R58. Agriculture and Food, Animal Industry.**R58-15. Collection of Annual Fees for the Wildlife Damage Prevention Act.****R58-15-1. Authority.**

A. This rule is promulgated under authority of Subsection 4-2-2(1)(j) and Section 4-23-7.

B. Cattle which originate in Utah and leave to another state on commuter permits are exempt.

C. Annual fees which do not exceed \$30.00, may be allowed when the commissioner finds enough extenuating circumstances to show that the livestock owner may not receive sufficient benefits from the predator control program, or

D. Owners may file an exemption for the portion of the fee that is used for predator control, but would still be required to pay the sheep promotion portion of the fee. All sheep owners would be required to file for the exemption annually. Proceeds collected from wool sales or brand inspections from exempt animals for predator control will be refunded to the owner provided an exemption request is filed with the department prior to December 31 of the calendar year corresponding to the exemption, and the exemption request is approved by the commissioner. Forms for submitting the exemption request can be obtained from the department.

R58-15-3. Fees Collection.

The department will adhere to the following procedures to avoid collecting multiple fees on cattle by brand inspection.

A. (1) Cattle that have been fee brand inspected and have a certificate indicating collection of predator control will not require further fee collection after consignment to feedlots within the state.

(2) When cattle are produced in state, and ownership is retained by that producer at a feedlot, a predator-control fee will normally be assessed when such cattle are marketed in this state.

(3) If conditions in R58-15-3-A(2) apply, but the cattle are shipped interstate, predator control fees shall be paid on the fee brand inspection prior to shipment interstate.

(4) Cattle which originate in another state and are brought in-state for grazing will be charged a predator fee on the brand inspection certificate when exiting the state.

B. Dairy cattle are subject to the predator control fee when those animals are consigned to a slaughter facility or auction barn. Special designated dairy replacement sales or dairy replacement auctions are exempt.

C. Pursuant to a memorandum of understanding between the Department of Agriculture and Food and wool marketing agencies or dealers, titled "Wool Fee Collection" is available at the Predator Fee Collection, Utah Department of Agriculture and Food, P.O. D. Movement of sheep from out of state producers into Utah will be subject to fees imposed for predator control. These fees will be collected commensurate with forms delivered to such producers prior to January 1 of each calendar year, which are returned to the department no later than April 1 of each year.

E. Movement of livestock from in-state producers to other states to graze, and in cases where cattle are marketed out of state, or sheep that are shorn of wool that is marketed in other states, and which products are not subject to the collection methods described in Title 4, Chapter 23, the producers will be required to submit to the department on forms provided by the department such fees as are applicable, prior to April 1 of each calendar year.

sell, distribute, manufacture, wholesale, warehouse or handle alcoholic beverages with any licensee or permittee until payment is made. Failure of a licensee or permittee to pay a fine or administrative costs within 30 days of the initial date established by the commission shall result in the issuance of an order to show cause why the license or permit should not be revoked and the licensee's or permittee's compliance bond forfeited. The commission shall consider the order to show cause at its next regularly scheduled meeting.

(f) Violations of any local ordinance are handled by each individual local jurisdiction.

(4) Penalty Schedule. The department and commission shall follow these penalty range guidelines:

(a) Minor Violations. Violations of this category are lesser in nature and relate to basic compliance with the laws and rules. If not corrected, they are sufficient cause for action.  - (iii) existence of written policies governing employee conduct;
 - (iv) extraordinary cooperation in the violation investigation that shows the licensee or permittee and the officer, employee or agent of the licensee or permittee accepts responsibility; and

(v) there was no evidence that the investigation was based on complaints received or on observed misconduct of others, but was based solely on the investigating authority creating the opportunity for a violation.

- (i) prior warnings about compliance problems;
 - (ii) prior violation history;
 - (iii) lack of written policies governing employee conduct;
 - (iv) multiple violations during the course of the investigation;
 - (v) efforts to conceal a violation;
 - (vi) intentional nature of the violation;

A violation grid describing each violation of the alcoholic beverage control laws, the statutory and rule reference, and the degree of seriousness of each violation is available for public inspection in the department's administrative office. A copy will be provided upon request at reproduction cost. It is entitled "Alcoholic Beverage Control Commission Violation Grid" (May 2010 edition) and is incorporated by reference as part of this rule.

R81-1-7. Disciplinary Hearings.

(1) General Provisions.
 (a) This rule is promulgated pursuant to Section 32A-1-107(1)(c)(i) and shall govern the procedure for disciplinary actions under the jurisdiction of the commission. Package agencies are expressly excluded from the provisions of this rule, and are governed by the terms of the package agency contract.

(b) Liberal Construction. Provisions of this rule shall be liberally construed to secure just, speedy and economical determination of all issues presented in any disciplinary action.

(c) Emergency Adjudication Proceedings. The department or commission may issue an order on an emergency basis without complying with the Utah Administrative Procedures Act in accordance with the procedures outlined in Section 63G-4-502.

(d) Utah Administrative Procedures Act. Proceedings under this rule shall be in accordance with Title 63G, Chapter 4, Utah Administrative Procedures Act (UAPA), and Sections 32A-1-119 and -120.

(e) Penalties.

(i) This rule shall govern the imposition of any penalty against a commission licensee, permittee, or certificate of approval holder, an officer, employee or agent of a licensee, permittee, or certificate of approval holder, and a manufacturer, supplier or importer whose products are listed in this state.

(ii) Penalties may include a letter of admonishment, imposition of a fine, the suspension or revocation of a commission license, permit, or certificate of approval, the requirement that a licensee have a written responsible alcohol service plan as provided in R81-1-24, the assessment of costs of action, an order prohibiting an officer, employee or agent of a licensee, permittee, or certificate of approval holder, from serving, selling, distributing, manufacturing, wholesaling, warehousing, or handling alcoholic beverages in the course of employment with any commission licensee, permittee, or certificate of approval holder for a period determined by the commission, the forfeiture of bonds, an order removing a manufacturer's, supplier's or importer's products from the department's sales list and a suspension of the department's purchase of those products for a period determined by the commission, and an order removing the products of a certificate of approval holder from the state approved sales list, and a suspension of the purchase of the products in the state.

(iii) Department administrative costs are the hourly pay rate plus benefits of each department employee involved in processing and conducting the adjudicative proceedings on the violation, an hourly charge for department overhead costs, the amount billed the department by an independent contractor for services rendered in conjunction with an adjudicative proceeding, and any additional extraordinary or incidental costs incurred by the department. The commission may also assess additional costs if a respondent fails to appear before the commission at the final stage of the adjudicative process. Department overhead costs are calculated by taking the previous year's total department expenditures less staff payroll charges expended on violations, dividing it by the previous year's total staff hours spent on violations, and multiplying this by a rate derived by taking the previous year's total staff payroll spent on violations to the previous year's total payroll of all office employees. The overhead cost figure shall be recalculated at the beginning of each fiscal year.

(f) Perjured Statements. Any person who makes any false or perjured statement in the course of a disciplinary action is subject to criminal prosecution under Section 32A-12-304.

(g) Service. Service of any document shall be satisfied by service personally or by certified mail upon any respondent, or upon any officer or manager of a corporate or limited liability company respondent, or upon an attorney for a respondent, or by service personally or by certified mail to the last known address of the respondent or any of the following:

(i) Service personally or by certified mail upon any employee working in the respondent's premises; or

(ii) Posting of the document or a notice of certified mail upon a respondent's premises; or

(iii) Actual notice. Proof of service shall be satisfied by a receipt of service signed by the person served or by a certificate of service signed by the person served, or by certificate of service signed by the server, or by verification of posting on the respondent's premises.

(h) Filing of Pleadings or Documents. Filing by a respondent of any pleading or document shall be satisfied by timely delivery to the department office, 1625 South 900 West, Salt Lake City, or by timely delivery to P. O. Box 30408, Salt Lake City, Utah 84130-0408.

(i) Representation. A respondent who is not a corporation or limited liability company may represent himself in any disciplinary action, or may be represented by an agent duly authorized by the respondent in writing, or by an attorney. A

corporate or limited liability company respondent may be represented by a member of the governing board of the corporation or manager of the limited liability company, or by a person duly authorized and appointed by the respondent in writing to represent the governing board of the corporation or manager of the limited liability company, or by an attorney.

(j) Presiding Officers.

(i) The commission or the director may appoint presiding officers to receive evidence in disciplinary proceedings, and to submit to the commission orders containing written findings of fact, conclusions of law, and recommendations for commission action.

(ii) If fairness to the respondent is not compromised, the commission or director may substitute one presiding officer for another during any proceeding.

(iii) A person who acts as a presiding officer at one phase of a proceeding need not continue as presiding officer through all phases of a proceeding.

(iv) Nothing precludes the commission from acting as presiding officer over all or any portion of an adjudication proceeding.

(v) At any time during an adjudicative proceeding the presiding officer may hold a conference with the department and the respondent to:

(A) encourage settlement;

(B) clarify issues;

(C) simplify the evidence;

(D) expedite the proceedings; or

(E) facilitate discovery, if a formal proceeding.

(k) Definitions. The definitions found in Sections 32A-1-105 and Title 63G, Chapter 4 apply to this rule.

(l) Computation of Time. The time within which any act shall be done shall be computed by excluding the first day and including the last day, unless the last day is a Saturday, Sunday, or state or federal holiday, in which case the next business day shall count as the last day.

(m) Default.

(i) The presiding officer may enter an order of default against a respondent if the respondent in an adjudicative proceeding fails to attend or participate in the proceeding.

(ii) The order shall include a statement of the grounds for default, and shall be mailed to the respondent and the department.

(iii) A defaulted respondent may seek to have the default order set aside according to procedures outlined in the Utah Rules of Civil Procedure.

(iv) After issuing the order of default, the commission or presiding officer shall conduct any further proceedings necessary to complete the adjudicative proceeding without the participation of the respondent in default and shall determine all issues in the adjudicative proceeding, including those affecting the defaulting respondent.

(2) Pre-adjudication Proceedings.

(a) Staff Screening. Upon receipt of a violation report, a decision officer of the department shall review the report, and the alleged violator's violation history, and in accordance with R81-1-6, determine the range of penalties which may be assessed should the alleged violator be found guilty of the alleged violation.

(b) Letters of Admonishment. Because letters of admonishment are not "state agency actions" under Section 63G-4-102(1)(a), no adjudicative proceedings are required in processing them, and they shall be handled in accordance with the following procedures:

(i) If the decision officer of the department determines that the alleged violation does not warrant an administrative fine, or suspension or revocation of the license, permit, or certificate of approval, or action against an officer, employee or agent of a licensee, permittee, or certificate of approval holder, or against

a manufacturer, supplier or importer of products listed in this state, a letter of admonishment may be sent to the respondent.

(ii) A letter of admonishment shall set forth in clear and concise terms:

(A) The case number assigned to the action;

(B) The name of the respondent;

(C) The alleged violation, together with sufficient facts to put a respondent on notice of the alleged violations and the name of the agency or staff member making the report;

(D) Notice that a letter of admonishment may be considered as a part of the respondent's violation history in assessing appropriate penalties in future disciplinary actions against the respondent; and

(E) Notice that a rebuttal is permitted under these rules within ten days of service of the letter of admonishment.

(F) Notice that the letter of admonishment is subject to the approval of the commission.

(iii) A copy of the law enforcement agency or department staff report shall accompany the letter of admonishment. The decision officer shall delete from the report any information that might compromise the identity of a confidential informant or undercover agent.

(iv) A respondent may file a written rebuttal with the department within ten days of service of the letter of admonishment. The rebuttal shall be signed by the respondent, or by the respondent's authorized agent or attorney, and shall set forth in clear and concise terms:

(A) The case number assigned to the action;

(B) The name of the respondent;

(C) Any facts in defense or mitigation of the alleged violation, and a brief summary of any attached evidence. The rebuttal may be accompanied by supporting documents, exhibits, or signed statements.

(v) If the decision officer is satisfied, upon receipt of a rebuttal, that the letter of admonishment was not well taken, it may be withdrawn and the letter and rebuttal shall be expunged from the respondent's file. Letters of admonishment so withdrawn shall not be considered as a part of the respondent's violation history. If no rebuttal is received, or if the decision officer determines after receiving a rebuttal that the letter of admonishment is justified, the matter shall be submitted to the commission for final approval. Upon commission approval, the letter of admonishment, together with any written rebuttal, shall be placed in the respondent's department file and may be considered as part of the respondent's violation history in assessing appropriate penalties in future disciplinary actions against the respondent. If the commission rejects the letter of admonishment, it may either direct the decision officer to dismiss the matter, or may direct that an adjudicative proceeding be commenced seeking a more severe penalty.

(vi) At any time prior to the commission's final approval of a letter of admonishment, a respondent may request that the matter be processed under the adjudicative proceeding process.

(c) Commencement of Adjudicative Proceedings.

(i) Alleged violations shall be referred to a presiding officer for commencement of adjudicative proceedings under the following circumstances:

(A) the decision officer determines during screening that the case does not fit the criteria for issuance of a letter of admonishment under section (2)(b)(i);

(B) a respondent has requested that a letter of admonishment be processed under the adjudicative proceeding process; or

(C) the commission has rejected a letter of admonishment and directed that an adjudicative proceeding be commenced seeking a more severe penalty.

(ii) All adjudicative proceedings shall commence as informal proceedings.

(iii) At any time after commencement of informal

adjudicative proceedings, but before the commencement of a hearing, if the department determines that it will seek administrative fines exceeding \$3000, a suspension of the license, permit or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval for the alleged violation(s), the presiding officer shall convert the matter to a formal adjudicative proceeding.

(iv) At any time before a final order is issued, a presiding officer may convert an informal proceeding to a formal proceeding if conversion is in the public interest and does not unfairly prejudice the rights of any party.

(3) The Informal Process.

(a) Notice of agency action.

(i) Upon referral of a violation report from the decision officer for commencement of informal adjudicative proceedings, the presiding officer shall issue and sign a written "notice of agency action" which shall set forth in clear and concise terms:

(A) The names and mailing addresses of all persons to whom notice is being given by the presiding officer, and the name, title, and mailing address of any attorney or employee who has been designated to appear for the department;

(B) The department's case number;

(C) The name of the adjudicative proceeding, "DABC vs.

,";

(D) The date that the notice of agency action was mailed;

(E) A statement that the adjudicative proceeding is to be conducted informally according to the provisions of this rule and Sections 63G-4-202 and -203 unless a presiding officer converts the matter to a formal proceeding pursuant to Sections (2)(c)(iii) or (iv) of this rule, in which event the proceeding will be conducted formally according to the provisions of this rule and Sections 63G-4-204 to -209;

(F) The date, time and place of any prehearing conference with the presiding officer;

(G) A statement that a respondent may request a hearing for the purpose of determining whether the violation(s) alleged in the notice of agency action occurred, and if so, the penalties that should be imposed;

(H) A statement that a respondent who fails to attend or participate in any hearing may be held in default;

(I) A statement of the legal authority and jurisdiction under which the adjudicative proceeding is to be maintained;

(J) A statement of the purpose of the adjudicative proceeding and questions to be decided including:

(I) the alleged violation, together with sufficient facts to put the respondent on notice of the alleged violation and the name of the agency or department staff member making the violation report;

(II) the penalty sought, which may include assessment of costs under Section 32A-1-119(5)(c) and (d) if the respondent is found guilty of the alleged violation, and forfeiture of any compliance bond on final revocation under Section 32A-1-119(5)(f) if revocation is sought by the department;

(K) Any violation history of the respondent which may be considered in assessing an appropriate penalty should the respondent be found guilty of the alleged violation; and

(L) The name, title, mailing address, and telephone number of the presiding officer.

(ii) A copy of the law enforcement agency or staff report shall accompany the notice of agency action. The presiding officer shall delete from the report any information that might compromise the identity of a confidential informant or undercover agent.

(iii) The notice of agency action and any subsequent pleading in the case shall be retained in the respondent's department file.

(iv) The notice of agency action shall be mailed to each respondent, any attorney representing the department, and, if

applicable, any law enforcement agency that referred the alleged violation to the department.

(v) The presiding officer may permit or require pleadings in addition to the notice of agency action. All additional pleadings shall be filed with the presiding officer, with copies sent by mail to each respondent and to the department.

(vi) Amendment to Pleading. The presiding officer may, upon motion of the respondent or department made at or before the hearing, allow any pleading to be amended or corrected. Defects which do not substantially prejudice a respondent or the department shall be disregarded.

(vii) Signing of Pleading. Pleadings shall be signed by the department or respondent, or their authorized attorney or representative, and shall show the signer's address and telephone number. The signature shall be deemed to be a certification by the signer that he has read the pleading and that he has taken reasonable measures to assure its truth.

(b) The Prehearing Conference.

(i) The presiding officer may hold a prehearing conference with the respondent and the department to encourage settlement, clarify issues, simplify the evidence, or expedite the proceedings.

(ii) All or part of any adjudicative proceeding may be stayed at any time by a written settlement agreement signed by the department and respondent or their authorized attorney or representative, and by the presiding officer. The stay shall take effect immediately upon the signing of the settlement agreement, and shall remain in effect until the settlement agreement is approved or rejected by the commission. No further action shall be required with respect to any action or issue so stayed until the commission has acted on the settlement agreement.

(iii) A settlement agreement approved by the commission shall constitute a final resolution of all issues agreed upon in the settlement. No further proceedings shall be required for any issue settled. The approved settlement shall take effect by its own terms and shall be binding upon the respondent and the department. Any breach of a settlement agreement by a respondent may be treated as a separate violation and shall be grounds for further disciplinary action. Additional sanctions stipulated in the settlement agreement may also be imposed.

(iv) If the settlement agreement is rejected by the commission, the action shall proceed in the same posture as if the settlement agreement had not been reached, except that all time limits shall have been stayed for the period between the signing of the agreement and the commission rejection of the settlement agreement.

(v) If the matter cannot be resolved by settlement agreement, the department shall notify the respondent and the presiding officer whether it will seek administrative fines exceeding \$3000, a suspension of the license, permit or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval for the alleged violation(s).

(vi) If the department does not seek administrative fines exceeding \$3000, a suspension of the license, permit, or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval for the alleged violation(s), any hearing on the matter shall be adjudicated informally.

(vii) If the department does seek administrative fines exceeding \$3000, a suspension of the license, permit, or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval for the alleged violation(s), the presiding officer shall convert the matter to a formal adjudicative proceeding, and any hearing on the matter shall be adjudicated formally. The department may waive the formal adjudicative proceeding requirement that the respondent file a written response to the notice of agency action.

(c) The Informal Hearing.

(i) The presiding officer shall notify the respondent and department in writing of the date, time and place of the hearing at least ten days in advance of the hearing. Continuances of scheduled hearings are not favored, but may be granted by the presiding officer for good cause shown. Failure by a respondent to appear at the hearing after notice has been given shall be grounds for default and shall waive both the right to contest the allegations, and the right to the hearing. The presiding officer shall proceed to prepare and serve on respondent an order pursuant to R81-1-7(3)(d).

(ii) All hearings shall be presided over by the presiding officer.

(iii) The respondent named in the notice of agency action and the department shall be permitted to testify, present evidence, and comment on the issues. Formal rules of evidence shall not apply, however, the presiding officer:

(A) may exclude evidence that is irrelevant, immaterial or unduly repetitious;

(B) shall exclude evidence privileged in the courts of Utah;

(C) shall recognize presumptions and inferences recognized by law;

(D) may receive documentary evidence in the form of a copy or excerpt if the copy or excerpt contains all the pertinent portions of the original document;

(E) may take official notice of any facts that could be judicially noticed under the Utah Rules of Evidence, of the record of other proceedings before the commission, and of technical or scientific facts within the commission's specialized knowledge;

(F) may not exclude evidence solely because it is hearsay; and

(G) may use his experience, technical competence, and specialized knowledge to evaluate the evidence.

(iv) All testimony shall be under oath.

(v) Discovery is prohibited.

(vi) Subpoenas and orders to secure the attendance of witnesses or the production of evidence shall be issued by the presiding officer when requested by a respondent or the department, or may be issued by the presiding officer on his own motion.

(vii) A respondent shall have access to information contained in the department's files and to material gathered in the investigation of respondent to the extent permitted by law.

(viii) Intervention is prohibited.

(ix) The hearing shall be open to the public, provided that the presiding officer may order the hearing closed upon a written finding that the public interest in an open meeting is clearly outweighed by factors enumerated in the closure order. The presiding officer may take appropriate measures necessary to preserve the integrity of the hearing.

(x) Record of Hearing. The presiding officer shall cause an official record of the hearing to be made, at the department's expense, as follows:

(A) The record of the proceedings may be made by means of an audio or video recorder or other recording device at the department's expense.

(B) The record may also be made by means of a certified shorthand reporter employed by the department or by a party desiring to employ a certified shorthand reporter at its own cost in the event that the department chooses not to employ a reporter. If a party employs a certified shorthand reporter, the original transcript of the hearing shall be filed with the department. Those desiring a copy of the certified shorthand reporter's transcript may purchase it from the reporter.

(C) Any respondent, at his own expense, may have a person approved by the department, prepare a transcript of the hearing, subject to any restrictions that the department is

permitted by statute to impose to protect confidential information disclosed at the hearing. Whenever a transcript or audio or video recording of a hearing is made, it will be available at the department for use by the parties, but the original transcript or recording may not be withdrawn.

(D) The department shall retain the record of the evidentiary hearing for a minimum of one year from the date of the hearing, or until the completion of any court proceeding on the matter.

(xi) The presiding officer may grant continuances or recesses as necessary.

(xii) Order of presentation. Unless otherwise directed by the presiding officer at the hearing, the order of procedure and presentation of evidence will be as follows: (1) department; (2) respondent; (3) rebuttal by department.

(xiii) Time limits. The presiding officer may set reasonable time limits for the presentations described above.

(xiv) Continuances of the hearing. Any hearing may be continued to a time and date certain announced at the hearing, which shall not require any new notification. The continuance of the hearing may be made upon motion of a respondent or the department indicating good cause why a continuance is necessary. The continuance of the hearing may also be made upon the motion of the presiding officer when in the public interest.

(xv) Oral Argument and Briefs. Upon the conclusion of the taking of evidence, the presiding officer may, in his discretion, permit a respondent and the department to make oral arguments or submit additional briefs or memoranda upon a schedule to be designated by the presiding officer.

(d) Disposition.

(i) Presiding Officer's Order; Objections.

(A) Within a reasonable time after the close of the hearing, the presiding officer shall issue a signed order in writing that includes the following:

(I) the decision;

(II) the reasons for the decision;

(III) findings of fact;

(IV) conclusions of law;

(V) recommendations for final commission action;

(VI) notice that a respondent or the department having objections to the presiding officer's order may file written objections with the presiding officer within ten days of service of the order, setting forth the particulars in which the report is alleged to be unfair, inaccurate, incomplete, unreasonable, unlawful or not supported by the evidence.

(B) The order shall be based on the facts appearing in the department's files and on the facts presented in evidence at the informal hearing. Any finding of fact that was contested may not be based solely on hearsay evidence. The findings of fact shall be based upon a preponderance of the evidence. The order shall not recommend a penalty more severe than that sought in the notice of agency action, and in no event may it recommend administrative fines exceeding \$3000, a suspension of the license, permit, or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval.

(C) A copy of the presiding officer's order shall be promptly mailed to the respondent and the department.

(D) The presiding officer shall wait ten days from service of his order for written objections, if any. The presiding officer may then amend or supplement his findings of fact, conclusions of law, and recommendations to reflect those objections which have merit or which are not disputed.

(E) Upon expiration of the time for filing written objections, the order of the presiding officer and any written objections timely filed, shall be submitted to the commission for final consideration.

(ii) Commission Action.

(A) Upon expiration of the time for filing objections, the

order shall be placed on the next available agenda of a regular commission meeting for consideration by the commission. Copies of the order, together with any objections filed shall be forwarded to the commission, and the commission shall finally decide the matter on the basis of the order and any objections submitted.

(B) The commission shall be deemed a substitute presiding officer for this final stage of the informal adjudicative proceeding pursuant to Sections 63G-4-103(1)(h)(ii) and (iii). This stage is not considered a "review of an order by an agency or a superior agency" under Sections 63G-4-301 and -302.

(C) No additional evidence shall be presented to the commission. The commission may, in its discretion, permit the respondent and department to present oral presentations.

(D) After the commission has reached a final decision, it shall issue or cause to be issued a signed, written order pursuant to Section 32A-1-119(3)(c) and (6) and, 63G-4-203(1)(i) containing:

(I) the decision;

(II) the reasons for the decision;

(III) findings of fact;

(IV) conclusions of law;

(V) action ordered by the commission and effective date of the action taken;

(VI) notice of the right to seek judicial review of the order within 30 days from the date of its issuance in the district court in accordance with Sections 63G-4-401, -402, -404, and -405 and 32A-1-119 and -120.

(E) The commission may adopt in whole or in part, any portion(s) of the initial presiding officer's order.

(F) The order shall be based on the facts appearing in the department's files and on the facts presented in evidence at the informal hearing.

(G) The order shall not impose a penalty more severe than that sought in the notice of agency action, and in no event may it impose administrative fines exceeding \$3000, a suspension of the license, permit, or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval.

(H) The commission, after it has rendered its final decision and order, may direct the department director to prepare, issue, and cause to be served on the parties the final written order on behalf of the commission.

(I) A copy of the commission's order shall be promptly mailed to the parties.

(e) Judicial Review.

(i) Any petition for judicial review of the commission's final order must be filed within 30 days from the date the order is issued.

(ii) Appeals from informal adjudicative proceedings shall be to the district court in accordance with Sections 63G-4-402, -404, and -405, and 32A-1-119 and -120.

(4) The Formal Process.

(a) Conversion Procedures. If a presiding officer converts an informal adjudicative proceeding to a formal adjudicative proceeding pursuant to sections (2)(c)(iii) or (iv):

(i) the presiding officer shall notify the parties that the adjudicative proceeding is to be conducted formally according to the provisions of this rule and Sections 63G-4-204 to -209;

(ii) the case shall proceed without requiring the issuance of a new or amended notice of agency action;

(iii) the respondent shall be required to file a written response to the original notice of agency action within 30 days of the notice of the conversion of the adjudicative proceeding to a formal proceeding, unless this requirement is waived by the department. Extensions of time to file a response are not favored, but may be granted by the presiding officer for good cause shown. Failure to file a timely response shall waive the respondent's right to contest the matters stated in the notice of

agency action, and the presiding officer may enter an order of default and proceed to prepare and serve his final order pursuant to R81-1-7(4)(e). The response shall be signed by the respondent, or by an authorized agent or attorney of the respondent, and shall set forth in clear and concise terms:

- (A) the case number assigned to the action;
 - (B) the name of the adjudicative proceeding, "DABC vs. _____";
 - (C) the name of the respondent;
 - (D) whether the respondent admits, denies, or lacks sufficient knowledge to admit or deny each allegation stated in the notice of agency action, in which event the allegation shall be deemed denied;
 - (E) any facts in defense or mitigation of the alleged violation or possible penalty;
 - (F) a brief summary of any attached evidence. Any supporting documents, exhibits, signed statements, transcripts, etc., to be considered as evidence shall accompany the response;
 - (G) a statement of the relief the respondent seeks;
 - (H) a statement summarizing the reasons that the relief requested should be granted.
- (iv) the presiding officer may permit or require pleadings in addition to the notice of agency action and the response. All additional pleadings shall be filed with the presiding officer, with copies sent by mail to each party.
- (v) the presiding officer may, upon motion of the responsible party made at or before the hearing, allow any pleading to be amended or corrected. Defects which do not substantially prejudice any of the parties shall be disregarded;
- (vi) Pleadings shall be signed by the party or the party's attorney and shall show the signer's address and telephone number. The signature shall be deemed to be a certification by the signer that he has read the pleading and that he has taken reasonable measures to assure its truth;
- (b) Intervention.
- (i) Any person not a party may file a signed, written petition to intervene in a formal adjudicative proceeding with the presiding officer. The person who wishes to intervene shall mail a copy of the petition to each party. The petition shall include:
- (A) the agency's case number;
 - (B) a statement of facts demonstrating that the petitioner's legal rights or interests are substantially affected by the formal adjudicative proceedings or that the petitioner qualifies as an intervenor under any provision of law; and
 - (C) a statement of the relief that the petitioner seeks from the agency;
- (ii) Response to Petition. Any party to a proceeding into which intervention is sought may make an oral or written response to the petition for intervention. The response shall state the basis for opposition to intervention and may suggest limitations to be placed upon the intervenor if intervention is granted. The response must be presented or filed at or before the hearing.
- (iii) Granting of Petition. The presiding officer shall grant a petition for intervention if the presiding officer determines that:
- (A) the petitioner's legal interests may be substantially affected by the formal adjudicative proceeding; and
 - (B) the interests of justice and the orderly and prompt conduct of the adjudicative proceedings will not be materially impaired by allowing the intervention.
- (iv) Order Requirements.
- (A) Any order granting or denying a petition to intervene shall be in writing and sent by mail to the petitioner and each party.
- (B) An order permitting intervention may impose conditions on the intervenor's participation in the adjudicative proceeding that are necessary for a just, orderly, and prompt

conduct of the adjudicative proceeding.

(C) The presiding officer may impose conditions at any time after the intervention.

(D) If it appears during the course of the proceeding that an intervenor has no direct or substantial interest in the proceeding and that the public interest does not require the intervenor's participation, the presiding officer may dismiss the intervenor from the proceeding.

(E) In the interest of expediting a hearing, the presiding officer may limit the extent of participation of an intervenor. Where two or more intervenors have substantially like interests and positions, the presiding officer may at any time during the hearing limit the number of intervenors who will be permitted to testify, cross-examine witnesses or make and argue motions and objections.

(c) Discovery and Subpoenas.

(i) Discovery. Upon the motion of a party and for good cause shown that it is to obtain relevant information necessary to support a claim or defense, the presiding officer may authorize the manner of discovery against another party or person, including the staff, as may be allowed by the Utah Rules of Civil Procedure.

(ii) Subpoenas. Subpoenas and orders to secure the attendance of witnesses or the production of evidence in formal adjudicative proceedings shall be issued by the presiding officer when requested by any party, or may be issued by the presiding officer on his own motion.

(d) The Formal Hearing.

(i) Notice. The presiding officer shall notify the parties in writing of the date, time, and place of the hearing at least ten days in advance of the hearing. The presiding officer's name, title, mailing address, and telephone number shall be provided to the parties. Continuances of scheduled hearings are not favored, but may be granted by the presiding officer for good cause shown. Failure to appear at the hearing after notice has been given shall be grounds for default and shall waive both the respondent's right to contest the allegations, and the respondent's right to the hearing. The presiding officer shall proceed to prepare and serve on respondent his order pursuant to R81-1-7(4)(e).

(ii) Public Hearing. The hearing shall be open to all parties. It shall also be open to the public, provided that the presiding officer may order the hearing closed upon a written finding that the public interest in an open hearing is clearly outweighed by factors enumerated in the closure order. The presiding officer may take appropriate measures necessary to preserve the integrity of the hearing.

(iii) Rights of Parties. The presiding officer shall regulate the course of the hearings to obtain full disclosure of relevant facts and to afford all the parties reasonable opportunity to present their positions, present evidence, argue, respond, conduct cross-examinations, and submit rebuttal evidence.

(iv) Public Participation. The presiding officer may give persons not a party to the adjudicative proceeding the opportunity to present oral or written statements at the hearing.

(v) Rules of Evidence. Technical rules of evidence shall not apply. Any reliable evidence may be admitted subject to the following guidelines. The presiding officer:

(A) may exclude evidence that is irrelevant, immaterial or unduly repetitious;

(B) shall exclude evidence privileged in the courts of Utah;

(C) shall recognize presumptions and inferences recognized by law;

(D) may receive documentary evidence in the form of a copy or excerpt if the copy or excerpt contains all the pertinent portions of the original document.

(E) may take official notice of any facts that could be judicially noticed under the Utah Rules of Evidence, of the

record of other proceedings before the agency, and of technical or scientific facts within the agency's specialized knowledge;

(F) may not exclude evidence solely because it is hearsay; and

(G) may use his experience, technical competence, and specialized knowledge to evaluate the evidence.

(vi) Oath. All testimony presented at the hearing, if offered as evidence to be considered in reaching a decision on the merits, shall be given under oath.

(vii) Order of presentation. Unless otherwise directed by the presiding officer at the hearing, the order of procedure and presentation of evidence will be as follows: (1) agency; (2) respondent; (3) intervenors (if any); (4) rebuttal by agency.

(viii) Time limits. The presiding officer may set reasonable time limits for the presentations described above.

(ix) Continuances of the hearing. Any hearing may be continued to a time and date certain announced at the hearing, which shall not require any new notification. The continuance of the hearing may be made upon motion of a party indicating good cause why a continuance is necessary. The continuance of the hearing may also be made upon the motion of the presiding officer when in the public interest.

(x) Oral Argument and Briefs. Upon the conclusion of the taking of evidence, the presiding officer may, in his discretion, permit the parties to make oral arguments or submit additional briefs or memoranda upon a schedule to be designated by the presiding officer.

(xi) Record of Hearing. The presiding officer shall cause an official record of the hearing to be made, at the agency's expense, as follows:

(A) The record may be made by means of an audio or video recorder or other recording device at the department's expense.

(B) The record may also be made by means of a certified shorthand reporter employed by the department or by a party desiring to employ a certified shorthand reporter at its own cost in the event that the department chooses not to employ a reporter. If a party employs a certified shorthand reporter, the original transcript of the hearing shall be filed with the department. Those desiring a copy of the certified shorthand reporter's transcript may purchase it from the reporter.

(C) Any respondent, at his own expense, may have a person approved by the department prepare a transcript of the hearing, subject to any restrictions that the agency is permitted by statute to impose to protect confidential information disclosed at the hearing. Whenever a transcript or audio or video recording of a hearing is made, it will be available at the department for use by the parties, but the original transcript or recording may not be withdrawn.

(D) The department shall retain the record of the evidentiary hearing for a minimum of one year from the date of the hearing, or until the completion of any court proceeding on the matter.

(xii) Failure to appear. Inexcusable failure of the respondent to appear at a scheduled evidentiary hearing after receiving proper notice constitutes an admission of the charged violation. The validity of any hearing is not affected by the failure of any person to attend or remain in attendance pursuant to Section 32A-1-119(5)(c).

(e) Disposition.

(i) Presiding Officer's Order; Objections.

(A) Within a reasonable time of the close of the hearing, or after the filing of any post-hearing papers permitted by the presiding officer, the presiding officer shall sign and issue a written order that includes the following:

(I) the findings of fact based exclusively on evidence found in the record of the adjudicative proceedings, or facts officially noted. No finding of fact that was contested may be based solely on hearsay evidence. The findings of fact shall be

based upon a preponderance of the evidence, except if the respondent fails to respond as per R81-1-7(4)(a)(iii), then the findings of fact shall adopt the allegations in the notice of agency action;

(II) conclusions of law;

(III) the decision;

(IV) the reasons for the decision;

(V) recommendations for final commission action. The order shall not recommend a penalty more severe than that sought in the notice of agency action;

(VI) notice that a respondent or the department having objections to the presiding officer's order may file written objections with the presiding officer within ten days of service of the order setting forth the particulars in which the report is alleged to be unfair, inaccurate, incomplete, unreasonable, unlawful, or not supported by the evidence.

(B) A copy of the presiding officer's order shall be promptly mailed to the parties.

(C) The presiding officer shall wait ten days from service of his order for written objections, if any. The presiding officer may then amend or supplement his findings of fact, conclusions of law, and recommendations to reflect those objections which have merit and which are not disputed.

(D) Upon expiration of the time for filing written objections, the order of the presiding officer and any written objections timely filed, shall be submitted to the commission for final consideration.

(ii) Commission Action.

(A) Upon expiration of the time for filing objections, the order shall be placed on the next available agenda of a regular commission meeting for consideration by the commission. Copies of the order, together with any objections filed by the respondent, shall be forwarded to the commission, and the commission shall finally decide the matter on the basis of the order and any objections submitted.

(B) The commission shall be deemed a substitute presiding officer for this final stage of the formal adjudicative proceeding pursuant to Sections 63G-4-103(1)(h)(ii) and (iii). This stage is not considered a "review of an order by an agency or a superior agency" under Sections 63G-4-301 and -302.

(C) No additional evidence shall be presented to the commission. The commission may, in its discretion, permit the parties to present oral presentations.

(D) After the commission has reached a final decision, it shall issue or cause to be issued a signed, written order pursuant to Section 32A-1-119(3)(c) and (6) and 63G-4-208(1) that includes:

(I) findings of fact based exclusively on evidence found in the record of the adjudicative proceedings, or facts officially noted. No finding of fact that was contested may be based solely on hearsay evidence. The findings of fact shall be based upon a preponderance of the evidence, except if the respondent fails to respond as per R81-1-7(4)(a)(iii), then the findings of fact shall adopt the allegations in the notice of agency action and the respondent is considered in default;

(II) conclusions of law;

(III) the decision;

(IV) the reasons for the decision;

(V) action ordered by the commission and effective date of the action taken. The order shall not impose a penalty more severe than that sought in the notice of agency action;

(VI) notice of the right to file a written request for reconsideration within ten days of the service of the order;

(VII) notice of the right to seek judicial review of the order within thirty days of the date of its issuance in the court of appeals in accordance with Sections 32A-1-120 and 63G-4-403, -404, -405.

(E) The commission may adopt in whole or in part, any portion(s) of the initial presiding officer's order.

(F) The commission may use its experience, technical competence and specialized knowledge to evaluate the evidence.

(G) The commission, after it has rendered its final decision and order, may direct the department director to prepare, issue, and cause to be served on the parties the final written order on behalf of the commission.

(H) A copy of the commission's order shall be promptly mailed to the parties.

(I) A respondent having objections to the order of the commission may file, within ten days of service of the order, a request for reconsideration with the commission, setting forth the particulars in which the order is unfair, unreasonable, unlawful, or not supported by the evidence. If the request is based upon newly discovered evidence, the petition shall be accompanied by a summary of the new evidence, with a statement of reasons why the respondent could not with reasonable diligence have discovered the evidence prior to the formal hearing, and why the evidence would affect the commission's order.

(J) The filing of a request for reconsideration is not a prerequisite for seeking judicial review of the commission's order.

(K) Within twenty days of the filing of a request for reconsideration, the commission may issue or cause to be issued a written order granting the request or denying the request in whole or in part. If the request is granted, it shall be limited to the matter specified in the order. Upon reconsideration, the commission may confirm its former order or vacate, change or modify the same in any particular, or may remand for further action. The final order shall have the same force and effect as the original order.

(L) If the commission does not issue an order within twenty days after the filing of the request, the request for reconsideration shall be considered denied.

(f) Judicial Review.

(i) Respondent may file a petition for judicial review of the commission's final order within 30 days from the date the order is issued.

(ii) Appeals from formal adjudicative proceedings shall be to the Utah Court of Appeals in accordance with Sections 63G-4-403, -404, and 405, and Section 32A-1-120.

R81-1-8. Consent Calendar Procedures.

(1) Authority. This rule is pursuant to the commission's authority to establish procedures for suspending or revoking permits, licenses, and package agencies under 32A-1-107(1)(b) and (e), and the commission's authority to adjudicate violations of Title 32A.

(2) Purpose. This rule establishes a consent calendar procedure for handling letters of admonishment issued and settlement agreements proposed pursuant to R81-1-7 that meet the following criteria:

(a) Uncontested letters of admonishment where no written objections have been received from the respondent; and

(b) Settlement agreements except those where the respondent is allowed to present further argument to the commission under the terms of the settlement agreement.

(3) Application of the Rule.

(a) A consent calendar may be utilized by the commission at their meetings to expedite the handling of letters of admonishment and settlement agreements that meet the criteria of Section (2).

(b) Consent calendar items shall be briefly summarized by department staff or the assistant attorney general assigned to the department. The summary shall describe the nature of the violations and the penalties sought.

(c)(i) The commission shall be furnished in advance of the meeting a copy of each letter of admonishment and settlement

agreement on the consent calendar and any documents essential for the commission to make an informed decision on the matter.

(ii) If the case involves anything unusual or out of the ordinary, it shall be highlighted on the letter of admonishment or settlement agreement and shall be noted by the department staff person or assistant attorney general during the summary of the case.

(iii) Settlement agreements on the consent calendar shall include specific proposed dates for the suspension of any license or permit, and for payment of any fines or administrative costs.

(d) If the case involves a serious or grave violation as defined in R81-1-6, the licensee or permittee, absent good cause, shall be in attendance at the commission meeting. The licensee or permittee shall be present not to make a presentation, but to respond to any questions from the commission. Individual employees of a licensee or permittee are not required to be in attendance at the commission meeting.

(e) Any commissioner may have an item removed from the consent calendar if the commissioner feels that further inquiry is necessary before reaching a final decision. In the event a commissioner elects to remove an item from the consent calendar, and the licensee or permittee is not in attendance, the matter may be rescheduled for the next regular commission meeting. Otherwise, the action recommended by department staff or the assistant attorney general presenting the matter shall be approved by unanimous consent of the commission.

(f) All consent calendar items shall be approved in a single motion at the conclusion of the presentation of the summary.

(g) All fines and administrative costs shall be paid on or before the day of the commission meeting unless otherwise provided by order of the commission.

R81-1-9. Liquor Dispensing Systems.

A licensee may not install or use any system for the automated mixing or dispensing of spirituous liquor unless the dispensing system has been approved by the department.

(1) Minimum requirements. The department will only approve a dispensing system which:

(a) dispenses spirituous liquor in calibrated quantities not to exceed 1.5 ounces; and

(b) has a meter which counts the number of pours dispensed.

The margin of error of the system for a one ounce pour size cannot exceed 1/16 of an ounce or two milliliters.

(2) Types of systems. Dispensing systems may be of various types including: gun, stationary head, tower, insertable spout, ring activator or similar method.

(3) Method of approval.

(a) Suppliers. Companies which manufacture, distribute, sell, or supply dispensing systems must first have their product approved by the department prior to use by any liquor licensee in the state. They shall complete the "Supplier Application for Dispensing System Approval" form provided by the department, which includes: the name, model number, manufacturer and supplier of the product; the type and method of dispensing, calibrating, and metering; the degree or tolerance of error, and a verification of compliance with federal and state laws, rules, and regulations.

(b) Licensees. Before any dispensing system is put into use by a licensee, the licensee shall complete the "Licensee Application for Dispensing System Approval" form provided by the department. The department shall maintain a list of approved products and shall only authorize installation of a product previously approved by the department as provided in subsection (a). The licensee is thereafter responsible for verifying that the system, when initially installed, meets the specifications which have been supplied to the department by the manufacturer. Once installed, the licensee shall maintain the dispensing system to ensure that it continues to meet the

manufacturer's specifications. Failure to maintain the system may be grounds for suspension or revocation of the licensee's liquor license.

(c) Removal from approved list. In the event the system does not meet the specifications as represented by the manufacturer, the licensee shall immediately notify the department. The department shall investigate the situation to determine whether the product should be deleted from the approved list.

(4) Operational restrictions.

(a) The system must be calibrated to pour a quantity of spirituous liquor not to exceed 1.5 ounces.

(b) Voluntary consent is given that representatives of the department, State Bureau of Investigation, or any law enforcement officer shall have access to any system for inspection or testing purposes. A licensee shall furnish to the representatives, upon request, samples of the alcoholic products dispensed through any system for verification and analysis.

(c) Spirituous liquor bottles in use with a dispensing system at the dispensing location must be affixed to the dispensing system by the licensee. Spirituous liquor bottles in use with a remote dispensing system must be in a locked storage area. Any other primary spirituous liquor not in service must remain unopened. There shall be no opened primary spirituous liquor bottles at a dispensing location that are not affixed to an approved dispensing device.

(d) The dispensing system and spirituous liquor bottles attached to the system must be locked or secured in such a place and manner as to preclude the dispensing of spirituous liquor at times when liquor sales are not authorized by law.

(e) All dispensing systems and devices must

(i) avoid an in-series hookup which would permit the contents of liquor bottles to flow from bottle to bottle before reaching the dispensing spigot or nozzle;

(ii) not dispense from or utilize containers other than original liquor bottles; and

(iii) prohibit the intermixing of different kinds of products or brands in the liquor bottles from which they are being dispensed.

(f) Pursuant to federal law, all liquor dispensed through a dispensing system shall be from its original container, and there shall be no re-use or refilling of liquor bottles with any substance whatsoever. The commission adopts federal regulations 27 CFR 31.261-31.262 and 26 USC Section 5301 and incorporates them by reference.

(g) Each licensee shall keep daily records for each dispensing outlet as follows:

(i) a list of brands of liquor dispensed through the dispensing system;

(ii) the number of portions of liquor dispensed through the dispensing system determined by the calculated difference between the beginning and ending meter readings and/or as electronically generated by the recording software of the dispensing system;

(iii) number of portions of liquor sold; and

(iv) a comparison of the number of portions dispensed to the number of portions sold including an explanation of any variances.

(v) These records must be made available for inspection and audit by the department or law enforcement.

(h) This rule does not prohibit the sale of pitchers of mixed drinks as long as the pitcher contains no more than 1.5 ounces of primary spirituous liquor and no more than a total of 2.5 ounces of spirituous liquor per person to which the pitcher is served.

(i) Licensees shall display in a prominent place on the premises a list of the types and brand names of spirituous liquor being served through its dispensing system. This requirement may be satisfied either by printing the list on an alcoholic

beverage menu or by wall posting or both.

(j) All dispensing systems and devices must conform to federal, state, and local health and sanitation requirements. Where considered necessary, the department may:

(i) require the alteration or removal of any system,

(ii) require the licensee to clean, disinfect, or otherwise improve the sanitary conditions of any system.

R81-1-11. Multiple-Licensed Facility Storage and Service.

(1) For the purposes of this rule:

(a) "premises" as defined in Section 32A-1-105(45) shall include the location of any licensed restaurant, limited restaurant, club, or on-premise beer retailer facility or facilities operated or managed by the same person or entity that are located within the same building or complex, and any similar sublicense located within the same building of a resort license under 32A-4a. Multiple licensed facilities shall be termed "qualified premises" as used in this rule.

(b) the terms "sell", "sale", "to sell" as defined in Section 32A-1-105(53) shall not apply to a cost allocation of alcoholic beverages as used in this rule.

(c) "cost allocation" means an apportionment of the as purchased cost of the alcoholic beverage product based on the amount sold in each outlet.

(d) "remote storage alcoholic beverage dispensing system" means a dispensing system where the alcoholic product is stored in a single centralized location, and may have separate dispensing heads at different locations, and is capable of accounting for the amount of alcoholic product dispensed to each location.

(2) Where qualified premises have consumption areas in reasonable proximity to each other, the dispensing of alcoholic beverages may be made from the alcoholic beverage inventory of an outlet in one licensed location to patrons in either consumption area of the qualified premises subject to the following requirements:

(a) point of sale control systems must be implemented that will record the amounts of each alcoholic beverage product sold in each location;

(b) cost allocation of the alcoholic beverage product cost must be made for each location on at least a monthly or quarterly basis pursuant to the record keeping requirements of Section 32A-4-106, 32A-4-307, 32A-5-107, or 32A-10-206;

(c) dispensing of alcoholic beverages to a licensed location may not be made on prohibited days or at prohibited hours pertinent to that license type;

(d) if separate inventories of liquor are maintained in one dispensing location, the storage area of each licensee's liquor must remain locked during the prohibited hours and days of sale for each license type;

(e) dispensing of alcoholic beverages to a licensed location may not be made in any manner prohibited by the statutory or regulatory operational restrictions of that license type;

(f) alcoholic beverages dispensed under this section may be delivered by servers from one outlet to the various approved consumption areas, or dispensed to each outlet through the use of a remote storage alcoholic beverage dispensing system.

(3) On qualified premises where each licensee maintains an inventory of alcoholic beverage products, the alcoholic beverages owned by each licensee may be stored in a common location in the building subject to the following guidelines:

(a) each licensee shall identify the common storage location when applying for or renewing their license, and shall receive department approval of the location;

(b) each licensee must be able to account for its ownership of the alcoholic beverages stored in the common storage location by keeping records, balanced monthly, of expenditures for alcoholic beverages supported by items such as delivery tickets, invoices, receipted bills, canceled checks, petty cash

vouchers; and

(c) the common storage area may be located on the premises of one of the licensed liquor establishments.

R81-1-12. Alcohol Training and Education Seminar.

(1) The alcohol training and education seminar, as described in Section 62A-15-401, shall be completed by every individual of every new and renewing licensee under title 32A who:

(a) is employed to sell or furnish alcoholic beverages to the public within the scope of his employment for consumption on the premises;

(b) is employed to manage or supervise the service of alcoholic beverages; or

(c) holds an ownership interest in an on-premise licensed establishment and performs the duties of a manager, supervisor, or server of alcoholic beverages.

(2) Persons described in subsection 1(a) and (b) must complete the training within 30 days of commencing employment. Persons described in subsection 1(c) must complete the training within 30 days of engaging in the duties described in subsection 1(a) and (b).

(3) Each licensee shall maintain current records on each individual indicating:

(a) date of hire, and

(b) date of completion of training.

(4) The seminar shall include the following subjects in the curriculum and training:

(a) alcohol as a drug and its effect on the body and behavior;

(b) recognizing the problem drinker;

(c) an overview of state alcohol laws;

(d) dealing with problem customers; and

(e) alternate means of transportation to get a customer safely home.

(5) Persons required to complete the seminar shall pay a fee to the seminar provider.

(6) The seminar is administered by the Division of Substance Abuse of the Utah Department of Human Services.

(7) Persons who are not in compliance with subsection (2) may not:

(a) serve or supervise the serving of alcoholic beverages to a customer for consumption on the premises of a licensee; or

(b) engage in any activity that would constitute managing operations at the premises of a licensee.

R81-1-13. Utah Government Records Access and Management Act.

(1) Purpose. To provide procedures for access to government records of the commission and the department.

(2) Authority. The authority for this rule is Sections 63G-2-204 and 63A-12-104 of the Government Records Access and Management Act (GRAMA).

(3) Requests for Access. Requests for access to government records of the commission or the department should be written and made to the executive secretary of the commission or the records officer of the department, as the case may be, at the following address: Department of Alcoholic Beverage Control, 1625 South 900 West, P.O. Box 30408, Salt Lake City, Utah 84130-0408.

(4) Fees. A fee schedule for the direct and indirect costs of duplicating or compiling a record may be obtained from the commission and the department by contacting the appropriate official specified in paragraph (3) above. The department may require payment of past fees and future estimated fees before beginning to process a request if fees are expected to exceed \$50 or if the requester has not paid fees from previous requests. Fees for duplication and compilation of a record may be waived under certain circumstances described in Section 63G-2-203(4).

Requests for this waiver of fees must be made to the appropriate official specified in paragraph (3) above.

(5) Requests for Access for Research Purposes. Access to private or controlled records for research purposes is allowed by Section 63G-2-202(8). Requests for access to these records for research purposes may be made to the appropriate official specified in paragraph (3) above.

(6) Intellectual Property Rights. Whenever the commission or department determines that it owns an intellectual property right to a portion of its records, it may elect to duplicate and distribute, or control any materials, in accordance with the provisions of Section 63G-2-201(10). Decisions affecting records covered by these rights will be made by the appropriate official specified in paragraph (3) above. Any questions regarding the duplication and distribution of materials should be addressed to that individual.

(7) Requests to Amend a Record. An individual may contest the accuracy or completeness of a document pertaining to him pursuant to Section 63G-2-603. The request should be made to the appropriate official specified in paragraph (3) above.

(8) Time Periods Under GRAMA. The provisions of Rule 6 of the Utah Rules of Civil Procedure shall apply to calculate time periods specified in GRAMA.

R81-1-14. Americans With Disabilities Act Complaint Procedure.

(1) Authority and Purpose. This rule is promulgated pursuant to Section 63G-3-201(3). The commission, pursuant to 28 CFR 35.107, July 1, 1992 Ed., adopts, defines, and publishes within this rule complaint procedures providing for prompt and equitable resolution of complaints filed in accordance with Title II of the Americans With Disabilities Act, with the commission or the department.

(2) No qualified individual with a disability, by reason of disability, shall be excluded from participation in or be denied the benefits of the services, programs, or activities of the commission, or department, or be subjected to discrimination by the commission or department.

(3) Definitions.

"ADA coordinator" means the commission's and department's coordinator or designee who has responsibility for investigating and providing prompt and equitable resolution of complaints filed by qualified individuals with disabilities.

"ADA State Coordinating Committee" means that committee with representatives designated by the directors of the following agencies: Office of Planning and Budget; Department of Human Resource Management; Division of Risk Management; Division of Facilities Construction Management; and Office of the Attorney General.

"Disability" means with respect to an individual with a disability, a physical or mental impairment that substantially limits one or more of the major life activities of an individual; a record of an impairment; or being regarded as having an impairment.

"Individual with a disability" means a person who has a disability which limits one of his major life activities and who meets the essential eligibility requirement for the receipt of services or the participation in programs or activities provided by the commission or department, or who would otherwise be an eligible applicant for vacant positions with the commission or department, as well as those who are employees of the commission or department.

"Major life activities" means functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

(4) Filing of Complaints.

(a) The complaint shall be filed in a timely manner to assure prompt, effective assessment and consideration of the

facts, but no later than 60 days from the date of the alleged act of discrimination.

(b) The complaint shall be filed with the commission's and department's ADA coordinator in writing or in another accessible format suitable to the individual.

(c) Each complaint shall:

(i) include the individual's name and address;

(ii) include the nature and extent of the individual's disability;

(iii) describe the commission's or department's alleged discriminatory action in sufficient detail to inform the commission or department of the nature and date of the alleged violation;

(iv) describe the action and accommodation desire; and

(v) be signed by the individual or by his legal representative.

(d) Complaints filed on behalf of classes or third parties shall describe or identify by name, if possible, the alleged victims of discrimination.

(5) Investigation of Complaint.

(a) The ADA coordinator shall conduct an investigation of each complaint received. The investigation shall be conducted to the extent necessary to assure all relevant facts are determined and documented. This may include gathering all information listed in paragraph (4)(c) of this rule if it is not made available by the individual.

(b) When conducting the investigation, the ADA coordinator may seek assistance from the commission's or department's legal, human resource, and budget staff in determining what action, if any, shall be taken on the complaint. Before making any decision that would involve an expenditure of funds which is not absorbable within the commission's or department's budget and would require appropriation authority; facility modifications; or reclassification or reallocation in grade, the ADA coordinator shall consult with the ADA State Coordinating Committee.

(6) Issuance of Decision.

(a) Within 15 working days after receiving the complaint, the ADA coordinator shall issue a decision outlining in writing or in another acceptable suitable format stating what action, if any, shall be taken on the complaint.

(b) If the coordinator is unable to reach a decision within the 15 working day period, he shall notify the individual with a disability in writing or by another acceptable, suitable format why the decision is being delayed and what additional time is needed to reach a decision.

(7) Appeals.

(a) The individual may appeal the decision of the ADA coordinator by filing an appeal within five working days from the receipt of the decision.

(b) Appeals involving the commission shall be filed in writing with the commission. Appeals involving the department shall be filed in writing with the department's executive director or a designee other than the ADA coordinator.

(c) The filing of an appeal shall be considered as authorization by the individual to allow review of all information, including information classified as private or controlled, by the commission, executive director, or designee.

(d) The appeal shall describe in sufficient detail why the ADA coordinator's decision is in error, is incomplete or ambiguous, is not supported by the evidence, or is otherwise improper.

(e) The commission, executive director, or designee, shall review the factual findings of the investigation and the individual's statement regarding the inappropriateness of the ADA coordinator's decision and arrive at an independent conclusion and recommendation. Additional investigations may be conducted if necessary to clarify questions of fact before arriving at an independent conclusion. Before making any

decision that would involve an expenditure of funds which is not absorbable within the commission's or department's budget and would require appropriation authority; facility modifications; or reclassification or reallocation in grade, the commission, executive director, or designee shall also consult with the State ADA Coordinating Committee.

(f) The decision shall be issued within ten working days after receiving the appeal and shall be in writing or in another accessible suitable format to the individual.

(g) If the commission, executive director, or designee is unable to reach a decision within the ten working day period, the individual shall be notified in writing or by another acceptable, suitable format why the decision is being delayed and the additional time needed to reach a decision.

(8) Classification of records. The record of each complaint and appeal, and all written records produced or received as part of the action, shall be classified as protected as defined under Section 63G-2-305 until the ADA coordinator, executive director, or their designees issue the decision, at which time any portions of the record which may pertain to the individual's medical condition shall remain classified as private as defined under Section 63G-2-302, or controlled as defined in Section 63G-2-304. All other information gathered as part of the complaint record shall be classified as private information. Only the written decision of the ADA coordinator, executive director, or designees shall be classified as public information.

(9) Relationship to other laws. This rule does not prohibit or limit the use of remedies available to individuals under the state Anti-Discrimination Complaint Procedures Section 67-19-32; the Federal ADA Complaint Procedures, 28 CFR 35.170, et seq.; or any other Utah or federal law that provides equal or greater protection for the rights of individuals with disabilities.

R81-1-15. Commission Declaratory Orders.

(1) Authority. As required by Section 63G-4-503, and as authorized by Section 32A-1-107, this rule provides the procedures for the submission, review, and disposition of petitions for commission declaratory orders on the applicability of statutes administered by the commission and department, rules promulgated by the commission, and orders issued by the commission.

(2) Petition Procedure.

(a) Any person or government agency directly affected by a statute administered by the commission, a rule promulgated by the commission, or an order issued by the commission may petition for a declaratory order.

(b) The petitioner shall file the petition with the commission's executive secretary.

(3) Petition Form. The petition shall:

(a) be clearly designated as a request for a declaratory order;

(b) identify the statute, rule, or order to be reviewed;

(c) describe the situation or circumstances giving rise to the need for the declaratory order, or in which applicability of the statute, rule, or order is to be reviewed;

(d) describe the reason or need for the applicability review;

(e) identify the person or agency directly affected by the statute, rule, or order;

(f) include an address and telephone number where the petitioner can be reached during regular work days; and

(g) be signed by the petitioner.

(4) Petition Review and Disposition.

(a) The commission shall:

(i) review and consider the petition;

(ii) prepare a declaratory order stating:

(A) the applicability or non-applicability of the statute, rule, or order at issue;

(B) the reasons for the applicability or non-applicability of

the statute, rule, or order; and

(C) any requirements imposed on the department, the petitioner, or any person as a result of the declaratory order;

(iii) serve the petitioner with a copy of the order.

(b) The commission may:

(i) interview the petitioner;

(ii) hold an informal adjudicative hearing to gather information prior to making its determination;

(iii) hold a public information-gathering hearing on the petition;

(iv) consult with department staff, the Attorney General's Office, other government agencies, or the public; and

(v) take any other action necessary to provide the petition adequate review and due consideration.

R81-1-16. Disqualification Based Upon Conviction of Crime.

(1) The Alcoholic Beverage Control Act generally disqualifies persons from being employees of the department, operating a package agency, holding a license or permit, or being employed in a managerial or supervisory capacity with a package agency, licensee or permittee if they have been convicted of:

(a) a felony under any federal or state law;

(b) any violation of any federal or state law or local ordinance concerning the sale, manufacture, distribution, warehousing, adulteration, or transportation of alcoholic beverages;

(c) any crime involving moral turpitude; or

(d) driving under the influence of alcohol or drugs on two or more occasions within the last five years.

(2) In the case of a partnership, corporation, or limited liability company the proscription under Subsection (1) applies if any of the following has been convicted of any offense described in Subsection (1):

(a) a partner;

(b) a managing agent;

(c) a manager;

(d) an officer;

(e) a director;

(f) a stockholder who holds at least 20% of the total issued and outstanding stock of the corporation; or

(g) a member who owns at least 20% of the limited liability company.

(3) As used in the Act and these rules:

(a) "convicted" or "conviction" means a determination of guilt by a judge or a jury, upon either a trial or entry of a plea, in any court, including a court not of record, that has not been reversed on appeal;

(b) "felony" means any crime punishable by a term of imprisonment in excess of one year; and

(c) a "crime involving moral turpitude" means a crime that involves actions done knowingly contrary to justice, honesty, or good morals. It is also described as a crime that is "malum in se" as opposed to "malum prohibitum" - actions that are immoral in themselves regardless of being punishable by law as opposed to actions that are wrong only since they are prohibited by statute. A crime of moral turpitude ordinarily involves an element of falsification or fraud or of harm or injury directed to another person or another's property. For purposes of this rule, crimes of moral turpitude may include crimes involving controlled substances, illegal drugs, and narcotics.

R81-1-17. Advertising.

(1) Authority and General Purpose. This rule is pursuant to Section 32A-12-401(4) which authorizes the commission to establish guidelines for the advertising of alcoholic beverages in this state except to the extent prohibited by Title 32A.

(2) Definitions.

(a) For purposes of this rule, "advertisement" or "advertising" includes any written or verbal statement, illustration, or depiction which is calculated to induce alcoholic beverage sales, whether it appears in a newspaper, magazine, trade booklet, menu, wine card, leaflet, circular, mailer, book insert, catalog, promotional material, sales pamphlet, or any written, printed, graphic, or other matter accompanying the container, representations made on cases, billboard, sign, or other public display, public transit card, other periodical literature, publication or in a radio or television broadcast, or in any other media; except that such term shall not include:

(i) labels on products; or

(ii) any editorial or other reading material (i.e., news release) in any periodical or publication or newspaper for the publication of which no money or valuable consideration is paid or promised, directly or indirectly, by any alcoholic beverage industry member or retailer, and which is not written by or at the direction of the industry member or retailer.

(b) For purposes of this rule, "minor" or "minors" shall mean persons under the age of 21 years.

(3) Application.

(a) This rule shall govern the regulation of advertising of alcoholic beverages sold within the state, except where the regulation of interstate electronic media advertising is preempted by federal law. This rule incorporates by reference the Federal Alcohol Administration Act, 27 U.S.C. 205(f), and Subchapter A, Parts 4, 5, 6 and 7 of the regulations of the Bureau of Alcohol, Tobacco and Firearms, United States Department of the Treasury in 27 CFR 4, 5, 6 and 7 (1993 Edition). These provisions shall regulate the labeling and advertising of alcoholic beverages sold within this state, except where federal statutes and regulations are found to be contrary to or inconsistent with the provisions of the statutes and rules of this state.

(b) 27 CFR Section 7.50 provides that federal laws apply only to the extent that the laws of a state impose similar requirements with respect to advertisements of malt beverages manufactured and sold or otherwise disposed of in the state. This rule, therefore, adopts and incorporates by reference federal laws, previously referenced in subparagraph (a), relating to the advertising of malt beverage products.

(4) Current statutes and rules restricting the advertising, display, or display of price lists of liquor products, as defined in 32A-1-105(29), by the department, state stores, or type 1, 2 or 3 package agencies as defined in R81-3-1, are applicable.

(5) All advertising of liquor and beer by manufacturers, suppliers, importers, local industry representatives, wholesalers, permittees, and licensed retailers of such products, and type 4 and 5 package agencies as defined in R81-3-1 shall comply with the advertising requirements listed in Section (6) of this rule.

(6) Advertising Requirements. Any advertising or advertisement authorized by this rule:

(a) May not violate any federal laws referenced in Subparagraph (3);

(b) May not contain any statement, design, device, or representation that is false or misleading;

(c) May not contain any statement, design, device, or representation that is obscene or indecent;

(d) May not refer to, portray or imply illegal conduct, illegal activity, abusive or violent relationships or situations, or anti-social behavior, except in the context of public service advertisements or announcements to educate and inform people of the dangers, hazards and risks associated with irresponsible drinking or drinking by persons under the age of 21 years;

(e) May not encourage over-consumption or intoxication, promote the intoxicating effects of alcohol consumption, or overtly promote increased consumption of alcoholic products;

(f) May not advertise any unlawful discounting practice such as "happy hour", "two drinks for the price of one", "free

alcohol", or "all you can drink for \$...".

- (g) May not encourage or condone drunk driving;
 - (h) May not depict the act of drinking;
 - (i) May not promote or encourage the sale to or use of alcohol by minors;
 - (j) May not be directed or appeal primarily to minors by:
 - (i) using any symbol, language, music, gesture, cartoon character, or childhood figure such as Santa Claus that primarily appeals to minors;
 - (ii) employing any entertainment figure or group that appeals primarily to minors;
 - (iii) placing advertising in magazines, newspapers, television programs, radio programs, or other media where most of the audience is reasonably expected to be minors, or placing advertising on the comic pages of magazines, newspapers, or other publications;
 - (iv) placing advertising in any school, college or university magazine, newspaper, program, television program, radio program, or other media, or sponsoring any school, college or university activity;
 - (v) using models or actors in the advertising that are or reasonably appear to be minors;
 - (vi) advertising at an event where most of the audience is reasonably expected to be minors; or
 - (vii) using alcoholic beverage identification, including logos, trademarks, or names on clothing, toys, games or game equipment, or other materials intended for use primarily by minors.
 - (k) May not portray use of alcohol by a person while that person is engaged in, or is immediately about to engage in, any activity that requires a high degree of alertness or physical coordination;
 - (l) May not contain claims or representations that individuals can obtain social, professional, educational, athletic, or financial success or status as a result of alcoholic beverage consumption, or claim or represent that individuals can solve social, personal, or physical problems as a result of such consumption;
 - (m) May not offer alcoholic beverages without charge;
 - (n) May not require the purchase, sale, or consumption of an alcoholic beverage in order to participate in any promotion, program, or other activity; and
 - (o) May provide information regarding product availability and price, and factual information regarding product qualities, but may not imply by use of appealing characters or life-enhancing images that consumption of the product will benefit the consumer's health, physical prowess, sexual prowess, athletic ability, social welfare, or capacity to enjoy life's activities.
- (7) Violations. Any violation of this rule may result in the imposition of any administrative penalties authorized by 32A-1-119(5), (6) and (7), and may result in the imposition of the criminal penalty of a class B misdemeanor pursuant to 32A-12-104 and -401.

R81-1-19. Emergency Meetings.

- (1) Purpose. The commission recognizes that there may be times when, due to the necessity of considering matters of an emergency or urgent nature, the public notice provisions of Utah Code Sections 52-4-6(1), (2) and (3) cannot be met. Pursuant to Utah Code Section 52-4-6(5), under such circumstances those notice requirements need not be followed but rather the "best notice practicable" shall be given.
- (2) Authority. This rule is enacted under the authority of Sections 63G-3-201 and 32A-1-107.
- (3) Procedure. The following procedure shall govern any emergency meeting:
 - (a) No emergency meeting shall be held unless an attempt has been made to notify all of the members of the commission

of the proposed meeting and a majority of the convened commission votes in the affirmative to hold such an emergency meeting.

(b) Public notice of the emergency meeting shall be provided as soon as practicable and shall include at a minimum the following:

- (i) Written posting of the agenda and notice at the offices of the department;
- (ii) If members of the commission may appear electronically or telephonically, all such notices shall specify the anchor location for the meeting at which interested persons and members of the public may attend, monitor, and participate in the open portions of the meeting;
- (iii) Notice to the commissioners shall advise how they may participate telephonically or electronically and be counted as present for all purposes, including the determination of a quorum.
- (iv) Written, electronic or telephonic notice shall be provided to at least one newspaper of general circulation within the state and at least one local media correspondent.

(c) If one or more members of the commission appear electronically or telephonically, the procedures governing electronic meetings shall be followed, except for the notice requirements which shall be governed by these provisions.

(d) In convening the meeting and voting in the affirmative to hold such an emergency meeting, the commission shall affirmatively state and find what unforeseen circumstances have rendered it necessary for the commission to hold an emergency meeting to consider matters of an emergency or urgent nature such that the ordinary public notice of meetings provisions of Utah Code Section 52-4-6 could not be followed.

R81-1-20. Electronic Meetings.

- (1) Purpose. Utah Code Section 52-4-207 requires any public body that convenes or conducts an electronic meeting to establish written procedures for such meetings. This rule establishes procedures for conducting commission meetings by electronic means.
- (2) Authority. This rule is enacted under the authority of Sections 52-4-207, 63G-3-201 and 32A-1-107.
- (3) Procedure. The following provisions govern any meeting at which one or more commissioners appear telephonically or electronically pursuant to Utah Code Section 52-4-207:
 - (a) If one or more members of the commission may participate electronically or telephonically, public notices of the meeting shall so indicate. In addition, the notice shall specify the anchor location where the members of the commission not participating electronically or telephonically will be meeting and where interested persons and the public may attend, monitor, and participate in the open portions of the meeting.
 - (b) Notice of the meeting and the agenda shall be posted at the anchor location. Written or electronic notice shall also be provided to at least one newspaper of general circulation within the state and to a local media correspondent. These notices shall be provided at least 24 hours before the meetings.
 - (c) Notice of the possibility of an electronic meeting shall be given to the commissioners at least 24 hours before the meeting. In addition, the notice shall describe how a commissioner may participate in the meeting electronically or telephonically.
 - (d) When notice is given of the possibility of a commissioner appearing electronically or telephonically, any commissioner may do so and shall be counted as present for purposes of a quorum and may fully participate and vote on any matter coming before the commission. At the commencement of the meeting, or at such time as any commissioner initially appears electronically or telephonically, the chair shall identify for the record all those who are appearing telephonically or

electronically. Votes by members of the commission who are not at the physical location of the meeting shall be confirmed by the chair.

(e) The anchor location, unless otherwise designated in the notice, shall be at the offices of the Department of Alcoholic Beverage Control, 1625 South 900 West, Salt Lake City, Utah. The anchor location is the physical location from which the electronic meeting originates or from which the participants are connected. In addition, the anchor location shall have space and facilities so that interested persons and the public may attend, monitor, and participate in the open portions of the meeting.

R81-1-21. Beer Advertising in Event Venues.

(1) Authority. This rule is pursuant to the commission's powers and duties as the plenary policymaking body on the subject of alcoholic beverage control under 32A-1-107, and its authority to establish guidelines for the advertising of alcoholic beverages under 32A-12-401(4).

(2) Purpose.

(a) This rule establishes a "safe harbor" from administrative action being taken against beer manufacturers and retailers under the circumstances and conditions below. This rule is necessary to allow certain advertising relations to occur even though they have the appearance of violating the "tied-house" provisions of 32A-12-603, but where the reasons and purposes for the "tied-house" provisions do not apply.

(b) "Tied-house" provisions have been enacted at both the federal and state level in response to historical forces and concerns. The thrust of the laws is to prevent two particular dangers: the ability and potential ability of large firms to dominate local markets through vertical and horizontal integration, and excessive sales of alcoholic beverages produced by overly aggressive marketing techniques. The principle method used to avoid these developments was the establishment of a triple-tiered distribution system and licensing scheme where separate and distinct business enterprises engaged in the production, handling, and final sale of alcoholic beverages. The laws also prohibited certain economic arrangements and agreements between each of the three tiers of the distribution system.

(c) Utah's "tied-house" and trade practice laws prohibit a beer industry member, directly or indirectly or through an affiliate, from inducing any beer retailer to purchase alcoholic beverages from the industry member to the exclusion in whole or in part of any of those products sold or offered for sale by other persons by furnishing the retailer signs, money or other things of value except to the extent allowed under 32A-12-603. The laws prohibit a beer industry member, directly or indirectly or through an affiliate, from paying or crediting a beer retailer for any advertising, display, or distribution service. 32A-12-603(5). This includes the purchase, by an industry member, of advertising on signs, scoreboards, programs, scorecards, and the like at ballparks, racetracks or stadiums, from the retail concessionaire. See 27 C.F.R. Sec. 6.53 as referenced in 32A-12-603(5)(a). The laws also prohibit an industry member from making payments for advertising to a retailer association or a display company where the resulting benefits flow to the individual retailers. 32A-12-603(3)(b)(i)(B).

(d) Throughout the state, there are a number of large facilities which put on or allow events to occur on their premises. This includes sports arenas, ballparks, raceways, fairgrounds, equestrian facilities and the like. These facilities have a recognized area of advertising for sale in connection with the events and which is standard for their events, e.g., fence signage at ballparks. Many of these facilities are or have associated with their on-premise beer retailer, either on an annual basis, or as a temporary event permit holder. The issue is thus raised as to the legality of the advertising of beer products as part of the general advertising where other items are

advertised and the facility is or has within it an on-premise beer retailer.

(3) Application of the Rule. If the conditions listed below are met, the reasons and purposes behind the "tied-house" provisions restricting relations between manufacturers and retailers do not apply or are not significantly impacted. In addition, an event facility may be unduly restricted in its ability to sell advertising and be competitive. This is based upon the facility's primary purpose being other than the sale of food and beverages, that advertising is a normal and accepted part of the business of the facility and the events that occur at the facility, that beer advertisers would be on equal footing with other advertisers, and that there is little, if any, likelihood of the purchasing of advertising space or time either having an impact on the beer retailing decisions of the retailer or of allowing the manufacturer to obtain or assert control over the retailer. Therefore, if the following conditions are met, the sale of advertising space or time to a beer manufacturer for display at the facility does not constitute the payment to a retailer for advertising, display or distribution service, and does not otherwise constitute the furnishing of any signs, money, or other things of value to a retailer in violation of the "tied-house" provisions of 32A-12-603:

(a) The primary purpose of the facility is the hosting or putting on events, and not the sale or service of food and beverages, including alcoholic beverages;

(b) The retail licensee operates with a fixed seating capacity of more than 2,000 persons;

(c) The advertising space or time is purchased only in connection with events to be held on the premises, and not as point-of-sale advertising. The advertising space or time is not located near the beer concession area and does not reference the on-premise retailer or the availability of beer;

(d) Sales of event advertising space or time and retail beer sales are handled by different entities or divisions, that are separate and do not influence each other, and no preference in terms of beer sales or facilities are extended to a beer advertiser;

(e) The retail licensee serves other brands of malt beverages or beer than the brand manufactured or sold by the manufacturer purchasing advertising space or time. Unless demonstrated for sound business reasons unrelated to "tied-house" laws, the percentage of taps in a facility may not exceed by 10% the actual percentage of sales, by brand, in that facility or the community in the previous year;

(f) The advertising space or time is available to all types of advertisers, is not limited to any type of product, such as beer, is pursuant to an established rate card that sets forth the advertising rates equally available to any other industry member or (and at rates substantially similar for any) non-industry advertiser, and the advertising agreement does not provide for an exclusive right to an advertiser or a right to exclude other advertisers;

(g) The industry member may not share in the costs or contribute to the costs of the advertising or promotion of the beer retailer or the facility, or obtain or have any interest in the retailer or the facility; and

(h) The purchase of advertising space or time is by written agreement, a copy of which shall be provided to the department as a confidential business document, non-public, and only to be used for enforcement purposes, and the term of the agreement may not be for a period in excess of three years, including any right of renewal.

(4) This "safe harbor" is limited to its express terms, does not undermine or infringe upon general "tied-house" prohibitions, and shall be strictly construed against its applicability. This "safe harbor" also does not limit or abrogate any exception to "tied-house" prohibitions.

R81-1-22. Diplomatic Embassy Shipments and Purchases.

(1) Purpose. The Vienna Conventions on Diplomatic and Consular Relations grant foreign diplomatic missions certain exemptions from federal, state and local taxes. The United States, by treaty, is a party to the Vienna Conventions, and is obligated under international law to grant these exemptions under these agreements to accredited diplomatic missions of those countries that grant the United States reciprocal privileges. These privileges include the purchase of alcoholic beverages duty and tax free subject to certain exceptions such as indirect taxes normally incorporated in the price of goods or services, and charges levied for specific services rendered to benefit the mission.

This rule establishes department guidelines for shipments and purchases of alcohol by a foreign diplomatic mission with an accredited embassy having full diplomatic privileges under the Vienna Conventions that establishes an embassy presence in the state of Utah (hereafter "accredited foreign diplomatic mission").

(2) Application of Rule.

(a) Shipments. An accredited foreign diplomatic mission that establishes an embassy presence in Utah may have or possess, for official diplomatic use, and not for sale or resale, alcoholic beverages that have not been purchased in the state of Utah. Such products may be shipped or transported into the state of Utah under the following conditions:

(i) The embassy must first obtain the approval of this department prior to shipping or transporting its alcoholic beverages into the state.

(ii) Alcoholic beverages shipped or transported into the state must clear U.S. Customs duty free.

(iii) The department shall affix the official state label to the alcoholic beverages.

(iv) The embassy shall pay the department an administrative handling fee of \$1.00 per smallest unit (bottle, can, or keg). Payment of handling fees shall be made by the embassy using an official embassy check or embassy credit card.

(v) The alcoholic beverages may be used by the embassy only for official diplomatic functions, and may not be sold or resold.

(b) Purchases.

(i) Special Orders. An accredited foreign diplomatic mission that establishes an embassy presence in Utah may special order from the department alcoholic beverage products not presently sold in the state of Utah under the following procedures:

(A) The company or importer supplying the product must submit a price quotation to the department indicating the case price (in US dollars) for which it will sell the product to the state.

(B) The quoted case price must be reasonable (a minimum of \$10.00 per case).

(C) The product will be marked up using the department's standard pricing formula (less the state sales tax).

(D) Special orders must be placed by the embassy at least two months in advance to allow the department sufficient time to purchase and receive the product for the embassy.

(E) The product must be paid for by the embassy using an official embassy check or embassy credit card.

(F) The product may be used by the embassy only for official diplomatic functions, and may not be sold or resold.

(ii) Presently Available Merchandise. An accredited foreign diplomatic mission that establishes an embassy presence in Utah may purchase alcoholic beverages that are presently sold in the state of Utah under the following procedures:

(A) Alcoholic beverage product purchases, other than large quantity purchases, may be made by the embassy at any state store. The store shall deduct state sales tax from the purchase price.

(B) Large quantity purchase orders must be placed by the embassy at the department's licensee warehouse. The warehouse shall deduct state sales tax from the purchase price.

R81-1-23. Sales Restrictions on Products of Limited Availability.

(1) Purpose. Some alcoholic beverage products, especially wines, are of very limited availability from their manufacturers and suppliers to retailers including the department. When the department perceives that customer demand for these limited products may exceed the department's current and future stock levels, the department, as a public agency, may place restrictions on their sales to ensure their fair distribution to all consumers. This also encourages manufacturers and suppliers to continue to provide their products to the department. This rule establishes the procedure for allocating products of limited availability.

(2) Application of Rule.

(a) The purchasing and wine divisions of the department shall identify those products that are of limited availability and designate them as "Limited /Allocated Status" ("L Status") items. The products shall be given a special "L Status" product code designation.

(b) "L Status" products on the department's price list, in stock, or on order, do not have to be sold on demand. Their sales to the general public and to licensees and permittees may be restricted. The purchasing and wine divisions of the department may issue system-wide restrictions directing the allocation of such products which may include placing limits on the number of bottles sold per customer.

(c) Signs noting this rule shall be posted in state stores and package agencies that carry "L Status" products.

R81-1-27. Label Approvals.

(1) Authority. This rule is pursuant to 32A-1-806(2)(c) and (d) and 32A-1-807 which give the commission the authority to adopt rules necessary to fully implement certain aspects of the Malted Beverages Act, 32A-1-801 to -809.

(2) Purpose.

(a) Pursuant to 32A-1-804, effective October 1, 2008, a manufacturer may not distribute or sell in this state any malted beverage including beer, heavy beer, and flavored malt beverage unless the label and packaging of the beverage has been first approved by the department.

(b) The requirements and procedures for applying for label and packaging approval are set forth in 32A-1-804 to -806.

(c) This rule:

(i) establishes administrative fees that may be assessed by the department to process applications for the approval of malt beverage labels and packaging;

(ii) provides supplemental procedures for applying for and processing label and package approvals;

(iii) defines the meaning of certain terms in the Malted Beverages Act; and

(iv) establishes the format of certain words and phrases required on the containers and packaging of certain flavored malt beverages.

(3) Application of Rule.

(a) The department shall assess a fee of \$30.00 made

payable to the "Department of Alcoholic Beverage Control" for each application submitted for label and packaging approval.

(b) A complete set of original labels for each size of container must accompany each application for label and packaging approval.

(i) This includes all band, strip, front and back labels appearing on any individual container.

(ii) Original containers will not be accepted.

(iii) If original labels cannot be obtained, the following will be accepted:

(A) color reproductions that are exact size; or

(B) a copy of the federal certificate of label approval (COLA) from the Department of Treasury, Tax and Trade Bureau (Form TTB F5100.31) with the exact size label if printed in color.

(c) Because a heavy beer and flavored malt beverage product may be sold only by the department to consumers and on-premise retailers in this state, label approval for a heavy beer or flavored malt beverage need not be applied for until the department has decided to list the product for sale in this state. Any listing will be contingent on label and packaging approval.

(d) An application for approval is required for any revision of a previously approved label.

(e) An application for approval is required for any revision to packaging that significantly modifies the notice that the product is an alcoholic beverage.

(f) An application for approval is not required for any revision to packaging that relates to subject matter other than the required notice that the product is an alcoholic beverage such as temporary seasonal or promotional themes.

(g) Pursuant to 32A-1-805(6):

(i) the department may revoke any label and packaging approved by the department prior to October 1, 2008, that does not comply with the label and packaging requirements of the Malted Beverage Act;

(ii) the department may delist any heavy beer or flavored malt beverage product listed by the department prior to October 1, 2008, that does not meet the label and packaging requirements of the Malted Beverage Act;

(iii) any heavy beer or flavored malt beverage product listed by the department prior to October 1, 2008, that did not receive prior label and packaging approval need not submit an application for label and packaging approval if the label and packaging meet the requirements of the Malted Beverage Act.

(h) Pursuant to 32A-1-806, effective October 1, 2008, a flavored malt beverage that is packaged in a manner that is similar to a label or package used for a nonalcoholic beverage must bear a prominently displayed label or a firmly affixed sticker on the container that includes the statement "alcoholic beverage" or "contains alcohol". Any packaging of a flavored malt beverage must also prominently include, either imprinted on the packaging or imprinted on a sticker firmly affixed to the packaging the statement "alcoholic beverage" or "contains alcohol". The words in the statement must appear:

(i) in capital letters and bold type;

(ii) in a solid contrasting background;

(iii) on the front of the container and packaging;

(iv) in a format that is readily legible;

(v) separate and apart from any descriptive or explanatory information; and

(vi) in a type size no smaller than 3 millimeters wide and 3 millimeters high.

(i) Pursuant to 32A-1-806, effective October 1, 2008, the label on a flavored malt beverage container shall state the alcohol content as a percentage of alcohol by volume or by weight. The alcohol content statement may not be abbreviated, but shall use the complete words "alcohol," "volume," or "weight". The words in the alcohol content statement must appear:

- (i) in capital letters and bold type;
- (ii) in a solid contrasting background;
- (iii) in a format that is readily legible; and
- (iv) separate and apart from any descriptive or explanatory information.

(1) Authority. This rule is pursuant to 32A-1-106(9) that gives the commission authority to hold special commission meetings; and 32A-1-107(1) that gives the commission authority to establish procedures for granting and denying permits and to prescribe fees payable for permits.

(2) Purpose. This rule authorizes the commission to assess an administrative fee in addition to the regular permit fee to cover the additional administrative costs of convening a special commission meeting to consider the application of an applicant for a single event permit or temporary special event beer permit who failed to timely submit the permit application to be considered at the commission's regularly scheduled monthly meeting.

(3) Application of Rule.

(a) If the commission agrees to convene a special commission meeting to accommodate an applicant described in Section (2), the commission shall assess an administrative fee of \$350 in addition to the regular permit fee.

(b) The administrative fee in Section (3)(a) shall be used to offset the costs of convening the special meeting including, but not limited to:

- (i) department costs associated with scheduling, arranging, and providing notice of the special meeting;
- (ii) department costs associated with any emergency or electronic meeting held pursuant to R81-1-19 and -20;
- (iii) payment of per diem and expenses to commissioners; and
- (iv) any other costs incurred.

(a) The same limited restaurant licensee must separately apply for a state on-premise beer retailer license pursuant to the requirements of Sections 32A-10-202, -203, and -205.

(b) Licensees applying for dually licensed premises must notify the department of the time periods under which each license will be operational at the time application is made. Changes must be requested in writing and approved in advance by the department. Licensees may operate sequentially under either license, but not concurrently.

(c) Limited restaurant licensees holding a separate on-premise beer retailer license must operate in accordance with 32A-10-206 and R81-10 during the hours the on-premise beer retailer license is active.

(d) Liquor storage areas on the limited restaurant premises shall be deemed to remain on the floor plan of the limited restaurant premises and shall be kept locked during the hours the on-premise beer retailer license is active.

R81-4C-2. Application.

(1) Except as provided in Subsection (2), a license application shall be included in the agenda of the monthly commission meeting for consideration for issuance of a limited restaurant license when the requirements of Sections 32A-4-303, -304, and -306 have been met, a completed application has been received by the department, and the limited restaurant premises have been inspected by the department.

(2) Subsection (1) does not preclude the commission from considering an application for a conditional limited restaurant license under the terms and conditions of 32A-1-107(5).

R81-4C-3. Bonds.

No part of any corporate or cash bond required by Section 32A-4-306, may be withdrawn during the time the license is in effect. If the licensee fails to maintain a valid corporate or cash bond, the license shall be immediately suspended until a valid bond is obtained. Failure to obtain a bond within 30 days of notification by the department of the delinquency shall result in the automatic revocation of the license.

R81-4C-4. Insurance.

Public liability and dram shop insurance coverage required in Section 32A-4-303(1)(h) and (i) must remain in force during the time the license is in effect. Failure of the licensee to maintain the required insurance coverage may result in a suspension or revocation of the license by the commission.

The following procedures shall be followed when a limited restaurant licensee orders wine or heavy beer from or returns wine or heavy beer to any state liquor store, package agency, or department satellite warehouse:

(1) The licensee must place the order in advance to allow department personnel sufficient time to assemble the order. The

licensee or employees of the licensee may not pick merchandise directly off the shelves of a state store or package agency to fill the licensee's order. The order shall include the business name of the licensee, department licensee number, and list the products ordered specifying each product by code number and quantity.

(2) The licensee shall allow at least four hours for department personnel to assemble the order for pick-up. When the order is complete, the licensee will be notified by phone and given the total cost of the order. The licensee may pay for the product in cash, company check or cashier's check.

(3) The licensee or the licensee's designee shall examine and sign for the order before it leaves the store, agency or satellite warehouse to verify that the product has been received.

(4) Merchandise shall be supplied to the licensee on request when it is available on a first come first serve basis. Discounted items and limited items may, at the discretion of the department, be provided to a licensee on an allocated basis.

(5) Wine and beer may not be returned by the licensee for the original purchase price except upon a showing that the product was spoiled or non-consumable.

R81-4C-6. Limited Restaurant Licensee Operating Hours.

Allowable hours of wine and heavy beer sales shall be in accordance with Section 32A-4-307(9)(a). However, the licensee may open the wine and heavy beer storage area during hours otherwise prohibited for the limited purpose of inventory, restocking, repair, and cleaning.

(1) Alcoholic beverages (including beer) must be sold in connection with an order for food placed and paid for by a patron. An order for food may not include food items gratuitously provided by the limited restaurant to patrons. A patron may pay for an alcoholic beverage at the time of purchase, or, at the discretion of both the licensee and the patron, the price charged may be added to the patron's tab, provided that a written beverage tab, as provided in Section 32A-4-307(26), shall be commenced upon the patron's first purchase and shall be maintained by the limited restaurant during the course of the patron's stay at the limited restaurant regardless of where the patron orders and consumes an alcoholic beverage.

(2) The limited restaurant shall maintain at least 70% of its total business from the sale of food pursuant to Section 32A-4-307(23).

(a) The limited restaurant shall maintain records separately showing quarterly expenditures and sales for beer, heavy beer, wine, and food. These shall be available for inspection and audit by representatives of the department, and maintained for a period of three years.

(b) If any inspection or audit discloses that the sales of food are less than 70% for any quarterly period, an order to show cause shall be issued by the department to determine why the license should not be immediately suspended by the commission. Any suspension shall remain in effect until the licensee is able to prove to the satisfaction of the commission that in the future, the sales of food will meet or exceed 70%. Failure of the licensee to provide satisfactory proof of the required food percentage within three months of the date the license was suspended, shall result in the revocation of the license.

(3) Wine dispensing shall be in accordance with Section 32A-4-307; and R81-1-11 (Multiple-Licensed Facility Storage and Service) of these rules.

R81-4C-8. Alcoholic Product Flavoring.

(1) Limited restaurant licensees may use alcoholic product flavorings including spirituous liquor products in the

preparation of food items and desserts at any time if plainly and conspicuously labeled "cooking flavoring".

(2) No limited restaurant employee under the age of 21 years may handle alcoholic product flavorings.

(2) Beer and heavy beer, if in sealed containers, may be opened and poured by the server at the patron's table, counter, or "grandfathered bar structure".

R81-4C-10. Consumption at Patron's Table, Counter, and Grandfathered Bar Structure".

(1) A patron's table, counter, or "grandfathered bar structure" may be located in waiting, patio, garden and dining areas previously approved by the department.

(2) Consumption of any alcoholic beverage must be within a reasonable proximity of a patron's table, counter, or "grandfathered bar structure" so as to ensure that the server can maintain a written beverage tab on the amount of alcoholic beverages consumed.

R81-4C-11. Menus; Price Lists.

(1) Contents of Alcoholic Beverage Menu.

(a) Each limited restaurant licensee shall have readily available for its patrons a printed alcoholic beverage price list, or menu containing current prices of all wine, heavy beer, and beer. This list shall include any charges for the service of packaged wines or heavy beer.

(b) Any printed menu, master beverage price list or other printed list is sufficient as long as the prices are current and it meets the requirements of this rule.

(c) Customers shall be notified of the price charged for any packaged wine or heavy beer and any service charges for the supply of glasses, chilling, or wine service.

(d) A licensee or his employee may not misrepresent the price of any alcoholic beverage that is sold or offered for sale on the licensed premises.

R81-4C-12. Identification Badge.

Each employee of the licensee who sells, dispenses or provides alcoholic beverages shall wear a unique identification badge visible above the waist, bearing the employee's first name, initials, or a unique number in letters or numbers not less than 3/8 inch high. The identification badge must be worn on the front portion of the employee's body. The licensee shall maintain a record of all employee badges assigned, which shall be available for inspection by any peace officer, or representative of the department. The record shall include the employee's full name and address and a driver's license or similar identification number.

R81-4C-13. Grandfathered Bar Structures.

(1) Authority and Purpose.

(a) This rule is pursuant to 32A-4-307(7)(a)(i) which provides that:

(i) a bar structure, as defined in 32A-1-105(4), located in a currently licensed limited restaurant as of May 11, 2009, may be "grandfathered" to allow alcoholic beverages to continue to be stored or dispensed at the bar structure, and in some instances to be served to an adult patron seated at the bar structure;

(ii) a bar structure in a limited restaurant that is not operational as of May 12, 2009, may be similarly "grandfathered" if, as of May 12, 2009:

(A) a person has applied for a limited restaurant license

from the commission;

(B) the person is "actively engaged in the construction of the restaurant" as defined by commission rule; and

(C) the person is granted a limited restaurant liquor license by the commission no later than December 31, 2009.

(b) This rule is also pursuant to 32A-4-307(7)(a)(ii) which provides that:

(i) a "grandfathered bar structure" is no longer "grandfathered" once the limited restaurant "remodels the grandfathered bar structure"; and

(ii) the commission shall define by rule what is meant by "remodels the grandfathered bar structure".

(2) Application of Rule.

(a) "Actively engaged in the construction of the restaurant" for purposes of 32A-4-307(7)(a)(i)(B)(I)(Bb) and 32A-4-307(7)(a)(ii) means that:

(i) a building permit has been obtained to build the restaurant; and

(ii) a construction contract has been executed and the contract includes an estimated date that the restaurant will be completed; or

(iii) work has commenced by the applicant on the construction of the restaurant and a good faith effort is made to complete the construction in a timely manner.

(b) "remodels the grandfathered bar structure" for purposes of 32A-4-307(7)(a)(ii) means that:

(i) the grandfathered bar structure has been altered or reconfigured to:

(A) extend the length of the existing structure to increase its seating capacity; or

(B) increase the visibility of the storage or dispensing area to restaurant patrons.

(c) "remodels the grandfathered bar structure" does not:

(i) preclude making cosmetic changes or enhancements to the existing structure such as painting, staining, tiling, or otherwise refinishing the bar structure;

(ii) preclude locating coolers, sinks, plumbing, cooling or electrical equipment to an existing structure; or

(iii) preclude utilizing existing space at the existing bar structure to add additional seating.

(d) Pursuant to 32A-4-307(6), the licensee must first apply for and receive approval from the department for a change of location where alcohol is stored, served, and sold other than what was originally designated in the licensee's application for the license. Thus, any modification of the alcoholic beverage storage and dispensing area at a "grandfathered bar structure" must first be reviewed and approved by the department to determine whether it is:

(i) an acceptable use of an existing bar structure; or

(ii) a remodel of a "grandfathered bar structure".

R81. Alcoholic Beverage Control, Administration.**R81-10A. On-Premise Beer Retailer Licenses.****R81-10A-1. Licensing.**

(1) On-premise beer retailer licenses are issued to persons as defined in Section 32A-1-105(44). The department must be immediately notified of any action or transaction that may alter the organizational structure or ownership interest of the person to whom the license is issued to ensure there is no violation of Sections 32A-10-202 (3), 32A-10-203, and 32A-10-206(17).

(2) An on-premise beer retailer licensee that wishes to operate the same licensed premises under the operational restrictions of a restaurant liquor license or a limited restaurant license during certain designated periods of the day or night, must apply for and be issued a separate restaurant liquor license or a limited restaurant license subject to the following:

(a) The same on-premise beer retailer licensee must separately apply for a state restaurant liquor license pursuant to the requirements of Sections 32A-4-102, -103, and -105 or a limited restaurant license pursuant to the requirements of Sections 32A-4-303, -304, and -306.

(b) Licensees applying for dually licensed premises must notify the department of the time periods under which each license will be operational at the time application is made. Changes must be requested in writing and approved in advance by the department. Licensees may operate sequentially under either license, but not concurrently.

(c) On-premise beer retailer licensees holding a separate restaurant liquor license must operate in accordance with 32A-4-106 and R81-4A during the hours the restaurant liquor license is active.

(d) On-premise beer retailer licensees holding a separate limited restaurant license must operate in accordance with 32A-4-307 and R81-4C during the hours the limited restaurant license is active.

(e) Liquor storage areas on the restaurant or limited restaurant premises shall be deemed to remain on the floor plan of the restaurant or limited restaurant premises and shall be kept locked during the hours the on-premise beer retailer license is active.

R81-10A-2. Application.

A license application shall be included in the agenda of the monthly commission meeting for consideration for issuance of an on-premise beer retailer license when the requirements of Sections 32A-10-202, -203, and -205 have been met, and a completed application has been received by the department and the beer retailer premises have been inspected by the department.

R81-10A-3. Bonds.

No part of any corporate or cash bond required by Section 32A-10-205 may be withdrawn during the time the license is in effect. If the on-premise beer licensee fails to maintain a valid corporate or cash bond, the license shall be immediately suspended until a valid bond is obtained. Failure to obtain a bond within 30 days of notification by the department of the delinquency shall result in the automatic revocation of the license.

R81-10A-4. Insurance.

Public liability and dram shop insurance coverage required in Section 32A-10-202(1)(h) and (i) must remain in force during the time the license is in effect. Failure of the licensee to maintain the required insurance coverage may result in a suspension or revocation of the license by the commission.

R81-10A-5. On-premise Beer Licensee Operating Hours.

Beer sales shall be in accordance with Section 32A-10-206(4). However, on-premise beer licensees may open their

beer storage area during hours otherwise prohibited for the limited purpose of inventory, restocking, repair, and cleaning.

R81-10A-6. Identification Badge.

Each employee of the licensee who sells, dispenses or provides alcoholic beverages shall wear a unique identification badge visible above the waist, bearing the employee's first name, initials, or a unique number in letters or numbers not less than 3/8 inch high. The identification badge must be worn on the front portion of the employee's body. The licensee shall maintain a record of all employee badges assigned, which shall be available for inspection by any peace officer, or representative of the department. The record shall include the employee's full name and address and a driver's license or similar identification number.

R81-10A-7. Draft Beer Sales/Minors on Premises.

A state on-premise beer license, restaurant liquor license, airport lounge license, limited restaurant license, on-premise banquet license or private club license authorizes the licensee to sell beer on draft regardless of the nature of the business (e.g. cafe, restaurant, pizza parlor, bowling alley, golf course clubhouse, club, tavern, etc.). Minors may not be precluded from establishments based upon whether draft beer is sold. However, minors may not be employed by or be on the premises of any establishment or portion of an establishment which is a "tavern" as defined in Section 32A-1-105(67). This does not preclude local authorities and licensees from excluding minors from premises or portions of premises which have the atmosphere or appearance of a "tavern" as so defined.

R131-4 shall govern the preparation, maintenance, and content of specifications for supplies, services, and construction required by the board. R131-4 shall determine the extent to which a nonemployee who has prepared specifications for use by the board may participate in any board procurement using such specifications.

R131-4-302. Duty of Executive Director in Maintaining Specifications.

The executive director shall prepare, issue, revise, maintain, and monitor the use of specifications for supplies, services, and construction required by the board.

R131-4-303. Purpose of Specifications.

All specifications shall seek to promote overall best quality economy and best use for the purposes intended and encourage competition in satisfying the state's needs, and shall not be unduly restrictive. The requirements of R131-4-301 through R131-4-304 regarding the purposes and nonrestrictiveness of specifications shall apply to all specifications, including, but not limited to, those prepared by architects, engineers, designers, and draftsmen for public contracts.

R131-4-304. Additional Specification Requirements.

(1) General provisions.

(a) Preference for Commercially Available Products. Recognized, commercially-available products shall be procured wherever practicable. In developing specifications, accepted commercial standards shall be used and unique products shall be avoided where practicable.

(b) Nonrestrictiveness Requirements. All specifications shall describe the requirements to be met, without having the effect of exclusively requiring a proprietary supply, or construction item, or procurement from a sole source, unless no other manner of description will meet the need. If needed, a written determination shall justify the use of restrictive specifications over non-restrictive specifications.

(2) Executive Director's Responsibilities.

(a) The executive director shall prepare all project specifications, or

(b) The board may enter into contracts with others to prepare construction specifications when there will not be a substantial conflict of interest. In the latter instance, the executive director shall retain the authority to approve all specifications.

(c) Whenever specifications are prepared by persons other than the board and executive director's staff, the contract for the preparation of specifications shall adhere to the requirements of this rule.

(3) Types of Specifications. The executive director may use any method of specifying construction items, including:

(a) a performance specification stating the results to be achieved with the contractor choosing the means; or

(b) a prescriptive specification describing a means for achieving desired, but normally unstated, ends. Prescriptive specifications shall include the following:

(i) Descriptive specifications, providing detailed written descriptions of the required properties of products, or the workmanship required to fabricate, erect and install without using trade names; or

(ii) Proprietary specifications, identifying desired products by using manufacturers, brand names, model or type designation or important characteristics. This shall consist of:

(A) Base bid, where a rigid standard is specified and there are no allowed substitutions due to the nature of the conditions to be met. This may only be used when very restrictive standards are necessary and there are only definite proprietary products known that will meet the rigid standards needed; and

(B) Or equal, which allows substitutions if properly approved;

(c) a reference standard specification where documents or publications are incorporated by reference as though they were included in their entirety; or

(d) a nonrestrictive specification which may describe elements of prescriptive or performance specifications, or both, in order to describe the end result, thereby giving the contractor

latitude in methods, materials, delivery, conditions, cost or other characteristics or considerations to be satisfied.

(4) Procedures for the Development of Specifications.

(a) Specifications may designate alternate supplies or construction items where two or more design, functional, or proprietary performance criteria will satisfactorily meet the procuring agencies' requirements.

(b) Specifications shall contain a nontechnical section to include any solicitation or contract terms or conditions such as requirements for the time and place of bid opening, time of delivery, payment, liquidated damages, and similar contract matters.

(c) Use of Proprietary Specifications.

(i) The executive director shall designate one or more brands as a standard reference and shall state that substantially equivalent products will be considered for award, with particular conditions of approval being described in the specification.

(ii) Unless the executive director determines that the essential characteristics of the brand names included in the proprietary specifications are commonly known in the industry or trade, proprietary specifications shall include a description of the particular design, functional, or performance characteristics which are required.

(iii) Where a proprietary specification is used, the solicitation shall contain explanatory language that the use of a brand name is for the purpose of describing the standard of quality, performance, and characteristics desired and is not intended to limit or restrict competition.

(iv) The board shall solicit sources to achieve whatever degree of competition is practicable. If only one source can supply the requirement, the procurement shall be made in accordance with this rule.

R131-4-401. Contracts Awarded by Sealed Bidding - Procedure.

(1) In General. Competitive sealed bidding, which includes multi-step sealed bidding, shall be an allowable method for the procurement of construction when a single prime contractor is used. Other methods may be considered for procurement of construction when the executive director determines that it best meets the needs for the project. For all other goods, supplies and services, contracts shall be awarded by competitive sealed bidding except as otherwise provided in R131-4. An invitation for bids shall be issued when a contract is to be awarded by competitive sealed bidding. The invitation shall include a purchase description and all contractual terms and conditions applicable to the procurement.

(2) Public Notice of Invitations for Bids.

(a) Public notice of invitations for bids shall be publicized electronically on the Internet, and may be publicized in any or all of the following as determined appropriate:

(i) In a newspaper having general circulation in the area in which the project is located;

(ii) In appropriate trade publications;

(iii) In a newspaper having general circulation in the state;

or

(iv) By any other method determined appropriate.

(b) A copy of the public notice shall be available for public inspection at the principal office of the board in Salt Lake City, Utah.

(3) Content of the Public Notice to Contractors for Invitation For Bids. The public notice to contractors for invitation for bids (herein referred to as the "Notice") shall include the following:

(a) The closing time and date for the submission of bids;

(b) The location to which bids are to be delivered;

(c) Directions for obtaining the bidding documents;

(d) A brief description of the project; and

(e) Notice of any mandatory pre-bid meetings.

(4) Bidding Time. Bidding time is the period of time between the date of the first publication of the public notice and the final date and time set for the receipt of bids by the executive director. Bidding time shall be set to provide bidders with reasonable time to prepare their bids and shall be not less than ten calendar days, unless a shorter time is deemed necessary for a particular project as determined in writing by the executive director.

(5) Bid Prices. The bidding documents for an invitation for bids shall include a bid price form having a space in which the bid prices shall be inserted and which the bidder shall sign and submit along with all other required documents and materials and may include qualification requirements as appropriate.

(6) Addenda to the Bidding Documents.

(a) Addenda shall be distributed or otherwise made available to all entities known to have obtained bidding documents for a project.

(b) Addenda shall be distributed within a reasonable time to allow all prospective bidders to consider them in preparing bids. If the time set for the final receipt of bids will not permit appropriate consideration, the bidding time shall be extended to allow proper consideration of the addenda. The person responsible for the issuance of bidding documents shall confirm in writing, any addenda communicated to bidders by telephone.

(7) Pre-Opening Modification or Withdrawal of Bids.

(a) Bids may be modified or withdrawn by the bidder by written notice delivered to the place designated in the notice when bids are to be delivered prior to the time set for the opening of bids.

(b) Bid security, if any, shall be returned to the bidder when withdrawal of the bid is permitted.

(c) All documents relating to the modification or withdrawal of bids shall be made a part of the appropriate project file.

(8) Late Bids, Late Withdrawals, and Late Modifications.

Any bid, withdrawal of bid, or modification of bid received after the time and date set for the submission of bids at the place designated in the notice shall be deemed to be late and shall not be considered, unless it is the only bid received in which case it may be considered.

(9) Receipt, Opening, and Recording of Bids.

(a) Upon receipt, all bids and modifications shall be stored in a secure place until the time for bid opening.

(b) Bids and modifications shall be opened publicly, in the presence of one or more witnesses, at the time and place designated in the invitation for bids. The names of the bidders, the bid price, and other information deemed appropriate by the executive director shall be read aloud or otherwise made available to the public. After the bid opening, the bids shall be tabulated or a bid abstract made, including the amount of each bid. The record (bid tabulation) and opened bids shall be available for public inspection.

(10) Mistakes in Bids.

(a) If a mistake is attributable to an error in judgment, the bid may not be corrected. Bid correction or withdrawal by reason of an inadvertent, nonjudgmental mistake is permissible but only at the discretion of the executive director and only to the extent it is not contrary to the interest of the board or the fair treatment of other bidders.

(b) When it appears from a review of the bid that a mistake may have been made, the executive director may request the bidder to confirm the bid in writing. Situations in which confirmation may be requested include obvious, apparent errors on the face of the bid or a bid lower than the other bids submitted that appears to have neglected some part of the project.

(c) Mistakes at Bid Opening. The executive director shall weigh the types of factors described below in which mistakes in

bids are discovered after opening but before award. After the bid opening, no changes in the bid prices or other provisions of bids prejudicial to the interest of the board or fair competition may be permitted. These include:

(i) Minor formalities are matters which, in the discretion of the board or executive director, are found to be of form rather than substance evident from the bid document, or are insignificant mistakes that can be waived or corrected without prejudice to other bidders and with respect to which, in the executive director's discretion, the effect on price, quantity, quality, delivery, or contractual conditions is not or will not be significant. The executive director, in the executive director's sole discretion, may waive minor formalities or allow the bidder to correct them depending on which is in the best interest of the board. Examples include the failure of a bidder to:

(A) Sign the bid, but only if the unsigned bid is accompanied by other material indicating the bidder's intent to be bound;

(B) Acknowledge receipt of any addenda to the invitation for bids, but only if it is clear from the bid that the bidder received the addenda and intended to be bound by its terms; the addenda involved had a negligible effect on price, quantity, quality, or delivery; or the bidder acknowledged receipt of the addenda at the bid opening.

(ii) A determination by the executive director that the mistake and the intended bid are clearly evident on the face of the bid document. The bid shall be corrected to reflect the intent of the bidder, and may not be withdrawn. Examples of mistakes that may be clearly evident on the face of the bid document are typographical errors, errors in extending unit prices, transposition errors, and arithmetical errors.

(iii) Approval to withdraw a low bid if the executive director determines a mistake is clearly evident on the face of the bid document but the intended amount of the bid is not similarly evident, or if the bidder submits to the executive director proof of evidentiary value which, in the executive director's best judgment, demonstrates that a mistake in calculation or estimation was made.

(d) No bidder shall be allowed to correct a mistake or withdraw a bid because of a mistake discovered after award of the contract; provided, that mistakes of the types described in R131-4-401 may be corrected or the award of the contract canceled if the executive director determines that correction or cancellation will not prejudice the interests of the board or fair competition.

(e) The executive director shall approve or deny in writing all requests to correct or withdraw a bid.

(11) Bid Evaluation and Award. Except as provided below, the contract may be awarded to the lowest qualified responsible and responsive bidder whose bid meets the requirements and criteria set forth in the invitation for bids and no bid shall be evaluated for any requirements or criteria that are not disclosed in the bidding documents. A reciprocal preference shall be granted to a resident contractor if the provisions of Section 63G-6-405 are met. Bids shall be evaluated based on the requirements set forth in the invitation for bids, which may include criteria to determine acceptability such as inspection, testing, quality, workmanship, delivery, and suitability for a particular purpose. Those criteria that will affect the bid price and be considered in evaluation for award shall be objectively measurable. The criteria may include discounts, transportation costs, and total or life cycle costs.

(12) Cancellation of Invitations For Bids; Rejection Of Bids in Whole or In Part.

(a) Although issuance of an invitation for bids does not compel award of a contract, the executive director may cancel an invitation for bids or reject bids received in whole or in part only when the executive director determines that it is in the best interests of the board to do so.

(b) The reasons for cancellation or rejection shall be documented and made a part of the project file and available for public inspection.

(c) Any determination of nonresponsibility of a bidder shall be made by the executive director in writing. An unreasonable failure of the bidder to promptly supply information regarding responsibility may be grounds for a determination of nonresponsibility. Any bidder determined to be nonresponsible shall be provided with a copy of the written determination within a reasonable time. The board finds that it would impair governmental procurement proceedings by creating a disincentive for bidders to respond to inquiries of nonresponsibility, therefore information furnished by a bidder or pursuant to any inquiry concerning responsibility shall be classified as a protected record pursuant to Section 63G-2-305 and may be disclosed only as provided for in R131-4-411A.

(13)(a) All bids for a construction project exceed available funds as certified by the appropriate fiscal officer, and the low responsive and responsible bid does not exceed those funds by more than 5%, the executive director may, in situations where time or economic considerations preclude resolicitation of work of a reduced scope, negotiate an adjustment of the bid price, including changes in the bid requirements, with the low responsive and responsible bidder in order to bring the bid within the amount of available funds.

(b) Notwithstanding Subsection (13)(a), if all bids exceed the construction budget by any amount, the executive director may take any action allowed by this rule to award the contract to the lowest responsible and responsive bidder that will complete the construction project within the amount of available funds.

(c) This rule does not restrict in any way, the right of the executive director to use any emergency or sole source procurement provisions, or any other applicable provisions of State law or rule which may be used to award the construction project.

(14) Tie Bids. Tie bids shall be resolved in accordance with Section 63G-6-426.

(15) Subcontractor Lists. The executive director may provide for subcontractor list requirements in the invitation for bids.

(a) Pursuant to Section 63G-2-305, information contained in the subcontractor list submitted to the board or executive director shall be classified public except for the amount of subcontractor bids which shall be classified as protected until a contract has been awarded to the bidder at which time the subcontractor bid amounts shall be classified as public. During the time that the subcontractor bids are classified protected, they may only be made available to procurement and other officials involved with the review and approval of bids.

(b) Change of Listed Subcontractors. If the executive director requires the submission of a subcontractor list with a deadline, the contractor may change his submitted listed subcontractors only after receiving written permission from the executive director based on complying with all of the following:

(i) The contractor has established in writing that the change is in the best interest of the state and that the contractor establishes an appropriate reason for the change, which may include, but is not limited to, the following reasons: the original subcontractor has failed to perform, or is not qualified or capable of performing, or the subcontractor has requested in writing to be released;

(ii) The circumstances related to the request for the change do not indicate any bad faith in the original listing of the subcontractors;

(iii) Any requirement set forth by the executive director to ensure that the process used to select a new subcontractor does not give rise to bid shopping;

(iv) Any increase in the cost of the subject subcontractor

work shall be borne by the contractor; and

(v) Any decrease in the cost of the subject subcontractor work shall result in a deductive change order being issued for the contract for such decreased amount.

R131-4-401A. Multi-Step Sealed Bidding.

(1) When it is considered impractical to prepare initially a purchase description to support an award based on price, an invitation for bids may be issued requesting the submission of unpriced offers (statement of qualifications) to be followed by an invitation for bids limited to those bidders whose offers have been qualified under the criteria set forth in the first solicitation.

(2) Description. Multi-step sealed bidding is a two-phase process. In the first phase, bidders shall submit a statement of qualifications to be evaluated. In the second phase, bidders whose statement of qualifications are determined to be acceptable during the first phase shall be invited to submit price bids.

(3) Use. Multi-step sealed bidding may be used when the executive director deems it to be in the interest of the state.

(4) Procedure for First Phase. The first phase shall be processed in accordance with the notice, substance and procedural requirements of a request for proposal under R131-4-408.

(5) The second phase shall be processed in accordance with the applicable substance and procedural requirements of a competitive sealed bid under R131-4-401. No public notice will be provided for this invitation.

R131-4-402. Contracts Awarded by Reverse Auction.

(1) As used in this Section, "reverse auction" means a process where:

(a) contracts are awarded in an open and interactive environment, which may include the use of electronic media; and

(b) bids are opened and made public immediately, and bidders given opportunity to submit revised, lower bids, until the bidding process is complete.

(2) Notwithstanding the requirements of this rule, contracts may be awarded through a reverse auction.

(3) Reverse auction is a two-phase process consisting of a technical first phase composed of one or more steps in which bidders submit a statement of qualifications to be evaluated against the established criteria by the executive director, and a second phase in which those bidders whose statement of qualifications are determined to be acceptable during the first phase submit their price bids through a reverse auction.

(4) Use. The reverse auction method will be used when the executive director deems it to the advantage of the board.

(5) Pre-Bid Conferences in Reverse Auctions. Prior to the submission of a statement of qualifications, a pre-bid conference may be conducted by the executive director. The executive director may also hold a conference of all bidders at any time during the evaluation of the statement of qualifications, or to explain the reverse auction process.

(6) Procedure for Phase One of Reverse Auctions.

(a) Form. A reverse auction shall be initiated by the issuance of an invitation for bids in the form required by R131-4-401. In addition to those requirements, the reverse auction invitation for bids shall state:

(i) that a statement of qualifications are requested;

(ii) that it is a reverse auction procurement, and priced bids will be considered only in the second phase and only from those bidders whose statement of qualifications are found acceptable in the first phase;

(iii) the criteria to be used in the evaluation of the statement of qualifications;

(iv) that the board or executive director, to the extent the executive director finds necessary, may conduct oral or written

discussions of the statement of qualifications;

(v) that bidders may designate those portions of the statement of qualifications which contain trade secrets or other proprietary data which are to remain confidential to the extent provided by law; and

(vi) the manner in which the second phase reverse auction will be conducted.

(7) Amendments to the Invitation for Bids. After receipt of the statement of qualifications, amendments to the invitation for bids shall be distributed only to bidders who submitted a statement of qualifications and they shall be allowed to submit new statements of qualifications or to amend those submitted. If, in the opinion of the executive director, a contemplated amendment will significantly change the nature of the procurement, the invitation for bids shall be canceled in accordance with R131-4-401 and a new invitation for bids issued.

(8) Receipt and Handling of Statement of Qualifications. Statement of qualifications shall be opened publicly identifying only the names of the bidders. Technical offers and modifications shall be time stamped upon receipt and held in a secure place until the established due date. After the date established for receipt of bids, a register of bids shall be open to public inspection and shall include the name of each bidder, and a description sufficient to identify the supply, service, or construction offered. Prior to the selection of the lowest bid of a responsive and responsible bidder following phase two, statement of qualifications shall remain confidential and shall be available only to board personnel and those involved in the selection process having a legitimate interest in them.

(9) Non-Disclosure of Proprietary Data. Bidders may request protection of records in accordance with R131-4-411A.

(10)(a) Evaluation of Statement of Qualifications. The statement of qualifications submitted by bidders shall be evaluated solely in accordance with the criteria set forth in the invitation for bids. The statement of qualifications shall be categorized as:

(i) acceptable;

(ii) potentially acceptable, that is, reasonably susceptible of being made acceptable; or

(iii) unacceptable.

(b) The executive director shall record in writing the basis for finding an offer unacceptable and make it part of the procurement file.

(c) The executive director may initiate phase two of the procedure if, in the executive director's opinion, there are sufficient acceptable statements of qualifications to assure effective price competition in the second phase without modification or alteration of the offers. If the executive director finds that this is not the case, the executive director shall issue an amendment to the invitation for bids or engage in technical discussions as set forth in R131-4-402(11) below.

(11) Discussion of Statement of Qualifications. Discussion of the statement of qualifications may be conducted by the executive director with any bidder who submits an acceptable or potentially acceptable statement of qualifications. During the course of these discussions, the executive director shall not disclose any information derived from one statement of qualifications offer to any other bidder. Once discussions are begun, any bidder who has not been notified that its statement of qualifications has been finally found unacceptable may submit supplemental information modifying or otherwise amending its statement of qualifications offer at any time until the closing date established by the executive director. This submission may be made at the request of the executive director or upon the bidder's own initiative.

(12) Notice of Unacceptable Statement of Qualifications. When the executive director determines a bidder's statement of qualifications is unacceptable, the executive director shall notify

the bidder. After this notification, the bidder shall not be afforded an additional opportunity to modify their statement of qualifications.

(13) Carrying Out Phase Two of Reverse Auctions.

(a) Upon the completion of phase one, the executive director shall invite those qualified bidders to participate in phase two of the reverse auction which is an open and interactive process where pricing is submitted, made public immediately, and bidders are given the opportunity to submit revised, lower bids, until the bidding process is closed.

(b) The invitation for bids shall:

(i) establish a date and time for the beginning of phase two;

(ii) establish a closing date and time. The closing date and time need not be a fixed point in time, but may remain dependent on a variable specified in the invitation for bids.

(c) Following receipt of the first bid after the beginning of phase two, the lowest bid price shall be posted, either manually or electronically, and updated as other bidders submit their bids.

(i) At any time before the closing date and time a bidder may submit a lower bid, provided that the price is below the then lowest bid.

(ii) Bid prices may not be increased after the beginning of phase two.

(14) Mistakes During Reverse Auctions.

(a) Mistakes may be corrected or bids may be withdrawn during phase one:

(i) before statements of qualifications are considered;

(ii) after any discussions have commenced under the procedure for phase one of reverse auctions, discussion of statement of qualifications; or

(iii) when responding to any amendment of the invitation for bids. Otherwise, mistakes may be corrected or withdrawal permitted in accordance with R131-4-401(10).

(15) A phase two bid may be withdrawn only in accordance with R131-4-401(10). If a bid is withdrawn, a later bid submitted by the same bidder may not be for a higher price. If the lowest responsive bid is withdrawn after the closing date and time, the executive director may cancel the solicitation or reopen phase two bidding to all bidders deemed qualified through phase one by giving notice to those bidders of the new date and time for the beginning of phase two and the new closing date and time.

R131-4-403. Procurement - Use of Recycled Goods.

The executive director shall:

(1) comply with Section 63G-6-406 regarding recycled paper and paper products; and

(2)(a) use for reference, the current listing of recycled items available on state contract as issued by the State Division of Purchasing and General Services under Section 63G-6-204; and

(b) give recycled items consideration when inviting bids and purchasing supplies.

R131-4-404. Preference for Providers of State Products.

(1)(a) All board procurement shall, in all purchases of goods, supplies, equipment, materials, and printing, give a reciprocal preference to those bidders offering goods, supplies, equipment, materials, or printing produced, manufactured, mined, grown, or performed in Utah as against those bidders offering goods, supplies, equipment, materials, or printing produced, manufactured, mined, grown, or performed in any state that gives or requires a preference to goods, supplies, equipment, materials, or printing produced, manufactured, mined, grown, or performed in that state.

(b) The amount of reciprocal preference shall be equal to the amount of the preference applied by the other state for that particular good, supply, equipment, material, or printing.

(c)(i) The bidder shall certify on the bid that the goods, supplies, equipment, materials, or printing offered are produced, manufactured, mined, grown, or performed in Utah.

(ii) The reciprocal preference is waived if that certification does not appear on the bid or the product, quality or services is not available from within the state of Utah.

(2)(a) If the bidder submitting the lowest responsive and responsible bid offers goods, supplies, equipment, materials, or printing produced, manufactured, mined, grown, or performed in a state that gives or requires a preference, and if another bidder has submitted a responsive and responsible bid offering goods, supplies, equipment, materials, or printing produced, manufactured, mined, grown, or performed in Utah, and with the benefit of the reciprocal preference, his bid is equal to or less than the original lowest bid, the executive director shall:

(i) give notice to the bidder offering goods, supplies, equipment, materials, or printing produced, manufactured, mined, grown, or performed in Utah that he qualifies as a preferred bidder; and

(ii) make the purchase from the preferred bidder if, within 72 hours after notification to him that he is a preferred bidder, he agrees, in writing, to meet the low bid.

(b) The executive director shall include the exact price submitted by the lowest bidder in the notice he submits to the preferred bidder.

(c) The executive director may not enter into a contract with any other bidder for the purchase until 72 hours have elapsed after notification to the preferred bidder.

(3)(a) If there is more than one preferred bidder, the executive director shall award the contract to the willing preferred bidder who was the lowest preferred bidder originally.

(b) If there were two or more equally low preferred bidders, the executive director shall resolve the tie in accordance with Section 63G-6-426.

(4) The provisions of R131-4-404 do not apply if such application might jeopardize the receipt of federal funds.

R131-4-405. Preference for Resident Contractors.

(1) As used in this Section, "resident contractor" means a person, partnership, corporation, or other business entity that:

(a) either has its principal place of business in Utah or that employs workers who are residents of this state when available; and

(b) was transacting business on the date when bids for the public contract were first solicited.

(2)(a) When awarding contracts for construction, the board shall grant a resident contractor a reciprocal preference as against a nonresident contractor from any state that gives or requires a preference to contractors from that state.

(b) The amount of the reciprocal preference shall be equal to the amount of the preference applied by the state of the nonresident contractor.

(3)(a) The bidder shall certify on the bid that the bidder qualifies as a resident contractor.

(b) The reciprocal preference is waived if that certification does not appear on the bid or if the resident contractor is not qualified to perform the work as stipulated in the pre-proposal or pre-bid documents.

(4)(a) If the contractor submitting the lowest responsive and responsible bid is not a resident contractor and has its principal place of business in any state that gives or requires a preference to contractors from that state, and if a resident contractor has also submitted a responsive and responsible bid, and, with the benefit of the reciprocal preference, the resident contractor's bid is equal to or less than the original lowest bid, the executive director shall:

(i) give notice to the resident contractor that the contractor qualifies as a preferred resident contractor; and

(ii) issue the contract to the resident contractor if, within

72 hours after notification to the contractor that such contractor is a preferred resident contractor, the contractor agrees, in writing, to meet the low bid.

(b) The executive director shall include the exact price submitted by the lowest bidder in the notice submitted to the preferred resident contractor.

(c) The executive director may not enter into a contract with any other bidder for the construction until 72 hours have elapsed after notification to the preferred resident contractor.

(5)(a) If there is more than one preferred resident contractor, the executive director shall award the contract to the willing preferred resident contractor who was the lowest preferred resident contractor originally.

(b) If there were two or more equally low preferred resident contractors, the executive director shall resolve the tie in accordance with Section 63G-6-426.

(6) The provisions of R131-4-405 do not apply if such application might jeopardize the receipt of federal funds.

R131-4-407. Use of Alkaline Paper.

The Board and executive director shall comply with Section 63G-6-407 regarding the use of Alkaline Paper.

R131-4-408. Use of Competitive Sealed Proposals in lieu of Bids - Procedure.

(1) Considerations for Use. Competitive sealed proposals, which shall be solicited through a request for proposals, may be used, if:

(a) there may be a need for price and service negotiation;

(b) there may be a need for negotiation during performance of the contract;

(c) the relative skills or expertise of the offerors should be evaluated;

(d) characteristics of the product or service sought is important; or

(e) the conditions of the service, product or delivery conditions are unable to be sufficiently described in the invitation for bids.

(2) Determinations.

(a) Before a contract may be entered into by competitive sealed proposals, the executive director shall determine in writing that the use of competitive sealed proposals is more advantageous for state purposes than competitive sealed bidding.

(b) Determinations may be by category of service or construction items. The executive director may modify or revoke a determination and may review previous determinations for current applicability at any time. Competitive sealed proposals may be used for the procurement of services of consultants, professionals, contractors and any other entity sought for procurement by the executive director or the board.

(3) Public Notice. Public notice of the request for proposals shall be given in the same manner provided for giving public notice of an invitation for bids, as provided by R131-4-401.

(4) Proposal Preparation Time. Proposal preparation time is the period of time between the date of first publication of the notice and the date and time set for the receipt of proposals by the board or executive director. For each project, a proposal preparation time-frame shall be included to provide offerors a reasonable time to prepare their proposals, not less than ten calendar days, unless a shorter time is deemed necessary.

(5) Form of Proposal. The request for proposals may state the manner in which proposals are to be submitted, including any forms for that purpose.

(6) Addenda to Requests for Proposals. Addenda to the requests for proposals may be made in the same manner provided for addenda to the bidding documents in connection with invitations for bids by this rule. Addenda may also be

issued to qualified proposers after the deadline for proposals and prior to the deadline for best and final offers.

(7) Modification or Withdrawal of Proposals. Proposals may be modified or withdrawn prior to the established due date. For the purposes of this rule, the established due date will be either the date and time announced for receipt of proposals or receipt of modifications to proposals, if any; or if discussions have begun, it is the date and time by which best and final offers must be submitted, provided that only offerors who submitted proposals by the time announced for receipt of proposals may submit best and final offers.

(8) Late Proposals, Late Withdrawals, or Late Modifications: Except for modifications allowed pursuant to negotiation, any proposal, withdrawal, or modification received at the place designated for receipt of proposals after the established due date as defined in this rule shall be deemed to be late and shall not be considered unless there are no other offerors.

(9) Receipt and Registration of Proposals.

(a) Proposals shall be opened publicly, and shall only identify the names of the offerors in public. Proposals shall be opened so as to avoid disclosure of contents to competing offerors during the process of negotiation. Proposals and modifications shall be held in a secure place until the established due date.

(b) After the date established for receipt of proposals, a register of proposals shall be open to public inspection and shall include for all proposals the name of each offeror, the number of addenda received, if any, and a description sufficient to identify the supply, service, or construction item offered. Prior to award, proposals and modifications shall be shown only to procurement and other officials involved with the review and selection of proposals who shall adhere to the requirements of GRAMA and this rule.

(10) Evaluation of Proposals.

(a) Evaluation Factors in the Request for Proposals. The request for proposals shall be prepared in a manner to assure maximum practicable competition, state all of the evaluation factors as well as the relative importance of price and other evaluating factors.

(b) Evaluation. The evaluation shall be based on the evaluation factors set forth in the request for proposals. Numerical rating systems may be used but are not required.

(c) Classifying Proposals. Proposals shall be initially classified as:

(i) Acceptable;

(ii) Potentially acceptable, that is, having the possibility of being made acceptable; or

(iii) Unacceptable. Offerors whose proposals are unacceptable shall be so notified.

(11) Proposal Discussions with Individual Offerors.

(a) "Offerors" means only those responsible persons submitting proposals that are acceptable or potentially acceptable, the number of which may be limited to no less than the two best proposals. This shall not include persons who submitted unacceptable proposals.

(b) Purposes of Discussions. Discussions may be held in order to:

(i) review the board's requirements and the offerors' proposals; and

(ii) facilitate the development of a contract that will be most advantageous to the board, taking into consideration price and other evaluation factors listed in the request for proposals.

(c) Conduct of Discussions. Offerors shall be accorded fair and equal treatment with respect to any opportunity for discussions and revisions of proposals. Discussions may be conducted for the purpose of assuring full understanding of, and responsiveness to, solicitation requirements. Offerors shall be accorded fair and equal treatment with respect to any

opportunity for discussion and revision of proposals, and revisions may be permitted after submissions and before the contract is awarded for the purpose of obtaining best and final offers. There shall be no disclosure of any information derived from proposals submitted by competing offerors except as otherwise provided by this rule or law. Any oral clarification or change of a proposal shall be reduced to writing by the offeror.

(12) Best and Final Offers. The executive director shall establish a common time and date to submit best and final offers. These shall be submitted only once unless the executive director makes a written determination before each subsequent round of best and final offers that another round is in the best interest of the state, and additional discussions will be conducted or the requirements may be changed. Otherwise, no discussion of, or changes in the best and final offers shall be allowed prior to award. If offerors do not submit a notice of withdrawal or another best and final offer, their immediate previous offer will be construed as their best and final offer.

(13) Mistakes in Proposals.

(a) Mistakes discovered before the established due date. An offeror may correct mistakes discovered before the time and date established for receipt of proposals by withdrawing or correcting the proposal as provided in R131-4-408.

(b) Confirmation of proposal. When it appears from a review of the proposal before an award is made, that a mistake has been made, the offeror shall be asked to confirm the proposal. If the offeror alleges that a mistake occurred, the proposal may be corrected or withdrawn during any discussions that are held or the conditions listed below, by this rule, are met.

(c) Mistakes discovered after receipt but before award. This Subsection defines procedures to be applied in four situations in which mistakes in proposals may be discovered after receipt of proposals but before award.

(i) During discussions; prior to best and final offers. Once discussions are commenced with any offeror or after best and final offers are requested, any offeror may freely correct any mistake by modifying or withdrawing the proposal until the time and date set for receipt of best and final offers.

(ii) Minor formalities. Minor formalities, unless otherwise corrected by an offeror as provided in this Section, shall be treated in accordance with this rule.

(iii) Corrections of mistakes. If discussions are not held or if the best and final offers upon which award will be made have been received, mistakes may be corrected and the correct offer considered only if:

(A) the mistakes and the correct offer are clearly evident on the face of the proposal in which event the proposal may not be withdrawn;

(B) the mistake is not clearly evident on the face of the proposal, but the offeror submits proof of evidentiary value which clearly and convincingly demonstrates both the existence of a mistake and the correct offer, and the correction of the mistake would not be contrary to the fair and equal treatment of other offerors.

(iv) Withdrawals of proposals. If discussions are not held, or if the best and final offers upon which award will be made have been received, offeror may be permitted to withdraw a proposal if:

(A) a mistake was made that is clearly evident on the face of the proposal and the intended amount of the offer is not evident; or

(B) the offeror submits proof of evidentiary value which clearly and convincingly demonstrates that a mistake was made that it does not demonstrate the correct offer or, if the correct offer is also demonstrated, to allow correction on the basis the proof provided would not be contrary to the fair and equal treatment of other offerors.

(d) Mistakes discovered after award. An offeror shall be bound to all terms, conditions and statements in offeror's

proposal after award of the contract.

(14) Award.

(a) Award Documentation. A written determination shall be made showing the basis on which the award was found to be most advantageous to the state based on the factors set forth in the request for proposals. No other factors or criteria shall be used in the evaluation. The contract file shall contain the basis on which the award is made.

(b) One proposal received. If only one proposal is received in response to a request for proposals, the executive director may make an award or, if time permits, resolicit for the purpose of obtaining additional competitive sealed proposals.

(15) Publicizing Awards.

(a) Notice. After the selection of the successful offeror, notice of award shall be available in the executive director's office in Salt Lake City, Utah and may be available on the Internet.

After due consideration and public input, the following has been determined by the board to impair governmental procurement proceedings or give an unfair advantage to any person proposing to enter into a contract with the board and shall be classified as protected records:

(i) the names of individual selection committee scorers in relation to their individual scores or rankings; and

(ii) non-public financial statements.

(16) Confidentiality of Performance Evaluations and Reference Information. The board finds that it is necessary to maintain the confidentiality of performance evaluations and reference information in order to avoid competitive injury and to encourage those persons providing the information to respond in an open and honest manner without fear of retribution. Accordingly, records containing performance evaluations and reference information are classified as protected records under the provisions of Subsections 63G-2-305 and shall be disclosed only to those persons involved with the performance evaluation, the contractor that the information addresses and procurement and other officials involved with the review and selection of proposals. The executive director may, however, provide reference information to other governmental entities for use in their procurement activities and to other parties when requested by the contractor that is the subject of the information. Any other disclosure of such performance evaluations and reference information shall only be as required by applicable law.

R131-4-409. Small Purchases.

(1) Procurements of \$200,000 or Less.

(b) The names of the persons submitting quotations and the date and amount of each quotation shall be recorded and maintained as a public record by the board.

(c) If the executive director determines that other factors in addition to cost should be considered in the procurement, the executive director shall solicit proposals from at least two firms. The award shall be made to the firm offering the best proposal as determined through application of the procedures provided for in R131-4-408 except that a public notice is not required and

only invited firms may submit proposals.

(2) Procurements of \$50,000 or Less. The executive director may make small purchases of \$50,000 or less in any manner that he shall deem to be adequate and reasonable.

(3) Division of Procurements. Procurements shall not be divided in order to qualify for the procedures outlined in this rule.

R131-4-410. Sole Source Procurement.

(1) Conditions for Use of Sole Source Procurement.

The procedures concerning sole source procurement in this rule may be used if, in the discretion of the executive director, a requirement is reasonably available only from a single source. Examples of circumstances which could also necessitate sole source procurement are:

(a) there is only one qualified source for the required craftsmanship, supply, service, or construction item; or

(b) the level of craftsmanship and quality to replicate restore is critical to the best interests of the state.

(c) the award to a specific supplier, service provider, or contractor is a condition of a donation that will fund the full cost of the supply, service, or construction item.

(d) where the compatibility of product design, equipment, accessories, or replacement parts is the paramount consideration;

(e) where a sole supplier's item is needed for trial use or testing;

(f) procurement of public utility services; or

(g) when it is a condition of a donation that will fund the full cost of the supply, material, equipment, service, or construction item.

(2) Written Determination. The determination as to whether a procurement shall be made as a sole source shall be made by the executive director in writing and may cover more than one procurement.

(3) Negotiation in Sole Source Procurement. The executive director shall negotiate with the sole source vendor for considerations of price, delivery, and other terms.

R131-4-411. Emergency Procurements.

(1) Application. This Section shall apply to every procurement made under emergency conditions that will not permit other source selection methods to be used.

(2) Definition of Emergency Conditions. An emergency condition is a situation which creates a threat to public health, welfare, or safety such as may arise by reason of floods, epidemics, riots, natural disasters, wars, destruction of property, building or equipment failures, or any emergency proclaimed by governmental authorities.

(3) Scope of Emergency Procurements. Emergency procurements shall be limited to only those items necessary to meet the emergency.

(4) Authority to Make Emergency Procurements.

(a) The executive director may make an emergency procurement when, in the executive director's determination, an emergency condition exists or will exist and the need cannot be met through other procurement methods.

(b) The procurement process shall be considered unsuccessful when all bids or proposals received pursuant to an invitation for bids or request for proposals are nonresponsive, unreasonable, noncompetitive, or exceed available funds as certified by the appropriate fiscal officer, and time or other circumstances will not permit the delay required to resolicit competitive sealed bids or proposals. If emergency conditions exist after or are brought about by an unsuccessful procurement process, an emergency procurement may be made.

(5) Source Selection Methods. The source selection method used for emergency procurement shall be selected by the executive director with a view to assuring that the required

items are procured in time to meet the emergency. Given this constraint, as much competition as the executive director determines to be practicable shall be obtained.

(6) Specifications. The executive director may use any appropriate specifications without being subject to the requirements of R131-4-301 through R131-4-304.

(7) Required Construction Contract Clauses. The executive director may modify or not use the construction contract clauses otherwise required by R131-4-601.

(8) Written Determination. The executive director shall make a written determination stating the basis for each emergency procurement and for the selection of the particular source. This determination shall be included in the project file.

R131-4-411A. Protected Records.

(1) General Classification. Records submitted to the board or the executive director in a procurement process are classified as public unless a different classification is determined in accordance with Title 63G, Chapter 2, Government Records Access and Management Act.

(2) Protected Records. Records meeting the requirements of Section 63G-2-305 will be treated as protected records if the procedural requirements of GRAMA are met. Examples of protected records include the following:

(a) trade secrets, as defined in Section 13-24-2, if the requirements of R131-4-411A(3) are met;

(b) commercial information or nonindividual financial information if the requirements of Subsection 63G-2-305(2) and R131-4-411A(3) are met; and

(c) records the disclosure of which would impair governmental procurement proceedings or give an unfair advantage to any person proposing to enter into a contract with the board, including, but not limited to, those records for which such a determination is made in R131-4 or R131-1.

(3) Requests for Protected Status. Persons who believe that a submitted record, or portion thereof, should be protected under the classifications listed in R131-4-411A(2)(a) and R131-4-411A(2)(b) shall provide with the record a written claim of business confidentiality and a concise statement of reasons supporting the claim of business confidentiality. Such statements must address each portion of a document for which protected status is requested.

(4) Notification. A person who complies with R131-4-411A shall be notified by the executive director prior to the executive director's public release of any information for which business confidentiality has been asserted.

(5) Disclosure of Records and Appeal. The records access determination and any further appeal of such determination shall be made in accordance with the provisions of Sections 63G-2-309 and 63G-2-401 et seq., GRAMA.

(6) Not Limit Rights. Nothing in this rule shall be construed to limit the right of the board or executive director to protect a record from public disclosure where such protection is allowed by law.

R131-4-412. Cancellation and Rejection of Bids.

An invitation for bids, a request for proposals, or other solicitation may be cancelled, or any or all bids or proposals may be rejected, in whole or in part, as may be specified in the solicitation, when it is in the best interests of the state as determined by the board or executive director in writing. The reasons shall be made part of the contract file.

R131-4-413. Determination of Nonresponsibility of Bidder or Offeror.

A written determination of nonresponsibility of a bidder or offeror shall be made by the executive director when information of such nonresponsibility is provided to the executive director. The unreasonable failure of a bidder or

offeror to promptly supply information in connection with an inquiry with respect to responsibility may be grounds for a determination of nonresponsibility with respect to the bidder or offeror. Information furnished by a bidder or offeror pursuant to R131-4-413 shall not be disclosed outside of the board or executive director's office without prior written consent by the bidder or offeror.

R131-4-414. Prequalification of Suppliers.

Prospective suppliers may be prequalified for particular types of supplies, services, and construction. Solicitation mailing lists of potential contractors shall include but shall not be limited to prequalified suppliers.

R131-4-415. Rules and Regulations to Determine Allowable Incurred Costs - Required Information - Auditing of Books.

(1) Applicability. Cost or pricing data shall be required when negotiating contracts and adjustments to contracts if:

(a) adequate price competition is not obtained as provided in this rule; and

(b) the amounts listed in Subsection (3) below are exceeded.

(2) Adequate Price Competition. Adequate price competition for portions of, or entire contracts, occurs when:

(a) a contract is awarded based on competitive sealed bidding;

(b) a contractor is selected from competitive sealed proposals and cost was one of the selection criteria;

(c) a portion of a contract is awarded for a lump sum amount or a fixed percentage of other costs, and the cost of the lump sum or percentage amount is one of the selection criteria, and when contractor selection is made from competitive sealed proposals;

(d) a portion of a contract is awarded for which adequate price competition that was not otherwise obtained when competitive bids were obtained and documented by either the board, executive director, or the contractor;

(e) costs are based upon established catalogue prices or market prices;

(f) costs are set by law or rule; or

(g) the executive director makes a written determination that other circumstances have resulted in adequate price competition.

(3) Amounts. R131-4-415 does not apply to:

(a) Contracts or portions of contracts costing less than \$200,000, and

(b) Change orders or other price adjustments of less than \$50,000.

(4) Other Applications: R131-4-415 may apply to any contract or price adjustment when it is found by the executive director to be in the best interest of the state and any contract may require cost or pricing data and certifications by the contractor as to the accuracy of such cost or pricing data.

(5) Submission of Cost or Pricing Data and Certification. When cost or pricing data is required, the data shall be submitted prior to beginning price negotiation. The offeror or contractor shall keep the data current throughout the negotiations and certify as soon as practicable after agreement is reached on price that the cost or pricing data submitted are accurate, complete, and current as of a mutually determined date.

(6) Refusal to Submit. If the offeror fails to submit the required data, the executive director may disqualify the noncomplying offeror, to defer award pending further investigation, or to enter into the contract. If the matter involves a price adjustment, the executive director may further investigate the price adjustment, disallow any price adjustment, or set the amount of the price adjustment.

(7) Defective Cost or Pricing Data. If certified cost or

pricing data are subsequently found to have been inaccurate, incomplete, or noncurrent as of the date stated in the certificate, the Board shall be entitled to an adjustment of the contract price to exclude any significant sum, including profit or fee, to the extent the contract sum was increased because of the defective data. It shall be assumed that overstated cost or pricing data resulted in an increase of the contract price in the amount of the defect plus any related overhead and profit or fee; therefore, unless documentation can show that the defective data were not used or relied upon, the price may be reduced by a requisite amount. In establishing that defective data caused an increase in the contract price, the executive director shall not be required to reconstruct the negotiation or speculate on the mental attitudes of the negotiating parties if correct data had been submitted at the time of agreement on price.

(8) Audit. The state, board or executive director may, in its discretion, and at reasonable times and places, audit or cause to be audited the books and records of any person who has submitted cost or pricing data pursuant to this rule or any contractor, prospective contractor, subcontractor, or prospective subcontractor which are related to the cost or pricing data submitted.

(9) Retention of Books and Records. Any contractor who receives a contract or price adjustment for which cost or pricing data is required shall maintain all books and records that relate to the cost or pricing data for three years following the end of the fiscal year in which final payment is made under the prime contract and by the subcontractor for three years following the end of the fiscal year in which final payment is made under the subcontract.

R131-4-416. Cost-Plus-a-Percentage-of-Cost Contract.

(1) Subject to the limitations of R131-4-416, any type of contract which will promote the best interests of the state or the Board may be used; provided that the use of a cost-plus-a-percentage-of-cost contract is only allowed as approved by the board, otherwise it is prohibited. A cost-reimbursement contract with a guaranteed maximum price may be used only when a determination is made in writing by the board that such contract is likely to be less costly to the state than any other type or that it is impracticable to obtain the supplies, services, or construction required except under such a contract.

(2) Except with respect to firm fixed-price contracts, no contract type shall be used unless it has been determined in writing by the executive director or the board that:

(a) the proposed contractor's accounting system will permit timely development of all necessary cost data in the form required by the specific contract type contemplated; and

(b) the proposed contractor's accounting system is adequate to allocate costs in accordance with generally accepted accounting principles.

R131-4-417. Period of Time for Contract of Supplies.

(1) Unless otherwise provided by law, a contract for supplies or services may be entered into for any period of time deemed to be in the best interests of the state or the board; provided that the term of the contract and conditions of renewal or extension, if any, are included in the solicitation and funds are available for the first fiscal period at the time of contracting. Payment and performance obligations for succeeding fiscal periods shall be subject to the availability and appropriation of funds.

(2) Prior to the utilization of a multi-year contract, it shall be determined in writing by the executive director or the board that estimated requirements cover the period of the contract and are reasonably firm and continuing and that such a contract will serve the best interests of the state or the board by encouraging effective competition or otherwise promoting economies in state procurement.

(3) When funds are not appropriated or otherwise made available to support continuation of performance in a subsequent fiscal period, the contract shall be cancelled and the contractor shall be reimbursed for the reasonable value of any nonrecurring costs incurred but not amortized in the price of the supplies or services delivered under the contract. The cost of cancellation may be paid from any appropriations available for that purpose.

R131-4-418. Right to Inspect Place of Business of Contractor or Subcontractor.

The state, board or the executive director may, at reasonable times, inspect the part of the plant or place of business of a contractor or any subcontractor which is related to the performance of any contract awarded or to be awarded by the board or the executive director.

R131-4-419. Determinations Final Except when Arbitrary and Capricious.

The determinations required by R131-4-401, R131-4-408, R131-4-410, R131-4-411, R131-4-413, R131-4-415, R131-3-416, and R131-4-417 are final and conclusive unless they are arbitrary and capricious or clearly erroneous.

R131-4-420. Factual Information to Attorney General if Collusion Suspected.

When for any reason collusion or other anticompetitive practices are suspected among bidders or offerors, a notice of the relevant facts shall be transmitted to the attorney general.

R131-4-421. Records of Contracts Made.

The executive director shall maintain a record listing all contracts made under R131-4-410 or R131-4-111 and shall maintain the record in accordance with Title 63G, Chapter 2, Government Records Access and Management Act. The record shall contain each contractor's name, the amount and type of each contract, and a listing of the supplies, services, or construction procured under each contract.

R131-4-423. Purchase of Prison Industry Goods.

(1) The board shall purchase goods and services produced by the Utah Correctional Industries Division as provided by R131-4-423, which is an exemption from other provisions of R131-4, when in the opinion of the board or executive director such purchase is feasible.

(2) The board or executive director may not purchase any goods or services provided by the Utah Correctional Industries Division from any other source unless it has been determined in writing by the director of the Utah Correctional Industries and the board or executive director, that purchase from the Utah Correctional Industries Division is not feasible due to one of the following circumstances:

(a) the good or service offered by the Utah Correctional Industries Division does not meet the reasonable requirements of the executive director or board, including the compatibility with the unique design requirements of the Capitol Hill facilities and grounds;

(b) the good or service cannot be supplied within a reasonable time by the Utah Corrections Industries Division; or

(c) the cost of the good or service, including basic price, transportation costs, and other expenses of acquisition, is not competitive with the cost of procuring the item from another source.

(3) In cases of disagreement, the decision may be appealed to a board consisting of the director of the Department of Corrections, the executive director, and a neutral third party agreed upon by the other two members.

R131-4-425. Purchase from Community Rehabilitation

Programs.

(1) Except as provided under R131-4-425(3) below, notwithstanding any provision in R131-4 to the contrary, the board or executive director shall purchase goods and services produced by a community rehabilitation program using the preferred procurement contract list approved under Section 63G-6-425(2)(b)(iii) if:

(a) the good or service offered for sale by a community rehabilitation program reasonably conforms to the needs and specifications of the board;

(b) the community rehabilitation program can supply the good or service within a reasonable time; and

(c) the price of the good or service is reasonably competitive with the cost of procuring the good or service from another source.

(2) In accordance with Section 63G-6-425, each community rehabilitation program:

(a) may submit a bid to the Persons with Disabilities Advisory Board at any time and not necessarily in response to a request for bids; and

(b) shall certify on any bid it submits to the Persons with Disabilities Advisory Board, the Board or executive director that it is claiming a preference under Section 63G-6-425.

(3) During a fiscal year, the requirement for the board or executive director to purchase goods and services produced by a community rehabilitation program under the preferred procurement list under Section 63G-6-425(4) does not apply if the Division of Purchasing and General Services determines that the total amount of procurement contracts with community rehabilitation programs has reached \$5 million for that fiscal year.

(4) In the case of conflict between a purchase under R131-4-425 and a purchase under R131-4-423, R131-4-425 prevails.

R131-4-501. Alternative Methods of Construction Contracting Management.

(1) Application. This Section contains provisions applicable to the selection of the appropriate type of construction contract management.

(2) Flexibility. The executive director may devise an appropriate construction contract management method for a particular project that will best meet the needs of the board. The methods outlined in this rule are not an exclusive list.

(3) Selection. The executive director shall be expected to consider the results achieved on similar projects in the past and the methods used, other appropriate and effective methods, and how a method could be adapted or combined to meet the needs of the state.

(4) Criteria. Before choosing the construction contracting method, some factors that may be considered include:

(a) when the facility must be ready for occupancy;

(b) the type of project, for example, housing, offices, labs, heavy or specialized construction;

(c) the extent to which the requirements of the occupants are known;

(d) the location of the project;

(e) the size, scope, complexity, and economics of the project;

(f) the amount and type of financing available for the project, including whether the budget is fixed, the source of funding, general or special appropriation, federal assistance moneys, general obligation bonds or revenue bonds;

(g) the availability, qualification, experience, and available time of assigned State personnel to the project;

(h) the availability, experience and qualifications of outside consultants and contractors.

(5) General Descriptions.

(a) Application of Descriptions. The following descriptions are provided for the more common contracting

methods. The methods described are not mutually exclusive and may be combined on a project. These descriptions are not intended to be fixed for all construction projects of the state. In each project, these descriptions may be adapted to fit the circumstances of that project.

(b) Single Prime Contractor. The single prime contractor method is typified by one business entity acting as a general contractor with the state to complete an entire construction project in accordance with drawings and specifications provided by the state within a defined time period. Generally, the drawings and specifications are prepared by an architectural or engineering firm under contract with the state. Further, while the general contractor may take responsibility for successful completion of the project, much of the work may be performed by specialty contractors with whom the prime contractor has entered into subcontracts.

(c) Multiple Prime Contractors. Under this method, the board or the board's agent shall contract directly with a number of specialty contractors to complete portions of the project in accordance with the board's drawings and specifications. The board or its agent may have primary responsibility for successful completion of the entire project, or the contracts may provide that one of the multiple prime contractors shall have this responsibility.

(d) Design-Build. The use of a design build provider is authorized if determined to be used in accordance with this rule. In a design-build project, a business entity shall contract directly with the board to meet requirements described in a set of performance specifications. Both the design and construction responsibilities are assumed by the design-build contractor. This method can include instances where the design-build contractor supplies the site as part of the package.

(e) Construction Manager. The use of a construction manager, including a construction manager/general contractor, is authorized if determined to be used in accordance with this rule and shall be selected in accordance with R131-4. A construction manager shall be experienced in construction, have the ability to evaluate and to implement drawings and specifications as they affect time, cost, and quality of construction and the ability to coordinate the construction of the project, including the addition of change orders. A contract with a construction manager may be issued early in a project to assist in the development of a cost effective design. The construction manager may be appointed the single prime contractor, or may be required to guarantee that the project will be completed by a specified time, and not to exceed a specified maximum price. The procurement of a construction manager may be based, among other criteria, on proposals for a management fee which is either a lump sum or a percentage of construction costs with a guaranteed maximum cost or, on proposals for a lump sum or guaranteed maximum cost for the construction of the project. The contract with the construction manager may also provide for a sharing of any savings which are achieved below the guaranteed maximum cost. When entering into any subcontract that was not specifically included in the construction manager/general contractor's cost proposal, the construction manager/general contractor shall procure that subcontract in accordance with R131-4 in the same manner as if the subcontract work was procured directly by the board.

(f) Sequential Design and Construction. Sequential design and construction is a method whereby design of substantially the entire structure is completed prior to beginning the construction process.

(g) Phased Design and Construction. Phased design and construction is a method whereby construction is begun when appropriate portions have been designed but before design of the entire structure has been completed. This method is also known as fast track construction.

(h) Design Assist Contracting. Design assist contracting

may be used when it is determined by the executive director that a contractor (including a particular subcontractor trade) is needed subject to the following:

(i) it is determined that the design assist contractor (DAC) has a unique knowledge of a material or product that warrants the interaction of the DAC early on with the designer;

(ii) the DAC will be providing construction estimates, details and documents as well as the construction or installation of materials or products into the project;

(iii) the DAC is selected through a competitive sealed proposal process where qualifications are the main criteria for selection;

(iv) the DAC will provide information to the executive director and the designer of the project as needed to define the scope of the work for a fee; and

(v) a contract may be entered with a DAC only when the proposed cost for the work is equal to or less than the budget established by the board for the project, provided that the board may increase the budget, the board/executive director may use the information provided by the DAC and initiate a procurement process for the construction or installation; or the board/executive director may reduce the scope of the work.

R131-4-502. Procurement of Design-Build Highway Project Contracts.

The board may contract with the Department of Transportation as needed for procurement of design-build transportation project contracts surrounding Capitol Hill.

R131-4-503. Bid Security Requirements.

(1) Bid security in amount equal to at least 5% of the amount of the bid shall be required for all competitive sealed bidding for construction contracts with an amount over \$50,000. The board finds that requiring a bid bond for construction contracts of \$50,000 or less is presumed not necessary to protect the state or the board, though the executive director or the board has the right on an individual contract to so require the bonds. Bid security shall be a bond in a form and from a surety company that meets the requirements of R131-4-504.

(2) When a bidder fails to comply with the requirement for bid security set forth in the invitation for bids, the bid shall be rejected unless, pursuant to R131-4, it is determined by the executive director that the failure to comply with the security requirements is nonsubstantial.

(3) After the bids are opened, they shall be irrevocable for the period specified in the invitation for bids, except as provided in R131-4-401. If a bidder is permitted to withdraw a bid before award, no action shall be taken against the bidder or the bid security. Failure to submit an acceptable bid security in connection with an invitation for bids shall be deemed nonsubstantial where only one bid is received, and there is not sufficient time to rebid the contract.

(4) When issuing an invitation for bid under R131-4, the executive director may not require a person or entity who is bidding for a contract to obtain a bond of the type referred to in Subsection (1) from a specific insurance or surety company, producer, agent, or broker.

R131-4-504. Bonds Necessary When Contract is Awarded - Waiver - Action - Attorneys' Fees.

(1) When a construction contract for an amount over \$50,000, is awarded under R131-4, the contractor to whom the contract is awarded shall deliver the following bonds or security to the executive director, which shall become binding on the parties upon the execution of the contract:

(a) a performance bond satisfactory to the executive director that is in an amount equal to 100% of the price specified in the contract and is executed by a surety company authorized to do business in this state or any other form

satisfactory to the state; and

(b) a payment bond satisfactory to the executive director that is in an amount equal to 100% of the price specified in the contract and is executed by a surety company authorized to do business in this state or any other form satisfactory to the state, which is for the protection of each person supplying labor, service, equipment, or material for the performance of the work provided for in the contract.

(2) The board finds that requiring a performance or payment bond for construction contracts of \$50,000 or less is presumed not necessary to protect the state or the board, though the executive director or the board has the right on an individual contract to so require the bonds.

(3) If a contractor fails to deliver the required bonds, the contractor's bid shall be found nonresponsive and its bid security shall be forfeited.

(4) Forms of Bonds. Bid bonds, payment bonds and performance bonds must be from sureties meeting the requirements of this rule and must be on the exact bond forms most recently adopted by the board and on file with the board.

(5) Surety firm requirements. All surety firms must be authorized to do business in the state of Utah and be listed in the U.S. Department of the Treasury Circular 570, Companies Holding Certificates of Authority as Acceptable Securities on Federal Bonds and as Acceptable Reinsuring Companies for an amount not less than the amount of the bond to be issued. A co-surety may be utilized to satisfy this requirement.

(6) Waiver. The executive director may waive the bonding requirement if the executive director finds that bonds cannot be reasonably obtained for the work involved and, after seeking advice from the attorney general, that such bonds are not necessary to protect the board or the state, which finding shall be documented in the project files.

(7) A person shall have a right of action on a payment bond in accordance with Section 63G-6-505.

R131-4-505. Preliminary Notice Requirement.

(1) Any person furnishing labor, service, equipment, or material for which a payment bond claim may be made under R131-4, shall provide preliminary notice to the designated agent as prescribed by Section 38-1-32, except that this preliminary notice requirement shall not apply:

(a) to a person performing labor for wages; or

(b) if a notice of commencement is not filed as prescribed in Section 38-1-31 for the project or improvement for which labor, service, equipment or material is furnished.

(2) Any person who fails to provide the preliminary notice required by Subsection (1) may not make a payment bond claim under the Utah Procurement Code or R131-4.

(3) The preliminary notice required by Subsection (1) must be provided prior to commencement of any action on the payment bond.

R131-4-506. Form of Bonds - Effect of Certified Copy.

The form of the bonds shall be as required in R131-4-503 and R131-4-504 above. Any person may obtain from the executive director a certified copy of a bond upon payment of the cost of reproduction of the bond and postage, if any. A certified copy of a bond shall be prima facie evidence of the contents, execution, and delivery of the original.

R131-4-507. Qualifications of Contractors.

(1) Pre-Bidding Requirements. The following documents must be on file with the board before the bidding documents for a project may be issued to prospective bidders.

(a) If the type of work involved with the project requires a contractor's license, a photocopy of the bidder's current Utah contractor's license showing date issued, expiration date, bid limit amount or similar restriction, and the class of work for

which licensed;(b) A statement from the bidder's surety stating that it will bond the bidder for an amount at least equal to the estimated cost of the contract as determined by the executive director. This requirement can be met by having the surety file an annual statement with the board showing the bonding limit it has established for the bidder.

(2) A form of surety statement and, when applicable, a form for prequalification, are available at the principal office of the board.

(3) Project Specific Requirements. The board may include additional qualification requirements in the solicitation documents as may be appropriate for a specific project.

R131-4-601. Construction Contract Clauses.

(1) Required Contract Clauses. Pursuant to Section 63G-6-601, the document entitled "Required Construction Contract Clauses", dated March 28, 2001 and on file with the executive director, is hereby incorporated by reference. Except as provided in this rule, the executive director shall include some or all of these clauses in all construction contracts for more than \$50,000.

(2) Revisions to Contract Clauses. The executive director may modify the clauses for inclusion in any particular contract. The clauses required by this Section may be modified for use in any particular contract when, pursuant to this rule, the executive director makes a written determination describing the circumstances justifying the variation or variations. Notice of any material variations from the contract clauses required by this Section shall be included in any invitation for bids or request for proposals. Any variations shall be supported by a written determination by the executive director that describes the circumstances justifying the variations, and notice of any material variation shall be included in the invitation for bids or request for proposals.

R131-4-602. Certification of Change Order.

Under a construction contract, any change order which increases the contract amount shall be subject to prior written certification that the change order is within the determined project or contract budget. The certification shall be made by the executive director. If the certification discloses a resulting increase in the total project or contract budget, the executive director shall not execute or make the change order unless sufficient funds are available or the scope of the project or contract is adjusted to permit the degree of completion feasible within the total project or contract budget as it existed prior to the change order under consideration. R131-4-803. Costs to or Against Protestor.

(1) When a protest is sustained administratively or upon administrative or judicial review and the protesting bidder or offeror should have been awarded the contract under the solicitation but is not, the protestor shall be entitled to the following relief as a claim against the state:

The debarment shall not be for a period exceeding three years. The executive director, after consultation with the attorney general and any applicable using agency, shall have authority to suspend a person from consideration for award of contracts if there is probable cause to believe that the person has engaged in any activity which might lead to debarment. The suspension shall not be for a period exceeding three months unless an indictment has been issued for an offense which would be a cause for

debarment under Subsection (2) of R131-4-804, in which case the suspension shall, at the request of the attorney general, remain in effect until after the trial of the suspended person.

(2) The causes for debarment include the following:

The board/executive director is authorized, prior to commencement of an action in court concerning the controversy, to settle and resolve a controversy which arises between the board/executive director and a contractor under or by virtue of a contract between them. This includes, without limitation, controversies based upon breach of contract, mistakes, misrepresentation, or other cause for contract modification or rescission.

R131-4-806. Decisions of Executive Director to be in Writing - Effect of no Writing.

(1) The executive director, or board if determined by the board, shall promptly issue a written decision regarding any protest, debarment or suspension, or contract controversy if it is not settled by a mutual agreement. The board recognizes the jurisdictional provisions of Section 63G-6-815 regarding the district court.

The board recognizes Section 63G-6-819 as being applicable and therefore, if after an award it is determined administratively or upon administrative or judicial review that a solicitation or award of a contract is in violation of law:

(1) If the person awarded the contract has not acted fraudulently or in bad faith:

(a) The contract may be ratified and affirmed if it is determined that doing so is in the best interests of the state; or

fraudulently or in bad faith:

(a) The contract may be declared null and void; or

(i) If an existing notice of commencement is identified the following procedures apply:

(A) For an electronic filing by the person attempting to file the new notice of commencement, the SCR shall indicate that a notice of commencement may have already been filed for the project and display the possible notice or notices of commencement that may match the existing project filing. The SCR shall allow the user to review the content of any existing notices to determine whether a notice has already been filed for the project before allowing a new notice to be filed.

The purpose of this requirement is to enable the person to properly identify any existing notice of commencement before a new notice of commencement is created, to avoid duplicate notice of commencement filings.

(iii) If no existing notice of commencement is identified for the particular project, the SCR shall allow the person who submitted the filing to file a new notice of commencement.

The SCR shall include functionality to allow a person who has successfully filed, amended or corrected a notice of commencement which duplicates another notice of commencement already in the SCR to merge the notice of commencement with the existing notice of commencement filing.

(i) The SCR shall reflect the effective date of the merger.

(ii) The SCR shall provide notification of the merger to all persons who are associated with either notice of commencement filing, including those who have filed preliminary notices.

(f) Resolving Multiple or Inconsistent Property Descriptions.

(i) The person making a notice of commencement filing shall be responsible for correctly identifying a project, and for the consequences of failing to correctly identify a project.

(ii) Neither the Division nor the designated agent shall be responsible for the consequences of a person making a notice of commencement filing that identifies a project in such a way that the SCR is unable to identify an existing notice of commencement for the project, according to the search criteria

established by the Division in collaboration with the designated agent, nor for the SCR allowing the person to make a successful duplicate notice of commencement filing with a different description of the project.

R156-38b-502. Preliminary Notices.

(1) A person who wishes to file a preliminary notice may authorize a third party to file the notice on the person's behalf, as established in Subsection 38-1-27(9).

(6) Offers made in reliance on this rule will not result in a violation of Section 61-1-7 by virtue of being integrated with subsequent offers or sales of securities unless such subsequent offers and sales would be integrated under federal securities laws.

(7) Issuers on whose behalf indications of interest are solicited under this rule may not make offers or sales in reliance on Subsections 61-1-14(2)(i), 61-1-14(2)(n) or 61-1-14(2)(q) until six (6) months after the last communication with a prospective investor made pursuant to this rule.

R277-472-2. Authority and Purpose.

A. This rule is authorized under Utah Constitution Article X, Section 3 which vests general control and supervision over public education in the Board, Section 53A-1a-506.5(2) which directs the Board to make rules for students transferring between charter schools and district schools and enrolling and withdrawing from charter schools, and Section 53A-1-401(3) which allows the Board to adopt rules in accordance with its responsibilities.

B. The purpose of this rule is to provide procedures for students transferring between district public schools and charter schools; to define capacity in district public schools to allow for transfers into district schools from charter schools; to provide notice to parents and students of schools that have space available.

R277-472-3. Class Size Calculations.

A. Elementary class size: Each school district (or school as determined by the school district) shall calculate an average class size for each grade level. This calculation shall be derived from the total number of students in a given grade divided by the number of full time licensed teachers assigned to that grade.

(1) Students assigned to multiple grade level classes (and their respectively assigned teachers) shall not be counted in determining average class size for a grade level.

(2) Elementary classes that group students in programs other than by grade level, such as gifted and talented or English Language Learner programs, shall be calculated as a class if students participate for the entire instructional day.

(a) If students participate in special programs for part of the school day, they must be counted as part of their age-appropriate grade level (together with respective teachers) for purposes of this calculation.

(b) If multiple classes of special programs exist (including self-contained special education classes), an average class size for special programs must be determined-consistent with state, federal and program standards.

B. Elementary school size: Each school district (or school) shall calculate a school-wide average class size by dividing the total full time teachers assigned to direct teaching situations by the total number of students receiving instruction.

(1) Self-contained special education students and teachers shall not be included in this calculation.

(2) All other special education students and teachers shall be included.

C. Secondary average class size: Each school district (or secondary school as determined by the district) shall calculate an average class size for each language arts, mathematics and science course that is taught multiple times during a typical school day by dividing the total number of full time teachers assigned to direct teaching situations by the total number of students enrolled.

(1) Self-contained special education students and teachers shall not be included in this calculation.

(2) All special education students, other than full-time self-contained students, shall be included in the calculation.

D. District average: Each school district shall calculate the district-wide average class size for each grade level, each elementary program that enrolls students across grade levels and for each language arts, mathematics, and science course.

(1) The calculation shall be determined by dividing the total number of full time teachers (FTEs) assigned to direct teaching situations by the total number of fully enrolled students.

(2) All calculations shall be made using October 1 enrollment and employment data.

E. In a school district with only one elementary or secondary school, or only one class of any subject or grade level, the average class size may be calculated for an entire school or the entire school district by averaging all the classes in the school or the school district. The school district may then determine that any class size less than the school district or school average class size is below capacity.

R277-472-4. School District School Capacity Information.

A. School districts shall provide and post the following information to facilitate transfer of students on school district or school websites:

(1) Elementary schools within the school district that are below capacity and available for transfer students;

(2) Grade levels and special programs within elementary schools that are below capacity and available for transfer students;

(3) Secondary schools that are below capacity and available for transfer students based on calculated capacity of language arts, science and mathematics; and

(4) Special programs within secondary schools that are below capacity and available for transfer students.

B. Below capacity standards for individual schools, grade levels, courses or programs do not apply if a school has documentation that the school community council in a public meeting has designated more than one-half of a school's school LAND trust annual allotment to reduce class size in a specific school, grade level, program or course.

R277-472-5. Application Procedures for Students Entering and Exiting Charter Schools.

A. Each charter school shall post on its website information and procedures required under Section 53A-1a-506.5(2).

- (6) A readily accessible transfer form; and
- (7) Assurance and parent signature that student has been admitted to only one charter school.

R277-472-6. Enrollment of Transferring Charter School Students in District Schools.

A. A school district shall enroll a student who is a resident of a school district, who desires to transfer from a charter school to the resident school after June 30 and who submits enrollment information consistent with all school district students in a district school that is below capacity.

B. A school district shall not require enrollment procedures or forms from students moving from a charter school to a district school that differ in any way from enrollment procedures/forms required for district students if the charter school students are leaving a charter school after the final grade level offered by the charter school.

C. Students who are transferring from a charter school to a district school after June 30 for the upcoming school year are limited to schools, grade levels, programs and courses that have space available or are below capacity at the district schools.

D. Parents/Students who are enrolled at charter schools and are seeking enrollment at district schools should check with the school district office (or school principal if designated by the school district) for official current capacity information about schools, grade levels, programs or courses before leaving a charter school and forfeiting a charter school enrollment right.

E. A change in location for a student with disabilities may not result in a change of placement as determined by the student's IEP and consistent with the Individuals with Disabilities Education Act (IDEA), 20 U.S.C. 1400, Part B.

F. Consistent with Section 53A-11-904(3), students may be denied enrollment in a public school if they have been expelled from a public school.

R277-600-2. Authority and Purpose.

A. This rule is authorized under Utah Constitution Article X, Section 3 which vests general control and supervision over public schools in the Board, by Section 53A-1-402(1)(d) which directs the Board to establish rules for bus routes, bus safety and other transportation needs and by Section 53A-17a-126 and 127 which provides for distribution of funds for transportation of public school students and standards for eligibility.

B. The purpose of this rule is to specify the standards under which school districts may qualify for state transportation funds.

R277-600-3. General Provisions.

A. State transportation funds are used to reimburse school districts for the costs reasonably related to transporting students to and from school. The Board defines the limits of school district transportation costs reimbursable by state funds in a manner that encourages safety, economy, and efficiency.

B. Allowable transportation costs are divided into two categories. Expenditures for regular bus routes established by the school district, and approved by the state, are A category costs. Other methods of transporting students to and from

school are B category costs. The Board devises a formula to determine the reimbursement rate for A category costs consistent with Section 53A-17a-127(3). B category costs are approved on a line-by-line basis by the USOE after comparing the costs submitted by a school district with the costs of alternative methods of performing the designated function(s) and subject to adjustment per legislative appropriation.

C. The USOE shall develop a uniform accounting procedure for the financial reporting of transportation costs. The procedure shall specify the methods used to calculate allowable transportation costs. The USOE shall also develop uniform forms for the administration of the program.

D. All student transportation costs are recorded. Accurate mileage, minute, and trip records are kept by program. Records and financial worksheets shall be maintained during the fiscal year for audit purposes.

R277-600-4. Eligibility.

A. State transportation funds shall be used only for transporting eligible students.

B. Transportation eligibility for elementary students (K-6) and secondary students (7-12) is determined in accordance with the mileage from home specified in Section 53A-17a-127(1) and (2) to the school attended by assignment of the local board.

C. A student whose IEP identifies transportation as a necessary service is eligible for transportation regardless of distance from the school attended by assignment of the local board.

D. Students who attend school for at least one-half day at an alternate location are expected to walk distances up to 1 and one half miles.

E. A school district that implements double sessions as an alternative to new building construction may transport, one-way to or from school, with Board approval, affected elementary students residing less than one and one-half miles from school, if the local board determines the transportation would improve safety affected by darkness or other hazardous conditions.

F. The distance from home to school is determined as follows: From the center of the public route (road, thoroughfare, walkway, or highway) open to public use, opposite the regular entrance of the one where the pupil is living, over the nearest public route (thoroughfare, road, walkway, or highway) open regularly for use by the public, to the center of the public route (thoroughfare, road, walkway, or highway) open to public use, opposite the nearest public entrance to the school grounds which the student is attending.

R277-600-5. Student with Disabilities Transportation.

A. Students with disabilities are transported on regular buses and regular routes whenever possible. School districts may request approval, prior to providing transportation, for reimbursement for transporting students with disabilities who cannot be safely transported on regular school bus runs.

B. School districts may be reimbursed for the costs of transporting or for alternative transportation for students with disabilities whose severity of disability, or combination of disabilities, necessitates special transportation.

C. Transportation is provided by the Utah Schools for the Deaf and the Blind for students who are transported to its self-contained classes. Exceptions may be approved by the USOE.

R277-600-6. Bus Route Approval.

A. Transportation is over routes proposed by local boards and approved by the USOE. Information requested by the USOE shall be provided prior to approval of a route. A route usually is not approved for reimbursement if an equitable student transportation allowance or a subsistence allowance accomplishes the needed transportation at less cost. A route shall:

(1) traverse the most direct public route;
 (2) be reasonably cost effective related to other feasible alternatives;

(3) provide adequate safety;

(4) traverse roads that are constructed and maintained in a manner that does not cause property damage; and

(5) include an economically adequate number of students.

B. The minimum number of general education students required to establish a route is ten; the minimum number of students with disabilities is five. A route may be established for fewer students upon special permission of the State Superintendent.

C. The school district designates safe areas for bus stops.

(1) To promote efficiency, the USOE approved minimum distance between bus stops is 3/10 of a mile. The USOE may approve shorter distances between bus stops for student safety.

(2) Bus routes shall avoid, whenever possible, bus stops on dead-end roads.

(3) Students are responsible for their own transportation to bus stops up to one and one-half miles from home.

(4) Special education students are responsible for their own transportation to bus stops consistent with their IEPs.

D. Changes made by school districts in existing routes or the addition of new routes shall be reported to the USOE as they occur. The USOE shall review and may refuse to fund route changes as applicable.

E. Transporting eligible students home after school activities held at the students' school of regular attendance and within a reasonable time period after the close of the regular school day is approved route mileage.

G. A route may be approved as an alternative to building construction upon special permission of the USOE if the route is needed to allow more efficient school district use of school facilities. Building construction alternatives include elementary double sessions, year-round school, and attendance across school district boundaries.

H.(1) School districts may use State Guarantee Transportation Levy or local transportation funds to transport students across state lines or out-of-state for school sponsored activities or required field trips if:

(a) the local board has a policy that includes approval of trips at the appropriate administrative level;

(b) the school or school district has considered the purpose of the trip or activity and any competing risk or liability;

(c) given the distance, purpose and length of the trip, the school district has determined that the use of a publicly owned school bus is most appropriate for the trip or activity; and

(d) the local board has consulted with State Risk Management.

(2) If school bus routes transport students across Utah state lines or outside of Utah for required to and from routes, routes are reimbursable providing school districts maintain documentation that the routes are necessary, or are more cost-effective, or provide greater safety for students than in-state routes.

R277-600-7. Alternative Transportation.

Bus routes that involve a large number of deadhead miles are analyzed for reduction or to determine if an alternative method of transporting students is more efficient. Approved alternatives include the following:

A. The costs incurred in transporting eligible pupils in a school district M.P.V. are approved costs as long as the costs demonstrate efficiency.

B(1) The costs incurred in paying eligible students an allowance in lieu of school district-supplied transportation are an approved cost. A student is reimbursed for the mileage to the bus stop or school, whichever is closer, nearest the student's home. The allowance shall not be less than the standard

mileage rate deduction permitted by the United States Internal Revenue Service for charitable contributions, nor greater than the reimbursement allowance permitted by the Utah Department of Administrative Services for use of privately owned vehicles set forth in the Utah Travel Regulations;

(2) a student allowance is made to the student and not to the parent for transporting one's own child or other students. This does not restrict parents from pooling resources;

(3) if a student or the student's parent is unable to provide private transportation, with prior state approval, an amount equivalent to the student allowance is payable to the school district to help pay the costs of school district transportation;

(4) the student's mileage shall be measured and certified in school district records. The student's ADA, as entered in school records, is used to determine the student's attendance.

C(1) The cost incurred in providing a subsistence allowance is an approved cost. A parent is reimbursed for a student's room and board when a student lives at a site nearer to the assigned school, if the student does not have a school facility or bus service available within approximately 60 miles of the student's residence. Payment shall not exceed the Substitute Care Rate for Family Services for the current fiscal year. Adjustments for changes made in the rate during the year are included in the allowance. In addition to the reimbursement for room and board, the subsistence allowance includes the costs of two round trips per year.

(2) A subsistence allowance is not applicable to a parent who maintains a separate home during the school year for the convenience of the family. A parent's residence during the school year is the residence of the child.

D. Contracting or leasing for pupil transportation

(1) The cost incurred in engaging in a contract or leasing for transportation is an approved cost at the prorated amount available to school districts.

(2) Reimbursements for school districts using a leasing arrangement are determined in accordance with the comparable cost for the school district to operate its own transportation.

(3) Under a contract or lease, the school district's transportation administrator's time shall not exceed one percent of the commercial contract cost.

(4) Eligible student counts, bus route mileage, bus route minutes, and bus inventory data are required as if the school district operated its own transportation.

R277-600-8. Other Reimbursable Expenses.

State transportation funds at the USOE determined prorated amount may be used to reimburse a school district for the following costs:

A. Salaries of clerks, secretaries, trainers, drivers, a supervisor, mechanics and other personnel necessary to operate the transportation program:

(1) a full time supervisor may be paid at the same rate as other professional directors in the school district. The supervisor's salary shall be commensurate with the number of buses, number of eligible students transported, and total responsibility relative to other school district supervisory functions. A school district may claim a percentage of the school district superintendent's or other supervisor's salary for reimbursement if the school district's eligibility count is less than 600 and a verifiable record of administrative time spent in the transportation operation is kept;

(2) The wage time for bus drivers includes to and from school time: ten minute pre-trip inspection, actual driving time, ten minute post-trip inspection and bus cleanup, and 10 minute bus servicing and fueling;

B. Only a proportionate amount of a superintendent's or supervisor's employee benefits (health, accident, life insurance) may be paid from the school district's transportation fund;

C. Purchased property services;

- D. Property, comprehensive, and liability insurance;
- E. Communication expenses and travel for supervisors to workshops or the national convention;
- F. Supplies and materials for vehicles, the school district transportation office and the garage;
- G. Depreciation: The USOE computes an annual formula for school bus depreciation;
- H. Training expenses to complete bus driver instruction and certification required by the Board; and
- I. Other related costs approved by the USOE which may include additional bus driver training.

R277-600-9. Non-reimbursable Expenses.

A. AFR for all pupil transportation costs shall only include pupil transportation costs and other school district expenditures directly related to pupil transportation.

B. Expenditures for uses of school district buses and equipment which are not approved APR to and from school pupil transportation costs shall be deleted when transportation costs are calculated. Bus and equipment costs shall be reduced on a pro rata basis for the miles not connected with approved costs.

C. Expenses determined by the USOE to be not directly related to transportation of eligible students to and from school are not reimbursable.

D. Local boards may determine appropriate non-school uses of school buses. Local boards may lease/rent public school buses to federal, state, county, or municipal entities, and those insured by State Risk Management or to non-government entities or to those not insured through State Risk Management. In making these determinations, local boards shall:

- (1) require full cost reimbursement for any non-public school use including:
 - (a) cost per mile;
 - (b) cost per minute;
 - (c) bus depreciation.
- (2) require documentation from the non-school user of insurance through State Risk Management or private insurance coverage and a fully executed agreement for full release of indemnification;
- (3) require that any non-school use is revenue neutral; and
- (4) consult with State Risk Management to determine adequacy of documentation of insurance and indemnity for any entity requesting use or rental of publicly owned school buses.

E. If a non-governmental entity or an entity not insured through State Risk Management requests the use of school bus(es), the use shall be approved by a local board in an open board meeting.

F. In the event of an emergency, local, regional, state or federal authorities may request the use of school buses or school bus drivers or both for the period of the emergency. The local board shall grant the request so long as the use can be accommodated consistent with continuing student safety and transportation requirements.

R277-600-10. Special Transportation Levy.

A. Costs for school district transportation of students which are not reimbursable may be paid for from general funds of the school district or from the proceeds of a tax rate authorized for school districts. The tax rate authorized for transportation may not exceed .0003 tax rate. The revenue may be used for transporting students and for the replacement of school buses.

B. Transportation of students in areas where walking constitutes a hazardous condition, as determined by the local board, may be provided from general funds from the school district or from the tax specified in R277-600-10A. Hazardous areas shall be determined by an analysis of the following factors:

- (1) volume, type, and speed of vehicular traffic;
- (2) age and condition of students traversing the area;
- (3) condition of the roadway, sidewalks and applicable means of access in the area; and
- (4) environmental conditions.

C(1) The cost of school bus operation for interscholastic activities and educational field trips approved by a school board, and for the transportation of students to alleviate hazardous walking conditions may be met with state funds appropriated under Section 53A-17a-127(6) only to the extent of funds available to individual school districts.

(2) Appropriated funds under Section 53A-17a-127(6) shall be distributed according to each school district's proportional share of its qualifying state contribution.

(3) The qualifying state contribution for school districts shall be the difference between 85 percent of the average state cost per qualifying mile multiplied by the number of qualifying miles and the current funds raised per school district by a transportation levy of .0002.

R277-600-11. Exceptions.

A. When undue hardships and inequities are created through exact application of these standards, school districts may request an exception to these rules from the State Superintendent on individual cases. Such hardships or inequities may include written evidence demonstrating that no significant increased costs (less than one percent of a school district's transportation budget) is incurred due to a waiver or that students cannot be provided services consistent with the law due to transportation restrictions. The State Superintendent may consult with the Pupil Transportation Advisory Committee, designated in Section 53A-17a-127(5), in considering the exemption.

B(1) a school district shall not be penalized in the computation of its state allocation for the presence on an approved to and from school route of an ineligible student who does not create an appreciable increase in the cost of the route;

(2) there is an appreciable increase in cost if, because of the presence of ineligible students, any of the following occurs:

- (a) another route is required;
- (b) a larger or additional bus is required;
- (c) a route's mileage is increased;
- (d) the number of pick-up points below the mileage limits for eligible students exceeds one;
- (e) significant additional time is required to complete a route.

(3) ineligible students may ride buses on a space available basis. An eligible student may not be displaced or required to stand in order to make room for an ineligible student.

R414-1-14. Utilization Control.

(1) The Medicaid agency has implemented a statewide program of surveillance and utilization control that safeguards against unnecessary or inappropriate use of Medicaid services

available under the plan. The plan also safeguards against excess payments, assesses the quality of services, and provides for control and utilization of inpatient services as outlined in the Superior Utilization Waiver state implementation plan. The program meets the requirements of 42 CFR Part 456.

(2) In order to control utilization, and in accordance with 42 CFR 440.230(d), services, equipment, or supplies not specifically identified by the Department as covered services under the Medicaid program, are not a covered benefit.

(4) The Medicaid agency may request records that support provider claims for payment under programs funded through the agency. Such requests must be in writing and identify the records to be reviewed. Responses to requests must be returned within 30 days of the date of the request. Responses must include the complete record of all services for which reimbursement is claimed and all supporting services. If there is no response within the 30 day period, the agency will close the record and will evaluate the payment based on the records available.

(5) If Medicaid pays for a service which is later determined not to be a benefit of the Utah Medicaid program or is not in compliance with state or federal policies and regulations, Medicaid will make a written request for a refund of the payment. Unless appealed, the refund must be made to Medicaid within 30 days of written notification. An appeal of this determination must be filed within 30 days of written notification as specified in R410-14-6.

(6) Reimbursement for services provided through the Medicaid program must be verified by adequate records. If these services cannot be properly verified, or when a provider refuses to provide or grant access to records, either the provider must promptly refund to the state any payments received for the undocumented services, or the state may elect to deduct an equal amount from future reimbursements. If the Department suspects fraud, it may refer cases for which records are not provided to the Medicaid Fraud Control Unit for additional investigation and possible action.

R414-1-15. Medicaid Fraud.

The Medicaid agency has established and will maintain methods, criteria, and procedures that meet all requirements of 42 CFR 455.13 through 455.21 for prevention and control of program fraud and abuse.

The agreement defines the relationships and respective responsibilities of the agencies.

In accordance with 42 CFR 431.18, the state office, local offices, and all district offices of the Department maintain program manuals and other policy issuances that affect recipients, providers, and the public. These offices also maintain the Medicaid agency's rules governing eligibility, need, amount of assistance, recipient rights and responsibilities, and services. These manuals, policy issuances, and rules are available for examination and, upon request, are available to individuals for review, study, or reproduction.

(5) Service Coverage. Detail of specific services available under the rule, including limitations, such as number of procedures in a given period of time or otherwise.

(6) Prior Authorization. As necessary, a description of the procedures for obtaining prior authorization for services available under the particular rule. However, prior authorization must not be used as a substitute for regulatory practice that should be in rule.

(1) This rule outlines targeted case management services provided to individuals with serious mental illness to assist in gaining access to needed medical, educational, social, and other services.

(2) This rule implements 42 USC 1396n(g), which authorizes targeted case management services and is authorized under UCA 26-18-3.

R414-33D-2. Definitions.

"Serious mental illness" means a serious and often persistent mental illness in an adult or a serious emotional disorder in a child that severely limits the individual's welfare and development or functioning.

R414-33D-3. Client Eligibility Requirements.

Targeted case management is available for individuals with serious mental illness who are categorically or medically needy.

R414-33D-4. Program Access Requirements.

(1) Targeted case management is provided to individuals with serious mental illness for whom a case management needs assessment completed by a qualified targeted case manager documents that:

(a) the individual requires a comprehensive coordinated system of care and treatment or services from a variety of agencies and providers to meet his documented medical, social, educational, and other needs; and

(b) there is reasonable indication that the individual will access needed services only if assisted by a qualified targeted case manager who in accordance with an individualized case management service plan, locates, coordinates, and regularly monitors the service.

(2) Targeted case management services are at the option of the individual in the target population.

(3) Targeted case management services may not restrict an individual's free choice of providers of case management services or other Medicaid services.

R414-33D-5. Service Coverage.

(1) Medicaid covers:

(a) client assessment to determine service needs, including activities that focus on needs identification to determine the need for any medical, educational, social, or other services. Assessment activities include taking client history, identifying the needs of the client and completing related documentation, gathering information from other sources such as family members, medical providers, social workers, and educators, if necessary, to form a complete assessment of the client;

(b) development of a written, individualized, and coordinated case management service plan based on information collected through an assessment that specifies the goals and actions to address the client's medical, social, educational and other service needs. This includes input from the client, the client's authorized health care decision maker, family, and other agencies knowledgeable about the client, to develop goals and identify a course of action to respond to the client's assessed needs;

(c) referral and related activities to help the client obtain needed services, including activities that help link the client with medical, social, educational providers or other programs and services that are capable of providing needed services, such as making referrals to providers for needed services and scheduling appointments for the client;

(d) coordinating the delivery of services to the client, including CHEC screening and follow-up;

(e) client assistance to establish and maintain eligibility for entitlements other than Medicaid;

(f) monitoring and follow-up activities, including activities and contacts that are necessary to ensure the targeted case management service plan is effectively implemented and adequately addressing the needs of the client, which activities may be with the client, family members, providers or other entities, and conducted as frequently as necessary to help determine whether services are furnished in accordance with the client's case management service plan, whether the services in the case management service plan are adequate, whether there are changes in the needs or status of the client, and if so, making necessary adjustments in the case management service plan and service arrangements with providers;

(g) contacting non-eligible or non-targeted individuals when the purpose of the contact is directly related to the management of the eligible individual's care. For example, family members may be able to help identify needs and supports, assist the client to obtain services, and provide case managers with useful feedback to alert them to changes in the client's status or needs;

(h) instructing the client or caretaker, as appropriate, in independently accessing needed services; and

(i) monitoring the client's progress and continued need for targeted case management and other services.

(2) The agency may bill Medicaid for the above activities only if:

(a) the activities are identified in the case management service plan and the time spent in the activity involves a face-to-face encounter, telephone or written communication with the client, family, caretaker, service provider, or other individual with a direct involvement in providing or assuring the client obtains the necessary services documented in the service plan; and

(b) there are no other third parties liable to pay for services, including reimbursement under a medical, social, educational, or other program.

(3) Covered case management service provided to a hospital or nursing facility patient is limited to a maximum of five hours per admission in the 30-day period before the patient's discharge into the community. This provision does not apply to a patient who resides in the Utah State Hospital.

(4) Medicaid does not cover:

(a) documenting targeted case management services with the exception of time spent developing the written case management needs assessment, service plans, and 180-day service plan reviews;

(b) teaching, tutoring, training, instructing, or educating the client or others, except when the activity is specifically designed to assist the client, parent, or caretaker to independently obtain client services. For example, Medicaid does not cover client assistance in completing a homework assignment or instructing a client or family member on nutrition, budgeting, cooking, parenting skills, or other skills development;

(c) directly assisting with personal care or daily living activities that include bathing, hair or skin care, eating, shopping, laundry, home repairs, apartment hunting, moving residences, or acting as a protective payee;

(d) routine courier services. For example, running errands or picking up and delivering food stamps or entitlement checks;

(e) direct delivery of an underlying medical, educational, social, or other service to which an eligible individual has been referred. For example, providing medical and psychosocial evaluations, treatment, therapy and counseling, otherwise billable to Medicaid under other categories of service;

(f) direct delivery of foster care services that include

research gathering and completion of documentation, assessing adoption placements, recruiting or interviewing potential foster care placements, serving legal papers, home investigations, providing transportation, administering foster care subsidies, or making foster care placement arrangements;

(g) traveling to the client's home or other location where a covered case management activity occurs, nor time spent transporting a client or a client's family member;

(h) services for or on behalf of a non-Medicaid eligible or a non-targeted individual if services relate directly to the identification and management of the non-eligible or non-targeted individual's needs and care. For example, Medicaid does not cover counseling the client's sibling or helping the client's parent obtain a mental health service;

(i) activities for the proper and efficient administration of the Medicaid State Plan that include client assistance to establish and maintain Medicaid eligibility. For example, locating, completing and delivering documents to a Medicaid eligibility worker;

(j) recruitment activities in which the mental health center or case manager attempts to contact potential service recipients;

(k) time spent assisting the client to gather evidence for a Medicaid hearing or participating in a hearing as a witness; and

(l) time spent coordinating between case management team members for a client.

(2) an individual working toward licensure in one of the professions identified in subsection (1) to the extent permitted by Utah Code Title 58; or

(3) a licensed practical nurse or a non-licensed individual who has met the State Division of Substance Abuse and Mental Health's training standards for case managers and who is working under the supervision of one of the individuals identified in subsection (1) or (2).

R414-33D-7. Reimbursement Methodology.

(1) For fee-for-service community mental health centers, the Department pays the lower of the amount billed or the rate on the mental health center's fee schedule. The fee schedule was initially established after consultation with provider representatives. A provider shall not charge the Department a fee that exceeds the provider's usual and customary charges for the provider's private-pay patients.

(2) For capitated community mental health centers, the Department pays monthly premiums to the centers for all mental health services, including targeted case management.

 - (2) Priority of the referral.
 - (a) Child and Family Services establishes CPS priority time frames as follows:
 - (i) A Priority 1 response shall be assigned when the child referred is in need of immediate protection. Intake will begin to collect information immediately after the completion of the initial contact from the referent. As soon as possible thereafter, Intake will obtain additional information, staff the referral to determine the priority, notify law enforcement, and assign to the Child and Family Services CPS worker. Intake shall provide the Child and Family Services CPS worker with information concerning prior investigations on SAFE. The Child and Family Services CPS worker has as a standard of 60 minutes from the time Intake notifies the worker to initiate efforts to make face-to-face contact with an alleged victim. For a Priority 1R (rural) referral, a Child and Family Services CPS worker has, as a standard, three hours to initiate efforts to make face-to-face contact if the alleged victim is more than 40 miles from the investigator who is assigned to make the face-to-face contact.

Intake will begin to collect information as soon as possible after the completion of the initial contact from the referent. As soon as possible Intake will obtain additional information, staff the referral to determine the priority, assign the referral to the Child and Family Services CPS worker, and notify law enforcement.  - (iii) A Priority 3 response shall be assigned when potential

for further harm to the child and the loss of physical evidence is low. Prior to transferring the case to a Child and Family Services CPS worker, Intake will obtain additional information, research data sources, staff the referral as necessary, determine the priority, complete documentation including data entry, make disposition to CPS, and notify law enforcement. Intake shall also provide the Child and Family Services CPS worker with information concerning prior investigations on SAFE. The Child and Family Services CPS worker will make the face-to-face contact with the alleged victim within a reasonable period of time.

(3) If Child and Family Services received a report concerning a runaway child, Intake will gather information to determine if there is an allegation of abuse, neglect, or dependency that requires a CPS referral or will refer the caller to contact a youth services agency in accordance with Section 62A-4a-501.

(4) Out-of-State Abuse or Neglect Report.

(a) Child and Family Services will take reasonable steps to ensure that reports of abuse or neglect are referred for investigation to the appropriate out-of-state agency and shall take reasonable steps to adequately protect children in Utah who were victims of abuse in another state or country from the alleged perpetrator.

The Child and Family Services CPS worker completing the investigation shall review the case with the Attorney General's Office for assistance with jurisdictional issues.

(5) When a referent identifies an incident of abuse or neglect that occurred in Utah, and the child is not in Utah at the time of the referral, the Intake worker shall:

(a) Obtain all the information needed to complete a referral.

(b) Determine the location of the child and the length of time the child will be at their current location. If the child will be outside the state of Utah longer than 30 days, a request for courtesy casework will be made in the state where the child is currently located.

(c) If the child is determined to be at risk, a request will be made for courtesy casework within the priority time frame.

(6) The Department of Health Child Care Licensing unit and/or the Department of Human Services Office of Licensing and appropriate Child and Family Services staff shall be notified by Intake when Child and Family Services receives a referral for an allegation of child abuse, neglect, or dependency against a licensed child care provider or out-of-home care provider. R628. Money Management Council, Administration.**R628-13. Collateralization of Public Funds.****R628-13-1. Authority.**

This rule is issued pursuant to Sections 51-7-18.1(5).

R628-13-2. Scope.

This rule applies to all qualified depositories required to pledge collateral security for public funds.

R628-13-3. Purpose.

The purpose of this rule is to establish the requirements for pledging of collateral security to insure that public treasurers have a perfected security interest in the collateral security pledged, to define the conditions under which the Council may require the pledging of collateral security in lieu of relinquishment of deposits in excess of the maximum amount a qualified depository may hold under the Money Management Act and the rules of the Council, and to impose restrictions on a qualified depository which is required to pledge collateral security for the public deposits which it holds.

R628-13-4. Definitions.

A. Deposits means balances due to persons having an account at the qualified depository institution whether in the form of a transaction account, savings account, share account, or certificate of deposit and repurchase agreements other than qualifying repurchase agreements.

B. Designated trustee means the trustee selected to serve as the agent of the State Treasurer to hold and administer collateral security pledged for public funds.

C. Eligible collateral means obligations of or fully guaranteed by the United States or its agencies as to principal and interest, a segregated earmarked deposit account, or notes, drafts, bills of exchange or bankers' acceptances that are eligible for rediscount or purchase by a federal reserve bank, obligations of the State of Utah or any of its political subdivisions, and readily marketable bonds, notes or debentures.

D. Excess deposit means that portion of the public funds held on deposit with a qualified depository by public treasurers which exceeds the most recently adopted maximum amount of public funds allowed pursuant to the Money Management Act and the rules of the Money Management Council as of the effective date of an order issued by the Commissioner of Financial Institutions pursuant to Section 51-7-18.1(6).

E. Market value means the bid or closing price listed for financial instruments in a regularly published listing or an electronic reporting service or, in the case of obligations which are not regularly traded, the bid price received from at least one registered securities broker/dealer.

F. Readily marketable bonds, notes or debentures means obligations in the form of a bond, note, or debenture rated in one of the three highest ratings of a nationally recognized rating agency; it does not include investments which are predominantly speculative in nature.

R628-13-5. General Rule.

A. Conditions Under Which Collateral Will Be Allowed

(1) The Money Management Council may vote to allow collateral security to be pledged to secure excess deposits when a qualified depository has accepted and holds public funds in excess of its public funds allotment.

(2) If the public funds allotment is reduced to one times capital, the Money Management Council may vote to allow collateral security to be pledged to secure excess deposits. The qualified depository will not be precluded or prohibited from accepting, renewing or maintaining deposits of public funds if the total amount of deposits from each public treasurer does not exceed the applicable federal deposit insurance limit.

(3) If the public funds allotment is reduced to zero, the

qualified depository will be required to pledge sufficient eligible collateral with the state treasurer's designated trustee for all uninsured deposits. The qualified depository is not precluded or prohibited from accepting, renewing or maintaining deposits of public funds when the total amount of all deposits from each public treasurer does not exceed the applicable federal deposit insurance limit.

After the effective date of any order requiring the pledging of collateral, the qualified depository may not accept, receive or renew uninsured deposits of public funds.

(4) If the amount of capital as defined in R628-11-4-A. is zero or less, the institution is no longer a qualified depository and must relinquish all deposits of public funds within 15 days of the effective date of any order issued by the Commissioner of Financial Institutions requiring relinquishment.

(5) The requirements for pledging of collateral set forth in this rule shall remain in effect until the public funds allotment has been increased to the statutory maximum or 12 months, whichever occurs first. If at the end of the 12 month period the qualified depository institution's public funds allotment has not been increased to the statutory maximum, the qualified depository shall immediately relinquish all excess deposits.

B. Delivery of Collateral

Within 15 days of the effective date of an order requiring collateralization of excess deposits in accordance with the provisions of this rule, a qualified depository shall deliver to the state treasurer or the designated trustee eligible collateral sufficient to meet the statutory collateralization requirements and shall execute a pledge agreement and trust indenture as required by the state treasurer. Collateral delivered to the state treasurer or the designated trustee may not be released until the state treasurer has received written confirmation from the Commissioner of Financial Institutions that the excess deposits have been surrendered or that the qualified depository is eligible to accept, receive and hold public funds without collateralization.

R655. Natural Resources, Water Rights.**R655-14. Administrative Procedures for Enforcement Proceedings Before the Division of Water Rights.****R655-14-1. Authority.**

(1) These rules establish procedures for enforcement adjudicative proceedings which may be commenced under Section 73-2-25. Under Subsection 73-2-1(4)(g), the State Engineer, as the Director of the Utah Division of Water Rights, is required to make rules regarding enforcement orders and the imposition of fines and penalties.

(2) The State Engineer's powers and duties include acting on behalf of the State of Utah to administer, as the agency head of the Division of Water Rights, the distribution and use of all surface and ground waters within the state in accordance with statutory authority, including but not limited to Sections 73-2-1, 73-2-1.2, and 73-2-25.

R655-14-2. Application and Preamble.

(1) These rules are applicable statewide to the use of the waters of the state. Additional rules may be promulgated to address enforcement for specific hydrologic areas.

(2) The Division may issue an Initial Order for any violation of the Water and Irrigation Code as set forth in Subsection 73-2-25(2)(a).

(3) Following the issuance of an Initial Order, the respondent may contest the Initial Order in a proceeding before the State Engineer or the appointed Presiding Officer. Enforcement adjudicative proceedings are not governed by the Utah Administrative Procedures Act as provided under Subsection 63G-4-102(2)(s) and are not governed by Rule R655-6 regarding informal proceedings before the Division of Water Rights.

(4) These rules shall be liberally construed to permit the Division to effectuate the purposes of Utah law.

R655-14-3. Purpose.

(1) These rules are intended to:

(a) Assure the protection of Utah's water and the public welfare by promoting compliance and deterring noncompliance with the statutes, rules, regulations, permits, licenses and orders administered and issued under the Division's authority by removing any economic benefit realized as a direct or indirect result of a violation; and

(b) Assure that the State Engineer assesses and imposes administrative fines and penalties lawfully, fairly, and consistently, which fines and penalties reflect:

(i) The nature and gravity of the violation and the potential for harm to Utah's water and the public welfare by the violation;

(ii) The length of time which the violation was repeated or continued; and

(iii) The additional costs which are actually expended by the Division during the course of the investigation and subsequent enforcement.

(c) Clarify the Division's authority to enforce the laws it administers under the State Engineer's supervision, and the rules, regulations, permits, and orders adopted pursuant to appropriate authority.

(2) The three elements of the statutorily provided penalties are intended to achieve different aims of equity and public policy. To achieve these aims, the following classes of penalties have been established by statute:

(a) Administrative fines are intended to remove the financial incentive of the violation by removing the economic benefit as well as imposing a punitive measure.

(b) Replacement of water is intended to make whole the resource and impacted water users, as far as this is possible, by requiring respondents to leave an amount of water undiverted or undiminished in the resource for use by others. The allowance of up to 200% replacement indicates the penalty can incorporate

a punitive element, as appropriate.

(c) Reimbursement of enforcement costs is intended to make whole the state by requiring a violator to replace the public funds expended to achieve compliance with the law.

R655-14-4. Definitions.

(1) Terms used in this rule are defined in Section 73-3-25.

(2) In addition,

(a) "Administrative Penalty" means a monetary fine or water replacement ordered by the Presiding Officer to be paid or accomplished by the respondent in response to a violation of, or a failure to comply with, a law administered by the State Engineer, or any rule, regulation, license, permit or order adopted pursuant to the State Engineer's authority.

(b) "Cease and Desist Order" (CDO) means a written order issued by the State Engineer or the Enforcement Engineer requiring a respondent to cease and desist violations and/or directing that positive steps be taken to mitigate any harm or damage arising from the violation, including a notice of administrative penalties to which a respondent may be subject. CDO's are further described in Section R655-14-11. A CDO constitutes an Initial Order (IO), whether issued alone or in conjunction with a Notice of Violation (NOV).

(c) "Consent Order" means an order issued by the Presiding Officer reflecting a stipulated and voluntary agreement between the parties concerning the resolution of an enforcement adjudicative proceeding. A Consent Order constitutes a Final Judgment and Order.

(d) "Default Order" means an order issued by the Presiding Officer after a respondent fails to participate or continue to participate in an enforcement proceeding. A Default Order constitutes a Final Judgment and Order.

(e) "Distribution Order" means a written order from the State Engineer that includes any or all of the following:

(i) An interpretation of the water rights on a river system or other water source and procedures for the regulation and distribution of water according to those water rights;

(ii) A requirement of specific action or actions on the part of a water right owner or a group of water right owners to ensure that water is diverted, measured, stored, or used according to the water rights involved and that the diversion, storage, or use does not infringe on the rights of other water right owners;

(iii) A description of the hydrologic limitations of a river system or other water source and a plan based on the water rights of record designed to manage and maximize beneficial use of water while protecting the sustainability of the water source;

(iv) A requirement that reports be submitted to the Division as provided in Section 73-5-8.

(v) A regulation tag issued by the Division or by a Water Commissioner according to Section 73-5-3 and as defined in Section R655-15.

(f) "Division" means the Division of Water Rights.

(i) "Enforcement Engineer" means the State Engineer or an authorized delegate who may commence and prosecute an enforcement action pursuant to Subsection 73-2-25(2)(a).

(j) "Filed" means timely submitted to the Division

(k) "Files" means information maintained in the Division's public records, which may include both paper and electronic information.

(l) "Final Judgment and Order" means a final decision issued by the Presiding Officer on the whole or a part of an enforcement adjudicative proceeding. This definition includes "Consent Orders" and "Default Orders."

(m) "Initial Administrative Penalty" means an administrative fine, a requirement to replace water unlawfully taken, and/or the enforcement costs required to be repaid as these are described and set forth in the Initial Order (IO) as required at Subsection 73-2-25(2)(b)(ii). These penalties do not include accrued penalties for violations continuing past the date of the IO.

(n) "Initial Order" (IO) means a Notice of Violation and/or a Cease and Desist Order.

(o) "Issued" as it applies to an IO or a Final Judgment and Order means the document has been executed by an authorized delegate of the State Engineer (in the case of an IO) or by the Presiding Officer (in other cases) and deposited in the mail.

A person engages in conduct knowingly, or with knowledge with respect to his conduct or to circumstances surrounding his conduct when he is aware of the nature of his conduct or the existing circumstances. A person acts knowingly, or with knowledge, with respect to a result of his conduct when he is aware that his conduct is reasonably certain to cause the result.

(q) "License" means the express grant of permission or authority by the State Engineer to carry on an activity or to perform an act, which, without such permission or authority, would otherwise be a violation of State law, rule or regulation.

(E) That the Enforcement Engineer may treat each day's violation as a separate violation in describing the Initial Administrative Penalty under Subsection 73-2-25 (2)(b)(ii); that is, the administrative penalty continues to accrue each day from the time the violation begins until compliance is achieved.

(vi) Identifies the individual to whom correspondence and inquiries regarding the Notice of Violation should be directed;

respondent elects to waive or fails to request an adjudicative hearing in a timely manner and elects to pay the fine and costs; and

(viii) States the State Engineer's authority to pursue further administrative or judicial enforcement action.

(b) Cease and Desist Order (CDO): an immediate compliance order issued pursuant to Section 73-2-25 either upon discovery of a suspected violation of the Water and Irrigation Code or in combination with a Notice of Violation, which:

(iv) States any action deemed necessary by the Enforcement Engineer to confirm compliance and assure continued compliance;

(v) Takes effect immediately upon the date issued or within such time as specified by the Enforcement Engineer in the CDO; and

(vi) States the administrative penalties to which the respondent may be subject for any violation of the CDO.

(c) Court Action

(i) Civil: direct recourse to a court of competent jurisdiction either in addition to or in lieu of administrative action where:

(A) It is necessary to enforce a Final Judgment and Order and seek civil and/or administrative penalties

(B) An imminent threat to the public health, safety, welfare or environment exists which warrants injunctive or other emergency relief; or

(C) A pattern of continuous, significant violations exists such that administrative enforcement action alone is unlikely to achieve compliance; or

(D) The court is the most convenient or appropriate forum for resolution of the dispute.

(ii) Criminal: referral to the County Prosecutor or the Attorney General's Office for prosecution or criminal investigation where:

(A) The alleged act or failure to act may be defined as a criminal offense by state law;

(B) Enforcement is beyond the jurisdiction or investigative capability of the State Engineer; or

(C) Criminal sanctions may be appropriate.

(d) Miscellaneous - other enforcement options may be pursued to achieve compliance. Additional options include, but are not limited to:

(i) Joint actions with, or referrals to, other federal, state or local agencies;

(ii) Direct legal or equitable actions in state or federal court; and/or

(iii) Denial, suspension or revocation of state-granted licenses, approvals permits or certifications.

(2) Unless otherwise stated, all notices, orders and judgments are effective upon the date issued.

(3) Combinations of enforcement actions are not mutually exclusive and may be concurrent and/or cumulative.

(4) An IO may be incorporated into a Default Order if the respondent fails to participate as defined herein.

R655-14-12. Administrative Penalties and Administrative Costs.

(1) Pursuant to Sections 73-2-1 and 73-2-25 and these rules, the Enforcement Engineer shall assess the initial administrative penalties, which may include an administrative fine, a requirement to replace water and the reimbursement of enforcement costs to which the respondent may be subject for any violation as set forth in Subsection 73-2-25(2)(a).

(2) No penalty shall exceed the maximum penalty allowed by Subsection 73-2-26(1), as may be amended.

(3) Each day a violation is repeated, continued or remains in place, constitutes a separate violation.

(4) The penalty imposed shall begin on the first day the violation occurred, and may continue to accrue through and including the day the Notice of Violation and/or Cease and Desist Order is issued, or the Final Judgment and Order is issued, or until compliance is achieved.

(5) The amount of the penalty shall be calculated based on:

(a) The value or quantity of water unlawfully taken, including the cost or difficulty of replacing the water;

(b) The gravity of the violation, including the economic injury or impact to others;

(c) Whether the respondent attempted to comply with the State Engineer's orders; and

(d) The respondent's economic benefit from the violation.

(6) Enforcement costs, interest, late payment charges, costs of compliance inspections, and collection costs may be assessed in addition to the administrative fine. These include:

(a) Enforcement costs: Costs for time spent by Division staff, supervisors, the Presiding Officer, and personnel of the Attorney General's Office, at the full cost of each employee's hourly rate, including salary, benefits, overhead and other directly related costs.

(b) Late payment charges: Costs accrued at the monthly percentage rate assessed by the Utah Department of Administrative Services, Office of Debt Collections.

(c) Compliance inspection costs: Time spent by Division staff at the full cost of each employee's hourly rate, including salary, benefits, overhead and other directly related costs.

(7) The State Engineer may report the total amount of administrative fines and/or enforcement costs assessed to consumer reporting agencies and pursue collection as provided by Utah law.

(8) Any monies collected under Section 73-2-26 and these rules shall be deposited into the General Fund.

R655-14-13. Replacement of Water.

(1) In addition to administrative fines and enforcement costs, the Enforcement Engineer may impose and the Presiding Officer may order the respondent to replace up to 200 percent of water unlawfully taken in accordance with Section 73-2-26.

(2) The Presiding Officer may order actual replacement of water after:

(a) A respondent fails to request judicial review of a Final Judgment and Order issued under Section 73-2-25; or

(b) Completion of judicial review, including any appeals.

(3) Pursuant to Section 73-2-26, and before imposing or ordering replacement of water, the Enforcement Engineer and the Presiding Officer shall consider the following factors:

(a) The value or quantity of water unlawfully taken, including the cost or difficulty of replacing the water;

(b) The gravity of the violation, including the economic injury or impact to others;

(c) Whether the respondent attempted to comply with the State Engineer's orders; and

(d) The respondent's economic benefit from the violation.

(4) The Enforcement Engineer may require and the Presiding Officer may order the respondent to submit a plan to replace water, which shall be submitted in writing and contain the following information:

(a) The name and mailing address of the respondent or persons submitting the plan;

(b) The State Engineer Agency Action (SEAA) number assigned to the IO;

(c) Identification of the water right(s) and property for

which the water replacement plan is proposed;

(d) A description of the water replacement plan; and

(e) Any information that assists the Enforcement Engineer in evaluating whether the proposed water replacement plan is acceptable.

(5) The factors the Enforcement Engineer or Presiding Officer may consider to determine if the plan is acceptable include, but are not limited to:

(a) Whether the plan provides for the respondent to forgo use of a vested water right owned or leased by the respondent until water is replaced to the extent required in the IO or ordered in the Final Judgment and Order;

(b) The reliability of the source of replacement water over the term in which it is proposed to be used under the plan; and

(c) Whether the plan provides for monitoring and adjustment as necessary to protect vested water rights.

(6) As provided in Section 73-2-26, water replaced shall be taken from water to which the respondent would be entitled during the replacement period.

(7) In accordance with Subsection 73-2-26(5)(a), or any other statutory authority, the Division may record any order requiring water replacement in the office of the county recorder where the place of use or water right is located. Any subsequent transferee of such property shall be responsible for complying with the requirements of said order.

R655-14-14. Procedures For Determining Administrative Penalties, Enforcement Costs and Water Replacement.

(1) An administrative fine shall not exceed the maximum amounts established by statute at Subsection 73-2-26 (1), as such may be amended.

(2) For violations per Subsections 73-2-25(2)(a)(i) through (vii), the following procedures shall be employed:

(a) Administrative Fines: This penalty shall be based primarily on the actual economic benefit estimated to result or potentially to result from the violation. The economic benefit may come in the form of a direct economic benefit as income derived directly from the unlawful activity or it may come in the form of avoided costs that would otherwise be incurred in order to comply with a specific statute, rule, notice or order from the State Engineer. The administrative fine assessment procedure used (direct economic benefit or avoided costs) will be that which produces the greater fine. In order to implement the punitive intent of this penalty, a multiplier is to be calculated and applied to the estimated actual direct economic benefit or avoided costs.

(i) "Direct Economic Benefit" Initial Administrative Fine Calculations. The initial administrative fine shall be calculated in the following manner:

(A) The daily economic benefit is equal to the gross income that is or could potentially be realized from the violation (without regard for production costs, taxes, etc.) divided by the number of days of violation. For water right violations, the daily economic benefit is calculated using the gross income through a full period of beneficial use, divided by the number of days in the period of beneficial use.

(B) The daily administrative fine is equal to the product of the daily economic benefit and the multiplier to be calculated as described in paragraph (iii) below.

(C) The initial administrative fine is equal to the product of the daily administrative fine and the number of days of continuing violation to the date the IO is issued, but shall not exceed the product of the highest calculated total realized economic benefit and the penalty multiplier.

(D) The total initial administrative fine will have a maximum value of four times the direct economic benefit or the statutory maximum fine, whichever is less.

(ii) The multiplier for penalties based on direct economic benefit shall be calculated utilizing the following statutory

considerations. (Statutorily required considerations relative to the quantity of water taken and the gravity and impact of the violation are accommodated in the calculations of the economic "benefit" and "injury.")

(A) Whether the violation was committed knowingly or unknowingly;

(B) The economic injury to others;

(C) The length of time over which the violation has occurred; and

(D) The violator's efforts to comply.

(iii) The penalty multiplier is the sum of the points calculated using Table 1:

TABLE 1

Violator has made limited but ineffective efforts to comply	0.75
Violator has made reasonable and partially effective efforts to comply	0.50

(iv) "Avoided Cost Economic Benefit" Initial Administrative Fine Calculation: In some cases, including but not limited to violations under Subsections 73-2-25 (2)(a) (iii) through (vii), an economic benefit may result from an avoided cost of compliance with a notice or order from the State Engineer, or from failure to obtain a necessary approval, permit or license. In the case of a failure to comply with a prior notice or order, the daily administrative fine commences with the day following the compliance date in the notice or order. In the event of a failure to obtain a necessary approval, permit or license, the period of violation is deemed to begin on the first day the unauthorized activity is commenced. The economic benefit and daily administrative fine for an "avoided cost economic benefit" shall be calculated in the following manner:

(A) The total realized economic benefit is equal to the highest calculated avoided costs of failing to implement specific actions required by a statute, rule, notice or order from the State Engineer.

(B) The daily administrative fine is equal to the product of \$20 or 5% of the total realized economic benefit, whichever is greater, and the penalty multiplier to be calculated as described in paragraph (vi), below.

(C) The initial administrative fine is equal to the product of the daily administrative fine and the number of days of continuing violation preceding the date of the IO, but shall not exceed the product of the highest calculated total realized economic benefit and the penalty multiplier.

(D) The total initial administrative fine will have a maximum value of three times the economic benefit or the statutory maximum fine, whichever is less.

(v) The statutory considerations applicable to producing the multiplier for an avoided cost economic benefit are: (Statutorily required considerations relative to the quantity of water taken and the gravity and impact of the violation are accommodated in calculations of the economic "benefit" and

"injury.").

(A) Whether the violation was committed knowingly or unknowingly;

(B) The economic injury to others; and

(C) The violator's efforts to comply.

(vi) The penalty multiplier is the sum of the points resulting from Table 2:

Violator has made limited but ineffective efforts to comply	0.75
Violator has made reasonable and partially effective efforts to comply	0.50
Violator fully complied prior to issuance of Initial Order	0.00

(b) Replacement of Water: This penalty will be initially calculated as the product of 100% of the amount unlawfully taken and the penalty multiplier previously calculated, but not to exceed 200% of that unlawfully taken. If replacement of water unlawfully taken is deemed to be infeasible by the Enforcement Engineer or the Presiding Officer, this penalty will not be further considered.

(c) Reimbursement of Enforcement Costs: This penalty will be initially based on a standard requiring 100% reimbursement of the State Engineer's enforcement costs to the date of the IO.

(3) For violations related to unlawful natural stream channel alteration or dam safety regulations per Subsections 73-2-25(1)(a)(vi) and (vii), the following procedures shall be employed:

(a) Daily Administrative Fine: All enforcement activities for unlawful natural stream alteration or dam safety violations must statutorily result from violation of a prior notice or order. Statute provides for a daily administrative fine with the day following the compliance date in the notice/order being counted as the first day of violation. The calculated daily administrative fine would apply to violations continuing beyond the compliance date set forth in the notice or order. The economic benefit and daily administrative fine shall be calculated in the following manner:

(i) For stream alteration and dam safety violations, there may be a direct economic benefit, or there may be an avoided cost economic benefit deriving from:

(A) Initiating an activity without the benefit of proper permitting and/or,

(B) Failing to implement specific actions required by a notice, order or permit from the State Engineer.

(ii) The daily administrative fine is equal to the product of \$20 or 5% of the total realized economic benefit, whichever is greater, and the multiplier to be calculated as described in paragraph (iii), below.

(iii) The penalty multiplier is calculated as the sum of the points from Table 3 or Table 4, as may be appropriate:

(iv) The total administrative fine shall not exceed the product of the highest calculated total realized economic benefit and the penalty multiplier.

(b) Reimbursement of Enforcement Costs is initially based on a standard requiring 100% reimbursement of the State Engineer's enforcement costs to the date of the Initial Order.

(4) For violations under Subsection 73-2-25(2)(a)(viii) related to failure to submit a report required by Section 73-3-25, the following procedures shall be employed:

(a) The daily administrative fine is equal to \$5.00.

(b) The number of days of continuing violation commences 90 days after the day on which the well driller license lapses.

(c) The initial administrative fine is equal to the product of the daily administrative fine and the number of days of continuing violation to the date the IO is issued, up to a maximum fine of \$200.

(d) The total administrative fine shall not exceed the product of the daily administrative fine and the number of days of continuing violation, up to a maximum fine of \$200.

(e) Reimbursement of enforcement costs is initially based on a standard requiring 100% reimbursement of the State

Engineer's enforcement costs to the date of the Initial Order.

(5) For violations under Subsection 73-2-25(2)(a)(ix) related to engaging in well drilling without a license required by Section 73-3-25, the following procedures shall be employed:

(a) The direct economic benefit is equal to the gross income that is or could potentially be realized (without regard for production costs, taxes, etc.) from engaging in well drilling (as defined herein) without a license.

(b) The total initial administrative fine is equal to the product of the direct economic benefit resulting from the violation and the penalty multiplier described in paragraph (c) below.

(c) The penalty multiplier is calculated as the sum of the points from Table 5.

(d) The total administrative fine shall not exceed the product of the direct economic benefit and the penalty multiplier.

(e) Reimbursement of enforcement costs is initially based on a standard requiring 100% reimbursement of the State Engineer's enforcement costs to the date of the Initial Order.

(6) Post-Initial Order penalty adjustments: Subsequent to issuance of the IO, the Presiding Officer may make adjustments to the initial administrative fine; the requirement for replacement of water unlawfully taken; requirements pertaining to violations of stream channel alteration or dam safety regulations; and/or the requirement for reimbursement of enforcement costs. Such adjustments may be based on one or more of the following considerations:

(a) Errors or Omissions in Calculation of an Initial Administrative Penalty: If shown by acceptable evidence or testimony that any fact used in calculation of the economic benefit, of the quantity of water unlawfully taken, or of the penalty multiplier was in error, or that a significant fact or group of facts was omitted from consideration, the Presiding Officer shall recalculate the initial administrative penalties taking consideration of the corrected or additional fact(s).

(b) Reduction in Penalty Multiplier: The penalty multiplier used in calculating the Initial Administrative Penalties may be reduced according to Table 6 on the basis of the respondent's efforts to comply after receiving the IO.

TABLE 6

PENALTY MULTIPLIER REDUCTION	
CONSIDERATION / CRITERIA	MULTIPLIER POINTS
Respondent's efforts to comply with the Initial Order	
Respondent has made extraordinary efforts to successfully achieve full and prompt compliance with the IO.	1.00
Respondent has made efforts to successfully achieve full and prompt compliance with the IO, but these efforts are not extraordinary	0.50
Respondent has made efforts that achieve full compliance with the IO, but the efforts were neither extraordinary nor prompt	0.25
Respondent has made no efforts to comply or has made efforts that fail to achieve full compliance with the IO	0.00

If the Presiding Officer determines that the penalty multiplier should be reduced according to the table above, the appropriate number of points will be subtracted from the penalty multiplier used in calculating the initial administrative penalty and the penalty will be re-calculated with the new multiplier.

(c) Failure to take reasonable and effective measures to achieve full and prompt compliance with the requirements of the IO will allow the daily administrative fines to continue to accrue as provided in rule at Subsection R655-14-12(4) until full compliance is achieved.

(d) Adjustments to recovery of enforcement costs:

(i) If shown by acceptable evidence or testimony that any expense incurred by the State Engineer and assessed for reimbursement resulted from activities not pertinent to the violation, the Presiding Officer may reduce that portion of the reimbursement requirement accordingly.

(ii) Pursuit of an enforcement action after issuance of the IO will continue to require the expenditure of varying amounts of staff time and may require acquisition and analysis of special data or information. Such costs may be added to the initial reimbursement requirement, specifically including all costs incurred that are unique to the enforcement action under consideration.

(e) Mitigating Factors: Other factors which the Presiding Officer may consider in amendment of initial penalties for incorporation into a Final Order or Consent Order may include, as appropriate:

(i) Ability to pay: This factor will be considered only if raised by a respondent and only if the respondent provides all necessary information to evaluate the claim. The burden to demonstrate inability to pay rests solely on the respondent. The Presiding Officer shall disregard this factor if a respondent fails to provide sufficient or persuasive financial information. If it is determined that a respondent cannot afford the full monetary penalties prescribed by this rule, or if it is determined that payment of all or a portion of the monetary penalties will preclude the respondent from achieving compliance or from carrying out remedial measures which are deemed more important than the deterrent effect of the monetary penalties, the following options may be considered by the Presiding Officer:

(A) A delayed payment schedule with full payment of monetary penalties to be made at a date not exceeding 180 days from the date the Final Judgment and Order is issued; or

(B) A direct reduction of the monetary penalties, which reduction is deemed by the Presiding Officer to be consistent with achieving the purposes of the enforcement action and the aims of equity and justice.

(C) A portion of the monetary penalties may be suspended with conditions as determined by the Presiding Officer, which suspension is deemed by the Presiding Officer to be consistent with achieving the purposes of the enforcement action and the aims of equity and justice. Failure by a respondent to adhere to the conditions of the suspension may result in an Order of reinstatement of any part of the suspended monetary penalties, which will be due and payable immediately upon reinstatement.

R655-14-15. Procedures for Conducting Adjudicative Enforcement Proceedings.

(1) The procedures for conducting adjudicative enforcement proceedings are as follows:

(i) Satisfies all requirements of the IO, including but not limited to ceasing the violation(s), full payment of all the administrative fines, reimbursement of the State Engineer's enforcement costs in full, and submission of any required water replacement plan; or,

(ii) Files with the Division a timely and proper written response to the IO but waives a hearing and submits the case upon the record. Submission of a case without a hearing does not relieve the respondent from the necessity of providing the facts supporting the respondent's burdens, allegations or defenses; or

(4) If no hearing is held, the Presiding Officer may issue a Final Judgment and Order in reliance upon the record, as defined in this rule, or may order a preliminary conference to supplement or clarify the record.

(5) A respondent at any time may withdraw the respondent's request for a hearing. The withdrawal shall be filed with the Division, in writing, signed by the respondent or an authorized representative, and is deemed final upon the date filed.

(1) Statewide and area conservation permits may be awarded to eligible conservation organizations to market and sell, or to use as an aid in wildlife related fund raising activities.

(2) To be eligible for multi-year conservation permits, a conservation organization must have generated in conservation permit sales during the previous three year period at least one percent of the total revenue generated by all conservation organizations in conservation permit sales during the same period. Conservation organizations eligible for multi-year permits may not apply for single year permits, and conservation organizations ineligible for multi-year permits may only apply for single year permits.

(3) Conservation organizations applying for single year permits may not:

(a) bid for or obtain conservation permits if any employee, officer, or board of director member of the conservation organization is an employee, officer, or board of director member of any other conservation organization that is submitting a bid for single year conservation permits; or

(b) enter into any pre-bidding discussions, understandings or agreements with any other conservation organization submitting a bid for conservation permits regarding:

- (i) which permits will be sought by a bidder;
- (ii) what amounts will be bid for any permits; or
- (iii) trading, exchanging, or transferring any permits after permits are awarded.

R657-41-5. Applying for Conservation Permits.

(1)(a) Conservation organizations may apply for conservation permits by sending an application to the division.

(b) Only one application per conservation organization may be submitted. Multiple chapters of the same conservation organization may not apply individually.

(c) Conservation organizations may apply for single year conservation permits or multi-year conservation permits. They may not apply for both types of conservation permits.

(2) The application must be submitted to the division by September 1 to be considered for the following year's conservation permits. Each application must include:

- (a) the name, address and telephone number of the conservation organization;
- (b) a copy of the conservation organization's mission statement;
- (c) verification of the conservation organization's tax exempt status under Internal Revenue Code, Section 501C-3 as amended; and
- (d) the name of the president or other individual responsible for the administrative operations of the conservation organization;

(3) If applying for single year conservation permits, a conservation organization must also include in its application:

- (a) the proposed bid amount for each permit requested. The proposed bid amount is the revenue the organization anticipates to be raised from a permit through auction or other lawful fund raising activity.
- (b) certification that there are no conflicts of interest or collusion in submitting bids as prohibited in R657-41-4(3);
- (c) acknowledgement that the conservation organization recognizes that falsely certifying the absence of collusion may result in cancellation of permits, disqualification from bidding for five years or more, and the filing of criminal charges;
- (d) evidence that the application and bid has been reviewed and approved by the board of directors of the bidding conservation.

(e) the type of permit, and the species for which the permit is requested; and

- (c) violating any other law that bears a reasonable relationship to the applicant's ability to responsibly and lawfully handle conservation permits pursuant to this rule.

R657-41-6. Awarding Single Year Conservation Permits.

(1) The division shall recommend the conservation organization to receive each single year conservation permit based on:

- (a) the bid amount pledged to the species, adjusted by:
 - (i) the performance of the organization over the previous two years in meeting proposed bids;

(ii) 90% of the bid amount;

(iii) the organizations maintaining a minimum two-year average performance of 70% to be eligible for consideration of permits. Performance of the organization is the proportion of the total revenue generated from permit sales, divided by 90% of the bid amount for all permits, calculated annually and averaged for the last two years.

(b) if two or more conservation organizations are tied using the criteria in Subsection (a), the closeness of the organization's purpose to the species of the permit; and

(c) if two or more conservation organizations are tied using the criteria in Subsection (a) and (b), the geographic closeness of the organization to the location of the permit.

(2)(a) Between the time the division recommends that a conservation permit be awarded to a conservation organization and the time the Wildlife Board approves that recommendation, a conservation organization may withdraw its application for any given permit or exchange its application with another conservation organization without penalty, provided the bid amount upon which the permit application was evaluated is not changed.

(b) If a conservation organization withdraws its bid and the bid is awarded to another organization at a lower amount, then the difference between the two bids will be subtracted from the organization making the higher bid for purposes of evaluating organization performance.

(3) The Wildlife Board shall make the final assignment of conservation permits at a meeting prior to December 1 annually.

(4) The Wildlife Board may authorize a conservation permit to a conservation organization, other than the conservation organization recommended by the division, after considering the:

- (a) division recommendation;
- (b) benefit to the species;
- (c) historical contribution of the organization to the conservation of wildlife in Utah;
- (d) previous performance of the conservation organization; and
- (e) overall viability and integrity of the conservation permit program.

(5) The total of all bids for permits awarded to any one organization shall not exceed \$20,000 the first year an organization receives permits.

(6) The number of permits awarded to any one organization shall not increase by more than 100% from the previous year.

(7) If the Wildlife Board authorizes a second statewide conservation permit for a species, the conservation organization receiving the permit must meet the division designated bid for that permit.

R657-41-7. Awarding Multi-Year Conservation Permits.

(1) Distribution of multi-year conservation permits will be based on a sequential selection process where each eligible conservation organization is assigned a position or positions in the selection order among the other participating organizations and awarded credits with which to purchase multi-year permits at an assigned value. The selection process and other associated details are as follows.

(2) Multi-year permits will be awarded to eligible conservation organizations for no more than three years.

(3) The division will determine the number of permits available as multi-year permits after subtracting the proposed number of single year permits.

(a) Season types for multi-year area conservation permits for elk on any given hunt unit will be designated and assigned in the following order:

- (i) first permit -- premium;
- (ii) second permit -- any-weapon;

- (iii) third permit -- any-weapon;
- (iv) fourth permit -- archery;
- (v) fifth permit -- muzzleloader;
- (vi) sixth permit -- premium;
- (vii) seventh permit -- any-weapon; and
- (viii) eighth permit -- any-weapon.

(b) Season types for multi-year area conservation permits for deer on any given hunt unit will be designated and assigned in the following order:

- (i) first permit -- hunter choice of season;
- (ii) second permit -- hunter choice of season;
- (iii) third permit -- muzzleloader;
- (iv) fourth permit -- archery;
- (v) fifth permit -- any-weapon;
- (vi) sixth permit -- any-weapon;
- (vii) seventh permit -- muzzleloader; and
- (viii) eighth permit -- archery.

(4) The division will assign a monetary value to each multi-year permit based on the average return for the permit during the previous three year period. If a history is not available, the value will be estimated.

(5) The division will determine the total annual value of all multi-year permits.

(6)(a) The division will calculate a market share for each eligible conservation organization applying for multi-year permits.

(b) Market share will be calculated and determined based on:

- (i) the conservation organization's previous three years performance;
- (ii) all conservation permits (single and multi-year) issued to a conservation organization except for special permits allocated by the Wildlife Board outside the normal allocation process.
- (iii) the percent of conservation permit revenue raised by a conservation organization during the three year period relative to all conservation permit revenue raised during the same period by all conservation organizations applying for multi-year permits.

(7) The division will determine the credits available to spend by each group in the selection process based on their market share multiplied by the total annual value of all multi-year permits.

(8) The division will establish a selection order for the participating conservation organizations based on the relative value of each groups market share as follows:

- (a) groups will be ordered based on their percent of market share;
- (b) each selection position will cost a group 10% of the total market share except the last selection by a group will cost whatever percent a group has remaining;
- (c) no group can have more than three positions in the selection order; and
- (d) the selection order will be established as follows:
 - (i) the group with the highest market share will be assigned the first position and ten percent will be subtracted from their total market share;
 - (ii) the group with the highest remaining market share will be assigned the second position and ten percent will be subtracted from their market share; and
 - (iii) this procedure will continue until all groups have three positions or their market share is exhausted.

(9) At least two weeks prior to the multi-year permit selection meeting, the division will provide each conservation organization applying for multi-year permits the following items:

- (a) a list of multi-year permits available with assigned value;
- (b) documentation of the calculation of market share;

(c) credits available to each conservation group to use in the selection process;

(d) the selection order; and

(e) date, time and location of the selection meeting.

(10) Between the establishing of the selection order and the selection meeting, groups may trade or assign draw positions, but once the selection meeting begins draw order cannot be changed.

(11) At the selection meeting, conservation organizations will select permits from the available pool according to their respective positions in the selection order. For each permit selected, the value of that permit will be deducted from the conservation organization's available credits. The selection order will repeat itself until all available credits are used or all available permits are selected.

(12) Conservation organizations may continue to select a single permit each time their turn comes up in the selection order until all available credits are used or all available permits are selected.

(13) A conservation organization may not exceed its available credits except a group may select their last permit for up to 10% of the permit value above their remaining credits.

(14) Upon completion of the selection process, but prior to the Wildlife Board meeting where final assignment of permits are made, conservation organizations may trade or assign permits to other conservation organizations eligible to receive multi-year permits. The group receiving a permit retains the permit for the purposes of marketing and determination of market share for the entire multi-year period.

(15) Variances for an extended season or legal weapon choice may be obtained only on area conservation permits and must be presented to the Wildlife Board prior to the final assignment of the permit to the conservation organization.

(16) Conservation organizations may not trade or transfer multi-year permits to other organizations once assigned by the Wildlife Board.

(17) Conservation organizations failing to comply with the reporting requirements in any given year during the multi-year period shall lose the multi-year conservation permits for the balance of the multi-year award period.

(18) If a conservation organization is unable to complete the terms of marketing the assigned permits, the permits will be returned to the regular public drawing process for the duration of the multi-year allocation period.

R657-41-8. Distributing Conservation Permits.

(1) The division and conservation organization receiving permits shall enter into a contract.

(2)(a) The conservation organization receiving permits must insure that the permits are marketed and distributed by lawful means. Conservation permits may not be distributed in a raffle except where the following conditions are met:

(i) the conservation organization obtains and provides the division with a written opinion from a licensed attorney or a written confirmation by the local district or county attorney that the raffle scheme is in compliance with state and local gambling laws;

(ii) except as otherwise provided in R657-41-8(5), the conservation organization does not repurchase, directly or indirectly, the right to any permit it distributes through the raffle;

(iii) the conservation organization prominently discloses in any advertisement for the raffle and at the location of the raffle that no purchase is necessary to participate; and

(iv) the conservation organization provides the division with a full accounting of any funds raised in the conservation permit raffle, and otherwise accounts for and handles the funds consistent with the requirement in Utah Admin. Code R657-41-9.

- (3) The conservation organization must:
- (i) obtain the name of the proposed permit recipient at the event where the permit recipient is selected; and
 - (ii) notify the division of the proposed permit recipient within 30 days of the recipient selection or the permit may be forfeited.
- (4) If a person is selected by a qualified organization to receive a conservation permit and is also successful in obtaining a permit for the same species in the same year through the a division drawing, that person may designate another person to receive the conservation permit, provided the conservation permit has not been issued by the division to the first selected person.
- (5) If a person is selected by a qualified organization to receive a conservation permit, but is unable to use the permit, the conservation organization may designate another person to receive the permit provided:
- (a) the conservation organization selects the new recipient of the permit;

 - (d) the conservation organization and the initial designated recipient of the permit, sign an affidavit indicating the initial designated recipient is not profiting from transferring the right to the permit; and
 - (e) the permit has not been issued by the division to the first designated person.
- (6) Except as otherwise provided under Subsections (4) and (5), a person designated by a conservation organization as a recipient of a conservation permit, may not sell or transfer the rights to that designation to any other person. This does not preclude a person from bidding or otherwise lawfully acquiring a permit from a conservation organization on behalf of another person who will be identified as the original designated recipient.
- (7) A person cannot obtain more than one conservation permit for a single conservation permit species per year, except for:
- (a) elk, provided no more than two permits are obtained where one or both are antlerless permits; and
 - (b) turkey.
- (8) the person designated on a conservation permit voucher must possess or obtain a current Utah hunting or combination license to redeem the voucher for the corresponding conservation permit.

- (4)(a) Conservation organizations shall remit to the division by September 1 of each year 30% of the total revenue

generated by conservation permit sales in that year.

(b) The permit revenue payable to the division under Subsection (4)(a), excluding accrued interest, is the property of the division and may not be used by conservation organizations for projects or any other purpose.

(c) The permit revenue must be placed in a federally insured account promptly upon receipt and remain in the account until remitted to the division on or before September 1 of each year.

(d) The permit revenue payable to the division under this subsection shall not be used by the conservation organization as collateral or commingled in the same account with the organization's operation and administration funds, so that the separate identity of the permit revenue is not lost.

(e) Failure to remit 30% of the total permit revenue to the Division by the September 1 deadline may result in criminal prosecution under Title 76, Chapter 6, Part 4 of the Utah Code, and may further disqualify the conservation organization from obtaining any future conservation permits.

(5) A conservation organization may retain 70% of the revenue generated from the sale of conservation permits as follows:

(a) 10% of the revenue may be withheld and used by the conservation organization for administrative expenses.

(b) 60% of the revenue may be retained and used by the conservation organization only for eligible projects as provided in subsections (i) through (ix).

(v) retained revenue shall not be used on any project that is inconsistent with division policy, including feeding programs, depredation management, or predator control.

(vi) retained revenue under this subsection must be placed in a federally insured account. All interest revenue earned thereon may be retained and used by the conservation organization for administrative expenses.

(vii) retained revenue shall not be used by the conservation organization as collateral or commingled in the same account with the organization's operation and administration funds, so that the separate identity of the retained revenue is not lost.

(viii) retained revenue must be completely expended on or committed to approved eligible projects by September 1, two years following the year in which the relevant conservation permits are awarded to the conservation organization by the Wildlife Board. Failure to commit or expend the retained revenue by the September 1 deadline will disqualify the conservation organization from obtaining any future conservation permits until the unspent retained revenue is committed to an approved eligible project.

(ix) all records and receipts for projects under this subsection must be retained by the conservation organization for a period not less than five years, and shall be produced to the division for inspection upon request.

(6)(a) Conservation organizations accepting permits shall be subject to annual audits on project expenditures and conservation permit accounts.

8.5. No Awards after Five Years: The Board will not make an award to a recipient for an academic term that begins more than five years after the recipient's high school graduation date.

8.6. No Guarantee of Degree Completion: An award does not guarantee that the recipient will complete his or her baccalaureate program within the recipient's scholarship eligibility period.

8.7. Deferral or Leave of Absence.

8.7.1. A recipient may apply to the Board for a deferral of award or a leave of absence.

8.7.2. A deferral or leave of absence will not extend the time limits of the scholarship under subsection 8.5.

8.7.3. Deferrals or leaves of absence may be granted, at the discretion of the Board, for military service, humanitarian/religious service, documented medical reasons, and other exigent reasons.

R765-604-9. Appeals.

9.1. Scholarship Determinations: Submission of a scholarship application does not guarantee a scholarship award. Individual scholarship applications will be reviewed, and award decisions made, at the discretion of a Scholarship Review Committee, based on available Legislative funding, applicant pool, and applicants' completion of scholarship criteria. Each applicant will receive a letter informing the applicant of the decision on his/her application, whether the decision is a scholarship award or denial of scholarship.

9.2. Appeals: Applicants may appeal a denial of the scholarship by submitting a written appeal to the Board within 30 days of receipt of the decision letter. Appeals will be reviewed and decided by an appeals committee appointed by the commissioner of higher education. R865. Tax Commission, Auditing.**R865-6F. Franchise Tax.****R865-6F-1. Corporation Franchise Privilege - Right to Do Business - Nature of Liability and How Terminated Pursuant to Utah Code Ann. Sections 16-10a-1501 through 16-10a-1533.**

A. The Utah franchise tax is imposed upon corporations qualified or incorporated under the laws of Utah, whether or not they do business therein, and also upon corporations doing business in Utah, whether or not they are qualified or incorporated under the laws of Utah.

1. An unqualified foreign corporation doing business in this state is liable for Utah corporation franchise tax in the same amount as if it had duly applied for and received a certificate of authority to transact business in this state pursuant to Section 16-10a-1501.

2. An unqualified foreign corporation deriving income from this state, but not doing business in this state within the contemplation of the Utah corporation franchise tax law is subject to the Utah corporation income tax on income derived from this state under the provisions of Sections 59-7-201 to 59-7-207.

B. If a corporation received its corporate authority to do business in Utah prior to January 1, 1973, and is a member of an affiliated group filing a combined report under Section 59-7-402 or 59-7-403, and legally terminates its corporate authority, it must include its activity during the final year in the combined report of the group. The tax is imposed upon the income of the group rather than the income of the individual corporations.

C. A corporation that was incorporated, qualified, or that reinstated its corporate authority to do business in Utah after January 1, 1973 must file a corporation franchise tax return and pay the tax due with the return for the year in which it legally terminates its right to do business in this state. The Tax Commission shall not issue a tax clearance certificate until the final return has been filed and the amounts due for the final year are paid.

D. For Utah corporation franchise tax purposes, a foreign corporation terminates its corporate existence or the privileges for which the franchise tax is levied (unless it continues to do business) on the date on which:

1. a certificate of withdrawal is issued under the provisions of Section 16-10a-1520;
2. its corporate existence is legally terminated in its home state, provided authoritative evidence of that termination is filed;
3. a certificate of revocation of its authority to transact business in this state is issued under the provisions of Sections 16-10a-1530 and 16-10a-1531; or
4. the corporate powers, rights, and privileges are forfeited under the provisions of Section 59-7-534.

E. For Utah corporation franchise tax purposes, a corporation that is incorporated under the laws of this state terminates its corporate existence or the privilege of exercising its corporate franchise for which the franchise tax is levied on the date on which:

1. a certificate of dissolution is issued pursuant to a voluntary dissolution under the provisions of Section 16-10a-1401 or Sections 16-10a-1402 through 16-10a-1403;
2. a decree of dissolution is entered by the court pursuant to the provisions of Sections 16-10a-1430 through 16-10a-1433;
3. a certificate of merger or of consolidation (which effects the termination of the separate corporate existence of the Utah corporation) is issued pursuant to the provisions of Sections 16-10a-1101 through 16-10a-1107; or
4. the corporate rights and privileges are suspended under the provisions of Section 59-7-534.

F. If the corporation continues to do business in this state subsequent to any of the above dates, it is liable for franchise

tax, even though doing business is not authorized, or may even be prohibited, by law. A corporation cannot avoid the franchise tax by doing business without authority which, if legally done, would subject the corporation to the tax.

R865-6F-2. Establishment of Taxable Year and Filing the First Return Pursuant to Utah Code Ann. Sections 59-7-501 and 59-7-505.

A. The period for which a corporation must file its returns for corporation franchise tax purposes is the same period under which its income is computed pursuant to Section 59-7-501.

B. The first return may cover a period of less than 12-calendar months, but may not exceed 12-calendar months. The period must end on the last day of a calendar month, except that the Tax Commission will accept returns being made using the 52-53 week method of reporting under Section 441(f), Internal Revenue Code.

C. If a corporation elects for federal purposes to end its filing period on a date that does not fall on the last day of a calendar month, the filing period for the purposes of effective dates of Utah laws ends on the last day of the month nearest to the federal year end. The Utah net income is computed based on the filing period for federal purposes, notwithstanding the Utah filing period ends on the last day of the month.

D. Except as provided in Section 59-7-505(8)(a), in the case of a domestic corporation, the first return period begins with the date of incorporation. Activity prior to date of incorporation must be reported on individual income or partnership returns or of such other entity as may be appropriate.

E. Except as provided in Section 59-7-505(8)(a), in the case of a foreign corporation, the first return period begins with the date the corporation is qualified to do business in Utah under Title 16, Chapter 10a, Part 15, or the date business within the state is commenced, whichever is the earlier.

R865-6F-6. Application of Corporation Franchise or Income Tax Acts to Qualified Corporations and to Nonqualified Foreign Corporations Pursuant to Utah Code Ann. Section 59-7-104.**A. Definitions.**

1. "Ancillary activities" means those activities that serve no independent business function for the seller apart from their connection to the solicitation of orders.

2. "De minimis activities" means those activities that, when taken together, establish only a trivial connection with the taxing state. An activity conducted within Utah on a regular or systematic basis or pursuant to a company policy, whether or not in writing, shall not normally be considered trivial.

3. "In-home office" means an office or place of business located within the residence of the employee or representative of a company that satisfies the following conditions:

a) The office may not be publicly attributed to the company, or to the employee or representative of the company in an employee or representative capacity.

b) The use of the office shall be limited to soliciting and receiving orders from customers; transmitting orders outside the state for acceptance or rejection by the company; or for other activities that are protected under Public Law 86-272, 15 U.S.C. 381-384 (hereafter P.L. 86-272) and this rule.

c) Neither the company nor the employee or representative shall maintain a telephone listing or other public listing for the company within the state, nor use advertising or business literature indicating that the company or its employee or representative can be contacted at a specific address within the state. However, the normal distribution and use of business cards and stationery identifying the employee's or representative's name, address, telephone, and fax numbers and affiliation with the company shall not, by itself, be considered

as advertising or otherwise publicly attributing an office to the company or its employee or representative.

4. "Solicitation" means:

a) speech or conduct that explicitly or implicitly invites an order; and

b) activities that neither explicitly nor implicitly invite an order, but are entirely ancillary to requests for an order.

B. Every corporation doing business in Utah whether qualified or not, and every corporation incorporated or qualified in Utah whether or not doing business therein is subject to the Utah corporation franchise tax, unless exempted under the provisions of Section 59-7-102. If liability for the tax exists, the tax must be computed under the provisions of Section 59-7-104, at the rate provided by statute, but in no case shall the tax be less than the minimum tax prescribed.

C. Foreign corporations not qualified in Utah which ship goods to customers in this state from points outside this state, pursuant to orders solicited but not accepted by agents or employees in this state, and which are not doing business in Utah are not taxable under the Utah Corporation Franchise Tax Act if:

1. they maintain no office nor stocks of goods in Utah, and
2. they engage in no other activities in Utah.

D. Foreign corporations not qualified in Utah that make deliveries from stocks of goods located in this state are doing business in this state and are taxable under the Corporation Franchise Tax Act, even though they have no office or regular place of business in this state.

E. Foreign corporations not qualified in Utah are subject to the franchise tax if performing the necessary duties to fulfill contracts or subcontracts in Utah, whether through their own employees or by furnishing of supervisory personnel.

F. Corporations that own real property within this state and rent or lease such properties to others are subject to the franchise tax whether or not qualified under the laws of this state. This also applies to corporations deriving royalty, lease, or rental income from properties located within this state, whether or not such properties are owned by the corporation.

G. Foreign corporations not qualified in Utah are subject to the franchise or income tax if they derive income from revenue-producing properties located in Utah or moving through Utah or from services performed by personnel in this state. This includes, but is not limited to, freight and transportation operations, sales of real property having a Utah situs, leasing or sales of franchises, sporting or entertaining events, etc.

H. Corporations that participate in joint ventures or working and operating agreements which are performed in this state are subject to the franchise tax whether qualified or not.

I. Foreign corporations qualified in Utah are subject to the franchise tax even though engaged solely in interstate commerce.

J. P.L. 86-272 restricts a state from imposing a net income tax on income derived within its borders from interstate commerce if the only business activity of the company within the state consists of the solicitation of orders for sales of tangible personal property, which orders are sent outside the state for acceptance or rejection, and, if accepted, are filled by shipment or delivery from a point outside the state. The term "net income tax" includes a franchise tax measured by net income. If any sales of tangible personal property are made from Utah into a state which is precluded by P.L. 86-272 from taxing the income of the seller, such sales remain subject to throwback to Utah pursuant to Section 59-7-318(2). Similarly, a sale into Utah from another state would not subject a corporation to the Utah tax if the corporation's activities do not exceed those allowed under P.L. 86-272.

1. Only the solicitation to sell personal property is afforded immunity under P.L. 86-272; therefore, the leasing, renting licensing or other disposition of tangible personal

property, or transactions involving intangibles such as franchises, patents, copyrights, trade marks, service marks and the like, or any other type of property are not protected activities under P. L. 86-272. The sale or delivery and the solicitation for the sale or delivery of any type of service that is not either (1) ancillary to solicitation, or (2) otherwise set forth as a protected activity below is also not protected under P.L. 86-272 or this rule.

2. For the in-state activity to be a protected activity under P.L. 86-272, it must be limited solely to solicitation, except for de minimis activities and activities conducted by independent contractors as described below.

K. The following in-state activities, assuming they are not of a de minimis level, will constitute doing business in Utah under P.L. 86-272 and will subject the corporation to the Utah corporation franchise tax:

1. making repairs or providing maintenance or service to the property sold or to be sold;

2. collecting current or delinquent accounts, whether directly or by third parties, through assignment or otherwise;

3. investigating credit worthiness;

4. installation or supervision of installation at or after shipment or delivery;

5. conducting training courses, seminars, or lectures for personnel other than personnel involved only in solicitation;

6. providing any kind of technical assistance or service including engineering assistance or design service, when one of the purposes thereof is other than the facilitation of the solicitation of orders;

7. investigating, handling, or otherwise assisting in resolving customer complaints, other than mediating direct customer complaints when the sole purpose of such mediation is to ingratiate the sales personnel with the customer;

8. approving or accepting orders;

9. repossessing property;

10. securing deposits on sales;

11. picking up or replacing damaged or returned property;

12. hiring, training, or supervising personnel, other than personnel involved only in solicitation;

13. using agency stock checks or any other instrument or process by which sales are made within this state by sales personnel;

14. maintaining a sample or display room in excess of two weeks (14 days) at any one location within the state during the tax year;

15. carrying samples for sale, exchange or distribution in any manner for consideration or other value;

16. owning, leasing, using, or maintaining any of the following facilities or property in-state:

(a) repair shop;

(b) parts department;

(c) any kind of office other than an in-home office;

(d) warehouse;

(e) meeting place for directors, officers, or employees;

(f) stock of goods other than samples for sales personnel or that are used entirely ancillary to solicitation;

(g) telephone answering service that is publicly attributed to the company or to employees or agents of the company in their representative status;

(h) mobile stores, i.e., vehicles with drivers who are sales personnel making sales from the vehicles;

(i) real property or fixtures to real property of any kind.

17. consigning stocks of goods or other tangible personal property to any person, including an independent contractor, for sale;

18. maintaining, by either an in-state or an out-of-state resident employee, an office or place of business (in-home or otherwise) of any kind other than an in-home office;

(b) The maintenance of any office or other place of

business in this state that does not strictly qualify as an in-home office under this subsection shall, by itself cause the loss of protection under this rule.

(c) For purposes of this subsection it is not relevant whether the company pays directly, indirectly, or not at all for the cost of maintaining the in-home office.

19. entering into franchising or licensing agreements; selling or otherwise disposing of franchises and licenses; or selling or otherwise transferring tangible personal property pursuant to such franchise or license by the franchisor or licensor to its franchisee or licensee within the state;

20. shipping or delivering of goods into this state by means of private vehicle, rail, water, air or other carrier, irrespective of whether a shipment of delivery fee or other charge is imposed, directly or indirectly, upon the purchaser;

21. conducting any activity not listed as a protected activity below which is not entirely ancillary to requests for orders, even if such activity helps to increase purchases.

L. The following in-state activities will not cause the loss of protection for otherwise protected sales;

1. soliciting orders for sales by any type of advertising;

2. soliciting of orders by an in-state resident employee or representative of the company, so long as such person does not maintain or use any office or other place of business in the state other than an in-home office;

3. carrying samples and promotional materials only for display or distribution without charge or other consideration;

4. furnishing and setting up display racks and advising customers on the display of the company's products without charge or other consideration;

5. providing automobiles to sales personnel for their use in conducting protected activities;

6. passing orders, inquiries and complaints on to the home office;

7. missionary sales activities, i.e. the solicitation of indirect customers for the company's goods. For example, a manufacturer's solicitation of retailers to buy the manufacturer's goods from the manufacturer's wholesale customers would be protected if such solicitation activities are otherwise immune;

8. coordinating shipment or delivery without payment or other consideration and providing information relating thereto either prior or subsequent to the placement of an order;

9. checking of customer's inventories without a charge therefore if performed for reorder, but not for other purposes such as a quality control;

10. maintaining a sample or display room for two weeks (14 days) or less at any one location within the state during the tax year;

11. recruiting, training or evaluating sales personnel, including occasionally using homes, hotels or similar places for meetings with sales personnel;

12. mediating direct customer complaints when the purpose thereof is solely for ingratiating the sales personnel with the customer and facilitating requests for orders;

13. owning, leasing, using or maintaining personal property for use in the employee or representative's in-home office or automobile that is solely limited to the conducting of protected activities. Therefore, the use of personal property such as a cellular telephone, facsimile machine, duplicating equipment, personal computer and computer software that is limited to the carrying on of protected solicitation and activity entirely ancillary to such solicitation or permitted by the provisions of this rule shall not, by itself, remove the protection of P.L. 86-272.

M. P.L. 86-272 provides protection to certain in-state activities if conducted by an independent contractor that would not be afforded if performed by the company or its employees or other representatives.

1. Independent contractors may engage in the following

limited activities in the state without the company's loss of immunity;

a) soliciting sales;

b) making sales;

c) maintaining an office.

2. Sales representatives who represent a single principal are not considered to be independent contractors and are subject to the same limitations as those provided under P.L. 86-272 and this rule.

3. Maintenance of stock of goods in the state by the independent contractor under consignment or any other type of arrangement with the company, except for purposes of display and solicitation, shall remove the protection.

N. The Tax Commission will apply the provisions of P.L. 86-272 and of this rule to business activities conducted in foreign commerce. Therefore, whether business activities are conducted by (i) a foreign or domestic company selling tangible personal property into a county outside of the United States from a point within this state or by (ii) either company selling such property into this state from a point outside of the United States, the principles under this rule apply equally to determine whether the sales transactions are protected and the company immune from taxation in either this state or in the foreign county, as the case might be, and whether, if applicable, the throwback provisions of Section 59-7-318(2) will apply.

O. The protection afforded by P.L. 86-272 and the provisions of this rule do not apply to any corporation that is incorporated or domiciled in this state.

P. A company that registers or otherwise formally qualifies to do business within this state does not, by that fact alone, lose its protection under P.L. 86-272. Where, separate from or ancillary to such registration or qualification, the company receives and seeks to use or protect any additional benefit or protection from this state through activity not otherwise protected under P.L. 86-272 or this rule, such protection shall be removed.

Q. The protection afforded under P.L. 86-272 and the provisions of this rule shall be determined on a year by year tax basis. Therefore, if at any time during a tax year the company conducts activities that are not protected under P.L. 86-272 or this rule, no sales in this state or income earned by the company attributed to this state during any part of said tax year shall be protected from taxation for purposes of the corporate franchise tax.

R865-6F-8. Allocation and Apportionment of Net Income (Uniform Division of Income for Tax Purposes Act) Pursuant to Utah Code Ann. Sections 59-7-302 through 59-7-321.

(1) Definitions.

(a) "Allocation" means the assignment of nonbusiness income to a particular state.

(b) "Apportionment" means the division of business income between states by the use of a formula containing apportionment factors.

(c) "Base of operations" means the place of more or less permanent nature from which the employee starts work and to which the employee customarily returns in order to receive instructions from the taxpayer or communications from customers or other persons, or to replenish stock or other materials, repair equipment, or perform any other function necessary to the exercise of his trade or profession at some other point or points.

(d) "Business activity" refers to the transactions and activities occurring in the regular course of a particular trade or business of a taxpayer, or to the acquisition, management, and disposition of property that constitute integral parts of the taxpayer's regular trade or business operations.

(e) "Business income" means income of any type or class,

and from any activity, that meets the relationship described in Subsection (2)(b), the transactional test, or Subsection (2)(c), the functional test. The classification of income by the labels occasionally used, such as manufacturing income, compensation for services, sales income, interest, dividends, rents, royalties, gains, operating income, and nonoperating income is of no aid in determining whether income is business or nonbusiness income.

(f) "Compensation" means wages, salaries, commissions, and any other form of remuneration paid to employees for personal services.

(g) "Employee" means an:

(i) officer of a corporation; or

(ii) individual who, under the usual common law rules applicable in determining the employer-employee relationship, has the status of an employee.

(h) "Gross receipts" are the gross amounts realized (the sum of money and the fair market value of other property or services received) on the sale or exchange of property, the performance of services, or the use of property or capital (including rents, royalties, interest and dividends) in a transaction that produces business income, in which the income or loss is recognized (or would be recognized if the transaction were in the United States) under the Internal Revenue Code. Amounts realized on the sale or exchange of property are not reduced for the cost of goods sold or the basis of property sold.

(i) Gross receipts, even if business income, do not include such items as, for example:

(A) repayment, maturity, or redemption of the principal of a loan, bond, or mutual fund or certificate of deposit or similar marketable instrument;

(B) the principal amount received under a repurchase agreement or other transaction properly characterized as a loan;

(C) proceeds from issuance of the taxpayer's own stock or from sale of treasury stock;

(D) damages and other amounts received as the result of litigation;

(E) property acquired by an agent on behalf of another;

(F) tax refunds and other tax benefit recoveries;

(G) pension reversions;

(H) contributions to capital (except for sales of securities by securities dealers);

(I) income from forgiveness of indebtedness; or

(J) amounts realized from exchanges of inventory that are not recognized by the Internal Revenue Code.

(ii) Exclusion of an item from the definition of "gross receipts" is not determinative of its character as business or nonbusiness income. Nothing in this definition shall be construed to modify, impair or supersede any provision of Subsection (11).

(i) "Nonbusiness income" means all income other than business income.

(j) "Place from which the service is directed or controlled" means the place from which the power to direct or control is exercised by the taxpayer.

(k) "Taxpayer" means a corporation as defined in Section 59-7-101.

(l) "To contribute materially" includes being used operationally in the taxpayer's trade or business. Whether property contributes materially is not determined by reference to the property's value or percentage of use. If an item of property contributes materially to the taxpayer's trade or business, the attributes, rights, or components of that property are also operationally used in that business. However, property that is held for mere financial betterment is not operationally used in the taxpayer's trade or business.

(m) "Trade or business" means the unitary business of the taxpayer, part of which is conducted within Utah.

(2) Business and Nonbusiness Income.

(a) Apportionment and Allocation. Section 59-7-303 requires that every item of income be classified as either business income or nonbusiness income. Income for purposes of classification as business or nonbusiness includes gains and losses. Business income is apportioned among jurisdictions by use of a formula. Nonbusiness income is specifically assigned or allocated to one or more specific jurisdictions pursuant to express rules. An item of income is classified as business income if it falls within the definition of business income. An item of income is nonbusiness income only if it does not meet the definitional requirements for being classified as business income.

(b) Transactional Test. Business income includes income arising from transactions and activity in the regular course of the taxpayer's trade or business.

(i) If the transaction or activity is in the regular course of the taxpayer's trade or business, part of which trade or business is conducted within the state, the resulting income of the transaction or activity is business income for Utah purposes. Income may be business income even though the actual transaction or activity that gives rise to the income does not occur in this state.

(ii) For a transaction or activity to be in the regular course of the taxpayer's trade or business, the transaction or activity need not be one that frequently occurs in the trade or business. Most, but not all, frequently occurring transactions or activities will be in the regular course of that trade or business and will, therefore, satisfy the transactional test. It is sufficient to classify a transaction or activity as being in the regular course of a trade or business if it is reasonable to conclude transactions of that type are customary in the kind of trade or business being conducted, or are within the scope of what that kind of trade or business does. However, even if a taxpayer frequently or customarily engages in investment activities, if those activities are for the taxpayer's mere financial betterment rather than for the operations of the trade or business, those activities do not satisfy the transactional test. The transactional test includes income from sales of inventory, property held for sale to customers, and services commonly sold by the trade or business. The transactional test also includes income from the sale of property used in the production of business income of a kind that is sold and replaced with some regularity, even if replaced less frequently than once a year.

(c) Functional Test. Business income also includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations.

(i) The following definitions apply to this Subsection (2)(c).

(A) "Acquisition" means the act of obtaining an interest in property.

(B) "Disposition" means the act, or the power, of relinquishing or transferring an interest in or control over property to another, either in whole or in part.

(C) "Integral part" means property that constitutes a part of the composite whole of the trade or business, each part of which gives value to every other part, in a manner that materially contributes to the production of business income.

(D) "Management" means the oversight, direction, or control, whether directly or by delegation, of the property for the use or benefit of the trade or business.

(E) "Property" includes an interest in, control over, or use of property, whether the interest is held directly, beneficially, by contract, or otherwise, that materially contributes to the production of business income.

(ii) Under the functional test, business income need not be derived from transactions or activities that are in the regular course of the taxpayer's own particular trade or business. It is sufficient, if the property from which the income is derived is

or was an integral, functional, or operative component used in the taxpayer's trade or business operations, or otherwise materially contributed to the production of business income of the trade or business, part of which trade or business is or was conducted within the state. Property that has been converted to nonbusiness use through the passage of a sufficiently lengthy period of time, generally five years, or that has been removed as an operational asset and is instead held by the taxpayer's trade or business exclusively for investment purposes, has lost its character as a business asset and is not subject to this subsection. Property that was an integral part of the trade or business is not considered converted to investment purposes merely because it is placed for sale.

(iii) Income that is derived from isolated sales, leases, assignments, licenses, and other infrequently occurring dispositions, transfers, or transactions involving property, including transactions made in liquidation or the winding-up of business, is business income if the property is or was used in the taxpayer's trade or business operations.

(A) Property that has been converted to nonbusiness use has lost its character as a business asset and is not subject to Subsection (2)(c)(iii).

(B) Income from the licensing of an intangible asset, such as a patent, copyright, trademark, service mark, know-how, trade secrets, or the like, that was developed or acquired for use by the taxpayer in its trade or business operations, constitutes business income whether or not the licensing itself constituted the operation of a trade or business, and whether or not the taxpayer remains in the same trade or business from or for which the intangible asset was developed or acquired.

(iv) Under the functional test, income from intangible property is business income when the intangible property serves an operational function as opposed to solely an investment function. The relevant inquiry focuses on whether the property is or was held in furtherance of the taxpayer's trade or business, that is, on the objective characteristics of the intangible property's use or acquisition and its relation to the taxpayer and the taxpayer's activities. The functional test is not satisfied where the holding of the property is limited to solely an investment function as is the case where the holding of the property is limited to mere financial betterment of the taxpayer in general.

(v) If the property is or was held in furtherance of the taxpayer's trade or business beyond mere financial betterment, income from that property may be business income even though the actual transaction or activity involving the property that gives rise to the income does not occur in this state.

(vi) If with respect to an item of property a taxpayer takes a deduction from business income that is apportioned to this state, or includes the original cost in the property factor, it is presumed that the item of property is or was integral to the taxpayer's trade or business operations. No presumption arises from the absence of any of these actions.

(vii) Application of the functional test is generally unaffected by the form of the property, whether tangible or intangible, real or personal. Income arising from an intangible interest, for example, corporate stock or other intangible interest in a business or a group of assets, is business income when the intangible itself or the property underlying or associated with the intangible is or was an integral, functional, or operative component of the taxpayer's trade or business operations.

(A) Property that has been converted to nonbusiness use has lost its character as a business asset and is not subject to this Subsection (2)(c)(vii).

(B) While apportionment of income derived from transactions involving intangible property as business income may be supported by a finding that the issuer of the intangible property and the taxpayer are engaged in the same trade or business, that is, the same unitary business, establishment of that

relationship is not the exclusive basis for concluding that the income is subject to apportionment.

(C) It is sufficient to support the finding of apportionable income if the holding of the intangible interest served an operational rather than an investment function of mere financial betterment.

(d) Relationship of Transactional Test and Functional Tests to the United States Constitution.

(i) The due process clause and the commerce clause of the United States Constitution restrict states from apportioning income as business income that has no rational relationship with the taxing state. The protection against extra-territorial state taxation afforded by these clauses is often described as the unitary business principle. The unitary business principle requires apportionable income to be derived from the same unitary business that is being conducted as least in part in the state.

(ii) The unitary business conducted in this state includes both a unitary business that the taxpayer alone may be conducting and a unitary business the taxpayer may conduct with any other person. Satisfaction of either the transactional test or the functional test complies with the unitary business principle, because each test requires that the transaction or activity, in the case of the transactional test, or the property, in the case of the functional test, to be tied to the same trade or business that is conducted within the state. Determination of the scope of the unitary business conducted in the state is without regard to the extent to which this state requires or permits combined reporting.

(e) Business and Nonbusiness Income Application of Definitions.

(i) Rents From Real and Tangible Personal Property. Rental income from real and tangible property is business income if the property with respect to which the rental income was received is or was used in the taxpayer's trade or business and therefore is includable in the property factor under Subsection (8)(a)(i). Property that has been converted to nonbusiness use has lost its character as a business asset and is not subject to this subsection.

(ii) Gains or Losses From Sales of Assets. Gain or loss from the sale, exchange, or other disposition of real property or of tangible or intangible personal property constitutes business income if the property while owned by the taxpayer was used in, or was otherwise included in the property factor of the taxpayer's trade or business. However, if the property was utilized for the production of nonbusiness income or it was previously included in the property factor and later removed from the property factor before its sale, exchange, or other disposition, the gain or loss constitutes nonbusiness income. See Subsection (8)(a)(ii).

(iii) Interest. Interest income is business income where the intangible with respect to which the interest was received arises out of or was created in the regular course of the taxpayer's trade or business operations, or where the purpose for acquiring and holding the intangible is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations.

(iv) Dividends. Dividends are business income where the stock with respect to which the dividends were received arose out of or was acquired in the regular course of the taxpayer's trade or business operations or where the acquiring and holding of the stock is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations.

(v) Patent and Copyright Royalties. Patent and copyright royalties are business income where the patent or copyright with respect to which the royalties were received arose out of or was

created in the regular course of the taxpayer's trade or business operations or where the acquiring and holding of the patent or copyright is an integral, functional, or operational component of the taxpayer's trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations.

(vi) Proration of Deductions. In most cases, an allowable deduction of a taxpayer will be applicable only to the business income arising from a particular trade or business or to a particular item of nonbusiness income. In some cases, an allowable deduction may be applicable to the business incomes of more than one trade or business or several items of nonbusiness income. In those cases, the deduction shall be prorated among those trades or businesses and those items of nonbusiness income in a manner that fairly distributes the deduction among the classes of income to which it is applicable.

(f)(i) A schedule must be submitted with the return showing the:

(A) gross income from each class of income being allocated;

(B) amount of each class of applicable expenses, together with explanation or computations showing how amounts were arrived at;

(C) total amount of the applicable expenses for each income class; and

(D) net income of each income class.

(ii) The schedule shall indicate items of income and expenses allocated both to the state and outside the state.

(g) Year to Year Consistency. In filing returns with the state, if the taxpayer departs from or modifies the manner of proration any deduction used in returns for prior years in a material way, the taxpayer shall disclose in the return for the current year the nature and extent of the modification.

(h) State to State Consistency. If the returns or reports filed by a taxpayer with all states to which the taxpayer reports under the Uniform Division of Income for Tax Purposes Act are not uniform in the application or proration of any deduction, the taxpayer shall disclose in its return to this state the nature and extent of any material variance.

(3) Unitary Business.

(a) Unitary Business Principle.

(i) The Concept of a Unitary Business. A unitary business is a single economic enterprise that is made up of either separate parts of a single business entity or a group of business entities related through common ownership that are sufficiently interdependent, integrated and interrelated through their activities so as to provide a synergy and mutual benefit that produces a sharing or exchange of value among them and a significant flow of value to the separate parts. This flow of value to a business entity located in this state that comes from being part of a unitary business conducted both within and without the state is what provides the constitutional due process definite link and minimum connection necessary for the state to apportion business income of the unitary business, even if that income arises in part from activities conducted outside the state. The business income of the unitary business is then apportioned to this state using an apportionment percentage provided by Section 59-7-311. This sharing or exchange of value may also be described as requiring that the operation of one part of the business be dependent upon, or contribute to, the operation of another part of the business. Phrased in the disjunctive, the foregoing means that if the activities of one business either contribute to the activities of another business or are dependent upon the activities of another business, those businesses are part of a unitary business.

(ii) Constitutional Requirement for a Unitary Business. The sharing or exchange of value described in Subsection (3)(a)(i) that defines the scope of a unitary business requires more than the mere flow of funds arising out of a passive

investment or from the financial strength contributed by a distinct business undertaking that has no operational relationship to the unitary business. In this state, the unitary business principle shall be applied to the fullest extent allowed by the United States Constitution. The unitary business principle shall not be applied to result in the combination of business activities or entities under circumstances where, if it were adverse to the taxpayer, the combination of those activities or entities would not be allowed by the United States Constitution.

(iii) Separate Trades or Businesses Conducted Within a Single Entity. A single entity may have more than one unitary business. In those cases, it is necessary to determine the business, or apportionable, income attributable to each separate unitary business as well as its nonbusiness income, which is specifically allocated. The business income of each unitary business is then apportioned by a formula that takes into consideration the in-state and out-of-state factors that relate to the respective unitary business whose income is being apportioned.

(iv) Unitary Business Unaffected by Formal Business Organization. A unitary business may exist within a single business entity or among a group of business entities related through common ownership, as defined in Section 59-7-101.

(b) Determination of a Unitary Business.

(i) A unitary business is characterized by significant flows of value evidenced by factors such as those described in *Mobil Oil Corp. v. Vermont*, 445 US 425 (1980): functional integration, centralization of management, and economies of scale. These factors provide evidence of whether the business activities operate as an integrated whole or exhibit substantial mutual interdependence. Facts suggesting the presence of the factors mentioned above should be analyzed in combination for their cumulative effect and not in isolation. A particular characteristic of a business operation may be suggestive of one or more of the factors mentioned above.

(ii) Description and Illustration of Functional Integration, Centralization of Management, and Economies of Scale.

(A) Functional Integration. Functional integration refers to transfers between, or pooling among, business activities that significantly affect the operation of the business activities. Functional integration includes transfers or pooling with respect to the unitary business's products or services, technical information, marketing information, distribution systems, purchasing, and intangibles such as patents, trademarks, service marks, copyrights, trade secrets, know-how, formulas, and processes. There is no specific type of functional integration that must be present. The following is a list of examples of business operations that support the finding of functional integration. The order of the list does not establish a hierarchy of importance.

(I) Sales, Exchanges, or Transfers. Sales, exchanges, or transfers (collectively "sales") of products, services, and intangibles between business activities provide evidence of functional integration. The significance of the intercompany sales to the finding of functional integration will be affected by the character of what is sold and the percentage of total sales or purchases represented by the intercompany sales. For example, sales among business entities that are part of a vertically integrated unitary business are indicative of functional integration. Functional integration is not negated by the use of a readily determinable market price to effect the intercompany sales, because those sales can represent an assured market for the seller or an assured source of supply for the purchaser.

(II) Common Marketing. The sharing of common marketing features among business entities is an indication of functional integration when the marketing results in significant mutual advantage. Common marketing exists when a substantial portion of the business entities' products, services, or

intangibles are distributed or sold to a common customer, when the business entities use a common trade name or other common identification, or when the business entities seek to identify themselves to their customers as a member of the same enterprise. The use of a common advertising agency or a commonly owned or controlled in-house advertising office does not by itself establish common marketing that is suggestive of functional integration. That activity, however, is relevant to determining the existence of economies of scale and centralization of management.

(III) Transfer or Pooling of Technical Information or Intellectual Property. Transfers or pooling of technical information or intellectual property, such as patents, copyrights, trademarks and service marks, trade secrets, processes or formulas, know-how, research, or development provide evidence of functional integration when the matter transferred is significant to the businesses' operations.

(IV) Common Distribution System. Use of a common distribution system by the business entities, under which inventory control and accounting, storage, trafficking, or transportation are controlled through a common network provides evidence of functional integration.

(V) Common Purchasing. Common purchasing of substantial quantities of products, services, or intangibles from the same source by the business entities, particularly where the purchasing results in significant cost savings and is significant to each entity's operations or sales, provides evidence of functional integration.

(VI) Common or Intercompany Financing. Significant common or intercompany financing, including the guarantee by, or the pledging of the credit of, one or more business entities for the benefit of another business entity or entities provides evidence of functional integration, if the financing activity serves an operational purpose of both borrower and lender. Lending that serves an investment purpose of the lender does not necessarily provide evidence of functional integration.

(B) Centralization of Management. Centralization of management exists when directors, officers, and other management employees jointly participate in the management decisions that affect the respective business activities and that may also operate to the benefit of the entire economic enterprise. Centralization of management can exist whether the centralization is effected from a parent entity to a subsidiary entity, from a subsidiary entity to a parent entity, from one subsidiary entity to another, from one division within a single business entity to another division within a business entity, or from any combination of the foregoing. Centralization of management may exist even when day-to-day management responsibility and accountability has been decentralized, so long as the management has an ongoing operational role with respect to the business activities. An operational role may be effected through mandates, consensus building, or an overall operational strategy of the business, or any other mechanism that establishes joint management.

(I) Facts Providing Evidence of Centralization of Management. Evidence of centralization of management is provided when common officers participate in the decisions relating to the business operations of the different segments. Centralization of management may exist when management shares or applies knowledge and expertise among the parts of the business. Existence of common officers and directors, while relevant to a showing of centralization of management, does not alone provide evidence of centralization of management. Common officers are more likely to provide evidence of centralization of management than are common directors.

(II) Stewardship Distinguished. Centralized efforts to fulfill stewardship oversight are not evidence of centralization of management. Stewardship oversight consists of those activities that any owner would take to review the performance

of or safeguard an investment. Stewardship oversight is distinguished from those activities that an owner may take to enhance value by integrating one or more significant operating aspects of one business activity with the other business activities of the owner. For example, implementing reporting requirements or mere approval of capital expenditures may evidence only stewardship oversight.

(C) Economies of Scale. Economies of scale refers to a relation among and between business activities resulting in a significant decrease in the average per unit cost of operational or administrative functions due to the increase in operational size. Economies of scale may exist from the inherent cost savings that arise from the presence of functional integration or centralization of management. The following are examples of business operations that support the finding of economies of scale. The order of the list does not establish a hierarchy of importance.

(I) Centralized Purchasing. Centralized purchasing designed to achieve savings due to the volume of purchases, the timing of purchases, or the interchangeability of purchased items among the parts of the business engaging in the purchasing provides evidence of economies of scale.

(II) Centralized Administrative Functions. The performance of traditional corporate administrative functions, such as legal services, payroll services, pension and other employee benefit administration, in common among the parts of the business may result in some degree of economies of scale. A business entity that secures savings in the performance of corporate administrative services due to its affiliation with other business entities that it would not otherwise reasonably be able to secure on its own because of its size, financial resources, or available market provides evidence of economies of scale.

(c) Indicators of a Unitary Business.

(i) Business activities that are in the same general line of business generally constitute a single unitary business, as for example, a multistate grocery chain.

(ii) Business activities that are part of different steps in a vertically structured business almost always constitute a single unitary business. For example, a business engaged in the exploration, development, extraction, and processing of a natural resource and the subsequent sale of a product based upon the extracted natural resource, is engaged in a single unitary business, regardless of the fact that the various steps in the process are operated substantially independently of each other with only general supervision from the business's executive offices.

(iii) Business activities that might otherwise be considered as part of more than one unitary business may constitute one unitary business when the factors outlined in Subsection (3)(b) are present. For example, some businesses conducting diverse lines of business may properly be considered as engaged in only one unitary business when the central executive officers are actively involved in the operations of the various business activities and there are centralized offices that perform for the business the normal matters a truly independent business would perform for itself, such as personnel, purchasing, advertising, or financing.

(4) Apportionment and Allocation.

(a)(i) If the business activity with respect to the trade or business of a taxpayer occurs both within and without this state, and if by reason of that business activity the taxpayer is taxable in another state, the portion of the net income (or net loss) arising from the trade or business derived from sources within this state shall be determined by apportionment in accordance with Sections 59-7-311 to 59-7-319.

(ii) For purposes of determining the fraction by which business income shall be apportioned to this state under Section 59-7-311:

(A) Except as provided in Subsection (4)(a)(ii)(B), if a

taxpayer does not make an election to double weight the sales factor under Subsection 59-7-311(3) and one or more of the factors listed in Subsection 59-7-311(2)(a) is missing, the fraction by which business income shall be apportioned to the state shall be determined by adding the factors present and dividing that sum by the number of factors present.

(B) If a taxpayer has made an election to double weight the sales factor under Section 59-7-311(3) and if the sales factor is present, the denominator of the fraction described in Subsection (4)(a)(ii)(A) shall be increased by one.

(b) Allocation. Any taxpayer subject to the taxing jurisdiction of this state shall allocate all of its nonbusiness income or loss within or without this state in accordance with Sections 59-7-306 to 59-7-310.

(5) Consistency and Uniformity in Reporting. In filing returns with this state, if the taxpayer departs from or modifies the manner in which income has been classified as business income or nonbusiness income in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification. If the returns or reports filed by a taxpayer for all states to which the taxpayer reports under UDITPA are not uniform in the classification of income as business or nonbusiness income, the taxpayer shall disclose in its return to this state the nature and extent of the variance.

(6) Taxable in Another State.

(a) In General. Under Section 59-7-303 the taxpayer is subject to the allocation and apportionment provisions of UDITPA if it has income from business activity that is taxable both within and without this state. A taxpayer's income from business activity is taxable without this state if the taxpayer, by reason of business activity (i.e., the transactions and activity occurring in the regular course of the trade or business), is taxable in another state within the meaning of Section 59-7-305. A taxpayer is taxable within another state if it meets either one of two tests:

(i) if by reason of business activity in another state the taxpayer is subject to one of the types of taxes specified in Section 59-7-305(1), namely: a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax; or

(ii) if by reason of business activity another state has jurisdiction to subject the taxpayer to a net income tax, regardless of whether the state imposes that tax on the taxpayer. A taxpayer is not taxable in another state with respect to the trade or business merely because the taxpayer conducts activities in that state pertaining to the production of nonbusiness income or business activities relating to a separate trade or business.

(b) When a Taxpayer Is Subject to a Tax Under Section 59-7-305. A taxpayer is subject to one of the taxes specified in Section 59-7-305(1) if it carries on business activity in a state and that state imposes such a tax thereon. Any taxpayer that asserts that it is subject to one of the taxes specified in Section 59-7-305(1) in another state shall furnish to the Tax Commission, upon its request, evidence to support that assertion. The Tax Commission may request that the evidence include proof that the taxpayer has filed the requisite tax return in the other state and has paid any taxes imposed under the law of the other state. The taxpayer's failure to produce that proof may be taken into account in determining whether the taxpayer is subject to one of the taxes specified in Section 59-7-305(1) in the other state. If the taxpayer voluntarily files and pays one or more taxes when not required to do so by the laws of that state or pays a minimal fee for qualification, organization, or for the privilege of doing business in that state, but

(i) does not actually engage in business activity in that state, or

(ii) does actually engage in some business activity, not sufficient for nexus, and the minimum tax bears no relation to

the taxpayer's business activity within that state, the taxpayer is not subject to one of the taxes specified within the meaning of Section 59-7-305(1).

(c) When a State Has Jurisdiction to Subject a Taxpayer to a Net Income Tax. The second test, that of Section 59-7-305(2), applies if the taxpayer's business activity is sufficient to give the state jurisdiction to impose a net income tax by reason of business activity under the Constitution and statutes of the United States. Jurisdiction to tax is not present where the state is prohibited from imposing the tax by reason of the provisions of Public Law 86-272, 15 U. S. C. A. Sec. 381-385 (P.L. 86-272). In the case of any state as defined in Section 59-7-302(6), other than a state of the United States or political subdivision of a state, the determination of whether a state has jurisdiction to subject the taxpayer to a net income tax shall be made as though the jurisdictional standards applicable to a state of the United States applied in that state. If jurisdiction is otherwise present, the state is not considered as without jurisdiction by reason of the provisions of a treaty between that state and the United States.

(7) Apportionment Formula. All business income of the taxpayer shall be apportioned to this state by use of the apportionment formula set forth in Section 59-7-311. The elements of the apportionment formula are the property factor, see Subsection (8), the payroll factor, see Subsection (9), and the sales factor, see Subsection (10) of the trade or business of the taxpayer. For exceptions see Subsection (11).

(8) Property Factor.

(a) In General.

(i) The property factor of the apportionment formula shall include all real and tangible personal property owned or rented by the taxpayer and used during the tax period in the regular course of its trade or business. Real and tangible personal property includes land, buildings, machinery, stocks of goods, equipment, and other real and tangible personal property but does not include coin or currency.

(ii) Property used in connection with the production of nonbusiness income shall be excluded from the property factor. Property used both in the regular course of the taxpayer's trade or business and in the production of nonbusiness income shall be included in the factor only to the extent the property is used in the regular course of the taxpayer's trade or business. The method of determining the portion of the value to be included in the factor will depend upon the facts of each case.

(iii) The property factor shall reflect the average value of property includable in the factor. Refer to Subsection (8)(g).

(b) Property Used for the Production of Business Income. Property shall be included in the property factor if it is actually used or is available for or capable of being used during the tax period in the regular course of the trade or business of the taxpayer. Property held as reserves or standby facilities or property held as a reserve source of materials shall be included in the factor. For example, a plant temporarily idle or raw material reserves not currently being processed are includable in the factor. Property or equipment under construction during the tax period, except inventoriable goods in process, shall be excluded from the factor until the property is actually used in the regular course of the trade or business of the taxpayer. If the property is partially used in the regular course of the trade or business of the taxpayer while under construction, the value of the property to the extent used shall be included in the property factor. Property used in the regular course of the trade or business of the taxpayer shall remain in the property factor until its permanent withdrawal is established by an identifiable event such as its conversion to the production of nonbusiness income, its sale, or the lapse of an extended period of time, normally five years, during which the property is no longer held for use in the trade or business.

(c) Consistency in Reporting. In filing returns with this

state, if the taxpayer departs from or modifies the manner of valuing property, or of excluding or including property in the property factor, used in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification. If the returns or reports filed by the taxpayer with all states to which the taxpayer reports under UDITPA are not uniform in the valuation of property and in the exclusion or inclusion of property in the property factor, the taxpayer shall disclose in its return to this state the nature and extent of the variance.

(d) Property Factor Numerator. The numerator of the property factor shall include the average value of the real and tangible personal property owned or rented by the taxpayer and used in this state during the tax period in the regular course of the trade or business of the taxpayer. Property in transit between locations of the taxpayer to which it belongs shall be considered to be at the destination for purposes of the property factor. Property in transit between a buyer and seller that is included by a taxpayer in the denominator of its property factor in accordance with its regular accounting practices shall be included in the numerator according to the state of destination. The value of mobile or movable property such as construction equipment, trucks, or leased electronic equipment that are located within and without this state during the tax period shall be determined for purposes of the numerator of the factor on the basis of total time within the state during the tax period. An automobile assigned to a traveling employee shall be included in the numerator of the factor of the state to which the employee's compensation is assigned under the payroll factor or in the numerator of the state in which the automobile is licensed.

(e) Valuation of Owned Property.

(i) Property owned by the taxpayer shall be valued at its original cost. As a general rule original cost is deemed to be the basis of the property for state franchise or income tax purposes (prior to any adjustments) at the time of acquisition by the taxpayer and adjusted by subsequent capital additions or improvements thereto and partial disposition thereof, by reasons including sale, exchange, and abandonment. However, capitalized intangible drilling and development costs shall be included in the property factor whether or not they have been expensed for either federal or state tax purposes.

(ii) Inventory of stock of goods shall be included in the factor in accordance with the valuation method used for state tax purposes.

(iii) Property acquired by gift or inheritance shall be included in the factor at its basis for determining depreciation.

(f) Valuation of Rented Property.

(i) Property rented by the taxpayer is valued at eight times its net annual rental rate. The net annual rental rate for any item of rented property is the annual rental rate paid by the taxpayer for the property, less the aggregate annual subrental rates paid by subtenants of the taxpayer. See Subsection (11)(b) for special rules where the use of the net annual rental rate produces a negative or clearly inaccurate value or where property is used by the taxpayer at no charge or rented at a nominal rental rate.

(ii) Subrents are not deducted when the subrents constitute business income because the property that produces the subrents is used in the regular course of the trade or business of the taxpayer when it is producing the income. Accordingly there is no reduction in its value.

(iii) Annual rental rate is the amount paid as rental for property for a 12-month period; i.e., the amount of the annual rent. Where property is rented for less than a 12-month period, the rent paid for the actual period of rental shall constitute the annual rental rate for the tax period. However, where a taxpayer has rented property for a term of 12 or more months and the current tax period covers a period of less than 12 months (due, for example, to a reorganization or change of accounting period), the rent paid for the short tax period shall be

annualized. If the rental term is for less than 12 months, the rent shall not be annualized beyond its term. Rent shall not be annualized because of the uncertain duration when the rental term is on a month to month basis.

(iv) Annual rent is the actual sum of money or other consideration payable, directly or indirectly, by the taxpayer or for its benefit for the use of the property and includes:

(A) Any amount payable for the use of real or tangible personal property, or any part thereof, whether designated as a fixed sum of money or as a percentage of sales, profits or otherwise.

(B) Any amount payable as additional rent or in lieu of rents, such as interest, taxes, insurance, repairs or any other items that are required to be paid by the terms of the lease or other arrangement, not including amounts paid as service charges, such as utilities, and janitor services. If a payment includes rent and other charges unsegregated, the amount of rent shall be determined by consideration of the relative values of the rent and other items.

(v) Annual rent does not include:

(A) incidental day-to-day expenses such as hotel or motel accommodations, or daily rental of automobiles;

(B) royalties based on extraction of natural resources, whether represented by delivery or purchase. For this purpose, a royalty includes any consideration conveyed or credited to a holder of an interest in property that constitutes a sharing of current or future production of natural resources from that property, irrespective of the method of payment or how that consideration may be characterized, whether as a royalty, advance royalty, rental, or otherwise.

(vi) Leasehold improvements shall, for the purposes of the property factor, be treated as property owned by the taxpayer regardless of whether the taxpayer is entitled to remove the improvements or the improvements revert to the lessor upon expiration of the lease. Hence, the original cost of leasehold improvements shall be included in the factor.

(g) Averaging Property Values. As a general rule, the average value of property owned by the taxpayer shall be determined by averaging the values at the beginning and end of the tax period. However, the Tax Commission may require or allow averaging by monthly values if that method of averaging is required to properly reflect the average value of the taxpayer's property for the tax period.

(i) Averaging by monthly values will generally be applied if substantial fluctuations in the values of the property exist during the tax period or where property is acquired after the beginning of the tax period or disposed of before the end of the tax period.

(ii) Example: The monthly value of the taxpayer's property was as follows:

TABLE

January	\$ 2,000
February	2,000
March	3,000
April	3,500
May	4,500
June	10,000
July	15,000
August	17,000
September	23,000
October	25,000
November	13,000
December	2,000
Total	\$120,000

The average value of the taxpayer's property includable in the property factor for the income year is determined as follows:
 $\$120,000 / 12 = \$10,000$

(iii) Averaging with respect to rented property is achieved automatically by the method of determining the net annual rental rate of the property as set forth in Subsection (8)(g).

(9) Payroll Factor.

(a) The payroll factor of the apportionment formula shall include the total amount paid by the taxpayer in the regular course of its trade or business for compensation during the tax period.

(b) The total amount paid to employees is determined upon the basis of the taxpayer's accounting method. If the taxpayer has adopted the accrual method of accounting, all compensation properly accrued shall be deemed to have been paid. Notwithstanding the taxpayer's method of accounting, at the election of the taxpayer, compensation paid to employees may be included in the payroll factor by use of the cash method if the taxpayer is required to report compensation under that method for unemployment compensation purposes. The compensation of any employee on account of activities that are connected with the production of nonbusiness income shall be excluded from the factor.

(c) Payments made to an independent contractor or any other person not properly classifiable as an employee are excluded from the payroll factor. Only amounts paid directly to employees are included in the payroll factor. Amounts considered paid directly include the value of board, rent, housing, lodging, and other benefits or services furnished to employees by the taxpayer in return for personal services.

(d) Generally, a person will be considered to be an employee if he is included by the taxpayer as an employee for purposes of the payroll taxes imposed by the Federal Insurance Contributions Act. However, since certain individuals are included within the term employees in the Federal Insurance Contributions Act who would not be employees under the usual common law rules, it may be established that a person who is included as an employee for purposes of the Federal Insurance Contributions Act is not an employee for purposes of this rule.

(e)(A) In filing returns with this state, if the taxpayer departs from or modifies the treatment of compensation paid used in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification.

(B) If the returns or reports filed by the taxpayer with all states to which the taxpayer reports under UDITPA are not uniform in the treatment of compensation paid, the taxpayer shall disclose in its return to this state the nature and extent of the variance.

(f) Denominator. The denominator of the payroll factor is the total compensation paid everywhere during the tax period. Accordingly, compensation paid to employees whose services are performed entirely in a state where the taxpayer is immune from taxation, for example, by P.L. 86-272, are included in the denominator of the payroll factor.

(g) Numerator. The numerator of the payroll factor is the total amount paid in this state during the tax period by the taxpayer for compensation. The tests in Section 59-7-316 to be applied in determining whether compensation is paid in this state are derived from the Model Unemployment Compensation Act. Accordingly, if compensation paid to employees is included in the payroll factor by use of the cash method of accounting or if the taxpayer is required to report compensation under that method for unemployment compensation purposes, it shall be presumed that the total wages reported by the taxpayer to this state for unemployment compensation purposes constitute compensation paid in this state except for compensation excluded under this Subsection (9). The presumption may be overcome by satisfactory evidence that an employee's compensation is not properly reportable to this state for unemployment compensation purposes.

(h) Compensation Paid in this State. Compensation is paid in this state if any one of the following tests applied consecutively are met:

(i) The employee's service is performed entirely within the

state.

(ii) The employee's service is performed both within and without the state, but the service performed without the state is incidental to the employee's service within the state. The word incidental means any service that is temporary or transitory in nature, or that is rendered in connection with an isolated transaction.

(iii) If the employee's services are performed both within and without this state, the employee's compensation will be attributed to this state:

(A) if the employee's base of operations is in this state; or

(B) if there is no base of operations in any state in which some part of the service is performed, but the place from which the service is directed or controlled is in this state; or

(C) if the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed but the employee's residence is in this state.

(10) Sales Factor. In General.

(a) Section 59-7-302(5) defines the term "sales" to mean all gross receipts of the taxpayer not allocated under Section 59-7-306 through 59-7-310. Thus, for purposes of the sales factor of the apportionment formula for the trade or business of the taxpayer, the term sales means all gross receipts derived by the taxpayer from transactions and activity in the regular course of the trade or business. The following are rules determining sales in various situations.

(i) In the case of a taxpayer engaged in manufacturing and selling or purchasing and reselling goods or products, sales includes all gross receipts from the sales of goods or products (or other property of a kind that would properly be included in the inventory of the taxpayer if on hand at the close of the tax period) held by the taxpayer primarily for sale to customers in the ordinary course of its trade or business. Gross receipts for this purpose means gross sales, less returns and allowances and includes all interest income, service charges, carrying charges, or time-price differential charges incidental to sales. Federal and state excise taxes (including sales taxes) shall be included as part of receipts if taxes are passed on to the buyer or included as part of the selling price of the product.

(ii) In the case of cost plus fixed fee contracts, such as the operation of a government-owned plant for a fee, sales includes the entire reimbursed cost, plus the fee.

(iii) In the case of a taxpayer engaged in providing services, such as the operation of an advertising agency, or the performance of equipment service contracts, or research and development contracts, sales includes the gross receipts from the performance of services including fees, commissions, and similar items.

(iv) In the case of a taxpayer engaged in renting real or tangible property, sales includes the gross receipts from the rental, lease or licensing of the use of the property.

(v) In the case of a taxpayer engaged in the sale, assignment, or licensing of intangible personal property such as patents and copyrights, sales includes the gross receipts therefrom.

(vi) If a taxpayer derives receipts from the sale of equipment used in its business, those receipts constitute sales. For example, a truck express company owns a fleet of trucks and sells its trucks under a regular replacement program. The gross receipts from the sales of the trucks are included in the sales factor.

(vii) In some cases certain gross receipts should be disregarded in determining the sales factor in order that the apportionment formula will operate fairly to apportion to this state the income of the taxpayer's trade or business. See Subsection (11)(c).

(viii) In filing returns with this state, if the taxpayer departs from or modifies the basis for excluding or including

gross receipts in the sales factor used in returns for prior years, the taxpayer shall disclose in the return for the current year the nature and extent of the modification.

(ix) If the returns or reports filed by the taxpayer with all states to which the taxpayer reports under UDITPA are not uniform in the inclusion or exclusion of gross receipts, the taxpayer shall disclose in its return to this state the nature and extent of the variance.

(b) Denominator. The denominator of the sales factor shall include the total gross receipts derived by the taxpayer from transactions and activity in the regular course of its trade or business, except receipts excluded under Subsection (11)(c).

(c) Numerator. The numerator of the sales factor shall include gross receipts attributable to this state and derived by the taxpayer from transactions and activity in the regular course of its trade or business. All interest income, service charges, carrying charges, or time-price differential charges incidental to gross receipts shall be included regardless of the place where the accounting records are maintained or the location of the contract or other evidence of indebtedness.

(d) Sales of Tangible Personal Property in this State.

(i) Gross receipts from the sales of tangible personal property (except sales to the United States government; see Subsection (10)(e)) are in this state:

(A) if the property is delivered or shipped to a purchaser within this state regardless of the f.o.b. point or other conditions of sale; or

(B) if the property is shipped from an office, store, warehouse, factory, or other place of storage in this state and the taxpayer is not taxable in the state of the purchaser.

(ii) Property shall be deemed to be delivered or shipped to a purchaser within this state if the recipient is located in this state, even though the property is ordered from outside this state.

(iii) Property is delivered or shipped to a purchaser within this state if the shipment terminates in this state, even though the property is subsequently transferred by the purchaser to another state.

(iv) The term "purchaser within this state" shall include the ultimate recipient of the property if the taxpayer in this state, at the designation of the purchaser, delivers to or has the property shipped to the ultimate recipient within this state.

(v) When property being shipped by a seller from the state of origin to a consignee in another state is diverted while en route to a purchaser in this state, the sales are in this state.

(vi) If the taxpayer is not taxable in the state of the purchaser, the sale is attributed to this state if the property is shipped from an office, store, warehouse, factory, or other place of storage in this state.

(vii) If a taxpayer whose salesman operates from an office located in this state makes a sale to a purchaser in another state in which the taxpayer is not taxable and the property is shipped directly by a third party to the purchaser, the following rules apply:

(A) If the taxpayer is taxable in the state from which the third party ships the property, then the sale is in that state.

(B) If the taxpayer is not taxable in the state from which the property is shipped, the sale is in this state.

(e)(i) Sales of Tangible Personal Property to United States Government in this state.

(ii) Gross receipts from the sales of tangible personal property to the United States government are in this state if the property is shipped from an office, store, warehouse, factory, or other place of storage in this state. For purposes of this rule, only sales for which the United States government makes direct payment to the seller pursuant to the terms of a contract constitute sales to the United States government. Thus, as a general rule, sales by a subcontractor to the prime contractor, the party to the contract with the United States government, do

not constitute sales to the United States government.

(f) Sales Other than Sales of Tangible Personal Property in this State.

(i) In general, Section 59-7-319(1) provides for the inclusion in the numerator of the sales factor of gross receipts from transactions other than sales of tangible personal property (including transactions with the United States government). Under Section 59-7-319(1), gross receipts are attributed to this state if the income producing activity that gave rise to the receipts is performed wholly within this state. Also, gross receipts are attributed to this state if, with respect to a particular item of income, the income producing activity is performed within and without this state but the greater proportion of the income producing activity is performed in this state, based on costs of performance.

(ii) The term "income producing activity" applies to each separate item of income and means the transactions and activity directly engaged in by the taxpayer in the regular course of its trade or business for the ultimate purpose of obtaining gains or profit. Income producing activity does not include transactions and activities performed on behalf of a taxpayer, such as those conducted on its behalf by an independent contractor. Accordingly, the income producing activity includes the following:

(A) the rendering of personal services by employees or the utilization of tangible and intangible property by the taxpayer in performing a service;

(B) the sale, rental, leasing, or licensing or other use of real property;

(C) the rental, leasing, licensing or other use of intangible personal property; or

(D) the sale, licensing or other use of intangible personal property. The mere holding of intangible personal property is not, of itself, an income producing activity.

(iii) The term "costs of performance" means direct costs determined in a manner consistent with generally accepted accounting principles and in accordance with accepted conditions or practices in the trade or business of the taxpayer.

(iv) Receipts (other than from sales of tangible personal property) in respect to a particular income producing activity are in this state if:

(A) the income producing activity is performed wholly within this state; or

(B) the income producing activity is performed both in and outside this state and a greater proportion of the income producing activity is performed in this state than in any other state, based on costs of performance.

(v) The following are special rules for determining when receipts from the income producing activities described below are in this state:

(A) Gross receipts from the sale, lease, rental or licensing of real property are in this state if the real property is located in this state.

(B) Gross receipts from the rental, lease, or licensing of tangible personal property are in this state if the property is located in this state. The rental, lease, licensing or other use of tangible personal property in this state is a separate income producing activity from the rental, lease, licensing or other use of the same property while located in another state. Consequently, if the property is within and without this state during the rental, lease or licensing period, gross receipts attributable to this state shall be measured by the ratio that the time the property was physically present or was used in this state bears to the total time or use of the property everywhere during the period.

(C) Gross receipts for the performance of personal services are attributable to this state to the extent services are performed in this state. If services relating to a single item of income are performed partly within and partly without this state,

the gross receipts for the performance of services shall be attributable to this state only if a greater portion of the services were performed in this state, based on costs of performance. Usually where services are performed partly within and partly without this state, the services performed in each state will constitute a separate income producing activity. In that case, the gross receipts for the performance of services attributable to this state shall be measured by the ratio that the time spent in performing services in this state bears to the total time spent in performing services everywhere. Time spent in performing services includes the amount of time expended in the performance of a contract or other obligation that gives rise to gross receipts. Personal service not directly connected with the performance of the contract or other obligations, as for example, time expended in negotiating the contract, is excluded from the computations.

(11) Special Rules:

(a) Section 59-7-320 provides that if the allocation and apportionment provisions of UDITPA do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for, or the tax administrator may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

- (i) separate accounting;
- (ii) the exclusion of any one or more of the factors;
- (iii) the inclusion of one or more additional factors that will fairly represent the taxpayer's business activity in this state; or

(iv) the employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

(b) Property Factor.

The following special rules are established in respect to the property factor of the apportionment formula:

(i) If the subrents taken into account in determining the net annual rental rate under Subsection (8)(f)(ii) produce a negative or clearly inaccurate value for any item of property, another method that will properly reflect the value of rented property may be required by the Tax Commission or requested by the taxpayer. In no case however, shall the value be less than an amount that bears the same ratio to the annual rental rate paid by the taxpayer for property as the fair market value of that portion of property used by the taxpayer bears to the total fair market value of the rented property.

(ii) If property owned by others is used by the taxpayer at no charge or rented by the taxpayer for a nominal rate, the net annual rental rate for the property shall be determined on the basis of a reasonable market rental rate for that property.

(c) Sales Factors.

The following special rules are established in respect to the sales factor of the apportionment formula:

(i) Where substantial amounts of gross receipts arise from an incidental or occasional sale of a fixed asset used in the regular course of the taxpayer's trade or business, those gross receipts shall be excluded from the sales factor. For example, gross receipts from the sale of a factory or plant will be excluded.

(ii) Insubstantial amounts of gross receipts arising from incidental or occasional transactions or activities may be excluded from the sales factor unless exclusion would materially affect the amount of income apportioned to this state. For example, the taxpayer ordinarily may include or exclude from the sales factor gross receipts from such transactions as the sale of office furniture, and business automobiles.

(iii) Where the income producing activity in respect to business income from intangible personal property can be readily identified, that income is included in the denominator of the sales factor and, if the income producing activity occurs in this state, in the numerator of the sales factor as well. For example, usually the income producing activity can be readily

identified in respect to interest income received on deferred payments on sales of tangible property, see Subsection (10)(a)(i), and income from the sale, licensing or other use of intangible personal property, see Subsection (10)(f)(ii)(D).

(A) Where business income from intangible property cannot readily be attributed to any particular income producing activity of the taxpayer, the income cannot be assigned to the numerator of the sales factor for any state and shall be excluded from the denominator of the sales factor. For example, where business income in the form of dividends received on stock, royalties received on patents or copyrights, or interest received on bonds, debentures or government securities results from the mere holding of the intangible personal property by the taxpayer, such dividends and interest shall be excluded from the denominator of the sales factor.

(B) Exclude from the denominator of the sales factor, receipts from the sales of securities unless the taxpayer is a dealer therein.

(iv) Where gains and losses on the sale of liquid assets are not excluded from the sales factor by other provisions under Subsections (11)(c)(i) through (iii), such gains or losses shall be treated as provided in this Subsection (11)(c)(iv). This Subsection (11)(c)(iv) does not provide rules relating to the treatment of other receipts produced from holding or managing such assets.

(A) If a taxpayer holds liquid assets in connection with one or more treasury functions of the taxpayer, and the liquid assets produce business income when sold, exchanged or otherwise disposed, the overall net gain from those transactions for each treasury function for the tax period is included in the sales factor. For purposes of this Subsection (11)(c)(iv), each treasury function will be considered separately.

(B) For purposes of this Subsection (11)(c)(iv), a liquid asset is an asset (other than functional currency or funds held in bank accounts) held to provide a relatively immediate source of funds to satisfy the liquidity needs of the trade or business. Liquid assets include:

(I) foreign currency (and trading positions therein) other than functional currency used in the regular course of the taxpayer's trade or business;

(II) marketable instruments (including stocks, bonds, debentures, options, warrants, futures contracts, etc.); and

(III) mutual funds which hold such liquid assets.

(C) An instrument is considered marketable if it is traded in an established stock or securities market and is regularly quoted by brokers or dealers in making a market. Stock in a corporation which is unitary with the taxpayer, or which has a substantial business relationship with the taxpayer, is not considered marketable stock.

(D) For purposes of this Subsection (11)(c)(iv)(D), a treasury function is the pooling and management of liquid assets for the purpose of satisfying the cash flow needs of the trade or business, such as providing liquidity for a taxpayer's business cycle, providing a reserve for business contingencies, business acquisitions, etc. A taxpayer principally engaged in the trade or business of purchasing and selling instruments or other items included in the definition of liquid assets set forth herein is not performing a treasury function with respect to income so produced.

(E) Overall net gain refers to the total net gain from all transactions incurred at each treasury function for the entire tax period, not the net gain from a specific transaction.

(d) Domestic International Sales Corporation (DISC). In any case in which a corporation, subject to the income tax jurisdiction of Utah, owns 50 percent or more of the voting power of the stock of a corporation classified as a DISC under the provisions of Sec. 992 Internal Revenue Code, a combined filing with the DISC corporation is required.

(e) Partnership or Joint Venture Income. Income or loss

from partnership or joint venture interests shall be included in income and apportioned to Utah through application of the three-factor formula consisting of property, payroll and sales. For apportionment purposes, the portion of partnership or joint venture property, payroll and sales to be included in the corporation's property, payroll and sales factors shall be computed on the basis of the corporation's ownership interest in the partnership or joint venture, and otherwise in accordance with other applicable provisions of this rule.

R865-6F-14. Extent to Which Federal Income Tax Provisions Are Followed for Corporation Franchise Tax Purposes Pursuant to Utah Code Ann. Sections 59-7-106, 59-7-108, 59-7-501, and 59-7-502.

A. It is the policy of the Tax Commission, in matters involving the determination of net income for Utah corporation franchise tax purposes, to follow as closely as possible federal requirements with respect to the same matters. In some instances, of course, the federal and state statutes differ; and due to such conflict, the federal rulings, regulations, and decisions cannot be followed. Furthermore, in some instances, the Tax Commission may disagree with the federal determinations and does not consider them controlling for Utah corporation franchise tax purposes.

1. The items of major importance ordinarily allowed in conformity with federal requirements are:

- a. depreciation (see rule R865-6F-9),
- b. depletion,
- c. exploration and development expenses,
- d. intangible drilling costs,
- e. accounting methods and periods (see rule R865-6F-2),

and

- f. Subpart F income.

2. The following are the major items which require different treatment under the state and federal statutes:

- a. installment sales (see rule R865-6F-15),
- b. consolidated returns (see rule R865-6F-4),
- c. liquidating dividends,
- d. municipal bond interest,
- e. capital loss deduction,
- f. loss carry-overs and carry-backs, and
- g. gross-up on foreign dividends.

Note: The only reserves permitted in determining net income for Utah corporation franchise tax purposes are depreciation, depletion, and bad debts.

R865-6F-15. Installment Basis of Reporting Income in Year of Termination Pursuant to Utah Code Ann. Section 59-7-112.

A. The Corporation Franchise Tax Act allows a corporation, under certain conditions and under rules prescribed by the Tax Commission, to report income arising from the sale or other disposition of property on a deferred or so-called installment basis. Thus, a gain technically realized at the time the sale is made may, at the election of the taxpayer, be reported on a deferred basis in accordance with the law and the following sections of this rule. The rule allowing deferment of reporting such income is only one of postponement of the tax, and not one of exemption from a tax otherwise lawfully due. Thus, the privilege of deferment is terminated if the taxpayer ceases to be subject to tax prior to the reporting of the entire amount of installment income. When a taxpayer elects to report income arising from the sale or other disposition of property as provided in Section 59-7-112, and the entire income therefrom has not been reported prior to the year that the taxpayer ceases to be subject to the tax imposed under the Utah Corporation Income and Franchise Tax Acts, the unreported income is included in the return for the last year in which the taxpayer is subject to the tax. This rule applies to all corporations which elect to report

on the installment basis. If a corporation on this basis desires to dissolve or to withdraw, it must comply with the provisions hereof prior to issuance of the tax clearance certificate.

B. Income reported under the provisions of Section 59-7-112 and this rule shall be subject to the same treatment in the allocation of income; i.e., specific allocation or apportionment, as would have been accorded the original income from the sale under the provisions of the Uniform Division of Income for Tax Purposes Act. In case such income is subject to apportionment, the apportionment fraction for the year in which the income is reported applies rather than the year in which the sale was made.

R865-6F-16. Apportionment of Income of Long-Term Construction Contractors Pursuant to Utah Code Ann. Sections 59-7-302 through 321.

(1) When a taxpayer elects to use the percentage-of-completion method of accounting, or the completed contract method of accounting for long-term contracts, and has income from sources both within and without this state, the amount of business income derived from such long-term contracts from sources within this state is determined pursuant to this rule.

(2) Business income is apportioned to this state by a three-factor formula consisting of property, payroll, and sales--regardless of the method of accounting for long-term contracts elected by the taxpayer. The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(3) and (6). Except as modified by this rule, the property factor shall be determined in accordance with R865-6F-8(7), the payroll factor in accordance with R865-6F-8(8), and the sales factor in accordance with R865-6F-8(9).

(a) Percentage-of-completion method. Under this method of accounting for long-term contracts, the amount included each year as business income from each contract is the amount by which the gross contract price (which corresponds to the percentage of the entire contract completed during the income years) exceeds all expenditures made during the income year in connection with the contract. Beginning and ending material and supplies inventories must be appropriately accounted for in reporting expenditures.

(b) Completed-contract method. Under this method of accounting, business income derived from long-term contracts is reported for the income year in which the contract is completed. A special computation is required to compute the amount of business income attributable to this state from each completed contract. All receipts and expenditures applicable to the contracts, whether complete or incomplete at the end of the income year, are excluded from other business income, which are apportioned by the regular three-factor formula of property, payroll, and sales.

(3) Property factor. In general, the numerator and denominator of the property factor is determined as set forth in Sections 59-7-312, 59-7-313, and 59-7-314 and the rules thereunder. However, the following special rules are also applicable:

(a) The average value of the taxpayer's cost (including materials and labor) of construction in progress, to the extent these costs exceed progress billings, are included in the denominator of the property factor. The value of those construction costs attributable to construction projects in this state are included in the numerator of the property factor. It may be necessary to use monthly averages if yearly averages do not properly reflect the average value of the taxpayer's equity.

(b) Rent paid for the use of equipment directly attributable to a particular construction project is included in the property factor at eight times the net annual rental rate, even though the rental expense may be capitalized into the cost of construction.

(c) The property factor is computed in the same manner

for all long-term-contract methods of accounting and is computed for each income year, even though under the completed-contract method of accounting business income is computed separately.

(4) Payroll factor. In general, the numerator and denominator of the payroll factor are determined as set forth in Sections 59-7-315 and 59-7-316 and the rules thereunder. However, the following special rules are also applicable.

(a) Compensation paid to employees attributable to a particular construction project is included in the payroll factor even though capitalized into the cost of construction.

(b) Compensation paid to employees who, in the aggregate, perform most of their services in a state to which their employer does not report them for unemployment tax purposes, is attributed to the state where the services are performed. For example, a taxpayer engaged in a long-term contract in State X sends several key employees to that state to supervise the project. The taxpayer, for unemployment tax purposes reports these employees to State Y where the main office is maintained and where the employees reside. For payroll factor purposes and in accordance with Section 59-7-316 and the rule thereunder, the compensation is assigned to the numerator of State X.

(c) The payroll factor is computed in the same manner for all long-term-contract methods of accounting and is computed for each income year, even though under the completed contract method of accounting, business income is computed separately.

(5) Sales Factor. In general, the numerator and denominator of the sales factor shall be determined as set forth in Sections 59-7-317, 59-7-318, and 59-7-319 and the rules thereunder. However, the following special rules are also applicable.

(a) Gross receipts derived from the performance of a contract are attributable to this state if the construction project is located in this state. If the construction project is located partly within and partly without this state, the gross receipts attributable to this state are based upon the ratio which construction costs for the project in this state incurred during the coming year bears to the total of such construction costs for the entire project during the income year. Progress billings are ordinarily used to reflect gross receipts and must be shown in both the numerator and denominator of the sales factor.

(b) If the percentage-of-completion method is used, the sales factor includes only that portion of the gross contract price which corresponds to the percentage of the entire contract which was completed during the income year. For example, a construction contractor which had elected the percentage-of-completion method of accounting entered into a \$9,000,000 long-term construction contract. At the end of its current income year (the second since starting the project) it estimated that the project was 30 percent completed. The amount of gross receipts included in the sales factor for the current income year is \$2,700,000 (30 percent of \$9,000,000), regardless of whether the taxpayer uses the accrual method or the cash method of accounting for receipts and disbursements.

(c) If the completed-contract method of accounting is used, the sales factor includes the portion of the gross receipts (progress billings) received under the cash basis or accrued, whichever is applicable, during the income year attributable to each contract. For example, a construction contractor which elected the completed-contract method of accounting entered into a long-term construction contract. At the end of its current income year (the second since starting the project) it had billed, and accrued on its books a total of \$5,000,000 of which \$2,000,000 had accrued in the first year the contract was undertaken, and \$3,000,000 in the current (second) year. The amount of gross receipts included in the sales factor for the current income year is \$3,000,000. If the taxpayer keeps its books on the cash basis, and as of the end of its current income

year has received only \$2,500,000 of the \$3,000,000 billed during the current year, the amount of gross receipts to be included in the sales factor for the current year is \$2,500,000.

(d) The sales factor, except as noted above in Subsections (5)(b) and (c), is computed in the same manner for all long-term contract methods of accounting and is computed for each income year--even though under the completed-contract method of accounting, business income is computed separately.

(6) The total of the property, payroll, and sales percentages is divided by three to determine the apportionment percentage which is then applied to business income to establish the amount apportioned to this state.

(7) The completed-contract method of accounting provides that the reporting of income (or loss) is deferred until the year the construction project is completed. In order to determine the amount of income which is attributable to sources within this state, a separate computation is made for each contract completed during the income year, regardless of whether the project is located within or without this state. The amount of income from each contract completed during the income year apportioned to this state is added to other business income apportioned to this state by the regular three-factor formula, and that total together with all nonbusiness income allocated to this state becomes the measure of tax for the income year. The amount of income (or loss) from each contract which is derived from sources within this state using the completed-contract method of accounting is computed as follows.

(a) In the income year the contract is completed, the income (or loss) therefrom is determined.

(b) The income (or loss) determined at Subsection (7)(a) is apportioned to this state by the following method:

(i) a fraction is determined for each year the contract was in progress (the numerator of which is the amount of construction costs paid or accrued each year the contract was in progress, and the denominator of which is the total of all construction costs for the project);

(ii) each fraction determined in Subsection (7)(b)(i) is multiplied by the apportionment formula percentage for that particular year;

(iii) these factors are totaled; and

(iv) the total income is multiplied by this combined percentage, and the resulting income (or loss) is the amount of contract business income assigned to this state.

(c) A corporation using the completed-contract method of accounting is required to include income derived from sources within this state from contracts within or without this state or income from incomplete contracts in progress outside this state in the year of withdrawal, dissolution, or cessation of business pursuant to Subsection (7)(d).

(d) The amount of income (or loss) from each such contract apportioned to this state is determined as if the percentage-of-completion method of accounting were used for all such contracts on the date of withdrawal, dissolution, or cessation of business. The amount of business income (or loss) for each such contract is the amount by which the gross contract price from each such contract from the commencement thereof to the date of withdrawal, dissolution, or cessation of business exceeds all expenditures made during such period in connection with each such contract. Beginning and ending material and supplies inventories must be appropriately accounted for in reporting expenditures in connection with each contract.

R865-6F-18. Exemptions from Corporate Franchise and Income Tax Pursuant to Utah Code Ann. Sections 59-7-101 and 59-7-102.

management of the association.

2. "Producer" means a person who, as owner or tenant, bears the risk of production and receives income based on farm production rather than fixed compensation.

B. In order to claim an exemption from corporate franchise and income tax provided for by Section 59-7-102, a corporation must submit to the Tax Commission form TC-161, Utah Registration for Exemption from Corporate Franchise or Income Tax, along with any information that form requires, for the Tax Commission's determination that the corporation satisfies the requirements of Section 59-7-102.

(1) Definitions:

(a) "Average value" of property means the amount determined by averaging the values of real and personal property at the beginning and end of the income tax year. The Tax Commission may require the averaging of monthly values during the income year or other averaging as necessary to reflect properly the average value of the trucking company's property.

(b) "Business and nonbusiness income" are as defined in R865-6F-8(1).

(c) "Mobile property" means all motor vehicles, including trailers, engaged directly in the movement of tangible personal property.

(d) "Mobile property mile" means the movement of a unit of mobile property a distance of one mile, whether loaded or unloaded.

(e) "Original cost" means the basis of the property for federal income tax purposes (prior to any federal income tax adjustments, except for subsequent capital additions, improvements thereto, or partial dispositions); or if the property has no such basis, or if the valuation of the property is unascertainable under the foregoing valuation standards, the property is included in the property factor at its fair market value as of the date of acquisition by the taxpayer.

(f) "Property used during the course of the income year" means property that is available for use in the taxpayer's trade or business during the income year.

(g) "Trucking company" means a corporation engaged in or transacting the business of transporting freight, merchandise, or other property for hire.

(h) "Value of owned real and tangible personal property" means the original cost of owned real and tangible personal property.

(i) "Value of rented real and tangible personal property" means the product of eight times the net annual rental rate of rented real and tangible personal property.

(2) When a trucking company has income from sources both within and without this state, the amount of business income from sources within this state shall be determined pursuant to this rule. In those cases, the first step is to determine what portion of the trucking company's income constitutes business income and what portion constitutes nonbusiness income. Nonbusiness income is directly allocable to specific states and business income is apportioned among the states in which the business is conducted and pursuant to the property, payroll, and sales apportionment factors set forth in this rule. The sum of the items of nonbusiness income directly allocated

to this state, plus the amount of business income apportioned to this state, constitutes the amount of the taxpayer's entire net income subject to tax in this state.

(3) The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(4) and (7). Except as modified by this rule, the property factor shall be determined in accordance with R865-6F-8(8), the payroll factor in accordance with R865-6F-8(9), and the sales factor in accordance with R865-6F-8(10).

(4) The denominator of the property factor shall be the average value of the total of the taxpayer's real and tangible personal property owned or rented and used within and without this state during the income year. The numerator of the property factor shall be the average value of the taxpayer's real and tangible personal property owned or rented and used, or available for use, within this state during the income year.

(a) In the determination of the numerator of the property factor, all property, except mobile property, shall be included in the numerator of the property factor.

(b) Mobile property located within and without this state during the income year shall be included in the numerator of the property factor in the ratio that the mobile property's miles within this state bear to the total miles of mobile property within and without this state.

(5) The denominator of the payroll factor is the compensation paid within and without this state by the taxpayer during the income year for the production of business income. The numerator of the payroll factor is the compensation paid within this state during the income year by the taxpayer for the production of business income.

(a) With respect to all personnel, except those performing services within and without this state, compensation shall be included in the numerator as provided in R865-6F-8(9).

(b) With respect to personnel performing services within and without this state, compensation shall be included in the numerator of the payroll factor in the ratio that their services performed within this state bear to their services performed within and without this state.

(6) In general, all revenue derived from transactions and activities in the regular course of the taxpayer's trade or business that produce business income shall be included in the denominator of the revenue factor. The numerator of the revenue factor is the total revenue of the taxpayer in this state during the income year.

(a) The total state revenue of the taxpayer, other than revenue from hauling freight, mail, and express, shall be attributable to this state in accordance with R865-6F-8(10).

(b) The total revenue of the taxpayer attributable to this state during the income year from hauling freight, mail, and express shall be:

(i) Intrastate: all receipts from any shipment that both originates and terminates within this state; and

(ii) Interstate: that portion of the receipts from movements or shipments passing through, into, or out of this state as determined by the ratio that the mobile property miles traveled by the movements or shipments within this state bear to the total mobile property miles traveled by the movements or shipments within and without this state.

(7) The taxpayer shall maintain the records necessary to identify mobile property and to enumerate by state the mobile property miles traveled by mobile property. These records are subject to review by the commission or its agents.

(8) This rule requires apportionment of income to this state if during the course of the income tax year, the trucking company:

(a) owned or rented any real or personal property in this state;

(b) made any pickups or deliveries within this state;

(c) traveled more than 25,000 mobile property miles

within this state, provided that the total mobile property miles traveled within this state during the income tax year exceeded three percent of the total mobile property miles traveled in all states by the trucking company during the period; or

- (d) made more than 12 trips into this state.

C. A corporation that receives permission from the Tax Commission to change its filing method to the water's edge method after having elected the worldwide method will be required to forfeit any unused loss carryovers that were generated in any worldwide year as a condition precedent to making that change. Any losses generated in a subsequent water's edge year may not be carried back against income earned in any year prior to the change to the water's edge method, but must be carried to a post-change water's edge year.

D. A corporation that elects the worldwide filing method subsequent to adoption of this rule will be required to forfeit any unused loss carryovers that were generated in any water's edge year. Any losses generated in a subsequent worldwide year may not be carried back against income earned in any year prior to the change to the worldwide election method, but must be carried to a post-change worldwide year.

R865-6F-28. Enterprise Zone Corporate Franchise Tax Credits Pursuant to Utah Code Ann. Sections 63M-1-401 through 63M-1-416.

(1) Definitions:

(a) "Based" means exclusively stored or maintained at a facility owned by the taxpayer:

(i) that is designed, constructed, and used to store or maintain equipment:

- (A) that is transported outside of the enterprise zone; and
- (B) for which the credit is taken;

(ii) where the equipment is located when it is not being used at facilities outside the enterprise zone, as evidenced by invoices, equipment logs, photographs, or similar documentation; and

(iii) from where the use of the equipment is directed or managed.

(b) "Business engaged in retail trade" means a business that makes a retail sale as defined in Section 59-12-102.

(c) "Construction work" does not include facility maintenance or repair work.

(d) "Employee" means a person who qualifies as an employee under Internal Revenue Service Regulation 26 CFR 31.3401(c)(1).

(e) "Public utilities business" means a public utility under Section 54-2-1.

(f) "Qualifying investment" does not include an investment made by a member of a unitary group in plant, equipment, or other depreciable property of another member of that unitary group.

(g) "Taxpayer" means the person claiming the tax credits in section 63M-1-413.

(h) "Transfer" pursuant to Section 63M-1-411, means the relocation of assets and operations of a business, including personnel, plant, property, and equipment.

(i) "Unitary group" is as defined in Section 59-7-101.

(2) For purposes of the investment tax credit, an investment is a qualifying investment if the plant, equipment, or other depreciable property for which the credit is taken is:

(a)(i) located within the boundaries of the enterprise zone; and

(ii) used exclusively in business operations conducted within the enterprise zone; or

(b) in the case of equipment or other depreciable property, based in the enterprise zone.

(3) The following examples relate to the investment tax credit.

(a) A furniture manufacturer operates a manufacturing facility that is located in an enterprise zone. The manufacturer purchases two trucks that are used exclusively at the facility and used to pick up raw materials from suppliers, some or all of whom may be outside the enterprise zone, and to deliver finished product to final customers, some or all of whom may be outside the enterprise zone. The trucks qualify for the investment tax credit because they are used exclusively in a business operation, the furniture manufacturing facility, that is located within the enterprise zone, even if they are stored or maintained at a facility located outside of the enterprise zone.

(b) If the same manufacturer described in Subsection(4)(a) had two facilities, one located within the enterprise zone, and one located outside the enterprise zone, and used the same two trucks for the same purposes for both facilities. The trucks are not based at a facility in the enterprise zone. The trucks would not qualify for the investment tax credit because they are not used exclusively at the facility located within the enterprise

zone, and are not based in the enterprise zone.

(c) A business consists of a mine office located in an enterprise zone and a mine located outside the enterprise zone. Mining equipment is used exclusively at the mine and is not based in the enterprise zone. The business may claim the investment tax credit for plant, equipment, or other depreciable property located in the mine office, but not for plant, equipment, or other depreciable property used in the mine outside the enterprise zone.

(d) A business purchases equipment such as an oil rig, which is transported outside the enterprise zone to service facilities such as oil fields. If the use of the equipment is directed or managed from the enterprise zone and the equipment returns to a facility, within the enterprise zone, that is owned by the business for regular maintenance or storage, the equipment is based in the enterprise zone and therefore qualifies for the investment tax credit.

(e) The same business described in Subsection(4)(d) purchases equipment that is primarily stored or maintained at facilities that are located outside of the enterprise zone, but which may be occasionally stored or maintained in the enterprise zone. This equipment would not be based in the enterprise zone, and would not qualify for the investment tax credit, even if the business has other facilities in the enterprise zone.

(4) The calculation of the number of full-time positions for purposes of the credits allowed under Subsections 63M-1-413(1)(a) through(d) shall be based on the average number of employees reported to the Department of Workforce Services for the four quarters prior to the area's designation as an enterprise zone.

(5) To determine whether at least 51 percent of the business firm's employees reside in the county in which the enterprise zone is located, the business firm shall consider every employee reported to the Department of Workforce Services for the tax year for which an enterprise zone credit is sought.

(6) A business firm that conducts non-retail operations and is engaged in retail trade qualifies for the credits under Section 63M-1-413 if the retail trade operations constitute a de minimis portion of the business firm's total operations.

(7) An employee whose duties include both non-construction work and construction work does not perform a construction job if the construction work performed by the employee constitutes a de minimis portion of the employee's total duties.

(8) Corporate franchise tax credits may not be used to offset or reduce the \$100 minimum tax per corporation.

(9) Records and supporting documentation shall be maintained for three years after the date any returns are filed to support the credits taken. For example: If credits are originally taken in 1988 and unused portions are carried forward to 1992, records to support the original credits taken in 1988 must be maintained for three years after the date the 1992 return is filed.

(10) If an enterprise zone designation is revoked prior to the expiration of the period for which it was designated, only tax credits earned prior to the loss of that designation will be allowed.

R865-6F-29. Taxation of Railroads Pursuant to Utah Code Ann. Sections 59-7-302 through 59-7-321.

(1) Definitions.

(a) "Average value" of property means the amount determined by averaging the values of real and personal property at the beginning and ending of the income tax year. The commission may require the averaging of monthly values during the income year or other averaging as necessary to reflect properly the average value of the railroad's property.

(b) "Business and nonbusiness income" are as defined in R865-6F-8(1).

(c) "Car-mile" means a movement of a unit of car equipment a distance of one mile.

(d) "Locomotive" means a self-propelled unit of equipment designed solely for moving other equipment.

(e) "Locomotive-mile" means the movement of a locomotive a distance of one mile under its own power.

(g) "Original cost" means the basis of the property for federal income tax purposes (prior to any federal income tax adjustments except for subsequent capital additions, improvements thereto or partial dispositions). If the original cost of property is unascertainable under the foregoing valuation standards, the property is included in the property factor at its fair market value as of the date of acquisition by the taxpayer.

(h) "Property used during the income year" means property that is available for use in the taxpayer's trade or business during the income year.

(i) "Rent" does not include the per diem and mileage charges paid by the taxpayer for the temporary use of railroad cars owned or operated by another railroad.

(j) "Value of owned real and tangible personal property" means the original cost of owned real and tangible personal property.

(k) "Value of rented real and tangible personal property" means the product of eight times the net annual rental rate of rented real and tangible personal property.

(2) When a railroad has income from sources both within and without this state, the amount of business income from sources within this state shall be determined pursuant to this rule. In those cases, the first step is to determine what portion of the railroad's income constitutes business income and what portion constitutes nonbusiness income. Nonbusiness income is directly allocable to specific states and business income is apportioned among the states in which the business is conducted and pursuant to the property, payroll, and sales apportionment factors set forth in this rule. The sum of the items of nonbusiness income directly allocated to this state, plus the amount of business income apportioned to this state, constitutes the amount of the taxpayer's entire net income subject to tax in this state.

(3) The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(4) and (7). Except as modified by this rule, the property factor shall be determined in accordance with R865-6F-8(8), the payroll factor in accordance with R865-6F-8(9), and the sales factor in accordance with R865-6F-8(10).

(4) The denominator of the property factor shall be the average value of the total of the taxpayer's real and tangible personal property owned or rented and used within and without this state during the income year. The numerator of the property factor shall be the average value of the taxpayer's real and tangible personal property owned or rented and used within this state during the income year.

(a) In determining the numerator of the property factor, all property except mobile or movable property such as passenger cars, freight cars, locomotives and freight containers located within and without this state during the income year shall be included in the numerator of the property factor.

(b) Mobile or movable property such as passenger cars, freight cars, locomotives and freight containers located within and without this state during the income year shall be included in the numerator of the property factor in the ratio that locomotive-miles and car-miles in the state bear to the total of locomotive-miles and car-miles both within and without this state.

(5) The denominator of the payroll factor is the total compensation paid within and without this state by the taxpayer

during the income year for the production of business income. The numerator of the payroll factor is the amount of compensation paid within this state during the income year for the production of business income.

(a) With respect to all personnel except engine men and trainmen performing services on interstate trains, compensation shall be included in the numerator as provided in R865-6F-8(9).

(b) With respect to engine men and trainmen performing services on interstate trains, compensation shall be included in the numerator of the payroll factor in the ratio that their services performed in this state bear to their services performed within and without this state.

(c) Compensation for services performed in this state shall be deemed to be the compensation reported or required to be reported by employees for determination of their income tax liability to this state.

(6) In general, all revenue derived from transactions and activities in the regular course of the taxpayer's trade or business within and without this state that produce business income, except per diem and mileage charges that are calculated by the taxpayer, shall be included in the denominator of the revenue factor. The numerator of the revenue factor is the total revenue of the taxpayer within this state during the income year.

(a) The total revenue of the taxpayer in this state during the income year, other than revenue from hauling freight, passengers, mail and express, shall be attributable to this state in accordance with R865-6F-8(10).

(b) The total revenue of the taxpayer attributable to this state during the income year for the numerator of the revenue factor from hauling freight, mail and express shall be attributable to this state as follows:

(i) Intrastate: all receipts from shipments that both originate and terminate within this state; and

(ii) Interstate: that portion of the receipts from each movement or shipment passing through, into, or out of this state is determined by the ratio that the miles traveled by the movement or shipment in this state bears to the total miles traveled by the movement or shipment from point of origin to destination.

(c) The total revenue of the taxpayer attributable to this state during the income year for the numerator of the revenue factor from hauling passengers shall be attributable to this state as follows:

(i) Intrastate: all receipts from the transportation of passengers, including mail and express handled in passenger service, that both originate and terminate within this state; and

(ii) Interstate: that portion of the receipts from the transportation of interstate passengers, including mail and express handled in passenger service, determined by the ratio that passenger miles in this state bear to the total of passenger miles within and without this state.

R865-6F-31. Taxation of Publishing Companies Pursuant to Utah Code Ann. Sections 59-7-302 through 59-7-321.

(1) Definitions.

(a) "Outer-jurisdictional property" means certain types of tangible personal property, such as orbiting satellites, undersea transmission cables and the like, that are owned or rented by the taxpayer and used in the business of publishing, licensing, selling or otherwise distributing printed material, but that are not physically located in any particular state.

(b) "Print" or "printed material" means the physical embodiment or printed version of any thought or expression, including a play, story, article, column or other literary, commercial, educational, artistic or other written or printed work. The determination of whether an item is or consists of print or printed material shall be made without regard to its content. Printed material may take the form of a book, newspaper, magazine, periodical, trade journal, or any other form of printed matter and may be contained on any medium or property.

(c) "Purchaser" and "subscriber" mean the individual, residence, business or other outlet that is the ultimate or final recipient of the print or printed material. Neither term shall mean or include a wholesaler or other distributor of print or printed material.

(d) "Terrestrial facility" shall include any telephone line, cable, fiber optic, microwave, earth station, satellite dish, antennae, or other relay system or device that is used to receive, transmit, relay or carry any data, voice, image or other information that is transmitted from or by any outer-jurisdictional property to the ultimate recipient thereof.

(2) When a taxpayer in the business of publishing, selling, licensing or distributing books, newspapers, magazines, periodicals, trade journals, or other printed material has income from sources both within and without this state, the amount of business income from sources within this state shall be determined pursuant to this rule. In those cases, the first step is to determine what portion of the taxpayer's income constitutes business income and what portion constitutes nonbusiness income. Nonbusiness income is directly allocable to specific states and business income is apportioned among the states in which the business is conducted and pursuant to the property, payroll, and sales apportionment factors set forth in this rule. The sum of the items of nonbusiness income directly allocated to this state, plus the amount of business income apportioned to this state, constitutes the amount of the taxpayer's entire net income subject to tax in this state.

(3) The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(4) and (7). Except as modified by this rule, the property factor shall be determined in accordance with R865-6F-8(8), the payroll factor in accordance with R865-6F-8(9), and the sales factor in accordance with R865-6F-8(10).

(4) All real and tangible personal property, including outer-jurisdictional property, whether owned or rented, that is used in the business shall be included in the denominator of the property factor.

(5)(a) All real and tangible personal property owned or

rented by the taxpayer and used within this state during the tax period shall be included in the numerator of the property factor.

(b) Outer-jurisdictional property owned or rented by the taxpayer and used in this state during the tax period shall be included in the numerator of the property factor in the ratio that the value of the property attributable to its use by the taxpayer in business activities within this state bears to the value of the property attributable to its use in the taxpayer's business activities within and without this state.

(i) The value of outer-jurisdictional property attributed to the numerator of the property factor of this state shall be determined by the ratio that the number of uplinks and downlinks, or half-circuits, used during the tax period to transmit from this state and to receive in this state any data, voice, image or other information bears to the number of uplinks and downlinks or half-circuits used for transmissions within and without this state.

(ii) If information regarding uplink and downlink or half-circuit usage is not available or if measurement of activity is not applicable to the type of outer-jurisdictional property used by the taxpayer, the value of that property attributed to the numerator of the property factor of this state shall be determined by the ratio that the amount of time, in terms of hours and minutes of use, or other measurement of use of outer-jurisdictional property that was used during the tax period to transmit from this state and to receive within this state any data, voice, image or other information bears to the total amount of time or other measurement of use that was used for transmissions within and without this state.

(iii) Outer-jurisdictional property shall be considered to have been used by the taxpayer in its business activities within this state when that property, wherever located, has been employed by the taxpayer in any manner in the publishing, sale, licensing or other distribution of books, newspapers, magazines or other printed material, and any data, voice, image or other information is transmitted to or from this state either through an earth station or terrestrial facility located within this state.

(A) One example of the use of outer-jurisdictional property is when the taxpayer owns its own communications satellite or leases the use of uplinks, downlinks or circuits or time on a communications satellite for the purpose of sending messages to its newspaper printing facilities or employees. The states in which any printing facility that receives the satellite communications are located and the state from which the communications were sent would, under this rule, apportion the cost of the owned or rented satellite to their respective property factors based upon the ratio of the in-state use of the satellite to its usage within and without the state.

(B) Assume that ABC Newspaper Co. owns a total of \$400,000,000 of property and, in addition, owns and operates a communication satellite for the purpose of sending news articles to its printing plant in this state, as well as for communicating with its printing plants and facilities or news bureaus, employees and agents located in other states and throughout the world. Also assume that the total value of its real and tangible personal property that was permanently located in this state for the entire income year was valued at \$3,000,000. Assume also that the original cost of the satellite is \$100,000,000 for the tax period and that of the 10,000 uplinks and downlinks or half-circuits of satellite transmissions used by the taxpayer during the tax period, 200 or 2% are attributable to its satellite communications received in and sent from this state. Assume further that the company's mobile property that was used partially within this state, consisting of 40 delivery trucks, was determined to have an original cost of \$4,000,000 and was used in this state for 95 days. The total value of property attributed to this state is determined as follows:

TABLE

Value of property permanently in state =	\$3,000,000
Value of mobile property: 95/365 or (.260274) x \$4,000,000 =	\$1,041,096
Value of leased satellite property used in-state: (.02) x \$100,000,000 =	\$2,000,000
Total value of property attributable to state =	\$6,041,096
Total property factor percentage: \$6,041,096/\$500,000,000 =	1.2082%

(6) The payroll factor shall be determined in accordance with Sections 59-7-315 and 59-7-316.

(7) The denominator of the sales factor shall include the total gross receipts derived by the taxpayer from transactions and activity in the regular course of its trade or business, except receipts that may be excluded under R865-6F-8(11)(c).

(8) The numerator of the sales factor shall include all gross receipts of the taxpayer from sources within this state, including the following:

(a) Gross receipts derived from the sale of tangible personal property, including printed materials, delivered or shipped to a purchaser or a subscriber in this state; and

(b) Except as provided in Subsection (8)(b)(ii), gross receipts derived from advertising and the sale, rental, or other use of the taxpayer's customer lists or any portion thereof shall be attributed to this state as determined by the taxpayer's circulation factor during the tax period. The circulation factor shall be determined for each publication of printed material containing advertising and shall be equal to the ratio that the taxpayer's in-state circulation to purchasers and subscribers of its printed material bears to its circulation to purchasers and subscribers within and without the state.

(i) The circulation factor for an individual publication shall be determined by reference to the rating statistics as reflected in such sources as Audit Bureau of Circulations or other comparable sources, provided that the source selected is consistently used from year to year for that purpose. If none of the foregoing sources are available, or, if available, not in form or content sufficient for these purposes, the circulation factor shall be determined from the taxpayer's books and records.

(ii) When specific items of advertisements can be shown, upon clear and convincing evidence, to have been distributed solely to a limited regional or local geographic area in which this state is located, the taxpayer may petition, or the commission may require, that a portion of those receipts be attributed to the sales factor numerator of this state on the basis of a regional or local geographic area circulation factor and not upon the basis of the circulation factor provided by Subsection (8)(b)(i). This attribution shall be based upon the ratio that the taxpayer's circulation to purchasers and subscribers located in this state of the printed material containing specific items of advertising bears to its total circulation of printed material to purchasers and subscribers located within the regional or local geographic area. This alternative attribution method shall be permitted only upon the condition that receipts are not double counted or otherwise included in the numerator of any other state.

(iii) If the purchaser or subscriber is the United States government or if the taxpayer is not taxable in a state, the gross receipts from all sources, including the receipts from the sale of printed material, from advertising, and from the sale, rental or other use of the taxpayer's customer lists, or any portion thereof that would have been attributed by the circulation factor to the numerator of the sales factor for that state, shall be included in the numerator of the sales factor of this state if the printed material or other property is shipped from an office, store, warehouse, factory, or other place of storage or business in this state.

The receipts factor is a fraction, the numerator of which is the receipts of the taxpayer in this state during the taxable year and the denominator of which is the receipts of the taxpayer within and without this state during the taxable year. (ii) The amount of net gains, but not less than zero, from the sale of loans not secured by real property included in the numerator is determined by multiplying the net gains by a fraction the numerator of which is the amount included in the numerator of the receipts factor pursuant to Subsection (3)(e),

and the denominator of which is the total amount of interest and fees or penalties in the nature of interest from loans not secured by real property.

(g) Receipts from credit card receivables. The numerator of the receipts factor includes interest and fees or penalties in the nature of interest from credit card receivables and receipts from fees charged to card holders, such as annual fees, if the billing address of the card holder is in this state.

(h) Net gains from the sale of credit card receivables. The numerator of the receipts factor includes net gains, but not less than zero, from the sale of credit card receivables multiplied by a fraction, the numerator of which is the amount included in the numerator of the receipts factor pursuant to Subsection (3)(g), and the denominator of which is the taxpayer's total amount of interest and fees or penalties in the nature of interest from credit card receivables and fees charged to card holders.

(i) Credit card issuer's reimbursement fees. The numerator of the receipts factor includes all credit card issuer's reimbursement fees multiplied by a fraction, the numerator of which is the amount included in the numerator of the receipts factor pursuant to Subsection (3)(g), and the denominator of which is the taxpayer's total amount of interest and fees or penalties in the nature of interest from credit card receivables and fees charged to card holders.

(j) Receipts from merchant discount. The numerator of the receipts factor includes receipts from merchant discount if the commercial domicile of the merchant is in this state. The receipts shall be computed net of any cardholder charge backs, but shall not be reduced by any interchange transaction fees or by any issuer's reimbursement fees paid to another for charges made by its card holders.

(k) Loan servicing fees.

(i) The numerator of the receipts factor includes loan servicing fees derived from loans secured by real property multiplied by a fraction the numerator of which is the amount included in the numerator of the receipts factor pursuant to Subsection (3)(d), and the denominator of which is the total amount of interest and fees or penalties in the nature of interest from loans secured by real property.

(ii) The numerator of the receipts factor includes loan servicing fees derived from loans not secured by real property multiplied by a fraction the numerator of which is the amount included in the numerator of the receipts factor pursuant to Subsection (3)(e), and the denominator of which is the total amount of interest and fees or penalties in the nature of interest from loans not secured by real property.

(iii) In circumstances in which the taxpayer receives loan servicing fees for servicing either the secured or the unsecured loans of another, the numerator of the receipts factor shall include those fees if the borrower is located in this state.

(l) Receipts from services. The numerator of the receipts factor includes receipts from services not otherwise apportioned under this section if the service is performed in this state. If the service is performed both within and without this state, the numerator of the receipts factor includes receipts from services not otherwise apportioned under this section if a greater proportion of the income-producing activity is performed in this state based on cost of performance.

(m) Receipts from investment assets and activities and trading assets and activities.

(i) Interest, dividends, net gains, but not less than zero, and other income from investment assets and activities and from trading assets and activities shall be included in the receipts factor.

(ii) Investment assets and activities and trading assets and activities include investments securities, trading account assets, federal funds, securities purchased and sold under agreements to resell or repurchase, options, futures contracts, forward contracts, notional principal contracts such as swaps, equities,

and foreign currency transactions.

(A) The receipts factor shall include the amount by which interest from federal funds sold and securities purchased under resale agreements exceeds interest expense on federal funds purchased and securities sold under repurchase agreements.

(B) The receipts factor shall include the amount by which interest, dividends, gains and other income from trading assets and activities, including assets and activities in the matched book and arbitrage book, and foreign currency transactions, exceed amounts paid in lieu of interest, amounts paid in lieu of dividends, and losses from those assets and activities.

(iv) The numerator of the receipts factor includes interest, dividends, net gains, but not less than zero, and other income from investment assets and activities and from trading assets and activities described in Subsection (3)(m) that are attributable to this state.

(A) The amount of interest, dividends, net gains, but not less than zero, and other income from investment assets and activities in the investment accounts attributed to this state and included in the numerator is determined by multiplying all such income from assets and activities by a fraction, the numerator of which is the average value of the assets properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the average value of all those assets.

(B) The amount of interest from federal funds sold and purchased and from securities purchased under resale agreements and securities sold under repurchase agreements attributable to this state and included in the numerator is determined by multiplying the amount of those funds and securities described in Subsection (3)(m)(iii)(A) by a fraction, the numerator of which is the average value of federal funds sold and securities purchased under agreements to resell that are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the average value of all those funds and securities.

(C) The amount of interest, dividends, gains, and other income from trading assets and activities, including assets and activities in the matched book and arbitrage book and foreign currency transactions, but excluding amounts described in Subsections (3)(m)(iv)(A) and (3)(m)(iv)(B), attributable to this state and included in the numerator is determined by multiplying the amount described in Subsection (3)(m)(iii)(B) by a fraction, the numerator of which is the average value of those trading assets that are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the average value of all those assets.

(D) For purposes of this subsection, average value shall be determined using the rules for determining the average value of tangible personal property set forth in Subsections (4)(c) and (d).

(v) In lieu of using the method set forth in Subsection (3)(m)(iv), the taxpayer may elect, or the Tax Commission may require in order to fairly represent the business activity of the taxpayer in this state, the use of the method set forth in this subsection.

(A) The amount of interest, dividends, net gains, but not less than zero, and other income from investment assets and activities in the investment account attributed to this state and included in the numerator is determined by multiplying all income from those assets and activities by a fraction, the numerator of which is the gross income from those assets and activities properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the gross income from all those assets and activities.

(B) The amount of interest from federal funds sold and purchased and from securities purchased under resale

agreements and securities sold under repurchase agreements attributable to this state and included in the numerator is determined by multiplying the amount of those funds and securities described in Subsection (3)(m)(iii)(A) by a fraction, the numerator of which is the gross income from those funds and securities properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the gross income from all those funds and securities.

(C) The amount of interest, dividends, gains and other income from trading assets and activities, including assets and activities in the matched book and arbitrage book and foreign currency transactions, but excluding amounts described in Subsections (3)(m)(v)(A) or (B), attributable to this state and included in the numerator is determined by multiplying the amount described in Subsection (3)(m)(iii)(B) by a fraction, the numerator of which is the gross income from those trading assets and activities properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the gross income from all those assets and activities.

(vi) If the taxpayer elects or is required by the Tax Commission to use the method set forth in Subsection (3)(m)(v), the taxpayer shall use this method on all subsequent returns unless the taxpayer receives prior permission from the Tax Commission to use, or the Tax Commission requires, a different method.

(vii) The taxpayer shall have the burden of proving that an investment asset or activity or trading asset or activity was properly assigned to a regular place of business outside of this state by demonstrating that the day-to-day decisions regarding the asset or activity occurred at a regular place of business outside this state. Where the day-to-day decisions regarding an investment asset or activity or trading asset or activity occur at more than one regular place of business and one regular place of business is in this state and one regular place of business is outside this state, that asset or activity shall be considered to be located at the regular place of business of the taxpayer where the investment or trading policies or guidelines with respect to the asset or activity are established. Unless the taxpayer demonstrates to the contrary, policies and guidelines shall be presumed to be established at the commercial domicile of the taxpayer.

(n) All other receipts. The numerator of the receipts factor includes all other receipts pursuant to the rules set forth in Rule R865-6F-8(9) and (10).

(o) Attribution of certain receipts to commercial domicile.

(i) Except as provided in Subsection (3)(o)(ii), all receipts that would be assigned under this section to a state in which the taxpayer is not taxable shall be included in the numerator of the receipts factor if the taxpayer's commercial domicile is in this state.

(ii)(A) If a unitary group includes one or more financial institutions, and if any member of the unitary group is subject to the taxing jurisdiction of this state, the receipts of each financial institution in the unitary group shall be included in the numerator of this state's receipts factor as provided in Subsections (3)(a) through (n) rather than being attributed to the commercial domicile of the financial institution as provided in Subsection (3)(o)(i).

(B) If a unitary group includes one or more financial institutions whose commercial domicile is in this state, and if any member of the unitary group is taxable in another state under section 59-7-305, the receipts of each financial institution in the unitary group that would be included in the numerator of the other state's receipts factor under Subsections (3)(a) through (n) may not be included in the numerator of this state's receipts factor.

(4) Property Factor.

(a) In General.

(i) For taxpayers that do not elect to include the property

described in Subsections (4)(g) through (i) within the property factor, the property factor is a fraction, the numerator of which is the average value of real property and tangible personal property owned by or rented to the taxpayer that is located or used within this state during the taxable year, and the denominator of which is the average value of all that property located or used within and without this state during the taxable year.

(ii) For taxpayers that elect to include the property described in Subsections (4)(g) through (i) within the property factor, the property factor is a fraction, the numerator of which is the average value of real property and tangible personal property owned by or rented to the taxpayer that is located or used within this state during the taxable year, and the average value of the taxpayer's loans and credit card receivables that are located within this state during the taxable year, and the denominator of which is the average value of all that property located or used within and without this state during the taxable year.

(b) Property included. The property factor shall include only property the income or expenses of which are included, or would have been included if not fully depreciated or expensed, or depreciated or expensed to a nominal amount, in the computation of the apportionable income base for the taxable year.

(c) Value of property owned by the taxpayer.

(i) For taxpayers that do not elect to include the property described in Subsections (4)(g) through (i) within the property factor, the value of real property and tangible personal property owned by the taxpayer is the original cost or other basis of that property for federal income tax purposes without regard to depletion, depreciation or amortization.

(ii) For taxpayers that elect to include the property described in Subsections (4)(g) through (i) within the property factor:

(A) The value of real property and tangible personal property owned by the taxpayer is the original cost or other basis of that property for federal income tax purposes without regard to depletion, depreciation or amortization.

(B) Loans are valued at their outstanding principal balance, without regard to any reserve for bad debts. If a loan is charged-off in whole or in part for federal income tax purposes, the portion of the loan charged off is not outstanding. A specifically allocated reserve established pursuant to regulatory or financial accounting guidelines that is treated as charged-off for federal income tax purposes shall be treated as charged-off for purposes of this rule.

(C) Credit card receivables are valued at their outstanding principal balance, without regard to any reserve for bad debts. If a credit card receivable is charged-off in whole or in part for federal income tax purposes, the portion of the receivable charged-off is not outstanding.

(d) Average value of property owned by the taxpayer. The average value of property owned by the taxpayer is computed on an annual basis by adding the value of the property on the first day of the taxable year and the value on the last day of the taxable year and dividing the sum by two.

(i) If averaging on this basis does not properly reflect average value, the Tax Commission may require averaging on a more frequent basis, or the taxpayer may elect to average on a more frequent basis.

(ii) When averaging on a more frequent basis is required by the Tax Commission or is elected by the taxpayer, the same method of valuation must be used consistently by the taxpayer with respect to property within and without this state and on all subsequent returns unless the taxpayer receives prior permission from the Tax Commission to use a different method, or the Tax Commission requires a different method of determining average value.

(e) Average value of real property and tangible personal property rented to the taxpayer.

(i) The average value of real property and tangible personal property that the taxpayer has rented from another and are not treated as property owned by the taxpayer for federal income tax purposes, shall be determined annually by multiplying the gross rents payable during the taxable year by eight.

(ii) If the use of the general method described in this subsection results in inaccurate valuations of rented property, any other method that properly reflects the value may be adopted by the Tax Commission or by the taxpayer when approved in writing by the Tax Commission. Once approved, that other method of valuation must be used on all subsequent returns unless the taxpayer receives prior approval from the Tax Commission to use a different method, or the Tax Commission requires a different method of valuation.

(f) Location of real property and tangible personal property owned or rented to the taxpayer.

(i) Except as described in Subsection (4)(f)(ii), real property and tangible personal property owned by or rented to the taxpayer are considered located within this state if they are physically located, situated, or used within this state.

(ii) Transportation property is included in the numerator of the property factor to the extent that the property is used in this state.

(A) The extent an aircraft will be deemed to be used in this state and the amount of value that shall be included in the numerator of this state's property factor is determined by multiplying the average value of the aircraft by a fraction, the numerator of which is the number of landings of the aircraft in this state and the denominator of which is the total number of landings of the aircraft everywhere.

(B) If the extent of the use of any transportation property within this state cannot be determined, the property will be deemed to be used wholly in the state in which the property has its principal base of operations.

(C) A motor vehicle will be deemed to be used wholly in the state in which it is registered.

(g) Location of Loans.

(i) A loan is considered located within this state if it is properly assigned to a regular place of business of the taxpayer within this state.

(ii) A loan is properly assigned to the regular place of business with which it has a preponderance of substantive contacts. A loan assigned by the taxpayer to a regular place of business without the state shall be presumed to have been properly assigned if:

(A) the taxpayer has assigned, in the regular course of its business, the loan on its records to a regular place of business consistent with federal or state regulatory requirements;

(B) the assignment on its records is based upon substantive contacts of the loan to the regular course of business; and

(C) the taxpayer uses the records reflecting assignment of loans for the filing of all state and local tax returns for which an assignment of loans to a regular place of business is required.

(iii) The presumption of proper assignment of a loan provided in Subsection (4)(g)(ii) may be rebutted upon a showing by the Tax Commission, supported by a preponderance of the evidence, that the preponderance of substantive contacts regarding the loan did not occur at the regular place of business to which it was assigned on the taxpayer's records. When the presumption has been rebutted, the loan shall then be located within this state if:

(A) the taxpayer had a regular place of business within this state at the time the loan was made; and

(B) the taxpayer fails to show, by a preponderance of the evidence, that the preponderance of substantive contacts regarding the loan did not occur within this state.

(iv) In the case of a loan assigned by the taxpayer to a place without this state that is not a regular place of business, it shall be presumed, subject to rebuttal by the taxpayer on a showing supported by the preponderance of the evidence, that the preponderance of substantive contacts regarding the loan occurred within this state if, at the time the loan was made the taxpayer's commercial domicile, as defined in this rule, was within this state.

(v) To determine the state in which the preponderance of substantive contacts relating to a loan have occurred, the facts and circumstances regarding the loan at issue shall be reviewed on a case-by-case basis, and consideration shall be given to activities such as the solicitation, investigation, negotiation, approval, and administration of the loan.

(A) Solicitation. Solicitation is either active or passive.

(I) Active solicitation occurs when an employee of the taxpayer initiates the contact with the customer. The activity is located at the regular place of business at which the taxpayer's employee is regularly connected or working out of, regardless of where the services of the employee were actually performed.

(II) Passive solicitation occurs when the customer initiates the contact with the taxpayer. If the customer's initial contact was not at a regular place of business of the taxpayer, the regular place of business, if any, where the passive solicitation occurred is determined by the facts in each case.

(B) Investigation. Investigation is the procedure whereby employees of the taxpayer determine the credit-worthiness of the customer as well as the degree of risk involved in making a particular agreement. The activity is located at the regular place of business at which the taxpayer's employees are regularly connected or working out of, regardless of where the services of those employees were actually performed.

(C) Negotiation. Negotiation is the procedure whereby employees of the taxpayer and its customer determine the terms of the agreement, such as amount, duration, interest rate, frequency of repayment, currency denomination, and security required. The activity is located at the regular place of business at which the taxpayer's employees are regularly connected or working out of, regardless of where the services of those employees were actually performed.

(D) Approval. Approval is the procedure whereby employees or the board of directors of the taxpayer make the final determination whether to enter into the agreement.

(I) The activity is located at the regular place of business at which the taxpayer's employees are regularly connected or working out of, regardless of where the services of those employees were actually performed.

(II) If the board of directors makes the final determination, the activity is located at the commercial domicile of the taxpayer.

(E) Administration. Administration is the process of managing the account.

(I) Administration includes bookkeeping, collecting the payments, corresponding with the customer, reporting to management regarding the status of the agreement and proceeding against the borrower or the security interest if the borrower is in default.

(II) The activity is located at the regular place of business that oversees this activity.

(h) Location of credit card receivables. For purposes of determining the location of credit card receivables, credit card receivables shall be treated as loans and shall be subject to the provisions of Subsection (4)(g).

(i) Period for which properly assigned loan remains assigned. A loan that has been properly assigned to a state shall, absent any change of material fact, remain assigned to that state for the length of the original term of the loan. Thereafter, the loan may be properly assigned to another state if the loan has a preponderance of substantive contact to a regular place of

business in that state.

(j) Each taxpayer shall make an initial election on whether to include the property described in Subsections (4)(g) through (i) within the property factor. The initial election is the election made or the filing position taken on the first return filed after the effective date of this rule. This election is irrevocable for a period of three years from the time the initial election is made, except in the case where a substantial ownership change occurs and commission approval is obtained to change the election. After the initial three-year period, the election may be revocable only with the prior approval of the commission and shall require the showing of a significant change in circumstance.

(5) Payroll factor.

(a) In general. The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the taxable year by the taxpayer for compensation and the denominator of which is the total compensation paid by the taxpayer both within and without this state during the taxable year. The payroll factor shall include only that compensation included in the computation of the apportionable income tax base for the taxable year.

(b) Compensation relating to nonbusiness income and independent contractors. The compensation of any employee for services or activities connected with the production of nonbusiness income, and payments made to any independent contractor or any other person not properly classifiable as an employee, shall be excluded from both the numerator and denominator of this factor.

(c) When compensation paid in this state. Compensation is paid in this state if any one of the following tests, applied consecutively, is met:

(i) The employee's services are performed entirely within this state.

(ii) The employee's services are performed both within and without the state, but the service performed without the state is incidental to the employee's service within the state. The term "incidental" means any service that is temporary or transitory in nature, or that is rendered in connection with an isolated transaction.

(iii) If the employee's services are performed both within and without this state, the employee's compensation will be attributed to this state:

(A) if the employee's principal base of operations is within this state;

(B) if there is no principal base of operations in any state in which some part of the services are performed, but the place from which the services are directed or controlled is in this state; or

(C) if the principal base of operations and the place from which the services are directed or controlled are not in any state in which some part of the service is performed but the employee's residence is in this state.

(6) This rule is effective for taxable years beginning after December 31, 1997.

R865-6F-33. Taxation of Telecommunications Pursuant to Utah Code Ann. Sections 59-7-302 through 59-7-321.

(1) Definitions.

(a) "Call" means a specific telecommunications transmission as described in Subsection (1)(f).

(b) "Channel termination point" means the point at which information can enter or leave the telecommunications network.

(c) "Communications channel" means a communications path, which can be one-way or two-way, depending on the channel, between two or more points. The path may be designed for the transmission of signals representing human speech, digital or analog data, facsimile, or images.

(d) "Outerjurisdictional property" means tangible personal property, such as orbiting satellites, undersea transmission

cables and the like, that are owned or rented by the taxpayer and used in a telecommunications business, but that are not physically located in any particular state.

(e) "Private telecommunications service" means a dedicated telephone service that entitles the subscriber to the exclusive or priority use of a communications channel or groups of communications channels from one or more channel termination points to another channel termination point.

(f) "Telecommunications" means the electronic transmission of voice, data, image, and other information through the use of any medium such as wires, cables, electromagnetic waves, light waves, or any combination of those or similar media now in existence or that might be devised, but telecommunications does not include the information content of any such transmission.

(g) "Telecommunications service" means providing telecommunications, including services provided by telecommunication service resellers, for a charge and includes telephone service, telegraph service, paging service, personal communication services and mobile or cellular telephone service, but does not include electronic information service or Internet access service.

(2) Apportionment and Allocation.

(a) A corporation engaged in the business of telecommunications that is taxable both within and without this state, shall allocate and apportion its net income as provided in this rule. All items of nonbusiness income shall be allocated pursuant to the provisions of Section 59-7-306.

(b) All business income shall be apportioned to this state by multiplying that income by the apportionment percentage. The apportionment percentage is determined by adding the taxpayer's receipts factor, property factor and payroll factor and dividing that sum by three. If one of the factors is missing, the remaining factors are added and that sum is divided by two. If two of the factors are missing, the remaining factor is the apportionment percentage. A factor is missing if both its numerator and denominator are zero.

(c) The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(3) and (6). Except as otherwise provided in this rule, the property factor shall be determined in accordance with R865-6F-8(7), the payroll factor in accordance with R865-6F-8(8) and the sales factor in accordance with R865-6F-8(9).

(3)(a) Property Factor.

(b) Outerjurisdictional property that is used by a taxpayer in providing a telecommunications service shall be attributed to this state based on the ratio of property within this state used in providing that service, to property everywhere used in providing the service, exclusive of property not located in any state. The term "property" as used herein refers to property includable in the property factor of the Utah apportionment fraction as defined in Tax Commission rule R865-6F-8(7).

(4) Sales Factor Numerator.

(a) The following sales and receipts from telecommunications service other than interstate or international private telecommunications service, shall be included in the Utah sales and receipts numerator:

(i) receipts derived from charges for providing telephone "access" from a location within Utah. "Access" means that a call can be made or received from a point within this state. An example of this type of receipt is a monthly subscriber fee billed with reference to equipment located in Utah;

(ii) receipts derived from charges for unlimited calling privileges, if the charges are billed by reference to equipment located in Utah;

(iii) receipts derived from charges for individual toll calls that originate and terminate in Utah;

(iv) receipts derived from charges for individual toll calls that either originate or terminate in Utah and are billed by

reference to a customer or equipment located in Utah;

(v) receipts derived from any other charges if the charges are not includable in another state's sales factor numerator under that state's law, and the customer's billing address is in Utah.

(b) Gross receipts derived from providing interstate and international private telecommunications services shall be determined as follows:

(i) If the segment of the interstate or international channel between each termination point is separately billed, 100 percent of the charge imposed at each termination point in this state and for service in this state between those points is includable in the Utah sales factor. In addition, 50 percent of the charge imposed for service between a channel termination point outside this state and a point inside the state shall be included in the Utah sales factor. For purposes of this paragraph, termination points shall be measured by the nearest termination point inside the state to the first termination point outside the state.

(ii) If each segment of the interstate or international channel is not separately billed, the Utah sales shall be the same portion of the interstate or international channel charge that the number of channel termination points within this state bears to the total number of channel termination points within and without this state.

R865-6F-36. Taxation of Registered Securities or Commodities Broker or Dealer Pursuant to Utah Code Ann. Sections 59-7-302 through 59-7-321.

(i) for which the broker or dealer does not take title; and
(ii) as an agent for a customer's account.

(b) "Commodity" is as defined in Section 475(e)(2), Internal Revenue Code.

(c) "Principal transaction" means a transaction where the registered securities or commodities broker or dealer acts as a principal or underwriter for the broker or dealer's own account, rather than as an agent for the customer.

(d) "Registered securities or commodities broker or dealer" means a corporation registered as a broker or dealer with the Securities and Exchange Commission or the Commodities Futures Trading Commission.

(e) "Security" is as defined in Section 475(c)(2), Internal Revenue Code.

(2) Apportionment and allocation.

(a) A registered securities or commodities broker or dealer whose business activity is taxable both within and without this state shall allocate and apportion its net income as provided in this rule. All items of nonbusiness income shall be allocated pursuant to the provisions of Section 59-7-306.

(b) The fraction by which business income shall be apportioned to the state shall be determined in accordance with rule R865-6F-8(4) and (7). Except as otherwise provided in this rule, the property factor shall be determined in accordance with R865-6F-8(8), the payroll factor in accordance with R865-6F-8(9), and the sales factor in accordance with R865-6F-8(10).

(3) Property factor.

(a) The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used, or available for use, within this state during the taxable year, plus the average value of securities or commodities used to produce income during the taxable year that are held for resale exclusively

through a branch, office, or other place of business in this state. The denominator is the average value of the total of the taxpayer's real and tangible personal property owned or rented and used within and without this state during the taxable year, plus the average value of all securities or commodities used to produce income during the taxable year.

(b) Securities or commodities used to produce income shall be valued at original cost.

(4) Sales factor.

(a) The sales factor is a fraction, the numerator of which is the total revenue that is derived from transactions and activities in the regular course of the taxpayer's trade or business within this state during the taxable year. The denominator is the total revenue that is derived from transactions and activities in the regular course of the taxpayer's trade or business within and without this state during the taxable year.

(b) Brokerage commission income shall be included in the denominator of the sales factor. Brokerage commission income shall be included in the numerator of the sales factor if the customer that is paying the commission is located in Utah. A customer is located in Utah if the mailing address of the customer as it appears in the broker or dealer's records is in Utah.

(c) Gross receipts from principal transactions shall be included in the denominator of the sales factor. Gross receipts from principal transactions shall be included in the numerator of the sales factor if the sale is made through a branch, office, or other place of business in Utah. Gross receipts from principal transactions shall be determined after the deduction of any cost incurred by the taxpayer to acquire the securities or commodities.

(d) Other gross receipts such as margin interest on brokerage accounts and account maintenance fees shall be included in the denominator of the sales factor, and, if the customer that is paying the amounts or fees is located in Utah based on the customer address as it appears in the broker or dealer's records, in the numerator of the sales factor.

R865-6F-37. Disclosure of Reportable Transactions and Material Advisor List Pursuant to Utah Code Ann. Sections 59-1-1301 through 59-1-1309.

(1) A taxpayer shall disclose a reportable transaction to the commission by:

(a) marking the box on the taxpayer's corporate franchise or income tax return indicating that the taxpayer has filed federal form 8886, or successor form, with the Internal Revenue Service; and

(b) providing the commission a copy of the form described in Subsection (1)(a) upon the request of the commission.

(2)(a) A material advisor shall disclose a reportable transaction to the commission by attaching a copy of the federal form 8264, or successor form, and any additional information that the material advisor submitted to the Internal Revenue Service, to the form prescribed by the commission.

(b) A material advisor shall provide the commission the information described in Subsection (2)(a) within 60 days after the form 8264, or successor form, was required to be filed with the Internal Revenue Service.

(3)(a) The list of persons a material advisor is required to maintain under 26 C.F.R. Sec. 301.6112-1 shall satisfy the requirement for the list of persons a material advisor is required to maintain under Section 59-1-1307.

(b) If more than one material advisor is required to maintain a list of persons in accordance with Section 59-1-1307, the material advisor that maintained the list required by 26 C.F.R. Sec. 301.6112-1 shall maintain the list required by Section 59-1-1307.

R865. Tax Commission, Auditing.**R865-91. Income Tax.****R865-91-2. Determination of Utah Resident Individual Status Pursuant to Utah Code Ann. Section 59-10-103.**

(1) Domicile.

(a) Domicile is the place where an individual has a permanent home and to which he intends to return after being absent. It is the place at which an individual has voluntarily fixed his habitation, not for a special or temporary purpose, but with the intent of making a permanent home.

(b) For purposes of establishing domicile, an individual's intent will not be determined by the individual's statement, or the occurrence of any one fact or circumstance, but rather on the totality of the facts and circumstances surrounding the situation.

(i) Tax Commission rule R884-24P-52, Criteria for Determining Primary Residence, provides a non-exhaustive list of factors or objective evidence determinative of domicile.

(ii) Domicile applies equally to a permanent home within and without the United States.

(b) Subject to federal law, an individual in active military service may change from a resident individual to a nonresident individual or from a nonresident individual to a resident individual if he establishes that he satisfies the conditions of Subsection (1)(c).

(b) attaching a summary, prepared by the team or the team's authorized representative, indicating both the amount of the athlete's income allocated to all other states in which the athlete has participated in his team's composite return or simplified withholding, and the amount of income tax paid by the athlete to those states.

(5) The credit allowable on the Utah return for taxes paid to any other state shall be the smaller of the following:

(a) the amount of tax paid to the other state; or

(b) a percentage of the total Utah tax. This percentage is determined by dividing the total federal adjusted gross income into the amount of the federal adjusted gross income taxed in the other state.

(ii) if the activities were commenced or the taxpayer joined them at the time or after the change from nonresident to resident status.

(b) Income or loss that does not meet Subsection (4)(a) shall be included in the Utah portion of AGI only to the extent the income or loss is derived from Utah sources as determined under Section 59-10-117.

(5) Moving expenses deducted on the federal return may be deducted from the Utah portion of AGI only to the extent that they are for moving into Utah and within Utah.

(6) Employee business expenses may be deducted from the Utah portion of AGI only to the extent that they pertain to the production of income included in the Utah portion of AGI.

(7) Payments by a self-employed person to a retirement plan that reduce the total AGI may be deducted from the Utah portion of AGI in the same proportion that the related self-employment income is included in the Utah portion of FAGI.

(8) Other income, losses or adjustments applicable in determining total AGI may be allowed or included in the Utah portion of AGI only when the allowance or inclusion is fair, equitable, and would be consistent with other requirements of Title 59, Chapter 10, Individual Income Tax Act, or these rules as determined by the commission.

B. Only in unusual circumstances as determined by the Tax Commission will the preparation of two returns be allowed or required. In this event, the returns shall be prepared in a fair and equitable manner as approved or prescribed by the Tax Commission consistent with Utah Code Ann. Section 59-10-121 and other pertinent provisions.

Section 59-10-122 and if he is required to convert his income for the period to an annual basis for federal income tax purposes, the taxpayer shall convert his income for the period of less than a year to an annual basis for computing his state income tax.

B. Unless the Tax Commission determines a different method consistent with requirements of the act is necessary or appropriate, the income tax of the taxpayer for the period of less than 12 months shall be computed as follows:

1. determine the state taxable income applicable to the fractional part of the year and multiply this amount by 12;

2. divide the product by the number of months in the period to arrive at the state taxable income on an annualized basis;

3. compute the tax applicable to the state taxable income as annualized;

4. divide the tax as computed on the annualized state taxable income by 12; and

5. multiply the result by the number of months in the period involved.

R865-9I-10. Adjustments Between Taxable Years After Change in Accounting Methods Pursuant to Utah Code Ann. Section 59-10-124.

A. If a taxpayer's state taxable income for any taxable year is computed under a method of accounting different from the method under which such income was computed for the previous year, the taxpayer shall attach a statement to his return setting forth all differences. This statement shall specify the amounts duplicated or omitted in full or in part as a result of such change. The Tax Commission shall make or allow any necessary adjustments to prevent double inclusion or exclusion of an item of gross income, or double allowance or disallowance of an item of deduction or credit.

(ii) "Downstream pass-through entity taxpayer" means a pass-through entity taxpayer that is a pass-through entity taxpayer of any entity that is itself a pass-through entity

taxpayer.

(2) A schedule shall be included with the return listing all of the following information for each nonresident pass-through entity taxpayer:

- (b) address;
- (c) social security number;
- (d) percentage of ownership in pass-through entity;
- (e) Utah income attributable to that pass-through entity taxpayer; and

(f) amount of Utah tax withheld on behalf of that pass-through entity taxpayer.

(3) The income of a pass-through entity that is an S corporation shall be calculated by:

(a) adding back to the line on the federal Schedule K labeled "Income/loss reconciliation" the amount included on that schedule for:

- (i) charitable contributions;
- (ii) total foreign taxes paid or accrued; and
- (iii) recapture of a benefit derived from a deduction under Section 179, Internal Revenue Code; or

(b) if the pass-through entity that is an S corporation was not required to complete the line labeled "Income/loss reconciliation" on the federal Schedule K, a pro forma calculation of the amounts for charitable contributions and foreign taxes paid or accrued, and of the amount that would have been entered on the "Income/loss reconciliation" line shall be used for purposes of this rule.

(4) A pass-through entity shall calculate the tax it is required to withhold on behalf of pass-through entity taxpayers by:

(a) multiplying the income of the pass-through entity computed in Subsection (1) by the tax rate in effect under Section 59-10-104; and

(b) subtracting from the amount calculated in Subsection (4)(a) any amounts withheld from the pass-through entity under Section 59-6-102 that are attributable to pass-through entity taxpayers for whom the pass-through entity is required to withhold.

(5)(a) A pass-through entity is not required to withhold a tax on behalf of a pass-through entity taxpayer of that pass-through entity if the pass-through entity taxpayer is:

(ii) an individual retirement account as defined under Section 408(a), Internal Revenue Code and the income from the pass-through entity is not unrelated business income to the pass-through entity taxpayer;

(iii) a real estate investment trust if all of the earnings of the real estate investment trust are distributed to the owners of the real estate investment trust; or

(iv) a person exempt from state income tax under Section 59-10-104.1.

(6)(a) Subject to Subsection (6)(b), and for purposes of Subsection 59-10-1403.2(5), a pass-through entity shall apply to the commission for a waiver of penalty or interest, on an amount the pass-through entity fails to pay or withhold and for which the pass-through entity taxpayer files and pays in a timely manner, by checking the box on the tax return requesting the waiver for required withholding.

(b) The provisions of Subsection (6)(a) shall be effective for taxable years beginning on or after January 1, 2010.

(7) An entity that is disregarded for federal tax purposes is disregarded for purposes of pass-through entity withholding.

(8) The pass-through entity's federal identification number shall be used on the form TC-65 in place of a social security number.

(9) Examples.

(a) Partnership A has two partners, both of whom are nonresident individuals exempt from state income tax under Section 59-10-104.1. Partnership A is not required to withhold Utah tax for these partners.

(b) For tax year 2010, Partnership C has two partners, Partnerships D and E. Partnership D has two partners, both Utah resident individuals. Partnership E has three nonresident partners, all of whom are subject to Utah state tax. Partnership C's responsibility for withholding is based on Partnerships D and E, not the partners of Partnerships D and E. Accordingly, Partnership C must withhold tax on behalf of Partnerships D and E. If, however, both Partnership D and the partners of Partnership D file returns and pay any tax due by the filing due date for Partnership C, including extensions, Partnership C may elect to not withhold those amounts and may apply to the Tax Commission, by checking the box on the tax return requesting the waiver for required withholding, for a waiver of tax, penalty, and interest on amounts Partnership C should have collected and remitted for Partnership D, but did not.

R865-9I-14. Requirement of Withholding Pursuant to Utah Code Ann. Sections 59-10-401, 59-10-402, and 59-10-403.

B. If the services performed by a resident employee are performed in another state of the United States, the District of Columbia, or a possession of the United States that requires withholding on wages earned, the withholding tax for Utah shall be the Utah tax required to be withheld less the tax required to be withheld under the laws, rules, and regulations of that other state, District of Columbia, or possession of the United States.

C. If the duties of a nonresident employee involve work both within and without the state, tax is withheld from that portion of the total wages that is properly allocable to Utah. If the executor or administrator failed to file a return as required by law or failed to exercise due diligence in determining and satisfying the tax liability, the liability is not extinguished until the return is filed and paid.

C. Liability for the tax also follows the estate itself. If by reason of the distribution of the estate and the discharge of the executor or administrator, it appears that collection of tax cannot be made from the executor or administrator, each legatee or distributee must account for his proportionate share of the tax due and unpaid to the extent of the distributive share received by him.

(3) A partnership may satisfy the requirement to file a return with the commission by maintaining records that show each partner's share of income, losses, credits, and other distributive items, and making those records available for audit if:

- (a) all of the partnership's partners are resident individuals; and

(2) For purposes of the investment tax credit, an investment is a qualifying investment if the plant, equipment, or other depreciable property for which the credit is taken is:

(a)(i) located within the boundaries of the enterprise zone; and

(ii) used exclusively in business operations conducted within the enterprise zone or

(b) in the case of equipment or other depreciable property, based in the enterprise zone.

(3) The following examples relate to the investment tax credit.

(a) A furniture manufacturer operates a manufacturing facility that is located in an enterprise zone. The manufacturer purchases two trucks that are used exclusively at the facility and used to pick up raw materials from suppliers, some or all of whom may be outside the enterprise zone, and to deliver finished product to final customers, some or all of whom may be outside the enterprise zone. The trucks qualify for the investment tax credit because they are used exclusively in a business operation, the furniture manufacturing facility, that is located within the enterprise zone, even if they are stored or maintained at a facility located outside of the enterprise zone.

(b) If the same manufacturer described in Subsection (4)(a) had two facilities, one located within the enterprise zone, and one located outside the enterprise zone, and used the same two trucks for the same purposes for both facilities. The trucks are not based at a facility in the enterprise zone. The trucks would not qualify for the investment tax credit because they are not used exclusively at the facility located within the enterprise zone, and are not based in the enterprise zone.

(c) A business consists of a mine office located in an enterprise zone and a mine located outside the enterprise zone. Mining equipment is used exclusively at the mine and is not based in the enterprise zone. The business may claim the investment tax credit for plant, equipment, or other depreciable property located in the mine office, but not for plant, equipment, or other depreciable property used in the mine outside the enterprise zone.

(d) A business purchases equipment such as an oil rig, which is transported outside the enterprise zone to service facilities such as oil fields. If the use of the equipment is directed or managed from the enterprise zone and the equipment returns to a facility, within the enterprise zone, that is owned by the business for regular maintenance or storage, the equipment is based in the enterprise zone and therefore qualifies for the investment tax credit.

(e) The same business described in Subsection (4)(d) purchases equipment that is primarily stored or maintained at facilities that are located outside of the enterprise zone, but which may be occasionally stored or maintained in the enterprise zone. This equipment would not be based in the enterprise zone, and would not qualify for the investment tax credit, even if the business has other facilities in the enterprise zone.

(4) The calculation of the number of full-time positions for purposes of the credits allowed under Subsections 63M-1-413(1)(a) through (d) shall be based on the average number of employees reported to the Department of Workforce Services for the four quarters prior to the area's designation as an enterprise zone.

(5) To determine whether at least 51 percent of the business firm's employees reside in the county in which the enterprise zone is located, the business firm shall consider every employee reported to the Department of Workforce Services for the tax year for which an enterprise zone credit is sought.

(6) A business firm that conducts non-retail operations and is engaged in retail trade qualifies for the credits under Section 63M-1-413 if the retail trade operations constitute a de minimis portion of the business firm's total operations.

(7) An employee whose duties include both non-construction work and construction work does not perform a construction job if the construction work performed by the employee constitutes a de minimis portion of the employee's total duties.

(8) Records and supporting documentation shall be maintained for three years after the date any returns are filed to support the credits taken. For example: If credits are originally taken in 1988 and unused portions are carried forward to 1992, records to support the original credits taken in 1988 must be maintained for three years after the date the 1992 return is filed.

(9) If an enterprise zone designation is revoked prior to the expiration of the period for which it was designated, only tax credits earned prior to the loss of that designation will be allowed.

(a) "Duty days" means all days during the taxable year from the beginning of the professional athletic team's official preseason training period through the last game in which the team competes or is scheduled to compete.

If a person switches teams during a taxable year, a separate duty day calculation shall be made for the period that person was with each team.

(iii) Days for which a member of a professional athletic team is not compensated and is not rendering services for the team in any manner, including days when the member of a professional athletic team has been suspended without pay and prohibited from performing any services for the team, shall not be treated as duty days.

(III) the signing bonus is nonrefundable.

(e) "Total compensation for services rendered as a member of a professional athletic team" means the total compensation received during the taxable year for services rendered:

(ii) during the taxable year on a date that does not fall within the period in Subsection (1)(e)(i), for example, participation in instructional leagues, the Pro Bowl, or promotional caravans.

(2) The purpose of this rule is to apportion to the state, in a fair and equitable manner, a nonresident member of a professional athletic team's total compensation for services rendered as a member of a professional athletic team. It is presumed that application of the provisions of this rule will result in a fair and equitable apportionment of that compensation. Where it is demonstrated that the method provided under this rule does not fairly and equitably apportion that compensation, the commission may require the member of a professional athletic team to apportion that compensation under a method the commission prescribes, as long as the prescribed method results in a fair and equitable apportionment.

(3) If a nonresident member of a professional athletic team demonstrates that the method provided under this rule does not fairly and equitably apportion compensation, that member may submit a proposal for an alternative method to apportion compensation. If approved, the proposed method must be fully explained in the nonresident member of a professional athletic team's nonresident personal income tax return for the state.

(4) A professional athletic team:

(a) is an employer for purposes of Title 59, Chapter 10, Part 4, Withholding of Tax; and

(b) may not be relieved from the requirements imposed on an employer under Title 59, Chapter 10, Part 4, Withholding of Tax.

(6) The Utah source income of a nonresident individual who is a member of a professional athletic team includes that portion of the individual's total compensation for services rendered as a member of a professional athletic team during the taxable year which, the number of duty days spent within the state rendering services for the team in any manner during the taxable year, bears to the total number of duty days spent both within and without the state during the taxable year.

(b) If the net weight includes a fractional part of an ounce, that fractional part of an ounce shall be included in the calculation.

(3) The calculation described in Subsection (2) shall be carried to three decimal places and rounded up to the nearest cent whenever the third decimal place of the calculation in Subsection (2) is greater than 4.

A. "Household income" includes net rents, interest, retirement income, welfare, social security, and all other sources of cash income.

B. Absence from the residence due to vacation, confinement to hospital, or other similar temporary situation shall not be deducted from the ten-month residency requirement of Section 59-2-1109(3)(a)(ii).

C. Written notification shall be given to any applicant whose application for abatement or deferral is denied.

R884-24P-7. Assessment of Mining Properties Pursuant to Utah Code Ann. Section 59-2-201.**A. Definitions.**

1. "Allowable costs" means those costs reasonably and necessarily incurred to own and operate a productive mining property and bring the minerals or finished product to the customary or implied point of sale.

a) Allowable costs include: salaries and wages, payroll taxes, employee benefits, workers compensation insurance, parts and supplies, maintenance and repairs, equipment rental, tools, power, fuels, utilities, water, freight, engineering, drilling, sampling and assaying, accounting and legal, management, insurance, taxes (including severance, property, sales/use, and federal and state income taxes), exempt royalties, waste disposal, actual or accrued environmental cleanup, reclamation and remediation, changes in working capital (other than those caused by increases or decreases in product inventory or other nontaxable items), and other miscellaneous costs.

b) For purposes of the discounted cash flow method, allowable costs shall include expected future capital expenditures in addition to those items outlined in A.1.a).

c) For purposes of the capitalized net revenue method, allowable costs shall include straight-line depreciation of capital expenditures in addition to those items outlined in A.1.a).

d) Allowable costs does not include interest, depletion, depreciation other than allowed in A.1.c), amortization, corporate overhead other than allowed in A.1.a), or any expenses not related to the ownership or operation of the mining property being valued.

e) To determine applicable federal and state income taxes, straight line depreciation, cost depletion, and amortization shall be used.

2. "Asset value" means the value arrived at using generally accepted cost approaches to value.

3. "Capital expenditure" means the cost of acquiring property, plant, and equipment used in the productive mining property operation and includes:

- a) purchase price of an asset and its components;
- b) transportation costs;
- c) installation charges and construction costs; and
- d) sales tax.

4. "Constant or real dollar basis" means cash flows or net revenues used in the discounted cash flow or capitalized net revenue methods, respectively, prepared on a basis where inflation or deflation are adjusted back to the lien date. For this purpose, inflation or deflation shall be determined using the gross domestic product deflator produced by the Congressional Budget Office, or long-term inflation forecasts produced by reputable analysts, other similar sources, or any combination thereof.

5. "Discount rate" means the rate that reflects the current yield requirements of investors purchasing comparable properties in the mining industry, taking into account the

industry's current and projected market, financial, and economic conditions.

6. "Economic production" means the ability of the mining property to profitably produce and sell product, even if that ability is not being utilized.

7. "Exempt royalties" means royalties paid to this state or its political subdivisions, an agency of the federal government, or an Indian tribe.

8. "Expected annual production" means the economic production from a mine for each future year as estimated by an analysis of the life-of-mine mining plan for the property.

9. "Fair market value" is as defined in Section 59-2-102.

10. "Federal and state income taxes" mean regular taxes based on income computed using the marginal federal and state income tax rates for each applicable year.

11. "Implied point of sale" means the point where the minerals or finished product change hands in the normal course of business.

12. "Net cash flow" for the discounted cash flow method means, for each future year, the expected product price multiplied by the expected annual production that is anticipated to be sold or self-consumed, plus related revenue cash flows, minus allowable costs.

13. "Net revenue" for the capitalized net revenue method means, for any of the immediately preceding five years, the actual receipts from the sale of minerals (or if self-consumed, the value of the self-consumed minerals), plus actual related revenue cash flows, minus allowable costs.

14. "Non-operating mining property" means a mine that has not produced in the previous calendar year and is not currently capable of economic production, or land held under a mineral lease not reasonably necessary in the actual mining and extraction process in the current mine plan.

15. "Productive mining property" means the property of a mine that is either actively producing or currently capable of having economic production. Productive mining property includes all taxable interests in real property, improvements and tangible personal property upon or appurtenant to a mine that are used for that mine in exploration, development, engineering, mining, crushing or concentrating, processing, smelting, refining, reducing, leaching, roasting, other processes used in the separation or extraction of the product from the ore or minerals and the processing thereof, loading for shipment, marketing and sales, environmental clean-up, reclamation and remediation, general and administrative operations, or transporting the finished product or minerals to the customary point of sale or to the implied point of sale in the case of self-consumed minerals.

16. "Product price" for each mineral means the price that is most representative of the price expected to be received for the mineral in future periods.

a) Product price is determined using one or more of the following approaches:

(1) an analysis of average actual sales prices per unit of production for the minerals sold by the taxpayer for up to five years preceding the lien date; or,

(2) an analysis of the average posted prices for the minerals, if valid posted prices exist, for up to five calendar years preceding the lien date; or,

(3) the average annual forecast prices for each of up to five years succeeding the lien date for the minerals sold by the taxpayer and one average forecast price for all years thereafter for those same minerals, obtained from reputable forecasters, mutually agreed upon between the Property Tax Division and the taxpayer.

b) If self-consumed, the product price will be determined by one of the following two methods:

(1) Representative unit sales price of like minerals. The representative unit sales price is determined from:

- (a) actual sales of like mineral by the taxpayer;
- (b) actual sales of like mineral by other taxpayers; or
- (c) posted prices of like mineral; or

(2) If a representative unit sales price of like minerals is unavailable, an imputed product price for the self-consumed minerals may be developed by dividing the total allowable costs by one minus the taxpayer's discount rate to adjust to a cost that includes profit, and dividing the resulting figure by the number of units mined.

17. "Related revenue cash flows" mean non-product related cash flows related to the ownership or operation of the mining property being valued. Examples of related revenue cash flows include royalties and proceeds from the sale of mining equipment.

18. "Self consumed minerals" means the minerals produced from the mining property that the mining entity consumes or utilizes for the manufacture or construction of other goods and services.

19. "Straight line depreciation" means depreciation computed using the straight line method applicable in calculating the regular federal tax. For this purpose, the applicable recovery period shall be seven years for depreciable tangible personal mining property and depreciable tangible personal property appurtenant to a mine, and 39 years for depreciable real mining property and depreciable real property appurtenant to a mine.

B. Valuation.

1. The discounted cash flow method is the preferred method of valuing productive mining properties. Under this method the taxable value of the mine shall be determined by:

- a) discounting the future net cash flows for the remaining life of the mine to their present value as of the lien date; and
- b) subtracting from that present value the fair market value, as of the lien date, of licensed vehicles and nontaxable items.

2. The mining company shall provide to the Property Tax Division an estimate of future cash flows for the remaining life of the mine. These future cash flows shall be prepared on a constant or real dollar basis and shall be based on factors including the life-of-mine mining plan for proven and probable reserves, existing plant in place, capital projects underway, capital projects approved by the mining company board of directors, and capital necessary for sustaining operations. All factors included in the future cash flows, or which should be included in the future cash flows, shall be subject to verification and review for reasonableness by the Property Tax Division.

3. If the taxpayer does not furnish the information necessary to determine a value using the discounted cash flow method, the Property Tax Division may use the capitalized net revenue method. This method is outlined as follows:

- a) Determine annual net revenue, both net losses and net gains, from the productive mining property for each of the immediate past five years, or years in operation, if less than five years. Each year's net revenue shall be adjusted to a constant or real dollar basis.

- b) Determine the average annual net revenue by summing the values obtained in B.3.a) and dividing by the number of operative years, five or less.

- c) Divide the average annual net revenue by the discount rate to determine the fair market value of the entire productive mining property.

- d) Subtract from the fair market value of the entire productive mining property the fair market value, as of the lien date, of licensed vehicles and nontaxable items, to determine the taxable value of the productive mining property.

4. The discount rate shall be determined by the Property Tax Division.

- a) The discount rate shall be determined using the weighted average cost of capital method, a survey of reputable mining industry analysts, any other accepted methodology, or

any combination thereof.

- b) If using the weighted average cost of capital method, the Property Tax Division shall include an after-tax cost of debt and of equity. The cost of debt will consider market yields. The cost of equity shall be determined by the capital asset pricing model, arbitrage pricing model, risk premium model, discounted cash flow model, a survey of reputable mining industry analysts, any other accepted methodology, or a combination thereof.

5. Where the discount rate is derived through the use of publicly available information of other companies, the Property Tax Division shall select companies that are comparable to the productive mining property. In making this selection and in determining the discount rate, the Property Tax Division shall consider criteria that includes size, profitability, risk, diversification, or growth opportunities.

6. A non-operating mine will be valued at fair market value consistent with other taxable property.

7. If, in the opinion of the Property Tax Division, these methods are not reasonable to determine the fair market value, the Property Tax Division may use other valuation methods to estimate the fair market value of a mining property.

8. The fair market value of a productive mining property may not be less than the fair market value of the land, improvements, and tangible personal property upon or appurtenant to the mining property. The mine value shall include all equipment, improvements and real estate upon or appurtenant to the mine. All other tangible property not appurtenant to the mining property will be separately valued at fair market value.

9. Where the fair market value of assets upon or appurtenant to the mining property is determined under the cost method, the Property Tax Division shall use the replacement cost new less depreciation approach. This approach shall consider the cost to acquire or build an asset with like utility at current prices using modern design and materials, adjusted for loss in value due to physical deterioration or obsolescence for technical, functional and economic factors.

C. When the fair market value of a productive mining property in more than one tax area exceeds the asset value, the fair market value will be divided into two components and apportioned as follows:

- 1. Asset value that includes machinery and equipment, improvements, and land surface values will be apportioned to the tax areas where the assets are located.

- 2. The fair market value less the asset value will give an income increment of value. The income increment will be apportioned as follows:

- a) Divide the asset value by the fair market value to determine a quotient. Multiply the quotient by the income increment of value. This value will be apportioned to each tax area based on the percentage of the total asset value in that tax area.

- b) The remainder of the income increment will be apportioned to the tax areas based on the percentage of the known mineral reserves according to the mine plan.

D. The provisions of this rule shall be implemented and become binding on taxpayers beginning January 1, 1998.

R884-24P-8. Security for Property Tax on Uranium and Vanadium Mines Pursuant to Utah Code Ann. Section 59-2-211.

A. The security deposit allowed by Section 59-2-211 shall be requested from the mine owners or operators by giving notice in the manner required by Section 59-2-211. A list of mine owners and operators who have made lump sum security deposits with the Tax Commission will be furnished annually by the Tax Commission to any person, mill, buying station, or other legal entity receiving uranium or vanadium ore mined,

produced, or received from within Utah.

B. At the option of the mine owner or operator, within 30 days after receiving proper notice from the Tax Commission, or if the mine owner or operator has not complied with the request within the 30 day period, the Tax Commission may implement the following procedure:

1. Any person, mill, buying station, or other legal entity receiving uranium or vanadium ore mined, produced, or received from within Utah shall withhold 4 percent, or any higher amount set by the Tax Commission, of the gross proceeds due to the mine operator or owner.

2. All amounts withheld shall be remitted to the Tax Commission by the last day of April, July, October, and January for the immediately preceding calendar quarter, in the manner set forth by the Tax Commission.

3. Not later than the last day of February, owners or operators of uranium and vanadium mines who have not made lump sum security deposits with the Tax Commission shall be provided with a statement from the Tax Commission showing all security deposit amounts withheld from their gross proceeds during the previous calendar year.

4. The Tax Commission shall provide the county treasurers with a list of all uranium and vanadium mine owners and operators who have had security deposit amounts withheld. The county treasurers shall then advise the Tax Commission in writing of the amount of taxes due from each mine owner or operator on the Tax Commission's list.

5. Once all county treasurers have responded, the Tax Commission shall forward to each county treasurer the taxes due, or the pro rata portion thereof, to the extent taxes have been withheld and remitted to the Tax Commission.

a. Any amount withheld in excess of the total taxes due to all counties shall be refunded to the appropriate mine owner or operator by the Tax Commission.

b. If the amount withheld is not sufficient to pay the full amount of taxes due, the county treasurers shall collect the balance of taxes directly from the mine owner or operator.

R884-24P-10. Taxation of Underground Rights in Land That Contains Deposits of Oil or Gas Pursuant to Utah Code Ann. Sections 59-2-201 and 59-2-210.

A. Definitions.

1. "Person" is as defined in Section 68-3-12.

2. "Working interest owner" means the owner of an interest in oil, gas, or other hydrocarbon substances burdened with a share of the expenses of developing and operating the property.

3. "Unit operator" means a person who operates all producing wells in a unit.

4. "Independent operator" means a person operating an oil or gas producing property not in a unit.

5. One person can, at the same time, be a unit operator, a working interest owner, and an independent operator and must comply with all requirements of this rule based upon the person's status in the respective situations.

6. "Expected annual production" means the future economic production of an oil and gas property as estimated by the Property Tax Division using decline curve analysis. Expected annual production does not include production used on the same well, lease, or unit for the purpose of repressuring or pressure maintenance.

7. "Product price" means:

a) Oil: The weighted average posted price for the calendar year preceding January 1, specific for the field in which the well is operating as designated by the Division of Oil, Gas, and Mining. The weighted average posted price is determined by weighing each individual posted price based on the number of days it was posted during the year, adjusting for gravity, transportation, escalation, or deescalation.

b) Gas:

(1) If sold under contract, the price shall be the stated price as of January 1, adjusted for escalation and deescalation.

(2) If sold on the spot market or to a direct end-user, the price shall be the average price received for the 12-month period immediately preceding January 1, adjusted for escalation and deescalation.

8. "Future net revenue" means annual revenues less costs of the working interests and royalty interest.

9. "Revenue" means expected annual gross revenue, calculated by multiplying the product price by expected annual production for the remaining economic life of the property.

10. "Costs" means expected annual allowable costs applied against revenue of cost-bearing interests:

a) Examples of allowable costs include management salaries; labor; payroll taxes and benefits; workers' compensation insurance; general insurance; taxes (excluding income and property taxes); supplies and tools; power; maintenance and repairs; office; accounting; engineering; treatment; legal fees; transportation; miscellaneous; capital expenditures; and the imputed cost of self consumed product.

b) Interest, depreciation, or any expense not directly related to the unit will shall not be included as allowable costs.

11. "Production asset" means any asset located at the well site that is used to bring oil or gas products to a point of sale or transfer of ownership.

B. The discount rate shall be determined by the Property Tax Division using methods such as the weighted cost of capital method.

1. The cost of debt shall consider market yields. The cost of equity shall be determined by the capital asset pricing model, risk premium model, discounted cash flow model, a combination thereof, or any other accepted methodology.

2. The discount rate shall reflect the current yield requirements of investors purchasing similar properties, taking into consideration income, income taxes, risk, expenses, inflation, and physical and locational characteristics.

3. The discount rate shall contain the same elements as the expected income stream.

C. Assessment Procedures.

1. Underground rights in lands containing deposits of oil or gas and the related tangible property shall be assessed by the Property Tax Division in the name of the unit operator, the independent operator, or other person as the facts may warrant.

2. The taxable value of underground oil and gas rights shall be determined by discounting future net revenues to their present value as of the lien date of the assessment year and then subtracting the value of applicable exempt federal, state, and Indian royalty interests.

3. The reasonable taxable value of productive underground oil and gas rights shall be determined by the methods described in C.2. of this rule or such other valuation method that the Tax Commission believes to be reasonably determinative of the property's fair market value.

4. The value of the production assets shall be considered in the value of the oil and gas reserves as determined in C.2. above. Any other tangible property shall be separately valued at fair market value by the Property Tax Division.

5. The minimum value of the property shall be the value of the production assets.

D. Collection by Operator.

1. The unit operator may request the Property Tax Division to separately list the value of the working interest, and the value of the royalty interest on the Assessment Record. When such a request is made, the unit operator is responsible to provide the Property Tax Division with the necessary information needed to compile this list. The unit operator may make a reasonable estimate of the ad valorem tax liability for a given period and may withhold funds from amounts due to

royalty. Withheld funds shall be sufficient to ensure payment of the ad valorem tax on each fractional interest according to the estimate made.

a) If a unit operating agreement exists between the unit operator and the fractional working interest owners, the unit operator may withhold or collect the tax according to the terms of that agreement.

b) In any case, the unit operator and the fractional interest owner may make agreements or arrangements for withholding or otherwise collecting this tax. This may be done whether or not that practice is consistent with the preceding paragraphs so long as all requirements of the law are met. When a fractional interest owner has had funds withheld to cover the estimated ad valorem tax liability and the operator fails to remit such taxes to the county when due, the fractional interest owner shall be indemnified from any further ad valorem tax liability to the extent of the withholding.

c) The unit operator shall compare the amount withheld to the taxes actually due, and return any excess amount to the fractional interest owner within 60 days after the delinquent date of the tax. At the request of the fractional interest owner the excess may be retained by the unit operator and applied toward the fractional interest owner's tax liability for the subsequent year.

2. The penalty provided for in Section 59-2-210 is intended to ensure collection by the county of the entire tax due. Any unit operator who has paid this county imposed penalty, and thereafter collects from the fractional interest holders any part of their tax due, may retain those funds as reimbursement against the penalty paid.

3. Interest on delinquent taxes shall be assessed as set forth in Section 59-2-1331.

4. Each unit operator may be required to submit to the Property Tax Division a listing of all fractional interest owners and their interests upon specific request of the Property Tax Division. Working interest owners, upon request, shall be required to submit similar information to unit operators.

R884-24P-14. Valuation of Real Property Encumbered by Preservation Easements Pursuant to Utah Code Ann. Section 59-2-303.

A. The assessor shall take into consideration any preservation easements attached to historically significant real property and structures when determining the property's value.

B. After the preservation easement has been recorded with the county recorder, the property owner of record shall submit to the county assessor and the Tax Commission a notice of the preservation easement containing the following information:

1. the property owner's name;
2. the address of the property; and
3. the serial number of the property.

C. The county assessor shall review the property and incorporate any value change due to the preservation easement in the following year's assessment roll.

R884-24P-16. Assessment of Interlocal Cooperation Act Project Entity Properties Pursuant to Utah Code Ann. Section 11-13-302.

(1) Definitions:

(a) "Utah fair market value" means the fair market value of that portion of the property of a project entity located within Utah upon which the fee in lieu of ad valorem property tax may be calculated.

(b) "Fee" means the annual fee in lieu of ad valorem property tax payable by a project entity pursuant to Section 11-13-302.

(c) "Energy supplier" means an entity that purchases any capacity, service or other benefit of a project to provide electrical service.

(d) "Exempt energy supplier" means an energy supplier whose tangible property is exempted by Article XIII, Sec. 3 of the Constitution of Utah from the payment of ad valorem property tax.

(e) "Optimum operating capacity" means the capacity at which a project is capable of operating on a sustained basis taking into account its design, actual operating history, maintenance requirements, and similar information from comparable projects, if any. The determination of the projected and actual optimum operating capacities of a project shall recognize that projects are not normally operated on a sustained basis at 100 percent of their designed or actual capacities and that the optimum level for operating a project on a sustained basis may vary from project to project.

(f) "Property" means any electric generating facilities, transmission facilities, distribution facilities, fuel facilities, fuel transportation facilities, water facilities, land, water or other existing facilities or tangible property owned by a project entity and required for the project which, if owned by an entity required to pay ad valorem property taxes, would be subject to assessment for ad valorem tax purposes.

(g) "Sold," for the purpose of interpreting Subsection (4), means the first sale of the capacity, service, or other benefit produced by the project without regard to any subsequent sale, resale, or lay-off of that capacity, service, or other benefit.

(h) "Taxing jurisdiction" means a political subdivision of this state in which any portion of the project is located.

(i) All definitions contained in Section 11-13-103 apply to this rule.

(2) The Tax Commission shall determine the fair market value of the property of each project entity. Fair market value shall be based upon standard appraisal theory and shall be determined by correlating estimates derived from the income and cost approaches to value described below.

(a) The income approach to value requires the imputation of an income stream and a capitalization rate. The income stream may be based on recognized indicators such as average income, weighted income, trended income, present value of future income streams, performance ratios, and discounted cash flows. The imputation of income stream and capitalization rate shall be derived from the data of other similarly situated companies. Similarity shall be based on factors such as location, fuel mix, customer mix, size and bond ratings. Estimates may also be imputed from industry data generally. Income data from similarly situated companies will be adjusted to reflect differences in governmental regulatory and tax policies.

(b) The cost approach to value shall consist of the total of the property's net book value of the project's property. This total shall then be adjusted for obsolescence if any.

(c) In addition to, and not in lieu of, any adjustments for obsolescence made pursuant to Subsection (2)(b), a phase-in adjustment shall be made to the assessed valuation of any new project or expansion of an existing project on which construction commenced by a project entity after January 1, 1989 as follows:

(i) During the period the new project or expansion is valued as construction work in process, its assessed valuation shall be multiplied by the percentage calculated by dividing its projected production as of the projected date of completion of construction by its projected optimum operating capacity as of that date.

(ii) Once the new project or expansion ceases to be valued as construction work in progress, its assessed valuation shall be multiplied by the percentage calculated by dividing its actual production by its actual optimum operating capacity. After the new project or expansion has sustained actual production at its optimum operating capacity during any tax year, this percentage shall be deemed to be 100 percent for the remainder of its useful

life.

(3) If portions of the property of the project entity are located in states in addition to Utah and those states do not apply a unit valuation approach to that property, the fair market value of the property allocable to Utah shall be determined by computing the cost approach to value on the basis of the net book value of the property located in Utah and imputing an estimated income stream based solely on the value of the Utah property as computed under the cost approach. The correlated value so determined shall be the Utah fair market value of the property.

(4) Before fixing and apportioning the Utah fair market value of the property to the respective taxing jurisdictions in which the property, or a portion thereof is located, the Utah fair market value of the property shall be reduced by the percentage of the capacity, service, or other benefit sold by the project entity to exempt energy suppliers.

(5) For purposes of calculating the amount of the fee payable under Section 11-13-302(3), the percentage of the project that is used to produce the capacity, service or other benefit sold shall be deemed to be 100 percent, subject to adjustments provided by this rule, from the date the project is determined to be commercially operational.

(6) In computing its tax rate pursuant to the formula specified in Section 59-2-924(2), each taxing jurisdiction in which the project property is located shall add to the amount of its budgeted property tax revenues the amount of any credit due to the project entity that year under Section 11-13-302(3), and shall divide the result by the sum of the taxable value of all property taxed, including the value of the project property apportioned to the jurisdiction, and further adjusted pursuant to the requirements of Section 59-2-924.

(7) Subsections (2)(a) and (2)(b) are retroactive to the lien date of January 1, 1984. Subsection (2)(c) is effective as of the lien date of January 1, 1989. The remainder of this rule is retroactive to the lien date of January 1, 1988.

R884-24P-17. Reappraisal of Real Property by County Assessors Pursuant to Utah Constitution, Article XIII, Subsection 11, and Utah Code Ann. Sections 59-2-303, 59-2-302, and 59-2-704.

A. The following standards shall be followed in sequence when performing a reappraisal of all classes of locally-assessed real property within a county.

1. Conduct a preliminary survey and plan.
- a) Compile a list of properties to be appraised by property class.
- b) Assemble a complete current set of ownership plats.
- c) Estimate personnel and resource requirements.
- d) Construct a control chart to outline the process.
2. Select a computer-assisted appraisal system and have the system approved by the Property Tax Division.
3. Obtain a copy of all probable transactions from the recorder's office for the three-year period ending on the effective date of reappraisal.
4. Perform a use valuation on agricultural parcels using the most recent set of aerial photographs covering the jurisdiction.
 - a) Perform a field review of all agricultural land, dividing up the land by agricultural land class.
 - b) Transfer data from the aerial photographs to the current ownership plats, and compute acreage by class on a per parcel basis.
 - c) Enter land class information and the calculated agricultural land use value on the appraisal form.
5. Develop a land valuation guideline.
6. Perform an appraisal on improved sold properties considering the three approaches to value.
7. Develop depreciation schedules and time-location modifiers by comparing the appraised value with the sale price

of sold properties.

8. Organize appraisal forms by proximity to each other and by geographical area. Insert sold property information into the appropriate batches.

9. Collect data on all nonsold properties.
10. Develop capitalization rates and gross rent multipliers.
11. Estimate the value of income-producing properties using the appropriate capitalization method.
12. Input the data into the automated system and generate preliminary values.
13. Review the preliminary figures and refine the estimate based on the applicable approaches to value.
14. Develop an outlier analysis program to identify and correct clerical or judgment errors.
15. Perform an assessment/sales ratio study. Include any new sale information.
16. Make a final review based on the ratio study including an analysis of variations in ratios. Make appropriate adjustments.
17. Calculate the final values and place them on the assessment role.
18. Develop and publish a sold properties catalog.
19. Establish the local Board of Equalization procedure.
20. Prepare and file documentation of the reappraisal program with the local Board of Equalization and Property Tax Division.

B. The Tax Commission shall provide procedural guidelines for implementing the above requirements.

(15) All appraisal work performed by Tax Commission designated appraisers shall meet the standards set forth in section 61-2b-27.

(16) If appropriate Tax Commission designations are not held by assessor's office personnel, the appraisal work must be contracted out to qualified private appraisers. An assessor's office may elect to contract out appraisal work to qualified private appraisers even if personnel with the appropriate designation are available in the office. If appraisal work is contracted out, the following requirements must be met:

(a) The private sector appraisers performing the contracted work must hold the state certified residential appraiser or state certified general appraiser license issued by the Division of Real Estate of the Utah Department of Commerce. R884-24P-20. Construction Work in Progress Pursuant to Utah Constitution Art. XIII, Section 2 and Utah Code Ann. Sections 59-2-201 and 59-2-301.

A. For purposes of this rule:

1. Construction work in progress means improvements as defined in Section 59-2-102, and personal property as defined in Section 59-2-102, not functionally complete as defined in A.6.

2. Project means any undertaking involving construction, expansion or modernization.

3. "Construction" means:

a) creation of a new facility;

b) acquisition of personal property; or

c) any alteration to the real property of an existing facility other than normal repairs or maintenance.

4. Expansion means an increase in production or capacity as a result of the project.

5. Modernization means a change or contrast in character or quality resulting from the introduction of improved techniques, methods or products.

6. Functionally complete means capable of providing economic benefit to the owner through fulfillment of the purpose for which it was constructed. In the case of a cost-regulated utility, a project shall be deemed to be functionally

complete when the operating property associated with the project has been capitalized on the books and is part of the rate base of that utility.

7. Allocable preconstruction costs means expenditures associated with the planning and preparation for the construction of a project. To be classified as an allocable preconstruction cost, an expenditure must be capitalized.

8. Cost regulated utility means a power company, oil and gas pipeline company, gas distribution company or telecommunication company whose earnings are determined by a rate of return applied to rate base. Rate of return and rate base are set and approved by a state or federal regulatory commission.

9. Residential means single-family residences and duplex apartments.

10. Unit method of appraisal means valuation of the various physical components of an integrated enterprise as a single going concern. The unit method may employ one or more of the following approaches to value: the income approach, the cost approach, and the stock and debt approach.

B. All construction work in progress shall be valued at "full cash value" as described in this rule.

C. Discount Rates

For purposes of this rule, discount rates used in valuing all projects shall be determined by the Tax Commission, and shall be consistent with market, financial and economic conditions.

D. Appraisal of Allocable Preconstruction Costs.

1. If requested by the taxpayer, preconstruction costs associated with properties, other than residential properties, may be allocated to the value of the project in relation to the relative amount of total expenditures made on the project by the lien date. Allocation will be allowed only if the following conditions are satisfied by January 30 of the tax year for which the request is sought:

- a) a detailed list of preconstruction cost data is supplied to the responsible agency;
- b) the percent of completion of the project and the preconstruction cost data are certified by the taxpayer as to their accuracy.

2. The preconstruction costs allocated pursuant to D.1. of this rule shall be discounted using the appropriate rate determined in C. The discounted allocated value shall either be added to the values of properties other than residential properties determined under E.1. or shall be added to the values determined under the various approaches used in the unit method of valuation determined under F.

3. The preconstruction costs allocated under D. are subject to audit for four years. If adjustments are necessary after examination of the records, those adjustments will be classified as property escaping assessment.

E. Appraisal of Properties not Valued under the Unit Method.

1. The full cash value, projected upon completion, of all properties valued under this section, with the exception of residential properties, shall be reduced by the value of the allocable preconstruction costs determined D. This reduced full cash value shall be referred to as the "adjusted full cash value."

2. On or before January 1 of each tax year, each county assessor and the Tax Commission shall determine, for projects not valued by the unit method and which fall under their respective areas of appraisal responsibility, the following:

- a) The full cash value of the project expected upon completion.
- b) The expected date of functional completion of the project currently under construction.

(1) The expected date of functional completion shall be determined by the county assessor for locally assessed properties and by the Tax Commission for centrally-assessed properties.

c) The percent of the project completed as of the lien date.

(1) Determination of percent of completion for residential properties shall be based on the following percentage of completion:

- (a) 10 - Excavation-foundation
- (b) 30 - Rough lumber, rough labor
- (c) 50 - Roofing, rough plumbing, rough electrical, heating
- (d) 65 - Insulation, drywall, exterior finish
- (e) 75 - Finish lumber, finish labor, painting
- (f) 90 - Cabinets, cabinet tops, tile, finish plumbing, finish electrical
- (g) 100 - Floor covering, appliances, exterior concrete, misc.

(2) In the case of all other projects under construction and valued under this section the percent of completion shall be determined by the county assessor for locally assessed properties and by the Tax Commission for centrally-assessed properties.

3. Upon determination of the adjusted full cash value for nonresidential projects under construction or the full cash value expected upon completion of residential projects under construction, the expected date of completion, and the percent of the project completed, the assessor shall do the following:

- a) multiply the percent of the residential project completed by the total full cash value of the residential project expected upon completion; or in the case of nonresidential projects,
- b) multiply the percent of the nonresidential project completed by the adjusted full cash value of the nonresidential project;
- c) adjust the resulting product of E.3.a) or E.3.b) for the expected time of completion using the discount rate determined under C.

F. Appraisal of Properties Valued Under the Unit Method of Appraisal.

1. No adjustments under this rule shall be made to the income indicator of value for a project under construction that is owned by a cost-regulated utility when the project is allowed in rate base.

2. The full cash value of a project under construction as of January 1 of the tax year, shall be determined by adjusting the cost and income approaches as follows:

a) Adjustments to reflect the time value of money in appraising construction work in progress valued under the cost and income approaches shall be made for each approach as follows:

(1) Each company shall report the expected completion dates and costs of the projects. A project expected to be completed during the tax year for which the valuation is being determined shall be considered completed on January 1 or July 1, whichever is closest to the expected completion date. The Tax Commission shall determine the expected completion date for any project whose completion is scheduled during a tax year subsequent to the tax year for which the valuation is being made.

(2) If requested by the company, the value of allocable preconstruction costs determined in D. shall then be subtracted from the total cost of each project. The resulting sum shall be referred to as the adjusted cost value of the project.

(3) The adjusted cost value for each of the future years prior to functional completion shall be discounted to reflect the present value of the project under construction. The discount rate shall be determined under C.

(4) The discounted adjusted cost value shall then be added to the values determined under the income approach and cost approach.

b) No adjustment will be made to reflect the time value of money for a project valued under the stock and debt approach to value.

G. This rule shall take effect for the tax year 1985.

R884-24P-24. Form for Notice of Property Valuation and Tax Changes Pursuant to Utah Code Ann. Sections 59-2-918.5 through 59-2-924.

(1) The county auditor must notify all real property owners of property valuation and tax changes on the Notice of Property Valuation and Tax Changes form.

(a) If a county desires to use a modified version of the Notice of Property Valuation and Tax Changes, a copy of the proposed modification must be submitted for approval to the Property Tax Division of the Tax Commission no later than March 1.

(i) Within 15 days of receipt, the Property Tax Division will issue a written decision, including justifications, on the use of the modified Notice of Property Valuation and Tax Changes.

(ii) If a county is not satisfied with the decision, it may petition for a hearing before the Tax Commission as provided in R861-1A-22.

(b) The Notice of Property Valuation and Tax Changes, however modified, must contain the same information as the unmodified version. A property description may be included at the option of the county.

(2) The Notice of Property Valuation and Tax Changes must be completed by the county auditor in its entirety, except in the following circumstances:

(a) New property is created by a new legal description; or
(b) The status of the improvements on the property has changed.

(c) In instances where partial completion is allowed, the term nonapplicable will be entered in the appropriate sections of the Notice of Property Valuation and Tax Changes.

(d) If the county auditor determines that conditions other than those outlined in this section merit deletion, the auditor may enter the term "nonapplicable" in appropriate sections of the Notice of Property Valuation and Tax Changes only after receiving approval from the Property Tax Division in the manner described in Subsection (1).

(3) Real estate assessed under the Farmland Assessment Act of 1969 must be reported at full market value, with the value based upon Farmland Assessment Act rates shown parenthetically.

(4)(a) All completion dates specified for the disclosure of property tax information must be strictly observed.

(b) Requests for deviation from the statutory completion dates must be submitted in writing on or before June 1, and receive the approval of the Property Tax Division in the manner described in Subsection (1).

(5) If the proposed rate exceeds the certified rate, jurisdictions in which the fiscal year is the calendar year are required to hold public hearings even if budget hearings have already been held for that fiscal year.

(6) If the cost of public notice required under Section 59-2-919 is greater than one percent of the property tax revenues to be received, an entity may combine its advertisement with other entities, or use direct mail notification.

(7) Calculation of the amount and percentage increase in property tax revenues required by Section 59-2-919 shall be computed by comparing property taxes levied for the current year with property taxes collected the prior year, without adjusting for revenues attributable to new growth.

(8) If a taxing district has not completed the tax rate setting process as prescribed in Sections 59-2-919 and 59-2-920 by August 17, the county auditor must seek approval from the Tax Commission to use the certified rate in calculating taxes levied.

(9) The value of property subject to the uniform fee under Sections 59-2-405 through 59-2-405.3 is excluded from taxable value for purposes of calculating new growth, the certified tax rate, and the proposed tax rate.

(10) The value and taxes of property subject to the uniform

fee under Sections 59-2-405 through 59-2-405.3, as well as tax increment distributions and related taxable values of redevelopment renewal agencies, are excluded when calculating the percentage of property taxes collected as provided in Section 59-2-913.

(11) The following formulas and definitions shall be used in determining new growth:

(a) Actual new growth shall be computed as follows:

(i) the taxable value of property assessed by the commission and locally assessed real property for the current year adjusted for redevelopment minus year-end taxable value of property assessed by the commission and locally assessed real property for the previous year adjusted for redevelopment; then

(ii) plus or minus the difference between the taxable value of locally assessed personal property for the prior year adjusted for redevelopment and the year-end taxable value of locally assessed personal property for the year that is two years prior to the current year adjusted for redevelopment; then

(iii) plus or minus changes in value as a result of factoring; then

(iv) plus or minus changes in value as a result of reappraisal; then

(v) plus or minus any change in value resulting from a legislative mandate or court order.

(b) Net annexation value is the taxable value for the current year adjusted for redevelopment of all properties annexed into an entity during the previous calendar year minus the taxable value for the previous year adjusted for redevelopment for all properties annexed out of the entity during the previous calendar year.

(c) New growth is equal to zero for an entity with:

(i) an actual new growth value less than zero; and

(ii) a net annexation value greater than or equal to zero.

(d) New growth is equal to actual new growth for:

(i) an entity with an actual new growth value greater than or equal to zero; or

(ii) an entity with:

(A) an actual new growth value less than zero; and

(B) the actual new growth value is greater than or equal to the net annexation value.

(e) New growth is equal to the net annexation value for an entity with:

(i) a net annexation value less than zero; and

(ii) the actual new growth value is less than the net annexation value.

(f) Adjusted new growth equals new growth multiplied by the mean collection rate for the previous five years.

(12)(a) For purposes of determining the certified tax rate, ad valorem property tax revenues budgeted by a taxing entity for the prior year are calculated by:

(i) increasing or decreasing the adjustable taxable value from the prior year Report 697 by the average of the percentage net change in the value of taxable property for the equalization period for the three calendar years immediately preceding the current calendar year; and

(ii) multiplying the result obtained in Subsection (12)(a)(i) by:

(A) the percentage of property taxes collected for the five calendar years immediately preceding the current calendar year; and

(B) the prior year approved tax rate.

(b) If a taxing entity levied the prior year approved tax rate, the budgeted revenues determined under Subsection (12)(a) are reflected in the budgeted revenue column of the prior year Report 693.

(13) Entities required to set levies for more than one fund must compute an aggregate certified rate. The aggregate certified rate is the sum of the certified rates for individual

funds for which separate levies are required by law. The aggregate certified rate computation applies where:

(a) the valuation bases for the funds are contained within identical geographic boundaries; and

(b) the funds are under the levy and budget setting authority of the same governmental entity.

(14) For purposes of determining the certified tax rate of a municipality incorporated on or after July 1, 1996, the levy imposed for municipal-type services or general county purposes shall be the certified tax rate for municipal-type services or general county purposes, as applicable.

(15) No new entity, including a new city, may have a certified tax rate or levy a tax for any particular year unless that entity existed on the first day of that calendar year.

R884-24P-27. Standards for Assessment Level and Uniformity of Performance Pursuant to Utah Code Ann. Sections 59-2-704 and 59-2-704.5.

(1) Definitions.

(a) "Coefficient of dispersion (COD)" means the average deviation of a group of assessment ratios taken around the median and expressed as a percent of that measure.

(b) "Coefficient of variation (COV)" means the standard deviation expressed as a percentage of the mean.

(c) "Division" means the Property Tax Division of the commission.

(d) "Nonparametric" means data samples that are not normally distributed.

(e) "Parametric" means data samples that are normally distributed.

(f) "Urban counties" means counties classified as first or second class counties pursuant to Section 17-50-501.

(2) The commission adopts the following standards of assessment performance.

(a) For assessment level in each property class, subclass, and geographical area in each county, the measure of central tendency shall meet one of the following measures.

(i) The measure of central tendency shall be within 10 percent of the legal level of assessment.

(ii) The 95 percent confidence interval of the measure of central tendency shall contain the legal level of assessment.

(b) For uniformity of the property assessments in each class of property for which a detailed review is conducted during the current year, the measure of dispersion shall be within the following limits.

(i) In urban counties:

(A) a COD of 15 percent or less for primary residential property, and 20 percent or less for commercial property, vacant land, and secondary residential property; and

(B) a COV of 19 percent or less for primary residential property, and 25 percent or less for commercial property, vacant land, and secondary residential property.

(ii) In rural counties:

(A) a COD of 20 percent or less for primary residential property, and 25 percent or less for commercial property, vacant land, and secondary residential property; and

(B) a COV of 25 percent or less for primary residential property, and 31 percent or less for commercial property, vacant land, and secondary residential property.

(iii) For a rural or small jurisdiction with limited development, or for a jurisdiction with a depressed market, the county assessor may petition the division for a five percentage point increase in the COD or COV for one year only. After sufficient examination, the division may determine that a one-year expansion of the COD or COV is appropriate.

(c) Statistical measures.

(i) The measure of central tendency shall be the mean for parametric samples and the median for nonparametric samples.

(ii) The measure of dispersion shall be the COV for

parametric samples and the COD for nonparametric samples.

(iii) To achieve statistical accuracy in determining assessment level under Subsection (2)(a) and uniformity under Subsection (2)(b) for any property class, subclass, or geographical area, the minimum sample size shall consist of 10 or more ratios.

(3) Each year the division shall conduct and publish an assessment-to-sale ratio study to determine if each county complies with the standards in Subsection (2).

(a) To meet the minimum sample size, the study period may be extended.

(b) A smaller sample size may be used if:

(i) that sample size is at least 10 percent of the class or subclass population; or

(ii) both the division and the county agree that the sample may produce statistics that imply corrective action appropriate to the class or subclass of property.

(c) If the division, after consultation with the counties, determines that the sample size does not produce reliable statistical data, an alternate performance evaluation may be conducted, which may result in corrective action. The alternate performance evaluation shall include review and analysis of the following:

(i) the county's procedures for collection and use of market data, including sales, income, rental, expense, vacancy rates, and capitalization rates;

(ii) the county-wide land, residential, and commercial valuation guidelines and their associated procedures for maintaining current market values;

(iii) the accuracy and uniformity of the county's individual property data through a field audit of randomly selected properties; and

(iv) the county's level of personnel training, ratio of appraisers to parcels, level of funding, and other workload and resource considerations.

(d) All input to the sample used to measure performance shall be completed by March 31 of each study year.

(e) The division shall conduct a preliminary annual assessment-to-sale ratio study by April 30 of the study year, allowing counties to apply adjustments to their tax roll prior to the May 22 deadline.

(f) The division shall complete the final study immediately following the closing of the tax roll on May 22.

(4) The division shall order corrective action if the results of the final study do not meet the standards set forth in Subsection (2).

(a) Assessment level adjustments, or factor orders, shall be calculated by dividing the legal level of assessment by one of the following:

(i) the measure of central tendency, if the uniformity of the ratios meets the standards outlined in Subsection (2)(b); or

(ii) the 95 percent confidence interval limit nearest the legal level of assessment, if the uniformity of the ratios does not meet the standards outlined in Subsection (2)(b).

(b) Uniformity adjustments or other corrective action shall be ordered if the property fails to meet the standards outlined in Subsection (2)(b). (c) A corrective action order may contain language requiring a county to create, modify, or follow its five-year plan for a detailed review of property characteristics.

(d) All corrective action orders shall be issued by June 10 of the study year, or within five working days after the completion of the final study, whichever is later.

(5) The commission adopts the following procedures to insure compliance and facilitate implementation of ordered corrective action.

(a) Prior to the filing of an appeal, the division shall retain authority to correct errors and, with agreement of the affected county, issue amended orders or stipulate with the affected county to any appropriate alternative action without commission

approval. Any stipulation by the division subsequent to an appeal is subject to commission approval.

(b) A county receiving a corrective action order resulting from this rule may file and appeal with the commission pursuant to rule R861-1A-11.

(c) A corrective action order will become the final commission order if the county does not appeal in a timely manner, or does not prevail in the appeals process.

(d) The division may assist local jurisdictions to ensure implementation of any corrective action orders by the following deadlines.

(i) Factor orders shall be implemented in the current study year prior to the mailing of valuation notices.

(ii) Other corrective action shall be implemented prior to May 22 of the year following the study year.

(e) The division shall complete audits to determine compliance with corrective action orders as soon after the deadlines set forth in Subsection (5)(d) as practical. The division shall review the results of the compliance audit with the county and make any necessary adjustments to the compliance audit within 15 days of initiating the audit. These adjustments shall be limited to the analysis performed during the compliance audit and may not include review of the data used to arrive at the underlying factor order. After any adjustments, the compliance audit will then be given to the commission for any necessary action.

(f) The county shall be informed of any adjustment required as a result of the compliance audit.

R884-24P-28. Reporting Requirements For Leased or Rented Personal Property, Pursuant to Utah Code Ann. Section 59-2-306.

A. The procedure set forth herein is required in reporting heavy equipment leased or rented during the tax year.

1. On forms or diskette provided by the Tax Commission, the owner of leased or rented heavy equipment shall file semi-annual reports with the Tax Commission for the periods January 1 through June 30, and July 1 through December 31 of each year. The reports shall contain the following information:

- a) a description of the leased or rented equipment;
- b) the year of manufacture and acquisition cost;
- c) a listing, by month, of the counties where the equipment has situs; and
- d) any other information required.

2. For purposes of this rule, situs is established when leased or rented equipment is kept in an area for thirty days. Once situs is established, any portion of thirty days during which that equipment stays in that area shall be counted as a full month of situs. In no case may situs exceed twelve months for any year.

3. The completed report shall be submitted to the Property Tax Division of the Tax Commission within thirty days after each reporting period.

- a) Noncompliance will require accelerated reporting.

R884-24P-29. Taxable Household Furnishings Pursuant to Utah Code Ann. Section 59-2-1113.

A. Household furnishings, furniture, and equipment are subject to property taxation if:

1. the owner of the abode commonly receives legal consideration for its use, whether in the form of rent, exchange, or lease payments; or
2. the abode is held out as available for the rent, lease, or use by others.

R884-24P-32. Leasehold Improvements Pursuant to Utah Code Ann. Section 59-2-303.

A. The value of leasehold improvements shall be included in the value of the underlying real property and assessed to the

owner of the underlying real property.

B. The combined valuation of leasehold improvements and underlying real property required in A. shall satisfy the requirements of Section 59-2-103(1).

C. The provisions of this rule shall not apply if the underlying real property is owned by an entity exempt from tax under Section 59-2-1101.

D. The provisions of this rule shall be implemented and become binding on taxpayers beginning January 1, 2000.

R884-24P-33. 2010 Personal Property Valuation Guides and Schedules Pursuant to Utah Code Ann. Section 59-2-301.

(1) Definitions.

(a)(i) "Acquisition cost" does not include indirect costs such as debugging, licensing fees and permits, insurance, or security.

(ii) Acquisition cost may correspond to the cost new for new property, or cost used for used property.

(b)(i) "Actual cost" includes the value of components necessary to complete the vehicle, such as tanks, mixers, special containers, passenger compartments, special axles, installation, engineering, erection, or assembly costs.

(ii) Actual cost does not include sales or excise taxes, maintenance contracts, registration and license fees, dealer charges, tire tax, freight, or shipping costs.

(c) "Cost new" means the actual cost of the property when purchased new.

(i) Except as otherwise provided in this rule, the Tax Commission and assessors shall rely on the following sources to determine cost new:

- (A) documented actual cost of the new or used vehicle; or
- (B) recognized publications that provide a method for approximating cost new for new or used vehicles.

(ii) For the following property purchased used, the taxing authority may determine cost new by dividing the property's actual cost by the percent good factor for that class:

- (A) class 6 heavy and medium duty trucks;
- (B) class 13 heavy equipment;
- (C) class 14 motor homes;
- (D) class 17 vessels equal to or greater than 31 feet in length; and
- (E) class 21 commercial trailers.

(d) For purposes of Sections 59-2-108 and 59-2-1115, "item of taxable tangible personal property" means a piece of equipment, machinery, furniture, or other piece of tangible personal property that is functioning at its highest and best use for the purpose it was designed and constructed and is generally capable of performing that function without being combined with other items of personal property. An item of taxable tangible personal property is not an individual component part of a piece of machinery or equipment, but the piece of machinery or equipment. For example, a fully functioning computer is an item of taxable tangible personal property, but the motherboard, hard drive, tower, or sound card are not.

(e) "Percent good" means an estimate of value, expressed as a percentage, based on a property's acquisition cost or cost new, adjusted for depreciation and appreciation of all kinds.

(i) The percent good factor is applied against the acquisition cost or the cost new to derive taxable value for the property.

(ii) Percent good schedules are derived from an analysis of the Internal Revenue Service Class Life, the Marshall and Swift Cost index, other data sources or research, and vehicle valuation guides such as Penton Price Digests.

(2) Each year the Property Tax Division shall update and publish percent good schedules for use in computing personal property valuation.

(a) Proposed schedules shall be transmitted to county assessors and interested parties for comment before adoption.

(b) A public comment period will be scheduled each year and a public hearing will be scheduled if requested by ten or more interested parties or at the discretion of the Commission.

(c) County assessors may deviate from the schedules when warranted by specific conditions affecting an item of personal property. When a deviation will affect an entire class or type of personal property, a written report, substantiating the changes with verifiable data, must be presented to the Commission. Alternative schedules may not be used without prior written approval of the Commission.

(d) A party may request a deviation from the value established by the schedule for a specific item of property if the use of the schedule does not result in the fair market value for the property at the retail level of trade on the lien date, including any relevant installation and assemblage value.

(3) The provisions of this rule do not apply to:

(a) a vehicle subject to the age-based uniform fee under Section 59-2-405.1;

(b) the following personal property subject to the age-based uniform fee under Section 59-2-405.2:

- (i) an all-terrain vehicle;
- (ii) a camper;
- (iii) an other motorcycle;
- (iv) an other trailer;
- (v) a personal watercraft;
- (vi) a small motor vehicle;
- (vii) a snowmobile;
- (viii) a street motorcycle;
- (ix) a tent trailer;
- (x) a travel trailer; and
- (xi) a vessel, including an outboard motor of the vessel, that is less than 31 feet in length and

(c) an aircraft subject to the uniform statewide fee under Section 59-2-404.

(4) Other taxable personal property that is not included in the listed classes includes:

(a) Supplies on hand as of January 1 at 12:00 noon, including office supplies, shipping supplies, maintenance supplies, replacement parts, lubricating oils, fuel and consumable items not held for sale in the ordinary course of business. Supplies are assessed at total cost, including freight-in.

(b) Equipment leased or rented from inventory is subject to ad valorem tax. Refer to the appropriate property class schedule to determine taxable value.

(c) Property held for rent or lease is taxable, and is not exempt as inventory. For entities primarily engaged in rent-to-own, inventory on hand at January 1 is exempt and property out on rent-to-own contracts is taxable.

(5) Personal property valuation schedules may not be appealed to, or amended by, county boards of equalization.

(6) All taxable personal property, other than personal property subject to an age-based uniform fee under Section 59-2-405.1 or 59-2-405.2, or a uniform statewide fee under Section 59-2-404, is classified by expected economic life as follows:

(a) Class 1 - Short Life Property. Property in this class has a typical life of more than one year and less than four years. It is fungible in that it is difficult to determine the age of an item retired from service.

- (i) Examples of property in the class include:
 - (A) barricades/warning signs;
 - (B) library materials;
 - (C) patterns, jigs and dies;
 - (D) pots, pans, and utensils;
 - (E) canned computer software;
 - (F) hotel linen;
 - (G) wood and pallets;
 - (H) video tapes, compact discs, and DVDs; and
 - (I) uniforms.

(ii) With the exception of video tapes, compact discs, and DVDs, taxable value is calculated by applying the percent good factor against the acquisition cost of the property.

(iii) A licensee of canned computer software shall use one of the following substitutes for acquisition cost of canned computer software if no acquisition cost for the canned computer software is stated:

- (A) retail price of the canned computer software;
- (B) if a retail price is unavailable, and the license is a nonrenewable single year license agreement, the total sum of expected payments during that 12-month period; or
- (C) if the licensing agreement is a renewable agreement or is a multiple year agreement, the present value of all expected licensing fees paid pursuant to the agreement.

(iv) Video tapes, compact discs, and DVDs are valued at \$15.00 per tape or disc for the first year and \$3.00 per tape or disc thereafter.

(B) The machine cannot operate without the computer and the computer cannot perform functions outside the machine.

(C) The machine can perform multiple functions and is controlled by a programmable central processing unit.

(D) The total cost of the machine and computer combined is depreciated as a unit for income tax purposes.

(E) The capabilities of the machine cannot be expanded by substituting a more complex computer for the original.

(ii) Examples of property in this class include:

- (A) CNC mills;
- (B) CNC lathes;
- (C) high-tech medical and dental equipment such as MRI equipment,

R884-24P-38. Nonoperating Railroad Properties Pursuant to Utah Code Ann. Section 59-2-201.

(1)(a) "Railroad right of way" (RR-ROW) means a strip of land upon which a railroad company constructs the road bed.

(b) RR-ROW within incorporated towns and cities shall consist of 50 feet on each side of the main line main track, branch line main track or main spur track. Variations to the 50-foot standard shall be approved on an individual basis.

(c) RR-ROW outside incorporated towns and cities shall consist of the actual right-of-way owned if not in excess of 100 feet on each side of the center line of the main line main track, branch line main track, or main spur track. In cases where unusual conditions exist, such as mountain cuts, fills, etc., and more than 100 feet on either side of the main track is required for ROW and where small parcels of land are otherwise required for ROW purposes, the necessary additional area shall be reported as RR-ROW.

(2) Assessment of nonoperating railroad properties. Railroad property formerly assessed by the unitary method that has been determined to be nonoperating, and that is not necessary to the conduct of the business, shall be assessed separately by the local county assessor.

(3) Assessment procedures.

(a) Properties charged to nonoperating accounts are reviewed by the Property Tax Division, and if taxable, are assessed and placed on the local county assessment rolls separately from the operating properties.

(b) RR-ROW is considered operating and necessary to the conduct and contributing to the income of the business. Any revenue derived from leasing of property within the RR-ROW is considered railroad operating revenues.

(c) Real property outside of the RR-ROW that is necessary to the conduct of the railroad operation is considered part of the unitary value. Some examples are:

- (i) company homes occupied by superintendents and other employees on 24-hour call;
- (ii) storage facilities for railroad operations;
- (iii) communication facilities; and
- (iv) spur tracks outside of RR-ROW.

(d) Abandoned RR-ROW is considered nonoperating and shall be reported as such by the railroad companies.

(e) Real property outside of the RR-ROW that is not necessary to the conduct of the railroad operations is classified as nonoperating and therefore assessed by the local county assessor. Some examples are:

- (i) land leased to service station operations;
 - (ii) grocery stores;
 - (iii) apartments;
 - (iv) residences; and
 - (v) agricultural uses.
- (f) RR-ROW obtained by government grant or act of Congress is deemed operating property.

(4) Notice of Determination. It is the responsibility of the

Property Tax Division to provide a notice of determination to the owner of the railroad property and the assessor of the county where the railroad property is located immediately after such determination of operating or nonoperating status has been made. If there is no appeal to the notice of determination, the Property Tax Division shall notify the assessor of the county where the property is located so that the property may be placed on the roll for local assessment.

(5) Appeals. Any interested party who wishes to contest the determination of operating or nonoperating property may do so by filing a request for agency action within ten days of the notice of determination of operating or nonoperating properties. Request for agency action may be made pursuant to Title 63G, Chapter 4.

2. The building is occupied only by persons whose full time efforts are devoted to the religious organization and the immediate families of such persons.

3. The religious organization, and not the individuals who occupy the premises, pay all payments, utilities, insurance, repairs, and all other costs and expenses related to the care and maintenance of the premises and facilities.

B. The exemption for one person and the family of such person is limited to the real estate that is reasonable for the residence of the family and which remains actively devoted exclusively to the religious purposes. The exemption for more than one person, such as a monastery, is limited to that amount of real estate actually devoted exclusively to religious purposes.

C. Vacant land which is not actively used by the religious organization, is not deemed to be devoted exclusively to religious purposes, and is therefore not exempt from property taxes.

1. Vacant land which is held for future development or utilization by the religious organization is not deemed to be devoted exclusively to religious purposes and therefore not tax exempt.

2. Vacant land is tax exempt after construction commences or a building permit is issued for construction of a structure or other improvements used exclusively for religious purposes.

A. The Tax Commission is responsible for auditing the administration of the Farmland Assessment Act to verify proper listing and classification of all properties assessed under the act. The Tax Commission also conducts routine audits of personal property accounts.

1. If an audit reveals an incorrect assignment of property, or an increase or decrease in value, the county assessor shall correct the assessment on the assessment roll and the tax roll.

2. A revised assessment notice or tax notice or both shall be mailed to the taxpayer for the current year and any previous years affected.

3. The appropriate tax rate for each year shall be applied when computing taxes due for previous years.

B. Assessors shall not alter results of an audit without first submitting the changes to the Tax commission for review and approval.

C. The Tax Commission shall review assessor compliance with this rule. Noncompliance may result in an order for corrective action.

R884-24P-44. Farm Machinery and Equipment Exemption Pursuant to Utah Code Ann. Sections 59-2-102 and 59-2-1101.

A. The use of the machinery and equipment, whether by the claimant or a lessee, shall determine the exemption.

1. For purposes of this rule, the term owner includes a purchaser under an installment purchase contract or capitalized lease where ownership passes to the purchaser at the end of the contract without the exercise of an option on behalf of the purchaser or seller.

B. Farm machinery and equipment is used primarily for agricultural purposes if it is used primarily for the production or harvesting of agricultural products.

C. The following machinery and equipment is used primarily for the production or harvesting of agricultural products:

1. Machinery and equipment used on the farm for storage, cooling, or freezing of fruits or vegetables;

2. Except as provided in C.3., machinery and equipment used in fruit or vegetable growing operations if the machinery and equipment does not physically alter the fruit or vegetables; and

3. Machinery and equipment that physically alters the form of fruits or vegetables if the operations performed by the machinery or equipment are reasonable and necessary in the preparation of the fruit or vegetables for wholesale marketing.

D. Machinery and equipment used for processing of agricultural products are not exempt.

R884-24P-49. Calculating the Utah Apportioned Value of a Rail Car Fleet Pursuant to Utah Code Ann. Section 59-2-201.

A. Definitions.

1. "Average market value per rail car" means the fleet rail car market value divided by the number of rail cars in the fleet.

2. "Fleet rail car market value" means the sum of:

a)(1) the yearly acquisition costs of the fleet's rail cars; (2) multiplied by the appropriate percent good factors contained in Class 10 of R884-24P- 33, Personal Property Valuation Guides and Schedules; and

b) the sum of betterments by year.

(1) Except as provided in A.2.b)(2), the sum of betterments by year shall be depreciated on a 14-year straight line method.

(2) Notwithstanding the provisions of A.2.b)(1), betterments shall have a residual value of two percent.

3. "In-service rail cars" means the number of rail cars in the fleet, adjusted for out-of- service rail cars.

4. a) "Out-of-service rail cars" means rail cars:

(1) out-of-service for a period of more than ten consecutive hours; or

(2) in storage.

b) Rail cars cease to be out-of-service once repaired or removed from storage.

c) Out-of-service rail cars do not include rail cars idled for less than ten consecutive hours due to light repairs or routine maintenance.

5. "System car miles" means both loaded and empty miles accumulated in the U.S., Canada, and Mexico during the prior calendar year by all rail cars in the fleet.

6. "Utah car miles" mean both loaded and empty miles accumulated within Utah during the prior calendar year by all rail cars in the fleet.

7. "Utah percent of system factor" means the Utah car miles divided by the system car miles.

B. The provisions of this rule apply only to private rail car companies.

C. To receive an adjustment for out-of-service rail cars, the rail car company must report the number of out-of-service days to the commission for each of the company's rail car fleets.

D. The out-of-service adjustment is calculated as follows.

1. Divide the out-of-service days by 365 to obtain the out-of-service rail car equivalent.

2. Subtract the out-of-service rail car equivalent calculated in D.1. from the number of rail cars in the fleet.

E. The taxable value for each rail car fleet apportioned to Utah, for which the Utah percent of system factor is more than 50 percent, shall be determined by multiplying the Utah percent of system factor by the fleet rail car market value.

F. The taxable value for each rail car company apportioned to Utah, for which the Utah percent of system factor is less than or equal to 50 percent, shall be determined in the following manner.

1. Calculate the number of fleet rail cars allocated to Utah under the Utah percent of system factor. The steps for this calculation are as follows.

a) Multiply the Utah percent of system factor by the in-service rail cars in the fleet.

b) Multiply the product obtained in F.1.a) by 50 percent.

2. Calculate the number of fleet rail cars allocated to Utah under the time speed factor. The steps for this calculation are as follows.

a) Divide the fleet's Utah car miles by the average rail car miles traveled in Utah per year. The Commission has determined that the average rail car miles traveled in Utah per year shall equal 200,000 miles.

b) Multiply the quotient obtained in F.2.a) by the percent of in-service rail cars in the fleet.

c) Multiply the product obtained in F.2.b) by 50 percent.

3. Add the number of fleet rail cars allocated to Utah under the Utah percent of system factor, calculated in F.1.b), and the number of fleet rail cars allocated to Utah under the time speed factor, calculated in F.2.c), and multiply that sum by the average market value per rail car.

R884-24P-50. Apportioning the Utah Proportion of Commercial Aircraft Valuations Pursuant to Utah Code Ann. Section 59-2-201.

2. "Ground time" means the time period beginning at the time an aircraft lands and ending at the time an aircraft takes off.

B. The commission shall apportion to a tax area the assessment of the mobile flight equipment owned by a commercial air carrier in the proportion that the ground time in the tax area bears to the total ground time in the state.

C. The provisions of this rule shall be implemented and become binding on taxpayers beginning with the 1999 calendar year.

B. The uniform fee established in Section 59-2-405.1 is levied against motor vehicles and state-assessed commercial vehicles classified under Class 22 - Passenger Cars, Light Trucks/Utility Vehicles, and Vans, in Tax Commission rule R884-24P- 33.

C. Personal property subject to the uniform fee imposed in Section 59-2-405 is not subject to the Section 59-2-405.1 uniform fee.

E. The age of a motor vehicle or state-assessed commercial vehicle, for purposes of Section 59-2-405.1, shall be determined by subtracting the vehicle model year from the current calendar year.

F. The only Section 59-2-405.1 uniform fee due upon registration or renewal of registration is the uniform fee calculated based on the age of the vehicle under E. on the first day of the registration period for which the registrant:

- 1. in the case of an original registration, registers the vehicle; or
- 2. in the case of a renewal of registration, renews the registration of the vehicle in accordance with Section 41-1a-216.

G. Centrally assessed taxpayers shall use the following formula to determine the value of locally assessed motor vehicles that may be deducted from the allocated unit valuation:

1. Divide the system value by the book value to determine the market to book ratio.

2. Multiply the market to book ratio by the book value of motor vehicles registered in Utah and subject to Section 59-2-405.1 to determine the value of motor vehicles that may be subtracted from the allocated unit value.

H. The motor vehicle of a nonresident member of the armed forces stationed in Utah may be registered in Utah without payment of the Section 59-2-405.1 uniform fee.

I. A motor vehicle belonging to a Utah resident member of the armed forces stationed in another state is not subject to the Section 59-2-405.1 uniform fee at the time of registration or renewal of registration as long as the motor vehicle is kept in the other state.

J. The situs of a motor vehicle or state-assessed commercial vehicle subject to the Section 59-2-405.1 uniform fee is determined in accordance with Section 59-2-104. Situs of purchased motor vehicles or state-assessed commercial vehicles shall be the tax area of the purchaser's domicile, unless the motor vehicle or state-assessed commercial vehicle will be kept in a tax area other than the tax area of the purchaser's domicile for more than six months of the year.

1. If an assessor discovers a motor vehicle or state-assessed commercial vehicle that is kept in the assessor's county but registered in another, the assessor may submit an affidavit along with evidence that the vehicle is kept in that county to the assessor of the county in which the vehicle is registered. Upon agreement, the assessor of the county of registration shall forward the fee collected to the county of situs within 30 working days.

2. If the owner of a motor vehicle or state-assessed commercial vehicle registered in Utah is domiciled outside of Utah, the taxable situs of the vehicle is presumed to be the county in which the uniform fee was paid, unless an assessor's affidavit establishes otherwise.

3. The Tax Commission shall, on an annual basis, provide each county assessor information indicating all motor vehicles and state-assessed commercial vehicles subject to state registration and their corresponding taxable situs.

4. Section 59-2-405.1 uniform fees received by a county that require distribution to a purchaser's domicile outside of that county shall be deposited into an account established by the Commission, pursuant to procedures prescribed by the Commission.

5. Section 59-2-405.1 uniform fees received by the Commission pursuant to J.4. shall be distributed to the appropriate county at least monthly.

K. The blind exemption provided in Section 59-2-1106 is applicable to the Section 59-2-405.1 uniform fee.

L. The veteran's exemption provided in Section 59-2-1104 is applicable to the Section 59-2-405.1 uniform fee.

M. The value of motor vehicles and state-assessed commercial vehicles to be considered part of the tax base for purposes of determining debt limitations pursuant to Article XIII, Section 14 of the Utah Constitution, shall be determined by dividing the Section 59-2-405.1 uniform fee collected by .015.

N. The provisions of this rule shall be implemented and become binding on taxpayers beginning January 1, 1999.

R884-24P-61. 1.5 Percent Uniform Fee on Tangible Personal Property Required to be Registered with the State Pursuant to Utah Code Ann. Section 59-2-405.

A. Definitions.

1. For purposes of Section 59-2-405, "motor vehicle" is as defined in Section 41-1a-102, except that motor vehicle does not include motorcycles as defined in Section 41-1a-102.

2. "Recreational vehicle" means a vehicular unit other than a mobile home, primarily designed as a temporary dwelling for travel, recreational, or vacation use, which is either self-propelled or pulled by another vehicle.

a) Recreational vehicle includes a travel trailer, a camping trailer, a motor home, and a fifth wheel trailer.

b) Recreational vehicle does not include a van unless specifically designed or modified for use as a temporary dwelling.

B. The uniform fee established in Section 59-2-405 is levied against the following types of personal property, unless specifically excluded by Section 59-2-405:

1. motor vehicles that are not classified under Class 22 - Passenger Cars, Light Trucks/Utility Vehicles, and Vans, in Tax Commission rule R884-24P-33;

2. watercraft required to be registered with the state;

3. recreational vehicles required to be registered with the state; and

4. all other tangible personal property required to be registered with the state before it is used on a public highway, on a public waterway, on public land, or in the air.

C. The following classes of personal property are not subject to the Section 59-2-405 uniform fee, but remain subject to the ad valorem property tax:

1. vintage vehicles;

2. state-assessed commercial vehicles not classified under Class 22 - Passenger Cars, Light Trucks/Utility Vehicles, and Vans;

3. any personal property that is neither required to be registered nor exempt from the ad valorem property tax;

4. machinery or equipment that can function only when attached to or used in conjunction with motor vehicles.

D. The fair market value of tangible personal property subject to the Section 59-2-405 uniform fee is based on depreciated cost new as established in Tax Commission rule R884-24P-33, "Personal Property Valuation Guides and Schedules," published annually by the Tax Commission.

E. Centrally assessed taxpayers shall use the following formula to determine the value of locally assessed personal property that may be deducted from the allocated unit valuation:

1. Divide the system value by the book value to determine the market to book ratio.

2. Multiply the market to book ratio by the book value of personal property registered in Utah and subject to Section 59-2-405 to determine the value of personal property that may be subtracted from the allocated unit value.

F. If a property's valuation is appealed to the county board of equalization under Section 59-2-1005, the property shall become subject to a total revaluation. All adjustments are made on the basis of their effect on the property's average retail value as of the January 1 lien date and according to Tax Commission rule R884-24P-33.

G. The county assessor may change the fair market value

of any individual item of personal property in his jurisdiction for any of the following reasons:

1. The manufacturer's suggested retail price ("MSRP") or the cost new was not included on the state printout, computer tape, or registration card;

2. The MSRP or cost new listed on the state records was inaccurate; or

3. In the assessor's judgment, an MSRP or cost new adjustment made as a result of a property owner's informal request will continue year to year on a percentage basis.

H. If the personal property is of a type subject to annual registration, the Section 59-2-405 uniform fee is due at the time the registration is due. If the personal property is not registered during the year, the owner remains liable for payment of the Section 59-2-405 uniform fee to the county assessor.

1. No additional uniform fee may be levied upon personal property transferred during a calendar year if the Section 59-2-405 uniform fee has been paid for that calendar year.

2. If the personal property is of a type registered for periods in excess of one year, the Section 59-2-405 uniform fee shall be due annually.

3. The personal property of a nonresident member of the armed forces stationed in Utah may be registered in Utah without payment of the Section 59-2-405 uniform fee.

4. Personal property belonging to a Utah resident member of the armed forces stationed in another state is not subject to the Section 59-2-405 uniform fee as long as the personal property is kept in another state.

5. Noncommercial trailers weighing 750 pounds or less are not subject to the Section 59-2-405 uniform fee or ad valorem property tax but may be registered at the request of the owner.

I. If the personal property is of a type subject to annual registration, registration of that personal property may not be completed unless the Section 59-2-405 uniform fee has been paid, even if the taxpayer is appealing the uniform fee valuation. Delinquent fees may be assessed in accordance with Sections 59-2-217 and 59-2-309 as a condition precedent to registration.

J. The situs of personal property subject to the Section 59-2-405 uniform fee is determined in accordance with Section 59-2-104. Situs of purchased personal property shall be the tax area of the purchaser's domicile, unless the personal property will be kept in a tax area other than the tax area of the purchaser's domicile for more than six months of the year.

1. If an assessor discovers personal property that is kept in the assessor's county but registered in another, the assessor may submit an affidavit along with evidence that the property is kept in that county to the assessor of the county in which the personal property is registered. Upon agreement, the assessor of the county of registration shall forward the fee collected to the county of situs within 30 working days.

2. If the owner of personal property registered in Utah is domiciled outside of Utah, the taxable situs of the property is presumed to be the county in which the uniform fee was paid, unless an assessor's affidavit establishes otherwise.

3. The Tax Commission shall, on an annual basis, provide each county assessor information indicating all personal property subject to state registration and its corresponding taxable situs.

4. Section 59-2-405 uniform fees received by a county that require distribution to a purchaser's domicile outside of that county shall be deposited into an account established by the Commission, pursuant to procedures prescribed by the Commission.

5. Section 59-2-405 uniform fees received by the Commission pursuant to J.4. shall be distributed to the appropriate county at least monthly.

K. The blind exemption provided in Section 59-2-1106 is applicable to the Section 59-2-405 uniform fee.

L. The veteran's exemption provided in Section 59-2-1104

is applicable to the Section 59-2-405 uniform fee.

M. The provisions of this rule shall be implemented and become binding on taxpayers beginning January 1, 1999.

R884-24P-62. Valuation of State Assessed Unitary Properties Pursuant to Utah Code Ann. Section 59-2-201.

(1) Purpose. The purpose of this rule is to:

(a) specify consistent mass appraisal methodologies to be used by the Property Tax Division (Division) in the valuation of tangible property assessable by the Commission; and

(b) identify preferred valuation methodologies to be considered by any party making an appraisal of an individual unitary property.

(2) Definitions:

(a) "Cost regulated utility" means any public utility assessable by the Commission whose allowed revenues are determined by a rate of return applied to a rate base set by a state or federal regulatory commission.

(b) "Fair market value" means the amount at which property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of the relevant facts. Fair market value reflects the value of property at its highest and best use, subject to regulatory constraints.

(c) "Rate base" means the aggregate account balances reported as such by the cost regulated utility to the applicable state or federal regulatory commission.

(d) "Unitary property" means operating property that is assessed by the Commission pursuant to Section 59-2-201(1)(a) through (c).

(i) Unitary properties include:

(A) all property that operates as a unit across county lines, if the values must be apportioned among more than one county or state; and

(B) all property of public utilities as defined in Section 59-2-102.

(ii) These properties, some of which may be cost regulated utilities, are defined under one of the following categories.

(A) "Telecommunication properties" include the operating property of local exchange carriers, local access providers, long distance carriers, cellular telephone or personal communication service (PCS) providers and pagers, and other similar properties.

(B) "Energy properties" include the operating property of natural gas pipelines, natural gas distribution companies, liquid petroleum products pipelines, and electric corporations, including electric generation, transmission, and distribution companies, and other similar entities.

(C) "Transportation properties" include the operating property of all airlines, air charter services, air contract services, including major and small passenger carriers and major and small air freighters, long haul and short line railroads, and other similar properties.

(3) All tangible operating property owned, leased, or used by unitary companies is subject to assessment and taxation according to its fair market value as of January 1, and as provided in Utah Constitution Article XIII, Section 2. Intangible property as defined under Section 59-2-102 is not subject to assessment and taxation.

(4) General Valuation Principles. Unitary properties shall be assessed at fair market value based on generally accepted appraisal theory as provided under this rule.

(a) The assemblage or enhanced value attributable to the tangible property should be included in the assessed value. See *Beaver County v. WilTel, Inc.*, 995 P.2d 602 (Utah 2000). The value attributable to intangible property must, when possible, be identified and removed from value when using any valuation method and before that value is used in the reconciliation process.

(b) The preferred methods to determine fair market value

are the cost approach and a yield capitalization income indicator as set forth in Subsection (5).

(i) Other generally accepted appraisal methods may also be used when it can be demonstrated that such methods are necessary to more accurately estimate fair market value.

(ii) Direct capitalization and the stock and debt method typically capture the value of intangible property at higher levels than other methods. To the extent intangible property cannot be identified and removed, relatively less weight shall be given to such methods in the reconciliation process, as set forth in Subsection (5)(d).

(iii) Preferred valuation methods as set forth in this rule are, unless otherwise stated, rebuttable presumptions, established for purposes of consistency in mass appraisal. Any party challenging a preferred valuation method must demonstrate, by a preponderance of evidence, that the proposed alternative establishes a more accurate estimate of fair market value.

(c) Non-operating Property. Property that is not necessary to the operation of unitary properties and is assessed by a local county assessor, and property separately assessed by the Division, such as registered motor vehicles, shall be removed from the correlated unit value or from the state allocated value.

(5) Appraisal Methodologies.

(a) Cost Approach. Cost is relevant to value under the principle of substitution, which states that no prudent investor would pay more for a property than the cost to construct a substitute property of equal desirability and utility without undue delay. A cost indicator may be developed under one or more of the following methods: replacement cost new less depreciation (RCNLD), reproduction cost less depreciation (reproduction cost), and historic cost less depreciation (HCLD).

(i) "Depreciation" is the loss in value from any cause. Different professions recognize two distinct definitions or types of depreciation.

(A) Accounting. Depreciation, often called "book" or "accumulated" depreciation, is calculated according to generally accepted accounting principles or regulatory guidelines. It is the amount of capital investment written off on a firm's accounting records in order to allocate the original or historic cost of an asset over its life. Book depreciation is typically applied to historic cost to derive HCLD.

(B) Appraisal. Depreciation, sometimes referred to as "accrued" depreciation, is the difference between the market value of an improvement and its cost new. Depreciation is typically applied to replacement or reproduction cost, but should be applied to historic cost if market conditions so indicate. There are three types of depreciation:

(I) Physical deterioration results from regular use and normal aging, which includes wear and tear, decay, and the impact of the elements.

(II) Functional obsolescence is caused by internal property characteristics or flaws in the structure, design, or materials that diminish the utility of an improvement.

(III) External, or economic, obsolescence is an impairment of an improvement due to negative influences from outside the boundaries of the property, and is generally incurable. These influences usually cannot be controlled by the property owner or user.

(ii) Replacement cost is the estimated cost to construct, at current prices, a property with utility equivalent to that being appraised, using modern materials, current technology and current standards, design, and layout. The use of replacement cost instead of reproduction cost eliminates the need to estimate some forms of functional obsolescence.

(iii) Reproduction cost is the estimated cost to construct, at current prices, an exact duplicate or replica of the property being assessed, using the same materials, construction standards, design, layout and quality of workmanship, and

embodying any functional obsolescence.

(iv) Historic cost is the original construction or acquisition cost as recorded on a firm's accounting records. Depending upon the industry, it may be appropriate to trend HCLD to current costs. Only trending indexes commonly recognized by the specific industry may be used to adjust HCLD.

(v) RCNLD may be impractical to implement; therefore the preferred cost indicator of value in a mass appraisal environment for unitary property is HCLD. A party may challenge the use of HCLD by proposing a different cost indicator that establishes a more accurate cost estimate of value.

(b) Income Capitalization Approach. Under the principle of anticipation, benefits from income in the future may be capitalized into an estimate of present value.

(i) Yield Capitalization. The yield capitalization formula is $CF/(k-g)$, where "CF" is a single year's normalized cash flow, "k" is the nominal, risk adjusted discount or yield rate, and "g" is the expected growth rate of the cash flow.

(A) Cash flow is restricted to the operating property in existence on the lien date, together with any replacements intended to maintain, but not expand or modify, existing capacity or function. Cash flow is calculated as net operating income (NOI) plus non-cash charges (e.g., depreciation and deferred income taxes), less capital expenditures and additions to working capital necessary to achieve the expected growth "g". Information necessary for the Division to calculate the cash flow shall be summarized and submitted to the Division by March 1 on a form provided by the Division.

(I) NOI is defined as net income plus interest.

(II) Capital expenditures should include only those necessary to replace or maintain existing plant and should not include any expenditure intended primarily for expansion or productivity and capacity enhancements.

(III) Cash flow is to be projected for the year immediately following the lien date, and may be estimated by reviewing historic cash flows, forecasting future cash flows, or a combination of both.

(Aa) If cash flows for a subsidiary company are not available or are not allocated on the parent company's cash flow statements, a method of allocating total cash flows must be developed based on sales, fixed assets, or other reasonable criteria. The subsidiary's total is divided by the parent's total to derive the allocation percentage to estimate the subsidiary's cash flow.

(Bb) If the subject company does not provide the Commission with its most recent cash flow statements by March 1 of the assessment year, the Division may estimate cash flow using the best information available.

(B) The discount rate (k) shall be based upon a weighted average cost of capital (WACC) considering current market debt rates and equity yields. WACC should reflect a typical capital structure for comparable companies within the industry.

(I) The cost of debt should reflect the current market rate (yield to maturity) of debt with the same credit rating as the subject company.

(II) The cost of equity is estimated using standard methods such as the capital asset pricing model (CAPM), the Risk Premium and Dividend Growth models, or other recognized models.

(Aa) The CAPM is the preferred method to estimate the cost of equity. More than one method may be used to correlate a cost of equity, but only if the CAPM method is weighted at least 50% in the correlation.

(Bb) The CAPM formula is $k(e) = R(f) + (\text{Beta} \times \text{Risk Premium})$, where $k(e)$ is the cost of equity and $R(f)$ is the risk free rate.

(Cc) The risk free rate shall be the current market rate on 20-year Treasury bonds.

(Dd) The beta should reflect an average or value-weighted

average of comparable companies and should be drawn consistently from Value Line or an equivalent source. The beta of the specific assessed property should also be considered.

(Ee) The risk premium shall be the arithmetic average of the spread between the return on stocks and the income return on long term bonds for the entire historical period contained in the Ibbotson Yearbook published immediately following the lien date.

(C) The growth rate "g" is the expected future growth of the cash flow attributable to assets in place on the lien date, and any future replacement assets.

(I) If insufficient information is available to the Division, either from public sources or from the taxpayer, to determine a rate, "g" will be the expected inflationary rate in the Gross Domestic Product Price Deflator obtained in Value Line. The growth rate and the methodology used to produce it shall be disclosed in a capitalization rate study published by the Commission by February 15 of the assessment year.

(ii) A discounted cash flow (DCF) method may be impractical to implement in a mass appraisal environment, but may be used when reliable cash flow estimates can be established.

(A) A DCF model should incorporate for the terminal year, and to the extent possible for the holding period, growth and discount rate assumptions that would be used in the yield capitalization method defined under Subsection (5)(b)(i).

(B) Forecasted growth may be used where unusual income patterns are attributed to

(I) unused capacity;

(II) economic conditions; or

(III) similar circumstances.

(C) Growth may not be attributed to assets not in place as of the lien date.

(iii) Direct Capitalization is an income technique that converts an estimate of a single year's income expectancy into an indication of value in one direct step, either by dividing the normalized income estimate by a capitalization rate or by multiplying the normalized income estimate by an income factor.

(c) Market or Sales Comparison Approach. The market value of property is directly related to the prices of comparable, competitive properties. The market approach is estimated by comparing the subject property to similar properties that have recently sold.

(I) Sales of comparable property must, to the extent possible, be adjusted for elements of comparison, including market conditions, financing, location, physical characteristics, and economic characteristics. When considering the sales of stock, business enterprises, or other properties that include intangible assets, adjustments must be made for those intangibles.

(II) Because sales of unitary properties are infrequent, a stock and debt indicator may be viewed as a surrogate for the market approach. The stock and debt method is based on the accounting principle which holds that the market value of assets equal the market value of liabilities plus shareholder's equity.

(d) Reconciliation. When reconciling value indicators into a final estimate of value, the appraiser shall take into consideration the availability, quantity, and quality of data, as well as the strength and weaknesses of each value indicator. Weighting percentages used to correlate the value approaches will generally vary by industry, and may vary by company if evidence exists to support a different weighting. The Division must disclose in writing the weighting percentages used in the reconciliation for the final assessment. Any departure from the prior year's weighting must be explained in writing.

(6) Property Specific Considerations. Because of unique characteristics of properties and industries, modifications or alternatives to the general value indicators may be required for

specific industries.

(a) Cost Regulated Utilities.

(i) HCLD is the preferred cost indicator of value for cost regulated utilities because it represents an approximation of the basis upon which the investor can earn a return. HCLD is calculated by taking the historic cost less depreciation as reflected in the utility's net plant accounts, and then:

(A) subtracting intangible property;

(B) subtracting any items not included in the utility's rate base (e.g., deferred income taxes and, if appropriate, acquisition adjustments); and

(C) adding any taxable items not included in the utility's net plant account or rate base.

(ii) Deferred Income Taxes, also referred to as DFIT, is an accounting entry that reflects the difference between the use of accelerated depreciation for income tax purposes and the use of straight-line depreciation for financial statements. For traditional rate base regulated companies, regulators generally exclude deferred income taxes from rate base, recognizing it as ratepayer contributed capital. Where rate base is reduced by deferred income taxes for rate base regulated companies, they shall be removed from HCLD.

(iii) Items excluded from rate base under Subsections (6)(a)(i)(A) or (B) should not be subtracted from HCLD to the extent it can be shown that regulators would likely permit the rate base of a potential purchaser to include a premium over existing rate base.

(b)(i) Railroads.

(ii) The cost indicator should generally be given little or no weight because there is no observable relationship between cost and fair market value.

a) brought back into the state; or

b) substituted with transitory personal property that performs the same function.

D. Once transitory personal property satisfies the conditions under C., tax shall be proportionally assessed for the period:

2. for the number of months remaining in the calendar year.

E. An owner of taxable transitory personal property who removes the property from the state prior to December and who qualifies for a refund of taxes assessed and paid, shall receive a refund based on the number of months remaining in the calendar year at the time the property is removed from the state and for which the tax has been paid.

1. The refund provisions of this subsection apply to transitory personal property taxes assessed under B. and C.

2. For purposes of determining the refund under this subsection, any portion of a month remaining shall be counted as a full month.

F. If tax has been paid for transitory personal property and that property is subsequently moved to another county in Utah:

1. No additional assessment may be imposed by any county to which the property is subsequently moved; and

2. No portion of the assessed tax may be transferred to the subsequent county.

- (b) facility modifications; or
- (c) reclassification or reallocation in grade; the executive director or designee shall also consult with the State ADA Coordinating Committee.

(6) The decision shall be issued within ten working days after receiving the appeal and shall be in writing or in another accessible suitable format to the individual.

- In determining when to conduct a spot audit personnel performing this function will take into consideration factors including but not limited to:
- (i) an unusual organizational activity such as high employee turnover;
 - (ii) large development projects or recent large scale changes in computer software.

R895-3-6. Compliance and Responsibilities: Retention and Transfer of State-Developed Computer Software.

R895-4-4. Definitions.

- (1) "Sub-Domain:" A meaningful name or "handle" for addressing computers and information on the Internet. Domain names typically end with a suffix that denotes the type or location of a resource (for instance, ".com" for commercial resources or ".gov" for government resources).

Requests for waiver must be submitted with justification to the CIO by the requesting agency Executive Director.
- (3) Any agency may retain an existing sub-domain under "state.ut.us" for up to 2 years from the effective date of this rule provided they show an active plan for migration to the "utah.gov" identifier.
- (4) Non-Conforming TLDs may be obtained or retained

solely for the purpose of re-direction to an approved "utah.gov" TLD, or to retain ownership of the TLD for avoiding identifier misuse, provided the non-conforming TLD is not publicized.

R895-4-7. Rule Compliance Management.

A state executive branch agency executive director, or designee, upon becoming aware of a violation, shall enforce the rule. The CIO may, where appropriate, monitor compliance and report to the executive director any findings or violations of this rule.

R994. Workforce Services, Unemployment Insurance.**R994-207. Unemployment.****R994-207-101. General Definition.**

(1) The objective of Sections 35A-4-401 and 35A-4-207 of the Utah Employment Security Act is to provide the means by which it may be determined when or if a claimant, who is not totally unemployed, may be allowed unemployment insurance benefits. It is not the intent of the fund to subsidize a claimant who is devoting substantially all his time and efforts to starting up a new business or expanding an existing business even though he receives no income.

(2) There are generally four types of potentially employed claimants who need to have their claims examined under Section 35A-4-207. They are:

- (a) corporate officers,
- (b) self-employed individuals,
- (c) commission salesmen, and
- (d) volunteer workers.

R994-207-102. General Requirements for Eligibility.

(1) A claimant is unemployed and eligible for benefits if all of the following conditions are shown to exist:

- (a) Less Than Full-Time Work.

The claimant worked all the hours that were reasonable for him to work and the total number of hours was less than full-time. He must not regulate the type or amount of duties or number of hours spent in a remunerative enterprise for the purpose of qualifying for benefits. Full-time work will generally be considered to be 40 hours a week, but may be the number of hours established by schedule, custom, or otherwise as constituting a week of full-time work for the kind of service the claimant performs.

- (b) Income Less Than WBA.

The claimant earned less than the weekly benefit amount (WBA) established for his claim.

- (c) Available for and Seeking Other Full-time Work.

The claimant in addition to the subject work, must be available for and actively seeking full-time suitable work for another employer as defined by the suitable work test, Subsection 35A-4-405(3) and Section R994-405-309. A failure to make an active search for work will evidence a contentment with his current status and a conclusion that he is "not unemployed" shall be made. The efforts of a claimant to seek work should be distinguished from those directed towards obtaining work for himself as an individual and those directed toward obtaining work or customers for his corporation or business. Efforts to obtain work for the business or corporation are evidence of continuing responsibilities but are not evidence of an individual's active search for other employment as required for eligibility. A claimant who has marketable skills including: bricklaying, plumbing, and office manager, must be willing to seek and accept such work. He may not restrict himself to availability for the type of work he is currently performing on a less than full-time basis. The claimant's past work history is evidence of the effect of such employment on his attachment to the labor force. If he is unable or unwilling to accept any, but short term or casual labor because of continuing or pending responsibilities, he is "not unemployed".

R994-207-103. Corporate Officer.

The performance of some service is presumed where the corporate officer is receiving wages or other compensation including a car, house or other benefits of a determinable value. However, the payment of dividends, bonuses, and stock payments based on the percent of ownership of the claimant are not compensation for service and therefore are not considered wages.

R994-207-104. Self-Employment.

(1) Self-employment includes services which are performed for the direct or indirect purpose of obtaining a livelihood or a part of such livelihood. Self-employment is generally established as a sole proprietorship or partnership. An individual is not self-employed when a farm is operated only to supplement the family food supply or as a place on which to raise the family, but is not operated for the purpose of selling produce. Individuals in self-employment must report time spent engaged in self-employment activities such as time spent about the place of business either working or awaiting calls for goods or services and time spent seeking customers or business for the self-employment venture.

- (a) Income from Self-Employment.

Some claimants are engaged in part-time, self-employment which produces an immediate, readily determined weekly income. Claimants must report the amounts received for goods bought, supplies purchased, services, rent, etc. These are reasonable business expenses which can be deducted from gross income for goods and services. Payment of loans for buildings or equipment used in the business are not a deductible expense. Claimants engaged in this type of self-employment must maintain detailed records describing each item of income and expense. The Department may audit those records without prior notice.

- (b) Income Not Readily Determinable.

(i) When an individual is engaged in an enterprise that on a year-round basis is less than full-time and the income cannot be clearly determined for each week, the weekly earnings will be determined on the basis of all available information concerning past income and expenses of the enterprise, from which a weekly amount will be computed to represent the potential net income. The amount determined must be reported on the weekly claim. Evidence of changes in the enterprise that would affect the potential income for the present must be reported to the Department and the reportable income will be re-evaluated. Furnishing evidence of past income and expenses is the claimant's responsibility and may be obtained from personal or business records, income tax returns, etc. for the past three years. It will then be averaged to determine a potential weekly amount to be reported each week by the claimant. A claimant may earn up to 30% of his weekly benefit amount in total self-employment plus work for wages before a reduction is made in the unemployment insurance payment for that week. When the estimated income amount equals or exceeds the weekly benefit amount, the claimant is "not unemployed" and benefits will not be allowed.

(ii) When a claimant has just entered into a new business or is expanding and has no actual income experience which may be used as evidence of potential income for the current period, he must make a reasonable estimate. This may be based on any available evidence such as a general knowledge of current prices of products bought and marketed, estimated yields, estimated expense, etc. Any estimated amounts should be so identified.

- (c) Over Estimates of Income.

If the Department or claimant has over estimated the amount reportable in self-employment, the claimant may make a claim for the amount owed. The claim must be made within 30 days of when the correct earnings were determinable.

R994-207-105. Bartered or Exchanged Goods and Services.

(1) A claimant must report when he has entered into an agreement to barter or exchange goods or services. The amount of time working to pay for the goods is reportable. In determining the value derived from bartering or exchanging goods or services, the claimant will consider only the portion of the goods or services that he provides. The payment for these goods or services that is received in kind must be valued at current market values.

R994-207-106. Commission Selling.

(1) Time.

If the time spent on commission selling is part-time because of limits imposed by the limited geographical area, limited clientele, or limited products, the claimant could, upon meeting all other provisions of the Act, be allowed benefits.

(2) Income.

It is necessary to distribute the income from commission sales over the period of time it took to earn the commission. The income should be reported during the week in which the sale is made and not when the payment is received. If it is not possible to determine the exact amount of the commission, an estimate should be made and if the estimate is later determined to be wrong, the claimant should immediately report to the Department to receive assistance in making adjustments. Failure to report under estimates may result in claimant fault overpayments and a disqualification under the fraud provisions of the Act.

R994-207-107. Volunteer Work.

(1) Time.

Donated work does not render a claimant ineligible for benefits, even though the number of hours involved may be full-time. Claimants donating 40 hours or more to churches, charities, civic or other non-profit organizations have serious availability restrictions. The claimant may provide evidence of availability by demonstrating a willingness to seek and accept other permanent, full-time work. A diligent work search during any specific week in question, in addition to a positive mental attitude towards seeking and accepting work would provide adequate proof of attachment to the labor force. A failure to make an active search for work would evidence a contentment with the unpaid status of a volunteer worker, and would require a denial of benefits. To be eligible for benefits at a later date, a substantial change in circumstances should be shown.

(2) Remuneration.

If a claimant who receives assistance from a church or civic organization is asked to spend time working for that organization, but the value of the assistance is not determined by the amount of time spent working, the assistance is not reportable income. Normally, money is not involved with donated work. If money is involved, it need not be reported unless it is subject to withholding taxes, which indicates an employer/employee relationship. If the organization provides money for out-of-pocket expenses, such as gas, equipment, clothes, etc., it would not be wages and would not be reportable on the weekly claim.

R994. Workforce Services, Unemployment Insurance.**R994-508. Appeal Procedures.****R994-508-101. Right to Appeal an Initial Department Determination.**

(1) An interested party has the right to appeal an initial Department determination on unemployment benefits or unemployment tax liability (contributions) by filing an appeal with the Appeals Unit or at any DWS Employment Center.

(2) The appeal must be in writing and either sent through the U.S. Mail, faxed, or delivered to the Appeals Unit, or submitted electronically through the Department's website.

(3) The appeal must be signed by an interested party unless it can be shown that the interested party has conveyed, in writing, the authority to another person or is physically or mentally incapable of acting on his or her own behalf. Providing the correct Personal Identification Number (PIN) when filing an appeal through the Department's website will be considered a signed appeal.

(4) The appeal should give the date of the determination being appealed, the social security number of any claimant involved, the employer number, a statement of the reason for the appeal, and any and all information which supports the appeal. The failure of an appellant to provide the information in this subsection will not preclude the acceptance of an appeal.

(5) The scope of the appeal is not limited to the issues stated in the appeal.

(6) If the claimant is receiving benefits at the time the appeal is filed, payments will continue pending the written decision of the ALJ even if the claimant is willing to waive payment. If benefits are denied as a result of the appeal, an overpayment will be established.

R994-508-102. Time Limits for Filing an Appeal from an Initial Department Determination.

(1) If the initial Department determination was delivered to the party, the time permitted for an appeal is ten calendar days. "Delivered to the party" means personally handed, faxed, or sent electronically to the party. If the determination was sent through the U.S. Mail, an additional five calendar days will be added to the time allowed for an appeal from the initial Department determination. Therefore, the amount of time permitted for filing an appeal from any initial Department determination sent through the U.S. Mail is fifteen calendar days unless otherwise specified on the decision.

(2) In computing the period of time allowed for filing an appeal, the date as it appears in the determination is not included. The last day of the appeal period is included in the computation unless it is a Saturday, Sunday, or legal holiday when Department offices are closed. If the last day permitted for filing an appeal falls on a Saturday, Sunday, or legal holiday, the time permitted for filing a timely appeal will be extended to the next day when Department offices are open.

(3) An appeal sent through the U.S. Mail is considered filed on the date shown by the postmark. If the postmark date cannot be established because it is illegible, erroneous, or omitted, the appeal will be considered filed on the date it was mailed if the sender can establish that date by competent evidence and can show that it was mailed prior to the date of actual receipt. If the date of mailing cannot be established by competent evidence, the appeal will be considered filed on the date it is actually received by the Appeals Unit as shown by the Appeals Unit's date stamp on the document or other credible evidence such as a written notation of the date of receipt. "Mailed" in this subsection means taken to the post office or placed in a receptacle which is designated for pick up by an employee who has the responsibility of delivering it to the post office.

R994-508-103. Untimely Appeal.

If it appears that an appeal was not filed in a timely manner, the appellant will be notified and given an opportunity to show that the appeal was timely or that it was delayed for good cause. If it is found that the appeal was not timely and the delay was without good cause, the ALJ or the Board will not have jurisdiction to consider the merits unless jurisdiction is established in accordance with provisions of Subsection 35A-4-406(2). Any decision with regard to jurisdictional issues will be issued in writing and delivered or mailed to all interested parties with a clear statement of the right of further appeal or judicial review.

R994-508-104. Good Cause for Not Filing Within Time Limitations.

A late appeal may be considered on its merits if it is determined that the appeal was delayed for good cause. Good cause is limited to circumstances where it is shown that:

(1) the appellant received the decision after the expiration of the time limit for filing the appeal, the appeal was filed within ten days of actual receipt of the decision and the delay was not the result of willful neglect;

(2) the delay in filing the appeal was due to circumstances beyond the appellant's control; or

(3) the appellant delayed filing the appeal for circumstances which were compelling and reasonable.

R994-508-105. Response to an Appeal.

A respondent is not required to file a written response to an appeal. A respondent may file a response if it does not delay the proceedings.

R994-508-106. Notice of the Hearing.

(1) All interested parties will be notified by mail, at least seven days prior to the hearing, of:

(a) the time and place of the hearing;

(b) the right to be represented at the hearing;

(c) the right to request an in-person hearing;

(d) the legal issues to be considered at the hearing;

(e) the procedure for submitting written documents;

(f) the consequences of not participating;

(g) the procedures and limitations for requesting a continuance or rescheduling; and

(h) the procedure for requesting an interpreter for the hearing, if necessary.

(2) When a new issue arises during the hearing, advance written notice may be waived by the parties after a full explanation by the ALJ of the issues and potential consequences.

(3) It is the responsibility of a party to notify and make arrangements for the participation of the party's representative and/or witnesses, if any.

(4) If a party has designated a person or professional organization as its agent, notice will be sent to the agent which will satisfy the requirement to give notice to the party.

R994-508-107. Department to Provide Documents.

The Appeals Unit will obtain the information which the Department used to make its initial determination and the reasoning upon which that decision was based and will send all of the Department's relevant documentary information to the parties with the notice of hearing.

R994-508-108. Discovery.

(1) Discovery is a legal process to obtain information which is necessary to prepare for a hearing. In most unemployment insurance hearings, informal methods of discovery are sufficient. Informal discovery is the voluntary exchange of information regarding evidence to be presented at the hearing, and witnesses who will testify at the hearing.

Usually a telephone call to the other party requesting the needed information is adequate. Parties are encouraged to cooperate in providing information. If this information is not provided voluntarily, the party requesting the information may request that the ALJ compel a party to produce the information through a verbal or written order or issuance of a subpoena. In considering the requests, the ALJ will balance the need for the information with the burden the requests place upon the opposing party and the need to promptly decide the appeal.

(2) The use of formal discovery procedures in unemployment insurance appeals proceedings are rarely necessary and tend to increase costs while delaying decisions. Formal discovery may be allowed for unemployment insurance hearings only if so directed by the ALJ and when each of the following elements is present:

(a) informal discovery is inadequate to obtain the information required;

(b) there is no other available alternative that would be less costly or less intimidating;

(c) it is not unduly burdensome;

(d) it is necessary for the parties to properly prepare for the hearing; and

(e) it does not cause unreasonable delays.

(3) Formal discovery includes requests for admissions, interrogatories, and other methods of discovery as provided by the Utah Rules of Civil Procedure.

R994-508-109. Hearing Procedure.

(1) All hearings will be conducted before an ALJ in such manner as to provide due process and protect the rights of the parties.

(2) The hearing will be recorded.

(3) The ALJ will regulate the course of the hearing to obtain full disclosure of relevant facts and to afford the parties a reasonable opportunity to present their positions.

(4) The decision of the ALJ will be based solely on the testimony and evidence presented at the hearing.

(5) All testimony of the parties and witnesses will be given under oath or affirmation.

(6) All parties will be given the opportunity to provide testimony, present relevant evidence which has probative value, cross-examine any other party and/or other party's witnesses, examine or be provided with a copy of all exhibits, respond, argue, submit rebuttal evidence and/or provide statements orally or in writing, and/or comment on the issues.

(7) The evidentiary standard for ALJ decisions, except in cases of fraud, is a preponderance of the evidence. Preponderance means evidence which is of greater weight or more convincing than the evidence which is offered in opposition to it; that is, evidence which as a whole shows that the fact sought to be proved is more probable than not. The evidentiary standard for determining claimant fraud is clear and convincing evidence. Clear and convincing is a higher standard than preponderance of the evidence and means that the allegations of fraud are highly probable.

(8) The ALJ will direct the order of testimony and rule on the admissibility of evidence. The ALJ may, on the ALJ's own motion or the motion of a party, exclude evidence that is irrelevant, immaterial, or unduly repetitious.

(9) Oral or written evidence of any nature, whether or not conforming to the rules of evidence, may be accepted and will be given its proper weight. A party has the responsibility to present all relevant evidence in its possession. When a party is in possession of evidence but fails to introduce the evidence, an inference may be drawn that the evidence does not support the party's position.

(10) Official Department records, including reports submitted in connection with the administration of the Employment Security Act, may be considered at any time in the

appeals process including after the hearing.

(11) Parties may introduce relevant documents into evidence. Parties must mail, fax, or deliver copies of those documents to the ALJ assigned to hear the case and all other interested parties so that the documents are received three days prior to the hearing. Failure to prefile documents may result in a delay of the proceedings. If a party has good cause for not submitting the documents three days prior to the hearing or if a party does not receive the documents sent by the Appeals Unit or another party prior to the hearing, the documents will be admitted after provisions are made to insure due process is satisfied. At his or her discretion, the ALJ can either:

(a) reschedule the hearing to another time;

(b) allow the parties time to review the documents at an in-person hearing;

(c) request that the documents be faxed during the hearing, if possible, or read the material into the record in case of telephone hearing; or

(d) leave the record of the hearing open, send the documents to the party or parties who did not receive them, and give the party or parties an opportunity to submit additional evidence after they are received and reviewed.

(12) The ALJ may, on his or her own motion, take additional evidence as is deemed necessary.

(13) With the consent of the ALJ, the parties to an appeal may stipulate to the facts involved. The ALJ may decide the appeal on the basis of those facts, or may set the matter for hearing and take further evidence as deemed necessary to decide the appeal.

(14) The ALJ may require portions of the testimony be transcribed as necessary for rendering a decision.

(15) All initial determinations made by the Department are exempt from the provisions of the Utah Administrative Procedures Act (UAPA). Appeals from initial determinations will be conducted as formal adjudicative proceedings under UAPA.

R994-508-110. Telephone Hearings.

(1) Hearings are usually scheduled as telephonic hearings. Every party wishing to participate in the telephone hearing must call the Appeals Unit before the hearing and provide a telephone number where the party can be reached at the time of the hearing.

(2) If a party prefers an in-person hearing, the party must contact the ALJ assigned to hear the case and request that the hearing be scheduled as an in-person hearing. The request should be made sufficiently in advance of the hearing so that all other parties may be given notice of the change in hearing type and the opportunity to appear in person also. If the ALJ grants the request, all parties will be informed that the hearing will be conducted in person. Even if the hearing is scheduled as an in-person hearing, a party may elect to participate by telephone. In-person hearings are held in the office of the Appeals Unit unless the ALJ determines that another location is more appropriate. The Department is not responsible for any travel costs incurred by attending an in-person hearing.

(3) The Appeals Unit will permit collect calls from parties and their witnesses participating in telephone hearings; however, professional representatives not at the physical location of their client must pay their own telephone charges.

R994-508-111. Evidence, Including Hearsay Evidence.

(1) The failure of one party to provide information either to the Department initially or at the appeals hearing severely limits the facts available upon which to base a good decision. Therefore, it is necessary for all parties to actively participate in the hearing by providing accurate and complete information in a timely manner to assure the protection of the interests of each party and preserve the integrity of the unemployment insurance

system.

(2) Hearsay, which is information provided by a source whose credibility cannot be tested through cross-examination, has inherent infirmities which make it unreliable.

(3) Evidence will not be excluded solely because it is hearsay. Hearsay, including information provided to the Department through telephone conversations and written statements will be considered, but greater weight will be given to credible sworn testimony from a party or a witness with personal knowledge of the facts.

(4) Findings of fact cannot be based exclusively on hearsay evidence unless that evidence is admissible under the Utah Rules of Evidence. All findings must be supported by a residuum of legal evidence competent in a court of law.

R994-508-112. Procedure For Use of an Interpreter at the Hearing.

(1) If a party notifies the Appeals Unit that an interpreter is needed, the Unit will arrange for an interpreter at no cost to the party.

(2) The ALJ must be assured that the interpreter understands the English language and understands the language of the person for whom the interpreter will interpret.

(3) The ALJ will instruct the interpreter to interpret, word for word, and not summarize, add, change, or delete any of the testimony or questions.

(4) The interpreter will be sworn to truthfully and accurately translate all statements made, all questions asked, and all answers given.

R994-508-113. Department a Party to Proceedings.

As a party to the hearing, the Department or its representatives have the same rights and responsibilities as other interested parties to present evidence, bring witnesses, cross-examine witnesses, give rebuttal evidence, and appeal decisions. The ALJ cannot act as the agent for the Department and therefore is limited to including in the record only that relevant evidence which is in the Department files, including electronically kept records or records submitted by Department representatives. The ALJ will, on his or her own motion, call witnesses for the Department when the testimony is necessary and the need for such witnesses or evidence could not have been reasonably anticipated by the Department prior to the hearing. If the witness is not available, the ALJ will, on his or her own motion, continue the hearing until the witness is available.

R994-508-114. Ex Parte Communications.

Parties are not permitted to discuss the merits or facts of any pending case with the ALJ assigned to that case or with a member of the Board prior to the issuance of the decision, unless all other parties to the case have been given notice and opportunity to be present. Any ex parte discussions between a party and the ALJ or a Board member will be reported to the parties at the time of the hearing and made a part of the record. Discussions with Department employees who are not designated to represent the Department on the issue and are not expected to participate in the hearing of the case are not ex parte communications and do not need to be made a part of the record.

R994-508-115. Requests for Removal of an ALJ from a Case.

A party may request that an ALJ be removed from a case on the basis of partiality, interest, or prejudice. The request for removal must be made to the ALJ assigned to hear the case. The request must be made prior to the hearing unless the reason for the request was not, or could not have been known prior to the hearing. The request must state specific facts which are alleged to establish cause for removal. If the ALJ agrees to the

removal, the case will be assigned to a different ALJ. If the ALJ finds no legitimate grounds for the removal, the request will be denied and the ALJ will explain the reasons for the denial during the hearing. Appeals pertaining to the partiality, interest, or prejudice of the ALJ may be filed consistent with the time limitations for appealing any other decision.

R994-508-116. Rescheduling or Continuance of Hearing.

(1) The ALJ may adjourn, reschedule, continue, or reopen a hearing on the ALJ's own motion or on the motion of a party.

(2) If a party knows in advance of the hearing that they will be unable to proceed with or participate in the hearing on the date or time scheduled, the party must request that the hearing be rescheduled or continued to another day or time.

(a) The request must be received prior to the hearing.

(b) The request must be made orally or in writing to the ALJ who is scheduled to hear the case. If the request is not received prior to the hearing, the party must show cause for failing to make a timely request.

(c) The party making the request must provide evidence of cause for the request.

(3) Unless compelling reasons exist, a party will not normally be granted more than one request for a continuance.

R994-508-117. Failure to Participate in the Hearing and Reopening the Hearing After the Hearing Has Been Concluded.

(1) If a party fails to appear for or participate in the hearing, either personally or through a representative, the ALJ may take evidence from participating parties and will issue a decision based on the best available evidence.

(2) Any party failing to participate, personally or through a representative, may request that the hearing be reopened.

(3) The request must be in writing, must set forth the reason for the request, and must be mailed, faxed, or delivered to the Appeals Unit within ten days of the issuance of the decision issued under Subsection (1). Intermediate Saturdays, Sundays and legal holidays are excluded from the computation of the ten days in accordance with Rule 6 of the Utah Rules of Civil Procedure. If the request is made after the expiration of the ten-day time limit, but within 30 days, the party requesting reopening must show cause for not making the request within ten days. If no decision has yet been issued, the request should be made without unnecessary delay. If the request is received more than 30 days after the decision is issued, the Department will have lost jurisdiction and the party requesting reopening must show good cause for not making a timely request.

(4) If a request to reopen is not granted, the ALJ will issue a decision denying the request. A party may appeal a denial of the request to reopen to the Board within 30 days of the date of issuance of the decision. The appeal must be in writing and set forth the reason or reasons for the appeal. The appeal can only contest the denial of the request to set aside the default and not the underlying merits of the case except as provided in R994-508-118(2)(f).

(5) The ALJ may reopen a hearing on his or her own motion if it appears necessary to take continuing jurisdiction or if the failure to reopen would be an affront to fairness.

(6) If the request to reopen is made more than 30 days after the issuance of the ALJ's decision, the ALJ may consider the request or refer it to the Board to be treated as an appeal to the Board.

R994-508-118. What Constitutes Grounds to Reopen a Hearing.

(1) The request to reopen will be granted if the party was prevented from appearing at the hearing due to circumstances beyond the party's control.

(2) The request may be granted upon such terms as are just

for any of the following reasons: mistake, inadvertence, surprise, excusable neglect, or any other reason justifying relief from the operation of the decision. The determination of what sorts of neglect will be considered excusable is an equitable one, taking into account all of the relevant circumstances including:

- (a) the danger that the party not requesting reopening will be harmed by reopening;
 - (b) the length of the delay caused by the party's failure to participate including the length of time to request reopening;
 - (c) the reason for the request including whether it was within the reasonable control of the party requesting reopening;
 - (d) whether the party requesting reopening acted in good faith;
 - (e) whether the party was represented at the time of the hearing. Attorneys and professional representatives are expected to have greater knowledge of Department procedures and rules and are therefore held to a higher standard; and
 - (f) whether based on the evidence of record and the parties' arguments or statements, taking additional evidence might affect the outcome of the case.
- (3) Requests to reopen are remedial in nature and thus must be liberally construed in favor of providing parties with an opportunity to be heard and present their case. Any doubt must be resolved in favor of granting reopening.
- (4) Excusable neglect is not limited to cases where the failure to act was due to circumstances beyond the party's control.
- (5) The ALJ has the discretion to schedule a hearing to determine if a party requesting reopening satisfied the requirements of this rule or may, after giving the other parties an opportunity to respond to the request, grant or deny the request on the basis of the record in the case.

R994-508-119. Withdrawal of Appeal.

A party who has filed an appeal with the Appeals Unit may request that the appeal be withdrawn. The request must explain the reasons for the withdrawal and be made to the ALJ assigned to hear the case, or the supervising ALJ if no ALJ has yet been assigned. The ALJ may deny the request if the withdrawal of the appeal would jeopardize the due process rights of any party. If the ALJ grants the request, the ALJ will issue a decision dismissing the appeal and the initial Department determination will remain in effect. The decision will inform the parties of the right to reinstate the appeal and the procedure for reinstating the appeal. A request to reinstate an appeal must be made within ten calendar days of the decision dismissing the appeal, must be in writing, and must show cause for the request. A request to reinstate made more than ten days after the dismissal will be treated as a late appeal.

R994-508-120. Prompt Notification of Decision.

Any decision by an ALJ or the Board which affects the rights of any party with regard to benefits, tax liability, or jurisdictional issues will be mailed to the last known address of the parties or delivered in person. Each decision issued will be in writing with a complete statement of the findings of fact, reasoning and conclusions of law, and will include or be accompanied by a notice specifying the further appeal rights of the parties. The notice of appeal rights shall state clearly the place and manner for filing an appeal from the decision and the period within which a timely appeal may be filed.

R994-508-121. Correction of Error and Augmentation of the Record.

A party may request correction of an ALJ decision if the request is made in writing and filed within 30 calendar days of the date of the decision. The ALJ retains jurisdiction to reopen the hearing, amend or correct any decision which is not final, or exercise continuing jurisdiction as provided by the rules

pertaining to Utah Code Subsections 35A-4-406(2) and 35A-4-406(3) unless the Board has accepted an appeal. If the ALJ agrees to grant the request for correction, a new decision will be issued and new appeal rights to the Board will be established. If the ALJ denies the request, the request will be treated as an appeal to the Board.

R994-508-122. Finality of Decision.

The ALJ's decision is binding on all parties and is the final decision of the Department unless appealed within 30 days of date the decision was issued.

R994-508-201. Attorney Fees.

(1) An attorney or other authorized representative may not charge or receive a fee for representing a claimant in an action before the Department without prior approval by an ALJ or the Board. The Department is not responsible for the payment of the fee, only the regulation and approval of the fee. The Department does not regulate fees charged to employers.

(2) Fees will not be approved in excess of 25 percent of the claimant's maximum potential regular benefit entitlement unless such a limitation would preclude the claimant from pursuing an appeal to the Court of Appeals and/or the Supreme Court or would deprive the client of the right to representation.

R994-508-202. Petition for Approval of Fee.

(1) If a fee is to be charged, a written petition for approval must be submitted by the claimant's representative to the ALJ before whom the representative appeared, or to the supervising ALJ if no hearing was scheduled. An approval form can be obtained through the Appeals Unit. Prior to approving the fee, a copy of the petition will be sent to the claimant and the claimant will be allowed ten days from the date of mailing to object to the fee. At the discretion of the ALJ, the fee may be approved as requested, adjusted to a lower amount, or disallowed in its entirety.

(2) If the case is appealed to the Board level, the claimant's representative must file a new petition with the Board if additional fees are requested.

R994-508-203. Criteria for Evaluation of Fee Petition.

The appropriateness of the fee will be determined using the following criteria:

- (1) the complexity of the issues involved;
- (2) the amount of time actually spent in;
 - (a) preparation of the case;
 - (b) attending the hearing;
 - (c) preparation of a brief, if required. Unless an appeal is taken to the Court of Appeals, fees charged for preparation of briefs or memoranda will not ordinarily be approved unless the ALJ requested or preapproved the filing of the brief or memoranda; and
 - (d) further appeal to the Board, the Court of Appeals, and/or the Supreme Court.
- (3) The quality of service rendered including:
 - (a) preparedness of the representative;
 - (b) organization and presentation of the case;
 - (c) avoidance of undue delays. An attorney or representative should make every effort to go forward with the hearing when it is originally scheduled to avoid leaving the claimant without income or an unnecessary overpayment; and,
 - (d) the necessity of representation. If the ALJ or the Board determines that the claimant was not in need of representation because of the simplicity of the case or the lack of preparation on the part of the representative, only a minimal fee may be approved or, in unusual circumstances, a fee may be disallowed.
- (4) The prevailing fee in the community. The prevailing fee is the rate charged by peers for the same type of service. In

determining the prevailing fee for the service rendered, the Department may consider information obtained from the Utah State Bar Association, Lawyer's Referral Service, or other similar organizations as well as similar cases before the Appeals Unit.

R994-508-204. Appeal of Attorney's Fee.

The claimant or the authorized representative may appeal the fee award to the Board within 30 days of the date of issuance of the ALJ's decision. The appeal must be in writing and set forth the reason or reasons for the appeal.

R994-508-301. Appeal From a Decision of an ALJ.

If the ALJ's decision did not affirm the initial Department determination, the Board will accept a timely appeal from that decision if filed by an interested party. If the decision of the ALJ affirmed the initial Department determination, the Board has the discretion to refuse to accept the appeal or request a review of the record by an individual designated by the Board. If the Board refuses to accept the appeal or requests a review of the record as provided in statute, the Board will issue a written decision declining the appeal and containing appeal rights.

R994-508-302. Time Limit for Filing an Appeal to the Board.

(1) The appeal from a decision of an ALJ must be filed within 30 calendar days from the date the decision was issued by the ALJ. This time limit applies regardless of whether the decision of the ALJ was sent through the U.S. Mail or personally delivered to the party. "Delivered to the party" means personally handed, faxed, or sent electronically to the party. No additional time for mailing is allowed.

(2) In computing the period of time allowed for filing a timely appeal, the date as it appears in the ALJ's decision is not included. The last day of the appeal period is included in the computation unless it is a Saturday, Sunday, or legal holiday when the offices of the Department are closed. If the last day permitted for filing an appeal falls on a Saturday, Sunday, or legal holiday, the time permitted for filing a timely appeal will be extended to the next day when the Department offices are open.

(3) The date of receipt of an appeal to the Board is the date the appeal is actually received by the Board, as shown by the Department's date stamp on the document or other credible evidence such as a written or electronic notation of the date of receipt, and not the post mark date from the post office. If the appeal is faxed to the Board, the date of receipt is the date recorded on the fax.

(4) Appeals to the Board which appear to be untimely will be handled in the same way as untimely appeals to the ALJ in rules R994-508-103 and R994-508-104.

R994-508-303. Procedure for Filing an Appeal to the Board.

(1) An appeal to the Board from a decision of an ALJ must be in writing and include:

(a) the name and signature of the party filing the appeal. Accessing the Department's website for the purpose of filing an appeal and providing a correct PIN will be considered a signed appeal;

(b) the name and social security number of the claimant in cases involving claims for unemployment benefits;

(c) the grounds for appeal; and

(d) the date when the appeal was mailed or sent to the Board.

(2) The appeal must be mailed, faxed, delivered to, or filed electronically with the Board.

(3) An appeal which does not state adequate grounds, or specify alleged errors in the decision of the ALJ, may be summarily dismissed.

R994-508-304. Response to an Appeal to the Board.

Interested parties will receive notice that an appeal has been filed and a copy of the appeal and will be given 15 days from the date the appeal was mailed to the party to file a response. Parties are not required to file a response. A party filing a response should mail a copy to all other parties and the Board.

R994-508-305. Decisions of the Board.

(1) The Board has the discretion to consider and render a decision on any issue in the case even if it was not presented at the hearing or raised by the parties on appeal.

(2) Absent a showing of unusual or extraordinary circumstances, the Board will not consider new evidence on appeal if the evidence was reasonably available and accessible at the time of the hearing before the ALJ.

(3) The Board has the authority to request additional information or evidence, if necessary.

(4) The Board may remand the case to the Department or the ALJ when appropriate. (5) A copy of the decision of the Board, including an explanation of the right to judicial review, will be delivered or mailed to the interested parties.

R994-508-306. Reconsideration of a Decision of the Board.

A party may request reconsideration of a decision of the Board in accordance with Utah Code Subsection 63G-4-302.

R994-508-307. Withdrawal of Appeal to the Board.

A party who has filed an appeal from a decision of an ALJ may request that the appeal be withdrawn. The request must explain the reasons for the withdrawal by making a written statement to the Board explaining the reasons for the withdrawal. The Board may deny such a request if the withdrawal of the appeal jeopardizes the due process rights of any party. If the Board grants the request, a decision dismissing the appeal will be issued and the underlying decision will remain in effect. The decision will inform the party of the right to reinstate the appeal and the procedure for reinstating the appeal. A request to reinstate an appeal under this subsection must be made within 30 days of the decision dismissing the appeal, must be in writing, and must show cause for the request. A request to reinstate made more than ten days after the dismissal will be treated as a late appeal.

R994-508-401. Jurisdiction and Reconsideration of Decisions.

(1) An initial Department determination or a decision of an ALJ or the Board is not final until the time permitted for the filing of an appeal has elapsed. There are no limitations on the review of decisions until the appeal time has elapsed.

(2) After a determination or decision has become final, the Department may, on its own initiative or upon the request of any interested party, review a determination or decision and issue a new decision or determination, if appropriate, if there has been a change of conditions or a mistake as to facts. The reconsideration must be made at, or with the approval of, the level where the last decision on the case was made or is currently pending.

(a) A change in conditions may include a change in the law which would make reconsideration necessary in fairness to the parties who were adversely affected by the law change. A change in conditions may also include an unforeseeable change in the personal circumstances of the claimant or employer which would have made it reasonable not to file a timely appeal.

(b) A mistake as to facts is limited to material information which was the basis for the decision. A mistake as to facts may include information which is misunderstood or misinterpreted, but does not include an error in the application of the act or the rules provided the decision is made under the correct section of

the act. A mistake as to facts can only be found if it was inadvertent. If the party alleging the mistake intentionally provided the wrong information or intentionally withheld information, the Department will not exercise jurisdiction under this paragraph.

(3) The Department is not required to take jurisdiction in all cases where there is a change in conditions or a mistake as to facts. The Department will weigh the administrative burden of making a redetermination against the requirements of fairness and the opportunities of the parties affected to file an appeal. The Department may decline to take jurisdiction if the redetermination would have little or no effect.

(4) Any time a decision or determination is reconsidered, all interested parties will be notified of the new information and provided with an opportunity to participate in the hearing, if any, held in conjunction with the review. All interested parties will receive notification of the redetermination and be given the right to appeal.

(5) A review cannot be made after one year from the date of the original determination except in cases of fraud or claimant fault. In cases of fault or fraud, the Department has continuing jurisdiction as to overpayments. In cases of fraud, the Department only has jurisdiction to assess the penalty provided in Utah Code Subsection 35A-4-405(5) for a period of one year after the discovery of the fraud.
