 150 minutes and should be counted as three CPE credits.

(ii) When the total minutes of a sponsored learning activity are greater than 50, but not equally divisible by 50, the CPE credits granted should be rounded down to the nearest one-half credit. Thus, learning activities with segments totaling 140 minutes should be granted two and one-half CPE credits.

(iii) While it is the participant's responsibility to report the appropriate number of credits earned, CPE program sponsors

must monitor group learning activities to assign the correct number of CPE credits.

(iv) For university or college credit courses that meet these CPE Standards, each unit of college credit shall equal the following CPE credits: semester system 15 credits; quarter system 10 credits.

(v) For university or college non-credit courses that meet these CPE standards, CPE credits shall be awarded only for the actual classroom time spent in the non-credit course.

(vi) Credit is not granted to participants for preparation time.

(vii) Only the portions of committee or staff meetings that are designed as programs of learning and comply with these standards qualify for CPE credit.

(m) Standard No. 13. CPE credit for self-study learning activities must be based on a pilot test of the average completion time.

(i) A sample of intended professional participants should be selected to test program materials in an environment and manner similar to that in which the program is to be presented. The sample group of at least three individuals must be independent of the program development group and possess the appropriate level of knowledge before taking the program.

(ii) The sample does not have to ensure statistical validity. CPE credits should be recommended based on the average completion time for the sample. If substantive changes are subsequently made to program materials, further pilot tests of the revised program materials should be conducted to affirm or amend, as appropriate, the average completion time.

(n) Standard No. 14. Instructors or discussion leaders of learning activities should receive CPE credit for both their preparation and presentation time to the extent the activities maintain or improve their professional competence and meet the requirements of these CPE standards.

(i) Instructors, discussion leaders, or speakers who present a learning activity for the first time should receive CPE credit for actual preparation time up to two times the number of CPE credits to which participants would be entitled, in addition to the time for presentation. For example, for learning activities in which participants could receive 8 CPE credits, instructors may receive up to 24 CPE credits (16 for preparation plus 8 for presentation).

(ii) For repeat presentations, CPE credit can be claimed only if it can be demonstrated that the learning activity content was substantially changed and such change required significant additional study or research.

(iii) The maximum credit for instructors, discussion leaders or speakers cannot exceed 50 percent of the CPE requirement.

(o) Standard No. 15. Writers of published articles, books, or CPE programs should receive CPE credit for their research and writing time to the extent it maintains or improves their professional competence.

(i) Writing articles, books, or CPE programs for publication is a structured activity that involves a process of learning. For the writer to receive CPE credit, the article, book, or CPE program must be formally reviewed by an independent party. CPE credits should be claimed only upon publication.

(ii) The maximum credit for books or articles cannot exceed 25 percent of the CPE requirement.

(p) Standard No. 16. CPE credits recommended by a CPE program sponsor of independent study must not exceed the time the participant devoted to complete the learning activities specified in the learning contract.

(i) The credits to be recommended by an independent study CPE program sponsor should be agreed upon in advance and should be equated to the effort expended to improve professional competence. The credits cannot exceed the time devoted to the learning activities and may be less than the actual

time involved.

(q) Standard No. 17. CPE program sponsors must provide program participants with documentation of their participation, which includes the following: CPE program sponsor name and contact information, participant's name, course title, course field of study, date offered or completed, if applicable, location, the name of the CPE registry issuing approval, and the approval number assigned to that program by the Registry, type of instructional/delivery method used, amount of CPE credit recommended, verification by CPE program sponsor representative.

(i) CPE program sponsors should provide participants with documentation to support their claims of CPE credit. Acceptable evidence of completion includes:

(A) For group and independent study programs, a certificate or other verification supplied by the CPE program sponsor.

(B) For self-study programs, a certificate supplied by the CPE program sponsor after satisfactory completion of an examination.

(C) For instruction credit, a certificate or other verification supplied by the CPE program sponsor.

(D) For a university or college course that is successfully completed for credit, a record or transcript of the grade the participant received.

(E) For university or college non-credit courses, a certificate of attendance issued by a representative of the university or college.

(F) For published articles, books, or CPE programs: (1) a copy of the publication (or in the case of a CPE program, course development documentation) that names the writer as author or contributor, (2) a statement from the writer supporting the number of CPE hours claimed, and (3) the name and contact information of the independent reviewer(s) or publisher.

(r) Standard No. 18. CPE program sponsors must retain adequate documentation for five years to support their compliance with these standards and the reports that may be required of participants.

(i) Evidence of compliance with responsibilities set forth under these Standards which is to be retained by CPE program sponsors includes, but is not limited to: records of participation, dates and locations, instructor names and credentials, number of CPE credits earned by participants, and results of program evaluations.

(ii) Information to be retained by developers includes copies of program materials, evidence that the program materials were developed and reviewed by qualified parties, and a record of how CPE credits were determined.

(iii) For CPE program sponsors offering self-study programs, appropriate pilot test records must be retained regarding the following:

- (A) When the pilot test was conducted.
- (B) The intended participant population.
- (C) How the sample was determined.
- (D) Names and profiles of sample participants.
- (E) A summary of participants' actual completion time.

(4) Programs or Activities Which Do Not Qualify. The following activities do not satisfy the standards for programs of this section and are not eligible for satisfaction of CPE requirements:

(a) Personal study: personal study includes reading professional journals and publications, studying and researching matters such as tax code revisions, practicing software programs on a computer and watching video movies of a conference; and

(b) Committee meetings, dinner and luncheon meetings, firm meetings or other activities that do not meet the standards outlined in this section.

(5) Reporting Requirements. Each licensee applying for license renewal shall report, by January 31 of each even

numbered year, demonstrating completion of at least the minimum number of credits required in Section 58-26a-304 for qualified continuing professional education hours completed for the preceding two calendar years. Each person applying for license reinstatement shall file a report at the time of application demonstrating completion of the CPE required under Subsection R156-26a-307.

(a) Such report shall be by means of one of the following:

(i) certification from an approved continuing professional education registry of the hours of qualified continuing education completed; or

(ii) a report to the Division for review and approval of continuing professional education.

(b) It is the responsibility of the applicant or licensee to demonstrate to the Division that the applicant or licensee successfully completed all CPE reported and meets the requirements of this section or that the CPE has been approved by an approved continuing professional education registry and that reported courses maintained or increased the professional competence of the applicant or licensee.

(6) Continuing Professional Education Registry. To obtain approval as a continuing professional education registry, an organization shall:

(a) be a professional association primarily consisting of individuals licensed as certified public accountants;

(b) be organized and in good standing according to the laws of the state;

(c) enter into a written agreement with the Division under which the organization agrees to:

(i) review and approve only those programs which meet the standards set forth under this section;

(ii) publish and disseminate to their members or other CPAs on request, listings of continuing professional education programs which meet the standards and are approved for qualified continuing professional education credit;

(iii) maintain accurate records of qualified continuing professional education completed by each of its registrants and provide each of its registrants with a certificate on a timely basis to permit the registrant to file that certificate with the registrant's application to the division for renewal or reinstatement of his license as a certified public accountant. The certificate shall contain the name of the instructor, the date of the program, location of the program, title of the program, the name of the sponsor, the name of the CPE registry issuing approval, and the approval number assigned to that program by the Registry, and the number of CPE hours granted; and

(iv) make records of approved of qualified continuing professional education programs and records of qualified continuing professional education completed by registrants available for audit by representatives of the division, the board or peer advisory committees of the board.

(7) Fees. A registry may charge a reasonable fee to registrants for services provided for approval of courses. Sponsors of approved courses may charge a lower fee to members of the sponsoring association for participation as a registrant than it charges to non-members of the association.

(8) Other CPE requirements and failure to complete CPE requirements.

(a) Interim Licensure CPE requirements. Those individuals who become licensed or certified between renewal periods shall be required to complete CPE based upon ten hours per calendar quarter for the remaining quarters of the reporting period.

(b) Carry Forward Provision. A licensee who completes more than 80 hours of CPE during the two year reporting period may carry forward up to 40 hours to the next succeeding reporting period.

(c) Failure to comply with CPE requirements.

(i) Failure to meet the 80 hour requirement. An individual

holding a current Utah license who fails to complete the required 80 hours of CPE by the reporting deadline will not be allowed to renew their license unless they complete and report to the division at least 30 days prior to their expiration date two times the number of CPE hours the license holder was short for the reporting period (penalty hours). The penalty hours shall not be considered to satisfy in whole or part any of the CPE hours required for subsequent renewal of the license.

(ii) Non-Qualifying or Disqualified CPE hours. An individual who reports nonqualifying hours or who has hours disqualified by the Utah Board of Accountancy shall not be allowed to renew their license unless they complete and report to the division, within 60 days of receiving notification by the division of their shortage and the relevant penalty hours requirement under R156-26-303b(8)(c)(i).

(iii) Waiver for Medical Reasons. A licensee may request the board to waive the requirements or grant an extension for continuing professional education on the basis that the licensee was not able to complete the continuing professional education due to medical or related conditions confirmed by a qualified health care provider. Such medical confirmation shall include the beginning and ending dates during which the medical condition would have prevented the licensee from completing the continuing professional education, the extent of the medical condition and the effect that the medical condition had upon the ability of the licensee to continue to engage in the practice of accountancy. The board in determining whether the waiver is appropriate shall consider whether or not the licensee continued to be engaged in the practice of accountancy practice on a full or part time basis during the period specified by the medical confirmation. Granting a waiver of meeting the minimum CPE hours shall not be construed as a waiver of a CPA being required to provide services in a competent manner with current knowledge, skill and ability. When medical or other conditions prevent the CPA from providing services in a competent manner, the CPA shall refrain from providing such services.

#### **R156-26a-303c. Renewal Cycle.**

In accordance with Subsection 58-1-308(1), the renewal date for the two-year renewal cycle applicable to licensees under Title 58, Chapter 26a is established by rule in Section R156-1-308.

#### **R156-26a-303d. Renewal Procedures.**

Renewal procedures shall be in accordance with Section R156-1-308.

#### **R156-26a-305. Use of Certified Public Accountant (CPA) Title.**

An individual who has a current CPA license issued by any other state may use the title or designation "Certified Public Accountant" but may only practice public accountancy in the state of Utah if currently licensed in the state of Utah or if performing public accountancy which is incidental to regular practice in another state as defined in Subsection 58-26a-305(1) and as further clarified in R156-26a-102(4).

#### **R156-26a-307. Reinstatement of Licenses.**

(1) An individual having held a Utah license which has expired for failure to renew for nonpayment of fees, or an individual applying for reinstatement from emeritus status, may be relicensed upon satisfactory completion of:

(a) submission of an application on forms supplied by the division which shall contain information as to why the person allowed their license to lapse;

(b) 80 hours of acceptable CPE, completed within the 12 months preceding the submission of an application for reinstatement, which shall include a minimum of 16 hours in accounting or auditing or both and shall include successful

completion of the AICPA Ethics Self-Study Examination and the Utah Law and Rules Examination with a minimum score of at least the minimum score required for initial licensure. Successful completion of the two examinations will count as eight hours of CPE towards the 80 hour requirement.

(i) The requirements in Subsection R156-26-307(1)(b) are waived if the reinstatement applicant has not been practicing within the state of Utah since the expiration of the license being reinstated, the reinstatement applicant has continuously since the expiration been licensed and practicing in another state and the reinstatement applicant demonstrates that the applicant has met all the CPE requirements that would have been applicable in the state of Utah during the time the license was expired in the state of Utah.

(ii) The requirements in Subsection R156-26a-307(1)(b) are waived, if the applicant failed to renew because of inadvertent failure to pay the renewal fees, to sign application documents, or to meet similar technical application requirements and the application for reinstatement is filed with the Division within 24 months after expiration date of the license and at time of application for reinstatement the applicant demonstrates by proof of attendance at acceptable CPE courses that at all times the applicant was in full compliance with the CPE requirements.

(2) A licensee who reinstates their license must obtain ten hours of CPE per full calendar quarter remaining in the current CPE reporting period after reinstatement is granted.

(3) The number of hours required to reinstate the license shall not be considered to satisfy in whole or part any of the 80 hours of CPE required for subsequent renewal of the license.

#### **R156-26a-501. Unprofessional Conduct.**

"Unprofessional conduct" includes:

(1) a licensee willfully failing to comply with continuing professional education or fraudulently reporting continuing professional education; or

(2) commission of an act or omission that fails to conform to the accepted and recognized standards and ethics of the profession including those stated in the "Code of Professional Conduct" of the American Institute of Certified Public Accountants (AICPA) as adopted January 12, 1998, as amended, January 14, 1992 and October 28, 1997, which is hereby incorporated by reference.

**R156. Commerce, Occupational and Professional Licensing.  
R156-55a. Utah Construction Trades Licensing Act Rules.  
R156-55a-101. Title.**

These rules shall be known as the "Utah Construction Trades Licensing Act Rules".

**R156-55a-102. Definitions.**

In addition to the definitions in Title 58, Chapters 1 and 55, as defined or used in these rules:

(1) "Employee", as used in Subsections 58-55-102(10)(a) and 58-55-102(12), means a person providing labor services in the construction trades for compensation who has federal and state taxes withheld and workers' compensation and unemployment insurance provided by the person's employer.

(2) "Incidental to the performance of his licensed craft or trade" as used in Subsection 58-55-102(32) means work which:

(a) can be safely and competently performed by the specialty contractor;

(b) arises from and is directly related to work performed in the licensed specialty classification; and

(c) is substantially less in scope and magnitude when compared to the work performed or to be performed by the specialty contractor in the licensed specialty classification.

(3) "Maintenance" means the repair, replacement and refinishing of any component of an existing structure; but, does not include alteration or modification to the existing weight-bearing structural components.

(4) "Mechanical", as used in Subsections 58-55-102(15) and 58-55-102(25) means the work which may be performed by a S350 HVAC Contractor under Subsection R156-55a-301(3).

(5) "Personal property" means, as it relates to Title 58, Chapter 56, factory built housing and modular construction, a structure which is titled by the Motor Vehicles Division, state of Utah, and taxed as personal property.

(6) "School" means a Utah school district, applied technology college, or accredited college.

(7) "Unprofessional conduct" defined in Title 58, Chapters 1 and 55, is further defined in accordance with Subsection 58-1-203(5) in Section R156-55a-501.

**R156-55a-103. Authority.**

These rules are adopted by the division under the authority of Subsection 58-1-106(1) to enable the division to administer Title 58, Chapter 55.

**R156-55a-104. Organization - Relationship to Rule R156-1.**

The organization of this rule and its relationship to Rule R156-1 is as described in Section R156-1-107.

**R156-55a-301. License Classifications - Scope of Practice.**

(1) In accordance with Subsection 58-55-301(2), the classifications of licensure are listed and described in this section. The construction trades or specialty contractor classifications listed are those determined to significantly impact the public health, safety, and welfare. A person who is practicing a construction trade or specialty contractor classification which is not listed is exempt from licensure in accordance with Subsection 58-55-305(9).

(2) Licenses shall be issued in the following primary classifications and subclassifications:

E100 - General Engineering Contractor. A General Engineering contractor is a contractor licensed to perform work as defined in Subsection 58-55-102(19).

B100 - General Building Contractor. A General Building contractor is a contractor licensed to perform work as defined in Subsection 58-55-102(18).

R100 - Residential and Small Commercial Contractor. A Residential and Small Commercial contractor is a contractor licensed to perform work as defined in Subsection 58-55-

102(28).

R101 - Residential and Small Commercial Non Structural Remodeling and Repair. - (a) the Trade Classification Specific Examination; and
  - (b) the Utah Contractor Business - Law Examination.
- (2) The passing score for each examination is 70%.
- (3) An applicant for licensure who fails an examination may retake the failed examination as follows:

- (a) no sooner than 30 days following any failure up to three failures; and
- (b) no sooner than six months following any failure thereafter.

#### **R156-55a-302b. Qualifications for Licensure - Experience Requirements.**

In accordance with Subsection 58-55-302(1)(e)(ii), the minimum experience requirements are established as follows:

- (1) Requirements for all license classifications:
  - (a) All experience shall be directly supervised by the applicant's employer.
  - (b) All experience shall be directly related to the scope of practice set forth in Section R156-55a-301 of the classification the applicant is applying for, as determined by the Division.
  - (c) One year of work experience means 2000 hours.
  - (d) No more than 2000 hours of experience during any 12 month period may be claimed.
  - (e) Except as described in paragraph (2)(c), experience obtained under the supervision of a construction trades instructor as a part of an educational program is not qualifying experience for a contractors license.

(2) Requirements for E100 General Engineering, B100 General Building, R100 Residential and Small Commercial Building license classifications:

(a) In addition to the requirements of paragraph (1), an applicant for an R100, B100 or E100 license shall have within the past 10 years a minimum of four years experience as an employee of a contractor licensed in the license classification applied for, or the substantial equivalent of a contractor licensed in that license classification as determined by the Division.

(b) Two of the required four years of experience shall be in a supervisory or managerial position.

(c) A person holding a four year bachelors degree or a two year associates degree in Construction Management may have one year of experience credited towards the supervisory or managerial experience requirement.

(3) Requirements for S280 General Roofing, S290 General Masonry, S320 Steel Erection, S350 Heating Ventilating and Air Conditioning, S360 Refrigeration and S370 Fire Suppression Systems license classifications:

In addition to the requirements of paragraph (1), an applicant shall have within the past 10 years a minimum of four years of experience as an employee of a contractor licensed in the license classification applied for, or the substantial equivalent of a contractor licensed in that license classification as determined by the Division.

(4) Requirements for I101 General Engineering Trades Instructor, I102 General Building Trades Instructor, I103 Electrical Trades Instructor, I104 Plumbing Trades Instructor, I105 Mechanical Trades Instructor license classifications:

An applicant for construction trades instructor license shall have the same experience that is required for the license classifications for the construction trade they will instruct.

(5) Requirements for other license classifications:

In addition to the requirements of paragraph (1), an applicant for contractor license classification not listed above shall have within the past 10 years a minimum of two years of experience as an employee of a contractor licensed in the license classification applied for, or the substantial equivalent of a contractor licensed in that license classification as determined by the Division.

#### **R156-55a-302c. Qualifications for Licensure Requiring Licensure in a Prerequisite Classification.**

(1) Each applicant for licensure as a I103 Electrical Trades Instructor shall also be licensed as either a journeyman or master electrician or a residential journeyman or residential master electrician.

(2) Each applicant for licensure as a I104 Plumbing Trades Instructor shall also be licensed as either a journeyman plumber or a residential journeyman plumber.

#### **R156-55a-302d. Qualifications for Licensure - Proof of Insurance and Registrations.**

In accordance with the provisions of Subsection 58-55-302(2)(b), an applicant who is approved for licensure shall submit proof of public liability insurance in coverage amounts of at least \$100,000 for each incident and \$300,000 in total.

#### **R156-55a-302e. Additional Requirements for Construction Trades Instructor Classifications.**

In accordance with Subsection 58-55-302(1)(f), the following additional requirements for licensure are established:

(1) Any school that provides instruction to students by building houses for sale to the public is required to become a Utah licensed contractor with a B100 General Building Contractor or R100 Residential and Small Commercial Building Contractor classification or both.

(2) Any school that provides instruction to students by building houses for sale to the public is also required to be licensed in the appropriate instructor classification.

(a) Before being licensed in a construction trades instructor classification, the school shall submit the name of an

individual person who acts as the qualifier in each of the construction trades instructor classifications in accordance with Section R156-55a-304. The applicant for licensure as a construction trades instructor shall:

(i) provide evidence that the qualifier has passed the required examinations established in Section R156-55a-302a; and

(ii) provide evidence that the qualifier meets the experience requirement established in Subsection R156-55a-302b(4).

(3) Each individual employed by a school licensed as a construction trades instructor and working with students on a job site shall meet any teacher certification, or other teacher requirements imposed by the school district or college, and be qualified to teach the construction trades instructor classification as determined by the qualifier.

#### **R156-55a-303a. Renewal Cycle - Procedures.**

(1) In accordance with Subsection 58-1-308(1), the renewal date for the two year renewal cycle applicable to licensees under Title 58, Chapter 55 is established by rule in Section R156-1-308.

(2) Renewal procedures shall be in accordance with Section R156-1-308.

(3) In accordance with Subsections 58-55-501(21) and 58-1-308(3)(b)(i), there is established a continuing education requirement for license renewal. Each licensee, or the licensee's qualifier, or an officer, director or supervising individual, as designated by the licensee, shall comply with the following continuing education requirements:

- (a) complete three hours of core continuing education; and
- (b) an additional three hours of continuing education.

#### **R156-55a-303b. Continuing Education - Standards.**

(1) Continuing education courses are not required to be submitted for approval by the Commission, but must meet the following criteria:

(a) content must be relevant to the practice of the construction trades and consistent with the laws and rules of this state;

  - (iii) the Utah Home Builders Association;
  - (iv) the Utah Mechanical Contractors Association; or

(d) other recognized education programs as approved by the Commission with the concurrence of the Director.

(4) Professional education shall not include courses in office and business skills, physical well-being and personal development, and meetings held in conjunction with the general business of the licensee.

(5) The continuing education requirement for electricians as established in Section R156-55b-304, which is completed by an electrical contractor, shall satisfy the continuing education requirement for contractors as established in Subsection 58-55-501(21) and implemented herein.

(6) A licensee shall be responsible for maintaining competent records of completed core and other continuing education for a period of two years after the two year period to which the records pertain.

#### **R156-55a-304. Construction Trades Instructor License Qualifiers.**

In accordance with Subsection 58-55-302(1)(f), the contractor license qualifier requirements in Section 58-55-304 shall also apply to construction trades instructors.

#### **R156-55a-305. Compliance Agency Reporting of Sole Owner Building Permits Issued.**

In accordance with Subsection 58-55-305(2), all compliance agencies that issue building permits to sole owners of property must submit information concerning each building permit issued in their jurisdiction within 30 days of the issuance, with the building permit number, date issued, name, address and phone number of the issuing compliance agency, sole owner's full name, home address, phone number, and subdivision and lot number of the building site, to a fax number, email address or written mailing address designated by the division.

#### **R156-55a-306a. Financial Responsibility - Questionnaire and Aggregate Bonding Limit.**

In accordance with Section 58-55-306, the following shall apply:

(1) An applicant may demonstrate financial responsibility by either submitting the questionnaire or by submitting proof of an aggregate bonding limit in a form acceptable to the division.

(2) Under no circumstances shall the aggregate bonding limit be less than \$25,000.

#### **R156-55a-306b. Financial Responsibility - Division Audit - Financial Statements.**

(1) All financial statements shall cover a period of time ending no earlier than the last tax year.

(2) Financial statements prepared by an independent certified public accountant (CPA) shall be "audited", "reviewed", or "compiled" financial statements prepared in accordance with generally accepted accounting principles and shall include the CPA's report stating that the statements have been audited, reviewed or compiled.

(3) Division reviewed financial statements shall be submitted in a form acceptable to the division and shall include the following:

- (a) the balance sheet;
- (b) all schedules;
- (c) a complete copy of the applicant's most recently filed federal income tax return;
- (d) a copy of the applicant's bank or broker account statements; and
- (e) an acceptable credit report for the applicant.

(4) An acceptable credit report is:

(a) dated within 30 days prior to the date the application is received by the division;

(b) free from erasures, alterations, modifications, omissions, or any other form of change which alters the full and

complete information provided by the credit reporting agency;

- (c) a report from:
  - (i) Trans Union, Experian, and Equifax national credit reporting agencies; or
  - (ii) National Association of Credit Managers (NACM); or
  - (iii) another local credit reporting agency that includes a report for each of the three national credit reporting agencies names in Subsection (i) above.

**R156-55a-308a. Operating Standards for Schools or Colleges Licensed as Contractors.**

(1) Each school licensed as a B100 General Building Contractor or a R100 Residential and Small Commercial Contractor or both shall obtain all required building permits for homes built for resale to the public as part of an educational training program.

(2) Each employee that works as an instructor for a school licensed as a construction trades instructor shall:

- (a) have on their person a school photo ID card with the trade they are authorized to teach printed on the card; and
- (b) if instructing in the plumbing or electrical trades, they shall also carry on their person their Utah journeyman or residential journeyman plumber license or Utah journeyman, residential journeyman, master, or residential master electrician license.

(3) Each school licensed as a construction trades instructor shall not allow any teacher or student to work on any portion of the project subcontracted to a licensed contractor unless the teacher or student are lawful employees of the subcontractor.

**R156-55a-308b. Natural Gas Technician Certification.**

(1) In accordance with Subsection 58-55-308(1), the scope of practice defined in Subsection 58-55-308(2)(a) requiring certification is further defined as the installation, modifications, repair or replacement of the gas piping, combustion air vents, exhaust venting system or derating of gas input for altitude of a residential or commercial gas appliance.

(2) An approved training program shall include the following course content:

- (a) general gas appliance installation codes;
- (b) venting requirements;
- (c) combustion air requirements;
- (d) gas line sizing codes;
- (e) gas line approved materials requirements;
- (f) gas line installation codes; and
- (g) methods of derating gas appliances for elevation.

(3) In accordance with Subsection 58-55-308(2)(c)(i), the following programs are approved to provide natural gas technician training, and to issue certificates or documentation of exemption from certification:

- (a) Federal Bureau of Apprenticeship Training;
- (b) Utah college apprenticeship program; and
- (c) Trade union apprenticeship program.

(4) In accordance with Subsection 58-55-308(2)(e), the approved programs set forth in paragraphs (2)(b) and (2)(c) herein shall require program participants to pass the Rocky Mountain Gas Association Gas Appliance Installers Certification Exam or approved equivalent exams established or adopted by a training program, with a minimum passing score of 80%.

(5) In accordance with Subsection 58-55-308(2)(e), a person who has not completed an approved training program, but has passed the Rocky Mountain Gas Association Gas Exam or approved equivalent exam established or adopted by an approved training program, with a minimum passing score of 80%, or the Utah licensed Journeyman or Residential Journeyman Plumber Exam, with a minimum passing score of 70%, shall be exempt from the certification requirement set forth in Subsection 58-55-308(2)(c)(i).

(6) Content of certificates of completion. An approved program shall issue a certificate, including a wallet certificate, to persons who successfully complete their training program containing the following information:

- (a) name of the program provider;
- (b) name of the approved program;
- (c) name of the certificate holder;

(8) Each person engaged in the scope of practice defined in Subsection 58-55-308(2)(a) and as further defined in Subsection (1) herein, shall carry in their possession documentation of certification or exemption.

**R156-55a-311. Reorganization of Contractor Business Entity.**

A reorganization of the business organization or entity under which a licensed contractor is licensed shall require application for a new license under the new form of organization or business structure. The creation of a new legal entity constitutes a reorganization and includes a change to a new entity under the same form of business entity or a change of the form of business entity between proprietorship, partnership, whether limited or general, joint venture, corporation or any other business form.

**R156-55a-312. Inactive License.**

(1) The requirements for inactive licensure specified in Subsection R156-1-305(3) shall also include certification that the licensee will not engage in the construction trade(s) for which his license was issued while his license is on inactive status except to identify himself as an inactive licensee.

(2) A license on inactive status will not be required to meet the requirements of licensure in Subsections 58-55-302(1)(e)(i), 58-55-302(2)(a) and 58-55-302(2)(b).

(3) The requirements for reactivation of an inactive license specified in Subsection R156-1-305(6) shall also include:

(a) documentation that the licensee meets the requirements of Subsections 58-55-302(1)(e)(i), 58-55-302(2)(a) and 58-55-302(2)(b); and

(b) documentation that the licensee has taken and passed the business and law examination and the trade examination for the classification for which activation is sought except that the following exceptions shall apply to the reactivation examination requirement:

(i) No qualifying examinations will be required if the licensee applies for reactivation of his license within two years after being placed on inactive status.

(ii) No qualifying examinations will be required if the licensee has been actively and lawfully involved in the construction trades as an employee of another licensed contractor or has been actively and lawfully involved in the

construction trades in another state during the time the license was inactive.

(iii) If the licensee applies for reactivation after two years but before four years after being placed on inactive status, the division may waive the qualifying examinations if the licensee presents adequate support that he has maintained the knowledge and skills tested in the business and law examination and the trade examination in the classification for which reactivation of licensure is sought.

(iv) If the licensee applies for reactivation four years or more after being placed on inactive status, the division may waive the trade examination in the classification for which reactivation of licensure is sought, if the licensee presents adequate support that he has maintained the knowledge and skills tested in the trade examination.

**R156-55a-401. Minimum Penalty for Failure to Maintain Insurance.**

(1) A minimum penalty is hereby established for the violation of Subsection R156-55a-501(2) as follows:

(a) For a violation the duration of which is less than 90 days, where the licensee at the time a penalty is imposed documents that the required liability and workers compensation insurance have been reacquired, and provided an insurable loss has not occurred while not insured, a minimum of a 30 day suspension of licensure, stayed indefinitely, automatically executable in addition to any other sanction imposed, upon any subsequent violations of Subsection R156-55a-501(2).

(b) For a violation the duration of which is 90 days or longer, or where insurable loss has occurred, where the licensee at the time a penalty is imposed documents that the required insurance have been reacquired, a minimum of 30 days suspension of licensure.

(c) For a violation of any duration, where the licensee at the time a penalty is imposed fails to document that the required insurance have been reacquired, a minimum of indefinite suspension. A license which is placed on indefinite suspension may not be reinstated any earlier than 30 days after the licensee documents the required insurance have been reacquired.

(d) If insurable loss has occurred and licensee has not paid the damages, the license may be suspended indefinitely until such loss is paid by the licensee.

(e) Nothing in this section shall be construed to restrict a presiding officer from imposing more than the minimum penalty for a violation of Subsection R156-55a-501(2). However, absent extraordinary cause, the presiding officer may not impose less than the minimum penalty.

**R156-55a-501. Unprofessional Conduct.**

"Unprofessional conduct" includes:

(1) failing to notify the division with respect to any matter for which notification is required under these rules or Title 58, Chapter 55, the Construction Trades Licensing Act, including a change in qualifier. Such failure shall be considered by the division and the board as grounds for immediate suspension of the contractors license;

(2) failing to continuously maintain insurance and registration as required by Subsection 58-55-302(2), in coverage amounts and form as implemented by this chapter.

**R156-55a-502. Penalty for Unlawful Conduct.**

The penalty for violating Subsection 58-55-501(1) while suspended from licensure shall include the maximum fine allowed by Subsection 58-55-503(4)(i).

**R156-55a-503. Administrative Penalties.**

(1) In accordance with Subsection 58-55-503, the following fine schedule shall apply to citations issued under Title 58, Chapter 55:

**R156. Commerce, Occupational and Professional Licensing.**  
**R156-55b. Electricians Licensing Rules.**  
**R156-55b-101. Title.**

These rules are known as the "Electricians Licensing Rules".

**R156-55b-102. Definitions.**

In addition to the definitions in Title 58, Chapters 1 and 55, as used in Title 58, Chapter 55 or these rules:

(1) "Electrical work" as used in Subsection 58-55-102(13)(a) and in these rules means installation, fabrication or assembly of equipment or systems included in "Premises Wiring" as defined in the edition of the National Electrical Code, as identified in Subsection R156-56-701(1)(b) which is hereby adopted and incorporated by reference. Electrical work includes installation of raceway systems used for any electrical purpose, and installation of field-assembled systems such as ice and snow melting, pipe-tracing, manufactured wiring systems, and the like. Electrical work does not include installation of factory-assembled appliances or machinery that are not part of the premises wiring unless wiring interconnections external to the equipment are required in the field, and does not include cable-type wiring that does not pose a hazard from a shock or fire initiation standpoint as defined in the National Electrical Code. Wiring covered by the National Electrical Code that does not pose a hazard as described above includes Class 2 wiring as defined in Article 725, Power-Limited circuits as defined in Article 760 and wiring methods covered by Chapter 8. Other wiring, including wiring under 50 volts is subject to licensing requirements.

(2) "Minor electrical work incidental to a mechanical or service installation" as used in Subsection 58-55-305(1)(n) means the electrical work involved in installation, replacement or repair of appliances or machinery that utilize electrical power. These installations do not include modification or repair of "Premises Wiring" as defined in the National Electrical Code. Electrical work is minor and incidental only when wiring is extended no more than ten feet in length from an outlet or disconnect provided specifically for the piece of equipment.

(3) "Residential project" as used in Subsection 58-55-302(3)(h)(ii) means electrical work performed in residential dwellings under four stories and will include single family dwellings, apartment complexes, condominium complexes and plated subdivisions.

(4) "Unprofessional conduct" as defined in Title 58, Chapters 1 and 55, is further defined, in accordance with Subsection 58-1-203(1)(e), in Section R156-55b-501.

(5) "Work commonly done by unskilled labor" as used in Subsection 58-55-102(13)(b)(iii) means work such as digging, sweeping, hammering, carrying, drilling holes, or other tasks that do not directly involve the installation of raceways, conductors, cables, wiring devices, overcurrent devices, or distribution equipment. Tasks such as handling wire on large wire pulls or assisting in moving heavy electrical equipment may utilize unlicensed persons when the task is performed in the immediate presence of and supervised by properly licensed persons. Tasks that are normally performed by the skilled labor of other trades, such as operating heavy equipment, driving, forming and pouring concrete, welding and erecting structural steel shall not be considered part of the electrical trade.

**R156-55b-103. Authority.**

These rules are adopted by the division under the authority of Subsection 58-1-106(1)(a) to enable the division to administer Title 58, Chapter 55.

**R156-55b-104. Organization - Relationship to Rule R156-1.**

The organization of this rule and its relationship to Rule R156-1 is described in Section R156-1-107.

**R156-55b-302a. Qualifications for Licensure - Examination Requirements.**

(1) In accordance with Subsection 58-55-302(1)(c)(i), the following examinations, each consisting of a theory section, a code section and a practical section, are approved by the division in collaboration with the board:

(a) Utah Electrical Licensing Examination for Master Electricians;

(b) Utah Electrical Licensing Examination for Master Residential Electricians;

(c) Utah Electrical Licensing Examination for Journeyman Electricians; and

(d) Utah Electrical Licensing Examination for Residential Journeyman Electricians.

(2) The minimum passing score for each section of the examination is as follows:

(a) the applicant must obtain a "pass" grade on the practical section of the examination; and

(b) the applicant must obtain a score of at least 75 on both the theory section and the code section of the examination.

(3) If an applicant passes any one section of the examination and fails any one or more of the other sections, he is only required to retake the section of the examination failed. There must be a minimum of 30 days between the first test and the retake of any failed section. Test approval letters expire six months from the date of issue. Reapplication for licensure is required to obtain a new test authorization letter.

(4) Admission to the examination is permitted in the form of a letter from the Division after the applicant has completed all requirements for licensure set forth in Sections R156-55b-302b and R156-55b-302c.

(5) An examinee who fails any section of the Utah Electricians Licensing Examination two times shall not be permitted to retake the examination until:

(a) the examinee meets with the board and the board outlines a required remedial program of education or experience of up to one year in length which must be completed before the examinee may again take the examination; and

(b) upon successful completion of the required remedial program of education or experience, the examinee shall apply to the Division to retake the failed portion of the examination a maximum of two times with at least 30 days between tests. Failure to pass all required portions of the examination upon retake shall result in denial of their application for licensure. An applicant continuing to seek licensure must reapply for licensure by filing a new application with the required fee and may do so only after completing additional remedial education and experience as determined by the Division and the Board.

**R156-55b-302b. Qualifications for Licensure - Education Requirements.**

(1) In accordance with Subsection 58-55-302(3)(g)(i), the approved electrical training program for licensure as a residential journeyman electrician consists of:

(a) a curriculum of electrical study approved by the Utah Board of Regents or other curriculum that is deemed substantially equivalent; and

(b) at least two years of work experience as a licensed apprentice consistent with Section R156-55b-302c.

(2) In accordance with Subsection 58-55-302(3)(f)(i), the approved four year planned training program for licensure as a journeyman electrician consists of:

(a) a curriculum of electrical study approved by the Utah Board of Regents or other curriculum that is deemed substantially equivalent; and

(b) at least four years of work experience as a licensed apprentice consistent with Section R156-55b-302c.

(3) In accordance with Subsections 58-55-302(3)(d)(i), an approved course of study for a graduate of an electrical trade

school is a curriculum of electrical study approved by the Utah Board of Regents or other curriculum that is deemed substantially equivalent.

(4) It shall be the responsibility of the applicant to provide adequate documentation to establish equivalency.

(5) In accordance with Subsection 58-55-302(3)(d)(i), an approved college or university shall be accredited by the Engineering Accreditation Commission/Accreditation Board for Engineering and Technology or the Canadian Engineering Accrediting Board.

**R156-55b-302c. Qualifications for Licensure - Work Experience.**

(1) In accordance with Subsections 58-55-302(3)(d), (e), (f) and (g), the practical electrical experience, course of study, practical experience, planned training program, or electrical training program shall include on-the-job work experience in the following categories and approximate hours:

(a) approximately 3000-4800 hours residential journeyman electrician; 4000-6400 hours journeyman electrician in raceways, boxes and fittings, wire and cable to include conduit, wireways, cableways and other raceways and associated fittings, individual conductors and multiconductor cables, and nonmetallic-sheathed cable;

(b) approximately 600-1200 hours residential journeyman electrician; 800-1600 hours journeyman electrician in wire and cable to include individual conductors and multi-conductor cables;

(c) approximately 300-900 hours residential journeyman electrician; 400-1200 hours journeyman electrician in distribution and utilization equipment to include transformers, panel boards, switchboards, control panels, disconnects, motor starters, lighting fixtures, heaters, appliances, motors, and other distribution and utilizations equipment; and

(d) approximately 300-900 hours residential journeyman electrician; 400-1200 hours journeyman electrician in specialized work to include grounding, wiring of systems for sound, data, communications, alarms, automated systems, generators, batteries, computer equipment, etc.

(2) Each year of work experience shall include at least 2000 hours and may be obtained in one or more years. No more than one year of work experience may be credited for each 12 month period.

(3) No credit will be given for work experience performed illegally.

**R156-55b-303. Renewal Cycle - Procedures.**

(1) In accordance with Subsection 58-1-308(1), the renewal date for the two-year renewal cycle applicable to licensees under Title 58, Chapter 55 is established by rule in Section R156-1-308a.

(2) Renewal procedures shall be in accordance with Section R156-1-308a.

**R156-55b-304. Continuing Education.**

(1) In accordance with Subsections 58-1-203(1)(g) and 58-1-308(3)(b), there is created a continuing education requirement as a condition for renewal or reinstatement of master, journeyman, residential master, residential journeyman and apprentice electrician licenses issued under Title 58, Chapter 55.

(2) Continuing education shall consist of 16 hours of course work in each preceding two year period of licensure or expiration of licensure.

(3) A minimum of eight hours shall be on the current edition of the National Electrical Code, as identified in Subsection R156-56-701(1)(b).

(4) The licensee is responsible for maintaining competent records of completed qualified continuing education for a period of four years after the close of the two year renewal period to

which the records pertain.

(5) The standards for qualified continuing education are as follows:

(a) the content must be relevant to the electrical trade and consistent with the laws and rules of this state;

(b) an instructor must either be currently teaching or have taught courses related to the electrical trade within the preceding two years for one of the following:

(i) a trade school, college or university whose electrical program is approved in accordance with Subsections R156-55b-302b(1)(a) and (5);

(ii) a professional association or organization representing licensed electricians whose program objectives relate to the electrical trade;

(iii) the licensing agency of another state;

(iv) a federal or other Utah agency or another state's agency; or

(v) the Division's Building Codes Education program.

(6) Electricians Licensing Board members, acting in their official capacity as a board member, may attend any continuing education course at no charge, at any time, for no credit, to monitor the quality of instruction.

**R156-55b-401. Scope of Practice.**

In accordance with Subsection 58-55-308(1), the following shall apply:

(1) It shall be the responsibility of the journeyman, residential journeyman, master or residential master electrician who is licensed by the division to insure that the work installed by himself, as well as by any apprentice under his supervision, is properly installed. Proper and safe installations shall be the responsibility of the supervising party or parties.

(2) An apprentice in a planned training program as set forth in Subsection 58-55-302(3)(f)(i) may be supervised as a fourth year apprentice in the fifth and sixth year of apprenticeship; however, in the seventh and succeeding years of apprenticeship, he shall be under immediate supervision as set forth in Subsection 58-55-302(3)(h)(i).

(3) All other apprentices shall be under immediate supervision as set forth in Subsection 58-55-302(3)(h).

(4) For the purposes of Subsections 58-55-102(27), 58-55-501(17) and 58-55-302(3)(h), apprentices and the licensed electricians responsible for their supervision shall be employees of the same contractor, or the employers of the supervising employees shall have a contractual responsibility for the performance of both the supervised and supervising employees. Employees of licensed professional employer organizations who provide workers under a contract with an electrical contractor shall be considered to be the employees of the electrical contractor for the purposes of this rule.

**R156-55b-501. Unprofessional Conduct.**

"Unprofessional conduct" includes:

(1) failure of a licensee to carry a copy of their current license at all times when performing electrical work; and

(2) failure of an electrical contractor to certify an apprentice's hours and breakdown of work experience by category when requested by an apprentice that is or has been an employee.

(3) A licensed residential journeyman plumber applying for a journeyman plumber's license shall complete 2,000 hours of on the job training in industrial or commercial plumbing while licensed as an apprentice plumber or residential apprentice plumber, which shall include successful completion of an approved fourth year course of classroom instruction.

(4) On the job training and instruction required in this section shall include measurements of an apprentice's performance in the plumbing trade.

(5) Formal classroom instruction required by this section shall meet the following requirements:

(a) instruction shall be conducted by an entity approved by the Board of Regents or by another entity that demonstrates to the division and board that it conducts equivalent classroom instruction; and

(b) instruction shall be conducted by competent qualified staff and shall include measures of competency and achievement level of each apprentice.

(6) Apprentice plumbers and residential apprentice plumbers shall engage in the plumbing trades only in accordance with the following:

(a) except as provided in Subsection 58-55-302(3)(c)(ii) for fourth through tenth year apprentices, while engaging in the plumbing trade, an apprentice plumber or residential apprentice plumber shall be under the immediate supervision of a journeyman plumber for commercial or industrial work, and by a residential journeyman or journeyman plumber for residential work;

(b) the apprentice shall engage in the plumbing trade in accordance with the instruction of the supervising plumber; and

(c) the apprentice shall work in a ratio of not to exceed two apprentice plumbers to one supervising plumber.

#### **R156-55c-302c. Qualifications for Licensure - Examination Requirements.**

In accordance with Subsections 58-1-203(2) and 58-1-301(3), the examination requirements for licensure in Subsection 58-55-302(1)(c)(i) are defined, clarified, or established as follows:

(1) The applicant shall obtain a score of 70% on the Utah Plumbers Licensing Examination which shall consist of a written section and practical section.

(2) Admission to the examinations is permitted after the applicant has completed all requirements for licensure set forth in Sections R156-55c-302a, R156-55c-302b and R156-55c-302c.

(3) An examinee who passes one section of the Utah Plumbers Licensing Examination and fails the other section shall be required to retake and pass only the section failed.

(4) An examinee who fails either or both sections of the Utah Plumbers Licensing Examination two times shall not be permitted to retake the examination until:

(a) the examinee completes a remedial program of education of one semester of school for each test section failed twice; or

(b) the examinee meets with the Board and completes an alternate remedial program outlined by the Board.

(c) After completing the required remedial program, the examinee shall retake the failed portions of the examination a maximum of two times of the next two examinations offered.

(d) Failure to pass the failed portions of the examination upon retake shall result in denial of the application for licensure. An applicant continuing to seek licensure shall reapply for

licensure by filing a new application with the required fee and may do so only after completing additional remedial education and experience as determined by the division and the board.

#### **R156-55c-303. Renewal Cycle - Procedures.**

(1) In accordance with Subsection 58-1-308(1), the renewal date for the two-year renewal cycle applicable to licensees under Title 58, Chapter 55, is established by rule in Section R156-1-308a.

(2) Renewal procedures shall be in accordance with Section R156-1-308.

#### **R156-55c-304. Licensure by Endorsement.**

In accordance with the provisions of Section 58-1-302, the division may issue an individual a license as an apprentice plumber, residential apprentice plumber, journeyman plumber, or residential journeyman plumber by endorsement, in accordance with the following:

(1) An applicant for licensure by endorsement as a journeyman plumber or residential journeyman plumber has the burden to demonstrate that the apprenticeship instruction and training, or experience requirements in lieu of an apprenticeship, and the examination requirements of the state or jurisdiction in which the applicant holds licensure are equal to the requirement of this state or were equal to the requirements of this state at the time the applicant received licensure in the other state.

(2) An applicant for licensure as an apprentice or apprentice residential plumber who has completed part of apprenticeship training and instruction in another jurisdiction has the burden to demonstrate that the apprenticeship program in the other state is equivalent to an approved apprenticeship program in this state as a condition of the applicant being given credit for completion of an apprenticeship program in another state.

#### **R156-55c-501. Unprofessional Conduct.**

"Unprofessional conduct" includes:

(1) engaging in the plumbing trade as an apprentice plumber or residential apprentice plumber on a commercial or industrial project when not under the immediate supervision of a journeyman plumber;

(2) engaging in the plumbing trade as an apprentice plumber or as a residential apprentice plumber on a residential project when not under the immediate supervision of a residential journeyman or journeyman plumber, except as provided in Subsection 58-55-302(3)(c)(ii);

(3) engaging in the plumbing trade as an apprentice plumber except in accordance with instructions of the supervising plumber;

(4) acting as a journeyman plumber or residential journeyman plumber while supervising more than two apprentice plumbers;

(5) failure as a licensed plumber to carry a copy of his current plumber's license on his person or in close proximity to his person when performing plumbing work or to display that license upon request of a representative of the division or any law enforcement officer; and

(6) failure as a plumbing contractor to certify an apprentice's hours when requested by an apprentice who is or has been an employee of the plumbing contractor.

#### **R156-55c-601. Proof of Licensure.**

Each apprentice, residential apprentice, residential journeyman and journeyman plumber shall:

(1) carry on his person or in close proximity to his person his current license when he is engaged in the plumbing trade; and

(2) display his license to a representative of the division or

any law enforcement officer upon request.

**R156-60b-302e. Duties and Responsibilities of a Supervisor of Marriage and Family Therapist and Mental Health Therapy Training.**

The duties and responsibilities of a marriage and family therapist supervisor are further defined, clarified or established to provide the supervisor shall:

- (1) be professionally responsible for the acts and practices of the supervisee which are a part of the required supervised training;
- (2) be engaged in a relationship with the supervisee in which the supervisor is independent from control by the supervisee and in which the ability of the supervisor to supervise and direct the practice of the supervisee is not compromised;
- (3) be available for advice, consultation, and direction consistent with the standards and ethics of the profession and the requirements suggested by the total circumstances including the supervisee's level of training, diagnosis of patients, and other factors known to the supervisee and supervisor;
- (4) provide periodic review of the client records assigned to the supervisee;
- (5) comply with the confidentiality requirements of Section 58-60-114;
- (6) monitor the performance of the supervisee for compliance with laws, standards, and ethics applicable to the practice of marriage and family therapy and report violations to the division;
- (7) supervise only a supervisee who is an employee of a public or private mental health agency;
- (8) submit appropriate documentation to the division with respect to all work completed by the supervisee evidencing the performance of the supervisee during the period of supervised marriage and family therapist training and mental health therapist training, including the supervisor's evaluation of the supervisee's competence in the practice of marriage and family therapy and mental health therapy;
- (9) complete four hours of the required 40 hours of continuing professional education directly related to marriage and family therapy supervisor training in each two year continuing professional education period established;
- (10) supervise not more than three supervisees at any given time unless approved by the board and division;
- (11) provide at least one hour of face to face supervision for each ten hours of client contact by the supervisee.

**R156-60b-303. Renewal Cycle - Procedures.**

(1) In accordance with Subsection 58-1-308(1), the renewal date for the two-year renewal cycle applicable to licenses under Title 58, Chapter 60, is established by rule in Section R156-1-308.

(2) Renewal procedures shall be in accordance with Section R156-1-308.

**R156-60b-304. Continuing Education.**

(1) In accordance with Section 58-60-105, there is hereby established a continuing professional education requirement for all individuals licensed under Title 58, Chapter 60, Part 3, as a marriage and family therapist.

(2) During each two year period commencing September 30th of each even numbered year, a marriage and family therapist shall be required to complete not less than 40 hours of qualified professional education directly related to the licensee's

professional practice with at least 15 hours thereof being directly related to marriage and family therapy.

(3) The required number of hours of professional education for an individual who first becomes licensed during the two year period shall be decreased in a pro-rata amount equal to any part of that two year period preceding the date on which that individual first became licensed.

(4) Qualified professional education under this section shall:

(a) have an identifiable clear statement of purpose and defined objective for the educational program directly related to the practice of a mental health therapist;

(b) be relevant to the licensee's professional practice;

(c) be presented in a competent, well organized, and sequential manner consistent with the stated purpose and objective of the program;

(d) be prepared and presented by individuals who are qualified by education, training, and experience; and

(e) have associated with it a competent method of registration of individuals who actually completed the professional education program and records of that registration and completion are available for review.

(5) Credit for professional education shall be recognized in accordance with the following:

(a) unlimited hours shall be recognized for professional education completed in blocks of time of not less than one hour in formally established classroom courses, seminars, or conferences;

(b) a maximum of 14 hours per two year period may be recognized for teaching in a college or university, teaching qualified continuing professional education courses in the field of mental health therapy, or supervision of an individual completing his experience requirement for licensure in a mental health therapist license classification;

(c) a maximum of six hours per two year period may be recognized for clinical readings directly related to practice as a mental health therapist;

(6) A licensee shall be responsible for maintaining competent records of completed qualified professional education for a period of four years after close of the two year period to which the records pertain. It is the responsibility of the licensee to maintain such information with respect to qualified professional education to demonstrate it meets the requirements under this section.

(7) A licensee who documents he is engaged in full time activities or is subjected to circumstances which prevent that licensee from meeting the continuing professional education requirements established under this section may be excused from the requirement for a period of up to three years; however, it is the responsibility of the licensee to document the reasons and justify why the requirement could not be met.

#### **R156-60b-306. License Reinstatement - Requirements.**

An applicant for reinstatement of his license after two years following expiration of that license shall be required to meet the following reinstatement requirements:

(1) upon request, meet with the board for the purpose of evaluating the applicant's current ability to engage safely and competently in practice as a marriage and family therapist and to make a determination of any additional education, experience or examination requirements which will be required before reinstatement;

(2) upon the recommendation of the board, establish a plan of supervision under an approved supervisor which may include up to 4000 hours of marriage and family therapy and mental health therapy training as a marriage and family therapist-temporary;

(3) pass the Examination of Marital and Family Therapy of the American Association for Marriage and Family Therapists

if it is determined by the board that current taking and passing of the examination is necessary to demonstrate the applicant's ability to engage safely and competently in practice as a marriage and family therapist; and

(4) complete a minimum of 40 hours of professional education in subjects determined by the board as necessary to ensure the applicant's ability to engage safely and competently in practice as a marriage and family therapist.

#### **R156-60b-502. Unprofessional Conduct.**

"Unprofessional conduct" includes:

(1) acting as a supervisor or accepting supervision of a supervisor without complying with or ensuring the compliance with the requirements of Sections R156-60b-302d and R156-60b-302e;

(2) engaging in the supervised practice of mental health therapy when not in compliance with Subsections R156-60b-302b;

(3) engaging in and aiding or abetting conduct or practices which are dishonest, deceptive or fraudulent;

(4) engaging in or aiding or abetting deceptive or fraudulent billing practices;

(5) failing to establish and maintain appropriate professional boundaries with a client or former client;

(6) engaging in dual or multiple relationships with a client or former client in which there is a risk of exploitation or potential harm to the client;

(7) engaging in sexual activities or sexual contact with a client with or without client consent;

(8) engaging in sexual activities or sexual contact with a former client within two years of documented termination of services;

(9) engaging in sexual activities or sexual contact at any time with a former client who is especially vulnerable or susceptible to being disadvantaged because of the client's personal history, current mental status, or any condition which could reasonably be expected to place the client at a disadvantage recognizing the power imbalance which exists or may exist between the marriage and family therapist and the client;

(10) engaging in sexual activities or sexual contact with client's relatives or other individuals with whom the client maintains a relationship when that individual is especially vulnerable or susceptible to being disadvantaged because of his personal history, current mental status, or any condition which could reasonably be expected to place that individual at a disadvantage recognizing the power imbalance which exists or may exist between the marriage and family therapist and that individual;

(11) physical contact with a client when there is a risk of exploitation or potential harm to the client resulting from the contact;

(12) engaging in or aiding or abetting sexual harassment or any conduct which is exploitive or abusive with respect to a student, trainee, employee, or colleague with whom the licensee has supervisory or management responsibility;

(13) failing to render impartial, objective, and informed services, recommendations or opinions with respect to custodial or parental rights, divorce, domestic relationships, adoptions, sanity, competency, mental health or any other determination concerning an individual's civil or legal rights;

(14) exploiting a client for personal gain;

(15) use of a professional client relationship to exploit a person that is known to have a personal relationship with a client for personal gain;

(16) failing to maintain appropriate client records for a period of not less than ten years from the documented termination of services to the client;

(17) failing to obtain informed consent from the client or

**R162. Commerce, Real Estate.****R162-3. License Status Change.****R162-3-1. Status Changes.**

3.1. A licensee must notify the Division within ten working days of any status change. Status changes are effective on the date the properly executed forms and appropriate non-refundable fees are received by the Division. Notice must be on the forms required by the Division.

3.1.1. Change of name requires submission of official documentation such as a marriage or divorce certificate, or driver's license.

3.1.2. Change of business, home address or mailing address requires written notification. A post office box without a street address is unacceptable as a business or home address. The licensee may designate any address to be used as a mailing address.

3.1.3. Change of name of a brokerage must be accompanied by evidence that the new name has been approved by the Division of Corporations, Department of Commerce.

3.1.4. Change of Principal Broker of a real estate brokerage which is a sole proprietorship, requires closure of the registered entity. The new principal broker will activate the Registered Company and provide proof from the Division of Corporations of the authorization to use the DBA. Change cards will be required for the terminating Principal Broker, new Principal Broker and all licensees affiliated with the brokerage.

3.1.5. Change of a Principal Broker within an entity which is not a sole proprietorship requires written notice from the entity signed by both the terminating Principal Broker and the new Principal Broker.

**R162-3-2. Unavailability of Licensee.**

3.2. If a licensee is not available to properly execute the form required for a status change, the status change may still be made provided a letter advising of the change is mailed by certified mail to the last known address of the unavailable licensee. A verified copy of the letter and proof of mailing by certified mail must be attached to the form when it is submitted to the Division.

**R162-3-3. Transfers.**

3.3. Prior to transferring from one principal broker to another principal broker, the licensee must mail or deliver to the Division written notice of the change on the form required by the Division.

**R162-3-4. Inactivation.**

3.4. To voluntarily inactivate a license, the licensee must deliver or mail to the Division a written request for the change signed by both the licensee and principal broker.

3.4.1. Prior to placing his license on an inactive status, a principal broker must provide written notice to each licensee affiliated with him of that licensing status change. Evidence of that written notice must be provided to the Division in order to process the status change. The inactivation of the license of a principal broker will also cause the licenses of all affiliated licensees to be immediately inactivated if they do not transfer their licenses in accordance with R162-3.3 prior to the effective date of the principal broker's status change.

3.4.2. The non-renewal, suspension, or revocation of the license of a principal broker will cause the licenses of all affiliated licensees to be immediately inactivated if they do not transfer their licenses in accordance with R162-3.3 prior to the effective date of the principal broker's status change.

3.4.2.1. When a principal broker is notified that his license will be suspended or revoked, he must, prior to the effective date of the suspension or revocation, provide written notice to each licensee affiliated with him of that status change. In addition, the Division shall send written notice to each sales agent,

associate broker, or branch broker of the effective date of inactivation and the process for transfer.

3.4.3. The principal broker may involuntarily inactivate the license of the sales agent or associate broker by complying with R162-3.2.

**R162-3-5. Activation.**

3.5. All licensees changing to active status must submit to the Division the applicable non-refundable activation fee, a request for activation in the form required by the Division, and, if the license was on inactive status at the time of last license renewal, proof of completion of the examination within six months prior to applying to activate or proof of completion of the 12 hours of continuing education that the licensee would have been required to complete in order to renew on active status. If a licensee last renewed on inactive status and applies to activate the license at the time of license renewal, the licensee shall be required to complete the 12 hours of continuing education required to renew but shall not be required to complete additional continuing education in order to activate the license.

3.5.1 Continuing Education for Activation. Courses that have been approved by the Division for continuing education purposes in the following topics will be acceptable toward the continuing education required for activation: agency, contract law, the Real Estate Purchase Contract and other state-approved forms, ethics, Utah law, and closing/settlement.

3.5.1.1 To qualify as continuing education for activation, all courses submitted must have been completed within one year before activation.

3.5.1.2 Continuing education that was submitted to activate a license may not be used again toward the continuing education required on the licensee's next renewal.

**R162-3-6. Renewal and Reinstatement.**

3.6.1 A license renewal notice shall be sent by the Division to the licensee at the mailing address shown on the division records. The renewal notice shall specify the requirements for renewal and shall require that the licensee document or certify that the requirements have been met. The licensee must apply to renew and pay all applicable fees on or before the expiration shown on the notice. Renewal of an active Principal Broker license requires certification in the form required by the division that the business name under which the licensee is operating is still current and in good standing with the Division of Corporations and that all real estate trust accounts are current.

3.6.1.1 Continuing education requirement. All licensees with active licenses who are applying to renew shall have completed the 12 hours of approved continuing education required by Section 61-2-9 prior to submitting their applications for renewal.

3.6.1.1.1 Continuing education requirement for new licensees. During a licensee's first license term, the licensee's 12-hour continuing education requirement shall consist of the Division's 3-hour "Core Course" and a 9-hour live "New Agent Course." The Commission shall approve a standard course outline for the "New Agent Course."

3.6.1.2 Applications filed by mail. The division will consider a properly completed application that has been postmarked on or before the expiration date shown on the renewal notice to have been timely filed.

3.6.1.3 Documentation of continuing education. Any licensee who renews on-line on the division's web site and certifies that the required continuing education has been completed shall maintain the original course completion certificates supporting that certification for three years following renewal. The licensee shall produce those certificates for audit upon request by the division.

3.6.1.4 Misrepresentation on application. Any misrepresentation in an application for renewal will be considered a separate violation of these rules and separate grounds for disciplinary action against the licensee, regardless of whether the application is filed with the division by mail or in person, or made on-line.

3.6.2. A license expires if it is not renewed on or before its expiration date. When an active license expires, the licensee's affiliation with a principal brokerage automatically terminates.

3.6.3 The license may be renewed for a period of thirty days after the expiration date by meeting all of the conditions for renewal and, in addition, paying a non-refundable late fee, and, if the licensee will be actively licensed, submitting the forms required by the Division to activate a license.

3.6.4. After this 30-day period and until six months after the expiration date the license may be reinstated by meeting all of the conditions for renewal and, in addition: a) paying a non-refundable late fee and a non-refundable reinstatement fee; b) submitting proof of the 12 hours of continuing education that is required to renew a license and the 12 additional hours of continuing education required by Section 61-2-9(2)(c)(ii); and c) if the licensee will be actively licensed, submitting the forms required by the Division to activate a license.

3.6.4.1 Additional Continuing Education Hours for Reinstatement. Courses that have been approved by the Division for continuing education purposes in the following topics will be acceptable toward the additional 12 hours of continuing education required for reinstatement by Section 61-2-9(2)(c)(ii): agency, contract law, the Real Estate Purchase Contract and other state-approved forms, ethics, Utah law, and closing/settlement.

3.6.4.1.1 Continuing education hours that are submitted to reinstate a license may not be the same continuing education hours that were submitted toward a licensee's prior renewal. Continuing education hours that are submitted to reinstate a license may not be used again toward the continuing education required on the licensee's next renewal.

3.6.5. If the licenses of licensees affiliated with a principal broker are inactivated because of the principal broker's failure to renew his license when due, the failure to renew the license in a timely manner shall be separate grounds for disciplinary action against the principal broker.

3.6.6. If the Division has received a licensee's application for renewal in a timely manner but the information is incomplete, the division may grant the licensee a 15-day grace period to complete the application, during which time the division shall extend the license.

3.6.7. Education credit will be given for a course taken in another state provided the course has been certified for continuing education purposes in another state. These courses shall meet the Utah requirement of protection of the public, except that credit will not be given for education where the subject matter pertains to another state's license laws.

3.6.7.1. Prior approval must be obtained from the division before credit will be granted. Evidence must be provided to the Division that the course was certified by another licensing jurisdiction at the time the course was taken.

**R182. Community and Culture, Administration.****R182-1. Government Records Access And Management Act Rules.****R182-1-1. Purpose.**

The purpose of the following rule is to provide procedures for access to government records.

**R182-1-2. Authority.**

The authority for the following rule is Section 63-2-204 and Section 63-2-904 of the Government Records Access and Management Act (GRAMA), effective July 1, 1992.

**R182-1-3. Allocation of Responsibility within DCC.**

DCC and its agencies shall be considered a single government entity and the Executive Director of DCC or designee shall be considered the chief administrative officer of DCC and its agencies for purposes of Section 63-2-401.

**R182-1-4. Requests for Access.**

(1) Requests for access to government records of the Department of Community and Culture (DCC) and its agencies must be made in writing. Except as provided for in Subsection R182-1-4(1)(a) below, record access requests must be directed to the records officer of the DCC agency holding the requested record. The response to a request may be delayed if not properly directed. See Subsections 63-2-204(2), (6). Record access requests must be directed as set forth below:

**R182-1-5. Fees.**

A fee schedule for the direct and indirect costs of duplicating or compiling a record may be obtained from DCC by contacting Executive Assistant to the Executive Director, DCC Administration, located at the DCC Administrative Office in Salt Lake City. DCC and its agencies may require payment of past fees and future estimated fees before beginning to process a request if fees are expected to exceed \$50.00 or if the requester has not paid fees from previous requests.

**R182-1-6. Waiver of Fees.**

Fees for duplication and compilation of a record may be waived under certain circumstances described in Subsection 63-2-203(3). Requests for waiver of fees are made to DCC Executive Assistant to the Executive Director, located at the DCC Administrative Office in Salt Lake City.

**R182-1-7. Request for Access for Research Purposes.**

Access to private or controlled records for research purposes is allowed by Subsection 63-2-202(8). Requests for access to such records for research purposes may be made directly to the records officer of the DCC agency from which the record is sought as set forth in R182-1-4.

**R182-1-8. Requests for Records Containing Intellectual****Property Rights.**

If the department owns an intellectual property right contained within records being requested, it shall duplicate and distribute such materials in accordance with Subsection 63-2-201(10). Initial decisions with regard to these rights will be made by the records officer of the DCC agency from which the record is sought as set forth in R182-1-4.

**R182-1-9. Requests to Amend a Record.**

(1) An individual may contest the accuracy or completeness of a document pertaining to him pursuant to Section 63-2-603. All such requests to amend a record shall be made in writing and include the following: 1) the requester's name, mailing address, and daytime telephone number; and 2) a brief statement explaining why DCC should amend the record. Such requests shall be made and directed to the appropriate DCC agency director as set forth below:

(a) Requests to amend records held by DCC Administration or by DCC agencies not specifically referenced below shall be addressed to the Executive Director, located at the DCC Administrative Office in Salt Lake City.

(b) Requests to amend records held by the following listed DCC agencies shall be addressed to the Executive Director, located at the main Salt Lake City office of the applicable agency:

(i) Housing and Community Development;

(ii) Office of Ethnic Affairs, which includes Asian Affairs, Black Affairs, Hispanic/Latino Affairs, and Pacific Island Affairs;

(iii) Division of Arts and Museums;

(iv) Division of Indian Affairs;

(v) Division of State History; and

(vi) Division of State Library.

(2) Adjudicative proceedings resulting from requests to amend a record shall be conducted informally. Pursuant to Section 63-46b-5, the following procedures are established by rule to govern such proceedings:

(a) The Director of a DCC agency may delegate the responsibility to respond to a request to amend a record.

(b) An individual making a request to amend a record may also request a meeting to present information or evidence. The agency Director, or designee, receiving the request shall determine whether a meeting with the petitioner will be required to fairly respond to the request.

(c) The Director, or designee, receiving a request to amend a record shall respond to the request in writing within a reasonable time following receipt of the request. In the event a meeting with the petitioner is necessary to fairly evaluate the merits of a request, a written response shall be made within a reasonable time following the conclusion of any such meeting. The response shall contain the following information:

(i) The decision reached.

(ii) The reasons for the decision.

(iii) A notice of the requester's right to appeal to the Executive Director of DCC, or designee, within 30 days of the date of the response, pursuant to Section 63-46b-12.

**R182-1-10. Appeals to Agency Head.**

Review of an order denying a request to amend a record may be taken to the Executive Director of DCC, or designee, located at the DCC Administrative Office in Salt Lake City. Such review shall be conducted pursuant to the procedures outlined in Section 63-46b-12 of the Utah Code.

**R182-1-11. Time Periods Under GRAMA.**

The provisions of Rule 6 of the Utah Rules of Civil Procedure shall apply to calculate time periods specified in GRAMA.

**R182-1-12. Forms.**

(1) All forms described in this Section are available from the records officer of the DCC agency from which the record is sought as set forth in R182-1-4. The forms described as follows or a document prepared by the requester containing substantially similar information to that requested in the DCC forms, shall be completed by requester in connection with records requests:

(a) DCC Record Access Request form is for use by all entities requesting records from DCC or its agencies. This form is intended to assist entities, who request records, to comply with the requirements of Subsection 63-2-204(1) regarding the contents of a request. If a request is made through a written document other than a completed DCC Record Access Request form, the document must be legible and include the following information: the requester's name; mailing address; daytime telephone number (if available); a description of the records requested that identifies the record with reasonable specificity; and if the request is for a record which is not public, information regarding the requester's status.

(b) DCC Request For Protected Record Status form is for use by all entities providing records to DCC or its agencies. This form is intended to comply with the Section 63-2-308 regarding business confidentiality claims. If a request for protected records status is made through a written document other than a DCC Request For Protected Record Status form, the document must contain a claim of business confidentiality and a concise statement of reasons supporting the claim of business confidentiality.

(c) DCC Disclosure and Agreement form is for use when another government entity, political subdivisions of the state and their designated economic development agencies request controlled, private or protected records from DCC or its agencies, pursuant to Subsection 63-2-206(5). This form discloses to the government entity certain information regarding restrictions on access, and obtains the written agreement of the entity to abide with those restrictions.

(d) DCC Certification by Requesting Government Entity form is for use by another government entity requesting controlled or private records from DCC or its agencies, pursuant to Subsection 63-2-206(2). This form requires the information found in the DCC Record Access Request form, as well as certain representations required from the government entity, if the information sought is not public.

(2) DCC or its agencies may use forms to respond to requests for records.

(11) Personal property such as purses, wallets, keys, blankets, coats and sweaters worn as outer garments, and money (except for vending machine change in facilities which allow them) are not allowed in the visiting room.

(12) Visitors with babies may bring into the visiting area infant care items that are reasonably needed during the visit. Staff shall accommodate personal need items that do not present a threat to the safety and security of the inmates, staff, and the institution.

(13) The UDC shall not be responsible for loss of personal property. Visitors may secure items in UDC lockers where available.

(14) Visitors shall not be permitted to visit during any scheduled visiting period if less than 30 minutes remain in the visiting period.

**R251-706-4. Uinta Visiting.**

Visitors to the Uinta facility may be required to have additional clearances by the warden/designee or unit manager, prior to visiting the facility.

**R251-706-5. Processing Visiting Application.**

(1) A visiting application shall be completed by inmates who wish to have a visitor. It is the inmate's responsibility to ensure that the visiting application information is complete and approved by facility visiting staff prior to the first visit.

(2) Visiting applications shall be checked by facility visiting staff through BCI, NLETS, DMV and local wants and warrants prior to the applicant being considered for visitation privileges.

(3) Visiting applications shall be denied by the captain/designee if there is reason to believe that visits would jeopardize the safety, security, management or control of the Institution.

(4) Applications may be denied when an extensive or recent history of criminal activity exists, or the visitor has:

- (a) transported contraband into or out of a correctional facility;
- (b) aided or attempted to aid in an escape from a jail or correctional facility;
- (c) been a crime partner of the inmate applicant; or
- (d) been under the supervision of UDC for a felony offense.

(5) Visiting application denials may be challenged by visitor applicants through the deputy warden/designee. If the visitor applicant is not satisfied with the deputy warden/designee decision, a second appeal may be made to the warden/designee.

(6) Except for spouses, visitors under 18 years of age shall be accompanied by their parent or legal guardian on the inmate's approved visiting list.

(7) Visitors 16 years of age and older shall present positive identification prior to being permitted to visit.

(8) An individual may not be on more than one inmate's visiting list unless that individual is a member of the immediate family of all inmates involved and is approved as a visitor by the warden/designee.

(9) Adoptions, marriages, or other methods of claiming legal relationships, performed for the purpose of circumventing existing visiting policies shall be considered invalid.

(10) Visitors may have their names removed from any visiting list by sending a written request to the facility visiting staff.

(11) Visitors removed from a visiting list at the written request of an inmate or visitor shall not be reinstated for a 90-day period without prior approval of the facility visiting staff.

(12) Except for members of the inmate's immediate family, only one single adult visitor of the opposite sex shall be permitted to be on the visiting list of any one inmate at any given time.

(13) Divorced visitors shall provide proof of divorce to the facility visiting staff before being allowed to visit an inmate of the opposite sex.

(14) Except for members of the inmate's immediate family, married persons visiting inmates of the opposite sex shall be accompanied by one or more of the following, who shall remain with the visitor for the duration of the visit:

- (a) visitor's spouse who is on approved visiting list;
- (b) inmate's spouse;
- (c) inmate's parent or
- (d) other persons approved by the facility visiting staff.

#### **R251-706-6. Visitor Suspensions.**

(1) A visit may be suspended, restricted or revoked for dress code violation, foul and abusive language/conduct, or refusal to comply with DIO policies or procedures, or when necessary to meet safety, security, management or control requirements of the Utah State Prison.

(2) The facility visiting staff may suspend, restrict or revoke visits if the behavior of the visitor or inmate jeopardizes the safety, security, management or control of the institution.

(3) If a visit is suspended, restricted, or revoked the facility visiting staff shall document the action by providing notification of the rules infraction to the inmate, visitor, inmate's OMR, and duty officer. The inmate's OMR may review the documentation and make decisions regarding visiting to the visiting staff

members for modification of the suspension, restriction, or revocation. The inmate may appeal suspensions, restrictions, or revocations by submitting a written request to the warden/designee.

(4) Visiting privileges may be permanently revoked or altered as follows:

(a) visitors who bring drugs into the institution may be permanently barred from visiting; and

(b) inmates guilty of attempting to introduce drugs, weapons or contraband money to the institution through the visiting process may be placed on barrier visits.

(5) Barrier visits may be required for inmates when:

(a) visitors have not been in compliance with visiting regulations on prior occasions and have been warned or required to leave the visiting area;

(b) inmates are classified as Level 1 or 2;

(c) inmates or visitors have been suspected or attempted to introduce contraband into a correctional facility;

(d) inmates have been convicted of disciplinary infraction A13 (Possession, introduction or use of any unauthorized intoxicants, unauthorized drugs or drug paraphernalia, positive urinalysis, breath analysis, blood test, or refusal to submit to the same; or

(e) inmate or visitor behavior, or a recent history of behavior is a threat to the safety and security of the inmates, visitors, staff and the institution.

#### **R251-706-7. Sex Offender Visiting.**

(1) Inmates identified as sex offenders by R and O or visiting staff members may be restricted from visits with minors as follows:

(a) inmates shall not visit with minors identified as the victim of the inmate;

(b) inmates with a documented history of sexual misconduct with a child under the age of 18 years shall not visit with any minor while incarcerated;

(c) court orders or Board of Pardons and Parole orders regarding contact or non-contact between inmates and minors will be enforced;

(d) inmates may appeal visiting restrictions with minors by written appeal to the warden/designee; or

(e) visits between inmates and minors for therapeutic or clinical reasons may be approved on an individual visit basis by the warden/designee.

#### **R251-706-8. Special Visits.**

Requests for special visits or emergency visits from individuals not on an approved visiting list may be approved or denied for reasonable cause by the warden/designee.

**R277-419-2. Authority and Purpose.**

A. This rule is authorized under Utah Constitution Article X, Section 3 which vests general control and supervision over public education in the State Board of Education, by Section 53A-1-401(3) which allows the Board to make rules in accordance with its responsibilities, Section 53A-1-402(1)(e) which directs the Board to establish rules and standards regarding cost-effectiveness, school budget formats and financial, statistical, and student accounting requirements, and Section 53A-1-404(2) which directs that local school board auditing standards shall include financial accounting and student accounting. This rule is further authorized by Section 53A-1-301(3)(d) which directs the Superintendent to present to the Governor and the Legislature data on the funds allocated to school districts, and Section 53A-3-404 which requires annual financial reports from all school districts.

B. The purpose of this rule is to specify pupil accounting procedures used in apportioning and distributing state funds for education.

**R277-419-3. Minimum School Days, LEA Records, and Audits.**

A. Minimum standards for school days

(1) LEAs shall conduct school for at least 990 instructional hours and 180 school days each school year; exceptions to the number of days for individual students and schools are provided for in R277-419-7.

(2) The required days and hours may be offered at any time during the school year, consistent with the law.

(3) Minimum standards shall apply to all public schools in all settings unless Utah law or this rule provides for specific exceptions.

B. Official records

(1) To determine student membership, LEAs shall ensure that records of daily student attendance are maintained in each school which clearly and accurately show for each student the:

(a) entry date;

(b) exit date;

(c) exit or high school completion status;

(d) whether or not an absence was excused; and

(e) disability status (resource or self-contained, if

applicable).

(2)(a) Computerized or manually produced records for Career and Technical Education (CTE) programs shall be kept by teacher, class and Classification of Instructional Program (CIP) code.

(b) These records shall clearly and accurately show for each student in a CTE class the:

- (i) entry date;
- (ii) exit date; and
- (iii) excused or unexcused status of absence.

(3) A minimum of one attendance check shall be made by each public school each school day.

C(1) Due to school activities requiring schedule and program modification during the first days and last days of the school year, an LEA may report for the first five days, aggregate days of membership equal to the number recorded for the second five-day period of the school year.

(2) For the last three-day period, an LEA may report aggregate days of membership equal to the number recorded for the immediately preceding three-day period.

(3) Schools shall continue instructional activities throughout required calendared instruction days.

#### D. Audits

(1) An independent auditor shall be employed under contract by each LEA to audit its student accounting records annually and report the findings to the LEA board of education and to the Finance and Statistics Section of the USOE;

(2) Reporting dates, forms, and procedures are found in the State of Utah Legal Compliance Audit Guide, provided to LEAs by the USOE in cooperation with the State Auditor's Office and published under the heading of APP C-5;

(3) The USOE shall review student membership and fall enrollment audits as they relate to the allocation of state funds and may periodically or for cause review LEA records and practices for compliance with the laws and this rule.

### R277-419-4. Student Membership.

#### A. Eligibility

(1) In order to generate membership for funding through the MSP for any clock hour of instruction on any school day, a student shall:

(a) not have previously earned a basic high school diploma or certificate of completion;

(b) not be enrolled in a YIC program with a YIC service code other than RSM, ISI-1 or ISI-2;

(c) not have unexcused absences on all of the prior ten consecutive school days;

(d) be a resident of Utah as defined under Sections 53A-2-201 through 213;

(e) be of compulsory school age or a retained senior;

(f)(i) be expected to attend a regular learning facility operated or recognized by the LEA on each regularly scheduled school day; or

(ii) have direct instructional contact with a licensed educator provided by the LEA at an LEA-sponsored center for tutorial assistance or at the student's place of residence or convalescence for at least 120 minutes each week during an expected period of absence, if physically excused from such a facility for an extended period of time, due to:

(A) injury, illness, surgery, suspension, pregnancy, pending court investigation or action; or

(B) an LEA determination that home instruction is necessary.

(2) Students may generate MSP funding by participation in an LEA-sponsored or LEA-supported virtual education program other than the Utah Electronic High School that is consistent with the student's SEOP, has been approved by the student's counselor, and includes regular face-to-face instruction or facilitation by a designated employee of the LEA.

#### B. Reporting

(1) LEAs shall report aggregate membership for each student via the School Membership field in the S1 record and special education membership in the SCRAM Membership field in the S2 record of the Year End upload of the Data Clearinghouse file.

(2) In the Data Clearinghouse, aggregate membership shall be expressed in days.

(3) YIC membership for traditional and special education students shall be reported via YICSIS, but special education membership for YIC students shall be reported via the Data Clearinghouse.

#### C. Calculations

(1) If a student was enrolled for only part of the school day or only part of the school year, the student's membership shall be prorated according to the number of hours, periods or credits for which the student actually was enrolled in relation to the number of hours, periods or credits for which a full-time student normally would have been enrolled. For example:

(a) If the student was enrolled for 4 periods each day in a 7 period school day for all 180 school days, the student's aggregate membership would be 4/7 of 180 days or 103 days.

(b) If the student was enrolled for 7 periods each day in a 7 period school day for 103 school days, the student's membership would also be 103 days.

(2) For students in grades 2 through 12, days in membership shall be calculated by the LEA using a method equivalent to the following: total clock hours of instruction for which the student was enrolled during the school year divided by 990 hours and then multiplied by 180 days and finally rounded up to the nearest whole day. For example, if a student was enrolled for only 900 hours during the school year, the student's aggregate membership would be  $(900/990)*180$ , and the LEA would report 164 days.

(3) For students in grade 1, the first term of the formula shall be adjusted to use 810 hours as the denominator.

(4) For students in kindergarten, the first term of the formula shall be adjusted to use 450 hours as the denominator.

#### D. Constraints

(1) The sum of regular and self-contained special education membership days may not exceed 180 days;

(2) The sum of regular and resource special education membership days may not exceed 360 days.

#### E. Exceptions

LEAs may also count a student in membership for the equivalent in hours of up to:

(1) one period each school day, if the student has been:

(a) released by school upon parent's request during the school day for religious instruction or individual learning activity consistent with the student's SEOP; or

(b) exempted from school attendance under 53A-11-102 for home schooling and participates in one or more extracurricular activities under R277-438;

(2) two periods each school day for time spent in bus travel during the regular school day to and from UCAT facilities, if the student is enrolled in CTE instruction consistent with the student's SEOP;

(3) four periods each school day, if the student is enrolled in a YIC program with a YIC secure service code of ISI-2. State-funded YIC programs operating in facilities that provide residential care may receive funding for a maximum of 205 days, with prior USOE approval;

(4) all periods each school day, if the student is enrolled in:

(a) a concurrent enrollment program that satisfies all the criteria of R277-713;

(b) a private school without religious affiliation under a contract initiated by an LEA which directs that the instruction be paid by public funds. Contracts shall be approved by the

LEA board in an open meeting.

(c) a foreign exchange student program under 53A-2-206(2)(i)(B).

(d) Electronic High School or UCAT classes for credit which meet curriculum requirements, consistent with the student's SEOP and following written school counselor approval.

(e) a school operated by an LEA under a Utah Schools for the Deaf and the Blind IEP:

(i) students may only be counted in (S1) membership and shall not have an S2 record;

(ii) the S2 record for these students shall only be submitted by the Utah Schools for the Deaf and the Blind.

#### **R277-419-5. High School Completion Status.**

A. LEAs shall use the following decision rules and associated codes in the Data Clearinghouse to indicate the high school completion or exit status of each student who leaves the Utah public education system:

(1) dropped out (DO), when no other status code legitimately represents the reason for departure or absence from school;

(2) died (DE);

(3) expelled (EX);

(4) graduated with a high school diploma, (G\*) by satisfying one of the options specified in R277-705-4B;

(5) received a certificate of completion (CT):

(a) to qualify for a certificate, a student shall be in membership in twelfth grade on the last day of the school year; and

(b) meet any additional criteria established by the LEA consistent with its authority under R277-705-4C;

(6) suspended (SU);

(7) transferred out of state (TO);

(8) transferred out of the country (TC);

(9) transferred to a private school (TP);

(10) transferred to home schooling (TH);

(11)(a) U.S. citizen who enrolled in another country as a foreign exchange student (FE);

(b) non-U.S. citizen who enrolled in a Utah public school as a foreign exchange student under Section 53A-2-206(2)(i)(B) shall be identified by resident status (F), not by an exit code;

(12) withdrawn (WD) due to a situation so serious that educational services cannot be continued even under the conditions of R277-419-4(A)(1)(f)(ii).

B. LEAs shall report the high school completion status or exit code of each student to the USOE as specified in Data Clearinghouse documentation.

#### **R277-419-6. Student Identification and Tracking.**

A(1) Pursuant to Section 53A-1-603.5, LEAs shall use the SSID system maintained by the USOE to assign every public school student a unique student identifier; and

(2) shall display the SSID on student transcripts exchanged with LEAs and Utah public institutions of higher education.

B(1) LEAs shall require all students to provide their legal first, middle, and last names at the time of registration to ensure that the correct SSID follows students who transfer among LEAs.

(2)(a) Names shall be transcribed from the student's birth certificate or other reliable proof of the student's identity and age, consistent with Section 53A-11-503;

(b) The direct transcription of student names from birth certificates or other reliable proof of student identity and age shall be the student's legal name for purposes of maintaining school records; and

(c) Schools or school districts may modify the order of student names, provide for nicknames, or allow for different surnames, consistent with court documents or parent

preferences, so long as legal names are maintained on student records and used in transmitting student information to the USOE.

C. The USOE and LEAs shall track students and maintain data using students' legal names.

D. If there is a compelling need to protect a student by using an alias, the LEA should exercise discretion in recording the name of the student.

E. The SSID shall be an arbitrary number and may not contain any personally identifying information about the student.

#### **R277-419-7. Variances.**

A. An exception for school attendance for public school students may be made at the discretion of the local board, in the length of the school day or year, for students with compelling circumstances. The time an excepted student is required to attend school shall be established by the student's IEP or SEOP.

B. Emergency/activity/weather-related exigency time shall be planned for in an LEA's annual calendaring. If school is closed for any reason, the instructional time missed shall be made up under the emergency/activity time as part of the minimum required time to qualify for full MSP funding.

C. Staff Planning, Professional Development, Student Assessment Time, and Parent-Teacher and Student Education Plan (SEP) Conferences.

(1) To provide planning and professional development time for staff, LEAs may hold school longer some days of the week and shorter other days so long as minimum school day requirements, as provided for in R277-419-1M, are satisfied.

(2) Schools may conduct parent-teacher and student education plan conferences during the school day.

(3) Such conferences may only be held for a total of the equivalent of three full school days or a maximum of 16.5 hours for the school year. Student membership for professional development or parent-teacher conference days shall be counted as that of the previous school day.

(4) LEAs may designate no more than 12 instructional days at the beginning of the school year or at the end of the school year or both for the assessment of students entering or completing kindergarten. If instruction days are designated for kindergarten assessment:

(a) the days shall be designated by the LEA board in an open meeting;

(b) adequate notice and explanation shall be provided to kindergarten parents well in advance of the assessment period;

(c) assessment shall be conducted by qualified school employees consistent with Section 53A-3-410; and

(d) assessment time per student shall be adequate to justify the forfeited instruction time.

(5) The final decision and approval regarding planning time, parent-teacher and SEP conferences rests with the local board of education, consistent with Utah law and Board administrative rules.

(6) Total instructional time and school calendars shall be approved by local boards in an open meeting.

D. A school participating in the School Professional Development Days Pilot Program, consistent with R277-418, may use a maximum of 22 hours of the 990 hours of student instructional time required under R277-419-3A(1) for professional development days. Use of this time, consistent with R277-418, requires prior Board approval.

E. A school using a modified 45-day 15-day year round schedule initiated prior to July 1, 1995 shall be considered to be in compliance with this rule if a school's schedule includes a minimum of 990 hours of instruction time in a minimum of 172 days.

**R277. Education, Administration.****R277-422. State Supported Voted Leeway, Local Board-Approved Leeway and Local Board Leeway for Reading Improvement Programs.****R277-422-1. Definitions.**

A. "Ad valorem property tax" means a tax based on the assessed value of real estate or personal property.

B. "Board" means the Utah State Board of Education.

C. "Voted leeway program" or "state-supported voted leeway program" means a state-supported program in which a property tax levy approved under Section 53A-17a-133 is authorized to cover a portion of the costs within the general fund of the state-supported minimum school program in a district.

D. "Local board leeway program" or "local board-approved leeway program" means a state-supported program in which a local board authorizes a property tax levy under Section 53A-17a-134 to cover a portion of the costs within the school district general fund of the state-supported minimum school program. The levy may require voter approval under Section 53A-17a-134(4). These funds shall be spent for class size reduction or other purposes in a district if the local board determines that the average class size in the school district is not excessive.

E. "Local board" means the school board members elected to govern a school district.

F. "Local board leeway for reading improvement" means a local board leeway program in which a local board authorizes a property tax levy under Section 53A-17a-151 to cover a portion of the costs of a school district K-3 Reading Improvement Program established in Section 53A-17a-150.

G. "State-supported" means a formula-based state contribution of money to the voted leeway program and the board-approved leeway program as defined in Section 53A-17a-133(3) and Section 53A-17a-134(2).

**R277-422-2. Authority and Purpose.**

A. This rule is authorized by Utah Constitution Article X, Section 3 which vests general control and supervision of public education in the Board, Section 53A-1-402(1)(e) which directs the Board to establish rules for school productivity and cost effectiveness measures, federal programs, school budget formats, and financial, statistical, and student accounting requirements, and Section 53A-1-401(3) which allows the Board to adopt rules in accordance with its responsibilities.

B. The purpose of this rule is to specify requirements, timelines, and clarifications for the state-supported voted, local board-approved, and local board leeway for reading improvement programs.

**R277-422-3. Requirements and Timelines for State-Supported Voted Leeway.**

A. A local board may establish a state-supported voted leeway program following an election process that approves a special tax. The election process is provided for under Section 53A-17a-133(2).

B. Local boards which have approved voted leeway programs since 1965 may set an annual fiscal year fixed tax rate levy for the voted leeway equal to or less than the levy authorized by the election.

C. Effective January 1, 2007, a school district may budget an increased amount of ad valorem property tax revenue from a voted leeway in addition to revenue from new growth without required compliance with the advertisement requirements if the voted leeway is or was approved:

(1) on or after January 1, 2003; and

(2) within the four-year period immediately preceding the year in which the school district seeks to budget an increased amount of ad valorem property tax.

D. Effective January 1, 2007, a school district may levy a

tax rate without having to comply with the advertisement requirements of Sections 59-2-918 and 919 if:

(1) the levy exceeds the certified tax rate as the result of a school district budgeting an increased amount of ad valorem property tax derived from a voted leeway;

(2) the voted leeway was approved on or after January 1, 2003; and

(3) the voted leeway was approved within the four-year period immediately preceding the year in which the school district seeks to budget an increased amount of ad valorem property tax revenue derived from the voted leeway.

E. An election to consider adoption or modification of a state-approved voted leeway program is required.

F. A local board may continue an existing state-supported voted leeway program despite a majority vote opposing a modification of the state-supported voted leeway program.

G. If adoption of a voted leeway program is contingent upon an offset reduction of other local board tax levies, the local board shall allow the electors, in an election, to reconsider modifying or discontinuing the voted leeway program prior to a subsequent increase in the certified tax rate as set by the local board.

H. The state provides state guarantee funds to support the district state-supported voted leeway according to the amount specified in Section 53A-17a-133(3) and the local board-approved leeway according to the amount specified in Section 53A-17a-134(2).

I. State and local funds received by a local board under the state-supported voted leeway program are unrestricted revenue and may be budgeted and expended within the school district's general fund as authorized by the local board.

J. In order to receive state support for an initial or subsequent increase in a voted leeway tax rate, a local board shall receive voter approval no later than December 1 prior to the commencement of the fiscal year of implementation of that initial or additional voted leeway tax rate.

K. If a school district qualifies for state support the year prior to an increase in its existing voted leeway tax levy; and:

(1) receives voter approval for an increase after December 1, and

(2) intends to levy the additional rate for the fiscal year starting the following July 1, then

(3) the district shall only receive state support for the existing voted leeway tax rate and not the additional voter-approved tax rate for the fiscal year commencing the following July 1, and

(4) shall receive state support for the existing and additional voter-approved tax rate for each year thereafter, as long as the district qualifies to receive state support.

**R277-422-4. Local Board-Approved Leeway Requirements and Timelines.**

In order to receive state support for an initial or subsequent increase in a board-approved leeway tax rate, a local board shall approve the tax rate no later than April 1 prior to the commencement of the fiscal year of implementation of that initial or additional board leeway tax rate.

**R277-422-5. Optional Reading Improvement Levy Requirements and Timelines.**

A. Local funds received by a local board under the local board leeway for reading improvement tax levy shall be used for funding the school district's K-3 Reading Improvement Program.

(1) This levy is in addition to any other tax levy or maximum tax rate; and

(2) does not require voter approval; and

(3) may be modified or terminated by a majority vote of the local board.

(4) The local board leeway for reading improvement is not a state-supported levy.

B. A local board shall establish its optional board leeway for reading improvement levy by June 1 to have the levy apply to the fiscal year beginning July 1 in that same calendar year.

C. If after 36 months of K-3 Reading Improvement Program operation, a school district fails to meet the goals stated in the district's plan for student reading proficiency improvement, as measured by gain scores, the local board shall at the next possible tax rate setting opportunity terminate its board leeway for reading improvement tax levy.

D. School districts that fail to reach their reading goals shall terminate their levy under Section 53A-17a-150(15). After a period of no less than one year, school districts that terminated their levy may present a new or revised K-3 Reading Initiative plan to the Board. Following approval by the Board, the local board may reinstate the levy at the next possible tax rate setting opportunity.

**R277-422-6. Tax Rate Setting Schedule.**

Districts shall submit all approved tax levies to county auditors before the second Tuesday in August.

**R277. Education, Administration.****R277-470. Charter Schools.****R277-470-1. Definitions.**

A. "Board" means the Utah State Board of Education.

B. "Charter schools" means schools acknowledged as charter schools by local boards of education under Section 53A-1a-515 and this rule or by the Board under Section 53A-1a-505.

C. "Charter school application" means the official chartering document by which a prospective charter school seeks recognition and funding under Section 53A-1a-505. The application includes the basic elements of the charter between the charter school and the chartering board.

D. "Charter school deficiencies" means the following information:

(1) a charter school is not satisfying financial obligations as required by Section 53A-1a-505 in the charter school's written contractual agreement;

(2) a charter school is not providing required documentation following reasonable warning;

(3) compelling evidence of fraud or misuse of funds by charter board members or employees.

E. "Days" means calendar days, unless specifically designated.

F. "Expansion" means a proposed increase of students or grade level(s) in an operating charter school at a single location.

G. "Founding member" means an individual who has had a significant role in the development of the charter school application.

H. "Local education agency (LEA)" means a local board of education, combination of school districts, other legally constituted local school authority having administrative control and direction of free public education within the state, or other entities as designated by the Board, and includes any entity with state-wide responsibility for directly operating and maintaining facilities for providing free public education.

I. "No Child Left Behind (NCLB)" means the federal law under the Elementary and Secondary Education Act, Title IX, Part A, 20 U.S.C. 7801.

J. "On-going funds" means funds that are appropriated annually by the Legislature with the expectation that the funds shall continue to be appropriated annually.

K. "State Charter School Board" means the board designated in Section 53A-1a-501.5.

L. "USOE" means the Utah State Office of Education.

M. "Weighted Pupil Unit (WPU)" means the unit of measure that is computed in accordance with the Minimum School Program Act for the purpose of distributing revenue on a uniform basis for each pupil.

**R277-470-2. Authority and Purpose.**

A. This rule is authorized under Utah Constitution Article X, Section 3 which vests general control and supervision over public education in the Board, Section 53A-1a-513 which directs the Board to adopt rules for charter school funding and fund distribution, Section 53A-1-401(3) which allows the Board to adopt rules in accordance with its responsibilities, and 20 U.S.C., Section 8063(3) which directs the Board to submit specific information prior to charter schools' receipt of federal funds.

B. The purpose of this rule is to establish procedures for authorizing, funding, and monitoring charter schools and for repealing charter school authorizations. The rule also establishes timelines as required by law to provide for adequate training for beginning charter schools and to ensure parent involvement on charter school boards.

**R277-470-3. Charter School Orientation and Training.**

A. Beginning with the 2006-2007 school year, all charter school applicants shall attend orientation/training sessions

designated by the State Charter School Board.

B. Orientation meetings shall be scheduled at least quarterly and be held regionally or be available electronically, as determined by the State Charter School Board.

C. Charter schools and applicants that attend orientation/training sessions shall be eligible for additional funds, upon approval, in an amount to be determined by the State Charter School Board provided through federal charter school funds or a General Fund appropriation to the extent of funds available. Charter school applicants that attend training and orientation sessions may receive priority for approval from the State Charter School Board and the Board.

D. Orientation/training sessions shall provide information including:

(1) charter school implementation requirements;

(2) charter school statutory and Board requirements;

(3) charter school financial and data management requirements;

(4) charter school legal requirements;

(5) federal requirements for charter school funding; and

(6) other items as determined by the State Charter School Board.

**R277-470-4. Timelines - Charter School Starting Date.**

A. The State Charter School Board shall accept a proposed starting date from a charter school applicant, or the State Charter School Board shall negotiate and recommend a starting date prior to recommending final charter approval to the Board.

B. A local or state-chartered school shall be approved by September 30 of the school year prior to the school year it intends to serve students in order to be eligible for state funds.

C. If students are not enrolled and attending classes by October 1, a charter school shall not receive funding from the state.

D. Despite a charter school meeting starting dates, a charter school shall be required to satisfy R277-419 requirements of 180 days and 990 hours of instruction time, unless otherwise exempted by the Board under 53A-1a-511.

E. The Board may, following review of information, approve the recommended starting date or determine a different charter school starting date after giving consideration to the State Charter School Board recommendation.

**R277-470-5. Remediating Charter School Financial Deficiencies.**

A. Upon receiving credible information of charter school financial deficiencies, the State Charter School Board shall immediately direct a review or audit through the board of the charter school, by State Charter School Board staff, by the Board auditor, or by an independent auditor.

B. The State Charter School Board or the Board through the State Charter School Board may direct a local charter board to take reasonable action to protect state or federal funds consistent with Section 53A-1a-510.

C. The State Charter School Board or the Board in absence of the State Charter School Board action may:

(1) allow a local charter school board to hold a hearing to determine financial responsibility and assist the local charter school board with the hearing process;

(2) immediately terminate the flow of state funds; or

(3) recommend cessation of federal funding to the school;

or

(4) any combination of the foregoing (1), (2), and (3).

D. The recommendation by the State Charter School Board shall be made within 20 school days of receipt of complaint of deficiency(ies).

E. The State Charter School Board may have flexibility exercised for good cause in making recommendation(s) regarding deficiency(ies).

F. The Board shall consider the State Charter School Board recommendation for remedying a charter school's financial deficiency(ies) within 60 days of receipt of information from the State Charter School Board.

G. In addition to remedies provided for in Section 53A-1a-509, the State Charter School Board may provide for a remediation team to work with the school.

**R277-470-6. Charter School Financial Practices and Training.**

A. Charter school directors and business administrators and finance staff may attend all available USOE sponsored financial and statistical training sessions and meetings that are applicable to charter schools.

B. Local charter school board members and directors shall be invited to all applicable Board-sponsored training, meetings, and sessions for traditional school district financial personnel/staff if charter schools supply current staff information and addresses and indicate the desire to attend.

C. The Board shall work with other education agencies to encourage their inclusion of charter school representatives at training and professional development sessions.

D. A charter school shall appoint a business administrator consistent with Sections 53A-1-302 and 303. The business administrator shall be responsible for the submission of all financial and statistical information required by the Board.

E. The Board may interrupt disbursements to charter schools for failure to comply with financial and statistical information required by law or Board rules.

F. Charter school business and financial staff shall attend USOE business meetings for charter schools.

G. Charter schools are not eligible for necessarily existent small schools funding under Section 53A-17a-109(2) and R277-445.

H. Charter schools shall comply with R277-471, Oversight of School Inspections.

**R277-470-7. Procedures and Timelines for Schools Chartered by Local Boards to Convert to Board-Chartered Schools.**

A. A charter school chartered initially by a local board of education shall notify the local board that it will seek Board approval for its charter with adequate notice for the local board to make staffing decisions.

B. A locally chartered school shall operate successfully for at least nine months prior to applying for conversion to a Board chartered school, consistent with R277-470-4.

C. A charter school shall submit an application to convert from a locally chartered school to a Board chartered school to the State Charter School Board; the State Charter School Board shall provide an application for schools seeking to convert.

D. The application may require some or all of the following, depending upon the school's longevity, successful operation and existing documentation at the USOE:

- (1) current board members and founding members;
- (2) audit and financial records:
  - (a) record of state payments received;
  - (b) record of contributions received by the school from inception to date;
  - (c) test scores, including calendar of testing;
  - (d) current employees: identifying assignments and licensing status, if applicable;
  - (e) student lists, including home addresses or uniform student identifiers for current students;
  - (f) school calendar for previous school year and prospective school year;
  - (g) course offerings, if applicable;
  - (h) affidavits, signed by all board members providing or certifying (documentation may be required):
    - (i) the school's nondiscrimination toward students and employees;
    - (ii) the school's compliance with all state and federal laws;
    - (iii) that all information on application provided is complete and accurate;
    - (iv) that school meets/complies with all health and safety codes/laws;
    - (v) that the school is current with all required policies (personnel, salaries, and fees), including board minutes for the most recent three months;
    - (vi) that the school is operating consistent with the school's charter;
    - (vii) the school's Annual Yearly Progress status under No Child Left Behind;
    - (viii) that there are no outstanding lawsuits or judgments or identifying outstanding lawsuits filed or judgments against the school;
    - (ix) that the previous local board of education supports or does not support conversion;

E. Applications for conversion from locally chartered to Board chartered shall be considered by the State Charter School Board within 60 days of submission of complete applications, including all required documentation.

F. Following approval by the State Charter School Board, proposals of charter schools seeking conversion approval shall be submitted to the Board for review.

G. If an applicant is not accepted for conversion, the State Charter School Board shall provide adequate information for the charter school to review and revise its proposal and reapply no sooner than nine months from the previous conversion application.

H. The Board shall consider the conversion application within 45 days of State Charter School Board approval, or next possible monthly Board meeting, whichever is sooner.

I. Final approval or denial of conversion is final administrative action by the Board.

**R277-470-8. Charter Schools and NCLB Funds.**

A. Charter schools that desire to receive NCLB funds shall comply with the requirements of R277-470-8.

B. To obtain its allocation of NCLB formula funds, a charter school shall submit a completed Charter School Economically Disadvantaged Report to the USOE by November 15 of the fiscal year for which funding for NCLB funds are sought.

C. The Charter School Economically Disadvantaged Report shall:

(1) state the number of economically disadvantaged students enrolled in the school as of the last operating day of the immediately preceding October by the students' district of residence; and

(2) be signed by the charter school business administrator.

D. If the school operates a federal school lunch program, the total number of students on the Charter School Economically Disadvantaged Report shall match the total number of free and reduced priced lunch students reported by the same deadline to the USOE through the Free and Reduced Price Lunch Enrollment Survey.

E. If the school does not operate a federal school lunch program, the school:

(1) shall determine the economically disadvantaged status for its students on the basis of criteria no less stringent than those established by the U.S. Department of Agriculture for identifying students who qualify for reduced price lunch for the fiscal year in question; or

(2) may use the Charter School Declaration of Household Income form provided by the USOE for this purpose.

F. A school which does not use the form shall maintain equivalent documentation in its records, which may be subject

to audit.

**R277-470-9. Charter School Parental Involvement.**

A. Charter schools shall encourage and maintain active involvement of parents of current charter school students.

B. Beginning with the 2007-2008 school year, all charter schools shall have at least one elected parent representative chosen by and from parents of students currently attending the charter school to serve on a rotating basis as a voting member on the charter school's governing board with additional parents of students currently attending the charter school totaling a minimum of twenty-five percent of the governing board.

C. A charter school's charter shall provide the election process and selection process for selecting the required parent representative(s) for the governing board and the rotating terms for elected and identified parents.

D. Charter schools that apply for School LAND Trust funds shall have a majority of parents elected from parents of students currently attending the charter school on the committee designated to make decisions about School LAND Trust funds consistent with R277-477-3D.

**R277-470-10. Charter School Oversight and Monitoring.**

A. The State Charter School Board shall provide direct oversight to the state's charter schools, including:

(1) annual review of student achievement indicators for all schools, disaggregated for various student subgroups;

(2) quarterly review of summary financial records and disbursements;

(3) annual review conducted through site visits or random audits of personnel matters such as employee licensure and evaluations; and

(4) regular review of other matters specific to effective charter school operations as determined by the USOE charter school staff.

B. The Board retains the right to review or repeal charter school authorization based upon factors that may include:

(1) financial deficiencies or irregularities; or

(2) persistently low student achievement inconsistent with comparable schools; or

(3) failure of the charter school to comply with state law, Board rules, or directives.

**R277-470-11. Expansion for Approved Charter Schools.**

A. The following shall apply to requests for expansion for approved and operating charter schools:

(1) The school satisfies all requirements of state law and Board rule.

(2) The approved Charter Agreement shall provide for an expansion consistent with the request; or

(3) The charter school governing board has submitted a formal amendment request to the State Charter School Board that provides documentation that:

(a) the school district in which the charter school is located has been notified of the proposed expansion in the same manner as required in Section 53A-1s-505(1);

(b) the school can accommodate the expansion within existing facilities or that necessary structures will be completed, meeting all requirements of law and Board rule, by the proposed date of operation.

(c) the school currently satisfies all requirements of state law and Board rule including adequate insurance, adequate parental involvement, compliance with all fiscal requirements, and adequate services for all special education students at the school;

(d) students at the school are performing on standardized assessments at least consistent with comparable students at comparable schools.

(e) adequate qualified administrators or staff or both shall

be available to meet the needs of the increased number of students at the time the expansion is implemented.

B. The charter school governing board shall file a request with the State Charter School Board for an expansion no fewer than nine months prior to the date of the proposed implementation of the expansion.

**R277-470-12. Transportation.**

A. Charter schools are not eligible for to-and-from school transportation funds.

B. A charter school that provides transportation to students shall comply with Utah law Section 53-8-211.

C. A school district may provide transportation for charter school students on a space-available basis on approved routes.

(1) School districts may not incur increased costs or displace eligible students to transport charter school students.

(2) A charter school student shall board and leave the bus only at existing designated stops on approved bus routes or at identified destination schools.

(3) A charter school student shall board and leave the bus at the same stop each day.

(4) Charter school students and their parents who participate in transportation by the school district as guests shall receive notice of applicable district transportation policies and may forfeit with no recourse the privilege of transportation for violation of the policies.

**R277-470-13. Appeal Process to State Board of Education and Miscellaneous Provisions.**

A. Charter schools denied a charter by the State Charter School Board may appeal to the Board under Section 53A-1a-505(1)(e)(ii).

B. Appeals shall be made within 20 days of the State Charter School Board's final administrative recommendation.

C. Appeals shall only be made in writing and shall be considered by the Board or a committee of Board members designated by the Board within 45 days of receipt by the Board.

D. Only final administrative charter decisions, including approval and proposals for expansion, may be appealed. State Charter School Board directives, requests for additional information, or preliminary decisions about charter school applications shall not be considered by the Board.

E. The Board's decision shall be made in writing to the State Charter School Board and the appellant as soon as possible but no more than 5 days following consideration by the full Board.

F. The Board's action is the final administrative action.

G. The State Charter School Board and the Board may, in the recommendation and approval process, consider and give priority to charter school applications that target underserved student populations, among traditional public schools and operating charter schools.

(1) Underserved student populations may include low income students, students with disabilities, students who need English Language Learners (ELL) services, or students in remote areas of the state who have limited access to the full range of academic courses;

(2) Priority may also be given to charter school applicants for proposed schools that do not have other charter schools within a 50 mile radius; and

(3) To be given priority, the charter school application and proposed employee and site information shall support the school's designated focus.

**R277. Education, Administration.****R277-522. Entry Years Enhancements (EYE) for Quality Teaching - Level 1 Utah Teachers.****R277-522-1. Definitions.**

A. "Accredited" means a teacher preparation program accredited by the National Council for Accreditation of Teacher Education (NCATE), the Teacher Education Accreditation Council (TEAC) or one of the major regional accrediting associations as defined under R277-503-1L.

B. "Board" means the Utah State Board of Education.

C. "Computer-Aided Credentials of Teachers in Utah Schools (CACTUS)" means a database that maintains public information on licensed Utah educators.

D. "Educational Testing Services (ETS)" is an educational measurement institution that has developed standard-based teacher assessment tests.

E. "Entry years" means the three years a beginning teacher holds a Level 1 license.

F. "INTASC" means the Interstate New Teacher Assessment and Support Consortium, that has established Model Standards for Beginning Teacher Licensing and Development. The ten principles reflect what beginning teachers should know and be able to do as a professional teacher. The Board has adopted these principles as part of the NCATE standards.

G. "Level 1 license" means a Utah professional educator license issued upon completion of an approved preparation program or an alternative preparation program, or pursuant to an agreement under the NASDTEC Interstate Contract, to applicants who have also met ancillary requirements established by law or rule.

H. "Level 2 license" means a Utah professional educator license issued after satisfaction of all requirements for a Level 1 license and:

- (1) requirements established by law or rule;
- (2) three years of successful education experience within a five-year period; and
- (3) satisfaction of requirements under R277-522 for teachers employed after January 1, 2003.

I. "Level 3 license" means a Utah professional educator license issued to an educator who holds a current Utah Level 2 license and has also received National Board Certification or a doctorate in education or in a field related to a content area in a unit of the public education system or an accredited private school.

J. "Mentor" means a Level 2 or Level 3 educator, who is trained to advise and guide Level 1 teachers.

K. "Praxis II - Principles of Learning and Teaching" is a standards-based test provided by ETS and designed to assess a beginning teacher's pedagogical knowledge. This test is used by many states as part of their teacher licensing process. Colleges and universities use this test as an exit exam from teacher education programs.

L. "Professional development" means locally or Board-approved education-related training or activities that enhance an educator's background consistent with R277-501, Educator License Renewal.

M. "Teaching assessment/evaluation" means an observation of a Level 1 teacher's instructional skills by a school district or school administrator using an evaluation tool based on or similar to INTASC principles.

N. "Working portfolio" means a collection of documents prepared by a Level 1 teacher and used as a tool for evaluation.

O. "USOE" means the Utah State Office of Education.

**R277-522-2. Authority and Purpose.**

A. This rule is authorized by Utah Constitution Article X, Section 3 which vests general control and supervision of the public school system under the Board; by Section 53A-9-103(5)

which directs career ladder programs to include a program of evaluation and mentoring for beginning teachers designed to assist those beginning teachers in developing the skills required of capable teachers; Section 53A-6-102(2)(a)(iii) which finds that the implementation of progressive strategies regarding induction, professional development and evaluation are essential in creating successful teachers; Section 53A-6-106 which directs the Board to establish a rule for the training and experience required of license applicants for teaching; and Section 53A-1-401(3) which allows the Board to adopt rules in accordance with its responsibilities.

B. The purpose of this rule is to outline required entry years enhancements of professional and emotional support for Level 1 teachers whose employment or reemployment in the Utah public schools began after January 1, 2003. The requirements apply to teachers during their first three years of teaching and include mentoring, testing, assessment/evaluation, and developing a professional portfolio. The purpose of these enhancements is to develop in Level 1 teachers successful teaching skills and strategies with assistance from experienced colleagues.

**R277-522-3. Required Entry Year Enhancements Requirements for a Level 1 Teacher to Advance to a Level 2 License.**

A. Level 1 teachers shall satisfactorily collaborate with a trained mentor, pass a required pedagogical exam, complete three years of employment and evaluation, and compile a working portfolio.

B. Collaboration with an assigned mentor:

(1) A mentor shall be assigned to each Level 1 teacher in the first semester of teaching:

(a) The beginning teacher shall be assigned a trained mentor teacher by the principal to supervise and act as a resource for the entry level teacher.

(b) The mentor teacher shall teach in the same school, and where feasible, in the same subject area as the Level 1 teacher.

(2) Qualification of a mentor:

(a) A mentor shall hold a Utah Professional Educator's Level 2 or 3 license;

(b) A mentor shall have completed a mentor training program including continuing professional development.

(3) A mentor shall:

(a) guide Level 1 teachers to meet the procedural demands of the school and school district;

(b) provide moral and emotional support;

(c) arrange for opportunities for the Level 1 teacher to observe teachers who use various models of teaching;

(d) share personal knowledge and expertise about new materials, planning strategies, curriculum development and teaching methods;

(e) assist the Level 1 teacher with classroom management and discipline;

(f) support Level 1 teachers on an ongoing basis;

(g) help Level 1 teachers understand the implications of student diversity for teaching and learning;

(h) engage the Level 1 teacher in self-assessment and reflection; and

(i) assist with development of Level 1 teacher's portfolio.

C. Passage of a pedagogical examination:

(1) The Praxis II - Principles of Learning and Teaching

(a) shall be administered by ETS;

(b) shall be taken by the beginning teacher; the beginning teacher shall earn a qualifying score of at least 160;

(c) may be taken successive times.

(2) Results shall be posted on CACTUS.

D. Successful evaluation under a school district employment and assessment/evaluation program:

(1) Teachers shall be fully employed for three years in

Utah public schools or in accredited private schools.

(2) Employing school districts may, following evaluation of the individual's experience, determine that teaching experience outside of the Utah public schools satisfies the teaching/experience requirement of this rule.

(3) The school district has discretion in determining the employment or reemployment status of individuals.

(4) Employing school districts shall be responsible for the evaluation; this duty may be assigned to the school principal.

(5) The assessment/evaluation shall take place at least twice during the first year of teaching and at least twice during each of the following two years with a satisfactory final evaluation.

E. Compilation of a working portfolio:

(1) The portfolio shall be reviewed and evaluated by the employing school district.

(2) the portfolio may be reviewed by USOE staff upon request during the Level 1 teacher's second year of teaching.

(3) the portfolio shall be based upon INTASC principles; and may:

(a) include teaching artifacts;

(b) include notations explaining the artifacts; and

(c) include a reflection and self-assessment of his or her own practice; or

(d) be interpreted broadly to include the employing school district's requirement of samples of the first year teaching experience.

#### **R277-522-4. Satisfaction of Entry Years Enhancements.**

A. If a Level 1 teacher fails to complete all enhancements as enumerated in this rule, the Level 1 teacher shall remain in a provisional employment status until the Level 1 teacher completes the enhancements.

(1) The school district may make a written request to the USOE Educator Licensing Section for a one year extension of the Level 1 license in order to provide time for the educator to satisfy entry years enhancements.

(2) The Level 1 teacher may repeat some or all of the entry years enhancements.

(3) An opportunity to repeat or appeal an incomplete or unsatisfactory entry years enhancements process shall be designed and offered by the employing school district.

B. Recommendation for a Level 2 license:

(1) Each school district shall make an annual recommendation to the Board of teachers approved in its schools to receive a Level 2 license, including documentation demonstrating completion of the enhancements.

(2) The names of teachers who did not successfully complete entry years enhancements may also be reported to the Board annually by school districts.

C. The Board shall receive an annual report tracking the success of retention and the job satisfaction of Utah educators who complete the entry years enhancement program.

A. Utah Basic Skills Competency Test (UBSCT) means the test required under Section 53A-1-611 for Utah students seeking a high school diploma.

B. "Private school" means a school that is not a public school but:

(1) has a location or space in Utah where teachers have regularly scheduled face-to-face classes with students;

(2) has a current business license through the Utah Department of Commerce;

(3) is accredited through Northwest or another regional accrediting agency;

(4) has and makes available a written policy for maintaining and securing student records;

(5) charges tuition generally consistent with other private schools in Utah; and

(6) employs teachers with licenses, credentials or demonstrable skills and expertise for instructing students in Core Curriculum courses or areas.

C. "Home school student" means a student who has been excused from compulsory education and for whom documentation has been completed under 53A-11-102.

D. "Public school achievement test" means a standardized test which measures or attempts to measure the level of performance which a student has attained in one or more courses of study. Achievement tests shall mean criterion-referenced tests consistent with 53A-1-602(3)(b)(c) and (d).

**R277-604-2. Authority and Purpose.**

A. This rule is authorized by Utah Constitution Article X, Section 3 which vests general control and supervision of public education in the Board, Section 53A-1-401(3) which allows the Board to adopt rules in accordance with its responsibilities, and Section 53A-1-603(1)(a) which directs the Board to require school districts to implement the Utah Performance Assessment System for Students.

B. The purpose of this rule is:

(1) to provide opportunities for Utah private school students and home school students who are Utah residents, and Utah students attending BIA schools to participate in U-PASS;

(2) to maintain the integrity and security of U-PASS;

(3) to provide an orderly and manageable administrative process for public schools to include Utah private school students and home school students who are Utah residents, and Utah students attending BIA schools to participate in U-PASS if they so desire; and

(4) to protect the public investment in U-PASS by making assessments available to students who are not funded by the public education system through fair, reasonable, and consistent practices.

**R277-604-3. Private Schools.**

A. Private school students who are Utah residents, as defined under 53A-2-201, may be allowed to participate in U-PASS.

B. Private school students who are not Utah residents may participate in U-PASS only by payment in advance of the full cost of individual assessments as determined by local board policy.

C. Private schools that are interested in participating in U-PASS may, at the public school district's discretion, do so only in the public school district in which the private school is located.

(1) School districts shall determine at which public schools within the district private school students may take achievement

tests.

(2) A private school may request from the school district in which the private school is located an annual schedule of U-PASS dates, the locations at which private schools may be tested and written policies for private school student participation. An annual U-PASS schedule may be available online on school district websites.

D. School district policies shall include:

(1) reasonable costs for the participation of Utah private school students in U-PASS to be paid in advance by either the student or the school;

(2) an explanation of reasonable costs including costs for materials, scoring, reporting, and any state-related costs as determined by the state, to be passed on to the state. School district administration costs, determined by local boards, shall remain in the district.

(3) notice to private school administrators of any required private school administrator participation in monitoring or proctoring of tests;

(4) reasonable time lines for private school requests for participation and school district/school response;

(5) limits, if any, of numbers of non-public students that can be accommodated by the public school for all tests; and

(6) written notice to private schools of testing rules, including required identification for staff and students of implements or materials that private schools or private school students may or may not bring or use for each test.

**R277-604-4. Home School Students.**

A. Home school students who are Utah residents, as defined under 53A-2-201, shall be allowed to participate in U-PASS as provided in this rule.

B. Home school students shall be allowed to participate in U-PASS only if they have satisfied the home schooling requirements of 53A-11-102.

C. Home school student participation:

(1) Elementary-age home school students who desire to participate in U-PASS may do so only in the public school district in which the home school student's parent/legal guardian resides.

(2) Secondary home school students who desire to participate in U-PASS may do so only in the public school district in which the home school student's parent/legal guardian resides only if the student is enrolled in one or more Core program(s) or course(s) at the resident public school.

(3) School districts shall determine at which public school(s) within the district qualifying home school students may take achievement tests.

(4) A home school student/parent may request from the school district in which the home school student/parent resides an annual schedule of U-PASS dates, the locations at which home school students may be tested and written policies for home school student participation.

D. School district policies shall include:

(1) any costs required from traditional students.

(2) notice to home school students/parents of any required parent/adult participation in monitoring or proctoring of tests;

(3) reasonable time lines for home school requests for participation and school district/school response;

(4) limits, if any, of numbers of non-public students that can be accommodated by the public school for all tests; and

(5) written notice to home school students/parents of testing rules, including required identification and proof of residency for adults and students and implements or materials that home school students may or may not bring or use for each test.

E. The USOE shall absorb the costs for testing qualifying (enrolled in one or more Core program(s) or course(s) at the public school) home school students unless or until the number

of home school students requesting testing in all districts exceeds two percent of the public education students enrolled in the state.

**R277-604-5. Utah Electronic High School (EHS) Students.**

A. EHS students may participate in testing in the school district and school of residence, consistent with Section 53A-2-201, if:

(1) the student has been enrolled in EHS by the school counselor consistent with the student's SEOP; and

(2) the student has met all requirements and standards for Utah home school students.

B. The USOE shall absorb the costs for testing of Utah EHS students until and unless the number of EHS students exceeds two percent of the number of traditionally enrolled Utah public school students.

**R277-604-6. Bureau of Indian Affairs (BIA) Students.**

A. BIA school administrators shall be responsible to meet all U-PASS requirements for all Utah students.

B. Materials and training shall be provided to BIA schools from the public school district in which the school is located on the schedule that applies to Utah school districts.

C. BIA school administrators shall be notified of all information and training by the public school district in which the school is located.

- A. "Board" means the Utah State Board of Education.
- B. "Domicile" means the place which a person considers to be the permanent home, even though temporarily residing elsewhere.
- C. "Economically disadvantaged" means a student who is eligible for reduced price or free school lunch.
- D. "Emancipated minor" means:
- (1) a child under the age of 18 who has become emancipated by order of a court or through marriage, or
  - (2) a child recommended for school enrollment as an emancipated or independent or homeless child by an authorized representative of the Utah State Department of Social Services.
- E. "Enrolled" for purposes of this rule means a student has the opportunity to attend classes and participate fully in school and extracurricular activities based on academic and citizenship requirements of all students.
- F. "Ethnic minority student" means non-Caucasian students as identified below:
- (1) American Indian or Alaskan native;
  - (2) Hispanic/Latino;
  - (3) Asian;
  - (4) Pacific Islander;
  - (5) Black/African American, not of Hispanic origin;
  - (6) Other;
  - (7) The total of ethnic minority students per school shall be determined annually on October 1.
- G. "Homeless child" means a child who:
- (1) lacks a fixed, regular, and adequate residence;
  - (2) has primary nighttime residence in a homeless shelter, welfare hotel, congregate shelter, or domestic violence shelter;
  - (3) sleeps in a public or private place not ordinarily used as a regular sleeping accommodation for human beings;
  - (4) is, out of necessity, living with relatives or friends usually on a temporary or emergency basis due to lack of housing; or
  - (5) is a runaway.
- H. "Parent" means a parent or guardian having legal custody of a minor child.
- I. "School district of residence for a homeless child" means the district in which the student or the student's legal guardian or both currently resides or the charter school that the student is attending for the period that the student or student's family satisfies the homeless criteria.
- J. "USOE" means the Utah State Office of Education.

**R277-616-2. Authority and Purpose.**

A. This rule is authorized under Article X, Section 3 of the Utah State Constitution, Section 53A-17a-121(2) which directs the Board to develop rules for districts and charter schools to spend monies for homeless and ethnic minority students, Section 53A-1-401(3) which allows the Board to adopt rules in accordance with its responsibilities, Section 53A-11-101 which requires that minors between the ages of 6 and 18 attend school during the school year of the district of residence, and by Section 53A-2-201(5) which makes each school district or charter school responsible for providing educational services for all children of school age who reside in the district or attend the school.

B. The purpose of this rule is to ensure that homeless children have the opportunity to attend school with as little disruption as reasonably possible and that funds for homeless and economically disadvantaged ethnic minority students are distributed equitably and efficiently to school districts and charter schools.

**R277-616-3. Criteria for Determining Where a Homeless or Emancipated Student Shall Attend School.**

A. Under the McKinney-Vento Homeless Assistance Act of 1987, Title VII, Subtitle B, as amended, 42 U.S.C. 11431 through 11435, homeless students are entitled to immediate enrollment and full participation even if they are unable to produce records normally required for enrollment.

B. A homeless student shall:

(1) be immediately enrolled even if the student does not have documentation required under Sections 53A-11-201, 301, 302, 302.5 and Section 53A-2-201 through 213;

(2) be allowed to continue to attend his school of origin, to the extent feasible, unless it is against the parent/guardian's wishes; be permitted to remain in the student's school of origin for the duration of the homelessness and until the end of any academic year in which the student moves into permanent housing; or

(3) transfer to the school district of residence or charter school if space is available as defined under Subsection R277-616-1I.

B. Determination of residence or domicile may include consideration of the following criteria:

(1) the place, however temporary, where the child actually sleeps;

(2) the place where an emancipated child or an unemancipated child's family keeps its belongings;

(3) the place which an emancipated child or an unemancipated child's parent considers to be home; or

(4) such recommendations concerning a child's domicile as made by the State Department of Human Services.

C. Determination of residence or domicile may not be based upon:

(1) rent or lease receipts for an apartment or home;

(2) the existence or absence of a permanent address; or

(3) a required length of residence in a given location.

D. If there is a dispute as to residence or the status of a child as an emancipated minor, the issue may be referred to the USOE for resolution.

E. The purpose of federal homeless education legislation is to ensure that a child's education is not needlessly disrupted because of homelessness. If a child's residence or eligibility is in question, the child shall be admitted to school until the issue is resolved.

**R277-616-4. Transfer of Guardianship.**

A. If guardianship of a minor child is awarded to a resident of a school district by action of a court or through appointment by a school district under Section 53A-2-202, the child becomes a resident of the district in which the guardian resides.

B. If a child's residence has been established by transfer of legal guardianship, no tuition may be charged by the new district of residence.

**R277-616-5. School District Funding for Homeless Students and Economically Disadvantaged Ethnic Minority Students.**

A. Funds appropriated for homeless and economically disadvantaged ethnic minority students shall be distributed as outlined under 53A-17a-121(3).

B. For purposes of determining the homeless student count, a district or a charter school shall count annually the number of homeless students served in the district or charter school.

C. If a student satisfies the homeless criteria at more than one time during the school year in the same district or charter school, the student shall be counted once.

**R277. Education, Administration.****R277-713. Concurrent Enrollment of High School Students in College Courses.****R277-713-1. Definitions.**

A. "Adjunct/Concurrent faculty" means instructors approved by the cooperating USHE institution and approved by school district or charter school receiving concurrent enrollment services from the instructor to teach concurrent enrollment classes on behalf of the USHE institution.

B. "Annual Concurrent Enrollment Contract" means a written plan, negotiated by a school district and a USHE institution, to provide college level courses to high school students.

C. "Board" means the Utah State Board of Education.

D. "Concurrent enrollment" for state funding and for the purposes of this rule means enrollment by public school students in one or more USHE institution course(s) under a contractual agreement between the USHE institution and a school district/public school. Students continue to be enrolled in public schools, counted in Average Daily Membership, and receive credit toward graduation. They also receive college credit for courses.

E. "Fees" for purposes of concurrent enrollment and this rule mean expenses to students directly related to enrollment and tuition. Fees do not include reasonable lab costs, expenses for textbooks and consumable curriculum materials that are required only for USHE credit or grades.

F. "USHE" means the Utah System of Higher Education.

G. "USOE" means the Utah State Office of Education.

**R277-713-2. Authority and Purpose.**

A. This rule is authorized by Utah Constitution Article X, Section 3 which provides for the State Board to have general supervision and control over public schools and by Section 53A-17a-120 which directs the Board to adopt rules for accelerated learning programs, Section 53A-1-402(1)(c) which directs the Board to adopt minimum standards for curriculum, and Section 53A-1-401(3) which allows the Board to adopt rules in accordance with its responsibilities.

B. The purpose of concurrent enrollment is to provide a challenging college-level and productive secondary school experience, particularly in the senior year, and to provide transition courses that can be applied to post-secondary education.

C. The purpose of this rule is to specify the standards and procedures for concurrent enrollment courses and criteria for funding appropriate concurrent enrollment expenditures.

**R277-713-3. Student Eligibility.**

A. Local schools and USHE institutions shall jointly establish student eligibility requirements which shall be sufficiently selective to predict a successful experience.

B. Local schools have the primary responsibility for identifying students who are eligible to participate in concurrent enrollment classes.

C. Each student participating in the concurrent enrollment program shall have a current student education/occupation plan (SEOP) on file at the participating school, as required under Section 53A-1a-106(2)(b).

**R277-713-4. Courses and Student Participation.**

A. Course registration and the awarding of USHE institution credit for concurrent enrollment courses are the province of colleges and universities governed by USHE policies.

B. Concurrent enrollment offerings shall be limited to courses in English, mathematics, fine arts, humanities, science, social science, world languages, and career technical programs to allow a focus of energy and resources on quality instruction

in these courses. However, there may be a greater variety of courses in the career technical education area. Concurrent Enrollment courses should assist students toward post-secondary degrees.

C. All concurrent enrollment courses shall be approved or orchestrated by the high school or the USOE and shall provide for waiver of fees to eligible students.

D. Only courses taken from a master list maintained by the Curriculum Section at the USOE shall be reimbursed from state concurrent enrollment funds. Courses may be added or deleted from the master list with adequate notice to teachers at USHE institutions and public schools.

E. Concurrent enrollment funding shall be provided only for 1000 or 2000 level courses unless a student's SEOP identifies a student's readiness and preparation for a higher level course. This exception shall be individually approved by the student's counselor and school district or charter school concurrent enrollment administrator. Concurrent enrollment funding is not intended for unilateral parent/student initiated college attendance or course-taking.

F. Concurrent enrollment course offerings shall reflect the strengths and resources of the respective schools and USHE institutions and be based upon student needs. The number of courses selected shall be kept small enough to ensure coordinated statewide development and training activities for participating teachers.

G. Course content, procedures, examinations, teaching materials, and program monitoring shall be the responsibility of the appropriate USHE institution, shall be consistent with Utah law, and shall ensure quality and comparability with courses offered on the college or university campus.

H. Participation in concurrent enrollment generates higher education credit that becomes a part of a student's permanent college transcript.

**R277-713-5. Program Delivery.**

A. Schools within the USHE that grant higher education/college credit may participate in the concurrent enrollment program.

B. Concurrent enrollment courses shall be offered at the most appropriate location using the most appropriate methods for the course content, the faculty, and the students involved, consistent with Section 53A-17a-120(2)(a).

C. The delivery system and curriculum program shall be designed and implemented to take full advantage of the most current available educational technology.

D. Courses taken by students who have received a diploma, whose class has graduated or who have participated in graduation exercises are not eligible for concurrent enrollment funding. Senior students shall complete reimbursable concurrent enrollment courses prior to their graduation or participation in graduation exercises.

E. Concurrent enrollment is intended primarily for students in their last two years of high school. Attendance by younger students shall be approved by both the public school and the USHE institution.

F. State reimbursement to school districts for concurrent enrollment courses may not exceed 30 semester hours per student per year.

G. Public schools/school districts shall use USOE designated 11-digit course codes for concurrent enrollment courses.

**R277-713-6. Student Tuition, Fees and Credit for Concurrent Enrollment Programs.**

A. Tuition or fees may not be charged to high school students for participation in this program consistent with Section 53A-15-101(6)(b)(iii).

B. Students may be assessed a one-time enrollment charge

per institution.

C. Concurrent enrollment program costs attributable only to USHE credit or enrollment are not fees and as such are not subject to fee waiver under R277-407.

D. All students' costs related to concurrent enrollment classes, which may include consumables, lab fees, copying, and material costs, as well as textbooks required for the course, are subject to fee waiver consistent with R277-407.

E. The school district/school shall be responsible for these waivers. The agreement between the USHE institution and the district may address the responsibility for fee waivers. The district may withhold concurrent enrollment funds to cover fee waiver costs.

F. Credit:

(1) A student shall receive high school credit for concurrent enrollment classes that is consistent with the district policies for awarding credit for graduation.

(2) College level courses taught in the high school carry the same credit hour value as when taught on a college or university campus and apply toward college/university graduation on the same basis as courses taught at the USHE institution to which the credits are submitted.

(3) Credit earned through the concurrent enrollment program shall be transferable from one USHE institution to another.

(4) Concurrent enrollment course credit shall count toward high school graduation requirements as well as for college credit.

#### **R277-713-7. Faculty Requirements.**

A. Nomination of adjunct faculty is the joint responsibility of the participating local school district(s) and the participating USHE institution. Final approval of the adjunct faculty shall be determined by the appropriate USHE institution.

B. USHE institution faculty beginning their USHE employment in the 2005-06 school year who are not K-12 teachers and who have significant unsupervised access to K-12 students and instruct in the concurrent enrollment program defined under this rule shall complete a criminal background check consistent with Section 53A-3-410. The adjunct faculty employer shall have responsibility for determining the need for criminal background checks consistent with the law and for satisfying this requirement and shall maintain appropriate documentation.

C. Adjunct faculty status of high school teachers:

(1) High school teachers who hold adjunct or part time faculty status with a USHE institution for the purpose of teaching concurrent enrollment courses shall be included as fully as possible in the academic life of the supervising academic department.

(2) USHE institutions and secondary schools shall share expertise and in-service training, as necessary, to adequately prepare teachers at all levels to teach concurrent enrollment students and content, including both federal and state laws specific to student privacy and student records.

#### **R277-713-8. Concurrent Enrollment Funding and Use of Concurrent Enrollment Funds.**

A. Each district shall receive a pro-rated amount of the funds appropriated for concurrent enrollment according to the number of semester hours successfully completed by students registered through the district in the prior year compared to the state total of completed concurrent enrollment hours. Successfully completed means that a student received USHE credit for the course. Concurrent enrollment funds may not reimburse districts for repeated concurrent enrollment courses. Appropriate reimbursement may be verified at any reasonable time by USOE audit.

B. Each high school shall receive its proportional share of

district concurrent enrollment monies allocated to the district pursuant to Section 53A-17a-120 based upon the hours of concurrent enrollment course work successfully completed by students on the high school campus as compared to the state total of completed concurrent enrollment hours.

C. Funds allocated to school districts for concurrent enrollment shall not be used for any other program.

D. Colleges or universities shall receive concurrent enrollment funds from school districts based on the Annual Concurrent Enrollment Contract and applicable rules.

E. District use of state funds for concurrent enrollment is limited to the following:

(1) tuition for students as established by an agreement with the USHE institution;

(2) a share of the costs of supervision and monitoring by USHE institution employees according to the annual contractual agreement;

(3) aid in staff development of adjunct faculty in cooperation with the participating USHE institution;

(4) assistance with delivery costs for distance learning programs;

(5) participation in the costs of district or school personnel who work with the program;

(6) student textbooks and other instructional materials; and

(7) fee waivers for costs or expenses related to concurrent enrollment for fee waiver eligible students under R277-407.

(8) other uses approved in writing by the USOE consistent with the law and purposes of this rule.

#### **R277-713-9. Annual Contracts and Other Student Instruction Issues.**

A. Collaborating school districts/public schools and USHE institutions shall negotiate annual contracts including:

(1) the courses offered;

(2) the location of the instruction;

(3) the teacher;

(4) student eligibility requirements;

(5) course outlines;

(6) texts, and other materials needed; and

(7) the administrative and supervisory services, in-service education, and reporting mechanisms to be provided by each party to the contract.

B. The annual concurrent enrollment agreement between a USHE institution and a school/school district or charter school who has responsibility shall:

(1) provide for parental permission for students to participate in concurrent enrollment classes, which includes notice to parents that participation in concurrent enrollment courses count toward a student's college record/transcript,

(2) provide for the entity responsible for parent notification about concurrent enrollment purpose(s) and student and family privacy protections; and

(3) provide for discussion and training, as necessary, to all concurrent enrollment instructors about student information, student records laws, and student confidentiality.

C. This rule shall be effective on the date posted with the Division of Administrative Rules, and shall apply to students who enroll in course work beginning with the 2005-2006 school year, and continuing thereafter.

**R305. Environmental Quality, Administration.****R305-2. Electronic Meeting.****R305-2-1. Purpose.**

Section 52-4-7.8 requires any public body that convenes or conducts an electronic meeting to establish written procedures for such meetings. This rule establishes procedures for conducting meetings of the Department of Environmental Quality and the Boards established within the Department in accordance with Section 19-1-106.

**R305-2-2. Authority.**

This rule is established under the authority of Sections 19-1-201(2)(k) and 202(1)(a).

**R305-2-3. Procedure.**

The following provisions govern any meeting at which one or more Board members appear telephonically or electronically pursuant to Section 52-4-7.8.

(1) If one or more members of a Board may participate electronically or telephonically, public notice of the meeting shall so indicate. In addition the notice shall specify the anchor location where the members of the Board not participating electronically or telephonically will be meeting and where interested persons and the public may attend, monitor, and participate in the open portions of the meeting.

(2) Notice of the meeting and the agenda shall be posted at the anchor location. Written or electronic notice shall also be provided to at least one newspaper of general circulation within the state and to a local media correspondent. These notices shall be provided at least 24 hours before the meeting.

(3) Notice of the possibility of an electronic meeting shall be given to the Board members at least 24 hours before the meeting. In addition, the notice shall describe how a Board Member may participate in the meeting electronically or telephonically.

(4) When notice is given of the possibility of a Board member appearing electronically or telephonically, any board member may do so and shall be counted as present for the purposes of a quorum and may fully participate and vote on any matter coming before the Board. At the commencement of the meeting, or at such a time as any Board member initially appears electronically or telephonically, the chair shall identify for the record all those who are appearing telephonically or electronically. Votes by members of the Board who are not at the physical location of the meeting shall be confirmed by the Chair.

(5) The anchor location, unless otherwise designated in the notice, shall be at the offices of the Department of Environmental Quality, 160 North 1950 West, Salt Lake City, Utah 84116. The anchor location is the physical location from which the electronic meeting originates or from where the participants are connected. In addition, the anchor location shall have space and facilities so that interested persons and the public may attend, monitor, and participate in the open portions of the meeting.

**R305. Environmental Quality, Administration.****R305-3. Emergency Meeting.****R305-3-1. Purpose.**

The Department of Environmental Quality and the Boards established within the Department in accordance with Section 19-1-106 recognize that there may be times when, due to the necessity of considering matters of an emergency or urgent nature, the public provisions of Sections 52-4-6(1), (2), and (3) cannot be met. Pursuant to Sections 52-4-6(5), under such circumstance those notice requirements need not be followed but rather the best notice practicable shall be given.

**R305-3-2. Authority.**

This rule is enacted under the authority of Sections 63-46a-3 and 19-1-201(2)(k) and 202(1)(a).

**R305-3-3. Procedure.**

(1) No emergency meeting shall be held unless an attempt has been made to notify all members of the Board of the proposed meeting and a majority of the convened Board votes in the affirmative to hold such an emergency meeting.

(2) Public notice of each emergency meeting shall be provided as soon as practicable and shall include at minimum the following:

(a) The agenda and notice of the meeting shall be posted in writing at the offices of the division or department.

(b) If members of the Board may appear electronically or telephonically, each such notice shall specify the anchor location for the meeting at which all interested persons and members of the public may attend, monitor, and participate in the open portions of the meeting;

(c) Notice to the Board members shall advise how they may participate telephonically or electronically and be counted as present for all purposes, including the determination of a quorum;

(d) Written, electronic or telephonic notice shall be provided to at least one newspaper of general circulation within the state and at least one local media correspondent.

(3) If one or more members of the Board appear electronically or telephonically, the procedures governing electronic meetings shall be followed, except for the notice requirement which shall be governed by these provisions.

(4) In convening the meeting and voting in the affirmative to hold such an emergency meeting, the Board shall affirmatively state and find what unforeseen circumstances have rendered it necessary for the Board to hold an emergency meeting to consider matters of an emergency or urgent nature such that the ordinary public notice of meetings provisions of Section 52-4-6 could not be followed.

**R315. Environmental Quality, Solid and Hazardous Waste.  
R315-1. Utah Hazardous Waste Definitions and References.  
R315-1-1. Definitions.**

(a) Terms used in R315-1 through R315-101 are defined in Sections 19-1-103 and 19-6-102.

(b) For R315-1 through R315-101, the terms defined in 40 CFR 260.10, 264.18(a)(2), and 279.1, 2005 ed., are adopted and incorporated by reference with the following revisions:

(1) Substitute "Executive Secretary" for "Regional Administrator" or "Administrator," except in the following cases:

(i) In the actual definitions of "Administrator" and "Regional Administrator;" and

(ii) In the definitions of "hazardous waste constituent" and "industrial furnace" where "Board" shall be substituted.

(2) Insert in the definition of "existing tank system" or "existing component" the following additional phrase after "July 14, 1986," "or December 16, 1988 for purposes of implementing the non-HSWA requirements of the tank regulations as promulgated by EPA on July 14, 1986, 51 FR 25470, as they have been incorporated into the corresponding rules of R315. A non-HSWA existing tank system or non-HSWA tank component is one which does not implement any of the requirements of the federal Hazardous and Solid Waste Amendments of 1984 (HSWA) as identified in Table 1 of 40 CFR 271.1."

(3) Insert in the definition of "new tank system" or "new tank component" the following additional phrase after "July 14, 1986," "or December 16, 1988 for purposes of implementing the non-HSWA requirements of the tank regulations as promulgated by EPA on July 14, 1986, 51 FR 25470, as they have been incorporated into the corresponding rules of R315; except, however, for purposes of 40 CFR 265.193(g)(2) and 40 CFR 264.193(g)(2), a new tank system is one which construction commences after July 14, 1986. A non-HSWA new tank system or non-HSWA new tank component is one which does not implement any of the requirements of the federal Hazardous and Solid Waste Amendments of 1984 (HSWA) as identified in Table 1 of 40 CFR 271.1."

(c) The terms defined in 40 CFR 261.1(c), 1997 ed., are adopted and incorporated by reference.

(d) For purposes of R315-3 regarding application and permit procedures for hazardous waste facilities, the terms defined in 40 CFR 270.2, 1999 ed., are adopted and incorporated by reference with the following revisions:

(1) "Permit" means the plan approval as required by subsection 19-6-108(3)(a), or equivalent control document issued by the Executive Secretary to implement the requirements of the Utah Solid and Hazardous Waste Act;

(2) "Director" or "State Director" means "Executive Secretary;" and

(3) Replace existing definition of "corrective action management unit" with the definition as found in 40 CFR 260.10, 2000 ed.

(e) The definitions of "Polychlorinated biphenyl, PCB," and "Polychlorinated item" as found in 761.3, 40 CFR, 1990 ed., are adopted and incorporated by reference.

(f) In addition, the following terms are defined as follows:

(1) "Approved hazardous waste management facility" or "approved facility" means a hazardous waste treatment, storage, or disposal facility which has received an EPA permit in accordance with federal requirements, has been approved under 19-6-108 and R315-3, or has been permitted or approved under any other EPA authorized hazardous waste state program.

(2) "Division" means the Division of Solid and Hazardous Waste.

(3) "Hazard class" means:

(i) The DOT hazard class identified in 49 CFR 172; and

(ii) If the DOT hazard class is "OTHER REGULATED

MATERIAL," ORM, the EPA hazardous waste characteristic exhibited by the waste and identified in R315-2-9.

(4) "Monitoring" means all procedures used to systematically inspect and collect data on operational parameters of the facility or on the quality of the air, ground water, surface water, or soils.

(5) "POHC's" means principle organic hazardous constituents.

(6) "Permittee" means any person who has received an approval of a hazardous waste operation plan under 19-6-108 and R315-3 or a Federal RCRA permit for a treatment, storage, or disposal facility.

(7) "Precipitation run-off" means water generated from naturally occurring storm events. If the precipitation run-off has been in contact with a waste defined in R315-2-9, it qualifies as "precipitation run-off" if the water does not exhibit any of the characteristics identified in R315-2-9. If the precipitation run-off has been in contact with a waste listed in R315-2-10 or R315-2-11, then it qualifies as "precipitation run-off" when the water has been excluded under R315-2-16. Water containing any leachate does not qualify as "precipitation run-off".

(8) "Spill" means the accidental discharging, spilling, leaking, pumping, pouring, emitting, emptying, or dumping of hazardous wastes or materials which, when spilled, become hazardous wastes, into or on any land or water.

(9) "Waste management area" means the limit projected in the horizontal plane of the area on which waste will be placed during the active life of a regulated unit. The waste management area includes horizontal space taken up by any liner, dike, or other barrier designed to contain waste in a regulated unit. If the facility contains more than one regulated unit, the waste management area is described by an imaginary line circumscribing the several regulated units.

(g) Terms used in R315-15 are defined in sections 19-6-703 and 19-6-706(2)(b)(ii).

(h) For purposes of R315-101 regarding cleanup action and risk-based closure standards, the following terms are defined as follows:

(1) "The concentration term, C" is calculated as the 95% upper confidence limit, UCL, on the arithmetic average for normally distributed data, or as the 95% upper confidence limit on the arithmetic average for lognormally distributed data. For normally distributed data,  $C = \text{Mean} + t \times \text{Standard Deviation}/n^{1/2}$ , where n is the number of observations, and t is Student's t distribution (at the 95% one-sided confidence level and n-1 degrees of freedom), tables of which are printed in most introductory statistics textbooks. For lognormally distributed data,  $C = \exp(\text{Mean of lognormal-transformed data} + 0.5 \times \text{Variance of lognormal-transformed data} + \text{Standard Deviation of lognormal-transformed data} \times H/(n - 1)^{1/2})$ , where n is the number of observations, and H is Land's H statistic (at the 95% one-sided confidence level), tables of which are printed in advanced statistics books. For data which are not normally nor lognormally distributed, appropriate statistics, such as nonparametric confidence limits, shall be applied.

(2) "Area of contamination" means a hazardous waste management unit or an area where a release has occurred. The boundary is defined as the furthest extent where contamination from a defined source has migrated in any medium at the time the release is first identified.

(3) "Contaminate" means to render a medium polluted through the introduction of hazardous waste or hazardous constituents as identified in R315-50-10, which incorporates by reference 40 CFR 261, Appendix VIII.

(4) "Hazard index" means the sum of more than one hazard quotient for multiple substances, multiple exposure pathways, or both. The Hazard Index is calculated separately for chronic, subchronic, and shorter duration exposures.

(5) "Hazard quotient" means the ratio of a single substance

exposure level over a specified time period, e.g. subchronic, to a reference dose for that substance derived from a similar exposure period.

(6) "Risk-based closure" means closure of a site where hazardous waste was managed or any medium has been contaminated by a release of hazardous waste or hazardous constituents, and where hazardous waste or hazardous constituents remain at the site in any medium at concentrations determined, under this rule, to cause minimal levels of risk to human health and the environment so as to require no further action or monitoring on the part of the responsible party nor any notice of hazardous waste management on the deed to the property.

(7) "Reasonable maximum exposure (RME)" means the highest exposure that is reasonably expected to occur at a site. The goal of RME is to combine upper-bound and mid-range exposure factors so that the result represents an exposure scenario that is both protective and reasonable; not the worst possible case.

(8) "Release" means spill or discharge of hazardous waste, hazardous constituents, or material that becomes hazardous waste when released to the environment.

(9) "Responsible party" means the owner or operator of a facility, or any other person responsible for the release of hazardous waste or hazardous constituents.

(10) "Site" means the area of contamination and any other area that could be impacted by the released contaminants, or could influence the migration of those contaminants, regardless of whether the site is owned by the responsible party.

#### **R315-1-2. References.**

(a) For purposes of R315-1 through R315-101, the publication references of 40 CFR 260.11, 2001 ed., are adopted and incorporated by reference.

(b) R315-1 through R315-101 incorporate by reference a number of provisions from 40 CFR. The incorporated provisions sometimes include cross-references to other sections of 40 CFR. Wherever there are sections in R315-1 through R315-101 that correspond to those cross-references, the cross-references of 40 CFR are not incorporated into R315-1 through R315-101. Instead, the corresponding sections in R315-1 through R315-101 shall apply.

**19-6-105**

**19-6-106**

**R315. Environmental Quality, Solid and Hazardous Waste.**  
**R315-2. General Requirements - Identification and Listing of Hazardous Waste.**

**R315-2-1. Purpose and Scope.**

(a) This rule identifies those solid wastes which are subject to regulation as hazardous wastes under R315-3 through R315-9 and R315-13 of these rules and which are subject to the notification requirements of these rules.

(b)(1) The definition of solid waste contained in this rule applies only to wastes that also are hazardous for purposes of the rules implementing Chapter 6, Title 19. For example, it does not apply to materials such as non-hazardous scrap, paper, textiles, or rubber that are not otherwise hazardous wastes and that are recycled.

(2) This rule identifies only some of the materials which are solid wastes and hazardous wastes under the Utah Solid and Hazardous Waste Act. A material which is not defined as a solid waste in this rule, or is not a hazardous waste identified or listed in this rule, is still a solid waste and a hazardous waste for purposes of these sections if:

(i) In the case of section 19-6-109, the Board has reason to believe that the material may be a solid waste within the meaning of subsection 19-6-102(13) and a hazardous waste within the meaning of subsection 19-6-102(7) or

(ii) In the case of section 19-6-115, the material is presenting an imminent and substantial danger to human health or the environment.

**R315-2-2. Definition of Solid Waste.**

(a)(1) A solid waste is any discarded material that is not excluded by subsection R315-2-4(a) or that is not excluded by variance granted under R315-2-18 and R315-2-19.

(2) A discarded material is any material which is:

(i) Abandoned, as explained in paragraph (b) of this section; or

(ii) Recycled, as explained in paragraph (c) of this section; or

(iii) Considered inherently waste-like, as explained in paragraph (d) of this section.

(b) Materials are solid waste if they are abandoned by being:

(1) Disposed of; or

(2) Burned or incinerated; or

(3) Accumulated, stored, or treated, but not recycled, before or in lieu of being abandoned by being disposed of, burned, or incinerated.

(c) Materials are solid wastes if they are recycled - or accumulated, stored, or treated before recycling - as specified in paragraphs (c)(1) through (c)(4) of this section. Table 1 of 40 CFR 261.2, 1998 ed., is adopted and incorporated by reference, except that the heading for column 3 shall read "reclamation (Section 261.2(c)(3)) (except as provided in 261.4(a)(17) for mineral processing secondary materials)."

(1) Used in a manner constituting disposal

(i) Materials noted with "\*" in column 1 of Table 1 of 40 CFR 261.2, are solid wastes when they are:

(A) Applied to or placed on the land in a manner that constitutes disposal; or

(B) Used to produce products that are applied to or placed on the land or are otherwise contained in products that are applied to or placed on the land, in which cases the product itself remains a solid waste.

(ii) However, commercial chemical products listed in R315-2-11 are not solid wastes if they are applied to the land and that is their ordinary manner of use.

(2) Burning for energy recovery.

(i) Materials noted with a "\*" in column 2 of Table 1 of 40 CFR 261.2 are solid wastes when they are:

(A) Burned to recover energy;

(B) Used to produce a fuel or are otherwise contained in fuels, in which cases the fuel itself remains a solid waste.

(ii) However, commercial chemical products listed in R315-2-11 are not solid wastes if they are themselves fuels.

(3) Reclaimed. Materials noted with a "\*" in column 3 of Table 1 of 40 CFR 261.2 are solid wastes when reclaimed, except as provided under R315-2-4(a)(17), which shall be effective on July 1, 1999. Materials noted with a "---" in column 3 of Table 1 are not solid wastes when reclaimed.

(4) Accumulated speculatively. Materials noted with a "\*" in column 4 of Table 1 of 40 CFR 261.2 are solid wastes when accumulated speculatively.

(d) Inherently waste-like materials. The following materials are solid wastes when they are recycled in any manner:

(1) Hazardous Waste Nos. F020, F021, unless used as an ingredient to make a product at the site of generation, F022, F023, F026, and F028.

(2) Secondary materials fed to a halogen acid furnace that exhibit a characteristic of a hazardous waste or are listed as a hazardous waste as defined in R315-2-9 through R315-2-10 and R315-2-24, except for brominated material that meets the following criteria:

(i) The material must contain a bromine concentration of at least 45%; and

(ii) The material must contain less than a total of 1% of toxic organic compounds listed in 40 CFR 261 Appendix VIII; and

(iii) The material is processed continually on-site in the halogen acid furnace via direct conveyance (hard piping).

(3) The Board will use the following criteria to add wastes to that list:

(i)(A) The materials are ordinarily disposed of, burned, or incinerated; or

(B) The materials contain toxic constituents listed in R315-50-10 and these constituents are not ordinarily found in raw materials or products for which the materials substitute, or are found in raw materials or products in smaller concentrations, and are not used or reused during the recycling process; and

(ii) The material may pose a substantial hazard to human health and the environment when recycled.

(e) Materials that are not solid waste when recycled.

(1) Materials are not solid wastes when they can be shown to be recycled by being:

(i) Used or reused as ingredients in an industrial process to make a product, provided the materials are not being reclaimed; or

(ii) Used or reused as effective substitutes for commercial products; or

(iii) Returned to the original process from which they are generated, without first being reclaimed or land disposed. The material shall be returned as a substitute for feedstock materials. In cases where the original process to which the material is returned is a secondary process, the materials must be managed such that there is no placement on the land. After June 30, 1999, in cases where the materials are generated and reclaimed within the primary mineral processing industry, the conditions of the exclusion found at R315-2-4(a)(16) apply rather than this provision.

(2) The following materials are solid wastes, even if the recycling involves use, reuse, or return to the original process, described in paragraphs (e)(1)(i)-(iii) of this section:

(i) Materials used in a manner constituting disposal, or used to produce products that are applied to the land; or

(ii) Materials burned for energy recovery, used to produce a fuel, or contained in fuels; or

(iii) Materials accumulated speculatively; or

(iv) Materials listed in paragraphs (d)(1) and (d)(2) of this section.

(f) Documentation of claims that materials are not solid

wastes or are conditionally exempt from regulation. Respondents in actions to enforce rules implementing the Utah Solid and Hazardous Waste Act who raise a claim that a certain material is not a solid waste, or is conditionally exempt from regulation, must demonstrate that there is a known market or disposition for the material, and that they meet the terms of the exclusion or exemption. In doing so, they must provide appropriate documentation, such as contracts showing that a second person uses the material as an ingredient in a production process, to demonstrate that the material is not a waste, or is exempt from regulation. In addition, owners or operators of facilities claiming that they actually are recycling materials must show that they have the necessary equipment to do so.

### R315-2-3. Definition of Hazardous Waste.

(a) A solid waste as defined in section R315-2-2 is a hazardous waste if:

(1) It is not excluded from regulation as a hazardous waste under subsection R315-2-4(b); and

(2) It meets any of the following criteria:

(i) It is listed in sections R315-2-10 or R315-2-11 and has not been excluded from this section under sections R315-2-16 or R315-2-17.

(ii) It exhibits any of the characteristics of hazardous waste identified in R315-2-9. However, any mixture of a waste from the extraction, beneficiation, and processing of ores and minerals excluded under R315-2-4(b)(7) and any other solid waste exhibiting a characteristic of hazardous waste under R315-2-9 is a hazardous waste only if it exhibits a characteristic that would not have been exhibited by the excluded waste alone if such mixture had not occurred, or if it continues to exhibit any of the characteristics exhibited by the non-excluded wastes prior to mixture. Further, for the purposes of applying the Toxicity Characteristic to such mixtures, the mixture is also a hazardous waste if it exceeds the maximum concentration for any contaminant listed in table I, 40 CFR 261.24, which R315-2-9(g)(2) incorporates by reference, that would not have been exceeded by the excluded waste alone if the mixture had not occurred or if it continues to exceed the maximum concentration for any contaminant exceeded by the nonexempt waste prior to mixture.

(iii) RESERVED.

(iv) It is a mixture of solid waste and one or more hazardous wastes listed in R315-2-10 or R315-2-11 and has not been excluded from paragraph (a)(2) of this section under R315-2-16 and R315-2-17, or paragraph (f) of this section; however, the following mixtures of solid wastes and hazardous wastes listed in R315-2-10 or R315-2-11 are not hazardous wastes, except by application of paragraph (a)(2)(i) or (ii) of this section, if the generator can demonstrate that the mixture consists of wastewater the discharge of which is subject to regulation under either Section 402 or Section 307(b) of the Clean Water Act, 33 U.S.C. 1251 et seq., including wastewater at facilities which have eliminated the discharge of wastewater, and;

(A) One or more of the following spent solvents listed in R315-2-10(e), which incorporates by reference 40 CFR 261.31 - carbon tetrachloride, tetrachloroethylene, trichloroethylene - provided that the maximum total weekly usage of these solvents, other than the amounts that can be demonstrated not to be discharged to wastewater, divided by the average weekly flow of wastewater into the headworks of the facility's wastewater treatment or pre-treatment system does not exceed 1 part per million; or

(B) One or more of the following spent solvents listed in R315-2-10(e), which incorporates by reference 40 CFR 261.31 - methylene chloride, 1,1,1-trichloroethane, chlorobenzene, o-dichlorobenzene, cresols, cresylic acid, nitrobenzene, toluene, methyl ethyl ketone, carbon disulfide, isobutanol, pyridine,

spent chlorofluorocarbon solvents - provided that the maximum total weekly usage of these solvents, other than the amounts that can be demonstrated not to be discharged to wastewater, divided by the average weekly flow of wastewater into the headworks of the facility's wastewater treatment or pre-treatment system does not exceed 25 parts per million; or

(C) One of the following wastes listed in R315-2-10(f), which incorporates by reference 40 CFR 261.32, provided that the wastes are discharged to the refinery oil recovery sewer before primary oil/water/solids separation - heat exchanger bundle cleaning sludge from the petroleum refining industry, EPA Hazardous Waste No. K050, crude oil storage tank sediment from petroleum refining operations, EPA Hazardous Waste No. K169, clarified slurry oil tank sediment and/or in-line filter/separation solids from petroleum refining operations, EPA Hazardous Waste No. K170, spent hydrotreating catalyst, EPA Hazardous Waste No. K171, and spent hydrorefining catalyst, EPA Hazardous Waste No. K172; or

(D) A discarded commercial chemical product, or chemical intermediate listed in R315-2-11, arising from "de minimis" losses of these materials from manufacturing operations in which these materials are used as raw materials or are produced in the manufacturing process. For purposes of this subparagraph, "de minimis" losses include those from normal material handling operations, for example, spills from the unloading or transfer of materials from bins or other containers, leaks from pipes, valves or other devices used to transfer materials; minor leaks of process equipment, storage tanks or containers; leaks from well-maintained pump packings and seals; sample purgings; relief device discharges; discharges from safety showers and rinsing and cleaning of personal safety equipment; and rinsate from empty containers or from containers that are rendered empty by that rinsing; or

(E) Wastewater resulting from laboratory operations containing toxic (T) wastes listed in Sections R315-2-10 or R315-2-11, which incorporates by reference 40 CFR 261 subpart D, provided that the annualized average flow of laboratory wastewater does not exceed one percent of total wastewater flow into the headworks of the facility's wastewater treatment or pre-treatment system, or provided the wastes, combined annualized average concentration does not exceed one part per million in the headworks of the facility's wastewater treatment or pre-treatment facility. Toxic (T) wastes used in laboratories that are demonstrated not to be discharged to wastewater are not to be included in this calculation; or

(F) One or more of the following wastes listed in R315-2-10(f), which incorporates by reference 40 CFR 261.32 - wastewaters from the production of carbamates and carbamoyl oximes, EPA Hazardous Waste No. K157 - Provided that the maximum weekly usage of formaldehyde, methyl chloride, methylene chloride, and triethylamine, including all amounts that can not be demonstrated to be reacted in the process, destroyed through treatment, or is recovered, i.e., what is discharged or volatilized, divided by the average weekly flow of process wastewater prior to any dilutions into the headworks of the facility's wastewater treatment system does not exceed a total of 5 parts per million by weight; or

(G) Wastewaters derived from the treatment of one or more of the following wastes listed in R315-2-10(f), which incorporates by reference 40 CFR 261.32 - organic waste, including heavy ends, still bottoms, light ends, spent solvents, filtrates, and decantates, from the production of carbamates and carbamoyl oximes, EPA Hazardous Waste No. K156 - Provided, that the maximum concentration of formaldehyde, methyl chloride, methylene chloride, and triethylamine prior to any dilutions into the headworks of the facility's wastewater treatment system does not exceed a total of 5 milligrams per liter.

(v) Rebuttable presumption for used oil. Used oil

containing more than 1000 ppm total halogens is presumed to be a hazardous waste because it has been mixed with halogenated hazardous waste listed in R315-2-10(e) and (f), which incorporates by reference 40 CFR 261 Subpart D. Persons may rebut this presumption by demonstrating that the used oil does not contain hazardous waste, for example, by using an analytical method from SW-846, Third Edition, to show that the used oil does not contain significant concentrations of halogenated hazardous constituents listed in R315-50-10, which incorporates by reference 40 CFR 261, Appendix VIII.

(A) The rebuttable presumption does not apply to metalworking oils/fluids containing chlorinated paraffins, if they are processed, through a tolling agreement, to reclaim metalworking oils/fluids. The presumption does apply to metalworking oils/fluids if such oils/fluids are recycled in any other manner, or disposed.

(B) The rebuttable presumption does not apply to used oils contaminated with chlorofluorocarbons (CFCs) removed from refrigeration units where the CFCs are destined for reclamation. The rebuttable presumption does apply to used oils contaminated with CFCs that have been mixed with used oil from sources other than refrigeration units.

(b) A solid waste which is not excluded from regulation under paragraph (a)(1) of this section becomes a hazardous waste when any of the following events occur:

(1) In the case of a waste listed in sections R315-2-10 or R315-2-11, when the waste first meets the listing description set forth in sections R315-2-10 or R315-2-11.

(2) In the case of the mixture of solid waste and one or more listed hazardous wastes, when a hazardous waste listed in sections R315-2-10 or R315-2-11 is first added to the solid waste.

(3) In the case of any other waste, including a waste mixture, when the waste exhibits any of the characteristics identified in section R315-2-9.

(c) Unless and until it meets the criteria of paragraph (d) of this section:

(1) A hazardous waste will remain a hazardous waste.

(2)(i) Except as otherwise provided in paragraph (c)(2)(ii) or (f) of this section, any solid waste generated from the treatment, storage, or disposal of a hazardous waste, including any sludge, spill residue, ash, emission control dust, or leachate, but not including precipitation run-off, is a hazardous waste. However, materials that are reclaimed from solid wastes and that are used beneficially are not solid wastes and hence are not hazardous wastes under this provision unless the reclaimed material is burned for energy recovery or used in a manner constituting disposal.

(ii) The following solid wastes are not hazardous even though they are generated from the treatment, storage, or disposal of a hazardous waste, unless they exhibit one or more of the characteristics of hazardous waste:

(A) Waste pickle liquor sludge generated by lime stabilization of spent pickle liquor from the iron and steel industry, SIC Codes 331 and 332.

(B) Wastes from burning any of the materials exempted from regulations by 40 CFR 261.6(a)(3)(iii) and (v). R315-2-6 incorporates by reference the requirements of 40 CFR 261.6 concerning recyclable materials.

(C)(1) Nonwastewater residues, such as slag, resulting from high temperature metals recovery (HTMR) processing of K061, K062, or F006 waste, in units identified as rotary kilns, flame reactors, electric furnaces, plasma arc furnaces, slag reactors, rotary hearth furnace/electric furnace combinations or industrial furnaces (as defined in 40 CFR 260.10 (6), (7), and (13) of the definition for "Industrial Furnace" which R315-1-1(b) incorporates by reference), that are disposed in solid waste landfills regulated under R315-301 through R315-320, provided that these residues meet the generic exclusion levels identified

below for all constituents, and exhibit no characteristics of hazardous waste. Testing requirements shall be incorporated in a facility's waste analysis plan or a generator's self-implementing waste analysis plan; at a minimum, composite samples of residues shall be collected and analyzed quarterly and/or when the process or operation generating the waste changes. Persons claiming this exclusion in an enforcement action will have the burden of proving by clear and convincing evidence that the material meets all of the exclusion requirements.

TABLE

Constituent Maximum for any single composite sample - TCLP (mg/l)

(2) A one-time notification and certification shall be placed in the facility's files and sent to the Executive Secretary for K061, K062 or F006 HTMR residues that meet the generic exclusion levels for all constituents and do not exhibit any characteristics that are sent to solid waste landfills regulated under R315-301 through R315-320. The notification and certification that is placed in the generators or treaters files shall be updated if the process or operation generating the waste changes and/or if the solid waste landfill regulated under R315-301 through R315-320 receiving the waste changes. However, the generator or treater need only notify the Executive Secretary on an annual basis if such changes occur. Such notification and certification should be sent to the Executive Secretary by the end of the calendar year, but no later than December 31. The notification shall include the following information: The name and address of the solid waste landfill regulated under R315-301 through R315-320 receiving the waste shipments; the EPA Hazardous Waste Number(s) and treatability group(s) at the initial point of generation; and, the treatment standards applicable to the waste at the initial point of generation. The certification shall be signed by an authorized representative and shall state as follows: "I certify under penalty of law that the generic exclusion levels for all constituents have been met without impermissible dilution and that no characteristic of hazardous waste is exhibited. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment."

(D) Biological treatment sludge from the treatment of one of the following wastes listed in R315-2-10(f), which incorporates by reference 40 CFR 261.32 - organic waste,

including heavy ends, still bottoms, light ends, spent solvents, filtrates, and decantates, from the production of carbamates and carbamoyl oximes, EPA Hazardous Waste No. K156, and wastewaters from the production of carbamates and carbamoyl oximes, EPA Hazardous Waste No. K157.

(E) Catalyst inert support media separated from one of the following wastes listed in R315-2-10(f), which incorporates by reference 40 CFR 261.32, - Spent hydrotreating catalyst, EPA Hazardous Waste No. K171, and Spent hydrorefining catalyst, EPA Hazardous Waste No. K172.

(d) Any solid waste described in paragraph (c) of this section is not a hazardous waste if it meets the following criteria:

(1) In the case of any solid waste, it does not exhibit any of the characteristics of hazardous waste identified in section R315-2-9. However, wastes that exhibit a characteristic at the point of generation may still be subject to the requirements of R315-13 which incorporates by reference 40 CFR 268, even if they no longer exhibit a characteristic at the point of land disposal.

(2) In the case of a waste which is a listed waste under sections R315-2-10 or R315-2-11, contains a waste listed under sections R315-2-10 or R315-2-11, or is derived from a waste listed in sections R315-2-10 or R315-2-11, it also has been excluded from paragraph (c) of this section under R315-2-16 and R315-2-17.

(e) Notwithstanding R315-2-3(a) through (d) and provided the debris as defined in R315-13, which incorporates by reference 40 CFR 268, does not exhibit a characteristic identified in R315-2-9, the following materials are not subject to regulation under R315-1, R315-2 to R315-8, R315-13, and R315-14:

(1) Hazardous debris as defined in R315-13, which incorporates by reference 40 CFR 268, that has been treated using one of the required extraction or destruction technologies specified in R315-13, which incorporates by reference 40 CFR 268.45 Table 1; persons claiming this exclusion in an enforcement action will have the burden of proving by clear and convincing evidence that the material meets all of the exclusion requirements; or

(2) Debris as defined in R315-13, which incorporates by reference 40 CFR 268, that the Board, considering the extent of contamination, has determined is no longer contaminated with hazardous waste.

(f)(1) A hazardous waste that is listed in R315-2-10 or R315-2-11 solely because it exhibits one or more characteristics of ignitability as defined under R315-2-9(d), corrosivity as defined under R315-2-9(e), or reactivity as defined under R315-2-9(f) is not hazardous waste, if the waste no longer exhibits any characteristic of hazardous waste identified in R315-2-9(a), (d), (e), (f), or (g).

(2) The exclusion described in paragraph (f)(1) of this section also pertains to

(i) Any mixture of a solid waste and a hazardous waste listed in R315-2-10 and R315-2-11 solely because it exhibits the characteristics of ignitability, corrosivity, or reactivity as regulated under R315-2-3(a)(2)(iv); and,

(ii) Any solid waste generated from treating, storing, or disposing of a hazardous waste listed in R315-2-10 and R315-2-11 solely because it exhibits the characteristics of ignitability, corrosivity, or reactivity as regulated under R315-2-3(c)(2)(i).

(3) Wastes excluded from R315-2-3 are subject to R315-13-1, which incorporates by reference 40 CFR 268, (as applicable), even if they no longer exhibit a characteristic at the point of land disposal.

(4) Any mixture of a solid waste excluded from regulation under R315-2-4(b)(7) and a hazardous waste listed in R315-2-10 and R315-2-11, which incorporates by reference 40 CFR 261 subpart D, solely because it exhibits one or more of the

characteristics of ignitability, corrosivity, or reactivity as regulated under paragraph (a)(2)(iv) of this section is not a hazardous waste, if the mixture no longer exhibits any characteristic of hazardous waste identified in R315-2-9(a), (d)-(g) for which the hazardous waste listed in R315-2-10 and R315-2-11, which incorporates by reference 40 CFR 261 subpart D, was listed.

#### **R315-2-4. Exclusions.**

##### **(a) MATERIALS WHICH ARE NOT SOLID WASTES.**

The following materials are not solid wastes for the purpose of this rule:

(1) Domestic sewage or any mixture of domestic sewage and other wastes that passes through a sewer system to a publicly-owned treatment works for treatment. "Domestic sewage" means untreated sanitary wastes that pass through a sewer system.

(2) Industrial wastewater discharges that are point source discharges subject to regulation under Section 402 of the Clean Water Act, as amended. This exclusion applies only to the actual point source discharge. It does not exclude industrial wastewaters while they are being collected, stored, or treated before discharge, nor does it exclude sludges that are generated by industrial wastewater treatment.

(3) Irrigation return flows.

(4) Source, special nuclear or by-product material as defined by the Atomic Energy Act of 1954, as amended, 42 U.S.C. Section 2011 et seq.

(5) Materials subjected to in-situ mining techniques which are not removed from the ground as part of the extraction process.

(6) Pulping liquors, black liquor that are reclaimed in a pulping liquor recovery furnace and then reused in the pulping process, unless it is accumulated speculatively as defined in subsection R315-1-1(c), which incorporates by reference 261.1(c), 40 CFR.

(7) Spent sulfuric acid used to produce virgin sulfuric acid, unless it is accumulated speculatively as defined in subsection R315-1-1(c), which incorporates by reference 261.1(c), 40 CFR.

(8) Secondary materials that are reclaimed and returned to the original process or processes in which they were generated where they are reused in the production process provided:

(i) Only tank storage is involved, and the entire process through completion of reclamation is closed by being entirely connected with pipes or other comparable enclosed means of conveyance;

(ii) Reclamation does not involve controlled flame combustion (such as occurs in boilers, industrial furnaces, or incinerators);

(iii) The secondary materials are never accumulated in such tanks for over twelve months without being reclaimed; and

(iv) The reclaimed material is not used to produce a fuel, or used to produce products that are used in a manner constituting disposal.

(9)(i) Spent wood preserving solutions that have been reclaimed and are reused for their original intended purpose; and

(ii) wastewaters from the wood preserving process that have been reclaimed and are reused to treat wood.

(iii) Prior to reuse, the wood preserving wastewaters and spent wood preserving solutions described in R315-2-4(a)(9)(i) and (ii), so long as they meet all of the following conditions:

(A) The wood preserving wastewaters and spent wood preserving solutions are reused onsite at water borne plants in the production process for their original intended purpose;

(B) Prior to reuse, the wastewaters and spent wood preserving solutions are managed to prevent release to either land or groundwater or both;

(C) Any unit used to manage wastewaters and/or spent wood preserving solutions prior to reuse can be visually or otherwise determined to prevent such releases;

(D) Any drip pad used to manage the wastewaters and/or spent wood preserving solutions prior to reuse complies with the standards in R315-7-28, which incorporates by reference 40 CFR 265.440 - 445, regardless of whether the plant generates a total of less than 100 kg/month of hazardous waste; and

(E) Prior to operating pursuant to this exclusion, the plant owner or operator submits to the Executive Secretary a one-time notification stating that the plant intends to claim the exclusion, giving the date on which the plant intends to begin operating under the exclusion, and containing the following language: "I have read the applicable regulation establishing an exclusion for wood preserving wastewaters and spent wood preserving solutions and understand it requires me to comply at all times with the conditions set out in the regulation." The plant must maintain a copy of that document in its on-site records for a period of no less than 3 years from the date specified in the notice. The exclusion applies only so long as the plant meets all of the conditions. If the plant goes out of compliance with any condition, it may apply to the Executive Secretary for reinstatement. The Executive Secretary may reinstate the exclusion upon finding that the plant has returned to compliance with all conditions and that violations are not likely to recur.

(10) EPA Hazardous Waste Nos. K060, K087, K141, K142, K143, K144, K145, K147, and K148, and any wastes from the coke by-products processes that are hazardous only because they exhibit the Toxicity Characteristic (TC) specified in R315-2-9(g) when, subsequent to generation, these materials are recycled to coke ovens, to the tar recovery process as a feedstock to produce coal tar or are mixed with coal tar prior to the tar's sale or refining. This exclusion is conditioned on there being no land disposal of the wastes from the point they are generated to the point they are recycled to coke ovens or the tar recovery or refining processes, or mixed with coal tar.

(11) Nonwastewater splash condenser dross residue from the treatment of K061 in high temperature metals recovery units, provided it is shipped in drums (if shipped) and not land disposed before recovery.

(12)(i) Oil-bearing hazardous secondary materials, i.e., sludges, byproducts, or spent materials, that are generated at a petroleum refinery, SIC code 2911, and are inserted into the petroleum refining process, SIC code 2911 - including distillation, catalytic cracking, fractionation, or thermal cracking units, i.e., cokers, unless the material is placed on the land, or speculatively accumulated before being so recycled. Materials inserted into thermal cracking units are excluded under this paragraph, provided that the coke product also does not exhibit a characteristic of hazardous waste. Oil-bearing hazardous secondary materials may be inserted into the same petroleum refinery where they are generated, or sent directly to another petroleum refinery, and still be excluded under this provision. Except as provided in R315-2-4(a)(12)(ii), oil-bearing hazardous secondary materials generated elsewhere in the petroleum industry, i.e., from sources other than petroleum refineries, are not excluded under R315-2-4. Residuals generated from processing or recycling materials excluded under this paragraph, where such materials as generated would have otherwise met a listing under R315-2-10, R315-2-11, R315-2-24, and R315-2-26, are designated as F037 listed wastes when disposed of or intended for disposal.

(ii) Recovered oil that is recycled in the same manner and with the same conditions as described in R315-2-4(a)(12)(i). Recovered oil is oil that has been reclaimed from secondary materials, including wastewater, generated from normal petroleum industry practices, including refining, exploration and production, bulk storage, and transportation incident thereto (SIC codes 1311, 1321, 1381, 1382, 1389, 2911, 4612, 4613,

4922, 4923, 4789, 5171, and 5152.) Recovered oil does not include oil-bearing hazardous wastes listed in R315-2-10, R315-2-11, R315-2-24, and R315-2-26; however, oil recovered from such wastes may be considered recovered oil. Recovered oil does not include used oil as defined in 19-6-703(19).

(13) Excluded scrap metal, processed scrap metal, unprocessed home scrap metal, and unprocessed prompt scrap metal, being recycled.

(14) Shredded circuit boards being recycled provided that they are:

(i) Stored in containers sufficient to prevent a release to the environment prior to recovery; and

(ii) Free of mercury switches, mercury relays, and nickel-cadmium batteries and lithium batteries.

(15) Condensates derived from the overhead gases from kraft mill steam strippers that are used to comply with 40 CFR 63.446(e). The exemption applies only to combustion at the mill generating the condensates.

(16) Comparable fuels or comparable syngas fuels, i.e., comparable/syngas fuels, that meet the requirements of R315-2-26, which incorporates by reference 40 CFR 261.38.

(17) Spent materials as defined in R315-1-1(c), which incorporates by reference 40 CFR 261.1, other than hazardous wastes listed in R315-2-10, 2-11, and 2-26 (which incorporate by reference 40 CFR 261 Subpart D), and R315-2-24, generated within the primary mineral processing industry from which minerals, acids, cyanide, water or other values are recovered by mineral processing or by beneficiation, provided that:

(i) The spent material is legitimately recycled to recover minerals, acids, cyanide, water or other values;

(ii) The spent material is not accumulated speculatively;

(iii) Except as provided in R315-2-4(a)(17)(iv), the spent material is stored in tanks, containers, or buildings meeting the following minimum integrity standards: a building must be an engineered structure with a floor, walls, and a roof all of which are made of non-earthen materials providing structural support, except smelter buildings may have partially earthen floors provided the secondary material is stored on the non-earthen portion, and have a roof suitable for diverting rainwater away from the foundation; a tank must be free standing, not be a surface impoundment as defined R315-1-1(b), which incorporates by reference 40 CFR 260.10, and be manufactured of a material suitable for containment of its contents; a container must be free standing and be manufactured of a material suitable for containment of its contents. If tanks or containers contain any particulate which may be subject to wind dispersal, the owner/operator must operate these units in a manner which controls fugitive dust. Tanks, containers, and buildings must be designed, constructed and operated to prevent significant releases to the environment of these materials.

(iv) The Executive Secretary may make a site-specific determination, after public review and comment, that only solid mineral processing spent materials may be placed on pads, rather than in tanks, containers, or buildings. Solid mineral processing spent materials do not contain any free liquid. The Executive Secretary must affirm that pads are designed, constructed and operated to prevent significant releases of the secondary material into the environment. Pads must provide the same degree of containment afforded by the non-RCRA tanks, containers and buildings eligible for exclusion.

(A) The Executive Secretary must also consider if storage on pads poses the potential for significant releases via groundwater, surface water, and air exposure pathways. Factors to be considered for assessing the groundwater, surface water, air exposure pathways are: the volume and physical and chemical properties of the secondary material, including its potential for migration off the pad; the potential for human or environmental exposure to hazardous constituents migrating from the pad via each exposure pathway, and the possibility and

extent of harm to human and environmental receptors via each exposure pathway.

(B) Pads must meet the following minimum standards: be designed of non-earthen material that is compatible with the chemical nature of the mineral processing spent material, capable of withstanding physical stresses associated with placement and removal, have run on/runoff controls, be operated in a manner which controls fugitive dust, and have integrity assurance through inspections and maintenance programs.

(C) Before making a determination under this paragraph, the Executive Secretary must provide notice and the opportunity for comment to all persons potentially interested in the determination. This can be accomplished by placing notice of this action in major local newspapers, or broadcasting notice over local radio stations.

(v) The owner or operator provides notice to the Executive Secretary, providing the following information: the types of materials to be recycled; the type and location of the storage units and recycling processes; and the annual quantities expected to be placed in land-based units. This notification must be updated when there is a change in the type of materials recycled or the location of the recycling process.

(vi) For purposes of R315-2-4(a)(7), mineral processing spent materials must be the result of mineral processing and may not include any listed hazardous wastes. Listed hazardous wastes and characteristic hazardous wastes generated by non-mineral processing industries are not eligible for the conditional exclusion from the definition of solid waste.

(vii) R315-2-4(a)(16) becomes effective July 1, 1999.

(18) Petrochemical recovered oil from an associated organic chemical manufacturing facility, where the oil is to be inserted into the petroleum refining process, SIC code 2911, along with normal petroleum refinery process streams, provided:

(i) The oil is hazardous only because it exhibits the characteristic of ignitability, as defined in R315-2-9(d), and/or toxicity for benzene, R315-2-9(g), waste code D018; and

(ii) The oil generated by the organic chemical manufacturing facility is not placed on the land, or speculatively accumulated before being recycled into the petroleum refining process. An "associated organic chemical manufacturing facility" is a facility where the primary SIC code is 2869, but where operations may also include SIC codes 2821, 2822, and 2865; and is physically co-located with a petroleum refinery; and where the petroleum refinery to which the oil being recycled is returned also provides hydrocarbon feedstocks to the organic chemical manufacturing facility. "Petrochemical recovered oil" is oil that has been reclaimed from secondary materials, i.e., sludges, byproducts, or spent materials, including wastewater, from normal organic chemical manufacturing operations, as well as oil recovered from organic chemical manufacturing processes.

(19) Spent caustic solutions from petroleum refining liquid treating processes used as a feedstock to produce cresylic or naphthenic acid unless the material is placed on the land, or accumulated speculatively as defined in R315-1-1(c), which incorporates by reference 40 CFR 261.1(c).

(20) Hazardous secondary materials used to make zinc fertilizers, provided that the conditions specified below are satisfied:

(i) Hazardous secondary materials used to make zinc micronutrient fertilizers must not be accumulated speculatively, as defined in R315-1-1(c) which incorporates by reference 40 CFR 261.1(c)(8).

(ii) Generators and intermediate handlers of zinc-bearing hazardous secondary materials that are to be incorporated into zinc fertilizers must:

(A) Submit a one-time notice to the Executive Secretary which contains the name, address and EPA ID number of the generator or intermediate handler facility, provides a brief description of the secondary material that will be subject to the

exclusion, and identifies when the manufacturer intends to begin managing excluded, zinc-bearing hazardous secondary materials under the conditions specified in R315-2-4(a)(20).

(B) Store the excluded secondary material in tanks, containers, or buildings that are constructed and maintained in a way that prevents releases of the secondary materials into the environment. At a minimum, any building used for this purpose must be an engineered structure made of non-earthen materials that provide structural support, and must have a floor, walls and a roof that prevent wind dispersal and contact with rainwater. Tanks used for this purpose must be structurally sound and, if outdoors, must have roofs or covers that prevent contact with wind and rain. Containers used for this purpose must be kept closed except when it is necessary to add or remove material, and must be in sound condition. Containers that are stored outdoors must be managed within storage areas that:

(1) have containment structures or systems sufficiently impervious to contain leaks, spills and accumulated precipitation;

(2) provide for effective drainage and removal of leaks, spills and accumulated precipitation; and

(3) prevent run-on into the containment system.

(C) With each off-site shipment of excluded hazardous secondary materials, provide written notice to the receiving facility that the material is subject to the conditions of R315-2-4(a)(20).

(D) Maintain at the generator's or intermediate handler's facility for no less than three years records of all shipments of excluded hazardous secondary materials. For each shipment these records must at a minimum contain the following information:

(1) Name of the transporter and date of the shipment;

(2) Name and address of the facility that received the excluded material, and documentation confirming receipt of the shipment; and

(3) Type and quantity of excluded secondary material in each shipment.

(iii) Manufacturers of zinc fertilizers or zinc fertilizer ingredients made from excluded hazardous secondary materials must:

(A) Store excluded hazardous secondary materials in accordance with the storage requirements for generators and intermediate handlers, as specified in R315-2-4(a)(20)(ii)(B).

(B) Submit a one-time notification to the Executive Secretary that, at a minimum, specifies the name, address and EPA ID number of the manufacturing facility, and identifies when the manufacturer intends to begin managing excluded, zinc-bearing hazardous secondary materials under the conditions specified in R315-2-4(a)(20).

(C) Maintain for a minimum of three years records of all shipments of excluded hazardous secondary materials received by the manufacturer, which must at a minimum identify for each shipment the name and address of the generating facility, name of transporter and date the materials were received, the quantity received, and a brief description of the industrial process that generated the material.

(D) Submit to the Executive Secretary an annual report that identifies the total quantities of all excluded hazardous secondary materials that were used to manufacture zinc fertilizers or zinc fertilizer ingredients in the previous year, the name and address of each generating facility, and the industrial process(es) from which they were generated.

(iv) Nothing in this section preempts, overrides or otherwise negates the provision in R315-5-1.11, which incorporates by reference 40 CFR 262.11, which requires any person who generates a solid waste to determine if that waste is a hazardous waste.

(v) Interim status and permitted storage units that have been used to store only zinc-bearing hazardous wastes prior to

the submission of the one-time notice described in R315-2-4(a)(20)(ii)(A), and that afterward will be used only to store hazardous secondary materials excluded under this paragraph, are not subject to the closure requirements of R315-7 and R315-8.

(21) Zinc fertilizers made from hazardous wastes, or hazardous secondary materials that are excluded under R315-2-4(a)(20), provided that:

- (i) The fertilizers meet the following contaminant limits:
- (A) For metal contaminants:

TABLE

Constituent	Maximum Allowable Total Concentration in Fertilizer, per Unit (1%) of Zinc ppm)
Arsenic	0.3
Cadmium	1.4
Chromium	0.6
Lead	2.8
Mercury	0.3

(B) For dioxin contaminants the fertilizer must contain no more than eight (8) parts per trillion of dioxin, measured as toxic equivalent (TEQ).

(ii) The manufacturer performs sampling and analysis of the fertilizer product to determine compliance with the contaminant limits for metals no less than every six months, and for dioxins no less than every twelve months. Testing must also be performed whenever changes occur to manufacturing processes or ingredients that could significantly affect the amounts of contaminants in the fertilizer product. The manufacturer may use any reliable analytical method to demonstrate that no constituent of concern is present in the product at concentrations above the applicable limits. It is the responsibility of the manufacturer to ensure that the sampling and analysis are unbiased, precise, and representative of the product(s) introduced into commerce.

(iii) The manufacturer maintains for no less than three years records of all sampling and analyses performed for purposes of determining compliance with the requirements of R315-2-4(a)(21)(ii). Such records must at a minimum include:

- (A) The dates and times product samples were taken, and the dates the samples were analyzed;
- (B) The names and qualifications of the person(s) taking the samples;
- (C) A description of the methods and equipment used to take the samples;
- (D) The name and address of the laboratory facility at which analyses of the samples were performed;
- (E) A description of the analytical methods used, including any cleanup and sample preparation methods; and
- (F) All laboratory analytical results used to determine compliance with the contaminant limits specified in R315-2-4(a)(21).

**(b) SOLID WASTES WHICH ARE NOT HAZARDOUS WASTES.**

The following solid wastes are not hazardous wastes:

(1) Household waste, including household waste that has been collected, transported, stored, treated, disposed, recovered, such as refuse-derived fuel or reused. "Household waste" means any material, including garbage, trash and sanitary wastes in septic tanks, derived from households, including single and multiple residences, hotels and motels, bunkhouses, ranger stations, crew quarters, campgrounds, picnic grounds and day-use recreation areas. A resource recovery facility managing municipal solid waste shall not be deemed to be treating, storing, disposing of or otherwise managing hazardous wastes for the purposes of regulation under this subtitle, if the facility:

- (i) Receives and burns only
- (A) Household waste, from single and multiple dwellings, hotels, motels, and other residential sources and

(B) Solid waste from commercial of industrial sources that does not contain hazardous waste; and

(ii) The facility does not accept hazardous wastes and the owner or operator of the facility has established contractual requirements or other appropriate notification or inspection procedures to assure that hazardous wastes are not received at or burned in the facility.

(2) Solid wastes generated by any of the following and which are returned to the soil as fertilizers:

- (i) The growing and harvesting of agricultural crops.
- (ii) The raising of animals, including animal manures.
- (3) Mining overburden returned to the mine site.
- (4) Fly ash waste, bottom ash waste, slag waste, and flue gas emission control waste generated primarily from the combustion of coal or other fossil fuels, except as provided by R315-14-7, which incorporates by reference 40 CFR 266.112, for facilities that burn or process hazardous waste.

(5) Drilling fluids, produced waters, and other wastes associated with the exploration, development, or production of crude oil, natural gas or geothermal energy.

(6) The following additional solid wastes:

(i) Wastes which fail the test for the Toxicity Characteristic because chromium is present or are listed in sections R315-2-10 or R315-2-11 due to the presence of chromium, which do not fail the test for the Toxicity Characteristic for any other constituent or are not listed due to the presence of any other constituent, and which do not fail the test for any other characteristic, if it is shown by a waste generator or by waste generators that:

- (A) The chromium in the waste is exclusively, or nearly exclusively, trivalent chromium; and
- (B) The waste is generated from an industrial process which uses trivalent chromium exclusively, or nearly exclusively, and the process does not generate hexavalent chromium; and

(C) The waste is typically and frequently managed in non-oxidizing environments.

(ii) Specific wastes which meet the standard in paragraphs (b)(6)(i)(A),(B), and (C) of this section, so long as they do not fail the test for the toxicity characteristic for any other constituent, and do not exhibit any other characteristic, are:

(A) Chrome blue trimmings generated by the following subcategories of the leather tanning and finishing industry: hair pulp/chrome tan/retan/wet finish; hair save/chrome tan/retan/wet finish; retan/wet finish; no beamhouse; through-the-blue; and shearing.

(B) Chrome blue shavings generated by the following subcategories of the leather tanning and finishing industry: hair pulp/chrome tan/retan/wet finish; hair save/chrome tan/retan/wet finish; retan/wet finish; no beamhouse; through-the-blue; and shearing.

(C) Buffing dust generated by the following subcategories of the leather tanning and finishing industry: hair pulp/chrome tan/retan/wet finish; hair save/chrome tan/retan/wet finish; retan/wet finish; no beamhouse; through-the-blue.

(D) Sewer screenings generated by the following subcategories of the leather tanning and finishing industry: hair/pulp/chrome tan/retan/wet finish; hair save/chrome tan/retan/wet finish; retan/wet finish; no beamhouse; through-the-blue; and shearing.

(E) Wastewater treatment sludges generated by the following subcategories of the leather tanning and finishing industry: hair pulp/chrome tan/retan/wet finish; hair save/chrome tan/retan/wet finish; retan/wet finish; no beamhouse; through-the-blue; and shearing.

(F) Wastewater treatment sludges generated by the following subcategories of the leather tanning and finishing industry: hair pulp/chrome tan/retan/wet finish; hair save/chrome tan/retan/wet finish; and through-the-blue.

(G) Waste scrap leather from the leather tanning industry, the shoe manufacturing industry, and other leather product manufacturing industries.

(H) Wastewater treatment sludges from the production of TiO<sub>2</sub> pigment using chromium-bearing ores by the chloride process.

(7) Solid waste from the extraction, beneficiation, and processing of ores and minerals, including coal, phosphate rock, and overburden from the mining of uranium ore, except as provided by R315-14-7, which incorporates by reference 40 CFR 266.112 for facilities that burn or process hazardous waste.

(i) For purposes of R315-2-4(b)(7) beneficiation of ores and minerals is restricted to the following activities; crushing; grinding; washing; dissolution; crystallization; filtration; sorting; sizing; drying; sintering; pelletizing; briquetting; calcining to remove water and/or carbon dioxide; roasting, autoclaving, and/or chlorination in preparation for leaching (except where the roasting (and/or autoclaving and/or chlorination)/leaching sequence produces a final or intermediate product that does not undergo further beneficiation or processing); gravity concentration; magnetic separation; electrostatic separation; flotation; ion exchange; solvent extraction; electrowinning; precipitation; amalgamation; and heap, dump, vat, tank, and in situ leaching.

(ii) For the purposes of R315-2-4(b)(7), solid waste from the processing of ores and minerals includes only the following wastes as generated:

- (A) Slag from primary copper processing;
- (B) Slag from primary lead processing;
- (C) Red and brown muds from bauxite refining;
- (D) Phosphogypsum from phosphoric acid production;
- (E) Slag from elemental phosphorus production ;
- (F) Gasifier ash from coal gasification;
- (G) Process wastewater from coal gasification;
- (H) Calcium sulfate wastewater treatment plant sludge from primary copper processing;
- (I) Slag tailings from primary copper processing;
- (J) Fluorogypsum from hydrofluoric acid production;
- (K) Process wastewater from hydrofluoric acid production;
- (L) Air pollution control dust/sludge from iron blast furnaces;
- (M) Iron blast furnace slag;
- (N) Treated residue from roasting/leaching of chrome ore;
- (O) Process wastewater from primary magnesium processing by the anhydrous process;
- (P) Process wastewater from phosphoric acid production;
- (Q) Basic oxygen furnace and open hearth furnace air pollution control dust/sludge from carbon steel production;
- (R) Basic oxygen furnace and open hearth furnace slag from carbon steel production;
- (S) Chloride process waste solids from titanium tetrachloride production;
- (T) Slag from primary zinc processing.

(iii) A residue derived from co-processing mineral processing secondary materials with normal beneficiation raw materials or with normal mineral processing raw materials remains excluded under R315-2-4(b) if the owner or operator:

- (A) Processes at least 50 percent by weight normal beneficiation raw materials or normal mineral processing raw materials; and,
- (B) Legitimately reclaims the secondary mineral processing materials.

(8) Cement kiln dust waste, except as provided by R315-14-7, which incorporates by reference 40 CFR 266.112, for facilities that burn or process hazardous waste.

(9) Solid waste which consists of discarded arsenical-treated wood or wood products which fails the test for the Toxicity Characteristic for Hazardous Waste Codes D004 through D017 and which is not a hazardous waste for any other

reason if the waste is generated by persons who utilize the arsenical-treated wood and wood products for these materials' intended end use.

(10) Petroleum-contaminated media and debris that fail the test for the Toxicity Characteristic (TC) of R315-2-9(g), Hazardous Waste Codes D018 through D043 only, and are subject to the corrective action requirements under R311-202, which incorporates by reference 40 CFR 280.

(11) Injected groundwater that is hazardous only because it exhibits the Toxicity Characteristic, Hazardous Waste Codes D018 through D043 only, in R315-2-9(e) that is reinjected through an underground injection well pursuant to free phase hydrocarbon recovery operations undertaken at petroleum refineries, petroleum marketing terminals, petroleum bulk plants, petroleum pipelines, and petroleum transportation spill sites until January 25, 1993. This extension applies to recovery operations in existence, or for which contracts have been issued, on or before March 25, 1991. For groundwater returned through infiltration galleries from such operations at petroleum refineries, marketing terminals, and bulk plants, until October 2, 1991. New operations involving injection wells, beginning after March 25, 1991, will qualify for this compliance date extension until January 25, 1993, only if:

(i) Operations are performed pursuant to a written state agreement that includes a provision to assess the groundwater and the need for further remediation once the free phase recovery is completed; and

(ii) A copy of the written agreement has been submitted to: Characteristics Section (OS-333), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460 and the Division of Solid and Hazardous Waste, Dept. of Environmental Quality, State of Utah, Salt Lake City, UT 84114-4880.

(12) Used chlorofluorocarbon refrigerants from totally enclosed heat transfer equipment, including mobile air conditioning systems, mobile refrigeration, and commercial and industrial air conditioning and refrigeration systems that use chlorofluorocarbons as the heat transfer fluid in a refrigeration cycle, provided the refrigerant is reclaimed for further use.

(13) Used oil re-refining distillation bottoms that are used as feedstock to manufacture asphalt products.

(14) Non-terne plated used oil filters that are not mixed with wastes listed in R315-2-10(e) and (f) and R315-2-11, which incorporate by reference 40 CFR 261 Subpart D, if these oil filters have been gravity hot-drained using one of the following methods:

(i) Puncturing the filter anti-drain back valve or the filter dome end and hot draining;

(ii) Hot-draining and crushing;

(iii) Dismantling and hot-draining; or

(iv) Any other equivalent hot-draining method that will remove used oil.

(15) Leachate or gas condensate collected from landfills where certain solid wastes have been disposed, provided that:

(i) The solid wastes disposed would meet one or more of the listing descriptions for Hazardous Waste Codes K169, K170, K171, K172, K174, K175, K176, K177, K178, and K181 if these wastes had been generated after the effective date of the listing;

(ii) The solid wastes described in paragraph R315-2-4(b)(15)(i) were disposed prior to the effective date of the listing;

(iii) The leachate or gas condensate does not exhibit any characteristic of hazardous waste nor are derived from any other listed hazardous waste;

(iv) Discharge of the leachate or gas condensate, including leachate or gas condensate transferred from the landfill to a POTW by truck, rail, or dedicated pipe, is subject to regulation under R317-8 of the Utah Water Quality Rules.

(v) As of February 13, 2001, leachate or gas condensate derived from K169-K172 is no longer exempt if it is stored or managed in a surface impoundment prior to discharge. As of November 21, 2003, leachate or gas condensate derived from K176, K177, and K 178 is no longer exempt if it is stored or managed in a surface impoundment prior to discharge. After February 26, 2007, leachate or gas condensate derived from K181 will no longer be exempt if it is stored or managed in a surface impoundment prior to discharge. There is one exception: if the surface impoundment is used to temporarily store leachate or gas condensate in response to an emergency situation, e.g., shutdown of wastewater treatment system, provided the impoundment has a double liner, and provided the leachate or gas condensate is removed from the impoundment and continues to be managed in compliance with the conditions of this paragraph after the emergency ends.

(c) HAZARDOUS WASTES WHICH ARE EXEMPTED FROM CERTAIN RULES.

A hazardous waste which is generated in a product or raw material storage tank, a product or raw material transport vehicle or vessel, a product or raw material pipeline, or in a manufacturing process unit or an associated non-waste-treatment-manufacturing unit is not subject to these regulations or to the notification requirements of Section 3010 of RCRA until it exits the unit in which it was generated, unless the unit is a surface impoundment, or unless the hazardous waste remains in the unit more than 90 days after the unit ceases to be operated for manufacturing, or for storage or transportation of products or raw materials.

(d) SAMPLES

(1) Except as provided in paragraph (d)(2) of this section, a sample of solid waste or a sample of water, soil, or air, which is collected for the sole purpose of testing to determine its characteristics or compositions, is not subject to any requirements of these rules when:

- (i) The sample is being transported to a laboratory for the purpose of testing;
- (ii) The sample is being transported back to the sample collector after testing;
- (iii) The sample is being stored by the sample collector before transport to a laboratory for testing;
- (iv) The sample is being stored in a laboratory before testing;
- (v) The sample is being stored in a laboratory after testing but before it is returned to the sample collector; or
- (vi) The sample is being stored temporarily in the laboratory after testing for a specific purpose, for example, until conclusion of a court case or enforcement action where further testing of the sample may be necessary.

(2) In order to qualify for the exemption in paragraphs (d)(1)(i) and (ii) of this section, a sample collector shipping samples to a laboratory and a laboratory returning samples to a sample collector shall:

- (i) Comply with U.S. Department of Transportation (DOT), U.S. Postal Service (USPS), or any other applicable shipping requirements; or
- (ii) Comply with the following requirements if the sample collector determines that DOT, USPS, or other shipping requirements do not apply to the shipment of the sample:
  - (A) Assure that the following information accompanies the sample:
    - (1) The sample collector's name, mailing address, and telephone number;
    - (2) The laboratory's name, mailing address, and telephone number;
    - (3) The quantity of the sample;
    - (4) The date of shipment; and
    - (5) A description of the sample.
  - (B) Package the sample so that it does not leak, spill, or

vaporize from its packaging.

(3) This exemption does not apply if the laboratory determines that the waste is hazardous but the laboratory is no longer meeting any of the conditions stated in paragraph (d)(1) of this section.

(e) TREATABILITY STUDY SAMPLES.

(1) Except as provided in paragraph (e)(2) of this Section, a person who generates or collects samples for the purpose of conducting treatability studies as defined in section R315-1-1, which incorporates by reference the definitions of 40 CFR 260.10, are not subject to any requirement of R315-2, R315-5, and R315-6, or to the notification requirements of Section 3010 of RCRA, nor are these samples included in the quantity determinations of R315-2-5, which incorporates by reference the requirements concerning conditionally exempt small quantity generators of 40 CFR 261.5 and R315-5-3.34, which incorporates by reference the requirements concerning waste accumulation time for generators of 40 CFR 262.34(d) when:

- (i) the sample is being collected and prepared for transportation by the generator or sample collector;
- (ii) the sample is being accumulated or stored by the generator or sample collector prior to transportation to a laboratory or testing facility; or
- (iii) the sample is being transported to the laboratory or testing facility for the purpose of conducting a treatability study.

(2) The exemption in paragraph (e)(1) of this section is applicable to samples of hazardous waste being collected and shipped for the purpose of conducting treatability studies provided that:

- (i) The generator or sample collector uses, in "treatability studies," no more than 10,000 kg of media contaminated with non-acute hazardous waste, 1000 kg of non-acute hazardous waste other than contaminated media, 1 kg of acute hazardous waste, 2500 kg of media contaminated with acute hazardous waste for each process being evaluated for each generated waste stream;
- (ii) The mass of each sample shipment does not exceed 10,000 kg; the 10,000 kg quantity may be all media contaminated with non-acute hazardous waste, or may include 2500 kg of media contaminated with acute hazardous waste, 1000 kg of hazardous waste, and 1 kg of acute hazardous waste; and
- (iii) the sample shall be packaged so that it will not leak, spill, or vaporize from its packaging during shipment and the requirements of paragraph A or B of this subparagraph are met;

(A) the transportation of each sample shipment complies with U.S. Department of Transportation (DOT), U.S. Postal Service (USPS), or any other applicable shipping requirements; or

(B) if the DOT, USPS, or other shipping requirements do not apply to the shipment of the sample, the following information shall accompany the sample:

- (1) the name, mailing address, and telephone number of the originator of the sample;
- (2) the name, address, and telephone number of the facility that will perform the treatability study;
- (3) the quantity of the sample;
- (4) the date of shipment; and
- (5) a description of the sample, including its EPA Hazardous Waste Number.

(iv) the sample is shipped to a laboratory or testing facility which is exempt under R315-2-4(f) (40 CFR 261.4(f)) or has an appropriate RCRA permit or interim status;

(v) the generator or sample collector maintains the following records for a period ending 3 years after completion of the treatability study:

- (A) copies of the shipping documents;
- (B) a copy of the contract with the facility conducting the treatability study;

(C) documentation showing:

- (1) the amount of waste shipped under this exemption;
- (2) the name, address, and EPA identification number of the laboratory or testing facility that received the waste;
- (3) the date the shipment was made; and
- (4) whether or not unused samples and residues were returned to the generator.

(vi) the generator reports the information required under paragraph (e)(v)(C) of this section in its biennial report.

(3) The Executive Secretary may grant requests on a case-by-case basis for up to an additional two years for treatability studies involving bioremediation. The Executive Secretary may grant requests on a case-by-case basis for quantity limits in excess of those specified in paragraphs (e)(2) (i) and (ii) and (f)(4) of this section, for up to an additional 5000 kg of media contaminated with non-acute hazardous waste, 500 kg of non-acute hazardous waste, 2500 kg of media contaminated with acute hazardous waste and 1 kg of acute hazardous waste:

(i) In response to requests for authorization to ship, store and conduct treatability studies on additional quantities in advance of commencing treatability studies. Factors to be considered in reviewing such requests include the nature of the technology, the type of process, e.g., batch versus continuous, size of the unit undergoing testing, particularly in relation to scale-up considerations, the time/quantity of material required to reach steady state operating conditions, or test design considerations such as mass balance calculations.

(ii) In response to requests for authorization to ship, store and conduct treatability studies on additional quantities after initiation or completion of initial treatability studies, when: There has been an equipment or mechanical failure during the conduct of a treatability study; there is a need to verify the results of a previously conducted treatability study; there is a need to study and analyze alternative techniques within a previously evaluated treatment process; or there is a need to do further evaluation of an ongoing treatability study to determine final specifications for treatment.

(iii) The additional quantities and time frames allowed in paragraph (e)(3) (i) and (ii) of this section are subject to all the provisions in paragraphs (e) (1) and (e)(2) (iii) through (vi) of this section. The generator or sample collector must apply to the Executive Secretary and provide in writing the following information:

(A) The reason why the generator or sample collector requires additional time or quantity of sample for treatability study evaluation and the additional time or quantity needed;

(B) Documentation accounting for all samples of hazardous waste from the waste stream which have been sent for or undergone treatability studies including the date each previous sample from the waste stream was shipped, the quantity of each previous shipment, the laboratory or testing facility to which it was shipped, what treatability study processes were conducted on each sample shipped, and the available results on each treatability study;

(C) A description of the technical modifications or change in specifications which will be evaluated and the expected results;

(D) If such further study is being required due to equipment or mechanical failure, the applicant must include information regarding the reason for the failure or breakdown and also include what procedures or equipment improvements have been made to protect against further breakdowns; and

(E) Such other information that the Executive Secretary considers necessary.

**(f) SAMPLES UNDERGOING TREATABILITY STUDIES AT LABORATORIES AND TESTING FACILITIES.**

Samples undergoing treatability studies and the laboratory or testing facility that conducts these treatability studies, to the

extent these facilities are not otherwise subject to RCRA requirements, are not subject to any requirement of this rule, R315-3 through R315-8, and R315-13, or to the notification requirements of Section 3010 of RCRA provided that the conditions of paragraphs (f)(1) through (11) of this Section are met. A mobile treatment unit (MTU) may qualify as a testing facility subject to paragraphs (f)(1) through (11) of this section. Where a group of MTUs are located at the same site, the limitations specified in (f)(1) through (11) of this section apply to the entire group of MTUs collectively as if the group were one MTU.

(1) No less than 45 days before conducting treatability studies, the facility notifies the Executive Secretary in writing that it intends to conduct treatability studies under this paragraph.

(2) The laboratory or testing facility conducting the treatability study has an EPA identification number.

(3) No more than a total of 10,000 kg of "as received" media contaminated with non-acute hazardous waste, 2500 kg of media contaminated with acute hazardous waste or 250 kg of other "as received" hazardous waste is subject to initiation of treatment in all treatability studies in any single day. "As received" waste refers to the waste as received in the shipment from the generator or sample collector.

(4) The quantity of "as received" hazardous waste stored at the facility for the purpose of evaluation in treatability studies does not exceed 10,000 kg, the total of which can include 10,000 kg of media contaminated with non-acute hazardous waste, 2500 kg of media contaminated with acute hazardous waste, 1000 kg of non-acute hazardous wastes other than contaminated media, and 1 kg of acute hazardous waste. This quantity limitation does not include treatment materials, including nonhazardous solid waste, added to "as received" hazardous waste.

(5) No more than 90 days have elapsed since the treatability study for the sample was completed, or no more than one year, two years for treatability studies involving bioremediation, have elapsed since the generator or sample collector shipped the sample to the laboratory or testing facility, whichever date first occurs. Up to 500 kg of treated material from a particular waste stream from treatability studies may be archived for future evaluation up to five years from the date of initial receipt. Quantities of materials archived are counted against the total storage limit for the facility.

(6) The treatability study does not involve the placement of hazardous waste on the land or open burning of hazardous waste.

(7) The facility maintains records for three years following completion of each study that show compliance with the treatment rate limits and the storage time and quantity limits. The following specific information shall be included for each treatability study conducted:

(i) the name, address, and EPA identification number of the generator or sample collector of each waste sample;

(ii) the date the shipment was received;

(iii) the quantity of waste accepted;

(iv) the quantity of "as received" waste in storage each day;

(v) the date the treatment study was initiated and the amount of "as received" waste introduced to treatment each day;

(vi) the date the treatability study was concluded; and

(vii) the date any unused sample or residues generated from the treatability study were returned to the generator or sample collector or, if sent to a designated facility, the name of the facility and the EPA identification number.

(8) The facility keeps, on-site, a copy of the treatability study contract and all shipping papers associated with the transport of treatability study samples to and from the facility for a period ending three years from the completion date of each

treatability study.

(9) The facility prepares and submits a report to the Executive Secretary by March 15 of each year that estimates the number of studies and the amount of waste expected to be used in treatability studies during the current year, and includes the following information for the previous calendar year:

- (i) the name, address, and EPA identification number of the facility conducting the treatability studies;
- (ii) the types, by process, of treatability studies conducted;
- (iii) the names and addresses of persons for whom studies have been conducted, including their EPA identification numbers;
- (iv) the total quantity of waste in storage each day;
- (v) the quantity and types of waste subjected to treatability studies;
- (vi) when each treatability study was conducted; and
- (vii) the final disposition of residues and unused sample from each treatability study.

(10) The facility determines whether any unused sample or residues generated by the treatability study are hazardous waste under R315-2-3 and, if so, are subject to R315-2 through R315-8, and R315-13, unless the residues and unused samples are returned to the sample originator under the exemption of paragraph (e) of this section.

(11) The facility notifies the Executive Secretary by letter when the facility is no longer planning to conduct any treatability studies at the site.

(g) **DREDGED MATERIAL THAT IS NOT A HAZARDOUS WASTE.**

Dredged material that is subject to the requirements of a permit that has been issued under 404 of the Federal Water Pollution Control Act (33 U.S.C. 1344) or section 103 of the Marine Protection, Research, and Sanctuaries Act of 1972 (33 U.S.C. 1413) is not a hazardous waste. For this paragraph (g), the following definitions apply:

- (1) The term dredged material has the same meaning as defined in 40 CFR 232.2;
- (2) The term permit means:
  - (i) A permit issued by the U.S. Army Corps of Engineers (Corps) or the Utah State Division of Water Quality;
  - (ii) A permit issued by the Corps under section 103 of the Marine Protection, Research, and Sanctuaries Act of 1972 (33 U.S.C. 1413); or
  - (iii) In the case of Corps civil works projects, the administrative equivalent of the permits referred to in paragraphs R315-2-4(g)(2)(i) and (ii), as provided for in Corps regulations.

#### **R315-2-5. Special Requirements for Hazardous Waste Generated by Conditionally Exempt Small Quantity Generators.**

The requirements of 40 CFR 261.5, 1996 ed., are adopted and incorporated by reference.

#### **R315-2-6. Requirements for Recyclable Materials.**

The requirements of 40 CFR 261.6, 1998 ed., as amended by 63 FR 42110, August 6, 1998, are adopted and incorporated by reference within this rule, except for the following changes:

(a) Paragraph 40 CFR 261.6(a)(5) shall be amended to read as follows:

Hazardous waste as identified in 40 CFR 262.80(a) that is exported to or imported from designated member countries of the Organization for Economic Cooperation and Development (OECD) (as defined in Section 262.58(a)(1)) for purpose of recovery is subject to the requirements of 40 CFR part 262, subpart H, if it is subject to either the Federal manifesting requirements of 40 CFR Part 262, to the universal waste management standards of 40 CFR Part 273, or to State requirements analogous to 40 CFR Part 273.

#### **R315-2-7. Residues of Hazardous Waste in Empty Containers.**

(a)(1) Any hazardous waste remaining in either

- (i) an empty container, or
- (ii) an empty inner liner removed from a container, as defined in paragraph (b) of this section, is not subject to regulation under R315-2 through R315-13.

(2) Any hazardous waste in either:

- (i) a container that is not empty, or
- (ii) an inner liner removed from a container that is not empty, as defined in paragraph (b) of this section, is subject to regulation under R315-2 through R315-13.

(b)(1) A container or an inner liner removed from a container that has held any hazardous waste, except a waste that is a compressed gas or that is identified as acute hazardous waste listed in sections R315-2-10 or R315-2-11 is empty if:

(i) All wastes have been removed that can be removed using the practices commonly employed to remove materials from that type of container, e.g., pouring, pumping, and aspirating; and

(ii) No more than 2.5 centimeters, one inch, of residue remains on the bottom of the container or inner liner; or

(iii)(A) No more than three percent by weight of the total capacity of the container remains in the container or inner liner if the container is less than or equal to 119 gallons in size, or

(B) No more than 0.3 percent by weight of the total capacity of the container remains in the container or inner liner if the container is greater than 119 gallons in size.

(2) A container that has held a hazardous waste that is a compressed gas is empty when the pressure in the container approaches atmospheric.

(3) A container or an inner liner removed from a container that has held an acute hazardous waste listed in sections R315-2-10 or R315-2-11 is empty if:

(i) The container or inner liner has been triple rinsed using a solvent capable of removing the commercial chemical product or manufacturing chemical intermediate;

(ii) The container or inner liner has been cleaned by another method that has been shown in the scientific literature, or by tests conducted by the generator, to achieve equivalent removal; or

(iii) In the case of a container, the inner liner that prevented contact of the commercial chemical product or manufacturing chemical intermediate with the container, has been removed.

#### **R315-2-8. PCB Wastes Regulated under the Toxic Substance Control Act, 42 U.S.C. et seq.**

The disposal of PCB-containing dielectric fluid and electric equipment containing such fluid authorized for use and regulated under part 761 40 CFR and that are hazardous only because they fail the test for the Toxicity Characteristic, hazardous codes D018 through D043 only, are exempt from regulation under R315-2 through R315-50 and the notification requirements of section 3010 of RCRA.

#### **R315-2-9. Characteristics of Hazardous Waste.**

(a) GENERAL.

(1) A solid waste, as defined in section R315-2-2, which is not excluded from regulation as a hazardous waste under R315-2-4(b), is a hazardous waste if it exhibits any of the characteristics identified in this section.

(2) A hazardous waste which is identified by a characteristic in this section, is assigned every EPA Hazardous Waste Number that is applicable as set forth in this section. This number shall be used in complying with the notification requirements of section 3010 of RCRA and all applicable recordkeeping and reporting requirements under R315-3 through R315-8, and R315-13.

(3) For purposes of this section, the Executive Secretary will consider a sample obtained using any of the applicable sampling methods specified in R315-50-6, or an equivalent method, to be a representative sample.

(b) CRITERIA FOR IDENTIFYING THE CHARACTERISTICS OF HAZARDOUS WASTE.

(1) The Board shall identify and define a characteristic of hazardous waste in this section only upon determining that:

(i) A solid waste that exhibits the characteristic may:

(A) Cause, or significantly contribute to, an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness; or

(B) Pose a substantial present or potential hazard to human health or the environment when it is improperly treated, stored, transported, disposed of or otherwise managed; and

(ii) The characteristic can be:

(A) Measured by an available standardized test method which is reasonably within the capability of generators of solid waste or private sector laboratories that are available to serve generators of solid waste; or

(B) Reasonably detected by generators of solid waste through their knowledge of their waste.

(c) CRITERIA FOR LISTING HAZARDOUS WASTE.

(1) The Board shall list a solid waste as a hazardous waste only upon determining that the solid waste meets one of the following criteria:

(i) It exhibits any of the characteristics of hazardous waste identified in this section.

(ii) It has been found to be fatal to humans in low doses, or, in the absence of data on human toxicity, it has been shown in studies to have an oral LD 50 toxicity, rat, of less than 50 milligrams per kilogram, an inhalation LC 50 toxicity, rat, of less than 50 milligrams per liter, or a dermal LD 50 toxicity, rabbit, of less than 200 milligrams per kilogram or is otherwise capable of causing or significantly contributing to an increase in serious irreversible, or incapacitating reversible illness. Waste listed in accordance with these criteria will be designated Acute Hazardous Waste.

(iii) It contains any of the toxic constituents listed in R315-50-10 and, after considering the following factors, the Board concludes that the waste is capable of posing a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported or disposed of, or otherwise managed:

(A) The nature of the toxicity presented by the constituent.

(B) The concentration of the constituent in the waste.

(C) The potential of the constituent or any toxic degradation product of the constituent to migrate from the waste into the environment under the types of improper management considered in paragraph (c)(1)(iii)(G) of this section.

(D) The persistence of the constituent or any toxic degradation product of the constituent.

(E) The potential for the constituent or any toxic degradation product of the constituent to degrade into non-harmful constituents and the rate of degradation.

(F) The degree to which the constituent or any degradation product of the constituent bioaccumulates in ecosystems.

(G) The plausible types of improper management to which the waste could be subjected.

(H) The quantities of the waste generated at individual generation sites or on a regional or national basis.

(I) The nature and severity of the human health and environmental damage that has occurred as a result of the improper management of wastes containing the constituent.

(J) Action taken by other governmental agencies or regulatory programs based on the health or environmental hazard posed by the waste or waste constituent.

(K) Other factors as may be appropriate.

Substances will be listed on R315-50-10 only if they have

been shown in scientific studies to have toxic, carcinogenic, mutagenic or teratogenic effects on humans or other life forms. Wastes listed in accordance with these criteria will be designated Toxic wastes.

(2) The Board may list classes or types of solid waste as hazardous waste if they have reason to believe that individual wastes, within the class or type of waste, typically or frequently are hazardous under the definition of hazardous waste found in Section 19-6-102 of the Utah Solid and Hazardous Waste Act.

(3) The Board will use the criteria for listing specified in this section to establish the exclusion limits referred to in 40 CFR 261.5(c). R315-2-5 incorporates by reference the requirements of 40 CFR 261.5 concerning conditionally exempt small quantity generators.

(d) CHARACTERISTIC OF IGNITABILITY

(1) A solid waste exhibits the characteristic of ignitability if a representative sample of the waste has any of the following properties:

(i) It is a liquid, other than an aqueous solution containing less than 24 percent alcohol by volume, and has a flash point less than 60 degrees C, 140 degrees F, as determined by a Pensky-Martens Closed Cup Tester, using the test method specified in ASTM Standard D-93-79, or D-93-80, incorporated by reference, see section R315-1-2, or a Setaflash Closed Cup Tester, using the test method specified in ASTM Standard D-3278-78, incorporated by reference, see section R315-1-2, or as determined by an equivalent test method approved under the procedures set forth in section R315-2-15.

(ii) It is not a liquid and is capable, under standard temperature and pressure, of causing fire through friction, absorption of moisture or spontaneous chemical changes and, when ignited, burns so vigorously and persistently that it creates a hazard.

(iii) It is an ignitable "compressed gas" as defined in 49 CFR 173.300(a), 1990 ed., which is adopted and incorporated by reference, and as determined by the test methods described in that regulation or equivalent test methods approved under section R315-2-15.

(iv) It is an "oxidizer" as defined in 49 CFR 173.151, 1990 ed., which is adopted and incorporated by reference.

(2) A solid waste that exhibits the characteristic of ignitability has the EPA Hazardous Waste Number of D001.

(e) CHARACTERISTIC OF CORROSIVITY

(1) A solid waste exhibits the characteristic of corrosivity if a representative sample of the waste has either of the following properties:

(i) It is aqueous and has a pH less than or equal to 2 or greater than or equal to 12.5, as determined by a pH meter using Method 9040 in "Test Methods for Evaluating Solid Waste, Physical/Chemical Methods," EPA Publication SW-846, as incorporated by reference in 40 CFR 260.11, see R315-1-2.

(ii) It is a liquid and corrodes steel, SAE 1020, at a rate greater than 6.35 mm, 0.250 inch, per year at a test temperature of 55 degrees C, 130 degrees F, as determined by the test method specified in NACE, National Association of Corrosion Engineers Standard TM-01-69 as standardized in "Test Methods for Evaluating Solid Waste, Physical/Chemical Methods," EPA Publication SW-846, as incorporated by reference in 40 CFR 260.11, see R315-1-2.

(2) A solid waste that exhibits the characteristic of corrosivity has the EPA Hazardous Waste Number of D002.

(f) CHARACTERISTIC OF REACTIVITY

(1) A solid waste exhibits the characteristic of reactivity if a representative sample of the waste has any of the following properties:

(i) It is normally unstable and readily undergoes violent change without detonating.

(ii) It reacts violently with water.

(iii) It forms potentially explosive mixtures with water.

(iv) When mixed with water, it generates toxic gases, vapors or fumes in a quantity sufficient to present a danger to human health or the environment.

(v) It is a cyanide or sulfide bearing waste which, when exposed to pH conditions between 2 and 12.5, can generate toxic gases, vapors or fumes in a quantity sufficient to present a danger to human health or the environment.

(vi) It is capable of detonation or explosive reaction if it is subjected to a strong initiating source or if heated under confinement.

(vii) It is readily capable of detonation or explosive decomposition or reaction at standard temperature and pressure.

(viii) It is a "forbidden explosive" as defined in 49 CFR 173.5 ed., or a "Class 1 explosive" as defined in 49 CFR 173.50(b)(1), (2), or (3), which are incorporated by reference.

(2) A solid waste that exhibits the characteristic of reactivity has the EPA Hazardous Waste Number of D003.

(g) TOXICITY CHARACTERISTIC

(1) A solid waste (except manufactured gas plant waste) exhibits the characteristic of toxicity if, using the Toxicity Characteristic Leaching Procedure, test Method 1311 in "Test Methods for Evaluating Solid Waste, Physical/Chemical Methods," EPA Publication SW-846, as incorporated by reference in 40 CFR 260.11, see R315-1-2, the extract from a representative sample of the waste contains any of the contaminants listed in Table 1 of 40 CFR 261.24 at a concentration equal to or greater than the respective value given in that Table. Where the waste contains less than 0.5 percent filterable solids, the waste itself, after filtering using the methodology outlined in Method 1311, is considered to be the extract for the purposes of this paragraph.

(2) A solid waste that exhibits the characteristic of toxicity has the EPA Hazardous Waste Number specified in Table 1 of 40 CFR 261.24, which corresponds to the toxic contaminant causing it to be hazardous. Table 1 of 40 CFR 261.24, 1990 ed., is adopted and incorporated by reference.

**R315-2-10. Lists of Hazardous Wastes.**

(a) A solid waste is a hazardous waste if it is listed in this section or R315-2-11, unless it has been excluded from this list under section R315-2-16.

(b) The Board will indicate the basis for listing the classes or types of wastes listed in this section and R315-2-11 by employing one or more of the following Hazard Codes:

- Ignitable Waste: (I)
- Corrosive Waste: (C)
- Reactive Waste: (R)
- Toxicity Characteristic Waste: (E)
- Acute Hazardous Waste: (H)
- Toxic Waste: (T)

R315-50-9, which incorporates by reference 40 CFR 261, Appendix VII, identifies the constituent which caused the Board to list the waste as a Toxicity Characteristic Waste (E) or Toxic Waste (T) in this section and R315-2-11.

(c) Each hazardous waste listed in this section and R315-2-11, is assigned an EPA Hazardous Waste Number which precedes the name of the waste. This number shall be used to comply with these rules where description and identification of a hazardous waste is required.

(d) The following hazardous wastes listed in this section are subject to the exclusion limits for acutely hazardous wastes established in R315-2-4:

EPA Hazardous Waste Nos. F020, F021, F022, F023, F026, and F027.

(e) The listing of hazardous wastes from non-specific sources found in 40 CFR 261.31, 2000 ed., is adopted and incorporated by reference with the following additional waste:

(1) F999 - Residues from demilitarization, treatment, and testing of nerve, military, and chemical agents CX, GA, GB,

GD, H, HD, HL, HN-1, HN-2, HN-3, HT, L, T, and VX. (R,T,C,H)

(f) The listing of hazardous wastes from specific sources found in 40 CFR 261.32, 2002 ed., as amended by 70 FR 9138, February 24, 2005, is adopted and incorporated by reference.

**R315-2-11. Discarded Commercial Chemical Products, Off-Specification Species, Container Residues, and Spill Residues Thereof.**

The phrase "commercial chemical product or manufacturing chemical intermediate having the generic name listed in R315-2-11" refers to a chemical substance which is manufactured or formulated for commercial or manufacturing use which consists of the commercially pure grade of the chemical, any technical grades of the chemical that are produced or marketed, and all formulations in which the chemical is the sole active ingredient. It does not refer to a material, such as a manufacturing process waste, that contains any of the substances listed in paragraphs (e) or (f) of this section, which incorporate by reference, respectively, the lists of acute hazardous wastes and hazardous wastes in 40 CFR 261.33. Where a manufacturing process waste is deemed to be hazardous waste because it contains a substance listed in paragraphs (e) or (f) of this section, that waste will be listed in Section R315-2-10, which incorporates the lists of hazardous wastes in 40 CFR 261.31 and 261.32, or will be identified as a hazardous waste by the characteristics set forth in Section R315-2-9.

The following materials or items are hazardous wastes if and when they are discarded or intended to be discarded as described in Subsection R315-2-2(a)(2)(i), when they are mixed with waste oil or used oil or other material and applied to the land for dust suppression or road treatment, when they are otherwise applied to the land in lieu of their original intended use or when they are contained in products that are applied to the land in lieu of their original intended use, or when, in lieu of their original intended use, they are produced for use as, or a component of a fuel, distributed for use as a fuel, or burned as a fuel.

(a) Any commercial chemical product, or manufacturing chemical intermediate having the generic name listed in paragraphs (e) or (f) of this section, which incorporate by reference, respectively, the lists of acute hazardous wastes and hazardous wastes in 40 CFR 261.33.

(b) Any off-specification commercial chemical product or manufacturing chemical intermediate which, if it met specifications, would have the generic name listed in paragraphs (e) or (f) of this section, which incorporate by reference, respectively, the lists of acute hazardous wastes and hazardous wastes in 40 CFR 261.33.

(c) Any residue remaining in a container or in an inner liner removed from a container that has held any commercial chemical product or manufacturing chemical intermediate having the generic name listed in paragraph (e) or (f) of this section, which incorporate by reference, respectively, the lists of acute hazardous wastes and hazardous wastes in 40 CFR 261.33, unless the container is empty as defined in R315-2-7(b). Unless the residue is being beneficially used or reused, or legitimately recycled or reclaimed; or being accumulated, stored, transported or treated prior to such use, re-use, recycling or reclamation, the Board considers the residue to be intended for discard and thus, a hazardous waste. An example of a legitimate re-use of the residue would be where the residue remains in the container and the container is used to hold the same commercial chemical product or manufacturing chemical intermediate it previously held. An example of the discard of the residue would be where the drum is sent to a drum reconditioner who reconditions the drum but discards the residue.

(d) Any residue or contaminated soil, water or other debris resulting from the cleanup of a discharge, into or on any land or water, of any commercial chemical product or manufacturing chemical intermediate having the generic name listed in paragraphs (e) or (f) of this section, which incorporate by reference, respectively, the lists of acute hazardous wastes and hazardous wastes in 40 CFR 261.33, or any residue or contaminated soil, water or other debris resulting from the cleanup of a spill, into or on any land or water, of any off-specification chemical product and manufacturing chemical intermediate which, if it met specifications, would have the generic name listed in paragraph (e) or (f) of this section, which incorporate by reference, respectively, the lists of acute hazardous wastes and hazardous wastes in 40 CFR 261.33. Unless the residue is being beneficially used or reused, or legitimately recycled or reclaimed; or being accumulated, stored, transported or treated prior to such use, re-use, recycling or reclamation, the Board considers the residue to be intended for discard, and thus a hazardous waste. An example of a legitimate re-use of the residue would be where the residue remains in the container and the container is used to hold the same commercial chemical product or manufacturing chemical product or manufacturing chemical intermediate it previously held. An example of the discard of the residue would be where the drum is sent to the drum reconditioner who reconditions the drum but discards the residue.

(e) The listing of chemicals, found in 40 CFR 261.33(e), 1997 ed., is adopted and incorporated by reference, with the addition of the following waste:

(1) P999 Nerve, Military, and Chemical Agents (i.e., CX, GA, GB, GD, H, HD, HL, HN-1, HN-2, HN-3, HT, L, T, and VX.)

(f) The listing of chemicals, found in 40 CFR 261.33(f), 2000 ed., is adopted and incorporated by reference.

#### **R315-2-12. Inspections.**

Any duly authorized officer, employee or representative of the Department or the Board may, at any reasonable time and upon presentation of appropriate credentials and upon providing the opportunity to have a representative of the owner, operator, or agent in charge to be present, enter upon and inspect any property, premise, or place on or at which hazardous wastes are generated, transported, stored, treated or disposed of, and may have access to and the right to copy any records relating to these wastes for the purpose of ascertaining the compliance with R315-1 through R315-101. Those persons referred to in this section may also inspect any waste and obtain samples thereof, including samples from any vehicle in which wastes are being transported or samples of any containers or labels. Any person obtaining samples shall give to the owner, operator or agent a receipt describing the sample obtained and, if requested, a portion of each sample of waste equal in volume or weight to the portion retained. If any analysis is made of those samples, a copy of the results of that analysis shall be furnished promptly to the owner, operator, or agent in charge.

#### **R315-2-13. Variances Authorized.**

(a) Variances will be granted by the Board only to the extent allowed under State and Federal law.

(b) The Board may consider a variance request in accordance with the standard established in section 19-6-111.(c) The Board may, at its own instance, review any variance granted during the term for which a variance was granted.

(d) A person applying for a variance shall submit the application, in writing, to the Executive Secretary. The application shall provide the following:

(1) Citation of the statutory, regulatory, or permit requirement from which the variance is sought;

(2) For variances for which the Board promulgates or has

promulgated specific rules, information meeting the requirements of those rules;

(3) Information demonstrating that application of or compliance with the requirement would cause undue or unreasonable hardship on the person applying for the variance;

(4) Proposed alternative requirements, if any;

(5) Information demonstrating that the variance will achieve the purpose and intent of the statutory, regulatory, or permit provision from which the variance is sought;

(6) Information demonstrating that any alternative requirement or requirements will adequately protect human health and the environment; and

(7) If no alternative requirement is proposed, information demonstrating that if the variance is granted, human health and the environment will be adequately protected.

(e) A person applying for a variance shall provide such additional information as the Board or the Executive Secretary requires.

(f) Nothing in R315-2-13(d) or (e) limits the authority of the Board to grant variances in accordance with the standard established in section 19-6-111. A person applying for a variance under R315-9-2 shall provide such information described under R315-2-13(d) as the Executive Secretary directs.

#### **R315-2-14. Violations, Orders, and Hearings.**

(a) Whenever the Board or its duly appointed representative, as expressly delegated by the Board, determines that any person is in violation of any applicable approved hazardous waste operation plan or the requirements of R315-1 through R315-101, the Board or its duly appointed representative may cause written notice of that violation to be served upon the alleged violators. That notice shall specify the provisions of the plan, the rules alleged to have been violated, and the facts alleged to constitute the violation. The Board or its duly appointed representative may issue an order that necessary corrective action be taken within a reasonable time or may request the attorney general or the county attorney in the county in which the violation takes place to bring a civil action for injunctive relief and enforcement of R315-1 through R315-101.

(b) Any order issued pursuant to 19-6-112 and R315-2-14(a) shall become final unless, within 30 days after the order is served, the persons specified therein request a hearing. The request shall:

(1) be in writing;

(2) be addressed to the Executive Secretary;

(3) include the order number;

(4) state the facts;

(5) state the relief sought; and

(6) state the reasons the relief requested should be granted.

(c) Utah Administrative Procedures Act, 63-46b, and R315-12, shall govern the conduct of hearings before the Board.

#### **R315-2-15. Petitions for Equivalent Testing or Analytical Methods.**

(a) Any person seeking to add a testing or analytical method to R315-2, R315-7, R315-8, or R315-50, which incorporates the testing and analytical methods of 40 CFR 261, may petition for a regulatory amendment under this section and R315-2-17. To be successful, the person shall demonstrate to the satisfaction of the Board that the proposed method is equal to or superior to the corresponding method prescribed in R315-2, R315-7, R315-8, or R315-50, in terms of its sensitivity, accuracy, and precision, i.e., reproducibility.

(b) Each petition shall include:

(1) The petitioner's name and address;

(2) A statement of the petitioner's interest in the proposed action;

(3) A description of the proposed action, including, where appropriate, suggested regulatory language;

(4) A statement of the need and justification for the proposed action, including any supporting tests, studies, or other information;

(5) A full description of the proposed method, including all procedural steps and equipment used in the method;

(6) A description of the types of wastes or waste matrices for which the proposed method may be used;

(7) Comparative results obtained from using the proposed method with those obtained from using the relevant or corresponding methods prescribed in R315-2, R315-7, R315-8, and R315-50;

(8) An assessment of any factors which may interfere with, or limit the use of, the proposed method; and

(9) A description of the quality control procedures necessary to ensure the sensitivity, accuracy, and precision of the proposed method.

(c) After receiving a petition for an equivalent method, the Board may request any additional information on the proposed method which it may reasonably require to evaluate the method.

(d) The Board will consider any petitions in accordance with rulemaking procedures outlined in Section 63-46a-12.

(e) Petitioner may, alternatively, proceed under the provisions of 40 CFR 260.21 to have an alternative analytical method approved by EPA. In the event approval is granted, the petitioner shall so notify the Board and the decision of EPA will be binding upon the Board.

#### **R315-2-16. Petitions to Amend This Rule to Exclude a Waste Produced at a Particular Facility.**

(a) The requirements of 40 CFR 260.22, 1993 ed., as amended by 58 FR 46040, August 31, 1993, regarding petitions to exclude a waste are adopted and incorporated by reference with the following amendments:

(1) Substitute "Board" for "Administrator;"

(2) Include the following paragraphs:

(i) The Board will consider any petitions in accordance with rulemaking procedures outlined in Title 63, Chapter 46a, and in accordance with the procedures outlined in the Utah Administrative Procedures Act, Title 63, Chapter 46b, and Rule R315-12.

(ii) Petitioner may, alternatively, proceed under the provisions of 40 CFR 260.22 to have a particular waste delisted by EPA. In the event delisting is granted, the petitioner shall so notify the Board and the decision of EPA will be binding upon the Board unless, within 30 days after such notification, the Board specifically overrules the decision of EPA. In such event, the petitioner may petition the Board directly under this section for the relief sought.

#### **R315-2-17. Petition to Amend Rules.**

(a) It is the intent of the Board to insure the compatibility and equivalency of R315-1 through R315-101 with the regulations promulgated by EPA under the Resource Conservation and Recovery Act of 1976.

(b) Any person may petition the Board to modify or revoke any provision in R315-1 through R315-16, R315-50, R315-101, and R315-102. A petition shall be considered under the procedures outlined in 63-46a-12 and R15-2.

#### **R315-2-18. Variances from Classification as a Solid Waste.**

The variances from classification as a solid waste of 40 CFR 260.30, 1994 ed., as amended by 59 FR 47982, September 19, 1994, are adopted and incorporated by reference with the following amendment:

Substitute "Board" for "Regional Administrator."

#### **R315-2-19. Standards and Criteria for Variances from**

#### **Classification as a Solid Waste.**

(a) The standards and criteria for variances from classification as a solid waste found in 40 CFR 260.31, 1994 ed., as amended by 59 FR 47982, September 19, 1994, are adopted and incorporated by reference with the following amendment:

(1) Substitute "Board" for "Regional Administrator."

#### **R315-2-20. Variance to be Classified as a Boiler.**

The provision for a variance to be classified as a boiler as found in 40 CFR 260.32, 1994 ed., as amended by 59 FR 47982, September 19, 1994, is adopted and incorporated by reference with the following amendment:

Substitute "Board" for "Regional Administrator."

#### **R315-2-21. Procedures for Variances from Classification as a Solid Waste or to be Classified as a Boiler.**

The procedures for variances from classification as a solid waste or boiler of 40 CFR 260.33, ed., as amended by 59 FR 47982, September 19, 1994, are adopted and incorporated by reference with the following amendment:

Substitute "Board" for "Regional Administrator."

#### **R315-2-22. Additional Regulation of Certain Hazardous Waste Recycling Activities on a Case-by-Case Basis.**

The provision regarding the regulation of certain hazardous waste recycling activities of 40 CFR 260.40, 1990 ed., is adopted and incorporated by reference with the following amendment:

Substitute "Executive Secretary" for "Regional Administrator."

#### **R315-2-23. Procedures for Case-by-Case Regulation of Hazardous Waste Recycling Activities.**

The Executive Secretary shall use the following procedures when determining whether to regulate hazardous waste recycling activities described in R315-2-6, which incorporates by reference the requirements of 40 CFR 261.6 regarding recyclable materials, under the provisions of 40 CFR 261.6 (b) and (c), rather than under the provisions of 40 CFR 266.70 concerning precious metals recovery.

(a) If a generator is accumulating the waste, the Executive Secretary will issue a notice setting forth the factual basis for the decision and stating that the person must comply with the applicable requirements of R315-5. The notice will become final within 30 days, unless the person served requests a public hearing before the Board to challenge the decision. Upon receiving such a request, the Board will hold a hearing. The Board will provide notice of the hearing to the public and allow public participation at the hearing. The Board will issue a final order after the hearing stating whether or not compliance with R315-5 is required. The order becomes effective 30 days after service of the decision unless the Board specifies a later date.

(b) If the person is accumulating the recyclable material as a storage facility, the notice will state that the person must obtain a hazardous waste permit in accordance with all applicable provisions of R315-3. The owner or operator of the facility must apply for a permit within no less than 60 days and no more than six months of notice, as specified in the notice. If the owner or operator of the facility wishes to challenge the Board's decision, he may do so in his hazardous waste permit, in a public hearing held on the draft permit, or in comments filed on the draft permit, or on the notice of intent to deny the permit. The fact sheet accompanying the permit will specify the reasons for the Board's determination. The question of whether the Board's decision was proper will remain open for consideration during the public comment period discussed under R315-4-1.11 and in any subsequent hearing.

**R315-2-24. Deletion of Certain Hazardous Waste Codes Following Equipment Cleaning and Replacement.**

(a) Wastes from wood preserving processes at plants that do not resume or initiate use of chlorophenolic preservatives will not meet the listing definition of F032 once the generator has met all of the requirements of paragraphs (b) and (c) of this section. These wastes may, however, continue to meet another hazardous waste listing description or may exhibit one or more of the hazardous waste characteristics.

(b) Generators must either clean or replace all process equipment that may have come into contact with chlorophenolic formulations or constituents thereof, including, but not limited to, treatment cylinders, sumps, tanks, piping systems, drip pads, fork lifts, and trams, in a manner that minimizes or eliminates the escape of hazardous waste or constituents, leachate, contaminated drippage, or hazardous waste decomposition products to the ground water, surface water, or atmosphere.

(1) Generators shall do one of the following:

(i) Prepare and follow an equipment cleaning plan and clean equipment in accordance with this section;

(ii) Prepare and follow an equipment replacement plan and replace equipment in accordance with this section; or

(iii) Document cleaning and replacement in accordance with this section, carried out after termination of use of chlorophenolic preservations.

(2) Cleaning Requirements.

(i) Prepare and sign a written equipment cleaning plan that describes:

- (A) The equipment to be cleaned;
- (B) How the equipment will be cleaned;
- (C) The solvent to be used in cleaning;
- (D) How solvent rinses will be tested; and
- (E) How cleaning residues will be disposed.

(ii) Equipment must be cleaned as follows:

(A) Remove all visible residues from process equipment;

(B) Rinse process equipment with an appropriate solvent until dioxins and dibenzofurans are not detected in the final solvent rinse.

(iii) Analytical requirements.

(A) Rinses must be tested in accordance with SW-846, Method 8290.

(B) "Not detected" means at or below the lower method calibration limit (MCL) in Method 8290, Table 1.

(iv) The generator must manage all residues from the cleaning process as F032 waste.

(3) Replacement requirements.

(i) Prepare and sign a written equipment replacement plan that describes:

- (A) The equipment to be replaced;
- (B) How the equipment will be replaced; and
- (C) How the equipment will be disposed.

(ii) The generator must manage the discarded equipment as F032 waste.

(4) Documentation requirements.

(i) Document that previous equipment cleaning and/or replacement was performed in accordance with this section and occurred after cessation of use of chlorophenolic preservatives.

(c) The generator must maintain the following records documenting the cleaning and replacement as part of the facility's operating record:

- (1) The name and address of the facility;
- (2) Formulations previously used and the date on which their use ceased in each process at the plant;
- (3) Formulations currently used in each process at the plant;

(4) The equipment cleaning or replacement plan;

(5) The name and address of any persons who conducted the cleaning and replacement;

(6) The dates on which cleaning and replacement were

accomplished;

(7) The dates of sampling and testing;

(8) A description of the sample handling and preparation techniques, including techniques used for extraction, containerization, preservation, and chain-of-custody of the samples;

(9) A description of the tests performed, the date the tests were performed, and the results of the tests;

(10) The name and model numbers of the instrument(s) used in performing the tests;

(11) QA/QC documentation; and

(12) The following statement signed by the generator or his authorized representative:

I certify under penalty of law that all process equipment required to be cleaned or replaced under 40 CFR 261.35 was cleaned or replaced as represented in the equipment cleaning and replacement plan and accompanying documentation. I am aware that there are significant penalties for providing false information, including the possibility of fine or imprisonment.

**R315-2-25. Requirements for Universal Waste.**

The wastes listed in this section are exempt from regulation under R315-3 through R315-14 of these rules except as specified in section R315-16 of these rules and, therefore are not fully regulated as hazardous waste. The wastes listed in this section are subject to regulation under R315-16:

- (a) Batteries as described in R315-16-1.2;
- (b) Pesticides as described in R315-16-1.3;
- (c) Mercury thermostats as described in R315-16-1.4; and
- (d) Mercury lamps as described in R315-16-1.5.

**R315-2-26. Comparable/Syngas Fuel Exclusion.**

The requirements of 40 CFR 261.38, 2001 ed., are adopted and incorporated by reference with the following exception:

Substitute "Executive Secretary" for all references made to "Director".

**KEY: hazardous wastes**

**R315. Environmental Quality, Solid and Hazardous Waste.**  
**R315-3. Application and Permit Procedures for Hazardous Waste Treatment, Storage, and Disposal Facilities.**

**R315-3-1. General Information.**

**1.1 PURPOSE AND SCOPE OF THESE REGULATIONS**

(a) No person shall own, construct, modify, or operate any facility for the purpose of treating, storing, or disposing of hazardous waste without first submitting, and receiving the approval of the Executive Secretary for, a hazardous waste permit for that facility. However, any person owning or operating a facility on or before November 19, 1980, who has given timely notification as required by section 3010 of the Resource Conservation and Recovery Act (RCRA) of 1976, 42 U.S.C., section 6921, et seq., and who has submitted a proposed hazardous waste permit pursuant to this section and section 19-6-108 for that facility, may continue to operate that facility without violating this section until the time as the permit is approved or disapproved pursuant to this section.

(b) The Executive Secretary shall review each proposed hazardous waste permit application to determine whether the application will be in accord with the provisions of these rules and section 19-6-108 and, on that basis, shall approve or disapprove the application within the applicable time period specified in section 19-6-108. If, after the receipt of plans, specifications, or other information required under this section and section 19-6-108 and within the applicable time period of section 19-6-108, the Executive Secretary determines that the proposed construction, installation or establishment or any part of it will not be in accord with the requirements of this section or the applicable rules, he shall issue an order prohibiting the construction, installation or establishment of the proposal in whole or in part. The date of submission shall be deemed to be the date of all required information is provided to the Executive Secretary as required by these rules.

(c) Any permit application which does not meet the requirements of these rules shall be disapproved within the applicable time period specified in section 19-6-108. If within the applicable time period specified in section 19-6-108 the Executive Secretary fails to approve or disapprove the permit application or to request the submission of any additional information or modification to the application, the application shall not be deemed approved but the applicant may petition the Executive Secretary for a decision or seek judicial relief requiring a decision of approval or disapproval.

(d) An application for approval of a hazardous waste permit consists of two parts, part A and part B. For an existing facility, the requirement is satisfied by submitting only part A of the application until the date the Executive Secretary sets for each individual facility for submitting part B of the application, which date shall be in no case less than six months after the Executive Secretary gives notice to a particular facility that it shall submit part B of the application.

(e) Owners and operators of hazardous waste management units shall have permits during the active life, including the closure period, of the unit. Owners and operators of surface impoundments, landfills, land treatment units, and waste pile units that received waste after July 26, 1982, or that certified closure, according to R315-7-14, which incorporates by reference 40 CFR 265.115, after January 26, 1983, shall have post-closure permits, unless they demonstrate closure by removal or decontamination as provided under R315-3-1.1(e)(5) and (6), or obtain an enforceable document in lieu of a post-closure permit, as provided under R315-3-1.1(e)(7). If a post-closure permit is required, the permit shall address applicable R315-8 groundwater monitoring, unsaturated zone monitoring, corrective action, and post-closure care requirements of R315. The denial of a permit for the active life of a hazardous waste management facility or unit does not affect the requirement to

obtain a post-closure permit under R315-3-1.1.

(1) Specific inclusions. Owners or operators of certain facilities require hazardous waste permits as well as permits under other environmental programs for certain aspects of facility operation. Hazardous waste permits are required for:

(i) Injection wells that dispose of hazardous waste, and associated surface facilities that treat, store, or dispose of hazardous waste. However, the owner or operator with a State or Federal UIC permit will be deemed to have a "permit by rule" if they comply with requirements of R315-3-6.1(a).

(ii) Treatment, storage, and disposal of hazardous waste at facilities requiring and NPDES permit. However, the owner or operator of a publicly owned treatment works receiving hazardous waste will be deemed to have a "permit by rule" if they comply with provisions of R315-3-6.1(b).

(2) Specific exclusions. The following persons are among those who are not required to obtain a permit:

(i) Generators who accumulate hazardous waste on-site for less than the time periods as provided in R315-5-3.34, which incorporates the requirements of 40 CFR 262.34.

(ii) Farmers who dispose of hazardous waste pesticides from their own use as provided in R315-5-7.

(iii) Persons who own or operate facilities solely for the treatment, storage, or disposal of hazardous waste excluded from regulations under R315-2-5, small quantity generator exemption.

(iv) Owners or operators of totally enclosed treatment facilities as defined in 40 CFR 260.10, which is incorporated by reference in R315-1-1.

(v) Owners of operators of elementary neutralization units or wastewater treatment units as defined in 40 CFR 260.10, which is incorporated by reference in R315-1-1.

(vi) Transporters storing manifested shipments of hazardous waste in containers meeting the requirements of R315-5-3.32(b) at a transfer facility for a period of ten days or less.

(vii) Persons adding absorbent material to waste in a container, as defined in 40 CFR 260.10, which is incorporated by reference in R315-1, and persons adding waste to absorbent material in a container, provided that these actions occur at the time waste is first placed in the container, and R315-8-2.8(b), R315-8-9.2, and R315-8-9.3 are complied with.

(viii) Universal waste handlers and universal waste transporters (as defined in R315-16-1.9) managing the wastes listed below. These handlers are subject to regulation under R315-16.

- (A) Batteries as described in R315-16-1.2;
- (B) Pesticides as described in R315-16-1.3;
- (C) Thermostats as described in R315-16-1.4; and
- (D) Mercury lamps as described in R315-16-1.5.

(3) Further exclusions.  
 (i) A person is not required to obtain a permit for treatment or containment activities taken during immediate response to any of the following situations;

- (A) Discharge of a hazardous waste;
- (B) An imminent and substantial threat of a discharge of hazardous waste.

(C) A discharge of a material which, when discharged, becomes a hazardous waste.

(ii) Any person who continues or initiates hazardous waste treatment or containment activities after the immediate response is over is subject to all applicable requirements of this part for those activities.

(iii) In the case of emergency responses involving military munitions, the responding military emergency response specialist's organizational unit shall retain records for three years identifying the dates of the response, the responsible persons responding, the type and description of material addressed, and its disposition.

(4) Permits for less than an entire facility. The Executive Secretary may issue or deny a permit for one or more units at a facility without simultaneously issuing or denying a permit to all units at the facility. The interim status of any unit for which a permit has not been issued or denied is not affected by the issuance or denial of a permit to any other unit at the facility.

(5) Closure by removal. Owners or operators of surface impoundments, land treatment units, and waste piles closing by removal or decontamination under R315-7 standards shall obtain a post-closure permit unless they can demonstrate to the Executive Secretary that the closure met the standards for closure by removal or decontamination in R315-8-11.5, R315-8-13.8, or R315-8-12.6, respectively. The demonstration may be made in the following ways:

(i) If the owner or operator has submitted a part B application for a post-closure permit, the owner or operator may request a determination, based on information contained in the application, that R315-8 closure by removal standards were met. If the Executive Secretary believes that R315-8 standards were met, he will notify the public of this proposed decision, allow for public comment, and reach a final determination according to the procedures in R315-3-1.1(e)(6);

(ii) If the owner or operator has not submitted a part B permit application for a post-closure permit, the owner or operator may petition the Executive Secretary for a determination that a post-closure permit is not required because the closure met the applicable R315-8 closure standards;

(A) The petition shall include data demonstrating that closure by the removal or decontamination standards of R315-8 were met.

(B) The Executive Secretary shall approve or deny the petition according to the procedures outlined in R315-3-1.1(e)(6).

(6) Procedures for Closure Equivalency Determination.

(i) If a facility owner or operator seeks an equivalency demonstration under R315-3-1.1(e)(5), the Executive Secretary will provide the public, through a newspaper notice, the opportunity to submit written comments on the information submitted by the owner or operator within 30 days from the date of the notice. The Executive Secretary will also, in response to a request or at his own discretion, hold a public hearing whenever a hearing might clarify one or more issues concerning the equivalence of the R315-7 closure to an R315-8 closure. The Executive Secretary will give public notice of the hearing at least 30 days before it occurs. Public notice of the hearing may be given at the same time as notice of the opportunity for the public to submit written comments, and the two notices may be combined.

(ii) The Executive Secretary will determine whether the R315-7 closure met R315-8 closure by removal or decontamination requirements within 90 days of its receipt. If the Executive Secretary finds that the closure did not meet the applicable R315-8 standards, he will provide the owner or operator with a written statement of the reasons why the closure failed to meet R315-8 standards. The owner or operator may submit additional information in support of an equivalency demonstration within 30 days after receiving a written statement. The Executive Secretary will review any additional information submitted and make a final determination within 60 days.

(iii) If the Executive Secretary determines that the facility did not close in accordance with R315-8-7, which incorporates by reference 40 CFR 264.110 through 264.116, closure by removal standards, the facility is subject to post-closure permit requirements.

(7) Enforceable documents for post-closure care. At the discretion of the Executive Secretary, an owner or operator may obtain, in lieu of a post-closure permit, an enforceable document imposing the requirements of R315-7-14, which incorporates by reference 40 CFR 265.121. "Enforceable document" means an

order, a permit, or other document issued by the Executive Secretary that meets the requirements of 19-6-104, 19-6-112, 19-6-113, and 19-6-115, including a corrective action order issued by EPA under section 3008(h), a CERCLA remedial action, or a closure or post-closure permit.

#### 1.4 EFFECT OF A PERMIT

(a) Compliance with a permit during its term constitutes compliance, for purposes of enforcement, with these rules, except for those requirements not included in the permit which:

(1) Become effective by statute;

(2) Are promulgated under R315-13, which incorporates by reference 40 CFR 268, restricting the placement of hazardous wastes in or on the land;

(3) Are promulgated under R315-8 regarding leak detection systems for new and replacement surface impoundment, waste pile, and landfill units, and lateral expansions of surface impoundment, waste pile, and landfill units. The leak detection system requirements include double liners, CQA programs, monitoring, action leakage rates, and response action permits, and will be implemented through the procedures of R315-3-4.3, which incorporates by reference 40 CFR 270.42, Class 1 permit modifications; or

(4) Are promulgated under R315-7-26, which incorporates by reference 40 CFR 265.1030 through 265.1035, R315-7-27, which incorporates by reference 40 CFR 265.1050 through 265.1064 or R315-7-30, which incorporates by reference 40 CFR 265.1080 through 265.1091.

(b) The issuance of a permit does not convey any property rights of any sort, or any exclusive privilege.

(c) The issuance of a permit does not authorize any injury to persons or property or invasion of other private rights, or any infringement of State or local law or regulations.

### R315-3-2. Permit Application.

#### 2.1 GENERAL APPLICATION REQUIREMENTS

(a) Permit Application. Any person who is required to have a permit, including new applicants and persons with expiring permits, shall complete, sign and submit, an application to the Executive Secretary as described in R315-3-2.1 and R315-3-7. Persons currently authorized with interim status shall apply for permits when required by the Executive Secretary. Persons covered by RCRA permits by rule, R315-3-6.1, need not apply. Procedures for applications, issuance and administration of emergency permits are found exclusively in R315-3-6.2. Procedures for application, issuance and administration of research, development, and demonstration permits are found exclusively in R315-3-6.5.

(b) Who Applies?

When a facility or activity is owned by one person but is operated by another person, it is the operator's duty to obtain a permit, except that the owner shall also sign the permit application.

(c) Completeness.

(1) The Executive Secretary shall not issue a permit before receiving a complete application for a permit except for permit by rule, or emergency permit. An application for a permit is complete when the Executive Secretary receives an application form and any supplemental information which are completed to his satisfaction. An application for a permit is complete notwithstanding the failure of the owner or operator to submit the exposure information described in R315-3-2.1(i). The Executive Secretary may deny a permit for the active life of a hazardous waste management facility or unit before receiving a complete application for a permit.

(2) The Executive Secretary shall review for completeness every permit application. Each permit application submitted by a new hazardous waste management facility, should be reviewed for completeness by the Executive Secretary in accordance with the applicable review periods of 19-6-108. Upon completing

the review, the Executive Secretary shall notify the applicant in writing whether the permit application is complete. If the permit application is incomplete, the Executive Secretary shall list the information necessary to make the permit application complete. When the permit application is for an existing hazardous waste management facility, the Executive Secretary shall specify in the notice of deficiency a date for submitting the necessary information. The Executive Secretary shall review information submitted in response to a notice of deficiency within 30 days after receipt. The Executive Secretary shall notify the applicant that the permit application is complete upon receiving this information. After the permit application is complete, the Executive Secretary may request additional information from an applicant but only when necessary to clarify, modify, or supplement previously submitted material.

(3) If an applicant fails or refuses to correct deficiencies in the permit application, the permit application may be denied and appropriate enforcement actions may be taken under the applicable provisions of the Utah Solid and Hazardous Waste Act.

(d) Existing Hazardous Waste Management Facilities and Interim Status Qualifications.

(1) Owners and operators of existing hazardous waste management facilities or of hazardous waste management facilities in existence on the effective date of statutory or regulatory amendment under Utah Solid and Hazardous Waste Act or RCRA that render the facility subject to the requirement to have a RCRA permit or State permit shall submit part A of their permit application to the Executive Secretary no later than:

(i) Six months after the date of publication of rules which first require them to comply with the standards set forth in R315-7 or R315-14, or

(ii) Thirty days after the date they first become subject to the standards set forth in R315-7 or R315-14, whichever first occurs.

(iii) For generators generating greater than 100 kilograms of hazardous waste in a calendar month and treats, stores, or disposes of these wastes on-site, by March 24, 1987

For facilities which had to comply with R315-7 because they handle a waste listed in EPA's May 19, 1980, Part 261 regulations, 45 FR 33006 et seq., the deadline for submitting an application was November 19, 1980. Where other existing facilities shall begin complying with R315-7 or R315-14 at a later date because of revisions to R315-1, R315-2, R315-7, or R315-14, the Executive Secretary will specify when those facilities shall submit a permit application.

(2) The Executive Secretary may extend the date by which owners and operators of specified classes of existing hazardous waste management facilities shall submit Part A of their permit application if he finds that there has been substantial confusion as to whether the owners and operators of such facilities were required to file a permit application and such confusion is attributed to ambiguities in R315-1, R315-2, R315-7 or R315-14 of the regulations.

(3) The Executive Secretary may by compliance order issued under 19-6-112 and 19-6-113 extend the date by which the owner and operator of an existing hazardous waste management facility must submit part A of their permit application.

(4) The owner or operator of an existing hazardous waste management facility may be required to submit part B of the permit application. Any owner or operator shall be allowed at least six months from the date of request to submit part B of the application. Any owner or operator of an existing hazardous waste management facility may voluntarily submit part B of the application at any time. Notwithstanding the above, any owner or operator of an existing hazardous waste management facility shall submit a part B application in accordance with the dates specified in R315-3-7.4. Any owner or operator of a land

disposal facility in existence on the effective date of statutory or regulatory amendments under R315 that render the facility subject to the requirement to have a permit, shall submit a part B application in accordance with the dates specified in R315-3-7.4.

(5) Failure to furnish a requested part B application on time, or to furnish in full the information required by the part B application, is grounds for termination of interim status under R315-3-4.4.

(e) New Hazardous Waste Management Facilities.

(1) Except as provided in R315-3-2.1(e)(3), no person shall begin physical construction of a new hazardous waste management facility without having submitted part A and part B of the application and having received a finally effective permit.

(2) An application for a permit for a new hazardous waste management facility, including both part A and part B, may be filed any time after promulgation of applicable regulations. The application shall be filed with the Regional Administrator if at the time of application the State has not received final authorization for permitting such facility; otherwise it shall be filed with the Executive Secretary. Except as provided in R315-3-2.1(e)(3), all applications shall be submitted at least 180 days before physical construction is expected to commence.

(3) Notwithstanding R315-3-2.1(e)(1), a person may construct a facility for the incineration of polychlorinated biphenyls pursuant to an approval issued by the U.S. EPA Administrator under section (6)(e) of the Toxic Substances Control Act (TSCA), 15 U.S.C. 2601 et seq., and any person owning or operating such a facility may, at any time after construction or operation of the facility has begun, file an application for a permit to incinerate hazardous waste authorizing the facility to incinerate waste identified or listed in these rules.

(f) Updating permit applications.

(1) If any owner or operator of a hazardous waste management facility has filed part A of a permit application and has not yet filed part B, the owner or operator shall file an amended part A application:

(i) With the Executive Secretary, within six months after the promulgation of revised regulations under 40 CFR 261 listing or identifying additional hazardous wastes, if the facility is treating, storing or disposing of any of those newly listed or identified wastes.

(ii) With the Executive Secretary no later than the effective date of regulatory provisions listing or designating wastes as hazardous in the State in addition to those listed or designated under the previously approved State program, if the facility is treating, storing, or disposing of any of those newly listed or designated wastes; or

(iii) As necessary to comply with changes during interim status, R315-3-7.3. Revised part A applications necessary to comply with the provisions of interim status shall be filed with the Executive Secretary.

(2) The owner or operator of a facility who fails to comply with the updating requirements of R315-3-2.1(f)(1) does not receive interim status as to the wastes not covered by duly filed part A applications.

(g) Reapplications. Any hazardous waste management facility with an effective permit shall submit a new application at least 180 days before the expiration date of the effective permit, unless permission for a later date has been granted by the Executive Secretary. The Executive Secretary shall not grant permission for applications to be submitted later than the expiration date of the existing permit.

(h) Recordkeeping.

Applicants shall keep records of all data used to complete permit application and any supplemental information submitted under R315-3-2.4 through R315-3-2.12, for a period of at least

three years from the date the application is signed.

(i) Exposure information.

(1) Any part B permit application submitted by an owner or operator of a facility that stores, treats, or disposes of hazardous waste in a surface impoundment or a landfill shall be accompanied by information, reasonably ascertainable by the owner or operator, on the potential for the public to be exposed to hazardous wastes or hazardous constituents through releases related to the unit. At a minimum, the information shall address:

(i) Reasonably foreseeable potential releases from both normal operations and accidents at the unit, including releases associated with transportation to or from the unit;

(ii) The potential pathways of human exposure to hazardous wastes or constituents resulting from the releases described under R315-3-2.1(i)(1)(i); and

(iii) The potential magnitude and nature of the human exposure resulting from such releases.

(2) Owners and operators of a landfill or a surface impoundment who have already submitted a part B application shall submit the exposure information required in R315-3-2.1(i)(1).

(j) The Executive Secretary may require a permittee or an applicant to submit information in order to establish permit conditions under R315-3-3.3(b)(2), and R315-3-5.1(d).

## 2.2 SIGNATORIES TO PERMIT APPLICATIONS AND REPORTS

(a) Applications. All permit applications shall be signed as follows:

(1) For a corporation: by a principal executive officer of at least the level of vice-president;

(2) For a partnership or sole proprietorship: by a general partner or the proprietor, respectively; or

(3) For a municipality, State, Federal, or other public agency; by either a principal executive officer or ranking elected official.

(b) Reports. All reports required by permits and other information requested by the Executive Secretary shall be signed by a person described in R315-3-2.2(a), or by a duly authorized representative of that person. A person is a duly authorized representative only if:

(1) The authorization is made in writing by a person described in R315-3-2.2(a);

(2) The authorization specified either an individual or a position having responsibility for overall operation of the regulated facility or activity, such as the position of plant manager, operator of a well or a well field, superintendent, or position of equivalent responsibility. A duly authorized representative may thus be either a named individual or any individual occupying a named position; and

(3) The written authorization is submitted to the Executive Secretary.

(c) Changes to authorization. If an authorization under R315-3-2.2(b) is no longer accurate because different individual or position has responsibility for the overall operation of the facility, a new authorization satisfying the requirements of R315-3-2.2(b) shall be submitted to the Executive Secretary prior to or together with any reports, information, or applications to be signed by an authorized representative.

(d)(1) Certification. Any person signing a document under R315-3-2.2(a) or (b) shall make the following certification:

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting

false information, including the possibility of fine and imprisonment for knowing violations."

(2) For remedial action plans (RAPs) under R315-3-8, which incorporates by reference 40 CFR 270, subpart H, if the operator certifies according to R315-3-2.2(d)(1), then the owner may choose to make the following certification instead of the certification in R315-3-2.2(d)(1):

"Based on my knowledge of the conditions of the property described in the RAP and my inquiry of the person or persons who manage the system referenced in the operator's certification, or those persons directly responsible for gathering the information, the information submitted is, upon information and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

## 2.4 CONTENTS OF PART A OF THE PERMIT APPLICATION

All applicants shall provide the following information to the Executive Secretary:

(a) The activities conducted by the applicant which require it to obtain a hazardous waste operation permit.

(b) Name, mailing address, and location of the facility for which the application is submitted.

(c) Up to four SIC codes which best reflect the principal products or services provided by the facility.

(d) The operator's name, address, telephone number, ownership status, and status as Federal, State, private, public, or other entity.

(e) The name, address, and telephone number of the owner of the facility.

(f) Whether the facility is located on Indian lands.

(g) An indication of whether the facility is new or existing and whether it is a first or revised application.

(h) For existing facilities, (1) a scale drawing of the facility showing the location of all past, present, and future treatment, storage, and disposal areas; and (2) photographs of the facility clearly delineating all existing structures; existing treatment, storage, and disposal areas; and sites of future treatment, storage, and disposal areas.

(i) A description of the processes to be used for treating, storing, or disposing of hazardous waste, and the design capacity of these items.

(j) A specification of the hazardous wastes or hazardous waste mixtures listed or designated under R315-2 to be treated, stored, or disposed at the facility, an estimate of the quantity of these wastes to be treated, stored, or disposed annually, and a general description of the processes to be used for these wastes.

(k) A listing of all permits or construction approvals received or applied for under any of the following programs:

(1) Hazardous Waste Management program under the Utah Solid and Hazardous Waste Act or RCRA.

(2) Underground Injection Control (UIC) program under Safe Drinking Water Act (SDWA), 42 U.S.C. 300f et seq.

(3) NPDES program under Clean Water Act (CWA), 33 U.S.C. 1251 et seq.

(4) Prevention of Significant Deterioration (PSD) program under the Clean Air Act, 42 U.S.C. 7401 et seq.

(5) Nonattainment program under the Clean Air Act.

(6) National Emission Standards for Hazardous Pollutants (NESHAPS) preconstruction approval under the Clean Air Act.

(7) Dredge or fill permits under section 404 of the Clean Water Act.

(8) Other relevant environmental permits, including State and Federal permits or permits.

(l) A topographic map, or other map if a topographic map is unavailable, extending one mile beyond the property boundaries of the source, depicting the facility and each of its intake and discharge structures; each of its hazardous waste

treatment, storage, or disposal facilities; each well where fluids from the facility are injected underground; and those wells, springs, other surface water bodies, and drinking water wells listed in public records or otherwise known to the applicant within 1/4 mile of the facility property boundary.

(m) A brief description of the nature of the business.

(n) For hazardous debris, a description of the debris category(ies) and contaminant category(ies) to be treated, stored, or disposed of at the facility.

(o) The legal description of the facility with reference to the land survey of the State of Utah.

## 2.5 GENERAL INFORMATION REQUIREMENTS FOR PART B

(a) Part B information requirements presented below reflect the standards promulgated in R315-8. These information requirements are necessary in order for the Executive Secretary to determine compliance with the standards of R315-8. If owners and operators of hazardous waste management facilities can demonstrate that the information prescribed in part B cannot be provided to the extent required, the Executive Secretary may make allowance for submission of the information on a case-by-case basis. Information required in part B shall be submitted to the Executive Secretary and signed in accordance with requirements in R315-3-2.2. Certain technical data, such as design drawings and specifications, and engineering studies shall be certified by a registered professional engineer. For post-closure permits, only the information specified in R315-3-2.19 is required in part B of the permit application.

(b) General information requirements. The following information is required for all hazardous waste management facilities, except as R315-8-1 provides otherwise:

(1) A general description of the facility,

(2) Chemical and physical analyses of the hazardous wastes and hazardous debris to be handled at the facility. At a minimum, these analyses shall contain all the information which must be known to treat, store, or dispose of the wastes properly in accordance with R315-8.

(3) A copy of the waste analysis plan required by R315-8-2.4, which incorporates by reference 40 CFR 264.13 (b) and, if applicable 40 CFR 264.13(c).

(4) A description of the security procedures and equipment required by R315-8-2.5, or a justification demonstrating the reasons for requesting a waiver of this requirement.

(5) A copy of the general inspection schedule required by R315-8-2.6(b). Include, where applicable, as part of the inspection schedule, specific requirements in R315-8-9.5, R315-8-10, which incorporates by reference the specific provisions of 40 CFR 264.193(i) and 264.195, R315-8-11.3, R315-8-12.3, R315-8-13.4, R315-8-14.3, and R315-8-16, which incorporates by reference 40 CFR 264.602, R315-8-17, which incorporates by reference 40 CFR 264.1033, R315-8-18, which incorporates by reference 40 CFR 264.1052, 264.1053, and 264.1058, and R315-8-22, which incorporates by reference 40 CFR 264.1084, 264.1085, 264.1086, and 264.1088.

(6) A justification of any request for a waiver(s) of the preparedness and prevention requirements of R315-8-3.

(7) A copy of the contingency plan required by R315-8-4. Include, where applicable, as part of the contingency plan, specific requirements in R315-8-11.8 and R315-8-10, which incorporates by reference 40 CFR 264.200.

(8) A description of procedures, structures, or equipment used at the facility to:

(i) Prevent hazards in unloading operations, for example, ramps, special forklifts;

(ii) Prevent run-off from hazardous waste handling areas to other areas of the facility or environment, or to prevent flooding, for example, berms, dikes, trenches;

(iii) Prevent contamination of water supplies;

(iv) Mitigate effects of equipment failure and power

outages;

(v) Prevent undue exposure of personnel to hazardous waste, for example, protective clothing; and

(vi) Prevent releases to the atmosphere.

(9) A description of precautions to prevent accidental ignition or reaction of ignitable, reactive, or incompatible wastes as required to demonstrate compliance with R315-8-2.8 including documentation demonstrating compliance with R315-8-2.8(c).

(10) Traffic pattern, estimated volume, number, types of vehicles and control, for example, show turns across traffic lanes, and stacking lanes, if appropriate; describe access road surfacing and load bearing capacity; show traffic control signals.

(11) Facility location information:

(i) In order to determine the applicability of the seismic standard R315-8-2.9(a), the owner or operator of a new facility shall identify the political jurisdiction, e.g., county, township, or election district, in which the facility is proposed to be located. If the county or election district is not listed in R315-50-11, no further information is required to demonstrate compliance with R315-8-2.9(a).

(ii) If the facility is proposed to be located in an area listed in R315-50-11, the owner or operator shall demonstrate compliance with the seismic standard. This demonstration may be made using either published geologic data or data obtained from field investigations carried out by the applicant. The information provided shall be of a quality to be acceptable to geologists experienced in identifying and evaluating seismic activity. The information submitted shall show that either:

(A) No faults which have had displacement in Holocene time are present, or no lineations which suggest the presence of a fault, which have displacement in Holocene time, within 3,000 feet of a facility are present, based on data from:

(I) Published geologic studies,

(II) Aerial reconnaissance of the area within a five mile radius from the facility,

(III) An analysis of aerial photographs covering a 3,000 foot radius of the facility, and

(IV) If needed to clarify the above data, a reconnaissance based on walking portions of the area within 3,000 feet of the facility, or

(B) If faults, to include lineations, which have had displacement in Holocene time are present within 3,000 feet of a facility, no faults pass within 200 feet of the portions of the facility where treatment, storage, or disposal of hazardous waste will be conducted, based on data from a comprehensive geologic analysis of the site. Unless a site analysis is otherwise conclusive concerning the absence of faults within 200 feet of the portions of the facility, data shall be obtained from a subsurface exploration, trenching, of the area within a distance no less than 200 feet from portions of the facility where treatment, storage, or disposal of hazardous waste will be conducted. The trenching shall be performed in a direction that is perpendicular to known faults, which have had displacement in Holocene time, passing within 3,000 feet of the portions of the facility where treatment, storage, and disposal of hazardous waste will be conducted. The investigation shall document with supporting maps and other analyses, the location of any faults found. The Guidance Manual for the Location Standards provides greater detail on the content of each type of seismic investigation and the appropriate conditions under which each approach or a combination of approaches would be used.

(iii) Owners and operators of all facilities shall provide an identification of whether the facility is located within a 100-year floodplain. This identification shall indicate the source of data for the determination and include a copy of the relevant Federal Insurance Administration (FIA) flood map, if used, or the calculations and maps used where an FIA map is not available. Information shall also be provided identifying the 100-year

flood level and any other special flooding factors, e.g., wave action, which shall be considered in designing, constructing, operating, or maintaining the facility to withstand washout from a 100-year flood.

Where maps for the National Flood Insurance Program produced by the Federal Insurance Administration (FIA) of the Federal Emergency Management Agency are available, they will normally be determinative of whether a facility is located within or outside of the 100-year floodplain. However, where the FIA map excludes an area, usually areas of the floodplain less than 200 feet in width, these areas shall be considered and a determination made as to whether they are in the 100-year floodplain. Where FIA maps are not available for a proposed facility location, the owner or operator shall use equivalent mapping techniques to determine whether the facility is within the 100-year floodplain, and if so located, what the 100-year flood elevation would be.

(iv) Owners and operators of facilities located in the 100-year floodplain shall provide the following information:

(A) Engineering analysis to indicate the various hydrodynamic and hydrostatic forces expected to result at the site as a consequence of a 100-year flood.

(B) Structural or other engineering studies showing the design of operational units, e.g., tanks, incinerators, and flood protection devices, e.g., floodwalls, dikes, at the facility and how these will prevent washout.

(C) If applicable, and in lieu of R315-3-2.5(b)(11)(iv)(A) and (B), a detailed description of procedures to be followed to remove hazardous waste to safety before the facility is flooded, including:

(I) Timing of the movement relative to flood levels, including estimated time to move the waste, to show that the movement can be completed before floodwaters reach the facility.

(II) A description of the location(s) to which the waste will be moved and demonstration that those facilities will be eligible to receive hazardous waste in accordance with the rules under R315-3, R315-7, R315-8, and R315-14.

(III) The planned procedures, equipment, and personnel to be used and the means to ensure that the resources will be available in time for use.

(IV) The potential for accidental discharges of the waste during movement.

(v) Existing facilities NOT in compliance with R315-8-2.9(b) shall provide a plan showing how the facility will be brought into compliance and a schedule for compliance.

(12) An outline of both the introductory and continuing training programs by owners or operators to prepare persons to operate or maintain the hazardous waste management facility in a safe manner as required to demonstrate compliance with R315-8-2.7. A brief description of how training will be designed to meet actual job tasks in accordance with requirements in R315-8-2.7(a)(3).

(13) A copy of the closure plan and where applicable, the post-closure plan required by R315-8-7 which incorporates by reference 40 CFR 264.112, and 264.118, and R315-8-10 which incorporates by reference 40 CFR 264.197. Include where applicable as part of the plans specific requirements in R315-8-9.9, R315-8-10, which incorporates by reference 40 CFR 264.197, R315-8-11.5, R315-8-12.6, R315-8-13.8, R315-8-14.5, R315-8-15.8, and R315-8-16, which incorporates by reference 40 CFR 264.601 and 264.603.

(14) For hazardous waste disposal units that have been closed, documentation that notices required under R315-8-7 which incorporates by reference 40 CFR 264.119, have been filed.

(15) The most recent closure cost estimate for the facility prepared in accordance with R315-8-8 which incorporates by reference 40 CFR 264.142, and a copy of the documentation

required to demonstrate financial assurance under R315-8-8 which incorporates by reference 40 CFR 264.143. For a new facility, a copy of the required documentation may be submitted 60 days prior to the initial receipt of hazardous wastes, if that is later than the submission of the part B.

(16) Where applicable, the most recent post-closure cost estimate for the facility prepared in accordance with R315-8-8, which incorporates by reference 40 CFR 264.144, plus a copy of the financial assurance mechanism adopted in compliance with R315-8-8.3 documentation required to demonstrate financial assurance under R315-8-8, which incorporates by reference 40 CFR 264.145. For a new facility, a copy of the required documentation may be submitted 60 days prior to the initial receipt of hazardous wastes, if that is later than the submission of the part B.

(17) Where applicable, a copy of the insurance policy or other documentation which comprises compliance with the requirements of R315-8-8, which incorporates by reference 40 CFR 264.147. For a new facility, documentation showing the amount of insurance meeting the specification of R315-8-8, which incorporates by reference 40 CFR 264.147(a), and if applicable 40 CFR 264.147(b), also incorporated by reference in R315-8-8, that the owner or operator plans to have in effect before initial receipt of hazardous waste for treatment, storage, or disposal. A request for a variance in the amount of required coverage, for a new or existing facility, may be submitted as specified in 40 CFR 264.147(c), incorporated by reference in R315-8-8.

(18) Where appropriate, proof of coverage by a financial mechanism as required in R315-8-8, which incorporates by reference 40 CFR 264.149 and 150.

(19) A topographic map showing a distance of 1000 feet around the facility at a scale of 2.5 centimeters, one inch, equal to not more than 61.0 meters, 200 feet. For large hazardous waste management facilities, the Executive Secretary will allow the use of other scales on a case-by-case basis. Contours shall be shown on the map. The contour interval shall be sufficient to clearly show the pattern of surface water flow in the vicinity of and from each operational unit of the facility. For example, contours with an interval of 1.5 meters, five feet, if relief is greater than 6.1 meters, 20 feet, or an interval of 0.6 meters, two feet, if relief is less than 6.1 meters, 20 feet. Owners and operators of hazardous waste management facilities located in mountainous areas should use larger contour intervals to adequately show topographic profiles of facilities. The map shall clearly show the following:

- (i) Map scale and date.
- (ii) 100-year floodplain area.
- (iii) Surface waters including intermittent streams.
- (iv) Surrounding land uses, residential, commercial, agricultural, recreational.
- (v) A wind rose, i.e., prevailing windspeed and direction.
- (vi) Orientation of map, north arrow.
- (vii) Legal boundaries of the hazardous waste management facility site.
- (viii) Access control, fences, gates.
- (ix) Injection and withdrawal wells both on-site and off-site.

(x) Buildings; treatment, storage, or disposal operations; or other structures, recreation areas, run-off control systems, access and internal roads, storm, sanitary, and process sewerage systems, loading and unloading areas, fire control facilities, etc.

(xi) Barriers for drainage or flood control.

(xii) Location of operational units within hazardous waste management facility site, where hazardous waste is, or will be, treated, stored, or disposed, include equipment cleanup areas.

(20) Applicants may be required to submit such information as may be necessary to enable the Executive Secretary and the Board to carry out duties under State laws and

Federal laws as specified in 40 CFR 270.3.

(21) For land disposal facilities, if a case-by-case extension has been approved under R315-13, which incorporates by reference 40 CFR 268.5, or a petition has been approved under R315-13, which incorporates by reference 40 CFR 268.6, a copy of the notice of approval for the extension is required.

(22) A summary of the pre-application meeting, along with a list of attendees and their addresses, and copies of any written comment or materials submitted at the meeting, as required under R315-4-2.31(c).

(c) Additional information requirements.

The following additional information regarding protection of groundwater is required from owners or operators of hazardous waste facilities containing a regulated unit except as otherwise provided in R315-8-6.1(b).

(1) A summary of the groundwater monitoring data obtained during the interim status period under R315-7-13 where applicable.

(2) Identification of the uppermost aquifer and aquifers hydraulically interconnected beneath the facility property, including groundwater flow direction and rate, and the basis for the identification, i.e., the information obtained from hydrogeologic investigations of the facility area.

(3) On the topographic map required under R315-3-2.5(b)(19), a delineation of the waste management area, the property boundary, the proposed "point of compliance" as defined in R315-8-6.6, the proposed location of groundwater monitoring wells as required by R315-8-6.8 and, to the extent possible, the information required in R315-3-2.5(c)(2);

(4) A description of any plume of contamination that has entered the groundwater from a regulated unit at the time that the application is submitted that:

(i) Delineates the extent of the plume on the topographic map required under R315-3-2.5(b)(19);

(ii) Identifies the concentration of each constituent listed in R315-50-14, which incorporates by reference Appendix IX of 40 CFR 264, throughout the plume or identifies the maximum concentrations of each constituent listed in R315-50-14 in the plume.

(5) Detailed plans and an engineering report describing the proposed groundwater monitoring program to be implemented to meet the requirements of R315-8-6.8.

(6) If the presence of hazardous constituents has not been detected in the groundwater at the time of permit application, the owner or operator shall submit sufficient information, supporting data, and analyses to establish a detection monitoring program which meets the requirements of R315-8-6.9. This submission shall address the following items as specified under R315-8-6.9:

(i) A proposed list of indicator parameters, waste constituents, or reaction products that can provide a reliable indication of the presence of hazardous constituents in the groundwater;

(ii) A proposed groundwater monitoring system;

(iii) Background values for each proposed monitoring parameters or constituent, or procedures to calculate the values; and

(iv) A description of proposed sampling, analysis and statistical comparison procedures to be utilized in evaluating groundwater monitoring data.

(7) If the presence of hazardous constituents has been detected in the groundwater at the point of compliance at the time of permit application, the owner or operator shall submit sufficient information, supporting data, and analyses to establish a compliance monitoring program which meets the requirements of R315-8-6.10. Except as provided in R315-8-6.9(g)(5), the owner or operator shall also submit an engineering feasibility plan for a corrective action program necessary to meet the

requirements of R315-8-6.11, unless the owner or operator obtains written authorization in advance from the Executive Secretary to submit a proposed permit schedule for submittal of a plan. To demonstrate compliance with R315-8-6.10, the owner or operator shall address the following items:

(i) A description of the wastes previously handled at the facility;

(ii) A characterization of the contaminated groundwater, including concentrations of hazardous constituents;

(iii) A list of hazardous constituents for which compliance monitoring will be undertaken in accordance with R315-8-6.8 and R315-8-6.10;

(iv) Proposed concentration limits for each hazardous constituent, based on the criteria set forth in R315-8-6.5(a) including a justification for establishing any alternate concentration limits;

(v) Detailed plans and an engineering report describing the proposed groundwater monitoring system, in accordance with the requirements of R315-8-6.8, and

(vi) A description of proposed sampling, analysis and statistical comparison procedures to be utilized in evaluating groundwater monitoring data.

(8) If hazardous constituents have been measured in the groundwater which exceed the concentration limits established under R315-8-6.5 Table 1, or if groundwater monitoring conducted at the time of permit application under R315-8-6.1 through R315-8-6.5 at the waste boundary indicates the presence of hazardous constituents from the facility in groundwater over background concentrations, the owner or operator shall submit sufficient information, supporting data, and analyses to establish a corrective action program which meets the requirements of R315-8-6.11. However, an owner or operator is not required to submit information to establish a corrective action program if he demonstrates to the Executive Secretary that alternate concentration limits will protect human health and the environment after considering the criteria listed in R315-8-6.5(b). An owner or operator who is not required to establish a corrective action program for this reason shall instead submit sufficient information to establish a compliance monitoring program which meets the requirements of R315-8-6.10 and R315-3-2.5(c)(6). To demonstrate compliance with R315-8-6.11, the owner or operator shall address, at a minimum, the following items:

(i) A characterization of the contaminated groundwater, including concentration of hazardous constituents;

(ii) The concentration limit for each hazardous constituent found in the groundwater as set forth in R315-8-6.5;

(iii) Detailed plans and engineering report describing the corrective action to be taken; and

(iv) A description of how the groundwater monitoring program will assess the adequacy of the corrective action.

(v) The permit may contain a schedule for submittal of the information required in R315-3-2.5(c)(8)(iii) and (iv) provided the owner or operator obtains written authorization from the Executive Secretary prior to submittal of the complete permit application.

(9) An intended schedule of construction shall be submitted with the permit application and will be incorporated into the permit as an approval condition. Facility permits shall be reviewed by the Executive Secretary no later than 18 months from the date of permit issuance, and periodically thereafter, to determine if a program of continuous construction is proceeding. Failure to maintain a program of continuous construction may result in revocation of the permit.

(d) Information requirements for solid waste management units.

(1) The following information is required for each solid waste management unit at a facility seeking a permit:

(i) The location of the unit on the topographic map

required under R315-3-2.5(b)(19);

- (ii) Designation of type of unit;
- (iii) General dimensions and structural description, supply any available drawings;
- (iv) When the unit was operated; and
- (v) Specification of all wastes that have been managed at the unit, to the extent available.

(2) The owner or operator of any facility containing one or more solid waste management units shall submit all available information pertaining to any release of hazardous wastes or hazardous constituents from the unit or units.

(3) The owner or operator shall conduct and provide the results of sampling and analysis of groundwater, land surface, and subsurface strata, surface water, or air, which may include the installation of wells, where the Executive Secretary ascertains it is necessary to complete a RCRA Facility Assessment that will determine if a more complete investigation is necessary.

#### 2.6 SPECIFIC PART B INFORMATION REQUIREMENTS FOR CONTAINERS

Facilities that store containers of hazardous waste, except as otherwise provided in R315-8-9.1, shall provide the following additional information:

(a) A description of the containment system to demonstrate compliance with R315-8-9.6. Show at least the following:

- (1) Basic design parameters, dimensions, and materials of construction.
- (2) How the design promotes drainage or how containers are kept from contact with standing liquids in the containment system.
- (3) Capacity of the containment system relative to the number and volume of containers to be stored.
- (4) Provisions for preventing or managing run-on.
- (5) How accumulated liquids can be analyzed and removed to prevent overflow.

(b) For storage areas that store containers holding wastes that do not contain free liquids, a demonstration of compliance with R315-8-9.6(c) including:

- (1) Test procedures and results or other documentation or information to show that the wastes do not contain free liquids; and
- (2) A description of how the storage area is designed or operated to drain and remove liquids or how containers are kept from contact with standing liquids.

(c) Sketches, drawings, or data demonstrating compliance with R315-8-9.7, location of buffer zone and containers holding ignitable or reactive wastes, and R315-8-9.8(c), location of incompatible wastes, where applicable.

(d) Where incompatible wastes are stored or otherwise managed in containers, a description of the procedures used to ensure compliance with R315-8-9.8(a) and (b) and R315-8-2.8(b) and (c).

(e) Information on air emission control equipment as required in R315-3-2.18, which incorporates by reference 40 CFR 270.27.

#### 2.7 SPECIFIC PART B INFORMATION REQUIREMENTS FOR TANK SYSTEMS

For facilities that use tanks to store or treat hazardous waste, the requirements of 40 CFR 270.16, 1996 ed., are adopted and incorporated by reference.

#### 2.8 SPECIFIC PART B INFORMATION REQUIREMENTS FOR SURFACE IMPOUNDMENTS

Facilities that store, treat, or dispose of hazardous waste in surface impoundments, except as otherwise provided in R315-8-1.1, shall provide the following additional information:

- (a) A list of the hazardous wastes placed or to be placed in each surface impoundment;
- (b) Detailed plans and an engineering report describing how the surface impoundment is or will be designed,

constructed, operated, and maintained to meet the requirements of R315-8-2.10, R315-8-11.2, R315-8-11.9, R315-8-11.10, addressing the following items:

(1) The liner system, except for an existing portion of a surface impoundment. If an exemption from the requirement for a liner is sought as provided by R315-8-11.2(b), submit detailed plans and engineering and hydrogeologic reports, as appropriate, describing alternate design and operating practices that will, in conjunction with location aspects, prevent the migration of any hazardous constituents into the groundwater or surface water at any future time;

(2) The double liner and leak, leachate, detection, collection, and removal system, if the surface impoundment must meet the requirements of R315-8-11.2(c). If an exemption from the requirements for double liners and a leak detection, collection, and removal system or alternative design is sought as provided by R315-8-11.2(d), (e), or (f), submit appropriate information;

(3) If the leak detection system is located in a saturated zone, submit detailed plans and an engineering report explaining the leak detection system design and operation, and the location of the saturated zone in relation to the leak detection system;

(4) The construction quality assurance, CQA, plan if required under R315-8-2.10;

(5) Proposed action leakage rate, with rationale, if required under R315-8-11.9, and response action plan, if required under R315-8-11.10;

(6) Prevention of overtopping; and

(7) Structural integrity of dikes.

(c) A description of how each surface impoundment, including the double liner, leak detection system, cover system, and appurtenances for control of overtopping, will be inspected in order to meet the requirements of R315-8-11.3(a), (b), and (d). This information should be included in the inspection plan submitted under R315-3-2.5(b)(5);

(d) A certification by a qualified engineer which attests to the structural integrity of each dike, as required under R315-8-11.3(c). For new units, the owner or operator shall submit a statement by a qualified engineer that he will provide a certification upon completion of construction in accordance with the plans and specifications;

(e) A description of the procedure to be used for removing a surface impoundment from service, as required under R315-8-11.4(b) and (c). This information should be included in the contingency plan submitted under R315-3-2.5(b)(7);

(f) A description of how hazardous waste residues and contaminated materials will be removed from the unit at closure, as required under R315-8-11.5(a)(1). For any wastes not to be removed from the unit upon closure, the owner or operator shall submit detailed plans and an engineering report describing how R315-8-11.5(a)(2) and (b) will be complied with. This information should be included in the closure plan, and, where applicable, the post-closure plan submitted under R315-3-2.5(b)(13);

(g) If ignitable or reactive wastes are to be placed in a surface impoundment, an explanation of how R315-8-11.6 will be complied with;

(h) If incompatible wastes, or incompatible wastes and materials will be placed in a surface impoundment, an explanation of how R315-8-11.7 will be complied with.

(i) A waste management plan for EPA Hazardous Waste Nos. F020, F021, F022, F023, F026, and F027 describing how the surface impoundment is or will be designed, constructed, operated, and maintained to meet the requirements of R315-8-11.8. This submission shall address the following items as specified in R315-8-11.8:

- (1) The volume, physical, and chemical characteristics of the wastes, including their potential to migrate through soil or to volatilize or escape into the atmosphere;

(2) The attenuative properties of underlying and surrounding soils or other materials;

(3) The mobilizing properties of other materials co-disposed with these wastes; and

(4) The effectiveness of additional treatment, design, or monitoring techniques.

(j) Information on air emission control equipment as required by R315-3-2.18, which incorporates by reference 40 CFR 270.27.

#### 2.9 SPECIFIC PART B INFORMATION REQUIREMENTS FOR WASTE PILES

Facilities that store or treat hazardous waste in waste piles, except as otherwise provided in R315-8-1, shall provide the following additional information:

(a) A list of hazardous wastes placed or to be placed in each waste pile;

(b) If an exemption is sought to R315-8-12.2 and R315-8-6 as provided by R315-8-12.1(c) or R315-8-6(b)(2), an explanation of how the standards of R315-8-12.1(c) will be complied with or detailed plans and an engineering report describing how the requirements of R315-8-6(b)(2) will be met.

(c) Detailed plans and an engineering report describing how the waste pile is or will be designed, constructed, operated and maintained to meet the requirements of R315-8-2.10, R315-8-12.2, R315-8-12.8, and R315-8-12.9, addressing the following items:

(1)(i) The liner system, except for an existing portion of a waste pile, if the waste pile must meet the requirements of R315-8-12.2(a). If an exemption from the requirement for a liner is sought as provided by R315-8-12.2(b), submit detailed plans, and engineering and hydrogeological reports, as appropriate, describing alternate designs and operating practices that will, in conjunction with location aspects, prevent the migration of any hazardous constituents into the ground water or surface water at any future time;

(ii) The double liner and leak, leachate, detection, collection, and removal system, if the waste pile must meet the requirements of R315-8-12.2(c). If an exemption from the requirements for double liners and a leak detection, collection, and removal system or alternative design is sought as provided by R315-8-12.2(d), (e), or (f), submit appropriate information;

(iii) If the leak detection system is located in a saturated zone, submit detailed plans and an engineering report explaining the leak detection system design and operation, and the location of the saturated zone in relation to the leak detection system;

(iv) The construction quality assurance (CQA) plan if required under R315-8-2.10;

(v) Proposed action leakage rate, with rationale, if required under R315-8-12.8, and response action plan, if required under R315-8-12.9;

(2) Control of run-on;

(3) Control of run-off;

(4) Management of collection and holding units associated with run-on and run-off control systems; and

(5) Control of wind dispersal of particulate matter, where applicable;

(d) A description of how each waste pile, including the double liner system, leachate collection and removal system, leak detection system, cover system, and appurtenances for control of run-on and run-off, will be inspected in order to meet the requirements of R315-8-12.3(a), (b), and (c). This information shall be included in the inspection plan submitted under R315-3-2.5(b)(5);

(e) If treatment is carried out on or in the pile, details of the process and equipment used, and the nature and quality of the residuals;

(f) If ignitable or reactive wastes are to be placed in a waste pile, an explanation of how the requirements of R315-8-12.4 will be complied with;

(g) If incompatible wastes, or incompatible wastes and materials will be placed in a waste pile, an explanation of how R315-8-12.5 will be complied with;

(h) A description of how hazardous waste residues and contaminated materials will be removed from the waste pile at closure, as required under R315-8-12.6(a). For any waste not to be removed from the waste pile upon closure, the owner or operator shall submit detailed plans and an engineering report describing how R315-8-14.5(a) and (b) will be complied with. This information should be included in the closure plan, and, where applicable, the post-closure plan submitted under R315-3-2.5(b)(13);

(i) A waste management plan for EPA Hazardous Waste Nos. F020, F021, F022, F023, F026 and F027 describing how a waste pile that is not enclosed, as defined in R315-8-12.1(c) is or will be designed, constructed, operated, and maintained to meet the requirements of R315-8-12.7. This submission shall address the following items as specified in R315-8-12.7:

(1) The volume, physical, and chemical characteristics of the wastes to be disposed in the waste pile, including their potential to migrate through soil or to volatilize or escape into the atmosphere;

(2) The attenuative properties of underlying and surrounding soils or other materials;

(3) The mobilizing properties of other materials co-disposed with these wastes; and

(4) The effectiveness of additional treatment, design, or monitoring techniques.

#### 2.10 SPECIFIC PART B INFORMATION REQUIREMENTS FOR INCINERATORS

For facilities that incinerate hazardous waste, except as R315-8-15.1 and R315-3-2.10(e) provides otherwise, the applicant shall fulfill the requirements of R315-3-2.10(a), (b), or (c).

(a) When seeking exemption under R315-8-15.1(b) or (c) (ignitable, corrosive or reactive wastes only):

(1) Documentation that the waste is listed as a hazardous waste in R315-2-10 solely because it is ignitable, Hazard Code I, corrosive, Hazard Code C, or both; or

(2) Documentation that the waste is listed as a hazardous waste in R315-2-10 solely because it is reactive, Hazard Code R, for characteristics other than those listed in R315-2-9(f)(1)(iv) and (v), and will not be burned when other hazardous wastes are present in the combustion zone; or

(3) Documentation that the waste is a hazardous waste solely because it possesses the characteristic of ignitability, corrosivity, or both, as determined by the tests for characteristics of hazardous wastes under R315-2-9; or

(4) Documentation that the waste is a hazardous waste solely because it possesses the reactivity characteristics listed in R315-2-9(f)(i), (ii), (iii), (vi), (vii), or (viii) and that it will not be burned when other hazardous wastes are present in the combustion zone; or

(b) Submit a trial burn plan or the results of the trial burn, including all required determinations, in accordance with R315-3-6.3; or

(c) In lieu of a trial burn, the applicant may submit the following information:

(1) An analysis of each waste or mixture of wastes to be burned including:

(i) Heat value of the waste in the form and composition in which it will be burned.

(ii) Viscosity, if applicable, or description of physical form of the waste.

(iii) An identification of any hazardous organic constituents listed in R315-50-10, which incorporates by reference 40 CFR part 261 Appendix VIII, which are present in the waste to be burned, except that the applicant need not analyze for constituents listed in R315-50-10, which

incorporates by reference 40 CFR 261 Appendix VIII, which would reasonably not be expected to be found in the waste. The constituents excluded from analysis shall be identified and the basis for their exclusion stated. The waste analysis shall rely on analytical techniques specified in "Test Methods for the Evaluation of Solid Waste, Physical/Chemical Methods," EPA Publication SW-846, as incorporated by reference in 40 CFR 260.11, see R315-1-2, or their equivalent.

(iv) An approximate quantification of the hazardous constituents identified in the waste, within the precision produced by the analytical methods specified in "Test Methods for the Evaluation of Solid Waste, Physical/Chemical Methods," EPA Publication SW-846, as incorporated by reference in 40 CFR 260.11, see R315-1-2.

(v) A quantification of those hazardous constituents in the waste which may be designated as POHC's based on data submitted from other trial or operational burns which demonstrate compliance with the performance standard in R315-8-15.4.

(2) A detailed engineering description of the incinerator, including:

- (i) Manufacturer's name and model number of incinerator.
- (ii) Type of incinerator.
- (iii) Linear dimension of incinerator unit including cross sectional area of combustion chamber.
- (iv) Description of auxiliary fuel system, type/feed.
- (v) Capacity of prime mover.
- (vi) Description of automatic waste feed cutoff system(s).
- (vii) Stack gas monitoring and pollution control monitoring system.
- (viii) Nozzle and burner design.
- (ix) Construction materials.
- (x) Location and description of temperature, pressure, and flow indicating devices and control devices.

(3) A description and analysis of the waste to be burned compared with the waste for which data from operational or trial burns are provided to support the contention that a trial burn is not needed. The data should include those items listed in R315-3-2.10(c)(1). This analysis should specify the POHC's which the applicant has identified in the waste for which a permit is sought, and any differences from the POHC's in the waste for which burn data are provided.

(4) The design and operating conditions of the incinerator unit to be used, compared with that for which comparative burn data are available.

(5) A description of the results submitted from any previously conducted trial burn(s) including:

- (i) Sampling and analysis techniques used to calculate performance standards in R315-8-15.4.
- (ii) Methods and results of monitoring temperatures, waste feed rates, air feed rates, and carbon monoxide, and an appropriate indicator of combustion gas velocity, including a statement concerning the precision and accuracy of this measurement.

(6) The expected incinerator operation information to demonstrate compliance with R315-8-15.4 and R315-8-15.6 including:

- (i) Expected carbon monoxide (CO) level in the stack exhaust gas.
- (ii) Waste feed rate.
- (iii) Combustion zone temperature.
- (iv) Indication of combustion gas velocity.
- (v) Expected stack gas volume, flow rate, and temperature.
- (vi) Computed residence time for waste in the combustion zone.
- (vii) Expected hydrochloric acid removal efficiency.
- (viii) Expected fugitive emissions and their control procedures.
- (ix) Proposed waste feed cut-off limits based on the

identified significant operating parameters.

(7) Any supplemental information as the Executive Secretary finds necessary to achieve the purposes of this paragraph.

(8) Waste analysis data, including that submitted in R315-3-2.10(c)(1), sufficient to allow the Executive Secretary to specify as permit Principal Organic Hazardous Constituents (POHC's) those constituents for which destruction and removal efficiencies will be required.

(d) The Executive Secretary shall approve a permit application without a trial burn if he finds that:

- (1) The wastes are sufficiently similar; and
- (2) The incinerator units are sufficiently similar, and the data from other trial burns are adequate to specify, under R315-8-15.6, operating conditions that will ensure that the performance standards in R315-8-15.4 will be met by the incinerator.

(e) When an owner or operator demonstrates compliance with the air emission standards and limitations in R307-214-2, which incorporates by reference 40 CFR 63, subpart EEE (i.e., by conducting a comprehensive performance test and submitting a Notification of Compliance under R317-214-2, which incorporates by reference 40 CFR 63.1207(j) and 63.1210(b)), the requirements of R315-3-2.10 do not apply, except those provisions the Executive Secretary determines are necessary to ensure compliance with R315-8-15.6(a) and R315-8-15.6(c) if you elect to comply with R315-3-9(a)(1)(i) to minimize emissions of toxic compounds from startup, shutdown, and malfunction events. Nevertheless, the Executive Secretary may apply the provisions of R315-3-2.10, on a case-by-case basis, for purposes of information collection in accordance with R315-3-2.1(j) and R315-3-3.3(b)(2).

#### 2.11 SPECIFIC PART B INFORMATION REQUIREMENTS FOR LAND TREATMENT FACILITIES

Facilities that use land treatment to dispose of hazardous waste, except as otherwise provided in R315-8-1.1, shall provide the following additional information:

(a) A description of plans to conduct a treatment demonstration as required under R315-8-13.3. The description shall include the following information:

- (1) The wastes for which the demonstration will be made and the potential hazardous constituents in the wastes;
- (2) The data sources to be used to make the demonstration, e.g., literature, laboratory data, field data, or operating data;
- (3) Any specific laboratory or field test that will be conducted, including:

- (i) The type of test, e.g., column leaching, degradation;
- (ii) Materials and methods, including analytical procedures;
- (iii) Expected time for completion;
- (iv) Characteristics of the unit that will be simulated in the demonstration, including treatment zone characteristics, climatic conditions, and operating practices;

(b) A description of a land treatment program, as required under R315-8-13.2. This information shall be submitted with the plans for the treatment demonstration, and updated following the treatment demonstration. The land treatment program shall address the following items:

- (1) The wastes to be land treated;
- (2) Design measures and operating practices necessary to maximize treatment in accordance with R315-8-13.4(a) including:
  - (i) Waste application method and rate;
  - (ii) Measures to control soil pH;
  - (iii) Enhancement of microbial or chemical reactions;
  - (iv) Control of moisture content.
- (3) Provisions for unsaturated zone monitoring including:
  - (i) Sampling equipment, procedures and frequency;
  - (ii) Procedures for selecting sampling locations;

(iii) Analytical procedures;  
 (iv) Chain of custody control;  
 (v) Procedures for establishing background values;  
 (vi) Statistical methods for interpreting results;  
 (vii) The justification for any hazardous constituents recommended for selection as principal hazardous constituents, in accordance with the criteria for the selection in R315-8-13.6(a);

(4) A list of hazardous constituents reasonably expected to be in, or derived from, the wastes to be land treated based on waste analysis performed pursuant to R315-8-2.4, which incorporates by reference 40 CFR 264.13;

(5) The proposed dimensions of the treatment zone;

(c) A description of how the unit is or will be designed, constructed, operated, and maintained in order to meet the requirements of R315-8-13.4. This submission shall address the following items:

(1) Control of run-on;

(2) Collection and control of run-off;

(3) Minimization of run-off of hazardous constituents from the treatment zone;

(4) Management of collection and holding facilities associated with run-on and run-off control systems;

(5) Periodic inspection of the unit. This information should be included in the inspection plan submitted under R315-3-2.5(b)(5).

(6) Control of wind dispersal of particulate matter, if applicable;

(d) If food-chain crops are to be grown in or on the treatment zone of the land treatment unit, a description of how the demonstration required under R315-8-13.5(a) will be conducted including:

(1) Characteristics of the food-chain crop for which the demonstration will be made;

(2) Characteristics of the waste, treatment zone, and waste application method and rate to be used in the demonstration;

(3) Procedures for crop growth, sample collection, sample analysis, and data evaluation;

(4) Characteristics of the comparison crop including the location and conditions under which it was or will be grown.

(e) If food-chain crops are to be grown, and cadmium is present in the land treated waste, a description of how the requirements of R315-8-13.5(b) will be complied with;

(f) A description of the vegetative cover to be applied to closed portions of the facility, and a plan for maintaining such cover during the post-closure care period, as required under R315-8-13.8(a)(8) and R315-8-13.8(c)(2). This information should be included in the closure plan, and, where applicable, the post-closure care plan submitted under R315-3-2.5(b)(13).

(g) If ignitable or reactive wastes will be placed in or on the treatment zone, an explanation of how the requirements of R315-8-13.9 will be complied with;

(h) If incompatible wastes, or incompatible wastes and materials, will be placed in or on the same treatment zone, an explanation of how R315-8-13.10 will be complied with.

(i) A waste management plan for EPA Hazardous Waste Nos. F020, F021, F022, F023, F026, and F027 describing how a land treatment facility is or will be designed, constructed, operated, and maintained to meet the requirements of R315-8-13.11. This submission shall address the following items as specified in R315-8-13.11:

(1) The volume, physical, and chemical characteristics of the wastes, including their potential to migrate through soil or to volatilize or escape into the atmosphere;

(2) The attenuative properties of underlying and surrounding soils or other materials;

(3) The mobilizing properties of other materials co-disposed with these wastes; and

(4) The effectiveness of additional treatment, design, or

monitoring techniques.

## 2.12 SPECIFIC PART B INFORMATION REQUIREMENTS FOR LANDFILLS

Facilities that dispose of hazardous waste in landfills, except as otherwise provided in R315-8-1.1, shall provide the following additional information:

(a) A list of the hazardous wastes placed or to be placed in each landfill or landfill cell;

(b) Detailed plans and an engineering report describing how the landfill is designed and is or will be constructed, operated, and maintained to comply with the requirements of R315-8-2.10, R315-8-14.2., R315-8-14.3, and R315-8-14.12, addressing the following items:

(1)(i) The liner system, except for an existing portion of a landfill, if the landfill must meet the requirements of R315-8-14.2(a). If an exemption from the requirement for a liner is sought as provided by R315-8-14.2(b), submit detailed plans, and engineering and hydrogeological reports, as appropriate, describing alternate designs and operating practices that will, in conjunction with location aspects, prevent the migration of any hazardous constituents into the groundwater or surface water at any future time;

(ii) The double liner and leak (leachate) detection, collection, and removal system, if the landfill must meet the requirements of R315-8-14.2(c). If an exemption from the requirements for double liners and a leak detection, collection, and removal system or alternative design is sought as provided by R315-8-14.2(d), (e), or (f), submit appropriate information;

(iii) If the leak detection system is located in a saturated zone, submit detailed plans and an engineering report explaining the leak detection system design and operation, and the location of the saturated zone in relation to the leak detection system;

(iv) The construction quality assurance, CQA, plan if required under R315-8-2.10;

(v) Proposed action leakage rate, with rationale, if required under R315-8-14.12, and response action plan, if required under R315-8-14.3;

(2) Control of run-on;

(3) Control of run-off;

(4) Management of collection and holding facilities associated with run-on and run-off control systems; and

(5) Control of wind dispersal of particulate matter, where applicable.

(c) A description of how each landfill, including the double liner system, leachate collection and removal system, leak detection system, cover system, and appurtenances for control of run-on and run-off, will be inspected in order to meet the requirements of R315-8-14.3(a), (b), and (c). This information shall be included in the inspection plan submitted under R315-3-2.5(b)(5);

(d) A description of how each landfill, including the liner and cover systems, will be inspected in order to meet the requirements of R315-8-14.3(a) and (b). This information should be included in the inspection plan submitted under R315-3-2.5(b)(5).

(e) Detailed plans and engineering report describing the final cover which will be applied to each landfill or landfill cell at closure in accordance with R315-8-14.5(a), and a description of how each landfill will be maintained and monitored after closure in accordance with R315-8-14.5(b). This information should be included in the closure and post-closure plans submitted under R315-3-2.5(b)(13).

(f) If ignitable or reactive wastes will be landfilled, an explanation of how the requirements of R315-8-14.6 will be complied with;

(g) If incompatible wastes, or incompatible wastes and materials will be landfilled, an explanation of how R315-8-14.7 will be complied with;

(h) If bulk or non-containerized liquid waste or wastes

containing free liquids is to be landfilled prior to May 8, 1985, an explanation of how the requirements of R315-8-14.8(a) will be complied with;

(i) If containers of hazardous waste are to be landfilled, an explanation of how the requirements of R315-8-14.9 or R315-8-14.10 as applicable, will be complied with.

(j) A waste management plan for EPA Hazardous Waste Nos. F020, F021, F022, F023, F026, and F027 describing how a landfill is or will be designed, constructed, operated, and maintained to meet the requirements of R315-8-14.11. This submission shall address the following items as specified in R315-8-14.11:

(1) The volume, physical, and chemical characteristics of the wastes, including their potential to migrate through soil or to volatilize or escape into the atmosphere;

(2) The attenuative properties of underlying and surrounding soils or other materials;

(3) The mobilizing properties of other materials co-disposed with these wastes; and

(4) The effectiveness of additional treatment, design, or monitoring techniques.

#### 2.13 SPECIFIC PART B INFORMATION REQUIREMENTS FOR BOILERS AND INDUSTRIAL FURNACES BURNING HAZARDOUS WASTE

For facilities that burn hazardous wastes in boilers and industrial furnaces which R315-14-7 applies, which incorporates by reference 40 CFR subpart H, 266.100 through 266.112, the requirements of 40 CFR 270.22, 2003 ed., are adopted and incorporated by reference with the following exception:

Substitute "Executive Secretary" for "Director."

#### 2.14 SPECIFIC PART B INFORMATION REQUIREMENTS FOR MISCELLANEOUS UNITS

Facilities that treat, store or dispose of hazardous waste in miscellaneous units except as otherwise provided in R315-8-16, which incorporates by reference 40 CFR 264.600, shall provide the following additional information:

(a) A detailed description of the unit being used or proposed for use, including the following:

(1) Physical characteristics, materials of construction, and dimensions of the unit;

(2) Detailed plans and engineering reports describing how the unit will be located, designed, constructed, operated, maintained, monitored, inspected, and closed to comply with the requirements of R315-8-16, which incorporates by reference 40 CFR 264.601 and 264.602; and

(3) For disposal units, a detailed description of the plans to comply with the post-closure requirements of R315-8-16, which incorporates by reference 40 CFR 264.603.

(b) Detailed hydrologic, geologic, and meteorologic assessments and land-use maps for the region surrounding the site that address and ensure compliance of the unit with each factor in the environmental performance standards of R315-8-16, which incorporates by reference 40 CFR 264.601. If the applicant can demonstrate that he does not violate the environmental performance standards of R315-8-16, which incorporates by reference 40 CFR 264.601 and the Executive Secretary agrees with such demonstration, preliminary hydrologic, geologic, and meteorologic assessments will suffice.

(c) Information on the potential pathways of exposure of humans or environmental receptors to hazardous waste or hazardous constituents and on the potential magnitude and nature of these exposures;

(d) For any treatment unit, a report on a demonstration of the effectiveness of the treatment based on laboratory or field data;

(e) Any additional information determined by the Executive Secretary to be necessary for evaluation of compliance of the unit with the environmental performance standards of R315-8-16, which incorporates by reference 40

CFR 264.601.

#### 2.15 SPECIFIC PART B INFORMATION REQUIREMENTS FOR PROCESS VENTS

For facilities that have process vents to which R315-8-17 applies, which incorporates by reference 40 CFR subpart AA of 264, the requirements of 40 CFR 270.24, 1991 ed., regarding information requirements for process vents are adopted and incorporated by reference with the following exception:

Substitute "Executive Secretary" for "Regional Administrator."

#### 2.16 SPECIFIC PART B INFORMATION REQUIREMENTS FOR EQUIPMENT

For facilities that have equipment to which R315-8-18 applies, which incorporates by reference 40 CFR subpart BB of 264, the requirements of 40 CFR 270.25, 1991 ed., regarding information requirements for equipment are adopted and incorporated by reference with the following exception:

Substitute "Executive Secretary" for "Regional Administrator."

#### 2.17 SPECIFIC PART B INFORMATION REQUIREMENTS FOR DRIP PADS

For facilities that have drip pads to which R315-8-19 applies, which incorporates by reference 40 CFR subpart W, 264.570 through 264.575, the requirements of 40 CFR 270.26, 1991 ed., are adopted and incorporated by reference with the following exception:

Substitute "Executive Secretary" for "Director."

#### 2.18 SPECIFIC PART B INFORMATION REQUIREMENTS FOR AIR EMISSION CONTROLS FOR TANKS, SURFACE IMPOUNDMENTS, AND CONTAINERS

The requirements as found in 40 CFR 270.27 1996 ed., as amended by 61 FR 59931, November 25, 1996, are adopted and incorporated by reference.

#### 2.19 PART B INFORMATION REQUIREMENTS FOR POST-CLOSURE PERMITS

For post-closure permits, the owner or operator is required to submit only the information specified in R315-3-2.5(b)(1), (4), (5), (6), (11), (13), (14), (16), (18), (19), and R315-3-2.5(c) and (d), unless the Executive Secretary determines that additional information from R315-3-2.5, R315-3-2.7, which incorporates by reference 40 CFR 270.16, R315-3-2.8, R315-3-2.9, R315-3-2.11, or R315-3-2.12 is necessary. The owner or operator is required to submit the same information when an alternative authority is used in lieu of a post-closure permit as provided in R315-3-1.3(e)(7).

#### 2.20 PERMIT DENIAL

The Executive Secretary may, pursuant to the procedures in R315-4, deny the permit application either in its entirety or as to the active life of a hazardous waste management facility or unit only.

### R315-3-3. Permit Conditions.

#### 3.1 CONDITIONS APPLICABLE TO PERMITS

The following conditions apply to all permits. All conditions applicable to permits shall be incorporated into the permits either expressly or by reference. If incorporated by reference, a specific citation of these rules shall be given in the permit.

(a) Duty to comply. The permittee shall comply with all conditions of this permit, except that the permittee need not comply with the conditions of this permit to the extent and for the duration any noncompliance is authorized in an emergency permit. (See R315-3-6.2). Any plan noncompliance except under the terms of an emergency permit, constitutes a violation of the Utah Solid and Hazardous Waste Act and is grounds for enforcement action; for permit termination, revocation and reissuance, or modification; or for denial of a permit renewal application.

(b) Duty to reapply. If the permittee wishes to continue an

activity regulated by this permit after the expiration date of this permit, the permittee shall apply for and obtain a new permit.

(c) Need to halt or reduce activity not a defense. It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the approved activity in order to maintain compliance with the conditions of this permit.

(d) In the event of noncompliance with the permit, the permittee shall take all reasonable steps to minimize releases to the environment, and shall carry out all measures as are reasonable to prevent significant adverse impact on human health or the environment.

(e) Proper operation and maintenance. The permittee shall at all times properly operate and maintain all facilities and systems of treatment and control, and related appurtenances, which are installed or used by the permittee to achieve compliance with the conditions of this permit. Proper operation and maintenance includes effective performance, adequate funding, adequate operator staffing and training, and adequate laboratory and process controls, including appropriate quality assurance procedures. This provision requires the operation of back-up or auxiliary facilities or similar systems only when necessary to achieve compliance with the conditions of the permit.

(f) Permit actions. This permit may be modified, revoked and reissued, or terminated in accordance with the provisions of R315-3-4.2 or R315-4.4 and the procedures of R315-4-1.5. The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or a notification or planned changes or anticipated noncompliance, does not stay any permit condition.

(g) Property rights. This permit does not convey any property rights of any sort, or any exclusive privilege.

(h) Duty to provide information. The permittee shall furnish to the Executive Secretary within a reasonable time, any relevant information which the Executive Secretary may request to determine whether cause exists for modifying, revoking and reissuing, or terminating this permit, or to determine compliance with this permit. The permittee shall also furnish to the Executive Secretary upon request, copies of records required to be kept by this permit.

(i) Inspection and entry. The permittee shall allow the Executive Secretary, the Board, or an authorized representative, upon the presentation of credentials and other documents as may be required by law, to:

(1) Enter at reasonable times upon the permittee's premises where a regulated facility or activity is located or conducted, or where records must be kept under the conditions of this permit;

(2) Have access to and copy, at reasonable times, any records that must be kept under the conditions of this permit;

(3) Inspect at reasonable times any facilities, equipment, including monitoring and control equipment, practices, or operations regulated or required under this permit; and

(4) Sample or monitor at reasonable times, for the purposes of assuring permit compliance or as otherwise authorized by the Utah Solid and Hazardous Waste Act, any substances or parameters at any location.

(j) Monitoring and records.

(1) Sample and measurements taken for the purpose of monitoring shall be representative of the monitored activity.

(2) The permittee shall retain records of all monitoring information, including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation, copies of all reports required by this permit, the certification required by R315-8-5.3, which incorporates by reference 40 CFR 264.73(b)(9), and records of all data used to complete the application for this permit, for a period of at least three years from the date of the sample, measurement, report, certification, or application. This period may be extended by

request of the Executive Secretary and the Board at any time. The permittee shall maintain records from all groundwater monitoring wells and associated groundwater surface elevations, for the active life of the facility, and for disposal facilities for the post-closure care period as well.

(3) Records of monitoring information shall include:

(i) The date, exact place, and time of sampling or measurements;

(ii) The individual(s) who performed the sampling or measurements;

(iii) The date(s) analyses were performed;

(iv) The individual(s) who performed the analyses;

(v) The analytical techniques or methods used; and

(vi) The results of all analyses.

(k) Signatory requirement. All applications, reports, or information submitted to the Executive Secretary shall be signed and certified, see R315-3-2.2.

(l) Reporting requirements.

(1) Planned changes. The permittee shall give notice to the Executive Secretary as soon as possible of any planned physical alterations or additions to the approved facility.

(2) Anticipated noncompliance. The permittee shall give advance notice to the Executive Secretary of any planned changes in the approved facility or activity which may result in noncompliance with permit requirements. For a new facility, the permittee may not treat, store, or dispose of hazardous waste; and for a facility being modified, the permittee may not treat, store, or dispose of hazardous waste in the modified portion of the facility except as provided in R315-3-4.3, which incorporates by reference 40 CFR 270.42, until:

(i) The permittee has submitted to the Executive Secretary by certified mail or hand delivery a letter signed by the permittee and a registered professional engineer stating that the facility has been constructed or modified in compliance with the permit; and

(ii)(A) The Executive Secretary or the Board has inspected the modified or newly constructed facility and finds it is in compliance with the conditions of the permit; or

(B) Within 15 days of the date of submission of the letter in R315-3-3.1(l)(2)(i), the permittee has not received notice from the Executive Secretary or Board of their intent to inspect, prior inspection is waived and the permittee may commence treatment, storage, or disposal of hazardous waste.

(3) Transfers. The permit is not transferable to any person except after notice to the Executive Secretary. The Executive Secretary may require modification or revocation and reissuance of the permit to change the name of the permittee and incorporate any other requirements as may be necessary. See R315-3-4.1.

(4) Monitoring reports. Monitoring results shall be reported at the intervals specified elsewhere in this permit.

(5) Compliance schedules. Reports of compliance or noncompliance with, or any progress reports on, interim and final requirements contained in any compliance schedule of this permit shall be submitted no later than 14 days following each schedule date.

(6) Twenty-four hour reporting. See R315-9 for Emergency Controls.

(i) The permittee shall report any noncompliance which may endanger health or the environment orally within 24 hours from the time the permittee becomes aware of the circumstances, including:

(A) Information concerning release of hazardous waste that may cause an endangerment to public drinking water supplies.

(B) Any information of a release of hazardous waste or of a fire or explosion from the hazardous waste management facility, which could threaten the environment or human health outside the facility.

(ii) The description of the occurrence and its cause shall include:

- (A) Name, address, and telephone number of the owner or operator;
- (B) Name, address, and telephone number of the facility;
- (C) Date, time, and type of incident;
- (D) Name and quantity of material(s) involved;
- (E) The extent of injuries, if any;
- (F) An assessment of actual or potential hazards to the environment and human health outside the facility, where this is applicable; and
- (G) Estimated quantity and disposition of recovered material that resulted from the incident.

(iii) A written submission shall also be provided within five days of the time the permittee becomes aware of the circumstances. The written submission shall contain a description of the noncompliance and its cause; the period of noncompliance including exact dates and times, and if the noncompliance has not been corrected, the anticipated time it is expected to continue; and the steps taken or planned to reduce, eliminate and prevent reoccurrence of the noncompliance. The Executive Secretary may waive the five-day written notice requirement in favor of a written report within 15 days.

(7) Manifest discrepancy report. If a significant discrepancy in a manifest is discovered, the permittee shall attempt to reconcile the discrepancy. If not resolved within fifteen days, the permittee shall submit a letter report, including a copy of the manifest, to the Executive Secretary. (See R315-8-5.4)

(8) Unmanifested waste report. This report shall be submitted to the Executive Secretary within 15 days of receipt of unmanifested wastes.

(9) Biennial report. A biennial report shall be submitted covering facility activities during odd numbered calendar years.

(10) Other noncompliance. The permittee shall report all instances of noncompliance not reported under R315-3-3.1(l)(4), (5), and (6), at the time monitoring reports are submitted. The reports shall contain the information listed in R315-3-3.1(l)(6).

(11) Other information. Where the permittee becomes aware that he failed to submit any relevant facts in a permit application, or submitted incorrect information in a permit application or in any report to the Executive Secretary, he shall promptly submit all facts or information.

(m) Information repository. The Executive Secretary may require the permittee to establish and maintain an information repository at any time, based on the factors set forth in R315-4-2.33(b). The information repository will be governed by the provisions in R315-4-2.33 (c) through (f).

### 3.2 REQUIREMENTS FOR RECORDING AND REPORTING OF MONITORING RESULTS

All permits shall specify:

(a) Requirements concerning the proper use, maintenance, and installation, when appropriate, of monitoring equipment or methods, including biological monitoring methods when appropriate;

(b) Required monitoring including type, intervals, and frequency sufficient yield data which are representative of the monitored activity including, when appropriate, continuous monitoring;

(c) Applicable reporting requirements based upon the impact of the regulated activity and as specified in R315-8 and R315-14. Reporting shall be no less frequent than specified in R315-8 and R315-14.

### 3.3 ESTABLISHING PERMIT CONDITIONS

In addition to the conditions established, each permit shall include:

(a) A list of the wastes or classes of wastes which will be treated, stored, or disposed of at the facility, and a description of

the processes to be used for treating, storing, and disposing of these hazardous wastes at the facility including the design capacities of each storage, treatment, and disposal unit. Except in the case of containers, the description shall identify the particular wastes or classes of wastes which will be treated, stored, or disposed of in particular equipment or locations, e.g., "Halogenated organics may be stored in Tank A", and "Metal hydroxide sludges may be disposed of in landfill cells B, C, and D", and

(b)(1) Each permit shall include conditions necessary to achieve compliance with the Utah Solid and Hazardous Waste Act and these rules, including each of the applicable requirements specified in R315-7, R315-8, R315-13, which incorporates by reference 40 CFR 268, and R315-14, which incorporates by reference 40 CFR 266. In satisfying this provision, the Executive Secretary may incorporate applicable requirements of R315-7, R315-8, R315-13, which incorporates by reference 40 CFR 268, and R315-14, which incorporates by reference 40 CFR 266, directly into the permit or establish other permit conditions that are based on these rules.

(2) Each permit issued under the Utah Solid and Hazardous Waste Act shall contain terms and conditions as the Executive Secretary determines necessary to protect human health and the environment.

(c) New or reissued permits, and to the extent allowed under R315-3-4.2, modified or revoked and reissued permits, shall incorporate each of the applicable requirements referenced in R315-3-3.2 and R315-3-3.3.

(d) Incorporation. All permit conditions shall be incorporated either expressly or by reference. If incorporated by reference, a specific citation to the applicable requirements shall be given in the permit.

### 3.4 SCHEDULES OF COMPLIANCE

(a) The permit may, when appropriate, specify a schedule of compliance leading to compliance with these rules.

(1) Time for compliance. Any schedules of compliance under this section shall require compliance as soon as possible.

(2) Interim dates. Except as provided in R315-3-3.4(b)(1)(ii), if a permit establishes a schedule of compliance which exceeds one year from the date of permit issuance, the schedule shall set forth interim requirements and the dates for their achievement.

(i) The time between interim dates shall not exceed one year.

(ii) If the time necessary for completion of any interim requirement is more than one year and is not readily divisible into stages for completion, the permit shall specify interim dates for the submission of reports of progress toward completion of the interim requirements and indicate a projected completion date.

(3) Reporting. The permit shall be written to require that no later than 14 days following each interim date and the final date of compliance, the permittee shall notify the Executive Secretary or Board or both in writing, of its compliance or noncompliance with the interim or final requirement, or submit progress reports if R315-3-3.4(a)(2)(ii) is applicable.

(b) Alternative schedules of permit compliance. An applicant or permittee may cease conducting regulated activities, by receiving a terminal volume of hazardous waste, and for treatment and storage facilities, closing pursuant to applicable requirements; and for disposal facilities, closing and conducting post-closure care pursuant to applicable requirement, rather than continue to operate and meet permit requirements as follows:

(1) If the permittee decides to cease conducting regulated activities at a given time within the term of a permit which has already been issued:

(i) The permit may be modified to contain a new or additional schedule leading to timely cessation of activities; or

(ii) The permittee shall cease conducting activities before

noncompliance with any interim or final compliance schedule requirement already specified in the permit.

(2) If the decision to cease conducting regulated activities is made before issuance of a permit whose term will include the termination date, the permit shall contain a schedule leading to permit termination which will ensure timely compliance with applicable requirements.

(3) If the permittee is undecided whether to cease conducting regulated activities, the Executive Secretary may issue or modify a permit to contain two schedules as follows:

(i) Both schedules shall contain an identical interim deadline requiring a final decision on whether to cease conducting regulated activities no later than a date which ensures sufficient time to comply with applicable requirements in a timely manner if the decision is to continue conducting regulated activities;

(ii) One schedule shall lead to timely compliance with applicable requirements.

(iii) The second schedule shall lead to cessation of regulated activities by a date which will ensure timely compliance with applicable requirements;

(iv) Each permit containing two schedules shall include a requirement that after the permittee has made a final decision under R315-3-3.4(b)(3)(i) it shall follow the schedule leading to compliance if the decision is to continue conducting regulated activities, and follow the schedule leading to termination if the decision is to cease conducting regulated activities.

(4) The applicant's or permittee's decision to cease conducting regulated activities shall be evidenced by a firm public commitment satisfactory to the Executive Secretary, such as resolution of the board of directors of a corporation.

### **R315-3-4. Changes to Permit.**

#### **4.1 TRANSFER OF PERMITS**

(a) A permit may be transferred by the permittee to a new owner or operator only if the permit has been modified or revoked and reissued under R315-3-4.1(b) or R315-3-4.2(b)(2) to identify the new permittee and incorporate such other requirements as may be necessary under the appropriate Act.

(b) Changes in the ownership or operational control of a facility may be made as a Class 1 modification with prior written approval of the Executive Secretary in accordance with R315-3-4.3, which incorporates by reference 40 CFR 270.42. The new owner or operator shall submit a revised permit application no later than 90 days prior to the scheduled change. A written agreement containing a specific date for transfer of permit responsibility between the current and new permittees shall also be submitted to the Executive Secretary. When a transfer of ownership or operational control occurs, the old owner or operator shall comply with the requirements of R315-8-8, which incorporates by reference 40 CFR 264, subpart H, until the new owner or operator has demonstrated that he is complying with the requirements of that subpart. The new owner or operator shall demonstrate compliance with R315-8-8, which incorporates by reference 40 CFR 264, subpart H requirements within six months of the date of the change of ownership or operational control of the facility. Upon demonstration to the Executive Secretary by the new owner or operator of compliance with R315-8-8, which incorporates by reference 40 CFR 264, subpart H, the Executive Secretary shall notify the old owner or operator that he no longer needs to comply with R315-8-8, which incorporates by reference 40 CFR 264, subpart H as of the date of demonstration.

#### **4.2 MODIFICATION OR REVOCATION AND REISSUANCE OF PERMITS**

When the Executive Secretary receives any information, for example, inspects the facility, receives information submitted by the permittee as required in the permit see R315-3-3.1, receives a request for modification or revocation and reissuance under

R315-4-1.5 or conducts review of the permit file, he may determine whether one or more of the causes listed in R315-3-4.2(a) and (b) for modification or revocation and reissuance or both exist. If cause exists, the Executive Secretary may modify or revoke and reissue the permit accordingly, subject to the limitations of R315-3-4.2(c), and may request an updated application if necessary. When a permit is modified, only the conditions subject to modification are reopened. If a permit is revoked and reissued, the entire permit is reopened and subject to revision and the permit is reissued for a new term. See R315-4-1.5(c)(2). If cause does not exist under this section, the Executive Secretary shall not modify or revoke and reissue the permit, except on request of the permittee. If a permit modification is requested by the permittee, the Executive Secretary shall approve or deny the request according to the procedures of R315-3-4.3, which incorporates by reference 40 CFR 270.42. Otherwise, a draft permit shall be prepared and other procedures in R315-4 followed.

(a) Causes for modification. The following are causes for modification but not revocation and reissuance of permits, and the following may be causes for revocation and reissuance as well as modification under any program when the permittee requests or agrees.

(1) Alterations. There are material and substantial alterations or additions to the approved facility or activity which occurred after permit issuance which justify the application of permit conditions that are different or absent in the existing permit.

(2) Information. The Executive Secretary has received information. Permits may be modified during their terms for this cause only if the information was not available at the time of permit issuance, other than revised rules, guidance, or test methods, and would have justified the application of different permit conditions at the time of issuance.

(3) New statutory requirements or rules. The standards or rules on which the permit was based have been changed by statute, through promulgation of new or amended standards or rules or by judicial decision after the permit was issued.

(4) Compliance schedules. The Executive Secretary determined good cause exists for modification of a compliance schedule, such as an act of God, strike, flood, or materials shortage or other events over which the permittee has little or no control and for which there is no reasonably available remedy.

(5) Notwithstanding any other provision in this section, when a permit for a land disposal facility is reviewed by the Executive Secretary under R315-3-5.1(d), the Executive Secretary shall modify the permit as necessary to assure that the facility continues to comply with the currently applicable requirements in these rules.

(b) Causes for modification or revocation and reissuance. The following are causes to modify, or, alternatively, revoke and reissue a permit;

(1) Cause exists for termination under R315-3-4.4 and the Executive Secretary determines that modification or revocation and reissuance is appropriate.

(2) The Executive Secretary has received notification as required in the permit, see R315-3-3.1(l)(3) of a proposed transfer of the permit.

(c) Facility siting. Suitability of the facility location may not be considered at the time of permit modification or revocation and reissuance unless new information or standards indicate that a threat to human health or the environment exists which was unknown at the time of permit issuance.

#### **4.3 PERMIT MODIFICATION AT THE REQUEST OF THE PERMITTEE**

The requirements of 40 CFR 270.42, including Appendix I, 2002 ed., are adopted and incorporated by reference with the following exception;

substitute "Executive Secretary" for all Federal regulation

references made to "Director" or "Administrator";

#### 4.4 TERMINATION OF PERMITS

(a) The following are causes for terminating a permit during its term, or for denying a permit renewal application:

(1) Noncompliance by the permittee with any condition of the permit;

(2) The permittee's failure in the application or during the permit issuance process to disclose fully all relevant facts, or the permittee's misrepresentation of any relevant facts at any time; or

(3) A determination that the permitted activity endangers human health or the environment and can only be regulated to acceptable levels by permit modification or termination.

(b) The Executive Secretary shall follow the applicable procedures in R315-4 in terminating any permit under R315-3-4.4.

### R315-3-5. Expiration and Continuation of Permits.

#### 5.1 DURATION OF PERMITS

(a) Hazardous waste operation permits shall be effective for a fixed term not to exceed ten years.

(b) Except as provided in R315-3-5.2, the term of a permit shall not be extended by modification beyond the maximum duration specified in R315-3-5.1.

(c) The Executive Secretary may issue any permit for a duration that is less than the full allowable term under this section.

(d) Each permit for a land disposal facility shall be reviewed by the Board five years after the date of permit issuance or reissuance and shall be modified as necessary, as provided in R315-3-4.2.

#### 5.2 CONTINUATION OF EXPIRING PERMITS

(a) The conditions of an expired permit continue in force until the effective date of a new permit if:

(1) The permittee has submitted a timely application under R315-3-2.5 and the applicable requirements of R315-3-2.5 and the applicable sections in R315-3-2.6 through R315-3-2.20, which is a complete application for a new permit; and

(2) The Executive Secretary through no fault of the permittee, does not issue a new permit with an effective date on or before the expiration date of the previous permit, for example, when issuance is impracticable due to time or resource constraints.

(b) Effect. Permits continued under this section remain fully effective and enforceable.

(c) Enforcement. When the permittee is not in compliance with the conditions of the expiring or expired permit, the Executive Secretary or Board or both may choose to do any or all of the following:

(1) Initiate enforcement action based upon the permit which has been continued;

(2) Issue a notice of intent to deny the new permit under R315-4-1.6. If the permit is denied, the owner or operator would then be required to cease the activities authorized by the continued permit or be subject to enforcement action for operating without a permit;

(3) Issue a new permit under R315-4 with appropriate conditions;

(4) Take other actions authorized by these rules.

(d) State Continuation. If the permittee has submitted a timely and complete application, including timely and adequate response to any deficiency notice, for permit under applicable State law and rules, the terms and conditions of an EPA issued RCRA permit shall continue in force until the effective date of the State's issuance or denial of a State permit.

(e) Permits which have been issued under authority of the Federal Resource Conservation and Recovery Act will be administered by the State when hazardous waste program authorization becomes effective.

### R315-3-6. Special Forms of Permits.

#### 6.1 PERMITS BY RULE

Notwithstanding any other provision of R315-3 and R315-4, the following shall be deemed to have an approved hazardous waste permit if the conditions listed are met:

(a) Injection wells. The owner or operator of an injection well disposing of hazardous waste, if the owner or operator:

(1) Has a permit for underground injection issued under State or Federal law.

(2) Complies with the conditions of that permit and the requirements in R317-7, Underground Injection Control Program, for managing hazardous waste in a well.

(3) For UIC permits issued after November 8, 1984:

(i) Complies with R315-8-6.12; and

(ii) Where the UIC well is the only unit at a facility which requires a permit, complies with R315-3-2.5(d).

(b) Publicly owned treatment works. The owner or operator of a POTW which accepts hazardous waste, for treatment if the owner or operator:

(1) Has an NPDES permit;

(2) Complied with the conditions of that permit;

(3) Complies with the following rules;

(i) R315-8-2.2, Identification number;

(ii) R315-8-5.2, Use of manifest system;

(iii) R315-8-5.4, Manifest discrepancies;

(iv) R315-8-5.3, which incorporates by reference 40 CFR 264.73(a) and (b)(1), Operating record;

(v) R315-8-5.6, Biennial report;

(vi) R315-8-5.7, Unmanifested waste report; and

(vii) R315-8-6.12, For NPDES permits issued after November 8, 1984.

(4) If the waste meets all Federal, State, and local pretreatment requirements which would be applicable to the waste if it were being discharged into the POTW through a sewer, pipe, or similar conveyance.

#### 6.2 EMERGENCY PERMITS

(a) Notwithstanding any other provision of R315-3 or R315-4, in the event the Executive Secretary finds an imminent and substantial endangerment to human health or the environment the Executive Secretary may issue a temporary emergency permit: (1) to a non-permitted facility to allow treatment, storage, or disposal of hazardous waste or (2) to a permitted facility to allow treatment, storage, or disposal of a hazardous waste not covered by an effective permit.

(b) This emergency permit:

(1) May be oral or written. If oral, it shall be followed in five days by a written emergency permit;

(2) Shall not exceed 90 days in duration;

(3) Shall clearly specify the hazardous waste to be received, and the manner and location of their treatment, storage, or disposal;

(4) May be terminated by the Executive Secretary at any time without process if he determines that termination is appropriate to protect human health and the environment;

(5) Shall be accompanied by a public notice published under R315-4-1.10(b) including:

(i) Name and address of the office granting the emergency authorization;

(ii) Name and location of the permitted hazardous waste management facility;

(iii) A brief description of the wastes involved;

(iv) A brief description of the action authorized and reasons for authorizing it; and

(v) Duration of the emergency permit; and

(6) Shall incorporate, to the extent possible and not inconsistent with the emergency situation, all applicable requirements of R315-3, R315-8, and R315-14.

#### 6.3 HAZARDOUS WASTE INCINERATOR PERMITS

When an owner or operator demonstrates compliance with

the air emission standards and limitations in R307-214-2, which incorporates by reference 40 CFR 63, subpart EEE (i.e., by conducting a comprehensive performance test and submitting a Notification of Compliance under R317-214-2, which incorporates by reference 40 CFR 63.1207(j) and 63.1210(b) documenting compliance with all applicable requirements of R317-214-2, which incorporates by reference 40 CFR 63, subpart EEE), the requirements of R315-3-6.3 do not apply, except those provisions the Executive Secretary determines are necessary to ensure compliance with R315-8-15.6(a) and R315-8-15.6(c) if you elect to comply with R315-3-9(a)(1)(i) to minimize emissions of toxic compounds from startup, shutdown, and malfunction events. Nevertheless, the Executive Secretary may apply the provisions of R315-3-6.3, on a case-by-case basis, for purposes of information collection in accordance with R315-3-2.1(j) and R315-3-3.3(b)(2).

(a) For the purposes of determining operational readiness following completion of physical construction, the Executive Secretary shall establish permit conditions, including but not limited to allowable waste feeds and operating conditions, in the permit to a new hazardous waste incinerator. These permit conditions will be effective for the minimum time required to bring the incinerator to a point of operational readiness sufficient to conduct a trial burn, not to exceed 720 hours operating time for treatment of hazardous waste. The Executive Secretary may extend the duration of this operational period once, for up to 720 additional hours, at the request of the applicant when good cause is shown. The permit may be modified to reflect the extension according to R315-3-4.3, which incorporates by reference 40 CFR 270.42.

(1) Applicants shall submit a statement, with part B of the permit application, which suggests the conditions necessary to operate in compliance with the performance standards of R315-8-15.4 during this period. This statement should include, at a minimum, restrictions on waste constituents, waste feed rates and the operating parameters identified in R315-8-15.6.

(2) The Executive Secretary will review this statement and any other relevant information submitted with part B of the permit and specify requirements for this period sufficient to meet the performance standards of R315-8-15.4 based on its engineering judgment.

(b) For the purpose of determining feasibility of compliance with the performance standards of R315-8-15.4, and of determining adequate operating conditions under R315-8-15.6, the Executive Secretary shall establish conditions in the permit to a new hazardous waste incinerator to be effective during the trial burn.

(1) Applicants shall propose a trial burn plan, prepared under R315-3-6.3(b)(2) with part B of the permit application.

(2) The trial burn plan shall include the following information:

(i) An analysis of each waste or mixture of wastes to be burned which includes:

(A) Heat value of the waste in the form and composition in which it will be burned.

(B) Viscosity, if applicable, or description of physical form of the waste.

(C) An identification of any hazardous organic constituents listed in R315-50-10, which incorporates by reference 40 CFR 261, Appendix VIII, which are present in the waste to be burned, except that the applicant need not analyze for constituents listed in R315-50-10, which incorporates by reference 40 CFR 261, Appendix VIII, which would reasonably not be expected to be found in the waste. The constituents excluded from analysis shall be identified, and the basis for their exclusion stated. The waste analysis shall rely on analytical techniques specified in "Test Methods for the Evaluation of Solid Waste, Physical/Chemical Methods," EPA Publication SW-846, as incorporated by reference in 40 CFR 260.11 and

270.6, see R315-1-2, or other equivalent.

(D) An approximate quantification of the hazardous constituents identified in the waste, within the precision produced by the analytical methods specified in "Test Methods for the Evaluation of Solid Waste, Physical/Chemical Methods," EPA Publication SW-846, as incorporated by reference in 40 CFR 260.11 and 270.6, see R315-1-2, or, their equivalent.

(ii) A detailed engineering description of the incinerator for which the permit is sought including:

(A) Manufacturer's name and model number of incinerator, if available.

(B) Type of incinerator.

(C) Linear dimensions of the incinerator unit including the cross sectional area of combustion chamber.

(D) Description of the auxiliary fuel system type and feed.

(E) Capacity of prime mover.

(F) Description of automatic waste feed cut-off system(s).

(G) Stack gas monitoring and pollution control equipment.

(H) Nozzle and burner design.

(I) Construction materials.

(J) Location and description of temperature, pressure, and flow indicating and control devices.

(iii) A detailed description of sampling and monitoring procedures, including sampling and monitoring locations of the system, the equipment to be used, sampling and monitoring frequency, and planned analytical procedures for sample analysis.

(iv) A detailed test schedule for each waste for which the trial burn is planned including date(s), duration, quantity of waste to be burned, and other factors relevant to the Executive Secretary's decision under R315-3-6.3(b)(5).

(v) A detailed test protocol, including, for each waste identified, the ranges of temperature, waste feed rate, combustion gas velocity, use of auxiliary fuel, and any other relevant parameters that will be varied to affect the destruction and removal efficiency of the incinerator.

(vi) A description of, and planned operating conditions for, any emission control equipment which will be used.

(vii) Procedures for rapidly stopping waste feed, shutting down the incinerator, and controlling emissions in the event of an equipment malfunction.

(viii) All other information as the Executive Secretary reasonably finds necessary to determine whether to approve the trial burn plan in light of the purpose of this paragraph and the criteria in R315-3-6.3(b)(5).

(3) The Executive Secretary, in reviewing the trial burn plan, shall evaluate the sufficiency of the information provided and may require the applicant to supplement this information, if necessary, to achieve the purposes of this paragraph.

(4) Based on the waste analysis data in the trial burn plan, the Executive Secretary will specify as trial Principal Organic Hazardous Constituents (POHCs), those constituents for which destruction and removal efficiencies shall be calculated during the trial burn. These trial POHCs will be specified by the Executive Secretary based on his estimate of the difficulty of incineration of the constituents identified in the waste analysis, their concentration or mass in the waste feed, and, for wastes listed in R315-2-10, the hazardous waste organic constituent or constituents identified in R315-50-9 as the basis for listing.

(5) The Executive Secretary shall approve a trial burn plan if he finds that:

(i) The trial burn is likely to determine whether the incinerator performance standard required by R315-8-15.4 can be met;

(ii) The trial burn itself will not present an imminent hazard to human health or the environment;

(iii) The trial burn will help the Executive Secretary to determine operating requirements to be specified under R315-8-15.6; and

(iv) The information sought in R315-3-6.3(b)(5)(i) and (ii) cannot reasonably be developed through other means.

(6) The Executive Secretary shall send a notice to all persons on the facility mailing list as set forth in R315-4-1.10(c)(1)(iv) and to the appropriate units of State and local government as set forth in R315-4-1.10(c)(1)(v) announcing the scheduled commencement and completion dates for the trial burn. The applicant may not commence the trial burn until after the Executive Secretary has issued such notice.

(i) This notice shall be mailed within a reasonable time period before the scheduled trial burn. An additional notice is not required if the trial burn is delayed due to circumstances beyond the control of the facility or the Division.

(ii) This notice shall contain:

(A) The name and telephone number of the applicant's contact person;

(B) The name and telephone number of the Division;

(C) The location where the approved trial burn plan and any supporting documents can be reviewed and copied; and

(D) An expected time period for commencement and completion of the trial burn.

(7) During each approved trial burn, or as soon after the burn as is practicable, the applicant shall make the following determinations:

(i) A quantitative analysis of the trial POHCs in the waste feed to the incinerator.

(ii) A quantitative analysis of the exhaust gas for the concentration and mass emissions of the trial POHC, oxygen (O<sub>2</sub>) and hydrogen chloride (HCl).

(iii) A quantitative analysis of the scrubber water, if any, ash residues, and other residues, for the purpose of estimating the fate of the trial POHCs.

(iv) A computation of destruction and removal efficiency (DRE), in accordance with the DRE formula specified in R315-8-15.4(a).

(v) If the HCl emission rate exceeds 1.8 kilograms of HCl per hour (4 pounds per hour), a computation of HCl removal efficiency in accordance with R315-8-15.4(b).

(vi) A computation of particulate emissions in accordance with R315-8-15.4(c).

(vii) An identification of sources of fugitive emissions and their means of control.

(viii) A measurement of average, maximum, and minimum temperatures and combustion gas velocity.

(ix) A continuous measurement of carbon monoxide (CO) in the exhaust gas.

(x) All other information as the Executive Secretary may specify as necessary to ensure that the trial burn will determine compliance with the performance standards in R315-8-15.4 and to establish the operating conditions required by R315-8-15.6 as necessary to meet that performance standard.

(8) The applicant shall submit to the Executive Secretary a certification that the trial burn has been carried out in accordance with the approved trial burn plan, and shall submit the results of all the determinations required in R315-3-6.3(b)(7). This submission shall be made within 90 days of completion of the trial burn, or later if approved by the Executive Secretary.

(9) All data collected during any trial burn shall be submitted to the Executive Secretary following the completion of the trial burn.

(10) All submissions required by this paragraph shall be certified on behalf of the applicant by the signature of a person authorized to sign a permit application or a report under R315-3-2.2.

(11) Based on the results of the trial burn, the Executive Secretary shall set the operating requirements in the final permit according to R315-8-15.6. The permit modification shall proceed according to R315-3-4.3, which incorporates by

reference 40 CFR 270.42.

(c) For the purpose of allowing operation of a new hazardous waste incinerator following completion of the trial burn and prior to final modification of the permit conditions to reflect the trial burn results, the Executive Secretary may establish permit conditions, including but no limited to allowable waste feeds and operating conditions sufficient to meet the requirements of R315-8-15.6, in the permit to a new hazardous waste incinerator. These permit conditions will be effective for the minimum time required to complete sample analysis, data computation and submission of the trial burn results by the applicant, and modification of the facility permit by the Executive Secretary.

(1) Applicants shall submit a statement, with part B of the permit application, which identifies the conditions necessary to operate in compliance with the performance standards of R315-8-15.4 during this period. This statement should include, at a minimum, restrictions on waste constituents, waste feed rates and the operating parameters identified in R315-8-15.6.

(2) The Executive Secretary will review this statement and any other relevant information submitted with part B of the permit application and specify those requirements for this period most likely to meet the performance standards of R315-8-15.4 based on its engineering judgment.

(d) For the purposes of determining feasibility of compliance with the performance standards of R315-8-15.4 and of determining adequate operating conditions under R315-8-15.6, the applicant for a permit for an existing hazardous waste incinerator shall prepare and submit a trial burn plan and perform a trial burn in accordance with R315-3-2.10(b) and R315-3-6.3(b)(2) through (b)(5) and (b)(7) through (b)(10) or, instead, submit other information as specified in R315-3-2.10(c). The Executive Secretary shall announce his or her intention to approve the trial burn plan in accordance with the timing and distribution requirements of R315-3-6.3(b)(6). The contents of the notice shall include: the name and telephone number of a contact person at the facility; the name and telephone number of a contact office at the Division; the location where the trial burn plan and any supporting documents can be reviewed and copied; and a schedule of the activities that are required prior to permit issuance, including the anticipated time schedule for agency approval of the plan and the time period during which the trial burn would be conducted. Applicants submitting information under R315-3-2.10(a) are exempt from compliance with R315-8-15.4 and R315-8-15.6 and, therefore, are exempt from the requirement to conduct a trial burn. Applicants who submit trial burn plans and receive approval before submission of a permit application shall complete the trial burn and submit the results, specified in R315-3-6.3(b)(7), with part B of the permit application. If completion of this process conflicts with the date set for submission of the part B application, the applicant shall contact the Executive Secretary to establish a later date for submission of the part B application or the trial burn results. Trial burn results shall be submitted prior to issuance of the permit. When the applicant submits a trial burn plan with part B of the permit application, the Executive Secretary will specify a time period prior to permit issuance in which the trial burn shall be conducted and the results submitted.

#### 6.4 PERMITS FOR LAND TREATMENT DEMONSTRATIONS USING FIELD TEST OR LABORATORY ANALYSES

(a) For the purpose of allowing an owner or operator to meet the treatment demonstration requirements of R315-8-13.3, the Executive Secretary may issue a treatment demonstration permit. The permit shall contain only those requirements necessary to meet the standards in R315-8-13.3(c). The permit may be issued either as a treatment or disposal approval covering only the field test or laboratory analyses, or as a two-

phase facility approval covering the field tests, or laboratory analyses, and design, construction, operation and maintenance of the land treatment unit.

(1) The Executive Secretary may issue a two-phase facility permit if they find that, based on information submitted in part B of the application, substantial, although incomplete or inconclusive, information already exists upon which to base the issuance of a facility permit.

(2) If the Executive Secretary finds that not enough information exists upon which they can establish permit conditions to attempt to provide for compliance with all the requirements of R315-8-13, he shall issue a treatment demonstration permit covering only the field test or laboratory analyses.

(b) If the Executive Secretary finds that a phased permit may be issued, he will establish, as requirements in the first phases of the facility permit, conditions for conducting the field tests or laboratory analyses. These permit conditions will include design and operating parameters, including the duration of the tests or analyses and, in the case of field tests, the horizontal and vertical dimensions of the treatment zone, monitoring procedures, post-demonstration cleanup activities, and any other conditions which the Executive Secretary finds may be necessary under R315-8-13.3(c). The Executive Secretary will include conditions in the second phase of the facility permit to attempt to meet all R315-8-13 requirements pertaining to unit design, construction, operation, and maintenance. The Executive Secretary will establish these conditions in the second phase of the permit based upon the substantial but incomplete or inconclusive information contained in the part B application.

(1) The first phase of the permit will be effective as provided in R315-4-1.15.

(2) The second phase of the permit will be effective as provided in R315-3-6.4(d).

(c) When the owner or operator who has been issued a two-phase permit has completed the treatment demonstration, he shall submit to the Executive Secretary certification, signed by a person authorized to sign a permit application or report under R315-3-2.2, that the field tests or laboratory analyses have been carried out in accordance with the conditions specified in phase one of the permit for conducting the tests or analyses. The owner or operator shall also submit all data collected during the field tests or laboratory analyses within 90 days of completion of those tests or analyses unless the Executive Secretary approves a later date.

(d) If the Executive Secretary determines that the results of the field tests or laboratory analyses meet the requirements of R315-8-13.3, he will modify the second phase of the permit to incorporate any requirement necessary for operation of the facility in compliance with R315-8-13, based upon the results of the field tests or laboratory analyses.

(1) This permit modification may proceed under R315-3-4.3, which incorporates by reference 40 CFR 270.42, or otherwise will proceed as a modification under R315-3-4.2(a)(2). If such modifications are necessary, the second phase of the permit will become effective only after those modifications have been made.

(2) If no modification of the second phase of the permit is necessary, the Executive Secretary will give notice of his final decision to the permit applicant and to each person who submitted written comments on the phased permit or who requested notice of final decision on the second phase of the permit. The second phase of the permit then will become effective as specified in R315-4-1.15(b).

#### 6.5 RESEARCH, DEVELOPMENT, AND DEMONSTRATION PERMITS

(a) The Executive Secretary may issue a research, development, and demonstration permit for any hazardous waste

treatment facility which proposes to utilize an innovative and experimental hazardous waste treatment technology or process for which permit standards for any experimental activity have not been promulgated under R315-8 and R315-14. Any such permits shall include such terms and conditions as will assure protection of human health and the environment. These permits:

(1) Shall provide for the construction of these facilities as necessary, and for operation of the facility for not longer than one year unless renewed as provided in R315-3-6.5(d), and

(2) Shall provide for the receipt and treatment by the facility of only those types and quantities of hazardous waste which the Executive Secretary deems necessary for purposes of determining the efficiency and performance capabilities of the technology or process and the effects of the technology or process on human health and the environment; and

(3) Shall include all requirements as the Executive Secretary deems necessary to protect human health and the environment, including, but not limited to requirements regarding monitoring, operation, financial responsibility, closure, and remedial action, and all requirements as the Executive Secretary or Board or both deems necessary regarding testing and providing of information to the Executive Secretary with respect to the operation of the facility.

(b) For the purpose of expediting review and issuance of permit under this section, the Executive Secretary may, consistent with the protection of human health and the environment, modify or waive permit application and permit issuance requirements in R315-3 and R315-4 except that there may be no modification or waiver of regulations regarding financial responsibility, including insurance, or of procedures regarding public participation.

(c) The Executive Secretary or Board or both may order an immediate termination of all operations at the facility at any time they determine that termination is necessary to protect human health and the environment.

(d) Any permit issued under this section may be renewed not more than three times. Each renewal shall be for a period of not more than one year.

#### 6.6 PERMITS FOR BOILERS AND INDUSTRIAL FURNACES BURNING HAZARDOUS WASTE

The requirements of 40 CFR 270.66, 2003 ed., are adopted and incorporated by reference with the following exception:

Substitute "Executive Secretary" for all references made to "Director."

#### 6.7 REMEDIAL ACTION PLANS

Remedial Action Plans (RAPs) are special forms of permits that are regulated under R315-3-8, which incorporates by reference 40 CFR 270, subpart H.

#### R315-3-7. Interim Status.

##### 7.1 QUALIFYING FOR INTERIM STATUS

(a) Any person who owns or operates an "existing hazardous waste management facility" or a facility in existence on the effective date of statutory or regulatory amendments under the State or Federal Act that render the facility subject to the requirement to have a RCRA permit or State permit shall have interim status and shall be treated as having been issued a permit to the extent he or she has:

(1) Complied with the Federal requirements of section 3010(a) of RCRA pertaining to notification of hazardous waste activity or the notification requirements of these rules.

Comment: Some existing facilities may not be required to file a notification under section 3010(a) of RCRA. These facilities may qualify for interim status by meeting R315-3-7.1(a)(2).

(2) Complied with the requirements of 40 CFR 270.10 or R315-3-2.1 governing submission of part A applications;

(b) Failure to qualify for interim status. If the Executive

Secretary has reason to believe upon examination of a part A application that it fails to meet the requirements of R315-3-2.4, the Executive Secretary shall notify the owner or operator in writing of the apparent deficiency. The notice shall specify the grounds for the Executive Secretary's belief that the application is deficient. The owner or operator shall have 30 days from receipt to respond to the notification and to explain or cure the alleged deficiency in his part A application. If, after the notification and opportunity for response, the Executive Secretary determines that the application is deficient he may take appropriate enforcement action.

(c) R315-3-7.1(a) shall not apply to any facility which has been previously denied a permit or if authority to operate the facility under State or Federal authority has been previously terminated.

#### 7.2 OPERATION DURING INTERIM STATUS

(a) During the interim status period the facility shall not:

(1) Treat, store, or dispose of hazardous waste not specified in part A of the permit or permit application;

(2) Employ processes not specified in part A of the permit or permit application; or

(3) Exceed the design capacities specified in part A of the permit or permit application.

(b) Interim status standards. During interim status, owners or operators shall comply with the interim status standards in R315-7.

#### 7.3 CHANGES DURING INTERIM STATUS

(a) Except as provided in R315-3-7.3(b), the owner or operator of an interim status facility may make the following changes at the facility:

(1) Treatment, storage, or disposal of new hazardous wastes not previously identified in part A of the permit application and, in the case of newly listed or identified wastes, addition of the units being used to treat, store, or dispose of the hazardous wastes on the effective date of the listing or identification if the owner or operator submits a revised part A permit application prior to treatment, storage, or disposal;

(2) Increases in the design capacity of processes used at the facility if the owner or operator submits a revised part A permit application prior to a change, along with a justification explaining the need for the change, and the Executive Secretary approves the changes because:

(i) There is a lack of available treatment, storage, or disposal capacity at other hazardous waste management facilities, or

(ii) The change is necessary to comply with a Federal, State, or local requirement.

(3) Changes in the processes for the treatment, storage, or disposal of hazardous waste or addition of processes if the owner or operator submits a revised part A permit application prior to such change, along with a justification explaining the need for the change, and the Executive Secretary approves the change because:

(i) The change is necessary to prevent a threat to human health and the environment because of an emergency situation, or

(ii) The change is necessary to comply with a Federal, State, or local requirement.

(4) Changes in the ownership or operational control of a facility if the new owner or operator submits a revised part A permit application no later than 90 days prior to the scheduled change. When a transfer of operational control of a facility occurs, the old owner or operator shall comply with the requirements of R315-7-15, which incorporates by reference 40 CFR 265 subpart H, until the new owner or operator has demonstrated to the Executive Secretary that he is complying with the requirements of that subpart. The new owner or operator shall demonstrate compliance with R315-7-15, which incorporates by reference 40 CFR 265 subpart H, within six

months of the date of the change in ownership or operational control of the facility. Upon demonstration to the Executive Secretary by the new owner or operator of compliance with R315-7-15, which incorporates by reference 40 CFR 265 subpart H, the Executive Secretary shall notify the old owner or operator in writing that he no longer needs to comply with R315-7-15, which incorporates by reference 40 CFR 265 subpart H, as of the date of demonstration. All other interim status duties are transferred effective immediately upon the date of the change in ownership or operational control of the facility.

(5) Changes made in accordance with an interim status corrective action order issued, under 19-6-105(d), or by EPA under section 3008(h) RCRA or other Federal authority or by a court in a judicial action brought by EPA or by an authorized State. Changes under this paragraph are limited to the treatment, storage, or disposal of solid waste from releases that originate within the boundary of the facility.

(6) Addition of newly regulated units for the treatment, storage, or disposal of hazardous waste if the owner or operator submits a revised part A permit application on or before the date on which the unit becomes subject to the new requirements.

(b) Except as specifically allowed under this paragraph, changes listed under R315-3-7.3(a) may not be made if they amount to reconstruction of the hazardous waste management facility. Reconstruction occurs when the capital investment in the changes to the facility exceeds 50 percent of the capital cost of a comparable entirely new hazardous waste management facility. If all other requirements are met, the following changes may be made even if they amount to a reconstruction:

(1) Changes made solely for the purposes of complying with the requirements of R315-7-17, which incorporates by reference 40 CFR 265.193, for tanks and ancillary equipment.

(2) If necessary to comply with Federal, State, or local requirements, changes to an existing unit, changes solely involving tanks or containers, or addition of replacement surface impoundments that satisfy the standards of section 3004(o) of RCRA.

(3) Changes that are necessary to allow owners or operators to continue handling newly listed or identified hazardous wastes that have been treated, stored, or disposed of at the facility prior to the effective date of the rule establishing the new listing or identification.

(4) Changes during closure of a facility or of a unit within a facility made in accordance with an approved closure plan.

(5) Changes necessary to comply with an interim status corrective action order issued, under subsection 19-6-105(d), or by EPA under section 3008(h) of RCRA or other Federal authority, or by a court in a judicial proceeding brought by EPA, provided that such changes are limited to the treatment, storage, or disposal of solid waste from releases that originate within the boundary of the facility.

(6) Changes to treat or store, in tanks or containers, or containment buildings, hazardous wastes subject to land disposal restrictions imposed by R315-13, which incorporates by reference 40 CFR 268, or R315-8, provided that these changes are made solely for the purpose of complying with R315-13, which incorporates by reference 40 CFR 268, or R315-8.

(7) Addition of newly regulated units under R315-3-7.3(a)(6).

(8) Changes necessary to comply with standards under 40 CFR part 63, subpart EEE - National Emission Standards for Hazardous Air Pollutants From Hazardous Waste Combustors.

#### 7.4 TERMINATION OF INTERIM STATUS

Interim status terminates when:

(a) Final administrative disposition of a permit application, except an application for a remedial action plan (RAP) under R315-3-8, which incorporates by reference 40 CFR 270, subpart H, is made.

(b) Interim status is terminated as provided in R315-3-2.1(d)(5).

(c) For owners or operators of each land disposal facility which has been granted interim status prior to November 8, 1984, on November 8, 1985, unless:

(1) The owner or operator submits a part B application for a permit for a facility prior to that date; and

(2) The owner or operator certifies that the facility is in compliance with all applicable groundwater monitoring and financial responsibility requirements.

(d) For owners or operators of each land disposal facility which is in existence on the effective date of statutory or regulatory amendments under the Federal Act that render the facility subject to the requirement to have a RCRA permit and which is granted interim status, twelve months after the date on which the facility first becomes subject to the permit requirement unless the owner or operator of the facility:

(1) Submits a part B application for a permit for the facility before the date 12 months after the date on which the facility first becomes subject to the permit requirement; and

(2) Certifies that the facility is in compliance with all applicable groundwater monitoring and financial responsibility requirements.

(e) For owners or operators of any land disposal unit that is granted authority to operate under R315-3-7.3(a)(1), (2) or (3), on the date 12 months after the effective date of the requirement, unless the owner or operator certifies that this unit is in compliance with all applicable groundwater monitoring and financial responsibility requirements.

(f) For owners or operators of each incinerator facility which has achieved interim status prior to November 8, 1984, interim status terminates on November 8, 1989, unless the owner or operator of the facility submits a part B application for a permit for an incinerator facility by November 8, 1986.

(g) For owners or operators of any facility, other than a land disposal or an incinerator facility, which has achieved interim status prior to November 8, 1984, interim status terminates on November 8, 1992, unless the owner or operator of the facility submits a part B application for a hazardous waste permit for the facility by November 8, 1988.

### **R315-3-8. Remedial Action Plans (RAPs).**

The requirements of 40 CFR 270, subpart H, which includes sections 270.79 through 270.230, 2000 ed., are adopted and incorporated by reference with the following exception:

substitute "Executive Secretary" for all Federal regulation references made to "Director."

### **R315-3-9. Integration with Maximum Achievable Control Technology (MACT) Standards.**

9.1 OPTIONS FOR INCINERATORS AND CEMENT AND LIGHTWEIGHT AGGREGATE KILNS TO MINIMIZE EMISSIONS FROM STARTUP, SHUTDOWN, AND MALFUNCTION EVENTS

(a) Facilities with existing permits. (1) Revisions to permit conditions after documenting compliance with MACT. The owner or operator of a hazardous waste-permitted incinerator, cement kiln, or lightweight aggregate kiln may request that the Executive Secretary address permit conditions that minimize emissions from startup, shutdown, and malfunction events under any of the following options when requesting removal of permit conditions that are no longer applicable according to R315-8-15.1(b) and R315-14-7, which incorporates by reference 40 CFR 266.100(b):

(i) Retain relevant permit conditions. Under this option, the Executive Secretary will:

(A) Retain permit conditions that address releases during startup, shutdown, and malfunction events, including releases from emergency safety vents, as these events are defined in the

facility's startup, shutdown, and malfunction plan required under R307-214-2, which incorporates by reference 40 CFR 63.1206(c)(2); and

(B) Limit applicability of those permit conditions only to when the facility is operating under its startup, shutdown, and malfunction plan.

(ii) Revise relevant permit conditions.

(A) Under this option, the Executive Secretary will:

(1) Identify a subset of relevant existing permit requirements, or develop alternative permit requirements, that ensure emissions of toxic compounds are minimized from startup, shutdown, and malfunction events, including releases from emergency safety vents, based on review of information including the source's startup, shutdown, and malfunction plan, design, and operating history.

(2) Retain or add these permit requirements to the permit to apply only when the facility is operating under its startup, shutdown, and malfunction plan.

(B) Changes that may significantly increase emissions.

(1) You must notify the Executive Secretary in writing of changes to the startup, shutdown, and malfunction plan or changes to the design of the source that may significantly increase emissions of toxic compounds from startup, shutdown, or malfunction events, including releases from emergency safety vents. You must notify the Executive Secretary of such changes within five days of making such changes. You must identify in the notification recommended revisions to permit conditions necessary as a result of the changes to ensure that emissions of toxic compounds are minimized during these events.

(2) The Executive Secretary may revise permit conditions as a result of these changes to ensure that emissions of toxic compounds are minimized during startup, shutdown, or malfunction events, including releases from emergency safety vents either:

(i) Upon permit renewal, or, if warranted;

(ii) By modifying the permit under R315-3-4.2(a) or R315-3-4.3, which incorporates by reference 40 CFR 270.42.

(iii) Remove permit conditions. Under this option:

(A) The owner or operator must document that the startup, shutdown, and malfunction plan required under R307-214-2, which incorporates by reference 40 CFR 63.1206(c)(2), has been approved by the Board under R307-214-2, which incorporates by reference 40 CFR 63.1206(c)(2)(ii)(B); and

(B) The Executive Secretary will remove permit conditions that are no longer applicable according to R315-8-15.1(b) and R315-14-7, which incorporates by reference 40 CFR 266.100(b).

(2) Addressing permit conditions upon permit reissuance. The owner or operator of an incinerator, cement kiln, or lightweight aggregate kiln that has conducted a comprehensive performance test and submitted to the Board a Notification of Compliance documenting compliance with the standards of R307-214-2, which incorporates by reference 40 CFR 63, subpart EEE, may request in the application to reissue the permit for the combustion unit that the Executive Secretary control emissions from startup, shutdown, and malfunction events under any of the following options:

(i) RCRA option A.

(A) Under this option, the Executive Secretary will:

(1) Include, in the permit, conditions that ensure compliance with R315-8-15.6(a) and (c) or R315-14-7, which incorporates by reference 40 CFR 266.102(e)(1) and (e)(2)(iii), to minimize emissions of toxic compounds from startup, shutdown, and malfunction events, including releases from emergency safety vents; and

(2) Specify that these permit requirements apply only when the facility is operating under its startup, shutdown, and malfunction plan.; or

(ii) RCRA option B.

(A) Under this option, the Executive Secretary will:

(1) Include, in the permit conditions, that ensure emissions of toxic compounds are minimized from startup, shutdown, and malfunction events, including releases from emergency safety vents, based on review of information including the source's startup, shutdown, and malfunction plan, design, and operating history; and

(2) Specify that these permit requirements apply only when the facility is operating under its startup, shutdown, and malfunction plan.

(B) Changes that may significantly increase emissions.

(1) You must notify the Executive Secretary in writing of changes to the startup, shutdown, and malfunction plan or changes to the design of the source that may significantly increase emissions of toxic compounds from startup, shutdown, or malfunction events, including releases from emergency safety vents. You must notify the Executive Secretary of such changes within five days of making such changes. You must identify in the notification recommended revisions to permit conditions necessary as a result of the changes to ensure that emissions of toxic compounds are minimized during these events.

(2) The Executive Secretary may revise permit conditions as a result of these changes to ensure that emissions of toxic compounds are minimized during startup, shutdown, or malfunction events, including releases from emergency safety vents either:

(i) Upon permit renewal, or, if warranted;

(ii) By modifying the permit under R315-3-4.2(a) or R315-3-4.3, which incorporates by reference 40 CFR 270.42; or

(iii) CAA option. Under this option:

(A) The owner or operator must document that the startup, shutdown, and malfunction plan required under R307-214-2, which incorporates by reference 40 CFR 63.1206(c)(2), has been approved by the Board under R307-214-2, which incorporates by reference 40 CFR 63.1206(c)(2)(ii)(B); and

(B) The Executive Secretary will omit from the permit conditions that are not applicable under R315-8-15.1(b) and R315-14-7, which incorporates by reference 40 CFR 266.100(b).

(b) Interim status facilities.

(1) Interim status operations. In compliance with R315-7-22 and R315-14-7, which incorporates by reference 40 CFR 266.100(b), the owner or operator of an incinerator, cement kiln, or lightweight aggregate kiln that is operating under the interim status standards of R315-7 or R315-14 may control emissions of toxic compounds during startup, shutdown, and malfunction events under either of the following options after conducting a comprehensive performance test and submitting to the Board a Notification of Compliance documenting compliance with the standards of R307-214-2, which incorporates by reference 40 CFR 63, subpart EEE:

(i) RCRA option. Under this option, the owner or operator continues to comply with the interim status emission standards and operating requirements of R315-7 or R315-14 relevant to control of emissions from startup, shutdown, and malfunction events. Those standards and requirements apply only during startup, shutdown, and malfunction events; or

(ii) CAA option. Under this option, the owner or operator is exempt from the interim status standards of R315-7 or R315-14 relevant to control of emissions of toxic compounds during startup, shutdown, and malfunction events upon submission of written notification and documentation to the Executive Secretary that the startup, shutdown, and malfunction plan required under R307-214-2, which incorporates by reference 40 CFR 63.1206(c)(2), has been approved by the Board under R307-214-2, which incorporates by reference 40 CFR 63.1206(c)(2)(ii)(B).

(2) Operations under a subsequent hazardous waste permit. When an owner or operator of an incinerator, cement kiln, or

lightweight aggregate kiln that is operating under the interim status standards of R315-7 or R315-14 submits a hazardous waste permit application, the owner or operator may request that the Executive Secretary control emissions from startup, shutdown, and malfunction events under any of the options provided by R315-3-9(a)(2)(i), (a)(2)(ii), or (a)(2)(iii).

**R315. Environmental Quality, Solid and Hazardous Waste.****R315-4. Procedures for Decisionmaking.****R315-4-1. General Program Requirements.****1.3 APPLICATION FOR A PERMIT**

(a) If the Executive Secretary decides that a site visit is necessary for any reason in conjunction with the processing of an application, he shall notify the applicant and a reasonable date shall be scheduled.

(b) The effective date of an application is the date on which the Executive Secretary notifies the applicant that the application is complete as provided in R315-3-2.1(c).

(c) For each application from a major new hazardous waste management facility, the Executive Secretary shall no later than the effective date of the application, prepare and mail to the applicant a project decision schedule. The schedule shall specify target dates by which the Executive Secretary intends to:

- (1) Prepare a draft permit;
- (2) Give public notice;
- (3) Complete the public comment period, including any public hearing; and
- (4) Issue a final permit.

**1.5 MODIFICATION, REVOCATION AND REISSUANCE, OR TERMINATION OF PERMITS**

(a) Permits may be modified, revoked and reissued, or terminated either at the request of any interested person, including the permittee, or upon the Executive Secretary's initiative. However, permits may only be modified, revoked and reissued, or terminated for the reasons specified in R315-3-4.2 or R315-3-4.4. All requests shall be in writing and shall contain facts or reasons supporting the request.

(b) If the Executive Secretary decides the request is not justified, he shall send the requester a brief written response giving a reason for the decision. Denials of requests for modification, revocation and reissuance, or termination are not subject to public notice, comment, or hearings. Denials by the Executive Secretary may be appealed to the Board under R315-12-3 by filing a Request for Agency Action pursuant to R315-12-3.1.

(c)(1) If the Executive Secretary tentatively decides to modify or revoke and reissue a permit under R315-3-4.2 or R315-3-4.3, which incorporates by reference 40 CFR 270.42(c), he shall prepare a draft permit under R315-4-1.6 incorporating the proposed changes. The Executive Secretary may request additional information and, in the case of a modified permit, may require the submission of an updated permit application. In the case of revoked and reissued permits, the Executive Secretary shall require the submission of a new application.

(2) In a permit modification under this section, only those conditions to be modified shall be reopened when a new draft permit is prepared. All other aspects of the existing permit shall remain in effect for the duration of the unmodified permit. When a permit is revoked and reissued under this section, the entire permit is reopened just as if the permit had expired and was being reissued. During any revocation and reissuance proceeding, the permittee shall comply with all conditions of the existing permit until a new final permit is reissued.

(3) Classes 1 and 2 modifications, as defined in R315-3-4.3, which incorporates by reference 40 CFR 270.42(a) and (b), are not subject to the requirements of this section.

(d) If the Executive Secretary tentatively decides to terminate a permit under R315-3-4.4, he shall issue a notice of intent to terminate. A notice of intent to terminate is a type of draft permit which follows the same procedures as any draft permit prepared under R315-4-1.6.

**1.6 DRAFT PERMIT**

(a) Once an application is complete, the Executive Secretary shall tentatively decide whether to prepare a draft permit or to deny the application.

(b) If the Executive Secretary tentatively decides to deny

the permit, he shall issue a notice of intent to deny. A notice of intent to deny the permit application is a type of draft permit which follows the same procedures as any draft permit prepared under this section. If the Executive Secretary's final decision is that the tentative decision to deny the permit application was incorrect, he shall withdraw the notice of intent to deny and proceed to prepare a draft permit under R315-4-1.6(c).

(c) If the Executive Secretary decides to prepare a draft permit, he shall prepare a draft permit that contains the following information:

- (1) All conditions under R315-3-3.1 and R315-3-3.3;
- (2) All compliance schedules under R315-3-3.4;
- (3) All monitoring requirements under R315-3-3.2; and
- (4) Standards for treatment, storage, or disposal or all and other permit conditions under R315-3-3.1.

(d) All draft permits prepared by the Executive Secretary under this section shall be publicly noticed and made available for public comment. The Executive Secretary shall give notice of opportunity for a public hearing, issue a final decision, and respond to comments.

**1.8 FACT SHEET REQUIRED**

(a) A fact sheet shall be prepared by the Executive Secretary for every draft permit. The fact sheet shall briefly set forth the principal facts and the significant factual, legal, methodological and policy questions considered in preparing the draft permit. The Executive Secretary shall send this fact sheet to the applicant and, on request, to any other person.

(b) The fact sheet shall include, when applicable:

- (1) A brief description of the type of facility or activity which is the subject of the draft permit.
- (2) The type and quantity of wastes, fluids, or pollutants which are proposed to be or are being treated, stored, disposed of, injected, emitted, or discharged.
- (3) A brief summary of the basis of the draft permit conditions including references to applicable statutory or regulatory provisions and appropriate supporting references.

(4) Reasons why any requested variance or alternatives to required standards do or do not appear justified.

(5) A description of the procedures for reaching a final decision on the draft permit including:

- (i) The beginning and ending dates of the comment period under R315-4-1.10 and the address where comments will be received;
- (ii) Procedures for requesting a hearing and the nature of that hearing; and
- (iii) Any other procedures by which the public may participate in the final decision.

(6) Name and telephone number of a person to contact for additional information.

**1.10 PUBLIC NOTICE OF PERMIT ACTIONS AND PUBLIC COMMENT PERIOD**

(a) Scope.

(1) The Executive Secretary shall give public notice that the following actions have occurred:

- (i) The permit application has been tentatively denied under R315-4-1.6(b).
  - (ii) A draft permit has been prepared under R315-4-1.6(c).
  - (iii) A hearing has been scheduled under R315-4-1.12; or
  - (iv) An appeal has been granted by the Board.
- (2) No public notice is required when a request for a permit modification, revocation and reissuance, or termination is denied under R315-4-1.5(b). Written notice of that denial shall be given to the requestor and to the permittee.

(3) Public notices may describe more than one permit or permit action.

(b) Timing.

(1) Public notice of the preparation of a draft permit, including a notice of intent to deny a permit application, required under R315-4-1.10(a), shall allow at least 45 days for

public comment.

(2) Public notice of a public hearing shall be given at least 30 days before the hearing. Public notice of the hearing may be given at the same time as public notice of the draft permit and the two notices may be combined.

(c) Methods.

Public notices of activities described in R315-4-1.10(a)(1) shall be given by the following methods:

(1) By mailing a copy of a notice to the following persons:

(i) The applicant;

(ii) Any other agency which the Executive Secretary knows has issued or is required to issue a permit, for the same facility or activity including EPA;

(iii) Federal and State agencies with jurisdiction over fish, and wildlife resources, State Historic Preservation Officers, and other appropriate government authorities;

(iv) Persons on a mailing list developed by:

(A) Including those who request in writing to be on the list;

(B) Soliciting persons for area lists from participants in past permit proceedings in the area of the facility; and

(C) Notifying the public of the opportunity to be put on the mailing list through periodic publication in the public press and in regional- and state-funded newsletters, environmental bulletins, or law journals. The Executive Secretary may update the mailing list by requesting written indication of continued interest from those listed. The Executive Secretary may delete from the list the name of any person who fails to respond to a request from the Executive Secretary to remain on the mailing list; and

(v)(A) To any unit of local government having jurisdiction over the area where the facility is proposed to be located;

(B) To each State agency having any authority under State law with respect to the construction or operation of the facility.

(2) Publication of a notice in a daily or weekly newspaper within the area affected by the facility or activity and broadcast over local radio stations;

(3) In a manner constituting legal notice to the public under State law; and

(4) Any other method reasonably calculated to give actual notice of the action in question to the person potentially affected by it, including press releases or any other forum or medium to elicit public participation.

(d)(1) All public notices issued under this section shall contain the following minimum information:

(i) Name and address of the permittee or permit applicant and, if different, of the facility or activity regulated by the permit;

(ii) A brief description of the business conducted at the facility or activity described in the permit application or draft permit;

(iii) Name, address and telephone number of a person from whom interested persons may obtain further information, including copies of the draft permit or fact sheet, and the application;

(iv) A brief description of the comment procedures required by R315-4-1.11 and R315-4-1.12, and the time and place of any hearing that will be held, including a statement of procedures to request a hearing, unless a hearing has already been scheduled and other procedures by which the public may participate in the final permit decision;

(v) Any additional information considered necessary or proper; and

(vi) Name and address of the office processing the permit action for which notice is being given.

(2) Public notices of hearings. In addition to the general public notice described in R315-4-1.10(d)(1), the public notice of a hearing under R315-4-1.12, shall contain the following information:

(i) Reference to the date of previous public notices relating to the permit;

(ii) Date, time, and place of the hearing;

(iii) A brief description of the nature and purpose of the hearing, including the applicable rules and procedures; and

(e) In addition to the general public notice described in R315-4-1.10(d)(1), all persons identified in R315-4-1.10(c)(1)(i), (ii), and (iii) shall be mailed a copy of the fact sheet.

#### 1.11 PUBLIC COMMENTS AND REQUESTS FOR PUBLIC HEARINGS

During the public comment period provided under R315-4-1.10, any interested person may submit written comments on the draft permit and may request a public hearing, if no hearing has already been scheduled. A request for a public hearing shall be in writing and shall state the nature of the issues proposed to be raised in the hearing. All comments shall be considered in making the final decision and shall be answered as provided in R315-4-1.17.

#### 1.12 PUBLIC HEARINGS

(a)(1) The Executive Secretary shall hold a public hearing whenever he finds, on the basis of requests, a significant degree of public interest in a draft permit.

(2) The Executive Secretary may also hold a public hearing at his discretion, whenever, for instance, a hearing might clarify one or more issues involved in the permit decision.

(3)(i) The Executive Secretary shall hold a public hearing whenever he receives written notice of opposition to a draft permit and a request for a hearing within 45 days of public notice under R315-4-1.10(b).

(ii) Whenever possible the Executive Secretary shall schedule a hearing under this section at a location convenient to the nearest population center to the proposed facility.

(4) Public notice of the hearing shall be given as specified in R315-4-1.10.

(b) Any person may submit oral or written statements and data concerning the draft permit. Reasonable limits may be set upon the time allowed for oral statements, and the submission of statements in writing may be required. The public comment period under R315-4-1.10 shall automatically be extended to the close of any public hearing under this section. The hearing officer may also extend the comment period by so stating at the hearing.

(c) A tape recording or written transcript of the hearing shall be made available to the public.

#### 1.15 ISSUANCE AND EFFECTIVE DATE OF PERMIT

(a) After the close of the public comment period under R315-4-1.10 on a draft permit, the Executive Secretary shall issue a final permit decision (or a decision to deny a permit for the active life of a hazardous waste management facility or unit under R315-3-2.20). The Executive Secretary shall notify the applicant and each person who has submitted written comments or requested notice of the final permit decision. This notice shall include reference to the procedures for appealing a decision on a hazardous waste permit or a decision to terminate a hazardous waste permit. For the purposes of R315-4-1.15, a final permit decision means a final decision to issue, deny, modify, revoke and reissue, or terminate a permit.

(b) A final permit decision (or a decision to deny a permit for the active life of a hazardous waste management facility or unit under R315-3-2.20) shall become effective upon issuance unless:

(1) A later effective date is specified in the decision; or

(2) The permit decision is challenged under R315-12-3 and a stay of the decision is granted under R315-12-8.

#### 1.17 RESPONSE TO COMMENTS

(a) At the time that any final permit decision is issued, the Executive Secretary shall issue a response to comments. This response shall:

(1) Specify which provisions, if any, of the draft permit have been changed in the final permit decision, and the reasons for the change; and

(2) Briefly describe and respond to all significant comments on the draft permit or permit application raised during the public comment period, or during any hearing.

(b) The response to comments shall be available to the public.

### **R315-4-2. Specific Procedures Applicable to Hazardous Waste Permits.**

#### **2.31 PRE-APPLICATION PUBLIC MEETING AND NOTICE**

(a) Applicability. The requirements of this section shall apply to all part B applications seeking initial permits for hazardous waste management units. The requirements of this section shall also apply to part B applications seeking renewal of permits for such units, where the renewal application is proposing a significant change in facility operations. For the purposes of this section, a "significant change" is any change that would qualify as a class 3 permit modification under R315-3-4.3, which incorporates by reference 40 CFR 270.42. The requirements of this section do not apply to permit modifications under R315-3-4.3, which incorporates by reference 40 CFR 270.42, or to applications that are submitted for the sole purpose of conducting post-closure activities or post-closure activities and corrective action at a facility.

(b) Prior to the submission of a part B permit for a facility, the applicant shall hold at least one meeting with the public in order to solicit questions from the community and inform the community of proposed hazardous waste management activities. The applicant shall post a sign-in sheet or otherwise provide a voluntary opportunity for attendees to provide their names and addresses.

(c) The applicant shall submit a summary of the meeting, along with the list of attendees and their addresses developed under R315-4-2.31(b), and copies of any written comments or materials submitted at the meeting, to the Executive Secretary as a part of the part B application in accordance with R315-3-2.5(b).

(d) The applicant shall provide public notice of the pre-application meeting at least 30 days prior to the meeting. The applicant shall maintain, and provide to the Division upon request, documentation of the notice.

(1) The applicant shall provide public notice in all of the following forms:

(i) A newspaper advertisement. The applicant shall publish a notice, fulfilling the requirements in R315-4-2.31(d)(2), in a newspaper of general circulation in the county or equivalent jurisdiction that hosts the proposed location of the facility. In addition, the Executive Secretary shall instruct the applicant to publish the notice in newspapers of general circulation in adjacent counties or equivalent jurisdictions, where the Executive Secretary determines that such publication is necessary to inform the affected public. The notice shall be published as a display advertisement.

(ii) A visible and accessible sign. The applicant shall post a notice on a clearly marked sign at or near the facility, fulfilling the requirements in 315-4-2.31(d)(2). If the applicant places the sign on the facility property, then the sign shall be large enough to be readable from the nearest point where the public would pass by the site.

(iii) A broadcast media announcement. The applicant shall broadcast a notice, fulfilling the requirements in R315-4-2.31(d)(2), at least once on at least one local radio station or television station. The applicant may employ another medium with prior approval from the Executive Secretary.

(iv) A notice to the permitting agency. The applicant shall send a copy of the newspaper notice to the Division and local

governments in accordance with R315-4-1.10(c)(1)(v).

(2) The notices required under R315-4-2.31(d)(1) shall include:

(i) The date, time, and location of the meeting;

(ii) A brief description of the purpose of the meeting;

(iii) A brief description of the facility and proposed operations, including the address or a map, e.g., a sketched or copied street map, of the facility location;

(iv) A statement encouraging people to contact the facility at least 72 hours before the meeting if they need special access to participate in the meeting; and

(v) The name, address, and telephone number of a contact person for the applicant.

#### **2.32 PUBLIC NOTICE REQUIREMENTS AT THE APPLICATION STAGE**

(a) Applicability. The requirements of this section shall apply to all part B applications seeking initial permits for hazardous waste management units. The requirements of this section shall also apply to part B applications seeking renewal of permits for such units under R315-3-5.2(b) through (d). The requirements of this section do not apply to permit modifications under R315-3-4.3, which incorporates by reference 40 CFR 270.42, or permit applications submitted for the sole purpose of conducting post-closure activities or post-closure activities and corrective action at a facility.

(b) Notification at application submittal.

(1) The Executive Secretary shall provide public notice as set forth in R315-4-1.10(c)(1)(iv), and notice to appropriate units of State and local government as set forth in R315-4-1.10(c)(1)(v), that a part B permit application has been submitted to the Division and is available for review.

(2) The notice shall be published within a reasonable period of time after the application is received by the Executive Secretary. The notice shall include:

(i) The name and telephone number of the applicant's contact person;

(ii) The name and telephone number of the Division, and a mailing address to which information, opinions, and inquiries may be directed throughout the permit review process;

(iii) An address to which people can write in order to be put on the facility mailing list;

(iv) The location where copies of the permit application and any supporting documents can be viewed and copied;

(v) A brief description of the facility and proposed operations, including the address or a map, e.g., a sketched or copied street map, of the facility location on the front page of the notice; and

(vi) The date that the application was submitted.

(c) Concurrent with the notice required under R315-4-2.32(b), the Executive Secretary shall place the permit application and any supporting documents in a location accessible to the public in the vicinity of the facility or at the Division's office.

#### **2.33 INFORMATION REPOSITORY**

(a) Applicability. The requirements of this section shall apply to all part B applications seeking initial permits for hazardous waste management units.

(b) The Executive Secretary may assess the need, on a case-by-case basis, for an information repository. When assessing the need for an information repository, the Executive Secretary shall consider a variety of factors, including: the level of public interest; the type of facility; the presence of an existing repository; and the proximity of the nearest copy of the administrative record. If the Executive Secretary determines, at any time after submittal of a permit application, that there is a need for a repository, then the Executive Secretary shall notify the facility that it shall establish and maintain an information repository. See R315-3-3.1(m) for similar provisions relating to the information repository during the life of a permit.

(c) The information repository shall contain all documents, reports, data, and information deemed necessary by the Executive Secretary to fulfill the purposes for which the repository is established. The Executive Secretary shall have the discretion to limit the contents of the repository.

(d) The information repository shall be located and maintained at a site chosen by the facility. If the Executive Secretary finds the site unsuitable for the purposes and persons for which it was established, due to problems with the location, hours of availability, access, or other relevant considerations, then the Executive Secretary shall specify a more appropriate site.

(e) The Executive Secretary shall specify requirements for informing the public about the information repository. At a minimum, the Executive Secretary shall require the facility to provide a written notice about the information repository to all individuals on the facility mailing list.

(f) The facility owner/operator shall be responsible for maintaining and updating the repository with appropriate information throughout a time period specified by the Executive Secretary. The Executive Secretary may close the repository at his or her discretion, based on the factors in R315-4-2.33(b).

#### **R315-4-10. Public Participation.**

In addition to hearings required under the State Administrative Procedures Act and proceedings otherwise outlined or referenced in these rules, the Executive Secretary will investigate and provide written response to all citizen complaints duly submitted. In addition, the Executive Secretary shall not oppose intervention in any civil or administrative proceeding by any citizen where permissive intervention may be authorized by statute, rule or regulation. The Executive Secretary will publish notice of and provide at least 30 days for public comment on any proposed settlement of any enforcement action.

#### **R315-4-11. Commercial Hazardous Waste Facility Siting Criteria.**

##### **(a) Applicability.**

R315-4-11 applies to all permit applications for commercial facilities that have been submitted and that have not yet been approved, as well as all future applications.

##### **(b) Land Use Compatibility and Location.**

(1) Siting of commercial hazardous waste treatment, storage, and disposal facilities, including commercial hazardous waste incinerators, is prohibited within:

(i) national, state, and county parks, monuments, and recreation areas; designated wilderness and wilderness study areas; wild and scenic river areas;

(ii) ecologically and scientifically significant natural areas, including but not limited to, wildlife management areas and habitat for listed or proposed endangered species as designated pursuant to the Endangered Species Act of 1982;

(iii) 100 year floodplains, unless, for non-land based facilities only, the conditions found in subsection R315-8-2.9 are met to the satisfaction of the Executive Secretary;

(iv) 200 ft. of Holocene faults;

(v) underground mines, salt domes and salt beds;

(vi) dam failure flood areas;

(vii) areas likely to be impacted by landslide, mudflow, or other earth movement;

(viii) farmlands classified or evaluated as "prime," "unique," or "statewide importance" by the U.S. Department of Agriculture Soil Conservation Service under the Prime Farmland Protection Act;

(ix) areas above aquifers containing ground water which has a total dissolved solids (TDS) content of less than 500 mg/l and which does not exceed applicable ground water quality standards for any contaminant. Land disposal facilities are also

prohibited above aquifers containing ground water which has a TDS content of less than 3000 mg/l and which does not exceed applicable ground water quality standards for any contaminant. Non-land-based facilities above aquifers containing ground water which has a TDS content of 500 to 3000 mg/l and all facilities above aquifers containing ground water which has a TDS content between 3000 and 10,000 mg/l are permitted only where the depth to ground water is greater than 100 ft. The applicant for the proposed facility will make the demonstration of ground water quality necessary to determine the appropriate aquifer classification;

(x) recharge zones of aquifers containing ground water which has a TDS content of less than 3000 mg/l. Land disposal facilities are also prohibited in recharge zones of aquifers containing ground water which has a TDS content of less than 10,000 mg/l;

(xi) designated drinking water source protection areas or, if no source protection area is designated, a distance to existing drinking water wells and watersheds for public water supplies of one year ground water travel time plus 1000 feet for non-land-based facilities and five years ground water travel time plus 1000 feet for land disposal facilities. This requirement does not include on-site facility operation wells. The applicant for the proposed facility will make the demonstration, acceptable to the Executive Secretary, of hydraulic conductivity and other information necessary to determine the one or five year ground water travel distance as applicable. The facility operator may be required to conduct vadose zone or other near surface monitoring if determined to be necessary and appropriate by the Executive Secretary;

(xii) five miles of existing permanent dwellings, residential areas, and other incompatible structures including, but not limited to, schools, churches, and historic structures;

(xiii) five miles of surface waters including intermittent streams, perennial streams, rivers, lakes, reservoirs, estuaries, and wetlands; and

(xiv) 1000 ft. of archeological sites to which adverse impacts cannot reasonably be mitigated.

##### **(c) Emergency Response and Transportation Safety.**

(1) An assessment of the availability and adequacy of emergency services, including medical and fire response, shall be included in the permit application. The application shall also contain evidence that emergency response plans have been coordinated with local and regional emergency response personnel. The permit may be delayed or denied if these services are deemed inadequate.

(2) Trained emergency response personnel and equipment are to be retained by the facility and be capable of responding to emergencies both at the site and involving wastes being transported to and from the facility within the state. Details of the proposed emergency response capability shall be given in the permit application and will be stipulated in the permit.

(3) Proposed routes of transport within the state shall be specified in the permit application. No hazardous waste shall be transported on roads where weight restrictions for the road or any bridge on the road will be exceeded in the selected route of travel. Prime consideration in the selection of routes shall be given to roads which bypass population centers. Route selection should consider residential and non-residential populations along the route; the width, condition, and types of roads used; roadside development along the route; seasonal and climatic factors; alternate emergency access to the facility site; the type, size, and configuration of vehicles expected to be hauling to the site; transportation restrictions along the proposed routes; and the transportation means and routes available to evacuate the population at risk in the event of a major accident, including spills and fires.

##### **(d) Exemptions.**

Exemptions from the criteria of this section may be granted

upon application on a case by case basis by the Solid and Hazardous Waste Control Board after an appropriate public comment period and when the Board determines that there will be no adverse impacts to public health or the environment. The Board cannot grant exemptions which would conflict with applicable regulations and restrictions of other regulatory authorities.

(e) Completeness of Application.

The permit application shall not be considered complete until the applicant demonstrates compliance with the criteria given herein.

(f) Siting Authority.

It is recognized that Titles 10 and 17 of the Utah Code give cities and counties authority for local land use planning and zoning. Nothing in these rules precludes cities and counties from establishing additional requirements as provided by applicable state and federal law.

**R315. Environmental Quality, Solid and Hazardous Waste.**  
**R315-5. Hazardous Waste Generator Requirements.**  
**R315-5-1. General.**

**1.10 PURPOSE, SCOPE, AND APPLICABILITY.**

(a) R315-5 establishes standards for generators of hazardous waste.

(b) R315-2-5, which incorporates by reference, 40 CFR 261.5(c) and (d), must be used to determine the applicability of provisions of R315-5 that are dependent on calculations of the quantity of hazardous waste generated per month.

(c) A generator who treats, stores, or disposes of hazardous waste on-site shall only comply with the following sections of this rule with respect to that waste: R315-5-1.11, which incorporates by reference 40 CFR 262.11, for determining whether or not he has a hazardous waste, R315-5-1.12 for obtaining an EPA identification number, R315-5-3.34 for accumulation of hazardous waste, R315-5-4.40(c) and (d) for recordkeeping, R315-5-4.43 for additional reporting, and if applicable, R315-5-7 for farmers.

(d) Any person who exports or imports hazardous waste as identified in R315-5-8, which incorporates by reference 40 CFR 262.80(a), and is subject to the manifesting requirements of R315-5, or subject to the universal waste management standards as found in R315-16, to or from the countries listed in 40 CFR 262.58(a)(1), which R315-5-5 incorporates by reference, for recovery shall comply with R315-5-8, which incorporates by reference 40 CFR 262 subpart H.

(e) Any person who imports hazardous waste into the United States shall comply with the standards applicable to generators established in R315-5.

(f) A farmer who generates waste pesticides which are hazardous wastes and who complies with all the requirements of R315-5-7 is not required to comply with other standards in this rule or R315-3, R315-7, R315-8, or R315-13, which incorporates by reference 40 CFR 268, with respect to these pesticides.

(g) A person who generates a hazardous waste as defined by R315-2 is subject to the compliance requirements and penalties prescribed in The Utah Solid and Hazardous Waste Act if he does not comply with the requirements of this rule.

A generator who treats, stores, or disposes of hazardous waste on-site shall comply with the applicable standards and permit requirements set forth in R315-3, R315-7, and R315-8.

(h) An owner or operator who initiates a shipment of hazardous waste from a treatment, storage, or disposal facility shall comply with the generator standards established in R315-5.

The provisions of R315-5-3.34, which incorporates by reference 40 CFR 262.34, are applicable to the on-site accumulation of hazardous waste by generators. Therefore, the provisions of R315-5-3.34, which incorporates by reference 40 CFR 262.34, only apply to owners or operators who are shipping hazardous waste which they generated at that facility.

A generator who treats, stores, or disposes of hazardous waste on-site shall comply with the applicable standards and permit requirements set forth in R315-3, R315-7, R315-8, R315-13, which incorporates by reference 40 CFR 268, and R315-14.

**1.11 HAZARDOUS WASTE DETERMINATION**

The requirements of 40 CFR 262.11, 1994 ed., as amended by 60 FR 25540, May 11, 1995, are adopted and incorporated by reference with the following exception:

Substitute "Board" for all federal regulation references made to "Administrator".

**1.12 EPA IDENTIFICATION NUMBERS**

(a) A generator shall not treat, store, dispose of, transport, or offer for transportation, hazardous waste without having received an EPA identification number from the Executive Secretary.

(b) A generator who has not received an EPA

identification number may obtain one by applying to the Executive Secretary using EPA form 8700-12. Upon receiving the request the Executive Secretary will assign an EPA identification number to the generator.

(c) A generator shall not offer his hazardous waste to transporters or to treatment, storage, or disposal facilities that do not have an EPA identification number.

**R315-5-2. The Manifest.**

A sample hazardous waste manifest form containing information required pursuant to these rules is found in the Appendix to 40 CFR 262. All applicable sections of each manifest shall be completely and legibly filled out.

**2.20 GENERAL REQUIREMENTS**

(a)(1) A generator who transports, or offers for transportation, a hazardous waste for off-site treatment, storage, or disposal or a treatment, storage, or disposal facility who offers for transport a rejected hazardous waste load shall prepare a Manifest OMB control number 2050-0039 on EPA form 8700-22, and, if necessary, EPA form 8700-22A, according to the instructions, including the additional information requirements, found in R315-50-1, which incorporates by reference 40 CFR 262, Appendix.

(2) The revised Manifest form and procedures in R315-1-1(b), which incorporates by reference 40 CFR 260.10, R315-2-7, R315-5-2.20, 21, 27, R315-5-3.32, 33, 34, which incorporates by reference 40 CFR 262.34, R315-5-5, which incorporates by reference 40 CFR 262.54, R315-5-6, which incorporates by reference 40 CFR 262.60, and R315-50-1, which incorporates by reference 40 CFR 262 Appendix, shall not apply until September 5, 2006. The manifest form and procedures in R315-1-1(b), which incorporates by reference 40 CFR 260.10, R315-2-7, R315-5-2.20, 21, R315-5-3.32, 33, 34, which incorporates by reference 40 CFR 262.34, R315-5-5, which incorporates by reference 40 CFR 262.54, R315-5-6, which incorporates by reference 40 CFR 262.60, and R315-50-1, which incorporates by reference 40 CFR 262 Appendix, contained in the R315-1 to 8, edition revised as of September 15, 2004 shall be applicable until September 5, 2006.

(b) A generator shall designate on the manifest one facility which is permitted to handle the waste described on the manifest.

(c) A generator may also designate on the manifest one alternate facility which is permitted to handle his waste in the event an emergency prevents delivery of the waste to the primary designated facility.

(d) If the transporter is unable to deliver the hazardous waste to the designated facility or the alternate facility, the generator shall either designate another facility or instruct the transporter to return the waste.

(e) These manifest requirements do not apply to hazardous waste produced by generators of greater than 100 kg but less than 1000 kg in a calendar month where:

(1) The waste is reclaimed under a contractual agreement pursuant to which:

(i) The type of waste and frequency of shipments are specified in the agreement;

(ii) The vehicle used to transport the waste to the recycling facility and to deliver regenerated material back to the generator is owned and operated by the reclaimer of the waste; and

(2) The generator maintains a copy of the reclamation agreement in his files for a period of at least three years after termination or expiration of the agreement.

(f) The requirements of R315-5-2 and R315-5-3.32(b) do not apply to the transport of hazardous wastes on a public or private right-of-way within or along the border of contiguous property under the control of the same person, even if such contiguous property is divided by a public or private right-of-way. Notwithstanding R315-6-1.10(a), the generator or

transporter shall comply with the requirements for transporters set forth in R315-9-1 and R315-9-3 in the event of a discharge of hazardous waste on a public or private right-of-way.

#### 2.21 MANIFEST TRACKING NUMBERS, MANIFEST PRINTING, AND OBTAINING MANIFESTS

The requirements of 40 CFR 262.21, 2005 ed., are adopted and incorporated by reference.

#### 2.22 NUMBER OF COPIES

The manifest shall consist of at least the number of copies which will provide the generator, each transporter, and the owner or operator of the designated facility with one copy each for their records and another copy to be returned to the generator.

#### 2.23 USE OF THE MANIFEST

(a) The generator shall:

(1) Sign the manifest certification by hand; and

(2) Obtain the handwritten signature of the initial transporter and date of acceptance on the manifest; and

(3) Retain one copy, in accordance with R315-5-4.40(a).

(b) The generator shall give the transporter the remaining copies of the manifest.

(c) Hazardous wastes to be shipped within Utah solely by water (bulk shipments only) require that the generator send three copies of the manifest dated and signed in accordance with this section to the owner and operator of the designated facility or the last water (bulk shipment) transporter to handle the waste in the United States if exported by water. Copies of the manifest are not required for each transporter.

(d) For rail shipments of the hazardous wastes within Utah which originate at the site of generation, the generator shall send at least three copies of the manifest dated and signed in accordance with this section to:

(1) The next non-rail transporter, if any; or

(2) The designated facility if transported solely by rail; or

(3) The last rail transporter to handle the waste in the United States if exported by rail.

(e) The generator shall include on the manifest a description of the hazardous waste(s) as set forth in the regulations of the U.S. Department of Transportation in 49 CFR 172.101, 172.202, and 172.203.

(f) For shipments of hazardous waste to a designated facility in an authorized state which has not yet obtained federal authorization to regulate that particular waste as hazardous, the generator must assure that the designated facility agrees to sign and return the manifest to the generator, and that any out-of-state transporter signs and forwards the manifest to the designated facility.

#### 2.27 WASTE MINIMIZATION CERTIFICATION

A generator who initiates a shipment of hazardous waste must certify to one of the following statements in Item 15 of the uniform hazardous waste manifest:

(a) "I am a large quantity generator. I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment;" or

(b) "I am a small quantity generator. I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford."

### R315-5-3. Pre-Transport Requirements.

#### 3.30 PACKAGING

Prior to transporting or offering hazardous waste for transportation off-site, a generator shall package the waste in accordance with the Department of Transportation regulations on packaging under 49 CFR 173, 178, and 179.

#### 3.31 LABELING

Prior to transporting or offering hazardous waste for transportation off-site, a generator shall label each hazardous waste package in accordance with the applicable Department of Transportation regulations on hazardous materials under 49 CFR 172.

#### 3.32 MARKING

(a) Before transporting or offering hazardous waste for transportation off-site, a generator shall mark each package of hazardous waste in accordance with the Department of Transportation regulations on hazardous materials under 49 CFR 172.

(b) Before transporting hazardous waste or offering hazardous waste for transportation off-site, a generator shall mark each container of 119 gallons or less used in such transportation with the following words and information displayed in accordance with the requirements of 49 CFR 172.304:

HAZARDOUS WASTE - Federal Law Prohibits Improper Disposal. If found, contact the nearest police or public safety authority or the U.S. Environmental Protection Agency.

Generator's Name and Address

Generator's EPA Identification Number

Manifest Tracking Number

#### 3.33 PLACARDING

Prior to transporting hazardous waste or offering hazardous waste for transportation off-site, a generator shall placard or offer the initial transporter the appropriate placards according to the Department of Transportation regulations for the movement of hazardous materials under 49 CFR 172, subpart F. If placards are not required, a generator shall mark each motor vehicle according to 49 CFR 171.3(b)(1).

#### 3.34 ACCUMULATION TIME

(a) These requirements as found in 40 CFR 262.34, 2005 ed., are adopted and incorporated by reference with the following addition.

(b) The notification required by 40 CFR 262.34(d)(5)(iv)(C) shall also be made to the Executive Secretary or to the 24-hour answering service listed in R315-9-1(b).

### R315-5-4. Recordkeeping and Reporting.

#### 4.40 RECORDKEEPING

(a) A generator shall keep a copy of each manifest signed in accordance with R315-5-2.23(a) for three years or until a signed copy is received from the designated facility which received the waste. The signed copy shall be retained as a record for at least three years from the date the waste was accepted by the initial transporter.

(b) A generator shall keep a copy of each Biennial Report and Exception Report for a period of at least three years from the due date of the report.

(c) Records maintained in accordance with this section and any other records which the Board or Executive Secretary deems necessary to determine quantities and disposition of hazardous waste or other determinations, test results, or waste analyses made in accordance with R315-5-1.11, which incorporates by reference 40 CFR 262.11, shall be available for inspection by any duly authorized officer, employee or representative of the Department or the Board as provided in R315-2-12 for a period of at least three years from the date the waste was last sent to on-site or off-site treatment, storage, or disposal facilities.

(d) The periods of retention referred to in this section are automatically extended during the course of any unresolved enforcement action regarding the regulated activity or as requested by the Board or its duly appointed representative.

#### 4.41 BIENNIAL REPORTING

(a) A generator who ships any hazardous waste off-site to a treatment, storage, or disposal facility within the United States

must prepare and submit a single copy of a biennial report to the Executive Secretary by March 1 of each even numbered year. The biennial report shall be submitted on EPA Form 8700-13A and must cover generator activities during the previous calendar year, and must include the following information:

(1) The EPA identification number, name, and address of the generator;

(2) The calendar year covered by the report;

(3) The EPA identification number, name, and address for each off-site treatment, storage, or disposal facility in the United States to which waste was shipped during the year;

(4) The name and EPA identification number of each transporter used during the reporting year for shipments to a treatment, storage, or disposal facility within the United States;

(5) A description, EPA hazardous waste number, from R315-2-9, R315-2-10, or R315-2-11, DOT hazard class, and quantity of each hazardous waste shipped off-site for shipments to a treatment, storage, or disposal facility within the United States. This information must be listed by EPA Identification number of each off-site facility to which waste was shipped;

(6) A description of the efforts undertaken during the year to reduce the volume and toxicity of waste generated;

(7) A description of the changes in volume and toxicity of waste actually achieved during the year in comparison to previous years to the extent the information is available for years prior to 1984;

(8) The certification signed by the generator or authorized representative.

(b) Any generator who treats, stores, or disposes of hazardous waste on-site shall submit a biennial report covering those wastes in accordance with the provisions of R315-3, R315-7, and R315-8. Reporting for exports of hazardous waste is not required on the Biennial Report form. A separate annual report requirement is set forth in R315-5-5, which incorporates by reference 40 CFR 262.56.

#### 4.42 EXCEPTION REPORTING

(a)(1) A generator of greater than 1000 kilograms of hazardous waste in a calendar month who does not receive a copy of the manifest with the handwritten signature of the owner or operator of the designated treatment, storage or disposal facility within 35 days of the date the waste was accepted by the initial transporter shall contact the transporter or the owner or operator of the designated facility to determine the status of the hazardous waste.

(2) A generator of greater than 1000 kilograms of hazardous waste in a calendar month shall submit an Exception Report to the Executive Secretary if he has not received a signed copy of the manifest from the owner or operator of the designated facility within 45 days of the date the waste was accepted by the initial transporter. The Exception Report shall consist of a legible copy of the manifest for which the generator does not have confirmation of delivery and a cover letter signed by the generator or his authorized representative explaining the efforts taken by the generator to locate the hazardous waste, and the results of those efforts.

(b) A generator of greater than 100 kilograms but less than 1000 kilograms of hazardous waste in a calendar month who does not receive a copy of the manifest with the handwritten signature of the owner or operator of the designated facility within 60 days of the date the waste was accepted by the initial transporter must submit a legible copy of the manifest, with some indication that the generator has not received confirmation of delivery, to the Executive Secretary. The submission to the Executive Secretary need only be a hand written or typed note on the manifest itself, or on an attached sheet of paper, stating that the return copy was not received.

#### 4.43 ADDITIONAL REPORTING

The Board or Executive Secretary, as is deemed necessary pursuant to these rules, may require generators to furnish

additional reports concerning the quantities and disposition of hazardous wastes identified or listed in Section R315-2-9, R315-2-10, or R315-2-11.

#### 4.44 SPECIAL REQUIREMENTS FOR GENERATORS OF BETWEEN 100 AND 1000 KG/MO

A generator of greater than 100 kilograms but less than 1000 kilograms of hazardous waste in a calendar month is subject only to the following requirements in R315-5-4:

(a) R315-5-4.40(a), (c), and (d);

(b) R315-5-4.42(b); and

(c) R315-5-4.43.

#### R315-5-5. Exports of Hazardous Waste.

The provisions of 40 CFR 262 subpart E, 262.50 - 262.58, 2005 ed., are adopted and incorporated by reference within this rule, except for the following changes:

(a) Other than in Section 40 CFR 262.53, substitute "Executive Secretary" for all references to "EPA" or "Regional Administrator".

(b) Paragraph 40 CFR 262.58(a) shall be as follows:

Any person who exports or imports hazardous waste as identified in 40 CFR 262.80(a) and is subject to the manifesting requirements of R315-5-2, or subject to the universal waste management standards as found in R315-16, to or from the countries listed in 40 CFR 262.58(a)(1), which R315-5-5 incorporates by reference, for recovery shall comply with R315-5-8, which incorporates by reference 40 CFR 262 subpart H. The requirements of subparts E and F do not apply.

#### R315-5-6. Imports of Hazardous Waste.

The requirements of 40 CFR 262.60, 2005 ed., are adopted and incorporated by reference.

#### R315-5-7. Farmers.

A farmer disposing of waste pesticides from his own use which are hazardous wastes is not required to comply with the standards in this rule or other standards in R315-3, R315-7, R315-8, and R315-13, which incorporates by reference 40 CFR 268, for those wastes provided he triple rinses each emptied pesticide container in accordance with R315-2-7(b)(3) and disposes of the pesticide residues on his own farm in a manner consistent with the disposal instructions on the pesticide label.

#### R315-5-8. Transfrontier Shipments of Hazardous Waste for Recovery within the OECD.

The requirements of 40 CFR 262 subpart H, 262.80 - 262.89, 1996 ed., are adopted and incorporated by reference.

Notice of Continuation August 24, 2006

19-6-105

19-6-106

**R315. Environmental Quality, Solid and Hazardous Waste.****R315-6. Hazardous Waste Transporter Requirements.****R315-6-1. General.****1.10 SCOPE**

(a) These hazardous waste transporter requirements establish standards which apply only to persons transporting hazardous waste within the State of Utah if the transportation requires a manifest as specified under R315-5.

(b) These rules do not apply to persons that transport hazardous waste on-site if they are either a hazardous waste generator or are owners or operators of an approved hazardous waste management facility.

(c) A transporter shall also comply with R315-5, if he:

(1) Transports hazardous waste from abroad into the State;

(2) Mixes hazardous wastes of different DOT shipping descriptions by placing them into a single container.

(d) A transporter of hazardous waste subject to the manifesting requirements of R315-5, or subject to the waste management standards of R315-16, that is being imported from or exported to any of the countries listed in 40 CFR 262.58(a)(1), which R315-5-5 incorporates by reference, for purposes of recovery is subject to R315-6-1 and to all other relevant requirements of R315-5-8, which incorporates by reference 40 CFR 262 subpart H, including 40 CFR 262.84 for tracking documents.

**1.11 IDENTIFICATION NUMBER**

(a) A transporter shall not transport hazardous wastes without having received an EPA identification number from the Executive Secretary.

(b) A transporter who has not received an EPA identification number may obtain one by applying to the Executive Secretary using EPA form 8700-12. Upon receiving the request, the Executive Secretary will assign an EPA identification number to the transporter.

**1.12 TRANSFER FACILITY REQUIREMENTS**

A transporter who stores manifested shipments of hazardous waste in containers meeting the requirements of R315-5-3.30 at a transfer facility for a period of ten days or less is not subject to regulation under R315-3, R315-7, R315-8, and R315-13, which incorporates by reference 40 CFR 268, with respect to the storage of those wastes.

**R315-6-2. Compliance With the Manifest System and Recordkeeping.****2.20 THE MANIFEST SYSTEM**

(a)(1) Manifest Requirement. A transporter may not accept hazardous waste from a generator unless the transporter is also provided with a manifest signed in accordance with the requirements of R315-5-2.23.

(2) Exports. In the case of exports other than those subject to R315-5-8, which incorporates by reference 40 CFR 262 subpart H, a transporter may not accept hazardous waste from a primary exporter or other person if he knows the shipment does not conform to the EPA Acknowledgment of Consent; and unless, in addition to a manifest signed by the generator as provided in R315-6-2.20, the transporter shall also be provided with an EPA Acknowledgment of Consent which, except for shipments by rail, is attached to the manifest, or shipping paper for exports by water (bulk shipment). For exports of hazardous waste subject to the requirements of R315-5-8, which incorporates by reference 40 CFR 262 subpart H, a transporter may not accept hazardous waste without a tracking document that includes all information required by 40 CFR 262.84, which R315-5-8 incorporates by reference.

(3) Compliance Date for Form Revisions. The revised Manifest form and procedures in R315-1-1, which incorporates by reference 40 CFR 260.10, R315-2-7, R315-6-2.20, and R315-6-2.21, contained in R315-1 to R315-8, edition revised as of September 15, 2004, shall be applicable until September 5,

2006.

(b) Before transporting the hazardous waste, the transporter shall hand sign and date the manifest acknowledging acceptance of the hazardous waste from the generator. The transporter shall return a signed copy to the generator before leaving the generator's property.

(c) The transporter shall ensure that the manifest accompanies the hazardous waste. In the case of exports, the transporter shall ensure that a copy of the EPA Acknowledgment of Consent also accompanies the hazardous waste.

(d) A transporter who delivers a hazardous waste to another transporter or to the designated facility shall:

(1) Obtain the date of delivery and the handwritten signature of that transporter or of the owner or operator of the designated facility on the manifest; and

(2) Retain one copy of the manifest in accordance with R315-6-5; and

(3) Give the remaining copies of the manifest to the accepting transporter or designated facility.

(e) The requirements of R315-6-2.10(c), (d), and (f) do not apply to water (bulk shipment) transporters if:

(1) The hazardous waste is delivered by water (bulk shipment) to the designated facility; and

(2) A shipping paper containing all the information required on the manifest (excluding the EPA identification numbers, generators certification, and signatures) and, for exports, an EPA Acknowledgment of Consent accompanies the hazardous waste; and

(3) The delivering transporter obtains the date of delivery and handwritten signature of the owner or operator of the designated facility on either the manifest or the shipping paper; and

(4) The person delivering the hazardous waste to the initial water (bulk shipment) transporter obtains the date of delivery and signature of the water (bulk shipment) transporter on the manifest and forwards it to the manifested facility; and

(5) A copy of the shipping paper or manifest is retained by each water (bulk shipment) transporter in accordance with R315-6-2.22.

(f) For shipments involving rail transportation, the requirements of R315-6-2.20(c), (d) and (e) do not apply and the following requirements do apply:

(1) When accepting hazardous waste from a non-rail transporter, the initial rail transporter shall:

(i) Sign and date the manifest acknowledging acceptance of the hazardous waste;

(ii) Return a signed copy of the manifest to the non-rail transporter;

(iii) Forward at least three copies of the manifest to:

(A) The next non-rail transporter, if any; or

(B) The designated facility, if the shipment is delivered to that facility by rail; or

(C) The last rail transporter designated to handle the waste in the United States.

(iv) Retain one copy of the manifest and rail shipping paper in accordance with R315-6-2.22.

(2) Rail transporters shall ensure that a shipping paper containing all the information required on the manifest (excluding the EPA identification numbers, generator certification, and signatures) and, for exports, an EPA Acknowledgment of Consent accompanies the hazardous waste at all times.

(3) When delivering hazardous waste to the designated facility, a rail transporter shall:

(i) Obtain the date of delivery and handwritten signature of the owner or operator of the designated facility on the manifest or the shipping paper, if the manifest has not been received by the facility; and

(ii) Retain a copy of the manifest or signed shipping paper in accordance with R315-6-2.22.

(4) When delivering hazardous waste to a non-rail transporter a rail transporter shall:

(i) Obtain the date of delivery and the handwritten signature of the next non-rail transporter on the manifest; and

(ii) Retain a copy of the manifest in accordance with R315-6-2.22.

(5) Before accepting hazardous waste from a rail transporter, a non-rail transporter shall sign and date the manifest and provide a copy to the rail transporter.

(g) Transporters who transport hazardous waste out of the United States shall:

(1) Sign and date the manifest in the International Shipments block to indicate the date that the shipment left the United States;

(2) Retain one copy as specified in R315-6-2.22(d);

(3) Return a signed copy of the manifest to the generator; and

(4) Give a copy of the manifest to a U.S. Customs official at the point of departure from the United States.

(h) A transporter transporting hazardous waste from a generator who generates greater than 100 kilograms of hazardous waste in a calendar month need not comply with the requirements of R315-6-2.20 or those of R315-6-2.22 provided that:

(1) The waste is being transported pursuant to a reclamation agreement as provided for in R315-5-2.20(e);

(2) The transporter records, on a log or shipping paper, the following information for each shipment:

(i) The name, address, and U.S. EPA Identification Number of the generator of the waste;

(ii) The quantity of waste accepted;

(iii) All DOT-required shipping information;

(iv) The date the waste is accepted; and

(3) The transporter carries this record when transporting waste to the reclamation facility; and

(4) The transporter retains these records for a period of at least three years after termination or expiration of the agreement.

(i) A transporter shall not transport hazardous waste not properly labeled or hazardous waste containers which are leaking or appear to be damaged, since those packages become the transporter's responsibility during transport.

#### 2.21 COMPLIANCE WITH THE MANIFEST

(a) The transporter shall deliver the entire quantity of hazardous waste which he has accepted from a generator or a transporter to:

(1) The designated facility listed on the manifest; or

(2) The alternate designated facility, if the hazardous waste cannot be delivered to the designated facility because an emergency prevents delivery; or

(3) The next designated transporter; or

(4) The place outside the United States designated by the generator.

(b)(1) If the hazardous waste cannot be delivered in accordance with R315-6-2.21(a) because of an emergency condition other than rejection of the waste by the designated facility, then the transporter shall contact the generator for further directions and shall revise the manifest according to the generator's instructions.

(2) If hazardous waste is rejected by the designated facility while the transporter is on the facility's premises, then the transporter shall obtain the following:

(i) For a partial load rejection or for regulated quantities of container residues, a copy of the original manifest that includes the facility's date and signature, and the Manifest Tracking Number of the new manifest that will accompany the shipment, and a description of the partial rejection or container residue in the discrepancy block of the original manifest. The transporter

shall retain a copy of this manifest in accordance with R315-6-2.22, and give the remaining copies of the original manifest to the rejecting designated facility. If the transporter is forwarding the rejected part of the shipment or a regulated container residue to an alternate facility or returning it to the generator, the transporter shall obtain a new manifest to accompany the shipment, and the new manifest shall include all of the information required in R315-8-5.4(e)(1) through (6) or (f)(1) through (6) or R315-7-12.3(e)(1) through (6) or (f)(1) through (6).

(ii) For a full load rejection that will be taken back by the transporter, a copy of the original manifest that includes the rejecting facility's signature and date attesting to the rejection, the description of the rejection in the discrepancy block of the manifest, and the name, address, phone number, and Identification Number for the alternate facility or generator to whom the shipment shall be delivered. The transporter shall retain a copy of the manifest in accordance with R315-6-2.22, and give a copy of the manifest containing this information to the rejecting designated facility. If the original manifest is not used, then the transporter shall obtain a new manifest for the shipment and comply with R315-8-5.4(e)(1) through (6) or R315-7-12.3(e)(1) through (6).

#### 2.22 RECORDKEEPING

(a) A transporter of hazardous waste shall keep a copy of the manifest signed by the generator, himself, and the next designated transporter of the owner or operator of the designated facility for a period of three years from the date the hazardous waste was accepted by the initial transporter.

(b) For shipments delivered to the designated facility by water (bulk shipment), each water (bulk shipment) transporter shall retain a copy of the shipping paper containing all the information required in R315-6-2.20(e)(2) for a period of three years from the date the hazardous waste was accepted by the initial transporter.

(c) For shipments of hazardous waste by rail within the United States:

(1) The initial rail transporter shall keep a copy of the manifest and shipping paper with all the information required in R315-6-2.20(f)(2) for a period of three years from the date the hazardous waste was accepted by the initial transporter; and

(2) The final rail transporter shall keep a copy of the signed manifest (or the shipping paper if signed by the designated facility in lieu of the manifest) for a period of three years from the date the hazardous waste was accepted by the initial transporter.

(d) A transporter who transports hazardous waste out of the United States shall keep a copy of the manifest indicating that the hazardous waste left the United States for a period of three years from the date the hazardous waste was accepted by the initial transporter.

(e) The periods of retention referred to in this section are extended automatically during the course of any unresolved enforcement action regarding the regulated activity or as requested by the Executive Secretary.

#### R315-6-10. Emergency Controls.

Transporters shall comply with R315-9 in the event of a discharge of hazardous waste.

#### R315-6-11. Compliance with Department of Transportation Regulations.

Transporters of hazardous waste shall comply with the following pertinent regulations of the U.S. Department of Transportation governing the transportation of hazardous materials for both interstate and intrastate shipments:

(a) 49 CFR 171, General Information Regulations and Definitions;

(b) 49 CFR 172, Hazardous Materials Table and

Hazardous Material Communications Regulations;

(c) 49 CFR 173, Shippers - General Requirements for Shipments and Packaging;

(d) 49 CFR 174, Carriage by Rail;

(e) 49 CFR 175, Carriage by Aircraft;

(f) 49 CFR 176, Carriage by Vessel;

(g) 49 CFR 177, Carriage by Public Highway;

(h) 49 CFR 178, Shipping Container Specification; and

(i) 49 CFR 179, Specifications for Tank Cars.

**R315. Environmental Quality, Solid and Hazardous Waste.  
R315-7. Interim Status Requirements for Hazardous Waste  
Treatment, Storage, and Disposal Facilities.**

**R315-7-8. General Interim Status Requirements.**

**8.1 PURPOSE, SCOPE, APPLICABILITY**

(a) The purpose of R315-7 is to establish minimum State of Utah standards that define the acceptable management of hazardous waste during the period of interim status and until certification of final closure or, if the facility is subject to post-closure requirements, until post-closure responsibilities are fulfilled.

(b) Except as provided in R315-7-30, which incorporates by reference 40 CFR 265.1080(b), the standards of R315-7 and of R315-8-21, which incorporates by reference 40 CFR 264.552 through 264.554, apply to owners and operators of facilities that treat, store, or dispose of hazardous waste who have fully complied with the requirements of interim status under State or Federal requirements and R315-3-2.1 until either a permit is issued under R315-3 or until applicable R315-7 closure and post-closure responsibilities are fulfilled, and to those owners and operators of facilities in existence on November 19, 1980, who have failed to provide timely notification as required by Section 3010(a) of RCRA or failed to file part A of the permit application as required by R315-3-2.1(d) and (f). These standards apply to all treatment, storage, and disposal of hazardous waste at these facilities after the effective date of these rules, except as specifically provided otherwise in R315-7 or R315-2.

(c) The requirements of R315-7 do not apply to the following:

(1) The owner or operator of a POTW with respect to the treatment or storage of hazardous wastes which are delivered to the POTW;

(2) The owner or operator of a facility approved by the State of Utah to manage municipal or industrial solid waste, if the only hazardous waste the facility treats, stores, or disposes of is excluded from regulation under R315-7 by R315-2-5;

(3) The owner or operator of a facility managing recyclable materials described in 40 CFR 261.6(a)(2), (3), and (4), which is incorporated by reference in R315-2-6, except to the extent that they are referred to in R315-15 or R315-14-2, which incorporates by reference 40 CFR subpart D, R315-14-5, which incorporates by reference 40 CFR 266 subpart F, and R315-14-6, which incorporates by reference 40 CFR 266 subpart G;

(4) A generator accumulating hazardous waste on-site in compliance with R315-5-3.34, which incorporates by reference 40 CFR 262.34, except to the extent the requirements are included in R315-5-3.34, which incorporates by reference 40 CFR 262.34;

(5) A farmer disposing of waste pesticides from his own use in compliance with R315-5-7;

(6) The owner or operator of a totally enclosed treatment facility, as defined in R315-1;

(7) The owner or operator of an elementary neutralization unit or a wastewater treatment unit as defined in R315-1-1(b), which incorporates by reference 40 CFR 260.10, provided that if the owner or operator is diluting hazardous ignitable (D001) wastes, other than the D001 High TOC Subcategory defined in the Table of Treatment Standards for Hazardous Wastes in 40 CFR 268.40 as incorporated by reference at R315-13, or reactive (D003) waste, to remove the characteristic before land disposal, the owner/operator must comply with the requirements set out in R315-7-9.8(b);

(8) A transporter storing manifested shipments of hazardous waste in containers meeting the requirements of R315-5-3.30 at a transfer facility for a period of ten days or less;

(9)(i) Except as provided in R315-7-8(c)(9)(i), a person engaged in treatment or containment activities during immediate response to any of the following situations:

(A) A discharge of a hazardous waste;

(B) An imminent and substantial threat of a discharge of a hazardous waste;

(C) A discharge of a material which, when discharged, becomes a hazardous waste.

(ii) An owner or operator of a facility otherwise regulated by this section shall comply with all applicable requirements of R315-7-10 and R315-7-11.

(iii) Any person who is covered by R315-7-8(c)(9)(i) and who continues or initiates hazardous waste treatment or containment activities after the immediate response is over is subject to all applicable requirements of R315-7 and of R315-3 for those activities.

(iv) In the case of an explosives or munitions emergency response, if a State or local official acting within the scope of his or her official responsibilities, or an explosives or munitions emergency response specialist, determines that immediate removal of the material or waste is necessary to protect human health or the environment, that official or specialist may authorize the removal of the material or waste by transporters who do not have EPA identification numbers and without the preparation of a manifest. In the case of emergencies involving military munitions, the responding military emergency response specialist's organizational unit shall retain records for three years identifying the dates of the response, the responsible persons responding, the type and description of material addressed, and its disposition.

(10) The addition of absorbent material to waste in a container, as defined in R315-1, or the addition of waste to the absorbent material in a container provided that these actions occur at the time waste is first placed in the containers; and R315-7-9.8(b), R315-7-16.2 and R315-7-16.3 are complied with;

(11) Universal waste handlers and universal waste transporters (as defined in R315-16-1.9) handling the wastes listed below. These handlers are subject to regulation under section R315-16, when handling the below listed universal wastes:

(i) Batteries as described in R315-16-1.2;

(ii) Pesticides as described in R315-16-1.3;

(iii) Mercury thermostats as described in R315-16-1.4; and

(iv) Mercury lamps as described in R315-16-1.5.

(d) Notwithstanding any other provisions of these rules enforcement actions may be brought pursuant to R315-2-14 or Section 19-6-115 Utah Solid and Hazardous Waste Act.

(e) The following hazardous wastes shall not be managed at facilities subject to regulation under R315-7.

(1) EPA Hazardous Waste Nos. F020, F021, F022, F023, F026, or F027 unless:

(i) The wastewater treatment sludge is generated in a surface impoundment as part of the plant's wastewater treatment system;

(ii) The waste is stored in tanks or containers;

(iii) The waste is stored or treated in waste piles that meet the requirements of R315-8-12.1(c) as well as all other applicable requirements of R315-8-12;

(iv) The waste is burned in incinerators that are certified pursuant to the standard and procedures in R315-7-22.6; or

(v) The waste is burned in facilities that thermally treat the waste in a device other than an incinerator and that are certified pursuant to the standards and procedures in R315-7-23.7.

(f) The requirements of this rule apply to owners or operators of all facilities which treat, store, or dispose of hazardous waste referred to in R315-13, which incorporates by reference 40 CFR 268, and the R315-13 standards are considered material conditions or requirements of the R315-7 interim status standards.

**R315-7-9. General Facility Standards.**

### 9.1 APPLICABILITY

The rules in this section apply to the owners and operators of all hazardous waste management facilities, except as provided otherwise in R315-7-8.1.

### 9.2 IDENTIFICATION NUMBER

Every facility owner or operator shall apply for an EPA identification number in accordance with Section 3010 of RCRA. Facility owners or operators who did not obtain an EPA Identification Number for their facilities through the notification process shall obtain one. Information on obtaining this number can be acquired by contacting the Utah Division of Solid and Hazardous Waste Management.

### 9.3 REQUIRED NOTICES

(a)(1) An owner or operator of a facility that has arranged to receive hazardous waste from a foreign source shall notify the Board in writing at least four weeks in advance of the expected date of arrival of these shipments at the facility. A notice of subsequent shipments of the same waste from the same foreign sources is not required.

(2) The owner or operator of a recovery facility that has arranged to receive hazardous waste subject to R315-5-15, which incorporates by reference 40 CFR 262, subpart H, shall provide a copy of the tracking document bearing all required signatures to the notifier, to the Division of Solid and Hazardous Waste, P.O. Box 144880, Salt Lake City, Utah, 84114-4880; Office of Enforcement and Compliance Assurance, Office of Compliance, Enforcement Planning, Targeting and Data Division (2222A), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460; and to the competent authorities of all other concerned countries within three working days of receipt of the shipment. The original of the signed tracking document must be maintained at the facility for at least three years.

(b) Before transferring ownership or operation of a facility during its operating life, or of a disposal facility during the post-closure care period, the owner or operator shall notify the new owner or operator in writing of the requirements of R315-7 and R315-3. An owner's or operator's failure to notify the new owner or operator of the requirements of R315-7 in no way relieves the new owner or operator of his obligation to comply with all applicable requirements.

### 9.4 GENERAL WASTE ANALYSIS

The requirements of 40 CFR 265.13, 1996 ed., are adopted and incorporated by reference.

### 9.5 SECURITY

(a) A facility owner or operator shall prevent the unknowing entry, and minimize the possibility for the unauthorized entry, of persons or livestock onto the active portion of his facility; unless

(1) Physical contact with the waste, structures, or equipment within the active portion of the facility will not injure unknowing or unauthorized persons or livestock which may enter the active portion of a facility; and

(2) Disturbance of the waste or equipment by the unknowing or unauthorized entry of persons or livestock onto the active portion of a facility will not cause a violation of the requirements of R315-7.

(b) Unless exempt under R315-7-9.5(a)(1) and (a)(2), facilities shall have;

(1) A 24-hour surveillance system, e.g., television monitoring or surveillance by guards or facility personnel, which continuously monitors and controls entry onto the active portion of the facility; or

(2)(i) An artificial or natural barrier or both, e.g. a fence in good repair or a cliff, which completely surrounds the active portion of the facility; and

(ii) A means to control entry at all times through the gates or other entrances to the active portion of the facility, e.g., an attendant, television monitors, locked entrance, or controlled

roadway access to the facility.

The requirements of R315-7-9.5(b) are satisfied if the facility or plant within which the active portion is located itself has a surveillance system or a barrier and a means to control entry which complies with the requirements of R315-7-9.5(b)(1) and (2).

(c) Unless exempt under R315-7-9.5(a)(1) and (a)(2), a sign with the legend, "Danger -Unauthorized Personnel Keep Out", shall be posted at each entrance to the active portion of a facility and at other locations, in sufficient numbers to be seen from any approach to the active portion. The legend shall be written in English and any other language predominant in the area surrounding the facility and shall be legible from a distance of at least twenty-five feet. Existing signs with a legend other than "Danger - Unauthorized Personnel Keep Out" may be used if the legend on the sign indicates that only authorized personnel are allowed to enter the active portion, and that entry onto the active portion is potentially dangerous.

Owners or operators are encouraged to also describe on the sign the type of hazard, e.g., hazardous waste, flammable wastes, etc., contained within the active portion of the facility. See R315-7-14.7(b) for discussion of security requirements at disposal facilities during the post-closure care period.

### 9.6 GENERAL INSPECTION REQUIREMENTS

(a) Facility owners or operators shall inspect their facilities for malfunctions and deterioration, operator errors, and discharges, which may be causing or may lead to (1) release of hazardous waste constituents to the environment or (2) a threat to human health. These inspections shall be conducted frequently enough to identify problems in time to correct them before they harm human health or the environment.

(b)(1) Facility owners or operators shall develop and follow a written schedule for inspecting monitoring equipment, safety and emergency equipment, security devices, and operating and structural equipment, e.g., dikes and sump pumps, that are important to preventing, detecting, or responding to environmental or human health hazards.

(2) The schedule shall be kept at the facility.

(3) The schedule shall identify the types of problems, e.g., malfunctions or deterioration, which are to be looked for during the inspection, e.g., inoperative sump pump, leaking fitting, eroding dike, etc.

(4) The frequency of inspection may vary for the items on the schedule. However, the frequency should be based on the rate of deterioration of the equipment and the probability of an environmental or human health incident if the deterioration, malfunction, or any operator error goes undetected between inspections. Areas subject to spills, such as loading and unloading areas shall be inspected daily when in use. At a minimum, the inspection schedule shall include the items and frequencies called for in R315-7-16.5, R315-7-17, which incorporates by reference 40 CFR 265.190 - 265.201, R315-7-18.5, R315-7-19.12, R315-7-20.5, R315-7-21.12, R315-7-22.4, R315-7-23.4, R315-7-24.4, R315-7-26, which incorporates by reference 40 CFR 265.1033, R315-7-27, which incorporates by reference 40 CFR 265.1052, 265.1053, and 265.1058 and R315-7-30, which incorporates by reference 40 CFR 265.1084 through 265.1090.

(c) The owner or operator shall remedy any deterioration or malfunction of equipment or structures which the inspection reveals on a schedule which ensures that the problem does not lead to an environmental or human health hazard. Where a hazard is imminent or has already occurred, remedial action shall be taken immediately.

(d) The owner or operator shall keep records of inspections in an inspection log or summary. These records shall be retained for at least three years. At a minimum, these records shall include the date and time of the inspection, the name of the inspector, a notation of the observations made, and

the date and nature of any repairs made or remedial actions taken.

#### 9.7 PERSONNEL TRAINING

(a)(1) Facility personnel shall successfully complete a program of classroom instruction or on-the-job training that teaches them to perform their duties in a way that ensures the facility's compliance with the requirements of R315-7, and that includes all the elements described in R315-7-9.7(d)(3).

(2) This program shall be directed by a person trained in hazardous waste management procedures, and shall include instruction supplementing the facility personnel's existing job knowledge, which teaches facility personnel hazardous waste management procedures, including contingency plan implementation, relevant to the positions in which they are employed.

(3) At a minimum, the training program shall be designed to ensure that facility personnel are able to respond effectively to emergencies by familiarizing them with emergency procedures, emergency equipment, and emergency systems, including, but not necessarily limited to, the following, where applicable:

- (i) Procedures for using, inspecting, repairing, and replacing facility emergency and monitoring equipment;
- (ii) Key parameters for automatic waste feed cut-off systems;
- (iii) Communications or alarm systems or both;
- (iv) Response to fires or explosions;
- (v) Response to groundwater contamination incidents; and
- (vi) Shutdown of operations.

(b) Facility personnel shall successfully complete the program required in R315-7-9.7(a) within six months after the effective date of these rules or six months after the date of employment or assignment to a facility, or to a new position at a facility, whichever is later. Employees hired after the effective date of these rules shall not work in unsupervised positions until they have completed the training requirements of R315-7-9.7(a).

(c) Facility personnel shall take part in an annual review of their initial training in R315-7-9.7(a).

(d) Owners or operators of facilities shall maintain the following documents and records at their facilities and make them available to the Board or its duly appointed representative upon request:

(1) The job title for each position at the facility related to hazardous waste management, and the name of the employee filling each job;

(2) A written job description for each position listed under R315-7-9.7(d)(1). This description may be consistent in its degree of specificity with descriptions for other similar positions in the same company location or bargaining unit, but shall include the requisite skill, education, or other qualifications and duties of facility personnel assigned to each position;

(3) A written description of the type and amount of both introductory and continuing training that will be given to each person filling a position listed under R315-7-9.7(d)(1); and

(4) Records that document that the training or job experience required under paragraphs R315-7-9.7(a), (b), and (c) has been given to, and completed by, facility personnel.

(e) Training records on current personnel shall be maintained until closure of the facility; training records on former employees shall be maintained for at least three years from the date the employee last worked at the facility. Personnel training records may accompany personnel transferred within the same company.

#### 9.8 GENERAL REQUIREMENTS FOR IGNITABLE, REACTIVE, OR INCOMPATIBLE WASTES

(a) The owner or operator shall take precautions to prevent accidental ignition or reaction of ignitable or reactive waste. This waste shall be separated and protected from sources of ignition or reaction including but not limited to: open flames,

smoking, cutting and welding, hot surfaces, frictional heat, sparks, static, electrical, or mechanical, spontaneous ignition, e.g., from heat-producing chemical reactions, and radiant heat. While ignitable or reactive waste is being handled, the owner or operator shall confine smoking and open flames to specially designated locations. "No Smoking" signs shall be conspicuously placed wherever there is a hazard from ignitable or reactive waste.

(b) Where specifically required by R315-7, the treatment, storage, or disposal of ignitable or reactive waste and the mixture or commingling of incompatible wastes, or incompatible wastes and materials, shall be conducted so that it does not:

- (1) Generate uncontrolled extreme heat or pressure, fire or explosion, or violent reaction;
- (2) Produce uncontrolled toxic mists, fumes, dusts, or gases in sufficient quantities to threaten human health;
- (3) Produce uncontrolled flammable fumes or gases in sufficient quantities to pose a risk of fire or explosion;
- (4) Damage the structural integrity of the device or facility containing the waste; or
- (5) Through other like means threaten human health or the environment.

#### 9.9 LOCATION STANDARDS

The placement of any hazardous waste in a salt dome, salt bed formation, underground mine or cave is prohibited, except for the Department of Energy Waste Isolation Pilot Project in New Mexico.

#### 9.10 CONSTRUCTION QUALITY ASSURANCE PROGRAM

(a) CQA program. (1) A construction quality assurance, CQA, program is required for all surface impoundment, waste pile, and landfill units that are required to comply with R315-7-18.9(a), R315-7-19.9, and R315-7-21.10(a). The program shall ensure that the constructed unit meets or exceeds all design criteria and specifications in the permit. The program shall be developed and implemented under the direction of a CQA officer who is a registered professional engineer.

(2) The CQA program shall address the following physical components, where applicable:

- (i) Foundations;
- (ii) Dikes;
- (iii) Low-permeability soil liners;
- (iv) Geomembranes, flexible membrane liners;
- (v) Leachate collection and removal systems and leak detection systems; and
- (vi) Final cover systems.

(b) Written CQA plan. Before construction begins on a unit subject to the CQA program under R315-7-9.10(a), the owner or operator shall develop a written CQA plan. The plan shall identify steps that will be used to monitor and document the quality of materials and the condition and manner of their installation. The CQA plan shall include:

(1) Identification of applicable units, and a description of how they will be constructed.

(2) Identification of key personnel in the development and implementation of the CQA plan, and CQA officer qualifications.

(3) A description of inspection and sampling activities for all unit components identified in R315-7-9.10(a)(2), including observations and tests that will be used before, during, and after construction to ensure that the construction materials and the installed unit components meet the design specifications. The description shall cover: Sampling size and locations; frequency of testing; data evaluation procedures; acceptance and rejection criteria for construction materials; plans for implementing corrective measures; and data or other information to be recorded and retained in the operating record under R315-7-12.4.

(c) Contents of program. (1) The CQA program shall include observations, inspections, tests, and measurements sufficient to ensure:

(i) Structural stability and integrity of all components of the unit identified in R315-7-9.10(a)(2);

(ii) Proper construction of all components of the liners, leachate collection and removal system, leak detection system, and final cover system, according to permit specifications and good engineering practices, and proper installation of all components, e.g., pipes, according to design specifications;

(iii) Conformity of all materials used with design and other material specifications under R315-8-11.2, R315-8-12.2, and R315-8-14.2.

(2) The CQA program shall include test fills for compacted soil liners, using the same compaction methods as in the full-scale unit, to ensure that the liners are constructed to meet the hydraulic conductivity requirements of R315-8-11.2(c)(1), R315-8-12.2(c)(1), and R315-8-14.2(c)(1) in the field. Compliance with the hydraulic conductivity requirements shall be verified by using in-situ testing on the constructed test fill. The test fill requirement is waived where data are sufficient to show that a constructed soil liner meets the hydraulic conductivity requirements of R315-8-11.2(c)(1), R315-8-12.2(c)(1), and R315-8-14.2(c)(1) in the field.

(d) Certification. The owner or operator of units subject to R315-7-9.10 shall submit to the Executive Secretary by certified mail or hand delivery, at least 30 days prior to receiving waste, a certification signed by the CQA officer that the CQA plan has been successfully carried out and that the unit meets the requirements of R315-8-11.2(a), R315-8-12.2, or R315-8-14.2(a). The owner or operator may receive waste in the unit after 30 days from the Executive Secretary's receipt of the CQA certification unless the Executive Secretary determines in writing that the construction is not acceptable, or extends the review period for a maximum of 30 more days, or seeks additional information from the owner or operator during this period. Documentation supporting the CQA officer's certification shall be furnished to the Executive Secretary upon request.

### **R315-7-10. Preparedness and Prevention.**

#### **10.1 APPLICABILITY**

The rules in this section apply to the owners and operators of all hazardous waste management facilities, except as provided otherwise in R315-7-8.1.

#### **10.2 MAINTENANCE AND OPERATION OF FACILITY**

Facilities shall be maintained and operated to minimize the possibility of a fire, explosion or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment.

#### **10.3 REQUIRED EQUIPMENT**

All facilities shall be equipped with the following, unless there are no hazards posed by waste handled at the facility which could require a particular kind of equipment specified below:

(a) An internal communications or alarm system capable of providing immediate emergency instruction, voice or signal, to facility employees;

(b) A device capable of summoning external emergency assistance from law enforcement agencies, fire departments or state or local emergency response teams, such as a telephone, immediately available at the scene of operations, or a hand-held two way radio;

(c) Portable fire extinguishers, fire control equipment, including special extinguishing equipment, such as that using foam, inert gas, or dry chemicals, discharge control equipment, and decontamination equipment; and

(d) Water at adequate volume and pressure to supply water hose streams, or foam producing equipment, or automatic sprinklers, or water spray systems.

#### **10.4 TESTING AND MAINTENANCE OF EQUIPMENT**

All facility communications or alarm systems, fire protection equipment, safety equipment, discharge control equipment, and decontamination equipment, where required, shall be tested and maintained as necessary to assure its proper operation in time of emergency.

#### **10.5 ACCESS TO COMMUNICATIONS OR ALARM SYSTEM**

(a) Whenever hazardous waste is being poured, mixed, spread, or otherwise handled, all employees involved in the operation shall have immediate access to an internal alarm or emergency communication device, either directly or through visual or voice contact with another employee, unless a device is not required under R315-7-10.3.

(b) If there is just one employee on the premises while the facility is operating, he shall have immediate access to a device capable of summoning external emergency assistance, such as a telephone, immediately available at the scene of operation, or a hand-held two-way radio, unless a device is not required under R315-7-10.3.

#### **10.6 REQUIRED AISLE SPACE**

The facility owner or operator shall maintain aisle space to allow the unobstructed movement of personnel, fire protection equipment, discharge control equipment, and decontamination equipment to any area of facility operation in an emergency, unless aisle space is not needed for any of these purposes.

#### **10.7 ARRANGEMENTS WITH LOCAL AUTHORITIES**

(a) The owner or operator shall attempt to make the following arrangements, as appropriate for the type of waste handled at his facility and the potential need for the services of these organizations:

(1) Arrangements to familiarize law enforcement agencies, fire departments, and emergency response teams with the layout of the facility, properties of hazardous waste handled at the facility and associated hazards, places where facility personnel would normally be working, entrances to the roads inside the facility, and possible evacuation routes;

(2) Where more than one law enforcement agency and fire department might respond to an emergency, agreements designating primary emergency authority to a specific law enforcement agency and a specific fire department, and agreements with any others to provide support to the primary emergency authority;

(3) Agreements with state emergency response teams, emergency response contractors, and equipment suppliers; and

(4) Arrangements to familiarize local hospitals with the properties of hazardous waste handled at the facility and the types of injuries or illnesses which could result from fires, explosions, or releases at the facility.

(b) Where state or local authorities decline to enter into these arrangements, the owner or operator shall document the refusal in the operating record.

### **R315-7-11. Contingency Plan and Emergency Procedures.**

#### **11.1 APPLICABILITY**

The rules in this section apply to the owners and operators of all hazardous waste management facilities, except as provided otherwise in R315-7-8.1.

#### **11.2 PURPOSE AND IMPLEMENTATION OF CONTINGENCY PLAN**

(a) Each owner or operator shall have a contingency plan for his facility designed to minimize hazards to human health or the environment from fires, explosions, or any unplanned sudden or non-sudden discharge of hazardous waste or hazardous waste constituents to air, soil, or surface water.

(b) The provisions of the plan shall be carried out

immediately whenever there is a fire, explosion, or release of hazardous waste or hazardous waste constituents which could threaten the environment or human health.

#### 11.3 CONTENT OF CONTINGENCY PLAN

(a) The contingency plan shall describe the actions facility personnel shall take to comply with R315-7-11.2 and R315-7-11.7 in response to fires, explosions, or any unplanned sudden or non-sudden discharge of hazardous waste or hazardous waste constituents to air, soil, or surface water at the facility.

(b) If a facility owner or operator already has prepared a Spill Prevention, Control and Countermeasures (SPCC) Plan in accordance with 40 CFR 112, or some other emergency or contingency plan, he need only amend that plan to incorporate hazardous waste management provisions sufficient to comply with the requirements of R315-7.

(c) The plan shall describe arrangements agreed to by local law enforcement agencies, fire departments, hospitals, contractors, and state and local emergency response teams to coordinate emergency services, in accordance with R315-7-10.7.

(d) The plan shall list names, addresses, phone numbers, office and home, of all persons qualified to act as facility emergency coordinator, see R315-7-11.6, and this list shall be kept up-to-date. Where more than one person is listed, one shall be named as primary emergency coordinator and others shall be listed in the order in which they will assume responsibility as alternates.

(e) The plan shall include a list of all emergency equipment at the facility, such as fire extinguishing systems, discharge control equipment, communications and alarm systems, internal and external, and decontamination equipment, where this equipment is required. This list shall be kept up-to-date. In addition, the plan shall include the location and physical description of each item on the list, and a brief outline of its capabilities.

(f) The plan shall include an evacuation plan for facility personnel where there is a possibility that evacuation could be necessary. This plan shall describe signal(s) to be used to begin evacuation, evacuation routes, and alternate evacuation routes, in cases where the primary routes could be blocked by discharges of hazardous waste or fires.

#### 11.4 COPIES OF CONTINGENCY PLAN

A copy of the contingency plan and all revisions to the plan shall be:

(a) Maintained at the facility;

(b) Made available to the Board or its duly appointed representative upon request; and

(c) Submitted to all local law enforcement agencies, fire departments, hospitals, and state and local emergency response teams that may be called upon to provide emergency services.

#### 11.5 AMENDMENT OF CONTINGENCY PLAN

The contingency plan shall be reviewed, and immediately amended, if necessary, under any of the following circumstances:

(a) Revisions to applicable regulations;

(b) Failure of the plan in an emergency;

(c) Changes in the facility design, construction, operation, maintenance, or other circumstances that materially increase the potential for discharges of hazardous waste or hazardous waste constituents, or change the response necessary in an emergency;

(d) Changes in the list of emergency coordinators; or

(e) Changes in the list of emergency equipment.

#### 11.6 EMERGENCY COORDINATOR

At all times, there shall be at least one employee either on the facility premises or on call, i.e., available to respond to an emergency by reaching the facility within a short period of time, with the responsibility for coordinating all emergency response measures. This facility emergency coordinator shall be thoroughly familiar with all aspects of the facility's contingency plan, all operations and activities at the facility, the location of

all records within the facility, and the facility layout. In addition, this person shall have the authority to commit the resources needed to carry out the contingency plan. The emergency coordinator's responsibilities are more fully spelled out in R315-7-11.7. Applicable responsibilities for the emergency coordinator vary depending on factors such as type and variety of waste(s) handled by the facility, and type and complexity of the facility.

#### 11.7 EMERGENCY PROCEDURES

(a) Whenever there is an imminent or actual emergency situation, the emergency coordinator, or his designee when the emergency coordinator is on call, shall immediately:

(1) Activate internal facility alarms or communication systems, where applicable, to notify all facility personnel; and

(2) Notify appropriate state or local agencies with designated response roles whenever their assistance is needed.

(b) In the event of a discharge, fire, or explosion, the facility's emergency coordinator shall immediately identify the character, exact source, amount, and areal extent of any discharged materials. He may do this by observation or review of facility records or manifests, and, if necessary, by chemical analysis.

(c) Concurrently, the facility's emergency coordinator shall immediately assess possible hazards to the environment or human health that may result from the discharge, fire, or explosion. This assessment shall consider both direct and indirect effects of the discharge, fire, or explosion, e.g., the effects of any toxic, irritating, or asphyxiating gases that are generated, or the effects of any hazardous surface water run-offs from water or chemical agents used to control fire and heat-induced explosions.

(d) If the emergency coordinator determines that the facility has had a discharge, fire, or explosion which could threaten human health or the environment, outside the facility, he shall report his findings as follows:

(1) If his assessment indicates that evacuation of local areas may be advisable, he shall immediately notify appropriate local authorities. He shall be available to assist appropriate officials in making the decision whether local areas should be evacuated; and

(2) He shall immediately notify both the Utah State Department of Environmental Quality as specified in R315-9 and the government officials designated as the on-scene coordinator for that geographical area, in the applicable regional contingency plan under 40 CFR 1510, or the National Response Center, 800/424-8802. The report shall include:

(i) Name and telephone number of reporter;

(ii) Name and address of facility;

(iii) Time and type of incident, e.g., discharge, fire;

(iv) Name and quantity of material(s) involved, to the extent available;

(v) The extent of injuries, if any; and

(vi) The possible hazards to human health, or the environment, outside the facility.

(e) During an emergency, the facility's emergency coordinator shall take all reasonable measures necessary to ensure that fires, explosions, and discharges do not occur, recur, or spread to other hazardous waste at the facility. These measures shall include, where applicable, stopping processes and operations, collecting and containing discharged waste, and removing or isolating containers.

(f) If the facility stops operations in response to a discharge, fire, or explosion, the facility's emergency coordinator shall monitor for leaks, pressure buildup, gas generation, or ruptures in valves, pipes, or other equipment, wherever this is appropriate.

(g) Immediately after an emergency, the facility's emergency coordinator shall provide for treating, storing, or disposing of recovered waste, contaminated soil or surface

water, or any other material that results from a discharge, fire, or explosion at the facility.

Unless the owner or operator can demonstrate, in accordance with R315-2-3(c) or (d), that the recovered material is not a hazardous waste, the owner or operator becomes a generator of hazardous waste and shall manage it in accordance with all applicable requirements in R315-4, R315-5, R315-7, and R315-8.

(h) The facility's emergency coordinator shall ensure that, in the affected area(s) of the facility:

(1) No waste that may be incompatible with the discharged material is treated, stored, or disposed of until cleanup procedures are completed; and

(2) All emergency equipment listed in the contingency plan is cleaned and fit for its intended use before operations are resumed.

(i) The facility owner or operator shall notify the Board and other appropriate state and local authorities, that the facility is in compliance with R315-7-11.7(h) before operations are resumed in the affected area(s) of the facility.

(j) The facility owner or operator shall record in the operating record the time, date, and details of any incident that requires implementing the contingency plan. Within 15 days after the incident, he shall submit a written report on the incident to the Board. The report shall include:

(1) Name, address, and telephone number of the owner or operator;

(2) Name, address, and telephone number of the facility;

(3) Date, time, and type of incident, e.g., fire, discharge;

(4) Name and quantity of material(s) involved;

(5) The extent of injuries, if any;

(6) An assessment of actual or potential hazards to the environment or human health, where this is applicable; and

(7) Estimated quantity and disposition of recovered material that resulted from the incident.

### **R315-7-12. Manifest System, Recordkeeping, and Reporting.**

#### **12.1 APPLICABILITY**

(a) The rules in R315-7-12 apply to owners and operators of both on-site and off-site facilities, except as provided otherwise in R315-7-8.1, R315-7-12.2, R315-7-12.3, and R315-7-12.7 do not apply to owners and operators of on-site facilities that do not receive any hazardous waste from off-site sources, nor to owners and operators of off-site facilities with respect to waste military munitions exempted from manifest requirements under 40 CFR 266.203(a).

(b) The revised Manifest form and procedures in R315-1-1, which incorporates by reference 40 CFR 260.10, R315-2-7, R315-7-12.1, R315-7-12.2, R315-7-12.3, and R315-7-12.7, contained in R315-1 to R315-8, edition revised as of September 15, 2004, shall be applicable until September 5, 2006.

#### **12.2 USE OF MANIFEST SYSTEM**

(a)(1) If a facility receives hazardous waste accompanied by a manifest, the owner, operator, or his agent, shall sign and date the manifest as indicated in R315-7-12.1(a)(2) to certify that the hazardous waste covered by the manifest was received, that the hazardous waste was received except as noted in the discrepancy space of the manifest, or that the hazardous waste was rejected as noted in the manifest discrepancy space.

(2) If a facility receives a hazardous waste shipment accompanied by a manifest, the owner, operator or his agent shall:

(i) Sign and date, by hand, each copy of the manifest;

(ii) Note any significant discrepancies in the manifest, as defined in R315-7-12.3, on each copy of the manifest;

(iii) Immediately give the transporter at least one copy of the manifest;

(iv) Within 30 days of delivery, send a copy of the

manifest to the generator; and

(v) Retain at the facility a copy of each manifest for at least three years from the date of delivery.

(3) If a facility receives hazardous waste imported from a foreign source, the receiving facility shall mail a copy of the manifest to the following addresses within 30 days of delivery: International Compliance Assurance Division, OFA/OECA (2254A), U.S. Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania Avenue, NW., Washington DC 20460 and Utah Division of Solid and Hazardous Waste, P O Box 144880, Salt Lake City, Utah 84114-4880.

(b) If a facility receives, from a rail or water (bulk shipment) transporter, hazardous waste which is accompanied by a shipping paper containing all the information required on the manifest (excluding the EPA identification numbers, generator's certification, and signatures) the owner or operator, or his agent, shall:

(1) Sign and date each copy of the manifest or shipping paper, if the manifest has not been received, to certify that the hazardous waste covered by the manifest or shipping paper was received;

(2) Note any significant discrepancies, as defined in R315-7-12.3(a), in the manifest or shipping paper, if the manifest has not been received, on each copy of the manifest or shipping paper;

(3) Immediately give the rail or water, bulk shipment, transporter at least one copy of the manifest or shipping paper, if the manifest has not been received;

(4) Within 30 days after the delivery, send a copy of the signed and dated manifest to the generator or a signed and dated copy of the shipping paper, to the generator; and

(5) Retain at the facility a copy of the manifest and shipping paper, if signed in lieu of the manifest at the time of delivery for at least three years from the date of delivery.

(c) Whenever a shipment of hazardous waste is initiated from a facility, the owner or operator of that facility shall comply with the requirements of R315-5.

The provisions of R315-5-9.1 are applicable to the on-site accumulation of hazardous wastes by generators and only apply to owners or operators who are shipping hazardous waste which they generated at that facility.

(d) Within three working days of the receipt of a shipment subject to R315-5-15, which incorporates by reference 40 CFR 262 subpart H, the owner or operator of the facility shall provide a copy of the tracking document bearing all required signatures to the notifier, to the Division of Solid and Hazardous Waste, P.O. Box 144880, Salt Lake City, Utah, 84114-4880; Office of Enforcement and Compliance Assurance, Office of Compliance, Enforcement Planning, Targeting and Data Division (2222A), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460; and to competent authorities of all other concerned countries. The original copy of the tracking document shall be maintained at the facility for at least three years from the date of signature.

(e) A facility shall determine whether the consignment state for a shipment regulates any additional wastes (beyond those regulated Federally) as hazardous wastes under its state hazardous waste program. Facilities shall also determine whether the consignment state or generator state requires the facility to submit any copies of the manifest to these states.

#### **12.3 MANIFEST DISCREPANCIES**

(a) Manifest discrepancies are:

(1) Significant differences as defined by R315-7-12.3(b) between the quantity or type of hazardous waste designated on the manifest or shipping paper, and the quantity and type of hazardous waste a facility actually receives;

(2) Rejected wastes, which may be a full or partial shipment of hazardous waste that the treatment, storage, or disposal facility cannot accept; or

(3) Container residues, which are residues that exceed the quantity limits for "empty" containers set forth in R315-2-7(b).

(b) Significant discrepancies in quantity are: For bulk waste, variations greater than ten percent in weight; for batch waste, any variation in piece count, such as a discrepancy of one drum in a truckload. Significant differences in type are obvious differences which can be discovered by inspection or waste analysis, such as waste solvent substituted for waste acid, or toxic constituents not reported on the manifest or shipping paper.

(c) Upon discovering a significant difference in quantity or type, the owner or operator shall attempt to reconcile the discrepancy with the waste generator or transporter, e.g., with telephone conversations. If the discrepancy is not resolved within 15 days of receipt of the waste, the owner or operator shall immediately submit to the Executive Secretary a letter describing the discrepancy, and attempts to reconcile it, including a copy of the manifest or shipping paper at issue.

(d)(1) Upon rejecting waste or identifying a container residue that exceeds the quantity limits for "empty" containers set forth in R315-2-7(b), the facility shall consult with the generator prior to forwarding the waste to another facility that can manage the waste. If it is impossible to locate an alternative facility that can receive the waste, the facility may return the rejected waste or residue to the generator. The facility shall send the waste to the alternative facility or to the generator within 60 days of the rejection or the container residue identification.

(2) While the facility is making arrangements for forwarding rejected wastes or residues to another facility under R315-7-12.3, it must ensure that either the delivering transporter retains custody of the waste, pending delivery of the waste to the first transporter designated on the manifest prepared under R315-7-12.3(e) or (f).

(e) Except as provided in R315-7-12.3(e)(7), for full or partial load rejections and residues that are to be sent off-site to an alternate facility, the facility is required to prepare a new manifest in accordance with R315-5-2.20(a) and the following instructions:

(1) Write the generator's U.S. EPA ID number in Item 1 of the new manifest. Write the generator's name and mailing address in Item 5 of the new manifest. If the mailing address is different from the generator's site address, then write the generator's site address in the designated space for Item 5.

(2) Write the name of the alternate designated facility and the facility's U.S. EPA ID number in the designated facility block (Item 8) of the new manifest.

(3) Copy the manifest tracking number found in Item 4 of the old manifest to the Special Handling and Additional Information Block of the new manifest, and indicate that the shipment is a residue or rejected waste from the previous shipment.

(4) Copy the manifest tracking number found in Item 4 of the new manifest to the manifest reference number line in the Discrepancy Block of the old manifest (Item 18a) of R315.

(5) Write the DOT description for the rejected load or the residue in Item 9 (U.S. DOT Description) of the new manifest and write the container types, quantity, and volume(s) of waste.

(6) Sign the Generator's/Officer's Certification to certify, as the offeror of the shipment, that the waste has been properly packaged, marked, and labeled and is in proper condition for transportation.

(7) For full load rejections that are made while the transporter remains present at the facility, the facility may forward the rejected shipment to the alternate facility by completing Item 18b of the original manifest and supplying the information on the next destination facility in the Alternate Facility space. The facility shall retain a copy of this manifest for its records, and then give the remaining copies of the

manifest to the transporter to accompany the shipment. If the original manifest is not used, then the facility shall use a new manifest and comply with R315-7-12.3(e)(1), (2), (3), (4), (5), and (6).

(f) Except as provided in R315-7-12.3(f)(7), for rejected wastes and residues that shall be sent back to the generator, the facility is required to prepare a new manifest in accordance with R315-5-2.20(a) and the following instructions:

(1) Write the facility's U.S. EPA ID number in Item 1 of the new manifest. Write the generator's name and mailing address in Item 5 of the new manifest. If the mailing address is different from the generator's site address, then write the generator's site address in the designated space for Item 5.

(2) Write the name of the initial generator and the generator's U.S. EPA ID number in the designated facility block (Item 8) of the new manifest.

(3) Copy the manifest tracking number found in Item 4 of the old manifest to the Special Handling and Additional Information Block of the new manifest, and indicate that the shipment is a residue or rejected waste from the previous shipment.

(4) Copy the manifest tracking number found in Item 4 of the new manifest to the manifest reference number line in the Discrepancy Block of the old manifest (Item 18a).

(5) Write the DOT description for the rejected load or the residue in Item 9 (U.S. DOT Description) of the new manifest and write the container types, quantity, and volume(s) of waste.

(6) Sign the Generator's/Officer's Certification to certify, as offeror of the shipment, that the waste has been properly packaged, marked, and labeled and is in proper condition for transportation.

(7) For full load rejections that are made while the transporter remains at the facility, the facility may return the shipment to the generator with the original manifest by completing Item 18a and 18b of the manifest and supplying the generator's information in the Alternate Facility space. The facility shall retain a copy for its records and then give the remaining copies of the manifest to the transporter to accompany the shipment. If the original manifest is not used, then the facility shall use a new manifest and comply with R315-7-12.3(f)(1), (2), (3), (4), (5), and (6).

(g) If a facility rejects a waste or identifies a container residue that exceeds the quantity limits for "empty" containers set for in R315-2-7(b) after it has signed, date, and returned a copy of the manifest to the delivering transporter or to the generator, the facility shall amend its copy of the manifest to indicate the rejected wastes or residues in the discrepancy space of the amended manifest. The facility shall also copy the manifest tracking number from Item 4 of the new manifest to the Discrepancy space of the amended manifest, and shall re-sign and date the manifest to certify to the information as amended. The facility shall retain the amended manifest for at least three years from the date of amendment, and shall within 30 days, send a copy of the amended manifest to the transporter and generator that received copies prior to their being amended.

#### 12.4 OPERATING RECORD

The requirements as found in 40 CFR 265.73, 1997 ed., as amended by 62 FR 64636, December 8, 1997, are adopted and incorporated by reference.

#### 12.5 AVAILABILITY, RETENTION, AND DISPOSITION OF RECORDS

(a) All records, including plans, required under R315-7 shall be furnished upon written request, and made available at all reasonable times for inspection.

(b) The retention period for all records required under R315-7 is extended automatically during the course of any unresolved enforcement action regarding the facility or as requested by the Board.

(c) A copy of records of waste disposal locations required

to be maintained under R315-7-12.4, which incorporates by reference 40 CFR 265.73, shall be turned over to the Board and the local land authority upon closure of the facility, see R315-7-14, which incorporates by reference 40 CFR 265.110 - 265.120.

#### 12.6 BIENNIAL REPORT

Owners or operators of facilities that treat, store, or dispose of hazardous waste shall prepare and submit a single copy of a biennial report to the Board by March 1 of each even numbered year. The biennial report shall be submitted on EPA form 8700-13B. The biennial report shall cover facility activities during the previous calendar year and shall include the following information:

(a) The EPA identification number, name, and address of the facility;

(b) The calendar year covered by the report;

(c) For off-site facilities, the EPA identification number of each hazardous waste generator from which a hazardous waste was received during the year; for imported shipments, the name and address of the foreign generator shall be given;

(d) A description and the quantity of each hazardous waste received by the facility during the year. For off-site facilities, this information shall be listed by EPA identification number of each generator;

(e) The method(s) of treatment, storage, or disposal for each hazardous waste;

(f) Monitoring data, where required under R315-7-13.5(a)(2)(ii) and (iii) and (b)(2) where required;

(g) The most recent closure cost estimate under R315-7-15, which incorporates by reference 40 CFR 265.140 - 265.150, and for disposal facilities, the most recent post-closure cost estimate under R315-7-15, which incorporates by reference 40 CFR 265.144;

(h) For generators who treat, store, or dispose of hazardous waste on-site, a description of the efforts undertaken during the year to reduce the volume and toxicity of waste generated;

(i) For generators who treat, store, or dispose of hazardous waste on-site, a description of the changes in volume and toxicity of waste actually achieved during the year in comparison to previous years to the extent the information is available for the years prior to 1984; and

(j) The certification signed by the owner or operator of the facility or his authorized representative.

#### 12.7 UNMANIFESTED WASTE REPORT

(a) If a facility accepts for treatment, storage, or disposal any hazardous waste from an off-site source without an accompanying manifest, or without an accompanying shipping paper as described in R315-6-2.20(e), and if the waste is not excluded from the manifest requirements of R315, then the owner or operator shall prepare and submit a single copy of a report to the Board within 15 days after receiving the waste. These reports shall be designated "Unmanifested Waste Report" and include the following information:

(1) The EPA identification number, name, and address of the facility;

(2) The date the facility received the waste;

(3) The EPA identification number, name, and address of the generator and the transporter, if available;

(4) A description and the quantity of each unmanifested hazardous waste the facility received;

(5) The method of treatment, storage, or disposal for each hazardous waste;

(6) The certification signed by the owner or operator of the facility or his authorized representative; and

(7) A brief explanation of why the waste was unmanifested, if known.

#### 12.8 ADDITIONAL REPORTS

In addition to the biennial and unmanifested waste reporting requirements described in R315-7-12.6, and R315-7-12.7, a facility owner or operator shall also report to the Board:

(a) Discharges, fires, and explosions as specified in R315-7-11.7(j);

(b) Groundwater contamination and monitoring data as specified in R315-7-13.4 and R315-7-13.5;

(c) Facility closure as specified in R315-7-14, which incorporates by reference 40 CFR 265.110 - 265.120;

(d) Upon its request, all information as the Board may deem necessary to determine compliance with the requirements of R315-7;

(e) As otherwise required by R315-7-26, which incorporates by reference 40 CFR 265.1030 - 265.1035, R315-7-27, which incorporate by reference 40 CFR 265.1050 - 265.1064 and R315-7-30, which incorporates by reference 40 CFR 265.1080 - 265.1091.

#### R315-7-13. Groundwater Monitoring.

##### 13.1 APPLICABILITY

(a) The owner or operator of a surface impoundment, landfill, or land treatment facility which is used to manage hazardous waste shall implement a groundwater monitoring program capable of determining the facility's impact on the quality of groundwater in the uppermost aquifer underlying the facility, except as R315-7-8.1 and R315-7-13.1(c) provide otherwise.

(b) Except as R315-7-13.1(c) and (d) provide otherwise, the owner or operator shall install, operate, and maintain a groundwater monitoring system which meets the requirements of R315-7-13.2, and shall comply with R315-7-13.3 - R315-7-13.5. This groundwater monitoring program shall be carried out during the active life of the facility, and for disposal facilities, during the post-closure care period as well.

(c) All or part of the groundwater monitoring sampling and analysis requirements of this section may be waived if the owner or operator can demonstrate that there is a low potential for migration of hazardous waste or hazardous waste constituents from the facility via the uppermost aquifer to water supply wells, domestic, industrial, or agricultural, or to surface water. This demonstration shall be in writing, and shall be kept at the facility. This demonstration shall be certified by a qualified geologist or geotechnical engineer and shall establish the following:

(1) The potential for migration of hazardous waste or hazardous waste constituents from the facility to the uppermost aquifer, by an evaluation of:

(i) A water balance of precipitation, evapotranspiration, run-off, and infiltration; and

(ii) Unsaturated zone characteristics, i.e., geologic materials, physical properties, and depth to groundwater; and

(2) The potential for hazardous waste or hazardous waste constituents which enter the uppermost aquifer to migrate to a water supply well or surface water, by an evaluation of:

(i) Saturated zone characteristics, i.e., geologic materials, physical properties, and rate of groundwater flow; and

(ii) The proximity of the facility to water supply wells or surface water.

(d) If an owner or operator assumes, or knows, that groundwater monitoring of indicator parameters in accordance with R315-7-13.2 and R315-7-13.3 would show statistically significant increases, or decreases in the case of pH, when evaluated under R315-7-13.4(b), he may install, operate, and maintain an alternate groundwater monitoring system, other than the one described in R315-7-13.2 and R315-7-13.3. If the owner or operator decides to use an alternate groundwater monitoring system he shall:

(1) Submit to the Board a specific plan, certified by a qualified geologist or geotechnical engineer, which satisfies the requirements of R315-7-13.4(d)(3) for an alternate groundwater monitoring system;

(2) Initiate the determinations specified in R315-7-

13.4(d)(4);

(3) Prepare and submit a written report in accordance with R315-7-13.4(d)(5);

(4) Continue to make the determinations specified in R315-7-13.4(d)(4) on a quarterly basis until final closure of the facility; and

(5) Comply with the recordkeeping and reporting requirements in R315-7-13.5(d).

(e) The groundwater monitoring requirements of this section may be waived with respect to any surface impoundment that (1) is used to neutralize wastes which are hazardous solely because they exhibit the corrosivity characteristics under R315-2-9 or are listed as hazardous wastes in R315-2-10 only for this reason, and (2) contains no other hazardous wastes, if the owner or operator can demonstrate that there is no potential for migration of hazardous wastes from the impoundment. The demonstration must be established, based upon consideration of the characteristics of the wastes and the impoundment, that the corrosive wastes will be neutralized to the extent that they no longer meet the corrosivity characteristic before they can migrate out of the impoundment. The demonstration must be in writing and must be certified by a qualified professional.

(f) The Executive Secretary may replace all or part of the requirements of R315-7-13 applying to a regulated unit, as defined in R315-8-6, with alternative requirements developed for groundwater monitoring set out in an approved closure or post-closure plan or in an enforceable document, as defined in R315-3-1.1(e)(7), where the Executive Secretary determines that:

(1) A regulated unit is situated among solid waste management units, or areas of concern, a release has occurred, and both the regulated unit and one or more solid waste management unit(s), or areas of concern, are likely to have contributed to the release; and

(2) It is not necessary to apply the requirements of R315-7-13 because the alternative requirements will protect human health and the environment. The alternative standards for the regulated unit must meet the requirements of R315-8-6.12(a).

### 13.2 GROUNDWATER MONITORING SYSTEM

(a) A groundwater monitoring system shall be capable of yielding groundwater samples for analysis and shall consist of:

(1) Monitoring wells, at least one, installed hydraulically upgradient, i.e., in the direction of increasing static head from the limit of the waste management area. Their number, locations, and depths shall be sufficient to yield groundwater samples that are:

(i) Representative of background groundwater quality in the uppermost aquifer near the facility; and

(ii) Not affected by the facility.

(2) Monitoring wells, at least three, installed hydraulically downgradient, i.e., in the direction of decreasing static head, at the limit of the waste management area. Their number, locations, and depths shall ensure that they immediately detect any statistically significant amounts of hazardous waste or hazardous waste constituents that migrate from the waste management area to the uppermost aquifer.

(3) The facility owner or operator may demonstrate that an alternate hydraulically downgradient monitoring well location will meet the criteria outlined below. The demonstration must be in writing and kept at the facility. The demonstration must be certified by a qualified ground-water scientist and establish that:

(i) An existing physical obstacle prevents monitoring well installation at the hydraulically downgradient limit of the waste management area; and

(ii) The selected alternate downgradient location is as close to the limit of the waste management area as practical; and

(iii) The location ensures detection that, given the alternate location, is as early as possible of any statistically significant amounts of hazardous waste or hazardous waste constituents

that migrate from the waste management area to the uppermost aquifer.

(iv) Lateral expansion, new, or replacement units are not eligible for an alternate downgradient location under this paragraph.

(b) Separate monitoring systems for each waste management component of the facility are not required provided that provisions for sampling upgradient and downgradient water quality will detect any discharge from the waste management area.

(1) In the case of a facility consisting of only one surface impoundment, landfill, or land treatment area, the waste management area is described by the waste boundary perimeter.

(2) In the case of a facility consisting of more than one surface impoundment, landfill, or land treatment area, the waste management area is described by an imaginary boundary line which circumscribes the several waste management components.

(c) All monitoring wells shall be cased in a manner that maintains the integrity of the monitoring well bore hole. This casing shall be screened or perforated, and packed with gravel or sand where necessary to enable sample collection at depths where appropriate aquifer flow zones exist. The annular space, i.e., the space between the bore hole and well casing above the sampling depth shall be sealed with a suitable material, e.g., cement grout or bentonite slurry, to prevent contamination of samples and the ground water.

### 13.3 SAMPLING AND ANALYSIS

(a) The owner or operator shall obtain and analyze samples from the installed groundwater monitoring system. The owner or operator shall develop and follow a groundwater sampling and analysis plan. He shall keep this plan at the facility. The plan shall include procedures and techniques for:

(1) Sample collection;

(2) Sample preservation and shipment;

(3) Analytical procedures; and

(4) Chain of custody control.

See "Procedures Manual for Groundwater Monitoring at Solid Waste Disposal Facilities," EPA-530/SW-611, August 1977 and "Methods for Chemical Analysis of Water and Wastes," EPA-600/4-79-020, March 1979 for discussions of sampling and analysis procedures.

(b) The owner or operator shall determine the concentration or value of the following parameters in groundwater samples in accordance with R315-7-13.3(c) and (d):

(1) Parameters characterizing the suitability of the groundwater as a drinking water supply, as specified in R315-50-3, which incorporates by reference 40 CFR 265, Appendix III.

(2) Parameters establishing groundwater quality:

(i) Chloride

(ii) Iron

(iii) Manganese

(iv) Phenols

(v) Sodium

(vi) Sulfate

These parameters are to be used as a basis for comparison in the event a groundwater quality assessment is required under R315-7-13.4(d).

(3) Parameters used as indicators of groundwater contamination:

(i) pH

(ii) Specific Conductance

(iii) Total Organic Carbon

(iv) Total Organic Halogen

(c)(1) For all monitoring wells, the owner or operator shall establish initial background concentrations or values of all parameters specified in R315-7-13.3(b). He shall do this

quarterly for one year.

(2) For each of the indicator parameters specified in R315-7-13.3(b)(3), at least four replicate measurements shall be obtained for each sample and the initial background arithmetic mean and variance shall be determined by pooling the replicate measurements for the respective parameter concentrations or values in samples obtained from upgradient wells during the first year.

(d) After the first year, all monitoring wells shall be sampled and the samples analyzed with the following frequencies:

(1) Samples collected to establish groundwater quality shall be obtained and analyzed for the parameters specified in R315-7-13.3(b)(2) at least annually.

(2) Samples collected to indicate groundwater contamination shall be obtained and analyzed for the parameters specified in R315-7-13.3(b)(3) at least semiannually.

(e) Elevation of the groundwater surface at each monitoring well shall be determined each time a sample is obtained.

#### 13.4 PREPARATION, EVALUATION, AND RESPONSE

(a) The owner or operator shall prepare an outline of a groundwater quality assessment program. The outline shall describe a more comprehensive groundwater monitoring program, than that described in R315-7-13.2 and R315-7-13.3, capable of determining:

(1) Whether hazardous waste or hazardous waste constituents have entered the groundwater;

(2) The rate and extent of migration of hazardous waste or hazardous waste constituents in the groundwater; and

(3) The concentrations of hazardous waste or hazardous waste constituents in the groundwater.

(b) For each indicator parameter specified in R315-7-13.3(b)(3), the owner or operator shall calculate the arithmetic mean and variance, based on at least four replicate measurements on each sample, for each well monitored in accordance with R315-7-13.3(d)(2) and compare these results with its initial background arithmetic mean. The comparison shall consider individually each of the wells in the monitoring system, and shall use the Students t-test at the 0.01 level of significance, see R315-50-4, to determine statistically significant increases, and decreases, in the case of pH, over initial background.

(c)(1) If the comparisons for the upgradient wells made under R315-7-13.4(b) show a significant increase, or pH decrease, the owner or operator shall submit this information in accordance with R315-7-13.5(a)(2)(ii).

(2) If the comparisons for downgradient wells made under R315-7-13.4(b) show a significant increase, or pH decrease, the owner or operator shall then immediately obtain additional groundwater samples from those downgradient wells where a significant difference was detected, split the samples in two, and expeditiously obtain analyses of all additional samples to determine whether the significant difference was a result of laboratory error.

(d)(1) If the analyses performed under R315-7-13.4(c)(2) confirm the significant increase, or pH decrease, the owner or operator shall provide written notice to the Board--within seven days of the date of the confirmation--that the facility may be affecting groundwater quality.

(2) Within 15 days after the notification under R315-7-13.4(d)(1), the owner or operator shall develop and submit to the Board a specific plan, based on the outline required under R315-7-13.4(a) and certified by a qualified geologist or geotechnical engineer, for a groundwater quality assessment program at the facility.

(3) The plan to be submitted under R315-7-13.1(d)(1) or R315-7-13.4(d)(2) shall specify:

(i) The number, location, and depth of wells;

(ii) Sampling and analytical methods for those hazardous wastes or hazardous waste constituents in the facility;

(iii) Evaluation procedures, including any use of previously-gathered groundwater quality information; and

(iv) A schedule of implementation.

(4) The owner or operator shall implement the groundwater quality assessment plan which satisfies the requirements of R315-7-13.4(d)(3), and, at a minimum, determine:

(i) The rate and extent of migration of the hazardous waste or hazardous waste constituents in the groundwater; and

(ii) The concentrations of the hazardous waste or hazardous waste constituents in the groundwater.

(5) The owner or operator shall make his first determination under R315-7-13.4(d)(4) as soon as technically feasible, and, within 15 days after that determination submit to the Board a written report containing an assessment of the groundwater quality.

(6) If the owner or operator determines, based on the results of the first determination under R315-7-13.4(d)(4), that no hazardous waste or hazardous waste constituents from the facility have entered the groundwater, then he may reinstate the indicator evaluation program described in R315-7-13.3 and R315-7-13.4(b). If the owner or operator reinstates the indicator evaluation program, he shall so notify the Board in the report submitted under R315-7-13.4(d)(5).

(7) If the owner or operator determines, based on the first determination under R315-7-13.4(d)(4), that hazardous waste or hazardous waste constituents from the facility have entered the groundwater, then he:

(i) Must continue to make the determinations required under R315-7-13.4(d)(4) on a quarterly basis until final closure of the facility, if the groundwater quality assessment plan was implemented prior to final closure of the facility; or

(ii) May cease to make the determinations required under R315-7-13.4(d)(4), if the groundwater quality assessment plan was implemented during the post-closure care period.

(e) Notwithstanding any other provision of R315-7-13, any groundwater quality assessment to satisfy the requirements of R315-7-13.4(d)(4) which is initiated prior to final closure of the facility shall be completed and reported in accordance with R315-7-13.4(d)(5).

(f) Unless the groundwater is monitored to satisfy the requirements of R315-7-13.4(d)(4), at least annually the owner or operator shall evaluate the data on groundwater surface elevations obtained under R315-7-13.3(e) to determine whether the requirements under R315-7-13.2(a) for locating the monitoring wells continues to be satisfied. If the evaluation shows that R315-7-13.2(a) is no longer satisfied, the owner or operator shall immediately modify the number, location, or depth of the monitoring wells to bring the groundwater monitoring system into compliance with this requirement.

#### 13.5 RECORDKEEPING AND REPORTING

(a) Unless the groundwater is monitored to satisfy the requirements of R315-7-13.4(d)(4), the owner or operator shall:

(1) Keep records of the analyses required in R315-7-13.3(c) and (d), the associated groundwater surface elevations required in R315-7-13.3(e), and the evaluations required in R315-7-13.4(b) throughout the active life of the facility, and, for disposal facilities, throughout the post-closure care period as well; and

(2) Report the following groundwater monitoring information to the Board:

(i) During the first year when initial background concentrations are being established for the facility: concentrations or values of the parameters listed in R315-7-13.3(b)(1) for each groundwater monitoring well within 15 days after completing each quarterly analysis. The owner or operator

shall separately identify for each monitoring well any parameters whose concentration or value has been found to exceed the maximum contaminant levels listed in 40 CFR 265, Appendix III.

(ii) Annually: concentrations or values of the parameters listed in R315-7-13.3(b)(3) for each groundwater monitoring well, along with the required evaluations for these parameters under R315-7-13.4(b). The owner or operator shall separately identify any significant differences from initial background found in the upgradient wells, in accordance with R315-7-13.4(c)(1). During the active life of the facility, this information shall be submitted no later than March 1 following each calendar year.

(iii) No later than March 1 following each calendar year: results of the evaluation of groundwater surface elevations under R315-7-13.4(f), and a description of the response to that evaluation, where applicable.

(b) If the groundwater is monitored to satisfy the requirements of R315-7-13.4(d)(4), the owner or operator shall:

(1) Keep records of the analyses and evaluations specified in the plan, which satisfies the requirements of R315-7-13.4(d)(3), throughout the active life of the facility, and, for disposal facilities, throughout the post-closure care period as well; and

(2) Annually, until final closure of the facility, submit to the Board a report containing the results of his groundwater quality assessment program which includes, but is not limited to, the calculated (or measured) rate of migration of hazardous waste or hazardous waste constituents in the groundwater during the reporting period. This report shall be submitted no later than March 1, following each calendar year.

#### **R315-7-14. Closure and Post-Closure.**

The requirements as found in 40 CFR 265 subpart G (265.110 - 265.121), 1998 ed., as amended by 63 FR 56710, October 22, 1998, are adopted and incorporated by reference with the following exceptions:

(a) Substitute "Board" for all references to "Administrator" or "Regional Administrator".

(b) Substitute the word "appointee" for "employee."

(c) Substitute "Board" for "Agency."

(d) Substitute 19-6 for references to RCRA.

#### **R315-7-15. Financial Requirements.**

The requirements as found in 40 CFR 265 subpart H (265.140 - 265.150), 1998 ed., as amended by 63 FR 56710, October 22, 1998, are adopted and incorporated by reference with the following exceptions:

(a) substitute "Executive Secretary" for all references to "Administrator" or "Regional Administrator."

(b) substitute "Board" for all references to "Agency" or "EPA".

(c) substitute "The Utah Solid and Hazardous Waste Act" for all references to "the Resource Conservation and Recovery Act" or "RCRA."

#### **R315-7-16. Use and Management of Containers.**

##### **16.1 APPLICABILITY**

The rules in this section apply to the owners or operators of all hazardous waste management facilities that store containers of hazardous waste, except as provided otherwise in R315-7-8.1.

##### **16.2 CONDITION OF CONTAINERS**

The container holding hazardous waste shall be in good condition and shall not leak. If a container is not in good condition, or if it begins to leak, the owner or operator shall transfer the hazardous waste from the container to a storage container that is in good condition, or manage the waste in another fashion which complies with the requirements of R315-

7.

#### **16.3 COMPATIBILITY OF WASTE WITH CONTAINER**

Owners or operators shall use containers made of or lined with materials which will not react with, and are otherwise compatible with, the waste to be stored, so that the ability of the container to contain the waste is not impaired.

##### **16.4 MANAGEMENT OF CONTAINERS**

(a) A container holding hazardous waste shall always be closed during storage, except when it is necessary to add or remove waste.

(b) A container holding hazardous waste shall not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Reuse of containers is also governed by the U.S. Department of Transportation regulations, including those set forth in 49 CFR 173.28.

##### **16.5 INSPECTIONS**

In addition to the inspections required by R315-7-9.6, the owner or operator shall inspect areas where containers are stored, at least weekly, looking for leaks and for deterioration caused by corrosion or other factors. See R315-7-16.2 for remedial action required if deterioration or leaks are detected.

#### **16.6 SPECIAL REQUIREMENTS FOR IGNITABLE OR REACTIVE WASTE**

Containers holding ignitable or reactive waste shall be located more than 15 meters, 50 feet, from the facility's property line.

See R315-7-9.8 for additional requirements.

#### **16.7 SPECIAL REQUIREMENTS FOR INCOMPATIBLE WASTE**

(a) Incompatible wastes or incompatible wastes and materials, see 40 CFR 265, Appendix V for examples, shall not be placed in the same container, unless R315-79.8(b) is complied with.

(b) Hazardous waste shall not be placed in an unwashed container that previously held an incompatible waste or material, see 40 CFR 265, Appendix V for examples, unless R315-7-9.8(b) is complied with.

(c) A storage container holding a hazardous waste that is incompatible with any waste or other materials stored nearby in other containers, open tanks, piles, or surface impoundments shall be separated from the other materials or protected from them by means of a dike, berm, wall, or other device. The purpose of this is to prevent fires, explosions, gaseous emissions, leaching, or other discharge of hazardous wastes or hazardous constituents which could result from the mixing of incompatible materials.

##### **16.8 AIR EMISSION STANDARDS**

The owner or operator shall manage all hazardous waste placed in a container in accordance with the applicable requirements of R315-7-26, which incorporates by reference 40 CFR subpart AA, R315-7-27, which incorporates by reference 40 CFR subpart BB, and R315-7-30, which incorporates by reference 40 CFR subpart CC.

#### **R315-7-17. Tanks.**

The requirements as found in 40 CFR 265 subpart J, 265.190-265.202, 1996 ed., as amended by 61 FR 59931, November 25, 1996, are adopted and incorporated by reference with the following exceptions:

(a) Substitute "Executive Secretary" for all references to "Regional Administrator" found in 40 CFR 265 subpart J with the exception of 40 CFR 265.193(g) and (h)(5), which will replace "Regional Administrator" with "Board".

(b) Add, following January 12, 1988, in 40 CFR 265.191(a), "or by December 16, 1988, for non-HSWA existing tank systems."

(c) Replace 40 CFR 265.193(a)(2) to (4) with the

following corresponding paragraphs:

(1) For all HSWA existing tank systems used to store or treat EPA Hazardous Waste Nos. F020, F021, F022, F023, F026, and F027, within two years after January 12, 1987, or within two years after December 16, 1988, for non-HSWA existing tank systems;

(2) For those HSWA existing tank systems of known and documented age, within two years after January 12, 1987, or within two years after December 16, 1988, for non-HSWA existing tank systems, or when the tank system has reached 15 years of age, whichever comes later;

(3) For those HSWA existing tank systems for which the age cannot be documented, within eight years of January 12, 1987, or within eight years of December 16, 1988, for non-HSWA existing tank systems; but if the age of the facility is greater than seven years, secondary containment must be provided by the time the facility reaches 15 years of age, or within two years of January 12, 1987, or within two years of December 16, 1988, for non-HSWA existing tank systems, whichever comes later; and

(d) Add, following the last January 12, 1987, in 40 CFR 265.193(a)(5), "or December 16, 1988, for non-HSWA tank systems."

### **R315-7-18. Surface Impoundments.**

#### **18.1 APPLICABILITY**

The rules in this section apply to the owners and operators of facilities that use surface impoundments for the treatment, storage, or disposal of hazardous waste, except as provided otherwise in R315-7-8.1.

#### **18.2 ACTION LEAKAGE RATE**

(a) The owner or operator of surface impoundment units subject to R315-7-18.9(a) must submit a proposed action leakage rate to the Executive Secretary when submitting the notice required under R315-7-18.9(b). Within 60 days of receipt of the notification, the Executive Secretary will: Establish an action leakage rate, either as proposed by the owner or operator or modified using the criteria in this section; or extend the review period for up to 30 days. If no action is taken by the Executive Secretary before the original 60 or extended 90 day review periods, the action leakage rate will be approved as proposed by the owner or operator.

(b) The Executive Secretary shall approve an action leakage rate for surface impoundment units subject to R315-7-18.9(a). The action leakage rate is the maximum design flow rate that the leak detection system, LDS, can remove without the fluid head on the bottom liner exceeding one foot. The action leakage rate shall include an adequate safety margin to allow for uncertainties in the design, e.g., slope, hydraulic conductivity, thickness of drainage material, construction, operation, and location of the LDS, waste and leachate characteristics, likelihood and amounts of other sources of liquids in the LDS, and proposed response actions, e.g., the action leakage rate shall consider decreases in the flow capacity of the system over time resulting from siltation and clogging, rib layover and creep of synthetic components of the system, overburden pressures, etc.

(c) To determine if the action leakage rate has been exceeded, the owner or operator shall convert the weekly or monthly flow rate from the monitoring data obtained under R315-7-18.5(b), to an average daily flow rate, gallons per acre per day, for each sump. Unless the Executive Secretary approves a different calculation, the average daily flow rate for each sump shall be calculated weekly during the active life and closure period, and if the unit closes in accordance with R315-7-18.6, which incorporates by reference 40 CFR 265.228(a)(2), monthly during the post-closure care period when monthly monitoring is required under R315-7-18.5(b).

#### **18.3 CONTAINMENT SYSTEM**

All earthen dikes shall have a protective cover, such as

grass, shale, or rock, to minimize wind and water erosion and to preserve their structural integrity.

#### **18.4 WASTE ANALYSIS AND TRIAL TESTS**

In addition to the waste analyses required by R315-7-9.4, which incorporates by reference 40 CFR 265.13, whenever a surface impoundment is used to:

(1) Chemically treat a hazardous waste which is substantially different from waste previously treated in that impoundment; or

(2) Chemically treat hazardous waste with a substantially different process than any previously used in that impoundment; the owner or operator shall, before treating the different waste or using the different process:

(i) Conduct waste analyses and trial treatment tests, e.g., bench scale or pilot plant scale tests; or

(ii) Obtain written, documented information on similar treatment of similar waste under similar operating conditions; to show that this treatment will comply with R315-7-9.8(b).

The owner or operator shall record the results from each waste analysis and trial test in the operating record of the facility, see R315-7-12.4, which incorporates by reference 40 CFR 265.73.

#### **18.5 MONITORING AND INSPECTIONS**

(a) The owner or operator shall inspect:

(1) The freeboard level at least once each operating day to ensure compliance with R315-7-18.2, and

(2) The surface impoundment, including dikes and vegetation surrounding the dike, at least once a week to detect any leads, deterioration, or failures in the impoundment.

(b)(1) An owner or operator required to have a leak detection system under R315-7-18.9(a) shall record the amount of liquids removed from each leak detection system sump at least once each week during the active life and closure period.

(2) After the final cover is installed, the amount of liquids removed from each leak detection system sump shall be recorded at least monthly. If the liquid level in the sump stays below the pump operating level for two consecutive months, the amount of liquids in the sumps shall be recorded at least quarterly. If the liquid level in the sump stays below the pump operating level for two consecutive quarters, the amount of liquids in the sumps shall be recorded at least semi-annually. If at any time during the post-closure care period the pump operating level is exceeded at units on quarterly or semi-annual recording schedules, the owner or operator shall return to monthly recording of amounts of liquids removed from each sump until the liquid level again stays below the pump operating level for two consecutive months.

(3) "Pump operating level" is a liquid level proposed by the owner or operator and approved by the Executive Secretary based on pump activation level, sump dimensions, and level that avoids backup into the drainage layer and minimizes head in the sump. The timing for submission and approval of the proposed "pump operating level" will be in accordance with R315-7-18.2(a).

The owner or operator shall remedy any deterioration or malfunction he finds.

#### **18.6 CLOSURE AND POST-CLOSURE**

The requirements as found in 40 CFR 265.228, 1992 ed., are adopted and incorporated by reference.

#### **18.7 SPECIAL REQUIREMENTS FOR IGNITABLE OR REACTIVE WASTE**

Ignitable or reactive waste shall not be placed in a surface impoundment, unless the waste and impoundment satisfy all applicable requirements of R315-13, which incorporates by reference 40 CFR 268, and:

(a) The waste is treated, rendered, or mixed before or immediately after placement in the impoundment so that:

(1) The resulting waste, mixture, or dissolution of material no longer meets the definition of ignitable or reactive waste

under R315-2-9(d) and (f); and

(2) R315-7-9.8(b) is complied with; or

(b)(1) The waste is managed in such a way that it is protected from any material or conditions which may cause it to ignite or react; and

(2) Maintain and monitor the leak detection system in accordance with R315-8-11.2(c)(2)(iv) and (3) and R315-7-18.5(b) and comply with all other applicable leak detection system requirements of R315-7;

(3) The owner or operator obtains a certification from a qualified chemist or engineer that, to the best of his knowledge and opinion, the design features or operating plans of the facility will prevent ignition or reaction; and

(4) The certification and the basis for it are maintained at the facility; or

(c) The surface impoundment is used solely for emergencies.

#### 18.8 SPECIAL REQUIREMENTS FOR INCOMPATIBLE WASTES

Incompatible wastes or incompatible wastes and materials, see 40 CFR 265, Appendix V for examples, shall not be placed in the same surface impoundment, unless they will not generate heat, fumes, fires, or explosive reactions that could damage the structural integrity of the impoundment, or otherwise threaten human health or the environment.

#### 18.9 DESIGN REQUIREMENTS

(a) The owner or operator of each new surface impoundment unit on which construction commences after January 29, 1992, each lateral expansion of a surface impoundment unit on which construction commences after July 29, 1992, and each replacement of an existing surface impoundment unit that is to commence reuse after July 29, 1992 must install two or more liners and a leachate collection and removal system between such liners, and operate the leachate collection and removal system, in accordance with R315-7-18.9(c), unless exempted under R315-7-18.9(d), (e), or (f). "Construction commences" is as defined in R315-1-1(b), which incorporates by reference 40 CFR 260.10, under "existing facility."

(b) The owner or operator of each unit referred to in paragraph (a) of this section shall notify the Board at least 60 days prior to receiving waste. The owner or operator of each facility submitting notice must file a part B application within six months of the receipt of the notice.

(c) The owner or operator of any replacement surface impoundment unit is exempt from R315-7-18.9(a) if:

(1) The existing unit was constructed in compliance with the design standards of Section 3004(o)(1)(A)(i) and (o)(5) of the Resource Conservation and Recovery Act; and

(2) There is no reason to believe that the liner is not functioning as designed.

(d) The double liner requirement set forth in R315-7-18.9(a) may be waived by the Board for any monofill, if:

(1) The monofill contains only hazardous wastes from foundry furnace emission controls or metal casting molding sand, and these wastes do not contain constituents which would render the wastes hazardous for reasons other than the Toxicity Characteristic in R315-2-9(g) with EPA Hazardous Waste Numbers D004 through D017; and

(2)(i)(A) The monofill has at least one liner for which there is no evidence that the liner is leaking. For the purposes of this paragraph the term "liner" means a liner designed, constructed, installed, and operated to prevent hazardous waste from passing into the liner at any time during the active life of the facility, or a liner designed, constructed, installed, and operated to prevent hazardous waste from migrating beyond the liner to adjacent subsurface soil, groundwater, or surface water at any time during the active life of the facility. In the case of any surface impoundment which has been exempted from the

requirements of R315-7-18.9(a) on the basis of a liner designed, constructed, installed, and operated to prevent hazardous waste from passing beyond the liner, at the closure of the impoundment the owner or operator must remove or decontaminate all waste residues, all contaminated liner material, and contaminated soil to the extent practicable given the specific site conditions and the nature and extent of contamination. If all contaminated soil is not removed or decontaminated, the owner or operator of the impoundment must comply with appropriate post-closure requirements, including but not limited to groundwater monitoring and corrective action.

(B) The monofill is located more than one-quarter mile from an underground source of drinking water, as that term is defined in 40 CFR; 144.3; and

(C) The monofill is in compliance with applicable groundwater monitoring requirements for facilities with permits; or

(ii) The owner or operator demonstrates that the monofill is located, designed and operated so as to assure that there will be no migration of any hazardous constituent into groundwater or surface water at any future time.

(e) In the case of any unit in which the liner and leachate collection system has been installed pursuant to the requirements of R315-7-18.9(a) and in good faith compliance with R315-7-18.9(a) and with guidance documents governing liners and leachate collection systems under R315-7-18.9(a), no liner or leachate collection system which is different from that which was so installed pursuant to R315-7-18.9(a) will be required for the unit by the Board when issuing the first permit to the facility, except that the Board will not be precluded from requiring installation of a new liner when the Board has reason to believe that any liner installed pursuant to the requirements of R315-7-18.9(a) is leaking.

(f) A surface impoundment shall maintain enough freeboard to prevent overtopping of the dike by overflowing, wave action, or a storm. Except as provided in R315-7-18.2(b), there shall be at least 60 centimeters, two feet, of freeboard.

(g) A freeboard level less than 60 centimeters, two feet, shall be maintained if the owner or operator obtains certification by a qualified engineer that alternate design features or operating plans will, to the best of his knowledge and opinion, prevent overtopping of the dike. The certification, along with written identification of alternate design features or operating plans preventing overtopping, shall be maintained at the facility.

(h) Surface impoundments that are newly subject to R315-7-18.2 due to the promulgation of additional listings or characteristics for the identification of hazardous waste must be in compliance with R315-7-18.9(a), (c) and (d) not later than 48 months after the promulgation of the additional listing or characteristic. This compliance period shall not be cut short as the result of the promulgation of land disposal prohibitions under R315-13, which incorporates by Reference 40 CFR 268, or the granting of an extension to the effective date of a prohibition pursuant to 40 CFR 268.5, within this 48-month period.

#### 18.10 RESPONSE ACTIONS

(a) The owner or operator of surface impoundment units subject to R315-7-18.9(a) shall submit a response action plan to the Executive Secretary when submitting the proposed action leakage rate under R315-7-18.2. The response action plan shall set forth the actions to be taken if the action leakage rate has been exceeded. At a minimum, the response action plan must describe the actions specified in R315-7-18.10(b).

(b) If the flow rate into the leak detection system exceeds the action leakage rate for any sump, the owner or operator shall:

(1) Notify the Executive Secretary in writing of the exceedence within seven days of the determination;

(2) Submit a preliminary written assessment to the Executive Secretary within 14 days of the determination, as to the amount of liquids, likely sources of liquids, possible location, size, and cause of any leaks, and short-term actions taken and planned;

(3) Determine to the extent practicable the location, size, and cause of any leak;

(4) Determine whether waste receipt should cease or be curtailed, whether any waste should be removed from the unit for inspection, repairs, or controls, and whether or not the unit should be closed;

(5) Determine any other short-term and longer-term actions to be taken to mitigate or stop any leaks; and

(6) Within 30 days after the notification that the action leakage rate has been exceeded, submit to the Executive Secretary the results of the analyses specified in R315-7-18.10(b)(3)-(5), the results of actions taken, and actions planned. Monthly thereafter, as long as the flow rate in the leak detection system exceeds the action leakage rate, the owner or operator must submit to the Executive Secretary a report summarizing the results of any remedial actions taken and actions planned.

(c) To make the leak and/or remediation determinations in R315-7-18.10(b)(3)-(5), the owner or operator shall:

(1)(i) Assess the source of liquids and amounts of liquids by source,

(ii) Conduct a fingerprint, hazardous constituent, or other analyses of the liquids in the leak detection system to identify the source of liquids and possible location of any leaks, and the hazard and mobility of the liquid; and

(iii) Assess the seriousness of any leaks in terms of potential for escaping into the environment; or

(2) Document why such assessments are not needed.

#### 18.11 AIR EMISSION STANDARDS

The owner or operator shall manage all hazardous waste placed in a surface impoundment in accordance with the applicable requirements of R315-7-27, which incorporates by reference 40 CFR subpart BB, and R315-7-30, which incorporates by reference 40 CFR subpart CC.

### R315-7-19. Waste Piles.

#### 19.1 APPLICABILITY

The rules in this section apply to the owners and operators of facilities that treat or store hazardous waste in piles, except as provided otherwise in R315-7-8.1. Alternatively, a pile of hazardous waste may be managed as a landfill under R315-7-21.

#### 19.2 PROTECTION FROM WIND

The owners or operators of a pile containing hazardous waste which could be subject to dispersal by wind shall cover or otherwise manage the pile so that the wind dispersal is controlled.

#### 19.3 WASTE ANALYSIS

In addition to the waste analyses required by R315-7-9.4, owners or operators shall analyze a representative sample from each incoming shipment of waste before adding the waste to any existing pile, unless the only wastes the facility receives which are amenable to piling are compatible with each other, or the waste received is compatible with the waste in the pile to which it is to be added. The analysis conducted shall be capable of differentiating between the types of hazardous waste which are placed in piles, so that mixing of incompatible waste does not inadvertently occur. The analysis shall include a visual comparison of color and texture. The results of these analyses shall be placed in the operating record.

#### 19.4 CONTAINMENT

If leachate or run-off from a pile is a hazardous waste, then either:

(a)(1) The pile shall be placed on an impermeable base that is compatible with the waste under the conditions of treatment

or storage;

(2) The owner or operator shall design, construct, operate, and maintain a run-on control system capable of preventing flow onto the active portion of the pile during peak discharge from at least a 25-year storm;

(3) The owner or operator shall design, construct, operate, and maintain a run-off management system to collect and control at least the water volume resulting from a 24-hour, 25-year storm; and

(4) Collection and holding facilities, e.g., tanks or basins, associated with run-on and run-off control systems shall be emptied or otherwise managed expeditiously to maintain design capacity of the system; or

(b)(1) The pile shall be protected from precipitation and run-on by some other means; and

(2) No liquids or wastes containing free liquids may be placed in the pile.

### 19.5 SPECIAL REQUIREMENTS FOR IGNITABLE WASTE

Ignitable waste shall not be placed in a pile unless the waste and waste pile satisfy all applicable requirements of R315-13, which incorporates by reference 40 CFR 268, and:

(a) Addition of the waste to an existing pile results in the waste or mixture no longer meeting the definition of ignitable waste under R315-2-9(d), and complies with R315-7-9.8; or

(b) The waste is managed in such a way that it is protected from any material or conditions which may cause it to react.

#### 19.6 REQUIREMENTS FOR REACTIVE WASTE

Reactive waste shall not be placed in a pile unless the waste and pile satisfy all applicable requirements of R315-13, which incorporates by reference 40 CFR 268, and:

(a) Addition of the waste to an existing pile results in the waste or mixture no longer meeting the definition of reactive waste under R315-2-9(f) and complies with R315-7-9.8; or

(b) The waste is managed in such a way that it is protected from any material or condition which may cause it to react.

### 19.7 SPECIAL REQUIREMENTS FOR INCOMPATIBLE WASTE

(a) Incompatible waste, or incompatible wastes and materials, see 40 CFR 265, Appendix V for examples, shall not be placed in the same pile unless, R315-7-9.8(b) is complied with.

(b) A pile of hazardous waste that is incompatible with any waste or other material stored nearby in other containers, piles, open tanks, or surface impoundments shall be separated from the other materials, or protected from them by means of a dike, berm, wall, or other device. The purpose of this is to prevent gaseous emissions, fires, explosions, leaching or other discharge of hazardous waste or hazardous waste constituents which could result from the contact or mixing of incompatible wastes or materials.

(c) Hazardous waste shall not be piled on the same area where incompatible wastes or materials were previously piled, unless that area has been decontaminated sufficiently to ensure compliance with R315-7-9.8(b).

#### 19.8 CLOSURE AND POST-CLOSURE CARE

(a) At closure, the owner or operator shall remove or decontaminate all waste residues, contaminated containment system components, liners, etc., contaminated subsoils, and structures and equipment contaminated with waste and leachate, and manage them as hazardous waste unless R315-2-3(d) applies; or

(b) If, after removing or decontaminating all residues and making all reasonable efforts to effect removal or decontamination of contaminated components, subsoils, structures, and equipment as required in R315-7-19.8(a), the owner or operator finds that not all contaminated subsoils can be practicably removed or decontaminated, he shall close the facility and perform post-closure care in accordance with the

closure and post-closure requirements that apply to landfills, R315-7-21.4.

#### 19.9 DESIGN AND OPERATING REQUIREMENTS

The owner or operator of each new waste pile on which construction commences after January 29, 1992, each lateral expansion of a waste pile unit on which construction commences after July 29, 1992, and each such replacement of an existing waste pile unit that is to commence reuse after July 29, 1992 shall install two or more liners and a leachate collection and removal system above and between such liners, and operate the leachate collection and removal systems, in accordance with R315-8-12.2(c), unless exempted under R315-8-12.2(d), (e), or (f); and must comply with the procedures of R315-7-18.9(b). "Construction commences" is as defined in R315-1-1(b), which incorporates by reference 40 CFR 260.10, under "existing facility".

#### 19.10 ACTION LEAKAGE RATES

(a) The owner or operator of waste pile units subject to R315-7-19.9 shall submit a proposed action leakage rate to the Executive Secretary when submitting the notice required under R315-7-19.9. Within 60 days of receipt of the notification, the Executive Secretary will: Establish an action leakage rate, either as proposed by the owner or operator or modified using the criteria in this section; or extend the review period for up to 30 days. If no action is taken by the Executive Secretary before the original 60 or extended 90 day review periods, the action leakage rate will be approved as proposed by the owner or operator.

(b) The Executive Secretary shall approve an action leakage rate for surface impoundment units subject to R315-7-19.9. The action leakage rate is the maximum design flow rate that the leak detection system, LDS, can remove without the fluid head on the bottom liner exceeding one foot. The action leakage rate shall include an adequate safety margin to allow for uncertainties in the design, e.g., slope, hydraulic conductivity, thickness of drainage material, construction, operation, and location of the LDS, waste and leachate characteristics, likelihood and amounts of other sources of liquids in the LDS, and proposed response actions, e.g., the action leakage rate shall consider decreases in the flow capacity of the system over time resulting from siltation and clogging, rib layover and creep of synthetic components of the system, overburden pressures, etc.

(c) To determine if the action leakage rate has been exceeded, the owner or operator shall convert the weekly flow rate from the monitoring data obtained under R315-7-19.12, to an average daily flow rate, gallons per acre per day, for each sump. Unless the Executive Secretary approves a different calculation, the average daily flow rate for each sump shall be calculated weekly during the active life and closure period.

#### 19.11 RESPONSE ACTIONS

(a) The owner or operator of waste pile units subject to R315-7-19.9 shall submit a response action plan to the Executive Secretary when submitting the proposed action leakage rate under R315-7-19.10. The response action plan shall set forth the actions to be taken if the action leakage rate has been exceeded. At a minimum, the response action plan shall describe the actions specified in R315-7-19.11(b).

(b) If the flow rate into the leak determination system exceeds the action leakage rate for any sump, the owner or operator shall:

(1) Notify the Executive Secretary in writing of the exceedence within seven days of the determination;

(2) Submit a preliminary written assessment to the Executive Secretary within 14 days of the determination, as to the amount of liquids, likely sources of liquids, possible location, size, and cause of any leaks, and short-term actions taken and planned;

(3) Determine to the extent practicable the location, size, and cause of any leak;

(4) Determine whether waste receipts should cease or be curtailed, whether any waste should be removed from the unit for inspection, repairs, or controls, and whether or not the unit should be closed;

(5) Determine any other short-term and longer-term actions to be taken to mitigate or stop any leaks; and

(6) Within 30 days after the notification that the action leakage rate has been exceeded, submit to the Executive Secretary the results of the analyses specified in R315-7-19.11(b)(3)-(5), the results of actions taken, and actions planned. Monthly thereafter, as long as the flow rate in the leak detection system exceeds the action leakage rate, the owner or operator shall submit to the Executive Secretary a report summarizing the results of any remedial actions taken and actions planned.

(c) To make the leak and/or remediation determinations in R315-7-19.11(b)(3)-(5), the owner or operator shall:

(1)(i) Assess the source of liquids and amounts of liquids by source,

(ii) Conduct a fingerprint, hazardous constituent, or other analyses of the liquids in the leak detection system to identify the source of liquids and possible location of any leaks, and the hazard and mobility of the liquid; and

(iii) Assess the seriousness of any leaks in terms of potential for escaping into the environment; or

(2) Document why such assessments are not needed.

#### 19.12 MONITORING AND INSPECTION

An owner or operator required to have a leak detection system under R315-7-19.9 shall record the amount of liquids removed from each leak detection system sump at least once each week during the active life and closure period.

### R315-7-20. Land Treatment.

#### 20.1 APPLICABILITY

The rules in this section apply to owners and operators of hazardous waste land treatment facilities, except as provided otherwise in R315-7-8.1.

#### 20.2 GENERAL OPERATING REQUIREMENTS

(a) Hazardous waste shall not be placed in or on a land treatment facility unless the waste can be made less hazardous or non-hazardous by degradation, transformation, or immobilization processes occurring in or on the soil.

(b) The owner or operator shall design, construct, operate, and maintain a run-on control system capable of preventing flow onto the active portions of the facility during peak discharge from at least a 25-year storm.

(c) The owner or operator shall design, construct, operate, and maintain a run-off management system capable of collecting and controlling a water volume at least equivalent to a 24-hour, 25-year storm.

(d) Collection and holding facilities, e.g., tanks or basins, associated with run-on and run-off control systems shall be emptied or otherwise managed expeditiously after storms to maintain design capacity of the system.

(e) If the treatment zone contains particulate matter which may be subject to wind dispersal, the owner or operator shall manage the unit to control wind dispersal.

#### 20.3 WASTE ANALYSIS

In addition to the waste analyses required by R315-7-9.4, before placing a hazardous waste in or on a land treatment facility, the owner or operator shall:

(a) Determine the concentration in the waste of any substances which equal or exceed the maximum concentrations contained in Table 1 of 40 CFR 261.24, that cause a waste to exhibit the Toxicity Characteristic;

(b) For any waste listed in R315-2, determine the concentration of any substances which caused the waste to be listed as a hazardous waste; and

(c) If food chain crops are grown, determine the

concentrations in the waste of each of the following constituents: arsenic, cadmium, lead, and mercury, unless the owner or operator has written documented data that show that the constituent is not present;

R315-50-9, which incorporates by reference 40 CFR 261, Appendix VII, specifies the substances for which a waste is listed as a hazardous waste. As required by R315-7-9.4, the waste analysis plan shall include analyses needed to comply with R315-7-20.8 and R315-7-20.9. As required by R315-7-12.4, the owner or operator shall place the results from each waste analysis, or the documented information, in the operating record of the facility.

20.4 FOOD CHAIN CROPS

(a) An owner or operator of a hazardous waste land treatment facility on which food chain crops are being grown, or have been grown and will be grown in the future, shall notify the Board. The growth of food chain crops at a facility which has never before been used for this purpose is a significant change in process under R315-3. Owners or operators of these land treatment facilities who propose to grow food chain crops shall comply with R315-3.

(b)(1) Food chain crops shall not be grown on the treated area of a hazardous waste land treatment facility unless the owner or operator can demonstrate, based on field testing, that any arsenic, lead, mercury, or other constituents identified under R315-7-20.3(b):

(i) Will not be transferred to the food portion of the crop by plant uptake or direct contact, and will not otherwise be ingested by food chain animals, e.g., by grazing; or

(ii) Will not occur in greater concentrations in the crops grown on the land treatment facility than in the same crops grown on untreated soils under similar conditions in the same region.

(2) The information necessary to make the demonstration required by R315-7-20.4(b)(1) shall be kept at the facility and shall, at a minimum:

(i) Be based on tests for the specific waste and application rates being used at the facility; and

(ii) Include descriptions of crop and soil characteristics, sample selection criteria, sample size determination, analytical methods and statistical procedures.

(c) Food chain crops shall not be grown on a land treatment facility receiving waste that contains cadmium unless all requirements of R315-7-20.4(c)(1)(i) through (iii) or all requirements of R315-7-20.4(c)(2)(i) through (iv) are met.

(1)(i) The pH of the waste and soil mixture is 6.5 or greater at the time of each waste application, except for waste containing cadmium at concentration of 2. mg/kg, dry weight, or less.

(ii) The annual application of cadmium from waste does not exceed 0.5 kilograms per hectare (kg/ha) on land use for production of tobacco, leafy vegetables, or root crops grown for human consumption. For other food chain crops, the annual cadmium application rate does not exceed:

TABLE

Time Period	Annual Cd Application Rate (kg/ha)
Present to June 30, 1984	2.0
July 1, 1984 to December 31, 1986	1.25
Beginning January 1, 1987	0.5

(iii) The cumulative application of cadmium from waste does not exceed the levels in either paragraph (A) or (B) below:

(A)

TABLE

MAXIMUM CUMULATIVE

Soil cation exchange capacity (meq/100g)	APPLICATION (kg/ha)	
	Background soil pH less than 6.5	Background soil pH greater than 6.5
Less than 5	5	5
5-15	5	10
Greater than 15	5	20

(B) For soils with a background pH of less than 6.5, the cumulative cadmium application rate does not exceed the levels below: Provided, that the pH of the waste and soil mixture is adjusted to and maintained at 6.5 or greater whenever food chain crops are grown.

TABLE

Soil cation exchange capacity (meq/100g)	Maximum cumulative application (kg/ha)
Less than 5	5
5 to 15	10
Greater than 15	20

(2)(i) The only food chain crop produced is animal feed.

(ii) The pH of the waste and soil mixture is 6.5 or greater at the time of waste application or at the time the crop is planted, whichever occurs later, and this pH level is maintained whenever food chain crops are grown.

(iii) There is a facility operating plan which demonstrates how the animal feed will be distributed to preclude ingestion by humans. The facility operating plan describes the measure to be taken to safeguard against possible health hazards from cadmium entering the food chain, which may result from alternative land uses.

(iv) Future property owners are notified by a stipulation in the land record or property deed which states that the property has received waste at high cadmium application rates and that food chain crops shall not be grown, except in compliance with R315-7-20.7(c)(2).

As required by R315-7-12.4, which incorporates by reference 40 CFR 265.73, if an owner or operator grows food chain crops on his land treatment facility, he shall place the information developed in this section in the operating record of the facility.

20.5 UNSATURATED ZONE, ZONE OF AERATION, MONITORING

(a) The owner or operator shall have in writing, and shall implement, an unsaturated zone monitoring plan which is designed to:

(1) Detect the vertical migration of hazardous waste and hazardous waste constituents under the active portion of the land treatment facility; and

(2) Provide information on the background concentrations of the hazardous waste and hazardous waste constituents in similar but untreated soils nearby; this background monitoring shall be conducted before or in conjunction with the monitoring required under R315-7-20.5(a)(1).

(b) The unsaturated zone monitoring plan shall include, at a minimum:

(1) Soil monitoring using soil cores; and

(2) Soil-pore water monitoring using devices such as lysimeters.

(c) To comply with R315-7-20.5(a)(1), the owner or operator shall demonstrate in his unsaturated zone monitoring plan that:

(1) The depth at which soil and soil-pore water samples are to be taken is below the depth to which the waste is incorporated into the soil;

(2) The number of soil and soil-pore water samples to be taken is based on the variability of:

(i) The hazardous waste constituents, as identified in R315-7-20.3(a) and (b), in the waste and in the soil; and

(ii) The soil type(s); and

(3) The frequency and timing of soil and soil-pore water sampling is based on the frequency, time, and rate of waste application, proximity to groundwater, and soil permeability.

(d) The owner or operator shall keep at the facility his unsaturated zone monitoring plan, and the rationale used in developing this plan.

(e) The owner or operator shall analyze the soil and soil-pore water samples for the hazardous waste constituents that were found in the waste during the waste analysis under R315-7-20.3(a) and (b).

All data and information developed by the owner or operator under this section shall be placed in the operating record of the facility.

#### 20.6 RECORDKEEPING

The owner or operator of a land treatment facility shall keep records of the application dates, application rates, quantities, and location of each hazardous waste placed in the facility, in the operating record required in R315-7-12.4, which incorporates by reference 40 CFR 265.73.

#### 20.7 CLOSURE AND POST-CLOSURE CARE

(a) In the closure and post-closure plan under R315-7-14, which incorporates by reference 40 CFR 265.110 - 265.120, the owner or operator shall address the following objectives and indicate how they will be achieved:

(1) Control of the migration of hazardous waste and hazardous waste constituents from the treated area into the groundwater;

(2) Control of the release of contaminated run-off from the facility into surface water;

(3) Control of the release of airborne particulate contaminants caused by wind erosion; and

(4) Compliance with R315-7-20.4 concerning the growth of food-chain crops.

(b) The owner or operator shall consider at least the following factors in addressing the closure and post-closure care objectives of R315-7-20.7(a):

(1) Type and amount of hazardous waste and hazardous waste constituents applied to the land treatment facility;

(2) The mobility and the expected rate of migration of the hazardous waste and hazardous waste constituents;

(3) Site location, topography, and surrounding land use, with respect to the potential effects of pollutant migration, e.g., proximity to groundwater, surface water and drinking water sources;

(4) Climate, including amount, frequency, and pH of precipitation;

(5) Geological and soil profiles and surface and subsurface hydrology of the site, and soil characteristics, including cation exchange capacity, total organic carbon, and pH;

(6) Unsaturated zone monitoring information obtained under R315-7-20.5; and

(7) Type, concentration, and depth of migration of hazardous waste constituents in the soil as compared to their background concentrations.

(c) The owner or operator shall consider at least the following methods in addressing the closure and post-closure care objectives of R315-7-20.7(a):

(1) Removal of contaminated soils;

(2) Placement of a final cover, considering:

(i) Functions of the cover, e.g., infiltration control, erosion and run-off control and wind erosion control; and

(ii) Characteristics of the cover, including material, final surface contours, thickness, porosity and permeability, slope, length of run of slope, and type of vegetation on the cover; and

(3) Monitoring of groundwater.

(d) In addition to the requirements of R315-7-14 which

incorporates by reference 40 CFR 265.110 - 265.120, during the closure period the owner or operator of a land treatment facility shall:

(1) Continue unsaturated zone monitoring in a manner and frequency specified in the closure plan, except that soil pore liquid monitoring may be terminated 90 days after the last application of waste to the treatment zone;

(2) Maintain the run-on control system required under R315-7-20.2(b);

(3) Maintain the run-off management system required under R315-7-20.2(c); and

(4) Control wind dispersal of particulate matter which may be subject to wind dispersal.

(e) For the purpose of complying with R315-7-14, which incorporates by reference 40 CFR 265.110 - 265.120, when closure is completed the owner or operator may submit to the Board, certification both by the owner or operator and by an independent qualified soil scientist, in lieu of an independent registered professional engineer, that the facility has been closed in accordance with the specification in the approved closure plan.

(f) In addition to the requirement of R315-7-14, which incorporates by reference 40 CFR 265.110 - 265.120, during the post-closure care period the owner or operator of a land treatment unit shall:

(1) Continue soil-core monitoring by collecting and analyzing samples in a manner and frequency specified in the post-closure plan;

(2) Restrict access to the unit as appropriate for its post-closure use;

(3) Ensure that growth of food chain crops complies with R315-7-20.4; and

(4) Control wind dispersal of hazardous waste.

#### 20.8 SPECIAL REQUIREMENTS FOR IGNITABLE OR REACTIVE WASTE

The owner or operator shall not apply ignitable or reactive waste to the treatment zone unless the waste and treatment zone meet all applicable requirements of R315-13, which incorporates by reference 40 CFR 268, and:

(a) The waste is immediately incorporated into the soil so that:

(1) The resulting waste, mixture, or dissolution of material no longer meets the definition of ignitable or reactive waste under R315-2-9(d) and (f) and

(2) R315-7-9.8(b) is complied with; or

(b) That waste is managed in such a way that it is protected from any material or conditions which may cause it to ignite or react.

#### 20.9 SPECIAL REQUIREMENTS FOR INCOMPATIBLE WASTES

Incompatible wastes, or incompatible wastes and materials, see 40 CFR 265, Appendix V for examples, shall not be placed in the same land treatment area, unless R315-7-9.8(b) is complied with.

#### R315-7-21. Landfills.

##### 21.1 APPLICABILITY

The rules in this section apply to owners and operators of facilities that dispose of hazardous waste in landfills, except as R315-7-8.1 provides otherwise. A waste pile used as a disposal facility is a landfill and is governed by this section.

##### 21.2 DESIGN AND OPERATING REQUIREMENTS

(a) The owner or operator of each new landfill unit on which construction commences after January 29, 1992, each lateral expansion of a landfill unit on which construction commences after July 29, 1992, and each replacement of an existing landfill unit that is to commence reuse after July 29, 1992 must install two or more liners and a leachate collection and removal system above and between such liners, and operate

the leachate collection and removal systems, in accordance with R315-8-14.2(d), (e), or (f). "Construction commences" is as defined in R315-1-1(b), which incorporates by reference 40 CFR 260.10, under "existing facility".

(b) The owner or operator of each unit referred to in R315-7-21.2(a) shall notify the Executive Secretary at least 60 days prior to receiving waste. The owner or operator of each facility submitting notice shall file a part B application within six months of the receipt of the notice.

(c) The owner or operator of any replacement landfill unit is exempt from R315-7-21.2(a) if:

(1) The existing unit was constructed in compliance with the design standards of section 3004(o)(1)(A)(i) and (o)(5) of the Resource Conservation and Recovery Act; and

(2) There is no reason to believe that the liner is not functioning as designed.

(d) The double liner requirement set forth in R315-7-21.2(a) may be waived by the Board for any monofill, if:

(1) The monofill contains only hazardous wastes from foundry furnace emission controls or metal casting molding sand, and the waste does not contain constituents which would render the wastes hazardous for reasons other than the Toxicity Characteristic in R315-2-9(g), with EPA Hazardous Waste Number D004 through D017; and

(2)(i)(A) The monofill has at least one liner for which there is no evidence that the liner is leaking;

(B) The monofill is located more than one-quarter mile from an underground source of drinking water, as that term is defined in 40 CFR 144.3; and

(C) The monofill is in compliance with applicable groundwater monitoring requirements for facilities with permits; or

(ii) The owner or operator demonstrates that the monofill is located, designed and operated so as to assure that there will be no migration of any hazardous constituents into groundwater or surface water at any future time.

(e) In the case of any unit in which the liner and leachate collection system has been installed pursuant to the requirements of R315-7-21.2(a) and in good faith compliance with R315-7-21.2(a) and with guidance documents governing liners and leachate collection systems under R315-7-21.2(a), no liner or leachate collection system which is different from that which was so installed pursuant to R315-7-21.2(a) will be required for the unit by the Board when issuing the first permit to the facility, except that the Board will not be precluded from requiring installation of a new liner when the Board has reason to believe that any liner installed pursuant to the requirements of R315-7-21.10(a) is leaking.

(f) The owner or operator shall design, construct, operate, and maintain a run-on control system capable of preventing flow onto the active portion of the landfill during peak discharge from at least a 25-year storm.

(g) The owner or operator shall design, construct, operate and maintain a run-off management system to collect and control at least the water volume resulting from a 24-hour, 25-year storm.

(h) Collection and holding facilities, e.g., tanks or basins, associated with run-on and run-off control systems shall be emptied or otherwise managed expeditiously after storms to maintain design capacity of the system.

(i) The owner or operator of a landfill containing hazardous waste which is subject to dispersal by wind shall cover or otherwise manage the landfill so that wind dispersal of the hazardous waste is controlled.

As required by R315-7-9.4, which incorporates by reference 40 CFR 265.13, the waste analysis plan shall include analysis needed to comply with R315-7-21.5 and R315-7-21.6. As required by R315-7-12.4, which incorporates by reference 40 CFR 265.73, the owner or operator shall place the results of

these analyses in the operating record.

### 21.3 SURVEYING AND RECORDKEEPING

The owner or operator of a landfill shall maintain the following items in the operating record required in R315-7-12.4, which incorporates by reference 40 CFR 265.73:

(a) On a map, the exact location and dimension, including depth, of each cell with respect to permanently surveyed benchmarks; and

(b) The contents of each cell and the approximate location of each hazardous waste type within each cell.

### 21.4 CLOSURE AND POST-CLOSURE CARE

(a) At final closure of the landfill or upon closure of any cell, the owner or operator shall cover the landfill or cell with a final cover designed and constructed to:

(1) Provide long-term minimization of migration of liquids through the closed landfill;

(2) Function with minimum maintenance;

(3) Promote drainage and minimize erosion or abrasion of the cover;

(4) Accommodate settling and subsidence so that the cover's integrity is maintained; and

(5) Have a permeability less than or equal to the permeability of any bottom liner system or natural subsoils present.

(b) After final closure, the owner or operator shall comply with all post-closure requirements contained in R315-7-14, which incorporates by reference 40 CFR 265.110 - 265.120, including maintenance and monitoring throughout the post-closure care period. The owner or operator shall:

(1) Maintain the integrity and effectiveness of the final cover, including making repairs to the cover as necessary to correct the effects of settling, subsidence, erosion, or other events.

(2) Maintain and monitor the leak detection system in accordance with R315-8-14.2(c)(3)(iv) and (4) and R315-7-21.12(b), and comply with all other applicable leak detection system requirements of R315-7;

(3) Maintain and monitor the groundwater monitoring system and comply with all other applicable requirements of R315-7-13;

(4) Prevent run-on and run-off from eroding or otherwise damaging the final cover; and

(5) Protect and maintain surveyed benchmarks used in complying with R315-7-21.3.

### 21.5 SPECIAL REQUIREMENTS FOR IGNITABLE OR REACTIVE WASTE

(a) Except as provided in R315-7-21.5(b) and in 7.21.9, ignitable or reactive waste shall not be placed in a landfill, unless the waste and landfill meet all applicable requirements of R315-13, which incorporates by reference 40 CFR 268, and:

(1) The resulting waste, mixture, or dissolution of material no longer meets the definition of ignitable or reactive waste under R315-2-9(d) and (f).

(2) Section R315-7-9.8 is complied with.

(b) Except for prohibited wastes which remain subject to treatment standards in R315-13, which incorporates by reference 40 CFR 268 subpart D, ignitable wastes in containers may be landfilled without meeting the requirements of R315-7-21.5(a), provided that the wastes are disposed of in a way that they are protected from any material or conditions which may cause them to ignite. At a minimum, ignitable wastes shall be disposed of in non-leaking containers which are carefully handled and placed so as to avoid heat, sparks, rupture, or any other condition that might cause ignition of the wastes; shall be covered daily with soil or other non-combustible material to minimize the potential for ignition of the wastes; and shall not be disposed of in cells that contain or will contain other wastes which may generate heat sufficient to cause ignition of the waste.

#### 21.6 SPECIAL REQUIREMENTS FOR INCOMPATIBLE WASTES

Incompatible wastes, or incompatible wastes and materials, see 40 CFR 265, Appendix V for examples, shall not be placed in the same landfill cell, unless R315-7-9.8(b) is complied with.

#### 21.7 SPECIAL REQUIREMENTS FOR BULK AND CONTAINERIZED LIQUIDS

(a) Bulk or non-containerized liquid waste or waste containing free liquids may be placed in a landfill prior to May 8, 1985, only if:

(1) The landfill has a liner and leachate collection and removal system that meets the requirements of R315-8-14.2(a); or

(2) Before disposal, the liquid waste or waste containing free liquids is treated or stabilized chemically or physically, e.g., by mixing with a sorbent solid, so that free liquids are no longer present.

(b) Effective May 8, 1985, the placement of bulk or non-containerized liquid hazardous waste or hazardous waste containing free liquids, whether or not sorbents have been added, in any landfill is prohibited.

(c) Containers holding free liquids must not be placed in a landfill unless:

(1) All free-standing liquid

(i) has been removed by decanting, or other methods,

(ii) has been mixed with sorbent or solidified so that free-standing liquid is no longer observed; or

(iii) had been otherwise eliminated; or

(2) The container is very small, such as an ampule; or

(3) The container is designed to hold free liquids for use other than storage, such as a battery or capacitor; or

(4) The container is a lab pack as defined in R315-7-21.8 and is disposed of in accordance with R315-7-21.9.

(d) To demonstrate the absence or presence of free liquids in either a containerized or a bulk waste, the following test must be used: Method 9095, Paint Filter Liquids Test as described in "Test Methods for Evaluating Solid Wastes, Physical/Chemical Methods." EPA Publication No. SW-846, as incorporated by reference in 40 CFR 260.11, see R315-1-2.

(e) The date of compliance with R315-7-21.7(a) is November 19, 1981. The date for compliance with R315-7-21.7(c) is March 22, 1982.

(f) Sorbents used to treat free liquids to be disposed of in landfills must be nonbiodegradable. Nonbiodegradable sorbents are: materials listed or described in R315-7-21.7(f)(1); materials that pass one of the tests in R315-7-21.7(f)(2); or materials that are determined by EPA to be nonbiodegradable through the R315-2-16, which incorporates by reference 40 CFR 260.22, petition process.

(1) Nonbiodegradable sorbents.

(i) Inorganic minerals, other inorganic materials, and elemental carbon, e.g., aluminosilicates, clays, smectites, Fuller's earth, bentonite, calcium bentonite, montmorillonite, calcined montmorillonite, kaolinite, micas (illite), vermiculites, zeolites; calcium carbonate (organic free limestone); oxides/hydroxides, alumina, lime, silica (sand), diatomaceous earth; perlite (volcanic glass); expanded volcanic rock; volcanic ash; cement kiln dust; fly ash; rice hull ash; activated charcoal/activated carbon; or

(ii) High molecular weight synthetic polymers, e.g., polyethylene, high density polyethylene (HDPE), polypropylene, polystyrene, polyurethane, polyacrylate, polynorborene, polyisobutylene, polyisobutylene, ground synthetic rubber, cross-linked allylstyrene and tertiary butyl copolymers. This does not include polymers derived from biological material or polymers specifically designed to be degradable; or

(iii) Mixtures of these nonbiodegradable materials.

(2) Tests for nonbiodegradable sorbents.

(i) The sorbent material is determined to be nonbiodegradable under ASTM Method G21-70 (1984a)-Standard Practice for Determining Resistance of Synthetic Polymer Materials to Fungi; or

(ii) The sorbent material is determined to be nonbiodegradable under ASTM Method G22-76 (1984b)-Standard Practice for Determining Resistance of Plastics to Bacteria.

(iii) The sorbent material is determined to be non-biodegradable under OECD test 301B, CO<sub>2</sub> Evolution, Modified Sturm Test.

(g) Effective November 8, 1985, the placement of any liquid which is not a hazardous waste in a landfill is prohibited unless the owner or operator of the landfill demonstrates to the Board, or the Board determines that;

(1) The only reasonably available alternative to the placement in the landfill is placement in a landfill or unlined surface impoundment, whether or not permitted or operating under interim status, which contains, or may reasonably be anticipated to contain hazardous waste; and

(2) Placement in such owner or operator's landfill will not present a risk of contamination of any underground source of drinking water, as that term is defined in 40 CFR 144.3.

#### 21.8 SPECIAL REQUIREMENTS FOR CONTAINERS

Unless they are very small, such as an ampule, containers must be either:

(a) At least 90 percent full when placed in the landfill; or

(b) Crushed, shredded, or similarly reduced in volume to the maximum practical extent before burial in the landfill.

#### 21.9 DISPOSAL OF SMALL CONTAINERS OF HAZARDOUS WASTE IN OVERPACKED DRUMS, LAB PACKS

Small containers of hazardous waste in overpacked drums, lab packs may be placed in a landfill if the following requirements are met:

(a) Hazardous waste shall be packaged in non-leaking inside containers. The inside containers shall be of a design and constructed of a material that will not react dangerously with, be decomposed by, or be ignited by the waste held therein. Inside containers shall be tightly and securely sealed. The inside containers shall be of the size and type specified in the Department of Transportation (DOT) hazardous materials regulations, 49 CFR parts 173, 178, and 179, if those regulations specify particular inside container for the waste.

(b) The inside container shall be overpacked in an open head DOT specification metal shipping container, 49 CFR parts 178 and 179, of no more than 416-liter, 110 gallon, capacity and surrounded by, at a minimum, a sufficient quantity of sorbent material, determined to be nonbiodegradable in accordance with R315-7-21.7(f), to completely sorb all of the liquid contents of the inside containers. The metal outer container shall be full after it has been packed with inside containers and sorbent material.

(c) The sorbent material used shall not be capable of reacting dangerously with, being decomposed by, or being ignited by the contents of the inside containers, in accordance with R315-7-9.8(b).

(d) Incompatible wastes, as defined in R315-1 shall not be placed in the same outside container.

(e) Reactive waste, other than cyanide or sulfide-bearing waste as defined in R315-2-9(f)(v) shall be treated or rendered non-reactive prior to packaging in accordance with R315-7-21.9(a) through (d). Cyanide and sulfide-bearing reactive waste may be packaged in accordance with R315-7-21.9(a) through (d) without first being treated or rendered non-reactive.

(f) Such disposal is in compliance with the requirements of R315-13, which incorporates by reference 40 CFR 268. Persons who incinerate lab packs according to the requirements in 40 CFR 268.42(c)(1) may use fiber drums in place of metal

outer containers. The fiber drums must meet the DOT specifications in 49 CFR 173.12 and be overpacked according to the requirements in R315-7-21.9(b).

#### 21.10 ACTION LEAKAGE RATE

(a) The owner or operator of landfill units subject to R315-7-21.2(a) shall submit a proposed action leakage rate to the Executive Secretary when submitting the notice required under R315-7-21.2(b). Within 60 days of receipt of the notification, the Executive Secretary will: Establish an action leakage rate, either as proposed by the owner or operator or modified using the criteria in this section; or extend the review period for up to 30 days. If no action is taken by the Executive Secretary before the original 60 or extended 90 day review periods, the action leakage rate will be approved as proposed by the owner or operator.

(b) The Executive Secretary shall approve an action leakage rate for surface impoundment units subject to R315-7-21.2(a). The action leakage rate is the maximum design flow rate that the leak detection system, LDS, can remove without the fluid head on the bottom liner exceeding one foot. The action leakage rate shall include an adequate safety margin to allow for uncertainties in the design, e.g., slope, hydraulic conductivity, thickness of drainage material, construction, operation, and location of the LDS, waste and leachate characteristics, likelihood and amounts of other sources of liquids in the LDS, and proposed response actions, e.g., the action leakage rate shall consider decreases in the flow capacity of the system over time resulting from siltation and clogging, rib layover and creep of synthetic components of the system, overburden pressures, etc.

(c) To determine if the action leakage rate has been exceeded, the owner or operator shall convert the weekly or monthly flow rate from the monitoring data obtained under R315-7-21.12 to an average daily flow rate, gallons per acre per day, for each sump. Unless the Executive Secretary approves a different calculation, the average daily flow rate for each sump shall be calculated weekly during the active life and closure period, and monthly during the post-closure care period when monthly monitoring is required under R315-7-21.12(b).

#### 21.11 RESPONSE ACTIONS

(a) The owner or operator of landfill units subject to R315-7-21.2(a) shall submit a response action plan to the Executive Secretary when submitting the proposed action leakage rate under R315-7-21.10. The response action plan shall set forth the actions to be taken if the action leakage rate has been exceeded. At a minimum, the response action plan shall describe the actions specified in R315-7-21.11(b).

(b) If the flow rate into the leak detection system exceeds the action leakage rate for any sump, the owner or operator shall:

(1) Notify the Executive Secretary in writing of the exceedence within seven days of the determination;

(2) Submit a preliminary written assessment to the Executive Secretary within 14 days of the determination, as to the amount of liquids, likely sources of liquids, possible location, size, and cause of any leaks, and short-term actions taken and planned;

(3) Determine to the extent practicable the location, size, and cause of any leak;

(4) Determine whether waste receipt should cease or be curtailed, whether any waste should be removed from the unit for inspection, repairs, or controls, and whether or not the unit should be closed;

(5) Determine any other short-term and longer-term actions to be taken to mitigate or stop any leaks; and

(6) Within 30 days after the notification that the action leakage rate has been exceeded, submit to the Executive Secretary the results of the analyses specified in R315-7-21.11(b)(3)-(5), the results of actions taken, and actions planned. Monthly thereafter, as long as the flow rate in the leak

detection system exceeds the action leakage rate, the owner or operator shall submit to the Executive Secretary a report summarizing the results of any remedial actions taken and actions planned.

(c) To make the leak and/or remediation determinations in R315-7-21.11(b)(3)-(5), the owner or operator shall:

(1)(i) Assess the source of liquids and amounts of liquids by source,

(ii) Conduct a fingerprint, hazardous constituent, or other analyses of the liquids in the leak detection system to identify the source of liquids and possible location of any leaks, and the hazard and mobility of the liquid; and

(iii) Assess the seriousness of any leaks in terms of potential for escaping into the environment; or

(2) Document why such assessments are not needed.

#### 21.12 MONITORING AND INSPECTION

(a) An owner or operator required to have a leak detection system under R315-7-21.2(a) shall record the amount of liquids removed from each leak detection system sump at least once each week during the active life and closure period.

(b) After the final cover is installed, the amount of liquids removed from each leak detection system sump shall be recorded at least monthly. If the liquid level in the sump stays below the pump operating level for two consecutive months, the amount of liquids in the sumps shall be recorded at least quarterly. If the liquid level in the sump stays below the pump operating level for two consecutive quarters, the amount of liquids in the sumps shall be recorded at least semi-annually. If at any time during the post-closure care period the pump operating level is exceeded at units on quarterly or semi-annual recording schedules, the owner or operator shall return to monthly recording of amounts of liquids removed from each sump until the liquid level again stays below the pump operating level for two consecutive months.

(c) "Pump operating level" is a liquid level proposed by the owner or operator and approved by the Executive Secretary based on pump activation level, sump dimensions, and level that avoids backup into the drainage layer and minimizes head in the sump. The timing for submission and approval of the proposed "pump operating level" will be in accordance with R315-7-21.10(a).

### R315-7-22. Incinerators.

#### 22.1 INCINERATORS APPLICABILITY

(a) R315-7-22 applies to owners or operators of facilities that incinerate hazardous waste, except as R315-7-8.1 provides otherwise.

(b) Integration of the MACT standards.

(1) Except as provided by R315-7-22.1(b)(2) and (3), the standards of R315-7 no longer apply when an owner or operator demonstrates compliance with the maximum achievable control technology (MACT) requirements of R307-214-2, which incorporates by reference 40 CFR 63, subpart EEE, by conducting a comprehensive performance test and submitting to the Executive Secretary a Notification of Compliance under R307-214-2, which incorporates by reference 40 CFR 63.1207(j) and 63.1210(b), documenting compliance with the requirements of R307-214-2, which incorporates by reference 40 CFR 63, subpart EEE.

(2) The following requirements continue to apply even where the owner or operator has demonstrated compliance with the MACT requirements of R307-214-2, which incorporates by reference 40 CFR 63, subpart EEE: R315-7-22.5 (closure) and the applicable requirements of R315-7-8 through R315-7-15, R315-7-27, and R315-7-30.

(3) R315-7-22.2 generally prohibiting burning of hazardous waste during startup and shutdown remains in effect if you elect to comply with R315-3-9(b)(1)(i) to minimize emissions of toxic compounds from startup and shutdown.

(c) Owners and operators of incinerators burning hazardous waste are exempt from all of the requirements of R315-7-22, except R315-7-22.5, Closure, provided that the owner or operator has documented, in writing, that the waste would not reasonably be expected to contain any of the hazardous constituents listed in R315-50-10, which incorporates by reference 40 CFR 261, Appendix VIII, and the documentation is retained at the facility, if the waste to be burned is:

(1) Listed as a hazardous waste in R315-2-10 and R315-2-11, solely because it is ignitable, Hazard Code I, corrosive, Hazard Code C, or both; or

(2) Listed as a hazardous waste in R315-2-10 and R315-2-11, solely because it is reactive, Hazard Code R, for characteristics other than those listed in R315-2-9(b), and will not be burned when other hazardous wastes are present in the combustion zone; or

(3) A hazardous waste solely because it possesses the characteristic of ignitability, corrosivity, or both, as determined by the tests for characteristics of hazardous wastes under R315-2-9, or

(4) A hazardous waste solely because it possesses the reactivity characteristics described by R315-2-9(f)(i), (ii), (iii), (vi), (vii), or (viii), and will not be burned when other hazardous wastes are present in the combustion zone.

#### 22.2 GENERAL OPERATING REQUIREMENTS

During start-up and shut-down of an incinerator, the owner or operator shall not feed hazardous waste unless the incinerator is at steady state, normal, conditions of operation, including steady state operating temperature and air flow.

#### 22.3 WASTE ANALYSIS

In addition to the waste analyses required by R315-7-9.4, which incorporates by reference 40 CFR 265.13, the owner or operator shall sufficiently analyze any waste which he has not previously burned in his incinerator to enable him to establish steady state, normal, operating conditions, including waste and auxiliary fuel feed and air flow, and to determine the type of pollutants which might be emitted. At a minimum, the analysis shall determine:

(a) Heating value of the waste;

(b) Halogen content and sulfur content in the waste; and

(c) Concentrations in the waste of lead and mercury, unless the owner or operator has written, documented data that show that the element is not present.

As required by R315-7-12.4, which incorporates by reference 40 CFR 265.73, the owner or operator shall place the results from each waste analysis, or the documented information, in the operating record of the facility.

#### 22.4 MONITORING AND INSPECTIONS

The owner or operator shall conduct, at a minimum, the following monitoring and inspections when incinerating hazardous waste:

(a) Existing instruments which relate to combustion and emission control shall be monitored at least every 15 minutes. Appropriate corrections to maintain steady state combustion conditions shall be made immediately either automatically or by the operator. Instruments which relate to combustion and emission control would normally include those measuring waste feed, auxiliary fuel feed, air flow, incinerator temperature, scrubber flow, scrubber pH, and relevant level controls.

(b) The complete incinerator and associated equipment, pumps, valves, conveyors, pipes, etc., shall be inspected at least daily for leaks, spills and fugitive emissions, and all emergency shutdown controls and system alarms shall be checked to assure proper operation.

#### 22.5 CLOSURE

At closure, the owner or operator shall remove all hazardous waste and hazardous waste residues, including but not limited to ash, scrubber waters, and scrubber sludges from

the incinerator. At closure, as throughout the operating period, unless the owner or operator can demonstrate, in accordance with R315-2-1, that any solid waste removed from his incinerator is not a hazardous waste, the owner or operator becomes a generator of hazardous waste and shall manage it in accordance with all applicable requirements of these rules.

#### 22.6 INTERIM STATUS INCINERATORS BURNING PARTICULAR HAZARDOUS WASTES

(a) Owners or operators of incinerators subject to R315-7-22 may burn EPA Hazardous Wastes F020, F021, F022, F023, F026, or F027 if they receive a certification from the Board that they can meet the performance standards of R315-8-15 when they burn these wastes.

(b) The following standards and procedures will be used in determining whether to certify an incinerator:

(1) The owner or operator will submit an application to the Board containing applicable information in R315-3 demonstrating that the incinerator can meet the performance standards in R315-8-15 when they burn these wastes.

(2) The Board will issue a tentative decision as to whether the incinerator can meet the performance standards in R315-8-15. Notification of this tentative decision will be provided by newspaper advertisement and radio broadcast in the jurisdiction where the incinerator is located. The Board will accept comment on the tentative decision for 60 days. The Board also may hold a public hearing upon request or at their discretion.

(3) After the close of the public comment period, the Board will issue a decision whether or not to certify the incinerator.

#### R315-7-23. Thermal Treatment.

##### 23.1 THERMAL TREATMENT

The rules in this section apply to owners or operators of facilities that thermally treat hazardous waste in devices other than enclosed devices using controlled flame combustion, except as R315-7-8.1 provides otherwise. Thermal treatment in enclosed devices using controlled flame combustion is subject to the requirements of R315-7-22 if the unit is an incinerator, and R315-14-7, which incorporates by reference 40 CFR 266, subpart H, if the unit is a boiler or an industrial furnace as defined in R315-1-1(b), which incorporates by reference 40 CFR 260.10.

##### 23.2 GENERAL OPERATING REQUIREMENTS

Before adding hazardous waste, the owner or operator shall bring his thermal treatment process to steady state, normal, conditions of operation--including steady state operating temperature--using auxiliary fuel or other means, unless the process is a non-continuous, batch, thermal treatment process which requires a complete thermal cycle to treat a discrete quantity of hazardous waste.

##### 23.3 WASTE ANALYSIS

In addition to the waste analyses required by R315-7-9.4, which incorporates by reference 40 CFR 265.13, the owner or operator shall sufficiently analyze any waste which he has not previously treated in his thermal treatment process to enable him to establish steady state, normal, or in other appropriate, for a non-continuous process, operating conditions, including waste and auxiliary fuel feed, and to determine the type of pollutants which might be emitted. At a minimum, the analysis shall determine:

(a) Heating value of the waste;

(b) Halogen content and sulfur content in the waste; and

(c) Concentrations in the waste of lead and mercury, unless the owner or operator has written, documented data that show that the element is not present. The owner or operator shall place the results from each waste analysis, or the documented information, in the operating record of the facility.

##### 23.4 MONITORING AND INSPECTIONS

The owner or operator shall conduct, at a minimum, the

following monitoring and inspections when thermally treating hazardous waste:

(a) Existing instruments which relate to temperature and emission control, if an emission control device is present, shall be monitored at least every 15 minutes. Appropriate corrections to maintain steady state or other appropriate thermal treatment conditions shall be made immediately either automatically or by the operator. Instruments which relate to temperature and emission control would normally include those measuring waste feed, auxiliary fuel feed, treatment process temperature, and relevant process flow and level controls.

(b) The stack plume, emissions, where present, shall be observed visually at least hourly for normal appearance, color and opacity. The operator shall immediately make any indicated operating corrections necessary to return any visible emissions to their normal appearance.

(c) The complete thermal treatment process and associated equipment, pumps, valves, conveyor, pipes, etc., shall be inspected at least daily for leaks, spills, and fugitive emissions, and all emergency shutdown controls and system alarms shall be checked to assure proper operation.

**23.5 CLOSURE**

At closure, the owner or operator shall remove all hazardous waste and hazardous waste residues, including, but not limited to, ash from thermal treatment process or equipment.

At closure, as throughout the operating period, unless the owner or operator can demonstrate, in accordance with R315-2-1, that any solid waste removed from his thermal treatment process or equipment is not a hazardous waste, the owner or operator becomes a generator of hazardous waste and shall manage it in accordance with all applicable requirements of these rules.

**23.6 OPEN BURNING; WASTE EXPLOSIVES**

Open burning of hazardous waste is prohibited except for the open burning and detonation of waste explosives. Waste explosives include waste which has the potential to detonate and bulk military propellants which cannot safely be disposed of through other modes of treatment. Detonation is an explosion in which chemical transformation passes through the material faster than the speed of sound, 0.33 kilometers/second at sea level. Owners or operators choosing to open burn or detonate waste explosives shall do so in accordance with the following table and in a manner that does not threaten human health or the environment:

TABLE

Pounds of Waste Explosives or Propellants	Minimum Distance from Open Burning or Detonation to the Property of Others
0 - 100	204 meters (670 feet)
101 - 1,000	380 meters (1,250 feet)
1,001 - 10,000	530 meters (1,730 feet)
10,001 - 30,000	690 meters (2,260 feet)

**23.7 INTERIM STATUS THERMAL TREATMENT DEVICES BURNING PARTICULAR HAZARDOUS WASTE**

(a) Owners or operators of thermal treatment devices subject to R315-23 may burn EPA Hazardous Wastes F020, F021, F022, F023, F026, or F027 if they receive a certification from the Board that they can meet the performance standards of R315-8-15 when they burn these wastes.

(b) The following standards and procedures will be used in determining whether to certify a thermal treatment unit:

(1) The owner or operator will submit an application to the Board containing the applicable information in R315-3 demonstrating that the thermal treatment unit can meet the performance standard in R315-8-15 when they burn these wastes.

(2) The Board will issue a tentative decision as to whether the thermal treatment unit can meet the performance standards

in R315-8-15. Notification of this tentative decision will be provided by newspaper advertisement and radio broadcast in the jurisdiction where the thermal treatment device is located. The Board will accept comment on the tentative decision for 60 days. The Board also may hold a public hearing upon request or at their discretion.

(3) After the close of the public comment period, the Board will issue a decision whether or not to certify the thermal treatment unit.

**R315-7-24. Chemical, Physical, and Biological Treatment.**

**24.1 APPLICABILITY**

The rules in this section apply to owners and operators of facilities which treat hazardous wastes by chemical, physical, or biological methods in other than tanks, surface impoundments, and land treatment facilities, except as R315-7-8.1 provides otherwise. Chemical, physical, and biological treatment of hazardous waste in tanks, surface impoundments, and land treatment facilities shall be conducted in accordance with R315-7-17, which incorporates by reference 40 CFR 265.190 - 265.201, R315-7-18, and R315-7-20, respectively.

**24.2 GENERAL OPERATING REQUIREMENTS**

(a) Chemical, physical, or biological treatment of hazardous waste shall comply with R315-7-9.8(b).

(b) Hazardous wastes or treatment reagents shall not be placed in the treatment process or equipment if they could cause the treatment process to rupture, leak, corrode, or otherwise fail before the end of its intended life.

(c) Where hazardous waste is continuously fed into a treatment process or equipment, the process or equipment shall be equipped with a means to stop this inflow, e.g., a waste feed cut-off system or bypass system to a standby containment device. These systems are intended to be used in the event of a malfunction in the treatment process or equipment.

**24.3 WASTE ANALYSIS AND TRIAL TESTS**

(a) In addition to the waste analysis required by R315-7-9.4, which incorporates by reference 40 CFR 265.13, whenever:

(1) A hazardous waste which is substantially different from waste previously treated in a treatment process or equipment at the facility is to be treated in that process or equipment, or

(2) A substantially different process than any previously used at the facility is to be used to chemically treat hazardous waste;

The owner or operator shall, before treating the different waste or using the different process or equipment:

(i) Conduct waste analyses and trial treatment tests, e.g., bench scale or pilot plant scale tests; or

(ii) Obtain written, documented information on similar treatment of similar waste under similar operating conditions; to show that this proposed treatment will meet all applicable requirements of R315-7-24.2(a) and (b).

The owner or operator shall place the results from each waste analysis and trial test, or the documented information, in the operating record of the facility.

**24.4 INSPECTIONS**

The owner or operator of a treatment facility shall inspect, where present:

(a) Discharge control and safety equipment, e.g., waste feed cut-off systems, bypass systems, drainage systems, and pressure relief systems, at least once each operating day, to ensure that it is in good working order;

(b) Data gathered from monitoring equipment, e.g., pressure and temperature gauges, at least once each operating day, to ensure that the treatment process or equipment is being operated according to its design.

(c) The construction materials of the treatment process or equipment, at least weekly, to detect corrosion or leaking of fixtures or seams, and

(d) The construction materials of, and the area immediately surrounding, discharge confinement structures, e.g., dikes, at least weekly, to detect erosion or obvious signs of leakage, e.g., wet spots or dead vegetation.

#### 24.5 CLOSURE

At closure, all hazardous waste and hazardous waste residues shall be removed from treatment processes or equipment, discharge control equipment, and discharge confinement structures. At closure, as throughout the operating period, unless the owner or operator can demonstrate, in accordance with R315-2-1, that any solid waste removed from his treatment process or equipment is not a hazardous waste, the owner or operator becomes a generator of hazardous waste and shall manage it in accordance with all applicable requirements of these rules.

#### 24.6 SPECIAL REQUIREMENTS FOR IGNITABLE OR REACTIVE WASTE

(a) Ignitable or reactive waste shall not be placed in a treatment process or equipment unless:

(1) The waste is treated, rendered, or mixed before or immediately after placement in the treatment process or equipment so that:

(i) The resulting waste, mixture, or dissolution of material no longer meets the definition of ignitable or reactive waste under R315-2-9(d) and (f), and

(ii) R315-7-9.8(b) is complied with; or

(2) The waste is treated in such a way that it is protected from any material or conditions which may cause the waste to ignite or react.

#### 24.7 SPECIAL REQUIREMENTS FOR INCOMPATIBLE WASTES

(a) Incompatible wastes, or incompatible wastes and materials, see 40 CFR 265, Appendix V for examples, shall not be placed in the same treatment process or equipment, unless R315-7-9.8(b) is complied with.

(b) Hazardous waste shall not be placed in unwashed treatment equipment which previously held an incompatible waste or material, unless R315-7-9.8(b) is complied with.

#### R315-7-25. Underground Injection.

##### 25.1 APPLICABILITY

Except as R315-7-8.1 provides otherwise:

(a) The owner or operator of a facility which disposes of hazardous waste by underground injection is excluded from the requirements of R315-7-14, which incorporates by reference 40 CFR 265.110 - 265.120 and R315-7-15, which incorporates by reference 40 CFR 265.140 - 265.150.

(b) The requirements of this section apply to owners and operators of wells used to dispose of hazardous waste which are classified as Class I under 40 CFR 144.6(a) and which are classified as Class IV under 40 CFR 144.6(d).

#### R315-7-26. Air Emission Standards for Process Vents.

The requirements of 40 CFR subpart AA sections 265.1030 through 265.1035, 1997 ed., as amended by 62 FR 64636, December 8, 1997, are adopted and incorporated by reference with the following exception:

(1) substitute "Board" for all federal regulation references made to "Regional Administrator."

#### R315-7-27. Air Emission Standards for Equipment Leaks.

The requirements of 40 CFR subpart BB sections 265.1050 through 265.1064, 1997 ed., as amended by 62 FR 64636, December 8, 1997, are adopted and incorporated by reference with the following exception:

(1) substitute "Board" for all federal regulation references made to "Regional Administrator."

#### R315-7-28. Drip Pads.

The requirements of 40 CFR subpart W sections 265.440 through 265.445, 1996 ed., are adopted and incorporated by reference with the following exception:

(1) substitute "Board" for all federal regulation references made to "Regional Administrator".

(2) Add, following December 6, 1990, in 40 CFR 264.570(a), "for all HSWA drip pads or January 31, 1992 for all non-HSWA drip pads."

(3) Add, following December 24, 1992, in 40 CFR 570(a), "for all HSWA drip pads or July 30, 1993 for all non-HSWA drip pads."

#### R315-7-29. Containment Buildings.

The requirements of subpart DD sections 265.1100 through 265.1102, as found in 57 FR 37194, August 18, 1992, are adopted and incorporated by reference with the following exception:

(1) substitute "Executive Secretary" for all federal regulation references made to "Regional Administrator."

#### R315-7-30. Air Emission Standards for Tanks, Surface Impoundments, and Containers.

The requirements as found in 40 CFR subpart CC, sections 265.1080 through 265.1091, 1998 ed., as amended by as amended by 64 FR 3382, January 21, 1999, are adopted and incorporated by reference with the following exception:

(1) substitute "Executive Secretary" for all federal regulation references made to "Regional Administrator."

#### KEY: hazardous waste

Notice of Continuation August 24, 2006

19-6-105

19-6-106

**R315. Environmental Quality, Solid and Hazardous Waste.  
R315-8. Standards for Owners and Operators of Hazardous  
Waste Treatment, Storage, and Disposal Facilities.**

**R315-8-1. Purpose, Scope and Applicability.**

(a) The purpose of R315-8 is to establish minimum State of Utah standards which define the acceptable management of hazardous waste.

(b) The standards in R315-8 apply to owners and operators of all facilities which treat, store, or dispose of hazardous waste, except as specifically provided otherwise in R315-8 or R315-2.

(c) The requirements of R315-8 apply to a person disposing of hazardous waste by means of underground injection subject to a permit issued under the Underground Injection Control (UIC) program approved or promulgated under the Safe Drinking Water Act only to the extent they are required by R315-3. R315-8 applies to the above-ground treatment or storage of hazardous waste before it is injected underground.

(d) The requirements of R315-8 apply to the owner or operator of a POTW which treats, stores, or disposes of hazardous waste only to the extent they are included in a RCRA permit by rule granted to such a person under R315-3.

(e) The requirements of R315-8 do not apply to:

(1) The owner or operator of a state approved facility managing municipal or industrial solid waste, if the only hazardous waste the facility treats, stores, or disposes of is excluded from regulation under R315-2-5, conditionally exempt small quantity generator exemption;

(2) A generator accumulating waste on-site in compliance with R315-5-3.34, which incorporates by reference 40 CFR 262.34;

(3) A farmer disposing of waste pesticides from his own use in compliance with R315-5-7;

(4) The owner or operator of a totally enclosed treatment facility. A totally enclosed treatment facility is a facility for the treatment of hazardous waste which is directly connected to an industrial production process and which is constructed and operated in a manner which prevents the release of any hazardous waste or any constituent thereof into the environment during treatment;

(5) A transporter storing manifested shipments of hazardous waste in containers meeting the requirements of R315-5-3.30 at a transfer facility for a period of ten days or less;

(6)(i) Except as provided in R315-8-1(e)(6)(ii), a person engaged in treatment or containment activities during immediate response to any of the following situations:

(A) A discharge of a hazardous waste;

(B) An imminent and substantial threat of a discharge of hazardous waste; and

(C) A discharge of a material which, when discharged, becomes a hazardous waste.

(ii) An owner or operator of a facility otherwise regulated by R315-8 shall comply with all applicable requirements of R315-8-3 and R315-8-4.

(iii) Any person who is covered by R315-8-1(e)(6)(i), and who continues or initiates hazardous waste treatment or containment activities after the immediate response is over is subject to all applicable requirements of R315-8 and R315-3 for those activities.

(iv) In the case of an explosives or munitions emergency response, if a State or local official acting within the scope of his or her official responsibilities, or an explosives or munitions emergency response specialist, determines that immediate removal of the material or waste is necessary to protect human health or the environment, that official or specialist may authorize the removal of the material or waste by transporters who do not have EPA identification numbers and without the preparation of a manifest. In the case of emergencies involving military munitions, the responding military emergency response

specialist's organizational unit shall retain records for three years identifying the dates of the response, the responsible persons responding, the type and description of material addressed, and its disposition.

(7) The owner or operator of an elementary neutralization unit or a wastewater treatment unit as defined in R315-1-1(b), which incorporates by reference 40 CFR 260.10, provided that if the owner or operator is diluting hazardous ignitable (D001) wastes, other than the D001 High TOC Subcategory defined in R315-13, which incorporates by reference 40 CFR 268.40, or reactive (D003) waste, to remove the characteristic before land disposal, the owner/operator shall comply with the requirements set out in R315-8-2.8(b);

(8) The addition of absorbent material to waste in a container, as defined in R315-1, or the addition of waste to absorbent material in a container, provided that these actions occur at the time waste is first placed in the container; and R315-8-2.8(b), R315-8-9.2, and R315-8-9.3 are complied with;

(9) The owner or operator of a facility managing recyclable materials described in R315-2-6, which incorporates by reference 40 CFR 261.6, except to the extent that they are referred to in R315-15 or R315-14-2, which incorporates by reference 40 CFR 266 subpart C, R315-14-5, which incorporates by reference 40 CFR 266 subpart F, R315-14-6, which incorporates by reference 40 CFR 266 subpart G, and R315-14-7, which incorporates by reference 40 CFR 266 subpart H; and

(10) Universal waste handlers and universal waste transporters (as defined in R315-16-1.9), handling the wastes listed below. These handlers are subject to regulation under R315-16, when handling the below listed universal wastes:

(i) Batteries as described in R315-16-1.2;

(ii) Pesticides as described in R315-16-1.3;

(iii) Mercury thermostats as described in R315-16-1.4; and

(iv) Mercury lamps as described in R315-16-1.5.

(f) The requirements of this rule apply to owners or operators of all facilities which treat, store, or dispose of hazardous waste referred to in R315-13, which incorporates by reference 40 CFR 268.

(g) The requirements of R315-8-2 through 8-4 and R315-8-6.12 do not apply to remediation waste management sites. (However, some remediation waste management sites may be a part of a facility that is subject to a traditional hazardous waste permit because the facility is also treating, storing or disposing of hazardous wastes that are not remediation wastes. In these cases, R315-8-2 through 8-4 and R315-8-6.12 do apply to the facility subject to the traditional hazardous waste permit). Instead of the requirements of R315-8-2 through 8-4, owners or operators of remediation waste management sites must:

(1) Obtain an EPA identification number by applying to the Division of Solid and Hazardous Waste using EPA Form 8700-12;

(2) Obtain a detailed chemical and physical analysis of a representative sample of the hazardous remediation waste to be managed at the site. At a minimum, the analysis must contain all of the information which must be known to treat, store, or dispose of the waste according to R315-13, which incorporates by reference 40 CFR 268, and R315-8, and must be kept accurate and up to date;

(3) Prevent people who are unaware of the danger from entering, and minimize the possibility for unauthorized people or livestock to enter onto the active portion of the remediation waste management site, unless the owner or operator can demonstrate to the Executive Secretary that:

(i) Physical contact with the waste, structures, or equipment within the active portion of the remediation waste management site will not injure people or livestock who may enter the active portion of the remediation waste management site; and

(ii) Disturbance of the waste or equipment by people or livestock who enter onto the active portion of the remediation waste management site, will not cause a violation of the requirements of R315-8;

(4) Inspect the remediation waste management site for malfunctions, deterioration, operator errors, and discharges that may be causing, or may lead to, a release of hazardous waste constituents to the environment, or a threat to human health. The owner or operator must conduct these inspections often enough to identify problems in time to correct them before they harm human health or the environment, and must remedy the problem before it leads to a human health or environmental hazard. Where a hazard is imminent or has already occurred, the owner/operator must take remedial action immediately;

(5) Provide personnel with classroom or on-the-job training on how to perform their duties in a way that ensures the remediation waste management site complies with the requirements of R315-8, and on how to respond effectively to emergencies;

(6) Take precautions to prevent accidental ignition or reaction of ignitable or reactive waste, and prevent threats to human health and the environment from ignitable, reactive and incompatible waste;

(7) For remediation waste management sites subject to regulation under R315-8-9 through 8-15, and R315-8-16, which incorporates by reference 40 CFR 264.600 - 603, the owner/operator must design, construct, operate, and maintain a unit within a 100-year floodplain to prevent washout of any hazardous waste by a 100-year flood, unless the owner/operator can meet the demonstration of R315-8-2.9(b);

(8) Not place any non-containerized or bulk liquid hazardous waste in any salt dome formation, salt bed formation, underground mine or cave;

(9) Develop and maintain a construction quality assurance program for all surface impoundments, waste piles and landfill units that are required to comply with R315-8-11.2(c) and (d), R315-8-12.2(c) and (d), and R315-8-14.2(c) and (d) at the remediation waste management site, according to the requirements of R315-8-2.10;

(10) Develop and maintain procedures to prevent accidents and a contingency and emergency plan to control accidents that occur. These procedures must address proper design, construction, maintenance, and operation of remediation waste management units at the site. The goal of the plan must be to minimize the possibility of, and the hazards from a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water that could threaten human health or the environment. The plan must explain specifically how to treat, store, and dispose of the hazardous remediation waste in question, and must be implemented immediately whenever a fire, explosion, or release of hazardous waste or hazardous waste constituents which could threaten human health or the environment;

(11) Designate at least one employee, either on the facility premises or on call (that is, available to respond to an emergency by reaching the facility quickly), to coordinate all emergency response measures. This emergency coordinator must be thoroughly familiar with all aspects of the facility's contingency plan, all operations and activities at the facility, the location and characteristics of waste handled, the location of all records within the facility, and the facility layout. In addition, this person must have the authority to commit the resources needed to carry out the contingency plan;

(12) Develop, maintain and implement a plan to meet the requirements in R315-8-1(g)(2) through (g)(6) and R315-8-1(g)(9) through (g)(10); and

(13) Maintain records documenting compliance with R315-8-1(g)(1) through (g)(12).

## 1.1 RELATIONSHIP TO INTERIM STATUS STANDARDS

A facility owner or operator who has fully complied with the requirements for interim status--as defined in section 3005(e) of the Federal RCRA Act and regulations under R315-3-7.1 shall comply with the regulations specified in R315-7 in lieu of R315-8, until final administrative disposition of his permit application is made, except as provided under R315-8-21, which incorporates by reference 40 CFR 264.552 and 264.553.

## R315-8-2. General Facility Standards.

### 2.1 APPLICABILITY

(a) The rules in this section apply to the owners or operators of all hazardous waste management facilities, except as provided otherwise in R315-8-1(e).

(b) R315-8-2.9(b) applies only to facilities subject to regulation under R315-8-9 through R315-8-15 and R315-8-16, which incorporates by reference 40 CFR 264.600 - 264.603.

### 2.2 IDENTIFICATION NUMBER

Every facility owner or operator shall obtain an EPA identification number by applying to the Executive Secretary using EPA form 8700-12. Information on obtaining this number can be acquired by contacting the Utah Division of Solid and Hazardous Waste.

### 2.3 REQUIRED NOTICES

(a)(1) An owner or operator of a facility that has arranged to receive hazardous waste from a foreign source shall notify the Board in writing at least four weeks in advance of the expected date of arrival of these shipments at the facility. A notice of subsequent shipments of the same waste from the same foreign source is not required.

(2) The owner or operator of a recovery facility that has arranged to receive hazardous waste subject to R315-5-8, which incorporates by reference 40 CFR 262, subpart H, shall provide a copy of the tracking document bearing all required signatures to the notifier, to the Division of Solid and Hazardous Waste, P.O. Box 144880, Salt Lake City, Utah, 84114-4880; Office of Enforcement and Compliance Assurance, Office of Compliance, Enforcement Planning, Targeting and Data Division (2222A), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460; and to the competent authorities of all other concerned countries within three working days of receipt of the shipment. The original of the signed tracking document shall be maintained at the facility for at least three years.

(b) An owner or operator of a facility that receives hazardous waste from off-site, except when the owner or operator is also the generator, shall inform the generator in writing that he has the appropriate permit(s) for, and will accept, the waste the generator is shipping. A copy of this written notice shall be retained by the owner or operator as part of the operating record of waste received.

(c) Before transferring ownership or operation of a facility during its operating life, or of a disposal facility during the post-closure care period, the owner or operator shall notify the new owner or operator in writing of the requirements of R315-8 and R315-3. An owner's or operator's failure to notify the new owner or operator of the requirements of R315-8 in no way relieves the new owner or operator of his obligation to comply with all applicable requirements.

### 2.4 GENERAL WASTE ANALYSIS

The requirements as found in 40 CFR 264.13, 1996 ed., are adopted and incorporated by reference.

### 2.5 SECURITY

(a) A facility owner or operator shall prevent the unauthorized entry, and minimize the possibility for the unauthorized entry, of persons or livestock onto the active portion of his facility, unless he can demonstrate to the Board that:

(1) Physical contact with the waste structures, or equipment within the active portion of the facility will not injure unknowing or unauthorized persons or livestock which may enter the active portion of a facility; and

(2) Disturbance of the waste or equipment, by the unknowing or unauthorized entry of persons or livestock onto the active portion of a facility, will not cause a violation of the requirements of R315-8-2.5.

An owner or operator who wishes to make the demonstration referred to above shall do so with the part B permit application.

(b) Unless the owner or operator has made a successful demonstration under R315-8-2.5(a)(1) and (a)(2), a facility shall have:

(1) A 24-hour surveillance system, e.g., television monitoring or surveillance by guards or facility personnel, which continuously monitors and controls entry onto the active portion of the facility; or

(2)(i) An artificial or natural barrier, e.g., a fence in good repair or a fence combined with a cliff, which completely surrounds the active portion of the facility; and

(ii) A means to control entry at all times, through gates or other entrances to the active portion of the facility, e.g., an attendant, television monitors, locked entrance, or controlled roadway access to the facility. The requirements of R315-8-2.5(b) are satisfied if the facility or plant within which the active portion is located itself has a surveillance system, or a barrier and a means to control entry, which complies with the requirements of R315-8-2.5(b)(1) or (2).

(c) Unless the owner or operator has made a successful demonstration under R315-8-2.5(a)(1) and (a)(2), a sign with the legend, "Danger - Unauthorized Personnel Keep Out", shall be posted at each entrance to the active portion of a facility, and at other locations, in sufficient numbers to be seen from any approach to the active portion. The legend shall be written in English and in any other language predominant in the area surrounding the facility and shall be legible from a distance of at least 25 feet. Existing signs with a legend other than "Danger - Unauthorized Personnel Keep Out" may be used if the legend on the sign indicates that only authorized personnel are allowed to enter the active portion, and that entry onto the active portion is potentially dangerous. Owners or operators are encouraged to also describe in the sign the type of hazard, e.g., hazardous waste, flammable wastes, etc. contained within the active portion of the facility. See R315-8-7, which incorporates by reference 40 CFR 264.110 - 264.120, for discussion of security requirements during the post-closure care period.

#### 2.6 GENERAL INSPECTION REQUIREMENTS

(a) Facility owners or operators shall inspect their facilities for malfunctions and deterioration, operator errors, and discharges, which may be causing or may lead to release of hazardous waste constituents to the environment or pose a threat to human health. These inspections shall be conducted frequently enough to identify problems in time to take corrective action before they harm human health or the environment.

(b)(1) Facility owners or operators shall develop and follow a written schedule for inspecting monitoring equipment, safety and emergency equipment, security devices, and operating and structural equipment, such as dikes and sump pumps, that are important to preventing, detecting, or responding to environmental or human health hazards.

(2) The schedule shall be kept at the facility.

(3) The schedule shall identify the types of problems, e.g., malfunctions or deterioration, which are to be looked for during the inspection, for example, inoperative sump pump, leaking fitting, eroding dike, etc.

(4) The frequency of the inspection may vary for the items on the schedule. However, the frequency should be based on the rate of deterioration of the equipment and the probability of

an environmental or human health incident if the deterioration, malfunction, or any operator error goes undetected between inspections. Areas subject to spills, such as loading and unloading areas, shall be inspected daily when they are in use. At a minimum, the inspection schedule shall include the items and frequencies called for in R315-8-9.5, R315-8-10, which incorporates by reference 40 CFR 264.190 - 264.199, R315-8-11.3, R315-8-12.3, R315-8-13.6, R315-8-14.3, R315-8-15.7, R315-8-16, which incorporates by reference 40 CFR 264.600 - 264.603, R315-8-17, which incorporates by reference 40 CFR 264.1030 - 264.1036, R315-8-18, which incorporates by reference 40 CFR 264.1050 - 264.1065, and R315-8-22, which incorporates by reference 40 CFR 264.1083 through 264.1089.

(c) The owner or operator shall make any repairs, or take other remedial action, on a time schedule which ensures that any deterioration or malfunction discovered does not lead to an environmental or human health hazard. Where a hazard is imminent or has already occurred, remedial action shall be taken immediately.

(d) The owner or operator shall keep records of inspections in an inspection log or summary. These records shall be retained for at least three years. At a minimum, these records shall include the date and time of the inspection, the name of the inspector, a notation of the observations made, and the date and nature of any repairs made or remedial actions taken.

#### 2.7 PERSONNEL TRAINING

(a)(1) Facility personnel shall successfully complete a program of classroom instruction or on-the-job training that teaches them to perform their duties in a way that ensures the facility's compliance with the requirements of this section and that includes all the elements described in the document required under R315-8-2.7(d)(3).

(2) This program shall be directed by a person trained in hazardous waste management procedures, and shall include instruction which teaches facility personnel hazardous waste management procedures, including contingency plan implementation relevant to the position in which they are employed.

(3) At a minimum, the training program shall be designed to ensure that facility personnel are able to respond effectively to emergencies by familiarizing them with emergency procedures, emergency equipment, and emergency systems, including, but not necessarily limited to, the following, where applicable:

(i) Procedures for inspection, use, repair, and replacement of facility emergency and monitoring equipment;

(ii) Communications or alarm systems;

(iii) Key parameters for automatic waste feed cut-off systems;

(iv) Response to fires or explosions;

(v) Response to groundwater contamination incidents; and

(vi) Shutdown of operations.

(b) Facility personnel shall successfully complete the program required in R315-8-2.7(a) within six months after the effective date of these rules or six months after the date of employment or assignment to a facility, or to a new position at a facility, whichever is later. Employees hired after the effective date of these rules shall not work in unsupervised positions until they have completed the training requirements of R315-8-2.7(a).

(c) Facility personnel shall take part in an annual review of their initial training in both contingency procedures and the hazardous waste management procedures relevant to the positions in which they are employed.

(d) Owners or operators of facilities shall maintain the following documents and records and make them available upon request:

(1) The job title for each position at the facility related to hazardous waste management, and the name of the employee

filling each job;

(2) A written job description for each position listed under R315-8-2.7(d)(1). This description may be consistent in its degree of specificity with descriptions for other similar positions in the same company location or bargaining unit, but shall include the requisite skill, education, or other qualifications and duties of employees assigned to each position;

(3) A written description of the type and amount of both introductory and continuing training that will be given to each person filling a position listed under R315-8-2.7(d)(1);

(4) Records that document that the training or job experience required under R315-8-2.7(a), (b), and (c) has been given to, and completed by, facility personnel.

(e) Training records on current employees shall be maintained until closure of the facility; training records on former employees shall be retained for at least three years from the date the employee last worked at the facility. Employee training records may accompany personnel transferred within the same company.

## 2.8 GENERAL REQUIREMENTS FOR IGNITABLE, REACTIVE, OR INCOMPATIBLE WASTES

(a) The owner or operator shall take precautions to prevent accidental ignition or reaction of ignitable or reactive wastes. These waste shall be separated and protected from sources of ignition or reaction including but not limited to: open flames, smoking, cutting and welding, hot surfaces, frictional heat, sparks, static, electrical, or mechanical, spontaneous ignition, e.g., from heat-producing chemical reactions, and radiant heat. While ignitable or reactive waste is being handled, the owner or operator shall confine smoking and open flame to specially designated locations. "No Smoking" signs shall be conspicuously placed wherever there is a hazard from ignitable or reactive waste.

(b) Where specifically required by other sections of R315-8, the owner or operator of a facility that treats, stores or disposes ignitable or reactive waste, or mixes incompatible waste or incompatible wastes and other materials, shall take precautions to prevent reactions which:

(1) Generate extreme heat or pressure, fire or explosion, or violent reactions;

(2) Produce uncontrolled toxic mists, fumes, dusts, or gases in sufficient quantities to threaten human health or the environment;

(3) Produce uncontrolled flammable fumes or gases in sufficient quantities to pose a risk of fire or explosions;

(4) Damage the structural integrity of the device or facility;

(5) Through other like means threaten human health or the environment.

(c) When required to comply with R315-8-2.8, the owner or operator shall document that compliance. This documentation may be based on references to published scientific or engineering literature, data from trial tests, e.g., bench scale or pilot scale tests, waste analyses as specified in R315-8-2.4, which incorporates by reference 40 CFR 264.13, or the results of the treatment of similar wastes by similar treatment processes and under similar operating conditions.

## 2.9 LOCATION STANDARDS

(a) Seismic considerations.

(1) Portions of new facilities where treatment, storage, or disposal of hazardous waste will be conducted shall not be located within 61 meters (200 feet) of a fault which has had displacement in Holocene time. For definition of terms used in this section see R315-1. Procedures for demonstrating compliance with this standard in part B of the permit application are specified in R315-3 specifically in R315-3-2.5. Facilities which are located in political jurisdictions other than those listed in R315-50-11 are assumed to be in compliance with this requirement.

(b) Floodplains.

(1) A facility located in a 100-year floodplain shall be designed, constructed, operated and maintained to prevent washout of any hazardous waste by a 100-year flood, unless the owner or operator can demonstrate to the Executive Secretary's satisfaction that:

(i) Procedures are in effect which will cause the waste to be removed safely, before flood waters can reach the facility, to a location where the wastes will not be vulnerable to flood waters; or

(ii) For existing surface impoundments, waste piles, land treatment units, landfills, and miscellaneous units, no adverse effects on human health or the environment will result if washout occurs, considering:

(A) The volume and physical and chemical characteristics of the waste in the facility;

(B) The concentration of hazardous constituents that would potentially affect surface waters as a result of washout;

(C) The impact of such concentrations on the current or potential uses of and water quality standards established for the affected surface waters; and

(D) The impact of hazardous constituents on the sediments of affected surface waters or the soils of the 100-year floodplain that could result from washout. The location where wastes are moved shall be a facility which is either permitted by EPA or has a permit in accordance with R315-3.

(2) As used in R315-8-2.9(b)(1):

(i) "100-year floodplain" means any land area which is subject to a one percent or greater chance of flooding in any given year from any source;

(ii) "Washout" means the movement of hazardous waste from the active portion of the facility as a result of flooding;

(iii) "100-year flood" means a flood that has a one percent chance of being equalled or exceeded in any given year.

(c) Salt dome formations, salt bed formations, underground mines and caves.

The placement of any non-containerized or bulk liquid hazardous wastes in any salt dome formation, salt bed formation, underground mine or cave is prohibited, except for the Department of Energy Waste Isolation Pilot Project in New Mexico.

## 2.10 CONSTRUCTION QUALITY ASSURANCE PROGRAM

(a) CQA program. (1) A construction quality assurance (CQA) program is required for all surface impoundment, waste pile, and landfill units that are required to comply with R315-8-11.2(c) and (d), R315-8-12.2(c) and (d), and R315-8-14.2(c) and (d). The program shall ensure that the constructed unit meets or exceeds all design criteria and specifications in the permit. The program shall be developed and implemented under the direction of a CQA officer who is a registered professional engineer.

(2) The CQA program shall address the following physical components, where applicable:

(i) Foundations;

(ii) Dikes;

(iii) Low-permeability soil liners;

(iv) Geomembranes, flexible membrane liners;

(v) Leachate collection and removal systems and leak detection systems; and

(vi) Final cover systems.

(b) Written CQA plan. The owner or operator of units subject to the CQA program under R315-8-2.10(a) shall develop and implement a written CQA plan. The plan must identify steps that will be used to monitor and document the quality of materials and the condition and manner of their installation. The CQA plan shall include:

(1) Identification of applicable units, and a description of how they will be constructed.

(2) Identification of key personnel in the development and

implementation of the CQA plan, and CQA officer qualifications.

(3) A description of inspection and sampling activities for all unit components identified in R315-8-2.10(a)(2), including observations and tests that will be used before, during, and after construction to ensure that the construction materials and the installed unit components meet the design specifications. The description shall cover: Sampling size and locations; frequency of testing; data evaluation procedures; acceptance and rejection criteria for construction materials; plans for implementing corrective measures; and data or other information to be recorded and retained in the operating record under R315-8-5.3.

(c) Contents of program. (1) The CQA program shall include observations, inspections, tests, and measurements sufficient to ensure:

(i) Structural stability and integrity of all components of the unit identified in R315-8-2.10(a)(2);

(ii) Proper construction of all components of the liners, leachate collection and removal system, leak detection system, and final cover system, according to permit specifications and good engineering practices, and proper installation of all components, e.g., pipes, according to design specifications;

(iii) Conformity of all materials used with design and other material specifications under R315-8-11.2, R315-8-12.2, and R315-8-14.2.

(2) The CQA program shall include test fills for compacted soil liners, using the same compaction methods as in the full scale unit, to ensure that the liners are constructed to meet the hydraulic conductivity requirements of R315-8-11.2(c)(1)(i)(B), R315-8-12.2(c)(1)(i)(B), and R315-8-14.2(c)(1)(i)(B) in the field. Compliance with the hydraulic conductivity requirements shall be verified by using in-situ testing on the constructed test fill. The Executive Secretary may accept an alternative demonstration, in lieu of a test fill, where data are sufficient to show that a constructed soil liner will meet the hydraulic conductivity requirements of R315-8-11.2(c)(1)(i)(B), R315-8-12.2(c)(1)(i)(B), and R315-8-14.2(c)(1)(i)(B) in the field.

(d) Certification. Waste shall not be received in a unit subject to R315-8-2.10 until the owner or operator has submitted to the Executive Secretary by certified mail or hand delivery a certification signed by the CQA officer that the approved CQA plan has been successfully carried out and that the unit meets the requirements of R315-8-11.2(c) or (d), R315-8-12.2(c) or (d), or R315-8-14.2(c) or (d); and the procedure in R315-3-3.1(1)(2)(ii) has been completed. Documentation supporting the CQA officer's certification shall be furnished to the Executive Secretary upon request.

### **R315-8-3. Preparedness and Prevention.**

#### **3.1 APPLICABILITY**

The regulations in this section apply to the owners or operators of all hazardous waste management facilities, except as provided otherwise in R315-8-1.

#### **3.2 DESIGN AND OPERATION OF FACILITY**

Facilities shall be designed, constructed, maintained, and operated to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden discharge of hazardous waste or hazardous waste constituents to air, soil, groundwater, or surface water which could threaten the environment or human health.

#### **3.3 REQUIRED EQUIPMENT**

All facilities shall be equipped with the following, unless it can be demonstrated to the Board that there are no hazards at the facility which could require a particular kind of equipment specified below:

(a) An internal communications or alarm system capable of providing immediate emergency instruction, voice or signal, to facility employees;

(b) A device capable of summoning external emergency

assistance from local law enforcement agencies, fire departments, or State or local emergency response teams, such as a telephone, immediately available at the scene of operations, or a hand-held two-way radio;

(c) Portable fire extinguishers, fire control equipment, including special extinguishing equipment, such as that using foam, inert gas, or dry chemicals, discharge control equipment, and decontamination equipment; and

(d) Water at adequate volume and pressure to supply water hose streams, or foam producing equipment, or automatic sprinklers, or water spray systems. This demonstration shall be made with the part B permit application.

#### **3.4 TESTING AND MAINTENANCE OF EQUIPMENT**

All facility communications or alarm systems, fire protection equipment, safety equipment, discharge control equipment, and decontamination equipment, where required, shall be tested and maintained as necessary to assure its proper operation in time of emergency.

#### **3.5 ACCESS TO COMMUNICATIONS OR ALARM SYSTEM**

(a) Whenever hazardous waste is being poured, mixed, spread, or otherwise handled, all employees involved in the operation shall have immediate access to an internal alarm or emergency communication device, either directly or through visual or voice contact with another employee, unless the Board has ruled that this type of a device is not required under R315-8-3.3.

(b) If there is just one employee on the premises while the facility is operating, he shall have immediate access to a device capable of summoning external emergency assistance, such as a telephone, immediately available at the scene of operation, or a hand-held two-way radio, unless the Board has ruled that this type of a device is not required under R315-8-3.3.

#### **3.6 REQUIRED AISLE SPACE**

The facility owner or operator shall maintain aisle space to allow the unobstructed movement of personnel, fire protection equipment, discharge control equipment, and decontamination equipment to any area of facility operation in an emergency, unless it can be demonstrated to the Board that aisle space is not needed for any of these purposes. This demonstration shall be made with the part B permit application.

#### **3.7 ARRANGEMENTS WITH LOCAL AUTHORITIES**

(a) The owner or operator shall attempt to make the following arrangements, as appropriate for the type of waste handled at his facility and the potential need for the services of these organizations:

(1) Arrangements to familiarize law enforcement agencies, fire departments, and emergency response teams with the layout of the facility, properties of hazardous waste handled at the facility and associated hazards, places where facility personnel would normally be working, entrances to and roads inside the facility, and possible evacuation routes;

(2) Where more than one law enforcement agency and fire department might respond to an emergency, agreements designating primary emergency authority to a specific law enforcement agency and a specific fire department, and agreements with any others to provide support to the primary emergency authority;

(3) Agreements with State emergency response teams, emergency response contractors, and equipment suppliers; and

(4) Arrangements to familiarize local hospitals with the properties of hazardous waste handled at the facility and the types of injuries or illnesses which could result from fires, explosions, or releases at the facility.

(b) Where State or local authorities decline to enter into these arrangements, the owner or operator shall document the refusal in the operating record.

### **R315-8-4. Contingency Plan and Emergency Procedures.**

#### 4.1 APPLICABILITY

The regulations in this section apply to the owners and operators of all hazardous waste management facilities, except as provided otherwise in R315-8-1(e).

#### 4.2 PURPOSE AND IMPLEMENTATION OF CONTINGENCY PLAN

(a) Each owner or operator shall have a contingency plan for his facility. The contingency plan shall be designed to minimize hazards to human health or the environment from fires, explosions, or any unplanned sudden or non-sudden discharge of hazardous waste or hazardous waste constituents to air, soil, groundwater, or surface water.

(b) The provisions of the plan shall be carried out immediately whenever there is a fire, explosion, or discharge of hazardous waste or hazardous waste constituents which could threaten the environment or human health.

#### 4.3 CONTENT OF CONTINGENCY PLAN

(a) The plan shall describe the actions facility personnel shall take to comply with R315-8-4.2 and R315-8-4.7 in response to fires, explosions or any unplanned sudden or non-sudden discharge of hazardous waste or hazardous waste constituents to air, soil, or surface water at the facility. If a facility owner or operator already has prepared a Spill Prevention, Control and Countermeasures (SPCC) Plan in accordance with 40 CFR 112, or some other emergency or contingency plan, he need only amend that plan to incorporate hazardous waste management provisions sufficient to comply with the requirements of this section.

(b) The plan shall describe arrangements agreed to by local law enforcement agencies, fire departments, hospitals, contractors, and State and local emergency response teams to coordinate emergency services pursuant to R315-8-3.7.

(c) The plan shall list names, addresses and phone numbers, office and home, of all persons qualified to act as facility emergency coordinator, see R315-8-4.6, and this list shall be kept up-to-date. Where more than one person is listed, one shall be named as primary emergency coordinator and others shall be listed in the order in which they assume responsibility as alternates. For new facilities, this information shall be supplied to the Board before operations begin rather than at the time of submission of the plan.

(d) The plan shall include a list of all emergency equipment at the facility, such as fire extinguishing systems, discharge control equipment, communications and alarm systems, internal and external, and decontamination equipment, where this equipment is required. This list shall be kept up-to-date. In addition, the plan shall include the location and a physical description of each item on the list, and a brief outline of its capabilities.

(e) The plan shall include an evacuation plan for facility personnel where there is a possibility that evacuation could be necessary. This plan shall describe signal(s) to be used to begin evacuation, evacuation routes, and alternate evacuation routes, in cases where the primary routes could be blocked by discharges of hazardous waste or fires.

#### 4.4 COPIES OF A CONTINGENCY PLAN

A copy of the contingency plan and all revisions to the plan shall be:

- (a) Maintained at the facility;
- (b) Made available upon request; and

(c) Submitted to all local law enforcement agencies, fire departments, hospitals, and State and local emergency response teams that may be called upon to provide emergency services.

The contingency plan shall be submitted to the Board with part B of the permit application under R315-3 and after modification or approval will become a condition of any permit issued.

#### 4.5 AMENDMENT OF CONTINGENCY PLAN

The contingency plan shall be reviewed, and immediately

amended, if necessary, under any of the following circumstances:

- (a) Revisions to the facility permit;
- (b) Failure of the plan in an emergency;
- (c) Changes in the facility design, construction, operation, maintenance, or other circumstances that materially increase the potential for fires, explosions, or discharges of hazardous waste or hazardous waste constituents, or changes the response necessary in an emergency;
- (d) Changes in the list of emergency coordinators; or
- (e) Changes in the list of emergency equipment.

#### 4.6 EMERGENCY COORDINATOR

At all times there shall be at least one employee either present on the facility premises or on call, i.e., available to respond to an emergency by reaching the facility within a short time period, with the responsibility for coordinating all emergency response measures. This facility emergency coordinator shall be thoroughly familiar with all aspects of the facility's contingency plan, all operations and activities at the facility, the location and characteristics of waste handled, the location of manifests and all other records within the facility, and the facility layout. In addition, this person shall have the authority to commit the resources needed to carry out the contingency plan. The emergency coordinator's responsibilities are more fully spelled out in R315-8-4.7. Applicable responsibilities for the emergency coordinator vary, depending on factors such as type and variety of waste(s) handled by the facility, and type and complexity of the facility.

#### 4.7 EMERGENCY PROCEDURES

(a) Whenever there is an imminent or actual emergency situation, the facility's emergency coordinator, or his designee when the emergency coordinator is on call, shall immediately:

- (1) Activate internal facility alarms or communication systems, where applicable, to notify all facility personnel; and
- (2) Notify appropriate State or local agencies with designated response roles whenever their assistance is needed.

(b) In the event of a discharge, fire, or explosion, the facility's emergency coordinator shall immediately identify the character, exact source, amount, and areal extent of any discharged materials. He may do this by observation or review of facility records or manifests, and, if necessary, by chemical analysis.

(c) Concurrently, the facility's emergency coordinator shall assess possible hazards to the environment or human health that may result from the discharge, fire, or explosion. This assessment shall consider both direct and indirect effects of the discharge, fire, or explosion, e.g., the effects of any toxic, irritating, or asphyxiating gases that are generated, or the effects of any hazardous surface water run-off or hazardous groundwater infiltration from water or chemical agents used to control fire and heat-induced explosions.

(d) The facility's emergency coordinator shall immediately report his assessment that the facility has had a discharge, fire, or explosion which could threaten human health, or the environment, outside the facility, as follows:

(1) If his assessment indicates that evacuation of local areas may be advisable, he shall immediately notify appropriate local authorities. He shall be available to assist appropriate officials in making the decision whether local areas should be evacuated; and

(2) He shall immediately notify both the Utah State Department of Environmental Quality as specified in R315-9 and the government official designated as the on-scene coordinator for that geographical area, in the applicable regional contingency plan, or the National Response Center (800/424-8802). The report shall include:

- (i) Name and telephone number of reporter;
- (ii) Name and address of facility;
- (iii) Time and type of incident, e.g., discharge, fire;

(iv) Name and quantity of material(s) involved, to the extent available;

(v) The extent of injuries, if any; and

(vi) The possible hazards to human health, or the environment, outside the facility.

(e) During an emergency, the facility's emergency coordinator shall take all reasonable measures necessary to ensure that fires, explosions, and discharges do not occur, recur, or spread to other hazardous waste at the facility. These measures shall include, where applicable, stopping processes and operations, collecting and containing discharged waste, and removing or isolating containers.

(f) If the facility stops operations in response to a discharge, fire, or explosion, the facility's emergency coordinator shall monitor for leaks, pressure buildup, gas generation, or ruptures in valves, pipes, or other equipment, wherever this is appropriate.

(g) Immediately after an emergency, the emergency coordinator shall provide for treating, storing, or disposing of recovered waste, contaminated soil or surface water, or any other material that results from a discharge, fire, or explosion at the facility. The recovered material shall be handled and managed as a hazardous waste unless it is analyzed and determined not to be, using the procedures specified in R315-2.

(h) The facility's emergency coordinator shall ensure that, in the affected area(s) of the facility:

(1) No waste that may be incompatible with the released material is treated, stored, or disposed of until cleanup procedures are completed; and

(2) All emergency equipment listed in the contingency plan is cleaned and fit for its intended use before operations are resumed.

(i) The facility owner or operator shall notify the Executive Secretary and other appropriate State and local authorities, that the facility is in compliance with R315-8-4.7(h) before operations are resumed in the affected area(s) of the facility.

(j) The facility owner or operator shall record in the operating record the time, date, and nature of any incident that requires implementing the contingency plan. Within 15 days after the incident, he shall submit a written report on the emergency to the Executive Secretary. The report shall include:

(1) Name, address, and telephone number of the owner or operator;

(2) Name, address, and telephone number of the facility;

(3) Date, time, and type of incident, e.g., fire, discharge;

(4) Name and quantity of material(s) involved;

(5) The extent of injuries, if any;

(6) An assessment of actual or potential hazards to the environment or human health, where this is applicable; and

(7) Estimated quantity and disposition of recovered material that resulted from the incident.

### **R315-8-5. Manifest System, Recordkeeping, and Reporting.**

#### **5.1 APPLICABILITY**

(a) The rules in R315-8-5 apply to owners and operators of both on-site and off-site facilities, except as provided otherwise in R315-8-1, R315-8-5.2, R315-8-5.4, and R315-8-5.7 do not apply to owners and operators of on-site facilities that do not receive hazardous waste from off-site sources, nor to owners and operators of off-site facilities with respect to waste military munitions exempted from manifest requirements under 40 CFR 266.203(a). R315-8-5.3, which incorporates by reference 40 CFR 264.73(b) only applies to permittees who treat, store, or dispose of hazardous wastes on-site where such wastes were generated.

(b) The revised Manifest form and procedures in R315-1-1, which incorporates by reference 40 CFR 260.10, R315-2-7, R315-8-5.1, R315-8-5.2, R315-8-5.4, and R315-8-5.7, contained in R315-1 to R315-8, edition revised as of September

15, 2004, shall be applicable until September 5, 2006.

#### **5.2 USE OF MANIFEST SYSTEM**

(a)(1) If a facility receives hazardous waste accompanied by a manifest, the owner or operator, or his agent, shall sign and date the manifest as indicated in R315-8-5.2(a)(2) to certify that the hazardous waste covered by the manifest was received, that the hazardous waste was received except as noted in the discrepancy space of the manifest, or that the hazardous waste was rejected as noted in the manifest discrepancy space.

(2) If a facility receives a hazardous waste shipment accompanied by a manifest, the owner, operator or his agent shall:

(i) Sign and date, by hand, each copy of the manifest;

(ii) Note any discrepancies in the manifest, as defined in R315-8-5.4(a), on each copy of the manifest;

(iii) Immediately give the transporter at least one copy of the signed manifest;

(iv) Within 30 days of the delivery, send a copy of the manifest to the generator; and

(v) Retain at the facility a copy of each manifest for at least three years from the date of delivery.

(3) If a facility receives hazardous waste imported from a foreign source, the receiving facility shall mail a copy of the manifest to the following addresses within 30 days of delivery: International Compliance Assurance Division, OFA/OECA (2254A), U.S. Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania Avenue, NW., Washington DC 20460 and Utah Division of Solid and Hazardous Waste, P O Box 144880, Salt Lake City, Utah 84114-4880.

(b) If a facility receives, from a rail or water (bulk shipment) transporter, hazardous waste which is accompanied by a shipping paper containing all the information required on the manifest (excluding the EPA identification numbers, generator's certification, and signatures), the owner or operator, or his agent, shall:

(1) Sign and date each copy of the manifest or shipping paper (if the manifest has not been received) to certify that the hazardous waste covered by the manifest or shipping paper was received;

(2) Note any significant discrepancies, as defined in R315-8-5.4(a), in the manifest or shipping paper (if the manifest has not been received) on each copy of the manifest or shipping paper.

Comment: The Agency does not intend that the owner or operator of a facility whose procedures under R315-8-2.4, which incorporates by reference 40 CFR 264.13(c), include waste analysis shall perform that analysis before signing the shipping paper and giving it to the transporter. R315-8-5.4(b), however, requires reporting an unreconciled discrepancy discovered during later analysis.

(3) Immediately give the rail or water (bulk shipment) transporter at least one copy of the manifest or shipping paper (if the manifest has not been received);

(4) Within 30 days after the delivery, send a copy of the signed and dated manifest or a signed and dated copy of the shipping paper (if the manifest has not been received within 30 days after delivery) to the generator; and

Comment: R315-5-2.23(c) requires the generator to send three copies of the manifest to the facility when hazardous waste is sent by rail or water (bulk shipment).

(5) Retain at the facility a copy of the manifest and shipping paper (if signed in lieu of the manifest at the time of delivery) for at least three years from the date of delivery.

(c) Whenever a shipment of hazardous waste is initiated from a facility, the owner or operator of that facility shall comply with the requirements of R315-5.

Comment: The provisions of R315-5-3.34, which incorporates by reference 40 CFR 262.34, are applicable to the on-site accumulation of hazardous wastes by generators.

Therefore, the provisions of R315-5-3.34, which incorporates by reference 40 CFR 262.34, only apply to owners or operators who are shipping hazardous waste which they generated at that facility.

(d) Within three working days of the receipt of a shipment subject to R315-5-8, which incorporates by reference 40 CFR 262, subpart H, the owner or operator of the facility shall provide a copy of the tracking document bearing all required signatures to the notifier, to the Office of Enforcement and Compliance Assurance, Office of Compliance, Enforcement Planning, Targeting and Data Division (2222A), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, and to competent authorities of all other concerned countries. The original copy of the tracking document shall be maintained at the facility for at least three years from the date of signature.

(e) A facility shall determine whether the consignment state for a shipment regulates any additional wastes (beyond those regulated Federally) as hazardous wastes under its state hazardous waste program. Facilities shall also determine whether the consignment state or generator state requires the facility to submit any copies of the manifest to these states.

### 5.3 OPERATING RECORD

The requirements as found in 40 CFR 264.73, 2000 ed., are adopted and incorporated by reference.

### 5.4 MANIFEST DISCREPANCIES

(a) Manifest discrepancies are:

(1) Significant differences (as defined by R315-8-5.4(b)) between the quantity or type of hazardous waste designated on the manifest or shipping paper, and the quantity and type of hazardous waste a facility actually receives;

(2) Rejected wastes, which may be a full or partial shipment of hazardous waste that the treatment, storage, or disposal facility cannot accept; or

(3) Container residues, which are residues that exceed the quantity limits for "empty" containers set forth in R315-2-7(b).

(b) Significant discrepancies in quantity are: for batch waste, any variation in piece count, such as a discrepancy of one drum in a truckload; for bulk waste, variations greater than 10 percent in weight. Significant discrepancies in type are obvious differences which can be discovered by inspection or waste analysis, such as waste solvent substituted for waste acid, or toxic constituents not reported on the manifest or shipping paper.

(c) Upon discovering a significant discrepancy, the owner or operator shall attempt to reconcile the discrepancy with the waste generator or transporter, e.g., with telephone conversations. If the discrepancy is not resolved within 15 days after receiving the waste, the owner or operator shall immediately submit to the Executive Secretary a letter describing the discrepancy and attempts to reconcile it, and a copy of the manifest or shipping paper at issue.

(d)(1) Upon rejecting waste or identifying a container residue that exceeds the quantity limits for "empty" containers set forth in R315-2-7(b), the facility shall consult with the generator prior to forwarding the waste to another facility that can manage the waste. If it is impossible to locate an alternative facility that can receive the waste, the facility may return the rejected waste or residue to the generator. The facility shall send the waste to the alternative facility or to the generator within 60 days of the rejection or the container residue identification.

(2) While the facility is making arrangements for forwarding rejected wastes or residues to another facility under R315-8-5.4, it must ensure that either the delivering transporter retains custody of the waste, pending delivery of the waste to the first transporter designated on the manifest prepared under R315-8-5.4(e) or (f).

(e) Except as provided in R315-8-5.4(e)(7), for full or partial load rejections and residues that are to be sent off-site to

an alternate facility, the facility is required to prepare a new manifest in accordance with R315-5-2.20(a) and the following instructions:

(1) Write the generator's U.S. EPA ID number in Item 1 of the new manifest. Write the generator's name and mailing address in Item 5 of the new manifest. If the mailing address is different from the generator's site address, then write the generator's site address in the designated space for Item 5.

(2) Write the name of the alternate designated facility and the facility's U.S. EPA ID number in the designated facility block (Item 8) of the new manifest.

(3) Copy the manifest tracking number found in Item 4 of the old manifest to the Special Handling and Additional Information Block of the new manifest, and indicate that the shipment is a residue or rejected waste from the previous shipment.

(4) Copy the manifest tracking number found in Item 4 of the new manifest to the manifest reference number line in the Discrepancy Block of the old manifest (Item 18a) of R315.

(5) Write the DOT description for the rejected load or the residue in Item 9 (U.S. DOT Description) of the new manifest and write the container types, quantity, and volume(s) of waste.

(6) Sign the Generator's/Officer's Certification to certify, as the offeror of the shipment, that the waste has been properly packaged, marked, and labeled and is in proper condition for transportation.

(7) For full load rejections that are made while the transporter remains present at the facility, the facility may forward the rejected shipment to the alternate facility by completing Item 18b of the original manifest and supplying the information on the next destination facility in the Alternate Facility space. The facility shall retain a copy of this manifest for its records, and then give the remaining copies of the manifest to the transporter to accompany the shipment. If the original manifest is not used, then the facility shall use a new manifest and comply with R315-8-5.4(e)(1), (2), (3), (4), (5), and (6).

(f) Except as provided in R315-8-5.4(f)(7), for rejected wastes and residues that shall be sent back to the generator, the facility is required to prepare a new manifest in accordance with R315-5-2.20(a) and the following instructions:

(1) Write the facility's U.S. EPA ID number in Item 1 of the new manifest. Write the generator's name and mailing address in Item 5 of the new manifest. If the mailing address is different from the generator's site address, then write the generator's site address in the designated space for Item 5.

(2) Write the name of the initial generator and the generator's U.S. EPA ID number in the designated facility block (Item 8) of the new manifest.

(3) Copy the manifest tracking number found in Item 4 of the old manifest to the Special Handling and Additional Information Block of the new manifest, and indicate that the shipment is a residue or rejected waste from the previous shipment.

(4) Copy the manifest tracking number found in Item 4 of the new manifest to the manifest reference number line in the Discrepancy Block of the old manifest (Item 18a).

(5) Write the DOT description for the rejected load or the residue in Item 9 (U.S. DOT Description) of the new manifest and write the container types, quantity, and volume(s) of waste.

(6) Sign the Generator's/Officer's Certification to certify, as offeror of the shipment, that the waste has been properly packaged, marked, and labeled and is in proper condition for transportation.

(7) For full load rejections that are made while the transporter remains at the facility, the facility may return the shipment to the generator with the original manifest by completing Item 18a and 18b of the manifest and supplying the generator's information in the Alternate Facility space. The

facility shall retain a copy for its records and then give the remaining copies of the manifest to the transporter to accompany the shipment. If the original manifest is not used, then the facility shall use a new manifest and comply with R315-8-5.4(f)(1), (2), (3), (4), (5), and (6).

(g) If a facility rejects a waste or identifies a container residue that exceeds the quantity limits for "empty" containers set for in R315-2-7(b) after it has signed, date, and returned a copy of the manifest to the delivering transporter or to the generator, the facility shall amend its copy of the manifest to indicate the rejected wastes or residues in the discrepancy space of the amended manifest. The facility shall also copy the manifest tracking number from Item 4 of the new manifest to the Discrepancy space of the amended manifest, and shall re-sign and date the manifest to certify to the information as amended. The facility shall retain the amended manifest for at least three years from the date of amendment, and shall within 30 days, send a copy of the amended manifest to the transporter and generator that received copies prior to their being amended.

#### 5.5 AVAILABILITY, RETENTION, AND DISPOSITION OF RECORDS

(a) Records of waste disposal locations and quantities required to be maintained under R315-8-5.3, which incorporates by reference 40 CFR 264.73(b)(2) shall be submitted to the Board and local land authority upon closure of the facility.

(b) The retention period for all records required under this section is extended automatically during the course of any unresolved enforcement action regarding the facility or as requested by the Executive Secretary.

(c) All records, including plans, required under R315-8 shall be furnished upon request, and made available at all reasonable times for inspection.

#### 5.6 BIENNIAL REPORT

Owners or operators of facilities that treat, store, or dispose of hazardous waste shall prepare and submit a single copy of a biennial report to the Board by March 1 of each even numbered year. The biennial report shall be submitted on EPA form 8700-13B. The biennial report shall cover facility activities during the previous calendar year and shall include the following information:

(a) The EPA identification number, name, and address of the facility;

(b) The calendar year covered by the report;

(c) For off-site facilities, the EPA identification number of each hazardous waste generator from which a hazardous waste was received during the year; for imported shipments, the name and address of the foreign generator shall be given in the report;

(d) A description and the quantity of each hazardous waste received by the facility during the year. For off-site facilities, this information shall be listed by EPA identification number of each generator;

(e) The method(s) of treatment, storage, or disposal for each hazardous waste; and

(f) The most recent closure cost estimate under R315-8-8, which incorporates by reference 40 CFR 264.140 - 264.151, and for disposal facilities, the most recent post-closure cost estimate under R315-8-8, which incorporates by reference 40 CFR 264.140 - 264.151; and

(g) For generators who treat, store, or dispose of hazardous waste on-site, a description of the efforts undertaken during the year to reduce the volume and toxicity of waste generated;

(h) For generators who treat, store, or dispose of hazardous waste on-site, a description of the changes in volume and toxicity of waste actually achieved during the year in comparison to previous years to the extent the information is available for the years prior to 1984;

(i) The certification signed by the owner or operator of the facility or his authorized representative.

#### 5.7 UNMANIFESTED WASTE REPORT

(a) If a facility accepts for treatment, storage, or disposal any hazardous waste from an off-site source without an accompanying manifest, or without an accompanying shipping paper as described in R315-6-2.20(e)(2), and if the waste is not excluded from the manifest requirement of R315, then the owner or operator shall prepare and submit a letter to the Executive Secretary within 15 days of the receipt of the waste. The unmanifested waste report shall include the following information:

(1) The EPA identification number, name, and address of the facility;

(2) The date of receipt of the waste;

(3) The EPA identification number, name and address of the generator and the transporter, if available;

(4) A description and the quantity of each unmanifested hazardous waste the facility received;

(5) The method of treatment, storage, or disposal for each hazardous waste;

(6) The certification signed by the owner or operator of the facility or his authorized representative; and

(7) A brief explanation of why the waste was unmanifested, if known.

#### 5.8 ADDITIONAL REPORTS

In addition to the biennial and unmanifested waste reporting requirements described in R315-8-5.6 and R315-8, a facility owner operator shall also report the following to the Board:

(a) Discharges, fires, and explosions as specified in R315-8-4.7(j);

(b) Upon its request, all information as the Board may deem necessary to determine compliance with the requirements of R315-8;

(c) Facility closure as specified in R315-8-7, which incorporates by reference 40 CFR 264.110 - 264.120; and

(d) As otherwise required in R315-8-6, R315-8-11, R315-8-12, R315-8-13, R315-8-14, R315-8-17, which incorporates by reference 40 CFR 264.1030 - 264.1036, R315-8-18, which incorporates by reference 40 CFR 264.1050 - 264.1065, and R315-8-22, which incorporates by reference 40 CFR 264.1080 - 264.1090.

#### R315-8-6. Groundwater Protection.

##### 6.1 APPLICABILITY

(a)(1) Except as provided in R315-8-6.1(b), R315-8-6 applies to owners or operators of facilities that treat, store or dispose of hazardous waste. The owner or operator shall satisfy the requirements identified in R315-8-6.1(a)(2) for all wastes, or constituents thereof, contained in solid waste management units at the facility, regardless of the time at which waste was placed in the units.

(2) All solid waste management units shall comply with the requirements in R315-8-6.12. A surface impoundment, waste pile, and land treatment unit or landfill that receives hazardous waste after July 26, 1982, hereinafter referred to as a "regulated unit", shall comply with the requirements of R315-8-6.2 through R315-8-6.11 in lieu of R315-8-6.12 for purposes of detecting, characterizing and responding to releases to the uppermost aquifer. The financial responsibility requirements of R315-8-6.12 apply to regulated units.

(3) Groundwater monitoring shall be required at non-land disposal facilities as determined to be necessary and appropriate by the Executive Secretary.

(b) The owner or operator's regulated unit or units are not subject to regulation for releases into the uppermost aquifer under R315-8-6 if:

(1) The owner or operator is exempted under R315-8-1(e)

or (2) He operates a unit which the Board finds:

(i) Is an engineered structure.

(ii) Does not receive or contain liquid waste or waste containing free liquid.

(iii) Is designed and operated to exclude liquid, precipitation, and other run-on and run-off.

(iv) Has both inner and outer layers of containment enclosing the waste.

(v) Has a leak detection system built into each containment layer.

(vi) The owner or operator will provide continuing operation and maintenance of these leak detection systems during the active life of the unit and the closure and post-closure care periods, and

(vii) To a reasonable degree of certainty, will not allow hazardous constituents to migrate beyond the outer containment layer prior to the end of the post-closure care period.

(3) The Board finds pursuant to R315-8-13.11(d) that the treatment zone of a land treatment unit that qualifies as a regulated unit does not contain levels of hazardous constituents that are above background levels of those constituents by an amount that is statistically significant, and if an unsaturated zone monitoring program meeting the requirements of R315-8-13.9 has not shown a statistically significant increase in hazardous constituents below the treatment zone during the operating life of the unit. An exemption under this paragraph can only relieve an owner or operator of responsibility to meet the requirements of this subpart during the post-closure care period; or

(4) The Board finds that there is no potential for migration of liquid from a regulated unit to the uppermost aquifer during the active life of the regulated unit, including the closure period and the post-closure care period specified under R315-8-7, which incorporates by reference 40 CFR 264.110 - 264.120. This demonstration shall be certified by a qualified geologist or geotechnical engineer. In order to provide an adequate margin of safety in the prediction of potential migration of liquid, the owner or operator shall base any predictions made under this paragraph on assumptions that maximize the rate of liquid migration.

(5) He designs and operates a waste pile in compliance with R315-8-12.1(c).

(c) The regulations under this section apply during the active life of the regulated unit, including the closure period. After closure of the regulated unit, the regulations in this section:

(1) Do not apply if the waste, waste residues, contaminated containment system components, and contaminated soils are removed or decontaminated at closure;

(2) Apply during the post-closure care period under R315-8-7, which incorporates by reference 40 CFR 264.110 - 264.120, if the owner or operator is conducting a detection monitoring program under R315-8-6.9;

(3) Apply during the compliance period under R315-8-6.7 the owner is conducting a compliance monitoring program under R315-8-6.10 or a corrective action program under R315-8-6.11.

(d) Requirements in this section may apply to miscellaneous units when necessary to comply with R315-8-24, which incorporates by reference 40 CFR 264.601 - 264.603.

(e) The regulations of R315-8-6 apply to all owners and operators subject to the requirements of R315-3-1.1(e)(7), when the Executive Secretary issues either a post-closure permit or an enforceable document, as defined in R315-3-1.1(e)(7), at the facility. When the Executive Secretary issues an enforceable document, references in R315-8-6 to "in the permit" mean "in the enforceable document."

(f) The Executive Secretary may replace all or part of the requirements of R315-8-6.2 through R315-8-6.11 applying to a regulated unit with alternative requirements for groundwater monitoring and corrective action for releases to groundwater set out in the permit, or in an enforceable document, as defined in

R315-3-1.1(e)(7) where the Executive Secretary determines that:

(1) The regulated unit is situated among solid waste management units, or areas of concern, a release has occurred, and both the regulated unit and one or more solid waste management unit(s), or areas of concern, are likely to have contributed to the release; and

(2) It is not necessary to apply the groundwater monitoring and corrective action requirements of R315-8-6.2 through R315-8-6.11 because alternative requirements will protect human health and the environment.

#### 6.2 REQUIRED PROGRAMS

(a) Owners and operators subject to this section shall conduct a monitoring and response program as follows:

(1) Whenever hazardous constituents under R315-8-6.4, from a regulated unit are detected at the compliance point under R315-8-6.6, the owner or operator shall institute a compliance monitoring program under R315-8-6.10. Detected is defined as statistically significant evidence of contamination as described in R315-8-6.9(f);

(2) Whenever the groundwater protection standard under R315-8-6.3, is exceeded, the owner or operator shall institute a corrective action program under R315-8-6.11. "Exceeded" is defined as statistically significant evidence of increased contamination as described in R315-8-6.10(d);

(3) Whenever hazardous constituents under R315-8-6.4, from a regulated unit exceed concentration limits under R315-8-6.5 in groundwater between the compliance point under R315-8-6.6 and the downgradient facility property boundary, the owner or operator shall institute a corrective action program under R315-8-6.11; or

(4) In all other cases, the owner or operator shall institute a detection monitoring program under R315-8-6.9.

(b) The Executive Secretary will specify in the facility permit the specific elements of the monitoring and response program. The Executive Secretary may include one or more of the programs identified in R315-8-6.2(a) in the facility permit as may be necessary to protect human health and the environment and will specify the circumstances under which each of the programs will be required. In deciding whether to require the owner or operator to be prepared to institute a particular program, the Executive Secretary will consider the potential adverse effects on human health and the environment that might occur before final administrative action on a permit modification application to incorporate this type of a program could be taken.

#### 6.3 GROUNDWATER PROTECTION STANDARD

The owner or operator shall comply with conditions specified in the facility permit that are designed to ensure that hazardous constituents under R315-8-6.4 that are detected in the groundwater from a regulated unit do not exceed the concentration limits under R315-8-6.5 in the uppermost aquifer underlying the waste management area beyond the point of compliance under R315-8-6.6 during the compliance period under R315-8-6.7. The Executive Secretary will establish this groundwater protection standard in the facility permit when hazardous constituents have been detected in the groundwater.

#### 6.4 HAZARDOUS CONSTITUENTS

(a) The Executive Secretary will specify in the facility permit the hazardous constituents to which the groundwater protection standard of R315-8-6.3 applies. Hazardous constituents are constituents identified in R315-50-10, which incorporates by reference 40 CFR 261, Appendix VIII, that have been detected in groundwater in the uppermost aquifer underlying a regulated unit and that are reasonably expected to be in or derived from waste contained in a regulated unit, unless the Executive Secretary has excluded them under paragraph 8.6.4(b).

(b) The Executive Secretary will exclude an R315-50-10

constituent from the list of hazardous constituents specified in the facility permit if he finds that the constituent is not capable of posing a substantial present or potential hazard to human health or the environment. In deciding whether to grant an exemption, the Executive Secretary will consider the following:

(1) Potential adverse effects on groundwater quality, considering:

(i) The physical and chemical characteristics of the waste in the regulated unit, including its potential for migration;

(ii) The hydrogeological characteristics of the facility and surrounding land;

(iii) The quantity of groundwater and the direction of groundwater flow;

(iv) The proximity and withdrawal rates of groundwater users;

(v) The current and future uses of groundwater in the area;

(vi) The existing quality of groundwater, including other sources of contamination and their cumulative impact on the groundwater quality;

(vii) The potential for health risks caused by human exposure to waste constituents;

(viii) The potential damage to wildlife, crops, vegetation, and physical structures caused by exposure to waste constituents;

(ix) The persistence and permanence of the potential adverse effects; and

(2) Potential adverse effects on hydraulically-connected surface water quality, considering:

(i) The volume and physical and chemical characteristics of the waste in the regulated unit;

(ii) The hydrogeological characteristics of the facility and surrounding land;

(iii) The quantity and quality of groundwater and the direction of groundwater flow;

(iv) The patterns of rainfall in the region;

(v) The proximity of the regulated unit to surface waters;

(vi) The current and future uses of surface waters in the area and any water quality standards established for those surface waters;

(vii) The existing quality of surface water, including other sources of contamination and the cumulative impact on surface water quality;

(viii) The potential for health risks caused by human exposure to waste constituents;

(ix) The potential damage to wildlife, crops, vegetation, and physical structures caused by exposure to waste constituents; and

(x) The persistence and permanence of the potential adverse effects.

(c) In making any determination under R315-8-6.4(b) about the use of groundwater in the area around the facility, the Executive Secretary will consider any identification of underground sources of drinking water.

6.5 CONCENTRATION LIMITS

(a) The Executive Secretary will specify in the facility permit concentration limits in the groundwater for hazardous constituents established under R315-8-6.4. The concentration of a hazardous constituent:

(1) Shall not exceed the background level of that constituent in the groundwater at the time that limit is specified in the permit; or

(2) For any of the constituents listed in Table 1, shall not exceed the respective value given in that Table if the background level of the constituent is below the value given in Table 1; or

(3) Shall not exceed an alternate limit established by the Executive Secretary under R315-8-6.5(b).

(b) The Executive Secretary will establish an alternate concentration limit for a hazardous constituent if they find that the constituent will not pose a substantial present or potential hazard to human health or the environment as long as the alternate concentration limit is not exceeded. In establishing alternate concentration limits, the Executive Secretary will consider the following factors:

(1) Potential adverse effects on groundwater quality, considering:

(i) The physical and chemical characteristics of the waste in the regulated unit, including its potential for migration;

(ii) The hydrogeological characteristics of the facility and surrounding land;

(iii) The quantity of groundwater and the direction of groundwater flow;

(iv) The proximity and withdrawal rates of groundwater users;

(v) The current and future uses of groundwater in the area;

(vi) The existing quality of groundwater, including other sources of contamination and their cumulative impact on the groundwater quality;

(vii) The potential for health risks caused by human exposure to waste constituents;

(viii) The potential damage to wildlife, crops, vegetation, and physical structures caused by exposure to waste constituents;

(ix) The persistence and permanence of the potential adverse effects; and

(2) Potential adverse effects on hydraulically connected surface water quality, considering:

(i) The volume and physical and chemical characteristics of the waste in the regulated unit;

(ii) The hydrogeological characteristics of the facility and surrounding land;

(iii) The quantity and quality of groundwater, and the

direction of groundwater flow;

- (iv) The patterns of rainfall in the region;
- (v) The proximity of the regulated unit to surface waters;
- (vi) The current and future uses of surface waters in the area and any water quality standards established for those surface waters;
- (vii) The existing quality of surface water, including other sources of contamination and the cumulative impact on surface water quality;
- (viii) The potential for health risks caused by human exposure to waste constituents;
- (ix) The potential damage to wildlife, crops, vegetation, and physical structures caused by exposure to waste constituents; and
- (x) The persistence and permanence of the potential adverse effects.

(c) In making any determination under R315-8-6.5(b) about the use of groundwater in the area around the facility the Board will consider any identification of underground sources of drinking water.

#### 6.6 POINT OF COMPLIANCE

(a) The Executive Secretary will specify in the facility permit the point of compliance at which the groundwater protection standard of R315-8-6.3 applies and at which monitoring shall be conducted. The point of compliance is a vertical surface located at the hydraulically downgradient limit of the waste management area that extends down into the uppermost aquifer underlying the regulated units.

(b) The waste management area is the limit projected in the horizontal plane of the area on which waste will be placed during the active life of a regulated unit.

(1) The waste management area includes horizontal space taken up by any liner, dike, or other barrier designed to contain waste in a regulated unit.

(2) If the facility contains more than one regulated unit, the waste management area is described by an imaginary line circumscribing the several regulated units.

#### 6.7 COMPLIANCE PERIOD

(a) The Executive Secretary will specify in the facility permit the compliance period during which the groundwater protection standard of R315-8-6.3 applies. The compliance period is the number of years equal to the active life of the waste management area, including any waste management activity prior to permit and the closure period.

(b) The compliance period begins when the owner or operator initiates a compliance monitoring program meeting the requirements of R315-8-6.9.

(c) If the owner or operator is engaged in a corrective action program at the end of the compliance period specified in R315-8-6.7(a), the compliance period is extended until the owner or operator can demonstrate that the groundwater protection standard of R315-8-6.3 has not been exceeded for a period of three consecutive years.

#### 6.8 GENERAL GROUNDWATER MONITORING REQUIREMENTS

The owner or operator shall comply with the following requirements for any groundwater monitoring program developed to satisfy R315-8-6.9, R315-8-6.10, or R315-8-6.11:

(a) The groundwater monitoring system shall consist of a sufficient number of wells, installed at appropriate locations and depths to yield groundwater samples from the uppermost aquifer that:

(1) Represent the quality of background water that has not been affected by leakage from a regulated unit;

(i) A determination of background quality may include sampling of wells that are not hydraulically upgradient of the waste management area where:

(A) hydrogeologic conditions do not allow the owner or operator to determine what wells are hydraulically upgradient;

and

(B) Sampling at other wells will provide an indication of background groundwater quality that is representative or more representative than that provided by the upgradient wells;

(2) represent the quality of groundwater passing the point of compliance; and

(3) allow for the detection of contamination when hazardous waste or hazardous constituents have migrated from the waste management area to the uppermost aquifer.

(b) If a facility contains more than one regulated unit, separate groundwater monitoring systems are not required for each regulated unit provided that provisions for sampling the groundwater in the uppermost aquifer will enable detection and measurement at the compliance point of hazardous constituents from the regulated units that have entered the groundwater in the uppermost aquifer.

(c) All monitoring wells shall be cased in a manner that maintains the integrity of the monitoring well bore hole. This casing shall be screened or perforated and packed with gravel or sand, where necessary, to enable collection of groundwater samples. The annular space, i.e., the space between the bore hole and well casing, above the sampling depth shall be sealed to prevent contamination of samples and the groundwater.

(d) The groundwater monitoring program shall include consistent sampling and analysis procedures that are designed to ensure monitoring results that provide a reliable indication of groundwater quality below the waste management area. At a minimum the program shall include procedures and techniques for:

- (1) Sample collection;
- (2) Sample preservation and shipment;
- (3) Analytical procedures; and
- (4) Chain of custody control.

(e) The groundwater monitoring program shall include sampling and analytical methods that are appropriate for groundwater sampling and that accurately measure hazardous constituents in groundwater samples.

(f) The groundwater monitoring program shall include a determination of the groundwater surface elevation each time groundwater is sampled.

(g) In detection monitoring or where appropriate in compliance monitoring, data on each hazardous constituent specified in the permit will be collected from background wells and wells at the compliance point. The number and kinds of samples collected to establish background shall be appropriate for the form of statistical test employed, following generally accepted statistical principles. The sample size should be as large as necessary to ensure with reasonable confidence that a contaminant release to groundwater from a facility will be detected. The owner or operator will determine an appropriate sampling procedure and interval for each hazardous constituent listed in the facility permit which shall be specified in the unit permit upon approval by the Executive Secretary. This sampling procedure should be:

(1) a sequence of at least four samples, taken at an interval that assures, to the greatest extent technically feasible, that an independent sample is obtained, by reference to the uppermost aquifer's effective porosity, hydraulic conductivity, and hydraulic gradient, and the fate and transport characteristics of the potential contaminants; or

(2) an alternate sampling procedure proposed by the owner or operator and approved by the Executive Secretary.

(h) The owner or operator will specify one of the following statistical methods to be used in evaluating groundwater monitoring data for each hazardous constituent, upon approval by the Executive Secretary, will be specified in the unit permit. The statistical test chosen shall be conducted separately for each hazardous constituent in each well. Where practical quantification limits, pql's, are used in any of the

following statistical procedures to comply with R315-8-6.8(i)(5), the pql shall be proposed by the owner or operator and approved by the Executive Secretary. Use of any of the following statistical methods shall be protective of human health and the environment and shall comply with the performance standards outlined in R315-8-6.8(i).

(1) a parametric analysis of variance, ANOVA, followed by multiple comparisons procedures to identify statistical significant evidence of contamination. The method shall include estimation and testing of the contrasts between each compliance well's mean and the background mean levels for each constituent;

(2) an analysis of variance, ANOVA, based on ranks followed by multiple comparisons procedures to identify statistical significant evidence of contamination. The method shall include estimation and testing of the contrasts between compliance well's median and the background median levels for each constituent;

(3) a tolerance or prediction interval procedure in which an interval for each constituent is established from the distribution of the background data, and the level of each constituent in each compliance well is compared to the upper tolerance or prediction limit;

(4) a control chart approach that gives control limits for each constituent;

(5) another statistical test method submitted by the owner or operator and approved by the Executive Secretary.

(i) Any statistical method chosen under R315-8-6.8(h) for specification in the unit permit shall comply with the following performance standards, as appropriate:

(1) The statistical method used to evaluate groundwater monitoring data shall be appropriate for the distribution of chemical parameters or hazardous constituents. If the distribution of the chemical parameters or hazardous constituents is shown by the owner or operator to be inappropriate for a normal theory test, then the data should be transformed or a distribution-free theory test should be used. If the distributions for the constituents differ, more than one statistical method may be needed.

(2) If an individual well comparison procedure is used to compare an individual compliance well constituent concentration with background constituent concentrations or a groundwater protection standard, the test shall be done at a Type I error level no less than 0.01 for each testing period. If a multiple comparisons procedure is used, the Type I experimentwise error rate for each testing period shall be no less than 0.05; however, the Type I error of no less than 0.01 for individual well comparisons shall be maintained. This performance standard does not apply to tolerance intervals, predictions intervals or control charts.

(3) If a control chart approach is used to evaluate groundwater monitoring data, the specific type of control chart and its associated parameter values shall be proposed by the owner or operator and approved by the Executive Secretary if he finds it to be protective of human health and the environment.

(4) If a tolerance interval or a prediction interval is used to evaluate groundwater monitoring data, the levels of confidence and, for tolerance intervals, the percentage of the population that the interval shall contain, shall be proposed by the owner or operator and approved by the Executive Secretary if he finds these parameters to be protective of human health and the environment. These parameters will be determined after considering the number of samples in the background data base, the data distribution, and the range of the concentration values for each constituent of concern.

(5) The statistical method shall account for data below the limit of detection with one or more statistical procedures that are protective of human health and the environment. Any practical quantification limit, pql, approved by the Executive Secretary

under R315-8-6.8(h) that is used in the statistical method shall be the lowest concentration level that can be reliably achieved within specified limits of precision and accuracy during routine laboratory operating conditions that are available to the facility.

(6) If necessary, the statistical method shall include procedures to control or correct for seasonal and spatial variability as well as temporal correlation in the data.

(j) Groundwater monitoring data collected in accordance with R315-8-6.8(g) including actual levels of constituents shall be maintained in the facility operating record. The Executive Secretary will specify in the permit when the data shall be submitted for review.

#### 6.9 DETECTION MONITORING PROGRAM

An owner or operator required to establish a detection monitoring program under this section shall, at a minimum, discharge the following responsibilities:

(a) The owner or operator shall monitor for indicator parameters, e.g., specific conductance, pH, total organic carbon, or total organic halogen, waste constituents, or reaction products that provide a reliable indication of the presence of hazardous constituents in groundwater. The Executive Secretary will specify the parameters or constituents to be monitored in the facility permit after considering the following factors:

(1) The types, quantities, and concentrations of constituents in wastes managed at the regulated unit;

(2) The mobility, stability, and persistence of waste constituents or their reaction products in the unsaturated zone beneath the waste management area;

(3) The detectability of indicator parameters, waste constituents, and reaction products in groundwater; and

(4) The concentrations or values and coefficients of variation of proposed monitoring parameters or constituents in the groundwater background.

(b) The owner or operator shall install a groundwater monitoring system at the compliance point as specified under R315-8-6.6. The groundwater monitoring system shall comply with R315-8-6.8(a)(2), (b), and (c).

(c) The owner or operator shall conduct a groundwater monitoring program for each chemical parameter and hazardous constituent specified in the permit pursuant to R315-8-6.9(a) in accordance with R315-8-6.9(g). The owner or operator shall maintain a record of groundwater analytical data as measured and in a form necessary for the determination of statistical significance under R315-8-6.8(h).

(d) The Executive Secretary will specify the frequencies for collecting samples and conducting statistical tests to determine whether there is statistically significant evidence of contamination for any parameter or hazardous constituent specified in the permit under R315-8-6.9(a) in accordance with R315-8-6.8(g). A sequence of at least four samples from each well, background and compliance wells, shall be collected at least semiannually during detection monitoring.

(e) The owner or operator shall determine the groundwater flow rate and direction in the uppermost aquifer at least annually.

(f) The owner or operator shall determine whether there is statistically significant evidence of contamination for any chemical parameter of hazardous constituent specified in the permit pursuant to R315-8-6.9(a) at a frequency specified under R315-8-6.9(d).

(1) In determining whether statistically significant evidence of contamination exists, the owner or operator shall use the method specified in the permit under R315-8-6.8(h). This method shall compare data collected at the compliance point to the background groundwater quality data.

(2) The owner or operator shall determine whether there is statistically significant evidence of contamination at each monitoring well as the compliance point within a reasonable period of time after completion of sampling. The Executive

Secretary will specify in the facility permit what period of time is reasonable, after considering the complexity of the statistical test and the availability of laboratory facilities to perform the analysis of groundwater samples.

(g) If the owner or operator determines pursuant to R315-8-6.9(f) that there is statistically significant evidence of contamination for chemical parameters of hazardous constituents specified pursuant to R315-8-6.9(a) at any monitoring well at the compliance point, he shall:

(1) notify the Executive Secretary of this finding in writing within seven days. The notification shall indicate what chemical parameters or hazardous constituents have shown statistically significant evidence of contamination;

(2) immediately sample the groundwater in all monitoring wells and determine whether constituents in the list of R315-50-14, which incorporates by reference 40 CFR 264, Appendix IX, are present, and if so, in what concentration;

(3) for any R315-50-14, which incorporates by reference 40 CFR 264, Appendix IX, compounds found in the analysis pursuant to R315-8-6.9(g)(2), the owner or operator may resample within one month and repeat the analysis for these compounds detected. If the results for the second analysis confirm the initial results, then these constituents will form the basis for compliance monitoring. If the owner or operator does not resample for the compounds found pursuant to R315-8-6.9(g)(2), the hazardous constituents found during this initial R315-50-14, which incorporates by reference 40 CFR 264, Appendix IX, analysis will form the basis for compliance monitoring;

(4) within 90 days, submit to the Executive Secretary an application for a permit modification to establish a compliance monitoring program meeting the requirements of R315-8-6.10. The application shall include the following information:

(i) an identification of the concentration of any R315-50-14, which incorporates by reference 40 CFR 264, Appendix IX, constituent detected in the groundwater at each monitoring well at the compliance point;

(ii) any proposed changes to the groundwater monitoring system at the facility necessary to meet the requirements of R315-8-6.10;

(iii) any proposed additions or changes to the monitoring frequency, sampling and analysis procedures or methods, or statistical methods used at the facility necessary to meet the requirements of R315-8-6.10;

(iv) for each hazardous constituent detected at the compliance point, a proposed concentration limit under R315-8-6.10(a)(1) or (2), or a notice of intent to seek an alternate concentration limit under R315-8-6.5(b); and

(5) within 180 days, submit to the Executive Secretary:

(i) all data necessary to justify an alternate concentration limit sought under R315-8-6.5(b); and

(ii) an engineering feasibility plan for a corrective action program necessary to meet the requirement of R315-8-6.11, unless:

(A) all hazardous constituents identified under R315-8-6.9(g)(2) are listed in R315-8-6.5, Table 1 and their concentrations do not exceed their respective values given in that table; or

(B) the owner or operator has sought an alternate concentration limit under R315-8-6.5(b) for every hazardous constituent identified under R315-8-6.9(g)(2).

(6) If the owner or operator determines, pursuant to R315-8-6.9(f), that there is a statistically significant difference for chemical parameters or hazardous constituents specified pursuant to R315-8-6.9(a) at any monitoring well at the compliance point, he may demonstrate that a source other than a regulated unit caused the contamination or that the detection is an artifact caused by an error in sampling, analysis, or statistical evaluation or natural variation in the groundwater.

The owner or operator may make a demonstration under R315-8-6.9(g)(6) in addition to, or in lieu of, submitting a permit modification application under R315-8-6.9(g)(4); however, the owner or operator is not relieved of the requirement to submit a permit modification application within the time specified in R315-8-6.9(g)(4) unless the demonstration made under R315-8-6.9(g)(6) successfully shows that a source other than the regulated unit caused the increase, or that the increase resulted from error in sampling, analysis, or evaluation. In making a demonstration under R315-8-6.9(g)(6), the owner or operator shall:

(i) notify the Executive Secretary in writing within seven days of determining statistically significant evidence of contamination at the compliance point that he intends to make a demonstration under this paragraph;

(ii) within 90 days, submit a report to the Executive Secretary which demonstrates that a source other than a regulated unit caused the contamination or that the contamination resulted from error in sampling, analysis, or evaluation;

(iii) within 90 days, submit to the Executive Secretary an application for a permit modification to make any appropriate changes to the detection monitoring program facility; and

(iv) continue to monitor in accordance with the detection monitoring program established under R315-8-6.9.

(h) If the owner or operator determines that the detection monitoring program no longer satisfies the requirements of this section, he shall, within 90 days, submit an application for a permit modification to make any appropriate changes to the program.

#### 6.10 COMPLIANCE MONITORING PROGRAM

An owner or operator required to establish a compliance monitoring program under this section shall, at a minimum, discharge the following responsibilities:

(a) The owner or operator shall monitor the groundwater to determine whether regulated units are in compliance with the groundwater protection standard under R315-8-6.3. The Executive Secretary will specify the groundwater protection standard in the facility permit including:

(1) A list of the hazardous constituents identified under R315-8-6.4;

(2) Concentration limits under R315-8-6.5 for each of those hazardous constituents;

(3) The compliance point under R315-8-6.6;

(4) The compliance period under R315-8-6.7.

(b) The owner or operator shall install a groundwater monitoring system at the compliance point as specified under R315-8-6.6. The groundwater monitoring system shall comply with R315-8-6.8(a)(2), (b) and (c).

(c) The Executive Secretary will specify the sampling procedures and statistical methods appropriate for the constituents and the facility, consistent with R315-8-6.8(g) and (h).

(1) The owner or operator shall conduct a sampling program for each chemical parameter or hazardous waste constituent in accordance with R315-8-6.8(g).

(2) The owner or operator shall record groundwater analytical data as measured and in form necessary for the determination of statistical significance under R315-8-6.8(h) for the compliance period of the facility.

(d) The owner or operator shall determine whether there is statistically significant evidence of increased contamination for any chemical parameter or hazardous constituent specified in the permit, pursuant to R315-8-6.10(a), at a frequency specified under R315-8-6.10(f).

(1) In determining whether statistically significant evidence of increased contamination exists, the owner or operator shall use the method specified in the permit under R315-8-6.5. The method shall compare data collected at the

compliance point to a concentration limit developed in accordance with R315-8-6.8(h).

(2) The owner or operator shall determine whether there is statistically significant evidence of increase contamination at each monitoring well at the compliance point within a reasonable time period after completion of sampling. The Executive Secretary will specify that time period in the facility permit, after considering the complexity of the statistical test and the availability of laboratory facilities to perform the analysis of groundwater samples.

(e) The owner or operator shall determine the groundwater flow rate and direction in the uppermost aquifer at least annually.

(f) The Executive Secretary will specify the frequencies for collecting samples and conducting statistical tests to determine statistically significant evidence of increased contamination in accordance with R315-8-6.8(g). A sequence of at least four samples from each well, background and compliance wells, shall be collected at least semi-annually during the compliance period of the facility.

(g) The owner or operator shall analyze samples from all monitoring wells at the compliance point for all constituents contained in R315-50-14, which incorporates by reference 40 CFR, Appendix IX, at least annually to determine whether additional hazardous constituents are present in the uppermost aquifer and, if so, at what concentration, pursuant to procedures in R315-8-6.9(f). If the owner or operator finds R315-50-14, which incorporates by reference 40 CFR 264, Appendix IX, constituents in the groundwater that are not already identified in the permit as monitoring constituents, the owner or operator may resample within one month and repeat the R315-50-14, which incorporates by reference 40 CFR 264, Appendix IX, analysis. If the second analysis confirms the presence of new constituents, the owner or operator shall report the concentration of these additional constituents to the Executive Secretary within seven days after the completion of the second analysis and add them to the monitoring list. If the owner or operator chooses not to resample, then he shall report the concentrations of these additional constituents to the Executive Secretary within seven days after completion of the initial analysis and add them to the monitoring list.

(h) If the owner or operator determines pursuant to R315-8-6.10(d) that any concentration limits under R315-8-6.5 are being exceeded at any monitoring well at the point of compliance he shall:

(1) Notify the Executive Secretary of this finding in writing within seven days. The notification shall indicate which concentration limits have been exceeded;

(2) Submit to the Executive Secretary an application for a permit modification to establish a corrective action program meeting the requirements of R315-8-6.11, within 180 days, or within 90 days if an engineering feasibility study has been previously submitted to the Executive Secretary under R315-8-6.9(h)(5). The application shall at a minimum include the following information:

(i) A detailed description of corrective actions that will achieve compliance with the groundwater protection standard specified in the permit under R315-8-6.10(a); and

(ii) A plan for a groundwater monitoring program that will demonstrate the effectiveness of the corrective action. The groundwater monitoring program may be based on a compliance monitoring program developed to meet the requirements of this section.

(i) If the owner or operator determines, pursuant to R315-8-6.10(d), that the groundwater concentration limits under R315-8-6.10 are being exceeded at any monitoring well at the point of compliance, he may demonstrate that a source other than a regulated unit caused the contamination or that the detection is an artifact caused by an error in sampling, analysis,

or statistical evaluation or natural variation in the groundwater. In making a demonstration under R315-8-6.10(i), the owner or operator shall:

(1) Notify the Executive Secretary in writing within seven days that he intends to make a demonstration under R315-8-6.10(i);

(2) Within 90 days, submit a report to the Executive Secretary which demonstrates that a source other than a regulated unit caused the standard to be exceeded or that the apparent noncompliance with the standards resulted from error in sampling, analysis, or evaluation;

(3) Within 90 days, submit to the Executive Secretary an application for a permit modification to make any appropriate changes to the compliance monitoring program at the facility; and

(4) Continue to monitor in accord with the compliance monitoring program established under this section.

(j) If the owner or operator determines that the compliance monitoring program no longer satisfies the requirements of this section, he shall within 90 days, submit an application for a permit modification to make any appropriate changes to the program.

#### 6.11 CORRECTIVE ACTION PROGRAM

An owner or operator required to establish a corrective action program under this section shall, at a minimum, discharge the following responsibilities:

(a) The owner or operator shall take corrective action to ensure that regulated units are in compliance with the groundwater protection standard under R315-8-6.3. The Executive Secretary will specify the groundwater protection standard in the facility permit, including:

(1) A list of hazardous constituents identified under R315-8-6.4;

(2) Concentration limits under R315-8-6.5 for each of those hazardous constituents;

(3) The compliance point under R315-8-6.6; and

(4) The compliance period under R315-8-6.7.

(b) The owner or operator shall implement a corrective action program that prevents hazardous constituents from exceeding their respective concentration limits at the compliance point by removing the hazardous waste constituents or treating them in place. The permit will specify the specific measures that will be taken.

(c) The owner or operator shall begin corrective action within a reasonable time period after the groundwater protection standard is exceeded. The Executive Secretary will specify that time period in the facility permit. If a facility permit includes a corrective action program in addition to a compliance monitoring program, the permit will specify when the corrective action will begin and the requirement will operate in lieu of R315-8-6.10(i)(2).

(d) In conjunction with a corrective action program, the owner or operator shall establish and implement a groundwater monitoring program to demonstrate the effectiveness of the corrective action program. The monitoring program may be based on the requirements for a compliance monitoring program under R315-8-6.10 and shall be as effective as that program in determining compliance with the groundwater protection standard under R315-8-6.3 and in determining the success of a corrective action program under R315-8-6.11(e), where appropriate.

(e) In addition to the other requirements of this section, the owner or operator shall conduct a corrective action program to remove or treat in place any hazardous constituents under R315-8-6.4 that exceed concentration limits under R315-8-6.5 in groundwater:

(1) between the compliance point under R315-8-6.6 and the downgradient facility property boundary; and

(2) beyond the facility boundary, where necessary to

protect human health and the environment, unless the owner or operator demonstrates to the satisfaction of the Executive Secretary that, despite the owner's or operator's best efforts, the owner or operator was unable to obtain the necessary permission to undertake the action. The owner or operator is not relieved of all responsibility to clean up a release that has migrated beyond the facility boundary where off-site access is denied. On-site measures to address the releases will be determined on a case-by-case basis.

(3) Corrective action measures under R315-8-6.11(e) shall be initiated and completed within a reasonable period of time considering the extent of contamination.

(4) Corrective action measures under this paragraph may be terminated once the concentration of hazardous constituents under R315-8-6.4 is reduced to levels below their respective concentration limits under R315-8-6.5.

(f) The owner or operator shall continue corrective action measures during the compliance period to the extent necessary to ensure that the groundwater protection standard is not exceeded. If the owner or operator is conducting corrective action at the end of the compliance period, he shall continue that corrective action for as long as necessary to achieve compliance with the groundwater protection standard. The owner or operator may terminate corrective action measures taken beyond the period equal to the active life of the waste management area, including the closure period if he can demonstrate, based on data from the groundwater monitoring program under R315-8-6.11(d), that the groundwater protection standard of R315-8-6.3 has not been exceeded for a period of three consecutive years.

(g) The owner or operator shall report in writing to the Executive Secretary on the effectiveness of the corrective action program. The owner or operator shall submit these reports semi-annually.

(h) If the owner or operator determines that the corrective action program no longer satisfies the requirements of this section, he shall within 90 days, submit an application for a permit modification to the program.

#### 6.12 CORRECTIVE ACTION FOR SOLID WASTE MANAGEMENT UNITS

(a) The owner or operator of a facility seeking a permit for the treatment, storage or disposal of hazardous waste shall institute corrective action as necessary to protect human health and the environment for all releases of hazardous waste or constituents from any solid waste management unit at the facility, regardless of the time at which waste was placed in the unit.

(b) Corrective action will be specified in the permit in accordance with R315-8-6-12 and R315-8-21, which incorporates by reference 40 CFR 264.552 and 264.553. The permit will contain schedules of compliance for the corrective action, where such corrective action cannot be completed prior to issuance of the permit, and assurances of financial responsibility for completing the corrective action.

(c) The owner or operator shall implement corrective actions beyond the facility property boundary, where necessary to protect human health and the environment, unless the owner or operator demonstrates to the satisfaction of the Executive Secretary that, despite the owner's or operator's best efforts, the owner or operator was unable to obtain the necessary permission to undertake the actions. The owner or operator is not relieved of all responsibility to clean up a release that has migrated beyond the facility boundary where off-site access is denied. On-site measures to address the releases will be determined on a case-by-case basis. Assurances of financial responsibility for corrective action shall be provided.

(d) This does not apply to remediation waste management sites unless they are part of a facility subject to a permit for treating, storing, or disposing of hazardous wastes that are not remediation wastes.

#### R315-8-7. Closure and Post Closure.

The requirements as found in 40 CFR subpart G, 264.110-264.120, 1998 ed., as amended by 63 FR 56710, October 22, 1998, are incorporated by reference with the following exceptions:

(a) substitute "Board" for all references made to "Regional Administrator" except in 264.112 where "Regional Administrator" and "Director" means "Executive Secretary".

(b) substitute R315-3 for all general reference made to 40 CFR 124 and 270.

(c) substitute "The Utah Solid and Hazardous Waste Act" for all references made to the "Resource Conservation and Recovery Act" or "RCRA."

#### R315-8-8. Financial Requirements.

The requirements as found in 40 CFR subpart H, 264.140-264.151, 1998 ed., as amended by 63 FR 56710, October 22, 1998, are incorporated by reference with the following exceptions:

(a) substitute "Executive Secretary" for all references to "Administrator" or "Regional Administrator".

(b) substitute "Board" for all references to "Agency" or "EPA."

(c) substitute "The Utah Solid and Hazardous Waste Act" for all references to the "Resource Conservation and Recovery Act" or "RCRA."

#### R315-8-9. Use and Management of Containers.

##### 9.1 APPLICABILITY

The rules in this section apply to owners and operators of all hazardous waste facilities that store containers of hazardous waste, except as provided otherwise in R315-8-1.

Under R315-2-7 and R315-2-11, if a hazardous waste is emptied from a container the residue remaining in the container is not considered a hazardous waste if the container is "empty" as defined in R315-2-7. In that event, management of the container is exempt from the requirements of this section.

##### 9.2 CONDITION OF CONTAINERS

If a container holding hazardous waste is not in good condition, e.g., severe rusting, apparent structural defects, or if it begins to leak, the owner or operator shall transfer the hazardous waste from this container to a container that is in good condition or manage the waste in some other way that complies with the requirements of this section.

##### 9.3 COMPATIBILITY OF WASTE WITH CONTAINERS

The owner or operator shall use a container made of or lined with materials which will not react with, and are otherwise compatible with, the hazardous waste to be stored, so that the ability of the container to contain the waste is not impaired.

##### 9.4 MANAGEMENT OF CONTAINERS

(a) A container holding hazardous waste shall always be closed during storage, except when it is necessary to add or remove waste.

(b) A container holding hazardous waste shall not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Reuse of containers in transportation is governed by U.S. Department of Transportation regulations including those set forth in 49 CFR 173.28.

##### 9.5 INSPECTIONS

At least weekly, the owner or operator shall inspect areas where containers are stored, looking for leaking containers and for deterioration of containers and the containment system caused by corrosion or other factors. See R315-8-2.6(c) and R315-8-9.2 for remedial action required if deterioration or leaks are detected.

##### 9.6 CONTAINMENT

(a) Container storage areas shall have a containment

system that is designed and operated in accordance with R315-8-9.6(b), except as otherwise provided by R315-8-9.6(c).

(b) A containment system shall be designed and operated as follows:

(1) A base shall underlay the containers which is free of cracks or gaps and is sufficiently impervious to contain leaks, spills, and accumulated precipitation until the collected material is detected and removed;

(2) The base shall be sloped or the containment system shall be otherwise designed and operated to drain and remove liquids resulting from leaks, spills, or precipitation, unless the containers are elevated or are otherwise protected from contact with accumulated liquids;

(3) The containment system shall have sufficient capacity to contain 10% of the volume of containers or the volume of the largest container, whichever is greater. Containers that do not contain free liquids need not be considered in this determination;

(4) Run-on into the containment system shall be prevented unless the collection system has sufficient excess capacity in addition to that required in R315-8-9.6(b)(3) to contain any run-on which might enter the system; and

(5) Spilled or leaked waste and accumulated precipitation shall be removed from the sump or collection area in as timely a manner as is necessary to prevent overflow of the collection system.

If the collected material is a hazardous waste under R315-2, it shall be managed as a hazardous waste in accordance with all applicable requirements of these rules. If the collected material is discharged through a point source to waters of the United States, it is subject to the requirements of section 402 of the Clean Water Act, as amended.

(c) Storage areas that store containers holding only wastes that do not contain free liquids need not have a containment system defined by R315-8-9.6(b), except as provided by R315-8-9.6(d) or provided that:

(1) The storage area is sloped or is otherwise designed and operated to drain and remove liquid resulting from precipitation, or

(2) The containers are elevated or are otherwise protected from contact with accumulated liquid.

(d) Storage areas that store containers holding the wastes listed below that do not contain free liquids shall have a containment system defined by R315-8-9.6(b):

(1) F020, F021, F022, F023, F026, and F027.

#### 9.7 SPECIAL REQUIREMENTS FOR IGNITABLE OR REACTIVE WASTE

Containers holding ignitable or reactive waste shall be located at least 15 meters, 50 feet, from the facility's property line. See R315-8-2.8(a) for additional requirements.

#### 9.8 SPECIAL REQUIREMENTS FOR INCOMPATIBLE WASTES

(a) Incompatible wastes, or incompatible wastes and materials, see 40 CFR 264, Appendix V for examples, shall not be placed in the same container, unless R315-8-2.8(b) is complied with.

(b) Hazardous waste shall not be placed in an unwashed container that previously held an incompatible waste or material. As required by R315-8-2.4, which incorporates by reference 40 CFR 264.13, the waste analysis plan shall include analyses needed to comply with R315-8-9.8(b). Also R315-8-2.8(c) requires waste analyses, trial tests or other documentation to assure compliance with R315-8-2.8(b). As required by R315-8-5.3, which incorporates by reference 40 CFR 264.73, the owner or operator shall place the results of each waste analysis and trial test, and any documented information, in the operating record of the facility.

(c) A storage container holding a hazardous waste that is incompatible with any waste or other materials stored nearby in

other containers, piles, open tanks, or surface impoundments shall be separated from the other materials or protected from them by means of a dike, berm, wall, or other device. The purpose of this section is to prevent fires, explosions, gaseous emission, leaching, or other discharge of hazardous waste or hazardous waste constituents which could result from the mixing of incompatible wastes or materials if containers break or leak.

#### 9.9 CLOSURE

At closure, all hazardous waste and hazardous waste residues shall be removed from the containment system. Remaining containers, liners, bases, and soil containing or contaminated with hazardous waste or hazardous waste residues shall be decontaminated or removed.

At closure, as throughout the operating period, unless the owner or operator can demonstrate in accordance with R315-2-3(d) that the solid waste removed from the containment system is not a hazardous waste, the owner or operator becomes a generator of hazardous waste and shall manage it in accordance with all applicable requirements of these rules.

#### 9.10 AIR EMISSION STANDARDS

The owner or operator shall manage all hazardous waste placed in a container in accordance with the applicable requirements of R315-8-17, which incorporates by reference 40 CFR subpart AA, R315-8-18, which incorporates by reference 40 CFR subpart BB, and R315-8-22, which incorporates by reference 40 CFR subpart CC.

#### R315-8-10. Tanks.

The requirements as found in 40 CFR 264, subpart J, 264.190 - 264.200, 1996 ed., as amended by 61 FR 59931, November 25, 1996, are adopted and incorporated by reference with the following exceptions:

(a) Substitute "Executive Secretary" for all references to "Administrator" or "Regional Administrator" found in subpart J except paragraph 264.193(g) which should have "Regional Administrator" replaced by "Board".

(b) Add, following January 12, 1988, in 40 CFR 265.191(a), "or by December 16, 1988 for non-HSWA existing tank systems."

(c) Replace 40 CFR 265.193(a)(2) to (4) with the following corresponding paragraphs:

(1) For all HSWA existing tank systems used to store or treat EPA Hazardous Waste Nos. F020, F021, F022, F023, F026, and F027, within two years after January 12, 1987, or within two years after December 16, 1988 for non-HSWA existing tank systems;

(2) For those HSWA existing tank systems of known and documented age, within two years after January 12, 1987, or within two years after December 16, 1988 for non-HSWA existing tank systems, or when the tank system has reached 15 years of age, whichever comes later;

(3) For those HSWA existing tank systems for which the age cannot be documented, within eight years of January 12, 1987, or within eight years of December 16, 1988 for non-HSWA existing tank systems; but if the age of the facility is greater than seven years, secondary containment shall be provided by the time the facility reaches 15 years of age, or within two years of January 12, 1987, or within two years of December 16, 1988 for non-HSWA existing tank systems, whichever comes later; and

(d) Add, following the last January 12, 1987, in 40 CFR 265-193(a)(5), "or December 16, 1988 for non-HSWA tank systems."

#### R315-8-11. Surface Impoundments.

##### 11.1 APPLICABILITY

The rules in this section apply to owners and operators of facilities that use surface impoundments to treat, store, or

dispose of hazardous waste except as provided otherwise in R315-8-1.

#### 11.2 DESIGN AND OPERATING REQUIREMENTS

(a) Any surface impoundment that is not covered by R315-8-11.2(f) or R315-7-18.9 shall have a liner for all portions of the impoundment, except for existing portions of such impoundments. The liner shall be designed, constructed, and installed to prevent any migration of wastes out of the impoundment to the adjacent subsurface soil or groundwater or surface water at any time during the active life, including the closure period, of the impoundment. The liner may be constructed of materials that may allow wastes to migrate into the liner, but not into the adjacent subsurface soil or groundwater or surface water, during the active life of the facility, provided that the impoundment is closed in accordance with R315-8-11.5(a)(1). For impoundments that will be closed in accordance with R315-8-11.5(a)(2), the liner shall be constructed of materials that can prevent wastes from migrating into the liner during the active life of the facility. The liner shall be:

(1) Constructed of materials that have appropriate chemical properties and sufficient strength and thickness to prevent failure due to pressure gradients, including static head and external hydrogeologic forces, physical contact with the waste or leachate to which they are exposed, climatic conditions, the stress of installation, and the stress of daily operation;

(2) Placed upon a foundation or base capable of providing support to the liner and resistance to pressure gradients above and below the liner to prevent failure of the liner due to settlement, compression, or uplift; and

(3) Installed to cover all surrounding earth likely to be in contact with the waste or leachate.

(b) The owner or operator will be exempted from the requirements of R315-8-11.2(a) if the Executive Secretary finds, based on a demonstration by the owner or operator, that alternate design and operating practices, together with location characteristics, will prevent the migration of any hazardous constituents, see R315-8-6.4, into the groundwater or surface water at any future time. In deciding whether to grant an exemption, the Executive Secretary will consider:

- (1) The nature and quantity of the wastes;
- (2) The proposed alternate design and operation;
- (3) The hydrogeologic setting of the facility, including the attenuative capacity and thickness of the liners and soils present between the impoundment and groundwater or surface water; and

(4) All other factors which would influence the quality and mobility of the leachate produced and the potential for it to migrate to groundwater or surface water.

(c) The owner or operator of each new surface impoundment unit on which construction commences after January 29, 1992, each lateral expansion of a surface impoundment unit on which construction commences after July 29, 1992 and each replacement of an existing surface impoundment unit that is to commence reuse after July 29, 1992 shall install two or more liners and a leachate collection and removal system between such liners. "Construction commences" is as defined in R315-1-1(b), which incorporates by reference 40 CFR 260.10, under "existing facility".

(1)(i) The liner system shall include:

(A) A top liner designed and constructed of materials, e.g., a geomembrane, to prevent the migration of hazardous constituents into such liner during the active life and post-closure care period; and

(B) A composite bottom liner, consisting of at least two components. The upper component shall be designed and constructed of materials, e.g., a geomembrane, to prevent the migration of hazardous constituents into this component during the active life and post-closure care period. The lower

component shall be designed and constructed of materials to minimize the migration of hazardous constituents if a breach in the upper component were to occur. The lower component shall be constructed of at least three feet, 91 cm, of compacted soil material with a hydraulic conductivity of no more than  $1 \times 10^{-7}$  cm/sec.

(ii) The liners shall comply with R315-8-11.2(a)(1)-(3).

(2) The leachate collection and removal system between the liners, and immediately above the bottom composite liner in the case of multiple leachate collection and removal systems, is also a leak detection system. This leak detection system shall be capable of detecting, collecting, and removing leaks of hazardous constituents at the earliest practicable time through all areas of the top liner likely to be exposed to waste or leachate during the active life and post-closure care period. The requirements for a leak detection system in this paragraph are satisfied by installation of a system that is, at a minimum:

(i) Constructed with a bottom slope of one percent or more;

(ii) Constructed of granular drainage materials with a hydraulic conductivity of  $1 \times 10^{-1}$  cm/sec or more and a thickness of 12 inches, 30.5 cm, or more; or constructed of synthetic or geonet drainage materials with a transmissivity of  $3 \times 10^{-4}$  m<sup>2</sup>/sec or more;

(iii) Constructed of materials that are chemically resistant to the waste managed in the surface impoundment and the leachate expected to be generated, and of sufficient strength and thickness to prevent collapse under the pressures exerted by overlying wastes and any waste cover materials or equipment used at the surface impoundment;

(iv) Designed and operated to minimize clogging during the active life and post-closure care period; and

(v) Constructed with sumps and liquid removal methods, e.g., pumps, of sufficient size to collect and remove liquids from the sump and prevent liquids from backing up into the drainage layer. Each unit shall have its own sump(s). The design of each sump and removal system shall provide a method for measuring and recording the volume of liquids present in the sump and of liquids removed.

(3) The owner or operator shall collect and remove pumpable liquids in the sumps to minimize the head on the bottom liner.

(4) The owner or operator of a leak detection system that is not located completely above the seasonal high water table shall demonstrate that the operation of the leak detection system will not be adversely affected by the presence of ground water.

(d) The Executive Secretary may approve alternative design or operating practices to those specified in R315-8-11.2(c) if the owner or operator demonstrates to the Executive Secretary that such design and operating practices, together with location characteristics:

(1) Will prevent the migration of any hazardous constituent into the groundwater or surface water at least as effectively as the liners and leachate collection and removal system specified in R315-8-11.2(c); and

(2) Will allow detection of leaks of hazardous constituents through the top liner at least as effectively.

(e) The double liner requirement set forth in R315-8-11.2(f) may be waived by the Executive Secretary for any monofill, if:

(1) The monofill contains only hazardous wastes from foundry furnace emission controls or metal casting molding sand, and the wastes do not contain constituents which would render the wastes hazardous for reasons other than the EP toxicity characteristics, and

(2)(i)(A) The monofill has at least one liner for which there is no evidence that the liner is leaking. For the purposes of this paragraph, the term "liner" means a liner designed, constructed, installed and operated to prevent hazardous waste

from passing into the liner at any time during the active life of the facility, or a liner designed, constructed, installed, and operated to prevent hazardous waste from migrating beyond the liner to adjacent subsurface soil, groundwater, or surface water at any time during the active life of the facility. In the case of any surface impoundment which has been exempted from the requirements of R315-8-11.2(c) on the basis of a liner designed, constructed, installed, and operated to prevent hazardous waste from passing beyond the liner, at the closure of the impoundment, the owner or operator shall remove or decontaminate all waste residues, all contaminated liner material, and contaminated soil to the extent practicable given the specific site conditions and the nature and extent of contamination. If all contaminated soil is not removed or decontaminated, the owner or operator of the impoundment will comply with appropriate post-closure requirements, including but not limited to groundwater monitoring and corrective action:

(B) The monofill is located more than one-quarter mile from an underground source of drinking water, as that term is defined in 40 CFR 144.3; and

(C) The monofill is in compliance with generally applicable groundwater monitoring requirements for facilities with a permit; or

(ii) The owner or operator demonstrates that the monofill is located, designed and operated so as to assure that there will be no migration of any hazardous constituent into groundwater or surface water at any future time.

(f) The owner or operator of any replacement surface impoundment unit is exempt from R315-8-11.2(c) if:

(1) The existing unit was constructed in compliance with the design standards of sections 3004 (o)(1)(A)(i) and (o)(5) of the Resource Conservation and Recovery Act; and

(2) There is no reason to believe that the liner is not functioning as designed.

(g) A surface impoundment shall be designed, constructed, maintained, and operated to prevent overtopping resulting from normal or abnormal operations; overfilling; wind and wave action; rainfall; run-on; malfunctions of level controllers, alarms, and other equipment; and human error.

(h) A surface impoundment shall have dikes that are designed, constructed, and maintained with sufficient structural integrity to prevent massive failure to the dikes. In ensuring structural integrity, it shall not be presumed that the liner system will function without leakage during the active life of the unit.

(i) The Executive Secretary will specify in the permit all design and operating practices that are necessary to ensure that the requirements of this section are satisfied.

### 11.3 MONITORING AND INSPECTION

(a) During construction and installation, liners, except in the case of existing portions of surface impoundments exempt from R315-8-11.2(a), and cover systems, e.g., membranes, sheets, or coatings, shall be inspected for uniformity, damage, and imperfections (e.g., holes, cracks, thin spots, or foreign materials). Immediately after construction or installation:

(1) Synthetic liners and covers shall be inspected to ensure tight seams and joints and the absence of tears, punctures, or blisters; and

(2) Soil-based and admixed liners and covers shall be inspected for imperfections including lenses, cracks, channels, root holes, or other structural non-uniformities that may cause an increase in the permeability of the liner or cover.

(b) While a surface impoundment is in operation, it shall be inspected weekly and after storms to detect evidence of any of the following:

(1) Deterioration, malfunctions, or improper operation of overtopping control systems;

(2) Sudden drops in the level of the impoundment's contents; and

(3) Severe erosion or other signs of deterioration in dikes

or other containment devices.

(c) Prior to the issuance of a permit and after any extended period of time, at least six months, during which the impoundment was not in service, the owner or operator shall obtain a certification from a qualified engineer that the impoundment's dike, including that portion of any dike which provides freeboard, has structural integrity. The certification shall establish, in particular, that the dike:

(1) Will withstand the stress of the pressure exerted by the types and amounts of wastes to be placed in the impoundment; and

(2) Will not fail due to scouring or piping, without dependence on any liner system included in the surface impoundment construction.

(d)(1) An owner or operator required to have a leak detection system under R315-8-11.2(c) or (d) shall record the amount of liquids removed from each leak detection system sump at least once each week during the active life and closure period.

(2) After the final cover is installed, the amount of liquids removed from each leak detection system sump shall be recorded at least monthly. If the liquid level in the sump stays below the pump operating level for two consecutive months, the amount of liquids in the sumps shall be recorded at least quarterly. If the liquid level in the sump stays below the pump operating level for two consecutive quarters, the amount of liquids in the sumps shall be recorded at least semi-annually. If at any time during the post-closure care period the pump operating level is exceeded at units on quarterly or semi-annual recording schedules, the owner or operator shall return to monthly recording of amounts of liquids removed from each sump until the liquid level again stays below the pump operating level for two consecutive months.

(3) "Pump operating level" is a liquid level proposed by the owner or operator and approved by the Executive Secretary based on pump activation level, sump dimensions, and level that avoids backup into the drainage layer and minimizes head in the sump.

### 11.4 EMERGENCY REPAIRS; CONTINGENCY PLANS

(a) A surface impoundment shall be removed from service in accordance with R315-8-11.4(b) when:

(1) The level of liquids in the impoundment suddenly drops and the drop is not known to be caused by changes in the flows into or out of the impoundment; or

(2) The dike leaks.

(b) When a surface impoundment shall be removed from service as required by R315-8-11.4(a), the owner or operator shall:

(1) Immediately shut off the flow or stop the addition of wastes into the impoundment;

(2) Immediately contain any surface leakage which has occurred or is occurring;

(3) Immediately stop the leak;

(4) Take any necessary steps to stop or prevent catastrophic failure;

(5) If a leak cannot be stopped by any other means, empty the impoundment; and

(6) Notify the Executive Secretary of the problem in writing within seven days after detecting the problem.

(c) As part of the contingency plan required in R315-8-4, the owner or operator shall specify a procedure for complying with the requirements of R315-8-11.4(b).

(d) No surface impoundment that has been removed from service in accordance with the requirements of this section may be restored to service unless the portion of the impoundment which was failing is repaired and the following steps are taken:

(1) If the impoundment was removed from service as the result of actual or imminent dike failure, the dike's structural

integrity shall be recertified in accordance with R315-8-11.3(c).

(2) If the impoundment was removed from service as the result of a sudden drop in the liquid level, then:

(i) For any existing portion of the impoundment, a liner shall be installed in compliance with R315-8-11.2(a), and

(ii) For any other portion of the impoundment, the repaired liner system shall be certified by a qualified engineer as meeting the design specifications approved in the permit.

(e) A surface impoundment that has been removed from service in accordance with the requirements in this section and that is not being repaired shall be closed in accordance with the provisions of R315-8-11.5.

#### 11.5 CLOSURE AND POST-CLOSURE CARE

(a) At closure, the owner or operator shall:

(1) Remove or decontaminate all waste residues, contaminated containment system components, liners, etc., contaminated subsoils, and structures and equipment contaminated with waste and leachate, and manage them as hazardous wastes unless R315-2-3(d) applies; or

(2)(i) Eliminate free liquids by removing liquid wastes or solidifying the remaining wastes and waste residues;

(ii) Stabilize remaining wastes to a bearing capacity sufficient to support final cover; and

(iii) Cover the surface impoundment with a final cover designed and constructed to:

(A) Provide long-term minimization of the migration of liquids through the closed impoundment;

(B) Function with minimum maintenance;

(C) Promote drainage and minimize erosion or abrasion of the final cover;

(D) Accommodate settling and subsidence so that the cover's integrity is maintained; and

(E) Have a permeability less than or equal to the permeability of any bottom liner system or natural subsoils present.

(b) If some waste residues or contaminated materials are left in place at final closure, the owner or operator shall comply with all post-closure requirements contained in R315-8-7, which incorporates by reference 40 CFR 264.110 - 264.120, including maintenance and monitoring throughout the post-closure care period, specified in the permit under R315-8-7, which incorporates by reference 40 CFR 264.110 - 264.120. The owner or operator shall:

(1) Maintain the integrity and effectiveness of the final cover, including making repairs to the cap as necessary to correct the effects of settling, subsidence, erosion, or other events;

(2) Maintain and monitor the leak detection system in accordance with R315-8-11.2(c)(2)(iv) and (3) and R315-8-11.3(d), and comply with all other applicable leak detection system requirements of this part;

(3) Maintain and monitor the groundwater monitoring system and comply with all other applicable requirements of R315-8-6; and

(4) Prevent run-on and run-off from eroding or otherwise damaging the final cover.

(c)(1) If an owner or operator plans to close a surface impoundment in accordance with R315-8-11.5(a)(1), and the impoundment does not comply with the liner requirements of R315-8-11.2(a) and is not exempt from them in accordance with R315-8-11.2(b), then:

(i) The closure plan for the impoundment under R315-8-7, which incorporates by reference 40 CFR 264.110 - 264.120, shall include both a plan for complying with R315-8-11.5(a)(1) and a contingent plan for complying with R315-8-11.5(a)(2) in case not all contaminated subsoils can be practicably removed at closure; and

(ii) The owner or operator shall prepare a contingent post-closure plan under R315-8-7, which incorporates by reference

40 CFR 264.110 - 264.120, for complying with R315-8-11.5(b) in case not all contaminated subsoils can be practicably removed at closure.

(2) The cost estimates calculated under R315-8-8, which incorporates by reference 40 CFR 264.140 - 264.151, for closure and post-closure care of an impoundment subject to this paragraph shall include the cost of complying with the contingent closure plan and the contingent post-closure plan, but are not required to include the cost of expected closure under R315-8-11.5(a)(1).

#### 11.6 SPECIAL REQUIREMENTS FOR IGNITABLE OR REACTIVE WASTE

Ignitable or reactive waste shall not be placed in a surface impoundment unless the waste and impoundment satisfy all applicable requirements of R315-13, which incorporates by reference 40 CFR 268, R315-50-12, which incorporates by reference 40 CFR 268 Appendix I, and R315-50-13, which incorporates by reference 40 CFR 268 Appendix II, and:

(a) The waste is treated, rendered, or mixed before or immediately after placement in the impoundment so that:

(1) The resulting waste, mixture, or dissolution of material no longer meets the definition of ignitable or reactive waste under R315-2-9(d) and (f), and

(2) R315-8-2.8(b) is complied with; or

(b) The waste is managed in a way that it is protected from any material or conditions which may cause it to ignite or react; or

(c) The surface impoundment is used solely for emergencies.

#### 11.7 SPECIAL REQUIREMENTS FOR INCOMPATIBLE WASTES

Incompatible wastes, or incompatible wastes and materials, see 40 CFR 264, Appendix V for examples, shall not be placed in the same surface impoundment, unless R315-8-2.8(b) is complied with.

#### 11.8 SPECIAL REQUIREMENTS FOR HAZARDOUS WASTE F020, F021, F022, F023, F026, AND F027

(a) Hazardous Wastes F020, F021, F022, F023, F026, and F027 shall not be placed in a surface impoundment unless the owner or operator operates the surface impoundment in accordance with a management plan for these wastes that is approved by the Executive Secretary pursuant to the standards set out in this paragraph, and in accord with all other applicable requirements of these rules. The factors to be considered are:

(1) The volume, physical, and chemical characteristics of the wastes, including their potential to migrate through soil or to volatilize or escape into the atmosphere;

(2) The attenuative properties of underlying and surrounding soils or other materials;

(3) The mobilizing properties of other materials co-disposed with these wastes; and

(4) The effectiveness of additional treatment, design, or monitoring techniques.

(b) The Executive Secretary may determine that additional design, operating, and monitoring requirements are necessary for surface impoundments managing hazardous wastes F020, F021, F022, F023, F026, and F027 in order to reduce the possibility of migration of these wastes to groundwater, surface water, or air so as to protect human health and the environment.

#### 11.9 ACTION LEAKAGE RATE

(a) The Executive Secretary shall approve an action leakage rate for surface impoundment units subject to R315-8-11.2(c) or (d). The action leakage rate is the maximum design flow rate that the leak detection system, LDS, can remove without the fluid head on the bottom liner exceeding one foot. The action leakage rate shall include an adequate safety margin to allow for uncertainties in the design, e.g., slope, hydraulic conductivity, thickness of drainage material, construction, operation, and location of the LDS, waste and leachate

characteristics, likelihood and amounts of other sources of liquids in the LDS, and proposed response actions, e.g., the action leakage rate shall consider decreases in the flow capacity of the system over time resulting from siltation and clogging, rib layover and creep of synthetic components of the system, overburden pressures, etc.

(b) To determine if the action leakage rate has been exceeded, the owner or operator shall convert the weekly or monthly flow rate from the monitoring data obtained under R315-8-11.3(d) to an average daily flow rate, gallons per acre per day, for each sump. Unless the Executive Secretary approves a different calculation, the average daily flow rate for each sump shall be calculated weekly during the active life and closure period, and if the unit is closed in accordance with R315-8-11.5(b), monthly during the post-closure care period when monthly monitoring is required under R315-8-11.3(d).

#### 11.10 RESPONSE ACTIONS

(a) The owner or operator of surface impoundment units subject to R315-8-11.2(c) or (d) shall have an approved response action plan before receipt of waste. The response action plan shall set forth the actions to be taken if the action leakage rate has been exceeded. At a minimum, the response action plan shall describe the actions specified in R315-8-11.10(b).

(b) If the flow rate into the leak detection system exceeds the action leakage rate for any sump, the owner or operator shall:

(1) Notify the Executive Secretary in writing of the exceedance within seven days of the determination;

(2) Submit a preliminary written assessment to the Executive Secretary within 14 days of the determination, as to the amount of liquids, likely sources of liquids, possible location, size, and cause of any leaks, and short-term actions taken and planned;

(3) Determine to the extent practicable the location, size, and cause of any leak;

(4) Determine whether waste receipt should cease or be curtailed, whether any waste should be removed from the unit for inspection, repairs, or controls, and whether or not the unit should be closed;

(5) Determine any other short-term and longer-term actions to be taken to mitigate or stop any leaks; and

(6) Within 30 days after the notification that the action leakage rate has been exceeded, submit to the Executive Secretary the results of the analyses specified in R315-8-11.10(b)(3)-(5), the results of actions taken, and actions planned. Monthly thereafter, as long as the flow rate in the leak detection system exceeds the action leakage rate, the owner or operator shall submit to the Executive Secretary a report summarizing the results of any remedial actions taken and actions planned.

(c) To make the leak and remediation determinations in R315-8-11.10(b)(3)-(5), the owner or operator shall:

(1)(i) Assess the source of liquids and amounts of liquids by source;

(ii) Conduct a fingerprint, hazardous constituent, or other analyses of the liquids in the leak detection system to identify the source of liquids and possible location of any leaks, and the hazard and mobility of the liquid; and

(iii) Assess the seriousness of any leaks in terms of potential for escaping into the environment; or

(2) Document why such assessments are not needed.

#### 11.11 AIR EMISSION STANDARDS

The owner or operator shall manage all hazardous waste placed in a surface impoundment in accordance with the applicable requirements of R315-8-18, which incorporates by reference 40 CFR subpart BB, and R315-8-22, which incorporates by reference 40 CFR subpart CC.

#### R315-8-12. Waste Piles.

##### 12.1 APPLICABILITY

(a) The rules in this section apply to owners and operators of facilities that store or treat hazardous waste in piles, except as provided otherwise in R315-8-1.

(b) The rules in this section do not apply to owners or operators of waste piles that are closed with wastes left in place. These waste piles are subject to the rules under R315-8-14, Landfills.

(c) The owner or operator of any waste pile that is inside or under a structure that provides protection from precipitation so that neither run-off nor leachate is generated is not subject to regulation under R315-8-12.2 or R315-8-6, provided that:

(1) Liquids or materials containing free liquids are not placed in the pile;

(2) The pile is protected from surface water run-on or groundwater run-on by the structure or in some other manner;

(3) The pile is designed and operated to control dispersal of the waste by wind, where necessary, by means other than wetting; and

(4) The pile will not generate leachate through decomposition or other reactions.

##### 12.2 DESIGN AND OPERATING REQUIREMENTS

(a) A waste pile, except for an existing portion of a waste pile, shall have:

(1) A liner that is designed, constructed, and installed to prevent any migration of wastes out of the pile into the adjacent subsurface soil or groundwater or surface water at any time during the active life, including the closure period, of the waste pile. The liner may be constructed of materials that may allow waste to migrate into the liner itself, but not into the adjacent subsurface soil or groundwater or surface water, during the active life of the facility. The liner shall be:

(i) Constructed of materials that have appropriate chemical properties and sufficient strength and thickness to prevent failure due to pressure gradients, including static head and external hydrogeologic forces, physical contact with waste or leachate to which they are exposed, climatic conditions, the stress of installation, and the stress of daily operation;

(ii) Placed upon a foundation or base capable of providing support to the liner and resistance to pressure gradients above and below the liner to prevent failure of the liner due to settlement, compression, or uplift; and

(iii) Installed to cover all surrounding earth likely to be in contact with the waste or leachate; and

(2) A leachate collection and removal system immediately above the liner that is designed, constructed, maintained, and operated to collect and remove leachate from the pile. The Executive Secretary will specify design and operating conditions in the permit to ensure that the leachate depth over the liner does not exceed 30 cm, one foot. The leachate collection and removal system shall be:

(i) Constructed of materials that are:

(A) Chemically resistant to the waste managed in the pile and the leachate expected to be generated; and

(B) Of sufficient strength and thickness to prevent collapse under the pressures exerted by overlaying wastes, waste cover materials, and by any equipment used at the pile; and

(ii) Designed and operated to function without clogging through the scheduled closure of the waste pile.

(b) The owner or operator will be exempted from the requirements of R315-8-12.2(a) if the Executive Secretary finds, based on a demonstration by the owner or operator, that alternate design and operating practices, together with location characteristics, will prevent the migration of any hazardous constituents, see R315-8-6.4, into the groundwater or surface water at any future time. In deciding whether to grant an exemption, the Executive Secretary will consider:

(1) The nature and quantity of the wastes;

(2) The proposed alternate design and operation;  
 (3) The hydrogeologic setting of the facility, including attenuative capacity and thickness of the liners and soils present between the pile and groundwater or surface water; and

(4) All other factors which would influence the quality and mobility of the leachate produced and the potential for it to migrate to groundwater or surface water.

(c) The owner or operator of each new waste pile unit on which construction commences after January 29, 1992, each lateral expansion of a waste pile unit on which construction commences after July 29, 1992, and each replacement of an existing waste pile unit that is to commence reuse after July 29, 1992 shall install two or more liners and a leachate collection and removal system above and between such liners. "Construction commences" is as defined in R315-1-1(b), which incorporates by reference 40 CFR 260.10 under "existing facility".

(1)(i) The liner system shall include:

(A) A top liner designed and constructed of materials, e.g., a geomembrane, to prevent the migration of hazardous constituents into such liner during the active life and post-closure care period; and

(B) A composite bottom liner, consisting of at least two components. The upper component shall be designed and constructed of materials, e.g., a geomembrane, to prevent the migration of hazardous constituents into this component during the active life and post-closure care period. The lower component shall be designed and constructed of materials to minimize the migration of hazardous constituents if a breach in the upper component were to occur. The lower component shall be constructed of at least three feet, 91 cm, of compacted soil material with a hydraulic conductivity of no more than  $1 \times 10^{-7}$  cm/sec.

(ii) The liners shall comply with R315-8-12.2(a)(1)(i), (ii), and (iii).

(2) The leachate collection and removal system immediately above the top liner shall be designed, constructed, operated, and maintained to collect and remove leachate from the waste pile during the active life and post-closure care period. The Executive Secretary will specify design and operating conditions in the permit to ensure that the leachate depth over the liner does not exceed 30 cm, one foot. The leachate collection and removal system shall comply with R315-8-12.2(c)(3)(iii) and (iv).

(3) The leachate collection and removal system between the liners, and immediately above the bottom composite liner in the case of multiple leachate collection and removal systems, is also a leak detection system. This leak detection system shall be capable of detecting, collecting, and removing leaks of hazardous constituents at the earliest practicable time through all areas of the top liner likely to be exposed to waste or leachate during the active life and post-closure care period. The requirements for a leak detection system in this paragraph are satisfied by installation of a system that is, at a minimum:

(i) Constructed with a bottom slope of one percent or more;

(ii) Constructed of granular drainage materials with a hydraulic conductivity of  $1 \times 10^{-2}$  cm/sec or more and a thickness of 12 inches, 30.5 cm, or more; or constructed of synthetic or geonet drainage materials with a transmissivity of  $3 \times 10^{-5}$  m<sup>2</sup>/sec or more;

(iii) Constructed of materials that are chemically resistant to the waste managed in the waste pile and the leachate expected to be generated, and of sufficient strength and thickness to prevent collapse under the pressures exerted by overlying wastes, waste cover materials, and equipment used at the waste pile;

(iv) Designed and operated to minimize clogging during the active life and post-closure care period; and

(v) Constructed with sumps and liquid removal methods, e.g., pumps, of sufficient size to collect and remove liquids from the sump and prevent liquids from backing up into the drainage layer. Each unit shall have its own sump(s). The design of each sump and removal system shall provide a method for measuring and recording the volume of liquids present in the sump and of liquids removed.

(4) The owner or operator shall collect and remove pumpable liquids in the leak detection system sumps to minimize the head on the bottom liner.

(5) The owner or operator of a leak detection system that is not located completely above the seasonal high water table shall demonstrate that the operation of the leak detection system will not be adversely affected by the presence of groundwater.

(d) The Executive Secretary may approve alternative design or operating practices to those specified in R315-8-12.2(c) if the owner or operator demonstrates to the Executive Secretary that such design and operating practices, together with location characteristics:

(1) Will prevent the migration of any hazardous constituent into the ground water or surface water at least as effectively as the liners and leachate collection and removal systems specified in R315-8-12.2(c); and

(2) Will allow detection of leaks of hazardous constituents through the top liner at least as effectively.

(e) R315-8-12.2(c) does not apply to monofills that are granted a waiver by the Executive Secretary in accordance with R315-8-11.2(h).

(f) The owner or operator of any replacement waste pile unit is exempt from R315-8-12.2(c) if:

(1) The existing unit was constructed in compliance with the design standards of section 3004(o)(1)(A)(i) and (o)(5) of the Resource Conservation and Recovery Act; and

(2) There is no reason to believe that the liner is not functioning as designed.

(g) The owner or operator shall design, construct, operate, and maintain a run-on control system capable of preventing flow onto the active portion of the pile during peak discharge from at least a 25-year storm.

(h) The owner or operator shall design, construct, operate, and maintain a run-off management system to collect and control at least the water volume resulting from a 24-hour, 25-year storm.

(i) Collection and holding facilities, e.g., tanks or basins, associated with run-on and run-off control systems shall be emptied or otherwise managed expeditiously after storms to maintain design capacity of the system.

(j) If the pile contains any particulate matter which may be subject to wind dispersal, the owner or operator shall cover or otherwise manage the pile to control wind dispersal.

(k) The Executive Secretary will specify in the permit all design and operating practices that are necessary to ensure that the requirements of this section are satisfied.

### 12.3 MONITORING AND INSPECTION

(a) During construction or installation, liners, except in the case of existing portions of piles exempt from R315-8-12.2(a), and cover systems, e.g., membranes, sheets, or coatings, shall be inspected for uniformity, damage, and imperfections, e.g., holes, cracks, thin spots, or foreign materials. Immediately after construction or installation:

(1) Synthetic liners and covers shall be inspected to ensure tight seams and joints and the absence of tears, punctures, or blisters; and

(2) Soil-based and admixed liners and covers shall be inspected for imperfections including lenses, cracks, channels, root holes, or other structural non-uniformities that may cause an increase in the permeability of the liner or cover.

(b) While a waste pile is in operation, it shall be inspected weekly and after storms to detect evidence of any of the

following:

(1) Deterioration, malfunctions, or improper operation of run-on and run-off control systems;

(2) Proper functioning of wind dispersal control systems, where present; and

(3) The presence of leachate in and proper functioning of leachate collection and removal systems, where present.

(c) An owner or operator required to have a leak detection system under R315-8-12.2(c) shall record the amount of liquids removed from each leak detection system sump at least once each week during the active life and closure period.

#### 12.4 SPECIAL REQUIREMENTS FOR IGNITABLE OR REACTIVE WASTE

Ignitable or reactive waste shall not be placed in a waste pile unless the waste and waste pile satisfy all applicable requirements of R315-13, which incorporates by reference 40 CFR 268, R315-50-12, which incorporates by reference 40 CFR 268 Appendix I, and R315-50-13, which incorporates by reference 40 CFR 268 Appendix II, and:

(a) The waste is treated, rendered, or mixed before or immediately after placement in the pile so that:

(1) The resulting waste, mixture, or dissolution of material no longer meets the definition of ignitable or reactive waste under R315-2-9(d) or (f); and

(2) R315-8-2.8(b) is complied with; or

(b) The waste is managed in a way that it is protected from any material or condition which may cause it to ignite or react.

#### 12.5 SPECIAL REQUIREMENTS FOR INCOMPATIBLE WASTES

(a) Incompatible wastes, or incompatible wastes and materials shall not be placed in the same pile, unless R315-8-2.8(b) is complied with.

(b) A pile of hazardous waste that is incompatible with any waste or other material stored nearby in containers, other piles, open tanks, or surface impoundments shall be separated from the other materials, or protected from them by means of a dike, berm, wall, or other device.

(c) Hazardous waste shall not be piled on the same base where incompatible wastes or materials were previously piled, unless the base has been decontaminated sufficiently to ensure compliance with R315-8-2.8(b).

#### 12.6 CLOSURE AND POST-CLOSURE CARE

(a) At closure, the owner or operator shall remove or decontaminate all waste residues, contaminated containment system components, liners, etc., contaminated subsoils, and structures and equipment contaminated with waste and leachate, and manage them as hazardous waste unless R315-2-3(d) applies.

(b) If, after removing or decontaminating all residues and making all reasonable efforts to effect removal or decontamination of contaminated components, subsoils, structures, and equipment as required in R315-8-12.6(a), the owner or operator finds that not all contaminated subsoils can be practicably removed or decontaminated, he shall close the facility and perform post-closure care in accordance with the closure and post-closure care requirements that apply to landfills, R315-8-7, which incorporates by reference 40 CFR 264.110 - 264.120.

(c)(1) The owner or operator of a waste pile that does not comply with the liner requirements of R315-8-12.2(a)(1), and is not exempt from them in accordance with R315-8-12.1(c) or R315-8-12.2(b) shall:

(i) Include in the closure plan for the pile under R315-8-7.3 both a plan for complying with R315-8-12.6(a) and a contingent plan for complying with R315-8-12.6(b) in case not all contaminated subsoils can be practicably removed at closure; and

(ii) Prepare a contingent post-closure plan under R315-8-7, which incorporates by reference 40 CFR 264.110 - 264.120,

for complying with R315-8-12.6(b) in case not all contaminated subsoils can be practicably removed at closure.

(2) The cost estimates calculated under R315-8-8, which incorporates by reference 40 CFR 264.140 - 264.151, for closure and post-closure care of a pile subject to this paragraph shall include the cost of complying with the contingent closure plan and the contingent post-closure plan, but are not required to include the cost of expected closure under R315-8-12.6(a).

#### 12.7 SPECIAL REQUIREMENTS FOR HAZARDOUS WASTES F020, F021, F022, F023, F026, AND F027

(a) Hazardous Wastes F020, F021, F022, F023, F026 and F027 shall not be placed in waste piles that are not enclosed, as defined in R315-8-12.1(c), unless the owner or operator operates the waste pile in accordance with a management plan for these wastes that is approved by the Executive Secretary pursuant to the standards set out in this paragraph, and in accord with all other applicable requirements of these rules. The factors to be considered are:

(1) The volume, physical, and chemical characteristics of the wastes, including their potential to migrate through soil or to volatilize or escape into the atmosphere;

(2) The attenuative properties of underlying and surrounding soils or other materials;

(3) The mobilizing properties of other materials co-disposed with these wastes; and

(4) The effectiveness of additional treatment, design, or monitoring techniques.

(b) The Executive Secretary may determine that additional design, operating, and monitoring requirements are necessary for piles managing hazardous wastes F020, F021, F022, F023, F026, and F027 in order to reduce the possibility of migration of these wastes to groundwater, surface water, or air so as to protect human health and the environment.

#### 12.8 ACTION LEAKAGE RATE

(a) The Executive Secretary shall approve an action leakage rate for surface impoundment units subject to R315-8-12.2(c) or (d). The action leakage rate is the maximum design flow rate that the leak detection system, LDS, can remove without the fluid head on the bottom liner exceeding one foot. The action leakage rate shall include an adequate safety margin to allow for uncertainties in the design, e.g., slope, hydraulic conductivity, thickness of drainage material, construction, operation, and location of the LDS, waste and leachate characteristics, likelihood and amounts of other sources of liquids in the LDS, and proposed response actions, e.g., the action leakage rate shall consider decreases in the flow capacity of the system over time resulting from siltation and clogging, rib layover and creep of synthetic components of the system, overburden pressures, etc.

(b) To determine if the action leakage rate has been exceeded, the owner or operator shall convert the weekly flow rate from the monitoring data obtained under R315-8-12.3(c), to an average daily flow rate, gallons per acre per day, for each sump. Unless the Executive Secretary approves a different calculation, the average daily flow rate for each sump shall be calculated weekly during the active life and closure period.

#### 12.9 RESPONSE ACTIONS

(a) The owner or operator of waste pile units subject to R315-8-12.2(c) or (d) shall have an approved response action plan before receipt of waste. The response action plan shall set forth the actions to be taken if the action leakage rate has been exceeded. At a minimum, the response action plan shall describe the actions specified in R315-8-12.9(b).

(b) If the flow rate into the leak detection system exceeds the action leakage rate for any sump, the owner or operator shall:

(1) Notify the Executive Secretary in writing of the exceedance within seven days of the determination;

(2) Submit a preliminary written assessment to the

Executive Secretary within 14 days of the determination, as to the amount of liquids, likely sources of liquids, possible location, size, and cause of any leaks, and short-term actions taken and planned;

(3) Determine to the extent practicable the location, size, and cause of any leak;

(4) Determine whether waste receipt should cease or be curtailed, whether any waste should be removed from the unit for inspection, repairs, or controls, and whether or not the unit should be closed;

(5) Determine any other short-term and long-term actions to be taken to mitigate or stop any leaks; and

(6) Within 30 days after the notification that the action leakage rate has been exceeded, submit to the Executive Secretary the results of the analyses specified in R315-8-12.9(b)(3), (4), and (5), the results of actions taken, and actions planned. Monthly thereafter, as long as the flow rate in the leak detection system exceeds the action leakage rate, the owner or operator shall submit to the Executive Secretary a report summarizing the results of any remedial actions taken and actions planned.

(c) To make the leak and/or remediation determinations in R315-8-12.9(b)(3), (4), and (5), the owner or operator shall:

(1)(i) Assess the source of liquids and amounts of liquids by source;

(ii) Conduct a fingerprint, hazardous constituent, or other analyses of the liquids in the leak detection system to identify the source of liquids and possible location of any leaks, and the hazard and mobility of the liquid; and

(iii) Assess the seriousness of any leaks in terms of potential for escaping into the environment; or

(2) Document why such assessments are not needed.

### **R315-8-13. Land Treatment.**

#### **13.1 APPLICABILITY**

The rules in this section apply to owners and operators of facilities that treat or dispose of hazardous waste in land treatment units, except as provided otherwise in R315-8-1.

#### **13.2 TREATMENT PROGRAM**

(a) An owner or operator subject to this section shall establish a land treatment program that is designed to ensure that hazardous constituents placed in or on the treatment zone are degraded, transformed, or immobilized within the treatment zone. The Executive Secretary will specify in the facility permit the elements of the treatment program, including:

(1) The wastes that are capable of being treated at the unit based on demonstration under R315-8-13.3;

(2) Design measures and operating practices necessary to maximize the success of degradation, transformation, and immobilization processes in the treatment zone in accordance with R315-8-13.4(a); and

(3) Unsaturated zone monitoring provisions meeting the requirements of R315-8-13.6.

(b) The Executive Secretary will specify in the facility permit the hazardous constituents that shall be degraded, transformed, or immobilized under this section. Hazardous constituents are constituents identified in R315-50-10, which incorporates by reference 40 CFR 261 Appendix VIII, that are reasonably expected to be in, or derived from, waste placed in or on the treatment zone.

(c) The Executive Secretary will specify the vertical and horizontal dimensions of the treatment zone in the facility permit. The treatment zone is the portion of the unsaturated zone below and including the land surface in which the owner or operator intends to maintain the conditions necessary for effective degradation, transformation, or immobilization of hazardous constituents. The maximum depth of the treatment zone shall be:

(1) No more than 1.5 meters, five feet, from the initial soil

surface; and

(2) More than 1 meter, three feet, above the seasonal high water table.

#### **13.3 TREATMENT DEMONSTRATION**

(a) For each waste that will be applied to the treatment zone, the owner or operator shall demonstrate, prior to application of the waste, that hazardous constituents in the waste can be completely degraded, transformed, or immobilized in the treatment zone.

(b) In making this demonstration, the owner or operator may use field tests, laboratory analyses, available data, or, in the case of existing units, operating data. If the owner or operator intends to conduct field tests or laboratory analyses in order to make the demonstration required under R315-8-13.3(a), he shall obtain a treatment or disposal permit under R315-3-6.4. The Executive Secretary will specify in this plan the testing, analytical, design, and operating requirements, including the duration of the tests, the horizontal and vertical dimensions of the treatment zone, monitoring procedures, closure and clean-up activities necessary to meet the requirements in R315-8-13.3(c).

(c) Any field test or laboratory analysis conducted in order to make a demonstration under R315-8-13.3(a) shall:

(1) Accurately simulate the characteristics and operating conditions for the proposed land treatment unit including:

(i) The characteristics of the waste, including the presence of R315-50-10 constituents, which incorporates by reference 40 CFR 261, Appendix VIII;

(ii) The climate in the area;

(iii) The topography of the surrounding area;

(iv) The characteristics of the soil in the treatment zone, including depth; and

(v) The operating practices to be used at the unit.

(2) Be able to show that hazardous constituents in the waste to be tested will be completely degraded, transformed, or immobilized in the treatment zone of the proposed land treatment unit; and

(3) Be conducted in a manner that protects human health and the environment considering:

(i) The characteristics of the waste to be tested;

(ii) The operating and monitoring measures taken during the course of the test;

(iii) The duration of the test;

(iv) The volume of the waste used in the test;

(v) In the case of field tests, the potential for migration of hazardous constituents to groundwater or surface water.

#### **13.4 DESIGN AND OPERATING REQUIREMENTS**

The Executive Secretary will specify in the facility permit how the owner or operator will design, construct, operate, and maintain the land treatment unit in compliance with this section.

(a) The owner or operator shall design, construct, operate, and maintain the unit to maximize the degradation, transformation, and immobilization of hazardous constituents in the treatment zone. The owner or operator shall design, construct, operate, and maintain the unit in accord with all design and operating conditions that were used in the treatment demonstration under R315-8-13.3. At a minimum, the Executive Secretary will specify the following in the facility plan:

(1) The rate and method of waste application to the treatment zone;

(2) Measures to control soil pH;

(3) Measures to enhance microbial or chemical reactions, e.g., fertilization, tilling; and

(4) Measures to control the moisture content of the treatment zone.

(b) The owner or operator shall design, construct, operate, and maintain the treatment zone to minimize run-off of hazardous constituents during the active life of the land treatment unit.

(c) The owner or operator shall design, construct, operate, and maintain a run-on control system capable of preventing flow onto the treatment zone during peak discharge from at least a 25-year storm.

(d) The owner or operator shall design, construct, operate, and maintain a run-off management system to collect and control at least the water volume resulting from a 24-hour, 25-year storm.

(e) Collection and holding facilities, e.g., tanks or basins, associated with run-on and run-off control systems shall be emptied or otherwise managed expeditiously after storms to maintain the design capacity of the system.

(f) If the treatment zone contains particulate matter which may be subject to wind dispersal, the owner or operator shall manage the unit to control wind dispersal.

(g) The owner or operator shall inspect the unit weekly and after storms to detect evidence of:

(1) Deterioration, malfunctions, or improper operation of run-on and run-off control systems; and

(2) Improper functioning of wind dispersal control measures.

**13.5 FOOD-CHAIN CROPS**

The Executive Secretary may allow the growth of food-chain crops in or on the treatment zone only if the owner or operator satisfies the conditions of this section. The Executive Secretary will specify in the facility plan the specific food-chain crops which may be grown.

(a)(1) The owner or operator shall demonstrate that there is no substantial risk to human health caused by the growth of the crops in or on the treatment zone by demonstrating, prior to the planting of the crops, that hazardous constituents other than cadmium:

(i) Will not be transferred to the food or feed portions of the crop by plant uptake or direct contact, and will not otherwise be ingested by food-chain animals, e.g., by grazing; or

(ii) Will not occur in greater concentrations in or on the food or feed portions of crops grown on the treatment zone than in or on identical portions of the same crops grown on untreated soils under similar conditions in the same region.

(2) The owner or operator shall make the demonstration required under this paragraph prior to the planting of crops at the facility for all constituents identified in R315-50-10, which incorporates by reference 40 CFR 261 Appendix VIII, that are reasonably expected to be in, or derived from, waste placed in or on the treatment zone.

(3) In making a demonstration under this paragraph, the owner or operator may use field tests, greenhouse studies, available data, or, in the case of existing units, operating data, and shall:

(i) Base the demonstration on conditions similar to those present in the treatment zone, including soil characteristics, e.g., pH, cation exchange capacity, specific wastes, application rates, application methods, and crops to be grown; and

(ii) Describe the procedures used in conducting any tests, including the sample selection criteria, sample size, analytical methods, and statistical procedures.

(4) If the owner or operator intends to conduct field tests or greenhouse studies in order to make the demonstration required under this paragraph, he shall obtain a permit for conducting these activities.

(b) The owner or operator shall comply with the following conditions if cadmium is contained in wastes applied to the treatment zone:

(1)(i) The pH of the waste and soil mixture shall be 6.5 or greater at the time of each waste application, except for waste containing cadmium at concentrations of two mg/kg, dry weight, or less;

(ii) The annual application of cadmium from waste shall not exceed 0.5 kilograms per hectare, kg/ha, on land used for

production of tobacco, leafy vegetables, or root crops grown for human consumption. For other food-chain crops, and annual cadmium application rate shall not exceed:

Time Period	Annual Cd Application Rate (kilograms per hectare)
Present to June 30, 1984	2.0
July 1, 1984 to December 31, 1986	1.25
Beginning January 1, 1987	0.5

(iii) The cumulative application of cadmium from waste shall not exceed five kg/ha if the waste and soil mixture has a pH less than 6.5; and

(iv) If the waste and soil mixture has a pH of 6.5 or greater or is maintained at a pH of 6.5 or greater during crop growth, the cumulative application of cadmium from waste shall not exceed: five kg/ha if soil cation exchange capacity (CEC) is less than five meq/100g; 10 kg/ha if soil CEC is 5-15 meq/100g; and 20 kg/ha if soil CEC is greater than 15 meq/100g; or

(2)(i) Animal feed shall be the only food-chain crop produced;

(ii) The pH of the waste and soil mixture shall be 6.5 or greater at the time of waste application or at the time the crop is planted, whichever occurs later, and this pH level shall be maintained whenever food-chain crops are grown;

(iii) There shall be an operating plan which demonstrates how the animal feed will be distributed to preclude ingestion by humans. The operating plan shall describe the measures to be taken to safeguard against possible health hazards from cadmium entering the food-chain, which may result from alternative land uses; and

(iv) Future property owners shall be notified by a stipulation in the land record or property deed which states that the property has received waste at high cadmium application rates and that food-chain crops shall not be grown except in compliance with R315-8-13.5(b)(2).

**13.6 UNSATURATED ZONE MONITORING**

An owner or operator subject to this section shall establish an unsaturated zone monitoring program to discharge the following responsibilities:

(a) The owner or operator shall monitor the soil and soil-pore liquid to determine whether hazardous constituents migrate out of the treatment zone.

(1) The Executive Secretary will specify the hazardous constituents to be monitored in the facility plan. The hazardous constituents to be monitored are those specified under R315-8-13.2(b).

(2) The Executive Secretary may require monitoring for principal hazardous constituents (PHCs) in lieu of the constituents specified under R315-8-13.2(b). PHCs are hazardous constituents contained in the wastes to be applied at the unit that are the most difficult to treat, considering the combined effects of degradation, transformation, and immobilization. The Board will establish PHCs if they find, based on the waste analyses, treatment demonstrations, or other data, that effective degradation, transformation, or immobilization of the PHCs will assure treatment to at least equivalent levels for the other hazardous constituents in the waste.

(b) The owner or operator shall install an unsaturated zone monitoring system that includes soil monitoring using soil cores and soil-pore liquid monitoring using devices such as lysimeters. The unsaturated zone monitoring system shall consist of a sufficient number of sampling points at appropriate locations and depths to yield samples that;

(1) Represent the quality of background soil-pore liquid and the chemical make-up of soil that has not been affected by

leakage from the treatment zone; and

(2) Indicate the quality of soil-pore liquid and the chemical make-up of the soil below the treatment zone.

(c) The owner or operator shall establish a background value for each hazardous constituent to be monitored under R315-8-13.6(a). The permit will specify the background values for each constituent or specify the procedures to be used to calculate the background values.

(1) Background soil values may be based on a one-time sampling at a background plot having characteristics similar to those of the treatment zone.

(2) Background soil-pore liquid values shall be based on at least quarterly sampling for one year at a background plot having characteristics similar to those of the treatment zone.

(3) The owner or operator shall express all background values in a form necessary for the determination of statistically significant increases under R315-8-13.6(f).

(4) In taking samples used in the determination of all background values, the owner or operator shall use an unsaturated zone monitoring system that complies with R315-8-13.6(b)(1).

(d) The owner or operator shall conduct soil monitoring and soil-pore liquid monitoring immediately below the treatment zone. The Executive Secretary will specify the frequency and timing of soil and soil-pore liquid monitoring in the facility permit after considering the frequency, timing, and rate of waste application, and the soil permeability. The owner or operator shall express the results of soil and soil-pore liquid monitoring in a form necessary for the determination of statistically significant increases under R315-8-13.6(f).

(e) The owner or operator shall use consistent sampling and analysis procedures that are designed to ensure sampling results that provide a reliable indication of soil-pore liquid quality and the chemical make-up of the soil below the treatment zone. At a minimum, the owner or operator shall implement procedures and techniques for:

- (1) Sample collection;
- (2) Sample preservation and shipment;
- (3) Analytical procedures; and
- (4) Chain of custody control.

(f) The owner or operator shall determine whether there is a statistically significant change over background values for any hazardous constituent to be monitored under R315-8-13.6(a) below the treatment zone each time he conducts soil monitoring and soil-pore liquid monitoring under R315-8-13.6(d).

(1) In determining whether a statistically significant increase has occurred, the owner or operator shall compare the value of each constituent, as determined under R315-8-13.6(d), to the background value for that constituent according to the statistical procedure specified in the facility plan under this paragraph.

(2) The owner or operator shall determine whether there has been a statistically significant increase below the treatment zone within a reasonable time period after completion of sampling. The Executive Secretary will specify that time period in the facility plan after considering the complexity of the statistical test and the availability of laboratory facilities to perform the analysis of soil and soil-pore liquid samples.

(3) The owner or operator shall determine whether there is a statistically significant increase below the treatment zone using a statistical procedure that provides reasonable confidence that migration from the treatment zone will be identified. The Executive Secretary will specify a statistical procedure in the facility plan that he finds:

- (i) Is appropriate for the distribution of the data used to establish background values; and
- (ii) Provides a reasonable balance between the probability of falsely identifying migration from the treatment zone and the probability of failing to identify real migration from the

treatment zone.

(g) If the owner or operator determines, pursuant to R315-8-13.6(f), that there is a statistically significant increase of hazardous constituents below the treatment zone he shall:

(1) Notify the Board of this finding in writing within seven days. The notification shall indicate what constituents have shown statistically significant increases.

(2) Within 90 days, submit to the Executive Secretary an application for permit modification to modify the operating practices at the facility in order to maximize the success of degradation, transformation, or immobilization processes in the treatment zone.

(h) If the owner or operator determines, pursuant to R315-8-13.6(f), that there is a statistically significant increase of hazardous constituents below the treatment zone, he may demonstrate that a source other than regulated units caused the increase or that the increase resulted from an error in sampling, analysis or evaluation. While the owner or operator may make a demonstration under this paragraph in addition to, or in lieu of, submitting a permit modification application under R315-8-13.6(g)(2), he is not relieved of the requirement to submit a plan modification application within the time specified in R315-8-13.6(g)(2) unless the demonstration made under this paragraph successfully shows that a source other than regulated units caused the increase or that the increase resulted from an error in sampling, analysis, or evaluation. In making a demonstration under this paragraph, the owner or operator shall:

(1) Notify the Board or its duly authorized representative in writing within seven days of determining a statistically significant increase below the treatment zone that he intends to make a determination under this paragraph;

(2) Within 90 days, submit a report to the Board demonstrating that a source other than the regulated units caused the increase or that the increase resulted from error in sampling, analysis, or evaluation;

(3) Within 90 days, submit to the Executive Secretary an application for a permit modification to make any appropriate changes to the unsaturated zone monitoring program at the facility; and

(4) Continue to monitor in accordance with the unsaturated zone monitoring program established under this section.

### 13.7 RECORDKEEPING

The owner or operator shall include hazardous waste application dates, rates, and amounts in the operating record required under R315-8-5.3, which incorporates by reference 40 CFR 264.73.

### 13.8 CLOSURE AND POST-CLOSURE CARE

(a) During the closure period the owner or operator shall:

(1) Continue all operations, including pH control, necessary to maximize degradation, transformation, or immobilization of hazardous constituents within the treatment zone as required under R315-8-13.4(a), except to the extent such measures are inconsistent with R315-8-13.8(a)(8);

(2) Continue all operations in the treatment zone to minimize run-off of hazardous constituents as required under R315-8-13.4(b);

(3) Maintain the run-on control system required under R315-8-13.4(c);

(4) Maintain the run-off management system required under R315-8-13.4(d);

(5) Control wind dispersal of hazardous waste if required under R315-8-13.4(f);

(6) Continue to comply with any prohibitions or conditions concerning growth of food-chain crops under R315-8-13.5;

(7) Continue unsaturated zone monitoring in compliance with R315-8-13.6 except that soil-pore liquid monitoring may be terminated 90 days after the last application of waste to the

treatment zone; and

(8) Establish a vegetative cover on the portion of the facility being closed at a time that the cover will not substantially impede degradation, transformation, or immobilization of hazardous constituents in the treatment zone. The vegetative cover shall be capable of maintaining growth without extensive maintenance.

(b) For the purpose of complying with R315-8-7, which incorporates by reference 40 CFR 264.110 - 264.120, when closure is completed the owner or operator may submit to the Board certification by an independent qualified soil scientist, in lieu of an independent registered professional engineer, that the facility has been closed in accordance with the specifications in the approved closure plan.

(c) During the post-closure care period the owner or operator shall:

(1) Continue all operations, including pH control necessary to enhance degradation and transformation and sustain immobilization of hazardous constituents in the treatment zone to the extent that these measures are consistent with other post-closure care activities;

(2) Maintain a vegetative cover over closed portions of the facility;

(3) Maintain the run-on control system required under R315-8-13.4(c);

(4) Maintain the run-off management system required under R315-8-13.4(d);

(5) Control wind dispersal of hazardous waste if required under R315-8-13.4(f);

(6) Continue to comply with any prohibitions or conditions concerning growth of food-chain crops under R315-8-13.5; and

(7) Continue unsaturated zone monitoring in compliance with R315-8-13.6, except that soil-pore liquid monitoring may be terminated 90 days after the last application of waste to the treatment zone.

(d) The owner or operator is not subject to regulation under R315-8-13.8(a)(8) and (c) if the Board finds that the level of hazardous constituents in the treatment zone soil does not exceed the background value of those constituents by an amount that is statistically significant when using the test specified in R315-8-13.8(d)(3). The owner or operator may submit such a demonstration to the Board at any time during the closure or post-closure care periods. For the purposes of this paragraph:

(1) The owner or operator shall establish background soil values and determine whether there is a statistically significant increase over those values for all hazardous constituents specified in the facility plan under R315-8-13.2(b).

(i) Background soil values may be based on a one-time sampling of a background plot having characteristics similar to those of the treatment zone.

(ii) The owner or operator shall express background values and values for hazardous constituents in the treatment zone in a form necessary for the determination of statistically significant increases under R315-8-13.8(d)(3).

(2) In taking samples used in the determination of background and treatment zone values, the owner or operator shall take samples at a sufficient number of sampling points and at appropriate locations and depths to yield samples that represent the chemical make-up of soil that has not been affected by leakage from the treatment zone and the soil within the treatment zone, respectively.

(3) In determining whether a statistically significant increase has occurred, the owner or operator shall compare the value of each constituent in the treatment zone to the background value for that constituent using a statistical procedure that provides reasonable confidence that constituent presence in the treatment zone will be identified. The owner or operator shall use a statistical procedure that:

(i) Is appropriate for the distribution of the data used to establish background values; and

(ii) Provides a reasonable balance between the probability of falsely identifying hazardous constituent presence in the treatment zone and the probability of failing to identify real presence in the treatment zone.

(e) The owner or operator is not subject to regulation under section R315-8-6 if the Board finds that the owner or operator satisfies R315-8-13.8(d) and if unsaturated zone monitoring under R315-8-13.6 indicates that hazardous constituents have not migrated beyond the treatment zone during the active life of the land treatment unit.

### 13.9 SPECIAL REQUIREMENTS FOR IGNITABLE OR REACTIVE WASTE

The owner or operator shall not apply ignitable or reactive waste to the treatment zone unless the waste and the treatment zone meet all applicable requirements of R315-13, R315-50-12, and R315-50-13, which incorporate by reference 40 CFR 268, and:

(a) The waste is immediately incorporated into the soil so that:

(1) The resulting waste, mixture, or dissolution of material no longer meets the definition of ignitable or reactive waste under R315-2-9(d) or (f); and

(2) Section R315-8-2.8(b) is complied with; or

(b) The waste is managed in a way that it is protected from any material or conditions which may cause it to ignite or react.

### 13.10 SPECIAL REQUIREMENTS FOR INCOMPATIBLE WASTES

The owner or operator shall not place incompatible wastes, or incompatible wastes and materials, see 40 CFR 264, Appendix V for examples, in or on the same treatment zone, unless R315-8-2.8(b) is complied with.

### 13.11 SPECIAL REQUIREMENTS FOR HAZARDOUS WASTES F020, F021, F022, F023, F026, F027

(a) Hazardous Wastes F020, F021, F022, F023, F026, and F027 shall not be placed in a land treatment unit unless the owner or operator operates the facility in accordance with a management plan for these wastes that is approved by the Executive Secretary pursuant to the standards set out in this paragraph, and in accord with all other applicable requirements of these rules. The factors to be considered are:

(1) The volume, physical, and chemical characteristics of the wastes including their potential to migrate through soil or to volatilize or escape into the atmosphere;

(2) The attenuative properties of underlying and surrounding soils or other materials;

(3) The mobilizing properties of other materials co-disposed with these wastes; and

(4) The effectiveness of additional treatment, design, or monitoring techniques.

(b) The Board may determine that additional design, operating, and monitoring requirements are necessary for land treatment facilities managing hazardous waste F020, F021, F022, F023, F026, and F027 in order to reduce the possibility of migration of these wastes to groundwater, surface water, or air so as to protect human health and the environment.

### R315-8-14. Landfills.

#### 14.1 APPLICABILITY

The rules in this section apply to owners and operators of facilities that dispose of hazardous waste in landfills, except as R315-8-1 provides otherwise.

#### 14.2 DESIGN AND OPERATING REQUIREMENTS

(a) Any landfill that is not covered by R315-8-14.2(c) or R315-7-21.2(a) shall have a liner system for all portions of the landfill, except for existing portions of the landfill. The liner system shall have:

(1) A liner that is designed, constructed, and installed to

prevent any migration of wastes out of the landfill to the adjacent subsurface soil or groundwater or surface water at any time during the active life, including the closure period, of the landfill. The liner shall be constructed of material that prevents wastes from passing into the liner during the active life of the facility. The liner shall be:

(i) Constructed of materials that have appropriate chemical properties and sufficient strength and thickness to prevent failure due to pressure gradients, including static head and external hydrogeologic forces, physical contact with the waste or leachate to which they are exposed, climatic conditions, the stress of installation, and the stress of daily operation;

(ii) Placed upon a foundation or base capable of providing support to the liner and resistance to pressure gradients above and below the liner to prevent failure of the liner due to settlement, compression, or uplift; and

(iii) Installed to cover all surrounding earth likely to be in contact with the waste or leachate; and

(2) A leachate collection and removal system immediately above the liner that is designed, constructed, maintained, and operated to collect and remove leachate from the landfill. The Executive Secretary will specify design and operating conditions in the permit to ensure that the leachate depth at any point on the liner system, does not exceed 30 cm, one foot. The leachate collection and removal system shall be:

(i) Constructed of materials that are:

(A) Chemically resistant to the waste managed in the landfill and the leachate expected to be generated; and

(B) Of sufficient strength and thickness to prevent collapse under the pressures exerted by overlying wastes, waste cover materials, and by any equipment used at the landfill; and

(ii) Designed and operated to function without clogging through the scheduled closure of the landfill.

(b) The owner or operator will be exempted from the requirements of R315-8-14.2(a) if the Board finds, based on a demonstration by the owner or operator, that alternative design and operating practices, together with location characteristics, will prevent the migration of any hazardous constituents, see R315-8-6.4, into the groundwater or surface water at any future time. In deciding whether to grant an exemption, the Board will consider:

(1) The nature and quantity of the wastes;

(2) The proposed alternate design and operation;

(3) The hydrogeologic setting of the facility, including the attenuative capacity and thickness of the liners and soils present between the landfill and groundwater or surface water; and

(4) All other factors which would influence the quality and mobility of the leachate produced and the potential for it to migrate to groundwater or surface water.

(c) The owner or operator of each new landfill unit on which construction commences after January 29, 1992, each lateral expansion of a landfill unit on which construction commences after July 29, 1992, and each replacement of an existing landfill unit that is to commence reuse after July 29, 1992 shall install two or more liners and a leachate collection and removal system above and between such liners. "Construction commences" is as defined in R315-1-1(b), which incorporates by reference 40 CFR 260.10, under "existing facility."

(1)(i) The liner system shall include:

(A) A top liner designed and constructed of materials, e.g., a geomembrane, to prevent the migration of hazardous constituents into such liner during the active life and post-closure care period; and

(B) A composite bottom liner, consisting of at least two components. The upper component shall be designed and constructed of materials, e.g., a geomembrane, to prevent the migration of hazardous constituents into this component during the active life and post-closure care period. The lower

component shall be designed and constructed of materials to minimize the migration of hazardous constituents if a breach in the upper component were to occur. The lower component shall be constructed of at least three feet, 91 cm, of compacted soil material with a hydraulic conductivity of no more than  $1 \times 10^{-7}$  cm/sec.

(ii) The liners shall comply with R315-8-14.2(a)(1)(i), (ii), and (iii).

(2) The leachate collection and removal system immediately above the top liner shall be designed, constructed, operated, and maintained to collect and remove leachate from the landfill during the active life and post-closure care period. The Executive Secretary will specify design and operating conditions in the permit to ensure that the leachate depth over the liner does not exceed 30 cm, one foot. The leachate collection and removal system shall comply with R315-8-14.2(c)(3)(iii) and (iv).

(3) The leachate collection and removal system between the liners, and immediately above the bottom composite liner in the case of multiple leachate collection and removal systems, is also a leak detection system. This leak detection system shall be capable of detecting, collecting, and removing leaks of hazardous constituents at the earliest practicable time through all areas of the top liner likely to be exposed to waste or leachate during the active life and post-closure care period. The requirements for a leak detection system in this paragraph are satisfied by installation of a system that is, at a minimum:

(i) Constructed with a bottom slope of one percent or more;

(ii) Constructed of granular drainage materials with a hydraulic conductivity of  $1 \times 10^{-2}$  cm/sec or more and a thickness of 12 inches, 30.5 cm, or more; or constructed of synthetic or geonet drainage materials with a transmissivity of  $3 \times 10^{-5}$  m<sup>2</sup>/sec or more;

(iii) Constructed of materials that are chemically resistant to the waste managed in the landfill and the leachate expected to be generated, and of sufficient strength and thickness to prevent collapse under the pressures exerted by overlying wastes, waste cover materials, and equipment used at the landfill;

(iv) Designed and operated to minimize clogging during the active life and post-closure care period; and

(v) Constructed with sumps and liquid removal methods, e.g., pumps, of sufficient size to collect and remove liquids from the sump and prevent liquids from backing up into the drainage layer. Each unit shall have its own sump(s). The design of each sump and removal system shall provide a method for measuring and recording the volume of liquids present in the sump and of liquids removed.

(4) The owner or operator shall collect and remove pumpable liquids in the leak detection system sumps to minimize the head on the bottom liner.

(5) The owner or operator of a leak detection system that is not located completely above the seasonal high water table shall demonstrate that the operation of the leak detection system will not be adversely affected by the presence of ground water.

(d) The Executive Secretary may approve alternative design or operating practices to those specified in R315-8-14.2(c) if the owner or operator demonstrates to the Executive Secretary that such design and operating practices, together with location characteristics:

(1) Will prevent the migration of any hazardous constituent into the ground water or surface water at least as effectively as the liners and leachate collection and removal systems specified in R315-8-14.2(c); and

(2) Will allow detection of leaks of hazardous constituents through the top liner at least as effectively.

(e) The double liner requirement set forth in R315-8-14.2(h) may be waived by the Board for any monofill, if:

(1) The monofill contains only hazardous wastes from foundry furnace emission controls or metal casting molding sand, and the wastes do not contain constituents which would render the wastes hazardous for reasons other than the Toxicity Characteristics in R315-2-9(g) and EPA Hazardous Waste Numbers D004 through D017; and

(2)(i)(A) The monofill has at least one liner for which there is no evidence that the liner is leaking:

(B) The monofill is located more than one-quarter mile from an underground source of drinking water, as that term is defined in 40 CFR 144.3; and

(C) The monofill is in compliance with generally applicable groundwater monitoring requirements for facilities with permit; or

(ii) The owner or operator demonstrates that the monofill is located, designed, and operated so as to assure that there will be no migration of any hazardous constituent into groundwater or surface water at any future time.

(f) The owner or operator of any replacement landfill unit is exempt from R315-8-14.2(c) if:

(1) The existing unit was constructed in compliance with the design standards of section 3004(o)(1)(A)(i) and (o)(5) of the Resource Conservation and Recovery Act; and

(2) There is no reason to believe that the liner is not functioning as designed.

(g) The owner or operator shall design, construct, operate, and maintain a run-on control system capable of preventing flow onto the active portion of the landfill during peak discharge from at least a 25-year storm.

(h) The owner or operator shall design, construct, operate, and maintain a run-off management system to collect and control at least the water volume resulting from a 24-hour, 25-year storm.

(i) Collection and holding facilities, e.g., tanks or basins, associated with run-on and run-off control systems shall be emptied or otherwise managed expeditiously after storms to maintain design capacity of the system.

(j) If the landfill contains any particulate matter which may be subject to wind dispersal, the owner or operator shall cover or otherwise manage the landfill to control wind dispersal.

(k) The Executive Secretary will specify in the permit all design and operating practices that are necessary to ensure that the requirements of this section are satisfied.

#### 14.3 MONITORING AND INSPECTION

(a) During construction or installation, liners, except in the case of existing portions of landfills exempt from R315-8-14.2(a), and cover systems, e.g., membranes, sheets, or coatings, shall be inspected for uniformity, damage, and imperfections, e.g., holes, cracks, thin spots, or foreign materials. Immediately after construction or installation:

(1) Synthetic liners and covers shall be inspected to ensure tight seams and joints and the absence of tears, punctures, or blisters; and

(2) Soil-based and admixed liners and covers shall be inspected for imperfections including lenses, cracks, channels, root holes, or other structural non-uniformities that may cause an increase in the permeability of the liner or cover.

(b) While a landfill is in operation, it shall be inspected weekly and after storms to detect evidence of any of the following:

(1) Deterioration, malfunctions, or improper operation of run-on and run-off control systems;

(2) Proper functioning of wind dispersal control systems, where present; and

(3) The presence of leachate in and proper functioning of leachate collection and removal systems, where present.

(c)(1) An owner or operator required to have a leak detection system under R315-8-14.2(c) or (d) shall record the amount of liquids removed from each leak detection system

sump at least once each week during the active life and closure period.

(2) After the final cover is installed, the amount of liquids removed from each leak detection system sump shall be recorded at least monthly. If the liquid level in the sump stays below the pump operating level for two consecutive months, the amount of liquids in the sumps shall be recorded at least quarterly. If the liquid level in the sump stays below the pump operating level for two consecutive quarters, the amount of liquids in the sumps shall be recorded at least semi-annually. If at any time during the post-closure care period the pump operating level is exceeded at units on quarterly or semi-annual recording schedules, the owner or operator shall return to monthly recording of amounts of liquids removed from each sump until the liquid level again stays below the pump operating level for two consecutive months.

(3) "Pump operating level" is a liquid level proposed by the owner or operator and approved by the Executive Secretary based on pump activation level, sump dimensions, and level that avoids backup into the drainage layer and minimizes head in the sump.

#### 14.4 SURVEYING AND RECORDKEEPING

The owner or operator of a landfill shall maintain the following items in the operating record required under R315-8-5.3, which incorporates by reference 40 CFR 264.73:

(a) On a map, the exact location and dimensions, including depth, of each cell with respect to permanently surveyed bench marks; and

(b) The contents of each cell and the approximate location of each hazardous waste type within each cell.

#### 14.5 CLOSURE AND POST-CLOSURE CARE

(a) At final closure of the landfill or upon closure of any cell, the owner or operator shall cover the landfill or cell with a final cover designed and constructed to:

(1) Provide long-term minimization of migration of liquids through the closed landfill;

(2) Function with minimum maintenance;

(3) Promote drainage and minimize erosion or abrasion of the cover;

(4) Accommodate settling and subsidence so that the cover's integrity is maintained; and

(5) Have a permeability less than or equal to the permeability of any bottom liner system or natural subsoils present.

(b) After final closure, the owner or operator shall comply with all post-closure requirements contained under R315-8-9.8 and R315-8-7, which incorporates by reference 40 CFR 264.110 - 264.120, including maintenance and monitoring throughout the post-closure care period, specified in the permit, under R315-8-7, which incorporates by reference 40 CFR 264.110 - 264.120. The owner or operator shall:

(1) Maintain the integrity and effectiveness of the final cover, including making repairs to the cap as necessary to correct the effects of settling, subsidence, erosion, or other events;

(2) Continue to operate the leachate collection and removal system until leachate is no longer detected;

(3) Maintain and monitor the leak detection system in accordance with R315-8-14.2(c)(3)(iv) and (4) and R315-8-14.3(c), and comply with all other applicable leak detection system requirements of R315-8;

(4) Maintain and monitor the groundwater monitoring system and comply with all other applicable requirements of these rules;

(5) Prevent run-on and run-off from eroding or otherwise damaging the final cover; and

(6) Protect and maintain surveyed bench marks used in complying with R315-8-14.4.

#### 14.6 SPECIAL REQUIREMENTS FOR IGNITABLE OR

**REACTIVE WASTE**

(a) Except as provided in R315-8-14.6(b), and in R315-8-14.10, ignitable or reactive waste shall not be placed in a landfill, unless the waste and landfill meet all applicable requirements of R315-13, R315-50-12, and R315-50-13, which incorporate by reference 40 CFR 268, and:

(1) The resulting waste, mixture, or dissolution of material no longer meets the definition of ignitable or reactive waste under R315-2-9(d) or (f); and

(2) R315-8-2.8(b) is complied with.

(b) Except for prohibited wastes which remain subject to treatment standards in R315-13, which incorporates by reference 40 CFR 268 subpart D, ignitable wastes in containers may be landfilled without meeting the requirements of R315-8-14.6(a), provided that the wastes are disposed of in a way that they are protected from any material or conditions which may cause them to ignite. At a minimum, ignitable wastes shall be disposed of in non-leaking containers which are carefully handled and placed so as to avoid heat, sparks, rupture, or any other condition that might cause ignition of the wastes; shall be covered daily with soil or other non-combustible material to minimize the potential for ignition of the wastes; and shall not be disposed of in cells that contain or will contain other wastes which may generate heat sufficient to cause ignition of the waste.

**14.7 SPECIAL REQUIREMENTS FOR INCOMPATIBLE WASTES**

Incompatible wastes, or incompatible wastes and materials shall not be placed in the same landfill cell, unless R315-8-2.8(b) is complied with.

**14.8 SPECIAL REQUIREMENTS FOR LIQUID WASTE**

(a) Bulk or non-containerized liquid waste or waste containing free liquids may be placed in a landfill, prior to May 8, 1985, if:

(1) The landfill has a liner and leachate collection and removal system that meet the requirements of R315-8-14.2(a); or

(2) Before disposal, the liquid waste or waste containing free liquids is treated or stabilized, chemically or physically, e.g., by mixing with a sorbent solid, so that free liquids are no longer present.

(b) Effective May 8, 1985, the placement of bulk or non-containerized liquid hazardous waste or hazardous waste containing free liquids, whether or not sorbents have been added, in any landfill is prohibited.

(c) To demonstrate the absence or presence of free liquids in either a containerized or a bulk waste, the following test shall be used: Method 9095, Paint Filter Liquids Test, as described in "Test Methods for Evaluating Solid Wastes, Physical/Chemical Methods." EPA Publication No. SW-846 as incorporated by reference in 40 CFR 260.11, see R315-1-2.

(d) Containers holding free liquids shall not be placed in a landfill unless:

(1) All free-standing liquid:

(i) Has been removed by decanting, or other methods;

(ii) Has been mixed with sorbent or solidified so that free-standing liquid is no longer observed; or

(iii) Has been otherwise eliminated; or

(2) The container is very small, such as an ampule; or

(3) The container is designed to hold free liquids for use other than storage, such as a battery or capacitor; or

(4) The container is a lab pack as defined in R315-8-14.10, and is disposed of in accordance with R315-8-14.10.

(e) Sorbents used to treat free liquids to be disposed of in landfills shall be nonbiodegradable. Nonbiodegradable sorbents are: materials listed or described in R315-8-14.8(e)(1); materials that pass one of the tests in R315-8-14.8(e)(2); or materials that are determined by EPA to be nonbiodegradable through the R315-2-16, which incorporates by reference 40 CFR 260.22,

petition process.

(1) Nonbiodegradable sorbents.

(i) Inorganic minerals, other inorganic materials, and elemental carbon, e.g., aluminosilicates, clays, smectites, Fuller's earth, bentonite, calcium bentonite, montmorillonite, calcined montmorillonite, kaolinite, micas (illite), vermiculites, zeolites; calcium carbonate (organic free limestone); oxides/hydroxides, alumina, lime, silica (sand), diatomaceous earth; perlite (volcanic glass); expanded volcanic rock; volcanic ash; cement kiln dust; fly ash; rice hull ash; activated charcoal/activated carbon; or

(ii) High molecular weight synthetic polymers (e.g., polyethylene, high density polyethylene (HDPE), polypropylene, polystyrene, polyurethane, polyacrylate, polynorborene, polyisobutylene, ground synthetic rubber, cross-linked allylstyrene and tertiary butyl copolymers). This does not include polymers derived from biological material or polymers specifically designed to be degradable; or

(iii) Mixtures of these nonbiodegradable materials.

(2) Tests for nonbiodegradable sorbents.

(i) The sorbent material is determined to be nonbiodegradable under ASTM Method G21-70 (1984a)-Standard Practice for Determining Resistance of Synthetic Polymer Materials to Fungi; or

(ii) The sorbent material is determined to be nonbiodegradable under ASTM Method G22-76 (1984b)-Standard Practice for Determining Resistance of Plastics to Bacteria; or

(iii) The sorbent material is determined to be nonbiodegradable under the Organization for Economic Cooperation and Development (OECD) test 301B, CO<sub>2</sub> Evolution, Modified Sturm Test.

(f) Effective November 8, 1985, the landfill placement of any liquid which is not a hazardous waste in a landfill is prohibited unless the owner or operator of the landfill demonstrates to the Board, or the Board determines that;

(1) The only reasonably available alternative to the placement in the landfill is placement in a landfill or unlined surface impoundment, whether or not permitted or operating under interim status, which contains or may reasonably be anticipated to contain, hazardous waste; and

(2) Placement in the owner or operator's landfill will not present a risk of contamination of any underground source of drinking water, as that term is defined in 40 CFR 144.3.

**14.9 SPECIAL REQUIREMENTS FOR CONTAINERS**

Unless they are very small, such as an ampule, containers shall be either:

(a) At least 90 percent full when placed in the landfill; or

(b) Crushed, shredded, or similarly reduced in volume to the maximum practical extent before burial in the landfill.

**14.10 DISPOSAL OF SMALL CONTAINERS OF HAZARDOUS WASTE IN OVERPACKED DRUMS, LAB PACKS**

Small containers of hazardous waste in overpacked drums, lab packs, may be placed in a landfill if the following requirements are met:

(a) Hazardous waste shall be packaged in non-leaking inside containers. The inside containers shall be of a design and constructed of a material that will not react dangerously with, be decomposed by, or be ignited by the contained waste. Inside containers shall be tightly and securely sealed. The inside containers shall be of the size and type specified in the Department of Transportation (DOT) hazardous materials regulations, 49 CFR parts 173, 178, and 179, if those regulations specify a particular inside container for the waste.

(b) The inside containers shall be overpacked in an open head DOT - specification metal shipping container, 49 CFR parts 178 and 179, of no more than 416-liter, 110 gallon, capacity and surrounded by, at a minimum, a sufficient quantity

of sorbent material, determined to be nonbiodegradable in accordance with R315-8-14.8(e), to completely sorb all of the liquid contents of the inside containers. The metal outer container shall be full after it has been packed with inside containers and sorbent material.

(c) The sorbent material used shall not be capable of reacting dangerously with, being decomposed by, or being ignited by the contents of the inside containers in accordance with R315-8-2.8(b).

(d) Incompatible wastes, as defined in R315-1 shall not be placed in the same outside container.

(e) Reactive wastes, other than cyanide or sulfide bearing wastes as defined in R315-2-9(f)(v) shall be treated or rendered non-reactive prior to packaging in accordance with R315-8-14.10(a) through (d). Cyanide and sulfide bearing reactive waste may be packed in accordance with R315-8-14.10(a) through (d) without first being treated or rendered non-reactive.

(f) The disposal is in compliance with the requirements of R315-13, R315-50-12, and R315-50-13, which incorporate by reference 40 CFR 268. Persons who incinerate lab packs according to the requirements in R315-13, which incorporates by reference 40 CFR 268.42(c)(1), may use fiber drums in place of metal outer containers. Such fiber drums shall meet the DOT specification in 49 CFR 173.12 and be overpacked according to the requirements in R315-8-14.10(b).

#### 14.11 SPECIAL REQUIREMENTS FOR HAZARDOUS WASTES F020, F021, F022, F023, F026, AND F027

(a) Hazardous Wastes F020, F021, F022, F023, F026, and F027 shall not be placed in a landfill unless the owner or operator operates the landfill in accord with a management plan for these wastes that is approved by the Executive Secretary pursuant to the standards set out in this paragraph, and in accord with all other applicable requirements. The factors to be considered are:

(1) The volume, physical and chemical characteristics of the wastes, including their potential to migrate through the soil or to volatilize or escape into the atmosphere;

(2) The attenuative properties of underlying and surrounding soils or other materials;

(3) The mobilizing properties of other materials co-disposed with these wastes; and

(4) The effectiveness of additional treatment, design, or monitoring requirements.

(b) The Board may determine that additional design, operating and monitoring requirements are necessary for landfills managing hazardous wastes F020, F021, F022, F023, F026, and F027 in order to reduce the possibility of migration of these wastes to groundwater, surface water, or air so as to protect human health and the environment.

#### 14.12 ACTION LEAKAGE RATE

(a) The Executive Secretary shall approve an action leakage rate for surface impoundment units subject to R315-8-14.2(c) or (d). The action leakage rate is the maximum design flow rate that the leak detection system, LDS, can remove without the fluid head on the bottom liner exceeding one foot. The action leakage rate shall include an adequate safety margin to allow for uncertainties in the design, e.g., slope, hydraulic conductivity, thickness of drainage material, construction, operation, and location of the LDS, waste and leachate characteristics, likelihood and amounts of other sources of liquids in the LDS, and proposed response actions, e.g., the action leakage rate shall consider decreases in the flow capacity of the system over time resulting from siltation and clogging, rib layover and creep of synthetic components of the system, overburden pressures, etc.

(b) To determine if the action leakage rate has been exceeded, the owner or operator shall convert the weekly or monthly flow rate from the monitoring data obtained under R315-8-14.3(c), to an average daily flow rate, gallons per acre

per day, for each sump. Unless the Executive Secretary approves a different calculation, the average daily flow rate for each sump shall be calculated weekly during the active life and closure period, and monthly during the post-closure care period when monthly monitoring is required under R315-8-14.3(c).

#### 14.13 RESPONSE ACTIONS

(a) The owner or operator of landfill units subject to R315-8-14.2(c) or (d) shall have an approved response action plan before receipt of waste. The response action plan shall set forth the actions to be taken if the action leakage rate has been exceeded. At a minimum, the response action plan shall describe the actions specified in R315-8-14.13(b).

(b) If the flow rate into the leak detection system exceeds the action leakage rate for any sump, the owner or operator shall:

(1) Notify the Executive Secretary in writing of the exceedance within seven days of the determination;

(2) Submit a preliminary written assessment to the Executive Secretary within 14 days of the determination, as to the amount of liquids, likely sources of liquids, possible location, size, and cause of any leaks, and short-term actions taken and planned;

(3) Determine to the extent practicable the location, size, and cause of any leak;

(4) Determine whether waste receipt should cease or be curtailed, whether any waste should be removed from the unit for inspection, repairs, or controls, and whether or not the unit should be closed;

(5) Determine any other short-term and longer-term actions to be taken to mitigate or stop any leaks; and

(6) Within 30 days after the notification that the action leakage rate has been exceeded, submit to the Executive Secretary the results of the analyses specified in R315-8-14.13(b)(3)-(5), the results of actions taken, and actions planned. Monthly thereafter, as long as the flow rate in the leak detection system exceeds the action leakage rate, the owner or operator shall submit to the Executive Secretary a report summarizing the results of any remedial actions taken and actions planned.

(c) To make the leak and/or remediation determinations in R315-8-14.13(b)(3)-(5), the owner or operator shall:

(1)(i) Assess the source of liquids and amounts of liquids by source;

(ii) Conduct a fingerprint, hazardous constituent, or other analyses of the liquids in the leak detection system to identify the source of liquids and possible location of any leaks, and the hazard and mobility of the liquid; and

(iii) Assess the seriousness of any leaks in terms of potential for escaping into the environment; or

(2) Document why such assessments are not needed.

### R315-8-15. Incinerators.

#### 15.1 APPLICABILITY

(a) The rules in this section apply to owners or operators of facilities that incinerate hazardous waste, as defined in 40 CFR 260.10, except as R315-8-1 provides otherwise.

(b) Integration of the MACT standards.

(1) Except as provided by R315-8-15.1(b)(2), (3), and (4) the standards of R315-8 no longer apply when an owner or operator demonstrates compliance with the maximum achievable control technology (MACT) requirements of R307-214-2, which incorporates by reference 40 CFR 63, subpart EEE, by conducting a comprehensive performance test and submitting to the Executive Secretary a Notification of Compliance under R307-214-2, which incorporates by reference 40 CFR 63.1207(j) and 63.1210(b), documenting compliance with the requirements of 307-214-2, which incorporates by reference 40 CFR 63, subpart EEE. Nevertheless, even after this demonstration of compliance with the MACT standards,

hazardous waste permit conditions that were based on the standards of R315-8 will continue to be in effect until they are removed from the permit or the permit is terminated or revoked, unless the permit expressly provides otherwise.

(2) The MACT standards do not replace the closure requirements of R315-8-15.8 or the applicable requirements of R315-8-1 through R315-8-8, R315-8-18, which incorporates by reference 40 CFR 264 subpart BB, and R315-8-22, which incorporates by reference 40 CFR 264 subpart CC.

(3) The particulate matter standard of R315-8-15.4(b) remains in effect for incinerators that elect to comply with the alternative to the particulate matter standard of R307-214-2, which incorporates by reference to CFR 63.1206(b)(14).

(4) The following requirements remain in effect for startup, shutdown, and malfunction events if you elect to comply with R315-3-9(a)(1)(i) to minimize emissions of toxic compounds from these events:

(i) R315-8-15.6(a) requiring that an incinerator operate in accordance with operating requirements specified in the permit; and

(ii) R315-8-15.6(c) requiring compliance with the emission standards and operating requirements during startup and shutdown if hazardous waste is in the combustion chamber, except for particular hazardous wastes.

(c) After consideration of the waste analysis included with part B of the permit application, the Executive Secretary, in establishing the permit conditions, shall exempt the applicant from all requirements of this section except R315-8-15.2, Waste Analysis and R315-8-15.8, Closure,

(1) If the Executive Secretary finds that the waste to be burned is:

(i) Listed as a hazardous waste in R315-2-10 or R315-2-11 solely because it is ignitable, Hazard Code I, corrosive Hazard Code C, or both; or

(ii) Listed as a hazardous waste in R315-2-10 or R315-2-11 solely because it is reactive, Hazard Code R, for characteristics other than those listed in R315-2-9(f)(1)(iv) and (v), and will not be burned when other hazardous wastes are present in the combustion zone; or

(iii) A hazardous waste solely because it possesses the characteristics of ignitability, corrosivity, or both, as determined by the test for characteristics of hazardous wastes under R315-2-9, or

(iv) A hazardous waste solely because it possesses any of the reactivity characteristics described by R315-2-9(f)(1)(i), (ii), (iii), (vi), (vii), and (viii) and will not be burned when other hazardous wastes are present in the combustion zone; and

(2) If the waste analysis shows that the waste contains none of the hazardous constituents listed in R315-50-10, which incorporates by reference 40 CFR 261 Appendix VIII, which could reasonably be expected to be in the waste.

(d) If the waste to be burned is one which is described by R315-8-15.1(c)(1)(i), (ii), (iii), or (iv) and contains insignificant concentrations of the hazardous constituents listed in R315-50-10, which incorporates by reference 40 CFR 261 Appendix VIII, then the Executive Secretary may, in establishing permit conditions, exempt the applicant from all requirements of this section except R315-8-15.2, Waste analysis and R315-8-15.8, Closure, after consideration of the waste analysis included with part B of the permit application, unless the Executive Secretary finds that the waste will pose a threat to human health and the environment when burned in an incinerator.

(e) The owner or operator of an incinerator may conduct trial burns subject only to the requirements of R315-3-6.3.

#### 15.2 WASTE ANALYSIS

(a) As a portion of the trial burn plan required by R315-3-6.3 or with part B of the permit the owner or operator shall have included an analysis of the waste feed sufficient to provide all information required by R315-3-6.3(b) or R315-3-2.10. Owners

or operators of new hazardous waste incinerators shall provide the information required by R315-3-6.3(c) or R315-3-2.10 to the greatest extent possible.

(b) Throughout normal operation the owner or operator shall conduct sufficient waste analysis to verify that waste feed to the incinerator is within the physical and chemical composition limits specified in his permit, R315-8-15.6.

#### 15.3 PRINCIPAL ORGANIC HAZARDOUS CONSTITUENTS (POHCS)

(a) Principal Organic Hazardous Constituents (POHCs) in the waste feed shall be treated to the extent required by the performance standard of R315-8-15.4.

(b)(1) One or more POHCs will be specified in the facility's permit, from among these constituents listed in R315-50-10, which incorporates by reference 40 CFR 261 Appendix VIII, for each waste feed to be burned. This specification will be based on the degree of difficulty of incineration of the organic constituents in the waste and on their concentration or mass in the waste feed, considering the results of waste analyses and trial burns or alternative data submitted with part B of the permit. Organic constituents which represent the greatest degree of difficulty of incineration will be those most likely to be designated as POHCs. Constituents are more likely to be designated as POHCs if they are present in large quantities or concentrations in the waste.

(2) Trial POHCs will be designated for performance of trial burns in accordance with the procedure specified R315-3-6.3 for obtaining trial burn permits.

#### 15.4 PERFORMANCE STANDARDS

An incinerator burning hazardous waste shall be designed, constructed, and maintained so that, when operated in accordance with operating requirements specified under R315-8-15.6, it will meet the following performance standards:

(a)(1) An incinerator burning hazardous waste shall achieve a destruction and removal efficiency (DRE) of 99.99% for each principal organic hazardous constituent (POHC) designated, R315-8-15.3, in its permit for each waste feed. DRE is determined for each POHC from the following equation:

$$DRE = (W_{in} - W_{out}) / W_{in} \times 100\%$$

Where:

$W_{in}$  = Mass feed rate of one principal organic hazardous constituent (POHC) in the waste stream feeding the incinerator, and

$W_{out}$  = Mass emission rate of the same POHC present in exhaust emissions prior to release to the atmosphere.

(2) An incinerator burning hazardous waste and producing stack emissions of more than 1.8 kilograms per hour, 4 pounds per hour, of hydrogen chloride (HCl) shall control HCl emissions so that the rate of emission is no greater than the larger of either 1.8 kilograms per hour or one percent of the HCl in the stack gas prior to entering any pollution control equipment.

(b) An incinerator burning hazardous waste shall not emit particulate matter in excess of 180 milligrams per dry standard cubic meter, 0.08 grains per dry standard cubic foot, when corrected for the amount of oxygen in the stack gas according to the formula:

$$P_c = P_m \times 14 / (21 - Y)$$

When  $P_c$  is correct concentration of particulate matter,  $P_m$  is the measured concentration of particulate matter, and  $Y$  is the measured concentration of oxygen in the stack gas, using the Orsat method for oxygen analysis of dry flue gas, as presented in 40 CFR 60 Appendix A Method 3. This correction procedure is to be used by all hazardous waste incinerators except those operating under conditions of oxygen enrichment. For these facilities, the Executive Secretary will select an appropriate correction procedure, to be specified in the facility permit.

(c) For purposes of permit enforcement, compliance with the operating requirements specified in the permit under R315-

8-15.6 will be regarded as compliance with this section. However, evidence that compliance with those permit conditions is insufficient to ensure compliance with the performance requirements of this section may be "information" justifying modification, revocation, or reissuance of a permit under R315-3-4.2.

(d) An incinerator burning hazardous wastes F020, F021, F022, F023, F026, or F027 shall achieve a destruction and removal efficiency (DRE) of 99.9999% for each principal organic hazardous constituent (POHC) designated, under R315-8-15.3, in its permit. This performance shall be demonstrated on POHCs that are more difficult to incinerate than tetra-, penta-, and hexachlorodibenzo-p-dioxins and dibenzofurans. DRE is determined for each POHC from the equation in R315-8-15.4(a)(1). In addition, the owner or operator of the incinerator shall notify the Executive Secretary of his intent to incinerate hazardous wastes F020, F021, F022, F023, F026, or F027.

#### 15.5 HAZARDOUS WASTE INCINERATOR PERMITS

(a) The owner or operator of a hazardous waste incinerator may burn only wastes specified in his permit and only under operating conditions specified for those wastes under 8.15.6., except:

- (1) In approved trial burns, R315-3-6.3, or
- (2) Under exemptions created by R315-8-15.1.

(b) Other hazardous wastes may be burned after operating conditions have been specified in a new permit or a permit modification, as applicable. Operating requirements for new wastes may be based on either trial burn results or alternative data included with part B of a permit under R315-3-2.10.

(c) The permit for a new hazardous waste incinerator shall establish appropriate conditions for each of the applicable requirements of this section including but not limited to allowable waste feeds and operating conditions necessary to meet the requirements of R315-8-15.6, sufficient to comply with the following standards:

(1) For the period beginning with initial introduction of hazardous waste to the incinerator and ending with initiation of the trial burn, and only for the minimum time required to establish operating conditions required in R315-8-15.5(c)(2), not to exceed a duration of 720 hours operating time for treatment of hazardous waste, the operating requirements shall be those most likely to ensure compliance with the performance standards in R315-8-15.4 based on the Executive Secretary's engineering judgement. The Executive Secretary may extend the duration of this period once for up to 720 additional hours when good cause for the extension is demonstrated by the applicant;

(2) For the duration of the trial burn, the operating requirements shall be sufficient to demonstrate compliance with the performance standards of R315-8-15.4 and shall be in accordance with the approved trial burn plan;

(3) For the period immediately following completion of the trial burn, and only for the minimum period sufficient to allow sample analysis, data computation, and submission of the trial burn results by the applicant, and review of the trial burn results and modification of the facility permit by the Executive Secretary, the operating requirements shall be those most likely to ensure compliance with the performance standards of R315-8-15.4 based on the Executive Secretary's engineering judgement.

(4) For the remaining duration of the permit, the operating requirements shall be those demonstrated, in a trial burn or by alternative data specified in R315-3-2.10(c), as sufficient to ensure compliance with the performance standards of R315-8-15.4.

#### 15.6 OPERATING REQUIREMENTS

(a) An incinerator shall be operated in accordance with operating requirements specified in the permit. These will be specified on a case-by-case basis as those demonstrated, in a

trial burn or in alternative data as specified in R315-8-15.5(b), and included with part B of a facility's permit to be sufficient to comply with the performance standards of R315-8-15.4.

(b) Each set of operating requirements will specify the composition of the waste feed, including acceptable variations in the physical or chemical properties of the waste feed which will not affect compliance with the performance requirements of R315-8-15.4, to which the operating requirements apply. For each such waste feed, the permit will specify acceptable operating limits including the following conditions:

- (1) Carbon monoxide (CO) level in the stack exhaust gas;
- (2) Waste feed rate;
- (3) Combustion temperature;
- (4) An appropriate indicator of combustion gas velocity;
- (5) Allowable variations in incinerator system design or operating procedures; and

(6) Any other operating requirements as are necessary to ensure that the performance standards of R315-8-15.4 are met.

(c) During start-up and shut-down of an incinerator, hazardous waste, except wastes exempted in accordance with R315-8-15.1, shall not be fed into the incinerator unless the incinerator is operating within the conditions of operation, temperature, air feed rate, etc., specified in the permit.

(d) Fugitive emissions from the combustion zone shall be controlled by:

- (1) Keeping the combustion zone totally sealed against fugitive emissions; or
- (2) Maintaining a combustion zone pressure lower than atmospheric pressure; or
- (3) An alternative means of control demonstrated, with part B of the permit to provide fugitive emissions control equivalent to maintenance of combustion zone pressure lower than atmospheric pressure.

(e) An incinerator shall be operated with a functioning system to automatically cut off waste feed to the incinerator when operating conditions deviate from limits established under R315-8-15.6(a).

(f) An incinerator shall cease operation when changes in waste feed, incinerator design, or operating conditions exceed limits designated in its permit.

#### 15.7 MONITORING AND INSPECTIONS

(a) The owner or operator shall conduct, as a minimum, the following monitoring while incinerating hazardous waste:

(1) Combustion temperature, waste feed rate, and the indicator of combustion gas velocity specified in the facility permit shall be monitored on a continuous basis.

(2) Carbon monoxide (CO) shall be monitored on a continuous basis at a point in the incinerator downstream of the combustion zone and prior to release to the atmosphere.

(3) Upon request by the Board, sampling and analysis of the waste and exhaust emissions shall be conducted to verify that the operating requirements established in the permit achieve the performance standards of R315-8-15.4.

(b) The incinerator and associated equipment, pumps, valves, conveyors, pipes, etc., shall be subjected to thorough visual inspection, at least daily, for leaks, spills, fugitive emissions, and signs of tampering.

(c) The emergency waste feed cutoff system and associated alarms shall be tested at least weekly to verify operability, unless the applicant demonstrates to the Board that weekly inspections will unduly restrict or upset operations and that less frequent inspections will be adequate. At a minimum, operational testing shall be conducted at least monthly.

(d) This monitoring and inspection data shall be recorded and the records shall be placed in the operating record required by R315-8-5.3, which incorporates by reference 264.73.

#### 15.8 CLOSURE

At closure the owner or operator shall remove all hazardous waste and hazardous waste residues, including, but

not limited to, ash, scrubber waters, and scrubber sludges, from the incinerator site.

At closure, as throughout the operating period, unless the owner or operator can demonstrate, in accordance with R315-2-3(d), that the residue removed from the incinerator is not a hazardous waste, the owner or operator becomes a generator of hazardous waste and shall manage it in accordance with applicable requirements. R315-4 - R315-9.

**R315. Environmental Quality, Solid and Hazardous Waste.****R315-12. Administrative Procedures.****R315-12-1. Application of Rule.**

(a) This rule applies to proceedings under Title 19, Chapter 6, Part 1 (Solid and Hazardous Waste Act), Title 19, Chapter 6, Part 5 (Solid Waste Management Act), Title 19, Chapter 6, Part 6 (Lead Acid Battery Disposal), Title 19, Chapter 6, Part 7 (Used Oil Management Act), Title 26, Chapter 32a (Waste Tire Recycling), and Title 19, Chapter 6, Part 10 (Mercury Switch Removal Act).

(b) For purposes of these rules, an appeal under the Used Oil Management Act shall mean the process of agency decision making under the Utah Administrative Procedures Act (UAPA), Section 63-46b-0.5 through 63-46b-11, and the standards, deadlines, procedures, and other requirements for an appeal shall be same as the standards, deadlines, procedures, and other requirements for contesting the validity of an initial order or violation under R315-12.

**R315-12-2. Orders, NOVs, and Other Decisions by the Executive Secretary.****2.1 INITIAL PROCEEDINGS EXEMPT FROM UAPA**

Proceedings that culminate in the issuance of an initial order or a notice of violation under the Utah Solid and Hazardous Waste Act are not governed by the provisions of the Utah Administrative Procedures Act (UAPA) as specified in Section 63-46b-1(2)(k). This includes initial proceedings regarding: approval, modification, denial, termination, transfer, revocation, or reissuance of permits; approval for equivalent testing or analytical methods; notices of violation and orders associated with notices of violation; orders for corrective action; and consent orders.

**2.2 INITIAL ORDERS AND NOTICES OF VIOLATION ISSUED BY EXECUTIVE SECRETARY**

(a) The initial orders and notices described in R315-12-2.1 shall be issued by the Executive Secretary.

(b) An initial order or notice shall become final in 30 days if not contested as described in R315-12-3. Failure to contest an initial order or notice waives any right of administrative review or judicial appeal.

**R315-12-3. Contesting the Validity of an Initial Order or Notice of Violation Issued by the Executive Secretary.****3.1 CONTESTING THE VALIDITY OF AN INITIAL ORDER OR NOTICE OF VIOLATION -- REQUEST FOR AGENCY ACTION**

(a) The validity of initial orders or notices of violation described in R315-12-2 may be contested by filing a written Request for Agency Action with the Board:

Solid and Hazardous Waste Control Board  
Division of Solid and Hazardous Waste  
288 North 1460 West  
PO Box 144880  
Salt Lake City, Utah 84114-4880.

(b) Any such request is governed by and shall comply with the requirements of Section 63-46b-3(3) of UAPA, and shall be received for filing within 30 days of the issuance of the Executive Secretary's order or notice of violation.

**3.2 RESPONSE TO REQUEST FOR AGENCY ACTION**

Notice of the time and place for a hearing shall be provided in the response to a request for agency action, or shall be provided promptly after the hearing is scheduled.

**3.3 UAPA GOVERNS SUBSEQUENT PROCEEDINGS**

A Request for Agency Action, and all subsequent proceedings acting on that request, are governed by UAPA, Section 63-46b-1(2)(k) of UAPA.

(a) The following persons are Parties to a proceeding governed by this Rule:

(1) The person to whom an initial order or notice of violation is directed, such as a person who submitted a permit application that was approved or disapproved by order of the Executive Secretary;

(2) The Executive Secretary; and

(3) All persons whose legal rights or interests are substantially affected by the proceeding, who have standing to participate in the proceeding, and to whom intervention rights have been granted under R315-12-4.2.

(b) In a proceeding requested by the person to whom an initial order or notice of violation is directed, that person shall be the Petitioner and the Executive Secretary shall be the Respondent.

(c) In a proceeding requested by a person requesting intervention, the Intervenor shall be the Petitioner, provided that Intervention is granted, and the Executive Secretary and the person to whom an initial order or notice of violation is directed shall be the Respondents.

**4.2 INTERVENTION**

(a) A person who is not a party to a proceeding may request intervention under Section 63-46b-9 of UAPA for the purpose of filing a Request for Agency Action, and may simultaneously file that Request. Any such Requests for Intervention and Agency Action must be received by the Board for filing as provided in R315-12-3.1 within 30 days of the date of the challenged order or notice of violation.

(b) Any Party may, within 20 days or such earlier time as established by the Presiding Officer(s), respond to a Request for Intervention. The Chair of the Board may act as Presiding Officer for purposes of this paragraph.

**4.3 Amicus curiae (Friend of the Court)**

Persons may be permitted by the Presiding Officer(s) to enter an appearance as Amicus Curiae (Friend of the Court), subject to conditions established by the Presiding Officer(s).

**4.4 APPEARANCES AND REPRESENTATION**

(a) An individual who is a participant to a proceeding, or an officer designated by a partnership, corporation, association, or governmental entity which is a participant to a proceeding, may represent his or its interest in the proceeding.

(b) Any participant may be represented by an attorney at law.

**R315-12-5. Conduct of Proceedings.****5.1 ROLE OF BOARD**

(a) The Board is the "agency head" as that term is used in UAPA. The Board is also the "presiding officer," as that term is used in UAPA, except:

(1) The Chair of the Board shall be considered the Presiding Officer to the extent that these rules allow; and

(2) The Board may by order appoint a Presiding Officer to preside over all or a portion of the proceedings.

(b) The Chair of the Board may delegate his/her authority as specified in this Rule to another Board member.

**5.2 APPOINTED PRESIDING OFFICERS**

Unless otherwise explicitly provided in an order of appointment, any appointment of a Presiding Officer or Presiding Officers shall be for the purpose of conducting all aspects of an adjudicative proceeding, except issuance of the final order. See also R315-12-7.2 regarding orders of Presiding Officers.

**5.3 DESIGNATION OF PROCEEDINGS AS FORMAL OR INFORMAL**

(a) Proceedings pursuant to a Request for Agency Action shall be conducted formally if the Request for Agency Action is made to contest the validity of the following:

(1) An order regarding approval, modification, denial, termination, transfer, revocation, or reissuance of a permit;

(2) An order regarding approval, denial, or modification of a corrective action, clean-up, or closure plan;

(3) A notice of violation or order associated with a notice of violation; or

(4) A consent order.

(b) The Board may convert proceedings which are designated to be formal to informal, and proceedings which are designated as informal to formal if conversion is in the public interest and rights of all parties are not unfairly prejudiced. See Section 63-46b-4(3) of UAPA.

#### 5.4 PRE-HEARING CONFERENCES

The Presiding Officer(s) may direct the Parties to appear at a specified time and place for a pre-hearing conference(s) for the purposes of clarifying the issues, simplifying the evidence, facilitating discovery, expediting proceedings, or encouraging settlement.

#### 5.5 BRIEFS

(a) Unless otherwise directed by the Presiding Officer(s), parties to the proceeding may submit a pre-hearing brief at least five business days before the hearing. Post-hearing briefs will be allowed only as authorized by the Board. Parties are not required to submit pre-hearing or post-hearing briefs unless directed to do so by the Presiding Officer(s). Pre-hearing and post-hearing briefs shall not exceed 15 pages unless otherwise provided by the Presiding Officer for all Parties.

(b) Response briefs may not be filed unless permitted by the Presiding Officer(s).

#### 5.6 PARTIES MAY PROPOSE SCHEDULE

Parties to a proceeding are encouraged to prepare a joint proposed schedule addressing the matters specified in R315-12-5.7. If the parties cannot agree on a joint proposed schedule, the Presiding Officer(s) may consider proposals by any party.

#### 5.7 PRESIDING OFFICER(S) SHALL ESTABLISH SCHEDULES

The Presiding Officer(s) shall establish schedules for discovery and other pre-hearing proceedings, for the hearing, and for any post-hearing proceedings.

#### 5.8 EXTENSIONS OF TIME

Except as otherwise provided by statute, the Presiding Officer(s) may approve extensions of time limits established by this rule, and may extend time limits adopted in schedules established under R315-12-5.7. The Presiding Officer(s) may also postpone hearings. The Chair of the Board may act as Presiding Officer for purposes of this paragraph.

#### 5.9 COMPUTATION OF TIME

Time shall be computed as provided in Rule 6(a) of the Utah Rules of Civil Procedure. No additional time shall be allowed for service by mail.

#### 5.10 MOTIONS

All motions shall be filed a minimum of ten days before a scheduled hearing, unless otherwise allowed or required by the Presiding Officer(s). A memorandum in opposition to a motion may be filed within eight days of the filing of the motion, or at least one day before any scheduled hearing, whichever is earlier. Memoranda in support of or in opposition to motions may not exceed 15 pages unless otherwise provided by the Presiding Officer.

#### 5.11 FILING AND COPIES OF SUBMISSIONS

The original of any motion, brief, request for intervention, or other submission shall be filed with the Executive Secretary. In addition, the submitter shall provide a copy to each Presiding Officer and, through counsel of record if applicable, to each party.

### R315-12-6. Hearings.

#### 6.1 CONDUCT OF HEARING

The Presiding Officer(s) shall govern the conduct of a hearing, and may establish reasonable limits on the length of witness testimony and cross-examination, and on the length of

argument.

#### 6.2 ORDER OF PRESENTATION

Unless otherwise directed by the Presiding Officer(s), the Petitioner shall present its case first, followed by the Executive Secretary, unless the Executive Secretary is the petitioner, and any other Parties. Rebuttal, if any, shall follow the same order.

### R315-12-7. Orders.

#### 7.1 PROPOSED ORDERS BY PARTIES

Unless otherwise directed by the Presiding Officer(s), each party may provide proposed orders for the Presiding Officer(s) within three days of the conclusion of the hearing.

#### 7.2 DRAFT ORDERS OF APPOINTED PRESIDING OFFICERS

(a) A Presiding Officer or Presiding Officers appointed for the purpose of conducting all aspects of an adjudicative proceeding, except issuance of the final order, shall prepare a draft order. A copy of the draft order shall be provided to all Parties.

(b) Any Party may, within 10 days of the date the draft order is mailed, delivered, or published, comment on the draft order. Such comments shall be limited to 15 pages, and shall cite to specific parts of the record which support the comments.

(c) The Board shall review the draft order, comments on the draft order, and those specific parts of the record cited by the Parties in any comments. The Board shall then determine whether to accept or modify the draft order, to remand the matter to an appointed Presiding Officer or Presiding Officers for further proceedings, or to act as Presiding Officers for further proceedings.

(d) The Board may modify this procedure with notice to all Parties.

#### 7.3 CONTENT OF ORDERS

An order shall include the information required by Sections 63-46b-10 or 63-46b-5(1)(i) of UAPA.

### R315-12-8. Stays of Orders.

#### 8.1 STAY OF THE ORDER OF THE EXECUTIVE SECRETARY

(a) A Party seeking a Stay of the Order of the Executive Secretary shall file a motion with the Presiding Officer(s). A Stay, if granted, would suspend the effect of the challenged Order.

(b) The Presiding Officer(s) may order a stay of the Executive Secretary's Order if the Party seeking the Stay demonstrates that:

(1) The Party seeking the Stay will suffer irreparable harm unless the stay issues;

(2) The threatened injury to the Party seeking the Stay outweighs whatever damage the proposed stay is likely to cause the Party restrained or enjoined;

(3) The Stay, if issued, would not be adverse to the public interest; and

(4) There is substantial likelihood that the Party seeking the Stay will prevail on the merits of the underlying claim, or the case presents serious issues on the merits which should be the subject of further evaluation by the Presiding Officer(s).

#### 8.2 STAY OF THE ORDER OF THE PRESIDING OFFICER(S)

The Board as Presiding Officer may grant a stay of its order (or the Order of its appointed Presiding Officer) during the pendency of judicial review if the standards of 8.1(b) are met.

### R315-12-9. Reconsideration.

No agency review under Section 63-46b-12 of UAPA is available. A Party may request reconsideration of an order of the Presiding Officer(s) as provided in Section 63-46b-13 of UAPA.

**R315-12-10. Disqualification of Presiding Officer(s).****10.1 DISQUALIFICATION OF PRESIDING OFFICER**

A member of the Board or other Presiding Officer shall disqualify him/herself from performing the functions of the Presiding Officer regarding any matter in which:

(a) He/she, or his/her spouse, or a person within the third degree of relationship to either of them, or the spouse of such person:

(1) Is a party to the proceeding, or an officer, director, or trustee of a Party;

(2) Has acted as an attorney in the proceeding or served as an attorney for, or otherwise represented a Party concerning the matter in controversy;

(3) Knows that he/she has a financial interest, either individually or as a fiduciary, in the subject matter in controversy or in a Party to the proceeding;

(4) Knows that he/she has any other interest that could be substantially affected by the outcome of the proceeding; or

(5) Is likely to be a material witness in the proceeding.

(b) The Presiding Officer is subject to disqualification under principles of due process and administrative law.

**10.2 MOTIONS FOR DISQUALIFICATION**

A motion for disqualification shall be made first to the Presiding Officer or Presiding Officers. If the Presiding Officer is or Presiding Officers are appointed, any determination of the Presiding Officer or Presiding Officers upon a motion for disqualification may be appealed to the Board.

**R315-12-11. Other Forms of Address.**

Nothing in these rules shall prevent any person from requesting an opportunity to address the Board as a member of the public, rather than as a party. An opportunity to address the Board shall be granted at the discretion of the Board. However, addressing the Board in this manner does not constitute a request for agency action under R315-12-3.

**R315-12-12. Requests for Records.**

Requests for records under the Utah Government Record Access and Management Act, Title 63, Chapter 2, Utah Code Ann., are not governed by R315. See R305-1, U.A.C.

R315-17. End of Life Automotive Mercury Switch Removal Standards.**

**R315-17-1. Purpose.**

(a) The purpose of this rule is to provide for the administration of the Mercury Switch Removal Act, Utah Code Annotated 19-6-1001, et seq.

(b) The Mercury Switch Removal Act and this Rule require the removal of mercury switches from vehicles that have reached the end of their useful life.

**R315-17-2. Applicability.**

This rule applies to:

- (a) manufacturers of vehicles sold in the State of Utah;
- (b) vehicles that may contain one or more mercury switches;
- (c) mercury switches; and
- (d) persons removing mercury switches from vehicles.

**R315-17-3. Definitions.**

Terms used in this rule are defined in Utah Code Annotated 19-6-1002.

**R315-17-4. Mercury Switch Collection Plan.**

(a) Manufacturers of any vehicle sold within the State of Utah shall submit a plan individually or in cooperation with other manufacturers to the Executive Secretary of the Utah Solid and Hazardous Waste Control Board for review and approval by January 15, 2007. This submission shall be accompanied by a filing fee as established by the legislature in the Department of Environmental Quality fee schedule. The Executive Secretary shall bill the responsible party for review of plans submitted to meet the requirements of this Rule.

(b) The Executive Secretary shall review and approve or disapprove the submitted plan based on the requirements outlined in R315-17-4(d). If the plan is not approved, the Executive Secretary shall provide comments to the manufacturer within 60 days of submission of the plan. The manufacturer shall address all comments from the Executive Secretary and submit an amended plan within 90 days after the Executive Secretary provides comments on the unapproved plan.

(c) A manufacturer shall ensure that plan implementation occurs by July 1, 2007.

(d) The mercury switch collection plan shall include:

- (1) The make, model, and year of any vehicle, including current and anticipated future production models, sold by a manufacturer that may contain one or more mercury switches;
- (2) The description and location of each mercury switch for each make, model, and year of vehicle;
- (3) Procedures for the prompt reimbursement by a manufacturer of costs incurred by a person removing and collecting mercury switches without regard to the date on which the mercury switch is removed and collected;

(4) Information addressing safe and environmentally sound methods for mercury switch removal and information about hazards related to mercury and the proper handling of mercury;

(5) Methods for the storage and disposal of mercury switches, including packaging and shipping of mercury switches to an authorized recycling, storage, or disposal facility; and

(6) Procedures for the transfer of information among persons involved with the plan to comply with reporting requirements.

(e) If a manufacturer does not know or is uncertain about whether or not a switch contains mercury, the plan shall presume that the switch contains mercury.

**R315-17-5. Mercury Switch Removal Costs.**

(a) Manufacturers shall implement procedures for the prompt reimbursement of costs incurred by a person removing

and collecting mercury switches without regard to the date on which the mercury switch is removed and collected.

(b) To ensure that the costs of removal and collection of mercury switches are not borne by any other person, the manufacturers of vehicles sold in the state shall pay:

(1) A minimum of \$5 for each mercury switch removed by a person as partial compensation for the labor and other costs incurred in removing the mercury switch;

(2) The cost of packaging necessary to store or transport mercury switches to recycling, storage, or disposal facilities;

(3) The cost of shipping mercury switches to recycling, storage, or disposal facilities;

(4) The cost of recycling, storage, or disposal of mercury switches;

(5) The cost of the preparation and distribution of educational materials; and

(6) The cost of maintaining all appropriate record keeping systems.

**R315-17-6. Public Participation.**

The Executive Secretary shall also provide public notice, a public comment period, and public hearing(s) for each proposed Mercury Switch Collection Plan in accordance with R315-4-1.10 through R315-4-1.12 and R315-4-1.17.

**R315-17-7. Plan Amendments.**

The Executive Secretary may require a manufacturer to modify the plan at any time upon finding that an approved plan as implemented has failed to meet the requirements of this rule.

**R315-17-8. Reporting Requirements.**

(a) Each manufacturer that is required to implement a mercury switch collection plan shall submit, either individually or in cooperation with other manufacturers, an annual report on the plan's implementation to the Executive Secretary by October 1 of each year, beginning in 2008.

(b) The annual report shall include:

- (1) The number of mercury switches collected;
- (2) The number of mercury switches for which the manufacturer has provided reimbursement;
- (3) A description of the successes and failures of the plan;
- (4) A discussion of how the failures of the plan have been or will be corrected; and
- (5) A statement detailing the costs required to implement the plan.

**R315-17-9. Penalties.**

In accordance with 19-6-1006, a manufacturer who fails to submit, modify, or implement a plan according to R315 may be subject to a civil penalty of not more than \$1,000 per day per violation.

**R315-17-10. Administrative Proceedings.**

Administrative proceedings under the Mercury Switch Removal Act and this Rule shall be conducted in accordance with R315-12.

**R414. Health, Health Care Financing, Coverage and Reimbursement Policy.****R414-304. Income and Budgeting.****R414-304-1. Definitions.**

(1) The definitions in R414-1 and R414-301 apply to this rule. In addition:

(a) "Allocation for a spouse" means an amount of income that is the difference between the SSI federal benefit rate for a couple minus the federal benefit rate for an individual.

(b) "Basic maintenance standard" or "BMS" means the income level for eligibility for 1931 Family Medicaid, and for coverage of the medically needy based on the number of family members who are counted in the household size.

(c) "Benefit month" means a month or any portion of a month for which an individual is eligible for Medicaid.

(d) "Deeming" or "deemed" means a process of counting income from a spouse or a parent, or the sponsor of a qualified alien, to decide what amount of income after certain allowable deductions, if any, must be considered income to the applicant or recipient.

(e) "Federal poverty guideline" or "FPL" means the U.S. federal poverty measure issued annually by the Department of Health and Human Services that is used to determine financial eligibility for certain means-tested federal programs. Any usage in this rule of poverty means the federal poverty guideline.

(f) "Household size" means the number of family members, including the client, who are counted based on the criteria of the particular program to decide what level of income to use to determine eligibility.

(g) "Medically needy" means medical assistance coverage under the provisions of 42 CFR 435.301, 2001 ed., and that uses the Basic Maintenance Standard as the income limit for eligibility.

(h) "Poverty-related" refers to any one of a variety of medical assistance programs that use a percentage of the federal poverty guideline for the household size involved as the income limit to determine eligibility.

(i) "Qualified Domestic Relations Order" means a domestic relations order that creates or recognizes the existence of an alternate payee's right to, or assigns to an alternate payee the right to, receive all or a portion of the benefits payable with respect to a participant under a pension plan pursuant to a state domestic relations law.

(j) "Sponsor" means one or more persons who have signed an Affidavit of Support pursuant to Section 213A of the Immigration and Nationality Act on or after December 19, 1997 for an alien immigrating to the United States on or after December 19, 1997.

(k) "Temporarily absent" means a member of a household is living away from the home for a period of time but intends to return to the home when the reason for the temporary absence is accomplished. Reasons for a temporary absence may include an absence for the purpose of education, medical care, visits, military service, temporary religious service or other volunteer service such as the Peace Corps.

**R414-304-2. A, B and D Medicaid and A, B and D Institutional Medicaid Unearned Income Provisions.**

(1) This rule establishes how the Department treats unearned income to determine eligibility for Aged, Blind and Disabled Medicaid and Aged, Blind and Disabled Institutional Medicaid coverage groups.

(2) The Department adopts 42 CFR 435.725, 435.726, 435.811 through 435.832, 2004 ed., and 20 CFR 416.1102, 416.1103, 416.1120 through 416.1148, 416.1150, 416.1151, 416.1163 through 416.1166, and Appendix to Subpart K of 416, 2004 ed., which are incorporated by reference. The Department adopts Subsection 404(h)(4) and 1612(b)(22) of the Compilation of the Social Security Laws in effect January 1,

2003, which are incorporated by reference. The Department does not count as income any payments from sources that federal laws specifically prohibit from being counted as income to determine eligibility for federally-funded medical assistance programs.

(3) The following definitions apply to this section:

(a) "Eligible spouse" means the member of a married couple who is either aged, blind, or disabled.

(b) "In-kind support donor" means an individual who provides food or shelter without receiving full market value compensation in return.

(c) "Presumed maximum value" means the allowed maximum amount an individual is charged for the receipt of food and shelter. This amount will not exceed 1/3 of the SSI federal benefit rate plus \$20.

(4) The agency does not count VA (Veteran's Administration) payments for aid and attendance or the portion of a VA payment that is made because of unusual medical expenses. Other VA income based on need is countable income, but is not subject to the \$20 general income disregard.

(5) The agency only counts as income the portion of a VA check to which the client is legally entitled. If the payment includes an amount for a dependent, that amount counts as income for the dependent. If the dependent does not live with the veteran or surviving spouse, the portion for the dependent counts as the dependent's income unless the dependent has applied to VA to receive the payment directly, VA has denied that request, and the dependent does not receive the payment. In this case, the amount for a dependent also counts as income of the veteran or surviving spouse who receives the payment.

(6) SSA reimbursements of Medicare premiums are not countable income.

(7) The agency does not count as income, the value of special circumstance items if the items are paid for by donors.

(8) For A, B and D Medicaid, the agency counts as income two-thirds of current child support received in a month for the disabled child. It does not matter if the payments are voluntary or court-ordered. It does not matter if the child support is received in cash or in-kind. If there is more than one child for whom the payment is made, the amount is divided equally among the children unless a court order indicates a different division. Child support payments that are payments owed for past months or years are countable income to determine eligibility for the parent or guardian receiving the payments.

(9) For A, B and D Institutional Medicaid, court-ordered child support payments must be paid to the Office of Recovery Services (ORS) when the child resides out-of-home in a Medicaid 24-hour care facility. If the child has no income or insufficient income to provide for a personal needs allowance, ORS will allow the parent to retain up to the amount of the personal needs allowance to send to the child for personal needs. All other current child support payments received by the child or guardian that are not subject to collection by ORS count as unearned income to the child.

(10) The agency counts as unearned income, the interest earned from a sales contract on either or both the lump sum and installment payments when it is received or made available to the client.

(11) If the client, or the client and spouse do not live with an in-kind support donor, in-kind support and maintenance is the lesser of the value or the presumed maximum value of food or shelter received. If the client, or the client and spouse live with an in-kind support donor and do not pay a prorated share of household operating expenses, in-kind support and maintenance is the difference between the prorated share of household operating expenses and the amount the client, or the client and spouse actually pay, or the presumed maximum value, whichever is less.

(12) Payments under a contract, retroactive payments from

SSI and SSA reimbursements of Medicare premiums are not considered lump sum payments.

(13) The agency does not count as income educational loans, grants, and scholarships received from Title IV programs of the Higher Education Act or from Bureau of Indian Affairs educational programs. The agency does not count as income grants, scholarships, fellowships, or gifts from other sources that are actually used to pay, or will be used to pay, allowable educational expenses. Any amount of grants, scholarships, fellowships, or gifts from other sources that are used or will be used for non-educational expenses including food and shelter expenses, counts as income in the month received. Allowable educational expenses include:

- (a) tuition;
- (b) fees;
- (c) books;
- (d) equipment;
- (e) special clothing needed for classes;
- (f) travel to and from school at a rate of 21 cents a mile, unless the grant identifies a larger amount;
- (g) child care necessary for school attendance.

(14) Except for an individual eligible for the Medicaid Work Incentive Program, the following provisions apply to non-institutional medical assistance:

(a) For A, B, or D Medicaid, the agency does not count income of a spouse or a parent to determine Medicaid eligibility of a person who receives SSI or meets 1619(b) criteria. SSI recipients and 1619(b) status individuals who meet all other Medicaid eligibility factors are eligible for Medicaid without spending down.

(b) If an ineligible spouse of an aged, blind, or disabled person has more income after deductions than the allocation for a spouse, the agency deems the spouse's income to the aged, blind, or disabled spouse to determine eligibility.

(c) The agency determines household size and whose income counts for A, B or D Medicaid as described below.

(i) If only one spouse is aged, blind or disabled:

(A) the agency deems income of the ineligible spouse to the eligible spouse when that income exceeds the allocation for a spouse. The agency compares the combined income to 100% of the federal poverty guideline for a two-person household. If the combined income exceeds that amount, the agency compares it, after allowable deductions, to the BMS for two to calculate the spenddown.

(B) If the ineligible spouse's income does not exceed the allocation for a spouse, the agency does not count the ineligible spouse's income and does not include the ineligible spouse in the household size. Only the eligible spouse's income is compared to 100% of the federal poverty guideline for one. If the income exceeds that amount, it is compared, after allowable deductions, to the BMS for one to calculate the spenddown.

(ii) If both spouses are either aged, blind or disabled, the income of both spouses is combined and compared to 100% of the federal poverty guideline for a two-person household. SSI income is not counted.

(A) If the combined income exceeds that amount, and one spouse receives SSI, only the income of the non-SSI spouse, after allowable deductions, is compared to the BMS for a one-person household to calculate the spenddown.

(B) If neither spouse receives SSI and their combined income exceeds 100% of the federal poverty guideline, then the income of both spouses, after allowable deductions, is compared to the BMS for a two-person household to calculate the spenddown.

(C) If neither spouse receives SSI and only one spouse will be covered under the applicable program, the agency deems income of the non-covered spouse to the covered spouse when that income exceeds the spousal allocation. If the non-covered spouse's income does not exceed the spousal allocation, then the

agency counts only the covered spouse's income. In both cases, the countable income is compared to 100% of the two-person poverty guideline. If it exceeds the limit, then income, after allowable deductions, is compared to the BMS.

(I) If the non-covered spouse has deemable income, the countable income, after allowable deductions, is compared to a two-person BMS to calculate a spenddown.

(II) If the non-covered spouse does not have deemable income, then only the covered spouse's income, after allowable deductions, is compared to a one-person BMS to calculate the spenddown.

(iii) In determining eligibility under (c) for an aged or disabled person whose spouse is blind, both spouses' income is combined.

(A) If the combined income after allowable deductions is under 100% of the federal poverty guideline, the aged or disabled spouse will be eligible under the 100% poverty group defined in 1902(a)(10)(A)(ii) of the Social Security Act, and the blind spouse is eligible without a spenddown under the medically needy group defined in 42 CFR 435.301.

(B) If the combined income after allowable deductions is over 100% of poverty, both spouses are eligible with a spenddown under the medically needy group defined in 42 CFR 435.301.

(iv) If one spouse is disabled and working, the other is aged, blind, or disabled and not working, and neither spouse is an SSI recipient nor a 1619(b) eligible individual, the working disabled spouse may choose to receive coverage under the Medicaid Work Incentive program. If both spouses want coverage, however, the agency first determines eligibility for them as a couple. If a spenddown is owed for them as a couple, they must meet the spenddown to receive coverage for both of them.

(e) Except when determining countable income for the 100% poverty-related Aged and Disabled Medicaid programs, income will not be deemed from a spouse who meets 1619(b) protected group criteria.

(f) The agency determines household size and whose income counts for QMB, SLMB, and QI-1 assistance as described below.

(i) If both spouses receive Part A Medicare and both want coverage, the agency combines income of both spouses and compares it to the applicable percentage of the poverty guideline for a two-person household.

(ii) If one spouse receives Part A Medicare, and the other spouse is aged, blind, or disabled and that spouse either does not receive Part A Medicare or does not want coverage, then the agency deems income of the ineligible spouse to the eligible spouse when that income exceeds the allocation for a spouse. If the income of the ineligible spouse does not exceed the allocation for a spouse, then only the income of the eligible spouse is counted. In both cases, the countable income is compared to the applicable percentage of the federal poverty guideline for a two-person household.

(iii) If one spouse receives Part A Medicare and the other spouse is not aged, blind or disabled, the agency deems income of the ineligible spouse to the eligible spouse when that income exceeds the allocation for a spouse. The combined countable income is compared to the applicable percentage of the federal poverty guideline for a two-person household. If the ineligible spouse's deemable income does not exceed the allocation for a spouse, only the eligible spouse's income is counted, and compared to the applicable percentage of the poverty guideline for a one-person household.

(iv) SSI income will not be counted to determine eligibility for QMB, SLMB or QI-1 assistance.

(g) If any parent in the home receives SSI or is eligible for 1619(b) protected group coverage, the agency will not count the income of either parent to determine a child's eligibility for B or

D Medicaid.

(h) Payments for providing foster care to a child are countable income. The portion of the payment that represents a reimbursement for the expenses related to providing foster care is not countable income.

(15) For institutional Medicaid including home and community based waiver programs, the agency counts only the client in the household size, and counts only the client's income and income deemed from an alien client's sponsor, to determine contribution to cost of care.

(16) The agency does not count interest accrued on an Individual Development Account as defined in Sections 404-416 of Pub. L. No. 105-285 effective October 27, 1998.

(17) The agency deems income, unearned and earned, from an alien's sponsor, and the sponsor's spouse, if any, when the sponsor has signed an Affidavit of Support pursuant to Section 213A of the Immigration and Nationality Act on or after December 19, 1997.

(18) Sponsor deeming will end when the alien becomes a naturalized U.S. citizen, or has worked 40 qualifying quarters as defined under Title II of the Social Security Act or can be credited with 40 qualifying work quarters. Beginning after December 31, 1996, a creditable qualifying work quarter is one during which the alien did not receive any federal means-tested public benefit.

(19) Sponsor deeming does not apply to applicants who are eligible for Medicaid for emergency services only.

(20) If income such as retirement income has been divided between divorced spouses by the divorce decree pursuant to a Qualified Domestic Relations Order, only the amount paid to the individual is counted as income.

#### **R414-304-3. Medicaid Work Incentive Program Unearned Income Provisions.**

(1) This rule establishes how the Department treats unearned income for the Medicaid Work Incentive program.

(2) The Department adopts 20 CFR 416.1102, 416.1103, 416.1120 through 416.1148, 416.1150, 416.1151, and Appendix to Subpart K of 416, 2004 ed., which are incorporated by reference. The Department adopts Subsection 404(h)(4) and 1612(b)(22) of the Compilation of the Social Security Laws in effect January 1, 2003. The Department does not count as income any payments from sources that federal laws specifically prohibit from being counted as income to determine eligibility for federally-funded medical assistance programs.

(3) The Department allows the provisions found in R414-304-2 (4) through (13), and (16) through (20).

(4) The agency determines income from an ineligible spouse or parent by the total of the earned and unearned income using the appropriate exclusions in 20 CFR 416.1161, except that court ordered support payments are not allowed as an income deduction.

(5) For the Medicaid Work Incentive Program, the income of a spouse or parent is not considered in determining eligibility of a person who receives SSI. SSI recipients who meet all other Medicaid Work Incentive Program eligibility factors are eligible without paying a Medicaid buy-in premium.

(6) The agency determines household size and whose income counts for the Medicaid Work Incentive Program as described below:

(a) If the Medicaid Work Incentive Program individual is an adult and is not living with a spouse, the agency counts only the income of the individual. The agency includes in the household size, any dependent children under age 18, or who are 18, 19, or 20 and are full-time students. These dependent children must be living in the home or be temporarily absent. After allowable deductions, the net income is compared to 250% of the federal poverty guideline for the household size involved.

(b) If the Medicaid Work Incentive Program individual is

living with a spouse, the agency combines their income before allowing any deductions. The agency includes in the household size the spouse and any children under age 18, or who are 18, 19, or 20 and are full-time students. These dependent children must be living in the home or be temporarily absent. The agency compares the net income of the Medicaid Work Incentive Program individual and spouse to 250% of the federal poverty guideline for the household size involved.

(c) If the Medicaid Work Incentive Program individual is a child living with a parent, the agency combines the income of the Medicaid Work Incentive Program individual and the parents before allowing any deductions. The agency includes in the household size the parents, any minor siblings, and siblings who are age 18, 19, or 20 and are full-time students, who are living in the home or temporarily absent. The agency compares the net income of the Medicaid Work Incentive Program individual and the individual's parents to 250% of the federal poverty guideline for the household size involved.

#### **R414-304-4. Family Medicaid and Institutional Family Medicaid Unearned Income Provisions.**

(1) This rule establishes how the Department treats unearned income to determine eligibility for Family Medicaid and Institutional Family Medicaid coverage groups.

(2) The Department adopts 42 CFR 435.725, 435.726, 435.811 through 435.832, 2004 ed., and 45 CFR 233.20(a)(1), 233.20(a)(3)(iv), 233.20(a)(3)(vi)(A), and 233.20(a)(4)(ii), 2004 ed., which are incorporated by reference. The Department adopts Subsection 404(h)(4) of the Compilation of the Social Security Laws in effect January 1, 2003, which is incorporated by reference. The Department does not count as income any payments from sources that federal laws specifically prohibit from being counted as income to determine eligibility for federally-funded medical assistance programs.

(3) The term "unearned income" means cash received for which the individual performs no service.

(4) The agency does not count as income money loaned to the individual if the individual proves the money is from a loan that the individual is expected to repay.

(5) The agency does not count as income support and maintenance assistance provided in-kind by a non-profit organization certified by the Department of Human Services.

(6) The agency does not count as income the value of food stamp assistance, USDA food donations or WIC vouchers received by members of the household.

(7) The agency does not count income that is received too irregularly or infrequently to count as regular income, such as cash gifts, up to \$30 a calendar quarter per household member. Any amount that exceeds \$30 a calendar quarter per household member counts as income when received. Irregular or infrequent income may be divided equally among all members of the household.

(8) The agency does not count as income the amount deducted from benefit income that is to repay an overpayment of such benefit income.

(9) The agency does not count as income the value of special circumstance items paid for by donors.

(10) The agency does not count as income home energy assistance.

(11) The agency does not count payments from any source that are to repair or replace lost, stolen or damaged exempt property. If the payments include an amount for temporary housing, the agency only counts the amount that the client does not intend to use or that is more than what is needed for temporary housing.

(12) The agency does not count as income SSA reimbursements of Medicare premiums.

(13) The agency does not count as income payments from the Department of Workforce Services under the Family

Employment program, the Working Toward Employment Program, and the Refugee Cash Assistance program. To determine eligibility for Medicaid, the agency counts income used to determine the amount of these payments, unless the income is an excluded income under other laws or regulations.

(14) The agency does not count as income the interest accrued on an Individual Development Account as defined in 42 U.S.C. 604(h).

(15) The agency does not count as income interest or dividends earned on countable resources. The agency does not count as income interest or dividends earned on resources that are specifically excluded by federal laws from being counted as available resources to determine eligibility for federally-funded, means-tested medical assistance programs, other than resources excluded by 42 U.S.C. 1382b(a).

(16) The agency does not count as income the increase in pay for a member of the armed forces that is called "hostile fire pay" or "imminent danger pay," which is compensation for active military duty in a combat zone.

(17) The agency counts as income SSI and State Supplemental payments received by children who are included in the coverage under Child, Family, Newborn, or Newborn Plus Medicaid.

(18) The agency counts unearned rental income. The agency deducts \$30 a month from the rental income. If the amount charged for the rental is consistent with community standards, the agency deducts the greater of either \$30 or the following actual expenses that the client can verify.

(a) taxes and attorney fees needed to make the income available;

(b) upkeep and repair costs necessary to maintain the current value of the property, including utility costs paid by the applicant or recipient;

(c) interest paid on a loan or mortgage made for upkeep or repair; and,

(d) the value of a one-person food stamp allotment, if meals are provided to a boarder.

(19) The agency counts deferred income when it is received by the client if it was not deferred by choice and receipt can be reasonably anticipated. If the income was deferred by choice, it counts as income when it could have been received. The amount deducted from income to pay for benefits like health insurance, medical expenses or child care counts as income in the month the income could have been received.

(20) The agency counts the amount deducted from income that is to pay an obligation such as child support, alimony or debts in the month the income could have been received.

(21) The agency counts payments from trust funds as income in the month the payment is received by the individual or made available for the individual's use.

(22) The agency only counts as income the portion of a Veterans Administration check to which the client is legally entitled. If the payment includes an amount for a dependent, that amount counts as income for the dependent. If the dependent does not live with the veteran or surviving spouse, the portion for the dependent counts as the dependent's income unless the dependent has applied to VA to receive the payment directly, VA has denied that request, and the dependent does not receive the payment. In this case, the amount for a dependent counts as income of the veteran or surviving spouse who receives the payment.

(23) The agency counts as income deposits to financial accounts jointly owned between the client and one or more other individuals, even if the deposits are made by a non-household member. If the client disputes ownership of the deposits and provides adequate proof that the deposits do not represent income to the client, the agency does not count those funds as income. The agency may require the client to terminate access to the jointly held accounts.

(24) The agency counts as unearned income the interest earned from a sales contract on lump sum payments and installment payments when the interest payment is received by or made available to the client.

(25) The agency counts current child support payments as income to the child for whom the payments are being made. If a payment is for more than one child, the amount is divided equally among the children unless a court order indicates a different division. Child support payments made for past months or years (arrearages) are countable income to determine eligibility of the parent or guardian who is receiving the payment. Arrearages are payments collected for past months or years that were not paid on time and are like repayments for past-due debts. If the Office of Recovery Services is collecting current child support, it is counted as current even if the Office of Recovery Services mails the payment to the client after the month it is collected.

(26) The agency counts payments from annuities as unearned income in the month the payment is received.

(27) If income such as retirement income has been divided between divorced spouses by the divorce decree pursuant to a Qualified Domestic Relations Order, the agency only counts the amount paid to the individual.

(28) The agency deems both unearned and earned income from an alien's sponsor, and the sponsor's spouse, if any, when the sponsor has signed an Affidavit of Support pursuant to Section 213A of the Immigration and Nationality Act on or after December 19, 1997.

(29) The agency stops deeming income from a sponsor when the alien becomes a naturalized U.S. citizen, or has worked 40 qualifying quarters as defined under Title II of the Social Security Act or can be credited with 40 qualifying work quarters. Beginning after December 31, 1996, a creditable qualifying work quarter is one during which the alien did not receive any federal means-tested public benefit.

(30) Sponsor deeming does not apply to applicants who are eligible for Medicaid for emergency services only.

#### **R414-304-5. A, B and D Medicaid and A, B and D Institutional Medicaid Earned Income Provisions.**

(1) The Department adopts 42 CFR 435.725, 435.726, 435.811 through 435.832, 2001 ed., and 20 CFR 416.1110 through 416.1112, 2002 ed., which are incorporated by reference. The department adopts Subsection 1612(b)(4)(A) and (B) of the Compilation of the Social Security Laws, in effect January 1, 2001, which is incorporated by reference.

(2) If an SSI recipient has a plan for achieving self-support approved by the Social Security Administration, the Department shall not count income set aside in the plan that allows the individual to purchase work-related equipment or meet self support goals. This income shall be excluded and may include earned and unearned income.

(3) Expenses relating to the fulfillment of a plan to achieve self-support shall not be allowed as deductions from income.

(4) For A, B and D Medicaid, earned income used to compute a needs-based grant is not countable.

(5) For A, B and D Institutional Medicaid, \$125 shall be deducted from earned income before contribution towards cost of care is determined.

(6) For A, B and D Institutional Medicaid impairment-related work expenses shall be allowed as an earned income deduction.

(7) Capital gains shall be included in the gross income from self-employment.

(8) To determine countable net income from self-employment, the state shall allow a 40 percent flat rate exclusion off the gross self-employment income as a deduction for business expenses. For self-employed individuals who have actual allowable business expenses greater than the 40 percent

flat rate exclusion amount, if the individual provides verification of the actual expenses, the self-employment net profit amount will be calculated using the same deductions that are allowed under federal income tax rules.

(9) No deductions shall be allowed for the following business expenses:

- (a) transportation to and from work;
- (b) payments on the principal for business resources;
- (c) net losses from previous tax years;
- (d) taxes;
- (e) money set aside for retirement;
- (f) work-related personal expenses.

(10) Net losses of self-employment from the current tax year may be deducted from other earned income.

(11) Earned income paid by the U.S. Census Bureau to temporary census takers shall be excluded for any A, B, or D category programs that use a percentage of the federal poverty guideline as an eligibility income limit.

(12) Deductions from earned income such as insurance premiums, savings, garnishments or deferred income is counted in the month when it could have been received.

#### **R414-304-6. Family Medicaid and Family Institutional Medicaid Earned Income Provisions.**

This section provides eligibility criteria governing earned income for the determination of eligibility for Family Medicaid and Institutional Family Medicaid coverage groups.

(1) The Department adopts 42 CFR 435.725, 435.726, 435.811 through 435.832, 2001 ed. and 45 CFR 233.20(a)(6)(iii) through (iv), 233.20(a)(6)(v)(B), 233.20(a)(6)(vi) through (vii), and 233.20(a)(11), 2003 ed., which are incorporated by reference.

(2) The following definitions apply to this section:

(a) "Full-time student" means a person enrolled for the number of hours defined by the particular institution as fulfilling full-time requirements.

(b) "Part-time student" means a person who is enrolled for at least one-half the number of hours or periods considered by the institution to be customary to complete the course of study within the minimum time-period. If no schedule is set by the school, the course of study must be no less than an average of two class periods or two hours a day, whichever is less.

(c) "School attendance" means enrollment in a public or private elementary or secondary school, a university or college, vocational or technical school or the Job Corps, for the express purpose of gaining skills that lead to gainful employment.

(d) "Full-time employment" means an average of 100 or more hours of work a month or an average of 23 hours a week.

(e) "Aid to Families with Dependent Children" (AFDC) means a state plan for aid that was in effect on June 16, 1996.

(f) "1931 Family Medicaid" is Medicaid coverage required by Subsection 1931(a), (b), and (g) of the Compilation of Social Security Laws.

(3) The income of a dependent child is not countable income if the child is:

- (a) in school or training full-time;
- (b) in school or training part-time, if employed less than 100 hours a month;
- (c) in a job placement under the federal Workforce Information Act (WIA).

(4) For Family Medicaid, the AFDC \$30 and 1/3 of earned income deduction is allowed if the wage earner has received 1931 Family Medicaid in one of the four previous months and this disregard has not been exhausted.

(5) The Department determines countable net income from self-employment by allowing a 40 percent flat rate exclusion off the gross self-employment income as a deduction for business expenses. If a self-employed individual provides verification of actual business expenses greater than the 40 percent flat rate

exclusion amount, the Department allows actual expenses to be deducted. The expenses must be business expenses allowed under federal income tax rules.

(6) Items such as personal business and entertainment expenses, personal transportation, purchase of capital equipment, and payments on the principal of loans for capital assets or durable goods, are not business expenses.

(7) For Family Medicaid, the Department shall deduct child-care costs, and the costs of providing care for an incapacitated adult who is included in the Medicaid household size, from the earned income of clients working 100 hours or more in a calendar month. A maximum of up to \$200.00 per month per child under age 2 and \$175.00 per month per child age 2 and older or incapacitated adult, may be deducted. A maximum of up to \$160.00 per month per child under age 2 and \$140.00 per month per child age 2 and older or incapacitated adult, may be deducted from the earned income of clients working less than 100 hours in a calendar month.

(8) For Family Institutional Medicaid, the Department shall deduct child-care costs from the earned income of clients working 100 hours or more in a calendar month. A maximum of up to \$160 a month per child may be deducted. A maximum of up to \$130 a month is deducted from the earned income of clients working less than 100 hours in a calendar month.

(9) Earned income paid by the U.S. Census Bureau to temporary census takers is excluded for any family Medicaid programs that use a percentage of the federal poverty guideline as an eligibility income limit, and for determining eligibility for 1931 Family Medicaid.

(10) Under 1931 Family Medicaid, for households that pass the 185% gross income test, if net income does not exceed the applicable BMS, the household is eligible for 1931 Family Medicaid. No health insurance premiums or medical bills are deducted from gross income to determine net income for 1931 Family Medicaid.

(11) For Family Medicaid recipients who otherwise meet 1931 Family Medicaid criteria, who lose eligibility because of earned income that does not exceed 185% of the federal poverty guideline, the state shall disregard earned income of the specified relative for six months to determine eligibility for 1931 Family Medicaid. Before the end of the sixth month, the state shall conduct a review of the household's earned income. If the earned income exceeds 185% of the federal poverty guideline, the household is eligible to receive Transitional Medicaid following the provisions of R414-303 as long as it meets all other criteria.

(12) After the first six months of disregarding earned income, if the average monthly earned income of the household does not exceed 185% of the federal poverty guideline for a household of the same size, the state shall continue to disregard earned income for an additional six months to determine eligibility for 1931 Family Medicaid. In the twelfth month of receiving such income disregard, if the household continues to have earned income, the household is eligible to receive Transitional Medicaid following the provisions of R414-303 as long as it meets all other criteria.

#### **R414-304-7. A, B and D Medicaid and Family Medicaid Income Deductions.**

(1) This section sets forth income deductions for non-institutional aged, blind, disabled and family Medicaid programs, except for the Medicaid Work Incentive program.

(2) The Department applies the financial methodologies required by 42 CFR 435.601, and the deductions defined in 42 CFR 435.831, 2005 ed., which are incorporated by reference. Any additional income deductions or limitations are described in this rule.

(3) For aged, blind and disabled individuals eligible under 42 CFR 435.301(b)(2)(iii),(iv), and (v), described more fully in

42 CFR 435.320, .322 and .324, the Department deducts from income an amount equal to the difference between 100% of the federal poverty guideline and the current BMS income standard for the applicable household size to determine the spenddown amount.

(4) To determine eligibility for and the amount of a spenddown under medically needy programs, the Department deducts from income health insurance premiums the client or a financially responsible family member pays providing coverage for the client or any family members living with the client in the month of payment. The Department also deducts from income the amount of a health insurance premium the month it is due when the Department pays the premium on behalf of the client as authorized by Section 1905(a) of Title XIX of the Social Security Act, 2005 ed., except no deduction is allowed for Medicare premiums the Department pays for or reimburses to recipients.

(a) The Department deducts the entire payment in the month it is due and does not prorate the amount.

(b) The Department does not deduct health insurance premiums to determine eligibility for the poverty-related medical assistance programs or 1931 Family Medicaid.

(5) To determine the spenddown under medically needy programs, the Department deducts from income health insurance premiums the client or a financially responsible family member paid in the application month or during the three month retroactive period. The deduction is allowed either in the month paid or in any month after the month paid to the extent the full amount was not deducted in the month paid, but only through the month of application.

(6) To determine eligibility for medically needy coverage groups, the Department deducts from income medically necessary medical expenses that the client verifies only if the expenses meet all of the following conditions:

(a) The medical service was received by the client, client's spouse, parent of dependent client or dependent sibling of a dependent client, a deceased spouse or a deceased dependent child.

(b) The medical bill will not be paid by Medicaid and is not payable by a third party.

(c) The medical bill remains unpaid, or the medical service was received and paid during the month of application or during the three-month time-period immediately preceding the date of application. The date the medical service was provided on an unpaid expense does not matter if the client still owes the provider for the service. Bills for services received and paid during the application month or the three-month time-period preceding the date of application can be used as deductions only through the month of application.

(7) A medical expense cannot be allowed as a deduction more than once.

(8) A medical expense allowed as a deduction must be for a medically necessary service. The Department decides if services are medically necessary.

(9) The Department deducts medical expenses in the order required by 42 CFR 435.831(h)(1). When expenses have the same priority, the Department deducts paid expenses before unpaid expenses.

(10) A client who pays a cash spenddown may present proof of medical expenses paid during the coverage month and request a refund of spenddown paid up to the amount of bills paid by the client. The following criteria apply:

(a) Expenses for which a refund can be made include medically necessary medical expenses not covered by Medicaid or any third party, co-payments required for prescription drugs covered under a Medicare Part D plan, and co-payments or co-insurance amounts for Medicaid-covered services as required under the State Medicaid Plan.

(b) The expense must be for a service received during the

benefit month.

(c) The Department will not refund any portion of any medical expense the client uses to meet a Medicaid spenddown because the client assumes responsibility to pay any expenses used to meet a spenddown.

(d) A refund cannot exceed the actual cash spenddown amount paid by the client.

(e) The Department does not refund spenddown amounts paid by a client based on unpaid medical expenses for services the client receives during the benefit month. The client may present to the agency any unpaid bills for non-Medicaid-covered services that the client receives during the coverage month. The unpaid bills may be used to meet or reduce the spenddown the client owes for a future month of Medicaid coverage to the extent such bills remain unpaid at the beginning of such future month.

(f) The Department will reduce a refund by the amount of any unpaid obligation the client owes the Department.

(11) For poverty-related medical assistance, an individual or household is ineligible if countable income exceeds the applicable income limit. Medical costs cannot be deducted from income to determine eligibility for poverty-related medical assistance programs. Individuals cannot pay the difference between countable income and the applicable income limit to become eligible for poverty-related medical assistance programs.

(12) When a client must meet a spenddown to become eligible for a medically needy program, the client must sign a statement that says:

(a) the agency told the client how spenddown can be met,  
(b) the client expects his or her medical expenses to exceed the spenddown amount, and

(c) whether the client intends to pay cash or use medical expenses to meet the spenddown.

(13) A client may meet the spenddown by paying the agency the amount with cash or check, or by providing proof to the agency of medical expenses the client owes equal to the spenddown amount.

(a) The client may elect to deduct from countable income unpaid medical expenses for services received in non-Medicaid covered months to meet or reduce the spenddown.

(b) Expenses must meet the criteria for allowable medical expenses.

(c) Expenses cannot be payable by Medicaid or a third party.

(d) For each benefit month, the client can choose to change the method of meeting spenddown by either presenting proof of allowable medical expenses to the agency or by presenting a cash or check payment to the agency equal to the spenddown amount.

(14) The Department deducts only the amount of pre-paid medical expenses that equals the cost of services actually received in the month such expenses are paid. Payments a client makes for medical services in a month before the month services are actually received cannot be deducted from income.

(15) For non-institutional Medicaid programs, the Department deducts institutional medical expenses the client owes only if the expenses are medically necessary. The Department decides if services for institutional care are medically necessary.

(16) The Department does not require a client to pay a spenddown of less than \$1.

(17) Medicaid covered medical costs incurred in a current benefit month cannot be used to meet spenddown when the client is enrolled in a Medicaid Health Plan. Bills for mental health services incurred in a benefit month cannot be used to meet spenddown if Medicaid contracts with a single mental health provider to provide mental health services to all recipients in the client's county of residence. Bills for mental

health services received in a retroactive or application month that the client has fully-paid during that time can be used to meet spenddown only if the services were not provided by the Medicaid-contracted, mental health provider.

**R414-304-8. Medicaid Work Incentive Program Income Deductions.**

(1) This section sets forth income deductions for the Medicaid Work Incentive (MWI) program.

(2) To determine eligibility for the MWI program, the Department deducts the following amounts from income to determine countable income that is compared to 250% of the federal poverty guideline:

(a) \$20 from unearned income. If there is less than \$20 in unearned income, the Department deducts the balance of the \$20 from earned income;

(b) Impairment-related work expenses;

(c) \$65 plus one half of the remaining earned income;

(d) A current-year loss from a self-employment business can be deducted only from other earned income.

(3) For the MWI program, an individual or household is ineligible if countable income exceeds the applicable income limit. Health insurance premiums and medical costs are not deducted from income before comparing countable income to the applicable limit.

(4) The Department deducts from countable income the amount of health insurance premiums paid by the MWI-eligible individual or a financially responsible household member, to purchase health insurance for himself or other family members in the household before determining the MWI buy-in premium.

(5) An eligible individual may meet the MWI buy-in premium with cash, check or money order payable to the Department. The MWI premium cannot be met with medical expenses.

(6) The Department does not require a client to pay a MWI buy-in premium of less than \$1.

**R414-304-9. A, B, and D Institutional Medicaid and Family Institutional Medicaid Income Deductions.**

(1) This section sets forth income deductions for aged, blind, disabled and family institutional Medicaid programs.

(2) The Department applies the financial methodologies required by 42 CFR 435.601 and the deductions defined in 42 CFR 435.725, 435.726, and 435.832, 2005 ed., which are incorporated by reference. The Department applies Subsection 1902(r)(1) and 1924(d) of the Compilation of the Social Security Laws, which are incorporated by reference. Any additional income deductions or limitations are described in this rule.

(3) The following definitions apply to this section:

(a) "Family member" means a son, daughter, parent, or sibling of the client or the client's spouse who lives with the spouse.

(b) "Dependent" means earning less than \$2,000 a year, not being claimed as a dependent by any other individual, and receiving more than half of one's annual support from the client or the client's spouse.

(4) Health insurance premiums:

(a) For institutionalized and waiver eligible clients, the Department deducts from income health insurance premiums only for the institutionalized or waiver eligible client and only if paid with the institutionalized or waiver eligible client's funds. Health insurance premiums are deducted in the month due. The payment is not pro-rated. The Department deducts the amount of a health insurance premium for the month it is due if the Department is paying the premium on behalf of the client as authorized by Section 1905(a) of Title XIX of the Social Security Act, except no deduction is allowed for Medicare premiums the Department pays for or reimburses to recipients.

(b) The Department deducts from income the portion of a combined premium, attributable to the institutionalized or waiver-eligible client if the combined premium includes a spouse or dependent family member and is paid from the funds of the institutionalized or waiver eligible client.

(5) The Department deducts medical expenses from income only if the expenses meet all of the following conditions:

(a) the medical service was received by the client;

(b) the unpaid medical bill will not be paid by Medicaid or by a third party;

(c) a paid medical bill can be deducted only through the month it is paid. No portion of any paid bill can be deducted after the month of payment.

(6) The Department does not deduct medical or remedial care expenses that the Department is prohibited from paying because the expenses are incurred during a penalty period imposed due to a transfer of assets for less than fair market value. The Department does not deduct medical or remedial care expenses that the Department is prohibited from paying under Section 6014 of Pub. L. 109-171 because the equity value of the individual's home exceeds the limit set by such law. The Department will not deduct such expenses during the month the services are received nor for any month after the month services are received even when such expenses remain unpaid.

(7) The Department does not allow a medical expense as an income deduction more than once.

(8) A medical expense allowed as an income deduction must be for a medically necessary service. The Department of Health decides if services are medically necessary.

(9) The Department deducts only the amount of pre-paid medical expenses that equals the cost of services actually received in the month such expenses are paid. Payments a client makes for medical services in a month before the month the services are actually received cannot be deducted from income.

(10) When a client must meet a spenddown to become eligible for a medically needy program or receive Medicaid under a home and community based care waiver, the client must sign a statement that says:

(a) the agency told the client how spenddown can be met,

(b) the client expects his or her medical expenses to exceed the spenddown amount, and

(c) whether the client intends to pay cash or use medical expenses to meet the spenddown.

(11) A client may meet the spenddown by paying the agency the amount with cash or check, or by providing to the agency proof of medical expenses the client owes equal to the spenddown amount.

(a) The client may elect to deduct from countable income unpaid medical expenses for services received in non-Medicaid covered months to meet or reduce the spenddown.

(b) Expenses must meet the criteria for allowable medical expenses.

(c) Expenses cannot be payable by Medicaid or a third party.

(d) For each benefit month, the client may choose to change the method of meeting spenddown by either presenting proof of allowable medical expenses to the agency or by presenting a cash or check payment to the agency equal to the spenddown amount.

(12) Institutionalized clients are required to pay all countable income remaining after allowable income deductions to the institution in which they reside as their contribution to the cost of their care.

(13) A client who pays a cash spenddown, or a liability amount to the medical facility in which he resides, may present proof of medical expenses paid during the coverage month and request a refund of spenddown or liability paid up to the amount of bills paid by the client. The following criteria applies:

(a) Expenses for which a refund can be made include medically necessary medical expenses not covered by Medicaid or any third party, co-payments required for prescription drugs covered under a Medicare Part D plan, and co-payments or co-insurance amounts for Medicaid-covered services as required under the State Medicaid Plan.

(b) The expense must be for a service received during the benefit month.

(c) The Department will not refund any portion of any medical expense the client uses to meet a Medicaid spenddown or to reduce the liability owed to the institution because the client assumes responsibility to pay any expenses used to meet a spenddown or reduce a liability.

(d) A refund cannot exceed the actual cash spenddown or liability amount paid by the client.

(e) The Department does not refund spenddown or liability amounts paid by a client based on unpaid medical expenses for services the client receives during the benefit month. The client may present to the agency any unpaid bills for non-Medicaid-covered services that the client receives during the coverage month. The unpaid bills may be used to meet or reduce the spenddown the client owes for a future month of Medicaid coverage to the extent such bills remain unpaid at the beginning of such future month.

(f) The Department reduces a refund by the amount of any unpaid obligation the client owes the Department.

(14) The Department deducts a personal needs allowance for residents of medical institutions equal to \$45.

(15) When a doctor verifies that a single person, or a person whose spouse resides in a medical institution is expected to return home within six months of entering a medical institution or nursing home, the Department deducts a personal needs allowance equal to the current Medicaid Income Limit (BMS) for one person, defined in R414-304-11(6), for up to six months to maintain the individual's community residence.

(16) Except for an individual eligible for the Personal Assistance Waiver, an individual receiving assistance under the terms of a Home and Community-Based Services Waiver is eligible to receive a deduction for a non-institutionalized, non-waiver-eligible spouse and dependent family member as if that individual were institutionalized. The Department applies the provisions of Section 1924(d) of the Compilation of Social Security Laws, or the provisions of 42 U.S.C. 435.726 or 435.832 to determine the deduction for a spouse and family members.

(17) A client is not eligible for Medicaid coverage if medical costs are not at least equal to the contribution required towards the cost of care.

(18) Medicaid covered medical costs incurred in a current benefit month cannot be used to meet spenddown when the client is enrolled in a Medicaid Health Plan. Bills for mental health services incurred in a benefit month cannot be used to meet spenddown if Medicaid contracts with a single mental health provider to provide mental health services to all recipients in the client's county of residence. Bills for mental health services received in a retroactive or application month that the client has fully-paid during that time can be used to meet spenddown only if the services were not provided by the Medicaid-contracted, mental health provider.

#### **R414-304-10. Budgeting.**

(1) The Department adopts 42 CFR 435.601 and 435.640, 2001 ed., which are incorporated by reference. The Department adopts 45 CFR 233.20(a)(3)(iii), 233.31, and 233.33, 2001 ed., which are incorporated by reference.

(2) The following definitions apply to this section:

(a) "Best estimate" means that income is calculated for the upcoming certification period based on current information about income being received, expected income deductions, and

household size.

(b) "Prospective eligibility" means that eligibility is determined each month for the immediately following month based on a best estimate of income.

(c) "Prospective budgeting" is the process of calculating income and determining eligibility and spenddown for future months based on the best estimate of income, deductions, and household size.

(d) "Income averaging" means using a history of past income and expected changes, and averaging it over a determined period of time that is representative of future monthly income.

(e) "Income anticipating" means using current facts regarding rate of pay and number of working hours to anticipate future monthly income.

(f) "Income annualizing" means using total income earned during one or more past years, or a shorter applicable time period, and anticipating any future changes, to estimate the average annual income. That estimated annual income is then divided by 12 to determine the household's average monthly income.

(g) "Factoring" means that a monthly amount shall be determined to take into account the months of pay where an individual receives a fifth paycheck when paid weekly or a third paycheck when paid every other week. Weekly income shall be factored by multiplying the weekly amount by 4.3 to obtain a monthly amount. Income paid every other week shall be factored by 2.15 to obtain a monthly amount.

(h) "Reportable income changes" include any change in the source of income and any change that causes income to change by more than \$25. All income changes must be reported for an institutionalized individual.

(3) The Department shall do prospective budgeting on a monthly basis.

(4) A best estimate of income based on the best available information shall be an accurate reflection of client income in that month.

(5) The Department shall use the best estimate of income to be received or made available to the client in a month to determine eligibility and spenddown.

(6) Methods of determining the best estimate are income averaging, income anticipating, and income annualizing.

(7) The Department shall count income in the following manner:

(a) For QMB, SLMB, QI-1, Medicaid Work Incentive Program, and A, B, D, and Institutional Medicaid income shall be counted as it is received. Income that is received weekly or every other week shall not be factored.

(b) For Family Medicaid programs, income that is received weekly or every other week shall be factored.

(8) Lump sums are income in the month received. Any amount of a lump sum remaining after the end of the month of receipt is a resource, unless otherwise excluded under statute or regulation. Lump sum payments can be earned or unearned income.

(9) Income paid out under a contract shall be prorated to determine the countable income for each month. Only the prorated amount shall be used to determine spenddown or eligibility for a month. If the income will be received in fewer months than the contract covers, the income shall be prorated over the period of the contract. If received in more months than the contract covers, the income shall be prorated over the period of time in which the money will be received.

(10) To determine the average monthly income for farm and self-employment income, the Department shall determine the annual income earned during one or more past years, or other applicable time period, and factor in any current changes in expected income for future months. Less than one year's worth of income may be used if this income has recently begun,

or a change occurs making past information unrepresentative of future income. The monthly average income shall be adjusted during the year when information about changes or expected changes is received by the Department.

(11) Student income received other than monthly shall be prorated to determine the monthly countable income. This is done by dividing the total amount by the number of calendar months that classes are in session.

(12) Income from Indian trust accounts not exempt by federal law shall be prorated to determine the monthly countable income when the income varies from month to month, or it is received less often than monthly. This is done by dividing the total amount by the number of months it covers.

(13) Eligibility for retroactive assistance shall be based on the income received in the month for which retroactive coverage is sought. When income is being prorated or annualized, then the monthly countable income determined using this method shall be used for the months in the retroactive period, except when the income was not being received during, and was not intended to cover, those specific months in the retroactive period. Income will not be factored for retroactive months.

**R414-304-11. Income Standards.**

(1) This rule sets forth the income standards the Department uses to determine eligibility for Medicaid coverage groups.

(2) The Department adopts Sections 1902(a)(10)(E), 1902(l), 1902(m), 1903(f) and 1905(p) of the Compilation of the Social Security Laws, in effect January 1, 2003, which are incorporated by reference.

(3) The Department calculates the Aged and Disabled poverty-related Medicaid income standard as 100% of the federal non-farm poverty guideline. If an Aged or Disabled person's income exceeds this amount, the current Medicaid Income Standards (BMS) apply unless the disabled individual or a disabled aged individual has earned income. In this case, the income standards of the Medicaid Work Incentive program apply.

(4) The income standard for the Medicaid Work Incentive Program (MWI) for disabled individuals with earned income is equal to 250% of the federal poverty guideline for a family of the size involved. If income exceeds this amount, the current Medicaid Income Standards (BMS) apply.

(a) The Department charges a MWI buy-in premium for the Medicaid Work Incentive Program when the countable income of the eligible individual, or the eligible individual and spouse, when the spouse is also eligible or has deemable income, exceeds 100% of the federal poverty guideline for the Aged and Disabled 100% poverty-related coverage group. When the eligible individual is a minor child, the Department charges a MWI buy-in premium when the child's countable income, including income deemed from parents, exceeds 100% of the federal poverty guideline for a one-person household.

(b) The premium is equal to 5% of income when income is over 100% but not more than 110% of the federal poverty guideline, 10% of income when income is over 110% but not over 120% of the federal poverty guideline, or 15% of income when income is over 120% of the federal poverty guideline. The premium is calculated using only the eligible individual's or eligible couple's countable income multiplied by the applicable percentage.

(5) The income limit for pregnant women, and children under one year of age, shall be equal to 133% of the federal poverty guideline for a family of the size involved. If income exceeds this amount, the current Medicaid Income Standards (BMS) apply.

(6) The current Medicaid Income Standards (BMS) are as follows:

**R414-304-12. A, B and D Medicaid, Medicaid Work Incentive, QMB, SLMB, and QI-1 Filing Unit.**

(1) The Department adopts 42 CFR 435.601 and 435.602, 2001 ed., which are incorporated by reference. The Department adopts Subsections 1902(l)(1), (2), and (3), 1902(m)(1) and (2), and 1905(p) of the Compilation of the Social Security Laws, in effect January 1, 2001, which are incorporated by reference.

(2) The following individuals shall be counted in the BMS for A, B and D Medicaid:

- (a) the client;
- (b) a spouse who lives in the same home, if the spouse is eligible for A, B, or D Medicaid, and is included in the coverage;
- (c) a spouse who lives in the same home, if the spouse has deemable income above the allocation for a spouse.

(3) The following individuals shall be counted in the household size for the 100% of poverty A or D Medicaid program:

- (a) the client;
- (b) a spouse who lives in the same home, if the spouse is aged, blind, or disabled, regardless of the type of income the spouse receives, or whether the spouse is included in the coverage;
- (c) a spouse who lives in the same home, if the spouse is not aged, blind or disabled, but has deemable income above the allocation for a spouse.

(4) The following individuals shall be counted in the household size for a QMB, SLMB, or QI-1 case:

- (a) the client;
- (b) a spouse living in the same home who receives Part A Medicare or is Aged, Blind, or Disabled, regardless of whether the spouse has any deemable income or whether the spouse is included in the coverage;
- (c) a spouse living in the same home who does not receive Part A Medicare and is not Aged, Blind, or Disabled, if the spouse has deemable income above the allocation for a spouse.

(5) The following individuals shall be counted in the household size for the Medicaid Work Incentive Program:

- (a) the client;
- (b) a spouse living in the same home;
- (c) parents living with a minor child;
- (d) children under age 18;
- (e) children age 18, 19, or 20 if they are in school full-time.

(6) Eligibility for A, B and D Medicaid and the spenddown, if any; A and D 100% poverty-related Medicaid; and QMB, SLMB, and QI-1 programs shall be based on the income of the following individuals:

- (a) the client;
- (b) parents living with the minor client;
- (c) a spouse who is living with the client. Income of the

spouse is counted based on R414-304-2;

(d) an alien client's sponsor, and the spouse of the sponsor, if any.

(7) Eligibility for the Medicaid Work Incentive Program shall be based on income of the following individuals:

- (a) the client;
- (b) parents living with the minor client;
- (c) a spouse who is living with the client;
- (d) an alien client's sponsor, and the spouse of the sponsor,

if any.

(8) If a person is "included" in the BMS, it means that family member shall be counted as part of the household and his or her income and resources shall be counted to determine eligibility for the household, whether or not that family member receives medical assistance.

(9) If a person is "included" in the household size, it means that family member shall be counted as part of the household to determine what income limit applies, regardless of whether that family member's income will be counted or whether that family member will receive medical assistance.

#### **R414-304-13. Family Medicaid Filing Unit.**

This section provides criteria governing who is included in a family Medicaid household.

(1) The Department adopts 42 CFR 435.601 and 435.602, 2001 ed., 45 CFR 206.10(a)(1)(iii), 233.20(a)(1) and 233.20(a)(3)(vi), 2001 ed., which are incorporated by reference.

(2) For Family Medicaid programs, if a household includes individuals who meet the U.S. citizen or qualified alien status requirements and family members who do not meet U.S. citizen or qualified alien status requirements, the Department includes the ineligible alien family members in the household size to determine the applicable income limit for the eligible family members. The ineligible alien family members do not receive regular Medicaid coverage, but may be able to qualify for Medicaid that covers only emergency services under other provisions of Medicaid law.

(3) Except for determinations under 1931 Family Medicaid, any unemancipated minor child may be excluded from the Medicaid coverage group, and an ineligible alien child may be excluded from the household size, at the request of the specified relative responsible for the children. An excluded child is considered an ineligible child and is not counted as part of the household size for deciding what income limit is applicable to the family. Income and resources of an excluded child are not considered when determining eligibility or spenddown.

(4) The Department does not use a grandparent's income to determine eligibility or spenddown for a minor child, and the grandparent is not counted in the household size. A cash contribution from the grandparents received by the minor child or parent of the minor child is countable income.

(5) Except for determinations under 1931 Family Medicaid, if anyone in the household is pregnant, the unborn child is included in the household size. If a medical authority confirms that the pregnant woman will have more than one child, all of the unborn children are included in the household size.

(6) If a child is voluntarily placed in foster care and is in the custody of a state agency, the parents are included in the household size.

(7) Parents who have relinquished their parental rights shall not be included in the household size.

(8) If a court order places a child in the custody of the state, and the child is temporarily placed in an institution, the parents shall not be included in the household size.

(9) If a person is "included" or "counted" in the household size, it means that that family member is counted as part of the household and his or her income and resources are counted to

determine eligibility for the household, whether or not that family member receives medical assistance. The household size determines which BMS income level or, in the case of poverty-related programs, which poverty guideline income level applies to determine eligibility for the client or family.

#### **R414-304-14. A, B and D Institutional and Waiver Medicaid and Family Institutional Medicaid Filing Unit.**

(1) For A, B, and D institutional, and home and community-based waiver Medicaid, the Department shall not use income of the client's parents or the client's spouse to determine eligibility and the contribution to cost of care, which may be referred to as a spenddown.

(2) For Family institutional, and home and community-based waiver Medicaid programs, the Department adopts 45 CFR 206.10(a)(1)(vii), 2001 ed., which is incorporated by reference.

(3) The Department shall base eligibility and the contribution to cost of care, which may be referred to as a spenddown on the income of the client and the sponsor of an alien who is subject to deeming according to the rules described in 20 CFR 416.1166a, 2002 ed., which is incorporated by reference.

(4) The Department shall base eligibility and the contribution to cost of care, which may be referred to as a spenddown, on the income of the client and the income deemed from an alien's sponsor, and the sponsor's spouse, if any, when the sponsor has signed an Affidavit of Support pursuant to Section 213A of the Immigration and Nationality Act on or after December 19, 1997. Sponsor deeming will end when the alien becomes a naturalized U.S. citizen, or has worked 40 qualifying quarters as defined under Title II of the Social Security Act or can be credited with 40 qualifying work quarters. Beginning after December 31, 1996, a creditable qualifying work quarter is one during which the alien did not receive any federal means-tested public benefit.

**R438. Health, Epidemiology and Laboratory Services, Laboratory Services.****R438-10. Rules for Establishment of a Procedure to Examine the Blood of all Adult Pedestrians and all Drivers of Motor Vehicles Killed in Highway Accidents for the Presence and Concentration of Alcohol, for the Purpose of Deriving Statistics Therefrom.****R438-10-1. Definitions.**

(1) "Victim" means any driver of a motor vehicle, or any adult pedestrian who dies as a result of, and within four hours after the time of, a highway accident.

(2) "Blood specimen collector" means a person required to obtain a blood specimen from any driver of a motor vehicle, or any adult pedestrian who dies as a result of a highway accident, which person shall be:

(a) Any mortician licensed in the State of Utah.

(b) The Chief Medical Examiner and his authorized designates.

(c) Any other person as authorized by the Department of Health.

**R438-10-2. Procedure.**

(1) Blood specimen collection

(a) The Department of Health shall provide specimen collection supplies, sampling instructions, mailing containers, and report forms to those authorized and responsible to collect blood specimens for this procedure. The blood specimen collector shall obtain a specimen from the victim in accordance with the sampling instructions.

(b) Any blood specimen collector having custody of any driver of a motor vehicle or any adult pedestrian who dies as a result of a highway accident shall be required to initiate the report form, listing all available information, and to submit the specimen and report form to the State Health Laboratory of the Department of Health, in the mailing container provided.

(c) In the event that a highway fatality cannot be identified as to driver, pedestrian, or passenger, the blood specimen collector shall obtain a specimen from all persons within his custody who died as a result of the accident.

(2) Chemical analysis

All specimens shall be analyzed by the State Health Laboratory. The State Health Laboratory shall employ methodology, analytical techniques, and documented quality control practices to best ensure accurate results. The State Health Laboratory shall add the result of the alcohol analysis to the report form, and forward the form to the Bureau of Health Statistics of the Department of Health.

(3) Statistical analysis

The Department of Public Safety shall forward a copy of all motor vehicle accident reports involving fatalities to the Bureau of Health Statistics. The Bureau of Health Statistics shall assemble all available information, including accident reports, death certificates, and alcohol analyses, and subject these data to appropriate statistical analyses. These statistics shall be provided to the Commissioner of Public Safety on a monthly basis. The Bureau of Health Statistics shall also make an annual report to the Commissioner of Public Safety.

- (3) "Laboratory" means an approved facility that conducts the biological, microbiological, serological, chemical, immunohematological, hematological, biophysical, cytological, pathological, or other examination of materials derived from the human body for the purpose of providing information for the diagnosis, prevention, or treatment of any disease or impairment of, or the assessment of the health of, human beings. These examinations also include procedures to determine, measure, or otherwise describe the presence or absence of various substances or organisms in the body.
- (4) "Review" means an evaluation of a laboratory or a facility by an authorized department representative to determine compliance with R444-1.

**R444-1-2. Authorization.**

- (1) Pursuant to Section 26-1-30(m), a facility may not operate as a laboratory for a particular specialty or subspecialty within the state unless first approved by the department.
- (2) An entity that does not test specimens and only collects or prepares specimens or only serves as a mailing service is exempt from this rule.

**R444-1-3. Administration.**

- (1) The department shall assist any facility or laboratory in the state which desires to become approved or maintain approval. Toward this end, the Division of Epidemiology and Laboratory Services within the department shall arrange for training, reviews, and the provision of reference materials to any facility or laboratory requesting the service.
- (2) The department shall approve a facility to operate as a laboratory for particular specialties or subspecialties upon the facility's demonstrating that it has satisfied the requirements for approval, as detailed below:
  - (a) The facility must hold a valid federal Clinical Laboratory Improvement Act (CLIA) certificate under 42 C.F.R. part 493, 1990 edition, which is incorporated by reference, for the specialty or subspecialty associated with the testing covered by this rule.
  - (b) A facility must provide the Division of Epidemiology and Laboratory Services (1) the location of the facility; (2) the director of the proposed laboratory and his qualifications; (3) the CLIA certificate number; and (4) the specialties or subspecialties for which the facility has obtained CLIA certification.
  - (3) A facility that is not approved as a laboratory for the particular specialty or subspecialty that it wishes to perform must request a review in writing providing the information required R444-1-3(2)(b).

**R444-1-4. Maintenance of Approval.**

- (1) A laboratory wishing to maintain approval must:
  - (a) continue to hold a valid CLIA certificate for the specialty or subspecialty;
  - (b) notify the Division of Epidemiology and Laboratory Services within 30 calendar days of any changes in information provided pursuant to R444-1-3(2)(b); and
  - (c) demonstrate successful performance in a proficiency testing program administered or approved by the department.
- (2) The department may revoke approval for any specialty or subspecialty for failure to meet the requirements of subsection (1).

**R444-1-5. Publishing Lists of Approved Laboratories.**

The department shall publish, at least annually, a list of laboratories meeting the minimum standards established under this rule. Included on the list shall be the name and location of the laboratory, the name of the director, and the specialties or subspecialties approved. The department may publish semi-annual amendments to the list in a newsletter.

**R510. Human Services, Aging and Adult Services.****R510-200. Long-Term Care Ombudsman Program Policy.****R510-200-1. Purpose.**

A. The Long-term Care Ombudsman (LTCO) Program is created for the purpose of promoting, advocating, and ensuring the adequacy of care received, and the quality of life experienced by elderly residents of long-term care facilities within the State.

B. Operation of the LTCO Program is a joint responsibility of the Division and local AAAs. Authority to administer the LTCO Program is derived from the Older Americans Act (OAA) Title VII: Allotments for Vulnerable Elder Rights Protection Activities and Section 62a-3-201 et seq.

C. The Division will establish a State Office of LTCO.

D. The State LTCO is responsible for:

- (1) oversight of the statewide LTCO program;
- (2) providing training to local LTCO staff and volunteers;
- (3) provision of public information regarding the LTCO program;
- (4) working with federal agencies, the State Legislature, other units of state government and other agencies to obtain funding and other resources;
- (5) developing cooperative relationships among agencies involved in long-term care;
- (6) resolving conflicts among agencies regarding long-term care;
- (7) assuring consistent, statewide reporting of LTCO program activities;
- (8) monitoring local LTCO programs;
- (9) providing technical assistance to local LTCO programs;
- (10) maintaining close communication and cooperation in the LTCO statewide network;
- (11) recommending rules governing implementation of the LTCO program; and
- (12) providing overall leadership for the Utah LTCO program.

E. The Division may employ Regional Ombudsmen to assist the State LTCO in meeting his or her responsibilities. In addition to assisting the State LTCO, Regional Ombudsmen are responsible to:

- (1) Spend a majority of their time providing ombudsman services, including but not limited to, investigating and resolving complaints when local ombudsmen transfer a case, providing services to assist elderly residents of long-term care facilities, informing and educating elderly residents about their rights, providing administrative and technical assistance to local ombudsmen and volunteers, providing systemic advocacy, providing training to long-term care facilities, and assisting in the development of family and resident councils;
- (2) Provide monitoring, oversight, assistance and leadership to local ombudsmen and volunteers in their region;
- (3) Ensure that all ombudsmen in their region adhere to established policy and procedure; and
- (4) Improve consistency and quality of Ombudsmen services in their region.

F. AAAs are responsible for daily operation of the program, either directly or by contract, as defined in these rules.

G. The Division, State LTCO and AAAs must work together to protect elderly residents, promote quality care in long term care facilities, and promote the LTCO program.

**R510-200-2. Definitions.**

A. "AAA" means area agency on aging as designated by the Division of Aging and Adult Services.

B. "APS" means adult protective services.

C. The Division means the Division of Aging and Adult Services within the Utah Department of Human Services.

D. "Elderly resident" means an adult 60 years of age or

older who resides in a long-term care facility.

E. Long-term ombudsman is a person, operating within the guidelines of the Older American Act and the policies of the Division, who advocates for elderly residents of long-term care facilities to ensure the quality and adequacy of care received.

F. "Local LTCO" means the local program and personnel designated by the Division, through each AAA, to implement the (LTCO) Program within a defined geographic area.

G. "Responsible Agency" means the agency responsible to investigate or provide services on a particular case.

H. "State LTCO" means long-term care ombudsman personnel within the Division.

I. "Long-Term Care Facility" means any skilled nursing facility, intermediate care facility, nursing home, assisted living facility, adult foster care home, or any living arrangement in the community through which room and personal care services are provided for elderly residents.

**R510-200-3. Local LTCO Program Administrative Standards.**

A. AAAs shall operate the LTCO Program in accordance with the following standards:

(1) Supervision: All local LTCO shall have an identified supervisor. The person supervising the ombudsman shall meet all requirements for a supervisor as specified by the AAA and shall have at least a general knowledge of long-term care facilities.

B. Staffing: Each AAA shall recommend for certification one or more paid or volunteer staff members to serve as local LTCO.

(a) Persons assigned this responsibility shall have either education or experience in one or more of the following areas: gerontology, long-term care, health care, legal or human service programs, advocacy, complaint and dispute resolution, mediation or investigating.

(b) Assigned individuals shall be certified by the State LTCO within six months after assuming a local LTCO role.

B. The AAA shall have primary responsibility to provide for certified back-up to the local LTCO. AAAs may enter into cooperative agreements with other AAAs to provide for LTCO back-up. In emergency situations, AAAs may request back-up support from the State LTCO.

C. Local ombudsmen shall have no conflict of interest which would interfere with performing the function of this position, including:

(1) direct involvement in the licensing or certification of a long-term care facility or of a provider of a long-term care service;

(2) ownership or investment interest, represented by equity, debt, or other financial relationship in a long-term care facility or a long-term care service;

(3) employment by, or participation in the management of, a long-term care facility;

(4) receiving, or having the right to receive, directly or indirectly, remuneration in cash or in kind under a compensation arrangement with an owner or operator of a long-term care facility.

D. AAAs shall establish, and specify in writing, mechanisms to identify and remove conflicts of interest and to identify and eliminate relationships described in paragraph 3 including mechanisms such as:

(1) methods by which the AAA will examine individuals and immediate family members to identify conflicts; and

(2) actions the AAA will require individuals and family members to take in order to remove those conflicts.

E. Local LTCO shall have the ability to act in the best interests of residents of long-term care facilities, including taking public positions on policies or actions which affect residents. Local LTCO shall not be constrained by the local

AAA or governing body from taking a stand in good-faith performance of their job.

(1) AAAs shall have on file a written description outlining the working relationship between the AAA and the ombudsman which spells out arrangements for assuring this ability.

(2) Grievance Procedure

(a) AAAs shall establish a grievance procedure to accept and hear complaints regarding an ombudsman's actions. The procedure shall allow for a final appeal to the Utah State Department of Human Services Office of Administrative Hearings.

(3) Records System

(a) AAAs shall maintain a records classification and retention program in accordance with Sections 63-2-301 and 63-2-901 and PL 89-73 42 USC 300-1 et seq.

**R510-200-4. Local LTCO Classifications and Duties.**

A. Ombudsman

An Ombudsman, who may be either a paid staff member or volunteer, may perform the following duties:

- (1) investigate complaints and develop an action plan to resolve the complaint;
- (2) provide supervision over the implementation of the action plan and any follow-up determined necessary;
- (3) review complaints to set complaint response priorities;
- (4) assign complaints to staff and volunteers;
- (5) provide case consultation to long-term care facility staff; and
- (6) perform duties of an assistant ombudsman.

B. Assistant Ombudsman

(1) An Assistant Ombudsman, who may be either a paid staff member or volunteer, may:

- (a) provide outreach to residents, families, facilities, and other entities concerned about long-term care;
- (b) observe actions and quality of care in long-term care facilities;
- (c) perform complaint intake;
- (d) provide residents, families, and the general public with information about the LTCO program and resident rights;
- (e) provide public presentations;
- (f) assist with resolution and follow-up on complaints while under the supervision of a Certified Ombudsman; and
- (g) provide technical assistance to the general public and long-term care facility staff.

C. Ombudsman Program Director

(1) An Ombudsman Program Director, who may be the AAA director or his designee, may perform the duties of an Ombudsman, if certified as such, and shall:

- (a) provide overall administration of the local ombudsman program;
- (b) provide overall supervision of LTCO paid and volunteer staff;
- (c) conduct quality assurance and complaint case record reviews;
- (d) oversee the screening, hiring, and dismissal of LTCO staff and volunteers; and
- (e) assess the need for regulatory changes to improve the quality of care and life for long-term care facility residents and advocate for the passage of those changes.

D. Non-certified Staff or Volunteers

Non-certified staff or volunteers may perform the following functions:

- (a) complaint intake;
- (b) provide public information and presentations regarding the LTCO program, long-term care in general, and other topics on which they may have expertise, as determined by the AAA;
- (c) provide outreach to residents, families, facilities, and other entities concerned about long-term care;
- (d) visit long-term care facilities and residents; and

(e) any other activity which does not expressly require certification and for which the AAA has determined the individual competent to engage in on behalf of the AAA or LTCO program.

**R510-200-5. Certification Curriculum and Training Hours.**

A. Assistant Ombudsman: Prior to applying for certification as an Assistant Ombudsman, an individual shall complete a minimum of 18 hours of required initial training and pass the post-test with a minimum score of 70%. This training shall cover the following areas:

(1) An introduction to the LTCO Program, including a discussion of the scope of work of the LTCO.

(2) An overview of the long-term care system, including a discussion of:

(a) the types of long-term care facilities and providers, their organization and operations;

(b) federal and state regulations applicable to long-term care facilities and providers, with an emphasis on resident rights;

(c) long-term care resident profiles and methods of payment for long-term care services;

(d) the aging process and attitudes of aging; and

(e) the Aging Network and the relationship between the AAAs, the State LTCO, and various regulatory agencies.

(3) Ombudsman skills, including:

(a) interpersonal communication, observation, and interviewing;

(b) building working relationships with providers; and

(c) complaint handling, with an emphasis on intake.

(4) An overview of complaint resolution skills, with an emphasis on advocacy, negotiating, empowering residents, and follow-up activities.

(5) LTCO Program policies and procedures, including:

(a) confidentiality;

(b) access to facilities and residents;

(c) complaint investigation and resolution;

(d) reporting; and

(e) ethics.

(6) Case record documentation.

(7) Mediation and negotiation between residents.

(8) Any additional topics deemed appropriate by the State LTCO in consultation with the Division, AAAs, long-term care regulatory agencies and local LTCO Program Directors.

B. Ombudsman: Prior to applying for certification as a local Ombudsman, an individual shall complete a minimum of 30 hours of required initial training and pass the post-test with a minimum score of 70%. This training shall include all training described in Section A plus an additional 12 hours of training covering the following areas:

(1) a more in-depth review of the content areas covered for candidates for certification as ombudsman representatives, including written exercises, case studies, role plays, research exercises, and analysis of systemic issues;

(2) development of a complaint resolution action plan;

(3) legal, administrative, and other remedies;

(4) actions regarding public disclosure of actions or inactions which affect residents of long-term care facilities, including appropriateness, confidentiality of certain information, and how to work with the media;

(5) review of client records;

(6) alternative dispute resolution options for use in complaint handling; and

(7) advocacy skills.

C. Post-tests: The post-tests referred to in Sections A and B shall be developed by the State LTCO and shall be structured in sections to correspond to major training topics. If an applicant does not receive a score of at least 70% on a post-test they shall be eligible to retake the test one time within 30 days.

If they do not receive a minimum score of at least 70% on the retake test, they will need to complete the training pertaining to the test sections on which they did not receive a passing score. Upon completion, they will be allowed to take the test one additional time. If a passing score is not obtained, the applicant will be deemed by the State LTCO to not be appropriate for certification as an Assistant Ombudsman or Ombudsman.

D. Ongoing Training: To maintain certification, an assistant ombudsman must complete a minimum of 12 hours of training annually; an ombudsman must complete a minimum of 24 hours of training annually.

(1) The State LTCO will provide for at least 48 hours of LTCO specific training per year. Training shall be scheduled at various times throughout the year and in various locations throughout the State.

(2) During the first year in which a person functions as an assistant ombudsman or ombudsman the required initial training will count toward the annual training requirement;

(3) Relevant training offered in the community can serve to meet annual training requirements in lieu of state-sponsored LTCO training on an hour-for-hour basis. Documentation of attendance at a training, including a copy of the training agenda, shall be submitted to the State LTCO for approval.

#### **R510-200-6. Registration and Certification of Ombudsmen and Assistant Ombudsmen.**

##### **A. Central Registry**

(1) The State LTCO shall maintain a central registry of all local ombudsmen and assistant ombudsmen. The registry shall retain the following information on each:

(a) the ombudsman's or assistant ombudsman's name, address, and telephone number;

(b) a summary of the ombudsman's or assistant ombudsman's qualifications;

(c) the ombudsman's or assistant ombudsman's classification;

(d) the AAA with which the ombudsman or assistant ombudsman is associated;

(e) the most recent date of certification;

(f) a position description which contains any prohibitions applicable to the ombudsman or assistant ombudsman. Prohibitions may include limitation on the duties that may be performed, limitations on the providers the ombudsman or assistant ombudsman may investigate or attempt complaint resolution with, or any limitations due to a conflict of interest; and

(g) information pertaining to any decertification actions and the results of those actions.

(2) Local ombudsman and assistant ombudsman shall register with the State LTCO through the AAA within 30 days of accepting assignment as a local ombudsman or assistant ombudsman.

#### **R510-200-7. Decertification of Ombudsmen and Assistant Ombudsmen.**

Decertification of an ombudsman or assistant ombudsman may occur through voluntary resignation or decertification by the State LTCO or AAA or sponsoring agency which employs him. A person who has been decertified may not be assigned to ombudsman duties.

##### **A. Involuntary Decertification With Cause:**

(1) No ombudsman or assistant ombudsman shall be recommended for involuntary decertification without cause. Cause may include:

(a) failure to follow policies and procedures that conform to the LTCO statute and rules;

(b) performing a function not recognized or sanctioned by the LTCO Program;

(c) failure to meet the required qualifications for

certification;

(d) failure to meet continuing education requirements;

(e) intentional failure to reveal a conflict of interest; or

(f) misrepresentation of the ombudsman's or assistant ombudsman's category of certification or the duties he is certified to perform.

(2) The State LTCO and AAAs shall establish, for their respective programs, policies and procedures for recommending decertification. Those policies and procedures shall require that the State LTCO or AAA attempt to help the LTCO or Assistant LTCO attain satisfactory job performance through professional development, supervision, or other remedial actions prior to recommending decertification.

(3) AAAs recommending decertification shall state their reasons in writing and shall provide any relevant documentation to support the recommendation to the State LTCO. Notice of the recommendation for decertification and the basis for the recommendation shall be provided to the local ombudsman or assistant ombudsman at the same time that information is submitted to the State LTCO.

(4) The State LTCO shall review the recommendation and provide written notification of his decision to the AAA and the local ombudsman or assistant ombudsman within ten working days. The AAA or local ombudsman or assistant ombudsman may appeal the State LTCO's decision in accordance with the Department of Human Services Rule R497-100.

(5) When the State LTCO initiates a decertification action against a local ombudsman or assistant ombudsman, the State LTCO shall provide written notification to the AAA and the local ombudsman or assistant ombudsman. The AAA or the local ombudsman or assistant ombudsman may appeal the decision in accordance with the Department of Human Services Rule R497-100.

(6) Upon completion of the decertification actions, the State LTCO shall record the actions and results in the central registry.

##### **B. Voluntary Decertification Without Cause:**

When a local ombudsman or assistant ombudsman voluntarily resigns due to personal reasons which would not otherwise affect certification, they shall surrender their LTCO identification card to the AAA. The AAA shall notify the State LTCO of the voluntary decertification. The State LTCO shall record the date of voluntary decertification in the central registry.

##### **C. Voluntary Decertification With Cause:**

When a local ombudsman or assistant ombudsman voluntarily resigns for reasons which would otherwise warrant involuntary decertification, they shall surrender their LTCO identification card to the AAA within seven days. The AAA shall notify the State LTCO of the voluntary decertification with cause and shall notify the local ombudsman or assistant ombudsman of the right to a hearing. The State LTCO shall record the date of voluntary decertification in the central registry.

##### **D. Recertification:**

(1) A certified local ombudsman or assistant ombudsman who voluntarily requests decertification may apply to have his certification reinstated when he becomes reemployed or accepted as a LTCO staff or volunteer. Any person seeking recertification shall apply in writing, through the AAA, to the State LTCO. The application shall include the date of the most recent decertification action and a summary of any professional development in or experience with ombudsman skills, long-term care services, problem resolution skills or any related skills the applicant may have received since his decertification.

(2) The State LTCO shall review the application and may require the applicant to receive additional professional development, and take an appropriate examination based upon the length of time since the applicant's most recent certification,

and the experience or professional development the applicant has accumulated in the interim. The State LTCO shall make notify both the AAA and the applicant of the decision within ten working days.

**R510-200-8. Operation of the Long-Term Care Ombudsman Program.**

A. Intake: The local LTCO Program shall accept and screen referrals from residents, family, facility staff, agency staff and the general community. Ombudsmen and assistant ombudsmen may also serve as the complainant for situations they have personally observed.

(1) If the information indicates that the referral relates to abuse, neglect, or exploitation of a resident, the local LTCO shall refer the complaint to either the local Adult Protective Services (APS) office or local law enforcement. The local LTCO and the APS worker should collaborate on investigating and resolving the complaint whenever possible.

(2) If the information indicates that the referral relates to facilities or operations licensed or certified by the Department of Health Bureau of Medicare/Medicaid Program Certification and Resident Assessment, and the nature of the complaint is other than alleged abuse, neglect or exploitation of a resident, the LTCO shall refer the complaint to the Department of Health. The local LTCO and Department of Health staff should collaborate on investigating and resolving the complaint whenever possible.

(3) Referrals to other agencies shall be made immediately if the situation appears life threatening or, in other situations, within two working days. If a referral is made to another agency, the local LTCO shall complete the intake form, indicating the referral date and entity, and maintain the form as part of the record. The local LTCO shall follow up to see that action was taken by the referral agency.

(4) If the referral involves a resident who is under the age of 60, and the nature of the complaint is limited to impact only on that resident, the local LTCO shall refer the complaint as specified in paragraph (1) or (2) of this section and take no further action. If the referral involves a resident who is under the age of 60 who resides in a facility that has other residents over the age of 60 and the nature of the complaint is such that it impacts those residents, the local LTCO shall refer the complaint as specified in paragraph (1) or (2) of this section as applicable and initiate an investigation.

(5) If the complaint involves residents rights or other issues within the jurisdiction of the LTCO, an investigation shall be initiated to determine if the complaint is valid. Issues within the purview of the LTCO include issues of privacy, confidentiality of information, and other issues relating to the action, inaction, or decisions by providers or representatives of providers of long-term care services, public agencies, or health and human service agencies that may adversely affect the health, safety, welfare, or rights of residents.

B. Investigations:

(1) LTCO investigations shall be initiated within three working days. If the available information indicates serious threat to a resident's life, health or property, the response shall be immediate.

(2) The investigation may involve phone or in-person contacts with the resident and complainant, collateral agency or individual contacts or an on-site investigation. The local LTCO shall:

- (a) do a preliminary screening to gather facts and details of the complaint;
- (b) categorize the complaint, i.e. resident rights, education, abuse, neglect, technical assistance, etc.;
- (c) identify all parties to the complaint;
- (d) identify relevant agencies, as required by state and federal statutes;

- (e) identify steps already taken by the complainant;
- (f) identify information gaps that may require additional research;

(g) determine if an on-site investigation is needed. If it is determined that an on-site investigation is not necessary, the LTCO shall document the reasons in the case file;

- (h) determine if the situation is an emergency; and
- (i) make verbal or written follow-up with the complainant.

(3) The method and extent of the investigation depends on the circumstances reported. The local LTCO shall complete an intake form on each referral. A complaint consists of the initial referral or any additional contacts regarding the initial referral received during the period that the case is opened. A referral regarding a different matter made during the period the case is opened is considered a new complaint. A referral received after a case is closed is considered a new complaint.

(4) When an on-site investigation is determined to be necessary the local LTCO does not have to give prior notice to the agency or facility in question. The local LTCO may choose to give notice if deemed appropriate. In either case, the ombudsman shall:

(a) upon arrival at the facility or agency, present official identification to the administration or designated person in charge;

(b) identify any factors that may interfere with the investigation;

(c) start the investigatory process to establish as clearly as possible what has happened, why it has happened, who or what is responsible for resolving the complaint, and possible solutions to the problem;

(d) interview the resident, as well as other residents, staff, family, friends and physician as deemed necessary;

(e) make phone calls, on-site observation, review resident records, and make collateral contacts with other agencies and professionals; and

(f) take any other appropriate investigatory actions within the purview of the LTCO Program.

(g) During the course of the investigation, the local LTCO shall look for credible evidence which supports or refutes the complaint. Evidence may be directly observed by the LTCO or indirectly gathered from statements from reliable sources. The State LTCO shall provide consultation and technical assistance regarding the methods used in investigating complaints as requested by the local LTCO.

(h) Ombudsmen shall be provided privacy by the facility or agency during all aspects of the investigative process.

(5) Determining Validity of Complaint

(a) The local LTCO, having gathered evidence regarding the complaint, shall review the evidence to determine whether that evidence supports the allegations made in the complaint. If the local LTCO is uncertain as to whether the complaint is valid, he shall discuss the situation with his supervisor. If further consultation is necessary, contact should be made with the State LTCO, who may suggest additional activities or approaches to the problem. The local LTCO shall gather further evidence from interviews, collateral contacts, and records review, until the body of evidence enables the local LTCO to make a supportable decision regarding validity of the complaint.

(b) Upon determination of the validity of the complaint, the local LTCO shall document the determination and reasons for it in the case file.

(6) Resolution of Complaints

(a) Having determined that the complaint is valid, the local LTCO shall take appropriate steps to resolve the complaint, including:

(i) determining the scope of the problem. Does the problem affect just the residents mentioned in the complaint, or does it affect other residents?

(ii) determining what options exist to resolve the

complaint. For example, can the complaint be resolved immediately, will the resolution require negotiation with the facility management, or has the facility already moved to resolve the situation.

(iii) discussing with the resident which of the options are acceptable to resolve the complaint. Determining an acceptable resolution may require negotiation between the parties to achieve an acceptable resolution to the situation.

(iv) developing with the resident and facility a plan to achieve the agreed-upon resolution. The plan may be very simple or may have several steps and involve other agencies. Once the plan is agreed upon, the local LTCO, facility, resident, and other parties shall take action to implement the plan.

(v) making referrals to other agencies if a referrals are required by the plan.

(a) If during the investigation process the local LTCO determines that the incident or activities should be referred to APS, Health Facility Licensure, or Health Facility Review, the LTCO shall immediately make the referral and involve all appropriate agencies.

(b) The local LTCO who has referred the complaint to another agency shall follow up to obtain final results and record the outcome of the other agency's investigation. If the other agency does not respond or if the response is inadequate, the local LTCO may:

(1) contact the agency; or  
(2) contact the State LTCO for technical assistance or help in resolving the problem with the other agency; or

(3) collaborate with another advocacy agency, such as the Legal Center for People with Disabilities, the Senior Citizens Law Center, or the local office of Utah Legal Services to resolve the issue and clarify substantive legal rights of elderly residents; or

(4) track on-going problems with an agency or facility to build a body of credible evidence on which to base further action; or

(5) take any other appropriate action within the LTCO scope of authority, including filing legal action against the other agency if the AAA has the legal resources to bring legal action.

(6) compiling documentation of the validity of the complaint, of the agreed-upon outcome, and the steps taken to carry out the plan. The documentation may be summary in nature, but should clearly indicate the situation and its resolution.

(7) determining at what point the case is appropriately closed.

(8) notifying the complainant, verbally or in writing, that the investigation has been completed and the case is closed.

(7) Records

(a) The local LTCO shall maintain a set of records by resident, containing all required forms and relevant documentation, including:

(i) a completed intake form;  
(ii) case recording consisting of: the nature of the complaint; validity of complaint and reasons for the determination; plan for resolution; implementation and outcome of plan; and dates and names of any collateral contacts.

(iii) consent forms; and

(iv) copies of any correspondence or written documents pertaining to the complaint, the investigation, the resolution plan, or implementation of the resolution plan.

(b) The local LTCO shall also maintain information by facility relating to all referrals.

(c) All actions, findings, conclusions, recommendations and follow-up shall be documented on the required state forms.

(8) Consent Forms

(a) In order to access resident files maintained in a facility, the local LTCO must attempt to obtain a signed release from the resident or the resident's legal representative. Signed releases

shall be maintained in the case file and a copy shall be given to the facility or agency for inclusion in the residents record.

(b) If the local LTCO is unable to obtain written permission, he may get verbal approval from the resident or the resident's legal representative. The date and method of obtaining the verbal approval, e.g. phone contact with guardian, shall be documented in the case file. LTCO shall attempt to have a third-party witness the verbal consent and document it in the record.

(c) If a request for written or verbal consent is denied by the resident or their legal representative, the local LTCO shall not access the records.

(d) If the request for written or verbal consent is unsuccessful for any reason other than specific denial by the resident or legal representative, the local LTCO may proceed to access the records. The reasons for not obtaining consent shall be documented in the case file.

(9) Access to LTCO Records

(a) Records maintained by the local LTCO shall be available to the LTCO, their supervisor, the LTCO Program Director, the State LTCO, and any duly authorized agent of the AAA or the Division with program oversight responsibility. No other staff shall have access to these records.

(b) Residents have the right to read their LTCO records; however, the name of any complainants shall be withheld.

(c) LTCO records shall be released to other persons if the resident provides written consent. The consent form must be filed in the resident's file.

(d) State and federal auditors may have access to LTCO records as required for administration of the program.

(d) Statistical information and other data regarding the LTCO program which does not identify specific residents or complainants is available for public dissemination.

(10) Reporting Requirements to State LTCO

Local LTCO programs shall report to the State LTCO on the operation of the LTCO program. Reports shall include the data required to complete the State's report to the U.S. Department of Health and Human Services, Administration on Aging. Reports shall be submitted within time frames and in a format which shall be mutually agreed upon by the Division and AAAs.

(11) Legal Issues

(a) Legal representation: The Division is responsible for assuring that adequate legal representation is available for local LTCO Programs. AAAs and their governing authorities shall have the option to provide legal representation for their local LTCO Program. If an AAA, through their governing authority, opts not to provide this representation, the Division shall arrange for the representation through the attorney general or through contract. All AAA requests for legal consultation or representation shall be directed to the State LTCO for action. The Division is responsible to assure that no conflict of interest is present in the provision of legal representation to local LTCO Programs.

(b) Liability: The local LTCO must operate within the scope of the ombudsman job description and this policy. Actions such as transporting a client, acting as a guardian or payee, signing consent forms for survey, medication, restraints, etc., signing medical directives, receiving a client power of attorney, and similar actions are outside the scope of the LTCO responsibilities. In doubtful situations the ombudsman should consult with supervisors, legal counsel or the State LTCO.

(c) Guardianship: If a resident has a legal guardian, the local LTCO must work with the guardian. If the local LTCO identifies problems in the guardianship, they will discuss the situation with the local adult protective services staff to determine the advisability of investigating for abuse, neglect, or exploitation. They may also consult legal counsel or present issues to the court which oversees the guardianship.

## (12) Volunteers

Local LTCO programs which use volunteers shall follow AAA policy with respect to applications, screening and approval, reference checks, personnel records, reimbursement, supervision, liability and all other relevant aspects of the volunteer program. In addition, volunteers must meet specific training and certification requirements contained in these rules if they are serving in the capacity of local ombudsman or assistant ombudsman.

## (13) Public Education

In addition to receiving and investigating complaints, local LTCO Programs are mandated by federal and state statute to provide public education regarding long-term care issues. This may include activities such as frequent presence in facilities, community advocacy, attendance at family or resident councils, technical assistance and in service to long-term care facilities, community organizations, and public information presentations.

**R510-200-9. Determination of the Responsible Agency for Investigating Particular Cases in Long-Term Care Facilities.**

A. Pursuant to Utah Code Section 62A-3-106.5, to avoid duplication in responding to a report of alleged abuse, neglect, or financial exploitation in a long-term care facility, the Division hereby establishes procedures to determine whether Adult Protective Services or the Long-Term Care Ombudsman Program will be responsible to investigate or provide services in a particular case and determine whether, and under what circumstances, the agency that is not the responsible agency will provide assistance to the responsible agency in a particular case.

B. The Long-Term Care Ombudsman Program will be the responsible agency in responding to a report of alleged abuse, neglect, or exploitation of an elderly adult who resides in a long-term care facility in the following cases:

(1) When an allegation of abuse, neglect or exploitation occurs, the Long-Term Care Ombudsman will be the responsible agency in cases other than cases that allege sexual abuse or sexual exploitation;

(2) When an elderly resident of a long-term care facility has allegedly abused, neglected, or financially exploited another resident;

(3) When an employee of a long-term care facility has allegedly abused, neglected, or financially exploited an elderly resident and the facility has terminated the employee;

(4) When the police or local law enforcement have initiated an investigation of alleged abuse, neglect, or financial exploitation.

C. Adult Protective Services will be the responsible agency in responding to a report of alleged abuse, neglect, or exploitation of a vulnerable adult who resides in a long-term care facility in the following cases:

(1) When an allegation of sexual abuse or sexual exploitation of a vulnerable adult is received.

D. The agency that is not the responsible agency will provide assistance to the responsible agency in the following circumstances:

(1) When the responsible agency requests the assistance of the non-responsible agency; or

(2) When the responsible agency is the LTCO and there is evidence that the resident's protective need has not been met.

1. If the child is within one year of emancipation, the Office of Recovery Services/Child Support Services (ORS/CSS) shall not be required to review the award for potential adjustment.

2. If the location of either parent is unknown, ORS/CSS shall not be required to review the support award for possible adjustment until both parents are located.

3. ORS/CSS shall pursue the setting of statutory child support guideline amounts in review and adjustment proceedings, based on the current and prospective incomes of the parties. If either parent is incarcerated, ORS/CSS shall not be required to review and pursue adjustment of a support award.

4. ORS/CSS shall pursue adjustment of a court order only for child support or medical support provisions. ORS/CSS shall not pursue modification of a court order for custody, visitation, property division or other non-child support related provisions.

5. If the parent requesting the review does not provide the necessary information for ORS/CSS to conduct the review, ORS/CSS shall send notice to the address on record for the requesting and non-requesting parents that the review process will be terminated unless the non-requesting parent requests that the review process continue.

6. If the review process is terminated, ORS/CSS shall not be required to review the order for a period of one year.

**R590. Insurance, Administration.****R590-91. Credit Life Insurance and Credit Accident and Health Insurance.****R590-91-1. Purpose and Authority.**

The purpose of this rule is to protect the interests of debtors and the public in this State and to ensure a fair and equitable credit insurance market by establishing a system of reasonable rating, policy form, and operating standards for the transaction of credit life insurance and credit accident and health insurance. This rule is promulgated pursuant to Section 31A-2-201.

**R590-91-2. Definitions.**

As used in this rule:

A. "Credit Accident and Health Insurance" means insurance as defined in Section 31A-22-802.

B. "Credit Insurance" means both credit life insurance and credit accident and health insurance.

C. "Credit Life Insurance" means insurance as defined in Section 31A-22-802.

D. "Indebtedness" means indebtedness as defined in Section 31A-22-802.

E. "Net Indebtedness" means net indebtedness as defined in Section 31A-22-802.

F. "Net Written Premium" means premium as defined in Section 31A-22-802.

G. "Open-End Credit" means credit extended by a creditor under an agreement in which the creditor reasonably contemplates repeated transactions; the creditor imposes a finance charge from time to time on an outstanding unpaid balance; and the amount of credit available to the debtor is self-replenishing as the debtor repays amounts previously drawn.

**R590-91-3. Rights and Treatment of Debtors.**

A. Multiple Plans of Insurance. If a creditor makes available to the debtor more than one plan of credit life insurance or more than one plan of credit accident and health insurance, the debtor must be informed of the plans applicable to the specific loan transaction.

B. Substitution. If a creditor requires insurance the debtor shall be given the option of furnishing the required amount of insurance through existing policies of insurance owned or controlled by the debtor or procuring and furnishing the required coverage through any insurer authorized to transact insurance business in this State. If this subsection is applicable, the debtor shall be informed by the creditor of the right to provide alternative coverage before the transaction is completed.

C. Evidence of Coverage.

(1) All credit insurance shall be evidenced by an individual policy, or, in the case of group insurance, by a certificate of insurance.

(a) The individual policy or certificate of insurance shall be delivered to the debtor in accordance with Section 31A-22-806(3) and 70C-6-104. The insurer shall promptly notify the debtor of any delay in providing the insurance.

(b) If the named insurer does not accept the risk, the insurer, if any, shall notify the debtor of the failure to provide the insurance. A substituted insurer, if any, shall deliver the policy or certificate in accordance with Section 31A-22-806(5).

(c) Subsequent certificates are not needed on open-end credit arrangements after the initial indebtedness.

(2) Each individual policy or certificate of insurance shall provide the information required by Section 31A-22-806.

(3) Each policy application must provide the information required by Section 31A-22-806(4)(b) and identify the agent, if any.

D. Claims Processing. All credit insurance claims shall be processed in accordance with Section 31A-26-302.

E. Termination of Group Credit Insurance Policy.

(1) If a debtor is covered by a group credit insurance

policy providing for the payment of single premiums to the insurer, then provisions shall be made by the insurer that in the event of termination of the policy for any reason, insurance coverage with respect to any debtor insured under the policy shall be continued for the entire period for which the single premium has been paid.

(2) If a debtor is covered by a group credit insurance policy providing for the payment of premiums to the insurer on a monthly outstanding balance basis, then the policy shall provide that, in the event of termination of such policy, for whatever reason, termination notice shall be given to the insured debtor at least 30 days prior to the effective date of termination, except where replacement of the coverage by the same or another insurer in the same or greater amount takes place without lapse of coverage. The notice required in this paragraph shall be given by the insurer or, at the option of the insurer, by the creditor.

F. Interest on Premium. If the creditor adds identifiable insurance charges or premiums for credit insurance to the indebtedness, and any direct or indirect finance, carrying, credit, or service charge is made to the debtor on the insurance charges or premiums, the creditor must remit and the insurer shall collect the premium within 60 days after it is added to the indebtedness.

G. Renewal or Refinancing of Indebtedness. If the indebtedness is discharged due to renewal or refinancing prior to the scheduled maturity date, the insurance in force shall be terminated before any new insurance may be issued in connection with the renewed or refinanced indebtedness. In all cases of termination prior to scheduled maturity, a refund shall be paid or credited promptly to the debtor as provided in Section 8.

H. Maximum Aggregate Provisions. A provision in an individual policy or certificate that sets a maximum limit on total payments must apply only to that individual policy or certificate.

I. Voluntary Prepayment of Indebtedness. If a debtor prepays his indebtedness other than as a result of his death or through a lump sum accident and health payment:

(1) Any credit life insurance covering indebtedness shall be terminated and an appropriate refund of the credit life insurance premium shall be paid to the debtor in accordance with Section 8; and

(2) Any credit accident and health insurance covering indebtedness shall be terminated and an appropriate refund of the credit accident and health insurance premium shall be paid to the debtor in accordance with Section 8. If a claim under this coverage is in progress at the time of prepayment, the amount of refund may be determined as if the prepayment did not occur until the payment of benefits terminates. No refund need be paid during any period of disability for which credit disability benefits are payable. A refund shall be computed as if prepayment occurred at the end of the disability period.

J. Involuntary Prepayment of Indebtedness. If an indebtedness is prepaid by the proceeds of a credit life insurance policy covering the debtor or by a lump sum payment of a disability claim under a credit insurance policy covering the debtor, then it shall be the responsibility of the insurer to see that the following are paid to the insured debtor if living or to the beneficiary, other than the creditor, named by the debtor or to the debtor's estate:

(1) In the case of prepayment by the proceeds of a credit life insurance policy, or by the proceeds of a lump sum total and permanent disability benefit under credit life coverage, an appropriate refund of the credit accident and health insurance premium in accordance with Section 8;

(2) In the case of prepayment by a lump sum disability claim, an appropriate refund of the credit life insurance premium in accordance with Section 8;

(3) In either case, the amount of the benefits in excess of the amount required to repay the indebtedness after crediting any unearned interest or finance charges.

K. Amounts to be Insured:

(1) Credit life insurance benefits shall be consistent with the premium charge.

The initial amount of credit life insurance may not exceed the total amount payable under the contract of indebtedness. Credit life insurance may provide benefits in amounts which do not exceed, but may be less than, the scheduled amount of indebtedness, including unearned interest or finance charges, or the actual amount of unpaid indebtedness, whichever is greater. Credit life insurance on preauthorized lines of credit not exceeding the commitment period may be written for the preauthorized amount on a nondecreasing or level term plan. The death benefit amount shall be that amount for which premiums are paid. Whenever the amount of insurance exceeds the unpaid indebtedness, that excess is payable to a beneficiary, other than the creditor, named by the debtor or to the debtor's estate.

(2) The total amount of indemnity payable by credit accident and health insurance in the event of disability, as defined in the policy, may not exceed, but may be less than the aggregate of the periodic scheduled unpaid installments of the indebtedness. The amount of each periodic indemnity payment may not exceed the total amount payable under the contract of indebtedness divided by the number of periodic installments.

L. Dividends on participating individual policies of credit insurance shall be payable to the individual insureds.

**R590-91-4. Policy Forms, Filing and Reserves.**

A. Permissible Forms. Credit life insurance and credit accident and health insurance shall be issued only in the forms defined in Section 31A-22-803.

B. Filing Requirements.

(1) All policy forms, certificates of insurance, notices of proposed insurance, applications for insurance, endorsements and riders to be delivered or issued for delivery in this State shall be filed with the commissioner as required by Sections 31A-21-201, 31A-22-807, 31A-22-808, and 31A-19a-207.

(2) An actuarial memorandum, signed and dated, must be included in each rate and form filing. The memorandum must identify the following:

(a) types of coverage: gross, net, decreasing, level, single life, joint life, full term or truncated;

(b) types of loans to be insured: open-end, closed end;

(c) durations of the loans and durations of the coverage.

Refer to Section 31A-22-801(2)(a);

(d) methods of premium charge: single premium or monthly outstanding balance;

(e) schedules of premium rates and formulas for each type of coverage;

(f) methods of refund calculation and formulas for each type of coverage; and

(g) reserve bases.

All filings are subject to the general filing requirements of the Utah Filing of Life and Disability Forms and Rates Rule R590-86. The commissioner may disapprove a form if the benefits provided are not reasonable in relation to the premium charged.

C. The minimum reserve basis for credit life insurance shall be the 1980 Commissioner's Standard Ordinary Table (1980 CSO) with interest at 5-1/2% per annum.

D. The minimum reserve basis for active lives on credit accident and health insurance shall be the amount of the premium refund available to the insured.

E. The minimum reserve basis for disabled lives on credit accident and health insurance shall be the 1987 Commissioner's Group Disability Table (1987 CGDT) with interest at 5-1/2%

per annum.

**R590-91-5. Reasonableness of Benefits in Relation to Premium.**

A. General Standard. Under Section 31A-22-807, benefits provided by credit insurance policies must be reasonable in relation to the premium charged. This requirement is deemed to be satisfied if the premium rate charged develops or may be reasonably expected to develop a loss ratio of not less than 50% for credit life insurance and not less than 55% for credit accident and health insurance.

B. Nonstandard Coverage. If any insurer files for approval of any form providing coverage different from that described in Sections 6 and 7, the insurer shall demonstrate to the satisfaction of the commissioner that the premium rates to be charged for the coverage will develop or may be reasonably expected to develop a loss ratio not less than that contemplated for standard coverage at the premium rates described in these sections.

C. Coverage Without Separate Charge. If no specific charge is made to the debtor for credit insurance, the standards of Subsection A above and the deviation standards of Section 11 are not required to be used. For purposes of this subsection, it will be considered that the debtor is charged a specific amount for insurance if an identifiable charge for insurance is disclosed in the credit or other instrument furnished the debtor which sets out the financial elements of the credit transactions, or if there is a differential in finance, interest, service or other similar charge made to debtors who are in like circumstances, except for their insured or noninsured status. Any such charge which exceeds the premium rate standards set out in Sections 6 and 7 as adjusted pursuant to Section 9 must be filed with the commissioner.

**R590-91-6. Credit Life Insurance Prima Facie Rates.**

A. Premium Rate. Credit life insurance prima facie premium rates for the insured portion of an indebtedness payable in equal monthly installments, where the insured portion of the indebtedness decreases uniformly by the amount of the monthly installment paid, shall be as set forth in paragraphs (1) and (2). Paragraphs (3), (4), and (5) refer to prima facie premium rates for other types of benefits either alone or in combination with the type of benefits applicable to (1) and (2).

(1) Outstanding balance: \$0.65 per month per \$1,000 of outstanding insured indebtedness if premiums are payable on a monthly outstanding balance basis;

(2) Single Premium Decreasing Term: If premiums are payable on a single premium basis, the following formula shall be used to develop single premium rates from the outstanding balance rate:

$Sp = (N + 1)/20 (Op)$  where  $Sp$  is the single term premium per \$100 of initial insured indebtedness,  $N$  is the credit term in months, and  $Op$  is the monthly outstanding balance rate per \$1,000 of outstanding insured indebtedness.

(3) Single Premium - Level Term: If premiums are payable on a single premium basis when the benefit provided is level term, the following formula shall be used to develop single premium rates from the outstanding balance rate:

$Sp = N/10 (Op)$  where  $Sp$  is the single term premium per \$100 of initial insured indebtedness,  $N$  is the credit term in months, and  $Op$  is the monthly outstanding balance rate per \$1,000 of outstanding insured indebtedness.

(4) Joint coverage rate on basis (1), (2), or (3) of Subsection A may be no greater than one hundred and seventy percent (170%) of the specific rate for that type of coverage.

(5) A combination of the appropriate rate for level term and the appropriate rate for decreasing term, with equal decrements, shall be used, if coverage provided is a combination

of level term and decreasing term, with equal decrements.

(6) If the benefits provided are other than those described in Subsection A above, rates for these benefits shall be actuarially consistent with the rates provided in Paragraphs (1), (2), and (3).

B. The premium rates in Subsection A shall apply to all policies providing credit life insurance, to be issued either with or without evidence of insurability, to be offered to all eligible debtors, and containing:

(1) No exclusions other than suicide within one year of the incurred indebtedness;

(2) Either no age restrictions or age restrictions making ineligible for coverage debtors 65 or over at the time the indebtedness is incurred or debtors having attained age 66 or over on the maturity date of the indebtedness; and

(3) Insurance written in connection with an open-end credit plan may exclude from the classes eligible for insurance classes of debtors determined by age, and provide for the cessation of insurance or reduction in the amount of insurance upon attainment of not less than age 65.

(4) On insurance written in connection with open-end credit plans where the amount of insurance is based on or limited to the outstanding unpaid balance, no provision excluding or denying a claim for death resulting from a preexisting condition except for those conditions for which the insured debtor received medical diagnosis or treatment within six months preceding the effective date of coverage and which caused or substantially contributed to the death of the insured debtor within six months following the effective date of coverage. The effective date of coverage for each part of the insurance attributable to a subsequent advance or increase to the outstanding balance is the date on which the advance or increase is posted to the plan account. Such preexisting condition exclusion shall apply to the initial indebtedness and all subsequent advances on an individual basis, only where evidence of individual insurability has not been required.

#### **R590-91-7. Credit Accident and Health Insurance Prima Facie Rates.**

A. Premium Rate. Credit accident and health insurance prima facie premium rates for the insured portion of an indebtedness repayable in equal monthly installments, where the insured portion of the indebtedness decreases uniformly by the amount of the monthly installment paid, shall be as set forth in paragraphs (1) and (2). Paragraphs (3), (4), (5), and (7) refer to prima facie premium rates for other types of benefits either alone or in combination with the type of benefits applicable to (1) and (2).

(1) If premiums are payable on a single-premium basis for the duration of the coverage, the premiums shall be as indicated on the attached chart which is available from the Insurance Department.

(2) If premiums are paid on the basis of a premium rate per month per thousand of outstanding insured indebtedness, these premiums shall be computed according to the following formula, or according to a formula approved by the commissioner which produces rates actuarially equivalent to the single premium rates in Table I:

$$OP_n = 20/n+1 \text{ (SP}_n\text{)}$$

where SP<sub>n</sub> = Single Premium Rate per \$100 of initial insured indebtedness repayable in n equal monthly installments;  
OP<sub>n</sub> = Monthly Outstanding Balance Premium Rate per \$1,000;

n = Original payment period, in months.

(3) The actuarial equivalent of paragraphs (1) and (2) shall be used if the coverage provided is a constant maximum indemnity for a given period of time.

(4) An appropriate combination of the premium rate for a constant maximum indemnity for a given period of time and the

premium rate for a maximum indemnity which decreases in equal amounts per month shall be used if the coverage provided is a combination of a constant maximum indemnity for a given period of time after which the maximum indemnity begins to decrease in equal amounts per month.

(5) If the benefits provided are other than those described above, rates for the benefits shall be actuarially consistent with rates provided in Paragraphs (1), (2), (3), and (4).

(6) The outstanding balance rate for credit accident and health insurance may be either a term specified rate or may be a single composite term outstanding balance rate applicable to all loans made under an open-end credit plan.

(7)(a) For an open-end credit plan, the monthly rate per \$1,000 of outstanding principal balance shall be the rate calculated using the formula in paragraph (2) where n is the number of monthly indemnity payments required to completely extinguish the debt. The rate shall be further reduced to appropriately account for critical period if applicable.

(b) The critical period factors shall be filed with the department and shall not exceed the factors based on the 1968 Credit A and H Two Composite Tables published by the NAIC (Proceedings - 1968 Vol. II).

B. The premium rates in Subsection A shall apply to all policies providing credit accident and health insurance, to be issued with or without evidence of insurability, to be offered to all eligible debtors, and containing:

(1) No provision excluding or denying a claim for disability resulting from preexisting conditions except for those conditions for which the insured debtor received medical advice, diagnosis, or treatment within six months preceding the effective date of the debtor's coverage and which caused loss within the six months following the effective date of coverage.

(2) No other provision which excludes or restricts liability in the event of disability caused in a specified manner except that it may contain provisions excluding or restricting coverage in the event of normal pregnancy and intentionally self-inflicted injuries.

(3) No actively at work test may require that the debtor be employed more than 30 hours per week.

(4) No age restrictions or only age restrictions making ineligible for coverage debtors 65 or over at the time the indebtedness is incurred or debtors who will have attained age 66 or over on the maturity date of the indebtedness.

(5) A daily benefit equal in amount to one-thirtieth of the monthly benefit payable under the policy for the indebtedness.

(6) A definition of disability, which is no more restrictive than one requiring that during the first 12 months of disability the insured shall be unable to perform the principal duties of his occupation at the time the disability occurred, and thereafter unable to perform the principal duties of any occupation for which the insured is reasonably fitted by education, training, or experience. This paragraph may not apply to lump sum disability coverage.

(7) Insurance written in connection with an open-end credit plan may exclude from the classes eligible for insurance classes of debtors determined by age, and provide for the cessation of insurance or reduction in the amount of insurance upon attainment of not less than age 65.

#### **R590-91-8. Refund Formulas.**

A. Refund formulas which any insurer desires to use must be filed with and approved by the commissioner prior to use. Refund formulas used must develop refunds which are at least as favorable to the debtor as the following methods which are deemed the minimum requirements for the plans described.

(1) Pro Rata Method. The pro rata unearned gross premium method shall be deemed to produce the minimum refund amount to be used for level term credit insurance, and for credit insurance coverages under which premiums are collected

from the debtor on a basis other than the single premium basis.

Refund =  $t/n$  (original gross single premium) where  $t$  = the number of remaining months;

$n$  = the original loan term in months.

(2) Rule of 78 method. The Rule of 78 or sum of the digits unearned premium method shall be deemed to produce the minimum refund amount to be used for insurance coverage which reduces in equal amounts per month and for which the premiums are collected on a single premium basis.

Refund =  $(t(t+1)/n(n+1))$  (original gross single premium) where  $t$  = the number of remaining months;  $n$  = the original loan term in months.

(3) Combination Methods. An appropriate combination of the pro rata method and the Rule of 78 method or, at the option of the insurer, the pro rata method shall be used for credit life insurance provided as a combination of level and decreasing term coverage and for credit accident and health insurance wherein the insured is covered for a constant maximum indemnity for a given period of time, after which the maximum indemnity begins to decrease in equal amounts per month.

B. For net indebtedness insurance and for other types of insurance and other modes of premium payment, each insurer shall file for approval and include in the policy appropriate formulas and/or factors for refunds, or reference to such formulas and factors that are on file with the commissioner. For net indebtedness, either the actuarial method also known as the U.S. Rule or pure premium method, or an arithmetic average of refunds due under Pro-Rata and Rule of 78 Methods will be acceptable.

C. In the event of termination, no charge for credit insurance may be made for the first 15 days of a loan month and a full month may be charged for 16 days or more of a loan month, unless refunds are made on a pro rata basis for each day within the loan month.

D. If the total of all refunds due a debtor (or joint debtors) is less than \$5.00, no refund need be made.

#### **R590-91-9. Experience Reports and Adjustment of Prima Facie Rates.**

A. Each insurer doing Credit Insurance business in this state shall annually file with the commissioner and the NAIC Support and Services Office a report of credit life insurance and credit accident and health business written on a calendar year basis. Each insurer shall utilize the Credit Insurance Experience Exhibit as approved by the National Association of Insurance Commissioners. The report shall contain data separately for this state. The filing shall be made in accordance with and no later than the due date in the Instructions to the Annual Statement.

B. Whenever he deems necessary the commissioner will publish by order, after a hearing, Prima Facie Rates before September 1. The new prima facie rates shall be effective January 1 of the following year.

#### **R590-91-10. Rating Standards - Filing Requirements.**

A. Requirement to File the Four Year Loss Ratio Test.

(1) Insurers with more than \$250,000 of credit insurance premium earned in Utah in the most recent four year period shall annually file an experience report to determine whether benefits are reasonable in relation to premiums based on the loss ratio test in Section 31A-22-807(4). The loss ratio shall be calculated at the rates actually used in each year. The insurer may also file an adjusted loss ratio report that adjusts premium to the most recent premium rates. The Four Year Loss Ratio Report is due one month after the due date of the experience exhibit required by Section 9.

(2) Insurers whose loss ratios are less than the minimum loss ratio by ten percentage points or more shall file a rating and benefits plan that meets the requirements of Subsection B. Insurers who would be required to decrease rates by more than

10% may phase in decreases in annual 10% increments.

B. Filing Standards.

(1) Insurers filing for a rate deviation, including those required to file under Subsection 1 above, shall submit an actuarial memorandum that shows that the premium rate does not exceed the sum of:

(a) 50% of the prima facie rate or its actuarial equivalent; and

(b) the expected losses.

(2) The calculation of expected losses shall take into account the following:

(a) the actual loss experience to the extent credible;

(b) the degree of underwriting used in marketing the product; and

(c) the relative mortality and morbidity of Utah experience when using national experience or actuarial tables.

#### **R590-91-11. Rating Procedures - Direct Business Only.**

A. Use of Rates Higher Than Prima Facie Rates.

An insurer may file for approval and use rates that are higher than prima facie rates if it can be expected that the use of those higher rates will produce a minimum loss ratio that is required by Section 31A-22-807.

B. Use of Rates Lower Than Filed Rates.

An insurer may use a rate that is lower than its filed rate without notice to the commissioner.

#### **R590-91-12. Disclosure to Debtor.**

A. When a premium or identifiable charge is payable by a debtor for credit insurance coverage, certain information must be disclosed to the debtor at the time the debtor applies for the insurance. The disclosures shall be made to the principal debtor and copies given to the debtor and retained in accordance with State and Federal law. These disclosures shall be made prominently and in close proximity to the space for the signature indicating the election to obtain the coverage. These disclosures may be made in conjunction with the Federal Truth-in-Lending disclosure, a Notice of Proposed Insurance, the application for insurance, or in the individual insurance policy or certificate. The following items must be included in the disclosure:

(1) the optional nature of the coverage;

(2) the premium or identifiable charge separately listed by type of coverage;

(3) eligibility requirements including health restrictions and at work requirements; and

(4) any age restrictions in regard to eligibility for insurance coverage at the time the indebtedness is incurred or in regard to cessation of coverage due to attainment of age.

B. If at any time during the term of the loan, the insurance is insufficient to pay off the scheduled outstanding balance of the loan, this fact must be clearly and prominently disclosed to the prospective insured on the policy or certificate.

C. All credit insurance policies and certificates shall clearly describe the amount of the benefit and the term of coverage. Whenever the amount of credit life insurance exceeds the unpaid indebtedness, such fact shall be clearly disclosed in the policy or group certificate; and such excess shall be payable to a beneficiary, other than the creditor, named by the debtor or to the debtor's estate.

D. If any policy or certificate has a preexisting condition exclusion, such exclusion shall be clearly and prominently disclosed.

#### **R590-91-13. Unfair Marketing Practices.**

The commissioner finds that violations of this rule when engaged in by licensees of the department in connection with the sale or placement of credit insurance, or as an inducement, are misleading, deceptive, or unfairly induce the purchase of credit insurance and constitute unfair methods of competition

and shall be in violation of Unfair marketing practices under Section 31A-23-302.

**R590-91-14. Severability.**

If any provision of this rule or its application to any person or circumstance is for any reason held to be invalid, the remainder of the rule and the application of the provision to other persons or circumstances may not be affected.

This rule is promulgated and adopted pursuant to Subsections 31A-2-201(3), 31A-29-106(1)(f), and 31A-30-104(7).

**R590-236-2. Purpose and Scope.**

(1) The purpose of this rule is to provide interpretation of the interplay between federal and state statutes that affect the protections provided by the federal Health Insurance Portability and Accountability Act (HIPAA), Pub.L. 104-191, 110 Stat. 1962, to applicants that apply for coverage with HIPUtah and receive a certificate of insurability from HIPUtah, or denial of coverage by an individual carrier.

(2) The rule addresses the effective dates of coverage for HIPAA eligible applicants applying for coverage with an individual carrier or HIPUtah.

(3) The rule provides guidance for actual and potential interplay between HIPAA, Sections 31A-22-605.1, 31A-30-108, and 31A-29-111 to:

- (i) individual carriers,
- (ii) the HIPUtah pool administrator; and
- (iii) HIPUtah applicants.

**R590-236-3. Definitions.**

As used in this rule:

(1) "Certificate of insurability" means a certificate issued by HIPUtah pursuant to Subsection 31A-29-111.

(2) "HIPAA" means the federal Health Insurance Portability and Accountability Act, Pub.L. 104-191, 110 Stat. 1962.

(3) "HIPAA eligible" means an applicant who is eligible for coverage under the provisions of the Health Insurance Portability and Accountability Act of 1996, Pub. L. 104-191, 110 Stat. 1962.

(4) "HIPAA eligibility" means the eligibility required by the federal Health Insurance Portability and Accountability Act, Pub. L. 104-191, 110 Stat. 1962.

(5) "HIPUtah" means the Utah Comprehensive Health Insurance Pool established by Section 31A-29-104.

(6) "Individual carrier" has the same meaning as defined in Subsection 31A-30-103.

(7) "Preexisting condition" means preexisting condition as defined in Subsection 31A-1-301.

(8) "Waiting period" means the period of time beginning on the date the HIPAA eligible submits a substantially complete application for coverage and ends on the date:

- (a) coverage is effective;
- (b) the application is denied by the insurer; or
- (c) which the offer of coverage lapses without being accepted by the HIPAA eligible.

**R590-236-4. HIPAA and Subsection 31A-22-605.1, Eligibility and Creditable Coverage.**

(1) A HIPAA eligible must submit a substantially complete application no later than 63 consecutive days, excluding waiting periods, following termination of any preceding HIPAA qualified coverage, to preserve HIPAA rights.

(2) A HIPAA eligible cannot have a break in qualifying coverage of 63 or more consecutive days, except for applicable waiting periods to preserve HIPAA rights.

(3) HIPAA eligibles applying within the time period in R590-236-4(1) will receive creditable coverage toward a preexisting condition waiting period.

(4) A waiting period does not count in determining whether a break in qualifying coverage occurred.

**R590-236-5. HIPAA and Subsection 31A-29-111(4)(a), 30-Day Provision.**

(1) This section applies to a HIPAA eligible that has been denied by an individual carrier and is approved by HIPUtah.

(2) When a HIPAA eligible submits a substantially completed application to an individual carrier within the HIPAA 63-day time period and is denied coverage, to preserve HIPAA rights, the HIPAA eligible must make application to HIPUtah no later than:

(a) the remainder of the 63 consecutive day time period under HIPAA; or

(b) 30 consecutive days after denial by the individual carrier.

(3) Effective Dates.

(a) A HIPAA eligible applying within the time period in R590-236-5(2)(a), shall have an effective date with HIPUtah on the first day of the month following the submission of a substantially completed application, if the required premium is paid.

(b) A HIPAA eligible applying within the time period in R590-236-5(2)(b), shall have an effective date with HIPUtah on the first day of the month following the date of submission of a substantially completed application to the individual carrier who denied coverage immediately prior to the application to HIPUtah, if the required premium is paid.

(c) When a HIPAA eligible applies within both time periods in R590-236-5(2)(a) and (b), the HIPAA eligible shall choose the effective date provided in R590-236-5(3)(a) or (b).

**R590-236-6. HIPAA and Subsection 31A-30-108(3)(e)(i), 30-Day Provision.**

(1) This section applies to a HIPAA eligible who meets HIPUtah's eligibility requirements but does not meet HIPUtah's health underwriting criteria, having been previously denied by an individual carrier, and is issued a certificate of insurability under Section 31A-29-111.

(2)(a) A HIPAA eligible must reapply with the individual carrier who denied coverage immediately prior to HIPUtah's issuance of a certificate of insurability to preserve HIPAA rights, no later than:

(i) the remainder of the 63 consecutive day time period under HIPAA; or

(ii) 30 consecutive days after the date of issuance of a certificate of insurability.

(b) R590-236-6(2)(a) applies only to a HIPAA eligible that has:

(i) submitted a substantially completed application to an individual carrier within the HIPAA 63-day time period;

(ii) is denied coverage; and

(iii) makes application to HIPUtah no later than:

(I) the remainder of the 63 consecutive day time period under HIPAA; or

(II) 30 consecutive days after denial by the individual carrier.

(3) Effective Dates.

(a) A HIPAA eligible applying within the time period in R590-236-6(2)(a)(i), shall have an effective date with the individual carrier on the first day of the month following the submission of a substantially completed application, if the required premium is paid.

(b) A HIPAA eligible applying within the time period in R590-236-6(2)(a)(ii), shall have an effective date with the individual carrier on the first day of the month following the original submission of a substantially completed application to the individual carrier who denied coverage immediately prior to the application to HIPUtah, if the required premium is paid.

(c) When a HIPAA eligible applies within both time periods in R590-236-6(2)(a)(i) and (ii), the HIPAA eligible shall choose the effective date provided in R590-236-6(3)(a) or

(b).

**R590-236-7. HIPAA and Subsection 31A-30-108(3)(e)(ii)(B), 45-Day Provision.**

(1) This section applies to a HIPAA eligible who applies first with HIPUtah, meets HIPUtah's eligibility requirements, but does not meet HIPUtah's health underwriting criteria and is issued a certificate of insurability under Section 31A-29-111.

(2) When a HIPAA eligible submits a substantially completed application to HIPUtah within the HIPAA 63-day time period and is issued a certificate of insurability, to preserve HIPAA rights, the HIPAA eligible must make application to an individual carrier no later than:

(a) the remainder of the 63 consecutive day time period under HIPAA; or

(b) 45 consecutive days after the date of issuance of a certificate of insurability by HIPUtah.

(3) Effective Dates.

(a) A HIPAA eligible qualifying under option R590-236-7(2)(a) shall have an effective date of the first of the month following the submission of the substantially completed application to an individual carrier, if the required premium is paid.

(b) A HIPAA eligible qualifying under R590-236-7(2)(b) shall have an effective date of the day following the submission of the substantially completed application to HIPUtah, if the required premium is paid.

(c) When a HIPAA eligible applies within both time periods in R590-236-7(2)(a) and (b), the HIPAA eligible shall choose the effective date provided in R590-236-7(3)(a) or (b).

**R590-236-8. Severability.**

If any provision of this rule or the application of the rule to any person or circumstance is for any reason held to be invalid, the remainder of the rule and the application of the rule to other persons or circumstances shall not be affected by such a determination.

**R590-236-9. Enforcement Date.**

The commissioner will begin enforcing the provisions of this rule immediately upon the effective date of the rule.

**R608. Labor Commission, Antidiscrimination and Labor, Fair Housing.****R608-1. Utah Fair Housing Rules.****R608-1-1. Authority and Purpose.**

Pursuant to Section 57-21-8(2)(a), the Utah Labor Commission adopts this rule to establish the procedures necessary to implement the Utah Fair Housing Act.

**R608-1-2. Definitions.**

The following definitions are in addition to the definitions set forth in Section 57-21-2 of the Utah Fair Housing Act

A. "Act" means the Utah Fair Housing Act, Chapter 21, Title 57.

B. "Commissioner" means the Commissioner of the Utah Labor Commission.

C. "Complaint" means an allegation of an unlawful housing practice, filed with the Division in compliance with these rules. "Complaint" includes amended or supplemental complaints.

D. "Court" means the district court in the judicial district of the state of Utah in which the asserted unfair housing practice occurred, or if this court is not in session at that time, then any judge of any court.

E. "Unlawful housing practice" means any discriminatory housing practice prohibited by the Act.

**R608-1-3. Reliance on State and Federal Precedent.**

The Division and Commission will consider relevant State and Federal precedent in interpreting and applying the Act.

**R608-1-4. Computation of Time Limits.**

A. A Determination, Order, or Notice required by the Act or this rule is deemed issued on the date on the face of the Determination, Order or Notice.

B. A complaint, response, request for reconsideration, or election is considered to be "filed" on the date it is received by the Division or Commission, whether by mail or by personal delivery. Each such document shall be date stamped by Division staff on the date of receipt.

C. In computing any period of time prescribed or allowed by these rules or by applicable statute:

1. The day of the act, event, finding, or default, or the date an Order is issued, shall not be included;

2. The last day of the period so computed shall be included, unless it is a Saturday, a Sunday, or a state legal holiday, in which event the period runs until the end of the next working day;

3. When the period of time prescribed is less than seven days, intermediate Saturdays, Sundays, and state legal holidays shall be excluded in the computation;

4. No additional time for mailing will be allowed.

**R608-1-5. Designation of Proceedings as Informal-Exception.**

A. All proceedings pursuant to the Act and this rule are hereby designated as informal adjudicatory proceedings for purposes of the Utah Administrative Procedures Act, Title 63, Chapter 46b, except that proceedings before the Commission's Adjudication Division for de novo review of the Director's Determination and Order are formal proceedings.

B. Court proceedings are subject to the court's rules of procedure.

**R608-1-6. Complaints-Filing-Time Limits-Amendment and Withdrawal.**

A. Any person aggrieved by an unlawful housing practice may file a complaint with the Division.

1. The complaint must be in the form designated by the Division and verified by the complainant.

2. The complaint shall contain the complainant's concise statement setting forth, to the extent reasonably possible, the following information:

a. The specific basis for complainant's belief that an unlawful housing practice has occurred, with relevant dates, places and the names of any individual participating in the alleged unlawful housing practice;

b. The specific basis for the complainant's belief that the alleged conduct is subject to the Act; and the dates and places of such unlawful housing practices;

c. The specific damages the complainant believes he or she has suffered as a result of the unlawful housing practice.

B. Division staff shall be available during normal business hours to provide reasonable assistance to complainants in completing and filing complaints.

C. Pursuant to Section 57-21-9(1), the complaint must be filed with the Division within 180 days after the alleged unlawful housing practice occurred.

D. The Director shall permit a complaint to be reasonably and fairly amended or supplemented, either by the Division or by the complainant, in order to accomplish the purpose of the Act. Such amendment or supplement may include additional respondents identified in the investigation as persons engaged in the unlawful housing practice on which the complaint is based. Procedures for filing and processing an amended or supplemental complaint shall be the same as for filing an original complaint.

E. With the Director's approval, a complainant may withdraw a complaint at any time by submitting a signed request for withdrawal to the Division.

**R608-1-7. Notice Requirements.**

A. Within ten days of the filing of a complaint, the Division shall provide notice by registered mail to the complainant, including:

1. The date the complaint was filed with the Division;
2. A copy of the complaint;
3. The time limits applicable to the complaint and investigation process;
4. A statement of the complainant's rights and obligations under the Act;

5. A statement of the complainant's right to commence a private civil action in state or federal court, with a statement of applicable time limits for commencing such action;

6. A statement advising the complainant that retaliation against any person, or individual associated with that person, who is filing, testifying, assisting, or participating in an investigation, conciliation or administrative proceeding, is a discriminatory housing practice prohibited by the Act; and

7. A statement, if applicable, that the terms of any rental agreement remain in effect.

B. Within ten days of the filing of a complaint, the Division shall provide notice by registered mail to the respondent, which notice shall include:

1. Identification of the alleged unlawful housing practice on which the complaint is based;
2. The date the complaint was filed with the Division;
3. A copy of the complaint;
4. A statement of time limits applicable to the complaint and investigation process;

5. A statement of the respondent's rights and obligations under the Act, including respondent's obligation to submit a response to the complaint, as required by R608-1-8.

6. A statement informing the respondent of the complainant's right to commence a private civil action in state or federal court, with a statement of applicable time limits for commencing such action;

7. A statement advising the respondent that retaliation against any person, or individual associated with that person,

who is filing a complaint, testifying, assisting, or participating in an investigation, conciliation, or administrative proceeding, is a discriminatory housing practice prohibited by the Act.

**R608-1-8. Response to Complaint.**

A. A respondent shall file a signed response to the complaint with the Division within 10 days from the date of the notice required by R608-1-7.B.

B. The response must address each allegation contained in the complaint, including any available and relevant data and information regarding respondent's business practices.

C. Division staff shall be available during normal business hours to provide reasonable assistance to respondents in completing and filing responses.

D. Failure to file a response may result in the Division concluding its investigation based on information provided by the complainant and such other information as is reasonably available to the Division. Alternatively, the Commission may use its subpoena powers to compel production of the information required by this rule.

**R608-1-9. Investigation-Report.**

A. Within 30 days of the filing of a complaint, the Division shall commence proceedings to thoroughly investigate and, if possible, conciliate the complaint.

B. The Division shall complete its investigation within 100 days after filing of a complaint. If the Division is unable to do, it shall notify the parties in writing of the reason for the delay.

C. The Division may, with reasonable notice to the parties, conduct on-site visits, interviews, and fact-finding conferences, and take such other action as is reasonably necessary to investigate the complaint. Pursuant to Section 57-21-8(2)(c) of the Act, the Commission may issue subpoenas to compel production of necessary evidence. Additionally, a party's unjustified failure to cooperate with the Division's reasonable investigative requests may result in the Division concluding its investigation based on such other information as is available to the Division.

D. The Division shall prepare a final investigative report on each complaint, which shall include:

1. A summary of all contacts with complainants and respondents, including the dates of such contacts;
2. A summary of contacts with witnesses, including the dates of contact; and
3. A summary of pertinent records.

**R608-1-10. Determination.**

A. On completion of the investigation, the Director shall review the investigative report and determine whether reasonable cause exists to believe that an unlawful housing practice has occurred.

B. If the Director finds no reasonable cause to believe that an unlawful housing practice has occurred, the Director shall issue a determination dismissing the complaint. The complainant may then take such other action as described in R608-1-12.

C. If the Director finds reasonable cause to believe that an unlawful housing practice has occurred, the Director shall take such further action as described in Rule R608-1-13.

**R608-1-11. Conciliation.**

A. During the period beginning with the filing of the complaint and ending with the Director's determination, the Division shall, to the extent feasible, engage in conciliation to settle the matter or, in accordance with HUD procedures, enter into an enforcement agreement.

1. Conciliation proceedings are confidential pursuant to Section 57-21-9(7)(a).
2. Any conciliation agreement shall be subject to approval

by the Director.

3. Any party can enforce the signed and approved conciliation agreement in court proceedings.

B. Nothing in these rules prevents complainants and respondents from settling a complaint through their own efforts. However, the Division will not dismiss the complaint until the parties' settlement agreement has been submitted to, and approved by, the Director.

**R608-1-12. Order of Dismissal-Reconsideration-Right to Private Civil Action.**

A. If the Director finds no reasonable cause to believe that an unlawful housing practice has occurred, or is about to occur, the Director shall issue a Determination and Order dismissing the Complaint.

B. The complainant may ask the Director to reconsider such order of dismissal by complying with the requirements of Section 63-46b-13 of the Utah Administrative Procedures Act.

C. The Director shall issue a decision either granting or denying the request for reconsideration.

1. If the Director grants reconsideration, the Director shall reopen the investigation, amend the Director's prior Determination and Order, or take such other necessary action.

2. If the Director denies reconsideration, the Director's Determination and Order is not subject to any additional agency or judicial review. However, the complainant may commence a private civil action pursuant to Section 57-21-12(1).

**R608-1-13. Order Finding Unlawful Housing Practice-Appeal-Choice of Forum.**

A. If the Director concludes that an unlawful housing practice has occurred, the Division shall informally attempt to eliminate or correct the unlawful housing practice by conducting a conciliation conference pursuant to R608-1-11.

B. If conciliation is unsuccessful, the Director shall issue a determination ordering appropriate relief as authorized by Section 57-21-11. The Director's determination shall be made public unless the Director determines that the matter involves a privacy interest entitled to protection by law, or that disclosure is not required to further the purposes of the Act.

C. A respondent disagreeing with the Director's determination may obtain de novo review by filing a written request for review with the Director within 30 days from the date the Director's determination.

1. If no timely request for de novo review is filed, the Director's determination is the Commission's final order and not subject to additional agency or judicial review.

2. If a timely request for de novo review is filed, the Director shall:

- a. Notify the parties of such request for review by regular mail at their last known address of record; and
- b. Inform the parties that the review proceeding will be conducted by the Commission's Adjudication Division unless any party elects to have such review conducted in court.

3. Any election for court review must be received by the Director within 20 days of the date of mailing of the Director's notice.

**R608-1-14. Representation of Complainants.**

A. If a respondent has requested de novo review of the Director's Determination, the Commission shall consider whether the Determination is supported by substantial evidence.

B. If the Commission concludes the Determination is supported by substantial evidence, the Commission shall provide legal representation to support the Determination in the de novo review proceeding.

C. If the Commission concludes the Determination is not supported by substantial evidence, the Commission shall not provide legal representation to support the Determination in the

de novo review proceeding.

D. The Commission shall notify the parties of its conclusion regarding the existence or nonexistence of substantial evidence to support the Director's Determination within twenty days from the date the respondent files a request for de novo review.

E. The Commission's conclusion regarding the existence or nonexistence of substantial evidence to support the Director's Determination is not subject to further agency or judicial review.

**R608-1-15. Procedures For De novo Review.**

A. If, in accordance with the provisions of these rules, a de novo review proceeding is to be conducted by the Commission's Adjudication Division, the following standards apply:

1. The Division shall refer the matter to the Adjudication Division, which shall designate an Administrative Law Judge to serve as presiding officer;

2. The proceeding shall be conducted as a formal agency adjudicative proceeding pursuant to the relevant provisions of the Utah Administrative Procedures Act, Chapter 46b, Title 63;

3. Within 30 days from referral, the Administrative Law Judge shall schedule an evidentiary hearing to be held within 120 days of the referral, unless it is impracticable to do so;

4. Any aggrieved party may intervene in the action;

5. The Commission shall make final administrative disposition of the complaint within one year after the complaint is filed unless it is impracticable to do so. If the agency is unable to make a final administrative disposition within one year, the Commission shall notify the parties in writing of the reason for the delay.

B. If, in accordance with the provisions of these rules, a de novo review proceeding is to be conducted in court, the following standards apply:

1. If, pursuant to Rule R608-1-14, the Commission has concluded the Director's Determination is supported by substantial evidence, the Commission shall commence a court action to support the Determination. Such action shall be commenced within 30 days from the date of the election for court review.

2. If, pursuant to Rule R608-1-14, the Commission has concluded the Determination is not supported by substantial evidence, the Commission shall not commence a court action to support the Determination. In such case, the complainant may commence a civil action in a court of competent jurisdiction as provided by the Act.

**R608-1-16. Declaratory Orders.**

A. Purpose. As required by Section 63-46b-21, this rule provides the procedures for submission, review, and disposition of petitions for agency Declaratory Orders on the applicability of statutes, rules, and orders governing or issued by the agency.

B. Petition Form and Filing.

1. The petition shall be addressed and delivered to the Director who shall mark the petition with the date of receipt.

2. The petition shall:

a. be clearly designated as a request for an agency Declaratory Order;

b. clearly identify the statute, rule, or order to be reviewed;

c. describe in detail the situation or circumstances in which applicability is to be reviewed;

d. describe the reason or need for the applicability review, addressing in particular why the review should not be considered frivolous;

e. include an address and telephone number where the petitioner can be contacted during normal business hours;

f. declare whether the petitioner has participated in a completed or on-going adjudicative proceeding concerning the same issue within the past 12 months; and

g. be signed by the petitioner.

C. Review.

1. the agency shall not review a petition for a Declaratory Order that is:

a. not within the jurisdiction and competency of the agency;

b. trivial, irrelevant, or immaterial; or

c. otherwise excluded by state or federal law.

2. The Director shall promptly review and consider the petition and may:

a. meet with the petitioner;

b. consult with counsel or the Attorney General; or

c. take any action consistent with law that the agency deems necessary to provide adequate review and due consideration of the petition.

3. The Director may issue a Declaratory Order pursuant to Section 63-46b-21(6).

D. Administrative Review.

1. Administrative review of the Director's Declaratory Order shall be conducted pursuant to Section 63-46b-13.

This rule is enacted under authority of Section 34-40-105.

**R610-1-2. Definitions.**

The following definitions are in addition to the statutory definitions specified in Section 34-40-102.

A. "Division" means the Division of Antidiscrimination and Labor within the Labor Commission and includes the personnel within the Division responsible for enforcement.

B. "Hours employed" includes all time during which an employee is required to be working, to be on the employer's premises ready to work, to be on duty, to be at a prescribed work place, to attend a meeting or training, and for time utilized during established rest or break periods excluding meal periods of 30 minutes or more where the employee is relieved of all responsibilities.

**R610-1-3. Coverage.**

A. All employers employing workers in the state of Utah, except those exempted by Section 34-40-104, shall pay the established minimum hourly wages of \$4.75 for all hours employed effective October 1, 1996, and of \$5.15 for all hours employed effective September 1, 1997.

B. As per Sections 34-23-301 and 34-40-103, a minor employee shall be paid at least \$4.25 per hour for the first 90 days of employment with an employer; thereafter, he or she shall be paid at least the established minimum hourly wage.

C. Any employer claiming exemption under Subsection 34-40-104(1)(k), shall provide to the Division a statistical report of the average wage paid within 60 days of the end of the regular operating season. The Division may, upon notice, perform an on-site inspection to verify the report in accordance with Sections 34-40-201 and 34-40-203.

**R610-1-4. Tips, Gratuities, and Commissions.**

A. An employer may credit the tips received by tipped employees (an example would be waiters and waitresses) against the employer's minimum wage obligation. The tips must be received by the employee, reported to the employer, and must reach a threshold of at least \$30.00 per month before credit can be allowed.

B. An employer has a cash wage obligation in meeting the required minimum wage of at least \$2.13 per hour. If an employee's tips combined with the employer's cash wage obligation of \$2.13 per hour do not equal the minimum hourly wage requirement, the employer must increase its cash wage obligation to make up the difference.

C. All tips or gratuities shall be retained by the employee receiving the tips or gratuities. However, this requirement does not preclude pooling of tips or gratuities to be divided equally between those employees who customarily and regularly receive tips or gratuities.

1. A bona fide tip pooling or sharing arrangement may include employees who customarily and regularly receive tips, such as waiters, bellhops, waitresses, countermen, busboys, and service bartenders.

2. Employees such as dishwashers, chefs, and janitors are not considered tipped employees and may not participate in tip pooling.

D. Every employer intending to exercise the tip or gratuity credit must so inform each affected employee at the time of hire.

E. Where tips are charged on a credit card, and the employer must pay the credit card company a percentage of the bill for its use, the employer may reduce the amount of the credit card tips paid over to the employee by a percentage no greater

than that charged by the credit card company.

F. In computing the minimum wage, tips, gratuities, and commissions must be counted in the payroll period in which the tip, gratuity or commission is earned.

G. This section does not apply to tips or commissions as delineated in Section 34-40-104(1)(j).

**R610-1-5. Enforcement of Minimum Wage.**

A. The Division may enforce compliance with the state minimum wage in the same manner as outlined in R610-3.

B. When more than one employee is affected by noncompliance of minimum wage requirements, the Division shall treat this alleged infraction of noncompliance as a class action.

C. The Division may commence agency action in accordance with Section 63-46b-3 to investigate and determine compliance or noncompliance.

D. If an employer is found in noncompliance with the state minimum wage requirements, that employer shall be subject to penalties under Section 34-40-204.

E. If the employees determine that a civil action to enforce compliance with state minimum wage is necessary, they may bring an action under Section 34-40-205.

**R610-1-6. Filing Procedure and Commencement of Agency Action.**

For purposes of Section 63-46b-3, commencement of an adjudicative proceeding at the Division to resolve a complaint under minimum wage requirements is accomplished by the complainant filing a complaint form. The complaint form shall act as a request for agency action and the form and accompanying agency cover letter shall together include all information specified in Subsection 63-46b-3(2).

**R610-1-7. Investigation and Enforcement.**

If, upon investigation, the Division concludes that a violation of Sections 34-40-103, 34-40-104, 34-40-201, or 34-40-203 has occurred it may impose a penalty pursuant to Sections 34-40-202 and 34-40-204.

**R610-1-8. Time.**

A. An Order is deemed issued on the date on the face of the Order which is the date the presiding officer signs the Order.

B. In computing any period of time prescribed or allowed by these rules or by applicable statute:

1. The day of the act, event, finding, or default, or the date an Order is issued, shall not be included;

2. The last day of the period so computed shall be included, unless it is a Saturday, a Sunday, or a state legal holiday, in which event the period runs until the end of the next working day;

3. When the period of time prescribed is less than seven days, intermediate Saturdays, Sundays, and state legal holidays shall be excluded in the computation;

4. No additional time for mailing shall be allowed.

**R610-2-3. Employment of Minors - General.**

A. Every employer must allow the opportunity for a meal period of not less than 30 minutes and not later than five hours after the beginning of a minor employee's workday. If, during the meal period, the employee cannot be completely relieved of all duties and permitted to leave the work station or area, the meal period must be paid as time worked.

B. At least a 10 minute paid rest period for each four hours, or fraction thereof, shall be provided for each minor employee; however, no minor employee shall be required to work over three consecutive hours without a 10 minute rest period.

C. In those unusual situations where the specific provisions of subsections A. or B. cannot be met, the Division may decide whether the general intent of the rules has been met to ensure attainment of reasonable safeguards for a minor's health, safety, and education.

**R610-2-4. Employment of Minors Engaged in Door-to-Door Sales, License.**

A. The following shall apply for minors in the age range of 12 through 15 who work for income by engaging in sales of

cookies, candies, magazines, merchandise coupons, and other similar products by door-to-door methods at locations including residential housing areas, shopping centers, and malls:

1. An employer-employee relationship is determined to exist if minors are paid by time, piece, carton, quantity, task, bonus, or any other basis of calculation;

a. employees shall be paid at least the Utah minimum wage in effect at the time the work is performed and shall include all time from the time of pickup to the time the minor is returned to the minor's home, except for that time utilized as a meal period as specified in R610-2-3.A.;

b. minors engaged in door-to-door sales of goods, products, or services are not independent contractors or outside sales personnel for purposes of payment of minimum wage;

2. Minors cannot be transported further than 30 miles from where they reside;

3. Minors so engaged must work in pairs, as a team, on the same or opposite side of the street while selling in residential housing areas;

4. Minors so engaged must be supervised by an adult supervisor for each crew of ten or fewer minors;

5. Minors must be within the sight or sound of the adult supervisor at least once every hour while selling in residential housing areas;

6. Minors must be returned to their respective homes daily after each day's work by 9:30 p.m.;

7. Minors must be allowed an opportunity to use rest room facilities at least once every three hours;

8. Minors must be allowed to partake of food and drink if they work more than three consecutive hours. This benefit cannot be utilized by the employer to coerce minors into making a set number of sales;

9. The driver of the vehicle that transports minor workers must be licensed by the state to transport minors;

10. Businesses must be licensed in accordance with the respective city or county ordinances in which they are employed;

11. Five days prior to conducting business in Utah, every employer employing minors who operates a door-to-door sales business must obtain a license from the Division. A written application for a license shall be filed with the Division and shall include:

a. the company or business name, address, and telephone number;

b. the name, address, and telephone number of the owner, each partner from applicant partnerships, each member of applicant limited liability companies, or the principals, officers, and directors of applicant corporations;

c. the business or occupation engaged in by the owner, partners, members, principals, officers, and directors for at least two years immediately preceding the filing of the application;

d. the name and address of any supplier of any item to be sold by minors for the door-to-door sales operation;

e. the identity of any out of state affiliation, and the name, address, and telephone number of local contact person;

f. certified results of a criminal history background check by the Utah Bureau of Criminal Identification for the owner, each partner from applicant partnerships, each member of applicant limited liability companies, the principals, officers, and directors of applicant corporations, and of all supervisors and van drivers who have contact with the minor employees; the criminal history background check must be current for the year the license is sought;

g. a recent photograph of the owner, each partner from applicant partnerships, each member of applicant limited liability companies, or the principals, officers, and directors of applicant corporations; and

h. two separate letters of recommendation attesting to the reliability and responsibility of each owner, partner, member,

principal, officer, director, supervisor, and van driver. These letters must be written and signed by persons who are residents of the state of Utah and who have known the owner, partner, member, principal, officer, director, supervisor, or van driver at least one year.

12. For each supervisor or van driver hired subsequent to submission of application for license the business operator shall submit to the Division the certified results of a criminal history background check as delineated in Subsection R610-2-4.A.11.f. and letters of recommendation as delineated in Subsection R610-2-4.A.11.h. prior to contact with any minor employee by the supervisor or van driver.

13. Before a license shall be issued pursuant to this rule, the applicant shall deposit with the Commission a bond in the penal sum of \$10,000 with two or more sureties. The bond shall be made payable to the Labor Commission and shall be conditioned that the applicant, supervisor, and van driver will comply with the provisions of Title 34, Chapters 23, 28, and 40, and with the provisions of R610-1, R610-2, and R610-3, and shall pay all penalties or damages occasioned by any violation of these provisions in carrying on the business for which the license is issued.

14. The Division may deny or revoke a license when:

- a. an applicant, supervisor, or van driver has been adjudged guilty of a violation of any criminal act, other than a minor traffic violation, in any state; or
- b. an applicant has been determined by any state or federal agency to be in violation of any labor law within the past five years; or
- c. any information provided as a part of the application process is false or misleading; or
- d. any applicant fails to complete the licensing process and fails to provide the information requested; or
- e. any business operator fails to submit to the Division the name and address of any van driver or supervisor hired along with the results of a criminal history background check as delineated in Subsection R610-2-4.A.11.f. or letters of recommendation as delineated in Subsection R610-2-4.A.11.h. at the time of hiring the van driver or supervisor; or
- f. any business operator fails to comply with the provisions of Utah labor law or Labor Rules 610-1, 610-2, or 610-3.

15. Each license issued pursuant to this rule shall expire on December 31 of the year issued.

16. Annually, a completed application for renewal of license form must be completed and submitted to the Division along with all requested documents prior to December 31.

17. A door-to-door sales business shall not publish, print, or otherwise represent that the Commission has approved of any product or service offered by the door-to-door sales business.

B. Any school sponsored group, scout group, or fund raising group selling for the benefit of its organization must provide group members with an identification card, signed by an official of the organization with the organization's official telephone number affixed for verification purposes. Subsections R610-2-4.A.3. through R610-2-4.A.10. shall apply to these groups and the minor participants.

C. Nothing contained in Subsections R610-2-4.A. and R610-2-4.B. shall apply to nonprofit groups where the individual selling for the group is a true volunteer and there is no intention, understanding, expectation, agreement, or representation that the individual selling for the nonprofit group will receive any individual compensation or reimbursement for the sale.

D. Nothing in Subsections R610-2-4.A. and R610-2-4.B. shall prohibit or abridge the right of a minor to deliver, sell, or solicit subscriptions for newspapers or other regularly printed material door-to-door when the minor is a news carrier of the newspaper or other regularly printed material and delivers them to an established readership for consideration.

#### **R610-2-5. Written Authorization.**

Minors seeking employment in occupations where authorization is required by the Commission as set forth in Sections 34-23-201 and 34-23-207(4), shall file a written request for authorization. Requests for authorization shall be made in writing and provide the name of the minor, his or her address, telephone number, date of birth, the name and address of the parent or guardian approving of the employment, and specify any related training completed or in progress. The name of the prospective employer, the address and telephone number, the name and title of the employer's representative, the type of business, the specific duties of the minor, and the specific equipment or machinery the minor would be allowed to operate or repair shall also be provided in sufficient detail to allow a decision regarding the request for authorization. The Division shall review all requests for authorization and may issue authorization signed by the Division Director where appropriate, but shall in such cases determine and establish the hours and conditions of labor and employment for such authorization.

#### **R610-2-6. Filing Procedure and Commencement of Agency Action.**

For purposes of Section 63-46b-3, commencement of an adjudicative proceeding at the Division to resolve an alleged violation of Utah statutes or rules regarding employment of minors is accomplished by the filing of a complaint or by a notice of agency action filed by the Division at its discretion.

A. The alleged violation shall be filed in writing by the complainant or a representative of the complainant on a form provided by the Division. The complaint form shall act as a request for agency action and the form and accompanying agency cover letter shall together include all information specified in Subsection 63-46b-3(2). The complaint shall include the complainant's name and address, the defendant's name and address, a brief and concise statement of the complaint or allegation, and the complainant's or his representative's notarized signature.

1. Upon receipt of a complaint, the Division shall enter its receipt and assign a complaint number.
2. The Division may telephone the Defendant and attempt to resolve the complaint.
3. When a rapid resolution is not effected, the Division shall mail a copy of the complaint and a blank answer form together with an accompanying agency cover letter.
4. The Defendant shall have ten working days from the date of the letter to submit an answer to such complaint.
5. The Defendant's answer shall be mailed to the Complainant who may submit an answer within ten working days.
6. Upon receiving a third complaint against an employer within a 12 month period, the Division shall invoke the penalty provision pursuant to Section 34-23-402, and notify the Defendant of the penalty at the time of notice under Subsection A.3.

B. The Division may at its discretion bring an agency action to determine any violation of any statute or rule pertaining to employment of minors, or any appropriate penalties, wages, or other enforcement relief. Commencement of an adjudicative proceeding is accomplished by a notice of agency action filed by the Division.

C. An adjudicative proceeding initiated pursuant to Subsection A. or B. is designated as an informal adjudicative proceeding and shall be conducted informally.

D. An informal adjudicative proceeding may be converted to a formal adjudicative proceeding pursuant to Subsection 63-46b-4(3).

#### **R610-2-7. Default.**

The presiding officer may enter an order of default against a party pursuant to Section 63-46b-11.

**R610-2-8. Investigation.**

For the purpose of determining the validity or invalidity of the filed complaint, the Division pursuant to Section 34-23-401, may:

- A. Interview and obtain additional statements from either party;
- B. Attempt to obtain from the Defendant an answer and statement where the Defendant has failed to submit an answer to the complaint;
- C. Examine, copy, inspect, and summarize any relevant records or documents held by the parties or other persons;
- D. Obtain written statements of third persons relevant to the complaint;
- E. Contact and receive relevant information from other government agencies or officials; or
- F. Make any and all relevant inquiries necessary in making a preliminary decision.

**R610-2-9. Preliminary Findings.**

A. At the conclusion of the investigation or upon the Defendant's failure to respond to the allegations of the complaint, the Division may issue a Preliminary Finding.

B. Preliminary Findings shall set forth the issue or issues of the complaint and state the findings based on the information contained in the file. When:

1. The complaint has been determined to be valid the Preliminary Finding shall contain a brief statement of the reason thereof, the statute(s) or rule(s) violated, and specify the remedy which must be complied with within ten working days from the date of the document.

2. The complaint has been determined to be invalid the Preliminary Finding shall contain a brief statement of the reason thereof and contain notice that the complaint is being dismissed.

C. Preliminary Findings shall be mailed to the parties and any attorney of record.

D. Any party may submit a request for review or request an informal hearing; such request must be made in writing and received by the Division within ten working days of the date of the Preliminary Finding and shall state the reason for the request and include any available evidence to support their position.

E. Failure to request a review or request an informal hearing within the time prescribed in Subsection D precludes any such review or hearing.

**R610-2-10. Order To Cease And Desist and Penalty.**

A. A hearing officer may issue an Order To Cease And Desist the act of violation and may include an order of penalty based on the Preliminary Finding issued by the Division.

B. An Order To Cease And Desist the act of violation and an Order Of Penalty may be issued following an investigation and bypassing a Preliminary Finding where:

1. The act of violation is of such magnitude as to clearly exceed the standard of reasonable safeguards for a minor's health, safety, and education pursuant to Section 34-23-101.

2. The employer admits the violation has occurred or is occurring.

3. The employer failed to respond to the allegations of the complaint within the time specified or to participate in the investigation, or when the Division deems appropriate.

C. Attorney fees, in addition to the Order To Cease And Desist and a penalty, if any, shall be allowed in accordance with Section 34-28-13.

D. After issuance of the Order To Cease And Desist, the only agency review available is that specified in Section R610-2-12.

**R610-2-11. Hearings.**

A. Pursuant to Subsection 63-46b-4(1), the Division may resolve the complaint for violation filed pursuant to Subsection R610-2-6.A., or an agency action commenced pursuant to Subsection R610-2-6.B. by holding an informal hearing subject to the provisions of Section 63-46b-5.

B. Where the Division deems appropriate, or upon a timely request of either party, an informal hearing may be scheduled.

C. Notice of hearing shall be mailed to the parties involved in the complaint advising them of the time, date, and place of the hearing. Notice of hearing shall be mailed to the last known address on the Commission's record and shall constitute proper notice.

D. Any request for continuance or change in the scheduled hearing date or time must be made to the Division at least seven working days prior to the scheduled date and shall state the reason for the request. The hearing officer may grant or deny the request.

E. The hearing officer may at his or her option record any hearing or accept testimony under oath.

F. The parties shall submit all relevant evidence, not previously submitted to the Division, at the hearing.

G. The hearing officer may request additional evidence of either party and set time limits for its submission, prior to the close of the hearing.

H. A signed Order issued by the hearing officer shall be pursuant to Section 63-46b-5, and shall be promptly mailed to each of the parties. Attorney fees in addition to the Order and penalty, if any, may be allowed in all Orders. The Order issued may be:

1. An Order To Cease And Desist any act of violation and may include a penalty pursuant to Section 34-23-401.

2. An Order specifying appropriate penalties, wages or other enforcement relief.

3. An Order For Dismissal terminating proceedings on the complaint or agency action by the Division.

I. After issuance of the hearing officer's Order, the only agency review available is that specified in Section R610-2-12.

**R610-2-12. Agency Review.**

A. After issuance of an Order To Cease And Desist or of a hearing officer's Order, the only agency review available to any party is a request for reconsideration as specified in Section 63-46b-13.

B. Reconsideration shall be based on the contents of the file. No new evidence will be accepted.

C. The Division Director is the reviewer for the purpose of reviewing all matters where a request for reconsideration was properly filed and shall do so pursuant to Section 63-46b-13(3).

**R610-2-13. Judicial Review.**

Judicial review of an Order To Cease And Desist or of a hearing officer's Order are pursuant to Section 63-46b-15.

**R610-2-14. Declaratory Orders.**

As required by Section 63-46b-21, this rule provides the procedure for submission, review, and disposition of petitions for agency Declaratory Orders on the applicability of statutes, rules, and Orders governing or issued by the agency.

A. Petition form and filing.

1. The petition shall be addressed and delivered to the Director, who shall mark the petition with the date of receipt.

2. The petition shall:

a. be clearly designated as a request for an agency Declaratory Order;

b. identify the statute, rule, or Order to be reviewed;

c. describe in detail the situation or circumstance in which applicability is to be reviewed;

d. describe the reason or need for the applicability review, addressing in particular why the review should not be considered frivolous;

e. include an address and telephone number where the petitioner can be contacted during the regular work days;

f. declare whether the petitioner has participated in a completed or on-going adjudicative proceeding concerning the same issue within the past 12 months; and

g. be signed by the petitioner.

**B. Reviewability.**

1. The agency shall not review a petition for Declaratory Orders that is:

a. not within the jurisdiction and competence of the agency;

b. trivial, irrelevant, or immaterial; or

c. otherwise excluded by state or federal law.

**C. Petition review and disposition.**

1. The Director shall promptly review and consider the petition and may:

a. meet with the petitioner;

b. consult with counsel or the Attorney General; or

c. take any action consistent with the law that the agency deems necessary to provide the petition adequate review and due consideration.

2. The Director may issue an Order pursuant to Subsection 63-46b-21(6).

D. Administrative review of the Declaratory Order is per Section 63-46b-13, only.

**R610-2-15. Enforcement.**

**A. Abstracts and docketing of Orders.**

1. An abstract of the final Order shall be docketed by the Commission in the office of the clerk of the district court of any county in the state. Time of receipt of the abstract must be noted thereon and entered in the judgment docket.

2. The docketing of such Order shall constitute a lien against the real property of the defendant situated in the county for a period of eight years.

B. Execution may be issued on the lien within the same time and in the same manner and with the same effect as if the Order were a judgment of the district court.

**C. Appeals and judgment enforcement and fees.**

1. A copy of each Order or final agency action not complied with after 30 days of its issuance and all notices of appeal of any Order or final agency action may be sent to the office of the appropriate County Attorney, or to counsel employed or appointed by the Commission, to represent the Commission on all appeals and to enforce judgments.

2. Counsel employed or appointed by the Commission or the County Attorney for the county in which the defendant resides or conducts business shall represent the Commission on all appeals and shall enforce judgments.

3. Reasonable attorney's fees and costs on de novo appeals where the Commission prevails and for judgment enforcing procedures shall be awarded the Commission, the appointed counsel, or the county.

**R610-2-16. Mailing.**

The Division shall send all mailings to the parties and attorneys of record by regular first class mail to the last known address in the Division's records.

**R610-2-17. Time.**

A. An Order is deemed issued on the date on the face of the Order which is the date the presiding officer signs the Order.

B. In computing any period of time prescribed or allowed by these rules or by applicable statute:

1. The day of the act, event, finding, or default, or the date an Order is issued, shall not be included;

2. The last day of the period so computed shall be included, unless it is a Saturday, a Sunday, or a state legal holiday, in which event the period runs until the end of the next working day;

3. When the period of time prescribed is less than seven days, intermediate Saturdays, Sundays, and state legal holidays shall be excluded in the computation;

4. No additional time for mailing shall be allowed.

The following definitions are in addition to the statutory definitions specified in Sections 34-23-103, 34-28-2, and 34-40-102.

A. "Claim" means a properly completed Wage Claim Assignment Form, filed with the Division by a wage claimant.

B. "Claimant" means a person making a claim, as stated in subsection A.

C. "Commission" means the Labor Commission.

D. "Defendant" means a person against whom a claim is made.

E. "Director" is the Director of the Division of Antidiscrimination and Labor. Director also means a designee denoted by the Commission to serve in the Director's absence.

F. "Division" means the Division of Antidiscrimination and Labor within the Labor Commission and the personnel responsible for receiving, investigating and resolving claims.

G. "Hearing Officer" means a presiding officer who is designated by the Commission to commence adjudicative proceedings, process claims and complaints, conduct investigations, hold hearings, assess penalties, issue subpoenas, and enter Orders.

H. "Hours employed" includes all time during which an employee is required to be working, to be on the employer's premises ready to work, to be on duty, to be at a prescribed work place, to attend a meeting or training, and for time utilized during established rest or break periods excluding meal periods of 30 minutes or more where the employee is relieved of all responsibilities.

I. "Mail" or "Mailed" means first class mailing sent to the parties of a wage claim or claim of retaliation, to the last known address on the Commission's record.

J. "Presiding Officer" includes those defended by Section 63-46b-2(1)(h)(i).

**R610-3-3. Exceptions.**

Public, general agricultural, household domestic, and certain other employments are excepted from the provisions of these rules pursuant to Section 34-28-1.

**R610-3-4. Filing Procedure and Commencement of Agency Action.**

A. For purposes of Section 63-46b-3, commencement of an adjudicative proceeding at the Division to resolve a claim for wages is accomplished by the wage claimant filing a wage claim assignment form. The wage claim assignment form shall act as a request for agency action and the form and accompanying agency cover letter shall together include all information specified in Section 63-46b-3(2).

B. An employee who is denied full payment of wages due or is affected or aggrieved by a violation of a statutory provision may file a claim with the Division on a form provided by the Division for that purpose.

1. Besides amounts due an employee for labor or services on a time, task, piece, commission, or other reasonable method of calculating the amount, wages also includes the following items, if due under an agreement with the employer or under a policy of the employer:

- a. vacation;
- b. holiday;
- c. sick leave;

d. paid time off; and

e. severance payments and bonuses.

C. The claim shall include the Claimant's name and address, the Defendant's name and address, a brief and concise statement of the claims, complaints, or allegations, the amount of money which is alleged to be due the Claimant and the Claimant's signature notarized before a notary public.

D. Upon receipt of a claim, the Division shall enter its receipt and assign a claim number.

E. The Division may telephone the Defendant and attempt to resolve the claim.

F. When a rapid resolution is not effected, the Division shall mail to the Defendant a copy of the claim and a blank answer form together with an accompanying agency cover letter.

G. The Defendant shall have ten working days from the date of the letter to submit an answer to the claim.

H. Where the Defendant concedes the validity of the claim, the Defendant may pay or otherwise satisfy the claim within ten working days from the date of the letter without being subject to a penalty, under Section 34-28-9(2).

I. As an exception to Subsection H, defendants that are repeat offenders by having more than two wage claims filed against them within a running year, which claims are determined by the Division to be valid and to not have resulted from the same facts or circumstances, shall be subject to a penalty in accordance with Section 34-28-9(2).

J. The Division shall by mail provide a copy of the defendant's answer to the claimant. The claimant shall have ten working days from the date of the letter to submit a rebuttal, if any.

**R610-3-5. Investigation.**

For the purpose of determining the validity or invalidity of the filed claim, the Division pursuant to Sections 34-28-9 and 34-28-10, may:

A. Interview and obtain additional statements from either party;

B. Attempt to obtain from the Defendant an answer and statement where the Defendant has failed to submit an answer to the claim;

C. Examine, copy, inspect, and summarize relevant records or documents held by the parties or other persons;

D. Obtain written statements of third persons relevant to the claim;

E. Contact and receive relevant information from other government agencies or officials; or

F. Make relevant inquiries necessary in making a preliminary decision.

**R610-3-6. Preliminary Findings.**

A. At the conclusion of the investigation or upon the Defendant's failure to respond to the allegations of the claim, the Division may issue a Preliminary Finding.

B. Preliminary Findings shall set forth the issue or issues of the claim and state the findings based on the information contained in the wage claim file.

1. If the claim has been determined to be valid the Preliminary Finding shall contain a brief statement of the reason thereof, the statute(s) or rule(s) violated, and specify the remedy which shall be complied with within ten working days from the date of the document.

2. If the claim has been determined to be invalid the Preliminary Finding shall contain a brief statement of the reason thereof and contain notice that the claim is being dismissed.

C. Preliminary Findings shall be mailed to the parties and any attorney of record.

D. A party may submit a request for review or request an informal hearing. This request shall be made in writing and received by the Division within ten working days of the date of

the Preliminary Finding and shall state the reason for the request and include any available evidence to support their position.

E. Failure to request a review or request an informal hearing within the time prescribed in Subsection D. precludes a review or hearing.

**R610-3-7. Default Order.**

A. A hearing officer may issue an Order On Default And Order To Pay based on the Preliminary Finding issued by the Division.

B. An Order On Default And Order To Pay may be issued following an investigation and bypassing a Preliminary Finding if any of the following occur:

1. The Claimant is issued a non-negotiable check in the payment of wages in violation of Section 34-28-3(2).

2. The Defendant admits the validity of the claim.

3. The Defendant failed to respond to the allegations of the claim within the time specified or to participate in the investigation, or when the Division deems appropriate.

C. The penalty provided for by Section 34-28-9(2) may be awarded in addition to the award for wages.

D. After issuance of the Order On Default And Order To Pay, the only agency review available is that specified in R610-3-11.

**R610-3-8. Agreements and Settlements.**

A. No provision of Title 34, Chapter 28, can be contravened by a mutual agreement between an employee and employer unless the agreement is approved by the Division.

B. Notice of settlement conference shall be mailed to the parties involved in the wage claim advising them of the time, date, and place of the conference. A continuance shall only be granted for good cause, at the option of the hearing officer.

C. In the event of settlement the parties shall sign a settlement agreement stating the terms of the settlement, and shall include:

1. A stipulation that in the event of breach of the agreement the Division may enter an Order enforcing the settlement agreement; and

2. Approval of the settlement agreement by a representative designated by the Division.

**R610-3-9. Hearings.**

A. Pursuant to Section 63-46b-4(1), the Division may resolve the claim for wages filed pursuant to R610-3-4 by holding an informal hearing subject to the provisions of Section 63-46b-5. This hearing may be converted to a formal hearing pursuant to Section 63-46b-4(3).

B. Where the Division deems appropriate or upon a timely request of either party, an informal hearing may be scheduled.

C. Notice of hearing shall be mailed to the parties involved in the wage claim advising them of the time, date, and place of the hearing and shall specify if the hearing is an informal or a formal proceeding. Notice of hearing shall be mailed and shall constitute proper notice.

D. A continuance shall only be granted for good cause at the option of the hearing officer.

E. The hearing officer may at his or her option record a hearing or accept testimony under oath.

F. The parties shall submit all relevant evidence, not previously submitted to the Division, at the hearing.

G. The hearing officer may request additional evidence of either party and set time limits for its submission, prior to the close of the hearing.

H. A signed Order issued by the hearing officer shall be pursuant to Section 63-46b-5, and shall be promptly mailed to each of the parties. The Order issued may be:

1. An Order awarding payment to the Claimant and may include a penalty pursuant to Section 34-28-9(2), in addition to

the wages determined due.

2. An Order For Dismissal terminating proceedings on the wage claim by the Division.

I. After issuance of the hearing officer's Order, the only agency review available is that specified in R610-3-11.

**R610-3-10. Attorney Fees.**

A. Attorney fees and costs, in addition to the award for wages, shall be allowed in an Order for Payment and in an Order on Default and Order to Pay pursuant to Section 34-28-9(4)(b). Attorney fees shall be allowed in the amount of \$300 or one-third of the award, whichever is greater.

B. Reasonable attorney fees may be awarded private counsel pursuant to Section 34-28-13 for representing a claimant before the Commission.

**R610-3-11. Agency Review.**

A. After issuance of an Order On Default And Order To Pay or of a hearing officer's Order, the only agency review available to a party is a request for reconsideration as specified in Section 63-46b-13.

B. Reconsideration shall be based on the contents of the file. No new evidence shall be accepted.

C. The Division Director is the reviewer for the purpose of reviewing all matters where a request for reconsideration was properly filed and shall do so pursuant to Section 63-46b-13(3).

**R610-3-12. Judicial Review.**

Judicial review of a wage claim Order is pursuant to Section 63-46b-15.

**R610-3-13. Declaratory Orders.**

As required by Section 63-46b-21, this rule provides the procedure for submission, review, and disposition of petitions for agency Declaratory Orders on the applicability of statutes, rules, and Orders governing or issued by the agency.

A. Petition form and filing.

1. The petition shall be addressed and delivered to the Director, who shall mark the petition with the date of receipt.

2. The petition shall:

a. be clearly designated as a request for an agency Declaratory Order;

b. identify the statute, rule, or Order to be reviewed;

c. describe in detail the situation or circumstance in which applicability is to be reviewed;

d. describe the reason or need for the applicability review, addressing in particular why the review should not be considered frivolous;

e. include an address and telephone number where the petitioner can be contacted during the regular work days;

f. declare whether the petitioner has participated in a completed or on-going adjudicative proceeding concerning the same issue within the past 12 months; and

g. be signed by the petitioner.

B. Reviewability.

1. The agency shall not review a petition for Declaratory Orders that is:

a. not within the jurisdiction and competence of the agency;

b. trivial, irrelevant, or immaterial; or

c. otherwise excluded by state or federal law.

C. Petition review and disposition.

1. The Director shall promptly review and consider the petition and may:

a. meet with the petitioner;

b. consult with counsel or the Attorney General; or

c. take action consistent with the law that the agency deems necessary to provide the petition adequate review and due consideration.

2. The Director may issue an Order pursuant to Section 63-46b-21(6).

D. Administrative review of the Declaratory Order is per Section 63-46b-13, only.

**R610-3-14. Enforcement.**

A. Docketing of Order or final agency action as a lien.

1. An abstract of the final Order shall be docketed by the Division in the office of the clerk of the district court of any county in the state. Time of receipt of the abstract shall be noted thereon and entered in the judgment docket pursuant to Section 34-28-9(3)(a), (b), and (c).

2. The docketing of an Order shall constitute a lien against the real property of the defendant situated in the county for a period of eight years.

B. Execution may be issued on the lien within the same time and in the same manner and with the same effect as if the Order were a judgment of the district court.

C. Appeals and judgment enforcement and fees.

1. A copy of each Order or final agency action not complied with after 30 days of its issuance and all notices of appeal of an Order or final agency action may be sent to the office of the appropriate County Attorney, or to counsel employed or appointed by the Commission, to represent the Commission on all appeals and to enforce judgments.

2. Counsel employed or appointed by the Commission or the County Attorney for the county in which the plaintiff or the defendant resides, depending on the district in which the final Order is docketed, shall represent the Commission on all appeals and shall enforce judgments.

3. Reasonable attorney's fees and costs on de novo appeals where the Commission prevails and for judgment enforcing procedures shall be awarded the Commission, the appointed counsel, or the county.

**R610-3-15. Time.**

A. An Order is deemed issued on the date on the face of the Order which is the date the presiding officer signs the Order.

B. In computing a period of time prescribed or allowed by these rules or by applicable statute:

1. The day of the act, event, finding, or default, or the date an Order is issued, shall not be included;

2. The last day of the period so computed shall be included, unless it is a Saturday, a Sunday, or a state legal holiday, in which event the period runs until the end of the next working day;

3. When the period of time prescribed is less than seven days, intermediate Saturdays, Sundays, and state legal holidays shall be excluded in the computation;

4. No additional time for mailing shall be allowed.

**R610-3-16. Retaliation.**

A. Section 34-28-19 prohibits an employer from retaliating against employees. Claims of unlawful retaliation shall be resolved as follows:

1. An employee alleging retaliatory action by his employer may file a complaint with the Division. The Division shall mail a copy of the complaint to the employer and allow ten working days for the employer to submit a written response to the complaint. Additionally, the Division may attempt to resolve the complaint by informal means.

2. After the time allowed for response and if informal resolution has been unsuccessful, the Division shall conduct a hearing to determine whether the employer has violated Section 34-28-19 by retaliating against the employee. The Division's determination shall be mailed to each party.

a. If the Division determines that no retaliation has occurred, it shall dismiss the employee's complaint.

b. If the Division determines retaliation has occurred, it

shall order the employer to end the retaliatory action and reimburse the employee for lost wages and benefits.

B. Right of Appeal:

1. The only agency review available to any party is a request for reconsideration as specified in Section 63-46b-13.

2. Reconsideration shall be based on the contents of the file and submitted within 20 days of the date of the issued order. No new evidence will be accepted.

3. The Division Director is the reviewer for the purpose of reviewing all matters where a request for reconsideration was properly filed and shall do so pursuant to Section 63-46b-13(3).

4. Judicial review of the order may be pursued as specified in Section 63-46b-15.

C. The Division may enforce any final order as provided in Section 34-28-9(3) and (4).

**R610-3-17. Bankruptcy.**

In the event the defendant files a petition with the U.S. Bankruptcy Court, the Division shall suspend its administrative action until the bankruptcy case is concluded or dismissed.

**R610-3-18. Deductions and Offsets.**

The following sums shall constitute lawful deductions or offsets from wages due an employee:

A. Sums deducted from wages pursuant to the Internal Revenue Code or other Federal tax provision;

B. Sums deducted from wages pursuant to the Social Security Administration Act and Federal Insurance Contribution Act;

C. Sums deducted from wages pursuant to any Utah city, county, or state tax;

D. Sums deducted from wages as dues, contributions, or other fees to a labor, employee, professional, or other employer-related organization or association; and sums as contributions for an employee's participation or eligibility in a health, welfare, insurance, retirement, or other benefit plan or program, provided that the:

1. Employee has granted written authorization for the deductions; and

2. Deductions shall terminate upon the written revocation of the authorization;

E. Sums deducted from wages as payments, repayments, contributions, deposits, to a credit union, banking, savings, loan, trust or other financial institution, provided that the:

1. Employee has granted written authorization for the deductions; and

2. Deductions shall terminate upon the written revocation of the authorization;

F. Sums deducted from wages as payment for the purchase of goods or services by the employee from the employer, provided that the:

1. Employee has actual or constructive possession of the goods or services purchased; and

2. Employee's purchase is evidenced by the employee's written acknowledgment;

G. Sums deducted from wages for damages suffered by the employee due to the employee's negligence:

1. A potential deduction shall meet the following pre-conditions:

a. negligence and damages arise out of the course of employment;

b. employer has not received payments, compensation, or any form of restitution for the same monetary loss from an insurer, assurer, surety, or guarantor to cover the injuries, losses, or damages;

c. offset is reasonably related to the amount of the damage; and

d. damage is over and above wear and tear reasonably expected in the normal course of business.

2. Methods of determining an employee's negligence and amount of damage are:

- a. by a judicial proceeding;
- b. by an employer's written and published procedures coupled with an employee's express authorization for the deduction in writing; or
- c. by any other provision allowed or required by law pursuant to Section 34-28-3(5).

H. Sums deducted from wages, in the proper amounts, for enforcement of a valid attachment or garnishment shall be honored by the Division;

I. Sums deducted from wages as repayment to the employer by the employee of advances or loans made to the employee by the employer, provided that the:

1. Advance or loan to the employee occurred while the employee was in the employ of the employer; and
2. Employee's receipt of the advance or loan is evidenced by the employee's written acknowledgment;

J. Sums deducted from wages as a result of loss or damage occurring from the criminal conduct of the employee against the property of the employer, provided that:

1. The employee has been adjudged guilty by a judicial proceeding of the specified crime committed against the property of the employer;
2. The crime occurred during the employment relationship or out of the employment relationship; and
3. The property of the employer cannot or has not been reunited with the employer; or

4. The employee willfully and through his own admission did in fact destroy company property. An offset against the earned wages may be allowed at the hearing officer's discretion.

K. Sums deducted from the wages resulting from cash shortages, provided that the:

1. Employee gives written acknowledgment upon beginning employment that he or she shall be responsible for shortages;
2. Employee shall at the beginning of his or her work period be checked in or verified on the register or with the cash amount by the employer in the employee's presence and give written acknowledgment of the verification;
3. Employee at the end of the work period be checked out or verified on the register or with the cash amount by the employer in the employee's presence and give written acknowledgment of the verification; and
4. Employee be the sole and absolute user and have sole access to the register or cash amount from the time checked in under Subsection (2) until the time checked out under Subsection (3);

L. Sums deducted from wages as payment for the purchase of goods, tools, equipment, or other items required for the employment of a person, provided that the:

1. Employee's purchase and receipt of the items is evidenced by a written acknowledgment;
2. Employee has actual or constructive possession of the goods or items; and
3. Employer repurchase the items from the employee at the employee's option upon the termination of employment at a fair and reasonable price;

M. Sums deducted from wages as payment for goods, tools, equipment, or other items furnished and assigned to the employee by the employer, provided that:

1. The item was assigned during the employment of the employee;
2. The employee gave written acknowledgment of the receipt of the item; and
3. The item was not returned to the employer upon termination.

**R610-3-19. Timely and Unconditional Payment of Wages.**

A. In case of a dispute over wages, the employer shall give written notice to the employee, of the amount of wages which he concedes to be due and shall pay that amount without condition within the time required by statute;

B. Acceptance by the employee of a payment made hereunder shall not constitute a release or waiver as to the balance of a claim for wages;

C. The employer shall not be entitled or permitted to deduct any sums where the employer has failed to make payment of wages within the time period required by statute.

**R610-3-20. Check Stubs.**

All lawful offsets enumerated in this rule shall be itemized on a statement or a detachable check stub and provided to the employee as required by Section 34-28-3(4).

**R610-3-21. Uniforms.**

A. Where the wearing of uniforms is a condition of employment, the employer shall furnish the uniforms free of charge.

1. The term "uniform" includes any article of clothing, footwear, or accessory of a distinctive design or color required by an employer to be worn by employees.

2. An article of clothing which is associated with a specific employer by virtue of an emblem (logo) or distinctive color scheme shall be considered a uniform.

B. The employer may request an amount, not to exceed the actual cost of the uniform or \$20, whichever is less, as a deposit on each uniform required by the employer. The deposit shall be refunded to the employee at the time uniform is returned.

**R616. Labor Commission, Boiler and Elevator Safety.****R616-2. Boiler and Pressure Vessel Rules.****R616-2-1. Authority.**

This rule is established pursuant to Title 34A, Chapter 7 for the purpose of establishing reasonable safety standards for boilers and pressure vessels to prevent exposure to risks by the public and employees.

**R616-2-2. Definitions.**

A. "ASME" means the American Society of Mechanical Engineers.

B. "Boiler inspector" means a person who is an employee of:

1. The Division who is authorized to inspect boilers and pressure vessels by having met nationally recognized standards of competency and having received the Commission's certificate of competency; or

2. An insurance company writing boiler and pressure vessel insurance in Utah who is deputized to inspect boilers and pressure vessels by having met nationally recognized standards of competency, receiving the Commission's certificate of competency, and having paid a certification fee.

C. "Commission" means the Labor Commission created in Section 34A-1-103.

D. "Division" means the Division of Boiler and Elevator Safety of the Labor Commission.

E. "National Board" means the National Board of Boiler and Pressure Vessel Inspectors.

F. "Nonstandard" means a boiler or pressure vessel that does not bear ASME and National Board stamping and registration.

G. "Owner/user agency" means any business organization operating pressure vessels in this state that has a valid owner/user certificate from the Commission authorizing self-inspection of unfired pressure vessels by its owner/user agents, as regulated by the Commission, and for which a fee has been paid.

H. "Owner/user agent" means an employee of an owner/user agency who is authorized to inspect unfired pressure vessels by having met nationally recognized standards of competency, receiving the Commission's certificate of competency, and having paid a certification fee.

**R616-2-3. Safety Codes and Rules for Boilers and Pressure Vessels.**

The following safety codes and rules shall apply to all boilers and pressure vessels in Utah, except those exempted pursuant to Section 34A-7-101, and are incorporated herein by this reference in this rule.

A. ASME Boiler and Pressure Vessel Code (2004).

1. Section I Rules for Construction of Power Boilers published July 1, 2004, and the 2005 Addenda published July 1, 2005.

2. Section IV Rules for Construction of Heating Boilers published July 1, 2004, and the 2005 Addenda published July 1, 2005.

3. Section VIII Rules for Construction of Pressure Vessels published July 1, 2004, and the 2005 Addenda published July 1, 2005.

B. Power Piping ASME B31.1 (2004), issued August 16, 2004.

C. Controls and Safety Devices for Automatically Fired Boilers ASME CSD-1-1998; the ASME CSD-1a-1999 addenda, issued March 10, 2000; and the ASME CSD-1b (2001) addenda, issued November 30, 2001.

D. National Board Inspection Code ANSI/NB-23 (2004) issued December 31, 2004, and the 2005 Addendum issued December 31, 2005.

E. NFPA 85 Boiler and Combustion Systems Hazard Code

2004 Edition.

F. Recommended Administrative Boiler and Pressure Vessel Safety Rules and Regulations NB-132 Rev. 4.

G. Pressure Vessel Inspection Code: Maintenance Inspection, Rating, Repair and Alteration API 510 (1997); the 1998 Addenda, published December 1998, and Addendum 2, published December 2000.

**R616-2-4. Quality Assurance for Boilers, Pressure Vessels and Power Piping.**

A. Consistent with the requirements of the Commission and its predecessor agency since May 1, 1978, all boilers and pressure vessels installed on or after May 1, 1978 shall be registered with the National Board and the data plate must include the National Board number.

B. Pursuant to Section 34A-7-102(2), any boiler or pressure vessel of special design must be approved by the Division to ensure it provides a level of safety equivalent to that contemplated by the Boiler and Pressure Vessel Code of the ASME. Any such boiler or pressure vessel must thereafter be identified by a Utah identification number provided by the Division.

C. All steam piping, installed after May 1, 1978, which is external (from the boiler to the first stop valve for a single boiler and the second stop valve in a battery of two or more boilers having manhole openings) shall comply with Section 1 of the ASME Boiler and Pressure Vessel Code or ASME B31.1 Power Piping as applicable.

D. Nonstandard boilers or pressure vessels installed in Utah before July 1, 1999 may be allowed to continue in operation provided the owner can prove the equivalence of its design to the requirements of the ASME Boiler and Pressure Vessel Code. Nonstandard boilers or pressure vessels may not be relocated or moved.

E. Effective July 1, 1999, all boiler and pressure vessel repairs or alterations must be performed by an organization holding a valid Certificate of Authorization to use the "R" stamp from the National Board. Repairs to pressure relief valves shall be performed by an organization holding a valid Certificate of Authorization to use the "VR" stamp from the National Board.

**R616-2-5. Code Applicability.**

A. The safety codes which are applicable to a given boiler or pressure vessel installation are the latest versions of the codes in effect at the time the installation commenced.

B. If a boiler or pressure vessel is replaced, this is considered a new installation.

C. If a boiler or pressure vessel is relocated to another location or moved in its existing location, this is considered a new installation.

**R616-2-6. Variances to Code Requirements.**

A. In a case where the Division finds that the enforcement of any code would not materially increase the safety of employees or general public, and would work undue hardships on the owner or user, the Division may allow the owner or user a variance pursuant to Section 34A-7-102. Variances must be in writing to be effective, and can be revoked after reasonable notice is given in writing.

B. Persons who apply for a variance to a safety code requirement must present the Division with the rationale as to how their boiler or pressure vessel installation provides safety equivalent to the safety code.

C. No errors or omissions in these codes shall be construed as permitting any unsafe or unsanitary condition to exist.

**R616-2-7. Boiler and Pressure Vessel Compliance Manual.**

A. The Division shall develop and issue a safety code

compliance manual for organizations and personnel involved in the design, installation, operation and maintenance of boilers and pressure vessels in Utah.

B. This compliance manual shall be reviewed annually for accuracy and shall be re-issued on a frequency not to exceed two years.

C. If a conflict exists between the Boiler and Pressure Vessel compliance manual and a safety code adopted in R616-2-3, the code requirements will take precedence.

#### **R616-2-8. Inspection of Boilers and Pressure Vessels.**

A. It shall be the responsibility of the Division to make inspections of all boilers or pressure vessels operated within its jurisdiction, when deemed necessary or appropriate.

B. Boiler inspectors shall examine conditions in regards to the safety of the employees, public, machinery, ventilation, drainage, and into all other matters connected with the safety of persons using each boiler or pressure vessel, and when necessary give directions providing for the safety of persons in or about the same. The owner or user is required to freely permit entry, inspection, examination and inquiry, and to furnish a guide when necessary. In the event an internal inspection of a boiler or pressure vessel is required the owner or user shall, at a minimum, prepare the boiler or pressure vessel by meeting the requirements of 29 CFR Part 1910.146 "Permit Required Confined Spaces" and 29 CFR Part 1910.147 "Control of Hazardous Energy (Lockout/Tagout)".

C. If the Division finds a boiler or pressure vessel complies with the safety codes and rules, the owner or user shall be issued a Certificate of Inspection and Permit to Operate.

D. If the Division finds a boiler or pressure vessel is not being operated in accordance with safety codes and rules, the owner or user shall be notified in writing of all deficiencies and shall be directed to make specific improvements or changes as are necessary to bring the boiler or pressure vessel into compliance.

E. Pursuant to Sections 34A-1-104, 34A-2-301 and 34A-7-102, if the improvements or changes to the boiler or pressure vessel are not made within a reasonable time, the boiler or pressure vessel is being operated unlawfully.

F. If the owner or user refuses to allow an inspection to be made, the boiler or pressure vessels is being operated unlawfully.

G. If the owner or user refuses to pay the required fee, the boiler or pressure vessel is being operated unlawfully.

H. If the owner or user operates a boiler or pressure vessel unlawfully, the Commission may order the boiler or pressure vessel operation to cease pursuant to Sections 34A-1-104 and 34A-7-103.

I. If, in the judgment of a boiler inspector, the lives or safety of employees or public are or may be endangered should they remain in the danger area, the boiler inspector shall direct that they be immediately withdrawn from the danger area, and the boiler or pressure vessel be removed from service until repairs have been made and the boiler or pressure vessel has been brought into compliance.

J. An owner/user agency may conduct self inspection of its own unfired pressure vessels with its own employees who are owner/user agents under procedures and frequencies established by the Division.

#### **R616-2-9. Fees.**

Fees to be charged as required by Section 34A-7-104 shall be adopted by the Labor Commission and approved by the Legislature pursuant to Section 63-38-3(2).

#### **R616-2-10. Notification of Installation, Revision, or Repair.**

A. Before any boiler covered by this rule is installed or before major revision or repair, particularly welding, begins on

a boiler or pressure vessel, the Division must be advised at least one week in advance of such installation, revision, or repair unless emergency dictates otherwise.

B. It is recommended that a business organization review its plans for purchase and installation, or of revision or repair, of a boiler or pressure vessel well in advance with the Division to ensure meeting code requirements upon finalization.

#### **R616-2-11. Initial Agency Action.**

Issuance or denial of a Certificate of Inspection and Permit to Operate by the Division, and orders or directives to make changes or improvements by the boiler inspector are informal adjudicative actions commenced by the agency per Section 63-46b-3.

#### **R616-2-12. Presiding Officer.**

The boiler inspector is the presiding officer referred to in Section 63-46b-3. If an informal hearing is requested pursuant to R616-2-13, the Commission shall appoint the presiding officer for that hearing.

#### **R616-2-13. Request for Informal Hearing.**

Within 30 days of issuance, any aggrieved person may request an informal hearing regarding the reasonableness of a permit issuance or denial or an order to make changes or improvements. The request for hearing shall contain all information required by Sections 63-46b-3(a) and 63-46b-3(3).

#### **R616-2-14. Classification of Proceeding for Purpose of Utah Administrative Procedures Act.**

Any hearing held pursuant to R616-2-13 shall be informal and pursuant to the procedural requirements of Section 63-46b-5 and any agency review of the order issued after the hearing shall be per Section 63-46b-13. An informal hearing may be converted to a formal hearing pursuant to Section 63-46b-4(3).

#### **KEY: boilers, certification, safety**

May 17, 2006

34A-7-101 et seq.

Notice of Continuation November 30, 2006

**R616. Labor Commission, Boiler and Elevator Safety.****R616-3. Elevator Rules.****R616-3-1. Authority.**

This rule is established pursuant to Section 34A-7-201 for the purpose of the Labor Commission ascertaining, fixing, and enforcing reasonable standards regarding elevators for the protection of life, health, and safety of the general public and employees.

**R616-3-2. Definitions.**

A. "ANSI" means the American National Standards Institute, Inc.

B. "ASME" means the American Society of Mechanical Engineers.

C. "Commission" means the Labor Commission created in Section 34A-1-103.

D. "Division" means the Division of Boiler and Elevator Safety of the Labor Commission.

E. "Elevator" means a hoisting and lowering mechanism equipped with a car or platform and that moves in guides in a substantially vertical direction.

F. "Escalator" means a stairway, moving walkway, or runway that is power driven, continuous and used to transport one or more individuals.

**R616-3-3. Safety Codes for Elevators.**

The following safety codes are adopted and incorporated by reference within this rule:

A. ASME A17.1, Safety Code for Elevators and Escalators, 2004 ed. issued April 30, 2004, ASME A17.1a-2005 issued April 29, 2005, and ASME A17.1S-2005 issued August 12, 2005, and amended as follows:

1. Delete 2.2.2.5;

2. Amend 8.6.5.8 as follows: Existing hydraulic cylinders installed below ground when found to be leaking shall be replaced with cylinders conforming to 3.18.3.4 or the car shall be provided with safeties conforming to 3.17.1 and guide rails, guide rail supports and fastenings conforming to 3.23.1. This code is issued every three years with annual addenda. New issues and addenda become mandatory only when a formal change is made to these rules. Elevators are required to comply with the A17.1 code in effect at the time of installation.

B. ASME A17.3 - 2002 Safety Code for Existing Elevators and Escalators. This code is adopted for regulatory guidance only for elevators classified as remodeled elevators by the Division of Boiler and Elevator Safety.

C. ASME A90.1-1992, Safety Standard for Belt Manlifts.

D. ANSI A10.4-1990, Safety Requirements for Personnel Hoists and Employee Elevators for Construction and Demolition Operations.

E. 2003 International Building Code.

F. ICC/ANSI A117.1-1998 Accessible and Usable Buildings and Facilities, sections 407 and 408, approved February 13, 1998.

G. ASME A18.1-2003 Safety Standard For Platform Lifts And Stairway Chairlifts, issued July 29, 2003.

**R616-3-4. Inspector Qualification.**

A. Any person who performs elevator safety inspections must have a current certification as a Qualified Elevator Inspector as outlined in ASME QEI-1, Qualifications for Elevator Inspectors.

**R616-3-5. Modifications and Variances to Codes.**

A. In a case where the Division finds that the enforcement of any code would not materially increase the safety of employees or general public, and would work undue hardships on the owner/user, the Division may allow the owner/user a variance. Variances must be in writing to be effective and can

be revoked after reasonable notice is given in writing.

B. Persons who apply for a variance to a safety code requirement must present the Division with the rationale as to how their elevator installation provides safety equivalent to the applicable safety code.

C. No errors or omissions in these codes shall be construed as permitting any unsafe or unsanitary condition to exist.

D. The Commission may, by rule, add or delete from the applicable safety codes for any good and sufficient safety reason.

E. In the event that adopted safety codes are in conflict with one another, the ASME A17.1, Safety Code for Elevators and Escalators will take precedence. The exception to this is for compliance with the accessibility guidelines of Pub. L. No. 101-336 "The Americans with Disability Act of 1990". In this instance, the International Building Code standards adopted in R616-3-3 for accessibility as applied to elevators take precedence over ASME A17.1.

**R616-3-6. Exemptions.**

A. These rules apply to all elevators in Utah with the following exemptions:

1. Private residence elevators installed inside a single family dwelling. Common elevators which serve multiple residences are not exempt from these rules.

2. Elevators in buildings owned by the Federal government.

B. Owners of elevators exempted in R616-3-5.A. may request a safety inspection by Division of Boiler and Elevator Safety inspectors. Code non-compliance items will be treated as recommendations by the inspector with the owner having the option as to which, if any, are corrected. Owners requesting these inspections will be invoiced at the special inspection rate. If the owner requests a State of Utah Certificate to Operate for the elevator, all of the recommendations must be completed to the satisfaction of the inspector and the owner will be invoiced the appropriate certificate fee.

**R616-3-7. Inspection of Elevators, Permit to Operate, Unlawful Operations.**

A. It shall be the responsibility of the Division to make inspections of all elevators when deemed necessary or appropriate.

B. Elevator inspectors shall examine conditions in regards to the safety of the employees, public, machinery, drainage, methods of lighting, and into all other matters connected with the safety of persons using or in close proximity to each elevator, and when necessary give directions providing for the better health and safety of persons in or about the same. The owner/user is required to freely permit entry, inspection, examination and inquiry, and to furnish a guide when necessary.

C. If the Division finds that an elevator complies with the applicable safety codes and rules, the owner/user shall be issued a Certificate of Inspection and Permit to Operate.

1. The Certificate of Inspection and Permit to Operate is valid for 24 months.

2. The Certificate of Inspection and Permit to Operate shall be displayed in a conspicuous location for the entire validation period. If the certificate is displayed where accessible to the general public, as opposed to being in the elevator machine room, it must be protected under a transparent cover.

D. If the Division finds an elevator is not being operated in accordance with the safety codes and rules, the owner/user shall be notified in writing of all deficiencies and shall be directed to make specific improvements or changes as are necessary to bring the elevator into compliance.

E. Pursuant to Section 34A-7-204, if the improvements or changes are not made within a reasonable time, by agreement of

the division and the owner, the elevator is being operated unlawfully.

F. If the owner/user refuses to allow an inspection to be made, the elevator is being operated unlawfully.

G. If the owner/user refuses to pay the required fee, the elevator is being operated unlawfully.

H. If the owner/user operates an elevator unlawfully, the Commission may order the elevator operation to cease pursuant to Section 34A-1-104.

I. If, in the judgment of an elevator inspector, the lives or safety of employees or public are, or may be, endangered should they remain in the danger area, the elevator inspector shall direct that they be immediately withdrawn from the danger area, and the elevator removed from service until repairs have been made and the elevator has been brought into compliance.

**R616-3-8. Inclined Wheelchair Lift Headroom Clearance.**

A. Headroom clearance for inclined wheelchair lifts throughout the range of travel shall be not less than 80 inches (2032 mm) as measured vertically from the leading edge of the platform floor.

B. For existing facilities only, in the event that it is not technically or economically feasible to provide other means of access for disabled persons, inclined wheelchair lifts may be installed if all of the following conditions are met:

1. The appropriate building inspection jurisdiction approves the use of an inclined wheelchair lift for the specific application.

2. Headroom clearance throughout the range of travel shall be not less than 60 inches as measured vertically from the leading edge of the platform floor.

3. The passenger restriction sign as required by ASME A18.1 3.1.2.3 shall be amended as follows: "PHYSICALLY DISABLED PERSONS ONLY. NO FREIGHT. HEADROOM CLEARANCE IS LIMITED. USE ONLY IN THE SITTING POSITION".

**R616-3-9. Valves in Hydraulic Elevator Operating Fluid Systems.**

A. Due to the potential loss of pressure retaining capability when over torqued, bronze-bodied valves shall not be installed in the hydraulic systems of a hydraulic elevator.

B. This requirement is in effect for all new installations and remodel installations involving the hydraulic system.

C. If a bronze-bodied valve installed on an existing elevator begins to leak, that valve shall be replaced by a steel-bodied valve.

**R616-3-10. Hydraulic Elevator Piping.**

A. This rule establishes minimum standards for hydraulic fluid piping in hydraulic elevators. The piping specifications referred to in this rule are governed by ASME or ASTM piping specifications (e.g. ASME Specification SA-53 Table X2.4).

B. Hydraulic elevators not incorporating a safety valve may use schedule 40 piping.

C. For newly installed hydraulic elevators that do incorporate a safety valve:

1. Where piping is protected by the safety valve, schedule 40 piping may be used;

2. Where grooved or threaded connections are used in piping that is unprotected by the safety valve, i.e. between the safety valve and the hydraulic jack(s), nominal pipe size (NPS)3 or schedule 80 piping may be used;

3. Where piping is unprotected by the safety valve, but welded or bolted flange connections are used, schedule 40 piping may be used.

**R616-3-11. Shunt Trips in Elevator Systems.**

A. The means (shunt trip) to automatically disconnect the

main line power supply to the elevator discussed in 2.8.2.3.2 of A17.1 is not required for hydraulic elevators with a rise of 50 feet or less.

**R616-3-12. Hoistway Vents.**

Hoistway ventilation as outlined in the International Building Code is under the jurisdiction of the local building official.

**R616-3-13. Hand Line Control Elevators.**

A. Operation of a hand line control elevator is not permitted.

B. Owners of hand line control elevators are required to render the elevator electrically and mechanically incapable of operation.

**R616-3-14. Remodeled Elevators.**

A. When an elevator is classified as a remodeled (modernized) elevator by the Division, the components of the elevator involved in the modernization must comply with the standards of the latest version of A17.1 and A17.3 in effect at the time the remodeling of the elevator commences.

B. When a hydraulic elevator has been remodeled it is considered a new installation.

**R616-3-15. Fees.**

A. Fees to be charged as provided by Section 34A-1-106 and 63-38-3.2 shall be adopted by the Labor Commission and approved by the Legislature pursuant to Section 63-38-3(2).

B. The fee for the initial certification permit shall be invoiced to and paid by the company or firm installing the elevator.

C. The renewal certification permit shall be invoiced to and paid by the owner/user.

D. Any request for a special inspection shall be invoiced to and paid by the person/company requesting the inspection, at the hourly rate plus mileage and expenses.

**R616-3-16. Notification of Installation, Revision or Remodeling.**

A. Before any elevator covered by this rule is installed or a major revision or remodeling begins on the elevator, the Division must be advised at least one week in advance of such installation, revision, or remodeling unless emergency dictates otherwise.

**R616-3-17. Initial Agency Action.**

Issuance or denial of a Certificate of Inspection and Permit to Operate by the Division, and orders or directives to make changes or improvements by the elevator inspector are informal adjudicative actions commenced by the agency per Section 63-46b-3.

**R616-3-18. Presiding Officer.**

The elevator inspector is the presiding officer referred to in Section 63-46b-3. If an informal hearing is requested pursuant to R616-3-18, the Commission shall appoint the presiding officer for that hearing.

**R616-3-19. Request for Informal Hearing.**

Within 30 days of issuance, any aggrieved person may request an informal hearing regarding the reasonableness of a permit issuance or denial or an order to make changes or improvements. The request for hearing shall contain all information required by Sections 63-46b-3(a) and 63-46b-3(b).

**R616-3-20. Classification of Proceeding for Purpose of Utah Administrative Procedures Act.**

Any hearing held pursuant to R616-3-18 shall be informal

and pursuant to the procedural requirements of Section 63-46b-5 and any agency review of the order issued after the hearing shall be per Section 63-46b-13. An informal hearing may be converted to a formal hearing pursuant to Subsection 63-46b-4(3).

**R652-140. Utah Forest Practices Act.****R652-140-100. Authority and Purpose.**

This rule is adopted pursuant to the authority of Subsection 65A-1-4(2), which requires the Division to promulgate rules, and by Section 65A-8a-101 et seq., to clarify the procedure through which operators must register with the Division and notify the Division of the intent to conduct forest practices.

**R652-140-200. Exceptions to Forest Practice.**

For purposes of Section 65A-8a-101 et seq., and this rule, the term "Forest practice" does not include the control of invasive or exotic species, removal of Pinyon-Juniper woodlands, or cutting trees for posts, poles or firewood.

**R652-140-300. Procedures for Registration of Operators.**

(1) To register, operators shall complete and submit a printed or electronic version of a registration form provided by the Division, which includes information required under Subsection 65A-8a-103(2).

(2) The registration form shall be submitted to the Division's headquarter office or one of the Division's six administrative area offices. Offices are located in the following areas:

(a) Headquarter Office, 1594 West North Temple, Suite 3520, PO Box 145703, Salt Lake City, UT 84114-5703. Facsimile: 801 533 4111.

(b) Bear River Area Office, 1780 North Research Parkway, Suite 104, North Logan, UT 84341-1940.

(c) Wasatch Front Area Office, 1594 West North Temple, Suite 3520, PO Box 145703, Salt Lake City, UT 84114-5703.

(d) Central Area Office, 1311 South Airport Road, Richfield, UT 84701.

(e) Northeastern Area Office, 152 East 100 North, Vernal, UT 84078.

(f) Southwestern Area Office, 585 North Main Street, Cedar City, UT 84720.

(g) Southeastern Area Office, 1165 South Highway 191, Suite 6, Moab, UT 84532.

(3) Upon receipt of the registration form, the Division will acknowledge receipt by providing the operator a registration number and date of expiration and returning a copy of the registration form to the operator.

(4) Registration shall be valid for a period of two years from the date of receipt. At the end of the two-year period, the operator must renew the registration with the Division.

**R652-140-400. Procedures for Notification of Intent to Conduct Forest Practices.**

(1) At least 30 days prior to the commencement of a forest practice, the operator shall submit written or electronic notification of intent to conduct forest practices to the Division as required by Subsection 65A-8a-104(1). The 30 days shall commence on the date of postmark, if mailed, or on the date received if hand delivered or electronically submitted.

(2) Notifications shall be submitted to the Division's headquarter's office or one of the Division's six administrative area offices listed in Subsection R652-140-300(2).

(3) Operators shall submit a written notification on a form provided by the Division, a copy thereof or its electronic version, and include the information required under Subsection 65A-8a-104(2).

(4) Notifications submitted to the Division shall be acknowledged within ten days of receipt by the Division. The acknowledgment shall include information identified in Subsection 65A-8a-104(3).

**R686. Professional Practices Advisory Commission, Administration.****R686-100. Professional Practices Advisory Commission, Rules of Procedure: Complaints and Hearings.****R686-100-1. Definitions.**

A. "Allegation of misconduct" means a written or oral report alleging that an educator has engaged in unprofessional, criminal, or incompetent conduct; is unfit for duty; has lost his license in another state due to revocation or suspension, or through voluntary surrender or lapse of a license in the face of a claim of misconduct; or has committed some other violation of standards of ethical conduct, performance, or professional competence.

B. "Applicant for a license" means a person seeking a new license or seeking reinstatement of an expired, surrendered, suspended, or revoked license.

C. "Board" means the Utah State Board of Education.

D. "Chair" means the Chair of the Commission.

E. "Commission" means the Utah Professional Practices Advisory Commission (UPPAC) as defined and authorized under Section 53A-6-301 et seq.

F. "Complaint" means a written allegation or charge against an educator.

G. "Complainant" means the Utah State Office of Education.

H. "Computer Aided Credentials of Teachers in Utah System (CACTUS)" means the electronic file maintained on all licensed Utah educators. The file includes such as:

- (1) personal directory information;
- (2) educational background;
- (3) endorsements;
- (4) employment history;
- (5) professional development information; and
- (6) a record of disciplinary action taken against the educator.

All information contained in an individual's CACTUS file is available to the individual, but is classified private or protected under Section 63-2-302 or 304 and is accessible only to specific designated individuals.

I. "Criminal conduct" means a criminal offense the conviction for which would likely create, or has created, a substantial and adverse impact on the educator's ability to perform the duties of his employment, including his duty as a role model for students.

J. "Days": in calculating any period of time prescribed or allowed by these rules, the day of the act, event, or default from which the designated period of time begins to run shall not be included; the last day of the period shall be included, unless it is a Saturday, a Sunday, or a legal holiday, in which event the period runs until the end of the next day which is not a Saturday, a Sunday, or a legal holiday. Saturdays, Sundays and legal holidays shall not be included in calculating the period of time if the period prescribed or allowed is less than seven days, but shall be included in calculating periods of seven or more days.

K. "Educator" means a person who currently holds a license, held a license at the time of an alleged offense, is an applicant for a license, or is a person in training, to obtain a license.

L. "Executive Committee" means a subcommittee of the Commission consisting of the Executive Secretary, Chair, Vice-Chair, and one member of the Commission at large. All Executive Committee members, excluding the Executive Secretary, shall be selected by the Commission. Substitutes may be appointed from within the Commission by the Executive Secretary as needed.

M. "Executive Secretary" means an employee of the Utah State Office of Education who is appointed by the State Superintendent of Public Instruction to serve as the executive

officer, and a non-voting member, of the Commission.

N. "Final action" means any action by the Commission or the Board which concludes an investigation of an allegation of misconduct against a licensed educator.

O. "Hearing" means a proceeding in which allegations made in a complaint are examined, where each party has the opportunity to present witnesses and evidence relevant to the complaint and respond to witnesses or evidence presented by the other party. At the conclusion of a hearing, the hearing officer, after consulting with members of the Commission assigned to assist in the hearing, prepares a hearing report and submits it to the Executive Secretary.

P. "Hearing Officer" means a person who is experienced in matters relating to administrative procedures, education and education law and is either a member of the Utah State Bar Association or a person not a member of the bar who has received specialized training in conducting administrative hearings, and is appointed by the Executive Secretary at the request of the Commission to manage the proceedings of a hearing. The Hearing Officer may not be an acting member of the Commission. The Hearing Officer has broad authority to regulate the course of the hearing and dispose of procedural requests but shall not have a vote as to the recommended disposition of a case.

Q. "Hearing Panel" means a Hearing Officer and three or more members of the Commission agreed upon by the Commission to assist the Hearing Officer in conjunction with the hearing panel in conducting a hearing and preparing a hearing report.

R. "Hearing report" means a report prepared by the Hearing Officer consistent with the recommendations of the hearing panel at the conclusion of a hearing. The report includes a recommended disposition, detailed findings of fact and conclusions of law, based upon the evidence presented in the hearing, relevant precedent, and applicable law and rule.

S. "Informant" means a person who submits information to the Commission concerning alleged misconduct by a person who may be subject to the jurisdiction of the Commission.

T. "Investigator" means a person who is knowledgeable about matters which could properly become part of a complaint before the Commission, as well as investigative procedures and rules and laws governing confidentiality, who is appointed by the Utah State Office of Education's Investigations Unit at the request of the Executive Secretary to investigate an allegation of misconduct.

U. "Jurisdiction" means the legal authority to hear and rule on a complaint.

V. "License" means a teaching or administrative credential, including endorsements, which is issued by a state to signify authorization for the person holding the license to provide professional services in the state's public schools.

W. "Licensing file" means a file that is opened and maintained on an educator following a written complaint to the Commission.

X. "National Association of State Directors of Teacher Education and Certification (NASDTEC) Educator Information Clearinghouse" means a database maintained by NASDTEC for its members regarding persons whose licenses have been suspended or revoked.

Y. "Office" means the Utah State Office of Education.

Z. "Party" means the complainant or the respondent.

AA. "Recommended disposition" means a recommendation for resolution of a complaint.

BB. "Prosecutor" means the attorney designated by the Board to represent the complainant and present evidence in support of the complaint.

CC. "Request for agency action" means a document prepared by the Executive Secretary, containing one or more

allegations of misconduct by an educator, a recommended course of action, and related information.

DD. "Respondent" means the party against whom a complaint is filed or an investigation is undertaken.

EE. "Serve" or "service," as used to refer to the provision of notice to a person, means delivery of a written document or its contents to the person or persons in question. Delivery may be made in person, by mail or by other means reasonably calculated, under all of the circumstances, to apprise the interested person or persons to the extent reasonably practical or practicable of the information contained in the document. Service of a complaint upon an educator shall be by mail to the address of the educator as shown upon the records of the Commission.

FF. "State" means the United States or one of the United States; a foreign country or one of its subordinate units occupying a position similar to that of one of the United States; or a territorial unit, of the United States or a foreign country, with a distinct general body of law.

GG. "Stipulated Agreement" means an agreement between a Respondent and the Board or a Respondent and the Commission under which disciplinary action against an educator's license status has been taken, in lieu of a hearing. At anytime after an investigative letter has been sent, a stipulated agreement may be negotiated between the parties, approved by the Commission, and becomes binding when approved by the Board, if necessary.

#### **R686-100-2. Authority and Purpose.**

A. This rule is authorized by Section 53A-6-306(1)(a) directing the Commission to adopt rules to carry out its responsibilities under the law.

B. The purpose of this rule is to establish procedures regarding complaints against educators and licensing hearings for the Commission to follow. The standards and procedures of the Utah Administrative Procedures Act do not apply to this rule under the exemption of Section 63-46b-1(2)(d). However, the Commission has the right to invoke and use sections or provisions of the Utah Administrative Procedures Act as found in Section 63-46b as necessary to adjudicate an issue.

#### **R686-100-3. Receipt of Allegations of Misconduct and Disposition by Commission and Records of Allegations.**

A. Initiating Proceedings Against an Educator: The Executive Secretary may initiate proceedings against an educator upon receiving an allegation of misconduct or upon the Executive Secretary's own initiative.

(1) An Informant may be asked to submit information in writing, including the following:

(a) Name, position (e.g. administrator, teacher, parent, student), telephone number and address of the informant;

(b) Name, position (e.g. administrator, teacher, candidate), and if known, the address and telephone number of the educator against whom the allegations are made;

(c) The facts on which the allegations are based and supporting information;

(d) A statement of the relief or action sought from the agency;

(e) Signature of the Informant and date.

(2) If an Informant submits a written allegation of misconduct as provided in Section R686-100-3A(1) above, the Informant shall be told he may receive notification of final actions taken by the Commission or the Board regarding the allegations by filing a written request for information with the Executive Secretary.

(3) Information received through telephone calls, letters, newspaper articles, notices from other states or other means may also form the basis for initiating proceedings against an

educator.

B. At the discretion of the Commission, all written allegations and subsequent dismissal or disciplinary action of a case against an educator may be maintained permanently in the individual's paper licensing file.

#### **R686-100-4. Review of Request for Agency Action.**

A. Initial Review: On reviewing the request for agency action, the Executive Secretary or the Executive Committee or both shall recommend one of the following to the Commission:

B. Dismiss: If the Executive Committee determines that the Commission lacks jurisdiction or that the request for agency action does not state a cause of action that the Commission should address, the Executive Committee shall recommend that the Commission dismiss the request.

C. Initiate an Investigation: If the Executive Secretary and the Executive Committee determine that the Commission has jurisdiction and that the request states a cause of action which may be appropriately addressed by the Commission, the Executive Secretary shall appoint an investigator to gather evidence relating to the allegations.

(1) The investigator shall review relevant documentation and interview individuals who may have knowledge of the allegations.

(2) The investigator shall prepare a written report of the findings of the investigation.

(3) If the investigator discovers additional evidence of unprofessional conduct which should have been included in the original request, it may be included in the investigation report.

(4) The completed report shall be submitted to the Executive Secretary, who shall review the report with the Commission.

(5) The investigation report shall become part of the permanent case file.

D. Prior to the initiation of any investigation, the Executive Secretary shall send a letter to the educator to be investigated, a copy of the letter to the district of current employment, and to the district where the alleged activity occurred, with information that an investigation has been initiated. The letter shall indicate to the educator and the district(s) that an investigation will take place and is not evidence of unprofessional conduct.

E. Secondary Review: The Executive Committee shall review the investigation report and upon completing its review shall recommend one of the following to the Commission:

(1) Dismiss: If the Executive Committee determines no further action should be taken, it shall recommend to the Commission that the request for agency action be dismissed as provided in Section R686-100-4B, above; or

(2) Prepare and Serve COMPLAINT: If the Executive Committee determines further action is appropriate, the Executive Committee shall recommend that the Commission direct the Prosecutor to prepare and serve a Complaint and a copy of these rules upon the Respondent. The Complaint shall have a heading similar to that used for the request for agency action, and shall include:

(a) A statement of the legal authority and jurisdiction under which the action is being taken;

(b) A statement of the facts and allegations upon which the complaint is based;

(c) Other information which the Prosecutor believes to be necessary to enable the Respondent to understand and address the allegations;

(d) A statement of the potential consequences should the allegations be found to be true or substantially true;

(e) A statement that, the Respondent shall respond to

the Complaint, request a hearing, or discuss a stipulated agreement, within 30 days of the date the Complaint was mailed to the Respondent, by filing a written response addressed to the Executive Secretary of the Professional Practices Advisory Commission, at the mailing address for the Office. The statement shall advise the Respondent of the potential consequences if the Respondent fails to respond to the Complaint within the designated time;

(f) Notice that, if a hearing is requested, the hearing shall be scheduled not less than 25 days, nor more than 180 days, after receipt of the Respondent's response, unless a different date is agreed to by both parties in writing. On his own motion, the Executive Secretary, or designee with notice to the parties, may reschedule a hearing date.

(3) A Stipulated Agreement between the parties.

(4) That the action be taken by the Commission.

F. RESPONSE to the Complaint: Any response to the complaint shall be made by filing a written response signed by the Respondent or his representative with the Executive Secretary within 30 days after the Complaint was mailed. The answer may include a request for a hearing or a stipulated agreement and shall include:

(1) The file number of the Complaint;

(2) The names of the parties;

(3) A statement of the relief that the Respondent seeks; and

(4) A statement of the reasons that the relief requested should be granted.

(5) Final Review: As soon as reasonably practicable after receiving the answer, or no more than 30 days after the answer was due, the Executive Secretary shall review any response received, the investigative report, and other relevant information with the Executive Committee. The Executive Committee shall recommend one of the following to the Commission:

(a) Enter a Default: If the Respondent fails to file an answer, fails to request a hearing, fails to request or respond to a proffered Stipulated Agreement within 30 days after service of the Complaint, or surrenders a license in the face of allegations of misconduct without benefit of a stipulated agreement, the Executive Committee shall recommend that the Commission direct the Prosecutor to prepare findings in default and a recommended disposition for submission to the Commission in accordance with Section R686-100-16.

(b) Dismiss the Complaint: If the Executive Committee determines that there are insufficient grounds to proceed with the complaint, the Executive Committee shall recommend to the Commission that the complaint be dismissed. If the Commission votes to uphold the dismissal, the Informant and Respondent shall each be served with notice of the dismissal.

(c) Schedule a Hearing: If the Respondent requests a hearing, the Commission shall direct the Executive Secretary to schedule a hearing as provided in Section R686-100-5.

(d) Respond to a request for a Stipulated Agreement: Respondent may agree to a Stipulated Agreement at any time after an investigative letter has been sent. No Stipulated Agreement shall be final until authorized by the Commission and, if the Agreement is for suspension or revocation, acted on by the Board.

G. A Stipulated Agreement shall, at minimum, include:

(1) A summary of the facts, the allegations, the evidence relied upon by the Commission in its decision, and the Respondent's response, if any;

(2) A statement that the Respondent agrees to limitations on his license or surrenders his license rather than contest the charges and the Respondent accepts the facts recited in the Stipulated Agreement as true;

(3) A commitment from the Respondent that he shall not seek or provide professional services in a public school in any

state, or otherwise seek to obtain or use a license in any state, or work or volunteer in a public K-12 setting in any capacity unless or until the Respondent first obtains a valid Utah license or authorization from the Board to obtain such a license, or satisfy other provisions provided in the Stipulated Agreement;

(4) Provision for surrender of Respondent's license or evidence in a form acceptable to the Commission that the Respondent does not have a paper copy of the license;

(5) A statement that the surrender and the Stipulated Agreement shall be reported to other states through the NASDTEC Educator Information Clearinghouse; and

(6) Other provisions applicable to the case, such as remediation, counseling, rehabilitation, and conditions--if any--under which the Respondent may request a reinstatement hearing or resissuance of his license.

(7) A statement that the Respondent waives his right to a hearing to contest the allegations in the Complaint, or the contents of the Stipulated Agreement, and that the Respondent agrees to the terms of the Stipulated Agreement.

(8) A statement that Respondent waives any right to contest the facts stated in the Stipulated Agreement at a subsequent reinstatement hearing, if any.

(9) A statement that all records related to the Stipulated Agreement shall remain permanently in the educator's licensing file at the Office.

(a) The Stipulated Agreement shall be forwarded to the Commission for approval.

(b) If the Commission rejects the request or the Stipulated Agreement, the Respondent shall be served with notice of the decision, which shall be final, and the proceedings shall continue from the point under these procedures at which the request was made, as if the request had not been submitted.

(c) If the Commission accepts the Stipulated Agreement, the agreement shall be forwarded to the Board for consideration.

(d) If the Board rejects the agreement, the Executive Secretary shall notify the parties of the decision and the proceedings shall continue from the point under these procedures at which the request was made, as if the request had not been submitted.

(e) If, after requesting a Stipulated Agreement, a Respondent fails to sign or respond to a proffered Agreement within 30 days after the Agreement is mailed, the Executive Committee shall recommend that the Commission direct the Prosecutor to prepare findings in default and a recommended disposition for submission to the Commission in accordance with Section R686-100-16.

(f) Violations of the terms of a valid Stipulated Agreement may result in an additional five-year revocation of the Respondent's license.

H. Other Disciplinary Action:

(1) Recommend that the Commission direct the Executive Secretary to take appropriate disciplinary action against an educator which may include: an admonishment, a letter of warning, a written reprimand, or an agreement not to teach.

(2) If so directed, documentation of the disciplinary action shall be sent to the Respondent's employing school district or to a district where the Respondent finds employment.

(3) Additional conditions of retention and documentation of disciplinary actions taken by the Commission are provided in R686-100-15.

I. Agreement not to teach:

(1) If compelling circumstances exist, as determined by the Commission, an educator may agree not to be employed in the schools of any state without thorough and exhaustive

review of all allegations of misconduct.

(2) Compelling circumstances may include a single serious allegation with mitigating circumstances that did not involve students within a long-term, otherwise exemplary, career.

(3) Other provisions:

(a) The educator shall surrender his educator license to the Commission;

(b) The NASDTEC Clearinghouse shall receive notification of the invalidation of the educator's license;

(c) The educator may be required to provide to the Commission annually employment and current address information;

(d) Acknowledgment may be made of the existence of the agreement not to teach, otherwise the agreement and its provisions shall remain confidential.

(e) If the educator breaches the agreement not to teach, the agreement shall be voidable at the sole discretion of the Commission, and the Commission may initiate further disciplinary action against the educator.

J. Probation

(1) If compelling circumstances exist, as determined by the Commission, an educator may be placed on probation for a specified period of time.

(2) A hearing report or a Stipulated Agreement may provide directives for an educator during the specified probation period.

(3) A probationary term shall be reported to the educator's employing district or school and referenced on the educator's Cactus file.

(4) At the end of the probation term, the educator may petition the Executive Secretary for termination of probation. The petition shall include:

(a) complete documentation of satisfaction of all terms of probation. Incomplete, inaccurate or misleading documentation shall not be considered;

(b) a written statement by the educator explaining the reasons termination of probation is warranted;

(c) results of a criminal background check completed within six months of the request;

(d) any other documentation or evidence requested by the Executive Secretary.

(5) The Executive Secretary and Investigator shall review the documentation, may schedule an informal hearing with the probationary educator, and make a recommendation to Commission if termination of probation is warranted.

(6) If the Executive Secretary or the Commission determine that termination is not warranted, the educator may reapply for termination of probation no sooner than one year from the date of the Executive Secretary or Commission decision.

(7) Consequences for violation of probation or failure to satisfy all conditions of probation may include an extended probation, a renewed investigation, and notice to an employer that the individual is in violation of a professional probation agreement.

K. Surrender:

(1) If an educator surrenders his license, the surrender shall have the effect of revocation unless otherwise designated by the Commission;

(2) The Board shall receive official notification of the surrender at an official Board meeting; and

(3) The Executive Secretary shall enter findings in the educator's licensing file explaining the circumstances of the surrender.

(4) Surrender of an educator's license is not a final action. Surrender shall include a Stipulated Agreement or findings of fact, as determined by the Commission, to complete the educator's misconduct file, except as provided in

Section (6) and (7) of this part.

(5) Upon receipt of the educator's license by the Executive Secretary, the educator shall be notified in a timely manner that:

(a) he has the right to a hearing before the Commission to contest specific allegations against him;

(b) he has a right to consult an attorney concerning the allegations;

(c) absent response by the educator, the educator admits that the allegations set forth in the Complaint are substantially true;

(d) the Board may take action to suspend or revoke the educator license following the surrender and notice of procedures and consequences to the educator; and

(e) following final administrative action by the Commission or action by the Board, the status of the educator's license shall be indicated on the educator's CACTUS file.

(6) An educator who agrees to surrender his license pursuant to a plea, diversion, or similar agreement from a court shall be deemed to have waived his right to a Stipulated Agreement or hearing before the Commission. The Board may take action to revoke his license upon receipt of the applicable plea or diversion agreement.

(7) An educator who returns his license to the Commission without signing a Stipulated Agreement or requesting a hearing within 60 days after the receipt of his license by the Office shall be deemed to have waived his right to an agreement or a hearing.

#### **R686-100-5. Hearing Procedures.**

A. Scheduling the Hearing: The Commission shall agree upon Commission panel members, and the Executive Secretary shall appoint a Hearing Officer from among a list of Hearing Officers identified by the state procurement process approved by the Commission, and schedule the date, time, and place for the hearing. The selection of Hearing Officers shall be on a rotating basis, to the extent practicable, from the list of available Hearing Officers. The selection of a Hearing Officer shall also be made based on availability of individual Hearing Officers and whether any financial or personal interest or prior relationship with parties might affect the Hearing Officer's impartiality or otherwise constitute a conflict of interest. The Executive Secretary shall provide such information about the case as necessary to determine whether the Hearing Officer has a conflict of interest and shall disqualify any Hearing Officer that cannot serve under the Utah Rules of Professional Conduct. The date for the hearing shall be scheduled not less than 25 days nor more than 180 days from the date the response is received by the Executive Secretary. If exceptional circumstances exist which make it impracticable for a party to be present in person, the Executive Secretary may, with the consent of the parties, permit participation by electronic means. The required scheduling periods may be waived by mutual written consent of the parties or by the Commission for good cause shown.

B. Change of Hearing Date:

(1) A request for change of hearing date by any party shall be submitted in writing, include a statement of the reasons for the request, and be received by the Executive Secretary at least five days prior to the scheduled date of the hearing.

(2) The Executive Secretary shall determine whether the cause stated in the request is sufficient to warrant a change of hearing date.

(a) If the cause is found to be sufficient, the Executive Secretary shall promptly notify all parties of the new time, date, and place for the hearing.

(b) If the cause is found to be insufficient, the Executive Secretary shall immediately notify the parties that the request has been denied.

(c) The Executive Secretary and the parties may waive the time period required for requesting a change of hearing date for exceptional circumstances.

**R686-100-6. Appointment and Duties of the Hearing Officer and Hearing Panel.**

A. Hearing Officer: The Executive Secretary shall appoint a Hearing Officer at the request of the Commission to chair the hearing panel and conduct the hearing. The Hearing Officer:

(1) may require the parties to submit briefs and lists of witnesses prior to the hearing;

(2) presides at the hearing and regulates the course of the proceedings;

(3) administers oaths to witnesses as follows: "Do you swear or affirm that the testimony you will give is the truth?";

(4) may take testimony, rule on questions of evidence, and ask questions of witnesses to clarify specific issues;

(5) prepares and submits a hearing report at the conclusion of the proceedings in consultation with panel members consistent with R686-100-1R and the timelines of this rule.

B. Commission Panel Members: The Commission shall agree upon three or more Commission members to serve as Commission members of the hearing panel. As directed by the Commission, former Commission members who have served on the Commission within the three years prior to the date set for the hearing may be used as panel members. The majority of panel members shall be current Commission members.

(1) The selection of panel members shall be on a rotating basis to the extent practicable. However, the selection shall also accommodate the availability of panel members.

(2) The majority of a panel shall be educators.

(3) If the Respondent is a teacher, at least one panel member shall be a teacher. If the Respondent is an administrator, at least one panel member shall be an administrator unless the Respondent objects to the configuration of the panel.

(4) Duties of the Commission panel members include:

(a) Assisting the Hearing Officer by providing information concerning common standards and practices of educators in the Respondent's particular field of practice and in the situations alleged;

(b) Asking questions of all witnesses to clarify specific issues;

(c) Reviewing all briefs and evidence presented at the hearing;

(d) Assisting the Hearing Officer in preparing the hearing report.

(5) The panel members shall not receive any documents prior to the hearing except the Complaint and Response, and a list of witnesses who will participate in the hearing. The Hearing Officer may provide any documents to the panel members prior to the hearing that the parties stipulate may be provided. Unless a different time is agreed to by the parties, documents shall be provided to the panel 30 minutes prior to the hearing.

(6) The Executive Secretary may make an emergency substitution of a panel member for cause with the agreement of the parties. The agreement should be in writing but if time does not permit written communication of the agreement to reach the Executive Secretary prior to the scheduled time of the hearing, an Acceptance of Substituted Hearing Panel Member shall be signed by the parties prior to commencement

of the hearing. If the panel cannot be filled within a reasonable time, the Executive Secretary may reschedule the hearing date.

C. Disqualification of the Hearing Officer or a panel member:

(1) Hearing Officer:

(a) A party may seek disqualification of a Hearing Officer by submitting a written request for disqualification to the Executive Secretary, which request must be received not less than 15 days before a scheduled hearing. The Executive Secretary shall review the request and supporting evidence and, upon a finding that the reasons for the request are substantial and sufficient, shall appoint a new Hearing Officer and, if necessary, reschedule the hearing. A Hearing Officer may recuse himself from a hearing if, in the Hearing Officer's opinion, his participation would violate any of the Utah Rules of Professional Conduct consistent with the Supreme Court Rules of Professional Practice, Chapter 13.

(b) If the Executive Secretary denies the request, the party requesting the disqualification shall be notified not less than ten days prior to the date of the hearing. The requesting party may submit a written appeal of the denial to the State Superintendent, which request must be received not less than five days prior to the hearing date. If the State Superintendent finds that the appeal is justified, he shall direct the Executive Secretary to appoint a new Hearing Officer and, if necessary, reschedule the hearing.

(c) The decision of the State Superintendent is final.

(d) Failure of a party to meet the time requirements of Section R686-100-6C(1) shall result in denial of the request or appeal; if the Executive Secretary fails to meet the time requirements, the request or appeal shall be approved.

(2) Commission panel member:

(a) A Commission member shall disqualify himself as a panel member due to any known financial or personal interest, prior relationship, personal and independent knowledge of the persons or issues in the case, or other association that would compromise the panel member's ability to make an impartial decision.

(b) A party may seek disqualification of a Commission panel member by submitting a written request for disqualification to the Hearing Officer, or the Executive Secretary if there is no Hearing Officer, which request shall be received not less than 15 days before a scheduled hearing. The Hearing Officer, or the Executive Secretary, if there is no Hearing Officer, shall review the request and supporting evidence and, upon a finding that the reasons for the request are substantial and compelling, shall disqualify the panel member. If the disqualification leaves the hearing panel with fewer than three Commission panel members, the Commission shall appoint a replacement and the Hearing Officer shall, if necessary, reschedule the hearing.

(c) If the request is denied, the party requesting the disqualification shall be notified not less than ten days prior to the date of the hearing. The requesting party may file a written appeal of the denial to the State Superintendent, which request shall be received not less than five days prior to the hearing date. If the State Superintendent finds that the appeal is justified, he shall direct the Hearing Officer, or the Executive Secretary if there is no Hearing Officer, to replace the panel member.

(d) If a disqualification leaves the hearing panel with fewer than three Commission panel members, the Commission shall agree upon a replacement and the Hearing Officer shall, if necessary, reschedule the hearing.

(e) The decision of the State Superintendent is final.

(f) Failure of a party to meet the time requirements of Section R686-100-7C(2) shall result in denial of the request or appeal; if the Hearing Officer fails to meet the time

requirements, the request or appeal shall be approved.

E. The Executive Secretary may, at the time he selects the Hearing Officer or panel members, select alternative Hearing Officers or panel members following the process for selecting those individuals.

**R686-100-7. Preliminary Instructions to Parties to a Hearing.**

A. Not less than 30 days before the date of a hearing the Executive Secretary shall provide the parties with the following information:

- (1) Date, time, and location of the hearing;
- (2) Names and school district affiliations of the panel members, and the name of the Hearing Officer;
- (3) Procedures for objecting to any member of the hearing panel; and
- (4) Procedures for requesting a change in the hearing date.

B. Not less than 20 days before the date of the hearing, the Respondent and the Complainant shall serve the following upon the other party and submit a copy and proof of service to the Hearing Officer:

- (1) A brief, if requested by the Hearing Officer, containing any procedural and evidentiary motions along with that party's position regarding the allegations. Submitted briefs shall include relevant laws, rules, and precedent;
- (2) The name of the person who shall represent the party at the hearing, a list of witnesses expected to be called, a summary of the testimony which each witness is expected to present, and a summary of documentary evidence which shall be submitted.

C. If a party fails to comply in good faith with a directive of the Hearing Officer under Section R686-100-7A, including time requirements for service, the Hearing Officer may prohibit introduction of the testimony or evidence or take other steps reasonably appropriate under the circumstances including, in extreme cases of noncompliance, entry of a default against the offending party. Nothing in this section prevents the use of rebuttal witnesses.

D. Parties shall provide materials to the Hearing Officer, panel members and Commission as directed by the Hearing Officer.

**R686-100-8. Hearing Parties' Representation.**

A. Complainant: The Complainant shall be represented by a person appointed by the State Superintendent or his designee.

B. Respondent: A Respondent may represent himself or be represented, at his own cost, by another person.

C. The informant has no right to individual representation at the hearing or to be present or heard at the hearing unless called as a witness.

D. The Executive Secretary shall receive timely notice in writing of representation by anyone other than the Respondent.

**R686-100-9. Discovery Prior to a Hearing.**

A. Discovery is permitted to the extent necessary to obtain relevant information necessary to support claims or defenses, as determined by the appointed Hearing Officer.

B. Discovery, especially burdensome or unduly legalistic discovery, may not be used to delay a hearing.

C. Discovery may be limited by the Hearing Officer at his discretion or upon a motion by either party. The Hearing Officer rules on all discovery requests and motions.

D. Subpoenas and other orders to secure the attendance of witnesses or the production of evidence shall be issued pursuant to Section 53A-6-306(2)(c) if requested by either party at least five working days prior to the hearing.

E. Either party may request the names of witnesses the opposing party expects to call at the hearing and to receive a copy of or examine all documents and exhibits that the opposing party intends to use as evidence during the hearing.

F. Except as provided in R100-7C, no witness or evidence may be presented at the hearing if the opposing party has requested to be notified of such information and has not been fairly apprised at least 10 days prior to the hearing. The timeliness requirement may be waived by agreement of the parties or by the Hearing Officer upon a showing of good cause or the Hearing Officer's determination that no prejudice has occurred to the opposing party. This restriction shall not apply to rebuttal witnesses whose testimony, where required, cannot reasonably be anticipated before the time of the hearing.

G. No expert witness report or testimony may be presented at the hearing unless the requirements of Section R686-100-13 have been met.

**R686-100-10. Burden and Standard of Proof for Commission Proceedings.**

A. In matters other than those involving applicants for licensing, and excepting the presumptions under Section R686-100-14G, the complainant shall have the burden of proving that action against the license is appropriate.

B. An applicant for licensing has the burden of proving that licensing is appropriate.

C. Standard of proof: The standard of proof in all Commission hearings is a preponderance of the evidence.

D. Evidence: The Utah Rules of Evidence are not applicable to Commission proceedings. The criteria to decide evidentiary questions shall be:

- (1) reasonable reliability of the offered evidence;
- (2) fairness to both parties; and
- (3) usefulness to the Commission in reaching a decision.

E. The Hearing Officer has the sole responsibility to determine the application of the hearing rules and the admissibility of evidence.

**R686-100-11. Deportment.**

A. Parties, their representatives, witnesses, and other persons present during a hearing shall conduct themselves in an appropriate manner during hearings, giving due respect to members of the hearing panel and complying with the instructions of the Hearing Officer. The Hearing Officer may expel persons from the hearing room who fail to conduct themselves in an appropriate manner and may, in response to extreme instances of noncompliance, disallow testimony or declare an offending party to be in default.

B. Parties, attorneys for parties, or other participants in the professional practices investigation and hearing process shall not harass, intimidate or pressure witnesses or other hearing participants, nor shall they direct others to harass, intimidate or pressure witnesses or participants.

**R686-100-12. Hearing Record.**

A. The hearing shall be tape recorded at the Commission's expense, and the tapes shall become part of the permanent case record, unless otherwise agreed upon by all parties.

B. Individual parties may, at their own expense, make recordings of the proceedings with notice to the Executive Secretary.

C. If an exhibit is admitted as evidence, the record shall reflect the contents of the exhibit.

D. All evidence and statements presented at a hearing shall become part of the permanent case file and shall not be removed except by order of the Board.

E. The Office record of the proceedings may be

reviewed upon request of a party under supervision of the Executive Secretary and only at the Office.

**R686-100-13. Expert Witnesses in Commission Proceedings.**

A. A party may call an expert witness at its own expense. Notice of intent of a party to call an expert witness, the identity and qualifications of such expert witness and the purpose for which the expert witness is to be called shall be provided to the Hearing Officer and the opposing party at least 15 days prior to the hearing date.

B. The Hearing Officer may appoint any expert witness agreed upon by the parties or of the Hearing Officer's own selection. An expert so appointed shall be informed of his duties by the Hearing Officer in writing, a copy of which shall become part of the permanent case file. The expert shall advise the hearing panel and the parties of his findings and may thereafter be called to testify by the hearing panel or by any party. He may be examined by each party or by any of the hearing panel members.

C. Defects in the qualifications of expert witnesses, once a minimum threshold of expertise is established, go to the weight to be given their testimony and not to its admissibility.

D. Experts who are members of the Complainant's staff or a school district staff may testify and have their testimony considered as part of the record along with that of any other expert.

E. Any report of an expert witness which a party intends to introduce into evidence shall be provided to the opposing party at least 15 days prior to the hearing date.

**R686-100-14. Evidence and Participation in Commission Proceedings.**

A. The Hearing Officer may not exclude evidence solely because it is hearsay.

B. Each party has the right to call witnesses, present evidence, argue, respond, cross-examine witnesses who testify in person at the hearing, and submit rebuttal evidence.

C. All testimony presented at the hearing, if offered as evidence to be considered in reaching a decision on the merits, shall be given under oath.

D. In any case involving allegations of child abuse or of a sexual offense against a child, upon request of either party or by a member of the hearing panel, the Hearing Officer may determine whether a significant risk exists that the child would suffer serious emotional or mental harm if required to testify in the Respondent's presence, or whether a significant risk exists that the child's testimony would be inherently unreliable if required to testify in the Respondent's presence. If the Hearing Officer determines either to be the case, then the child's testimony may be admitted in one of the following ways:

(1) An oral statement of a victim or witness younger than 18 years of age which is recorded prior to the filing of a complaint shall be admissible as evidence in a hearing regarding the offense if:

(a) No attorney for either party is in the child's presence when the statement is recorded;

(b) The recording is visual and aural and is recorded on film or videotape or by other electronic means;

(c) The recording equipment is capable of making an accurate recording, the operator of the equipment is competent, and the recording is accurate and has not been altered; and

(d) Each voice in the recording is identified.

(2) The testimony of any witness or victim younger than 18 years of age may be taken in a room other than the hearing room, and be transmitted by closed circuit equipment to another room where it can be viewed by the Respondent. All

of the following conditions shall be observed:

(a) Only the hearing panel members, attorneys for each party, persons necessary to operate equipment, and a person approved by the Hearing Officer whose presence contributes to the welfare and emotional well-being of the child may be with the child during his testimony.

(b) The Respondent may not be present during the child's testimony;

(c) The Hearing Officer shall ensure that the child cannot hear or see the Respondent;

(d) The Respondent shall be permitted to observe and hear, but not communicate with, the child; and

(e) Only hearing panel members and the attorneys may question the child.

(3) The testimony of any witness or victim younger than 18 years of age may be taken outside the hearing room and recorded if the provisions of Sections R686-100-14E(2)(a)(b)(c) and (e) and the following are observed:

(a) The recording is both visual and aural and recorded on film or videotape or by other electronic means;

(b) The recording equipment is capable of making an accurate recording, the operator is competent, and the recording is accurate and is not altered;

(c) Each voice on the recording is identified; and

(d) Each party is given an opportunity to view the recording before it is shown in the hearing room.

(4) If the Hearing Officer determines that the testimony of a child shall be taken under Section R686-100-14E(1)(2) or (3) above, the child may not be required to testify in any proceeding where the recorded testimony is used.

E. On his own motion or upon objection by a party, the Hearing Officer:

(1) May exclude evidence that the Hearing Officer determines to be irrelevant, immaterial, or unduly repetitious;

(2) Shall exclude evidence that is privileged under law applicable to administrative proceedings in Utah unless waived;

(3) May receive documentary evidence in the form of a copy or excerpt if the copy or excerpt contains all pertinent portions of the original document;

(4) May take official notice of any facts that could be judicially noticed under judicial or administrative laws of Utah, or from the record of other proceedings before the agency.

F. Presumptions:

(1) A rebuttable evidentiary presumption exists that a person has committed a sexual offense against a minor child if the person has:

(a) Been found, pursuant to a criminal, civil, or administrative action to have committed a sexual offense against a minor;

(b) Failed to defend himself against such a charge when given a reasonable opportunity to do so; or

(c) Voluntarily surrendered a license or allowed a license to lapse in the face of a charge of having committed a sexual offense against a minor.

(2) A rebuttable evidentiary presumption exists that a person is unfit to serve as an educator if the person has been found pursuant to a criminal, civil, or administrative action to have exhibited behavior evidencing unfitness for duty, including immoral, unprofessional, or incompetent conduct, or other violation of standards of ethical conduct, performance, or professional competence. Evidence of such behavior may include:

(a) conviction of a felony;

(b) a felony charge and subsequent conviction for a lesser related charge pursuant to a plea bargain or plea in abeyance;

(c) an investigation of an educator's license, certificate

or authorization in another state; or

(d) the expiration, surrender, suspension, revocation, or invalidation for any reasons of an educator license.

H. The Hearing Officer may confer with the Executive Secretary or the panel members or both while preparing the Hearing Report. The Hearing Officer may request the Executive Secretary to confer with the Hearing Officer and panel following the hearing.

I. The Executive Secretary may return a Hearing Report to a Hearing Officer if the Report is incomplete, unclear, or unreadable.

#### **R686-100-15. Hearing Report.**

A. Within 20 days after the hearing, or within 20 days after the deadline imposed for the filing of any post-hearing materials permitted by the Hearing Officer, the Hearing Officer shall sign and issue a Hearing Report consistent with the recommendations of the panel that includes:

(1) A detailed findings of fact and conclusions of law based upon the evidence of record or on facts officially noted. Findings of fact may not be based solely upon hearsay, and conclusions shall be based upon competent evidence;

(2) A statement of relevant precedent, if available;

(3) A statement of applicable law and rule;

(4) A recommended disposition of the Commission panel members which shall be one of the following:

(a) Dismissal of the Complaint: The hearing report shall indicate that the complaint should be dismissed and that no further action should be taken.

(b) Warning: the hearing report shall indicate that Respondent's conduct is deemed unprofessional and shall direct the Executive Secretary to write a letter of warning to the Respondent. A letter of warning:

(i) shall be maintained permanently in Respondent's paper licensing file;

(ii) shall be mailed to Respondent or, if Respondent is represented by counsel, to Respondent's counsel;

(iii) shall state that the letter does not affect Respondent's license status;

(iv) shall not be noted on Respondent's active CACTUS file;

(v) shall not be copied and mailed to the Respondent's employing school district, although the employing school district shall be notified that Respondent received a warning letter;

(vi) shall not be public information, although, as a final administrative decision, the existence of the letter is public information;

(vii) shall state that a letter of warning may be considered by the Commission or the Board if formal allegations are made regarding Respondent's conduct in the future; and

(viii) may be acknowledged and summarized to prospective employers upon request.

(c) Reprimand: the hearing report shall indicate that Respondent's conduct is deemed unprofessional and shall direct the Executive Secretary to write a letter of reprimand to the Respondent. A letter of reprimand:

(i) shall be maintained permanently in Respondent's paper licensing file;

(ii) shall be mailed to Respondent or, if Respondent is represented by counsel, to Respondent's counsel;

(iii) shall state that the letter does not affect Respondent's license status;

(iv) shall be noted on Respondent's active CACTUS file for the period stated in the hearing report and until Respondent's written request for removal of the letter is granted;

(v) shall be copied and send to Respondent's employing

school district;

(vi) shall not be public information, although, as a final administrative decision, the existence of the letter is public information; and

(vii) shall state that a letter of reprimand may be considered by the Commission or the Board if formal allegations are made regarding Respondent's conduct in the future; and

(viii) may be acknowledged and summarized to prospective employers upon request.

(d) It is the Respondent's responsibility to petition the Commission for removal of letters of warning and reprimand from his licensing and CACTUS files.

(e) Probation: The hearing report shall determine whether the Respondent's conduct was unprofessional, that the Respondent shall not lose his license, but that a probationary period is appropriate. If the report recommends probation, the report shall designate:

(i) a probationary time period;

(ii) conditions that can be monitored;

(iii) a person or entity to monitor a Respondent's probation;

(iv) a statement providing for costs of probation.

(v) whether or not the Respondent may work in any capacity in education during the probationary period.

A probation may be imposed substantially in the form of a plea in abeyance. The Respondent's penalty is stayed subject to the satisfactory completion of probationary conditions. The decision shall provide for discipline should the probationary conditions not be fully satisfied.

(f) Suspension: The hearing report shall recommend to the Board that the license of the Respondent be suspended for a specific period of time and until specified reinstatement conditions have been met before Respondent may petition for reinstatement of his license. The hearing report shall indicate that, should the Board confirm the recommended decision, the Respondent shall return the printed suspended license to the Office and that the Educator Licensing Section of the Office shall notify the employing school district, all other Utah school districts, and all other state, territorial, and national licensing offices or clearing houses of the suspension in accordance with R277-514.

(g) Revocation: The hearing report shall recommend to the State Board of Education that the license of the Respondent be revoked for a period of not less than five years. The hearing report shall indicate that should the Board confirm the recommended decision, the Respondent shall return any paper copies of the revoked license to the Office and that the Educator Licensing Section of the Office shall notify the employing school district, all other Utah school districts, and all other state, territorial, and national licensing offices or clearing houses of the revocation in accordance with R277-514.

(5) Notice of the right to appeal; and

(6) Time limits applicable to appeal.

#### **B. Processing the Hearing Report:**

(1) The Hearing Officer shall circulate the draft report to hearing panel members prior to the 20 day completion deadline of the hearing report.

(2) Hearing panel members shall notify the Hearing Officer of any changes to the report as soon as possible after receiving the report and prior to the 20 day completion deadline of the hearing report.

(3) The Hearing Officer shall file the completed hearing report with the Executive Secretary, who shall review the report with the Commission.

(4) If the Commission, upon review of the hearing report, finds by majority vote, that there have been significant procedural errors in the hearing process or that the weight of

the evidence does not support the conclusions of the hearing report, the Commission may direct the Executive Secretary to prepare an alternate hearing report and follow procedures under R686-100-15B(2).

(5) The Executive Secretary may be present, at the discretion of the Commission, but may only participate in the Commission's deliberation as a resource to the Commission in explaining the hearing report and answering any procedural questions raised by Commission members.

(6) If the Commission finds that there have not been significant procedural errors or that recommendations are based upon a reasonable interpretation of the evidence presented at the hearing, the Commission shall vote to uphold the Hearing Officer's report and do one of the following:

(a) If the recommendation is for final action to be taken by the Commission, the Commission shall direct the Executive Secretary to prepare a corresponding final order and serve all parties with a copy of the order and hearing report. A copy of the order and the hearing report shall be placed in and become part of the permanent case file. The order shall be effective upon approval by the Commission.

(b) If the recommendation is for final action to be taken by the Board, the Executive Secretary shall forward a copy of the hearing report to the Board for its further action. A copy of the hearing report shall also be placed in and become part of the permanent case file.

(7) If the Commission determines that procedural errors or that the Hearing Officer's report is not based upon a reasonable interpretation of the evidence presented at the hearing to the extent that an amended hearing report cannot be agreed upon, the Commission shall direct the Executive Secretary to schedule the matter for rehearing before a new Hearing Officer and panel.

C. Consistent with Section 63-2-301(1)(c), the final administrative disposition of all administrative proceedings, the Recommended Disposition section of the Hearing Report, of the Commission shall be public. The hearing findings/report of suspensions and expulsions shall be public information and shall be provided consistent with Section 63-2-301(1)(c). The Recommended Disposition portion of the Hearing Report of warnings, reprimands and probations (including the probationary conditions) shall be public information. All references to individuals and personally identifiable information about individuals not parties to the hearing shall be redacted prior to making the disposition public.

D. Failure to comply with the terms of a final disposition that includes a suspension or revocation of the Respondent's license may result in an additional five-year revocation of the license.

E. If a hearing officer fails to satisfy his responsibilities under this rule, the Commission may:

- (1) notify the Utah State Bar of the failure;
- (2) reduce the hearing officer's compensation consistent with his failure;
- (3) take timely action to avoid disadvantaging either party; and
- (4) preclude the hearing officer from further employment by the Board for Commission purposes.

F. Deadlines within this section may be waived by the Commission for good cause shown.

G. All criteria of letters of warning and reprimand, probation, suspension and revocation shall also apply to final Stipulated Agreements, agreed to and signed by both parties.

**R686-100-16. Default Procedures.**

A. An order of default may be issued against a Respondent under any of the following circumstances:

- (1) The Prosecutor may prepare an order of default by

preparing a report of default including the order of default, a statement of the grounds for default, and a recommended disposition if the Respondent fails to file a response to a complaint or respond to a proffered Stipulated Agreement following written notice and telephone contact, to the extent possible, for an additional 20 days following the time period allowed for response to a complaint under R686-100-4F or G.

(2) The Hearing Officer may enter an order of default against a Respondent by preparing a hearing report including the order of default, a statement of the grounds for default and the recommended disposition if:

(a) The Respondent fails to attend or participate in a properly scheduled hearing after receiving proper notice. The Hearing Officer may determine that the Respondent has failed to attend a properly scheduled hearing if the Respondent has not appeared within 30 minutes of the appointed time for the hearing to begin, unless the Respondent shows good cause for failing to appear in a timely manner.

(b) The Respondent or the Respondent's representative commits misconduct during the course of the hearing process as provided under Section R686-100-8D.

B. The recommendation of default may be executed by the Executive Secretary following all applicable time periods, without further action by the Commission.

**R686-100-17. Appeal.**

A. Either party may appeal a final recommendation of the Commission for a suspension of the Respondent's license for two or more years or a revocation to the State Superintendent. A request for review by the State Superintendent shall follow the procedures in R277-514-3 and be submitted in writing within 15 days from the date that the Commission sends written notice to the parties of its recommendation.

(1) Either party may appeal the Superintendent's decision to the Board following the procedures in R277-514-4.

B. Either party may appeal a Commission recommendation for a suspension of less than two years or dismissal of the case to the Board following the procedures in R277-514-4B.

C. A request for appeal to the State Superintendent or the Board shall include:

- (1) name, position, and address of appellant;
- (2) issue(s) being appealed; and
- (3) signature of appellant.

**R686-100-18. Remedies for Individuals Beyond Commission Actions.**

Despite Commission or Board actions, informants or other injured parties who feel that their rights have been compromised, impaired or not addressed by the provisions of this rule, may appeal directly to district court.

**R686-100-19. Application for Licensing Following Denial or Loss of License.**

A. An individual who has been denied licensing or lost his license through revocation or suspension, or through surrender of a license or allowing a license to lapse in the face of an allegation of misconduct, may request review to consider reinstatement of a license.

(1) The request for review shall be in writing and addressed to the Executive Secretary, Professional Practices Advisory Commission, at the Office mailing address, and shall have the following heading:

**November 9, 2006** 53A-6-306(1)(a)  
**Notice of Continuation February 27, 2003**

- B. The body of the request shall contain:
- (1) Name and address of the individual requesting review;
  - (2) Action being requested;
  - (3) Evidence of compliance with terms and conditions of any remedial or disciplinary requirements or recommendations;
  - (4) Reasons for reconsideration of past disciplinary action;
  - (5) Signature of person requesting review.

C. The Executive Secretary shall review the request with the Commission.

(1) If the Commission determines that the request is invalid, the person requesting reinstatement shall be notified by certified mail of the denial.

(2) If the Commission determines that the request is valid, a hearing shall be scheduled and held as provided under Section R686-100-6.

D. Burden of Proof: The burden of proof for granting or reinstatement of a license shall fall on the individual seeking the reinstatement.

(1) Individuals requesting reinstatement of a suspended license shall show sufficient evidence of compliance with any conditions imposed in the past disciplinary action as well as undergo a criminal background check in accordance with Utah law.

(2) Individuals requesting licensing following revocation shall show sufficient evidence of compliance with any conditions imposed in the past disciplinary action as well as providing evidence of qualifications for licensing as if the individual had never been licensed in Utah or any other state.

(3) Individuals requesting licensing following denial shall show sufficient evidence of completion of a rehabilitation or remediation program, if applicable.

**R686-100-20. Reinstatement Hearing Procedures.**

A. The individual seeking reinstatement of his license shall be the petitioner.

B. The petitioner shall have the responsibility of presenting the background of the case.

C. The petitioner shall present documentation or evidence that supports reinstatement.

D. The State, represented by the Commission Prosecutor, shall present any evidence or documentation that would not support reinstatement.

E. Other evidence or witnesses shall be presented consistent with R686-100-14.

F. The appointed Hearing Officer shall rule on other procedural issues in a reinstatement hearing in a timely manner as they arise.

**R686-100-21. Temporary Suspension of License Pending a Hearing.**

A. If the Executive Secretary determines, after affording Respondent an opportunity to discuss allegations of misconduct, that reasonable cause exists to believe that the charges shall be proven to be correct and that permitting the Respondent to retain his license prior to hearing would create unnecessary and unreasonable risks for children, then the Executive Secretary may order immediate suspension of the Respondent's license pending final Board action.

B. Evidence of the temporary suspension may not be

**R708. Public Safety, Driver License.****R708-34. Medical Waivers for Intrastate Commercial Driving Privileges.****R708-34-1. Purpose.**

A person who desires to obtain an interstate commercial driver license must meet the minimum federal fitness standards dealing with physical, mental, and emotional health set forth in Part 391 of the Federal Motor Carrier Safety Regulations. As authorized by Section 53-3-303.5, compliance with those standards can be waived for a person who (a) desires to obtain commercial driving privileges for intrastate driving only, and (b) meets minimum state fitness standards. This rule sets forth the procedure whereby a person may apply for a waiver, and also for the Driver License Division to respond to waiver requests.

**R708-34-2. Authority.**

This rule is authorized by Subsection 63-46a-3(2) and Section 53-3-303.5.

**R708-34-3. Definitions.**

(1) "Board" means the Driver License Medical Advisory Board.

(2) "Commercial driving privileges" means the privilege given to any licensed operator of a motor vehicle who must be in compliance with Federal Fitness Standards for the purpose of transporting commerce in vehicles with a gross vehicle weight of at least 10,000 to 26,000 pounds or over, with or without a commercial driver license.

(3) "Department" means the Utah Department of Public Safety.

(4) "Division" means the Driver License Division.

(5) "Fitness standards" means standards set forth by the board for determining the physical, mental and emotional capabilities appropriate for issuance of intrastate commercial driver licenses.

(6) "Waiver" means approval granted by the division allowing a driver to drive commercial vehicles intrastate even though the driver does not meet the minimum federal fitness standards to drive commercial vehicles interstate.

(7) "Medical Waiver Card" means a card issued by the Driver License Division to verify the driver has met minimum state fitness standards to qualify for intrastate commercial driving privileges.

**R708-34-4. Requesting a Waiver.**

Drivers desiring an intrastate commercial driving privilege waiver shall:

(a) request a waiver application from the Driver License Division, Medical Waiver Program Coordinator, P.O. Box 30560, Salt Lake City, UT 84130-0560;

(b) submit to the division for approval a waiver application with a current Functional Ability Evaluation Medical Certificate Report and Certificate of Visual Examination, as required, and a non-refundable check or money order payable to the Utah Department of Public Safety for the waiver processing fee;

(c) take a letter received from the division granting the waiver to any commercial driver license office and apply for an intrastate commercial driving privilege with appropriate endorsements and/or restrictions; and

(d) pay applicable waiver fees, and when necessary, take appropriate written and skills tests to obtain the desired driving privilege.

**R708-34-5. Obligation of Drivers Possessing Waivers.**

Drivers possessing waivers must comply with division instructions requesting periodic updated medical information including submission of a Functional Ability Evaluation

Medical Report, a Certificate of Visual Examination, and a non-refundable check or money order payable to the Department. Non-compliance with division instructions may result in the denial of commercial driving privileges.

**R708-34-6. Driver License Medical Advisory Board Responsibilities.**

The board shall:

(a) establish fitness standards for issuing intrastate commercial driver licenses under Title 53, Chapter 3, Part 4, Uniform Commercial Driver License Act; and

(b) review waiver applications when necessary and make recommendations to the division director.

**R708-34-7. Driver License Division Responsibilities.**

(1) The division shall provide information and guidance to waiver applicants and shall process all waiver applications.

(2) The division shall coordinate with and provide information to the board concerning waiver applications and shall issue a letter approving or disapproving a waiver after consideration of the board's recommendation.

(3) The division shall issue a medical waiver card which the applicant must carry while driving intrastate.

**R708-34-8. Adjudicative Proceedings.**

(1) In accordance with Subsection 63-46b-4(1) all adjudicative proceedings herein shall be conducted informally.

(2) A driver whose waiver application is denied, or whose waiver application is granted with restrictions that are unacceptable to the driver, may make a request for administrative review in accordance with Subsection 53-3-303(10) and for judicial review in accordance with Subsection 53-3-303(11).

2.15 "UCA" means Utah State Code Annotated 1953 as amended.

**R710-6-3. Licensing.**

## 3.1 Type of license.

3.1.1 Class I: A licensed dealer who is engaged in the business of installing gas appliances or systems for the use of LPG and who sells, fills, refills, delivers, or is permitted to deliver any LPG.

3.1.2 Class II: A business engaged in the sale, transportation, and exchange of cylinders, but not transporting or transferring gas in liquid.

3.1.3 Class III: A business not engaged in the sale of LPG, but engaged in the sale and installation of gas appliances, or LPG systems.

3.1.4 Class IV: Those businesses listed below:

3.1.4.1 Dispensers

3.1.4.2 Sale of containers greater than 96 pounds water capacity.

3.1.4.3 Other LPG businesses not listed above.

## 3.2 Signature on Application.

The application shall be signed by an authorized representative of the applicant. If the application is made by a partnership, it shall be signed by at least one partner. If the application is made by a corporation or association other than a partnership, it shall be signed by the principal officers, or authorized agents.

## 3.3 Issuance.

Following receipt of the properly completed application, an inspection, completion of all inspection requirements, and compliance with the provision of the statute and these rules, the Division shall issue a license.

## 3.4 Original, Valid Date.

Original licenses shall be valid for one year from the date of application. Thereafter, each license shall be renewed annually and renewals thereof shall be valid for one year from issuance.

## 3.5 Renewal.

Application for renewal shall be made on forms provided by the SFM.

## 3.6 Refusal to Renew.

The Board may refuse to renew any license in the same manner, and for any reason, that they are authorized, pursuant to Article 5 of these rules to deny a license. The applicant shall, upon such refusal, have the same rights as are granted by Article 5 of this article to an applicant for a license which has been denied by the Board.

## 3.7 Change of Address.

Every licensee shall notify the Division, in writing, within thirty (30) days of any change of his address.

## 3.8 Under Another Name.

No licensee shall conduct his licensed business under a name other than the name or names which appears on his license.

## 3.9 List of Licensed Concerns.

3.9.1 The Division shall make available, upon request and without cost, to the Enforcing Authority, the name, address, and license number of each concern that is licensed pursuant to these rules.

3.9.2 Upon request, single copies of such list shall be

furnished, without cost, to a licensed concern.

#### 3.10 Inspection.

The holder of any license shall submit such license for inspection upon request of the Division or the Enforcing Authority.

#### 3.11 Notification and LPG Certificate.

Every licensed concern shall, within twenty (20) days of employment, and within twenty (20) days of termination of any employee, report to the Division, the name, address, and LPG certificate number, if any, of every person performing any act requiring an LPG certificate for such licensed concern.

#### 3.12 Posting.

Every license issued pursuant to the provisions of these rules shall be posted in a conspicuous place on the premises of the licensed location.

#### 3.13 Duplicate License.

A duplicate license may be issued by the Division to replace any previously issued license, which has been lost or destroyed, upon the submission of a written statement from the licensee to the Division. Such statement shall attest to the fact that the license has been lost or destroyed. If the original license is found it shall be surrendered to Division within 15 days.

#### 3.14 Registration Number.

Every license shall be identified by a number, delineated as P-(number).

#### 3.15 Accidents, Reporting.

Any accident where a licensee and LPG are involved must be reported to the Board in writing by the affected licensee within 3 days upon receipt of information of the accident. The report must contain any pertinent information such as the location, names of persons involved, cause, contributing factors, and the type of accident. If death or serious injury of person(s), or property damage of \$5000.00 or more results from the accident, the report must be made immediately by telephone and followed by a written report.

#### 3.16 Board investigation of accidents.

At their discretion, the Board will investigate, or direct the Division to investigate, all serious accidents as defined in Subsection 3.15.

### **R710-6-4. LP Gas Certificates.**

#### 4.1 Application.

Application for an LPG certificate shall be made in writing to the Division. The application shall be signed by the applicant.

#### 4.2 Examination.

Every person who performs any act or acts within the scope of a license issued under these rules, shall pass an initial examination in accordance with the provisions of this article.

#### 4.3 Types of Initial Examinations:

##### 4.3.1 Carburetion

##### 4.3.2 Dispenser

##### 4.3.3 HVAC/Plumber

##### 4.3.4 Recreational Vehicle Service

##### 4.3.5 Serviceman

##### 4.3.6 Transportation and Delivery

#### 4.4 Initial Examinations.

4.4.1 The initial examination shall include an open book written test of the applicant's knowledge of the work to be performed by the applicant. The written examination questions shall be taken from the adopted statute, administrative rules, NFPA 54, and NFPA 58.

4.4.2 The initial examination shall also include a practical or actual demonstration of some selected aspects of the job to be performed by the applicant.

4.4.3 To successfully complete the written and practical

initial examinations, the applicant must obtain a minimum grade of seventy percent (70%) in each portion of the examination taken. Each portion of the examination will be graded separately. Failure of any one portion of the examination will not delete the entire test.

4.4.4 Examinations may be given at various field locations as deemed necessary by the Division. Appointments for field examinations are required.

4.4.5 As required in Sections 4.2 and 4.3 of these rules, those applicants that have successfully completed the requirements of the Certified Employee Training Program (CETP), as written by the National Propane Gas Association, and that corresponds to the work to be performed by the applicant, shall have the requirement for initial examination waived, after appropriate documentation is provided to the Division by the applicant.

4.4.6 As required in Sections 4.2 and 4.3 of these rules, those applicants that have successfully completed the requirements in Code of Federal Regulations (CFR) 49, Parts 172.700, 172.704, 177.800 and 177.816, that corresponds to the work to be performed by the applicant, shall have the requirement for initial examination waived, after appropriate documentation is provided to the Division by the applicant.

#### 4.5 Original and Renewal Date.

Original LPG certificates shall be valid for one year from the date of issuance. Thereafter, each LPG certificate shall be renewed annually and renewals thereof shall be valid from for one year from issuance.

#### 4.6 Renewal Date.

Application for renewal shall be made on forms provided by the Division.

#### 4.7 Re-examination.

Every holder of a valid LPG Certificate shall take a re-examination every five years from the date of original certificate issuance, to comply with the provisions of Section 4.3 of these rules as follows:

4.7.1 The re-examination to comply with the provisions of Section 4.3 of these rules shall consist of an open book examination, to be mailed to the certificate holder at least 60 days before the renewal date.

4.7.2 The open book re-examination will consist of questions that focus on changes in the last five years to NFPA 54, NFPA 58, the statute, or the adopted administrative rules. The re-examination may also consist of questions that focus on practices of concern as noted by the Board or Division.

4.7.3 The certificate holder is responsible to complete the re-examination and return it to the Division in sufficient time to renew.

4.7.4 The certificate holder is responsible to return to the Division with the re-examination the correct renewal fees to complete that certificate renewal.

4.7.5 As required in Section 4.7 of these rules, those applicants that have successfully completed the requirements in Code of Federal Regulations (CFR) 49, Parts 172.700, 172.704, 177.800 and 177.816, that corresponds to the work to be performed by the applicant, shall have the requirement for re-examination waived, after appropriate documentation is provided to the Division by the applicant.

#### 4.8 Refusal to Renew.

The Division may refuse to renew any LPG certificate in the same manner and for any reason that is authorized pursuant to Article 5.

#### 4.9 Inspection.

The holder of a LPG certificate shall submit such certificate for inspection, upon request of the Division or the enforcing authority.

#### 4.10 Type.

4.10.1 Every LPG certificate shall indicate the type of act or acts to be performed and for which the applicant has

qualified.

4.10.2 Any person holding a valid LPG certificate shall not be authorized to perform any act unless he is a licensee or is employed by a licensed concern.

4.10.3 It is the responsibility of the LPG certificate holder to insure that the concern they are employed by is licensed under this act.

4.11 Change of Address.

Any change in home address of any holder of a valid LPG certificate shall be reported by the registered person to the Division within thirty (30) days of such change.

4.12 Duplicate.

A duplicate LPG certificate may be issued by the Division to replace any previously issued certificate which has been lost or destroyed upon the submission of a written statement to the Division from the certified person. Such statement shall attest to the certificate having been lost or destroyed. If the original is found, it shall be surrendered to the Division within 15 days.

4.13 Contents of Certificate of Registration.

Every LPG certificate issued shall contain the following information:

4.13.1 The name and address of the applicant.

4.13.2 The physical description of applicant.

4.13.3 The signature of the LP Gas Board Chairman.

4.13.4 The date of issuance.

4.13.5 The expiration date.

4.13.6 Type of service the person is qualified to perform.

4.13.7 Have printed on the card the following: "This certificate is for identification only, and shall not be used for recommendation or advertising".

4.14 Minimum Age.

No LPG certificate shall be issued to any person who is under sixteen (16) years of age.

4.15 Restrictive Use.

4.15.1 No LPG certificate shall constitute authorization for any person to enforce any provisions of these rules.

4.15.2 A LPG certificate may be used for identification purposes only as long as such certificate remains valid and while the holder is employed by a licensed concern.

4.15.3 Regardless of the acts for which the applicant has qualified, the performance of only those acts authorized under the licensed concern employing such applicant shall be permissible.

4.15.4 Regardless of the acts authorized to be performed by a licensed concern, only those acts for which the applicant for a LPG certificate has qualified shall be permissible by such applicant.

4.16 Right to Contest.

4.16.1 Every person who takes an examination for a LPG certificate shall have the right to contest the validity of individual questions of such examination.

4.16.2 Every contention as to the validity of individual questions of an examination that cannot be reasonably resolved, shall be made in writing to the Division within 48 hours after taking said examination. Contentions shall state the reason for the objection.

4.16.3 The decision as to the action to be taken on the submitted contention shall be by the Board, and such decision shall be final.

4.16.4 The decision made by the Board, and the action taken, shall be reflected in all future examinations, but shall not affect the grades established in any past examination.

4.17 Non-Transferable.

LPG Certificates shall not be transferable to another individual. Individual LPG certificates shall be carried by the person to whom issued.

4.18 New Employees.

New employees of a licensed concern may perform the various acts while under the direct supervision of persons holding a valid LPG certificate for a period not to exceed 45 days from the initial date of employment. By the end of such period, new employees shall have taken and passed the required examination. In the event the employee fails the examination, re-examination shall be taken within 30 days. The employee shall remain under the direct supervision of an employee holding a valid LPG certificate, until certified.

4.19 Certificate Identification.

Every LPG certificate shall be identified by a number, delineated as PE-(number). Such number shall not be transferred from one person to another.

#### **R710-6-5. Adjudicative Proceedings.**

5.1 All adjudicative proceedings performed by the agency shall proceed informally as set forth herein and as authorized by UCA, Sections 63-46b-4 and 63-46b-5.

5.2 The issuance, renewal, or continued validity of a license or LPG certificate may be denied, suspended or revoked by the Division, if the Division finds that the applicant, person employed for, or the person having authority and management of a concern commits any of the following violations:

5.2.1 The person or applicant is not the real person in interest.

5.2.2 The person or applicant provides material misrepresentation or false statement in the application, whether original or renewal.

5.2.3 The person or applicant refuses to allow inspection by the Division or enforcing authority on an annual basis to determine compliance with the provisions of these rules.

5.2.4 The person, applicant, or concern for a license does not have the proper or necessary facilities, including qualified personnel, to conduct the operations for which application is made.

5.2.5 The person or applicant for a LPG certificate does not possess the qualifications of skill or competence to conduct the operations for which application is made. This can also be evidenced by failure to pass the examination and/or practical tests.

5.2.6 The person or applicant refuses to take the examination.

5.2.7 The person or applicant has been convicted of a violation of one or more federal, state or local laws.

5.2.8 The person or applicant has been convicted of a violation of the adopted rules or been found by a Board administrative proceeding to have violated the adopted rules.

5.2.9 Any offense of finding of unlawful conduct, or there is or may be, a threat to the public's health or safety if the person or applicant were granted a license or certificate of registration.

5.2.10 There are other factors upon which a reasonable and prudent person would rely to determine the suitability of the person or applicant to safely and competently distribute, transfer, dispense or install LP Gas and/or its appliances.

5.2.11 The person or applicant does not complete the re-examination process by the person or applicants certificate or license expiration date.

5.2.12 The person or applicant fails to pay the license fee, certificate of registration fee, examination fee or other fees as required in Section 6 of these rules.

5.3 A person whose license or certificate of registration is suspended or revoked by the Division shall have an opportunity for a hearing before the LPG Board if requested by that person within 20 days after receiving notice.

5.4 All adjudicative proceedings, other than criminal prosecution, taken by the Enforcing Authority to enforce the

7.1 The Board will review the Division and Enforcing Authorities activities since the last meeting, and review and act on license and permit applications, review financial transactions, consider recommendations of the Division, and all other matters brought to the Board.

7.2 The Board may be asked to serve as a review board for items under disagreement.

7.3 Board meetings shall be presided over and conducted by the chairman and in his absence the vice chairman.

7.4 Meetings of the Board shall be conducted in accordance with an agenda, which shall be submitted to the members by the Division, not less than twenty-one (21) days before the regularly scheduled Board meeting.

7.5 The chairman of the Board and Board members shall be entitled to vote on all issues considered by the Board. A Board member who declares a conflict of interest or where a conflict of interest has been determined, shall not vote on that particular issue.

7.6 Public notice of Board meetings shall be made by the Division as prescribed in UCA Section 52-4-6.

7.7 The Division shall provide the Board with a secretary, who shall prepare minutes and shall perform all secretarial duties necessary for the Board to fulfill its responsibility. The minutes of Board meetings shall be completed and sent to Board members at least twenty-one (21) days prior to the scheduled Board meeting.

7.8 The Board may be called upon to interpret codes adopted by the Board.

7.9 The Board Chairman may assign member(s) various assignments as required to aid in the promotion of safety, health and welfare in the use of LPG.

#### **R710-6-8. Amendments and Additions.**

The following amendments and additions are hereby adopted by the Board:

8.1 All LP Gas facilities that are located in a public place shall be inspected by a certified LP Gas serviceman every five (5) years for leaks in all buried piping as follows:

8.1.1 All buried piping shall be pressure tested and inspected for leaks as set forth in NFPA Standard 54, Sections 4.1.1 through 4.3.4.

8.1.2 If a leak is detected and repaired, the buried piping shall again be pressure tested for leaks.

8.1.3 The certified LP Gas serviceman shall keep a written record of the inspection and all corrections made to the buried piping located in a public place.

8.1.4 The inspection records shall be available to be inspected on a regular basis by the Division.

8.2 Whenever the Division is required to complete more than two inspections to receive compliance on an LP Gas System, container, apparatus, appliance, appurtenance, tank or tank trailer, or any pertinent equipment for the storage, transportation or dispensation of LP Gas, the Division shall charge to the owner for each additional inspection, the re-inspection fee as stated in R710-6-6.1(e).

8.3 All LP Gas containers of more than 5000 water gallons shall be inspected at least biannually for compliance with the adopted statute and rules. The following containers are exempt from this requirement:

8.3.1 Those excluded from the act in UCA, Section 53-7-303.

8.3.2 Containers under federal control.

8.3.3 Containers under the control of the U.S. Department of Transportation and used for transportation of LP Gas.

8.3.4 Containers located at private residences.

8.4 Those using self-serve key or card services shall be trained in safe filling practices by the licensed dealer providing the services. A letter shall be sent to the Division by the licensed dealer stating that those using the self-serve key or card service have been trained.

8.9 The Academy Director shall present to the Coordinator by January of each year, proposals to be incorporated in the Academy contract for the next fiscal year.

**R710-10-9. Non-Affiliated Fire Service Training.**

9.1 Those training organizations that desire to offer certification through the Certification System for non-affiliated personnel must receive approval in writing from the

Standards Council and the Academy Director.

9.2 Before approval is granted, the training organization requesting approval shall demonstrate the following:

9.2.1 Complete a written application requesting approval to conduct the training course.

9.2.2 Designate an approved course coordinator to oversee the course delivery and insure the course meets each of the applicable objectives.

9.2.3 Insure that qualified instructors are used to teach each subject.

9.2.4 Insure sufficient student to instructor ratios for all subjects or skills to be taught to include those designated high hazard.

9.2.5 Demonstrate that sufficient equipment and facilities will be provided to meet the training requirements of the course being taught.

9.2.6 Maintain course documentation as required through the Certification System to insure that all elements of the necessary training is completed.

9.2.7 Follow the accepted requirements of the Certification System for requesting testing and certification.

9.3 As required in Section 8.2.2 of these rules, the designated course coordinator shall meet the following requirements:

9.3.1 Be currently certified at the certification level as established by the Standards Council.

9.3.2 Insure that all assigned instructors meet the requirements as required in Section 8.4 of these rules.

9.3.3 Insure that the course syllabus and practical skills guide meet the requirements of the Certification System.

9.3.4 Insure that the requirements of Sections 8.2.4, 8.2.5, 8.2.6, and 8.2.7 of these rules are met.

9.4 As required in Section 8.2.3 of these rules, qualified instructors shall meet the following requirements:

9.4.1 Must be currently certified at the certification level as established by the Standards Council.

9.4.2 If the instructor is not certified, instructor qualification can be satisfied by special knowledge, experience or establishment of expertise.

**R710-10-10. Repeal of Conflicting Board Actions.**

All former Board actions, or parts thereof, conflicting or inconsistent with the provisions of this Board action or of the codes hereby adopted, are hereby repealed.

**R710-10-11. Validity.**

The Utah Fire Prevention Board hereby declares that should any section, paragraph, sentence, or word of this Board action, or of the codes hereby adopted, be declared invalid, it is the intent of the Utah Fire Prevention Board that it would have passed all other portions of this action, independent of the elimination of any portion as may be declared invalid.

**R710-10-12. Adjudicative Proceedings.**

12.1 All adjudicative proceedings performed by the agency shall proceed informally as set forth herein and as authorized by UCA, Sections 63-46b-4 and 63-46b-5.

12.2 A person may request a hearing on a decision made by the SFM, his authorized deputies, or the LFA, by filing an appeal to the Board within 20 days after receiving final decision.

12.3 All adjudicative proceedings, other than criminal prosecution, taken by the SFM, his authorized deputies, or the LFA, to enforce the Utah Fire Prevention and Safety Act and these rules, shall commence in accordance with UCA, Section 63-46b-3.

12.4 The Board shall act as the hearing authority, and shall convene as an appeals board after timely notice to all

parties involved.

12.5 The Board shall direct the SFM to issue a signed order to the parties involved giving the decision of the Board within a reasonable time of the hearing pursuant to UCA, Section 63-46b-5(i).

12.6 Reconsideration of the Board's decision may be requested in writing within 20 days of the date of the decision pursuant to UCA, Section 63-46b-13.

12.7 Judicial review of all final Board actions resulting from informal adjudicative proceedings is available pursuant to UCA, Section 63-46b-15.

2.2 "Authority Having Jurisdiction (AHJ) means the State Fire Marshal, his duly authorized deputies, the local fire enforcement authority, and building officials.

2.3 "Board" means Utah Fire Prevention Board.

2.4 "Certificates of Registration" means a written document issued by the SFM to any person for the purpose of granting permission to such person to perform any act or acts for which authorization is required.

2.5 "Inspecting and Testing" means work completed to ensure that the system operates properly as required in Section 1.2 of these rules.

2.6 "NFPA" means National Fire Protection Association.

2.7 "NICET" means National Institute for Certification in Engineering Technologies.

2.8 "SFM" means State Fire Marshal or authorized deputy.

2.9 "Service" means inspecting and testing of fire alarm systems.

2.10 "UCA" means Utah State Code Annotated 1953 as amended.

**R710-11-3. Certificates of Registration.**

3.1 Required Certificates of Registration.

No person shall engage in the inspecting and testing of fire alarm systems without first receiving a certificate of registration issued by the SFM. The following groups are exempted from the requirements of this part:

3.1.1 The AHJ that is performing the initial installation acceptance testing of the fire alarm system or ongoing inspections to verify compliance with the adopted NFPA standards and these rules.

3.1.2 The building owner or designee that performs additional periodic inspections beyond the annual inspection required in Section 6.2 of these rules, to satisfy requirements set by company policy, insurance, or risk management.

3.2 Application.

3.2.1 Application for a certificate of registration to inspect and test fire alarm systems shall be made in writing to the SFM on forms provided by the SFM. The applicant shall sign the application. The SFM or his deputies may request picture identification of the applicant for a certificate of registration.

3.2.2 The applicant shall indicate on the application which of the three technician levels the applicant will apply for:

3.2.2.1 Basic Fire Alarm Technician

3.2.2.2 Fire Alarm Technician

3.2.2.3 Master Fire Alarm Technician

3.2.3 The application for a certificate of registration shall be accompanied with proof of public liability insurance from the certificate holder or employing concern. A public liability insurance carrier showing coverage of at least \$100,000 for each incident, and \$300,000 in total coverage shall issue the public liability insurance. The certificate of registration holder shall notify the SFM within 30 days after the public liability insurance coverage required is not longer in effect for any reason.

3.3 Technician Examination.

The SFM shall require all applicants for a certificate of registration as a technician to complete the following:

3.3.1 Basic Fire Alarm Technician shall pass a written examination on basic testing of fire alarm systems or shall be certified as a NICET I. The Basic Fire Alarm Technician shall complete the manipulative skills task book. Work as a Basic Fire Alarm Technician shall be performed under direct supervision of a Fire Alarm Technician or Master Fire Alarm Technician.

3.3.2 Fire Alarm Technician shall pass all the requirements listed for Basic Fire Alarm Technician, and shall pass a written examination on basic testing and maintenance of fire alarm systems limited up to and including four story buildings or shall be certified as a NICET II.

3.3.3 Master Fire Alarm Technician shall pass all the requirements listed for Basic Fire Alarm Technician and Fire Alarm Technician, and shall pass a written examination on fire alarm systems in buildings over four stories, voice alarm/evacuation systems, and smoke control systems or shall be certified as a NICET III or as NICET IV.

3.4 To successfully complete the written examination the applicant must obtain a minimum score of seventy percent (70%) in each examination taken. To successfully complete the manipulative skills task book, all required skill tasks shall be signed as completed by a person duly qualified or certified in that skill.

3.5 As required in 3.3 of these rules, those applicants that have successfully completed the requirements and are certified by NICET in the skills that correspond to the work to be performed by the applicant, shall have the requirement for written examination waived, after appropriate documentation is provided to the SFM by the applicant.

3.6 Issuance.

Following receipt of the properly completed application, compliance with Section 3.3 of these rules, the SFM shall issue a certificate of registration.

3.7 Original and Renewal Valid Date.

Original certificates of registration shall be valid for one year from the date of application. Thereafter, each certificate of registration shall be renewed annually and renewals shall be valid for one year from issuance.

3.8 Renewal Date.

Application for renewal shall be made as directed by the SFM.

3.9 Re-examination.

Every holder of a valid certificate of registration shall take a re-examination every three years, from date of original certificate, to comply with the provisions of Section 3.3 of these rules as follows:

3.9.1 The re-examination to comply with the provisions of Section 3.3 of these rules, shall consist of an examination for each level of certification, to be mailed to the certificate holder at least 60 days before the renewal date.

3.9.2 The re-examination will consist of questions that focus on changes in the last three years to the adopted NFPA standards, the statute, and the adopted administrative rules. The re-examination may also consist of questions that focus

on practices of concern as noted by the Board or the SFM.

3.9.3 The certificate holder is responsible to complete the re-examination and return it to the SFM in sufficient time to renew.

3.9.4 The certificate holder is responsible to return to the SFM the correct renewal fees to complete that certificate renewal.

#### 3.10 Refusal to Renew.

The SFM may refuse to renew any certificate of registration in the same manner and for any reason that he is authorized, pursuant to Section 7, to deny an original certificate of registration. The applicant shall, upon such refusal, have the same rights as are granted by Section 7 of these rules to an applicant for an original certificate of registration, which has been denied by the SFM.

#### 3.11 Inspection.

The holder of a certificate of registration shall submit such certificate for inspection, upon request of the AHJ.

#### 3.12 Type.

Every certificate of registration shall indicate the type of act or acts to be performed and for which the applicant has qualified.

#### 3.13 Change of Address.

Any change in home address of any holder of a valid certificate of registration shall be reported in writing, by the registered person to the SFM within 30 days of such change.

#### 3.14 Duplicate.

A duplicate certificate of registration may be issued by the SFM to replace any previously issued certificate, which has been lost or destroyed.

#### 3.15 Minimum Age.

No certificate of registration shall be issued to any person who is under 18 years of age.

#### 3.16 Restrictive Use.

3.16.1 A certificate of registration may be used for identification purposes only as long as such certificate remains valid.

3.16.2 Regardless of the acts authorized to be performed by a licensed concern, only those acts for which the applicant for a certificate of registration has qualified shall be permissible by such applicant.

#### 3.17 Right to Contest.

3.17.1 Every person who takes an examination for a certificate of registration shall have the right to contest the validity of individual questions of such examination.

3.17.2 Every contention as to the validity of individual questions of an examination shall be made within 48 hours after taking said examination.

3.17.3 The decision as to the action to be taken on the submitted contention shall be made by the SFM, and such decision shall be final.

3.17.4 The decision made by the SFM, and the action taken, shall be reflected in all future examinations, but shall not affect the grades established in any past examination.

#### 3.18 Non-Transferable.

Certificates of Registration shall not be transferable. The person to whom issued shall carry individual certificates of registration.

#### 3.19 Certificate of Registration Identification.

Every certificate shall be identified by a number. The certificate of registration shall be worn in a visible manner when inspecting and testing fire alarm systems.

#### 3.20 New Employees

New or existing employees desiring to attain a certificate of registration may perform the various acts required while under the constant direct supervision of a person holding a valid certificate of registration for a period not to exceed 90 days from the initial date of employment or beginning service in the field.

### R710-11-4. Service Tags.

#### 4.1 Size and Color.

4.1.1 Tags shall be not more than five and one-half inches (5-1/2") in height, nor less than four and one-half inches (4-1/2") in height, and not more than three inches (3") in width, nor less than two and one-half inches (2-1/2") in width.

4.1.2 Tags may be produced in any color except red or a variation of red.

4.1.3 A red tag shall be used to indicate the system fails to ensure a reasonable degree of protection for life and property from fire through inspecting and testing of fire alarm systems as required in NFPA, Standard 72, and the requirements of these rules. After placing the red tag on the system, the certified person shall notify the AHJ and provide the AHJ with a written copy of the noted deficiencies.

4.1.4 If the AHJ reviews the noted deficiencies on the attached red tag and finds the deficiencies are not consistent with the requirements in NFPA, Standard 72, the red tag shall be removed by the certified person that attached the red tag.

#### 4.2 Placement of Tag.

The service tag shall be attached at the fire alarm control panel for each system inspected or at other locations as needed to show compliance. The service tag shall be attached to the control panel in such a position as to be conveniently inspected by the AHJ.

#### 4.3 Tag Information.

4.3.1 Service tags shall bear the following information:

4.3.1.1 Provisions of Section 4.7.

4.3.1.2 Approved Seal of Registration of the SFM.

4.3.1.3 Certificate of registration number of individual who performed or supervised the service or services performed.

4.3.1.4 Signature of individual whose certificate of registration number appears on the tag.

4.3.1.5 Concern's name.

4.3.1.6 Concern's address.

4.3.1.7 Type of service performed.

4.3.1.8 Type of system serviced.

4.3.1.9 Date service is performed.

4.3.2 The above information shall appear on one side of the service tag. All other desired printing or information shall be placed on the reverse side of the tag.

#### 4.4 Legibility.

4.4.1 The certificate of registration number required in Section 4.3.1.3, and the signature required in Section 4.3.1.4, shall be printed or written distinctly.

4.4.2 All information pertaining to date and type of service shall be indicated on the card by perforations in the appropriate space provided. Each perforation shall clearly indicate the desired information.

#### 4.5 Format.

ILLUSTRATION ON FILE IN STATE FIRE MARSHAL'S OFFICE

#### 4.6 New Tag.

A new service tag shall be attached to a system each time a service is performed.

#### 4.7 Tag Wording.

The following wording shall be placed at the top or reinforced ring end of every tag: "DO NOT REMOVE BY ORDER OF THE STATE FIRE MARSHAL".

#### 4.8 Removal.

4.8.1 No person or persons shall remove a service tag except when further service is performed.

4.8.2 No person shall deface, modify, or alter any service tag that is required to be attached to the system.

4.8.3 A red tag can only be removed by written authority from the AHJ. Verbal authority to initially remove the tag is allowed as long as it is followed by written

authority.

4.9 Tag Dates.

Service tags may be printed for any number of years not to exceed eight years.

**R710-11-5. Seal of Registration.**

5.1 Description.

The official seal of registration of the SFM shall consist of the following:

5.1.1 The image of the State of Utah shall be in the center with an outer ring stating, "Utah State Fire Marshal".

5.1.1.1 The top portion of the outer ring shall have the wording "Utah State".

5.1.1.2 The bottom portion of the outer ring shall have the wording "Fire Marshal".

5.1.2 Appending below the bottom portion and in a centered position, shall be a box provided for the displaying of the certification number assigned to the person.

5.2 Use of Seal.

No person shall produce, reproduce, or use this seal in any manner or for any purpose except as herein provided.

5.3 Permissive Use.

Certificate holders or concerns shall use the Seal of Registration on every service tag.

5.4 Cease Use Order.

No person or concern shall continue the use of the Seal of Registration in any manner or for any purpose after receipt of a notice in writing from the SFM to that effect, or upon the suspension or revocation of the certificate of registration.

5.5 Legibility.

Every reproduction of the Seal of Registration and every letter and number placed thereon, shall be of sufficient size to render such seal, letter, and number distinct and clearly legible.

**R710-11-6. Amendments and Additions.**

6.1 Service.

At the time of service, all servicing shall be done in accordance with the adopted NFPA standard, adopted statutes, and these rules.

6.2 Frequency.

Fire alarm systems shall be inspected annually by a person holding the appropriate certificate of registration as required in Section 3.1 of these rules.

6.3 Accepted Forms.

The form listed in NFPA, Standard 72, RECORD OF COMPLETION, or equivalent form approved by the SFM shall be used as the accepted forms for testing and inspecting fire alarm systems.

6.4 New Systems.

Newly installed fire alarm systems are exempt from the annual testing requirement required in Section 6.2 of these rules, for one year from the approval date of the initial installation acceptance testing.

6.5 Retroactive Installation of Automatic Fire Alarm Systems.

IFC, Chapter 9, Sections 907.3.1.1, 907.3.1.2, 907.3.1.3, 907.3.1.4, 907.3.1.5, 907.3.1.6, 907.3.1.7, and 907.3.1.8 are deleted.

**R710-11-7. Adjudicative Proceedings.**

7.1 All adjudicative proceedings performed by the agency shall proceed informally as authorized by UCA, Sections 63-46b-4 and 63-46b-5.

7.2 The issuance, renewal, or continued validity of a certificate of registration may be denied, suspended, or revoked, if the SFM finds that the applicant or the person has committed any of the following violations:

7.2.1 The applicant or person is not the real person of

interest.

7.2.2 The applicant or person provides material misrepresentation or false statements on the application.

7.2.3 The applicant or person refuses to allow inspection by the SFM, or his duly authorized deputies.

7.2.4 The applicant or person for a certificate of registration does not have the proper equipment to conduct the operations for which application is made.

7.2.5 The applicant or person for a certificate of registration does not possess the qualifications of skill or competence to conduct the operations for which application is made, as evidenced by failure to pass the examination or manipulative skills pursuant to Section 3.3 of these rules.

7.2.6 The applicant or person refuses to take the examination required by Section 3.3 of these rules.

7.2.7 The applicant or person fails to pay the certification of registration, examination or other required fees as required in Section 8 of these rules.

7.2.8 The applicant or person has been convicted of violating one or more federal, state or local laws.

7.2.9 The applicant or person has been convicted of a violation of the adopted rules or been found by a Board administrative proceeding to have violated the adopted rules.

7.2.10 Any offense or finding of unlawful conduct, or there is or may be, a threat to the public's health or safety if the applicant or person were granted a certificate of registration.

7.2.11 There are other factors upon which a reasonable and prudent person would rely to determine the suitability of the applicant or person to safely and competently engage in the practice of servicing fire alarm system equipment.

7.3 A person whose certificate of registration is suspended or revoked by the SFM shall have an opportunity for a hearing before the Board if requested by that person within 20 days after receiving notice.

7.4 All adjudicative proceedings, other than criminal prosecution, taken by the SFM to enforce the Utah Fire Prevention and Safety Act, and these rules, shall commence in accordance with UCA, Section 63-46b-3.

7.5 The Board shall act as the hearing authority, and shall convene after timely notice to all parties involved. The Board shall be the final authority on the suspension or revocation of a certificate of registration.

7.6 The Board shall direct the SFM to issue a signed order to the parties involved giving the decision of the Board within a reasonable time of the hearing pursuant to UCA, Section 63-46b-5(i).

7.7 Reconsideration of the Board decision may be requested in writing within 20 days of the date of the decision pursuant to UCA, Section 63-46b-13.

7.8 After a period of three years from the date of revocation, the Board shall review the submitted written application of a person whose certificate of registration has been revoked. After timely notice to all parties involved, the Board shall convene to review the revoked persons application, and that person shall be allowed to present themselves and their case before the Board. After the hearing, the Board shall direct the SFM to allow the person to complete the certification process or shall direct that the revocation be continued.

7.9 Judicial review of all final Board actions resulting from informal adjudicative proceedings shall be conducted pursuant to UCA, Section 63-46b-15.

**R710-11-8. Fees.**

8.1 Fee Schedule.

8.1.1 Certificates of Registration (new and renewals):

8.1.1.1 Certificate of registration - \$40.00

8.1.1.2 Duplicate - \$30.00

## 8.1.2 Examinations:

8.1.2.1 Initial examination - \$30.00

8.1.2.2 Re-examination - \$30.00

8.1.2.3 Three-year examination - \$30.00

## 8.2 Payment of Fees.

The required fee shall accompany the application for certificate of registration. Certificate of registration fees will be refunded if the application is denied.

## 8.3 Late Renewal Fees.

8.3.1 Any certificate of registration not renewed on or before the original date of issuance will be subject to an additional fee equal to 10% of the required fee.

8.3.2 When a certificate of registration has expired for more than one year, an application shall be made for an original certificate as if the application was being made for the first time.

**R746. Public Service Commission, Administration.****R746-409. Pipeline Safety.****R746-409-1. General Provisions.**

A. Scope and Applicability -- To enable the Commission to carry out its duties regarding pipeline safety under Chapter 13, Title 54, the following rules shall apply to persons owning or operating an intrastate pipeline facility as defined in that chapter, or a segment of that chapter including, but not limited to, master meter systems, as well as persons engaged in the transportation of gas.

B. Adoption of Parts 190, 191, 192, 193, and 199 -- The Commission hereby adopts, and incorporates by this reference, CFR Title 49, Parts 190, 191, 192, 193, and 199, as amended, October 1, 2004. Persons owning or operating an intrastate pipeline facility in Utah, or a segment thereof, as well as persons engaged in the transportation of gas, shall comply with the minimum safety standards specified in those Parts of CFR Title 49.

**R746-409-2. Definitions.**

For purposes of these rules, the following terms shall bear the following meanings:

- A. "CFR" means the Code of Federal Regulations;
- B. "Commission" means the Public Service Commission of Utah;
- C. "Division" means the Division of Public Utilities, Utah Department of Commerce;
- D. "Master Meter System" means a pipeline system that distributes natural gas or liquid propane gas within a public place, such as a mobile home park, housing project, apartment complex, school, university or hospital and which is owned, operated and maintained by an operator that purchases the gas from an outside source.
- E. "Part 190" means CFR Title 49, Part 190 entitled, Pipeline Safety Program Procedures.
- F. "Part 191" means CFR Title 49, Part 191, entitled, Transportation of Natural and Other Gas by Pipeline; Annual Reports, Incident Reports, and Safety-Related Condition Reports.
- G. "Part 192" means CFR Title 49, Part 192 entitled, Transportation of Natural and Other Gas by Pipeline: Minimum Federal Safety Standards.
- H. "Part 193" means CFR Title 49, Part 193 entitled, Liquefied Natural Gas Facilities: Federal Safety Standards.
- I. "Part 199" means CFR Title 49, part 199 entitled, Drug Testing.
- J. "Public place" means a highway, street, alley or other parcel of land, essentially unobstructed, which is subject to easement, deeded, dedicated or otherwise appropriated to the public for public use, and where the public exists, traverses or is likely to frequent.

**R746-409-3. Inspections.**

A. Authorized Inspector -- A person employed or authorized by the Commission or the director of the Division, upon presenting appropriate credentials, is authorized to enter upon, inspect and examine, during normal business hours, the records and properties of a person in possession or control of them, if the records and properties are relevant to determining the compliance with applicable state and federal statutes, rules and regulations.

B. Reasons for Inspection -- Inspections are ordinarily conducted pursuant to one of the following:

1. routine scheduling;
2. a complaint received from a member of the public;
3. information obtained from a previous inspection;
4. pipeline accident or incident;
5. when deemed appropriate by the Commission.

C. Testing -- To the extent necessary to carry out its

responsibilities, the Commission may require testing of portions of intrastate pipeline facilities which have been involved in or affected by an accident.

D. Further Action -- When information obtained from an inspector or from other appropriate sources indicates that further action is warranted, the Division shall issue a warning letter and, if necessary, initiate proceedings before the Commission.

**R746-409-4. Accidents or Incidents Reports and Annual Reports.**

A. U.S. Department of Transportation -- An operator shall report to the U.S. Department of Transportation (800-424-8802) accidents or incidents involving its pipeline facilities operated within the state of Utah that cause personal injuries requiring in-patient hospitalization, fatality, or estimated damage to property totaling \$50,000 or more.

B. Commission Notification -- The Commission shall be notified of the accidents or incidents as soon as possible, consistent with public welfare and safety. In those instances where a telephonic report to the United States Department of Transportation is required, a similar report of the accident or incident shall be made by telephone to:

Utah Division of Public Utilities  
Lead Pipeline Safety Engineer  
P.O. Box 146751  
Salt Lake City, Utah 84145-6751  
Telephone: 801-530-6667  
801-530-6652  
800-874-0904

C. Written Report -- An operator, except for master meter systems, shall furnish to the Commission, within 30 days after the occurrence of a reportable accident or incident, a written report of the accident or incident. The report may be made on the standard USDOT form designated Accident or Incident Report, or on a form acceptable to the Commission showing the same information. If certain information is not available, the incomplete report should be submitted indicating this unavailability. When the information becomes available, a supplemental report will be submitted.

D. Annual Report -- An operator, except for master meter systems, shall submit an annual report for that system on DOT form RSPA F 7100.1-1. This report must be submitted annually, not later than March 15, for the preceding calendar year. Operators who file annual reports to federal agencies in accordance with 49 CFR, part 191, are required to file copies of the reports with this Commission. Annual reports may be sent to the same address as noted in Subsection R746-409-4B.

**R746-409-5. Operation and Maintenance Plans.**

An operator of natural gas transportation facilities, except for master meter operators and liquid propane operators, shall file with the Commission for review by the Division of Public Utilities, a plan for the operation and maintenance of pipeline facilities owned or operated by it, and shall subsequently file changes in the plan. The plan shall cover gas transmission facilities, distribution facilities, and those gathering or production facilities located in non-rural areas. Master meter operators and liquid propane gas operators shall have at their distribution facility a plan for the operation and maintenance of their pipeline facilities. The essential requirements stated in Title 49 CFR Part 192.605, shall be covered by the plan. If the Commission, on recommendation of the Division, finds the plan inadequate for safe operation, the Commission shall, after notice and opportunity for a hearing, require revision of the plan.

**R746-409-6. Emergency Plan.**

An operator, except for master meter operators and liquid propane operators, shall file with the Commission, for review by the Division, a plan of written procedures to minimize the hazard resulting from a gas line emergency. The plan shall cover gas transmission facilities, distribution facilities and those gathering or production facilities located in non-rural areas. Master meter operators and liquid propane operators shall have at their distribution facilities a plan to minimize hazards resulting from an incident involving their gas facilities. The essential requirements stated in Title 49 CFR Part 192.615 shall be covered by the plan. If the Commission, on recommendation of the Division, finds the plan inadequate for safe operation, the Commission shall, after notice and opportunity for a hearing, require the plan to be revised.

**R746-409-7. Cathodic Protection and Leak Surveys.**

A. Cathodic Protection -- Operators of gas transportation facilities who do not have cathodic protection on their metallic underground piping system shall install cathodic protection, in accordance with 49 CFR, Subpart I, unless exempted as per Part 192.455(2)(b) on it within one year after establishment of the Commission rules, unless a time exemption is approved by the Commission.

B. Leak Survey -- A gas detector leak survey shall be conducted on master metered facilities, which were not cathodically protected prior to the Commission rules, at intervals not exceeding 15 months, but at least once each calendar year. The surveys shall be performed annually for at least five years after the date of the installation of cathodic protection.

**R746-409-8. Remedies.**

A. Rules of Practice and Procedure -- The Commission's Rules of Practice and Procedure, R746-100, shall govern and control proceedings before the Commission regarding pipeline safety, with the exception of the additional remedies and procedures specified herein.

B. Hazardous Facility Order -- If the Commission finds, after notice and a hearing, that a particular intrastate pipeline facility is hazardous to life or property, it may issue a Hazardous Facility Order requiring the owner or operator of the intrastate pipeline facility to take corrective action. Civil penalties set forth in Section 54-13-6 may also be imposed. Corrective action may include suspended or restricted use of the facility, physical inspection, testing, repair replacement, or other action as may be appropriate.

C. Waiver of Notice and Hearing -- The Commission may waive the requirement for notice and hearing in Subsection (B) above before issuing an order pursuant to this section when it or the Division determines that the failure to do so would result in the likelihood of serious harm to life or property. However, the Commission shall include in the order an opportunity for hearing as soon as practicable after issuance of the order.

D. Hazardous Conditions -- The Commission may find an intrastate pipeline facility to be hazardous under paragraph 2 of this section if:

1. under the facts and circumstances the Commission determines the particular facility is hazardous to life or property; or
2. the intrastate pipeline facility, or a component thereof, has been constructed or operated with equipment, material, or technique which the Commission determines is hazardous to life or property, unless the operator involved demonstrates to the satisfaction of the Commission that, under the particular facts and circumstances involved, such equipment, material, or technique is not hazardous to life or

property.

E. Considerations -- In making a determination under paragraph (D)(2) of this section, the Commission may consider, if relevant:

1. the characteristics of the pipe and other equipment used in the intrastate pipeline facility involved, including its age, manufacturer, physical properties, including its resistance to corrosion and deterioration, and the method of its manufacture, construction, or assembly;
2. the nature of the materials transported by the facility, including their corrosive and deteriorative qualities, the sequence in which the materials are transported, and the pressure required for the transportation;
3. the aspects of the areas in which the intrastate pipeline facility is located, in particular the climatic and geologic conditions, including soil characteristics, associated with the areas, and the population density and population and growth patterns of such areas;

4. a recommendation of the National Transportation Safety Board issued in connection with an investigation conducted by the board;

5. other factors as the Commission may consider appropriate.

F. Contents of Hazardous Facility Order -- A Hazardous Facility Order issued by the Commission shall contain the following information:

1. a finding that the pipeline facility is hazardous to life or property;
2. the relevant facts which form the basis for the finding;
3. the legal basis for the order;
4. the nature and description of particular corrective action required of the respondent;
5. the date by which the required action must be taken or completed and, where appropriate, the duration of the order.

G. No Longer Hazardous -- The Commission shall rescind or suspend a Hazardous Facility Order whenever it determines that the facility is no longer hazardous to life or property.

3.4. "Full-time Student" - As defined in 34 CFR Part 692.4c, namely, a student carrying a full-time academic workload - other than by correspondence - as measured by both of the following: 1) Coursework or other required activities, as determined by the institution that the student attends or by the State, 2) Tuition and fees normally charged for full-time study by that institution.

3.5. "Full-time Equivalent Students" - A measure of annual instructional output calculated according to the following formulas:

3.5.1. For institutions that measure program length in quarter credit hours, the total number of undergraduate instructional credit hours attributed to the institution's fiscal year divided by 45, plus the total number of graduate instructional credit hours attributed to the institution's fiscal year divided by 30.

3.5.2. For institutions that measure program length in semester credit hours, the total number of undergraduate instructional credit hours attributed to the institution's fiscal year divided by 30, plus the total number of graduate instructional credit hours attributed to the institution's fiscal year divided by 20.

3.5.3. For institutions that measure program length in clock hours, the total number of instructional clock hours attributed to the institution's fiscal year divided by 792.

3.6. "Institution of Higher Education" - As defined in Section 101a of the Higher Education Act of 1965 as amended and 34 CFR Part 600.4.

3.7. "LEAP" - Leveraging Educational Assistance

Partnership.

3.8. "Non-Profit" - As defined in 34 CFR Part 77.1 of EDGAR.

3.9. "Participating Institution" - A public or private non-profit institution of higher education or postsecondary vocational institution which has entered into a participation agreement with the UHEAA.

3.10. "Postsecondary Vocational Institution" - As defined in 34 CFR Part 600.6.

3.11. "SLEAP" - Special Leveraging Educational Assistance Partnership

3.12. "Substantial Financial Need" - The difference computed to equal or exceed \$200 for an entire academic year between a student's cost of education (including tuition and fees; books and supplies; living expenses such as room and board, personal, miscellaneous, and transportation) and the student's sum of that student's expected family contribution and other student aid to be received.

**R765-606-4. Policy.****Part I - Program Administration**

4.1 State Board of Regents - The Utah State Board of Regents is the designated state agency for the LEAP program in the state of Utah. The responsibility for administration of the LEAP program has been assigned to the Utah Higher Education Assistance Authority (UHEAA). The Utah LEAP program is administered as a decentralized program.

4.2. Institutional Administration - The President of each institution shall be responsible for the administration of the LEAP program at the institutional level in compliance with Federal and state regulations. The institutional administration of the program may be delegated to the financial aid director or other appropriate institutional officers.

4.3. Fiscal Control and Fund Accounting - UHEAA shall provide fiscal control and fund accounting services for awards made under the program.

4.4. Governing Statutes and Regulations - UHEAA incorporates by reference the following Federal statutes and regulations:

4.4.1. The Higher Education Act of 1965, as amended (i.e. U.S. Code Title 20, Chapter 28, Subchapter IV, Part F);

4.4.2. Final Regulations of the U.S. Department of Education (i.e., 34 CFR Parts 600, 668, and 692); and

4.4.3. Education Department General Administration Regulations (EDGAR)

4.5. State Agency Rules - UHEAA establishes, from time to time, agency rules governing the operation of the Utah LEAP Program in accordance with Federal requirements as referenced in 4.4.1, 4.4.2 and 4.4.3.

4.6. Statutes and Regulations Available - A copy of all Federal and state rules, regulations and statutes directly affecting the Utah LEAP Program can be obtained from UHEAA at the Board of Regents Building, The Gateway, 60 South 400 West, Salt Lake City, Utah 84101-1284.

**Part II - Transfer of LEAP Federal Funds**

4.7. Transfer of LEAP federal Funds - UHEAA shall:

4.7.1. have a separate account number assigned from the Office of the State Director of Finance for Federal LEAP funds.

4.7.2. ensure that the custodian of Federal funds is the State Treasurer, Utah State Capitol, Salt Lake City.

4.7.3. make disbursements of Federal funds through the State Disbursing Office, Finance Department, Utah State Capitol, Salt Lake City, Utah.

4.7.4. have the receiving and approving officer for Federal funds be the Administrator of the Utah LEAP Program, a UHEAA staff member.

**Part III - Allocation of all Federal and State LEAP funds**

4.8. Matching of Federal LEAP funds - The state

matching funds for the LEAP program are appropriated by the Utah State Legislature to the State Board of Regents for the Utah LEAP program. The Federal funds shall be matched:

- 4.8.1. at a program level; and
- 4.8.2. at a level of at least fifty percent state funds to fifty percent Federal funds; and
- 4.8.3. at a level not less than the average annual aggregate expenditures for the preceding three fiscal years or the average annual expenditure per full-time equivalent student for such years.

4.9. Allocation of Federal and State LEAP Funds - UHEAA shall allocate Federal and state LEAP funds by using a formula based on the number of Utah resident, full-time equivalent students enrolled at each participating institution during the most recently completed fiscal year. The allocation of funds to a participating institution shall be in the same proportion to the total funds available to all Utah institutions as the number of resident, full-time equivalent students at the participating institution is to the total number of resident, full-time equivalent students at all participating institutions.

4.10 Inability of an Institution to Use the Full Allocation - When an institution indicates the inability to use its total allocation of LEAP Program funds in compliance with the guidelines during an award year, UHEAA may reallocate such excess funds to other eligible institutions within the state or provide for the Federal funds to be reallocated to other states through the U.S. Secretary of Education, as provided in the Federal regulations.

4.11. Disbursements - LEAP funds shall be disbursed by UHEAA on an as needed basis or just prior to the start of a new term. For institutions on a semester system this will be twice a year, for institutions on a quarter system this will be three times a year, for institutions operating on an open enrollment system this will be a minimum of three times a year.

4.12. Participation Agreement - The LEAP funds will be released to an institution upon receipt of a Participation Agreement signed by the President of the institution which certifies that the institution will follow all requirements of the program including the following:

- 4.12.1. The institution will maintain a separate account for Federal and state LEAP funds under this program.
- 4.12.2. LEAP funds allocated to institutions will be used only for direct financial assistance to students qualifying under the program.
- 4.12.3. LEAP funds allocated by UHEAA to support this program will not be transferred by the institution to other student aid programs.
- 4.12.4. LEAP funds not used by an institution will be returned to UHEAA within 30 days of the institution's determination that the funds will not be used and in no case later than 30 days before the end of the award year.
- 4.12.5. LEAP funds will not be disbursed to the student prior to the time the student completes registration.
- 4.12.6. The institution will maintain, on a current basis, adequate records sufficient to demonstrate that the program has been administered in accordance with the program requirements, to file a year-end report, to provide the Department of Education and UHEAA access to all records pertinent to the grant program, and provide student rosters to UHEAA upon request.

#### Part IV - Student Participation

4.13. President or Designee's Responsibilities - The President of each institution or the President's designee, as the institutional administrator shall:

- 4.13.1. accept applications for Utah LEAP program funds consistent with institutional policy as it relates to applications, and the provisions of the Act and regulations.
- 4.13.2. determine the student's eligibility for

participation in the program on the basis of an annually documented substantial financial need, using the congressional methodology of needs analysis. If eligible applicants exceed available funding levels, awards will start with the most needy students who meet all other application requirements.

4.13.3. ensure that no student shall be excluded from participation in this program on the basis of sex, race, color, age, religion, handicap, national origin, marital status or other constitutionally or legally impermissible grounds.

4.14. Student Eligibility - To be eligible for a grant from the Utah LEAP Program, a student must:

- 4.14.1. be a Utah Resident as defined in the Utah code 53B-8-102.
- 4.14.2. be an eligible student as defined in Section 484 of the Higher Education Act of 1965, as amended, and 34 CFR Part 668.7.

#### Part V - LEAP Annual Limits

4.15. Maximum Annual Limit - A student may receive an LEAP award up to \$2,500 for each award year for which the student is eligible for an LEAP award.

4.15.1. The maximum total grant under this program to any full-time student shall be \$2,500 in any academic year.

4.15.2. Summer school awards are to be part of the student's \$2,500 maximum.

4.15.3. LEAP awards shall be committed and disbursed before the end of the award year.

4.16. Estimated Cost of Attendance - In no case may the amount of the LEAP award exceed the student's estimated cost of attendance for the award period for which the grant is intended, less the sum of that student's expected family contribution and other student aid to be received.

4.17. Less than Full-time Students - At the discretion of the Financial Aid Officer, grant funds may be awarded to less than full-time students. Aid awarded to less than full-time students shall not exceed that proportion of \$2,500 which the less than full-time student's academic work load bears to a full academic work load.

#### Part VI - Record Retention and Reporting

4.18. Record Retention and Reporting - The President of each institution or the President's designee, as the institutional administrator shall:

- 4.18.1. maintain adequate records to show the utilization of the LEAP program.
- 4.18.2. submit such reports and information as may be required by the U.S. Department of Education, UHEAA, or the Utah State Board of Regents in connection with the administration of the program.

4.19. Records to be Maintained - In accordance with 34 CFR Part 692.21, UHEAA requires a participating institution to retain complete and accurate records of each LEAP awarded, including the following:

- 4.19.1. The Federal student aid application;
- 4.19.2. A record of each disbursement of grant proceeds; and
- 4.19.3. Any additional records that are necessary to document the accuracy of reports submitted to UHEAA, the Utah State Board of Regents, or the U.S. Department of Education.

4.20. Records Retention - An institution shall retain the records required for each LEAP award for at least five years after the award is disbursed. The U.S. Secretary of Education, or the Administrator of the Utah LEAP program, may, in particular cases, require the retention of records beyond the three-year minimum period.

4.21. Records Organization - The records must be organized in such a way as to permit ready identification of the current status of each grant. The records specified in subsections 4.19.1 through 4.19.3 of this policy may be stored

on microfilm or computer format.

4.22. Records Retention Violations - In the event the institution violates the record retention policy as outlined above, the administrator of the Utah LEAP program, may take such corrective action as is deemed necessary.

Part VII - SLEAP Program

4.23. Special Leveraging Educational Assistance Partnership (SLEAP) Program - SLEAP assists States in providing grants, scholarships, and community service work-study assistance to eligible students who attend institutions of higher education and demonstrate financial need.

4.24. Related Regulations and Definitions - The LEAP regulations and definitions listed above also apply to the SLEAP Program.

4.25. Program Requirements for the State - To receive SLEAP Program funds for any fiscal year, Utah must:

4.25.1. Participate in the LEAP Program;

4.25.2. Meet the requirements in 34 CFR Part 692.60; and

4.25.3. Have a program that satisfies the requirements in 34 CFR Part 692.21(a), (b), (d), (e), (f), (g), (j), and (k).

4.26. Student Eligibility Requirements - To receive assistance under the SLEAP Program, a student must meet the eligibility requirements of the LEAP Program above.

4.27. Requirements to Receive a SLEAP Allotment - To receive an allotment under the SLEAP Program, UHEAA will:

4.27.1. Submit an application in accordance with the provisions in 34 CFR Part 692.20;

4.27.2. Identify the activities in 4.28 for which it plans to use the SLEAP Federal and non-Federal funds;

4.27.3. Ensure that the non-Federal funds used as matching funds represent dollars that are in excess of the total dollars that the State of Utah spent for need-based grants, scholarships, and work-study assistance for fiscal year 1999, including the State funds reported as part of its LEAP Program;

4.27.4. Provide an assurance that for the fiscal year prior to the fiscal year for which Utah is requesting Federal funds, the amount the State expended from non-Federal sources per student, or the aggregate amount the State expended, for all the authorized activities in 34 CFR Part 692.71 will be no less than the amount the State expended from non-Federal sources per student, or in the aggregate, for those activities for the second fiscal year prior to the fiscal year for which the State is requesting Federal funds; and

4.27.5. Ensure that the Federal share will not exceed one-third of the total funds expended under the SLEAP Program.

4.28. Permitted Activities - Utah may use the funds it receives under the SLEAP Program for one or more of the following activities:

4.28.1. Supplement LEAP grant awards to eligible students who demonstrate financial need by:

(a) Increasing the LEAP grant award amounts for students; or

(b) Increasing the number of students receiving LEAP grant awards.

4.28.2. Supplement LEAP community service work-study awards to eligible students who demonstrate financial need by:

(a) Increasing the LEAP community service work-study award amounts for students; or

(b) Increasing the number of students receiving LEAP community service work-study awards.

4.28.3. Award scholarships to eligible students who demonstrate financial need and who:

(a) Demonstrate merit or academic achievement; or

(b) Wish to enter a program of study leading to a career

in:

(i) Information technology;

(ii) Mathematics, computer science, or engineering;

(iii) Teaching; or

(iv) Other fields determined by Utah to be critical to the State's workforce needs.

4.29. Administrative Costs - Utah may not use any of the funds it receives under the SLEAP Program to pay any administrative costs.

4.30. Community Service Work-Study Program - When administering its community service work-study program, Utah must follow the provisions in 34 CFR Part 692.30, other than the provisions of paragraph (a)(1) of that section.

**53B-7-103**

**R807. Regents (Board of), University of Utah, Museum of Natural History (Utah).****R807-1. Curation of Collections from State Lands.****R807-1-1. Purpose.**

(1) This rule ensures the adequate curation of all collections from lands owned or controlled by the state and its subdivisions through the selection and review of curation facilities and repositories.

**R807-1-2. Authority.**

(1) This rule is required by Title 53B, Chapter 17, and is enacted under the authority of Subsections 53B-17-603(2) and 53B-17-603(4)(b) and (c), and 53B-17-603(6).

**R807-1-3. Definitions.**

(1) The terms used in this rule are defined in Sections 9-8-302, 65A-1-1, 53B-17-603, and 63-73-1.

(a) "Collection" means a specimen and the associated records documenting the specimen and its recovery.

(b) "Critical paleontological resources" means vertebrate fossils and other exceptional fossils that are designated state paleontological landmarks as provided for in Section 63-73-16.

(c) "Curation facility" means:

- (i) the museum;
  - (ii) an accredited facility meeting federal curation standards; or
  - (iii) an appropriate state park.
- (d) "Museum" means the Utah Museum of Natural History.

(e) "Repository" means:

- (i) a facility designated by the museum through memoranda of agreement; or
  - (ii) a place of reburial.
- (f) "Specimen" means:
- (i) all man-made artifacts and remains of an archaeological or anthropological nature, found on or below the surface of the earth, excluding structural remains; and
  - (ii) remains of a critical paleontological nature found on or below the surface of the earth.

(2) In addition:

(a) "Appropriate permitting agency" means the Division of State History, the Geologic Survey, or the School and Institutional Trust Lands Administration as set forth in Sections 9-8-305 and 63-73-12,13.

(b) "Arbitration board" means ultimate arbitration authority as set forth in Section 53B-17-603(4)(c)(vii).

(c) "Committee" means the curation advisory committee;

(d) "State lands" means lands owned or controlled by the state and its subdivisions, and includes lands administered by the School and Institutional Trust Lands Administration.

**R807-1-4. Clarification of 53B-17-603.**

(1) For the purposes of Section 53B-17-603 and this rule:

(a) "Accredited" means current accreditation by the American Association of Museums or other nationally recognized accrediting institutions or agencies;

(b) "Appropriate state park" means a state park designated by the Division of Parks and Recreation as meeting and being in compliance with federal curation standards;

(c) "Federal curation policy" means: generally understood principles of federal and professional curation policy, and for archaeological collections, includes but is not limited to those as set forth in 36 CFR Part 79, 1996 ed., as amended and those federal rules implementing the Native American Grave Protection and Reburial Act (43 CFR Part

10, 1996 ed.);

(d) "Meeting federal curation standards" means that a facility has been designated by a federal agency as a repository and is in compliance with Federal curation policy.

**R807-1-5. Curation Advisory Committee.**

(1) The Museum shall establish a curation advisory committee and shall select the members of the Committee.

(2) The Committee shall be composed of at least eight members and shall include a representative from the Division of Parks and Recreation, the Division of Sovereign Lands and Forestry, the School and Institutional Trust Lands Administration, Division of Indian Affairs, Division of State History, Utah Geologic Survey, curation facilities, and may include representatives with interests in one or more of the following areas: education, research, cultural resource management, or curation.

(3) The Committee shall serve in an advisory capacity to the Museum.

(4) The Committee's responsibilities shall include advising the Museum on the following:

(a) the development and annual review of procedures relating to the designation of repositories;

(b) the designation of certain repositories or curation facilities, taking into consideration those factors listed in Section 53B-17-603(4)(c); and

(c) other means by which the Museum can ensure the adequate curation of all collections from state lands.

(5) The Committee shall meet with the Museum at least semiannually, as called by the Director of the Museum.

**R807-1-6. Proof of Consultation.**

(1) The Museum may enter into a memorandum of agreement with permitting agencies that establishes a process for providing persons applying for either a survey or an excavation permit with proof of consultation as required by Section 63-73-12(1)(c)(vi). That process will include:

(a) The Museum maintaining a list of curation facilities and repositories in Utah. The list shall include:

(i) their geographic location;

(ii) the types of collections they curate or desire to curate; and

(iii) for repositories, the types of collections they can adequately curate.

(b) A procedure for the permit applicant receiving a copy of the list.

(c) A procedure for the Museum receiving notification of the selected curation facility or repository and a copy of the permit application.

(d) A procedure whereby critical vertebrate paleontological resources may be curated by the permittee when the permittee is a curation facility.

(2) Collections obtained under an excavation permit shall be deposited by the permittee at the designated repository or curation facility no later than six months after the permittee provides the appropriate permitting agency with reports as required by law.

(3) Collections obtained under a survey permit shall be deposited at the designated repository or curation facility within one calendar year of completion of field work.

**R807-1-7. Curation Standards.**

(1) In order to be designated as an appropriate curation facility or repository for collections, a facility must provide evidence of its ability to continually provide adequate curation appropriate to the nature and content of the collection.

(2) Adequate curation is presumed for all curation

facilities.

(3) Adequate curation for repositories means at a minimum:

(a) possessing and maintaining complete and accurate collection records;

(b) possessing and maintaining requisite facilities which have equipment and space in the physical plant dedicated solely to the proper storage, study, and conservation of collections;

(c) possessing and maintaining the ability to keep collections under physically secure conditions within storage, laboratory, study, and exhibition areas;

(d) requiring staff and any consultants who are responsible for managing and preserving collections to be trained in the curation of collections;

(e) appropriately handling, storing, cleaning, conserving, and exhibiting collections to ensure the physical integrity of collections;

(f) storing records of collections, including site forms, field notes, artifact inventory lists, computer disks and tapes, catalog forms, photographs, and a copy of the final report in a manner that will protect them from theft and fire;

(g) conducting regular inspections and inventories of collections; and

(h) developing and implementing procedures regarding the accessioning, loan, exhibition, and deaccessioning of specimens.

#### **R807-1-8. Designation of Repositories.**

(1) Any facility, other than a place of reburial, seeking to be designated as a repository shall submit to the Museum:

(a) a completed Facility Assessment Form, a copy of which may be obtained from the Museum; and

(b) any other information relating to the facility's ability to provide adequate curation appropriate to the nature and content of collections requested by the Museum.

(2) If the Museum determines that a facility is able to provide adequate curation, the Museum will enter into a memorandum of agreement that will designate that facility as a repository and ensure continued adequate curation at that facility. The memoranda of agreement shall include the following:

(a) reporting provisions;

(b) provisions for periodic review and monitoring; and

(c) conditions triggering the revocation of collections from state lands.

(3) Any facility denied repository status may appeal the Museum's decision within 30 days of the denial of status pursuant to the procedures set forth in R807-1-13 below.

#### **R807-1-9. Selection of a Repository or Curation Facility.**

(1) A repository or curation facility seeking designation as a repository or curation facility shall notify the Museum of the nature of collections it wishes to curate by filing a request with the Museum. A request for designation shall include a discussion of the following as appropriate:

(a) identification of any specific site or project of interest to the repository or curation facility;

(b) repository or curation facility programs related to its proposed scientific and educational use of the requested collections; and

(c) proximity of the repository or curation facility to the point of origin of the requested collections.

(2) The Museum shall select a repository or curation facility for collections to be obtained from state lands under a survey permit, considering those factors listed in Section 53B-17-603(4)(c).

(3) The Museum in consultation with the Committee shall select a repository or curation facility for collections to

be obtained from state lands under an excavation permit, taking into consideration those factors listed in Section 53B-17-603(4)(c).

(4) The Museum in consultation with the Committee shall designate a second repository or curation facility to curate collections if the repository or curation facility originally selected fails to provide adequate curation appropriate to the nature and content of the collection.

(5) Any curation facility or repository may appeal the selection of a repository or curation facility within 30 days after receiving notice of that selection through the procedures set forth in R805-1-13 below.

#### **R807-1-10. Obligations of Repositories or Curation Facilities.**

(1) Repositories or curation facilities shall immediately notify the Museum of any loss of accreditation, any changes resulting in a failure to meet federal curation standards, or any breach of a memorandum of agreement entered into with the Museum.

(2) If a repository or curation facility loses its accreditation, fails to meet federal curation standards, or breaches its memorandum of agreement, the Museum may require transfer of collections to another repository or curation facility.

(3) The Museum shall periodically review repositories to assure they are providing adequate curation appropriate to the nature and content of the collection. The Museum's reviews may occur through an on-site visit or submission of written reports from the repository. The Museum shall give the repository 30 days notice of a proposed review.

(4) Curation facilities with collections from state lands shall provide the Museum with copies of accreditation reports from the American Association of Museums or other nationally recognized accrediting institutions or agencies.

(5) Repositories or curation facilities shall provide an inventory of collections received from state lands to the Museum within 90 days of receipt of the collection.

(6) Repositories or curation facilities shall notify the Museum 30 days prior to undertaking any destructive analysis or exchange to allow the Museum opportunity to review and comment.

(7) Other than appropriate exchanges of collections and destructive analysis, no other form of permanent removal of collections shall take place.

(8) Repositories or curation facilities shall notify the Museum within 30 days of the accidental or any other loss or destruction of any specimen.

(9) Repositories or curation facilities shall not take any actions that would adversely affect recognition of the following:

(a) Collections obtained in exchange for collections found on school and institutional trust lands are owned by the respective trust and are subject to these rules;

(b) Collections recovered from school and institutional trust lands are owned by the respective trust;

(c) Any monies obtained by a curation facility or repository from sales of reproductions derived from collections found on state lands shall be given to the respective trust, except that the curation facility or repository may retain monies sufficient to recover the direct costs of preparation for sale and a reasonable fee for handling the sale. It is recognized that a curation facility or repository may contract with a third party to prepare and produce reproductions.

(d) Collections recovered from school and institutional trust lands shall be available for exhibition as the beneficiaries of the respective trust may request, subject to Museum's curation responsibilities and the repository or

curation facility's budgetary and exhibit priorities.

**R807-1-11. Reporting.**

(1) The Museum shall annually submit to the Division of Sovereign Lands and Forestry and the School and Institutional Trust Lands Administration an inventory of collections received from their respective lands and placed in repositories or curation facilities.

(2) The Museum shall annually submit to the Division of Sovereign Lands and Forestry and the School and Institutional Lands Administration an inventory of specimens lost, destroyed, or exchanged from their collections.

(3) The Museum shall annually submit to the Division of State History a list of collections received and places in repositories or curation facilities.

**R807-1-12. Designation of Adjudicative Proceedings as Informal.**

(1) All appeals shall be conducted informally.

**R807-1-13. Procedures of Informal Adjudicative Proceedings.**

(1) Any facility requesting an appeal of a Museum designation or selection shall include the following information in its request:

(a) the names and addresses of all persons known to have a direct interest in the requested Museum action and to whom a copy of the request for Museum action is being sent;

(b) the Museum's file number or other reference number, if known;

(c) the date that the request for Museum action was mailed;

(d) a statement of the legal authority and jurisdiction under which the Museum action is requested;

(e) a statement of the relief or action sought from the Museum; and

(f) a statement of the facts and reasons forming the basis for relief or Museum action.

(2) The facility requesting an appeal shall send a copy of the request by mail to each person known to have a direct interest in the requested agency action.

(3) The director of the Museum shall promptly review a request for relief and shall notify the facility in writing of:

(a) the decision;

(b) the reasons for the decision; and

(c) a notice of the right to review by the arbitration board within 30 days.

(4) Copies of the director's notification shall be sent to the facility making the request and to those parties who have previously expressed a direct interest in the request.

(5) The facility may request a review within 30 days of the director's final decision by submitting a written request to the Museum. The Museum director shall then request that the arbitration board, as set forth in 53B-17-603 (4)(c)(vii), shall meet.

(6) The arbitration board shall respond to the request within 30 days of notification.

**R850. School and Institutional Trust Lands, Administration.****R850-8. Adjudicative Proceedings.****R850-8-100. Authorities.**

This rule implements Sections 6, 8, 10, and 12 of the Utah Enabling Act, Articles X and XX of the Utah Constitution, and Subsections 53C-1-204(3), 53C-1-204(10)(c), and Section 53C-1-304.

**R850-8-200. Scope.**

This rule governs adjudicative proceedings conducted by the School and Institutional Trust Lands Administration Board of Trustees or any hearing examiner designated by the board, and judicial review of all such proceedings.

**R850-8-300. Definitions.**

1. Adjudicative proceeding - means a review by the board of a final Trust Lands Administration action that determines the legal rights, duties, privileges, immunities, or other legal interests of one or more identifiable persons.

2. Board - means School and Institutional Trust Lands Administration Board of Trustees. References to the board shall also apply to any hearing examiner appointed unless the context of rules requires otherwise.

3. Final agency action - means a written determination by the Trust Lands Administration of the legal rights, duties, privileges, immunities, or other legal interests of one or more identifiable persons. The determination shall be in any form deemed appropriate by the Trust Lands Administration, including but not limited to, a notation on the director's minutes, a narrative record of decision, or a decision letter.

4. Party - means the Trust Lands Administration or other person commencing an adjudicative proceeding, all respondents, all persons permitted by the board to intervene in the proceeding, and all persons authorized by statute or Trust Lands Administration rule to participate as parties in an adjudicative proceeding.

5. Person - means an individual, group of individuals, partnership, corporation, association, political subdivision or its units, governmental subdivision or its units, public or private organization or entity of any character, or another agency.

6. Petitioner - means a person who requests the initiation of any proceeding.

7. Respondent - means a person against whom an adjudicative proceeding is initiated, or whose property interest is directly affected by a proceeding initiated by the board or by another person.

**R850-8-400. Liberal Construction.**

This rule will be liberally construed to secure just, speedy, and economical determination of issues presented to the board.

**R850-8-500. Deviation from Rules.**

The board, in its sole discretion, may permit a deviation from this rule for good cause, including but not limited to situations where compliance is impractical or unnecessary, or in the furtherance of due process or the statutory obligations of the board.

**R850-8-600. Appearances and Representations.****1. Natural Persons.**

A natural person may appear on his or her own behalf and represent himself or herself at hearings before the board.

**2. Attorneys.**

Except as provided in R850-8-600(1), representation at hearings before the board will be by attorneys licensed to practice law in the state of Utah, or in the discretion of the

board, attorneys licensed to practice law in another jurisdiction.

**R850-8-700. Conferences Encouraged.**

This rule does not preclude the Trust Lands Administration or the board at any time from holding conferences with parties and interested persons to encourage settlement, clarify the issues, simplify the evidence, facilitate discovery in formal adjudicative proceedings, or otherwise expedite the proceedings.

**R850-8-800. Filing of Pleadings.**

An original and ten copies of all documents, including any exhibits, required or permitted to be filed, shall be filed at the office of the director. The director shall not accept less than the required number of copies. Each party filing documents with the director shall send one copy by first class mail to each other party to the proceeding.

**R850-8-900. Final Agency Action.**

1. The final agency action shall be in writing and shall include the date that it was mailed and shall be signed by the director or his designee.

2. The Trust Lands Administration shall mail the final agency action to any other person who has a right to notice under statute or rule.

**R850-8-1000. Appeal of Final Agency Action.**

1. The Trust Lands Administration may by rule specifically designate certain categories of Trust Lands Administration actions that are not subject to appeal.

2. Except where no appeal is available pursuant to rule, an appeal may be initiated by any person directly affected by the Trust Lands Administration action. A written petition must be filed within 14 days of the mailing date of the final agency action requesting an adjudicative proceeding. In the event an appeal is not filed in the 14 day time period, the final Trust Lands Administration action shall become unappealable. The petition for an adjudicative proceeding shall be filed according to the following requirements:

(a) the petition shall be filed at the office of the director pursuant to R850-8-800.

(b) the petition shall state:

i) all facts upon which the petition is based;

ii) any statute, rule, contract provision, or board policy which the final agency action is alleged to violate;

iii) the nature of the violation of the final agency action with the statute, rule, contractual provision or board policy, and the injury that is specific to the petitioner arising from the final agency action. If the injury identified by the petition is not peculiar to the petitioner as a result of the action, the board will decline to hear the appeal; and

iv) the relief requested.

3. Upon receipt of a petition, the director shall initially stay any further actions with respect to the matter for which the adjudicative proceeding is being sought by the petitioner. The board, in its discretion, may lift such suspension or condition the continuation of the stay upon filing of a surety, in an amount specified by the board, sufficient to protect the interests of the beneficiaries.

4. Upon receipt the director shall promptly mail the petition to the board.

5. When the date of mailing is at least ten days prior to a regularly scheduled board meeting, the board may consider the petition at that meeting. In the event that the date of mailing is within ten days of a regularly scheduled board meeting, the petition will be considered at the next succeeding board meeting.

6. In its initial consideration of any petition, the board

may schedule the petition for hearing at a future date, make determinations concerning whether the adjudicative proceeding will be formal or informal, address procedural matters such as stays, discovery, etc., or hear the matter on the merits.

7. The board may decline to conduct adjudicative proceedings in response to a petition, in which case the petitioner shall be entitled to judicial review pursuant to Section 63-46b-15.

**R850-8-1100. Designation of Adjudicative Proceedings as Formal or Informal.**

1. The board, in its discretion, shall determine whether to conduct an adjudicative proceeding formally or informally.

2. Any time before a final order is issued in any adjudicative proceeding, the board may convert a formal adjudicative proceeding to an informal adjudicative proceeding, or an informal adjudicative proceeding to a formal adjudicative proceeding if conversion of the proceeding does not unfairly prejudice the rights of any party.

**R850-8-1200. Procedures for Informal Adjudicative Proceedings.**

1. The Trust Lands Administration may, but is not required, to file an answer or other pleading responsive to the allegations contained in the petition.

2. The parties to the proceeding shall be permitted to testify, present evidence, and comment on the issues.

3. Hearings will be held only after timely notice to all parties.

4. Discovery is prohibited, but, the board may issue subpoenas or other orders to compel production of necessary evidence.

5. All parties shall have access to information contained in the Trust Lands Administration's files and to all materials and information gathered in any investigation, to the extent permitted by law.

6. Intervention shall be in accordance with R850-8-1400.

7. All hearings shall be open to all parties.

8. Within a reasonable time after the close of an informal adjudicative proceeding, the board shall issue a signed order in writing that states the following:

(a) the decision, and when appropriate, the reasons for the decision;

(b) a notice of any right of judicial review available to the parties;

(c) the time limits for filing an appeal.

9. A copy of the board's order shall be promptly mailed to each of the parties.

10. Recordation of Hearing.

(a) The board may record or have a transcript prepared of any hearing.

(b) Any party, at its own expense may record or have a reporter approved by the board prepare a transcript of the hearing, subject to any restrictions that the board is permitted by statute to impose to protect confidential information disclosed at the hearing.

**R850-8-1300. Procedures for Formal Adjudicative Proceedings.**

1. An original and ten copies of all papers permitted or required to be filed shall be filed with the Trust Lands Administration and one copy shall be sent by mail to each party.

2. In addition to the final agency action, and the petition for the appeal of the final agency action, additional motions may be submitted for the board's decision on either written or oral argument and the filing of affidavits in support or

contravention may be permitted. Any written motion may be accompanied by a supporting memorandum of fact and law.

3. The board may permit or require pleadings in addition to the final agency action and the appeal of the final agency action.

4. Upon motion of a party, and for good cause shown, the board may authorize discovery against another party, including the Trust Lands Administration, in the manner provided by the Utah Rules of Civil Procedure.

5. Subpoenas and other orders to secure the attendance of witnesses or the production of evidence shall be issued by the board when requested by any party, or may be issued upon its own motion.

6. Hearing procedure.

(a) The board shall regulate the course of the hearing to obtain full disclosure of relevant facts and to afford all the parties reasonable opportunity to present their positions.

(b) On its own motion or upon objection by a party, the board:

i) may exclude evidence that is irrelevant, immaterial, or unduly repetitious;

ii) shall exclude evidence privileged in the courts of Utah;

iii) may receive documentary evidence in the form of a copy or excerpt if the copy or excerpt contains all pertinent portions of the original document;

iv) may take official notice of any facts that could be judicially noticed under the Utah Rules of Evidence, of the record of other proceedings before the board, and of technical or scientific facts within the board's specialized knowledge.

(c) The board may not exclude evidence solely because it is hearsay.

(d) The board shall afford to all parties the opportunity to present evidence, argue, respond, conduct cross-examination, and submit rebuttal evidence.

(e) The board may give persons not a party to the adjudicative proceeding the opportunity to present oral or written statements at the hearing.

(f) All testimony presented at the hearing, if offered as evidence to be considered in reaching a decision on the merits, shall be given under oath.

(g) The hearing shall be recorded at the board's expense.

(h) Any party, at his own expense, may have a person approved by the board prepare a transcript of the hearing, subject to any restrictions that the board is permitted by statute to impose to protect confidential information disclosed at the hearing.

(i) All hearings shall be open to all parties.

(j) This section does not preclude the presiding officer from taking appropriate measures necessary to preserve the integrity of the hearing.

7. Intervention shall be in accordance with R850-8-1400.

8. Orders.

(a) Within a reasonable time after the hearing, or after the filing of any post-hearing papers permitted by the board, the board shall sign and issue an order that includes:

i) a statement of the board's findings of fact based exclusively on the evidence of record in the adjudicative proceedings, or on facts officially noted;

ii) a statement of the board's conclusions of law;

iii) a statement of the reasons for the board's decision;

iv) a statement of any relief ordered by the board;

v) a notice of any right to judicial review of the order available to aggrieved parties;

vi) the time limits applicable to any review (or reconsideration).

(b) The board may use its experience, technical competence, and specialized knowledge to evaluate the

evidence.

(c) No finding of fact that was contested may be based solely on hearsay evidence unless that evidence is admissible under Utah Rules of Evidence.

(d) This section does not preclude the board from issuing interim orders to:

- i) notify the parties of further hearings;
- ii) notify the parties of provisional rulings on a portion of the issues presented; or
- iii) otherwise provide for the fair and efficient conduct of the adjudicative proceeding.

**R850-8-1400. Informal or Formal Adjudicative Proceedings - Intervention.**

1. Any person not a party may file a signed, written petition to intervene in an adjudicative proceeding with the Trust Lands Administration.

2. The person who wishes to intervene shall mail a copy of the petition to each party. The petition shall include:

- (a) a statement of facts demonstrating that the petitioner's legal rights or interests are substantially affected by the formal adjudicative proceeding, or that the petitioner qualifies as an intervenor under any provision of law; and
- (b) a statement of the relief that the petitioner seeks from the Trust Lands Administration.

3. The board shall grant a petition for intervention if it determines that:

- (a) the petitioner's legal interests may be substantially affected by the formal adjudicative proceeding; and
- (b) the interests of justice and the orderly and prompt conduct of the adjudicative proceedings will not be materially impaired by allowing intervention.

4.

(a) Any order granting or denying a petition to intervene shall be in writing and sent by mail to the petitioner and each party.

(b) An order permitting intervention may impose conditions on the intervenor's participation in the adjudicative proceeding that are necessary for a just, orderly, and prompt conduct of the adjudicative proceeding.

(c) the board may impose the conditions at any time after the intervention.

**R850-8-1500. Formal Adjudicative Proceeding - Designation of Hearing Examiner.**

1. The board may in its discretion, on its own motion or motion of one of the parties, designate a hearing examiner for purposes of taking evidence and recommending findings of fact and conclusion of law to the board. Any member of the board, or any person designated by the board may serve as a hearing examiner, other than an employee of the Trust Lands Administration.

2. Powers.

The order appointing a hearing examiner may specify or limit the hearing examiner's powers and may direct the hearing examiner to report only upon particular issues: to do or perform particular acts or to receive and report evidence only; and to fix the time and place for beginning and closing the hearing and for filing a report. Unless the hearing examiner's authority is limited the hearing examiner will be vested general authority to conduct hearings in an orderly and judicial matter, including authority to:

- (a) summon and subpoena witnesses;
- (b) administer oaths, call and question witnesses;
- (c) require the production of records, books and documents;
- (d) take such other action in connection with the hearing as may be prescribed by the board.
- (e) make evidentiary rulings and propose findings of fact

and conclusions of law.

3. Conduct of hearings.

Except as limited by the board's order, hearings will be conducted under the same rules and in the same manner as hearings before the board.

4. Rulings, Findings, and Conclusions of the hearing examiner.

During the hearing, objections to evidence will be ruled upon by the hearing examiner. Where a ruling sustains objections to an admission of evidence, the party affected may insert in the record, as a tender of proof, a summary written statement of the evidence excluded and the objecting party may then make an offer of proof in rebuttal. Upon completion of the hearing, the hearing examiner will prepare a written summary of all such rulings and will make proposed findings of fact and conclusions of law in a proposed order in conformance with R850-8-1300(8). All such proposed rulings, findings, and conclusions will be distributed to the parties and filed with the board.

**R850-8-1600. Default.**

1. The board may enter an order of default against a party if:

- (a) a party in an informal adjudicative proceeding fails to participate in the adjudicative proceeding; or
- (b) a party to a formal adjudicative proceeding fails to attend or participate in a properly scheduled hearing after being given proper notice.

2. An order of default shall include a statement of the grounds for default and shall be mailed to all parties.

3.

(a) A defaulted party may seek to have the Trust Lands Administration set aside the default order, and any order in the adjudicative order, by following the procedures outlined in the Utah Rules of Civil Procedure.

(b) A motion to set aside a default and any subsequent order shall be made to the board.

4.

(a) In an adjudicative proceeding that has other parties besides the party in default, the board shall, after issuing the order of default, conduct any further proceedings necessary to complete the adjudicative proceeding without the participation of the party in default.

**R850-8-1700. Reconsideration and Modification of Existing Orders.**

1. Any person affected by a final order or decision of the board may file a petition for reconsideration within 20 days after the date the order was issued.

2. A copy of the request for reconsideration shall be sent by mail to each party by the person making the request.

3. The petition for reconsideration will set forth specifically the particulars in which it is claimed the board's order or decision is unlawful, unreasonable, or unfair. If the petition is based upon a claim that the board failed to consider certain evidence, it will include an abstract of that evidence. If the petition is based upon newly discovered evidence, then the petition will be accompanied by an affidavit setting forth the nature and extent of such evidence, its relevancy to the issues involved, and a statement that the party could not with reasonable diligence have discovered the evidence prior to the hearing.

4. All other parties to the proceeding upon which a reconsideration is sought may file a response to the petition with the director at any time prior to the hearing at which the petition will be considered by the board. Such responses will be served on the petitioner at or before the hearing.

5. The board will act upon the petition for a rehearing at its next regularly scheduled meeting following the date of its

filing. If no action is taken by the board within such time, the petition will be deemed to be denied. The board may set a time for a hearing on said petition or may summarily grant or deny the petition.

6. The filing of the request is not a prerequisite for seeking judicial review of the order.

**R850-8-1800. Judicial Review - Exhaustion of Administrative Remedies.**

1. A party aggrieved may obtain judicial review of a final order issued in an adjudicative proceeding, except where judicial review is expressly prohibited by statute.

2. A party may seek judicial review only after exhausting all administrative remedies available, except that a party seeking judicial review need not exhaust administrative remedies if any statute or rule states that exhaustion is not required.

3.

(a) A party shall file a petition for judicial review of a final order issued by the board within 30 days after the date that the order is issued or considered issued.

(b) The petition shall name the Trust Lands Administration and all other appropriate parties as respondents.

**R850-8-1900. Judicial Review.**

To seek judicial review of a final board action resulting from informal or formal adjudicative proceedings, the petitioner shall file a petition for review of a board order with the appropriate court in the manner required by Sections 63-46b-15 and 63-46b-16, as appropriate.

**R850-8-2000. Judicial Review - Stay and Other Temporary Remedies Pending Final Disposition.**

1. The board may grant a stay of its order or other temporary remedy during the pendency of judicial review if it determines a stay would be in the interest of justice and would not unduly harm the beneficiaries. The board, in its discretion, may condition the continuation of the stay upon filing of a surety, in an amount specified by the board, sufficient to protect the interests of the beneficiaries.

2. If the board denies a stay or denies other temporary remedies requested by a party, the board's order of denial shall be mailed to all parties and shall specify the reasons why the stay or other temporary remedy was not granted.

**R850-8-2100. Emergency Adjudicative Proceedings.**

1. The board may issue an order on an emergency basis without complying with the requirements of this section if:

(a) the facts known by the board or presented to the board show that an immediate and significant danger to the public health, safety, or welfare exists; or

(b) an immediate and irreparable threat to the beneficiaries exists; and

(c) the threat requires immediate action by the board.

2. In issuing its emergency order, the board shall:

(a) limit its order to require only the action necessary to prevent or avoid the danger to the public health, safety, or welfare; or

(b) the immediate and irreparable threat to the beneficiaries; and

(c) issue promptly a written order, effective immediately, that includes a brief statement of findings of fact, conclusions of law, and reasons for the agency's utilization of emergency adjudicative proceedings; and

(d) give immediate notice to the persons who are required to comply with the order.

3. If the emergency order issued under this section will result in the continued infringement or impairment of any

legal right or interest of any party, the board shall commence an adjudicative proceeding in accordance with the other provisions of this section.

**R850-8-2200. Waivers.**

Notwithstanding any other provision of these rules, any procedural matter, including any right to notice or hearing, may be waived by the affected person by a signed, written waiver in a form acceptable to the board.

**R850-8-2300. Severability.**

In the event that any provision, section, subsection or phrase of these rules is determined by a court or body of competent jurisdiction to be invalid, unconstitutional, or unenforceable, the remaining provisions, sections, subsections or phrases shall remain in full force and effect.

**R850-8-2400. Time Periods.**

Nothing in this section shall be interpreted to restrict the director, or, the board from lengthening or shortening any time period prescribed herein.

**R865. Tax Commission, Auditing.****R865-4D. Special Fuel Tax.****R865-4D-1. Utah Special Fuel Tax Regulation Pursuant to Utah Code Ann. Section 59-13-102.**

A. Motor vehicle means and includes every self-propelled vehicle operated or suitable for operation on the highways of the state which is designed for carrying passengers or cargo; but does not include vehicles operating on stationary rails or tracks, or implements of husbandry not operating on the highways.

B. User means any person using special fuel for the propulsion of a motor vehicle on the highways of the state, including:

1. interstate operators of trucks and buses,
2. intrastate operators of trucks and buses, and
3. contractors using special fuel in self-propelled vehicles for carrying of passengers or cargo.

**R865-4D-2. Clean Special Fuel Certificate, Refund Procedures for Undyed Diesel Fuel Used Off-Highway or to Operate a Power Take-Off Unit, and Sales Tax Liability Pursuant to Utah Code Ann. Sections 59-13-301 and 59-13-304.**

A. If the vehicle is registered in Utah, the fee for a clean special fuel certificate under Section 59-13-304 is due at the time the vehicle is placed in operation and annually thereafter on the date the vehicle's registration is renewed. Certificates may be obtained from any Tax Commission office or any local motor vehicle office. If a vehicle is not registered in Utah, the fee is due on the date the vehicle begins operation in Utah. The fee paid for a vehicle placed in operation may be pro-rated on a monthly basis if the certificate obtained for the vehicle is valid for a period of less than 12 months. Fees paid will not be refunded if a vehicle is sold or otherwise disposed of prior to the expiration date of the certificate.

B. Fuel used in a vehicle off-highway is calculated by taking off-highway miles divided by the average number of miles per gallon. Any other method of calculating undyed diesel fuel used off-highway must be supported by on-board computer information or other information that shows the number of gallons used off-highway with accuracy equal or comparable to on-board computers.

C. Where a power take-off unit is driven by the main engine of the vehicle and used to operate auxiliary equipment, a quantity, as enumerated below, of the total undyed diesel fuel delivered into the service tank of the vehicle shall be deemed to be used to operate the power take-off unit. The allowances for power take-off units are as follows:

1. concrete mixer trucks - 20 percent;
2. garbage trucks with trash compactor - 20 percent;
3. vehicles with powered pumps, conveyors or other loading or unloading devices may be individually negotiated but shall not exceed:
  - a) 3/4 gallon per 1000 gallons pumped; or
  - b) 3/4 gallon per 6000 pounds of commodities, such as coal, grain, and potatoes, loaded or unloaded.
4. Any other method of calculating the amount of undyed diesel fuel used to operate a power take-off unit must be supported by documentation and records, including on-board computer printouts or other logs showing daily power take-off activity, that establish the actual amount of power take-off activity and fuel consumption.

D. Allowances provided for in B. and C. above will be recognized only if adequate records are maintained to support the amount claimed.

E. In the case of users filing form TC-922, Fuel Tax Return For International Fuel Tax Agreement (IFTA) And Special Fuel User Tax, or form TC-922C, Refund of Tax Paid on Exempt Fuel for Non-Utah Based Carriers, the allowance

provided for in C. will be refunded to the extent total gallons allocated to Utah through IFTA exceed the actual taxable gallons used in Utah, except that in no case will refunds be allowed for power take-off use that does not occur in Utah.

F. Undyed diesel fuel used on-highway for the purpose of idling a vehicle does not qualify for a refund on special fuel tax paid since the fuel is used in the operation of a motor vehicle.

G. Diesel fuel that is purchased exempt from the special fuel tax or for which the special fuel tax has been refunded is subject to sales and use tax, unless specifically exempted under the sales and use tax statutes.

**R865-4D-3. User-Dealer's License Pursuant to Utah Code Ann. Section 59-13-302.**

A. Prior to any sale or use of special fuel in this state each user-dealer shall apply for and obtain a special fuel user-dealer's license for each bulk plant or service station from which such special fuel is to be sold or used. Application for a special user-dealer's license shall be made on a form provided by the Tax Commission. Under the law the Tax Commission may require a user-dealer to furnish a bond. Upon receipt and approval of the application, the commission will issue the license. A special fuel user-dealer's license is valid only for the user-dealer in whose name issued and for the specific bulk plant or service station named on the license. The license shall remain in force and effect unless the holder of the license ceases to act as a user-dealer, or the Tax Commission for reasonable cause terminates the license at an earlier date.

B. Upon sale or discontinuance of the sale or distribution of special fuel as defined in this rule from a bulk plant or service station for which a license has been issued, the user-dealer shall return for cancellation the license issued for the bulk plant or service station.

**R865-4D-6. Invoices Pursuant to Utah Code Ann. Sections 59-13-301 and 59-13-313.**

A. If requested, a retail dealer must issue to a purchaser of special fuel an invoice that indicates the fuel taxes that have been included in the price of purchased fuel. This invoice shall serve as evidence that the special fuel tax has been paid.

B. Invoices must be numbered consecutively, made in duplicate, and contain the following information:

1. name and address of seller;
2. place of sale;
3. date of sale;
4. name and address of purchaser;
5. fuel type;
6. number of gallons sold;
7. unit number or other vehicle identification if delivered into a motor vehicle;
8. type of container delivered into if not a motor vehicle;
9. invoice number; and
10. amount and type of state tax paid on the special fuel, if any.

C. A retail dealer must charge sales tax on diesel fuel that is exempt from special fuel tax unless the retail dealer has received and retains on file a properly completed sales and use tax exemption certificate indicating that the transaction is exempt from sales tax.

D. A retail dealer that sells propane exempt from special fuel tax, but subject to sales tax, must at the time of each sale and delivery keep a record of the exempt sale. This record shall be in the form of an invoice or a log, and shall serve as evidence that the sale is exempt from special fuel tax.

1. If the record is in the form of an invoice, it shall contain the information required under B.

2. If the record is in the form of a log, it shall contain the following information:

- a) name and address of the retail dealer;
- b) date of sale;
- c) amount of propane sold; and
- d) purchaser's name.

E. A retail dealer that sells propane, compressed natural gas, or electricity exempt from sales tax shall retain the following information for each exempt sale:

1. the make, year, and license number of the vehicle;
2. the name and address of the purchaser;
3. the quantity (e.g., number of gallons) sold; and
4. the clean special fuel certificate number.

F. A retail dealer is not required to obtain an exemption certificate from a purchaser of dyed diesel fuel indicating that the dyed diesel fuel will be used for purposes other than to operate a motor vehicle upon the highways of the state if the retail dealer complies with the notice requirement under 26 C.F.R. Section 48.4082-2.

G. A retail dealer may not sell dyed diesel fuel exempt from special fuel tax if the retail dealer knows that the fuel will be used to operate a motor vehicle upon the highways of the state.

**R865-4D-18. Maintenance of Records Pursuant to Utah Code Ann. Sections 59-13-305(1) and 59-13-312.**

A. The records and documents maintained pursuant to Section 59-13-312 must substantiate the amount of fuel purchased and the amount of fuel used in the state and claimed on the special fuel report required by Section 59-13-305(1).

B. Every user must maintain detailed mileage records and summaries for fleets traveling in Utah, detailed fuel purchase records, and bulk disbursement records. From this information, an accurate average miles per gallon (mpg) figure can be determined for use in computing fuel tax due. No fuel entering the fuel supply tank of a motor vehicle may be excluded from the mpg computation. Refer to Tax Commission rule R865-4D-2.

C. Individual vehicle mileage records (IVMRs) separating Utah miles from non-Utah miles must be maintained. Utah miles must be separated further into taxable Utah miles and nontaxable Utah miles. An adequate IVMR will contain the following information:

1. starting and ending dates of trip;
2. trip origin and destination;
3. route of travel, beginning and ending odometer or hubometer reading, or both;
4. total trip miles;
5. Utah miles;
6. fuel purchased or drawn from bulk storage for the vehicle; and

7. other appropriate information that identifies the record, such as unit number, fleet number, record number, driver's name, and name of the user or operator of the vehicle.

D. If the user fails to maintain or provide adequate records from which the user's true liability can be determined, the Tax Commission shall, upon giving written notice, estimate the amount of liability due. Such estimate shall take into consideration any or all of the following:

1. any available records maintained and provided by the user;
2. historical filing information;
3. industry data;
4. a flat or standard average mpg figure.

a) The standard average mpg normally applied is four mpg for qualified motor vehicles and six miles per gallon for nonqualified motor vehicles.

E. Section 59-13-312(2) requires that the user be able to

support credits claimed for tax-paid fuel with documents showing payment of the Utah special fuel tax. If documents and records showing payment of the Utah special fuel tax are not maintained or are not provided upon request, the credits will be disallowed.

**R865-4D-19. Refund of Special Fuel Taxes Paid by Government Entities Pursuant to Utah Code Ann. Section 59-13-301.**

A. Governmental entities entitled to a refund for special fuel taxes paid shall submit a completed Application for Government Motor Fuel and Special Fuel Tax Refund, form TC-114, to the commission.

B. A governmental entity shall retain the following records for each purchase of special fuel for which a refund of taxes paid is claimed:

1. name of the government entity making the purchase;
2. license plate number of the government vehicle for which the special fuel is purchased;
3. invoice date;
4. invoice number;
5. vendor;
6. vendor location;
7. product description;
8. number of gallons purchased; and
9. amount of state special fuel tax paid.

C. Original records supporting the refund claim must be maintained by the government entity for three years following the year of refund.

**R865-4D-20. Exemption or Refund for Exported Undyed Diesel Fuel Pursuant to Utah Code Ann. Section 59-13-301.**

A. If untaxed undyed diesel fuel is sold by a supplier directly out-of-state or is sold by a supplier to a purchaser that will deliver the fuel directly out-of-state, the fuel may be sold by the supplier exempt from the special fuel tax.

B. If untaxed undyed diesel fuel is sold tax exempt under A., the supplier shall report the fuel sold tax exempt on the export schedule of its special fuel supplier return.

C. If special fuel tax has been paid on undyed diesel fuel that is exported, the exporter may apply to the Tax Commission, on a monthly basis and on the export refund request form provided by the Tax Commission, for a refund of special fuel taxes paid.

D. Original records supporting the exemption or refund claim must be maintained by the entity claiming the exemption or refund for three years following the year of exemption or refund.

**R865-4D-21. Consistent Basis for Diesel Fuel Reporting Pursuant to Utah Code Ann. Sections 59-13-301 and 59-13-307.**

A. Definitions.

1. "Gross gallon" means the United States volumetric gallon with a liquid capacity of 231 cubic inches.

2. "Net gallon" means the gross metered gallon with temperature correction in volume to 60 degrees Fahrenheit.

B. All Utah licensed special fuel suppliers shall elect to calculate the tax liability on the Utah Special Fuel Supplier Tax Return on a consistent and strict gross gallon or net gallon basis. The election must be declared in writing and must be sent to the Tax Commission. The declared basis must be the exclusive basis used for 12 consecutive months. Any supplier failing to make an election will default to the gross gallon basis and must then report and pay the excise tax on that basis. Request for changes in the reporting basis must be submitted in writing and approved by the Tax Commission prior to any change in the reporting basis. Changes in basis

may occur only on January 1 and must remain in effect 12 consecutive months.

C. All invoices, bills of lading, and special fuel tax returns must include both the gross and net gallon amounts. Conversion from gross to net must conform to the ASTM-API-IP Petroleum Measurement Tables.

D. All transactions, such as purchases, sales, or deductions, reported on the Special Fuel Supplier Tax Return must be reported on a consistent and exclusive basis. The taxpayer shall not alternate the two methods on any return or during any 12-month period.

E. This rule shall take effect July 1, 1997.

**R865-4D-22. Reduction in Special Fuel Tax for Suppliers Subject to Navajo Nation Fuel Tax Pursuant to Utah Code Ann. Section 59-13-301.**

A. The purpose of this rule is to provide procedures for administering the reduction of special fuel tax authorized under Section 59-13-301.

B. The reduction shall be in the form of a refund.

C. The refund shall be available only for special fuel:

1. delivered to a retailer or consumer on the Utah portion of the Navajo Nation; and

2. for which Utah special fuel tax has been paid.

D. The refund shall be available to a special fuel supplier that is licensed as a distributor with the Office of the Navajo Tax Commission.

E. The refund application may be filed on a monthly basis.

F. A completed copy of the Navajo Tax Commission Monthly Fuel Distributor Tax Return, form 900, along with schedules and manifests, must be included with the Utah State Tax Commission Application for Navajo Nation Fuel Tax Refund, form TC-126.

G. Original records supporting the refund claim must be maintained by the supplier for three years following the year of refund. These records include:

1. proof of payment of Utah special fuel tax;
2. proof of payment of Navajo Nation fuel tax; and
3. documentation that the special fuel was delivered to a retailer or consumer on the Utah portion of the Navajo Nation.

**R865-4D-23. State Participation in the International Fuel Tax Agreement Pursuant to Utah Code Ann. Section 59-13-501.**

A. Pursuant to Section 59-13-501, the commission entered into the International Fuel Tax Agreement ("IFTA") effective January 1, 1990.

B. Participation in IFTA is intended to comply with 49 U.S.C. 31705.

C. This rule incorporates by reference the 2003 edition of the IFTA:

1. Articles of Agreement;
2. Procedures Manual; and
3. Audit Manual.

**R865-4D-24. Off-Highway Use of Undyed Diesel Fuel Pursuant to Utah Code Ann. Section 59-13-301.**

A. 1. "Off-highway," for purposes of determining whether undyed diesel fuel is used in a vehicle off-highway, means every way or place, of whatever nature, that is not generally open to the use of the public for the purpose of vehicular travel.

2. "Off-highway" does not include:

- a) a parking lot that the public may use; or
- b) the curbside of a highway.

B. The following documentation must accompany a refund request for special fuel tax paid on undyed diesel fuel

used in a vehicle off-highway:

1. evidence that clearly indicates that the undyed diesel fuel was used in a vehicle off-highway;
2. the specific address of the off-highway use with a detailed description of the off-highway nature of the location;
3. the amount of time in which the vehicle used the fuel off-highway;
4. the amount of fuel the vehicle used off-highway; and
5. the make and model, weight, and miles per gallon of the vehicle used off-highway.

**R865. Tax Commission, Auditing.****R865-6F. Franchise Tax.****R865-6F-1. Corporation Franchise Privilege - Right to Do Business - Nature of Liability and How Terminated Pursuant to Utah Code Ann. Sections 16-10a-1501 through 16-10a-1533.**

A. The Utah franchise tax is imposed upon corporations qualified or incorporated under the laws of Utah, whether or not they do business therein, and also upon corporations doing business in Utah, whether or not they are qualified or incorporated under the laws of Utah.

1. An unqualified foreign corporation doing business in this state is liable for Utah corporation franchise tax in the same amount as if it had duly applied for and received a certificate of authority to transact business in this state pursuant to Section 16-10a-1501.

2. An unqualified foreign corporation deriving income from this state, but not doing business in this state within the contemplation of the Utah corporation franchise tax law is subject to the Utah corporation income tax on income derived from this state under the provisions of Sections 59-7-201 to 59-7-207.

B. If a corporation received its corporate authority to do business in Utah prior to January 1, 1973, and is a member of an affiliated group filing a combined report under Section 59-7-402 or 59-7-403, and legally terminates its corporate authority, it must include its activity during the final year in the combined report of the group. The tax is imposed upon the income of the group rather than the income of the individual corporations.

C. A corporation that was incorporated, qualified, or that reinstated its corporate authority to do business in Utah after January 1, 1973 must file a corporation franchise tax return and pay the tax due with the return for the year in which it legally terminates its right to do business in this state. The Tax Commission shall not issue a tax clearance certificate until the final return has been filed and the amounts due for the final year are paid.

D. For Utah corporation franchise tax purposes, a foreign corporation terminates its corporate existence or the privileges for which the franchise tax is levied (unless it continues to do business) on the date on which:

1. a certificate of withdrawal is issued under the provisions of Section 16-10a-1520;
2. its corporate existence is legally terminated in its home state, provided authoritative evidence of that termination is filed;
3. a certificate of revocation of its authority to transact business in this state is issued under the provisions of Sections 16-10a-1530 and 16-10a-1531; or
4. the corporate powers, rights, and privileges are forfeited under the provisions of Section 59-7-534.

E. For Utah corporation franchise tax purposes, a corporation that is incorporated under the laws of this state terminates its corporate existence or the privilege of exercising its corporate franchise for which the franchise tax is levied on the date on which:

1. a certificate of dissolution is issued pursuant to a voluntary dissolution under the provisions of Section 16-10a-1401 or Sections 16-10a-1402 through 16-10a-1403;
2. a decree of dissolution is entered by the court pursuant to the provisions of Sections 16-10a-1430 through 16-10a-1433;
3. a certificate of merger or of consolidation (which effects the termination of the separate corporate existence of the Utah corporation) is issued pursuant to the provisions of Sections 16-10a-1101 through 16-10a-1107; or
4. the corporate rights and privileges are suspended under the provisions of Section 59-7-534.

F. If the corporation continues to do business in this state subsequent to any of the above dates, it is liable for franchise tax, even though doing business is not authorized, or may even be prohibited, by law. A corporation cannot avoid the franchise tax by doing business without authority which, if legally done, would subject the corporation to the tax.

**R865-6F-2. Establishment of Taxable Year and Filing the First Return Pursuant to Utah Code Ann. Sections 59-7-501 and 59-7-505.**

A. The period for which a corporation must file its returns for corporation franchise tax purposes is the same period under which its income is computed pursuant to Section 59-7-501.

B. The first return may cover a period of less than 12-calendar months, but may not exceed 12-calendar months. The period must end on the last day of a calendar month, except that the Tax Commission will accept returns being made using the 52-53 week method of reporting under Section 441(f), Internal Revenue Code.

C. If a corporation elects for federal purposes to end its filing period on a date that does not fall on the last day of a calendar month, the filing period for the purposes of effective dates of Utah laws ends on the last day of the month nearest to the federal year end. The Utah net income is computed based on the filing period for federal purposes, notwithstanding the Utah filing period ends on the last day of the month.

D. Except as provided in Section 59-7-505(8)(a), in the case of a domestic corporation, the first return period begins with the date of incorporation. Activity prior to date of incorporation must be reported on individual income or partnership returns or of such other entity as may be appropriate.

E. Except as provided in Section 59-7-505(8)(a), in the case of a foreign corporation, the first return period begins with the date the corporation is qualified to do business in Utah under Title 16, Chapter 10a, Part 15, or the date business within the state is commenced, whichever is the earlier.

**R865-6F-6. Application of Corporation Franchise or Income Tax Acts to Qualified Corporations and to Nonqualified Foreign Corporations Pursuant to Utah Code Ann. Section 59-7-104.****A. Definitions.**

1. "Ancillary activities" means those activities that serve no independent business function for the seller apart from their connection to the solicitation of orders.

2. "De minimis activities" means those activities that, when taken together, establish only a trivial connection with the taxing state. An activity conducted within Utah on a regular or systematic basis or pursuant to a company policy, whether or not in writing, shall not normally be considered trivial.

3. "In-home office" means an office or place of business located within the residence of the employee or representative of a company that satisfies the following conditions:

a) The office may not be publicly attributed to the company, or to the employee or representative of the company in an employee or representative capacity.

b) The use of the office shall be limited to soliciting and receiving orders from customers; transmitting orders outside the state for acceptance or rejection by the company; or for other activities that are protected under Public Law 86-272, 15 U.S.C. 381-384 (hereafter P.L. 86-272) and this rule.

c) Neither the company nor the employee or representative shall maintain a telephone listing or other

public listing for the company within the state, nor use advertising or business literature indicating that the company or its employee or representative can be contacted at a specific address within the state. However, the normal distribution and use of business cards and stationery identifying the employee's or representative's name, address, telephone, and fax numbers and affiliation with the company shall not, by itself, be considered as advertising or otherwise publicly attributing an office to the company or its employee or representative.

4. "Solicitation" means:

a) speech or conduct that explicitly or implicitly invites an order; and

b) activities that neither explicitly nor implicitly invite an order, but are entirely ancillary to requests for an order.

B. Every corporation doing business in Utah whether qualified or not, and every corporation incorporated or qualified in Utah whether or not doing business therein is subject to the Utah corporation franchise tax, unless exempted under the provisions of Section 59-7-102. If liability for the tax exists, the tax must be computed under the provisions of Section 59-7-104, at the rate provided by statute, but in no case shall the tax be less than the minimum tax prescribed.

C. Foreign corporations not qualified in Utah which ship goods to customers in this state from points outside this state, pursuant to orders solicited but not accepted by agents or employees in this state, and which are not doing business in Utah are not taxable under the Utah Corporation Franchise Tax Act if:

1. they maintain no office nor stocks of goods in Utah, and

2. they engage in no other activities in Utah.

D. Foreign corporations not qualified in Utah that make deliveries from stocks of goods located in this state are doing business in this state and are taxable under the Corporation Franchise Tax Act, even though they have no office or regular place of business in this state.

E. Foreign corporations not qualified in Utah are subject to the franchise tax if performing the necessary duties to fulfill contracts or subcontracts in Utah, whether through their own employees or by furnishing of supervisory personnel.

F. Corporations that own real property within this state and rent or lease such properties to others are subject to the franchise tax whether or not qualified under the laws of this state. This also applies to corporations deriving royalty, lease, or rental income from properties located within this state, whether or not such properties are owned by the corporation.

G. Foreign corporations not qualified in Utah are subject to the franchise or income tax if they derive income from revenue-producing properties located in Utah or moving through Utah or from services performed by personnel in this state. This includes, but is not limited to, freight and transportation operations, sales of real property having a Utah situs, leasing or sales of franchises, sporting or entertaining events, etc.

H. Corporations that participate in joint ventures or working and operating agreements which are performed in this state are subject to the franchise tax whether qualified or not.

I. Foreign corporations qualified in Utah are subject to the franchise tax even though engaged solely in interstate commerce.

J. P.L. 86-272 restricts a state from imposing a net income tax on income derived within its borders from interstate commerce if the only business activity of the company within the state consists of the solicitation of orders for sales of tangible personal property, which orders are sent outside the state for acceptance or rejection, and, if accepted, are filled by shipment or delivery from a point outside the

state. The term "net income tax" includes a franchise tax measured by net income. If any sales of tangible personal property are made from Utah into a state which is precluded by P.L. 86-272 from taxing the income of the seller, such sales remain subject to throwback to Utah pursuant to Section 59-7-318(2). Similarly, a sale into Utah from another state would not subject a corporation to the Utah tax if the corporation's activities do not exceed those allowed under P.L. 86-272.

1. Only the solicitation to sell personal property is afforded immunity under P.L. 86-272; therefore, the leasing, renting licensing or other disposition of tangible personal property, or transactions involving intangibles such as franchises, patents, copyrights, trade marks, service marks and the like, or any other type of property are not protected activities under P. L. 86-272. The sale or delivery and the solicitation for the sale or delivery of any type of service that is not either (1) ancillary to solicitation, or (2) otherwise set forth as a protected activity below is also not protected under P.L. 86-272 or this rule.

2. For the in-state activity to be a protected activity under P.L. 86-272, it must be limited solely to solicitation, except for de minimis activities and activities conducted by independent contractors as described below.

K. The following in-state activities, assuming they are not of a de minimis level, will constitute doing business in Utah under P.L. 86-272 and will subject the corporation to the Utah corporation franchise tax:

1. making repairs or providing maintenance or service to the property sold or to be sold;

2. collecting current or delinquent accounts, whether directly or by third parties, through assignment or otherwise;

3. investigating credit worthiness;

4. installation or supervision of installation at or after shipment or delivery;

5. conducting training courses, seminars, or lectures for personnel other than personnel involved only in solicitation;

6. providing any kind of technical assistance or service including engineering assistance or design service, when one of the purposes thereof is other than the facilitation of the solicitation of orders;

7. investigating, handling, or otherwise assisting in resolving customer complaints, other than mediating direct customer complaints when the sole purpose of such mediation is to ingratiate the sales personnel with the customer;

8. approving or accepting orders;

9. repossessing property;

10. securing deposits on sales;

11. picking up or replacing damaged or returned property;

12. hiring, training, or supervising personnel, other than personnel involved only in solicitation;

13. using agency stock checks or any other instrument or process by which sales are made within this state by sales personnel;

14. maintaining a sample or display room in excess of two weeks (14 days) at any one location within the state during the tax year;

15. carrying samples for sale, exchange or distribution in any manner for consideration or other value;

16. owning, leasing, using, or maintaining any of the following facilities or property in-state:

(a) repair shop;

(b) parts department;

(c) any kind of office other than an in-home office;

(d) warehouse;

(e) meeting place for directors, officers, or employees;

(f) stock of goods other than samples for sales personnel or that are used entirely ancillary to solicitation;

(g) telephone answering service that is publicly attributed to the company or to employees or agents of the company in their representative status;

(h) mobile stores, i.e., vehicles with drivers who are sales personnel making sales from the vehicles;

(i) real property or fixtures to real property of any kind.

17. consigning stocks of goods or other tangible personal property to any person, including an independent contractor, for sale;

18. maintaining, by either an in-state or an out-of-state resident employee, an office or place of business (in-home or otherwise) of any kind other than an in-home office;

(b) The maintenance of any office or other place of business in this state that does not strictly qualify as an in-home office under this subsection shall, by itself cause the loss of protection under this rule.

(c) For purposes of this subsection it is not relevant whether the company pays directly, indirectly, or not at all for the cost of maintaining the in-home office.

19. entering into franchising of licensing agreements; selling or otherwise disposing of franchises and licenses; or selling or otherwise transferring tangible personal property pursuant to such franchise or license by the franchisor or licensor to its franchisee or licensee within the state;

20. shipping or delivering of goods into this state by means of private vehicle, rail, water, air or other carrier, irrespective of whether a shipment of delivery fee or other charge is imposed, directly or indirectly, upon the purchaser;

21. conducting any activity not listed as a protected activity below which is not entirely ancillary to requests for orders, even if such activity helps to increase purchases.

L. The following in-state activities will not cause the loss of protection for otherwise protected sales;

1. soliciting orders for sales by any type of advertising;

2. soliciting of orders by an in-state resident employee or representative of the company, so long as such person does not maintain or use any office or other place of business in the state other than an in-home office;

3. carrying samples and promotional materials only for display or distribution without charge or other consideration;

4. furnishing and setting up display racks and advising customers on the display of the company's products without charge or other consideration;

5. providing automobiles to sales personnel for their use in conducting protected activities;

6. passing orders, inquiries and complaints on to the home office;

7. missionary sales activities, i.e. the solicitation of indirect customers for the company's goods. For example, a manufacturer's solicitation of retailers to buy the manufacturer's goods from the manufacturer's wholesale customers would be protected if such solicitation activities are otherwise immune;

8. coordinating shipment or delivery without payment or other consideration and providing information relating thereto either prior or subsequent to the placement of an order;

9. checking of customer's inventories without a charge therefore if performed for reorder, but not for other purposes such as a quality control;

10. maintaining a sample or display room for two weeks (14 days) or less at any one location within the state during the tax year;

11. recruiting, training or evaluating sales personnel, including occasionally using homes, hotels or similar places for meetings with sales personnel;

12. mediating direct customer complaints when the purpose thereof is solely for ingratiating the sales personnel with the customer and facilitating requests for orders;

13. owning, leasing, using or maintaining personal

property for use in the employee or representative's in-home office or automobile that is solely limited to the conducting of protected activities. Therefore, the use of personal property such as a cellular telephone, facsimile machine, duplicating equipment, personal computer and computer software that is limited to the carrying on of protected solicitation and activity entirely ancillary to such solicitation or permitted by the provisions of this rule shall not, by itself, remove the protection of P.L. 86-272.

M. P.L. 86-272 provides protection to certain in-state activities if conducted by an independent contractor that would not be afforded if performed by the company or its employees or other representatives.

1. Independent contractors may engage in the following limited activities in the state without the company's loss of immunity;

a) soliciting sales;

b) making sales;

c) maintaining an office.

2. Sales representatives who represent a single principal are not considered to be independent contractors and are subject to the same limitations as those provided under P.L. 86-272 and this rule.

3. Maintenance of stock of goods in the state by the independent contractor under consignment or any other type of arrangement with the company, except for purposes of display and solicitation, shall remove the protection.

N. The Tax Commission will apply the provisions of P.L. 86-272 and of this rule to business activities conducted in foreign commerce. Therefore, whether business activities are conducted by (i) a foreign or domestic company selling tangible personal property into a county outside of the United States from a point within this state or by (ii) either company selling such property into this state from a point outside of the United States, the principles under this rule apply equally to determine whether the sales transactions are protected and the company immune from taxation in either this state or in the foreign county, as the case might be, and whether, if applicable, the throwback provisions of Section 59-7-318(2) will apply.

O. The protection afforded by P.L. 86-272 and the provisions of this rule do not apply to any corporation that is incorporated or domiciled in this state.

P. A company that registers or otherwise formally qualifies to do business within this state does not, by that fact alone, lose its protection under P.L. 86-272. Where, separate from or ancillary to such registration or qualification, the company receives and seeks to use or protect any additional benefit or protection from this state through activity not otherwise protected under P.L. 86-272 or this rule, such protection shall be removed.

Q. The protection afforded under P.L. 86-272 and the provisions of this rule shall be determined on a year by year tax basis. Therefore, if at any time during a tax year the company conducts activities that are not protected under P.L. 86-272 or this rule, no sales in this state or income earned by the company attributed to this state during any part of said tax year shall be protected from taxation for purposes of the corporate franchise tax.

**R865-6F-8. Allocation and Apportionment of Net Income (Uniform Division of Income for Tax Purposes Act) Pursuant to Utah Code Ann. Sections 59-7-302 through 59-7-321.**

(1) Business and Nonbusiness Income Defined. Section 59-7-302 defines business income as income arising from transactions and activity in the regular course of the taxpayer's trade or business operations. In essence, all income that arises from the conduct of trade or business operations of

a taxpayer is business income. For purposes of administration of the Uniform Division of Income for Tax Purposes Act (UDITPA), the income of the taxpayer is business income unless clearly classifiable as nonbusiness income.

(a) Nonbusiness income means all income other than business income and shall be narrowly construed.

(b) The classification of income by the labels occasionally used, such as manufacturing income, compensation for services, sales income, interest, dividends, rents, royalties, gains, operating income, and nonoperating income, is of no aid in determining whether income is business or nonbusiness income. Income of any type or class and from any source is business income if it arises from transactions and activity occurring in the regular course of a trade or business. Accordingly, the critical element in determining whether income is business income or nonbusiness income is the identification of the transactions and activity that are the elements of a particular trade or business. In general, all transactions and activities of the taxpayer that are dependent upon or contribute to the operation of the taxpayer's economic enterprise as a whole constitute the taxpayer's trade or business and will be transactions and activity arising in the regular course of business, and will constitute integral parts of a trade or business.

(c) Business and Nonbusiness Income. Application of Definitions. The following are rules for determining whether particular income is business or nonbusiness income:

(i) Rents from real and tangible personal property. Rental income from real and tangible property is business income if the property with respect to which the rental income was received is used in the taxpayer's trade or business or is incidental thereto and therefore is includable in the property factor under Subsection (7)(a)(i).

(ii) Gains or Losses from Sales of Assets. Gain or loss from the sale, exchange or other disposition of real or tangible or intangible personal property constitutes business income if the property while owned by the taxpayer was used in the taxpayer's trade or business. However, if the property was utilized for the production of nonbusiness income the gain or loss will constitute nonbusiness income. See Subsection (7)(a)(ii).

(iii) Interest. Interest income is business income where the intangible with respect to which the interest was received arises out of or was created in the regular course of the taxpayer's trade or business operations or where the purpose for acquiring and holding the intangible is related to or incidental to trade or business operations.

(iv) Dividends. Dividends are business income where the stock with respect to which the dividends are received arises out of or was acquired in the regular course of the taxpayer's trade or business operations or where the purpose for acquiring and holding the stock is related to or incidental to the trade or business operations. Because of the regularity with which most corporate taxpayers engage in investment activities, because the source of capital for those investments arises in the ordinary course of a taxpayer's business, because the income from those investments is utilized in the ordinary course of the taxpayer's business and because those investment assets are used for general credit purposes, income arising from the ownership or sale or other disposition of investments is presumptively business income. This presumption may be rebutted if the taxpayer can prove that the investment is unrelated to the regular trade or business activities.

(v) Proration of Deductions. In most cases an allowable deduction of a taxpayer will be applicable only to the business income arising from the trade or business or to a particular item of nonbusiness income. In some cases an allowable

deduction may be applicable to the business income and to nonbusiness income. In those cases the deduction shall be prorated among the business and nonbusiness income in a manner that fairly distributes the deduction among the classes of income to which it is applicable.

(vi) A schedule must be submitted with the return showing:

(A) the gross income from each class of income being allocated;

(B) the amount of each class of applicable expenses, together with explanation or computations showing how amounts were arrived at;

(C) the total amount of the applicable expenses for each income class; and

(D) the net income of each income class. The schedules should provide appropriate columns as set forth above for items allocated to this state and for items allocated outside this state.

(vii) In filing returns with this state, if the taxpayer departs from or modifies the manner of prorating any such deduction used in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification.

(viii) If the returns or reports filed by a taxpayer with all states to which the taxpayer reports under UDITPA are not uniform in the application or proration of any deduction, the taxpayer shall disclose in its return to this state the nature and extent of the variance.

(2) Definitions.

(a) "Taxpayer," for purposes of this rule, is as defined in Section 59-7-101.

(b) "Apportionment" means the division of business income between states by the use of a formula containing apportionment factors.

(c) "Allocation" means the assignment of nonbusiness income to a particular state.

(d) "Business activity" refers to the transactions and activity occurring in the regular course of the trade or business of a taxpayer.

(e) "Gross receipts" are the gross amounts realized (the sum of money and the fair market value of other property or services received) on the sale or exchange of property, the performance of services, or the use of property or capital (including rents, royalties, interest and dividends) in a transaction that produces business income, in which the income or loss is recognized (or would be recognized if the transaction were in the United States) under the Internal Revenue Code. Amounts realized on the sale or exchange or property are not reduced for the cost of goods sold or the basis of property sold.

(i) Gross receipts, even if business income, do not include such items as, for example:

(A) repayment, maturity, or redemption of the principal of a loan, bond, or mutual fund or certificate of deposit or similar marketable instrument;

(B) the principal amount received under a repurchase agreement or other transaction properly characterized as a loan;

(C) proceeds from issuance of the taxpayer's own stock or from sale of treasury stock;

(D) damages and other amounts received as the result of litigation;

(E) property acquired by an agent on behalf of another;

(F) tax refunds and other tax benefit recoveries;

(G) pension reversions;

(H) contributions to capital (except for sales of securities by securities dealers);

(I) income from forgiveness of indebtedness; or

(J) amounts realized from exchanges of inventory that

are not recognized by the Internal Revenue Code.

(ii) Exclusion of an item from the definition of "gross receipts" is not determinative of its character as business or nonbusiness income. Nothing in this definition shall be construed to modify, impair or supersede any provision of J.

(3) Apportionment and Allocation.

(a)(i) If the business activity with respect to the trade or business of a taxpayer occurs both within and without this state, and if by reason of that business activity the taxpayer is taxable in another state, the portion of the net income (or net loss) arising from the trade or business derived from sources within this state shall be determined by apportionment in accordance with Sections 59-7-311 to 59-7-319.

(ii) For purposes of determining the fraction by which business income shall be apportioned to this state under Section 59-7-311:

(A) Except as provided in Subsection (3)(a)(ii)(B), if a taxpayer does not make an election to double weight the sales factor under Subsection 59-7-311(3) and one or more of the factors listed in Subsection 59-7-311(2)(a) is missing, the fraction by which business income shall be apportioned to the state shall be determined by adding the factors present and dividing that sum by the number of factors present.

(B) If a taxpayer has made an election to double weight the sales factor under Section 59-7-311(3) and if the sales factor is present, the denominator of the fraction described in Subsection (3)(a)(ii)(A) shall be increased by one.

(b) Allocation. Any taxpayer subject to the taxing jurisdiction of this state shall allocate all of its nonbusiness income or loss within or without this state in accordance with Sections 59-7-306 to 59-7-310.

(4) Consistency and Uniformity in Reporting. In filing returns with this state, if the taxpayer departs from or modifies the manner in which income has been classified as business income or nonbusiness income in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification. If the returns or reports filed by a taxpayer for all states to which the taxpayer reports under UDITPA are not uniform in the classification of income as business or nonbusiness income, the taxpayer shall disclose in its return to this state the nature and extent of the variance.

(5) Taxable in Another State.

(a) In General. Under Section 59-7-303 the taxpayer is subject to the allocation and apportionment provisions of UDITPA if it has income from business activity that is taxable both within and without this state. A taxpayer's income from business activity is taxable without this state if the taxpayer, by reason of business activity (i.e., the transactions and activity occurring in the regular course of the trade or business), is taxable in another state within the meaning of Section 59-7-305. A taxpayer is taxable within another state if it meets either one of two tests:

(i) if by reason of business activity in another state the taxpayer is subject to one of the types of taxes specified in Section 59-7-305(1), namely: a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax; or

(ii) if by reason of business activity another state has jurisdiction to subject the taxpayer to a net income tax, regardless of whether the state imposes that tax on the taxpayer. A taxpayer is not taxable in another state with respect to the trade or business merely because the taxpayer conducts activities in that state pertaining to the production of nonbusiness income.

(b) When a Taxpayer Is Subject to a Tax Under Section 59-7-305. A taxpayer is subject to one of the taxes specified in Section 59-7-305(1) if it carries on business activity in a state and that state imposes such a tax thereon. Any taxpayer that asserts that it is subject to one of the taxes specified in

Section 59-7-305(1) in another state shall furnish to the Tax Commission, upon its request, evidence to support that assertion. The Tax Commission may request that the evidence include proof that the taxpayer has filed the requisite tax return in the other state and has paid any taxes imposed under the law of the other state. The taxpayer's failure to produce that proof may be taken into account in determining whether the taxpayer is subject to one of the taxes specified in Section 59-7-305(1) in the other state. If the taxpayer voluntarily files and pays one or more taxes when not required to do so by the laws of that state or pays a minimal fee for qualification, organization, or for the privilege of doing business in that state, but

(i) does not actually engage in business activity in that state, or

(ii) does actually engage in some business activity, not sufficient for nexus, and the minimum tax bears no relation to the taxpayer's business activity within that state, the taxpayer is not subject to one of the taxes specified within the meaning of Section 59-7-305(1).

(c) When a State Has Jurisdiction to Subject a Taxpayer to a Net Income Tax. The second test, that of Section 59-7-305(2), applies if the taxpayer's business activity is sufficient to give the state jurisdiction to impose a net income tax by reason of business activity under the Constitution and statutes of the United States. Jurisdiction to tax is not present where the state is prohibited from imposing the tax by reason of the provisions of Public Law 86-272, 15 U. S. C. A. Sec. 381-385 (P.L. 86-272). In the case of any state as defined in Section 59-7-302(6), other than a state of the United States or political subdivision of a state, the determination of whether a state has jurisdiction to subject the taxpayer to a net income tax shall be made as though the jurisdictional standards applicable to a state of the United States applied in that state. If jurisdiction is otherwise present, the state is not considered as without jurisdiction by reason of the provisions of a treaty between that state and the United States.

(6) Apportionment Formula. All business income of the taxpayer shall be apportioned to this state by use of the apportionment formula set forth in Section 59-7-311. The elements of the apportionment formula are the property factor, see Subsection (7), the payroll factor, see Subsection (8), and the sales factor, see Subsection (9) of the trade or business of the taxpayer. For exceptions see Subsection (10).

(7) Property Factor.

(a) In General.

(i) The property factor of the apportionment formula shall include all real and tangible personal property owned or rented by the taxpayer and used during the tax period in the regular course of its trade or business. Real and tangible personal property includes land, buildings, machinery, stocks of goods, equipment, and other real and tangible personal property but does not include coin or currency.

(ii) Property used in connection with the production of nonbusiness income shall be excluded from the property factor. Property used both in the regular course of the taxpayer's trade or business and in the production of nonbusiness income shall be included in the factor only to the extent the property is used in the regular course of the taxpayer's trade or business. The method of determining the portion of the value to be included in the factor will depend upon the facts of each case.

(iii) The property factor shall reflect the average value of property includable in the factor. Refer to Subsection (7)(f).

(b) Property Used for the Production of Business Income. Property shall be included in the property factor if it is actually used or is available for or capable of being used during the tax period in the regular course of the trade or

business of the taxpayer. Property held as reserves or standby facilities or property held as a reserve source of materials shall be included in the factor. For example, a plant temporarily idle or raw material reserves not currently being processed are includable in the factor. Property or equipment under construction during the tax period, except inventoriable goods in process, shall be excluded from the factor until the property is actually used in the regular course of the trade or business of the taxpayer. If the property is partially used in the regular course of the trade or business of the taxpayer while under construction, the value of the property to the extent used shall be included in the property factor.

(c) Consistency in Reporting. In filing returns with this state, if the taxpayer departs from or modifies the manner of valuing property, or of excluding or including property in the property factor, used in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification. If the returns or reports filed by the taxpayer with all states to which the taxpayer reports under UDITPA are not uniform in the valuation of property and in the exclusion or inclusion of property in the property factor, the taxpayer shall disclose in its return to this state the nature and extent of the variance.

(d) Numerator. The numerator of the property factor shall include the average value of the real and tangible personal property owned or rented by the taxpayer and used in this state during the tax period in the regular course of the trade or business of the taxpayer. Property in transit between locations of the taxpayer to which it belongs shall be considered to be at the destination for purposes of the property factor. Property in transit between a buyer and seller that is included by a taxpayer in the denominator of its property factor in accordance with its regular accounting practices shall be included in the numerator according to the state of destination. The value of mobile or movable property such as construction equipment, trucks, or leased electronic equipment that are located within and without this state during the tax period shall be determined for purposes of the numerator of the factor on the basis of total time within the state during the tax period. An automobile assigned to a traveling employee shall be included in the numerator of the factor of the state to which the employee's compensation is assigned under the payroll factor or in the numerator of the state in which the automobile is licensed.

(e) Valuation of Owned Property.

(i) Property owned by the taxpayer shall be valued at its original cost. As a general rule original cost is deemed to be the basis of the property for state franchise or income tax purposes (prior to any adjustments) at the time of acquisition by the taxpayer and adjusted by subsequent capital additions or improvements thereto and partial disposition thereof, by reasons including sale, exchange, and abandonment. However, capitalized intangible drilling and development costs shall be included in the property factor whether or not they have been expensed for either federal or state tax purposes.

(ii) Inventory of stock of goods shall be included in the factor in accordance with the valuation method used for state tax purposes.

(iii) Property acquired by gift or inheritance shall be included in the factor at its basis for determining depreciation.

(f) Valuation of Rented Property.

(i) Property rented by the taxpayer is valued at eight times its net annual rental rate. The net annual rental rate for any item of rented property is the annual rental rate paid by the taxpayer for the property, less the aggregate annual subrental rates paid by subtenants of the taxpayer. See Subsection (10)(b) for special rules where the use of the net annual rental rate produces a negative or clearly inaccurate

value or where property is used by the taxpayer at no charge or rented at a nominal rental rate.

(ii) Subrents are not deducted when the subrents constitute business income because the property that produces the subrents is used in the regular course of the trade or business of the taxpayer when it is producing the income. Accordingly there is no reduction in its value.

(iii) Annual rental rate is the amount paid as rental for property for a 12-month period; i.e., the amount of the annual rent. Where property is rented for less than a 12-month period, the rent paid for the actual period of rental shall constitute the annual rental rate for the tax period. However, where a taxpayer has rented property for a term of 12 or more months and the current tax period covers a period of less than 12 months (due, for example, to a reorganization or change of accounting period), the rent paid for the short tax period shall be annualized. If the rental term is for less than 12 months, the rent shall not be annualized beyond its term. Rent shall not be annualized because of the uncertain duration when the rental term is on a month to month basis.

(iv) Annual rent is the actual sum of money or other consideration payable, directly or indirectly, by the taxpayer or for its benefit for the use of the property and includes:

(A) Any amount payable for the use of real or tangible personal property, or any part thereof, whether designated as a fixed sum of money or as a percentage of sales, profits or otherwise.

(B) Any amount payable as additional rent or in lieu of rents, such as interest, taxes, insurance, repairs or any other items that are required to be paid by the terms of the lease or other arrangement, not including amounts paid as service charges, such as utilities, and janitor services. If a payment includes rent and other charges unsegregated, the amount of rent shall be determined by consideration of the relative values of the rent and other items.

(v) Annual rent does not include:

(A) incidental day-to-day expenses such as hotel or motel accommodations, or daily rental of automobiles;

(B) royalties based on extraction of natural resources, whether represented by delivery or purchase. For this purpose, a royalty includes any consideration conveyed or credited to a holder of an interest in property that constitutes a sharing of current or future production of natural resources from that property, irrespective of the method of payment or how that consideration may be characterized, whether as a royalty, advance royalty, rental, or otherwise.

(vi) Leasehold improvements shall, for the purposes of the property factor, be treated as property owned by the taxpayer regardless of whether the taxpayer is entitled to remove the improvements or the improvements revert to the lessor upon expiration of the lease. Hence, the original cost of leasehold improvements shall be included in the factor.

(g) Averaging Property Values. As a general rule, the average value of property owned by the taxpayer shall be determined by averaging the values at the beginning and end of the tax period. However, the Tax Commission may require or allow averaging by monthly values if that method of averaging is required to properly reflect the average value of the taxpayer's property for the tax period.

(i) Averaging by monthly values will generally be applied if substantial fluctuations in the values of the property exist during the tax period or where property is acquired after the beginning of the tax period or disposed of before the end of the tax period.

(ii) Example: The monthly value of the taxpayer's property was as follows:

TABLE

January      \$ 2,000

February	2,000
March	3,000
April	3,500
May	4,500
June	10,000
July	15,000
August	17,000
September	23,000
October	25,000
November	13,000
December	2,000
Total	\$120,000

The average value of the taxpayer's property includable in the property factor for the income year is determined as follows:

$$\$120,000 / 12 = \$10,000$$

(iii) Averaging with respect to rented property is achieved automatically by the method of determining the net annual rental rate of the property as set forth in Subsection (7)(f)(i).

(8) Payroll Factor.

(a) The payroll factor of the apportionment formula shall include the total amount paid by the taxpayer in the regular course of its trade or business for compensation during the tax period.

(b) The total amount paid to employees is determined upon the basis of the taxpayer's accounting method. If the taxpayer has adopted the accrual method of accounting, all compensation properly accrued shall be deemed to have been paid. Notwithstanding the taxpayer's method of accounting, at the election of the taxpayer, compensation paid to employees may be included in the payroll factor by use of the cash method if the taxpayer is required to report compensation under that method for unemployment compensation purposes. The compensation of any employee on account of activities that are connected with the production of nonbusiness income shall be excluded from the factor.

(c) The term "compensation" means wages, salaries, commissions and any other form of remuneration paid to employees for personal services. Payments made to an independent contractor or any other person not properly classifiable as an employee are excluded. Only amounts paid directly to employees are included in the payroll factor. Amounts considered paid directly include the value of board, rent, housing, lodging, and other benefits or services furnished to employees by the taxpayer in return for personal services.

(i) The term "employee" means:

(A) any officer of a corporation; or

(B) any individual who, under the usual common law rules applicable in determining the employer-employee relationship, has the status of an employee. Generally, a person will be considered to be an employee if he is included by the taxpayer as an employee for purposes of the payroll taxes imposed by the Federal Insurance Contributions Act. However, since certain individuals are included within the term employees in the Federal Insurance Contributions Act who would not be employees under the usual common law rules, it may be established that a person who is included as an employee for purposes of the Federal Insurance Contributions Act is not an employee for purposes of this rule.

(ii)(A) In filing returns with this state, if the taxpayer departs from or modifies the treatment of compensation paid used in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification.

(B) If the returns or reports filed by the taxpayer with all states to which the taxpayer reports under UDITPA are not uniform in the treatment of compensation paid, the taxpayer shall disclose in its return to this state the nature and extent of

the variance.

(d) Denominator. The denominator of the payroll factor is the total compensation paid everywhere during the tax period. Accordingly, compensation paid to employees whose services are performed entirely in a state where the taxpayer is immune from taxation, for example, by P.L. 86-272, are included in the denominator of the payroll factor.

(e) Numerator. The numerator of the payroll factor is the total amount paid in this state during the tax period by the taxpayer for compensation. The tests in Section 59-7-316 to be applied in determining whether compensation is paid in this state are derived from the Model Unemployment Compensation Act. Accordingly, if compensation paid to employees is included in the payroll factor by use of the cash method of accounting or if the taxpayer is required to report compensation under that method for unemployment compensation purposes, it shall be presumed that the total wages reported by the taxpayer to this state for unemployment compensation purposes constitute compensation paid in this state except for compensation excluded under H. The presumption may be overcome by satisfactory evidence that an employee's compensation is not properly reportable to this state for unemployment compensation purposes.

(f) Compensation Paid in this State. Compensation is paid in this state if any one of the following tests applied consecutively are met:

(i) The employee's service is performed entirely within the state.

(ii) The employee's service is performed entirely within and without the state, but the service performed without the state is incidental to the employee's service within the state. The word incidental means any service that is temporary or transitory in nature, or that is rendered in connection with an isolated transaction.

(iii) If the employee's services are performed both within and without this state, the employee's compensation will be attributed to this state:

(A) if the employee's base of operations is in this state; or

(B) if there is no base of operations in any state in which some part of the service is performed, but the place from which the service is directed or controlled is in this state; or

(C) if the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed but the employee's residence is in this state.

(iv) The term "base of operations" is the place of more or less permanent nature from which the employee starts his work and to which he customarily returns in order to receive instructions from the taxpayer or communications from his customers or other persons or to replenish stock or other materials, repair equipment, or perform any other functions necessary to the exercise of his trade or profession at some other point or points. The term "place from which the service is directed or controlled" means the place from which the power to direct or control is exercised by the taxpayer.

(9) Sales Factor. In General.

(a) Section 59-7-302(5) defines the term "sales" to mean all gross receipts of the taxpayer not allocated under Section 59-7-306 through 59-7-310. Thus, for purposes of the sales factor of the apportionment formula for the trade or business of the taxpayer, the term sales means all gross receipts derived by the taxpayer from transactions and activity in the regular course of the trade or business. The following are rules determining sales in various situations.

(i) In the case of a taxpayer engaged in manufacturing and selling or purchasing and reselling goods or products, sales includes all gross receipts from the sales of goods or products (or other property of a kind that would properly be

included in the inventory of the taxpayer if on hand at the close of the tax period) held by the taxpayer primarily for sale to customers in the ordinary course of its trade or business. Gross receipts for this purpose means gross sales, less returns and allowances and includes all interest income, service charges, carrying charges, or time-price differential charges incidental to sales. Federal and state excise taxes (including sales taxes) shall be included as part of receipts if taxes are passed on to the buyer or included as part of the selling price of the product.

(ii) In the case of cost plus fixed fee contracts, such as the operation of a government-owned plant for a fee, sales includes the entire reimbursed cost, plus the fee.

(iii) In the case of a taxpayer engaged in providing services, such as the operation of an advertising agency, or the performance of equipment service contracts, or research and development contracts, sales includes the gross receipts from the performance of services including fees, commissions, and similar items.

(iv) In the case of a taxpayer engaged in renting real or tangible property, sales includes the gross receipts from the rental, lease or licensing of the use of the property.

(v) In the case of a taxpayer engaged in the sale, assignment, or licensing of intangible personal property such as patents and copyrights, sales includes the gross receipts therefrom.

(vi) If a taxpayer derives receipts from the sale of equipment used in its business, those receipts constitute sales. For example, a truck express company owns a fleet of trucks and sells its trucks under a regular replacement program. The gross receipts from the sales of the trucks are included in the sales factor.

(vii) In some cases certain gross receipts should be disregarded in determining the sales factor in order that the apportionment formula will operate fairly to apportion to this state the income of the taxpayer's trade or business. See Subsection (10)(c).

(viii) In filing returns with this state, if the taxpayer departs from or modifies the basis for excluding or including gross receipts in the sales factor used in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification.

(ix) If the returns or reports filed by the taxpayer with all states to which the taxpayer reports under UDITPA are not uniform in the inclusion or exclusion of gross receipts, the taxpayer shall disclose in its return to this state the nature and extent of the variance.

(b) Denominator. The denominator of the sales factor shall include the total gross receipts derived by the taxpayer from transactions and activity in the regular course of its trade or business, except receipts excluded under Subsection (10)(c).

(c) Numerator. The numerator of the sales factor shall include gross receipts attributable to this state and derived by the taxpayer from transactions and activity in the regular course of its trade or business. All interest income, service charges, carrying charges, or time-price differential charges incidental to gross receipts shall be included regardless of the place where the accounting records are maintained or the location of the contract or other evidence of indebtedness.

(d) Sales of Tangible Personal Property in this State.

(i) Gross receipts from the sales of tangible personal property (except sales to the United States government; see Subsection (9)(e)) are in this state:

(A) if the property is delivered or shipped to a purchaser within this state regardless of the f.o.b. point or other conditions of sale; or

(B) if the property is shipped from an office, store, warehouse, factory, or other place of storage in this state and

the taxpayer is not taxable in the state of the purchaser.

(ii) Property shall be deemed to be delivered or shipped to a purchaser within this state if the recipient is located in this state, even though the property is ordered from outside this state.

(iii) Property is delivered or shipped to a purchaser within this state if the shipment terminates in this state, even though the property is subsequently transferred by the purchaser to another state.

(iv) The term "purchaser within this state" shall include the ultimate recipient of the property if the taxpayer in this state, at the designation of the purchaser, delivers to or has the property shipped to the ultimate recipient within this state.

(v) When property being shipped by a seller from the state of origin to a consignee in another state is diverted while en route to a purchaser in this state, the sales are in this state.

(vi) If the taxpayer is not taxable in the state of the purchaser, the sale is attributed to this state if the property is shipped from an office, store, warehouse, factory, or other place of storage in this state.

(vii) If a taxpayer whose salesman operates from an office located in this state makes a sale to a purchaser in another state in which the taxpayer is not taxable and the property is shipped directly by a third party to the purchaser, the following rules apply:

(A) If the taxpayer is taxable in the state from which the third party ships the property, then the sale is in that state.

(B) If the taxpayer is not taxable in the state from which the property is shipped, the sale is in this state.

(e)(i) Sales of Tangible Personal Property to United States Government in this state.

(ii) Gross receipts from the sales of tangible personal property to the United States government are in this state if the property is shipped from an office, store, warehouse, factory, or other place of storage in this state. For purposes of this rule, only sales for which the United States government makes direct payment to the seller pursuant to the terms of a contract constitute sales to the United States government. Thus, as a general rule, sales by a subcontractor to the prime contractor, the party to the contract with the United States government, do not constitute sales to the United States government.

(f) Sales Other than Sales of Tangible Personal Property in this State.

(i) In general, Section 59-7-319(1) provides for the inclusion in the numerator of the sales factor of gross receipts from transactions other than sales of tangible personal property (including transactions with the United States government). Under Section 59-7-319(1), gross receipts are attributed to this state if the income producing activity that gave rise to the receipts is performed wholly within this state. Also, gross receipts are attributed to this state if, with respect to a particular item of income, the income producing activity is performed within and without this state but the greater proportion of the income producing activity is performed in this state, based on costs of performance.

(ii) The term "income producing activity" applies to each separate item of income and means the transactions and activity directly engaged in by the taxpayer in the regular course of its trade or business for the ultimate purpose of obtaining gains or profit. Income producing activity does not include transactions and activities performed on behalf of a taxpayer, such as those conducted on its behalf by an independent contractor. Accordingly, the income producing activity includes the following:

(A) the rendering of personal services by employees or the utilization of tangible and intangible property by the taxpayer in performing a service;

(B) the sale, rental, leasing, or licensing or other use of

real property;

(C) the rental, leasing, licensing or other use of intangible personal property; or

(D) the sale, licensing or other use of intangible personal property. The mere holding of intangible personal property is not, of itself, an income producing activity.

(iii) The term "costs of performance" means direct costs determined in a manner consistent with generally accepted accounting principles and in accordance with accepted conditions or practices in the trade or business of the taxpayer.

(iv) Receipts (other than from sales of tangible personal property) in respect to a particular income producing activity are in this state if:

(A) the income producing activity is performed wholly within this state; or

(B) the income producing activity is performed both in and outside this state and a greater proportion of the income producing activity is performed in this state than in any other state, based on costs of performance.

(v) The following are special rules for determining when receipts from the income producing activities described below are in this state:

(A) Gross receipts from the sale, lease, rental or licensing of real property are in this state if the real property is located in this state.

(B) Gross receipts from the rental, lease, or licensing of tangible personal property are in this state if the property is located in this state. The rental, lease, licensing or other use of tangible personal property in this state is a separate income producing activity from the rental, lease, licensing or other use of the same property while located in another state. Consequently, if the property is within and without this state during the rental, lease or licensing period, gross receipts attributable to this state shall be measured by the ratio that the time the property was physically present or was used in this state bears to the total time or use of the property everywhere during the period.

(C) Gross receipts for the performance of personal services are attributable to this state to the extent services are performed in this state. If services relating to a single item of income are performed partly within and partly without this state, the gross receipts for the performance of services shall be attributable to this state only if a greater portion of the services were performed in this state, based on costs of performance. Usually where services are performed partly within and partly without this state, the services performed in each state will constitute a separate income producing activity. In that case, the gross receipts for the performance of services attributable to this state shall be measured by the ratio that the time spent in performing services in this state bears to the total time spent in performing services everywhere. Time spent in performing services includes the amount of time expended in the performance of a contract or other obligation that gives rise to gross receipts. Personal service not directly connected with the performance of the contract or other obligations, as for example, time expended in negotiating the contract, is excluded from the computations.

(10) Special Rules:

(a) Section 59-7-320 provides that if the allocation and apportionment provisions of UDITPA do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for, or the tax administrator may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

(i) separate accounting;

(ii) the exclusion of any one or more of the factors;

(iii) the inclusion of one or more additional factors that

will fairly represent the taxpayer's business activity in this state; or

(iv) the employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

(b) Property Factor.

The following special rules are established in respect to the property factor of the apportionment formula:

(i) If the subrents taken into account in determining the net annual rental rate under G.6.b) produce a negative or clearly inaccurate value for any item of property, another method that will properly reflect the value of rented property may be required by the Tax Commission or requested by the taxpayer. In no case however, shall the value be less than an amount that bears the same ratio to the annual rental rate paid by the taxpayer for property as the fair market value of that portion of property used by the taxpayer bears to the total fair market value of the rented property.

(ii) If property owned by others is used by the taxpayer at no charge or rented by the taxpayer for a nominal rate, the net annual rental rate for the property shall be determined on the basis of a reasonable market rental rate for that property.

(c) Sales Factors.

The following special rules are established in respect to the sales factor of the apportionment formula:

(i) Where substantial amounts of gross receipts arise from an incidental or occasional sale of a fixed asset used in the regular course of the taxpayer's trade or business, those gross receipts shall be excluded from the sales factor. For example, gross receipts from the sale of a factory or plant will be excluded.

(ii) Insubstantial amounts of gross receipts arising from incidental or occasional transactions or activities may be excluded from the sales factor unless exclusion would materially affect the amount of income apportioned to this state. For example, the taxpayer ordinarily may include or exclude from the sales factor gross receipts from such transactions as the sale of office furniture, and business automobiles.

(iii) Where the income producing activity in respect to business income from intangible personal property can be readily identified, that income is included in the denominator of the sales factor and, if the income producing activity occurs in this state, in the numerator of the sales factor as well. For example, usually the income producing activity can be readily identified in respect to interest income received on deferred payments on sales of tangible property, see Subsection (9)(a)(i), and income from the sale, licensing or other use of intangible personal property, see Subsection (9)(f)(ii)(D).

(A) Where business income from intangible property cannot readily be attributed to any particular income producing activity of the taxpayer, the income cannot be assigned to the numerator of the sales factor for any state and shall be excluded from the denominator of the sales factor. For example, where business income in the form of dividends received on stock, royalties received on patents or copyrights, or interest received on bonds, debentures or government securities results from the mere holding of the intangible personal property by the taxpayer, such dividends and interest shall be excluded from the denominator of the sales factor.

(B) Exclude from the denominator of the sales factor, receipts from the sales of securities unless the taxpayer is a dealer therein.

(iv) Where gains and losses on the sale of liquid assets are not excluded from the sales factor by other provisions under Subsections (10)(c)(i) through (iii), such gains or losses shall be treated as provided in this Subsection (10)(c)(iv). This Subsection (10)(c)(iv) does not provide rules relating to

the treatment of other receipts produced from holding or managing such assets.

(A) If a taxpayer holds liquid assets in connection with one or more treasury functions of the taxpayer, and the liquid assets produce business income when sold, exchanged or otherwise disposed, the overall net gain from those transactions for each treasury function for the tax period is included in the sales factor. For purposes of this Subsection (10)(c)(iv), each treasury function will be considered separately.

(B) For purposes of this Subsection (10)(c)(iv), a liquid asset is an asset (other than functional currency or funds held in bank accounts) held to provide a relatively immediate source of funds to satisfy the liquidity needs of the trade or business. Liquid assets include:

(I) foreign currency (and trading positions therein) other than functional currency used in the regular course of the taxpayer's trade or business;

(II) marketable instruments (including stocks, bonds, debentures, options, warrants, futures contracts, etc.); and

(III) mutual funds which hold such liquid assets.

(C) An instrument is considered marketable if it is traded in an established stock or securities market and is regularly quoted by brokers or dealers in making a market. Stock in a corporation which is unitary with the taxpayer, or which has a substantial business relationship with the taxpayer, is not considered marketable stock.

(D) For purposes of this J.3.d), a treasury function is the pooling and management of liquid assets for the purpose of satisfying the cash flow needs of the trade or business, such as providing liquidity for a taxpayer's business cycle, providing a reserve for business contingencies, business acquisitions, etc. A taxpayer principally engaged in the trade or business of purchasing and selling instruments or other items included in the definition of liquid assets set forth herein is not performing a treasury function with respect to income so produced.

(E) Overall net gain refers to the total net gain from all transactions incurred at each treasury function for the entire tax period, not the net gain from a specific transaction.

(d) Domestic International Sales Corporation (DISC). In any case in which a corporation, subject to the income tax jurisdiction of Utah, owns 50 percent or more of the voting power of the stock of a corporation classified as a DISC under the provisions of Sec. 992 Internal Revenue Code, a combined filing with the DISC corporation is required.

(e) Partnership or Joint Venture Income. Income or loss from partnership or joint venture interests shall be included in income and apportioned to Utah through application of the three-factor formula consisting of property, payroll and sales. For apportionment purposes, the portion of partnership or joint venture property, payroll and sales to be included in the corporation's property, payroll and sales factors shall be computed on the basis of the corporation's ownership interest in the partnership or joint venture, and otherwise in accordance with other applicable provisions of this rule.

**R865-6F-14. Extent to Which Federal Income Tax Provisions Are Followed for Corporation Franchise Tax Purposes Pursuant to Utah Code Ann. Sections 59-7-106, 59-7-108, 59-7-501, and 59-7-502.**

A. It is the policy of the Tax Commission, in matters involving the determination of net income for Utah corporation franchise tax purposes, to follow as closely as possible federal requirements with respect to the same matters. In some instances, of course, the federal and state statutes differ; and due to such conflict, the federal rulings, regulations, and decisions cannot be followed. Furthermore, in some instances, the Tax Commission may disagree with the

federal determinations and does not consider them controlling for Utah corporation franchise tax purposes.

1. The items of major importance ordinarily allowed in conformity with federal requirements are:

- a. depreciation (see rule R865-6F-9),
- b. depletion,
- c. exploration and development expenses,
- d. intangible drilling costs,
- e. accounting methods and periods (see rule R865-6F-2), and
- f. Subpart F income.

2. The following are the major items which require different treatment under the state and federal statutes:

- a. installment sales (see rule R865-6F-15),
- b. consolidated returns (see rule R865-6F-4),
- c. liquidating dividends,
- d. municipal bond interest,
- e. capital loss deduction,
- f. loss carry-overs and carry-backs, and
- g. gross-up on foreign dividends.

Note: The only reserves permitted in determining net-income for Utah corporation franchise tax purposes are depreciation, depletion, and bad debts.

**R865-6F-15. Installment Basis of Reporting Income in Year of Termination Pursuant to Utah Code Ann. Section 59-7-112.**

A. The Corporation Franchise Tax Act allows a corporation, under certain conditions and under rules prescribed by the Tax Commission, to report income arising from the sale or other disposition of property on a deferred or so-called installment basis. Thus, a gain technically realized at the time the sale is made may, at the election of the taxpayer, be reported on a deferred basis in accordance with the law and the following sections of this rule. The rule allowing deferment of reporting such income is only one of postponement of the tax, and not one of exemption from a tax otherwise lawfully due. Thus, the privilege of deferment is terminated if the taxpayer ceases to be subject to tax prior to the reporting of the entire amount of installment income. When a taxpayer elects to report income arising from the sale or other disposition of property as provided in Section 59-7-112, and the entire income therefrom has not been reported prior to the year that the taxpayer ceases to be subject to the tax imposed under the Utah Corporation Income and Franchise Tax Acts, the unreported income is included in the return for the last year in which the taxpayer is subject to the tax. This rule applies to all corporations which elect to report on the installment basis. If a corporation on this basis desires to dissolve or to withdraw, it must comply with the provisions hereof prior to issuance of the tax clearance certificate.

B. Income reported under the provisions of Section 59-7-112 and this rule shall be subject to the same treatment in the allocation of income; i.e., specific allocation or apportionment, as would have been accorded the original income from the sale under the provisions of the Uniform Division of Income for Tax Purposes Act. In case such income is subject to apportionment, the apportionment fraction for the year in which the income is reported applies rather than the year in which the sale was made.

**R865-6F-16. Apportionment of Income of Long-Term Construction Contractors Pursuant to Utah Code Ann. Sections 59-7-302 through 321.**

(1) When a taxpayer elects to use the percentage-of-completion method of accounting, or the completed contract method of accounting for long-term contracts, and has income from sources both within and without this state, the amount of business income derived from such long-term contracts from

sources within this state is determined pursuant to this rule.

(2) Business income is apportioned to this state by a three-factor formula consisting of property, payroll, and sales--regardless of the method of accounting for long-term contracts elected by the taxpayer. The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(3) and (6). Except as modified by this rule, the property factor shall be determined in accordance with R865-6F-8(7), the payroll factor in accordance with R865-6F-8(8), and the sales factor in accordance with R865-6F-8(9).

(a) Percentage-of-completion method. Under this method of accounting for long-term contracts, the amount included each year as business income from each contract is the amount by which the gross contract price (which corresponds to the percentage of the entire contract completed during the income years) exceeds all expenditures made during the income year in connection with the contract. Beginning and ending material and supplies inventories must be appropriately accounted for in reporting expenditures.

(b) Completed-contract method. Under this method of accounting, business income derived from long-term contracts is reported for the income year in which the contract is completed. A special computation is required to compute the amount of business income attributable to this state from each completed contract. All receipts and expenditures applicable to the contracts, whether complete or incomplete at the end of the income year, are excluded from other business income, which are apportioned by the regular three-factor formula of property, payroll, and sales.

(3) Property factor. In general, the numerator and denominator of the property factor is determined as set forth in Sections 59-7-312, 59-7-313, and 59-7-314 and the rules thereunder. However, the following special rules are also applicable:

(a) The average value of the taxpayer's cost (including materials and labor) of construction in progress, to the extent these costs exceed progress billings, are included in the denominator of the property factor. The value of those construction costs attributable to construction projects in this state are included in the numerator of the property factor. It may be necessary to use monthly averages if yearly averages do not properly reflect the average value of the taxpayer's equity.

(b) Rent paid for the use of equipment directly attributable to a particular construction project is included in the property factor at eight times the net annual rental rate, even though the rental expense may be capitalized into the cost of construction.

(c) The property factor is computed in the same manner for all long-term-contract methods of accounting and is computed for each income year, even though under the completed-contract method of accounting business income is computed separately.

(4) Payroll factor. In general, the numerator and denominator of the payroll factor are determined as set forth in Sections 59-7-315 and 59-7-316 and the rules thereunder. However, the following special rules are also applicable.

(a) Compensation paid to employees attributable to a particular construction project is included in the payroll factor even though capitalized into the cost of construction.

(b) Compensation paid to employees who, in the aggregate, perform most of their services in a state to which their employer does not report them for unemployment tax purposes, is attributed to the state where the services are performed. For example, a taxpayer engaged in a long-term contract in State X sends several key employees to that state to supervise the project. The taxpayer, for unemployment tax purposes reports these employees to State Y where the main

office is maintained and where the employees reside. For payroll factor purposes and in accordance with Section 59-7-316 and the rule thereunder, the compensation is assigned to the numerator of State X.

(c) The payroll factor is computed in the same manner for all long-term-contract methods of accounting and is computed for each income year, even though under the completed contract method of accounting, business income is computed separately.

(5) Sales Factor. In general, the numerator and denominator of the sales factor shall be determined as set forth in Sections 59-7-317, 59-7-318, and 59-7-319 and the rules thereunder. However, the following special rules are also applicable.

(a) Gross receipts derived from the performance of a contract are attributable to this state if the construction project is located in this state. If the construction project is located partly within and partly without this state, the gross receipts attributable to this state are based upon the ratio which construction costs for the project in this state incurred during the coming year bears to the total of such construction costs for the entire project during the income year. Progress billings are ordinarily used to reflect gross receipts and must be shown in both the numerator and denominator of the sales factor.

(b) If the percentage-of-completion method is used, the sales factor includes only that portion of the gross contract price which corresponds to the percentage of the entire contract which was completed during the income year. For example, a construction contractor which had elected the percentage-of-completion method of accounting entered into a \$9,000,000 long-term construction contract. At the end of its current income year (the second since starting the project) it estimated that the project was 30 percent completed. The amount of gross receipts included in the sales factor for the current income year is \$2,700,000 (30 percent of \$9,000,000), regardless of whether the taxpayer uses the accrual method or the cash method of accounting for receipts and disbursements.

(c) If the completed-contract method of accounting is used, the sales factor includes the portion of the gross receipts (progress billings) received under the cash basis or accrued, whichever is applicable, during the income year attributable to each contract. For example, a construction contractor which elected the completed-contract method of accounting entered into a long-term construction contract. At the end of its current income year (the second since starting the project) it had billed, and accrued on its books a total of \$5,000,000 of which \$2,000,000 had accrued in the first year the contract was undertaken, and \$3,000,000 in the current (second) year. The amount of gross receipts included in the sales factor for the current income year is \$3,000,000. If the taxpayer keeps its books on the cash basis, and as of the end of its current income year has received only \$2,500,000 of the \$3,000,000 billed during the current year, the amount of gross receipts to be included in the sales factor for the current year is \$2,500,000.

(d) The sales factor, except as noted above in Subsections (5)(b) and (c), is computed in the same manner for all long-term contract methods of accounting and is computed for each income year--even though under the completed-contract method of accounting, business income is computed separately.

(6) The total of the property, payroll, and sales percentages is divided by three to determine the apportionment percentage which is then applied to business income to establish the amount apportioned to this state.

(7) The completed-contract method of accounting provides that the reporting of income (or loss) is deferred

until the year the construction project is completed. In order to determine the amount of income which is attributable to sources within this state, a separate computation is made for each contract completed during the income year, regardless of whether the project is located within or without this state. The amount of income from each contract completed during the income year apportioned to this state is added to other business income apportioned to this state by the regular three-factor formula, and that total together with all nonbusiness income allocated to this state becomes the measure of tax for the income year. The amount of income (or loss) from each contract which is derived from sources within this state using the completed-contract method of accounting is computed as follows.

(a) In the income year the contract is completed, the income (or loss) therefrom is determined.

(b) The income (or loss) determined at Subsection (7)(a) is apportioned to this state by the following method:

(i) a fraction is determined for each year the contract was in progress (the numerator of which is the amount of construction costs paid or accrued each year the contract was in progress, and the denominator of which is the total of all construction costs for the project);

(ii) each fraction determined in Subsection (7)(b)(i) is multiplied by the apportionment formula percentage for that particular year;

(iii) these factors are totaled; and

(iv) the total income is multiplied by this combined percentage, and the resulting income (or loss) is the amount of contract business income assigned to this state.

(c) A corporation using the completed-contract method of accounting is required to include income derived from sources within this state from contracts within or without this state or income from incomplete contracts in progress outside this state in the year of withdrawal, dissolution, or cessation of business pursuant to Subsection (7)(d).

(d) The amount of income (or loss) from each such contract apportioned to this state is determined as if the percentage-of-completion method of accounting were used for all such contracts on the date of withdrawal, dissolution, or cessation of business. The amount of business income (or loss) for each such contract is the amount by which the gross contract price from each such contract from the commencement thereof to the date of withdrawal, dissolution, or cessation of business exceeds all expenditures made during such period in connection with each such contract. Beginning and ending material and supplies inventories must be appropriately accounted for in reporting expenditures in connection with each contract.

**R865-6F-18. Exemptions from Corporate Franchise and Income Tax Pursuant to Utah Code Ann. Sections 59-7-101 and 59-7-102.**

A. The following definitions apply to the exemption for corporate franchise and income tax for a farmers' cooperative.

1. "Member" means a person who shares in the profits of a cooperative association and is entitled to participate in the management of the association.

2. "Producer" means a person who, as owner or tenant, bears the risk of production and receives income based on farm production rather than fixed compensation.

B. In order to claim an exemption from corporate franchise and income tax provided for by Section 59-7-102, a corporation must submit to the Tax Commission form TC-161, Utah Registration for Exemption from Corporate Franchise or Income Tax, along with any information that form requires, for the Tax Commission's determination that the corporation satisfies the requirements of Section 59-7-102.

C. A corporation shall notify the Tax Commission of any change that affects its tax exempt status under Section 59-7-102.

D. For purposes of the Section 59-7-102 exemption for a farmers' cooperative, an association, corporation, or other organization similar to an association, corporation, or other organization of farmers or fruit growers includes establishments primarily engaged in growing crops, raising animals, harvesting timber, and harvesting fish and other animals from a farm, ranch, or their natural habitat.

**R865-6F-19. Taxation of Trucking Companies Pursuant to Utah Code Ann. Sections 59-7-302 through 59-7-321.**

(1) Definitions:

(a) "Average value" of property means the amount determined by averaging the values of real and personal property at the beginning and end of the income tax year. The Tax Commission may require the averaging of monthly values during the income year or other averaging as necessary to reflect properly the average value of the trucking company's property.

(b) "Business and nonbusiness income" are as defined in R865-6F-8(1).

(c) "Mobile property" means all motor vehicles, including trailers, engaged directly in the movement of tangible personal property.

(d) "Mobile property mile" means the movement of a unit of mobile property a distance of one mile, whether loaded or unloaded.

(e) "Original cost" means the basis of the property for federal income tax purposes (prior to any federal income tax adjustments, except for subsequent capital additions, improvements thereto, or partial dispositions); or if the property has no such basis, or if the valuation of the property is unascertainable under the foregoing valuation standards, the property is included in the property factor at its fair market value as of the date of acquisition by the taxpayer.

(f) "Property used during the course of the income year" means property that is available for use in the taxpayer's trade or business during the income year.

(g) "Trucking company" means a corporation engaged in or transacting the business of transporting freight, merchandise, or other property for hire.

(h) "Value of owned real and tangible personal property" means the original cost of owned real and tangible personal property.

(i) "Value of rented real and tangible personal property" means the product of eight times the net annual rental rate of rented real and tangible personal property.

(2) When a trucking company has income from sources both within and without this state, the amount of business income from sources within this state shall be determined pursuant to this rule. In those cases, the first step is to determine what portion of the trucking company's income constitutes business income and what portion constitutes nonbusiness income. Nonbusiness income is directly allocable to specific states and business income is apportioned among the states in which the business is conducted and pursuant to the property, payroll, and sales apportionment factors set forth in this rule. The sum of the items of nonbusiness income directly allocated to this state, plus the amount of business income apportioned to this state, constitutes the amount of the taxpayer's entire net income subject to tax in this state.

(3) The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(3) and (6). Except as modified by this rule, the property factor shall be determined in accordance with R865-6F-8(7), the payroll factor in accordance with

R865-6F-8(8), and the sales factor in accordance with R865-6F-8(9).

(4) The denominator of the property factor shall be the average value of the total of the taxpayer's real and tangible personal property owned or rented and used within and without this state during the income year. The numerator of the property factor shall be the average value of the taxpayer's real and tangible personal property owned or rented and used, or available for use, within this state during the income year.

(a) In the determination of the numerator of the property factor, all property, except mobile property, shall be included in the numerator of the property factor.

(b) Mobile property located within and without this state during the income year shall be included in the numerator of the property factor in the ratio that the mobile property's miles within this state bear to the total miles of mobile property within and without this state.

(5) The denominator of the payroll factor is the compensation paid within and without this state by the taxpayer during the income year for the production of business income. The numerator of the payroll factor is the compensation paid within this state during the income year by the taxpayer for the production of business income.

(a) With respect to all personnel, except those performing services within and without this state, compensation shall be included in the numerator as provided in R865-6F-8(8).

(b) With respect to personnel performing services within and without this state, compensation shall be included in the numerator of the payroll factor in the ratio that their services performed within this state bear to their services performed within and without this state.

(6) In general, all revenue derived from transactions and activities in the regular course of the taxpayer's trade or business that produce business income shall be included in the denominator of the revenue factor. The numerator of the revenue factor is the total revenue of the taxpayer in this state during the income year.

(a) The total state revenue of the taxpayer, other than revenue from hauling freight, mail, and express, shall be attributable to this state in accordance with R865-6F-8(9).

(b) The total revenue of the taxpayer attributable to this state during the income year from hauling freight, mail, and express shall be:

(i) Intrastate: all receipts from any shipment that both originates and terminates within this state; and

(ii) Interstate: that portion of the receipts from movements or shipments passing through, into, or out of this state as determined by the ratio that the mobile property miles traveled by the movements or shipments within this state bear to the total mobile property miles traveled by the movements or shipments within and without this state.

(7) The taxpayer shall maintain the records necessary to identify mobile property and to enumerate by state the mobile property miles traveled by mobile property. These records are subject to review by the Tax Commission or its agents.

(8) This rule requires apportionment of income to this state if during the course of the income tax year, the trucking company:

(a) owned or rented any real or personal property in this state;

(b) made any pickups or deliveries within this state;

(c) traveled more than 25,000 mobile property miles within this state, provided that the total mobile property miles traveled within this state during the income tax year exceeded three percent of the total mobile property miles traveled in all states by the trucking company during the period; or (d) made more than 12 trips into this state.

**R865-6F-22. Treatment of Loss Carrybacks and Carryforwards Spanning a Change in Reporting Methods Pursuant to Utah Code Ann. Sections 59-7-402 and 59-7-403.**

A. For purposes of this rule, "worldwide year" means a year in which a corporation filed a worldwide combined report as set forth in Sections 59-7-101(34) and 59-7-403.

B. For purposes of this rule, "water's edge year" means a year in which a corporation filed a combined report as set forth in Sections 59-7-101(33) and 59-7-402.

C. A corporation that receives permission from the Tax Commission to change its filing method to the water's edge method after having elected the worldwide method will be required to forfeit any unused loss carryovers that were generated in any worldwide year as a condition precedent to making that change. Any losses generated in a subsequent water's edge year may not be carried back against income earned in any year prior to the change to the water's edge method, but must be carried to a post-change water's edge year.

D. A corporation that elects the worldwide filing method subsequent to adoption of this rule will be required to forfeit any unused loss carryovers that were generated in any water's edge year. Any losses generated in a subsequent worldwide year may not be carried back against income earned in any year prior to the change to the worldwide election method, but must be carried to a post-change worldwide year.

**R865-6F-23. Utah Steam Coal Tax Credit Pursuant to Utah Code Ann. Section 59-7-604.**

A. Definitions.

1. "Permitted mine" means a mine for which a permit has been issued by the Division of Oil, Gas, and Mining pursuant to Title 40, Chapter 10, Coal Mining and Reclamation.

2. "Purchaser outside of the United States" means any company that purchases coal for shipment outside of the fifty states or the District of Columbia.

B. To qualify for the steam coal tax credit for taxable years beginning on or after January 1, 1993, sales to a purchaser outside of the United States must exceed the permitted mine's sales to a purchaser outside of the United States in the taxable year beginning on or after January 1, 1992, regardless of any change in ownership of the mine.

C. To qualify for the steam coal tax credit the coal must be exported outside of the United States, within a reasonable period of time. A reasonable period of time is considered to be within 90 days after the end of the tax year.

**R865-6F-24. Attribution of Sales of Tangible Property to the Sales Factor for Apportionment of Business Income Pursuant to Utah Code Ann. Section 59-7-317.**

A. For purposes of 15 U.S.C. Section 381, the phrase "activities within such state by or on behalf of such person" means the activities of any member of a unitary business as that term is defined in Section 59-7-302.

B. If the activity in this state of any member of a unitary business exceeds the activity protected by 15 U.S.C. Section 381, sales of tangible property into this state, from an out-of-state location by any member of the unitary business shall be included in this state's sales factor numerator under Section 59-7-317.

C. If any member of a unitary business is taxable in another state under Section 59-7-305, sales of tangible property from a Utah location, into that state by any member of the unitary business shall not be thrown back to this state as ordinarily provided under Section 59-7-318.

D. This rule is effective for taxable years beginning after

December 31, 1992.

**R865-6F-26. Historic Preservation Tax Credits Pursuant to Utah Code Ann. Section 59-7-609.**

A. Definitions:

1. "Qualified rehabilitation expenditures" includes architectural, engineering, and permit fees.
2. "Qualified rehabilitation expenditures" does not include movable furnishings.
3. "Residential" as used in Section 59-7-609 applies only to the use of the building after the project is completed.

B. Taxpayers shall file an application for approval of all proposed rehabilitation work with the Division of State History prior to the completion of restoration or rehabilitation work on the project. The application shall be on a form provided by the Division of State History.

C. Rehabilitation work must receive a unique certification number from the State Historic Preservation Office in order to be eligible for the tax credit.

D. In order to receive final certification and be issued a unique certification number for the project, the following conditions must be satisfied:

1. The project approved under B. must be completed.
2. Upon completion of the project, taxpayers shall notify the State Historic Preservation Office and provide that office an opportunity to review, examine, and audit the project. In order to be certified, a project shall be completed in accordance with the approved plan and the Secretary of the Interior's Standards for Rehabilitation.
3. Taxpayers restoring buildings not already listed on the National Register of Historic Places shall submit a complete National Register Nomination Form. If the nomination meets National Register criteria, the State Historic Preservation Office shall approve the nomination.
4. Projects must be completed, and the \$10,000 expenditure threshold required by Section 59-7-609 must be met, within 36 months of the approval received pursuant to B.
5. During the course of the project and for three years thereafter, all work done on the building shall comply with the Secretary of the Interior's Standards for Rehabilitation.

E. Proof of State Historic Preservation Office certification shall be made by:

1. receiving an authorization form from the State Historic Preservation Office containing the certification number;
2. attaching that authorization form to the tax return for the year in which the credit is claimed.

F. Credit amounts shall be applied against Utah corporate franchise tax due in the tax year in which the project receives final certification under D.

G. Credit amounts greater than the amount of Utah corporate franchise tax due in a tax year shall be carried forward to the extent provided by Section 59-7-609.

H. Carryforward historic preservation tax credits shall be applied against Utah franchise tax due before the application of any historic preservation credits earned in the current year and on a first-earned, first-used basis.

I. Original records supporting the credit claimed must be maintained for three years following the date the return was filed claiming the credit.

**R865-6F-27. Order of Credits Applied Against Utah Corporate Franchise Tax Due Pursuant to Utah Code Ann. Sections 9-2-413, 59-6-102, 59-7-601 through 59-7-614, and 59-13-202.**

A. Taxpayers shall deduct credits authorized by Sections 9-2-413, 59-6-102, 59-7-601 through 59-7-614, and 59-13-202 against Utah corporate franchise tax due in the following order:

1. nonrefundable credits;
2. nonrefundable credits with a carryforward;
3. refundable credits.

**R865-6F-28. Enterprise Zone Corporate Franchise Tax Credits Pursuant to Utah Code Ann. Sections 9-2-401 through 9-2-415.**

A. Definitions:

1. "Business engaged in retail trade" means a business that makes a retail sale as defined in Section 59-12-102.
2. "Construction work" does not include facility maintenance or repair work.
3. "Employee" means a person who qualifies as an employee under Internal Revenue Service Regulation 26 CFR 31.3401(c)(1).
4. "Public utilities business" means a public utility under Section 54-2-1.
5. "Qualifying investment" in the case of a business firm that is a member of a unitary group, does not include an investment made by that business firm in plant, equipment, or other depreciable property of another member of the unitary group.
6. "Transfer" pursuant to Section 9-2-411, means the relocation of assets and operations of a business, including personnel, plant, property, and equipment.
7. "Unitary group" is as defined in Section 59-7-101.

B. For purposes of the investment tax credit, an investment is a qualifying investment if:

1. The plant, equipment, or other depreciable property for which the credit is taken is located within the boundaries of the enterprise zone.
2. The plant, equipment, or other depreciable property for which the investment tax credit is taken is in a business that is operational within the enterprise zone.

C. The calculation of the number of full-time positions for purposes of the credits allowed under Section 9-2-413(1)(a) through (d) shall be based on the average number of employees reported to the Department of Workforce Services for the four quarters prior to the area's designation as an enterprise zone.

D. To determine whether at least 51 percent of the business firm's employees reside in the county in which the enterprise zone is located, the business firm shall consider every employee reported to the Department of Workforce Services for the tax year for which an enterprise zone credit is sought.

E. A business firm that conducts non-retail operations and is engaged in retail trade qualifies for the credits under Section 9-2-413 if the retail trade operations constitute a de minimis portion of the business firm's total operations.

F. An employee whose duties include both non-construction work and construction work does not perform a construction job if the construction work performed by the employee constitutes a de minimis portion of the employee's total duties.

G. Corporate franchise tax credits may not be used to offset or reduce the \$100 minimum tax per corporation.

H. Records and supporting documentation shall be maintained for three years after the date any returns are filed to support the credits taken. For example: If credits are originally taken in 1988 and unused portions are carried forward to 1992, records to support the original credits taken in 1988 must be maintained for three years after the date the 1992 return is filed.

I. If an enterprise zone designation is revoked prior to the expiration of the period for which it was designated, only tax credits earned prior to the loss of that designation will be allowed.

**R865-6F-29. Taxation of Railroads Pursuant to Utah Code Ann. Sections 59-7-302 through 59-7-321.**

## (1) Definitions.

(a) "Average value" of property means the amount determined by averaging the values of real and personal property at the beginning and ending of the income tax year. The Tax Commission may require the averaging of monthly values during the income year or other averaging as necessary to reflect properly the average value of the railroad's property.

(b) "Business and nonbusiness income" are as defined in R865-6F-8(1).

(c) "Car-mile" means a movement of a unit of car equipment a distance of one mile.

(d) "Locomotive" means a self-propelled unit of equipment designed solely for moving other equipment.

(e) "Locomotive-mile" means the movement of a locomotive a distance of one mile under its own power.

(f) "Net annual rental rate" means the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

(g) "Original cost" means the basis of the property for federal income tax purposes (prior to any federal income tax adjustments except for subsequent capital additions, improvements thereto or partial dispositions). If the original cost of property is unascertainable under the foregoing valuation standards, the property is included in the property factor at its fair market value as of the date of acquisition by the taxpayer.

(h) "Property used during the income year" means property that is available for use in the taxpayer's trade or business during the income year.

(i) "Rent" does not include the per diem and mileage charges paid by the taxpayer for the temporary use of railroad cars owned or operated by another railroad.

(j) "Value of owned real and tangible personal property" means the original cost of owned real and tangible personal property.

(k) "Value of rented real and tangible personal property" means the product of eight times the net annual rental rate of rented real and tangible personal property.

(2) When a railroad has income from sources both within and without this state, the amount of business income from sources within this state shall be determined pursuant to this rule. In those cases, the first step is to determine what portion of the railroad's income constitutes business income and what portion constitutes nonbusiness income. Nonbusiness income is directly allocable to specific states and business income is apportioned among the states in which the business is conducted and pursuant to the property, payroll, and sales apportionment factors set forth in this rule. The sum of the items of nonbusiness income directly allocated to this state, plus the amount of business income apportioned to this state, constitutes the amount of the taxpayer's entire net income subject to tax in this state.

(3) The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(3) and (6). Except as modified by this rule, the property factor shall be determined in accordance with R865-6F-8(7), the payroll factor in accordance with R865-6F-8(8), and the sales factor in accordance with R865-6F-8(9).

(4) The denominator of the property factor shall be the average value of the total of the taxpayer's real and tangible personal property owned or rented and used within and without this state during the income year. The numerator of the property factor shall be the average value of the taxpayer's real and tangible personal property owned or rented and used within this state during the income year.

(a) In determining the numerator of the property factor,

all property except mobile or movable property such as passenger cars, freight cars, locomotives and freight containers located within and without this state during the income year shall be included in the numerator of the property factor.

(b) Mobile or movable property such as passenger cars, freight cars, locomotives and freight containers located within and without this state during the income year shall be included in the numerator of the property factor in the ratio that locomotive-miles and car-miles in the state bear to the total of locomotive-miles and car-miles both within and without this state.

(5) The denominator of the payroll factor is the total compensation paid within and without this state by the taxpayer during the income year for the production of business income. The numerator of the payroll factor is the amount of compensation paid within this state during the income year for the production of business income.

(a) With respect to all personnel except engine men and trainmen performing services on interstate trains, compensation shall be included in the numerator as provided in R865-6F-8(8).

(b) With respect to engine men and trainmen performing services on interstate trains, compensation shall be included in the numerator of the payroll factor in the ratio that their services performed in this state bear to their services performed within and without this state.

(c) Compensation for services performed in this state shall be deemed to be the compensation reported or required to be reported by employees for determination of their income tax liability to this state.

(6) In general, all revenue derived from transactions and activities in the regular course of the taxpayer's trade or business within and without this state that produce business income, except per diem and mileage charges that are calculated by the taxpayer, shall be included in the denominator of the revenue factor. The numerator of the revenue factor is the total revenue of the taxpayer within this state during the income year.

(a) The total revenue of the taxpayer in this state during the income year, other than revenue from hauling freight, passengers, mail and express, shall be attributable to this state in accordance with R865-6F-8(9).

(b) The total revenue of the taxpayer attributable to this state during the income year for the numerator of the revenue factor from hauling freight, mail and express shall be attributable to this state as follows:

(i) Intrastate: all receipts from shipments that both originate and terminate within this state; and

(ii) Interstate: that portion of the receipts from each movement or shipment passing through, into, or out of this state is determined by the ratio that the miles traveled by the movement or shipment in this state bears to the total miles traveled by the movement or shipment from point of origin to destination.

(c) The total revenue of the taxpayer attributable to this state during the income year for the numerator of the revenue factor from hauling passengers shall be attributable to this state as follows:

(i) Intrastate: all receipts from the transportation of passengers, including mail and express handled in passenger service, that both originate and terminate within this state; and

(ii) Interstate: that portion of the receipts from the transportation of interstate passengers, including mail and express handled in passenger service, determined by the ratio that passenger miles in this state bear to the total of passenger miles within and without this state.

(7) The taxpayer shall maintain the records necessary to

identify mobile property and to enumerate by state the mobile property miles traveled by mobile property. These records are subject to review by the Tax Commission or its agents.

**R865-6F-30. Higher Education Savings Incentive Program Tax Deduction Pursuant to Utah Code Ann. Sections 53B-8a-112, 59-7-105, and 59-7-106.**

A. "Trust" means the Utah Educational Savings Plan Trust created pursuant to Section 53B-8a-103.

B. The trustee of the trust shall file a form TC-675H, Statement of Account with the Utah Educational Savings Plan Trust, with the commission, for each trust participant. The TC-675H shall contain the following information for the calendar year:

1. the amount contributed to the trust by the participant;
2. the income earned on the participant's contributions to the trust; and
3. the amount refunded to the participant pursuant to Section 53B-8a-109.

C. The trustee of the trust shall file form TC-675H with the commission on or before January 31 of the year following the calendar year on which the forms are based.

D. The trustee of the trust shall provide each trust participant with a copy of the form TC-675H on or before January 31 of the year following the calendar year on which the TC-675H is based.

E. The trustee of the trust shall maintain original records supporting the amounts listed on the TC-675H for the current year filing and the three previous year filings.

F. Trust participants must attach a copy of the TC-675H to their state tax return to qualify for the deduction allowed under Section 59-7-106.

**R865-6F-31. Taxation of Publishing Companies Pursuant to Utah Code Ann. Sections 59-7-302 through 59-7-321.**

(1) Definitions.

(a) "Outer-jurisdictional property" means certain types of tangible personal property, such as orbiting satellites, undersea transmission cables and the like, that are owned or rented by the taxpayer and used in the business of publishing, licensing, selling or otherwise distributing printed material, but that are not physically located in any particular state.

(b) "Print" or "printed material" means the physical embodiment or printed version of any thought or expression, including a play, story, article, column or other literary, commercial, educational, artistic or other written or printed work. The determination of whether an item is or consists of print or printed material shall be made without regard to its content. Printed material may take the form of a book, newspaper, magazine, periodical, trade journal, or any other form of printed matter and may be contained on any medium or property.

(c) "Purchaser" and "subscriber" mean the individual, residence, business or other outlet that is the ultimate or final recipient of the print or printed material. Neither term shall mean or include a wholesaler or other distributor of print or printed material.

(d) "Terrestrial facility" shall include any telephone line, cable, fiber optic, microwave, earth station, satellite dish, antennae, or other relay system or device that is used to receive, transmit, relay or carry any data, voice, image or other information that is transmitted from or by any outer-jurisdictional property to the ultimate recipient thereof.

(2) When a taxpayer in the business of publishing, selling, licensing or distributing books, newspapers, magazines, periodicals, trade journals, or other printed material has income from sources both within and without this state, the amount of business income from sources within this state shall be determined pursuant to this rule. In those

cases, the first step is to determine what portion of the taxpayer's income constitutes business income and what portion constitutes nonbusiness income. Nonbusiness income is directly allocable to specific states and business income is apportioned among the states in which the business is conducted and pursuant to the property, payroll, and sales apportionment factors set forth in this rule. The sum of the items of nonbusiness income directly allocated to this state, plus the amount of business income apportioned to this state, constitutes the amount of the taxpayer's entire net income subject to tax in this state.

(3) The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(3) and (6). Except as modified by this rule, the property factor shall be determined in accordance with R865-6F-8(7), the payroll factor in accordance with R865-6F-8(8), and the sales factor in accordance with R865-6F-8(9).

(4) All real and tangible personal property, including outer-jurisdictional property, whether owned or rented, that is used in the business shall be included in the denominator of the property factor.

(5)(a) All real and tangible personal property owned or rented by the taxpayer and used within this state during the tax period shall be included in the numerator of the property factor.

(b) Outer-jurisdictional property owned or rented by the taxpayer and used in this state during the tax period shall be included in the numerator of the property factor in the ratio that the value of the property attributable to its use by the taxpayer in business activities within this state bears to the value of the property attributable to its use in the taxpayer's business activities within and without this state.

(i) The value of outer-jurisdictional property attributed to the numerator of the property factor of this state shall be determined by the ratio that the number of uplinks and downlinks, or half-circuits, used during the tax period to transmit from this state and to receive in this state any data, voice, image or other information bears to the number of uplinks and downlinks or half-circuits used for transmissions within and without this state.

(ii) If information regarding uplink and downlink or half-circuit usage is not available or if measurement of activity is not applicable to the type of outer-jurisdictional property used by the taxpayer, the value of that property attributed to the numerator of the property factor of this state shall be determined by the ratio that the amount of time, in terms of hours and minutes of use, or other measurement of use of outer-jurisdictional property that was used during the tax period to transmit from this state and to receive within this state any data, voice, image or other information bears to the total amount of time or other measurement of use that was used for transmissions within and without this state.

(iii) Outer-jurisdictional property shall be considered to have been used by the taxpayer in its business activities within this state when that property, wherever located, has been employed by the taxpayer in any manner in the publishing, sale, licensing or other distribution of books, newspapers, magazines or other printed material, and any data, voice, image or other information is transmitted to or from this state either through an earth station or terrestrial facility located within this state.

(A) One example of the use of outer-jurisdictional property is when the taxpayer owns its own communications satellite or leases the use of uplinks, downlinks or circuits or time on a communications satellite for the purpose of sending messages to its newspaper printing facilities or employees. The states in which any printing facility that receives the satellite communications are located and the state from which

the communications were sent would, under this rule, apportion the cost of the owned or rented satellite to their respective property factors based upon the ratio of the in-state use of the satellite to its usage within and without the state.

(B) Assume that ABC Newspaper Co. owns a total of \$400,000,000 of property and, in addition, owns and operates a communication satellite for the purpose of sending news articles to its printing plant in this state, as well as for communicating with its printing plants and facilities or news bureaus, employees and agents located in other states and throughout the world. Also assume that the total value of its real and tangible personal property that was permanently located in this state for the entire income year was valued at \$3,000,000. Assume also that the original cost of the satellite is \$100,000,000 for the tax period and that of the 10,000 uplinks and downlinks or half-circuits of satellite transmissions used by the taxpayer during the tax period, 200 or 2% are attributable to its satellite communications received in and sent from this state. Assume further that the company's mobile property that was used partially within this state, consisting of 40 delivery trucks, was determined to have an original cost of \$4,000,000 and was used in this state for 95 days. The total value of property attributed to this state is determined as follows:

TABLE

Value of property permanently in state =	\$3,000,000
Value of mobile property: 95/365 or (.260274) x \$4,000,000 =	\$1,041,096
Value of leased satellite property used in-state: (.02) x \$100,000,000 =	\$2,000,000
Total value of property attributable to state =	\$6,041,096
Total property factor percentage: \$6,041,096/\$500,000,000 =	1.2082%

(6) The payroll factor shall be determined in accordance with Sections 59-7-315 and 59-7-316.

(7) The denominator of the sales factor shall include the total gross receipts derived by the taxpayer from transactions and activity in the regular course of its trade or business, except receipts that may be excluded under R865-6F-8(10)(c).

(8) The numerator of the sales factor shall include all gross receipts of the taxpayer from sources within this state, including the following:

(a) Gross receipts derived from the sale of tangible personal property, including printed materials, delivered or shipped to a purchaser or a subscriber in this state; and

(b) Except as provided in Subsection (8)(b)(ii), gross receipts derived from advertising and the sale, rental, or other use of the taxpayer's customer lists or any portion thereof shall be attributed to this state as determined by the taxpayer's circulation factor during the tax period. The circulation factor shall be determined for each publication of printed material containing advertising and shall be equal to the ratio that the taxpayer's in-state circulation to purchasers and subscribers of its printed material bears to its circulation to purchasers and subscribers within and without the state.

(i) The circulation factor for an individual publication shall be determined by reference to the rating statistics as reflected in such sources as Audit Bureau of Circulations or other comparable sources, provided that the source selected is consistently used from year to year for that purpose. If none of the foregoing sources are available, or, if available, not in form or content sufficient for these purposes, the circulation factor shall be determined from the taxpayer's books and records.

(ii) When specific items of advertisements can be

shown, upon clear and convincing evidence, to have been distributed solely to a limited regional or local geographic area in which this state is located, the taxpayer may petition, or the Tax Commission may require, that a portion of those receipts be attributed to the sales factor numerator of this state on the basis of a regional or local geographic area circulation factor and not upon the basis of the circulation factor provided by Subsection (8)(b)(i). This attribution shall be based upon the ratio that the taxpayer's circulation to purchasers and subscribers located in the printed material containing specific items of advertising bears to its total circulation of printed material to purchasers and subscribers located within the regional or local geographic area. This alternative attribution method shall be permitted only upon the condition that receipts are not double counted or otherwise included in the numerator of any other state.

(iii) If the purchaser or subscriber is the United States government or if the taxpayer is not taxable in a state, the gross receipts from all sources, including the receipts from the sale of printed material, from advertising, and from the sale, rental or other use of the taxpayer's customer lists, or any portion thereof that would have been attributed by the circulation factor to the numerator of the sales factor for that state, shall be included in the numerator of the sales factor of this state if the printed material or other property is shipped from an office, store, warehouse, factory, or other place of storage or business in this state.

#### **R865-6F-32. Taxation of Financial Institutions Pursuant to Utah Code Ann. Sections 59-7-302 through 59-7-321.**

(1) Definitions.

(a) "Billing address" means the location indicated in the books and records of the taxpayer on the first day of the taxable year, or on the later date in the taxable year when the customer relationship began, where any notice, statement or bill relating to a customer's account is mailed.

(b) "Borrower or credit card holder located in this state" means:

(i) a borrower, other than a credit card holder, that is engaged in a trade or business that maintains its commercial domicile in this state; or

(ii) a borrower that is not engaged in a trade or business, or a credit card holder, whose billing address is in this state.

(c) "Commercial domicile" means:

(i) the place from which the trade or business is principally managed and directed; or

(ii) if a taxpayer is organized under the laws of a foreign country, or of the Commonwealth of Puerto Rico, or any territory or possession of the United States, that taxpayer's commercial domicile shall be deemed for the purposes of this rule to be the state of the United States or the District of Columbia from which that taxpayer's trade or business in the United States is principally managed and directed. It shall be presumed, subject to rebuttal, that the location from which the taxpayer's trade or business is principally managed and directed is the state of the United States or the District of Columbia to which the greatest number of employees are regularly connected or out of which they are working, irrespective of where the services of those employees are performed, as of the last day of the taxable year.

(d) "Compensation" means wages, salaries, commissions, and any other form of remuneration paid to employees for personal services that are included in the employee's gross income under the federal Internal Revenue Code. In the case of employees not subject to the federal Internal Revenue Code, the determination of whether payments constitute gross income under the federal Internal Revenue Code shall be made as though those employees were subject to the federal Internal Revenue Code.

(e) "Credit card" means a credit, travel, or entertainment card.

(f) "Credit card issuer's reimbursement fee" means the fee a taxpayer receives from a merchant's bank because one of the persons to whom the taxpayer has issued a credit card has charged merchandise or services to the credit card.

(g) "Employee" means, with respect to a particular taxpayer, any individual who, under the usual common law rules applicable in determining the employer-employee relationship, has the status of an employee of that taxpayer.

(h) "Financial institution" means:

(i) any corporation or other business entity registered under state law as a bank holding company or registered under the Federal Bank Holding Company Act of 1956, as amended, or registered as a savings and loan holding company under the Federal National Housing Act, as amended;

(ii) a national bank organized and existing as a national bank association pursuant to the provisions of the National Bank Act, 12 U.S.C. Sections 21 et seq.;

(iii) a savings association or federal savings bank as defined in the Federal Deposit Insurance Act, 12 U.S.C. Section 1813(b)(1);

(iv) any bank, industrial loan corporation, or thrift institution incorporated or organized under the laws of any state;

(v) any corporation organized under the provisions of 12 U.S.C. Sections 611 through 631.

(vi) any agency or branch of a foreign depository as defined in 12 U.S.C. Section 3101;

(vii) a production credit association organized under the Federal Farm Credit Act of 1933, all of whose stock held by the Federal Production Credit Corporation has been retired;

(viii) any corporation whose voting stock is more than 50 percent owned, directly or indirectly, by any person or business entity described in Subsections (1)(h)(i) through (vii), other than an insurance company taxable under Title 59, Chapter 9, Taxation of Admitted Insurers;

(ix) a corporation or other business entity that derives more than 50 percent of its total gross income for financial accounting purposes from finance leases. For purposes of this subsection, a "finance lease" shall mean any lease transaction that is the functional equivalent of an extension of credit and that transfers substantially all of the benefits and risks incident to the ownership of property. The phrase shall include any direct financing lease or leverage lease that meets the criteria of Financial Accounting Standards Board Statement No. 13, Accounting for Leases, or any other lease that is accounted for as a financing lease by a lessor under generally accepted accounting principles. For this classification to apply:

(A) the average of the gross income in the current tax year and immediately preceding two tax years must satisfy the more than 50 percent requirement; and

(B) gross income from incidental or occasional transactions shall be disregarded;

(x) any other person or business entity, other than an insurance company, a credit union exempt from the corporation franchise tax under Section 59-7-102, a real estate broker, or a securities dealer, that derives more than 50 percent of its gross income from activities that a person described in Subsections (1)(h)(ii) through (vii) and (1)(h)(ix) is authorized to transact.

(A) For purposes of this subsection, the computation of gross income shall not include income from non-recurring, extraordinary items; and

(B) The Tax Commission is authorized to exclude any person from the application of Subsection (1)(h)(x) upon receipt of proof, by clear and convincing evidence, that the

income-producing activity of that person is not in substantial competition with those persons described in Subsections (1)(h)(ii) through (vii) and (1)(h)(ix).

(i) "Gross rents" means the actual sum of money or other consideration payable for the use or possession of property.

(i) Gross rents includes:

(A) any amount payable for the use or possession of real property or tangible property whether designated as a fixed sum of money or as a percentage of receipts, profits or otherwise;

(B) any amount payable as additional rent or in lieu of rent, such as interest, taxes, insurance, repairs or any other amount required to be paid by the terms of a lease or other arrangement; and

(C) a proportionate part of the cost of any improvement to real property, made by or on behalf of the taxpayer, that reverts to the owner or lessor upon termination of a lease or other arrangement. The amount included in gross rents is the amount of amortization or depreciation allowed in computing the taxable income base for the taxable year. However, where a building is erected on leased land by or on behalf of the taxpayer, the value of the land is determined by multiplying the gross rent by eight and the value of the building is determined in the same manner as if owned by the taxpayer.

(ii) Gross rents does not include:

(A) reasonable amounts payable as separate charges for water and electric service furnished by the lessor;

(B) reasonable amounts payable as service charges for janitorial services furnished by the lessor;

(C) reasonable amounts payable for storage, provided those amounts are payable for space not designated and not under the control of the taxpayer; and

(D) that portion of any rental payment applicable to the space subleased from the taxpayer and not used by the taxpayer.

(j) "Loan" means any extension of credit resulting from direct negotiations between the taxpayer and the taxpayer's customer, or the purchase, in whole or in part, of an extension of credit from another.

(i) Loan includes participations, syndications, and leases treated as loans for federal income tax purposes.

(ii) Loan does not include properties treated as loans under Section 595 of the federal Internal Revenue Code, futures or forward contracts, options, notional principal contracts such as swaps, credit card receivables, including purchased credit card relationships, non-interest bearing balances due from depository institutions, cash items in the process of collection, federal funds sold, securities purchased under agreements to resell, assets held in a trading account, securities, interests in a real estate mortgage investment conduit as defined in Section 860D of the Internal Revenue Code, or other mortgage-backed or asset-backed security, and other similar items.

(k) "Loans secured by real property" means that fifty percent or more of the aggregate value of the collateral used to secure a loan or other obligation, when valued at fair market value as of the time the original loan or obligation was incurred, was real property.

(l) "Merchant discount" means the fee, or negotiated discount, charged to a merchant by the taxpayer for the privilege of participating in a program whereby a credit card is accepted in payment for merchandise or services sold to the card holder.

(m) "Participation" means an extension of credit in which an undivided ownership interest is held on a pro rata basis in a single loan or pool of loans and related collateral. In a loan participation, the credit originator initially makes the loan and then subsequently resells all or a portion of it to

other lenders. The participation may or may not be known to the borrower.

(n) "Person" means an individual, estate, trust, partnership, corporation, and any other business entity.

(o) "Principal base of operations" means:

(i) with respect to transportation property, the place of more or less permanent nature from which that property is regularly directed or controlled; and

(ii) with respect to an employee, the place of more or less permanent nature from which the employee regularly:

(A) starts his work and to which he customarily returns in order to receive instructions from his employer;

(B) communicates with his customers or other persons; or

(C) performs any other functions necessary to the exercise of his trade or profession at some other point or points.

(p)(i) "Real property owned" and "tangible personal property owned" mean real and tangible personal property, respectively:

(A) on which the taxpayer may claim depreciation for federal income tax purposes; or

(B) property to which the taxpayer holds legal title and on which no other person may claim depreciation for federal income tax purposes, or could claim depreciation if subject to federal income tax.

(ii) Real and tangible personal property do not include coin, currency, or property acquired in lieu of or pursuant to a foreclosure.

(q) "Regular place of business" means an office at which the taxpayer carries on business in a regular and systematic manner and is continuously maintained, occupied, and used by employees of the taxpayer.

(r) "State" means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any foreign country.

(s) "Syndication" means an extension of credit in which two or more persons fund and each person is at risk only up to a specified percentage of the total extension of credit or up to a specified dollar amount.

(t) "Taxable" means:

(i) a taxpayer is subject in another state to a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, a corporate stock tax, including a bank shares tax, a single business tax, an earned surplus tax, or any tax imposed upon or measured by net income; or

(ii) another state has jurisdiction to subject the taxpayer to taxes regardless of whether that state actually imposes those taxes.

(u) "Transportation property" means vehicles and vessels capable of moving under their own power, such as aircraft, trains, water vessels and motor vehicles, as well as any equipment or containers attached to that property, such as rolling stock, barges, and trailers.

(2) Apportionment and Allocation.

(a) A financial institution whose business activity is taxable both within and without this state, or a financial institution whose business activity is taxable within this state and is a member of a unitary group that includes one or more financial institutions where any member of the group is taxable without this state, shall allocate and apportion its net income as provided in this rule. All items of nonbusiness income shall be allocated pursuant to the provisions of Section 59-7-306. A financial institution organized under the laws of a foreign country, the Commonwealth of Puerto Rico, or a territory or possession of the United States, whose effectively connected income, as defined under the federal

Internal Revenue Code, is taxable both within this state and within another state, other than the state in which it is organized, shall allocate and apportion its net income as provided in this rule.

(b) The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(3) and (6). Except as modified by this rule, the property factor shall be determined in accordance with R865-6F-8(7), the payroll factor in accordance with R865-6F-8(8), and the sales factor in accordance with R865-6F-8(9).

(c) Each factor shall be computed according to the cash or accrual method of accounting as used by the taxpayer for the taxable year.

(d) If a unitary group of corporations filing a combined report includes one or more corporations meeting the definition of financial institution and one or more corporations that do not meet that definition, the provisions of this rule regarding the calculation of the property, payroll, and receipts factors of the apportionment fraction shall apply only to those corporations meeting the definition of financial institution. Those corporations not meeting the definition of financial institution shall compute their apportionment data based on rule R865-6F-8 or such other industry apportionment rule adopted by the Tax Commission that may be applicable. The apportionment data of all members of the unitary group shall be included in calculating a single apportionment fraction for the unitary group. The numerators and denominators of the property, payroll, and receipts factors of the financial institutions shall be added to the numerators and denominators, respectively, of the property, payroll, and sales factors of the nonfinancial institutions to determine the property, payroll, and sales factors of the unitary group.

(3) Receipts Factor.

(a) In general. The receipts factor is a fraction, the numerator of which is the receipts of the taxpayer in this state during the taxable year and the denominator of which is the receipts of the taxpayer within and without this state during the taxable year. The method of calculating receipts for purposes of the denominator is the same as the method used in determining receipts for purposes of the numerator. The receipts factor shall include only those receipts that constitute business income and are included in the computation of the apportionable income base for the taxable year.

(b) Receipts from the lease of real property. The numerator of the receipts factor includes receipts from the lease or rental of real property owned by the taxpayer and receipts from the sublease of real property, if the property is located within this state.

(c) Receipts from the lease of tangible personal property.

(i) Except as described in Subsection (3)(d), the numerator of the receipts factor includes receipts from the lease or rental of tangible personal property owned by the taxpayer if the property is located within this state when it is first placed in service by the lessee.

(ii) Receipts from the lease or rental of transportation property owned by the taxpayer are included in the numerator of the receipts factor to the extent that the property is used in this state.

(A) The extent an aircraft will be deemed to be used in this state and the amount of receipts that shall be included in the numerator of this state's receipts factor are determined by multiplying all the receipts from the lease or rental of the aircraft by a fraction, the numerator of which is the number of landings of the aircraft in this state and the denominator of which is the total number of landings of the aircraft.

(B) If the extent of the use of any transportation

property within this state cannot be determined, that property will be deemed to be used wholly in the state in which the property has its principal base of operations.

(C) A motor vehicle will be deemed to be used wholly in the state in which it is registered.

(d) Interest from loans secured by real property.

(i) The numerator of the receipts factor includes interest and fees or penalties in the nature of interest from loans secured by real property if the property is located within this state. If the property is located both within this state and one or more other states, the receipts described in this subsection are included in the numerator of the receipts factor if more than fifty percent of the fair market value of the real property is located within this state. If more than fifty percent of the fair market value of the real property is not located within any one state, the receipts described in this subsection shall be included in the numerator of the receipts factor if the borrower is located in this state.

(ii) The determination of whether the real property securing a loan is located within this state shall be made as of the time the original agreement was made, and any and all subsequent substitutions of collateral shall be disregarded.

(e) Interest from loans not secured by real property. The numerator of the receipts factor includes interest and fees or penalties in the nature of interest from loans not secured by real property if the borrower is located in this state.

(f) Net gains from the sale of loans. The numerator of the receipts factor includes net gains from the sale of loans. Net gains from the sale of loans includes income recorded under the coupon stripping rules of Section 1286 of the Internal Revenue Code.

(i) The amount of net gains, but not less than zero, from the sale of loans secured by real property included in the numerator is determined by multiplying the net gains by a fraction the numerator of which is the amount included in the numerator of the receipts factor pursuant to Subsection (3)(d), and the denominator of which is the total amount of interest and fees or penalties in the nature of interest from loans secured by real property.

(ii) The amount of net gains, but not less than zero, from the sale of loans not secured by real property included in the numerator is determined by multiplying the net gains by a fraction the numerator of which is the amount included in the numerator of the receipts factor pursuant to Subsection (3)(e), and the denominator of which is the total amount of interest and fees or penalties in the nature of interest from loans not secured by real property.

(g) Receipts from credit card receivables. The numerator of the receipts factor includes interest and fees or penalties in the nature of interest from credit card receivables and receipts from fees charged to card holders, such as annual fees, if the billing address of the card holder is in this state.

(h) Net gains from the sale of credit card receivables. The numerator of the receipts factor includes net gains, but not less than zero, from the sale of credit card receivables multiplied by a fraction, the numerator of which is the amount included in the numerator of the receipts factor pursuant to Subsection (3)(g), and the denominator of which is the taxpayer's total amount of interest and fees or penalties in the nature of interest from credit card receivables and fees charged to card holders.

(i) Credit card issuer's reimbursement fees. The numerator of the receipts factor includes all credit card issuer's reimbursement fees multiplied by a fraction, the numerator of which is the amount included in the numerator of the receipts factor pursuant to Subsection (3)(g), and the denominator of which is the taxpayer's total amount of interest and fees or penalties in the nature of interest from credit card receivables and fees charged to card holders.

(j) Receipts from merchant discount. The numerator of the receipts factor includes receipts from merchant discount if the commercial domicile of the merchant is in this state. The receipts shall be computed net of any cardholder charge backs, but shall not be reduced by any interchange transaction fees or by any issuer's reimbursement fees paid to another for charges made by its card holders.

(k) Loan servicing fees.

(i) The numerator of the receipts factor includes loan servicing fees derived from loans secured by real property multiplied by a fraction the numerator of which is the amount included in the numerator of the receipts factor pursuant to Subsection (3)(d), and the denominator of which is the total amount of interest and fees or penalties in the nature of interest from loans secured by real property.

(ii) The numerator of the receipts factor includes loan servicing fees derived from loans not secured by real property multiplied by a fraction the numerator of which is the amount included in the numerator of the receipts factor pursuant to Subsection (3)(e), and the denominator of which is the total amount of interest and fees or penalties in the nature of interest from loans not secured by real property.

(iii) In circumstances in which the taxpayer receives loan servicing fees for servicing either the secured or the unsecured loans of another, the numerator of the receipts factor shall include those fees if the borrower is located in this state.

(l) Receipts from services. The numerator of the receipts factor includes receipts from services not otherwise apportioned under this section if the service is performed in this state. If the service is performed both within and without this state, the numerator of the receipts factor includes receipts from services not otherwise apportioned under this section if a greater proportion of the income-producing activity is performed in this state based on cost of performance.

(m) Receipts from investment assets and activities and trading assets and activities.

(i) Interest, dividends, net gains, but not less than zero, and other income from investment assets and activities and from trading assets and activities shall be included in the receipts factor.

(ii) Investment assets and activities and trading assets and activities include investments securities, trading account assets, federal funds, securities purchased and sold under agreements to resell or repurchase, options, futures contracts, forward contracts, notional principal contracts such as swaps, equities, and foreign currency transactions.

(iii) The receipts factor shall include the following investment and trading assets and activities:

(A) The receipts factor shall include the amount by which interest from federal funds sold and securities purchased under resale agreements exceeds interest expense on federal funds purchased and securities sold under repurchase agreements.

(B) The receipts factor shall include the amount by which interest, dividends, gains and other income from trading assets and activities, including assets and activities in the matched book and arbitrage book, and foreign currency transactions, exceed amounts paid in lieu of interest, amounts paid in lieu of dividends, and losses from those assets and activities.

(iv) The numerator of the receipts factor includes interest, dividends, net gains, but not less than zero, and other income from investment assets and activities and from trading assets and activities described in Subsection (3)(m) that are attributable to this state.

(A) The amount of interest, dividends, net gains, but not less than zero, and other income from investment assets and

activities in the investment accounts attributed to this state and included in the numerator is determined by multiplying all such income from assets and activities by a fraction, the numerator of which is the average value of the assets properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the average value of all those assets.

(B) The amount of interest from federal funds sold and purchased and from securities purchased under resale agreements and securities sold under repurchase agreements attributable to this state and included in the numerator is determined by multiplying the amount of those funds and securities described in Subsection (3)(m)(iii)(A) by a fraction, the numerator of which is the average value of federal funds sold and securities purchased under agreements to resell that are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the average value of all those funds and securities.

(C) The amount of interest, dividends, gains, and other income from trading assets and activities, including assets and activities in the matched book and arbitrage book and foreign currency transactions, but excluding amounts described in Subsections (3)(m)(iv)(A) and (3)(m)(iv)(B), attributable to this state and included in the numerator is determined by multiplying the amount described in Subsection (3)(m)(iii)(B) by a fraction, the numerator of which is the average value of those trading assets that are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the average value of all those assets.

(D) For purposes of this subsection, average value shall be determined using the rules for determining the average value of tangible personal property set forth in Subsections (4)(c) and (d).

(v) In lieu of using the method set forth in Subsection (3)(m)(iv), the taxpayer may elect, or the Tax Commission may require in order to fairly represent the business activity of the taxpayer in this state, the use of the method set forth in this subsection.

(A) The amount of interest, dividends, net gains, but not less than zero, and other income from investment assets and activities in the investment account attributed to this state and included in the numerator is determined by multiplying all income from those assets and activities by a fraction, the numerator of which is the gross income from those assets and activities properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the gross income from all those assets and activities.

(B) The amount of interest from federal funds sold and purchased and from securities purchased under resale agreements and securities sold under repurchase agreements attributable to this state and included in the numerator is determined by multiplying the amount of those funds and securities described in Subsection (3)(m)(iii)(A) by a fraction, the numerator of which is the gross income from those funds and securities properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the gross income from all those funds and securities.

(C) The amount of interest, dividends, gains and other income from trading assets and activities, including assets and activities in the matched book and arbitrage book and foreign currency transactions, but excluding amounts described in Subsections (3)(m)(v)(A) or (B), attributable to this state and included in the numerator is determined by multiplying the amount described in Subsection (3)(m)(iii)(B) by a fraction, the numerator of which is the gross income from those trading assets and activities properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the gross income from all those assets and activities.

(vi) If the taxpayer elects or is required by the Tax Commission to use the method set forth in Subsection (3)(m)(v), the taxpayer shall use this method on all subsequent returns unless the taxpayer receives prior permission from the Tax Commission to use, or the Tax Commission requires, a different method.

(vii) The taxpayer shall have the burden of proving that an investment asset or activity or trading asset or activity was properly assigned to a regular place of business outside of this state by demonstrating that the day-to-day decisions regarding the asset or activity occurred at a regular place of business outside this state. Where the day-to-day decisions regarding an investment asset or activity or trading asset or activity occur at more than one regular place of business and one regular place of business is in this state and one regular place of business is outside this state, that asset or activity shall be considered to be located at the regular place of business of the taxpayer where the investment or trading policies or guidelines with respect to the asset or activity are established. Unless the taxpayer demonstrates to the contrary, policies and guidelines shall be presumed to be established at the commercial domicile of the taxpayer.

(n) All other receipts. The numerator of the receipts factor includes all other receipts pursuant to the rules set forth in Rule R865-6F-8(9) and (10).

(o) Attribution of certain receipts to commercial domicile.

(i) Except as provided in Subsection (3)(o)(ii), all receipts that would be assigned under this section to a state in which the taxpayer is not taxable shall be included in the numerator of the receipts factor if the taxpayer's commercial domicile is in this state.

(ii)(A) If a unitary group includes one or more financial institutions, and if any member of the unitary group is subject to the taxing jurisdiction of this state, the receipts of each financial institution in the unitary group shall be included in the numerator of this state's receipts factor as provided in Subsections (3)(a) through (n) rather than being attributed to the commercial domicile of the financial institution as provided in Subsection (3)(o)(i).

(B) If a unitary group includes one or more financial institutions whose commercial domicile is in this state, and if any member of the unitary group is taxable in another state under section 59-7-305, the receipts of each financial institution in the unitary group that would be included in the numerator of the other state's receipts factor under Subsections (3)(a) through (n) may not be included in the numerator of this state's receipts factor.

(4) Property Factor.

(a) In General.

(i) For taxpayers that do not elect to include the property described in Subsections (4)(g) through (i) within the property factor, the property factor is a fraction, the numerator of which is the average value of real property and tangible personal property owned by or rented to the taxpayer that is located or used within this state during the taxable year, and the denominator of which is the average value of all that property located or used within and without this state during the taxable year.

(ii) For taxpayers that elect to include the property described in Subsections (4)(g) through (i) within the property factor, the property factor is a fraction, the numerator of which is the average value of real property and tangible personal property owned by or rented to the taxpayer that is located or used within this state during the taxable year, and the average value of the taxpayer's loans and credit card receivables that are located within this state during the taxable year, and the denominator of which is the average value of all that property located or used within and without

this state during the taxable year.

(b) Property included. The property factor shall include only property the income or expenses of which are included, or would have been included if not fully depreciated or expensed, or depreciated or expensed to a nominal amount, in the computation of the apportionable income base for the taxable year.

(c) Value of property owned by the taxpayer.

(i) For taxpayers that do not elect to include the property described in Subsections (4)(g) through (i) within the property factor, the value of real property and tangible personal property owned by the taxpayer is the original cost or other basis of that property for federal income tax purposes without regard to depletion, depreciation or amortization.

(ii) For taxpayers that elect to include the property described in Subsections (4)(g) through (i) within the property factor:

(A) The value of real property and tangible personal property owned by the taxpayer is the original cost or other basis of that property for federal income tax purposes without regard to depletion, depreciation or amortization.

(B) Loans are valued at their outstanding principal balance, without regard to any reserve for bad debts. If a loan is charged-off in whole or in part for federal income tax purposes, the portion of the loan charged off is not outstanding. A specifically allocated reserve established pursuant to regulatory or financial accounting guidelines that is treated as charged-off for federal income tax purposes shall be treated as charged-off for purposes of this rule.

(C) Credit card receivables are valued at their outstanding principal balance, without regard to any reserve for bad debts. If a credit card receivable is charged-off in whole or in part for federal income tax purposes, the portion of the receivable charged-off is not outstanding.

(d) Average value of property owned by the taxpayer. The average value of property owned by the taxpayer is computed on an annual basis by adding the value of the property on the first day of the taxable year and the value on the last day of the taxable year and dividing the sum by two.

(i) If averaging on this basis does not properly reflect average value, the Tax Commission may require averaging on a more frequent basis, or the taxpayer may elect to average on a more frequent basis.

(ii) When averaging on a more frequent basis is required by the Tax Commission or is elected by the taxpayer, the same method of valuation must be used consistently by the taxpayer with respect to property within and without this state and on all subsequent returns unless the taxpayer receives prior permission from the Tax Commission to use a different method, or the Tax Commission requires a different method of determining average value.

(e) Average value of real property and tangible personal property rented to the taxpayer.

(i) The average value of real property and tangible personal property that the taxpayer has rented from another and are not treated as property owned by the taxpayer for federal income tax purposes, shall be determined annually by multiplying the gross rents payable during the taxable year by eight.

(ii) If the use of the general method described in this subsection results in inaccurate valuations of rented property, any other method that properly reflects the value may be adopted by the Tax Commission or by the taxpayer when approved in writing by the Tax Commission. Once approved, that other method of valuation must be used on all subsequent returns unless the taxpayer receives prior approval from the Tax Commission to use a different method, or the Tax Commission requires a different method of valuation.

(f) Location of real property and tangible personal

property owned or rented to the taxpayer.

(i) Except as described in Subsection (4)(f)(ii), real property and tangible personal property owned by or rented to the taxpayer are considered located within this state if they are physically located, situated, or used within this state.

(ii) Transportation property is included in the numerator of the property factor to the extent that the property is used in this state.

(A) The extent an aircraft will be deemed to be used in this state and the amount of value that shall be included in the numerator of this state's property factor is determined by multiplying the average value of the aircraft by a fraction, the numerator of which is the number of landings of the aircraft in this state and the denominator of which is the total number of landings of the aircraft everywhere.

(B) If the extent of the use of any transportation property within this state cannot be determined, the property will be deemed to be used wholly in the state in which the property has its principal base of operations.

(C) A motor vehicle will be deemed to be used wholly in the state in which it is registered.

(g) Location of Loans.

(i) A loan is considered located within this state if it is properly assigned to a regular place of business of the taxpayer within this state.

(ii) A loan is properly assigned to the regular place of business with which it has a preponderance of substantive contacts. A loan assigned by the taxpayer to a regular place of business without the state shall be presumed to have been properly assigned if:

(A) the taxpayer has assigned, in the regular course of its business, the loan on its records to a regular place of business consistent with federal or state regulatory requirements;

(B) the assignment on its records is based upon substantive contacts of the loan to the regular course of business; and

(C) the taxpayer uses the records reflecting assignment of loans for the filing of all state and local tax returns for which an assignment of loans to a regular place of business is required.

(iii) The presumption of proper assignment of a loan provided in Subsection (4)(g)(ii) may be rebutted upon a showing by the Tax Commission, supported by a preponderance of the evidence, that the preponderance of substantive contacts regarding the loan did not occur at the regular place of business to which it was assigned on the taxpayer's records. When the presumption has been rebutted, the loan shall then be located within this state if:

(A) the taxpayer had a regular place of business within this state at the time the loan was made; and

(B) the taxpayer fails to show, by a preponderance of the evidence, that the preponderance of substantive contacts regarding the loan did not occur within this state.

(iv) In the case of a loan assigned by the taxpayer to a place without this state that is not a regular place of business, it shall be presumed, subject to rebuttal by the taxpayer on a showing supported by the preponderance of the evidence, that the preponderance of substantive contacts regarding the loan occurred within this state if, at the time the loan was made the taxpayer's commercial domicile, as defined in this rule, was within this state.

(v) To determine the state in which the preponderance of substantive contacts relating to a loan have occurred, the facts and circumstances regarding the loan at issue shall be reviewed on a case-by-case basis, and consideration shall be given to activities such as the solicitation, investigation, negotiation, approval, and administration of the loan.

(A) Solicitation. Solicitation is either active or passive.

(I) Active solicitation occurs when an employee of the taxpayer initiates the contact with the customer. The activity is located at the regular place of business at which the taxpayer's employee is regularly connected or working out of, regardless of where the services of the employee were actually performed.

(II) Passive solicitation occurs when the customer initiates the contact with the taxpayer. If the customer's initial contact was not at a regular place of business of the taxpayer, the regular place of business, if any, where the passive solicitation occurred is determined by the facts in each case.

(B) Investigation. Investigation is the procedure whereby employees of the taxpayer determine the credit-worthiness of the customer as well as the degree of risk involved in making a particular agreement. The activity is located at the regular place of business at which the taxpayer's employees are regularly connected or working out of, regardless of where the services of those employees were actually performed.

(C) Negotiation. Negotiation is the procedure whereby employees of the taxpayer and its customer determine the terms of the agreement, such as amount, duration, interest rate, frequency of repayment, currency denomination, and security required. The activity is located at the regular place of business at which the taxpayer's employees are regularly connected or working out of, regardless of where the services of those employees were actually performed.

(D) Approval. Approval is the procedure whereby employees or the board of directors of the taxpayer make the final determination whether to enter into the agreement.

(I) The activity is located at the regular place of business at which the taxpayer's employees are regularly connected or working out of, regardless of where the services of those employees were actually performed.

(II) If the board of directors makes the final determination, the activity is located at the commercial domicile of the taxpayer.

(E) Administration. Administration is the process of managing the account.

(I) Administration includes bookkeeping, collecting the payments, corresponding with the customer, reporting to management regarding the status of the agreement and proceeding against the borrower or the security interest if the borrower is in default.

(II) The activity is located at the regular place of business that oversees this activity.

(h) Location of credit card receivables. For purposes of determining the location of credit card receivables, credit card receivables shall be treated as loans and shall be subject to the provisions of Subsection (4)(g).

(i) Period for which properly assigned loan remains assigned. A loan that has been properly assigned to a state shall, absent any change of material fact, remain assigned to that state for the length of the original term of the loan. Thereafter, the loan may be properly assigned to another state if the loan has a preponderance of substantive contact to a regular place of business in that state.

(j) Each taxpayer shall make an initial election on whether to include the property described in Subsections (4)(g) through (i) within the property factor. The initial election is the election made or the filing position taken on the first return filed after the effective date of this rule. This election is irrevocable for a period of three years from the time the initial election is made, except in the case where a substantial ownership change occurs and commission approval is obtained to change the election. After the initial three-year period, the election may be revocable only with the prior approval of the commission and shall require the showing of a significant change in circumstance.

(5) Payroll factor.

(a) In general. The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the taxable year by the taxpayer for compensation and the denominator of which is the total compensation paid by the taxpayer both within and without this state during the taxable year. The payroll factor shall include only that compensation included in the computation of the apportionable income tax base for the taxable year.

(b) Compensation relating to nonbusiness income and independent contractors. The compensation of any employee for services or activities connected with the production of nonbusiness income, and payments made to any independent contractor or any other person not properly classifiable as an employee, shall be excluded from both the numerator and denominator of this factor.

(c) When compensation paid in this state. Compensation is paid in this state if any one of the following tests, applied consecutively, is met:

(i) The employee's services are performed entirely within this state.

(ii) The employee's services are performed both within and without the state, but the service performed without the state is incidental to the employee's service within the state. The term "incidental" means any service that is temporary or transitory in nature, or that is rendered in connection with an isolated transaction.

(iii) If the employee's services are performed both within and without this state, the employee's compensation will be attributed to this state:

(A) if the employee's principal base of operations is within this state;

(B) if there is no principal base of operations in any state in which some part of the services are performed, but the place from which the services are directed or controlled is in this state; or

(C) if the principal base of operations and the place from which the services are directed or controlled are not in any state in which some part of the service is performed but the employee's residence is in this state.

(6) This rule is effective for taxable years beginning after December 31, 1997.

### **R865-6F-33. Taxation of Telecommunications Pursuant to Utah Code Ann. Sections 59-7-302 through 59-7-321.**

(1) Definitions.

(a) "Call" means a specific telecommunications transmission as described in Subsection (1)(f).

(b) "Channel termination point" means the point at which information can enter or leave the telecommunications network.

(c) "Communications channel" means a communications path, which can be one-way or two-way, depending on the channel, between two or more points. The path may be designed for the transmission of signals representing human speech, digital or analog data, facsimile, or images.

(d) "Outerjurisdictional property" means tangible personal property, such as orbiting satellites, undersea transmission cables and the like, that are owned or rented by the taxpayer and used in a telecommunications business, but that are not physically located in any particular state.

(e) "Private telecommunications service" means a dedicated telephone service that entitles the subscriber to the exclusive or priority use of a communications channel or groups of communications channels from one or more channel termination points to another channel termination point.

(f) "Telecommunications" means the electronic transmission of voice, data, image, and other information

through the use of any medium such as wires, cables, electromagnetic waves, light waves, or any combination of those or similar media now in existence or that might be devised, but telecommunications does not include the information content of any such transmission.

(g) "Telecommunications service" means providing telecommunications, including services provided by telecommunication service resellers, for a charge and includes telephone service, telegraph service, paging service, personal communication services and mobile or cellular telephone service, but does not include electronic information service or Internet access service.

(2) Apportionment and Allocation.

(a) A corporation engaged in the business of telecommunications that is taxable both within and without this state, shall allocate and apportion its net income as provided in this rule. All items of nonbusiness income shall be allocated pursuant to the provisions of Section 59-7-306.

(b) All business income shall be apportioned to this state by multiplying that income by the apportionment percentage. The apportionment percentage is determined by adding the taxpayer's receipts factor, property factor and payroll factor and dividing that sum by three. If one of the factors is missing, the remaining factors are added and that sum is divided by two. If two of the factors are missing, the remaining factor is the apportionment percentage. A factor is missing if both its numerator and denominator are zero.

(c) The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(3) and (6). Except as otherwise provided in this rule, the property factor shall be determined in accordance with R865-6F-8(7), the payroll factor in accordance with R865-6F-8(8) and the sales factor in accordance with R865-6F-8(9).

(3)(a) Property Factor.

(b) Outerjurisdictional property that is used by a taxpayer in providing a telecommunications service shall be attributed to this state based on the ratio of property within this state used in providing that service, to property everywhere used in providing the service, exclusive of property not located in any state. The term "property" as used herein refers to property includable in the property factor of the Utah apportionment fraction as defined in Tax Commission rule R865-6F-8(7).

(4) Sales Factor Numerator.

(a) The following sales and receipts from telecommunications service other than interstate or international private telecommunications service, shall be included in the Utah sales and receipts numerator:

(i) receipts derived from charges for providing telephone "access" from a location within Utah. "Access" means that a call can be made or received from a point within this state. An example of this type of receipt is a monthly subscriber fee billed with reference to equipment located in Utah;

(ii) receipts derived from charges for unlimited calling privileges, if the charges are billed by reference to equipment located in Utah;

(iii) receipts derived from charges for individual toll calls that originate and terminate in Utah;

(iv) receipts derived from charges for individual toll calls that either originate or terminate in Utah and are billed by reference to a customer or equipment located in Utah;

(v) receipts derived from any other charges if the charges are not includable in another state's sales factor numerator under that state's law, and the customer's billing address is in Utah.

(b) Gross receipts derived from providing interstate and international private telecommunications services shall be determined as follows:

(i) If the segment of the interstate or international channel between each termination point is separately billed, 100 percent of the charge imposed at each termination point in this state and for service in this state between those points is includable in the Utah sales factor. In addition, 50 percent of the charge imposed for service between a channel termination point outside this state and a point inside the state shall be included in the Utah sales factor. For purposes of this paragraph, termination points shall be measured by the nearest termination point inside the state to the first termination point outside the state.

(ii) If each segment of the interstate or international channel is not separately billed, the Utah sales shall be the same portion of the interstate or international channel charge that the number of channel termination points within this state bears to the total number of channel termination points within and without this state.

**R865-6F-34. Qualified Subchapter S Subsidiaries Pursuant to Utah Code Ann. Section 59-7-701.**

A. "Qualified subchapter S subsidiary" means a qualified subchapter S subsidiary as defined in Section 1361(b), Internal Revenue Code.

B. For purposes of Title 59, Chapter 7, Part 7, a qualified subchapter S subsidiary shall be treated in the same manner as it is treated for federal tax purposes under Section 1361(b), Internal Revenue Code.

C. An S corporation that owns one or more qualified subchapter S subsidiaries must take into account the activities of each qualified subchapter S subsidiary in determining whether the S corporation parent is doing business in Utah. For purposes of this determination, all of a subsidiary's activities will be attributed to the S corporation parent.

D. For purposes of Title 59, Chapter 7, Part 7:

1. the Utah property, payroll, and sales of each qualified subchapter S subsidiary shall be added, respectively, to the Utah property, payroll, and sales of the S corporation parent to determine the numerators of the property, payroll, and sales factors; and

2. the total property, payroll, and sales of each qualified subchapter S subsidiary shall be added, respectively, to the total property, payroll, and sales of the S corporation parent to determine the denominators of the property, payroll, and sales factors.

E. Except as provided in D., the apportionment fraction for an S corporation shall be calculated based on Sections 59-7-311 through 59-7-321 and as provided in Tax Commission rule R865-6F-8.

**R865-6F-35. S Corporation Determination of Tax Pursuant to Utah Code Ann. Section 59-7-703.**

(1) For purposes of Section 59-7-703(2)(b)(i), "items of income or loss from Schedule K of the 1120S federal form" shall be calculated by:

(a) adding back to the line on the Schedule K labeled "Income/loss reconciliation" the amount included on that schedule for:

(i) charitable contributions; and

(ii) total foreign taxes paid or accrued.

(b) If the S corporation was not required to complete the line labeled "Income/loss reconciliation" on the Schedule K, a pro forma calculation of the amounts for charitable contributions and foreign taxes paid or accrued, and of the amount that would have been entered on the "Income/loss reconciliation" line shall be used for purposes of this rule.

(2) The amount that the S corporation shall withhold for nonresident shareholders shall be computed as follows:

(a) The deduction shall be equal to 15 percent of the Utah income attributable to nonresident shareholders.

(b) The deduction in Subsection (2)(a) shall be allowed in place of a standard deduction, itemized deductions, personal exemptions, federal tax determined for the same period, or any other deductions.

(3) The tax shall be computed using the maximum Utah individual income tax rate applied to the combined nonresident shareholders' share of the S corporation's income after deduction of the amount allowed under Subsection (2).

(4) An S corporation with nonresident shareholders shall complete Schedule N of form TC-20S, and shall provide the following information for each nonresident shareholder:

- (a) name;
- (b) social security number;
- (c) percentage of S corporation held; and
- (d) amount of Utah tax paid or withheld on behalf of that shareholder.

**R865-6F-36. Taxation of Registered Securities or Commodities Broker or Dealer Pursuant to Utah Code Ann. Sections 59-7-302 through 59-7-321.**

(1) Definitions.

(a) "Brokerage commission income" means income earned by a registered securities or commodities broker or dealer from the purchase and sale of securities or commodities by the broker or dealer:

- (i) for which the broker or dealer does not take title; and
- (ii) as an agent for a customer's account.

(b) "Commodity" is as defined in Section 475(e)(2), Internal Revenue Code.

(c) "Principal transaction" means a transaction where the registered securities or commodities broker or dealer acts as a principal or underwriter for the broker or dealer's own account, rather than as an agent for the customer.

(d) "Registered securities or commodities broker or dealer" means a corporation registered as a broker or dealer with the Securities and Exchange Commission or the Commodities Futures Trading Commission.

(e) "Security" is as defined in Section 475(c)(2), Internal Revenue Code.

(f) "Securities or commodities used to produce income" means securities or commodities that are purchased and held by a registered securities or commodities broker or dealer as a principal or underwriter for resale to its customers.

(2) Apportionment and allocation.

(a) A registered securities or commodities broker or dealer whose business activity is taxable both within and without this state shall allocate and apportion its net income as provided in this rule. All items of nonbusiness income shall be allocated pursuant to the provisions of Section 59-7-306.

(b) The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(3) and (6). Except as otherwise provided in this rule, the property factor shall be determined in accordance with R865-6F-8(7), the payroll factor in accordance with R865-6F-8(8), and the sales factor in accordance with R865-6F-8(9).

(3) Property factor.

(a) The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used, or available for use, within this state during the taxable year, plus the average value of securities or commodities used to produce income during the taxable year that are held for resale exclusively through a branch, office, or other place of business in this state. The denominator is the average value of the total of the taxpayer's real and tangible personal property owned or rented and used within and without this state during the taxable year, plus the average value of all securities or commodities used to produce income during the taxable year.

(b) Securities or commodities used to produce income shall be valued at original cost.

(4) Sales factor.

(a) The sales factor is a fraction, the numerator of which is the total revenue that is derived from transactions and activities in the regular course of the taxpayer's trade or business within this state during the taxable year. The denominator is the total revenue that is derived from transactions and activities in the regular course of the taxpayer's trade or business within and without this state during the taxable year.

(b) Brokerage commission income shall be included in the denominator of the sales factor. Brokerage commission income shall be included in the numerator of the sales factor if the customer that is paying the commission is located in Utah. A customer is located in Utah if the mailing address of the customer as it appears in the broker or dealer's records is in Utah.

(c) Gross receipts from principal transactions shall be included in the denominator of the sales factor. Gross receipts from principal transactions shall be included in the numerator of the sales factor if the sale is made through a branch, office, or other place of business in Utah. Gross receipts from principal transactions shall be determined after the deduction of any cost incurred by the taxpayer to acquire the securities or commodities.

(d) Other gross receipts such as margin interest on brokerage accounts and account maintenance fees shall be included in the denominator of the sales factor, and, if the customer that is paying the amounts or fees is located in Utah based on the customer address as it appears in the broker or dealer's records, in the numerator of the sales factor.

**R865. Tax Commission, Auditing.****R865-12L. Local Sales and Use Tax.****R865-12L-1. Local Sales and Use Tax Rules Pursuant to Utah Code Ann. Section 59-12-205.**

A. All rules made pursuant to Title 59, Chapter 12, Part 1, state sales and use taxes, shall apply to the local sales and use tax.

**R865-12L-3. Tax Collection Schedule Pursuant to Utah Code Ann. Section 59-12-204.**

A. A vendor responsible for collecting local sales or use tax in addition to the state tax may use a schedule furnished by the Tax Commission to determine the amount of tax to be collected.

B. For amounts not shown on the schedule, tax may be computed to the nearest cent.

C. The bracket schedule is designed to under collect the tax on some sales within a given bracket and over collect the tax on other sales, in order that the vendor can be reimbursed for the approximate amount of tax that is required to be remitted to the Tax Commission.

**R865-12L-4. Filing of Returns Pursuant to Utah Code Ann. Section 59-12-204.**

A. Every person responsible for the collection of local sales and use tax is required to make a combined state and local sales and use tax return to the Tax Commission.

B. All provisions pertaining to filing returns for state sales and use tax also apply to filing returns for local sales and use tax.

**R865-12L-5. Place of Sale Pursuant to Utah Code Ann. Section 59-12-207.**

(1) All retail sales shall be deemed to occur at the place of business of the retailer.

(2) It is immaterial that delivery of the tangible personal property is made in a county or municipality other than that in which the retailer's place of business is located. There is no exemption from local sales or use tax on the basis of residence of or use by the purchaser in a county other than that in which the sale is made.

**R865-12L-6. Place of Transaction Pursuant to Utah Code Ann. Section 59-12-207.**

A. The sale of merchandise shipped from outside Utah direct to a consumer in any county in Utah that has adopted the Uniform Local Sales and Use Tax Law is subject to local use tax, regardless of where the order was taken.

B. If a vendor sells merchandise that is shipped from outside Utah direct to a consumer in a county in Utah that has adopted the uniform local tax law, and if the vendor engages in solicitation or representation in that county or has a place of business or property located in that county, then the vendor is required to collect and remit local use tax in addition to the state use tax.

C. Vendors who sell merchandise that is shipped from outside Utah direct to a consumer in any county in Utah that has adopted the uniform local tax law but who are not required to collect the local use tax under the criteria in the preceding paragraph are nevertheless requested to collect and remit local use tax in addition to state use tax on a voluntary basis in the same manner as though they were required to do so.

D. If a vendor who is not required to collect local use tax on shipments into counties that have adopted the uniform local tax law does not collect local tax but collects the state tax only, then the consumer remains liable for the local use tax and must remit the local use tax direct to the Tax Commission even though the state tax has been collected by

the vendor.

E. Purchases subject to use tax are defined as those purchases made by ultimate consumers for their own storage, use, or consumption in Utah when the merchandise is shipped from outside Utah direct to the purchaser in Utah and on which the vendor did not charge Utah use tax. Local use tax applies to purchases subject to use tax, as defined above, that are stored, used, or consumed in a county that has adopted the uniform local tax law.

F. Taxpayers having one or more places of business in Utah shall report all purchases subject to use tax, as defined above, according to the location of the place of business at which the tangible personal property is initially delivered. If initially delivered within a county that has adopted the uniform local tax law, local use tax applies, regardless of whether the goods are later transferred to a different location.

**R865-12L-9. Determination of Point of Sale or Use for Sellers and Purchasers Who Make Sales or Purchases From a Location Other Than a Fixed Place of Business in Utah Pursuant to Utah Code Ann. Section 59-12-207.**

A. "Combined sales tax rate" means the sales tax rate that is the sum of the state sales and use tax rate provided under Title 59, Chapter 12, Part 1, the local sales and use tax rate provided under Title 59, Chapter 12, Part 2, and the rates of any of the following county or municipal taxes that have been imposed in the locality:

1. Title 59, Chapter 12, Part 5, Public Transit Tax;
2. Title 59, Chapter 12, Part 7, County Option Funding for Botanical, Cultural, and Zoological Organizations;
3. Title 59, Chapter 12, Part 8, Funding for Rural County Hospitals;
4. Title 59, Chapter 12, Part 10, Highways Tax; and
5. Title 59, Chapter 12, Part 11, County Option Sales and Use Tax.

B. The following transactions shall be reported on Tax Commission form TC-71, Schedule B/D ("Schedule B/D"):

1. sales of goods from vending machines if the vending machines are situated at multiple locations;
2. sales made from a location in Utah other than a fixed place of business in Utah;
3. sales of tangible personal property shipped into the state by vendors that have established Utah sales tax nexus;
4. purchases of tangible personal property for storage, use, or consumption by a purchaser that is required to file a Utah sales and use tax return but only if:
  - a) the initial delivery of the tangible personal property is from an inventory located outside the state and the storage, use, or consumption of the tangible personal property occurs at a location other than at a fixed place of business in Utah; and
  - b) Utah use tax was not collected on the purchase of the tangible personal property described in 4.a).

C. A vendor that makes sales from a fixed location in Utah as well as sales that must be filed on Schedule B/D pursuant to B., may not include on the Schedule B/D those sales the vendor makes from a fixed place of business in Utah.

D. Sales or purchases required to be included on Schedule B/D pursuant to B. shall be reported on the basis of:

1. the county in which they are made, but only if none of the cities within that county has a combined sales tax rate that differs from the county combined sales tax rate; or
2. the city in which they are made, but only if that city has a combined sales tax rate that differs from the county combined sales tax rate.

E. Revenues reported to the Tax Commission on Schedule B/D pursuant to B. shall be allocated to points of sale or use within the reported county based on the proportion

of taxable sales or uses attributable to fixed places of business within a particular locality in the county compared to the taxable sales or uses attributable to fixed places of business throughout the county.

F. Revenues allocated to points of sale or use under E. shall be distributed to counties, cities, and towns within the state according to the provisions of Title 59, Chapter 12, Sales and Use Tax Act.

**R865-12L-11. Isolated or Occasional Sale of a Vehicle Pursuant to Utah Code Ann. Section 59-12-204.**

A. The sale of any vehicle subject to the registration laws of this state by anyone other than a licensed dealer shall be subject to the local sales or use tax if the purchaser's address is within any county or municipality which has in effect a local sales and use tax law. The purchaser shall be liable for payment of state and local taxes at the time of registration of the vehicle.

B. The foregoing provision in no way applies to sales of vehicles made by licensed dealers in Utah. All sales of vehicles made by dealers shall be subject to the same laws as sales by any other retailers.

**R865-12L-12. Leases and Rentals Pursuant to Utah Code Ann. Section 59-12-204.**

A. Local sales tax applies to all lease and rental charges where the tangible personal property leased or rented is delivered from a lessor's place of business that is located in a county that has adopted The Uniform Local Sales and Use Tax Law. The local sales tax accrues to the county or city from which the property was delivered, regardless of where in Utah such property is used. The lessor is required to collect and remit both local and state sales tax.

B. Lessors who lease or rent tangible personal property that is shipped from outside Utah direct to a lessee in Utah are required to collect local use tax on lease charges for tangible personal property used in a county that has adopted the uniform local tax law, regardless of whether the lessor has a place of business in that county or in Utah. The presence of the lessor's property in a county that has adopted the uniform local tax law imposes the liability upon the lessor to collect and remit local use tax in addition to state use tax. The local use tax on rental and lease charges accrues to the county in which the tangible personal property is being used. With motor vehicles leased in Utah by a lessor who has no place of business in Utah, the local tax will apply according to the Utah address of the lessee, and the tax is to be collected by the lessor and reported on that basis.

**R865-12L-13. Repairmen and Servicemen Pursuant to Utah Code Ann. Section 59-12-204.**

A. Charges for repairs, renovations, or other taxable services to tangible personal property are assigned to the office or place of business out of which the repairman or serviceman works.

B. If a repairman or serviceman works out of a place of business located in a county that has adopted The Uniform Local Sales and Use Tax Law, the total charge for taxable services to tangible personal property is subject to both state and local sales tax, regardless of where in Utah the service or labor is performed.

**R865-12L-14. Quarterly List of Local Sales and Use Tax Distributions Pursuant to Utah Code Ann. Section 59-12-109.**

A. Upon receipt of a written request from the head of a political subdivision of the state of Utah, the Tax Commission shall periodically furnish the governing body quarterly

listings of local sales/use taxes remitted by businesses located within the political subdivision.

1. After receiving each listing, the governing body of the political subdivision shall advise the Tax Commission within 90 days:

(a) that the listing is correct, or alternatively  
(b) make corrections regarding firms omitted from the list or firms listed but not doing business in their taxing jurisdiction.

2. Once the Tax Commission receives notification from a political subdivision that the listing is correct, or corrects any errors disclosed on the list, subsequent distributions will be based on that listing as verified or adjusted.

3. If the governing body of the political subdivision fails to notify the Tax Commission of any omitted businesses within the ninety-day period, the political subdivision is precluded from making any claims based upon such omission and the Tax Commission shall not be held liable for any such omissions.

B. The information furnished is confidential data. No official or employee of a municipality or county shall use this local sales and use tax information for other than tax or license purposes. The written request for informational listings must acknowledge these confidentiality provisions and accept responsibility for safeguarding the listings.

**R865-12L-16. Notification to Tax Commission Upon Change in the Election to Collect County or Municipality Imposed Transient Room Taxes Pursuant to Utah Code Ann. Sections 59-12-301 and 59-12-355.**

A. If a county or municipality that has imposed a transient room tax elects to change the responsibility for collecting the transient room tax from the local government entity to the Tax Commission, or from the Tax Commission to the local government entity, the change in the collection shall take place:

1. on the first day of a calendar quarter; and  
2. after a 90-day period beginning on the date the Tax Commission receives notice from the local government entity.

B. Notices required under A. should be directed to the Revenue and Distribution Director, Administration Division, Utah State Tax Commission, 210 North 1950 West, Salt Lake City, Utah 84134.

**R865-12L-17. Procedures for Administration of the Tourism, Recreation, Cultural, and Convention Facilities Tax Pursuant to Utah Code Ann. Sections 59-12-602 and 59-12-603.**

A. Definitions

1. "Primary business" means the source of more than 50 percent of the revenues of the retail establishment. In the case of a retail establishment with more than two lines of business, primary business means the line of business which generates the highest revenues when compared with the other lines of business.

2. "Retail establishment" means a single outlet, whether or not at a fixed location, operated by a seller. Retail establishment includes the preparation facilities of caterers, outlets that deliver the foods or beverages they prepare, and other similar sellers. A single seller engaged in multiple lines of business at one location may be deemed to be operating multiple retail establishments if the lines of business are not commonly regarded as a single retail establishment or if there are other factors indicating that the lines of business should be treated separately. The operation of concession stands by stadium owners, performers, promoters, or others with a financial interest in ticket sales or admission charges to any event shall be considered a separate line of business constituting a retail establishment.

3. "Theater" means an indoor or outdoor location for the presentation of movies, plays, or musicals.

B. If an establishment that is a restaurant under Section 59-12-602 sells prepackaged foods as incidental items with the sale of prepared foods, a tax imposed under Section 59-12-603(1)(b) applies to the prepackaged food as well.

C. For purposes of collecting the tax imposed on the sale of prepared foods and beverages, the tax will attach in the county in which the food or beverage is served.

D. A seller that sells foods or beverages prepared for immediate consumption and is uncertain whether it is a restaurant shall make application, in letter form, for exemption with the Tax Commission indicating the circumstances that may qualify it for an exemption. A single application may be filed by a seller for multiple retail establishments if the operations of all of the retail establishments are similar.

**R865-12L-18. Participation of Counties, Cities, and Towns in Determination, Administration, Operation, and Enforcement of Local Option Sales and Use Tax Pursuant to Utah Code Ann. Sections 59-1-403, 59-12-202, 59-12-204, and 59-12-205.**

A. The Tax Commission has exclusive authority, subject to the provisions of B. to determine taxpayer liability for the local option sales and use tax, and to administer, operate, and enforce the provisions of Title 59, Chapter 12, Utah Code Ann., including the provisions of Section 59-12-201, et seq. The Tax Commission shall:

1. ascertain, assess, and collect any sales and use tax imposed pursuant to Title 59, Chapter 12;
2. determine taxpayer liability for the sales and use tax;
3. represent the counties', cities', and towns' interests in all administrative proceedings commenced pursuant to Title 63, Chapter 46b, or otherwise, involving the state or local option sales and use tax;
4. adjudicate all administrative proceedings commenced pursuant to Title 63, Chapter 46b, or otherwise, involving the state or local option sales and use tax.

B. Counties, cities, and towns shall have access to records and information on file with the Tax Commission, and have notice and such rights to intervene in or to appeal from a proposed final agency action of the Tax Commission as follows:

1. In any case in which the Tax Commission, following a formal adjudicative proceeding commenced pursuant to Title 63, Chapter 46b, Utah Code Ann., takes final agency action that would reduce the amount of sales and use tax liability alleged in the notice of deficiency, the Tax Commission will provide notice of a proposed agency action to all qualified counties, cities, and towns.

a) A county, city, or town is a qualified county, city, or town for purposes of B.1. above if the proposed final agency action reduces the local option sales and use tax distributable to that individual county, city, or town by more than \$10,000 below the amount of that tax that would have been distributable to that county, city, or town had the notice of deficiency not been reduced.

2. Upon notification from the Tax Commission of proposed final agency action, the authorized representative of the qualified county, city, or town has the right to review the record of the formal hearing and all Tax Commission records relating to the proposed final agency action in accordance with the provisions of Part F of this rule.

3. Within ten days following receipt of notice of a proposed final agency action, a qualified county, city, or town may intervene in the Tax Commission proceeding by filing a notice of intervention with the Tax Commission.

4. Within 20 days after filing a notice of intervention, if

a qualified county, city, or town objects to the proposed final agency action in whole or in part, it will file with the Tax Commission a petition for reconsideration setting out all facts, arguments and authorities in support of its contention that the proposed final agency action is erroneous and shall serve copies of the petition on the taxpayer and the appropriate Tax Commission division.

5. The taxpayer and the appropriate Tax Commission division may each file a response to the petition for reconsideration filed by a qualified county, city, or town within 20 days of receipt of the petition for reconsideration.

6. After consideration of the petition for reconsideration and any response, and any further proceedings it deems appropriate, the Tax Commission may affirm, modify, or amend its proposed final agency action. The taxpayer and any qualified county, city, or town that has filed a petition for reconsideration may appeal the final agency action in accordance with applicable statutes and rules.

C. Counties, cities, and towns shall only have such notice of and such rights to intervene in or to appeal from a proposed final agency action of the Tax Commission in sales and use tax cases as are provided herein.

D. Counties, cities, and towns are subject to the confidentiality provisions of Section 59-1-403(1) and (5) and standards as set forth in Section 59-2-206 concerning all Tax Commission taxpayer sales and use tax records to which they are granted access.

E. Counties, cities, and towns shall be provided such information regarding sales and use tax collections as is necessary to verify that the local sales and use tax revenues collected by the Tax Commission are distributed to each county, city, and town in accordance with Sections 59-12-205 and 59-12-206, including access to the Tax Commission's reports of vendor sales, sales tax distribution reports and breakdown of local revenues.

F. When a county, city, or town objects to a proposed final agency action of the Tax Commission pursuant to the provisions of Part A, of this rule, the authorized representative of a county, city, or town shall, subject to the confidentiality provisions of Part D, have access to such Tax Commission sales and use tax records as is necessary for the county, city, or town to contest the Tax Commission's final agency action.

**R865. Tax Commission, Auditing.****R865-19S. Sales and Use Tax.****R865-19S-1. Sales and Use Taxes Distinguished Pursuant to Utah Code Ann. Section 59-12-103.**

A. The tax imposed on amounts paid or charged for transactions under Title 59, Chapter 12 is a:

1. sales tax, if the tax is collected and remitted by a seller on the seller's in-state or out-of-state sales; or
2. use tax, if the tax is remitted by a purchaser.

B. The two taxes are compensating taxes, one supplementing the other, but both cannot be applicable to the same transaction. The rate of tax is the same.

**R865-19S-2. Nature of Tax Pursuant to Utah Code Ann. Section 59-12-103.**

A. The sales and use taxes are transaction taxes imposed upon certain retail sales and leases of tangible personal property, as well as upon certain services.

B. The tax is not upon the articles sold or furnished, but upon the transaction, and the purchaser is the actual taxpayer. The vendor is charged with the duty of collecting the tax from the purchaser and of paying the tax to the state.

**R865-19S-4. Collection of Tax Pursuant to Utah Code Ann. Section 59-12-107.**

A. An invoice or receipt issued by a vendor shall show the sales tax collected as a separate item on the invoice or receipt.

B. If an invoice or receipt issued by a vendor does not show the sales tax collected as required in A., sales tax will be assessed on the vendor based on the amount of the invoice or receipt.

C. A vendor that collects an excess amount of sales or use tax must either refund the excess to the purchasers from whom the vendor collected the excess or remit the excess to the Commission.

1. A vendor may offset an undercollection of tax on sales against any excess tax collected in the same reporting period.

2. A vendor may not offset an underpayment of tax on the vendor's purchases against an excess of tax collected.

**R865-19S-7. Sales Tax License Pursuant to Utah Code Ann. Section 59-12-106.**

A.1. A separate sales and use tax license must be obtained for each place of business, but where more than one place of business is operated by the same person, one application may be filed giving the required information about each place of business.

2. Each license must be posted in a conspicuous place in the place of business for which it is issued.

B. The holder of a license issued under Section 59-12-106 shall notify the commission:

1. of any change of address of the business;
2. of a change of character of the business, or
3. if the license holder ceases to do business.

C. The commission may determine that a person has ceased to do business or has changed that person's business address if:

1. mail is returned as undeliverable as addressed and unable to forward;
2. the person fails to file four consecutive monthly or quarterly sales tax returns, or two consecutive annual sales tax returns;
3. the person fails to renew its annual business license with the Department of Commerce; or
4. the person fails to renew its local business license.

D. If the requirements of C. are met, the commission shall notify the license holder that the license will be

considered invalid unless the license holder provides evidence within 15 days that the license should remain valid.

E. A person may request the commission to reopen a sales and use tax license that has been determined invalid under D.

F. The holder of a license issued under Section 59-12-106 shall be responsible for any sales and use tax, interest, and penalties incurred under that license whether those taxes and fees are incurred during the time the license is valid or invalid.

**R865-19S-12. Filing of Returns Pursuant to Utah Code Ann. Sections 59-12-107 and 59-12-118.**

A. Every person responsible for the collection of the tax under the act shall file a return with the Tax Commission whether or not sales tax is due.

B. If the due date for a return falls on a Saturday, Sunday, or legal holiday, the return will be considered timely filed if it is received on the next business day.

C. If a return is transmitted through the United States mail, a legible cancellation mark on the envelope, or the date of registration of certification thereof by a United States post office, is considered the date the return is filed.

D. Sales and use tax returns shall be filed and paid monthly or quarterly with the following exceptions:

1. New businesses that expect annual sales and use tax liability less than \$1,000, shall be assigned an annual filing status unless quarterly filing status is requested.

2.a) Businesses currently assigned a quarterly filing status, in good standing and reporting less than \$1,000 in tax for the preceding calendar year may be changed to annual filing status.

b) The Tax Commission will notify businesses, in writing, if their filing status is changed to annual.

3.a) Businesses assigned an annual filing status reporting in excess of \$1,000 for a calendar year, will be changed to quarterly filing status.

b) The Tax Commission will notify businesses, in writing, if their filing status is changed to quarterly.

E. Annual returns are due on January 31 following the calendar year end. The Tax Commission may revoke the annual filing status if sales tax collections are in excess of \$1,000 or as a result of delinquent payment history.

**R865-19S-13. Confidential Nature of Returns Pursuant to Utah Code Ann. Section 59-12-109.**

A. The returns filed are confidential and the information contained therein will not be divulged by the Tax Commission, its agents, clerks, or employees except in accordance with judicial order or upon proper application of a federal, state, or local agency. The returns will not be produced in any court proceeding except where such proceeding directly involves provisions of the sales tax act.

B. However, any person or his duly authorized representative who files returns under this act may obtain copies of the same upon proper application and presentation of proper picture identification.

**R865-19S-16. Failure to Remit Excess Tax Collection Pursuant to Utah Code Ann. Section 59-12-107.**

A. The amount paid by any vendor to the Tax Commission with each return is the greater of:

1. the actual tax collections for the reporting period, or
2. the amount computed at the rates imposed by law against the total taxable sales for that period.

B. Space is available on the return forms for inserting figures and the words "excess collections," if needed.

**R865-19S-20. Basis for Reporting Tax Pursuant to Utah**

**Code Ann. Section 59-12-107.**

A. "Total sales" means the total amount of all cash, credit, installment, and conditional sales made during the period covered by the return.

B. Amounts shown on returns must include the total sales made during the period of the returns, and the tax must be reported and paid upon that basis.

C. Adjustments may be made and credit allowed for cash discounts, returned goods, and bad debts that result from sales upon which the tax has been reported and paid in full by a seller to the Tax Commission.

1. Adjustments and credits will be allowed only if the seller has not been reimbursed in the full amount of the tax except as noted in C.6.a) and can establish that fact by records, receipts or other means.

2. In no case shall the credit be greater than the sales tax on that portion of the purchase price remaining unpaid at the time the goods are returned, the account is charged off.

3. Any refund or credit given to the purchaser must include the related sales tax.

D. Tax is based upon the original price unless adjustments were made prior to the close of the reporting period in which the tax upon the sale is due. If the price upon which the tax is computed and paid is subsequently adjusted, credit may be taken against the tax due on a subsequent return.

E. If a sales tax rate change takes place prior to the reporting period when the seller claims the credit, the seller must adjust the taxable amount so that the amount of tax credited corresponds proportionally to the amount of tax originally collected.

F. Commissions to agents are not deductible under any conditions for purposes of tax computation.

**R865-19S-22. Sales and Use Tax Records Pursuant to Utah Code Ann. Section 59-12-111.**

A. Every retailer, lessor, lessee, and person doing business in this state or storing, using, or otherwise consuming in this state tangible personal property purchased from a retailer, shall keep and preserve complete and adequate records as may be necessary to determine the amount of sales and use tax for which such person or entity is liable. Unless the Tax Commission authorizes in writing an alternative method of record keeping, these records shall:

1. show gross receipts from sales, or rental payments from leases, of tangible personal property or services performed in connection with tangible personal property made in this state, irrespective of whether the retailer regards the receipts to be taxable or nontaxable;

2. show all deductions allowed by law and claimed in filing returns;

3. show bills, invoices or similar evidence of all tangible personal property purchased for sale, consumption, or lease in this state; and

4. include the normal books of account maintained by an ordinarily prudent business person engaged in such business, together with supporting documents of original entry such as: bills, receipts, invoices, and cash register tapes. All schedules or working papers used in connection with the preparation of tax returns must also be maintained.

B. Records may be microfilmed or microfiched. However, microfilm reproductions of general books of account--such as cash books, journals, voucher registers, ledgers, and like documents--are not acceptable as original records. Where microfilm or microfiche reproductions of supporting records are maintained--such as sales invoices, purchase invoices, credit memoranda and like documents--the following conditions must be met:

1. appropriate facilities must be provided for

preservation of the films or fiche for the periods required and open to examination,

2. microfilm rolls and microfiche must be systematically filed, indexed, cross referenced, and labeled to show beginning and ending numbers and to show beginning and ending alphabetical listing of documents included,

3. upon request of the Tax Commission, the taxpayer shall provide transcriptions of any information contained on microfilm or microfiche which may be required for verification of tax liability,

4. proper facilities must be provided for the ready inspection and location of the particular records, including machines for viewing and copying the records,

5. a posting reference must appear on each invoice. Credit memoranda must carry a reference to the document evidencing the original transaction. Documents necessary to support exemptions from tax liability, such as bills of lading and purchase orders, must be maintained in such order so as to relate to exempt transactions claimed.

C. Any automated data processing (ADP) tax accounting system must be capable of producing visible and legible records for verification of taxpayer's tax liability.

1. ADP records shall provide an opportunity to trace any transaction back to the original source or forward to a final total. If detailed printouts are not made of transactions at the time they are processed, the systems must have the ability to reconstruct these transactions.

2. A general ledger with source references should be prepared to coincide with financial reports for tax reporting periods. In cases where subsidiary ledgers are used to support the general ledger accounts, the subsidiary ledgers should also be prepared periodically.

3. The audit trail should be designed so that the details underlying the summary accounting data may be identified and made available to the Tax Commission upon request. The system should be so designed that supporting documents--such as sales invoices, purchase invoices, credit memoranda, and like documents--are readily available.

4. A description of the ADP portion of the accounting system shall be made available. The statements and illustrations as to the scope of operations shall be sufficiently detailed to indicate:

(a) the application being performed;

(b) the procedures employed in each application (which, for example, might be supported by flow charts, block diagrams or other satisfactory description of the input or output procedures); and

(c) the controls used to insure accurate and reliable processing and important changes, together with their effective dates, in order to preserve an accurate chronological record.

D. All records pertaining to transactions involving sales or use tax liability shall be preserved for a period of not less than three years.

E. All of the foregoing records shall be made available for examination on request by the Tax Commission or its authorized representatives.

F. Upon failure of the taxpayer, without reasonable cause, to substantially comply with the requirements of this rule, the Tax Commission may:

1. Prohibit the taxpayer from introducing in any protest or refund claim proceeding those microfilm, microfiche, ADP, or any records which have not been prepared and maintained in substantial compliance with the requirements of this rule.

2. Dismiss any protest or refund claim proceeding in which the taxpayer bases its claim upon any microfilm, microfiche, ADP, or any records which have not been prepared and maintained in substantial compliance with the

requirements of this rule.

3. Enter such other order necessary to obtain compliance with this rule in the future.

4. Revoke taxpayer's license upon evidence of continued failure to comply with the requirements of this rule.

**R865-19S-23. Exemption Certificates Pursuant to Utah Code Ann. Sections 59-12-106 and 59-12-104.**

A. Taxpayers selling tangible personal property or services to customers exempt from sales tax are required to keep records verifying the nontaxable status of those sales.

B. The Tax Commission will furnish samples of acceptable exemption certificate forms on request. Stock quantities are not furnished, but taxpayers may reproduce samples as needed in whole or in part.

C. A seller may retain a copy of a purchase order, check, or voucher in place of the exemption certificate as evidence of exemption for a federal, state, or local government entity, including public schools.

D. If a purchaser is unable to segregate tangible personal property or services purchased for resale from tangible personal property or services purchased for the purchaser's own consumption, everything should be purchased tax-free. The purchaser must then report and pay the tax on the cost of goods or services purchased tax-free for resale that the purchaser uses or consumes.

E. A seller may provide evidence of a sales and use tax exemption electronically if the seller uses the standard sales and use tax exemption form adopted by the governing board of the agreement.

F. A seller shall obtain the same information for proof of a claimed exemption regardless of the medium in which the transaction occurs.

**R865-19S-25. Sale of Business Pursuant to Utah Code Ann. Section 59-12-112.**

A. Every sales tax license holder who discontinues business, is required to notify the Tax Commission immediately and return the sales tax license for cancellation.

B. Every person discontinuing business shall retain records for a period of three years unless a release from such provision is obtained from the Tax Commission.

**R865-19S-27. Retail Sales Defined Pursuant to Utah Code Ann. Sections 59-12-102 and 59-12-103(1)(g).**

A. The term retail sale has a broader meaning than the sale of tangible personal property. It includes any transfers, exchanges, or barter whether conditional or for a consideration by a person doing business in such commodity or service, either as a regularly organized principal endeavor or as an adjunct thereto. The price of the service or tangible personal property, the quantity sold, or the extent of the clientele are not factors which determine whether or not it is a retail sale.

B. Retail sale also includes certain leases and rentals of tangible personal property as defined in Rule R865-19S-32, accommodations as defined in Rule R865-19S-79, services performed on tangible personal property as defined in Rules R865-19S-51 and R865-19S-78, services that are part of a sale or repair, admissions as defined in Rules R865-19S-33 and R865-19S-34, sales of meals as defined in Rules R865-19S-61 and R865-19S-62, and sales of certain public utility services.

C. A particular retail sale or portion of the selling price may not be subject to a sales or use tax. The status of the exemption is governed by the circumstances in each case. See other rules for specific and general exemption definitions, Rule R865-19S-30 for definition of sales price and Rule R865-19S-72 covering trade-ins.

**R865-19S-29. Wholesale Sale Defined Pursuant to Utah Code Ann. Section 59-12-102.**

A. "Wholesale sale" means any sale by a wholesaler, retailer, or any other person, of tangible personal property or services to a retailer, jobber, dealer, or another wholesaler for resale.

1. All sales of tangible personal property or services which enter into and become an integral or component part of tangible personal property or product which is further manufactured or compounded for sale, or the container or the shipping case thereof, are wholesale sales.

2. All sales of poultry, dairy, or other livestock feed and the components thereof and all seeds and seedlings are deemed to be wholesale sales where the eggs, milk, meat, or other livestock products, plants, or plant products are produced for resale.

3. Sprays and insecticides used in the control of insect pests, diseases, and weeds for the commercial production of fruit, vegetables, feeds, seeds, and animal products shall be wholesale sales. Also baling ties and twine for baling hay and straw and fuel sold to farmers and agriculture producers for use in heating orchards and providing power in off-highway type farm machinery shall be wholesale sales.

B. Tangible personal property or services which are purchased by a manufacturer or compounder which do not become and remain an integral part of the article being manufactured or compounded are subject to sales or use tax.

1. For example, sales to a knitting factory of machinery, lubricating oil, pattern paper, office supplies and equipment, laundry service, and repair labor are for consumption and are taxable. These services and tangible personal property do not become component parts of the manufactured products. On the other hand, sales of wool, thread, buttons, linings, and yarns, to such a manufacturer that do become component parts of the products manufactured are not taxable.

C. The price of tangible personal property or services sold or the quantity sold are not factors which determine whether or not the sale is a wholesale sale.

D. All vendors who make wholesale sales are required to obtain an exemption certificate from the purchaser as evidence of the nature of the sale, as required by Rule R865-19S-23.

**R865-19S-30. Sale of a Vehicle or Vessel by a Person Not Regularly Engaged in Business Pursuant to Utah Code Ann. Section 59-12-104.**

A. This rule provides guidance on the sale of a vehicle or vessel by a person not regularly engaged in business for purposes of Subsections 59-12-104(13) and (18).

B. For purposes of calculating sales and use tax on the sale of a vehicle where no trade in was involved, the bill of sale or other written evidence of value shall contain the names and addresses of the purchaser and the seller, and the sales price and vehicle identification number of the vehicle.

C. For purposes of calculating sales and use tax on the sale of a vehicle when the seller has received a trade-in vehicle as payment or partial payment, the bill of sale or other written evidence of value shall contain all of the following:

1. the names and addresses of the buyer and the seller;
2. the purchase price of the vehicle;
3. the value allowed for the trade-in vehicle;
4. the net difference between the vehicle traded and the vehicle purchased;
5. the signature of the seller; and
6. the vehicle identification numbers of the vehicle traded in and the vehicle purchased.

D. In the absence of a bill of sale or other written evidence of value, the fair market value of the vehicle or vessel shall be determined by industry accepted vehicle

pricing guides.

**R865-19S-31. Time and Place of Sale Pursuant to Utah Code Ann. Section 59-12-102.**

A. Ordinarily, the time and place of a sale are determined by the contract of sale between the seller and buyer. The intent of the parties is the governing factor in determining both time and place of sale subject to the general law of contracts. If the contract of sale requires the seller to deliver or ship goods to a buyer, title to the property passes upon delivery to the place agreed upon unless the contract of sale provides otherwise.

**R865-19S-32. Leases and Rentals Pursuant to Utah Code Ann. Section 59-12-103.**

(1) The lessor shall compute sales or use tax on all amounts received or charged in connection with a lease or rental of tangible personal property.

(2) When a lessee has the right to possession, operation, or use of tangible personal property, the tax applies to the amount paid pursuant to the lease agreement, regardless of the duration of the agreement.

(3) Lessors of tangible personal property shall furnish an exemption certificate when purchasing tangible personal property subject to the sales or use tax on rental receipts. Costs of repairs and renovations to tangible personal property are exempt if paid for by the lessor since it is assumed that those costs are recovered by the lessor in his rental receipts.

(4) A person that furnishes tangible personal property along with an operator, as described in the definition of lease or rental in Section 59-12-102, provides a service and shall:

(a) pay sales and use tax at the time that person purchases the tangible personal property that is furnished under this Subsection (4); and

(b) collect sales and use tax at the time that person provides the service if the service is subject to sales and use tax.

**R865-19S-33. Admissions and User Fees Pursuant to Utah Code Ann. Sections 59-12-102 and 59-12-103.**

A. "Admission" means the right or privilege to enter into a place. Admission includes the amount paid for the right to use a reserved seat or any seat in an auditorium, theater, circus, stadium, schoolhouse, meeting house, or gymnasium to view any type of entertainment. Admission also includes the right to use a table at a night club, hotel, or roof garden whether such charge is designated as a cover charge, minimum charge, or any such similar charge.

1. This applies whether the charge made for the use of the seat, table, or similar accommodation is combined with an admission charge to form a single charge, or is separate and distinct from an admission charge, or is the sole charge.

B. "Annual membership dues paid to a private organization" includes only those dues paid by members who, directly or indirectly, establish the level of the dues.

C. "Season passes" include amounts paid to participate in specific activities, once annual membership dues have been paid.

D. If the original admission charge carries the right to remain in a place, or to use a seat or table, or other similar accommodation for a limited time only, and an additional charge is made for an extension of such time, the extra charge is paid for admission within the meaning of the law. Where a person or organization acquires the sole right to use any place or the right to dispose of all of the admissions to any place for one or more occasions, the amount paid is not subject to the tax on admissions. Such a transaction constitutes a rental of the entire place and if the person or organization in turn sells admissions, sales tax applies to amounts paid for such

admissions.

E. Annual membership dues may be paid in installments during the year.

F. Amounts paid for the following activities are not admissions or user fees:

1. lessons, public or private;

2. sign up for amateur athletics if the activity is sponsored by a state governmental entity, or a nonprofit corporation or organization, the primary purpose of which, as stated in the corporation's or organization's articles or bylaws, is the sponsoring, promoting, and encouraging of amateur athletics;

3. sign up for participation in school activities. Sign up for participation in school activities excludes attendance as a spectator at school activities.

G. If amounts charged for activities listed in F. are billed along with admissions or user fees, the amounts not subject to the sales tax must be listed separately on the invoice in order to remain untaxed.

**R865-19S-34. Admission to Places of Amusement Pursuant to Utah Code Ann. Section 59-12-103.**

(1)(a) The amount paid for admission is subject to sales and use tax, even though that amount includes the right of the purchaser to participate in some activity.

(b) For example, the sale of a ticket for a ride upon a mechanical device is an admission to a place of amusement.

(2)(a) Additional charges for the rental of tangible personal property are subject to sales and use tax as the sale of tangible personal property.

(b) For example:

(i) towel rentals and swimming suit rentals at a swimming pool are subject to sales and use tax;

(ii) locker rental fees at a swimming pool are subject to sales tax if the lockers are tangible personal property.

**R865-19S-35. Residential or Commercial Use of Gas, Electricity, Heat, Coal, Fuel Oils or Other Fuels Pursuant to Utah Code Ann. Sections 59-12-103 and 59-12-104.**

A. "Residential use" is as defined in Section 59-12-102, and includes use in nursing homes or other similar establishments that serve as the permanent residence for a majority of the patients because they are unable to live independently.

B. Explosives or material used as active ingredients in explosive devices are not fuels.

C. If a firm has activities that are commercial and industrial and all fuels are furnished at given locations through single meters, the predominant use of the fuels shall determine taxable status of the fuels.

D. Fuel oil and other fuels must be used in a combustion process in order to qualify for the exemption from sales tax for industrial use of fuels pursuant to Section 59-12-104.

**R865-19S-37. Exempt Sales of Commercials, Audio Tapes, and Video Tapes by or to Motion Pictures Exhibitors and Distributors Pursuant to Utah Code Ann. Section 59-12-104.**

A. The purpose of this rule is to clarify the sales tax exemption for sales of commercials, motion picture films, prerecorded audio program tapes or records, and prerecorded video tapes by a producer, distributor, or studio to a motion picture exhibitor, distributor, or commercial television or radio broadcaster.

B. Definitions.

1. "Commercials," "audio tapes," and "video tapes" mean tapes, films, or discs used by television or radio stations in regular broadcasting activities but do not include blank tapes purchased for newscasts or other similar uses by radio

and television stations.

2. "Motion picture exhibitor" means any person engaged in the business of operating a theater or establishment in which motion pictures are regularly exhibited to the public for a charge.

3. "Distributor" means any person who purchases or sells motion picture films and video tapes that are used by a commercial television broadcaster or a motion picture exhibitor.

C. The sales tax exemption will be administered according to the provisions of Section 59-12-104 and this rule.

**R865-19S-38. Isolated and Occasional Sales Pursuant to Utah Code Ann. Section 59-12-104.**

A.1. Except as provided in A.2., sales made by officers of a court, pursuant to court orders, are occasional sales.

2. Notwithstanding A.1., sales made by trustees, receivers, or assignees in connection with the liquidation or conduct of a regularly established place of business are not occasional sales.

3. Examples of occasional sales are those made by sheriffs in foreclosing proceedings and sales of confiscated property.

B. If a sale is an integral part of a business the primary function of which is not the sale of tangible personal property, the sale is not isolated or occasional. For example, the sale of repossessed radios or refrigerators by a finance company is not isolated or occasional.

C.1. Except as provided in C.2., sales of vehicles required to be titled or registered under the laws of this state are not isolated or occasional sales.

2. Notwithstanding C.1., a transfer of a vehicle where the ownership of the vehicle before and after the transfer is substantially the same is an isolated or occasional sale.

D.1. Isolated or occasional sales made by persons not regularly engaged in business are not subject to sales and use tax.

2. For purposes of D.1., "business" refers to an enterprise engaged in selling tangible personal property or taxable services notwithstanding the fact that the sales may be few or infrequent.

3. The sale of an entire business to a single buyer is an isolated or occasional sale.

a) Except as provided in D.3.b), no tax applies to the sale of any assets that are part of a sale described in D.3.

b) If a sale described in D.3. includes the sale of a vehicle subject to registration, that vehicle is subject to sales and use tax.

E. The sale of used fixtures, machinery, and equipment items is not an occasional sale if the sale is one of a series of sales sufficient in number, amount, and character to indicate that the seller deals in the sale of those items.

F. Sales of items at public auctions do not qualify as isolated or occasional sales.

G. Wholesalers, manufacturers, and processors that primarily sell at other than retail are not making isolated or occasional sales when they sell tangible personal property for use or consumption.

**R865-19S-40. Exchange of Agricultural Produce For Processed Agricultural Products Pursuant to Utah Code Ann. Section 59-12-102.**

A. When a raiser or grower of agricultural products exchanges his produce for a more finished product capable of being made from the produce exchanged with the processor, the more finished product is not subject to the tax within limitations of the value of the raised produce exchanged.

**R865-19S-41. Sales to The United States Government and Its Instrumentalities Pursuant to Utah Code Ann. Sections 59-12-104 and 59-12-106.**

A. Sales to the United States government are exempt if federal law or the United States Constitution prohibits the collection of sales or use tax.

B. If the United States government pays for merchandise or services with funds held in trust for nonexempt individuals or organizations, sales tax must be charged.

C. Sales made directly to the United States government or any authorized instrumentality thereof are not taxable, provided the sale is paid for directly by the federal government. If an employee of the federal government pays for the purchase with his own funds and is reimbursed by the federal government, that sale is not made to the federal government and does not qualify for the exemption.

D. Vendors making exempt sales to the federal government are subject to the recordkeeping requirements of Tax Commission rule R865-19S-23.

**R865-19S-42. Sales to The State of Utah and Its Subdivisions Pursuant to Utah Code Ann. Section 59-12-104.**

A. Sales made to the state of Utah, its departments and institutions, or to its political subdivisions such as counties, municipalities, school districts, drainage districts, irrigation districts, and metropolitan water districts are exempt from tax if the purchase is for use in the exercise of an essential governmental function.

B. A sale is considered made to the state, its departments and institutions, or to its political subdivisions if the purchase is paid for directly by the purchasing state or local entity. If an employee of a state or local entity pays for a purchase with his own funds and is reimbursed by the state or local entity, that sale is not made to the state or local entity and does not qualify for the exemption.

C. Vendors making exempt sales to the state, its departments and institutions, or to its political subdivisions are subject to the recordkeeping requirements of Tax Commission rule R865-19S-23.

**R865-19S-43. Sales to or by Religious and Charitable Institutions Pursuant to Utah Code Ann. Section 59-12-104.**

A. In order to qualify for an exemption from sales tax as a religious or charitable institution, an organization must be recognized by the Internal Revenue Service as exempt from tax under Section 501(c)(3) of the Internal Revenue Code.

B. Religious and charitable institutions must collect sales tax on any sales income arising from unrelated trades or businesses and report that sales tax to the Tax Commission unless the sales are otherwise exempted by law.

1. The definition of the phrase "unrelated trades or businesses" shall be the definition of that phrase in 26 U.S.C.A. Section 513 (West Supp. 1993), which is adopted and incorporated by reference.

C. Every institution claiming exemption from sales tax under this rule must submit form TC-160, Application for Sales Tax Exemption Number for Religious or Charitable Institutions, along with any other information that form requires, to the Tax Commission for its determination. Vendors making sales to institutions exempt from sales tax are subject to the requirements of Rule R865-19S-23.

**R865-19S-44. Sales In Interstate Commerce Pursuant to Utah Code Ann. Section 59-12-104.**

A. Sales made in interstate commerce are not subject to the sales tax imposed. However, the mere fact that

commodities purchased in Utah are transported beyond its boundaries is not enough to constitute the transaction of a sale in interstate commerce. When the commodity is delivered to the buyer in this state, even though the buyer is not a resident of the state and intends to transport the property to a point outside the state, the sale is not in interstate commerce and is subject to tax.

B. Before a sale qualifies as a sale made in interstate commerce, the following must be complied with:

1. the transaction must involve actual and physical movement of the property sold across the state line;

2. such movement must be an essential and not an incidental part of the sale;

3. the seller must be obligated by the express or unavoidable implied terms of the sale, or contract to sell, to make physical delivery of the property across a state boundary line to the buyer;

C. Where delivery is made by the seller to a common carrier for transportation to the buyer outside the state of Utah, the common carrier is deemed to be the agent of the vendor for the purposes of this section regardless of who is responsible for the payment of the freight charges.

D. If property is ordered for delivery in Utah from a person or corporation doing business in Utah, the sale is taxable even though the merchandise is shipped from outside the state to the seller or directly to the buyer.

**R865-19S-48. Sales Tax Exemption For Coverings and Containers Pursuant to Utah Code Ann. Section 59-12-104.**

A. Sales of containers, labels, bags, shipping cases, and casings are taxable when:

1. sold to the final user or consumer;

2. sold to a manufacturer, processor, wholesaler, or retailer for use as a returnable container that is ordinarily returned to and reused by the manufacturer, processor, wholesaler, or retailer for storing or transporting their product; or

3. sold for internal transportation or accounting control purposes.

B. Returnable containers may include water bottles, carboys, drums, beer kegs for draft beer, dairy product containers, and gas cylinders.

1. Labels used for accounting, pricing, or other control purposes are also subject to tax.

C. For the purpose of this rule, soft drink bottles and similar containers that are ultimately destroyed or retained by the final user or consumer are not considered returnable and are exempt from the tax when purchased by the processor.

D. When tangible personal property sold in containers, for example soft drinks, is assessed a deposit or other container charge, that charge is subject to the tax. Upon refund of this charge, the retailer may take credit on a sales tax return if the tax is refunded to the customer.

**R865-19S-49. Sales to and by Farmers and Other Agricultural Producers Pursuant to Utah Code Ann. Section 59-12-104.**

(1)(a) For purposes of the sales and use tax exemption for tangible personal property used or consumed primarily and directly in farming operations, a person is engaged in "farming operations" if that person may deduct farm related expenses under Sections 162 or 212, Internal Revenue Code.

(b) To determine whether a person may deduct farm related expenses under Sections 162 or 212 of the Internal Revenue Code, the commission shall consider Treas. Reg. Sections 1.183-1 and 1.183-2.

(2) The purchase of feed, medicine, and veterinary supplies by a farmer or other agricultural producer qualify for

the sales and use tax exemption for tangible personal property used or consumed primarily and directly in farming operations if the feed, medicine, or veterinary supplies are used:

(a) to produce or care for agricultural products that are for sale;

(b) to feed or care for working dogs and working horses in agricultural use;

(c) to feed or care for animals that are marketed.

(3) Fur-bearing animals that are kept for breeding or for their products are agricultural products.

(4) A vendor making sales to a farmer or other agricultural producer is liable for the tax unless that vendor obtains from the purchaser a certificate as set forth in Rule R865-19S-23.

(5) Poultry, eggs, and dairy products are not seasonal products for purposes of the sales and use tax exemption for the exclusive sale of seasonal crops, seedling plants, or garden, farm, or other agricultural produce sold during the harvest season.

**R865-19S-50. Florists Pursuant to Utah Code Ann. Sections 59-12-103 and 59-12-104.**

A. Flowers, trees, bouquets, plants, and other similar items of tangible personal property are agricultural products and are, therefore, subject to the rules concerning the sale of those products as set forth in Rule R865-19S-49.

B. Where florists conduct transactions through a florist telegraphic delivery association, the following rules apply in computation of tax liability:

1. the florist must collect tax from the customer if the flower order is telegraphed to a second florist in Utah;

2. if a Utah florist receives an order pursuant to which he gives telegraphic instructions outside Utah, the Utah florist must collect tax from his customer upon the total charges;

3. if a Utah florist receives telegraphic instructions from a florist either within or outside of Utah for the delivery of flowers, the receiving vendor is not liable for the tax. In this instance, if the order originated in Utah, the tax is due from and payable by the Utah florist who first received the order.

**R865-19S-51. Fabrication Labor in Connection With Retail Sales of Tangible Personal Property Pursuant to Utah Code Ann. Section 59-12-103.**

A. The amount charged for fabrication that is part of the process of creating a finished article of tangible personal property must be included in the amount upon which tax is collected. This type of labor and service charge may not be deducted from the selling price used for taxation purposes even though billed separately to the consumer and regardless of whether the articles are commonly carried in stock or made up on special order.

B. Casting, forging, cutting, drilling, heat treating, surfacing, machining, constructing, and assembling are examples of steps in the process resulting in the creation or production of a finished article.

C. Sale of tangible personal property that is attached to real property, but remains personal property, is subject to sales tax on the retail selling price of the personal property, unless the tangible personal property attached to the real property is exempt from sales and use tax under Section 59-12-104.

D. This rule primarily covers manufacturing and assembling labor. Other rules deal with other types of labor and should be referred to whenever necessary.

**R865-19S-53. Sale by Finance Companies Pursuant to Utah Code Ann. Section 59-12-102.**

A. Sales of tangible personal property acquired by

repossession or foreclosure are subject to tax. Persons making such sales must secure a license and collect and remit tax on the sales made.

**R865-19S-54. Governmental Exemption Pursuant to Utah Code Ann. Section 59-12-104.**

A. Tax does not apply to sales to the state of Utah, or to any political subdivision of the state, where such property is for use in the exercise of an essential governmental function. Also, certain sales are not taxed because of federal law or the United States Constitution.

B. Sales to the following state and federal agencies, institutions, and instrumentalities are exempt:

1. federal agencies and instrumentalities
2. state institutions and departments
3. counties
4. municipalities
5. school districts, public schools
6. special taxing districts
7. federal land banks
8. federal reserve banks
9. activity funds within the armed services
10. post exchanges
11. Federally chartered credit unions

C. The following are taxable:

1. national banks
2. federal building and loan associations
3. joint stock land banks
4. state banks (whether or not members of the Federal Reserve System)
5. state building and loan associations
6. private irrigation companies
7. rural electrification projects
8. sales to officers or employees of exempt instrumentalities

D. No sales tax immunity exists solely by virtue of the fact that the sale was made on federal property.

E. Sales made by governmental units are subject to sales tax.

**R865-19S-56. Sales by Employers to Employees Pursuant to Utah Code Ann. Section 59-12-102.**

A. Sales to employees are subject to tax on the amount charged for goods and taxable services. If tangible personal property is given to employees with no charge, the employer is deemed to be the consumer and must pay tax on his cost of the merchandise. Examples of this type of transaction are meals furnished to waitresses and other employees, contest prizes given to salesmen, merchandise bonuses given to clerks, and similar items given away.

**R865-19S-57. Ice Pursuant to Utah Code Ann. Sections 59-12-102 and 59-12-103.**

A. In general, sales of ice to be used by the purchaser for refrigeration or cooling purposes are taxable. Sales to restaurants, taverns, or the like to be placed in drinks consumed by customers at the place of business are sales for resale and are not taxable.

B. Where ice is sold in fulfillment of a contract for icing or reicing property in transit by railroads or other freight lines, the entire amount of the sale is taxable, and no deduction for services is allowed.

**R865-19S-58. Materials and Supplies Sold to Owners, Contractors and Repairmen of Real Property Pursuant to Utah Code Ann. Sections 59-12-102 and 59-12-103.**

A. Sales of construction materials and other items of tangible personal property to real property contractors and repairmen of real property are generally subject to tax if the

contractor or repairman converts the materials or items to real property.

1. "Construction materials" include items of tangible personal property such as lumber, bricks, nails and cement that are used to construct buildings, structures or improvements on the land and typically lose their separate identity as personal property once incorporated into the real property.

2. Fixtures or other items of tangible personal property such as furnaces, built-in air conditioning systems, built-in appliances, or other items that are appurtenant to or incorporated into real property and that become an integral part of a real property improvement are treated as construction materials for purposes of this rule.

B. The sale of real property is not subject to sales tax, nor is the labor performed on real property. For example, the sale of a completed home or building is not subject to the tax, but sales of materials and supplies to contractors for use in building the home or building are taxable transactions as sales to final consumers.

1. The contractor or repairman who converts the personal property to real property is the consumer of tangible personal property regardless of the type of contract entered into--whether it is a lump sum, time and material, or a cost-plus contract.

2. Except as otherwise provided in B.4, the contractor or repairman who converts the construction materials, fixtures or other items to real property is the consumer of the personal property whether the contract is performed for an individual, a religious or charitable institution, or a government entity.

3. Sales of construction materials or fixtures made to religious or charitable institutions are exempt only if the items are sold as tangible personal property.

4. Sales of materials are considered made to religious or charitable institutions and, therefore, exempt from sales tax, if:

- a) the religious or charitable institution makes payment for the materials directly to the vendor; or
- b) the materials are purchased on behalf of the religious or charitable institution.

(i) Materials are purchased on behalf of the religious or charitable institution if the materials are clearly identified and segregated and installed or converted to real property owned by the religious or charitable institution.

5. Purchases not made pursuant to B.4. are assumed to have been made by the contractor and are subject to sales tax.

C. If the contractor or repairman purchases all materials and supplies from vendors who collect the Utah tax, no sales tax license is required unless the contractor makes direct sales of tangible personal property in addition to the work on real property.

1. If direct sales are made, the contractor shall obtain a sales tax license and collect tax on all sales of tangible personal property to final consumers.

2. The contractor must accrue and remit tax on all merchandise bought tax-free and converted to real property. Books and records must be kept to account for both material sold and material consumed.

D. This rule does not apply to contracts where the retailer sells and installs personal property that does not become part of the real property. Examples of items that remain tangible personal property even when attached to real property are:

1. moveable items that are attached to real property merely for stability or for an obvious temporary purpose;
2. manufacturing equipment and machinery and essential accessories appurtenant to the manufacturing equipment and machinery; and
3. items installed for the benefit of the trade or business

conducted on the property that are affixed in a manner that facilitates removal without substantial damage to the real property or to the item itself.

**R865-19S-59. Sales of Materials and Services to Repairmen Pursuant to Utah Code Ann. Section 59-12-103.**

A. Sales of tangible personal property and services to persons engaged in repairing or renovating tangible personal property are for resale, provided the tangible personal property or service becomes a component part of the repair or renovation sold. For example, paint sold to a body and fender shop and used to paint an automobile is exempt from sales tax since it becomes a component part of the repair work.

1. Sandpaper, masking tape, and similar supplies are subject to sales tax when sold to a repairman since these items are consumed by the repairman rather than being sold to his customer as an ingredient part of the repair job. These items shall be taxed at the time of sale if it is known that they are to be consumed. However, if this is not determinable at the time of sale, these items should be purchased tax free, as set forth in Rule R865-19S-23 and sales tax reported on the repairman's sales tax return covering the period during which consumption takes place.

**R865-19S-60. Sales of Machinery, Fixtures and Supplies to Manufacturers, Businessmen and Others Pursuant to Utah Code Ann. Section 59-12-103.**

A. Unless specifically exempted by statute, sales of machinery, tools, equipment, and supplies to a manufacturer or producer are taxable.

B. Sales of furniture, supplies, stationery, equipment, appliances, tools, and instruments to stores, shops, businesses, establishments, offices, and professional people for use in carrying on their business and professional activities are taxable.

C. Sales of trade fixtures to a business owner are taxable as sales of tangible personal property even if the fixtures are temporarily attached to real property.

1. Trade fixtures are items of tangible personal property used for the benefit of the business conducted on the property.

2. Trade fixtures tend to be transient in nature in that the fixtures installed in a commercial building may vary from one tenant to the next without substantial alteration of the building, and the building itself is readily adaptable to multiple uses.

3. Examples of trade fixtures include cases, shelves and racks used to store or display merchandise.

D. Sales described in A. through C. of this rule are sales to final buyers or ultimate consumers and therefore not sales for resale.

**R865-19S-61. Meals Furnished Pursuant to Utah Code Ann. Sections 59-12-103 and 59-12-104.**

A. The following definitions apply to the sales and use tax exemption authorized under Section 59-12-104 for inpatient meals provided at a medical facility or nursing facility.

1. "Medical facility" means a facility:

a) described in SIC codes 8062 through 8069 of the 1987 Standard Industrial Classification Manual of the federal Executive Office of the President, Office of Management and Budget; and

b) licensed under Section 26-21-8.

2. "Nursing facility" means a facility:

a) described in SIC codes 8051 through 8059 of the 1987 Standard Industrial Classification Manual of the federal Executive Office of the President, Office of Management and Budget; and

b) licensed under Section 26-21-8.

B. The following definition applies to the sales and use tax exemption authorized under Section 59-12-104 for sales of meals served by an institution of higher education.

1. "Student meal plan" means an arrangement:

a) between an institution of higher education and a student;

b) available only to a student;

c) whose duration is the entire term, semester, or similar unit of study;

d) paid in advance of the term, semester, or similar unit of study; and

e) providing for specified meals at eating facilities of the institution of higher education.

C. Except as provided in Section 59-12-104, sales and use tax is imposed upon the amount paid for meals furnished by any restaurant, cafeteria, eating house, hotel, drug store, diner, private club, boarding house, or other place, regardless of whether meals are regularly served to the public.

D. Ingredients that become a component part of meals subject to tax are construed to be purchased for resale, and as such the purchase of those ingredients is exempt from sales and use tax.

E. Where a meal is given away on a complementary basis, the provider of the meal is considered to be the consumer of the items used in preparing the meal.

F. Meals served by religious or charitable institutions and institutions of higher education are not available to the general public if:

1. access to the restaurant, cafeteria, or other facility is restricted to:

a) in the case of a religious or charitable institution:

(1) employees of the institution;

(2) volunteers of the institution;

(3) guests of the institution; and

(4) other individuals that constitute a limited class of people; or

b) in the case of an institution of higher education:

(1) students of the institution;

(2) employees of the institution;

(3) guests of the institution; and

(4) other individuals that constitute a limited class of people; and

2. the restricted access is enforced.

G. Sales of meals at occasional church or charity bazaars or fund raisers, and other similar functions are considered isolated and occasional sales and therefore exempt from sales and use tax.

**R865-19S-62. Meal Tickets, Coupon Books, and Merchandise Cards Pursuant to Utah Code Ann. Section 59-12-103.**

A. Meal tickets, coupon books, or merchandise cards sold by persons engaged in selling taxable commodities or services are taxable, and the tax shall be billed or collected on the selling price at the time the tickets, books, or cards are sold. Tax is to be added at the subsequent selection and delivery of the merchandise or services if an additional charge is made.

**R865-19S-63. Sales of Memorial Markers Pursuant to Utah Code Ann. Section 59-12-103.**

A. Sales of tombstones and grave markers, which are embedded in sod or a concrete foundation, are considered to be improvements to real property. If the seller furnishes and installs the marker, tax applies to his cost of the marker and to his cost of installation material. If the seller does not install the marker, the transaction is a sale of tangible personal property and the seller must collect tax on the full selling

price, including cutting, shaping, lettering, and polishing.

**R865-19S-64. Morticians, Undertakers and Funeral Directors Pursuant to Utah Code Ann. Section 59-12-103.**

A. Morticians, undertakers, and funeral directors make taxable sales of caskets, vaults, clothing, etc. They also render nontaxable services to their patrons. Their purchase of antiseptics, cosmetics, embalming fluids, and other chemicals used in rendering professional services is taxable.

B. If the books are kept in such a manner as to reflect the sales of tangible personal property separate from the services rendered, the tax attaches only to the sale of tangible personal property. If no separation is made of the tangible personal property and the services rendered, the sales tax is collected upon one-half of the total price of a standard funeral service. This includes the casket, professional services, care of remains, funeral coach, floral car, use of funeral car, use of funeral chapel, and the securing of permits.

1. Clothing, an outside grave vault, and other tangible personal property furnished in addition to the casket must be billed separately and the sales tax collected thereon.

**R865-19S-65. Newspapers Pursuant to Utah Code Ann. Section 59-12-103.**

A. "Newspaper" means a publication that appears to be a newspaper in the general or common sense. In addition, the publication:

1. must be published at short intervals, daily, or weekly;
2. must not, when its successive issues are put together, constitute a book;
3. must be intended for circulation among the general public; and
4. must contain matters of general interest and report on current events.

B. Purchases of tangible personal property by a newspaper publisher are subject to sales and use tax if the property will be used or consumed in the printing or distribution of the newspaper.

C. A newspaper publisher may purchase tax free for resale any tangible personal property that becomes a component part of the newspaper.

1. Examples of tangible personal property that becomes a component part of the newspaper include newsprint, ink, staples, plastic or paper protective coverings, and rubber bands distributed with the newspaper.

D. Purchases of advertising inserts that will be distributed with a newspaper are exempt from sales and use tax if the inserts are identified with the name and date of distribution of the newspaper. The identification may include a multiple listing of all newspapers that will carry the insert and the corresponding distribution dates.

1. Advertising inserts that are not identified as provided in D. are exempt from sales and use tax if the newspaper maintains a log at its place of business that lists by date and name the inserts included in each publication. The log may reflect all inserts or only the inserts not otherwise identified with the newspaper in accordance with D.

**R865-19S-66. Optometrists, Opticians, and Ophthalmologists Pursuant to Utah Code Ann. Section 59-12-103.**

A. Optometrists and ophthalmologists are deemed to be persons engaged primarily in rendering personal services. These services consist of the examination and treatment of eyes. Glasses, contact lenses, or other tangible personal property such as sunglasses, or cleaning solutions sold by optometrists and ophthalmologists are taxable and tax must be collected from the patient or buyer. Invoices or receipts must show the charges for personal services separate from the

charges for tangible personal property and the sales tax thereon. If an optometrist or ophthalmologist does not provide separate charges for personal services and sales of tangible personal property, sales tax shall be charged on the entire amount.

B. All sales of tangible personal property to optometrists or ophthalmologists for use or consumption in connection with their services are subject to sales or use tax.

C. Opticians are makers of or dealers in optical items and instruments and fill prescriptions written by optometrists and ophthalmologists. Opticians are engaged in the business of selling tangible personal property and personal services rendered by them are considered as merely incidental thereto. Opticians are required to collect the sales tax on all their sales of tangible personal property.

**R865-19S-68. Premiums, Gifts, Rebates, and Coupons Pursuant to Utah Code Ann. Sections 59-12-102 and 59-12-103.**

A. Donors that give away items of tangible personal property as premiums or otherwise are regarded as the users or consumers of those items and the sale to the donor is a taxable sale. Exceptions to this treatment are items of tangible personal property donated to or provided for use by exempt organizations that would qualify for exemption under R865-19S-43 or R865-19S-54 if a sale of such items were made to them. An item given away as a sales incentive is exempt to the donor if the sale of that item would have been exempt. An example is prescribed medicine given away by a drug manufacturer.

B. When a retailer making a retail sale of tangible personal property that is subject to tax gives a premium together with the tangible personal property sold, the transaction is regarded as a sale of both articles to the purchaser, provided the delivery of the premium is certain and does not depend upon chance.

C. Where a retailer is engaged in selling tangible personal property that is not subject to tax and furnishes a premium with the property sold, the retailer is the consumer of the premium furnished.

D. If a retailer accepts a coupon for part or total payment for a taxable product and is reimbursed by a manufacturer or another party, the total sales value, including the coupon amount, is subject to sales tax.

E. A coupon for which no reimbursement is received is considered to be a discount and the taxable amount is the net amount paid by the customer after deducting the value of the coupon.

F. If a retailer agrees to furnish a free item in conjunction with the sale of an item, the sales tax applies only to the net amount due. If sales tax is computed on both items and only the sales value of the free item is deducted from the bill, excess collection of sales tax results. The vendor is then required to follow the procedure outlined in R865-19S-16 and remit any excess sales tax collected.

G. Any coupon with a fixed price limit must be deducted from the total bill and sales tax computed on the difference. For example, if a coupon is redeemed for two \$6 meals, but the value of the free meal is limited to \$5, the \$12 is rung up and the \$5 deducted, resulting in a taxable sale of \$7.

**R865-19S-70. Sales Incidental To The Rendition of Services Pursuant to Utah Code Ann. Sections 59-12-103 and 59-12-104.**

A. Persons engaged in occupations and professions that primarily involve the rendition of services upon the client's person and incidentally dispense items of tangible personal property are regarded as the consumers of the tangible

personal property dispensed with the services.

B. Physicians, dentists, beauticians, and barbers are examples of persons described in A.

**R865-19S-72. Trade-ins and Exchanges Pursuant to Utah Code Ann. Section 59-12-102.**

A. An even exchange of tangible personal property for tangible personal property is exempt from tax. When a person takes tangible personal property as part payment on a sale of tangible personal property, sales or use tax applies only to any consideration valued in money which changes hands.

B. For example, if a car is sold for \$8,500 and a credit of \$6,500 is allowed for a used car taken in trade, the sales or use tax applies to the difference, or \$2,000 in this example. Subsequently, when the used car is sold, tax applies to the selling price less any trade-in at that time.

C. An actual exchange of tangible personal properties between two persons must be made before the exemption applies. For example, there is no exchange if a person sells his car to a dealer and the dealer holds the credit to apply on a purchase at a later date; there are two separate transactions, and tax applies to the full amount of the subsequent purchase if and when it takes place.

**R865-19S-73. Trustees, Receivers, Executors, Administrators, Etc. Pursuant to Utah Code Ann. Section 59-12-103.**

A. Trustees, receivers, assignees, executors, and administrators, who -- by virtue of their appointment -- operate, manage, or control a business making taxable sales or leases of tangible personal property, or performing taxable services, must collect and remit sales tax on the total taxable sales even though such sales are made in liquidation.

**R865-19S-74. Vending Machines Pursuant to Utah Code Ann. Section 59-12-104.**

A. Persons operating vending machines are deemed to be retailers and selling articles of tangible personal property. The total sales from vending machine operations are considered the total selling price of the tangible personal property distributed in connection with their operations and must be reported as the amount of sales subject to tax.

B. Persons operating vending machines selling food, beverages, and dairy products in which the proceeds of each sale do not exceed \$1, and who do not report an amount equal to 150% of the cost of items as goods consumed, are subject to the requirements of A.

C. For purposes of the 150% of cost formula in Section 59-12-104(3), "cost" is defined as follows.

1. In the case of retailers, cost is the total purchase price paid for products, including any packaging and incoming freight.

2. In the case of a manufacturer, cost includes the following items:

- a) acquisition costs of materials and packaging, including freight;
- b) direct manufacturing labor; and
- c) utility expenses, if a sales tax exemption has been granted on utility purchases.

D. Operators of vending machines, if they so desire, may divide the tax out and sell items at fractional parts of a cent, providing their records so indicate.

E. Where machines vending taxable items are owned by persons other than the proprietor of a place of business in which the machine is placed and the person owning the machine has control over the sales made by the machine, evidenced by collection of the money, the owner is required to secure a sales tax license. One license is sufficient for all such machines. A statement in substantially the following

form must be conspicuously affixed upon each vending machine:

"This machine is operated under Utah Sales Tax License No. "

**R865-19S-75. Sales by Photographers, Photo Finishers, and Photostat Producers and Engravers Pursuant to Utah Code Ann. Section 59-12-103.**

A. Photographers, photofinishers, and photostat producers are engaged in selling tangible personal property and rendering services such as developing, retouching, tinting, or coloring photographs belonging to others.

1. Persons described in this rule must collect tax on all of the above services and on all sales of tangible personal property, such as films, frames, cameras, prints, etc.

B. Sales of tangible personal property by photoengravers, electrotypers, and wood engravers to printers, advertisers, or other persons who do not resell such property but use or consume it in the process of producing printed matter are taxable sales. The value or worth of the services or processing which go into their production is of no moment, and it is immaterial that each sale is upon a special order for a particular customer.

1. Electrotypes and engravings are manufactured articles of merchandise and are sold as such and not as a service. No deduction is allowed on account of the cost of the property sold, labor, service, or any other expense.

**R865-19S-76. Painters, Polishers, and Car Washers Pursuant to Utah Code Ann. Sections 59-12-103 and 59-12-104.**

(1) Sales of paint, wax, or other material to persons engaged in the business of painting and polishing of tangible personal property are exempt as sales for resale if the paint, wax, or other material becomes a part of the customer's tangible personal property. However, the vendor of these items must be given a resale certificate as provided for in Rule R865-19S-23.

(2) Sales of soap, washing mitts, polishing cloths, spray equipment, sand paper, and similar items to painters, polishers, and car washes are sales to the final consumer and are subject to tax.

**R865-19S-78. Charges for Labor and Repair Under an Extended Warranty Agreement Pursuant to Utah Code Ann. Sections 59-12-103 and 59-12-104.**

(1) Sales of extended warranty agreements or service plans are taxable, and tax must be collected at the time of the sale of the agreement. The payment is considered to be for future repair, which would be taxable. If the extended warranty agreement covers parts as well as labor, any parts that are exempt from sales tax pursuant to Section 59-12-104 must be separately stated on the invoice or the entire charge under the extended warranty agreement is taxable. Repairs made under an extended warranty plan are exempt from tax, even if the plan was sold in another state.

(a) Repair parts provided and services rendered under the warranty agreements or service plans are not taxable because the tax is considered prepaid as a result of taxing the sale of the warranty or service plan when it was sold.

(b) If the customer is required to pay for any parts or labor at the time of warranty service, sales tax must be collected on the amount charged to the customer. Sales tax must also be collected on any deductibles charged to customers for their share of the repair work done under the warranty agreement. Parts or materials that are exempt from sales tax pursuant to Section 59-12-104 must be separately stated on the invoice or the entire charge for labor and parts is taxable.

(2) Extended warranties on items of tangible personal property that are converted to real property are not taxable. However, the taxable nature of parts and other items of tangible personal property provided in conjunction with labor under an extended warranty service shall be determined in accordance with R865-19S-58.

**R865-19S-79. Tourist Home, Hotel, Motel, or Trailer Court Accommodations and Services Defined Pursuant to Utah Code Ann. Sections 59-12-103, 59-12-301, 59-12-352, and 59-12-353.**

A. The following definitions shall be used for purposes of administering the sales tax on accommodations and transient room taxes provided for in Sections 59-12-103, 59-12-301, 59-12-352, and 59-12-353.

1. "Tourist home," "hotel," or "motel" means any place having rooms, apartments, or units to rent by the day, week, or month.
2. "Trailer court" means any place having trailers or space to park a trailer for rent by the day, week, or month.
3. "Trailer" means house trailer, travel trailer, and tent trailer.
4. "Accommodations and services charges" means any charge made for the room, apartment, unit, trailer, or space to park a trailer, and includes charges made for local telephone, electricity, propane gas, or similar services.

**R865-19S-80. Printers' Purchases and Sales Pursuant to Utah Code Ann. Section 59-12-103.**

- (1) Definitions.
  - (a)(i) "Pre-press materials" means materials that:
    - (B) are reusable;
    - (C) are used in the production of printed matter;
    - (D) do not become part of the final printed matter; and
    - (E) are sold to the customer.
  - (ii) Pre-press materials include film, magnetic media, compact disks, typesetting paper, and printing plates.
- (b)(i) "Printer" means a person that reproduces multiple copies of images, regardless of the process employed or the name by which that person is designated.
  - (ii) A printer includes a person that employs the processes of letterpress, offset, lithography, gravure, engraving, duplicating, silk screen, bindery, or lettership.
- (2) Purchases by a printer.
  - (a)(i) Purchases of tangible personal property by a printer are subject to sales and use tax if the property will be used or consumed by the printer.
  - (ii) Examples of tangible personal property used or consumed by the printer include conditioners, solvents, developers, and cleaning agents.
  - (b)(i) A printer may purchase tax free for resale any tangible personal property that becomes a component part of the finished goods for resale.
  - (ii) Examples of tangible personal property that becomes a component part of the finished goods for resale include glue, stitcher wire, paper, and ink.
  - (c) A printer may purchase pre-press materials tax free if the printer's invoice, or other written material provided to the purchaser, states that reusable pre-press materials are included with the purchase. A description and the quantity of the actual items used in the order is not necessary. The statement must not restrict the customer from taking physical possession of the pre-press materials.
  - (d) The tax treatment of a printer's purchase of graphic design services shall be determined in accordance with rule R865-19S-111.

(3) Sales by a printer.

(a) Except as provided in this Subsection (3), a printer shall collect sales and use tax on the following:

- (i) charges for printed material, even though the paper may be furnished by the customer;
  - (ii) charges for envelopes;
  - (iii) charges for services performed in connection with the printing or the sale of printed matter, such as cutting, folding, and binding;
  - (iv) charges for pre-press materials purchased tax exempt by the printer; and
  - (v) charges for reprints and proofs.
- (b) Charges for postage are not subject to sales and use tax.
- (c) Sales by a printer are exempt from sales and use tax if:
- (i) the sale qualifies for exemption under Section 59-12-104; and
  - (ii) the printer obtains from the purchaser a certificate as set forth in rule R865-19S-23.
- (d) If the printer's customer is purchasing printed material for resale, but will not resell the pre-press materials, the printer must collect sales and use tax on the pre-press materials.
- (e) If printed material is shipped outside of the state, charges for pre-press materials are exempt from sales tax as a sale of goods sold in interstate commerce only if the pre-press materials are physically shipped out of state with the printed material. If pre-press materials are retained in the state by the printer for any reason, the pre-press materials do not qualify for the sales tax exemption for goods sold in interstate commerce, and as such, the printer must collect sales tax on the part of the transaction relating to the pre-press materials.
- (4) If a sale by a printer consists of items that are subject to sales and use tax as well as items or services that are not taxable, the nontaxable items or services must be separately stated on the invoice or the entire sale is subject to sales and use tax.

**R865-19S-81. Sale of Art Pursuant to Utah Code Ann. Section 59-12-103.**

- A. Art dealers and artists selling paintings, drawings, etchings, statues, figurines, etc., to final consumers must collect tax, whether an object is sold from an inventory or is created upon special order. The value or worth of the services to produce the art object are an integral part of the value of the tangible personal property upon completion and no deduction for such services may be made in determining the amount which is subject to tax.
- B. Paints, canvases, frames, sculpture ingredients, and items becoming part of the finished product may be purchased tax-free if used in a painting or other work of art for resale.
1. Brushes, easels, tools, and similar items are consumed by the artist, and tax must be paid on the purchase of these items.

**R865-19S-82. Demonstration, Display, and Trial Pursuant to Utah Code Ann. Section 59-12-104.**

- A. Tangible personal property purchased by a wholesaler or a retailer and held for display, demonstration or trial in the regular course of business is not subject to tax.
- Examples of this are a desk bought by an office supply firm and placed in a window display, or an automobile purchased by an auto dealer and assigned to a salesman as a demonstrator. Sales tax applies to any rental charges made to the salesman for use of a demonstrator.

B. Sales tax applies to these charges even though all or part of the charge may be waived if such waiver is dependent upon the salesman performing certain services or reaching a certain sales quota or some similar contingency.

C. Sales tax applies to items purchased primarily for

company or personal use and only casually used for demonstration purposes.

1. For example, wreckers or service trucks used by a parts department, are subject to tax even though they are demonstrated occasionally. Also, automobiles assigned to nonsales personnel such as a service manager, an office manager, an accountant, an officer's spouse, or a lawyer are subject to tax.

a. For motor vehicle dealers using certain vehicles withdrawn from inventory for periods not exceeding one year, the tax liability is deemed satisfied if the dealer remits sales or use tax on each such vehicle based on its lease value while so used.

(1) Only motor vehicles provided or assigned to company personnel or to exempt entities qualify for this treatment. For vehicles donated to religious, charitable, or government institutions, see Rule R865-19S-68.

(2) The monthly lease value is the manufacturer's invoice price to the dealer, divided by 60.

(3) Records must be maintained to show when each vehicle is placed in use, to whom assigned or provided, lease value computation, tax remitted, when removed from service and when returned to inventory for resale.

(4) Vehicles used for periods exceeding one year are subject to tax on the dealer's acquisition cost.

2. An exception is an item held for resale in the regular course of business and used for demonstration a substantial amount of time. Records must be maintained to show the manner of demonstration involved if exemption is claimed.

D. Normally, vehicles will not be allowed as demonstrators if they are used beyond the new model year by a new-car dealer or if used for more than six months by a used-car dealer.

1. Tax will apply if these conditions are not met, unless it is shown that these guidelines are not applicable in a given instance. In this case consideration will be given to the circumstances surrounding the need for a demonstrator for a longer period of time.

#### **R865-19S-83. Pollution Control Facilities Pursuant to Utah Code Ann. Section 59-12-104.**

A. Since certification of a pollution control facility may not occur until a firm contract has been entered into or construction has begun, tax should be paid on all purchases of tangible personal property or taxable services that become part of a pollution control facility until the facility is certified, and invoices and records should be retained to show the amount of tax paid. Upon verification of the amount of tax paid for pollution control facilities and verification that a certificate has been obtained, the Tax Commission will refund the taxes paid on these purchases.

1. Claims for refund of tax paid prior to certification must be filed within 180 days after certification of a facility. Refund claims filed within this time period will have interest added at the rate prescribed in Section 59-1-402 from the date of the overpayment.

2. If claims for refund are not filed within 180 days after certification of a facility, it is assumed the delay was for investment purposes, and interest shall be added at the rate prescribed in Section 59-1-402 however, interest will not begin to accrue until 30 days after receipt of the refund request.

B. After the facility is certified, qualifying purchases should be made without paying tax by providing an exemption certificate to the vendor.

1. If sales tax is paid on qualifying purchases for certified pollution control facilities, it will be deemed that the overpayment was made for the purpose of investment. Accordingly, interest, at the rate prescribed in Section 59-1-

402, will not begin to accrue until 30 days after receipt of the refund request.

C. In the event part of the pollution control facility is constructed under a real property contract by someone other than the owner, the owner should obtain a statement from the contractor certifying the amount of Utah sales and use tax paid by the contractor and the location of the vendors to whom tax was paid, and the owner will then be entitled to a refund of the tax paid and included in the contract.

D. The owner shall apply to the Tax Commission for a refund using forms furnished by the Tax Commission. The claim for refund must contain sufficient information to support the amount claimed for credit and show that the tax has in fact been paid.

E. The owner shall retain records to support the claim that the project is qualified for the exemption.

#### **R865-19S-85. Sales and Use Tax Exemptions for Certain Purchases by a Manufacturing Facility Pursuant to Utah Code Ann. Section 59-12-104.**

(1) Definitions:

(a) "Establishment" means an economic unit of operations, that is generally at a single physical location in Utah, where qualifying manufacturing processes are performed. If a business operates in more than one location (e.g., branch or satellite offices), each physical location is considered separately from any other locations operated by the same business.

(b) "Machinery and equipment" means:

(i) electronic or mechanical devices incorporated into a manufacturing process from the initial stage where actual processing begins, through the completion of the finished end product, and including final processing, finishing, or packaging of articles sold as tangible personal property. This definition includes automated material handling and storage devices when those devices are part of the integrated continuous production cycle; and

(ii) any accessory that is essential to a continuous manufacturing process. Accessories essential to a continuous manufacturing process include:

(A) bits, jigs, molds, or devices that control the operation of machinery and equipment; and

(B) gas, water, electricity, or other similar supply lines installed for the operation of the manufacturing equipment, but only if the primary use of the supply line is for the operation of the manufacturing equipment.

(c) "Manufacturer" means a person who functions within a manufacturing facility.

(2) The sales and use tax exemption for the purchase or lease of machinery and equipment by a manufacturing facility applies only to purchases or leases of tangible personal property used in the actual manufacturing process.

(a) The exemptions do not apply to purchases of real property or items of tangible personal property that become part of the real property in which the manufacturing operation is conducted.

(b) Purchases of qualifying machinery and equipment are treated as purchases of tangible personal property under R865-19S-58, even if the item is affixed to real property upon installation.

(3) Machinery and equipment used for a nonmanufacturing activity qualify for the exemption if the machinery and equipment are primarily used in manufacturing activities. Examples of nonmanufacturing activities include:

(a) research and development;

(b) refrigerated or other storage of raw materials, component parts, or finished product; or

(c) shipment of the finished product.

(4) Where manufacturing activities and nonmanufacturing activities are performed at a single physical location, machinery and equipment purchased for use in the manufacturing operation are eligible for the sales and use tax exemption if the manufacturing operation constitutes a separate and distinct manufacturing establishment.

(a) Each activity is treated as a separate and distinct establishment if:

(i) no single SIC code includes those activities combined; or

(ii) each activity comprises a separate legal entity.

(b) Machinery and equipment used in both manufacturing activities and nonmanufacturing activities qualify for the exemption only if the machinery and equipment are primarily used in manufacturing activities.

(5) The manufacturer shall retain records to support the claim that the machinery and equipment are qualified for exemption from sales and use tax under the provisions of this rule and Section 59-12-104.

(6) If a purchase consists of items that are exempt from sales and use tax under this rule and Section 59-12-104, and items that are subject to tax, the tax exempt items must be separately stated on the invoice or the entire purchase will be subject to tax.

**R865-19S-86. Monthly Payment of Sales Taxes Pursuant to Utah Code Ann. Section 59-12-108.**

A. Definitions:

1. "Cash equivalent" means either:

a) cash;

b) wire transfer; or

c) cashier's check drawn on the bank in which the Tax Commission deposits sales tax receipts.

2. "Fiscal year" means the year commencing on July 1 and ending the following June 30.

3. "Mandatory filer" means a seller that meets the threshold requirements for monthly filing and remittance of sales taxes or for electronic funds transfer (EFT) remittance of sales taxes.

4. For purposes of the monthly filing and the electronic remittance of sales taxes, the term "tax liability for the previous year" means the tax liability for the previous calendar year.

B. The determination that a seller is a mandatory filer shall be made by the Tax Commission at the end of each calendar year and shall be effective for the fiscal year.

C. A seller that meets the qualifications for a mandatory filer but does not receive notification from the Tax Commission to that effect, is not excused from the requirements of monthly filing and remittance or EFT remittance.

D. Mandatory filers shall also file and remit any waste tire fees and transient room, resort communities, and tourism, recreation, cultural, and convention facilities taxes to the commission on a monthly basis or by EFT, respectively.

E. Sellers that are not mandatory filers may elect to file and remit their sales taxes to the commission on a monthly basis, or remit sales taxes by EFT, or both.

1. The election to file and remit sales taxes on a monthly basis or to remit sales taxes by EFT is effective for the immediate fiscal year and every fiscal year thereafter unless the Tax Commission receives written notification prior to the commencement of a fiscal year that the seller no longer elects to file and remit sales taxes on a monthly basis, or to remit sales taxes by EFT, respectively.

2. Sellers that elect to file and remit sales taxes on a monthly basis, or to remit sales taxes by EFT, are subject to the same requirements and penalties as mandatory filers.

F. Sellers that are mandatory filers may request deletion

of their mandatory filer designation if they do not expect to accumulate a \$50,000 sales tax liability for the current calendar year.

1. The request must be accompanied by documentation clearly evidencing that the business that led to the \$50,000 tax liability for the previous year will not recur.

2. The request must be made prior to the commencement of a fiscal year.

3. If a seller's request is approved and the seller does accumulate a \$50,000 sales tax liability, a similar request by that seller the following year shall be denied.

G. Sellers that are required to remit sales tax by EFT may, following approval by the Tax Commission, remit a cash equivalent in lieu of the EFT.

1. Approval for remittance by cash equivalent shall be limited to those sellers that are able to establish that remittance by EFT would cause a hardship to their organization.

2. Requests for approval shall be directed to the Deputy Executive Director of the Tax Commission.

3. Sellers that receive approval to remit their sales taxes by cash equivalent shall ensure that the cash equivalent is received at the Tax Commission's main office no later than three working days prior to the due date of the sales tax.

H. Sellers that are required to remit sales taxes by EFT, but remit these taxes by some means other than EFT or a Tax Commission approved cash equivalent, are not entitled to reimbursement for the cost of collecting and remitting sales taxes and are subject to penalties.

I. Prior to remittance of sales taxes by EFT, a vendor shall complete an EFT agreement with the Tax Commission. The EFT Agreement shall indicate that all EFT payments shall be made in one of the following manners.

1. Except as provided in I.2., sellers shall remit their EFT payment by an ACH-debit transaction through the National Automated Clearing House Association (NACHA) system CCD application.

2. If an organization's bylaws prohibit third party access to its bank account or extenuating circumstances exist, a seller may remit its EFT payment by an ACH-credit with tax payment addendum transaction through the NACHA system CCD Plus application.

J. In unusual circumstances, a particular EFT payment may be accomplished in a manner other than that specified in I. Use of any manner of remittance other than that specified in I. must be approved by the Tax Commission prior to its use.

K. If a seller that is required to remit sales taxes by EFT is unable to remit a payment of sales taxes by EFT because the system for remitting payments by EFT fails, the seller may remit its sales taxes by cash equivalent. A seller shall notify the Waivers Unit of the Tax Commission if this condition arises.

**R865-19S-87. Government-Owned Tooling and Equipment Exemption Pursuant to Utah Code Ann. Section 59-12-104.**

The following definitions apply to the sales and use tax exemption for sales of certain tooling, special tooling, support equipment, and special test equipment.

(1) "Tooling" means jigs, dies, fixtures, molds, patterns, taps, gauges, test equipment, other equipment, and other similar manufacturing aids generally available as stock items.

(2) "Special Tooling" means jigs, dies, fixtures, molds, patterns, taps, gauges, other equipment and manufacturing aids, and all components of these items that are of such a specialized nature that without substantial modification or alteration their use is limited to the development or production of particular supplies or parts thereof or

performing particular services.

(3) "Support equipment" means implements or devices that are required to inspect, test, service, adjust, calibrate, appraise, transport, safeguard, record, gauge, measure, repair, overhaul, assemble, disassemble, handle, store, actuate or otherwise maintain the intended functional operation status of an aerospace electronic system.

(4) "Special test equipment" means either single or multipurpose integrated test units engineered, designed, fabricated, or modified to accomplish special purpose testing in performing a contract. These testing units may be electrical, electronic, hydraulic, pneumatic, or mechanical. Or they may be items or assemblies of equipment that are mechanically, electrically, or electronically interconnected so as to become a new functional entity, causing the individual item or items to become interdependent and essential in performing special purpose testing in the development or production of peculiar supplies or services.

**R865-19S-90. Telephone Service Pursuant to Utah Code Ann. Section 59-12-103.**

A. Definitions.

1. "Interstate" means a transmission that originates in this state but terminates in another state, or a transmission that originates in another state but terminates in this state.

2. "Intrastate" means a transmission that originates and terminates in this state, even if the route of the transmission signal itself leaves and reenters the state. Prepaid telephone services or service contracts are presumed to be used for intrastate telephone services unless the service contract is sold exclusively for use in interstate communications.

3. "Two-way transmission" includes any services provided over a public switched network.

B. Taxable telephone service charges include:

1. subscriber access fees;
2. charges for optional telephone features, such as call waiting, caller ID, and call forwarding; and
3. nonrecurring charges that are ordinarily charged to subscribers only once or only under exceptional circumstances, including charges to:
  - a) establish, change, or disconnect telephone service or optional features; and
  - b) repair telephone equipment that retains its character as tangible personal property.

C. Nontaxable charges include:

1. refundable subscriber deposits, interest, and late payment penalties;
2. charges for interstate long distance or toll calls;
3. telephone answering services received or relayed by a human operator;
4. charges to repair subscriber equipment that is regarded as real property;
5. charges levied on subscribers to fund or subsidize special telephone services, including 911 service, special communications services for the deaf, and special telephone service for low income subscribers;
6. contributions in aid of construction, land development fees, payments in lieu of land development fees, and special plant construction and relocation charges; and
7. charges for one-way pager services.

**R865-19S-91. Sales of Tangible Personal Property to Government Project Managers and Supply Contractors Pursuant to Utah Code Ann. Sections 59-12-102, 59-12-103, and 59-12-104.**

A. Sales of tangible personal property or services as defined in Sections 59-12-102 and 59-12-103 to federal, state, or municipal government facilities managers or supply contractors, who are not employees or agents of that

government entity, are subject to sales or use tax if the manager or contractor uses or consumes the property. Tax is due even though a contract vests title in the government.

B. A person qualifies as an agent for purchasing on behalf of a government entity if the person and the government entity enter into a contract that includes the following conditions:

1. The person is officially designated as the government entity's purchasing agent by resolution of the government entity;
2. The person identifies himself as a purchasing agent for the government entity;
3. The purchase is made on purchase orders that indicate the purchase is made by or on behalf of the government entity and the government entity is responsible for the purchase price;
4. The transaction is approved by the government entity; and
5. Title passes directly to the government entity upon purchase.

C. If the government entity makes a direct payment to the vendor for the tangible personal property or services, the sale is made to the government entity and not to the facilities manager or the supply contractor. In that case, the sale is not subject to sales tax.

D. Certain purchases made by aerospace or electronic industry contractors dealing with the United States are exempted by Section 59-12-104(15) and further covered by R865-19S-87. Therefore, these industry purchases are not covered by this rule.

**R865-19S-92. Computer Software and Other Related Transactions Pursuant to Utah Code Ann. Section 59-12-103.**

A. "Computer-generated output" means the microfiche, microfilm, paper, discs, tapes, molds, or other tangible personal property generated by a computer.

B. The sale, rental or lease of prewritten computer software constitutes a sale of tangible personal property and is subject to the sales or use tax regardless of the form in which the software is purchased or transferred.

C. The sale, rental or lease of custom computer software constitutes a sale of personal services and is exempt from the sales or use tax, regardless of the form in which the software is purchased or transferred. Charges for services such as software maintenance, consultation in connection with a sale or lease, enhancements, or upgrading of custom software are not taxable.

D. The sale of computer generated output is subject to the sales or use tax if the primary object of the sale is the output and not the services rendered in producing the output.

**R865-19S-93. Waste Tire Recycling Fee Pursuant to Utah Code Ann. Section 19-6-808.**

A. The waste tire recycling fee shall be paid by the retailer to the State Tax Commission at the same time and in the same manner as sales and use tax returns are filed. The sales tax account number will also be the recycling fee account number. A separate return form will be provided.

1. The tire recycling fee will be imposed at the same time the sales tax is imposed. For example, if tires are purchased for resale either as part of a vehicle sale or to be sold separately by a vehicle dealer, the recycling fee and the sales tax would be collected by the dealer at the time the vehicle is sold. If sales tax is paid to a tire retailer by a vehicle dealer when tires are purchased, the recycling fee will also be paid by the vehicle dealer to the tire retailer.

2. Where tires are sold to entities exempt from sales tax, the exempt entity must still pay the recycling fee.

B. The recycling fee is not considered part of the sales price of the tire and is not subject to sales or use tax.

C. Wholesalers purchasing tires for resale are not subject to the fee.

D. Tires sold and delivered out of state are not subject to the fee.

E. Tires purchased from out of state vendors are subject to the fee. The fee must be reported and paid directly to the Tax Commission in conjunction with the use tax.

**R865-19S-94. Tips, Gratuities and Cover Charges Pursuant to Utah Code Ann. Section 59-12-103.**

A. Restaurants, cafes, clubs, private clubs, and similar businesses must collect sales tax on tips or gratuities included on a patron's bill and which are required to be paid, unless the total amount of the gratuity or tip is passed on to the waiter or waitress who served the customer. Tax on the required gratuity is due from private clubs, even though the club is not open to the public. Voluntary tips left on the table or added to a credit card charge slip are not subject to sales tax.

B. Cover charges to enter a restaurant, tavern, club or similar facility are taxable as an admission to a place of recreation, amusement or entertainment.

**R865-19S-96. Transient Room Tax Collection Pursuant to Utah Code Ann. Sections 59-12-103 and 59-12-301.**

A. Utah Code Ann. Section 59-12-301 authorizes any board of county commissioners to impose a transient room tax. The transient room tax shall be charged in addition to sales tax authorized in 59-12-103(1)(i).

B. The transient room tax shall be charged on the rental price of any motor court, motel, hotel, inn, tourist home, campground, mobile home park, recreational vehicle park or similar business where the rental period is less than 30 consecutive days.

C. The transient room tax is not subject to sales tax.

**R865-19S-98. Sales and Use Tax Exemption for Vehicles, Off-highway Vehicles, and Boats Required to be Registered, and Boat Trailers and Outboard Motors Pursuant to Utah Code Ann. Section 59-12-104.**

(1) "Use" means mooring, slipping, and dry storage as well as the actual operation of vehicles.

(2) An owner of a vehicle described in Subsections 59-12-104(9) or (31) may continue to qualify for the exemption provided by that section if use of the vehicle in this state is infrequent, occasional, and nonbusiness in nature.

(3) A vehicle is deemed not used in this state beyond the necessity of transporting it to the borders of this state if the vehicle is:

- (a) inspected in this state; or
- (b) tested for functionality in this state.

**R865-19S-99. Sales and Use Taxes on Vehicles Purchased in Another State Pursuant to Utah Code Ann. Sections 59-12-103 and 59-12-104(26), (28).**

A. No sales or use tax is due on vehicles purchased in another state by a resident of that state and transferred into this state if all sales or use taxes required by the prior state for the purchase of the vehicle have been paid. A valid, nontemporary registration card shall serve as evidence of such payment.

**R865-19S-100. Procedures for Exemption from and Refund of Sales and Use Taxes Paid by Religious and Charitable Institutions Pursuant to Utah Code Ann. Section 59-12-104.1.**

A. For purposes of Section 59-12-104.1(2)(b)(iii), "contract" does not include a purchase order.

B. Religious and charitable institutions may apply to the Tax Commission for a refund of Utah sales and use taxes paid no more often than on a monthly basis. Refund applications should be returned to the Tax Commission by the tenth day of the month for a timely refund.

C. Applications for refund of sales and use taxes shall be made on forms provided by the Tax Commission.

D. Religious and charitable institutions shall substantiate requests for refunds of sales and use taxes paid by retaining a copy of a receipt or invoice indicating the amount of sales or use taxes paid for each purchase for which a refund of taxes paid is claimed.

E. All supporting receipts required by D. must be provided to the Tax Commission upon request.

F. Original records supporting the refund claim must be maintained for three years following the date of refund.

G. Failure to pay any penalties and interest assessed by the Tax Commission may subject the institution to a deduction from future refunds of amounts owed, or revocation of the institution's exempt status as a religious or charitable institution, or both.

**R865-19S-101. Application of Sales Tax to Fees Assessed in Conjunction with the Retail Sale of a Motor Vehicle Pursuant to Utah Code Ann. Section 59-12-103.**

State-mandated fees and taxes assessed in conjunction with the retail sale of a motor vehicle are not subject to the sales tax and must be separately identified and segregated on the invoice as required by Tax Commission rule R877-23V-14.

**R865-19S-102. Calculation of Qualifying Exempt Electricity Sales to Ski Resorts Pursuant to Utah Code Ann. Section 59-12-104.**

A. When the sale of exempt electricity to a ski resort is not separately metered and accounted for in utility billings, the ski resort shall identify a methodology for the calculation of exempt electricity purchases, and shall submit that methodology to Internal Customer Support, Customer Service Division, of the Tax Commission for approval prior to its use.

B. When exempt electricity is not separately metered and accounted for in utility billings, a ski resort shall pay sales tax on all electricity at the time of purchase. The ski resort may then take a credit on its sales tax return for taxes paid on electricity that is determined to be exempt under this rule.

C. The provisions of this rule shall be retrospective to July 1, 1996.

**R865-19S-103. Municipal Energy Sales and Use Tax Pursuant to Utah Code Ann. Sections 10-1-303, 10-1-306, and 10-1-307.**

A. Definitions.

1. "Gas" means natural gas in which those hydrocarbons, other than oil and natural gas liquids separated from natural gas, that occur naturally in the gaseous phase in the reservoir are produced and removed at the wellhead in gaseous form.

2. "Supplying taxable energy" means the selling of taxable energy to the user of the taxable energy.

B. Except as provided in C., the delivered value of taxable energy for purposes of Title 10, Chapter 1, Part 3, shall be the arm's length sales price for that taxable energy.

C. If the arm's length sales price does not include all components of delivered value, any component of the delivered value that is not included in the sales price shall be determined with reference to the most applicable tariffed price of the gas corporation or electrical corporation in closest proximity to the taxpayer.

D. The point of sale or use of the taxable energy shall normally be the location of the taxpayer's meter unless the taxpayer demonstrates that the use is not in a municipality imposing the municipal energy sales and use tax.

E. An energy supplier shall collect the municipal energy sales and use tax on all component parts of the delivered value of the taxable energy for which the energy supplier bills the user of the taxable energy.

F. A user of taxable energy is liable for the municipal energy sales and use tax on any component of the delivered value of the taxable energy for which the energy supplier does not collect the municipal energy sales and use tax.

G. A user of taxable energy who is required to pay the municipal energy sales and use tax on any component of the delivered value of taxable energy shall remit that tax to the Tax Commission:

1. on forms provided by the Tax Commission, and
2. at the time and in the manner sales and use tax is remitted to the Tax Commission.

H. A person that delivers taxable energy to the point of sale or use of the taxable energy shall provide the following information to the Tax Commission for each user for whom the person does not supply taxable energy, but provides only the transportation component of the taxable energy's delivered value:

1. the name and address of the user of the taxable energy;
2. the volume of taxable energy delivered to the user; and
3. the entity from which the taxable energy was purchased.

I. The information required under H. shall be provided to the Tax Commission:

1. on or before the last day of the month following each calendar quarter; and
2. for each user for whom, during the preceding calendar quarter, the person did not supply taxable energy, but provided only the transportation component of the taxable energy's delivered value.

**R865-19S-104. County Option Sales Tax Distribution Pursuant to Utah Code Ann. Section 59-12-1102.**

A. The \$75,000 minimum annual distribution required under Section 59-12-1102 shall be based on sales tax amounts collected by the counties from January 1 through December 31.

B. Any adjustments made to ensure the required minimum distribution shall be reflected in the February distribution immediately following the end of the calendar year.

**R865-19S-105. Procedures for Refund of Sales and Use Taxes Paid on Food Donated to a Qualified Emergency Food Agency Pursuant to Utah Code Ann. Section 59-12-902.**

A. A qualified emergency food agency may apply to the Tax Commission for a refund of Utah sales and use taxes paid on food donated to that entity no more often than on a monthly basis. Refund applications should be submitted to the Tax Commission by the tenth day of the month for a timely refund.

B. Applications for refund of sales and use taxes shall be made on forms provided by the Tax Commission.

C. Original records supporting the refund claim must be maintained by the qualified emergency food agency for three years following the date of refund.

D. Failure to pay any penalties and interest assessed by the Tax Commission may subject the qualified emergency food agency to a deduction from future refunds of amounts

owed.

**R865-19S-107. Reporting of Exempt Sales or Purchases Pursuant to Utah Code Ann. Section 59-12-105.**

The amount of purchases or uses exempt under Sections 59-12-104(14) and 59-12-104(51) shall be reported to the commission by the person that purchases the items exempt from sales or use tax under those subsections.

**R865-19S-108. User Fee Defined Pursuant to Utah Code Ann. Section 59-12-103.**

A. For purposes of administering the sales or use tax on admission or user fees provided for in Section 59-12-103, "user fees" includes charges imposed on an individual for access to the following, if that access occurs at any location other than the individual's residence:

1. video or video game;
2. television program; or
3. cable or satellite broadcast.

B. The provisions of this rule are effective for transactions occurring on or after October 1, 1999.

**R865-19S-109. Sales Tax Nature of Veterinarians' Purchases and Sales Pursuant to Utah Code Ann. Sections 59-12-103 and 59-12-104.**

A. Purchases of tangible personal property by a veterinarian are exempt from sales and use tax if the property will be resold by the veterinarian.

1. Except as provided in E., a veterinarian must collect sales tax on tangible personal property that the veterinarian resells.

B. Purchases of tangible personal property by a veterinarian are subject to sales and use tax if the property will be used or consumed in the veterinarian's practice.

C. The determination of whether a veterinarian's purchase of food, medicine, or vitamins is a sale for resale or a purchase that will be used or consumed in the veterinarian's practice shall be made by the veterinarian.

1. For food, medicine, or vitamins that the veterinarian will resell, the veterinarian shall comply with A.

2. For food, medicine, or vitamins that the veterinarian will use or consume in the veterinarian's practice, the veterinarian shall comply with B.

D. A veterinarian is not required to collect sales and use tax on:

1. medical services;
2. boarding services; or
3. grooming services required in connection with a medical procedure.

E. Sales of tangible personal property by a veterinarian are exempt from sales and use tax if:

1. the sales are exempt from sales and use tax under Section 59-12-104; and
2. the veterinarian obtains from the purchaser a certificate as set forth in rule R865-19S-23.

F. If a sale by a veterinarian consists of items that are subject to sales and use tax as well as items or services that are not taxable, the nontaxable items or services must be separately stated on the invoice or the entire sale is subject to sales and use tax.

**R865-19S-110. Advertisers' Purchases and Sales Pursuant to Utah Code Ann. Section 59-12-103.**

A. "Advertiser" means a person that places advertisements in a publication, broadcast, or electronic medium, regardless of the name by which that person is designated.

1. A person is an advertiser only with respect to items actually placed in a publication, broadcast, or electronic

medium.

B. All purchases of tangible personal property by an advertiser are subject to sales and use tax as property used or consumed by the advertiser.

C. The tax treatment of an advertiser's purchase of graphic design services shall be determined in accordance with rule R865-19S-111.

D. An advertiser's charges for placement of advertisements are not subject to sales and use tax.

**R865-19S-111. Graphic Design Services Pursuant to Utah Code Ann. Section 59-12-103.**

A. Graphic design services are not subject to sales and use tax:

1. if the graphic design is the object of the transaction; and
2. even though a representation of the design is incorporated into a sample or template that is itself tangible personal property.

B. Except as provided in C., if a vendor provides both graphic design services and tangible personal property that incorporates the graphic design:

1. there is a rebuttable presumption that the tangible personal property is the object of the transaction; and
2. the vendor must collect sales and use tax on the graphic design services and the tangible personal property.

C. A vendor that provides both graphic design services and tangible personal property that incorporates the graphic design is not required to collect sales tax on the graphic design services if the vendor subcontracts the production of the tangible personal property to an independent third party.

D. A vendor that provides nontaxable graphic design services and taxable tangible personal property under C. must separately state the nontaxable graphic design services or the entire sale is subject to sales and use tax.

**R865-19S-113. Sales Tax Obligations of Jeep, Snowmobile, Aircraft, and Boat Tour Operators, River Runners, Outfitters, and Other Sellers Providing Similar Services Pursuant to Utah Code Ann. Sections 59-12-103 and 59-12-107.**

(1) "Federal airway" shall be identical to the definition of Class E airspace in 14 C.F.R. 71.71 (2006), which is incorporated by reference.

(2) Except as provided in Subsections (3) and (4), the provisions of this rule apply to the imposition of sales and use tax under Section 59-12-103 on amounts paid or charged as admission or user fees by jeep, snowmobile, aircraft and boat tour operators, river runners, outfitters, and other sellers providing similar services.

(3) Amounts paid or charged for helicopter, airplane, or other aircraft tours that enter into airspace designated by the Federal Aviation Administration as a federal airway during the tour are exempt from the sales and use tax.

(a) The exemption described in Subsection (3) does not apply if the only time the aircraft enters a federal airway is prior to the commencement of the tour or after the tour ends.

(b) A tour is deemed to occur from the time a paying customer is picked up to the time the paying customer is dropped off at the final destination point.

(4) Amounts paid or charged for boat tours, scenic cruises, or other similar activities on the waters of the state are exempt from sales and use tax if the waters on which the tour, cruise, or other similar activity operates are used, by themselves or in connection with other waters, as highways for interstate commerce.

(5) If payment for a service provided by a seller described in (2) occurs in Utah and the service originates or terminates in Utah, the seller shall collect Utah sales and use

tax on the entire amount of the transaction.

(6) If payment for a service provided by a seller described in (2) occurs outside Utah and the entire service occurs in Utah, the seller shall collect Utah sales and use tax on the entire amount of the transaction.

(7) If payment for a service provided by a seller described in (2) occurs outside Utah and the service originates or terminates outside Utah, the seller is not required to collect Utah sales and use tax on the transaction.

(8) Payment occurs in Utah if the purchaser:

- (a) while at a business location of the seller in the state, presents payment to the seller; or
- (b) does not meet the criteria under (8)(a) and is billed for the service at an address within the state.

(9) For purposes of this rule, there is a rebuttable presumption that payment for a service provided by a seller described in (2) occurs in Utah.

**R865-19S-114. Items that Constitute Clothing Pursuant to Utah Code Ann. Section 59-12-102.**

A. "Clothing" includes:

1. aprons for use in a household or shop;
2. athletic supporters;
3. baby receiving blankets;
4. bathing suits and caps;
5. beach capes and coats;
6. belts and suspenders;
7. boots;
8. coats and jackets;
9. costumes;
10. diapers, including disposable diapers, for children and adults;
11. ear muffs;
12. footlets;
13. formal wear;

  - I. shin guards;
  - J. shoulder pads;
  - K. ski boots;
  - L. waders; and
  - M. wetsuits and fins.

**R865-19S-117. Use of Rounding in Determining Sales and Use Tax Liability Pursuant to Utah Code Ann. Section 59-12-118.**

- A. The computation of sales and use tax must be:
  - 1. carried to the third place; and
  - 2. rounded to a whole cent pursuant to B.
- B. The tax shall be rounded up to the next cent whenever the third decimal place of the tax liability calculated under A. is greater than four.
- C. Sellers may compute the tax due on a transaction on an:
  - 1. item basis; or
  - 2. invoice basis.
- D. The rounding required under this rule may be applied to aggregated state and local taxes.

**R865-19S-118. Collection of Municipal Telecommunications License Tax Pursuant to Utah Code Ann. Section 10-1-405.**

A. The commission shall transmit monies collected under Title 10, Chapter 1, Part 4, Municipal Telecommunications License Tax Act:

- 1. monthly; and
- 2. by electronic funds transfer to the municipality that imposes the tax.

B. The commission shall conduct audits of the municipal telecommunications license tax with the same frequency and diligence as it does with the state sales and use tax.

C. The commission shall charge a municipality for the commission's services in an amount:

- 1. sufficient to reimburse the commission for the commission's cost of administering, collecting, and enforcing the municipal telecommunications license tax; and
- 2. not to exceed an amount equal to 1.5 percent of the municipal telecommunications license tax imposed by the ordinance of the municipality.

D. The commission shall collect, enforce, and administer the municipal telecommunications license tax pursuant to the same procedures used in the administration, collection, and enforcement of the state sales and use tax as provided in Subsection 10-1-405(1)(a).

**R865-19S-119. Certain Transactions Involving Food and Lodging Pursuant to Utah Code Ann. Sections 59-12-103 and 59-12-104.**

A. The provisions of this rule apply to a seller that:

- 1. is not a restaurant; and
  - 2. provides a purchaser both food and lodging.
- B. If a seller does not separately state an amount for tax applicable to food on the invoice, the seller must:
- 1. pay sales and use tax on the food at the time the seller purchases the food; and
  - 2. include the food in the base that is subject to transient room tax.

C. Subject to D., if a seller separately states an amount for tax applicable to food on the invoice, the seller:

- 1. may purchase the food tax exempt from sales and use tax as a sale for resale; and
- 2. may not include the food in the base that is subject to transient room tax.

D. A seller that separately states an amount for tax applicable to food on the invoice must ensure that those amounts are accurately reflected in the seller's records.

**R865-19S-120. Sales and Use Tax Exemption Relating to Film, Television, and Video Pursuant to Utah Code Ann. Section 59-12-104.**

(1) The provisions of this rule apply to the sales and use tax exemption authorized under Section 59-12-104 for the purchase, lease, or rental of machinery or equipment by certain establishments related to film, television, and video if those purchases, leases, or rentals are primarily used in the production or postproduction of film, television, video, or similar media for commercial distribution.

(2) "Machinery or equipment" means tangible personal property eligible for capitalization under accounting standards.

(3)(a) "Tangible personal property eligible for capitalization under accounting standards" means tangible personal property with an economic life greater than one year.

(b) "Tangible personal property eligible for capitalization under accounting standards" does not include tangible personal property with an economic life of one year or less, even if that property is capitalized on the establishment's financial records.

(c) There is a rebuttable presumption that an item of tangible personal property is not eligible for capitalization if

that property is not shown as a capitalized asset on the financial records of the establishment.

(4) Transactions that do not qualify for the sales tax exemption referred to in Subsection (1) include purchases, leases, or rentals of:

- (a) land;
- (b) buildings;
- (c) raw materials;
- (d) supplies;
- (e) film;
- (f) services;
- (g) transportation;
- (h) gas, electricity, and other fuels;
- (i) admissions or user fees; and
- (j) accommodations.

(5) If a transaction is composed of machinery or equipment and items that are not machinery or equipment, the items that are not machinery or equipment are exempt from sales and use tax if the items are:

(a) an incidental component of a transaction that is a purchase, lease, or rental of machinery or equipment; and

(b) not billed as a separate component of the transaction.

(6)(a) Except as provided in Subsection (6)(b), an item used for administrative purposes does not qualify for the exemption.

(b) Notwithstanding Subsection (6)(a), if an item is used both in the production or postproduction process and for administrative purposes, the item qualifies for the exemption if the primary use of the item is in the production or postproduction process.

**R895. Technology Services, Administration.****R895-7. Acceptable Use of Information Technology Resources.****R895-7-1. Purpose.**

Information technology resources are provided to state employees to assist in the efficient day to day operations of state agencies. Employees shall use information technology resources in compliance with this rule.

**R895-7-2. Application.**

All agencies of the executive branch of state government including its administrative sub-units, except the State Board of Education and the Board of Regents and institutions of higher education, shall comply with this rule.

**R895-7-3. Authority.**

This rule is issued by the Chief Information Officer under the authority of Section 63F-1-206 of the Utah Technology Governance Act, Utah Code, and in accordance with Section 63-46a-3 of the Utah Rulemaking Act, Utah Code.

**R895-7-4. Employee and Management Conduct.**

(1) Providing IT resources to an employee does not imply an expectation of privacy. Agency management may:

(a) View, authorize access to, and disclose the contents of electronic files or communications, as required for legal, audit, or legitimate state operational or management purposes;

(b) Monitor the network or email system including the content of electronic messages, including stored files, documents, or communications as are displayed in real-time by employees, when required for state business and within the officially authorized scope of the person's employment.

(2) An employee may engage in incidental and occasional personal use of IT resources provided that such use does not:

(a) Disrupt or distract the conduct of state business due to volume, timing, or frequency;

(b) Involve solicitation;

(c) Involve for-profit personal business activity;

(d) Involve actions, which are intended to harm or otherwise disadvantage the state; or

(e) Involve illegal and/or activities prohibited by this rule.

(3) An employee shall:

(a) comply with the Government Records Access and Management Act, as found in Section 63-2-101 et seq., Utah Code, when transmitting information with state provided IT resources.

(b) Report to agency management any computer security breaches, or the receipt of unauthorized or unintended information.

(4) While using state provided IT resources, an employee may not:

(a) Access private, protected or controlled records regardless of the electronic form without management authorization;

(b) Divulge or make known his/her own password(s) to another person;

(c) Distribute offensive, disparaging or harassing statements including those that might incite violence or that are based on race, national origin, sex, sexual orientation, age, disability or political or religious beliefs;

(d) Distribute information that describes or promotes the illegal use of weapons or devices including those associated with terrorist activities;

(e) View, transmit, retrieve, save, print or solicit sexually-oriented messages or images;

(f) Use state-provided IT resources to violate any local,

state, or federal law;

(g) Use state-provided IT resources for commercial purposes, product advertisements or "for-profit" personal activity;

(h) Use state-provided IT resources for religious or political functions, including lobbying as defined according to Section 36-11-102, Utah Code, and rule R623-1;

(i) Represent oneself as someone else including either a fictional or real person;

(j) Knowingly or recklessly spread computer viruses, including acting in a way that effectively opens file types known to spread computer viruses particularly from unknown sources or from sources from which the file would not be reasonably expected to be connected with;

(k) Create and distribute or redistribute "junk" electronic communications, such as chain letters, advertisements, or unauthorized solicitations.

(5) Once agency management determines that an employee has violated this rule, they may impose disciplinary actions in accordance with the provisions of DHRM rule R477-11-1.

**R907. Transportation, Administration.****R907-1. Appeal of Departmental Actions.****R907-1-1. General Administrative Procedures.**

All applications, Requests for Agency Action, and appeals from Notices of Agency Action shall be processed as informal adjudicative proceedings pursuant to Title 63, Chapter 46b, Utah Administrative Procedures Act (UAPA), unless another rule specifically designates a proceeding as formal or either party requests conversion to a formal proceeding and the presiding officer decides that conversion is in the public interest and does not prejudice the rights of any party. An evidentiary hearing will be held only for formal adjudicative proceedings. However, nothing in this rule is intended to prohibit the presiding officer from holding a meeting of all parties for purposes of settlement, fleshing out of the issues, oral argument, or presentation of evidence. Adjudicative proceedings are subject to agency review or appeal pursuant to Utah Code Ann. Section 63-46b-12 only when statute or a rule specifically provides for review. This rule does not apply to employee grievances, personnel actions, or requests for records under the Governmental Records Access and Management Act (GRAMA). When used in these rules, "director" means Presiding Officer except when used as Executive Director.

**R907-1-2. Commencement by department -- Notice of Agency Action -- Procedures.**

(1) An adjudicative proceeding commenced by the department is initiated by a Notice of Agency Action, which the department shall mail or personally deliver to the person or persons against whom the action is proposed to be taken (respondents). UDOT shall publish the Notice of Agency Action if required by statute, any other rule, or the Utah Transportation Commission.

(2) A Notice of Agency Action shall include the following information:

(a) the names and mailing addresses of all respondents and any other persons to whom notice is being given;

(b) the department's file number or other reference number;

(c) a name or caption of the adjudicative proceeding, i.e., Utah Department of Transportation, Motor Carrier Safety Division v. XXXX Trucking Company;

(d) the date on which the Notice was placed in U.S. Mail, or personally served upon the respondents;

(e) a statement that, if the person requests an appeal of the agency action, the adjudicative proceeding will be conducted informally pursuant to these rules unless either the department or the respondent requests conversion to a formal adjudicative proceeding and the appropriate presiding officer identified in R907-1-3(2) grants the request;

(f) a statement of the legal authority and jurisdiction under which the adjudicative proceeding is to be maintained;

(g) the name, title, mailing address, and telephone number of the office initiating the Notice of Agency Action and the appropriate hearing officer;

(h) a general statement of the purpose of the adjudicative proceeding and, to the extent known, the questions to be decided;

(i) if the department is proposing to assess a fine or penalty, the amount of the fine or penalty and a summary of the evidence supporting the proposed amount;

(j) a statement that the respondent is entitled to agency review if he or she files a Request for Agency Appeal with the initiating division or office within 30 days from the date the Notice is deposited in U.S. Mail or personally served.

(3) Absent filing of a timely request, the department will issue an order that the respondent is in default. If the defaulting party is the sole respondent, the Notice of Agency

Action will then become the department's final order. The initiating division, office, or appropriate hearing officer shall revise the Notice of Agency Action to effect this change, captioning the Notice as the Final Order, affixing the appropriate signature the new date. The department may not change the contents in any substantive manner. However, the final order shall include a provision that notifies the respondent of his right to judicial review. The department shall then either mail or personally serve the respondent with a copy of the default order and the final order.

(4) If the defaulting party is not the sole respondent, the initiating division, office, or the appropriate hearing officer shall mail the Order of Default to all parties. The adjudicative proceeding may continue and the department may determine all issues in the proceeding, including those affecting the defaulting party.

(5) A defaulting party may seek agency review of an Order of Default by appealing to the appropriate hearing officer identified in R907-1-3(2). If the Order of Default was issued by that hearing officer, then the defaulting party must seek reconsideration of the Order of Default pursuant to R907-3-1. The sole issue is whether entering default was appropriate.

**R907-1-3. Commencement by a member of the public -- Complete or Partial Denials of Applications or Requests for Agency Action -- Default.**

(1) If the Department denies, either completely or in part, an application or Request for Agency Action and that action is subject to agency appeal, the division or office issuing the denial shall send to the applicant a written reply as promptly as possible. The reply should include a brief summary of the reasons for the decision along with a listing of any statutes or rules that were interpreted or relied upon for it, along with UDOT's file or reference number. It shall advise the applicant of his or her right to request agency review by filing a written request with the initiating division or office within 30 days after issuance of the notice. In addition, the reply shall inform the applicant that his written request for appeal must include any supporting documentation, including legal memoranda, that he or she wishes to be considered. The reply shall constitute the proposed order of the division or office making the decision and shall so indicate on the reply. If there is no appeal within 30 days, it shall become the final order of the department.

(2) Upon receiving a Request for Agency Appeal, the division or office shall first evaluate it to determine whether it meets the requirements of Utah Code Ann. Section 63-46b-12(1)(b), i.e., whether it is signed, states the grounds upon which review is requested, the relief sought, and stating the date upon which it was mailed. If the request does not meet the statutory requirements, or was received at the division or office after the 30-day appeals period, it shall be returned to the sender with explanation as to the reason for the return. If the request meets the statutory requirements, the division or office shall promptly forward the material and a copy of any relevant material in its files to:

(a) the State Operations Engineer, if the action involves Title 72, Chapter 7, Part 5, Utah Outdoor Advertising Act;

(b) the deputy Director, if the action involves Title 72, Chapter 9, Motor Carrier Safety Act;

(c) the Project Development Director or designee, if the matter relates to:

(i) construction contract disputes; or

(ii) construction bids or the Disadvantaged Business Enterprise (DBE) program, in which case, the agency review also constitutes "administrative reconsideration" under federal regulation;

(d) the Region Director, if the action involves

something other than the items listed in Subsections (a), (b), or (c), and a specific appellate procedure is not otherwise specified in these rules or in statute;

(e) the Executive Director or designee, if the action involves something other than the items listed in subsections (a), (b), (c), or (d) and was initiated by Department personnel located at Department headquarters at the Calvin Rampton Complex.

(3) The positions listed above shall be the respective presiding officers. However, either the Executive Director or deputy Director may designate another to act as a substitute. Additionally, when called to preside over adjudicative proceeding that involves access management or has potential "takings" or inverse condemnation implications, the Region Director may designate a group of individuals either to advise on the issue or to take over presiding officer duties. If the Region Director designates a group to take over presiding officer duties, he or she shall appoint:

(a) an odd-numbered group so that any decision will not result in a tie; and

(b) a chairperson.

(4) The person who issued the appealed order may not be included in either of the groups established in paragraph (3). However, the person who issued the decision may be consulted, asked for the reasons underlying his decision, and called as a witness if the proceeding is converted to a formal one.

(4) Absent filing of a timely Request for Agency Appeal, the department will issue an order that the respondent is in default. If the defaulting party is the sole respondent, the Request for Agency Action will be dismissed. The department shall either mail a copy of the default order and the dismissal order to the person who requested the action.

(5) If the defaulting party is not the sole requester, the initiating division, office, or the appropriate hearing officer shall mail the Order of Default to all parties. The adjudicative proceeding may continue and the department may determine all issues in the proceeding, including those affecting the defaulting party.

(6) A defaulting party may seek agency appeal of an Order of Default by appealing to the presiding. If the Order of Default was issued by that officer, then the defaulting party must seek reconsideration of the Order of Default pursuant to R907-1-5. The sole issue is whether entering default was appropriate.

#### **R907-1-4. Administrative Appeals -- Procedures.**

(1) Discovery is prohibited, but subpoenas may be issued for the production of necessary evidence. Upon request, the applicant shall have access to information contained in the agency's files and to all materials and information gathered in any investigation, except as otherwise provided by law.

(2) Within 20 days after receipt of a request for agency review, any party, including the division or office that issued the original decision, may submit additional documentation, which may include legal briefs, to the person required to decide on review. The person deciding on review may grant either party an extension of time. The decision should be made on the record appearing after the responses have been submitted, but the party may meet with the parties, if he or she considers it necessary. This meeting is not a hearing as contemplated under Title 63, Chapter 46b, Utah Administrative Procedures Act.

(3) The person deciding the review shall issue a final agency order as promptly as possible. The order shall contain:

(a) a designation of the statute or rule permitting or requiring review;

(b) a statement of the issues reviewed;

(c) findings as fact as to each of the issues;

(d) conclusions of law as to each of the issues;

(e) the reasons for the disposition;

(f) whether the decision of the division or office initiating the decision is affirmed, reversed, modified, or remanded;

(g) the right to judicial review pursuant to Utah Code Ann. Section 63-46b-15 by filing a complaint in district court within 30 days.

#### **R907-1-5. Reconsideration.**

(1) Within 20 days after issuance of the final order, any party may request reconsideration, stating the specific grounds upon which relief is requested.

(2) The person filing the request shall mail a copy to each party.

(3) The executive Director, or his designee, shall issue a written order either denying or granting the request. If no order is issued within 20 days, the request shall be considered denied. If the request is granted in any part and a new final order is issued, it shall include the same information listed in R907-1-4, or R907-1-6 if the matter concerned motor carriers.

#### **R907-1-6. Administrative Procedures for Motor Carrier Actions.**

(1) When a motor carrier appeals the imposition of a penalty under Title 72, Chapter 9, Motor Carrier Safety Act, he or she shall follow the procedures established in R907-1. This proceeding is an informal adjudicative proceeding under Title 63, Chapter 46b, Utah Administrative Procedures Act; therefore, discovery is prohibited, but the administrative hearing officer may issue subpoenas or other orders to compel production of necessary evidence. The Department shall provide the applicant, upon request, information in the agency's files, including records that are part of any investigation unless those records are otherwise made confidential or protected from disclosure.

(2) If the proceeding is converted to a formal adjudicative proceeding and an evidentiary hearing held, the Department's deputy Director may act as the administrative hearing officer. He may also designate another in his stead. At the hearing, the motor carrier shall go first and is burdened to show why the Department's civil penalties should not be assessed. The division shall respond, with the motor carrier being given an opportunity to rebut the division's evidence. If the administrative hearing officer decides doing so will be beneficial to his understanding of the issues, he may allow closing statement or arguments and he may tape the proceedings. The rules of evidence do not apply.

(3) The person deciding the review shall issue a final agency order as promptly as possible. The order shall contain:

(a) a designation of the statute or rule permitting or requiring review;

(b) a statement of the issues reviewed;

(c) findings as fact as to each of the issues;

(d) conclusions of law as to each of the issues;

(e) the reasons for the disposition;

(f) whether the decision of the division or office initiating the decision is affirmed, reversed, modified, or remanded;

(g) the right to judicial review pursuant to Utah Code Ann. Section 63-46b-15 by filing a complaint in district court within 30 days.

#### **R907-1-7. Formal Process and Hearing: Initiation.**

(1) If, notwithstanding R907-1-1, the department wishes to initiate an adjudicative proceeding as a formal proceeding,

the formal hearing process shall be conducted as follows:

(2) A Notice of Agency Action shall include the following information:

(a) the names and mailing addresses of all respondents and any other persons to whom notice is being given;

(b) the department's file number or other reference number;

(c) a name or caption of the adjudicative proceeding, i.e., Utah Department of Transportation, Motor Carrier Safety Division v. XXXX Trucking Company;

(d) the date on which the Notice was placed in U.S. Mail, or personally served upon the respondents;

(e) a statement of the legal authority and jurisdiction under which the adjudicative proceeding is to be maintained;

(f) the name, title, mailing address, and telephone number of the office initiating the Notice of Agency Action and the appropriate hearing officer;

(g) a general statement of the purpose of the adjudicative proceeding and, to the extent known, the questions to be decided;

(h) if the department is proposing to assess a fine or penalty, the amount of the fine or penalty and a summary of the evidence supporting the proposed amount;

(i) A statement that the adjudicative proceeding is to be conducted formally according to the provisions of these Rules and Sections 63-46b-6 to 63-46b-11;

(j) A statement that a written response must be filed within 30 days of the mailing date of the Notice of Agency Action;

(k) A statement of the time and place of the hearing, a statement of the purpose for which the hearing is to be held, and a statement that a party who fails to attend or participate in the hearing may be held in default;

(3) Absent filing of a timely request, the department will issue an order that the respondent is in default. If the defaulting party is the sole respondent, the Notice of Agency Action will then become the department's final order. The initiating division, office, or appropriate hearing officer shall revise the Notice of Agency Action to effect this change, captioning the Notice as the Final Order, affixing the appropriate signature the new date. The department may not change the contents in any substantive manner. However, the final order shall include a provision that notifies the respondent of his right to judicial. The department shall then either mail or personally serve the respondent with a copy of the default order and the final order.

(4) If the defaulting party is not the sole respondent, the initiating division, office, or the appropriate hearing officer shall mail the Order of Default to all parties. The adjudicative proceeding may continue and the department may determine all issues in the proceeding, including those affecting the defaulting party.

(5) A defaulting party may seek agency review of an Order of Default by appealing to the appropriate hearing officer identified in R907-1-3(2). If the Order of Default was issued by that hearing officer, then the defaulting party must seek reconsideration of the Order of Default pursuant to R907-3-1. The sole issue is whether entering default was appropriate.

#### **R907-1-8. Formal Process and Hearing: Responses.**

In all formal adjudicative proceedings, the respondent shall file and serve a written response signed by the respondent or a representative within 30 days of the mailing date of the Notice of Agency Action that shall include:

- (1) UDOT's file number or other reference number;
- (2) The name of the adjudicative proceeding;
- (3) A statement of the relief that the respondent seeks;
- (4) A statement of the facts; and

(5) A statement summarizing the reasons that the relief requested should be granted.

(6) The response shall be filed with UDOT and one copy shall be sent by mail to each party.

(7) All papers permitted or required to be filed under these rules shall be filed with UDOT and one copy shall be sent by mail to each party.

(8) In the discretion of the Presiding Officer Director, any respondent may be heard without written pleadings or an order of default may be entered pursuant to the Rules below.

#### **R907-1-9. Formal Process and Hearing: Intervention.**

(1) Order Granting Leave to Intervene Required. Any person, not a party, desiring to intervene in a formal proceeding shall obtain an order from the presiding officer granting leave to intervene before being allowed to participate. Such order shall be requested by means of a signed, written petition to intervene which shall be filed with UDOT by the time a response is due as prescribed in R907-1-7 and a copy promptly mailed to each party. Any petition to intervene or materials filed after the date a response is due, may be considered by the presiding officer only upon separate motion of the intervenor made at or before the hearing for good cause shown.

(2) Content of Petition. Petitions for leave to intervene must identify the proceedings. The petition must contain a statement of facts demonstrating that the petitioner's legal rights or interest are substantially affected by the formal adjudicative proceeding, or that the petitioner qualifies as an intervenor under any provision of law. Additionally, the petition shall include a statement of the relief, including the basis thereof, that the petitioner seeks from the presiding officer.

(3) Response to Petition. Any party to a proceeding in which intervention is sought may make an oral or written response to the petition for intervention. Such response shall state the basis for opposition to intervention and may suggest limitations to be placed upon the intervenor if intervention is granted. The response must be presented or filed at or before the hearing.

(4) Granting of Petition. The presiding officer shall grant a petition for intervention if he or she determines that:

(a) The petitioner's legal interests may be substantially affected by the formal adjudicative proceeding; and

(b) The interests of justice and the orderly and prompt conduct of the adjudicative proceedings will not be materially impaired by allowing the intervention.

(5) Order Requirements.

(a) Any order granting or denying a petition to intervene shall be in writing and sent by mail to the petitioner and each party.

(b) An order permitting intervention may impose conditions on the intervenor's participation in the adjudicative proceeding that are necessary for a just, orderly, and prompt conduct of the adjudicative proceeding.

(c) The presiding officer may impose conditions at any time after the intervention.

(d) If it appears during the course of the proceeding that an intervenor has no direct or substantial interest in the proceeding and that the public interest does not require the intervenor's participation therein, the presiding officer may dismiss the intervenors from the proceeding.

(e) In the interest of expediting a hearing, the presiding officer may limit the extent of participation of an intervenor. Where two or more intervenors have substantially like interests and positions, the presiding officer may at any time during the hearing limit the number of intervenors who will be permitted to testify, cross-examine witnesses or make and argue motions and objections.

**R907-1-10. Formal Process and Hearing: Conduct of Hearings.**

All hearings before the Presiding Officer Director shall be governed by the following procedures:

(1) Public Hearings. All hearings Director shall be open to the public, unless otherwise ordered by the Presiding Officer Director for good cause shown. All hearings shall be open to all parties

(2) Full Disclosure. The Presiding Officer Director shall regulate the course of the hearing to obtain full disclosure of relevant facts and to afford all the parties a reasonable opportunity to present their positions.

(3) Rules of Evidence. The Director shall use as appropriate guides, the Utah Rules of Evidence insofar as the same may be applicable and not inconsistent with these rules. Notwithstanding this, on its own motion or upon objection of a party, the Director:

(a) May exclude evidence that is irrelevant, immaterial, or unduly repetitious.

(b) Shall exclude evidence privileged in the courts of Utah.

(c) May receive documentary evidence in the form of a copy or excerpt if the copy or excerpt contains all pertinent portions of the original document.

(d) May take official notice of any facts that could be judicially noticed under the Utah Rules of Evidence, of the record or other proceedings before the agency, and of technical or scientific facts within the agency's specialized knowledge.

(4) Hearsay. Notwithstanding subsection C. above, the Director may not exclude evidence solely because it is hearsay.

(5) Parties Rights. The Director shall afford to all parties the opportunity to present evidence, argue, respond, conduct cross-examination, and submit rebuttal evidence.

(6) Public Participation. The Director may give persons not a party to the adjudicative proceeding the opportunity to present oral or written statements at the hearing.

(7) Oath. All testimony presented at the hearing, if offered as evidence to be considered in reaching a decision on the merits, shall be given under oath.

(8) Failure to Appear. When a party to a proceeding fails to appear at a hearing after due notice has been given, the Director may enter an order of default in accordance with the Rules described hereinabove.

(9) Time Limits. The Director may set reasonable time limits for the participants of the hearing.

(10) Continuances of the Hearing. Any hearing may be continued to a time and date certain announced at the hearing, which shall not require any new notification. The continuance of the hearing may be made upon motion of a party indicating good cause why such a continuance is necessary and not due to the fault of the party requesting the continuance. The continuance of the hearing may also be made by the request of the Director when in the public interest.

(11) Oral Argument and Briefs. Upon the conclusion of the taking of evidence, the Director may, at his discretion, permit the parties to make oral arguments or submit additional briefs or memoranda upon a schedule to be designated by the Director.

(12) Record of Hearing. The Director shall cause an official record of the hearing to be made, at the agency's expense, as follows:

(a) The record may be made by means of a certified shorthand reporter employed by the Director or by a party desiring to employ a certified shorthand reporter at its own cost in the event that the Director chooses not to employ a reporter. If a party employs a certified shorthand reporter, the

original transcript of the hearing shall be filed with the Director. Parties desiring a copy of the certified shorthand reporter's transcript may purchase it from the reporter.

(b) The record of the proceedings may also be made by means of a tape recorder or other recording device if the Director determines that it is unnecessary or impracticable to employ a certified shorthand reporter and the parties do not desire to employ a certified shorthand reporter. Any party, at its own expense, may have a person approved by the Director prepare a transcript of the hearing, subject to any restrictions that the Director is permitted by statute to impose to protect confidential information disclosed at the hearing. Whenever a transcript or tape recording of a hearing is made, it will be made available at the appropriate UDOT office for use, but may not be taken out of the office. If the party agrees to pay the costs, the Department will make a copy to give to them.

(13) Preserving Integrity. This section does not preclude the Director from taking appropriate measures necessary to preserve the integrity of the hearing.

(14) Summons, Witness Fees and Discovery. The Director may allow appropriate witness fees as provided by statute or rule.

(a) Summons. The Director may issue a summons or subpoena on its own motion, or upon request of a party, shall issue summons or subpoenas for the attendance of witnesses and the production of any pertinent paper, book, record, document, or other appropriate discovery of evidence.

(b) Discovery. Upon the motion of a party and for good cause shown that it is to obtain relevant information necessary to support a claim or defense, the Director may authorize such manner of discovery against another party or person, including the UDOT staff, as may be prescribed by and in the manner provided by the Utah Rules of Civil Procedure.

(c) Construction. Nothing in this section restricts or precludes any investigative right or power given to the Transportation Commission or Director by law.

**R907-1-11. Formal Process and Hearing: Decisions and Orders.**

Decision. The Director shall sign and issue an order that includes:

(1) A statement of the Director's findings of fact, conclusions of law and decision, based exclusively on the evidence of the record in the adjudicative proceedings or on facts officially noted;

(2) A statement of the reasons for the Director's decision;

(3) A statement of any relief ordered;

(4) A notice of the right to apply for reconsideration;

(5) A notice of any right to administrative or judicial review of the order available to aggrieved parties; and

(6) The time limits applicable to any reconsideration or review.

(7) Preparation of Order. The Director may direct the prevailing party to prepare proposed findings of fact, conclusions of law and an order consistent with the requirements of this rule, which shall be completed within ten days of the direction, unless otherwise instructed by the Director. Copies of the proposed findings of fact, conclusions of law and order shall be served by the prevailing party upon all parties of record prior to being presented by the Director for signature. Notice of objection thereto shall be submitted to the Director and all parties of record within ten days of service.

(8) Entry of Order. The Director shall sign the order and cause the same to be entered and indexed in books kept for that purpose. The order shall be effective on the date of issuance, unless otherwise provided in the order. Upon the petition of a person subject to the order and for good cause

shown, the Director may extend the time for compliance fixed in its order.

(9) Evaluation of Evidence. The Director may use his expertise, technical competence, and specialized knowledge to evaluate the evidence.

(10) Hearsay. No finding of fact that was contested may be based solely on hearsay evidence.

(11) Interim Orders. This section does not preclude the Director from issuing interim orders to:

(a) Notify the parties of further hearings;

(b) Notify the parties of provisional rulings on a portion of the issues presented; or

(c) Otherwise provide for the fair and efficient conduct of the adjudicative proceeding.

(12) Notice. The Director shall notify all parties to the proceeding of its decision. A copy of the order with accompanying findings of fact and conclusions of law shall be delivered or mailed to each party.

#### **R907-1-12. Formal Process and Hearing: Reconsideration and Modification of Existing Orders.**

(1) Time for Filing. Within 20 days after the date that a final order is issued in the formal adjudicative process, any party may file a written request for reconsideration, rehearing, stating the specific grounds upon which relief is requested.

(2) Not Prerequisite for Judicial Review. Unless otherwise provided by law, the filing of the request for reconsideration is not a prerequisite for seeking judicial review of the order.

(3) Mailing Requirement. The request for reconsideration shall be filed with the Director. One copy shall be sent by mail, within three days of said filing, to each party by the person making the request.

(4) Contents of Petition. A petition for reconsideration shall set forth specifically the particulars in which it is claimed the Director's order or decision is unlawful, unreasonable, or unfair. If the petition is based upon a claim that the Director failed to consider certain evidence, it shall include an abstract of that evidence. If the petition is based upon newly discovered evidence, then the petition shall be accompanied by an affidavit setting forth the nature and extent of such evidence, its relevancy to the issues involved, and a statement that the party could not, with reasonable diligence, have discovered the evidence prior to the hearing.

(5) Response to Petition. All other parties to the proceeding upon which a reconsideration is sought may file a response to the petition no later than ten days from the filing of the petition. A copy of such responses shall be mailed to the petitioner by the person so responding on the date the response is filed.

(6) Action on the Petition. The Director is authorized to act upon the petition for reconsideration. If the Director does not issue an order within 20 days after the filing of the request, the request for reconsideration shall be considered denied. The Director may, by written order, set a time for hearing on said petition or deny the petition.

(7) Modification of Existing Orders. A request for modification or amendment of an existing order of the Director shall be treated as a new Request for Agency Action for the purposes of these Rules. Such request for modification or amendment shall include as directly affected persons all parties to the previous adjudicative proceeding and their successors in interest.

#### **R907-1-13. Declaratory Rulings.**

(1) Petition for Declaratory Orders. Any person may petition the Director for a declaratory order on the applicability of any administrative rule, regulation or order as well as any provision of the Utah Code within the jurisdiction

of UDOT, which relate to the operations or activities of that person. The petition shall include the questions and answers sought and reasons in support of or in opposition to the applicability of the statute, rule, regulation or order involved.

(2) Not Subject to Declaratory Rulings. The Director shall not issue a declaratory ruling if:

(a) The person requesting the declaratory ruling participated in an adjudicative proceeding concerning the same issue within 12 months of the date of the present request; or

(b) There would be substantial prejudice to the rights of a person who would be a necessary party unless that person consents in writing to the determination of the matter by a declaratory proceeding.

(3) Intervention. Persons may intervene in declaratory proceedings if they meet the requirements of R907-1-9 hereinabove.

(4) Forms of Rulings. After receipt of a petition for a declaratory order, the Director may issue a written order:

(a) Declaring the applicability of the statute, rule, regulation or order in question to the specified circumstances; or

(b) Decline to issue a declaratory order and state the reasons for its action.

(5) Contents of Order. A declaratory order shall contain:

(a) The names of all parties to the proceeding on which it is based;

(b) The particular facts on which it is based; and

(c) The reasons for its conclusion.

(6) Mailing of Order. A copy of all orders issued in response to a request for a declaratory proceeding shall be mailed promptly to the petitioner and any other parties.

(7) Binding Effect. A declaratory order has the same status and binding effect as any other order issued in an adjudicative proceeding.

(8) Time Limit. Unless the petitioner and the Director agree in writing to an extension, if the Director has not issued a declaratory order within 60 days after receipt of the request for a declaratory order, the petition is denied.

#### **R907-1-14. Emergency Orders.**

Emergency orders will be issued in accordance with the following guidelines: notwithstanding the other provisions of these Rules, the Director or any member of the Transportation Commission is authorized to issue an emergency order without notice and hearing in accordance with applicable law. The emergency order shall remain in effect no longer than until the next regular meeting of the Transportation Commission, or such shorter period of time as shall be prescribed by statute.

(1) Prerequisites for Emergency Order. The following must exist to allow an emergency order:

(a) The facts known to the Director or Commission member or presented to the Director or Commission member show that an immediate and significant danger to the public health, safety, or welfare exists; and

(b) The threat requires immediate action by the Director or Commission member.

(2) Limitations. In issuing its Emergency Order, the Director or Commission member shall:

(a) Limit its order to require only the action necessary to prevent or avoid the danger to the public health, safety, or welfare;

(b) Issue promptly a written order, effective immediately, that includes a brief statement of findings of fact, conclusions of law, and reasons for the Director or Commission member's utilization of emergency adjudicative proceedings;

(c) Give immediate notice to the persons who are required to comply with the order; and

(d) If the emergency order issued under this section will result in the continued infringement or impairment of any legal right or interest of any party, the Director shall commence a formal adjudicative proceeding before the Director in accordance with R907-1.

**R907-1-15. Exhaustion of Administrative Remedies.**

(1) Persons must exhaust their administrative remedies in accordance with Section 63-46b-14, prior to seeking judicial review.

(2) In any adjudicative proceeding before the Director, there is an opportunity for affected parties to respond and participate. Only those aggrieved parties that so exhausted these available and adequate remedies before the Director may be allowed to seek judicial review of the final Director action.

**R907-1-16. Deadline for Judicial Review.**

A party shall file a petition for judicial review of final agency action within 30 days after the date that the order constituting the final agency action is issued. The petition shall name the agency and all other appropriate parties as respondents and shall meet the form requirements specified in Title 63, Chapter 46b.

**R907-1-17. Judicial Review of Formal Adjudicative Proceedings.**

Judicial review of formal adjudicative proceedings shall be conducted in conformance with Sections 63-46b-16 through 63-46b-18.

**R907-1-18. Civil Enforcement.**

(1) Agency Action. In addition to other remedies provided by law and other Rules of the Transportation Commission or UDOT, the Commission or UDOT may seek enforcement of an order by seeking civil enforcement in the district courts subject to the following:

(a) The action seeking civil enforcement must name, as defendants, each alleged violator against whom civil enforcement is sought.

(b) Venue for an action seeking civil enforcement shall be determined by the Utah Rules of Civil Procedure.

(c) The action may request, and the court may grant, any of the following:

- (i) Declaratory relief;
- (ii) temporary or permanent injunctive relief;
- (iii) any other civil remedy provided by law; or
- (iv) any combination of the foregoing.

(2) Individual Action. Any person whose interests are directly impaired or threatened by the failure of an agency to enforce its order may timely file a complaint seeking civil enforcement of that order. The complaint must name as defendants, the agency whose order is sought to be enforced, the agency that is vested with the power to enforce the order, and each alleged violator against whom the plaintiff seeks civil enforcement. The action may not be commenced:

(a) Until at least 30 days after the plaintiff has given notice of its intent to seek civil enforcement of the alleged violation to the Commission or UDOT, the attorney general, and to each alleged violator against whom the petitioner seeks civil enforcement;

(b) If the Commission or UDOT has filed and is diligently prosecuting a complaint seeking civil enforcement of the same order against the same or similarly situated defendant;

(c) If a petition for judicial review of the same order has been filed and is pending in court.

**R907-1-19. Waivers.**

Notwithstanding any other provision of these rules, any procedural matter, including any right to notice or hearing, may be waived by the affected person by a signed, written waiver in a form acceptable to UDOT. This waiver provision may not be construed to prohibit a finding of default as defined in these rules.

**R907-1-20. Construction.**

The Utah Administrative Procedures Act described in Title 63, Chapter 46b or any other federal, state statute, or federal regulation shall supersede any conflicting provision of these Rules. It is the Department's intent that, where possible, the provisions of these rules be construed to be in compliance with those superseding provisions.

**R907-62. Americans with Disabilities Act.**  
**R907-62-1. Authority and Purpose.**

(1) The Department of Transportation, pursuant to 28 CFR 35.107, adopts, defines, and publishes within this rule complaint procedures providing for prompt and equitable resolution of complaints filed in accordance with Title II of the Americans With Disabilities Act.

(2) The provision of 28 CFR 35, implements of Title II of the Americans With Disabilities Act, 42 U.S.C. 12201, which provides that no qualified individual with a disability, by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of a public entity, or be subjected to discrimination by this or any such entity.

**R907-62-2. Definitions.**

(1) "The ADA Coordinator" means the Department's coordinator or his designee who has responsibility for investigating and providing prompt and equitable resolution of complaints filed by qualified individuals with disabilities.

(2) "The ADA State Coordinating Committee" means that committee with representatives designated by the directors of the following agencies:

- (a) Office of Planning and Budget;
- (b) Department of Human Resource Management;
- (c) Division of Risk Management;
- (d) Division of Facilities Construction Management; and
- (e) Office of the Attorney General.

(3) "Disability" means with respect to an individual with a disability, a physical or mental impairment that substantially limits one or more of the major life activities of such an individual; a record of such an impairment; or being regarded as having such an impairment.

(4) "Major life activities" means functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

(5) "Individual with a disability" (hereinafter individual) means a person who has a disability which limits one of his major life activities and who meets the essential eligibility requirement for the receipt of services or the participation in programs or activities provided by a public entity, or who would otherwise be an eligible applicant for vacant state positions, as well as those who are employees of the state.

(6) "Public Entity" means the Utah Department of Transportation.

**R907-62-3. Filing of Complaints.**

(1) The complaint shall be filed in a timely manner to assure prompt, effective assessment and consideration of the facts, but no later than 180 days from the date of the alleged act of discrimination.

(2) The complaint shall be filed with the department's ADA Coordinator in writing or in another accessible format suitable to the individual.

(3) Each complaint shall:

- (a) include the individual's name and address;
- (b) include the nature and extent of the individual's disability;
- (c) describe the department's alleged discriminatory action in sufficient detail to inform the department of the nature and date of the alleged violation;
- (d) describe the action and accommodation desired; and
- (e) be signed by the individual or by his legal representative.

(4) Complaints filed on behalf of classes or third parties shall describe or identify by name, if possible, the alleged victims of discrimination.

**R907-62-4. Investigation of Complaint.**

(1) The ADA coordinator shall conduct an investigation of each complaint received. The investigation shall be conducted to the extent necessary to assure all relevant facts are determined and documented. This may include gathering all information listed in R907-62-3(3) if it is not made available by the individual.

(2) When conducting the investigation, the coordinator may seek assistance from the department's legal, human resource and budget staff in determining what action, if any, shall be taken on the complaint. Before making any decision that would involve:

- (a) an expenditure of funds which is not absorbable within the agency's budget and would require appropriation authority;
- (b) facility modifications; or
- (c) reclassification or reallocation in grade; the coordinator shall consult with the ADA State Coordinating Committee.

**R907-62-5. Issuance of Decision.**

(1) Within 15 working days after receiving the complaint, the ADA Coordinator shall issue a decision outlining in writing or in another acceptable suitable format stating what action, if any, shall be taken on the complaint.

(2) If the coordinator is unable to reach a decision within the 15 working day period, he shall notify the individual with a disability in writing or by another acceptable suitable format why the decision is being delayed and what additional time is needed to reach a decision.

**R907-62-6. Appeals.**

(1) The individual may appeal the decision of the ADA Coordinator by filing an appeal within five working days from the receipt of the decision.

(2) The appeal shall be filed in writing with the department's executive director or a designee other than the department's ADA Coordinator.

(3) The filing of an appeal shall be considered as authorization by the individual to allow review of all information, including information classified as private or controlled, by the department's executive director or designee.

(4) The appeal shall describe in sufficient detail why the coordinator's decision is in error, is incomplete or ambiguous, is not supported by the evidence, or is otherwise improper.

(5) The executive director or designee shall review the factual findings of the investigation and the individual's statement regarding the inappropriateness of the coordinator's decision and arrive at an independent conclusion and recommendation. Additional investigations may be conducted if necessary to clarify questions of fact before arriving at an independent conclusion. Before making any decision that would involve:

- (a) an expenditure of funds which is not absorbable and would require appropriation authority;
- (b) facility modifications; or
- (c) reclassification or reallocation in grade; he/she shall also consult with the State ADA Coordinating Committee.

(6) The decision shall be issued within ten working days after receiving the appeal and shall be in writing or in another accessible suitable format to the individual.

(7) If the executive director or his designee is unable to reach a decision within the ten working day period, he shall notify the individual in writing or by another acceptable suitable format why the decision is being delayed and the additional time needed to reach a decision.

**R907-62-7. Classification of Records.**

The record of each complaint and appeal, and all written

records produced or received as part of such actions, shall be classified as protected as defined under Section 63-2-304 until the ADA coordinator, executive director, or their designees issue the decision at which time any portions of the record which may pertain to the individual's medical condition shall remain classified as private as defined under Section 63-2-302 or controlled as defined in Section 63-2-303. All other information gathered as part of the complaint record shall be classified as private information. Only the written decision of the coordinator, executive director or designees shall be classified as public information.

**R907-62-8. Relationship to Other Laws.**

This rule does not prohibit or limit the use of remedies available to individuals under the State Anti-Discrimination Complaint Procedures, Section 67-19-32; the Federal ADA Complaint Procedures 28 CFR Subpart F, beginning with Part 35.170; or any other Utah State or federal law that provides equal or greater protection for the rights of individuals with disabilities.

**R907-63-2. Procedure to Collect for Damage to Highways.**

(1) Upon notification of damage to UDOT property, the Utah Department of Transportation shall repair or replace it.

(2) All costs associated with the repair or replacement of damaged property shall then be billed to the owner of the vehicle causing the damage, or to the person directly responsible for the damage.

(3) If the damage is caused by a vehicle, the person responsible shall pay the bill.

(4) If payment is not received by UDOT within 60 days of billing, the UDOT may pursue payment by one of the following means:

(a) UDOT may pursue collection of a delinquent account in accordance with Sections 63A-3-301 through 63A-3-310, Accounts Receivable Collection.

(b) The account may be turned over to a collection agency for immediate collection.

(5) In cases where undue financial pressure would be caused by full payment of a bill, the owner of the vehicle or person responsible for damage may arrange to make installment payments on the debt.

**R907-63-3. Eligible Region Recovery Costs.**

The appropriate region may seek recovery of all costs associated with an incident for traffic control, maintenance and repair when such work is performed by region work forces to maintain the integrity of the highway system, structure, or restore the system and facilities to preexisting condition.

**R907-63-4. Eligible Division Recovery Costs.**

When damage is to a bridge structure:

(1) The Structures Division shall accumulate all costs for preparing engineering estimates, design plans, and costs associated with publication, preparation and advertising for bids, plus engineering overhead costs.

(2) The Structures Division shall award the project to the lowest responsive and qualified bidder and include all eligible region charges and submit to UDOT Risk Management for recovery process.

**R907-63-5. Department Settlement Policy.**

(1) It shall be the Department's intent to secure full recovery from the responsible party(s) based on the full actual cost of such repairs to the structure or highway system damaged including all indirect costs associated with or resulting from an occurrence.

(2) The Department may at its discretion elect to accept settlement based on detailed engineering estimates and any direct or indirect costs associated with or resulting from an occurrence when it deems it is in the best interest of the motoring public and tax payer to delay or forgo repairs to the structure.

(3) The Department may submit to the Attorney General any claim for recovery, which is in dispute, requesting legal action be taken to recover the State's losses and settle such claims based on the laws of liability or as directed by the courts.

**R907. Transportation, Administration.****R907-66. Administration, Architecture/Engineering Services Procurement, Consultant Services -- Eligibility of Costs for Reimbursement -- Bonuses or Incentive Compensation.****R907-66-1. Purpose.**

This rule establishes whether bonuses or incentive compensation allowed as costs incurred in cost-reimbursable contracts with consultant engineering firms and are, therefore, eligible for reimbursement by UDOT.

**R907-66-2. Authority.**

The provisions of this rule are authorized by Title 63, Chapter 46a, Utah Administrative Rulemaking Act; Utah Code Ann. Section 63-56-13; and Utah Code Ann. Section 72-1-201.

**R907-66-3. Definitions.**

(1) "FAR" means the Federal Acquisition Regulations contained in Title 48 of the Code of Federal Regulations.

(2) Key management officers means:

(a) owners, presidents, chief executive officers, or other individuals who act in a similar management capacity;

(b) the four most highly compensated individuals in senior management (non-ownership) positions; and

(c) the five most highly paid individuals in senior management positions at each intermediate home office or branch if the consultant firm is organizationally subdivided into intermediate home offices or branch offices and their normal compensation, without including the bonus or incentive compensation, falls within the top 5 percent of all employees in the company.

**R907-66-4. Bonus/Incentive Cost Limitation For Consultant Architecture/Engineering.**

(1) Bonuses or incentive compensation for key management officers are not eligible for reimbursement.

(2) Bonuses or incentive compensation for non-key management officers and employees may be eligible for reimbursement if:

(a) the consultant enters into an agreement with its employees pursuant to an established plan or policy before the services are rendered;

(b) the agreement establishes the terms by which the consultant pays bonuses or incentive compensation to employees;

(c) the basis for payment of bonuses or incentive compensation is supported and documented; and

(d) the bonuses or incentive compensation are reasonable.

(3) UDOT will remove ineligible bonus/incentive compensation from the overhead cost pool when developing the allowable overhead/indirect cost rate. The consultant firm shall submit annual audit reports to verify that indirect costs and overhead rates comply with Section 31 of FAR and UDOT's own administrative rules, policies, or contractual provisions.

**R907-66-5. Financial Screening.**

(1) To verify that the calculated overhead and hourly billing rates comply with FAR, UDOT conducts an initial financial screening and approval of consultants desiring to submit a Statement of Qualification (SOQ) for architecture and engineering service contracts.

(2) Consultants shall update their financial screening information by submitting a new completed financial screening application and related information to the Consultant Services Division. The consultant shall file the updated applications annually, on the anniversary date of the

initial filing.

**R907-66-6. Contract Negotiations.**

(1) UDOT negotiates consultant contracts with the firm it considers most qualified to provide such services, using guidelines developed by the Consultant Services Division. UDOT prepares independent estimates of the value of such services for use in negotiations.

(2) Negotiations follow state and federal procurement procedures and are based on compensation that UDOT considers fair and reasonable. Negotiations will end when UDOT decides that it cannot agree on terms with the first most qualified firm. UDOT will then begin negotiations with the next most qualified firm. This process continues until either mutually agreeable terms are negotiated or UDOT chooses to begin the selection process again to identify other firms qualified to provide such services.

(3) The guidelines for both selection and negotiations are public information and can be obtained by contacting the Consultant Services Division.

**R907-66-7. Award of Contracts.**

UDOT awards the contract to the best qualified consultant with which it can negotiate a fair and reasonable cost as required by state rules and FAR and in accordance with UDOT selection procedures and guidelines.

**R907-66-8. Execution of Contracts.**

UDOT considers no contract effective until funding has been approved and all signature lines have been filled in with the appropriate officer's signature.

**R909. Transportation, Motor Carrier.****R909-1. Safety Regulations for Motor Carriers.****R909-1-1. Adoption of Federal Regulations.**

(1) Safety Regulations for Motor Carriers, 49 CFR Parts 350 through 399 and Part 40, as contained in the April 1, 2005 Code of Federal Regulations, is incorporated by reference, except for Parts 391.11(b)(1), 391.49, 395.1(k), 395.1(l), 395.1(m) and 395.1(n). These requirements apply to all motor carrier(s) as defined in 49 CFR Part 390.5, excluding commercial motor vehicles which are designed or used to transport more than 8 and less than 15 passengers (including the driver) for compensation and UCA 72-9-102(2) engaged in commerce.

(2) In the instance of a driver who is used primarily in the transportation of construction materials and equipment, as defined under 395.2, to and from an active construction site, any period of 7 or 8 consecutive days may end with the beginning of any off-duty period of 34 or more successive hours.

(3) Intrastate trucking operations in which the carriers operate double trailer combinations only are not required to comply with 49 CFR Part 380.203(2).

(4) Exceptions to Part 391.41, Physical Qualification may be granted under the rules of Department of Public Safety, Driver's License Division, UCA 53-3-303.5 for intrastate drivers under R708-34.

(5) Drivers involved wholly in intrastate commerce shall be at least 18 years old. However, if they are transporting placarded amounts of hazardous materials or carrying 16 or more passengers, including the driver, they must be 21 years old.

(6) Drivers involved in interstate commerce shall be at least 21 years old.

**R909-1-2. Insurance for Private Intrastate/Interstate Motor Carriers.**

(1) "Private Motor Carrier" means a person who provides transportation of property or passengers by commercial motor vehicle and is not a for-hire motor carrier.

(2) All intrastate private motor carriers shall have a minimum amount of \$750,000 liability.

**R909-1-3. Implements of Husbandry.**

"Implements of Husbandry" is defined in Utah Code Ann. Section 41-1a-102(23) and must be in compliance with all provisions of Chapter 6, Title 41, Utah Code Annotated. Vehicles meeting this definition are exempt from 49 CFR Part 393 - Parts and Accessories Necessary for Safe Operations.

**R909. Transportation, Motor Carrier.****R909-16. Overall Motor Carrier Safety Standing.****R909-16-1. Purpose.**

To establish procedures and guidelines in obtaining an overall company safety standing from the Department and to prohibit motor carriers receiving an "unsatisfactory" standing from obtaining, holding, or working on state contracts; obtaining or retaining permitting privileges.

**R909-16-2. Definitions.**

In addition to definitions found in CFR Title 49 Parts 350 - 399, the following definitions are provided:

(1) "Commercial Motor Vehicle" means any self-propelled or towed motor vehicle used on a highway in interstate or intrastate commerce to transport passengers or property when the vehicle

(a) Has a gross vehicle weight rating or gross combination with of 10,001 pounds;

(b) Is designed or used to transport more than 15 passengers, including the driver;

(c) Is used in transporting material found by the Secretary of Transportation to be hazardous under 49 U.S.C. 5103 and transported in a quantity requiring placarding under the Federal Hazardous Material Regulations.

(2) "Compliance Review" means an on-site examination of motor carrier operations, such as driver's hours of service, maintenance and inspection, driver qualification, controlled substance and alcohol testing, commercial driver's license requirements, financial responsibility, accidents, hazardous materials, and other safety and transportation records to determine whether a motor carrier meets a safety fitness standard. If applicable, compliance with the commercial/economic regulations is reviewed also. A CR is intended to provide information to evaluate the safety performance and regulatory compliance of a company's operation.

(3) "Motor Carrier" means a company operating commercially within the state. The term includes a motor carrier's agents, officers and representatives as well as employees responsible for hiring, supervising, training, assigning, or dispatching of drivers and employees concerned with the installation, inspection, and maintenance of motor vehicle equipment and/or accessories.

(4) "Safety Rating" means a system by which a motor carrier's safety management controls are measured to determine compliance with the Federal Motor Carrier Safety Regulations, Title 49 Parts 350-399 and the Hazardous Material Regulations, Title 49, Parts 107-181 as determined through a State/Federal Compliance Review.

(5) "Safety Standing" means a system by which a motor carrier's overall safety fitness is determined by the Department. An overall company safety fitness is determined through an assessment of a company's compliance in the areas of permit conditions, accident rates and severity, number and severity of vehicle violations, and out-of-service rate.

**R909-16-3. Obtaining a "Satisfactory" Standing.**

A motor carrier shall receive a "satisfactory" standing from the Department if the company has an overall company safety fitness of "satisfactory." To meet this requirement, a motor carrier must meet the following conditions:

(1) Received a "satisfactory" rating from a State/Federal Compliance Review within the last 12 months prior to the request of standing;

(2) Maintained conditions set forth in the Utah Regulations for Legal and Permitted Vehicles;

(3) Does not have a recordable accident rate higher than the national average as defined by 49 CFR Appx. B to Part 385.

(4) The company vehicle out-of-service rate for the previous 12 months must be below the national average as defined by the Federal Motor Carrier Safety Administration;

(5) If the company hauls hazardous materials, compliance must be met as outlined in the Hazardous Materials Regulations, 49 CFR Part 171 - 180.

(6) Meet compliance with all federal, state, and local laws governing the operation of commercial motor carriers.

**R909-16-4. Determination of a company's overall "Unsatisfactory" Standing.**

A company may receive an overall company "unsatisfactory" standing by the Department if any the conditions outlined in R909-16-3 are not met.

**R909-16-5. Assignment of a "Provisional" Standing.**

The Department may issue a "provisional" standing to a motor carrier for which there is insufficient data to determine compliance with the Safety Standard and/or one which has not received a safety "rating" in accordance with the Federal Motor Carrier Safety Regulations, Title 49 Part 385.

**R909-16-6. Notification of Safety Standing.**

Notice of an "unsatisfactory" standing will be made to the motor carrier by the Department in writing within 30 days of determination.

**R909-16-7. Motor Carriers receiving an "Unsatisfactory" Standing.**

Motor carriers receiving an "unsatisfactory" standing are prohibited from:

(1) Bidding on State Contracts;

(2) Obtaining State Contracts;

(3) Retaining State Contracts;

(4) Obtaining permits from the Motor Carrier Division,

or

(5) Retaining permits issued by the Motor Carrier Division.

**R909-16-7. Cease and Desist Order - Registration Sanctions.**

The Department may issue cease and desist orders to any motor carrier that fails or neglects to comply with State and Federal Motor Carrier Safety Regulations or any part of this rule as authorized by Section 72-9-303.

**R909-16-8. Penalties and Fines.**

Any motor carrier that fails or neglects to comply with State or Federal Motor Carrier Safety Regulations or any part of this rule is subject to a civil penalty as authorized by Section 72-9-701 and 72-9-703.

**R909-16-9. Motor Carriers delinquent in paying civil penalties; prohibition on transportation.**

A motor carrier that has failed to pay civil penalties imposed by the Department, or has failed to abide by a payment plan, may be prohibited from operating commercial motor vehicles in intrastate or interstate commerce as authorized by 72-9-303.

**R909-16-10. Change to standing based upon corrective actions.**

(1) A motor carrier that has taken action to correct the deficiencies that resulted in an "unsatisfactory" standing may request a review at any time.

(2) The request must be made in writing and sent or faxed to: Motor Carrier Division, 4501 South 2700 West, Box 14820, Salt Lake City, Utah 84114-8240, Phone: (801) 965-4243, Fax: (801) 965-4211.

(3) The motor carrier must base this request upon evidence that it has taken corrective actions and that its operations currently meet the safety conditions as outlined in R909-3. The request must include a written description of corrective actions taken, and other documentation the carrier wishes the Department to consider.

(4) The Department will make a final determination in writing within 30 days after the request has been made based upon the documentation the motor carrier submits, and any additional relevant information.

(5) The Department will perform reviews of requests made by motor carriers within 45 days of the request.

**R909-16-11. Rights of Carriers to Appeal "Unsatisfactory" Standing.**

(1) A motor Carrier may appeal the Department's assessment of an "unsatisfactory" standing. The motor carrier must make a "petition to review" standing in writing. The petition must state why the proposed standing is believed to be in error and list all factual and procedural issues disputed. The petition may be accompanied by any information or documents the motor carrier is relying upon as the basis for its petition.

(2) The Department may request the petitioner to submit additional data and attend an Informal Rearing to discuss the standing. Failure to provide the information requested or to attend the Informal Review may result in dismissal of the petition.

(3) A motor carrier must make a request for a "petition to review" within 45 days of the date of the "unsatisfactory" standing was issued.

(4) The Department will notify the motor carrier in writing of its decision following the Administrative Review or Informal Review. The Department will complete its review within 15 days after the Administrative Review or Informal Review date.

(5) If after the Administrative Review or Informal Review, an agreement acceptable to the Division is not reached, a formal Notice of Agency Action will be entered against the carrier.

Under Utah Code 72-9-301 the Department in cooperation with the Department of Public Safety, Utah Highway Patrol Division are charged with ensuring commercial motor vehicles obey the Federal Motor Carrier Safety Regulations and Hazardous Material Regulations contained in Title 49, Code of Federal Regulations. This rule establishes a procedure for motor carriers to contest violations cited on roadside inspections conducted by the Utah Highway Patrol or Motor Carrier Division Personnel.

**R909-17-2. Definitions.**

In addition to the definitions found in CFR Title 49 Parts 350 - 399, the following definitions are provided:

- (1) "Division" means the Motor Carrier Safety Division
- (2) "Department" means the Utah Department of Transportation
- (3) "Administrative Review" means a proceeding in which a review board consisting of three members appointed by the Department in conjunction with the Transportation Commission evaluate the findings from the Division and comments from the motor carrier.

**R909-17-3. Request for Review.**

(1) A motor carrier may request the removal of a violation or the designation of the violation being an out-of-service item, cited on a CVSA Inspection. The request must be made in writing to: Deputy Administrator, Motor Carrier Division, 4501 South 2700 West, Box 148240, Salt Lake City, UT 84114-8240.

(2) This request must be accompanied with a list of factual and procedural issues that are in dispute and any information or documentation that supports such request. Documentation or statements from mechanics or vehicle manufactures may accompany the request.

(3) Upon receipt of such a request the Deputy Administrator shall evaluate the inspection, statements from the Inspector/Investigator which conducted the inspection, statements from the motor carrier and any evidence or statements that support its argument. carrier.

(4) The Deputy Administrator shall notify the motor carrier in writing of the decision within thirty (30) days of receipt of a request for review.

(5) The motor carrier will be notified in writing of the decision.

**R909-17-4. Motor Carrier Rights to Appeal.**

(1) If upon notification of the Deputy Administrator's decision, the motor carrier wishes to appeal the decision, written notification must be made to the Motor Carrier Administrator within thirty (30) days of being notified. The request must be sent or faxed to: Administrator, Motor Carrier Division, 4501 South 2700 West, Box 148240, Salt Lake City, Utah 84123, Phone: (801) 965-4781, Fax: (801) 965-4211.

(2) The request must state why the motor carrier feels the decision is not accurate, how they believe the inspector/investigator was in error at the time of the inspection, and provide documentation to support their claim.

(3) An Administrative Review will be held with the Motor Carrier Administrator, and a panel designated by the Administrator. The motor carrier may be asked to submit additional data and attend an Informal Review to discuss the cites being contested.

(4) If the motor carrier does not provide the information requested, or does not attend the Informal Review, the

Division may dismiss its request for review.

(5) The Division will notify the motor carrier in writing of its decision within 45 days of the Administrative Review or Informal Review.

(6) The decision constitutes final agency action.

**R916. Transportation, Operations, Construction.****R916-1. Advertising and Awarding Construction Contracts.****R916-1-1. Authority and Purpose.**

This rule establishes the procedures for the advertising and awarding of Utah Department of Transportation construction contracts. This rule is authorized under Sections 27-12-7, 27-12-108, 63-49-4, and Subsection 63-56-13(3).

**R916-1-2. Definitions.**

(1) Terms used in this rule are defined in Section 27-12-2.

(2) In addition, "Notice to Contractors" means the advertisement or public announcement inviting bids for work to be performed or materials to be furnished.

**R916-1-3. Invitation for Bids.**

(1) The department shall prepare a notice to contractors inviting bid proposals on each project. The notice to contractors shall specify the type of construction, the location, the principal items of work, and the bid opening time and date.

(2) The advertisement for bids shall be published for a minimum period of two weeks in a newspaper of general circulation in the county in which the work is to be performed.

(3) Contractors and suppliers may receive notice to contractors by requesting their name be placed on a distribution list which is maintained by the department.

**R916-1-4. Bidding Proposals, Plans and Specifications.**

(1) Bidding proposals, plans and specifications shall be available for inspection at all Region offices, Cedar City, Price, Richfield and Salt Lake City headquarters. Plans are available for sale (non-refundable fee) only at the Salt Lake City headquarters, Construction Division office.

(2) Prior to submitting a bid, the bidder shall become prequalified at least 10 working days prior to bid opening date, under Rule R916-2 concerning prequalification of contractors. Prequalification of bidders is not required on projects estimated under \$500,000.

(3) Prequalified contractors may obtain bidding proposals, plans and specifications and non-prequalified contractors may obtain non-bidding plans and specifications upon payment of a non-refundable fee as specified in the notice to contractors.

(a) Projects shall not be awarded when the sum of the amount of uncompleted work, both in and outside of the state of Utah, shown on the contractor's "Status of Work Under Contract" form and the bid amount submitted exceeds the amount for which the contractor is prequalified. This transaction is performed at the close of bid opening for all apparent low bidders, on all projects with an advertised engineer's estimate over \$500,000.

(b) Two or more contractors who have prequalified separately and desire to enter a joint bid on a single project may do so upon submitting a letter of intent to the department prequalification secretary at least four working days prior to bid opening. The prequalification of each contractor can then be considered for consolidation to place a bid as prime.

(4) If it is necessary to issue an addendum to the plans and specifications during the advertising period, the department shall call and fax a copy to the prime bidders, then mail a copy of the addendum by certified mail to each contractor holding bidding proposals. The department shall mail a copy of the addendum by first class mail to all other plan holders.

**R916-1-5. Bidding Requirements and Conditions.**

(1) Each bidder shall submit their proposal upon the forms furnished by the department.

(2) Sealed proposals shall be submitted to the department prior to the time and at the place specified in the notice to contractors.

(3) Proposals shall be opened and read publicly at the time and place indicated in the notice to contractors.

(4) No proposal shall be considered unless accompanied by a guaranty in the form of certified check, cashier's check or guaranty bond for not less than five percent of the total amount of the bid.

(5) Each bidder must comply with the laws of Utah relative to the licensing of contractors. A contractor's license is required prior to the submission of a bid, except that a contractor may submit a bid on a Federal-aid highway project without having first obtained a license, provided the contractor, prior to undertaking any construction under that bid (at time of official award notification), shall be licensed in Utah.

(6) The right to reject any or all proposals is reserved by the department.

**R916-1-6. Award of Contracts.**

(1) The department shall award the contract to the lowest responsible and qualified bidder.

(2) When all bids received exceed the engineer's estimate by more than 10%, the department reserves the right to either accept the low bid or to reject all bids.

(3) The award, if made, shall be within 30 days after the opening of proposals. The department may, subject to approval of the successful bidder, withhold the award beyond the 30 day time frame. After 30 days, if no award has been made, the contractor may withdraw their proposal without liability.

(4) The successful bidder shall be notified, by mail using the address shown on their proposal, that they have been awarded the contract.

(5) The department reserves the right to cancel the award of any contract at any time before the execution of the contract by all parties with no liability against the department.

**R916-1-7. Execution of Contracts.**

(1) Unless the bonds are waived pursuant to Subparagraph (6), when the contract is executed, the successful bidder shall furnish a performance bond and a payment bond, each in a sum equal to the full amount of the contract. Each bond shall be on the form provided by the department and shall be executed by a surety company or companies licensed by the state of Utah. These companies must be listed on the current United States Department of the Treasury Circular 570 as acceptable sureties on Federal bonds. The department shall make available to the public this Circular at the following locations: Construction Division, UDOT Library, and Internet.

(2) The contract shall be signed by the successful bidder and returned together with the fully executed contract bonds within 15 days after the contract has been awarded.

(3) Failure to execute a contract and file acceptable bonds within 15 days after the contract has been awarded shall be just cause for the cancellation of the award and the forfeiture of the proposal guaranty.

(4) If the contract is not executed by the Department within 30 days after receiving signed contracts and bonds, the bidder shall have the right to withdraw their bid without penalty.

(5) No contract shall be considered effective until it has been fully executed by all the parties thereto.

(6) In accordance with Utah Code Ann. Section 63-56-504, the Executive Director or designee may reduce or waive

the amount of the payment and performance bonds below the 100% normally required, if he or she determines that the circumstances are such that the normal bonding requirement is unnecessary to protect the State.

**R916. Transportation, Operations, Construction.****R916-2. Prequalification of Contractors.****R916-2-1. Authority and Purpose.**

This rule establishes procedure for prequalification of contractors desiring to submit bid proposals on Utah Department of Transportation construction projects. This rule is authorized under Section 72-1-201, and Subsection 63-56-13(3).

**R916-2-2. Definitions.**

(1) Terms used in this rule are defined in Section 72-1-102 and Subsection 63-56-13(3).

(2) In addition, "board" means the prequalification board, consisting of 4 positions: Department of Transportation comptroller, project development engineer, engineer for construction, and the construction administrative secretary.

**R916-2-3. Prequalification Policy.**

(1) Contractors desiring to submit bid proposals for construction contracts shall be prequalified by the department to ensure they have the resources and capability to successfully complete awarded contracts. Prequalification of contractors is not required for contracts that have an advertised estimate under \$500,000.

(2) Qualification ratings establish the type of construction work contractors may be permitted to perform and the maximum dollar value of contracts they are allowed to undertake at any one time.

(3) Contractors who attain a total prequalification of \$50,000,000 shall be classified as unlimited. Each contractor's prequalification shall be reviewed at least annually; more often if circumstances so warrant.

(4) Qualification ratings shall be based on evaluation of the contractor's:

- (a) experience;
- (b) past performance; and
- (c) analysis of certified audited financial statements, including balance sheet, income statements, and changes in financial condition.

(i) Unaudited financial statements accompanied by the company federal income tax return for the same time period may be accepted in lieu of the required certified audited financial statements, however, this shall result in a lower prequalification rating.

(5) Each bid proposal submitted shall include a complete "Status of Work Under Contract" form. The form shall include all work presently the responsibility of said contractor, both in and out of the state of Utah.

(a) Contractors with a prequalification amount classified as unlimited are exempt from this requirement.

(6) This policy shall be administered to ensure adequate competition in bidding for construction contracts.

**R916-2-4. Prequalification Board.**

(1) The Prequalification board is established to:

- (a) direct the prequalification of contractors;
  - (b) review and analyze prequalification applications;
- and

(c) establish the amount and type of prequalification to be granted to contractors.

**R916-2-5. Disqualification.**

(1) If the board determines a contractor is not performing in a satisfactory manner on projects, the board may disqualify the contractor from bidding on future projects for a period of time as the board may determine.

(2) Each contractor desiring to bid on a project shall be required to complete a "Status of Work Under Contract" form.

The form shall include all work, both in and out of the state of Utah, presently the responsibility of that contractor. If it is determined any contractor knowingly or negligently falsifies their "Status of Work Under Contract," they may be disqualified from bidding on projects for a period of time as the board may determine.

(3) Bonding companies that do not satisfactorily perform on contract bonds, as determined by the board, or are not listed in the Department of Treasury Circular 570, may be suspended from supplying bonds for projects for a period of time as the board may determine. The department shall make Circular 570 available to the public at the following locations: Construction Division, UDOT Library, and Internet.

(4) Any contractor or bonding company so suspended may appeal any decision of the board to the transportation commission.

**R916. Transportation, Operations, Construction.****R916-3. DESIGN-BUILD Contracts.****R916-3-1. Purpose.**

(1) This rule is to provide guidance under which the Utah Department of Transportation (UDOT) may use the DESIGN-BUILD approach to contracting pursuant to Utah Code Section 63-56-36.1. DESIGN-BUILD seeks to provide: a savings of time, cost, and administrative burden; improved quality expectations as to the end product, schedule, and budget; and risk management savings due to lack of duplication of expenses and improved coordination of efforts.

**R916-3-2. Authority.**

(1) The provisions of this rule are authorized by the following grants of rulemaking authority and provisions of Utah Code: Title 63, Chapter 56; Title 63, Chapter 46a; and Sections 72-1-201, 72-5-114, and 72-6-105.

**R916-3-3. Policy.**

(1) UDOT may use, where determined appropriate by the Executive Director, the DESIGN-BUILD method of project delivery. When DESIGN-BUILD is used, UDOT shall enter into a contract with a single entity to provide both engineering/design services, construction services, and/or maintenance services pursuant to a UDOT provided scope of work statement. DESIGN-BUILD is not recommended for every project. The use of the DESIGN-BUILD method may be determined by the individual needs and merits of the project.

**R916-3-4. Pre-qualification.**

(1) UDOT may issue a Request for Qualifications, RFQ, soliciting qualification statements from contractors wishing to submit proposals on a UDOT design-build project. The RFQ shall state the minimum and maximum number of highly qualified proposers that will be invited to submit final proposals.

(2) Pre-qualification shall be based on an evaluation of the criteria set forth in the RFQ, including construction experience; design experience; technical competence; capability to perform, including financial, manpower and equipment resources; experience in other design-build projects; and past performance.

(3) The field of competing proposers shall be narrowed to the most qualified proposers, not to exceed the number designated in the RFQ. Failure to achieve at least two qualified proposers shall necessitate the resolicitation of the project.

**R916-3-5. Preparation of Specifications.**

(1) UDOT may use any method of specifying construction items which the Executive Director determines is in the best interest of UDOT. Engineering firms who participated in preparation of specifications used in the procurement for a portion (but not all) of the project shall have the right to participate as proposers.

**R916-3-6. Request for Proposals (RFP).**

(1) The pre-qualified proposers shall be invited to submit proposals on the designated design-build project pursuant to an RFP. UDOT may elect to ask for initial proposals followed by discussions and best and final offers, or may elect to award the contract without discussions or best and final offers. The RFP may ask for proposals based on a stipulated sum.

(2) UDOT may award a stipulated fee to the proposers who submit responsive proposals but who are not selected for contract award. The amount of the fee (if any) shall be identified in the RFP.

(3) The RFP shall require separate technical and price proposals, meeting requirements as stated in the RFP. The RFP may require proposals to meet a mandatory technical level, and may include a request for alternative proposals.

(4) Technical solutions/design concepts contained in proposals shall be considered proprietary information unless a stipulated fee is paid.

**R916-3-7. Evaluation of Proposals and Discussions with Proposers.**

(1) UDOT shall evaluate the technical and price proposals separately, in accordance with the evaluation factors set forth in the RFP.

(2) UDOT may offer the proposers the opportunity to participate in presentations and/or discussions regarding their proposals. Discussions, either oral or in writing, may be held with proposers for the purpose of clarification of the proposals and/or to identify deficiencies in initial proposals. If presentations or discussions are held with one proposer, they must be held with all pre-qualified proposers.

(3) If discussions are held, best and final offers will be requested. If best and final offers are requested they will be the basis for award and will be evaluated as stated in the RFP.

**R916-3-8. Acceptable Bid Security; Performance and Payment Bonds.**

(1) The Executive Director shall have the right to waive the requirement to provide bid security, or may reduce the amount of such security, if he or she determines that the bid security otherwise required by Utah Code Sections 63-56-37 through 39 to be unnecessary to protect the State.

(2) The Executive Director shall have the right to reduce the amount of the payment and performance bonds below the 100% level required by Utah Code Sections 63-56-37 through 39, if he or she determines that a 100% bond is unnecessary to protect the State.

(3) Bid security, payment bonds and performance bonds must be provided on the forms included in the RFP.

**R916-3-9. Required Contract Clauses.**

The design-build contract documents shall include the contract clauses set forth in Utah Administrative Code R23-1-7, subject to such modifications as the Executive Director deems advisable. Any modifications shall be supported by a written determination of the Executive Director that describes the circumstances justifying the variations, and notice of any material variation shall be included in the RFP.

**R916-3-10. Award and Contract.**

The basis for award shall be stated in the RFP. Award may be based on any of the following approaches (all of which shall be deemed to constitute award to the lowest responsible bidder as such term is used in Utah Code Section 63-56-36.1(6)(b):

(1) Award to the responsible proposer offering the lowest priced responsive proposal. If the RFP includes a mandatory technical level, no proposal shall be considered responsive unless it meets that level.

(2) Award to the responsible proposer whose proposal is evaluated as providing the best value to UDOT.

(3) If the RFP provides for a stipulated sum, award to the responsible proposer whose proposal is evaluated as providing the best value to UDOT.

There is no requirement that a contract be awarded. Following award a contract shall be executed and notice given to the successful design-build proposer to proceed with the work.

**R926. Transportation, Program Development.****R926-2. Evaluation of Proposed Additions to or Deletions from the State Highway System.****R926-2-1. Authority.**

This rule establishes the procedure and criteria by which highways shall be considered for the addition to or deletion from the state highway system as required by Utah Code Ann. Section 72-4-102.5.

**R926-2-2. Purpose.**

The purpose of this rule is to establish the following:

- (1) a process for a highway authority to propose additions to or deletions from the state highway system;
- (2) a procedure for evaluating requested additions to or deletions from the state highway system; and
- (3) a set of criteria by which proposed changes shall be consistently evaluated.

**R926-2-3. Definitions.**

The terms used in this rule to describe different types of highways shall have the same meaning as provided in Utah State Code under Section 72-4-102.5 which is the same as provided under the Federal Highway Administration Functional Classification Guidelines.

- (1) "commission" means the Utah Transportation Commission;
- (2) "department" means the Utah Department of Transportation;
- (3) "local highway authority" means the local political subdivision, such as town, city or county responsible for the highway system in that jurisdiction;
- (4) "tourist area" means an area of the state frequented by tourists for the purpose of visiting national parks, national recreation areas, national monuments, or state parks;
- (5) "transfer" means the process of adding or deleting a segment of roadway from one government's highway system to or from another government's highway system;
- (6) "urban area" has the same meaning as provided under the Federal Highway Administration Functional Classification Guidelines.

**R926-2-4. Notifications.**

The following notifications shall be made regarding the transfer of highways.

- (1) The department will annually, on or before September 1st, notify the local highway authorities of its intent to collect proposed changes to the state system with the responding proposals requested to be returned to the department by December 1st.
- (2) The department shall no later than June 30th of each year notify the Transportation Interim Committee of the Legislature of any proposed transfers.
- (3) The commission shall notify the public and any affected local highway authority of any transfer under consideration and provide the opportunity to discuss that proposal at an open public meeting of the commission.
- (4) The commission shall no later than November 1st of each year notify and provide to the Transportation Interim Committee of the Legislature:
  - (a) a list of the highways recommended for transfer;
  - (b) a list of potential transfers that are currently under consideration; and
  - (c) a list of transfers that were proposed but not agreed to by the department or local highway authority.

**R926-2-5. Procedure for Requesting an Addition to or a Deletion from the State Highway System.**

A request for the addition to or deletion of a highway from the state highway system shall be made by the

government agency currently responsible for the highway, a member of the Utah Transportation Commission or the Utah Department of Transportation. The request shall be conveyed to the Utah Department of Transportation and will be directed to the region director responsible for the area where the highway is primarily located.

**R926-2-6. Procedure for Evaluating Proposed Changes to the State System.**

The procedure for evaluating proposed changes to the state highway system is as follows:

- (1) The region director shall:
  - (a) notify all impacted local government agencies of the proposed change;
  - (b) make a preliminary review of the proposed change that may include but not be limited to:
    - (i) determine of what, if any funding will accompany the road transfer;
    - (ii) determine of what, if any, physical improvements may be necessary on the roadway before the transfer is completed;
    - (iii) secure a written statement from the local government agency regarding the proposed transfer;
    - (iv) make a judgment as to which highway agency has the best operational abilities for maintenance and construction activities on the proposed route; and
    - (v) determine if the highway continuity and the efficiency of state highway system operation and maintenance activities is impacted by the proposed change.
  - (c) forward the proposed transfer along with the results of the preliminary review to the Systems Planning and Programming Director; and
  - (d) present and discuss potential road transfers at the regularly scheduled monthly Transportation Commission meetings.
- (2) The Systems Planning and Programming Director shall review the request from the region director and shall:
  - (a) determine if the proposed transfer meets the criteria to qualify for inclusion on the state highway system and is consistent with statewide practice;
  - (b) with the Director of Program Financing, identify the source of funds, if any, proposed to accompany the transfer; and
  - (c) shall present the evaluation to the commission with a recommendation whether the route qualifies for inclusion on the state highway system and any proposed funding considerations;
- (3) The commission shall review the recommendation and shall:
  - (a) consider the proposed transfer at a public meeting where the affected local officials are invited to discuss and comment on the proposed change;
  - (b) discuss any funding considerations and the circumstances under which the proposed transfer will take place;
  - (c) take into account any other factors considered appropriate in consultation with the department and local highway authority impacted;
  - (d) approve or reject the proposed change in the state highway system;
  - (e) if it approves the transfer, make the required changes to the state highway system by resolution; and
  - (f) report to the Transportation Interim Committee of the Legislature as detailed in section (4).
- (4) The commission may continue to process proposed transfers that are currently under consideration by using the same notification and evaluation criteria as presented in this rule.
- (5) The State Legislature will review the addition to or

deletions from the state highway system and shall approve or disapprove the changes.

**R926-2-7. Criteria for Inclusion of Highways in the State Highway System.**

Highways requested to be added to or to remain on the state highway system shall be evaluated as follows:

(1) General Criteria:

(a) The primary function of state highways is to provide for the safe and efficient movement of traffic, while providing access to property is a secondary function.

(b) The primary function of county and municipal highways is to provide safe and efficient access to property.

(c) For purposes of this rule, if a highway is within ten miles of a location identified under this section, the location is considered to be served by that highway.

(2) A state highway shall:

(a) serve a statewide purpose by accommodating interstate movement of traffic or interregion movement of traffic within the state;

(b) primarily move higher traffic volumes over longer distances than highways under local jurisdiction;

(c) connect major population centers;

(d) be spaced so that:

(i) all developed areas in the state are within a reasonable distance of a state highway; and

(ii) duplicative state routes are avoided.

(e) provide state highway system continuity and efficiency of state highway system operation and maintenance activities;

(f) include all interstate routes, all expressways, and all highways on the National Highway System as designated by the Federal Highway Administration under 23 C.F.R. Section 470, Subpart A, as of January 1, 2005; and

(g) exclude parking lots, driving ranges, and campus roads.

(3) In addition to the provisions of Subsection (1), in rural areas a state highway shall:

(a) include all minor arterial highways;

(b) include a major collector highway that:

(i) serves a county seat;

(ii) serves a municipality with a population of 1,000 or more;

(iii) serves a major industrial, commercial, or recreation areas that generate traffic volumes equivalent to a population of 1,000 or more;

(iv) provides continuity for the state highway system by providing major connections between other state highways;

(v) provides service between two or more counties; or

(vi) serves a compelling statewide public safety interest;

and

(c) exclude all minor collector streets and local roads.

(4) In addition to the provisions of Subsection (1), in urban areas a state highway shall:

(a) include all principal arterial highways;

(b) include a minor arterial highway that:

(i) provides continuity for the state highway system by providing major connections between other state highways;

(ii) is a route that is expected to be a principal arterial highway within ten years; or

(iii) is needed to provide access to state highways; and

(c) exclude all collector highways and local roads.

(5) In addition to the provisions of Subsections (2) and (3), in tourist areas, a state highway:

(a) shall include a highway that:

(i) serves a national park or a national recreational area;

or

(ii) serves a national monument with visitation greater than 100,000 per year; or

(b) may include a highway that:

(i) serves a state park with visitation greater than 100,000 per year; or

(ii) serves a recreation site with a visitation greater than 100,000 per year.

**R926. Transportation, Program Development.****R926-3. Class B and Class C Road Funds.****R926-3-1. Authority.**

Utah Code Ann. Sections 72-2-109, 72-3-103, and 72-3-104 authorize the Utah Department of Transportation and city and county officials to mutually adopt rules governing the expenditure of class B and class C road funds.

**R926-3-2. Purpose.**

The following rules are to govern the expenditure of class B and C road funds as mutually agreed on by the City and County Joint Highway Committee and the Utah Department of Transportation.

**R926-3-3. Definitions.**

(1) "Class B and class C Roads" means all public highways, roads or streets that are traveled ways under the jurisdiction of, and maintained to a minimum standard or higher by a county or incorporated city or town, over which a conventional two-wheel drive vehicle may travel.

(2) "Class B and class C road account" is as defined in Utah Code Ann. Section 72-2-107.

(3) "Alleys" means those publicly or privately owned passageways, regardless of width, that were established more as a necessary convenience for adjoining property owners than for free movement of ordinary two-wheel drive vehicular travel. They are typically used for garbage collection, access to private garages and rear entrances to commercial establishments.

(4) "Construction" includes the definitions provided in Utah Code Ann. Section 72-1-102; and Title 72, Chapter 6, Transportation Code.

(5) "Maintenance" has the definition provided in Utah Code Ann. Section 72-6-109.

(6) "Improvement Project" has the definition provided in Utah Code Ann. Section 72-6-109.

(7) "Project" has the definition provided in Utah Code Ann. Section 72-6-109.

(8) "UDOT" means the Utah Department of Transportation.

(9) "Local Authority" means a county or municipality.

**R926-3-4. Rules.**

The program to use class B and class C roads account funds will be conducted according to Title 72, Chapter 6, Transportation Code; and other laws governing the Utah Department of Transportation, 51-2-1 through 51-2-3, and 51-2-5 through 51-2-6. The following information is provided for clarification and implementation of the statutes.

(1) Class B and C roads account funds may be used only for construction, maintenance and highway related purposes on eligible B and C roads. Except under emergency conditions, all equipment purchased with B and C roads account funds shall be used on public roads only.

(2) The local authority shall meet the requirements of Section.

(3) Approval shall be required from the UDOT region director to use B and C roads account funds on state highways, for any permitted purpose.

(4) Unlocked gates shall be permitted on eligible roads only if approved by county governing board for a county road or by the city council if a city street. Any portion of a road restricted by a privately locked gate shall not be eligible for class B and C roads account funds.

(5) Signing that restricts use of a public road shall not be permitted. Examples of restrictive signing include:

(a) any sign that implies the road is private or may be used only by authorized personnel;

(b) any sign posted on an unlocked gate across an

otherwise public road that reads "No Trespassing", "Private Property", or "Keep Out". It is permissible, however, for these signs to be posted on fences or posts that run parallel to a public road to mark private property.

(6) Any local authority desiring to allow its class B or C roads account funds to accumulate until sufficient funds are available for more extensive road projects may invest said monies in accordance with the Utah State Money Management Act, Title 51, Chapter 7. All interest earned shall be credited to the local authority class B or C roads account fund.

(7) The acceptance by a local authority of monies from the B and C roads account fund shall constitute an agreement to use the funds according to all laws and regulations that apply. Failure of any local authority to comply with the laws, regulations and procedures regarding class B and C roads account funds shall constitute a breach of contract and UDOT shall have the authority, at its discretion, to withhold subsequent allocations in each instance until compliance with all laws and regulations is accomplished.

(8) The local authority shall meet audit requirements set forth in Title 51, Chapter 2.

(9) The local authority may issue bonds against class B and C road account fund revenues up to a 10-year period, as provided in Utah Code Ann. Section 72-2-108.

**R926-3-5. Procedures.**

(1) Class B and C roads account funds shall be distributed based on Section 72-2-108.

(2) Population figures utilized in allocating B and C roads account funds shall be based on the most recent Bureau of Census figures as set forth in Section 72-2-108.

(3) The UDOT Planning Statistics Section shall conduct a continuing program in which all traveled ways in each county, city and town are regularly inventoried by physical inspection during a four to seven year period. This inventory shall determine eligible mileage and up-to-date land area for each local jurisdiction, which shall then be used in allocating B and C roads account funds.

(4) Local authorities may request UDOT, no more than once per year, to conduct a special update to the regularly scheduled inventory so the local government may receive credit for changes to the corporate limits or road and street systems that occur between the regular inventory cycle. The request shall be in writing to the supervisor of the road inventory program in the UDOT Planning Statistics Section.

(5) Mileage figures for streets and roads are determined by scaling from maps established by UDOT with assistance from the local authorities. Information necessary to establish roads and streets on the UDOT maps shall be obtained from the local government before mileage can receive Class B or C roads account credit.

(6) Alleys are not included in the mileage for fund allocation.

**R926-3-6. Uses of Class B and Class C Roads Account Funds.**

(1) Permissible uses of class B and C roads account funds include, but are not limited to, the following:

(a) all construction and maintenance on eligible class B and C roads, as defined in Utah Code Ann. Sections 72-3-103 and 72-1-104;

(b) sidewalks, curb, and gutter on all eligible class B and C roads and state highways, safety features, traffic signals, and traffic signs, as provided in Title 72, Chapter 8, Transportation Code;

(c) investments for interest purposes; interest to be retained in the fund;

(d) equipment purchases or equipment leases and

rentals;

- (e) engineering and administration;
  - (f) future reimbursement of other funds for large construction projects;
  - (g) rights-of-way acquisition, fencing, and cattle guards;
  - (h) matching federal funds as provided in Utah Code Ann. Section 72-2-110;
  - (i) equipment purchased with class B and C roads account funds may be leased from the road department to another department or agency using the rental rate established by the current "Cost Reference Guide for Construction Equipment", distributed by K-3 Directory Corp., 1735 Technology Dr., San Jose, California, 95110, Phone 1-800-669-3282;
  - (j) construction of road and maintenance buildings, storage sheds, and yards. Multiple use facilities may be constructed by mixing funds on a proportional basis;
  - (k) construction and maintenance of alleys.
- (2) Non-permissible uses include, but are not limited to, the following:
- (a) non-road uses;
  - (b) police costs;
  - (c) payment for rental on equipment previously purchased with B and C roads account funds.

#### **R926-3-7. Responsibilities.**

- (1) The Utah Transportation Commission shall receive appeals from administrative actions.
- (2) The Utah Department of Transportation in cooperation with city and county officials, shall promulgate rules and procedures covering the class b and c roads program. The Department shall:
  - (a) apportion class B funds to counties and C funds to cities in accordance with the formula provided by law at Utah Code Ann. Section 72-2-108;
  - (b) make and mutually adopt with cities, towns and counties, rules and procedures for expenditures of these funds. The City and County "Joint Highway Committee" represents all cities and counties;
  - (c) cooperate with officials of counties, cities and towns to put into effect the provisions of the law.
- (3) For the purpose of handling the affairs of the class B and C roads account fund, UDOT has assigned particular duties within the department as follows:
  - (a) Each region office shall randomly check completed projects to assure responsible use of the funds.
  - (b) Program Development, Planning Statistics Section prepares the quarterly class B and C allocation list using the prescribed formula.
    - (i) On request UDOT shall provide individual population, mileage, and land area information used in the distribution formula.
    - (ii) UDOT calculates the allocation of B and C funds each quarter.
    - (iii) Each city and county receives a transfer of funds directly from the State Division of Finance.
  - (c) Program Development, Planning Statistics Section shall conduct a regularly scheduled inventory to physically inspect all roads and streets under local jurisdiction and to collect data to establish current corporate limits.
  - (d) Program Development, Cartography Unit may publish a complete set of maps for each county, including all cities and towns within each county, within a year or less following completion of the regular inventory in a county. The new maps shall bear the same year date the inventory was completed in the county. Each local authority shall be entitled to receive two complimentary maps of their jurisdiction when published.
  - (e) UDOT may conduct special updates by request of

the local authority to allow changes to be made in the figures used in allocating B and C funds between the regular inventory cycle.

- (i) Local authorities shall be notified of the final results of the update on completion of the field work by UDOT personnel; changes in the allocation figures should be made within six months after submittal of the request.
- (ii) Updates shall be subject to availability of roads for physical inspection during winter months.
- (f) UDOT reserves the right to disqualify a road from class B or C funding if maintenance is below the minimum standard and is not improved within 90 days of notification from UDOT to local officials. A disqualification may be appealed.
  - (g) Office of Comptroller shall maintain record of all authorized distributions.
  - (h) The UDOT local government projects engineer shall be responsible for administration of the B and C program and shall be available to assist all cities and counties.
  - (i) UDOT makes no guarantee of the availability of future fund allocations and assumes no financial responsibility in that regard.
- (4) The local authority shall:
  - (a) become acquainted with and follow all rules, procedures and law regarding the use of B and C roads account funds;
  - (b) make definite assignments for reporting and using class B and C roads account funds;
  - (c) provide for financial and compliance audits of the class B and C roads account funds as required by Sections 51-2-1 through 51-2-3, 51-2-5, and 51-2-6;
  - (d) submit a copy of the required audit report and management letter/financial statement or financial report to the State Auditor's Office and to the UDOT local government projects engineer within six months of the end of the local government's fiscal year.
  - (e) select and complete projects using class B and C roads account funds;
  - (f) deposit and account for class B and C roads account funds in accordance with the State of Utah Uniform Accounting Manual;
  - (g) maintain class B and class C roads and streets to the minimum standard or higher;
    - (i) Minimum standard includes keeping the roadway free from such obstructions as excessively high centers, overgrowth of vegetation, and washouts. Unimproved roads shall be graded on a regular basis to meet this requirement.
    - (ii) Roadways shall be traversable by a conventional two-wheel drive passenger vehicle during dry weather conditions.
    - (iii) Snow removal and keeping a roadway passable during extreme weather conditions shall be the discretion of the local agency.
  - (h) furnish to UDOT any information at the local authority's disposal that may assist UDOT in updating the mileage and land area figures of the local entity during the inventory process.
    - (i) Examples of the type of information needed regarding changes in road and street mileage are:
      - (A) computerized data containing a scaled map or other descriptive information, such as point of beginning, bearings, distances and curve data, that provides accurate location and alignment of individual roads and streets; or
      - (B) copies of recorded subdivision plats containing descriptive information as in; or
      - (C) a map showing locations of roads or streets.
    - (ii) Examples of the type of information needed regarding changes to corporate limits are:
      - (A) copies of annexation documents that have been filed

and recorded with the county recorder's office. These documents shall contain legal descriptions that refer to commonly known reference points such as township, range, and section; or latitude and longitude; or state plane coordinates. Any annexations described by local or farm surveys that identify only lots, blocks, or properties and cannot be plotted on the map maintained by UDOT shall not be added to the land area total.

(B) If available, computerized data showing current corporate limits as recorded with the county on a map. Local officials shall be willing to certify the corporate limits as shown on the map reflect only those annexations that have been recorded with the county.

**R926-3-8. Eligibility Requirements for Class B and Class C Roads.**

(1) UDOT shall recognize claim to jurisdiction by decree of local officials. These officials include county governing boards or the governing officials of the city.

(2) UDOT shall recognize a county/city claim of jurisdiction of any public road through private land within national forest boundaries with no additional documentation.

(3) UDOT shall require a copy of the agreement with the National Forest Service granting jurisdiction, including temporary with renewable option, of any road passing through public lands within national forest boundaries to a county/city for these roads to be eligible.

(4) Roads and streets leading to the entrance of a public park or cemetery are eligible. However, those roads inside the park or cemetery are ineligible unless they serve as a through street that carries traffic to other destinations.

**R926-5-3. Eligibility.**

(1) State Park Access Highways that are also Class B and C Roads are eligible.

(2) This program is for Construction Projects. Maintenance Projects are not eligible.

(3) Administrative and indirect costs are not eligible.

**R926-5-4. Rules.**

The State Park Access Highways Improvement Program is administered under all State Statutes. The following rules also apply.

(1) The Commission sets priorities for program monies.

(2) The Commission uses the Joint Highway Committee to help in the project selection process.

(3) Projects are selected annually unless an emergency arises.

(4) Local Authorities shall follow the procedures of Section 72-6-107.

(5) The Local Authority provides at least 50% of the cost of each project in matching funds.

(6) The Local Authority agrees to use the funds within three years. The local authority repays all unused funds to UDOT.

(7) The Local Authority certifies completion of the project and compliance with these rules to UDOT.

**R926-5-5. Procedures and Responsibilities.**

(1) Local Authorities submit a grant application to the Joint Highway Committee. The application includes a concept report describing the location, scope of work, project limits, and cost estimate.

(2) The Joint Highway Committee prioritizes grant requests considering the following factors:

a. Highway usage.

b. Physical condition of the road as determined by a Road Surface Management System.

c. Ability of local authority to maintain and preserve the highway, and

d. Capital and operation improvement plans of the Utah Division of Parks and Recreation.

(3) The Joint Highway Committee recommends up to three years of projects for Commission approval.

(4) The Commission reviews the Joint Highway

Committee recommendations, makes adjustments if necessary, and approves a list of projects.

(5) UDOT executes an agreement with the Local Authority and grants funds for each approved project. The awarding of grants is subject to availability of funding.

(6) Local Authority completes the construction project.

(7) Local Authority submits certification of compliance and completion to UDOT.

(1) Subsection 72-2-117.7(c) and Subsection 72-2-117.10(a) authorizes the Utah Transportation Commission to establish this rule. The purpose of this rule is to establish procedures for:

- (a) the Utah Department of Transportation to apply for fund monies;
- (b) the Utah Transportation Commission to award fund monies; and
- (c) repayment conditions; and
- (d) establishing a corridor preservation advisory council committee.

**R926-6-2. Definitions.**

- (1) "Commission" means the Utah Transportation Commission.
- (2) "UDOT" means the Utah Department of Transportation.
- (3) "Council" means the Utah Transportation Corridor Preservation Advisory Committee Council.
- (4) "Corridor" means a strip of land between two termini within which traffic, topography, environment and other characteristics are evaluated for transportation purposes.
- (5) "Fund" means the Transportation Corridor Preservation Revolving Loan Fund.

**R926-6-3. Utah Transportation Preservation Advisory Council Committee.**

(1) UDOT shall establish a council committee to provide recommendations and priorities concerning the use of fund monies to the commission. assist in prioritizing requests for funding. The council committee shall be chaired by the UDOT Engineer for Transportation Planning. Additional committee members shall be Chief, UDOT Right of Way Division, two commission members selected by the Chairman of the Commission, one designated member from each of the Metropolitan Planning Organizations in the State, any additional members appointed by the Commission, and a representative with relevant technical expertise or experience from each of the following:

- (a) Bear River Association of Governments;
- (b) Five County Association of Governments;
- (c) Mountainland Association of Governments;
- (d) Six-County Association of Governments;
- (e) Southeastern Association of Governments;
- (f) Uintah Basin Association of Governments; and
- (g) Wasatch Front Regional Council.

**R926-6-4. Council Responsibilities.**

The council shall receive and review all requests for monies from the fund; and shall prioritize such requests based upon Subsections 72-2-117.7(a) and (b). Priority shall be given to cost-effective preservation projects which maximize cost savings for future transportation right of way acquisitions.

**R926-6-5. UDOT Responsibilities.**

- (1) In addition to the specified statutory considerations, UDOT may also:
  - (a) review requests and determine if sufficient studies have been completed in a corridor to:
    - (i) identify environmentally sensitive areas;
    - (ii) determine feasible alignments;
    - (iii) determine cost-effectiveness of the project; and
    - (iv) allow for adequate public involvement.
  - (b) forward council recommendations to the commission

and request commission approval for funding specific corridors;

- (c) acquire real property or any interest in real property necessary for corridor preservation in corridors authorized by the commission;
- (d) manage monies of the fund; and
- (e) administer repayment contracts with counties and municipalities.

**R926-6-6. Procedure for the Awarding of Fund Monies.**

Requests for monies shall be directed to the council for review and prioritization based upon Section R926-6-4. The results of the evaluation of requests shall be forwarded to the Commission. The Commission shall review the recommendations of the Council as well as any other pennant factors and approve, adjust, or reject the recommended expenditures in accordance with Section 72-2-117(4a).

**R926-6-7. Repayment Conditions.**

The commission may determine a loan repayment schedule. All corridor preservation loans shall be paid back according to the approved loan repayment schedule or the earlier of: when the remainder of the right of way has been acquired; or when the project has been advertised for construction. If the commission determines an alignment for a transportation project is not feasible and property for the alignment was purchased under this program, the property shall be disposed of in accordance with Section 72-5-111. All loan repayments together with rents, lease proceeds, profits, and monies resulting from the sale of excess properties shall be returned to the fund.

(1) "State Highway" in this rule is defined in Utah Code Ann. Section 72-3-102.

(2) "Mailbox" means a box, approved by the United States Postal Service, at or near a dwelling or building which holds the occupants' mail.

**R930-1-3. Purpose.**

- (1) The purpose of this rule is to provide:
- (a) a procedure for installation of new mailboxes;
  - (b) for the correction of nonconforming mailboxes.

**R930-1-4. When Mailboxes are on Highway Right of Way.**

(1) All new mailboxes placed on State highways shall be constructed by the owner in conformance with current standards and regulations of the Utah Department of Transportation and United States Postal Service.

(2) Existing mailboxes which do not conform to this rule shall be removed or altered by the owner to conform to the standards of this rule.

(3) The following provisions shall govern installation of new mailboxes and correction of nonconforming mailboxes:

(a) Mailbox supports that are deemed nonconforming and hazardous by the Utah Department of Transportation region director shall be reconstructed and replaced at the owner's expense. The following criteria shall be used to determine nonconformity:

(i) Mailbox supports of wood with over 25 square inches (16,000 square millimeters) cross sectional area;

(ii) Mailbox supports of metal shapes, if the supports are over 3.5 inches (89 millimeters) in greatest dimension or on pipe of over two inches (50 millimeters) diameter.

(b) Mailboxes and supports which are improperly located, in poor repair, and detract from the appearance of the highway, or if any part of the mailbox is closer than the shoulder of the road or over 50 inches (1.25 meters) high, shall be considered as nonconforming and shall be reconstructed or replaced at the owner's expense.

(c) All new mailboxes placed on State highways shall be constructed in conformance with Standard Drawings 725-1 and 725-1A of the Utah Department of Transportation's Standard Drawings for Road and Bridge Construction, which is hereby adopted and incorporated by reference.

(d) The Utah Department of Transportation's region permits officer shall:

(i) keep mailbox owners informed of current standards and regulations for mailbox installations on State highways;

(ii) conduct field checks of mailbox installations to insure compliance with standards and regulations;

(iii) notify the owner in writing of any nonconforming mailbox installation, which writing shall require the owner to correct any deficiencies within 30 days of receipt of the writing;

(iv) if owner fails to comply with the notice, removes the mailbox and delivers it onto the property of the owner.

- (1) "UDOT" means Utah Department of Transportation.
- (2) "FHWA" means Federal Highway Administration.

**R930-2-2. Coordination with Other Laws and Regulations.**

(1) In order to promote greater public involvement in the highway program the Utah Department of Transportation will conduct public hearings or afford opportunities for public hearings on highway projects in accordance with state and federal laws. Hearing procedures contained in 23 CFR 771, 40 CFR Parts 1500-1508 and 23 USC 128, Public Hearings are herewith incorporated by reference.

(2) The provisions of R930-2 may be waived by the Executive Director of the Utah Department of Transportation or, on Federal-aid projects, the Federal Highway Administrator if it is determined that the construction of a project is urgently needed because of a national emergency, a natural disaster or a catastrophic failure.

**R930-2-3. When Hearings are Held or Opportunities Afforded.**

Public hearings will be held or an opportunity for public hearing afforded on all highway projects where the project is on new location; where the project would have a substantially different social, economic or environmental effect; or where the project would essentially change the layout or function of connecting roads or streets. Uniform public hearing procedures shall be established and practiced in such a manner to insure that:

- (1) The public is given ample notification of each public hearing and such public hearing will be held at a time and place convenient to those concerned.
- (2) All interested persons shall have an opportunity to become fully acquainted with highway proposals of concern to them and to express their views at those stages of development when flexibility to respond to those views still exists.
- (3) The Utah Transportation Commission has an opportunity to consider the testimony or comments of any interested person or group having properly submitted such testimony or comments in accordance with published instructions.

**R930-2-4. Types of Hearings.**

The Utah Department of Transportation will hold location hearings to discuss general location alternatives and environmental documents, if any; design hearings to discuss the design details of a proposal; or combined location and design hearings. The Utah Department of Transportation may afford an opportunity for such hearings to satisfy this rule.

**R930-2-5. Notice - Project Public Hearings.**

On each public hearing, the UDOT Community Involvement Officer will arrange for at least two notices to be published in a daily newspaper with statewide circulation. The first notice shall be published at least two weeks prior to the public hearing. The second notice shall be published five to ten days prior to the public hearing. Additional notice may also be published in local weekly or shopper newspapers with circulation in the project area.

Notices shall contain the date, time and place of the public hearing in addition to identifying the proposed project or hearing subject in a clear and easily understood manner. Notices shall also contain information pertaining to the submission of testimony for those unable to attend the public hearing.

Affirmative consideration will be given to minorities in advertising all project public hearings, where appropriate.

**R930-2-6. Hearing Conduct.**

All public hearings held pursuant to this section will be conducted by a member of the Utah Transportation Commission, his representative, normally the UDOT Community Involvement Officer, or by a local official. The hearing shall be conducted impartially.

**R930-2-7. Notice - Opportunities for Public Hearings.**

When an Opportunity for Public Hearing is provided, the UDOT Community Involvement Officer will arrange for at least two notices to be published in newspaper(s) described in Section R930-2-5. The first notice shall provide at least fourteen days for a request for public hearing to be submitted. The second notice shall provide for at least seven days for a request for public hearing to be submitted. Notices shall identify the proposed project or subject in a clear and easily understood manner. Deadlines stated will be postmark deadlines.

Affirmative consideration will be given to minorities in advertising all project opportunities for public hearings, where appropriate.

**R930-2-8. Requests for Project Public Hearings.**

When an opportunity for a public hearing is advertised, any person with a social, economic or environmental interest in the project may request in writing that a public hearing be held, provided the request is received by the UDOT Community Involvement Officer in accordance with the published instructions and before the published deadline. Requests shall describe the interest of the requesting party and what the requesting party hopes to discuss or examine at the public hearing.

When questions exist concerning a request for a public hearing, the UDOT Community Involvement Officer may contact the requesting party/parties to further determine their interest in the project. If, as a result of such contact it is determined that a public hearing is not necessary, or that the requesting party might better satisfy their needs in another way, the requesting party may withdraw their request. In the event of such a withdrawal the UDOT Community Involvement Officer may cancel the hearing or proceed with the hearing if in his/her judgment the goals of the Department would be better served or the requested hearing has already been publicized.

**R930-2-9. Local Government Projects.**

Public Hearings conducted on local government projects must be held and conducted in accordance with R930-2.

**R930-2-10. Official Public Hearing Formats.**

The Utah Department of Transportation may conduct public hearings using either of two formats. One is the formal meeting format public hearing where the public gathers as an audience and the meeting is conducted by a moderator. The other format is the open forum hearing where the public is allowed to review information in an open house type setting and provisions are made to record any testimony individuals wish to give. A combination Open Forum/Formal Meeting or Formal Meeting/Open Forum hearing may also be conducted.

**R930-2-11. Transcript of Official Public Hearings.**

The Utah Department of Transportation will prepare and distribute a transcript of the public hearing for the consideration of the Utah Transportation Commission and other interested agencies. The transcript may include a map or drawing illustrating the proposed project, when available.

When a formal hearing is held, a verbatim record of the hearing proceedings will be included. When an open forum hearing is held, a record of individual statements, if any, submitted by the attendees will be included. Also included will be petitions and written testimony pertaining to the proposed improvements submitted in accordance with the instructions published in the legal notice or submitted at the public hearing. Extensive petition signature pages or form letter mass mailings shall be preserved but need not become a part of the distributed transcript. Instructions will provide that written statements received from the time the hearing was first advertised to a postmark deadline at least ten days following the hearing will be included in the transcript. If the tenth day following the hearing falls on a Sunday or holiday an additional day shall be added.

The UDOT Community Involvement Officer may restrict written testimony to that which is 8-1/2 inches by 11 inches in size and can be reproduced on a standard photocopy machine.

**R930-2-12. Other Meetings and Activities.**

The Utah Department of Transportation may hold information meetings, supplemental public hearings or conduct additional community involvement activities other than those required above when the goals and objectives of this rule can be better fulfilled.

**Notice of Continuation November 29, 2006**

**R930. Transportation, Preconstruction.****R930-3. Highway Noise Abatement.****R930-3-0. Purpose.**

The following is consistent with the Federal Highway Administration's Procedures for Abatement of Highway Traffic Noise, 23 CFR 772, which is hereby adopted and incorporated by reference, and in accordance with Utah Code Ann. Section 72-6-111 except that noise abatement in the form of noise barriers will only be considered for Interstate highways and Limited Access facilities. This rule is designed to allow UDOT to address highway noise impacts and to determine the conditions under which noise abatement may be approved.

**R930-3-1. Definitions.**

- (1) "Existing Noise Level" means the noise level, Leq, resulting from the natural and mechanical sources and human activity, considered to be usually present in a particular area.
- (2) "Design Noise Level" means the noise level, Leq, calculated for the worst traffic noise conditions likely to occur on a regular basis during the future design year, using a method approved by FHWA.
- (3) "Type I Project" means a highway construction project that is related to an increase in traffic noise - construction of a highway on new location or the physical alteration of an existing highway which significantly changes the alignment or increases the number of through-traffic lanes.
- (4) "Type II Project" means a proposed highway project strictly for noise abatement on an existing highway.
- (5) "UDOT" means Utah Department of Transportation.
- (6) "FHWA" means Federal Highway Administration.
- (7) "dBA" means decibels of sound expressed or measured using the "A" weighting scale of a sound-pressure level meter.
- (8) "AASHTO" means American Association of State Highway and Transportation Officials.

**R930-3-2. Applicability.**

- (1) Type I Projects. Noise abatement shall be considered for Type I projects that are on Interstate or Limited Access Highways where noise impacts are identified. A new or proposed subdivision or other development must have obtained a formal building permit from the appropriate local government agency for final plans for development before the issuance of the final environmental decision document.
- (2) Type II Projects. UDOT does not provide a noise retrofit (Type II) program to construct noise abatement measures along existing state transportation facilities.

**R930-3-3. Noise Impact Determination.**

A traffic noise impact occurs, for purposes of this policy, when either of the following conditions exists at a sensitive land use:

- (1) The design noise level is greater than or equal to the UDOT Noise Abatement Criterion (NAC) in Table 1 for each corresponding land use category.
- (2) The design noise level substantially exceeds (ten dBA or more) the existing noise level.

**R930-3-4. Noise Abatement Objective.**

When noise abatement measures are being considered, every reasonable effort shall be made to obtain substantial noise reductions consistent with Department procedures.

**R930-3-5. Noise Abatement Conditions.**

In order to be considered for noise abatement, all of the following conditions must be met, if applicable:

- (1) A noise abatement device shall not be installed where it will create a hazard or violate design standards.

Specifically, noise abatement walls shall not be added within the highway clear zone as defined in the AASHTO Roadside Design Guide, unless a safety barrier already exists.

(2) At least five dBA of noise reduction must be achievable at typical impacted receivers nearest the highway.

(3) Residential Areas (Category B, Table 1):

(a) For residential areas, benefited receivers must be considered in determining a noise barrier's cost per receiver regardless of whether or not they were identified as impacted. A benefited receiver is any impacted or non-impacted receiver that gets a noise reduction of 5 dBA or more as a result of the noise barrier. The maximum cost used to determine reasonableness to provide noise abatement will be \$25,000 per benefited receiver. This cost may be periodically reviewed by the Department for reasonableness and updating, as needed.

(b) In the event that the noise barrier cost is greater than \$25,000 per receiver, the cost will be considered to be reasonable only if it can be demonstrated that a "severe" noise impact will occur. Severe traffic noise impacts are defined as traffic noise levels by 30 dBA or more, or results in absolute exterior noise levels of 80 dBA or greater. Based on severity, abatement will be considered on a case-by-case basis.

(c) For non-residential areas (Category A, B, or C, Table 1): The cost of noise abatement measures for schools, parks, churches and other non-residential developments including commercial and industrial areas will depend on height of noise wall required and corresponding length of frontage this type of development has exposed to the transportation facility. In any case, a reasonable cost for mitigation for noise abatement will not exceed \$200 per linear foot of wall (for a 10-foot high wall) installed. The cost may be periodically reviewed for reasonableness and updating, as needed.

**R930-3-6. Other Considerations.**

Noise abatement benefits shall be consistent with overall social, economic, and environmental conditions on both sides of the highway. Aesthetics shall be considered where appropriate' including graffiti deterrence and surrounding landscape. Other factors may be considered.

**R930-3-7. Declaration of Intent.**

Environmental documents shall indicate those areas where mitigation is "likely." "Likely" does not mean a firm commitment. A final decision on the installation of the abatement measures shall be made upon completion of the project design and the public involvement process and based upon what the department believes is reasonable and feasible.

**R930-3-8. Public Involvement.**

(1) Department representatives shall contact the local government agency and impacted residents. This shall be done prior to completion of the final environmental decision document. The concerns of the impacted residents and local government agency shall be a major consideration in reaching a decision on the abatement measures to be provided.

(2) Noise abatement may not be planned after local government agency and impacted residents' involvement if the majority of them are in opposition or indifferent to noise mitigation.

**R930-3-9. Coordination with Local Officials.**

The Department shall coordinate in the local government review process with regard to aesthetics, height, and other design features of the proposed noise abatement measure. Effective control of highway traffic noise requires land uses near highways to be controlled, but land use planning and control belong to local government jurisdiction. UDOT shall,

upon request, assist local agencies by giving information that shall help them to be aware of incompatible land uses near state highways.

**R930-3-10. Local Government Participation.**

In instances where abatement costs would exceed a limit in paragraph R930-3-5(3), the local government agency may be offered the option to share in the cost of abatement. In order for the Department to participate in shared abatement costs, the following conditions must be met:

(1) The Department's share of the cost shall not exceed the limits in paragraph R930-3-5(3). The participating local government agency shall pay the Department an amount equal to the estimated cost of the abatement measure and appurtenances proposed that exceeds the limits in paragraph R930-3-5(3). The settlement agreement shall be signed before design begins. Payment shall be made to the Department before construction begins.

(2) The participating local government agency's final share shall be based on actual construction costs.

**R930-3-11. Projects Funded From Other Sources.**

The Utah Code authorizes the Department to construct and maintain noise abatement measures along state highways in cases where the cost for the noise abatement is provided by citizens, adjacent property owners, developers, or local governments, and meeting other established criteria. These cases may be treated as a special application of Paragraph R930-3-10, in which the Department may design, build, and maintain the abatement measure, and the local government agency shall pay the Department for all preliminary engineering and construction costs.

**R930-3-12. Construction Off Right-of-Way.**

Normally, noise barriers (walls or berms) built pursuant to this policy shall be constructed within Department right-of-way and owned and maintained by the Department. There are cases in which Department right-of-way is not the most prudent location for noise barriers, yet noise abatement can be very feasible and reasonable if built on adjacent property or adjacent public right-of-way. In these cases:

(1) The Department's cost is limited to normal cost for abatement on Department right-of-way.

(2) In no case shall the Department construct a noise barrier unless the adjacent property owners allow access and easements as necessary in order to construct and maintain the barrier.

(3) Maintenance of noise walls and associated landscaping on the side facing the highway shall normally be the Department's responsibility. The opposite side shall be maintained by the property owner.

(4) When landscaping is included off the Department right-of-way, the Department and landowner shall sign an irrigation agreement. The Department shall not pay for irrigation off the right-of-way.

parks, residences, motels, hotels, schools, churches, libraries, and hospitals.

C 70 (Exterior) Cemeteries, commercial areas, industrial areas, exterior office buildings, and other developed lands, properties or activities not included in Categories A or B above.

D No limit Undeveloped lands.

E 52 (Interior) Motels, hotels, public meeting rooms, schools churches, libraries, hospitals, and auditoriums. (The interior criterion only applies when there are no exterior activities affected by traffic noise.)

**R930. Transportation, Preconstruction.****R930-5. Establishment and Regulation of At-Grade Railroad Crossings.****R930-5-1. Policy.**

(1) At regular intervals, the Department: (a) reviews for safety all existing public at-grade highway/railway crossings in the state in accordance with the Manual on Uniform Traffic Control Devices; (b) evaluates and approves the location of new crossings; (c), prescribes the types of at-grade crossing railroad warning devices; and (d) determines maintenance and funding apportionments for all highway/railway projects.

(2) Highway/railway projects that use federal railroad safety funds shall be carried out in accordance with 23 CFR Part 646 Subpart B.

**R930-5-2. Authority.**

This rule is authorized by Utah Code Ann. Section 54-4-15. Additional sections in the Utah Code and Federal rules supporting this rule are found in sections 10-8-34, 10-8-82, 41-6-19, 72-1-102, 72-2-112; 23 CFR 924 and 23 CFR 646.

**R930-5-3. Purpose.**

(1) Department oversees all at-grade public highway/railway crossings in the state of Utah and provide for the safe, efficient operation of vehicles and pedestrians through highway/railway intersections. Department also promotes elimination of at-grade highway/railway crossings when possible, elimination of hazards to improve at-grade crossings, and recommends the construction of grade separation structures to replace at-grade crossings pursuant to this rule.

(2) This rule describes procedures for the selection of highway/railway crossings for improvement, the selection of passive and active railroad warning devices, design, maintenance operations and the funding sources for the improvement of crossings.

**R930-5-4. Incorporation by Reference.**

The following federal law, federal agency manuals and association standards, and technical requirements are adopted and incorporated by reference:

- (1) 23 CFR 646 "Railroads" (2005);
- (2) 23 CFR 924 "Highway Safety Improvement Program" (2005);
- (3) "A Policy on Geometric Design of Highway and Streets", American Association of State Highway and Transportation Officials (AASHTO) (2004);
- (4) Preemption of traffic signals near railroad crossings, Institute of Traffic Engineers (ITE) (2004); and
- (5) Guidance for traffic control devices at Highway/Railroad Grade Crossings, FHWA (2000).

**R930-5-5. Definitions.**

(1) "Active warning devices" means those types of traffic control devices activated by the approach or presence of a train, such as flashing light signals, automatic gates and similar devices, as well as manually operated devices and crossing watchmen, all of which display to motorists positive warning of the approach or presence of a train;

(2) "At-Grade Crossing" means the crossing of a highway and railway at approximately the same elevation;

(3) "Clear zone" means an area along the road that is clear of obstructions and required by the Department in order to make the roadway safer for errant vehicles; Department

(4) "Company" means any railroad, special transit district, or utility company including any wholly owned or controlled subsidiary thereof;

(5) "Diagnostic/Surveillance team" means an appointed group of knowledgeable representatives of the parties of

interest in a highway/railway crossing or group of crossings;

(6) "FHWA" means the Federal Highway Administration, an agency within the United States Department of Transportation

(7) "Local Agency" means a local governmental entity that owns a highway;

(8) "Main line railroad track" means a track of a principal line of a railroad, including extensions through yards, upon which trains are operated by timetable, train order or both, or the use of which is governed by block signals or by centralized traffic control;

(9) "MUTCD" means the Manual of Uniform Traffic Control Devices as adopted in Utah Code Ann. Section 41-6a-301;

(10) "Passive warning devices" means those types of traffic control device, including signs, markings and other devices located at or in advance of grade crossings to indicate the presence of a crossing but which do not change aspect upon the approach or presence of a train;

(11) "Preliminary engineering" means the work necessary to produce construction plans, specifications, and estimates to the degree of completeness required for undertaking construction, including locating, surveying, designing, and related work;

(12) "PSC" means the Public Service Commission of the State of Utah;

(13) "Roadway" means that portion of the highway, including shoulders, intended for vehicular use;

(14) "Railroad" means all rail carriers, whether publicly or privately owned, and common carriers, including line haul freight and passenger railroads, switching and terminal railroads and passenger carrying railroads such as rapid transit, commuter and street railroads;

**R930-5-6. Types of Projects.**

(1) Projects for the elimination of hazards for both vehicles and pedestrians at highway/railway crossings may include the following:

(a) Elimination of at-grade highway/railway crossings by combining multiple crossings;

(b) Elimination of at-grade highway/railway crossings by the relocation of a highway;

(c) Elimination of an at-grade crossing by the construction of a new grade separation where full access control is required regardless of the volume of train or highway vehicles;

(d) Improvements to existing at-grade highway/railway crossings;

(e) Reconstruction of an existing highway/railway grade separation structure;

(f) Construction of raised median curb islands or other channelizing devices;

(g) Installation of lighting to improve visibility of crossings or safety devices;

(2) Other projects that require Department approval prior to construction include, but are not limited to the following projects:

(a) Highway/railway projects that use railroad properties or involve adjustments to railroad facilities required by highway construction, but do not involve the elimination of hazards of railway/highway crossings;

(b) Construction of new highway crossings over a railroad track where a new street or highway is proposed that is not essentially a relocation of an existing street;

(c) Construction of a new railroad crossing of an existing highway or street.

**R930-5-7. Diagnostic/Surveillance Review Team.**

(1) The Department shall have a program for the

identification of highway/railway crossings for improvement. Crossings may be identified for improvement upon recommendation from the diagnostic/surveillance review team, or by formal finding of the Department. The role of the Diagnostic/Surveillance Review Team is to make recommendations to the Department for changes needed at railroad crossings. The team serves as a venue where different agencies and railroads may come together and discuss options and alternatives for safety improvement. The Department shall consider all recommendations made by the team members, and input received from the public at large (in accordance with section R930-5-14) before issuing final orders for the improvement of grade crossings. Suggested improvements at all highway/railway intersection crossings are evaluated by a Diagnostic/Surveillance Review Team. The team reviews railroad crossings when requested by local agencies, when significant changes in highway traffic patterns are proposed, or when railroad traffic is proposed to significantly increase. The Department may also make formal findings and rulings as part of its routine inspection of railroad crossings, independent of the Diagnostic/Surveillance Review Team.

(2) The Diagnostic/Surveillance Team is composed of the following team members:

- (a) Chief Railroad Engineer for the Department;
- (b) Representatives from the railroad company;
- (c) Representatives from the local government agency (preferably from engineering or public works), and when available the local law enforcement groups where the highway/railway crossing is located and
- (d) Representatives from the local school district, if the crossing is located on an approved school walking route.

(3) The Diagnostic/Surveillance Team shall, when appropriate:

- (a) Recommend the elimination of at-grade highway/railway crossings;
- (b) Recommend that passive railroad warning devices be installed at crossings in accordance with the MUTCD;
- (c) Recommend installation of active railroad warning devices at highway/railway crossings. Active warning devices include flashing lights, flashing lights with gates, flashing lights with gates and overhead cantilever lights, three- or four-quadrant gates with gate management system, or other active warning device as defined in the MUTCD;
- (d) Recommend the type of railroad crossing materials to be installed at highway/railway crossings;
- (e) Recommend the improvement of the highway approach grades to the tracks to improve sight distance;
- (f) Recommend removal of trees, brush and foliage from the highway and railroad rights-of-way and private properties to provide better sight distance for motor vehicles;
- (g) Recommend changes needed to improve pedestrian safety, and to comply to the extent possible with the Americans with Disabilities Act;
- (h) Review all requests for new at-grade crossings of existing railroads. The highway agency making the request for a new crossing shall provide a master street plan showing the agency's plan to eliminate or combine existing railroad crossings before new crossings will be approved;
- (i) Review change of use of highway/railway crossings. The local agency shall verify the permitted use, public or private, of any highway/railway crossing in writing from the authorized owner of the track prior to approval of new development or change in land use or ownership;
- (j) Recommend new overpass or other grade separation structures;
- (k) Recommend the installation of street lighting to improve visibility;
- (l) Recommend any other safety mitigation requirements

in order to improve vehicle and pedestrian safety.

(4) Duties of individual Diagnostic/Surveillance Team members include:

- (a) The Chief Railroad Engineer shall:
  - (i) notify team members who are to attend the review;
  - (ii) conduct the reviews and issue team reports within two weeks after the review and send copies to all those attending the review;
  - (iii) establish requirements for horizontal and vertical alignments of the roadway;
  - (iv) determine passive and active railroad warning device locations on the roadway;
  - (v) determine funding apportionments on federal railroad safety projects;
  - (vi) initiate all Notices of Intended Action for railroad projects;
  - (vii) review the plans and contractual agreement requirements on projects demanding federal funds from local agencies;
  - (viii) obtain all necessary field data for plan site maps and take photographs of the existing conditions of all quadrants of the intersection.;
- (b) The Railroad Company Representative shall provide train volumes, accident data, and any other pertinent data regarding the railroad crossing;
- (c) The Local Agency Representative shall provide highway traffic volumes, proposed road construction activities on the highway, or an approved master plan for the highway, in addition to any other pertinent data regarding the crossing;
- (d) The Local School District Representative shall provide school-age pedestrian traffic counts and school routing plan information.

(5) Where a new railroad crosses an existing highway, the Department will consider the new crossing in conformance with Section 54-4-15. Public notice will be made in conformance with R930-5-14, Notice of Intended Action. If approved, the required separation or railroad warning devices, and any pavement work at the crossing shall not be considered to be of benefit to the road user and 100 percent railroad participation shall be required. The determination as to separation of type of warning devices shall be according to classification and traffic volume of the highway crossed and the predicted traffic hazard and as recommended by the Surveillance Team.

(6) The Railroad Company Representative shall provide train volumes, accident data, and any other pertinent data regarding the railroad crossing;

(7) The Local Agency Representative shall provide highway traffic volumes, proposed road construction activities on the highway, or an approved master plan for the highway, in addition to any other pertinent data regarding the crossing;

(8) The Local School District Representative shall provide school-age pedestrian traffic counts and school routing plan information.

(9) Where a new railroad crosses an existing highway, the Department will consider the new crossing in conformance with Section 54-4-15. Public notice will be made in conformance with R930-5-14, Notice of Intended Action. If approved, the required separation or railroad warning devices, and any pavement work at the crossing shall not be considered to be of benefit to the road user and 100 percent railroad participation shall be required. The determination as to separation of type of warning devices shall be according to classification and traffic volume of the highway crossed and the predicted traffic hazard and as recommended by the Surveillance Team.

#### **R930-5-8. Design of At-Grade Highway/Railway Crossings.**

(1) The Department shall oversee and approve the design of all highway/railway at-grade crossings. Facilities that are the responsibility of the railroad for maintenance and operation shall conform to the specifications and design standards used by the railroad in its normal practice. At-Grade crossings that are the responsibility of the local agency for maintenance and operation shall conform to the specifications and design standards and guides used by the highway agency in its normal practice subject to approval by the Department. Where a local agency does not have an approved standard, Department standard drawings for the design of railroad crossings apply. Traffic control devices at all grade crossing improvements shall comply with the MUTCD. Required clearances for all devices shall conform to the MUTCD, or as approved by the Department. All design plans shall include USDOT identification numbers, street addresses, railroad subdivision and railroad milepost for at-grade crossings.

(2) Railroad crossing surface materials shall be designed as follows:

- (a) When it is determined that the railroad crossing material needs to be extended or replaced, the agency doing

the design of the crossing shall determine the minimum length of the crossing material. The length shall be determined based on the proposed width of the new roadway or from the approved master plan roadway width. The crossing material length shall extend at least two feet from the outer edge of the roadway, beyond the roadway clear zone area, or to the back of the concrete curb and gutter or out past the sidewalks;

(b) The approach grades of the roadway to the railroad crossing material shall conform to standard drawings published by the Department, to the extent practical;

(c) When the existing railroad crossing material is to be extended but the existing material is too old and cannot be connected to the new material, complete replacement of the railroad crossing material is required;

(d) New railroad crossing materials shall use insulated concrete panels. Other materials may be used, if approved by the Department.

(3) Active railroad warning devices shall be designed as follows:

(a) The railroad company is responsible for the design of the railroad activation circuitry, hardware, and software necessary to comply with requirements of the Department. Clearances for active warning devices shall comply with requirements of the MUTCD, unless otherwise specifically authorized by the Department;

(b) Three- and four-quadrant gate systems: Designs for these systems shall be in conformance with the MUTCD. Exit gates for these systems shall be designed to fail in the upright position. Time-delayed exit gates shall not be used in these systems, except for locations with a single track that is nearly perpendicular to the highway. In these cases, where practical, the exit gate shall be placed at a distance from the track to allow for a single design vehicle to exit the crossing area safely. The Diagnostic/Surveillance Review Team shall recommend delay times to be used in these applications. For all other installations (single track skewed crossings, multi-track crossings, etc.) a dynamic exit gate system shall be used. The exit gate system shall employ a method (as approved by the Department) of detecting vehicles stalled on the tracks and shall raise exit gates to allow for vehicles to exit the crossing area. When the active warning devices are placed within the roadway clear zone, appropriate attenuation devices shall be installed;

(c) When an existing roadway is to be widened, the new location of the active railroad warning devices shall be determined by the railroad and highway agency. The railroad company shall relocate the devices;

(d) When active warning devices are within 200 feet of a traffic signal, the local authority shall provide the type and amount of preemption time needed to the Diagnostic Review Team. The railroad company shall design the crossing per the specification of the local authority. The local authority shall provide an interconnect to the traffic signal controller. The local authority is responsible for programming traffic signal controller;

(e) Design plans shall show the location of active devices by both highway station and railroad milepost.

(4) The following passive warning devices shall be designed, installed, and maintained by the railroad company in accordance with the MUTCD:\

(a) Sign R15-1 (crossbuck);

(b) Sign R15-2 (number of tracks);

(c) Sign R1-1 (STOP);

(d) Sign R1-2 (Yield);

(e) Sign R15-3 (Exempt);

(f) Sign R8-9 (Tracks out of Service)

(5) Design, installation, and maintenance of all other passive railroad warning devices, signs, and pavement markings is the responsibility of the highway agency that

crosses the railroad tracks. Design and location of the devices shall be in accordance with the MUTCD and as engineering studies indicate necessary, or as required by the Diagnostic Review Team.

#### **R930-5-9. Responsibility to Arrange for the Installation of Railroad Materials and Devices.**

(1) Responsibility for installation of railroad crossing material is as follows:

(a) When a roadway is widened by a local agency, the local agency shall be responsible to arrange by agreement with the railroad company to install the railroad crossing extension.

(b) When local agencies reconstruct a roadway and new railroad crossing material is required, the local agency shall arrange by agreement with the railroad company for the complete replacement of the railroad crossing material when material cannot be extended.

(2) Responsibility for installation of active warning devices is as follows:

(a) When a local agency widens a roadway which changes the existing conditions of the highway/railway crossing and it requires active warning devices, the local agency shall be responsible to arrange by agreement with the railroad company for the installation of the active railroad warning devices after their plans are approved by the Department.

(b) When a local agency widens a roadway that has existing active railroad warning devices, the local agency shall have their plans approved by the Department and arrange by agreement with the railroad company for the relocation of the devices.

(c) Prior to approving new residential, commercial or industrial development within 1000 feet of a railroad crossing, the local agency shall request a Diagnostic/Surveillance Review of the proposed development to assess the potential traffic impacts at the railroad crossing. When a local agency approves increased development that changes the conditions of a highway/railway at-grade crossing by increasing traffic volumes and/or by adding new access openings onto a highway within 250 feet, the agency plans shall be approved by the Department. The local agency shall arrange by agreement with the railroad company for any required railroad changes.

(d) When a highway/railway at-grade crossing is listed in the Department's Annual High Accident Prediction List and active warning devices are required, the Department shall arrange by agreement with the railroad company for the installation of the active railroad warning devices.

(e) When a local agency requests a surveillance review of a highway/railway intersection or a corridor of intersections and the Diagnostic/Surveillance Team recommends that a crossing or crossings can be eliminated and other crossings can be upgraded, the Department shall determine if Federal Railroad Safety Funds (also known as "Section 130 funds") may be used for any or all of the improvements. If Federal funding is available, the Department shall also arrange by agreement with the railroad company for the installation of the active railroad warning devices.

(3) The Local Agency is responsible for the installation of all passive railroad warning devices.

#### **R930-5-10. Maintenance.**

(1) The maintenance of automatic signal devices and the pavement area from end of tie to end of tie, including space between multiple tracks if the railroad company owns the easement rights between the multiple tracks, and two feet beyond each outside rail is the responsibility of the railroad company.

(2) Signals and pavement between end of ties on temporary highway detours shall in all cases become the responsibility of the railroad company at the expense of the highway agency owning the roadway.

(3) Maintenance of the crossing approaches up to end of tie is the responsibility of the agency owning the roadway. When the railway is raised due to track and ballast maintenance, the railroad company shall coordinate their work with the agency owning the roadway so the pavement on the approaches can be adjusted to provide a smooth ride for motorists. When the agency owning the roadway changes the road profile (through construction or maintenance activities) the approaches to the tracks must be adjusted to provide a smooth and level crossing surface.

(4) Responsibility for maintenance of a grade separation structure is as follows:

(a) Where a separation facility overpasses a railroad, maintenance responsibility for the entire structure and approaches is assumed by the agency owning the structure and roadway.

(b) When a grade separation structure underpasses a railroad, maintenance of the roadway and the entire structure below and including the deck plate, handrail, and parapets, is the responsibility of the owner of the roadway. Maintenance of the waterproofing, ballast, ties, rails and any portion of the supporting structure above the top of the ballast deck plate between parapets is the responsibility of the railroad company.

(c) Cost of repairing damages to a highway or a highway structure, occasioned by collision, equipment failure or derailment of the railroad's equipment shall be borne by the railroad company.

(5) Responsibility for maintenance of private industrial trackage not owned by a railroad company that crosses public highways shall be as follows:

(a) When a facility, plant or property owner receives goods and services from a railroad company train over private industrial trackage that crosses a public highway, maintenance of the crossing shall be the responsibility of those companies receiving the goods and services.

(b) When the highway/railway crossing becomes a safety hazard to vehicles and is not maintained, the Department and the railroad company shipping the goods and services shall notify the facility, plant or property owners in writing to maintain or replace the railroad crossing material.

(c) If the owner of the private trackage does not maintain or replace the crossing material by a specified date, the Department shall order the railroad company to cease and desist operations across the highway/railway crossing.

(d) If the owner still does not respond to the order to maintain or replace the railroad crossing material the following action shall be taken by the highway agency owning the roadway. The highway agency shall arrange to have the crossing replaced, and bill the facility owner of the trackage for the expenses to repair the trackage.

#### **R930-5-11. FHWA Authorizations.**

(1) The costs of preliminary engineering, right-of-way acquisition, and construction incurred after the date each phase of the work is included in an approved program and authorized by FHWA are eligible for federal participation. Preliminary engineering and right-of-way acquisition costs which are otherwise eligible, but incurred by the railroad prior to authorization by FHWA, although not reimbursable, may be included as part of the railroad share of the project cost where such share is required.

(2) Prior to issuance of authorization by FHWA either to advertise the physical construction for bids, to proceed with force account construction for railroad work or for other

construction affected by railroad work the following must be accomplished:

(a) Plans and specifications and estimates must be approved by FHWA.

(b) A proposed agreement between the state and the railroad company must be found satisfactory by FHWA. Before Federal funds may be used to reimburse the state for railroad costs the executed agreement must be approved by FHWA.

#### **R930-5-12. Railroad Agreements.**

(1) Where construction of a federal aid project requires use of railroad properties or adjustments to railroad facilities, the Department shall prepare an agreement between it and the railroad company.

(2) Master agreements between the Department and a railroad company on an area wide or statewide basis may be used. These agreements shall contain the specifications, regulations and provisions required in conjunction with work performed on all projects.

(3) On a project-by-project basis, the written agreement between the Department and the railroad company shall, as a minimum, include the following, where applicable:

(a) Reference to appropriate federal regulations;

(b) detailed statement of the work to be performed by each party;

(c) Method of payment shall be actual cost;

(d) For projects which are not for elimination of hazards of highway/railway crossings, the extent to which the railroad is obligated to move or adjust facilities at the expense of the agency owning the roadway;

(e) The railroad's share of the project cost;

(f) An itemized estimate of the cost of the work to be performed by the railroad;

(g) Method to be used for performing the work, either by railroad forces or by contract;

(h) Maintenance responsibility;

(i) Form, duration, and amounts of any needed insurance;

(j) Appropriate reference to or identification of plans and specifications.

(4) On matching fund agreements between the Department and the Local Agency, on a project-by-project basis the written agreement shall include the following:

(a) Description of work and location, city, county, state;

(b) Reference to federal regulations that matching funds will be provided by the agency having jurisdiction over the street or highway right-of-way where improvements are desired;

(c) Detailed statement of work to be performed by each party regarding design engineering, agreements, inspection and maintenance;

(d) Statement of finances of project and matching funds to be provided by local agency, deposits, invoices and cost overruns or underruns.

(5) Agreements prepared for local government and industrial trackage crossing are prepared between the agency owning the street or highway right-of-way and the industry on forms furnished by the railroad companies.

(6) In order that a highway/railway project shall not become unduly delayed, the Department shall consider a six-month period of time from issuance of the railroad agreement to be adequate for completion of execution by the railroad company involved. Should more than the specified period of time elapse, the Department shall require the railroad to proceed with the work covered by the agreement under the authority contained in Section 54-4-15 and approval from the FHWA will be solicited in conformance with 23 CFR 646.

**R930-5-13. Apportionment of Costs.**

(1) Apportionment of costs for installation, maintenance, and reconstruction of active and passive railroad warning devices at highway/railway intersections shall be in accordance with 23 CFR 646.

(2) When a roadway is widened by the state or local governmental agency, that agency shall fund all passive and active warning devices as recommended by the Diagnostic/Surveillance Team and as determined necessary by the Department.

(3) When a roadway is widened by a local agency, and the existing railroad crossing material is old and cannot be attached to the new material, the local agency shall fund the replacement of all new existing crossing material.

(4) When a highway/railway at-grade crossing is listed on the Department's Annual High Accident Prediction List, and it is determined by the Department that the crossing shall be upgraded, it shall be funded by federal railroad safety funds and local highway agency matching funds.

(5) If approved construction of a separation structure or the installation of a signal device at such crossing is not considered a benefit to the railroad, railroad participation shall not be required.

(6) A project to reconstruct an existing overpass or underpass shall include the entire structure and railway and the highest approaches thereto. Since there is no railway liability for such projects, it is considered that there shall be no benefit to the railroad and railroad participation shall not be required.

**R930-5-14. Notice of Intended Action Process.**

(1) Public notification is required when the Department is considering proposals to close public streets at crossings, removal of tracks from crossings, addition of tracks at crossings, or construction of new public at-grade crossings. The Department shall advertise a notice of its intended action in a newspaper of general circulation, and if available, a newspaper of local circulation in the area affected, at least twice with a provision that written protests may be filed with the Department 15 days from the date of the last publication of the notice. The local public authority shall provide written notice to all property owners within one-half mile of the crossing area. The notice shall identify the project, briefly describe the changes proposed, who to contact for information, where to file complaints or comments, and contain general information relating to the proposed action.

(2) Construction of a new highway crossing of a railroad track where a new street or highway is proposed which is not essentially a relocation of an existing street, the Department will consider the new crossing in conformance with Section 54-4-15. Public notice will be made in conformance with this rule.

(3) All requests for a public meeting shall be in writing and shall detail how a proposed action will adversely affect a group of people, firm or corporation, and if it appears that the adverse affect cannot be alleviated by the Department. Such a hearing will be conducted informally by the Department. Any party aggravated by any determination made by the Department shall have their statutory right under Section 54-4-15, as amended, to petition the PSC for a hearing to be governed by the procedures of the PSC.

(4) In instances where the action proposed by the Department does not substantially affect the general public, The Department may waive the requirement to public notice, provided all parties affected concur in writing with the action proposed. For the purposes of this section, parties affected shall mean railroads or other common parties, state, county, city or other environmental agencies, boards or commissions, having jurisdiction over any property rights of facilities, and

private persons or directly affected.

**R930-5-15. Clearances.**

(1) Unless otherwise noted, all clearances apply to tracks carrying freight or passengers.

(a) Overhead clearances. Overhead clearance is measured as the minimum clearance from the top of rail to the lowest point on a structure.

(i) For tracks carrying freight cars, 23'6";

(ii) For tracks carrying only passenger cars, 14';

(b) Side Clearances. Side clearance is measured from the centerline of tangent standard gauge tracks. Increase clearances on all structures adjacent to curved track by 12 inches.

(i) Posts, pipes, warning signs, other small obstructions, 10';

(ii) Freight platforms, 8 inches or less above top of rail, 4'8";

(iii) Freight platforms, between 8 inches and 21 inches above top of rail, 5'8";

(iv) Freight platforms, between 21 inches and 48 inches above top of rail, 7'3";

(v) Refrigerated freight platforms, between 48 inches and 54 inches above top of rail, 8'0";

(vi) All other structures, near freight tracks, 8'6";

(vii) Poles supporting electrical conductors for use in supplying motive power to tracks, 7'6";

(viii) All other poles supporting cables or wires, 8'6";

(ix) Through bridges and tunnels supporting track affected, 8'0";

(x) Switch boxes, operating mechanisms, and appurtenances necessary for the operation of switches, turnouts, or interlocking devices, less than 4 inches above top of rail, 3'0";

(xi) Block signals and switch stands, three feet or less above top of rail and located between tracks, 6'0";

(xii) Block signals and switch stands, used in operation of Light Rail Transit, 7'6";

(xiii) All other block signals and switch stands, 8'6";

(xiv) Water and oil columns, 8'0";

(xv) Hand rails on bridges or trestles, less than four feet above top of rail, 7'6";

(xvi) Fences of cattle guards, 6'9";

(xvii) Doors and entrances to repair shops or maintenance buildings, 7'6";

(xix) All other objects and articles, 8'6". (c) Overhead and side clearances. Minimum overhead and side clearances may be decreased to the extent defined by the radius of a circle with the appropriate side clearance, with the center-point of the circle set at the appropriate minimum clearance height. Overhead and side clearances do not apply to shops and buildings in which rail equipment is moved for repairs

(d) Clearances for parallel tracks. Clearance is measured from centerline of tracks.

(i) Tracks used for freight transportation, mainline or siding tracks, 15';

(ii) Tracks used for passenger transportation, mainline or siding tracks, 15';

(iii) Tracks used as team or freight house tracks may be reduced to 11'6" provided that all other side clearances are maintained;

(iv) Between adjacent ladder or yard tracks, 20'. Between ladder or yard tracks and other (mainline or siding) tracks, 17'.

(e) Minimum clearances for public roads, highways, and streets.

(i) Where railroads cross overhead, 17';

(ii) Where railroads cross overhead, side clearances are based on the width of the road and the number of lanes

crossing under the structure. Minimum widths are determined by the Department of Transportation on a case-by-case basis;

(iii) Where roads cross overhead, use the minimum clearances as provided in this rule.

**R930-5-16. Accident Reporting.**

Railroad companies are required to report all accidents occurring at highway-rail grade crossings to the Department's Chief Railroad Engineer within 2 hours of the incident. Initial notification must include the USDOT crossing number, street address, municipality, time of incident, train identifier, and contact phone number for further information. Written accident reports shall be submitted to the Department within 30 days of the incident. Current Federal Railroad Administration (FRA) form F 6180.57 shall be used to report accidents.

**R930-5-17. Exemption of Railroad Crossings.**

Under Section 41-6a-1205, Utah Code, certain vehicles are required to stop at all railroad crossings, unless a crossing is signed as exempt from this requirement. Recommendation to exempt a crossing is made by the Diagnostic/Surveillance team to the Department. Certain crossings are not eligible for exemption from Section 41-6a-1205:

(1) Mainline crossings with passive protective devices only;

(2) Crossings within approved quiet zones;

(3) Crossings where insufficient sight distance exists;

(4) Notification under section R930-5-14 shall be performed prior to authorization of exempting crossings.

**R933. Transportation, Preconstruction, Right-of-Way Acquisition.****R933-2. Control of Outdoor Advertising Signs.****R933-2-1. Purpose.**

The purpose of these rules is to implement the Utah Outdoor Advertising Act Section 72-7-501 et seq. Nothing in these rules shall be construed to permit outdoor advertising that would disqualify the State for Federal participation of funds under the Federal standards applicable. The Transportation Commission and the Utah Department of Transportation shall, through designated personnel, control outdoor advertising on interstate and primary highway systems.

**R933-2-2. Federal Regulations.**

The federal regulations governing outdoor advertising contained in 23 CFR 750.101 through 750.713, April 1, 1994 are adopted and incorporated by this reference.

**R933-2-3. Definitions.**

All references in these Rules to Title 72, Chapter 7, Part 5, are to those sections of the Utah Code known as the Utah Outdoor Advertising Act. In addition to the definitions in that part, the following definitions are supplied:

(1) "Abandoned Sign" means any controlled sign, the sign facing of which has been partially obliterated, has been painted out, has remained blank or has obsolete advertising matter for a continuous period of 12 months or more.

(2) "Acceleration and deceleration lanes" means speed change lanes created for the purpose of enabling a vehicle to increase or decrease its speed to merge into, or out of, traffic on the main-traveled way. As used in the Act, an acceleration or deceleration lane begins and ends at a point no closer than 500 feet from the nearest point of the beginning or ending of pavement widening at the exit from or entrance to the main-traveled way. On-ramps and off-ramps are part of the interchange and shall not be considered an acceleration or deceleration lane under the Act or these rules.

(3) "Act" means the Utah Outdoor Advertising Act.

(4) "Advertising" means any message, whether in words, symbols, pictures or any combination thereof, painted or otherwise applied to the face of an outdoor advertising structure, which message is designed, intended, or used to advertise or inform, and which message is visible from any place on the main travel-way of the interstate or primary highway system.

(5) "Areas zoned for the primary purpose of outdoor advertising" as used in the Act is defined to include areas in which the primary activity is outdoor advertising.

(6) "Commercial or industrial zone" as defined in of the Act is further defined to mean, with regard to those areas outside the boundaries of urbanized counties and outside the boundaries of cities and towns referred to in that subsection, those areas not within 8,420 feet of an interstate highway exit-ramp or entrance-ramp as measured from the nearest point of the beginning or ending of the pavement widening at the exit from or entrance to the main traveled way that are reserved for business, commerce, or trade under enabling state legislation or comprehensive local zoning ordinances or regulations, and are actually used for commercial or industrial purposes, including the land along both sides of a controlled highway for 600 feet immediately abutting the area of use, measurements under this subsection being made from the outer edge of regularly used buildings, parking lots, gate-houses, entrance gates, or storage or processing areas.

(7) "Conforming Sign" means an off-premise sign maintained in a location that conforms to the size, lighting, spacing, zoning and usage requirements as provided by law and these rules.

(8) "Controlled Sign" means any off-premise sign that is designed, intended, or used to advertise or inform any part of the advertising or informative contents of which is visible from any place on the main traveled way of any interstate or federal-aid primary highway in this State.

(9) "Destroyed Sign" means a sign damaged by natural elements wherein the costs of re-erection exceeds 30% of the depreciated value of the sign as established by departmental appraisal methods.

(10) "Feeder systems" are secondary roads that bring traffic to the main-traveled way.

(11) "Freeway" means a divided highway for through traffic with full control access.

(12) "Grandfather Status" refers to any off-premise controlled sign erected in zoned or unzoned commercial or industrial areas, prior to May 9, 1967, even if the sign does not comply with the size, lighting, or spacing of the Act and these Rules. Signs only, and not sign sites, may qualify for Grandfather Status.

(13) "H-1" means highway service zone as defined in the Act.

(14) "Lease or Consent" means any written agreement by which possession of land, or permission to use land for the purpose of erecting or maintaining a sign, or both, is granted by the owner to another person for a specified period of time.

(15) "Legal copy" means the advertising copy on the sign that occupies at least 50% of the sign size.

(16) "Nonconforming Sign" means a sign that was lawfully erected, but that does not conform to State law or rules passed or made at a later date or that later fails to comply with State legislation or rules because of changed conditions. The term "illegally erected" or "illegally maintained" is not synonymous with the term, "nonconforming sign", nor is a sign with "grandfather" status synonymous with the term, "nonconforming sign."

(17) "Off-Premise Sign" means also, in supplement to the definition stated in the Act, an outdoor advertising sign that advertises an activity, service or product and that is located on premises other than the premises at which activity or service occurs or product is sold or manufactured.

(18) "On-Premise Sign", in supplement to the definition stated in the Act, does not include a sign that advertises a product or service that is only incidental to the principal activity or that brings rental income to the property owner or occupant.

(19) "Parkland" means any publicly owned land that is designed or used as a public park, recreation area, wildlife or waterfowl refuge, or historical site.

(20) "Point of the Gore" means the point of the area delineated by two solid white lines that is between a continuing lane of a through-roadway and a lane used to enter or exit the continuing lane, including similar areas between merging or splitting highways.

(21) "Property" as used in the definition of "On-Premise Sign" includes those areas from which the general public is serviced and which are directly connected with and are involved in assembling, manufacturing, servicing, repairing, or storing of products used in the business activity. This property does not include the site of any auxiliary facilities that are not essential to and customarily used in the conduct of business, nor does it include property not contiguous to the property on which the sign is situated.

(22) "Sale or Lease Sign" means any sign situated on the subject property that advertises that the property is for "sale" or "lease". This sign may not advertise any product or service unrelated to the business of selling or leasing the land upon which it is located, nor may it advertise a projected use of the land or a financing service available or being utilized in its development.

(23) "Scenic Area" as used in the Act includes a scenic byway.

(24) "Transient or Temporary Activity" means any industrial or commercial activity, not otherwise herein excluded, that does not have a prior continuous history for a period of six months.

(25) "Un-zoned Area" in supplement to the definition stated in the Act, means an area in which no zoning is in effect. It does not include areas within comprehensive zoning or master plans adopted by local zoning authorities.

(26) "V-Type Sign" means any sign, the center pole of which is nearest the traveled portion of the highway and is a common pole to the two sign faces, or when a common pole is not used, a sign with the sign faces no further than 36 inches apart at the angle of the sign closest to the traveled portion of the highway, and the structure poles at the point nearest the traveled portion of the highway no further apart than 48 inches. Existing V-type signs now controlled and permitted are excluded from this definition.

(27) "Visible" means capable of being seen whether or not readable, without visual aid, by a person of normal visual acuity.

#### **R933-2-4. Permits.**

(1) All controlled outdoor advertising signs legally in existence prior to the effective date of the 1967 Act, or that are legally created thereafter, must have a permit. This includes off-premise signs located on the side of or on top of any fixed object or building and visible from the main traveled way of an interstate or federal-aid primary highway.

(2) Anyone preparing to erect a controlled sign shall apply for the permit before beginning construction of the sign. Permits shall be issued in the manner prescribed in the Act. Permits may be issued only for signs that are to be erected in commercial or industrial zones or in unzoned commercial or industrial areas, as defined by the Act. Inasmuch as a sign cannot lawfully be constructed or maintained unless there is legal access to the property on which the sign is proposed to be located, a permit may not be issued if the applicant does not have legal access to that property.

(3) Permits may be issued only for signs already lawfully erected or to be lawfully erected within 90 days from the date of the issuance of the permit. Within 30 days from the date of issuance, the permit must be affixed to the completed sign for which the permit was issued as provided in Subsection R933-2-4(5).

(4) A permit affixed to a sign other than the sign for which it was issued is unlawful, and remedial action shall be taken by the permittee by the proper affixing of the permit to the correct sign within 30 days of notice to the permittee.

(5) Permits shall be permanently attached to the sign in a position to be readily visible from the nearest highway in the direction of travel to the sign faces. If the sign is a single-face cross-highway reader, then the permit must be attached to the sign in a position readily visible from the nearest traveled portion of the highway. The permittee is responsible for the proper placement of the permit on the sign.

(6) Sign permits that have been lost or destroyed must be replaced, and new permits for signs otherwise lawful shall be issued upon the payment of a \$25 fee for each sign and the completion of a new permit application.

(7) Permits shall be issued on a one year fiscal basis, and shall be renewed on or before the first day of July of each year.

(8) The fee for a new permit is \$100 for the one-year fiscal period or any part thereof. The permit expires June 30 of the fiscal year. The fee for permit renewal is \$25 for the one-year fiscal period or any part thereof. Notwithstanding the specification in Subsections R933-2-4(8),(12), and (13)(a)

of a \$100 fee for a sign permit, the fee for the sign permit for a non-profit public service sign shall be \$25, and the fee for renewal of the permit for that non-profit public service sign shall be \$10.

(9) The fee for permits issued within a one-year fiscal period shall not be prorated.

(10) One-year permit renewals shall be made on renewal forms prepared by the Department. Completion of the renewal application and obtaining of the renewal permit prior to the expiration of the existing permit shall be the sole responsibility of the owner. The renewal may be applied for no sooner than 60 days prior to July 1 of the year in which the permit is to be renewed.

(11) Written proof of lease or consent from site owner to erect or maintain an outdoor advertising sign must be furnished by the applicant at the time of application for an original permit. This proof may consist of an affidavit showing the landowner's name and address, the sign owner's name, and the sign location by route, milepost, address, and county. On renewal of the permit the applicant must certify that the sign site is still under valid lease to the applicant.

(12) If a one-year permit on a conforming sign is not renewed on or before July 1 of the year of its term, a new permit application shall be required for a new permit, along with a fee of \$100.

(13) A permit is non transferable, and the permittee shall be liable for any violation of the law regarding the permitted sign. No new permit may be issued for a sign for which a permit has already been issued, except as follows:

(a) Transfer of ownership of a permitted sign shall require the holder of the valid permit to release, in writing, his rights to continue to maintain his sign or use his location for outdoor advertising. The new owner applicant shall then submit to the Utah Department of Transportation the written release and proof of having obtained sign ownership, and a valid lease or consent for the remainder of the permit term. A \$100 fee shall accompany the application and both application and fee must be received within 30 days of the ownership transfer.

(b) A conforming sign that is unlawful and forfeited by the permittee may be acquired and permitted, providing the new sign applicant submits the completed permit application and proof of possession of a valid land lease or consent to maintain a sign at the described location and providing the new application and the sign are otherwise lawful.

(14) A supplemental application fee of \$100 shall be charged to cover administrative and inspection costs for every sign that was erected without a sign permit, Form R-299, or altered without prior written approval of the department, Form R-407. This supplemental fee is in addition to the regular \$100 permit fee.

(15) Each application for a new permit must be accompanied by the approved building permit of the local governing authority or a written statement from that authority that building permits are not required under its ordinances.

(16) Where local authority has issued a building permit for construction of a sign, but construction is contrary to the Utah Outdoor Advertising Act, the action of the local authority does not require the State to issue a permit.

(17) Federal agencies, State agencies, counties, cities and towns that use outdoor advertising signs along the interstate or primary highway systems shall have a permit for each controlled sign as provided in the Act and these rules.

#### **R933-2-5. Sign Changes, Repairs, and Maintenance.**

(1) Sign changes or repairs, including those for signs in a commercial or industrial zone, are subject to the following requirements:

(a) The face of a controlled sign may be removed for

maintenance and renovation or change of advertising copy using basically the same face material. The shape and size of advertising space may not be changed except as provided in these rules. Replacement of the sign face must be accomplished within a 60 day period from the date of its removal.

(b) A nonconforming sign with "Grandfather Status" may not be relocated, structurally altered, nor repositioned, including reversing the direction of the sign face.

(c) A conforming sign may be reshaped or modified as to height or size, or relocated upon proper written request, Form R-407, provided the change is in compliance with the Act and these rules. Any change shall be completed within 60 calendar days from the date of the approval of the request. A fee of \$100 shall accompany the R-407 application to change the sign, in addition to any applicable fee under Subsection R933-2-4(14).

(d) A conforming sign that is damaged by vandals, storms, wind, or acts of nature can be re-erected or changed, or both, upon proper written request and approval on Form R-407.

(e) A nonconforming sign that is damaged but not destroyed by vandals or acts of nature may be repaired to the same size or shape upon proper written application and approval. Normal maintenance may be included in the repair, but no structural changes affecting the sign's value may be allowed. The sign may be purchased by the State if agreement is reached by the State and the sign owner. The compensation to the sign owner shall be the depreciated value of the sign immediately before damage, less cost of re-erection or repair.

(f) Repairs and ordinary maintenance may be made on conforming and nonconforming signs so long as repairs do not alter the basic advertising space or illumination, or change the material of the sign structure.

(g) Nonconforming signs destroyed by natural disaster are not eligible for compensation, unless at the time of destruction they have been appraised and committed for removal and the State has approved a purchase agreement.

(2) The following provisions govern maintenance:

(a) A legally permitted nonconforming sign may remain standing subject to the provisions of the Act and these rules so long as it is not changed, except for advertising copy, and is not purchased or condemned pursuant to law.

(b) Signs shall be properly maintained. Improper maintenance is considered:

- (i) Paint faded or peeling extensively;
- (ii) Message not visible or illegible;
- (iii) Sheets or panels loose or sagging;
- (iv) Structural supports leaning;
- (v) Abandoned.

(c) A sign with any of the deficiencies listed in Subsection R933-2-5(2)(b) is not in a reasonable state of repair, is in violation of the law, and is subject to removal.

(d) The crossing of a right-of-way line of any State highway at other than an established access approach to erect or maintain a sign without the written permission of the Department, is unlawful.

#### **R933-2-6. Commercial and Industrial Usage: Limitations in Zoned or Unzoned Areas.**

(1) Controlled signs in zoned or unzoned industrial or commercial areas are subject to the following zoning and usage requirements:

(a) Commercial or industrial usage must be visible from a traveled portion of the highway and must be situated within 600 feet of the sign site, measured from the outer edge of the regularly used buildings, parking lot, storage or processing area of the activity.

(b) The sign site must be zoned commercial or industrial or be in an unzoned commercial or industrial area.

(2) Airport runways or parking or aircraft tie down areas are not zoned or unzoned commercial or industrial areas.

(3) Mining operations and related activities, including gravel pits are not zoned or unzoned commercial or industrial areas unless they are:

(a) Where the final and concentrated processing of mined or extracted minerals is effected; or

(b) Where the mined material which has been processed is regularly stored or held for sale or shipment.

(4) Farming or ranching areas or related dairy farm facilities, of whatever nature, are not zoned or unzoned commercial or industrial areas.

(5) Municipal or private golf courses or cemeteries are not zoned or unzoned commercial or industrial areas.

(6) A trailer or mobile home park, court, or facility does not qualify under Subsection 72-7-504(1)(d) or (e) regardless of the local zoning. An RV Park does not qualify under either of those subsections unless at least 3/4 of the total available trailer parking spaces are not occupied or reserved for rental on a month-to-month basis.

(7) Where an occupied residence is located along the highway right of way within 600 feet of a commercial or industrial activity, no controlled sign may be erected closer than 100 feet of the residence unless the owner of the residence expressly waives in writing the foregoing restriction. The waiver must be submitted with the permit application prior to the erection of a new sign.

(8) Where the width of the right of way in a commercial or industrial area is more than 300 feet, and there is commercial activity on only one side of the highway, that activity does not qualify the opposite side of the highway as commercial or industrial usage for the purpose of erecting new outdoor advertising signs.

#### **R933-2-7. Spacing For Permitted Signs.**

(1) Spacing of permitted signs shall be as follows:

(a) Signs in unincorporated areas may not be spaced less than 500 feet apart on the interstate and federal-aid primary system, as measured parallel to the highway right of way. Any sign allowed to be erected in a highway service zone H-1 may not be less than 500 feet from an existing controlled sign adjacent to an interstate highway or primary highway except that signs may be erected less than 500 feet from each other if the sign faces on the same side of the interstate highway or limited access primary highway are not simultaneously visible.

(b) No sign may be erected more than 100 feet on the perpendicular from the edge of the right of way of an interstate or primary highway except where a non-controlled highway or railroad right of way runs contiguous and adjacent to the edge of the controlled highway. The 100-foot corridor shall then be measured from a point on the perpendicular not to exceed 200 feet from the edge of the right of way of the interstate or primary highway. In no case may the outer edge of the corridor exceed 350 feet from the controlled right of way.

(c) Any sign located within the controlled area of both the interstate system and a primary system must meet the spacing requirements of both highway systems.

(d) If a sign message may be read from two or more routes, one or more of which is a controlled route, the more stringent of applicable control requirements applies.

(2) Height Above Highway:

No new structure, including the sign face, may be more than 50 feet in height above the elevation of the edge of the traveled surface of the highway. Where local zoning requirements or ordinances are in effect, the stricter of any

applicable zoning requirements or ordinances apply.

#### **R933-2-8. Removal of Illegal Signs.**

(1) **Removal Costs:** The cost for the removal by the Utah Department of Transportation of an illegal or abandoned sign shall be assessed jointly and severally against the sign owner, landowner, occupant of the land or other responsible person, or any combination thereof, in accordance with Section 72-7-508.

(2) **Storage Charges:** Illegal or abandoned signs that have been removed by the Department after proper notice to the sign and site owner or occupant of the land shall be stored at the nearest department shed. There shall be a charge of \$25 per month levied as the storage charges. The storage charges shall be in addition to the costs of the removal of the illegal or abandoned sign.

(3) **Redemption and Disposal:** If the illegal or abandoned sign has not been claimed and redeemed within 30 days from the date of removal, notice to the sign owner, site owner, and occupant of the land shall be given. If the sign is not redeemed within 30 days thereafter, a designated Department official in the area in which the sign is stored shall proceed to dispose of the stored illegal or abandoned sign by either utilizing the material contained therein for Utah Department of Transportation maintenance purposes or destroying the sign. A statement of the sign disposal shall be made and filed with a designated person at the Department.

#### **R933-2-9. Termination of Non-Conforming Use Status.**

(1) The non-conforming use status of a controlled sign shall terminate under the following conditions:

(a) Failure of the sign owner to apply for a renewal permit on or before the date on which the permit expires;

(b) Structural alteration or change of the sign as to height, size, location or direction of sign face not constituting ordinary maintenance or a change of advertising matter;

(c) Destruction by storm, wind, act of nature, fire or vandalism;

(d) Abandonment;

(e) Failure to correct after receiving proper notice pursuant to Section 72-7-508, or failure to ask for a hearing after receiving proper notice pursuant to Section 72-7-508, or failure to file a written response as required by law, or failure to appeal from an adverse decision of the Department, or exhaustion of all legal remedies under Section 72-7-508.

(f) Purchase by the Department under Section 72-7-510.

(g) Acquisition at any time by the Department for highway construction.

#### **R933-2-10. Conforming Sign Becoming Nonconforming -- Removal.**

(1) Any legal conforming sign that becomes nonconforming after May 9, 1967, by reason of law or route classification, may not be required to be removed under the Utah Advertising Act until after the end of the fifth year after it had become nonconforming, except as otherwise provided for by law or contract.

#### **R933-2-11. On-Premise Signs -- Illegal Status - Removal.**

An on-premise sign loses its on-premise status when the business or activity it advertises has ceased to exist for a period of at least 12 months at the site of the sign, the sign is located within 1,000 feet of a controlled highway, and the message thereon is visible to the traveling public from that controlled highway. This sign may be removed at the expense of the sign owner or land owner or both without compensation to the sign or site owner as provided in Section 72-7-508 of the Act.

#### **R933-2-12. Directional Signs.**

(1) Directional signs shall conform to federal standards concerning the lighting, size, number, and spacing of the signs. There are no zoning or usage requirements for directional signs.

(2) The following standards apply only to directional signs that are erected and maintained adjacent to the interstate and federal-aid primary highway system, and that are visible from the main traveled way.

(a) A directional sign allowed under Sections 72-7-502 and 72-7-504 is subject to the following restrictions:

(i) No sign may exceed the following limits where all dimensions include border and trim, but exclude supports:

(A) Maximum area - 150 square feet;

(B) Maximum height - 20 feet;

(C) Maximum length - 20 feet.

(ii) A sign may be illuminated, subject to the following:

(A) Signs that are not effectively shielded so as to prevent light from being directed at any portion of the traveled way of an interstate or primary highway, or that cause glare or impair the vision of the driver of any motor vehicle, or that otherwise interfere with any driver's operation of a motor vehicle, are prohibited.

(B) No sign may be so illuminated as to obscure or interfere with the effectiveness of an official traffic sign, device, or signal.

(iii) Each location of a directional sign must be approved by the Department and is subject to the following restrictions:

(A) No directional sign may be located within 2,000 feet of an interchange or intersection at grade within the interstate system or other freeways or the primary system, measured from the nearest point of pavement widening at the exit from or entrance to the main traveled way.

(B) No directional sign may be located within 2,000 feet of a rest area, parkland, or scenic areas.

(C) Directional signs facing the same direction of travel shall be spaced no less than one mile apart.

(D) No more than one directional sign per activity facing the same direction of travel may be erected along a single route approaching the activity.

(E) Signs adjacent to the interstate or primary system shall be located within 15 air miles of the activity they advertise.

(iv) Any area of historical interest shall be approved by the Utah Historical Society before consideration for approval as an area for a directional sign.

(b) The following directional signs are prohibited:

(i) Signs advertising activities that are illegal under Federal or State law in effect at the location of those signs or activities;

(ii) Signs positioned in any manner as to obscure or otherwise interfere with the effectiveness of an official traffic sign, signal, or device, or to obstruct or interfere with the driver's view of approaching, merging, or intersecting traffic;

(iii) Signs erected or maintained upon trees or painted or drawn upon rocks, or other natural features;

(iv) Obsolete signs;

(v) Signs that are structurally unsafe or in disrepair;

(vi) Signs that contain or are illuminated by any flashing or moving light or animated by moving parts;

(vii) Signs located in rest areas, parklands, or scenic areas.

(3) Any directional sign erected or maintained under the Act and these rules may at any time be removed for cause upon order of the Department after notice and hearing, if requested and timely pursued, under Section 72-7-508.

#### **R933-2-13. Official Signs.**

- (1) Prerequisites for erection and maintenance:
- (a) Prior to erection of an official sign the public agency shall submit to the Department in the Region where the sign is to be located, a completed permit application form R-299 along with:
- (i) Facsimile of the sign message to be erected;
  - (ii) Statement of the official duty or responsibility being performed;
  - (iii) Certified copy of the statute, resolution, or ordinance from the public body showing official action authorizing erection and maintenance of the sign.
- (b) The sign must be erected off the highway right-of-way, owned and maintained by the public agency, and located within the zoning jurisdiction of the public agency.
- (c) Standards, Criteria and Restrictions:
- (i) Only information of general interest to the traveling public may be placed on an official sign. Commercial advertising of a particular service, product or facility is prohibited.
  - (ii) The sign must be within the zoning jurisdiction of the city, town, or other public agency designated by the sign.
  - (iii) No city, town or other subdivision of the State may erect or maintain more than one sign at each approach to the off-ramp, facing oncoming traffic at the nearest point of turn off to a city, town or other subdivision and in no event may more than two official signs, one for each direction of travel upon the controlled highway, be erected and maintained by or for the purpose of designating a city or town or other subdivision.
  - (iv) No official sign may be located within 2,000 feet of an interchange or intersection at grade along the interstate or primary highway system, measured from the nearest point of pavement widening at the exit from the main traveled way.
  - (v) No official sign may be so illuminated as to interfere with the effectiveness of, or obscure, an official traffic sign, device, or signal.
  - (vi) Signs that are not effectively shielded so as to prevent light from being directed at any portion of the traveled way of an interstate or primary highway, or that cause glare or impair the vision of the driver of any motor vehicle, or that otherwise interfere with any driver's operation of a motor vehicle, are prohibited.
  - (vii) No sign may be located within 500 feet of a rest area, parkland, cemetery, or scenic area or other official sign.
  - (viii) No sign may be erected at a site prohibited under local zoning. The stricter commercial and industrial zoning and usage requirements applicable to controlled outdoor advertising signs do not apply to official signs, though all other relevant rules apply.
  - (ix) No sign message may be altered without prior written approval by the department.
  - (x) Any official sign erected or maintained under the Act and these Rules may at any time be removed for cause and without compensation after notice and hearing, if required. The owner of any official sign shall remove the sign at its own cost and expense.

**R933-2-14. Department Hearings.**

Any hearing regarding the legality of a sign shall be held in the region where the sign is located, and shall be held in accordance with the Act, and in accordance with the Utah Administrative Procedures Act and Rule R907-1 unless specifically stated otherwise in a governing statute.

**KEY: signs****March 31, 2006****Title 72, Chapter 7, Part 5****Notice of Continuation November 29, 2006****72-1-201**

**R933. Transportation, Preconstruction, Right of Way Acquisition.****R933-3. Relocation or Modification of Existing Authorized Access Openings or Granting New Access Openings on Limited Access Highways.****R933-3-1. Authority.**

The provisions of this rule are authorized by grants for rulemaking authority Utah Code Ann. Sections 72-1-201 and 72-7-102.

**R933-3-2. Purpose.**

To establish a procedure for allowing and establishing new or existing highways as limited access facilities, for the elimination of intersections and for the right to access restricted facilities.

**R933-3-3. Definition.**

Limited-access facility shall be defined as in Section 72-1-102.

**R933-3-4. When Access is Controlled.**

(1) Limited access control for classified principal arterial highways other than the interstate system and expressways shall be obtained in all rural areas and in urban areas if the highway is being constructed on new alignment or if the existing highway is in sparsely developed areas where control is desirable and economically feasible. Control in urban areas on existing alignment shall not be allowed unless approved by the Utah Transportation Commission.

(2) In addition to the limited access control of principal arterial highways, a limited mileage of high volume minor arterial highways may justify limited access control, especially on new alignment and if adjacent to a freeway interchange. Except for minor arterial highways adjacent to a freeway interchange, control shall not be established if the road is less than one mile in length. Access, if desirable and economically feasible, shall be determined on an individual basis and is subject to approval of Utah Transportation Commission.

(3) Under limited access control, the following limitations shall apply:

(a) The maximum feasible and economic access control shall always be obtained.

(b) On bypasses of cities and towns, all property access shall be prohibited except where the bypass is in a low population town with little or no business and inadequate public crossroads for property access.

(c) On other than bypass roads, a maximum of five accesses per mile on each side of the highway may be granted. Unless justified under this rule, accesses to property shall only be granted opposite to each other.

(d) Where any one property has access to another public road or roads, no access shall be given closer than 1/2 mile from the public road nor shall any two granted accesses be closer than 1/2 mile with the following exception: Where the proposed project involves reconstruction on or near an existing highway where a home, business or other property development is located and lack of direct access to a home, business or other property development would involve excessive property damage and added construction costs, in which case access openings may be provided within the other stated limitations.

(e) No property access shall be closer than 500 feet from another property or public road access.

(f) In order to eliminate public road access, study shall be made in conjunction with local authorities as to feasibility of dead ending or rerouting of intersecting roads.

(g) The maximum size of private access openings shall be 16 feet for residences, 30 feet for farms or other areas

where large equipment is used, and 50 feet for commercial and industrial areas.

(4) Exceptions to the above limitations shall only be made if a careful appraisal reveals extensive damage or if needed frontage roads would involve excessive right of way costs or, in canyons, excessive construction costs. Detailed reports of costs and justification for variance shall be prepared and submitted to the assistant director for approval.

**R933-3-5. Designation of Access Location.**

(1) The Utah Department of Transportation Right of Way Division shall conduct a study and prepare detailed right of way maps, to be used by the Utah Transportation Commission to make final access location determination. The study shall include the location of and justification for current access openings and property owners shall be contacted to determine development plans for the property. The Right of Way Division shall prepare cost estimates for proposed and alternate access locations. The Utah Transportation Commission shall make final access location determination.

(2) The access openings granted shall be accurately described in the property deed and shown on right of way maps and roadway construction plans.

(3) After execution of the deeds, no change shall be made in the access location or additional access openings granted except as provided below.

(4) If a portion of a property which has no access to the highway is later sold, the department has no obligation to grant an access to the property and if inquiries are made, a prospective buyer should be definitely so advised.

**R933-3-6. Revision of Access Openings.**

(1) If a property owner desires to change location or size of an access opening, after execution of the deed, a written request shall be submitted to the department giving location of desired change and its justification. Changes shall comply with the limitations as to spacing in the limited access control policy.

(2) The region director, in cooperation with the engineer for safety, shall determine if the change in location will cause any adverse safety or other traffic operational effects and submit a report with recommendations to the assistant director.

(3) If the change is approved by the assistant director and on federal-aid roads by the Federal Highway Administration, new deeds shall be prepared and executed and all maps corrected.

(4) The property owner shall pay for all costs involved in closing or modifying an existing access opening.

**R933-3-7. New Access Openings.**

(1) Only in cases where significant public benefit will result will new access openings be granted. Access rights are purchased and are considered an asset, the same as purchased property, and can be disposed of the same as real property. Any additional access will not be considered if not in compliance with this rule.

(2) The request shall be submitted by the property owner or public agency in writing to the department, detail as to public benefit and other justifications.

(3) Before granting an opening, safety and other operational features shall be investigated by the region director and the engineer for safety and a written report and recommendations made.

(4) If the access opening is granted, the appreciation of the private property involved shall be determined by an appraisal from the Right of Way Division.

(5) Based on the findings, the executive director of transportation shall make a decision on the request. On

federal-aid roads, concurrence of the Federal Highway Administration shall be obtained if the access opening is recommended by the executive director of transportation.

(6) If the access opening is approved and is to serve private property, the property owner shall pay the department for property appreciation, resulting from the department's relinquishment of the access, as determined by the executive director and the Federal Highway Administration.

(7) On the federal-aid roads the property owner shall also pay all costs for construction of gates, approaches and any other incidental construction costs involved.

(8) The deed shall be executed describing the access opening and all maps and plans shall be revised. This procedure applies to roads constructed with federal-aid funds, which will remain on a federal-aid system and be transferred to local authorities.

(9) Requests for modification of access control shall be forwarded with recommendations to the Utah Department of Transportation by the local authority.

**R933-3-8. Document Responsibility.**

(1) The Right of Way Section shall prepare submittals, documents and maps to the Federal Highway Administration. The deeds shall be prepared by the region. The Right of Way Division will be responsible for all plan corrections.

(2) Federal Highway Administration's approval is required if construction of the road was a federal-aid project though the right of way was nonparticipating.

**R933-3-9. Enforcement of Access Control.**

(1) Highways with limited access control should be marked by the department with public property plates on fences at sufficient intervals to clearly indicate to maintenance personnel the limits of access control.

(2) The station foreman shall be responsible for surveillance of these sections of fence as to any activity in modifying existing access openings or construction of new openings. Any modifications to an access opening shall be immediately reported to the region director. The region director shall designate personnel to contact the property owner and require the owner to repair, remove or replace any fence damaged and also remove any roadway approach material placed.

**R933. Transportation, Preconstruction, Right-of-Way Acquisition.****R933-4. Bus Shelters and Bus Benches.****R933-4-1. Authority.**

The provisions of this rule are authorized under Sections 72-7-102 through 72-7-104.

**R933-4-2. Definitions.**

- (1) "ADA" means the Americans with Disabilities Act.
- (2) "Advertisement or advertising" means a printed or painted sign encouraging or promoting the purchase or use of goods or services, but does not include campaign posters or signs or other signs or advertisements prohibited by law, including these rules.
- (3) "Bus Benches" means any type of bench that is located at a designated bus stop accepted as such by the Utah Department of Transportation, used to aid in the loading and unloading of passengers for the convenience of passengers of public transportation systems.
- (4) "Bus shelter" means a shelter located at a designated bus stop accepted as such by the Utah Department of Transportation, used to aid in the loading and unloading of passengers for the convenience of passengers of public transportation systems.
- (5) "Clear Zone" as defined under "AASHTO Roadside Design Guide".
- (6) "UDOT" means Utah Department of Transportation.

**R933-4-3. Purpose.**

The purpose of this rule is to authorize bus shelters and bus benches at officially recognized bus stops accepted as such by UDOT and within the limits of these rules, on UDOT rights-of-way and for the benefit of the public, also allowing certain specified incidental advertising benefits to the provider of the bus shelter or bench.

**R933-4-4. Permitting and Conditions for Valid Permits.**

Bus shelters or benches, including those on which commercial advertisements are placed, may be erected and maintained on the state rights-of-way of public roads subject to the following conditions and requirements:

- (1) Any person wishing to erect and maintain a bus shelter or bench on the state right-of-way of a public road shall apply to UDOT for a license. As a condition of the issuance of the license, UDOT must approve the bus shelter building or bench plans and the location of the bus shelter or bench on the right-of-way, provided, however, that such approval is subject to any and all restrictions imposed by Title 23 United States Code and 23 CFR relating to the federal-aid system and the Utah Outdoor Advertising Act and Rules, except as specifically otherwise provided herein. The initial license fee is \$200 for a five-year period. Licenses are renewable thereafter, at a cost of \$25 per year for a five-year period.
- (2) If the bus shelter or bench is to be located on a street, road, or right-of-way of a county or municipality, the respective county or municipality also must approve the erection and maintenance of the bus shelter or bench, and for that purpose, a copy of the application to the respective county or municipality and permit shall be provided to UDOT as part of the application for a license.
- (3) An applicant to UDOT for a license hereunder shall include as part of the application a written statement signed by each owner of property abutting the proposed bus shelter or bench site who is required to be notified under subsection (11) of this section, acknowledging receipt of the notice and opportunity to comment provided for under that subsection, or copy of the notice together with a receipt evidencing the notice was sent to such owner by certified mail together with

a declaration under oath affirming that a bone fide attempt to obtain the signed written statement was made.

(4) A copy of the application for a bus shelter or bench license shall be provided also to any public transit agency or authority providing the public transportation of persons to be served by the bus shelter or bench, for all bus shelters or benches on routes of that agency or authority for its approval or rejection of proposed locations. The sequence of applications shall be first, the transit agency or authority; second, the municipality; and third, the state.

(5) As a condition of issuing a license for the erection of a bus shelter or bench on the state right-of-way of a public road, UDOT shall require that the bus shelter or bench will be properly maintained and that its location will meet minimum setback requirements as follows:

- (a) Where a curb and gutter are present, there shall be a minimum of four feet clearance from the face of the curb to any portion of the bus shelter or bench;
  - (b) Where no curb or gutter is present, the front of the bus shelter or bench shall be at least ten feet from the edge of the main traveled roadway located outside of the clear zone;
  - (c) UDOT may provide a schedule of other safety requirements consistent with law.
- (6) A map of the municipality or county, or both, showing the proposed bus shelter or bench locations shall accompany the application.

(7) A plan shall be prepared for each bus shelter or bench location. The plan should be drawn to an approximate scale and the scale indicated on the sketch plan. The plan, as a minimum, shall include a written description of the location and the assigned shelter or bench number. The shelter or bench position shall be shown on the plan with dimensions shown from the closest edge of the shelter or bench to roadway or curb, plus dimensions to the nearest intersecting street. The road characteristics shall be shown on the plan. Other pertinent existing features such as sidewalks, utility poles, large trees, and signs shall be shown as necessary. The existing right-of-way line shall be shown when available and if required.

(8) Each applicant must provide a performance bond, letter of escrow, or other satisfactory security to assure that the authorized work is accomplished in accordance with the approved permit. Any letter of escrow or other satisfactory security must be from a bank which is located in Utah. A bond may be underwritten by a surety company located outside Utah if it is countersigned by a Utah resident agent of that surety company. This security must be described on the appropriate UDOT form and the amount will be based on the number of shelters or benches being licensed, the amount per shelter or bench to be \$500.

The bond will be released only after all work has been satisfactorily completed for all bus shelter or bench locations covered under the license. The applicant shall notify the appropriate UDOT Region Permit Office when all work is completed for the shelter or bench installations covered by the license. If all work on the right-of-way has been completed as per license requirements, the UDOT permit officer will perform a final inspection. The bond shall be held during the life of the shelter or bench to secure compliance with this rule.

(9) Notwithstanding any other provision of law that may be less restrictive, no bus shelter or bench may be erected and maintained less than 150 feet from another bus shelter or off-premise outdoor advertising sign.

(10) A bus shelter less than 20 feet long may have advertising only on one end of the shelter, on which end an advertising face may be placed on both sides. If a bus shelter of 20 feet or longer is approved by the department, which in the interest of the traveling public it may choose to approve,

the shelter may have advertising on both ends, on each of which an advertising face may be placed on both sides. Each advertising face, regardless of the length of the shelter, is limited to no more than 72 inches by 60 inches, with no more than one advertisement per face. No bus shelter may exceed a height of ten feet.

(11) A bus bench may advertise on both sides of the back rest, but may not exceed 2 feet high by 8 feet long.

(12) The license applicant shall notify the abutting property owner by certified mail of the proposed shelter or bench location and any proposed advertising, and provide an opportunity to comment.

(13) A transit bus shelter or bench shall not infringe upon or obstruct any sidewalk, bike path, pedestrian path, driveway, drainage structure or ditch, etc. without adding or allowing adequate passage, which meet ADA requirements.

(14) Prior to permitting the installation of the shelter or bench, any impacted utility companies and municipalities must be notified by the license applicant to determine location of utilities and prevent conflicts. A license to erect and maintain a bus shelter is subject to any pre-existing utility license or right.

(15) All shelter utility connections must be approved by the appropriate city or county agency.

(16) Flashing lights on a transit bus shelter are prohibited. All lights shall be placed or shielded so they do not interfere with motorists on the roadway.

(17) Sides and internal dividers in transit bus shelters shall be constructed of structurally sound materials and provide visibility of waiting passengers to passing traffic and pedestrians. All transparent materials shall be shatter proof. No shelter may be located in such a manner, or be constructed of such materials, as to adversely affect sight distance at any intersection or obstruct the view of traffic signs or other traffic control devices.

(18) Transit bus shelters must be securely attached to their foundations and must provide for a clear opening between the structure and foundation to facilitate cleaning and preclude the accumulation of debris.

(19) Transit bus shelters or benches may not be located within five feet of any fire hydrant or handicapped parking space.

(20) Each bus shelter or bench shall have placed on it a number unique to that location at least two inches by two inches in size, placed at a location on the shelter that renders the sign number visible from the street. The telephone number of the applicant or person to contact regarding the shelter or bench and the area immediately around the shelter, or both, shall be appropriately displayed on the shelter.

(21) Licenses are valid for a five-year, all permits to be renewed before July 1.

(22) A license lapses unless construction is completed within 90 days of the date of the license.

(23) Any bus shelter or bench erected and maintained on the right-of-way of a public road in violation of this rule or in violation of the conditions of the license issued by UDOT may be ordered removed by UDOT.

(24) If such a bus shelter or bench is not removed by its owner within 30 days after its owner has been issued a written order of removal by UDOT, the department may cause the bus shelter or bench to be removed and submit a statement of expenses incurred in the removal to the owner of the bus shelter or bench. If payment or arrangement to make payment is not made within 60 days after the receipt of such statement, UDOT may institute legal proceedings for collection. When a bus shelter or bench is located on a county or municipal street, road, or right-of-way, UDOT may delegate its powers under this rule to the respective county or municipality, and the respective county or municipality shall cooperate with and

assist UDOT in enforcing the conditions of licenses issued by UDOT pursuant to the provisions of this section.

(25) The person to whom a license has been issued for the erection and maintenance of a bus shelter or bench on the right-of-way of a public road shall at all times assume all risks for the bus shelter or bench and shall indemnify and hold harmless the State of Utah, the Utah Department of Transportation, and any county or municipality against all losses or damages resulting solely from the existence of the bus shelter or bench.

(26) All future bus shelter or bench additions must be licensed separately and a bond obtained for the number of bus shelters or benches to be included in the succeeding license. The same data and information will be required for each separate bus shelter or bench license application.

(27) Any existing bus shelter or bench located on UDOT rights-of-way in violation of law is declared to be a public nuisance, and its removal may be ordered by the department.

(28) All construction, maintenance and operational activities shall be the sole responsibility of the licensee.

#### **R933-4-5. Alteration or Termination in Public Interest.**

If UDOT determines that the bus shelters or benches do not serve the public interest, the department may terminate the privilege of maintaining bus shelters or benches, and the prior erection or maintenance of shelters or benches pursuant to rule shall not require continued allowance of shelters or benches or compensation to the provider of the shelters or benches.

#### **R933-4-6. Relocation of Bus Shelters or Benches.**

If road construction, maintenance or repair requires displacement of a bus shelter or bench and relocation is allowed, such shall be accomplished at the expense of the owner of the bus shelter or bench. Prior to any relocation of any bus shelter or bench, Licensee shall submit an application for review to UDOT for approval.
