R25-7-5. Approvals.

(1) For insurance purposes, all state business travel, whether reimbursed by the state or not, must have prior approval by an appropriate authority. This also includes non-state employees where the state is paying for the travel expenses.

(2) Both in-state and out-of-state travel must be approved by the Executive Director or designee. The approval of in-state travel reimbursement forms may be considered as documentation of prior approval for in-state travel. Prior approval for out-of-state travel should be documented on form FI5 - "Request for Out-of-State Travel Authorization".

(3) Exceptions to the prior approval for out-of-state travel must be justified in the comments section of the Request for Out-of-State Travel Authorization, form FI 5, or on an attachment, and must be approved by the Department Director or the designee.

(4) The Department Director, the Executive Director, or the designee must approve all travel to out-of-state functions where more than two employees from the same department are attending the same function at the same time.

R25-7-6. Reimbursement for Meals.

(1) State employees who travel on state business may be

eligible for a meal reimbursement.

(2) The reimbursement will include tax, tips, and other expenses associated with the meal.

(3) Allowances for in-state travel differ from those for out-of-state travel.

(a) The daily travel meal allowance for in-state travel is \$39.00 and is computed according to the rates listed in the following table.

TABLE 1

In-State Travel Meal Allowances

Meals	Rate
Breakfast	\$10.00
Lunch	\$13.00
Dinner	\$16.00
Total	\$39.00

(b) The daily travel meal allowance for out-of-state travel is \$46.00 and is computed according to the rates listed in the following table.

TABLE 2

Out-of-State Travel Meal Allowances

Meals	Rate
Breakfast	\$10.00
Lunch	\$14.00
Dinner	\$22.00
Total	\$46.00

(4) When traveling to premium cities (New York, Los Angeles, Chicago, San Francisco, Washington DC, Boston, San Diego, Baltimore, and Arlington), the traveler may choose to accept the per diem rate for out-of-state travel or to be reimbursed at the actual meal cost, with original receipts, up to \$62 per day.

(a) The traveler will qualify for premium rates on the day the travel begins and/or the day the travel ends only if the trip is of sufficient duration to qualify for all meals on that day.

(b) Complimentary meals of a hotel, motel and/or association and meals included in registration costs are deducted from the \$62 premium allowance as follows:

(i) If breakfast is provided deduct \$14, leaving a premium allowance for lunch and dinner of actual up to \$48.

(ii) If lunch is provided deduct \$19, leaving a premium allowance for breakfast and dinner of actual up to \$43.

(iii) If dinner is provided deduct \$29, leaving a premium allowance for breakfast and lunch of actual up to \$33.

(c) The traveler must use the same method of reimbursement for an entire day.

(d) Actual meal cost includes tips.

(e) Alcoholic beverages are not reimbursable.

(5) When traveling in foreign countries, the traveler may choose to accept the per diem rate for out-of-state travel or to be reimbursed the actual meal cost, with original receipts, not to exceed the United States Department of State Meal and Incidental Expenses (M and IE) rate for their location.

(a) The traveler may combine the reimbursement methods during a trip; however, they must use the same method of reimbursement for an entire day.

(b) Actual meal cost includes tips.

(c) Alcoholic beverages are not reimbursable.

(6) The meal reimbursement calculation is comprised of three parts:

(a) The day the travel begins. The traveler's entitlement is determined by the time of day the traveler leaves their home base (the location the employee leaves from and/or returns to), as illustrated in the following table.

TABLE 3

The Day Travel Begins

1st Quarter a.m.	2nd Quarter a.m.	3rd Quarter p.m.	4th Quarter p.m.

(ii) Meals provided on airlines will not reduce the meal allowance.

(c) The day the travel ends. The meal reimbursement the traveler is entitled to is determined by the time of day the traveler returns to their home base, as illustrated in the following table.

*B=Breakfast, L=Lunch, D=Dinner

(7) An employee may be authorized by the Department Director or designee to receive a taxable meal allowance when the employee's destination is at least 100 miles from their home base and the employee does not stay overnight.

(a) Breakfast is paid when the employee leaves their home base before 6:00 a.m.

(b) Lunch is paid when the trip meets one of the following requirements:

(i) The employee is on an officially approved trip that warrants entitlement to breakfast and dinner.

(ii) The employee leaves their home base before 10 a.m. and returns after 2 p.m.

(iii) The Department Director provides prior written approval based on circumstances.

(c) Dinner is paid when the employee leaves their home base and returns at 7 p.m. or later.

(d) The allowance is not considered an absolute right of the employee and is authorized at the discretion of the Department Director or designee.

R25-7-7. Meals for Statutory Non-Salaried State Boards.

(1) When a board meets and conducts business activities during mealtime, the cost of meals may be charged as public expense.

(2) Where salaried employees of the State of Utah or other advisors or consultants must, of necessity, attend such a meeting in order to permit the board to carry on its business, the meals of such employees, advisors, or consultants may also be paid. In determining whether or not the presence of such employees, advisors, or consultants is necessary, the boards are requested to restrict the attendance of such employees, advisors, or consultants to those absolutely necessary at such mealtime meetings.

R25-7-8. Reimbursement for Lodging.

State employees who travel on state business may be eligible for a lodging reimbursement.

(1) For stays at a conference hotel, the state will reimburse

the actual cost plus tax for both in-state and out-of-state travel. The traveler must include the conference registration brochure with the Travel Reimbursement Request, form FI 51A or FI 51B.

(2) For in-state lodging at a non-conference hotel, the state will reimburse the actual cost up to \$65 per night for single occupancy plus tax except as noted in the table below:

(3) State employees traveling less than 50 miles from their home base are not entitled to lodging reimbursement. Miles are calculated from either the departure home-base or from the destination to the traveler's home-base. The traveler may leave from one home-base and return to a different home-base. For example, if the traveler leaves from their residence, then the home-base for departure calculations is their residence. If the traveler returns to where they normally work (ie. Cannon Health Building), then the home-base for arrival calculations is the Cannon Health Building.

(a) In some cases, agencies must use judgement to determine a traveler's home-base. The following are some things to consider when determining a traveler's home-base.

(i) Is the destination less than 50 miles from the traveler's home or normal work location? If the destination is less than 50 miles from either the traveler's home or from their normal work location, then generally the employee should not be reimbursed for lodging.

(ii) Is there a valid business reason for the traveler to go to the office (or to some other location) before driving to the destination?

(iii) Is the traveler required to work at the destination the next day?

(iv) Is the traveler going directly home after the trip, or is there a valid business reason for the traveler to first go to the office (or to some other location)?

(v) Even if "it is not specifically against policy", would the lodging be considered necessary, reasonable and in the best interest of the State?

(4) When the State of Utah pays for a person from out-of-state to travel to Utah, the in-state lodging per diem rates will apply.

(5) For out-of-state travel stays at a non-conference hotel, the state will reimburse the actual cost per night plus tax, not to exceed the federal lodging rate for the location. These reservations must be made through the State Travel Office.

(6) The state will reimburse the actual cost per night plus tax for in-state or out-of-state travel stays where the department/traveler makes reservations through the State Travel Office.

(7) Lodging is reimbursed at the rates listed in Table 5 for single occupancy only. For double state employee occupancy, add \$20, for triple state employee occupancy, add \$40, for quadruple state employee occupancy, add \$60.

(8) Exceptions will be allowed for unusual circumstances when approved in writing by the Department Director or designee prior to the trip.

(a) For out-of-state travel, the approval may be on the form FI 5.

(b) Attach the written approval to the Travel Reimbursement Request, form FI 51B or FI 51D.

(9) A proper receipt for lodging accommodations must accompany each request for reimbursement.

(a) The tissue copy of the charge receipt is not acceptable.

(b) A proper receipt is a copy of the registration form generally used by motels and hotels which includes the following information: name of motel/hotel, street address, town and state, telephone number, current date, name of person/persons staying at the motel/hotel, date(s) of occupancy, amount and date paid, signature of agent, number in the party, and (single, double, triple, or quadruple occupancy).

(10) When lodging is required, travelers should stay at the lodging facility nearest to the meeting/training/work location where state lodging per diem rates are accepted in order to minimize transportation costs.

(11) Travelers may also elect to stay with friends or relatives or use their personal campers or trailer homes instead of staying in a hotel.

(a) With proof of staying overnight away from home on approved state business, the traveler will be reimbursed the following:

(i) \$25 per night with no receipts required or

(ii) Actual cost up to \$40 per night with a signed receipt from a facility such as a campground or trailer park, not from a private residence.

(12) Travelers who are on assignment away from their home base for longer than 90 days will be reimbursed as follows:

(a) First 30 days - follow regular rules for lodging and meals. Lodging receipt is required.

(b) After 30 days - \$46 per day for lodging and meals. No receipt is required.

R25-7-9. Reimbursement for Incidentals.

State employees who travel on state business may be eligible for a reimbursement for incidental expenses.

(1) Travelers will be reimbursed for actual out-of-pocket costs for incidental items such as baggage tips and transportation costs.

(a) Tips for maid service, doormen, and meals are not reimbursable.

(b) No other gratuities will be reimbursed.

(c) Include an original receipt for each individual incidental item above \$19.99.

(2) The state will reimburse incidental ground transportation and parking expenses.

(a) Travelers shall document all official business use of taxi, bus, parking, and other ground transportation including dates, destinations, parking locations, receipts, and amounts.

(b) Personal use of such transportation to restaurants is not reimbursable.

(c) The maximum that airport parking will be reimbursed is the economy lot parking rate at the airport they are flying out of. A receipt is required for amounts of \$20 or more.

(3) Registration should be paid in advance on a state

warrant.

(a) A copy of the approved FI 5 form must be included with the Payment Voucher for out-of-state registrations.

(b) If a traveler must pay the registration when they arrive, the agency is expected to process a Payment Voucher and have the traveler take the state warrant with them.

(4) Telephone calls related to state business are reimbursed at the actual cost.

(a) The traveler shall list the amount of these calls separately on the Travel Reimbursement Request, form FI 51A or FI 51B.

(b) The traveler must provide an original lodging receipt or original personal phone bill showing the phone number called and the dollar amount for business telephone calls and personal telephone calls made during stays of five nights or more.

(5) Allowances for personal telephone calls made while out of town on state business overnight will be based on the number of nights away from home.

(a) Four nights or less - actual amount up to \$2.50 per night (documentation is not required for personal phone calls made during stays of four nights or less)

(b) Five to eleven nights - actual amount up to \$20.00

(c) Twelve nights to thirty nights - actual amount up to \$30.00

(d) More than thirty days - start over

(6) Actual laundry expenses up to \$18.00 per week will be allowed for trips in excess of six consecutive nights, beginning after the sixth night out.

(a) The traveler must provide receipts for the laundry expense.

(b) For use of coin-operated laundry facilities, the traveler must provide a list of dates, locations, and amounts.

(7) An amount of \$5 per day will be allowed for travelers away in excess of six consecutive nights beginning after the sixth night out.

(a) This amount covers miscellaneous incidentals not covered in this rule.

(b) This allowance is not available for travelers going to conferences.

(8) Travel on a Weekend during Trips of More Than 10 Nights' Duration - A department may provide for employees to return home on a weekend when a trip extends longer than ten nights. Reimbursements may be given for costs allowed by these policies.

R25-7-10. Reimbursement for Transportation.

State employees who travel on state business may be eligible for a transportation reimbursement.

(1) Air transportation is limited to Air Coach or Excursion class. Priority seating charges will not be reimbursed unless preapproved by the department director or designee.

(a) All reservations (in-state and out-of-state) should be made through the State Travel Office for the least expensive air fare available at the time reservations are made.

(b) Only one change fee per trip will be reimbursed.

(c) The explanation for the change and any other exception to this rule must be given and approved by the Department Director or designee.

(d) In order to preserve insurance coverage and because of federal security regulations, travelers must fly on tickets in their names only.

(2) Travelers may be reimbursed for mileage to and from the airport and long-term parking or away-from-the-airport parking.

(a) The maximum reimbursement for parking, whether travelers park at the airport or away from the airport, is the economy lot parking rate at the airport they are flying out of.

(b) The parking receipt must be included with the Travel

Reimbursement Request, form FI 51A or FI 51B for amounts of \$20 or more.

(c) Travelers may be reimbursed for mileage to and from the airport to allow someone to drop them off and to pick them up.

(3) Travelers may use private vehicles with approval from the Department Director or designee.

(a) Only one person in a vehicle may receive the reimbursement, regardless of the number of people in the vehicle.

(b) Reimbursement for a private vehicle will be at the rate of 38 cents per mile or 56 cents per mile if a state vehicle is not available to the employee.

(i) To determine which rate to use, the traveler must first determine if their department has an agency vehicle (long-term leased vehicle from Fleet Operations) that meets their needs and is reasonably available for the trip (does not apply to special purpose vehicles). If reasonably available, the employee should use an agency vehicle. If an agency vehicle that meets their needs is not reasonably available, the agency may approve the traveler to use either a daily pool fleet vehicle or a private vehicle. If a daily pool fleet vehicle is not reasonably available, the traveler may be reimbursed at 56 cents per mile.

(ii) If a trip is estimated to average 100 miles or more per day, the agency should approve the traveler to rent a daily pool fleet vehicle if one is reasonably available. Doing so will cost less than if the traveler takes a private vehicle. If the agency approves the traveler to take a private vehicle, the employee will be reimbursed at the lower rate of 38 cents per mile.

(c) Agencies may establish a reimbursement rate that is more restrictive than the rate established in this Section.

(d) Exceptions must be approved in writing by the Director of Finance.

(e) Mileage will be computed using Mapquest or other generally accepted map/route planning website, or from the latest official state road map and will be limited to the most economical, usually traveled routes.

(f) If the traveler uses a private vehicle on official state business and is reimbursed for mileage, parking charges may be reimbursed as an incidental expense.

(g) An approved Private Vehicle Usage Report, form FI 40, should be included with the department's payroll documentation reporting miles driven on state business during the payroll period.

(h) Departments may allow mileage reimbursement on an approved Travel Reimbursement Request, form FI 51A or FI 51B, if other costs associated with the trip are to be reimbursed at the same time.

(4) A traveler may choose to drive instead of flying if preapproved by the Department Director or designee.

(a) If the traveler drives a state-owned vehicle, the traveler may be reimbursed for meals and lodging for a reasonable amount of travel time; however, the total cost of the trip must not exceed the equivalent cost of the airline trip. The traveler may also be reimbursed for incidental expenses such as toll fees and parking fees.

(b) If the traveler drives a privately-owned vehicle, reimbursement will be at the rate of 38 cents per mile or the airplane fare, whichever is less, unless otherwise approved by the Department Director or designee.

(i) The lowest fare available within 30 days prior to the departure date will be used when calculating the cost of travel for comparison to private vehicle cost.

(ii) An itinerary printout which is available through the State Travel Office is required when the traveler is taking a private vehicle.

(iii) The traveler may be reimbursed for meals and lodging for a reasonable amount of travel time; however, the total cost of the trip must not exceed the equivalent cost of an airline trip.

(iv) If the traveler uses a private vehicle on official state business and is reimbursed for mileage, parking charges may be reimbursed as an incidental expense.

(c) When submitting the reimbursement form, attach a schedule comparing the cost of driving with the cost of flying. The schedule should show that the total cost of the trip driving was less than or equal to the total cost of the trip flying.

(d) If the travel time taken for driving during the employee's normal work week is greater than that which would have occurred had the employee flown, the excess time used will be taken as annual leave and deducted on the Time and Attendance System.

(5) Use of rental vehicles must be approved in writing in advance by the Department Director or designee.

(a) An exception to advance approval of the use of rental vehicles shall be fully explained in writing with the request for reimbursement and approved by the Department Director or designee.

(b) Detailed explanation is required if a rental vehicle is requested for a traveler staying at a conference hotel.

(c) When making rental car arrangements through the State Travel Office, reserve the vehicle you need. Upgrades in size or model made when picking up the rental vehicle will not be reimbursed.

(i) State employees should rent vehicles to be used for state business in their own names, using the state contract so they will have full coverage under the state's liability insurance.

(ii) Rental vehicle reservations not made through the State Travel Office must be approved in advance by the Department Director or designee.

(iii) The traveler will be reimbursed the actual rate charged by the rental agency.

(iv) The traveler must have approval for a rental car in order to be reimbursed for rental car parking.

(6) Travel by private airplane must be approved in advance by the Department Director or designee.

(a) The pilot must certify to the Department Director or designee that the pilot is certified to fly the plane being used for state business.

(b) If the plane is owned by the pilot/employee, the pilot must certify the existence of at least \$500,000 of liability insurance coverage.

(c) If the plane is a rental, the pilot must provide written certification from the rental agency that the insurance covers the traveler and the state as insured. The insurance must be adequate to cover any physical damage to the plane and at least \$500,000 for liability coverage.

(d) Reimbursement will be made at 56 cents per mile.

(e) Mileage calculation is based on air mileage and is limited to the most economical, usually-traveled route.

(7) Travel by private motorcycle must be approved prior to the trip by the Department Director or designee. Travel will be reimbursed at 20 cents per mile.

(8) A car allowance may be allowed in lieu of mileage reimbursement in certain cases. Prior written approval from the Department Director, the Executive Director of the Department of Administrative Services, and the Governor is required.

(1) The purpose of this rule is to prescribe the requirements for the issuance of specific licenses.

(2) The rules set forth herein are adopted pursuant to the provisions of Subsections 19-3-104(4) and 19-3-104(8).

R313-22-2. General.

The provisions and requirements of Rule R313-22 are in addition to, and not in substitution for, other requirements of these rules. In particular the provisions of Rule R313-19 apply to applications and licenses subject to Rule R313-22.

R313-22-4. Definitions.

"Alert" means events may occur, are in progress, or have occurred that could lead to a release of radioactive material but that the release is not expected to require a response by off-site response organizations to protect persons off-site.

"Nationally tracked source" is a sealed source containing a quantity equal to or greater than Category 1 or Category 2 levels of any radioactive material listed in Appendix E of 10 CFR 20.1001 to 20.2402 (2010), which is incorporated by reference. In this context a sealed source is defined as radioactive material that is sealed in a capsule or closely bonded, in a solid form and which is not exempt from regulatory control. It does not mean material encapsulated solely for disposal, or nuclear material contained in any fuel assembly, subassembly, fuel rod, or fuel pellet. Category 1 nationally tracked sources are those containing radioactive material at a quantity equal to or greater than the Category 1 threshold. Category 2 nationally tracked sources are those containing radioactive material at a quantity equal to or greater than the Category 2 threshold but less than the Category 1 threshold.

"Principal activities" means activities authorized by the license which are essential to achieving the purpose(s) for which the license was issued or amended. Storage during which no licensed material is accessed for use or disposal and activities incidental to decontamination or decommissioning are not principal activities.

"Site Area Emergency" means events may occur, are in progress, or have occurred that could lead to a significant release of radioactive material and that could require a response by off-site response organizations to protect persons off-site.

R313-22-30. Specific License by Rule.

A license by rule is issued in the following circumstances, without the necessity of filing an application for a specific license as required by Subsection R313-22-32(1), and the licensee shall be subject to the applicable provisions of Sections R313-22-33, R313-22-34, R313-22-35, R313-22-36 and R313-22-37:

(1) When a site must be timely remediated of contamination by radioactive materials that are subject to licensing under these rules but are unlicensed;

(2) When radioactive materials existing as a result of improper handling, spillage, accidental contamination, or unregulated or illegal possession, transfer, or receipt, must be stored and those materials have not been licensed under these rules.

R313-22-32. Filing Application for Specific Licenses.

(1) Applications for specific licenses shall be filed on a form prescribed by the Director.

(2) The Director may, after the filing of the original application, and before the expiration of the license, require further statements in order to enable the Director to determine whether the application should be granted or denied or whether a license should be modified or revoked.

(3) Applications shall be signed by the applicant or licensee or a person duly authorized to act for and on the applicant's behalf.

(4) An application for a license may include a request for a license authorizing one or more activities.

(5) In the application, the applicant may incorporate by reference information contained in previous applications, statements, or reports filed with the Director, provided the references are clear and specific.

(6) An application for a specific license to use radioactive material in the form of a sealed source or in a device that contains the sealed source shall identify the source or device by manufacturer and model number as registered with the U.S. Nuclear Regulatory Commission under 10 CFR 32.210 (2010), the equivalent regulations of an Agreement State, or with a State under provisions comparable to 10 CFR 32.210.

(7) As provided by Section R313-22-35, certain applications for specific licenses filed under these rules shall contain a proposed decommissioning funding plan or a certification of financial assurance for decommissioning. In the case of renewal applications submitted before January 1, 1995, this submittal may follow the renewal application but shall be submitted on or before January 1, 1995.

(8)(a) Applications to possess radioactive materials in unsealed form, on foils or plated sources, or sealed in glass in excess of the quantities in Section R313-22-90, "Quantities of Radioactive Materials Requiring Consideration of the Need for an Emergency Plan for Responding to a Release", shall contain either:

(i) An evaluation showing that the maximum dose to a individual off-site due to a release of radioactive materials would not exceed one rem effective dose equivalent or five rems to the thyroid; or

(ii) An emergency plan for responding to a release of radioactive material.

(b) One or more of the following factors may be used to support an evaluation submitted under Subsection R313-22-32(8)(a)(i):

(i) The radioactive material is physically separated so that only a portion could be involved in an accident;

(ii) All or part of the radioactive material is not subject to release during an accident because of the way it is stored or packaged;

(iii) The release fraction in the respirable size range would be lower than the release fraction shown in Section R313-22-90 due to the chemical or physical form of the material;

(iv) The solubility of the radioactive material would reduce the dose received;

(v) Facility design or engineered safety features in the facility would cause the release fraction to be lower than shown in Section R313-22-90;

(vi) Operating restrictions or procedures would prevent a release fraction as large as that shown in Section R313-22-90; or

(vii) Other factors appropriate for the specific facility.

(c) An emergency plan for responding to a release of radioactive material submitted under Subsection R313-22-32(8)(a)(ii) shall include the following information:

(ii) Types of accidents. An identification of each type of radioactive materials accident for which protective actions may be needed.

(iii) Classification of accidents. A classification system for classifying accidents as alerts or site area emergencies.

(iv) Detection of accidents. Identification of the means of detecting each type of accident in a timely manner.

(v) Mitigation of consequences. A brief description of the means and equipment for mitigating the consequences of each

type of accident, including those provided to protect workers on-site, and a description of the program for maintaining equipment.

(vi) Assessment of releases. A brief description of the methods and equipment to assess releases of radioactive materials.

(vii) Responsibilities. A brief description of the responsibilities of licensee personnel should an accident occur, including identification of personnel responsible for promptly notifying off-site response organizations and the Director; also responsibilities for developing, maintaining, and updating the plan.

(viii) Notification and coordination. A commitment to and a brief description of the means to promptly notify off-site response organizations and request off-site assistance, including medical assistance for the treatment of contaminated injured on-site workers when appropriate. A control point shall be established. The notification and coordination shall be planned so that unavailability of some personnel, parts of the facility, and some equipment will not prevent the notification and coordination. The licensee shall also commit to notify the Director immediately after notification of the appropriate off-site response organizations and not later than one hour after the licensee declares an emergency.

NOTE: These reporting requirements do not supersede or release licensees of complying with the requirements under the Emergency Planning and Community Right-to-Know Act of 1986, Title III, Public Law 99-499 or other state or federal reporting requirements, including 40 CFR 302, 2010.

(ix) Information to be communicated. A brief description of the types of information on facility status, radioactive releases, and recommended protective actions, if necessary, to be given to off-site response organizations and to the Director.

(x) Training. A brief description of the frequency, performance objectives and plans for the training that the licensee will provide workers on how to respond to an emergency including special instructions and orientation tours the licensee would offer to fire, police, medical and other emergency personnel. The training shall familiarize personnel with site-specific emergency procedures. Also, the training shall thoroughly prepare site personnel for their responsibilities in the event of accident scenarios postulated as most probable for the specific site including the use of team training for the scenarios.

(xi) Safe shutdown. A brief description of the means of restoring the facility to a safe condition after an accident.

(xii) Exercises. Provisions for conducting quarterly communications checks with off-site response organizations and biennial on-site exercises to test response to simulated emergencies. Quarterly communications checks with off-site response organizations shall include the check and update of all necessary telephone numbers. The licensee shall invite off-site response organizations to participate in the biennial exercises. Participation of off-site response organizations in biennial exercises although recommended is not required. Exercises shall use accident scenarios postulated as most probable for the specific site and the scenarios shall not be known to most exercise participants. The licensee shall critique each exercise using individuals not having direct implementation responsibility for the plan. Critiques of exercises shall evaluate the appropriateness of the plan, emergency procedures, facilities, equipment, training of personnel, and overall effectiveness of the response. Deficiencies found by the critiques shall be corrected.

(xiii) Hazardous chemicals. A certification that the applicant has met its responsibilities under the Emergency Planning and Community Right-to-Know Act of 1986, Title III, Public Law 99-499, if applicable to the applicant's activities at the proposed place of use of the radioactive material.

(d) The licensee shall allow the off-site response

organizations expected to respond in case of an accident 60 days to comment on the licensee's emergency plan before submitting it to the Director. The licensee shall provide any comments received within the 60 days to the Director with the emergency plan.

(9) An application from a medical facility, educational institution, or Federal facility to produce Positron Emission Tomography (PET) radioactive drugs for non-commercial transfer to licensees in its consortium authorized for medical use under Rule R313-32 shall include:

(a) A request for authorization for the production of PET radionuclides or evidence of an existing license issued pursuant to 10 CFR Part 30 or equivalent Agreement State requirements for a PET radionuclide production facility within its consortium from which it receives PET radionuclides.

(b) Evidence that the applicant is qualified to produce radioactive drugs for medical use by meeting one of the criteria in Subsection R313-22-75(9)(a)(ii).

(c) Identification of the individual(s) authorized to prepare the PET radioactive drugs if the applicant is a pharmacy, and documentation that each individual meets the requirements of an authorized nuclear pharmacist as specified in Rule R313-32.

(d) Information identified in Subsection R313-22-75(9)(a)(iii) on the PET drugs to be noncommercially transferred to members of its consortium.

R313-22-33. General Requirements for the Issuance of Specific Licenses.

(1) A license application shall be approved if the Director determines that:

(a) the applicant and all personnel who will be handling the radioactive material are qualified by reason of training and experience to use the material in question for the purpose requested in accordance with these rules in a manner as to minimize danger to public health and safety or the environment;

(b) the applicant's proposed equipment, facilities, and procedures are adequate to minimize danger to public health and safety or the environment;

(c) the applicant's facilities are permanently located in Utah, otherwise the applicant shall seek reciprocal recognition as required by Section R313-19-30;

(d) the issuance of the license will not be inimical to the health and safety of the public;

(e) the applicant satisfies applicable special requirements in Sections R313-22-50 and R313-22-75, and Rules R313-24, R313-25, R313-32, R313-34, R313-36, or R313-38; and

(f) in the case of an application for a license to receive and possess radioactive material for commercial waste disposal by land burial, or for the conduct of other activities which the Director determines will significantly affect the quality of the environment, the Director, before commencement of construction of the plant or facility in which the activity will be conducted, has concluded, after weighing the environmental, economic, technical and other benefits against environmental costs and considering available alternatives, that the action called for is the issuance of the proposed license, with any appropriate conditions to protect environmental values. The Director shall respond to the application within 60 days. Commencement of construction prior to a response and conclusion shall be grounds for denial of a license to receive and possess radioactive material in the plant or facility. As used in this paragraph the term "commencement of construction" means clearing of land, excavation, or other substantial action that would adversely affect the environment of a site. The term does not mean site exploration, necessary borings to determine foundation conditions, or other preconstruction monitoring or testing to establish background information related to the suitability of the site or the protection of environmental values.

R313-22-34. Issuance of Specific Licenses.

(1) Upon a determination that an application meets the requirements of the Act and the rules of the Board, the Director will issue a specific license authorizing the proposed activity in a form and containing conditions and limitations as the Director deems appropriate or necessary.

(a) Specific licenses for a new license application shall have an expiration date five years from the end of the month in which it is issued.

(b) Specific licenses for a renewed license shall expire ten years after the expiration date of the previous version of the license.

(c) Notwithstanding R313-22-34(1)(b), if during the review of the license renewal application, the Director determines issues that need to be reassessed sooner than the ten year renewal interval, the Director may shorten the renewal interval on a case by case basis. Examples of issues that may result in a shortened renewal interval includes new technologies, new company management, poor regulatory compliance, or other situations that would warrant increased attention.

(2) The Director may incorporate in licenses at the time of issuance, additional requirements and conditions with respect to the licensee's receipt, possession, use and transfer of radioactive material subject to Rule R313-22 as the Director deems appropriate or necessary in order to:

(a) minimize danger to public health and safety or the environment;

(b) require reports and the keeping of records, and to provide for inspections of activities under the license as may be appropriate or necessary; and

(c) prevent loss or theft of material subject to Rule R313-22.

R313-22-35. Financial Assurance and Recordkeeping for Decommissioning.

(1)(a) Applicants for a specific license authorizing the possession and use of unsealed radioactive material of half-life greater than 120 days and in quantities exceeding 10^5 times the applicable quantities set forth in Appendix B of 10 CFR 30.1 through 30.72, 2010, which is incorporated by reference, shall submit a decommissioning funding plan as described in Subsection R313-22-35(5). The decommissioning funding plan shall also be submitted when a combination of radionuclides is involved if R divided by 10^5 is greater than one, where R is defined here as the sum of the ratios of the quantity of each radionuclide to the applicable value in Appendix B of 10 CFR 30.1 through 30.72, 2010, which is incorporated by reference.

(b) Holders of, or applicants for, a specific license authorizing the possession and use of sealed sources or plated foils of half-life greater than 120 days and in quantities exceeding 10^{12} times the applicable quantities set forth in Appendix B of 10 CFR 30.1 through 30.72, 2010, which is incorporated by reference, or when a combination of isotopes is involved if R , as defined in Subsection R313-22-35(1)(a), divided by 10^{12} is greater than one, shall submit a decommissioning funding plan as described in Subsection R313-22-35(5).

(c) Applicants for a specific license authorizing the possession and use of more than 100 mCi of source material in a readily dispersible form shall submit a decommissioning funding plan as described in Subsection R313-22-35(5).

(2) Applicants for a specific license authorizing possession and use of radioactive material of half-life greater than 120 days and in quantities specified in Subsection R313-22-35(4), or authorizing the possession and use of source material greater than 10 mCi but less than or equal to 100 mCi in a readily dispersible form shall either:

(a) submit a decommissioning funding plan as described in Subsection R313-22-35(5); or

(b) submit a certification that financial assurance for decommissioning has been provided in the amount prescribed by Subsection R313-22-35(4) using one of the methods described in Subsection R313-22-35(6). Applicants for a specific license authorizing the possession and use of source material in a readily dispersible form shall submit a certification that financial assurance for decommissioning has been provided in the amount of \$225,000 by October 20, 2007. For an applicant subject to this subsection, this certification may state that the appropriate assurance will be obtained after the application has been approved and the license issued but before the receipt of licensed material. If the applicant defers execution of the financial instrument until after the license has been issued, a signed original of the financial instrument obtained to satisfy the requirements of Subsection R313-22-35(6) shall be submitted to the Director before receipt of licensed material. If the applicant does not defer execution of the financial instrument, the applicant shall submit to the Director, as part of the certification, a signed original of the financial instrument obtained to satisfy the requirements in Subsection R313-22-35(6).

(3)(a) Holders of a specific license issued on or after October 20, 2006, which is of a type described in Subsections R313-22-35(1) or (2), shall provide financial assurance for decommissioning in accordance with the criteria set forth in Section R313-22-35.

(b) Holders of a specific license issued before October 20, 2006, and of a type described in Subsection R313-22-35(1), shall submit by October 20, 2007, a decommissioning funding plan as described in Subsection R313-22-35(5) or a certification of financial assurance for decommissioning in an amount at least equal to \$1,125,000 in accordance with the criteria set forth in Section R313-22-35. If the licensee submits the certification of financial assurance rather than a decommissioning funding plan, the licensee shall include a decommissioning funding plan in any application for license renewal.

(c) Holders of a specific license issued before October 20, 2006, and of a type described in Subsection R313-22-35(2), shall submit by October 20, 2007, a decommissioning funding plan as described in Subsection R313-22-35(5) or a certification of financial assurance for decommissioning in accordance with the criteria set forth in Section R313-22-35.

(d) A licensee who has submitted an application before October 20, 2006, for renewal of license in accordance with Section R313-22-37, shall provide financial assurance for decommissioning in accordance with Subsections R313-22-35(1) and (2).

(e) Waste collectors and waste processors, as defined in Appendix G of 10 CFR 20.1001 to 20.2402, 2010, which is incorporated by reference, shall provide financial assurance in an amount based on a decommissioning funding plan as described in Subsection R313-22-35(5). The decommissioning funding plan shall include the cost of disposal of the maximum amount (curies) of radioactive material permitted by the license, and the cost of disposal of the maximum quantity, by volume, of radioactive material which could be present at the licensee's facility at any time, in addition to the cost to remediate the licensee's site to meet the license termination criteria of Rule R313-15.

(f) Holders of a specific license issued prior to October 20, 2006, which is of a type described in Subsections R313-22-35(1), (2), or (3)(g), shall submit a decommissioning funding plan to the Director on or before October 20, 2007. Holders of a specific license issued on or after October 20, 2006, which is of a type described in Subsections R313-22-35(1), (2), or (3)(g), shall submit a decommissioning funding plan to the Director as a part of the license application.

(g) Applicants for a specific license authorizing the

possession and use of radioactive materials in sufficient quantities that require financial assurance and recordkeeping for decommissioning under Section R313-22-35 shall assure that all documents submitted to the Director for the purpose of demonstrating compliance with financial assurance and recordkeeping requirements meet the applicable criteria contained in the Nuclear Regulatory Commission's document NUREG-1757, Volume 3, "Consolidated NMSS Decommissioning Guidance: Financial Assurance, Recordkeeping, and Timeliness" (9/2003).

(h) Documents provided to the Director under Subsection R313-22-35(3)(g) shall provide that legal remedies be sought in a court of appropriate jurisdiction within Utah.

(4) Table of required amounts of financial assurance for decommissioning by quantity of material. Licensees required to submit an amount of financial assurance listed in this table must do so during a license application or as part of an amendment to an existing license. Licensees having possession limits exceeding the upper bounds of this table must base financial assurance on a decommissioning funding plan.

(5) A decommissioning funding plan shall contain a cost estimate for decommissioning and a description of the method of assuring funds for decommissioning from Subsection R313-22-35(6), including means for adjusting cost estimates and associated funding levels periodically over the life of the facility. Cost estimates shall be adjusted at intervals not to exceed 3 years. The decommissioning funding plan shall also contain a certification by the licensee that financial assurance for decommissioning has been provided in the amount of the cost estimate for decommissioning and a signed original of the financial instrument obtained to satisfy the requirements of Subsection R313-22-35(6).

(6) Financial assurance for decommissioning shall be provided by one or more of the following methods:

(a) Prepayment. Prepayment is the deposit prior to the start of operation into an account segregated from licensee assets and outside the licensee's administrative control of cash or liquid assets so that the amount of funds would be sufficient to pay decommissioning costs. Prepayment may be in the form of a trust, escrow account, government fund, certificate of deposit,

or deposit of government securities;

(b) A surety method, insurance, or other guarantee method. These methods shall guarantee that decommissioning costs will be paid. A surety method may be in the form of a surety bond, letter of credit, or line of credit. A parent company guarantee of funds for decommissioning costs based on a financial test may be used if the guarantee and test are as contained in Subsection R313-22-35(8). A parent company guarantee may not be used in combination with other financial methods to satisfy the requirements of Section R313-22-35. A guarantee of funds by the applicant or licensee for decommissioning costs based on a financial test may be used if the guarantee and test are as contained in Subsection R313-22-35(9). A guarantee by the applicant or licensee may not be used in combination with any other financial methods to satisfy the requirements of Section R313-22-35 or in any situation where the applicant or licensee has a parent company holding majority control of the voting stock of the company. A surety method or insurance used to provide financial assurance for decommissioning shall contain the following conditions:

(i) the surety method or insurance shall be open-ended or, if written for a specified term, such as five years, shall be renewed automatically unless 90 days or more prior to the renewal date the issuer notifies the Director, the beneficiary, and the licensee of its intention not to renew. The surety method or insurance shall also provide that the full face amount be paid to the beneficiary automatically prior to the expiration without proof of forfeiture if the licensee fails to provide a replacement acceptable to the Director within 30 days after receipt of notification of cancellation.

(ii) the surety method or insurance shall be payable to a trust established for decommissioning costs. The trustee and trust shall be acceptable to the Director. An acceptable trustee includes an appropriate state or federal government agency or an entity which has the authority to act as a trustee and whose trust operations are regulated and examined by a Federal or State agency, and

(iii) the surety method or insurance shall remain in effect until the Director has terminated the license;

(c) An external sinking fund in which deposits are made at least annually, coupled with a surety method or insurance, the value of which may decrease by the amount being accumulated in the sinking fund. An external sinking fund is a fund established and maintained by setting aside funds periodically in an account segregated from licensee assets and outside the licensee's administrative control in which the total amount of funds would be sufficient to pay decommissioning costs at the time termination of operation is expected. An external sinking fund may be in the form of a trust, escrow account, government fund, certificate of deposit, or deposit of government securities. The surety or insurance provisions shall be as stated in Subsection R313-22-35(6)(b);

(d) In the case of Federal, State or local government licensees, a statement of intent containing a cost estimate for decommissioning or an amount based on the Table in Subsection R313-22-35(4) and indicating that funds for decommissioning will be obtained when necessary; or

(e) When a governmental entity is assuming custody and ownership of a site, an arrangement that is deemed acceptable by such governmental entity.

(7) Persons licensed under Rule R313-22 shall keep records of information important to the decommissioning of a facility in an identified location until the site is released for unrestricted use. Before licensed activities are transferred or assigned in accordance with Subsection R313-19-34(2), licensees shall transfer all records described in Subsections R313-22-35(7)(a) through (d) to the new licensee. In this case, the new licensee will be responsible for maintaining these records until the license is terminated. If records important to

the decommissioning of a facility are kept for other purposes, reference to these records and their locations may be used. Information the Director considers important to decommissioning consists of the following:

(a) records of spills or other unusual occurrences involving the spread of contamination in and around the facility, equipment, or site. These records may be limited to instances when contamination remains after any cleanup procedures or when there is reasonable likelihood that contaminants may have spread to inaccessible areas as in the case of possible seepage into porous materials such as concrete. These records shall include any known information on identification of involved nuclides, quantities, forms, and concentrations;

(b) as-built drawings and modification of structures and equipment in restricted areas where radioactive materials are used or stored, and of locations of possible inaccessible contamination such as buried pipes which may be subject to contamination. If required drawings are referenced, each relevant document need not be indexed individually. If drawings are not available, the licensee shall substitute appropriate records of available information concerning these areas and locations;

(c) except for areas containing only sealed sources, provided the sources have not leaked or no contamination remains after a leak, or radioactive materials having only half-lives of less than 65 days, a list contained in a single document and updated every two years, including all of the following:

(i) all areas designated and formerly designated as restricted areas as defined under Section R313-12-3;

(ii) all areas outside of restricted areas that require documentation under Subsection R313-22-35(7)(a);

(iii) all areas outside of restricted areas where current and previous wastes have been buried as documented under Section R313-15-1109; and

(iv) all areas outside of restricted areas which contain material such that, if the license expired, the licensee would be required to either decontaminate the area to meet the criteria for decommissioning in Sections R313-15-401 through R313-15-406, or apply for approval for disposal under Section R313-15-1002; and

(d) records of the cost estimate performed for the decommissioning funding plan or of the amount certified for decommissioning, and records of the funding method used for assuring funds if either a funding plan or certification is used.

(8) Criteria relating to use of financial tests and parent company guarantees for providing reasonable assurance of funds for decommissioning.

(a) To pass the financial test referred to in Subsection R313-22-35(6)(b), the parent company shall meet one of the following criteria:

(i) The parent company shall have all of the following:

(A) Two of the following three ratios: a ratio of total liabilities to net worth less than 2.0; a ratio of the sum of net income plus depreciation, depletion, and amortization to total liabilities greater than 0.1; and a ratio of current assets to total liabilities greater than 1.5;

(B) Net working capital and tangible net worth each at least six times the current decommissioning cost estimates, or prescribed amount if a certification is used;

(C) Tangible net worth of at least \$10 million; and

(D) Assets located in the United States amounting to at least 90 percent of total assets or at least six times the current decommissioning cost estimates, or prescribed amount if a certification is used; or

decommissioning cost estimate, or prescribed amount if a certification is used;

(C) Tangible net worth of at least \$10 million; and

(D) Assets located in the United States amounting to at least 90 percent of total assets or at least six times the current decommissioning cost estimates, or prescribed amount if certification is used.

(b) The parent company's independent certified public accountant shall have compared the data used by the parent company in the financial test, which is derived from the independently audited, year end financial statements for the latest fiscal year, with the amounts in such financial statement. In connection with that procedure the licensee shall inform the Director within 90 days of any matters coming to the auditor's attention which cause the auditor to believe that the data specified in the financial test should be adjusted and that the company no longer passes the test.

(c)(i) After the initial financial test, the parent company shall repeat the passage of the test within 90 days after the close of each succeeding fiscal year.

(ii) If the parent company no longer meets the requirements of Subsection R313-22-35(8)(a) the licensee shall send notice to the Director of intent to establish alternative financial assurance as specified in Section R313-22-35. The notice shall be sent by certified mail within 90 days after the end of the fiscal year for which the year end financial data show that the parent company no longer meets the financial test requirements. The licensee shall provide alternate financial assurance within 120 days after the end of such fiscal year.

(d) The terms of a parent company guarantee which an applicant or licensee obtains shall provide that:

(i) The parent company guarantee will remain in force unless the guarantor sends notice of cancellation by certified mail to the licensee and the Director. Cancellation may not occur, however, during the 120 days beginning on the date of receipt of the notice of cancellation by both the licensee and the Director, as evidenced by the return receipts.

(ii) If the licensee fails to provide alternate financial assurance as specified in Section R313-22-35 within 90 days after receipt by the licensee and Director of a notice of cancellation of the parent company guarantee from the guarantor, the guarantor will provide such alternative financial assurance in the name of the licensee.

(iii) The parent company guarantee and financial test provisions shall remain in effect until the Director has terminated the license.

(iv) If a trust is established for decommissioning costs, the trustee and trust shall be acceptable to the Director. An acceptable trustee includes an appropriate State or Federal Government agency or an entity which has the authority to act as a trustee and whose trust operations are regulated and examined by a Federal or State agency.

(9) Criteria relating to use of financial tests and self guarantees for providing reasonable assurance of funds for decommissioning.

(a) To pass the financial test referred to in Subsection R313-22-35(6)(b), a company shall meet all of the following criteria:

(i) Tangible net worth at least ten times the total current decommissioning cost estimate, or the current amount required if certification is used, for all decommissioning activities for which the company is responsible as self-guaranteeing licensee and as parent-guarantor;

(ii) Assets located in the United States amounting to at least 90 percent of total assets or at least ten times the total current decommissioning cost estimate, or the current amount required if certification is used, for all decommissioning activities for which the company is responsible as self-guaranteeing licensee and as parent-guarantor; and

(iii) A current rating for its most recent bond issuance of AAA, AA, or A as issued by Standard and Poor's, or Aaa, Aa, or A as issued by Moody's.

(b) To pass the financial test, a company shall meet all of the following additional requirements:

(i) The company shall have at least one class of equity securities registered under the Securities Exchange Act of 1934;

(ii) The company's independent certified public accountant shall have compared the data used by the company in the financial test which is derived from the independently audited, yearend financial statements for the latest fiscal year, with the amounts in such financial statement. In connection with that procedure, the licensee shall inform the Director within 90 days of any matters coming to the attention of the auditor that cause the auditor to believe that the data specified in the financial test should be adjusted and that the company no longer passes the test; and

(iii) After the initial financial test, the company shall repeat passage of the test within 90 days after the close of each succeeding fiscal year.

(c) If the licensee no longer meets the requirements of Subsection R313-22-35(9)(a), the licensee shall send immediate notice to the Director of its intent to establish alternate financial assurance as specified in Section R313-22-35 within 120 days of such notice.

(d) The terms of a self-guarantee which an applicant or licensee furnishes shall provide that:

(i) The guarantee will remain in force unless the licensee sends notice of cancellation by certified mail to the Director. Cancellation may not occur, however, during the 120 days beginning on the date of receipt of the notice of cancellation by the Director, as evidenced by the return receipt.

(ii) The licensee shall provide alternative financial assurance as specified in Section R313-22-35 within 90 days following receipt by the Director of a notice of a cancellation of the guarantee.

(iii) The guarantee and financial test provisions shall remain in effect until the Director has terminated the license or until another financial assurance method acceptable to the Director has been put in effect by the licensee.

(iv) The licensee shall promptly forward to the Director and the licensee's independent auditor all reports covering the latest fiscal year filed by the licensee with the Securities and Exchange Commission pursuant to the requirements of section 13 of the Securities and Exchange Act of 1934.

(v) If, at any time, the licensee's most recent bond issuance ceases to be rated in a category of "A" or above by either Standard and Poor's or Moody's, the licensee shall provide notice in writing of such fact to the Director within 20 days after publication of the change by the rating service. If the licensee's most recent bond issuance ceases to be rated in any category of A or above by both Standard and Poor's and Moody's, the licensee no longer meets the requirements of Subsection R313-22-35(9)(a).

(vi) The applicant or licensee shall provide to the Director a written guarantee, a written commitment by a corporate officer, which states that the licensee will fund and carry out the required decommissioning activities or, upon issuance of an order by the Director, the licensee shall set up and fund a trust in the amount of the current cost estimates for decommissioning.

R313-22-36. Expiration and Termination of Licenses and Decommissioning of Sites and Separate Buildings or Outdoor Areas.

(1) A specific license expires at the end of the day on the expiration date stated in the license unless the licensee has filed an application for renewal under Section R313-22-37 no less than 30 days before the expiration date stated in the existing license. If an application for renewal has been filed at least 30

days prior to the expiration date stated in the existing license, the existing license expires at the end of the day on which the Director makes a final determination to deny the renewal application or, if the determination states an expiration date, the expiration date stated in the determination.

(2) A specific license revoked by the Director expires at the end of the day on the date of the Director's final determination to revoke the license, or on the expiration date stated in the determination, or as otherwise provided by an Order issued by the Director.

(3) A specific license continues in effect, beyond the expiration date if necessary, with respect to possession of radioactive material until the Director notifies the licensee in writing that the license is terminated. During this time, the licensee shall:

(a) limit actions involving radioactive material to those related to decommissioning; and

(b) continue to control entry to restricted areas until they are suitable for release so that there is not an undue hazard to public health and safety or the environment.

(4) Within 60 days of the occurrence of any of the following, a licensee shall provide notification to the Director in writing of such occurrence, and either begin decommissioning its site, or any separate building or outdoor area that contains residual radioactivity so that the building or outdoor area is suitable for release so that there is not an undue hazard to public health and safety or the environment, or submit within 12 months of notification a decommissioning plan, if required by Subsection R313-22-36(7), and begin decommissioning upon approval of that plan if:

(a) the license has expired pursuant to Subsections R313-22-36(1) or (2); or

(b) the licensee has decided to permanently cease principal activities at the entire site or in any separate building or outdoor area that contains residual radioactivity such that the building or outdoor area is unsuitable for release because of an undue hazard to public health and safety or the environment; or

(c) no principal activities under the license have been conducted for a period of 24 months; or

(d) no principal activities have been conducted for a period of 24 months in any separate building or outdoor area that contains residual radioactivity such that the building or outdoor area is unsuitable for release because of an undue hazard to public health and safety or the environment.

(5) Coincident with the notification required by Subsection R313-22-36(4), the licensee shall maintain in effect all decommissioning financial assurances established by the licensee pursuant to Section R313-22-35 in conjunction with a license issuance or renewal or as required by Section R313-22-36. The amount of the financial assurance must be increased, or may be decreased, as appropriate, to cover the detailed cost estimate for decommissioning established pursuant to Subsection R313-22-36(7)(d)(v).

(a) A licensee who has not provided financial assurance to cover the detailed cost estimate submitted with the decommissioning plan shall do so on or before August 15, 1997.

(b) Following approval of the decommissioning plan, a licensee may reduce the amount of the financial assurance as decommissioning proceeds and radiological contamination is reduced at the site with the approval of the Director.

(6) The Director may grant a request to extend the time periods established in Subsection R313-22-36(4) if the Director determines that this relief is not detrimental to the public health and safety and is otherwise in the public interest. The request must be submitted no later than 30 days before notification pursuant to Subsection R313-22-36(4). The schedule for decommissioning set forth in Subsection R313-22-36(4) may not commence until the Director has made a determination on the request.

(7)(a) A decommissioning plan shall be submitted if required by license condition or if the procedures and activities necessary to carry out decommissioning of the site or separate building or outdoor area have not been previously approved by the Director and these procedures could increase potential health and safety impacts to workers or to the public, such as in any of the following cases:

(i) procedures would involve techniques not applied routinely during cleanup or maintenance operations;

(ii) workers would be entering areas not normally occupied where surface contamination and radiation levels are significantly higher than routinely encountered during operation;

(iii) procedures could result in significantly greater airborne concentrations of radioactive materials than are present during operation; or

(iv) procedures could result in significantly greater releases of radioactive material to the environment than those associated with operation.

(b) The Director may approve an alternate schedule for submittal of a decommissioning plan required pursuant to Subsection R313-22-36(4) if the Director determines that the alternative schedule is necessary to the effective conduct of decommissioning operations and presents no undue risk from radiation to the public health and safety and is otherwise in the public interest.

(c) Procedures such as those listed in Subsection R313-22-36(7)(a) with potential health and safety impacts may not be carried out prior to approval of the decommissioning plan.

(d) The proposed decommissioning plan for the site or separate building or outdoor area must include:

(i) a description of the conditions of the site or separate building or outdoor area sufficient to evaluate the acceptability of the plan;

(ii) a description of planned decommissioning activities;

(iii) a description of methods used to ensure protection of workers and the environment against radiation hazards during decommissioning;

(iv) a description of the planned final radiation survey; and

(v) an updated detailed cost estimate for decommissioning, comparison of that estimate with present funds set aside for decommissioning, and a plan for assuring the availability of adequate funds for completion of decommissioning.

(vi) For decommissioning plans calling for completion of decommissioning later than 24 months after plan approval, the plan shall include a justification for the delay based on the criteria in Subsection R313-22-36(8).

(e) The proposed decommissioning plan will be approved by the Director if the information therein demonstrates that the decommissioning will be completed as soon as practical and that the health and safety of workers and the public will be adequately protected.

(8)(a) Except as provided in Subsection R313-22-36(9), licensees shall complete decommissioning of the site or separate building or outdoor area as soon as practical but no later than 24 months following the initiation of decommissioning.

(b) Except as provided in Subsection R313-22-36(9), when decommissioning involves the entire site, the licensee shall request license termination as soon as practical but no later than 24 months following the initiation of decommissioning.

(9) The Director may approve a request for an alternative schedule for completion of decommissioning of the site or separate building or outdoor area, and license termination if appropriate, if the Director determines that the alternative is warranted by consideration of the following:

(a) whether it is technically feasible to complete decommissioning within the allotted 24-month period;

(b) whether sufficient waste disposal capacity is available to allow completion of decommissioning within the allotted 24-

month period;

(c) whether a significant volume reduction in wastes requiring disposal will be achieved by allowing short-lived radionuclides to decay;

(d) whether a significant reduction in radiation exposure to workers can be achieved by allowing short-lived radionuclides to decay; and

(e) other site-specific factors which the Director may consider appropriate on a case-by-case basis, such as the regulatory requirements of other government agencies, lawsuits, ground-water treatment activities, monitored natural ground-water restoration, actions that could result in more environmental harm than deferred cleanup, and other factors beyond the control of the licensee.

(10) As the final step in decommissioning, the licensee shall:

(a) certify the disposition of all licensed material, including accumulated wastes, by submitting a completed Form DRC-14 or equivalent information; and

(b) conduct a radiation survey of the premises where the licensed activities were carried out and submit a report of the results of this survey, unless the licensee demonstrates in some other manner that the premises are suitable for release in accordance with the criteria for decommissioning in Sections R313-15-401 through R313-15-406. The licensee shall, as appropriate:

(i) report levels of gamma radiation in units of millisieverts (microrentgen) per hour at one meter from surfaces, and report levels of radioactivity, including alpha and beta, in units of megabecquerels (disintegrations per minute or microcuries) per 100 square centimeters--removable and fixed--for surfaces, megabecquerels (microcuries) per milliliter for water, and becquerels (picocuries) per gram for solids such as soils or concrete; and

(ii) specify the survey instrument(s) used and certify that each instrument is properly calibrated and tested.

(11) Specific licenses, including expired licenses, will be terminated by written notice to the licensee when the Director determines that:

(a) radioactive material has been properly disposed;

(b) reasonable effort has been made to eliminate residual radioactive contamination, if present; and

(c) documentation is provided to the Director that:

(i) a radiation survey has been performed which demonstrates that the premises are suitable for release in accordance with the criteria for decommissioning in Sections R313-15-401 through R313-15-406; or

(ii) other information submitted by the licensee is sufficient to demonstrate that the premises are suitable for release in accordance with the criteria for decommissioning in Sections R313-15-401 through R313-15-406.

(a) An application for a specific license to manufacture or distribute devices containing radioactive material, excluding special nuclear material, to persons generally licensed under Subsection R313-21-22(4) or equivalent regulations of the Nuclear Regulatory Commission, an Agreement State or a Licensing State will be approved if:

(i) the applicant satisfies the general requirements of Section R313-22-33;

(ii) the applicant submits sufficient information relating to the design, manufacture, prototype testing, quality control, labels, proposed uses, installation, servicing, leak testing, operating and safety instructions, and potential hazards of the device to provide reasonable assurance that:

(A) the device can be safely operated by persons not having training in radiological protection,

(B) under ordinary conditions of handling, storage and use of the device, the radioactive material contained in the device will not be released or inadvertently removed from the device, and it is unlikely that a person will receive in one year, a dose in excess of ten percent of the annual limits specified in Subsection R313-15-201(1), and

(C) under accident conditions, such as fire and explosion, associated with handling, storage and use of the device, it is

unlikely that a person would receive an external radiation dose or dose commitment in excess of the following organ doses:

Hands and forearms; feet and ankles; localized areas of skin averaged over areas no larger than one square centimeter	2.0 Sv (200 rems)
Other organs	500.0 mSv (50 rems); and

(iii) each device bears a durable, legible, clearly visible label or labels approved by the Director, which contain in a clearly identified and separate statement:

(A) instructions and precautions necessary to assure safe installation, operation and servicing of the device; documents such as operating and service manuals may be identified in the label and used to provide this information,

(B) the requirement, or lack of requirement, for leak testing, or for testing an "on-off" mechanism and indicator, including the maximum time interval for testing, and the identification of radioactive material by radionuclide, quantity of radioactivity, and date of determination of the quantity, and

(C) the information called for in one of the following statements, as appropriate, in the same or substantially similar form:

(I) "The receipt, possession, use and transfer of this device, Model No., Serial No., are subject to a general license or the equivalent, and the regulations of the Nuclear Regulatory Commission or a state with which the Nuclear Regulatory Commission has entered into an agreement for the exercise of regulatory authority. This label shall be maintained on the device in a legible condition. Removal of this label is prohibited." The label shall be printed with the words "CAUTION -RADIOACTIVE MATERIAL" and the name of the manufacturer or distributor shall appear on the label. The model, serial number, and name of the manufacturer or distributor may be omitted from this label provided the information is elsewhere specified in labeling affixed to the device.

(II) "The receipt, possession, use and transfer of this device, Model No., Serial No., are subject to a general license or the equivalent, and the regulations of a Licensing State. This label shall be maintained on the device in a legible condition. Removal of this label is prohibited." The label shall be printed with the words "CAUTION -RADIOACTIVE MATERIAL" and the name of the manufacturer or distributor shall appear on the label. The model, serial number, and name of the manufacturer or distributor may be omitted from this label provided the information is elsewhere specified in labeling affixed to the device.

(E) Each device meeting the criteria of Subsection R313-21-22(4)(c)(xiii)(A), bears a permanent label, for example, embossed, etched, stamped, or engraved, affixed to the source housing if separable, or the device if the source housing is not separable, that includes the words, "Caution-Radioactive Material," and, if practicable, the radiation symbol described in

Section R313-15-901.

(b) In the event the applicant desires that the device be required to be tested at intervals longer than six months, either for proper operation of the "on-off" mechanism and indicator, if any, or for leakage of radioactive material or for both, the applicant shall include in the application sufficient information to demonstrate that a longer interval is justified by performance characteristics of the device or similar devices and by design features which have a significant bearing on the probability or consequences of leakage of radioactive material from the device or failure of the "on-off" mechanism and indicator. In determining the acceptable interval for the test for leakage of radioactive material, the Director will consider information which includes, but is not limited to:

The submitted information shall demonstrate that performance of this activity or activities by an individual untrained in radiological protection, in addition to other handling, storage, and use of devices under the general license, is unlikely to cause that individual to receive a dose in excess of ten percent of the annual limits specified in Subsection R313-15-201(1).

R313-70. Payments, Categories and Types of Fees.
R313-70-1. Purpose and Authority.

(1) The purpose of this rule is to prescribe the requirements to assess fees of registrants and licensees possessing sources of radiation.

(2) The rules set forth herein are adopted pursuant to the provisions of Subsection 19-3-104(6).

R313-70-2. Scope.

The requirements of R313-70 apply to persons who receive, possess, or use sources of radiation provided: however, that nothing in these rules shall apply to the extent a person is subject to regulation by the U.S. Nuclear Regulatory Commission.

R313-70-3. Communications.

Communications concerning the rules in R313-70 should be addressed to the Director, and may be sent to the Division of Radiation Control, Department of Environmental Quality. Communications may be delivered in person at the Division of Radiation Control offices.

R313-70-5. Payment of Fees.

(1) New Application Fee: Applications for machine registration or radioactive material licensing for which a fee is prescribed, shall be accompanied by a remittance in the full amount of the fee. Applications will not be accepted for filing or processing prior to payment of the full amount specified. Applications for which no remittance is received will be returned to the applicant. Application fees will be charged irrespective of the Director's disposition of the application or a withdrawal of the application.

(2) Annual Fee: Persons and individuals who are subject to licensing or registration of radioactive material or radiation machine registration with the Department of Environmental Quality under provisions of the Utah Radiation Control Rules, are assessed an annual fee in accordance with categories of R313-70-7 and R313-70-8. The appropriate fee shall be filed annually with the Director, by July 30 for registrants or by the anniversary date for licensees. Fees for radiation machine registration will be considered late if not received annually by the last day of August. Licensees may be assessed late fees if license fees are not received within 30 days after the license anniversary date. Late fees may also be assessed for successive 30 day periods during which the annual fee or registration fee remains unpaid.

(3) Inspection Fee: Persons and entities who, under provisions of the Utah Radiation Control Rules, are subject to radiation machine registration with the Department of Environmental Quality are assessed an inspection fee in accordance with R313-70-8. Fees for inspection of a radiation machine are due within 30 days of receipt of an invoice from the Agency. Registrants may be assessed late fees if inspection fees are not received in a timely manner.

(4) Failure to pay the prescribed fee: the Director will not process applications and may suspend or revoke licenses or registrations or may issue an order with respect to the activities as the Director determines to be appropriate or necessary in order to carry out the provisions of this part of R313-70, and of the Act.

(a) General license certificates of registration and new specific licenses issued pursuant to the provisions in R313-21 or R313-22, will be valid for a period of five years unless failure to submit appropriate fee occurs. Specific license renewals issued pursuant to the provisions in R313-22 may be valid for a period of tens years or less in accordance with R313-22-34(1)(b) and (1)(c). Machine registrations will be valid for one year during the interval outlined in R313-16-230. Failure to

submit appropriate fees will render the license, certificate or registration invalid, at which time a new application with appropriate fees shall be submitted.

(b) Renewal applications shall be filed in a timely manner in accordance with R313-22-37 or R313-16-230. The radioactive material license will expire on the date specified on the license. Machine registration will expire as outlined in R313-16-230. An expired license cannot be renewed, rather the licensee will be required to submit an application for a new license and submit the appropriate application and new license fee.

(5) Method of Payment: Fees shall be made payable to: Division of Radiation Control, Department of Environmental Quality.

R313-70-7. License Categories and Types of Fees for Radioactive Materials Licenses.

(31) "Water Slide" means a recreational facility consisting of flumes upon which bathers descend into a splash pool.

R392-302-3. General Requirements.

(1) This rule does not require a construction change in any portion of a public pool facility if the facility was installed and in compliance with law in effect at the time the facility was installed, except as specifically provided otherwise in this rule. However if the Executive Director or the Local Health Officer determines that any facility is dangerous, unsafe, unsanitary, or a nuisance or menace to life, health or property, the Executive Director or the Local Health Officer may order construction changes consistent with the requirements of this rule to existing facilities.

(2) This rule does not regulate any private residential pool. A private residential pool that is used for swimming instruction purposes shall not be regulated as a public pool.

(3) This rule does not regulate any body of water larger than 30,000 square feet, 2,787.1 square meters, and for which the design purpose is not swimming, wading, bathing, diving, a

water slide splash pool, or children's water play activities.

- (4) This rule does not regulate float tanks.

R392-302-4. Water Supply.

(1) The water supply serving a public pool and all plumbing fixtures, including drinking fountains, lavatories and showers, must meet the requirements for drinking water established by the Department of Environmental Quality.

(2) All portions of water supply, re-circulation, and distribution systems serving the facility must be protected against backflow. Water introduced into the pool, either directly or through the circulation system, must be supplied through an air gap.

R392-302-5. Sewer System.

(1) Each public pool must discharge waste water to a public sanitary sewer system if the sewer system is within 300 feet of the property line. Where no public sanitary sewer system is available within 300 feet of the property line, the local health department may approve connections made to a disposal system designed, constructed, and operated in accordance with the minimum requirements of the Department of Environmental Quality.

(2) Each public pool must connect to a sewer or wastewater disposal system through an air break to preclude the possibility of sewage or waste backup into the piping system. Pools constructed and approved after December 31, 2010 shall connect to a sewer or wastewater disposal system through an air gap.

R392-302-6. Construction Materials.

(1) Each public pool and the appurtenances necessary for its proper function and operation must be constructed of materials that are inert, non-toxic to humans, impervious, enduring over time, and resist the effects of wear and deterioration from chemical, physical, radiological, and mechanical actions.

(2) All public pools shall be constructed with a pool shell that meets the requirements of this section R392-302-6. Vinyl liners that are not bonded to a pool shell are prohibited. A vinyl liner that is bonded to a pool shell shall have at least a 60 mil thickness. Sand, clay or earth walls or bottoms are prohibited.

(3) The pool shell of a public pool must withstand the stresses associated with the normal uses of the pool and regular maintenance. The pool shell shall by itself withstand, without any damage to the structure, the stresses of complete emptying of the pool without shoring or additional support.

(4) In addition to the requirements of R392-302-6(3), the interior surface of each pool must be designed and constructed in a manner that provides a smooth, easily cleanable, non-abrasive, and slip resistant surface. The pool shell surfaces must be free of cracks or open joints with the exception of structural expansion joints. The owner of a non-cementitious pool shall submit documentation with the plans required in R392-302-8(5) that the surface material has been tested and passed by an American National Standards Institute (ANSI) accredited testing facility using one of the following standards that is appropriate to the material used:

(a) for a fiberglass reinforced plastic spa pool, the International Association of Plumbing and Mechanical Officials (IAPMO) standard IAPMO/ANSI Z 124.7-1997;

(b) for a fiberglass reinforced plastic swimming pool, the IAPMO IGC 158-2000 standard;

(c) for pools built with prefabricated pool sections or pool members, the International Cast Products Association (ICPA) standard ANSI/ICPA SS-1-2001; or

(d) a standard that has been approved by the Department based on whether the standard is applicable to the surface and whether it determines compliance with the requirements of this

section R392-302-6.

- (5) The pool shell surface must be of a white or light pastel color.

R392-302-8. Design Detail and Structural Stability.

(1) The designing architect or engineer is responsible to certify the design for structural stability and safety of the public pool.

(2) The shape of a pool and design and location of appurtenances must be such that the circulation of pool water and control of swimmer's safety are not impaired. The designing architect or engineer shall designate sidewalls and endwalls on pool plans.

(3) A pool must have a circulation system with necessary treatment and filtration equipment as required in R392-302-16, unless turnover rate requirements as specified in sub-section R392-302-16(1) can be met by continuous introduction of fresh water and wasting of pool water under conditions satisfying all other requirements of this rule.

The return loop piping must be sized to provide less than 2.5 feet, 76.20 centimeters, of head loss to the most distant orifice to insure approximately equal flow through all orifices.

(3) If floor inlets from the circulation system are used, they must be flush with the floor. Floor inlets shall be placed at maximum 15 foot, 4.46 meter, intervals. The distance from floor inlets to a pool wall shall not exceed 7.5 feet, 2.29 meters if there are no wall inlets on that wall. Each floor inlet must be

All floor inlets must be designed such that the flow cannot be adjusted without the use of a special tool to protect against swimmers being able to adjust the flow. The return supply piping must be sized to provide less than 2.5 feet, 76.20 centimeters, of head loss to the most distant orifice to insure approximately equal flow through all orifices.

(4) The department may grant an exemption to the inlet placement requirements on a case by case basis for inlet designs that can be demonstrated to produce uniform mixing of pool water.

R392-302-18. Outlets.

(i) To ensure proper operation, the certified pool operator shall inspect and test the vacuum release system at least once a week but no less often than established by the manufacturer. The certified pool operator shall test the vacuum release system in a manner specified by the manufacturer. The certified pool operator shall log all inspections, tests and maintenance and retain the records for a minimum of two years for review by the Department and local health department upon request.

R392-302-26. Visitor and Spectator Areas.

(1) Visitors, spectators, or animals may not be allowed within 10 feet, 3.05 meters, of the pool. Service animals are exempt from this requirement.

(2) Food or drink is prohibited within ten feet, 3.05 meters, of the pool. Beverages must be served in non-breakable containers.

(3) Trash containers must be provided in visitor and spectator areas. The entire area must be kept free of litter and maintained in a clean, sanitary condition.

R392-302-27. Disinfection and Quality of Water.

(1) Disinfection Process.

(a) A pool must be continuously disinfected by a process which:

(i) Is registered with the United States Environmental Protection Agency as a disinfecting process or disinfectant product for water;

(ii) Imparts a disinfectant residual which may be easily and accurately measured by a field test procedure appropriate to the disinfectant in use;

(iii) Is compatible for use with other chemicals normally used in pool water treatment;

(iv) Does not create harmful or deleterious effects on

bathers if used according to manufacturer's specifications; and
(v) Does not create an undue safety hazard if handled, stored and used according to manufacturer's specifications.

(b) The active disinfecting agent used must meet the concentration levels listed in Table 6 for all circumstances, bather loads, and the pH level of the water.

(2) Testing Kits.

(a) An easy to operate pool-side disinfectant testing kit, compatible with the disinfectant in use and accurate to within 0.5 milligrams per liter, must be provided at each pool.

(b) If chlorine is the disinfectant used, it must be tested by the diethyl-p-phenylene diamine method, the leuco crystal violet method, or another test method approved by the Department.

(c) If cyanuric acid or stabilized chlorine is used, a testing kit for cyanuric acid, accurate to within 10.0 milligrams per liter must be provided.

(d) Expired test kit reagents may not be used.

(b) The difference between the total chlorine and the free chlorine in a pool shall not be greater than 0.5 milligrams per liter. If the concentration of combined residual chlorine is greater than 0.5 milligrams per liter the operator shall breakpoint chlorinate the pool water to reduce the concentration of combined chlorine.

(d) Total alkalinity must be within the range from 100 to 125 milligrams per liter for a plaster lined pool, 80 to 150 milligrams per liter for a spa pool lined with plaster, and 125 to 150 milligrams per liter for a pool lined with other approved construction materials.

(e) A calcium hardness of at least 200 milligrams per liter must be maintained.

(f) The saturation index value of the pool water must be within the range of positive 0.3 and minus 0.3. The saturation index shall be calculated in accordance with Table 5.

(4) Water Clarity and Temperature.

(a) The water must have sufficient clarity at all times that the drain grates or covers in the deepest part of the pool are readily visible. As an alternative test for clarity, a black disk, six inches in diameter, must be readily visible if placed on a white field in the deepest part of the pool.

(b) Pool water temperatures for general use should be within the range of 82 degrees Fahrenheit, 28 degrees Celsius, to 86 degrees Fahrenheit, 30 degrees Celsius.

(c) The minimum water temperature for a pool is 78 degrees Fahrenheit, 26 degrees Celsius.

(d) The local health departments may grant exemption to the pool water temperature requirements for a special purpose pool including a cold plunge pool, but may not exempt maximum hot water temperatures for a spa pool.

(5) Pool Water Sampling and Testing.

(a) At the direction of the Local Health Officer, the pool operator or a representative of the local health department shall collect a pool water sample from each public pool at least once per month or at a more frequent interval as determined by the Local Health Officer. A seasonal public pool during the off season and any public pool while it is temporarily closed, if the pool is closed for an interval exceeding half of that particular month, are exempt from the requirement for monthly sampling. The operator or local health department representative shall submit the pool water sample to a laboratory approved under R444-14 to perform total coliform and heterotrophic plate count testing.

(b) The operator or local health department shall have the laboratory analyze the sample for total coliform and heterotrophic plate count using methods allowed under R444-14-4.

(c) If the operator submits the sample as required by local health department, the operator shall require the laboratory to report sample results within five working days to the local health department and operator.

(d) A pool water sample fails bacteriological quality standards if it:

(i) Contains more than 200 bacteria per milliliter, as determined by the heterotrophic plate count or

(ii) Shows a positive test for presence of coliform or contains more than 1.0 coliform organisms per 100 milliliters.

(e) Not more than 1 of 5 samples may fail bacteriological quality standards. Failure of any bacteriological water quality sample shall require submission of a second sample within one lab receiving day after the sample report has been received.

R392-302-28. Cleaning Pools.

(1) The operator shall clean the bottom of the pool as often as needed to keep the pool free of visible dirt.

(2) The operator shall clean the surface of the pool as often as needed to keep the pool free of visible scum or floating matter.

(3) The operator shall keep all pool shell surfaces, handrails, floors, walls, and ceilings of rooms enclosing pools, dressing rooms and equipment rooms clean, sanitary, and in good repair.

(4) The operator shall respond to all discovered releases of fecal matter into a public pool in accordance with the following protocol: Centers for Disease Control and Prevention. Fecal Accident Response Recommendations for Pool Staff and Notice to Readers--Revised Guidance for Responding to Fecal Accidents in Disinfected Swimming Venues. Morbidity Mortality Weekly Report February 15, 2008 Volume 57, pages 151-152 and May 25, 2001 Volume 50, pages 416-417, which are incorporated by reference. The operator shall include in the records required in R392-302-29(2) information about all fecal matter releases into a public pool. The records shall include date, time, and where the fecal matter was discovered; whether the fecal matter was loose or solid; and the responses taken. The Local Health Officer may approve the alteration of the required Centers for Disease Control protocol for the hyperchlorination step for a loose fecal release if an operator is able to achieve a 99.9 percent kill or removal of cryptosporidium oocysts in the entire pool system by another method such as ultraviolet light, ozone, or enhanced filtration

prior to allowing bathers to reenter the pool.

R392-302-29. Supervision of Pools.

(1) Public pools must be supervised by an operator that is certified or recertified by a program of training and testing that is approved by the Utah Department of Health. The local health department may determine the appropriate numbers of pools any one certified operator may supervise using criteria based on pool compliance history, local considerations of time and distance, and the individual operator's abilities.

(2) The pool operator must keep written records of all information pertinent to the operation, maintenance and sanitation of each pool facility. Records must be available at the facility and be readily accessible. The pool operator must make records available to the department or the local health department having jurisdiction upon their request. These records must include disinfectant residual in the pool water, pH and temperature of the pool water, pool circulation rate, quantities of chemicals and filter aid used, filter head loss, filter washing schedule, cleaning and disinfecting schedule for pool decks and dressing rooms, occurrences of fecal release into the pool water or onto the pool deck, bather load, and other information required by the local health department. The pool operator must keep the records at the facility, for at least two operating seasons.

(3) The public pool owner, in consultation with the qualified operator designated in accordance with 392-302-29(1), shall develop an operation, maintenance and sanitation plan for the pool that will assure that the pool water meets the sanitation and quality standards set forth in this rule. The plan shall be in writing and available for inspection by the local health department. At a minimum the plan shall include the frequency of measurements of pool disinfectant residuals, pH and pool water temperature that will be taken. The plan shall also specify who is responsible to take and record the measurements.

(4) If the public pool water samples required in Section R392-302-27(5) fail bacteriological quality standards as defined in Section R392-302-27(5), the local health department shall require the public pool owner and qualified operator to develop an acceptable plan to correct the problem. The local health department may require more frequent water samples, additional training for the qualified operator and also may require that:

(a) the pool operator measure and record the level of disinfectant residuals, pH, and pool water temperature four times a day (if oxidation reduction potential technology is used in accordance with this rule, the local health department may reduce the water testing frequency requirement) or

(b) the pool operator read flow rate gauges and record the pool circulation rate four times a day.

(5) Bather load must be limited if necessary to insure the safety of bathers and pool water quality as required in Section R392-302-27.

(6) A sign must be posted in the immediate vicinity of the pool stating the location of the nearest telephone and emergency telephone numbers which shall include:

(a) Name and phone number of nearest police, fire and rescue unit;

(b) Name and phone number of nearest ambulance service;

(c) Name and phone number of nearest hospital.

(7) If a telephone is not available at poolside, emergency telephone numbers must be provided in a form that can be taken to a telephone.

R392-302-30. Supervision of Bathers.

(1) Access to the pool must be prohibited when the facility is not open for use.

(2) Lifeguard service must be provided at a public pool if direct fees are charged or public funds support the operation of the pool. If a public pool is normally exempt from the

requirement to provide lifeguard services, but is used for some purpose that would require lifeguard services, then lifeguard services are required during the period of that use. For other pools, lifeguard service must be provided, or signs must be clearly posted indicating that lifeguard service is not provided.

(3) A lifeguard must meet each of the following:

(a) Be trained and certified by the American Red Cross, Ellis and Associates, or an equivalent program as approved by the department in Standard Level First Aid, C.P.R. for professional rescuers, and Life Guarding.

(b) Be on duty at all times when the pool is open to use by bathers, except as provided in Subsection R392-302-30(2).

(c) Have full authority to enforce all rules of safety and sanitation.

(4) A lifeguard may not have any other duties to perform other than the supervision and safety of bathers while he or she is assigned lifeguarding duties.

(5) Where lifeguard service is required, the number of lifeguards must be sufficient to allow for continuous supervision of all bathers, and surveillance over total pool floor areas.

(6) Lifeguards must be relieved in the rotation of lifeguarding responsibilities at least every 30 minutes with a work break of at least 10 minutes every hour.

(7) The facility operator and staff are responsible for the enforcement of the following personal hygiene and behavior rules:

(b) The operator and lifeguards shall exclude any person having a communicable disease transmissible by water from using the pool. A person having any exposed sub-epidermal tissue, including open blisters, cuts, or other lesions may not use a public pool. A person who has or has had diarrhea within the last two weeks caused by an unknown source or from any communicable or fecal-borne disease may not enter any public pool.

(c) Any child under three years old, any child not toilet trained, and anyone who lacks control of defecation shall wear a water resistant swim diaper and waterproof swimwear. Swim diapers and waterproof swimwear shall have waist and leg openings fitted such that they are in contact with the waist or leg around the entire circumference.

(d) Running, boisterous play, or rough play, except supervised water sports, are prohibited.

(e) Easily readable placards embodying the above rules of personal hygiene and behavior must be conspicuously posted in the pool enclosure and in the dressing rooms and offices.

(f) The lifeguards and operator shall only allow diaper changing in restrooms or changing stations not at poolside. The person or persons who change the diaper must wash their hands thoroughly with soap before returning to the pool. The diapered person must undergo a cleansing shower before returning to the pool.

R392-302-31. Special Purpose Pools.

(1) Special purpose pools must meet all applicable requirements of all Sections of R392-302 in addition to those of this Section as they apply to special design features and uses of special purpose pools.

(a) Special purpose pool projects require consultation with the local health department having jurisdiction in order that consideration can be given to areas where potential problems may exist and before deviations from some of the requirements are approved.

(c) Local health departments may enter and examine the use of hydrotherapy pools to respond to complaints, to assure

that use of the pool is being properly supervised, to examine records of testing and sampling, and to take samples to assure that water quality and cleanliness are maintained.

(d) A local health officer may grant an exception to section R392-302-31(4)(a) if the operator of the hydrotherapy pool can demonstrate that the exception will not compromise pool sanitation or the health or safety of users.

(5) Water Slides.

(a) Slide Flumes.

(i) The flumes within enclosed slides must be designed to prevent accumulation of hazardous concentrations of toxic chemical fumes.

(ii) All curves, turns, and tunnels within the path of a slide flume must be designed so that body contact with the flume or tunnel does not present an injury hazard. The slide flume must be banked to keep the slider's body safely inside the flume.

(iii) The flume must be free of hazards including joints and mechanical attachments separations, splinters, holes, cracks, or abrasive characteristics.

(iv) Wall thickness of flumes must be thick enough so that the continuous and combined action of hydrostatic, dynamic, and static loads and normal environmental deterioration will not cause structural failures which could result in injury. The facility operator or owner shall insure that repairs or patchwork maintains original designed levels of safety and structural integrity. The facility operator or owner shall insure that repairs or patchwork is performed in accordance with manufacturer's guidelines.

(v) Multiple-flume slides must have parallel exits or be constructed, so that the projected path of their centerlines do not intersect within a distance of less than 8 feet, 2.44 meters, beyond the point of forward momentum of the heaviest bather permitted by the engineered design.

(vi) A slide flume exit must provide safe entry into the splash pool. Design features for safe entry include a water backup, and a deceleration distance adequate to reduce the slider's exit velocity to a safe speed. Other methods may be acceptable if safe exiting from the slide flume is demonstrated to the department.

(b) Flume Clearance Distances.

(i) A distance of at least 4 feet, 1.22 meters, must be provided between the side of a slide flume exit and a splash pool side wall.

(ii) The distance between nearest sides of adjacent slide flume exits must be at least 6 feet, 1.83 meters.

(iii) A distance between a slide flume exit and the opposite end of the splash pool, excluding steps, must be at least 20 feet, 6.10 meters.

(iv) The distance between the side of the vehicle flume exit and the pool side wall must be at least 6 feet, 1.83 meters.

(v) The distance between nearest sides of adjacent vehicle slide flume exits must be at least 8 feet, 2.44 meters.

(vi) The distance between a vehicle slide flume exit and the opposite end of the splash pool, excluding steps, must be long enough to provide clear, unobstructed travel for at least 8 feet, 2.44 meters, beyond the point of forward momentum of the heaviest bather permitted by the engineered design.

(c) Splash Pool Dimensions.

(i) The depth of a water slide splash pool at the end of a horizontally oriented slide flume exit must be at least 3 feet, 9.14 centimeters, but may be required to be deeper if the pool design incorporates special features that may increase risks to bathers as determined by the department.

(ii) The depth must be maintained in front of the flume for a distance of at least 20 feet, 6.10 meters, from which point the splash pool floor may have a constant slope upward. Slopes may not be designed or constructed steeper than a 1 to 10 ratio.

(iii) The operating water depth of a vehicle slide splash pool, at the flume exit, must be a minimum of 3 feet 6 inches,

1.07 meters. This depth must be maintained to the point at which forward travel of the vehicle ends. From the point at which forward travel ends, the floor may have a constant upward slope to the pool exit at a ratio not to exceed 1 to 10.

(iv) The department may waive minimum depth and distance requirements for a splash pool and approve a special exit system if the designer can demonstrate to the department that safe exit from the flume into the splash pool can be assured.

(v) A travel path with a minimum width of 4 feet, 1.22 meters, must be provided between the splash pool deck and the top of the flume.

(d) General Water Slide Requirements.

(i) Stairways serving a slide may not retain standing water. Stairways must have non-slip surfaces and shall conform to the requirements of applicable building codes.

(4) Except as otherwise stated in this rule, geothermal pools and geothermal bathing places, are exempt from the requirements of R392-302.

(5) This rule does not require an owner or operator to modify any portion of an existing geothermal pool facility or existing geothermal bathing place. If an owner or operator modifies any system or part of a geothermal pool or geothermal bathing place, the modified system or part must meet the requirements of this rule. However, if the Executive Director or the Local Health Officer determines that any facility is dangerous, unsafe, unsanitary, or a nuisance or menace to life, health or property, the Executive Director or the Local Health Officer may order modification consistent with the requirements of this rule.

R392-303-4. Drinking Water Supply.

(1) The owner of a geothermal pool or geothermal bathing place shall assure that all plumbing fixtures including drinking fountains, lavatories and showers at the public geothermal pool or geothermal bathing place facility are connected to a drinking water system that meets the requirements for drinking water established by the Utah Department of Environmental Quality.

(2) The operator of a geothermal pool or geothermal bathing place shall collect samples of the geothermal source water and of any other water source used to fill the pool that is not approved for drinking water by Utah Division of Drinking Water. The operator shall submit the samples for analysis to a laboratory certified under R444-14. The operator shall have the analysis performed initially and every five years thereafter to determine the levels of constituents listed in Table 1. If a geothermal pool or geothermal bathing place is in existence prior to the adoption of this rule, the owner of the facility shall submit to the local health department the results of initial source water tests within six months after the adoption of the rule. The permit applicant of a newly permitted public geothermal pool or geothermal bathing place shall submit the results of the initial source water analyses to the local health department with his application for a permit. The operator shall submit five-year samples to the local health department within six months prior to the end of the five year period.

(3) If the geothermal source water analysis required in R392-303-5(2) reports that any constituent fails any of the standards in Table 1, the owner shall do one of the following:

(a) not use the source water;

(b) implement an ongoing treatment process approved by the Department to provide source water that meets the requirements in Table 1; or

(c) at a minimum, post a caution sign outlined in R392-303-22, to notify swimmers that the water does not meet the EPA recommended drinking water standard and they swim at their own risk. The caution sign shall include the name of the constituent that does not meet the EPA standard and that there may be a health risk associated with bathing in water that contains high levels of the constituent. Based on research funded by or guidelines issued by a competent authority,

If a field-fabricated rate-of-flow indicator such as a calibrated weir or flume is used, it shall be designed and calibrated under the direction of a licensed professional engineer. The rate-of-flow indicator must be located in a place and positioned where it can be easily read by the operator as required in R392-303-21(2). The Local Health Officer may exempt a geothermal pool or geothermal bathing place from the requirement for a rate-of-flow indicator if the rate of flow is not adjustable or if there is no practical way to measure flow.

(8) Each geothermal pool and geothermal bathing place shall have a temperature measuring device. The operator shall measure the temperature of the pool at the warmest point. The device shall be accurate to within one degree Fahrenheit (0.6 degrees Celsius). The operator shall calibrate the thermometer in accordance with the manufacturer's specifications as necessary to ensure its accuracy.

R392-303-17. Filtration.

The owner of a flow-through geothermal pool or geothermal bathing place is not required to filter the water in the pool or bathing place, except as may be necessary to meet safety and water quality requirements. Filters shall meet the requirements of R392-302-20.

R392-303-18. Disinfectant and Chemical Feeders.

Chemical feeders or disinfectant residuals are not required in geothermal pools or geothermal bathing places, except as may be necessary to meet water quality requirements. If the operator uses any chemical, the operator shall meet the requirements of R392-302-21 for that particular chemical.

R392-303-19. Pool Water Quality.

(1) The water in a geothermal pool or geothermal bathing place must have sufficient clarity at all times so that a black disc 6 inches, 15.24 centimeters, in diameter, is readily visible if placed on a white field at the deepest point of the pool (or at 12 feet, 3.66 meters, deep for pools over 12 feet, 3.66 meters, deep). The owner or operator shall close the pool or bathing place immediately if this requirement is not met. A soaking tub

is exempt from the clarity requirements of this subsection.

(2) The local health department or pool sampler contracted by the local health department shall collect routine bacteriological samples of the pool water at least once per month and at least two weeks apart. The local health department or their contractor may collect additional samples for investigative purposes or as a follow-up of unsatisfactory samples. The Local Health Officer shall choose or approve the dates and times that the samples are collected based on when a representative level of bacteria would likely be found. The local health department or person sampling the pool shall submit the bacteriological samples to a laboratory approved by under R444-14 to perform E. coli or fecal coliform testing.

(a) The local health department or its contracted pool sampler, as required by local health department, shall have the laboratory analyze the sample for either E. coli or fecal coliform.

(b) If the pool sampler submits the sample as required by local health department, the sampler shall require the laboratory to report sample results within five working days to the local health department and operator.

(3) If the E. coli or fecal coliform levels are found to be greater than the maximum level of 63 per 50 milliliters, the owner or operator shall close the pool until sample results show the level is below 63. As an alternative to closing the pool until sample results show acceptable bacteriological levels, the operator may temporarily close the pool and commence feeding a disinfectant to the pool water, meeting the requirements of R392-303-18 and the disinfectant concentration and pH requirements of R392-302-27, and then reopen the pool at least 45 minutes after the required disinfectant level has been achieved. The feeding of disinfectant to the pool must continue until samples of pool water and the source water pass the bacteriological standards required for disinfected pools in R392-302-27 (5) (d) (ii).

(4) If E. coli or fecal coliform levels are greater than one per 50 milliliters, the pool operator shall post the level found as required in R392-303-22.

(5) The owner or operator of a geothermal pool or geothermal bathing place should maintain the pool water temperature at a maximum of 104 degrees Fahrenheit, 40 degrees Celsius. A geothermal pool or geothermal bathing place that exceeds 104 degrees Fahrenheit, 40 degrees Celsius, at the minimum required turnover rate shall have, and employ when necessary, a method of temperature reduction in the pool or bathing place that maintains the minimum flow-through rate required under R392-303-16(3). An approved method of temperature reduction may include methods such as the introduction of cool water from a source that has been analyzed and approved according to R392-303-5(2) or approved for drinking water by the Utah Division of Drinking Water, or such as the direct cooling of the geothermal source water by a heat exchanger, or the diversion of the geothermal source water to allow it to cool prior to entering the pool or impoundment. The temperature reduction method shall be capable of reducing the temperature of the pool within 2 hours of activation from the maximum anticipated temperature to below 104 degrees Fahrenheit, 40 degrees Celsius. If the temperature of the source water or cooling rate of the pool is difficult to control, a temperature drift of up to four degrees Fahrenheit, 2.2 degrees Celsius, is allowed if the owner or operator has activated the temperature reduction measure. The owner or operator of a geothermal pool or geothermal bathing place shall not permit bathers to use the pool if the temperature is above 108 degrees Fahrenheit, 42.2 degrees Celsius, except the owner may allow a bather to use a soaking tub or similar fixture with a volume of 70 gallons or less and a water temperature less than or equal to 110 degrees Fahrenheit, 43.3 degrees Celsius.

R392-303-20. Cleaning Pools.

(1) The owner or operator of a geothermal pool shall remove any visible dirt on the bottom of the pool at least once every 24 hours or more frequently as needed to keep the pool free of dirt and debris.

(2) The owner or operator of a geothermal pool or geothermal bathing place shall clean the water surface of the pool as often as needed to keep the pool free of scum or floating matter.

(3) The owner or operator of a geothermal pool shall keep pool surfaces, decks, handrails, floors, walls, and ceilings of rooms enclosing pools, dressing rooms and equipment rooms clean, sanitary, and in good repair. The owner or operator of a geothermal bathing place shall keep handholds, handrails, entrance points, walkways, dressing rooms, and equipment rooms clean and in good repair.

R392-303-21. Supervision of Pools and Bathing Places.

(1) Geothermal pools and geothermal bathing places shall meet the requirements of R392-302-29(1).

(2) The operator of a geothermal pool or geothermal bathing place shall record the flow-through rate and pool temperature prior to opening the pool or bathing place each day. To verify bather load, the operator shall record the number of patrons at the geothermal bathing place or pool every four hours that the geothermal bathing place or pool is open for use or shall record the time of day that each user checks in. If a pool uses disinfection or filtration, the operator shall keep the disinfection and filtration records required in R392-302-29. The Local Health Officer may reduce the requirement for the frequency of record keeping if a decreased frequency is more reasonable considering the likelihood of a change in the values recorded. The owner or operator shall make the records required by this section available for inspection by representatives of the local health department and shall retain the records for at least three years.

R392-303-22. Caution Sign Content.

(1)(a) The operator of a geothermal pool or a geothermal bathing place in which the requirements of Table 6 in R392-302-27 are not met for disinfectant residual shall post a caution sign with the following bulleted points:

-DO NOT USE POOL IF ALONE OR UNDER THE INFLUENCE OF ANY IMPAIRING SUBSTANCE

-DO NOT USE POOL FOR MORE THAN 15 MINUTES AT A TIME

-CHILDREN UNDER 5 ARE PROHIBITED; CHILDREN UNDER 14 MUST BE WITH A PERSON OVER 18 YEARS

(3) Except at a geothermal pool or a geothermal bathing place where head-first entry is permitted, the operator shall post a warning sign that states, "NO HEAD-FIRST ENTRY" in accordance with R392-303-23 and 24.

(4) If the geothermal pool or bathing place source water fails any of the standards found in Table 1, the operator shall post a warning sign that states the following:

-POOL WATER DOES NOT MEET EPA DRINKING WATER STANDARDS FOR (the failed constituent or constituents listed in Table 1).

-(The analytical result of each failed constituent and the value of the Table 1 standard that has not been met.) For example: ARSENIC IN THE POOL IS 35 PARTS PER BILLION; EPA STANDARDS ALLOW ONLY 10.

-THERE MAY BE HEALTH RISKS ASSOCIATED WITH BATHING IN THIS WATER.

- USE AT YOUR OWN RISK

R392-303-23. Caution Sign Placement.

(1) The operator of a geothermal pool or geothermal bathing place shall post caution and warning signs that meet the requirements of this rule in conspicuous locations that are in the line of sight of a persons using the premises and readily visible so that all persons are alerted to potential hazards and informed before using the geothermal pool or geothermal bathing place.

(a) The operator shall place the caution sign required in subsection R392-303-22(1) at the reception or sales counter and no more than 10 feet from where a person checks in or pays for the use of the pool. The sign shall be visible to potential customers before they pay for entry or pass the reception or sales counter. (a) The licensee shall post the copies of the notice on all public entry doors to the licensed long-term care facility or agency.

(b) The Department shall impose the restriction or prohibition if:

(i) the long-term care facility or agency has previously received a restriction or prohibition on admissions within the previous 24 month period; or

(ii) the long-term care facility or agency has failed to meet the timeframes in the Plan of Correction which is the basis for the restriction or prohibition on admissions; or

(iii) circumstances in the facility or agency indicate actual harm, a pattern of harm, or a serious and immediate threat to patients.

(3) If telephone inquiries are made to a long-term care facility or agency with a restriction or prohibition on admissions, the facility or agency shall inform the caller, during the call, about the restriction or prohibition on admissions. If the facility or agency fails to inform the caller, the department may assess penalties as allowed by statute and shall require the facility or agency to post a written notice on all public entry doors.

R432-3-8. Immediate Closure of Facility.

(1) The Department may order the immediate closure of any licensed or unlicensed health facility or agency when the health, safety, or welfare of the patients or residents cannot be assured pending a full formal adjudicative proceeding.

(2) The provisions for an emergency adjudicative proceeding as provided in section 63-46b-20 shall be followed.

(5) The Department may assist in relocating patients or residents to another licensed facility or agency.

(6) The Department may pursue other lesser sanctions in lieu of the closure order.

(7) The Department may, in addition to emergency closure, seek criminal penalties.

R432-3-9. Mandatory License Revocation.

(1) The Department may revoke a license or refuse to renew a license for a health care facility that is in chronic noncompliance with one or more of the rule requirements identified as mandatory license revocation criteria in the rules specific to the facility or agency licensing category.

(2) The Department may not revoke a license or refuse to renew a license for chronic noncompliance on the third or subsequent violation unless it has documented within 14 working days from receipt of the Statement of Findings two prior violations and given the licensee or facility administrator a written warning notice. The written notice shall include a statement that continued violation could result in revocation of the license.

(3) If the Department revokes the license because of chronic noncompliance and the evidence supports the Department's finding of chronic noncompliance, no lesser sanction may be substituted, either by the Department or upon subsequent review by the Health Facility Committee or the courts.

(a) In the past, a rate deviation filing was common.

(i) A rate deviation consisted of a modification, usually a percentage decrease or increase, to a RSO manual rate or supplementary information.

(ii) The justification was that an individual insurer could demonstrate experience, expense and profit factors different from the average experience, expense and profit contemplated in the RSO's manual rate.

(b) With the promulgation of a prospective loss cost, rate deviation ceased to exist.

(i) There are no longer manual rates from which to deviate.

(ii) Once an insurer has filed to implement the RSO prospective loss cost for a given line, company deviations previously filed became null and void.

(iii) A filing of a straight percentage deviation is no longer applicable.

(c) Loss cost multiplier.

(i) An individual insurer adjustment to the RSO prospective loss cost must be made as part of the calculation of the loss cost multiplier and must be included in the "Utah Insurer Loss Cost Multiplier Filing Forms."

(ii) This form allows for the inclusion of an individual insurer modification of the RSO prospective loss cost.

(10) Procedures for Reference Filings to Advisory Prospective Loss Cost.

(a) An RSO does not usually file an advisory rate that contains provisions for expenses, other than loss adjustment expenses.

(i) An RSO develops and files with the commissioner a "Reference Filing" containing advisory prospective loss cost and supporting actuarial and statistical data.

(ii) Each insurer must individually determine the rates it will file and the effective date of any rate changes.

(b) If an insurer that is a member, subscriber or service purchaser of any RSO determines to use the prospective loss cost in an RSO Reference Filing in support of its own filing, the insurer must make a filing using the "Utah Insurer Loss Cost Multiplier Filing Forms."

(c) The insurer's filed rates are the combination of the RSO's prospective loss cost and the loss cost multiplier contained in the "Utah Insurer Loss Cost Multiplier Filing Forms."

(d) An insurer may file a modification of the prospective loss cost in the RSO Reference Filing based on its own anticipated experience.

(e) Actuarial justification is required for a modification, upwards or downwards, of the prospective loss cost in the Reference Filing.

(f) An insurer may request to have its loss cost adjustments remain on file and reference all subsequent RSO prospective loss cost Reference Filings.

(i) Upon receipt of subsequent RSO Reference Filings, the insurer's filed rates are the combination of the RSO's prospective loss cost and the loss cost adjustments contained in the "Utah Insurer Loss Cost Multiplier Filing Forms" on file with the commissioner, and will be effective on the effective date of the prospective loss cost.

(ii) The insurer need not file anything further with the commissioner.

(g) If the filer wants to have its filed loss cost adjustments remain on file with the commissioner, but intends to delay, modify, or not adopt a particular RSO's Reference Filing, the filer must make an appropriate filing with the commissioner.

(h) An insurer's filed loss cost adjustments will remain in effect until the filer withdraws them or files a revised "Utah Insurer Loss Cost Multiplier Filing Form."

(i) A filer may file such other information the filer deems relevant.

(j) If an insurer wishes to use minimum premiums, it must file the minimum premiums it proposes to use.

(11) Supplementary Rate Information.

(a) The RSO files with the commissioner RSO filings containing a revision of rules, relativities and supplementary rate information. These RSO filings include:

(i) policy-writing rules;

(ii) rating plans;

(iii) classification codes and descriptions; and

(iv) territory codes, descriptions, and rules, which include factors or relativities such as, increased limits factors, classification relativities or similar factors.

(b) These filings are made by the RSO on behalf of those insurers that have authorized the RSO to file rules, relativities and supplementary rating information on their behalf.

(c) An RSO may print and distribute a manual of rules, relativities and supplementary rating information.

(d) If an insurer has authorized an RSO to file on its behalf and the insurer decides to use the revisions and effective date then the insurer does NOT file anything with the commissioner.

(e) If an insurer has authorized an RSO to file on its behalf and the insurer decides to use the revisions as filed, BUT with a different effective date, then the insurer must notify the commissioner of the insurer's effective date within 30 days after the RSO's effective date.

(f) If an insurer has authorized an RSO to file on its behalf, but the insurer decides not to use the revision, then the insurer must notify the commissioner within 30-days after the RSO's effective date.

(g) If an insurer has authorized an RSO to file on its behalf, but the insurer decides to use the revision with modification, then within 30-days of the RSO's effective date the insurer must file the modification specifying the basis for the modification and the insurer's effective date.

(12) Consent-to-rate Filing.

(a) Subsection 31A-19a-203(6) allows an insurer to file a written application for a particular risk stating the insurer's reasons for using a higher rate than that otherwise applicable to a risk.

(b) The Filing Description must indicate that it is a consent-to-rate filing, show the filed rate, the proposed rate, and the reasons for the difference.

(13) Individual Risk Filing.

(a) R590-127, "Rate Filing Exemptions", provides for those circumstances when an Individual Risk filing is permitted.

(b) An individual risk filing must be filed with the

commissioner.

(i) The filing shall consist of a copy of the Declarations Page, copies of any pertinent coverage forms and rating schedules, and premium development.

(ii) The Filing Description must indicate that it is an individual risk filing, and contain the underwriter's explanation for the filing.

(14) Information Regarding Dividend Plan.

(a) Sections 31A-19a-210 and 31A-21-310 allow for dividend distributions.

(b) A plan or schedule for the distribution of a dividend developed AFTER THE INCEPTION of a policy is NOT considered a rating plan and does not have to be filed according to the provisions of this rule.

(c) A plan or schedule for the distribution of a dividend applicable to an insurance policy FROM ITS INCEPTION are required to be filed pursuant to Section 31A-21-310.

(15) The Utah Insurance Code allows tiered rating plans within one insurer or insurer group with common ownership.

(a) A filing must show that the tiers are based on mutually exclusive underwriting rules, which are based on clear, objective criteria that would lead to a logical distinguishing of potential risk.

(b) A filing must provide supporting information that shows a clear distinction between the expected losses and expenses for each tier.

(c) If an insurer group is using a tiered rating structure, the group of insurers cannot all file the same loss cost multiplier and then file standard percentage deviations.

(i) A difference must be demonstrated in the loss cost multiplier formula, either as a modification of the RSO prospective loss cost or in the insurer expense factor.

(ii) An individual insurer adjustment or modification must be supported by actuarial data which establishes a reasonable standard for measuring probable insurer variations in historical or prospective experience, underwriting standards, expense and profit factors.

R590-225-9. Additional Procedures for Workers Compensation Rate Filings.

The following are additional procedures for workers' compensation rate filings:

(1) Rates and supplementary information must be filed 30 days before they can be used.

(2)(a) Each insurer must individually determine the rates it will file.

(b) Filed rates.

(i) An insurer's workers' compensation filed rates are the combination of the most current prospective loss cost filed by the designated rate service organization and the insurers loss cost adjustment, known as the loss cost multiplier (LCM), as calculated and filed using the "Utah Worker's Compensation Insurer Loss Cost Multiplier Filing Form."

(ii) Each insurer must implement the designated rate service organization's current prospective loss cost on the effective date assigned by the designated rate service organization. **INSURERS MAY NOT DEFER NOR DELAY ADOPTION.**

(iii) An insurer's filed loss cost multiplier will remain in effect until the insurer withdraws it or files a new loss cost multiplier.

(iv) Upon receipt of subsequent designated rate service organization reference filings, the insurer's filed rates are the combination of the designated RSO's prospective loss cost and the loss cost multiplier contained in the insurer's most current "Utah Loss Cost Multiplier Filing Form" on file with the department.

(3) An insurer may file a modification to the designated rate service organization prospective loss cost in the subject

reference filing based on its own anticipated experience. Supporting documentation will be required for any modifications, upwards or downwards, of the designated rate service organization prospective loss cost.

(4) An insurer may vary expense loads by individual classification or grouping. An insurer may use variable or fixed expense loads or a combination of these to establish its expense loadings. However, an insurer is required to file data in accordance with the uniform statistical plan filed by the designated rate service organization.

(5) When submitting a filing for a workers compensation rating plan, a rating modification plan, or a credit and debit plan, an insurer must include in the filing the following or it will be rejected as incomplete:

(a) a statement identifying the arithmetic process to be used and whether factors will be added or multiplied when applying them to base rates; and

(b) justification for the method used.

(6) To the extent that an insurer's rates are determined solely by applying its loss cost multiplier, as presented in the "Utah Worker's Compensation Insurer Loss Cost Multiplier Filing Forms" to the prospective loss cost contained in a designated rate service organization reference filing and printed in the designated rate service organization's rating manual, the insurer need not develop or file its rate pages with the commissioner. If an insurer chooses to print and distribute rate pages for its own use, based solely upon the application of its filed loss cost multiplier, the insurer need not file those pages with the insurance commissioner.

R590-225-10. Additional Procedures for Title Rate Filings.

(1) Title rate and a supplementary information filing are "File Before Use" filings. Rates and supplementary information shall be filed with the commissioner 30 days prior to use.

(2) Each change or amendment to any schedule of rates shall state the effective date of the change or amendment, which may not be less than 30 days after the date of filing. Any change or amendment remains in force for a period of at least 90 days from its effective date.

(3) Supplementary information and rate filings must be supported and justified by each insurer. Justification must include submission of all factors used in determining initial supplementary information and rates or changes in existing supplementary information and rates along with a complete explanation as to the extent to which each factor has been used.

(4) Rates that vary by risk classification such as extended coverage or standard coverage, and all discount factors, such as refinance, subdivision, or construction for purpose of resale discounts, must be supported by differences in expected losses or expenses.

(5) No rate may be filed or used which would require the title insurer or any title agency or producer to operate at less than the cost of doing business or adequately underwriting the title insurance policies.

R590-225-11. Classification of Documents.

(1) The Department will not classify as protected, certain information in property and casualty rate filings unless these procedures are complied with.

(2) Utah Code Ann. Section 31A-19a-204 requires rates, and supplementary rate information to be open for public inspection. Supporting information in a rate filing is not designated under Utah Code Ann. Section 31A-19a-204 as public information, however, under the Government Records Access and Management Act (GRAMA) supporting information in a rate filing would be considered open for public inspection unless it is classified as private, controlled, or protected. Under GRAMA the Department may classify certain information in a record as private, controlled, or protected. It is clear that the

only category applicable to rate, rule and form filings other than as a public record is as a protected record. If a record is classified as protected, the Department may not disclose the information in the record to third persons specifically and to the public generally.

(3) The only information the Department may classify as protected, absent clear documentation otherwise, in accordance with Utah Code Ann. Section 63G-2-305 is the following items:

(a) Information deemed to be trade secret. Trade secret means information, including a formula, pattern, compilation, program, device, method, technique, or process, that:

(i) derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use; and

(ii) is the subject of efforts that are reasonable under the circumstances to maintain its secrecy.

(b) "Commercial Information and non-individual financial information obtained from a person which:"

(i) disclosure of the information could reasonably be expected to result in unfair competitive injury to the person submitting the information or would impair the ability of the governmental entity to obtain necessary information in the future; and

(ii) the person submitting the information has a greater interest in prohibiting access than the public in obtaining access.

(4) The person submitting the information under either section R590-225-11(3)(a) and or (b) above and claiming that such is or should be protected has provided the governmental entity with the information in Utah Code Ann. Section 63G-2-309(1)(a)(i).

(5) The department will handle supporting information a filer submits as part of a rate filing in the following manner:

(a) The filer will need to request which specific document the filer believes qualifies under GRAMA section 63G-2-305(1) or (2) or both when the filing is submitted; and

(b) the document must include a written statement of reasons supporting the request that the information should be classified as protected.

(c) If the filer does not request the information in the document to be classified as protected, the document will be classified as public.

(d) The Department will not automatically classify any document in a filing as protected.

(e) The Department will not re-open a filing to permit a company to request protected classification of previously filed documents.

(6) Once the filing has been received, the Department will review the documents the filer has requested to be classified as protected to see if it meets the requirements of Utah Code Ann. Section 63G-2-305(1) or (2).

(a) If all the information in the document meets the requirements for being classified as protected and the required statement is included, the document will be classified as protected, and the information will not be available to the public or third parties.

(b) If all the information in the document does not meet the requirements for being classified as protected, the Department will notify the filer of the denial, the reasons therefore, and of the filer's right under GRAMA to appeal the denial. The filer will have 30 days to appeal the denial as allowed by Utah Code Ann. 63G-2-401. Despite the denial of classifying the information as protected, the Department, pursuant to GRAMA, will nonetheless treat the information as if it had been classified as protected until:

(i) the filer has notified the Department that the filer withdraws the request for designation as protected; or

(ii) the 30 day time limit for an appeal to the Commissioner has expired; or

(iii) the filer has exhausted all appeals under GRAMA and the documentation has been found to be a public document.

(c) If the filer combines in the same document, information it wishes to be classified as protected with information that is public, the document will be classified as public.

(7) Filings submitted that show a pattern of requesting non-qualifying items as a protected document may be considered a violation of this rule. This would include putting both protected and public information in one document.

R590-225-12. Correspondence, and Status Checks.

(1) Correspondence. When corresponding with the department, provide sufficient information to identify the original filing:

- (a) type of insurance;
- (b) date of filing; and
- (c) Submission method, SERFF, or email; and
- (d) tracking number

(2) Status Checks.

(a) A complete filing is usually processed within 45 days of receipt.

R590-225-13. Responses.

(1) Response to a Filing Objection Letter. When responding to a Filing Objection letter a filer must:

- (a) provide an explanation identifying all changes made;
- (b) include an underline and strikeout version for each revised document;
- (c) a final version of revised documents that incorporates all changes; and

(d) for filings submitted in SERFF, attach the documents in Subsections R590-225-12(1)(b) and (c) to the appropriate Form Schedule or Rate/Rule Schedule tabs.

(3) Response to an Order to Prohibit Use.

(a) An Order to Prohibit Use becomes final 15 days after the date of the Order.

(b) Use of the filing must be discontinued not later than the date specified in the Order.

(c) To contest an Order to Prohibit Use, the commissioner must receive a written request for a hearing no later than 15 days after the date of the Order.

(d) A new filing is required if the licensee chooses to make the requested changes addressed in the Filing Objection Letter. The new filing must reference the previously prohibited filing.

R590-225-14. Penalties.

A person found to be in violation of this rule shall be subject to penalties as provided under Section 31A-2-308.

R590-225-15. Enforcement Date.

The commissioner will begin enforcing the revised provisions of this rule 15 days from the effective date of this rule.

R590-225-16. Severability.

If any provision of this rule or its application to any person or situation is held to be invalid, that invalidity shall not affect any other provision or application of this rule which can be given effect without the invalid provision or application, and to this end the provisions of this rule are declared to be severable.

5. If the answer filed by the respondents fails to sufficiently explain the basis of the denial, fails to include medical reports or records to support the denial, or contains affirmative defenses without sufficient factual detail to support the affirmative defense, the Division may strike the answer filed and order the respondent to file within 20 days, a new answer which conforms with the requirements of this rule.

6. All answers must state whether the respondent is willing to mediate the claim.

7. Petitioners are allowed to timely amend the Application for Hearing, and respondents are allowed to timely amend the answer, as newly discovered information becomes available that would warrant the amendment. 4. All parties may conduct depositions pursuant to the Utah Rules of Civil Procedure and Section 34A-1-308, Utah Code.

6. Parties shall diligently pursue discovery so as not to delay the adjudication of the claim. If a hearing has been scheduled, discovery motions shall be filed no later than 45 days prior to the hearing unless leave of the administrative law judge is obtained.

The responding party shall have 10 days from the date the discovery motion is mailed to file a response to the discovery motion.

8. Parties conducting discovery under this rule shall maintain mailing certificates and follow up letters regarding discovery to submit in the event Division intervention is necessary to complete discovery. Discovery documents shall not be filed with the Division at the time they are forwarded to opposing parties.

Late-filed medical records may or may not be admitted at the discretion of the administrative law judge by stipulation or for good cause shown.

6. The administrative law judge may require the respondent to submit an additional copy of the joint medical record exhibit in cases referred to a medical panel.

7. The petitioner is responsible to obtain radiographs and diagnostic films for review by the medical panel. The administrative law judge shall issue subpoenas where necessary to obtain radiology films.

I. Hearing.

1. Notices of hearing shall be mailed to the addresses of record of the parties. The parties shall provide current addresses to the Division for receipt of notices or risk the entry of default and loss of the opportunity to participate at the hearing.

If the respondents are dissatisfied with the proposed translator identified by the petitioner, the respondents may provide a qualified translator for the hearing at the respondent's expense.

B. A hearing on objections to the panel report may be scheduled if there is a proffer of conflicting medical testimony showing a need to clarify the medical panel report. Where there is a proffer of new written conflicting medical evidence, the Administrative Law Judge may, in lieu of a hearing, re-submit the new evidence to the panel for consideration and clarification.

C. Any expenses of the study and report of a medical panel or medical consultant and of their appearance at a hearing, as well as any expenses for further medical examination or evaluation, as directed by the Administrative Law Judge, shall be paid from the Uninsured Employers' Fund, as directed by Section 34A-2-601.

1. Commission approval is not required for attorneys fees charged under this subsection B. It is the applicant's responsibility to pay attorneys fees permitted by this subsection B.

2. In all other cases involving payment of applicants' attorneys fees which are not covered by this subsection B., the entire amount of such attorneys fees are subject to subsection C. or D. of this rule.

C. Except for legal services compensated under subsection B. of this rule, all legal services provided to applicants shall be compensated on a contingent fee basis.

1. For purposes of this subsection C., the following definitions and limitations apply:

a. The term "benefits" includes only death or disability compensation and interest accrued thereon.

b. Benefits are "generated" when paid as a result of legal services rendered after Adjudication Form 152 Appointment of Counsel form is signed by the applicant. A copy of this form must be filed with the Commission by the applicant's attorney.

c. In no case shall an attorney collect fees calculated on more than the first 312 weeks of any and all combinations of workers' compensation benefits.

2. Fees and costs authorized by this subsection shall be deducted from the applicant's benefits and paid directly to the attorney on order of the Commission. A retainer in advance of a Commission approved fee is not allowed.

R657-41-3. Determining the Number of Conservation and Sportsman Permits.

(1) The number of conservation permits authorized by the Wildlife Board shall be based on:

(a) the species population trend, size, and distribution to protect the long-term health of the population;

(b) the hunting and viewing opportunity for the general public, both short and long term; and

(c) the potential revenue that will support protection and enhancement of the species.

(2) One statewide conservation permit may be authorized for each conservation permit species.

(3) A limited number of area conservation permits may be authorized as follows:

(a) the potential number of multi-year and single year permits available for Rocky Mountain bighorn sheep and desert bighorn sheep will be calculated based on the number permits issued the year prior to the permits being awarded using the following rule:

(i) 5-14 public permits = 1 conservation permit, 15-24 public permits = 2 conservation permits, 25-34 public permits = 3 conservation permits, 35-44 permits = 4 conservation permits, 45-54 public permits = 5 conservation permits, 55-64 = 6 conservation permits, 65-74 public permits = 7 conservation permits and >75 public permits = 8 conservation permits.

(b) the potential number of multi-year and single year permits available for the remaining conservation permit species will be calculated based on the number permits issued the year prior to the permits being awarded using the following rule:

(i) 11-30 public permits = 1 conservation permit, 31-50 public permits = 2 conservation permits, 51-70 public permits = 3 conservation permits, 71-90 permits = 4 conservation permits, 91-110 public permits = 5 conservation permits, 111-130 = 6 conservation permits, 131-150 public permits = 7 conservation permits and >150 public permits = 8 conservation permits.

(4) The number of conservation permits may be reduced if the number of public permits declines during the time period or which multi-year permits were awarded.

(5) The actual number of conservation and sportsman permits available for use will be determined by the Wildlife Board.

(6) Area conservation permits shall be deducted from the number of public drawing permits.

(7) One sportsman permit shall be authorized for each statewide conservation permit authorized.

(8) All area conservation permits are eligible as multi-year permits except that the division may designate some area

conservation permits as single year permits based on the applications received for single year permits.

(9) All statewide permits will be multi-year permits except for a second statewide permit issued for a special event.

R657-41-4. Eligibility for Conservation Permits.

(1) Statewide and area conservation permits may be awarded to eligible conservation organizations to market and sell, or to use as an aid in wildlife related fund raising activities.

(2) To be eligible for multi-year conservation permits, a conservation organization must have generated in conservation permit sales during the previous three year period at least one percent of the total revenue generated by all conservation organizations in conservation permit sales during the same period. Conservation organizations eligible for multi-year permits may not apply for single year permits, and conservation organizations ineligible for multi-year permits may only apply for single year permits.

(3) Conservation organizations applying for single year permits may not:

(a) bid for or obtain conservation permits if any employee, officer, or board of director member of the conservation organization is an employee, officer, or board of director member of any other conservation organization that is submitting a bid for single year conservation permits; or

(b) enter into any pre-bidding discussions, understandings or agreements with any other conservation organization submitting a bid for conservation permits regarding:

(i) which permits will be sought by a bidder;

(ii) what amounts will be bid for any permits; or

(iii) trading, exchanging, or transferring any permits after permits are awarded.

R657-41-5. Applying for Conservation Permits.

(1)(a) Conservation organizations may apply for conservation permits by sending an application to the division.

(b) Only one application per conservation organization may be submitted. Multiple chapters of the same conservation organization may not apply individually.

(c) Conservation organizations may apply for single year conservation permits or multi-year conservation permits. They may not apply for both types of conservation permits.

(2) The application must be submitted to the division by September 1 to be considered for the following year's conservation permits. Each application must include:

(a) the name, address and telephone number of the conservation organization;

(b) a copy of the conservation organization's mission statement;

(c) verification of the conservation organization's tax exempt status under Internal Revenue Code, Section 501C-3 as amended; and

(d) the name of the president or other individual responsible for the administrative operations of the conservation organization;

(3) If applying for single year conservation permits, a conservation organization must also include in its application:

(a) the proposed bid amount for each permit requested. The proposed bid amount is the revenue the organization anticipates to be raised from a permit through auction or other lawful fund raising activity.

(b) certification that there are no conflicts of interest or collusion in submitting bids as prohibited in R657-41-4(3);

(c) acknowledgement that the conservation organization recognizes that falsely certifying the absence of collusion may result in cancellation of permits, disqualification from bidding for five years or more, and the filing of criminal charges;

(d) evidence that the application and bid has been reviewed and approved by the board of directors of the bidding

conservation.

(e) the type of permit, and the species for which the permit is requested; and

(f) any requested variances for an extended season or legal weapon choice for area conservation permits.

(4) An application that is incomplete or completed incorrectly may be rejected.

(5) The application of a conservation organization for conservation permits may be denied for:

(a) failing to fully report on the preceding year's conservation permits;

(b) violating any provision of this rule, Title 23 of the Utah Code, Title R657 of the Utah Administrative Code, a division proclamation, or an order of the Wildlife Board; or

(c) violating any other law that bears a reasonable relationship to the applicant's ability to responsibly and lawfully handle conservation permits pursuant to this rule.

R657-41-6. Awarding Single Year Conservation Permits.

(1) The division shall recommend the conservation organization to receive each single year conservation permit based on:

(a) the bid amount pledged to the species, adjusted by:

(i) the performance of the organization over the previous two years in meeting proposed bids;

(ii) 90% of the bid amount;

(iii) the organizations maintaining a minimum two-year average performance of 70% to be eligible for consideration of permits. Performance of the organization is the proportion of the total revenue generated from permit sales, divided by 90% of the bid amount for all permits, calculated annually and averaged for the last two years.

(b) if two or more conservation organizations are tied using the criteria in Subsection (a), the closeness of the organization's purpose to the species of the permit; and

(c) if two or more conservation organizations are tied using the criteria in Subsection (a) and (b), the geographic closeness of the organization to the location of the permit.

(2)(a) Between the time the division recommends that a conservation permit be awarded to a conservation organization and the time the Wildlife Board approves that recommendation, a conservation organization may withdraw its application for any given permit or exchange its application with another conservation organization without penalty, provided the bid amount upon which the permit application was evaluated is not changed.

(b) If a conservation organization withdraws its bid and the bid is awarded to another organization at a lower amount, then the difference between the two bids will be subtracted from the organization making the higher bid for purposes of evaluating organization performance.

(3) The Wildlife Board shall make the final assignment of conservation permits at a meeting prior to December 1 annually.

(4) The Wildlife Board may authorize a conservation permit to a conservation organization, other than the conservation organization recommended by the division, after considering the:

(a) division recommendation;

(b) benefit to the species;

(c) historical contribution of the organization to the conservation of wildlife in Utah;

(d) previous performance of the conservation organization; and

(e) overall viability and integrity of the conservation permit program.

(5) The total of all bids for permits awarded to any one organization shall not exceed \$20,000 the first year an organization receives permits.

(6) The number of permits awarded to any one

organization shall not increase by more than 100% from the previous year.

(7) If the Wildlife Board authorizes a second statewide conservation permit for a species, the conservation organization receiving the permit must meet the division designated bid for that permit.

R657-41-7. Awarding Multi-Year Conservation Permits.

(1) Distribution of multi-year conservation permits will be based on a sequential selection process where each eligible conservation organization is assigned a position or positions in the selection order among the other participating organizations and awarded credits with which to purchase multi-year permits at an assigned value. The selection process and other associated details are as follows.

(2) Multi-year permits will be awarded to eligible conservation organizations for no more than three years.

(3) The division will determine the number of permits available as multi-year permits after subtracting the proposed number of single year permits.

(a) Season types for multi-year area conservation permits for elk on any given hunt unit will be designated and assigned in the following order:

- (i) first permit -- premium;
- (ii) second permit -- any-weapon;
- (iii) third permit -- any-weapon;
- (iv) fourth permit -- archery;
- (v) fifth permit -- muzzleloader;
- (vi) sixth permit -- premium;
- (vii) seventh permit -- any-weapon; and
- (viii) eighth permit -- any-weapon.

(b) Season types for multi-year area conservation permits for deer on any given hunt unit will be designated and assigned in the following order:

- (i) first permit -- hunter choice of season;
- (ii) second permit -- hunter choice of season;
- (iii) third permit -- muzzleloader;
- (iv) fourth permit -- archery;
- (v) fifth permit -- any-weapon;
- (vi) sixth permit -- any-weapon;
- (vii) seventh permit -- muzzleloader; and
- (viii) eighth permit -- archery.

(4) The division will assign a monetary value to each multi-year permit based on the average return for the permit during the previous three year period. If a history is not available, the value will be estimated.

(5) The division will determine the total annual value of all multi-year permits.

(6)(a) The division will calculate a market share for each eligible conservation organization applying for multi-year permits.

(b) Market share will be calculated and determined based on:

- (i) the conservation organization's previous three years performance;
- (ii) all conservation permits (single and multi-year) issued to a conservation organization except for special permits allocated by the Wildlife Board outside the normal allocation process.
- (iii) the percent of conservation permit revenue raised by a conservation organization during the three year period relative to all conservation permit revenue raised during the same period by all conservation organizations applying for multi-year permits.

(7) The division will determine the credits available to spend by each group in the selection process based on their market share multiplied by the total annual value of all multi-year permits.

(8) The division will establish a selection order for the

participating conservation organizations based on the relative value of each groups market share as follows:

(a) groups will be ordered based on their percent of market share;

(b) each selection position will cost a group 10% of the total market share except the last selection by a group will cost whatever percent a group has remaining;

(c) no group can have more than three positions in the selection order; and

(d) the selection order will be established as follows:

(i) the group with the highest market share will be assigned the first position and ten percent will be subtracted from their total market share;

(ii) the group with the highest remaining market share will be assigned the second position and ten percent will be subtracted from their market share; and

(iii) this procedure will continue until all groups have three positions or their market share is exhausted.

(9) At least two weeks prior to the multi-year permit selection meeting, the division will provide each conservation organization applying for multi-year permits the following items:

(a) a list of multi-year permits available with assigned value;

(b) documentation of the calculation of market share;

(c) credits available to each conservation group to use in the selection process;

(d) the selection order; and

(e) date, time and location of the selection meeting.

(10) Between the establishing of the selection order and the selection meeting, groups may trade or assign draw positions, but once the selection meeting begins draw order cannot be changed.

(11) At the selection meeting, conservation organizations will select permits from the available pool according to their respective positions in the selection order. For each permit selected, the value of that permit will be deducted from the conservation organization's available credits. The selection order will repeat itself until all available credits are used or all available permits are selected.

(12) Conservation organizations may continue to select a single permit each time their turn comes up in the selection order until all available credits are used or all available permits are selected.

(13) A conservation organization may not exceed its available credits except a group may select their last permit for up to 10% of the permit value above their remaining credits.

(14) Upon completion of the selection process, but prior to the Wildlife Board meeting where final assignment of permits are made, conservation organizations may trade or assign permits to other conservation organizations eligible to receive multi-year permits. The group receiving a permit retains the permit for the purposes of marketing and determination of market share for the entire multi-year period.

(15) Variances for an extended season or legal weapon choice may be obtained only on area conservation permits and must be presented to the Wildlife Board prior to the final assignment of the permit to the conservation organization.

(16) Conservation organizations may not trade or transfer multi-year permits to other organizations once assigned by the Wildlife Board.

(17) Conservation organizations failing to comply with the reporting requirements in any given year during the multi-year period shall lose the multi-year conservation permits for the balance of the multi-year award period.

(18) If a conservation organization is unable to complete the terms of marketing the assigned permits, the permits will be returned to the regular public drawing process for the duration of the multi-year allocation period.

R657-41-8. Distributing Conservation Permits.

(1) The division and conservation organization receiving permits shall enter into a contract.

(2)(a) The conservation organization receiving permits must insure that the permits are marketed and distributed by lawful means. Conservation permits may not be distributed in a raffle except where the following conditions are met:

(i) the conservation organization obtains and provides the division with a written opinion from a licensed attorney or a written confirmation by the local district or county attorney that the raffle scheme is in compliance with state and local gambling laws;

(ii) except as otherwise provided in R657-41-8(5), the conservation organization does not repurchase, directly or indirectly, the right to any permit it distributes through the raffle;

(iii) the conservation organization prominently discloses in any advertisement for the raffle and at the location of the raffle that no purchase is necessary to participate; and

(iv) the conservation organization provides the division with a full accounting of any funds raised in the conservation permit raffle, and otherwise accounts for and handles the funds consistent with the requirement in Utah Admin. Code R657-41-9.

(3) The conservation organization must:

(i) obtain the name of the proposed permit recipient at the event where the permit recipient is selected; and

(ii) notify the division of the proposed permit recipient within 30 days of the recipient selection or the permit may be forfeited.

(4) If a person is selected by a qualified organization to receive a conservation permit and is also successful in obtaining a permit for the same species in the same year through the a division drawing, that person may designate another person to receive the conservation permit, provided the conservation permit has not been issued by the division to the first selected person.

(5) If a person is selected by a qualified organization to receive a conservation permit, but is unable to use the permit, the conservation organization may designate another person to receive the permit provided:

(a) the conservation organization selects the new recipient of the permit;

(b) the amount of money received by the division for the permit is not decreased;

(c) the conservation organization relinquishes to the division and otherwise uses all proceeds generated from the re-designated permit, pursuant to the requirements provided in Section R657-41-9;

(d) the conservation organization and the initial designated recipient of the permit, sign an affidavit indicating the initial designated recipient is not profiting from transferring the right to the permit; and

(e) the permit has not been issued by the division to the first designated person.

(6) Except as otherwise provided under Subsections (4) and (5), a person designated by a conservation organization as a recipient of a conservation permit, may not sell or transfer the rights to that designation to any other person. This does not preclude a person from bidding or otherwise lawfully acquiring a permit from a conservation organization on behalf of another person who will be identified as the original designated recipient.

(7) A person cannot obtain more than one conservation permit for a single conservation permit species per year, except for:

(a) elk, provided no more than two permits are obtained where one or both are antlerless permits; and

(b) turkey.

(8) the person designated on a conservation permit voucher must possess or obtain a current Utah hunting or combination license to redeem the voucher for the corresponding conservation permit.

R657-41-9. Conservation Permit Funds and Reporting.

(1) All permits must be marketed by September 1, annually.

(2) Within 30 days of the last event, but no later than September 1 annually, the conservation organization must submit to the division:

(b) the total funds raised on each permit;

(c) the funds due to the division; and

(d) a report on the status of each project funded in whole or in part with retained conservation permit revenue.

(3)(a) Permits shall not be issued until the permit fees are paid to the division.

(b) If the conservation organization is paying the permit fees for the permit recipient, the fees must be paid from the 10% retained by the conservation organization as provided in Subsection (5)(a).

(4)(a) Conservation organizations shall remit to the division by September 1 of each year 30% of the total revenue generated by conservation permit sales in that year.

(b) The permit revenue payable to the division under Subsection (4)(a), excluding accrued interest, is the property of the division and may not be used by conservation organizations for projects or any other purpose.

(c) The permit revenue must be placed in a federally insured account promptly upon receipt and remain in the account until remitted to the division on or before September 1 of each year.

(d) The permit revenue payable to the division under this subsection shall not be used by the conservation organization as collateral or commingled in the same account with the organization's operation and administration funds, so that the separate identity of the permit revenue is not lost.

(e) Failure to remit 30% of the total permit revenue to the Division by the September 1 deadline may result in criminal prosecution under Title 76, Chapter 6, Part 4 of the Utah Code, and may further disqualify the conservation organization from obtaining any future conservation permits.

(5) A conservation organization may retain 70% of the revenue generated from the sale of conservation permits as follows:

(a) 10% of the revenue may be withheld and used by the conservation organization for administrative expenses.

(b) 60% of the revenue may be retained and used by the conservation organization only for eligible projects as provided in subsections (i) through (ix).

(b) an employee of a governmental agency that is specifically identified and authorized by federal or state law to receive the information;

(c) an employee of a governmental agency to the extent the information will aid in the detection or avoidance of duplicate, inconsistent, or fraudulent claims against public assistance programs, or the recovery of overpayments of public assistance funds;

(d) an employee of a law enforcement agency to the extent the disclosure is necessary to avoid a significant risk to public safety or to aid a felony criminal investigation except no information regarding a client receiving food stamps can be provided under this paragraph;

(e) to a law enforcement officer when the client is fleeing to avoid prosecution, custody or confinement for a felony or is in violation of a condition of parole or probation or when the client has information which will assist a law enforcement officer in locating or apprehending an individual who is fleeing to avoid prosecution, custody or confinement for a felony or is in violation of a condition of parole or probation and the officer is acting in his official capacity. The only information under this paragraph which can be released on a client receiving food stamps is the client's address, SSN and photographic identification;

Under this paragraph, the Department can release to the law enforcement official, more than just the client's address, SSN and photo identification;

(g) an educational institution, or other governmental entity engaged in programs providing financial assistance or federal needs-based assistance, job training, child welfare or protective services, foster care or adoption assistance programs, and to individuals or other agencies or organizations who, at the request of the Department, are coordinating services and

Any information provided under this part will be safeguarded by the individual or agency receiving the information and will only be used for the purpose expressed in its release.

(5) Any information released under paragraph (4) above can only be released if the Department receives assurances that:

(a) the information being released will only be used for the purposes stated when authorizing the release; and

(b) the agency making the request has rules for safeguarding the information which are at least as restrictive as the rules followed by the Department and that those rules will be adhered to.

(8) For clients receiving CC, the Department may provide limited additional information to the child care provider identified by the client as the provider as provided in R986-700-703.

(9) Taxpayer requests to view public assistance payrolls will be denied.

R986-100-111. How to Apply For Assistance.

(1) To be eligible for assistance, a client must complete and sign an application for assistance.

(2) The application is not complete until the applicant has provided complete and correct information and verification as requested by the Department so eligibility can be determined or re-established at the time of review at the end of the certification period. The client must agree to provide correct and complete information to the Department at all times to remain eligible. This includes:

(a) property or other assets owned by all individuals included in the household unit;

(b) insurance owned by any member of the immediate family;

(c) income available to all individuals included in the household unit;

(d) a verified SSN for each household member receiving assistance. If any household member does not have a SSN, the client must provide proof that the number has been applied for. If a client fails to provide a SSN without good cause, or if the application for a SSN is denied for a reason that would be disqualifying, assistance will not be provided for that household member. Good cause in this paragraph means the client has made every effort to comply. Good cause does not mean illness, lack of transportation or temporary absence because the SSA makes provisions for mail-in applications in lieu of applying in person. Good cause must be established each month for continued benefits;

(e) the identity of all individuals who are living in the household regardless of whether they are considered to be in the household assistance unit or not;

(f) proof of relationship for all dependent children in the household. Proof of relationship is not needed for food stamps or child care; and

(g) a release of information, if requested, which would allow the Department to obtain information from otherwise

protected sources when the information requested is necessary to establish eligibility or compliance with program requirements.

(3) All clients, including those not required to participate in an employment plan, will be provided with information about applicable program opportunities and supportive services.

R986-100-112. Assistance Cannot Be Paid for Periods Prior to Date of Application.

(1) Assistance payments for any program listed in Section 102 above cannot be made for any time period prior to the day on which the application for assistance was received by the Department.

(2) If an application for assistance is received after the first day of the month, and the client is eligible to receive assistance, payment for the first month is prorated from the date of the application.

(3) If additional verifying information is needed to complete an application, it must be provided within 30 days of the date the application was received. If the client is at fault in not providing the information within 30 days, the first day the client can be eligible is the day on which the verification was received by the Department.

(4) If the verification is not received within 60 days of the date the application was received by the Department, a new application is required and assistance payments cannot be made for periods prior to the date the new application is received.

(5) If an application for assistance was denied and no appeal taken within 90 days, or a decision unfavorable to the client was issued on appeal, assistance cannot be claimed, requested, or paid for that time period.

R986-100-113. A Client Must Inform the Department of All Material Changes.

(1) A material change is any change which might affect eligibility.

(2) Households receiving assistance must report all material changes to the Department as follows:

(a) households receiving food stamps must report a change in the household's gross income if the income exceeds 130% of the federal poverty level. The change must be reported within ten days of the change occurring; and

(b) households receiving GA, WTE, FEP, FEPTP, AA and RRP that do not meet the requirements of paragraph (2)(a) must report the following changes within ten days of the change occurring:

(i) if the household's gross income exceeds 185% of the adjusted standard needs budget;

(ii) a change of address; and

(iii) if the only eligible child leaves the household and the household receives FEP, FEPTP or AA.

(3) Households that do not meet the requirements of paragraph (2)(a) of this section will be assigned a review month. In addition to the ten-day reporting requirements listed in paragraphs (2)(b) and (c) of this section, the household must report, by the last day of the review month, all material changes that have occurred since the last review, or the date of application if it is the first review. The household is also required to accurately complete all review forms and reports as requested by the Department.

(4) Most changes which result in an increase of assistance will become effective the month following the month in which the report of the change was made. If verification is necessary, verification and changes will be made in the month following the month in which verification was received. If the change is to add a person to the household, the person will be added effective on the date reported, provided necessary verification is received within 30 days of the change. If verification is received after 30 days, the increase will be made effective the date verification was received.

R986-100-114. A Client's Continuing Obligation to Provide Verification and Information.

(1) A client who is eligible for assistance must provide additional verification and information, which may affect household eligibility or ongoing eligibility, after the application is approved if requested by the Department.

(2) The client must provide information to determine if eligibility was appropriately established and if payments made under these rules were appropriate. This information may be requested by an employee of the Department or a person authorized to obtain the information under contract with the Department such as an employee of ORS.

R986-100-114a. Determining When a Document or Information is Considered Received by the Department.

(1) The date of receipt of a document filed with the Department is the date the document is actually received by the Department and not the post mark date. Any document or information received after 5 p.m. by Fax, postal mail, email or hand delivery, will be considered received the next day Department offices are open. If an application for assistance or other information is filed through the "myCase" system, it will be considered received the day it was filed online even if it is filed after 5 p.m. or on a Saturday, Sunday, or legal holiday.

(2) If a document has a due date and that due date falls on a Saturday, Sunday, or legal holiday, the time permitted for filing the document will be extended to 5 p.m. on the next day Department offices are open.

(3) "Document" as used in this section means application for assistance, verification, report, form and written notification of any kind.

(4) A verbal report or notification will be considered received on the date the client talks to a Department representative. A voice message received after 5 p.m. will be considered received the next day Department offices are open.

R986-100-115. Underpayment Due to an Error on the Part of the Department.

(1) If it is determined that a client was entitled to assistance but, due to an error on the part of the Department, assistance was not paid, the Department will correct its error and make retroactive payment.

(2) If a client receives assistance payments and it is later discovered that due to Department error the assistance payment should have been made at a higher level than the client actually received, retroactive payment will be made to correct the Department's error.

(3) If the client's public assistance was terminated due to the error, the client will be notified and assistance, plus any retroactive payments, will commence immediately.

(4) An underpayment found to have been made within the last 12 calendar months will be corrected and issued to the client. Errors which resulted in an underpayment which were made more than 12 months prior to the date of the discovery of the error are not subject to a retroactive payment.

(5) Retroactive payment under this section cannot be made for any month prior to the date on which the application for assistance was completed.

(6) The client must not have been at fault in the creation of the error.

R986-100-116. Overpayments.

(1) A client is responsible for repaying any overpayment for any program listed in R986-100-102 regardless of who was at fault in creating the overpayment.

(2) Underpayments may be used to offset an overpayment for the same program.

(3) If a change is not reported as required by R986-100-113 it may result in an overpayment.

(4) The Department will collect overpayments for all programs listed in R986-100-102 as provided by federal regulation for food stamps unless otherwise noted in this rule or inconsistent with federal regulations specific to those other programs.

(5) This rule will apply to overpayments determined under contract with the Department of Health.

(6) If an obligor has more than one overpayment account and does not tell the Department which account to credit, the Department will make that determination.

R986-100-117. Disqualification For Fraud (Intentional Program Violations or IPV's).

(1) Any person, including a child care provider, who is at fault in obtaining or attempting to obtain, an overpayment of assistance, as defined in Section 35A-3-602 from any of the programs listed in R986-100-102 or otherwise intentionally breaches any program rule either personally or through a representative is guilty of an intentional program violation (IPV). Acts which constitute an IPV include but are not limited to:

- (a) knowingly making false or misleading statements;
- (b) misrepresenting, concealing, or withholding facts or information;
- (c) posing as someone else;
- (d) knowingly taking or accepting a public assistance payment the party knew or should have known they were not eligible to receive or not reporting the receipt of a public assistance payment the individual knew or should have known they were not eligible to receive;
- (e) not reporting a material change as required by and in accordance with these rules;
- (f) committing an act intended to mislead, misrepresent, conceal or withhold facts or propound a falsity; or

 - (i) exclusively or primarily sells intoxicating liquor,
 - (ii) allows gambling or gaming, or
 - (iii) provides adult-oriented entertainment where performers disrobe or perform unclothed.

(2) An IPV occurs when a person commits any of the above acts in an attempt to obtain, maintain, increase or prevent the decrease or termination of any public assistance payment(s).

(3) When the Department determines or receives notice from a court that fraud or an IPV has occurred, the client is disqualified from receiving assistance of the same type for the time period as set forth in rule, statute or federal regulation.

(4) Disqualifications run concurrently.

(5) All income and assets of a person who has been disqualified from assistance for an IPV continue to be counted and affect the eligibility and assistance amount of the household assistance unit in which the person resides.

(6) If an individual has been disqualified in another state, the disqualification period for the IPV in that state will apply in Utah provided the act which resulted in the disqualification would have resulted in a disqualification had it occurred in Utah. If the individual has been disqualified in another state for an act which would have led to disqualification had it occurred in Utah and is found to have committed an IPV in Utah, the prior periods of disqualification in any other state count toward determining the length of disqualification in Utah.

(7) The client will be notified that a disqualification period has been determined. The disqualification period shall begin no later than the second month which follows the date the client receives written notice of the disqualification and continues in consecutive months until the disqualification period has expired.

(8) Nothing in these rules is intended to limit or prevent a

criminal prosecution for fraud based on the same facts used to determine the IPV.

R986-100-118. Additional Penalty for a Client Who Intentionally Misrepresents Residence.

A person who has been convicted in federal or state court of having made a fraudulent statement or representation with respect to the place of residence in order to receive assistance simultaneously from two or more states is disqualified from receiving assistance for any and all programs listed in R986-100-102 above, for a period of 10 years. This applies even if Utah was not one of the states involved in the original fraudulent misrepresentation.

R986-100-118a. Improper Access of Public Assistance Benefits.

(1) A client may not access assistance payments through an electronic benefit transfer, including through an automated teller machine or point-of-sale device, in an establishment in the state that;

- (a) exclusively or primarily sells intoxicating liquor,
- (b) allows gambling or gaming, or
- (c) provides adult-oriented entertainment where performers disrobe or perform unclothed.

(2) Violation of the provisions of subsection (1) of this section will result in;

- (a) a warning letter for the first offense,
- (b) a one month disqualification for the second offense, and

(c) a three month disqualification for the third and all subsequent offenses.

R986-100-119. Reporting Possible Child Abuse or Neglect.

When a Department employee has reason to believe that a child has been subjected to abuse or neglect, it shall be reported under the provisions of Section 62A-4a-401 et seq.

R986-100-120. Discrimination Complaints.

(1) Complaints of discrimination can be made in person, by phone, or in writing to the local office, the Office of the Executive Director or the Director's designee, the Department's Equal Opportunity Officer, or the appropriate Federal agency.

(2) Complaints shall be resolved and responded to as quickly as possible.

(3) A record of complaints will be maintained by the local office including the response to the complaint.

(4) If a complaint is made to the local office, a copy of the complaint together with a copy of the written response will be sent to the Office of the Executive Director or the Director's designee.

(5) Discrimination complaints pertaining to the Food Stamp Program will also be sent to the Secretary of Agriculture or the Administrator of Food and Nutrition Service, Washington, D.C., 20250 in accordance with the provisions of 7 CFR 272.6 (1999).

R986-100-121. Agency Conferences.

(1) Agency conferences are used to resolve disputes between the client and Department staff.

(2) Clients or Department staff may request an agency conference at any time to resolve a dispute regarding a denial or reduction of assistance.

(3) Clients may have an authorized representative attend the agency conference.

(4) An agency conference will be attended by the client's employment counselor and the counselor's supervisor unless the client or the supervisor request that the employment counselor not attend the conference.

(5) If an agency conference has previously been held on

the same dispute, the Department may decline to hold the requested conference if, in the judgment of the employment counselor's supervisor, it will not result in the resolution of the dispute.

(6) If the Department requests the agency conference and the client fails to respond, attend or otherwise cooperate in this process, documentation in the case file of attempts by the staff to follow these steps will be considered as compliance with the requirement to attempt to resolve the dispute.

(7) An agency conference may be held after a client has made a request for hearing in an effort to resolve the dispute. If so, the client must be notified that failure to participate or failure to resolve the dispute at the agency conference will not affect the client's right to proceed with the hearing.

R986-100-122. Advance Notice of Department Action.

(1) Except as provided in (2) below, clients will be notified in writing when a decision concerning eligibility, amount of assistance payment or action on the part of the Department which affects the client's eligibility or amount of assistance has been made. Notice will be sent prior to the effective date of any action to reduce or terminate assistance payments. The Department will send advance notice of its intent to collect overpayments or to disqualify a household member.

(2) Except for overpayments, advance notice is not required when:

- (a) the client requests in writing that the case be closed;
- (b) the client has been admitted to an institution under governmental administrative supervision;
- (c) the client has been placed in skilled nursing care, intermediate care, or long-term hospitalization;
- (d) the client's whereabouts are unknown and mail sent to the client has been returned by the post office with no forwarding address;
- (e) it has been determined the client is receiving public assistance in another state;
- (f) a child in the household has been removed from the home by court order or by voluntary relinquishment;
- (g) a special allowance provided for a specific period is ended and the client was informed in writing at the time the allowance began that it would terminate at the end of the specified period;
- (h) a household member has been disqualified for an IPV in accordance with 7 CFR 273.16, or the benefits of the remaining household members are reduced or terminated to reflect the disqualification of that household member;
- (i) the Department has received factual information confirming the death of a client or payee if there is no other relative able to serve as a new payee;
- (j) the client's certification period has expired;
- (k) the action to terminate assistance is based on the expiration of the time limits imposed by the program;
- (l) the client has provided information to the Department, or the Department has information obtained from another reliable source, that the client is not eligible or that payment should be reduced or terminated;
- (m) the Department determines that the client willfully withheld information or;
- (n) when payment of financial assistance is made after performance under R986-200-215 and R986-400-454 no advance notice is needed when performance requirements are not met.

(3) For food stamp recipients and recipients of assistance under R986-300, no action will be taken until ten days after notice was sent unless one of the exceptions in (2)(a) through (k) above apply.

(4) Notice is complete if sent to the client's last known address. If notice is sent to the client's last known address and

the notice is returned by the post office or electronically with no forwarding address, the notice will be considered to have been properly served. If a client elects to receive correspondence electronically, notice is complete when sent to the client's last known email address and/or posted to the client's Department sponsored web page.

R986-100-123. The Right To a Hearing and How to Request a Hearing.

(1) A client has the right to a review of an adverse Department action by requesting a hearing.

(2) In cases where the Department sends notice of its intent to take action to collect an alleged overpayment but there is no alleged overpayment of food stamps, the client must request a hearing in writing or orally within 30 days of the date of notice of agency action. In all other cases, the client must request a hearing in writing or orally within 90 days of the date of the notice of agency action with which the client disagrees.

(3) Only a clear expression by the client to the effect that the client wants an opportunity to present his or her case is required.

(4) The request for a hearing can be made at the local office or the Division of Adjudication.

(5) If the client disagrees with the level of food stamp benefits paid or payable, the client can request a hearing within the certification period, even if that is longer than 90 days.

(6) If a request for restoration of lost food stamp benefits is made within one year of the loss of benefits a client may request a hearing within 90 days of the date of the denial of restoration.

(7) In the case of an overpayment and/or IPV the obligor may contact the presiding officer and attempt to resolve the dispute. If the dispute cannot be resolved, the obligor may still request a hearing provided it is filed within the time limit provided in the notice of agency action.

R986-100-124. How Hearings Are Conducted.

(1) Hearings are held at the state level and not at the local level.

(2) Where not inconsistent with federal law or regulation governing hearing procedure, the Department will follow the Utah Administrative Procedures Act.

(3) Hearings for all programs listed in R986-100-102 and overpayments and IPV's in Section 35A-3-601 et seq. are declared to be informal.

(4) Hearings are conducted by an ALJ or a Hearing Officer in the Division of Adjudication. A Hearing Officer has all of the same rights, duties, powers and responsibilities as an ALJ under these rules and the terms are interchangeable.

(5) Hearings are scheduled as telephone hearings. Every party wishing to participate in the telephone hearing must call the Division of Adjudication before the hearing and provide a telephone number where the party can be reached at the time of the hearing. If the client fails to call in advance, as required by the notice of hearing, the appeal will be dismissed.

(6) If a client requires an in-person hearing, the client must contact an ALJ and request that the hearing be scheduled as an in-person hearing. The request should be made sufficiently in advance of the hearing so that all other parties may be given notice of the change in hearing type and the opportunity to appear in person also. Requests will only be granted if the client can show that an in-person hearing is necessary to accommodate a special need or if the ALJ deems an in-person hearing is necessary to ensure an orderly and fair hearing which meets due process requirements. If the ALJ grants the request, all parties will be informed that the hearing will be conducted in person. Even if the hearing is scheduled as an in-person hearing, a party may elect to participate by telephone. In-person hearings are held in the office of the Appeals Unit unless the

ALJ determines that another location is more appropriate. A client can participate from the local Employment Center.

(7) the Department is not responsible for any travel costs incurred by the client in attending an in-person hearing.

(8) the Division of Adjudication will permit collect calls from parties and their witnesses participating in telephone hearings.

R986-100-125. When a Client Needs an Interpreter at the Hearing.

(1) If a client notifies the Department that an interpreter is needed at the time the request for hearing is made, the Department will arrange for an interpreter at no cost to the client.

(2) If an interpreter is needed at the hearing by a client or the client's witness(es), the client may arrange for an interpreter to be present at the hearing who is an adult with fluent ability to understand and speak English and the language of the person testifying, or notify the Division of Adjudication at the time the appeal is filed that assistance is required in arranging for an interpreter.

R986-100-126. Procedure For Use of an Interpreter.

(1) The ALJ will be assured that the interpreter:

(a) understands the English language; and

(b) understands the language of the client or witness for whom the interpreter will interpret.

(2) The ALJ will instruct the interpreter to interpret, word for word, and not summarize, add, change, or delete any of the testimony or questions.

(3) The interpreter will be sworn to truthfully and accurately translate all statements made, all questions asked, and all answers given.

(4) The interpreter will be instructed to translate to the client the explanation of the hearing procedures as provided by the ALJ.

R986-100-127. Notice of Hearing.

(1) All interested parties will be notified by mail at least 10 days prior to the hearing.

(2) Advance written notice of the hearing can be waived if the client and Department agree.

(3) The notice shall contain:

(a) the time, date, and place, or conditions of the hearing.

If the hearing is to be by telephone, the notice will provide the number for the client to call and a notice that the client can call the number collect;

(b) the legal issues or reason for the hearing;

(c) the consequences of not appearing;

(d) the procedures and limitations for requesting rescheduling; and

(e) notification that the client can examine the case file prior to the hearing.

(4) If a client has designated a person or professional organization as the client's agent, notice of the hearing will be sent to that agent. It will be considered that the client has been given notice when notice is sent to the agent.

(5) When a new issue arises during the hearing or under other unusual circumstances, advance written notice may be waived, if the Department and the client agree, after a full verbal explanation of the issues and potential results.

(6) The client must notify any representatives, including counsel and witnesses, of the time and place of the hearing and make necessary arrangements for their participation.

(7) The notice of hearing will be translated, either in writing or verbally, for certain clients participating in the RRP program in accordance with RRP regulations.

R986-100-128. Hearing Procedure.

(1) Hearings are not open to the public.

(2) A client may be represented at the hearing. The client may also invite friends or relatives to attend as space permits.

(3) Representatives from the Department or other state agencies may be present.

(4) All hearings will be conducted informally and in such manner as to protect the rights of the parties. The hearing may be recorded.

(5) All issues relevant to the appeal will be considered and decided upon.

(6) The decision of the ALJ will be based solely on the testimony and evidence presented at the hearing.

(7) All parties may testify, present evidence or comment on the issues.

(8) All testimony of the parties and witnesses will be given under oath or affirmation.

(9) Any party to an appeal will be given an adequate opportunity to be heard and present any pertinent evidence of probative value and to know and rebut by cross-examination or otherwise any other evidence submitted.

(10) The ALJ will direct the order of testimony and rule on the admissibility of evidence.

(11) Oral or written evidence of any nature, whether or not conforming to the legal rules of evidence including hearsay, may be accepted and will be given its proper weight.

(12) Official records of the Department, including reports submitted in connection with any program administered by the Department or other State agency may be included in the record.

(13) The ALJ may request the presentation of and may take such additional evidence as the ALJ deems necessary.

(14) The parties, with consent of the ALJ, may stipulate to the facts involved. The ALJ may decide the issues on the basis of such facts or may set the matter for hearing and take such further evidence as deemed necessary to determine the issues.

(15) The ALJ may require portions of the evidence be transcribed as necessary for rendering a decision.

(16) Unless the client requests a continuance, the decision of the ALJ will be issued within 60 days of the date on which the client requests a hearing.

(17) A decision of the ALJ which results in a reversal of the Department decision shall be complied with within 10 days of the issuance of the decision.

R986-100-129. Rescheduling or Continuance of Hearing.

(1) The ALJ may adjourn, reschedule, continue or reopen a hearing on the ALJ's own motion or on the motion of the client or the Department.

(2) If a party knows in advance of the hearing that they will be unable to proceed with or participate in the hearing on the date or time scheduled, the party must request that the hearing be rescheduled or continued to another day or time.

(a) The request must be received prior to the hearing.

(b) The request must be made orally or in writing to the ALJ who is scheduled to hear the case. If the request is not received prior to the hearing, the party must show cause for failing to make a timely request.

(c) The party making the request must show cause for the request.

(d) Normally, a party will not be granted more than one request for a continuance.

(3) The rescheduled hearing must be held within 30 days of the original hearing date.

R986-100-130. Default Order or Dismissal for Failure to Participate.

(1) The Department will issue a default order if an obligor in an IPV or IPV overpayment case fails to participate in the administrative process. Participation for an obligor means:

(a) signing and returning to the Department an approved

stipulation for repayment and making all of the payments as agreed,

- (b) requesting and participating in a hearing, or
- (c) paying the overpayment in full.

(2) If a hearing has been scheduled at the request of a client or an obligor in a case not involving an IPV and the client or obligor fails to appear at or participate in the hearing, either in person or through a representative, the ALJ will, unless a continuance or rescheduling has been requested, dismiss the request for a fair hearing.

(3) A default order will be based on the record and best evidence available at the time of the order.

R986-100-131. Setting Aside A Default or Dismissal and/or Reopening the Hearing After the Hearing Has Been Concluded.

(1) Any party who fails to participate personally or by authorized representative as defined in R986-100-130 may request that the default order or dismissal be set aside and a hearing or a new hearing be scheduled. If a party failed to participate in a hearing but no decision has yet been issued, the party may request that the hearing be reopened.

(2) The request must be in writing, must set forth the reason for the request and must be mailed, faxed or delivered to the ALJ or presiding officer who issued the default order or dismissal within ten days of the issuance of the default or dismissal. If the request is made after the expiration of the ten-day time limit, the party requesting reopening must show good cause for not making the request within ten days.

(3) The ALJ has the discretion to schedule a hearing to determine if a party requesting that a default order or dismissal be set aside or a reopening satisfied the requirements of this rule or may grant or deny the request on the basis of the record in the case.

(4) If a presiding officer issued the default or dismissal, the officer shall forward the request to the Division of Adjudication. The request will be assigned to an ALJ who will then determine if the party requesting that the default or dismissal be set aside or that the hearing be reopened has satisfied the requirements of this rule.

(5) The ALJ may, on his or her own motion, reschedule, continue or reopen a case if it appears necessary to take continuing jurisdiction based on a mistake as to facts or if the denial of a hearing would be an affront to fairness. A presiding officer may, on his or her own motion, set aside a default or dismissal on the same grounds.

(6) If a request to set aside the default or dismissal or a request for reopening is not granted, the ALJ will issue a decision denying the request to reopen. A copy of the decision will be given or mailed to each party, with a clear statement of the right of appeal or judicial review. A defaulted party may appeal a denial of a request to set aside a default or dismissal by following the procedure in R986-100-135. The appeal can only contest the denial of the request to set aside the default and not the underlying merits of the case. If the default or dismissal is set aside on appeal, the Executive Director or designee may rule on the merits or remand the case to an ALJ for a ruling on the merits on an additional hearing if necessary.

R986-100-132. What Constitutes Grounds to Set Aside a Default or Dismissal.

(1) A request to reopen or set aside for failure to participate:

(a) will be granted if the party was prevented from participating and/or appearing at the hearing due to circumstances beyond the party's control;

(b) may be granted upon such terms as are just for any of the following reasons: mistake, inadvertence, surprise, excusable neglect or any other reason justifying relief from the operation

of the decision. The determination of what sorts of neglect will be considered excusable is an equitable one, taking into account all of the relevant circumstances including:

(i) the danger that the party not requesting reopening will be harmed by reopening,

(ii) the length of the delay caused by the party's failure to participate including the length of time to request reopening,

(iii) the reason for the request including whether it was within the reasonable control of the party requesting reopening,

(iv) whether the party requesting reopening acted in good faith, and

(v) whether the party was represented by another at the time of the hearing. Because they are required to know and understand Department rules, attorneys and professional representatives are held to a higher standard, and

(vi) whether based on the evidence of record and the parties arguments or statements, setting aside the default and taking additional evidence might effect the outcome of the case.

(2) Requests to reopen or set aside are remedial in nature and thus must be liberally construed in favor of providing parties with an opportunity to be heard and present their case. Any doubt must be resolved in favor of granting reopening.

R986-100-133. Canceling an Appeal and Hearing.

When a client notifies the Division of Adjudication or the ALJ that the client wants to cancel the hearing and not proceed with the appeal, a decision dismissing the appeal will be issued. This decision will have the effect of upholding the Department decision. The client will have ten days in which to reinstate the appeal by filing a written request for reinstatement with the Division of Adjudication.

R986-100-134. Payments of Assistance Pending the Hearing.

(1) A client is entitled to receive continued assistance pending a hearing contesting a Department decision to reduce or terminate food stamps or RRP financial assistance if the client's request for a hearing is received no later than 10 days after the date of the notice of the reduction, or termination. The assistance will continue unless the certification period expires until a decision is issued by the ALJ. If the certification period expires while the hearing or decision is pending, assistance will be terminated. If a client becomes ineligible or the assistance amount is reduced for another reason pending a hearing, assistance will be terminated or reduced for the new reason unless a hearing is requested on the new action.

(2) If the client can show good cause for not requesting the hearing within 10 days of the notice, assistance may be continued if the client can show good cause for failing to file in a timely fashion. Good cause in this paragraph means that the delay in filing was due to circumstances beyond the client's control or for circumstances which were compelling and reasonable. Because the Department allows a client to request a hearing by telephone or mail, good cause does not mean illness, lack of transportation or temporary absence.

(3) A client can request that payment of assistance not be continued pending a hearing but the request must be in writing.

(4) If payments are continued pending a hearing, the client is responsible for any overpayment in the event of an adverse decision.

(5) If the decision of the ALJ is adverse to the client, the client is not eligible for continued assistance pending any appeal of that decision.

(6) If a decision favorable to the client is rendered after a hearing, and payments were not made pending the decision, retroactive payment will be paid back to the date of the adverse action if the client is otherwise eligible.

(7) Financial assistance payments under FEP, FEPTP, GA or WTE, and CC subsidies will not continue during the hearing process regardless of when the appeal is filed.

(8) Financial assistance under the RRP will not extend for longer than the eight-month time limit for that program under any circumstances.

(9) Assistance is not allowed pending a hearing from a denial of an application for assistance.

R986-100-135. Further Appeal From the Decision of the ALJ or Presiding Officer.

Either party has the option of appealing the decision of the ALJ or presiding officer to either the Executive Director or person designated by the Executive Director or to the District Court. The appeal must be filed, in writing, within 30 days of the issuance of the decision of the ALJ or presiding officer. If a request for a fair hearing is not timely filed under R986-100-123, there are no further appeal rights.

R986. Workforce Services, Employment Development.**R986-700. Child Care Assistance.****R986-700-701. Authority for Child Care Assistance (CC) and Other Applicable Rules.**

(1) The Department administers Child Care Assistance (CC) pursuant to the authority granted in Section 35A-3-310.

(2) Rule R986-100 applies to CC except as noted in this rule.

(3) Applicable provisions of R986-200 apply to CC, except as noted in this rule or where in conflict with this rule.

R986-700-702. General Provisions.

(1) CC is provided to support employment.

(2) CC is available, as funding permits, to the following clients who are employed or are participating in activities that lead to employment:

(a) parents;

(b) specified relatives; or

(c) clients who have been awarded custody or appointed guardian of the child by court order and both parents are absent from the home. If there is no court order, an exception can be made on a case by case basis in unusual circumstances by the Department program specialist.

(3) Child care is provided only for children living in the home and only during hours when neither parent is available to provide care for the children.

(4) If a client is eligible to receive CC, the following children, living in the household unit, are eligible:

(a) children under the age of 13; and

(b) children up to the age of 18 years if the child;

(i) meets the requirements of rule R986-700-717, and/or

(ii) is under court supervision.

(5) Clients who qualify for child care services will be paid if and as funding is available. When the child care needs of eligible applicants exceed available funding, applicants will be placed on a waiting list. Eligible applicants on the list will be served as funding becomes available. Special needs children, homeless children and FEP or FEPTP eligible children will be prioritized at the top of the list and will be served first. "Special needs child" is defined in rule R986-700-717.

(6) The amount of CC might not cover the entire cost of care.

(7) A client is only eligible for CC if the client has no other options available for child care. The client is encouraged to obtain child care at no cost from a parent, sibling, relative, or other suitable provider. If suitable child care is available to the client at no cost from another source, CC cannot be provided.

(8) CC can only be provided for an eligible provider and will not be provided for illegal or unsafe child care. Illegal child care is care provided by any person or facility required to be licensed or certified but where the provider has not fulfilled the requirements necessary to obtain the license or certification.

(9) CC will not be paid to a client for the care of his or her own child(ren) unless the client is working for an approved child care center. This includes clients who have an ownership interest in the child care center. CC will not be paid to a client for the care of his or her own child(ren) if the client is a stockholder, officer, director, partner, manager or members of a corporation, partnership, limited liability partnership or company or similar legal entity.

(10) Neither the Department nor the state of Utah is liable for injuries that may occur when a child is placed in child care even if the parent receives a subsidy from the Department.

(11) Foster care parents receiving payment from the Department of Human Services are not eligible to receive CC for the foster children.

(12) Once eligibility for CC has been established, eligibility must be reviewed at least once every six months. The review is not complete until the client has completed, signed and

returned all necessary review forms to the local office. All requested verifications must be provided at the time of the review. If the Department has reason to believe the client's circumstances have changed, affecting either eligibility or payment amount, the Department will reduce or terminate CC even if the certification period has not expired.

R986-700-703. Client Rights and Responsibilities.

In addition to the client rights and responsibilities found in R986-100, the following client rights and responsibilities apply:

(1) A client has the right to select the type of child care which best meets the family's needs.

(2) If a client requests help in selecting a provider, the Department will refer the client to the local Child Care Resource and Referral agency.

(3) A client is responsible for monitoring the child care provider. The Department will not monitor the provider.

(4) A client is responsible to pay all costs of care charged by the provider. If the child care assistance payment provided by the Department is less than the amount charged by the provider, the client is responsible for paying the provider the difference.

(5) The only changes a client must report to the Department within ten days of the change occurring are:

(a) that the household's gross monthly income exceeds the percentage of the state median income as determined by the Department in R986-700-710(3);

(b) that the client is no longer in an approved training or educational program;

(c) if the client's and/or child's schedule changes so that child care is no longer needed during the hours of approved employment and/or training activities;

(d) that the client does not meet the minimum work requirements of an average of 15 hours per week or 15 and 30 hours per week when two parents are in the household and it is expected to continue;

(e) the client is separated from his or her employment;

(f) a change of address;

(g) any of the following changes in household composition; a parent, stepparent, spouse, or former spouse moves into the home, a child receiving child care moves out of the home, or the client gets married; or

(h) a change in the child care provider, including when care is provided at no cost.

(6) If a material change which would result in a decrease in the amount of the CC payment is reported within 10 days, the decrease will be made effective beginning the next month and sums received in the month in which the change occurred will not be treated as an overpayment. If it is too late to make the change to the next month's CC payment, the client is responsible for repayment even if the 10 days for reporting the change has not expired. If the client fails to report the change within 10 days, the decrease will occur as soon as the Department learns of the change and the overpayment will be assessed back to the date of the change.

(7) A client is responsible for payment to the Department of any overpayment made in CC.

(8) If the client has failed to provide all necessary information and the child care provider requests information about payment of CC to the client, the Department is authorized to inform the provider that further information is needed before payment can be determined.

(9) The Department may also release the following information to the designated provider:

(a) limited information regarding the status of a CC payment including that no payment was issued or services were denied;

(b) information contained on the Form 980;

(c) the date the child care subsidy was issued;

- (d) the subsidy amount for that provider;
 - (e) the subsidy deduction amount;
 - (f) the date a two party check was mailed to the client;
 - (g) a copy of the two party check on a need to know basis;
- and
- (h) the month the client is scheduled for review or reestablishment.

(10) Unused child care funds issued on the client's electronic benefit transfer (EBT) card will be removed from ("aged off") the EBT card 90 days after those funds were deposited onto the EBT card. Aged off funds will no longer be available to the client.

R986-700-704. Establishment of Paternity.

The provisions of rules R986-100 and R986-200 pertaining to cooperation with ORS in the establishment of paternity and collection of child support do not apply to ES CC.

R986-700-705. Eligible Providers and Provider Settings.

(1) The Department will only pay CC to clients who select eligible providers. The only eligible providers are:

- (a) licensed and accredited providers:
 - (i) licensed homes;
 - (ii) licensed family group homes; and
 - (iii) licensed child care centers.
- (b) license exempt providers who are not required by law to be licensed and are either:
 - (i) license exempt centers. Beginning March 1, 2014 at least one person who is trained in first aid and infant/child CPR must be with the children at all times including when the children are being transported in a vehicle. Centers approved to receive CC subsidies as of March 1, 2014 will be allowed 30 days from the date of notification from the Department of Health, Child Care Licensing (CCL) to submit a complete application together with certification of completion of these requirements; or
 - (ii) related to at least one of the children for whom CC is provided. Related under this paragraph means: siblings who are at least 18 years of age and who live in a different residence than the parent, grandparents, step grandparents, aunts, step aunts, uncles, step uncles or people of prior generations of grandparents, aunts, or uncles, as designated by the prefix grand or, great, or persons who meet any of the above relationships even if the marriage has been terminated. Beginning October 1, 2014 this category of child care provider will be replaced with DWS Family, Friend and Neighbor approved providers (FFN). The requirements for FFN approval are provided in subsection (7) of this section and in Department policy.
- (c) homes with a Residential Certificate obtained from CCL.
- (2) The Department may, on a case by case basis, grant an exception and pay for CC when an eligible provider is not available:
 - (a) within a reasonable distance from the client's home. A reasonable distance, for the purpose of this exception only, will be determined by the transportation situation of the parent and child care availability in the community where the parent resides;
 - (b) because a child in the home has special needs which cannot be otherwise accommodated; or
 - (c) which will accommodate the hours when the client needs child care.
 - (d) However, the child's sibling, living in the same home, can never be approved even under the exceptions in this subsection.
- (3) If an eligible provider is available, an exception may be granted in the event of unusual or extraordinary circumstances but only with the approval of a Department supervisor.
- (4) If an exception is granted under paragraph (2) or (3)

above, the exception will be reviewed at each of the client's review dates to determine if an exception is still appropriate.

(5) License exempt providers must register with the Department and agree to maintain minimal health and safety criteria by signing a certification before payment to the client can be approved. The minimum criteria are that:

- (a) the provider be at least 18 years of age and be legally able to work in the United States;
- (b) the provider's home is clean and safe from hazardous items which could cause injury to a child. This applies to outdoor areas as well;
- (c) there are working smoke detectors where children are provided care;
- (d) the provider and all individuals 12 years old or older living in the home where care is provided submit to and pass a background check as provided in R986-700-751 et seq.;
- (e) there is a telephone in operating condition with a list of emergency numbers;
- (f) food will be provided to the child in care. Food supplies will be maintained to prevent spoilage or contamination;
- (g) the child in care will be immunized as required for children in licensed day care and;
- (h) good hand washing practices will be maintained to discourage infection and contamination.
- (6) The following providers are not eligible for receipt of a CC payment:
 - (a) a member of a household assistance unit who is receiving one or more of the following assistance payments: FEP, FEPTP, diversion assistance or food stamps for any child in that household assistance unit. The person may, however, be paid as a provider for a child in a different household assistance unit;
 - (b) a sibling of the child living in the home;
 - (c) household members whose income must be counted in determining eligibility for CC;
 - (d) a parent, foster care parent, stepparent or former stepparent, even if living in another residence;
 - (e) illegal aliens;
 - (f) persons under age 18;
 - (g) a provider providing care for the child in another state;
 - (h) a provider who has committed an IPV as a provider, or as a recipient of any funds from the Department, as determined by the Department or by a court. The disqualification for an IPV will remain in effect until the IPV disqualification period has run and the provider is otherwise eligible including meeting the requirements of background checks under R986-700-753;
 - (i) any provider disqualified under R986-700-718;
 - (j) a provider who does not cooperate with a Department investigation of a potential overpayment;
 - (k) a provider living in the same home as the client unless one of the exceptions in subsection (2) of this section are met; or
 - (l) a provider whose child care subsidies are being taken pursuant to an IRS levy or garnishment.
- (7) FFN providers, as provided in subsection (1)(b), will not be approved for a CC subsidy payment unless all of the following requirements have been successfully completed:
 - (a) complete, sign and submit an application to the CCL;
 - (b) provide a copy of a certificate of completion of New Provider orientation and agree to comply with Department requirements and policy as explained in the orientation;
 - (c) provide a copy of a fire clearance from the State Fire Marshal or designated local fire authority.
 - (d) pass a home inspection as provided in Department policy,
 - (e) complete an infant/child CPR training,
 - (f) complete first aid training and,
 - (g) pass a background check as required in R986-700-751

et seq.

(8) CC providers that have been approved as a license exempt provider, or apply to be an FFN approved provider will be given a grace period to complete the requirements in subsection (7) of this section as follows:

(a) the provider or applicant will be allowed up to 60 days from notification from CCL and no later than September 30, 2014 to submit a complete application to CCL together with a certification of completion of infant/child CPR training and first aid training;

(b) all requirements in subsection (7) of this section must be completed by August 31, 2014 to prevent a delay in future benefits and no later than September 30, 2014;

(c) the provider will be denied if the requirements are not met within the due dates given. After the grace period expires, all providers will be required to obtain an FFN approval and meet all requirements before being approved to care for children receiving a Department subsidy payment;

(d) an approved FFN approved provider is authorized to provide care for a limited number of children or families as defined in Department policy.

R986-700-706. Provider Rights and Responsibilities.

(1) Providers assume the responsibility to collect payment for child care services rendered. Neither the Department nor the state of Utah assumes responsibility for payment to providers.

(2) A provider may not charge clients receiving a CC subsidy a higher rate than their customers who do not receive a CC subsidy.

(3) Providers must keep accurate records of subsidized child care payments, time and attendance. The Department has the right to investigate child care providers and audit their records. Time and attendance records for all subsidized clients must be kept for at least one year. If a provider fails to cooperate with a Department investigation or audit, or fails to keep records for one year, the provider will no longer be an approved provider.

(4) If a provider accepts payment from funds provided by the Department for services which were not provided, the provider may be referred for criminal prosecution and will no longer be an approved provider following the procedure outlined in section R986-700-718. This is true even if the funds were authorized under R986-700-718.

(5) If an overpayment is established and it is determined that the provider was at fault in the creation of the overpayment, the provider is responsible for repayment of the overpayment.

(6) Records will be kept by the Department for individuals who are not approved providers and against whom a referral or complaint is received.

R986-700-707. Subsidy Deduction and Transitional Child Care.

(1) "Subsidy deduction" means a dollar amount which is deducted from the standard CC subsidy for Employment Support CC. The deduction is determined on a sliding scale and the amount of the deduction is based on the parent(s) countable earned and unearned income and household size.

(2) The parent is responsible for paying the amount of the subsidy deduction directly to the child care provider.

(3) If the subsidy deduction exceeds the actual cost of child care, the family is not eligible for child care assistance.

(4) The full monthly subsidy deduction is taken even if the client receives CC for only part of the month.

(5) There is no subsidy deduction during transitional child care. Transitional child care is available during the six months immediately following a FEP or FEPTP termination if the termination was due to increased income and the parent is otherwise eligible for ESCC. The subsidy deduction will resume in the seventh month after the termination of FEP or

FEPTP. The six month time limit is the same regardless of whether the client receives TCA or not.

(6) A client does not need to fill out a new application for child care during the six month transitional period even if there is a gap in services during those six months.

R986-700-708. FEP CC.

(1) FEP CC may be provided to clients receiving financial assistance from FEP or FEPTP. FEP CC will only be provided to cover the hours a client needs child care to support the activities required by the employment plan. FEP CC is not subject to the subsidy deduction.

(2) Additional time for travel may be included on a case by case basis when circumstances create a hardship for the client because the required activities necessitate travel of distances taking at least one hour each way.

R986-700-709. Employment Support (ES) CC.

(1) Parents who are not eligible for FEP CC may be eligible for Employment Support (ES) CC. To be eligible, a parent must be employed or be employed while participating in educational or training activities. Work Study is not considered employment. A parent who attends school but is not employed at least 15 hours per week, is not eligible for ES CC. ES CC will only be provided to cover the hours a client needs child care for work or work and approved educational or training activities.

(2) If the household has only one parent, the parent must be employed at least an average of 15 hours per week.

(3) If the family has two parents, CC can be provided if:

(a) one parent is employed at least an average of 30 hours per week and the other parent is employed at least an average of 15 hours per week and their work schedules cannot be changed to provide care for the child(ren). CC will only be provided during the time both parents are in approved activities and neither is available to care for the children; or

(b) one parent is employed and the other parent cannot work, or is not capable of earning \$500 per month and cannot provide care for their own children because of a physical, emotional or mental incapacity. Any employment or educational or training activities invalidate a claim of incapacity. The incapacity must be expected to last 30 days or longer. The individual claiming incapacity must verify that incapacity in one of the following ways:

(i) receipt of disability benefits from SSA;

(ii) 100% disabled by VA; or

(iii) by submitting a written statement from:

(A) a licensed medical doctor;

(B) a doctor of osteopathy;

(C) a licensed Mental Health Therapist as defined in UCA 58-60-102;

(D) a licensed Advanced Practice Registered Nurse; or

(E) a licensed Physician's Assistant.

(4) Employed or self-employed parent client(s) must make, either through wages or profit from self-employment, a rate of pay equal to or greater than minimum wage multiplied by the number of hours the parent is working. To be eligible for ES CC, a self-employed parent must provide business records for the most recent three month time period to establish that the parent is likely to make at least minimum wage. If a parent has a barrier to other types of employment, exceptions can be made in extraordinary cases with the approval of the state program specialist.

(5) Americorps*Vista is not supported. Job Corps activities are considered to be training and a client in the Job Corps would also have to meet the work requirements to be eligible for ES CC.

(6) Applicants must verify identity but are not required to provide a Social Security Number (SSN) for household

members. Benefits will not be denied or withheld if a customer chooses not to provide a SSN if all factors of eligibility are met. SSN's that are supplied will be verified. If an SSN is provided but is not valid, further verification will be requested to confirm identity.

R986-700-710. Income Limits for ES CC.

(1) Rule R986-200 is used to determine:

(a) who must be included in the household assistance unit for determining whose income must be counted to establish eligibility. In some circumstances, determining household composition for a ES CC household is different from determining household composition for a FEP or FEPTP household. ES CC follows the parent and the child, not just the child so, for example, if a parent in the household is ineligible, the entire ES CC household is ineligible. A specified relative may not opt out of the household assistance unit when determining eligibility for CC. The income of the specified relatives needing ES CC in the household must be counted. For ES CC, only the income of the parent/client is counted in determining eligibility regardless of who else lives in the household. If both parents are living in the household, the income of both parents is counted. Recipients of SSI benefits are included in the household assistance unit.

(b) what is counted as income except:

(i) the earned income of a minor child who is not a parent is not counted;

(ii) child support, including in kind child support payments, is counted as unearned income, even if it exceeds the court or ORS ordered amount of child support, if the payments are made directly to the client. If the child support payments are paid to a third party, only the amount up to the court or ORS ordered child support amount is counted; and

(iii) earned and unearned income of SSI recipients is counted with the exception of the SSI benefit.

(c) how to estimate income.

(2) The following income deductions are the only deductions allowed on a monthly basis:

(a) the first \$50 of child support received by the family;

(b) court ordered and verified child support and alimony paid out by the household;

(c) \$100 for each person with countable earned income; and

(d) a \$100 medical deduction. The medical deduction is automatic and does not require proof of expenditure.

(3) The household's countable income, less applicable deductions in paragraph (2) above, must be at, or below, a percentage of the state median income as determined by the Department. The Department will make adjustments to the percentage of the state median income as funding permits. The percentage currently in use is available at the Department's administrative office.

(4) Charts establishing income limits and the subsidy deduction amounts are available at all local Department offices.

(5) An independent living grant paid by DHS to a minor parent is not counted as income.

R986-700-711. ES CC to Support Education and Training Activities.

(1) CC may be provided when the client(s) is engaged in education or training and employment, provided the client(s) meet the work requirements under Section R986-700-709(1).

(2) The education or training is limited to courses that directly relate to improving the parent(s)' employment skills.

(3) ES CC will only be paid to support education or training activities for a total of 24 calendar months. The months need not be consecutive.

(a) On a case by case basis, and for a reasonable length of time, months do not count toward the 24-month time limit when

a client is enrolled in a formal course of study for any of the following:

(i) obtaining a high school diploma or equivalent,

(ii) adult basic education, and/or

(iii) learning English as a second language.

(b) Months during which the client received FEP child care while receiving education and training do not count toward the 24-month time limit.

(c) CC can not ordinarily be used to support short term workshops unless they are required or encouraged by the employer. If a short term workshop is required or encouraged by the employer, and approved by the Department, months during which the client receives child care to attend such a workshop do not count toward the 24- month time limit.

(4) Education or training can only be approved if the parent can realistically complete the course of study within 24 months.

(5) Any child care assistance payment made for a calendar month, or a partial calendar month, counts as one month toward the 24-month limit.

(6) There are no exceptions to the 24-month time limit, and no extensions can be granted.

(7) CC is not allowed to support education or training if the parent already has a bachelor's degree.

(8) CC cannot be approved for graduate study or obtaining a teaching certificate if the client already has a bachelor's degree.

R986-700-712. CC for Certain Homeless Families.

(1) CC can be provided for homeless families with one or two parents when the family meets the following criteria:

(a) The family must present a referral for CC from an agency known by the local office to be an agency that works with homeless families, including shelters for abused women and children. This referral will serve as proof of their homeless state. Local offices will provide a list of recognized homeless agencies in local office area.

(b) The family must show a need for child care to resolve an emergency crisis.

(c) The family must meet all other relationship and income eligibility criteria.

(2) CC for homeless families is only available for up to three months in any 12-month period. When a payment is made for any part of a calendar month, that month counts as one of the three months. The months need not be consecutive.

(3) Qualifying families may use child care assistance for any activity including, but not limited to, employment, job search, training, shelter search or working through a crisis situation.

(4) If the family is eligible for a different type of CC, the family will be paid under the other type of CC.

R986-700-713. Amount of CC Payment.

CC will be paid at the lower of the following levels:

(1) the maximum monthly local market rate as calculated using the Local Market Survey. The Local Market Survey is conducted by the Department and based on the provider category and age of the child. The Survey results are available for review at any Department office through the Department web site on the Internet; or

(2) the rate established by the provider for services; or

(3) the unit cost multiplied by the number of hours approved by the Department. The unit cost is determined by dividing the maximum monthly local market rate by 137.6 hours.

R986-700-714. CC Payment Method.

(1) CC payments to parents will be generated monthly by a two-party check issued in the parent's name and the chosen

provider's name, except as noted in paragraph (2) below. The check is mailed to the client.

(2) CC payments will be made by electronic benefit transfer (EBT) either through a point of sale (POS) machine or interactive voice recording (IVR) system to authorized provider types as determined by the Department. The provider may elect which option of EBT to use. The provider must complete the application process and sign an agreement with the Department's contractor in order to be eligible to receive CC payments. If the provider elects to use the POS method of payment, the provider must lease a POS machine at the provider's own expense. Providers that completed the application process prior to August 1, 2011 need to provide additional information to the Department contractor. If the provider does not provide this additional information, the provider will not be eligible for CC payments as of January 1, 2012.

(3) In the event that a check is reported as lost or stolen, both the parent and the provider are required to sign a statement that they have not received funds from the original check before a replacement check can be issued. The check must be reported as lost or stolen within 60 days of the date the check was mailed. The statement must be signed on an approved Department form and the signing witnessed, and in some cases notarized, at a local office of the Department. If the provider is unable to come into a Department office to sign the form, the form may be accepted if the signature is notarized. If the original check has been redeemed, a copy of the check will be reviewed and both the parent and provider must provide a sworn, notarized statement that the signature on the endorsed check is a forgery. The Department may require a waiting period prior to issuing a replacement check.

(4) The Department is authorized to stop payment on a CC check without prior notice to the client if:

(a) the Department has determined that the client was not eligible for the CC payment, the Department has confirmed with the child care provider that no services were provided for the month in question or the provider cannot be located, and the Department has made an attempt to contact the parent; or

(b) when the check has been outstanding for at least 90 days; or

(c) the check is lost or stolen.

(5) No stop payment will be issued by the Department without prior notice to the provider unless the provider is not providing services or cannot be contacted.

R986-700-715. Overpayments.

(1) An overpayment occurs when a client or provider received CC for which they were not eligible. If the Department fails to establish one or more of the eligibility criteria and through no fault of the client, payments are made, it will not be considered to have been an overpayment if the client would have been eligible and the amount of the subsidy would not have been affected.

(2) If the overpayment was because the client committed an IPV as defined in R986-100-117, including forging a provider's name on a two party CC check, the client will be responsible for repayment of the resulting overpayment and will be disqualified from further receipt of CC:

- (a) for a period of one year for the first IPV;
- (b) for a period of two years for the second IPV; and
- (c) for life for the third IPV.

(3) If the client was at fault in the creation of an overpayment for any reason other than an IPV as provided in paragraph (2) above, the client will be responsible for repayment of the overpayment. There is no disqualification or ineligibility period for a fault overpayment.

(4) All CC overpayments must be repaid to the Department.

Overpayments may be deducted from ongoing CC

payments for clients who are receiving CC. If the Department is at fault in the creation of an overpayment, the Department will deduct \$10 from each month's CC payment unless the client requests a larger amount.

(5) CC will be terminated if a client fails to cooperate with the Department's efforts to investigate alleged overpayments.

(6) If the Department has reason to believe an overpayment has occurred and it is likely that the client will be determined to be disqualified or ineligible as a result of the overpayment, payment of future CC may be withheld, at the discretion of the Department, to offset any overpayment which may be determined.

R986-700-716. CC in Unusual Circumstances.

(1) CC may be provided for study time, to support clients in education or training activities if the parent has classes scheduled in such a way that it is not feasible or practical to pick up the child between classes. For example, if a client has one class from 8:00 a.m. to 9:00 a.m. and a second class from 11:00 a.m. to noon it might not be practical to remove the child from care between 9:00 a.m. and 11:00 a.m.

(2) An away-from-home study hall or lab may be required as part of the class course. A client who takes courses with this requirement must verify study hall or lab class attendance. The Department will not approve more study hall hours or lab hours in this setting than hours for which the client is enrolled in school. For example: A client enrolled for ten hours of classes each week may not receive more than ten hours of this type of study hall or lab.

(3) CC will not be provided for private kindergarten or preschool activities when a publicly funded education program is available.

(4) CC may be authorized to support employment for clients who work graveyard shifts and need child care services during the day for sleep time. If no other child care options are available, child care services may be authorized for the graveyard shift or during the day, but not for both. A maximum of six hours per day will be approved for sleep time.

(5) CC may be authorized to support employment for clients who work at home, provided the client makes at least minimum wage from the at home work, and the client has a need for child care services. The client must choose a provider setting outside the home.

(6) CC with an provider that is not licensed, accredited, certified, or a licensed exempt center will not be approved between the hours of 12 midnight and 6 a.m. except;

- (a) for a child under the age of 24 months old,
- (b) to accommodate a special needs child, or
- (c) under unusual circumstances and then only if approved

by the Department program specialist on a case by case basis.

R986-700-717. Child Care for Children With Disabilities or Special Needs.

(1) The Department will fund child care for children with disabilities or special needs at a higher rate if the child has a physical, social, or mental condition or special health care need that requires;

- (a) an increase in the amount of care or supervision and/or
- (b) special care, which includes but is not limited to the use of special equipment, assistance with movement, feeding, toileting or the administration of medications that require specialized procedures.

(2) To be eligible under this section, the client must submit a statement from one of the professionals listed in rule R986-700-709(3)(b)(ii) or one of the following agencies documenting the child's disability or special child care needs;

(a) Social Security Administration showing that the child is a SSI recipient,

(b) Division of Services for People with Disabilities,

- (c) Division of Mental Health,
 - (d) State Office of Education, or
 - (e) Baby Watch, Early Intervention Program.
- (3) Verification to support that the child is disabled or has a special need must be dated and signed by the preparer and include the following:
- (a) the child's name,
 - (b) a description of the child's disability, and
 - (c) the special provisions that justify a higher payment rate.
- (4) The Department may require additional information and may deny requests if adequate or complete information or justification is not provided.
- (5) The higher rate is available through the month the child turns 18 years of age.
- (6) Clients qualify for child care under this section if the household is at or below 85% of the state median income.
- (7) The higher rate in effect for each child care category is available at any Department office.

R986-700-718. Provider Disqualification.

- (1) A child care provider removing child care subsidy funds from a client's account by way of electronic benefit transfer (EBT) and interactive voice response (IVR), can only remove those funds from a client's account that are authorized by the Department for that provider. All providers receiving payment for child care services through an EBT may learn the exact amount authorized for that provider for each client by accessing the Department's Provider Payment Authorization website. Providers who remove more funds than authorized will be required to reimburse the Department for the excess funds and will be disqualified from receipt of further CC subsidy funds as follows:
- (a) if the provider has never removed unauthorized CC subsidy funds before, the Department will send a notice of agency action to the provider's last known address informing the provider of the unauthorized access and establishing an overpayment in the amount of the excess funds. If the provider repays the overpayment within six months of the date of the notice of agency action, no further action will be taken on that overpayment. If the provider does not repay the overpayment in full within six months of the notice of agency action the overpayment will become an IPV and the provider will be disqualified as a provider for one year;
 - (b) if the provider removes funds in excess of those authorized by the Department a subsequent time, there is no outstanding balance on any previous provider overpayment and the provider has never been disqualified, the subsequent overpayment is treated as a first overpayment. The provider will be given six months from the notice of agency action to repay the overpayment under these circumstances. If the subsequent overpayment is not repaid in full within six months of the notice of agency action, the provider will be disqualified for one year. If the provider was previously disqualified, the provider will be given 30 days from the notice of agency action to repay all outstanding overpayments in full, including all prior and subsequent overpayments. If the overpayment/s is/are not paid within 30 days, the provider will be disqualified for a period of two years. If the provider has never been disqualified but has a balance due on a previous overpayment, the provider will be given six months to repay the overpayment but may be disqualified if the first overpayment is not paid in time.
 - (c) a CC provider that removes unauthorized funds after having been disqualified for a two year period due to unauthorized removal of funds in paragraph (1)(b) of this subsection will be given 30 days from the notice of agency action to repay all outstanding overpayments in full. If the overpayment/s is not paid in full within 30 days, the provider will be permanently disqualified.

(d) each time a provider removes unauthorized funds is a separate offense even if the removal occurs on the same day. If, for instance, a provider removed funds from three separate clients on the same day, it would be three offenses. Likewise, if the provider removed unauthorized funds from the same client three times in different months, it would be three offenses.

(2) Even if CC funds are authorized under this section, a CC provider cannot remove, accept and/or retain funds for any month during which no CC services were provided. If authorized or unauthorized subsidy funds were accepted from a client or removed from a client's account as provided in this section but no CC services were provided during the month, the provider will be required to reimburse the Department for the excess funds and will be disqualified from receipt of further CC subsidy funds in the same manner as provided in subsection (1) of this section.

(3) CC providers disqualified under subsections (1) or (2) of this section will be ineligible for receipt of quality grants awarded by the Department during the period of disqualification.

(4) A CC provider overpayment not paid in full within the time limits specified in subsection (1) of this section will be referred to collection and will be collected in the same manner as all public assistance overpayments. Payment of provider overpayments must be made to the Department and not to the client.

(5) A CC provider may appeal an overpayment or disqualification as provided for public assistance appeals in rule R986-100. Any appeal must be filed in writing within 30 days of the date of the notice of agency action establishing the overpayment or disqualification. A provider who has been found ineligible may continue to receive CC subsidy funds pending appeal until a decision is issued by the ALJ. The disqualification period will take effect even if the provider files an appeal of the decision issued by the ALJ. If the provider fails to file an appeal within 30 days of the date of the notice of agency action and the Department issues a default decision, and the provider files a request to set aside the default, CC subsidy funds will not continue unless or until the default is set aside by the ALJ. If the request to set aside the default is denied, the provider will be disqualified pending appeal of the denial to set aside the default unless the provider is within the six month or 30 day grace period allowed under subsection (1) of this section.

(6) A provider is ineligible for CC subsidy funds after a disqualification until all overpayments established in conjunction with the disqualification have been paid in full even if the disqualification period has ended.

(7) A provider that intentionally breaches any program rule as provided in R986-100-117, except as provided in subsection (1) of this section, or violates CC rule R986-700-706(2) through (5) or who assumes a client's identity in order to gain access to client information or payment of Department funds will be disqualified for one year for the first offense, two years for the second offense and for life for the third offense.

(8) All disqualification periods run consecutively.

(9) A disqualification issued to a provider, including a child care center, under this subsection will follow both the provider, the principal provider, and any successor center or provider.

(a) A "successor" provider, including a child care center, that acquires the business or acquires substantially all of the assets of the provider or child care center. This includes a provider who changes from one status to another like a provider who was disqualified as a licensed family provider who then changes to be a license exempt provider.

(b) "Acquired" means to come into possession of, obtain control of, or obtain the right to use the assets of a business by any legal means including a gift, lease, repossession or purchase. For purposes of succession, a purchase through

bankruptcy court proceedings where assets are being liquidated is not considered an acquisition, if the court places restrictions on the transfer of liabilities to the purchaser. It is not necessary to purchase the assets in order to have acquired the right to their use, nor is it necessary for the predecessor to have actually owned the assets for the successor to have acquired them. The right to the use of the asset is the determining factor.

(c) "Assets" are commonly defined to include any property, tangible or intangible, which has value. Assets may also include the acquisition of the name of the business, customers, accounts receivable, patent rights, goodwill, employees, or an agreement by the predecessor not to compete.

(d) "Substantially all" means acquisition of 90 percent or more of all of the predecessor's assets.

R986-700-751. Background Checks.

(1) Sections R986-700-751 through 756 apply to child care providers identified in Utah Code Section 35A-3-310.5(1).

(2) The provider and each person age 12 years old or older living in the household where the child care is provided must submit to a background check.

(3) If child care is provided in the child's home, a background check must be done on each person age 12 years old or older living in the child's home who is not on the client's child care case.

(4) A client is not eligible for a subsidy if the client chooses a provider and the provider or any person age 12 years old or older living in the household where the child care is provided has:

(a) a supported finding of severe abuse or neglect by the Department of Human Services, a substantiated finding by a Juvenile court under Subsection 78-3a-320 or a criminal conviction related to neglect, physical abuse, or sexual abuse of any person; or

(b) a conviction for an offense as identified in R986-700-754; or

(c) an adjudication in juvenile court of an act which if committed by an adult would be an offense identified in R986-700-754.

R986-700-752. Definitions.

Terms used in the section R986-700-751 through 756 are defined as followed:

(1) "Convicted" includes a conviction by a jury or court, a guilty plea or a plea of no contest, an adjudication in juvenile court or an individual who is currently subjected to a deferred judgment and sentence agreement, a deferred prosecution agreement, a deferred adjudication agreement, or a plea in abeyance.

(2) "Covered Individual" means:

(a) each person providing child care;

(b) all individuals 12 years old or older residing in a residence where child care is provided.

(3) "Supported" means a finding by the Utah Department of Human Services (DHS), at the completion of an investigation by DHS, that there is a reasonable basis to conclude that one or more of the following severe types of abuse or neglect has occurred:

(a) if committed by a person 18 years of age or older;

(i) severe or chronic physical abuse;

(ii) sexual abuse;

(iii) sexual exploitation;

(iv) abandonment;

(v) medical neglect resulting in death, disability, or serious illness;

(vi) chronic or severe neglect; or

(vii) chronic or severe emotional abuse

(b) if committed by a person under the age of 18:

(i) serious physical injury, as defined in Subsection 76-5-109(1)(f) to another child which indicates a significant risk to other children, or

(ii) sexual behavior with or upon another child which indicates a significant risk to other children.

R986-700-753. Criminal Background Screening.

(1) Each client requesting approval of a covered child care provider must submit to the Department a form, which will include a waiver and certification, completed and signed by the child care provider before the client's application for child care assistance can be approved. A fingerprint card and fee, prepared either by the local law enforcement agency or an agency approved by local law enforcement, shall also be submitted unless an exception is granted under subsection (3) of this section. Normally, child care subsidy will not be delayed pending completion of the background check. Beginning October 1, 2014 no child care subsidy will be paid until the background check has been completed where required by law.

(2) The provider must state in writing, based upon the provider's best information and belief, that no covered person, including the provider's own children, has ever been convicted of a felony, misdemeanor or had a supported finding from DHS or a substantiated finding from a juvenile court of severe abuse or neglect of a child. If the provider is aware of any such conviction or supported or substantiated finding, but is not certain it will result in a disqualification, the Department will obtain information from the provider to assess the threat to children. If the provider knowingly makes false representations or material omissions to the Department regarding a covered individual's record, the provider will be responsible for repayment to the Department of the child care subsidy paid by the Department prior to the background check. If a provider signs an attestation, a disqualification based on a covered individual who no longer lives in the home can be cured under certain conditions.

(3) Fingerprint cards are not required if the Department is reasonably satisfied that the covered individual has resided in Utah for the last five years. A fingerprint card may be required, even if the individual has resided in Utah for the last five years, if requested by the Department.

(4) The Department will contract with the Department of Health (DOH) to perform a criminal background screening, which includes a review of the Bureau of Criminal Identification, (BCI) database maintained by the Department of Public Safety pursuant to Part 2 of Chapter 10, Title 53; and if a fingerprint card, waiver and fee are submitted, the Department or DOH will forward the fingerprint card, waiver and fee to the Utah Department of Public Safety for submission to the FBI for a national criminal history record check.

(5) If the Department takes an action adverse to any covered individual based upon the background screening, the Department will send a written decision to the client explaining the action and the right of appeal. DOH will send a denial letter to the provider and the covered individual.

R986-700-754. Exclusion from Child Care Due to Criminal Convictions.

(1) As required by Utah Code Subsection 35A-3-310.5(4), if the criminal conviction was a felony, or is a misdemeanor that is not excluded under paragraphs (2) or (3) below, the covered individual may not provide child care or reside in a home where child care is provided.

(2) As allowed by Utah Code Subsection 35A-3-310.5(5),

the Department hereby excludes the following misdemeanors and determines that a misdemeanor conviction listed below does not disqualify a covered individual from providing child care:

(a) any class B or C misdemeanor offense under Title 32A, Alcoholic Beverage Control Act, except for 32A-12-203, Unlawful sale or furnishing to minors;

(b) any class B or C misdemeanor offense under Title 41, Chapter 6a, Traffic Code except for 41-6a-502, Driving under the influence of alcohol, drugs, or a combination of both or with specified or unsafe blood alcohol concentration, when the individual had a child in the car at the time of the offense;

(j) any class B or C conviction under Chapter 8, Title 76, Offenses Against the Administration of Government, Utah Criminal Code except 76-8-1201 through 1207, Public Assistance Fraud; and 76-8-1301 False statements regarding unemployment compensation;

(vi) 76-10-2301, Contributing to the Delinquency of a Minor and

(m) any class A misdemeanor where the conviction occurred more than ten years ago and the offense would be an excludable offense listed in this section.

(3) The Executive Director or designee may consider and approve individual cases where a covered individual will be allowed to provide child care who would otherwise be excluded by this section.

(4) The Department will rely on the criminal background screening as conclusive evidence of the conviction and the Department may revoke or deny approval for a provider based on that evidence.

(5) If a covered individual causes a provider to be disqualified as a provider based upon the criminal background screening and the covered individual disagrees with the information provided by BCI, the covered individual may challenge the information by contacting BCI directly. If the

information causing the disqualification came from a Utah court, the covered individual must contact that court or seek an expungement as provided in Utah Code Ann. Sections 77-18-10 through 77-18-15.

(6) All child care providers must report all felony and misdemeanor arrests, charges or convictions of covered individuals to DOH within ten calendar days of the arrest, notice of the charge, or conviction. All child care providers must also report a person aged 12 or older moving into the home where child care is provided within ten calendar days of that person moving in. A release for a background check must also be provided for that person within the time requested by the Department or DOH.

R986-700-755. Covered Individuals with Arrests or Pending Criminal Charges.

(1) If the Department determines there exists credible evidence that a covered individual has been arrested or charged with a felony or a misdemeanor that would not be excluded under R986-700-754, the Department will act to protect the health and safety of children in child care that the covered individual may have contact with. The Department may revoke or suspend approval of the provider if necessary to protect the health and safety of children in care.

(2) If the Department denies or revokes approval based upon the arrest or felony or misdemeanor charge, the Department will send a written decision to the client notifying the client that a hearing with the Department may be requested.

(3) The Department may hold the revocation or denial in abeyance until the arrest or felony or nonexempt misdemeanor charge is resolved.

R986-700-756. Exclusion From Child Care Due to Finding of Abuse, Neglect, or Exploitation.

(1) Pursuant to Utah Code Subsection 62A-4a-1005(2)(a)(v) the Department or DOH will screen all covered individuals, including children residing in a home where child care is provided, for a history of a supported finding of severe abuse, neglect, or exploitation from the licensing information system maintained by the Utah Department of Human Services (DHS) and the juvenile court records.

(2) If a covered individual appears on the licensing information system, the threat to the safety and health of children will be assessed. The Department may revoke any existing approval and refuse to permit child care in the home until the Department is reasonably convinced that the covered individual no longer resides in the home.

(3) If the Department denies or revokes approval of a child care subsidy based upon the licensing information system, the Department will send a written decision to the client.

(4) If the DHS determines a covered individual has a supported finding of severe abuse, neglect or exploitation after the Department approves a child care subsidy, the covered individual has ten calendar days to notify DOH. Failure to notify DOH may result in the child care provider being liable for an overpayment for all subsidy amounts paid to the client between the finding and when it is reported or discovered.
