R33. Administrative Services, Purchasing and General Services.
R33-11. Surplus Property.
R33-11-1. State Surplus Property Disposal.

11-101. Purpose.

This rule sets forth policies and procedures which govern the acquisition and disposition of state and federal surplus property. It applies to all state and local public agencies and eligible non-profit educational and health institutions when dealing with federal surplus property. It also applies to all state agencies unless specifically exempted by law and to the general public when dealing with state surplus property.

11-102. Authority.

Under the provisions of Title 63A, Chapter 2, Part 4, the Utah State Agency for Surplus Property (USASP) within the Division of Purchasing and General Services, under the Department of Administrative Services is responsible for operating both a state and a federal surplus property program. The standards and procedures governing the operation of these two programs are found in two separate State Plans of Operation, one for state surplus property and a second plan for federal surplus property, the latter being a contract between the state and federal government. The State Plans of Operation may be reviewed at the USASP.

11-103. Definitions.

(1) As used in this section "Personal handheld electronic device":

(a) means an electronic device that is designed for personal handheld use and permits the user to store or access information, the primary value of which is specific to the user of the device; and,

(b) includes a mobile phone, pocket personal computer, personal digital assistant, wireless, or similar device.

11-104. Procedures.

(1) State-owned personal property shall not be destroyed, sold, transferred, traded-in, traded, discarded, donated or otherwise disposed of without first submitting a properly completed form SP-1 to and receiving authorization from the USASP.

This rule applies to and includes any residue that may be remaining from agency cannibalization of property.

(2) When a department or agency of state government determines that state-owned personal property is in excess to current needs, they will make such declaration using Form SP-1. State-owned personal property shall not be processed by the USASP unless the appropriate form is executed.

(3) A standard form SP-3 is required when it is determined that state-owned personal property should be abandoned and destroyed. The SP-3 is generated by the USASP after receiving a form SP-1 and reviewing the property being disposed of by the agency.

(4) State-owned information technology equipment may be transferred directly to public institutions, such as schools and libraries by the owning agency. However, a form SP-1 must still be completed and forwarded to the USASP to account for the transfer of the equipment. In such cases, the USASP will not assess a fee. Similarly, the USASP is authorized to donate computer equipment received as surplus property from agencies to schools that have submitted requests for computer equipment directly to the USASP.

(5) Pursuant to the provisions of section 63A-2-407, state-owned information technology equipment may be transferred directly to Non-profit entities for distribution to, and use by, persons with a disability as defined in subsections 62A-5-101(9). However, interagency transfers and sales of surplus property to state and local agencies within the 30-day period under section 63A-2-406 shall have priority over transfers under this subsection. The 30-day holding period may be waived if shown to be in the best interest of the state.

(6) Requests for state-owned information technology equipment from non-profit entities shall be:

(a) Submitted, in writing, on the non-profit entity's official letterhead, to the Department of Human Services, Division of Services for People with Disabilities (DSPD);

(b) Reviewed and approved by DSPD and forwarded to the USASP manager to properly track and arrange for distribution.

(7) State agencies transferring state-owned information technology equipment to non-profit entities for distribution to, and use by persons with a disability as defined in subsections 62A-5-101(9), shall provide the USASP with completed SP-1 forms in order to account for the transfer of said equipment. In such cases, the USASP will not assess a fee to the donating agency.

(8) Pursuant to the provisions of subsection 63A-2-407(3), the USASP shall prepare an annual report to DSPD containing the names of non-profit entities that received state-owned information technology equipment under subsection 63A-2-407(1), and the types and amounts of equipment received.

(9) Prior to submitting information technology equipment to Surplus Property, or donating it directly to the public institutions, agencies shall delete all information from all storage devices. Information shall be deleted in such a manner as to not be retrievable by data recovery technologies.

(10) Federal surplus property is not available for sale to the general public, on a day-to-day basis. Donation of federal surplus property shall be administered in accordance with the procedures identified in the State Plan of Operation for the Federal Property Assistance Program. Public auctions of federal surplus property are authorized under certain circumstances and conditions. The USASP Manager shall coordinate such auctions when deemed necessary or appropriate. Federal surplus property auctions are primarily conducted online, but are regulated and accomplished by the U.S. General Services Administration.

(11) This section sets forth policy and procedure, which governs the sale of personal handheld electronic devices to a user who is provided such a device by an agency, and who subsequently leaves or changes employment. These personal handheld electronic devices usually rely on technology that is rapidly changing, resulting in the devices becoming continuously outdated as more capable devices are offered; therefore, their value depreciates significantly over the period of their service. Their usefulness is generally tied to a service contract with a service provider.

(a) Personal handheld electronic device and related accessories and software may be purchased by the assigned user upon a change in employment status including termination, retirement, or transfer to another agency within state government; provided that the issuing agency is not obligated to continue the terms of the service contract.

(c) Prior to a purchase of a handheld device, the following requirements shall be completed in substantially the following order:

(I) software owned or licensed by the agency as required

by the software license agreement;

(II) information that is classified as protected, private, or controlled under the Title 63G, Chapter 2, Government Records Access and Management Act; and

(b) The potential liability to the state;

(c) The overall best interest of the state.

11-105. Related Party Transactions.

(1) The USASP has a duty to the public to ensure that State-owned surplus property is disposed of at fair market value, in an independent and ethical manner, and that the property or the value of the property has not been misrepresented. Justification may include reference to maintenance history, purchase price and the absence of conflicts of interest. If the related party is an authorized agent, a higher approval may be sought.

(b) The USASP may choose to hold the property for sale by public auction or sealed bid. The prospective buyer may then compete against other bidders.

(c) The USASP may hold the property for a 30-day period before allowing the related party the opportunity to purchase the property, thus allowing for purchase of the property in accordance with the priorities listed below. The 30-day holding period may be waived if shown to be in the best interest of the state.

(4) The USASP Manager or designee may make exceptions to the payment provisions of this rule for good cause.

A good cause exception requires a weighing of:

(a) The cost to the state;

(b) The potential liability to the state;

(c) The overall best interest of the state.

11-109. Bad Debt Collection.

(1) The USASP shall initiate formal collection procedures in the event that a check from the general public, state subdivisions, or other agencies is returned to the USASP for "insufficient funds".

R81-1-4. Employees.

The department is an Equal Opportunity Employer.

R81-1-5. Notice of Public Hearings and Meetings.

Notice of all department meetings and public hearings, other than disciplinary hearings, shall be done in the following manner:

(1) The public notice shall specify the date, time, agenda, and location of each hearing or meeting.

(2) In the case of public meetings, notice shall be made as provided in Section 52-4-202.

(3) In the case of hearings, other than disciplinary hearings, public notice shall be made not less than ten days prior to the hearing.

(4) The procedure for posting public notice and the definition of public meeting for purposes of these rules, shall be the same as provided in Section 52-4-202.

R81-1-6. Violation Schedule.

(1) Authority. This rule is pursuant to Sections 32B-2-202(1)(c)(i), 32B-2-202(1) and (3), 32B-2-202(2)(b) and (c), and 32B-3-101 to -207. These provisions authorize the commission to establish criteria and procedures for imposing sanctions against licensees and permittees and their officers, employees and agents who violate statutes and commission rules relating to alcoholic beverages. For purposes of this rule, holders of certificates of approval are also considered licensees. The commission may revoke or suspend the licenses or permits, and may impose a fine against a licensee or permittee in addition to or in lieu of a suspension. The commission also may impose a fine against an officer, employee or agent of a licensee or permittee. Violations are adjudicated under procedures contained in Section 32B-3-101 to -207 and disciplinary hearing Section R81-1-7.

(2) General Purpose. This rule establishes a schedule setting forth a range of penalties which may be imposed by the commission for violations of the alcoholic beverage laws. It shall be used by department decision officers in processing violations, and by presiding officers in charging violations, in assisting parties in settlement negotiations, and in recommending penalties for violations. The schedule shall be used by the commission in rendering its final decisions as to appropriate penalties for violations.

(3) Application of Rule.

(a) This rule governs violations committed by all commission licensees and permittees and their officers, employees and agents except single event permittees. Violations by single event permittees and their employees and agents are processed under Section 32B-9-204 and -305.

(b) This rule does not apply to situations where a licensee or permittee fails to maintain the minimum qualifications provided by law for holding a license or permit. These might include failure to maintain a bond or insurance, or a conviction for a criminal offense that disqualifies the licensee or permittee from holding the license or permit. These are fundamental licensing and permitting requirements and failure to maintain them may result in immediate suspension or forfeiture of the license or permit. Thus, they are not processed in accordance with the Administrative Procedures Act, Title 63G, Chapter 4 or Section R81-1-7. They are administered by issuance of an order to show cause requiring the licensee or permittee to provide the commission with proof of qualification to maintain their license or permit.

(c) If a licensee or permittee has not received a letter of admonishment, as defined in Sections R81-1-2 and R81-1-7(2)(b), or been found by the commission to be in violation of Utah statutes or commission rules for a period of 36 consecutive months, its violation record shall be expunged for purposes of determining future penalties sought. The expungement period shall run from the date the last offense was finally adjudicated by the commission.

(d) In addition to the penalty classifications contained in this rule, the commission may:

(i) upon revocation of a license or permit, take action to forfeit the bond of any licensee or permittee;

(ii) prohibit an officer, employee or agent of a licensee or permittee from serving, selling, distributing, manufacturing, wholesaling, warehousing, or handling alcoholic beverages in the course of employment with any commission licensee or permittee for a period determined by the commission;

(iii) order the removal of a manufacturer's, supplier's or importer's products from the department's sales list and a suspension of the department's purchase of those products for a period determined by the commission if the manufacturer, supplier, or importer directly committed the violation, or solicited, requested, commanded, encouraged, or intentionally aided another to engage in the violation.

(iv) require a licensee to have a written responsible alcohol service plan as provided in R81-1-24.

(e) When the commission imposes a fine or administrative costs, it shall establish a date on which the payment is due. Failure of a licensee or permittee or its officer, employee or agent to make payment on or before that date shall result in the immediate suspension of the license or permit or the suspension of the employment of the officer, employee or agent to serve, sell, distribute, manufacture, wholesale, warehouse or handle alcoholic beverages with any licensee or permittee until payment is made. Failure of a licensee or permittee to pay a fine or administrative costs within 30 days of the initial date established by the commission shall result in the issuance of an order to show cause why the license or permit should not be revoked and the licensee's or permittee's compliance bond forfeited. The commission shall consider the order to show cause at its next regularly scheduled meeting.

(f) Violations of any local ordinance are handled by each individual local jurisdiction.

(4) Penalty Schedule. The department and commission shall follow these penalty range guidelines:

(ii) good faith effort to prevent a violation;

(iii) existence of written policies governing employee conduct;

(iv) extraordinary cooperation in the violation investigation that shows the licensee or permittee and the officer, employee or agent of the licensee or permittee accepts responsibility; and

(v) there was no evidence that the investigation was based on complaints received or on observed misconduct of others, but was based solely on the investigating authority creating the opportunity for a violation.

(b) Examples of aggravating circumstances are:

(i) prior warnings about compliance problems;

(ii) prior violation history;

(iii) lack of written policies governing employee conduct;

(iv) multiple violations during the course of the investigation;

(v) efforts to conceal a violation;

(vi) intentional nature of the violation;

(vii) the violation involved more than one patron or employee;

(viii) the violation involved a minor and, if so, the age of the minor; and

(ix) whether the violation resulted in injury or death.

(6) Violation Grid. A violation grid describing each violation of the alcoholic beverage control laws, the statutory and rule reference, and the degree of seriousness of each violation is available for public inspection in the department's administrative office. A copy will be provided upon request at reproduction cost. It is entitled "Alcoholic Beverage Control Commission Violation Grid" (May 2010 edition) and is incorporated by reference as part of this rule.

R81-1-7. Disciplinary Hearings.

(1) General Provisions.

(a) This rule is promulgated pursuant to Section 32B-2-202(1)(c)(i)and shall govern the procedure for disciplinary actions under the jurisdiction of the commission. Package agencies are expressly excluded from the provisions of this rule, and are governed by the terms of the package agency contract.

(b) Liberal Construction. Provisions of this rule shall be liberally construed to secure just, speedy and economical determination of all issues presented in any disciplinary action.

(c) Emergency Adjudication Proceedings. The department

or commission may issue an order on an emergency basis without complying with the Utah Administrative Procedures Act in accordance with the procedures outlined in Section 63G-4-502.

(d) Utah Administrative Procedures Act. Proceedings under this rule shall be in accordance with Title 63G, Chapter 4, Utah Administrative Procedures Act (UAPA), and Sections 32B-3-102 to -207.

(e) Penalties.

(i) This rule shall govern the imposition of any penalty against a commission licensee, permittee, or certificate of approval holder, an officer, employee or agent of a licensee, permittee, or certificate of approval holder, and a manufacturer, supplier or importer whose products are listed in this state.

(ii) Penalties may include a letter of admonishment, imposition of a fine, the suspension or revocation of a commission license, permit, or certificate of approval, the requirement that a licensee have a written responsible alcohol service plan as provided in R81-1-24, the assessment of costs of action, an order prohibiting an officer, employee or agent of a licensee, permittee, or certificate of approval holder, from serving, selling, distributing, manufacturing, wholesaling, warehousing, or handling alcoholic beverages in the course of employment with any commission licensee, permittee, or certificate of approval holder for a period determined by the commission, the forfeiture of bonds, an order removing a manufacturer's, supplier's or importer's products from the department's sales list and a suspension of the department's purchase of those products for a period determined by the commission, and an order removing the products of a certificate of approval holder from the state approved sales list, and a suspension of the purchase of the products in the state.

(iii) Department administrative costs are the hourly pay rate plus benefits of each department employee involved in processing and conducting the adjudicative proceedings on the violation, an hourly charge for department overhead costs, the amount billed the department by an independent contractor for services rendered in conjunction with an adjudicative proceeding, and any additional extraordinary or incidental costs incurred by the department. The commission may also assess additional costs if a respondent fails to appear before the commission at the final stage of the adjudicative process. Department overhead costs are calculated by taking the previous year's total department expenditures less staff payroll charges expended on violations, dividing it by the previous year's total staff hours spent on violations, and multiplying this by a rate derived by taking the previous year's total staff payroll spent on violations to the previous year's total payroll of all office employees. The overhead cost figure shall be recalculated at the beginning of each fiscal year.

(f) Perjured Statements. Any person who makes any false or perjured statement in the course of a disciplinary action is subject to criminal prosecution under Section 32B-4-504.

(g) Service. Service of any document shall be satisfied by service personally or by certified mail upon any respondent, or upon any officer or manager of a corporate or limited liability company respondent, or upon an attorney for a respondent, or by service personally or by certified mail to the last known address of the respondent or any of the following:

(i) Service personally or by certified mail upon any employee working in the respondent's premises; or

(ii) Posting of the document or a notice of certified mail upon a respondent's premises; or

(h) Filing of Pleadings or Documents. Filing by a respondent of any pleading or document shall be satisfied by timely delivery to the department office, 1625 South 900 West, Salt Lake City, or by timely delivery to P. O. Box 30408, Salt Lake City, Utah 84130-0408.

(i) Representation. A respondent who is not a corporation or limited liability company may represent himself in any disciplinary action, or may be represented by an agent duly authorized by the respondent in writing, or by an attorney. A corporate or limited liability company respondent may be represented by a member of the governing board of the corporation or manager of the limited liability company, or by a person duly authorized and appointed by the respondent in writing to represent the governing board of the corporation or manager of the limited liability company, or by an attorney.

(j) Presiding Officers.

(i) The commission or the director may appoint presiding officers to receive evidence in disciplinary proceedings, and to submit to the commission orders containing written findings of fact, conclusions of law, and recommendations for commission action.

(ii) If fairness to the respondent is not compromised, the commission or director may substitute one presiding officer for another during any proceeding.

(iii) A person who acts as a presiding officer at one phase of a proceeding need not continue as presiding officer through all phases of a proceeding.

(iv) Nothing precludes the commission from acting as presiding officer over all or any portion of an adjudication proceeding.

(v) At any time during an adjudicative proceeding the presiding officer may hold a conference with the department and the respondent to:

(A) encourage settlement;

(B) clarify issues;

(C) simplify the evidence;

(D) expedite the proceedings; or

(E) facilitate discovery, if a formal proceeding.

(k) Definitions. The definitions found in Sections 32B-1-102 and Title 63G, Chapter 4 apply to this rule.

(l) Computation of Time. The time within which any act shall be done shall be computed by excluding the first day and including the last day, unless the last day is a Saturday, Sunday, or state or federal holiday, in which case the next business day shall count as the last day.

(m) Default.

(i) The presiding officer may enter an order of default against a respondent if the respondent in an adjudicative proceeding fails to attend or participate in the proceeding.

(ii) The order shall include a statement of the grounds for default, and shall be mailed to the respondent and the department.

(iii) A defaulted respondent may seek to have the default order set aside according to procedures outlined in the Utah Rules of Civil Procedure.

(iv) After issuing the order of default, the commission or presiding officer shall conduct any further proceedings necessary to complete the adjudicative proceeding without the participation of the respondent in default and shall determine all issues in the adjudicative proceeding, including those affecting the defaulting respondent.

(2) Pre-adjudication Proceedings.

(a) Staff Screening. Upon receipt of a violation report, a decision officer of the department shall review the report, and the alleged violator's violation history, and in accordance with R81-1-6, determine the range of penalties which may be assessed should the alleged violator be found guilty of the alleged violation.

(b) Letters of Admonishment. Because letters of admonishment are not "state agency actions" under Section

63G-4-102(1)(a), no adjudicative proceedings are required in processing them, and they shall be handled in accordance with the following procedures:

(i) If the decision officer of the department determines that the alleged violation does not warrant an administrative fine, or suspension or revocation of the license, permit, or certificate of approval, or action against an officer, employee or agent of a licensee, permittee, or certificate of approval holder, or against a manufacturer, supplier or importer of products listed in this state, a letter of admonishment may be sent to the respondent.

(ii) A letter of admonishment shall set forth in clear and concise terms:

(A) The case number assigned to the action;

(B) The name of the respondent;

(C) The alleged violation, together with sufficient facts to put a respondent on notice of the alleged violations and the name of the agency or staff member making the report;

(D) Notice that a letter of admonishment may be considered as a part of the respondent's violation history in assessing appropriate penalties in future disciplinary actions against the respondent; and

(E) Notice that a rebuttal is permitted under these rules within ten days of service of the letter of admonishment.

(F) Notice that the letter of admonishment is subject to the approval of the commission.

(iii) A copy of the law enforcement agency or department staff report shall accompany the letter of admonishment. The decision officer shall delete from the report any information that might compromise the identity of a confidential informant or undercover agent.

(iv) A respondent may file a written rebuttal with the department within ten days of service of the letter of admonishment. The rebuttal shall be signed by the respondent, or by the respondent's authorized agent or attorney, and shall set forth in clear and concise terms:

(A) The case number assigned to the action;

(B) The name of the respondent;

(C) Any facts in defense or mitigation of the alleged violation, and a brief summary of any attached evidence. The rebuttal may be accompanied by supporting documents, exhibits, or signed statements.

(v) If the decision officer is satisfied, upon receipt of a rebuttal, that the letter of admonishment was not well taken, it may be withdrawn and the letter and rebuttal shall be expunged from the respondent's file. Letters of admonishment so withdrawn shall not be considered as a part of the respondent's violation history. If no rebuttal is received, or if the decision officer determines after receiving a rebuttal that the letter of admonishment is justified, the matter shall be submitted to the commission for final approval. Upon commission approval, the letter of admonishment, together with any written rebuttal, shall be placed in the respondent's department file and may be considered as part of the respondent's violation history in assessing appropriate penalties in future disciplinary actions against the respondent. If the commission rejects the letter of admonishment, it may either direct the decision officer to dismiss the matter, or may direct that an adjudicative proceeding be commenced seeking a more severe penalty.

(vi) At any time prior to the commission's final approval of a letter of admonishment, a respondent may request that the matter be processed under the adjudicative proceeding process.

(c) Commencement of Adjudicative Proceedings.

(i) Alleged violations shall be referred to a presiding officer for commencement of adjudicative proceedings under the following circumstances:

(A) the decision officer determines during screening that the case does not fit the criteria for issuance of a letter of admonishment under section (2)(b)(i);

(B) a respondent has requested that a letter of admonishment be processed under the adjudicative proceeding process; or

(C) the commission has rejected a letter of admonishment and directed that an adjudicative proceeding be commenced seeking a more severe penalty.

(ii) All adjudicative proceedings shall commence as informal proceedings.

(iii) At any time after commencement of informal adjudicative proceedings, but before the commencement of a hearing, if the department determines that it will seek administrative fines exceeding $3000, a suspension of the license, permit or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval for the alleged violation(s), the presiding officer shall convert the matter to a formal adjudicative proceeding.

(iv) At any time before a final order is issued, a presiding officer may convert an informal proceeding to a formal proceeding if conversion is in the public interest and does not unfairly prejudice the rights of any party.

(3) The Informal Process.

(a) Notice of agency action.

(i) Upon referral of a violation report from the decision officer for commencement of informal adjudicative proceedings, the presiding officer shall issue and sign a written "notice of agency action" which shall set forth in clear and concise terms:

(A) The names and mailing addresses of all persons to whom notice is being given by the presiding officer, and the name, title, and mailing address of any attorney or employee who has been designated to appear for the department;

(F) The date, time and place of any prehearing conference with the presiding officer;

(G) A statement that a respondent may request a hearing for the purpose of determining whether the violation(s) alleged in the notice of agency action occurred, and if so, the penalties that should be imposed;

(H) A statement that a respondent who fails to attend or participate in any hearing may be held in default;

(I) A statement of the legal authority and jurisdiction under which the adjudicative proceeding is to be maintained;

(J) A statement of the purpose of the adjudicative proceeding and questions to be decided including:

(I) the alleged violation, together with sufficient facts to put the respondent on notice of the alleged violation and the name of the agency or department staff member making the violation report;

(II) the penalty sought, which may include assessment of costs under Section 32B-3-205(1)(c)if the respondent is found guilty of the alleged violation, and forfeiture of any compliance bond on final revocation under Section 32B-3-205(5) if revocation is sought by the department;

(K) Any violation history of the respondent which may be considered in assessing an appropriate penalty should the respondent be found guilty of the alleged violation; and

(L) The name, title, mailing address, and telephone number of the presiding officer.

(ii) A copy of the law enforcement agency or staff report shall accompany the notice of agency action. The presiding officer shall delete from the report any information that might

compromise the identity of a confidential informant or undercover agent.

(iii) The notice of agency action and any subsequent pleading in the case shall be retained in the respondent's department file.

(iv) The notice of agency action shall be mailed to each respondent, any attorney representing the department, and, if applicable, any law enforcement agency that referred the alleged violation to the department.

(v) The presiding officer may permit or require pleadings in addition to the notice of agency action. All additional pleadings shall be filed with the presiding officer, with copies sent by mail to each respondent and to the department.

(vi) Amendment to Pleading. The presiding officer may, upon motion of the respondent or department made at or before the hearing, allow any pleading to be amended or corrected. Defects which do not substantially prejudice a respondent or the department shall be disregarded.

(vii) Signing of Pleading. Pleadings shall be signed by the department or respondent, or their authorized attorney or representative, and shall show the signer's address and telephone number. The signature shall be deemed to be a certification by the signer that he has read the pleading and that he has taken reasonable measures to assure its truth.

(b) The Prehearing Conference.

(i) The presiding officer may hold a prehearing conference with the respondent and the department to encourage settlement, clarify issues, simplify the evidence, or expedite the proceedings.

(ii) All or part of any adjudicative proceeding may be stayed at any time by a written settlement agreement signed by the department and respondent or their authorized attorney or representative, and by the presiding officer. The stay shall take effect immediately upon the signing of the settlement agreement, and shall remain in effect until the settlement agreement is approved or rejected by the commission. No further action shall be required with respect to any action or issue so stayed until the commission has acted on the settlement agreement.

(iii) A settlement agreement approved by the commission shall constitute a final resolution of all issues agreed upon in the settlement. No further proceedings shall be required for any issue settled. The approved settlement shall take effect by its own terms and shall be binding upon the respondent and the department. Any breach of a settlement agreement by a respondent may be treated as a separate violation and shall be grounds for further disciplinary action. Additional sanctions stipulated in the settlement agreement may also be imposed.

(iv) If the settlement agreement is rejected by the commission, the action shall proceed in the same posture as if the settlement agreement had not been reached, except that all time limits shall have been stayed for the period between the signing of the agreement and the commission rejection of the settlement agreement.

(v) If the matter cannot be resolved by settlement agreement, the department shall notify the respondent and the presiding officer whether it will seek administrative fines exceeding $3000, a suspension of the license, permit or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval for the alleged violation(s).

(vi) If the department does not seek administrative fines exceeding $3000, a suspension of the license, permit, or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval for the alleged violation(s), any hearing on the matter shall be adjudicated informally.

(vii) If the department does seek administrative fines exceeding $3000, a suspension of the license, permit, or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval for the alleged violation(s), the presiding officer shall convert the matter to a formal adjudicative proceeding, and any hearing on the matter shall be adjudicated formally. The department may waive the formal adjudicative proceeding requirement that the respondent file a written response to the notice of agency action.

(c) The Informal Hearing.

(i) The presiding officer shall notify the respondent and department in writing of the date, time and place of the hearing at least ten days in advance of the hearing. Continuances of scheduled hearings are not favored, but may be granted by the presiding officer for good cause shown. Failure by a respondent to appear at the hearing after notice has been given shall be grounds for default and shall waive both the right to contest the allegations, and the right to the hearing. The presiding officer shall proceed to prepare and serve on respondent an order pursuant to R81-1-7(3)(d).

(ii) All hearings shall be presided over by the presiding officer.

(iii) The respondent named in the notice of agency action and the department shall be permitted to testify, present evidence, and comment on the issues. Formal rules of evidence shall not apply, however, the presiding officer:

(A) may exclude evidence that is irrelevant, immaterial or unduly repetitious;

(B) shall exclude evidence privileged in the courts of Utah;

(C) shall recognize presumptions and inferences recognized by law;

(D) may receive documentary evidence in the form of a copy or excerpt if the copy or excerpt contains all the pertinent portions of the original document;

(E) may take official notice of any facts that could be judicially noticed under the Utah Rules of Evidence, of the record of other proceedings before the commission, and of technical or scientific facts within the commission's specialized knowledge;

(F) may not exclude evidence solely because it is hearsay; and

(G) may use his experience, technical competence, and specialized knowledge to evaluate the evidence.

(iv) All testimony shall be under oath.

(v) Discovery is prohibited.

(vi) Subpoenas and orders to secure the attendance of witnesses or the production of evidence shall be issued by the presiding officer when requested by a respondent or the department, or may be issued by the presiding officer on his own motion.

(vii) A respondent shall have access to information contained in the department's files and to material gathered in the investigation of respondent to the extent permitted by law.

(viii) Intervention is prohibited.

(ix) The hearing shall be open to the public, provided that the presiding officer may order the hearing closed upon a written finding that the public interest in an open meeting is clearly outweighed by factors enumerated in the closure order. The presiding officer may take appropriate measures necessary to preserve the integrity of the hearing.

(x) Record of Hearing. The presiding officer shall cause an official record of the hearing to be made, at the department's expense, as follows:

(A) The record of the proceedings may be made by means of an audio or video recorder or other recording device at the department's expense.

(B) The record may also be made by means of a certified shorthand reporter employed by the department or by a party desiring to employ a certified shorthand reporter at its own cost in the event that the department chooses not to employ a reporter. If a party employs a certified shorthand reporter, the

original transcript of the hearing shall be filed with the department. Those desiring a copy of the certified shorthand reporter's transcript may purchase it from the reporter.

(C) Any respondent, at his own expense, may have a person approved by the department, prepare a transcript of the hearing, subject to any restrictions that the department is permitted by statute to impose to protect confidential information disclosed at the hearing. Whenever a transcript or audio or video recording of a hearing is made, it will be available at the department for use by the parties, but the original transcript or recording may not be withdrawn.

(D) The department shall retain the record of the evidentiary hearing for a minimum of one year from the date of the hearing, or until the completion of any court proceeding on the matter.

(xi) The presiding officer may grant continuances or recesses as necessary.

(xii) Order of presentation. Unless otherwise directed by the presiding officer at the hearing, the order of procedure and presentation of evidence will be as follows: (1) department; (2) respondent; (3) rebuttal by department.

(xiii) Time limits. The presiding officer may set reasonable time limits for the presentations described above.

(xiv) Continuances of the hearing. Any hearing may be continued to a time and date certain announced at the hearing, which shall not require any new notification. The continuance of the hearing may be made upon motion of a respondent or the department indicating good cause why a continuance is necessary. The continuance of the hearing may also be made upon the motion of the presiding officer when in the public interest.

(xv) Oral Argument and Briefs. Upon the conclusion of the taking of evidence, the presiding officer may, in his discretion, permit a respondent and the department to make oral arguments or submit additional briefs or memoranda upon a schedule to be designated by the presiding officer.

(d) Disposition.

(i) Presiding Officer's Order; Objections.

(A) Within a reasonable time after the close of the hearing, the presiding officer shall issue a signed order in writing that includes the following:

(I) the decision;

(II) the reasons for the decision;

(III) findings of facts;

(IV) conclusions of law;

(V) recommendations for final commission action;

(VI) notice that a respondent or the department having objections to the presiding officer's order may file written objections with the presiding officer within ten days of service of the order, setting forth the particulars in which the report is alleged to be unfair, inaccurate, incomplete, unreasonable, unlawful or not supported by the evidence.

(B) The order shall be based on the facts appearing in the department's files and on the facts presented in evidence at the informal hearing. Any finding of fact that was contested may not be based solely on hearsay evidence. The findings of fact shall be based upon a preponderance of the evidence. The order shall not recommend a penalty more severe than that sought in the notice of agency action, and in no event may it recommend administrative fines exceeding $3000, a suspension of the license, permit, or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval.

(C) A copy of the presiding officer's order shall be promptly mailed to the respondent and the department.

(D) The presiding officer shall wait ten days from service of his order for written objections, if any. The presiding officer may then amend or supplement his findings of fact, conclusions of law, and recommendations to reflect those objections which have merit or which are not disputed.

(E) Upon expiration of the time for filing written objections, the order of the presiding officer and any written objections timely filed, shall be submitted to the commission for final consideration.

(ii) Commission Action.

(A) Upon expiration of the time for filing objections, the order shall be placed on the next available agenda of a regular commission meeting for consideration by the commission. Copies of the order, together with any objections filed shall be forwarded to the commission, and the commission shall finally decide the matter on the basis of the order and any objections submitted.

(B) The commission shall be deemed a substitute presiding officer for this final stage of the informal adjudicative proceeding pursuant to Sections 63G-4-103(1)(h)(ii) and (iii). This stage is not considered a "review of an order by an agency or a superior agency" under Sections 63G-4-301 and -302.

(C) No additional evidence shall be presented to the commission. The commission may, in its discretion, permit the respondent and department to present oral presentations.

(D) After the commission has reached a final decision, it shall issue or cause to be issued a signed, written order pursuant to Section 32B-3-204(4) and, 63G-4-203(1)(i) containing:

(I) the decision;

(II) the reasons for the decision;

(III) findings of fact;

(IV) conclusions of law;

(V) action ordered by the commission and effective date of the action taken;

(VI) notice of the right to seek judicial review of the order within 30 days from the date of its issuance in the district court in accordance with Sections 63G-4-401, -402, -404, and -405 and 32B-3-207.

(E) The commission may adopt in whole or in part, any portion(s) of the initial presiding officer's order.

(F) The order shall be based on the facts appearing in the department's files and on the facts presented in evidence at the informal hearing.

(G) The order shall not impose a penalty more severe than that sought in the notice of agency action, and in no event may it impose administrative fines exceeding $3000, a suspension of the license, permit, or certificate of approval for more than ten days, or a revocation of the license, permit, or certificate of approval.

(H) The commission, after it has rendered its final decision and order, may direct the department director to prepare, issue, and cause to be served on the parties the final written order on behalf of the commission.

(I) A copy of the commission's order shall be promptly mailed to the parties.

(e) Judicial Review.

(i) Any petition for judicial review of the commission's final order must be filed within 30 days from the date the order is issued.

(ii) Appeals from informal adjudicative proceedings shall be to the district court in accordance with Sections 63G-4-402, -404, and -405, and 32B-3-207.

(4) The Formal Process.

(a) Conversion Procedures. If a presiding officer converts an informal adjudicative proceeding to a formal adjudicative proceeding pursuant to sections (2)(c)(iii) or (iv):

(i) the presiding officer shall notify the parties that the adjudicative proceeding is to be conducted formally according to the provisions of this rule and Sections 63G-4-204 to -209;

(ii) the case shall proceed without requiring the issuance of a new or amended notice of agency action;

(iii) the respondent shall be required to file a written response to the original notice of agency action within 30 days of the notice of the conversion of the adjudicative proceeding to

a formal proceeding, unless this requirement is waived by the department. Extensions of time to file a response are not favored, but may be granted by the presiding officer for good cause shown. Failure to file a timely response shall waive the respondent's right to contest the matters stated in the notice of agency action, and the presiding officer may enter an order of default and proceed to prepare and serve his final order pursuant to R81-1-7(4)(e). The response shall be signed by the respondent, or by an authorized agent or attorney of the respondent, and shall set forth in clear and concise terms:

(A) the case number assigned to the action;

(B) the name of the adjudicative proceeding, "DABC vs. ";

(C) the name of the respondent;

(D) whether the respondent admits, denies, or lacks sufficient knowledge to admit or deny each allegation stated in the notice of agency action, in which event the allegation shall be deemed denied;

(E) any facts in defense or mitigation of the alleged violation or possible penalty;

(F) a brief summary of any attached evidence. Any supporting documents, exhibits, signed statements, transcripts, etc., to be considered as evidence shall accompany the response;

(G) a statement of the relief the respondent seeks;

(H) a statement summarizing the reasons that the relief requested should be granted.

(iv) the presiding officer may permit or require pleadings in addition to the notice of agency action and the response. All additional pleadings shall be filed with the presiding officer, with copies sent by mail to each party.

(v) the presiding officer may, upon motion of the responsible party made at or before the hearing, allow any pleading to be amended or corrected. Defects which do not substantially prejudice any of the parties shall be disregarded;

(vi) Pleadings shall be signed by the party or the party's attorney and shall show the signer's address and telephone number. The signature shall be deemed to be a certification by the signer that he has read the pleading and that he has taken reasonable measures to assure its truth;

(b) Intervention.

(i) Any person not a party may file a signed, written petition to intervene in a formal adjudicative proceeding with the presiding officer. The person who wishes to intervene shall mail a copy of the petition to each party. The petition shall include:

(A) the agency's case number;

(B) a statement of facts demonstrating that the petitioner's legal rights or interests are substantially affected by the formal adjudicative proceedings or that the petitioner qualifies as an intervenor under any provision of law; and

(C) a statement of the relief that the petitioner seeks from the agency;

(ii) Response to Petition. Any party to a proceeding into which intervention is sought may make an oral or written response to the petition for intervention. The response shall state the basis for opposition to intervention and may suggest limitations to be placed upon the intervenor if intervention is granted. The response must be presented or filed at or before the hearing.

(iii) Granting of Petition. The presiding officer shall grant a petition for intervention if the presiding officer determines that:

(A) the petitioner's legal interests may be substantially affected by the formal adjudicative proceeding; and

(B) the interests of justice and the orderly and prompt conduct of the adjudicative proceedings will not be materially impaired by allowing the intervention.

(iv) Order Requirements.

(A) Any order granting or denying a petition to intervene shall be in writing and sent by mail to the petitioner and each party.

(B) An order permitting intervention may impose conditions on the intervenor's participation in the adjudicative proceeding that are necessary for a just, orderly, and prompt conduct of the adjudicative proceeding.

(C) The presiding officer may impose conditions at any time after the intervention.

(D) If it appears during the course of the proceeding that an intervenor has no direct or substantial interest in the proceeding and that the public interest does not require the intervenor's participation, the presiding officer may dismiss the intervenor from the proceeding.

(E) In the interest of expediting a hearing, the presiding officer may limit the extent of participation of an intervenor. Where two or more intervenors have substantially like interests and positions, the presiding officer may at any time during the hearing limit the number of intervenors who will be permitted to testify, cross-examine witnesses or make and argue motions and objections.

(c) Discovery and Subpoenas.

(i) Discovery. Upon the motion of a party and for good cause shown that it is to obtain relevant information necessary to support a claim or defense, the presiding officer may authorize the manner of discovery against another party or person, including the staff, as may be allowed by the Utah Rules of Civil Procedure.

(ii) Subpoenas. Subpoenas and orders to secure the attendance of witnesses or the production of evidence in formal adjudicative proceedings shall be issued by the presiding officer when requested by any party, or may be issued by the presiding officer on his own motion.

(d) The Formal Hearing.

(i) Notice. The presiding officer shall notify the parties in writing of the date, time, and place of the hearing at least ten days in advance of the hearing. The presiding officer's name, title, mailing address, and telephone number shall be provided to the parties. Continuances of scheduled hearings are not favored, but may be granted by the presiding officer for good cause shown. Failure to appear at the hearing after notice has been given shall be grounds for default and shall waive both the respondent's right to contest the allegations, and the respondent's right to the hearing. The presiding officer shall proceed to prepare and serve on respondent his order pursuant to R81-1-7(4)(e).

(ii) Public Hearing. The hearing shall be open to all parties. It shall also be open to the public, provided that the presiding officer may order the hearing closed upon a written finding that the public interest in an open hearing is clearly outweighed by factors enumerated in the closure order. The presiding officer may take appropriate measures necessary to preserve the integrity of the hearing.

(iii) Rights of Parties. The presiding officer shall regulate the course of the hearings to obtain full disclosure of relevant facts and to afford all the parties reasonable opportunity to present their positions, present evidence, argue, respond, conduct cross-examinations, and submit rebuttal evidence.

(iv) Public Participation. The presiding officer may give persons not a party to the adjudicative proceeding the opportunity to present oral or written statements at the hearing.

(v) Rules of Evidence. Technical rules of evidence shall not apply. Any reliable evidence may be admitted subject to the following guidelines. The presiding officer:

(A) may exclude evidence that is irrelevant, immaterial or unduly repetitious;

(B) shall exclude evidence privileged in the courts of Utah;

(C) shall recognize presumptions and inferences recognized by law;

(D) may receive documentary evidence in the form of a copy or excerpt if the copy or excerpt contains all the pertinent portions of the original document.

(E) may take official notice of any facts that could be judicially noticed under the Utah Rules of Evidence, of the record of other proceedings before the agency, and of technical or scientific facts within the agency's specialized knowledge;

(F) may not exclude evidence solely because it is hearsay; and

(G) may use his experience, technical competence, and specialized knowledge to evaluate the evidence.

(vi) Oath. All testimony presented at the hearing, if offered as evidence to be considered in reaching a decision on the merits, shall be given under oath.

(vii) Order of presentation. Unless otherwise directed by the presiding officer at the hearing, the order of procedure and presentation of evidence will be as follows: (1) agency; (2) respondent; (3) intervenors (if any); (4) rebuttal by agency.

(viii) Time limits. The presiding officer may set reasonable time limits for the presentations described above.

(ix) Continuances of the hearing. Any hearing may be continued to a time and date certain announced at the hearing, which shall not require any new notification. The continuance of the hearing may be made upon motion of a party indicating good cause why a continuance is necessary. The continuance of the hearing may also be made upon the motion of the presiding officer when in the public interest.

(x) Oral Argument and Briefs. Upon the conclusion of the taking of evidence, the presiding officer may, in his discretion, permit the parties to make oral arguments or submit additional briefs or memoranda upon a schedule to be designated by the presiding officer.

(xi) Record of Hearing. The presiding officer shall cause an official record of the hearing to be made, at the agency's expense, as follows:

(A) The record may be made by means of an audio or video recorder or other recording device at the department's expense.

(B) The record may also be made by means of a certified shorthand reporter employed by the department or by a party desiring to employ a certified shorthand reporter at its own cost in the event that the department chooses not to employ a reporter. If a party employs a certified shorthand reporter, the original transcript of the hearing shall be filed with the department. Those desiring a copy of the certified shorthand reporter's transcript may purchase it from the reporter.

(C) Any respondent, at his own expense, may have a person approved by the department prepare a transcript of the hearing, subject to any restrictions that the agency is permitted by statute to impose to protect confidential information disclosed at the hearing. Whenever a transcript or audio or video recording of a hearing is made, it will be available at the department for use by the parties, but the original transcript or recording may not be withdrawn.

(D) The department shall retain the record of the evidentiary hearing for a minimum of one year from the date of the hearing, or until the completion of any court proceeding on the matter.

(xii) Failure to appear. Inexcusable failure of the respondent to appear at a scheduled evidentiary hearing after receiving proper notice constitutes an admission of the charged violation. The validity of any hearing is not affected by the failure of any person to attend or remain in attendance pursuant to Section 32B-3-203(3)(b) and (c).

(e) Disposition.

(i) Presiding Officer's Order; Objections.

(A) Within a reasonable time of the close of the hearing, or after the filing of any post-hearing papers permitted by the presiding officer, the presiding officer shall sign and issue a written order that includes the following:

(I) the findings of fact based exclusively on evidence found in the record of the adjudicative proceedings, or facts officially noted. No finding of fact that was contested may be based solely on hearsay evidence. The findings of fact shall be based upon a preponderance of the evidence, except if the respondent fails to respond as per R81-1-7(4)(a)(iii), then the findings of fact shall adopt the allegations in the notice of agency action;

(II) conclusions of law;

(III) the decision;

(IV) the reasons for the decision;

(V) recommendations for final commission action. The order shall not recommend a penalty more severe than that sought in the notice of agency action;

(VI) notice that a respondent or the department having objections to the presiding officer's order may file written objections with the presiding officer within ten days of service of the order setting forth the particulars in which the report is alleged to be unfair, inaccurate, incomplete, unreasonable, unlawful, or not supported by the evidence.

(B) A copy of the presiding officer's order shall be promptly mailed to the parties.

(C) The presiding officer shall wait ten days from service of his order for written objections, if any. The presiding officer may then amend or supplement his findings of fact, conclusions of law, and recommendations to reflect those objections which have merit and which are not disputed.

(D) Upon expiration of the time for filing written objections, the order of the presiding officer and any written objections timely filed, shall be submitted to the commission for final consideration.

(ii) Commission Action.

(A) Upon expiration of the time for filing objections, the order shall be placed on the next available agenda of a regular commission meeting for consideration by the commission. Copies of the order, together with any objections filed by the respondent, shall be forwarded to the commission, and the commission shall finally decide the matter on the basis of the order and any objections submitted.

(B) The commission shall be deemed a substitute presiding officer for this final stage of the formal adjudicative proceeding pursuant to Sections 63G-4-103(1)(h)(ii) and (iii). This stage is not considered a "review of an order by an agency or a superior agency" under Sections 63G-4-301 and -302.

(C) No additional evidence shall be presented to the commission. The commission may, in its discretion, permit the parties to present oral presentations.

(D) After the commission has reached a final decision, it shall issue or cause to be issued a signed, written order pursuant to Section 32B-3-204(4) and 63G-4-208(1) that includes:

(I) findings of fact based exclusively on evidence found in the record of the adjudicative proceedings, or facts officially noted. No finding of fact that was contested may be based solely on hearsay evidence. The findings of fact shall be based upon a preponderance of the evidence, except if the respondent fails to respond as per R81-1-7(4)(a)(iii), then the findings of fact shall adopt the allegations in the notice of agency action and the respondent is considered in default;

(II) conclusions of law;

(III) the decision;

(IV) the reasons for the decision;

(V) action ordered by the commission and effective date of the action taken. The order shall not impose a penalty more severe than that sought in the notice of agency action;

(VI) notice of the right to file a written request for reconsideration within ten days of the service of the order;

(VII) notice of the right to seek judicial review of the order within thirty days of the date of its issuance in the court of

appeals in accordance with Sections 32B-3-207 and 63G-4-403, -404, -405.

(E) The commission may adopt in whole or in part, any portion(s) of the initial presiding officer's order.

(F) The commission may use its experience, technical competence and specialized knowledge to evaluate the evidence.

(G) The commission, after it has rendered its final decision and order, may direct the department director to prepare, issue, and cause to be served on the parties the final written order on behalf of the commission.

(H) A copy of the commission's order shall be promptly mailed to the parties.

(I) A respondent having objections to the order of the commission may file, within ten days of service of the order, a request for reconsideration with the commission, setting forth the particulars in which the order is unfair, unreasonable, unlawful, or not supported by the evidence. If the request is based upon newly discovered evidence, the petition shall be accompanied by a summary of the new evidence, with a statement of reasons why the respondent could not with reasonable diligence have discovered the evidence prior to the formal hearing, and why the evidence would affect the commission's order.

(J) The filing of a request for reconsideration is not a prerequisite for seeking judicial review of the commission's order.

(K) Within twenty days of the filing of a request for reconsideration, the commission may issue or cause to be issued a written order granting the request or denying the request in whole or in part. If the request is granted, it shall be limited to the matter specified in the order. Upon reconsideration, the commission may confirm its former order or vacate, change or modify the same in any particular, or may remand for further action. The final order shall have the same force and effect as the original order.

(L) If the commission does not issue an order within twenty days after the filing of the request, the request for reconsideration shall be considered denied.

(f) Judicial Review.

(i) Respondent may file a petition for judicial review of the commission's final order within 30 days from the date the order is issued.

(ii) Appeals from formal adjudicative proceedings shall be to the Utah Court of Appeals in accordance with Sections 63G-4-403, -404, and 405, and Section 32B-3-207.

R81-1-8. Consent Calendar Procedures.

(1) Authority. This rule is pursuant to the commission's authority to establish procedures for suspending or revoking permits, licenses, and package agencies under 32B-2-202(1)(c) and (e), and the commission's authority to adjudicate violations of Title 32B.

(2) Purpose. This rule establishes a consent calendar procedure for handling letters of admonishment issued and settlement agreements proposed pursuant to R81-1-7 that meet the following criteria:

(a) Uncontested letters of admonishment where no written objections have been received from the respondent; and

(b) Settlement agreements except those where the respondent is allowed to present further argument to the commission under the terms of the settlement agreement.

(3) Application of the Rule.

(a) A consent calendar may be utilized by the commission at their meetings to expedite the handling of letters of admonishment and settlement agreements that meet the criteria of Section (2).

(b) Consent calendar items shall be briefly summarized by department staff or the assistant attorney general assigned to the department. The summary shall describe the nature of the violations and the penalties sought.

(c)(i) The commission shall be furnished in advance of the meeting a copy of each letter of admonishment and settlement agreement on the consent calendar and any documents essential for the commission to make an informed decision on the matter.

(ii) If the case involves anything unusual or out of the ordinary, it shall be highlighted on the letter of admonishment or settlement agreement and shall be noted by the department staff person or assistant attorney general during the summary of the case.

(iii) Settlement agreements on the consent calendar shall include specific proposed dates for the suspension of any license or permit, and for payment of any fines or administrative costs.

(d) If the case involves a serious or grave violation as defined in R81-1-6, the licensee or permittee, absent good cause, shall be in attendance at the commission meeting. The licensee or permittee shall be present not to make a presentation, but to respond to any questions from the commission. Individual employees of a licensee or permittee are not required to be in attendance at the commission meeting.

(e) Any commissioner may have an item removed from the consent calendar if the commissioner feels that further inquiry is necessary before reaching a final decision. In the event a commissioner elects to remove an item from the consent calendar, and the licensee or permittee is not in attendance, the matter may be rescheduled for the next regular commission meeting. Otherwise, the action recommended by department staff or the assistant attorney general presenting the matter shall be approved by unanimous consent of the commission.

(f) All consent calendar items shall be approved in a single motion at the conclusion of the presentation of the summary.

(g) All fines and administrative costs shall be paid on or before the day of the commission meeting unless otherwise provided by order of the commission.

R81-1-9. Liquor Dispensing Systems.

A licensee may not install or use any system for the automated mixing or dispensing of spirituous liquor unless the dispensing system has been approved by the department.

(1) Minimum requirements. The department will only approve a dispensing system which:

(a) dispenses spirituous liquor in calibrated quantities not to exceed 1.5 ounces; and

(b) has a meter which counts the number of pours dispensed.

The margin of error of the system for a one ounce pour size cannot exceed 1/16 of an ounce or two milliliters.

(2) Types of systems. Dispensing systems may be of various types including: gun, stationary head, tower, insertable spout, ring activator or similar method.

(3) Method of approval.

(a) Suppliers. Companies which manufacture, distribute, sell, or supply dispensing systems must first have their product approved by the department prior to use by any liquor licensee in the state. They shall complete the "Supplier Application for Dispensing System Approval" form provided by the department, which includes: the name, model number, manufacturer and supplier of the product; the type and method of dispensing, calibrating, and metering; the degree or tolerance of error, and a verification of compliance with federal and state laws, rules, and regulations.

(b) Licensees. Before any dispensing system is put into use by a licensee, the licensee shall complete the "Licensee Application for Dispensing System Approval" form provided by the department. The department shall maintain a list of approved products and shall only authorize installation of a product previously approved by the department as provided in subsection (a). The licensee is thereafter responsible for verifying that the system, when initially installed, meets the

specifications which have been supplied to the department by the manufacturer. Once installed, the licensee shall maintain the dispensing system to ensure that it continues to meet the manufacturer's specifications. Failure to maintain the system may be grounds for suspension or revocation of the licensee's liquor license.

(c) Removal from approved list. In the event the system does not meet the specifications as represented by the manufacturer, the licensee shall immediately notify the department. The department shall investigate the situation to determine whether the product should be deleted from the approved list.

(4) Operational restrictions.

(a) The system must be calibrated to pour a quantity of spirituous liquor not to exceed 1.5 ounces.

(b) Voluntary consent is given that representatives of the department, State Bureau of Investigation, or any law enforcement officer shall have access to any system for inspection or testing purposes. A licensee shall furnish to the representatives, upon request, samples of the alcoholic products dispensed through any system for verification and analysis.

(c) Spirituous liquor bottles in use with a dispensing system at the dispensing location must be affixed to the dispensing system by the licensee. Spirituous liquor bottles in use with a remote dispensing system must be in a locked storage area. Any other primary spirituous liquor not in service must remain unopened. There shall be no opened primary spirituous liquor bottles at a dispensing location that are not affixed to an approved dispensing device.

(d) The dispensing system and spirituous liquor bottles attached to the system must be locked or secured in such a place and manner as to preclude the dispensing of spirituous liquor at times when liquor sales are not authorized by law.

(e) All dispensing systems and devices must

(i) avoid an in-series hookup which would permit the contents of liquor bottles to flow from bottle to bottle before reaching the dispensing spigot or nozzle;

(ii) not dispense from or utilize containers other than original liquor bottles; and

(iii) prohibit the intermixing of different kinds of products or brands in the liquor bottles from which they are being dispensed.

(f) Pursuant to federal law, all liquor dispensed through a dispensing system shall be from its original container, and there shall be no re-use or refilling of liquor bottles with any substance whatsoever. The commission adopts federal regulations 27 CFR 31.261-31.262 and 26 USC Section 5301 and incorporates them by reference.

(g) Each licensee shall keep daily records for each dispensing outlet as follows:

(i) a list of brands of liquor dispensed through the dispensing system;

(d) In convening the meeting and voting in the affirmative to hold such an emergency meeting, the commission shall affirmatively state and find what unforeseen circumstances have rendered it necessary for the commission to hold an emergency meeting to consider matters of an emergency or urgent nature such that the ordinary public notice of meetings provisions of Utah Code Section 52-4-6 could not be followed.

R81-1-20. Electronic Meetings.

At the commencement of the meeting, or at such time as any commissioner initially appears electronically or telephonically, the chair shall identify for the record all those who are appearing telephonically or electronically. Votes by members of the commission who are not at the physical location of the meeting shall be confirmed by the chair.

(e) The anchor location, unless otherwise designated in the notice, shall be at the offices of the Department of Alcoholic Beverage Control, 1625 South 900 West, Salt Lake City, Utah. The anchor location is the physical location from which the electronic meeting originates or from which the participants are connected. R81-1-21. Beer Advertising in Event Venues.

(1) Authority. This rule is pursuant to the commission's powers and duties as the plenary policymaking body on the subject of alcoholic beverage control under 32B-2-202, and its authority to establish guidelines for the advertising of alcoholic beverages under 32B-4-510.

(2) Purpose.

(a) This rule establishes a "safe harbor" from administrative action being taken against beer manufacturers and retailers under the circumstances and conditions below. This rule is necessary to allow certain advertising relations to occur even though they have the appearance of violating the "tied-house" provisions of 32B-4-703 to -705, but where the reasons and purposes for the "tied-house" provisions do not apply.

(b) "Tied-house" provisions have been enacted at both the federal and state level in response to historical forces and concerns. The thrust of the laws is to prevent two particular dangers: the ability and potential ability of large firms to dominate local markets through vertical and horizontal integration, and excessive sales of alcoholic beverages produced by overly aggressive marketing techniques. The principle method used to avoid these developments was the establishment of a triple-tiered distribution system and licensing scheme where separate and distinct business enterprises engaged in the production, handling, and final sale of alcoholic beverages. The laws also prohibited certain economic arrangements and agreements between each of the three tiers of the distribution system.

(c) Utah's "tied-house" and trade practice laws prohibit a beer industry member, directly or indirectly or through an affiliate, from inducing any beer retailer to purchase alcoholic beverages from the industry member to the exclusion in whole or in part of any of those products sold or offered for sale by other persons by furnishing the retailer signs, money or other things of value except to the extent allowed under 32B-4-703 to -705. The laws prohibit a beer industry member, directly or indirectly or through an affiliate, from paying or crediting a beer retailer for any advertising, display, or distribution service. 32B-4-704(4). This includes the purchase, by an industry member, of advertising on signs, scoreboards, programs, scorecards, and the like at ballparks, racetracks or stadiums, from the retail concessionaire. See 27 C.F.R. Sec. 6.53 as referenced in 32B-4-704(4)(a). The laws also prohibit an industry member from making payments for advertising to a retailer association or a display company where the resulting benefits flow to the individual retailers. 32B-4-704(3)(b)(i)(B).

(d) Throughout the state, there are a number of large facilities which put on or allow events to occur on their premises. This includes sports arenas, ballparks, raceways, fairgrounds, equestrian facilities and the like. These facilities have a recognized area of advertising for sale in connection with the events and which is standard for their events, e.g., fence signage at ballparks. Many of these facilities are or have associated with their on-premise beer retailer, either on an annual basis, or as a temporary event permit holder. The issue is thus raised as to the legality of the advertising of beer products as part of the general advertising where other items are advertised and the facility is or has within it an on-premise beer retailer.

(3) Application of the Rule. If the conditions listed below

are met, the reasons and purposes behind the "tied-house" provisions restricting relations between manufacturers and retailers do not apply or are not significantly impacted. In addition, an event facility may be unduly restricted in its ability to sell advertising and be competitive. This is based upon the facility's primary purpose being other than the sale of food and beverages, that advertising is a normal and accepted part of the business of the facility and the events that occur at the facility, that beer advertisers would be on equal footing with other advertisers, and that there is little, if any, likelihood of the purchasing of advertising space or time either having an impact on the beer retailing decisions of the retailer or of allowing the manufacturer to obtain or assert control over the retailer. Therefore, if the following conditions are met, the sale of advertising space or time to a beer manufacturer for display at the facility does not constitute the payment to a retailer for advertising, display or distribution service, and does not otherwise constitute the furnishing of any signs, money, or other things of value to a retailer in violation of the "tied-house" provisions of 32B-4-704:

(a) The primary purpose of the facility is the hosting or putting on events, and not the sale or service of food and beverages, including alcoholic beverages;

(b) The retail licensee operates with a fixed seating capacity of more than 2,000 persons;

(c) The advertising space or time is purchased only in connection with events to be held on the premises, and not as point-of-sale advertising. The advertising space or time is not located near the beer concession area and does not reference the on-premise retailer or the availability of beer;

(d) Sales of event advertising space or time and retail beer sales are handled by different entities or divisions, that are separate and do not influence each other, and no preference in terms of beer sales or facilities are extended to a beer advertiser;

(e) The retail licensee serves other brands of malt beverages or beer than the brand manufactured or sold by the manufacturer purchasing advertising space or time. Unless demonstrated for sound business reasons unrelated to "tied-house" laws, the percentage of taps in a facility may not exceed by 10% the actual percentage of sales, by brand, in that facility or the community in the previous year;

(f) The advertising space or time is available to all types of advertisers, is not limited to any type of product, such as beer, is pursuant to an established rate card that sets forth the advertising rates equally available to any other industry member or (and at rates substantially similar for any) non-industry advertiser, and the advertising agreement does not provide for an exclusive right to an advertiser or a right to exclude other advertisers;

(g) The industry member may not share in the costs or contribute to the costs of the advertising or promotion of the beer retailer or the facility, or obtain or have any interest in the retailer or the facility; and

(h) The purchase of advertising space or time is by written agreement, a copy of which shall be provided to the department as a confidential business document, non-public, and only to be used for enforcement purposes, and the term of the agreement may not be for a period in excess of three years, including any right of renewal.

(4) This "safe harbor" is limited to its express terms, does not undermine or infringe upon general "tied-house" prohibitions, and shall be strictly construed against its applicability. This "safe harbor" also does not limit or abrogate any exception to "tied-house" prohibitions.

R81-1-22. Diplomatic Embassy Shipments and Purchases.

(1) Purpose. The Vienna Conventions on Diplomatic and Consular Relations grant foreign diplomatic missions certain exemptions from federal, state and local taxes. The United States, by treaty, is a party to the Vienna Conventions, and is obligated under international law to grant these exemptions under these agreements to accredited diplomatic missions of those countries that grant the United States reciprocal privileges. These privileges include the purchase of alcoholic beverages duty and tax free subject to certain exceptions such as indirect taxes normally incorporated in the price of goods or services, and charges levied for specific services rendered to benefit the mission.

This rule establishes department guidelines for shipments and purchases of alcohol by a foreign diplomatic mission with an accredited embassy having full diplomatic privileges under the Vienna Conventions that establishes an embassy presence in the state of Utah (hereafter "accredited foreign diplomatic mission").

(2) Application of Rule.

(a) Shipments. An accredited foreign diplomatic mission that establishes an embassy presence in Utah may have or possess, for official diplomatic use, and not for sale or resale, alcoholic beverages that have not been purchased in the state of Utah. Such products may be shipped or transported into the state of Utah under the following conditions:

(i) The embassy must first obtain the approval of this department prior to shipping or transporting its alcoholic beverages into the state.

(ii) Alcoholic beverages shipped or transported into the state must clear U.S. Customs duty free.

(iv) The embassy shall pay the department an administrative handling fee of $1.00 per smallest unit (bottle, can, or keg). Payment of handling fees shall be made by the embassy using an official embassy check or embassy credit card.

(v) The alcoholic beverages may be used by the embassy only for official diplomatic functions, and may not be sold or resold.

(b) Purchases.

(i) Special Orders. An accredited foreign diplomatic mission that establishes an embassy presence in Utah may special order from the department alcoholic beverage products not presently sold in the state of Utah under the following procedures:

(A) The company or importer supplying the product must submit a price quotation to the department indicating the case price (in US dollars) for which it will sell the product to the state.

(B) The quoted case price must be reasonable (a minimum of $10.00 per case).

(C) The product will be marked up using the department's standard pricing formula (less the state sales tax).

(D) Special orders must be placed by the embassy at least two months in advance to allow the department sufficient time to purchase and receive the product for the embassy.

(E) The product must be paid for by the embassy using an official embassy check or embassy credit card.

(F) The product may be used by the embassy only for official diplomatic functions, and may not be sold or resold.

(ii) Presently Available Merchandise. An accredited foreign diplomatic mission that establishes an embassy presence in Utah may purchase alcoholic beverages that are presently sold in the state of Utah under the following procedures:

(A) Alcoholic beverage product purchases, other than large quantity purchases, may be made by the embassy at any state store. The store shall deduct state sales tax from the purchase price.

(B) Large quantity purchase orders must be placed by the embassy at the department's licensee warehouse. The warehouse shall deduct state sales tax from the purchase price.

(C) The products must be paid for by the embassy using an official embassy check or embassy credit card.

(D) The product may be used by the embassy only for

official diplomatic functions, and may not be sold or resold.

R81-1-23. Sales Restrictions on Products of Limited Availability.

(1) Purpose. Some alcoholic beverage products, especially wines, are of very limited availability from their manufacturers and suppliers to retailers including the department. When the department perceives that customer demand for these limited products may exceed the department's current and future stock levels, the department, as a public agency, may place restrictions on their sales to ensure their fair distribution to all consumers. This also encourages manufacturers and suppliers to continue to provide their products to the department. This rule establishes the procedure for allocating products of limited availability.

(2) Application of Rule.

(a) The purchasing and wine divisions of the department shall identify those products that are of limited availability and designate them as "Limited /Allocated Status" ("L Status") items. The products shall be given a special "L Status" product code designation.

(b) "L Status" products on the department's price list, in stock, or on order, do not have to be sold on demand. Their sales to the general public and to licensees and permittees may be restricted. The purchasing and wine divisions of the department may issue system-wide restrictions directing the allocation of such products which may include placing limits on the number of bottles sold per customer.

(c) Signs noting this rule shall be posted in state stores and package agencies that carry "L Status" products.

(g) The department, at the request of a licensed business, may provide assistance in the preparation of a Plan.

(ii) a patron to be on the stage or in the performance area while a sexually-oriented entertainer is appearing or performing on the stage or in the performance area; and

(c) 32B-1-301 to -307 that allow for the department to require criminal history background check reports on certain individuals.

(2) Purpose. This rule:

(a) establishes the circumstances under which a person identified in the statutory sections enumerated in Subparagraph (1)(b), must provide the department with a criminal history background report that shows the person meets the qualifications of those statutory sections as a condition of employment with the department, or as a condition of the commission granting a license, permit, or package agency to an applicant for a license, permit, or package agency; and

(b) establishes the procedures for the filing and processing of criminal history background reports.

(3) Application of Rule.

(a)(i) Except to the extent provided in Subparagraphs (3)(a)(iv), (v), (vi), and (vii) a person identified in Subparagraph (1)(b) who has been a resident of the state of Utah for at least two years, shall submit a fingerprint card to the department, and consent to a fingerprint criminal background check by Utah Bureau of Criminal Identification, Department of Public Safety (hereafter "B.C.I.").

(v) the applicant stipulates in writing that if a B.C.I. or an F.B.I. report shows a criminal conviction that would disqualify the applicant from holding the license, permit, or package agency, the applicant shall immediately surrender the license, permit, or package agency to the department.

(c) The commission may issue a license, permit, or package agency to an applicant that has met the requirements of Subparagraph (3)(b), and the license, permit, or package agency shall be valid during the period the B.C.I. or F.B.I. is processing the criminal history report(s).

(d) The department shall use a unique file tracking system for such licenses, permits, and package agencies.

(f) Upon the department's receipt of the B.C.I. or F.B.I. report(s):

(i) if there is no disqualifying criminal history, the license, permit, or package agency shall continue for the balance the license or permit period, or the package agency contract period; or

(ii) if there is a disqualifying criminal history, the license, permit, or package agency shall be immediately surrendered, and the commission may enter an order accepting the surrender, or an order revoking the license, permit, or package agency depending on the circumstances.

(g) In the case of a license or permit, if the statutory deadline for renewing the license or permit occurs before receipt of the B.C.I. or F.B.I. report(s), the licensee or permittee may file for renewal of the license or permit subject to meeting all of the requirements in Subparagraphs (3)(b) through (f).

(h) An applicant for employment with benefits with the department that requires a B.C.I. or an F.B.I. criminal history background report may be conditionally hired by the department prior to receipt of the report if:

(i) the applicant attests in writing that he or she is not aware of any criminal conviction that would disqualify the applicant from employment with the department;

(ii) the applicant has submitted to the department the necessary fingerprint card(s) required for the application, and consented to the fingerprint criminal background check(s) by the B.C.I. or F.B.I.;

(iii) the applicant stipulates in writing that if a B.C.I. or an F.B.I. report shows a criminal conviction that would disqualify the applicant from employment with the department, the applicant shall terminate his or her employment with the department.

R81-1-27. Label Approvals.

(1) Authority. This rule is pursuant to 32B-1-606(2)(c) and (d) and 32B-1-607 which give the commission the authority to adopt rules necessary to fully implement certain aspects of the Malted Beverages Act, 32A-1-801 to -809.

(2) Purpose.

(a) Pursuant to 32B-1-604, a manufacturer may not distribute or sell in this state any malted beverage including beer, heavy beer, and flavored malt beverage unless the label and packaging of the beverage has been first approved by the department.

(b) The requirements and procedures for applying for label and packaging approval are set forth in 32B-1-604 to -606.

(c) This rule:

(i) establishes administrative fees that may be assessed by the department to process applications for the approval of malt beverage labels and packaging;

(ii) provides supplemental procedures for applying for and processing label and package approvals;

(iii) defines the meaning of certain terms in the Malted Beverages Act; and

(iv) establishes the format of certain words and phrases required on the containers and packaging of certain flavored malt beverages.

(3) Application of Rule.

(a) The department shall assess a fee of $30.00 made payable to the "Department of Alcoholic Beverage Control" for each application submitted for label and packaging approval.

(b) A complete set of original labels for each size of container must accompany each application for label and packaging approval.

(i) This includes all band, strip, front and back labels appearing on any individual container.

(ii) Original containers will not be accepted.

(iii) If original labels cannot be obtained, the following will be accepted:

(A) color reproductions that are exact size; or

(B) a copy of the federal certificate of label approval (COLA) from the Department of Treasury, Tax and Trade Bureau (Form TTB F5100.31) with the exact size label if printed in color.

(c) Because a heavy beer and flavored malt beverage product may be sold only by the department to consumers and on-premise retailers in this state, label approval for a heavy beer or flavored malt beverage need not be applied for until the department has decided to list the product for sale in this state. Any listing will be contingent on label and packaging approval.

(d) An application for approval is required for any revision of a previously approved label.

(e) An application for approval is required for any revision to packaging that significantly modifies the notice that the product is an alcoholic beverage.

(f) An application for approval is not required for any revision to packaging that relates to subject matter other than the required notice that the product is an alcoholic beverage such as temporary seasonal or promotional themes.

(g) Pursuant to 32B-1-605(6):

(i) the department may revoke any label and packaging that does not comply with the label and packaging requirements of the Malted Beverage Act;

(ii) the department may delist any heavy beer or flavored malt beverage product listed by the department prior to October 1, 2008, that does not meet the label and packaging requirements of the Malted Beverage Act;

(iii) any heavy beer or flavored malt beverage product listed by the department prior to October 1, 2008, that did not receive prior label and packaging approval need not submit an application for label and packaging approval if the label and packaging meet the requirements of the Malted Beverage Act.

(h) Pursuant to 32B-1-606, a flavored malt beverage that is packaged in a manner that is similar to a label or package used for a nonalcoholic beverage must bear a prominently displayed label or a firmly affixed sticker on the container that includes the statement "alcoholic beverage" or "contains alcohol". Any packaging of a flavored malt beverage must also prominently include, either imprinted on the packaging or imprinted on a sticker firmly affixed to the packaging the statement "alcoholic beverage" or "contains alcohol". The words in the statement must appear:

(i) in capital letters and bold type;

(ii) in a solid contrasting background;

(iii) on the front of the container and packaging;

(iv) in a format that is readily legible;

(v) separate and apart from any descriptive or explanatory information; and

(vi) in a type size no smaller than 3 millimeters wide and 3 millimeters high.

(i) Pursuant to 32B-1-606, the label on a flavored malt beverage container shall state the alcohol content as a percentage of alcohol by volume or by weight. The alcohol content statement may not be abbreviated, but shall use the complete words "alcohol," "volume," or "weight". The words in the alcohol content statement must appear:

(i) in capital letters and bold type;

(ii) in a solid contrasting background;

(iii) in a format that is readily legible; and

(iv) separate and apart from any descriptive or explanatory information.

R81-1-28. Special Commission Meetings - Fees.

(1) Authority. This rule is pursuant to 32B-2-201(10) that gives the commission authority to hold special commission meetings; and 32B-2-202(1)that gives the commission authority to establish procedures for granting and denying permits and to prescribe fees payable for permits.

(2) Purpose. This rule authorizes the commission to assess an administrative fee in addition to the regular permit fee to cover the additional administrative costs of convening a special commission meeting to consider the application of an applicant for a single event permit or temporary special event beer permit who failed to timely submit the permit application to be considered at the commission's regularly scheduled monthly meeting.

(3) Application of Rule.

(a) If the commission agrees to convene a special commission meeting to accommodate an applicant described in Section (2), the commission shall assess an administrative fee of $350 in addition to the regular permit fee.

(i) department costs associated with scheduling, arranging, and providing notice of the special meeting;

(ii) department costs associated with any emergency or electronic meeting held pursuant to R81-1-19 and -20;

R81-1-29. Factors for Granting Licenses.

(1) Definition. For purposes of this rule, "license" includes a license, permit, certificate of approval, and package agency.

(2) Authority. This rule is pursuant to 32B-2-202(1)(c)which gives the commission the authority to set policy by written rules that establish criteria and procedures for granting a license. It is also based on 32B-5-203(2)(f) that gives the commission the authority to consider non-statutory factors or circumstances the commission considers necessary in granting a license.

(3) Purpose. This rule provides a list of non-statutory factors the commission considers in granting a license.

(4) Application of Rule. In addition to any statutory factor for granting a license, the commission also may consider the following non-statutory factors:

(a) availability of retail licenses under a quota;

(b) length of time the applicant has waited for a retail license;

(c) the scheduled opening date;

(d) whether the applicant is a seasonal business;

(e) whether the location has been previously licensed or is a new location;

(f) whether the application involves a change of ownership of an existing location;

(g) whether the applicant holds other alcohol licenses at this or other locations;

(h) whether the applicant has a violation history or a pending violation;

(i) projected alcohol sales as it relates to the extent to which the retail alcohol license will be utilized;

(j) whether the applicant is a small or entrepreneurial business that would benefit the community in which it would be located;

(k) nature of entertainment the applicant proposes; and

(l) public input in support or opposition to granting the retail license.

R81-1-30. Draft Beer Sales/Minors on Premises.

A state license that authorizes the sale of beer on the premises also authorizes the licensee to sell beer on draft regardless of the nature of the business (e.g. cafe, restaurant,

pizza parlor, bowling alley, golf course clubhouse, club, tavern, etc.). Minors may not be precluded from establishments based upon whether draft beer is sold. However, minors may not be employed by or be on the premises of any establishment or portion of an establishment which is a "tavern" as defined in Section 32B-1-102(112). This does not preclude local authorities and licensees from excluding minors from premises or portions of premises which have the atmosphere or appearance of a "tavern" as so defined.

(ii) Returns should be made within a reasonable amount of time from the date of purchase, and all returned merchandise must be in good condition. Returns of $50.00 or more shall not be accepted without a receipt. Therefore, it is necessary for cashiers to print a receipt for all purchases of $50.00 or more. Signs should be posted at each cash register informing customers of this requirement. Merchandise shall be refunded at the price paid by the customer, or the current price, whichever is lower.

(iv) If the total amount of the return is more than $500 the store manager shall fill out a A Returned Merchandise Acknowledgment Receipt@ (LQ-45), and submit a copy to the office. A refund check will be processed at the office and mailed to the customer. Customers need to be informed that it generally takes three to six weeks to process payment.

(e) Further identification is not required.

(f) The department may place a maximum limit on the total dollar amount in checks a business or company may tender to the department in a 24 hour period.

(a) Traveler's checks shall be in "US Dollars".

(b) Each traveler's check shall have been previously signed by the holder of the check at the issuing bank or company. The check shall then be signed a second time in front of the DABC store employee that is handling the sale. The store employee shall compare the two signatures to verify that the signatures match, and shall otherwise examine the check to verify its validity.

(c) Traveler's checks shall be made out to the Department of Alcoholic Beverage Control or "D.A.B.C."

(d) When accepting a traveler's check for $50.00 or more, the store employee shall:

R81-2-9. Accepting Credit Cards as Payment for Liquor.

(1) Purpose. This rule explains the procedures to be followed by state liquor store employees in accepting credit cards for the purchase of alcoholic beverages.

(2) Application of Rule.

(b) The cashier shall examine the security features on the card such as signature, account number, expiration date, and hologram before accepting the card.

(c) The card must be signed by the card holder.

(d) If for any reason the credit card cannot be scanned, the cashier shall hand-key the credit card number into the cash register keyboard. If the transaction is approved, the cashier shall imprint a copy of the credit card, and have the card holder sign it.

(e) After the cashier scans or hand-keys a credit card, the credit card company may approve or reject the transaction. A rejection may indicate that the card has been stolen, the customer's account is over-drawn, the card has expired, or some other problem. The cashier may receive several messages from the credit card company.

(i) If the message is "decline" or "card not accepted", the cashier should return the card to the customer, suggest another form of payment, and suggest that the customer contact the

issuer of the card.

(ii) If the message is "call" or "call hold", the store employee should hold the card and either phone the credit card company's voice authorization center for more information, or enter a "code 10" request. The voice authorization center may instruct that the card be confiscated. The card should then be obtained only if it can be done by peaceful means, and if the card holder voluntarily agrees to surrender the card. The "code 10" request will result in the credit card company researching the status of the card and approving the transaction with a "yes" or rejecting the transaction with a "no" prompt. At no time should store employees put themselves at risk by confiscating a credit card against the desires of the cardholder. If the card can be willingly surrendered and confiscated, the store employee should destroy the card by cutting it in half lengthwise shortly after leaving the customer's presence. The card pieces should then be sent to the card owner's bank with a completed ABC Department LQ-55 form having been filled out by a store employee.

(f) Credit card receipts contain confidential information that must be safeguarded. Cashiers should not throw the receipts in the trash. State store managers and their employees should consult their regional manager concerning proper storage and disposal of receipts.

(g) Refunds, or exchanges of products of unequal value that were purchased with a credit card, shall be handled by crediting the customer's credit card account. The cash register must be balanced by doing a return at the register.

(h) Licensee purchases may not be paid by credit card. Licensee purchases may be only in cash or by check.

R81-2-10. State Store Hours.

(b) on any other day before 10 a.m. or later than 10 p.m.

R81-2-11. Industry Members in State Stores.

An industry member, as defined in 32B-4-702, shall be limited to the customer areas of a state store except as follows:

(1) An industry member may be allowed in the storage area of a state store with the approval of the store manager for the limited purpose of stocking the industry member's own products; and

(b) Type 3 package agencies may operate from 10:00 a.m. until 10:00 p.m., Monday through Saturday, but may remain closed on Mondays in the discretion of the package agent. However, the actual operating hours may be less in the discretion of the package agent with the approval of the department, provided the agency operates at least seven hours a day.

(A) a package agency located in certain licensed wineries, breweries, and distilleries; and

(B) a package agency held by a resort that is licensed under 32B-8 that does not sell liquor in a manner similar to a state store which is limited to a Type 4 package agency.

(ii) If a legal holiday falls on a Sunday, the following Monday will be observed as the holiday by a Type 2 and 3 package agency.

(2) Size of Outlet. The retail selling space devoted to liquor sales in a type 2 or 3 package agency must be at least one hundred square feet.

R81-3-14. Type 5 Package Agencies.

(1) Purpose. A type 5 package agency is for the limited purpose of allowing a winery, distillery, or brewery to sell at its manufacturing location the packaged liquor product it actually produces to the general public for off-premise consumption. This rule establishes guidelines and procedures for type 5 package agencies.

(2) Application of Rule.

(a) The package agency must be located on the winery, distillery, or brewery premises at a location approved by the commission.

(b) The package agency may only sell products produced at the winery, distillery, or brewery, and may not carry the products of other alcoholic beverage manufacturers.

(c) The product produced by the winery, distillery, or brewery and sold in the type 5 package agency need not be shipped from the winery, distillery, or brewery to the department warehouse and then back to the package agency. The bottles for sale may be moved directly from the manufacturer's storage area to the package agency provided that proper record-keeping is maintained on forms provided by the department. Records required by the department shall be kept current and available to the department for auditing purposes. Records must be maintained for at least three years. The package agency shall submit to the department a completed monthly sales report form which specifies the variety and number of bottles sold from the package agency. This report must be submitted to the department within the first five working days of the month. A club or restaurant purchases form must be filled out for every licensee purchase.

The employee may also detain the person and hold the person's form of identification in a reasonable manner and for a reasonable length of time for the purpose of informing a peace officer of a suspected violation.

R81-3-16. Minors on Premises.

No person under the age of 21 years may enter a package agency unless accompanied by a parent, legal guardian, or spouse that is 21 years of age or older. Signs notifying the public of this rule shall be posted in a prominent place on the doors or windows of the package agency.

R81-3-17. Consignment Inventory Package Agencies.

(1) Purpose. At the discretion of the department, liquor may be provided by the department to a Type 2 and Type 3 package agency for sale on consignment pursuant to 32B-2-605(5). This rule provides the procedures for such consignment sales.

(2) Application of the Rule.

(a) Consignment Inventory.

(i) The initial amount of consignment inventory furnished to the package agency shall be established by the department's audit manager.

(ii) The consignment inventory amount shall be posted to the department's accounting system as "Consignment Inventory Account."

(iii) The consignment inventory amount shall be stated in the department's contract with the package agency.

(iv) Any adjustment to the consignment inventory amount shall be done through the use of a transfer, shipment, or payment of money. A copy of the transfer, adjusting shipment, or evidence of payment shall be included in the package agency's file.

(v) The consignment inventory amount may be adjusted from time to time based on the package agency's monthly average sales. Any adjustment shall be made by a properly executed amendment to the department's contract with the package agency.

(b) Payments.

(i) All agencies receiving shipments or transfers are required to have an ACH (Automated Clearing House) payment system set up with the department.

(ii) Statements showing all unpaid debts and unapplied credits will be generated and mailed to the agencies on the 20th or the next available working day of each month. It is the agent's responsibility to review the statement and contact the department with any discrepancies prior to due date of payment.

(iii) Agents will remit payment to the department on the 19th or next available working day of the following month after the last statement was generated. Payment will be for the statement total. Payment will be automatically drawn through the ACH process on the due date unless prior arrangements have been made between the agent and the department.

(iv) Insufficient funds, returned checks, and unpaid balances from a previous statement are all past due. The department may assess the legal rate of interest on the amount owed. Also, the package agency may be referred to the commission for possible termination of the contract and closure.

(v) All delivery discrepancies shall be resolved through the use of the LQ9 form. Debits or credits shall be issued based on proper completion and submission of the LQ9 form to the department. Payment shall be made in accordance with the agency's statement by the due date whether or not any discrepancies have been resolved.

(c) Transfers.

(i) Transfers (+ or -) shall be adjusted to the package agency's next payment due the department.

(ii) Transfer in will add to the amount owed to the department on the next check due to the department.

(iii) Transfer out will subtract from the amount owed to the department on the next check due to the department.

(d) Credit and Debit Card Credits.

(i) Credit for credit and debit cards processed at the agency will be posted to the agency's statement.

(ii) It is the agent's responsibility to mail in their settlement report and individual receipts to the department in order to receive credit.

(e) Audits.

(i) Any package agency that is on a consignment contract shall keep a daily log of sales.

(ii) The auditing division shall audit the package agency at least twice each fiscal year.

(iii) The package agency is subject to a department audit at any time.

R81-3-18. Type 4 Package Agency Room Service - Mini-Bottle/187 ml Wine Sales.

(1) Purpose. Pursuant to 32B-2-303, the department may not purchase or stock alcoholic beverages in containers smaller than 200 milliliters. except as otherwise allowed by the commission. The commission hereby allows the limited use of 50 milliliter "mini-bottles" of distilled spirits and 187 milliliter bottles of wine as one form of room service sales by Type 4 package agencies located in hotels and resorts. The following conditions are imposed to ensure that these smaller bottle sales are limited to patrons of sleeping rooms, and are not offered to the general public.

(2) Application of Rule.

(a) The department will not maintain a regular inventory of distilled spirits and wine in the smaller bottle sizes, but will accept special orders for these products from a Type 4 package agency. Special orders may be placed with the department's purchasing division, any state store, or any Type 2 or 3 package agency.

(b) The Type 4 package agency must order in full case lots, and all sales are final.

(c) If the hotel/resort has a Type 1 package agency with Type 4 privileges, the smaller bottle sized products must be stored in a secure area separate from the Type 1 agency inventory.

(d) Sale and use of alcohol in the smaller bottle sizes is restricted to providing one form of room service to guests in sleeping rooms in the hotel/resort, and may not be used for other purposes, or be sold to the general public.

(e) Failure of the Type 4 package agency to strictly adhere to the provisions of this rule is grounds for the department to terminate its contract with the Type 4 package agency.

R81-3-19. Credit Cards.

(1) Purpose. This rule explains the procedures to be followed by consignment package agents in accepting credit cards for the purchase of alcoholic beverages.

(2) Application of Rule.

(a) Licensee purchases may not be paid by credit card. The department will accept only checks and cash from licensees.

(b) Refunds, or exchanges of products of unequal value, will be handled by crediting the customer's credit card account. The cash register must be balanced by doing a return at the register.

(c) The cashier, when applicable, shall examine the security features of the card such as signatures, account numbers, expiration date, hologram, etc., before accepting any card.

(d) No sale may be made without the credit card. Merely having the credit card number available is not acceptable.

(e) All credit cards must be signed by the card holder.

(f) Customers may not use another person's credit card, including their spouse's card.

(g) Credit card receipts contain confidential information that needs to be safeguarded. Cashiers should not throw them in the trash. Consignment package agents and their employees should consult their audit manager concerning proper storage and disposal of such receipts. Package agents will mail all receipts to the department on a weekly basis for long term storage.

(h) If for any reason the credit card cannot be scanned, the credit card number should be hand keyed into the credit card machine keyboard. Validate the card with an ID and have the customer sign the printout or electronic pad.

(2) When an entire room or area within the restaurant such as a private banquet room is closed to the general public for the private event, and members of the private group are restricted to that area, and are not allowed to co-mingle with public patrons of the restaurant.

R81-4A-15. Grandfathered Bar Structures.

(1) Authority and Purpose.

(a) This rule is pursuant to 32B-6-202 which provides that:

(i) a bar structure, as defined in 32B-1-102(7), located in a currently licensed restaurant as of May 11, 2009, may be "grandfathered" to allow alcoholic beverages to continue to be stored or dispensed at the bar structure, and in some instances to be served to an adult patron seated at the bar structure;

(ii) a bar structure in a restaurant that is not operational as of May 12, 2009, may be similarly "grandfathered" if, as of May 12, 2009:

(A) a person has applied for a restaurant license from the commission;

(B) the person is "actively engaged in the construction of the restaurant" as defined by commission rule; and

(C) the person is granted a restaurant liquor license by the commission no later than December 31, 2009.

(b) This rule is also pursuant to 32B-6-202 which provides that:

(ii) the commission shall define by rule what is meant by "remodels the grandfathered bar structure".

(2) Application of Rule.

(i) the grandfathered bar structure has been altered or reconfigured to:

(A) extend the length of the existing structure to increase its seating capacity; or

(B) increase the visibility of the storage or dispensing area to restaurant patrons.

(ii) preclude locating coolers, sinks, plumbing, cooling or electrical equipment to an existing structure; or

(iii) preclude utilizing existing space at the existing bar structure to add additional seating.

(d) Pursuant to 32B-5-303(3), the licensee must first apply for and receive approval from the department for a change of location where alcohol is stored, served, and sold other than what was originally designated in the licensee's application for the license. Thus, any modification of the alcoholic beverage storage and dispensing area at a "grandfathered bar structure" must first be reviewed and approved by the department to determine whether it is:

(i) an acceptable use of an existing bar structure; or

(ii) a remodel of a "grandfathered bar structure".

(1) When the entire limited restaurant is closed to the general public for the private event, or

(2) When an entire room or area within the limited restaurant such as a private banquet room is closed to the general public for the private event, and members of the private group are restricted to that area, and are not allowed to co-mingle with public patrons of the restaurant.

R81-4C-14. Grandfathered Bar Structures.

(1) Authority and Purpose.

(a) This rule is pursuant to 32B-6-302 which provides that:

(i) a bar structure, as defined in 32B-1-102(7), located in a currently licensed limited restaurant as of May 11, 2009, may be "grandfathered" to allow alcoholic beverages to continue to be stored or dispensed at the bar structure, and in some instances to be served to an adult patron seated at the bar structure;

(ii) a bar structure in a limited restaurant that is not operational as of May 12, 2009, may be similarly "grandfathered" if, as of May 12, 2009:

(A) a person has applied for a limited restaurant license from the commission;

(B) the person is "actively engaged in the construction of the restaurant" as defined by commission rule; and

(C) the person is granted a limited restaurant liquor license by the commission no later than December 31, 2009.

(b) This rule is also pursuant to 32B-6-302 which provides that:

(i) a "grandfathered bar structure" is no longer "grandfathered" once the limited restaurant "remodels the grandfathered bar structure"; and

(ii) the commission shall define by rule what is meant by "remodels the grandfathered bar structure".

(2) Application of Rule.

(a) "Actively engaged in the construction of the restaurant" for purposes of 32B-6-302(1)(a)(ii)(A)(I) means that:

(i) a building permit has been obtained to build the restaurant; and

(ii) a construction contract has been executed and the contract includes an estimated date that the restaurant will be completed; or

(iii) work has commenced by the applicant on the construction of the restaurant and a good faith effort is made to complete the construction in a timely manner.

(b) "remodels the grandfathered bar structure" for purposes of 32B-6-302(1)(b)means that:

(i) the grandfathered bar structure has been altered or reconfigured to:

(A) extend the length of the existing structure to increase its seating capacity; or

(B) increase the visibility of the storage or dispensing area to restaurant patrons.

(c) "remodels the grandfathered bar structure" does not:

(i) preclude making cosmetic changes or enhancements to the existing structure such as painting, staining, tiling, or otherwise refinishing the bar structure;

(ii) preclude locating coolers, sinks, plumbing, cooling or electrical equipment to an existing structure; or

(iii) preclude utilizing existing space at the existing bar structure to add additional seating.

(d) Pursuant to 32B-5-303(3), the licensee must first apply for and receive approval from the department for a change of location where alcohol is stored, served, and sold other than what was originally designated in the licensee's application for the license. Thus, any modification of the alcoholic beverage storage and dispensing area at a "grandfathered bar structure" must first be reviewed and approved by the department to determine whether it is:

(i) an acceptable use of an existing bar structure; or

(ii) a remodel of a "grandfathered bar structure".

The following conditions are imposed to ensure that these smaller bottle sales are limited to patrons of sleeping rooms, and are not offered to the general public.

(2) Application of Rule.

(a) The department will not maintain a regular inventory of distilled spirits and wine in the smaller bottle sizes, but will accept special orders for these products from an on-premise banquet licensee. (b) The on-premise banquet licensee must order in full case lots, and all sales are final.

(e) The department shall retain a copy of each report until the end of each reporting quarter.

(f) Because any report filed under this rule contains commercial information, the disclosure of which could reasonably be expected to result in unfair competitive injury to the licensee or sublicensee submitting the information, and the licensee or sublicensee submitting the information has a greater interest in prohibiting access than the public in obtaining access to the report:

(i) any report filed shall be deemed to include a claim of business confidentiality, and a request that the report be classified as protected pursuant to 63G-2-305 and -309;

R81. Alcoholic Beverage Control, Administration.
R81-5. Club Licenses.
R81-5-1. Licensing.

(1) Club liquor licenses are issued to persons as defined in Section 32B-1-102(74). Any contemplated action or transaction that may alter the organizational structure or ownership interest of the person to whom the license is issued must be submitted to the department for approval prior to consummation of any such action to ensure there is no violation of Sections 32B-5-310.

(2)(a) At the time the commission grants a club license the commission must designate whether the club qualifies to operate as an equity, fraternal, dining, or social club based on criteria in 32B-6-404.

(b) After any club license is granted, a club may request that the commission approve a change in the club's classification in writing supported by evidence to establish that the club qualifies to operate under the new class designation based on the criteria in 32B-6-404.

(c) The department shall conduct an investigation for the purpose of gathering information and making a recommendation to the commission as to whether or not the request should be granted. The information shall be forwarded to the commission to aid in its determination.

(d) If the commission determines that the club has provided credible evidence to establish that it meets the statutory criteria to operate under the new class designation, the commission shall approve the request.

(e)(i) Pursuant to 32B-6-409, a dining club licensee may convert its dining club license to a different type of retail license for which the dining club licensee qualifies. However, the conversion must occur between July 1, 2011 and June 30, 2013.

(ii) The dining club licensee shall request the conversion in writing supported by evidence to establish that the club qualifies to operate under the new retail license based on the statutory criteria for that type of license.

(iii) The department shall conduct an investigation for the purpose of gathering information and making a recommendation to the commission as to whether or not the request should be granted. The information shall be forwarded to the commission to aid in its determination.

(iv) If the commission determines that the club has provided credible evidence to establish that it meets the statutory criteria to operate under the new retail license, the commission shall approve the request.

(v) After the conversion, the licensee must then operate under the provisions relevant to the type of retail license to which the club converted. If the dining club is converted to a full-service restaurant, limited-service restaurant, or beer-only restaurant, the bar structure of the dining club is considered a seating grandfathered bar structure for purposes of a full-service restaurant or limited-service restaurant license, or a grandfathered bar structure for purposes of a beer-only restaurant license.

(vi) Such conversions will not be counted against any quota for the type of retail licensee to which the club converted.

(c) If any inspection or audit discloses that the sales of food are less than the required percentage for any quarterly period, the department shall immediately put the licensee on a probationary status and closely monitor the licensee's food sales during the next quarterly period to determine that the licensee is able to prove to the satisfaction of the department that the sales of food meet or exceed the required percentage. Failure of the licensee to provide satisfactory proof of the required food percentage within the probationary period shall result in issuance of an order to show cause by the department to determine why the license should not be revoked by the commission, or alternatively, to determine why the license should not be immediately reclassified by the commission as a social club. If the commission grants a reclassification to a social club, the reclassification shall remain in effect until the licensee files a request for and receives approval from the commission to be reclassified a dining club. The request shall provide credible evidence to prove to the satisfaction of the commission that in the future, the sales of food will meet or exceed the required percentage.

(1) the discovery sought is unreasonably cumulative, duplicative, or is obtainable from some other source that is:

(a) more convenient;

(b) less burdensome; or

(c) less expensive;

(2) the party seeking discovery has had ample opportunity by discovery in the action to obtain the information sought; or

(3) the discovery is unduly burdensome or expensive, taking into account:

(a) the needs of the case;

(b) the amount in controversy;

(c) limitations on the parties' resources; and

(d) the importance of the issues at stake in the litigation.

R151-4-507. Protective Orders.

(1) Upon motion by a party or by the person from whom discovery is sought the presiding officer may make an order that justice requires to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, including one or more of the following:

(a) that the discovery not be had;

(b) that the discovery may be had only on specified terms and conditions, including a designation of the time or place;

(c) that the discovery may be had only by a method of discovery other than that selected by the party seeking discovery;

(d) that certain matters not be inquired into, or that the scope of the discovery be limited to certain matters;

(e) that discovery be conducted with no one present except persons designated by the presiding officer;

(f) that a deposition after being sealed be opened only by order of the presiding officer;

(i) the notice of agency action was issued; or

(ii) the initial decision with respect to a request for agency action was issued.

(b) Factors the presiding officer shall consider in determining whether to shorten this time period include:

(i) whether a party's interests will be prejudiced if the time period is not shortened;

(ii) whether the relative simplicity or nonexistence of factual issues justifies a shortening of discovery time; and

(iii) whether the health, safety or welfare of the public will be prejudiced if the time period is not shortened.

(c) Factors the presiding officer shall consider in determining whether a party has demonstrated good cause to extend this time period include, in addition to those set forth in R151-4-109:

(i) whether the complexity of the case warrants additional discovery time; and

(ii) whether that party has made reasonable and prudent use of the discovery time that has already been available to the party since the proceeding commenced.

(d) Notwithstanding R151-4-508(2)(c), the presiding officer may not extend discovery in a way that prevents the hearing from taking place within the time frames established in R151-4-108.

(3)(a) Unless the presiding officer orders otherwise for the convenience of parties and witnesses, and except as otherwise provided by this rule (R151-4), discovery methods may be used in any sequence.

(b) The fact that a party is conducting discovery shall not operate to delay another party's discovery.

R151-4-509. Supplemented Disclosures and Amended Responses.

(1) A party who has made a disclosure or responded to a request for discovery with a response that was complete when made shall supplement the disclosure or amend the response to include subsequent information if:

(a) ordered by the presiding officer; or

(b) a circumstance described in R151-4-509(2) or (3) exists.

(3) A party shall amend a prior response to a request for production:

(a) within a reasonable time after the party learns that the response is in some material respect incomplete or incorrect; and

(b) shall contain a clear notice that failure to respond within 30 calendar days may result in:

(i) cancellation of the prehearing conference; and

(ii) a default order; and

(c) may contain the date, consistent with R151-4-108, of the scheduled hearing.

(2)(a) The prehearing conference may be in person or telephonic.

(b) All parties, or their counsel, shall participate in the conference.

(c) The conference shall include discussion and scheduling of discovery, prehearing motions, and other necessary matters.

(3) During the prehearing conference, the presiding officer shall issue a verbal order, and shall issue a written order to the same effect within 2 business days after the conference is concluded, which shall address each of the following:

(a) if necessary, scheduling an additional prehearing conference;

(b) setting a deadline for the filing of all prehearing motions and cross-motions, including motions for summary judgment, which deadline shall allow for all motions to be submitted and ruled on prior to the hearing date;

(c) modifying, if appropriate, a deadline for disclosures;

(d) resolving discovery issues;

(e) establishing a schedule for briefing, discovery needs, expert witness reports, witness and exhibit lists, objections, and other necessary or appropriate prehearing matters;

(g) dealing with other necessary matters.

(4) A party joined after the prehearing conference is bound by the order issued as a result of that conference unless the order is modified in writing pursuant to a stipulation or motion.

(5)(a) Notwithstanding any other rule, the presiding officer shall schedule all prehearing matters consistent with R151-4-108.

(b) The signature of the attorney or party constitutes a certification that to the best of the signer's knowledge, information, and belief, formed after a reasonable inquiry, the disclosure is complete and correct as of the time it was made.

(2)(a) Every request for discovery or response or objection to discovery shall:

(i) be signed by:

(A) at least one attorney of record; or

(B) the party if not represented; and

(ii) include the mailing address of the signer.

(b) The signature of the attorney or party constitutes a certification that the signer has read the request, response, or objection, and that to the best of the signer's knowledge, information, and belief formed after a reasonable inquiry it is:

(i) consistent with this rule (R151-4) and warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law;

(ii) not interposed for an improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of litigation; and

(iii) not unreasonable or unduly burdensome or expensive, given the needs of the case, the discovery already had in the case, and the importance of the issues at stake in the proceeding.

(3)(a) If a request, response, or objection is not signed, it shall be stricken unless it is signed promptly after the omission is called to the attention of the party making the request, response or objection.

(b) conditionally deny the motion with the denial conditioned on the payment of the reasonable cost of producing the requested materials by the person on whose behalf the subpoena is issued.

(6)(a) In the case of a subpoena requiring the production of books, papers, or other tangible things at a deposition, the person to whom the subpoena is directed may, within 10 days after service or on or before the time specified in the subpoena for compliance if the time is less than 10 days after service, serve on the attorney designated in the subpoena a written objection to production, inspection, or copying of any of the designated materials.

(b) If this objection is made, the party serving the subpoena is not entitled to production, inspection, or copying of the materials except pursuant to a further order of the presiding officer who issued the subpoena.

R313-19-20. Types of Licenses.

Licenses for radioactive materials are of two types: general and specific.

(1) General licenses provided in Rule R313-21 are effective without the filing of applications with the Executive

Secretary or the issuance of licensing documents to the particular persons, although the filing of a registration certificate with the Executive Secretary may be required by the particular general license. The general licensee is subject to the other applicable portions of these rules and limitations of the general license.

(2) Specific licenses require the submission of an application to the Executive Secretary and the issuance of a licensing document by the Executive Secretary. The licensee is subject to applicable portions of these rules as well as limitations specified in the licensing document.

R313-19-25. Prelicensing Inspection.

The Executive Secretary may verify information contained in applications and secure additional information deemed necessary to make a reasonable determination as to whether to issue a license and whether special conditions should be attached thereto by visiting the facility or location where radioactive materials would be possessed or used, and by discussing details of the proposed possession or use of the radioactive materials with the applicant or representatives designated by the applicant. Such visits may be made by representatives of the Board or the Executive Secretary.

R313-19-30. Reciprocal Recognition of Licenses.

(1) Subject to these rules, a person who holds a specific license from the U.S. Nuclear Regulatory Commission, an Agreement State, or Licensing State, and issued by the agency having jurisdiction where the licensee maintains an office for directing the licensed activity and at which radiation safety records are normally maintained, is hereby granted a general license to conduct the activities authorized in the licensing document within this state, except in areas of exclusive federal jurisdiction, for a period not in excess of 180 days in a calendar year provided that:

(a) the licensing document does not limit the activity authorized by the document to specified installations or locations;

(b) the out-of-state licensee notifies the Executive Secretary in writing at least three days prior to engaging in such activity. Notifications shall indicate the location, period, and type of proposed possession and use within the state, and shall be accompanied by a copy of the pertinent licensing document. If, for a specific case, the three-day period would impose an undue hardship on the out-of-state licensee, the licensee may, upon application to the Executive Secretary, obtain permission to proceed sooner. The Executive Secretary may waive the requirement for filing additional written notifications during the remainder of the calendar year following the receipt of the initial notification from a person engaging in activities under the general license provided in Subsection R313-19-30(1);

(c) the out-of-state licensee complies with all applicable rules of the Board and with the terms and conditions of the licensing document, except those terms and conditions which may be inconsistent with applicable rules of the Board;

(d) the out-of-state licensee supplies other information as the Executive Secretary may request; and

(e) the out-of-state licensee shall not transfer or dispose of radioactive material possessed or used under the general license provided in Subsection R313-19-30(1) except by transfer to a person specifically licensed by the Executive Secretary or by the U.S. Nuclear Regulatory Commission, a Licensing State, or an Agreement State to receive the material.

(2) Notwithstanding the provisions of Subsection R313-19-30(1), a person who holds a specific license issued by the U.S. Nuclear Regulatory Commission, a Licensing State, or an Agreement State authorizing the holder to manufacture, transfer, install, or service a device described in Subsection R313-21-22(4) within the areas subject to the jurisdiction of the licensing body is hereby granted a general license to install, transfer, demonstrate, or service a device in this state provided that:

(a) the person shall file a report with the Executive Secretary within thirty days after the end of a calendar quarter in which a device is transferred to or installed in this state. Reports shall identify each general licensee to whom a device is transferred by name and address, the type of device transferred, and the quantity and type of radioactive material contained in the device;

(b) the device has been manufactured, labeled, installed, and serviced in accordance with applicable provisions of the specific license issued to the person by the Nuclear Regulatory Commission, a Licensing State, or an Agreement State;

(c) the person shall assure that any labels required to be affixed to the device under rules of the authority which licensed manufacture of the device bear a statement that "Removal of this label is prohibited"; and

(d) the holder of the specific license shall furnish to the general licensee to whom the device is transferred or on whose premises a device is installed a copy of the general license contained in Subsection R313-21-22(4) or in equivalent rules of the agency having jurisdiction over the manufacture and distribution of the device.

(3) The Executive Secretary may withdraw, limit, or qualify his acceptance of a specific license or equivalent licensing document issued by the U.S. Nuclear Regulatory Commission, a Licensing State or an Agreement State, or a product distributed pursuant to the licensing document, upon determining that the action is necessary in order to prevent undue hazard to public health and safety or the environment.

R313-19-34. Terms and Conditions of Licenses.

(1) Licenses issued pursuant to Rule R313-19 shall be subject to provisions of the Act, now or hereafter in effect, and to all rules, and orders of the Executive Secretary.

(2) Licenses issued or granted under Rules R313-21 and R313-22 and rights to possess or utilize radioactive material granted by a license issued pursuant to Rules R313-21 and R313-22 shall not be transferred, assigned, or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of a license to a person unless the Executive Secretary shall, after securing full information find that the transfer is in accordance with the provisions of the Act now or hereafter in effect, and to all rules, and orders of the Executive Secretary, and shall give his consent in writing.

(3) Persons licensed by the Executive Secretary pursuant to Rules R313-21 and R313-22 shall confine use and possession of the material licensed to the locations and purposes authorized in the license.

(4) Licensees shall notify the Executive Secretary in writing and request termination of the license when the licensee decides to terminate activities involving materials authorized under the license.

(c) to persons exempt from the rules in Rule R313-19 to the extent permitted under the exemption;

(d) to persons authorized to receive the material under terms of a general license or its equivalent, or a specific license or equivalent licensing document, issued by the Executive Secretary, the U.S. Nuclear Regulatory Commission, an Agreement State or a Licensing State, or to a person otherwise authorized to receive the material by the federal government or an agency thereof, the Executive Secretary, an Agreement State or a Licensing State; or

(e) as otherwise authorized by the Executive Secretary in writing.

(3) Before transferring radioactive material to a specific licensee of the Executive Secretary, the U.S. Nuclear Regulatory Commission, an Agreement State or a Licensing State, or to a general licensee who is required to register with the Executive Secretary, the U.S. Nuclear Regulatory Commission, an Agreement State or a Licensing State prior to receipt of the radioactive material, the licensee transferring the material shall verify that the transferee's license authorizes the receipt of the type, form, and quantity of radioactive material to be transferred.

(4) The following methods for the verification required by Subsection R313-19-41(3) are acceptable:

(a) the transferor may possess, and read a current copy of the transferee's specific license or registration certificate;

(b) the transferor may possess a written certification by the transferee that the transferee is authorized by license or registration certificate to receive the type, form, and quantity of radioactive material to be transferred, specifying the license or registration certificate number, issuing agency, and expiration date;

(c) for emergency shipments, the transferor may accept oral certification by the transferee that the transferee is authorized by license or registration certificate to receive the type, form, and quantity of radioactive material to be transferred, specifying the license or registration certificate number, issuing agency, and expiration date, provided that the oral certification is confirmed in writing within ten days;

(d) the transferor may obtain other information compiled by a reporting service from official records of the Executive Secretary, the U.S. Nuclear Regulatory Commission, an Agreement State, or a Licensing State regarding the identity of licensees and the scope and expiration dates of licenses and registration; or

(e) when none of the methods of verification described in Subsection R313-19-41(4) are readily available or when a transferor desires to verify that information received by one of the methods is correct or up-to-date, the transferor may obtain and record confirmation from the Executive Secretary, the U.S. Nuclear Regulatory Commission, an Agreement State, or a Licensing State that the transferee is licensed to receive the radioactive material.

(5) Shipment and transport of radioactive material shall be in accordance with the provisions of Section R313-19-100.

R313-19-50. Reporting Requirements.

(1) Licensees shall notify the Executive Secretary as soon as possible but not later than four hours after the discovery of an event that prevents immediate protective actions necessary to avoid exposures to radiation or radioactive materials that could exceed regulatory limits or releases of licensed material that could exceed regulatory limits. Events may include fires, explosions, toxic gas releases, etc.

(2) The following events involving licensed material require notification of the Executive Secretary by the licensee within 24 hours:

(a) an unplanned contamination event that:

(i) requires access to the contamination area, by workers or the public, to be restricted for more than 24 hours by imposing additional radiological controls or by prohibiting entry into the area;

(ii) involves a quantity of material greater than five times the lowest annual limit on intake specified in Appendix B of 10 CFR 20.1001 through 20.2402 (2010), which is incorporated by reference, for the material; and

(iii) has access to the area restricted for a reason other than to allow radionuclides with a half-life of less than 24 hours to decay prior to decontamination; or

(b) an event in which equipment is disabled or fails to function as designed when:

(i) the equipment is required by rule or license condition to prevent releases exceeding regulatory limits, to prevent exposures to radiation and radioactive materials exceeding regulatory limits, or to mitigate the consequences of an accident;

(ii) the equipment is required by rule or license condition to be available and operable; and

(iii) no redundant equipment is available and operable to perform the required safety function; or

(c) an event that requires unplanned medical treatment at a medical facility of an individual with spreadable radioactive contamination on the individual's clothing or body; or

(d) an unplanned fire or explosion damaging licensed material or a device, container, or equipment containing licensed material when:

(i) the quantity of material involved is greater than five times the lowest annual limit on intake specified in Appendix B of 10 CFR 20.1001 through 20.2402 (2010), which is incorporated by reference, for the material; and

(ii) the damage affects the integrity of the licensed material or its container.

(3) Preparation and submission of reports. Reports made by licensees in response to the requirements of Section R313-19-50 must be made as follows:

(a) For radioactive materials, other than special nuclear material, licensees shall make reports required by Subsections R313-19-50(1) and (2) by telephone to the Executive Secretary. To the extent that the information is available at the time of notification, the information provided in these reports must include:

(c) Written report for materials other than special nuclear materials. A licensee who makes a report required by Subsections R313-19-50(1) or (2) shall submit a written follow-up report within 30 days of the initial report. Written reports prepared pursuant to other rules may be submitted to fulfill this requirement if the reports contain all of the necessary information and the appropriate distribution is made. These written reports shall be sent to the Executive Secretary. The report shall include the following:

(2) Licenses may be revoked, suspended, or modified, in whole or in part, for any material false statement in the application or any statement of fact required under provisions of the Act, or because of conditions revealed by the application or statement of fact or any report, record, or inspection or other means which would warrant the Executive Secretary to refuse to grant a license on an original application, or for violation of, or failure to observe any of the terms and conditions of the Act, or of the license, or of any rule, or order of the Executive Secretary.

(3) Administrative reviews, modifications, revocations or terminations of licenses will be in accordance with Title 19, Chapter 3.

(1) In expressing the concentrations in Section R313-19-70, the activity stated is that of the parent radionuclide and takes into account the radioactive decay products, because many radionuclides disintegrate into radionuclides which are also radioactive.

(2) For purposes of Subsection R313-19-13(2)(a) where there is involved a combination of radionuclides, the limit for the combination should be derived as follows: Determine for each radionuclide in the product the ratio between the radioactivity concentration present in the product and the exempt radioactivity concentration established in Section R313-19-70 for the specific radionuclide when not in combination. The sum of the ratios may not exceed one or unity.

(3) To convert microcuries (uCi) to SI units of kilobecquerels (kBq), multiply the above values by 37.

R313. Environmental Quality, Radiation Control.
R313-22. Specific Licenses.
R313-22-1. Purpose and Authority.

(1) The purpose of this rule is to prescribe the requirements for the issuance of specific licenses.

(2) The rules set forth herein are adopted pursuant to the provisions of Subsections 19-3-104(4) and 19-3-104(8).

R313-22-2. General.

The provisions and requirements of Rule R313-22 are in addition to, and not in substitution for, other requirements of these rules. In particular the provisions of Rule R313-19 apply to applications and licenses subject to Rule R313-22.

R313-22-4. Definitions.

"Alert" means events may occur, are in progress, or have occurred that could lead to a release of radioactive material but that the release is not expected to require a response by off-site response organizations to protect persons off-site.

"Nationally tracked source" is a sealed source containing a quantity equal to or greater than Category 1 or Category 2 levels of any radioactive material listed in Appendix E of 10 CFR 20.1001 to 20.2402 (2010), which is incorporated by reference. In this context a sealed source is defined as radioactive material that is sealed in a capsule or closely bonded, in a solid form and which is not exempt from regulatory control. It does not mean material encapsulated solely for disposal, or nuclear material contained in any fuel assembly, subassembly, fuel rod, or fuel pellet. Category 1 nationally tracked sources are those containing radioactive material at a quantity equal to or greater than the Category 1 threshold. Category 2 nationally tracked sources are those containing radioactive material at a quantity equal to or greater than the Category 2 threshold but less than the Category 1 threshold.

"Principal activities" means activities authorized by the license which are essential to achieving the purpose(s) for which the license was issued or amended. Storage during which no licensed material is accessed for use or disposal and activities incidental to decontamination or decommissioning are not principal activities.

"Site Area Emergency" means events may occur, are in progress, or have occurred that could lead to a significant release of radioactive material and that could require a response by off-site response organizations to protect persons off-site.

R313-22-30. Specific License by Rule.

A license by rule is issued in the following circumstances, without the necessity of filing an application for a specific license as required by Subsection R313-22-32(1), and the licensee shall be subject to the applicable provisions of Sections R313-22-33, R313-22-34, R313-22-35, R313-22-36 and R313-22-37:

(1) When a site must be timely remediated of contamination by radioactive materials that are subject to licensing under these rules but are unlicensed;

(2) When radioactive materials existing as a result of improper handling, spillage, accidental contamination, or unregulated or illegal possession, transfer, or receipt, must be stored and those materials have not been licensed under these rules.

R313-22-32. Filing Application for Specific Licenses.

(1) Applications for specific licenses shall be filed on a form prescribed by the Executive Secretary.

(2) The Executive Secretary may, after the filing of the original application, and before the expiration of the license, require further statements in order to enable the Executive Secretary to determine whether the application should be granted or denied or whether a license should be modified or revoked.

(3) Applications shall be signed by the applicant or licensee or a person duly authorized to act for and on the applicant's behalf.

(4) An application for a license may include a request for a license authorizing one or more activities.

(5) In the application, the applicant may incorporate by reference information contained in previous applications, statements, or reports filed with the Executive Secretary, provided the references are clear and specific.

(6) An application for a specific license to use radioactive material in the form of a sealed source or in a device that contains the sealed source shall identify the source or device by manufacturer and model number as registered with the U.S. Nuclear Regulatory Commission under 10 CFR 32.210 (2010),the equivalent regulations of an Agreement State, or with a State under provisions comparable to 10 CFR 32.210.

(7) As provided by Section R313-22-35, certain applications for specific licenses filed under these rules shall contain a proposed decommissioning funding plan or a certification of financial assurance for decommissioning. In the case of renewal applications submitted before January 1, 1995, this submittal may follow the renewal application but shall be submitted on or before January 1, 1995.

(8)(a) Applications to possess radioactive materials in unsealed form, on foils or plated sources, or sealed in glass in excess of the quantities in Section R313-22-90, "Quantities of Radioactive Materials Requiring Consideration of the Need for an Emergency Plan for Responding to a Release", shall contain either:

(i) An evaluation showing that the maximum dose to a individual off-site due to a release of radioactive materials would not exceed one rem effective dose equivalent or five rems to the thyroid; or

(ii) An emergency plan for responding to a release of radioactive material.

(b) One or more of the following factors may be used to support an evaluation submitted under Subsection R313-22-32(8)(a)(i):

(i) The radioactive material is physically separated so that only a portion could be involved in an accident;

(ii) All or part of the radioactive material is not subject to release during an accident because of the way it is stored or packaged;

(iii) The release fraction in the respirable size range would be lower than the release fraction shown in Section R313-22-90 due to the chemical or physical form of the material;

(iv) The solubility of the radioactive material would reduce the dose received;

(v) Facility design or engineered safety features in the facility would cause the release fraction to be lower than shown in Section R313-22-90;

(vi) Operating restrictions or procedures would prevent a release fraction as large as that shown in Section R313-22-90; or

(vii) Other factors appropriate for the specific facility.

(c) An emergency plan for responding to a release of radioactive material submitted under Subsection R313-22-32(8)(a)(ii) shall include the following information:

(i) Facility description. A brief description of the licensee's facility and area near the site.

(ii) Types of accidents. An identification of each type of radioactive materials accident for which protective actions may be needed.

(iii) Classification of accidents. A classification system for classifying accidents as alerts or site area emergencies.

(iv) Detection of accidents. Identification of the means of detecting each type of accident in a timely manner.

(v) Mitigation of consequences. A brief description of the

means and equipment for mitigating the consequences of each type of accident, including those provided to protect workers on-site, and a description of the program for maintaining equipment.

(vi) Assessment of releases. A brief description of the methods and equipment to assess releases of radioactive materials.

(vii) Responsibilities. A brief description of the responsibilities of licensee personnel should an accident occur, including identification of personnel responsible for promptly notifying off-site response organizations and the Executive Secretary; also responsibilities for developing, maintaining, and updating the plan.

(viii) Notification and coordination. A commitment to and a brief description of the means to promptly notify off-site response organizations and request off-site assistance, including medical assistance for the treatment of contaminated injured on-site workers when appropriate. A control point shall be established. The notification and coordination shall be planned so that unavailability of some personnel, parts of the facility, and some equipment will not prevent the notification and coordination. The licensee shall also commit to notify the Executive Secretary immediately after notification of the appropriate off-site response organizations and not later than one hour after the licensee declares an emergency.

NOTE: These reporting requirements do not supersede or release licensees of complying with the requirements under the Emergency Planning and Community Right-to-Know Act of 1986, Title III, Public Law 99-499 or other state or federal reporting requirements, including 40 CFR 302, 2010.

(ix) Information to be communicated. A brief description of the types of information on facility status, radioactive releases, and recommended protective actions, if necessary, to be given to off-site response organizations and to the Executive Secretary.

(x) Training. A brief description of the frequency, performance objectives and plans for the training that the licensee will provide workers on how to respond to an emergency including special instructions and orientation tours the licensee would offer to fire, police, medical and other emergency personnel. The training shall familiarize personnel with site-specific emergency procedures. Also, the training shall thoroughly prepare site personnel for their responsibilities in the event of accident scenarios postulated as most probable for the specific site including the use of team training for the scenarios.

(xi) Safe shutdown. A brief description of the means of restoring the facility to a safe condition after an accident.

(xii) Exercises. Provisions for conducting quarterly communications checks with off-site response organizations and biennial on-site exercises to test response to simulated emergencies. Quarterly communications checks with off-site response organizations shall include the check and update of all necessary telephone numbers. The licensee shall invite off-site response organizations to participate in the biennial exercises. Participation of off-site response organizations in biennial exercises although recommended is not required. Exercises shall use accident scenarios postulated as most probable for the specific site and the scenarios shall not be known to most exercise participants. The licensee shall critique each exercise using individuals not having direct implementation responsibility for the plan. Critiques of exercises shall evaluate the appropriateness of the plan, emergency procedures, facilities, equipment, training of personnel, and overall effectiveness of the response. Deficiencies found by the critiques shall be corrected.

(xiii) Hazardous chemicals. A certification that the applicant has met its responsibilities under the Emergency Planning and Community Right-to-Know Act of 1986, Title III, Public Law 99-499, if applicable to the applicant's activities at the proposed place of use of the radioactive material.

(d) The licensee shall allow the off-site response organizations expected to respond in case of an accident 60 days to comment on the licensee's emergency plan before submitting it to the Executive Secretary. The licensee shall provide any comments received within the 60 days to the Executive Secretary with the emergency plan.

(9) An application from a medical facility, educational institution, or Federal facility to produce Positron Emmission Tomography (PET) radioactive drugs for non-commercial transfer to licensees in its consortium authorized for medical use under Rule R313-32 shall include:

(a) A request for authorization for the production of PET radionuclides or evidence of an existing license issued pursuant to 10 CFR Part 30 or equivalent Agreement State requirements for a PET radionuclide production facility within its consortium from which it receives PET radionuclides.

(b) Evidence that the applicant is qualified to produce radioactive drugs for medical use by meeting one of the criteria in Subsection R313-22-75(9)(a)(ii).

(c) Identification of the individual(s) authorized to prepare the PET radioactive drugs if the applicant is a pharmacy, and documentation that each individual meets the requirements of an authorized nuclear pharmacist as specified in Rule R313-32.

(d) Information identified in Subsection R313-22-75(9)(a)(iii) on the PET drugs to be noncommercially transferred to members of its consortium.

R313-22-33. General Requirements for the Issuance of Specific Licenses.

(1) A license application shall be approved if the Executive Secretary determines that:

(a) the applicant and all personnel who will be handling the radioactive material are qualified by reason of training and experience to use the material in question for the purpose requested in accordance with these rules in a manner as to minimize danger to public health and safety or the environment;

(b) the applicant's proposed equipment, facilities, and procedures are adequate to minimize danger to public health and safety or the environment;

(c) the applicant's facilities are permanently located in Utah, otherwise the applicant shall seek reciprocal recognition as required by Section R313-19-30;

(d) the issuance of the license will not be inimical to the health and safety of the public;

(e) the applicant satisfies applicable special requirements in Sections R313-22-50 and R313-22-75, and Rules R313-24, R313-25, R313-32, R313-34, R313-36, or R313-38; and

(f) in the case of an application for a license to receive and possess radioactive material for commercial waste disposal by land burial, or for the conduct of other activities which the Executive Secretary determines will significantly affect the quality of the environment, the Executive Secretary, before commencement of construction of the plant or facility in which the activity will be conducted, has concluded, after weighing the environmental, economic, technical and other benefits against environmental costs and considering available alternatives, that the action called for is the issuance of the proposed license, with any appropriate conditions to protect environmental values. The Executive Secretary shall respond to the application within 60 days. Commencement of construction prior to a response and conclusion shall be grounds for denial of a license to receive and possess radioactive material in the plant or facility. As used in this paragraph the term "commencement of construction" means clearing of land, excavation, or other substantial action that would adversely affect the environment of a site. The term does not mean site exploration, necessary borings to determine foundation conditions, or other preconstruction monitoring or testing to establish background information related to the

suitability of the site or the protection of environmental values.

R313-22-34. Issuance of Specific Licenses.

(1) Upon a determination that an application meets the requirements of the Act and the rules of the Board, the Executive Secretary will issue a specific license authorizing the proposed activity in a form and containing conditions and limitations as the Executive Secretary deems appropriate or necessary.

(2) The Executive Secretary may incorporate in licenses at the time of issuance, additional requirements and conditions with respect to the licensee's receipt, possession, use and transfer of radioactive material subject to Rule R313-22 as he deems appropriate or necessary in order to:

(a) minimize danger to public health and safety or the environment;

(b) require reports and the keeping of records, and to provide for inspections of activities under the license as may be appropriate or necessary; and

(c) prevent loss or theft of material subject to Rule R313-22.

R313-22-35. Financial Assurance and Recordkeeping for Decommissioning.

(1)(a) Applicants for a specific license authorizing the possession and use of unsealed radioactive material of half-life greater than 120 days and in quantities exceeding 10^5 times the applicable quantities set forth in Appendix B of 10 CFR 30.1 through 30.72, 2010, which is incorporated by reference, shall submit a decommissioning funding plan as described in Subsection R313-22-35(5). The decommissioning funding plan shall also be submitted when a combination of radionuclides is involved if R divided by 10^5 is greater than one, where R is defined here as the sum of the ratios of the quantity of each radionuclide to the applicable value in Appendix B of 10 CFR 30.1 through 30.72, 2010, which is incorporated by reference.

(b) Holders of, or applicants for, a specific license authorizing the possession and use of sealed sources or plated foils of half-life greater than 120 days and in quantities exceeding 10^{12} times the applicable quantities set forth in Appendix B of 10 CFR 30.1 through 30.72, 2010, which is incorporated by reference, or when a combination of isotopes is involved if R, as defined in Subsection R313-22-35(1)(a), divided by 10^{12} is greater than one, shall submit a decommissioning funding plan as described in Subsection R313-22-35(5).

(c) Applicants for a specific license authorizing the possession and use of more than 100 mCi of source material in a readily dispersible form shall submit a decommissioning funding plan as described in Subsection R313-22-35(5).

(2) Applicants for a specific license authorizing possession and use of radioactive material of half-life greater than 120 days and in quantities specified in Subsection R313-22-35(4), or authorizing the possession and use of source material greater than 10 mCi but less than or equal to 100 mCi in a readily dispersible form shall either:

(a) submit a decommissioning funding plan as described in Subsection R313-22-35(5); or

(b) submit a certification that financial assurance for decommissioning has been provided in the amount prescribed by Subsection R313-22-35(4) using one of the methods described in Subsection R313-22-35(6). Applicants for a specific license authorizing the possession and use of source material in a readily dispersible form shall submit a certification that financial assurance for decommissioning has been provided in the amount of $225,000 by October 20, 2007. For an applicant subject to this subsection, this certification may state that the appropriate assurance will be obtained after the application has been approved and the license issued but before the receipt of licensed material. If the applicant defers execution of the financial instrument until after the license has been issued, a signed original of the financial instrument obtained to satisfy the requirements of Subsection R313-22-35(6) shall be submitted to the Executive Secretary before receipt of licensed material. If the applicant does not defer execution of the financial instrument, the applicant shall submit to the Executive Secretary, as part of the certification, a signed original of the financial instrument obtained to satisfy the requirements in Subsection R313-22-35(6).

(3)(a) Holders of a specific license issued on or after October 20, 2006, which is of a type described in Subsections R313-22-35(1) or (2), shall provide financial assurance for decommissioning in accordance with the criteria set forth in Section R313-22-35.

(b) Holders of a specific license issued before October 20, 2006, and of a type described in Subsection R313-22-35(1), shall submit by October 20, 2007, a decommissioning funding plan as described in Subsection R313-22-35(5) or a certification of financial assurance for decommissioning in an amount at least equal to $1,125,000 in accordance with the criteria set forth in Section R313-22-35. If the licensee submits the certification of financial assurance rather than a decommissioning funding plan, the licensee shall include a decommissioning funding plan in any application for license renewal.

(c) Holders of a specific license issued before October 20, 2006, and of a type described in Subsection R313-22-35(2), shall submit by October 20, 2007, a decommissioning funding plan as described in Subsection R313-22-35(5) or a certification of financial assurance for decommissioning in accordance with the criteria set forth in Section R313-22-35.

(d) A licensee who has submitted an application before October 20, 2006, for renewal of license in accordance with Section R313-22-37, shall provide financial assurance for decommissioning in accordance with Subsections R313-22-35(1) and (2).

(e) Waste collectors and waste processors, as defined in Appendix G of 10 CFR 20.1001 to 20.2402, 2010, which is incorporated by reference, shall provide financial assurance in an amount based on a decommissioning funding plan as described in Subsection R313-22-35(5). The decommissioning funding plan shall include the cost of disposal of the maximum amount (curies) of radioactive material permitted by the license, and the cost of disposal of the maximum quantity, by volume, of radioactive material which could be present at the licensee's facility at any time, in addition to the cost to remediate the licensee's site to meet the license termination criteria of Rule R313-15.

(f) Holders of a specific license issued prior to October 20, 2006, which is of a type described in Subsections R313-22-35(1), (2), or (3)(g), shall submit a decommissioning funding plan to the Executive Secretary on or before October 20, 2007. Holders of a specific license issued on or after October 20, 2006, which is of a type described in Subsections R313-22-35(1), (2), or (3)(g), shall submit a decommissioning funding plan to the Executive Secretary as a part of the license application.

(g) Applicants for a specific license authorizing the possession and use of radioactive materials in sufficient quantities that require financial assurance and recordkeeping for decommissioning under Section R313-22-35 shall assure that all documents submitted to the Executive Secretary for the purpose of demonstrating compliance with financial assurance and recordkeeping requirements meet the applicable criteria contained in the Nuclear Regulatory Commission's document NUREG-1757, Volume 3, "Consolidated NMSS Decommissioning Guidance: Financial Assurance, Recordkeeping, and Timeliness" (9/2003).

(h) Documents provided to the Executive Secretary under Subsection R313-22-35(3)(g) shall provide that legal remedies be sought in a court of appropriate jurisdiction within Utah.

(4) Table of required amounts of financial assurance for decommissioning by quantity of material. Licensees required to submit an amount of financial assurance listed in this table must do so during a license application or as part of an amendment to an existing license. Licensees having possession limits exceeding the upper bounds of this table must base financial assurance on a decommissioning funding plan.

TABLE

For a combination of radionuclides, if R, as defined in Subsection R313-22-35(1)(a) divided by 10^4 is greater than one but R divided by 10^5 is less than or equal to one:	$1,125,000
Greater than 10^3 but less than or equal to 10^4 times the applicable quantities of radioactive material, as defined in Appendix B of 10 CFR 30.1 through 30.72 (2010) which is incorporated by reference, in unsealed form. For a combination of radionuclides, if R, as defined in Subsection R313-22-35(1)(a) divided by 10^3 is greater than one but R divided by 10^4 is less than or equal to one:	$225,000

For combination of radionuclides, if R, as defined in R313-22-35(1)(a), divided by 10^{10} is greater than one, but R divided by 10^{12} is less than or equal to one:	$113,000

(5) A decommissioning funding plan shall contain a cost estimate for decommissioning and a description of the method of assuring funds for decommissioning from Subsection R313-22-35(6), including means for adjusting cost estimates and associated funding levels periodically over the life of the facility. Cost estimates shall be adjusted at intervals not to exceed 3 years. The decommissioning funding plan shall also contain a certification by the licensee that financial assurance for decommissioning has been provided in the amount of the cost estimate for decommissioning and a signed original of the financial instrument obtained to satisfy the requirements of Subsection R313-22-35(6).

(6) Financial assurance for decommissioning shall be provided by one or more of the following methods:

(a) Prepayment. Prepayment is the deposit prior to the start of operation into an account segregated from licensee assets and outside the licensee's administrative control of cash or liquid assets so that the amount of funds would be sufficient to pay decommissioning costs. Prepayment may be in the form of a trust, escrow account, government fund, certificate of deposit, or deposit of government securities;

(b) A surety method, insurance, or other guarantee method. These methods shall guarantee that decommissioning costs will be paid. A surety method may be in the form of a surety bond, letter of credit, or line of credit. A parent company guarantee of funds for decommissioning costs based on a financial test may be used if the guarantee and test are as contained in Subsection R313-22-35(8). A parent company guarantee may not be used in combination with other financial methods to satisfy the requirements of Section R313-22-35. A guarantee of funds by the applicant or licensee for decommissioning costs based on a financial test may be used if the guarantee and test are as contained in Subsection R313-22-35(9). A guarantee by the applicant or licensee may not be used in combination with any other financial methods to satisfy the requirements of Section R313-22-35 or in any situation where the applicant or licensee has a parent company holding majority control of the voting stock of the company. A surety method or insurance used to provide financial assurance for decommissioning shall contain the following conditions:

(i) the surety method or insurance shall be open-ended or, if written for a specified term, such as five years, shall be renewed automatically unless 90 days or more prior to the renewal date the issuer notifies the Executive Secretary, the beneficiary, and the licensee of its intention not to renew. The surety method or insurance shall also provide that the full face amount be paid to the beneficiary automatically prior to the expiration without proof of forfeiture if the licensee fails to provide a replacement acceptable to the Executive Secretary within 30 days after receipt of notification of cancellation,

(ii) the surety method or insurance shall be payable to a trust established for decommissioning costs. The trustee and trust shall be acceptable to the Executive Secretary. An acceptable trustee includes an appropriate state or federal government agency or an entity which has the authority to act as a trustee and whose trust operations are regulated and examined by a Federal or State agency, and

(iii) the surety method or insurance shall remain in effect until the Executive Secretary has terminated the license;

(c) An external sinking fund in which deposits are made at least annually, coupled with a surety method or insurance, the value of which may decrease by the amount being accumulated in the sinking fund. An external sinking fund is a fund established and maintained by setting aside funds periodically in an account segregated from licensee assets and outside the licensee's administrative control in which the total amount of funds would be sufficient to pay decommissioning costs at the time termination of operation is expected. An external sinking fund may be in the form of a trust, escrow account, government fund, certificate of deposit, or deposit of government securities. The surety or insurance provisions shall be as stated in Subsection R313-22-35(6)(b);

(d) In the case of Federal, State or local government licensees, a statement of intent containing a cost estimate for decommissioning or an amount based on the Table in Subsection R313-22-35(4) and indicating that funds for decommissioning will be obtained when necessary; or

(e) When a governmental entity is assuming custody and ownership of a site, an arrangement that is deemed acceptable by such governmental entity.

(7) Persons licensed under Rule R313-22 shall keep records of information important to the decommissioning of a facility in an identified location until the site is released for unrestricted use. Before licensed activities are transferred or assigned in accordance with Subsection R313-19-34(2), licensees shall transfer all records described in Subsections R313-22-35(7)(a) through (d) to the new licensee. In this case, the new licensee will be responsible for maintaining these records until the license is terminated. If records important to the decommissioning of a facility are kept for other purposes, reference to these records and their locations may be used. Information the Executive Secretary considers important to decommissioning consists of the following:

(a) records of spills or other unusual occurrences involving the spread of contamination in and around the facility, equipment, or site. These records may be limited to instances when contamination remains after any cleanup procedures or when there is reasonable likelihood that contaminants may have spread to inaccessible areas as in the case of possible seepage

into porous materials such as concrete. These records shall include any known information on identification of involved nuclides, quantities, forms, and concentrations;

(b) as-built drawings and modification of structures and equipment in restricted areas where radioactive materials are used or stored, and of locations of possible inaccessible contamination such as buried pipes which may be subject to contamination. If required drawings are referenced, each relevant document need not be indexed individually. If drawings are not available, the licensee shall substitute appropriate records of available information concerning these areas and locations;

(c) except for areas containing only sealed sources, provided the sources have not leaked or no contamination remains after a leak, or radioactive materials having only half-lives of less than 65 days, a list contained in a single document and updated every two years, including all of the following:

(i) all areas designated and formerly designated as restricted areas as defined under Section R313-12-3;

(ii) all areas outside of restricted areas that require documentation under Subsection R313-22-35(7)(a);

(iii) all areas outside of restricted areas where current and previous wastes have been buried as documented under Section R313-15-1109; and

(iv) all areas outside of restricted areas which contain material such that, if the license expired, the licensee would be required to either decontaminate the area to meet the criteria for decommissioning in Sections R313-15-401 through R313-15-406, or apply for approval for disposal under Section R313-15-1002; and

(d) records of the cost estimate performed for the decommissioning funding plan or of the amount certified for decommissioning, and records of the funding method used for assuring funds if either a funding plan or certification is used.

(8) Criteria relating to use of financial tests and parent company guarantees for providing reasonable assurance of funds for decommissioning.

(a) To pass the financial test referred to in Subsection R313-22-35(6)(b), the parent company shall meet one of the following criteria:

(i) The parent company shall have all of the following:

(A) Two of the following three ratios: a ratio of total liabilities to net worth less than 2.0; a ratio of the sum of net income plus depreciation, depletion, and amortization to total liabilities greater than 0.1; and a ratio of current assets to current liabilities greater than 1.5;

(B) Net working capital and tangible net worth each at least six times the current decommissioning cost estimates, or prescribed amount if a certification is used;

(C) Tangible net worth of at least $10 million; and

(D) Assets located in the United States amounting to at least 90 percent of total assets or at least six times the current decommissioning cost estimates, or prescribed amount if a certification is used; or

(ii) The parent company shall have all of the following:

(A) A current rating for its most recent bond issuance of AAA, AA, A, or BBB as issued by Standard and Poor's or Aaa, Aa, A or Baa as issued by Moody's;

(B) Tangible net worth at least six times the current decommissioning cost estimate, or prescribed amount if a certification is used;

(C) Tangible net worth of at least $10 million; and

(D) Assets located in the United States amounting to at least 90 percent of total assets or at least six times the current decommissioning cost estimates, or prescribed amount if certification is used.

(b) The parent company's independent certified public accountant shall have compared the data used by the parent company in the financial test, which is derived from the independently audited, year end financial statements for the latest fiscal year, with the amounts in such financial statement. In connection with that procedure the licensee shall inform the Executive Secretary within 90 days of any matters coming to the auditor's attention which cause the auditor to believe that the data specified in the financial test should be adjusted and that the company no longer passes the test.

(c)(i) After the initial financial test, the parent company shall repeat the passage of the test within 90 days after the close of each succeeding fiscal year.

(ii) If the parent company no longer meets the requirements of Subsection R313-22-35(8)(a) the licensee shall send notice to the Executive Secretary of intent to establish alternative financial assurance as specified in Section R313-22-35. The notice shall be sent by certified mail within 90 days after the end of the fiscal year for which the year end financial data show that the parent company no longer meets the financial test requirements. The licensee shall provide alternate financial assurance within 120 days after the end of such fiscal year.

(d) The terms of a parent company guarantee which an applicant or licensee obtains shall provide that:

(i) The parent company guarantee will remain in force unless the guarantor sends notice of cancellation by certified mail to the licensee and the Executive Secretary. Cancellation may not occur, however, during the 120 days beginning on the date of receipt of the notice of cancellation by both the licensee and the Executive Secretary, as evidenced by the return receipts.

(ii) If the licensee fails to provide alternate financial assurance as specified in Section R313-22-35 within 90 days after receipt by the licensee and Executive Secretary of a notice of cancellation of the parent company guarantee from the guarantor, the guarantor will provide such alternative financial assurance in the name of the licensee.

(iii) The parent company guarantee and financial test provisions shall remain in effect until the Executive Secretary has terminated the license.

(iv) If a trust is established for decommissioning costs, the trustee and trust shall be acceptable to the Executive Secretary. An acceptable trustee includes an appropriate State or Federal Government agency or an entity which has the authority to act as a trustee and whose trust operations are regulated and examined by a Federal or State agency.

(9) Criteria relating to use of financial tests and self guarantees for providing reasonable assurance of funds for decommissioning.

(a) To pass the financial test referred to in Subsection R313-22-35(6)(b), a company shall meet all of the following criteria:

(i) Tangible net worth at least ten times the total current decommissioning cost estimate, or the current amount required if certification is used, for all decommissioning activities for which the company is responsible as self-guaranteeing licensee and as parent-guarantor;

(ii) Assets located in the United States amounting to at least 90 percent of total assets or at least ten times the total current decommissioning cost estimate, or the current amount required if certification is used, for all decommissioning activities for which the company is responsible as self-guaranteeing licensee and as parent-guarantor; and

(iii) A current rating for its most recent bond issuance of AAA, AA, or A as issued by Standard and Poor's, or Aaa, Aa, or A as issued by Moody's.

(b) To pass the financial test, a company shall meet all of the following additional requirements:

(i) The company shall have at least one class of equity securities registered under the Securities Exchange Act of 1934;

(ii) The company's independent certified public accountant shall have compared the data used by the company in the financial test which is derived from the independently audited,

yearend financial statements for the latest fiscal year, with the amounts in such financial statement. In connection with that procedure, the licensee shall inform the Executive Secretary within 90 days of any matters coming to the attention of the auditor that cause the auditor to believe that the data specified in the financial test should be adjusted and that the company no longer passes the test; and

(iii) After the initial financial test, the company shall repeat passage of the test within 90 days after the close of each succeeding fiscal year.

(c) If the licensee no longer meets the requirements of Subsection R313-22-35(9)(a), the licensee shall send immediate notice to the Executive Secretary of its intent to establish alternate financial assurance as specified in Section R313-22-35 within 120 days of such notice.

(d) The terms of a self-guarantee which an applicant or licensee furnishes shall provide that:

(i) The guarantee will remain in force unless the licensee sends notice of cancellation by certified mail to the Executive Secretary. Cancellation may not occur, however, during the 120 days beginning on the date of receipt of the notice of cancellation by the Executive Secretary, as evidenced by the return receipt.

(ii) The licensee shall provide alternative financial assurance as specified in Section R313-22-35 within 90 days following receipt by the Executive Secretary of a notice of a cancellation of the guarantee.

(iii) The guarantee and financial test provisions shall remain in effect until the Executive Secretary has terminated the license or until another financial assurance method acceptable to the Executive Secretary has been put in effect by the licensee.

(iv) The licensee shall promptly forward to the Executive Secretary and the licensee's independent auditor all reports covering the latest fiscal year filed by the licensee with the Securities and Exchange Commission pursuant to the requirements of section 13 of the Securities and Exchange Act of 1934.

(v) If, at any time, the licensee's most recent bond issuance ceases to be rated in a category of "A" or above by either Standard and Poor's or Moody's, the licensee shall provide notice in writing of such fact to the Executive Secretary within 20 days after publication of the change by the rating service. If the licensee's most recent bond issuance ceases to be rated in any category of A or above by both Standard and Poor's and Moody's, the licensee no longer meets the requirements of Subsection R313-22-35(9)(a).

(vi) The applicant or licensee shall provide to the Executive Secretary a written guarantee, a written commitment by a corporate officer, which states that the licensee will fund and carry out the required decommissioning activities or, upon issuance of an order by the Board, the licensee shall set up and fund a trust in the amount of the current cost estimates for decommissioning.

R313-22-36. Expiration and Termination of Licenses and Decommissioning of Sites and Separate Buildings or Outdoor Areas.

(1) A specific license expires at the end of the day on the expiration date stated in the license unless the licensee has filed an application for renewal under Section R313-22-37 no less than 30 days before the expiration date stated in the existing license. If an application for renewal has been filed at least 30 days prior to the expiration date stated in the existing license, the existing license expires at the end of the day on which the Executive Secretary makes a final determination to deny the renewal application or, if the determination states an expiration date, the expiration date stated in the determination.

(2) A specific license revoked by the Executive Secretary expires at the end of the day on the date of the Executive Secretary's final determination to revoke the license, or on the expiration date stated in the determination, or as otherwise provided by an Order issued by the Executive Secretary.

(3) A specific license continues in effect, beyond the expiration date if necessary, with respect to possession of radioactive material until the Executive Secretary notifies the licensee in writing that the license is terminated. During this time, the licensee shall:

(a) limit actions involving radioactive material to those related to decommissioning; and

(b) continue to control entry to restricted areas until they are suitable for release so that there is not an undue hazard to public health and safety or the environment.

(4) Within 60 days of the occurrence of any of the following, a licensee shall provide notification to the Executive Secretary in writing of such occurrence, and either begin decommissioning its site, or any separate building or outdoor area that contains residual radioactivity so that the building or outdoor area is suitable for release so that there is not an undue hazard to public health and safety or the environment, or submit within 12 months of notification a decommissioning plan, if required by Subsection R313-22-36(7), and begin decommissioning upon approval of that plan if:

(a) the license has expired pursuant to Subsections R313-22-36(1) or (2); or

(b) the licensee has decided to permanently cease principal activities at the entire site or in any separate building or outdoor area that contains residual radioactivity such that the building or outdoor area is unsuitable for release because of an undue hazard to public health and safety or the environment; or

(c) no principal activities under the license have been conducted for a period of 24 months; or

(d) no principal activities have been conducted for a period of 24 months in any separate building or outdoor area that contains residual radioactivity such that the building or outdoor area is unsuitable for release because of an undue hazard to public health and safety or the environment.

(5) Coincident with the notification required by Subsection R313-22-36(4), the licensee shall maintain in effect all decommissioning financial assurances established by the licensee pursuant to Section R313-22-35 in conjunction with a license issuance or renewal or as required by Section R313-22-36. The amount of the financial assurance must be increased, or may be decreased, as appropriate, to cover the detailed cost estimate for decommissioning established pursuant to Subsection R313-22-36(7)(d)(v).

(a) A licensee who has not provided financial assurance to cover the detailed cost estimate submitted with the decommissioning plan shall do so on or before August 15, 1997.

(b) Following approval of the decommissioning plan, a licensee may reduce the amount of the financial assurance as decommissioning proceeds and radiological contamination is reduced at the site with the approval of the Executive Secretary.

(6) The Executive Secretary may grant a request to extend the time periods established in Subsection R313-22-36(4) if the Executive Secretary determines that this relief is not detrimental to the public health and safety and is otherwise in the public interest. The request must be submitted no later than 30 days before notification pursuant to Subsection R313-22-36(4). The schedule for decommissioning set forth in Subsection R313-22-36(4) may not commence until the Executive Secretary has made a determination on the request.

(7)(a) A decommissioning plan shall be submitted if required by license condition or if the procedures and activities necessary to carry out decommissioning of the site or separate building or outdoor area have not been previously approved by the Executive Secretary and these procedures could increase potential health and safety impacts to workers or to the public, such as in any of the following cases:

(i) procedures would involve techniques not applied routinely during cleanup or maintenance operations;

(ii) workers would be entering areas not normally occupied where surface contamination and radiation levels are significantly higher than routinely encountered during operation;

(iii) procedures could result in significantly greater airborne concentrations of radioactive materials than are present during operation; or

(iv) procedures could result in significantly greater releases of radioactive material to the environment than those associated with operation.

(b) The Executive Secretary may approve an alternate schedule for submittal of a decommissioning plan required pursuant to Subsection R313-22-36(4) if the Executive Secretary determines that the alternative schedule is necessary to the effective conduct of decommissioning operations and presents no undue risk from radiation to the public health and safety and is otherwise in the public interest.

(c) Procedures such as those listed in Subsection R313-22-36(7)(a) with potential health and safety impacts may not be carried out prior to approval of the decommissioning plan.

(d) The proposed decommissioning plan for the site or separate building or outdoor area must include:

(i) a description of the conditions of the site or separate building or outdoor area sufficient to evaluate the acceptability of the plan;

(ii) a description of planned decommissioning activities;

(iii) a description of methods used to ensure protection of workers and the environment against radiation hazards during decommissioning;

(iv) a description of the planned final radiation survey; and

(v) an updated detailed cost estimate for decommissioning, comparison of that estimate with present funds set aside for decommissioning, and a plan for assuring the availability of adequate funds for completion of decommissioning.

(vi) For decommissioning plans calling for completion of decommissioning later than 24 months after plan approval, the plan shall include a justification for the delay based on the criteria in Subsection R313-22-36(8).

(e) The proposed decommissioning plan will be approved by the Executive Secretary if the information therein demonstrates that the decommissioning will be completed as soon as practical and that the health and safety of workers and the public will be adequately protected.

(8)(a) Except as provided in Subsection R313-22-36(9), licensees shall complete decommissioning of the site or separate building or outdoor area as soon as practical but no later than 24 months following the initiation of decommissioning.

(b) Except as provided in Subsection R313-22-36(9), when decommissioning involves the entire site, the licensee shall request license termination as soon as practical but no later than 24 months following the initiation of decommissioning.

(9) The Executive Secretary may approve a request for an alternative schedule for completion of decommissioning of the site or separate building or outdoor area, and license termination if appropriate, if the Executive Secretary determines that the alternative is warranted by consideration of the following:

(a) whether it is technically feasible to complete decommissioning within the allotted 24-month period;

(b) whether sufficient waste disposal capacity is available to allow completion of decommissioning within the allotted 24-month period;

(c) whether a significant volume reduction in wastes requiring disposal will be achieved by allowing short-lived radionuclides to decay;

(d) whether a significant reduction in radiation exposure to workers can be achieved by allowing short-lived radionuclides to decay; and

(e) other site-specific factors which the Executive Secretary may consider appropriate on a case-by-case basis, such as the regulatory requirements of other government agencies, lawsuits, ground-water treatment activities, monitored natural ground-water restoration, actions that could result in more environmental harm than deferred cleanup, and other factors beyond the control of the licensee.

(10) As the final step in decommissioning, the licensee shall:

(a) certify the disposition of all licensed material, including accumulated wastes, by submitting a completed Form DRC-14 or equivalent information; and

(b) conduct a radiation survey of the premises where the licensed activities were carried out and submit a report of the results of this survey, unless the licensee demonstrates in some other manner that the premises are suitable for release in accordance with the criteria for decommissioning in Sections R313-15-401 through R313-15-406. The licensee shall, as appropriate:

(i) report levels of gamma radiation in units of millisieverts (microroentgen) per hour at one meter from surfaces, and report levels of radioactivity, including alpha and beta, in units of megabecquerels (disintegrations per minute or microcuries) per 100 square centimeters--removable and fixed--for surfaces, megabecquerels (microcuries) per milliliter for water, and becquerels (picocuries) per gram for solids such as soils or concrete; and

(ii) specify the survey instrument(s) used and certify that each instrument is properly calibrated and tested.

(11) Specific licenses, including expired licenses, will be terminated by written notice to the licensee when the Executive Secretary determines that:

(a) radioactive material has been properly disposed;

(b) reasonable effort has been made to eliminate residual radioactive contamination, if present; and

(c) documentation is provided to the Executive Secretary that:

(i) a radiation survey has been performed which demonstrates that the premises are suitable for release in accordance with the criteria for decommissioning in Sections R313-15-401 through R313-15-406; or

(ii) other information submitted by the licensee is sufficient to demonstrate that the premises are suitable for release in accordance with the criteria for decommissioning in Sections R313-15-401 through R313-15-406.

R313-22-37. Renewal of Licenses.

Application for renewal of a specific license shall be filed on a form prescribed by the Executive Secretary and in accordance with Section R313-22-32.

R313-22-38. Amendment of Licenses at Request of Licensee.

Applications for amendment of a license shall be filed in accordance with Section R313-22-32 and shall specify the respects in which the licensee desires the license to be amended and the grounds for the amendment.

R313-22-39. Executive Secretary Action on Applications to Renew or Amend.

In considering an application by a licensee to renew or amend the license, the Executive Secretary will use the criteria set forth in Sections R313-22-33, R313-22-50, and R313-22-75 and in Rules R313-24, R313-25, R313-32, R313-34, R313-36, or R313-38, as applicable.

R313-22-50. Special Requirements for Specific Licenses of Broad Scope.

Authority to transfer possession or control by the manufacturer, processor, or producer of any equipment, device,

commodity or other product containing byproduct material whose subsequent possession, use, transfer and disposal by all other persons who are exempted from regulatory requirements may be obtained only from the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

(1) The different types of broad licenses are set forth below:

(a) A "Type A specific license of broad scope" is a specific license authorizing receipt, acquisition, ownership, possession, use and transfer of any chemical or physical form of the radioactive material specified in the license, but not exceeding quantities specified in the license, for any authorized purpose. The quantities specified are usually in the multicurie range.

(b) A "Type B specific license of broad scope" is a specific license authorizing receipt, acquisition, ownership, possession, use and transfer of any chemical or physical form of radioactive material specified in Section R313-22-100 for any authorized purpose. The possession limit for a Type B broad license, if only one radionuclide is possessed thereunder, is the quantity specified for that radionuclide in Section R313-22-100, Column I. If two or more radionuclides are possessed thereunder, the possession limits are determined as follows: For each radionuclide, determine the ratio of the quantity possessed to the applicable quantity specified in Section R313-22-100, Column I, for that radionuclide. The sum of the ratios for the radionuclides possessed under the license shall not exceed unity.

(c) A "Type C specific license of broad scope" is a specific license authorizing receipt, acquisition, ownership, possession, use and transfer of any chemical or physical form of radioactive material specified in Section R313-22-100, for any authorized purpose. The possession limit for a Type C broad license, if only one radionuclide is possessed thereunder, is the quantity specified for that radionuclide in Section R313-22-100, Column II. If two or more radionuclides are possessed thereunder, the possession limits are determined as follows: For each radionuclide, determine the ratio of the quantity possessed to the applicable quantity specified in Section R313-22-100, Column II, for that radionuclide. The sum of the ratios for the radionuclides possessed under the license shall not exceed unity.

(2) An application for a Type A specific license of broad scope shall be approved if all of the following are complied with:

(a) the applicant satisfies the general requirements specified in Section R313-22-33;

(10) Manufacture and distribution of sources or devices containing radioactive material for medical use. An application for a specific license to manufacture and distribute sources and devices containing radioactive material to persons licensed under Rule R313-32 for use as a calibration, transmission, or reference source or for the uses listed in Rule R313-32 (incorporating 10 CFR 35.400, 10 CFR 35.500, 10 CFR 35.600, and 35.1000 by reference) will be approved if:

(a) the applicant satisfies the general requirements in Section R313-22-33;

(b) the applicant submits sufficient information regarding each type of source or device pertinent to an evaluation of its radiation safety, including:

(i) the radioactive material contained, its chemical and physical form and amount,

(ii) details of design and construction of the source or device,

(iii) procedures for, and results of, prototype tests to demonstrate that the source or device will maintain its integrity under stresses likely to be encountered in normal use and accidents,

(iv) for devices containing radioactive material, the radiation profile of a prototype device,

(v) details of quality control procedures to assure that production sources and devices meet the standards of the design and prototype tests,

(vi) procedures and standards for calibrating sources and devices,

(viii) instructions for handling and storing the source or device from the radiation safety standpoint, these instructions are to be included on a durable label attached to the source or device or attached to a permanent storage container for the source or device; provided that instructions which are too lengthy for a label may be summarized on the label and printed in detail on a brochure which is referenced on the label;

(c) the label affixed to the source or device, or to the permanent storage container for the source or device, contains information on the radionuclide, quantity and date of assay, and a statement that the source or device is licensed by the Executive Secretary for distribution to persons licensed pursuant to Rule R313-32 (incorporating 10 CFR 35.18, 10 CFR 35.400, 10 CFR 35.500, and 10 CFR 35.600 by reference) or under equivalent regulations of the Nuclear Regulatory Commission, an Agreement State or a Licensing State; provided that labeling for sources which do not require long term storage may be on a leaflet or brochure which accompanies the source;

(d) in the event the applicant desires that the source or device be required to be tested for leakage of radioactive material at intervals longer than six months, the applicant shall include in the application sufficient information to demonstrate that a longer interval is justified by performance characteristics of the source or device or similar sources or devices and by design features that have a significant bearing on the probability or consequences of leakage of radioactive material from the source; and

(e) in determining the acceptable interval for test of leakage of radioactive material, the Executive Secretary shall consider information that includes, but is not limited to:

(i) primary containment or source capsule,

(ii) protection of primary containment,

(iii) method of sealing containment,

(iv) containment construction materials,

(v) form of contained radioactive material,

(vi) maximum temperature withstood during prototype tests,

(vii) maximum pressure withstood during prototype tests,

(viii) maximum quantity of contained radioactive material,

(ix) radiotoxicity of contained radioactive material, and

(x) operating experience with identical sources or devices or similarly designed and constructed sources or devices.

(11) Requirements for license to manufacture and distribute industrial products containing depleted uranium for mass-volume applications.

(a) An application for a specific license to manufacture industrial products and devices containing depleted uranium for use pursuant to Subsection R313-21-21(5) or equivalent regulations of the Nuclear Regulatory Commission or an Agreement State will be approved if:

(i) the applicant satisfies the general requirements specified in Section R313-22-33;

(ii) the applicant submits sufficient information relating to the design, manufacture, prototype testing, quality control procedures, labeling or marking, proposed uses and potential hazards of the industrial product or device to provide reasonable assurance that possession, use or transfer of the depleted uranium in the product or device is not likely to cause an individual to receive a radiation dose in excess of ten percent of the annual limits specified in Subsection R313-15-201(1); and

(iii) the applicant submits sufficient information regarding the industrial product or device and the presence of depleted uranium for a mass-volume application in the product or device to provide reasonable assurance that unique benefits will accrue to the public because of the usefulness of the product or device.

(b) In the case of an industrial product or device whose unique benefits are questionable, the Executive Secretary will approve an application for a specific license under Subsection R313-22-75(11) only if the product or device is found to combine a high degree of utility and low probability of uncontrolled disposal and dispersal of significant quantities of

depleted uranium into the environment.

(c) The Executive Secretary may deny an application for a specific license under Subsection R313-22-75(11) if the end use of the industrial product or device cannot be reasonably foreseen.

(d) Persons licensed pursuant to Subsection R313-22-75(11)(a) shall:

(i) maintain the level of quality control required by the license in the manufacture of the industrial product or device, and in the installation of the depleted uranium into the product or device;

(ii) label or mark each unit to:

(A) identify the manufacturer of the product or device and the number of the license under which the product or device was manufactured, the fact that the product or device contains depleted uranium, and the quantity of depleted uranium in each product or device; and

R313-22-201. Serialization of Nationally Tracked Sources.

Each licensee who manufacturers a nationally tracked source after October 19, 2007, shall assign a unique serial number to each nationally tracked source. Serial numbers must be composed only of alpha-numeric characters.

R313-22-210. Registration of Product Information.

Licensees who manufacture or initially distribute a sealed source or device containing a sealed source whose product is intended for use under a specific license or general license are deemed to have provided reasonable assurance that the radiation safety properties of the source or device are adequate to protect health and minimize danger to life and the environment if the sealed source or device has been evaluated in accordance with 10 CFR 32.210 (2010) or equivalent regulations of an Agreement State.

R313. Environmental Quality, Radiation Control.
R313-25. License Requirements for Land Disposal of Radioactive Waste - General Provisions.
R313-25-1. Purpose and Authority.

(1) The purpose of this rule is to prescribe the requirements for the issuance of licenses for the land disposal of wastes received from other persons.

(2) The rules set forth herein are adopted pursuant to the provisions of Subsections 19-3-104(4), 19-3-104(8), 19-3-104(11), and 19-3-104(12).

(3) The requirements of R313-25 are in addition to, and not in substitution for, other applicable requirements of these rules.

R313-25-2. Definitions.

As used in R313-25, the following definitions apply:

"Active maintenance" means significant activity needed during the period of institutional control to maintain a reasonable assurance that the performance objectives in R313-25-19 and R313-25-20 are met. Active maintenance may include the pumping and treatment of water from a disposal unit, the replacement of a disposal unit cover, or other episodic or continuous measures. Active maintenance does not include custodial activities like repair of fencing, repair or replacement of monitoring equipment, revegetation, minor additions to soil cover, minor repair of disposal unit covers, and general disposal site upkeep.

"Buffer zone" means a portion of the disposal site that is controlled by the licensee and that lies under the disposal units and between the disposal units and the boundary of the site.

"Commencement of construction" means clearing of land, excavation, or other substantial action that could adversely affect the environment of a land disposal facility. The term does not mean disposal site exploration, necessary roads for disposal site exploration, borings to determine foundation conditions, or other preconstruction monitoring or testing to establish background information related to the suitability of the disposal site or the protection of environmental values.

"Custodial agency" means an agency of the government designated to act on behalf of the government owner of the disposal site.

"Disposal" means the isolation of wastes from the biosphere by placing them in a land disposal facility.

"Disposal site" means that portion of a land disposal facility which is used for disposal of waste. It consists of disposal units and a buffer zone.

"Disposal unit" means a discrete portion of the disposal site into which waste is placed for disposal. For near-surface disposal, the disposal unit may be a trench.

"Engineered barrier" means a man-made structure or device intended to improve the land disposal facility's performance under R313-25.

"Hydrogeologic unit" means a soil or rock unit or zone that has a distinct influence on the storage or movement of ground water.

"Inadvertent intruder" means a person who may enter the disposal site after closure and engage in activities unrelated to post closure management, such as agriculture, dwelling construction, or other pursuits which could, by disturbing the site, expose individuals to radiation.

"Intruder barrier" means a sufficient depth of cover over the waste that inhibits contact with waste and helps to ensure that radiation exposures to an inadvertent intruder will meet the performance objectives set forth in R313-25, or engineered structures that provide equivalent protection to the inadvertent intruder.

"Land disposal facility" means the land, buildings and structures, and equipment which are intended to be used for the disposal of radioactive waste.

"Monitoring" means observing and making measurements to provide data to evaluate the performance and characteristics of the disposal site.

"Near-surface disposal facility" means a land disposal facility in which waste is disposed of within approximately the upper 30 meters of the earth's surface.

"Site closure and stabilization" means those actions that are taken upon completion of operations that prepare the disposal site for custodial care, and that assure that the disposal site will remain stable and will not need ongoing active maintenance.

"Stability" means structural stability.

"Surveillance" means monitoring and observation of the disposal site to detect needs for maintenance or custodial care, to observe evidence of intrusion, and to ascertain compliance with other license and regulatory requirements.

"Treatment" means the stabilization or the reduction in volume of waste by a chemical or a physical process.

"Waste" means those low-level radioactive wastes containing radioactive material that are acceptable for disposal in a land disposal facility. For the purposes of this definition, low-level radioactive waste means radioactive waste not classified as high-level radioactive waste, transuranic waste, spent nuclear fuel, or byproduct material as defined in (b), (c), and (d) of the definition for byproduct material found in Subsection R313-12-3.

R313-25-3. Pre-licensing Plan Approval Criteria for Siting of Commercial Radioactive Waste Disposal Facilities.

(1) Persons proposing to construct or operate commercial radioactive waste disposal facilities, including waste incinerators, shall obtain a plan approval from the Executive Secretary before applying for a license. Plans shall meet the siting criteria and plan approval requirements of Section R313-25-3.

(2) The siting criteria and plan approval requirements in R313-25-3 apply to prelicensing plan approval applications.

R313-25-8. Technical Analyses.

(1) The licensee or applicant shall conduct a site-specific performance assessment and receive Executive Secretary approval prior to accepting any radioactive waste if:

(a) the waste was not considered in the development of the limits on Class A waste and not included in the analyses of the Draft Environmental Impact Statement on 10 CFR Part 61 "Licensing Requirements for Land Disposal of Radioactive Waste," NUREG-0782. U.S. Nuclear Regulatory Commission. September 1981, or

(b) the waste is likely to result in greater than 10 percent of the dose limits in R313-25-19 during the time period at which peak dose would occur, or

(c) the waste will result in greater than 10 percent of the total site source term over the operational life of the facility, or

(d) the disposal of the waste would result in an unanalyzed condition not considered in R313-25.

(2) A licensee that has a previously-approved site-specific performance assessment that addressed a radioactive waste for which a site-specific performance assessment would otherwise be required under R313-25-8(1) shall notify the Executive Secretary of the applicability of the previously-approved site-specific performance assessment at least 60 days prior to the anticipated acceptance of the radioactive waste.

(3) The licensee shall not accept radioactive waste until the Executive Secretary has approved the information submitted pursuant to R313-25-8(1) or (2).

(4) The licensee or applicant shall also include in the specific technical information the following analyses needed to demonstrate that the performance objectives of R313-25 will be met:

(a) Analyses demonstrating that the general population will be protected from releases of radioactivity shall consider the pathways of air, soil, ground water, surface water, plant uptake, and exhumation by burrowing animals. The analyses shall clearly identify and differentiate between the roles performed by the natural disposal site characteristics and design features in isolating and segregating the wastes. The analyses shall clearly demonstrate a reasonable assurance that the exposures to humans from the release of radioactivity will not exceed the limits set forth in R313-25-19.

(b) Analyses of the protection of inadvertent intruders shall demonstrate a reasonable assurance that the waste classification and segregation requirements will be met and that adequate barriers to inadvertent intrusion will be provided.

(c) Analysis of the protection of individuals during operations shall include assessments of expected exposures due to routine operations and likely accidents during handling, storage, and disposal of waste. The analysis shall provide reasonable assurance that exposures will be controlled to meet the requirements of R313-15.

(d) Analyses of the long-term stability of the disposal site shall be based upon analyses of active natural processes including erosion, mass wasting, slope failure, settlement of wastes and backfill, infiltration through covers over disposal areas and adjacent soils, surface drainage of the disposal site, and the effects of changing lake levels. The analyses shall provide reasonable assurance that there will not be a need for ongoing active maintenance of the disposal site following closure.

(5)(a) Notwithstanding R313-25-8(1), any facility that proposes to land dispose of significant quantities of concentrated depleted uranium (more than one metric ton in total accumulation) after June 1, 2010, shall submit for the Executive Secretary's review and approval a performance assessment that demonstrates that the performance standards specified in 10 CFR Part 61 and corresponding provisions of Utah rules will be met for the total quantities of concentrated depleted uranium and other wastes, including wastes already disposed of and the quantities of concentrated depleted uranium the facility now proposes to dispose. Any such performance assessment shall be revised as needed to reflect ongoing guidance and rulemaking from NRC. For purposes of this performance assessment, the compliance period shall be a minimum of 10,000 years. Additional simulations shall be performed for the period where peak dose occurs and the results shall be analyzed qualitatively.

(b) No facility may dispose of significant quantities of concentrated depleted uranium prior to the approval by the Executive Secretary of the performance assessment required in R313-25-8(5)(a).

(c) For purposes of this R313-25-8(5) only, "concentrated depleted uranium" means waste with depleted uranium

concentrations greater than 5 percent by weight.

R313-25-9. Institutional Information.

The institutional information submitted by the applicant shall include:

(1) A certification by the federal or state agency which owns the disposal site that the agency is prepared to accept transfer of the license when the provisions of R313-25-16 are met and will assume responsibility for institutional control after site closure and for post-closure observation and maintenance.

(2) Evidence, if the proposed disposal site is on land not owned by the federal or a state government, that arrangements have been made for assumption of ownership in fee by the federal or a state agency.

R313-25-10. Financial Information.

This information shall demonstrate that the applicant is financially qualified to carry out the activities for which the license is sought. The information shall meet other financial assurance requirements of R313-25.

R313-25-11. Requirements for Issuance of a License.

A license for the receipt, possession, and disposal of waste containing radioactive material will be issued by the Executive Secretary upon finding that:

(1) the issuance of the license will not constitute an unreasonable risk to the health and safety of the public;

(2) the applicant is qualified by reason of training and experience to carry out the described disposal operations in a manner that protects health and minimizes danger to life or property;

(3) the applicant's proposed disposal site, disposal design, land disposal facility operations, including equipment, facilities, and procedures, disposal site closure, and post-closure institutional control, are adequate to protect the public health and safety as specified in the performance objectives of R313-25-19;

(4) the applicant's proposed disposal site, disposal site design, land disposal facility operations, including equipment, facilities, and procedures, disposal site closure, and post-closure institutional control are adequate to protect the public health and safety in accordance with the performance objectives of R313-25-20;

(5) the applicant's proposed land disposal facility operations, including equipment, facilities, and procedures, are adequate to protect the public health and safety in accordance with R313-15;

(6) the applicant's proposed disposal site, disposal site design, land disposal facility operations, disposal site closure, and post-closure institutional control plans are adequate to protect the public health and safety in that they will provide reasonable assurance of the long-term stability of the disposed waste and the disposal site and will eliminate to the extent practicable the need for continued maintenance of the disposal site following closure;

(7) the applicant's demonstration provides reasonable assurance that the requirements of R313-25 will be met;

(8) the applicant's proposal for institutional control provides reasonable assurance that control will be provided for the length of time found necessary to ensure the findings in R313-25-11(3) through (6) and that the institutional control meets the requirements of R313-25-28.

(9) the financial or surety arrangements meet the requirements of R313-25.

R313-25-12. Conditions of Licenses.

(1) A license issued under R313-25, or a right thereunder, may not be transferred, assigned, or disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of the license to a person, unless the Executive Secretary finds, after securing full information, that the transfer is in accordance with the provisions of the Radiation Control Act and Rules and gives his consent in writing in the form of a license amendment.

(2) The Executive Secretary may require the licensee to submit written statements under oath.

(3) The license will be terminated only on the full implementation of the final closure plan, including post-closure observation and maintenance, as approved by the Executive Secretary.

(4) The licensee shall submit to the provisions of the Act now or hereafter in effect, and to all findings and orders of the Executive Secretary. The terms and conditions of the license are subject to amendment, revision, or modification, by reason of amendments to, or by reason of rules, and orders issued in accordance with the terms of the Act and these rules.

(5) Persons licensed by the Executive Secretary pursuant to R313-25 shall confine possession and use of the materials to the locations and purposes authorized in the license.

(6) The licensee shall not dispose of waste until the Executive Secretary has inspected the land disposal facility and has found it to conform with the description, design, and construction described in the application for a license.

(7) The Executive Secretary may incorporate, by rule or order, into licenses at the time of issuance or thereafter, additional requirements and conditions with respect to the licensee's receipt, possession, and disposal of waste as the Executive Secretary deems appropriate or necessary in order to:

(a) protect health or to minimize danger to life or property;

(b) require reports and the keeping of records, and to provide for inspections of licensed activities as the Executive Secretary deems necessary or appropriate to effectuate the purposes of the Radiation Control Act and Rules.

(8) The authority to dispose of wastes expires on the expiration date stated in the license. An expiration date on a license applies only to the above ground activities and to the authority to dispose of waste. Failure to renew the license shall not relieve the licensee of responsibility for implementing site closure, post-closure observation, and transfer of the license to the site owner.

R313-25-13. Application for Renewal or Closure.

(1) An application for renewal or an application for closure under R313-25-14 shall be filed at least 90 days prior to license expiration.

(2) Applications for renewal of a license shall be filed in accordance with R313-25-5 through 25-10. Applications for closure shall be filed in accordance with R313-25-14. Information contained in previous applications, statements, or reports filed with the Executive Secretary under the license may be incorporated by reference if the references are clear and specific.

(3) If a licensee has filed an application in proper form for renewal of a license, the license shall not expire unless and until the Executive Secretary has taken final action to deny application for renewal.

(4) In evaluating an application for license renewal, the Executive Secretary will apply the criteria set forth in R313-25-11.

R313-25-14. Contents of Application for Site Closure and Stabilization.

(1) Prior to final closure of the disposal site, or as otherwise directed by the Executive Secretary, the licensee shall submit an application to amend the license for closure. This closure application shall include a final revision and specific details of the disposal site closure plan included in the original license application submitted and approved under R313-25-

7(7). The plan shall include the following:

(a) additional geologic, hydrologic, or other data pertinent to the long-term containment of emplaced wastes obtained during the operational period;

(b) the results of tests, experiments, or other analyses relating to backfill of excavated areas, closure and sealing, waste migration and interaction with emplacement media, or other tests, experiments, or analyses pertinent to the long-term containment of emplaced waste within the disposal site;

(c) proposed revision of plans for:

(i) decontamination or dismantlement of surface facilities;

(ii) backfilling of excavated areas; or

(iii) stabilization of the disposal site for post-closure care.

(d) Significant new information regarding the environmental impact of closure activities and long-term performance of the disposal site.

(2) Upon review and consideration of an application to amend the license for closure submitted in accordance with R313-25-14(1), the Executive Secretary shall issue an amendment authorizing closure if there is reasonable assurance that the long-term performance objectives of R313-25 will be met.

R313-25-15. Post-Closure Observation and Maintenance.

The licensee shall observe, monitor, and carry out necessary maintenance and repairs at the disposal site until the site closure is complete and the license is transferred by the Executive Secretary in accordance with R313-25-16. The licensee shall remain responsible for the disposal site for an additional five years. The Executive Secretary may approve closure plans that provide for shorter or longer time periods of post-closure observation and maintenance, if sufficient rationale is developed for the variance.

R313-25-16. Transfer of License.

Following closure and the period of post-closure observation and maintenance, the licensee may apply for an amendment to transfer the license to the disposal site owner. The license shall be transferred when the Executive Secretary finds:

(1) that the disposal site was closed according to the licensee's approved disposal site closure plan;

(2) that the licensee has provided reasonable assurance that the performance objectives of R313-25 have been met;

(3) that funds for care and records required by R313-25-33(4) and (5) have been transferred to the disposal site owner;

(4) that the post-closure monitoring program is operational and can be implemented by the disposal site owner; and

(5) that the Federal or State agency which will assume responsibility for institutional control of the disposal site is prepared to assume responsibility and ensure that the institutional requirements found necessary under R313-25-11(8) will be met.

R313-25-17. Termination of License.

(1) Following the period of institutional control needed to meet the requirements of R313-25-11, the licensee may apply for an amendment to terminate the license.

(2) This application will be reviewed in accordance with the provisions of R313-22-32.

(3) A license shall be terminated only when the Executive Secretary finds:

(a) that the institutional control requirements of R313-25-11(8) have been met;

(b) that additional requirements resulting from new information developed during the institutional control period have been met;

(c) that permanent monuments or markers warning against intrusion have been installed; and

(d) that records required by R313-25-33(4) and (5) have been sent to the party responsible for institutional control of the disposal site and a copy has been sent to the Executive Secretary immediately prior to license termination.

R313-25-18. General Requirement.

Land disposal facilities shall be sited, designed, operated, closed, and controlled after closure so that reasonable assurance exists that exposures to individuals do not exceed the limits stated in R313-25-19 and 25-22.

R313-25-19. Protection of the General Population from Releases of Radioactivity.

Concentrations of radioactive material which may be released to the general environment in ground water, surface water, air, soil, plants or animals shall not result in an annual dose exceeding an equivalent of 0.25 mSv (0.025 rem) to the whole body, 0.75 mSv (0.075 rem) to the thyroid, and 0.25 mSv (0.025 rem) to any other organ of any member of the public. No greater than 0.04 mSv (0.004 rem)committed effective dose equivalent or total effective dose equivalent to any member of the public shall come from groundwater. Reasonable efforts should be made to maintain releases of radioactivity in effluents to the general environment as low as is reasonably achievable.

R313-25-20. Protection of Individuals from Inadvertent Intrusion.

Design, operation, and closure of the land disposal facility shall ensure protection of any individuals inadvertently intruding into the disposal site and occupying the site or contacting the waste after active institutional controls over the disposal site are removed.

R313-25-21. Protection of Individuals During Operations.

Operations at the land disposal facility shall be conducted in compliance with the standards for radiation protection set out in R313-15 of these rules, except for release of radioactivity in effluents from the land disposal facility, which shall be governed by R313-25-19. Every reasonable effort should be made to maintain radiation exposures as low as is reasonably achievable, ALARA.

R313-25-22. Stability of the Disposal Site After Closure.

The disposal facility shall be sited, designed, used, operated, and closed to achieve long-term stability of the disposal site and to eliminate, to the extent practicable, the need for ongoing active maintenance of the disposal site following closure so that only surveillance, monitoring, or minor custodial care are required.

R313-25-23. Disposal Site Suitability Requirements for Land Disposal - Near-Surface Disposal.

(1) The primary emphasis in disposal site suitability is given to isolation of wastes and to disposal site features that ensure that the long-term performance objectives are met.

(2) The disposal site shall be capable of being characterized, modeled, analyzed and monitored.

(3) Within the region where the facility is to be located, a disposal site should be selected so that projected population growth and future developments are not likely to affect the ability of the disposal facility to meet the performance objectives of R313-25.

(4) Areas shall be avoided having known natural resources which, if exploited, would result in failure to meet the performance objectives of R313-25.

(5) The disposal site shall be generally well drained and free of areas of flooding or frequent ponding. Waste disposal shall not take place in a 100-year flood plain, coastal high-hazard area or wetland, as defined in Executive Order 11988,

"Floodplain Management Guidelines."

(6) Upstream drainage areas shall be minimized to decrease the amount of runoff which could erode or inundate waste disposal units.

(7) The disposal site shall provide sufficient depth to the water table that ground water intrusion, perennial or otherwise, into the waste will not occur. The Executive Secretary will consider an exception to this requirement to allow disposal below the water table if it can be conclusively shown that disposal site characteristics will result in molecular diffusion being the predominant means of radionuclide movement and the rate of movement will result in the performance objectives being met. In no case will waste disposal be permitted in the zone of fluctuation of the water table.

(8) The hydrogeologic unit used for disposal shall not discharge ground water to the surface within the disposal site.

(9) Areas shall be avoided where tectonic processes such as faulting, folding, seismic activity, vulcanism, or similar phenomena may occur with such frequency and extent to significantly affect the ability of the disposal site to meet the performance objectives of R313-25 or may preclude defensible modeling and prediction of long-term impacts.

(10) Areas shall be avoided where surface geologic processes such as mass wasting, erosion, slumping, landsliding, or weathering occur with sufficient such frequency and extent to significantly affect the ability of the disposal site to meet the performance objectives of R313-25, or may preclude defensible modeling and prediction of long-term impacts.

(11) The disposal site shall not be located where nearby facilities or activities could adversely impact the ability of the site to meet the performance objectives of R313-25 or significantly mask the environmental monitoring program.

R313-25-24. Disposal Site Design for Near-Surface Land Disposal.

(1) Site design features shall be directed toward long-term isolation and avoidance of the need for continuing active maintenance after site closure.

(2) The disposal site design and operation shall be compatible with the disposal site closure and stabilization plan and lead to disposal site closure that provides reasonable assurance that the performance objectives will be met.

(3) The disposal site shall be designed to complement and improve, where appropriate, the ability of the disposal site's natural characteristics to assure that the performance objectives will be met.

(4) Covers shall be designed to minimize, to the extent practicable, water infiltration, to direct percolating or surface water away from the disposed waste, and to resist degradation by surface geologic processes and biotic activity.

(5) Surface features shall direct surface water drainage away from disposal units at velocities and gradients which will not result in erosion that will require ongoing active maintenance in the future.

(6) The disposal site shall be designed to minimize to the extent practicable the contact of water with waste during storage, the contact of standing water with waste during disposal, and the contact of percolating or standing water with wastes after disposal.

R313-25-25. Near Surface Land Disposal Facility Operation and Disposal Site Closure.

(1) Wastes designated as Class A pursuant to R313-15-1009 of these rules shall be segregated from other wastes by placing them in disposal units which are sufficiently separated from disposal units for the other waste classes so that any interaction between Class A wastes and other wastes will not result in the failure to meet the performance objectives of R313-25. This segregation is not necessary for Class A wastes if they meet the stability requirements of R313-15-1009(2)(b).

(2) Wastes designated as Class C pursuant to R313-15-1009 shall be disposed of so that the top of the waste is a minimum of five meters below the top surface of the cover or shall be disposed of with intruder barriers that are designed to protect against an inadvertent intrusion for at least 500 years.

(3) Except as provided in R313-25-1(1), only waste classified as Class A, B, or C shall be acceptable for near-surface disposal. Wastes shall be disposed of in accordance with the requirements of R313-25-25(4) through 11.

(4) Wastes shall be emplaced in a manner that maintains the package integrity during emplacement, minimizes the void spaces between packages, and permits the void spaces to be filled.

(5) Void spaces between waste packages shall be filled with earth or other material to reduce future subsidence within the fill.

(6) Waste shall be placed and covered in a manner that limits the radiation dose rate at the surface of the cover to levels that at a minimum will permit the licensee to comply with all provisions of R313-15-105 at the time the license is transferred pursuant to R313-25-16.

(7) The boundaries and locations of disposal units shall be accurately located and mapped by means of a land survey. Near-surface disposal units shall be marked in such a way that the boundaries of the units can be easily defined. Three permanent survey marker control points, referenced to United States Geological Survey or National Geodetic Survey control stations, shall be established on the site to facilitate surveys. The United States Geological Survey or National Geodetic Survey control stations shall provide horizontal and vertical controls as checked against United States Geological Survey or National Geodetic Survey record files.

(8) A buffer zone of land shall be maintained between any buried waste and the disposal site boundary and beneath the disposed waste. The buffer zone shall be of adequate dimensions to carry out environmental monitoring activities specified in R313-25-26(4) and take mitigative measures if needed.

(9) Closure and stabilization measures as set forth in the approved site closure plan shall be carried out as the disposal units are filled and covered.

(10) Active waste disposal operations shall not have an adverse effect on completed closure and stabilization measures.

(11) Only wastes containing or contaminated with radioactive material shall be disposed of at the disposal site.

(12) Proposals for disposal of waste that are not generally acceptable for near-surface disposal because the wastes form and disposal methods shall be different and, in general, more stringent than those specified for Class C waste, may be submitted to the Executive Secretary for approval.

R313-25-26. Environmental Monitoring.

(1) At the time a license application is submitted, the applicant shall have conducted a preoperational monitoring program to provide basic environmental data on the disposal site characteristics. The applicant shall obtain information about the ecology, meteorology, climate, hydrology, geology, geochemistry, and seismology of the disposal site. For those characteristics that are subject to seasonal variation, data shall cover at least a 12-month period.

(2) During the land disposal facility site construction and operation, the licensee shall maintain an environmental monitoring program. Measurements and observations shall be made and recorded to provide data to evaluate the potential health and environmental impacts during both the construction and the operation of the facility and to enable the evaluation of long-term effects and need for mitigative measures. The monitoring system shall be capable of providing early warning

of releases of waste from the disposal site before they leave the site boundary.

(3) After the disposal site is closed, the licensee responsible for post-operational surveillance of the disposal site shall maintain a monitoring system based on the operating history and the closure and stabilization of the disposal site. The monitoring system shall be capable of providing early warning of releases of waste from the disposal site before they leave the site boundary.

(4) The licensee shall have plans for taking corrective measures if the environmental monitoring program detects migration of waste which would indicate that the performance objectives may not be met.

R313-25-27. Alternative Requirements for Design and Operations.

The Executive Secretary may, upon request or on his own initiative, authorize provisions other than those set forth in R313-25-24 and 25-26 for the segregation and disposal of waste and for the design and operation of a land disposal facility on a specific basis, if it finds reasonable assurance of compliance with the performance objectives of R313-25.

R313-25-28. Institutional Requirements.

(1) Land Ownership. Disposal of waste received from other persons may be permitted only on land owned in fee by the Federal or a State government.

(2) Institutional Control. The land owner or custodial agency shall conduct an institutional control program to physically control access to the disposal site following transfer of control of the disposal site from the disposal site operator. The institutional control program shall also include, but not be limited to, conducting an environmental monitoring program at the disposal site, periodic surveillance, minor custodial care, and other equivalents as determined by the Executive Secretary, and administration of funds to cover the costs for these activities. The period of institutional controls will be determined by the Executive Secretary, but institutional controls may not be relied upon for more than 100 years following transfer of control of the disposal site to the owner.

R313-25-30. Applicant Qualifications and Assurances.

The applicant shall show that it either possesses the necessary funds, or has reasonable assurance of obtaining the necessary funds, or by a combination of the two, to cover the estimated costs of conducting all licensed activities over the planned operating life of the project, including costs of construction and disposal.

R313-25-31. Funding for Disposal Site Closure and Stabilization.

(1) The applicant shall provide assurances prior to the commencement of operations that sufficient funds will be available to carry out disposal site closure and stabilization, including:

(a) decontamination or dismantlement of land disposal facility structures, and

(b) closure and stabilization of the disposal site so that following transfer of the disposal site to the site owner, the need for ongoing active maintenance is eliminated to the extent practicable and only minor custodial care, surveillance, and monitoring are required. These assurances shall be based on Executive Secretary approved cost estimates reflecting the Executive Secretary approved plan for disposal site closure and stabilization. The applicant's cost estimates shall take into account total costs that would be incurred if an independent contractor were hired to perform the closure and stabilization work.

(2) In order to avoid unnecessary duplication and expense, the Executive Secretary will accept financial sureties that have been consolidated with earmarked financial or surety arrangements established to meet requirements of Federal or other State agencies or local governmental bodies for decontamination, closure, and stabilization. The Executive Secretary will accept these arrangements only if they are considered adequate to satisfy the requirements of R313-25-31 and if they clearly identify that the portion of the surety which covers the closure of the disposal site is clearly identified and committed for use in accomplishing these activities.

(3) The licensee's financial or surety arrangement shall be submitted annually for review by the Executive Secretary to assure that sufficient funds will be available for completion of the closure plan.

(4) The amount of the licensee's financial or surety arrangement shall change in accordance with changes in the predicted costs of closure and stabilization. Factors affecting closure and stabilization cost estimates include inflation, increases in the amount of disturbed land, changes in engineering plans, closure and stabilization that have already been accomplished, and other conditions affecting costs. The financial or surety arrangement shall be sufficient at all times to cover the costs of closure and stabilization of the disposal units that are expected to be used before the next license renewal.

(5) The financial or surety arrangement shall be written for a specified period of time and shall be automatically renewed unless the person who issues the surety notifies the Executive Secretary; the beneficiary, the site owner; and the principal, the licensee, not less than 90 days prior to the renewal date of its intention not to renew. In such a situation, the licensee shall submit a replacement surety within 30 days after notification of cancellation. If the licensee fails to provide a replacement surety acceptable to the Executive Secretary, the beneficiary may collect on the original surety.

(6) Proof of forfeiture shall not be necessary to collect the surety so that, in the event that the licensee could not provide an acceptable replacement surety within the required time, the surety shall be automatically collected prior to its expiration. The conditions described above shall be clearly stated on surety instruments.

(7) Financial or surety arrangements generally acceptable to the Executive Secretary include surety bonds, cash deposits, certificates of deposit, deposits of government securities, escrow accounts, irrevocable letters or lines of credit, trust funds, and combinations of the above or other types of arrangements as may be approved by the Executive Secretary. Self-insurance, or an arrangement which essentially constitutes self-insurance, will not satisfy the surety requirement for private sector applicants.

(8) The licensee's financial or surety arrangement shall remain in effect until the closure and stabilization program has been completed and approved by the Executive Secretary, and the license has been transferred to the site owner.

R313-25-32. Financial Assurances for Institutional Controls.

(1) Prior to the issuance of the license, the applicant shall provide for Executive Secretary approval, a binding arrangement, between the applicant and the disposal site owner that ensures that sufficient funds will be available to cover the costs of monitoring and required maintenance during the institutional control period. The binding arrangement shall be reviewed annually by the Executive Secretary to ensure that changes in inflation, technology, and disposal facility operations are reflected in the arrangements.

(2) Subsequent changes to the binding arrangement specified in R313-25-32(1) relevant to institutional control shall be submitted to the Executive Secretary for prior approval.

R313-25-33. Maintenance of Records, Reports, and Transfers.

(2) Records which are required by these rules or by license conditions shall be maintained for a period specified by the appropriate rules or by license condition. If a retention period is not otherwise specified, these records shall be maintained and transferred to the officials specified in R313-25-33(4) as a condition of license termination unless the Executive Secretary otherwise authorizes their disposition.

(3) Records which shall be maintained pursuant to R313-25 may be the original or a reproduced copy or microfilm if this reproduced copy or microfilm is capable of producing copy that is clear and legible at the end of the required retention period.

(e) For patients who have not passed reproductive age, gonad shielding of not less than 0.5 mm lead equivalent material shall be used during radiographic procedures in which the gonads are in the useful beam, except for cases in which this would interfere with the diagnostic procedure.

(f) Individuals shall be exposed to the useful beam for healing arts purposes only when the exposure has been specifically ordered and authorized by a licensed practitioner of the healing arts after a medical consultation. Deliberate exposures for the following purposes are prohibited:

(i) exposure of an individual for training, demonstration or other non-healing arts purposes; and

(2) A copy of the Qualified Expert's conclusions regarding shielding specifications must be submitted to the Executive Secretary within 14 working days.

(3) The Executive Secretary may require additional modifications should a subsequent analysis of operating conditions, for example, a change in workload or use and occupancy factors, indicate the possibility of an individual receiving a dose in excess of the limits prescribed in R313-15.

R313-28-35. General Requirements for Diagnostic X-Ray Systems.

In addition to other requirements of R313-28, all diagnostic x-ray systems shall meet the following requirements:

R313-70-1. Purpose and Authority.

(1) The purpose of this rule is to prescribe the requirements to assess fees of registrants and licensees possessing sources of radiation.

(2) The rules set forth herein are adopted pursuant to the provisions of Subsection 19-3-104(6).

R313-70-2. Scope.

The requirements of R313-70 apply to persons who receive, possess, or use sources of radiation provided: however, that nothing in these rules shall apply to the extent a person is subject to regulation by the U.S. Nuclear Regulatory Commission.

R313-70-3. Communications.

Communications concerning the rules in R313-70 should be addressed to the Executive Secretary, and may be sent to the Division of Radiation Control, Department of Environmental Quality. Communications may be delivered in person at the Division of Radiation Control offices.

R313-70-5. Payment of Fees.

(1) New Application Fee: Applications for machine registration or radioactive material licensing for which a fee is prescribed, shall be accompanied by a remittance in the full amount of the fee. Applications will not be accepted for filing or processing prior to payment of the full amount specified. Applications for which no remittance is received will be returned to the applicant. Application fees will be charged irrespective of the Executive Secretary's disposition of the application or a withdrawal of the application.

(2) Annual Fee: Persons and individuals who are subject to licensing or registration of radioactive material or radiation machine registration with the Department of Environmental Quality under provisions of the Utah Radiation Control Rules, are assessed an annual fee in accordance with categories of R313-70-7 and R313-70-8. The appropriate fee shall be filed annually with the Executive Secretary, by July 30 for registrants or by the anniversary date for licensees. Fees for radiation machine registration will be considered late if not received annually by the last day of August. Licensees may be assessed late fees if license fees are not received within 30 days after the license anniversary date. Late fees may also be assessed for successive 30 day periods during which the annual fee or registration fee remains unpaid.

(3) Inspection Fee: Persons and entities who, under provisions of the Utah Radiation Control Rules, are subject to radiation machine registration with the Department of Environmental Quality are assessed an inspection fee in accordance with R313-70-8. Fees for inspection of a radiation machine are due within 30 days of receipt of an invoice from the Agency. Registrants may be assessed late fees if inspection fees are not received in a timely manner.

(4) Failure to pay the prescribed fee: the Executive Secretary will not process applications and may suspend or revoke licenses or registrations or may issue an order with respect to the activities as the Executive Secretary determines to be appropriate or necessary in order to carry out the provisions of this part of R313-70, and of the Act.

(a) General license certificates of registration and specific licenses issued pursuant to the provisions in R313-21 or R313-22, will be valid for a period of five years unless failure to submit appropriate fee occurs. Machine registrations will be valid for one year during the interval outlined in R313-16-230. Failure to submit appropriate fees will render the license, certificate or registration invalid, at which time a new application with appropriate fees shall be submitted.

(b) Renewal applications shall be filed in a timely manner in accordance with R313-22-37 or R313-16-230. The radioactive material license will expire on the date specified on the license. Machine registration will expire as outlined in R313-16-230. An expired license cannot be renewed, rather the licensee will be required to submit an application for a new license and submit the appropriate application and new license fee.

(4) Method of Payment: Fees shall be made payable to: Division of Radiation Control, Department of Environmental Quality.

R313-70-7. License Categories and Types of Fees for Radioactive Materials Licenses.

Fees shall be established in accordance with the Legislative Appropriations Act. Copies of established fee schedules may be obtained from the Executive Secretary.

R380. Health, Administration.
R380-200. Patient Safety Sentinel Event Reporting.
R380-200-1. Purpose and Authority.

(1) This rule establishes a patient safety sentinel event reporting program. It requires certain health care facilities to report serious patient injuries and to allow an independent, external review of and response to the thoroughness and credibility of the processes of investigating and responding to these events. The reporting under this rule will also help the Department and health care providers to understand patterns of failures in the health care system and to recommend statewide resolutions. It limits access to identifiable health information that facilities report to the Department under this rule.

(2) This rule is authorized by Utah Code Subsections 26-1-30(2)(a), (b), (d), (e), and (g) and Section 26-3-8.

R380-200-2. Definitions.

"Contaminated" means contamination that can be seen with the naked eye, or with use of detection mechanisms in general use, as they become reported or known to the health care facility.

"Facility" means a general acute hospital, critical access hospital, ambulatory surgical center, psychiatric hospital, orthopedic hospital, rehabilitation hospital, chemical dependency/substance abuse hospital or long-term acute care hospital as those terms are defined in Title 26, Chapter 21.

"Incident facility" means a facility where the patient safety sentinel event occurred.

"Medication Error" means medication administration:

(a) of a drug other than as prescribed or indicated;

(b) of a dose other than as prescribed or indicated;

(c) to a patient who was not prescribed the drug;

(d) at a time other than prescribed or indicated;

(e) at a rate other than as prescribed or indicated;

(f) of a improperly prepared drug;

(g) by a means other than as prescribed or indicated; and

(h) administration of a medication to which the patient has a known allergy or drug interaction to the prescribed medication.

"Major permanent loss of function" means sensory, motor, physiologic, or intellectual impairment not present on admission requiring continued treatment or life-style change. When major loss of function cannot be immediately determined, applicability of the policy is not established until either the patient is discharged with continued major loss of function, or two weeks have elapsed with persistent major loss of function, whichever occurs first.

"Patient safety sentinel event" means an event which has resulted in an unanticipated death or major permanent loss of function, not related to the natural course of the patient's illness or underlying condition or is an unexpected occurrence involving death or serious physical or psychological injury, or the risk thereof. Serious injury specifically includes loss of limb or function. The phrase "or the risk thereof" includes any process variation for which a recurrence would carry a significant chance of adverse outcome. Such events are called "sentinel" because they signal the need for immediate investigation and response.

"Root cause analysis" means a process for identifying the basic or causal factor(s) that underlie variation in performance, resulting in the occurrence or possible occurrence of a patient safety sentinel event.

R380-200-3. Reporting of Patient Safety Sentinel Events.

(1) Each facility shall report to the Department all patient safety sentinel events within seventy-two hours of the facility's determination that a patient safety event may have occurred, but in no event later than four hours prior to convening a formal root cause analysis.

(2) Patient safety sentinel events include:

(a) Surgical Events:

(i) Surgery performed on the wrong body part;

(ii) Surgery performed on the wrong patient;

(iii) Incorrect surgical procedure performed on a patient;

(iv) Retention of a foreign object in a patient after surgery or other procedure, except for:

(A) objects intentionally implanted as a part of a planned intervention;

(B) objects present prior to surgery that were intentionally left in place, and

(C) broken microneedles; and

(v) Intraoperative or immediately post-operative death of a patient who the facility classified prior to surgery as Anesthesia Surgical Assessment Class I. "Intraoperative" means literally during surgery. "Immediately post-operative" means within 24 hours after surgery, or other invasive procedure was completed, or after induction of anesthesia if surgery not completed.

(b) Product or Device Events.

(i) Patient death or disability arising from the use of contaminated drugs, devices, or biologics provided by the facility.

(ii) Patient death or disability associated with the use or function of a device in patient care in which the device is used for an off-label use, except where the off-label use is pursuant to informed consent.

(iii) Patient death or disability associated with intravascular air embolism that occurs while being cared for in the facility, except for intravascular air emboli associated with neurosurgical procedures.

(c) Patient Protection Events.

(i) Infant discharged to the wrong person;

(ii) Patient death or disability arising from a patient elopement or the disappearance of other than competent adults;

(iii) Patient suicide while in the facility or within 72 hours of discharge.

(d) Care management Events.

(i) Patient death or major permanent loss of function arising from a medication error;

(3) If a facility suspects that a patient safety sentinel event may have occurred to a patient who was transferred from another facility, the receiving facility shall report the suspected patient safety sentinel event to the facility that initiated the transfer.

(4) The report shall be submitted in a Department-approved paper or electronic format and shall include at a minimum:

(a) facility information;

(b) patient information;

(c) event information

(d) type of occurrence;

R380-200-4. Root Cause Analysis.

(1) The incident facility shall establish a root cause analysis process and designate a responsible individual to be the facility lead for each patient safety sentinel event.

(2) The Department representative may participate in the facility's root cause analysis in a consultative role with the facility lead to enhance the credibility and thoroughness of the root cause analysis. The Department shall notify the facility lead within 72 hours of receiving the report of the patient safety sentinel event if it intends to participate in the facility's root cause analysis. The Department representative shall not be present at the facility's internal root cause analysis meetings unless invited by the facility lead.

(3) Participation in the facility's root cause analysis by the Department representative shall not be construed to imply Department endorsement of the facility's final findings or action plan.

(4) The incident facility and the Department shall each make reasonable accommodations when necessary to allow for the Department representative's participation in the root cause analysis.

(5) If, during the review process, the Department representative discovers problems with the facility's processes that limit either the thoroughness or credibility of the findings or recommendations, the representative shall report these to the designated responsible individual orally within 24 hours of discovery and in writing within 72 hours.

(6) The facility shall conduct a root cause analysis which is timely, thorough and credible to determine whether reasonable system changes would likely prevent a patient safety sentinel event in similar circumstances.

(7) The root cause analysis shall:

(a) focus primarily on systems and processes, not individual performance;

(b) progress from specific, direct causes in clinical processes to contributing causes in organizational processes;

(c) seek to determine related and underlying causes for identified causes; and

(d) identify changes which could be made in systems and processes, either through redesign or development of new systems or processes, that would reduce the risk of such events occurring in the future.

(8) The Department shall determine the root cause analysis to be thorough if it:

(a) involves a complete review of the patient safety sentinel event including interviews with all readily identifiable witnesses and participants and a review of all related documentation;

(b) identifies the human and other factors in the chain of events leading to the final patient safety sentinel event, and the process and system limitations related to their occurrence;

(c) searches readily retrievable records to analyze the underlying systems and processes to determine where redesign might reduce risk;

(d) inquires into all areas appropriate to the specific type of event as described in the Joint Commission for the Accreditation of Healthcare Organizations' "Root Cause Analysis Matrix, Minimum Scope of Root Cause Analysis for Specific Types of Sentinel Events - October 2005" found at http://www.jointcommission.org/NR/rdonlyres/3CB064AC-2CEB-4CBF-85B8-CFC9E7837323/0/se_root_cause_analysis_matrix.pdf, last viewed on February 22, 2007, which is incorporated by reference.

(e) makes reasonable attempts to identify and analyze trends of similar events which have occurred at the facility in the past;

(f) identifies risk points and their potential contributions to this type of event; and

(g) determines potential improvement in processes or systems that would tend to decrease the likelihood of such events in the future, or determining, after analysis, that no such improvement opportunities exist.

(9) The Department shall determine the root cause analysis to be credible if it:

(a) is led by someone with training in root cause analysis processes and who was not involved in the patient safety sentinel event;

(b) involves, if necessary, consultation with either internal or external experts in the processes in question who were not involved in the patient safety sentinel event;

(c) includes participation by the leadership of the organization and by the individuals most closely involved in the processes and systems under review;

(d) is internally consistent, i.e., not contradicting itself or leaving obvious questions unanswered;

(e) provides an explanation for all findings of "not applicable" or "no problem;" and

(f) includes consideration of relevant, available literature.

R380-200-5. Reports and Action Plan.

(1) Within 60 calendar days of determination of the patient safety sentinel event, the incident facility shall submit a final report with an action plan that:

(a) identifies changes that can be implemented to reduce risk, or formulates a rationale for not implementing changes; and

(b) where improvement actions are planned, identifies who is responsible for implementation, when the action will be implemented (including any pilot testing), and how the effectiveness of the actions will be evaluated.

(2) The incident facility shall provide a final report to the facility's administration and the Department in a Department-approved paper or electronic format that includes:

(a) type of harm;

(b) contributing factors;

(c) actions taken.

(3) If the Department representative identifies problems with the processes that limit the thoroughness or credibility of the findings and recommendations and that have not been corrected after reporting them to the designated responsible individual, the representative may submit a separate written dissenting report to the administrator of the incident facility, and the Department.

(4) The incident facility may seek review of the dissenting report by filing a request for agency as allowed by the Utah Administrative Procedures Act and Department rule. If a dissenting report is not challenged or is upheld on review:

(a) the facility shall include it in the facility's records of the root cause analysis; and

(b) the Department may forward it, together with the facility's report, to the appropriate state agencies responsible for licensing the facility.

R380-200-6. Confidentiality.

(1) Information that the Department holds under this rule is confidential under the provisions of Title 26, Chapter 3. Because of the public interest needs to foster health care systems improvements, the Department exercises its discretion under Section 26-3-8 and shall not release information collected under this rule to any person pursuant to the provisions of Subsections 26-3-7(1) or (8).

(2) Information produced or collected by a facility is confidential and privileged under the provisions of Title 26, Chapter 25.

R380-200-7. Extensions and Waivers.

(1) The Department may grant an extension of any time requirement of this rule if the facility demonstrates that the delay is due to factors beyond its control or that the delay will not adversely affect the required root cause analysis and the purposes of this rule. A facility requesting a waiver must submit the request to the department representative prior to the deadline for the required action.

(2) The Department may grant a waiver of any other provision of this rule if the facility demonstrates that the waiver will not adversely affect the required root cause analysis and the purposes of this rule.

R380-280-8. Advisory Panel.

The department shall establish a multi-disciplinary advisory panel to assist it in carrying out its responsibilities under this rule. Representatives from facilities that are required to report under this rule shall be included as members of the advisory panel.

R380-200-9. Penalties.

As required by Section 63G-3-201(5): An entity that violates any provision of this rule may be assessed a civil money penalty not to exceed the sum of $5,000 or be punished for violation of a class B misdemeanor for the first violation and for any subsequent similar violation within two years for violation of a class A misdemeanor as provided in Section 26-23-6.

A representative may be a legal guardian, a person holding a power of attorney, a representative payee or other responsible person acting on behalf of the individual. In this case, the Medicaid eligibility agency may send notices, requests and forms to both the individual and the individual's representative, or to just the individual's representative.

(d) If the Division of Child and Family Services (DCFS) has custody of a child and the child is placed in foster care, DCFS completes the application. DCFS determines eligibility for the child pursuant to a written agreement with the Department. DCFS also determines eligibility for children placed under a subsidized adoption agreement.

(e) An authorized representative may apply for the individual if unusual circumstances or death prevent an individual from applying on his own. The individual must sign the application form if possible. If the individual cannot sign the application, the representative must sign the application. The Medicaid eligibility agency may assign someone to act as the authorized representative when the individual requires help to apply and is unable to appoint a representative.

(2) The Medicaid eligibility agency will process low-income subsidy application data transmitted from the Social Security Administration in accordance with 42 U.S.C. Sec. 1935(a)(4) as an application for Medicare cost sharing programs. The agency will take appropriate steps to gather the required information and verifications from the applicant to determine the applicant's eligibility.

(a) Data transmitted from social security is not an application for Medicaid.

(b) Individuals who want to apply for Medicaid when contacted for information to process the application for Medicare cost-sharing programs must complete and sign a Medicaid application form. The date of application for Medicaid is the date the Medicaid eligibility agency receives the application.

(3) The Medicaid eligibility agency determines the date of application as follows:

(a) The date of application is the date that the Medicaid eligibility agency receives a completed application by the close of normal business hours on a week day that is not a Saturday, Sunday or state holiday. If an application is received after the normal close of business hours on a weekday that is not a Saturday, Sunday or state holiday, the date of application is the next weekday that is not a Saturday, Sunday or state holiday.

(b) The Medicaid eligibility agency determines the application date for applications delivered to an outreach location as follows:

(i) If the application is delivered at a time when the outreach staff is working at that location, the date of application is the date the outreach staff receives the application.

(ii) If the application is delivered on a non-business day or at a time when the outreach office is closed, the date of application is the last business day that a staff person from the state Medicaid eligibility agency was available to receive or pick up applications from that location.

(c) When the state receives application data transmitted from social security pursuant to the requirements of 42 U.S.C. Sec. 1396u-5(a)(4), the Medicaid eligibility agency uses the date the individual submitted the low-income subsidy application to the Social Security Administration as the application date for Medicare cost sharing programs. The application processing period for the transmitted data begins on the date the Medicaid eligibility agency receives the transmitted data from social security. The transmitted data meets the signature requirements for applications for Medicare cost sharing programs.

(d) An applicant must provide the verifications needed to process an application and determine eligibility no later than the close of business on the last day of the application period. If the last day of the application processing period falls on a day of the week when the Medicaid eligibility office is closed, then the applicant has until the close of business on the next day that the Medicaid eligibility agency is open immediately following the last day of the application processing period. An applicant may request more time to provide verifications. The request must be made by the last day of the application processing period.

(4) The Medicaid eligibility agency accepts a signed application sent via facsimile as a valid application and does not require it to be signed again.

(5) If an applicant submits an unsigned, or incomplete

application form to the Medicaid eligibility agency, the Medicaid eligibility agency will notify the applicant that he or she must sign and complete the application no later than the last day of the application processing period. The Medicaid eligibility agency will send a signature page to the applicant and give the applicant at least 10 days to sign and return the signature page. When the application is incomplete, the Medicaid eligibility agency will notify the applicant of the need to complete the application through an interview process, by mail, or by coming to an office to complete the form.

(a) If the Medicaid eligibility agency receives a signature page signed by the applicant, and the applicant completes the application within the application processing period, the date of application will be the date the Medicaid eligibility agency received the application form that was not complete or signed.

(b) If the Medicaid eligibility agency does not receive a signed signature page, and the applicant does not complete the application form within the application processing period, the application is void and the Medicaid eligibility agency will send a denial notice to the applicant. The previous application date will not be protected.

(c) If the Medicaid eligibility agency receives a signed signature page and the completed application after the application processing period but during the 30 calendar days immediately after the denial notice is mailed, the Medicaid eligibility agency will contact the applicant to ask if the applicant wants to reapply for medical assistance. If the applicant wants to reapply, the Medicaid eligibility agency may use the previous application form it received, but the application date will be the date the Medicaid eligibility agency receives both the signed signature page and completed application form according to the same provisions in Subsection R414-308-3(2).

(d) If the Medicaid eligibility agency receives a signed signature page and the completed application more than 30 calendar days after the denial notice is sent, the applicant will need to reapply by completing and submitting a new application form. The original application date is not retained. The new application date will be the date the Medicaid eligibility agency receives a new application.

R414-308-4. Verification of Eligibility and Information Exchange.

(1) Medical assistance applicants and recipients must verify all eligibility factors requested by the eligibility agency to establish or to redetermine eligibility. Medical assistance applicants and recipients must provide identifying information that the eligibility agency needs to meet the requirements of 42 CFR 435.945, 435.948, 435.952, 435.955, and 435.960.

(a) The eligibility agency will provide the client a written request of the needed verification.

(b) The client has at least 10 calendar days from the date the eligibility agency gives or mails the verification request to the client to provide verification.

(c) The due date for returning verification, forms or information requested by the eligibility agency is the close of business on the date the eligibility agency sets as the due date in a written request to the client, but not less than 10 calendar days from the date such request is given to or mailed to the client.

(d) The eligibility agency shall allow the client additional time to provide verification if the client requests additional time by the due date. The eligibility agency shall set a new due date based on what the client needs to do to obtain the verification and whether the client shows a good faith effort to obtain the verification.

(e) If a client has not provided required verification by the due date, and has not contacted the eligibility agency to ask for more time to provide verification, the eligibility agency shall deny the application, review, or end eligibility.

(f) If the eligibility agency receives all necessary verification during the 30 days after denying an application for lack of verification, the date the eligibility agency receives all the verification is the new application date. If the eligibility agency receives verification more than 30 days after the application has been denied, the client will need to reapply for medical assistance.

(2) The eligibility agency must receive verification of an individual's income, both unearned and earned. To be eligible under the Medicaid Work Incentive program, the eligibility agency may require proof such as paycheck stubs showing deductions of FICA tax, self-employment tax filing documents, or for newly self-employed individuals who have not filed tax forms yet, a written business plan and verification of gross receipts and business expenses, to verify that the income is earned income.

(3) If an applicant's citizenship and identity do not match through the Social Security electronic match process and the eligibility agency cannot resolve this consistency, the agency shall request the applicant to provide verification of his citizenship and identity in accordance with 42 U.S.C. 1396a(ee)(1)(B).

(a) The applicant must provide verification to resolve the inconsistency or provide original documentation to verify his citizenship and identity within 90 days of the request.

(b) The eligibility agency shall continue to provide medical assistance during the 90-day period if the individual meets all other eligibility criteria.

(c) If the applicant fails to provide verification, eligibility ends within 30 days after the 90-day period. The eligibility agency cannot extend or repeat the verification period.

(d) An individual who provides false information to receive medical assistance is subject to investigation of Medicaid fraud and penalties as outlined in 42 CFR 455.13 through 455.23.

R414-308-5. Eligibility Decisions or Withdrawal of an Application.

(1) The eligibility agency shall determine whether the applicant is eligible within the time limits established in 42 CFR 435.911, 2010 ed., which is incorporated by reference. The eligibility agency shall provide proper notice about a recipient's eligibility, changes in eligibility, and the recipient's right to request a fair hearing in accordance with the provisions of 42 CFR 431.206, 431.210, 431.211, 431.213, 431.214, 42 CFR 435.912, and 435.919.

(2) The eligibility agency shall extend the time limit if the applicant asks for more time to provide requested information before the due date. The eligibility agency shall give the applicant at least ten more days after the original due date to provide verifications upon the applicant's request. The eligibility agency may allow a longer period of time for the recipient to provide verifications if the agency determines that the delay is due to circumstances beyond the recipient's control.

(3) An applicant may withdraw an application for medical assistance any time before the eligibility agency makes an eligibility decision on the application. An individual requesting an assessment of assets for a married couple under 42 U.S.C. 1396r-5 may withdraw the request any time before the eligibility agency completes the assessment.

R414-308-6. Eligibility Period and Reviews.

(1) The eligibility period begins on the effective date of eligibility as defined in Section R414-306-4, which may be after the first day of a month, subject to the following requirements.

(a) If a recipient must pay one of the following fees to receive Medicaid, the eligibility agency shall determine eligibility and notify the recipient of the amount owed for coverage. The eligibility agency shall grant eligibility when it receives the required payment, or in the case of a spenddown or

cost of care contribution for waivers, the recipient must send proof of incurred medical expenses equal to the payment. The fees a recipient may owe include:

(i) a spenddown of excess income for medically needy Medicaid coverage;

(ii) a Medicaid Work Incentive (MWI) premium;

(iii) an asset copayment for poverty level, pregnant woman coverage; and

(iv) a cost of care contribution for home and community-based waiver services.

(b) A required spenddown, MWI premium, or cost of care contribution is due each month for a recipient to receive Medicaid coverage. A recipient must pay an asset copayment before eligibility is granted for poverty level, pregnant woman coverage.

(c) The recipient must make the payment or provide proof of medical expenses within 30 calendar days from the mailing date of the application approval notice, which states how much the recipient owes.

(d) For ongoing months of eligibility, the recipient has until the close of business on the tenth day of the month after the benefit month to meet the spenddown or the cost of care contribution for waiver services, or to pay the MWI premium. If the tenth day of the month is a non-business day, the recipient has until the close of business on the first business day after the tenth. Eligibility begins on the first day of the benefit month once the recipient meets the required payment. If the recipient does not meet the required payment by the due date, the recipient may reapply for retroactive benefits if that month is within the retroactive period of the new application date.

(e) A recipient who lives in a long-term care facility and owes a cost of care contribution to the medical facility must pay the medical facility directly. The recipient may use unpaid past medical bills, or current incurred medical bills other than the charges from the medical facility, to meet some or all of the cost of care contribution subject to the limitations in Section R414-304-9. An unpaid cost of care contribution is not allowed as a medical bill to reduce the amount that the recipient owes the facility.

(f) Even when the eligibility agency does not close a medical assistance case, no eligibility exists in a month for which the recipient fails to meet a required spenddown, MWI premium, or cost of care contribution for home and community-based waiver services.

(g) Eligibility for the poverty level, pregnant woman program does not exist when the recipient fails to pay a required asset copayment.

(h) Eligibility for a resident of a nursing home continues even when a resident fails to pay the cost of care contribution to the nursing home.

(2) The eligibility period ends on:

(a) the last day of the month in which the eligibility agency determines that the recipient is no longer eligible for medical assistance and sends proper closure notice;

(b) the last day of the month in which the eligibility agency sends proper closure notice when the recipient fails to provide required information or verification to the eligibility agency by the due date;

(c) the last day of the month in which the recipient asks the eligibility agency to discontinue eligibility, or if benefits have been issued for the following month, the end of that month;

(d) the last day of the month for time-limited programs, in which the time limit ends;

(e) the last day of the month for the poverty level, pregnant woman program, which is at least 60 days after the date that the pregnancy ends, except that for poverty-level, pregnant woman coverage for emergency services only, eligibility ends on the last day of the month in which the pregnancy ends; or

(f) the date that the individual dies.

(3) For individuals selected for coverage under the Qualified Individuals Program, eligibility extends through the end of the calendar year if the individual continues to meet eligibility criteria and the program still exists.

(4) The eligibility agency completes a periodic review of a recipient's eligibility for medical assistance in accordance with the requirements of 42 CFR 435.916, at least once every 12 months.

(5) The eligibility agency may complete an eligibility review when it:

(a) has information about anticipated changes in the recipient's circumstances that may affect eligibility;

(b) knows the recipient has fluctuating income;

(c) completes a review for other assistance programs that the recipient receives; or

(d) needs to meet workload demands.

(6) The periodic eligibility review is a review of eligibility factors that may be subject to change. The eligibility agency shall require the review to determine whether a recipient is still eligible for medical assistance. The eligibility agency shall use available, reliable sources to gather information needed to complete the review.

(7) The eligibility agency may ask the recipient to respond to a request to complete the review process during the review month. If the recipient fails to respond to the request, the eligibility agency shall end eligibility after the review month ends. If the recipient responds to the review or reapplies in the month that follows the review month, the eligibility agency shall consider the response to be a new application. The application processing period shall apply for the new request for coverage.

(a) The eligibility agency may ask the recipient for verification to redetermine eligibility.

(b) Upon receiving the verification, the eligibility agency shall redetermine eligibility and notify the recipient. If the recipient fails to return verification within the application processing period or if the recipient is determined to be ineligible, the eligibility agency shall send a denial notice to the recipient.

(c) If the case is closed for one or more calendar months, the recipient must reapply.

(8) If the recipient responds to the request during the review month, the eligibility agency may request verification from the recipient.

(a) The eligibility agency shall send a written request for the necessary verification.

(b) The recipient has at least ten calendar days from the notice date to provide the requested verification to the eligibility agency.

(9) If the recipient responds to the review and provides all verification by the due date within the review month, the eligibility agency shall determine eligibility and notify the recipient of its decision.

(a) If the eligibility agency sends proper notice of an adverse decision in the review month, the agency shall change eligibility for the following month.

(b) If the eligibility agency does not send notice of an adverse change, the agency shall extend eligibility to the following month. This additional month of eligibility is called the due process month. The eligibility agency shall notify the recipient of the adverse decision that becomes effective after the due process month.

(10) If the recipient responds to the review in the review month and the verification due date is in the following month, the eligibility agency shall extend eligibility to the following month. This additional month of eligibility is called the due process month. The recipient must provide all verification by the verification due date.

(a) If the recipient provides all requested verification by the verification due date, the eligibility agency shall determine

eligibility and send proper notice of the decision.

(b) If the recipient does not provide all requested verification by the verification due date, the eligibility agency shall end eligibility after the month in which the eligibility agency sends proper notice of the closure.

(c) If the recipient returns all verification after the verification due date and before the effective closure date, the eligibility agency shall treat the date that it receives the verification as a new application date. The agency shall then determine eligibility and send notice to the recipient.

(11) The eligibility agency shall provide ten-day notice of case closure if the recipient is determined ineligible or if the recipient fails to provide all verification by the verification due date.

(12) The eligibility agency may not extend coverage under certain medical assistance programs in accordance with state and federal law. The agency shall notify the recipient before the effective closure date.

(a) If the eligibility agency determines that the recipient qualifies for a different medical assistance program, the agency shall notify the recipient. Otherwise, the agency shall end eligibility after the named time period.

(b) If the recipient provides information before the effective closure date that indicates that the recipient may qualify for another medical assistance program, the eligibility agency shall treat the information as a new application. If the recipient contacts the eligibility agency after the effective closure date, the recipient must reapply for benefits.

R414-308-7. Change Reporting and Benefit Changes.

(1) A client must report to the agency reportable changes in the client's circumstances. Reportable changes are defined in R414-301-2.

(a) The due date for reporting changes is the close of business on the 10th calendar day after the client learns of the change.

(b) When the change is receipt of income from a new source, or an increase in income the client receives, the due date for reporting the income change is the close of business on the day that is ten calendar days after the date the client receives such income.

(c) The due date for providing verifications of changes is the close of business on the date the agency sets as the due date in a written notice to the client.

(2) The agency may receive information from credible sources other than the client such as computer income matches, and from anonymous citizen reports. If the agency receives information from sources other than the client that may affect the client's eligibility, the agency will verify the information as needed depending on the source of information before using the information to change the client's eligibility for medical assistance. Information from citizen reports must always be verified by other reliable proofs.

(3) The date of report is the date the client reports the change to the agency by the close of business on a business day by phone, by mail, by fax transmission or in person, or the date the agency receives the information from another source.

(4) If the agency needs verification of the reported change from the client, the agency requests it in writing and provides at least ten calendar days for the client to respond.

(5) A client who provides change reports, forms or verifications by the close of business on the due date has provided the information on time.

(6)(a) If the reported information causes an increase in a client's benefits and the agency requests verification, the increase in benefits is effective the first day of the month following:

(i) the date of the report if the agency receives verifications within ten days of the request; or

(ii) the date the verifications are received if verifications are received more than ten days after the date of the request.

(b) The agency cannot increase benefits if the agency does not receive requested verifications.

(7) If the reported information causes a decrease in the client's benefits, the agency makes changes as follows:

(a) If the agency has sufficient information to adjust benefits, the change is effective the first day of the month after the month in which the agency sends proper notice of the decrease, regardless of whether verifications have been received.

(b) If the agency does not have sufficient information to adjust benefits, the agency requests verifications from the client. The due date is at least 10 days from the date of the request.

(i) Upon receiving the verifications, the agency adjusts benefits effective the first day of the month following the month in which the agency can send proper notice.

(ii) If the verifications are not returned on time, the agency discontinues benefits for the affected individuals effective the end of the month in which the agency can send proper notice.

(8) Any time the agency requests verifications to determine or redetermine eligibility for an individual or a household, the agency may discontinue benefits if all required factors of eligibility are not verified by the due date. If a change does not affect all household members and verifications are not provided, the agency discontinues benefits only for the individual or individuals affected by the change.

(9) If a client fails to timely report a change or return verifications or forms by the due date, the client must repay all services and benefits paid by the Department for which the client was ineligible.

(10) If a due date falls on a non-business day, the due date will be the close of business on the first business day immediately after the due date.

R414-308-8. Case Closure and Redetermination.

(1) The eligibility agency shall end medical assistance when the recipient requests the agency to close his case, when the recipient fails to respond to a request to complete the eligibility review, when the recipient fails to provide all verification needed to determine continued eligibility, or when the agency determines that the recipient is no longer eligible.

(2) If a recipient fails to complete the review process in accordance with Section R414-308-6, the eligibility agency shall close the case and notify the recipient.

(3) Before terminating a recipient's medical assistance, the eligibility agency shall determine whether the recipient is eligible for any other available medical assistance provided under Medicaid, the Medicare Cost Sharing programs, the Children's Health Insurance Program (CHIP), the Primary Care Network (PCN), and Utah's Premium Partnership for Health Insurance (UPP).

(a) The eligibility agency may not require a recipient to complete a new application to make the redetermination. The agency, however, may request more information from the recipient to determine whether the recipient is eligible for other medical assistance programs. If the recipient does not provide the necessary information by the close of business on the due date, the recipient's medical assistance ends.

(b) When determining eligibility for other programs, the eligibility agency may only enroll an individual in a medical assistance program during an open enrollment period, or when that program allows a person who becomes ineligible for Medicaid to enroll during a period when enrollment is closed. Open enrollment applies only to the PCN and UPP programs.

R414-308-9. Improper Medical Coverage.

(1) Improper medical coverage occurs when:

(a) an individual receives medical assistance for which the individual is not eligible. This assistance includes benefits that

an individual receives pending a fair hearing or during an undue hardship waiver when the individual fails to take actions required by the eligibility agency;

(b) an individual receives a benefit or service that is not part of the benefit package for which the individual is eligible;

(c) an individual pays too much or too little for medical assistance benefits; or

(d) the Department pays in excess or not enough for medical assistance benefits on behalf of an eligible individual.

(2) As applied in this section, services and benefits include all amounts that the Department pays on behalf of the recipient during the period in question and includes:

(a) premiums that the recipient pays to any Medicaid health plan or managed care plan including any payments for administration costs, Medicare, and private insurance plans;

(b) payments for prepaid mental health services; and

(c) payments made directly to service providers or to the recipient.

(3) If the eligibility agency determines that a recipient is ineligible for the services and benefits that he receives, the recipient must repay to the Department any costs that result from the services and benefits.

(4) The eligibility agency shall reduce the amount that the recipient must repay by the amount that the recipient pays to the eligibility agency for a Medicaid spenddown, a cost of care contribution, or a MWI premium for the month.

(5) If a recipient who pays an asset copayment for coverage under Prenatal Medicaid is found to be ineligible for the entire period of coverage under Prenatal Medicaid, the eligibility agency shall reduce the amount that the recipient must repay by the amount that the recipient pays to the agency in the form of the prenatal asset copayment.

(6) If the recipient is eligible but the overpayment is because the spenddown, the MWI premium, the asset copayment for prenatal services, or the cost of care contribution is incorrect, the recipient must repay the difference between the correct amount that the recipient should pay and the amount that the recipient has paid.

(7) If the eligibility agency determines that the recipient is ineligible due to having resources that exceed the resource limit, the recipient must pay the lesser of the cost of services or benefits that the recipient receives, or the difference between the recipient's countable resources and the resource limit for each month resources exceed the limit.

(8) A recipient may request a refund from the Department if the recipient believes that:

(a) the monthly spenddown, the asset copayment for prenatal services, or cost of care contribution that the recipient pays to receive medical assistance is less than what the Department pays for medical services and benefits for the recipient; or

(b) the amount that the recipient pays in the form of a spenddown, a MWI premium, a cost of care contribution for long-term care services, or an asset copayment for prenatal services exceeds the payment requirement.

(9) Upon receiving the request, the Department shall determine whether it owes the recipient a refund.

(a) In the case of an incorrect calculation of a spenddown, MWI premium, cost of care contribution, or asset copayment for poverty level, pregnant woman services, the refundable amount is the difference between the incorrect amount that the recipient pays to the Department for medical assistance and the correct amount that the recipient should pay, less the amount that the recipient owes to the Department for any other past due, unpaid claims.

(b) If the spenddown, asset copayment for poverty level, pregnant woman services, or a cost of care contribution for long-term care exceeds medical expenditures, the refundable amount is the difference between the correct spenddown, asset copayment, or cost of care contribution that the recipient pays for medical assistance and the amount that the Department pays on behalf of the recipient for services and benefits, less the amount that the recipient owes to the Department for any other past due, unpaid claims. The Department shall issue the refund only after the 12-month time period that medical providers have to submit claims for payment.

(c) The Department may not issue a cash refund for any portion of a spenddown or cost of care contribution that is met with medical bills. Nevertheless, the Department may pay additional covered medical bills used to meet the spenddown or cost of care contribution equal to the amount of refund that the Department owes the recipient, or apply the bill amount toward a future spenddown or cost of care contribution.

(10) A recipient who pays a premium for the MWI program may not receive a refund even when the Department pays for services that are less than the premium that the recipient pays for MWI.

(11) If the cost of care contribution that a recipient pays a medical facility is more than the Medicaid daily rate for the number of days that the recipient is in the medical facility, the recipient may request a refund from the medical facility. The Department shall refund the amount that it owes the recipient only when the medical facility sends the excess cost of care contribution to the Department.

(12) If the sponsor of an alien does not provide correct information, the alien and the alien's sponsor are jointly liable for any overpayment of benefits. The Department shall recover the overpayment from both the alien and the sponsor.

R432-3-4. Statement of Findings.

(1) The Department or its designee may inspect each facility or agency at least once during each year that a license has been granted, to determine compliance with standards and the applicable rules and regulations.

(2) Whenever the Department has reason to believe that a health facility or agency is in violation of Title 26, Chapter 21 or any of the rules promulgated by the Health Facility Committee, the Department shall serve a written Statement of Findings to the licensee or his designee within the following timeframe.

(a) Statements for Class I and III violations are served immediately.

(2) Within ten working days of receipt of the Plan of Correction, the Department shall make a determination as to the acceptability of the Plan of Correction.

(3) If the Department rejects the Plan of Correction, the Department shall notify the facility or agency of the reasons for rejection and may request a revised Plan of Correction or issue a Notice of Agency Action directing a Plan of Correction and imposing a deadline for the correction. If the Department requests a revised Plan of Correction, the facility or agency shall submit the revised Plan of Correction within 14 days of receipt of the Department request.

R432-35-1. Authority.

(1) The Utah Code, Section 26-21-9.5, requires that a Bureau of Criminal Identification screening, referred to as BCI, and a child or disabled or elderly adult licensing information system screening be conducted on each person who provides direct care to a patient for the following covered health care agencies and facilities:

(1) "Covered Individual" means all proposed employees who provide direct patient care in a covered health care facility, including volunteers, existing employees, persons contracted to perform direct care and, for residential settings, all individuals residing in the home where an assisted living or small health care program is to be licensed, who are 18 years old and over.

(2) "Department" means the Utah Department of Health.

(3) "Substantiated" means a Department of Human Service finding, at the completion of an investigation by the Department of Human Services, that there is a reasonable basis to conclude that one or more of the following types of elder or disabled adult abuse or neglect has occurred:

(6) "Volunteer" means an individual who is not directly compensated for providing care, including family members of patients or residents enrolled in the program, whose duties assigned by a health care provider or employee include unsupervised contact in a health care facility on a regularly scheduled basis of one or more times per month.

R432-35-4. Bureau of Criminal Identification.

(1) The Utah Code, Section 26-21-9.5, requires that a BCI be conducted on covered individuals requesting to be licensed, to renew a license, or to be employed or volunteer in a covered health care facility.

(a) The health care facility shall submit applicant information within ten days of initially hiring an individual, include fees and releases to the Department to allow the Department to perform a criminal background screening.

(b) If the BCI indicates that the covered individual has a criminal record that indicates there is a conviction for a felony or misdemeanor the Department shall review the criminal convictions to determine whether to approve the covered individual for licensing or employment.

(c) If a covered individual applicant has not had residency in Utah for the last five years, the covered individual shall submit fingerprints for an FBI national criminal history record check.

(2) The Department shall review any criminal convictions, consistent with R432-35, to determine if action should be taken to protect the health and safety of patients and residents receiving health care services in the covered health care facility.

R432-35-5. Exclusion from Direct Patient Care Due to Criminal Convictions or Pending Charges.

(1) As required by Utah Code Ann. Subsection 26-21-9.5(6), if a covered individual has been convicted of a felony or is a misdemeanor that is not excluded under paragraphs (2) or (3) below, the covered individual may not provide direct patient care or volunteer. If such a covered individual resides in a home where health care is provided, the Department may revoke an existing license or and refuse to permit health care services in the home until the Department is reasonably convinced that the covered individual no longer resides in the home or that the individual will not have unsupervised contact with any child or disabled or elderly adult in care at the home.

(2) As allowed by Utah Code Ann. Subsection 26-21-9.5(6), the Department hereby excludes the following misdemeanors and determines that a misdemeanor conviction listed below does not disqualify a covered individual from providing direct patient care:

(a) any class B or C conviction under Chapter 6, Title 76, Offenses Against Property, Utah Criminal Code;

(b) any class B or C conviction under Chapter 6a, Title 76, Pyramid Schemes, Utah Criminal Code;

(3) The Executive Director may exclude, on a case-by-case basis, other misdemeanors not covered under paragraph (2) of

this section if the misdemeanor did not involve violence against a child or a family member or unauthorized sexual conduct with a child or disabled adult. The following factors will be used in deciding under what circumstance, if any, the covered individual will be allowed to provide direct patient care or to volunteer in a covered health care facility:

(a) Types and number of offenses;

(b) Passage of time since the offense was committed; offenses more than five years old do not bar approval or a license, certificate or employment;

(c) Circumstances surrounding the commission of the offense;

(d) Intervening circumstances since the commission of the offense; and

(e) Relationship of the facts under subsections (a) through (d) of this section to the individual's suitability to work with children and disabled and elderly adults.

(4) The Department shall rely on the criminal background screening and search of court records as conclusive evidence of the conviction and the Department may revoke or deny a license and employment based on that evidence.

(5) If the Department denies a covered individual a license or employment based upon the criminal background screening and the covered individual disagrees with the information provided by the Criminal Investigations and Technical Services Division or court record, the covered individual may challenge the information as provided in Utah Code Ann. Sections 77-18-10 through 77-18-15.

(6) All covered health care facilities must report all felony and misdemeanor arrests, charges or convictions of covered individuals to the Department within 48 hours of discovery.

(2) If a covered individual appears on the licensing information system, the Department shall review the date of the supported or substantiated finding, type of substantiation, written documentation, and the legal status of the covered individual.

(3) If the Department determines there exists credible evidence that the covered individual poses a threat to the safety and health of children or disabled or elder adults being served in a covered health care facility, the Department shall not grant or renew a license, or employment.

(4) If the Department denies or revokes a license or employment based upon the licensing information system, the Department shall send a Notice of Agency Action to the licensee and the covered individual.

(5) If the covered individual disagrees with the record of substantiation of elder or disabled adult abuse or supported finding of severe child abuse or neglect , he must pursue an appeal with the DHS or the juvenile court. If the covered individual agrees with the substantiated or supported finding of abuse or neglect that was the basis of the Department's denial or revocation, but disagrees with the Department's denial or revocation, the covered individual may request a hearing with the Department.

(a) Upon request, the Department may permit the covered individual to be employed under supervision until a decision is reached and if the applicant can demonstrate that the work arrangement does not pose a threat to the safety and health of children or disabled or elder adults being served in the licensed health care facility.

(b) If a covered individual appeals the record of substantiation or supported finding, the Department may hold the license or employment denial in abeyance until DHS or the juvenile court renders a decision,.

(6) If the DHS determines a covered individual has a substantiated or supported finding of abuse, or neglect after the Department issues a license, or grants employment, the licensee and covered individual has five working days to notify the Department. Failure to notify the Department may result in revocation of the license.

R432-35-7. Covered Individuals with Arrests or Pending Criminal Charges.

(1) If the Department determines there exists credible evidence that a covered individual has been arrested or charged with a felony or a misdemeanor that would not be excluded under R432-5(2), the Department may act to protect the health and safety of patients and residents in covered health care facilities that the individual may have contact with. The Department may revoke or suspend any license or employment if necessary to protect the health and safety of patients and residents in care.

(2) Upon request, the Department may permit the covered individual to be employed under supervision until the felony or misdemeanor charge is resolved, if the facility can demonstrate that the individual can work without posing a threat to the safety and health of the resident or patient being served in the licensed health care facility.

(3) If the Department denies or revokes a license, or restricts employment based upon the arrest or felony or misdemeanor charge, the Department shall send a Notice of Agency Action to the licensee and the covered individual notifying them that they may request a hearing with the Department.

(4) The Department may hold the license or employment denial in abeyance until the arrest or felony or misdemeanor charge is resolved.

R432-35-8. Penalties.

The department may impose civil monetary penalties in accordance with Title 26, Chapter 23, Utah Health Code Enforcement Provisions and Penalties, if there has been a failure to comply with the provisions of this chapter, or rules promulgated pursuant to this chapter, as follows:

(1) if significant problems exist that are likely to lead to the harm of an individual resident, the department may impose a civil penalty of $50 to $1,000 per day; and

(b) recordkeeping guidelines for all overtime worked;

(c) verification that there are sufficient funds in the budget to compensate for overtime worked.

(2) Overtime compensation standards are identified for each job title in HRE as either FLSA nonexempt, or FLSA exempt.

(a) An employee may appeal the FLSA designation to the agency human resource field office. Further appeals may be filed directly with the United States Department of Labor, Wage and Hour Division. Sections 67-19-31, 67-19a-301 and Title 63G, Chapter 4 may not be applied for FLSA appeals purposes.

(3) An FLSA nonexempt employee may not work more than 40 hours a week without management approval. Overtime shall accrue when the employee actually works more than 40 hours a week. Leave and holiday time taken within the work period may not be counted as hours worked when calculating overtime accrual. Hours worked over two or more weeks may not be averaged with the exception of certain types of law enforcement, fire protection, and correctional employees.

(a) An FLSA nonexempt employee shall sign a prior overtime agreement authorizing management to compensate the employee for overtime worked by actual payment or time off at time and one half.

(b) An FLSA nonexempt employee may receive compensatory time for overtime up to a maximum of 80 hours. Only with prior approval of the Executive Director, DHRM, may compensatory time accrue up to 240 hours for regular employees or up to 480 hours for peace or correctional officers, emergency or seasonal employees. Once an employee reaches the maximum, additional overtime shall be paid on the payday for the period in which it was earned.

(4) An FLSA exempt employee may not work more than 80 hours in a pay period without management approval. Compensatory time shall accrue when the employee actually works more than 80 hours in a work period. Leave and holiday time taken within the work period may not count as hours worked when calculating compensatory time. Each agency shall compensate an FLSA exempt employee who works overtime by granting time off. For each hour of overtime worked, an FLSA exempt employee shall accrue an hour of compensatory time.

(a) Agencies shall establish in written policy a uniform overtime year either for the agency as a whole or by unit number and communicate it to employees. Overtime years shall be set at one of the following pay periods: Five, Ten, Fifteen, Twenty, or the last pay period of the calendar year. If an agency fails to establish a uniform overtime year, the Executive Director, DHRM, and the Director of Finance, Department of Administrative Services, will establish the date for the agency at the last pay period of the calendar year. An agency may change the established overtime year only after the current overtime year has lapsed, unless justifiable reasons exist and the Executive Director, DHRM, has granted a written exception.

(b) Any compensatory time earned by an FLSA exempt employee is not an entitlement, a benefit, nor a vested right.

(c) Any compensatory time earned by an FLSA exempt employee shall lapse upon occurrence of any one of the following events:

(i) at the end of the employee's established overtime year;

(ii) upon assignment to another agency; or

(iii) when an employee terminates, retires, or otherwise does not return to work before the end of the overtime year.

(d) If an FLSA exempt employee's status changes to nonexempt, that employee's compensatory time earned while in exempt status shall lapse if not used by the end of the current overtime year.

(e) The agency head may approve overtime for career service exempt deputy and division directors, but overtime may not be compensated with actual payment. Schedule AB employees may not be compensated for compensatory time except with time off.

(5) Law enforcement, correctional and fire protection employees

(a) To be considered for overtime compensation under this rule, a law enforcement or correctional officer shall meet the following criteria:

(i) be a uniformed or plainclothes sworn officer;

(ii) be empowered by statute or local ordinance to enforce laws designed to maintain public peace and order, to protect life and property from accident or willful injury, and to prevent and detect crimes;

(iii) have the power to arrest;

(iv) be POST certified or scheduled for POST training; and

(v) perform over 80% law enforcement duties.

(b) Agencies shall select one of the following maximum work hour thresholds to determine when overtime compensation is granted to law enforcement or correctional officers designated FLSA nonexempt and covered under this rule.

(i) 171 hours in a work period of 28 consecutive days; or

(ii) 86 hours in a work period of 14 consecutive days.

(c) Agencies shall select one of the following maximum work hour thresholds to determine when overtime compensation is granted to fire protection employees.

(i) 212 hours in a work period of 28 consecutive days; or

(ii) 106 hours in a work period of 14 consecutive days.

(d) Agencies may designate a lesser threshold in a 14 day or 28 day consecutive work period as long as it conforms to the following:

(i) the Fair Labor Standards Act, Section 207(k);

(ii) 29 CFR 553.230;

(iii) the state's payroll period;

(iv) the approval of the Executive Director, DHRM.

(6) Compensatory Time

(a) Agency management shall arrange for an employee's use of compensatory time as soon as possible without unduly disrupting agency operations or endangering public health, safety or property.

(b) Compensatory time balances for an FLSA nonexempt employee shall be paid down to zero in the same pay period that the employee is transferred from one agency to a different agency, promoted, reclassified, reassigned, or transferred to an FLSA exempt position. The pay down for unused compensatory time balances shall be based on the employee's hourly rate of pay in the old position.

(7) Time Reporting

(a) Employees shall complete and submit a state approved biweekly time record that accurately reflects the hours actually worked, including:

(i) approved and unapproved overtime;

(ii) on-call time;

(iii) stand-by time;

(iv) meal periods of public safety and correctional officers who are on duty more than 24 consecutive hours; and

(v) approved leave time.

(b) An employee who fails to accurately record time may be disciplined.

(c) Time records developed by the agency shall have the same elements of the state approved time record and be approved by the Department of Administrative Services, Division of Finance.

(d) A Supervisor who directs an employee to submit an inaccurate time record or knowingly approves an inaccurate time record may be disciplined.

(e) A Non-exempt employee who believes FLSA rights have been violated may submit a complaint directly to the Executive Director, or designee, of the Department of Human Resource Management.

(8) Hours Worked: An FLSA nonexempt employee shall be compensated for all hours worked. An employee who works unauthorized overtime may be disciplined.

(a) All time that an FLSA nonexempt employee is required to wait for an assignment while on duty, before reporting to duty, or before performing activities is counted towards hours worked.

(b) Time spent waiting after being relieved from duty is not counted as hours worked if one or more of the following conditions apply:

(i) the employee arrives voluntarily before their scheduled shift and waits before starting duties;

(ii) the employee is completely relieved from duty and allowed to leave the job;

(iii) the employee is relieved until a definite specified time; or

(iv) the relief period is long enough for the employee to use as the employee sees fit.

(c) On-call time: An employee required by agency management to be available for on-call work shall be compensated for on-call time at a rate of one hour for every 12 hours the employee is on-call.

(i) Time is considered on-call time when the employee has freedom of movement in personal matters as long as the employee is available for a call to duty.

(ii) On-call status shall be designated by a supervisor, either verbally or in writing, for a specified time period. Carrying a pager or cell phone shall not constitute on-call time without a specific directive from a supervisor.

(iii) The employee shall record the hours spent in on-call status on the official time record in order to be paid.

(d) Stand-by time: An employee restricted to stand-by at a specified location ready for work shall be paid full-time or overtime, as appropriate. An employee shall be paid for stand-by time if required to stand by the post ready for duty, even during lunch periods, equipment breakdowns, or other temporary work shutdowns.

(e) The meal periods of guards, police, and other public safety or correctional officers and firefighters who are on duty more than 24 consecutive hours shall be counted as working time, unless an express agreement excludes the time.

(9) Commuting and Travel Time for FLSA exempt and nonexempt employees:

(a) Normal commuting time from home to work and back may not count towards hours worked.

(b) Time an employee spends traveling from one job site to another during the normal work schedule shall count towards hours worked.

(c) Time an employee spends traveling on a special one day assignment shall count towards hours worked except meal time and ordinary home to work travel.

(d) Travel that keeps an employee away from home overnight does not count towards hours worked if it is time spent outside of regular working hours as a passenger on an airplane, train, boat, bus, or automobile.

(e) Travel as a passenger counts toward hours worked if it is time spent during regular working hours. This applies to nonworking days, as well as regular working days. However, regular meal period time is not counted.

(10) Excess Hours for FLSA exempt and nonexempt employees: An employee may use excess hours the same way as annual leave.

(a) Agency management shall approve excess hours before the work is performed.

(b) Agency management may deny the use of any leave time, other than holiday leave, that results in an employee

accruing excess hours.

(c) An employee may not accumulate more than 80 excess hours.

(d) Agency management may pay out excess hours under one of the following:

(i) paid off automatically in the same pay period accrued;

(ii) paid off at any time during the year as determined appropriate by a state agency or division;

(iii) all hours accrued above the limit set by DHRM;

(iv) upon request of the employee and approval by the agency head; or

(v) upon assignment from one agency to another.

R477-8-5. Dual State Employment.

An employee who has more than one position within state government, regardless of schedule is considered to be in a dual employment situation. The following conditions apply to dual employment status.

(1) An employee may work in up to four different positions in state government.

(2) An employee's benefit status for any secondary position(s), regardless of schedule of any of the positions, shall be the same as the primary position.

(3) An employee's FLSA status (exempt or nonexempt) for any secondary position(s) shall be the same as the primary position.

(4) Leave accrual shall be based on all hours worked in all positions and may not exceed the maximum amount allowed in the primary position.

(5) As a condition of dual employment, an employee in dual employment status is prohibited from accruing excess hours in either the primary or secondary positions. All excess hours earned shall be paid at straight time in the pay period in which the excess hours are earned.

(6) As a condition of dual employment, the Overtime or Comp selection shall be as overtime paid regardless of FLSA status. An employee may not accrue comp hours while in dual employment status.

(7) Overtime shall be calculated at straight time or time and one half depending on the FLSA status of the primary position. Time and a half overtime rates shall be calculated based on the weighted average rate of the multiple positions. Refer to Division of Finance's payroll policies, dual employment section.

(8) The Accepting Terms of Dual Employment form shall be completed, signed by the employee and supervisor, and placed in the employee's personnel file with a copy sent to the Division of Finance.

(9) Secondary positions may not interfere with the efficient performance of the employee's primary position or create a conflict of interest. An employee in dual employment status shall comply with conditions under Subsection R477-9-2(1).

R477-8-6. Reasonable Accommodation.

Reasonable accommodation for qualified individuals with disabilities may be a factor in any employment action. Before notifying an employee of denial of reasonable accommodation, the agency shall consult with the Division of Risk Management.

R477-8-7. Fitness For Duty Evaluations.

Fitness for duty medical evaluations may be performed under any of the following circumstances:

(1) return to work from injury or illness except as prohibited by federal law;

(2) when management determines that there is a direct threat to the health or safety of self or others;

(3) in conjunction with corrective action, performance or conduct issues, or discipline; or

(4) when a fitness for duty evaluation is a bona fide occupational qualification for selection, retention, or promotion.

R477-8-8. Temporary Transitional Assignment.

(1) Agency management may place an employee in a temporary transitional assignment when an employee is unable to perform essential job functions due to temporary health restrictions.

(2) Temporary transitional assignments may also be part of any of the following:

(a) when management determines that there is a direct threat to the health or safety of self or others;

(b) in conjunction with an internal investigation, corrective action, performance or conduct issues, or discipline;

(c) where there is a bona fide occupational qualification for retention in a position;

(d) while an employee is being evaluated to determine if reasonable accommodation is appropriate.

R477-8-9. Change in Work Location.

(1) An involuntary change in work location shall not be permitted if this requires the employee to commute or relocate 50 miles or more, one way, beyond the current one way commute, unless:

(a) the change in work location is communicated to the employee at employment; or

(b) the agency either pays to move the employee consistent with Section R25-6-8 and Finance Policy FIACCT 05-03.03, or reimburses commuting expenses up to the cost of a move.

R477-8-10. Agency Policies and Exemptions.

(1) Each agency may write its own policies for work schedules, overtime, leave usage, and other working conditions consistent with these rules.

R477-8-11. Background Checks.

In order to protect the citizens of the State of Utah and state resources and with the approval of the agency head, agencies may establish background check policies requiring specific employees to submit to a criminal background check through the Department of Public Safety, Bureau of Criminal Identification.

(1) Agencies who have statewide responsibility for confidential information, sensitive financial information, or handle state funds may require employees to submit to a background check, including employees who work in other state agencies.

(2) The cost of the background check will be the responsibility of the employing agency.

R477-8-12. Policy Exceptions.

The Executive Director, DHRM, may authorize exceptions to this rule, consistent with Subsection R477-2-2(1).

R512. Human Services, Child and Family Services.
R512-43. Adoption Assistance.
R512-43-1. Purpose and Authority.

(1) The purpose of the adoption assistance program is to aid an adoptive family to establish and maintain a permanent adoptive living arrangement for a child who qualifies for the program under state and federal law.

(2) The adoption assistance program is intended to provide a permanent family for a child in public foster care or who receives Supplemental Security Income (SSI) by providing financial and medical assistance for the child's benefit and best interest to the family who adopts the child.

(3) Section 62A-4a-901, et seq. authorizes the state to provide adoption assistance and supplemental adoption assistance and Section 473, Social Security Act, authorizes federal adoption assistance. Section 473, Social Security Act (42 USC 673) as amended by Public Law 110-351 (October 7, 2008), 45 CFR 1356.40 (October 1, 2009), and 45 CFR 1356.41 (October 1, 2009) are incorporated by reference.

(4) This rule is authorized by Section 62A-4a-102.

R512-43-2. Definitions.

In addition to terms defined in Section 62A-4a-902, the following terms are defined for purposes of this rule:

(1) Initiation of adoption proceedings means the earlier of (a) the date an Adoption Agreement is signed with Child and Family Services for placement of a child in the home, or (b) the date an adoption petition is filed.

(2) Child in public foster care means a judicially removed child whose placement resulting in adoption was immediately preceded by protective, temporary, or legal custody with a State IV-E agency, or a child who was placed with a State IV-E agency through a Voluntary Placement Agreement, or the child of a minor parent in foster care.

(3) A child or youth who was taken into protective custody and, as a result of the protective episode, was placed with a relative who was given legal custody meets the definition of a child in public foster care.

(a) If the court orders Child and Family Services to continue to provide Protective Supervision Services for the family in making safety and permanency decisions for the child, including placement decisions and permanency goals, the child is eligible for adoption assistance if the child's permanency goal becomes adoption, if all other criteria in R512-43-3(1-4) are met.

(i) This may include a change in placement to another relative while the Protective Supervision Services continue to be court ordered.

(4) State IV-E agency means Child and Family Services or a public agency or tribal organization with whom Child and Family Services has an agreement in effect for foster care maintenance payments in accordance with Title IV-E, Section 42 USC 672.

(5) AFDC means the Aid to Families with Dependent Children program that was in effect on July 16, 1996.

(6) Child with a previous IV-E agreement means a child who was Title IV-E eligible in a previous adoption with a fully executed adoption assistance agreement originating in any state, and the previous adoption was legally dissolved or ended due to the death of both of the adoptive parents.

R512-43-3. General Requirements for Adoption Assistance.

(1) Qualification for adoption assistance is based upon the child meeting qualifying factors, not the adoptive family.

(2) A child qualifies for adoption assistance if all of the following are met:

(a) The state has determined that the child cannot or should not be returned home.

(b) The state can document that reasonable efforts were made to place the child for adoption without providing adoption assistance. An exception applies if the child has significant emotional ties with the adoptive family and it is not in the child's best interest to consider a different adoptive placement.

(c) The state determines the child meets the definition of a child with a special need in accordance with Section 62A-4a-901, et seq.

(i) A child under age five in public foster care meets the special need definition of "a child with a physical, emotional or mental disability" when the child is at risk to develop such a condition due to specific factors identified in the child's or birth parents' health and social histories.

(3) In determining eligibility for adoption assistance, there is no income eligibility requirement or means test for the adoptive parents.

(4) A child must be a U.S. citizen or qualified alien to receive adoption assistance.

(5) An application for adoption assistance is submitted to the regional adoption assistance committee on a form provided by Child and Family Services.

(6) Application for adoption assistance, approval, and completion of the adoption assistance agreement, including signatures of an adoptive parent and a representative from Child and Family Services, are to be completed prior to finalization of the adoption.

(7) Adoptive parents may request adoption assistance after an adoption is finalized by requesting a fair hearing through the Office of Administrative Hearings. Adoption assistance may only be granted after finalization when the conditions stated in R512-43-11-2(a) are met.

(8) Adoption assistance usually begins after finalization of an adoption. However, adoption assistance may be initiated at the time of placement if the child is legally free for adoption, the adoptive home is approved, adoption proceedings are initiated, an adoption assistance agreement is fully executed prior to placement, and foster care maintenance payments are not being provided for the child.

(9) An adoption assistance agreement shall be approved and have all required signatures before any payments may be made to an adoptive family or before state medical assistance may be initiated.

(10) A qualified child shall continue to be eligible to receive adoption assistance until a child reaches age 18 unless causes for termination apply as stated in R512-43-10. Assistance may be extended until a child reaches age 21 when the regional adoption assistance committee has determined that the child has a mental or physical disability that warrants continuing assistance.

(a) An extension of adoption assistance beyond age 18 is warranted if the child meets the criteria for services in the Department of Human Services, Division of Services for People with Disabilities.

(11) Child and Family Services is responsible for notifying a prospective adoptive family of the availability of adoption assistance when the family begins an adoptive placement of a qualified child in public foster care.

(12) The adoptive parents are responsible to notify Child and Family Services of any circumstances that may affect the child's eligibility for adoption assistance or eligibility for adoption assistance in a different amount.

R512-43-4. Reimbursement of Non-Recurring Adoption Expenses.

(1) A parent who adopts a child meeting all of the qualifying factors for adoption assistance listed in R512-43-3(2) may be reimbursed for non-recurring adoption expenses on behalf of the child.

(2) A parent may be reimbursed up to $2,000 per child for allowable non-recurring expenses directly related to the legal

adoption of a child with a special need. Reimbursement shall be limited to costs approved by the regional adoption assistance committee.

(3) Expenses may include reasonable and necessary adoption fees, court costs, adoption-related attorney fees, pre-placement adoptive evaluation, health and psychological examinations of adoptive parents, post-placement adoptive evaluation prior to adoption, and transportation and reasonable costs of lodging and food for the child and/or adoptive parents during the placement or adoption process.

(4) Adoptive parents are responsible to provide necessary receipts for reimbursement.

(5) Only costs that are incurred in accordance with State and Federal law and that have not been reimbursed from other sources or funds may be included.

(6) Non-recurring adoption expenses are reimbursable through Title IV-E Adoption Assistance. The child does not have to be determined Title IV-E eligible for the parents to receive this reimbursement.

R512-43-5. Monthly Subsidy.

(1) Qualifying for a Monthly Subsidy.

A child qualifies for a monthly subsidy when the following requirements are met:

(a) The child meets all of the qualifying factors for adoption assistance listed in R512-43-3(2), and

(b) The child meets the definition of child in public foster care, qualifies for SSI, or the child had a previous IV-E agreement or Utah state adoption assistance agreement.

(c) The child's eligibility for SSI benefits is established no later than the time adoption proceedings are initiated.

(2) Guiding Principles for Monthly Subsidies.

(a) The amount of monthly subsidy to be paid for a child is based on the child's present and long-term treatment and care needs and available resources, including the family's ability to meet the needs of the child. A combination of the parents' resources and subsidy should cover the ordinary and special needs expenses of the child projected over an extended period of time.

(b) The amount of the monthly subsidy may not exceed the payment that would be made if the child was placed in a foster family home at the point in time when the agreement is being initiated or revised.

(c) The amount of monthly subsidy may increase or decrease when the child's level of need or the family's ability to meet those needs changes. The family or the caseworker may initiate a change in the amount of subsidy at any time when needs or resources change.

(d) For a child in public foster care, the requested amount of monthly subsidy is negotiated between the adoptive parent and caseworker. The Adoptive Parent Statement of Disclosure items must be reviewed in depth by the caseworker and adoptive parent prior to subsidy negotiation.

(e) The amount of the monthly subsidy is subject to the approval of the regional adoption assistance committee. If the requested amount is not granted, the adoptive parent has a right to appeal as stated in R512-43-11.

(3) Process for Determining Monthly Subsidy Amount.

(a) Utilizing the level of need criteria specified in R512-43-5(4), the caseworker and adoptive family identify the child's level of need.

(b) The caseworker and adoptive family identify the applicable monthly subsidy payment range, according to the child's specified level of need, as specified in R512-43-5(5).

(c) The caseworker and adoptive family negotiate the amount of monthly subsidy to be requested from the regional adoption assistance committee. The requested monthly subsidy amount may not exceed the maximum amount for the specific level of need identified for the child nor the maximum amount that the child would receive if placed in a foster family home.

(d) The identified need level for the child and requested amount of monthly subsidy is presented to the regional adoption assistance committee for approval. If the requested amount is not approved or is reduced by the committee, Child and Family Services must send a written notice to the adoptive parents within 30 days informing them of the process to request a fair hearing.

(4) Determining Child's Level of Need.

(a) The level of need is determined by considering the child's age, history, physical, mental, emotional, and social functioning and needs, and any other relevant factors. Frequency of occurrence, duration, severity, and number of needs or problem areas are also considered.

(b) The presence of a particular issue listed within a designated level does not mandate that the child be categorized at that level. The child's needs, taken as a whole, determine the level selected for the child.

(c) Level of need is classified into three categories.

(i) Level One applies to a child with a minimal number and severity of needs. It is expected that most of these issues will improve with time, and significant improvement may be anticipated over the course of the adoption. For children ages five and under issues may include, but are not limited to: feeding problems, aggressive or self destructive behavior, victimization from sexual abuse, victimization from physical abuse; or no more than one developmental delay in fine motor, gross motor, cognitive or social/emotional domains. For children ages 6-18, issues may include but are not limited to: social conflict, physical aggression, minor sexual reactivity, need for education resource classes or tutoring, some minor medical problems requiring ongoing monitoring, or mental health issues requiring time limited counseling.

(ii) Level Two applies to a child with a moderate number and severity of needs. It is expected that a number of these issues are long-term in nature and the adoptive family and child will be working with them over the course of the adoption, and some may intensify or worsen if not managed carefully. Outside provider support will probably continue to be needed during the course of the adoption. For children ages five and under, issues may include, but are not limited to: developmental delays in two or more areas of fine motor, gross motor, cognitive or social/emotional domains; diagnosis of failure to thrive; moderate genetic disease or physical handicapping condition; or physical aggression expressed several times a week, including superficial injury to self or others. For children ages 6-18, issues may include, but are not limited to: daily social conflict or serious withdrawn behavior; moderate risk of harm to self or others due to physically aggressive behavior; emotional or psychological issues with a DSM-IV diagnosis requiring ongoing counseling sessions over an extended period of time; moderate sexual reactivity or perpetration; chronic patterns of being destructive to items or property; cruelty to animals; mild mental retardation or autism, with ongoing need for special education services; and physical disabilities requiring ongoing attendant care or other caretaker support.

(iii) Level Three applies to a child with a significant number or high severity of needs. It is expected that these issues will not moderate and may become more severe over time. The child's level of need may at some time require personal attendant care or specialized care outside of the home, when prescribed by a professional. For children ages five and under issues may include, but are not limited to: severe life threatening medical issues; moderate or severe retardation or autism; serious developmental delays in three or more areas of fine or gross motor, cognitive or social/emotional domains; anticipated need for ongoing support for activities of daily living, such as feeding, dressing and self care; or high levels of threat for harm to self or others due to aggressive behaviors. For children ages

6-18 issues may include, but are not limited to: moderate or severe retardation or autism; life threatening medical issues; severe physical disabilities not expected to improve over time; predatory sexual perpetration; high risk of serious injury to self or others due to aggressive behavior; serious attempts or threats of suicide; severely inhibiting DSM-IV diagnosed mental health disorders diagnosed within the past year that limit normal social and emotional development, such as an Axis 5 GAF score under 50; or need for ongoing self contained or special education services.

(d) The regional adoption assistance committee must approve the level of need identified for the child.

(5) Identifying Amount for Monthly Subsidy Based Upon the Child's Level of Need.

(a) Each level of need corresponds to a dollar range in the amount of monthly subsidy that may be paid for a child, with the specific amount based upon the individual child's needs and the family's ability to meet those needs.

(b) The monthly subsidy amount for an individual child may not exceed the maximum amount for the payment range applicable to the child's level of need. A family may choose to defer receipt of a monthly subsidy for which a child qualifies, with the option to initiate a monthly subsidy at a later date, or to receive a lesser amount than would be allowable for the level of need at a given point in time.

(c) Monthly subsidy payments for a child's needs categorized as Level One range from zero to 40 percent of the maximum maintenance payment that may be paid for a child in a foster family home.

(d) Monthly subsidy payments for a child's needs categorized as Level Two range from 41 to 70 percent of the maximum maintenance payment that may be paid for a child in a foster family home.

(e) Monthly subsidy payments for a child's needs categorized as Level Three range from 71 to 100 percent of the maximum maintenance payment that may be paid for a child in a foster family home.

(f) For extraordinary, infrequent, or uncommon documented needs that cannot be covered by a monthly subsidy or state medical assistance, refer to supplemental adoption assistance in R512-43-7.

(6) Funding Sources and Eligibility for Monthly Subsidy.

(a) The two funding sources for the monthly subsidy are Title IV-E Adoption Assistance and state adoption assistance funds. The child's eligibility determines which funding source is used for payment.

(b) Title IV-E Adoption Assistance shall be considered first for the monthly subsidy. To receive Title IV-E Adoption Assistance, a child with special needs shall meet at least one of the following Federal requirements:

(i) A child is determined eligible for SSI by the Social Security Administration prior to the initiation of adoption proceedings.

(ii) The removal home for the child in public foster care received, or would have been eligible to receive, AFDC prior to removal, and the child was removed from the home as a result of a judicial determination that remaining in the home would be contrary to the child's welfare.

(iii) The child was voluntarily placed for foster care with the state and:

(A) Was or would have been AFDC eligible at the time of removal if application had been made,

(B) The child lived with a specified relative within the six months prior to the voluntary placement, and

(C) Title IV-E foster care maintenance payments were made on behalf of the child.

(iv) The child's needs were met through foster care maintenance payments made to and for the child's minor parents as provided by Subsection 475(4)(B) of the Social Security Act.

(v) The child had a previous IV-E adoption assistance agreement.

(c) State adoption assistance funds may be used for the monthly subsidy if the qualified child is not eligible for Title IV-E Adoption Assistance.

(7) Use of the monthly subsidy. The monthly subsidy may be used according to the parents' discretion. Some examples of the uses of the monthly subsidy payment are medical, dental, or mental health services not paid for by the state medical assistance or family insurance, special equipment for physically or mentally challenged children, respite care, child care, therapeutic equipment, minor renovation of the home to meet special needs of the child, damage and repairs, speech therapy, tutoring, specialized preschool based on needs of the child, private school, exceptional basic needs such as special food, clothing, and/or shelter, visitations with biological relatives, cultural and heritage activities and information.

R512-43-6. State Medical Assistance.

(1) A child qualifies for state medical assistance as a component of adoption assistance when all of the following requirements are met:

(a) The child meets all of the qualifying factors for adoption assistance listed in R512-43-3(2), and

(b) The child meets the definition of child in public foster care, qualifies for SSI, or the child had a previous IV-E adoption assistance agreement or Utah state adoption assistance agreement.

(i) The child's eligibility for SSI benefits is established no later than the time adoption proceedings are initiated.

(c) The child meets state medical assistance citizenship requirements.

(2) A qualified child may receive state medical assistance through an adoption assistance agreement without also receiving a monthly subsidy payment.

(3) The adoptive family must meet all Medicaid requirements, including application, citizenship verification, and annual review requirements in order for Medicaid to be initiated and continue throughout the period of the adoption assistance agreement.

R512-43-7. Supplemental Adoption Assistance.

(1) A child meeting all qualifying criteria for a monthly subsidy and for whom an adoption assistance agreement for a monthly subsidy or state medical assistance is in effect may qualify for supplemental adoption assistance.

(2) Supplemental adoption assistance may only be used for extraordinary, infrequent, or uncommon documented needs not otherwise covered by a monthly subsidy, state medical assistance, or other public benefits for which a child who has a special need is eligible.

(3) Supplemental adoption assistance is not an entitlement, and will be granted only when justified by unique needs of the child and when all other resources for which a child is eligible have been exhausted.

(4) Supplemental adoption assistance requests up to $3,000 will be considered and are subject to the approval of the regional adoption assistance committee.

This rule is adopted pursuant to the provisions of Section 31A-29-116.

R590-172-2. Scope.

This rule applies to all health insurers doing business in the State of Utah.

R590-172-3. Definitions.

For the purpose of this rule the commissioner adopts the definitions as particularly set forth in Section 31A-1-301 and in addition, the following:

The term, "health insurance," is defined in Subsection 31A-29-103(5)(a) as any hospital and medical expense-incurred policy; nonprofit health care service plan contract, and health maintenance organization subscriber contract. It does not include workers' compensation insurance, automobile medical payment insurance, or insurance under which benefits are payable with or without regard to fault and which is required by law to be contained in any liability insurance policy.

R590-172-4. Rule.

(1) Notification of Denial to Applicants.

Every health insurer writing health insurance in the State of Utah will provide a written notice containing the requirements in R590-176-5(3)(a), Health Benefit Plan Enrollment, and the following language to each applicant for health insurance coverage that is denied coverage by the insurer for reasons relating to health:

"You have been denied health insurance coverage due to a health condition which is uninsurable. The Utah Comprehensive Health Insurance Pool (HIPUtah) was created to provide health insurance to residents of Utah who are denied health insurance and who are considered uninsurable. If you have lived in the State of Utah for 12 consecutive months prior to applying for insurance with this company you may be eligible for health insurance coverage with HIPUtah.

"However, if you have not lived in the state of Utah for 12 consecutive months, but you are a Utah resident and you are coming from another State's high risk pool or have had 18 months of continuous coverage with the most recent coverage being through a group health plan, you may still be eligible for health insurance coverage with the Utah Comprehensive Insurance Pool.

"Part or all of the preexisting waiting period will be waived if you are an eligible individual according to the Health Insurance Portability and Accountability Act (HIPAA) or your previous coverage was involuntarily terminated for reasons other than for nonpayment of premium or fraud, and application for HIPUtah is made within 63 days of that termination. The amount of credit given will depend on the length of time an applicant was previously covered under that health insurance.

"If application for coverage with HIPUtah is made within 30 days of this denial letter and you are declined coverage with the pool, HIPUtah will issue a certificate of insurability and you may reapply for coverage with this company within 30 days of the certificate date.

"To find out whether you qualify for pool coverage or to make application for pool coverage, Salt Lake City area residents should call 801-442-6660. Residents of other areas in Utah should call 800-705-9173, toll free. The HIPUtah's mailing address is P.O. Box 30192, Salt Lake City, Utah 84130-0192."

(2) Notification of Denial to HIPUtah.

(a) Every health insurer writing health insurance in the State of Utah shall provide written notice to HIPUtah for each application in which applicant does not have current individual coverage, for insurance the insurer has denied.

(b) The notice to HIPUtah shall contain the name and address of the applicant who was denied insurance, and no other personal information. If the applicant applied for the insurance through an insurance producer, the written notice shall provide the name and the address of the insurance producer. The information must be presented in an excel spreadsheet in the format; Applicant, Last Name, First Name, Mailing Address, Producer, Last Name, First Name, Mailing Address.

(c) The notice shall be submitted to HIPUtah on the 1st of each month. The notice shall be transmitted electronically to HIPUtah through a secure email address at hiputah@exchangeforum.utah.gov.

R590-172-5. Enforcement Date.

The commissioner will begin enforcing the revised provisions of this rule 45 days from the effective date of the rule

R600-3-2. Definitions.

A. An "active manager" is one who directs or causes the direction of the management and policies of the unincorporated entity, whether through the ownership of voting shares, by contract, or otherwise. Status as an active manager requires a documented history of voting on, approving, or otherwise deciding a substantial matter involving the business of the unincorporated entity, including without limitation:

D. "Subject to supervision or control in the performance of work" means that:

1. The unincorporated entity has the right to control what the worker does and how he or she does it, regardless of whether the unincorporated entity actually exercises that authority; or

2. The unincorporated entity has the right to control the business aspects of the work, such as:

a. How the worker is paid;

b. Whether expenses are reimbursed;

c. Who is responsible to provide tools and supplies;

d. Who arranges for administrative support, advertising, and similar functions.

R600-3-3. Procedures to Challenge Presumption that Unincorporated Entity is the Employer.

A. Declaratory Actions. An interested party may request a determination regarding an unincorporated entity's status as an employer by filing a petition for declaratory order in accordance with Rule R600-1.

B. In Connection with Other Adjudicative Proceedings.

1. In proceedings to adjudicate a claim of unpaid wages, employment discrimination, or violation of occupational safety and health standards, an unincorporated entity may submit evidence that rebuts the presumption that the unincorporated entity is an employer,

2. Notwithstanding the burden of proof required to prove the underlying claim, the unincorporated entity may only rebut the presumption that it is the employer by clear and convincing evidence.

B. Application for Hearing.

1. Whenever a claim for compensation benefits is denied by an employer or insurance carrier, the burden rests with the injured worker, authorized representative of a deceased worker's estate, dependent of a deceased worker or medical provider, to initiate agency action by filing an appropriate Application for Hearing with the Division. Applications for hearing shall include an original, Adjudication Form 308 Authorization to Disclose, Release and Use Protected Health Information.

2. An employer, insurance carrier, or any other party with standing under the Workers' Compensation Act may obtain a hearing before the Adjudication Division by filing a request for agency action with the Division complying with the Utah Administrative Procedures Act Utah Code Section 63G-4-102et seq.

3. All Applications for Hearing shall include supporting medical documentation of the claim where there is a dispute over medical issues. Applications for Hearing without supporting documentation and a properly completed Adjudication Form 308 Authorization to Disclose, Release and Use Protected Health Information may not be mailed to the employer or insurance carrier for answer until the appropriate documents have been provided. In addition to respondent's answer, a respondent may file a motion to dismiss the Application for Hearing where there is no supporting medical documentation filed to demonstrate medical causation when such is at issue between the parties.

4. When an Application for Hearing with appropriate supporting documentation is filed with the Division, the Division shall forthwith mail to the respondents a copy of the Application for Hearing, supporting documents and Notice of Formal Adjudication and Order for Answer.

5. In cases where the injured worker is represented by an attorney, a completed and signed Adjudication Form 152 Appointment of Counsel form shall be filed with the Application for Hearing or upon retention of the attorney.

C. Answer.

1. The respondent(s) shall have 30 days from the date of mailing of the Order for Answer, to file a written answer to the Application for Hearing.

2. The answer shall admit or deny liability for the claim and shall state the reasons liability is denied. The answer shall state all affirmative defenses with sufficient accuracy and detail that the petitioner and the Division may be fully informed of the nature and substance of the defenses asserted.

3. All answers shall include a summary of benefits which have been paid to date on the claim, designating such payments by category, i.e. medical expenses, temporary total disability, permanent partial disability, etc.

4. When liability is denied based upon medical issues, copies of medical reports sufficient to support the denial of liability shall be filed with the answer.

5. If the answer filed by the respondents fails to sufficiently explain the basis of the denial, fails to include medical reports or records to support the denial, or contains affirmative defenses without sufficient factual detail to support the affirmative defense, the Division may strike the answer filed and order the respondent to file within 20 days, a new answer which conforms with the requirements of this rule.

6. All answers must state whether the respondent is willing to mediate the claim.

7. Petitioners are allowed to timely amend the Application for Hearing, and respondents are allowed to timely amend the answer, as newly discovered information becomes available that would warrant the amendment. The parties shall not amend their pleadings later than 45 days prior to the scheduled hearing without leave of the Administrative Law Judge.

8. Responses and answers to amended pleadings shall be filed within ten days of service of the amended pleading without further order of the Labor Commission.

D. Default.

1. If a respondent fails to file an answer as provided in Subsection C above, the Division may enter a default against the respondent.

2. If default is entered against a respondent, the Division may conduct any further proceedings necessary to take evidence and determine the issues raised by the Application for Hearing without the participation of the party in default pursuant to Section 63G-4-209(4), Utah Code.

3. A default of a respondent shall not be construed to deprive the Employer's Reinsurance Fund or Uninsured Employers' Fund of any appropriate defenses.

4. The defaulted party may file a motion to set aside the default under the procedures set forth in Section 63G-4-209(3), Utah Code. The Adjudication Division shall set aside defaults upon written and signed stipulation of all parties to the action.

E. Waiver of Hearing.

1. The parties may, with the approval of the administrative law judge, waive their right to a hearing and enter into a stipulated set of facts, which may be submitted to the administrative law judge. The administrative law judge may use

the stipulated facts, medical records and evidence in the record to make a final determination of liability or refer the matter to a Medical Panel for consideration of the medical issues pursuant to R602-2-2.

2. Stipulated facts shall include sufficient facts to address all the issues raised in the Application for Hearing and answer.

3. In cases where Medical Panel review is required, the administrative law judge may forward the evidence in the record, including but not limited to, medical records, fact stipulations, radiographs and deposition transcripts, to a medical panel for assistance in resolving the medical issues.

F. Discovery.

1. Upon filing the answer, the respondent and the petitioner may commence discovery. Discovery documents may be delivered by electronic transmittal. Discovery allowed under this rule may include interrogatories, requests for production of documents, depositions, and medical examinations. Discovery shall not include requests for admissions. Appropriate discovery under this rule shall focus on matters relevant to the claims and defenses at issue in the case. All discovery requests are deemed continuing and shall be promptly supplemented by the responding party as information comes available.

2. Without leave of the administrative law judge, or written stipulation, any party may serve upon any other party written interrogatories, not exceeding 25 in number, including all discrete subparts, to be answered by the party served. The frequency or extent of use of interrogatories, requests for production of documents, medical examinations and/or depositions shall be limited by the administrative law judge if it is determined that:

a. The discovery sought is unreasonably cumulative or duplicative, or is obtainable from another source that is more convenient, less burdensome, or less expensive;

b. The party seeking discovery has had ample opportunity by discovery in the action to obtain the discovery sought; or

c. The discovery is unduly burdensome or expensive, taking into account the needs of the case, the amount in controversy, limitations on the parties' resources, and the importance of the issues at stake in the adjudication.

3. Upon reasonable notice, the respondent may require the petitioner to submit to a medical examination by a physician of the respondent's choice.

4. All parties may conduct depositions pursuant to the Utah Rules of Civil Procedure and Section 34A-1-308, Utah Code.

5. Requests for production of documents are allowed, but limited to matters relevant to the claims and defenses at issue in the case, and shall not include requests for documents provided with the petitioner's Application for Hearing, nor the respondents' answer.

6. Parties shall diligently pursue discovery so as not to delay the adjudication of the claim. If a hearing has been scheduled, discovery motions shall be filed no later than 45 days prior to the hearing unless leave of the administrative law judge is obtained.

7. Discovery motions shall contain copies of all relevant documents pertaining to the discovery at issue, such as mailing certificates and follow up requests for discovery. The responding party shall have 10 days from the date the discovery motion is mailed to file a response to the discovery motion.

8. Parties conducting discovery under this rule shall maintain mailing certificates and follow up letters regarding discovery to submit in the event Division intervention is necessary to complete discovery. Discovery documents shall not be filed with the Division at the time they are forwarded to opposing parties.

9. Any party who fails to obey an administrative law judge's discovery order shall be subject to the sanctions available under Rule 37, Utah Rules of Civil Procedure.

G. Subpoenas.

1. Commission subpoena forms shall be used in all discovery proceedings to compel the attendance of witnesses. All subpoenas shall be signed by the administrative law judge assigned to the case, or the duty judge where the assigned judge is not available. Subpoenas to compel the attendance of witnesses shall be served at least 14 days prior to the hearing consistent with Utah Rule of Civil Procedure 45. Witness fees and mileage shall be paid by the party which subpoenas the witness.

2. A subpoena to produce records shall be served on the holder of the record at least 14 days prior to the date specified in the subpoena as provided in Utah Rule of Civil Procedure 45. All fees associated with the production of documents shall be paid by the party which subpoenas the record.

H. Medical Records Exhibit.

1. The parties are expected to exchange medical records during the discovery period.

2. Petitioner shall submit all relevant medical records contained in his/her possession to the respondent for the preparation of a joint medical records exhibit at least twenty (20) working days prior to the scheduled hearing.

3. The respondent shall prepare a joint medical record exhibit containing all relevant medical records. The medical record exhibit shall include all relevant treatment records that tend to prove or disprove a fact in issue. Hospital nurses' notes, duplicate materials, and other non-relevant materials need not be included in the medical record exhibit.

4. The medical records shall be indexed, paginated, arranged by medical care provider in chronological order and bound. The medical records may not be filed via electronic transmittal.

5. The medical record exhibit prepared by the respondent shall be delivered to the Division and the petitioner or petitioner's counsel at least ten (10) working days prior to the hearing. Late-filed medical records may or may not be admitted at the discretion of the administrative law judge by stipulation or for good cause shown.

6. The administrative law judge may require the respondent to submit an additional copy of the joint medical record exhibit in cases referred to a medical panel.

7. The petitioner is responsible to obtain radiographs and diagnostic films for review by the medical panel. The administrative law judge shall issue subpoenas where necessary to obtain radiology films.

I. Hearing.

1. Notices of hearing shall be mailed to the addresses of record of the parties. The parties shall provide current addresses to the Division for receipt of notices or risk the entry of default and loss of the opportunity to participate at the hearing.

2. Judgment may be entered without a hearing after default is entered or upon stipulation and waiver of a hearing by the parties.

3. No later than 45 days prior to the scheduled hearing, all parties shall file a signed pretrial disclosure form that identifies: (1) fact witnesses the parties actually intend to call at the hearing; (2) expert witnesses the parties actually intend to call at the hearing; (3) language translator the parties intend to use at the hearing; (4) exhibits, including reports, the parties intend to offer in evidence at the hearing; (5) the specific benefits or relief claimed by the petitioner; (6) the specific defenses that the respondent actually intends to litigate; (7) whether, or not, a party anticipates that the case will take more than four hours of hearing time; (8) the job categories or titles the respondents claim the petitioner is capable of performing if the claim is for permanent total disability, and; (9) any other issues that the parties intend to ask the administrative law judge to adjudicate. The administrative law judge may exclude witnesses, exhibits, evidence, claims, or defenses as appropriate of any party who

fails to timely file a signed pre-trial disclosure form as set forth above. The parties shall supplement the pre-trial disclosure form with information that newly becomes available after filing the original form. The pre-trial disclosure form does not replace other discovery allowed under these rules.

4. If the petitioner requires the services of language translation during the hearing, the petitioner has the obligation of providing a person who can translate between the petitioner's native language and English during the hearing. If the respondents are dissatisfied with the proposed translator identified by the petitioner, the respondents may provide a qualified translator for the hearing at the respondent's expense.

5. The petitioner shall appear at the hearing prepared to outline the benefits sought, such as the periods for which compensation and medical benefits are sought, the amounts of unpaid medical bills, and a permanent partial disability rating, if applicable. If mileage reimbursement for travel to receive medical care is sought, the petitioner shall bring documentation of mileage, including the dates, the medical provider seen and the total mileage.

6. The respondent shall appear at the hearing prepared to address the merits of the petitioner's claim and provide evidence to support any defenses timely raised.

7. Parties are expected to be prepared to present their evidence on the date the hearing is scheduled. Requests for continuances may be granted or denied at the discretion of the administrative law judge for good cause shown. Lack of diligence in preparing for the hearing shall not constitute good cause for a continuance.

8. Subject to the continuing jurisdiction of the Labor Commission, the evidentiary record shall be deemed closed at the conclusion of the hearing, and no additional evidence will be accepted without leave of the administrative law judge.

J. Motions-Time to Respond.

Responses to all motions other than discovery motions shall be filed within ten (10) days from the date the motion was filed with the Division. Reply memoranda shall be filed within seven (7) days from the date a response was filed with the Division.

K. Notices.

1. Orders and notices mailed by the Division to the last address of record provided by a party are deemed served on that party.

2. Where an attorney appears on behalf of a party, notice of an action by the Division served on the attorney is considered notice to the party represented by the attorney.

L. Form of Decisions.

Decisions of the presiding officer in any adjudicative proceeding shall be issued in accordance with the provisions of Section 63G-4-203 or 63G-4-208, Utah Code.

M. Motions for Review.

1. Any party to an adjudicative proceeding may obtain review of an Order issued by an Administrative Law Judge by filing a written request for review with the Adjudication Division in accordance with the provisions of Section 63G-4-301 and Section 34A-1-303, Utah Code. Unless a request for review is properly filed, the Administrative Law Judge's Order is the final order of the Commission. If a request for review is filed, other parties to the adjudicative proceeding may file a response within 20 calendar days of the date the request for review was filed. If such a response is filed, the party filing the original request for review may reply within 10 calendar days of the date the response was filed. Thereafter the Administrative Law Judge shall:

a. Reopen the case and enter a Supplemental Order after holding such further hearing and receiving such further evidence as may be deemed necessary;

b. Amend or modify the prior Order by a Supplemental Order; or

In formal adjudicative proceedings, the Division shall generally follow the Utah Rules of Civil Procedure regarding discovery and the issuance of subpoenas, except as the Utah Rules of Civil Procedure are modified by the express provisions of Section 34A-2-802, Utah Code or as may be otherwise modified by these rules.

O. Requests for Reconsideration and Petitions for Judicial Review.

A request for reconsideration of an Order on Motion for Review may be allowed and shall be governed by the provisions of Section 63G-4-302, Utah Code. Any petition for judicial review of final agency action shall be governed by the provisions of Section 63G-4-401, Utah Code.

R602-2-2. Guidelines for Utilization of Medical Panel.

Pursuant to Section 34A-2-601, the Commission adopts the following guidelines in determining the necessity of submitting a case to a medical panel:

A. A panel will be utilized by the Administrative Law Judge where one or more significant medical issues may be involved. Generally a significant medical issue must be shown by conflicting medical reports. Significant medical issues are involved when there are:

1. Conflicting medical opinions related to causation of the injury or disease;

2. Conflicting medical opinion of permanent physical impairment which vary more than 5% of the whole person,

4. Conflicting medical opinions related to a claim of permanent total disability, and/or

5. Medical expenses in controversy amounting to more than $10,000.

B. A hearing on objections to the panel report may be scheduled if there is a proffer of conflicting medical testimony showing a need to clarify the medical panel report. Where there is a proffer of new written conflicting medical evidence, the Administrative Law Judge may, in lieu of a hearing, re-submit the new evidence to the panel for consideration and clarification.

C. Any expenses of the study and report of a medical panel or medical consultant and of their appearance at a hearing, as well as any expenses for further medical examination or evaluation, as directed by the Administrative Law Judge, shall be paid from the Uninsured Employers' Fund, as directed by Section 34A-2-601.

1. Commission approval is not required for attorneys fees charged under this subsection B. It is the applicant's responsibility to pay attorneys fees permitted by this subsection B.

2. In all other cases involving payment of applicants' attorneys fees which are not covered by this subsection B., the entire amount of such attorneys fees are subject to subsection C. or D. of this rule.

C. Except for legal services compensated under subsection B. of this rule, all legal services provided to applicants shall be compensated on a contingent fee basis.

b. Benefits are "generated" when paid as a result of legal services rendered after Adjudication Form 152 Appointment of Counsel form is signed by the applicant. A copy of this form must be filed with the Commission by the applicant's attorney.

c. In no case shall an attorney collect fees calculated on more than the first 312 weeks of any and all combinations of workers' compensation benefits.

2. Fees and costs authorized by this subsection shall be deducted from the applicant's benefits and paid directly to the attorney on order of the Commission. A retainer in advance of a Commission approved fee is not allowed.

b. For legal services rendered in prosecuting or defending an appeal before the Utah Court of Appeals, an attorney's fee shall be awarded amounting to 30% of the benefits in dispute before the Court of Appeals. This amount shall be added to any attorney's fee awarded under subsection C.3.a. for benefits not in dispute before the Court of Appeals. The total amount of fees awarded under subsection C.3.a. and this subsection C.3.b. shall not exceed $24,706;

c. R655-10-5. Hazard Classification.

Hazard classification of a dam places the dam into a category based upon the consequences of failure of the dam. The State Engineer is the ultimate authority on the hazard classification designation for a given dam.

R655-10-5A. Hazard Classification--Criteria.

The hazard classification analysis should include a determination of the threat to human life and property damage in the event of the failure of a dam. In some cases the classification can be assigned by observance of the downstream development in relationship to the location of the dam. In other cases it will be necessary to prepare inundation maps to determine the downstream consequences of failure. In preparing the inundation maps, the following criteria relative to the dam should be used.

1. No concurrent flooding conditions exist.
2. The reservoir level is at the emergency spillway crest.
3. The low level outlet is discharging at capacity.
4. The breach times and geometric parameters used to simulate the dam failure should be acceptable to the State Engineer and consistent with accepted practices.
5. The inundation study should be carried downstream to a point that the breach flows are contained within the banks of the natural channel or a downstream reservoir.

R655-10-5B. Hazard Classification--Exceptions.

It should be noted that the hazard classification as outlined in R655-10-5A may not be an absolute indicator of the hazard of the dam, since a dam failure superimposed on natural flooding conditions may cause incremental risk to life and property. Although this scenario is not normally used in the hazard classification process, it is a factor the owner should consider in determining their overall liability. Under special circumstances, as determined by the State Engineer, a hazard classification may be determined giving consideration to concurrent flooding events.

R655-10-6. Approval Processes.

There are two procedures for obtaining approval from the State Engineer to construct or modify a dam. The first procedure requires the filing of an application, while the second procedure requires the submission of plans. No approval will be given for any dam unless the water rights are in order.

R655-10-6A. Application Procedure.

For dams not requiring submission of plans as outlined in Section 73-5a-202, an application must be submitted and approved by the State Engineer. Blank applications are available upon request. Upon reviewing the application the State Engineer may approve it, reject it, return it for correction, or approve it with conditions.

R655-10-6B. Submission of Plans.

A. All projects requiring submission of plans should include a package including the drawings, specifications, design reports, and any other information which will assist in reviewing the project. R655-11. Requirements for the Design, Construction and Abandonment of Dams.
R655-11-1. Authority and Applicability.

The following rule is established under the authority of Title 73, Chapter 5a. The procedures constitute minimum design requirements for dams. Additional procedures may be required to comply with any other governing statute, federal law, federal regulation, or local ordinance. These rules apply to any dam constructed in the state with the exception of those specifically exempted by Section 73-5a-102 and those dams not requiring plans as outlined in Section 73-5a-202.

R655-11-2. Purpose and Scope.

A. The following minimum design requirements will serve as a guide to the owner's engineer. It should be noted that these are minimum requirements for general conditions and may be changed when dealing with a specific structure. Designs below the minimum requirements must be approved in writing by the State Engineer prior to final design submittal of the project. The design requirements are quite rigid, allowing little latitude in the utilization of new materials and unproven construction methods. The burden to show adequate protection of public interests with the use of new materials or unproven methods rests with the owner's engineer.

B. The following minimum design requirements apply to all proposed dams where applicable. Since the vast majority of dams in the state are earthfill or rockfill dams, the focus of the design criteria is on these dams. Specific structural design criteria for concrete dams is not given. The State Engineer, upon approval in writing, will accept structural design criteria for concrete dams developed by other dam regulatory or dam design agencies, providing it reflects state-of-the-art criteria for the design of concrete dams and does not conflict with the following rules.

R655-11-3. Definitions.

Definitions are as outlined in R655-10-4.

R655-11-4. Hydrologic Design.

In order to arrive at an Inflow Design Hydrograph or Inflow Design Flood (IDF) more representative of actual conditions in Utah, the State Engineer has commissioned, or has been involved in, numerous studies to supplement the National Oceanic and Atmospheric Administration's (NOAA) Report entitled "Hydrometeorological Report No. 49 (HMR49) - "Probable Maximum Precipitation Estimates, Colorado River and Great Basin Drainages". The results of most of these studies are used to better identify soil conditions, discharge coefficients, and unit hydrograph parameters. The results of two of the studies are used directly to refine the calculation of the design rainfall values. Both studies were completed by Donald Jensen of the Utah Climate Center and are entitled, "2002 Update for Probable Maximum Precipitation, Utah 72 Hour Estimates to 5,000 sq. mi. - March 2003" (USUL) and "Probable Maximum Precipitation Estimates for Short Duration, Small Area Storms in Utah - October 1995 "(USUS). All of HMR49, Table 1, page 4 of USUL, and Table 15, pages 74-75 of USUS are hereby incorporated by reference. All High Hazard and Moderate Hazard dams in Utah must use the precipitation values obtained from the use of all three publications. To avoid confusion, precipitation values obtained from HMR49 exclusively will be referred to as the Probable Maximum Precipitation (PMP), while those obtained from using HMR49 in conjunction with USUL or USUS, will be referred to as the Spillway Evaluation Precipitation (SEP). The resulting hydrographs generated will be referred to as the Probable Maximum Flood (PMF) and the Spillway Evaluation Flood (SEF) respectively.

R655-11-4A. Inflow Design Hydrograph Determination.

A) In Utah, the IDF for all High and Moderate Hazard Dams will be the SEF. It will be necessary to calculate both the 72 hour SEF using HMR49/ USUL as well as the 6 hour SEF using HMR49/ USUS. Both of these hydrographs must be routed through the reservoir to determine which one represents the most extreme event.

B) Once the critical SEF has been determined, it must be compared to a flood generated by the 100 year, 6 hour (for local storms), or 100 yr, 24 hour (for general storms) precipitation applied on a saturated watershed. If the routed 100 year event, including appropriate allowances for freeboard, is more critical than the SEF it must be used as the minimum IDF. This 100 year flood should also be used as the IDF for all Low Hazard Dams.

R655-11-4B. Freeboard Requirements.

All dams must have a normal freeboard above the crest of the principal spillway capable of containing the maximum wave action considering site wind-duration and fetch control characteristics. Wave action includes wave height and maximum runup, as well as reservoir setup against the embankment slope. Unless otherwise justified by specific data acceptable to the State Engineer, an extreme wind velocity (fastest mile) over land of 100 miles per hour should be considered. In addition, while routing the 100 year precipitation event through the spillway, sufficient residual freeboard must be available to control wave action from a fetch controlled 50 miles per hour wind. In no case will the normal freeboard be less than three feet for high and moderate hazard dams. The State Engineer may reduce the three feet minimum freeboard requirement for low hazard dams based upon a review of the relative increase in risk associated with this reduction.

R655-11-4C. Spillways.

In designing the spillway for a dam to pass the IDF, the State Engineer will consider the use of a principal spillway in conjunction with emergency spillways. The principal spillway must be designed so that no structural damage will occur during passage of the IDF. Emergency spillways, including Fuse Plug Spillways, may be designed so that some damage may be expected during use provided the anticipated damage does not represent a threat to the dam. Sunny day failure modeling of Fuse Plug Spillways may be required to determine if they are creating an additional unacceptable risk. Overtopping of the dam will not be considered as an emergency spillway on earthfill dams, unless it can be demonstrated that the dam is protected from erosion, and the duration of overtopping will not saturate the dam and reduce its stability.

R655-11-4D. Infiltration Rates.

The State Engineer will accept an IDF using SEP values in conjunction with soil moisture conditions representative of historical maximums. If the design engineer is using infiltration rates which represent something less than saturated conditions, information should be submitted to justify the lower soil moisture selection.

R655-11-4E. Flood Routing.

A. In routing the IDF through the reservoir, the initial water surface should reflect conservative estimates which would exist at the time of the flood event. Unless documentation can be provided to the contrary, it should be assumed that all low level outlets are closed during routing of the IDF. For dams receiving inflow from pipelines and supply canals, it should be assumed these additional sources are operating at capacity during the flood event. In the event the spillway is gated or has "stop logs", which are only allowed on existing dams, documentation must be provided to show the gates are

automated or operational procedures are in place to insure that the gates can be opened or the stop logs removed in a timely manner.

B. The SEF can be routed so the maximum water surface is at an elevation equal to the lowest point on the crest of the dam with no residual freeboard.

C. In generating the IDF, the basin characteristics used and the parameters used to generate the unit hydrograph should be based on the best information available. Unit hydrographs generated from historical records or calibrated watersheds should be used, where data is available, rather than using synthetic procedures.

R655-11-4F. Incremental Damage Assessment for High and Moderate Hazard Dams.

The State Engineer may, at his discretion, accept an IDF less than the SEF based on the results of an Incremental Damage Assessment (IDA) which shows that failure of the dam would cause insignificant incremental damage to property and no additional threat to human life. The State Engineer may consider the use of early warning systems in evaluating the threat to human life. In requesting the acceptance of an IDF determined from an IDA, documentation must be furnished that the owner of the dam is aware that the design reflects something less than the SEF and they are willing to accept the additional liability. In no case will the State Engineer approve an IDF generated by something less than the applicable 100 year flood event. The resulting selected IDF, based on the IDA, should be reported as a percent of the SEF.

R655-11-4G. Historical Records.

In some cases it may be appropriate to use historical streamflow records to generate a 100 year flood. If these records are used as a basis for the IDF, they should be accompanied by the Synthetic IDF established by using the 100 year precipitation. Following a review of the data, the State Engineer will make a determination of which flood will be used as the IDF.

R655-11-5. Seismic Design.

A. Because each dam site has a unique seismic and geological setting, detailed direction cannot be provided for seismic design which is applicable to all dams. Rather, an order of evaluation is presented beginning with more simplified methods and progressing, as required, to more rigorous procedures. In determining the sophistication of analysis required, the State Engineer may consider factors including consequences of failure, available freeboard, duration of reservoir pool, and site geometry. Regardless of the method of analysis, the final determination of seismic adequacy of a dam will be based on all pertinent factors involved and not strictly on the numerical analysis. The order of progression of the seismic analysis follows:

1. Undertake geological and seismological investigations to determine the potential for earthquakes and associated ground motions at the site, including the source and magnitude of the earthquakes to be considered and the selected motions, including potential fault rupture.

2. Undertake field and laboratory investigations of the dam and foundation materials to determine their properties and liquefaction potential.

3. Undertake an appropriate analysis for seismic events to predict factors of safety against slope failures, structural deformations, and liquefaction resulting from earthquake shaking or fault rupture.

4. Incorporate defensive design measures based on the analysis and proven practices.

B. In many instances, an adequate seismic analysis can be determined from the geological study and determination of the general properties of the dam and foundation. Other projects may require more detailed investigations and analyses. Decisions as to seismic safety and risk should be made as the analysis progresses and the extent of further investigations required after each step should be determined following consultation with the State Engineer as necessary.

R655-11-5A. Geological and Seismic Study.

A review of the seismic or earthquake history of the region will be performed to establish the relationship of the site to known faults and epicenters. This will be based primarily on review of existing maps and technical literature and should include major earthquakes during historic time, epicenter locations and magnitudes, and the location of any major or regional fault traces. Geologic conditions at or near the dam site that might indicate recent fault or seismic activity should be included. Resulting design earthquakes and associated site ground motion parameters will be selected considering all available evidence including tectonic and seismological history. The ground motion parameters to be selected for the site will consist of those that are needed by the analyses that are appropriately selected for design and may include peak accelerations, velocities, displacements, response spectra, and acceleration time histories. Both the Maximum Credible Earthquake (MCE) and the Operating Basis Earthquake (OBE) will need to be investigated for all projects. The MCE should be evaluated from the following analyses:

1. A deterministic analysis from active faults in the region surrounding the dam.

2. Unless otherwise required by the State Engineer, the random or background event will consist of a minimum magnitude 6.5 event having a peak horizontal site acceleration obtained from a map, herein incorporated by reference, produced by the USGS and entitled "Peak Accelerations (%g) with 5,000 Year Return Time; no fault-specific sources." Alternatively, site specific evaluations may be performed to define ground motions for this event if the methods used and assumptions made are acceptable to the State Engineer. At the discretion of the State Engineer, the OBE requirement may be waived.

3. The OBE will be determined by probabilistic methods acceptable to the State Engineer.

R655-11-5B. Determination of Dam and Foundation Material Properties.

Results of the geological and seismological studies may be sufficient to evaluate seismic safety. However, if it appears the dam cannot safely withstand the earthquake motions or if sufficient information is not available to make an adequate determination, the next step of a phased evaluation program would be a field investigation and laboratory testing program. Field investigation should include a sufficient number of borings and test pits to accurately define the embankment, foundation, and abutment materials types, properties, and extent. Particular care and sufficient field data should be obtained where potentially liquefiable soils are present. In place and laboratory testing should be performed to adequately assess the material properties under the anticipated dynamic conditions.

R655-11-5C. Method of Analysis.

A. Procedures are available for selecting design earthquakes and associated site-specific motions and for assessing the resistance of dams to these earthquake motions. Procedures and techniques for evaluating the effects on dams from estimated earthquake ground motions range from simplified concepts to comprehensive dynamic analyses. When the degree of sophistication of analytical procedures is far advanced, however, uncertainty is produced in the results by

imperfect knowledge of input parameters obtained through field exploration and laboratory testing programs.

B. The extent or scope of studies, investigations, tests and analyses which may be required to adequately determine the seismic safety of a dam will vary from site to site. In general, the following physical factors will indicate a high priority and a greater degree of investigations and analysis:

1. Proximity to known active faults.
2. Indications of low-density materials in the dam or foundation.
3. Zones of high pore pressures or potential liquefaction.
4. Indications of marginal static stability.
5. Lack of adequate construction records for existing dams.

C. Regardless of these factors, however, one of the major considerations will be the "consequences of a failure". High and moderate hazard structures with permanent pools which could result in loss of life or extensive property damage from a failure will, in general, require a greater scope of investigation and analyses.

D. Following are the general analysis requirements for MCE design earthquakes:

1. Embankments, foundations, and abutments not subject to liquefaction:

a. For a maximum acceleration of 0.2g or less, or a maximum acceleration of .35g or less if the embankment consists of clay on a clay or bedrock foundation, a pseudo-static coefficient which is at least 50 percent of the maximum peak bedrock acceleration at the site should be used in the stability analysis. The minimum factor of safety in an analysis should be 1.0.

b. For a maximum peak acceleration greater than indicated above, a deformation and settlement analysis should be performed to estimate anticipated total crest movement. The evaluation should be performed for both the upstream and downstream slopes of the dam. Total crest movement should consider potential accumulation of movement from both sides. The minimum factor of safety against overtopping should be 2.5.

2. Embankment, foundation, or abutment soils subject to liquefaction:

a. A liquefaction analysis should be completed with enough detail to establish the boundaries of the liquefiable soils and the physical characteristics of the soil following liquefaction.

b. A post earthquake stability analysis should be performed to show that the embankment is stable after liquefaction occurs with a minimum factor of safety of 1.2.

c. Calculated deformation and settlement of the embankment total crest movement should result in a minimum factor of safety, against overtopping, of 3.0.

3. Other more sophisticated analytical procedures may be required at the discretion of the State Engineer, where conditions warrant greater detailed studies.

E. In addition to analysis of deformation and liquefaction, it will be necessary to assess the potential for internal erosion and cracking. Judgment must be used to decide whether or not erosion would tend to be self-healing as a result of filtering.

F. Construction of dams on active faults will not be allowed unless evidence is presented to, and approved by, the State Engineer that the dam can safely withstand the anticipated offset.

G. Evaluation of a dam under OBE conditions should be completed by similar methods to those described for the MCE. Under the OBE loading conditions the dam should experience no significant damage.

R655-11-5D. Design Measures.

Design of new dams should include measures, which provide multiple lines of defense, that enhance their performance under seismic loading. Measures may include:

1. Significantly wide transition and drainage zones in the embankment of material not vulnerable to cracking.
2. Controlled compaction of embankment zones to enhance dynamic performance.
3. Removal or treatment of foundation materials of low strength or density.
4. Enhanced ability to drain reservoir.
5. Flare the embankment core at abutment contacts.
6. Locate the core to minimize saturation of materials.
7. Stabilize slopes around the reservoir rim.

R655-11-5E. Appurtenant Structures.

The effects of seismic loading should also be considered during the design of all appurtenant structures.

R655-11-6. Embankment Requirements.

All embankment designs should meet the following criteria.

R655-11-6A. Factors of Safety.

A. All dams should meet the following criteria for factors of safety under normal loading conditions.

TABLE

Condition	Minimum Factor of Safety
End of Construction Case--upstream and downstream slopes	1.3
Steady State Seepage--upstream and downstream slopes (full pool)	1.5
Instantaneous Drawdown--upstream slope	1.2
OR	
Actual Drawdown--upstream slope	1.5

B. All factors of safety should be generated by methodology acceptable to the State Engineer. In undertaking the analysis, the effects of anisotropy should be considered and a ratio of horizontal to vertical permeability of at least nine should be used in the seepage analysis, unless otherwise justified to the satisfaction of the State Engineer. Ratios of up to 100 should be considered if the material types and construction techniques will cause excessive stratification.

C. The strengths used in the stability analysis should be obtained from tests which best model the situation being analyzed.

D. The analysis of the upstream slope stability for actual drawdown should consider drawdown rates which the low level outlets are capable of generating. Actual residual pore pressures should be used.

E. For low hazard dams the State Engineer may waive the requirements of a stability analysis, including a seismic analysis, if it can be demonstrated that conservative slopes and competent materials are used in the dam, and seismic problems (i.e., liquefiable materials, active faults close to the dam) are not present.

F. Stability evaluations where residual strengths are used must have a minimum factor of safety of 1.3.

R655-11-6B. Dam Crest Requirements.

A. The crest width of all dams should be, at a minimum, equal to the structural height of the dam divided by five plus five feet. The absolute minimum required shall be 12 feet and the absolute maximum required shall be 25 feet. Wider crest widths may be used at the designer's discretion.

B. All dams shall have a cross slope on the crest of 2% to 3% towards the reservoir.

C. All crests shall be protected with a wearing surface of granular material to prevent vehicular rutting.

D. Dam crests should be cambered to allow for anticipated

settlement. The side slopes of the dam may be steepened to accommodate the camber.

E. For dams over 500 feet long which have a crest that dead ends, a turn-around should be provided at the abutment.

F. The impervious portion of the dam under the crest may need to be terminated at the anticipated frost line to prevent desiccation cracking and damage from frost; however, it needs to be carried high enough to prevent seepage over the core by capillary rise.

R655-11-6C. External Erosion Control.

A. All downstream slopes of dams should be protected from erosion by placing armor or seeding with grasses. No planting of any shrubs, trees, or other woody vegetation will be allowed unless it is approved in writing by the State Engineer.

B. All downstream groins of dams receiving runoff from adjacent abutments shall be protected from erosion.

C. All upstream slopes on dams which impound water for significant lengths of time shall be armored. If rock riprap is used it shall be well graded, durable, and sized to withstand wave action. If the material underlying the riprap is fine grained and subject to erosion, a properly designed filter blanket must be installed. Geotextiles may be used in lieu of the filter blanket at the discretion of the State Engineer.

R655-11-6D. Internal Erosion Control.

A. All dams should have design provisions for controlling internal erosion. In zoned dams all adjacent zones must meet filter criteria with the abutting zones and foundation soils. If filter criteria cannot be met, a transition zone must be provided.

B. All filter zones in a dam must meet criteria acceptable to the State Engineer.

C. In designing filter zones where dispersive clays or broadly-graded materials exist, special considerations may be imposed by the State Engineer.

D. All internal filter zones will have a minimum width of three feet to facilitate construction. Wider zones are encouraged especially in active seismic areas.

E. Proper filtering is essential in all dams where cracking from differential settlement, hydraulic fracturing, or earthquake shaking is possible.

R655-11-6E. Internal Drainage.

A. All underdrains and collection pipes shall be constructed using non-corrodible materials capable of withstanding the anticipated loads.

B. Underdrains and collection pipes should be designed to conduct flows several times larger than anticipated. All pipes within the dam which are not easily accessible shall have a minimum diameter of six inches.

C. All internal drain pipes should be enveloped with free draining material, meeting filter requirements with adjacent zones.

D. Where multiple pipes are used to conduct drainage from internal portions of the dam, they should be carried to the downstream toe or gallery separately without intervening connections or manifold systems. If the drain pipes are connected at their termination points, manholes should be provided to facilitate observation and measurement of the separate drain lines.

E. All underdrains and collection pipes should have provisions for measuring discharges in manholes or at their discharge points. If the anticipated discharge is in excess of 10 gallons per minute (gpm), a weir or other suitable measuring device should be provided. If the anticipated flows are less than 10 gpm, provisions should be made so the water can be discharged freely into a vessel 1.5 feet high and one foot in diameter.

F. All exposed underdrain and collection pipes shall have an appropriate rodent screen attached.

G. All underdrains and collection pipes shall be cleaned out and inspected by camera prior to the first filling of the reservoir.

H. All seepage collection systems must include a collection pipe to discharge flows.

I. All internal drains must have a sufficient cover of impermeable material to eliminate the collection of surface waters.

R655-11-7. Outlet Requirements.

All outlet designs should meet the following criteria.

R655-11-7A. Outlet Sizing.

A. All dams shall have a low level outlet capable of draining the reservoir. Exemptions to this requirement may be granted at the discretion of the State Engineer. Normally, exemptions will only be considered for low head, low hazard dams. Any dead storage must be approved by the State Engineer and must be sufficiently low to eliminate any storage hazard. The outlet should be sized to meet the project demands as well as the following criteria.

1. All outlets shall be 24 inches in diameter or larger unless exempted in writing by the State Engineer. Outlets should have valves or capped flanges which can facilitate entry into the pipe by personnel or video equipment.

2. All outlets shall have the capacity to evacuate 90% of the active storage capacity of the reservoir within 30 days neglecting reservoir inflows. The State Engineer may adjust this requirement on large reservoirs if it can be demonstrated that compliance would result in an unreasonably sized outlet or potential releases would exceed the downstream channel carrying capacity.

3. All outlets shall have the capacity to satisfy prior downstream water rights and the owners' release requirements.

R655-11-7B. Outlet Materials.

All outlets will be made of appropriate materials with due regard for loading condition, seismic forces, thermal expansion, resistance to corrosion, and potential abrasion. The use of corrugated metal pipes and other thin-walled steel pipes will not be accepted unless they serve only to provide a form for a poured-in-place concrete conduit or they are specifically accepted in writing by the State Engineer.

R655-11-7C. Outlet Details.

A. All outlets shall have a trash rack to prevent clogging.

B. All outlets connected directly to a downstream pipeline shall have an emergency bypass valve.

C. All outlets shall have a suitable energy dissipator at the discharge end to prevent erosion of the downstream channel.

D. All outlets will be placed on a concrete cradle or encased in concrete unless specifically exempted by the State Engineer in writing.

E. All outlets, with the exception of ungated outlets, shall have an operating gate or a guard gate on the upstream end.

F. All outlets shall have seepage control measures to reduce the potential for piping along the conduit. Common methods may include locating the outlet conduit in bedrock and installing a conduit filter drain to intercept seepage.

G. Outlets encased in concrete should have battered sides to facilitate compaction against the encasement.

H. Every attempt should be made to locate the outlet on bedrock or consolidated materials. In the event this is not possible, consideration should be given to articulating the outlet to allow for settlement.

I. Outlet gates and valves can be either mechanically or hydraulically operated. In either case the hydraulic lines or mechanical stems must be adequately protected from debris,

wave action, settlement, and ice damage. Buried stems should be encased in an oil-filled pipe supported on pedestals. No catwalks or similar access structures will be allowed on reservoirs where freezing occurs or significant floating debris is present. All outlets which are operated with electrical equipment must have back-up generating capability or a manual bypass system capable of being operated in a reasonable amount of time.

J. All outlets shall be properly vented. A vent pipe and air manifold around the perimeter of the conduit immediately downstream of the gate will be required unless waived by the State Engineer. The air supply lines should be conservatively sized for the anticipated flows and protected in the same manner as the outlet control lines or stems.

K. All operators and supporting equipment for outlet controls should be properly protected and secured. Particular attention needs to be given to protection from vandals and unauthorized operation. All outlet controls should be clearly marked as to which way the gates and valves operate so that overloading of a closed gate or valve should not occur.

L. Outlet controls should be accessible when the spillways are in use.

R655-11-8. Spillway Requirements.

A. On all spillway control structures, provisions should be made for aeration of the nappe.

B. All spillways excavated in soils or soft rock should include a check structure to avoid headcutting and lowering of the spillway flowline.

C. All spillway channels should have suitable armor to prevent erosion.

D. If the spillway has concrete sidewalls, adequate weepholes should be provided or the walls should be designed with full hydrostatic loads in conjunction with the soil loads.

E. For spillways in remote areas where significant snowfall occurs, efforts should be made to maximize the southern exposure of the spillway to prevent ice blockage. In many cases elimination of tall trees will be required.

F. All construction joints should be provided with adequate water stops.

G. Design provisions should be made so that downstream spillway channel flows cannot encroach on the dam.

H. All spillways draining reservoirs with large amounts of floating debris should include a log boom to avoid plugging the spillway.

I. Spillway designs should provide for energy dissipation so that waters returned to the natural channel will not cause erosion.

J. For spillways with concrete floors, provisions should be made to control uplift pressures.

K. Stop logs or flashboards which restrict the design spillway capacity will not be allowed.

R655-11-9. Other Design Requirements.

A. To facilitate inspection, all dams shall have a zone 25 feet beyond all contacts at the downstream groins and toe of the dam in which all woody vegetation is to be removed.

B. If the dam is located in an area where grazing occurs, then livestock must be restricted from the dam by suitable fencing.

C. Unless the dam crest serves as a public road, a suitable gate or other barrier should be installed to prohibit traffic.

D. Geosynthetics may not be used in a dam as the primary design feature unless specifically approved, in writing, by the State Engineer.

E. The foundation downstream of a dam should be graded to convey seepage waters and runoff away from the dam.

F. All control houses and other structures housing instrumentation and operating devices should be designed to discourage unauthorized entry and damage from vandalism.

G. If burrowing animal activity is anticipated to be excessive, design consideration should be made to prohibit their entry, or place materials as a shell which are not capable of sustaining a rodent hole.

R655-11-10. Instrumentation.

Instrumentation on a dam serves the purposes of comparing actual performance with predicted performance and to observe the long term performance for unexpected changes, indicating a safety problem. Since each dam site and design varies, considerable judgment is needed in developing an instrumentation plan. The State Engineer may require any instrumentation necessary to adequately monitor a dam to insure its safety. Where instrumentation is required threshold values should be established for field personnel. Readings which exceed threshold values will indicate that the design criteria has been exceeded and the stability analysis should be reevaluated. Some minimal instrumentation will be required on dams as outlined in the following paragraphs.

R655-11-10A. Reservoir Staff Gages.

All dams shall have a suitable staff gage to monitor reservoir levels. Staff gages should be designed to be durable and capable of resisting movement, water forces and ice. All gages shall have permanent markings at a minimum of one foot intervals with actual elevations recorded at five foot intervals. The State Engineer may allow the use of other measuring devices if it can be demonstrated that they are reliable and accurate.

R655-11-10B. Survey Markers and Bench Marks.

All moderate and high hazard dams shall have permanent survey markers on the crest of the dam to monitor vertical and horizontal movement. The survey markers should be located to prevent damage from traffic. In conjunction with the survey markers a permanent bench mark shall be installed on each abutment, sufficiently removed from the dam so any effects of the dam movement will not be felt at the bench mark. Reference markers should be established so the bench mark can be reset in the event of damage. Spacing of survey markers should not exceed 200 feet and spacing should be decreased as the height of the dam increases.

R655-11-10C. Piezometers.

A. All high hazard dams as well as moderate hazard dams, at the State Engineer's discretion, shall include piezometers. As a minimum, piezometers should be installed along two cross sections of the dam, one of which should be at or near the maximum section. Each cross section should include piezometers at critical locations in the embankment and foundation. It is preferable to have only one piezometer in each hole; however, more than one piezometer may be installed in each hole if the intervening zone between the piezometer tips can be adequately sealed.

B. All piezometers should have a surface casing projecting beyond the ground with the surface casing adequately sealed. The surface casing should include a locking cap to prevent unauthorized access.

C. All piezometer holes should be logged during drilling and any pertinent information included on the as-constructed plans. As-built locations, designations and elevations of the top, bottom, and porous interval of the piezometers should be shown on the as-constructed plans.

R655-11-10D. Seepage Measurements.

Seepage measurements for all drains and collection pipes should be provided, as outlined in R655-11-6E, for all high and moderate hazard dams. Any significant seepage areas which

develop must be provided with measuring devices and at the discretion of the State Engineer, must be collected in a filtered drainage system.

R655-11-10E. Strong Motion Instruments.

The State Engineer may require strong-motion instrumentation in seismic zones 2 and 3.

R655-11-11. Abandonment of Dams.

Abandonment of all dams requires approval by the State Engineer.

R655-11-11A. Removal of Dam.

If it is proposed to totally remove a dam, the main concern is to return the stream and reservoir basin to their pre-dam condition. Plans should be submitted showing how the original channel is to be reclaimed, how deposited silts are to be controlled, and what methods will be used to revegetate the reservoir basin and riparian areas.

R655-11-11B. Breaching of Dam.

If a dam is to be breached the following minimum criteria should be met:

1. The flowline of the breach should be excavated down to natural ground or stabilized at the top of the silt level. In most cases grade control and drop structures will be required to avoid mobilization of reservoir silts and debris.

2. The breach should be designed to pass a flood with a return interval of 100 years without backing water up in the historic reservoir more than five feet.

3. Regardless of hydraulic requirements the bottom width of the breach will be one half the structural height of the dam with an absolute minimum of 10 feet. Additional width may be required by the State Engineer in areas where beaver activity occurs.

4. Breach side slopes must be flat enough to hold the slope when saturated, with an absolute minimum of one vertical on one horizontal. In areas where there is significant human travel, the minimum side slopes should be one vertical on two horizontal.

5. The exposed banks and bottom of the breach should be protected with riprap, vegetation, or other suitable means to prevent downcutting and lateral slope erosion.

6. Barriers should be placed on the original dam crest to warn any possible traffic on the crest of the breach.

R655-11-12. Construction.

The State Engineer will monitor construction of approved projects as outlined in the following paragraphs.

R655-11-12A. Informal Construction Inspections.

During the course of constructing, enlarging, repairing, or removing a dam, the State Engineer may make periodic inspections to determine compliance with plans and specifications, as well as to observe field conditions to see if actual conditions are consistent with those used during design. Any problems observed will be pointed out to the resident inspector or engineer for correction or change. All significant problems noted will be outlined in a letter to the owner and the owner's engineer. The engineer must respond in writing to the State Engineer as to what steps were undertaken to correct the problems.

R655-11-12B. Formal Construction Inspections.

In approving plans the State Engineer may require his approval of certain construction operations before the next phase of construction can commence. The owner's engineer or inspector must notify the State Engineer and determine a mutually acceptable time to observe and approve the work prior to continuation of the construction.

R655-11-12C. Construction Reporting Requirements.

Written documentation of all construction activities should be maintained by the owner's engineer. The documentation must be submitted weekly to the State Engineer by the owner's engineer when any work is underway. At a minimum the documentation should include:

1. All materials certifications submitted by suppliers to insure compliance with specifications.

2. Results of all material tests or any other testing undertaken during construction. Any tests not meeting the requirements of the plans must include notations indicating what was done to correct the sub-standard work.

3. All engineers' and inspectors' diaries, field notes, or other written documentation.

4. Photographs to clarify work completed or problems noted.

5. All geological logs of foundation excavations.

R655-11-12D. Change Order Approvals.

All change orders revising the plans that involve technical changes must be approved by the State Engineer. Since the State Engineer is not a party to the construction contract, change orders involving strictly payment to the contractor do not need to be approved by the State Engineer.

R655-11-12E. Final Inspection.

Before any dam can be placed in operation a final inspection of the project must be undertaken by the State Engineer and his written acceptance of the project received. The Emergency Action Plan, Standard Operating Plan, and Initial Filling Plan, if required, must be completed and approved before final acceptance and authorization for filling can be given. During rehabilitation of existing dams, at the discretion of the State Engineer, some reservoir storage may be allowed provided sufficient safety criteria are adopted. Record drawings of the project must be submitted within 60 days of the date of the final inspection. All record drawings submitted must be on a high quality reproducible medium or electronic format acceptable to the State Engineer. Record drawings shall reflect design changes made during construction, geological logs of the foundation excavation, and piezometer borings.

R655. Natural Resources, Water Rights.
R655-12. Requirements for Operational Dams.
R655-12-1. Authority and Applicability.

The following rule is established under the authority of Title 73, Chapter 5a. The procedures constitute minimum operational requirements for dams. Additional procedures may be required to comply with any other governing statute, federal law, federal regulation, or local ordinance. These rules apply to any dam constructed in the state with the exception of those specifically exempted by Section 73-5a-102, and those dams not requiring plans as outlined in Section 73-5a-202.

R655-12-2. Definitions.

Definitions are as outlined in R655-10-4.

R655-12-3. Initial Filling.

All high and moderate hazard dams will require initial filling plans for their first cycle of complete filling and draining following construction, enlargement, or repairs which involve substantial excavation of the dam. The initial filling plan must be approved by the State Engineer prior to filling.

R655-12-3A. Content of Initial Filling Plans.

Initial filling plans should include the following information:

1. The rate, in vertical feet per day, that the reservoir should be filled or drawn down. Instructions on what steps should be taken in the event inflow exceeds the established rate. Rates and criteria can vary with reservoir elevation.

2. The frequency at which the dam will be observed or inspected and who is responsible. A checklist should be provided so critical features are observed.

3. The frequency at which all instrumentation is to be read and how the readings are to be distributed to interested parties. Predicted performance of instrumentation should be included and a reporting procedure established to review unexpected readings in a timely manner.

4. Reference to the Emergency Action Plan should be given so the inspector or engineer understands emergency procedures and contacts to be made when unusual conditions, or possible failure, are observed.

5. A procedure should be outlined whereby the data and observations obtained following the first cycle of filling can be included to supplement or modify the Standard Operating Plan.

6. The Initial Filling Plan should include a requirement that any project features that did not function as designed must be re-evaluated with provisions for mitigation work provided when necessary.

R655-12-3B. Reporting Requirements.

All information generated during the initial filling should be submitted to the State Engineer on a frequency to be determined by the State Engineer for each project. All analyses and reports produced as per R655-12-3A must also be submitted and approved by the State Engineer.

R655-12-4. Operation and Maintenance.

All dams that require submission of plans pursuant to Section 73-5a-202 must have a standard operating plan approved by the State Engineer. The owners of all dams shall operate and perform maintenance necessary to keep the dam and appurtenant structures in satisfactory condition. Operation and maintenance shall be performed in accordance with a Standard Operating Plan approved by the State Engineer, reports provided to the owner following safety inspections by the State Engineer, and accepted standards of the industry.

R655-12-4A. Standard Operating Plan Content.

The standard operating plan must include the following:

1. General information on the dam and reservoir including the history, a description of the project, persons responsible, agreements with other entities, and the purpose of the project.

2. Inspection list detailing what items should be inspected routinely by the owner or his agent.

3. Routine maintenance schedule and procedures such as rodent removal, vegetation control, floating debris removal, lubrication, painting, grading, riprap repair, and erosion repair.

4. Outlet and spillway operation including operation and maintenance of any mechanical, hydraulic, or electrical systems used. Emergency or back-up procedures should be included.

5. Instrumentation operation including threshold values, reading schedules, reporting procedures, and maintenance.

6. Reservoir operation including descriptions of controlling floatable debris, monitoring unstable soils, control of sediment, public access, and inundation areas.

7. Safety and health hazards and procedures to mitigate the hazards.

8. Recordkeeping and reporting procedures including necessary forms and examples.

9. A copy of the record or as-constructed drawings shall be included.

R655-12-4B. Reporting Requirement.

Dam owners shall maintain records of all operation and maintenance of the dam and appurtenant structures. Copies of these records must be submitted to the State Engineer, upon his request, within 30 days.

R655-12-4C. Instrumentation Monitoring and Reporting.

The following monitoring and reporting requirements are applicable to all instrumented dams under normal, long term operating conditions. Different monitoring and reporting requirements, for long term operation, can be implemented if deemed appropriate by the State Engineer. Instrumentation requirements for new dams should be outlined in the Initial Filling Plan as per R655-12-3A. The type of instrumentation required is presented in R655-11-10.

1. Seepage in the vicinity of any dam shall be collected in a properly designed drainage system with provisions to measure the flow rate as outlined in R655-11-6E.

2. All piezometers and drains shall be monitored at least monthly when the reservoir exceeds 50% of the hydraulic height. Readings shall be obtained on a weekly basis when the reservoir exceeds 90% of the hydraulic height. In all cases, instrumentation should be monitored at the beginning of the reservoir filling season, at the peak reservoir elevation, and at the maximum reservoir drawdown.

3. The elevation of the reservoir shall be recorded at the time of all readings as described in 2. above.

4. All dam instrumentation (including piezometers, drains, reservoir gage, survey monuments, and any other dam instrumentation) shall be monitored immediately following an earthquake where ground motions are felt in the area or the owner is informed of seismic activity in the vicinity. Results of the inspection and instrumentation readings should be immediately sent to the State Engineer.

5. Copies of all instrumentation monitoring data should be forwarded to the State Engineer, on a monthly basis, following collection of the data. It is the responsibility of those obtaining the data to know if readings are within normal historical and/or design operating parameters. Emergency conditions should be assumed if readings exceed normal historical and/or design operating parameters and immediate notification of the State Engineer is required.

6. All instrumentation shall be documented by plotting locations on a plan view of the dam and by assigning a unique, identifiable name. A table for all instruments which provides base line data shall also be prepared. Piezometer data should

include the name, location, monitoring location (e.g., zone 1, zone 2, foundation), top elevation, total depth, and depth of porous interval. Drain data should include the name, location, collection interval, and flow rate monitoring methods. Survey monuments should include the name, location, and vertical and horizontal coordinates. The reservoir storage gage should be marked in at least one foot intervals and an elevation datum provided that is consistent with all other dam instrumentation.

7. The data required for any other dam instrumentation (inclinometers, temperature probes, chemical composition), will depend on the type and purpose of the instrumentation.

R655-12-5. Minimum Standards for Existing Dams.

The following minimum standards are applicable to existing high hazard dams. In the event compliance with the following standards may not be cost effective, the State Engineer may consider other alternatives such as risk-based assessments, acquisition of habitable structures, acquisition of downstream easements, installation of early warning systems, construction of levees, or other means to diminish the threat to human life. Dams with a hazard rating upgraded to high hazards shall immediately be subject to the minimum standards for existing dams.

R655-12-5A. Hydrologic Requirements.

All sections of R655-11-4 that apply to high hazard dams shall be considered to be the minimum standards for hydrologic requirements for existing dams.

R655-12-5B. Seismic Requirements.

All sections of R655-11-5 shall be considered the minimum seismic standards for existing dams with the exception that an analysis for the Operating Basis Earthquake (OBE) will not be required.

R655-12-5C. Embankment Requirements.

Provisions of R655-11-6A shall apply to existing dams. Remaining portions of R655-11-6 shall apply to existing dams if the State Engineer feels compliance with these sections, or any part thereof, is necessary for the safety of the structure.

R655-12-5D. Outlet Requirements.

Provisions of R655-11-7C, with the exception of subsections D, G and H, shall apply to existing dams unless the State Engineer specifically exempts the dam from compliance in writing.

R655-12-5E. Spillway Requirements.

Provisions of R655-11-8, with the exception of subsections D,F and I, shall apply to existing dams.

R655-12-5F. Other Requirements.

Provisions of R655-11-9 shall apply to existing dams if, in the opinion of the State Engineer, compliance is necessary for the safety of the structure.

R655-12-5G. Instrumentation.

Provisions of R655-11-10 shall apply to existing dams unless exempted in writing by the State Engineer.

R655-12-6. Emergency Action Plans.

All owners of high hazard and moderate hazard dams that require submission of plans pursuant to section 73-5a-202 shall prepare, maintain, and exercise an emergency action plan.

R655-12-6A. Content.

A. The emergency action plan shall include the following:

1. A notification flowchart for informing emergency support agencies, downstream interests, and the State Engineer.

2. A dam failure inundation map of a suitable scale and with sufficient topographical information which can be easily used by emergency support people. The map should be understandable by the public at large since persons which may be responsible for evacuation may have minimal training in reading maps. The State Engineer may waive the requirement for inundation maps if it can be shown that written descriptions of evacuation zones are clearer and easier to follow.

3. Procedures to identify possible emergencies, at what level an emergency action is initiated, and who is responsible for making necessary contacts.

4. A list of available materials, equipment, and manpower which can be activated on short notice to deal with possible emergencies or to mitigate damage following a dam failure.

B. All emergency action plans must be approved by the State Engineer. All persons included on the notification flowchart should receive copies and understand their role in the plan.

R850. School and Institutional Trust Lands, Administration.
R850-140. Development Property.
R850-140-100. Authorities.

This rule implements Sections 6, 8, 10 and 12 of the Utah Enabling Act, Articles X and XX of the Utah Constitution and Subsection 53C-1-302(1)(a) and Section 53C-4-101, which authorize the director of the School and Institutional Trust Lands Administration to establish rules and criteria for the disposition of trust lands.

R850-140-200. Purpose of Development Property Rules.

This rule permits the agency to designate trust land as development property and thereby

1. subject agency activities in connection with such properties to this rule; and

2. exempt agency activities in connection with such properties from the rules listed in R850-140-1000.

R850-140-250. Definitions.

For the purposes of this rule:

1. Development Property: a parcel of trust land that has been designated a development property pursuant to the director's determination that the parcel meets the criteria established in R850-140-300(1).

2. Development Transaction: a transaction entered into by the agency for the purpose of generating financial returns to the trust from real estate development of a particular development property. Development transactions include sales, exchanges, ground leases, development leases, build-to-suit leases, joint ventures, and Other Business Arrangements with respect to development properties.

3. Joint Venture: a transaction in which the agency contributes trust assets to a joint undertaking in which such assets may be subject to risk of loss, including without limitation a transaction in which the agency becomes a member of a limited liability company in exchange for the commitment of trust assets.

4. Other Business Arrangement: a transaction other than a joint venture which involves similar risk of loss of trust assets as a joint venture and which involves material reliance on the economic performance of a third party or other contingent events to generate expected returns. The non-subordinated lease of trust property for development purposes, with the trust's returns based upon a percentage of final property sales, is not an Other Business Arrangement.

5. Supporting Transaction: a transaction entered into by the agency for the purpose of preparing for or supporting real estate development on trust lands, but not directly conveying trust lands for real estate development purposes. Supporting transactions include without limitation: exchange, acquisition or conveyance of lands for assemblage or configuration of development projects; agreements with local government entities with respect to development entitlements and provision of infrastructure; rights-of-entry, dedications and easements for development improvements and amenities on trust lands; and leasing or conveyance of trust lands for necessary development infrastructure and amenities.

R850-140-300. Designation of Development Property.

1. The director may designate a property as a development property upon the director's determination that the following criteria are met:

(a) The property is located in or near an urban area of the State or, in more rural locations, the property is of a character suitable for current or future commercial, industrial, resort, residential or other real estate development activities; or

(b) The agency has received inquiry from private parties concerning the potential for development of the property or the agency, after preliminary analysis, has determined that the probable highest and best use for the property is for development purposes.

2. The director shall maintain a database of each property designated as a development property. The director may remove property from development designation in his discretion as deemed appropriate for the best interests of the trust beneficiaries.

R850-140-350. Planning.

1. Prior to designating a property as a development property, the agency shall submit the proposed designation to the Resource Development Coordinating Committee (RDCC), and evaluate and respond to comments received through the RDCC process. Participation in the RDCC process shall constitute compliance with Subsection 53C-2-201(1).

2. If the agency chooses to participate in local government planning and entitlement processes, such participation constitutes an additional degree of planning supplemental to the RDCC process, but is not required under Subsection 53C-2-201(1).

R850-140-400. Development Transactions - General Provisions.

1. Subject to the board notice and approval provisions contained in R850-140-500 and R850-140-600, the agency may solicit and reject proposals, make offers, counter offers and otherwise negotiate freely with interested parties in its efforts to arrange development transactions that are in the best interests of the trust. Development transactions will be structured according to the circumstances of the market and the attributes of the particular development property.

2. Prior to entering a development transaction, the agency shall initiate an appropriate advertising program designed to effectively solicit interested parties. Advertising may be implemented through print media, internet, signage, direct mail or other appropriate marketing methods.

3. In negotiating development transactions, the agency shall undertake appropriate due diligence with respect to the proposed transaction, including consideration of the following criteria:

(a) The ownership, character, reputation, financial status, credit and litigation history and prior real estate development experience of the party with whom the development transaction is proposed.

(b) The financial attributes of the proposed development transaction.

(c) The legal structure of the proposed development transaction.

(d) The potential effects of the proposed development transaction upon nearby trust lands; and

4. Development transactions shall result in the trust receiving not less than fair market value for the sale, use or exchange of the development property in question.

5. The purchase, sale or exchange of land in connection with a development transaction shall be supported by either an appraisal or a detailed internal analysis of value.

6. Formal contract documentation of any development transaction shall be subject to approval by a representative of the attorney general's office. No party to a proposed development transaction shall have any vested rights in the transaction until the formal contract documents have been approved by the agency representative of the attorney general's office, approved by the board if required by rule or statute, approved and executed by the director, and delivered.

(a) involves a projected commitment of trust lands or assets of $5 million or more; or

(b) involves a projected commitment of trust lands or assets of $2 million or more if the proposed development transaction is a joint venture or Other Business Arrangement.

1. The agency may amend development transactions subject to the conditions contained in Subsections R850-140-700(2) through(4).

2. No amendment to a development transaction shall result in the trust receiving less than fair market value for the sale, use or exchange of the property in question.

3. The director shall deliver a summary description of the terms of proposed material amendments to minor or major development transactions to the board with sufficient detail to permit the board to review the proposed amendment consistent with its statutory duties.

4. All amendments that will materially modify the financial terms of a joint venture, Other Business Arrangement, or major development transaction must be approved by the board.

R850-140-800. Supporting Transactions.

1. The agency may enter into supporting transactions as necessary to promote prudent and profitable development of trust lands designated as development properties.

R850-140-900. Deviation from Rules.

In situations where the board determines that an economic opportunity favorable to the trust beneficiaries may otherwise be lost, or other good cause exists that is in furtherance of the statutory obligations of the board, the board may authorize the agency to deviate from the transactional approval processes set forth in this rule, so long as the board and agency's actions are otherwise in compliance with law.

The change report form serves to notify the Department that the client no longer lives in the approved facility.

R986-100-107. Client Rights.

(1) A client may apply or reapply at any time for any program listed in R986-100-102 by completing and signing an application and turning it in, in person or by mail, at the local office.

(b) an employee of a governmental agency that is specifically identified and authorized by federal or state law to receive the information;

(c) an employee of a governmental agency to the extent the information will aid in the detection or avoidance of duplicate, inconsistent, or fraudulent claims against public assistance programs, or the recovery of overpayments of public assistance funds;

(e) to a law enforcement officer when the client is fleeing to avoid prosecution, custody or confinement for a felony or is in violation of a condition of parole or probation or when the client has information which will assist a law enforcement officer in locating or apprehending an individual who is fleeing to avoid prosecution, custody or confinement for a felony or is in violation of a condition of parole or probation and the officer is acting in his official capacity. The only information under this paragraph which can be released on a client receiving food stamps is the client's address, SSN and photographic identification;

The written request shall include the identity of the individual requesting the information and his/her authority to do so, the violation being investigated, and the identity of the person being investigated. Under this paragraph, the Department can release to the law enforcement official, more than just the client's address, SSN and photo identification;

(g) an educational institution, or other governmental entity engaged in programs providing financial assistance or federal needs-based assistance, job training, child welfare or protective services, foster care or adoption assistance programs, and to individuals or other agencies or organizations who, at the request of the Department, are coordinating services and evaluating the effectiveness of those services;

Any information provided under this part will be safeguarded by the individual or agency receiving the information and will only be used for the purpose expressed in its release.

(5) Any information released under paragraph (4) above can only be released if the Department receives assurances that:

(a) the information being released will only be used for the purposes stated when authorizing the release; and

(b) the agency making the request has rules for safeguarding the information which are at least as restrictive as the rules followed by the Department and that those rules will be adhered to.

(8) For clients receiving CC, the Department may provide limited additional information to the child care provider identified by the client as the provider as provided in R986-700-703.

(9) Taxpayer requests to view public assistance payrolls will be denied.

R986-100-111. How to Apply For Assistance.

(1) To be eligible for assistance, a client must complete and sign an application for assistance.

(2) The application is not complete until the applicant has provided complete and correct information and verification as requested by the Department so eligibility can be determined or re-established at the time of review at the end of the certification period. The client must agree to provide correct and complete information to the Department at all times to remain eligible. This includes:

(a) property or other assets owned by all individuals included in the household unit;

(b) insurance owned by any member of the immediate family;

(c) income available to all individuals included in the household unit;

(d) a verified SSN for each household member receiving assistance. If any household member does not have a SSN, the client must provide proof that the number has been applied for. If a client fails to provide a SSN without good cause, or if the application for a SSN is denied for a reason that would be disqualifying, assistance will not be provided for that household member. Good cause in this paragraph means the client has made every effort to comply. Good cause does not mean illness, lack of transportation or temporary absence because the SSA makes provisions for mail-in applications in lieu of applying in person. Good cause must be established each month for continued benefits;

(e) the identity of all individuals who are living in the household regardless of whether they are considered to be in the household assistance unit or not;

(f) proof of relationship for all dependent children in the household. Proof of relationship is not needed for food stamps or child care; and

(g) a release of information, if requested, which would allow the Department to obtain information from otherwise

protected sources when the information requested is necessary to establish eligibility or compliance with program requirements.

(3) All clients, including those not required to participate in an employment plan, will be provided with information about applicable program opportunities and supportive services.

R986-100-112. Assistance Cannot Be Paid for Periods Prior to Date of Application.

(1) Assistance payments for any program listed in Section 102 above cannot be made for any time period prior to the day on which the application for assistance was received by the Department.

(2) If an application for assistance is received after the first day of the month, and the client is eligible to receive assistance, payment for the first month is prorated from the date of the application.

(3) If additional verifying information is needed to complete an application, it must be provided within 30 days of the date the application was received. If the client is at fault in not providing the information within 30 days, the first day the client can be eligible is the day on which the verification was received by the Department.

(4) If the verification is not received within 60 days of the date the application was received by the Department, a new application is required and assistance payments cannot be made for periods prior to the date the new application is received.

(5) If an application for assistance was denied and no appeal taken within 90 days, or a decision unfavorable to the client was issued on appeal, assistance cannot be claimed, requested, or paid for that time period.

R986-100-113. A Client Must Inform the Department of All Material Changes.

(1) A material change is any change which might affect eligibility.

(2) Households receiving assistance must report all material changes to the Department as follows:

(a) households receiving food stamps must report a change in the household's gross income if the income exceeds 130% of the federal poverty level. The change must be reported within ten days of the change occurring; and

(b) households receiving GA, WTE, FEP, FEPTP, AA and RRP that do not meet the requirements of paragraph (2)(a) must report the following changes within ten days of the change occurring:

(i) if the household's gross income exceeds 185% of the adjusted standard needs budget;

(ii) a change of address; and

(iii) if the only eligible child leaves the household and the household receives FEP, FEPTP or AA.

(3) Households that do not meet the requirements of paragraph (2)(a) of this section will be assigned a review month. In addition to the ten-day reporting requirements listed in paragraphs (2)(b) and (c) of this section, the household must report, by the last day of the review month, all material changes that have occurred since the last review, or the date of application if it is the first review. The household is also required to accurately complete all review forms and reports as requested by the Department.

(4) Most changes which result in an increase of assistance will become effective the month following the month in which the report of the change was made. If verification is necessary, verification and changes will be made in the month following the month in which verification was received. If the change is to add a person to the household, the person will be added effective on the date reported, provided necessary verification is received within 30 days of the change. If verification is received after 30 days, the increase will be made effective the date verification was received.

R986-100-114. A Client's Continuing Obligation to Provide Verification and Information.

(1) A client who is eligible for assistance must provide additional verification and information, which may affect household eligibility or ongoing eligibility, after the application is approved if requested by the Department.

(2) The client must provide information to determine if eligibility was appropriately established and if payments made under these rules were appropriate. This information may be requested by an employee of the Department or a person authorized to obtain the information under contract with the Department such as an employee of ORS.

R986-100-114a. Determining When a Document is Considered Received by the Department.

(1) The date of receipt of a document filed with the Department is the date the document is actually received by the Department and not the post mark date. Any document received after 5 p.m., including documents received by Fax or email, will be considered received the next day Department offices are open.

(2) If a document has a due date and that due date falls on a Saturday, Sunday, or legal holiday, the time permitted for filing the document will be extended to 5 p.m. on the next day Department offices are open.

(3) "Document" as used in this section means application for assistance, verification, report, form and written notification of any kind.

(4) A verbal report or notification will be considered received on the date the client talks to a Department representative. A voice message received after 5 p.m. will be considered received the next day Department offices are open.

R986-100-115. Underpayment Due to an Error on the Part of the Department.

(1) If it is determined that a client was entitled to assistance but, due to an error on the part of the Department, assistance was not paid, the Department will correct its error and make retroactive payment.

(2) If a client receives assistance payments and it is later discovered that due to Department error the assistance payment should have been made at a higher level than the client actually received, retroactive payment will be made to correct the Department's error.

(3) If the client's public assistance was terminated due to the error, the client will be notified and assistance, plus any retroactive payments, will commence immediately.

(4) An underpayment found to have been made within the last 12 calendar months will be corrected and issued to the client. Errors which resulted in an underpayment which were made more than 12 months prior to the date of the discovery of the error are not subject to a retroactive payment.

(5) Retroactive payment under this section cannot be made for any month prior to the date on which the application for assistance was completed.

(6) The client must not have been at fault in the creation of the error.

R986-100-116. Overpayments.

(1) A client is responsible for repaying any overpayment for any program listed in R986-100-102 regardless of who was at fault in creating the overpayment.

(2) Underpayments may be used to offset an overpayment for the same program.

(3) If a change is not reported as required by R986-100-113 it may result in an overpayment.

(4) The Department will collect overpayments for all programs listed in R986-100-102 as provided by federal regulation for food stamps unless otherwise noted in this rule or

inconsistent with federal regulations specific to those other programs.

(5) This rule will apply to overpayments determined under contract with the Department of Health.

(6) If an obligor has more than one overpayment account and does not tell the Department which account to credit, the Department will make that determination.

R986-100-117. Disqualification For Fraud (Intentional Program Violations or IPVs).

(1) Any person who is at fault in obtaining or attempting to obtain, an overpayment of assistance, as defined in Section 35A-3-602 from any of the programs listed in R986-100-102 or otherwise intentionally breaches any program rule either personally or through a representative is guilty of an intentional program violation (IPV). Acts which constitute an IPV include but are not limited to:

(a) knowingly making false or misleading statements;

(b) misrepresenting, concealing, or withholding facts or information;

(c) posing as someone else;

(d) not reporting the receipt of a public assistance payment the individual knew or should have known they were not eligible to receive;

(e) not reporting a material change as required by and in accordance with these rules; and

(f) committing an act intended to mislead, misrepresent, conceal or withhold facts or propound a falsity.

(2) An IPV occurs when a person commits any of the above acts in an attempt to obtain, maintain, increase or prevent the decrease or termination of any public assistance payment(s).

(3) When the Department determines or receives notice from a court that fraud or an IPV has occurred, the client is disqualified from receiving assistance of the same type for the time period as set forth in rule, statute or federal regulation.

(4) Disqualifications run concurrently.

(5) All income and assets of a person who has been disqualified from assistance for an IPV continue to be counted and affect the eligibility and assistance amount of the household assistance unit in which the person resides.

(6) If an individual has been disqualified in another state, the disqualification period for the IPV in that state will apply in Utah provided the act which resulted in the disqualification would have resulted in a disqualification had it occurred in Utah. If the individual has been disqualified in another state for an act which would have led to disqualification had it occurred in Utah and is found to have committed an IPV in Utah, the prior periods of disqualification in any other state count toward determining the length of disqualification in Utah.

(7) The client will be notified that a disqualification period has been determined. The disqualification period shall begin no later than the second month which follows the date the client receives written notice of the disqualification and continues in consecutive months until the disqualification period has expired.

(8) Nothing in these rules is intended to limit or prevent a criminal prosecution for fraud based on the same facts used to determine the IPV.

R986-100-118. Additional Penalty for a Client Who Intentionally Misrepresents Residence.

A person who has been convicted in federal or state court of having made a fraudulent statement or representation with respect to the place of residence in order to receive assistance simultaneously from two or more states is disqualified from receiving assistance for any and all programs listed in R986-100-102 above, for a period of 10 years. This applies even if Utah was not one of the states involved in the original fraudulent misrepresentation.

R986-100-119. Reporting Possible Child Abuse or Neglect.

When a Department employee has reason to believe that a child has been subjected to abuse or neglect, it shall be reported under the provisions of Section 62A-4a-401 et seq.

R986-100-120. Discrimination Complaints.

(1) Complaints of discrimination can be made in person, by phone, or in writing to the local office, the Office of the Executive Director or the Director's designee, the Department's Equal Opportunity Officer, or the appropriate Federal agency.

(2) Complaints shall be resolved and responded to as quickly as possible.

(3) A record of complaints will be maintained by the local office including the response to the complaint.

(4) If a complaint is made to the local office, a copy of the complaint together with a copy of the written response will be sent to the Office of the Executive Director or the Director's designee.

(5) Discrimination complaints pertaining to the Food Stamp Program will also be sent to the Secretary of Agriculture or the Administrator of Food and Nutrition Service, Washington, D.C., 20250 in accordance with the provisions of 7 CFR 272.6 (1999).

R986-100-121. Agency Conferences.

(1) Agency conferences are used to resolve disputes between the client and Department staff.

(2) Clients or Department staff may request an agency conference at any time to resolve a dispute regarding a denial or reduction of assistance.

(3) Clients may have an authorized representative attend the agency conference.

(4) An agency conference will be attended by the client's employment counselor and the counselor's supervisor unless the client or the supervisor request that the employment counselor not attend the conference.

(5) If an agency conference has previously been held on the same dispute, the Department may decline to hold the requested conference if, in the judgment of the employment counselor's supervisor, it will not result in the resolution of the dispute.

(6) If the Department requests the agency conference and the client fails to respond, attend or otherwise cooperate in this process, documentation in the case file of attempts by the staff to follow these steps will be considered as compliance with the requirement to attempt to resolve the dispute.

(7) An agency conference may be held after a client has made a request for hearing in an effort to resolve the dispute. If so, the client must be notified that failure to participate or failure to resolve the dispute at the agency conference will not affect the client's right to proceed with the hearing.

R986-100-122. Advance Notice of Department Action.

(1) Except as provided in (2) below, clients will be notified in writing when a decision concerning eligibility, amount of assistance payment or action on the part of the Department which affects the client's eligibility or amount of assistance has been made. Notice will be sent prior to the effective date of any action to reduce or terminate assistance payments. The Department will send advance notice of its intent to collect overpayments or to disqualify a household member.

(2) Except for overpayments, advance notice is not required when:

(a) the client requests in writing that the case be closed;

(b) the client has been admitted to an institution under governmental administrative supervision;

(c) the client has been placed in skilled nursing care, intermediate care, or long-term hospitalization;

(d) the client's whereabouts are unknown and mail sent to the client has been returned by the post office with no forwarding address;

(e) it has been determined the client is receiving public assistance in another state;

(f) a child in the household has been removed from the home by court order or by voluntary relinquishment;

(g) a special allowance provided for a specific period is ended and the client was informed in writing at the time the allowance began that it would terminate at the end of the specified period;

(h) a household member has been disqualified for an IPV in accordance with 7 CFR 273.16, or the benefits of the remaining household members are reduced or terminated to reflect the disqualification of that household member;

(i) the Department has received factual information confirming the death of a client or payee if there is no other relative able to serve as a new payee;

(j) the client's certification period has expired;

(k) the action to terminate assistance is based on the expiration of the time limits imposed by the program;

(l) the client has provided information to the Department, or the Department has information obtained from another reliable source, that the client is not eligible or that payment should be reduced or terminated;

(m) the Department determines that the client willfully withheld information or;

(n) when payment of financial assistance is made after performance under R986-200-215 and R986-400-454 no advance notice is needed when performance requirements are not met.

(3) For food stamp recipients and recipients of assistance under R986-300, no action will be taken until ten days after notice was sent unless one of the exceptions in (2)(a) through (k) above apply.

(4) Notice is complete if sent to the client's last known address. If notice is sent to the client's last known address and the notice is returned by the post office or electronically with no forwarding address, the notice will be considered to have been properly served. If a client elects to receive correspondence electronically, notice is complete when sent to the client's last known email address and/or posted to the client's Department sponsored web page.

R986-100-123. The Right To a Hearing and How to Request a Hearing.

(1) A client has the right to a review of an adverse Department action by requesting a hearing.

(2) In cases where the Department sends notice of its intent to take action to collect an alleged overpayment but there is no alleged overpayment of food stamps, the client must request a hearing in writing or orally within 30 days of the date of notice of agency action. In all other cases, the client must request a hearing in writing or orally within 90 days of the date of the notice of agency action with which the client disagrees.

(3) Only a clear expression by the client to the effect that the client wants an opportunity to present his or her case is required.

(4) The request for a hearing can be made at the local office or the Division of Adjudication.

(5) If the client disagrees with the level of food stamp benefits paid or payable, the client can request a hearing within the certification period, even if that is longer than 90 days.

(6) If a request for restoration of lost food stamp benefits is made within one year of the loss of benefits a client may request a hearing within 90 days of the date of the denial of restoration.

(7) In the case of an overpayment and/or IPV the obligor may contact the presiding officer and attempt to resolve the dispute. If the dispute cannot be resolved, the obligor may still request a hearing provided it is filed within the time limit provided in the notice of agency action.

R986-100-124. How Hearings Are Conducted.

(1) Hearings are held at the state level and not at the local level.

(2) Where not inconsistent with federal law or regulation governing hearing procedure, the Department will follow the Utah Administrative Procedures Act.

(3) Hearings for all programs listed in R986-100-102 and overpayments and IPVs in Section 35A-3-601 et seq. are declared to be informal.

(4) Hearings are conducted by an ALJ or a Hearing Officer in the Division of Adjudication. A Hearing Officer has all of the same rights, duties, powers and responsibilities as an ALJ under these rules and the terms are interchangeable.

(5) Hearings are scheduled as telephone hearings. Every party wishing to participate in the telephone hearing must call the Division of Adjudication before the hearing and provide a telephone number where the party can be reached at the time of the hearing. If the client fails to call in advance, as required by the notice of hearing, the appeal will be dismissed.

(6) If a client requires an in-person hearing, the client must contact an ALJ and request that the hearing be scheduled as an in-person hearing. The request should be made sufficiently in advance of the hearing so that all other parties may be given notice of the change in hearing type and the opportunity to appear in person also. Requests will only be granted if the client can show that an in-person hearing is necessary to accommodate a special need or if the ALJ deems an in-person hearing is necessary to ensure an orderly and fair hearing which meets due process requirements. If the ALJ grants the request, all parties will be informed that the hearing will be conducted in person. Even if the hearing is scheduled as an in-person hearing, a party may elect to participate by telephone. In-person hearings are held in the office of the Appeals Unit unless the ALJ determines that another location is more appropriate. A client can participate from the local Employment Center.

(7) the Department is not responsible for any travel costs incurred by the client in attending an in-person hearing.

(8) the Division of Adjudication will permit collect calls from parties and their witnesses participating in telephone hearings.

R986-100-125. When a Client Needs an Interpreter at the Hearing.

(1) If a client notifies the Department that an interpreter is needed at the time the request for hearing is made, the Department will arrange for an interpreter at no cost to the client.

(2) If an interpreter is needed at the hearing by a client or the client's witness(es), the client may arrange for an interpreter to be present at the hearing who is an adult with fluent ability to understand and speak English and the language of the person testifying, or notify the Division of Adjudication at the time the appeal is filed that assistance is required in arranging for an interpreter.

R986-100-126. Procedure For Use of an Interpreter.

(1) The ALJ will be assured that the interpreter:

(a) understands the English language; and

(b) understands the language of the client or witness for whom the interpreter will interpret.

(2) The ALJ will instruct the interpreter to interpret, word for word, and not summarize, add, change, or delete any of the testimony or questions.

(3) The interpreter will be sworn to truthfully and accurately translate all statements made, all questions asked, and

all answers given.

(4) The interpreter will be instructed to translate to the client the explanation of the hearing procedures as provided by the ALJ.

R986-100-127. Notice of Hearing.

(1) All interested parties will be notified by mail at least 10 days prior to the hearing.

(2) Advance written notice of the hearing can be waived if the client and Department agree.

(3) The notice shall contain:

(a) the time, date, and place, or conditions of the hearing. If the hearing is to be by telephone, the notice will provide the number for the client to call and a notice that the client can call the number collect;

(b) the legal issues or reason for the hearing;

(c) the consequences of not appearing;

(d) the procedures and limitations for requesting rescheduling; and

(e) notification that the client can examine the case file prior to the hearing.

(4) If a client has designated a person or professional organization as the client's agent, notice of the hearing will be sent to that agent. It will be considered that the client has been given notice when notice is sent to the agent.

(5) When a new issue arises during the hearing or under other unusual circumstances, advance written notice may be waived, if the Department and the client agree, after a full verbal explanation of the issues and potential results.

(6) The client must notify any representatives, including counsel and witnesses, of the time and place of the hearing and make necessary arrangements for their participation.

(7) The notice of hearing will be translated, either in writing or verbally, for certain clients participating in the RRP program in accordance with RRP regulations.

R986-100-128. Hearing Procedure.

(1) Hearings are not open to the public.

(2) A client may be represented at the hearing. The client may also invite friends or relatives to attend as space permits.

(3) Representatives from the Department or other state agencies may be present.

(4) All hearings will be conducted informally and in such manner as to protect the rights of the parties. The hearing may be recorded.

(5) All issues relevant to the appeal will be considered and decided upon.

(6) The decision of the ALJ will be based solely on the testimony and evidence presented at the hearing.

(7) All parties may testify, present evidence or comment on the issues.

(8) All testimony of the parties and witnesses will be given under oath or affirmation.

(9) Any party to an appeal will be given an adequate opportunity to be heard and present any pertinent evidence of probative value and to know and rebut by cross-examination or otherwise any other evidence submitted.

(10) The ALJ will direct the order of testimony and rule on the admissibility of evidence.

(11) Oral or written evidence of any nature, whether or not conforming to the legal rules of evidence including hearsay, may be accepted and will be given its proper weight.

(12) Official records of the Department, including reports submitted in connection with any program administered by the Department or other State agency may be included in the record.

(13) The ALJ may request the presentation of and may take such additional evidence as the ALJ deems necessary.

(14) The parties, with consent of the ALJ, may stipulate to the facts involved. The ALJ may decide the issues on the basis of such facts or may set the matter for hearing and take such further evidence as deemed necessary to determine the issues.

(15) The ALJ may require portions of the evidence be transcribed as necessary for rendering a decision.

(16) Unless the client requests a continuance, the decision of the ALJ will be issued within 60 days of the date on which the client requests a hearing.

(17) A decision of the ALJ which results in a reversal of the Department decision shall be complied with within 10 days of the issuance of the decision.

R986-100-129. Rescheduling or Continuance of Hearing.

(1) The ALJ may adjourn, reschedule, continue or reopen a hearing on the ALJ's own motion or on the motion of the client or the Department.

(2) If a party knows in advance of the hearing that they will be unable to proceed with or participate in the hearing on the date or time scheduled, the party must request that the hearing be rescheduled or continued to another day or time.

(a) The request must be received prior to the hearing.

(b) The request must be made orally or in writing to the ALJ who is scheduled to hear the case. If the request is not received prior to the hearing, the party must show cause for failing to make a timely request.

(c) The party making the request must show cause for the request.

(d) Normally, a party will not be granted more than one request for a continuance.

(3) The rescheduled hearing must be held within 30 days of the original hearing date.

R986-100-130. Default Order or Dismissal for Failure to Participate.

(1) The Department will issue a default order if an obligor in an IPV or IPV overpayment case fails to participate in the administrative process. Participation for an obligor means:

(a) signing and returning to the Department an approved stipulation for repayment and making all of the payments as agreed,

(b) requesting and participating in a hearing, or

(c) paying the overpayment in full.

(2) If a hearing has been scheduled at the request of a client or an obligor in a case not involving an IPV and the client or obligor fails to appear at or participate in the hearing, either in person or through a representative, the ALJ will, unless a continuance or rescheduling has been requested, dismiss the request for a fair hearing.

(3) A default order will be based on the record and best evidence available at the time of the order.

R986-100-131. Setting Aside A Default or Dismissal and/or Reopening the Hearing After the Hearing Has Been Concluded.

(1) Any party who fails to participate personally or by authorized representative as defined in R986-100-130 may request that the default order or dismissal be set aside and a hearing or a new hearing be scheduled. If a party failed to participate in a hearing but no decision has yet been issued, the party may request that the hearing be reopened.

(2) The request must be in writing, must set forth the reason for the request and must be mailed, faxed or delivered to the ALJ or presiding officer who issued the default order or dismissal within ten days of the issuance of the default or dismissal. If the request is made after the expiration of the ten-day time limit, the party requesting reopening must show good cause for not making the request within ten days.

(3) The ALJ has the discretion to schedule a hearing to determine if a party requesting that a default order or dismissal be set aside or a reopening satisfied the requirements of this rule

or may grant or deny the request on the basis of the record in the case.

(4) If a presiding officer issued the default or dismissal, the officer shall forward the request to the Division of Adjudication. The request will be assigned to an ALJ who will then determine if the party requesting that the default or dismissal be set aside or that the hearing be reopened has satisfied the requirements of this rule.

(5) The ALJ may, on his or her own motion, reschedule, continue or reopen a case if it appears necessary to take continuing jurisdiction based on a mistake as to facts or if the denial of a hearing would be an affront to fairness. A presiding officer may, on his or her own motion, set aside a default or dismissal on the same grounds.

(6) If a request to set aside the default or dismissal or a request for reopening is not granted, the ALJ will issue a decision denying the request to reopen. A copy of the decision will be given or mailed to each party, with a clear statement of the right of appeal or judicial review. A defaulted party may appeal a denial of a request to set aside a default or dismissal by following the procedure in R986-100-135. The appeal can only contest the denial of the request to set aside the default and not the underlying merits of the case. If the default or dismissal is set aside on appeal, the Executive Director or designee may rule on the merits or remand the case to an ALJ for a ruling on the merits on an additional hearing if necessary.

R986-100-132. What Constitutes Grounds to Set Aside a Default or Dismissal.

(1) A request to reopen or set aside for failure to participate:

(a) will be granted if the party was prevented from participating and/or appearing at the hearing due to circumstances beyond the party's control;

(b) may be granted upon such terms as are just for any of the following reasons: mistake, inadvertence, surprise, excusable neglect or any other reason justifying relief from the operation of the decision. The determination of what sorts of neglect will be considered excusable is an equitable one, taking into account all of the relevant circumstances including:

(i) the danger that the party not requesting reopening will be harmed by reopening,

(ii) the length of the delay caused by the party's failure to participate including the length of time to request reopening,

(iii) the reason for the request including whether it was within the reasonable control of the party requesting reopening,

(iv) whether the party requesting reopening acted in good faith, and

(v) whether the party was represented by another at the time of the hearing. Because they are required to know and understand Department rules, attorneys and professional representatives are held to a higher standard, and

(vi) whether based on the evidence of record and the parties arguments or statements, setting aside the default and taking additional evidence might effect the outcome of the case.

(2) Requests to reopen or set aside are remedial in nature and thus must be liberally construed in favor of providing parties with an opportunity to be heard and present their case. Any doubt must be resolved in favor of granting reopening.

R986-100-133. Canceling an Appeal and Hearing.

When a client notifies the Division of Adjudication or the ALJ that the client wants to cancel the hearing and not proceed with the appeal, a decision dismissing the appeal will be issued. This decision will have the effect of upholding the Department decision. The client will have ten days in which to reinstate the appeal by filing a written request for reinstatement with the Division of Adjudication.

R986-100-134. Payments of Assistance Pending the Hearing.

(1) A client is entitled to receive continued assistance pending a hearing contesting a Department decision to reduce or terminate food stamps or RRP financial assistance if the client's request for a hearing is received no later than 10 days after the date of the notice of the reduction, or termination. The assistance will continue unless the certification period expires until a decision is issued by the ALJ. If the certification period expires while the hearing or decision is pending, assistance will be terminated. If a client becomes ineligible or the assistance amount is reduced for another reason pending a hearing, assistance will be terminated or reduced for the new reason unless a hearing is requested on the new action.

(2) If the client can show good cause for not requesting the hearing within 10 days of the notice, assistance may be continued if the client can show good cause for failing to file in a timely fashion. Good cause in this paragraph means that the delay in filing was due to circumstances beyond the client's control or for circumstances which were compelling and reasonable. Because the Department allows a client to request a hearing by telephone or mail, good cause does not mean illness, lack of transportation or temporary absence.

(3) A client can request that payment of assistance not be continued pending a hearing but the request must be in writing.

(4) If payments are continued pending a hearing, the client is responsible for any overpayment in the event of an adverse decision.

(5) If the decision of the ALJ is adverse to the client, the client is not eligible for continued assistance pending any appeal of that decision.

(6) If a decision favorable to the client is rendered after a hearing, and payments were not made pending the decision, retroactive payment will be paid back to the date of the adverse action if the client is otherwise eligible.

(7) Financial assistance payments under FEP, FEPTP, GA or WTE, and CC subsidies will not continue during the hearing process regardless of when the appeal is filed.

(8) Financial assistance under the RRP will not extend for longer than the eight-month time limit for that program under any circumstances.

(9) Assistance is not allowed pending a hearing from a denial of an application for assistance.

R986-100-135. Further Appeal From the Decision of the ALJ or Presiding Officer.

Either party has the option of appealing the decision of the ALJ or presiding officer to either the Executive Director or person designated by the Executive Director or to the District Court. The appeal must be filed, in writing, within 30 days of the issuance of the decision of the ALJ or presiding officer. If a request for a fair hearing is not timely filed under R986-100-123, there are no further appeal rights.

R986. Workforce Services, Employment Development.
R986-200. Family Employment Program.
R986-200-201. Authority for Family Employment Program (FEP) and Family Employment Program Two Parent (FEPTP) and Other Applicable Rules.

(1) The Department provides services to eligible families under FEP and FEPTP under the authority granted in the Employment Support Act, UCA 35A-3-301 et seq. Funding is provided by the federal government through Temporary Aid to Needy Families (TANF) as authorized by PRWORA.

(2) Rule R986-100 applies to FEP and FEPTP unless expressly noted otherwise.

R986-200-202. Family Employment Program (FEP).

(1) The goal of FEP is to increase family income through employment, and where appropriate, child support and/or disability payments.

(2) FEP is for families with no more than one able bodied parent in the household. If the family has two able bodied parents in the household, the family is not eligible for FEP but may be eligible for FEPTP. Able bodied means capable of earning at least $500 per month in the Utah labor market.

(3) If a household has at least one incapacitated parent, the parent claiming incapacity must verify that incapacity in one of the following ways:

(a) receipt of disability benefits from SSA;

(b) 100% disabled by VA; or

(c) by submitting a written statement from:

(i) a licensed medical doctor;

(ii) a doctor of osteopathy;

(iii) a licensed Mental Health Therapist as defined in UCA 58-60-102;

(iv) a licensed Advanced Practice Registered Nurse; or

(v) a licensed Physician's Assistant.

(d) the written statement in paragraph (c) of this subsection must be based on a current physical examination of the parent, not just a review of parent's medical records.

(4) Incapacity means not capable of earning $500 per month. The incapacity must be expected to last 30 days or longer.

(5) An applicant or parent must cooperate in the obtaining of a second opinion regarding incapacity if requested by the Department. Only the costs associated with a second opinion requested by the Department will be paid for by the Department. The Department will not pay the costs associated with obtaining a second opinion if the parent requests the second opinion.

(6) An incapacitated parent is included in the FEP household assistance unit and the parent's income and assets are counted toward establishing eligibility unless the parent is a SSI recipient. If the parent is a SSI recipient, that parent is not included in the household and none of the income or assets of the SSI recipient is counted.

(7) An incapacitated parent who is included in the household must still negotiate, sign and agree to participate in an employment plan. If the incapacity is such that employment is not feasible now or in the future, participation may be limited to cooperating with ORS and filing for any assistance or benefits to which the parent may be entitled. If it is believed the incapacity might not be permanent, the parent will also be required to seek assistance in overcoming the incapacity.

R986-200-203. Citizenship and Alienage Requirements.

(1) All persons in the household assistance unit who are included in the financial assistance payment, including children, must be a citizen of the United States or meet alienage criteria.

(2) An alien is not eligible for financial assistance unless the alien meets the definition of qualified alien. A qualified alien is an alien:

(a) who is paroled into the United States under section 212(d)(5) of the INA for at least one year;

(b) who is admitted as a refugee under section 207 of the INA;

(c) who is granted asylum under section 208 of the INA;

(d) who is a Cuban or Haitian entrant in accordance with the requirements of 45 CFR Part 401;

(e) who is an Amerasian from Vietnam and was admitted to the United States as an immigrant pursuant to Public Law 100-202 and Public Law 100-461;

(f) whose deportation is being withheld under sections 243(h) or 241(b)(3) of the INA;

(g) who is lawfully admitted for permanent residence under the INA,

(h) who is granted conditional entry pursuant to section 203(a)(7) of the INA;

(i) who meets the definition of certain battered aliens under Section 8 U.S.C. 1641(c); or

(j) who is a certified victim of trafficking.

(3) All aliens granted lawful temporary or permanent resident status under Sections 210, 302, or 303 of the Immigration Reform and Control Act of 1986, are disqualified from receiving financial assistance for a period of five years from the date lawful temporary resident status is granted.

(4) Aliens are required to provide proof, in the form of documentation issued by the United States Citizenship and Immigration Services (USCIS), of immigration status. Victims of trafficking can provide proof from the Office of Refugee Resettlement.

R986-200-204. Eligibility Requirements.

(1) To be eligible for financial assistance under the FEP or FEPTP a household assistance unit must include:

(a) a pregnant woman when it has been medically verified that she is in the third calendar month prior to the expected month of delivery, or later, and who, if the child were born and living with her in the month of payment, would be eligible. The unborn child is not included in the financial assistance payment; or

(b) at least one minor dependent child who is a citizen or meets the alienage criteria. All minor children age 6 to 16 must attend school, or be exempt under 53A-11-102, to be included in the household assistance unit for a financial assistance payment for that child.

(i) A minor child is defined as being under the age of 18 years and not emancipated by marriage or by court order; or

(ii) an unemancipated child, at least 18 years old but under 19 years old, with no high school diploma or its equivalent, who is a full-time student in a secondary school, or in the equivalent level of vocational or technical training, and the school has verified a reasonable expectation the 18 year old will complete the program before reaching age 19.

(2) Households must meet other eligibility requirements of income, assets, and participation in addition to the eligibility requirements found in R986-100.

(3) Persons who are fleeing to avoid prosecution of a felony are ineligible for financial assistance.

(4) All clients who are required to complete a negotiated employment plan as provided in R986-200-206 must attend a FEP orientation meeting, sign a FEP Agreement, and negotiate and sign an employment plan within 30 days of submitting his or her application for assistance. Attendance at the orientation meeting can only be excused for reasonable cause as defined in R986-200-212(8). The application for assistance will not be complete until the client has attended the meeting.

R986-200-205. How to Determine Who Is Included in the Household Assistance Unit.

The amount of financial assistance for an eligible household is based on the size of the household assistance unit

and the income and assets of all people in the household assistance unit.

(1) The income and assets of the following individuals living in the same household must be counted in determining eligibility of the household assistance unit:

(a) all natural parents, adoptive parents, parents listed on the birth certificate and stepparents, unless expressly excluded in this section, who are related to and residing in the same household as an eligible dependent child. Natural parentage is determined as follows:

(i) A woman is the natural parent if her name appears on the birth record of the child.

(ii) For a man to be determined to be the natural parent, that relationship must be established or acknowledged or his name must appear on the birth record. If the parents have a solemnized marriage at the time of birth, relationship is established and can only be rebutted by a DNA test;

(b) household members who would otherwise be included but who are absent solely by reason of employment, school or training, or who will return home to live within 30 days;

(c) all minor siblings, half-siblings, and adopted siblings living in the same household as an eligible dependent child; and

(d) all spouses living in the household.

(2) The following individuals in the household are not counted in determining the household size for determining payment amount nor are the assets or income of the individuals counted in determining household eligibility:

(a) a recipient of SSI benefits. If the SSI recipient is the parent and is receiving FEP assistance for the child(ren) residing in the household, the SSI parent must cooperate with establishing paternity and child support enforcement for the household to be eligible. If the only dependent child is a SSI recipient, the parent or specified relative may receive a FEP assistance payment which does not include that child, provided the parent or specified relative is not on SSI and can meet all other requirements;

(b) a child during any month in which a foster care maintenance payment is being provided to meet the child's needs. If the only dependent child in the household is receiving a foster care maintenance payment, the parent or specified relative may still receive a FEP assistance payment which does not include the child, provided all other eligibility, income and asset requirements are met;

(c) an absent household member who is expected to be gone from the household for 180 days or more unless the absence is due to employment, school or training. If the absence is due to employment, school or training the household member must be included.

(3) The household assistance unit can choose whether to include or exclude the following individuals living in the household. If included, all income and assets of that person are counted:

(a) all absent household members who are expected to be temporarily absent from the home for more than 30 but not more than 180 consecutive days unless the absence is due to employment, school or training. If the absence is due to employment, school or training the household member must be included;

(b) Native American children, or deaf or blind children, who are temporarily absent while in boarding school, even if the temporary absence is expected to last more than 180 days;

(c) an adopted child who receives a federal, state or local government special needs adoption payment. If the adopted child receiving this type of payment is the only dependent child in the household and excluded, the parent(s) or specified relative may still receive a FEP or FEPTP assistance payment which does not include the child, provided all other eligibility requirements are met. If the household chooses to include the adopted child in the household assistance unit under this paragraph, the special needs adoption payment is counted as income;

(d) former stepchildren who have no blood relationship to a dependent child in the household;

(e) a specified relative. If a household requests that a specified relative be included in the household assistance unit, only one specified relative can be included in the financial assistance payment regardless of how many specified relatives are living in the household. The income and assets of all household members are counted according to the provisions of R986-200-241.

(4) In situations where there are children in the home for which there is court order regarding custody of the children, the Department will determine if the children should be included in the household assistance unit based on the actual living arrangements of the children and not on the custody order. If the child lives in the home 50% or more of the time, the child must be included in the household assistance unit and duty of support completed. It is not an option to exclude the child. This is true even if the court awarded custody to the other parent or the court ordered joint custody. If the child lives in the household less than 50% of the time, the child cannot be included in the household. It is not an option to include the child. This is true even if the parent applying for financial assistance has been awarded custody by the court or the court ordered joint custody. If financial assistance is allowed, a joint custody order might be modified by the court under the provisions of 30-3-10.2(4) and 30-3-10.4.

(5) The income and assets of the following individuals are counted in determining eligibility even though the individual is not included in the assistance payment:

(a) a household member who has been disqualified from the receipt of assistance because of an IPV, (fraud determination);

(b) a household member who does not meet the citizenship and alienage requirements; or

(c) a minor child who is not in school full time or participating in self sufficiency activities.

R986-200-206. Participation Requirements.

(1) Payment of any and all financial assistance is contingent upon all parents in the household, including adoptive and stepparents, participating, to the maximum extent possible, in:

(a) assessment and evaluation;

(b) the completion of a negotiated employment plan; and

(c) assisting ORS in good faith to:

(i) establish the paternity of all minor children; and

(ii) establish and enforce child support obligations.

(d) obtaining any and all other sources of income. If any household member is or appears to be eligible for unemployment, SSA, Workers Compensation, VA, or any other benefits or forms of assistance, the Department will refer the individual to the appropriate agency and the individual must apply for and pursue obtaining those benefits. If an individual refuses to apply for and pursue these benefits or assistance, the individual is ineligible for financial assistance. Pursuing these benefits includes cooperating fully and providing all the necessary documentation to insure receipt of benefits. If the individual is already receiving assistance from the Department and it is found he or she is not cooperating fully to obtain benefits from another source, the individual will be considered to not be participating in his or her employment plan. If the individual is otherwise eligible for FEP or FEPTP, financial assistance will be provided until eligibility for other benefits or assistance has been determined. If an individual's application for SSA benefits is denied, the individual must fully cooperate in prosecuting an appeal of that SSA denial at least to the Social Security ALJ level.

(2) Parents who have been determined to be ineligible to be included in the financial assistance payment are still required to participate.

(3) Children at least 16 years old but under 18 years old, unless they are in school full-time or in school part-time and working less than 100 hours per month are required to participate.

R986-200-207. Participation in Child Support Enforcement.

(1) Receipt of child support is an important element in increasing a family's income.

(2) Every natural, legal or adoptive parent has a duty to support his or her children and stepchildren even if the children do not live in the parental home.

(3) A parent's duty to support continues until the child:

(a) reaches age 18;

(b) is 18 years old and enrolled in high school during the normal and expected year of graduation;

(c) is emancipated by marriage or court order;

(d) is a member of the armed forces of the United States; or

(e) is self supporting.

(4) A client receiving financial assistance automatically assigns to the state any and all rights to child support for all children who are included in the household assistance unit while receiving financial assistance. The assignment of rights occurs even if the client claims or establishes "good cause or other exception" for refusal to cooperate. The assignment of rights to support, cooperation in establishing paternity, and establishing and enforcing child support is a condition of eligibility for the receipt of financial assistance.

(5) For each child included in the financial assistance payment, the client must also assign any and all rights to alimony or spousal support from the noncustodial parent while the client receives public assistance.

(6) The client must cooperate with the Department and ORS in establishing and enforcing the spousal and child support obligation from any and all natural, legal, or adoptive non-custodial parents.

(7) If a parent is absent from the home, the client must identify and help locate the non-custodial parent.

(8) If a child is conceived or born during a marriage, the husband is considered the legal father, even if the wife states he is not the natural father.

(9) If the child is born out of wedlock, the client must also cooperate in the establishment of paternity.

(10) ORS is solely responsible for determining if the client is cooperating in identifying the noncustodial parent and with child support establishment and enforcement efforts for the purposes of receipt of financial assistance. The Department cannot review, modify, or reject a decision made by ORS.

(11) Unless good cause is shown, financial assistance will terminate if a parent or specified relative does not cooperate with ORS in establishing paternity or enforcing child support obligations.

(12) Upon notification from ORS that the client is not cooperating, the Department will commence reconciliation procedures as outlined in R986-200-212. If the client continues to refuse to cooperate with ORS at the end of the reconciliation process, financial assistance will be terminated.

(13) Termination of financial assistance for non cooperation is immediate, without a reduction period outlined in R986-200-212, if:

(a) the client is a specified relative who is not included in the household assistance unit;

(b) the client is a parent receiving SSI benefits; or

(c) the client is participating in FEPTP.

(14) Once the financial assistance has been terminated due to the client's failure to cooperate with child support enforcement, the client must then reapply for financial assistance. This time, the client must cooperate with child support collection prior to receiving any financial assistance.

(15) A specified relative, illegal alien, SSI recipient, or disqualified parent in a household receiving FEP assistance must assign rights to support of any kind and cooperate with all establishment and enforcement efforts even if the parent or relative is not included in the financial assistance payment.

R986-200-208. Good Cause for Not Cooperating With ORS.

(1) The Department is responsible for determining if the client has good cause or other exception for not cooperating with ORS.

(2) To establish good cause for not cooperating, the client must file a written request for a good cause determination and provide proof of good cause within 20 days of the request.

(3) A client has the right to request a good cause determination at any time, even if ORS or court proceedings have begun.

(4) Good cause for not cooperating with ORS can be shown if one of following circumstances exists:

(a) The child, for whom support is sought, was conceived as a result of incest or rape. To prove good cause under this paragraph, the client must provide:

(i) birth certificates;

(ii) medical records;

(iii) Department records;

(iv) records from another state or federal agency;

(v) court records; or

(vi) law enforcement records.

(b) Legal proceedings for the adoption of the child are pending before a court. Proof is established if the client provides copies of documents filed in a court of competent jurisdiction.

(c) A public or licensed private social agency is helping the client resolve the issue of whether to keep or relinquish the child for adoption and the discussions between the agency and client have not gone on for more than three months. The client is required to provide written notice from the agency concerned.

(d) The client's cooperation in establishing paternity or securing support is reasonably expected to result in physical or emotional harm to the child or to the parent or specified relative. If harm to the parent or specified relative is claimed, it must be significant enough to reduce that individual's capacity to adequately care for the child.

(i) Physical or emotional harm is considered to exist when it results in, or is likely to result in, an impairment that has a substantial effect on the individual's ability to perform daily life activities.

(ii) The source of physical or emotional harm may be from individuals other than the noncustodial parent.

(iii) The client must provide proof that the individual is likely to inflict such harm or has done so in the past. Proof must be from an independent source such as:

(A) medical records or written statements from a mental health professional evidencing a history of abuse or current health concern. The record or statement must contain a diagnosis and prognosis where appropriate;

(B) court records;

(C) records from the Department or other state or federal agency; or

(D) law enforcement records.

(5) If a claim of good cause is denied because the client is unable to provide proof as required under Subsection (4) (a) or (d) the client can request a hearing and present other evidence of good cause at the hearing. If the ALJ finds that evidence credible and convincing, the ALJ can make a finding of good cause under Subsections (4) (a) or (d) based on the evidence presented by the client at the hearing. A finding of good cause

by the ALJ can be based solely on the sworn testimony of the client.

(6) When the claim of good cause for not cooperating is based in whole or in part on anticipated physical or emotional harm, the Department must consider:

(a) the client's present emotional health and history;

(b) the intensity and probable duration of the resulting impairment;

(c) the degree of cooperation required; and

(d) the extent of involvement of the child in the action to be taken by ORS.

(7) The Department recognizes no other exceptions, apart from those recognized by ORS, to the requirement that a client cooperate in good faith with ORS in the establishment of paternity and establishment and enforcement of child support.

(8) If the client has exercised his or her right to an agency review or adjudicative proceeding under Utah Administrative Procedures Act on the question of non-cooperation as determined by ORS, the Department will not review, modify, or reverse the decision of ORS on the question of non-cooperation. If the client did not have an opportunity for a review with ORS, the Department will refer the request for review to ORS for determination.

(9) Once a request for a good cause determination has been made, all collection efforts by ORS will be suspended until the Department has made a decision on good cause.

(10) A client has the right to appeal a Department decision on good cause to an ALJ by following the procedures for appeal found in R986-100.

(11) If a parent requests a hearing on the basis of good cause for not cooperating, the resulting decision cannot change or modify the determination made by ORS on the question of good faith.

(12) Even if the client establishes good cause not to cooperate with ORS, if the Department supervisor determines that support enforcement can safely proceed without the client's cooperation, ORS may elect to do so. Before proceeding without the client's cooperation, ORS will give the client advance notice that it intends to commence enforcement proceedings and give the client an opportunity to object. The client must file his or her objections with ORS within 10 days.

(13) A determination that a client has good cause for non-cooperation may be reviewed and reversed by the Department upon a finding of new, or newly discovered evidence, or a change in circumstances.

R986-200-209. Participation in Obtaining an Assessment.

(1) Within 20 business days of the date the application for financial assistance has been completed and approved, the client will be assigned to an employment counselor and must complete an assessment.

(2) The assessment evaluates a client's needs and is used to develop an employment plan.

(3) Completion of the assessment requires that the client provide information about:

(a) family circumstances including health, needs of the children, support systems, and relationships;

(b) personal needs or potential barriers to employment;

(c) education;

(d) work history;

(e) skills;

(f) financial resources and needs; and

(g) any other information relevant to the client's ability to become self-sufficient.

(4) The client may be required to participate in testing or completion of other assessment tools and may be referred to another person within the Department, another agency, or to a company or individual under contract with the Department to complete testing, assessment, and evaluation.

R986-200-210. Requirements of an Employment Plan.

(1) Within 15 business days of completion of the assessment, the following individuals in the household assistance unit are required to sign and make a good faith effort to participate to the maximum extent possible in a negotiated employment plan:

(a) All parents, including parents whose income and assets are included in determining eligibility of the household but have been determined to be ineligible or disqualified from being included in the financial assistance payment.

(b) Dependent minor children who are at least 16 years old, who are not parents, unless they are full-time students or are employed an average of 30 hours a week or more.

(2) The goal of the employment plan is obtaining marketable employment and it must contain the soonest possible target date for entry into employment consistent with the employability of the individual.

(3) An employment plan consists of activities designed to help an individual become employed. For each activity there will be:

(a) an expected outcome;

(b) an anticipated completion date;

(c) the number of participation hours agreed upon per week; and

(d) a definition of what will constitute satisfactory progress for the activity.

(4) Each activity must be directed toward the goal of increasing the household's income.

(5) Activities may require that the client:

(a) obtain immediate employment. If so, the parent client shall:

(i) promptly register for work and commence a search for employment for a specified number of hours each week; and

(ii) regularly submit a report to the Department on:

(A) how much time was spent in job search activities;

(B) the number of job applications completed;

(C) the interviews attended;

(D) the offers of employment extended; and

(E) other related information required by the Department.

(b) participate in an educational program to obtain a high school diploma or its equivalent, if the parent client does not have a high school diploma;

(c) obtain education or training necessary to obtain employment;

(d) obtain medical, mental health, or substance abuse treatment;

(e) resolve transportation and child care needs;

(f) relocate from a rural area which would require a round trip commute in excess of two hours in order to find employment;

(g) resolve any other barriers identified as preventing or limiting the ability of the client to obtain employment, and/or

(h) participate in rehabilitative services as prescribed by the State Office of Rehabilitation.

(6) The client must meet the performance expectations of, and provide verification for, each eligible activity in the employment plan in order to stay eligible for financial assistance. A list of what will be considered acceptable documentation is available at each employment center.

(7) The client must cooperate with the Department's efforts to monitor and evaluate the client's activities and progress under the employment plan, which includes providing the Department with a release of information, if necessary to facilitate the Department's monitoring of compliance.

(8) Where available, supportive services will be provided as needed for each activity.

(9) The client agrees, as part of the employment plan, to cooperate with other agencies, or with individuals or companies under contract with the Department, as outlined in the

employment plan.

(10) An employment plan may, at the discretion of the Department, be amended to reflect new information or changed circumstances.

(11) The number of hours of participation in subsection (3)(c) of this section will not be lower than 30 hours per week. All 30 hours must be in eligible activities. 20 of those 30 hours must be in priority activities. A list of approved priority and eligible activities is available at each employment center. If the client has a child in the household under the age of six, the number of hours of participation in subsection (3)(c) of this section is a minimum of 20 hours per week and all of those 20 hours must be in priority activities.

(12) In the event a client has barriers which prevent the client from 30 hours of participation per week, or 20 hours in priority activities, a lower number of hours of participation can be approved if:

(a) the Department identifies and documents the barriers which prevent the client from full participation; and

(b) the client agrees to participate to the maximum extent possible to resolve the barriers which prevent the client from participating.

R986-200-211. Education and Training As Part of an Employment Plan.

(1) A parent client's participation in education or training beyond that required to obtain a high school diploma or its equivalent is limited to the lesser of:

(a) 24 months which need not be continuous; or

(b) the completion of the education and training requirements of the employment plan.

(2) Post high school education or training will only be approved if all of the following are met:

(a) The client can demonstrate that the education or training would substantially increase the income level that the client would be able to achieve without the education and training, and would offset the loss of income the household incurs while the education or training is being completed.

(b) The client does not already have a degree or skills training certificate in a currently marketable occupation.

(c) An assessment specific to the client's education and training aptitude has been completed showing the client has the ability to be successful in the education or training.

(d) The mental and physical health of the client indicates the education or training could be completed successfully and the client could perform the job once the schooling is completed.

(e) The specific employment goal that requires the education or training is marketable in the area where the client resides or the client has agreed to relocate for the purpose of employment once the education/training is completed.

(f) The client, when determined appropriate, is willing to complete the education/training as quickly as possible, such as attending school full time which may include attending school during the summer.

(g) The client can realistically complete the requirements of the education or training program within the required time frames or time limits of the financial assistance program, including the 36-month lifetime limit for FEP and FEPTP, for which the client is eligible.

(3) A parent client may participate in education or training for up to six months beyond the 24-month limit if:

(a) the parent client is employed for 80 or more hours per month during each month of the extension;

(b) circumstances beyond the control of the client prevented completion within 24 months; and

(c) the Department director or designee determines that extending the 24-month limit is prudent because other employment, education, or training options do not enable the family to meet the objective of the program.

(4) A parent client with a high school diploma or equivalent who has received 24 months of education or training while receiving financial assistance must participate a minimum of 30 hours per week in eligible activities. Twenty of those 30 hours must be in priority activities. A list of approved priority and eligible activities is available at each employment center. If the client has a child in the household under the age of six, the minimum number of hours of participation under this this subsection is 20 hours per week and all of those 20 hours must be in priority activities.

(5) Graduate work can never be approved or supported as part of an employment plan.

R986-200-212. Reconciling Disputes and Termination of Financial Assistance for Failure to Comply.

If a client who is required to participate in an employment plan consistently fails, without reasonable cause, to show good faith in complying with the employment plan, the Department will terminate all or part of the financial assistance. This will apply if the Department is notified that the client has failed to cooperate with ORS as provided in R986-200-207. A termination for the reasons mentioned in this paragraph will occur only after the Department attempts reconciliation through the following process:

(1) When an employment counselor discovers that a client is not complying with his or her employment plan, the employment counselor will attempt to discuss compliance with the client and explore solutions. The employment counselor will also send written notice of the failure to comply to the client. The notice will specify a date certain by which the client must comply and the consequences of not complying by that date.

(2) If compliance is not resolved by the date specified in the notice sent under subsection (1) of this section, the employment counselor will send a second written notice and initiate termination of the household financial assistance. This second notice will advise the client that the financial assistance will terminate at the end of that month unless the client resolves the problem, as provided in paragraph (2)(a) of this section. This second notice will also provide a date certain by which the compliance problems must be resolved for benefits to continue.

(a) If the client establishes reasonable cause for not complying with the employment plan or provides required documentation by the date specified in the first or second notice, financial assistance will continue or be restored.

(b) If the compliance problem is not resolved as provided in subparagraph (a) of this subsection, the household will be ineligible for financial assistance for one full month. The client must then reapply for financial benefits and successfully complete a two week trial participation period before financial assistance will be approved.

(3) A client must demonstrate a genuine willingness to comply with the employment plan during the two week trial period.

(4) The two week trial period may be waived only if the client has cured all previous compliance issues prior to re-application.

(5) The provisions of this section apply to clients who are eligible for and receiving financial assistance during an extension period as provided in R986-200-218.

(6) A child age 16-18 who is not a parent and who is not participating will be removed from the financial assistance grant. The financial assistance will continue for other household members provided they are participating. If the child successfully completes a two week trial period, the child will be added back on to the financial assistance grant.

(7) Reasonable cause under this section means the client was prevented from participating through no fault of his or her

own or failed to participate for reasons that are reasonable and compelling.

(8) Reasonable cause can also be established, as provided in 45 CFR 261.56, by a client who is a single custodial parent caring for a child under age six who refuses to engage in required work because he or she is unable to obtain needed child care because appropriate and affordable child care arrangements are not available within a reasonable distance from the home or work site.

(9) If a client is also receiving food stamps and the client is disqualified for non-participation under this section, the client will also be subject to the food stamp sanctions found in 7CFR 273.7(f)(2) unless the client meets an exemption under food stamp regulations.

R986-200-213. Financial Assistance for a Minor Parent.

(1) Financial assistance may be provided to a single minor parent who resides in a place of residence maintained by a parent, legal guardian, or other adult relative of the single minor parent, unless the minor parent is exempt.

(2) The single minor parent may be exempt when:

(a) The minor parent has no living parent or legal guardian whose whereabouts is known;

(b) No living parent or legal guardian of the minor parent allows the minor parent to live in his or her home;

(c) The minor parent lived apart from his or her own parent or legal guardian for a period of at least one year before either the birth of the dependent child or the parent's having made application for FEP and the minor parent was self supporting during this same period of time; or

(d) The physical or emotional health or safety of the minor parent or dependent child would be jeopardized if they resided in the same residence with the minor parent's parent or legal guardian. A referral will be made to DCFS if allegations are made under this paragraph.

(3) Prior to authorizing financial assistance, the Department must approve the living arrangement of all single minor parents exempt under section (2) above. Approval of the living arrangement is not a certification or guarantee of the safety, quality, or condition of the living arrangements of the single minor parent.

(4) All minor parents regardless of the living arrangement must participate in education for parenting and life skills in infant and child wellness programs operated by the Department of Health and, for not less than 20 hours per week:

(a) attend high school or an alternative to high school, if the minor parent does not have a high school diploma;

(b) participate in education and training; and/or

(c) participate in employment.

(5) If a single minor parent resides with a parent, the Department shall include the income of the parent of the single minor parent in determining the single minor parent's eligibility for financial assistance.

(6) If a single minor parent resides with a parent who is receiving financial assistance, the single minor parent is included in the parent's household assistance unit.

(7) If a single minor parent receives financial assistance but does not reside with a parent, the Department shall seek an order requiring that the parent of the single minor parent financially support the single minor parent.

R986-200-214. Assistance for Specified Relatives.

(1) Specified relatives include:

(a) grandparents;

(b) brothers and sisters;

(c) stepbrothers and stepsisters;

(d) aunts and uncles;

(e) first cousins;

(f) first cousins once removed;

(g) nephews and nieces;

(h) people of prior generations as designated by the prefix grand, great, great-great, or great- great-great;

(i) brothers and sisters by legal adoption;

(j) the spouse of any person listed above;

(k) the former spouse of any person listed above;

(l) individuals who can prove they met one of the above mentioned relationships via a blood relationship even though the legal relationship has been terminated; and

(m) former stepparents.

(2) The Department shall require compliance with Section 30-1-4.5

(3) A specified relative may apply for financial assistance for the child. If the child is otherwise eligible, the FEP rules apply with the following exceptions:

(a) The child must have a blood or a legal relationship to the specified relative even if the legal relationship has been terminated or have a blood relationship to a dependent child who in the home and who is included in the household for assistance purposes;

(b) Both parents must be absent from the home where the child lives. This is true even for a parent who has had his or her parental rights terminated;

(c) The child must be currently living with, and not just visiting, the specified relative;

(d) The parents' obligation to financially support their child will be enforced and the specified relative must cooperate with child support enforcement; and

(e) If the parent(s) state they are willing to support the child if the child would return to live with the parent(s), the child is ineligible unless there is a court order removing the child from the parent(s)' home.

(4) If the specified relative is currently receiving FEP or FEPTP, the child must be included in that household assistance unit.

(5) The income and resources of the specified relative are not counted unless the specified relative requests inclusion in the household assistance unit.

(6) If the specified relative is not currently receiving FEP or FEPTP, and the specified relative does not want to be included in the financial assistance payment, the specified relative shall be paid, on behalf of the child, the full standard financial assistance payment for one person. The size of the financial assistance payment shall be increased accordingly for each additional eligible child in the household assistance unit excluding the dependent child(ren) of the specified relative. Since the specified relative is not included in the household assistance unit, the income and assets of the specified relative, or the relative's spouse, are not counted.

(7) The specified relative may request to be included in the household assistance unit. If the specified relative is included in the household assistance unit, the household must meet all FEP eligibility requirements including participation requirements and asset limits.

(8) Income eligibility for a specified relative who wants to be included in the household assistance unit is calculated according to R986-200-241.

R986-200-215. Family Employment Program Two Parent Household (FEPTP).

(1) FEPTP is for households otherwise eligible for FEP but with two able-bodied parents in the household. Eligible refugee households with two able-bodied parents and at least one dependent child, must first exhaust RRP benefits before considering eligibility for FEPTP.

(2) Families may only participate in this program for seven months out of any 13-month period. Months of participation count toward the 36-month time limit in Sections 35A-3-306 and R986-200-217.

(3) Both parents must participate in eligible activities for a combined total of 60 hours per week, as defined in the employment plan. At least 50 of those hours must be in priority activities. A list of approved priority and eligible activities is available at each employment center. Refugee families may participate in any combination of eligible and priority activities for a combined total of 60 hours per week, as provided in the employment plan.

(4) Both parents are required to participate every week as defined in the employment plan, unless the parent can establish reasonable cause for not participating. Reasonable cause is defined in rule R986-200-212(8),

(5) Payment is made twice per month and only after proof of participation. Payment is based on the number of hours of participation by both parents. The amount of assistance is equal to the FEP payment for the household size prorated based on the number of hours which the parents participated up to a maximum of 60 hours of participation per week. In no event can the financial assistance payment per month for a FEPTP household be more than for the same size household participating in FEP.

(6) If it is determinated by the employment counselor that either one of the parents has failed to participate to the maximum extent possible assistance for the entire household unit will terminate immediately.

(7) Because payment is made after performance, advance notice is not required to terminate or reduce assistance payments for households participating in FEPTP.

(8) The parents must meet all other requirements of FEP including but not limited to, income and asset limits, cooperation with ORS if there are legally responsible persons outside of the household assistance unit, signing a participation agreement and employment plan and applying for all other assistance or benefits to which they might be entitled.

R986-200-216. Diversion.

(1) Diversion is a one-time financial assistance payment provided to help a client avoid receiving extended cash assistance.

(2) In determining whether a client should receive diversion assistance, the Department will consider the following:

(a) the applicant's employment history;

(b) the likelihood that the applicant will obtain immediate full-time employment;

(c) the applicant's housing stability; and

(d) the applicant's child care needs, if applicable.

(3) To be eligible for diversion the applicant must;

(a) have a need for financial assistance to pay for housing or substantial and unforseen expenses or work related expenses which cannot be met with current or anticipated resources;

(b) show that within the diversion period, the applicant will be employed or have other specific means of self support, and

(c) meet all eligibility criteria for a FEP financial assistance payment except the applicant does not need to cooperate with ORS in obtaining support. If the client is applying for other assistance such as medical or child care, the client will have to follow the eligibility rules for that type of assistance which may require cooperation with ORS.

(4) If the Department and the client agree diversion is appropriate, the client must sign a diversion agreement listing conditions, expectations and participation requirements.

(5) The diversion payment will equal three times the monthly financial assistance payment for the household size. All income expected to be received during the three-month period including wages and child support must be considered when negotiating the appropriate diversion payment amount.

(6) Child support will belong to the client during the three-month period, whether received by the client directly or collected by ORS. ORS will not use the child support to offset or reimburse the diversion payment.

(7) The client must agree to have the financial assistance portion of the application for assistance denied.

(8) If a diversion payment is made, the client is ineligible for FEP for the three months covered by the diversion payment and must reapply at the end of the three month period.

(9) Diversion assistance is not available to clients participating in FEPTP. This is because FEPTP is based on performance and payment can only be made after performance.

(10) A household can only receive one diversion assistance payment in a 12 month period.

R986-200-217. Time Limits.

(1) Except as provided in R986-200-218 and in Section 35A-3-306, a family cannot receive financial assistance under the FEP or FEPTP for more than 36 months.

(2) The following months count toward the 36-month time limit regardless of whether the financial assistance payment was made in this or any other state:

(a) each month when a parent client received financial assistance beginning with the month of January, 1997;

(b) each month beginning with January, 1997, where a parent resided in the household, the parent's income and assets were counted in determining the household's eligibility, but the parent was disqualified from being included in the financial payment. Disqualification occurs when a parent has been determined to have committed fraud in the receipt of public assistance or when the parent is an ineligible alien; and

(c) each month when financial assistance was reduced or a partial financial assistance payment was received beginning with the month of January, 1997.

(3) Months which do not count toward the 36 month time limit are:

(a) months where both parents were absent from the home and dependent children were cared for by a specified relative who elected to be excluded from the household unit;

(b) months where the client received financial assistance as a minor child and was not the head of a household or married to the head of a household;

(c) months during which the parent lived in Indian country, as defined in Title 18, Section 1151, United States Code 1999, or an Alaskan Native village, if the most reliable data available with respect to the month, or a period including the month, indicate that at least 50% of the adults living in Indian country or in the village were not employed;

(d) months when a parent resided in the home but were excluded from the household assistance unit. A parent is excluded when they receive SSI benefits;

(e) the first diversion period in any 12 month period of time is not counted toward the 36 month time limit. A second and all subsequent diversion periods within 12 months will count as one month toward the 36 month time limit. If a client has already used 36 months of financial assistance, the client is not eligible for diversion assistance unless the client meets one of the extension criteria in R986-200-218 in addition to all other eligibility criteria of diversion assistance; or

(f) months when a parent client received transitional assistance.

R986-200-218. Exceptions to the Time Limit.

Exceptions to the time limit may be allowed for up to 20% of the average monthly number of families receiving financial assistance from FEP and FEPTP during the previous Federal fiscal year for the following reasons:

(1) A hardship under Section 35A-3-306 is determined to exist when a parent:

(a) is determined to be medically unable to work. The

client must provide proof of inability to work in one of the following ways:

(i) receipt of disability benefits from SSA;

(ii) receipt of VA Disability benefits based on the parent being 100% disabled;

(iii) placement on the Division of Services to People with Disabilities' waiting list. Being on the waiting list indicates the person has met the criteria for a disability; or

(iv) is currently receiving Temporary Total or Permanent Total disability Workers' Compensation benefits;

(v) a medical statement completed by a medical doctor, a licensed Advanced Practice Registered Nurse, a licensed Physician's Assistant, or a doctor of osteopathy, stating the parent has a medical condition supported by medical evidence, which prevents the parent from engaging in work activities capable of generating income of at least $500 a month. The statement must be completed by a professional skilled in both the diagnosis and treatment of the condition; or

(vi) a statement completed by a licensed clinical social worker, licensed psychologist, licensed Mental Health Therapist as defined in UCA Section 58-60-102, or psychiatrist stating that the parent has been diagnosed with a mental health condition that prevents the parent from engaging in work activities capable of generating income of at least $500 a month. Substance abuse is considered the same as mental health condition;

(b) is under age 19 through the month of their nineteenth birthday;

(c) is currently engaged in an approved full-time job preparation, educational or training activity which the parent was expected to complete within the 36 month time limit but completion within the 36 months was not possible through no fault of the parent. Additionally, if the parent has previously received, beginning with the month of January 1997, 24 months of financial assistance while attending educational or training activities, good cause for additional months must be shown and approved;

(d) was without fault and a delay in the delivery of services provided by the Department occurred. The delay must have had an adverse effect on the parent causing a hardship and preventing the parent from obtaining employment. An extension under this section cannot be granted for more than the length of the delay;

(e) moved to Utah after exhausting 36 months of assistance in another state or states and the parent did not receive supportive services in that state or states as required under the provisions of PRWORA. To be eligible for an extension under this section, the failure to receive supportive services must have occurred through no fault of the parent and must contribute to the parent's inability to work. An extension under this section can never be for longer than the delay in services;

(f) completed an educational or training program at the 36th month and needs additional time to obtain employment;

(g) is unable to work because the parent is required in the home to meet the medical needs of a dependent. Dependent for the purposes of this paragraph means a person who the parent claims as a dependent on his or her income tax filing. Proof, consisting of a medical statement from a health care professional listed in subparagraph (1)(a)(v) or (vi) of this section is required unless the dependent is on the Travis C medicaid waiver program. The medical statement must include all of the following:

(i) the diagnosis of the dependent's condition,

(ii) the recommended treatment needed or being received for the condition,

(iii) the length of time the parent will be required in the home to care for the dependent, and

(iv) whether the parent is required to be in the home full-time or part-time; or

(h) is currently receiving assistance under one of the exceptions in this section and needs additional time to obtain employment. A client can only receive assistance for one month under this subparagraph. If the Department determines that granting an exception under this subparagraph adversely impacts its federally mandated participation rate requirements or might otherwise jeopardize its funding, the one month exception will not be granted or

(i) is no longer employed due to a verified reduction in force (layoff) and needs additional time to find work. Participation in eligible activities is required for an exception under this subparagraph. This exception is only available for parents who were laid off on or after January 1, 2008. This exception will not be available after December 31, 2011.

(2) Additional months of financial assistance may be provided if the family includes an individual who has been battered or subjected to extreme cruelty which is a barrier to employment and the implementation of the time limit would make it more difficult to escape the situation. Battered or subjected to extreme cruelty means:

(a) physical acts which resulted in, or threatened to result in, physical injury to the individual;

(b) sexual abuse;

(c) sexual activity involving a dependent child;

(d) threats of, or attempts at, physical or sexual abuse;

(e) mental abuse which includes stalking and harassment; or

(f) neglect or deprivation of medical care.

(3) An exception to the time limit can be granted for a maximum of an additional 24 months if:

(a) during the previous two months, the parent client was employed for no less than 20 hours per week. The employment can consist of self-employment if the parent's net income from that self-employment is at or above minimum wage; and

(b) If, at the end of the 24-month extension, the parent client qualifies for an extension under Sections (1) or (2) of this rule, an additional extension can be granted under the provisions of those sections.

(4) All clients receiving an extension must continue to participate, to the maximum extent possible, in an employment plan. This includes cooperating with ORS in the collection, establishment, and enforcement of child support and the establishment of paternity, if necessary.

(5) If a household filing unit contains more than one parent, and one parent has received at least 36 months of assistance as a parent, then the entire filing unit is ineligible unless both parents meet one of the exceptions listed above. Both parents need not meet the same exception.

(6) A family in which the only parent or both parents are ineligible aliens cannot be granted an extension under Section (3) above or for any of the reasons in Subsections (1)(c), (d), (e) or (f). This is because ineligible aliens are not legally able to work and supportive services for work, education and training purposes are inappropriate.

(7) A client who is no longer eligible for financial assistance may be eligible for other kinds of public assistance including food stamps, Child Care Assistance and medical coverage. The client must follow the appropriate application process to determine eligibility for assistance from those other programs.

(8) Exceptions are subject to a review at least once every six months.

R986-200-219. Emergency Assistance (EA) for Needy Families With Dependent Children.

(1) EA is provided in an effort to prevent homelessness. It is a payment which is limited to use for utilities and rent or mortgage.

(2) To be eligible for EA the family must meet all other

FEP requirements except:

(a) the client need only meet the "gross income" test. Gross income which is available to the client must be equal to or less than 185% of the standard needs budget for the client's filing unit; and

(b) the client is not required to enter into an employment plan or cooperate with ORS in obtaining support.

(3) The client must be homeless, in danger of becoming homeless or having the utilities at the home cut off due to a crisis situation beyond the client's control. The client must show that:

(a) The family is facing eviction or foreclosure because of past due rent or mortgage payments or unpaid utility bills which result from the crisis;

(b) A one-time EA payment will enable the family to obtain or maintain housing or prevent the utility shut off while they overcome the temporary crisis;

(c) Assistance with one month's rent or mortgage payment is enough to prevent the eviction, foreclosure or termination of utilities;

(d) The client has the ability to resolve past due payments and pay future months' rent or mortgage payments and utility bills after resolution of the crisis; and

(e) The client has exhausted all other resources.

(4) Emergency assistance is available for only 30 consecutive days during a year to any client or that client's household. If, for example, a client receives an EA payment of $450 for rent on April 1 and requests an additional EA payment of $300 for utilities on or before April 30 of that same year, the request for an EA payment for utilities will be considered. If the request for an additional payment for utilities is made after April 30, it cannot be considered for payment. The client will not be eligible for another EA payment until April 1 of the following year. A year is defined as 365 days following the initial date of payment of EA.

(5) Payments will not exceed $450 per family for one month's rent payment or $700 per family for one month's mortgage payment, and $300 for one month's utilities payment.

R986-200-220. Mentors.

(1) The Department will recruit and train volunteers to serve as mentors for parent clients. The Department may elect to contract for the recruitment and training of the volunteers.

(2) A mentor may advocate on behalf of a parent client and help a parent client:

(a) develop life skills;

(b) implement an employment plan; or

(c) obtain services and support from:

(i) the volunteer mentor;

(ii) the Department; or

(iii) civic organizations.

R986-200-230. Assets Counted in Determining Eligibility.

(1) All available assets, unless exempt, are counted in determining eligibility. An asset is available when the applicant or client owns it and has the ability and the legal right to sell it or dispose of it. An item is never counted as both income and an asset in the same month.

(2) The value of an asset is determined by its equity value. Equity value is the current market value less any debts still owing on the asset. Current market value is the asset's selling price on the open market as set by current standards of appraisal.

(3) Both real and personal property are considered assets. Real property is an item that is fixed, permanent, or immovable. This includes land, houses, buildings, mobile homes and trailer homes. Personal property is any item other than real property.

(4) If an asset is potentially available, but a legal impediment to making it available exists, it is exempt until it can be made available. The applicant or client must take appropriate steps to make the asset available unless:

(a) Reasonable action would not be successful in making the asset available; or

(b) The probable cost of making the asset available exceeds its value.

(5) The value of countable real and personal property cannot exceed $2,000.

(6) If the household assets are below the limits on the first day of the month the household is eligible for the remainder of the month.

R986-200-231. Assets That Are Not Counted (Exempt) for Eligibility Purposes.

The following are not counted as an asset when determining eligibility for financial assistance:

(1) the home in which the family lives, and its contents, unless any single item of personal property has a value over $1,000, then only that item is counted toward the $2,000 limit. If the family owns more than one home, only the primary residence is exempt and the equity value of the other home is counted;

(2) the value of the lot on which the home stands is exempt if it does not exceed the average size of residential lots for the community in which it is located. The value of the property in excess of an average size lot is counted if marketable;

(3) water rights attached to the home property are exempt;

(4) motorized vehicles;

(5) with the exception of real property, the value of income producing property necessary for employment;

(6) the value of any reasonable assistance received for post-secondary education;

(7) bona fide loans, including reverse equity loans;

(8) per capita payments or any asset purchased with per capita payments made to tribal members by the Secretary of the Interior or the tribe. Any asset purchased with profit distributions or income to tribal members derived from tribal owned casinos and privately owned land is countable;

(9) maintenance items essential to day-to-day living;

(10) life estates;

(11) an irrevocable trust where neither the corpus nor income can be used for basic living expenses;

(12) for refugees, as defined under R986-300-303(1), assets that remain in the refugee's country of origin are not counted;

(13) one burial plot per member of the household. A burial plot is a burial space and any item related to repositories used for the remains of the deceased. This includes caskets, concrete vaults, urns, crypts, grave markers, etc. If the individual owns a grave site, the value of which includes opening and closing, the opening and closing is also exempt;

(14) a burial/funeral fund up to a maximum of $1,500 per member of the household;

(a) The value of any irrevocable burial trust is subtracted from the $1,500 burial/funeral fund exemption. If the irrevocable burial trust is valued at $1,500 or more, it reduces the burial/funeral fund exemption to zero.

(b) After deducting any irrevocable burial trust, if there is still a balance in the burial/funeral fund exemption amount, the remaining exemption is reduced by the cash value of any burial contract, funeral plan, or funds set aside for burial up to a maximum of $1,500. Any amount over $1,500 is considered an asset;

(15) any interest which is accrued on an exempt burial contract, funeral plan, or funds set aside for burial is exempt as income or assets. If an individual removes the principal or interest and uses the money for a purpose other than the individual's burial expenses, the amount withdrawn is countable income; and

(16) any other property exempt under federal law.

R986-200-232. Considerations in Evaluating Real Property.

(1) Any nonexempt real property that an applicant or client is making a bona fide effort to sell is exempt for a nine-month period provided the applicant or client agrees to repay, from the proceeds of the sale, the amount of financial and/or child care assistance received. Bona fide effort to sell means placing the property up for sale at a price no greater than the current market value. Additionally, to qualify for this exemption, the applicant or client must assign, to the state of Utah, a lien against the real property under consideration. If the property is not sold during the period of time the client was receiving financial and/or child care assistance or if the client loses eligibility for any reason during the nine-month period, the lien will not be released until repayment of all financial and/or child care assistance is made.

(2) Payments received on a sales contract for the sale of an exempt home are not counted if the entire proceeds are committed to replacement of the property sold within 30 days of receipt and the purchase is completed within 90 days. If more than 90 days is needed to complete the actual purchase, one 90-day extension may be granted. Proceeds are defined as all payments made on the principal of the contract. Proceeds do not include interest earned on the principal which is counted as income.

R986-200-233. Considerations in Evaluating Household Assets.

(1) The assets of a disqualified household member are counted.

(2) The assets of a ward that are controlled by a legal guardian are considered available to the ward.

(3) The assets of an ineligible child are exempt.

(4) When an ineligible alien is a parent, the assets of that alien parent are counted in determining eligibility for other family members.

(5) Certain aliens who have been legally admitted to the United States for permanent residence must have the income and assets of their sponsors considered in determining eligibility for financial assistance under applicable federal authority in accordance with R986-200-243.

R986-200-234. Income Counted in Determining Eligibility.

(1) The amount of financial assistance is based on the household's monthly income and size.

(2) Household income means the payment or receipt of countable income from any source to any member counted in the household assistance unit including:

(a) children; and

(b) people who are disqualified from being counted because of a prior determination of fraud (IPV) or because they are an ineligible alien.

(3) The income of SSI recipients is not counted.

(4) Countable income is gross income, whether earned or unearned, less allowable exclusions listed in section R986-200-239.

(5) Money is not counted as income and an asset in the same month.

(6) If an individual has elected to have a voluntary reduction or deduction taken from an entitlement to earned or unearned income, the voluntary reduction or deduction is counted as gross income. Voluntary reductions include insurance premiums, savings, and garnishments to pay an owed obligation.

R986-200-235. Unearned Income.

(1) Unearned income is income received by an individual for which the individual performs no service.

(2) Countable unearned income includes:

(a) pensions and annuities such as Railroad Retirement, Social Security, VA, Civil Service;

(b) disability benefits such as sick pay and workers' compensation payments unless considered as earned income;

(c) unemployment insurance, except, starting March 1, 2009 and continuing as long as it is authorized by Congress and not counted for food stamps, the $25 supplemental weekly Unemployment Compensation payment authorized by the American Recovery and Reinvestment Act of 2009 (ARRA) will not be countable unearned income;

(d) strike or union benefits;

(e) VA allotment;

(f) income from the GI Bill;

(g) assigned support retained in violation of statute is counted when a request to do so has been generated by ORS;

(h) payments received from trusts made for basic living expenses;

(i) payments of interest from stocks, bonds, savings, loans, insurance, a sales contract, or mortgage. This applies even if the payments are from the sale of an exempt home. Payments made for the down payment or principal are counted as assets;

(j) inheritances;

(k) life insurance benefits;

(l) payments from an insurance company or other source for personal injury, interest, or destroyed, lost or stolen property unless the money is used to replace that property;

(m) cash contributions from any source including family, a church or other charitable organization;

(n) rental income if the rental property is managed by another individual or company for the owner. Income from rental property managed by someone in the household assistance unit is considered earned income;

(o) financial assistance payments received from another state or the Department from another type of financial assistance program including a diversion payment; and

(p) payments from Job Corps and Americorps living allowances.

(3) Unearned income which is not counted (exempt):

(a) cash gifts for special occasions which do not exceed $30 per quarter for each person in the household assistance unit. The gift can be divided equally among all members of the household assistance unit;

(b) bona fide loans, including reverse equity loans on an exempt property. A bona fide loan means a loan which has been contracted in good faith without fraud or deceit and genuinely endorsed in writing for repayment;

(c) the value of food stamps, food donated from any source, and the value of vouchers issued under the Women Infants and Children program;

(d) any per capita payments made to individual tribal members by either the secretary of interior or the tribe are excluded. Profit distributions or income to tribal members derived from tribal owned casinos and privately owned land are countable income;

(e) any payments made to household members that are declared exempt under federal law;

(f) the value of governmental rent and housing subsidies, federal relocation assistance, or EA issued by the Department;

(g) money from a trust fund to provide for or reimburse the household for a specific item NOT related to basic living expenses. This includes medical expenses and educational expenses. Money from a trust fund to provide for or reimburse a household member for basic living expenses is counted;

(h) travel and training allowances and reimbursements if they are directly related to training, education, work, or volunteer activities;

(i) all unearned income in-kind. In-kind means something, such as goods or commodities, other than money;

(j) thirty dollars of the income received from rental income

unless greater expenses can be proven. Expenses in excess of $30 can be allowed for:

(i) taxes;

(ii) attorney fees expended to make the rental income available;

(iii) upkeep and repair costs necessary to maintain the current value of the property; and

(iv) interest paid on a loan or mortgage made for upkeep or repair. Payment on the principal of the loan or mortgage cannot be excluded;

(k) if meals are provided to a roomer/boarder, the value of a one-person food stamp allotment for each roomer/boarder;

(l) payments for energy assistance including H.E.A.T payments, assistance given by a supplier of home energy, and in-kind assistance given by a private non-profit agency;

(m) federal and state income tax refunds and earned income tax credit payments;

(n) payments made by the Department to reimburse the client for education or work expenses, or a CC subsidy;

(o) income of an SSI recipient. Neither the payment from SSI nor any other income, including earned income, of an SSI recipient is included;

(p) payments from a person living in the household who is not included in the household assistance unit, as defined in R986-200-205, when the payment is intended and used for that person's share of the living expenses;

(q) educational assistance and college work study except Veterans Education Assistance intended for family members of the student, living stipends and money earned from an assistantship program is counted as income; and

(r) for a refugee, as defined in R986-300-303(1), any grant or assistance, whether cash or in-kind, received directly or indirectly under the Reception and Placement Programs of Department of State or Department of Justice.

R986-200-236. Earned Income.

(1) All earned income is counted when it is received even if it is an advance on wages, salaries or commissions.

(2) Countable earned income includes:

(a) wages, except Americorps*Vista living allowances are not counted;

(b) salaries;

(c) commissions;

(d) tips;

(e) sick pay which is paid by the employer;

(f) temporary disability insurance or temporary workers' compensation payments which are employer funded and made to an individual who remains employed during recuperation from a temporary illness or injury pending the employee's return to the job;

(g) rental income only if managerial duties are performed by the owner to receive the income. The number of hours spent performing those duties is not a factor. If the property is managed by someone other than the individual, the income is counted as unearned income;

(h) net income from self-employment less allowable expenses, including income over a period of time for which settlement is made at one given time. The periodic payment is annualized prospectively. Examples include the sale of farm crops, livestock, and poultry. A client may deduct actual, allowable expenses, or may opt to deduct 40% of the gross income from self-employment to determine net income;

(i) training incentive payments and work allowances; and

(j) earned income of dependent children.

(3) Income that is not counted as earned income:

(a) income for an SSI recipient;

(b) reimbursements from an employer for any bona fide work expense;

(c) allowances from an employer for travel and training if the allowance is directly related to the travel or training and identifiable and separate from other countable income; or

(d) Earned Income Tax Credit (EITC) payments.

R986-200-237. Lump Sum Payments.

(1) Lump sum payments are one-time windfalls or retroactive payments of earned or unearned income. Lump sums include but are not limited to, inheritances, insurance settlements, awards, winnings, gifts, and severance pay, including when a client cashes out vacation, holiday, and sick pay. They also include lump sum payments from Social Security, VA, UI, Worker's Compensation, and other one-time payments. Payments from SSA that are paid out in installments are not considered lump sum payments but as income, even if paid less often than monthly.

(2) The following lump sum payments are not counted as income or assets:

(a) any kind of lump sum payment of excluded earned or unearned income. If the income would have been excluded, the lump sum payment is also excluded. This includes SSI payments and any EITC; and

(b) insurance settlements for destroyed exempt property when used to replace that property.

(3) The net lump sum payment is counted as income for the month it is received. Any amount remaining after the end of that month is considered an asset.

(4) The net lump sum is the portion of the lump sum that is remaining after deducting:

(a) legal fees expended in the effort to make the lump sum available;

(b) payments for past medical bills if the lump sum was intended to cover those expenses; and

(c) funeral or burial expenses, if the lump sum was intended to cover funeral or burial expenses.

(5) A lump sum paid to an SSI recipient is not counted as income or an asset except for those recipients receiving financial assistance from GA or WTE.

R986-200-238. How to Calculate Income.

(1) To determine if a client is eligible for, and the amount of, a financial assistance payment, the Department estimates the anticipated income, assets and household size for each month in the certification period.

(2) The methods used for estimating income are:

(a) income averaging or annualizing which means using a history of past income that is representative of future income and averaging it to determine anticipated future monthly income. It may be necessary to evaluate the history of past income for a full year or more; and

(b) income anticipating which means using current facts such as rate of pay and hourly wage to anticipate future monthly income when no reliable history is available.

(3) Monthly income is calculated by multiplying the average weekly income by 4.3 weeks. If a client is paid every two weeks, the income for those two weeks is multiplied by 2.15 weeks to determine monthly income.

(4) The Department's estimate of income, when based on the best available information at the time it was made, will be determined to be an accurate reflection of the client's income. If it is later determined the actual income was different than the estimate, no adjustment will be made. If the client notifies the Department of a change in circumstances affecting income, the estimated income can be adjusted prospectively but not retrospectively.

R986-200-239. How to Determine the Amount of the Financial Assistance Payment.

(1) Once the household's size and income have been determined, the gross countable income must be less than or

equal to 185% of the Standard Needs Budget (SNB) for the size of the household. This is referred to as the "gross test".

(2) If the gross countable income is less than or equal to 185% of the SNB, the following deductions are allowed:

(a) a work expense allowance of $100 for each person in the household unit who is employed;

(b) fifty percent of the remaining earned income after deducting the work expense allowance as provided in paragraph (a) of this subsection, if the individual has received a financial assistance payment from the Department for one or more of the immediately preceding four months; and

(c) after deducting the amounts in paragraphs (a) and (b) of this subsection, if appropriate, the following deductions can be made:

(i) a dependent care deduction as described in subsection (3) of this section; and

(ii) child support paid by a household member if legally owed to someone not included in the household.

(3) The amount of the dependant care deduction is set by the Department and based on the number of hours worked by the parent and the age of the dependant needing care. It can only be deducted if the dependant care:

(a) is paid for the care of a child or adult member of the household assistance unit, or a child or adult who would be a member of the household assistance unit except that this person receives SSI. An adult's need for care must be verified by a doctor; and

(b) is not subsidized, in whole or in part, by a CC payment from the Department; and

(c) is not paid to an individual who is in the household assistance unit.

(4) After deducting the amounts allowed under paragraph (2) above, the resulting net income must be less than 100% of SNB for size of the household assistance unit. If the net income is equal to or greater than the SNB, the household is not eligible.

(5) If the net income is less than 100% of the SNB the following amounts are deducted:

(a) Fifty percent of earned countable income for all employed household assistance unit members if the household was not eligible for the 50% deduction under paragraph (2)(b) above; and/or

(b) All of the earned income of all children in the household assistance unit, if not previously deducted, who are:

(i) in school or training full-time, or

(ii) in part-time education or training if they are employed less than 100 hours per month. "Part-time education or training" means enrolled for at least one-half the number of hours or periods considered by the institution to be customary to complete the course of study within the minimum time period. If no schedule is set by the school, the course of study must be no less than an average of two class periods or two hours per day, whichever is less.

(6) The resulting net countable income is compared to the full financial assistance payment for the household size. If the net countable income is more than the financial assistance payment, the household is not eligible. If it is less, the net countable income is deducted from the financial assistance payment and the household is paid the difference.

(7) The amount of the standard financial assistance payment is set by the Department. The current amount is in the table that follows:

TABLE

Household Size	Payment Amount
1	$288
2	$399
3	$498
4	$583
5	$663
6	$731

(1) Each parent eligible for financial assistance in the FEP or FEPTP programs who takes part in at least one enhanced participation activity may be eligible to receive $60 each month in addition to the standard financial assistance payment. Enhanced participation activities are limited to:

(a) work experience sites of at least 20 hours a week and other eligible activities that together total 30 hours per week;

(b) full-time attendance in an education or employment training program; or

(c) employment of 20 hours or more a week and other eligible activities that together total 30 hours per week.

(2) An additional payment of $15 per month for a pregnant woman in the third month prior to the expected month of delivery. Eligibility for the allowance begins in the month the woman provides medical proof that she is in the third month prior to the expected month of delivery. The pregnancy allowance ends at the end of the month the pregnancy ends.

(3) A limited number of funds are available to individuals for work and training expenses. The funds can only be used to alleviate circumstances which impede the individual's ability to begin or continue employment, job search, training, or education. The payment of these funds is completely discretionary by the Department. The individual does not need to meet any eligibility requirements to request or receive these funds.

(4) Limited funds are available, up to a maximum of $300, to pay for burial costs if the individual is not entitled to a burial paid for by the county.

(5) A Department Regional Director or designee may approve assistance, as funding allows, for the emergency needs of a non-resident who is transient, temporarily stranded in Utah, and who does not intend to stay in Utah.

(6) A limited number of funds are available for enhanced payments to parents who are eligible for financial assistance in the FEP program or who are eligible for TANF non-FEP training under R986-200-245 and who participate in the HS/GED Pilot Program. The payment of these funds is completely discretionary by the Department and may differ from region to region. The payments may continue until the client completes the HS/GED Pilot Program even if the client is no longer receiving FEP.

R986-200-241. Income Eligibility Calculation for a Specified Relative Who Wants to be Included in the Assistance Payment.

(1) The income calculation for a specified relative who wants to be included in the financial assistance payment is as follows:

(a) All earned and unearned countable income is counted, as determined by FEP rules, for the specified relative and his or her spouse, less the following allowable deductions:

(i) one hundred dollars for each employed person in the household. This deduction is only allowed for the specified relative and/or spouse and not anyone else in the household even if working; and

(ii) the child care expenses paid by the specified relative and necessary for employment up to the maximum allowable deduction as set by the Department.

(2) The household size is determined by counting the specified relative, his or her spouse if living in the home, and their dependent children living in the home who are not in the

household assistance unit.

(3) If the income less deductions exceeds 100% of the SNB for a household of that size, the specified relative cannot be included in the financial assistance payment. If the income is less than 100% of the SNB, the total household income is divided by the household size calculated under subsection (2) of this section. This amount is deemed available to the specified relative as countable unearned income. If that amount is less than the maximum financial assistance payment for the household assistance unit size, the specified relative may be included in the financial assistance payment.

R986-200-242. Income Calculation for a Minor Parent Living with His or Her Parent or Stepparent.

(1) All earned and unearned countable income of all parents, including stepparents living in the home, is counted when determining the eligibility of a minor parent residing in the home of the parent(s).

(2) From that income, the following deductions are allowed:

(a) one hundred dollars from income earned by each parent or stepparent living in the home, and

(b) an amount equal to 100% of the SNB for a group with the following members:

(i) the parents or stepparents living in the home;

(ii) any other person in the home who is not included in the financial assistance payment of the minor parent and who is a dependent of the parents or stepparents;

(c) amounts paid by the parents or stepparents living in the home to individuals not living at home but who could be claimed as dependents for Federal income tax purposes; and

(d) alimony and child support paid to someone outside the home by the parents or stepparents living in the home.

(3) The resulting amount is counted as unearned income to the minor parent.

(4) If a minor parent lives in a household already receiving financial assistance, the child of the minor parent is included in the larger household assistance unit.

R986-200-243. Counting the Income of Sponsors of Eligible Aliens.

(1) Certain aliens who have been legally admitted into the United States for permanent residence must have a portion of the earned and unearned countable income of their sponsors counted as unearned income in determining eligibility and financial assistance payment amounts for the alien.

(2) The following aliens are not subject to having the income of their sponsor counted:

(a) paroled or admitted into the United States as a refugee or asylee;

(b) granted political asylum;

(c) admitted as a Cuban or Haitian entrant;

(d) other conditional or paroled entrants;

(e) not sponsored or who have sponsors that are organizations or institutions;

(f) sponsored by persons who receive public assistance or SSI;

(g) permanent resident aliens who were admitted as refugees and have been in the United States for eight months or less.

(3) Except as provided in subsection (7) of this section, the income of the sponsor of an alien who applies for financial assistance after April 1, 1983 and who has been legally admitted into the United States for permanent residence must be counted for five years after the entry date into the United States. The entry date is the date the alien was admitted for permanent residence. The time spent, if any, in the United States other than as a permanent resident is not considered as part of the five year period.

(4) The amount of income deemed available for the alien is calculated by:

(a) deducting 20% from the total earned income of the sponsor and the sponsor's spouse up to a maximum of $175 per month; then,

(b) adding to that figure all of the monthly unearned countable income of the sponsor and the sponsor's spouse; then the following deductions are allowed:

(i) an amount equal to 100% of the SNB amount for the number of people living in the sponsor's household who are or could be claimed as dependents under federal income tax policy; then,

(ii) actual payments made to people not living in the sponsor's household whom the sponsor claims or could claim as dependents under federal income tax policy; then,

(iii) actual payments of alimony and/or child support the sponsor makes to individuals not living in the sponsor's household.

(c) The remaining amount is counted as unearned income against the alien whether or not the income is actually made available to the alien.

(5) Actual payments by the sponsor to aliens will be counted as income only to the extent that the payment amount exceeds the amount of the sponsor's income already determined as countable.

(6) A sponsor can be held liable for an overpayment made to a sponsored alien if the sponsor was responsible for, or signed the documents which contained, the misinformation that resulted in the overpayment. The sponsor is not held liable for an overpayment if the alien fails to give accurate information to the Department or the sponsor is deceased, in prison, or can prove the request for information was incomplete or vague.

(7) In the case where the alien entered the United States after December 19, 1997, the sponsor's income does not count if:

(a) the alien becomes a United States citizen through naturalization;

(b) the alien has worked 40 qualifying quarters as determined by Social Security Administration; or

(c) the alien or the sponsor dies.

R986-200-244. TANF Needy Family (TNF).

(2) Eligible families must have a dependent child under the age of 18 residing in the home, and the total household income must not exceed 300% of the Federal poverty level. Income is determined as gross income without allowance for disregards.

(3) Services available vary throughout the state. Information on what is available in each region is available at each Employment Center. The Department may elect to contract out services.

(4) If TANF funded payments are made for basic needs such as housing, food, clothing, shelter, or utilities, each month a payment is received under TNF, counts as one month of assistance toward the 36 month lifetime limit. Basic needs also include transportation and child care if all adults in the household are unemployed and will count toward the 36 month lifetime limit.

(5) If a member of the household has used all 36 months of FEP assistance the household is not eligible for basic needs assistance under TNF but may be eligible for other TANF funded services.

(6) Assets are not counted when determining eligibility for TNF services.

R986-200-245. TANF Non-FEP Training (TNT).

(1) TNT is to provide skills and training to parents to help

them become suitably employed and self-sufficient.

(2) The client must be unable to achieve self-sufficiency without training.

(3) Eligible families must have a dependent child under the age of 18 residing in the home and the total household income must not exceed 200% of the Federal poverty level. If the only dependent child is 18 and expected to graduate from High School before their 19th birthday the family is eligible up through the month of graduation. Income is counted and calculated the same as for WIA as found in rule R986-600.

(4) Assets are not counted when determining eligibility for TNT services.

(5) The client must show need and appropriateness of training.

(6) The client must negotiate an employment plan with the Department and participate to the maximum extent possible.

(7) The Department will not pay for supportive services such as child care, transportation or living expenses under TNT. The Department can pay for books, tools, work clothes and other needs associated with training.

The FEP or FEPTP assistance must have been terminated due to earned or earned and unearned income and not for nonparticipation under R986-200-212. (iii) the earned income exceeds the unearned income at the time the FEP or FEP TP was terminated, and

(c) continue to cooperate with the Office of Recovery Services, Child Support Enforcement.

(3) TCA is only available if the customer verifies income at the minimum required in subparagraph (2)(b) of this section.

(4) The TCA benefit is available for a maximum of three months in a 12 month period. The three months do not need to be consecutive.

(a) The assistance payment for the first two months of TCA is based on household size. All household income, earned and unearned, is disregarded.

(b) Payment for the third month is one half of the payment available in (4)(a) of this section.

(5) To receive the second and third month of the TCA benefit, the client must remain employed or have had an open FEP case that closed during the prior month due to income described in (2)(b) of this section.

(6) If initial verification is provided and a client is paid one month of TCA but the client is unable to provide documentation to support that initial verification, no further payments will be made under TCA but the one month payment will not result in an overpayment.

(7) TCA does not count toward the 36 month time limit found in R986-200-217.
